

1

00:00:00,031 --> 00:00:14,032

In the 1950s, following the incident at Roswell, New Mexico, a wave of people around the world came forward claiming to have made contact with extraterrestrial beings.

2

00:00:14,032 --> 00:00:24,034

Some claimed to have seen them up close, others claimed to have been taken aboard craft, and others even claimed a complete dialogue with their alien counterparts.

3

00:00:25,034 --> 00:00:32,034

Most of these claims were dismissed as hoaxes, and the rest remained unproven until now.

4

00:00:32,034 --> 00:00:40,035

Two men have come forward, 500 miles apart, with documented video evidence of repeated close encounters.

5

00:00:40,035 --> 00:00:43,036

You're going to see I'm going to flip the camera right now infrared.

6

00:00:43,036 --> 00:00:45,036

I've never seen anything like that.

7

00:00:45,036 --> 00:00:49,036

Both are seeing strange spheres, lights, and orbs.

8

00:00:49,036 --> 00:00:53,037

I drive up to this orb, the orb becomes two orbs.

9

00:00:53,037 --> 00:00:55,037

Both are feeling communication.

10

00:00:55,037 --> 00:01:01,037

I truly believe that's what all this is leading to, a meeting with biological entities.

11

00:01:01,037 --> 00:01:04,038

Could they share the same medical anomaly?

12

00:01:04,038 --> 00:01:06,038

There is an abnormality here.

13

00:01:06,038 --> 00:01:18,039

For the first time on national television, will their shocking video footage and medical test results finally provide solid evidence that alien contact has occurred?

14

00:01:18,039 --> 00:01:20,039

I've had contact my whole life.

15

00:01:20,039 --> 00:01:26,040

This is case number 58105, Alien Contact.

16

00:01:26,040 --> 00:01:55,043

On September 5th, 1977, the Voyager 1 spacecraft left Earth carrying state-of-the-art scientific instruments on its journey towards Jupiter, Saturn, and beyond.

17

00:01:55,043 --> 00:02:02,044

and beyond. But the craft was also carrying something else, a 12-inch gold-plated copper

18

00:02:02,444 --> 00:02:09,445

disk. The disk was encoded with 115 images, greetings in 55 languages, natural sounds of

19

00:02:10,925 --> 00:02:17,926

weather, animals and the ocean. All hand-picked by Carl Sagan and fellow astronomers.

20

00:02:19,326 --> 00:02:24,446

According to NASA, this golden record was designed, quote, to carry a greeting to any

21

00:02:24,446 --> 00:02:30,967

form of life should that be encountered. The disk was inscribed with visual instructions

22

00:02:30,967 --> 00:02:36,528

on how to play the record and decode the images, and also with a pulsar map that defined the

23

00:02:36,528 --> 00:02:43,528

location of our sun through a mathematical code. After 30 years, the data captured by

24

00:02:43,528 --> 00:02:50,529

Voyager 1 continues to be transmitted to Earth, but in its more than 9 billion miles of exploration,

25

00:02:50,529 --> 00:02:57,290

Voyager hasn't encountered extraterrestrial contact as far as we know. As Voyager continues

26

00:02:57,290 --> 00:03:02,810

its journey into deep space, human attempts to contact an alien race have only become

27

00:03:02,810 --> 00:03:09,811

more advanced. Ever since 1961, leading astronomers and scientists around the world have engaged

28

00:03:10,571 --> 00:03:17,572

in a program called SETI, the Search for Extraterrestrial Intelligence. The mission of SETI is, quote,

29

00:03:18,252 --> 00:03:25,253

to explore, understand and explain the origin, nature and prevalence of life in the universe.

30

00:03:26,973 --> 00:03:32,654

One of its primary facilities is the Allen Telescope Array in Hat Creek, California,

31

00:03:32,654 --> 00:03:39,654

290 miles northeast of San Francisco. The Allen Array is a collection of radio telescopes

32

00:03:39,854 --> 00:03:45,655

designed in part to survey thousands of stars for possible broadcast and electronic contact

33

00:03:45,655 --> 00:03:52,656

from deep space. The team begins their investigation into alien contact at the array with senior

34

00:03:53,896 --> 00:03:56,296

astronomer Seth Shostak.

35

00:03:56,296 --> 00:04:00,817

The idea is that all these little antennas, when connected together, can actually operate

36

00:04:00,817 --> 00:04:06,497

like one big one. It's in fact just a big metal ear that we can aim at nearby stars

37

00:04:06,497 --> 00:04:10,057

and hope to pick up something. Everything that we found out about the universe in the

38

00:04:10,057 --> 00:04:15,298

past 20, 30, 40 years has all pointed in one direction, namely that what's happened on

39

00:04:15,298 --> 00:04:19,418

this planet may not be a miracle. You're saying that the universe could be filled with life.

40

00:04:19,418 --> 00:04:23,619

It's looking more and more optimistic all the time. I mean, the chances seem pretty good.

41

00:04:23,619 --> 00:04:28,779

But in order to authenticate any legitimate signal, SETI must first sift through the congested

42

00:04:28,779 --> 00:04:34,060

traffic of signals that originate from Earth. Government and telecommunications satellites

43

00:04:34,060 --> 00:04:40,021

must be ruled out, radar from local airplanes and airports disqualified, and other man-made

44

00:04:40,101 --> 00:04:47,101

interference like radio and TV signals discounted. The process sometimes produces what SETI scientists

45

00:04:47,181 --> 00:04:52,822

refer to as false alarms, signals that at first appear to have an extraterrestrial

46

00:04:52,822 --> 00:04:55,302

source.

47

00:04:55,302 --> 00:05:02,303

One of SETI's most controversial alarms was the WOW signal, detected on August 15, 1977

48

00:05:02,703 --> 00:05:08,824

at the SETI project at Ohio State University. The signal was seen on a computer printout

49

00:05:08,824 --> 00:05:15,824

by Dr. Jerry R. Amon, who circled it and wrote WOW. He was amazed that the data closely

50

00:05:15,904 --> 00:05:21,425

resembled what they thought an alien signal might look like. The strong signal lasted

51

00:05:21,425 --> 00:05:26,906

for 72 seconds, and it seemed to have further characteristics that were not consistent with

52

00:05:26,906 --> 00:05:30,426

Earthly or Solar System origins.

53

00:05:30,426 --> 00:05:35,147

Within about a minute after that first signal was detected, a second receiver on that antenna

54

00:05:35,147 --> 00:05:39,747

looked in the same spot on the sky at the same spot on the radio dot. It didn't see

55

00:05:39,747 --> 00:05:45,348

it. So when you see something once, not science.

56

00:05:45,348 --> 00:05:50,268

But there could be a possible justification for the signal's disappearance. If an alien

57

00:05:50,268 --> 00:05:55,189

beacon was transmitting a signal intermittently, the telescopes would need to be pointed at

58

00:05:55,189 --> 00:06:01,629

the original source point until the next signal arrived. But scientists have no idea how long

59

00:06:01,629 --> 00:06:08,230

that cycle could be. It could take minutes, hours, days, or even years for the next one

60

00:06:08,230 --> 00:06:10,270

to arrive.

61

00:06:10,270 --> 00:06:15,471

Since scientists point the array at areas they find of interest on that day, it is possible

62

00:06:15,471 --> 00:06:20,111

to miss a transmission if the dishes are pointed away.

63

00:06:20,111 --> 00:06:26,232

Several attempts have been made to find the WOW signal since, but with no further appearances,

64

00:06:26,232 --> 00:06:29,272

science is left without an explanation.

65

00:06:29,272 --> 00:06:34,193

There are people like me who believe that there is intelligent life out there and they

66

00:06:34,193 --> 00:06:38,953

believe it enough to actually be listening 24-7.

67

00:06:38,953 --> 00:06:44,034

Inside the array's lab, the team sees first hand the detailed process of how the SETI

68

00:06:44,034 --> 00:06:47,874

scientists search for evidence of alien contact.

69

00:06:47,874 --> 00:06:52,235

If there are 56 million channels out there now and you're sampling them once a second,

70

00:06:52,235 --> 00:06:55,475

well that's 56 megabytes a second.

71

00:06:55,475 --> 00:06:58,835

What I actually discovered is that we have a lot in common with Seth Shostak and the people

72

00:06:58,835 --> 00:07:03,156

at SETI. We're really looking for the same thing. Some sort of proof that we have some

73

00:07:03,156 --> 00:07:04,356

cosmic company.

74

00:07:04,356 --> 00:07:10,197

You say they're there, we say they're here. Ideally, we can meet in the middle.

75

00:07:10,197 --> 00:07:16,557

The array will eventually expand to 350 telescopes, an army of tools that will help survey over

76

00:07:16,557 --> 00:07:23,598

100,000 stars and return 1,000 times more data in the next 20 years than all projects

77

00:07:23,598 --> 00:07:27,878

worldwide have accumulated to date.

78

00:07:27,918 --> 00:07:32,919

With this power, SETI hopes to have first contact with an extraterrestrial broadcast

79

00:07:32,919 --> 00:07:37,479

by the year 2025.

80

00:07:37,479 --> 00:07:42,840

With alien contact a scientific probability, the team is in search of physical evidence

81

00:07:42,840 --> 00:07:48,601

that alien contact is already an ongoing phenomenon here on Earth.

82

00:07:48,601 --> 00:07:54,081

They have uncovered two alleged contactees, two men from different cities who have filmed

83

00:07:54,081 --> 00:07:59,842

mysterious colored orbs close to their homes. They believe that these encounters are attempts

84

00:07:59,842 --> 00:08:03,122

at alien contact.

85

00:08:03,122 --> 00:08:08,363

Alien contact is often described as a close encounter, but these phenomena are not all

86

00:08:08,363 --> 00:08:15,564

the same. They are broken down into five separate levels, each increasing in intensity.

87

00:08:15,564 --> 00:08:20,684

Encounters of the first kind are described as up close viewings at 600 feet or less,

88

00:08:20,764 --> 00:08:26,205

involving strange craft or lights that cannot be attributed to human technology.

89

00:08:26,205 --> 00:08:32,405

Encounters of the second kind involve physical effects seen or felt, heat or radiation,

90

00:08:32,405 --> 00:08:37,806

temporary paralysis, and interference with television or radio signals.

91

00:08:37,806 --> 00:08:43,046

The third kind is witnessing an actual being at close range.

92

00:08:43,046 --> 00:08:46,087

The fourth kind is physical abduction.

93

00:08:46,087 --> 00:08:52,687

The fifth kind is communication, a complete reciprocal connection between an alien intelligence

94

00:08:52,687 --> 00:08:59,408

and a human being.

95

00:08:59,408 --> 00:09:05,609

Suffolk, Virginia, home to Tyrell Copeland, a 25-year-old former United States Marine

96

00:09:05,609 --> 00:09:11,049

who has had recent encounters with pulsating orbs of light at close range, orbs that seem

97

00:09:11,049 --> 00:09:15,850

to be appearing around him more and more frequently.

98

00:09:16,610 --> 00:09:21,611

They do not appear to be military aircraft from the nearby Naval Base.

99

00:09:21,611 --> 00:09:27,051

And over the past eight years, Tyrell has had these encounters in three different areas,

100

00:09:27,051 --> 00:09:33,132

the Northwest Naval Base in nearby Chesapeake, his parents' home in Suffolk, and just outside

101

00:09:33,132 --> 00:09:35,052

his own apartment.

102

00:09:35,052 --> 00:09:41,013

The story is larger than somebody just seeing some objects in the sky. First of all, the

103

00:09:41,013 --> 00:09:45,373

objects are seeing him, and they've kind of focused in on him, and that tells me there's

104

00:09:45,373 --> 00:09:47,013

something going on.

105

00:09:47,013 --> 00:09:52,734

I joined the military in the summer of 2000. We were trained and observed. I've seen aircraft

106

00:09:52,734 --> 00:09:56,454

that maybe the typical civilian has not seen.

107

00:09:56,454 --> 00:10:02,095

In the winter of 2000, Tyrell has an experience that will change his life. Late one night

108

00:10:02,095 --> 00:10:08,135

at the Northwest Naval Base in Chesapeake, somewhere between 3 and 4 a.m., Tyrell sees

109

00:10:08,135 --> 00:10:11,936

a strange object illuminating the field below it with a spotlight.

110

00:10:12,496 --> 00:10:18,617

I see a light thinking maybe it's a chopper, but it made no noise, and it was only about

111

00:10:18,617 --> 00:10:26,617

100 feet away. It went from being a yellowish light to a greenish kind of lime-colored light.

112

00:10:26,617 --> 00:10:30,218

It was a flying saucer. It was oval-shaped.

113

00:10:32,018 --> 00:10:38,019

Tyrell Kokon has had a close encounter of the first kind, a firsthand observation of

114

00:10:38,099 --> 00:10:43,739

a UFO at less than 600 feet.

115

00:10:43,739 --> 00:10:49,740

But sightings around Chesapeake Bay are not uncommon. The area is also home to the oldest

116

00:10:49,740 --> 00:10:56,741

UFO report in American history, written in a letter sent to Thomas Jefferson in 1813.

117

00:10:57,981 --> 00:11:04,981

On July 31, 1813, Edward Hansford, owner of the Washington Tavern in Portsmouth, Virginia,

118

00:11:05,061 --> 00:11:12,062

described his terrifying sighting as, quote, a ball of fire as large as the sun, and the

119

00:11:12,062 --> 00:11:18,063

object assumed several different forms as it, quote, ascended and descended.

120

00:11:18,063 --> 00:11:23,063

There is no indication that former President Jefferson received this letter, but the letter

121

00:11:23,063 --> 00:11:29,064

still exists as proof of strange reported events in this area.

122

00:11:29,944 --> 00:11:35,905

Over the past two centuries, there has been a flurry of activity in this area. In fact,

123

00:11:35,905 --> 00:11:41,705

locals filed 12 reports in 2005 and 2006.

124

00:11:41,705 --> 00:11:48,706

On January 29, 2006, the Virginia pilot newspaper reported, quote, formations over Virginia

125

00:11:49,026 --> 00:11:56,027

beach that switch directions on a dime, massive glowing shapes, and strange triangles hovering

126

00:11:56,947 --> 00:11:59,587

over Suffolk.

127

00:11:59,587 --> 00:12:04,508

But many of the sightings are made at far-off distances. Terrell Copeland's encounters are

128

00:12:04,508 --> 00:12:11,108

happening at much closer range. For him, there's no mistaking these craft for human technology.

129

00:12:11,108 --> 00:12:16,269

When did you make that leap into thinking that we were dealing with some other kind

130

00:12:16,269 --> 00:12:17,269

of technology?

131

00:12:17,269 --> 00:12:20,910

I had a sighting back in 2005.

132

00:12:20,910 --> 00:12:26,710

Terrell's second encounter occurs over a three-night period at the end of October 2005,

133

00:12:26,710 --> 00:12:29,950

outside of his parents' home in Suffolk.

134

00:12:29,950 --> 00:12:36,951

On October 27, at approximately 7 p.m., he sees a bluish orb moving across the sky.

135

00:12:37,551 --> 00:12:42,952

He can tell it's not a planet or a star, and when it appears again two nights later on

136

00:12:42,952 --> 00:12:46,832

October 29, he attempts to follow it.

137

00:12:46,832 --> 00:12:50,873

I tried to chase it in my car. I was like, I want to see what this is, but it was gone

138

00:12:50,873 --> 00:12:52,353

and it left.

139

00:12:52,353 --> 00:12:58,754

On the third night, October 31, sometime after 11 p.m., deep in the darkness of night, the

140

00:12:58,754 --> 00:13:05,754

orb appears again. And this time, Terrell is ready. He follows the object in his car

141

00:13:05,754 --> 00:13:12,755

down Constance Road. It leads him to an empty shopping plaza. But what happens next shocks

142

00:13:13,035 --> 00:13:14,195

him.

143

00:13:14,195 --> 00:13:20,756

The orb becomes two orbs. As this object moves over my head, I see that it's some type of

144

00:13:20,756 --> 00:13:27,757

craft that's larger than the shopping area that I'm in.

145

00:13:28,997 --> 00:13:34,017

In Suffolk, Virginia, Terrell Copeland has seen a mysterious blue orb over three nights

146

00:13:34,017 --> 00:13:36,598

at the end of October 2005.

147

00:13:36,598 --> 00:13:40,718

I drive up to this orb. The orb becomes two orbs.

148

00:13:40,758 --> 00:13:46,439

By the third night, October 31, he has followed it to an empty shopping plaza, where something

149

00:13:46,439 --> 00:13:53,439

incredible happens. He's about to have his second close encounter.

150

00:13:53,439 --> 00:13:59,840

The triangle-shaped craft hovers 500 to 700 feet above Terrell. He notices that the two

151

00:13:59,840 --> 00:14:03,920

orbs are actually lights that are part of the craft.

152

00:14:03,920 --> 00:14:09,561

The Virginia pilot newspaper reports his initial reaction. Quote, at first I thought it was

153

00:14:09,561 --> 00:14:16,082

a stealth, referring to the Air Force's distinctively shaped radar-evading bomber. Quote, but I

154

00:14:16,082 --> 00:14:20,642

saw many types of aircraft when I was in the military, and we don't have anything this

155

00:14:20,642 --> 00:14:21,922

big.

156

00:14:21,922 --> 00:14:27,923

Terrell has had a number of repeat sightings, all within 600 feet, close encounters of the

157

00:14:27,923 --> 00:14:33,484

first kind. These repeated sightings tell me there's much more of the story that meets

158

00:14:33,484 --> 00:14:36,684

the eye. He's being led down a path to contact.

159

00:14:39,964 --> 00:14:45,965

But just a year and a half later, Terrell has a third encounter. And according to him,

160

00:14:45,965 --> 00:14:49,285

it was very different.

161

00:14:49,285 --> 00:14:56,286

On March 5, 2007, at approximately 8.05 p.m., in total darkness, he feels that something

162

00:14:56,286 --> 00:15:03,007

is outside his apartment. He grabs his video camera and heads out to a shocking sight.

163

00:15:03,007 --> 00:15:07,447

It was actually two objects out there, 25 or 35 feet away from me.

164

00:15:07,447 --> 00:15:13,448

The two objects appeared to hover in place, and then one began to behave very strangely.

165

00:15:13,448 --> 00:15:20,289

It looked like a big spear that was changing colors very violently.

166

00:15:20,289 --> 00:15:28,489

A lot of people in the UFO field have said that that sequence of changing colors is communicating.

167

00:15:28,489 --> 00:15:30,410

I believe that 100%.

168

00:15:30,410 --> 00:15:36,370

What if the flashing colors were like Morse code? What if this is actually a form of communication

169

00:15:36,370 --> 00:15:40,091

that extraterrestrials use to make contact?

170

00:15:40,091 --> 00:15:45,011

Was Terrell recording communication between the two objects? Or were the objects attempting

171

00:15:45,011 --> 00:15:50,332

to make contact with Terrell? The team will need to see the actual location to get a better

172

00:15:50,332 --> 00:15:51,932

viewpoint.

173

00:15:51,932 --> 00:15:58,933

This is the exact spot right here, March 5, 2007. There was a sphere that was whitish

174

00:15:58,933 --> 00:16:02,733

in color right over there, building right there. I look in this direction, there's another

175

00:16:02,733 --> 00:16:05,053

object here.

176

00:16:05,053 --> 00:16:10,814

As Terrell watches, this second object emits a series of pulsating colored lights.

177

00:16:10,814 --> 00:16:16,494

Terrell believes that these pulsing signals were, in fact, a way for that craft to communicate

178

00:16:16,494 --> 00:16:20,135

with the other single colored orb across from it.

179

00:16:20,135 --> 00:16:26,095

But as he moves, he notices that the multicolored object also begins to mirror his movement.

180

00:16:26,095 --> 00:16:32,136

As I got in my car, it moved to a position about 30 to 50 feet above the tree line.

181

00:16:32,336 --> 00:16:37,457

After I finished filming the footage, the object left because from what I could see,

182

00:16:37,457 --> 00:16:39,257

a military chopper was in the area.

183

00:16:39,257 --> 00:16:41,737

So the helicopter comes in and these other objects leave?

184

00:16:41,737 --> 00:16:46,698

Right. As I turn to look at the chopper, I look back and the object is gone.

185

00:16:46,698 --> 00:16:53,778

Terrell is a former Marine. He is a trained observer. He knows all types of military aircraft.

186

00:16:53,778 --> 00:16:57,739

If he tells me that he hadn't experienced a change in his life, I can't believe him

187

00:16:57,739 --> 00:17:02,019

on that. But I do find it suspicious that we're also in an area where there is a military

188

00:17:02,019 --> 00:17:04,740

base nearby.

189

00:17:04,740 --> 00:17:10,900

With Terrell's recurring history of close encounters, the team must get further information.

190

00:17:10,900 --> 00:17:16,501

His video will be sent for analysis by Dr. Ted Acworth, while Bill and Pat further investigate

191

00:17:16,501 --> 00:17:20,661

Terrell's escalating experiences.

192

00:17:20,661 --> 00:17:26,342

After videotaping his encounter in March of 2007, he receives a visit from a strange

193

00:17:26,342 --> 00:17:28,222

individual.

194

00:17:28,222 --> 00:17:33,903

This particular individual really didn't talk about the video at hand. They were more interested

195

00:17:33,903 --> 00:17:39,903

in me. They claimed to be a military contractor. They asked me a very strange question. They

196

00:17:39,903 --> 00:17:46,744

asked me if I was ready for the truth. And I said, sure, let's hear it. And this particular

197

00:17:46,744 --> 00:17:53,265

individual claimed that they have a personal relationship with extraterrestrials.

198

00:17:53,265 --> 00:17:57,625

What happened after this long conversation? I dozed off while reading the book. I woke

199

00:17:57,665 --> 00:18:04,666

up to someone trying to enter my apartment. My first instinct was to get up and grab my

200

00:18:04,666 --> 00:18:10,947

firearm. I clearly heard a voice in the room telling me that I don't need to grab that

201

00:18:10,947 --> 00:18:16,307

firearm. I could feel the book in my hands. I could feel myself sitting on the couch,

202

00:18:16,307 --> 00:18:23,308

but I could not move at all. After I was able to get movement of my limbs, open the door,

203

00:18:23,308 --> 00:18:30,309

and no one was there. After I spoke with this individual, I experienced something that I

204

00:18:30,309 --> 00:18:36,389

never would have dreamed of or even thought about, and that's what they call missing time.

205

00:18:36,389 --> 00:18:42,190

That particular night, in the night after, I woke up at 3.08 a.m. I don't recall a night

206

00:18:42,190 --> 00:18:46,590

and I just jumped out of bed. And before I could blink, my alarm clock went off and it

207

00:18:46,590 --> 00:18:52,871

was 5.30, time for me to get up. It's not uncommon for UFO contactees and abductees

208

00:18:52,951 --> 00:18:59,392

to report missing time. These individuals consistently report being in one location at the time of

209

00:18:59,392 --> 00:19:04,552

the event and finding themselves at another location with no comprehension of the time

210

00:19:04,552 --> 00:19:10,553

in between. Temporary paralysis, that's an indicator of a close encounter of the second

211

00:19:10,553 --> 00:19:17,234

contact. Missing time is an indicator of an alien abduction. That's a close encounter

212

00:19:17,234 --> 00:19:22,234

of the fourth kind. Is he on a path to make contact?

213

00:19:22,234 --> 00:19:26,995

I'm just worried that we're just talking about a strange person here that's contacted

214

00:19:26,995 --> 00:19:30,715

Tyrell and is kind of filling him with ideas.

215

00:19:30,715 --> 00:19:34,755

Cuse the case with this person that's contacting you and giving you a course of study dealing

216

00:19:34,755 --> 00:19:40,676

with the human relationship with aliens as the ultimate goal. Got a funny feeling that

217

00:19:40,676 --> 00:19:45,397

you are being recruited and there is a branch of the government that you're being recruited

218

00:19:45,397 --> 00:19:55,398

for that somehow, some way, you are a hybrid between ET and a human.

219

00:19:55,958 --> 00:20:02,478

While the notion of alien human hybrids is highly controversial and unproven, some contactees

220

00:20:02,478 --> 00:20:08,479

do claim to have developed unexplained physiological disorders shortly after the reported contacts.

221

00:20:08,479 --> 00:20:15,480

It's very surprising but at the same time not so surprising because the reason I'm

222

00:20:15,920 --> 00:20:21,040

out in the military today is because I have an unknown blood disorder.

223

00:20:21,040 --> 00:20:26,241

Tyrell's blood disorder is a rare elevation of an enzyme called creatine kinase which

224

00:20:26,241 --> 00:20:31,401

is typically released into the blood in abnormally high amounts when muscle damage occurs in

225

00:20:31,401 --> 00:20:38,082

the body. According to the Navy's official medical report, Tyrell's CK level was tested

226

00:20:38,162 --> 00:20:45,163

to be as high as 2,000 UL. From normal healthy people, this level rarely reaches above 200.

227

00:20:46,283 --> 00:20:51,844

But what causes this elevation of the enzyme in Tyrell's blood has remained a mystery.

228

00:20:51,844 --> 00:20:58,004

None of the military doctors at the time had a diagnosis. They were very baffled at it.

229

00:20:58,004 --> 00:21:02,805

Because the military doctors could not find a definitive reason for the elevated enzyme,

230

00:21:02,805 --> 00:21:08,565

Tyrell was discharged from the military after only two years of service. Not long after,

231

00:21:08,565 --> 00:21:11,566

Tyrell's most recent string of sightings began.

232

00:21:32,808 --> 00:21:39,809

Are Tyrell's early levels of close encounters a precursor to a level 5 encounter?

233

00:22:02,811 --> 00:22:09,812

Tyrell's blood disorder is a rare condition. The team is a little bit worried about the

234

00:22:09,812 --> 00:22:16,813

full alien contact. The team concludes that they need to further analyze Tyrell's footage

235

00:22:17,133 --> 00:22:24,133

and find an answer for his rare blood disorder. As the team delves deeper into the case, Tyrell

236

00:22:24,894 --> 00:22:30,894

undergoes testing to determine what unknown effects his blood anomaly may be having.

237

00:22:30,894 --> 00:22:37,895

What does it have in common with the footage Tyrell Copeland shot just 500 miles away?

238

00:22:39,055 --> 00:22:44,056

What we're seeing here has similar flight characteristics to other objects that we're

239

00:22:44,056 --> 00:22:47,256

seeing in other places.

240

00:22:47,256 --> 00:22:52,456

The team is currently investigating Tyrell Copeland, who filmed two UFOs he believes

241

00:22:52,456 --> 00:22:58,897

were communicating with him. Soon after, he's visited by a strange individual and experiences

242

00:22:58,897 --> 00:23:05,898

missing time. The team believes these are all signs of early level alien contact. But

243

00:23:05,898 --> 00:23:12,499

claims of alien contact are not new. The stories go back for centuries.

244

00:23:12,499 --> 00:23:19,499

In 1758, Sweden's Emanuel Swedenborg publishes Concerning the Earths in Our Solar System,

245

00:23:19,939 --> 00:23:25,180

his own personal account of alien travels. He claims to journey throughout the entire

246

00:23:25,180 --> 00:23:32,181

solar system, seeing beings on Saturn, Mars, Venus and several other planets.

247

00:23:32,381 --> 00:23:38,341

Interestingly, his extraterrestrial adventures only took him to Saturn, the furthest known

248

00:23:38,341 --> 00:23:41,022

planet at the time.

249

00:23:41,022 --> 00:23:47,382

In 1900, psychology professor Theodore Flournoy from the University of Geneva details the

250

00:23:47,382 --> 00:23:54,383

account of Helene Smith, who claims to have visited Mars. During a seance on August 22,

251

00:23:54,383 --> 00:24:01,104

1897, she writes this phrase in what she claims is a Martian language, a language that she

252

00:24:01,104 --> 00:24:07,384

could also speak aloud. She claims to continue to have further contact throughout her life

253

00:24:07,384 --> 00:24:11,625

and even begins a series of paintings documenting her experiences.

254

00:24:11,625 --> 00:24:18,626

But by the 20th century, the visits are being reported on Earth at 7 for the first time.

255

00:24:19,626 --> 00:24:26,626

1957, the Mojave Desert. On May 11, Wayne S. Ahom, a U.S. military combat intelligence

256

00:24:27,306 --> 00:24:32,627

expert, sees a craft land and he says he makes contact with beings from inside.

257

00:24:32,627 --> 00:24:37,188

I was within a few feet of the craft. I went through an all night experience and I was

258

00:24:37,188 --> 00:24:41,188

shown things of the future of this civilization.

259

00:24:41,188 --> 00:24:47,189

After his experience, Wayne is interviewed for over two hours by the CIA, but they decide

260

00:24:47,229 --> 00:24:51,829

not to reveal details of his account.

261

00:24:51,829 --> 00:24:55,669

But recent claims of contact have had a dark side.

262

00:24:55,669 --> 00:25:02,670

1983, Yorktown, New York. An engineer named John Faulk reportedly sees a dark mass floating

263

00:25:04,270 --> 00:25:10,471

above the New Croton Falls Reservoir at night. The object begins projecting a red laser-like

264

00:25:10,471 --> 00:25:16,472

beam into the reservoir. But when the object notices him, it emits a blinding flash of

265

00:25:16,472 --> 00:25:21,472

white light and he wakes up the next morning on the ground.

266

00:25:21,472 --> 00:25:28,473

1997, Rancho Santa Fe, California. The infamous Heaven's Gate cult maintains they have contact

267

00:25:29,433 --> 00:25:35,234

with an alien ship in the tail of the Hail Bob Comet. The only way to survive Earth's

268

00:25:35,234 --> 00:25:40,754

destruction is to commit suicide and allow their souls to be transported to the ship

269

00:25:40,754 --> 00:25:44,435

above.

270

00:25:44,435 --> 00:25:48,875

These claims of alien contact have evolved from the peaceful communications and visits

271

00:25:48,875 --> 00:25:53,956

of earlier centuries to the increasingly violent and foreboding contact of the modern

272

00:25:53,956 --> 00:25:56,236

era.

273

00:25:56,236 --> 00:26:02,837

What does this evolution in contact suggest? Are these most recent encounters benign or

274

00:26:02,837 --> 00:26:07,517

a sign of something else?

275

00:26:07,517 --> 00:26:12,518

The team moves on to investigate their second alleged contactee.

276

00:26:12,518 --> 00:26:18,678

Cleveland, Ohio. Michael Lee Hill is a 39-year-old musician who frequents the waters of Lake Erie

277

00:26:18,678 --> 00:26:25,279

for inspiration. But on the night of August 18, 2006, he sees something that changes his

278

00:26:25,279 --> 00:26:29,999

life and he captures it on video.

279

00:26:29,999 --> 00:26:35,480

For the next few months, he films orbs over and over again that he cannot explain in the

280

00:26:35,480 --> 00:26:38,600

exact same location.

281

00:26:38,680 --> 00:26:45,481

Are these orbs the same as the ones Terrell Copeland frequently encounters over Virginia?

282

00:26:45,481 --> 00:26:49,802

Skeptics have claimed that these orbs can be attributed to anything, from police vehicles

283

00:26:49,802 --> 00:26:55,882

to airplanes. But contactees believe they are real. So the team heads to the shore of

284

00:26:55,882 --> 00:26:59,243

Lake Erie to get Michael's point of view first-hand.

285

00:26:59,243 --> 00:27:03,523

Yeah, this is Lake Shore Reservation Park.

286

00:27:03,523 --> 00:27:07,803

Some of the speculation about your footage is that you're filming lights on the other

287

00:27:07,883 --> 00:27:08,804

side of the lake.

288

00:27:08,804 --> 00:27:10,804

You can't even see the other side of the lake.

289

00:27:10,804 --> 00:27:12,804

It's 57 miles across.

290

00:27:12,804 --> 00:27:18,805

People say that your footage is helicopters and airplanes, but you say no. Why is that?

291

00:27:18,805 --> 00:27:23,805

We're right next perinuclear power plant. It says 9-11, you know, the terrorist attacks.

292

00:27:23,805 --> 00:27:27,806

There's no fly zones put around all nuclear facilities.

293

00:27:27,806 --> 00:27:34,806

Perinuclear power plant is located 35 miles northeast of Cleveland. Since September 11,

294

00:27:34,806 --> 00:27:41,807

cars, or quote, temporary flight restrictions, have been put in place around this area.

295

00:27:41,807 --> 00:27:48,808

According to section 99.7 in the Code of Federal Regulations, quote, pilots must be aware of

296

00:27:48,808 --> 00:27:55,809

a standing notice advising them to avoid the airspace above or in proximity to sites such

297

00:27:55,809 --> 00:28:03,809

as nuclear power plants, dams, refineries, military installations and other similar facilities.

298

00:28:03,809 --> 00:28:08,810

The actual maneuvers that these objects are doing don't seem to fit the profile of aircraft, right?

299

00:28:08,810 --> 00:28:10,810

No, they're hovering.

300

00:28:10,810 --> 00:28:13,810

It's one solid sphere of pulsating light.

301

00:28:13,810 --> 00:28:17,811

There's nothing that I know of any airplane that's flying around with one big ball of light.

302

00:28:17,811 --> 00:28:19,811

Especially by a nuclear power plant.

303

00:28:20,811 --> 00:28:24,812

With it difficult to attribute Michael's sightings to aircraft above the lake,

304

00:28:24,812 --> 00:28:30,812

the team has a credible reason to believe that Michael's repeated encounters are similar to Tyrell's,

305

00:28:30,812 --> 00:28:34,813

and maybe evidence of attempted alien contact.

306

00:28:34,813 --> 00:28:38,813

Their next step is to compare Michael's footage to Tyrell's,

307

00:28:38,813 --> 00:28:42,814

and find out how long he has been having these experiences.

308

00:28:42,814 --> 00:28:46,814

This right here is just one of the single orbs that I was telling you about.

309

00:28:46,814 --> 00:28:48,814

It's just one big orb of light.

310

00:28:49,814 --> 00:28:52,815

Another of the same objects is going to come in from the right,

311

00:28:52,815 --> 00:28:54,815

and it's going to hover right over top of the first one.

312

00:28:54,815 --> 00:28:56,815

At this point, I realize this is just crazy,

313

00:28:56,815 --> 00:28:59,815

so you're going to see I'm going to flip the camera right now infrared.

314

00:29:01,816 --> 00:29:06,816

What we're seeing here has similar flight characteristics to other objects that we're seeing in other places.

315

00:29:06,816 --> 00:29:09,816

12 copeds down in Suffolk. I mean, this is the same.

316

00:29:09,816 --> 00:29:13,817

It's pulsating. It has the changing colors.

317

00:29:13,817 --> 00:29:16,817

It has the orbs coming together.

318

00:29:19,817 --> 00:29:25,818

Since this encounter, Michael noticed that the activity over the lake died down for almost a year,

319

00:29:25,818 --> 00:29:29,819

until September of 2007, when he took this new footage,

320

00:29:29,819 --> 00:29:32,819

which the team is seeing for the first time.

321

00:29:32,819 --> 00:29:35,819

These objects would just come up right in front of me, over and over again,

322

00:29:35,819 --> 00:29:37,819

for about an hour and a half straight.

323

00:29:39,820 --> 00:29:43,820

They actually kind of go dark, and you can't see them anymore,

324

00:29:43,820 --> 00:29:46,820

and then they'll come back, and they'll get really bright.

325

00:29:50,821 --> 00:29:54,821

Now as I'm filming this, another one shows up right next to it.

326

00:29:55,821 --> 00:29:58,822

Now if these were flares, they would be floating and dropping.

327

00:30:00,822 --> 00:30:03,822

The same night we had this beautiful orange harvest moon,

328

00:30:03,822 --> 00:30:06,822

these objects started showing up under the moon.

329

00:30:06,822 --> 00:30:11,823

I'm worried that the second object is a ghost image in the camera.

330

00:30:11,823 --> 00:30:14,823

Once I get in and frame and I got it, I'll take a peek at it.

331

00:30:14,823 --> 00:30:17,824

We'll always use your binoculars.

332

00:30:18,824 --> 00:30:23,824

Mike's footage is really impressive simply because of the size of Lake Erie,

333

00:30:23,824 --> 00:30:25,824

and the fact that it's a no-fly zone.

334

00:30:25,824 --> 00:30:28,825

There's nothing around for something like 60 miles.

335

00:30:28,825 --> 00:30:32,825

It really makes these lights that Michael Leighill is videotaping very remarkable.

336

00:30:33,825 --> 00:30:36,826

But are these objects new, or have they been seen before?

337

00:30:37,826 --> 00:30:39,826

March 4, 1988.

338

00:30:39,826 --> 00:30:45,827

According to the Cleveland Plain dealer, Sheila Baker sees several small triangular objects

339

00:30:45,827 --> 00:30:51,827

shooting out of a huge metallic gray football-shaped object, descending over Lake Erie.

340

00:30:51,827 --> 00:30:56,828

The U.S. Coast Guard even witnesses this event and makes a written report.

341

00:30:56,828 --> 00:30:57,828

Quote,

342

00:30:57,828 --> 00:31:01,828

The smaller objects began hovering in the area where the large object landed.

343

00:31:01,828 --> 00:31:04,829

They appeared to be scouting the area.

344

00:31:05,829 --> 00:31:08,829

They were never able to fully resolve this event.

345

00:31:10,829 --> 00:31:18,830

The description of these objects approaching the lake is eerily similar to Michael's footage from August 18, 2006.

346

00:31:18,830 --> 00:31:22,831

But Michael's encounters go further back than the team realizes.

347

00:31:22,831 --> 00:31:24,831

I've had contact my whole life.

348

00:31:24,831 --> 00:31:28,831

Have they uncovered a level 5 contactee?

349

00:31:31,831 --> 00:31:36,832

The team is in Cleveland, Ohio, and they've just seen footage by Michael Leighill

350

00:31:36,832 --> 00:31:39,832

of strange objects hovering over Lake Erie.

351

00:31:39,832 --> 00:31:46,833

These types of spheres have been seen before, and the team believes he may be experiencing early stages of contact,

352

00:31:46,833 --> 00:31:49,833

just like Terrell Copeland of Suffolk, Virginia.

353

00:31:49,833 --> 00:31:55,834

But Michael reveals his experience with contact goes much deeper than Terrell's.

354

00:31:55,834 --> 00:31:58,834

I know this is going to sound weird, but I've had contact with my whole life.

355

00:31:58,834 --> 00:32:01,835

I got memories of what we consider grays now.

356

00:32:01,835 --> 00:32:05,835

I woke up, I was getting ready, I looked down and there's blood on the floor.

357

00:32:05,835 --> 00:32:10,836

I wiped it up, went about my business, started to brush my teeth, I looked down and there's more blood.

358

00:32:10,836 --> 00:32:14,836

I could never find any incisions or anything or anything weird.

359

00:32:14,836 --> 00:32:21,837

A couple days after that, I woke up, actually like during people working on me.

360

00:32:23,837 --> 00:32:28,838

And I was in a bed, strapped down, and I just told this being that was right here to my right.

361

00:32:28,838 --> 00:32:33,838

I said, listen, I'm awake, I'm aware, I know what you're doing, and it hurts.

362

00:32:33,838 --> 00:32:35,838

Have you had any subsequent contact?

363

00:32:35,838 --> 00:32:42,839

One of the weirdest things that have happened is I walked out my back door and there was a little plasma device hovering by my studio.

364

00:32:42,839 --> 00:32:48,840

There's two spheres on either side of it with a shaft, and each sphere looked like a plasma ball.

365

00:32:51,840 --> 00:32:56,840

Are these spheres outside Michael's home, the same spheres Terrell is seeing?

366

00:32:56,840 --> 00:33:00,841

I drive up to this orb, the orb becomes two orbs.

367

00:33:00,841 --> 00:33:02,841

We've heard this over and over again.

368

00:33:02,841 --> 00:33:07,842

People describe some kind of luminescent light that doesn't actually radiate light.

369

00:33:07,842 --> 00:33:10,842

It emanates light, it's internal.

370

00:33:10,842 --> 00:33:20,843

Now you have the sense that these objects are showing up almost as a contact to you to guide you along.

371

00:33:20,843 --> 00:33:23,843

I know that they know I'm filming them.

372

00:33:23,843 --> 00:33:28,844

I really think I'm in contact with something higher and you didn't listen.

373

00:33:28,844 --> 00:33:32,844

That would be probably the stupidest thing you could possibly ever do.

374

00:33:32,844 --> 00:33:34,845

This is an incredible case.

375

00:33:34,845 --> 00:33:41,845

He has gone through all five close encounters from the first all the way to direct the alien contact.

376

00:33:43,845 --> 00:33:55,847

With Michael and Terrell's footage now in hand, the team has a chance to look at both videos side by side and determine if there is any connection between these two possible contactees.

377

00:33:56,847 --> 00:34:01,847

Dr. Ted Acworth has received copies of both Terrell and Michael's footage.

378

00:34:01,847 --> 00:34:10,848

He will first attempt to determine whether or not the lights and images can be discounted due to camera flare or other optical interference.

379

00:34:10,848 --> 00:34:16,849

Alright Jeff, we've got these two pieces of footage which Bill and Pat think might be of the same object.

380

00:34:16,849 --> 00:34:19,849

I'm curious why there's a black spot in the center of that object.

381

00:34:19,849 --> 00:34:22,850

Me too. I mean to me that screams defocus.

382

00:34:22,850 --> 00:34:28,850

If either of the cameras was not focused correctly, three lights could appear to be one.

383

00:34:28,850 --> 00:34:35,851

The edges of the light or lights would be blurry and it would be difficult to tell the size or shape of the objects.

384

00:34:36,851 --> 00:34:41,852

Is it chromatic aberration from the electronics in the camera that's making the color changes?

385

00:34:41,852 --> 00:34:44,852

I mean see that, the reds that are being introduced.

386

00:34:44,852 --> 00:34:48,852

Chromatic aberration can be caused by the lens of the camera.

387

00:34:49,852 --> 00:34:57,853

A lower quality lens cannot focus on more than one color, so colors fringe or bleed into one another making things unclear.

388

00:34:58,853 --> 00:35:02,854

If it were internal reflection, they would all have to pulse at the same rate.

389

00:35:02,854 --> 00:35:04,854

And actually they don't look like they are.

390

00:35:04,854 --> 00:35:05,854

Do you think we could rule that out?

391

00:35:05,854 --> 00:35:06,854

Probably.

392

00:35:07,854 --> 00:35:13,855

But do these reported UFOs share any common traits with known earthly lights?

393

00:35:14,855 --> 00:35:18,856

It doesn't look like an incandescent light or naturally made by man.

394

00:35:18,856 --> 00:35:22,856

I've never seen anything like that in an imagery. I can't explain what that would be from.

395

00:35:22,856 --> 00:35:26,856

The lights not only hover and move unlike comets or meteors.

396

00:35:26,856 --> 00:35:32,857

They do not have the same appearance of FAA lights required for aircraft to display.

397

00:35:33,857 --> 00:35:39,858

The differing color and pulses also do not match any known police or military vehicles.

398

00:35:39,858 --> 00:35:43,858

I'm not sure we'll ever be able to back out exactly what's going on.

399

00:35:43,858 --> 00:35:49,859

Could these spheres, seen 500 miles apart, be the same object or group of objects?

400

00:35:49,859 --> 00:35:55,859

At the beginning of the first Tyrell Copeland sequence, we are seeing a single point.

401

00:35:55,859 --> 00:35:59,860

And that looks something like the Michael E. Hills.

402

00:35:59,860 --> 00:36:05,861

Side by side, Tyrell and Michael's videos both clearly display single point orbs of light.

403

00:36:05,861 --> 00:36:08,861

Their basic appearance and movement are similar.

404

00:36:08,861 --> 00:36:12,861

But the camera techniques and shooting conditions are vastly different,

405

00:36:12,861 --> 00:36:15,862

making further comparisons difficult to make.

406

00:36:15,862 --> 00:36:22,862

I think I'm seeing some of the same color fringing effects and perhaps some of the same defocus effects.

407

00:36:22,862 --> 00:36:25,863

The information contained in the footage is so low.

408

00:36:25,863 --> 00:36:30,863

Even with state-of-the-art processing, I'm not sure we'll be able to extract enough information

409

00:36:30,863 --> 00:36:33,863

to really tell definitively what these are.

410

00:36:33,863 --> 00:36:37,864

Bottom line is it's very hard for these sort of consumer grade video cameras

411

00:36:37,864 --> 00:36:40,864

to take quality images in these conditions.

412

00:36:42,864 --> 00:36:47,865

The team must now look into a new angle of comparison for Tyrell and Michael.

413

00:36:47,865 --> 00:36:53,866

They seize on perhaps the very best scientific comparison left, Tyrell's blood condition.

414

00:36:53,866 --> 00:36:59,866

The team brings both Michael and Tyrell to Boston to determine once and for all

415

00:36:59,866 --> 00:37:03,867

if there is a link between these two alleged contactees.

416

00:37:03,867 --> 00:37:04,867

The tests are in.

417

00:37:04,867 --> 00:37:06,867

There is an abnormality here.

418

00:37:06,867 --> 00:37:10,867

And the final analysis reveals a remarkable connection.

419

00:37:10,867 --> 00:37:14,868

Looks like what you're looking for, you found.

420

00:37:15,868 --> 00:37:19,868

After investigating the claims of two independent contactees,

421

00:37:19,868 --> 00:37:24,869

Tyrell Copeland of Suffolk, Virginia and Michael Lee Hill of Cleveland, Ohio,

422

00:37:24,869 --> 00:37:29,869

the team has reassembled in Boston for the final step in the investigation.

423

00:37:29,869 --> 00:37:34,870

The team breaks into two groups to bring their subjects to the hospital.

424

00:37:34,870 --> 00:37:38,870

Tyrell is scheduled to undergo a thorough examination

425

00:37:38,870 --> 00:37:43,871

led by one of the leading doctors in the cardiopulmonary field, Dr. David Systrom.

426

00:37:43,871 --> 00:37:45,871

We're at Massachusetts General Hospital.

427

00:37:45,871 --> 00:37:50,872

We're meeting with Dr. David Systrom, who's the director of the cardiopulmonary exercise laboratory.

428

00:37:50,872 --> 00:37:56,872

Tyrell has a history of an elevated level of the enzyme creatine kinase in his blood,

429

00:37:56,872 --> 00:38:00,873

a rare disorder that is usually indicative of muscle damage.

430

00:38:00,873 --> 00:38:03,873

But how does it relate to alien contact?

431

00:38:03,873 --> 00:38:07,873

The team is looking to see if the enzyme is still present today,

432

00:38:07,873 --> 00:38:13,874

and for an explanation if it is, one that Tyrell's military doctors could not provide.

433

00:38:14,874 --> 00:38:18,875

Dr. Systrom has set up a series of tests for exactly this purpose.

434

00:38:18,875 --> 00:38:25,875

This particular test is a pretty good one at saying, A, are you normal or not,

435

00:38:25,875 --> 00:38:28,876

compared to people of your age and your body size?

436

00:38:28,876 --> 00:38:32,876

A lot of times with disorders of muscle and heart and lungs,

437

00:38:32,876 --> 00:38:35,876

we'll only find abnormalities with the stress of exercise.

438

00:38:35,876 --> 00:38:38,877

We'll take them up until we can't go any further,

439

00:38:38,877 --> 00:38:41,877

and then we hope to get some answers at peak exercise.

440

00:38:43,877 --> 00:38:47,878

If there is an abnormality, we can begin to point at the nature of the abnormality.

441

00:38:47,878 --> 00:38:50,878

We can determine whether it's your lungs limiting you,

442

00:38:50,878 --> 00:38:54,878

whether it's your heart limiting you, or whether it's your muscle limiting you.

443

00:38:54,878 --> 00:38:57,879

That's the important one, I think, from the sound of your history,

444

00:38:57,879 --> 00:39:02,879

that we're going to determine whether there's an abnormality of muscle metabolism here.

445

00:39:02,879 --> 00:39:08,880

As Tyrell completes his testing, Michael arrives to have his blood drawn for a full analysis as well.

446

00:39:09,880 --> 00:39:11,880

Shortly before we investigated your case in Cleveland,

447

00:39:11,880 --> 00:39:14,881

we went out to visit a young ex-marine in Virginia,

448

00:39:14,881 --> 00:39:17,881

who's also experiencing UFO sightings,

449

00:39:17,881 --> 00:39:20,881

and the video that we've looked at seems very similar.

450

00:39:20,881 --> 00:39:21,881

Wow.

451

00:39:21,881 --> 00:39:26,882

However, Tyrell, the other gentleman, has a rare blood anomaly.

452

00:39:26,882 --> 00:39:27,882

Right.

453

00:39:27,882 --> 00:39:31,882

So seeing as how you are experiencing UFOs and visitation,

454

00:39:31,882 --> 00:39:35,883

we think that you may also have some kind of blood anomaly.

455

00:39:36,883 --> 00:39:39,883

We're going to get Michael Lee Hill's blood tested as well,

456

00:39:39,883 --> 00:39:42,884

and if he has high levels of the enzyme CK,

457

00:39:42,884 --> 00:39:45,884

that could be the real key to this case.

458

00:39:46,884 --> 00:39:53,885

Interesting thing today is that we have an elevation of the creatine kinase again.

459

00:39:53,885 --> 00:39:57,885

But the peculiar thing now, if we're seven to eight years out,

460

00:39:57,885 --> 00:39:59,885

for it to persist is most unusual.

461

00:39:59,885 --> 00:40:04,886

Normally, elevation of creatine kinase is a sign of muscular injury.

462

00:40:04,886 --> 00:40:08,886

For it to have persisted in Tyrell's blood for this long,

463

00:40:08,886 --> 00:40:11,887

suggests that there is another problem altogether.

464

00:40:12,887 --> 00:40:16,887

I'm wondering if the one patient and Tyrell Copeland's blood,

465

00:40:16,887 --> 00:40:20,888

what you found either similar or dissimilar about their tests.

466

00:40:20,888 --> 00:40:22,888

There was a marker of generic inflammation,

467

00:40:22,888 --> 00:40:26,888

not specifically of the muscle that was abnormally elevated.

468

00:40:26,888 --> 00:40:31,889

Both tests show that Tyrell and Michael have an elevation of the enzyme in their blood.

469

00:40:32,889 --> 00:40:36,889

I think that's as far as I can take it in terms of comparisons.

470

00:40:36,889 --> 00:40:39,890

Though the doctor will not speculate if there's a connection

471

00:40:39,890 --> 00:40:42,890

between the elevated levels in the two blood samples

472

00:40:42,890 --> 00:40:45,890

or what the source of the anomaly could have been,

473

00:40:45,890 --> 00:40:49,891

both Tyrell and Michael have the elevated enzyme in common.

474

00:40:50,891 --> 00:40:52,891

With these surprising results in,

475

00:40:52,891 --> 00:40:58,892

the team decides it's time to bring Tyrell and Michael together for the very first time.

476

00:40:58,892 --> 00:41:03,892

Both of you are not abductees, you're contactees. Very unique.

477

00:41:03,892 --> 00:41:07,893

I've seen different crafts, different shapes, sizes.

478

00:41:07,893 --> 00:41:10,893

A lot of times I know they're out because whenever I feel this,

479

00:41:10,893 --> 00:41:13,893

it's not an energy that you can hear but you can feel it,

480

00:41:13,893 --> 00:41:16,893

and I know that they're out. I think it's some type of communication.

481

00:41:16,893 --> 00:41:20,894

Every year it's kind of progressed where they've got closer and closer.

482

00:41:20,894 --> 00:41:24,894

I truly believe that that's what all this is leading to,

483

00:41:24,894 --> 00:41:27,895

a meeting with biological entities.

484

00:41:27,895 --> 00:41:30,895

You have no doubt that something's in communication with you

485

00:41:30,895 --> 00:41:34,895

because it will grow to the point where it'll take all doubt away.

486

00:41:35,895 --> 00:41:40,896

Now that Tyrell and Michael have discovered they share similar experiences of contact,

487

00:41:40,896 --> 00:41:44,896

the team reveals the astonishing results of their tests.

488

00:41:45,897 --> 00:41:47,897

We found something pretty interesting.

489

00:41:47,897 --> 00:41:50,897

In both cases you have an elevated level of CK,

490

00:41:50,897 --> 00:41:52,897

what's called creatine kinesis.

491

00:41:52,897 --> 00:41:56,898

Tyrell, in your case, because we were able to do those cardiopulmonary tests,

492

00:41:56,898 --> 00:42:00,898

Dr. Sisserman felt this elevated level of CK was directly related to your muscle tissue.

493

00:42:00,898 --> 00:42:05,899

Mike, in your case, you didn't have enough information to know what the source of your elevated CK was.

494

00:42:05,899 --> 00:42:08,899

He just figured it was a more general sort of systemic elevation.

495

00:42:08,899 --> 00:42:14,900

Perhaps you could share some kind of common unusual physiological trait in your blood.

496

00:42:14,900 --> 00:42:16,900

Didn't this just prove that?

497

00:42:16,900 --> 00:42:24,901

It tells me that were I to do any kind of medical testing on self-described contactees,

498

00:42:24,901 --> 00:42:31,901

I would certainly look for that as a marker to facilitate a certain level of contact.

499

00:42:31,901 --> 00:42:33,902

Bill, that would be a pretty interesting experiment.

500

00:42:33,902 --> 00:42:39,902

If we collected together a dozen or two dozen abductees and tested their CK level,

501

00:42:39,902 --> 00:42:42,903

which is easy enough to do, just with a simple blood test,

502

00:42:42,903 --> 00:42:47,903

it would be pretty interesting to find that if across all 12 or 24 people that was present,

503

00:42:47,903 --> 00:42:48,903

that would be pretty compelling.

504

00:42:49,903 --> 00:42:55,904

To find out that he shares some of my experiences, even some of my blood characteristics, that's just phenomenal.

505

00:42:58,904 --> 00:43:02,905

There are some really interesting connections between the cases of Michael and Terrell.

506

00:43:02,905 --> 00:43:07,905

I just don't know if we're looking at just UFO sightings, or if these guys have actually made alien contact.

507

00:43:07,905 --> 00:43:10,906

Some of the video footage looked like it might have some similarities.

508

00:43:10,906 --> 00:43:12,906

Maybe they were looking at the same thing.

509

00:43:12,906 --> 00:43:16,906

So as the blood test goes, we did a comprehensive set of blood analyses.

510

00:43:16,906 --> 00:43:21,907

The only thing we found that was unusual across the two sets was the cytokines.

511

00:43:21,907 --> 00:43:26,907

I think that they are definitely connected in some way, because we got two people with high CK levels

512

00:43:26,907 --> 00:43:29,908

that are reporting the same phenomena.

513

00:43:29,908 --> 00:43:35,908

I think after our comprehensive analysis, we have found no provable connections, no provable links.

514

00:43:35,908 --> 00:43:39,909

In both cases, there was something beneath the surface.

515

00:43:39,909 --> 00:43:49,910

I mean, sometimes we have to be happy with this, that the real answers lie in the quest and not in the solution.

516

00:43:50,910 --> 00:43:58,911

Today, Voyager 1 continues its journey into deep space, carrying with it proof of our existence on Earth.

517

00:43:58,911 --> 00:44:05,911

But NASA believes it will be 40,000 years before the craft reaches the nearest planetary system

518

00:44:05,911 --> 00:44:08,912

and possibly makes contact with others like us.

519

00:44:09,912 --> 00:44:14,912

Meanwhile, with more and more contactees coming forward here on Earth,

520

00:44:14,912 --> 00:44:18,913

many wonder if the contact has already begun.
