

1

00:00:00,054 --> 00:00:20,776

I don't know what it is.

2

00:00:20,776 --> 00:00:27,097

In December 2007, there were two reports of UFOs over Texas.

3

00:00:27,097 --> 00:00:28,217

I am scared.

4

00:00:28,217 --> 00:00:31,498

The girls were screaming, some of them were crying.

5

00:00:31,498 --> 00:00:35,898

Within a month, the number grew to over 200 sightings

6

00:00:35,898 --> 00:00:38,578

as the swarm began to move south.

7

00:00:38,578 --> 00:00:40,379

Almost like a flock of birds.

8

00:00:40,379 --> 00:00:41,659

I hope it's not.

9

00:00:41,659 --> 00:00:45,979

This never-before-seen video may contain proof of a UFO

10

00:00:45,979 --> 00:00:48,940

infestation plaguing this small town.

11

00:00:48,940 --> 00:00:52,300

Probably the end of our civilization as we know it.

12

00:00:52,300 --> 00:00:55,940

From police officers' testimonies

13

00:00:55,940 --> 00:00:59,861

to video and photographic evidence seen for the first time.

14

00:00:59,861 --> 00:01:00,861

I can't explain that.

15

00:01:00,861 --> 00:01:03,301

And startling eyewitness accounts,

16

00:01:03,301 --> 00:01:06,982

the team investigates the most recent and biggest UFO

17

00:01:06,982 --> 00:01:08,702

sighting in American history.

18

00:01:11,782 --> 00:01:15,343

Are the residents caught in the middle of a military cover-up?

19

00:01:15,343 --> 00:01:17,023

I couldn't answer anything on that.

20

00:01:17,023 --> 00:01:22,023

Or are they witnessing something even more unfathomable?

21

00:01:22,023 --> 00:01:24,344

What is going on here?

22

00:01:24,344 --> 00:01:30,224

This is case number 08199, Invasion, Texas, 2008.

23

00:01:34,225 --> 00:01:35,225

I've seen them.

24

00:01:55,227 --> 00:02:00,228

Stephenville, Texas is a quiet small town.

25

00:02:00,228 --> 00:02:05,228

Home to only 16,000 people, located about 70 miles southwest

26

00:02:05,228 --> 00:02:09,469

of Fort Worth, it's known for being a leader in dairy farming

27

00:02:09,469 --> 00:02:13,549

and as the self-proclaimed cowboy capital of the world.

28

00:02:13,549 --> 00:02:17,870

But on January 10th, 2008, it made newspaper headlines

29

00:02:17,870 --> 00:02:21,150

across the country for its mass UFO sighting,

30

00:02:21,590 --> 00:02:24,951

which continued for the next several weeks.

31

00:02:24,951 --> 00:02:28,791

Two large glowing red objects.

32

00:02:28,791 --> 00:02:29,951

We're not making no sound.

33

00:02:29,951 --> 00:02:30,831

It was silent.

34

00:02:30,831 --> 00:02:35,392

Our account is probably maybe 10, 12, 14 lights.

35

00:02:35,392 --> 00:02:37,632

A media frenzy begins.

36

00:02:37,632 --> 00:02:40,992

Dozens of people startled by a large silent object

37

00:02:40,992 --> 00:02:43,673

with bright lights flying low and fast

38

00:02:43,673 --> 00:02:47,113

tell their stories to local and national press.

39

00:02:47,113 --> 00:02:49,153

The news was carried across the globe

40

00:02:49,153 --> 00:02:52,114

by the Associated Press, cable news networks,

41

00:02:52,114 --> 00:02:57,274

and most national and local newspapers and TV stations.

42

00:02:57,274 --> 00:03:01,275

And since then, many Texans have been paying closer attention

43

00:03:01,275 --> 00:03:03,155

to what's in the sky.

44

00:03:03,155 --> 00:03:05,955

I have to stress that this is an ongoing investigation.

45

00:03:05,955 --> 00:03:07,955

It has just happened last month.

46

00:03:07,955 --> 00:03:09,396

It's very fresh.

47

00:03:09,396 --> 00:03:11,316

And just talking to some of the locals,

48

00:03:11,316 --> 00:03:12,916

you're really getting the feeling that there

49

00:03:12,916 --> 00:03:14,836

is something going on here.

50

00:03:19,237 --> 00:03:21,117

Pilot Steve Allen and his friends

51

00:03:21,117 --> 00:03:24,677

reportedly spot a UFO on January 8th,

52

00:03:24,677 --> 00:03:27,998

describing it as having lights spanning about a mile long

53

00:03:27,998 --> 00:03:30,558

and a half a mile wide.

54

00:03:30,558 --> 00:03:33,598

Leroy Gaten, a police constable, describes it

55

00:03:33,598 --> 00:03:38,079

as one red and white glowing light moving very fast.

56

00:03:38,079 --> 00:03:40,199

What was this anomalous object?

57

00:03:43,440 --> 00:03:46,840

Government officials first state there was no military craft

58

00:03:46,840 --> 00:03:49,040

on the evening of January 8th.

59

00:03:49,080 --> 00:03:52,481

Soon after, a reversal.

60

00:03:52,481 --> 00:03:55,081

The military issues a second statement,

61

00:03:55,081 --> 00:03:58,521

saying that actually yes, 10 F-16s were

62

00:03:58,521 --> 00:04:01,322

launched for a training session.

63

00:04:01,322 --> 00:04:04,642

The residents find something peculiar about that.

64

00:04:04,642 --> 00:04:05,882

Just totally silent.

65

00:04:05,882 --> 00:04:06,682

No sound.

66

00:04:06,682 --> 00:04:07,642

I never heard a sound.

67

00:04:07,642 --> 00:04:09,923

So there wasn't any noise.

68

00:04:09,923 --> 00:04:15,883

How can multiple jet fighter aircraft not produce a sound?

69

00:04:15,883 --> 00:04:20,404

This was an unusual object of some sort.

70

00:04:20,404 --> 00:04:22,204

We have multiple eyewitness accounts.

71

00:04:22,204 --> 00:04:25,364

So what we have to do is go out and meet these other people.

72

00:04:25,364 --> 00:04:27,125

Each one of these is a puzzle piece

73

00:04:27,125 --> 00:04:29,805

that may help us put a larger picture together

74

00:04:29,805 --> 00:04:32,885

that we can understand.

75

00:04:32,885 --> 00:04:36,206

On February 25th, 2008, the team

76

00:04:36,206 --> 00:04:38,766

moves their headquarters across from the Stephenville

77

00:04:38,766 --> 00:04:40,646

Courthouse.

78

00:04:40,646 --> 00:04:43,246

Let's put the whiteboard right on this wall back there.

79

00:04:43,246 --> 00:04:45,647

That was the maps up over here.

80

00:04:45,647 --> 00:04:48,647

They open their door to anyone who can provide information

81

00:04:48,647 --> 00:04:49,687

about this case.

82

00:04:49,687 --> 00:04:51,527

Well gentlemen, we're officially in business.

83

00:04:51,527 --> 00:04:53,047

Now we're fully set up.

84

00:04:53,047 --> 00:04:54,448

We have the things that we need.

85

00:04:54,448 --> 00:04:56,928

We got maps of the local area.

86

00:04:56,928 --> 00:05:00,088

We are on full UFO hunter alert here.

87

00:05:00,088 --> 00:05:03,569

First step, we are going to talk to witnesses.

88

00:05:03,569 --> 00:05:06,649

If we can establish geometries around these sightings,

89

00:05:06,649 --> 00:05:09,329

and then if they corroborate, we can triangulate positions.

90

00:05:09,329 --> 00:05:12,050

We not only need to know the location and environment,

91

00:05:12,050 --> 00:05:13,970

we definitely need to know what we're looking at.

92

00:05:13,970 --> 00:05:15,410

The sizes, the colors.

93

00:05:15,450 --> 00:05:17,370

Object description, right.

94

00:05:17,370 --> 00:05:19,531

Also, this is a very heavy military area.

95

00:05:19,531 --> 00:05:22,451

So did the military have planes in the air

96

00:05:22,451 --> 00:05:24,211

on the nights and questions?

97

00:05:24,211 --> 00:05:26,291

There are a number of specific questions

98

00:05:26,291 --> 00:05:29,572

the team wants to address in order to solve this mystery.

99

00:05:29,572 --> 00:05:31,052

Why here?

100

00:05:31,052 --> 00:05:32,052

Why in Texas?

101

00:05:32,052 --> 00:05:32,732

Why here?

102

00:05:37,533 --> 00:05:40,013

It is 28 minutes now before 9 o'clock in Pabla.

103

00:05:40,013 --> 00:05:42,533

We are joined in studio with the guys from UFO Hunters.

104

00:05:42,533 --> 00:05:43,493

Good morning, men.

105

00:05:43,493 --> 00:05:44,893

Good morning.

106

00:05:44,893 --> 00:05:49,854

The team puts out a city-wide call over 98.5 KCUB

107

00:05:49,854 --> 00:05:52,654

for witnesses of the UFO swarm.

108

00:05:52,654 --> 00:05:55,095

We'd like to actually invite anyone

109

00:05:55,095 --> 00:05:56,815

to come down to our headquarters.

110

00:05:56,815 --> 00:05:58,695

We're also looking for even further evidence.

111

00:05:58,695 --> 00:06:00,615

So any kinds of photos or video footage

112

00:06:00,615 --> 00:06:03,376

or anything that's more tangible.

113

00:06:03,376 --> 00:06:05,856

It doesn't take long.

114

00:06:05,856 --> 00:06:06,856

Hi, this is Ted Acworth.

115

00:06:06,856 --> 00:06:08,096

This is Jeffrey Tomlinson.

116

00:06:08,096 --> 00:06:11,897

And I'm from UFO Hunters and UFO Magazine.

117

00:06:11,897 --> 00:06:13,897

Your sighting was the night of January 8th.

118

00:06:13,897 --> 00:06:14,777

Is that correct?

119

00:06:14,777 --> 00:06:17,377

The team gathers as much information as possible

120

00:06:17,377 --> 00:06:18,937

from a number of phone calls.

121

00:06:18,937 --> 00:06:21,418

Yeah, but that's what other people are describing as well.

122

00:06:21,418 --> 00:06:22,618

Personal interviews.

123

00:06:22,618 --> 00:06:25,178

Then I saw this object.

124

00:06:25,178 --> 00:06:26,778

And then as it got a little closer,

125

00:06:26,778 --> 00:06:29,699

I realized it didn't have any wings.

126

00:06:29,699 --> 00:06:30,699

And media reports.

127

00:06:34,299 --> 00:06:38,180

Surprisingly, many witnesses in this traditional Southern town

128

00:06:38,180 --> 00:06:40,220

come forward with their sightings.

129

00:06:40,220 --> 00:06:43,060

We're not a bunch of space alien aficionados

130

00:06:43,060 --> 00:06:44,020

or anything like that.

131

00:06:44,020 --> 00:06:46,901

That's why it's surprising that a lot of upstanding citizens

132

00:06:46,901 --> 00:06:48,861

are coming forward with this sighting.

133

00:06:52,181 --> 00:06:55,061

The team receives a phone call from an Arath County police

134

00:06:55,061 --> 00:06:58,022

sergeant who witnessed the alleged UFO.

135

00:06:58,022 --> 00:07:01,462

He phones in his account because he wishes not to be seen.

136

00:07:01,462 --> 00:07:04,102

The team has verified his identity.

137

00:07:04,102 --> 00:07:06,863

He had located something bright in the sky,

138

00:07:06,863 --> 00:07:10,223

northwest of the highway.

139

00:07:10,223 --> 00:07:11,983

I looked at it from a distance.

140

00:07:11,983 --> 00:07:13,424

It was bright.

141

00:07:13,624 --> 00:07:18,464

It appeared to be spinning and changing colors.

142

00:07:18,464 --> 00:07:20,744

Well, Sergeant, is there any chance

143

00:07:20,744 --> 00:07:24,505

that this object could have been an airplane or a helicopter?

144

00:07:24,505 --> 00:07:28,705

In my perception, I would say no.

145

00:07:28,705 --> 00:07:30,626

There's obviously something going on.

146

00:07:30,626 --> 00:07:34,666

That reports of a huge craft, mile long wide, half mile wide,

147

00:07:34,666 --> 00:07:37,106

reports of smaller objects that people

148

00:07:37,106 --> 00:07:38,306

swear are not airplanes.

149

00:07:38,306 --> 00:07:41,067

And these people know they're airplanes.

150

00:07:41,107 --> 00:07:44,027

The description, time, and location of the UFO

151

00:07:44,027 --> 00:07:47,187

vary from person to person.

152

00:07:47,187 --> 00:07:51,588

Is this a case of a single object or multiple objects?

153

00:07:51,588 --> 00:07:53,508

What kind of hard science, what kind of hard evidence

154

00:07:53,508 --> 00:07:54,348

do we have?

155

00:07:54,348 --> 00:07:56,828

But there is one witness who can provide more

156

00:07:56,828 --> 00:07:58,149

than just his testimony.

157

00:08:02,629 --> 00:08:05,710

Yeah, me and my grandson was coming home from rent movies

158

00:08:05,710 --> 00:08:06,430

one night.

159

00:08:06,430 --> 00:08:08,870

And we're driving down this road here,

160

00:08:08,910 --> 00:08:10,110

coming in this direction.

161

00:08:10,110 --> 00:08:14,831

And my grandson said he's seen lightning in the sky.

162

00:08:14,831 --> 00:08:18,711

David Carone, a former oil rigour and local mechanic,

163

00:08:18,711 --> 00:08:21,631

was alerted by his grandson of something in the sky

164

00:08:21,631 --> 00:08:24,592

around 9 PM on January 19.

165

00:08:24,592 --> 00:08:26,712

So you saw the object.

166

00:08:26,712 --> 00:08:29,512

What caught your attention when you were looking at it?

167

00:08:29,512 --> 00:08:32,513

The light.

168

00:08:32,513 --> 00:08:34,393

I was like, running.

169

00:08:34,393 --> 00:08:35,353

Yeah, OK.

170

00:08:35,353 --> 00:08:37,753

You said it looked like lightning?

171

00:08:37,753 --> 00:08:40,153

I didn't see no lightning, not on my side.

172

00:08:40,153 --> 00:08:41,514

You never seen these lights before?

173

00:08:43,994 --> 00:08:46,794

I went and told my papa.

174

00:08:46,794 --> 00:08:49,234

He went out here and grabbed a stick.

175

00:08:49,234 --> 00:08:50,635

I went into the house.

176

00:08:50,635 --> 00:08:53,635

I got my camcorder and started filming.

177

00:08:56,915 --> 00:09:01,676

Carone picked up his JVC 32 times optical zoom camcorder

178

00:09:01,676 --> 00:09:06,516

and records the bright, fast moving light for 14 minutes.

179

00:09:06,556 --> 00:09:09,757

I was standing right here and I took my camcorder

180

00:09:09,757 --> 00:09:13,557

and I put the strap against this and I held it against the pole.

181

00:09:13,557 --> 00:09:15,317

And it was in the southwest direction.

182

00:09:15,317 --> 00:09:16,198

Is that there?

183

00:09:16,198 --> 00:09:17,198

Between the trees?

184

00:09:17,198 --> 00:09:19,838

Yes, it was towards Selden.

185

00:09:19,838 --> 00:09:22,118

Selden is where the objects were first seen.

186

00:09:25,399 --> 00:09:28,679

It was round in shape and it had bright lights.

187

00:09:28,679 --> 00:09:30,919

It had like ribbons coming off of it.

188

00:09:30,919 --> 00:09:31,959

How do you mean ribbons?

189

00:09:31,959 --> 00:09:33,600

You mean ribbons of lights?

190

00:09:33,600 --> 00:09:34,880

Yeah, bright lights.

191

00:09:34,880 --> 00:09:38,120

Different color lights.

192

00:09:38,120 --> 00:09:42,001

And some of this could be seen with the naked eye.

193

00:09:42,001 --> 00:09:44,521

What color was the light on the object?

194

00:09:44,521 --> 00:09:48,521

Red, blue, green, all different colors.

195

00:09:48,521 --> 00:09:50,642

So the object itself is changing colors?

196

00:09:50,642 --> 00:09:53,042

Yes, yes.

197

00:09:53,042 --> 00:09:56,082

Carone describes the object as being multi-colored,

198

00:09:56,082 --> 00:09:58,402

noiseless, and making ribbon-like patterns.

199

00:10:01,163 --> 00:10:04,043

What about the suggestion that these were F-16s?

200

00:10:04,043 --> 00:10:06,003

I've never seen an F-16 do that.

201

00:10:06,003 --> 00:10:08,124

This did not look like an F-16 to you?

202

00:10:08,124 --> 00:10:08,724

No.

203

00:10:08,724 --> 00:10:12,444

I know what an F-16 sounds like going through the high also.

204

00:10:12,444 --> 00:10:12,924

OK.

205

00:10:12,924 --> 00:10:15,924

It can be hurt.

206

00:10:15,924 --> 00:10:17,605

As far as you know, this is not an airplane.

207

00:10:17,605 --> 00:10:18,645

Oh, it's not an airplane.

208

00:10:18,645 --> 00:10:19,365

Helicopter?

209

00:10:19,365 --> 00:10:20,165

No helicopter.

210

00:10:20,165 --> 00:10:20,845

Balloon?

211

00:10:20,845 --> 00:10:23,525

Definitely not a balloon.

212

00:10:23,525 --> 00:10:27,366

Certainly you've got an event that made people believe

213

00:10:27,366 --> 00:10:29,446

that we're looking at something patterned.

214

00:10:29,446 --> 00:10:33,046

For the first time, Carone relinquishes his video footage

215

00:10:33,086 --> 00:10:35,927

and camera to the team in hopes that they may uncover

216

00:10:35,927 --> 00:10:38,527

what occurred that night.

217

00:10:38,527 --> 00:10:40,687

There was definitely something on that video tape.

218

00:10:40,687 --> 00:10:43,128

Could this be the first documented evidence

219

00:10:43,128 --> 00:10:44,688

of the Steenville event?

220

00:10:44,688 --> 00:10:47,408

Guys, we got something great for you.

221

00:10:47,408 --> 00:10:51,288

Never before has this video been released to the public.

222

00:10:51,288 --> 00:10:53,569

It's not just a glimpse of an object.

223

00:10:53,569 --> 00:10:56,569

He had over 14 minutes of footage.

224

00:10:56,569 --> 00:10:58,409

And when the team analyzes it.

225

00:10:58,409 --> 00:10:59,529

I can't explain that.

226

00:10:59,529 --> 00:11:00,930

There's something going on.

227

00:11:00,970 --> 00:11:04,410

They uncover disturbing evidence.

228

00:11:04,410 --> 00:11:07,170

I'm convinced.

229

00:11:07,170 --> 00:11:10,131

These weren't aircraft or helicopters.

230

00:11:10,131 --> 00:11:13,731

I'm 52 years old, and I've never seen nothing like this.

231

00:11:13,731 --> 00:11:16,531

I knew something was there, but you couldn't see it.

232

00:11:16,531 --> 00:11:19,532

I noticed the birds went smack into it,

233

00:11:19,532 --> 00:11:23,652

and it spiraled down to the ground and fell.

234

00:11:23,652 --> 00:11:28,013

In January 2008, numerous locals of Stevenville, Texas

235

00:11:28,013 --> 00:11:30,053

and surrounding areas report seeing

236

00:11:30,053 --> 00:11:34,093

strange bright craft, possibly extraterrestrial.

237

00:11:34,093 --> 00:11:36,294

I ran inside the house and got my camcorder

238

00:11:36,294 --> 00:11:38,294

and started taking footage of the object.

239

00:11:41,574 --> 00:11:43,614

Guys, we got something great for you.

240

00:11:43,614 --> 00:11:45,495

We got some great footage.

241

00:11:45,495 --> 00:11:47,295

Jeff, could you hook that up to the player?

242

00:11:47,295 --> 00:11:48,895

All right, I'll set it up.

243

00:11:48,895 --> 00:11:51,055

For the first time ever, the team

244

00:11:51,055 --> 00:11:53,776

studies video evidence of one of the sightings that

245

00:11:53,776 --> 00:11:57,016

occurred on January 19, 2008.

246

00:11:57,016 --> 00:11:59,736

Joining the team is Ken Cherry, the state

247

00:11:59,736 --> 00:12:04,497

director of MUFON, the mutual UFO network.

248

00:12:04,497 --> 00:12:08,257

David Caron starts recording a bright light in the distance

249

00:12:08,257 --> 00:12:12,498

at 8.45 PM with a handheld digital camcorder.

250

00:12:12,498 --> 00:12:14,738

He stabilizes the camera by propping it

251

00:12:14,738 --> 00:12:16,018

against a sturdy pole.

252

00:12:19,739 --> 00:12:22,739

This is out front of his house, actually pointed

253

00:12:22,739 --> 00:12:25,739

between a line of trees and a telephone pole.

254

00:12:25,739 --> 00:12:29,020

Using the camera's 32 times optical zoom,

255

00:12:29,020 --> 00:12:31,260

he films what he believes is a UFO.

256

00:12:36,861 --> 00:12:39,621

The object has either a serpentine shape

257

00:12:39,621 --> 00:12:41,461

or produces ribbon-like patterns.

258

00:12:44,581 --> 00:12:47,622

Well, that looks severely blurred or defocused.

259

00:12:47,622 --> 00:12:49,982

He's got it on some kind of night shot right now,

260

00:12:49,982 --> 00:12:54,903

which is why you're getting this sort of stutter.

261

00:12:54,903 --> 00:12:57,103

Because the sighting occurs at night,

262

00:12:57,103 --> 00:12:59,263

Caron uses a special camera setting

263

00:12:59,263 --> 00:13:02,663

to capture images at low light.

264

00:13:02,663 --> 00:13:05,104

He said he saw it with his naked eye

265

00:13:05,104 --> 00:13:07,024

before he put the camera up to it,

266

00:13:07,024 --> 00:13:09,024

because that's what got him to go inside the house

267

00:13:09,024 --> 00:13:10,344

and get the camera.

268

00:13:10,344 --> 00:13:12,145

If he says this is what he actually saw,

269

00:13:12,145 --> 00:13:13,625

maybe not as pronounced.

270

00:13:13,625 --> 00:13:14,125

Exactly.

271

00:13:14,125 --> 00:13:16,985

But he saw streaks coming off it with his naked eye,

272

00:13:16,985 --> 00:13:21,226

that tells me, OK, fine, he's seeing something.

273

00:13:21,226 --> 00:13:24,986

The light displays another unexplainable characteristic.

274

00:13:24,986 --> 00:13:27,146

It looks like it's definitely multicolor.

275

00:13:27,146 --> 00:13:28,626

Probably the most curious thing to me

276

00:13:28,626 --> 00:13:31,787

is that the object appears to be changing colors

277

00:13:31,787 --> 00:13:33,307

throughout the spectrum.

278

00:13:33,307 --> 00:13:35,307

I can't explain.

279

00:13:35,307 --> 00:13:39,388

Have you seen these kinds of shapes before?

280

00:13:39,388 --> 00:13:41,508

What is the object?

281

00:13:41,508 --> 00:13:44,788

Is this image the result of operator error?

282

00:13:44,788 --> 00:13:48,909

Or could Caron have actually videotaped a UFO?

283

00:13:48,909 --> 00:13:52,309

Well, we could simply try to reproduce this effect

284

00:13:52,309 --> 00:13:54,629

and see if we can get something similar to that.

285

00:13:54,669 --> 00:13:55,550

Let's do it.

286

00:13:55,550 --> 00:13:56,050

All right.

287

00:13:56,050 --> 00:13:56,550

Go ahead.

288

00:13:59,550 --> 00:14:00,750

It's a good size university.

289

00:14:00,750 --> 00:14:02,790

It's a point guy's name, Clint.

290

00:14:02,790 --> 00:14:06,071

Dr. Ted Ackwer, along with experiments producer John

291

00:14:06,071 --> 00:14:08,751

Tyndall, head to Tarleton State University

292

00:14:08,751 --> 00:14:11,871

to see if it is possible to recreate the alleged UFO

293

00:14:11,871 --> 00:14:12,791

footage.

294

00:14:12,791 --> 00:14:15,272

To me, it looks like there's a lot of hand vibration, which

295

00:14:15,272 --> 00:14:17,312

is what's making it look like a UFO.

296

00:14:17,312 --> 00:14:18,952

So I really want to set up an experiment

297

00:14:18,952 --> 00:14:21,712

to see if we can mimic the shaking of the hand

298

00:14:21,712 --> 00:14:26,593

and recreate the effect that we have on the footage.

299

00:14:26,593 --> 00:14:30,073

Meanwhile, Pat and Bill have discovered a new twist

300

00:14:30,073 --> 00:14:32,754

in their investigation.

301

00:14:32,754 --> 00:14:35,354

This is not about a January the 8th sighting.

302

00:14:35,354 --> 00:14:39,595

This is about a cluster of sightings in a low population

303

00:14:39,595 --> 00:14:40,595

area.

304

00:14:40,595 --> 00:14:43,715

A lot of people believe that this case is about a January

305

00:14:43,715 --> 00:14:44,635

the 8th sighting.

306

00:14:44,635 --> 00:14:47,395

In fact, it's not.

307

00:14:47,395 --> 00:14:50,556

Local media claimed the mass UFO sightings began

308

00:14:50,556 --> 00:14:52,316

on January 8th.

309

00:14:52,316 --> 00:14:55,796

But Ken Cherry has found evidence proving them wrong.

310

00:14:55,796 --> 00:14:59,077

Story begins in December of 2007.

311

00:14:59,077 --> 00:15:03,717

MUFON typically receives 20 UFO reports a month from Texas.

312

00:15:03,717 --> 00:15:06,478

But that number was quickly surpassed by the reports

313

00:15:06,478 --> 00:15:08,038

from this single town.

314

00:15:08,038 --> 00:15:11,318

So the first week of December, we have two.

315

00:15:11,318 --> 00:15:13,918

Second week, same area.

316

00:15:13,918 --> 00:15:15,679

We have four.

317

00:15:15,679 --> 00:15:18,439

Third week, seven reports.

318

00:15:18,439 --> 00:15:19,959

We've got five more.

319

00:15:19,959 --> 00:15:21,679

At this point, we realize that we

320

00:15:21,679 --> 00:15:25,480

have a very significant mass sighting.

321

00:15:25,480 --> 00:15:28,520

Some claim that the rash of new reports in and around

322

00:15:28,520 --> 00:15:31,961

Stephenville were by people who were inspired to see lights

323

00:15:31,961 --> 00:15:34,801

in the sky immediately following the flurry of media

324

00:15:34,801 --> 00:15:38,801

reports that began on January 10th.

325

00:15:38,801 --> 00:15:40,802

But there's a problem with that.

326

00:15:40,802 --> 00:15:44,442

MUFON began receiving reports a month earlier.

327

00:15:44,442 --> 00:15:48,762

This is around Christmas when typically our whole system

328

00:15:48,762 --> 00:15:50,083

has a big lull.

329

00:15:50,083 --> 00:15:52,443

There have been sightings that dating all the way back

330

00:15:52,443 --> 00:15:57,483

to early December of 2007 that have peaked in early January

331

00:15:57,483 --> 00:15:58,564

of this year.

332

00:15:58,564 --> 00:16:01,004

And then now that swarm of sightings

333

00:16:01,004 --> 00:16:05,084

is moving south toward Houston.

334

00:16:05,084 --> 00:16:07,685

According to the latest MUFON reports,

335

00:16:07,685 --> 00:16:11,005

UFO sightings started in tons of Arath County.

336

00:16:11,005 --> 00:16:15,926

But as weeks went by, the sightings began to move south.

337

00:16:15,926 --> 00:16:20,486

January 20th, San Antonio, a cigar-shaped UFO.

338

00:16:20,486 --> 00:16:25,127

January 26th, San Antonio, flying disk.

339

00:16:25,127 --> 00:16:30,007

January 29th, Katie, strange triangle.

340

00:16:30,007 --> 00:16:35,688

February 2nd, Houston, upright sphere.

341

00:16:35,688 --> 00:16:38,688

The sightings eventually taper off around Houston

342

00:16:38,688 --> 00:16:40,928

in February 2008.

343

00:16:40,928 --> 00:16:42,769

But reports are still being collected

344

00:16:42,769 --> 00:16:45,369

in this ongoing investigation.

345

00:16:45,369 --> 00:16:47,329

It's almost like a flock of birds.

346

00:16:47,329 --> 00:16:51,130

I hope it's not, but that's what it seems like.

347

00:16:51,130 --> 00:16:54,810

What was the object or objects that many residents witnessed

348

00:16:54,810 --> 00:16:56,290

and David Carone filmed?

349

00:17:02,771 --> 00:17:03,971

Yeah, that's all we need.

350

00:17:03,971 --> 00:17:06,691

Ted, using Carone's video camera,

351

00:17:06,691 --> 00:17:09,892

attempts to recreate the footage in question.

352

00:17:09,892 --> 00:17:12,972

They rigged the base of the camera to a spinning drill,

353

00:17:12,972 --> 00:17:15,052

which moves the camera left to right,

354

00:17:15,052 --> 00:17:17,973

mimicking the movement of the hand.

355

00:17:17,973 --> 00:17:20,893

Carone claims to have shot a steady image,

356

00:17:20,893 --> 00:17:23,413

holding the camera against a pole.

357

00:17:23,413 --> 00:17:26,494

But could a shaky camera produce the ribbon effect

358

00:17:26,494 --> 00:17:28,374

as seen on the tape?

359

00:17:28,374 --> 00:17:30,494

We've set up the camera.

360

00:17:30,494 --> 00:17:32,694

We've got a point source on the horizon.

361

00:17:38,535 --> 00:17:42,015

The camera records a light on the other side of the room,

362

00:17:42,015 --> 00:17:45,496

representing the alleged UFO.

363

00:17:45,496 --> 00:17:48,376

There are a few similarities between a shaky camera

364

00:17:48,376 --> 00:17:53,017

filming a fixed light and Carone's footage of a UFO.

365

00:17:53,017 --> 00:17:54,457

Clearly, it's in one dimension.

366

00:17:54,457 --> 00:17:55,657

We know that's horizontal.

367

00:17:55,657 --> 00:17:58,857

But now imagine that spread over 2D in the hand.

368

00:17:58,857 --> 00:18:03,938

I think we'd be seeing more or less what we've got in the footage.

369

00:18:03,938 --> 00:18:06,698

The ribbon effect, to me, I think it says the camera was

370

00:18:06,698 --> 00:18:10,259

in night mode, and it was taking longer exposures per frame.

371

00:18:10,259 --> 00:18:11,939

And we just replicated it.

372

00:18:11,979 --> 00:18:15,299

The test footage is still not an exact match.

373

00:18:15,299 --> 00:18:18,060

Carone believes he filmed a single point of light

374

00:18:18,060 --> 00:18:19,740

that changes color.

375

00:18:19,740 --> 00:18:23,940

But is it possible for a star or a jet liner far in the distance

376

00:18:23,940 --> 00:18:25,660

to produce that effect?

377

00:18:25,660 --> 00:18:28,621

The footage is all the different colors blending.

378

00:18:28,621 --> 00:18:30,661

Well, could you combine red, green, and white

379

00:18:30,661 --> 00:18:32,821

and get close to that?

380

00:18:32,821 --> 00:18:35,502

John Tyndall adds red and green lights,

381

00:18:35,502 --> 00:18:38,582

which can be found on the wings and tails of airplanes

382

00:18:38,582 --> 00:18:41,822

and tries the experiment again.

383

00:18:41,862 --> 00:18:46,303

There is a mixing of the colors that you would find on an aircraft,

384

00:18:46,303 --> 00:18:49,983

the red, the green, the white, and all the hues in between.

385

00:18:49,983 --> 00:18:51,903

You get those colors adding together.

386

00:18:54,184 --> 00:18:56,864

I think it looked very similar, and we are using the same colors

387

00:18:56,864 --> 00:18:59,944

that are on an aircraft with a very similar technique.

388

00:18:59,944 --> 00:19:03,105

And to me, that says, airplane.

389

00:19:03,105 --> 00:19:06,425

The camera records traces of multicolored lights.

390

00:19:06,425 --> 00:19:11,546

Again, it is similar, but not an exact match to the UFO video,

391

00:19:11,546 --> 00:19:13,666

where the lights seem to blend.

392

00:19:13,666 --> 00:19:17,706

I can't say absolutely definitively what that point of light was,

393

00:19:17,706 --> 00:19:21,587

but I feel very strongly that it was a trestle aircraft

394

00:19:21,587 --> 00:19:25,147

at great distance with a consumer camera introducing errors

395

00:19:25,147 --> 00:19:26,947

that made it look more interesting than it was.

396

00:19:26,947 --> 00:19:29,148

But I'd love to get other eyes on this.

397

00:19:32,588 --> 00:19:35,028

People are seeing all kinds of things here.

398

00:19:35,028 --> 00:19:36,308

That's scientific fact.

399

00:19:36,308 --> 00:19:38,029

So something's happening.

400

00:19:38,029 --> 00:19:39,269

Hopefully we'll get more evidence.

401

00:19:41,949 --> 00:19:42,709

Hi, everybody.

402

00:19:42,709 --> 00:19:45,750

We're investigating the Stephenville Flying Social Flap.

403

00:19:45,750 --> 00:19:49,270

We are looking for local people who may have any sightings,

404

00:19:49,270 --> 00:19:53,350

evidence to come forward and talk to us about it.

405

00:19:53,350 --> 00:19:55,791

Another witness brings the team footage,

406

00:19:55,791 --> 00:19:57,191

and it's nothing like Carones.

407

00:20:00,911 --> 00:20:04,512

It started in November of 2007.

408

00:20:04,512 --> 00:20:09,192

Margie Galvez lives on 15 acres of land in Bromwood, Texas,

409

00:20:09,232 --> 00:20:11,833

home to a yard full of livestock.

410

00:20:11,833 --> 00:20:16,433

But in November, she noticed her animals slowly disappearing.

411

00:20:16,433 --> 00:20:20,874

I lost livestock and my ducks and chickens,

412

00:20:20,874 --> 00:20:22,594

and you would get up in the next morning

413

00:20:22,594 --> 00:20:28,634

and find their beaks in the water floating or nothing else.

414

00:20:28,634 --> 00:20:32,035

It might have been a predator or a feral dog.

415

00:20:32,035 --> 00:20:34,115

So to catch the culprit in the act,

416

00:20:34,115 --> 00:20:37,075

she set up a small night vision camera.

417

00:20:37,075 --> 00:20:40,276

But on November 21st, she recorded something

418

00:20:40,276 --> 00:20:41,516

she didn't expect.

419

00:20:44,156 --> 00:20:48,117

I went ahead and kicked on the recording at 1.41 AM,

420

00:20:48,117 --> 00:20:49,797

and I caught a beam of light.

421

00:20:54,517 --> 00:20:58,718

It beam down perfectly bright white light.

422

00:20:58,718 --> 00:20:59,358

Just beam down.

423

00:21:02,358 --> 00:21:04,519

Now have you ever seen this with your naked eye?

424

00:21:04,519 --> 00:21:05,019

No.

425

00:21:07,919 --> 00:21:08,959

I see it.

426

00:21:08,959 --> 00:21:12,359

The camera records a light for four minutes.

427

00:21:12,359 --> 00:21:13,360

It's unexplainable.

428

00:21:16,840 --> 00:21:19,560

The mysterious beam of light is cone shaped,

429

00:21:19,560 --> 00:21:22,241

probably the length of a car.

430

00:21:22,241 --> 00:21:26,441

And surprisingly, it does not seem to touch the ground.

431

00:21:26,441 --> 00:21:28,601

Search lights don't do that unless there's something

432

00:21:28,601 --> 00:21:31,282

on the ground that's raised that's stopping the light.

433

00:21:31,282 --> 00:21:33,762

People do commonly report beams that actually

434

00:21:33,762 --> 00:21:35,762

are truncated coming from the ground.

435

00:21:35,802 --> 00:21:38,002

I've heard this scores of times.

436

00:21:38,002 --> 00:21:41,243

Ever since witnesses have claimed to see UFOs,

437

00:21:41,243 --> 00:21:44,843

there have been frequent sightings of beams of light.

438

00:21:44,843 --> 00:21:49,084

There's something very, very strange.

439

00:21:49,084 --> 00:21:52,444

And just before the mass UFO reports in Stephenville

440

00:21:52,444 --> 00:21:55,364

begin, Margie Galvez witnesses this.

441

00:21:58,405 --> 00:22:00,845

Something shocking is happening that keeps the town

442

00:22:00,845 --> 00:22:02,245

on high alert.

443

00:22:02,245 --> 00:22:03,845

There was like a beam of light.

444

00:22:04,805 --> 00:22:07,086

There was like a beam coming down from there.

445

00:22:07,086 --> 00:22:10,486

And the mysterious light seen by Margie Galvez

446

00:22:10,486 --> 00:22:13,206

was seen by others as well.

447

00:22:13,206 --> 00:22:14,327

The girls were screaming.

448

00:22:19,127 --> 00:22:22,727

Hundreds of UFO sightings swept across the small area

449

00:22:22,727 --> 00:22:24,488

of Arath County, Texas.

450

00:22:24,488 --> 00:22:27,408

Approximately 200 different sightings over a three month

451

00:22:27,408 --> 00:22:28,168

period.

452

00:22:28,168 --> 00:22:29,248

It just took off.

453

00:22:29,248 --> 00:22:31,729

Very bright center in it.

454

00:22:31,769 --> 00:22:35,249

And neighborhoods are riddled with paranormal activity.

455

00:22:35,249 --> 00:22:38,609

I sighted a beam light.

456

00:22:38,609 --> 00:22:41,730

One witness claims to have video of a beam of light

457

00:22:41,730 --> 00:22:45,170

that hit her backyard, but never touched the ground.

458

00:22:45,170 --> 00:22:45,970

There it is up there.

459

00:22:48,650 --> 00:22:51,491

I'm open to the possibility that some of these lights

460

00:22:51,491 --> 00:22:53,571

in the sky are here for whatever reason

461

00:22:53,571 --> 00:22:54,811

we can't understand.

462

00:22:54,811 --> 00:22:56,891

Maybe they're watching us.

463

00:22:56,891 --> 00:22:59,292

We need to see what we can collaborate with other sightings,

464

00:22:59,332 --> 00:23:02,932

by patting basically see who saw something at that point

465

00:23:02,932 --> 00:23:03,572

in the sky.

466

00:23:03,572 --> 00:23:04,252

Let's do that.

467

00:23:07,813 --> 00:23:11,173

Bill finds a 45 year old woman who also believes

468

00:23:11,173 --> 00:23:14,333

to have witnessed a UFO emitting the same suspicious

469

00:23:14,333 --> 00:23:15,654

beam of light.

470

00:23:15,654 --> 00:23:19,534

For the sake of her job, she wishes to remain anonymous.

471

00:23:19,534 --> 00:23:23,014

January 19th, and like I said, it was right after 10 o'clock.

472

00:23:23,014 --> 00:23:26,695

Once we got to the stop sign, we had seen an object that

473

00:23:26,695 --> 00:23:28,775

was just right above the trees.

474

00:23:28,775 --> 00:23:32,695

While driving, she and three teenage girls in her car

475

00:23:32,695 --> 00:23:34,736

spot bright lights in the sky.

476

00:23:34,736 --> 00:23:37,176

The lights were going in circular motion.

477

00:23:37,176 --> 00:23:39,816

I mean, there were huge lights.

478

00:23:39,816 --> 00:23:40,976

We're following the object.

479

00:23:40,976 --> 00:23:44,577

We can see the object going very slow.

480

00:23:44,577 --> 00:23:46,737

As we started coming around right here,

481

00:23:46,737 --> 00:23:49,097

that's when it started moving a little faster

482

00:23:49,097 --> 00:23:51,978

and it just zapped out.

483

00:23:51,978 --> 00:23:55,258

It was just something like this, oval shapes.

484

00:23:55,258 --> 00:23:56,818

There were huge lights.

485

00:23:56,858 --> 00:23:58,858

They were like going in circular motion.

486

00:23:58,858 --> 00:24:03,059

She witnesses the object on the night of January 19th.

487

00:24:03,059 --> 00:24:07,379

In the hours just after David Carone made his video,

488

00:24:07,379 --> 00:24:10,060

is there a connection?

489

00:24:10,060 --> 00:24:13,700

This reported UFO sighting occurs only three miles away

490

00:24:13,700 --> 00:24:15,620

from Carone's residence.

491

00:24:15,620 --> 00:24:18,501

But to this witness's eyes, it supposedly

492

00:24:18,501 --> 00:24:21,261

emits a beam of light similar to the one described

493

00:24:21,261 --> 00:24:25,141

by Margie Galvez, 52 miles away.

494

00:24:25,141 --> 00:24:28,222

There was like a beam, a lot of coming down from there.

495

00:24:28,222 --> 00:24:30,262

Did the beam hit the ground?

496

00:24:30,262 --> 00:24:30,982

No.

497

00:24:30,982 --> 00:24:31,622

No.

498

00:24:31,622 --> 00:24:33,062

You don't see any light on the ground?

499

00:24:33,062 --> 00:24:35,623

No.

500

00:24:35,623 --> 00:24:41,423

Two witnesses, one showing us a video, one seeing the object,

501

00:24:41,423 --> 00:24:44,704

but they both see the same thing, the cone of light

502

00:24:44,704 --> 00:24:46,864

stopping and never hitting the ground.

503

00:24:46,864 --> 00:24:48,424

Something was there.

504

00:24:48,424 --> 00:24:52,105

According to the military, something was there,

505

00:24:52,105 --> 00:24:55,105

but it was not extraterrestrial.

506

00:24:55,105 --> 00:24:58,705

On January 14th, four days after the media

507

00:24:58,705 --> 00:25:01,346

reports the alleged UFO sighting,

508

00:25:01,346 --> 00:25:04,946

Major Carl Lewis, a spokesman for the Joint Reserve Base

509

00:25:04,946 --> 00:25:08,826

in Fort Worth, said there were no F-16s in the area

510

00:25:08,826 --> 00:25:11,547

the night of January 8th.

511

00:25:11,547 --> 00:25:16,587

10 days later, on January 24th, the US military changes

512

00:25:16,587 --> 00:25:17,827

its story.

513

00:25:17,827 --> 00:25:20,508

It claims there was an error in reporting the training

514

00:25:20,508 --> 00:25:22,948

activity of military aircraft.

515

00:25:22,948 --> 00:25:27,789

There were actually 10 F-16s from the 457th Fighter Squadron

516

00:25:27,789 --> 00:25:32,789

in the area from 6 to 8 PM that night.

517

00:25:32,789 --> 00:25:36,510

I don't know why there would be 10 F-16s in the same area

518

00:25:36,510 --> 00:25:37,470

at the same time.

519

00:25:37,470 --> 00:25:39,190

It's very strange.

520

00:25:39,190 --> 00:25:43,870

And even if 10 F-16s were in the air on January 8th,

521

00:25:43,870 --> 00:25:46,311

how does that account for the sightings on the weeks

522

00:25:46,311 --> 00:25:48,431

before and after?

523

00:25:48,431 --> 00:25:51,591

They all keep going back to the 8th of January.

524

00:25:51,591 --> 00:25:53,752

I know actually a couple of other people

525

00:25:53,752 --> 00:25:55,832

that have seen it more than one night.

526

00:25:55,832 --> 00:25:57,832

So do you think the military is hiding something?

527

00:25:57,832 --> 00:25:58,712

Oh, yes.

528

00:25:58,712 --> 00:25:59,472

Oh, yeah.

529

00:25:59,472 --> 00:26:01,873

The military is hiding something.

530

00:26:04,473 --> 00:26:08,513

What would it take to get 10 F-16s in the air

531

00:26:08,513 --> 00:26:10,634

from a reserve base?

532

00:26:10,634 --> 00:26:12,754

Only the major in charge of the wing

533

00:26:12,754 --> 00:26:17,674

could authorize the aircraft, the fuel, the ground crews,

534

00:26:17,674 --> 00:26:20,675

plus all of the number of people involved.

535

00:26:20,715 --> 00:26:22,475

That in itself would be unusual.

536

00:26:22,475 --> 00:26:26,035

So everything about this spells that it

537

00:26:26,035 --> 00:26:30,836

was an exceptional situation to put those jets in the air.

538

00:26:30,836 --> 00:26:32,716

Is it possible that these jets were

539

00:26:32,716 --> 00:26:35,356

scrambled because something unusual was

540

00:26:35,356 --> 00:26:37,077

detected in the airspace?

541

00:26:37,077 --> 00:26:40,277

Already, just like Roswell in 1947,

542

00:26:40,277 --> 00:26:43,077

you have events taking place here

543

00:26:43,077 --> 00:26:45,398

that the government is trying to smother,

544

00:26:45,398 --> 00:26:48,158

but the truth will out.

545

00:26:48,158 --> 00:26:51,438

Ted and Jeff, using airspace charting maps,

546

00:26:51,438 --> 00:26:54,279

investigate the surrounding military bases.

547

00:26:54,279 --> 00:26:57,279

I'm curious, where can we come up with military flight training

548

00:26:57,279 --> 00:26:58,359

paths?

549

00:26:58,359 --> 00:27:00,399

The best we can have as civilians

550

00:27:00,399 --> 00:27:03,600

is to get a military operations area.

551

00:27:03,600 --> 00:27:05,880

The Stephenville UFO sightings are

552

00:27:05,880 --> 00:27:09,320

surrounded by Clark Field Municipal Airport, Dallas

553

00:27:09,320 --> 00:27:11,400

Fort Worth International Airport,

554

00:27:11,400 --> 00:27:15,721

and Fort Worth Naval Air Station Joint Reserve Base.

555

00:27:15,721 --> 00:27:19,481

Oh, I see something, military operations area.

556

00:27:19,481 --> 00:27:22,282

Stephenville is 12 miles to the northeast

557

00:27:22,282 --> 00:27:25,282

of the Brownwood Military Operations Area,

558

00:27:25,282 --> 00:27:28,522

where civilian and commercial flights are prohibited.

559

00:27:28,522 --> 00:27:32,883

Likewise, military craft are not allowed outside of this zone.

560

00:27:32,883 --> 00:27:35,923

OK, so Dublin's on the brink of this military area, right?

561

00:27:35,923 --> 00:27:37,803

We actually have lots of sightings in Dublin,

562

00:27:37,803 --> 00:27:39,484

as well as Stephenville.

563

00:27:39,484 --> 00:27:43,684

And this one right here, that's a fully restricted area.

564

00:27:43,724 --> 00:27:47,485

60 miles to the southeast sits the Presidential Ranch

565

00:27:47,485 --> 00:27:51,565

in Crawford, a severely restricted airspace.

566

00:27:51,565 --> 00:27:55,125

What would it mean, Ted, if these military aircraft was

567

00:27:55,125 --> 00:27:57,406

scheduled to have some sort of exercise,

568

00:27:57,406 --> 00:28:00,006

but they ventured outside of the military operations area?

569

00:28:00,006 --> 00:28:00,806

Pretty unlikely.

570

00:28:00,806 --> 00:28:01,886

Pretty unlikely.

571

00:28:01,886 --> 00:28:06,207

Is it possible that military jets flying out of this airspace

572

00:28:06,207 --> 00:28:10,567

is a cause for the UFO sightings?

573

00:28:10,567 --> 00:28:12,687

Pat Uskert attempts to get a statement

574

00:28:12,687 --> 00:28:16,688

from the officials at the Fort Worth Naval Air Station.

575

00:28:16,688 --> 00:28:19,528

I'm calling from the History Channel,

576

00:28:19,528 --> 00:28:23,169

and I'm wondering who I might be able to talk to regarding

577

00:28:23,169 --> 00:28:25,889

current UFO events over Stephenville.

578

00:28:25,889 --> 00:28:27,369

I couldn't answer anything on that.

579

00:28:27,369 --> 00:28:29,849

Is there any way I would be able to get in touch

580

00:28:29,849 --> 00:28:33,090

with Major Carl Lewis?

581

00:28:33,090 --> 00:28:36,530

I have no idea what command he had.

582

00:28:36,530 --> 00:28:38,850

Would it be possible to get in touch with anyone

583

00:28:38,850 --> 00:28:41,691

from the 457th Fighter Squadron?

584

00:28:41,691 --> 00:28:46,931

I'm not sure on the 457th Fighter Squadron.

585

00:28:46,931 --> 00:28:49,932

Either officials are not available to comment

586

00:28:49,932 --> 00:28:52,732

or declined to answer.

587

00:28:52,732 --> 00:28:54,372

What I really want to do is find at least three

588

00:28:54,372 --> 00:28:55,492

independent witnesses and go to locations.

589

00:28:55,492 --> 00:29:00,013

To determine if military craft are being mistaken for a UFO,

590

00:29:00,013 --> 00:29:02,773

the team must calculate the path and location

591

00:29:02,773 --> 00:29:04,693

of the reported UFOs.

592

00:29:04,693 --> 00:29:07,454

So if we can corroborate at least three different

593

00:29:07,454 --> 00:29:10,174

eyewitness accounts around a single sighting,

594

00:29:10,174 --> 00:29:13,374

we could try to triangulate what they saw and where they saw it.

595

00:29:13,374 --> 00:29:16,135

And if those three corroborate in terms of position,

596

00:29:16,135 --> 00:29:18,695

that should give us a hunch about where they were located

597

00:29:18,695 --> 00:29:21,295

relative to all of these standard aeronautical

598

00:29:21,295 --> 00:29:22,295

operations.

599

00:29:22,295 --> 00:29:23,296

Great.

600

00:29:23,296 --> 00:29:24,296

Cool.

601

00:29:24,296 --> 00:29:25,296

Let's go.

602

00:29:25,296 --> 00:29:27,976

The team sets out to find three or more individuals whose

603

00:29:27,976 --> 00:29:30,576

stories share the same description, place,

604

00:29:30,576 --> 00:29:34,457

and time of the event in order to scientifically pinpoint

605

00:29:34,457 --> 00:29:38,377

the exact location of the mysterious craft.

606

00:29:38,457 --> 00:29:41,938

If the focal point of locations do not coincide with known

607

00:29:41,938 --> 00:29:45,898

military flight paths, then the town of Stephenville may not

608

00:29:45,898 --> 00:29:51,459

have been visited by F-16s at all, but by something else.

609

00:29:51,459 --> 00:29:54,859

We've got a live one.

610

00:29:54,859 --> 00:29:55,779

I am scared.

611

00:29:55,779 --> 00:29:58,420

Probably the end of our civilization as we know it.

612

00:29:58,420 --> 00:30:01,540

The team tries to get an exact location of the sighting that

613

00:30:01,540 --> 00:30:05,540

took place on January 8th, the day with the highest number

614

00:30:05,540 --> 00:30:07,141

of UFO reports.

615

00:30:07,221 --> 00:30:10,021

I grabbed my gun and looked up into the sky and I saw the

616

00:30:10,021 --> 00:30:11,421

light smoothing.

617

00:30:11,421 --> 00:30:15,021

Could these sightings be misidentified military jets,

618

00:30:15,021 --> 00:30:19,222

civilian airplanes, or something else?

619

00:30:19,222 --> 00:30:21,182

These objects were unidentifiable.

620

00:30:21,182 --> 00:30:24,143

I'd never seen anything like them.

621

00:30:24,143 --> 00:30:27,263

The team needs at least three individuals who witnessed the

622

00:30:27,263 --> 00:30:31,303

same object at the same time in order to triangulate the

623

00:30:31,303 --> 00:30:35,184

position of the alleged UFO to help determine what was in the

624

00:30:35,184 --> 00:30:36,944

sky that night.

625

00:30:36,944 --> 00:30:39,744

They have a lead on one person.

626

00:30:39,744 --> 00:30:42,025

So Ted, what do you think we're going to get out of this guy?

627

00:30:42,025 --> 00:30:45,185

I think we'll get some good coordinates and sightline for

628

00:30:45,185 --> 00:30:47,065

the UFO sighting.

629

00:30:47,065 --> 00:30:50,786

Bill Hensley witnesses from his front porch a mysterious

630

00:30:50,786 --> 00:30:54,586

bright light moving slowly, almost hovering.

631

00:30:54,586 --> 00:30:56,226

And I saw this real bright light.

632

00:30:56,226 --> 00:31:00,627

It was moving, but didn't hear no sound.

633

00:31:00,627 --> 00:31:04,427

There's two openings in the tree right there.

634

00:31:04,427 --> 00:31:06,347

It was in one of those spots.

635

00:31:06,347 --> 00:31:08,188

So you say right about here?

636

00:31:08,188 --> 00:31:09,308

Yes.

637

00:31:09,308 --> 00:31:12,548

I'm getting 81 degrees.

638

00:31:12,548 --> 00:31:13,708

And how long was it there for?

639

00:31:13,708 --> 00:31:15,028

About 15 minutes.

640

00:31:15,028 --> 00:31:16,749

But it's not been back since.

641

00:31:16,749 --> 00:31:17,189

Right.

642

00:31:17,189 --> 00:31:20,349

I've never seen it again.

643

00:31:20,349 --> 00:31:23,029

He definitely feels like he saw something really unusual.

644

00:31:23,029 --> 00:31:25,390

He doesn't know what it was, but I think we got all the

645

00:31:25,390 --> 00:31:27,550

quantitative data we could have hoped for.

646

00:31:27,550 --> 00:31:29,710

We need to get at least two more of these.

647

00:31:29,710 --> 00:31:31,190

We can triangulate the position.

648

00:31:31,830 --> 00:31:35,671

Half a mile from Bill Hensley lives James Hughes, a retired

649

00:31:35,671 --> 00:31:37,631

US Air Force technician.

650

00:31:37,631 --> 00:31:41,551

He claims he saw an unknown object with a similar description

651

00:31:41,551 --> 00:31:43,352

on the same date and time.

652

00:31:43,352 --> 00:31:46,032

I caught something about the reddest thing I'd ever seen

653

00:31:46,032 --> 00:31:47,752

in the sky.

654

00:31:47,752 --> 00:31:48,952

And there was two of them.

655

00:31:48,952 --> 00:31:52,153

I had never seen anything like that.

656

00:31:52,153 --> 00:31:56,033

Hughes reported seeing two bright red orbs traveling from

657

00:31:56,033 --> 00:31:58,113

northwest to southeast.

658

00:31:58,113 --> 00:32:00,073

They must have been in the sky.

659

00:32:00,073 --> 00:32:03,954

They might have been as low as 1,500 feet.

660

00:32:03,954 --> 00:32:05,154

OK.

661

00:32:05,154 --> 00:32:08,434

With James's testimony, we're off to a good starting point.

662

00:32:08,434 --> 00:32:11,275

We have to corroborate that with multiple perspectives,

663

00:32:11,275 --> 00:32:13,675

multiple eyewitness accounts.

664

00:32:13,675 --> 00:32:17,155

With two locations now pinpointed, the team uses the

665

00:32:17,155 --> 00:32:21,596

Mufon database to find their last corroborating location.

666

00:32:21,596 --> 00:32:25,116

The witness declined to be on camera, but reports seeing

667

00:32:25,116 --> 00:32:27,957

the object from his car on Interstate 67.

668

00:32:30,877 --> 00:32:34,477

In their investigation, Bill and Pat have discovered another

669

00:32:34,477 --> 00:32:36,158

twist in the case.

670

00:32:36,158 --> 00:32:38,998

There seems to be a long history of UFOs

671

00:32:38,998 --> 00:32:40,038

plaguing this small town.

672

00:32:42,758 --> 00:32:45,359

Well, I've been seeing these anomalies.

673

00:32:45,359 --> 00:32:47,919

I call them in the sky for quite some time.

674

00:32:47,919 --> 00:32:51,679

It was probably about 63, 64.

675

00:32:51,679 --> 00:32:54,720

There is often a stigma associated to witnessing and

676

00:32:54,720 --> 00:32:56,560

reporting UFOs.

677

00:32:56,560 --> 00:32:59,600

One resident, who wishes to remain anonymous,

678

00:32:59,600 --> 00:33:02,561

alleges he has witnessed cigar-shaped UFOs in

679

00:33:02,561 --> 00:33:04,561

Stephenville for decades.

680

00:33:04,561 --> 00:33:06,641

This object looked like a football.

681

00:33:06,641 --> 00:33:08,841

It was very bright and had a lot of lights on it.

682

00:33:08,841 --> 00:33:11,762

It would just zap outside.

683

00:33:11,762 --> 00:33:15,562

Cigar-shaped UFOs are one of the most commonly cited objects

684

00:33:15,562 --> 00:33:18,162

believed to be extraterrestrial.

685

00:33:18,162 --> 00:33:21,843

One of the earliest reports was from 1951 over Mount

686

00:33:21,843 --> 00:33:24,763

Kilimanjaro in Africa.

687

00:33:24,763 --> 00:33:28,804

Another similar craft appears in 1981, hovering over

688

00:33:28,804 --> 00:33:31,244

Denison, Texas.

689

00:33:31,244 --> 00:33:36,845

May 25, 1995, Captain Eugene Tollefson of America West

690

00:33:36,845 --> 00:33:41,125

Flight 564 calls into air traffic control the report of an

691

00:33:41,125 --> 00:33:43,725

anomalous flying cigar over Bovina, Texas.

692

00:33:47,286 --> 00:33:50,326

And now they are seen in Stephenville.

693

00:33:50,326 --> 00:33:52,846

It was just oval shapes.

694

00:33:52,846 --> 00:33:55,647

Are you saying that the phenomenon around here has

695

00:33:55,647 --> 00:33:57,047

been going on for some time?

696

00:33:57,047 --> 00:33:58,487

Yes, it has.

697

00:33:58,487 --> 00:34:03,848

How far back do UFO sightings date in this area?

698

00:34:03,848 --> 00:34:07,928

And I've actually got the microfilm from 1897 here.

699

00:34:07,928 --> 00:34:11,649

Another possibility is that these sightings are actually

700

00:34:11,649 --> 00:34:15,929

related to the other sightings that have been reported.

701

00:34:15,929 --> 00:34:16,609

That's the one.

702

00:34:16,609 --> 00:34:17,609

Here's the article.

703

00:34:17,609 --> 00:34:20,490

Mysterious airship has been seen in the northern part of

704

00:34:20,490 --> 00:34:22,730

this county.

705

00:34:22,730 --> 00:34:27,810

April 17, 1897, Stephenville, Texas.

706

00:34:27,850 --> 00:34:31,851

Six years before the first plane was flown, a cigar-shaped

707

00:34:31,851 --> 00:34:34,651

craft was spotted in North Texas.

708

00:34:34,651 --> 00:34:38,212

Residents in Denton and Aurora described the object as an

709

00:34:38,212 --> 00:34:40,372

airship.

710

00:34:40,372 --> 00:34:41,772

So this was a mass sighting.

711

00:34:41,772 --> 00:34:44,852

It's like today.

712

00:34:44,852 --> 00:34:48,733

There, it remained about 15 minutes and continued more.

713

00:34:48,733 --> 00:34:52,493

The airship reportedly circled the town square of Aurora and

714

00:34:52,493 --> 00:34:54,933

crashed into a window.

715

00:34:54,933 --> 00:34:58,974

People were describing fantastic vehicles in the sky that

716

00:34:58,974 --> 00:35:00,254

didn't even exist yet.

717

00:35:00,254 --> 00:35:01,974

It couldn't have been a balloon because we didn't have a

718

00:35:01,974 --> 00:35:02,494

balloon yet.

719

00:35:02,494 --> 00:35:06,055

The Germans didn't even have the balloon until 1900.

720

00:35:06,055 --> 00:35:09,575

Two days later, the Dallas Morning News reported that the

721

00:35:09,575 --> 00:35:13,016

only things surviving the crash were a note written in

722

00:35:13,016 --> 00:35:17,216

indecipherable hieroglyphics and a charred body of the pilot

723

00:35:17,216 --> 00:35:20,976

that did not appear human.

724

00:35:21,016 --> 00:35:26,017

We'll talk a little bit about the 1897 airship incident.

725

00:35:26,017 --> 00:35:30,698

The TN meets with local historian Sarah Kennedy, who has

726

00:35:30,698 --> 00:35:33,658

been studying this century-old phenomena.

727

00:35:33,658 --> 00:35:36,338

There's actually been quite a few incidents in the

728

00:35:36,338 --> 00:35:37,858

E-Rath County area.

729

00:35:37,858 --> 00:35:44,379

June 12, 1891, there was a brilliantly glowing bale of

730

00:35:44,379 --> 00:35:48,140

cotton suspended 300 feet in the air.

731

00:35:48,140 --> 00:35:53,660

Here's one from 1996 and then even one from the mid-1970s, a

732

00:35:53,660 --> 00:35:57,981

cigar-shaped formation with huge red lights.

733

00:35:57,981 --> 00:36:01,701

So we actually have, like, documentation of UFO activity

734

00:36:01,701 --> 00:36:04,141

that's gone on for over 100 years.

735

00:36:04,141 --> 00:36:04,781

Sure.

736

00:36:04,781 --> 00:36:06,822

It's been going on since people have been

737

00:36:06,822 --> 00:36:08,302

looking at the stars.

738

00:36:08,302 --> 00:36:13,462

What is it about Stevenville, Dublin, E-Rath County that is

739

00:36:13,462 --> 00:36:15,063

drawing all this activity?

740

00:36:15,063 --> 00:36:16,583

What is going on here?

741

00:36:18,263 --> 00:36:21,583

The reasons for the long, documented UFO phenomenon in

742

00:36:21,583 --> 00:36:24,304

Texas remain mysterious.

743

00:36:24,304 --> 00:36:27,784

The sightings may be of more than one craft, and the chance

744

00:36:27,784 --> 00:36:31,144

remains that at least one, here in Stevenville, was a

745

00:36:31,144 --> 00:36:33,785

military flight.

746

00:36:33,785 --> 00:36:36,625

The team circles back to the three eye witnesses with

747

00:36:36,625 --> 00:36:40,025

corroborating testimonies.

748

00:36:40,025 --> 00:36:43,146

Using the witness's accounts, the team attempts an

749

00:36:43,146 --> 00:36:46,026

experiment that's never before been tried.

750

00:36:46,026 --> 00:36:49,987

It's the first full geographic scale experiment of a UFO

751

00:36:49,987 --> 00:36:50,907

sighting.

752

00:36:50,907 --> 00:36:55,147

What will it tell us if three people saw the same thing in

753

00:36:55,147 --> 00:36:59,428

exactly the same place at the same time?

754

00:36:59,428 --> 00:37:02,908

The answers could be as frightening as the UFOs

755

00:37:02,908 --> 00:37:03,988

themselves.

756

00:37:03,988 --> 00:37:06,549

It wasn't some dot out on the horizon infinity.

757

00:37:06,549 --> 00:37:07,829

It was right over 10.

758

00:37:08,829 --> 00:37:13,469

Since December 2007, more than 200 UFO sightings are

759

00:37:13,469 --> 00:37:16,790

reported in E-Rath County, and the cluster is reportedly

760

00:37:16,790 --> 00:37:18,710

moving south.

761

00:37:18,710 --> 00:37:21,750

The investigation has left the team with more questions than

762

00:37:21,750 --> 00:37:22,990

answers.

763

00:37:22,990 --> 00:37:24,671

What was this object?

764

00:37:24,671 --> 00:37:25,991

Why here?

765

00:37:25,991 --> 00:37:27,911

And why now?

766

00:37:27,911 --> 00:37:32,191

Not knowing what it is, the team hopes to find out at least

767

00:37:32,191 --> 00:37:34,512

where it was.

768

00:37:34,552 --> 00:37:38,992

Media outlets and countless witnesses report seeing UFOs in

769

00:37:38,992 --> 00:37:42,833

varying areas and times, but the team is only interested in

770

00:37:42,833 --> 00:37:44,513

three of these.

771

00:37:44,513 --> 00:37:49,833

The reports from January 8 between 8 and 9 p.m.

772

00:37:49,833 --> 00:37:51,994

This is actually a pretty exciting experiment we're

773

00:37:51,994 --> 00:37:52,794

doing here.

774

00:37:55,794 --> 00:37:58,074

As far as I've ever heard of, it's the first full

775

00:37:58,074 --> 00:38:02,235

geographic scale triangulation experiment of a UFO sighting

776

00:38:02,275 --> 00:38:06,195

If the three sight lines of the witnesses intersect, then the

777

00:38:06,195 --> 00:38:08,836

team can scientifically pinpoint where the unknown

778

00:38:08,836 --> 00:38:11,356

object was located.

779

00:38:11,356 --> 00:38:15,076

Is that location over a military operations area?

780

00:38:15,076 --> 00:38:18,357

Do radar images account for a craft there?

781

00:38:18,357 --> 00:38:22,237

Are the townspeople mistaking military jets flying out of

782

00:38:22,237 --> 00:38:23,637

their designated airspace?

783

00:38:26,638 --> 00:38:28,398

One thing is evident.

784

00:38:28,398 --> 00:38:31,838

There was something in these skies.

785

00:38:31,838 --> 00:38:34,719

Going to go around and get you guys into the proper

786

00:38:34,719 --> 00:38:37,999

positions relative to this site.

787

00:38:37,999 --> 00:38:40,919

The team is at the Stephenville City Park near the

788

00:38:40,919 --> 00:38:43,000

airport.

789

00:38:43,000 --> 00:38:46,800

In ordinary triangulation experiments, one must stand

790

00:38:46,800 --> 00:38:50,600

in the exact position of the witnesses, project a laser to

791

00:38:50,600 --> 00:38:54,681

create their sight line and determine where they intersect.

792

00:38:54,681 --> 00:38:58,321

But because the sight line is not in the right position, the

793

00:38:58,321 --> 00:39:01,642

cause it is against FAA regulations to fire a high

794

00:39:01,642 --> 00:39:05,162

powered beam in the sky, the team recalculates the

795

00:39:05,162 --> 00:39:08,802

coordinates to fit their experiment in a smaller area.

796

00:39:08,802 --> 00:39:11,723

Basically, we're transposing their coordinates into this

797

00:39:11,723 --> 00:39:15,283

new area where we can actually do the demonstration.

798

00:39:15,283 --> 00:39:18,044

And we'll all set up you and then you, and then I'll be the

799

00:39:18,044 --> 00:39:18,804

third point.

800

00:39:18,804 --> 00:39:22,164

We'll all be on radio, and we'll be in position ready for

801

00:39:22,164 --> 00:39:22,764

the balloon.

802

00:39:22,764 --> 00:39:26,004

And as soon as that's all solid and good, shine your lasers

803

00:39:26,004 --> 00:39:28,285

on there, and we'll see if we can get a reaction on the

804

00:39:28,285 --> 00:39:29,645

intersect.

805

00:39:29,645 --> 00:39:32,285

With the support of the Stephenville Fire Department

806

00:39:32,285 --> 00:39:35,726

and a number of spectators, the team takes their positions

807

00:39:35,726 --> 00:39:37,126

in the park.

808

00:39:37,126 --> 00:39:38,006

OK.

809

00:39:38,006 --> 00:39:43,246

OK, here's our GPS coordinates, Latin Lund, right there.

810

00:39:43,246 --> 00:39:43,806

Yep.

811

00:39:43,806 --> 00:39:46,447

OK, so that's your direction.

812

00:39:46,447 --> 00:39:47,847

Just remember that direction.

813

00:39:47,847 --> 00:39:49,607

Jeff and I will go to his position.

814

00:39:49,607 --> 00:39:50,687

I'll set him up there.

815

00:39:50,687 --> 00:39:51,887

I'll go to the third.

816

00:39:51,887 --> 00:39:53,048

We're all on radio.

817

00:39:53,048 --> 00:39:54,768

And when the time's right, we'll shoot the lasers.

818

00:39:54,768 --> 00:39:57,728

I'll be here.

819

00:39:57,768 --> 00:40:00,688

What we have here is a eight foot weather balloon.

820

00:40:00,688 --> 00:40:03,289

When we get this balloon positioned to where our

821

00:40:03,289 --> 00:40:06,329

eyewitnesses believe they saw the UFO, they'll hit the

822

00:40:06,329 --> 00:40:07,929

balloon with the lasers.

823

00:40:07,929 --> 00:40:10,610

And we'll have confirmation that, by gosh, that's where the

824

00:40:10,610 --> 00:40:13,370

UFO was.

825

00:40:13,370 --> 00:40:15,250

All right, John, I'm in position.

826

00:40:15,250 --> 00:40:17,370

Let me know when I can fire my laser.

827

00:40:17,370 --> 00:40:21,091

OK, Jeff, fire your laser.

828

00:40:21,091 --> 00:40:24,131

OK, Ted here training my laser.

829

00:40:24,131 --> 00:40:24,891

See all the lasers?

830

00:40:24,891 --> 00:40:27,491

They've got to keep it on there, keep them steady.

831

00:40:27,491 --> 00:40:30,092

OK, John, we've got our three coordinates.

832

00:40:30,092 --> 00:40:31,372

You should be raising that balloon.

833

00:40:31,372 --> 00:40:32,652

And we'll see if we intersect.

834

00:40:39,973 --> 00:40:43,293

Now, that looks like it could be a UFO.

835

00:40:43,293 --> 00:40:44,533

It's looking good.

836

00:40:44,533 --> 00:40:47,014

All right, all three are on there.

837

00:40:47,014 --> 00:40:49,654

Yes.

838

00:40:49,654 --> 00:40:53,774

The team successfully triangulates the object.

839

00:40:53,774 --> 00:40:57,055

According to the team's findings, on January 8th,

840

00:40:57,055 --> 00:41:01,295

around 8 PM, an unidentified object was approximately two

841

00:41:01,295 --> 00:41:04,976

miles east of Stephenville, near Clark Field Municipal

842

00:41:04,976 --> 00:41:06,096

Airport.

843

00:41:06,096 --> 00:41:09,336

It hovered at an altitude of around 1,000 feet.

844

00:41:12,457 --> 00:41:16,897

No military operations area falls within this radius.

845

00:41:16,897 --> 00:41:21,978

The Brownwood MOA border is nine miles southwest.

846

00:41:21,978 --> 00:41:26,138

And according to recently released FAA radar data, no

847

00:41:26,178 --> 00:41:30,579

military or commercial aircraft were in the area of the UFO

848

00:41:30,579 --> 00:41:31,179

that night.

849

00:41:34,499 --> 00:41:38,100

This really leaves me wondering what's going on in Stephenville.

850

00:41:38,100 --> 00:41:42,660

What numerous witnesses claim can be scientifically validated.

851

00:41:42,660 --> 00:41:46,020

But was this object extraterrestrial?

852

00:41:46,020 --> 00:41:50,101

The only thing I could think of to describe them was UFOs.

853

00:41:50,101 --> 00:41:51,541

I have no idea what it is.

854

00:41:51,541 --> 00:41:53,821

I thought they were F-16s flying in formation,

855

00:41:53,821 --> 00:41:56,462

but the only thing about it I never heard of always though.

856

00:41:56,462 --> 00:41:59,502

The strange thing about it, after the object disappeared,

857

00:41:59,502 --> 00:42:02,342

my dog's neck like this scared half to death.

858

00:42:02,342 --> 00:42:03,943

And I've never seen my wolf act like that.

859

00:42:06,623 --> 00:42:10,263

We've been able to pinpoint the location of the object,

860

00:42:10,263 --> 00:42:12,103

the time that it was viewed.

861

00:42:12,103 --> 00:42:14,664

That gives us the ability to focus down

862

00:42:14,664 --> 00:42:17,664

into the core of the entire Stephenville episode.

863

00:42:17,664 --> 00:42:20,544

Your research has shown your experiments have shown,

864

00:42:20,544 --> 00:42:22,865

yes, there was something that people saw.

865

00:42:22,865 --> 00:42:24,025

It is not an illusion.

866

00:42:24,025 --> 00:42:25,025

It is not a myth.

867

00:42:25,025 --> 00:42:25,985

It is not a hoax.

868

00:42:25,985 --> 00:42:27,225

It is not makeup.

869

00:42:27,225 --> 00:42:28,865

That object exists.

870

00:42:28,865 --> 00:42:31,026

But was it an extraterrestrial spaceship?

871

00:42:31,026 --> 00:42:31,986

We can't prove that.

872

00:42:31,986 --> 00:42:34,906

But in this time of national security,

873

00:42:34,906 --> 00:42:37,826

what would be hovering over an airport that is not an airplane?

874

00:42:40,907 --> 00:42:44,867

What was the scorching bright orb that James Hughes witnessed

875

00:42:44,867 --> 00:42:47,828

or the beam of light witnessed by others?

876

00:42:47,828 --> 00:42:49,668

Something occurred in Stephenville

877

00:42:49,668 --> 00:42:51,588

that alarmed numerous residents.

878

00:42:52,988 --> 00:42:56,188

City Councilman Mark Murphy reports one story

879

00:42:56,188 --> 00:42:58,189

spreading throughout the town.

880

00:42:58,189 --> 00:43:01,069

I have a contact in the military who told me

881

00:43:01,069 --> 00:43:04,189

that this was most likely some sort of cloaking device

882

00:43:04,189 --> 00:43:05,230

that they're working on.

883

00:43:05,230 --> 00:43:07,870

They do have a cloaking device that bends light.

884

00:43:07,870 --> 00:43:09,470

It's large enough for a soldier.

885

00:43:09,470 --> 00:43:12,070

And the only way to track it is with lasers.

886

00:43:12,070 --> 00:43:14,791

Is it possible that these citizens witnessed

887

00:43:14,791 --> 00:43:17,871

a secret military aircraft?

888

00:43:17,871 --> 00:43:20,631

Or is our government covering up something much more

889

00:43:20,631 --> 00:43:22,071

frightening?

890

00:43:22,071 --> 00:43:25,792

Imagine if it did turn out to be aliens from outer space.

891

00:43:25,792 --> 00:43:26,952

They'd be riding in the streets.

892

00:43:26,952 --> 00:43:29,872

And probably the end of our civilization as we know it.

893

00:43:29,872 --> 00:43:31,753

We're not mature enough as a society

894

00:43:31,753 --> 00:43:33,833

to handle something like that.

895

00:43:33,833 --> 00:43:37,673

Even though the team packs their gear and heads back home,

896

00:43:37,673 --> 00:43:42,114

the investigation into the Texas UFO invasion of 2008

897

00:43:42,114 --> 00:43:44,074

continues.

898

00:43:44,074 --> 00:43:48,514

Residents of Corpus Christi, a town 350 miles south

899

00:43:48,514 --> 00:43:51,715

of Stephenville report seeing an object not

900

00:43:51,755 --> 00:43:54,195

of this world.

901

00:43:54,195 --> 00:43:59,596

March 21, 2008, a resident of Aransas Pass, Texas,

902

00:43:59,596 --> 00:44:03,356

near Corpus Christi, phones the team.

903

00:44:03,356 --> 00:44:06,116

Hey, I heard you guys live up in Stephenville.

904

00:44:06,116 --> 00:44:11,957

And here I had seen what possibly could be UFO in the sky.

905

00:44:11,957 --> 00:44:14,877

There's sparks trading from it.

906

00:44:14,877 --> 00:44:16,398

Where are you selling these?

907

00:44:16,398 --> 00:44:17,398

Give me a call.
