

1
00:00:03,949 --> 00:00:01,910
learn to adapt people have understood

2
00:00:06,230 --> 00:00:03,959
that certain environment can't go into

3
00:00:08,690 --> 00:00:06,240
this is what had to be learned after the

4
00:00:10,129 --> 00:00:08,700
300 year period was up

5
00:00:13,610 --> 00:00:10,139
then

6
00:00:15,890 --> 00:00:13,620
a prime directive of sorts was put into

7
00:00:19,250 --> 00:00:15,900
place from that point forward

8
00:00:22,550 --> 00:00:19,260
no interference in human society

9
00:00:26,750 --> 00:00:22,560
by outside visitors observance fine

10
00:00:29,269 --> 00:00:26,760
uh specific focused interaction with

11
00:00:32,210 --> 00:00:29,279
individual members was okay

12
00:00:35,330 --> 00:00:32,220
as long as these interactions did not

13
00:00:38,150 --> 00:00:35,340

interfere with or alter the course of

14
00:00:40,970 --> 00:00:38,160
human development in history beyond what

15
00:00:42,590 --> 00:00:40,980
human decisions about their lives either

16
00:00:45,709 --> 00:00:42,600
individually or collectively would

17
00:00:47,270 --> 00:00:45,719
produce or things that would happen as a

18
00:00:49,569 --> 00:00:47,280
result of natural forces whether

19
00:00:52,310 --> 00:00:49,579
geological events geophysical events

20
00:00:54,110 --> 00:00:52,320
meteors things from outer space etc

21
00:00:55,490 --> 00:00:54,120
those are allowed to occur and still do

22
00:00:59,150 --> 00:00:55,500
occur
