

1

00:00:00,406 --> 00:00:11,408

We know the secretive area 51 has been exposed, but on a place called Douglas, it was military's

2

00:00:11,408 --> 00:00:15,408

new UFO playground.

3

00:00:15,408 --> 00:00:18,409

Above us was a saucer shape.

4

00:00:18,409 --> 00:00:20,409

That's when we started getting nervous.

5

00:00:20,409 --> 00:00:26,410

This place is a proving ground, and they could be testing weapons that could bring down a UFO.

6

00:00:26,410 --> 00:00:32,411

The second time it fired, we noticed these blue lights completely surrounding the beam.

7

00:00:32,411 --> 00:00:37,412

There's no question this is evidence of unconventional activity, but by whom?

8

00:00:37,412 --> 00:00:40,413

The military or private contractors?

9

00:00:40,413 --> 00:00:44,413

They have many customers. They like their privacy.

10

00:00:44,413 --> 00:00:49,414

The whole time we were there, we were under surveillance. I mean, it was all intimidation.

11

00:00:49,414 --> 00:00:55,415

We came here to investigate what's going on, only to be investigated ourselves.

12

00:00:55,415 --> 00:00:57,415

Here he comes.

13

00:01:00,416 --> 00:01:02,416

How are you guys doing?

14

00:01:02,416 --> 00:01:07,417

This is case number 421-04, Area 52.

15

00:01:25,420 --> 00:01:34,421

Area 51 has the reputation of being the most secret base in the United States.

16

00:01:34,421 --> 00:01:44,423

All that changed in 1985 when Bob Lazar, the former employee there, went public with the reverse engineering technology.

17

00:01:44,423 --> 00:01:52,424

Ever since then, Area 51 from a top secret site became a public display case.

18

00:01:52,424 --> 00:01:58,425

Absolutely, Bill. I mean, if you were a testing facility, you'd probably want to move somewhere else.

19

00:01:58,425 --> 00:02:06,427

You'd have to find someplace that was top secret and turn that place into a new and better Area 51.

20

00:02:06,427 --> 00:02:14,428

Dogway Proving Ground has over seven decades of covert military experimentation under its belt.

21

00:02:14,428 --> 00:02:20,429

Moving at least some of Area 51's operations here makes perfect sense.

22

00:02:21,429 --> 00:02:25,430

It's a testing facility, so there are already secret operations going on there.

23

00:02:25,430 --> 00:02:33,431

If Area 51 did relocate to Dogway, I would need to see some evidence of how its role has changed.

24

00:02:34,431 --> 00:02:39,432

Clearly, Dogway Proving Ground has the space to handle top secret operations,

25

00:02:39,432 --> 00:02:45,433

but is there a link to reverse engineering of extraterrestrial craft? We'll have to see.

26

00:02:51,434 --> 00:02:56,435

Dogway Proving Ground is the fourth largest military base in the U.S.

27

00:02:56,435 --> 00:03:04,436

and has been the home for testing chemical, biological and radiological weapons since 1942.

28

00:03:04,436 --> 00:03:11,437

The base is surrounded by mountains on three sides, with heavily restricted airspace over the base,

29

00:03:11,437 --> 00:03:16,438

reaching all the way up, even beyond the Earth's atmosphere.

30

00:03:16,438 --> 00:03:22,439

The area is larger than the entire state of Rhode Island and abuts the Utah test and training range.

31

00:03:22,439 --> 00:03:29,440

Within the past 20 years, the area's runway has been retrofitted to allow the space shuttle to land.

32

00:03:29,440 --> 00:03:38,442

In addition to its military clients, Dogway is the home of defense contractors working on alleged black-budget projects.

33

00:03:38,442 --> 00:03:42,442

With all the upgrades and the alleged UFO activity over the area,

34

00:03:42,442 --> 00:03:49,443

we believe that some of the operations have left Area 51 and moved to Dogway Proving Ground.

35

00:03:52,444 --> 00:03:57,445

To find out about the past and present of Dogway, we need to get some inside information.

36

00:03:57,445 --> 00:04:02,446

So we're going to meet with Dogway's former chief of security and hear about his own UFO sighting.

37

00:04:02,446 --> 00:04:16,448

I came to Dogway in 1950. I worked for 33 years at the Department of Defense as a security police supervisor.

38

00:04:16,448 --> 00:04:20,449

I retired in 1983 as a captain.

39

00:04:20,449 --> 00:04:26,450

Bush Fox was security police supervisor for 33 years at Dogway Proving Ground.

40

00:04:26,450 --> 00:04:30,450

If something was going on there, he's going to be able to tell us what it was.

41

00:04:31,450 --> 00:04:36,451

One incident I remember very well is my whole shift, which is the afternoon shift.

42

00:04:36,451 --> 00:04:38,452

We got off work about 11.30 at night.

43

00:04:38,452 --> 00:04:45,453

As we were leaving, me and my friend, we looked up and we were almost in this direction from that area.

44

00:04:45,453 --> 00:04:48,453

It was four very distinct lights.

45

00:04:48,453 --> 00:04:50,453

He's sitting there.

46

00:04:50,453 --> 00:04:58,455

The lamp on that was coming out and we watched those four lights sitting there for probably, I'd say 25, 35 seconds.

47

00:04:58,455 --> 00:05:02,455

And then they all took off in different directions.

48

00:05:02,455 --> 00:05:09,457

This was not conventionally, there was no noise, no indication, any kind of a plane or anything like that.

49

00:05:09,457 --> 00:05:11,457

Now what year was this again?

50

00:05:11,457 --> 00:05:14,457

This was late 7th of 1970s.

51

00:05:15,458 --> 00:05:21,459

Could operations go on at Dogway?

52

00:05:21,459 --> 00:05:27,460

Black operations, operations with UFOs or other things go on there without your knowledge?

53

00:05:27,460 --> 00:05:33,461

No. I had a top secret security at Dogway and if anything like that was going on, I wouldn't know about it.

54

00:05:35,461 --> 00:05:39,461

All 11 of them agreed that these were not conventional lights of any kind.

55

00:05:39,461 --> 00:05:41,462

These were not airplanes or helicopters.

56

00:05:41,462 --> 00:05:45,462

These guys would have known what kind of aircraft would have been around Dogway.

57

00:05:45,462 --> 00:05:49,463

So this immense in my mind that these were UFOs.

58

00:05:49,463 --> 00:05:52,464

Did you tell anybody at Dogway what you saw?

59

00:05:52,464 --> 00:05:59,465

We told the provost Marshall about the lights at Dogway and he said he investigated it and he died in a plane crashing up.

60

00:05:59,465 --> 00:06:01,465

We were too long after that.

61

00:06:01,465 --> 00:06:07,466

The provost Marshall is the official in charge of all security operations at Dogway Proving Ground.

62

00:06:07,466 --> 00:06:16,468

After his untimely death in a flight over the base, the official investigation into UFOs over Dogway died as well.

63

00:06:16,468 --> 00:06:22,469

So we've heard rumors that Dogway has become the new Area 51.

64

00:06:22,469 --> 00:06:25,469

Have you seen any indication that this might be true?

65

00:06:25,469 --> 00:06:28,470

It's the best you've ever been. I've got to laugh at that.

66

00:06:29,470 --> 00:06:36,471

Of course Bush Fox has no knowledge of operations from Area 51 moving to Dogway.

67

00:06:36,471 --> 00:06:51,473

He retired in 1983 several years before the move and once you retire from a top secret position, you're out of the loop and you no longer have access to top secret or classified base information.

68

00:06:56,474 --> 00:07:02,475

To really find out what's going on out here at Dogway, it's important to talk to people who have been here on the ground making observations.

69

00:07:02,475 --> 00:07:07,476

So we're going to talk to Ken Storch and Bob who have been out here eight times since 1997.

70

00:07:10,476 --> 00:07:16,477

They're really professionals at staking out unusual activity and that's why we've got to talk to them and hear what they have to say.

71

00:07:19,478 --> 00:07:25,479

In the late 80s I was contacted by an Air Force Major when I was active law enforcement.

72

00:07:25,479 --> 00:07:32,480

He or she told me that you need to take a look at Dogway. There's something out there that you would be interested in.

73

00:07:32,480 --> 00:07:38,481

I said, what do you mean? And they replied, the new Area 51.

74

00:07:41,481 --> 00:07:48,483

Bob and I, like we always do, packed up our equipment, jumped in the RV and we drove out here straight from Colorado.

75

00:07:48,483 --> 00:07:54,484

And the moment that we arrived on scene, we knew that we had touched a nerve.

76

00:07:55,484 --> 00:08:00,485

The helicopter gunships came in so close that the prop wash from the blades was rocking the RV.

77

00:08:00,485 --> 00:08:01,485

See the picture?

78

00:08:02,485 --> 00:08:07,486

We literally had a gunship swing around land probably a hundred yards from us.

79

00:08:07,486 --> 00:08:10,486

The Gatling gun mounted underneath was pointed right at us.

80

00:08:10,486 --> 00:08:13,487

The chopper pilot was sitting there with his visor down, staring right at us.

81

00:08:16,487 --> 00:08:18,488

Were you in a restricted area?

82

00:08:18,488 --> 00:08:21,488

We're on public land. We're on the Pony Express Trail.

83

00:08:21,488 --> 00:08:26,489

The whole time we were there, we were under surveillance. I mean, it was all intimidation.

84

00:08:26,489 --> 00:08:32,490

You know, when we went to Area 51, our presence was responded to with camo dudes and vehicles on the ground.

85

00:08:32,490 --> 00:08:40,491

But what Ken, Storch and Bob were telling us is that they actually got a much bigger reaction with helicopters landing near them, pointing weapons at them.

86

00:08:40,491 --> 00:08:47,492

That really does say just how sensitive this area is if you get an even bigger reaction than getting close to Area 51.

87

00:08:48,492 --> 00:08:52,493

Over the course of several months of coming out here, we observed a lot of activity.

88

00:08:52,493 --> 00:09:02,495

At Simpson Springs, we went another 14 miles. At the top of the ridge, there's a road that goes along the ridge line, not the main Pony Express Trail.

89

00:09:02,495 --> 00:09:07,496

I've got pictures here that shows this barracks where we watch convoys.

90

00:09:07,496 --> 00:09:12,496

You could tell a deuce and a half, the lights were higher in the sky.

91

00:09:12,496 --> 00:09:21,498

To Humvees, I lost count at over 80. And we sat there for 45 minutes, but here's the clincher. They disappeared into the ground.

92

00:09:21,498 --> 00:09:23,498

We watched that convoy disappear.

93

00:09:26,499 --> 00:09:32,500

Bob's claim that an 80-vehicle convoy disappeared into the earth seemed suspicious at first.

94

00:09:32,500 --> 00:09:39,501

But in the 1990s, satellite imagery of military bases and access to it became very sophisticated.

95

00:09:39,501 --> 00:09:48,502

So there are compelling reasons to have the military, at that time, move their operations literally underground into subterranean test facilities.

96

00:09:49,502 --> 00:09:55,503

You guys said back in 97, you were investigating Dugway in an RV and you got a lot of attention.

97

00:09:55,503 --> 00:10:03,505

There were helicopters checking you out. Is it possible that because you were in the RV, you were kicking up a lot of dust and created a huge profile that just attracted a lot of attention?

98

00:10:03,505 --> 00:10:07,505

Oh, absolutely. You can't sneak into this space without drawing that kind of attention.

99

00:10:07,505 --> 00:10:10,506

I mean, uh-oh, guys, looks like we have company.

100

00:10:13,506 --> 00:10:14,506

Oh boy.

101

00:10:14,506 --> 00:10:16,507

Yep, we got somebody coming.

102

00:10:17,507 --> 00:10:18,507

Told ya.

103

00:10:19,507 --> 00:10:20,507

Here he comes.

104

00:10:21,508 --> 00:10:22,508

There's something going on.

105

00:10:22,508 --> 00:10:23,508

Where is he going? That's the question.

106

00:10:27,509 --> 00:10:28,509

Can we get that?

107

00:10:28,509 --> 00:10:29,509

No, it's not.

108

00:10:29,509 --> 00:10:30,509

Look at that.

109

00:10:30,509 --> 00:10:31,509

Oh, I see it. Whoa, whoa.

110

00:10:32,509 --> 00:10:33,510

Thank you, Major.

111

00:10:36,510 --> 00:10:37,510

Thank you, Major.

112

00:10:40,511 --> 00:10:45,512

It didn't take long for us to discover how seriously Dugway values its secrecy.

113

00:10:45,512 --> 00:10:55,513

We set up a meeting with Ken and Bob on what we thought to be public land, but in less than five minutes, base police pulled up to tell us we were getting too close.

114

00:10:58,514 --> 00:10:59,514

Here he comes.

115

00:11:02,514 --> 00:11:04,515

Hey, how's it going, Joe?

116

00:11:05,515 --> 00:11:06,515

Nice to meet you, Officer.

117

00:11:06,515 --> 00:11:07,515

Stand by. Stand by.

118

00:11:08,515 --> 00:11:09,515

We're ready to go, Joe.

119

00:11:09,515 --> 00:11:10,516

Okay.

120

00:11:10,516 --> 00:11:12,516

Have you got a permission to photograph?

121

00:11:12,516 --> 00:11:13,516

Uh, actually, yes we do.

122

00:11:13,516 --> 00:11:17,517

From the Bureau of Land Management, it's over there. We have all the forms.

123

00:11:17,517 --> 00:11:18,517

Okay, let me see your forms in here.

124

00:11:18,517 --> 00:11:21,517

Okay, let me get the forms. They're down over there.

125

00:11:21,517 --> 00:11:22,518

Hi. Hi.

126

00:11:22,518 --> 00:11:26,518

They need to stop taking pictures right now until we get all the stories down.

127

00:11:26,518 --> 00:11:27,518

Okay.

128

00:11:27,518 --> 00:11:28,519

Sure thing.

129

00:11:28,519 --> 00:11:29,519

Okay, we'll get you the forms.

130

00:11:29,519 --> 00:11:31,519

We have VLM permission to be here.

131

00:11:31,519 --> 00:11:32,519

Okay.

132

00:11:32,519 --> 00:11:34,520

Actually, we paid the permit.

133

00:11:34,520 --> 00:11:36,520

Okay, now do you have one from Dugway?

134

00:11:36,520 --> 00:11:37,520

But we're not on Dugway property.

135

00:11:37,520 --> 00:11:38,520

We're not on Dugway property.

136

00:11:38,520 --> 00:11:39,520

There you are.

137

00:11:39,520 --> 00:11:40,521

Oh, it says we have that sign.

138

00:11:40,521 --> 00:11:42,521

All of this right here belongs to Dugway.

139

00:11:42,521 --> 00:11:44,521

I mean, all this, all this here?

140

00:11:44,521 --> 00:11:46,522

All of this right here belongs to Dugway.

141

00:11:46,522 --> 00:11:48,522

What about the building, too, belongs to Dugway?

142

00:11:48,522 --> 00:11:49,522

You cannot take pictures of that.

143

00:11:49,522 --> 00:11:50,522

Period.

144

00:11:50,522 --> 00:11:51,522

Okay.

145

00:11:51,522 --> 00:11:54,523

We didn't know that there's no sign there that says that, and it says boundaries right here, sir.

146

00:11:54,523 --> 00:11:56,523

Yeah, we just stayed on the boundaries.

147

00:11:56,523 --> 00:11:57,523

We're not going to have to take pictures of that.

148

00:11:57,523 --> 00:12:01,524

So if you are taking pictures of that, I'm going to have to confiscate everything you've got.

149

00:12:01,524 --> 00:12:03,524

Okay, well, we haven't taken any pictures yet.

150

00:12:03,524 --> 00:12:06,525

I'm going to have to see.

151

00:12:06,525 --> 00:12:09,525

So we're here at the entrance to Dugway Proving Grounds.

152

00:12:09,525 --> 00:12:17,527

We came up here looking for answers to what Dugway does, why is there a Dugway, what's going on here.

153

00:12:17,527 --> 00:12:20,527

We say, look, we're here to find out some answers about Dugway.

154

00:12:20,527 --> 00:12:21,527

Who can we talk to?

155

00:12:21,527 --> 00:12:28,528

Now we're going to talk to the Public Affairs Officer of Dugway, and we're hoping we can get some answers to our questions.

156

00:12:28,528 --> 00:12:30,529

This could be a gold-mined information.

157

00:12:30,529 --> 00:12:31,529

Let's see what she says.

158

00:12:34,529 --> 00:12:37,530

We are the nation's chem-biotesting facility.

159

00:12:37,530 --> 00:12:47,532

We test defensive equipment such as protective gear, which could mean personal equipment such as masks, boots, gloves, and uniforms, or collective protection for our soldiers.

160

00:12:47,532 --> 00:12:54,533

As Dugway Proving Grounds Public Affairs Officer, Paul Nicholson is the official spokesperson for what happens here.

161

00:12:54,533 --> 00:12:56,533

How many people work at the base?

162

00:12:56,533 --> 00:12:59,534

Right now there's about 1,450 people.

163

00:12:59,534 --> 00:13:03,534

About half of those are contractors, the other half are government civilians.

164

00:13:03,534 --> 00:13:09,535

Would you be able to tell us which defense contractors are located on Dugway, and if so, what do they do?

165

00:13:09,535 --> 00:13:13,536

Right now we don't tell people who those contractors are.

166

00:13:14,536 --> 00:13:21,537

The fact that Paul is so guarded about the work of contractors at Dugway gives us a sense of just how important and secret this base really is.

167

00:13:21,537 --> 00:13:28,538

If there are secret experiments going on here, they could originate with private contractors and not the military itself.

168

00:13:29,538 --> 00:13:36,540

Recently there has been a lot of activity on the part of the Army here in trying to acquire more land.

169

00:13:36,540 --> 00:13:42,541

In the recent past we thought it would be a good thing to acquire more land because we are getting more customers.

170

00:13:42,541 --> 00:13:44,541

We were having a lot more training area.

171

00:13:44,541 --> 00:13:50,542

However, to my knowledge at this time, there is no effort to acquire more land.

172

00:13:52,542 --> 00:13:57,543

So when you're looking at a map, what you see is so much restricted airspace around here.

173

00:13:57,543 --> 00:14:03,544

I mean, what's so fascinating about the restricted airspace is that the ceiling goes all the way up into infinity.

174

00:14:03,544 --> 00:14:05,544

Can you explain that?

175

00:14:05,544 --> 00:14:09,545

We have many customers that like to come here and train.

176

00:14:09,545 --> 00:14:15,546

They don't want people to be here to know all their maneuvers, and they like their privacy.

177

00:14:17,546 --> 00:14:26,548

If the government wanted to hide evidence of the reverse engineering of extraterrestrial alien spacecraft, of course they'd give it to a defense contractor.

178

00:14:26,548 --> 00:14:32,549

Private contractors don't have to be responsive to freedom of information requests.

179

00:14:33,549 --> 00:14:38,550

The reason we're here is we've heard that Dougway might be the new Area 51.

180

00:14:38,550 --> 00:14:42,550

That there was too much attention put on Area 51 and they've moved operations here.

181

00:14:42,550 --> 00:14:52,552

I just want to ask you, just straight out, are you aware of any testing or development of UFO or extraterrestrial technology taking place here at Dougway?

182

00:14:52,552 --> 00:14:56,553

You know, that's really an interesting question. I've actually had that quite a few times.

183

00:14:56,553 --> 00:15:01,553

To my knowledge, I'm not aware of any UFO training going on out here.

184

00:15:01,553 --> 00:15:08,555

Paula denied any presence of UFO technology at Dougway, but she did say she's been asked this question before,

185

00:15:08,555 --> 00:15:18,556

which supports the idea that ufologists asking too many questions and getting too close like we did may have played a part in Dougway's recent attempts to expand.

186

00:15:18,556 --> 00:15:22,557

One place Dougway wanted to expand was on its southeast border.

187

00:15:22,557 --> 00:15:27,558

We need to go there and see if it provides a vantage point for peering into the base's activities.

188

00:15:31,558 --> 00:15:34,559

There is Michael Armier Field.

189

00:15:34,559 --> 00:15:39,560

This is one of the longest runways in the world. You know, you can land the space shuttle here,

190

00:15:39,560 --> 00:15:43,560

but you can also only guess as to what other vehicles they're testing here.

191

00:15:45,561 --> 00:15:52,562

You saw Area 51 firsthand. How does it feel being here now and looking at Dougway compared to that?

192

00:15:52,562 --> 00:15:57,563

Well, there's certainly the same feeling of vastness if you just look at the view.

193

00:15:57,563 --> 00:16:04,564

I mean, you can see from horizon to horizon, and there's nothing out there except for Dougway Proving Ground.

194

00:16:07,564 --> 00:16:10,565

This place is actually bigger than Area 51.

195

00:16:10,565 --> 00:16:15,566

Look at this. Restricted. Restricted. Restricted. Restricted. It's everywhere.

196

00:16:18,566 --> 00:16:23,567

Well, if you take all this into account and you compare Dougway Proving Ground with Area 51,

197

00:16:23,567 --> 00:16:30,568

I mean, Dougway and Michael Armier Field is clearly the superior secret facility.

198

00:16:32,568 --> 00:16:38,569

We've learned about the size and scope of Dougway and how much private contractors at the base value their privacy.

199

00:16:38,569 --> 00:16:46,571

Now we have to learn about this pattern of secrecy from somebody who knows an award-winning journalist who covers Dougway, Lee Davidson.

200

00:16:47,571 --> 00:16:49,571

Thanks for seeing us today, Lee. You're welcome.

201

00:16:49,571 --> 00:16:50,571

You appreciate it.

202

00:16:50,571 --> 00:16:51,571

You're happy to meet you.

203

00:16:51,571 --> 00:16:57,572

Lee Davidson is a journalist with the Deseret News. He's been covering the Dougway story for over 30 years.

204

00:16:57,572 --> 00:17:01,573

And if anyone can tell us about the absolute secrecy going on at Dougway, it's him.

205

00:17:02,573 --> 00:17:07,574

People in Utah are interested in Dougway because it's been one of the most secretive bases in America.

206

00:17:07,574 --> 00:17:12,575

A lot of things happened out there for years that we never found out about for decades after.

207

00:17:12,575 --> 00:17:15,575

There are no roads that you can just drive up and kind of look and see what's going on.

208

00:17:15,575 --> 00:17:18,576

It's so vast you can hide things in there easily.

209

00:17:22,577 --> 00:17:27,577

They were doing things they really didn't want the world to know about during the whole Cold War era.

210

00:17:27,577 --> 00:17:32,578

There was chemical weapons testing, germ weapons testing, radiological weapons testing.

211

00:17:32,578 --> 00:17:35,579

The Army always denied anything dangerous was happening.

212

00:17:35,579 --> 00:17:43,580

But in the last 20 years or so, bit by bit, we were able to use the Freedom of Information Act and dig out a lot of what actually did happen.

213

00:17:44,580 --> 00:17:47,581

In World War II, for example, they used human guinea pigs.

214

00:17:47,581 --> 00:17:53,582

Members of the Seventh Day Adventist Church, who were conscientious objectors, volunteered to help

with medical research.

215

00:17:55,582 --> 00:17:59,583

And they literally lined them up along the highway next to Reese's Monkeys and real guinea pigs.

216

00:17:59,583 --> 00:18:05,584

Spread clouds of germs over them, such as Q fever, parrot fever, to see if they would get infected.

217

00:18:05,584 --> 00:18:07,584

And they were. They weren't killed.

218

00:18:07,584 --> 00:18:13,585

But they were also told that this was defensive work only and it actually was offensive work, according to documents we had.

219

00:18:14,585 --> 00:18:20,586

A lot of these things that you described sound like very serious offenses against the public.

220

00:18:20,586 --> 00:18:26,587

Is there anything about the people of Utah that is keeping them from being outraged about this?

221

00:18:26,587 --> 00:18:32,588

Actually, we had documents 40 or 50 years ago where the Pentagon talked about how patriotic Utahns were

222

00:18:32,588 --> 00:18:36,589

and how they probably wouldn't sue and they would be more trusting of the government.

223

00:18:36,589 --> 00:18:38,589

Utahns today are much different.

224

00:18:38,589 --> 00:18:44,590

When the Army tells them something is fine and not secretive, they've learned not to trust that.

225

00:18:48,591 --> 00:18:52,591

Have you ever filed a FOIA request regarding the expansion of the base?

226

00:18:52,591 --> 00:18:55,592

Yes, we did. And the military denied it.

227

00:18:55,592 --> 00:18:59,592

Pentagon said, we don't have to release it, we're not going to.

228

00:18:59,592 --> 00:19:05,593

So, mostly what we know about the expansion is what members of Congress have said that the Army told them.

229

00:19:05,593 --> 00:19:10,594

And they told them that part of it was UFO watchers are getting too close, we want to push them back.

230

00:19:10,594 --> 00:19:14,595

Part of it was there's contamination. And we don't really want to clean up that contamination.

231

00:19:14,595 --> 00:19:18,596

It's so vast, we don't know how to do it. We just want to take over that area and keep people out of it.

232

00:19:18,596 --> 00:19:21,596

How does Michael Army Airfield fit into all of this?

233

00:19:21,596 --> 00:19:24,597

Fifteen years ago or so, it was essentially an unusable field.

234

00:19:24,597 --> 00:19:29,597

But in recent years, it's been built up, improved so that they could use it.

235

00:19:29,597 --> 00:19:35,598

That, by the way, is one of the reasons that UFO hunters think something is going on out there, because now they can fly in and out of there.

236

00:19:37,599 --> 00:19:45,600

So what's your take on this whole business of Doug Way being the new area 51, that the UFOs were moved from Nevada's area 51 and brought here?

237

00:19:45,600 --> 00:19:49,601

Because everybody's looking at area 51, nobody's looking here, this is more isolated.

238

00:19:49,601 --> 00:19:53,601

Hey, it's a vast base. There's a lot of places you could hide things out there.

239

00:19:54,601 --> 00:20:04,603

And the people who watch the base say they've seen a lot of strange things coming and going, covered trucks with something poking out that they thought looked like an oval-shaped spaceship.

240

00:20:04,603 --> 00:20:10,604

The history of Doug Way makes anything out there easier to believe, because so many bizarre things have happened.

241

00:20:10,604 --> 00:20:12,604

But one more chapter is possible.

242

00:20:15,605 --> 00:20:20,606

We're absorbing a lot of conflicting answers here. Paul is giving us the official explanation.

243

00:20:20,606 --> 00:20:26,607

Lee is telling us that you can't exactly trust Doug Way, and witnesses are telling us some very compelling stories.

244

00:20:26,607 --> 00:20:30,607

It's a lot of information, and it's time we put it all together.

245

00:20:31,607 --> 00:20:40,609

If we had a base that was so important that it was handling extraterrestrial reverse engineering, don't you think we'd want to spread the wealth?

246

00:20:40,609 --> 00:20:48,610

Well, we know for a fact from talking with Lee Davidson that there was a huge push to expand Doug Way, that in my opinion is kind of suspicious.

247

00:20:48,610 --> 00:20:53,611

Don't you think? I mean, we already have area 51, so why would we have to create this new giant secret base?

248

00:20:53,611 --> 00:21:00,612

We got the answer from Paula. They just were collecting more customers, there were more corporations going in there and conducting their tests, so they needed more area.

249

00:21:00,612 --> 00:21:09,614

The fact is that they've been trying to expand even before they got these customers. We're standing in front of the base on public land. We're confronted by this.

250

00:21:09,614 --> 00:21:16,615

Now you know that every time on this desert you try to approach something, there's a whole dust storm following your car.

251

00:21:16,615 --> 00:21:21,616

What we've got to do is come up with a plan for stealth.

252

00:21:30,617 --> 00:21:39,619

So here's the deal. That's it.

253

00:21:39,619 --> 00:21:47,620

Every time anybody comes up here in a car, it kicks up so much dust along the road, they can see you coming miles away.

254

00:21:47,620 --> 00:21:57,622

So you're going to take the mountain bikes, obviously kick up much less of a cloud of dust, you're going to be stealth, and you'll get as close to the gate as you possibly can.

255

00:21:57,622 --> 00:22:06,623

We want to see if there's any activity on the runway. We know that there are corporations present here. We want to see if we can see any sign of them, exactly what corporations are present.

256

00:22:06,623 --> 00:22:12,624

We found an overgrown access road at Dugway's southeast border, and directly towards the airfield.

257

00:22:12,624 --> 00:22:21,625

So if Bill's theory of stealth holds true, we should be able to reach the gates and get an up-close look at this complex without drawing any attention from security.

258

00:22:21,625 --> 00:22:25,626

Okay guys, saddle up. Good hunting.

259

00:22:26,626 --> 00:22:31,627

Alright Bill, seen a bit. Be careful out there. We got it.

260

00:22:31,627 --> 00:22:36,628

So I know we don't want to kick up too much dust.

261

00:22:36,628 --> 00:22:45,629

He's up on the wheelies.

262

00:22:45,629 --> 00:22:48,630

How are you doing? You moving along okay?

263

00:22:48,630 --> 00:22:54,631

Moving along okay Bill. Just feels a little exposed out here, kind of like we're sitting ducks.

264

00:22:54,631 --> 00:22:59,632

So far you're all clear. Nothing in the sky and nothing on the ground.

265

00:22:59,632 --> 00:23:07,633

There's not a single bit of dust coming off their wheels. They're kicking up nothing. That's exactly what we want. They're going to get in under the radar.

266

00:23:07,633 --> 00:23:15,634

Maybe just maybe they'll see some unconventional crap. Could we be standing on the perimeter of the new area 51?

267

00:23:15,634 --> 00:23:26,636

We're here. Sciences Danger. Keep out US Army installation. Impact area.

268

00:23:26,636 --> 00:23:34,637

Okay hold up at the sign saying impact area. You're getting into possible unexploded ordinance territory.

269

00:23:34,637 --> 00:23:40,638

I'd like you to head left along the fence line and see if you could find anything on the airfield.

270

00:23:45,639 --> 00:23:53,641

Okay I see some kind of vehicle and it is in pieces that has been demolished and I can only guess what it is.

271

00:23:53,641 --> 00:24:03,642

It's brown. It has four tires and that's about all I can tell you. That's how messed up this thing is.

272

00:24:03,642 --> 00:24:12,644

As you move along the fence line you might see some activity of the airfield to the right of the fence to the right of the road.

273

00:24:12,644 --> 00:24:16,644

Copy that. I suspect you are correct.

274

00:24:16,644 --> 00:24:19,645

So what's your 10-20?

275

00:24:19,645 --> 00:24:27,646

We're here. We're down at the gate. We can see the hangars. We can see the towers. And yeah we can see the airfield but there's nothing going on over there.

276

00:24:27,646 --> 00:24:36,648

Can you see any trucks with logos, any signage, any sign of corporate activity near the airfield?

277

00:24:36,648 --> 00:24:42,649

That's a negative Bill. I'm sorry but we don't see any sign of any corporate activity.

278

00:24:48,650 --> 00:24:53,650

We're back safe and sound. Hey guys glad you made it back safe and sound. It was great to get up close.

279

00:24:53,650 --> 00:24:55,651

So what did you guys see?

280

00:24:55,651 --> 00:25:01,652

Well we got up close and what we got to see was just the size and the scope of the place.

281

00:25:01,652 --> 00:25:08,653

You're sort of lost and exposed out there. I was just feeling it being very small and that the dug way is absolutely huge.

282

00:25:08,653 --> 00:25:19,655

Tell you the truth it was a little bit eerie being that close to the gate with the tumbleweeds, the barbed wire, the unexploded ordinance and the vehicle that was obviously the victim of at least one explosion.

283

00:25:19,655 --> 00:25:25,656

This is a very vast territory and I can understand if the government wanted to hide something that this would be the perfect place to do it.

284

00:25:25,656 --> 00:25:30,656

But from what I saw down there this is simply a military base.

285

00:25:32,657 --> 00:25:41,658

We've taken a close look at the south side of dugway. Now we're going to hear about a UFO encounter that occurred on the far west boundary from a police officer who patrolled there.

286

00:25:52,660 --> 00:25:59,661

Hey Bob. Hey Bob. Thanks for coming down today. You bet. Thanks for meeting us. Pleasure to meet you.

287

00:25:59,661 --> 00:26:06,662

We're talking to Bob Ward who is an ex-Tribal Police Officer for the Go-Shoot Trap which is just west of dugway Proving Grounds.

288

00:26:06,662 --> 00:26:15,664

He had interesting experiences involving UFOs and we're about to find out if these events actually tie into Area 51 relocating here.

289

00:26:16,664 --> 00:26:21,665

In 2004 I was a Tribal Police Officer for the Go-Shoot Reservation in Iba Paw.

290

00:26:22,665 --> 00:26:25,665

We're located west of dugway Proving Grounds.

291

00:26:26,666 --> 00:26:35,667

In 2004 I was around midnight. One of the residents came up and knocked on my door and asked me if he could help pull him out of a spot.

292

00:26:35,667 --> 00:26:47,669

He went off the road and stuff and I said fine. As we got there something caught my eye and I looked up and 6 to 800 feet above us was a lit up craft.

293

00:26:47,669 --> 00:26:53,670

It was almost saucer shape. The guest that made it speed on it was about 5 to 10 miles an hour.

294

00:26:54,670 --> 00:26:58,671

When we got there we did not see it come over the mountain. It just appeared.

295

00:26:59,671 --> 00:27:00,671

What was the light configuration on it?

296

00:27:01,671 --> 00:27:06,672

There were 6 lights in a circle. I guesstimated it at about 80 feet in diameter.

297

00:27:08,672 --> 00:27:14,673

Before it got too far ahead of us going out to the flatland I had a spotlight in my pickup truck.

298

00:27:14,673 --> 00:27:22,675

I reached out and turned it on for maybe 15 to 20 seconds and it turned around and came back over us again.

299

00:27:23,675 --> 00:27:25,675

That's when we started getting nervous.

300

00:27:26,675 --> 00:27:33,677

The fact that the craft physically reacted to Bob's spotlight and then changed its flight path is significant.

301

00:27:34,677 --> 00:27:42,678

It shows that this is not a pre-programmed drone, a balloon or anything like that. It was intelligently controlled.

302

00:27:44,678 --> 00:27:50,679

As it came back going eastbound back towards the Dugway Proving Ground it went up and over Ipa Paw Peak.

303

00:27:51,679 --> 00:28:03,681

The Ipa Paw Peak is about 14,000 feet and as soon as it disappeared within 30 seconds to a minute, 2 F16s coming from Nevada were in hot pursuit behind it in the same flight path.

304

00:28:04,682 --> 00:28:08,682

Then they disappeared over the top of the mountain going eastbound back towards the Dugway Proving Ground.

305

00:28:09,682 --> 00:28:16,684

In award sighting, 30 seconds after the craft leaves the area over his head, 2 F16s show up.

306

00:28:17,684 --> 00:28:25,685

If they were in escort they'd be flying alongside. They'd be flying at the same speed. The object is moving away toward Dugway. Clearly it's not an escort.

307

00:28:26,685 --> 00:28:32,686

To Bob's mind they were in pursuit of this object that had moved away clearly hadn't caught up.

308

00:28:32,686 --> 00:28:37,687

That indicates just circumstantially these are not our craft.

309

00:28:38,687 --> 00:28:46,689

Bob you keep calling it it. What do you think it was? Maybe some kind of military test of some sort? A military vehicle? Or are we talking about something else here?

310

00:28:47,689 --> 00:28:49,689

It could very well be a military experiment.

311

00:28:50,689 --> 00:28:55,690

And if it's not then it would have to be the real deal. Never in my life have I ever seen anything like this before.

312

00:28:55,690 --> 00:29:04,691

So the flight pattern that Bob would describe was very interesting. Clearly we're looking at flight characteristics that are not conventional here.

313

00:29:05,692 --> 00:29:15,693

All of this cements in my mind that this was either a reverse engineered vehicle of some sort or an extraterrestrial craft, but either way this object clearly has something to do with the Dugway Proving Ground.

314

00:29:16,693 --> 00:29:21,694

Were you concerned at the time that you'd experience fallout from the department if you reported this sighting?

315

00:29:21,694 --> 00:29:33,696

Yes. Certain powers could do things you know and at the time it was better just to keep my mouth shut you know with the military doing stuff. We're told mind our own business.

316

00:29:34,696 --> 00:29:35,697

And so why are you coming forward now?

317

00:29:36,697 --> 00:29:40,697

Because I truly feel that public needs to know what's going on out here.

318

00:29:41,698 --> 00:29:50,699

It doesn't surprise me that Bob followed the typical law enforcement code of silence not to discuss UFOs for fear of ridicule or even retribution.

319

00:29:51,699 --> 00:30:00,701

But now that he's no longer a police officer he feels compelled to shed light on what he's seen going on around Dugway and it involves a lot more than just seeing a UFO.

320

00:30:01,701 --> 00:30:09,702

Out in the general area this craft was traveling. I observed two horses that I found their heads were decapitated.

321

00:30:10,702 --> 00:30:13,703

Wow. I mean their heads really are clean up.

322

00:30:18,704 --> 00:30:23,704

We're talking with Bob Ward who witnessed a UFO near Dugway Proving Ground in 2004.

323

00:30:24,705 --> 00:30:29,705

And that alone might be enough to show that Dugway is becoming the new Area 51.

324

00:30:30,706 --> 00:30:34,706

But the sighting alone wasn't the end of Bob's experiences.

325

00:30:35,706 --> 00:30:42,707

Out in the general area this craft was traveling. We come up to an old sheep corral.

326

00:30:43,708 --> 00:30:49,709

I observed two horses their heads were decapitated. I got some photos that I took of those mutilated horses.

327

00:30:50,709 --> 00:30:55,710

The horses were about 10 to 11 feet apart laying the same identical way.

328

00:30:56,710 --> 00:30:57,710

As if they were placed there.

329

00:30:57,710 --> 00:31:04,711

Laying exactly. Exactly. Their heads had almost like laser precision cuts along their jaw bones where the hide had been removed.

330

00:31:05,711 --> 00:31:07,712

And I found no traces of blood off either animal.

331

00:31:08,712 --> 00:31:18,713

His story brings me back to what Lee told us about Dugway Proving Ground having no compunctions about using humans and animals as guinea pigs for biological weapons testing during the Cold War.

332

00:31:19,714 --> 00:31:26,715

Dugway not only be testing advanced craft but possibly also advanced laser weapons and using the horses as test subjects.

333

00:31:27,715 --> 00:31:32,716

We do have mount lines out there. We have badgers and we do have coyotes.

334

00:31:33,716 --> 00:31:39,717

So if small predators and stuff were going to be feeding off these things you would actually see bite marks and rips tearing apart at them.

335

00:31:40,717 --> 00:31:42,717

These weren't rips. These were precision cuts.

336

00:31:43,717 --> 00:31:44,718

Were there any missing organs?

337

00:31:44,718 --> 00:31:48,718

The eyes were gone and the lips around the horses were gone too.

338

00:31:50,719 --> 00:31:55,719

Well the horse mutilations that Bob described seemed to fit everything that we've already seen.

339

00:31:57,720 --> 00:32:02,721

So it's very interesting that we have a very strange UFO sighting and this very strange mutilation.

340

00:32:02,721 --> 00:32:13,722

Well do you think there's some connection between these mutilations and other activity that's going on around here?

341

00:32:14,723 --> 00:32:21,724

It could be part of extraterrestrial conducting experiments. It could even be part of the Dugway Proving Ground conducting experiments as well.

342

00:32:21,724 --> 00:32:31,725

The story of what Bob Ward discovered doesn't necessarily prove that Area 51 has moved its operations to Dugway.

343

00:32:32,725 --> 00:32:38,726

But it does indicate that advanced aeronautical craft and laser-like technology do have a role here.

344

00:32:39,727 --> 00:32:46,728

So my next step is to speak with more witnesses who might have seen advanced laser technology here at Dugway.

345

00:32:52,729 --> 00:32:54,729

The alien Dave.

346

00:32:55,729 --> 00:32:59,730

Dave. How's it going?

347

00:33:00,730 --> 00:33:02,730

Thank you Dave. Thank you for coming out to see us today.

348

00:33:03,731 --> 00:33:04,731

Good to see you.

349

00:33:05,731 --> 00:33:11,732

We're meeting with Dave Rosenfeld who is a Utahuophilologist and he's had a lot of very unique experiences.

350

00:33:12,732 --> 00:33:17,733

It's going to be worth it to see exactly where Dave witnessed these unique events and to hear the stories behind them.

351

00:33:18,733 --> 00:33:27,734

We're at the Dugway Proving Ground and right down here is Michael Airfield. This whole area is the military airfield.

352

00:33:28,735 --> 00:33:32,735

We are about right here and we need to go right about here.

353

00:33:33,735 --> 00:33:37,736

Now the only way to get there is really on ATV. You're not going to be driving a car down here because the train is pretty rough.

354

00:33:38,736 --> 00:33:39,736

So you brought some ATVs for us?

355

00:33:40,737 --> 00:33:41,737

Yes we did.

356

00:34:17,743 --> 00:34:23,744

The ATV route takes us largely due south towards the border of the southern segment of the Utah test and training range or UTTR.

357

00:34:24,744 --> 00:34:29,745

Now UTTR is administered by the Air Force while the Army runs Dugway Proving Ground.

358

00:34:30,745 --> 00:34:35,746

However both these facilities frequently collaborate and host experiments for all the military branches.

359

00:34:48,748 --> 00:34:53,749

As you can see this is the bombing range.

360

00:34:56,749 --> 00:34:58,749

Right over that mountains where we've seen the test.

361

00:34:59,750 --> 00:35:00,750

We were parked right about here.

362

00:35:01,750 --> 00:35:02,750

Right where we're at.

363

00:35:03,750 --> 00:35:07,751

It's about one o'clock in the morning and we see this what looks like an arc welder off in the distance.

364

00:35:08,751 --> 00:35:12,752

This is huge flashing light and then the beam shot out the middle of it.

365

00:35:12,752 --> 00:35:16,752

It looked reddish in color actually and the light coming off the ground was white.

366

00:35:17,752 --> 00:35:20,753

There were a little bit of thin clouds above that and you can see it go through the clouds.

367

00:35:21,753 --> 00:35:22,753

How long did this beam last?

368

00:35:23,753 --> 00:35:26,754

Probably about four minutes and then it was shut off like a light switch.

369

00:35:27,754 --> 00:35:28,754

How wide was the beam would you say?

370

00:35:29,754 --> 00:35:31,755

I thought it was to compare it to something at least as wide as a car.

371

00:35:33,755 --> 00:35:35,755

So we're not talking about a pencil thin laser beam here?

372

00:35:36,756 --> 00:35:37,756

No not at all.

373

00:35:38,756 --> 00:35:39,756

That's huge for a laser.

374

00:35:39,756 --> 00:35:42,757

There was a slight smell of ozone in the area.

375

00:35:43,757 --> 00:35:45,757

Kind of a static electricity type of smell.

376

00:35:46,757 --> 00:35:49,758

Well you think you were smelling the actual laser or what?

377

00:35:50,758 --> 00:35:52,758

We didn't smell it before that and we didn't smell it after the testing.

378

00:35:53,758 --> 00:35:59,759

We know that during a thunderstorm ions in the atmosphere can be charged in such a way that they give off this kind of ascent.

379

00:36:00,760 --> 00:36:06,761

This is due to a partial electrical breakdown of the air by a high volume of electricity that causes the laser to explode.

380

00:36:06,761 --> 00:36:11,761

Now if this beam was creating that smell then it must be harnessing millions of watts of power.

381

00:36:12,762 --> 00:36:16,762

That's very interesting you say that this beam actually was penetrating a cloud because normally light can't go through clouds.

382

00:36:17,762 --> 00:36:24,763

The Air Force was experimenting for years with a way to bring down satellites by firing a maser and then through the maser that's the tunnel that punches a hole then there's a laser through the maser.

383

00:36:24,763 --> 00:36:31,765

And that's what this is then you are watching one of the most important anti-satellite weapons we have.

384

00:36:36,765 --> 00:36:39,766

How did you notice any other activity after the testing of this laser?

385

00:36:40,766 --> 00:36:43,767

The second time it fired we noticed these blue lines were being fired.

386

00:36:44,767 --> 00:36:46,767

The laser was being fired and the laser was being fired.

387

00:36:47,767 --> 00:36:50,768

How did you notice any other activity after the testing of this laser?

388

00:36:51,768 --> 00:36:55,769

The second time it fired we noticed these blue lights completely surrounding the beam.

389

00:36:56,769 --> 00:36:57,769

On the ground?

390

00:36:58,769 --> 00:37:01,770

On the air. These lights were acting like conventional aircraft.

391

00:37:02,770 --> 00:37:04,770

Did they fly in or did they just pop up?

392

00:37:05,770 --> 00:37:10,771

They more or less was just there and then when the soon as that beam stopped they were gone.

393

00:37:10,771 --> 00:37:14,772

Was this beam a beacon that was meant to attract UFOs?

394

00:37:15,772 --> 00:37:19,772

Or did the UFO sense this was a weapon and arrive to surveil it?

395

00:37:21,773 --> 00:37:25,773

I got from Fox actually spent a year trying to find out what exactly we've seen out here.

396

00:37:26,774 --> 00:37:28,774

He contacted the PR person.

397

00:37:29,774 --> 00:37:35,775

First she denied it then she changed her story a little bit and said well there was military

contractors out there doing some tests.

398

00:37:35,775 --> 00:37:37,775

And that was more or less the end of it.

399

00:37:38,776 --> 00:37:43,776

Alien Dave's reporting of a bizarre beam test was met with stonewalling and denial from military officials.

400

00:37:44,777 --> 00:37:46,777

But it's not the only strange test he's seen here.

401

00:37:47,777 --> 00:37:49,777

One of the planes just disappeared.

402

00:37:50,778 --> 00:37:51,778

Like this thing vanished.

403

00:37:52,778 --> 00:37:54,778

And they were flying in formation right next to each other.

404

00:37:55,778 --> 00:37:57,779

You still see the one but not the other.

405

00:38:06,780 --> 00:38:13,781

We've taken ATVs out to the fence line along the boundary of the Utah test and training range.

406

00:38:14,781 --> 00:38:18,782

The fence line runs literally as far as the eye can see in a perfect straight line.

407

00:38:19,782 --> 00:38:24,783

Our eye witness Dave Rosenfeld has seen things that are anything but normal.

408

00:38:28,784 --> 00:38:32,784

One night we were out here and we watched these two jets come by and see the beacon lights on them.

409

00:38:33,785 --> 00:38:39,786

And as they got near the fence line over here one of the planes just upright disappeared.

410

00:38:40,786 --> 00:38:42,786

No more lights and no silhouette of the plane at all.

411

00:38:43,786 --> 00:38:44,786

And they were flying in formation right next to each other.

412

00:38:45,787 --> 00:38:47,787

You still see the one but not the other.

413

00:38:48,787 --> 00:38:49,787

So are we talking about invisibility technology here?

414

00:38:50,787 --> 00:38:51,788

Could be.

415

00:38:52,788 --> 00:38:57,789

Were there any other things you saw that had the same kind of technology disappearing planes or stuff like that?

416

00:38:57,789 --> 00:38:59,789

Yes, same year. I think it was in August.

417

00:39:00,789 --> 00:39:08,790

We were back out here checking out the location once again and we noticed this dust trail off in the desert down in the valley here.

418

00:39:09,790 --> 00:39:10,791

And you can see the dust trail but no vehicle.

419

00:39:11,791 --> 00:39:12,791

How do you know that wasn't a dust devil?

420

00:39:13,791 --> 00:39:17,792

Well we see dust devils out here all the time and dust devils don't go 60, 70 miles an hour.

421

00:39:18,792 --> 00:39:19,792

Wow. So what year was this?

422

00:39:20,792 --> 00:39:23,793

Same year 2004. There was a lot of activity that year.

423

00:39:23,793 --> 00:39:28,794

Well yeah, they're mustening. That's the same year that Bob Ward saw his UFO and the mutilated horses.

424

00:39:29,794 --> 00:39:34,795

And that's the same year that this whole area that the Army wanted to expand Doug Wake Rubin Grads.

425

00:39:35,795 --> 00:39:36,795

That's true.

426

00:39:38,795 --> 00:39:44,796

Dave's sighting of this massive laser, Bob's UFO encounter and his investigation into a nearby horse mutilation.

427

00:39:45,796 --> 00:39:48,797

Now I'm starting to believe that these guys really are living next to the new Area 51.

428

00:39:49,797 --> 00:39:54,798

Dave, you've been around here for a long time and what evidence have you seen that Doug Wake is the new Area 51?

429

00:39:55,798 --> 00:39:59,799

Well when the popular mechanics article came out saying that they did move Area 51.

430

00:40:00,799 --> 00:40:05,800

Doug Wake's security tripled. I don't believe they moved everything from Area 51 here to Doug Wake.

431

00:40:06,800 --> 00:40:12,801

They've moved projects here. I do believe they still have the Black Project planes down there but most of the space related stuff is here in Utah.

432

00:40:13,801 --> 00:40:15,801

Kind of spread your technology around a bit so it's not all in one place maybe.

433

00:40:15,801 --> 00:40:23,803

I have a funny feeling given what we saw at Area 51 last year that there's still a lot of reverse engineering going on there.

434

00:40:24,803 --> 00:40:32,804

So maybe not just Area 51, not just Doug Wake but this advanced unconventional technology is spread throughout military facilities around the country.

435

00:40:33,804 --> 00:40:35,805

Why put all your eggs in one basket?

436

00:40:45,806 --> 00:41:00,809

Well guys, this was something. What do you think the evidence tells us?

437

00:41:01,809 --> 00:41:05,809

I don't think we found enough evidence to support that Area 51 actually relocated here.

438

00:41:06,810 --> 00:41:13,811

And the high security that's going on here at Doug Wake is simply because of protecting the technology that's being tested there.

439

00:41:13,811 --> 00:41:18,812

It's national security and essentially nothing has changed besides more testing going on here.

440

00:41:19,812 --> 00:41:29,813

Any facility that's pioneered biological, chemical and radiological weapons testing would require an incredible amount of security precautions and an enormous amount of restricted airspace.

441

00:41:30,814 --> 00:41:38,815

Even if Doug Wake and UTTR have taken over some experiments from Area 51, there's just no proof that this is reverse engineered alien technology.

442

00:41:39,815 --> 00:41:45,816

I mean we've been to Area 51 Bill and it seems to me like a lot of the strange things that are going on there are going on here.

443

00:41:46,816 --> 00:41:48,816

You've got this huge beam shooting up into the sky.

444

00:41:49,817 --> 00:41:55,818

You've got Bob Ward seeing his strange UFO that has changed his life including the horse mutilations that he saw that year.

445

00:41:56,818 --> 00:41:58,818

Massive attempted expansion of Doug Wake in the same year.

446

00:41:59,818 --> 00:42:00,818

Is that all a coincidence as well?

447

00:42:00,818 --> 00:42:08,820

Well we have to really consider that a lot of this technology is reverse engineered from this alien technology that we're trying to get to the root of.

448

00:42:09,820 --> 00:42:15,821

We saw firsthand how Doug Wake reacts when it feels it's being scrutinized just like Area 51.

449

00:42:16,821 --> 00:42:22,822

The things that really stand out to me in the course of this investigation are private contractors that enjoy unparalleled privacy in their operations.

450

00:42:23,822 --> 00:42:27,823

I think the government's UFO tech secrets have shifted to Doug Wake and they're here to stay.

451

00:42:27,823 --> 00:42:31,824

It's the same story all the way around.

452

00:42:32,824 --> 00:42:35,824

UFOs are still being reverse engineered by private contractors.

453

00:42:36,824 --> 00:42:37,825

They've been doing it for 60 years.

454

00:42:38,825 --> 00:42:41,825

They're doing it now and the big picture for me is they're doing it right there at Doug Wake.

455

00:42:42,825 --> 00:42:44,826

They're doing it at a new Area 51.

456

00:42:45,826 --> 00:42:53,827

If one of Doug Wake's goals was to take over the testing and reverse engineering of UFO technology from Area 51,

457

00:42:53,827 --> 00:43:04,829

it had all the resources to do so and nothing we've learned about base security or contractor practices threatens the future of military operations there.

458

00:43:05,829 --> 00:43:10,830

And besides, this area has the highest restricted airspace on the entire planet.

459

00:43:11,830 --> 00:43:14,831

And if it's not the new Area 51, it will be.

460

00:43:14,831 --> 00:43:25,832

I went from questioning whether people are even seeing things in the sky to knowing that they are, but now questioning what exactly are they seeing.

461

00:43:26,833 --> 00:43:31,833

I believe that the majority are top secret black ops military aircraft.

462

00:43:32,834 --> 00:43:36,834

The study of anything that we can't explain is very important.

463

00:43:37,834 --> 00:43:39,835

That's how we come to answers and better understand our universe.

464

00:43:39,835 --> 00:43:41,835

So we have this phenomenon that is real.

465

00:43:42,835 --> 00:43:46,836

Maybe we can learn from these UFOs and create a better world for ourselves.

466

00:43:48,836 --> 00:43:55,837

Along the way, we've seen some incredible photographs and we've debunked the debunkers and finally a picture is coming together.

467

00:43:56,837 --> 00:44:04,839

A picture of a truth so incredible, so awesome that it would mean the end of the human race as you know it.

468

00:44:04,839 --> 00:44:15,841

That's why the government will go to any lengths to keep that truth from being disclosed because the truth is bigger than all of us.
