

1  
00:00:07,730 --> 00:00:06,170  
for as long as there's been the Internet

2  
00:00:10,520 --> 00:00:07,740  
there have been rumors and theories

3  
00:00:12,200 --> 00:00:10,530  
about the infamous Illuminati a group of

4  
00:00:14,150 --> 00:00:12,210  
people that control the world and

5  
00:00:17,150 --> 00:00:14,160  
ultimately strive to create a one-world

6  
00:00:19,010 --> 00:00:17,160  
government a new world order over the

7  
00:00:21,590 --> 00:00:19,020  
years Debian speculations and

8  
00:00:23,840 --> 00:00:21,600  
documentaries explaining and trying to

9  
00:00:25,460 --> 00:00:23,850  
connect the dots but surprisingly like

10  
00:00:27,410 --> 00:00:25,470  
with all the other great revelations

11  
00:00:30,050 --> 00:00:27,420  
about our system and the different

12  
00:00:31,910 --> 00:00:30,060  
agencies and their mischief there has

13  
00:00:34,669 --> 00:00:31,920

been much concerned from the public

14

00:00:37,040 --> 00:00:34,679

maybe rightfully so as snobol and

15

00:00:38,419 --> 00:00:37,050

forthcoming as it may seem to reveal and

16

00:00:40,910 --> 00:00:38,429

point out the wrongdoings it

17

00:00:43,220 --> 00:00:40,920

inadvertently gives more power to what

18

00:00:45,619 --> 00:00:43,230

our et friends tell us it's a very small

19

00:00:47,239 --> 00:00:45,629

group of people that ultimately are not

20

00:00:48,979 --> 00:00:47,249

a threat to humanity at all

21

00:00:50,660 --> 00:00:48,989

let's check the wizard in Wizard of Oz

22

00:00:52,790 --> 00:00:50,670

once you pull back the curtain all

23

00:00:54,439 --> 00:00:52,800

there's left is a man with all kinds of

24

00:00:56,899 --> 00:00:54,449

bells and whistles shaping your

25

00:00:58,639 --> 00:00:56,909

perception and Azen you with illusions

26

00:01:01,669 --> 00:00:58,649

that once you stop believing in them

27

00:01:03,619 --> 00:01:01,679

lose their power over you it's important

28

00:01:05,570 --> 00:01:03,629

for you to understand that and let it

29

00:01:07,670 --> 00:01:05,580

sink in because what I'm about to tell

30

00:01:09,080 --> 00:01:07,680

you might come as a surprise we are

31

00:01:11,390 --> 00:01:09,090

already living in this one-world

32

00:01:13,880 --> 00:01:11,400

government that some of us fear so much

33

00:01:16,250 --> 00:01:13,890

your grandparents did your parents did

34

00:01:18,170 --> 00:01:16,260

and now you and seemingly it wasn't that

35

00:01:20,450 --> 00:01:18,180

tyrannical was it most of us went to

36

00:01:22,280 --> 00:01:20,460

school accepting what we have been

37

00:01:24,140 --> 00:01:22,290

taught every bit of it as the whole

38

00:01:26,270 --> 00:01:24,150

truth we have been given the illusion of

39

00:01:29,060 --> 00:01:26,280

choice to follow whatever profession we

40

00:01:31,430 --> 00:01:29,070

want there regardless of whatever new

41

00:01:33,680 --> 00:01:31,440

the profession takes and however obscure

42

00:01:35,900 --> 00:01:33,690

and independent for the system it may

43

00:01:38,060 --> 00:01:35,910

seem it ultimately requires the one

44

00:01:39,860 --> 00:01:38,070

thing that will definitely shatter any

45

00:01:42,290 --> 00:01:39,870

doubts whether you're not you are still

46

00:01:44,240 --> 00:01:42,300

part of the system if it has not

47

00:01:48,650 --> 00:01:44,250

occurred to you what that might be then

48

00:01:50,420 --> 00:01:48,660

allow me to show you you see one does

49

00:01:52,760 --> 00:01:50,430

not need to assist them holding the

50

00:01:54,710 --> 00:01:52,770

masses at a gunpoint if they are given

51  
00:01:56,780 --> 00:01:54,720  
certain freedoms and are fooled into

52  
00:01:59,690 --> 00:01:56,790  
thinking the only way to measure success

53  
00:02:02,390 --> 00:01:59,700  
wealth and abundance is by this piece of

54  
00:02:04,550 --> 00:02:02,400  
paper and you can see how easy it would

55  
00:02:07,130 --> 00:02:04,560  
be to manipulate the markets of the

56  
00:02:10,279 --> 00:02:07,140  
entire system without any objections and

57  
00:02:12,530 --> 00:02:10,289  
to take this one step further they will

58  
00:02:13,839 --> 00:02:12,540  
tailor their illusion of freedom to each

59  
00:02:30,640 --> 00:02:13,849  
nation to give them a

60  
00:02:34,210 --> 00:02:32,800  
so now that you know that it was you

61  
00:02:37,270 --> 00:02:34,220  
that bought in to the system of

62  
00:02:39,130 --> 00:02:37,280  
illusions for one reason or another why

63  
00:02:41,860 --> 00:02:39,140

don't we see what we can do to take back

64

00:02:44,320 --> 00:02:41,870

our power in the case of the Dakota

65

00:02:47,020 --> 00:02:44,330

access pipeline a published article by

66

00:02:49,149 --> 00:02:47,030

yes magazine titled how to contact the

67

00:02:51,160 --> 00:02:49,159

17 banks funding the Dakota access

68

00:02:53,259 --> 00:02:51,170

pipeline it states their researchers

69

00:02:56,020 --> 00:02:53,269

with the nonprofit food and water watch

70

00:02:58,330 --> 00:02:56,030

found that 38 banking institutions are

71

00:03:00,100 --> 00:02:58,340

involved in funding the proposed Bakken

72

00:03:03,130 --> 00:03:00,110

pipeline the simplest and most powerful

73

00:03:05,800 --> 00:03:03,140

move and us can do is simply to withdraw

74

00:03:08,050 --> 00:03:05,810

our money stock and business from all

75

00:03:10,059 --> 00:03:08,060

these banks and companies which will

76

00:03:13,170 --> 00:03:10,069

undoubtedly force them to back out of

77

00:03:15,699 --> 00:03:13,180

the deal to finance a pipeline project

78

00:03:17,530 --> 00:03:15,709

for years there have been protests and

79

00:03:21,099 --> 00:03:17,540

objections to the use of genetically

80

00:03:22,509 --> 00:03:21,109

modified organisms or GMOs specifically

81

00:03:24,849 --> 00:03:22,519

when it comes to our food

82

00:03:27,970 --> 00:03:24,859

GMOs also used to produce many

83

00:03:30,610 --> 00:03:27,980

medications the GMO can be a plant an

84

00:03:33,039 --> 00:03:30,620

animal whose genetic makeup has been

85

00:03:35,440 --> 00:03:33,049

modified using recombinant DNA methods

86

00:03:37,089 --> 00:03:35,450

also called gene splicing a simple

87

00:03:37,390 --> 00:03:37,099

online search and five minutes of your

88

00:03:39,220 --> 00:03:37,400

time

89

00:03:41,620 --> 00:03:39,230

will give you a pretty good list of

90

00:03:43,479 --> 00:03:41,630

companies producing GMOs and upon

91

00:03:46,030 --> 00:03:43,489

further research a list of companies

92

00:03:48,339 --> 00:03:46,040

using cancer-causing chemicals for crops

93

00:03:50,440 --> 00:03:48,349

and antibiotics and hormones for

94

00:03:52,569 --> 00:03:50,450

livestock that obviously we end up

95

00:03:56,860 --> 00:03:52,579

consuming and the answer to all of this

96

00:03:58,809 --> 00:03:56,870

again is this decide for yourself right

97

00:04:00,849 --> 00:03:58,819

now which one is more important

98

00:04:02,439 --> 00:04:00,859

convenience or quality if you're in a

99

00:04:04,360 --> 00:04:02,449

storm and you think about buying

100

00:04:06,970 --> 00:04:04,370

something which world would you rather

101

00:04:08,890 --> 00:04:06,980

buy into and use the same thought

102

00:04:10,900 --> 00:04:08,900

process for everything else when you're

103

00:04:13,270 --> 00:04:10,910

buying food buy in stocks buying

104

00:04:14,890 --> 00:04:13,280

household products paying for cable so

105

00:04:16,569 --> 00:04:14,900

you can watch the news that hardly

106

00:04:18,879 --> 00:04:16,579

anyone finds stress worthy anymore

107

00:04:21,279 --> 00:04:18,889

virtually anything and your actions by

108

00:04:23,950 --> 00:04:21,289

default will change the entire system

109

00:04:26,140 --> 00:04:23,960

and the way business is run and last but

110

00:04:28,719 --> 00:04:26,150

not least knowing what you know now if

111

00:04:30,550 --> 00:04:28,729

you think that siding with either these
