

1

00:00:00,000 --> 00:00:08,822

It's Area 51 but underwater and it could be hiding a big secret.

2

00:00:08,822 --> 00:00:13,344

We had a radar contact pop up that appeared to be a land mass where no land mass should

3

00:00:13,344 --> 00:00:16,106

exist.

4

00:00:16,106 --> 00:00:19,868

Are these USO's extraterrestrial?

5

00:00:19,868 --> 00:00:23,829

Or are they advanced craft reverse engineered by the US Navy?

6

00:00:23,829 --> 00:00:26,391

Did you feel that was something you were not supposed to see?

7

00:00:26,391 --> 00:00:27,391

Absolutely.

8

00:00:27,391 --> 00:00:30,232

I don't think we're really welcome here guys.

9

00:00:30,232 --> 00:00:35,195

For the first time ever, former employees of this top secret base break their silence.

10

00:00:35,195 --> 00:00:38,757

I've seen an entity twice, but definitely it's alive.

11

00:00:38,757 --> 00:00:45,720

Our investigation takes us to the edge of the Bermuda Triangle.

12

00:00:45,720 --> 00:00:49,882

And possible proof of an alien civilization.

13

00:00:49,882 --> 00:00:51,563

Right there, we're over something.

14

00:00:51,563 --> 00:00:54,324

We're over something Mike.

15

00:00:54,324 --> 00:01:17,535

This is case number 59106, underwater area 51.

16

00:01:17,535 --> 00:01:23,618

We're in the Bahamas now investigating a UFO connection around a real American military

17

00:01:23,618 --> 00:01:27,540

installation called Autech.

18

00:01:27,540 --> 00:01:31,782

Autech stands for the Atlantic Undersea Test and Evaluation Center.

19

00:01:31,782 --> 00:01:34,663

It was opened in 1967.

20

00:01:34,663 --> 00:01:38,525

It's on Andros Island, a remote location in the Bahamas.

21

00:01:38,525 --> 00:01:41,166

It sits on what's called the Tongue of the Ocean.

22

00:01:41,166 --> 00:01:46,669

This is a deep ocean basin that's roughly 110 nautical miles long, 20 nautical miles

23

00:01:46,669 --> 00:01:50,271

wide and reaches depths of 6,000 feet.

24

00:01:50,911 --> 00:01:57,634

It's a perfect spot for testing new top secret weapons, submarines and other exotic underwater

25

00:01:57,634 --> 00:01:58,635

craft.

26

00:01:58,635 --> 00:02:03,997

Is it a coincidence that ever since Autech was constructed UFO and USO reports in the

27

00:02:03,997 --> 00:02:06,158

area have skyrocketed?

28

00:02:06,158 --> 00:02:11,841

And it's even stranger that Autech happens to be located on the cusp of the Bermuda Triangle.

29

00:02:21,286 --> 00:02:27,889

We're going to Autech, the Atlantic Undersea Testing and Evaluation Center.

30

00:02:27,889 --> 00:02:30,370

This is the Navy's area 51.

31

00:02:30,370 --> 00:02:33,652

A lot of people haven't even heard of Autech.

32

00:02:33,652 --> 00:02:35,613

It's so top secret.

33

00:02:35,613 --> 00:02:40,015

And we're lucky we're actually going to be able to talk to a few former Autech employees

34

00:02:40,015 --> 00:02:46,378

who are coming forward for the first time with their own USO sightings.

35

00:02:46,378 --> 00:02:48,779

From what we know, Autech has three test ranges.

36

00:02:48,779 --> 00:02:53,181

They carry out integrated three-dimensional aerospace and hydrospace trajectory measurements

37

00:02:53,181 --> 00:02:56,422

of weapons, acoustic and sonar technology.

38

00:02:56,422 --> 00:03:01,625

They even set up an electronic warfare threat simulator, essentially a place to conduct

39

00:03:01,625 --> 00:03:03,346

undersea war games.

40

00:03:05,347 --> 00:03:09,949

Well, you know, I don't see Autech as being quite the secret that area 51 is.

41

00:03:09,949 --> 00:03:12,390

I mean, after all, they have a website.

42

00:03:12,390 --> 00:03:16,872

Now maybe this is one of those right before your very eyes type of deals.

43

00:03:16,952 --> 00:03:19,474

Autech at all is something very, very secret.

44

00:03:20,994 --> 00:03:25,316

And I've always wondered, since this is near the Bermuda Triangle and since there is so

45

00:03:25,316 --> 00:03:33,640

much USO and UFO activity, is there a relationship between USO and UFO activity and Autech, this

46

00:03:33,640 --> 00:03:36,522

center on the edge of the Bermuda Triangle?

47

00:03:47,527 --> 00:03:53,810

My name is Kurt Rowlett.

48

00:03:53,810 --> 00:03:57,172

I'm a former Autech employee.

49

00:03:57,172 --> 00:04:01,374

On one evening, we pulled out of the dock here.

50

00:04:01,374 --> 00:04:07,777

Suddenly, out of nowhere, we had a radar contact pop up directly in front of our ship that

51

00:04:07,777 --> 00:04:12,979

appeared to be a land mass where no land mass should exist.

52

00:04:12,979 --> 00:04:16,661

Kurt Rowlett was an employee of Autech back in 1985.

53

00:04:16,661 --> 00:04:20,903

But years before that, in 1980, he was in the Coast Guard where he worked in the vicinity

54

00:04:20,903 --> 00:04:26,426

of Autech and he witnessed what he now described as a gigantic USO coming out of the water.

55

00:04:29,147 --> 00:04:32,548

What could you tell us about this night that you encountered this object?

56

00:04:32,548 --> 00:04:35,870

Back to my Coast Guard days, we pulled away from the Autech dock.

57

00:04:35,870 --> 00:04:40,552

It was well after nightfall and I met the helm watch and suddenly the officer of the

58

00:04:40,552 --> 00:04:48,116

watch tells me, hey, I've got a radar contact showing land dead ahead about three miles.

59

00:04:48,116 --> 00:04:52,118

That's something that's patently impossible because we're in the tongue of the ocean and

60

00:04:52,118 --> 00:04:53,839

it's a thousand fathoms deep.

61

00:04:53,839 --> 00:04:59,962

Is it possible this could have been something related to the military?

62

00:04:59,962 --> 00:05:01,362

I don't think so.

63

00:05:01,362 --> 00:05:05,044

This is more along the lines of the size of an island.

64

00:05:05,044 --> 00:05:07,725

Now land mass three miles wide is huge.

65

00:05:07,725 --> 00:05:13,368

So to put this into perspective, the island of Manhattan at its widest point is 2.3 miles.

66

00:05:13,368 --> 00:05:18,250

So we're talking about a land mass wider than Manhattan.

67

00:05:18,250 --> 00:05:23,533

Subsequently at the same time, the compass began to swing wildly, completely out of control.

68

00:05:23,533 --> 00:05:24,773

Couldn't believe my eyes.

69

00:05:24,773 --> 00:05:26,734

You know, what am I looking at?

70

00:05:26,734 --> 00:05:27,735

What's happening?

71

00:05:27,735 --> 00:05:28,735

Am I in any sort of danger?

72

00:05:28,735 --> 00:05:30,856

So the compass is going wild.

73

00:05:30,856 --> 00:05:35,579

It was going wild when it shouldn't be because it's a calibrated compass and it's steadfast,

74

00:05:35,579 --> 00:05:36,579

you know.

75

00:05:36,579 --> 00:05:38,580

Is it seen with eyes and binoculars?

76

00:05:38,580 --> 00:05:39,581

Not a thing.

77

00:05:39,581 --> 00:05:40,581

No visual contact?

78

00:05:40,581 --> 00:05:45,463

Not a thing, but it was certainly entered into the ship's log as a legitimate incident

79

00:05:45,463 --> 00:05:46,464

that happened on board.

80

00:05:46,464 --> 00:05:53,547

And that's something that doesn't go into the log unless the captain takes it seriously.

81

00:05:53,547 --> 00:05:55,188

We've heard this sort of thing before.

82

00:05:55,188 --> 00:05:59,190

We talked with Ray Bowyer who saw two giant objects over the English Channel.

83

00:05:59,190 --> 00:06:02,752

Over at 4,000 feet, I could see the objects.

84

00:06:02,752 --> 00:06:03,752

Probably how big.

85

00:06:03,752 --> 00:06:04,753

Any idea?

86

00:06:04,753 --> 00:06:06,874

At least a mile across.

87

00:06:06,874 --> 00:06:12,356

We talked with Charles Duboc, the French pilot who saw a huge disk over Paris.

88

00:06:12,356 --> 00:06:14,037

The dimension was huge.

89

00:06:14,037 --> 00:06:15,518

Absolutely huge.

90

00:06:15,518 --> 00:06:21,681

We're getting a more complete picture with this count of Kerr-Rollet that these objects

91

00:06:21,681 --> 00:06:27,203

can not only be in the skies, but may also be able to descend into the water and surface

92

00:06:27,203 --> 00:06:32,566

and be caught on radar.

93

00:06:32,566 --> 00:06:34,687

So how long was this landmass there?

94

00:06:34,687 --> 00:06:39,369

Well it stayed on the screen for about three minutes and at that point it started to actually

95

00:06:39,369 --> 00:06:42,010

literally dissolve off of the radar screen.

96

00:06:42,010 --> 00:06:45,652

The exact same time, I get the compass back.

97

00:06:45,652 --> 00:06:51,775

Would you identify it as an unidentified submerged object coming up and then dropping again?

98

00:06:51,775 --> 00:06:55,737

That would make the most sense because a radar only picks up objects that are actually on

99

00:06:55,737 --> 00:06:57,018

the surface of the sea.

100

00:06:57,018 --> 00:07:01,940

Essentially, it would have to have been below the ocean, above sea level, and then dropping

101

00:07:01,940 --> 00:07:04,661

below sea level again.

102

00:07:04,661 --> 00:07:06,622

And this was right here at the tongue of the ocean.

103

00:07:06,622 --> 00:07:11,104

About halfway between the Autech base and the north end of the island here.

104

00:07:11,104 --> 00:07:15,186

Kerr-Rollet tells a great story and he's a very credible witness, but this could possibly

105

00:07:15,186 --> 00:07:20,149

be explained by a radar malfunction, a top secret submarine that the Navy was testing,

106

00:07:20,149 --> 00:07:23,430

or even an experiment with a massive false radar target.

107

00:07:23,430 --> 00:07:24,911

How rare is an event like this?

108

00:07:24,911 --> 00:07:27,672

I would say pretty darn rare.

109

00:07:27,672 --> 00:07:34,756

In object one to three miles wide in an area as restricted as Autech, it means Autech had

110

00:07:34,756 --> 00:07:36,477

to know about it.

111

00:07:36,477 --> 00:07:42,599

Perhaps it was a craft from Autech itself, or perhaps it was from somewhere else.

112

00:07:42,599 --> 00:07:47,962

The fact is he's not the first Autech employee to witness an unexplainable craft in the tongue

113

00:07:47,962 --> 00:07:48,522

of the ocean.

114

00:07:58,527 --> 00:08:05,370

I was standing on the ramp of a torpedo retriever boat, and that's when I saw the object rise

115

00:08:05,370 --> 00:08:06,371

up from the depths.

116

00:08:06,371 --> 00:08:11,133

I really didn't know what to think of it, and it could be something not from this world.

117

00:08:11,133 --> 00:08:17,936

We're about to meet David Nalcom, a former Autech employee who had a really eerie and

118

00:08:17,936 --> 00:08:25,060

strange experience one day when he was sent out to pick up torpedoes, but found himself

119

00:08:25,060 --> 00:08:28,581

staring at something else.

120

00:08:28,581 --> 00:08:34,024

My job title was a weapons technician, and our job was to go out and collect the torpedoes

121

00:08:34,024 --> 00:08:39,827

and missiles after they were fired and recover them, bring them back into the base.

122

00:08:39,827 --> 00:08:46,270

One particular day, probably the winter of 72 to 73, we were in the middle of a test

123

00:08:46,270 --> 00:08:52,953

and recovering of one of the torpedoes, and I saw a submerged object that rose out at

124

00:08:53,033 --> 00:08:56,955

depth and came into my field of vision.

125

00:08:56,955 --> 00:09:01,957

And just as quickly as it rose, it seemed to just vanish.

126

00:09:01,957 --> 00:09:05,239

Can you describe before us?

127

00:09:05,239 --> 00:09:10,081

The best description I could give you would be cylinders, a collection of pipes.

128

00:09:10,081 --> 00:09:14,804

I really should say I didn't get a clear sense of the lengths of this thing.

129

00:09:14,804 --> 00:09:17,805

I actually don't believe I saw either end of this.

130

00:09:17,805 --> 00:09:20,046

You have a limited visibility in the water.

131

00:09:20,046 --> 00:09:21,647

So this could have been huge.

132

00:09:21,687 --> 00:09:28,450

This could very well be the same craft that Kurt Rowlett saw on his radar screen, which

133

00:09:28,450 --> 00:09:31,572

he said was one to three miles wide.

134

00:09:31,572 --> 00:09:37,094

And just like Rowlett sighting, the object Malcolm saw disappeared within seconds.

135

00:09:37,094 --> 00:09:42,057

I'm sure you see cylinders under the water often in torpedoes and submarines.

136

00:09:42,057 --> 00:09:44,258

What made these cylinders so different from everything else?

137

00:09:44,258 --> 00:09:45,378

They were completely different.

138

00:09:45,378 --> 00:09:49,780

The cylinders that I would have been familiar with would have been nuclear submarines and

139

00:09:49,780 --> 00:09:50,981

the weapons they fired.

140

00:09:50,981 --> 00:09:52,542

This was neither.

141

00:09:52,542 --> 00:09:57,264

Dave Malcolm was an Autech employee and an expert in conventional underwater craft.

142

00:09:57,264 --> 00:10:01,866

So when he sees something that he can't identify under the water, it speaks volumes as to how

143

00:10:01,866 --> 00:10:03,427

odd this really was.

144

00:10:03,427 --> 00:10:08,469

However, I still don't think this was an extraterrestrial craft.

145

00:10:08,469 --> 00:10:10,150

Did it physically break the surface?

146

00:10:10,150 --> 00:10:11,351

Never broke the surface.

147

00:10:11,351 --> 00:10:13,512

Did you see any turbulence around it?

148

00:10:13,512 --> 00:10:14,352

Splashes?

149

00:10:14,352 --> 00:10:15,353

Dead cop.

150

00:10:15,353 --> 00:10:18,674

Was that rise and fall something that you typically see in something like a submarine?

151

00:10:18,674 --> 00:10:23,837

The sub would have a tendency to come up on a more gradual incline.

152

00:10:23,837 --> 00:10:28,279

Did we have anything back then to your knowledge that could have moved back quickly under water?

153

00:10:28,279 --> 00:10:31,480

To my knowledge, at that time, we didn't have anything that could move like that.

154

00:10:31,480 --> 00:10:34,322

It was something in the water that, in my opinion, at that time shouldn't have been

155

00:10:34,322 --> 00:10:40,325

in the water.

156

00:10:40,325 --> 00:10:45,647

If Autech was testing something out there near your vessel, wouldn't they notify crews

157

00:10:45,647 --> 00:10:48,649

and other ships out there that they were doing some testing?

158

00:10:48,649 --> 00:10:49,649

Not necessarily.

159

00:10:49,649 --> 00:10:51,850

A lot had to do with the need to know.

160

00:10:51,850 --> 00:10:56,252

So if you didn't have a specific need to know to accomplish your job function, you weren't

161

00:10:56,252 --> 00:10:57,613

told about it.

162

00:10:57,613 --> 00:11:00,334

Did you feel that was something you were not supposed to see?

163

00:11:00,334 --> 00:11:09,338

Absolutely.

164

00:11:09,338 --> 00:11:14,421

Since Autech appears to be more accessible than Area 51, and since, according to their

165

00:11:14,421 --> 00:11:19,423

website, they offer public tours, let's drive right up to the front gates of Autech

166

00:11:19,423 --> 00:11:22,425

and see if we can get in.

167

00:11:22,425 --> 00:11:27,427

Gentlemen, we're here.

168

00:11:27,427 --> 00:11:30,429

This is Autech, eh?

169

00:11:30,429 --> 00:11:34,110

This is really it.

170

00:11:34,110 --> 00:11:35,951

We have called them.

171

00:11:35,951 --> 00:11:37,472

We've emailed them.

172

00:11:37,472 --> 00:11:38,673

We've written them.

173

00:11:38,673 --> 00:11:42,074

We've asked for the public information officer, director of public affairs.

174

00:11:42,074 --> 00:11:43,835

We've contacted the Navy.

175

00:11:43,835 --> 00:11:45,716

We've even tried to contact the base commander.

176

00:11:45,716 --> 00:11:47,557

And you know what their response was?

177

00:11:47,557 --> 00:11:48,557

Nothing.

178

00:11:48,557 --> 00:11:52,039

Nobody's going to ask about the superweapons that are going to defeat anybody in the Persian

179

00:11:52,039 --> 00:11:53,039

Gulf.

180

00:11:53,039 --> 00:11:59,082

What I'd like to do is just walk right up to the gate and say, hey, where's the UFO?

181

00:11:59,082 --> 00:12:02,764

Hi, we're here.

182

00:12:02,764 --> 00:12:03,765

Show us the ET.

183

00:12:03,765 --> 00:12:06,766

Are we trying to get us busted here?

184

00:12:06,766 --> 00:12:10,688

There's a helicopter, guys.

185

00:12:11,688 --> 00:12:15,210

You can tell he's tilting this way.

186

00:12:15,210 --> 00:12:16,731

It's slowing down.

187

00:12:16,731 --> 00:12:19,732

This is actually a little creepy.

188

00:12:19,732 --> 00:12:25,735

I don't think we're really welcome here, guys.

189

00:12:25,735 --> 00:12:36,340

Yeah, he's checking us out.

190

00:12:36,340 --> 00:12:38,501

We made it to the front gates of Autech.

191

00:12:38,501 --> 00:12:40,182

Our helicopter flies over.

192

00:12:40,182 --> 00:12:42,143

A police car pulls up.

193

00:12:42,143 --> 00:12:43,784

Maybe a coincidence.

194

00:12:43,784 --> 00:12:47,786

Maybe not.

195

00:12:47,786 --> 00:12:50,787

So obviously we really can't go much beyond this point.

196

00:12:50,787 --> 00:12:52,868

Those signs are very specific.

197

00:12:52,868 --> 00:12:55,429

Nobody allowed on the base for any reason whatsoever.

198

00:12:55,429 --> 00:12:58,631

Prudence might be the better part of valor.

199

00:12:58,631 --> 00:13:01,672

And we should probably pack up and leave.

200

00:13:01,672 --> 00:13:03,473

We've seen the same from the land side.

201

00:13:03,473 --> 00:13:04,954

Now let's see it from the water side.

202

00:13:09,516 --> 00:13:12,517

I'm Mike Hornby, and there's definitely strange things going

203

00:13:12,517 --> 00:13:14,518

on above the water and below the water at Autech.

204

00:13:21,522 --> 00:13:24,523

Mike Hornby is a dive master with 13 years of experience

205

00:13:24,523 --> 00:13:26,524

diving the waters around Autech.

206

00:13:26,524 --> 00:13:29,526

He's going to take us to the ocean side of Autech

207

00:13:29,526 --> 00:13:32,527

and take me diving to find what's down there.

208

00:13:33,527 --> 00:13:36,529

Can you tell us some experiences you've had in these waters?

209

00:13:37,529 --> 00:13:40,531

I have noted on numerous occasions a weird presence of

210

00:13:40,531 --> 00:13:43,532

lights that did not behave in what I would call

211

00:13:43,532 --> 00:13:46,534

a consistent pattern.

212

00:13:46,534 --> 00:13:49,535

Some of the speed of which I've seen these move

213

00:13:49,535 --> 00:13:53,537

has maybe stopped and paused about what it may be.

214

00:13:53,537 --> 00:13:57,539

Not only has Mike Hornby seen UFOs in USOs,

215

00:13:57,539 --> 00:14:01,541

he's seen something strange connected to Autech.

216

00:14:02,541 --> 00:14:06,543

On this particular site, I had to abandon using

217

00:14:06,543 --> 00:14:09,545

an electronic compass because every time I went into

218

00:14:09,545 --> 00:14:12,546

the water around the site, I found that I was getting

219

00:14:12,546 --> 00:14:14,547

inconsistent readings.

220

00:14:14,547 --> 00:14:17,549

Oftentimes it would cut in and cut out.

221

00:14:17,549 --> 00:14:20,550

When I got out of the water, I found that it worked properly.

222

00:14:20,550 --> 00:14:22,551

First, Kurt Rowlett mentions a malfunctioning compass

223

00:14:22,551 --> 00:14:24,552

during his UFO sighting.

224

00:14:24,552 --> 00:14:26,553

And then Mike Hornby tells us that his compass goes

225

00:14:26,553 --> 00:14:28,554

haywire whenever he's diving in the water.

226

00:14:28,554 --> 00:14:31,555

We are, after all, on the edge of the Bermuda Triangle

227

00:14:31,555 --> 00:14:34,557

where compass malfunctions happen all the time.

228

00:14:35,557 --> 00:14:37,558

Is this explainable in any way?

229

00:14:37,558 --> 00:14:40,560

There is presence of cables that are in the water.

230

00:14:42,561 --> 00:14:44,561

Are these power cables that you're talking about

231

00:14:44,561 --> 00:14:46,562

or are these like steel cables?

232

00:14:46,562 --> 00:14:50,564

These are sheathed steel-wrapped cables.

233

00:14:50,564 --> 00:14:53,566

They extend from the getting of the dive sites

234

00:14:53,566 --> 00:14:56,567

from the shallow waters to the bottom of the water.

235

00:14:56,567 --> 00:14:58,568

Getting other dive sites from the shallow waters

236

00:14:58,568 --> 00:15:00,569

coming from Ottech and continue out.

237

00:15:02,570 --> 00:15:04,571

Do we have any theories on what's on the other end

238

00:15:04,571 --> 00:15:07,573

of these cables or what these cables are used for?

239

00:15:07,573 --> 00:15:09,573

You cannot tell, at least I cannot tell,

240

00:15:09,573 --> 00:15:12,575

by looking at them what their purpose is.

241

00:15:20,579 --> 00:15:23,580

There's a lot of different theories as to what these cables

242

00:15:23,580 --> 00:15:26,582

can be. I mean, maybe they're used for sonar testing.

243

00:15:26,582 --> 00:15:29,583

Perhaps they're communication cables.

244

00:15:29,583 --> 00:15:32,584

Maybe there's some kind of craft tethered to the end of them.

245

00:15:33,585 --> 00:15:35,586

We need to trace the path of these cables

246

00:15:35,586 --> 00:15:37,587

and find out where they're coming from.

247

00:15:37,587 --> 00:15:40,588

And that's why Mike is trying to get us as close to Ottech

248

00:15:40,588 --> 00:15:41,589

as possible.

249

00:15:42,589 --> 00:15:45,591

So how close to Ottech will we actually be getting?

250

00:15:45,591 --> 00:15:48,592

Most as I get you is right along the breakwater.

251

00:15:48,592 --> 00:15:50,593

At what point do they get nervous?

252

00:15:50,593 --> 00:15:52,594

As soon as you enter through this gate.

253

00:15:52,594 --> 00:15:53,595

Right here?

254

00:15:53,595 --> 00:15:55,596

Yes. They have somebody stationed right down at the wharf.

255

00:15:55,596 --> 00:15:58,597

The minute somebody comes in there that's not authorized,

256

00:15:58,597 --> 00:16:00,598

the information goes out.

257

00:16:01,598 --> 00:16:02,599

So what's that sign say?

258

00:16:02,599 --> 00:16:05,600

Persp~~ect~~cted area, keep out authorized personnel only.

259

00:16:05,600 --> 00:16:08,602

It's a lot like what we read at area 51.

260

00:16:08,602 --> 00:16:10,603

Exactly like area 51.

261

00:16:12,604 --> 00:16:14,605

Now what about flying over Ottech? Can you fly over it?

262

00:16:14,605 --> 00:16:17,606

Well, it's an MOA. So you're not supposed to.

263

00:16:17,606 --> 00:16:21,608

And certainly when they have their operations in effect,

264

00:16:21,608 --> 00:16:24,609

you don't want to be doing that because they're firing missiles off.

265

00:16:24,609 --> 00:16:25,610

Sure.

266

00:16:25,610 --> 00:16:29,612

An MOA is an acronym for Military Operations Area,

267

00:16:29,612 --> 00:16:34,614

indicating a restricted airspace exclusively for military aircraft.

268

00:16:34,614 --> 00:16:37,616

Just like area 51, you can't get there by plane,

269

00:16:37,616 --> 00:16:38,616

you can't get there by land,

270

00:16:38,616 --> 00:16:42,618

and right now we're as close as we can get to Ottech by water.

271

00:16:51,622 --> 00:16:53,623

We follow the cables all the way from Ottech,

272

00:16:53,623 --> 00:16:55,624

and it's starting to get deep.

273

00:16:55,624 --> 00:16:58,626

I have to wonder what will be at the end of the line.

274

00:16:58,626 --> 00:16:59,626

We're over something, Mike.

275

00:16:59,626 --> 00:17:00,627

Stop.

276

00:17:00,627 --> 00:17:01,627

Right here. We're over something.

277

00:17:01,627 --> 00:17:02,628

Okay.

278

00:17:02,628 --> 00:17:03,628

Drop it right there.

279

00:17:06,630 --> 00:17:10,631

We have three guys who have seen strange objects in the waters near Ottech.

280

00:17:10,631 --> 00:17:15,634

This cable may have something to do with what's going on around here.

281

00:17:16,634 --> 00:17:18,635

This is where we're going to descend into the water.

282

00:17:18,635 --> 00:17:21,637

We'll likely encounter sharks as we're descending,

283

00:17:21,637 --> 00:17:24,638

and then once we get it in down at the bottom,

284

00:17:24,638 --> 00:17:27,640

we're going to be swimming towards a big coral mound.

285

00:17:27,640 --> 00:17:29,641

We're going over the side of the coral mound,

286

00:17:29,641 --> 00:17:32,642

and we will in fact be picking up the cables.

287

00:17:43,647 --> 00:17:47,649

So the plan is we'll go down to about 120 feet,

288

00:17:47,649 --> 00:17:50,651

and then out about 300 feet to the actual tongue of the ocean.

289

00:17:50,651 --> 00:17:52,652

Visibility is perfect.

290

00:17:52,652 --> 00:17:54,653

The seas are calm,

291

00:17:54,653 --> 00:17:55,653

and with our full tanks,

292

00:17:55,653 --> 00:17:58,654

we should be able to last about an hour underwater.

293

00:18:05,658 --> 00:18:06,658

We found the cable.

294

00:18:06,658 --> 00:18:08,659

It was thinner than I thought it was going to be,

295

00:18:08,659 --> 00:18:11,661

but it really is odd seeing a cable coming from Ottech

296

00:18:11,661 --> 00:18:14,662

and heading out into the open sea.

297

00:18:15,663 --> 00:18:17,664

According to Mike's story,

298

00:18:17,664 --> 00:18:20,665

his compass went haywire somewhere around here.

299

00:18:20,665 --> 00:18:23,666

Thankfully our compasses and our dive computers are working fine.

300

00:18:26,668 --> 00:18:29,669

So we get out to the edge of the tongue of the ocean,

301

00:18:29,669 --> 00:18:32,671

and we see that the cable disappears into the abyss.

302

00:18:32,671 --> 00:18:34,672

We're already at 120 feet,

303

00:18:34,672 --> 00:18:37,673

and there's no way we can see the bottom.

304

00:18:44,676 --> 00:18:46,677

What did you say?

305

00:18:46,677 --> 00:18:48,678

Well, we went to the very edge.

306

00:18:48,678 --> 00:18:50,679

It's like flying over the Grand Canyon.

307

00:18:50,679 --> 00:18:52,680

You can't see the bottom.

308

00:18:53,681 --> 00:18:56,682

We follow the cables all the way to the very edge.

309

00:18:56,682 --> 00:18:59,684

You just have to wonder where they go.

310

00:19:06,687 --> 00:19:09,688

The cable runs all the way from there, from Ottech,

311

00:19:09,688 --> 00:19:11,689

all the way to the tongue of the ocean.

312

00:19:11,689 --> 00:19:13,690

So it's thousands and thousands of feet,

313

00:19:13,690 --> 00:19:15,691

depending on how deep that cable goes.

314

00:19:15,691 --> 00:19:16,692

Right.

315

00:19:16,692 --> 00:19:19,693

And who knows how long the cable runs along the ocean floor.

316

00:19:19,693 --> 00:19:20,694

Exactly.

317

00:19:20,694 --> 00:19:22,695

It could be a massive undertaking.

318

00:19:22,695 --> 00:19:24,696

Ottech is built on the tongue of the ocean,

319

00:19:24,696 --> 00:19:26,697

which is 6,000 feet deep,

320

00:19:26,697 --> 00:19:28,698

one of the deepest spots in the world.

321

00:19:28,698 --> 00:19:30,698

A suitable place for something to hide,

322

00:19:30,698 --> 00:19:33,700

or for something secret to be tested.

323

00:19:33,700 --> 00:19:36,701

Even satellites can't spot what's down there.

324

00:19:36,701 --> 00:19:38,702

Now this cable adds to the mystery of Ottech

325

00:19:38,702 --> 00:19:40,703

just a little bit, I think.

326

00:19:40,703 --> 00:19:42,704

Yeah, you said it.

327

00:19:43,705 --> 00:19:45,706

What's interesting about the cable we found

328

00:19:45,706 --> 00:19:48,707

is that it doesn't look to be an underwater power cable.

329

00:19:48,707 --> 00:19:51,709

They're usually upwards of 8 inches in diameter.

330

00:19:51,709 --> 00:19:55,710

This cable is more likely some form of a communications cable,

331

00:19:55,710 --> 00:19:58,712

which is closer to 1.5 inches in diameter.

332

00:19:58,712 --> 00:20:03,714

But what's strange is why is it going into a 6,000 foot deep gorge?

333

00:20:03,714 --> 00:20:13,719

We physically tried to get into Ottech,

334

00:20:13,719 --> 00:20:15,720

but it's impossible.

335

00:20:15,720 --> 00:20:17,721

So we found someone who has another way in.

336

00:20:17,721 --> 00:20:23,724

I've remote viewed for every major intelligence agency in America.

337

00:20:23,724 --> 00:20:28,726

I did see some USOs that were operating within the vicinity of Ottech.

338

00:20:29,727 --> 00:20:32,728

Joseph McMonigal is a psychic spy

339

00:20:32,728 --> 00:20:36,730

employed by the US military for the past 30 years.

340

00:20:36,730 --> 00:20:40,732

He did remote viewing for the military during the Vietnam War

341

00:20:40,732 --> 00:20:44,734

and used his skills to predict the development of enemy weaponry

342

00:20:44,734 --> 00:20:46,735

during the Cold War.

343

00:20:46,735 --> 00:20:50,737

He's won the Army's very prestigious Region of Merit Award.

344

00:20:52,738 --> 00:20:56,740

Some of the things that I remote viewed about Ottech

345

00:20:56,740 --> 00:20:58,741

were somewhat different.

346

00:20:58,741 --> 00:21:02,743

Definitely not some technology that I'm aware of that we have.

347

00:21:02,743 --> 00:21:04,744

Remote viewing is a psychic ability.

348

00:21:04,744 --> 00:21:07,745

For example, a remote viewer standing in Washington, DC

349

00:21:07,745 --> 00:21:10,746

can view a top secret military installation in Russia

350

00:21:10,746 --> 00:21:13,748

and gather information about what's happening there.

351

00:21:13,748 --> 00:21:17,750

In the 1970s, the US military started a top secret remote viewing program

352

00:21:17,750 --> 00:21:21,752

called Stargate, where they recruited actual psychics

353

00:21:21,752 --> 00:21:23,753

to remote view enemy territory,

354

00:21:23,753 --> 00:21:27,755

and Joseph McMonigal was the first psychic to be recruited.

355

00:21:27,755 --> 00:21:31,756

Can you give us any details, anything specific about what you saw?

356

00:21:31,756 --> 00:21:37,759

These particular objects that I've seen, they're constructed of some metallic form.

357

00:21:37,759 --> 00:21:39,760

They have pulsing lights on them.

358

00:21:39,760 --> 00:21:43,762

They're making erratic moves very quickly in the water.

359

00:21:43,762 --> 00:21:47,764

The kinds of things that we just don't have the capacity to build.

360

00:21:48,765 --> 00:21:55,768

He sees strange objects, anomalous objects out there hovering in the water, waiting,

361

00:21:55,768 --> 00:21:57,769

perhaps watching.

362

00:21:57,769 --> 00:21:58,769

These are not ours.

363

00:21:58,769 --> 00:22:00,770

These are probably not human.

364

00:22:02,771 --> 00:22:09,775

When you remote view these, were you able to perceive any entities inside these crafts?

365

00:22:09,775 --> 00:22:11,776

I've seen an entity twice.

366

00:22:11,776 --> 00:22:14,777

Do you detect something mechanical in these figures?

367

00:22:14,777 --> 00:22:16,778

No, definitely it's alive.

368

00:22:18,779 --> 00:22:19,779

Could you describe it?

369

00:22:19,779 --> 00:22:25,782

I can give you a description of a three-fingered hand that's somewhat wrinkled.

370

00:22:26,783 --> 00:22:33,786

I've seen what I call skin suits or the environmental suits that I think they wear over their normal body.

371

00:22:35,787 --> 00:22:39,789

McMonigal is telling us that the beings he remote viewed had three fingers.

372

00:22:39,789 --> 00:22:43,791

This corresponds to what eyewitnesses told us a couple of months ago

373

00:22:43,791 --> 00:22:46,792

when they encountered extraterrestrial.

374

00:22:46,792 --> 00:22:50,794

So now you have to ask, are there aliens at Fletek?

375

00:22:58,798 --> 00:23:03,801

The actual USOs that I perceived that were adjacent to a very close to Autech

376

00:23:03,801 --> 00:23:07,802

contained possible entities that were not human.

377

00:23:08,803 --> 00:23:11,804

Ms. Curious, what about the Autech base itself?

378

00:23:11,804 --> 00:23:15,806

Is there anything you can tell us about what you reviewed at Autech?

379

00:23:15,806 --> 00:23:17,807

Maybe what they're actually doing there?

380

00:23:17,807 --> 00:23:23,810

I do know what's going on there, but much of it is classified, so I would never disclose it.

381

00:23:23,810 --> 00:23:26,812

Is there anything happening with respect to extraterrestrials at Autech?

382

00:23:26,812 --> 00:23:28,812

It's that I can't talk about it.

383

00:23:28,812 --> 00:23:29,813

Okay.

384

00:23:30,813 --> 00:23:34,815

Now we need to find someone who can break it all down for us.

385

00:23:34,815 --> 00:23:37,817

Who's doing what and why.

386

00:23:46,821 --> 00:23:47,822

How are you, Max?

387

00:23:47,822 --> 00:23:56,826

Max and million de lafayette is a French ufologist who's written numerous encyclopedias about UFOs, extraterrestrials and time travel.

388

00:23:57,826 --> 00:24:05,830

You said you know the secret from your sources of what Autech is and what is going on at Autech.

389

00:24:05,830 --> 00:24:13,834

Government is saying that they conduct exotic, aquatic, sophisticated weapon.

390

00:24:13,834 --> 00:24:15,835

It's much more than that.

391

00:24:15,835 --> 00:24:21,838

It's a nest for contact with alien.

392

00:24:21,838 --> 00:24:30,842

Between the 17th and the 22nd of September 1958, during the administration of...

393

00:24:30,842 --> 00:24:31,843

President Eisenhower.

394

00:24:31,843 --> 00:24:32,843

...Matinhaber.

395

00:24:32,843 --> 00:24:33,844

They had a meeting.

396

00:24:33,844 --> 00:24:35,845

When you say they had a meeting, who was they?

397

00:24:35,845 --> 00:24:41,847

They were extraterrestrials from outer space, from different dimensions.

398

00:24:41,847 --> 00:24:50,852

According to Max and million, back in 1958, U.S. government officials had a secret meeting with extraterrestrials and the very next year,

399

00:24:50,852 --> 00:24:53,853

the order to build Autech was given.

400

00:24:53,853 --> 00:24:58,856

The timing of both events strikes me as more than coincidental.

401

00:24:58,856 --> 00:25:06,859

They told them, we, the alien, we are going to give you some remarkable secrets in exchange.

402

00:25:06,859 --> 00:25:10,861

Don't interfere with us when we appear in your skies.

403

00:25:10,861 --> 00:25:17,865

If we have free access to your world, you have access to very advanced technology.

404

00:25:18,865 --> 00:25:28,870

Max and million is telling us some pretty unbelievable things, but I'm willing to bet that there's not a single scientist in the world that will go on record and back him up.

405

00:25:28,870 --> 00:25:31,871

I need to know what your sources are for this information.

406

00:25:31,871 --> 00:25:33,872

I give you my sources.

407

00:25:33,872 --> 00:25:36,874

Probably this is the last time you'll see me.

408

00:25:36,874 --> 00:25:39,875

Anybody else will see me.

409

00:25:39,875 --> 00:25:51,881

Autech, it's a laboratory of extremely exotic avant-garde, multi-dimensional, multi-parallel, universe technology.

410

00:25:51,881 --> 00:25:57,884

The U.S. military working on and perhaps working with alien technology.

411

00:25:57,884 --> 00:26:01,886

Wherever you heard this before, Area 51.

412

00:26:01,886 --> 00:26:07,889

Is Autech something like a portal where there are doorways into other dimensions?

413

00:26:07,889 --> 00:26:10,890

It's an entrance and exit to multiple universes.

414

00:26:10,890 --> 00:26:11,891

A gateway.

415

00:26:11,891 --> 00:26:12,891

A gateway.

416

00:26:12,891 --> 00:26:18,894

Well, there is a theory about this, about Autech, the energy and the alien and the program.

417

00:26:18,894 --> 00:26:22,896

They built their Autech on the top of Atlantis.

418

00:26:22,896 --> 00:26:27,898

As you know, the shape of Earth shifted many, many times.

419

00:26:27,898 --> 00:26:31,900

Atlantis is dispersed in so many places in the world.

420

00:26:31,900 --> 00:26:41,905

Wait, wait, wait. So the theory then is that somehow Atlantis was part of a unicontinent, which then separated when the tectonic plate shifted.

421

00:26:41,905 --> 00:26:42,905

Correct.

422

00:26:42,905 --> 00:26:45,907

This part of what Maximilian says is based in science.

423

00:26:45,907 --> 00:26:49,909

There was a single continent millions of years ago, Pangea.

424

00:26:49,909 --> 00:26:54,911

Everything else, you have to keep an open mind and just evaluate the proof.

425

00:26:55,912 --> 00:27:04,916

Any small piece of Atlantis, whatever it is, can produce certain electromagnetic, they call it hydroplasma,

426

00:27:04,916 --> 00:27:08,918

that can suck up many things and produce energy.

427

00:27:08,918 --> 00:27:10,919

Part of Atlantis is there.

428

00:27:12,920 --> 00:27:15,921

Who lived in Atlantis?

429

00:27:15,921 --> 00:27:18,923

They were extraterrestrial.

430

00:27:25,926 --> 00:27:33,930

Isn't it a bit much? Are we reaching? Are we trying to roll every possible theory into one giant UFO burrito?

431

00:27:33,930 --> 00:27:37,932

The only thing it has to do with Autech is location. It's happening all in the same area.

432

00:27:37,932 --> 00:27:42,934

Is there some ulterior thing going on here that has to do with extraterrestrials and Autech and the Navy?

433

00:27:42,934 --> 00:27:45,936

I can't say that. Right now I'm just seeing coincidences.

434

00:27:46,936 --> 00:27:51,938

And then to top all these coincidences or this location business off,

435

00:27:51,938 --> 00:27:55,940

there's the likelihood of some kind of interdimensional portal here.

436

00:27:55,940 --> 00:28:05,945

We've got to talk to somebody else who maybe knows more and can help us link ETs, USOs and Autech.

437

00:28:06,946 --> 00:28:16,950

I'm Bruce Gernan, a pilot, and I have traveled through time.

438

00:28:22,953 --> 00:28:28,956

On December 4th, 1970, pilot Bruce Gernan claims to have flown into the future.

439

00:28:28,956 --> 00:28:33,959

He had more than 600 hours of flight time under his belt when it happened.

440

00:28:33,959 --> 00:28:38,961

He chronicled the entire phenomenon in his book called The Fog.

441

00:28:38,961 --> 00:28:44,964

It all began right here at this airport on December 4th, 1970.

442

00:28:44,964 --> 00:28:48,966

We took off and we were heading direct for Bimini.

443

00:28:50,967 --> 00:28:55,969

I noticed right in front of my flight path there was this strange looking cloud.

444

00:28:55,969 --> 00:29:00,972

It was lenticular cloud, but it was too low to be lenticular.

445

00:29:00,972 --> 00:29:05,974

They usually form at 20,000 and this was only about 500 feet above the water,

446

00:29:05,974 --> 00:29:08,975

maybe a couple miles offshore.

447

00:29:08,975 --> 00:29:13,978

And it looked harmless, so I went ahead and climbed right up over it.

448

00:29:14,978 --> 00:29:19,981

Lenticular clouds are stationary, lens-shaped clouds that form at high altitude.

449

00:29:19,981 --> 00:29:24,983

When they're densely packed and symmetrical, they can look a lot like flying saucers.

450

00:29:25,983 --> 00:29:31,986

I'm going 110 miles an hour climbing and I looked around and I noticed this small lenticular cloud

451

00:29:31,986 --> 00:29:34,988

had spread out at an amazing rate.

452

00:29:34,988 --> 00:29:39,990

And it was like on either side of me as far as I could see, but it was also building up.

453

00:29:43,992 --> 00:29:47,994

I was at almost 11,500 feet and then I broke free.

454

00:29:47,994 --> 00:29:52,996

I look in front of me and now here's the same thing that I saw.

455

00:29:52,996 --> 00:29:58,999

Now here's the same type of cloud and it's built up to way over 50,000 feet.

456

00:30:00,000 --> 00:30:08,004

Then the tops met and it formed this huge tunnel and it was at 10,000 feet to the center of it

457

00:30:08,004 --> 00:30:11,005

and it was like over 10 miles long.

458

00:30:12,006 --> 00:30:16,007

I went ahead and penetrated into it and it was full of electricity.

459

00:30:16,007 --> 00:30:19,009

And what makes you think the clouds were full of electricity?

460

00:30:19,009 --> 00:30:24,011

Well, there were these flashes that were going on and they became stronger and stronger the deeper I went.

461

00:30:26,012 --> 00:30:30,014

And that's when I started traveling forward through time.

462

00:30:36,017 --> 00:30:42,020

When I was about 100 miles from Miami, I entered what I call a time tunnel vortex

463

00:30:42,020 --> 00:30:46,022

and I started going forward through time.

464

00:30:50,024 --> 00:30:57,027

I had decided to go ahead and penetrate into this and try to get through it before it closed.

465

00:30:57,027 --> 00:31:03,030

And it should have taken me three minutes at least to reach the other end of the tunnel, but it only took about 20 seconds.

466

00:31:03,030 --> 00:31:09,033

And when I got there, it had shrunk to only about 30 feet because the wingtips scraped the edges of

it.

467

00:31:09,033 --> 00:31:13,035

And then I looked at the tunnel and I watched it collapse.

468

00:31:14,035 --> 00:31:24,040

My three navigational instruments were all malfunctioning and even the magnetic compass was slowly rotating counterclockwise.

469

00:31:24,040 --> 00:31:33,044

But my radios were still working. I contacted Miami Radio and I told him I was about 90 miles east of Miami.

470

00:31:33,044 --> 00:31:36,046

And then he comes back on the radio and he's yelling really loud.

471

00:31:36,046 --> 00:31:39,047

He says, I've got an airplane directly over Miami Beach.

472

00:31:40,048 --> 00:31:51,053

When I landed back at Palm Beach International, I discovered that the flight took 30 minutes less

than I had ever made that flight before.

473

00:31:51,053 --> 00:31:54,054

And I had made that flight at least a dozen times before.

474

00:31:54,054 --> 00:31:57,056

Do you have any evidence to support this claim of time traveling?

475

00:31:57,056 --> 00:32:03,059

Yes, I discovered that when I arrived, I had 10 gallons of extra fuel.

476

00:32:03,059 --> 00:32:07,061

Isn't there any other explanation for this?

477

00:32:07,061 --> 00:32:14,064

I mean, isn't it possible that you went through some kind of huge storm and maybe some kind of tailwind pushed you closer to Miami,

478

00:32:14,064 --> 00:32:19,066

saving you the fuel and bringing you to Miami quicker than you expected?

479

00:32:19,066 --> 00:32:27,070

I was 100 miles away from Miami, so to go to Miami in three minutes, I'd need the wind to have to be close to 2,000 miles an hour.

480

00:32:27,070 --> 00:32:28,071

Wow, I see.

481

00:32:28,071 --> 00:32:36,074

Based on the information that Bruce gave us, a normal flight from Andros Island to West Palm Beach takes about 75 minutes to travel to 210 miles.

482

00:32:36,074 --> 00:32:40,076

His entire trip uses 38 gallons of fuel.

483

00:32:40,076 --> 00:32:48,080

Gernon actually flew 250 miles in 47 minutes and still had 10 gallons of fuel left when he arrived.

484

00:32:48,080 --> 00:32:55,084

This means that the A-36 plane that he was piloting would have had to travel at 319 miles per hour to make this trip in 47 minutes.

485

00:32:55,084 --> 00:33:01,086

But that would have been impossible because Bruce's plane had a top speed of 234 miles per hour.

486

00:33:01,086 --> 00:33:07,089

Based on these numbers, Bruce's plane would have just been ripped apart by the stress.

487

00:33:07,089 --> 00:33:13,092

Do you think this was a result of an Autech experiment or just some natural thing that occurs around the Bermuda Triangle?

488

00:33:13,092 --> 00:33:15,093

It could be a combination of both.

489

00:33:15,093 --> 00:33:19,095

Autech could be experimenting with something that's a natural phenomenon.

490

00:33:23,097 --> 00:33:28,099

The Bermuda Triangle has a long history of craft mysteriously vanishing.

491

00:33:28,099 --> 00:33:35,103

December 1945, Flight 19 disappears over the Bermuda Triangle while on a training mission.

492

00:33:35,103 --> 00:33:43,107

June 1950, the 300-foot cargo ship the Sondra is never heard from again after sailing into the Bermuda Triangle.

493

00:33:43,107 --> 00:33:52,111

May 1968, the U.S. Navy submarine Scorpion goes missing and she never reaches port in Norfolk, Virginia.

494

00:33:52,111 --> 00:33:55,112

Maybe it's not a natural phenomenon after all.

495

00:33:55,112 --> 00:33:59,114

What if a lot of these reported events can be linked to Autech?

496

00:34:05,117 --> 00:34:10,120

We're meeting with physicist Dr. James Webb, professor at Florida International University.

497

00:34:10,120 --> 00:34:13,121

He's going to talk to us about the possibilities of time travel.

498

00:34:16,122 --> 00:34:22,125

General relativity has opened up a whole can of sort of worms, the ability to have wormholes to connect other places.

499

00:34:23,126 --> 00:34:29,129

Dr. James Webb has been lecturing all over the country, traveling from university to university,

500

00:34:29,129 --> 00:34:34,131

explaining the physics of time travel, black holes and wormholes.

501

00:34:36,132 --> 00:34:44,136

People have been interested in black holes for a long time and explaining things in outer space, and there are certain characteristics.

502

00:34:44,136 --> 00:34:48,138

As the star collapses, all of its mass and its gravity remain.

503

00:34:48,138 --> 00:34:52,140

These forces are so strong that not even light can escape.

504

00:34:52,140 --> 00:34:59,143

Normal black hole physics does not allow anything to go in there without getting tightly ripped apart and destroyed.

505

00:34:59,143 --> 00:35:07,147

However, people playing around with the mathematics have introduced electric and magnetic fields, have introduced rotation.

506

00:35:07,147 --> 00:35:16,151

At least mathematically, you can actually maybe survive the trip and go through these tunnels, these wormholes as they came to be called,

507

00:35:16,151 --> 00:35:20,153

can either connect in our universe or in other universes.

508

00:35:21,154 --> 00:35:27,156

Here we have a bona fide university physicist telling us that mathematically, time travel is possible.

509

00:35:27,156 --> 00:35:31,158

So perhaps pilot Bruce Gernon's story is in fact a reality.

510

00:35:33,159 --> 00:35:37,161

If we want to form a black hole, we have to take some mass and collapse it down,

511

00:35:37,161 --> 00:35:42,164

and we can actually collapse this down and punch a hole into the fabric of space-time.

512

00:35:42,164 --> 00:35:47,166

This would lead to some other dimension, and so this would be the center of the black hole.

513

00:35:47,166 --> 00:35:52,168

How does that turn into a wormhole? Well, if you have another one on the other side that meets up with it,

514

00:35:52,168 --> 00:35:56,170

then you have it leading to another piece of space-time underneath.

515

00:35:56,170 --> 00:36:02,173

You could take the trip and go around the long way, or if you could survive the trip,

516

00:36:02,173 --> 00:36:05,175

you could duck down through, pop out instantaneously down here.

517

00:36:05,175 --> 00:36:10,177

You would travel this entire distance without ever going through space-time at all.

518

00:36:12,178 --> 00:36:16,180

Here's what we know, the possibility of time travel exists,

519

00:36:16,180 --> 00:36:22,183

and if what Max says is true, that Atlantis had some alien power source,

520

00:36:22,183 --> 00:36:27,185

then we need to find proof of this ancient civilization in the waters near Autech.

521

00:36:38,190 --> 00:36:41,192

Hi Greg, hi Laura, how are you? How are you doing?

522

00:36:41,192 --> 00:36:43,193

Thanks for seeing us today.

523

00:36:43,193 --> 00:36:49,196

Dr. Greg Little and his wife Laura are part of an organization called A-R-E,

524

00:36:49,196 --> 00:36:52,197

the Association for Research and Enlightenment.

525

00:36:54,198 --> 00:36:58,200

So what are you guys doing here in the Bahamas? I hear you've made 200 dives.

526

00:36:58,200 --> 00:37:01,201

What are you looking for? Atlantis.

527

00:37:01,201 --> 00:37:06,204

The A-R-E believes the Bahamas were part of Atlantis according to Edgar Cayce,

528

00:37:06,204 --> 00:37:10,206

and this was one of the main areas of Cayce's Atlantis.

529

00:37:10,206 --> 00:37:13,207

Edgar Cayce was one of the most famous psychics that ever lived.

530

00:37:13,207 --> 00:37:17,209

He predicted that one day Atlantis would be found near the Bahamas.

531

00:37:18,210 --> 00:37:24,212

What would you need to find yourself to convince you that Atlantis was based in the Bahamas?

532

00:37:24,212 --> 00:37:31,216

Well, something we could carbon date, all we could hope for would probably be some stone foundations.

533

00:37:31,216 --> 00:37:34,217

So have you found anything interesting, any evidence of that?

534

00:37:34,217 --> 00:37:40,220

We were here in 2003 and a dive operator came to talk to us one night

535

00:37:40,220 --> 00:37:46,223

and when he found out we were looking at anomalies like the Bimini Road, which he was familiar with,

536

00:37:46,223 --> 00:37:51,225

he told us that there was another similar formation right out here in Nicholstown.

537

00:37:54,227 --> 00:38:02,231

So we went out and Greg snorkeled and discovered what looked to him to be large megalithic blocks.

538

00:38:04,232 --> 00:38:09,234

I'm a diver, I'd love to join you and have a look and see what we can see down there.

539

00:38:24,241 --> 00:38:29,244

We're here in Nicholstown on the northern part of Andros Island, about 30 miles from Atec.

540

00:38:30,244 --> 00:38:37,247

Back in 2003, Dr. Greg Little and his wife Laura went diving here looking for the ruins of Atlantis

541

00:38:37,247 --> 00:38:41,249

and what they found could be the remnants of an ancient civilization.

542

00:38:45,251 --> 00:38:50,254

So we'll be diving at about a depth of 20 feet and visibility will be about 20 to 30 feet

543

00:38:50,254 --> 00:38:54,256

because the water is a little cloudy and we've got full tanks of air

544

00:38:54,256 --> 00:38:57,257

and we'll be diving about 300 feet off the shore of Nicholstown.

545

00:38:57,257 --> 00:39:01,259

We're about to capture this underwater structure on high definition for the first time.

546

00:39:16,266 --> 00:39:20,268

Well we found something, it's some kind of stone formation.

547

00:39:21,268 --> 00:39:26,271

The first thing I notice are these right angles that make it look like these stones are carved.

548

00:39:26,271 --> 00:39:33,274

These stones are huge and appear to be layered one on top of the other to form some kind of platform or structure.

549

00:39:33,274 --> 00:39:38,277

And last, the structure seems to go off hundreds of feet into the distance.

550

00:39:38,277 --> 00:39:42,279

Whatever it is, it definitely looks like it was intentionally built.

551

00:39:42,279 --> 00:39:49,282

So you can really get a better understanding of what you've got here. It's going to take a lot more work.

552

00:39:49,282 --> 00:39:54,284

It takes a lot of work and really you have to look at it when it's uncovered.

553

00:39:54,284 --> 00:40:01,288

We saw it when it was pretty much totally uncovered right out and it was actually a hurricane that uncovered it.

554

00:40:12,293 --> 00:40:17,295

So Greg and Pat, show us what you saw down there.

555

00:40:17,295 --> 00:40:25,299

All right, Octor Little and I entered the water and he led me to what looked to be kind of a structured surface

556

00:40:25,299 --> 00:40:28,301

slightly raised above the ocean floor.

557

00:40:29,301 --> 00:40:35,304

It's noticeably different. It's kind of smooth, it's segmented, you know,

558

00:40:35,304 --> 00:40:39,306

and there seems to be a direction to it.

559

00:40:39,306 --> 00:40:43,308

Like it's not just in one area, but it actually goes off into the distance.

560

00:40:45,309 --> 00:40:48,310

Did you see right angles and straight cuts?

561

00:40:48,310 --> 00:40:54,313

Yeah, absolutely we did. And then you could look off into the distance and you could still see more of these straight lines.

562

00:40:54,313 --> 00:40:57,314

So did you get the impression that it was man-made or natural?

563

00:40:57,314 --> 00:40:59,315

Well, certainly it's enigmatic.

564

00:40:59,315 --> 00:41:02,317

If I was diving the spot alone and I didn't know what it was,

565

00:41:02,317 --> 00:41:05,318

I would think it was really weird.

566

00:41:05,318 --> 00:41:09,320

Can we discount the possibility that it is just some unusual type of reef?

567

00:41:09,320 --> 00:41:14,323

It's not a reef by definition. This is beach rock and we know that because we were able to carbon-date it.

568

00:41:14,323 --> 00:41:16,324

They pulled the shell out of the beach rock.

569

00:41:16,324 --> 00:41:19,325

It's 4000 BC.

570

00:41:20,325 --> 00:41:27,329

Dr. Little actually had the stone structure carbon-date and it turns out it's 6000 years old

571

00:41:27,329 --> 00:41:32,331

and it points to the existence of the civilization that isn't documented in human history.

572

00:41:33,332 --> 00:41:35,333

What do you think that is?

573

00:41:35,333 --> 00:41:41,336

I think it's a harbor that was in use around 3000 BC or so, maybe 4000 BC.

574

00:41:41,336 --> 00:41:47,338

It's sitting on a natural high spot where they brought in beach rock and laid beach rock down to create an enclosed harbor area.

575

00:41:51,340 --> 00:41:56,343

Is it a coincidence that what looks like a harbor building is a harbor building?

576

00:41:56,343 --> 00:42:01,345

It looks like a harbor built by intelligent design well before any documented civilization.

577

00:42:01,345 --> 00:42:06,348

Was here in such close proximity, not only to the reported home of Atlantis,

578

00:42:06,348 --> 00:42:09,349

but also to an alleged time port.

579

00:42:09,349 --> 00:42:14,351

All this revolving around a secret base at Autech.

580

00:42:17,353 --> 00:42:20,354

Yes, there are some very unusual things going on around Autech,

581

00:42:20,354 --> 00:42:24,356

but it doesn't necessarily mean that there's any kind of extraterrestrial involvement.

582

00:42:24,356 --> 00:42:30,359

I mean, at this point all we have to go on is eye-witness testimony of strange lights in the sky and under the water.

583

00:42:30,359 --> 00:42:31,359

That's it.

584

00:42:31,359 --> 00:42:35,361

There's no proof that the government is working with aliens at Autech.

585

00:42:35,361 --> 00:42:38,363

All we have is testimony by some very credible witnesses,

586

00:42:38,363 --> 00:42:43,365

but there are no videos, no photos, and no tangible evidence.

587

00:42:43,365 --> 00:42:47,367

What about the testimony of decorated military remote viewer Joe McMonigal?

588

00:42:47,367 --> 00:42:49,368

I mean, I don't think we can ignore this at all.

589

00:42:49,368 --> 00:42:53,370

Every single major government agency come to this guy for information

590

00:42:53,370 --> 00:42:57,372

and the information he's giving us is that there are USOs, UFOs,

591

00:42:57,372 --> 00:42:59,373

he's even getting images of aliens piloting these craft.

592

00:42:59,373 --> 00:43:03,375

The picture we put together is that Autech is much more than a military base.

593

00:43:03,375 --> 00:43:09,378

We have former Autech employees telling us about this strange unexplained craft that they saw.

594

00:43:09,378 --> 00:43:13,380

Extraterrestrial involvement seems like a real possibility here.

595

00:43:13,380 --> 00:43:16,381

No matter how you slice it, any which way you go,

596

00:43:16,381 --> 00:43:23,384

the Navy chose to put that test center in that place remote, guarded.

597

00:43:23,384 --> 00:43:25,385

Nobody can get there.

598

00:43:25,385 --> 00:43:27,386

Who else do we know that did that?

599

00:43:27,386 --> 00:43:32,389

The Air Force, putting it their own test center at Area 51 in Nevada.

600

00:43:32,389 --> 00:43:38,392

Air Force Area 51, Autech is the Navy's Area 51.

601

00:43:39,392 --> 00:43:50,397

There are 6 billion people in the world and the possibility of seeing a UFO in the sky is pretty likely when you think about it.

602

00:43:50,397 --> 00:43:57,401

But underwater, the possibilities of seeing a USO by comparison are infinitesimal.

603

00:43:57,401 --> 00:44:03,404

We know more about the surface of the moon and even Mars than we do about our own oceans.

604

00:44:04,404 --> 00:44:12,408

I think our investigation has conclusively shown that what's going on at Area 51 in Nevada is going on here.

605

00:44:12,408 --> 00:44:16,410

The US military is quite possibly working with aliens.

606

00:44:16,410 --> 00:44:20,412

Autech really is the underwater Area 51.
