[Music]

2
00:00:23,220 --> 00:00:25,960

you

3
00:00:31,720 --> 00:00:28,990

my name is chase Klinsky and I presented

4
00:00:34,720 --> 00:00:31,730

here at the Ozark Mountain UFO

5
00:00:37,270 --> 00:00:34,730

conference talk about the elongated

6
00:00:41,290 --> 00:00:37,280

skulls of Peru the topic of these skulls

7
00:00:42,850 --> 00:00:41,300

has been really a huge mystery for many

8
00:00:45,549 --> 00:00:42,860

many decades that have captured the

9
00:00:48,790 --> 00:00:45,559

imagination of a lot of researchers and

10
00:00:51,100 --> 00:00:48,800

investigations and we were really

11
00:00:54,520 --> 00:00:51,110

excited about being able to go down to

12
00:00:58,149 --> 00:00:54,530

Peru and put hands on and boots on the

13
00:01:00,820 --> 00:00:58,159

ground investigating these anomalous

14

00:01:04,360 --> 00:01:00,830

skulls probably my favorite thing about

15

00:01:07,690 --> 00:01:04,370

the investigation is the fact that we

16

00:01:10,270 --> 00:01:07,700

had professional equipment with us and

17

00:01:13,390 --> 00:01:10,280

for the first time the scientific

18

00:01:17,260 --> 00:01:13,400

protocols the permissions from the

19

00:01:20,230 --> 00:01:17,270

Ministry of Culture as well as all the

20

00:01:22,420 --> 00:01:20,240

supplies we needed for proper DNA

21

00:01:26,160 --> 00:01:22,430

analysis this is the first time it's

22

00:01:29,040 --> 00:01:26,170

never been done and this is important in

23

00:01:32,950 --> 00:01:29,050

1927

24

00:01:38,740 --> 00:01:32,960

Tilo was an archaeologist and one of the

25

00:01:42,430 --> 00:01:38,750

most noted found these incredible

26

00:01:46,840 --> 00:01:42,440

bundles of mummies in a necropolis near

27

00:01:48,400 --> 00:01:46,850

pisco and this was a huge discovery what

28

00:01:51,640 --> 00:01:48,410

was shocking about what he was

29

00:01:54,160 --> 00:01:51,650

uncovering was they were different than

30

00:01:56,920 --> 00:01:54,170

the indigenous mummies and the

31

00:02:00,520 --> 00:01:56,930

indigenous peoples of Peru that had been

32

00:02:03,940 --> 00:02:00,530

discovered in the past they were buried

33

00:02:05,590 --> 00:02:03,950

in bundles and when they were unwrapped

34

00:02:08,499 --> 00:02:05,600

they discovered they were a little

35

00:02:12,430 --> 00:02:08,509

taller than the indigenous peoples as

36

00:02:15,610 --> 00:02:12,440

well as red hair and most of them had

37

00:02:19,500 --> 00:02:15,620

these enormous elongated skulls the

38

00:02:22,930 --> 00:02:19,510

investigation included hands-on

39

00:02:25,660 --> 00:02:22,940

examination and deep scrutiny into some

40

00:02:29,460 --> 00:02:25,670

of the anomalies of the skulls so we

41

00:02:32,800 --> 00:02:29,470

understand that elongated skulls and the

42

00:02:35,740 --> 00:02:32,810

cranial deformation and cradle boarding

43

00:02:39,250 --> 00:02:35,750

was a practice done in Peru so the

44

00:02:42,009 --> 00:02:39,260

elongated skulls are not as unusual but

45

00:02:45,759 --> 00:02:42,019

was a small percentage of skulls that

46

00:02:50,050 --> 00:02:45,769

presented these characteristics that

47

00:02:54,429 --> 00:02:50,060

were completely divergent from the other

48

00:02:56,470 --> 00:02:54,439

skulls and human skulls example of our

49

00:02:58,990 --> 00:02:56,480

inventory list of the skulls we're most

50

00:03:03,970 --> 00:02:59,000

interested in where the skulls with the

51
00:03:07,119 --> 00:03:03,980
larger than normal cranial capacity the

52
00:03:09,550 --> 00:03:07,129
red hair definitely the lack of a

53
00:03:13,380 --> 00:03:09,560
sagittal suture and we were most

54
00:03:17,589 --> 00:03:13,390
interested in with the foramen magnum

55
00:03:21,910 --> 00:03:17,599
that is the hole near the occipital

56
00:03:26,440 --> 00:03:21,920
plate where your spinal column goes into

57
00:03:28,539 --> 00:03:26,450
and it's really the base of the body we

58
00:03:32,410 --> 00:03:28,549
notice on some of the skulls that this

59
00:03:35,770 --> 00:03:32,420
foramen magnum was located closer to the

60
00:03:39,160 --> 00:03:35,780
back of the head so this may have made a

61
00:03:41,500 --> 00:03:39,170
big impact on part of our theory because

62
00:03:44,800 --> 00:03:41,510
you can't this change doesn't happen

63
00:03:49,449 --> 00:03:44,810

with manual manipulation this change can

64

00:03:53,650 --> 00:03:49,459

only be a birthright and it's different

65

00:03:55,960 --> 00:03:53,660

and with the elongated skull and the

66

00:04:00,930 --> 00:03:55,970

foramen magnum the lack of the sagittal

67

00:04:04,920 --> 00:04:00,940

suture and the larger capacity really

68

00:04:09,009 --> 00:04:04,930

points to something that is unusual and

69

00:04:13,330 --> 00:04:09,019

we wondered if this was maybe a hybrid

70

00:04:18,670 --> 00:04:13,340

race or even a different race that the

71

00:04:21,279 --> 00:04:18,680

baracus people emulated and move forward

72

00:04:24,460 --> 00:04:21,289

basically with they just were not

73

00:04:28,240 --> 00:04:24,470

indigenous these components of these

74

00:04:30,189 --> 00:04:28,250

skulls are very very significant so

75

00:04:34,060 --> 00:04:30,199

these were the inventories that we were

76
00:04:36,760 --> 00:04:34,070
looking for and for every 300 350 skulls

77
00:04:39,909 --> 00:04:36,770
we look at we'd find one or two that had

78
00:04:42,279 --> 00:04:39,919
all of the anomalies and these were the

79
00:04:45,189 --> 00:04:42,289
skulls that were selected for DNA

80
00:04:50,709 --> 00:04:45,199
sampling it was extraordinary process

81
00:04:51,470 --> 00:04:50,719
being down there we we basically had to

82
00:04:55,940 --> 00:04:51,480
plan

83
00:04:57,890 --> 00:04:55,950
everything in the United States before

84
00:05:00,380 --> 00:04:57,900
we even got to Peru a lot of the

85
00:05:03,950 --> 00:05:00,390
supplies we needed and the processes

86
00:05:07,700 --> 00:05:03,960
that we had to take for our DNA samples

87
00:05:10,520 --> 00:05:07,710
to not only be worthy and ready for

88
00:05:15,110 --> 00:05:10,530

analysis but also to be probative at the

89

00:05:17,120 --> 00:05:15,120

end we met the criteria of the Institute

90

00:05:19,460 --> 00:05:17,130

of justice as well as a National

91

00:05:23,230 --> 00:05:19,470

Institute of Science and Technology and

92

00:05:26,870 --> 00:05:23,240

these are the protocols that led us into

93

00:05:29,150 --> 00:05:26,880

exactly how we were going to do this one

94

00:05:33,290 --> 00:05:29,160

of the first things we did in the

95

00:05:36,170 --> 00:05:33,300

process was to set up a sterile area and

96

00:05:40,430 --> 00:05:36,180

this was a very small place because we

97

00:05:44,180 --> 00:05:40,440

needed lack of access once we put up the

98

00:05:45,860 --> 00:05:44,190

tape as a perimeter the only personnel

99

00:05:48,350 --> 00:05:45,870

or the people allowed in this place

100

00:05:50,090 --> 00:05:48,360

where the investigators and only in

101
00:05:52,670 --> 00:05:50,100
clean suits people weren't allowed to

102
00:05:54,890 --> 00:05:52,680
come in and out and our work space was

103
00:05:57,170 --> 00:05:54,900
confined in movement so we weren't

104
00:05:59,930 --> 00:05:57,180
walking around putting up dust that

105
00:06:03,350 --> 00:05:59,940
could possibly contaminate the osteology

106
00:06:06,020 --> 00:06:03,360
powder we were extracting so it was it

107
00:06:09,050 --> 00:06:06,030
was an egregious process it was

108
00:06:13,220 --> 00:06:09,060
difficult and it was challenging on many

109
00:06:16,160 --> 00:06:13,230
levels part of even planning to go to

110
00:06:20,210 --> 00:06:16,170
Peru with this equipment was also how

111
00:06:22,610 --> 00:06:20,220
are we going to have the samples taken

112
00:06:25,430 --> 00:06:22,620
out in other words we had to follow

113
00:06:29,830 --> 00:06:25,440

state and federal postal codes we had to

114

00:06:33,620 --> 00:06:29,840

follow Border Patrol customs there is a

115

00:06:36,170 --> 00:06:33,630

long list of people that we had to make

116

00:06:38,390 --> 00:06:36,180

sure that their rules and policies and

117

00:06:40,810 --> 00:06:38,400

the organizations and administrations

118

00:06:43,490 --> 00:06:40,820

that they were responsible for in

119

00:06:46,190 --> 00:06:43,500

getting these samples back home were all

120

00:06:48,860 --> 00:06:46,200

satisfied it was difficult but it was

121

00:06:52,010 --> 00:06:48,870

worth every step and we took not one

122

00:06:55,880 --> 00:06:52,020

shortcut or took out one level of that

123

00:06:58,610 --> 00:06:55,890

process the result of this was every

124

00:07:00,980 --> 00:06:58,620

sample that we submitted was viable for

125

00:07:03,420 --> 00:07:00,990

testing with no contamination that was a

126

00:07:05,680 --> 00:07:03,430

huge huge win for us

127

00:07:08,080 --> 00:07:05,690

especially when we were dealing with

128

00:07:11,470 --> 00:07:08,090

skulls that had been handled probably a

129

00:07:16,650 --> 00:07:11,480

thousand times so by digging into the

130

00:07:20,170 --> 00:07:16,660

bone itself and extracting the osteology

131

00:07:22,810 --> 00:07:20,180

material in the middle and closer to the

132

00:07:27,220 --> 00:07:22,820

place where it couldn't be touched or

133

00:07:30,700 --> 00:07:27,230

contaminated we were able to grab worthy

134

00:07:37,630 --> 00:07:30,710

DNA samples the results were amazing and

135

00:07:41,080 --> 00:07:37,640

I think part of this big reveal or the

136

00:07:43,270 --> 00:07:41,090

big shocking bomb that went off for a

137

00:07:46,720 --> 00:07:43,280

lack of a better word was because the

138

00:07:50,170 --> 00:07:46,730

majority of the skulls the DNA their

139

00:07:52,870 --> 00:07:50,180

origins came from the Middle East this

140

00:07:56,580 --> 00:07:52,880

means this is not an indigenous people

141

00:08:00,250 --> 00:07:56,590

of Peru they were migrants and of course

142

00:08:04,420 --> 00:08:00,260

the dating process goes back 500 years

143

00:08:06,870 --> 00:08:04,430

before it was pre-columbian the

144

00:08:09,880 --> 00:08:06,880

migration was almost impossible

145

00:08:13,210 --> 00:08:09,890

according to the scientific standards of

146

00:08:16,210 --> 00:08:13,220

today so how did they get there well it

147

00:08:19,540 --> 00:08:16,220

isn't just about the DNA testing it's

148

00:08:22,320 --> 00:08:19,550

about also understanding that the

149

00:08:27,070 --> 00:08:22,330

textiles that are found with the skulls

150

00:08:28,630 --> 00:08:27,080

are so advanced it's you know the loom

151

00:08:31,240 --> 00:08:28,640

wasn't supposed to be available at this

152

00:08:35,080 --> 00:08:31,250

time and yet the detail we can barely

153

00:08:37,480 --> 00:08:35,090

reproduce today by hand the pottery and

154

00:08:40,930 --> 00:08:37,490

some of the artifacts and we have to

155

00:08:44,830 --> 00:08:40,940

remember the megalithic structures the

156

00:08:47,230 --> 00:08:44,840

cyclopean architecture all over Peru and

157

00:08:52,000 --> 00:08:47,240

Bolivia in places such as Machu Picchu

158

00:08:55,360 --> 00:08:52,010

and Tijuana puma punku where did this

159

00:08:57,850 --> 00:08:55,370

advanced engineering come from because

160

00:09:00,420 --> 00:08:57,860

one thing's very clear when you're there

161

00:09:04,750 --> 00:09:00,430

and studying some of the anomalies of

162

00:09:06,370 --> 00:09:04,760

these megalithic structures it is clear

163

00:09:08,290 --> 00:09:06,380

that this is not done with chicken bones

164

00:09:10,120 --> 00:09:08,300

and copper tools there was an

165

00:09:13,870 --> 00:09:10,130

intelligence behind this this was an

166

00:09:16,610 --> 00:09:13,880

operating sophisticated society that

167

00:09:21,140 --> 00:09:16,620

understood sacred geometry they

168

00:09:24,200 --> 00:09:21,150

hood astrology of the astronomy the

169

00:09:27,470 --> 00:09:24,210

stars the heavens and of course the oral

170

00:09:30,220 --> 00:09:27,480

culture is that these beings came from

171

00:09:33,590 --> 00:09:30,230

the heavens or they came from the stars

172

00:09:38,150 --> 00:09:33,600

so with all of this in play and evidence

173

00:09:41,030 --> 00:09:38,160

of this advanced artifacts and this

174

00:09:44,210 --> 00:09:41,040

advanced culture and then we're finding

175

00:09:47,200 --> 00:09:44,220

these skulls that are different than the

176

00:09:50,480 --> 00:09:47,210

other elongated skulls that are clearly

177

00:09:53,840 --> 00:09:50,490

manually manipulated it brings us to a

178

00:09:56,770 --> 00:09:53,850

theory of were these beings hybrids or

179

00:09:59,080 --> 00:09:56,780

were these beings possibly

180

00:10:02,450 --> 00:09:59,090

extraterrestrials could they be

181

00:10:05,600 --> 00:10:02,460

supernaturals or biblical such as angels

182

00:10:09,770 --> 00:10:05,610

so it's really quite intriguing but we

183

00:10:11,450 --> 00:10:09,780

have to consider the phenotype is you

184

00:10:14,570 --> 00:10:11,460

bring in the environment and the clues

185

00:10:16,340 --> 00:10:14,580

we get from the evidence of their

186

00:10:18,890 --> 00:10:16,350

culture and we put that with the

187

00:10:22,750 --> 00:10:18,900

elongated skulls that are different and

188

00:10:26,900 --> 00:10:22,760

we wonder if this is one of the reasons

189

00:10:29,390 --> 00:10:26,910

that emulation from the rest of the

190

00:10:32,240 --> 00:10:29,400

population became very popular to do

191

00:10:35,210 --> 00:10:32,250

because the one thing we also understand

192

00:10:37,310 --> 00:10:35,220

about elongated skulls only the Royals

193

00:10:39,980 --> 00:10:37,320

were allowed to do this or the free

194

00:10:42,800 --> 00:10:39,990

people the slaves were not allowed to

195

00:10:45,370 --> 00:10:42,810

elongate their skulls which is why we

196

00:10:48,890 --> 00:10:45,380

continue to find normal human skulls

197

00:10:51,800 --> 00:10:48,900

skulls that are elongated but clearly

198

00:10:53,870 --> 00:10:51,810

manipulated and then there's a small

199

00:10:56,540 --> 00:10:53,880

percentage that we're still trying to

200

00:10:59,080 --> 00:10:56,550

determine who they were and where did

201
00:11:03,440 --> 00:10:59,090
they come from the smaller percentage

202
00:11:05,510 --> 00:11:03,450
were clearly the DNA came back coming

203
00:11:09,530 --> 00:11:05,520
from the Middle East the majority of

204
00:11:13,370 --> 00:11:09,540
them and that fits right into the

205
00:11:16,760 --> 00:11:13,380
hypothesis of LA Marzulli that this was

206
00:11:21,110 --> 00:11:16,770
definitely the divergent race of giants

207
00:11:26,210 --> 00:11:21,120
that were exiled basically by Joshua and

208
00:11:28,220 --> 00:11:26,220
that story can be read in the Torah it

209
00:11:28,980 --> 00:11:28,230
could be a story or it can be viewed as

210
00:11:31,769 --> 00:11:28,990
historic

211
00:11:35,880 --> 00:11:31,779
document if you view some of these older

212
00:11:39,510 --> 00:11:35,890
texts such as the Book of Enoch or you

213
00:11:44,220 --> 00:11:39,520

know the Torah as historical text it's

214

00:11:47,250 --> 00:11:44,230

actually very surprising the trail of

215

00:11:49,949 --> 00:11:47,260

evidence we find behind this everything

216

00:11:53,910 --> 00:11:49,959

from you know the great deluge you know

217

00:11:57,540 --> 00:11:53,920

the the great flood to the this hybrid

218

00:12:01,500 --> 00:11:57,550

being on this earth that these older

219

00:12:05,730 --> 00:12:01,510

texts call giants the land bridge is the

220

00:12:08,820 --> 00:12:05,740

standard you know that and this new

221

00:12:15,650 --> 00:12:08,830

discovery challenges that as the only

222

00:12:19,980 --> 00:12:15,660

theory so the the bare Aegean land only

223

00:12:24,960 --> 00:12:19,990

theory is is no longer even plausible

224

00:12:27,480 --> 00:12:24,970

and this isn't this isn't anyone but the

225

00:12:29,340 --> 00:12:27,490

DNA talking this is a scientific test

226

00:12:31,980 --> 00:12:29,350

that has been blind studied and

227

00:12:34,819 --> 00:12:31,990

duplicated and you know science doesn't

228

00:12:38,550 --> 00:12:34,829

care what we believe the tests are real

229

00:12:41,400 --> 00:12:38,560

and the scrutiny so we're just in the

230

00:12:44,340 --> 00:12:41,410

beginning stages we had 58 samples

231

00:12:47,490 --> 00:12:44,350

tested that is more than admissible

232

00:12:50,519 --> 00:12:47,500

collection and comparison and a study

233

00:12:54,840 --> 00:12:50,529

group however we'd love to get back down

234

00:12:57,150 --> 00:12:54,850

there the the carbon dating is a little

235

00:12:57,569 --> 00:12:57,160

more difficult and we only have so much

236

00:13:00,600 --> 00:12:57,579

money

237

00:13:02,880 --> 00:13:00,610

there has been tens of thousands if not

238

00:13:07,440 --> 00:13:02,890

hundreds of thousands of dollars already

239

00:13:11,100 --> 00:13:07,450

invested from when LA started almost six

240

00:13:13,710 --> 00:13:11,110

years ago into today and we just don't

241

00:13:17,310 --> 00:13:13,720

have unlimited funding unfortunately so

242

00:13:20,880 --> 00:13:17,320

we're very choosy on what skulls and our

243

00:13:23,540 --> 00:13:20,890

our best evidence forward and there was

244

00:13:28,430 --> 00:13:23,550

a lot of scrutiny and a lot of

245

00:13:33,139 --> 00:13:28,440

professional discussion and exactly how

246

00:13:35,970 --> 00:13:33,149

we needed to perform these collections

247

00:13:39,420 --> 00:13:35,980

because honestly we knew we only had one

248

00:13:41,550 --> 00:13:39,430

shot since this is you know kind of our

249

00:13:42,500 --> 00:13:41,560

pilot program

250

00:13:46,199 --> 00:13:42,510

there's abs

251
00:13:49,470 --> 00:13:46,209
enough evidence to challenge the

252
00:13:54,449 --> 00:13:49,480
scientific normal but we also have

253
00:14:00,690 --> 00:13:54,459
enough to further us studies and to go

254
00:14:03,240 --> 00:14:00,700
back and look deeper grab more DNA it'd

255
00:14:05,280 --> 00:14:03,250
be nice to have access to maybe not just

256
00:14:09,510 --> 00:14:05,290
the skull but you know to measure the

257
00:14:13,530 --> 00:14:09,520
bodies which are often not with the head

258
00:14:16,199 --> 00:14:13,540
or the skulls so we really are planning

259
00:14:19,320 --> 00:14:16,209
on going back a lot of study needs to

260
00:14:21,870 --> 00:14:19,330
still be done and I think it's important

261
00:14:25,650 --> 00:14:21,880
to remind everyone that I'm not saying

262
00:14:29,430 --> 00:14:25,660
this LA and the team

263
00:14:32,100 --> 00:14:29,440

we're not Proclamation we're not trying

264

00:14:32,519 --> 00:14:32,110

to convince anybody the science did it

265

00:14:35,610 --> 00:14:32,529

for us

266

00:14:37,590 --> 00:14:35,620

the science is certain and again you

267

00:14:41,130 --> 00:14:37,600

know it doesn't believe what we doesn't

268

00:14:46,260 --> 00:14:41,140

care what we believe so for us it has to

269

00:14:48,260 --> 00:14:46,270

be done right done once and we're ready

270

00:14:52,260 --> 00:14:48,270

to go forward we're excited about it

271

00:14:54,269 --> 00:14:52,270

there's been a few changes from the last

272

00:14:56,670 --> 00:14:54,279

time I was here in Ozark

273

00:14:58,920 --> 00:14:56,680

and there are some things that haven't

274

00:15:02,190 --> 00:14:58,930

changed but a couple of the things that

275

00:15:04,500 --> 00:15:02,200

have changed was I have become a

276

00:15:08,280 --> 00:15:04,510

registered lobbyist for the UFO field

277

00:15:10,410 --> 00:15:08,290

and without knowing at the time that I

278

00:15:13,500 --> 00:15:10,420

was also going to be soon moving to

279

00:15:15,540 --> 00:15:13,510

Washington DC with my husband and it

280

00:15:17,910 --> 00:15:15,550

turned out to be one of the biggest

281

00:15:22,230 --> 00:15:17,920

blessings for a lot of reasons but

282

00:15:24,510 --> 00:15:22,240

mostly when we moved there this is just

283

00:15:27,780 --> 00:15:24,520

as all of this was breaking about a tip

284

00:15:30,569 --> 00:15:27,790

and the Pentagon and you know the unit

285

00:15:32,280 --> 00:15:30,579

that was investigating UFOs and I

286

00:15:34,829 --> 00:15:32,290

couldn't have been in a better place at

287

00:15:38,329 --> 00:15:34,839

a better time the lobbying effort that

288

00:15:44,160 --> 00:15:38,339

I'm going forward with is to ask about

289

00:15:47,069 --> 00:15:44,170

more programming Louise Elizondo the

290

00:15:51,269 --> 00:15:47,079

head of this UFO unit for a lack of a

291

00:15:53,189 --> 00:15:51,279

better word basically has said that he

292

00:15:54,750 --> 00:15:53,199

doesn't believe and he is certain that

293

00:15:57,689 --> 00:15:54,760

this program has not ended

294

00:15:59,910 --> 00:15:57,699

and I really would like to know more

295

00:16:01,860 --> 00:15:59,920

about that and that's what I'm pushing

296

00:16:05,730 --> 00:16:01,870

forward in DC I'd like to know where the

297

00:16:08,250 --> 00:16:05,740

funding is who's running it does it

298

00:16:10,530 --> 00:16:08,260

continue to be contracted through the

299

00:16:12,300 --> 00:16:10,540

Defense Intelligence Agency to the

300

00:16:15,150 --> 00:16:12,310

Pentagon you know how is this all

301

00:16:19,019 --> 00:16:15,160

working and I also want to maintain

302

00:16:22,230 --> 00:16:19,029

being an ombudsman for you know a lot of

303

00:16:25,139 --> 00:16:22,240

our witnesses that may need to know if

304

00:16:26,790 --> 00:16:25,149

there's still some documents or forms

305

00:16:29,069 --> 00:16:26,800

that we can have released and

306

00:16:32,329 --> 00:16:29,079

Declassified that could better prove

307

00:16:35,129 --> 00:16:32,339

their case or it could even satisfy

308

00:16:38,250 --> 00:16:35,139

their knowledge or wondering you know

309

00:16:41,250 --> 00:16:38,260

for decades you know was this real that

310

00:16:44,250 --> 00:16:41,260

I saw and of course any kind of proof to

311

00:16:46,290 --> 00:16:44,260

them means everything so this is really

312

00:16:48,689 --> 00:16:46,300

what I'm doing that my objective in DC

313

00:16:52,650 --> 00:16:48,699

is to really work within the system

314

00:16:56,310 --> 00:16:52,660

which DC is crazy they have their own

315

00:16:59,189 --> 00:16:56,320

set of rules and I just realized that as

316

00:17:01,710 --> 00:16:59,199

a UFO community we have picketed the

317

00:17:04,409 --> 00:17:01,720

White House we have petitioned the White

318

00:17:06,990 --> 00:17:04,419

House and we've had two very important

319

00:17:09,169 --> 00:17:07,000

citizens hearing on disclosure and we're

320

00:17:12,780 --> 00:17:09,179

no further along than we would have been

321

00:17:15,689 --> 00:17:12,790

I believe these were important things

322

00:17:18,090 --> 00:17:15,699

that had happened and it may have pushed

323

00:17:20,699 --> 00:17:18,100

us maybe a little closer to

324

00:17:22,409 --> 00:17:20,709

understanding but without our lawmakers

325

00:17:24,900 --> 00:17:22,419

and the people that are actually

326

00:17:27,030 --> 00:17:24,910

responsible for declassifying

327

00:17:31,049 --> 00:17:27,040

information or the people that are

328

00:17:35,010 --> 00:17:31,059

responsible for acknowledging dark

329

00:17:36,330 --> 00:17:35,020

programs and the funding for that I just

330

00:17:39,750 --> 00:17:36,340

don't think we're going to get full

331

00:17:41,730 --> 00:17:39,760

disclosure why would they we demand full

332

00:17:44,039 --> 00:17:41,740

disclosure we have to remember what

333

00:17:47,390 --> 00:17:44,049

we're asking for we're asking for over

334

00:17:50,100 --> 00:17:47,400

70 years of information of a cover-up

335

00:17:53,190 --> 00:17:50,110

perpetrated on the citizens of the

336

00:17:56,100 --> 00:17:53,200

United States who's gonna want to admit

337

00:17:59,120 --> 00:17:56,110

that and come out on that with all the

338

00:18:04,830 --> 00:17:59,130

other drama going on and yet part of

339

00:18:06,750 --> 00:18:04,840

what I like to pursue and educate in DC

340

00:18:08,050 --> 00:18:06,760

and with the Senate in the house is

341

00:18:13,000 --> 00:18:08,060

basically the

342

00:18:16,030 --> 00:18:13,010

at Chile openly admits and investigates

343

00:18:18,460 --> 00:18:16,040

UFOs through their government they talk

344

00:18:22,180 --> 00:18:18,470

about it in newspaper in the media and

345

00:18:24,250 --> 00:18:22,190

with the public so does France I don't

346

00:18:25,180 --> 00:18:24,260

see the public having a meltdown they

347

00:18:27,790 --> 00:18:25,190

can handle it

348

00:18:29,560 --> 00:18:27,800

they're curious and I think they feel a

349

00:18:32,580 --> 00:18:29,570

little more comforted that the

350

00:18:35,440 --> 00:18:32,590

government is actively involved and

351

00:18:38,920 --> 00:18:35,450

notices and cares about these unknown

352

00:18:41,340 --> 00:18:38,930

objects in their airspace so I think

353

00:18:45,100 --> 00:18:41,350

it's time that the United States and

354

00:18:49,330 --> 00:18:45,110

Europe understands it's time it's time

355

00:18:51,640 --> 00:18:49,340

to admit that you guys see it too you

356

00:18:54,070 --> 00:18:51,650

acknowledge it's real whether they can

357

00:18:57,070 --> 00:18:54,080

answer what it is or not we don't care
