

1

00:00:00,570 --> 00:00:02,570

Oh my God.

2

00:00:02,570 --> 00:00:05,570

What I'm going to tell you is a bombshell.

3

00:00:05,570 --> 00:00:08,571

People are hardly seeing flying saucers anymore.

4

00:00:08,571 --> 00:00:10,571

You know what they see?

5

00:00:10,571 --> 00:00:12,571

We see this big black thing approaching.

6

00:00:12,571 --> 00:00:18,571

These are giants, silence, and some witnesses say incredibly fast.

7

00:00:18,571 --> 00:00:20,571

How would you estimate the speed?

8

00:00:20,571 --> 00:00:22,572

Oh boy.

9

00:00:22,572 --> 00:00:25,572

What I want to know is, what are these?

10

00:00:25,572 --> 00:00:28,572

What the hell is that?

11

00:00:28,572 --> 00:00:33,572

All the videos of these things have been taken at night, until now.

12

00:00:33,572 --> 00:00:37,573

We have some amazing rare footage of a giant triangle shot in daylight.

13

00:00:37,573 --> 00:00:38,573

Where are they?

14

00:00:38,573 --> 00:00:40,573

It's going behind the tree now.

15

00:00:40,573 --> 00:00:41,573

You didn't see it?

16

00:00:41,573 --> 00:00:44,573

So we analyze the video and guess what we find out?

17

00:00:44,573 --> 00:00:47,573

There's clearly something there.

18

00:00:47,573 --> 00:00:50,574

Evidence has been happening for thousands of years.

19

00:00:50,574 --> 00:00:52,574

A pattern.

20

00:00:52,574 --> 00:00:54,574

You know what this might all be about?

21

00:00:54,574 --> 00:00:55,574

Gold.

22

00:00:55,574 --> 00:00:57,574

The ufologist strikes gold.

23

00:00:57,574 --> 00:00:58,574

Oh.

24

00:00:58,574 --> 00:00:59,574

Retires early.

25

00:00:59,574 --> 00:01:02,575

These stories are great, but I need to see the evidence.

26

00:01:02,575 --> 00:01:04,575

It's the missing link.

27

00:01:25,576 --> 00:01:37,577

I really want to get to the big picture of flying triangles.

28

00:01:37,577 --> 00:01:39,577

I've seen the evidence with my own eyes.

29

00:01:39,577 --> 00:01:40,577

I've seen the video.

30

00:01:40,577 --> 00:01:42,578

I've heard the witnesses.

31

00:01:42,578 --> 00:01:44,578

They can't just be earthly.

32

00:01:44,578 --> 00:01:46,578

Where's the proof that these things are actually alien?

33

00:01:46,578 --> 00:01:48,578

So there's a new guy on the team.

34

00:01:48,578 --> 00:01:50,578

His name is Kevin Cook.

35

00:01:50,578 --> 00:01:52,578

He's a mechanical engineer.

36

00:01:52,578 --> 00:01:54,578

He's from Philly.

37

00:01:54,578 --> 00:01:56,579

Now, he doesn't always agree with me.

38

00:01:56,579 --> 00:01:57,579

It's true.

39

00:01:57,579 --> 00:01:59,579

I've got my work cut out for me.

40

00:01:59,579 --> 00:02:02,579

They could just very well be some sort of high-tech military aircraft

41

00:02:02,579 --> 00:02:03,579

that nobody's seen before.

42

00:02:03,579 --> 00:02:04,579

Sure.

43

00:02:04,579 --> 00:02:07,579

A high-tech military aircraft that can both hover,

44

00:02:07,579 --> 00:02:11,580

stay stationary, go invisible, and shoot off at what?

45

00:02:11,580 --> 00:02:13,580

Mach 5, Mach 8.

46

00:02:13,580 --> 00:02:14,580

Come on.

47

00:02:14,580 --> 00:02:16,580

You know, I like this guy.

48

00:02:16,580 --> 00:02:19,580

The similar type of thing happened before about 20 years ago

49

00:02:19,580 --> 00:02:22,580

when people were seeing flying triangles in the sky.

50

00:02:22,580 --> 00:02:24,581

And it was just a stealth bomber.

51

00:02:24,581 --> 00:02:26,581

The same thing could be happening again right now

52

00:02:26,581 --> 00:02:28,581

with a different experimental craft.

53

00:02:28,581 --> 00:02:30,581

It doesn't necessarily mean it's alien.

54

00:02:30,581 --> 00:02:34,581

Kevin's coming from that place where a lot of scientists and engineers come from.

55

00:02:34,581 --> 00:02:37,582

It's a place of nuts and bolts where they don't believe it unless

56

00:02:37,582 --> 00:02:39,582

they can actually see it.

57

00:02:39,582 --> 00:02:40,582

Well, you guys want evidence.

58

00:02:40,582 --> 00:02:41,582

That's what we're doing.

59

00:02:41,582 --> 00:02:44,582

We're going into a UFO hotspot that's famous for triangle UFOs.

60

00:02:44,582 --> 00:02:47,582

And I know it's true because I was actually there a couple years ago

61

00:02:47,582 --> 00:02:50,583

where I met with a sky watcher who actually videotaped one of these

62

00:02:50,583 --> 00:02:51,583

triangles while I was there.

63

00:02:51,583 --> 00:02:52,583

So you saw it?

64

00:02:52,583 --> 00:02:53,583

Yeah.

65

00:02:53,583 --> 00:02:55,583

Well, no, I didn't see the triangle, but I was with a guy

66

00:02:55,583 --> 00:02:57,583

who videotaped the triangle when it happened.

67

00:02:57,583 --> 00:02:59,583

So I know the phenomenon is real.

68

00:02:59,583 --> 00:03:00,583

This is going to be a challenge.

69

00:03:00,583 --> 00:03:03,584

There's not a lot of physical evidence that I can get my hands on here.

70

00:03:03,584 --> 00:03:07,584

I'm working mostly with these theories that Bill and Pat are throwing out.

71

00:03:07,584 --> 00:03:10,584

Somebody needs to make sure that they don't go over the edge

72

00:03:10,584 --> 00:03:12,584

and they stay grounded in reality.

73

00:03:12,584 --> 00:03:18,585

We will hear things that will convince even the most die-hard skeptics

74

00:03:18,585 --> 00:03:21,585

that flying triangles are real,

75

00:03:21,585 --> 00:03:24,585

that there's an alien connection that's unmistakable.

76

00:03:24,585 --> 00:03:29,585

And I suspect we may even discover why they're here.

77

00:03:29,585 --> 00:03:33,586

If we can show him what we know to be true,

78

00:03:33,586 --> 00:03:37,586

what the documents say, what the witnesses say, what the video says,

79

00:03:37,586 --> 00:03:39,586

if we can get him to see that for what it is,

80

00:03:39,586 --> 00:03:44,587

we may actually have a real scientific edge to our entire investigation.

81

00:03:49,587 --> 00:03:52,587

We are in the grips of an unusual phenomenon.

82

00:03:52,587 --> 00:03:57,587

All over the world, people have been seeing giant triangles.

83

00:03:57,587 --> 00:04:04,588

The most famous, Belgium, 1989, Phoenix, Arizona, 1997,

84

00:04:04,588 --> 00:04:11,589

Tinley Park, Illinois, 2004, all of them, at night.

85

00:04:11,589 --> 00:04:16,589

But now, new breaks in the investigation of these unexplained triangular craft,

86

00:04:17,589 --> 00:04:21,589

we've uncovered rare, never-before-seen daytime footage

87

00:04:21,589 --> 00:04:26,590

taken in an area of California known as Triangle Alley.

88

00:04:29,590 --> 00:04:33,590

There's three lights in triangular formation, very bright.

89

00:04:33,590 --> 00:04:36,590

They're massive. They're flying so slowly over us

90

00:04:36,590 --> 00:04:40,591

that if it were a conventional aircraft, they'd fall out of the sky.

91

00:04:46,591 --> 00:04:51,591

So we are going to talk to Mark and Jed, two sky watchers here in Sonora, California,

92

00:04:51,591 --> 00:04:58,592

who've had some incredible daytime and nighttime sightings of flying triangles.

93

00:05:00,592 --> 00:05:04,592

It was June 15, 2004, when I was here on that balcony right there with you,

94

00:05:04,592 --> 00:05:10,593

we were looking at the sky up there and you videotaped a real triangle during daylight hours.

95

00:05:10,593 --> 00:05:15,593

Oh my God. I've got three lights in a triangular formation.

96

00:05:15,593 --> 00:05:16,593

Are you sure?

97

00:05:16,593 --> 00:05:19,594

Yes, this is, this is, this is, oh my God.

98

00:05:20,594 --> 00:05:23,594

I was right there next to him and I was, you know, I was fumbling with my camera,

99

00:05:23,594 --> 00:05:26,594

but by the time I got everything up and running, this thing was gone.

100

00:05:26,594 --> 00:05:27,594

You missed it.

101

00:05:27,594 --> 00:05:31,594

I missed it, unfortunately, but Mark was there and I'm telling you guys this really happened.

102

00:05:31,594 --> 00:05:35,595

Pat's telling me he missed it, which makes me wonder if what he saw was even a UFO,

103

00:05:35,595 --> 00:05:37,595

or maybe it was just a plane.

104

00:05:38,595 --> 00:05:42,595

Now, this is Kevin's first investigation, so I understand that he's skeptical.

105

00:05:42,595 --> 00:05:46,596

You know, I'm a little nervous because this is the first time in our years of investigating UFOs

106

00:05:46,596 --> 00:05:49,596

that I was actually at a sighting.

107

00:05:50,596 --> 00:05:56,596

I'm personally invested in this and I'd be really embarrassed if this turns out to be nothing but a small airplane.

108

00:05:56,596 --> 00:06:01,597

And these lights, they were equidistant, it seemed like it was from a one solid figure.

109

00:06:01,597 --> 00:06:05,597

Yes, and they didn't vary as they moved across the sky. They stayed fixed.

110

00:06:05,597 --> 00:06:07,597

What the hell is that?

111

00:06:07,597 --> 00:06:08,597

Are you sure?

112

00:06:08,597 --> 00:06:12,597

It's behind those branches. You didn't see it?

113

00:06:12,597 --> 00:06:14,598

Oh my God.

114

00:06:16,598 --> 00:06:21,598

The lights did not move away from each other. They were equidistant.

115

00:06:21,598 --> 00:06:24,598

All I could think of is this is not of this world.

116

00:06:25,598 --> 00:06:27,599

These UFOs originated back behind this ridge.

117

00:06:27,599 --> 00:06:31,599

Are you aware of any Air Force bases? Maybe just an airport.

118

00:06:31,599 --> 00:06:33,599

Over on the other side of this ridge is Columbia Airport.

119

00:06:33,599 --> 00:06:36,599

It's a very small airport. They don't even have radar.

120

00:06:36,599 --> 00:06:38,599

What about military?

121

00:06:38,599 --> 00:06:42,600

The only military base is Castle over in Merced and it's closed.

122

00:06:46,600 --> 00:06:50,600

People might be tempted to ask why is it that you both see so many UFOs?

123

00:06:50,600 --> 00:06:55,601

I've watched for literally thousands of hours for a few minutes of footage.

124

00:06:55,601 --> 00:06:57,601

This was more than just a hobby.

125

00:06:57,601 --> 00:07:01,601

Oh, for a while there it became an obsession almost. Just wanting to know what they are.

126

00:07:01,601 --> 00:07:03,601

Sounds like it paid off.

127

00:07:03,601 --> 00:07:06,601

Sort of. Yeah, I still don't know what they are.

128

00:07:06,601 --> 00:07:10,602

We have daytime footage. That's just so incredibly rare.

129

00:07:10,602 --> 00:07:16,602

I hope it can be analyzed independently so we can see what these are.

130

00:07:16,602 --> 00:07:22,603

I know that Kevin doesn't buy this, but I was there and we captured something amazing.

131

00:07:24,603 --> 00:07:30,603

I know Pat thinks this is real, but I need something more than witness testimony and consumer grade video.

132

00:07:30,603 --> 00:07:33,603

We need to analyze this footage to see what it really is.

133

00:07:39,604 --> 00:07:43,604

The Mark Olsen video is really interesting, not just for what it is,

134

00:07:43,604 --> 00:07:48,605

but because it's so reminiscent of the video shot in Belgium in 1989.

135

00:07:48,605 --> 00:07:55,605

Both the Olsen video and the Belgium video were three lights in a triangular formation,

136

00:07:55,605 --> 00:07:59,605

but the Belgium video was even more compelling than the Olsen video

137

00:07:59,605 --> 00:08:06,606

because the Belgium video actually showed a physical object holding the three lights in place.

138

00:08:06,606 --> 00:08:08,606

A triangle.

139

00:08:09,606 --> 00:08:15,607

I believe that if Terrence Masson has a chance to analyze this Mark Olsen video,

140

00:08:15,607 --> 00:08:19,607

what he's going to see is an object holding the three lights together.

141

00:08:19,607 --> 00:08:22,607

That's our next stop, Terrence Masson's lab.

142

00:08:26,607 --> 00:08:30,608

Terrence Masson is an image analyst and he'll be using motion tracking software

143

00:08:30,608 --> 00:08:34,608

to isolate and stabilize the three lights in Mark Olsen's daytime footage.

144

00:08:34,608 --> 00:08:39,608

We're going to analyze Mark's video frame by frame to get some answers.

145

00:08:39,608 --> 00:08:43,609

So what I've done here first is cropped out the majority of the frames

146

00:08:43,609 --> 00:08:47,609

so we can concentrate on the object itself and stabilize it.

147

00:08:50,609 --> 00:08:53,609

You can tell definitively here these things are rock solid information.

148

00:08:53,609 --> 00:08:59,610

This is a good solid four and a half seconds and even the tightest precision acrobatic flying,

149

00:08:59,610 --> 00:09:03,610

you're going to see some kind of relative motion over that kind of time frame.

150

00:09:04,610 --> 00:09:09,611

Can we eliminate the obvious things? Is this but some type of helicopter? Is there any evidence of that?

151

00:09:09,611 --> 00:09:18,611

Well, without having 100% certainty, I can come up with a long list of things that make this not anything like conventional aircraft.

152

00:09:19,611 --> 00:09:25,612

Going away from the running footage now, we've got single still frames, isolated,

153

00:09:25,612 --> 00:09:29,612

and a run some image processing routine on this and look at what's coming.

154

00:09:29,612 --> 00:09:34,612

We see some clear indication of a structure behind in between those three lights.

155

00:09:37,613 --> 00:09:43,613

Whoa! And, black triangle? I mean, there's clearly something there.

156

00:09:49,613 --> 00:09:53,614

Is there any other explanation that the darkness around these lights is something other than a solid object?

157

00:09:53,614 --> 00:10:01,614

Many times we've seen in these consumer grade camcorders the exposure range for the pixels that capture this information are very, very limited

158

00:10:01,614 --> 00:10:08,615

and sometimes we do get blooming effects. So next to very bright lights it will tend to compensate and go very dark.

159

00:10:08,615 --> 00:10:12,615

That's not what we're seeing here. It's too consistent over too long of footage.

160

00:10:15,615 --> 00:10:17,616

What's your best guess? What are we looking at?

161

00:10:17,616 --> 00:10:24,616

My best guess would be we're looking at a single triangular shaped dark craft with three very large either propulsion or illuminating lights.

162

00:10:26,616 --> 00:10:30,616

That's not consistent with any man-made craft.

163

00:10:36,617 --> 00:10:44,618

We're heading up the Blyons balled mountain which is right in the heart of Triangle Alley and the ideal location to hopefully see what Mark Olsen filmed.

164

00:10:45,618 --> 00:10:50,618

This Triangle Alley actually extends for 350 miles around the Sierra Nevada mountains.

165

00:10:50,618 --> 00:10:55,618

From here in Sonora, California, heart of the Gold Rush country to further up north at Mount Shasta.

166

00:10:57,618 --> 00:11:02,619

I'll be honest with you. I'm really anxious to look in the sky for you, foes.

167

00:11:02,619 --> 00:11:06,619

But I'm more concerned about keeping my footing on these rocks.

168

00:11:07,619 --> 00:11:13,620

There's a lot of loose rock. It's steep. There's snow on the ground and we're carrying heavy packs full of gear.

169

00:11:13,620 --> 00:11:21,620

Now, Pat, he's the wilderness guy. Me, I'm more comfortable in the city so this is a bit more of an adventure than I anticipated.

170

00:11:22,620 --> 00:11:27,621

Well, if this spot is as hot as Mark says it is, there's a good chance we might actually see something.

171

00:11:28,621 --> 00:11:35,621

A lot of people say UFOs don't exist but they're the same people who never actually come out and watch the skies themselves.

172

00:11:35,621 --> 00:11:39,622

So we're going to take a crack at it and we're going to spend the night out here and see if we see something.

173

00:11:40,622 --> 00:11:42,622

What do you think about this spot right here?

174

00:11:42,622 --> 00:11:43,622

It's a good spot.

175

00:11:44,622 --> 00:11:48,622

Well, here's the ridge. That's the silver mine.

176

00:11:48,622 --> 00:11:51,622

We're going to see anything that's going to be from right here.

177

00:11:51,622 --> 00:11:53,623

I don't think you can get hotter than this place right here.

178

00:11:53,623 --> 00:11:56,623

So let's set up the camera and maybe you take the GPS readings.

179

00:12:01,623 --> 00:12:05,623

Right now Kevin's pounding in a marker that will take a GPS reading.

180

00:12:05,623 --> 00:12:12,624

So that in the future we can look back at our records and know exactly where we were should we see

a triangle tonight.

181

00:12:13,624 --> 00:12:18,624

North, 38 degrees, 7 minutes, 50.2 seconds.

182

00:12:18,624 --> 00:12:23,625

West, 120 degrees, 5 minutes, 45.6 seconds.

183

00:12:23,625 --> 00:12:25,625

Great. Good thought of you.

184

00:12:26,625 --> 00:12:30,625

We're in the right place. This is where Witnesses report seeing a flying craft.

185

00:12:31,625 --> 00:12:33,626

Triangle alley, right here.

186

00:12:33,626 --> 00:12:40,626

If we do catch something on camera, it's done right. We have the right camera set up and we'll be able to analyze it very well.

187

00:12:40,626 --> 00:12:41,626

That is our goal.

188

00:12:45,626 --> 00:12:49,627

Do you see that light just above the ridge? It goes white then red.

189

00:12:49,627 --> 00:12:50,627

You're cute.

190

00:12:51,627 --> 00:12:52,627

Are we onto something?

191

00:12:53,627 --> 00:13:05,628

I was just looking at the stars and all of a sudden I see this shape. It's kind of like...

192

00:13:11,628 --> 00:13:17,629

We've been on top of the mountain in the middle of Triangle Alley and we've been watching this guy all night long.

193

00:13:17,629 --> 00:13:21,629

What we were hoping to find up here is actual proof of these flying triangles.

194

00:13:21,629 --> 00:13:24,629

Something we can see with our own eyes and capture on film.

195

00:13:25,629 --> 00:13:30,630

I honestly think that we should be focusing most of our attention along the horizon instead of up high.

196

00:13:31,630 --> 00:13:35,630

Most of the Witness reports having them coming from behind a ridge and then disappearing behind a ridge.

197

00:13:35,630 --> 00:13:38,630

Just over the course of seconds.

198

00:13:39,630 --> 00:13:42,631

If we see something moving, I think our eyes will be drawn to it automatically.

199

00:13:42,631 --> 00:13:43,631

I hope so.

200

00:13:43,631 --> 00:13:47,631

Stark out here and it's by far the coldest night I've ever spent looking for UFOs.

201

00:13:48,631 --> 00:13:51,631

One thing's for sure, your mind definitely plays tricks on you.

202

00:13:53,631 --> 00:13:56,632

Do you see that light just above the ridge? It goes white then red.

203

00:13:56,632 --> 00:13:57,632

Yeah, I see it.

204

00:13:58,632 --> 00:13:59,632

Are we onto something?

205

00:14:01,632 --> 00:14:06,632

So we found something in the sky and we don't know what it is. It's bright. It seems to be moving

very slowly.

206

00:14:07,633 --> 00:14:08,633

Possibly it's a star.

207

00:14:09,633 --> 00:14:12,633

It looks like it might be moving. I'm not too sure.

208

00:14:13,633 --> 00:14:16,633

Well, it's right above the ridge. It seems to be flickering.

209

00:14:19,633 --> 00:14:21,634

I think it's a star that's coming up over the ridge.

210

00:14:22,634 --> 00:14:25,634

Well, I got something actually on my phone.

211

00:14:25,634 --> 00:14:28,634

A little application that has a star map on it.

212

00:14:28,634 --> 00:14:31,634

And it'll tell us what that little star is, if that is a star.

213

00:14:31,634 --> 00:14:32,634

I don't know what it is.

214

00:14:32,634 --> 00:14:35,635

So let me calibrate here. We're looking at Orion here.

215

00:14:35,635 --> 00:14:36,635

So let's bring it down here.

216

00:14:37,635 --> 00:14:40,635

And let's see what it says.

217

00:14:40,635 --> 00:14:44,635

According to this, that star could be Pollux.

218

00:14:47,635 --> 00:14:50,636

We've been out here most of the night and we've seen some things.

219

00:14:50,636 --> 00:14:54,636

But so far they've just been airplanes and satellites and stars.

220

00:14:54,636 --> 00:14:56,636

Our eyes are playing tricks on us.

221

00:14:56,636 --> 00:15:03,637

So I can totally see how people can get really excited on things they see in the sky that are just casually explained.

222

00:15:03,637 --> 00:15:14,637

Multiple triangular shaped objects have been reported in this general area.

223

00:15:14,637 --> 00:15:18,638

These objects were in view of multiple witnesses.

224

00:15:18,638 --> 00:15:22,638

What these things can do is just amazing. Just amazing.

225

00:15:25,638 --> 00:15:30,639

I'm going to meet with Ruben Uriarte, Rufan's Northern California State Director.

226

00:15:30,639 --> 00:15:38,639

He has been researching the history of UFOs in this area and has developed one of the most comprehensive databases available.

227

00:15:38,639 --> 00:15:42,640

We're going to get the really big picture of flying triangles.

228

00:15:42,640 --> 00:15:45,640

What they are and who's flying them.

229

00:15:46,640 --> 00:15:49,640

We've been getting so many reports of sightings.

230

00:15:49,640 --> 00:15:52,640

An increased spike of triangles especially.

231

00:15:52,640 --> 00:15:55,640

We consider it like an intersection to what we call Triangle Alley,

232

00:15:55,640 --> 00:15:59,641

which is from Southern California all the way up to the Washington border.

233

00:15:59,641 --> 00:16:01,641

Nevada is right next door.

234

00:16:01,641 --> 00:16:05,641

We have Area 51 which is approximately 260 miles away.

235

00:16:05,641 --> 00:16:10,642

Tonopolis Air Force Base and other black budget base possibly 200 miles away.

236

00:16:10,642 --> 00:16:14,642

So the Nevada test site is only about 250 miles away.

237

00:16:14,642 --> 00:16:19,642

That's like the blink of an eye for some of the multiple marks supersonic aircraft we have.

238

00:16:20,642 --> 00:16:28,643

In Triangle Alley there have been over 60 reported sightings of Triangle UFOs only since the year 2000.

239

00:16:28,643 --> 00:16:33,643

This is a huge number of sightings for such a sparsely populated region.

240

00:16:33,643 --> 00:16:37,644

Imagine the number of sightings that have gone unreported.

241

00:16:37,644 --> 00:16:38,644

Here's a triangle.

242

00:16:38,644 --> 00:16:40,644

Now this is 1986 Bill.

243

00:16:40,644 --> 00:16:42,644

This is before they released the V2 bomber.

244

00:16:42,644 --> 00:16:44,644

Obviously the characteristics are a lot different.

245

00:16:44,644 --> 00:16:45,644

They're huge.

246

00:16:45,644 --> 00:16:49,644

This thing went right over a freeway four lanes in width.

247

00:16:49,644 --> 00:16:50,645

So where was this?

248

00:16:50,645 --> 00:16:53,645

This is further north up here in Cuneer, Corny.

249

00:16:54,645 --> 00:16:57,645

What's really interesting is this thing was just hovering.

250

00:16:57,645 --> 00:17:03,645

And the witnesses actually observe in detail as you can see over half an hour.

251

00:17:05,646 --> 00:17:11,646

This craft in Corny is similar to hundreds of other videos we've seen right here in Triangle Alley.

252

00:17:11,646 --> 00:17:13,646

It's three lights.

253

00:17:13,646 --> 00:17:18,647

Three lights that may look separate but they're in this rigid configuration with each other.

254

00:17:18,647 --> 00:17:22,647

They hover silently in the sky.

255

00:17:22,647 --> 00:17:25,647

Then they shoot off at tremendous speeds.

256

00:17:25,647 --> 00:17:30,647

We've got to find out what is the link among all these different craft.

257

00:17:32,648 --> 00:17:33,648

This reminds me of Phoenix.

258

00:17:33,648 --> 00:17:34,648

Yes.

259

00:17:34,648 --> 00:17:37,648

All the same characteristics that we keep hearing about.

260

00:17:37,648 --> 00:17:39,648

They're large or silent.

261

00:17:39,648 --> 00:17:41,648

They make no sound whatsoever.

262

00:17:41,648 --> 00:17:42,648

Lights around the perimeter.

263

00:17:42,648 --> 00:17:44,649

The lights illuminated the object.

264

00:17:44,649 --> 00:17:46,649

Major light in the center.

265

00:17:46,649 --> 00:17:47,649

Lit up as a bright as day.

266

00:17:47,649 --> 00:17:54,649

When you compare planes to this, when you compare helicopters to this, they look, they behave entirely differently.

267

00:17:55,649 --> 00:17:57,649

How long have these been going on?

268

00:17:57,649 --> 00:18:03,650

It goes back probably the Great Airship sighting, back in 1896, 1897.

269

00:18:03,650 --> 00:18:07,650

From San Francisco to Sacramento all the way to Stockton around the General vicinity.

270

00:18:07,650 --> 00:18:12,651

There were reports from miners that were working that seen strange objects, strange stars.

271

00:18:14,651 --> 00:18:20,651

The other thing that's unique about this area, Bill, is there's a large cavernous system that stretches throughout the state.

272

00:18:20,651 --> 00:18:25,652

Particularly right here in this area for several hundred miles up toward the Shasta area.

273

00:18:25,652 --> 00:18:27,652

This area is loaded with minerals.

274

00:18:27,652 --> 00:18:29,652

You know, it's gold country.

275

00:18:30,652 --> 00:18:34,652

When he said gold country, I stopped in my tracks.

276

00:18:34,652 --> 00:18:35,652

Gold?

277

00:18:35,652 --> 00:18:37,652

Could it be that simple?

278

00:18:37,652 --> 00:18:42,653

Whoever or whatever is flying these triangles could be interested in gold.

279

00:18:43,653 --> 00:18:49,653

We've been focusing a lot on extraterrestrial, but perhaps the other answer to this mystery is inner earth.

280

00:18:51,653 --> 00:18:53,654

Gold has very, very high conductivity.

281

00:18:53,654 --> 00:18:56,654

We use gold in circuits.

282

00:18:56,654 --> 00:19:06,655

So we should be looking down at the same time we're looking up, and if we find something there, they can actually possibly draw UFOs to it.

283

00:19:06,655 --> 00:19:09,655

I consider Sonora like the intersection. It's a beacon here.

284

00:19:10,655 --> 00:19:12,655

Here's what we know.

285

00:19:12,655 --> 00:19:16,655

It's not just Sonora, it's the entire Sierra Nevada range.

286

00:19:16,655 --> 00:19:19,656

It's not just flying triangles, it's all sorts of objects.

287

00:19:19,656 --> 00:19:22,656

It's not just now, it's a hundred years.

288

00:19:22,656 --> 00:19:30,656

Maybe it's the gold in these hills that's been attracting flying triangles for well over a hundred years.

289

00:19:35,657 --> 00:19:41,657

So my concern is that tomorrow's headlines will be ufologists trapped in mine after earthquake.

290

00:19:41,657 --> 00:19:43,657

I think that's possible.

291

00:19:43,657 --> 00:19:44,657

You got it all wrong.

292

00:19:44,657 --> 00:19:47,658

Headlines are going to be ufologists strikes gold.

293

00:19:47,658 --> 00:19:49,658

Retires early.

294

00:19:50,658 --> 00:19:56,658

We're on our way to an actual working gold mine here in the Motherload region of Northern California.

295

00:19:56,658 --> 00:20:00,659

This sits right in the path of where Mark Olson had his sighting.

296

00:20:01,659 --> 00:20:08,659

We'll be testing for high levels of radiation and magnetism, invisible energies that might attract UFOs to this region.

297

00:20:09,659 --> 00:20:13,660

Oh, okay. Looks like that's it right there.

298

00:20:13,660 --> 00:20:14,660

Sweet.

299

00:20:15,660 --> 00:20:20,660

We have a magnetometer and a Geiger counter and we're going to look for anything out of the ordinary.

300

00:20:21,660 --> 00:20:22,660

You think we'll find anything?

301

00:20:23,660 --> 00:20:26,660

I actually do expect to get some readings, at least for the magnetometer.

302

00:20:27,661 --> 00:20:30,661

Should get, pick up some magnetic fields from iron.

303

00:20:30,661 --> 00:20:34,661

To tell you the truth, I'm excited that this is a gold mine.

304

00:20:34,661 --> 00:20:40,662

I'm very excited. However, my entire life, I've been purposefully trying to stay out of small places like caves and whatnot.

305

00:20:40,662 --> 00:20:41,662

So I am a little bit nervous.

306

00:20:42,662 --> 00:20:43,662

Ready?

307

00:20:44,662 --> 00:20:45,662

It's a little bit smaller than I expected.

308

00:20:46,662 --> 00:20:50,662

But as long as I stay focused on the task at hand, everything's going to be fine.

309

00:20:50,662 --> 00:20:51,662

Oh man.

310

00:20:52,662 --> 00:20:54,663

Why am I thinking about bats?

311

00:20:59,663 --> 00:21:03,663

I'm here meeting with my good friend fellow publisher, Georgios Sucasus.

312

00:21:03,663 --> 00:21:04,663

I've got this thing.

313

00:21:04,663 --> 00:21:09,664

There's something in flying triangles that goes all the way back to ancient times.

314

00:21:10,664 --> 00:21:16,664

I've actually got something that might make your triangle mystery a bit less mysterious.

315

00:21:17,664 --> 00:21:26,665

This artifact, like here, was actually found in Columbia and it's pre-Columbian and about a dozen of these have been found.

316

00:21:26,665 --> 00:21:32,665

And to the untrained eye, this looks like a fighter jet.

317

00:21:32,665 --> 00:21:41,666

Mainstream archaeologists and mainstream science basically says that this is nothing but a stylized insect or a stylized bird.

318

00:21:41,666 --> 00:21:50,667

From a biological perspective, wings on a bird are exactly where we have our arms.

319

00:21:50,667 --> 00:21:52,667

They're attached to the shoulder girdle.

320

00:21:52,667 --> 00:21:57,667

In this example right here, the wings are not attached to the shoulder girdle.

321

00:21:57,667 --> 00:22:01,667

So biologically speaking, this is not a bird.

322

00:22:03,668 --> 00:22:09,668

The one thing that is extremely interesting here is the upright tail fin.

323

00:22:09,668 --> 00:22:13,668

Birds do not have upright tail fins.

324

00:22:13,668 --> 00:22:16,669

Their tail fins are horizontal.

325

00:22:18,669 --> 00:22:19,669

This is incredible.

326

00:22:19,669 --> 00:22:29,670

Giorgio is actually showing me representational artwork of triangular shapes that the ancients used as talismans.

327

00:22:29,670 --> 00:22:39,670

How would a Colombian culture from 1500 years ago even understand aerodynamically what a tail fin does, right?

328

00:22:39,670 --> 00:22:45,671

Unless they saw something, but they couldn't explain it entirely.

329

00:22:45,671 --> 00:22:53,671

And so not only did they put a whole bunch of stuff in writing, but they also recreated stuff that they said, you know,

330

00:22:53,671 --> 00:23:02,672

our airs should be able to look at these things so that we don't forget what has happened during their time.

331

00:23:04,672 --> 00:23:05,672

Can you say it?

332

00:23:05,672 --> 00:23:13,673

It's the missing link between the ancients' vision of flying triangles in the sky

333

00:23:13,673 --> 00:23:19,673

and our vision of what flying triangles can be and what we've actually reversed engineered for our own aircraft.

334

00:23:19,673 --> 00:23:28,674

Either people from another world came here with those or even more stunning, somebody was time traveling.

335

00:23:31,674 --> 00:23:37,675

It's been a long time that I've had doubts about whether there were UFOs or aliens visiting us from outer space.

336

00:23:38,675 --> 00:23:47,675

Right over the roof, I saw three red lights in a very small triangle and it was coming pretty fast and the triangle was getting bigger.

337

00:23:47,675 --> 00:23:54,676

And what I saw, I don't think that anyone on this planet has the technology right now to be able to do that.

338

00:24:01,676 --> 00:24:03,676

This is the mother load.

339

00:24:03,676 --> 00:24:07,677

In the last 20, 30 years, I've probably investigated 400 sightings.

340

00:24:07,677 --> 00:24:10,677

I'm just trying to figure out why they're here.

341

00:24:11,677 --> 00:24:13,677

It's a little bit more narrow than I expected.

342

00:24:13,677 --> 00:24:15,677

Yeah, pretty low too.

343

00:24:17,678 --> 00:24:25,678

We're in California Gold Country to investigate the theory that aliens are mining our gold to use as an electrical conductor to power their craft.

344

00:24:25,678 --> 00:24:33,679

If it's true, we should find high levels of radiation and magnetism, trace evidence which has been found at the scene of several UFO landings.

345

00:24:35,679 --> 00:24:37,679

Alright, let's go.

346

00:24:38,679 --> 00:24:45,680

We're traveling down this mine and I have to admit I'm a little bit nervous. It's dark, it's narrow and I'm willing to bet that there are bats in here.

347

00:24:46,680 --> 00:24:52,680

This looks like the end of the mine right here. This is as far as it goes. This will be perfect.

348

00:24:52,680 --> 00:24:58,681

Let's start with a Geiger counter and then work with the magnetometer. Look for anything unusual.

349

00:24:58,681 --> 00:25:07,681

A Geiger counter measures the number of radioactive samples detected per minute and standard atmospheric radiation levels are about 15 counts per minute.

350

00:25:07,681 --> 00:25:13,682

Now, ufologists claim that abnormally high levels of radiation are a residual effect of UFO contact.

351

00:25:13,682 --> 00:25:18,682

Now, if there are high levels of radiation in there, I think it's safe to say we're not going to be hanging out for very long.

352

00:25:19,682 --> 00:25:21,682

Are you getting something?

353

00:25:21,682 --> 00:25:28,683

Everything seems normal. Not much deviation from normal atmospheric radiation.

354

00:25:30,683 --> 00:25:36,683

Now, in the mine, we detected nothing abnormal, nothing that was any different from standard atmospheric radiation levels.

355

00:25:36,683 --> 00:25:42,684

So next, we're going to try using a magnetometer which measures the changes in a magnetic field in the mine.

356

00:25:42,684 --> 00:25:48,684

And it's reported that UFOs are actually attracted to high levels of magnetism.

357

00:25:49,684 --> 00:25:53,685

I'm getting anything from zero to five milligauss in the magnetometer.

358

00:25:53,685 --> 00:25:56,685

Is it just jumping around or is it consistent in one place?

359

00:25:56,685 --> 00:25:58,685

It's jumping around.

360

00:25:58,685 --> 00:26:01,685

Just like the Geiger counter, the magnetometer readings were all normal.

361

00:26:01,685 --> 00:26:03,685

This gold mine is dry.

362

00:26:03,685 --> 00:26:10,686

Just because gold is one of the best conductors of electricity, that's not proof that aliens are coming here to get it.

363

00:26:10,686 --> 00:26:20,687

There's a number of experts have hypothesized that there is a connection between heavy mineral deposits, particularly gold and UFO activity.

364

00:26:20,687 --> 00:26:22,687

It's just a theory.

365

00:26:22,687 --> 00:26:25,687

You're smiling at me like I'm insane.

366

00:26:25,687 --> 00:26:27,687

What do you think? Am I nuts?

367

00:26:27,687 --> 00:26:35,688

That's suggesting that UFOs are actually hovering above the mountains and somehow extracting the resources they need from the mountains themselves.

368

00:26:35,688 --> 00:26:37,688

That just sounds like Star Trek to me.

369

00:26:37,688 --> 00:26:47,689

I'd much rather focus on the Geiger counter and the magnetometer and looking for any unusual readings than thinking about Pat's unusual theory.

370

00:26:47,689 --> 00:26:55,689

If there are beings from another planet and they wanted resources, I can see it being sensical that they would actually come here and just take hours.

371

00:26:55,689 --> 00:26:57,689

They don't even have to fight us. Still, it's just a theory.

372

00:26:57,689 --> 00:27:02,690

Exactly, but one that's worthy of investigation, don't you think?

373

00:27:02,690 --> 00:27:03,690

That's why we're here.

374

00:27:03,690 --> 00:27:09,690

That's what's exciting about this investigation. You get a lot of leads, some will take you to a

dead end and some take you into a gold mine.

375

00:27:13,690 --> 00:27:22,691

While you guys were out in the field, I was meeting with George O. Tsukalis who showed me a replica of an artifact of a flying triangle.

376

00:27:22,691 --> 00:27:27,692

These carvings were found in caves that were found throughout South America.

377

00:27:27,692 --> 00:27:31,692

And this is basically what, a thousand years old, fifteen hundred years old.

378

00:27:31,692 --> 00:27:37,692

Legend has it that these types of craft were flown by ancient astronauts.

379

00:27:37,692 --> 00:27:45,693

We don't know where they came from, we don't know who they are, we don't know if they're from the future, they're from another planet. We just don't know.

380

00:27:45,693 --> 00:27:56,694

You're telling me that fifteen hundred years ago, there were aircraft in the sky flying around and

people were making models of them and drawing them, making little trinkets just like this?

381

00:27:56,694 --> 00:28:08,695

Indigenous peoples on planet Earth were visited by ancient astronauts flying craft just like this, triangular shaped craft, visiting planet Earth and seeding the culture with information.

382

00:28:08,695 --> 00:28:12,695

A possibility? It could also be a time ship.

383

00:28:14,695 --> 00:28:19,695

Bill says that these ancient astronauts are actually time ships from the future.

384

00:28:19,695 --> 00:28:27,696

Come on, time traveling just doesn't exist, at least not today. This is just science fiction.

385

00:28:27,696 --> 00:28:39,697

Flying triangles from the future, from our future, going back in time, they see them, they're seeding the past and they did something, maybe something religious, maybe something cultish, we don't know.

386

00:28:39,697 --> 00:28:45,697

Time traveling, we're talking about time traveling here. Some sort of vehicle traveling from the future into the past.

387

00:28:46,697 --> 00:28:51,698

That's it? Is there any kind of proof behind this or is it simply a theory?

388

00:28:51,698 --> 00:29:03,699

I'm telling you that twenty years ago, an army officer traveled into the future. We have that totally documented. Is there proof that these ships are coming back from the future? No.

389

00:29:04,699 --> 00:29:16,700

I have to say this is why I love Bill. He doesn't hold back. A hundred years ago, people laughed at the idea that we would be able to fly in airplanes. People laughed at Charles Darwin for proposing the theory of evolution.

390

00:29:16,700 --> 00:29:22,700

So, you know, when Bill Burns proposes the theory of time travel, I don't think I can laugh it off.

391

00:29:22,700 --> 00:29:29,701

Regardless what inspired the design of this trinket, it is a triangle and it does look like it might be aerodynamic.

392

00:29:29,701 --> 00:29:39,701

I propose that we make a model identical to this right here, out of styrofoam or something like that. Just throw it in the air, like a glider. See if it flies.

393

00:29:39,701 --> 00:29:41,701

You got it. Sounds good.

394

00:29:48,702 --> 00:29:54,702

It's been a long time that I've had doubts about whether there were UFOs or aliens visiting us from outer space.

395

00:29:54,702 --> 00:30:01,703

From what I saw, I don't think that anyone on this planet has the technology right now to be able to do that.

396

00:30:04,703 --> 00:30:13,704

We are now in Houston, Texas, about to meet with a pilot with over forty years of experience. He saw a triangle in the sky that he still can't explain.

397

00:30:14,704 --> 00:30:16,704

And what exactly is your background in flying?

398

00:30:17,704 --> 00:30:25,705

Well, I have forty years of flying, both military and commercially. I've flown probably twenty-five or thirty different airplanes.

399

00:30:25,705 --> 00:30:37,706

Pilots make excellent witnesses. These are professionals that are trained to observe the sky. When a pilot sees something and he doesn't know what it is flying through the sky, we have to give it special consideration.

400

00:30:37,706 --> 00:30:47,706

It was the eighteenth of May, 1996, and it was about one twenty. I caught something out of my eye and I just looked off to the left like that.

401

00:30:47,706 --> 00:30:56,707

And right over the roof, I saw three red lights in a very small triangle, and it was coming pretty fast and the triangle was getting bigger.

402

00:30:58,707 --> 00:31:06,708

It was almost like it might have been climbing a little bit because it didn't follow the curvature of the Earth. It just disappeared into infinity.

403

00:31:08,708 --> 00:31:11,708

How would you estimate the speed?

404

00:31:11,708 --> 00:31:24,709

Oh boy. I've seen the Sputnik and watched it for quite a while. I know the SR-71 and believe me, even a 71 couldn't go as fast as that.

405

00:31:24,709 --> 00:31:36,710

Mike Desick has seen the SR-71 in person. This is the fastest airplane ever built. It goes up to speeds of Mach 3 plus that's two thousand four hundred miles per hour.

406

00:31:36,710 --> 00:31:40,710

And what Mike Desick saw in the sky was much faster than that.

407

00:31:40,710 --> 00:31:49,711

It's really hard for me to imagine that this experienced pilot with more than thirty years in the cockpit would not be able to identify the SR-71.

408

00:31:49,711 --> 00:31:54,711

Did you have any special training in identifying foreign aircraft or enemy aircraft?

409

00:31:54,711 --> 00:32:04,712

Oh yeah, that was part of your training. You had these black silhouettes that flashed them up on the screen and you would just say P-51, F-15.

410

00:32:04,712 --> 00:32:06,712

You didn't want to be shooting down your own airplanes.

411

00:32:06,712 --> 00:32:09,712

What you saw that night was not one of the silhouettes you saw in your training.

412

00:32:09,712 --> 00:32:13,713

Oh absolutely not. No way.

413

00:32:13,713 --> 00:32:18,713

It's very exciting talking to Mike because he's a trained expert in identifying foreign enemy aircraft.

414

00:32:19,713 --> 00:32:22,713

And when he says he doesn't know what's flying up there, I have to believe him.

415

00:32:22,713 --> 00:32:26,714

This was a genuine unidentified triangle and he says it's not ours.

416

00:32:26,714 --> 00:32:28,714

Well what would you say it was today?

417

00:32:28,714 --> 00:32:34,714

For the first time in my life I really think that I saw something very unusual.

418

00:32:34,714 --> 00:32:43,715

I might not have believed before that there were aliens visiting with us but now I believe there are.

419

00:32:44,715 --> 00:32:52,716

I honestly don't know what's going on. Before hearing this testimony I was leaning towards these flying triangles being military aircraft.

420

00:32:52,716 --> 00:32:54,716

But now I don't know what to think.

421

00:33:03,716 --> 00:33:09,717

Since our investigation into Triangle UFOs we've received hundreds of emails from people who have seen these craft.

422

00:33:09,717 --> 00:33:16,717

Among them was Gordon Scott who witnessed a huge black triangle flying along the creek bed behind his home.

423

00:33:16,717 --> 00:33:24,718

He was reluctant to appear before the cameras but he's reached a comfort level with us and is now agreeing to come forward and speak about what he saw.

424

00:33:24,718 --> 00:33:29,718

When we first saw this thing going down the creek we were scared to death. We were getting ready to call 911.

425

00:33:31,718 --> 00:33:35,719

This took place in 2001, August 15th at about 8.30pm.

426

00:33:35,719 --> 00:33:39,719

They run out into our backyard and we see this big black thing approaching.

427

00:33:39,719 --> 00:33:44,719

The bright red light on the bottom lit up the whole creek probably 100 feet across.

428

00:33:44,719 --> 00:33:47,720

And I assumed it was an aircraft ditching.

429

00:33:47,720 --> 00:33:50,720

I could have hit it with a softball underhanded.

430

00:33:50,720 --> 00:33:51,720

That's how close you were?

431

00:33:51,720 --> 00:33:52,720

That's how close.

432

00:33:52,720 --> 00:33:53,720

What kind of noise did you hear?

433

00:33:53,720 --> 00:33:54,720

Nothing.

434

00:33:54,720 --> 00:33:55,720

Did you feel any heat?

435

00:33:55,720 --> 00:33:56,720

Did you feel any breeze?

436

00:33:56,720 --> 00:33:57,720

No.

437

00:33:57,720 --> 00:33:58,720

Did you smell anything?

438

00:33:58,720 --> 00:33:59,720

No.

439

00:34:00,721 --> 00:34:04,721

He was so close to this giant triangle yet he heard nothing.

440

00:34:04,721 --> 00:34:05,721

He smelled nothing.

441

00:34:05,721 --> 00:34:06,721

He felt nothing.

442

00:34:06,721 --> 00:34:08,721

Not a breeze and not a hum.

443

00:34:08,721 --> 00:34:09,721

Nothing at all.

444

00:34:09,721 --> 00:34:11,721

I find it kind of suspect.

445

00:34:11,721 --> 00:34:14,722

He was so close and this was such a large object.

446

00:34:14,722 --> 00:34:16,722

Then where did it go?

447

00:34:16,722 --> 00:34:19,722

Followed the creek, stated the lowest point possible.

448

00:34:19,722 --> 00:34:25,722

Went right over here to the base of the bridge and it just went vertical like this.

449

00:34:25,722 --> 00:34:31,723

Over the bridge about 15 feet above it, maybe 20, then it dropped right back down in the creek.

450

00:34:31,723 --> 00:34:35,723

It's moving horizontally and it's moving vertically.

451

00:34:35,723 --> 00:34:39,723

As far as I know, we don't have any technology today that can do that.

452

00:34:39,723 --> 00:34:42,724

But to tell you the truth, I wouldn't be surprised to find out that we do.

453

00:34:42,724 --> 00:34:45,724

Within about five minutes we had an F-16.

454

00:34:45,724 --> 00:34:47,724

It was flying very slow, gear up.

455

00:34:47,724 --> 00:34:48,724

It was fully armed.

456

00:34:48,724 --> 00:34:50,724

It had two sidewinders on the wings.

457

00:34:50,724 --> 00:34:53,724

It had two more missiles underneath.

458

00:34:53,724 --> 00:34:58,725

Minutes after sighting this strange flying triangle, Gordon saw an F-16

459

00:34:58,725 --> 00:35:02,725

which tells me that there's some kind of military involvement with his craft.

460

00:35:02,725 --> 00:35:06,725

Either the government knows what these triangles are and is involved with them

461

00:35:06,725 --> 00:35:11,726

or these flying triangles are completely out of our control and do not belong to our government

462

00:35:11,726 --> 00:35:13,726

and we are monitoring their activity.

463

00:35:13,726 --> 00:35:16,726

It wasn't chasing the black triangle.

464

00:35:16,726 --> 00:35:18,726

I believe it to be an escort.

465

00:35:18,726 --> 00:35:21,727

It was flying with it.

466

00:35:21,727 --> 00:35:24,727

Now we got NASA just down the road. It's not that far from here.

467

00:35:24,727 --> 00:35:26,727

Is NASA in the direction where the thing was heading?

468

00:35:26,727 --> 00:35:29,727

Yes. It came from the north. It was headed to the south.

469

00:35:29,727 --> 00:35:36,728

Thirty miles east of Gordon Scott's house is Johnson Space Center, home to NASA.

470

00:35:36,728 --> 00:35:42,728

What does it mean that an F-16 is following this giant triangle towards NASA?

471

00:35:45,728 --> 00:35:50,729

So guys, what do you think about some of these cases that we've been hearing?

472

00:35:50,729 --> 00:35:52,729

I would say both of them are baffling.

473

00:35:52,729 --> 00:35:55,729

Gordon Scott to me obviously seems like a military aircraft.

474

00:35:55,729 --> 00:36:00,729

Just flying low, F-16 guiding it. There's a lot of things that point to that.

475

00:36:00,729 --> 00:36:06,730

What if it's some kind of cooperative hybrid craft that we're developing with E-teams?

476

00:36:06,730 --> 00:36:09,730

Actually working with extraterrestrials to build these flying triangles.

477

00:36:09,730 --> 00:36:14,730

Actually working with extraterrestrial technology, not with extraterrestrials on board

478

00:36:14,730 --> 00:36:18,731

but with their technology, kind of Area 51 reverse engineering.

479

00:36:18,731 --> 00:36:20,731

What if we've been doing that for years?

480

00:36:20,731 --> 00:36:26,731

Well Bill has a theory that aliens and humans are collaborating on creating this reverse engineered technology.

481

00:36:26,731 --> 00:36:30,732

I think we have to be careful about how far we want to go with these theories

482

00:36:30,732 --> 00:36:33,732

that aliens are working with us secretly.

483

00:36:33,732 --> 00:36:37,732

Until I can find some kind of definite proof, I'm afraid Bill is alone on this one.

484

00:36:37,732 --> 00:36:41,732

I mean we're just trying to figure out if these are military or extraterrestrial.

485

00:36:41,732 --> 00:36:46,733

I think that going all the way to hybrid already is kind of jumping the gun a little bit.

486

00:36:46,733 --> 00:36:50,733

Don't you think? Why? It's been going on since World War II.

487

00:36:50,733 --> 00:36:52,733

I need some of the whole non-to. Where is the evidence?

488

00:36:52,733 --> 00:36:55,733

I mean it's great in theory. It could be. It could be the case.

489

00:36:55,733 --> 00:36:59,734

These could all be extraterrestrial but I don't have the proof that I need to prove that

490

00:36:59,734 --> 00:37:01,734

other than their weird flight characteristics.

491

00:37:01,734 --> 00:37:03,734

I just think we have to keep our speculation in check.

492

00:37:03,734 --> 00:37:07,734

I mean we really don't have proof that there are alien craft that we are reverse engineering.

493

00:37:07,734 --> 00:37:11,735

The proof is what Gordon Scott saw. He saw something that,

494

00:37:11,735 --> 00:37:14,735

given your description of what people have been talking about,

495

00:37:14,735 --> 00:37:16,735

behaved like nothing we've ever developed.

496

00:37:16,735 --> 00:37:17,735

What do you need?

497

00:37:17,735 --> 00:37:22,735

It's not so far out that it is conceivable that we could actually have these kinds of craft.

498

00:37:22,735 --> 00:37:25,736

I wouldn't be surprised to find out we do have this technology,

499

00:37:25,736 --> 00:37:27,736

the type of thing that Gordon Scott saw today.

500

00:37:31,736 --> 00:37:32,736

Let's go see Brick.

501

00:37:32,736 --> 00:37:42,737

We're about to meet with Special Effects Artist and Co-Ordinator Brick Price.

502

00:37:42,737 --> 00:37:47,737

Brick has modeled the relic that Georgia gave us the other day.

503

00:37:47,737 --> 00:37:52,738

And we're going to find out, is that object really flying?

504

00:37:55,738 --> 00:37:59,738

We're wondering, will this fly? Can this fly?

505

00:37:59,738 --> 00:38:03,738

Given the shapes, I would say so, definitely. There's no question in my mind.

506

00:38:03,738 --> 00:38:06,739

Just from looking at this, you're already convinced that this is some sort of aircraft,

507

00:38:06,739 --> 00:38:08,739

it's aerodynamic, and it's going to fly.

508

00:38:08,739 --> 00:38:14,739

There's too many things about the shape that I think represent flight in our time.

509

00:38:14,739 --> 00:38:18,740

Well, it looks like you changed your model from the original a little bit.

510

00:38:18,740 --> 00:38:22,740

It looks like it's streamlined. Did you make any changes to the angle of attack on the wing

511

00:38:22,740 --> 00:38:25,740

or the distance, the height, the weight, the center of gravity?

512

00:38:25,740 --> 00:38:26,740

What kind of changes did you make?

513

00:38:26,740 --> 00:38:27,740

None.

514

00:38:27,740 --> 00:38:28,740

None?

515

00:38:28,740 --> 00:38:29,740

No.

516

00:38:29,740 --> 00:38:32,741

Talking to Brick, I fully expected that he was going to say,

517

00:38:32,741 --> 00:38:36,741

we needed to make some changes to this model in order to get it to fly properly.

518

00:38:36,741 --> 00:38:39,741

We needed to change the angle of the wing. We needed to change the distance here,

519

00:38:39,741 --> 00:38:41,741

the distance there, the center of gravity.

520

00:38:41,741 --> 00:38:44,741

But he didn't. He didn't need to change anything.

521

00:38:44,741 --> 00:38:47,742

This thing apparently flies on its own. I can't wait to see it.

522

00:38:47,742 --> 00:38:54,742

One thing that's interesting about it is that the wing swept area has taken up a lot by the body,

523

00:38:54,742 --> 00:38:57,742

but the body has a shape to it like a lifting body,

524

00:38:57,742 --> 00:39:03,743

which means that the body itself actually acts as a lifting surface.

525

00:39:03,743 --> 00:39:06,743

The structure of the body is actually a lifting body.

526

00:39:06,743 --> 00:39:09,743

It's comparable to the angle of an aircraft wing,

527

00:39:09,743 --> 00:39:14,744

which means while it's in flight, it's actually creating lift to lift the entire object.

528

00:39:14,744 --> 00:39:19,744

What this means is that this artifact seems to be designed and optimized as a glider

529

00:39:19,744 --> 00:39:22,744

so it can go through the air with minimal propulsion.

530

00:39:23,744 --> 00:39:26,745

As aerodynamic as it is, and maybe it flies as well as you're saying,

531

00:39:26,745 --> 00:39:28,745

it's just too perfect.

532

00:39:28,745 --> 00:39:30,745

That's what makes me a believer.

533

00:39:30,745 --> 00:39:33,745

If the model actually flies...

534

00:39:33,745 --> 00:39:35,745

Alright, launch away. Let's see this thing fly.

535

00:39:35,745 --> 00:39:39,746

It's possible that they had knowledge of extraterrestrial craft.

536

00:39:45,746 --> 00:39:50,746

The object, triangular shape, we saw windows along one side of it,

537

00:39:50,746 --> 00:39:54,747

and it just glided by. No sound, absolutely no sound.

538

00:39:55,747 --> 00:40:00,747

We were at the lab of Special Effects Supervisor Brick Price in Los Angeles, California,

539

00:40:00,747 --> 00:40:04,747

who has made an exact scale model of Georgios artifact.

540

00:40:04,747 --> 00:40:08,748

If this model flies, we can have our final piece of proof

541

00:40:08,748 --> 00:40:12,748

that alien visitation has been going on for thousands of years.

542

00:40:14,748 --> 00:40:16,748

Alright, launch away. Let's see this thing fly.

543

00:40:16,748 --> 00:40:17,748

Okay.

544

00:40:18,748 --> 00:40:22,749

If the model actually flies, then we really have to reconsider

545

00:40:22,749 --> 00:40:26,749

what we believe about ancient civilizations and what they knew.

546

00:40:26,749 --> 00:40:31,749

And it's possible that they had knowledge of aerodynamics, of flying machines,

547

00:40:31,749 --> 00:40:35,750

and maybe, you know, maybe extraterrestrial craft.

548

00:40:38,750 --> 00:40:40,750

Oh, look at that!

549

00:40:40,750 --> 00:40:42,750

That's fantastic!

550

00:40:42,750 --> 00:40:43,750

That flew.

551

00:40:43,750 --> 00:40:45,750

It's starting to lift. It's starting to lift. That's good.

552

00:40:45,750 --> 00:40:48,751

That flew a lot better than I wanted it to.

553

00:40:48,751 --> 00:40:51,751

I'm sorry, Kevin.

554

00:40:51,751 --> 00:40:56,751

Wow, this model flew and did a lot better than I ever expected,

555

00:40:56,751 --> 00:40:58,751

and I kind of have a conflict.

556

00:40:58,751 --> 00:41:01,752

I wasn't sure that this was actually modeled after a real aircraft.

557

00:41:02,752 --> 00:41:04,752

Now, I don't know what to think.

558

00:41:07,752 --> 00:41:10,752

The relics fly. Not only does it fly,

559

00:41:10,752 --> 00:41:14,753

the inherent aerodynamic qualities of this are so intense

560

00:41:14,753 --> 00:41:17,753

that it stalls, writes itself, and settles down.

561

00:41:17,753 --> 00:41:21,753

We're looking at proof of ancient flying triangles.

562

00:41:22,753 --> 00:41:25,753

This design is made to form that angle of attack

563

00:41:25,753 --> 00:41:27,754

just like the way the space shuttle comes down to Earth's landing.

564

00:41:27,754 --> 00:41:28,754

Exactly right.

565

00:41:28,754 --> 00:41:30,754

I also think it's interesting that it didn't die at all.

566

00:41:30,754 --> 00:41:32,754

No, it didn't die or it didn't lift.

567

00:41:32,754 --> 00:41:35,754

It didn't go up in the air and come back down on its tail.

568

00:41:35,754 --> 00:41:39,754

When we saw this thing in flight, its tail dropped,

569

00:41:39,754 --> 00:41:42,755

its nose went up, and it settled down to gather the lift.

570

00:41:42,755 --> 00:41:45,755

Quite frankly, this mimics the space shuttle's design.

571

00:41:45,755 --> 00:41:49,755

But you ask yourself, how could the indigenous peoples

572

00:41:49,755 --> 00:41:53,755

living in Columbia 1500 years ago have conceived of a device like this,

573

00:41:53,755 --> 00:41:55,756

a gliding device?

574

00:41:55,756 --> 00:41:58,756

There's one answer, which is implausible,

575

00:41:58,756 --> 00:42:02,756

but more plausible than anything else, time travel.

576

00:42:03,756 --> 00:42:06,756

You've got to be impressed of the aerodynamics of this design.

577

00:42:06,756 --> 00:42:07,756

No, I can't deny it.

578

00:42:07,756 --> 00:42:12,757

And if that is the exact replica of what Georgiou gave us the other day,

579

00:42:12,757 --> 00:42:15,757

that tells you a lot about what they saw.

580

00:42:15,757 --> 00:42:16,757

Something from outer space?

581

00:42:16,757 --> 00:42:17,757

Possible.

582

00:42:17,757 --> 00:42:20,757

There's nothing that points to that in my opinion.

583

00:42:20,757 --> 00:42:22,758

I'm leaning towards these ancient artifacts,

584

00:42:22,758 --> 00:42:26,758

these little trinkets, are modeled after some sort of highly advanced

585

00:42:26,758 --> 00:42:28,758

aerodynamic toy.

586

00:42:28,758 --> 00:42:30,758

And that's all this is.

587

00:42:31,758 --> 00:42:33,758

What's with Kevin Cook?

588

00:42:33,758 --> 00:42:35,759

I mean, he's watching this thing fly,

589

00:42:35,759 --> 00:42:37,759

and even as it's landing perfectly,

590

00:42:37,759 --> 00:42:40,759

he's doubting the significance of what we've shown.

591

00:42:40,759 --> 00:42:41,759

What does he say?

592

00:42:41,759 --> 00:42:43,759

Doesn't show anything.

593

00:42:43,759 --> 00:42:45,759

Doesn't show there were ancient astronauts.

594

00:42:45,759 --> 00:42:48,759

Doesn't show flying triangles were flying over South America 2,000 years ago.

595

00:42:48,759 --> 00:42:50,760

Doesn't show anything.

596

00:42:50,760 --> 00:42:51,760

Hello.

597

00:42:53,760 --> 00:42:57,760

I wish Bill would take time to think about what this test actually proves.

598

00:42:57,760 --> 00:42:59,760

It has nothing to do with airships in the sky,

599

00:42:59,760 --> 00:43:01,760

from the future, from another planet.

600

00:43:01,760 --> 00:43:03,761

All it says is that there was an understanding,

601

00:43:03,761 --> 00:43:05,761

way back when, of aerodynamics.

602

00:43:05,761 --> 00:43:08,761

And that's special enough in itself.

603

00:43:11,761 --> 00:43:13,761

Well, I'll tell you what this means to me.

604

00:43:13,761 --> 00:43:15,761

It means that somehow long ago,

605

00:43:15,761 --> 00:43:19,762

some ancient peoples came up with a design that's perfectly aerodynamic.

606

00:43:19,762 --> 00:43:22,762

How they came up with that idea, I really can't say.

607

00:43:22,762 --> 00:43:24,762

There's no way we can conclude that.

608

00:43:24,762 --> 00:43:26,762

But it opens up possibilities.

609

00:43:26,762 --> 00:43:30,763

Were those people seeing the same triangular craft that we're seeing today?

610

00:43:30,763 --> 00:43:32,763

Well, now we have to be open to that possibility.

611

00:43:38,763 --> 00:43:40,763

So here's what we found out.

612

00:43:40,763 --> 00:43:43,764

People all over the world are seeing these giant triangles.

613

00:43:44,764 --> 00:43:48,764

Pilots tell us they're capable of speeds and maneuvers

614

00:43:48,764 --> 00:43:50,764

more advanced than anything else here.

615

00:43:51,764 --> 00:43:55,764

And we have proved that ancient peoples may have seen something similar.

616

00:43:56,765 --> 00:43:59,765

This is one huge piece of the puzzle.

617

00:43:59,765 --> 00:44:01,765

But there's more.

618

00:44:03,765 --> 00:44:06,765

We've just got this amazing footage of triangles

619

00:44:07,765 --> 00:44:11,766

shot less than 100 miles from where we were in Triangle Alley.
