1  
00:00:07,880 --> 00:00:23,210

[Music]

2  
00:00:23,220 --> 00:00:26,080

you

3  
00:00:32,019 --> 00:00:29,980

my name is Stanton Friedman I'm was

4  
00:00:34,570 --> 00:00:32,029

trained as a nuclear physicist

5  
00:00:35,560 --> 00:00:34,580

spent 14 years in industry for little

6  
00:00:38,740 --> 00:00:35,570

companies like General Electric

7  
00:00:40,990 --> 00:00:38,750

Westinghouse General Motors working on a

8  
00:00:43,689 --> 00:00:41,000

variety of far-out advanced nuclear and

9  
00:00:45,880 --> 00:00:43,699

space system development programs it was

10  
00:00:48,130 --> 00:00:45,890

great while it lasted but these were

11  
00:00:49,270 --> 00:00:48,140

three years here three years there it's

12  
00:00:53,740 --> 00:00:49,280

someplace else

13  
00:00:57,610 --> 00:00:53,750

I read a book in 1958 Captain Edward

14

00:00:59,170 --> 00:00:57,620

rappels book about flying saucers he had

15

00:01:03,760 --> 00:00:59,180

been head of Project Blue Book for the

16

00:01:05,499 --> 00:01:03,770

Air Force in the early 50s and the book

17

00:01:07,270 --> 00:01:05,509

intrigued me and I shared with a

18

00:01:08,710 --> 00:01:07,280

neighbor who was 10 years older than I

19

00:01:10,180 --> 00:01:08,720

had a good engineer and he was more

20

00:01:14,980 --> 00:01:10,190

impressed than I was and then impressed

21

00:01:17,560 --> 00:01:14,990

me he so I got hooked was intriguing and

22

00:01:20,380 --> 00:01:17,570

because I was working on far out things

23

00:01:23,980 --> 00:01:20,390

nuclear rockets fish and Rockets nuclear

24

00:01:26,980 --> 00:01:23,990

airplanes fusion rockets whatever the

25

00:01:28,990 --> 00:01:26,990

technology aspect particularly seemed

26

00:01:31,390 --> 00:01:29,000

intriguing to me because I was working

27

00:01:37,710 --> 00:01:31,400

my far out stuff myself so saucers must

28

00:01:42,190 --> 00:01:37,720

be far out too and I the Epiphany a

29

00:01:43,240 --> 00:01:42,200

special moment came in the early 1960s

30

00:01:48,070 --> 00:01:43,250

when I was at the University of

31

00:01:51,070 --> 00:01:48,080

California Berkeley library I'd read ten

32

00:01:52,840 --> 00:01:51,080

books about UFOs and suddenly I was

33

00:01:54,640 --> 00:01:52,850

confronted with the largest study ever

34

00:01:57,670 --> 00:01:54,650

done for the Air Force which hadn't been

35

00:01:58,719 --> 00:01:57,680

mentioned in any of these books this

36

00:02:02,620 --> 00:01:58,729

project Bluebook

37

00:02:03,700 --> 00:02:02,630

special report number fourteen and I was

38

00:02:06,880 --> 00:02:03,710

in data heaven

39

00:02:12,009 --> 00:02:06,890  
charts tables graphs maps Wow

40

00:02:13,810 --> 00:02:12,019  
and also another aspect of this report

41

00:02:17,259 --> 00:02:13,820  
was that it included the press release

42

00:02:21,220 --> 00:02:17,269  
that the Air Force issued in 1955 when

43

00:02:21,759 --> 00:02:21,230  
this study was completed and I was

44

00:02:23,500 --> 00:02:21,769  
shocked

45

00:02:25,300 --> 00:02:23,510  
because there was the secretary of the

46

00:02:27,280 --> 00:02:25,310  
Air Force Donald Quarles

47

00:02:30,370 --> 00:02:27,290  
lying through his teeth about the

48

00:02:32,080 --> 00:02:30,380  
results of the study I don't like being

49

00:02:35,199 --> 00:02:32,090  
lied to especially by somebody at that

50

00:02:37,900 --> 00:02:35,209  
level he said on the basis of this study

51  
00:02:38,600 --> 00:02:37,910  
we believe that no objects such as those

52  
00:02:41,060 --> 00:02:38,610  
properly

53  
00:02:44,020 --> 00:02:41,070  
described as flying saucers have over

54  
00:02:46,880 --> 00:02:44,030  
flown the United States even the unknown

55  
00:02:49,250 --> 00:02:46,890  
3% could have been identified as

56  
00:02:52,400 --> 00:02:49,260  
conventional phenomena or illusions if

57  
00:02:56,480 --> 00:02:52,410  
more complete observations had been

58  
00:02:58,790 --> 00:02:56,490  
available well I had the report was a

59  
00:03:01,850 --> 00:02:58,800  
total lie the unknowns were twenty one

60  
00:03:03,500 --> 00:03:01,860  
and a half percent that's a long way

61  
00:03:05,600 --> 00:03:03,510  
from three percent and they were

62  
00:03:07,940 --> 00:03:05,610  
completely separate from the nine point

63  
00:03:09,980 --> 00:03:07,950

three percent listed as insufficient

64

00:03:13,610 --> 00:03:09,990

information so was wrong on both counts

65

00:03:15,620 --> 00:03:13,620

and they had quality evaluation it turns

66

00:03:17,500 --> 00:03:15,630

out the better the quality of the

67

00:03:20,449 --> 00:03:17,510

sighting the more likely to be

68

00:03:24,400 --> 00:03:20,459

unexplainable which is what you expect

69

00:03:27,500 --> 00:03:24,410

if there was something real and so I

70

00:03:29,870 --> 00:03:27,510

became determined to get to the bottom

71

00:03:32,630 --> 00:03:29,880

of this I don't like being lied to

72

00:03:35,840 --> 00:03:32,640

I mean I worked under security for 14

73

00:03:38,540 --> 00:03:35,850

years and you you sometimes tiptoe

74

00:03:42,470 --> 00:03:38,550

around the truth but was not without

75

00:03:45,729 --> 00:03:42,480

blatant lying like that so I joined a

76

00:03:47,780 --> 00:03:45,739

pro and I kept the big UFO groups and

77

00:03:49,340 --> 00:03:47,790

joined a group of people when I was

78

00:03:52,610 --> 00:03:49,350

working for Westinghouse on nuclear

79

00:03:56,539 --> 00:03:52,620

rockets we had little UFO Research

80

00:04:04,220 --> 00:03:56,549

Institute and stuff and I gave my first

81

00:04:08,240 --> 00:04:04,230

lecture it just was just happened kind

82

00:04:10,970 --> 00:04:08,250

of thing I read Frank Edwards book he

83

00:04:13,250 --> 00:04:10,980

had a best-selling book about flying

84

00:04:14,449 --> 00:04:13,260

saucers he was a newsman in Indianapolis

85

00:04:17,870 --> 00:04:14,459

and I've been living there working for

86

00:04:20,000 --> 00:04:17,880

General Motors and I got a copy of his

87

00:04:21,920 --> 00:04:20,010

book and then I moved to Pittsburgh to

88

00:04:25,159 --> 00:04:21,930

work for Westinghouse after nuclear lab

89

00:04:28,219 --> 00:04:25,169

on nuclear rocket engines I was exciting

90

00:04:30,260 --> 00:04:28,229

and I called Frank and said Frank I want

91

00:04:32,360 --> 00:04:30,270

to go public give me some names he knew

92

00:04:35,060 --> 00:04:32,370

everybody was a journalist who traveled

93

00:04:36,680 --> 00:04:35,070

a great deal and he gave me some names

94

00:04:39,620 --> 00:04:36,690

and one of them was a producer of a

95

00:04:43,640 --> 00:04:39,630

radio show at KDKA Pittsburgh biggest

96

00:04:45,830 --> 00:04:43,650

station in Pittsburgh and one of the

97

00:04:49,830 --> 00:04:45,840

persons was the producer of a radio show

98

00:04:52,500 --> 00:04:49,840

called contact appropriate program

99

00:04:54,750 --> 00:04:52,510

and I called and offered my services

100

00:04:56,490 --> 00:04:54,760

gave my professional background and the

101

00:04:57,150 --> 00:04:56,500

response was don't call us we'll call

102

00:04:59,310 --> 00:04:57,160

you

103

00:05:02,820 --> 00:04:59,320

less than a month later they called me

104

00:05:05,340 --> 00:05:02,830

at 6:30 could I do their 7 o'clock show

105

00:05:08,340 --> 00:05:05,350

please somebody canceled at the last

106

00:05:12,150 --> 00:05:08,350

minute and I lived near the station so I

107

00:05:15,210 --> 00:05:12,160

said yes and I did it and somebody at

108

00:05:17,580 --> 00:05:15,220

work at Westinghouse said Stan we're

109

00:05:20,010 --> 00:05:17,590

reading Frank's book at my book review

110

00:05:21,750 --> 00:05:20,020

club how about giving us a lecture in my

111

00:05:22,440 --> 00:05:21,760

living that was my first lecture in her

112

00:05:26,370 --> 00:05:22,450

living room

113

00:05:31,590 --> 00:05:26,380

and I did the show several times did

114

00:05:33,480 --> 00:05:31,600

more lecturing and one day driving to

115

00:05:35,760 --> 00:05:33,490

work with a woman who worked at

116

00:05:39,780 --> 00:05:35,770

Westinghouse supervisor Joanne was at a

117

00:05:41,700 --> 00:05:39,790

PhD and we live downtown and

118

00:05:45,690 --> 00:05:41,710

Westinghouse was out of town a little

119

00:05:48,360 --> 00:05:45,700

town called large and I said gee I'd

120

00:05:50,250 --> 00:05:48,370

like to speak at Caltech California

121

00:05:52,890 --> 00:05:50,260

Institute I'm not cow brains to

122

00:05:56,670 --> 00:05:52,900

technology Carnegie Mellon sorry trying

123

00:05:58,140 --> 00:05:56,680

to be Mellon nature university and she

124

00:06:00,840 --> 00:05:58,150

said have you talked to the Dean and I

125

00:06:02,430 --> 00:06:00,850

said no I talked to dr. so-and-so well

126

00:06:04,800 --> 00:06:02,440

Stan lunch you talk to the Dean he's my

127

00:06:05,460 --> 00:06:04,810

husband he's heard you on the radio give

128

00:06:11,340 --> 00:06:05,470

him a call

129

00:06:13,469 --> 00:06:11,350

but it was a date-time talk so I'd have

130

00:06:17,250 --> 00:06:13,479

to take some time off work his last

131

00:06:19,080 --> 00:06:17,260

question was how much do you want I've

132

00:06:22,050 --> 00:06:19,090

got \$100 thinking he'd knocked me down

133

00:06:23,190 --> 00:06:22,060

to 50 he bought the hundred and then he

134

00:06:28,460 --> 00:06:23,200

told me what he was playing the other

135

00:06:33,330 --> 00:06:28,470

speakers in the series 1517 not very

136

00:06:36,659 --> 00:06:33,340

well the talk went extremely well and he

137

00:06:38,960 --> 00:06:36,669

sent a nice letter to the agent through

138

00:06:41,640 --> 00:06:38,970

whom he had booked the other speakers

139

00:06:45,000 --> 00:06:41,650

and they booked me at the Engineering

140

00:06:48,450 --> 00:06:45,010

Society of Detroit for \$300 in expenses

141

00:06:51,090 --> 00:06:48,460

Wow I was in the big time they were sold

142

00:06:52,980 --> 00:06:51,100

out for two weeks in advance for a

143

00:06:54,450 --> 00:06:52,990

thousand and eight people for dinner and

144

00:06:58,110 --> 00:06:54,460

a talk and there weren't any negative

145

00:07:00,570 --> 00:06:58,120

questions that impressed me not the

146

00:07:01,920 --> 00:07:00,580

money but just the fact that the

147

00:07:03,970 --> 00:07:01,930

Engineering Society of Detroiters are

148

00:07:06,550 --> 00:07:03,980

very legitimate work

149

00:07:07,870 --> 00:07:06,560

and I worked a lot with engineers in

150

00:07:09,970 --> 00:07:07,880

scientist in the work that I was doing

151  
00:07:12,910 --> 00:07:09,980  
at Westinghouse and had been doing

152  
00:07:16,750 --> 00:07:12,920  
before that the fact that they responded

153  
00:07:21,100 --> 00:07:16,760  
so well impressed me so I gave a bunch

154  
00:07:22,540 --> 00:07:21,110  
more talks and we had a great success on

155  
00:07:25,210 --> 00:07:22,550  
the nuclear rocket program at

156  
00:07:28,750 --> 00:07:25,220  
Westinghouse and they canceled the

157  
00:07:34,840 --> 00:07:28,760  
program success breeds cancellation I

158  
00:07:37,930 --> 00:07:34,850  
guess and it was I had to find a job I

159  
00:07:40,630 --> 00:07:37,940  
had a wife and kids and so forth and so

160  
00:07:44,440 --> 00:07:40,640  
bribing across the country I had located

161  
00:07:46,600 --> 00:07:44,450  
a job at McDonald's Aguas my job was the

162  
00:07:48,640 --> 00:07:46,610  
epitome of what I wanted to do try to

163  
00:07:51,490 --> 00:07:48,650

figure out how flying saucers worked

164

00:07:53,050 --> 00:07:51,500

that's a technological challenge you

165

00:07:56,800 --> 00:07:53,060

know how could they go back and forth up

166

00:07:58,630 --> 00:07:56,810

and down all this sort of stuff as I'm

167

00:08:00,250 --> 00:07:58,640

driving across the country I hear on the

168

00:08:04,690 --> 00:08:00,260

radio that the program that was going to

169

00:08:07,600 --> 00:08:04,700

sponsor me was canceled how'd you like

170

00:08:09,250 --> 00:08:07,610

to walk in for taking your new job when

171

00:08:12,130 --> 00:08:09,260

they say you know we just laid off five

172

00:08:13,600 --> 00:08:12,140

thousand people well that happened they

173

00:08:16,620 --> 00:08:13,610

kept me for three months but I know I

174

00:08:19,810 --> 00:08:16,630

had to take responsibility for myself

175

00:08:22,120 --> 00:08:19,820

well since that time I've given over 700

176

00:08:25,630 --> 00:08:22,130

lectures in all 50 states ten provinces

177

00:08:28,900 --> 00:08:25,640

in 19 other countries it turns out I

178

00:08:31,390 --> 00:08:28,910

enjoy giving lectures I'm at home on the

179

00:08:34,060 --> 00:08:31,400

stage and I used to have a very good

180

00:08:35,469 --> 00:08:34,070

memory that's very important when you

181

00:08:39,450 --> 00:08:35,479

get asked questions when you need an

182

00:08:44,110 --> 00:08:39,460

answer now but not tomorrow now you know

183

00:08:48,730 --> 00:08:44,120

so here I am still going strong at my

184

00:08:51,550 --> 00:08:48,740

ripe old age and I bring to the subject

185

00:08:53,290 --> 00:08:51,560

a couple of special characteristics one

186

00:08:54,880 --> 00:08:53,300

of them is having worked under security

187

00:08:57,640 --> 00:08:54,890

a lot of people don't understand

188

00:09:00,490 --> 00:08:57,650

security for example I've done a whole

189

00:09:03,130 --> 00:09:00,500

book about operation majestic 12 very

190

00:09:06,100 --> 00:09:03,140

controversial organization which

191

00:09:10,060 --> 00:09:06,110

supposedly if you believe the important

192

00:09:16,260 --> 00:09:10,070

stuff was set up by President Truman to

193

00:09:18,570 --> 00:09:16,270

dig into the UFO question and I

194

00:09:20,460 --> 00:09:18,580

I'm one of the few people who saying

195

00:09:22,800 --> 00:09:20,470

yeah those there's three genuine

196

00:09:24,870 --> 00:09:22,810

documents there's three dozen false ones

197

00:09:28,920 --> 00:09:24,880

I don't care about them you know can be

198

00:09:30,570 --> 00:09:28,930

the genuine ones so my familiarity with

199

00:09:32,310 --> 00:09:30,580

security I mean I have people tell me oh

200

00:09:35,100 --> 00:09:32,320

the people on that would have told their

201  
00:09:37,230 --> 00:09:35,110  
wives you never tell your wife anything

202  
00:09:39,320 --> 00:09:37,240  
classified first of all it's against the

203  
00:09:41,970 --> 00:09:39,330  
law you've signed a piece of paper and

204  
00:09:45,060 --> 00:09:41,980  
second loose lips sink ships you know

205  
00:09:46,650 --> 00:09:45,070  
who knows is out there who's nosing

206  
00:09:50,600 --> 00:09:46,660  
around to find out things that you don't

207  
00:09:53,220 --> 00:09:50,610  
want to know so security is one thing

208  
00:09:56,120 --> 00:09:53,230  
second is the advanced propulsion stuff

209  
00:09:59,040 --> 00:09:56,130  
I mean the biggest objection raised by

210  
00:10:01,590 --> 00:09:59,050  
scientific people supposedly is you

211  
00:10:03,750 --> 00:10:01,600  
can't get here from there the setting

212  
00:10:06,030 --> 00:10:03,760  
community search for extraterrestrial

213  
00:10:11,010 --> 00:10:06,040

intelligence I say it stands for silly

214

00:10:12,660 --> 00:10:11,020

effort to investigate a CTI and they say

215

00:10:15,480 --> 00:10:12,670

well the nearest civilization have to be

216

00:10:18,120 --> 00:10:15,490

hundreds of light-years away and well

217

00:10:19,949 --> 00:10:18,130

that simply isn't true and today more

218

00:10:24,780 --> 00:10:19,959

than ever we know thanks to the Kepler

219

00:10:26,840 --> 00:10:24,790

satellite that gee there are planets one

220

00:10:31,500 --> 00:10:26,850

over the police out there not just

221

00:10:35,820 --> 00:10:31,510

occasionally the average it is assumed

222

00:10:38,820 --> 00:10:35,830

today is one to one point six planets

223

00:10:40,860 --> 00:10:38,830

per star now what does that mean in

224

00:10:42,960 --> 00:10:40,870

local neighborhood within 100

225

00:10:44,610 --> 00:10:42,970

light-years that's just down the street

226  
00:10:46,350 --> 00:10:44,620  
the galaxies hundred thousand

227  
00:10:50,310 --> 00:10:46,360  
light-years across oh hundred

228  
00:10:53,970 --> 00:10:50,320  
light-years next-door there are 10,000

229  
00:10:55,740 --> 00:10:53,980  
stars so if there's between one oh one

230  
00:10:57,390 --> 00:10:55,750  
point six planets per star that means

231  
00:11:00,690 --> 00:10:57,400  
between ten thousand and sixteen

232  
00:11:04,079 --> 00:11:00,700  
thousand planets within a mere hundred

233  
00:11:06,269 --> 00:11:04,089  
light years and throughout the galaxy

234  
00:11:07,829 --> 00:11:06,279  
we're talking billions and billions of

235  
00:11:11,460 --> 00:11:07,839  
planets so I'm not saying they all have

236  
00:11:13,410 --> 00:11:11,470  
life they don't have to you know we

237  
00:11:15,329 --> 00:11:13,420  
nuclear guys are accustomed to dealing

238  
00:11:16,790 --> 00:11:15,339

with the smaller part of something that

239

00:11:20,370 --> 00:11:16,800

makes a big difference

240

00:11:22,800 --> 00:11:20,380

uranium is mostly uranium 238 we want

241

00:11:27,690 --> 00:11:22,810

uranium 235 seven tenths of one percent

242

00:11:30,040 --> 00:11:27,700

are nothing in World War two to build a

243

00:11:35,650 --> 00:11:30,050

first atomic bomb we establish a

244

00:11:39,250 --> 00:11:35,660

that was a mile long and you pump gas

245

00:11:42,910 --> 00:11:39,260

through and uranium guess uranium

246

00:11:46,000 --> 00:11:42,920

hexafluoride guess and you want to

247

00:11:47,889 --> 00:11:46,010

enrich it in uranium-235 it moves a

248

00:11:51,160 --> 00:11:47,899

little faster than the uranium 238

249

00:11:54,280 --> 00:11:51,170

because it's a little lighter during the

250

00:11:56,620 --> 00:11:54,290

war we were using five percent of all

251  
00:11:58,720 --> 00:11:56,630  
the electricity produced in the United

252  
00:12:03,850 --> 00:11:58,730  
States just to pump the gas in that

253  
00:12:06,069 --> 00:12:03,860  
facility in secret mind you so it's the

254  
00:12:08,500 --> 00:12:06,079  
235 that matters less than seven tenths

255  
00:12:09,970 --> 00:12:08,510  
of one percent but who cares about the

256  
00:12:14,500 --> 00:12:09,980  
other ninety nine point three percent

257  
00:12:17,230 --> 00:12:14,510  
it's converting by everyone so I have a

258  
00:12:19,329 --> 00:12:17,240  
peculiarly jaundiced background you look

259  
00:12:25,540 --> 00:12:19,339  
for what's important not the general

260  
00:12:28,810 --> 00:12:25,550  
things third I found out that I was at

261  
00:12:32,650 --> 00:12:28,820  
home on the stage I could keep my cool

262  
00:12:34,990 --> 00:12:32,660  
under fire and I found that I enjoyed

263  
00:12:37,540 --> 00:12:35,000

doing that and they had a very good

264

00:12:40,150 --> 00:12:37,550

membrane this is a long time ago when I

265

00:12:42,130 --> 00:12:40,160

got started but so it made a good

266

00:12:45,550 --> 00:12:42,140

combination I could answer questions now

267

00:12:50,880 --> 00:12:45,560

and I once figured I'd answered seventy

268

00:12:54,760 --> 00:12:50,890

thousand questions of course my life and

269

00:12:57,069 --> 00:12:54,770

also I've been forced to think about a

270

00:12:58,060 --> 00:12:57,079

lot of questions what I call the Y

271

00:13:01,030 --> 00:12:58,070

questions

272

00:13:03,420 --> 00:13:01,040

why would aliens come here why doesn't

273

00:13:06,819 --> 00:13:03,430

the government tell us what it knows

274

00:13:08,350 --> 00:13:06,829

questions like that I know I'm going to

275

00:13:11,560 --> 00:13:08,360

get asked about that sort of stuff so

276

00:13:13,510 --> 00:13:11,570

I'm kind of ponder it I've been to 20

277

00:13:15,550 --> 00:13:13,520

document on archives some of them many

278

00:13:19,540 --> 00:13:15,560

times Presidential Library stuff like

279

00:13:24,610 --> 00:13:19,550

that and getting back to this majestic

280

00:13:28,509 --> 00:13:24,620

12 business the debunkers a typical

281

00:13:30,880 --> 00:13:28,519

example was oh this document but you

282

00:13:33,340 --> 00:13:30,890

think as genuine was typed in the large

283

00:13:35,410 --> 00:13:33,350

Piko type but the National Security

284

00:13:38,740 --> 00:13:35,420

Council used only a V type this

285

00:13:40,269 --> 00:13:38,750

gentleman said and I've got nine

286

00:13:43,210 --> 00:13:40,279

documents to prove it and they're all a

287

00:13:43,960 --> 00:13:43,220

lead type he challenged me to provide

288

00:13:46,569 --> 00:13:43,970

any other

289

00:13:49,360 --> 00:13:46,579

genuine documents done of the same size

290

00:13:53,410 --> 00:13:49,370

and style type as this question document

291

00:13:55,420 --> 00:13:53,420

I had never been I found out to the

292

00:14:00,069 --> 00:13:55,430

Eisenhower library I spent weeks there

293

00:14:02,800 --> 00:14:00,079

and to make a long story short I and my

294

00:14:04,360 --> 00:14:02,810

next visit there picked up 14 documents

295

00:14:06,879 --> 00:14:04,370

done of the same size and style so I

296

00:14:07,869 --> 00:14:06,889

made copies and sent him an invoice for

297

00:14:11,079 --> 00:14:07,879

a thousand dollars each

298

00:14:15,040 --> 00:14:11,089

offered me \$100 each for every genuine

299

00:14:16,600 --> 00:14:15,050

document up to a maximum of ten he had

300

00:14:20,369 --> 00:14:16,610

never been in the eyes narrow library so

301  
00:14:24,220 --> 00:14:20,379  
this is on for the top of his head and I

302  
00:14:26,710 --> 00:14:24,230  
copied the 14-7 invoice for a thousand

303  
00:14:28,780 --> 00:14:26,720  
dollars and he paid me and got very

304  
00:14:34,569 --> 00:14:28,790  
angry when I published a copy of his

305  
00:14:36,639 --> 00:14:34,579  
check book but it's a ridiculous thing

306  
00:14:42,269 --> 00:14:36,649  
that he said without any knowledge

307  
00:14:45,519 --> 00:14:42,279  
behind it so I enjoy being at archives

308  
00:14:48,249 --> 00:14:45,529  
my basic rule is have facts in hand

309  
00:14:50,499 --> 00:14:48,259  
before putting mouth and gear or pen

310  
00:14:53,619 --> 00:14:50,509  
I've authored or co-authored six books

311  
00:14:55,360 --> 00:14:53,629  
and I think that's an absolute

312  
00:14:57,610 --> 00:14:55,370  
requirement you can't just say things

313  
00:14:59,559 --> 00:14:57,620

you have to have evidence for them and

314

00:15:01,720 --> 00:14:59,569

sometimes you don't have enough evidence

315

00:15:03,730 --> 00:15:01,730

so you don't say it you may think it's

316

00:15:06,610 --> 00:15:03,740

true but and it may be true but if you

317

00:15:08,410 --> 00:15:06,620

don't have the evidence no way Jose

318

00:15:14,530 --> 00:15:08,420

that's not what you talked about

319

00:15:16,600 --> 00:15:14,540

so I also have the benefit of people

320

00:15:20,379 --> 00:15:16,610

telling me a lot of stuff after my

321

00:15:22,119 --> 00:15:20,389

lectures they are impressed with my

322

00:15:25,389 --> 00:15:22,129

background as a nuclear physicist work

323

00:15:27,449 --> 00:15:25,399

for big companies and so forth and so

324

00:15:30,309 --> 00:15:27,459

I've had a lot of people tell me things

325

00:15:32,699 --> 00:15:30,319

which gives me food for thought which

326

00:15:35,799 --> 00:15:32,709

lets me know what people wonder about

327

00:15:37,920 --> 00:15:35,809

what some people know but would be

328

00:15:41,920 --> 00:15:37,930

useful for me to know things like that

329

00:15:46,090 --> 00:15:41,930

so it's been a quite a trip first

330

00:15:48,790 --> 00:15:46,100

lecture in 1967 Here I am more than 700

331

00:15:51,579 --> 00:15:48,800

lectures later all 50 states ten

332

00:15:53,410 --> 00:15:51,589

provinces and 19 other countries that's

333

00:15:57,050 --> 00:15:53,420

a pretty good sampling of the world in

334

00:16:03,260 --> 00:15:57,060

other words from Australia to Finland to

335

00:16:06,080 --> 00:16:03,270

Argentina to Korea China uh so I've been

336

00:16:08,300 --> 00:16:06,090

really blessed by the opportunity to

337

00:16:10,970 --> 00:16:08,310

interact with lots of people media

338

00:16:13,070 --> 00:16:10,980

people as well as audience playing

339

00:16:16,700 --> 00:16:13,080

audience members and scientific and

340

00:16:19,250 --> 00:16:16,710

professional people so if you had asked

341

00:16:21,710 --> 00:16:19,260

me back in the early 60s if I thought I

342

00:16:23,060 --> 00:16:21,720

wind up being a full-time ufologist I'd

343

00:16:24,770 --> 00:16:23,070

have left my head off what are you

344

00:16:26,390 --> 00:16:24,780

talking about you know I worked my way

345

00:16:30,080 --> 00:16:26,400

through college I got to be a

346

00:16:33,020 --> 00:16:30,090

professional physicist well got away

347

00:16:36,920 --> 00:16:33,030

from that and I haven't regretted it

348

00:16:39,800 --> 00:16:36,930

really so one of the things that's been

349

00:16:45,230 --> 00:16:39,810

interesting she's trying to look at the

350

00:16:47,570 --> 00:16:45,240

planet Earth our wonderful home the way

351

00:16:51,670 --> 00:16:47,580

aliens would look at it how do we look

352

00:16:55,670 --> 00:16:51,680

to them and it's not a pretty picture I

353

00:17:00,410 --> 00:16:55,680

mean let's face it World War two we

354

00:17:02,300 --> 00:17:00,420

killed 50 million people we our own kind

355

00:17:07,970 --> 00:17:02,310

these aren't aliens we killed these are

356

00:17:10,730 --> 00:17:07,980

earthlings we destroyed 1706 even this

357

00:17:14,480 --> 00:17:10,740

year we're spending a trillion trillion

358

00:17:17,090 --> 00:17:14,490

dollars on things military we have

359

00:17:20,210 --> 00:17:17,100

exploded the surprises people 2,000

360

00:17:24,200 --> 00:17:20,220

nuclear weapons that many yes that many

361

00:17:26,840 --> 00:17:24,210

and and I'm a nuclear guy but still I

362

00:17:29,360 --> 00:17:26,850

don't like the idea of nuclear weapons

363

00:17:32,660 --> 00:17:29,370

and people being threatened I've got a

364

00:17:34,220 --> 00:17:32,670

great grandson I've got a grandson I'm

365

00:17:38,410 --> 00:17:34,230

concerned about the people on this

366

00:17:41,180 --> 00:17:38,420

planet and you know it's kind of funny

367

00:17:45,260 --> 00:17:41,190

people can't think of reasons for

368

00:17:47,780 --> 00:17:45,270

anybody to travel I can all for my

369

00:17:49,040 --> 00:17:47,790

grandparents were born in Europe I grew

370

00:17:54,080 --> 00:17:49,050

up in the United States was born the

371

00:17:56,210 --> 00:17:54,090

United States but migration colonization

372

00:17:57,020 --> 00:17:56,220

they're a big part of what happens on

373

00:17:59,000 --> 00:17:57,030

this planet

374

00:18:00,500 --> 00:17:59,010

I mean Las Vegas there weren't many

375

00:18:06,170 --> 00:18:00,510

people living there hundred and fifty

376

00:18:09,400 --> 00:18:06,180

years ago I'm thinking say so I found

377

00:18:11,510 --> 00:18:09,410

this a fascinating are

378

00:18:13,520 --> 00:18:11,520

opportunity to find out about something

379

00:18:15,470 --> 00:18:13,530

important for example I'm the original

380

00:18:18,920 --> 00:18:15,480

civilian investigator the Roswell

381

00:18:22,250 --> 00:18:18,930

incident and it came about because I was

382

00:18:24,830 --> 00:18:22,260

lecturing supposed to do two lectures at

383

00:18:26,540 --> 00:18:24,840

a television station or two interviews

384

00:18:28,940 --> 00:18:26,550

at a television station in Baton Rouge

385

00:18:32,180 --> 00:18:28,950

Louisiana speaking that night Louisiana

386

00:18:33,980 --> 00:18:32,190

State University and I did the first two

387

00:18:34,610 --> 00:18:33,990

and the third reporter was nowhere to be

388

00:18:38,630 --> 00:18:34,620

found

389

00:18:40,340 --> 00:18:38,640

he's back in 1978 the station manager is

390

00:18:41,840 --> 00:18:40,350

talking to me giving me coffee he's

391

00:18:44,660 --> 00:18:41,850

looking at his watch he knows I have

392

00:18:46,280 --> 00:18:44,670

things to do and so does he out of the

393

00:18:49,550 --> 00:18:46,290

blue he says you know the guy got to

394

00:18:52,610 --> 00:18:49,560

talk to his Jesse Marcel brilliant

395

00:18:54,760 --> 00:18:52,620

investigator that I am I said what's

396

00:18:57,260 --> 00:18:54,770

special about him who's he

397

00:18:59,090 --> 00:18:57,270

his next sentence changed my life he

398

00:19:00,710 --> 00:18:59,100

said he handled wreckage or one of those

399

00:19:03,590 --> 00:19:00,720

saucers you're interested in when he was

400

00:19:04,880 --> 00:19:03,600

in the military what would that come

401  
00:19:05,750 --> 00:19:04,890  
from there wasn't anybody around he

402  
00:19:08,120 --> 00:19:05,760  
wasn't making a joke

403  
00:19:10,160 --> 00:19:08,130  
he was quite serious what do you know

404  
00:19:11,690 --> 00:19:10,170  
about him he lives in Houma I didn't

405  
00:19:15,370 --> 00:19:11,700  
know where Houma Louisiana was I was

406  
00:19:18,440 --> 00:19:15,380  
there later to see Jesse but anyway

407  
00:19:20,900 --> 00:19:18,450  
everything went well that day because a

408  
00:19:22,910 --> 00:19:20,910  
reporter showed up finally the next day

409  
00:19:24,680 --> 00:19:22,920  
I was at the airport early and I called

410  
00:19:26,270 --> 00:19:24,690  
information that's what we used before

411  
00:19:29,780 --> 00:19:26,280  
you use computers to get all your

412  
00:19:33,050 --> 00:19:29,790  
numbers I got a number for Jesse called

413  
00:19:36,590 --> 00:19:33,060

him he told me his story and that was

414

00:19:37,450 --> 00:19:36,600

the beginning that was 1978 so that's

415

00:19:41,420 --> 00:19:37,460

what

416

00:19:47,000 --> 00:19:41,430

38 years or 39 years ago I've been on

417

00:19:50,210 --> 00:19:47,010

the case ever since uh but it was a very

418

00:19:52,430 --> 00:19:50,220

important case to me and to the world I

419

00:19:53,870 --> 00:19:52,440

think because here we have the president

420

00:19:56,810 --> 00:19:53,880

knighted States Harry Truman

421

00:20:00,350 --> 00:19:56,820

establishing a group for the purpose of

422

00:20:02,570 --> 00:20:00,360

dealing with flying saucers because we'd

423

00:20:04,430 --> 00:20:02,580

recovered the wreckage of one near Raja

424

00:20:07,520 --> 00:20:04,440

there have been several other wrecks

425

00:20:11,420 --> 00:20:07,530

that have been recovered all this is

426

00:20:13,100 --> 00:20:11,430

done in secret the United States or any

427

00:20:16,520 --> 00:20:13,110

other country is willing to admit that

428

00:20:20,840 --> 00:20:16,530

oh by the way aliens are visiting you

429

00:20:22,100 --> 00:20:20,850

know that's a big story so I was lucky

430

00:20:22,610 --> 00:20:22,110

to be in the right place at the right

431

00:20:25,220 --> 00:20:22,620

time

432

00:20:27,710 --> 00:20:25,230

and it turns out Jesse Marcel had never

433

00:20:30,560 --> 00:20:27,720

told the television guy anything

434

00:20:33,909 --> 00:20:30,570

important he had seen the article in the

435

00:20:38,299 --> 00:20:33,919

New Orleans times-picayune newspaper and

436

00:20:41,560 --> 00:20:38,309

back then you'd put in a military guy's

437

00:20:45,140 --> 00:20:41,570

name and where he was from his hometown

438

00:20:50,120 --> 00:20:45,150

it was standard practice and when I

439

00:20:54,830 --> 00:20:50,130

asked the television guy

440

00:20:58,700 --> 00:20:54,840

what did Jesse tell you he asked him

441

00:21:00,620 --> 00:20:58,710

about it I can't talk about it so he

442

00:21:01,850 --> 00:21:00,630

hadn't given away anything and I found

443

00:21:03,919 --> 00:21:01,860

out later there were articles in

444

00:21:07,639 --> 00:21:03,929

newspapers from Chicago West about the

445

00:21:10,789 --> 00:21:07,649

event early July 1947 it was a big story

446

00:21:12,799 --> 00:21:10,799

headlines and then they said oh well

447

00:21:15,560 --> 00:21:12,809

just a radar reflector weather balloon

448

00:21:19,399 --> 00:21:15,570

combination and they got rid of it one

449

00:21:22,880 --> 00:21:19,409

big question about UFOs of course is so

450

00:21:24,470 --> 00:21:22,890

what who cares so they're aliens zipping

451  
00:21:26,889 --> 00:21:24,480  
around the planet landing hither in

452  
00:21:29,659 --> 00:21:26,899  
their yawn picking up specimens

453  
00:21:32,440 --> 00:21:29,669  
abduction cases for example I've

454  
00:21:35,269 --> 00:21:32,450  
co-authored a book with Kathleen Mardon

455  
00:21:37,480 --> 00:21:35,279  
captured the Betty and Barney Hill UFO

456  
00:21:40,850 --> 00:21:37,490  
experience she was Betty Hill's niece I

457  
00:21:43,669 --> 00:21:40,860  
had met Betty Ben at her home Gunn

458  
00:21:46,130 --> 00:21:43,679  
television programs with her and Kathy

459  
00:21:49,970 --> 00:21:46,140  
and I got they heard about the story the

460  
00:21:55,700 --> 00:21:49,980  
day it happened when Betty called

461  
00:21:59,149 --> 00:21:55,710  
Kathleen's mother her sister uh and so

462  
00:22:01,010 --> 00:21:59,159  
that was way back in 1961 so she's been

463  
00:22:04,960 --> 00:22:01,020

in on the story right right from the

464

00:22:07,430 --> 00:22:04,970

start and it's an important story

465

00:22:09,560 --> 00:22:07,440

because it tells you something about the

466

00:22:12,080 --> 00:22:09,570

aliens and about our reaction to them

467

00:22:13,580 --> 00:22:12,090

they picked up a specimen it was

468

00:22:15,769 --> 00:22:13,590

catching a release time to use a

469

00:22:18,760 --> 00:22:15,779

fisherman's turn you know it's okay to

470

00:22:22,130 --> 00:22:18,770

catch the fish to get it thrown back and

471

00:22:27,019 --> 00:22:22,140

Betty and Barney were thrown back kind

472

00:22:31,220 --> 00:22:27,029

of thing but it seems to be that the

473

00:22:33,409 --> 00:22:31,230

aliens are here among other purposes to

474

00:22:35,600 --> 00:22:33,419

pick up specimens and start to study

475

00:22:39,740 --> 00:22:35,610

their physiological structure

476

00:22:41,630 --> 00:22:39,750

so to speak and that may sound strange

477

00:22:44,780 --> 00:22:41,640

to some people you realize we go out and

478

00:22:47,380 --> 00:22:44,790

pick up specimens animals or zoos or

479

00:22:52,640 --> 00:22:47,390

fruit of things what's going on you know

480

00:22:55,150 --> 00:22:52,650

it it strikes me as one of the most

481

00:22:58,330 --> 00:22:55,160

important stories of this millennium

482

00:23:04,400 --> 00:22:58,340

that the planets being visited

483

00:23:08,630 --> 00:23:04,410

partly because when you see where we are

484

00:23:09,919 --> 00:23:08,640

on the technological scales the fact

485

00:23:13,880 --> 00:23:09,929

that we can build nuclear weapons

486

00:23:16,159 --> 00:23:13,890

enormous nuclear weapons also means we

487

00:23:19,130 --> 00:23:16,169

could build propulsion systems to get us

488

00:23:20,659 --> 00:23:19,140

to the stars and frankly if I were an

489

00:23:22,190 --> 00:23:20,669

alien I wouldn't want Earthlings out

490

00:23:25,669 --> 00:23:22,200

there because we don't have a good

491

00:23:28,909 --> 00:23:25,679

history we're nasty we're not nice guys

492

00:23:31,190 --> 00:23:28,919

here on earth and people look away what

493

00:23:33,710 --> 00:23:31,200

do you mean I'm a nice guy

494

00:23:35,659 --> 00:23:33,720

but the planet is spending its resources

495

00:23:38,060 --> 00:23:35,669

for killing people more than it is for

496

00:23:42,940 --> 00:23:38,070

helping them saving them feeding the

497

00:23:47,720 --> 00:23:42,950

starving feeding the poor so there's a

498

00:23:49,909 --> 00:23:47,730

question what are the others in the

499

00:23:52,490 --> 00:23:49,919

neighborhood doing are there rules of

500

00:23:55,120 --> 00:23:52,500

engagement in other words other rules

501  
00:23:59,570 --> 00:23:55,130  
that you can't go bother somebody else

502  
00:24:00,950 --> 00:23:59,580  
we don't have a planetary government you

503  
00:24:01,909 --> 00:24:00,960  
stop to think about that that is a

504  
00:24:05,150 --> 00:24:01,919  
little strange

505  
00:24:08,450 --> 00:24:05,160  
we have 195 countries I think less than

506  
00:24:11,330 --> 00:24:08,460  
magic and there are people in power who

507  
00:24:15,950 --> 00:24:11,340  
love having power running each country

508  
00:24:17,470 --> 00:24:15,960  
kind of thing I get people saying well

509  
00:24:22,390 --> 00:24:17,480  
they just land on the White House lawn

510  
00:24:26,659 --> 00:24:25,010  
that's apparently not why they're here

511  
00:24:28,789 --> 00:24:26,669  
they know we know they're here if you've

512  
00:24:31,070 --> 00:24:28,799  
been tracked on radar umpteen times I've

513  
00:24:38,440 --> 00:24:31,080

talked got some information about a lot

514

00:24:40,730 --> 00:24:38,450

of good radar cases so my role is to

515

00:24:42,620 --> 00:24:40,740

take advantage of my professional

516

00:24:44,570 --> 00:24:42,630

background as a nuclear physicist should

517

00:24:47,729 --> 00:24:44,580

work for a respectable country and

518

00:24:50,590 --> 00:24:47,739

companies like GE GM wasting assets

519

00:24:53,019 --> 00:24:50,600

to educate people about the enormous

520

00:24:56,080 --> 00:24:53,029

amount of evidence that's out there and

521

00:24:59,729 --> 00:24:56,090

to raise the question how do we want to

522

00:25:02,229 --> 00:24:59,739

behave that's not a trivial question

523

00:25:04,359 --> 00:25:02,239

when we're building nuclear weapons all

524

00:25:08,139 --> 00:25:04,369

over the place I'm a nuclear guy I

525

00:25:10,239 --> 00:25:08,149

appreciate that is a sense of my god so

526

00:25:12,479 --> 00:25:10,249

much power in the hands of people who I

527

00:25:15,639 --> 00:25:12,489

wouldn't trust with that much power

528

00:25:19,810 --> 00:25:15,649

there's a few countries now everybody

529

00:25:24,219 --> 00:25:19,820

else is trying to get nuclear weapons to

530

00:25:27,609 --> 00:25:24,229

exert their power on their neighbors SMS

531

00:25:30,099 --> 00:25:27,619

I don't want my great-grandson to grow

532

00:25:32,859 --> 00:25:30,109

up in the world that is still doing the

533

00:25:34,960 --> 00:25:32,869

same thing when he's in a coma we need

534

00:25:36,460 --> 00:25:34,970

to get our act together on this one so

535

00:25:39,129 --> 00:25:36,470

that's one of the things that drives me

536

00:25:43,869 --> 00:25:39,139

yes I enjoy being on the stage and so

537

00:25:50,649 --> 00:25:43,879

forth but there's a bigger story here

538

00:25:53,979 --> 00:25:50,659

and I wish I had access to the files of

539

00:25:57,310 --> 00:25:53,989

the aliens how many civilizations make

540

00:26:00,399 --> 00:25:57,320

it once they've reached this point of

541

00:26:02,889 --> 00:26:00,409

developing nuclear weapons will

542

00:26:06,339 --> 00:26:02,899

everybody do that well as a key factor

543

00:26:09,159 --> 00:26:06,349

here every advancing civilization will

544

00:26:12,639 --> 00:26:09,169

want to know how does this star produce

545

00:26:15,519 --> 00:26:12,649

its energy an awful lot of energy there

546

00:26:17,529 --> 00:26:15,529

and even though we on the planet we're

547

00:26:20,169 --> 00:26:17,539

thinking that stars reduce their energy

548

00:26:22,570 --> 00:26:20,179

by burning gas this is back in the 1920s

549

00:26:26,440 --> 00:26:22,580

plus 100 years ago now we know it's

550

00:26:30,219 --> 00:26:26,450

nuclear fusion and the same fusion that

551  
00:26:33,969 --> 00:26:30,229  
can be used for bombs h-bonds can be

552  
00:26:36,700 --> 00:26:33,979  
used for propulsion system I worked on a

553  
00:26:42,009 --> 00:26:36,710  
study of fusion propulsion for deep

554  
00:26:43,779 --> 00:26:42,019  
space travel in 1962 and the conclusion

555  
00:26:47,379 --> 00:26:43,789  
was if you want to spend the money you

556  
00:26:50,139 --> 00:26:47,389  
can do it it takes a lot of money these

557  
00:26:53,499 --> 00:26:50,149  
programs aren't for professors and eight

558  
00:26:55,060 --> 00:26:53,509  
grad students we're talking about

559  
00:26:59,230 --> 00:26:55,070  
thousands of people work on these

560  
00:27:02,350 --> 00:26:59,240  
program but we

561  
00:27:06,340 --> 00:27:02,360  
choices to make what kind of world do we

562  
00:27:08,020 --> 00:27:06,350  
150 years live today still scrabbling

563  
00:27:10,840 --> 00:27:08,030

with each other every more country's

564

00:27:14,620 --> 00:27:10,850

trying to build nuclear weapons no use

565

00:27:17,169 --> 00:27:14,630

for a nuclear weapon is to kill nuclear

566

00:27:19,630 --> 00:27:17,179

propulsion and on the story and you know

567

00:27:22,510 --> 00:27:19,640

the Navy learned this a long time really

568

00:27:24,330 --> 00:27:22,520

United States Navy has not only

569

00:27:28,419 --> 00:27:24,340

submarines that can go around the world

570

00:27:30,460 --> 00:27:28,429

underwater nuclear-powered submarines in

571

00:27:32,410 --> 00:27:30,470

a first world war or a second world war

572

00:27:36,580 --> 00:27:32,420

even German submarines could stay

573

00:27:39,370 --> 00:27:36,590

underwater for a day diesel engines they

574

00:27:42,490 --> 00:27:39,380

need the air you can't keep them under

575

00:27:45,790 --> 00:27:42,500

the water now go around the world

576  
00:27:48,900 --> 00:27:45,800  
literally underwater without coming to

577  
00:27:51,220 --> 00:27:48,910  
the surface that since 1960

578  
00:27:53,470 --> 00:27:51,230  
makes a big difference it means you

579  
00:27:56,500 --> 00:27:53,480  
don't know where my submarines are you

580  
00:27:57,850 --> 00:27:56,510  
attack me I can attack you without your

581  
00:28:00,940 --> 00:27:57,860  
being able to stop it

582  
00:28:04,720 --> 00:28:00,950  
the nuclear Navy has nuclear-powered

583  
00:28:09,549 --> 00:28:04,730  
aircraft carriers operate for 18 years

584  
00:28:11,410 --> 00:28:09,559  
18 years without refueling that's rather

585  
00:28:13,120 --> 00:28:11,420  
incredible if you're a ship captain that

586  
00:28:14,770 --> 00:28:13,130  
makes one a heck of a lot of difference

587  
00:28:18,390 --> 00:28:14,780  
if you don't need to have a tanker or

588  
00:28:21,850 --> 00:28:18,400

two or three or four circling around so

589

00:28:25,690 --> 00:28:21,860

it forces one to think about these

590

00:28:27,280 --> 00:28:25,700

things what can we do to make the world

591

00:28:30,070 --> 00:28:27,290

a better place for our

592

00:28:33,730 --> 00:28:30,080

great-grandchildren I think of that

593

00:28:37,330 --> 00:28:33,740

because I have a great grandson and I'm

594

00:28:39,400 --> 00:28:37,340

concerned what are the chances of

595

00:28:43,410 --> 00:28:39,410

getting through this time of great

596

00:28:46,540 --> 00:28:43,420

tension right now as we speak there are

597

00:28:50,560 --> 00:28:46,550

cold war battles going on so to speak

598

00:28:54,010 --> 00:28:50,570

battles of words but those could easily

599

00:29:00,000 --> 00:28:54,020

lead to battles of weapons and that

600

00:29:04,210 --> 00:29:00,010

concerns me so we need to consider our

601  
00:29:06,669 --> 00:29:04,220  
place in the scheme of things flying

602  
00:29:09,220 --> 00:29:06,679  
saucers give us so much evidence from

603  
00:29:11,230 --> 00:29:09,230  
all over the planet I said I've spoken

604  
00:29:12,700 --> 00:29:11,240  
in nineteen countries everywhere people

605  
00:29:15,159 --> 00:29:12,710  
are interested

606  
00:29:17,560 --> 00:29:15,169  
and sightings occur everywhere it's not

607  
00:29:20,680 --> 00:29:17,570  
an occasional this country that country

608  
00:29:24,010 --> 00:29:20,690  
is everywhere when I check my audiences

609  
00:29:26,350 --> 00:29:24,020  
at the end of my lectures lectures like

610  
00:29:29,500 --> 00:29:26,360  
flying saucers are real or a new view of

611  
00:29:32,169 --> 00:29:29,510  
the cosmos or the Roswell incident that

612  
00:29:33,909 --> 00:29:32,179  
stuff like that at the end of the

613  
00:29:35,560 --> 00:29:33,919

lecture I asked how many people here

614

00:29:37,510 --> 00:29:35,570

believe they've seen what I would

615

00:29:40,269 --> 00:29:37,520

consider to be a flying saucer I've

616

00:29:44,159 --> 00:29:40,279

defined my terms earlier just raise your

617

00:29:47,230 --> 00:29:44,169

hand and I'll point and count no names

618

00:29:51,190 --> 00:29:47,240

typically it's 10% I've had crabs

619

00:29:54,490 --> 00:29:51,200

biggest mm so that's a lot of people but

620

00:29:59,169 --> 00:29:54,500

then I asked how many of you reported

621

00:30:01,240 --> 00:29:59,179

what you saw 90% of the hands go down if

622

00:30:03,930 --> 00:30:01,250

there's anybody left I'll say how many

623

00:30:07,450 --> 00:30:03,940

of you were in the military at the time

624

00:30:10,320 --> 00:30:07,460

there's still somebody left want to tell

625

00:30:15,940 --> 00:30:10,330

us about it get some interesting answers

626

00:30:18,220 --> 00:30:15,950

one guy says they took my pictures tell

627

00:30:19,690 --> 00:30:18,230

me more yeah I'm sure the audience would

628

00:30:22,450 --> 00:30:19,700

like to hear the rest of the story I

629

00:30:25,299 --> 00:30:22,460

said so he's remained seated gave him a

630

00:30:28,539 --> 00:30:25,309

microphone he was flying as a piloting

631

00:30:31,960 --> 00:30:28,549

of orange and Air Force plane across the

632

00:30:34,450 --> 00:30:31,970

Pacific and it was a radio message from

633

00:30:36,010 --> 00:30:34,460

the plane 20 miles ahead of him that

634

00:30:38,649 --> 00:30:36,020

there was a saucer heading their way

635

00:30:40,600 --> 00:30:38,659

they had gun cameras on the plane so

636

00:30:42,250 --> 00:30:40,610

they took pictures they called the base

637

00:30:44,260 --> 00:30:42,260

to which they were going and when they

638

00:30:47,430 --> 00:30:44,270

landed the film was taken they don't go

639

00:30:50,080 --> 00:30:47,440

to the drugstore with the pictures and

640

00:30:53,860 --> 00:30:50,090

they were debriefed and told never to

641

00:30:57,930 --> 00:30:53,870

say anything had another guy say I'll

642

00:31:02,010 --> 00:30:57,940

talk to you later he was in Vietnam

643

00:31:04,450 --> 00:31:02,020

flying a helicopter in the late 60s and

644

00:31:06,940 --> 00:31:04,460

suddenly this sleek saucer-shaped

645

00:31:10,360 --> 00:31:06,950

vehicle comes upon them circles around

646

00:31:14,370 --> 00:31:10,370

them twice and he figured there were

647

00:31:17,529 --> 00:31:14,380

going to be dead in a minute new Russian

648

00:31:21,039 --> 00:31:17,539

vehicle and it circled around them a

649

00:31:22,870 --> 00:31:21,049

couple of times and then took off he

650

00:31:24,970 --> 00:31:22,880

reported it because they're supposed to

651  
00:31:25,350 --> 00:31:24,980  
report any new weapon system when you're

652  
00:31:27,560 --> 00:31:25,360  
in a

653  
00:31:30,419 --> 00:31:27,570  
worse situations with Vietnam after all

654  
00:31:32,070 --> 00:31:30,429  
the next day the base commander came to

655  
00:31:33,510 --> 00:31:32,080  
him and said lieutenant Jones you didn't

656  
00:31:36,630 --> 00:31:33,520  
see anything strange yesterday did you

657  
00:31:38,640 --> 00:31:36,640  
yes sir I reported it you didn't hear me

658  
00:31:43,770 --> 00:31:38,650  
lieutenant Jones you didn't see anything

659  
00:31:45,720 --> 00:31:43,780  
strange yesterday did you no sir I mean

660  
00:31:48,650 --> 00:31:45,730  
you get enough stories like this and you

661  
00:31:51,289 --> 00:31:48,660  
get a picture of what's going on look

662  
00:31:54,360 --> 00:31:51,299  
the clamp was done pretty tight

663  
00:31:56,039 --> 00:31:54,370

especially for military guys but the

664

00:31:58,440 --> 00:31:56,049

difference that makes is that it's the

665

00:32:00,810 --> 00:31:58,450

military the government that owns the

666

00:32:04,220 --> 00:32:00,820

sophisticated equipment the radar

667

00:32:10,280 --> 00:32:04,230

systems ground-based the radar systems

668

00:32:14,159 --> 00:32:10,290

airborne base space-based so they have a

669

00:32:16,980 --> 00:32:14,169

control of that data that doesn't go in

670

00:32:18,200 --> 00:32:16,990

the newspaper it's classified

671

00:32:22,440 --> 00:32:18,210

information

672

00:32:24,600 --> 00:32:22,450

so I'm very concerned would love to see

673

00:32:27,750 --> 00:32:24,610

the finals what percentage of societies

674

00:32:31,020 --> 00:32:27,760

that reach this point the potential for

675

00:32:32,580 --> 00:32:31,030

going to the stars get through that time

676

00:32:36,120 --> 00:32:32,590

because it's also the potential for

677

00:32:38,669 --> 00:32:36,130

developing big weapons Fusion is fusion

678

00:32:43,530 --> 00:32:38,679

they usually for a weapon or for a

679

00:32:45,510 --> 00:32:43,540

propulsion system so we need there

680

00:32:49,730 --> 00:32:45,520

they're only been a little bit more than

681

00:32:54,240 --> 00:32:49,740

a dozen PhD theses done about UFOs

682

00:32:56,130 --> 00:32:54,250

there's room for plenty more and I don't

683

00:32:59,210 --> 00:32:56,140

want everything out on the table because

684

00:33:01,950 --> 00:32:59,220

there are real security implications

685

00:33:04,260 --> 00:33:01,960

technical data that anybody could use to

686

00:33:09,659 --> 00:33:04,270

build better weapons propulsion systems

687

00:33:12,780 --> 00:33:09,669

etc but I think we need to start looking

688

00:33:18,750 --> 00:33:12,790

at ourselves in a new way we're not

689

00:33:22,500 --> 00:33:18,760

alone we are not behaving very well from

690

00:33:24,810 --> 00:33:22,510

an outsider to you boy I wish I had the

691

00:33:30,150 --> 00:33:24,820

gift to see us as others see as somebody

692

00:33:33,919 --> 00:33:30,160

once said so I have felt privileged to

693

00:33:36,690 --> 00:33:33,929

be in the center of this maelstrom of

694

00:33:39,060 --> 00:33:36,700

discussions of activities all around the

695

00:33:42,540 --> 00:33:39,070

world I'm get to travel

696

00:33:50,670 --> 00:33:42,550

up to the good it's exciting it's

697

00:33:52,410 --> 00:33:50,680

stimulating its mentally alerting you've

698

00:33:54,030 --> 00:33:52,420

got a responsibility here if you know

699

00:33:57,180 --> 00:33:54,040

something that would help people think

700

00:34:01,050 --> 00:33:57,190

of themselves as earthlings that would

701  
00:34:04,470 --> 00:34:01,060  
be progress apology is in sort of a

702  
00:34:06,480 --> 00:34:04,480  
mixed bag situation you funds is quite

703  
00:34:09,570 --> 00:34:06,490  
active it's the largest of the civilian

704  
00:34:13,380 --> 00:34:09,580  
groups it's got a few thousand members

705  
00:34:16,380 --> 00:34:13,390  
now it receives between five hundred and

706  
00:34:18,000 --> 00:34:16,390  
a thousand reports a month but it

707  
00:34:19,980 --> 00:34:18,010  
doesn't have funding for a lot of

708  
00:34:23,210 --> 00:34:19,990  
scientific investigations

709  
00:34:25,500 --> 00:34:23,220  
I heard today discussions about

710  
00:34:29,760 --> 00:34:25,510  
electromagnetic effects associated with

711  
00:34:33,270 --> 00:34:29,770  
UFOs electric fields and what's going on

712  
00:34:38,700 --> 00:34:33,280  
here high tech secondly I think it's

713  
00:34:40,590 --> 00:34:38,710

time for the media to do their job there

714

00:34:44,070 --> 00:34:40,600

isn't a lot of good media coverage of

715

00:34:47,070 --> 00:34:44,080

the subject where you look carefully at

716

00:34:48,870 --> 00:34:47,080

the facts and the data and you go out to

717

00:34:51,750 --> 00:34:48,880

find out more information to back up

718

00:34:54,630 --> 00:34:51,760

what you started out with we need to

719

00:34:56,880 --> 00:34:54,640

kick that up more courses there have

720

00:34:59,610 --> 00:34:56,890

been college courses taught about UFOs

721

00:35:02,070 --> 00:34:59,620

and I've even taught it a couple of

722

00:35:04,490 --> 00:35:02,080

Kansa lectured at a couple of the

723

00:35:08,940 --> 00:35:04,500

campuses where these courses were done

724

00:35:11,700 --> 00:35:08,950

but we need a wider vision there are

725

00:35:14,640 --> 00:35:11,710

some religious implications here some

726

00:35:17,520 --> 00:35:14,650

fundamentalist insists and all the

727

00:35:21,420 --> 00:35:17,530

sensible beings in the neighborhood are

728

00:35:24,140 --> 00:35:21,430

here on planet earth that the UFO stuff

729

00:35:26,910 --> 00:35:24,150

is the work of the devil they say I

730

00:35:28,650 --> 00:35:26,920

think there are implications and there's

731

00:35:31,380 --> 00:35:28,660

a whole book an excellent book by dr.

732

00:35:34,230 --> 00:35:31,390

Barry downing the Bible in flying

733

00:35:36,810 --> 00:35:34,240

saucers going back through the old and

734

00:35:39,420 --> 00:35:36,820

new testaments zero you have all cases

735

00:35:43,760 --> 00:35:39,430

all over the place that helps explain

736

00:35:47,460 --> 00:35:43,770

some of the what's gone on and so

737

00:35:50,790 --> 00:35:47,470

there's a lot of work to be done to move

738

00:35:52,220 --> 00:35:50,800

forward in a new direction to gather

739

00:35:54,620 --> 00:35:52,230

more evidence

740

00:35:58,700 --> 00:35:54,630

to get people aware of the evidence that

741

00:36:01,670 --> 00:35:58,710

we do have so that's part of what I try

742

00:36:04,370 --> 00:36:01,680

to do is to get people excited about hey

743

00:36:06,380 --> 00:36:04,380

maybe we can find out some more and what

744

00:36:07,819 --> 00:36:06,390

you find incidentally is that some of

745

00:36:10,700 --> 00:36:07,829

the best cases are the ones that aren't

746

00:36:12,920 --> 00:36:10,710

reported the former military guys and

747

00:36:14,960 --> 00:36:12,930

something like that is they're afraid of

748

00:36:17,690 --> 00:36:14,970

running afoul of security and being

749

00:36:22,280 --> 00:36:17,700

punished penalties for breaking security

750

00:36:24,680 --> 00:36:22,290

or stiff long imprisonment high fines

751

00:36:27,079 --> 00:36:24,690

stuff like that they say they're going

752

00:36:28,520 --> 00:36:27,089

to shut up unless there's a special

753

00:36:31,940 --> 00:36:28,530

situation in which they're willing to

754

00:36:34,790 --> 00:36:31,950

talk so you ecology is not in a great

755

00:36:37,010 --> 00:36:34,800

state on the other hand it's better than

756

00:36:40,310 --> 00:36:37,020

it was if you look at meetings like this

757

00:36:43,190 --> 00:36:40,320

one here there's some good papers by

758

00:36:45,950 --> 00:36:43,200

some good people presenting solid

759

00:36:50,599 --> 00:36:45,960

information the new pod conferences

760

00:36:51,620 --> 00:36:50,609

often have that and so we're moving in

761

00:36:55,310 --> 00:36:51,630

the right direction

762

00:36:57,140 --> 00:36:55,320

but we got a long way to go I think

763

00:37:00,550 --> 00:36:57,150

within the next 10 years or so there

764

00:37:03,829 --> 00:37:00,560

will be some serious positive

765

00:37:05,180 --> 00:37:03,839

developments partly because our attitude

766

00:37:07,790 --> 00:37:05,190

about life and outer space has changed

767

00:37:09,470 --> 00:37:07,800

you know Lord were thought of as some

768

00:37:11,960 --> 00:37:09,480

kind of a nut if you think is life out

769

00:37:14,450 --> 00:37:11,970

there it's pretty widespread and when I

770

00:37:20,660 --> 00:37:14,460

hear very often is surely we're not the

771

00:37:23,660 --> 00:37:20,670

only ones and God would not do that it's

772

00:37:27,440 --> 00:37:23,670

kind of the attitude and that's a good

773

00:37:30,800 --> 00:37:27,450

thing that now is an old saying that new

774

00:37:32,540 --> 00:37:30,810

ideas come to be accepted not because

775

00:37:35,599 --> 00:37:32,550

their opponents come to believe in them

776

00:37:37,309 --> 00:37:35,609

but because their opponents die and a

777

00:37:40,400 --> 00:37:37,319

new generation grows up that's

778

00:37:45,470 --> 00:37:40,410

accustomed to them so I think that's

779

00:37:49,339 --> 00:37:45,480

happening with UFOs and I'm glad well

780

00:37:52,670 --> 00:37:49,349

I'd like to say that we need to spend

781

00:37:55,910 --> 00:37:52,680

some time thinking about what does it

782

00:37:58,760 --> 00:37:55,920

mean to us me my family my greater

783

00:38:02,180 --> 00:37:58,770

family that were not alone in the

784

00:38:03,380 --> 00:38:02,190

universe what will it mean for my great

785

00:38:06,110 --> 00:38:03,390

grandson

786

00:38:10,430 --> 00:38:06,120

uh what can we do to make the world

787

00:38:14,770 --> 00:38:10,440

better place in which our efforts can be

788

00:38:17,750 --> 00:38:14,780

spent to improve instead of just to kill

789

00:38:19,400 --> 00:38:17,760

this sounds like a stupid question of

790

00:38:21,650 --> 00:38:19,410

course it's more important to improve

791

00:38:24,020 --> 00:38:21,660

than it is to kill we haven't been

792

00:38:27,200 --> 00:38:24,030

acting that way just look at the budgets

793

00:38:30,020 --> 00:38:27,210

for all the countries on this planet so

794

00:38:32,090 --> 00:38:30,030

I'm still an optimist I mean I'm going

795

00:38:37,190 --> 00:38:32,100

to be 83 in my next birthday and I'm

796

00:38:40,610 --> 00:38:37,200

still hopeful that man will learn to do

797

00:38:44,180 --> 00:38:40,620

better to be concerned about the larger

798

00:38:46,760 --> 00:38:44,190

picture of where we fit in the scheme of

799

00:38:50,420 --> 00:38:46,770

things and to get rid of our big ego

800

00:38:52,150 --> 00:38:50,430

about we're it whatever we do is the

801

00:38:57,780 --> 00:38:52,160

only important thing that can be done

802

00:39:29,730 --> 00:39:27,950
