

1

00:00:00,450 --> 00:00:05,450

Its lights are now strobing like crazy. It is coming back.

2

00:00:05,450 --> 00:00:11,451

For more than five decades, UFOs have had some type of connection to the military.

3

00:00:11,451 --> 00:00:14,451

I noticed a strange light up there that was really, really bright.

4

00:00:14,451 --> 00:00:19,452

We heard helicopters coming. As you can hear them getting closer, it just disappeared.

5

00:00:19,452 --> 00:00:24,452

Is the military in pursuit of UFOs or attempting to bring them down?

6

00:00:24,452 --> 00:00:29,453

These people are endangered and the government's doing nothing to protect them.

7

00:00:29,453 --> 00:00:33,453

Possible proof of this first response in an amazing video.

8

00:00:33,453 --> 00:00:36,453

This looks like something from out of a science fiction movie.

9

00:00:36,453 --> 00:00:41,454

My wife witnessed two black twin rotor helicopters circling our home.

10

00:00:41,454 --> 00:00:43,454

And we're looking for something.

11

00:00:43,454 --> 00:00:48,454

Within 24 hours, another object is seen being chased by a formation of fighter jets.

12

00:00:48,454 --> 00:00:53,455

There's four to six jets there, tween a mile to two miles behind it.

13

00:00:53,455 --> 00:00:55,455

Trying to catch up to them.

14

00:00:56,455 --> 00:01:03,456

Could these cases be evidence of the military's first response to a UFO?

15

00:01:03,456 --> 00:01:08,456

This is four times the size of a stealth bomber. That is absolutely huge.

16

00:01:10,456 --> 00:01:15,457

This is Geeks number 65306, first response.

17

00:01:26,458 --> 00:01:29,458

Geeks

18

00:01:33,458 --> 00:01:42,459

Guys, we are investigating this mystery, the rationale behind the military's confrontation with UFOs.

19

00:01:42,459 --> 00:01:48,460

Are they simply going out to investigate or are they actively going out to confront these craft

20

00:01:48,460 --> 00:01:50,460

and if possible shoot them down?

21

00:01:50,460 --> 00:01:55,460

If extraterrestrials really are visiting us, they would have to intercept.

22

00:01:57,461 --> 00:02:03,461

The first response of our government and military is to protect us from all enemies, foreign and domestic.

23

00:02:03,461 --> 00:02:07,461

This includes unconventional aircraft coming into our airspace.

24

00:02:07,461 --> 00:02:12,462

When we investigate UFO dogfights, we know that we talked to Chuck Soros of Edwards Air Force Base.

25

00:02:12,462 --> 00:02:17,462

He was air traffic control and he told us that they scrambled an F-106 to investigate.

26

00:02:18,462 --> 00:02:24,463

Pilots like General Parvis Jafari over at Tehran in 1976, when there was a huge UFO sighted,

27

00:02:24,463 --> 00:02:27,463

he was scrambled in his F-4 Phantom to intercept.

28

00:02:27,463 --> 00:02:31,464

A lot of this began all the way back in 1952.

29

00:02:31,464 --> 00:02:40,464

In 1952 there were multiple encounters in what can only be described as an air war between the military and UFOs.

30

00:02:40,464 --> 00:02:45,465

And to this day, these events remain unexplained.

31

00:02:46,465 --> 00:02:54,466

Isn't there even a possibility that what we're looking at is simply an escort of the military of one of their own top secret black ops programs?

32

00:02:56,466 --> 00:03:01,466

Bill and Pat seem to believe that the military is engaging and fighting with the UFOs in our skies.

33

00:03:01,466 --> 00:03:07,467

But I think the reality is that this military presence is simply an escort for the UFO,

34

00:03:07,467 --> 00:03:11,467

which just happens to be a top secret military aircraft.

35

00:03:12,467 --> 00:03:23,468

What I think we're after is that small percentage where the Air Force or the military is actually after the UFOs is a military encounter.

36

00:03:23,468 --> 00:03:30,469

In Long Beach we just had a recent sighting in which according to this one report,

37

00:03:30,469 --> 00:03:38,470

there was an object in the sky, nobody knew what it was, and suddenly a bunch of helicopters descended on the object and the object disappeared.

38

00:03:39,470 --> 00:03:45,470

Why hasn't there been any resolution to this and it's still going on today?

39

00:03:47,470 --> 00:03:52,471

We're heading out to Long Beach, California where on March 17th 2009,

40

00:03:52,471 --> 00:04:00,472

witnesses saw a UFO in the skies that was shortly followed by a squadron of military helicopters.

41

00:04:02,472 --> 00:04:06,472

According to eyewitness Patricia Davila, they were there.

42

00:04:06,472 --> 00:04:14,473

We don't know what their intention was, but we're going to talk to Patricia to find out if the helicopters were there to observe the object,

43

00:04:14,473 --> 00:04:20,473

to escort the object, to intercept the object, or to shoot it down.

44

00:04:22,474 --> 00:04:25,474

Hi Patricia, how are you? Thanks for seeing us.

45

00:04:28,474 --> 00:04:34,475

On March 17th 2009, we saw a UFO, 10 helicopters pull up on the scene at least.

46

00:04:34,475 --> 00:04:40,475

They looked like they were looking for something, like they knew it was there, but they couldn't find it because it didn't shut all its lights off.

47

00:04:44,476 --> 00:04:49,476

We came out here and set up the tripod because the space shuttle was supposed to be showing itself,

48

00:04:49,476 --> 00:04:53,476

and I noticed often to the south that there was something amiss.

49

00:04:53,476 --> 00:04:56,477

There was a strange light up there that was really really bright.

50

00:04:57,477 --> 00:05:02,477

Patricia Davila has lived in the Long Beach, California area for more than 20 years.

51

00:05:02,477 --> 00:05:13,478

She went through training at a police academy, and has been trained by military special ops and other law enforcement officers to help in her own business in the entertainment industry.

52

00:05:13,478 --> 00:05:22,479

With such an extensive background, Patricia knows her military aircraft and feels she can readily identify any conventional craft in the sky.

53

00:05:22,479 --> 00:05:31,480

At first it looked round, and then it seemed to change to into a disc shape, and then it kind of disappeared, and then it looked like there were two objects up there.

54

00:05:33,480 --> 00:05:39,481

And then they both kind of mimicked each other and meshed back into one.

55

00:05:41,481 --> 00:05:44,481

We heard helicopters coming. We could hear them from both directions.

56

00:05:44,481 --> 00:05:49,481

Now, did the helicopters arrive while the object was still there or had it vanished?

57

00:05:49,481 --> 00:05:54,482

You could hear them while it was still there. As you could hear them getting closer, it just disappeared.

58

00:05:57,482 --> 00:05:59,482

So what do you think was going on that night?

59

00:05:59,482 --> 00:06:04,483

I think they were looking for it. I've never seen that many helicopters ever in Long Beach, not at one place.

60

00:06:04,483 --> 00:06:09,483

There were two that came off from here, there were six that came from here, there were two that came back from here, and then we lost count.

61

00:06:09,483 --> 00:06:16,484

We saw over 10 helicopters come out here. It was either the military and or the local police department.

62

00:06:18,484 --> 00:06:23,485

Patricia has good reason to believe these helicopters were police and military.

63

00:06:23,485 --> 00:06:28,485

Her house is nearly surrounded by military installations and commercial airports.

64

00:06:28,485 --> 00:06:37,486

Luckily for us, during this unexplained event, she used a digital camera and a tripod to capture multiple photographs of the UFO.

65

00:06:37,486 --> 00:06:40,486

So can we see the photos? Absolutely, follow me.

66

00:06:40,486 --> 00:06:41,486

Follow you.

67

00:06:50,487 --> 00:06:53,487

Now, is this afternoon flattened out to that disk shape?

68

00:06:55,487 --> 00:06:57,488

That's not what you saw with your naked eye.

69

00:06:57,488 --> 00:07:04,488

I took it in 8-Sonic intervals because I wasn't sure whether or not the night shots on my camera would actually shoot what I was seeing.

70

00:07:05,488 --> 00:07:12,489

Patricia used an 8-second exposure on the camera, which means that the shutter was open for 8 seconds and captured the movement of the object.

71

00:07:12,489 --> 00:07:19,490

This photographic technique offers some very bizarre looking images that can result in strobing effects or streaks through the night sky.

72

00:07:20,490 --> 00:07:24,490

How can we know that this isn't just the result of having slow shutter speed?

73

00:07:24,490 --> 00:07:29,491

Because they took a couple of photos at a 30th of a second that show the two spheres together.

74

00:07:31,491 --> 00:07:33,491

Do you believe photos are the helicopters?

75

00:07:33,491 --> 00:07:34,491

Yes, they do.

76

00:07:38,491 --> 00:07:41,492

These look very different from the lights in the other photo.

77

00:07:41,492 --> 00:07:49,492

We don't know what this object is, but looking at the photographs of the UFO and the helicopters, they look nothing alike.

78

00:07:50,492 --> 00:07:54,493

There were two coming from Los Alamedos training center area.

79

00:07:54,493 --> 00:08:00,493

There were six coming from this direction from Long Beach, and then there were another two coming from the airport.

80

00:08:01,493 --> 00:08:15,495

Patricia Davila's house is located among the Los Alamedos Armed Forces Reserve Center, the Naval Weapons Testing Center in Seal Beach, and a naval base in Long Beach.

81

00:08:15,495 --> 00:08:21,495

It's very possible that the helicopters could have come from any one of these installations.

82

00:08:22,495 --> 00:08:24,495

Are you sure they were all working together?

83

00:08:24,495 --> 00:08:28,496

Yes, they were. They were coming towards this craft trying to corner it or something.

84

00:08:30,496 --> 00:08:34,496

One theory is that the helicopters were part of an escort.

85

00:08:34,496 --> 00:08:40,497

Another theory is that these helicopters were investigating this UFO, possibly even attacking it.

86

00:08:40,497 --> 00:08:48,498

The third possibility is that there was a search party that night going on over Long Beach, California, and this UFO was simply the first on the scene,

87

00:08:48,498 --> 00:08:50,498

misinterpreted as some sort of unconventional craft.

88

00:08:51,498 --> 00:08:53,498

Were there any other people seeing this?

89

00:08:53,498 --> 00:09:00,499

I sent my kids out to knock on every neighbor's door that they could get their hands on, and they did, and they got my neighbor, Laura.

90

00:09:01,499 --> 00:09:05,499

It's becoming clear that she was not the only witness to this sighting.

91

00:09:05,499 --> 00:09:12,500

One person who corroborated the entire story is Laura Pantor, who saw the object and saw the helicopters.

92

00:09:14,500 --> 00:09:19,500

On March 17, 2009, I witnessed military aircraft converge on a UFO.

93

00:09:19,500 --> 00:09:29,501

And it was right before eight o'clock, right above the telephone pole lines, was a glowing ball of white light hovering.

94

00:09:31,502 --> 00:09:35,502

We watched it for about five minutes, and then it just started drifting southwest.

95

00:09:35,502 --> 00:09:40,502

All of a sudden it just disappeared, and we had heard helicopters coming.

96

00:09:41,502 --> 00:09:49,503

While Laura is telling us corroborates Patricia's statement that it wasn't until this group of helicopters arrived that the mysterious object disappeared.

97

00:09:50,503 --> 00:09:55,504

45 minutes to an hour after the light went out, there was three groups of helicopters.

98

00:09:55,504 --> 00:10:01,504

I think they were mixed with police and military, and the police ones had their search lights on.

99

00:10:01,504 --> 00:10:06,505

They weren't really searching on the ground. They were searching for something in the sky.

100

00:10:06,505 --> 00:10:13,505

They didn't know what they were looking for, and they were literally playing this mouse game, and no one knew where the mouse was.

101

00:10:14,505 --> 00:10:21,506

We know that the object winked out, dematerialized, disappeared, even before the helicopters came here.

102

00:10:22,506 --> 00:10:28,507

And we know the helicopter was spent in an ordinate amount of time in some kind of frenzied search pattern.

103

00:10:29,507 --> 00:10:36,507

If it's ours, why would military helicopters be after one of their own? Everything is wrong about this.

104

00:10:39,508 --> 00:10:45,508

We live under the flight path for Long Beach Airport, and the airliners come this way in their landing direction.

105

00:10:45,508 --> 00:10:52,509

And in this case, the traffic was diverted for about 45 minutes, and I've lived here almost 10 years. I've never seen traffic diverted.

106

00:10:53,509 --> 00:10:59,509

This isn't just about the UFO sighting. We also learned that there was unusual military activity in the air,

107

00:10:59,509 --> 00:11:06,510

and that air traffic in the Long Beach Airport was completely rerouted from its normal path all the way around this way.

108

00:11:06,510 --> 00:11:08,510

So this is very unusual activity.

109

00:11:11,511 --> 00:11:18,511

After our investigation of the Long Beach sighting, we've learned of another event in Corona, California that same evening.

110

00:11:19,511 --> 00:11:27,512

So we're heading to Corona, about 50 miles away from Patricia's house, to meet with eyewitness Mike, who wants his identity completely anonymous.

111

00:11:32,512 --> 00:11:36,513

In March 2009, I witnessed two different sightings of UFO,

112

00:11:37,513 --> 00:11:44,514

shortly after my wife observed two large, black, twin rotor helicopters circling our home.

113

00:11:44,514 --> 00:11:46,514

What do you think you saw that night?

114

00:11:46,514 --> 00:11:50,514

I don't know. I can't explain it. It's changed my whole life.

115

00:11:52,514 --> 00:12:03,515

We're here meeting with Mike, not his real name, who on March 17th, 2009, shot some very interesting video of what he says is a UFO.

116

00:12:03,515 --> 00:12:11,516

Apparently the military thought it was interesting also, because they surveilled this house after that date. We're really anxious to see this video.

117

00:12:16,516 --> 00:12:22,517

This is into the tape a little bit, and that, I believe, is a star that you're seeing it go by.

118

00:12:25,517 --> 00:12:27,517

I mean, this looks like something from out of a science fiction movie.

119

00:12:27,517 --> 00:12:28,518

It does, so...

120

00:12:28,518 --> 00:12:35,518

You have the star as a frame of reference in the background, and this thing is just cruising around, like on a joyride.

121

00:12:38,518 --> 00:12:42,519

This is the most impressive video footage that I've ever seen of a UFO.

122

00:12:42,519 --> 00:12:46,519

And if this is real, this is literally rocking my skepticism.

123

00:12:46,519 --> 00:12:51,520

And there's something in the sky, and it's flying, and it's not a conventional craft, that's for sure.

124

00:12:51,520 --> 00:12:55,520

What exactly this is, I don't know yet, but I'm a little shaken.

125

00:12:57,520 --> 00:12:59,520

So what movement did you actually see with your own eyes?

126

00:13:00,520 --> 00:13:01,520

It was darting back and forth.

127

00:13:01,520 --> 00:13:09,521

At times it was going up and down, and it actually dropped a few times from a very high altitude to the ground.

128

00:13:10,521 --> 00:13:14,522

It went behind the homes, and then reappeared at the same height it was.

129

00:13:17,522 --> 00:13:21,522

You want the smoking gun? Is that the smoking gun?

130

00:13:21,522 --> 00:13:28,523

Well, this is definitely a UFO. I honestly can't decide whether it's extraterrestrial or military.

131

00:13:29,523 --> 00:13:34,523

And even the flight pattern of this, it just kind of drifts to the left, drifts to the right.

132

00:13:34,523 --> 00:13:35,524

Exactly.

133

00:13:35,524 --> 00:13:38,524

It kind of hovers, it has the same type of movement as a long beach craft.

134

00:13:40,524 --> 00:13:49,525

We're investigating the military's first response to UFO activity.

135

00:13:50,525 --> 00:13:58,526

We're in Coronic, California, where on March 17th, a witness named Mike, who wishes to remain anonymous,

136

00:13:58,526 --> 00:14:02,526

saw an unidentified object in the skies near his house.

137

00:14:02,526 --> 00:14:09,527

That's the very same night Patricia Davila saw the UFO over her house in Long Beach.

138

00:14:10,527 --> 00:14:21,528

According to his testimony, Mike's wife told him that military helicopters circled his house shortly after Mike sighted.

139

00:14:21,528 --> 00:14:23,528

A coincidence? I don't think so.

140

00:14:26,528 --> 00:14:28,528

What's over in that direction?

141

00:14:28,528 --> 00:14:35,529

Actually, Lake Matthews and March Air Force Base are direct line of sight where this was flying.

142

00:14:36,529 --> 00:14:39,529

And let's consider the possibility that this is a hoax.

143

00:14:39,529 --> 00:14:47,530

And somebody is simply flying a remote control helicopter that has lights strung around the sides.

144

00:14:47,530 --> 00:14:49,530

Maybe it's not 10, 12 miles away.

145

00:14:49,530 --> 00:14:55,531

Like you thought it's actually a lot closer, but because the object is smaller, it gives the impression of distance.

146

00:14:56,531 --> 00:15:01,531

Have you shown this video to anybody else?

147

00:15:01,531 --> 00:15:04,532

I did. To a colleague at work.

148

00:15:04,532 --> 00:15:08,532

How did that person react to seeing the video?

149

00:15:08,532 --> 00:15:14,532

He was blown away. He couldn't explain it. He was completely stunned.

150

00:15:14,532 --> 00:15:17,533

Did you ask him not to tell anybody?

151

00:15:17,533 --> 00:15:20,533

Uh, no.

152

00:15:21,533 --> 00:15:27,534

It's not just the sighting that sounds so incredible. It's what happened next that blows my mind.

153

00:15:27,534 --> 00:15:35,534

Several days later, my wife witnessed two large, black, wind-rotor helicopters circling our home.

154

00:15:38,535 --> 00:15:40,535

My wife was a fairy shaken up by it.

155

00:15:40,535 --> 00:15:46,535

So she knew instinctively that something was looking for something. They were directly above our home.

156

00:15:47,535 --> 00:15:52,536

So what you're saying is this, on the 16th is the first time you saw this object and you videotaped it.

157

00:15:52,536 --> 00:15:53,536

That's correct.

158

00:15:53,536 --> 00:15:57,536

The next day on the 17th of March, you actually tell someone at work.

159

00:15:57,536 --> 00:15:58,536

I did.

160

00:15:58,536 --> 00:16:03,537

And then that same night, you see this object for the second time, the same object. You videotape it again.

161

00:16:03,537 --> 00:16:05,537

Yes, for 30 minutes.

162

00:16:05,537 --> 00:16:14,538

And then two days later, on March 19th, your wife reports that there are two black, unmarked helicopters flying around your home,

163

00:16:14,538 --> 00:16:16,538

as though they're looking for something.

164

00:16:16,538 --> 00:16:18,538

Correct.

165

00:16:18,538 --> 00:16:24,539

Given Mike's employment with a DOD contractor and the fact that he brought these videos to work,

166

00:16:24,539 --> 00:16:30,539

does suggest a connection between the craft he witnessed and the unmarked helicopters seen shortly after.

167

00:16:30,539 --> 00:16:36,540

But, it wasn't just the appearance of these helicopters that points to a military connection.

168

00:16:37,540 --> 00:16:43,541

A month after I was laid off, their reasoning was that they were going in a different direction,

169

00:16:43,541 --> 00:16:50,541

which didn't make any sense to me because I was hired there under strict statement of what my duties were,

170

00:16:50,541 --> 00:16:52,541

and I was meeting all of those duties.

171

00:16:52,541 --> 00:16:54,542

When did you get the lay-off notice?

172

00:16:54,542 --> 00:16:56,542

I didn't get any notice.

173

00:16:56,542 --> 00:17:01,542

I came back from lunch and I was walked off the facility by armed guards.

174

00:17:01,542 --> 00:17:06,543

Did you feel it was somehow in relation to the mentioning of the object at work?

175

00:17:06,543 --> 00:17:08,543

I do.

176

00:17:08,543 --> 00:17:11,543

Did the video contribute to Mike's lay-off?

177

00:17:11,543 --> 00:17:17,544

It's possible, but it's also possible that tough economic times and budget cutbacks was the reason for his dismissal.

178

00:17:17,544 --> 00:17:20,544

This is close to an Air Force base.

179

00:17:20,544 --> 00:17:25,544

The Department of Defense might have had knowledge of this sighting and might have done something about it.

180

00:17:25,544 --> 00:17:30,545

I mean, to me, a lot of what's going on here screams military, military, military.

181

00:17:30,545 --> 00:17:39,546

In the Long Beach sighting, helicopters came from military bases, different agencies to scour the skies for this.

182

00:17:39,546 --> 00:17:47,546

If this were a military, why would this be over roughly a residential neighborhood or a lake?

183

00:17:47,546 --> 00:17:54,547

Why would military helicopters chase as if they're searching for a military test craft?

184

00:17:57,547 --> 00:17:59,547

Could this be too good to be true?

185

00:17:59,547 --> 00:18:01,548

The video looks great.

186

00:18:01,548 --> 00:18:04,548

A close-up video of a donut-shaped object.

187

00:18:04,548 --> 00:18:11,548

We all heard about the donut-shaped object that Harold Dahl saw over Moray Island in 1947.

188

00:18:11,548 --> 00:18:13,549

Could this be it?

189

00:18:13,549 --> 00:18:15,549

Could this be the smoking gun?

190

00:18:17,549 --> 00:18:25,550

For both the Long Beach and Corona sightings, I took coordinate and clinometer measurements to see if there was some sort of geographic connection between these two sightings.

191

00:18:25,550 --> 00:18:34,551

I made some calculations based on these readings, and given the location of Patricia's sighting in Long Beach and Mike's sighting in Corona, I don't think they saw the same craft.

192

00:18:34,551 --> 00:18:40,551

What I'm most interested in seeing is if these objects can be identified through image and video analysis.

193

00:18:40,551 --> 00:18:47,552

We're going to meet with Al Murphy of Analysis of Motion to see if he can identify the object in Patricia's photos and Mike's video.

194

00:18:48,552 --> 00:18:54,552

This is one photo that looks probably most interesting of the ones that I've seen.

195

00:18:54,552 --> 00:18:56,553

At least it has some sort of a shape.

196

00:18:56,553 --> 00:19:00,553

I've zoomed way in here to try and pick up like an outline.

197

00:19:00,553 --> 00:19:05,553

I've played with a little bit of image processing to try and pick up something in the background.

198

00:19:05,553 --> 00:19:08,554

But basically all I'm seeing is the lights.

199

00:19:08,554 --> 00:19:14,554

Now I understand that this is an eight second exposure, rather than just one second exposure.

200

00:19:14,554 --> 00:19:21,555

So we have what looks like probably pulsating lights over maybe one second per pulse.

201

00:19:21,555 --> 00:19:26,555

So AI, do you think that last cluster of four lights is the object?

202

00:19:26,555 --> 00:19:32,556

It's the brightest exposure at the end of the multiple exposure, and I think that that's the object.

203

00:19:32,556 --> 00:19:38,556

Does this strike you as a conventional aircraft? Would you be able to tell? Is this an airplane? Does this seem unusual to you at all?

204

00:19:38,556 --> 00:19:40,556

We don't have the red and the green lights.

205

00:19:40,556 --> 00:19:45,557

If it was a landing light, it would be on all the time. We would see a streak.

206

00:19:45,557 --> 00:19:50,557

I would say that from the shape of the lights, it doesn't look like a conventional aircraft.

207

00:19:52,558 --> 00:19:56,558

Are there any specifics about this craft that you can determine from these photographs?

208

00:19:56,558 --> 00:19:59,558

We had two witnesses estimate that it was a quarter mile away.

209

00:19:59,558 --> 00:20:03,559

Given that it would be a quarter of a mile away,

210

00:20:03,559 --> 00:20:07,559

let's say it's a quarter of a mile away from the aircraft,

211

00:20:07,559 --> 00:20:15,560

let's just say that it looks like 30 degrees. These lights could be 50 feet in diameter.

212

00:20:15,560 --> 00:20:21,560

AI thinks that these objects could be about 50 feet in diameter, but given the long exposure time,

213

00:20:21,560 --> 00:20:27,561

I think we could be looking at something much smaller, but just exaggerated because of the way these pictures were taken.

214

00:20:27,561 --> 00:20:34,561

Well, what if it's not one object? What if we're looking at four separate orbs that are traveling in formation?

215

00:20:34,561 --> 00:20:36,562

Four separate helicopters.

216

00:20:36,562 --> 00:20:45,562

Do you see anything in that final cluster of four that would suggest to you that it's a helicopter?

217

00:20:45,562 --> 00:20:46,562

No.

218

00:20:50,563 --> 00:20:55,563

We also investigated this case in Corona, California, in which a man videotaped this strange ring-like object.

219

00:20:55,563 --> 00:21:01,564

We think it's a UFO in some of the most exciting video footage we've seen yet, and we'd like to know your opinion on it.

220

00:21:02,564 --> 00:21:10,565

The first image that we have here is basically the largest indication of what it is throughout the whole video.

221

00:21:10,565 --> 00:21:15,565

It's zoomed in quite a bit. The object seems to have kind of a donut shape to it,

222

00:21:15,565 --> 00:21:21,566

and with the local background and the image processing, I can kind of recover that shape.

223

00:21:22,566 --> 00:21:30,566

Can you tell from looking at this if this is a solid ring of light or these separate lights in kind of a circle formation?

224

00:21:30,566 --> 00:21:35,567

If I look at this image, it looks to me like there's a ring of separate lights.

225

00:21:36,567 --> 00:21:42,567

I think AI's analysis is starting to confirm that this object has a much more conventional explanation.

226

00:21:42,567 --> 00:21:49,568

What I see is that it's entirely possible that this is a remote-operated vehicle.

227

00:21:49,568 --> 00:21:54,569

That would also explain its ability to make sharp, fast turns.

228

00:21:54,569 --> 00:21:58,569

AI thinks this craft could be a remote-controlled vehicle,

229

00:21:58,569 --> 00:22:04,569

and reminds me of a similar man-made craft developed in 2008, less than 30 miles away.

230

00:22:04,569 --> 00:22:07,570

When we compare the photos of this vehicle to Mike's footage,

231

00:22:07,570 --> 00:22:12,570

I think it's possible he videotaped one of these remote-controlled UFOs.

232

00:22:12,570 --> 00:22:16,571

Although Mike's video might not be a true UFO,

233

00:22:16,571 --> 00:22:21,571

we have another report of a similar military response on the same night.

234

00:22:24,571 --> 00:22:26,571

Hey, Trevor, how are you?

235

00:22:26,571 --> 00:22:27,572

Oh, doing alright.

236

00:22:27,572 --> 00:22:33,572

Trevor Louder is a software developer and amateur astronomer that's lived in the Lake Havasu City, Arizona.

237

00:22:33,572 --> 00:22:37,572

From more than 25 years, he frequently sees military aircraft in the area,

238

00:22:37,572 --> 00:22:41,573

including B-2 bombers, military jets, and refueling aircraft,

239

00:22:41,573 --> 00:22:45,573

so he is well-versed in what the military is flying.

240

00:22:45,573 --> 00:22:52,574

And he said that what he saw that day, which just happens to be within 24 hours of the sightings in Corona and Long Beach,

241

00:22:52,574 --> 00:22:55,574

is nothing like he's ever seen before.

242

00:22:57,574 --> 00:23:00,575

The event took place pretty much every day,

243

00:23:01,575 --> 00:23:04,575

the event took place pretty much right along the horizon here.

244

00:23:06,575 --> 00:23:11,576

It was about 7 o'clock at night, and what I saw was a boomerang-shaped craft.

245

00:23:11,576 --> 00:23:17,576

I could make it out by the fact that it was blocking the starlight out as it was traveling against the night sky.

246

00:23:19,576 --> 00:23:26,577

I could see very clearly orange or amber orbs attached to the bulk of the body,

247

00:23:26,577 --> 00:23:32,577

and from this vantage point, I could see one extended wing of some sort.

248

00:23:32,577 --> 00:23:35,578

It had an additional light on the tip of it.

249

00:23:35,578 --> 00:23:42,578

When the craft came overhead, and I was able to actually make out a second portion of it,

250

00:23:42,578 --> 00:23:45,579

it was actually the bulk of the body with two wings.

251

00:23:45,579 --> 00:23:48,579

It was anywhere between 3 and 400 feet wide.

252

00:23:50,579 --> 00:23:54,579

And when it made this turn, did it bank or did it make a sharp turn?

253

00:23:54,579 --> 00:23:56,580

It seemed to make a sharp turn.

254

00:23:56,580 --> 00:24:03,580

The lights stayed horizontal in proportion, whereas a normal craft would sort of tilt this way.

255

00:24:03,580 --> 00:24:05,580

The craft didn't do that at all.

256

00:24:05,580 --> 00:24:10,581

It maintained its horizontal latitude and just made the turn and started coming straight back towards it.

257

00:24:10,581 --> 00:24:14,581

What about the speed? Did it slow down to make the turn or to make it at the same speed?

258

00:24:14,581 --> 00:24:16,581

The speed was definitely consistent.

259

00:24:18,582 --> 00:24:20,582

What about the jets? You said it was chased by jets?

260

00:24:20,582 --> 00:24:22,582

It was chased by fighter jets.

261

00:24:22,582 --> 00:24:27,582

Given the strobe pattern, I could tell that there was a minimum of four.

262

00:24:27,582 --> 00:24:32,583

What originally brought this to my attention was the sound of the afterburners on the jets.

263

00:24:32,583 --> 00:24:37,583

Just given that engine sound, I could tell that they were trying to catch up to it.

264

00:24:40,584 --> 00:24:43,584

Trevor, did it look like this object was heading in a specific direction?

265

00:24:43,584 --> 00:24:46,584

I could tell that the craft was heading in a northern direction,

266

00:24:46,584 --> 00:24:49,584

and it was definitely headed towards Needles, California.

267

00:24:50,584 --> 00:24:57,585

What's interesting about Trevor's description is that the craft turned and headed back toward Needles, California.

268

00:24:57,585 --> 00:25:04,586

That's the site of the May 2008 crash, which was the subject of our investigation last year.

269

00:25:06,586 --> 00:25:08,586

Trevor, we're excited. Show us what you got.

270

00:25:08,586 --> 00:25:09,586

Absolutely.

271

00:25:20,587 --> 00:25:28,588

We're investigating multiple UFO sightings that took place on March 17th and March 18th in 2009.

272

00:25:28,588 --> 00:25:36,589

And each sighting was followed by what seems to be the military's first response to a UFO presence.

273

00:25:37,589 --> 00:25:42,589

Are they intercepting the objects? Engaging the objects.

274

00:25:42,589 --> 00:25:46,590

We don't know, but we're about to view Trevor Louder's video.

275

00:25:46,590 --> 00:25:48,590

Maybe that's going to help us figure this out.

276

00:25:49,590 --> 00:25:52,590

What you can see here is the western horizon.

277

00:25:54,590 --> 00:25:59,591

Traveling south, what really stood out to me were these amber orbs that were attached to it.

278

00:25:59,591 --> 00:26:07,591

They seemed to be in sort of an oval shape, and there seemed to be several of them attached to the bulk of the craft.

279

00:26:08,591 --> 00:26:20,593

Coming into focus here in just a moment, we're going to see a solitary light on the end of the object, and you're able to kind of make out a wing.

280

00:26:23,593 --> 00:26:26,593

Now, when this flew overhead, I was able to make out a second wing.

281

00:26:26,593 --> 00:26:33,594

So what we're looking at here is a fuselage wing, and then what you don't see is that other wing tip.

282

00:26:34,594 --> 00:26:41,594

Trevor's testimony is very interesting, and if his estimation of the size of this object is correct, he may be on to something.

283

00:26:41,594 --> 00:26:46,595

But the video is very shaky, so it's hard to get a reference point to determine just how large this object really is.

284

00:26:47,595 --> 00:26:54,596

So what is it about this craft that strikes you as being unconventional, possibly extraterrestrial?

285

00:26:55,596 --> 00:27:08,597

It's sheer size. The sheer size of it. I can tell that it was at least three or four hundred feet long, and I can't think of a single craft that is that large that will travel through the sky at seven or eight hundred miles an hour.

286

00:27:10,597 --> 00:27:17,598

A 747 jet has a wingspan of a hundred and ninety-five feet, and a B2 stealth bomber has a wingspan of a hundred and seventy-five feet.

287

00:27:17,598 --> 00:27:23,598

If Trevor's estimations of this object are correct, then we are talking about a gigantic aircraft.

288

00:27:25,598 --> 00:27:32,599

Here we can see the fighter jets. There's four to six jets there scrambling behind the craft.

289

00:27:32,599 --> 00:27:35,599

I see it. And about what distance would you say they were from the craft?

290

00:27:35,599 --> 00:27:40,600

I would have to say they were anywhere between a mile to two miles behind it, trying to catch up to it.

291

00:27:41,600 --> 00:27:52,601

As I look at this, one of the things that I'm thinking is, you want to say this is a military weapon and they're escorting it, but the fact that they've got their afterburners on really bothers me.

292

00:27:52,601 --> 00:27:53,601

Right.

293

00:27:53,601 --> 00:27:55,601

Because they wouldn't be escorting with afterburners.

294

00:27:58,601 --> 00:28:03,602

Bill is saying that because these jets are using their afterburners, this means that they are chasing the object.

295

00:28:03,602 --> 00:28:08,602

But this could very well mean that they are using the afterburners to simply catch up.

296

00:28:09,602 --> 00:28:12,603

Have you ever seen a B2 bomber and could this simply have been that?

297

00:28:12,603 --> 00:28:18,603

I have seen several B2 bombers in the area. Again, we are between a couple of different military establishments here.

298

00:28:18,603 --> 00:28:26,604

I frequently see bombers, fighters, commercial aircraft flying through the area, and this doesn't compare. It's not even close.

299

00:28:26,604 --> 00:28:28,604

How so? In terms of size?

300

00:28:28,604 --> 00:28:36,605

Oh, absolutely. Size, the amber, light arrangement, the orbs that are attached to this thing each represent nearly the size of a standard aircraft.

301

00:28:36,605 --> 00:28:44,606

You've seen this thing multiple times. You have video, you've kept notes, you've taken records. What do you think this craft was?

302

00:28:44,606 --> 00:28:48,606

Honestly, Kevin, I have no idea what this object could be.

303

00:28:49,606 --> 00:28:57,607

After talking to Trevor, it's clear that he saw an object followed by a military first response.

304

00:28:58,607 --> 00:29:03,607

We don't know if that's a sign of aggression or support.

305

00:29:07,608 --> 00:29:11,608

Lay them out.

306

00:29:13,608 --> 00:29:22,609

We started with patricius sighting in Long Beach. Now that object was drifting and hovering, heading in a general southern direction towards the naval weapons station at Seal Beach.

307

00:29:23,609 --> 00:29:31,610

What we have going on here in Lake Havasu, that is very interesting. We have military jets possibly chasing a UFO.

308

00:29:31,610 --> 00:29:37,610

Heading at first south, hangs a quick 30 degree turn, heads back toward needles.

309

00:29:37,610 --> 00:29:43,611

I think we might be looking too closely for a connection. It's also possible that these are just isolated incidents.

310

00:29:43,611 --> 00:29:46,611

And it's just a coincidence that happened around the same date.

311

00:29:46,611 --> 00:29:53,612

Even if they are, to me, it's the military presence. Military helicopters, military jets in an attack formation.

312

00:29:53,612 --> 00:29:58,612

That's the connection we can make between these cases. The military is involved in one way or another.

313

00:29:58,612 --> 00:30:09,613

Well, since Trevor said this thing did make a hard turn, a hard pivot toward needles, I think we should head to needles and investigate what kind of UFO incidents are going on in needles.

314

00:30:11,613 --> 00:30:17,614

We investigated a UFO crash in needles last year and I think there might be some connection.

315

00:30:17,614 --> 00:30:27,615

We're going to talk to Frank Kostigan at KTOX Radio in needles and see if he's received any phone calls from my witnesses that could help us kind of put together a picture of what might be going on.

316

00:30:29,615 --> 00:30:31,615

Here we are, Frank.

317

00:30:31,615 --> 00:30:33,615

Good to have you back.

318

00:30:33,615 --> 00:30:38,616

Thank you, Frank. It's really great that we're back and I want to thank you for inviting us to needles and talking to us.

319

00:30:38,616 --> 00:30:46,617

Well, we had so much information. Back in May of 2008, we had an object crash here off the Colorado River.

320

00:30:46,617 --> 00:30:53,617

This area is very remote, although there's five or six military installations like 50 to 100 miles in each direction.

321

00:30:54,617 --> 00:30:58,618

We never saw military aircraft and all of a sudden we're inundated with it.

322

00:31:01,618 --> 00:31:07,618

Now, did that military presence abate or did it continue and pick up?

323

00:31:07,618 --> 00:31:14,619

Well, the presence on the ground continued for like three or four months. It still comes through.

324

00:31:14,619 --> 00:31:30,621

And the thing of it is you think about this thing that crashed here in needles and all the military presence all started with that object that flew, in our opinion, from Area 51 and I feel that it just fell in the wrong place.

325

00:31:30,621 --> 00:31:34,621

Are people keeping themselves or is it talk of the town?

326

00:31:34,621 --> 00:31:38,621

It's the talk of the town. If I go into a restaurant, people recognize me from the station.

327

00:31:38,621 --> 00:31:46,622

Immediately, the conversation turns to UFOs and what the military is doing and why these people are being left out of the loop.

328

00:31:46,622 --> 00:31:49,622

Why are they endangered and the government's doing nothing to protect them?

329

00:31:49,622 --> 00:31:59,623

We're getting calls reporting different objects in the sky, glowing oval objects, glowing cigar shaped objects, triangles, triangle lights.

330

00:31:59,623 --> 00:32:01,623

So basically we should be talking to witnesses now.

331

00:32:01,623 --> 00:32:02,623

You need to talk to witnesses.

332

00:32:02,623 --> 00:32:04,624

Well, guys, let's go.

333

00:32:05,624 --> 00:32:17,625

We're hearing that Frank is being inundated with phone calls about heightened UFO activity and an increased military presence here in the area ever since the crash in 2008.

334

00:32:17,625 --> 00:32:22,625

That leaves us with the question, what is the relationship between the military and these UFOs?

335

00:32:22,625 --> 00:32:29,626

Is the military actually developing these UFOs and they're some sort of experimental top secret black ops craft?

336

00:32:29,626 --> 00:32:34,626

Or do these UFOs actually have extraterrestrial origins?

337

00:32:34,626 --> 00:32:41,627

We've seen light anomalies, objects in the sky that I don't know what to make of them.

338

00:32:41,627 --> 00:32:50,628

Between 7 and 8 o'clock every night, there'd be multiple helicopters come very low over our house every night.

339

00:32:50,628 --> 00:33:03,629

We're investigating the military's first response to UFO activity.

340

00:33:03,629 --> 00:33:15,630

It's clear to us, after talking to Frank Costigan at KTOX Radio, that the residents of Needles, California, who've seen these objects, can help us put the pieces together.

341

00:33:15,630 --> 00:33:23,631

So we're meeting with the Riley family, Bob, Charlotte and Christine, who've got some intriguing stories to tell us.

342

00:33:23,631 --> 00:33:31,631

In May of last year, we've had every day and into the night, we have military going over our home.

343

00:33:31,631 --> 00:33:42,632

Somewhere between 7 and 8 o'clock every night, there'd be multiple helicopters come very low over our house heading north to south every night.

344

00:33:42,632 --> 00:33:49,633

Bob Riley runs Riley Automotive in Bullhead City, Arizona, just outside the Needles, California area.

345

00:33:49,633 --> 00:33:54,634

Local residents, including the Riley's, see military aircraft all the time.

346

00:33:54,634 --> 00:33:59,634

But something has drastically changed since our first visit here in 2008.

347

00:33:59,634 --> 00:34:03,634

Now what are they looking for here? You say they're coming over for what reason, what purpose?

348

00:34:03,634 --> 00:34:11,635

We've seen light anomalies, objects in the sky that I don't know what to make of them, but I'm tying the two together.

349

00:34:11,635 --> 00:34:15,635

What about you, Christine? What kind of military activity have you seen?

350

00:34:15,635 --> 00:34:22,636

I see a lot of the double-blade helicopters at night, minimum five out of seven nights a week.

351

00:34:22,636 --> 00:34:30,637

We've also heard from Frank Costigan that a lot of people are talking about strange sightings, strange things in the area. Can you describe some?

352

00:34:30,637 --> 00:34:37,637

I'm coming home from my shop in Bullhead, coming south on 95. It's probably January of this year.

353

00:34:37,637 --> 00:34:48,638

It's about seven in the evening, just twilight. I see a white object probably running about equal with the 40 down by Needles.

354

00:34:48,638 --> 00:34:54,639

Was there any proximity and time between the appearance of the helicopters and some of the objects you saw in the sky?

355

00:34:54,639 --> 00:35:02,640

Well, you know, since they're here every night, every day, I would say there's definitely some kind of connection.

356

00:35:02,640 --> 00:35:08,640

What I don't understand is, you know, we're in a small town. We've got the desert here and the desert here.

357

00:35:08,640 --> 00:35:14,641

I don't understand why they're coming right over the town. You know, 10 miles either way and no one would know what they're doing.

358

00:35:14,641 --> 00:35:24,642

To me, the Riley's testimony, what they saw is another example of the military's first response to the presence of UFOs.

359

00:35:24,642 --> 00:35:29,642

But, exactly what that link is, still remains a mystery.

360

00:35:33,642 --> 00:35:42,643

I actually started talking to you guys and that very same night, I went to get the camera and I thought, I'll get some pictures tonight and this will help out.

361

00:35:42,643 --> 00:35:44,643

No more helicopters came over the house.

362

00:35:44,643 --> 00:35:51,644

They didn't show up in the morning. They didn't show up at night. This has been going on two weeks now. Not a single sighting.

363

00:35:51,644 --> 00:35:53,644

I mean, it could still just be a coincidence, right?

364

00:35:53,644 --> 00:35:59,645

We didn't have two days in a row that they didn't come over. That's a little more than a coincidence for me.

365

00:35:59,645 --> 00:36:04,645

So, not only have the helicopters stopped flying over the area, but you stopped seeing UFOs in the sky as well.

366

00:36:04,645 --> 00:36:05,645

Exactly.

367

00:36:07,646 --> 00:36:20,647

Although we haven't proven a definite link between the presence of UFOs and a military's first response, our most compelling proof yet may still be Trevor Louders' video.

368

00:36:20,647 --> 00:36:26,647

It showed fighter jets in the sky, we think. It showed this boomerang-shaped object making its turn.

369

00:36:26,647 --> 00:36:29,648

But the truth is in the analysis.

370

00:36:29,648 --> 00:36:37,648

So, we're taking the video back to Los Angeles, for an analysis, and let's see what the analysis turns up on Trevor Louders' video.

371

00:36:38,648 --> 00:36:42,649

We have three lights here in kind of a triangular shape.

372

00:36:42,649 --> 00:36:45,649

There's some maybe dimmer lights in the center.

373

00:36:45,649 --> 00:36:48,649

It's like rows of lights, actually.

374

00:36:48,649 --> 00:36:51,650

One of them has kind of a bluish tint to it.

375

00:36:52,650 --> 00:36:57,650

Does that resemble an aircraft light that you're familiar with?

376

00:36:57,650 --> 00:37:01,650

Nothing specific that I'm familiar with.

377

00:37:02,651 --> 00:37:08,651

Can you decisively say whether this object in the sky, this UFO, is boomerang or triangular-shaped?

378

00:37:08,651 --> 00:37:13,652

To me, definitively, from this one frame, it looks like it's boomerang-shaped.

379

00:37:14,652 --> 00:37:17,652

Beyond that, I can't really make an opinion.

380

00:37:20,652 --> 00:37:26,653

Although this video is shot at night, and it is a bit shaky, we do have the presence of fighter jets.

381

00:37:26,653 --> 00:37:31,653

The footage and witness report is similar to what was seen in the Belgian flap of 1990,

382

00:37:31,653 --> 00:37:36,654

and the boomerang seen by many during the Phoenix lightsightings of 1997.

383

00:37:36,654 --> 00:37:40,654

Both cases involve the apparent pursuit by military aircraft.

384

00:37:41,654 --> 00:37:46,654

What we need to do is talk to a military expert and determine what kind of formation this was.

385

00:37:46,654 --> 00:37:52,655

Is this an attack formation? Are they pursuing, engaging, or is this just an escort formation?

386

00:37:52,655 --> 00:37:57,655

We do have Trevor's drawing of the formation of the jets and the object shape itself,

387

00:37:57,655 --> 00:38:01,656

so at least we have some kind of graphic description we can give.

388

00:38:01,656 --> 00:38:06,656

If we're going to get anything from Trevor's sighting, it's going to come from a military expert.

389

00:38:06,656 --> 00:38:11,657

So we're going to bring in George Merritt, who is a former military and civilian test pilot.

390

00:38:13,657 --> 00:38:19,657

This is four times the size of a stealth bomber. This is really, really huge.

391

00:38:26,658 --> 00:38:30,658

We're investigating the military response to a UFO presence.

392

00:38:31,659 --> 00:38:38,659

The case that's intrigued us the most is a sighting that took place in Lake Havasu City, Arizona,

393

00:38:38,659 --> 00:38:48,660

where a huge boomerang shaped object 400 feet across was chased by Air Force fighter jets.

394

00:38:48,660 --> 00:38:57,661

We're meeting with retired Air Force fighter pilot George Merritt to ascertain what the intent might have been of these Air Force jets.

395

00:38:58,661 --> 00:39:02,661

Here's the situation, George. We need your expertise to help us figure something out.

396

00:39:02,661 --> 00:39:09,662

George Merritt has flown some of our nation's most advanced and top secret military aircraft.

397

00:39:10,662 --> 00:39:16,663

The eyewitness described a craft that is boomerang shaped and about 400 feet wide.

398

00:39:16,663 --> 00:39:23,663

That is absolutely huge. This is four times the size of a stealth bomber.

399

00:39:23,663 --> 00:39:28,664

It's up there even bigger than Howard Hughes' flying boat, the Spruce Goose.

400

00:39:28,664 --> 00:39:31,664

So this would be the largest thing in the air.

401

00:39:31,664 --> 00:39:35,664

That ever known to American aviation or even foreign country.

402

00:39:37,665 --> 00:39:41,665

I think it's obvious that a craft of this size would attract a lot of attention.

403

00:39:41,665 --> 00:39:46,665

And according to Trevor's testimony, the majority of the attention came from the military.

404

00:39:47,665 --> 00:39:54,666

He says he saw two sets of fighter jets that appear to be scrambled on full afterburner,

405

00:39:54,666 --> 00:39:57,666

trying to catch up to this craft and unable to do so.

406

00:39:57,666 --> 00:40:01,667

Well, first show me what type of formation was seen.

407

00:40:02,667 --> 00:40:06,667

This would be the formation that the witness saw.

408

00:40:07,667 --> 00:40:09,667

Now what does this formation mean?

409

00:40:10,667 --> 00:40:14,668

Well, practically all formations will have a wingman.

410

00:40:14,668 --> 00:40:16,668

It's for mutual support.

411

00:40:16,668 --> 00:40:23,669

You know, your primary direction that a fighter pilot would like coming up on an unknown is from the tail.

412

00:40:23,669 --> 00:40:29,669

Because you're more of a, you can shoot it down without it shooting you down.

413

00:40:30,669 --> 00:40:39,670

What George is telling us really validates the hypothesis that these jets are engaging this UFO in an attack formation

414

00:40:39,670 --> 00:40:41,670

with a lead fighter and a wingman.

415

00:40:41,670 --> 00:40:52,671

That we can prove. What we can't prove is how a craft this large can make such an unconventional maneuver without banking.

416

00:40:53,671 --> 00:40:58,672

If he can make a turn without banking, then he's not aerodynamic as we think of it.

417

00:40:58,672 --> 00:41:02,672

Any fighter that was after him is an aerodynamic craft.

418

00:41:02,672 --> 00:41:04,672

He's going to be pulling Gs when he turns.

419

00:41:04,672 --> 00:41:11,673

He's going to be outside of the visual contact with that aircraft for some period of time.

420

00:41:11,673 --> 00:41:14,673

So he's at a disadvantage during the turn.

421

00:41:14,673 --> 00:41:20,674

Obviously if you can turn like this versus a bank, you have a real advantage.

422

00:41:21,674 --> 00:41:26,674

When we look at the aerodynamics of conventional aircraft, they have to bank in order to make a turn.

423

00:41:27,674 --> 00:41:35,675

If this UFO is being chased by fighter jets and made a turn without banking, then these jets would overshoot the UFO and lose their visual on the object.

424

00:41:38,675 --> 00:41:48,676

If they were close enough to see the size of this and the speed of this vehicle and the fact that it made a turn without banking, it's in a different league.

425

00:41:48,676 --> 00:41:59,677

What George is reinforcing for me is that the military's first response to the presence of the UFO is aggression.

426

00:42:00,677 --> 00:42:03,678

Why else would these jets be in an attack formation?

427

00:42:07,678 --> 00:42:17,679

There's no doubt in my mind that there are unidentified craft that appear in our skies and the military have to be scrambled to engage them.

428

00:42:18,679 --> 00:42:21,679

But for sure something very unusual happened here at Long Beach.

429

00:42:21,679 --> 00:42:28,680

We have two eyewitnesses who reported something very unusual and military activity that was absolutely abnormal.

430

00:42:29,680 --> 00:42:36,681

On top of that we spoke with one of the best video analysts on the west coast who says that the object that's in the photograph is absolutely not conventional.

431

00:42:36,681 --> 00:42:40,681

So it's quite possible we're dealing with a genuine UFO incident of some sort here.

432

00:42:41,681 --> 00:42:48,682

There were possible UFO sightings over Long Beach, Lake Havasu and Needles.

433

00:42:49,682 --> 00:42:55,682

But what can be confirmed is that in all of these sightings there was a military response.

434

00:42:56,682 --> 00:42:58,683

What facts do we have here?

435

00:42:58,683 --> 00:43:03,683

We have some photographs. We have two videos, one of which is more than likely a hoax.

436

00:43:03,683 --> 00:43:08,684

Now, if Trevor's testimony is true, he did not overestimate the size of this craft.

437

00:43:08,684 --> 00:43:17,684

And if what George told us is accurate, which I believe it is, he is an expert, then something bizarre happened in Lake Havasu that I can't explain.

438

00:43:18,684 --> 00:43:24,685

I think a lot of these UFO sightings and the subsequent arrival of military aircraft can be explained as a coincidence.

439

00:43:25,685 --> 00:43:29,685

But the sighting in Lake Havasu City, Arizona simply cannot be explained.

440

00:43:29,685 --> 00:43:34,686

There's no rhyme or reason why an attack formation would be pursuing this UFO.

441

00:43:35,686 --> 00:43:41,687

Perhaps our government is still reacting to intrusions over our airspace.

442

00:43:41,687 --> 00:43:45,687

Intrusions, intercepts with no resolution.

443

00:43:45,687 --> 00:43:48,687

The military doesn't know what it is.

444

00:43:48,687 --> 00:43:53,688

We could be in a cold war with the UFOs.

445

00:43:56,688 --> 00:44:01,688

The cases we just investigated all took place in 2009.

446

00:44:01,688 --> 00:44:10,689

And to me what they indicate is a continued stance of aggression toward the presence of these unidentified objects.

447

00:44:10,689 --> 00:44:17,690

The bottom line, they don't know what these objects are, but the UFOs are definitely considered a threat.
