

1

00:00:00,645 --> 00:00:07,645

There are certain places on Earth UFO skeptics should avoid at all costs.

2

00:00:07,645 --> 00:00:11,644

They are vortexes for strange encounters.

3

00:00:11,644 --> 00:00:19,644

These UFO hotspots are where thousands of people have reported seeing unexplained objects in the sky around the world.

4

00:00:19,644 --> 00:00:25,644

The Hudson River Valley, New York. Stonehenge. Sedona, Arizona.

5

00:00:26,644 --> 00:00:31,643

Enigmatic photographs, cryptic ruins and a search for answers.

6

00:00:31,643 --> 00:00:35,643

There certainly isn't any airplane that goes into a motion like that and lives.

7

00:00:35,643 --> 00:00:42,643

Are these places the Earth's open door? What could they have in common?

8

00:00:42,643 --> 00:00:46,643

According to a new theory, a lot more than you think.

9

00:00:46,643 --> 00:00:52,642

There is a direct correlation between the UFO sightings and the location of these chambers.

10

00:00:52,642 --> 00:00:58,642

This is case number 80103, Vortexes.

11

00:00:58,642 --> 00:01:00,642

Music Mix

12

00:01:03,642 --> 00:01:07,641

Music I'm not the only one, the only one

13

00:01:07,641 --> 00:01:15,641

Music I'm not the only one, the only one

14

00:01:17,641 --> 00:01:21,641

Some places on Earth receive more rain than others.

15

00:01:21,641 --> 00:01:30,640

Some locations are hotter, colder, windier, and some have a preponderance of something else, UFOs.

16

00:01:30,640 --> 00:01:39,640

A region's extreme environmental conditions can be explained now that science has shown the underlying forces that determine our weather.

17

00:01:39,640 --> 00:01:42,640

But what explains UFO hotspots?

18

00:01:42,640 --> 00:01:51,639

If UFOs exist, a new theory may explain the conditions that create a preponderance of sightings in specific locations on Earth.

19

00:01:51,639 --> 00:01:56,639

One of those conditions may be something created by the Earth itself.

20

00:01:56,639 --> 00:02:06,638

There may be huge pockets of energy spilling out of the Earth, and these extraterrestrials know how to tap into it.

21

00:02:06,638 --> 00:02:15,638

That might explain why we have these hotspots, why some UFOs seem to be spotted around certain areas.

22

00:02:15,638 --> 00:02:25,637

An actual very reputable researchers have said, spiraling around the planet are these lay lines, and they form what's known as the Earth's grid.

23

00:02:25,637 --> 00:02:33,637

It's the Earth's grid of a certain kind of an energy, whether it's magnetic, whether it's electrical, that actually draws UFOs to them.

24

00:02:33,637 --> 00:02:42,636

Where these lay lines and where the Earth's grid, the lines on the Earth's grid meet, these are the vortexes.

25

00:02:42,636 --> 00:02:50,636

The dark sinister woods of the Hudson River Valley, New York are the setting for the legends of the headless horsemen and Rip Van Winkle.

26

00:02:50,636 --> 00:02:56,636

Their mystery has endured into our times, but now a UFO component has been added.

27

00:02:57,636 --> 00:03:05,635

June 25, 1962, balls of light pass over Ossening, causing vehicles below to stall.

28

00:03:05,635 --> 00:03:13,635

June 15, 1963, an enormous craft moves silently through the skies over Newberg.

29

00:03:13,635 --> 00:03:25,634

December 31, 1981, the start of the biggest UFO vortex mystery of all time, when thousands of witnesses report seeing something very strange in the sky.

30

00:03:26,634 --> 00:03:33,634

It all begins when a retired policeman in Kent, New York, steps out into his backyard for a breath of crisp night air.

31

00:03:33,634 --> 00:03:38,633

A cluster of red-green and white lights in the sky catches his attention.

32

00:03:38,633 --> 00:03:46,633

Assuming at first that they are helicopters flying in formation, he watches the lights move toward him from the south.

33

00:03:46,633 --> 00:03:51,633

As the lights get closer, he is stunned to see that these are not helicopters.

34

00:03:51,633 --> 00:04:03,632

A huge V-shaped craft with colored lights spaced along the edges is moving through the sky above his home, and as it passes overhead, it hums.

35

00:04:05,632 --> 00:04:09,632

The object is seen regularly in the area for the next five years.

36

00:04:10,632 --> 00:04:21,631

On March 24, 1983, hundreds of people see a gigantic boomerang with 18 bright lights cruising slowly, parallel to the Teconic Parkway.

37

00:04:21,631 --> 00:04:27,631

The witnesses who get out of their cars to watch the strange craft notice something distinctive.

38

00:04:27,631 --> 00:04:33,631

It hums as it passes overhead and looks and sounds like no known aircraft.

39

00:04:34,630 --> 00:04:43,630

The switchboard of Peekskill and Yorktown police are flooded that night, with calls reporting a giant V-shaped craft moving slowly over the area.

40

00:04:43,630 --> 00:04:47,630

Sightings continued regularly for the next five years.

41

00:04:47,630 --> 00:04:55,629

By the time the flap is over in 1986, more than 5,000 reports of the strange craft are filed.

42

00:04:55,629 --> 00:05:01,629

What could cause the activity in the Hudson Valley or at other UFO hotspots around the world?

43

00:05:02,629 --> 00:05:06,629

One theory has something to do with how the Earth itself works.

44

00:05:06,629 --> 00:05:11,628

The Earth's core generates an enormous amount of electricity.

45

00:05:11,628 --> 00:05:17,628

Inconsistencies in the crust means that the energy release in some areas is stronger than in others.

46

00:05:17,628 --> 00:05:28,628

It's been theorized that ancient monuments sit on these power points, and that by connecting them with straight lines called ley lines, a worldwide grid can be mapped.

47

00:05:29,628 --> 00:05:40,627

Before the team takes their investigation to the Hudson River Valley, Stonehenge, and Sedona, Arizona, they visit the laboratory of experiments producer John Tindall.

48

00:05:40,627 --> 00:05:53,626

He has prepared a demonstration of how the enormous electrical energy generated by the Earth's molten core may emerge on our planet's surface in specific locations that could be referred to as vortexes.

49

00:05:54,626 --> 00:06:03,626

The Earth is one giant dynamo. It is making electricity on the inside, and the Earth's crust varies in terms of its resistance to electricity.

50

00:06:03,626 --> 00:06:16,625

So you can imagine at different locations around the Earth's crust, we have these different highly conductive tails, which are these concentrations of the various effects that cause the higher conductivity through the Earth's crust.

51

00:06:16,625 --> 00:06:22,625

These could hypothetically be located where we have our major grid vortex points.

52

00:06:22,625 --> 00:06:33,624

John places light bulbs representing Sedona, Stonehenge, and the Hudson River Valley on the metal globe. The light bulbs are not electrically connected, just clipped into position.

53

00:06:33,624 --> 00:06:39,624

This now represents your different hotbeds and some laying on lay lines.

54

00:06:39,624 --> 00:06:47,623

As John simulates the power generated by the movement of molten metal at the Earth's core, the current arcs to the light bulbs.

55

00:06:47,623 --> 00:06:55,623

Is electrical power reaching up to specific vortexes on our Earth's crust, and is it causing UFO activity?

56

00:06:57,623 --> 00:07:04,622

So in addition to picking up the electrical current, are the probes also drawing the current to it?

57

00:07:04,622 --> 00:07:08,622

They are grounded to this cage and the current is drawn to these probes.

58

00:07:08,622 --> 00:07:19,622

There is an attraction, much as different areas in the crust may conduct electricity a little bit more, and you'll have stronger magnetic fields as a result of that.

59

00:07:20,622 --> 00:07:33,621

To investigate the characteristics UFO hotspots seem to have in common around the world, the team first travels to the Hudson River Valley.

60

00:07:33,621 --> 00:07:45,620

We're here in the Hudson Valley and we're investigating the Earth's grid. Hudson Valley in New York is a spot where lines of energy meet and form a vortex.

61

00:07:46,620 --> 00:07:50,620

The memory of what happened here is still fresh to thousands of witnesses.

62

00:07:50,620 --> 00:07:56,620

Now, a theory involving the world grid could provide a clue as to why this is a vortex.

63

00:07:56,620 --> 00:08:02,619

The theory links all UFO hotspots with four defining characteristics.

64

00:08:02,619 --> 00:08:10,619

One, the area is considered sacred or hallowed and is frequently marked with ancient monuments or shrines.

65

00:08:10,619 --> 00:08:17,619

Two, there is a detectable energy field in the area that differs from the surrounding countryside.

66

00:08:17,619 --> 00:08:24,618

Three, there is a history of ongoing and regular UFO sightings or other anomalous experiences.

67

00:08:24,618 --> 00:08:29,618

And four, there is always a military presence nearby.

68

00:08:31,618 --> 00:08:35,618

Pine Bush, New York is about 65 miles north of New York City.

69

00:08:36,618 --> 00:08:45,617

Dr. Bruce Cornette is a PhD in geology who has been photographing and documenting strange aircraft in the skies here for over 16 years.

70

00:08:46,617 --> 00:08:57,616

Dr. Cornette's research leads him to believe the focal point for the phenomena is the Beth Hillel Cemetery on Route 52, approximately 3.5 miles southeast of Pine Bush.

71

00:08:58,616 --> 00:09:05,616

The area is believed to periodically generate magnetic pulses strong enough to cause airplane instruments to fail.

72

00:09:05,616 --> 00:09:11,616

Is this site a vortex and is it responsible for the area's anomalous activity?

73

00:09:12,616 --> 00:09:17,615

And it's this area where I got my start back in 1992.

74

00:09:17,615 --> 00:09:23,615

I discovered that this was an area of interest right in my own backyard.

75

00:09:23,615 --> 00:09:34,615

How did you associate the possibility of increased magnetic readings or anomalous magnetic readings with the presence of UFOs?

76

00:09:34,615 --> 00:09:42,614

This is a map that I generated from 1800 stations of data that shows the geology of the region.

77

00:09:42,614 --> 00:09:47,614

And if you notice running up the center of it, there are a lot of these strange oval anomalies.

78

00:09:47,614 --> 00:09:48,614

Why did I see that?

79

00:09:48,614 --> 00:10:00,613

And when you plot the activity in the valley in these yellow circles numbered, are all corresponding to these magnetic anomalies.

80

00:10:00,613 --> 00:10:14,612

The charts seem to show a direct correlation between areas of high magnetism and the appearance of strange lights and objects in the sky, including the many sightings of the 1981 to 1986 flap.

81

00:10:15,612 --> 00:10:20,612

This means that two of the four criteria for hotspots has been met.

82

00:10:20,612 --> 00:10:24,612

One, the area is a highly anomalous magnetic region.

83

00:10:24,612 --> 00:10:28,612

Two, it has an ongoing history of unexplained phenomena.

84

00:10:30,612 --> 00:10:36,611

I've had over 120 sightings or close encounters in this valley alone.

85

00:10:36,611 --> 00:10:42,611

And many times I've actually photographed or videotaped the event.

86

00:10:42,611 --> 00:10:49,611

This extraordinary time-lapse photograph shows an illuminated object which appears as a line of light.

87

00:10:49,611 --> 00:10:55,610

But what is most intriguing is the funnel-shaped field of light the craft passes through.

88

00:10:55,610 --> 00:11:02,610

It's long been speculated that UFOs may be able to travel to distant stars by creating wormholes.

89

00:11:02,610 --> 00:11:05,610

This would take vast amounts of energy.

90

00:11:06,610 --> 00:11:12,609

Perhaps alien craft are drawn to certain places because they can tap into energy fields.

91

00:11:12,609 --> 00:11:21,609

Is this photograph the first evidence of a UFO receiving energy from one of Earth's vortices?

92

00:11:23,609 --> 00:11:31,608

The team is in Pine Bush, New York, testing to see if the area meets the criteria that identify it as a UFO vortex.

93

00:11:32,608 --> 00:11:37,608

My interest as a scientist was to document what do we actually have going on here.

94

00:11:38,608 --> 00:11:45,608

On April 28, 1993, Dr. Cornet set up a camera and took this time-lapse photograph.

95

00:11:45,608 --> 00:11:51,607

On first glance, it could be the lights of an airplane painting a line across the screen.

96

00:11:51,607 --> 00:11:56,607

But Dr. Cornet believes it's something else, something not of this world.

97

00:11:56,607 --> 00:12:00,607

What makes you think these are not airplanes?

98

00:12:01,607 --> 00:12:05,606

With an airplane, you're going to get the lights moving in a fairly straight path.

99

00:12:05,606 --> 00:12:08,606

There's not going to be any motion to the lights.

100

00:12:08,606 --> 00:12:13,606

There's not going to be rapid changes in direction of the lights.

101

00:12:13,606 --> 00:12:16,606

It's going to be pretty much predictable.

102

00:12:16,606 --> 00:12:20,606

I discovered some very unusual things.

103

00:12:20,606 --> 00:12:24,605

The lights are not straight. They're looping.

104

00:12:25,605 --> 00:12:31,605

In a time exposure, the shutter is left open for an extended period of time.

105

00:12:31,605 --> 00:12:35,605

Any moving light will paint a line on the film.

106

00:12:35,605 --> 00:12:39,605

A blinking light that's moving will show up as a string of dots.

107

00:12:39,605 --> 00:12:44,604

In this photograph, the light source was spinning in tight circles,

108

00:12:44,604 --> 00:12:47,604

a maneuver that no known aircraft can execute.

109

00:12:47,604 --> 00:12:50,604

Is this a UFO?

110

00:12:51,604 --> 00:12:57,604

As a trained scientist, Cornet has been meticulous in documenting each sighting,

111

00:12:57,604 --> 00:13:02,603

noting down time, place, duration, distance and altitude.

112

00:13:02,603 --> 00:13:08,603

His extraordinary photographs appear to show lights flying too low to be conventional aircraft,

113

00:13:08,603 --> 00:13:13,603

executing impossible twists and turns, moving through energy fields,

114

00:13:13,603 --> 00:13:16,603

and appearing and disappearing.

115

00:13:16,603 --> 00:13:20,603

I've shown these to people and they said, well, you were bouncing the camera.

116

00:13:20,603 --> 00:13:25,602

Well, the camera was on a stable tripod and operated with an electronic shutter release.

117

00:13:25,602 --> 00:13:29,602

So there was no vibration in the camera.

118

00:13:29,602 --> 00:13:34,602

So the movement or the rotation that you see here in the lights is primary.

119

00:13:34,602 --> 00:13:36,602

It's coming from the source.

120

00:13:36,602 --> 00:13:41,601

Cornet uses a Minolta XGM camera with an electronic shutter release

121

00:13:41,601 --> 00:13:44,601

and motor driven film advance mounted on a tripod.

122

00:13:44,601 --> 00:13:49,601

Once the camera was oriented, it is never physically touched.

123

00:13:49,601 --> 00:13:52,601

Depending on the nature of the object in the sky,

124

00:13:52,601 --> 00:13:57,601

the film is exposed from as little as 10 seconds to as long as 47 seconds.

125

00:13:57,601 --> 00:14:03,600

We've looked at all of Bruce Cornet's pictures and this one in particular is very interesting.

126

00:14:03,600 --> 00:14:08,600

It does show a kind of break in the light signature of whatever this vehicle was, possibly a UFO.

127

00:14:08,600 --> 00:14:10,600

This could be a vortex.

128

00:14:10,600 --> 00:14:16,600

This extraordinary time lapse photograph, taken on April 28, 1993,

129

00:14:16,600 --> 00:14:21,599

shows an illuminated object which appears as a line of light.

130

00:14:21,599 --> 00:14:26,599

While it's difficult to judge the size and speed of an object in the night sky,

131

00:14:26,599 --> 00:14:31,599

it appeared to be about the size of a fighter plane moving at a relatively slow speed,

132

00:14:31,599 --> 00:14:37,598

between 30 and 45 miles per hour, far slower than a conventional craft.

133

00:14:38,598 --> 00:14:42,598

But most intriguing is the strange funnel shaped field of light

134

00:14:42,598 --> 00:14:45,598

the craft either creates or transverses.

135

00:14:45,598 --> 00:14:50,598

Experts have come to believe that this seminal photograph has captured a UFO

136

00:14:50,598 --> 00:14:57,597

apparently dissipating or dissolving as it encounters a powerful energy field over Pine Bush.

137

00:15:00,597 --> 00:15:06,597

The presence of anomalous energies has been cited as one of the four factors that identify UFO hotspots.

138

00:15:08,597 --> 00:15:13,597

Dr. Ted Acworth, an optical physicist, Bruce McAvie, analyzed the photograph.

139

00:15:13,597 --> 00:15:18,596

This is a stabilized camera. It's obviously not moving in a perfectly straight line.

140

00:15:18,596 --> 00:15:20,596

It looks like it's a wavy motion.

141

00:15:20,596 --> 00:15:23,596

It looks like a huge burst of oscillation at this point.

142

00:15:23,596 --> 00:15:27,596

Something happened, it made this image spread out and then contract again.

143

00:15:27,596 --> 00:15:30,596

I don't know, get off course or something like that.

144

00:15:30,596 --> 00:15:35,595

But then it shrinks back as if it was traveling along and then something happened

145

00:15:35,595 --> 00:15:37,595

and then it resumed where it was going.

146

00:15:37,595 --> 00:15:42,595

Now we can see these little dots along this image.

147

00:15:43,595 --> 00:15:49,595

If this is a constant pulse rate, then that sort of implies this thing was traveling along at some steady speed.

148

00:15:49,595 --> 00:15:56,594

I'm really curious about this one, it looks like some sort of a damped harmonic resonance.

149

00:15:56,594 --> 00:16:02,594

You're seeing something that's making that motion from a still camera or the camera is getting excited.

150

00:16:02,594 --> 00:16:06,594

Harmonic resonance would occur if the camera was vibrating.

151

00:16:06,594 --> 00:16:14,593

Jostling the camera would create a blur of light, but it would be symmetrical in shape, which does not appear to be the case here.

152

00:16:14,593 --> 00:16:16,593

You didn't hammer the camera now did you?

153

00:16:16,593 --> 00:16:20,593

No, I didn't. That was my initial guess.

154

00:16:20,593 --> 00:16:25,593

Imagine the field of view of the camera were to oscillate up and down like this over a short period of time.

155

00:16:26,593 --> 00:16:32,592

You'd get a series of things like this, I don't know how you'd get something like multiple light images,

156

00:16:32,592 --> 00:16:39,592

making this sort of a bunch of parallel lights, you've got a whole bunch of very fine filamentary curves there.

157

00:16:39,592 --> 00:16:48,591

I don't know what that means, but at the very least we can say this is unusual or bizarre, not expected,

158

00:16:48,591 --> 00:16:54,591

there's something strange going on, there certainly isn't any airplane that goes into a motion like that and lives.

159

00:16:55,591 --> 00:17:02,591

According to weather records for that night, there were no strange weather anomalies, there were no thunderstorms, lightning or rain,

160

00:17:02,591 --> 00:17:06,591

there were no reports of commercial or military aircraft over the area.

161

00:17:06,591 --> 00:17:12,590

Further, there was no reported comet or meteor activity visible in the area.

162

00:17:12,590 --> 00:17:22,590

The coordinate photo is one of the best pieces of evidence from a scientific standpoint that we've been able to collect around the concept of war-tex.

163

00:17:23,590 --> 00:17:31,589

The strange distortion could be evidence of an unusual energy pattern, the first criterion of hotspot correlation.

164

00:17:31,589 --> 00:17:41,589

The second criterion, that of continuing sightings and anomalous behavior, has been documented by Bruce Cornette's meticulous photographs.

165

00:17:41,589 --> 00:17:48,588

The Stuart Air National Guard Base in Newburgh, New York is 16 miles away from Pinebush.

166

00:17:48,588 --> 00:17:53,588

The third UFO hotspot criterion is the presence of military.

167

00:17:53,588 --> 00:17:58,588

The final criterion is that an area be considered sacred or hallowed.

168

00:17:58,588 --> 00:18:05,587

This would seem to be a remote possibility for a rural part of the Hudson River Valley, or is it?

169

00:18:05,587 --> 00:18:16,587

While some researchers cite the presence of a Jewish cemetery, there is another potentially sacred location just outside of town that continues to baffle UFO researchers.

170

00:18:17,587 --> 00:18:23,586

This quiet countryside seems a world away from the ancient monuments that dot the European landscape.

171

00:18:23,586 --> 00:18:34,586

But there are dozens of mysterious structures that suggest that some ancient people considered this land profoundly spiritual, hundreds if not thousands of years ago.

172

00:18:34,586 --> 00:18:39,586

In this area, there are a number of these standing stones with very ancient structures.

173

00:18:39,586 --> 00:18:47,585

And we are convinced that these structures date back to possibly as old as 2000 BC.

174

00:18:47,585 --> 00:18:57,585

Enigmatic stone chambers and standing stones dot the valley. Historians debate fiercely who constructed these impressively designed buildings.

175

00:18:57,585 --> 00:19:06,584

It's been suggested that they are the work of Native Americans, but the Algonquians tended to build their structures from the plentiful timber in the valley.

176

00:19:07,584 --> 00:19:12,584

Others believe the chambers are root cellars, constructed by early European settlers.

177

00:19:12,584 --> 00:19:17,584

But a root cellar built above ground won't protect vegetables during the winter.

178

00:19:17,584 --> 00:19:20,583

Why were these chambers constructed?

179

00:19:23,583 --> 00:19:32,583

Philip Imbrogno, author of *Celtic Mysteries*, believes that the chambers were built by ancient Celts who maintained a temporary colony in North America.

180

00:19:33,583 --> 00:19:40,582

Moreover, he believes the placement of the chambers proves that Celts were following a definite plan.

181

00:19:40,582 --> 00:19:45,582

This area seems to attract thousands and thousands of UFO sightings.

182

00:19:45,582 --> 00:19:56,581

And he can't explain why, except to say that perhaps it's the organized magnetic lines of the Earth that are almost kind of a magnet for UFOs themselves, almost like a highway.

183

00:19:56,581 --> 00:20:03,581

The chambers alignment to the stars does seem to match the alignment of ancient monuments in England and Ireland.

184

00:20:03,581 --> 00:20:09,581

And stone structures and monoliths played an important role in Celtic religious beliefs.

185

00:20:13,581 --> 00:20:18,580

Although no two chambers are identical, they do share some characteristics.

186

00:20:18,580 --> 00:20:22,580

Most are rectangular, with an interior approximately six feet high.

187

00:20:22,580 --> 00:20:27,580

The chambers are from 10 to 15 feet deep and six to seven feet wide.

188

00:20:27,580 --> 00:20:36,579

The walls are made from medium-sized stones, but the ceiling stones are usually seven feet long and one to two feet thick and wide.

189

00:20:36,579 --> 00:20:43,579

Like Stonehenge, they seem to be aligned to the position of the setting sun during winter solstice.

190

00:20:43,579 --> 00:20:46,579

What's the UFO connection to all this?

191

00:20:46,579 --> 00:20:52,579

The way I got interested into these chambers was because of my investigation into Hudson Valley UFO,

192

00:20:52,579 --> 00:20:58,578

where thousands of people from all walks of life saw an enormous object in the sky.

193

00:20:58,578 --> 00:21:04,578

So I plotted the general UFO reports on a map and I found that something interesting.

194

00:21:04,578 --> 00:21:08,578

They weren't scattered all over the place, they were concentrated in clusters.

195

00:21:08,578 --> 00:21:15,577

The first location we came to was in Lake Carmel, New York, and we're walking up the trail looking for something.

196

00:21:15,577 --> 00:21:22,577

And I come across an obelisk like this and a chamber, and I said, oh, that's interesting.

197

00:21:22,577 --> 00:21:25,577

Next location, another chamber.

198

00:21:26,577 --> 00:21:28,577

Correlating with a cluster?

199

00:21:28,577 --> 00:21:35,576

Yes. And next, and I said, after the third and fourth time, I said, this has got to be more than a coincidence.

200

00:21:35,576 --> 00:21:41,576

The location of these chambers and these stones has something to do with the idea of UFOs.

201

00:21:41,576 --> 00:21:43,576

There's a connection.

202

00:21:44,576 --> 00:21:52,575

According to Imbrogno, the Hudson Valley UFO sightings line up geographically with these enigmatic stone structures.

203

00:21:52,575 --> 00:21:57,575

There seems to be a strong correlation between, if not the chambers themselves,

204

00:21:57,575 --> 00:22:02,575

the area where the chambers are located and where these UFO sightings occur.

205

00:22:02,575 --> 00:22:08,574

It's not just speculation, there is a direct correlation between the UFO sightings,

206

00:22:08,574 --> 00:22:11,574

especially in the Hudson Valley and the location of these chambers.

207

00:22:11,574 --> 00:22:17,574

Hudson Valley, Sedona, Arizona, Stonehenge, England,

208

00:22:17,574 --> 00:22:22,574

all spots on the Earth's grid where energies form a vortex,

209

00:22:22,574 --> 00:22:29,573

and those vortexes are gateways, possibly to other universes or other dimensions.

210

00:22:31,573 --> 00:22:36,573

The team concludes the area around Pine Bush qualifies as a UFO vortex.

211

00:22:36,573 --> 00:22:40,573

When the next sight, Stonehenge is put to the test by the team.

212

00:22:40,573 --> 00:22:44,573

Will it prove to be more than just a famous tourist attraction?

213

00:22:44,573 --> 00:22:45,573

Very slowly.

214

00:22:45,573 --> 00:22:46,572

Look at that.

215

00:22:46,572 --> 00:22:48,572

We did not do that.

216

00:22:48,572 --> 00:22:53,572

Did its builders tap into a force that is still attracting something?

217

00:22:55,572 --> 00:23:00,572

Stonehenge is one of the most famous prehistoric sites in the world.

218

00:23:00,572 --> 00:23:08,571

5,000 years ago, an unknown people began erecting massive stones and aligning them with the sun and stars.

219

00:23:09,571 --> 00:23:13,571

Stonehenge is believed to sit on the intersection of several ley lines,

220

00:23:13,571 --> 00:23:18,571

and the criss-crossing of these lines could theoretically produce a kind of vortex

221

00:23:18,571 --> 00:23:22,571

responsible for the area's long history of anomalous sightings.

222

00:23:23,570 --> 00:23:28,570

A consistent history of phenomena and a reputation for being sacred,

223

00:23:28,570 --> 00:23:35,570

the team instantly concludes that two of the four criteria for indicating a UFO vortex are fulfilled.

224

00:23:36,570 --> 00:23:41,570

Salisbury Plain is the United Kingdom's largest military training area,

225

00:23:41,570 --> 00:23:46,569

with more than 12 military installations less than 20 miles from Stonehenge.

226

00:23:46,569 --> 00:23:52,569

In fact, during filming, the team, along with Stonehenge itself,

227

00:23:52,569 --> 00:23:57,569

was regularly rattled by the powerful sounds of nearby weapon testings.

228

00:23:57,569 --> 00:24:01,568

The third criterion for a vortex has been met.

229

00:24:01,568 --> 00:24:07,568

The team still needs to determine whether the area also contains abnormal energy signatures.

230

00:24:09,568 --> 00:24:14,568

The famous standing stones are only a small part of the Stonehenge complex.

231

00:24:14,568 --> 00:24:18,568

The area is ringed with barrows, ancient burial mounds.

232

00:24:18,568 --> 00:24:23,567

The barrows are reported to rest on the same energy fields as Stonehenge

233

00:24:23,567 --> 00:24:26,567

and also have had sightings associated with them.

234

00:24:27,567 --> 00:24:33,567

This is Kenneth Parsons, who's providing us with the 1990 David Tickle footage of UFOs

235

00:24:33,567 --> 00:24:37,567

that were shot over the burial mounds here at Stonehenge.

236

00:24:39,566 --> 00:24:42,566

On and off, there's a manifestation of something up here in the sky.

237

00:24:42,566 --> 00:24:47,566

It could be a UFO, or it could be related to these earth energies,

238

00:24:47,566 --> 00:24:52,566

but there's definitely a lot of activity, things are happening there on that mound.

239

00:24:52,566 --> 00:24:56,566

It could well be related to the ley lines here, and the earth energies.

240

00:24:56,566 --> 00:25:02,565

May 7th, 1990, record producer David Tickle is taking a leisurely drive

241

00:25:02,565 --> 00:25:05,565

across Salisbury Plain on his way to Guilford.

242

00:25:05,565 --> 00:25:11,565

At 3 o'clock, he stops at Stonehenge and videotapes the standing stones and the barrows

243

00:25:11,565 --> 00:25:13,565

with an analog video recorder.

244

00:25:13,565 --> 00:25:18,564

To his amazement, the camera captures something he can't explain.

245

00:25:19,564 --> 00:25:25,564

White objects seem to be appearing and disappearing in the sky over an oval barrel.

246

00:25:25,564 --> 00:25:31,564

At the same time, several black objects on the top of the barrel blink in and out of existence,

247

00:25:31,564 --> 00:25:35,563

apparently in sync with the objects in the sky.

248

00:25:35,563 --> 00:25:39,563

I think these objects could well follow the lay lines,

249

00:25:39,563 --> 00:25:45,563

because I mean, it's so close to the Stonehenge monument, over these barrows.

250

00:25:45,563 --> 00:25:49,563

That could well be a UFO, and these here could be earth energies.

251

00:25:49,563 --> 00:25:52,563

You keep seeing things popping up and down the mounds, black things.

252

00:25:52,563 --> 00:25:56,562

The objects in the sky could possibly be analog video artifacts,

253

00:25:56,562 --> 00:26:03,562

flaws that appear when an ultra-bright object overrides the circuitry and produces a false image.

254

00:26:03,562 --> 00:26:07,562

But that doesn't explain the dark images appearing on the mound,

255

00:26:07,562 --> 00:26:14,561

nor is there any explanation of why the dark balls are appearing and disappearing in time with the white objects.

256

00:26:16,561 --> 00:26:20,561

Now, why is the UFO seeming to like, wink in and out of existence?

257

00:26:20,561 --> 00:26:23,561

I don't understand why. It appears and disappears and appears and disappears.

258

00:26:23,561 --> 00:26:25,561

This is how these objects often operate.

259

00:26:25,561 --> 00:26:29,561

They seem to be dimension hoppers, they will go in and out of our reality.

260

00:26:29,561 --> 00:26:33,560

You're saying that the UFOs aren't attracted to this area,

261

00:26:33,560 --> 00:26:35,560

they can't make this sent out from...

262

00:26:35,560 --> 00:26:39,560

I have seen them attracted to these sites as well.

263

00:26:39,560 --> 00:26:44,560

But I've never seen this where you've got the energies and the UFO all on tape like that.

264

00:26:44,560 --> 00:26:46,560

That's extraordinary.

265

00:26:46,560 --> 00:26:49,560

While the team finds the video evidence impressive,

266

00:26:49,560 --> 00:26:54,559

the low quality of the analog tape calls the footage into question.

267

00:26:54,559 --> 00:27:02,559

Tickle and Parsons, however, are convinced that this footage is indeed evidence of Earth energies and UFOs over Stonehenge.

268

00:27:02,559 --> 00:27:09,558

UFOs seem to travel along the lines, along the energy grid, as if they're attracted to it.

269

00:27:09,558 --> 00:27:17,558

But in this particular case, what we saw over the barrow was that UFOs seem to be winking in and out of existence,

270

00:27:17,558 --> 00:27:20,558

almost as though they're traveling in between dimensions.

271

00:27:24,558 --> 00:27:28,557

Moving on to the famous standing stones at the center of the Stonehenge complex,

272

00:27:28,557 --> 00:27:32,557

the team meets with Maria Weedley and Leslie Taylor.

273

00:27:32,557 --> 00:27:36,557

As we shall have special access to the stones, let's go in and see if we can find a lay line.

274

00:27:36,557 --> 00:27:40,557

The team is curious to see if they can trace intersecting lines of energy,

275

00:27:40,557 --> 00:27:45,557

which are said to lie under Stonehenge, with the ancient art of dousing.

276

00:27:45,557 --> 00:27:53,556

Dousers believe that when a sensitive person passes over a line of force, involuntary muscle movements occur.

277

00:27:53,556 --> 00:27:59,556

Hand-held sticks or metal rods exaggerate the tiny movements and make them more visible.

278

00:27:59,556 --> 00:28:02,556

The dousing rod has no intrinsic power of its own.

279

00:28:02,556 --> 00:28:07,555

It acts only as an indicator of forces being detected by the human body.

280

00:28:07,555 --> 00:28:09,555

Lay lines are lines of force.

281

00:28:09,555 --> 00:28:13,555

An ancient site, such as Stonehenge, was sighted upon these lines.

282

00:28:13,555 --> 00:28:18,555

So if we stand just about here and I walk across the grass here,

283

00:28:18,555 --> 00:28:24,555

my rod should cross roughly about there and about four or five paces further on.

284

00:28:24,555 --> 00:28:28,554

And that's the width of the energy band coming in towards the altar stone.

285

00:28:28,554 --> 00:28:32,554

And the altar stone was over there. It was the central piece in the monument.

286

00:28:35,554 --> 00:28:38,554

And there we go. There's the first reaction.

287

00:28:42,554 --> 00:28:47,553

And there's the second reaction, which is perfectly in line with the hillstone.

288

00:28:48,553 --> 00:28:49,553

Do you like a go?

289

00:28:49,553 --> 00:28:51,553

That's amazing. Sure.

290

00:28:51,553 --> 00:28:56,553

Maria claims she has discovered one of the lines of energy running through Stonehenge.

291

00:28:57,553 --> 00:29:00,553

Pat attempts to duplicate her findings.

292

00:29:00,553 --> 00:29:01,553

I am walking.

293

00:29:05,552 --> 00:29:06,552

It's doing a thing.

294

00:29:06,552 --> 00:29:08,552

It didn't really go all the way to the side.

295

00:29:08,552 --> 00:29:10,552

It's going, it's pointing that way now.

296

00:29:10,552 --> 00:29:11,552

I swear I'm not doing anything.

297

00:29:11,552 --> 00:29:13,552

I'm just walking very slowly.

298

00:29:14,552 --> 00:29:15,552

Look at that.

299

00:29:16,552 --> 00:29:17,552

I did not do that.

300

00:29:17,552 --> 00:29:19,552

Look, it's right by that side.

301

00:29:19,552 --> 00:29:20,552

I am not doing that.

302

00:29:20,552 --> 00:29:22,551

Well done. Well done.

303

00:29:23,551 --> 00:29:27,551

It really did turn. It turned both times.

304

00:29:27,551 --> 00:29:31,551

And I have to say I was really weirded out by it.

305

00:29:31,551 --> 00:29:34,551

I've never done it before and I wasn't sure what to make of it.

306

00:29:34,551 --> 00:29:37,551

But it did turn. So there is something to it.

307

00:29:37,551 --> 00:29:42,550

Ted wants to see if Maria and Pat are reacting to some form of magnetic field.

308

00:29:43,550 --> 00:29:47,550

The team retraces the path where the Daucingrads initially reacted.

309

00:29:47,550 --> 00:29:51,550

But this time, Ted scans the area with a handheld magnetometer,

310

00:29:51,550 --> 00:29:55,550

which will indicate the strength and direction of any magnetism.

311

00:30:00,549 --> 00:30:01,549

Okay, stop.

312

00:30:03,549 --> 00:30:04,549

Zero.

313

00:30:05,549 --> 00:30:06,549

Maybe it's not magnetic field.

314

00:30:07,549 --> 00:30:08,549

That's the obvious conclusion.

315

00:30:08,549 --> 00:30:10,549

That it's not a magnetic field.

316

00:30:15,549 --> 00:30:16,549

No reading here.

317

00:30:17,549 --> 00:30:20,548

Although the magnetometer showed no reading,

318

00:30:20,548 --> 00:30:23,548

both Maria and Pat detected lines of energy.

319

00:30:23,548 --> 00:30:27,548

I don't see any magnetic effect going on here.

320

00:30:27,548 --> 00:30:30,548

Ted decides to change one key element of the test

321

00:30:30,548 --> 00:30:33,548

to see whether the Daucingrads will still work.

322

00:30:33,548 --> 00:30:36,547

He is amazed at the results.

323

00:30:36,547 --> 00:30:37,547

I got pretty excited about that.

324

00:30:37,547 --> 00:30:40,547

Could this be proof positive that some unknown force

325

00:30:40,547 --> 00:30:44,547

energizes the countryside around Stonehenge?

326

00:30:45,547 --> 00:30:49,547

Could this be the same unknown force that makes Sedona, Arizona

327

00:30:49,547 --> 00:30:52,547

a reported UFO hotspot?

328

00:30:54,547 --> 00:31:00,546

At Stonehenge, Pat and Maria use Daucingrads to discover a hidden line of force.

329

00:31:00,546 --> 00:31:05,546

To test whether Pat was subconsciously duplicating Maria's findings,

330

00:31:05,546 --> 00:31:08,546

Ted brings interned Jeff Tonlinson to the site,

331

00:31:08,546 --> 00:31:12,546

blindfolds him, and leads him down the same path.

332

00:31:12,546 --> 00:31:15,545

Jeff has been told nothing about laylines

333

00:31:15,545 --> 00:31:17,545

or Maria and Pat's Daucing experiment.

334

00:31:17,545 --> 00:31:20,545

Well, first he arrived to the site and he had never been there.

335

00:31:20,545 --> 00:31:24,545

We blindfolded him so he couldn't see where he was at the site.

336

00:31:24,545 --> 00:31:26,545

And guess what happened?

337

00:31:26,545 --> 00:31:28,545

It moved three times.

338

00:31:28,545 --> 00:31:29,545

We did three tests.

339

00:31:29,545 --> 00:31:30,545

We did repeatability as well.

340

00:31:30,545 --> 00:31:33,544

I got pretty excited about that because, you know,

341

00:31:33,544 --> 00:31:36,544

I was a little skeptical this morning because we had a professional Daucer.

342

00:31:36,544 --> 00:31:38,544

You know, there's a lot of bias in that.

343

00:31:38,544 --> 00:31:41,544

So I was looking for another measurement with our guinea pig,

344

00:31:41,544 --> 00:31:43,544

you know, somebody who isn't a Daucer.

345

00:31:43,544 --> 00:31:47,544

Even blindfolded and having no prior knowledge of the area,

346

00:31:47,544 --> 00:31:52,543

Jeff's Daucing rod moved at the same place as Maria's and Pat's.

347

00:31:52,543 --> 00:31:55,543

There's one more piece of bias that we have to be concerned about

348

00:31:55,543 --> 00:31:59,543

and that's the idea that you can tip and tilt, you know, this

349

00:31:59,543 --> 00:32:01,543

and force it to go there or there.

350

00:32:01,543 --> 00:32:02,543

Especially walking on a pen and a pen.

351

00:32:02,543 --> 00:32:03,543

Yeah.

352

00:32:03,543 --> 00:32:06,543

So we developed this impromptu pendulum system,

353

00:32:06,543 --> 00:32:11,542

which basically hangs vertically straight to the ground.

354

00:32:11,542 --> 00:32:18,542

We removed Jeff's ability to turn his hand and, low and behold, it didn't work.

355

00:32:18,542 --> 00:32:20,542

Interesting.

356

00:32:20,542 --> 00:32:22,542

Yeah, so we did it six times.

357

00:32:22,542 --> 00:32:27,542

So when you eliminate the human touch, the rod doesn't move.

358

00:32:27,542 --> 00:32:32,541

Is this proof that energy vortexes can be detected?

359

00:32:32,541 --> 00:32:39,541

So does that mean that you as a scientist think that there may be something to the lay line?

360

00:32:39,541 --> 00:32:45,541

I meant to be an objective scientific observer here and not be biased.

361

00:32:45,541 --> 00:32:50,540

I have to admit, after that first test we did, I was pretty excited.

362

00:32:50,540 --> 00:32:55,540

We know that birds use the Earth's magnetic field to navigate when migrating.

363

00:32:55,540 --> 00:33:01,540

So the idea that people can also detect energy through a means not yet fully understood is plausible.

364

00:33:02,540 --> 00:33:09,539

The team feels their experiments here support the theory that the human body can detect Earth's energies.

365

00:33:10,539 --> 00:33:17,539

The team concludes Stonehenge satisfies all four criteria for UFO vortex detection.

366

00:33:17,539 --> 00:33:19,539

But is it a vortex?

367

00:33:21,539 --> 00:33:28,538

The team returns to the U.S. to see if one of the most puzzling sites in North America, Sedona, Arizona,

368

00:33:28,538 --> 00:33:32,538

can meet the definition of UFO vortex as well.

369

00:33:34,538 --> 00:33:43,538

Sedona, Arizona, approximately 115 miles north of Phoenix, is famous for the spectacular mountains of red stone which ring the area.

370

00:33:43,538 --> 00:33:52,537

The color comes from a high concentration of iron, which some believe acts as a powerful conductor of magnetic and electrical energies.

371

00:33:53,537 --> 00:33:58,537

Could this be the explanation for Sedona's long history of inexplicable phenomena?

372

00:33:59,537 --> 00:34:06,536

The Sedona area has the highest per capita rate of UFO sightings in the United States, according to the team.

373

00:34:07,536 --> 00:34:11,536

Sedona is one of the great UFO hotspots.

374

00:34:11,536 --> 00:34:14,536

It's got a lot of legend, got a lot of history.

375

00:34:14,536 --> 00:34:26,535

People have come to Sedona specifically to climb places like Bell Rock and look at Castle Rock and all the wonderful places where they say UFOs just kind of come out through the gateway.

376

00:34:27,535 --> 00:34:34,535

The team meets UFO researcher Chris O'Brien, who has spent years compiling a database of local anomalous phenomena.

377

00:34:35,535 --> 00:34:42,534

O'Brien formulated the four criteria of UFO vortex areas that the team has been using in their investigation.

378

00:34:43,534 --> 00:34:52,534

Very early on I noticed patterns of activity and I noticed that there seemed to be quite a number of reports that were coming along specific areas in the valley.

379

00:34:53,534 --> 00:34:58,534

Reports of strange earth type lights or orbs, fireballs from green, orange, yellow, red, blue.

380

00:34:59,534 --> 00:35:03,533

They all seem to be coming from these areas or centered around these areas.

381

00:35:03,533 --> 00:35:09,533

One of the things that I did early on was get a composite map, an aeromagnetic map of the area.

382

00:35:10,533 --> 00:35:12,533

It delineates out field strength in the Earth's magnetic field.

383

00:35:13,533 --> 00:35:19,532

This US Geological Survey map clearly shows the strengths of magnetic fields in the area.

384

00:35:20,532 --> 00:35:25,532

As shown by the key on the right, the highest readings are red, magenta and pink.

385

00:35:25,532 --> 00:35:32,532

The strength of the magnetic field of the Sedona Mountains can be up to 500 times that of the surrounding countryside.

386

00:35:33,532 --> 00:35:35,532

You see clusters of UFOs around certain areas?

387

00:35:36,532 --> 00:35:37,532

Exactly, it actually seems of them.

388

00:35:38,531 --> 00:35:45,531

And you plot them geographically in X, Y space on the map and you're seeing from a completely separate data source,

389

00:35:46,531 --> 00:35:48,531

which is magnetic field data from the government, a correlation there.

390

00:35:48,531 --> 00:35:55,531

O'Brien has used the four criteria of UFO hotspots while researching UFO reports in Sedona.

391

00:35:56,530 --> 00:36:02,530

I tried to look at what commonalities were there from one area to the next area to the next area

and I found out four things.

392

00:36:03,530 --> 00:36:07,530

One, there appears to be some sort of geophysical anomalies going on there.

393

00:36:08,530 --> 00:36:09,530

Like the magnetic gradients.

394

00:36:10,530 --> 00:36:15,529

There tends to be some sort of legends or just a sense of sacredness.

395

00:36:15,529 --> 00:36:20,529

There are sacred sites in areas that have been held in high esteem by the indigenous people.

396

00:36:21,529 --> 00:36:25,529

The military is there and there is some sort of nearby military or government presence generally.

397

00:36:26,529 --> 00:36:30,529

And there seems to be an ongoing history of activity.

398

00:36:31,529 --> 00:36:34,528

The military's presence here is subtle but definite.

399

00:36:35,528 --> 00:36:41,528

Many people have spoken of encounters with khaki uniformed soldiers who prevented them from entering certain sites.

400

00:36:41,528 --> 00:36:46,528

Ten years ago, the Forestry Service quietly purchased the Bradshaw Ranch,

401

00:36:47,528 --> 00:36:50,528

reputed to be the busiest location for anomalous sightings in the area.

402

00:36:51,528 --> 00:36:55,527

The land was immediately posted and all visitors turned back by guards.

403

00:36:56,527 --> 00:37:01,527

Why would a small, out-of-the-way ranch suddenly become a high security area?

404

00:37:02,527 --> 00:37:07,527

Many residents believe that the Forestry Service is acting as a front for the military.

405

00:37:08,527 --> 00:37:14,526

To test the claim that the skies over Sedona are regularly home to unearthly visitors,

406

00:37:15,526 --> 00:37:19,526

Ted and Jeff set up a camera which will take photographs throughout the night.

407

00:37:20,526 --> 00:37:25,526

They train their sights on a mountainous area where activity is being constantly reported.

408

00:37:26,526 --> 00:37:29,526

So Jeff, here we are just underneath Castle Rock.

409

00:37:30,526 --> 00:37:31,525

I mean, you can see it right here above us.

410

00:37:32,525 --> 00:37:33,525

So we've got two camera systems set up.

411

00:37:34,525 --> 00:37:35,525

One's a video, one stills.

412

00:37:35,525 --> 00:37:37,525

The still system here, this is cool.

413

00:37:38,525 --> 00:37:39,525

It's an automated time delay.

414

00:37:40,525 --> 00:37:42,525

Right now it's exposing for 60 seconds.

415

00:37:43,525 --> 00:37:46,525

You know, a lot of the testimonies from people who said they were observing UFOs,

416

00:37:47,525 --> 00:37:50,524

that they never saw them with a naked eye, but they were using camera equipment.

417

00:37:51,524 --> 00:37:54,524

And it's when they reviewed the video or the still after the fact that they saw it.

418

00:37:55,524 --> 00:37:57,524

I hope that by leaving this running overnight tonight,

419

00:37:58,524 --> 00:38:01,524

we'll capture an awful lot of time on both the video and the still,

420

00:38:01,524 --> 00:38:04,524

and we'll review it tomorrow and maybe we'll get lucky and capture something.

421

00:38:06,524 --> 00:38:10,523

The time-lapse camera is recording the night sky in search of anomalies,

422

00:38:11,523 --> 00:38:13,523

and the next morning brings a surprise.

423

00:38:15,523 --> 00:38:19,523

Is this a video of a UFO in the Sedona skies?

424

00:38:21,523 --> 00:38:26,523

Sedona, Arizona is believed to be one of the most active UFO encounter sites on Earth.

425

00:38:26,523 --> 00:38:29,522

Ted and Jeff have set up two cameras trained to the night sky,

426

00:38:30,522 --> 00:38:32,522

in hopes of capturing an anomalous object.

427

00:38:33,522 --> 00:38:35,522

I think we have a pretty good odds of catching something.

428

00:38:36,522 --> 00:38:40,522

The team meets a group of Sedona residents,

429

00:38:41,522 --> 00:38:45,522

each of whom claims to have witnessed either UFO or paranormal activity.

430

00:38:46,521 --> 00:38:49,521

I saw a big flash, and I took a series of about 30 photos,

431

00:38:50,521 --> 00:38:53,521

and in there I could actually see like a big,

432

00:38:53,521 --> 00:38:55,521

red ball with a blue tail on it.

433

00:38:57,521 --> 00:39:00,521

Do you feel like the energy is concentrated specifically around the various vortex areas?

434

00:39:01,521 --> 00:39:02,521

There's all Sedona.

435

00:39:03,521 --> 00:39:04,521

I think it's stronger around the vortexes,

436

00:39:05,520 --> 00:39:07,520

but I think that when you're in Sedona,

437

00:39:08,520 --> 00:39:11,520

even if you're not by a vortex, you can still feel the energy in town.

438

00:39:12,520 --> 00:39:15,520

This gigantic thing that was shaped around like this,

439

00:39:16,520 --> 00:39:18,520

and it tilted down towards me,

440

00:39:19,520 --> 00:39:22,520

and I saw all of the objects that were in the vortex.

441

00:39:23,520 --> 00:39:27,519

All these lights, and then it just collapsed in on itself and disappeared.

442

00:39:28,519 --> 00:39:32,519

Is it possible that this Sedona witness saw a UFO event

443

00:39:33,519 --> 00:39:36,519

similar to that captured by Dr. Bruce Cornette's camera over the Hudson Valley?

444

00:39:37,519 --> 00:39:42,518

One time saw a big, huge black triangle, made no sound,

445

00:39:43,518 --> 00:39:44,518

and then all of a sudden just begun.

446

00:39:45,518 --> 00:39:48,518

Some of the witnesses believe that the Earth energy of the area

447

00:39:48,518 --> 00:39:52,518

is responsible for the mysterious lights seen dancing in the Sedona mountains.

448

00:39:53,518 --> 00:39:56,518

I saw two crimson orbs of light, spheres,

449

00:39:57,518 --> 00:39:59,518

and they were about 50 feet across, and these things were alive.

450

00:40:00,518 --> 00:40:04,517

Over the past few years, with digital camera use more widespread,

451

00:40:05,517 --> 00:40:10,517

Sedona is quickly being revealed as home to far more anomalous sightings than had been suspected.

452

00:40:11,517 --> 00:40:13,517

You can't see things with the naked eye,

453

00:40:14,517 --> 00:40:15,517

and you have a camera set up,

454

00:40:15,517 --> 00:40:17,517

and then when you slow the camera down,

455

00:40:18,517 --> 00:40:20,516

suddenly you're seeing images that you did not see with the naked eye

456

00:40:21,516 --> 00:40:22,516

and did not see at normal speed.

457

00:40:23,516 --> 00:40:27,516

When you look at the range of experiences that we've had,

458

00:40:28,516 --> 00:40:29,516

it's overwhelming.

459

00:40:30,516 --> 00:40:31,516

This is more than a hotspot.

460

00:40:32,516 --> 00:40:35,516

It's as if whatever makes Sedona Sedona,

461

00:40:36,516 --> 00:40:39,515

it is clearly some kind of an interdimensional gateway.

462

00:40:42,515 --> 00:40:44,515

There are strong magnetic fields in the area,

463

00:40:45,515 --> 00:40:48,515

that fulfill Chris O'Brien's first criterion for vortexes.

464

00:40:49,515 --> 00:40:53,515

Thousands of witnesses of strange phenomena prove the second requirement.

465

00:40:54,515 --> 00:40:57,515

The native people believed Sedona was sacred,

466

00:40:58,514 --> 00:41:03,514

and tens of thousands of pilgrims to the area attest that the belief is still alive.

467

00:41:04,514 --> 00:41:08,514

And the cryptic actions of the military in supposedly acquiring the Bradshaw Ranch

468

00:41:09,514 --> 00:41:12,514

fulfill O'Brien's fourth criterion for vortexes.

469

00:41:12,514 --> 00:41:15,514

But if Sedona is a UFO vortex,

470

00:41:16,514 --> 00:41:19,513

did the team's overnight camera capture any proof?

471

00:41:20,513 --> 00:41:26,513

It is overly optimistic to expect to capture a UFO with only one night of filming.

472

00:41:27,513 --> 00:41:29,513

But when they examine the tape the next morning,

473

00:41:30,513 --> 00:41:33,513

Ted and Jeff realize they've captured several faint anomalies.

474

00:41:34,513 --> 00:41:37,512

Unknown lights in the sky seem to move across the frame.

475

00:41:43,512 --> 00:41:48,512

Ted concludes that the lights are a commercial plane in the distance, nothing more.

476

00:41:49,512 --> 00:41:51,512

This sighting can be explained,

477

00:41:52,512 --> 00:41:55,511

but how about the 120 reports of sightings in Arizona

478

00:41:56,511 --> 00:41:59,511

filed with the National UFO Research Council in the past year?

479

00:42:00,511 --> 00:42:04,511

Sedona does seem to be a hotspot, if you will,

480

00:42:05,511 --> 00:42:09,511

of this kind of activity or sightings, let's just say.

481

00:42:09,511 --> 00:42:14,510

There are statistically many more testimonial evidence here in Sedona than there are elsewhere.

482

00:42:15,510 --> 00:42:17,510

So we know that, and that's that.

483

00:42:19,510 --> 00:42:22,510

What we don't know far outweighs what we do know,

484

00:42:23,510 --> 00:42:26,510

meaning that we don't really have a full understanding of the universe yet.

485

00:42:27,510 --> 00:42:31,510

And I know that our knowledge of the planet is still pretty much in its infancy.

486

00:42:32,509 --> 00:42:35,509

I think we've lent a certain amount of credibility to that concept

487

00:42:35,509 --> 00:42:38,509

that perhaps there are these sort of conductive pathways

488

00:42:39,509 --> 00:42:42,509

that lead to certain points on the surface that could bring more current

489

00:42:43,509 --> 00:42:45,509

or more electricity to surface at various positions

490

00:42:46,509 --> 00:42:49,509

that may or may not coincide with these vortexes or gateway positions.

491

00:42:50,509 --> 00:42:57,508

We found a lot, but, and what we've found really comported with everything we've been doing scientifically so far,

492

00:42:58,508 --> 00:43:01,508

and yet there's so much more we don't know that we can't discount anything.

493

00:43:01,508 --> 00:43:07,508

There could be forces that we have yet to discover that we don't presently recognize.

494

00:43:08,508 --> 00:43:19,507

For every single claim about UFOs or paranormal events occurring at all of these places was real.

495

00:43:20,507 --> 00:43:23,507

Whatever these quote-unquote energies are in this quote-unquote world grid

496

00:43:24,507 --> 00:43:27,507

are something that are unmeasurable by scientific instruments

497

00:43:28,506 --> 00:43:30,506

and they're only measurable by people.

498

00:43:31,506 --> 00:43:37,506

The Earth contains dozens of sites associated with strange phenomenon and inexplicable experiences.

499

00:43:38,506 --> 00:43:45,506

Despite advances in science and technology, all we're often left with is the same sense of awe and wonder

500

00:43:46,506 --> 00:43:50,505

our ancestors felt when they too came face to face with the unknown.

501

00:43:51,505 --> 00:43:57,505

But in the cases of these UFO hotspots and vortexes, we might be one step closer to the truth

502

00:43:57,505 --> 00:44:04,505

if these criteria can not only explain areas of high activity, but predict future sightings.

503

00:44:05,505 --> 00:44:10,504

After a worldwide search, we can guess why a UFO might visit these areas.

504

00:44:11,504 --> 00:44:14,504

But even so, one question remains.

505

00:44:15,504 --> 00:44:19,504

If they are real, what do they want?
