1  
00:00:07,880 --> 00:00:23,210

[Music]

2  
00:00:23,220 --> 00:00:26,080

you

3  
00:00:30,490 --> 00:00:28,420

my investigation into the Battle of LA

4  
00:00:33,760 --> 00:00:30,500

incident the incident that occurred on

5  
00:00:35,080 --> 00:00:33,770

February 25th 1942 was something that

6  
00:00:36,910 --> 00:00:35,090

I've always wanted to do I've been

7  
00:00:39,520 --> 00:00:36,920

fascinated by this case for many years

8  
00:00:41,470 --> 00:00:39,530

as many people have but like a lot of

9  
00:00:43,990 --> 00:00:41,480

the cases I've investigated historically

10  
00:00:46,660 --> 00:00:44,000

I felt like it really didn't have enough

11  
00:00:48,310 --> 00:00:46,670

deep dive as far as the level of detail

12  
00:00:51,069 --> 00:00:48,320

and information that I felt could be

13  
00:00:53,799 --> 00:00:51,079

gleaned from the case so in my research

14

00:00:56,170 --> 00:00:53,809

efforts I tracked down a lot of the

15

00:00:57,520 --> 00:00:56,180

declassified government documents which

16

00:00:59,350 --> 00:00:57,530

I might add was through the assistance

17

00:01:02,500 --> 00:00:59,360

of veteran UFO researcher Barry

18

00:01:03,969 --> 00:01:02,510

Greenwood in the late 70s and early 80s

19

00:01:05,890 --> 00:01:03,979

he actually acquired all of these

20

00:01:07,510 --> 00:01:05,900

declassified documents and many

21

00:01:09,880 --> 00:01:07,520

researchers haven't taken the time to go

22

00:01:12,580 --> 00:01:09,890

through all of those and what I had done

23

00:01:15,240 --> 00:01:12,590

was take those documents and correlate

24

00:01:17,590 --> 00:01:15,250

those with the original news clippings

25

00:01:19,780 --> 00:01:17,600

newspapers from that morning in the

26

00:01:22,899 --> 00:01:19,790

subsequent days after the events On

27

00:01:25,990 --> 00:01:22,909

February 25th 1942 and then correlated

28

00:01:29,050 --> 00:01:26,000

that in turn with the CBS radio news

29

00:01:30,280 --> 00:01:29,060

broadcast and what transpires as a

30

00:01:31,750 --> 00:01:30,290

result of correlating all that

31

00:01:33,610 --> 00:01:31,760

information is it gives us a clearer

32

00:01:36,250 --> 00:01:33,620

picture as to what was going on that

33

00:01:38,140 --> 00:01:36,260

morning what many people don't know

34

00:01:39,850 --> 00:01:38,150

which many of the UFO skeptics never

35

00:01:42,040 --> 00:01:39,860

touch on with regard to this case is

36

00:01:44,350 --> 00:01:42,050

there was not only tens of thousands of

37

00:01:44,920 --> 00:01:44,360

witnesses in the greater LA area to this

38

00:01:47,710 --> 00:01:44,930

event

39

00:01:49,480 --> 00:01:47,720

there was also radar confirmation three

40

00:01:51,070 --> 00:01:49,490

separate radar stations in the

41

00:01:54,160 --> 00:01:51,080

Declassified government documents

42

00:01:57,120 --> 00:01:54,170

tracked an inbound unknown radar target

43

00:02:00,190 --> 00:01:57,130

moving in 120 miles off the west coast

44

00:02:01,510 --> 00:02:00,200

towards the greater LA area and this is

45

00:02:03,100 --> 00:02:01,520

something the skeptics never want to

46

00:02:04,630 --> 00:02:03,110

touch on because the skeptics like to

47

00:02:07,030 --> 00:02:04,640

attribute the sighting to a weather

48

00:02:09,130 --> 00:02:07,040

balloon or a barrage balloon that was

49

00:02:10,570 --> 00:02:09,140

tethered and broke loose and that's what

50

00:02:13,030 --> 00:02:10,580

was photographed and that's what was

51  
00:02:14,979 --> 00:02:13,040  
cited and speaking of the photograph I

52  
00:02:17,289 --> 00:02:14,989  
have new information with regard to the

53  
00:02:18,309 --> 00:02:17,299  
photograph this case is now 75 years old

54  
00:02:20,800 --> 00:02:18,319  
which is one of the reasons I'm

55  
00:02:23,320 --> 00:02:20,810  
lecturing on it this year is the fact

56  
00:02:25,600 --> 00:02:23,330  
that it is the 75th anniversary but we

57  
00:02:27,970 --> 00:02:25,610  
have new insights into the famous

58  
00:02:29,740 --> 00:02:27,980  
photograph the photo that most people

59  
00:02:31,630 --> 00:02:29,750  
are familiar with regarding this case

60  
00:02:33,250 --> 00:02:31,640  
shows an unknown object in the

61  
00:02:35,980 --> 00:02:33,260  
convergence of searchlights with little

62  
00:02:38,110 --> 00:02:35,990  
explosions or any aircraft bursts around

63  
00:02:39,760 --> 00:02:38,120

it what many people don't know is that

64

00:02:42,910 --> 00:02:39,770

that photo was

65

00:02:44,890 --> 00:02:42,920

it was touched up to print essentially

66

00:02:47,500 --> 00:02:44,900

better in newsprint when it went to the

67

00:02:48,880 --> 00:02:47,510

news services what I've been able to do

68

00:02:51,910 --> 00:02:48,890

through the assistance of another

69

00:02:53,200 --> 00:02:51,920

researcher is actually gather the

70

00:02:54,910 --> 00:02:53,210

original negative I have a

71

00:02:57,010 --> 00:02:54,920

high-resolution scan of the original

72

00:02:59,380 --> 00:02:57,020

negative before it was touched up before

73

00:03:00,670 --> 00:02:59,390

it was doctored and I got that through

74

00:03:03,910 --> 00:03:00,680

the assistance of a UFO researcher

75

00:03:05,530 --> 00:03:03,920

friend and colleague Ben Hansen and Ben

76

00:03:08,620 --> 00:03:05,540

was able to obtain a high-resolution

77

00:03:10,630 --> 00:03:08,630

scan and what I do is I dive into that

78

00:03:13,120 --> 00:03:10,640

and we analyze the original negative

79

00:03:14,980 --> 00:03:13,130

knowing that that has not been doctored

80

00:03:17,860 --> 00:03:14,990

that had not been touched up this was

81

00:03:20,200 --> 00:03:17,870

prior to any of the modifications if you

82

00:03:21,550 --> 00:03:20,210

will of the original photo so we're

83

00:03:23,380 --> 00:03:21,560

going to analyze that and that's

84

00:03:25,060 --> 00:03:23,390

something that to my knowledge no one

85

00:03:26,830 --> 00:03:25,070

else has ever done they always look at

86

00:03:28,900 --> 00:03:26,840

the doctored photo which admittedly you

87

00:03:30,010 --> 00:03:28,910

really can't glean much from that so

88

00:03:31,180 --> 00:03:30,020

we're going to go to the original

89

00:03:33,220 --> 00:03:31,190

negative we're going to look at the

90

00:03:35,320 --> 00:03:33,230

original government documents and we're

91

00:03:36,940 --> 00:03:35,330

going to correlate that with all the

92

00:03:39,010 --> 00:03:36,950

original newspapers that I have in my

93

00:03:40,330 --> 00:03:39,020

possession from that morning and try to

94

00:03:42,310 --> 00:03:40,340

paint a clearer picture of what

95

00:03:44,590 --> 00:03:42,320

transpired and you know I can't

96

00:03:47,590 --> 00:03:44,600

definitively say what was seen on that

97

00:03:49,090 --> 00:03:47,600

morning on February 25th 1942 but I

98

00:03:51,040 --> 00:03:49,100

think we can with fair degree of

99

00:03:52,449 --> 00:03:51,050

certainty rule out all the prosaic

100

00:03:54,850 --> 00:03:52,459

explanations that have been thrown out

101

00:03:57,160 --> 00:03:54,860

there many people in regards to the

102

00:03:59,229 --> 00:03:57,170

Battle of LA incident write it off as

103

00:04:00,310 --> 00:03:59,239

something Japanese that the Japanese

104

00:04:01,750 --> 00:04:00,320

were attacking or it was a

105

00:04:03,910 --> 00:04:01,760

reconnaissance plane that was sent over

106

00:04:06,400 --> 00:04:03,920

the greater LA area what many people

107

00:04:08,050 --> 00:04:06,410

don't know is at the conclusion of world

108

00:04:11,320 --> 00:04:08,060

war two we have an official declaration

109

00:04:13,270 --> 00:04:11,330

by the Japanese military stating they

110

00:04:16,960 --> 00:04:13,280

had no military operations along the

111

00:04:20,020 --> 00:04:16,970

west coast near LA on February 25th 1942

112

00:04:23,080 --> 00:04:20,030

now what's interesting is they had 36

113

00:04:25,630 --> 00:04:23,090

hours before a Japanese sub surface just

114

00:04:28,200 --> 00:04:25,640

north of the greater LA area up near

115

00:04:31,840 --> 00:04:28,210

Santa Barbara which fired a number of

116

00:04:34,390 --> 00:04:31,850

rounds deck rounds into an oil refinery

117

00:04:36,730 --> 00:04:34,400

near Santa Barbara but that had nothing

118

00:04:39,460 --> 00:04:36,740

to do with the subsequent events that

119

00:04:41,590 --> 00:04:39,470

occurred 36 hours later and again we

120

00:04:44,110 --> 00:04:41,600

have the declaration by the Japanese

121

00:04:46,510 --> 00:04:44,120

military official statement stating they

122

00:04:48,250 --> 00:04:46,520

had no military activity and in fact we

123

00:04:50,140 --> 00:04:48,260

have one of the officers that was

124

00:04:50,860 --> 00:04:50,150

onboard that submarine in the early mid

125

00:04:51,480 --> 00:04:50,870

70s

126

00:04:53,909 --> 00:04:51,490

who

127

00:04:57,510 --> 00:04:53,919

documented and wrote a statement to the

128

00:04:59,939 --> 00:04:57,520

effect that the submarine that waged the

129

00:05:01,950 --> 00:04:59,949

attack 36 hours before went back out to

130

00:05:04,170 --> 00:05:01,960

the Pacific and had no involvement in

131

00:05:05,820 --> 00:05:04,180

the later events that occurred and then

132

00:05:08,490 --> 00:05:05,830

when we look at the object in question

133

00:05:10,650 --> 00:05:08,500

and I kind of go with the hypothesis

134

00:05:12,689 --> 00:05:10,660

that it was one solitary object that was

135

00:05:14,189 --> 00:05:12,699

basically being looked at and observed

136

00:05:16,140 --> 00:05:14,199

on that morning there were a number of

137

00:05:17,939 --> 00:05:16,150

conflicting reports but all of the data

138

00:05:20,100 --> 00:05:17,949

seems to suggest there was one anomalous

139

00:05:22,950 --> 00:05:20,110

object when we look at the flight

140

00:05:25,290 --> 00:05:22,960

characteristics of this object at the

141

00:05:28,140 --> 00:05:25,300

conclusion the military investigators

142

00:05:30,050 --> 00:05:28,150

came up with the idea that the object

143

00:05:31,879 --> 00:05:30,060

moved too slowly to be an aircraft

144

00:05:34,260 --> 00:05:31,889

therefore it must have been a balloon

145

00:05:36,719 --> 00:05:34,270

but when we look at that there were over

146

00:05:38,820 --> 00:05:36,729

1,400 rounds of any aircraft bursts

147

00:05:41,460 --> 00:05:38,830

fired at this thing in addition I might

148

00:05:43,830 --> 00:05:41,470

add 250 caliber rounds and 37 millimeter

149

00:05:45,240 --> 00:05:43,840

rounds any balloon would have been

150

00:05:49,050 --> 00:05:45,250

shredded with that amount of shrapnel

151  
00:05:52,020 --> 00:05:49,060  
and metal being thrown at it and so you

152  
00:05:54,210 --> 00:05:52,030  
look at that what what in 1942 could

153  
00:05:57,240 --> 00:05:54,220  
move quote slower than an aircraft

154  
00:05:58,709 --> 00:05:57,250  
unquote have the ability to hover as

155  
00:06:01,670 --> 00:05:58,719  
many witnesses describe this object

156  
00:06:04,709 --> 00:06:01,680  
doing and sit there stationary

157  
00:06:05,640 --> 00:06:04,719  
completely unscathed by this huge amount

158  
00:06:07,890 --> 00:06:05,650  
of weaponry

159  
00:06:11,370 --> 00:06:07,900  
being thrown at it and in point of fact

160  
00:06:13,950 --> 00:06:11,380  
the object made one flyby came in over

161  
00:06:16,469 --> 00:06:13,960  
santa monica culver city moved to the

162  
00:06:18,930 --> 00:06:16,479  
southwest of the greater LA area then

163  
00:06:20,909 --> 00:06:18,940

dropped down your Long Beach 20 minutes

164

00:06:22,140 --> 00:06:20,919

after that and by the way during all of

165

00:06:24,209 --> 00:06:22,150

this it's being tracked in the

166

00:06:26,640 --> 00:06:24,219

searchlights and fired on 20 minutes

167

00:06:29,330 --> 00:06:26,650

after the object disappears it comes

168

00:06:31,980 --> 00:06:29,340

back it comes back over Long Beach

169

00:06:35,550 --> 00:06:31,990

reverses direction and then goes back

170

00:06:38,760 --> 00:06:35,560

out over the Pacific off of the Santa

171

00:06:41,129 --> 00:06:38,770

Monica coastline so what did we have in

172

00:06:43,230 --> 00:06:41,139

1942 to my knowledge we had nothing that

173

00:06:44,909 --> 00:06:43,240

could perform like that we had nothing

174

00:06:47,700 --> 00:06:44,919

that could sustain the barrage of

175

00:06:49,499 --> 00:06:47,710

anti-aircraft fire and at the end of

176

00:06:52,439 --> 00:06:49,509

this the military had conflicting

177

00:06:53,909 --> 00:06:52,449

explanations some stated that well there

178

00:06:56,459 --> 00:06:53,919

was nothing there it was all due to

179

00:06:57,839 --> 00:06:56,469

jittery Warner's yet other military

180

00:07:00,060 --> 00:06:57,849

officials were stating that there were

181

00:07:02,339 --> 00:07:00,070

as many as 15 enemy planes in the air on

182

00:07:05,020 --> 00:07:02,349

that particular morning and they never

183

00:07:07,840 --> 00:07:05,030

ever established a conclusive

184

00:07:10,900 --> 00:07:07,850

solitary explanation the war effort

185

00:07:13,030 --> 00:07:10,910

continued we won world war two life went

186

00:07:17,890 --> 00:07:13,040

on and this case was virtually forgotten

187

00:07:20,680 --> 00:07:17,900

until around 1966 1967 when a UFO

188

00:07:22,540 --> 00:07:20,690

magazine actually kind of rekindled the

189

00:07:24,940 --> 00:07:22,550

interest in this case and there was an

190

00:07:26,950 --> 00:07:24,950

article written by Kenneth Larson on the

191

00:07:28,570 --> 00:07:26,960

Battle of LA incident and then much

192

00:07:30,970 --> 00:07:28,580

later it was written up in a book and

193

00:07:33,820 --> 00:07:30,980

then subsequent to that several books

194

00:07:35,890 --> 00:07:33,830

then wrote up case scenarios or

195

00:07:38,260 --> 00:07:35,900

summaries of what transpired on that

196

00:07:40,420 --> 00:07:38,270

morning but now you armed with all of

197

00:07:42,550 --> 00:07:40,430

this insight on the 75th anniversary of

198

00:07:43,840 --> 00:07:42,560

the event this year we're going to kind

199

00:07:45,670 --> 00:07:43,850

of take a look at all of that

200

00:07:47,830 --> 00:07:45,680

information weave it together and then

201  
00:07:49,960 --> 00:07:47,840  
as I mentioned look at new information

202  
00:07:51,370 --> 00:07:49,970  
with regard to the photograph as well as

203  
00:07:52,330 --> 00:07:51,380  
the photographer which is something

204  
00:07:54,760 --> 00:07:52,340  
that's always been somewhat of the

205  
00:07:56,560 --> 00:07:54,770  
mystery who took the photograph I think

206  
00:07:58,390 --> 00:07:56,570  
with about 90 percent certainty I've

207  
00:08:00,760 --> 00:07:58,400  
established who the photographer was

208  
00:08:03,460 --> 00:08:00,770  
that took the famous photo with regard

209  
00:08:05,740 --> 00:08:03,470  
to the Battle of LA a lot of skeptics as

210  
00:08:08,440 --> 00:08:05,750  
well as UFO believers and military

211  
00:08:12,280 --> 00:08:08,450  
historians have attributed the series of

212  
00:08:14,350 --> 00:08:12,290  
incidents to military planes well as

213  
00:08:17,590 --> 00:08:14,360

mentioned previously the Japanese

214

00:08:18,670 --> 00:08:17,600

military ruled out their planes as an

215

00:08:20,260 --> 00:08:18,680

explanation we had an official

216

00:08:21,820 --> 00:08:20,270

declaration on the part of the Japanese

217

00:08:23,950 --> 00:08:21,830

military that there were no military

218

00:08:26,530 --> 00:08:23,960

operations in that area on that

219

00:08:28,330 --> 00:08:26,540

particular morning more specifically a

220

00:08:30,430 --> 00:08:28,340

lot of people attributed the fact that

221

00:08:33,460 --> 00:08:30,440

perhaps individuals in the greater LA

222

00:08:35,350 --> 00:08:33,470

area observed the United States fighter

223

00:08:38,080 --> 00:08:35,360

pilots that were flying planes at that

224

00:08:40,000 --> 00:08:38,090

time one of the important factors with

225

00:08:41,800 --> 00:08:40,010

regard to that is there was a blackout

226

00:08:45,070 --> 00:08:41,810

ordered around two o'clock in the

227

00:08:46,360 --> 00:08:45,080

morning as a prelude to the series of

228

00:08:48,160 --> 00:08:46,370

incidents that were going to play out

229

00:08:50,980 --> 00:08:48,170

and that was triggered by the inbound

230

00:08:51,940 --> 00:08:50,990

radar target but there was always a

231

00:08:54,070 --> 00:08:51,950

mystery

232

00:08:56,980 --> 00:08:54,080

people claimed that they saw fighter

233

00:08:59,040 --> 00:08:56,990

planes in the air and we have through

234

00:09:01,470 --> 00:08:59,050

the Declassified government documents

235

00:09:05,110 --> 00:09:01,480

correspondence between two army generals

236

00:09:06,940 --> 00:09:05,120

one of them states matter-of-factly that

237

00:09:10,030 --> 00:09:06,950

they did not dispatch any fighter planes

238

00:09:11,470 --> 00:09:10,040

their rationale at the time again before

239

00:09:13,990 --> 00:09:11,480

all the information was able to be

240

00:09:16,150 --> 00:09:14,000

analyzed later they felt that this

241

00:09:17,720 --> 00:09:16,160

solitary object that had come into the

242

00:09:19,790 --> 00:09:17,730

greater LA area

243

00:09:21,980 --> 00:09:19,800

perhaps a Japanese reconnaissance plane

244

00:09:23,990 --> 00:09:21,990

they did not want to dispatch and they

245

00:09:25,759 --> 00:09:24,000

only had 45 fighter planes defending the

246

00:09:27,590 --> 00:09:25,769

west coast at that time as documented in

247

00:09:29,660 --> 00:09:27,600

the government documents they did not

248

00:09:31,400 --> 00:09:29,670

want to dispatch those 45 planes and

249

00:09:33,350 --> 00:09:31,410

have them in the air for an extended

250

00:09:35,900 --> 00:09:33,360

period if this was just a reconnaissance

251  
00:09:38,120 --> 00:09:35,910  
plane they wanted to ensure that when

252  
00:09:40,040 --> 00:09:38,130  
the full attack if the full attack was

253  
00:09:41,900 --> 00:09:40,050  
following this their planes would be

254  
00:09:44,120 --> 00:09:41,910  
able to be sent up and be fully fueled

255  
00:09:45,680 --> 00:09:44,130  
to defend the west coast so that was

256  
00:09:47,990 --> 00:09:45,690  
always a mystery you know why did they

257  
00:09:50,600 --> 00:09:48,000  
send planes up and that was the

258  
00:09:52,400 --> 00:09:50,610  
rationale the memorandum between these

259  
00:09:54,230 --> 00:09:52,410  
two generals also states that pilots

260  
00:09:56,060 --> 00:09:54,240  
were in the cockpits the planes were

261  
00:09:58,400 --> 00:09:56,070  
fueled up they were ready to take off

262  
00:10:00,829 --> 00:09:58,410  
but they were awaiting this full-scale

263  
00:10:03,139 --> 00:10:00,839

invasion that fortunately never occurred

264

00:10:04,790 --> 00:10:03,149

well we look back to this incident you

265

00:10:07,280 --> 00:10:04,800

know looking back now seventy-five years

266

00:10:08,509 --> 00:10:07,290

a lot of people look back and look back

267

00:10:10,610 --> 00:10:08,519

at the events with kind of a

268

00:10:12,490 --> 00:10:10,620

tongue-in-cheek attitude kind of a smirk

269

00:10:16,280 --> 00:10:12,500

and of course there was a movie you know

270

00:10:19,430 --> 00:10:16,290

1941 that basically was a parody of

271

00:10:20,960 --> 00:10:19,440

these events but it is important to

272

00:10:22,819 --> 00:10:20,970

point out that there were individuals

273

00:10:24,860 --> 00:10:22,829

that lost their lives on that morning as

274

00:10:26,540 --> 00:10:24,870

a result of all this ensuing chaos there

275

00:10:28,819 --> 00:10:26,550

were a number of heart attacks as a

276

00:10:30,800 --> 00:10:28,829

result of the air-raid sirens and the

277

00:10:33,259 --> 00:10:30,810

anti-aircraft fire that was exploding in

278

00:10:34,850 --> 00:10:33,269

the skies in and around LA and there

279

00:10:36,259 --> 00:10:34,860

were also some vehicular accidents

280

00:10:38,150 --> 00:10:36,269

people that were driving during the

281

00:10:40,730 --> 00:10:38,160

blackout which they ran into other

282

00:10:42,590 --> 00:10:40,740

vehicles or they ran into lampposts and

283

00:10:44,629 --> 00:10:42,600

things of that nature so at least five

284

00:10:46,430 --> 00:10:44,639

to six people lost their lives and I

285

00:10:50,569 --> 00:10:46,440

don't think that we should ever you know

286

00:10:52,370 --> 00:10:50,579

ignore that fact but over the years we

287

00:10:54,079 --> 00:10:52,380

have had other individuals that were

288

00:10:55,670 --> 00:10:54,089

there that morning there was one that

289

00:10:57,590 --> 00:10:55,680

I've actually interviewed several years

290

00:11:00,620 --> 00:10:57,600

ago that was an eyewitness to those

291

00:11:01,790 --> 00:11:00,630

events he along with his mother awoke

292

00:11:05,000 --> 00:11:01,800

that night to the sound of anti-aircraft

293

00:11:06,470 --> 00:11:05,010

sirens and any aircraft bursts and they

294

00:11:07,970 --> 00:11:06,480

remember stepping outside in the front

295

00:11:10,850 --> 00:11:07,980

yard and they could see searchlights

296

00:11:12,470 --> 00:11:10,860

they could see explosions and he said

297

00:11:13,970 --> 00:11:12,480

there was something in the convergence

298

00:11:15,350 --> 00:11:13,980

of search life that they saw of course

299

00:11:17,480 --> 00:11:15,360

they didn't know what it was at the time

300

00:11:19,309 --> 00:11:17,490

and he was a young boy but many

301  
00:11:21,860 --> 00:11:19,319  
witnesses have come forward over the

302  
00:11:24,590 --> 00:11:21,870  
years describing what they saw

303  
00:11:26,780 --> 00:11:24,600  
more often than not a solitary object in

304  
00:11:28,009 --> 00:11:26,790  
the convergence of searchlights which is

305  
00:11:29,509 --> 00:11:28,019  
what was described in the radio

306  
00:11:30,980 --> 00:11:29,519  
broadcast from the time which was

307  
00:11:33,470 --> 00:11:30,990  
captured in the photograph

308  
00:11:35,870 --> 00:11:33,480  
and so when you have that amount of you

309  
00:11:38,660 --> 00:11:35,880  
know correlating data or you have that

310  
00:11:41,360 --> 00:11:38,670  
you know that testimony that really

311  
00:11:42,890 --> 00:11:41,370  
bolsters each other's we have to come

312  
00:11:45,110 --> 00:11:42,900  
away with the fact that this was not

313  
00:11:47,240 --> 00:11:45,120

hallucination this was not jittery war

314

00:11:49,100 --> 00:11:47,250

nerves and then again going back to the

315

00:11:51,860 --> 00:11:49,110

radar data there was something solid

316

00:11:54,130 --> 00:11:51,870

that was generating a radar return that

317

00:11:56,150 --> 00:11:54,140

was photograph that was fired on and

318

00:11:57,980 --> 00:11:56,160

seventy-five years later we have a lot

319

00:12:00,590 --> 00:11:57,990

of data but as I would like to say data

320

00:12:02,240 --> 00:12:00,600

doesn't equate to answers but I do think

321

00:12:03,650 --> 00:12:02,250

now with seventy-five years and the

322

00:12:05,600 --> 00:12:03,660

amount of information we have we can

323

00:12:07,880 --> 00:12:05,610

definitively establish what this object

324

00:12:38,020 --> 00:12:07,890

was not

325

00:12:39,820 --> 00:12:38,030
