

1

00:00:00,488 --> 00:00:04,488

I was abducted by aliens.

2

00:00:04,488 --> 00:00:12,489

These terrifying words have been spoken by people who claim to have had close encounters with little grey bees.

3

00:00:12,489 --> 00:00:16,489

Some of these greys have a very dark agenda.

4

00:00:16,489 --> 00:00:21,490

The greys are allegedly an alien species that have been reported countless times.

5

00:00:21,490 --> 00:00:23,490

I was going to the grave.

6

00:00:23,490 --> 00:00:26,490

It's been going on for thousands of years.

7

00:00:26,490 --> 00:00:31,490

There's multiple species and we have been visited multiple occasions.

8

00:00:31,490 --> 00:00:36,491

And this ancient relic could be the clue that aliens are among us.

9

00:00:36,491 --> 00:00:42,491

It can provide proof that is undeniable the holy grail of the field of UFO alien research.

10

00:00:42,491 --> 00:00:48,492

This is case number 96103, Greys conspiracy.

11

00:00:56,492 --> 00:01:01,493

The Greys

12

00:01:04,493 --> 00:01:12,493

We're finally going to get a chance to synthesize a real picture of the greys, not just case by case by case.

13

00:01:12,493 --> 00:01:16,494

But what's behind the cases? What's the common ground?

14

00:01:16,494 --> 00:01:22,494

If these beings are actually interacting with people, we have to meet as many eyewitnesses as possible.

15

00:01:22,494 --> 00:01:25,494

People who have had these experiences and get as much detail from them as we can.

16

00:01:25,494 --> 00:01:28,495

Where are all these stories coming from?

17

00:01:28,495 --> 00:01:34,495

And why does the image of the greys look alike from story to story?

18

00:01:34,495 --> 00:01:40,496

That's the most amazing thing. All of these sightings of greys are identical in the way they're described.

19

00:01:40,496 --> 00:01:43,496

I'll tell you why they look alike because it's straight out of a movie.

20

00:01:43,496 --> 00:01:45,496

Close encounters of the third kind.

21

00:01:45,496 --> 00:01:48,496

Oh really? Well then how can you explain this?

22

00:01:48,496 --> 00:01:51,496

Close encounters of the third kind is a 1970s movie.

23

00:01:51,496 --> 00:01:56,497

Betty and Barney Hill described that grey 1961.

24

00:01:56,497 --> 00:02:00,497

Betty and Barney Hill might have given us the first description of greys,

25

00:02:00,497 --> 00:02:04,497

but I think these are driven by the images that we've all seen in the mass media.

26

00:02:04,497 --> 00:02:10,498

There are thousands of cases of contact with greys.

27

00:02:10,498 --> 00:02:15,498

I'm struggling to deal with just extraterrestrial crafts being on the planet earth.

28

00:02:15,498 --> 00:02:18,498

And now I have to investigate the creatures that are actually flying them.

29

00:02:18,498 --> 00:02:20,499

Well you're just going to have to take baby steps.

30

00:02:20,499 --> 00:02:22,499

Yeah it's a big step.

31

00:02:25,499 --> 00:02:29,499

We've had descriptions of greys for over 40 years.

32

00:02:29,499 --> 00:02:31,499

There was the Roswell incident,

33

00:02:31,499 --> 00:02:34,500

outer limits, close encounters of the third kind.

34

00:02:34,500 --> 00:02:37,500

There was the alien autopsy.

35

00:02:37,500 --> 00:02:44,500

But the real description under hypnosis came from Betty and Barney Hill

36

00:02:44,500 --> 00:02:50,501

who in 1961 claim that they were abducted by grey alien beings.

37

00:02:50,501 --> 00:02:56,501

This description was the foundation for all the later depictions of the greys on television.

38

00:02:56,501 --> 00:03:06,502

Large head, 4.5 feet tall, long skinny squiggly arms, thin legs, no nose, a slit for a mouth.

39

00:03:06,502 --> 00:03:08,502

Who are these greys?

40

00:03:08,502 --> 00:03:13,503

More important, why are they here?

41

00:03:13,503 --> 00:03:18,503

From out of this mess these grey beings came out with black eyes.

42

00:03:18,503 --> 00:03:25,504

We are in remote British Columbia, near the town of 100 Mile House.

43

00:03:25,504 --> 00:03:30,504

We're going to meet with Miriam Delacato to hear about her encounters with greys.

44

00:03:33,504 --> 00:03:38,505

It was October 19th, we were driving in northern British Columbia

45

00:03:38,505 --> 00:03:43,505

and all of a sudden out of absolutely nowhere these lights appeared behind the car.

46

00:03:45,505 --> 00:03:47,505

It was almost as wide as two lanes.

47

00:03:47,505 --> 00:03:51,505

We actually thought that they were a big truck or something.

48

00:03:51,505 --> 00:03:54,506

The lights started popping on and off.

49

00:03:55,506 --> 00:03:58,506

The girl driving started to get really afraid

50

00:03:58,506 --> 00:04:03,506

and then all of a sudden out of absolutely nowhere I said to her pull over the car,

51

00:04:03,506 --> 00:04:05,507

it's not you they want, it's me.

52

00:04:05,507 --> 00:04:07,507

What possessed you to say that?

53

00:04:07,507 --> 00:04:09,507

I really didn't know at that point.

54

00:04:10,507 --> 00:04:14,507

Miriam's story, it's very interesting but I find a little far-fetched

55

00:04:14,507 --> 00:04:16,507

because she was in a car with three other people.

56

00:04:16,507 --> 00:04:20,508

None of them saw what she saw, none of them experienced what she experienced.

57

00:04:20,508 --> 00:04:22,508

They just don't remember it, period.

58

00:04:23,508 --> 00:04:27,508

I was just about ready to grab the steering wheel because she didn't want to pull over

59

00:04:27,508 --> 00:04:31,509

and her head tilted to the side and she just pulled over.

60

00:04:35,509 --> 00:04:36,509

Did she pull over voluntarily?

61

00:04:36,509 --> 00:04:40,509

Something must have been guiding her because all of a sudden she became very quiet.

62

00:04:40,509 --> 00:04:44,509

Once the car was in the stop position, nobody in the car was moving at that point.

63

00:04:44,509 --> 00:04:47,510

Suspended animation is the way I describe it.

64

00:04:47,510 --> 00:04:50,510

There have been hundreds of stories like Miriam's

65

00:04:50,510 --> 00:04:53,510

and the elements of these stories all match up.

66

00:04:55,510 --> 00:05:00,511

In front these short grays were walking towards me

67

00:05:00,511 --> 00:05:02,511

and they were about three and a half feet tall,

68

00:05:02,511 --> 00:05:08,511

with a little bit larger, bulbous type of heads with round black eyes.

69

00:05:08,511 --> 00:05:12,512

There was no features on them that distinguished one from the other.

70

00:05:13,512 --> 00:05:15,512

And then I start hearing a voice in my head.

71

00:05:16,512 --> 00:05:20,512

And it was, okay, get out of the car, do not be afraid, we will not harm you.

72

00:05:21,512 --> 00:05:24,513

My hand started reaching to the handle and thinking, why am I doing this?

73

00:05:24,513 --> 00:05:29,513

I got out of the car, they walked towards me and they took me by the hand.

74

00:05:30,513 --> 00:05:34,513

Miriam's walking to the UFO and she's actually guided by one of these grays.

75

00:05:34,513 --> 00:05:36,513

They actually hold hands.

76

00:05:36,513 --> 00:05:38,514

Did this really happen?

77

00:05:38,514 --> 00:05:41,514

What would tell me if it did or not are the details.

78

00:05:41,514 --> 00:05:44,514

The details would allow me to make some sort of determination.

79

00:05:45,514 --> 00:05:49,514

When you touched the grays hand, did it feel soft and fleshy or was it a bit more solid?

80

00:05:49,514 --> 00:05:57,515

It was solid. They were really cold and it wasn't like warmth from, you know, a person or an animal.

81

00:05:57,515 --> 00:05:58,515

It was cold.

82

00:05:58,515 --> 00:06:04,516

What would a normal reaction be to run for your life or pull yourself away from little beings that are dragging you into a ship?

83

00:06:05,516 --> 00:06:11,516

Absolutely, but there was no conversation other than, do not be afraid, we will not harm you.

84

00:06:11,516 --> 00:06:13,516

Which did actually calm me down.

85

00:06:14,516 --> 00:06:18,517

This is very interesting what Miriam is saying about the grays calming her.

86

00:06:18,517 --> 00:06:22,517

Maybe they have some way of doing this, perhaps telepathy is involved.

87

00:06:22,517 --> 00:06:25,517

They just simply took me by the hand, led me down the highway.

88

00:06:25,517 --> 00:06:31,518

When I looked up, I saw a very large craft probably about 40 or 50 feet across.

89

00:06:34,518 --> 00:06:39,518

And right at the doorway were these two tall blonde haired blue-eyed aliens.

90

00:06:39,518 --> 00:06:40,518

Nothing like the grays.

91

00:06:40,518 --> 00:06:42,518

Absolutely nothing like them whatsoever.

92

00:06:44,519 --> 00:06:52,519

These short grays that had been with me just let go of my hand and I walked on board the craft with the two tall blondes.

93

00:06:53,519 --> 00:06:58,520

What's the relationship of the grays that took you from the car to these tall blondes?

94

00:06:58,520 --> 00:07:01,520

I would say that these grays were their helpers.

95

00:07:02,520 --> 00:07:07,520

When you say grays, it's not just one species of extraterrestrial.

96

00:07:07,520 --> 00:07:09,520

There are many, many different species of them.

97

00:07:09,520 --> 00:07:17,521

What we heard from Miriam is that this species was obviously totally servile, almost robotic-like.

98

00:07:18,521 --> 00:07:22,521

There are multiple species of aliens visiting the planet Earth.

99

00:07:22,521 --> 00:07:26,522

This is completely new to me and I'm not quite sure what to think of it right now.

100

00:07:27,522 --> 00:07:35,522

We walked on board this craft and they sat me down on this chair and in front of me came a screen out of thin air.

101

00:07:35,522 --> 00:07:37,523

And then they started showing me all of these different images.

102

00:07:37,523 --> 00:07:39,523

What kinds of images were these?

103

00:07:39,523 --> 00:07:42,523

Images of catastrophes on the planet.

104

00:07:42,523 --> 00:07:46,523

Earthquakes, solar flares, war.

105

00:07:46,523 --> 00:07:53,524

And I was shown all of these different, what I believe is sort of like timelines and paths that humanity could take.

106

00:07:53,524 --> 00:08:02,524

And then I was explained how if we came together as a species that we would be able to avoid any and all of these events.

107

00:08:03,525 --> 00:08:11,525

I know Bill thinks this is normal. He's been talking to eyewitnesses and abductees for years, but to me this is pretty far out there.

108

00:08:11,525 --> 00:08:13,525

So what is the purpose of all of this? What are they trying to do?

109

00:08:13,525 --> 00:08:17,526

It was explained to me that they are the caretakers of this Earth.

110

00:08:17,526 --> 00:08:23,526

And that their purpose in being here is to help enlighten us, make us aware of who we are,

111

00:08:23,526 --> 00:08:27,526

and to make sure that we do not destroy ourselves or the planet.

112

00:08:28,526 --> 00:08:31,527

Well this is very interesting what Miriam is telling us about.

113

00:08:31,527 --> 00:08:34,527

The Grey is showing her pictures of wars and the way we're harming the planet.

114

00:08:34,527 --> 00:08:39,527

It sounds to me like they're bringing a benevolent message that they're trying to help us.

115

00:08:39,527 --> 00:08:43,528

It doesn't sound to me like these are aliens that wish us harm.

116

00:08:43,528 --> 00:08:49,528

I believe that some of these Grey's can be trusted and that some of them you absolutely should not.

117

00:08:51,528 --> 00:08:53,528

Are the Grey's here to help us or hurt us?

118

00:08:54,528 --> 00:08:57,529

The Grey's that I encountered I believe are here to help us.

119

00:08:57,529 --> 00:09:04,529

But there are several different types of Grey's and I know one in particular has a very dark agenda.

120

00:09:14,530 --> 00:09:16,530

So how would you like to proceed tonight?

121

00:09:19,530 --> 00:09:20,530

Start on the table.

122

00:09:21,530 --> 00:09:25,531

I feel like, oh god, I'm so sorry.

123

00:09:25,531 --> 00:09:30,531

It's scary, it's very uncomfortable, it's painful.

124

00:09:31,531 --> 00:09:40,532

Bill and Peggy Foster claim that in 1996 in North Carolina they had a close encounter with extraterrestrial Grey beings.

125

00:09:40,532 --> 00:09:46,532

Furthermore they say that the Grey's abducted them and performed medical experiments that haunt them to this very day.

126

00:09:46,532 --> 00:09:49,533

I do see some of them grey-shaped.

127

00:09:50,533 --> 00:09:55,533

Witnesses and abductees really have no tangible evidence that they've ever encountered a Grey.

128

00:09:55,533 --> 00:09:58,533

So the best we can do is hypnotic regression.

129

00:09:58,533 --> 00:10:00,533

Deeper, deeper, relax.

130

00:10:00,533 --> 00:10:04,534

And that's what we have. We have videos of Bill and Peggy Foster's hypnosis sessions.

131

00:10:04,534 --> 00:10:05,534

Deeper.

132

00:10:06,534 --> 00:10:08,534

I guess I shouldn't have tried touching.

133

00:10:09,534 --> 00:10:11,534

Something traumatic happens in these two people.

134

00:10:11,534 --> 00:10:13,534

I like the whole Grey.

135

00:10:14,534 --> 00:10:22,535

My life would have been 100% simpler without ever knowing anything about it.

136

00:10:22,535 --> 00:10:27,535

I wouldn't wish it on anybody. I just wanted to forget the whole incident.

137

00:10:27,535 --> 00:10:34,536

And if the answer to the question is yes, raise your index finger. Good.

138

00:10:34,536 --> 00:10:39,536

Bill and Peggy Foster both claim they were abducted by grey alien beings.

139

00:10:39,536 --> 00:10:42,537

They claim that medical experiments were performed on them.

140

00:10:42,537 --> 00:10:45,537

I do see some of them grey-shaped.

141

00:10:45,537 --> 00:10:49,537

We have the hypnotic regression sessions of Bill and Peggy Foster.

142

00:10:49,537 --> 00:10:54,538

This is exclusive to UFO hunters, right? This is something that we have access to.

143

00:10:54,538 --> 00:10:57,538

We're watching this for the first time. Nobody else has seen these tapes.

144

00:11:00,538 --> 00:11:02,538

Close to my face.

145

00:11:02,538 --> 00:11:05,538

This one's taller than the rest.

146

00:11:06,538 --> 00:11:10,539

Much bigger eyes. It's like looking into eternity.

147

00:11:10,539 --> 00:11:13,539

That's poetic. He seems to be describing a grey.

148

00:11:13,539 --> 00:11:16,539

I think he was describing a very profound experience.

149

00:11:16,539 --> 00:11:19,539

I mean, you're looking into the eyes of a being that's visiting this planet.

150

00:11:19,539 --> 00:11:21,540

I mean, that's you.

151

00:11:21,540 --> 00:11:23,540

What happened when you look at him?

152

00:11:23,540 --> 00:11:25,540

Really relaxed.

153

00:11:25,540 --> 00:11:27,540

So what do you guys think about his description of the being?

154

00:11:27,540 --> 00:11:31,540

Huge eyes and the being has a tranquilizing effect on him.

155

00:11:31,540 --> 00:11:36,541

Well, his description of the huge eyes obviously comports with Betty Hill's description

156

00:11:36,541 --> 00:11:39,541

and other descriptions that everybody has given of a grey.

157

00:11:39,541 --> 00:11:40,541

Huge eyes.

158

00:11:40,541 --> 00:11:43,541

The tranquilizing effect, what do you think? Telepathic?

159

00:11:43,541 --> 00:11:45,541

Yeah, it sounds standard. I've heard it before.

160

00:11:45,541 --> 00:11:48,542

Feeling calm through telepathy. It's what everybody says happened.

161

00:11:54,542 --> 00:11:58,542

We can't know their inner psychological states and their character.

162

00:11:58,542 --> 00:12:01,543

I mean, Bill seems to have been taken this rather well.

163

00:12:01,543 --> 00:12:03,543

He's calm when he's reliving this.

164

00:12:03,543 --> 00:12:06,543

And here we can see Peggy is very emotional.

165

00:12:06,543 --> 00:12:09,543

That's right. Just let them come.

166

00:12:09,543 --> 00:12:11,543

And I think this is the best example.

167

00:12:11,543 --> 00:12:15,544

This is the best evidence we have that something traumatic happened to these two people.

168

00:12:17,544 --> 00:12:21,544

Peggy cringed in terror at the alien's touch.

169

00:12:21,544 --> 00:12:25,544

This is in stark contrast to what we heard from Miriam about the benevolent greys.

170

00:12:25,544 --> 00:12:27,545

And then I start hearing a voice in my head,

171

00:12:27,545 --> 00:12:29,545

Do not be afraid, we will not harm you.

172

00:12:36,545 --> 00:12:41,546

They're doing something to her that is denying her ability to control the situation.

173

00:12:43,546 --> 00:12:46,546

Listening to Peggy's experiences is very disturbing.

174

00:12:46,546 --> 00:12:49,546

It's excruciating watching this video.

175

00:12:49,546 --> 00:12:52,546

It sounds like it was a very emotional experience for her.

176

00:12:52,546 --> 00:12:56,547

Although we don't have tangible evidence of some kind of abduction,

177

00:12:56,547 --> 00:12:59,547

we don't have a piece of a grey or piece of the craft.

178

00:12:59,547 --> 00:13:01,547

This is the evidence here.

179

00:13:01,547 --> 00:13:05,547

A couple that has undergone some kind of traumatic experience.

180

00:13:05,547 --> 00:13:07,548

I'm afraid.

181

00:13:07,548 --> 00:13:13,548

I think something happened to them and we have to be open to the possibility that they had an actual experience.

182

00:13:17,548 --> 00:13:19,548

So here's what we know.

183

00:13:19,548 --> 00:13:22,549

Miriam told us the grey aliens are helpers.

184

00:13:22,549 --> 00:13:28,549

But from what Bill and Peggy told us, the greys are performing serious medical experiments.

185

00:13:28,549 --> 00:13:30,549

Some of them quite sinister.

186

00:13:30,549 --> 00:13:36,550

Is this a current phenomenon or is there evidence of contact dating back to ancient times?

187

00:13:42,550 --> 00:13:48,551

What if there really was an extraterrestrial contact in the remote past?

188

00:13:48,551 --> 00:13:52,551

Georgiosuchalos is the publisher of Legendary Times magazine.

189

00:13:52,551 --> 00:13:59,552

He believes the ancient astronaut theory that contact was made and documented thousands of years ago.

190

00:14:01,552 --> 00:14:05,552

We have all these accounts of these beings that are centered from the sky.

191

00:14:05,552 --> 00:14:12,552

In fact, in the ancient Sumerian culture, those beings have a specific name, the Anunnaki.

192

00:14:12,552 --> 00:14:20,553

And translated into English, Anunnaki means those who from the heavens came.

193

00:14:23,553 --> 00:14:27,554

Exactly, and there's the evidence right in the Sumerian cuneiforms.

194

00:14:27,554 --> 00:14:31,554

The big head with the rays coming out of it.

195

00:14:31,554 --> 00:14:33,554

It's this.

196

00:14:33,554 --> 00:14:35,554

Well, and the...

197

00:14:35,554 --> 00:14:36,554

Are you sure?

198

00:14:36,554 --> 00:14:41,555

Well, here we go again with Bill making the extraterrestrial connection without getting all the facts together.

199

00:14:41,555 --> 00:14:48,555

Kevin and I are trying to proceed cautiously, trying to separate anecdotal evidence from fact before we come to any conclusions.

200

00:14:48,555 --> 00:14:53,556

Well, I want to look at the image, the lines coming out of it, look at the cuneiform and look at that head.

201

00:14:53,556 --> 00:14:58,556

I mean, I just don't want to get all excited and go straight to this. I just need a little more.

202

00:14:58,556 --> 00:15:07,557

What the ancients describe as gods, beings coming down from the heaven, or actually aliens coming down from the sky.

203

00:15:07,557 --> 00:15:14,557

This has been referenced in every culture, in every folktale, time and time again.

204

00:15:14,557 --> 00:15:22,558

This here is a photograph of some figurines that were found in Africa.

205

00:15:22,558 --> 00:15:29,558

And these are ancient. And here we do see some sort of a similarity with the big slanted eyes.

206

00:15:29,558 --> 00:15:38,559

And the stories behind these statues always is in correlation with some beings that descended from the sky.

207

00:15:38,559 --> 00:15:40,559

You still don't really look alike if you ask me.

208

00:15:40,559 --> 00:15:48,560

I think it's kind of obvious, but looking at these African sculptures, they clearly do not resemble the grays in any way, shape or form.

209

00:15:48,560 --> 00:15:55,560

This one right here with the cone head looks very lizard-like. This is from Sumeria.

210

00:15:55,560 --> 00:15:56,560

That's a little bit closer.

211

00:15:56,560 --> 00:16:03,561

And over here we have some cave drawings that look very similar to something like this.

212

00:16:05,561 --> 00:16:07,561

Yeah, it's kind of eerie.

213

00:16:10,561 --> 00:16:17,562

Ancient cultures have always had myths and legends of beings that have been called gods, that come down from the skies.

214

00:16:17,562 --> 00:16:24,562

But what we need is real physical evidence that grays, which might be interpreted as gods, have actually made contact with humans.

215

00:16:24,562 --> 00:16:32,563

Kevin once proved, Giorgio pointed us to the Star Child skull, which many believe is the remains of a grave.

216

00:16:32,563 --> 00:16:36,563

The Star Child skull is a very fascinating find.

217

00:16:36,563 --> 00:16:45,564

We don't know yet whether or not this is a misshaped human skull or whether or not it is a hybrid being.

218

00:16:45,564 --> 00:16:54,565

Because in many, many ancient texts it is written that these gods did intermingle with our ancestors.

219

00:16:56,565 --> 00:17:03,565

During all my years of research in UFOs, the one artifact that keeps coming up is the Star Child skull.

220

00:17:03,565 --> 00:17:12,566

I've never held the Star Child skull in my hand, but I know that it was founded in the 1930s in a cave in northern Mexico by a teenage girl.

221

00:17:12,566 --> 00:17:19,567

It's been speculated from the shape of the skull that it's an alien origin possibly from a grave.

222

00:17:19,567 --> 00:17:24,567

Now that we know who the owner is, I'm excited to get my hands on it.

223

00:17:24,567 --> 00:17:28,567

This could be the greatest single find in the history of UFOs.

224

00:17:32,568 --> 00:17:34,568

I don't think we can put too much stock in what Giorgio told us.

225

00:17:34,568 --> 00:17:38,568

I mean, what we have are cave paintings of people with big heads and big eyes.

226

00:17:38,568 --> 00:17:41,568

That does not mean aliens have come to visit us on Earth.

227

00:17:41,568 --> 00:17:47,569

Well, you know what? I disagree with you about the cave painting, but more important than that, we have an eye witness.

228

00:17:47,569 --> 00:17:53,569

We have Miriam. Miriam said she was taking aboard of craft. She met the small grays, the large grays.

229

00:17:53,569 --> 00:17:56,569

I don't think she's making it up. I think she's telling the truth.

230

00:17:56,569 --> 00:18:02,570

The testimony of Giorgio and Miriam, in my opinion, it's not solid evidence to conclude that aliens have come to visit us.

231

00:18:02,570 --> 00:18:04,570

We need something physical.

232

00:18:04,570 --> 00:18:13,571

You guys want evidence? Melanie will show you the evidence.

233

00:18:13,571 --> 00:18:16,571

Hi, Melanie.

234

00:18:16,571 --> 00:18:17,571

Glad you came to El Paso.

235

00:18:17,571 --> 00:18:19,571

We've heard so much about the Star Child skull.

236

00:18:19,571 --> 00:18:29,572

Melanie Young is a medical professional who specializes in neonatal care, and she's one of the most qualified people to speak on human physiology.

237

00:18:29,572 --> 00:18:33,572

Wow.

238

00:18:34,572 --> 00:18:39,573

Well, this is the normal one that was found.

239

00:18:39,573 --> 00:18:41,573

So this is not the Star Child skull?

240

00:18:41,573 --> 00:18:47,573

This is not the Star Child, but this is the skull that was found laying next to the Star Child on top of the ground.

241

00:18:47,573 --> 00:18:49,573

Nothing unusual yet?

242

00:18:49,573 --> 00:18:50,574

No.

243

00:18:50,574 --> 00:18:52,574

But this is what's unusual.

244

00:18:52,574 --> 00:18:54,574

Oh, my God.

245

00:18:54,574 --> 00:19:03,575

So this is the famous Star Child skull?

246

00:19:03,575 --> 00:19:04,575

Yes, it is.

247

00:19:04,575 --> 00:19:17,576

This is huge. One of the biggest events since I've started investigating UFOs. Two skulls found together. One seemingly an adult, the other apparently a child.

248

00:19:17,576 --> 00:19:19,576

Do you know how old this is?

249

00:19:19,576 --> 00:19:22,576

It's been carbon dated 900 years old.

250

00:19:22,576 --> 00:19:23,576

Wow.

251

00:19:23,576 --> 00:19:30,577

This 900 year old artifact was allegedly found in a cave in the Copper Canyon region of Mexico by a woman living in a small village.

252

00:19:30,577 --> 00:19:36,577

Now I can't say there's a connection to the graves, but if there is, it's almost impossible to comprehend.

253

00:19:36,577 --> 00:19:46,578

The normal skull was laying on top of the ground with a complete skeleton, and coming out of the ground was a deformed hand.

254

00:19:46,578 --> 00:19:53,578

And so she dug up the deformed hand and found a complete skeleton.

255

00:19:53,578 --> 00:19:55,578

Where is the skeleton now?

256

00:19:55,578 --> 00:20:04,579

So she picked up both skeletons and took them back to the village, and they had a rainstorm, and everything got washed away.

257

00:20:04,579 --> 00:20:08,579

And the very next day, this is all she could find.

258

00:20:08,579 --> 00:20:18,580

In a flood, you would think that the heavier, flatter bones like the femur would have been left behind, and the lighter, rounder bones like the skull would have been washed away.

259

00:20:18,580 --> 00:20:22,581

But if you accept this story, the exact opposite happened.

260

00:20:22,581 --> 00:20:24,581

How did you come into possession of the skull?

261

00:20:24,581 --> 00:20:36,582

Well, a friend who got it from a friend who was the original owner of it, gave it to me due to my expertise in neonatal nursing and anatomy.

262

00:20:36,582 --> 00:20:44,582

When I saw it and told them that this is totally out of this world, they were like, take it. Don't bring it back.

263

00:20:44,582 --> 00:20:49,583

This is obviously extremely bizarre. Is it possible this is some kind of deformity?

264

00:20:49,583 --> 00:20:51,583

I've never seen anything like it.

265

00:20:51,583 --> 00:20:54,583

How many deformities have you seen? Have you witnessed it as a nurse?

266

00:20:54,583 --> 00:21:01,583

I've seen every kind of deformity you can think of, and nothing looks like that.

267

00:21:01,583 --> 00:21:12,584

Some people who've looked at the Starchild skull believe that it's a human skull of someone that suffered from hydrocephalia, which is a disease that affects some infants which causes a misshapen skull.

268

00:21:12,584 --> 00:21:25,585

If it were a hydrocephalic, this would be bulged out, okay? But only one side would be bulged out, or the back would be bulged. It wouldn't be symmetrical like that is.

269

00:21:25,585 --> 00:21:31,586

So a hydrocephalic skull is asymmetrical, and this skull is symmetrical.

270

00:21:31,586 --> 00:21:38,586

It's completely symmetrical. If that were a hydrocephalic, the bones would not be connected. There would be no skull.

271

00:21:38,586 --> 00:21:40,586

What other explanations do you have for this skull?

272

00:21:40,586 --> 00:21:43,587

I don't have one. I can't find one.

273

00:21:43,587 --> 00:21:54,587

Now a lot of people might challenge this story, but we've come this far. I think we all agree that we have to explore the possibility that this could be the skull of a gray.

274

00:21:55,588 --> 00:22:04,588

Well guys, I mean, obviously this thing looks different from a human skull. It's big and bulbous and fits the description of what some people say alien grays look like.

275

00:22:04,588 --> 00:22:06,588

You know, I'd like to get some more information on it.

276

00:22:06,588 --> 00:22:11,589

Well, Lloyd Pie is our lead researcher, and he's done a lot of work with hominids.

277

00:22:11,589 --> 00:22:20,589

He has so much knowledge on different species and how the humans have evolved. He is the guy to talk to.

278

00:22:21,590 --> 00:22:24,590

What significance is a skull? It's a UFO research.

279

00:22:24,590 --> 00:22:31,590

The Star Child can provide proof that is undeniable, the holy grail of the field of UFO alien research.

280

00:22:33,590 --> 00:22:41,591

These very short beings came out that were probably about three to three and a half feet tall with black eyes.

281

00:22:43,591 --> 00:22:48,592

People have been seeing aliens for thousands of years, but there's never been a single piece of hard evidence.

282

00:22:48,592 --> 00:22:51,592

Now it's possible the Star Child skull is just that.

283

00:22:52,592 --> 00:22:57,592

We are here today with Lloyd Pie, who has worked as a military intelligence specialist.

284

00:22:57,592 --> 00:23:07,593

He has more than 30 years study in cryptozoology. He's the primary expert on the Star Child skull, having researched it for more than a decade.

285

00:23:08,593 --> 00:23:10,593

Why all this interest in it?

286

00:23:10,593 --> 00:23:19,594

I believe that it stands a very good chance of being the smoking gun that everybody is looking for, the holy grail of the field of UFO alien research.

287

00:23:20,594 --> 00:23:28,595

What I want to hear first is not only what do the specialists and the medical doctors think, but what kind of tests have been done and what exactly were the results.

288

00:23:28,595 --> 00:23:33,595

Could you walk us through the main differences between the Star Child skull and a normal human skull?

289

00:23:33,595 --> 00:23:38,595

The eye sockets of a normal human are about two inches, Star Child is not even one.

290

00:23:40,595 --> 00:23:44,596

There are no sinuses in here, no upper sinuses at all.

291

00:23:44,596 --> 00:23:56,597

And you turn them around, you notice that the chewing muscles that come up through here and spread out to attach your jaw and chew cover quite a wide area here with the Star Child.

292

00:23:56,597 --> 00:23:59,597

It's much reduced, so we have a much smaller, much reduced lower face.

293

00:24:00,597 --> 00:24:07,598

And there are fibers woven through the matrix of the bone which were found under a scanning electron microscope.

294

00:24:07,598 --> 00:24:09,598

Does this skull have any fibers at all?

295

00:24:09,598 --> 00:24:17,598

No skull of any kind of primate that we know of or any really bone that we know of has those kind of fibers. They seem to be unique to the Star Child.

296

00:24:21,599 --> 00:24:26,599

Although I haven't seen a gray myself, I mean everyone kind of knows what they're supposed to look like.

297

00:24:27,599 --> 00:24:35,600

A large head, you know, wrap around eyes, a small mouth and it seems like this skull would sort of fit in with that description.

298

00:24:35,600 --> 00:24:45,600

If you turn around and look on the inside and you feel in here, you feel that ridging of bone that will hold the cerebellum in place.

299

00:24:45,600 --> 00:24:52,601

With the Star Child, because it has such expanded brain pressing down that way at such a steep angle,

300

00:24:52,601 --> 00:24:57,601

we should have a spreading of the foramen magnum, but we don't.

301

00:24:57,601 --> 00:25:03,602

So we have a very different kind of brain in this skull, whatever it is.

302

00:25:03,602 --> 00:25:12,602

Now if you stick your finger in the foramen magnum hold to simulate a neck, right, you see how the human is there.

303

00:25:12,602 --> 00:25:15,603

So it would be like this, but the Star Child is actually balanced like this.

304

00:25:15,603 --> 00:25:18,603

So it's kind of like a misshapen golf ball on a tee.

305

00:25:18,603 --> 00:25:25,603

It's very different from the human neck in that it's half the size and it's centered up under the head.

306

00:25:25,603 --> 00:25:30,604

When you see how the neck connects to the skull, that's a closure for me.

307

00:25:30,604 --> 00:25:33,604

It's not a deformity. It was built that way.

308

00:25:35,604 --> 00:25:41,605

We've had the DNA of the human tested fully, fully recovered, no problem, normal human being,

309

00:25:41,605 --> 00:25:45,605

but in 203 we found that the DNA of the Star Child was very different.

310

00:25:45,605 --> 00:25:49,605

While we could recover its mitochondrial DNA, which comes from its mother,

311

00:25:49,605 --> 00:25:54,606

the nuclear DNA which contains the DNA of its mother and its father, we could not recover that,

312

00:25:54,606 --> 00:25:59,606

which indicates that there's something very unusual, if not completely different about the father.

313

00:25:59,606 --> 00:26:02,606

Where is the mitochondrial DNA from?

314

00:26:02,606 --> 00:26:05,606

All of our cells, we have cytoplasm.

315

00:26:05,606 --> 00:26:08,607

Floating inside the cytoplasm are little chips.

316

00:26:08,607 --> 00:26:11,607

Imagine them as raisins floating in a soup.

317

00:26:12,607 --> 00:26:16,607

Those little mitochondria come down from your mother.

318

00:26:16,607 --> 00:26:19,608

Is this the mother of the skull? Is that what we're saying?

319

00:26:19,608 --> 00:26:22,608

We have been able to prove that is not the case for sure.

320

00:26:22,608 --> 00:26:24,608

They are not genetically related.

321

00:26:27,608 --> 00:26:32,609

In the case of the Star Child skull, mitochondrial DNA has proven that the mother is human.

322

00:26:32,609 --> 00:26:37,609

However, nuclear DNA, it should have proven that the father was human as well, but it didn't.

323

00:26:37,609 --> 00:26:44,609

It was inconclusive. What this means is that the mother is human, but the father is simply unknown.

324

00:26:44,609 --> 00:26:51,610

Your knowledge, is there any reason why the nuclear DNA was not recoverable, other than the fact that it's not a human father?

325

00:26:51,610 --> 00:26:58,610

If the father had been human, all indications are it should have pulled up very easily with the primers that were used,

326

00:26:58,610 --> 00:27:03,611

but it didn't, so we can only conclude that there's something very unusual about the father.

327

00:27:08,611 --> 00:27:13,612

Guys, I think one of the problems with getting answers to this skull is that it's obviously incomplete.

328

00:27:13,612 --> 00:27:18,612

I mean, a large portion of it is missing. The entire maxilla and facial structure is gone.

329

00:27:18,612 --> 00:27:23,612

I'd like to know if you would mind if we took this to Los Angeles and have a specialist reconstruct this,

330

00:27:23,612 --> 00:27:27,613

so that we could see what this person or creature looked like when it was alive.

331

00:27:27,613 --> 00:27:30,613

I would be as anxious to see what it would look like as you.

332

00:27:31,613 --> 00:27:38,614

The Star Child skull has an oversized cranium, which looks like it had a much larger capacity for a brain.

333

00:27:38,614 --> 00:27:44,614

This matches up with the alien that crashed at Roswell, which showed a multiple lobed brain.

334

00:27:45,614 --> 00:27:50,614

Now these are reproductions, of course, and the reproductions were done by computer,

335

00:27:50,614 --> 00:27:53,615

so these are exact reproductions of the real skull.

336

00:27:53,615 --> 00:27:54,615

They are identical.

337

00:27:54,615 --> 00:27:57,615

We have a normal skull, but we have a normal skull.

338

00:27:57,615 --> 00:27:58,615

They are identical.

339

00:27:59,615 --> 00:28:01,615

We have a normal and an abnormal skull.

340

00:28:01,615 --> 00:28:06,616

We need to check the differences between the two by measuring the volume of the brain capacities.

341

00:28:06,616 --> 00:28:11,616

We know that a normal brain is 1,350 to 1,400 cubic centimeters.

342

00:28:11,616 --> 00:28:15,616

There's a scientific test to measure brain capacity, and that's simply to fill it up with bird seed,

343

00:28:15,616 --> 00:28:17,616

and that's what we're about to do.

344

00:28:18,617 --> 00:28:19,617

Just pour some in here.

345

00:28:24,617 --> 00:28:25,617

Alright, that's enough for now.

346

00:28:28,617 --> 00:28:33,618

Here's Pat pouring and pouring and pouring.

347

00:28:33,618 --> 00:28:36,618

This is the bottomless skull here.

348

00:28:36,618 --> 00:28:39,618

He's not stopping. He's keeping on going.

349

00:28:39,618 --> 00:28:42,618

Okay, gents, empty your skulls.

350

00:28:47,619 --> 00:28:50,619

1,250 milliliters. That's a lot of bird seed.

351

00:28:50,619 --> 00:28:52,619

I don't think there's more bird seed in that skull.

352

00:28:52,619 --> 00:28:55,619

I don't think you can come to a conclusion until you've finished the experiment.

353

00:28:55,619 --> 00:28:57,619

That's real science, isn't it?

354

00:28:57,619 --> 00:28:58,620

Very true.

355

00:28:58,620 --> 00:28:59,620

Mr. Science Guy.

356

00:29:01,620 --> 00:29:02,620

Okay.

357

00:29:02,620 --> 00:29:03,620

So that's 1,000?

358

00:29:03,620 --> 00:29:04,620

That's 1,000.

359

00:29:04,620 --> 00:29:06,620

And the rest is all gravy.

360

00:29:07,620 --> 00:29:12,621

Visually, from the outside, the normal human skull actually appears larger.

361

00:29:12,621 --> 00:29:16,621

So it's strange that the Star Child skull would be getting so much bird seed in it.

362

00:29:16,621 --> 00:29:17,621

It's more.

363

00:29:17,621 --> 00:29:18,621

Holy Nacra.

364

00:29:18,621 --> 00:29:23,621

There are exactly 200 milliliters more in the Star Child skull.

365

00:29:25,622 --> 00:29:27,622

Now this is a huge difference.

366

00:29:27,622 --> 00:29:32,622

We're talking about 15% more brain capacity here, which could completely bulge out a normal skull.

367

00:29:33,622 --> 00:29:37,623

With all that said, I'm still not convinced that this is alien.

368

00:29:38,623 --> 00:29:40,623

Why is this more brain material?

369

00:29:40,623 --> 00:29:42,623

There are a number of explanations for it.

370

00:29:42,623 --> 00:29:44,623

Not that this is an accident of nature,

371

00:29:44,623 --> 00:29:46,623

or not that this is a bird seed.

372

00:29:46,623 --> 00:29:48,623

Not that this is an accident of nature,

373

00:29:48,623 --> 00:29:50,623

or not that this is a brain deformity,

374

00:29:50,623 --> 00:29:52,624

but this was a designed skull.

375

00:29:52,624 --> 00:29:57,624

And that brain has more functionality than the accompanying adult skull.

376

00:29:59,624 --> 00:30:05,625

This skull exactly conforms to the Walter Reed Army Hospital autopsy on a little gray

377

00:30:05,625 --> 00:30:08,625

that they retrieved from the crash at Waswell.

378

00:30:08,625 --> 00:30:12,625

Now the difference is that this might have had three lobes because it has human DNA,

379

00:30:12,625 --> 00:30:15,625

but the Army autopsy basically confirmed this.

380

00:30:16,625 --> 00:30:18,626

It was in black and white.

381

00:30:18,626 --> 00:30:20,626

Black and white, black and white as in documents.

382

00:30:20,626 --> 00:30:23,626

It's been documented, there is proof that there is actually this autopsy.

383

00:30:23,626 --> 00:30:25,626

From what I've heard, it's just hearsay.

384

00:30:25,626 --> 00:30:26,626

Well, you're wrong.

385

00:30:26,626 --> 00:30:29,626

When Kevin challenges me, I love it.

386

00:30:29,626 --> 00:30:32,627

That's like, I'm glad you asked that question, because I've got the answer.

387

00:30:32,627 --> 00:30:36,627

They didn't confirm it, because the Pentagon to this day hasn't actually confirmed those

388

00:30:36,627 --> 00:30:40,627

of crash at Waswell, no less an alien tested at Walter Reed Army Hospital,

389

00:30:40,627 --> 00:30:42,627

but they didn't deny it.

390

00:30:42,627 --> 00:30:45,628

Not one refutation came out of the Pentagon.

391

00:30:45,628 --> 00:30:47,628

They never objected to this.

392

00:30:47,628 --> 00:30:49,628

And they never confirmed it either.

393

00:30:50,628 --> 00:30:53,628

Bill keeps throwing the Roswell story of alien bodies into this,

394

00:30:53,628 --> 00:30:57,629

but what exactly happened at Roswell, it's still much debated.

395

00:30:57,629 --> 00:31:01,629

Recently, Bill and Pat talked to a new eyewitness who claims that he was on an

396

00:31:01,629 --> 00:31:04,629

Air Force crew that cleaned up the wreckage.

397

00:31:04,629 --> 00:31:08,629

Well, I've seen some type of a terrio or metal.

398

00:31:08,629 --> 00:31:10,630

It was threads and pieces.

399

00:31:10,630 --> 00:31:14,630

I think you guys are arguing over a skull that isn't even complete.

400

00:31:14,630 --> 00:31:19,630

I think it's dangerous to extrapolate from something we don't even have a full picture of.

401

00:31:19,630 --> 00:31:22,630

So I think we need to go to Robert Lindsay, our visual effects artist.

402

00:31:22,630 --> 00:31:27,631

He's an expert on skulls, jaws and teeth, and see what he's reconstructed

403

00:31:27,631 --> 00:31:30,631

based on what he has here from Lloyd Pie's skull.

404

00:31:30,631 --> 00:31:31,631

Let's go.

405

00:31:38,632 --> 00:31:41,632

On the heads of the graves, there are no ears, no nose,

406

00:31:41,632 --> 00:31:43,632

a very tiny, thin frail necks.

407

00:31:43,632 --> 00:31:47,632

The eyes of the graves look oval shaped and they're very watery,

408

00:31:47,632 --> 00:31:50,633

very deep and dark.

409

00:31:50,633 --> 00:31:56,633

The problem with the Star Child skull is that a good portion of the facial features

410

00:31:56,633 --> 00:31:59,633

are missing, as well as the lower jaw.

411

00:31:59,633 --> 00:32:04,634

So this will be a huge challenge to Robert Lindsay to reconstruct this thing.

412

00:32:04,634 --> 00:32:10,634

Robert is an expert on teeth and jaw structure and is now a Hollywood special effects artist.

413

00:32:10,634 --> 00:32:13,634

He's really going to have to interpret what was there.

414

00:32:13,634 --> 00:32:19,635

Robert's first step is to reconstruct the lower jaw from scratch to give context to the rest of the skull.

415

00:32:19,635 --> 00:32:26,635

Next he needs to attach the tissue depth markers to the skull to determine how thick he should apply the tissue under the skin.

416

00:32:26,635 --> 00:32:29,636

Now Robert will attach muscles and sinews to the skull.

417

00:32:29,636 --> 00:32:33,636

With all the flesh and the tissue created, he'll be able to fill in the eyes of the model.

418

00:32:33,636 --> 00:32:37,636

And lastly, he'll attach skin to give the skull a face.

419

00:32:38,636 --> 00:32:45,637

While Robert constructs the face, we need to determine if it's even possible for this type of life form to evolve on another planet.

420

00:32:48,637 --> 00:32:54,637

I'm really excited to meet with David Aguilar because David Aguilar has written a number of books for National Geographic

421

00:32:54,637 --> 00:33:00,638

on what's going on out there in the solar system and what other life forms may look like.

422

00:33:00,638 --> 00:33:07,638

We are talking to NASA, we're talking to the Origins of Life Initiative here at Harvard.

423

00:33:07,638 --> 00:33:10,639

We're actively searching for life in the universe.

424

00:33:10,639 --> 00:33:15,639

This really elevates our investigation to have a Harvard scientist weigh in

425

00:33:15,639 --> 00:33:20,639

and talk to us about the real possibilities of alien life coming into contact with Earth.

426

00:33:20,639 --> 00:33:28,640

We've learned quite a bit about aliens, grades specifically, and we really want to see how they can compare to how life could evolve on other planets.

427

00:33:28,640 --> 00:33:35,641

What shapes, what forms, what evolutionary pattern they might take, boy, that's the big mystery today.

428

00:33:35,641 --> 00:33:43,641

We've investigated the Betty and Barney Hill case and one of the reasons it's so important is that they claim that when they were abducted,

429

00:33:43,641 --> 00:33:48,642

they were actually shown a star map indicating where the grey aliens were from.

430

00:33:48,642 --> 00:33:51,642

Why would they have added a detail like this?

431

00:33:52,642 --> 00:33:55,642

What about the star map that Betty Hill drew?

432

00:33:55,642 --> 00:34:01,642

When she was regressed, she drew a star map of where the alien on the spacecraft told her they were from.

433

00:34:01,642 --> 00:34:04,643

In fact, he actually showed her a diagram in space of where they were from.

434

00:34:04,643 --> 00:34:13,643

When Betty Hill reported where the aliens told them they came from, it was from the twin star system, Zeta Reticula Planix.

435

00:34:13,643 --> 00:34:19,644

I remember that. They saw the map inside the ship and they put it out there and it wasn't until later that they were able to go back

436

00:34:19,644 --> 00:34:23,644

and take a look and say, oh my gosh, this looks like the system they were talking about.

437

00:34:23,644 --> 00:34:29,645

But then, Bill, in the infinity of space, there could be a thousand locations that look just like that.

438

00:34:33,645 --> 00:34:40,645

We've actually contacted witnesses who say they've seen beings that have visited our planet and we've got some sketches here to show you.

439

00:34:40,645 --> 00:34:45,646

What do you think about that? Is that something that could evolve on another planet? Does that say anything to you?

440

00:34:46,646 --> 00:34:50,646

But of course, things are going to evolve differently on another planet.

441

00:34:50,646 --> 00:34:53,646

And there's no reason that we would have humanoids.

442

00:34:53,646 --> 00:34:59,647

I mean, the chance of finding humanoids that look like us, like you see in Star Trek, are so unbelievably small.

443

00:34:59,647 --> 00:35:04,647

You're going to get intelligent creatures, but they may not look anything like we would even relate to an intelligence.

444

00:35:04,647 --> 00:35:10,648

It is entirely possible for anything to evolve on another planet given the right conditions.

445

00:35:10,648 --> 00:35:19,648

It doesn't necessarily mean they're going to become the same shape and size and look as these grays were looking at, but it is a possibility.

446

00:35:21,649 --> 00:35:26,649

This creature comes from another planet, especially an M small red star. These may not be eyes at all.

447

00:35:26,649 --> 00:35:33,649

They could see in the infrared spectrum and the bright lights that we see on this planet could really mess with their eyes.

448

00:35:33,649 --> 00:35:38,650

So this whole idea here, I've always wondered if those in fact weren't lenses that were just

blocking out light.

449

00:35:39,650 --> 00:35:43,650

The head is big and you're right, the big problem I have is you can't support it on this neck.

450

00:35:43,650 --> 00:35:49,651

These small little thin frail creatures look like they come from a world that has less gravity than the Earth.

451

00:35:49,651 --> 00:35:54,651

Because if they came from a planet with less gravity, this one would really be tugging on them. It would slow them down.

452

00:35:55,651 --> 00:36:02,652

They have less gravity. They'll grow a more elongated thinner. We know that as a principle, just of life on planets.

453

00:36:03,652 --> 00:36:08,652

Obviously the nose being so small and the ears being so small, these are not important senses anymore.

454

00:36:10,652 --> 00:36:12,652

If they've evolved this way, they've evolved without it.

455

00:36:13,652 --> 00:36:18,653

There are other senses that creatures use that we don't use. Radar with bats.

456

00:36:18,653 --> 00:36:26,653

There are fish in the octopi itself that sense its environment up to 90 feet away just by the electromagnetic waves that are around them.

457

00:36:26,653 --> 00:36:30,654

I mean, they could certainly have those types of senses. We simply don't know.

458

00:36:32,654 --> 00:36:38,654

Look at this creature. It's so thin, it looks weak. I can't imagine it doing anything, let alone abducting people.

459

00:36:38,654 --> 00:36:40,655

It doesn't have a physical presence for it.

460

00:36:40,655 --> 00:36:45,655

Maybe these are genetically engineered specifically for this task, this function, like robots.

461

00:36:45,655 --> 00:36:49,655

We just send them out like androids to do whatever they're doing.

462

00:36:49,655 --> 00:36:51,655

I could explain what we're seeing.

463

00:36:52,655 --> 00:36:59,656

David suggests that the graves could actually be a drone, sent long distances to perform specific tasks.

464

00:36:59,656 --> 00:37:08,657

This is a story that we've heard from many witnesses and this is exactly what the Walter Reed Army Hospital autopsy said about the Roswell Grail.

465

00:37:12,657 --> 00:37:18,657

There's no telling what could be possible, but since we don't have anything in our hands to look at and compare,

466

00:37:18,657 --> 00:37:23,658

I mean, I'd love to bring one of these guys into a real lab and have everybody take a look at it.

467

00:37:23,658 --> 00:37:27,658

David, you just said that there's no evidence of extraterrestrial life right now.

468

00:37:27,658 --> 00:37:29,658

We think we may have something here.

469

00:37:31,658 --> 00:37:33,659

Wait a minute, guys, what am I looking at?

470

00:37:33,659 --> 00:37:38,659

This skull was found in a cave northern Mexico, was carbon dated to 900 years ago.

471

00:37:38,659 --> 00:37:43,659

Look at the eye sockets, look at the shape of the head, and look at the neck.

472

00:37:43,659 --> 00:37:46,660

I'm curious, any DNA samples from this?

473

00:37:46,660 --> 00:37:56,660

The mitochondrial DNA is human. They did the nuclear DNA test and could not sequence the father's DNA from the nucleus of the cell.

474

00:37:56,660 --> 00:38:02,661

Are you saying this was a cross with an alien or just a human with a terrible deformity?

475

00:38:02,661 --> 00:38:04,661

That's one theory that's a hybrid.

476

00:38:04,661 --> 00:38:05,661

Prove it.

477

00:38:07,661 --> 00:38:11,661

We need to see what Robert Lindsay has come up with regarding the Star Child skull.

478

00:38:11,661 --> 00:38:18,662

The facial reconstruction that he built may help us verify or disprove the alleged reports of contact with these great beings.

479

00:38:18,662 --> 00:38:22,662

Wow, looks like you've really done something to the Star Child skull.

480

00:38:23,662 --> 00:38:33,663

I had no clue as to what the grays want. If there's any benefit to us as a byproduct, they're actually here for their own personal agenda.

481

00:38:38,663 --> 00:38:45,664

We're at the Cinema Makeup School in Los Angeles, California, where we're meeting with Robert Lindsay, who's a special effects expert.

482

00:38:45,664 --> 00:38:48,664

He's going to help us reconstruct the Star Child skull.

483

00:38:49,664 --> 00:38:57,665

No matter what anybody says, this Star Child skull may be the key in unlocking the mystery to the grays.

484

00:39:08,666 --> 00:39:16,666

Robert? Hey, hey, how you doing? Wow, looks like you've really done something to the Star Child skull here.

485

00:39:18,666 --> 00:39:24,667

When I saw Robert with the Star Child skull, I was absolutely amazed. I thought this thing is truly a gray.

486

00:39:25,667 --> 00:39:29,667

What experience do you bring to accurately creating this face here?

487

00:39:29,667 --> 00:39:36,668

I'm a dental technician, so I know about jaws and muscles of the face that comes with a profession.

488

00:39:36,668 --> 00:39:41,668

That explains why he represented that facial expression the way it was.

489

00:39:41,668 --> 00:39:50,669

Yeah, there's artistic interpretation and he could go either way, but his background helped him create the way this creature's mouth looked, chin looked, and how its teeth met.

490

00:39:52,669 --> 00:40:00,670

The lower jaw is missing. The whole front piece is missing. I had to redo all that, reconstruct it.

491

00:40:00,670 --> 00:40:06,670

I'd be as closely as possible to what I think anatomically it would look like.

492

00:40:06,670 --> 00:40:15,671

And the muscles are calling me no alien in mind. This is more or less what it would look like, feature-wise.

493

00:40:17,671 --> 00:40:26,672

When I first saw this face on the skull, I thought alien. I took a little further look and I saw a real human face behind there.

494

00:40:26,672 --> 00:40:34,672

And if you add hair, you change the skin tone, you put regular eyes in it. I'm seeing a human being with a slightly misshapen skull.

495

00:40:35,672 --> 00:40:38,673

This is beautiful, but it is your creative interpretation.

496

00:40:38,673 --> 00:40:44,673

Sure, you can never be for sure because there are many different variations that are possible.

497

00:40:44,673 --> 00:40:47,673

What do you think about the skull that you're holding?

498

00:40:47,673 --> 00:40:49,673

It's weird.

499

00:40:49,673 --> 00:40:51,674

That's an understatement.

500

00:40:51,674 --> 00:40:59,674

Because it's very symmetrical and you guys had the hypothesis that this disease...

501

00:40:59,674 --> 00:41:00,674

Hydroencephalitis?

502

00:41:00,674 --> 00:41:05,675

Exactly. It's not symmetrical like this and it looks not like an accident.

503

00:41:06,675 --> 00:41:12,675

I've been saying all along that this is just a hydrosophallic deformation and yes, it is symmetrical and that is unusual.

504

00:41:12,675 --> 00:41:15,675

But it can happen. It's rare, but it can happen.

505

00:41:15,675 --> 00:41:19,676

Can you offer up any kind of explanation as to why you think this skull might be shaped like this?

506

00:41:20,676 --> 00:41:25,676

The two opinions is either it's an anomaly or it's some kind of hybrid.

507

00:41:25,676 --> 00:41:27,676

Well, would you say hybrid?

508

00:41:27,676 --> 00:41:28,676

Yeah.

509

00:41:29,676 --> 00:41:41,677

When we first spoke to Lloyd Pie and he presented his theory of the star child, you get the impression that this was a cross-breeding between a straight extraterrestrial and a straight human being.

510

00:41:41,677 --> 00:41:45,678

But now that I'm seeing that representation, it looks too human.

511

00:41:45,678 --> 00:41:50,678

This could well represent a hybrid being bred with a human.

512

00:41:50,678 --> 00:41:56,678

Everybody thinks, oh, a hybrid is simply an alien plus a human, but it's actually not.

513

00:41:56,678 --> 00:42:08,679

Because some of the stories that we've heard are that the extraterrestrials interbreed a hybrid with humans through succeeding generations to create entities that look more and more human.

514

00:42:08,679 --> 00:42:10,680

So this is a hybrid of a hybrid.

515

00:42:10,680 --> 00:42:11,680

Exactly.

516

00:42:11,680 --> 00:42:12,680

Exactly of a hybrid again.

517

00:42:12,680 --> 00:42:19,680

It could be a quarter alien, an eighth alien, a sixteenth of an alien, one sixth of an alien.

518

00:42:19,680 --> 00:42:20,680

That's what you're saying?

519

00:42:20,680 --> 00:42:21,680

Yes, Kevin.

520

00:42:21,680 --> 00:42:32,681

It's enough of an alien that if they were taking over planet Earth, all they need is part alien because it's what's inside there that counts, not what's outside here.

521

00:42:32,681 --> 00:42:35,681

They're taking over the planet Earth, now we're there?

522

00:42:35,681 --> 00:42:36,681

That's one theory.

523

00:42:37,682 --> 00:42:38,682

Bill always has an excuse.

524

00:42:38,682 --> 00:42:40,682

He has a theory to explain what's going on.

525

00:42:40,682 --> 00:42:44,682

What we have going on is a skull that's looking very, very human.

526

00:42:44,682 --> 00:42:48,682

And of course he's going to use that to his advantage and claim, oh, I wanted it to be human.

527

00:42:48,682 --> 00:42:54,683

This proves my point that this isn't a straight up alien human hybrid, but it's generations beyond.

528

00:42:54,683 --> 00:42:56,683

So of course it's going to look human.

529

00:42:56,683 --> 00:42:57,683

Come on.

530

00:42:57,683 --> 00:43:08,684

Over years and years and years and generations of hybridization, it's coming into conformity with what they were looking for, given the design of this creature.

531

00:43:08,684 --> 00:43:13,684

And the plan for hybridization, this could be walking among us today.

532

00:43:16,685 --> 00:43:26,685

I'm not sure if we've proven that the Star Child skull is from a gray or if the gray is mixed with the human race, but it does give us a window into the world of what a gray might actually look like.

533

00:43:26,685 --> 00:43:27,685

It's an interesting concept.

534

00:43:27,685 --> 00:43:34,686

The thought of gray is coming here and abducting people and crossbreeding, but in my opinion, there's just not enough proof.

535

00:43:35,686 --> 00:43:43,687

I know that Kevin doesn't believe in grays and I respect his opinion, but Miriam told us there are multiple species of grays.

536

00:43:43,687 --> 00:43:50,687

Bill and Peggy Foster told us that some grays are performing medical tests on human beings.

537

00:43:50,687 --> 00:43:57,688

And Giorgio showed us that grays have been documented in every culture and in every era since the beginning of time.

538

00:43:58,688 --> 00:44:02,688

I believe that grays are real.

539

00:44:02,688 --> 00:44:09,689

I believe that grays are here and they've been intermingling with human beings for thousands of years.

540

00:44:09,689 --> 00:44:15,689

And the Star Child skull may represent a key piece of the UFO puzzle.
