

UFO **HUB**

1
00:00:21,550 --> 00:00:17,800
most recently I have taken on the

2
00:00:25,570 --> 00:00:21,560
project of the Starchild skull it's a

3
00:00:27,460 --> 00:00:25,580
complicated case it's a big case because

4
00:00:29,380 --> 00:00:27,470
the skull has been out there for 16

5
00:00:33,450 --> 00:00:29,390
years under the direction and lead

6
00:00:36,100 --> 00:00:33,460
investigation of Lloyd Pye after his

7
00:00:37,810 --> 00:00:36,110
unfortunate passing it's been two years

8
00:00:39,130 --> 00:00:37,820
since anything has been done with the

9
00:00:41,799 --> 00:00:39,140
skull

10
00:00:46,630 --> 00:00:41,809
the original owner Melanie young has

11
00:00:49,990 --> 00:00:46,640
asked me to reopen this case and to take

12
00:00:52,060 --> 00:00:50,000
a fresh look at the data and see where

13
00:00:54,959 --> 00:00:52,070

we can go with it my favorite thing

14

00:00:59,100 --> 00:00:54,969

about this is being an independent

15

00:01:03,459 --> 00:00:59,110

investigator and looking at this case

16

00:01:07,570 --> 00:01:03,469

completely brand-new what I've decided

17

00:01:11,440 --> 00:01:07,580

to do is to respectfully archive Lloyd's

18

00:01:13,719 --> 00:01:11,450

work for two reasons one it's his

19

00:01:16,540 --> 00:01:13,729

I don't want to hijack any of Lloyd's

20

00:01:20,919 --> 00:01:16,550

great work and his mindset and direction

21

00:01:25,290 --> 00:01:20,929

that will stand on its own however in my

22

00:01:28,059 --> 00:01:25,300

investigation I have a different tactic

23

00:01:30,910 --> 00:01:28,069

basically it's a very forensic minded

24

00:01:34,499 --> 00:01:30,920

very scientific based investigation but

25

00:01:37,690 --> 00:01:34,509

it's also keeping this part of the

26
00:01:41,109 --> 00:01:37,700
reopening of it completely independent

27
00:01:43,779 --> 00:01:41,119
also lends credibility to the scientific

28
00:01:45,729 --> 00:01:43,789
method which is to retest so everything

29
00:01:49,300 --> 00:01:45,739
will have brand new samples everything

30
00:01:51,639 --> 00:01:49,310
will have brand new experts and at this

31
00:01:53,469 --> 00:01:51,649
point we're just gonna let the skull

32
00:01:56,080 --> 00:01:53,479
speak for itself we're gonna let the

33
00:01:57,219 --> 00:01:56,090
scientist make the conclusions I'm not

34
00:02:00,339 --> 00:01:57,229
personally going to make a proclamation

35
00:02:02,169 --> 00:02:00,349
or conclusion at the end of the case I

36
00:02:05,290 --> 00:02:02,179
really believe that science is going to

37
00:02:07,029 --> 00:02:05,300
answer the question this time tens of

38
00:02:10,990 --> 00:02:07,039

thousands of people all over the world

39

00:02:13,240 --> 00:02:11,000

this is a global interest in this little

40

00:02:17,970 --> 00:02:13,250

skull that is truly one-of-a-kind

41

00:02:20,559 --> 00:02:17,980

and for that reason alone people are

42

00:02:22,300 --> 00:02:20,569

continually writing asking for more

43

00:02:24,130 --> 00:02:22,310

information about the skull where is it

44

00:02:26,059 --> 00:02:24,140

going what's going to happen to it since

45

00:02:28,099 --> 00:02:26,069

Lloyd's passing so I

46

00:02:31,640 --> 00:02:28,109

hope they're happy that the research is

47

00:02:33,800 --> 00:02:31,650

going to continue and continue with the

48

00:02:36,890 --> 00:02:33,810

highest respect to Lloyd Pye and his

49

00:02:39,619 --> 00:02:36,900

work that we're going to leave it alone

50

00:02:41,119 --> 00:02:39,629

we're gonna let Boyd have that so I hope

51
00:02:43,490 --> 00:02:41,129
that the public is really going to like

52
00:02:46,819 --> 00:02:43,500
our new direction and understand the

53
00:02:50,720 --> 00:02:46,829
process and why we're taking the in this

54
00:02:53,360 --> 00:02:50,730
specific type direction I was how this

55
00:02:54,229 --> 00:02:53,370
project came to me or the investigation

56
00:02:56,300 --> 00:02:54,239
request

57
00:02:57,699 --> 00:02:56,310
I was speaking out another conference

58
00:03:01,009 --> 00:02:57,709
and at the qat

59
00:03:03,949 --> 00:03:01,019
part of it one of the members or

60
00:03:06,349 --> 00:03:03,959
attendees came up and asked me what I

61
00:03:09,470 --> 00:03:06,359
thought the definitive proof was and

62
00:03:13,849 --> 00:03:09,480
what would be the smoking gun and of

63
00:03:16,280 --> 00:03:13,859

course I said DNA and it wasn't too long

64

00:03:19,429 --> 00:03:16,290

that I see this lady come running down

65

00:03:21,170 --> 00:03:19,439

the aisle literally running very excited

66

00:03:22,759 --> 00:03:21,180

couldn't wait to get to the mic there

67

00:03:25,429 --> 00:03:22,769

was a couple other questions before her

68

00:03:26,929 --> 00:03:25,439

and when it came to her she was very

69

00:03:29,360 --> 00:03:26,939

excited to tell me that she had the DNA

70

00:03:31,490 --> 00:03:29,370

and would like to speak to me after and

71

00:03:35,439 --> 00:03:31,500

of course this is the original owner

72

00:03:37,999 --> 00:03:35,449

Melanie young of the Starchild and she

73

00:03:39,890 --> 00:03:38,009

hadn't shown up to this conference

74

00:03:43,249 --> 00:03:39,900

thinking that they were going to reopen

75

00:03:46,999 --> 00:03:43,259

but I guess after my talk it inspired

76

00:03:47,809 --> 00:03:47,009

her to make a decision and she made it

77

00:03:50,240 --> 00:03:47,819

at that moment

78

00:03:52,999 --> 00:03:50,250

yeah the first steps we wanted to take

79

00:03:55,460 --> 00:03:53,009

in the investigation because the skull

80

00:03:59,270 --> 00:03:55,470

one of the things that is indisputable

81

00:04:01,729 --> 00:03:59,280

is that it is 900 years old so my

82

00:04:03,379 --> 00:04:01,739

thinking of this was to bring it to the

83

00:04:08,149 --> 00:04:03,389

people that actually study and are

84

00:04:11,050 --> 00:04:08,159

accredited experts on ancient cultures

85

00:04:14,599 --> 00:04:11,060

of ancient peoples so I contacted

86

00:04:18,620 --> 00:04:14,609

paleontologists anthropologists museums

87

00:04:21,920 --> 00:04:18,630

that kept ancient remains such as

88

00:04:24,260 --> 00:04:21,930

mastodons and so we took a trek down to

89

00:04:27,709 --> 00:04:24,270

mount blanco museum in crosby to texas

90

00:04:31,040 --> 00:04:27,719

and had a few experts come in and

91

00:04:33,800 --> 00:04:31,050

discuss the skull we had one of the

92

00:04:36,980 --> 00:04:33,810

nation's probably one of the most

93

00:04:38,020 --> 00:04:36,990

prominent paleontologists come in which

94

00:04:40,240 --> 00:04:38,030

is the

95

00:04:42,190 --> 00:04:40,250

dentals have to be high this is a

96

00:04:44,980 --> 00:04:42,200

one-of-a-kind skull it is truly

97

00:04:47,950 --> 00:04:44,990

one-of-a-kind in the whole world there's

98

00:04:51,370 --> 00:04:47,960

never been another skull discovered that

99

00:04:55,750 --> 00:04:51,380

have this type of observable differences

100

00:04:58,210 --> 00:04:55,760

from a normal human skull so everything

101
00:05:02,850 --> 00:04:58,220
we do has to be not only above board but

102
00:05:05,620 --> 00:05:02,860
top notch after we studied through

103
00:05:08,110 --> 00:05:05,630
paleontologist point of view which he

104
00:05:10,560 --> 00:05:08,120
took calipers that we did measurements

105
00:05:15,010 --> 00:05:10,570
you know a lot of photographs of course

106
00:05:16,360 --> 00:05:15,020
casting a skull for the public this tens

107
00:05:18,880 --> 00:05:16,370
of thousands of people love this skull

108
00:05:21,880 --> 00:05:18,890
so we wanted to make it available for

109
00:05:24,310 --> 00:05:21,890
people that wanted to own a copy of it

110
00:05:27,610 --> 00:05:24,320
which much like the piraka is a long

111
00:05:30,250 --> 00:05:27,620
gated skulls you can purchase copies of

112
00:05:32,410 --> 00:05:30,260
them museum quality copies so we wanted

113
00:05:34,840 --> 00:05:32,420

to do this for the public as well and

114

00:05:38,080 --> 00:05:34,850

there's a huge affection all over the

115

00:05:41,020 --> 00:05:38,090

world for this skull so our next step

116

00:05:43,000 --> 00:05:41,030

was absolutely going to one-of-a-kind

117

00:05:45,070 --> 00:05:43,010

museum there's only two of these in the

118

00:05:48,030 --> 00:05:45,080

world it's called an osteology Museum

119

00:05:52,540 --> 00:05:48,040

and it's located in Oklahoma City and

120

00:05:54,760 --> 00:05:52,550

this museum is incredible and we had

121

00:05:57,280 --> 00:05:54,770

several members of the staff take us

122

00:06:01,210 --> 00:05:57,290

into the back room and this is where we

123

00:06:04,000 --> 00:06:01,220

had the bone specialist the the Aussie

124

00:06:08,400 --> 00:06:04,010

ologist they specialize in skulls bone

125

00:06:11,230 --> 00:06:08,410

and skeletons most most notably

126

00:06:13,390 --> 00:06:11,240

articulated skulls so they completely

127

00:06:16,330 --> 00:06:13,400

understand everything there is to know

128

00:06:18,400 --> 00:06:16,340

about bone being with them was a

129

00:06:20,530 --> 00:06:18,410

remarkable coup because what I didn't

130

00:06:22,900 --> 00:06:20,540

realize was how many comparison samples

131

00:06:26,500 --> 00:06:22,910

this skull has been called a monkey a

132

00:06:29,340 --> 00:06:26,510

dog a mole you know the most almost

133

00:06:32,220 --> 00:06:29,350

seemingly ridiculous explanations and

134

00:06:35,740 --> 00:06:32,230

all the comparisons were in this museum

135

00:06:38,410 --> 00:06:35,750

including the alleged age of the skull

136

00:06:41,970 --> 00:06:38,420

is five years old it's alleged it's not

137

00:06:44,830 --> 00:06:41,980

confirmed you know so we had plenty of

138

00:06:48,100 --> 00:06:44,840

normal samples and even some abnormal

139

00:06:51,010 --> 00:06:48,110

samples of five year old skulls

140

00:06:51,800 --> 00:06:51,020

it was amazing comparison but we also

141

00:06:55,250 --> 00:06:51,810

had

142

00:06:58,700 --> 00:06:55,260

my mates and mammals and all sorts of

143

00:07:02,440 --> 00:06:58,710

other comparison samples that we could

144

00:07:05,540 --> 00:07:02,450

add there so and some of the other

145

00:07:09,890 --> 00:07:05,550

skulls that he pulled out were down

146

00:07:12,500 --> 00:07:09,900

syndrom hydrocephalic he did not have a

147

00:07:14,050 --> 00:07:12,510

replica or not a replica or he didn't

148

00:07:18,610 --> 00:07:14,060

have an actual skull of that at the time

149

00:07:21,860 --> 00:07:18,620

but this is where we had our largest

150

00:07:25,430 --> 00:07:21,870

sample base and we needed that we needed

151
00:07:27,260 --> 00:07:25,440
to start so that's really where we began

152
00:07:29,900 --> 00:07:27,270
the investigation is going back

153
00:07:32,000 --> 00:07:29,910
understanding the that the skull at the

154
00:07:34,330 --> 00:07:32,010
age of nine hundred years old we needed

155
00:07:39,590 --> 00:07:34,340
people who understand the cultures and

156
00:07:41,300 --> 00:07:39,600
the properties of ancient peoples the

157
00:07:46,060 --> 00:07:41,310
things that I'm looking at going forward

158
00:07:47,990 --> 00:07:46,070
is definitely taking the Starchild

159
00:07:50,810 --> 00:07:48,000
hopefully to conclusion

160
00:07:52,940 --> 00:07:50,820
Melanie young one of her goals is to

161
00:07:56,600 --> 00:07:52,950
solve the mystery of the Starchild skull

162
00:07:59,990 --> 00:07:56,610
and to put it at rest in the most

163
00:08:01,850 --> 00:08:00,000

appropriate place possible and I want to

164

00:08:04,810 --> 00:08:01,860

help her with this to solve this mystery

165

00:08:08,900 --> 00:08:04,820

could mean everything from medical

166

00:08:12,260 --> 00:08:08,910

science and testing it could mean a new

167

00:08:14,810 --> 00:08:12,270

species there's a lot of possibilities

168

00:08:17,450 --> 00:08:14,820

coming out of the skull some of the

169

00:08:22,310 --> 00:08:17,460

other projects I'm working on is still

170

00:08:25,010 --> 00:08:22,320

working a lot with normal cases UFO

171

00:08:29,060 --> 00:08:25,020

cases obviously I'll never give those up

172

00:08:30,770 --> 00:08:29,070

so really heavily embedded in that right

173

00:08:34,699 --> 00:08:30,780

now we have a lot of open cases with

174

00:08:36,469 --> 00:08:34,709

that and the the other things that are

175

00:08:38,570 --> 00:08:36,479

on my desk right now and something I'm

176

00:08:41,420 --> 00:08:38,580

thoroughly enjoying is the international

177

00:08:44,029 --> 00:08:41,430

investigations and there's a lot of

178

00:08:47,420 --> 00:08:44,039

cases opening and coming to us from Cuba

179

00:08:48,980 --> 00:08:47,430

now that relationships are open and of

180

00:08:52,640 --> 00:08:48,990

course you know my heart's always going

181

00:08:55,030 --> 00:08:52,650

to be in South America Mexico a lot of

182

00:08:59,390 --> 00:08:55,040

opportunities coming forward to

183

00:09:01,490 --> 00:08:59,400

investigate completely start new

184

00:09:04,010 --> 00:09:01,500

relationships with other countries that

185

00:09:05,790 --> 00:09:04,020

haven't had that bridge or that they

186

00:09:07,049 --> 00:09:05,800

don't have our knowledge either

187

00:09:09,389 --> 00:09:07,059

so I think it's just a huge opportunity

188

00:09:11,999 --> 00:09:09,399

I'm really looking forward to doing more

189

00:09:14,549 --> 00:09:12,009

in Cuba and in meeting the ufologist

190

00:09:17,059 --> 00:09:14,559

down there the politics are completely

191

00:09:20,189 --> 00:09:17,069

different being in a communist country

192

00:09:21,960 --> 00:09:20,199

the ufologists that have been working

193

00:09:23,999 --> 00:09:21,970

there have to work in secret

194

00:09:27,359 --> 00:09:24,009

because you're not allowed to gather as

195

00:09:30,179 --> 00:09:27,369

in a group under the communism currently

196

00:09:34,109 --> 00:09:30,189

in Cuba unless you registered the group

197

00:09:36,629 --> 00:09:34,119

and are approved to do so and of course

198

00:09:38,609 --> 00:09:36,639

when they tried to register UFOs weren't

199

00:09:41,280 --> 00:09:38,619

in the radar so this group has really

200

00:09:43,319 --> 00:09:41,290

been trying to do the work very secretly

201
00:09:44,970 --> 00:09:43,329
so now that things have changed and

202
00:09:47,669 --> 00:09:44,980
relationships are open we're hoping to

203
00:09:50,069 --> 00:09:47,679
help them with that to go down there and

204
00:09:52,650 --> 00:09:50,079
help them with even supplies I thought

205
00:09:54,600 --> 00:09:52,660
it was great when we asked them what we

206
00:09:56,129 --> 00:09:54,610
could do here in the state says you

207
00:09:57,900 --> 00:09:56,139
follow just what what's the first thing

208
00:10:00,619 --> 00:09:57,910
we could do to help them and they

209
00:10:04,280 --> 00:10:00,629
actually asked for paper and pencils and

210
00:10:06,539 --> 00:10:04,290
I thought out of all the equipment an

211
00:10:08,729 --> 00:10:06,549
investigator that's our bread and butter

212
00:10:11,160 --> 00:10:08,739
that is the one thing you don't leave

213
00:10:14,369 --> 00:10:11,170

home without and yet they could use help

214

00:10:17,400 --> 00:10:14,379

with that so there's there's I think

215

00:10:19,079 --> 00:10:17,410

challenging but amazing work that's

216

00:10:21,090 --> 00:10:19,089

going to come out of Cuba and I can't

217

00:10:23,669 --> 00:10:21,100

wait to hear some of this the UFO events
