

A white, oval-shaped object, possibly a piece of debris or a small boat, is floating on a dark blue ocean surface. The sky above is a lighter blue with some light clouds. The text is overlaid on the right side of the image.

00:01:49,719 --> 00:01:47,700
loadout 1 1 0 V 1 1 0 what's your what

12
00:01:54,050 --> 00:01:49,729
we slow down

13
00:01:57,230 --> 00:01:54,060

Winchester just trading missiles so we

14

00:01:59,270 --> 00:01:57,240

start going to go he 20 miles still not

15

00:02:01,160 --> 00:01:59,280

been investing anything on the radar 10

16

00:02:02,270 --> 00:02:01,170

miles message anything on the radar

17

00:02:04,969 --> 00:02:02,280

where they get to a point where they

18

00:02:06,350 --> 00:02:04,979

call murder plot which means the contact

19

00:02:07,880 --> 00:02:06,360

that they were trying to see and a

20

00:02:16,660 --> 00:02:07,890

certain side the resolution you saw the

21

00:02:20,290 --> 00:02:18,580

we've been around because it remember

22

00:02:21,690 --> 00:02:20,300

spots moving to a visual reading your

23

00:02:25,060 --> 00:02:21,700

knives look too worried about the radar

24

00:02:28,020 --> 00:02:25,070

and I know right side and I see

25

00:02:39,600 --> 00:02:28,030

something in the water and it looks like

26
00:02:43,780 --> 00:02:41,890
right the inside of the airplane just

27
00:02:46,090 --> 00:02:43,790
sort of the wing line is this little

28
00:02:50,690 --> 00:02:46,100
white which looks like a tic-tac which

29
00:02:59,559 --> 00:02:56,990
I just 34:20 I had a radar today and I

30
00:03:08,470 --> 00:02:59,569
was doing it with like the coating god

31
00:03:12,350 --> 00:03:08,480
they were good morning from Philadelphia

32
00:03:14,990 --> 00:03:12,360
and James Dillon for New York this is a

33
00:03:17,630 --> 00:03:15,000
UFO News Network Sunday I'm Frank

34
00:03:20,990 --> 00:03:17,640
stalter James in New York and with us

35
00:03:23,570 --> 00:03:21,000
today from Florida Dave Beatty who's

36
00:03:26,479 --> 00:03:23,580
been doing a lot of work on getting us

37
00:03:29,570 --> 00:03:26,489
some more details for us on the Nimitz

38
00:03:31,940 --> 00:03:29,580

case now good morning Dave hey good

39
00:03:33,440 --> 00:03:31,950
morning Frank and James great to be here

40
00:03:37,309 --> 00:03:33,450
I'm glad you invited me to join you

41
00:03:40,520 --> 00:03:37,319
today yeah absolutely absolutely so Dave

42
00:03:44,090 --> 00:03:40,530
real quick give us some background on

43
00:03:46,400 --> 00:03:44,100
how you got into this you're picking up

44
00:03:48,710 --> 00:03:46,410
some new information about the Nimitz

45
00:03:52,039 --> 00:03:48,720
case filling in some details that

46
00:03:54,650 --> 00:03:52,049
sometimes the mainstream media just

47
00:03:58,580 --> 00:03:54,660
doesn't have time when they do these

48
00:04:01,220 --> 00:03:58,590
quick little five-minute segments on on

49
00:04:04,340 --> 00:04:01,230
the story give us some details on that

50
00:04:06,640 --> 00:04:04,350
if you could sure well a little

51
00:04:09,050 --> 00:04:06,650
background you know I'm a video producer

52
00:04:12,470 --> 00:04:09,060
I've been doing that my whole career I

53
00:04:14,660 --> 00:04:12,480
started my work as a television news

54
00:04:18,020 --> 00:04:14,670
journalist and I've always had an

55
00:04:21,349 --> 00:04:18,030
interest in UFOs military aviation

56
00:04:23,740 --> 00:04:21,359
military history and of course you know

57
00:04:25,700 --> 00:04:23,750
when I learned about the events that

58
00:04:29,750 --> 00:04:25,710
were announced in New York Times

59
00:04:32,390 --> 00:04:29,760
Washington Post and December 16th last

60
00:04:35,779 --> 00:04:32,400
year I was very excited because I'm like

61
00:04:38,900 --> 00:04:35,789
that is very interesting that the United

62
00:04:41,060 --> 00:04:38,910
States government has these films of

63
00:04:44,029 --> 00:04:41,070

these unidentified flying objects and

64

00:04:48,050 --> 00:04:44,039

they were filmed by military aviators

65

00:04:50,600 --> 00:04:48,060

and there was actually a couple of the

66

00:04:54,110 --> 00:04:50,610

Aviators came out and began discussing

67

00:04:56,450 --> 00:04:54,120

it and it went along with the film that

68

00:04:58,580 --> 00:04:56,460

had been released of course that was

69

00:05:03,409 --> 00:04:58,590

from to the Stars and the New York Times

70

00:05:04,340 --> 00:05:03,419

as well so because of my background as a

71

00:05:06,530 --> 00:05:04,350

video

72

00:05:07,940 --> 00:05:06,540

producer I thought wow I'm looking at

73

00:05:10,370 --> 00:05:07,950

all these facts and reading these

74

00:05:13,160 --> 00:05:10,380

stories but that would make a really

75

00:05:14,900 --> 00:05:13,170

cool video you know how am I gonna how

76
00:05:17,240 --> 00:05:14,910
am I gonna do that I have no funding and

77
00:05:18,680 --> 00:05:17,250
you know what because I can do 3d

78
00:05:22,280 --> 00:05:18,690
animation

79
00:05:25,040 --> 00:05:22,290
I started conceptualizing putting the

80
00:05:27,290 --> 00:05:25,050
stories into an animated format so that

81
00:05:28,790 --> 00:05:27,300
the viewers could then understand kind

82
00:05:31,670 --> 00:05:28,800
of what was happening it was a

83
00:05:32,960 --> 00:05:31,680
relatively short thing it happened at

84
00:05:34,220 --> 00:05:32,970
least the one that was release I think

85
00:05:37,940 --> 00:05:34,230
that it actually went on a lot longer

86
00:05:41,200 --> 00:05:37,950
but the story that was released and I

87
00:05:44,470 --> 00:05:41,210
think first hold in fighter sweet calm

88
00:05:49,400 --> 00:05:44,480

back several years back authored by a

89

00:05:51,070 --> 00:05:49,410

guy named Paco char Ichi and he wrote

90

00:05:53,390 --> 00:05:51,080

this article about the whole event and

91

00:05:56,390 --> 00:05:53,400

because it was an industry sort of

92

00:05:59,180 --> 00:05:56,400

pilots blog not a lot of people knew

93

00:06:01,370 --> 00:05:59,190

about it but then of course when the

94

00:06:02,540 --> 00:06:01,380

whole thing came out everyone started

95

00:06:04,880 --> 00:06:02,550

looking in researched and they found on

96

00:06:07,250 --> 00:06:04,890

that article which had a lot of details

97

00:06:08,750 --> 00:06:07,260

I mean he did a great job so I started

98

00:06:10,130 --> 00:06:08,760

looking at it putting all the pieces

99

00:06:12,590 --> 00:06:10,140

together and looking at the different

100

00:06:15,560 --> 00:06:12,600

stories trying to figure out how I could

101

00:06:17,090 --> 00:06:15,570

write a script and how I could see if

102

00:06:19,430 --> 00:06:17,100

there were discrepancies that things

103

00:06:21,230 --> 00:06:19,440

lined up what match which didn't and

104

00:06:24,680 --> 00:06:21,240

keep adding those little details and

105

00:06:26,990 --> 00:06:24,690

figuring out all the units involved you

106

00:06:29,120 --> 00:06:27,000

know who said who was on the radio who

107

00:06:30,950 --> 00:06:29,130

said what who was flying the planes so

108

00:06:33,860 --> 00:06:30,960

that's kind of briefly how I got from

109

00:06:35,480 --> 00:06:33,870

you know the beginning to what you just

110

00:06:38,480 --> 00:06:35,490

saw a little teaser of what I'm doing

111

00:06:40,460 --> 00:06:38,490

right absolutely now one of the things

112

00:06:43,280 --> 00:06:40,470

that you found out that I am Not sure

113

00:06:46,010 --> 00:06:43,290

has been reported anywhere else is that

114

00:06:47,570 --> 00:06:46,020

they were during this main incident

115

00:06:50,270 --> 00:06:47,580

that's getting talked about a lot

116

00:06:54,050 --> 00:06:50,280

obviously commander flavor David flavor

117

00:06:57,560 --> 00:06:54,060

is been very upfront and very open about

118

00:06:59,990 --> 00:06:57,570

talking about this but the and then is a

119

00:07:05,000 --> 00:07:00,000

weapon system officer I believe is the

120

00:07:07,010 --> 00:07:05,010

right term Jim sleight or slate has also

121

00:07:09,200 --> 00:07:07,020

done at least one interview that I'm

122

00:07:12,080 --> 00:07:09,210

aware of but there was another jet and

123

00:07:16,130 --> 00:07:12,090

the person piloting that jet was a lady

124

00:07:17,930 --> 00:07:16,140

is that correct yeah that's our belief

125

00:07:20,180 --> 00:07:17,940

now again

126

00:07:22,610 --> 00:07:20,190

each people have not all gone on the

127

00:07:24,320 --> 00:07:22,620

record in fact it's been you know told

128

00:07:26,780 --> 00:07:24,330

to me that some of them don't want to

129

00:07:27,740 --> 00:07:26,790

talk about it you know rightly so as you

130

00:07:29,780 --> 00:07:27,750

know in this subject

131

00:07:31,100 --> 00:07:29,790

sometimes there's stigma attached to it

132

00:07:33,050 --> 00:07:31,110

if you report something you can't

133

00:07:34,820 --> 00:07:33,060

explain a UFO it could damage your

134

00:07:36,020 --> 00:07:34,830

career in reputation people don't have

135

00:07:37,970 --> 00:07:36,030

anything to do with it they just block

136

00:07:40,580 --> 00:07:37,980

that part of their life off you know and

137

00:07:42,620 --> 00:07:40,590

wrote it write it off now what I what I

138

00:07:44,210 --> 00:07:42,630

found out as far as the the people that

139

00:07:46,700 --> 00:07:44,220

came forward and talked about it

140

00:07:49,070 --> 00:07:46,710

there were - and these are heroes by the

141

00:07:52,220 --> 00:07:49,080

way these are American aviator heroes

142

00:07:53,840 --> 00:07:52,230

that fought in the first Gulf War you

143

00:07:56,810 --> 00:07:53,850

can see some of that if you ever go back

144

00:07:59,870 --> 00:07:56,820

and watch PBS is series called carrier

145

00:08:01,490 --> 00:07:59,880

in fact David flavor plays a big role in

146

00:08:02,870 --> 00:08:01,500

that documentary series it's very

147

00:08:05,630 --> 00:08:02,880

entertaining and I learned a lot about

148

00:08:08,240 --> 00:08:05,640

what these men and women do on these

149

00:08:11,480 --> 00:08:08,250

naval vessels well what I found out is

150

00:08:15,020 --> 00:08:11,490

in the f-18 Super Hornet Jets that they

151
00:08:18,770 --> 00:08:15,030
were flying these are the F version and

152
00:08:20,840 --> 00:08:18,780
they are to seat jets so in the jet you

153
00:08:23,000 --> 00:08:20,850
have the pilot in command and he flies

154
00:08:25,130 --> 00:08:23,010
the jet and in the back seat you have

155
00:08:28,070 --> 00:08:25,140
like you said the weapons system officer

156
00:08:31,040 --> 00:08:28,080
and that person is in charge of the

157
00:08:32,930 --> 00:08:31,050
radar systems the weapon systems they

158
00:08:35,839 --> 00:08:32,940
have a big touchscreen display in front

159
00:08:40,370 --> 00:08:35,849
of them and they can you know manage the

160
00:08:42,529 --> 00:08:40,380
onboard radar so as far as the Jets that

161
00:08:44,600 --> 00:08:42,539
took off that day that encountered this

162
00:08:46,760 --> 00:08:44,610
object called they call it the tic-tac

163
00:08:48,620 --> 00:08:46,770

if you do read anything about it you'll

164

00:08:51,080 --> 00:08:48,630

you'll see commander for a verb describe

165

00:08:52,520 --> 00:08:51,090

what they eventually saw but when they

166

00:08:55,130 --> 00:08:52,530

took off that day there were two jets

167

00:08:57,710 --> 00:08:55,140

usually they travel a lead jet and a

168

00:08:59,450 --> 00:08:57,720

wingman so you have to realize that in

169

00:09:02,750 --> 00:08:59,460

that flight of jets there's going to be

170

00:09:05,180 --> 00:09:02,760

four pilots so to speak there's the lead

171

00:09:07,190 --> 00:09:05,190

jet a pilot in his back seat weapons

172

00:09:10,610 --> 00:09:07,200

system officer and then you have the

173

00:09:13,400 --> 00:09:10,620

wingman jet that goes along and that has

174

00:09:17,900 --> 00:09:13,410

a pilot and a weapon system officer now

175

00:09:21,800 --> 00:09:17,910

what we learned based on the pilots that

176

00:09:23,840 --> 00:09:21,810

came forward was that in the wingman jet

177

00:09:27,430 --> 00:09:23,850

there was a person that came forward and

178

00:09:29,329 --> 00:09:27,440

said I was the wingman and that was a

179

00:09:31,950 --> 00:09:29,339

former lieutenant commander he's a

180

00:09:34,860 --> 00:09:31,960

commander now or was retired

181

00:09:37,560 --> 00:09:34,870

Lieutenant Commander Jim slate said that

182

00:09:42,360 --> 00:09:37,570

he was the wingman in fact I reached out

183

00:09:44,510 --> 00:09:42,370

to him via email and eventually he got

184

00:09:47,519 --> 00:09:44,520

the email he responded to me very

185

00:09:50,130 --> 00:09:47,529

cordially and friendly and said that you

186

00:09:54,720 --> 00:09:50,140

know hey Dave yes I wanted to let you

187

00:09:56,639 --> 00:09:54,730

know that I was the wingman and I'm

188

00:09:59,400 --> 00:09:56,649

excited for the project looking forward

189

00:10:01,079 --> 00:09:59,410

to seeing it and he said you know if you

190

00:10:03,240 --> 00:10:01,089

need me to describe the tic-tac at all

191

00:10:05,699 --> 00:10:03,250

let me know Italy but he hasn't

192

00:10:08,760 --> 00:10:05,709

responded to any more questions I asked

193

00:10:12,990 --> 00:10:08,770

him because more importantly I wanted to

194

00:10:16,920 --> 00:10:13,000

know hey I have some research that says

195

00:10:17,370 --> 00:10:16,930

that the wingman of David framers flight

196

00:10:21,210 --> 00:10:17,380

there

197

00:10:25,290 --> 00:10:21,220

the pilot was a woman a female he didn't

198

00:10:28,530 --> 00:10:25,300

respond but I can tell you where I got

199

00:10:31,050 --> 00:10:28,540

that information and how it progressed

200

00:10:32,490 --> 00:10:31,060

it's kind of interesting you remember

201
00:10:35,760 --> 00:10:32,500
you remember I mentioned the fighter

202
00:10:39,269 --> 00:10:35,770
suite article with Paco well Paco is a

203
00:10:42,420 --> 00:10:39,279
maybe former Navy fighter pilot also a

204
00:10:45,240 --> 00:10:42,430
hero he flew the Grumman f-14 tomcat

205
00:10:48,210 --> 00:10:45,250
back in the days before that was

206
00:10:51,210 --> 00:10:48,220
replaced by you know the f-18 Super

207
00:10:53,070 --> 00:10:51,220
Hornets on the carriers so he knew the

208
00:10:55,170 --> 00:10:53,080
pilots and he knew Dave braver he's a

209
00:10:57,720 --> 00:10:55,180
good friend of Dave flavour and he wrote

210
00:11:00,300 --> 00:10:57,730
this article so I'm reading the article

211
00:11:02,670 --> 00:11:00,310
and just one sentence in that article

212
00:11:06,660 --> 00:11:02,680
says something to the effect when

213
00:11:10,829 --> 00:11:06,670

talking about Dave's wingman it says she

214

00:11:13,710 --> 00:11:10,839

and her weapon system officer were

215

00:11:16,019 --> 00:11:13,720

ordered into hi passing cover meaning

216

00:11:18,840 --> 00:11:16,029

the lead plane the lead jet with

217

00:11:21,180 --> 00:11:18,850

commander flavor he said over the radio

218

00:11:22,890 --> 00:11:21,190

you know to the other jet hey I'm gonna

219

00:11:24,930 --> 00:11:22,900

I'm gonna go check this out you guys

220

00:11:28,800 --> 00:11:24,940

stay in high pass and cover and then so

221

00:11:31,199 --> 00:11:28,810

Paco reports that she and her weapons

222

00:11:35,250 --> 00:11:31,209

system officer were put in hi passing

223

00:11:36,750 --> 00:11:35,260

cover so I put that out there on the

224

00:11:38,550 --> 00:11:36,760

internet I'm like hey no one else said

225

00:11:41,579 --> 00:11:38,560

anything about this in fact everyone was

226

00:11:45,150 --> 00:11:41,589

saying that you know Jim slate was the

227

00:11:46,800 --> 00:11:45,160

pilot he was the wingman well

228

00:11:48,480 --> 00:11:46,810

apparently there's both of them are the

229

00:11:51,540 --> 00:11:48,490

wingman because it's one jet it's called

230

00:11:55,379 --> 00:11:51,550

the wingman the jet is so both pilots in

231

00:12:00,180 --> 00:11:55,389

there are wingmen I got ahold of Paco

232

00:12:02,100 --> 00:12:00,190

and I questioned them in fact um I can I

233

00:12:03,720 --> 00:12:02,110

can read a little of that conversation

234

00:12:07,650 --> 00:12:03,730

if you want sure absolutely

235

00:12:09,689 --> 00:12:07,660

so here's how it went and this was on

236

00:12:11,160 --> 00:12:09,699

Twitter by the way so you can read it

237

00:12:12,569 --> 00:12:11,170

I said hey Paco can you help me with

238

00:12:15,269 --> 00:12:12,579

something about this article x-files

239

00:12:16,949 --> 00:12:15,279

edition infighter sweep you refer to

240

00:12:19,980 --> 00:12:16,959

commander Dave flavors wingman as her

241

00:12:23,129 --> 00:12:19,990

quote they put fast Eagle 2 into high

242

00:12:26,090 --> 00:12:23,139

cover Sheehan and her wizzo witnessed

243

00:12:28,650 --> 00:12:26,100

the events from perfect vantage points

244

00:12:30,960 --> 00:12:28,660

Paco

245

00:12:34,050 --> 00:12:30,970

wasn't it Lieut a nerd lieutenant

246

00:12:36,269 --> 00:12:34,060

commander Jim slate David flavors

247

00:12:39,480 --> 00:12:36,279

wingman on that day thanks and then he

248

00:12:43,050 --> 00:12:39,490

responds his wingman was a female the

249

00:12:44,910 --> 00:12:43,060

two weapons system officers male so they

250

00:12:46,530 --> 00:12:44,920

wrote hey thanks a lot of respect that

251

00:12:48,780 --> 00:12:46,540

people do not want to come forward

252

00:12:51,150 --> 00:12:48,790

understood sir everything is telling me

253

00:12:54,780 --> 00:12:51,160

that the former lieutenant commander Jim

254

00:12:56,340 --> 00:12:54,790

Slade was you know the wingman on that

255

00:12:59,400 --> 00:12:56,350

day and everyone was sank telling me

256

00:13:01,199 --> 00:12:59,410

that I have it wrong in fact what they

257

00:13:03,300 --> 00:13:01,209

were telling me is it listen hey do you

258

00:13:05,699 --> 00:13:03,310

remember how back in World War two

259

00:13:09,210 --> 00:13:05,709

bomber pilots would name their plane

260

00:13:11,100 --> 00:13:09,220

women you know like um I'm trying to

261

00:13:13,590 --> 00:13:11,110

think of an example but I know there's a

262

00:13:15,150 --> 00:13:13,600

couple documentaries about those b-17

263

00:13:16,650 --> 00:13:15,160

bombers and they would paint women on

264

00:13:18,840 --> 00:13:16,660

they named their plane women and they

265

00:13:21,030 --> 00:13:18,850

referred to him in that gender almost

266

00:13:23,129 --> 00:13:21,040

it's her and that everyone was saying no

267

00:13:24,749 --> 00:13:23,139

today have you got it wrong the jet is a

268

00:13:27,210 --> 00:13:24,759

girl they're calling the jet that's what

269

00:13:28,829 --> 00:13:27,220

but I still I mean when you really look

270

00:13:31,199 --> 00:13:28,839

at that quote it doesn't make sense that

271

00:13:32,819 --> 00:13:31,209

they were talking about a jet and the

272

00:13:36,059 --> 00:13:32,829

first person or something that seems it

273

00:13:37,499 --> 00:13:36,069

seemed odd so anyone I wrote to Paco I

274

00:13:39,960 --> 00:13:37,509

said everyone told me I was full of it

275

00:13:41,879 --> 00:13:39,970

but I respect you jet drivers yeah my

276

00:13:44,369 --> 00:13:41,889

greatest respect Thanks and then he

277

00:13:46,499 --> 00:13:44,379

wrote bad all I can tell you is that the

278

00:13:48,990 --> 00:13:46,509

other pilot was a female the two weapons

279

00:13:51,240 --> 00:13:49,000

system officers were male I'm sure my

280

00:13:52,650 --> 00:13:51,250

facts and I just had lunch with Dave a

281

00:13:56,069 --> 00:13:52,660

couple weeks ago and he talked about all

282

00:13:58,470 --> 00:13:56,079

the details nairo just to confirm i'm

283

00:14:01,139 --> 00:13:58,480

emailed commander slate and

284

00:14:02,759 --> 00:14:01,149

to ask and he said hey Dave I was Dave

285

00:14:06,300 --> 00:14:02,769

framers wingman for the Tic Tac incident

286

00:14:08,400 --> 00:14:06,310

in 2004 I was a lieutenant commander

287

00:14:10,650 --> 00:14:08,410

Department had in the black aces at the

288

00:14:14,759 --> 00:14:10,660

time and I retired as a commander in

289

00:14:17,189 --> 00:14:14,769

2013 and so then Paco says hey from what

290

00:14:19,530 --> 00:14:17,199

Dave told me she will never come forward

291

00:14:21,689 --> 00:14:19,540

she has zero interest in being involved

292

00:14:24,750 --> 00:14:21,699

she was quite wiggled out by the incident

293

00:14:27,329 --> 00:14:24,760

just so you know our kind doesn't deal

294

00:14:28,710 --> 00:14:27,339

in misdirection or subterfuge if we

295

00:14:31,410 --> 00:14:28,720

don't want you to know something

296

00:14:33,300 --> 00:14:31,420

we just won't tell you and so then I

297

00:14:34,079 --> 00:14:33,310

wrote that's what I thought I told

298

00:14:36,090 --> 00:14:34,089

respect that

299

00:14:39,180 --> 00:14:36,100

hats off to you of your kind very few

300

00:14:42,990 --> 00:14:39,190

can do what you guys do in even fewer

301
00:14:45,300 --> 00:14:43,000
gals and make it look easy a few of the

302
00:14:47,970 --> 00:14:45,310
few and a few of the few would ever go

303
00:14:49,710 --> 00:14:47,980
on the record about a UFO he wrote that

304
00:14:53,100 --> 00:14:49,720
perhaps he was the weapons system

305
00:14:55,139 --> 00:14:53,110
officer pilot was a female so anyways

306
00:14:59,819 --> 00:14:55,149
that is kind of went on for a few times

307
00:15:00,379 --> 00:14:59,829
and I mean I believed him you know what

308
00:15:03,329 --> 00:15:00,389
do you guys think

309
00:15:06,509 --> 00:15:03,339
how many excellent finds attention to

310
00:15:09,480 --> 00:15:06,519
detail yeah I have no reason not to

311
00:15:11,460 --> 00:15:09,490
believe I'm absolutely and there's no

312
00:15:13,139 --> 00:15:11,470
question in a couple of the other videos

313
00:15:14,460 --> 00:15:13,149

you definitely hear a female voice in

314

00:15:15,740 --> 00:15:14,470

there so there's no reason to think that

315

00:15:19,920 --> 00:15:15,750

there wouldn't have been one there

316

00:15:22,259 --> 00:15:19,930

especially Paco saying this well why not

317

00:15:25,500 --> 00:15:22,269

or why wouldn't it be the case right I

318

00:15:27,360 --> 00:15:25,510

said he a private day at direction he he

319

00:15:28,800 --> 00:15:27,370

had lunch with Dave and if you go back

320

00:15:33,480 --> 00:15:28,810

and look at all the news article than

321

00:15:35,519 --> 00:15:33,490

your tie and everything it said that you

322

00:15:37,710 --> 00:15:35,529

know Jim slate was the winger but again

323

00:15:40,199 --> 00:15:37,720

you have to realize in little circle of

324

00:15:42,000 --> 00:15:40,209

jots there's gonna be one other person

325

00:15:43,500 --> 00:15:42,010

that has not come forward apparently

326

00:15:45,150 --> 00:15:43,510

according to Paco he was a guy he would

327

00:15:47,280 --> 00:15:45,160

have been the back cedar and for Dave's

328

00:15:49,620 --> 00:15:47,290

jet so there's a guy there has never

329

00:15:51,960 --> 00:15:49,630

spoken about this incident and then of

330

00:15:55,710 --> 00:15:51,970

course the female and in the front of

331

00:15:56,939 --> 00:15:55,720

the wingman Jack I have no I don't you

332

00:15:59,189 --> 00:15:56,949

know want to bring someone out of the

333

00:16:00,930 --> 00:15:59,199

closet or somebody you know name names I

334

00:16:03,059 --> 00:16:00,940

don't even care really I just I'm doing

335

00:16:05,040 --> 00:16:03,069

a video so I have to have I mean it'd be

336

00:16:06,840 --> 00:16:05,050

nice to know but I have to have the

337

00:16:08,370 --> 00:16:06,850

voices correct if it's a girl talking on

338

00:16:12,420 --> 00:16:08,380

the radio then you know that's kind of

339

00:16:14,220 --> 00:16:12,430

important but so anyways

340

00:16:15,720 --> 00:16:14,230

you know putting all this together it's

341

00:16:17,900 --> 00:16:15,730

so cool because right now you know you

342

00:16:20,190 --> 00:16:17,910

heard a little of my lick scratch track

343

00:16:22,500 --> 00:16:20,200

working on the radio communications it's

344

00:16:25,769 --> 00:16:22,510

really interesting there's another jet

345

00:16:27,120 --> 00:16:25,779

involved and your viewers are gonna find

346

00:16:28,280 --> 00:16:27,130

this kind of interesting if you follow

347

00:16:30,930 --> 00:16:28,290

the subject

348

00:16:34,290 --> 00:16:30,940

there was a Lieutenant Colonel Douglas

349

00:16:37,680 --> 00:16:34,300

Kurth and he actually was on the scene

350

00:16:40,769 --> 00:16:37,690

he was from the marine Marine Corps

351

00:16:42,240 --> 00:16:40,779

Fighter Squadron the Marine Corps

352

00:16:46,350 --> 00:16:42,250

Fighter Squadron

353

00:16:49,170 --> 00:16:46,360

I forget the unit number but they had

354

00:16:51,540 --> 00:16:49,180

been deployed to Nimitz to do training

355

00:16:53,519 --> 00:16:51,550

exercises onboard a carrier

356

00:16:55,880 --> 00:16:53,529

I think it's interdisciplinary training

357

00:16:59,730 --> 00:16:55,890

where you would have Marine Corps Air

358

00:17:02,070 --> 00:16:59,740

Training with naval aviators on carriers

359

00:17:05,160 --> 00:17:02,080

so they have proficiency that's why he

360

00:17:07,829 --> 00:17:05,170

was there and he was in the air I think

361

00:17:10,530 --> 00:17:07,839

even you know while Dave flavor and

362

00:17:13,169 --> 00:17:10,540

stuff we're just taking off and he

363

00:17:17,429 --> 00:17:13,179

vectored to this area first and actually

364

00:17:20,939 --> 00:17:17,439

saw the white undersea object so he

365

00:17:23,340 --> 00:17:20,949

observed that from his altitude you know

366

00:17:27,689 --> 00:17:23,350

tens of thousands of feet in the air and

367

00:17:29,280 --> 00:17:27,699

he reported that and talked the USS

368

00:17:33,750 --> 00:17:29,290

Princeton that was sort of controlling

369

00:17:36,299 --> 00:17:33,760

them and he was there until Dave framers

370

00:17:38,640 --> 00:17:36,309

to jet flight arrived on the location

371

00:17:41,490 --> 00:17:38,650

and then they you know directed him back

372

00:17:43,350 --> 00:17:41,500

to home base or the carrier to land I

373

00:17:46,470 --> 00:17:43,360

know some researchers have tried to

374

00:17:49,230 --> 00:17:46,480

contact him and talk to him in fact I

375

00:17:50,820 --> 00:17:49,240

think one of them even did a Freedom of

376

00:17:53,400 --> 00:17:50,830

Information Act and received a whole

377

00:17:54,720 --> 00:17:53,410

bunch of documents that he ended up

378

00:17:56,400 --> 00:17:54,730

because he was the commander of that

379

00:17:58,470 --> 00:17:56,410

unit ended up presenting to them and

380

00:18:00,210 --> 00:17:58,480

that can be found on the nycap website

381

00:18:02,970 --> 00:18:00,220

if anyone's interested in that those

382

00:18:07,040 --> 00:18:02,980

documents provided by command commander

383

00:18:10,260 --> 00:18:07,050

Kurth or Lieutenant Colonel Kirk so

384

00:18:12,330 --> 00:18:10,270

going forward on that track I know I was

385

00:18:14,760 --> 00:18:12,340

kind of asking about that and I did a

386

00:18:16,860 --> 00:18:14,770

little research if you just google that

387

00:18:19,020 --> 00:18:16,870

I found out that he has an interesting

388

00:18:25,200 --> 00:18:19,030

career track in fact he's a hero as well

389

00:18:26,370 --> 00:18:25,210

and currently he's I believe an f-35 you

390

00:18:28,620 --> 00:18:26,380

know fighter

391

00:18:33,420 --> 00:18:28,630

instructor pilot so our most top

392

00:18:35,760 --> 00:18:33,430

advanced multi-role fighter jet he's one

393

00:18:38,670 --> 00:18:35,770

of the instructors now but before that

394

00:18:41,280 --> 00:18:38,680

and directly after he left the the

395

00:18:46,140 --> 00:18:41,290

Marine Corps job that he had he want to

396

00:18:48,960 --> 00:18:46,150

work with big a little aerospace and so

397

00:18:52,590 --> 00:18:48,970

he he worked for Bigelow I think I

398

00:18:55,340 --> 00:18:52,600

forget the years like 2008 through you

399

00:18:58,200 --> 00:18:55,350

know whatever and he was one of their

400

00:19:01,980 --> 00:18:58,210

their managers and that he said that he

401
00:19:04,980 --> 00:19:01,990
was in charge of all the scientists he

402
00:19:07,140 --> 00:19:04,990
was running that department so and that

403
00:19:08,790 --> 00:19:07,150
was the reason he told one of the

404
00:19:11,430 --> 00:19:08,800
investigators that he couldn't talk

405
00:19:14,310 --> 00:19:11,440
about the incident that occurred often

406
00:19:16,320 --> 00:19:14,320
limits because of an NDA or a prior

407
00:19:19,410 --> 00:19:16,330
employer employment agreement that he

408
00:19:21,590 --> 00:19:19,420
had in place so that's an interesting

409
00:19:25,290 --> 00:19:21,600
fact as well because we know that

410
00:19:27,870 --> 00:19:25,300
Bigelow Aerospace during that time was

411
00:19:29,940 --> 00:19:27,880
running a lot of programs from the

412
00:19:33,030 --> 00:19:29,950
advanced aerospace threat identification

413
00:19:33,600 --> 00:19:33,040

program so that's another little little

414

00:19:40,770 --> 00:19:33,610

tidbit

415

00:19:42,750 --> 00:19:40,780

that relates to the other two videos the

416

00:19:45,330 --> 00:19:42,760

video related to the Nimitz case is

417

00:19:47,640 --> 00:19:45,340

called the FLIR video and the other two

418

00:19:51,780 --> 00:19:47,650

are the gimbal video and the go-fast

419

00:19:55,320 --> 00:19:51,790

video and they seem to be based on a

420

00:19:57,980 --> 00:19:55,330

number that is on the right side well

421

00:20:02,460 --> 00:19:57,990

there are some other reasons too the

422

00:20:05,070 --> 00:20:02,470

same voice that exclaims my gosh is on

423

00:20:08,330 --> 00:20:05,080

both videos and there's also a number on

424

00:20:11,280 --> 00:20:08,340

the right side of the readout that is

425

00:20:13,230 --> 00:20:11,290

1688 now initially someone was saying

426
00:20:16,830 --> 00:20:13,240
that they thought that was a flight

427
00:20:19,440 --> 00:20:16,840
number or a sortie number that you're

428
00:20:21,920 --> 00:20:19,450
saying or someone has said that is not

429
00:20:25,710 --> 00:20:21,930
the case that that relates to the

430
00:20:29,970 --> 00:20:25,720
infrared frequency is measured in

431
00:20:34,980 --> 00:20:29,980
nanometers 1688 that's something that

432
00:20:37,500 --> 00:20:34,990
that particular device that that the

433
00:20:41,220 --> 00:20:37,510
infrared device the tracking system uses

434
00:20:43,650 --> 00:20:41,230
and maybe can go into some more details

435
00:20:45,810 --> 00:20:43,660
about that okay so let's talk about this

436
00:20:48,420 --> 00:20:45,820
for a second because the news media got

437
00:20:50,250 --> 00:20:48,430
the videos wrong a lot of times the

438
00:20:52,860 --> 00:20:50,260

general public doesn't know and when

439

00:20:54,540 --> 00:20:52,870

they're doing interviews like live you

440

00:20:55,980 --> 00:20:54,550

know thing even like this you could be

441

00:20:59,220 --> 00:20:55,990

playing a video I don't see what you're

442

00:21:01,170 --> 00:20:59,230

playing over my talking okay well just

443

00:21:04,020 --> 00:21:01,180

just to tell you what I've got now is a

444

00:21:06,060 --> 00:21:04,030

frame grab from the video that looks

445

00:21:09,390 --> 00:21:06,070

like it's focused in on that particular

446

00:21:14,210 --> 00:21:09,400

device okay yes so what that device is

447

00:21:17,610 --> 00:21:14,220

it's called the asq 2 to 8 at FLIR and

448

00:21:21,200 --> 00:21:17,620

these devices forward-looking infra-red

449

00:21:23,310 --> 00:21:21,210

are mounted on the other side of the jet

450

00:21:24,780 --> 00:21:23,320

you know when they're needed they're not

451
00:21:28,350 --> 00:21:24,790
there all the time

452
00:21:32,940 --> 00:21:28,360
in all the videos that were released the

453
00:21:35,430 --> 00:21:32,950
video came from this asq 2 to 8 at FLIR

454
00:21:37,050 --> 00:21:35,440
I think it's Raytheon that manufactures

455
00:21:41,400 --> 00:21:37,060
that device yes that is correct

456
00:21:43,970 --> 00:21:41,410
these devices are mainly used as you

457
00:21:48,320 --> 00:21:43,980
would call it a infrared targeting pod

458
00:21:51,770 --> 00:21:48,330
and these targeting pods are used for

459
00:21:54,630 --> 00:21:51,780
dropping laser-guided bombs and

460
00:21:57,750 --> 00:21:54,640
attacking ground targets like tanks and

461
00:22:01,830 --> 00:21:57,760
fixed structures from altitude so the

462
00:22:04,500 --> 00:22:01,840
pilots use these as an infrared sighting

463
00:22:08,400 --> 00:22:04,510

and targeting device the devices have

464

00:22:11,670 --> 00:22:08,410

built in a laser and the laser can be

465

00:22:14,250 --> 00:22:11,680

used for tracking spotting objects in

466

00:22:16,920 --> 00:22:14,260

the ground for instance you could fire

467

00:22:20,070 --> 00:22:16,930

the laser and if you had a target

468

00:22:21,570 --> 00:22:20,080

designated being tracked that laser is

469

00:22:26,070 --> 00:22:21,580

going to reflect off that target

470

00:22:29,010 --> 00:22:26,080

allowing a laser-guided bomb to attack

471

00:22:32,130 --> 00:22:29,020

the target you know so that's how the

472

00:22:34,920 --> 00:22:32,140

laser comes into use in these devices as

473

00:22:37,770 --> 00:22:34,930

far as you know what we found looking at

474

00:22:40,140 --> 00:22:37,780

the three videos we don't think that

475

00:22:42,270 --> 00:22:40,150

lasers were involved we don't think they

476
00:22:45,090 --> 00:22:42,280
were lazing because there's symbology

477
00:22:50,340 --> 00:22:45,100
that would appear on the display namely

478
00:22:51,480 --> 00:22:50,350
a flashing L meaning laser firing so we

479
00:22:53,340 --> 00:22:51,490
didn't see that so

480
00:22:56,700 --> 00:22:53,350
don't think that they were actively

481
00:22:58,530 --> 00:22:56,710
using the laser there's two modes of

482
00:23:00,720 --> 00:22:58,540
lazing one is called a laser spot

483
00:23:02,430 --> 00:23:00,730
tracker I think and that's like like I

484
00:23:04,620 --> 00:23:02,440
said where you point it at an object and

485
00:23:08,090 --> 00:23:04,630
if that's all it does and there's

486
00:23:11,820 --> 00:23:08,100
another one called the the target

487
00:23:13,919 --> 00:23:11,830
designator and Ranger in that way the

488
00:23:17,090 --> 00:23:13,929

laser is functioning as a ranging device

489

00:23:20,220 --> 00:23:17,100
in providing distance to target

490

00:23:22,110 --> 00:23:20,230
information to the pilot so it's

491

00:23:23,340 --> 00:23:22,120
actually giving the range of that object

492

00:23:25,710 --> 00:23:23,350
that you're hitting with a laser okay

493

00:23:27,150 --> 00:23:25,720
and not to interrupt but when you talk

494

00:23:30,390 --> 00:23:27,160
about like a rangefinder you talking

495

00:23:31,650 --> 00:23:30,400
about not dissimilar to a range finder

496

00:23:33,240 --> 00:23:31,660
you might be exactly what you'd go

497

00:23:35,940 --> 00:23:33,250
golfing that kind of thing that's

498

00:23:38,760 --> 00:23:35,950
exactly what it is it's a rangefinder so

499

00:23:41,280 --> 00:23:38,770
it can be used as a rangefinder as well

500

00:23:44,190 --> 00:23:41,290
as you know you marking a target to

501
00:23:46,260 --> 00:23:44,200
attack the numbers that you see there I

502
00:23:49,080 --> 00:23:46,270
think the 1688 or whatever it was I

503
00:23:52,549 --> 00:23:49,090
believe in the other experts that I

504
00:23:56,070 --> 00:23:52,559
talked to say that that is a laser code

505
00:23:59,970 --> 00:23:56,080
it's in an encrypted code that allows

506
00:24:03,780 --> 00:23:59,980
other planes and other units to see that

507
00:24:05,760 --> 00:24:03,790
laser and track it and bomb it and I

508
00:24:08,669 --> 00:24:05,770
think that what I understood was that

509
00:24:10,740 --> 00:24:08,679
particular number that code based on the

510
00:24:17,250 --> 00:24:10,750
people that fly simulators and stuff is

511
00:24:20,430 --> 00:24:17,260
sort of a I think it was a NATO or JTAC

512
00:24:22,770 --> 00:24:20,440
or one of these overriding air command

513
00:24:25,530 --> 00:24:22,780

frequencies and it was it was sort of

514

00:24:27,660 --> 00:24:25,540

that frequency meaning you can't fire a

515

00:24:31,049 --> 00:24:27,670

weapon on this frequency it's like you

516

00:24:33,600 --> 00:24:31,059

know that's a frequency up today don't

517

00:24:36,540 --> 00:24:33,610

bomb this you know and it may just be

518

00:24:38,820 --> 00:24:36,550

that when you turn the unit on and fire

519

00:24:41,310 --> 00:24:38,830

it up it just defaults to that frequency

520

00:24:45,480 --> 00:24:41,320

so we don't think that that is a

521

00:24:48,690 --> 00:24:45,490

particular aircraft number so to speak

522

00:24:51,990 --> 00:24:48,700

so and just to clear up another thing

523

00:24:54,000 --> 00:24:52,000

when we look at the videos with for

524

00:24:55,640 --> 00:24:54,010

instance the nimitz video the FLIR one

525

00:24:58,710 --> 00:24:55,650

video

526
00:25:01,470 --> 00:24:58,720
commander flavor and jim slate in that

527
00:25:04,380 --> 00:25:01,480
flight that that video is based on they

528
00:25:05,250 --> 00:25:04,390
didn't film the FLIR one video that

529
00:25:07,350 --> 00:25:05,260
occurred

530
00:25:09,180 --> 00:25:07,360
two words after they had landed and a

531
00:25:11,610 --> 00:25:09,190
second flight of Jets who we have no

532
00:25:13,530 --> 00:25:11,620
idea who those pilots are they went up

533
00:25:16,140 --> 00:25:13,540
because when they landed commander

534
00:25:17,640 --> 00:25:16,150
flavor said hey put in a FLIR on your

535
00:25:18,210 --> 00:25:17,650
guys flight and get some pictures of

536
00:25:20,370 --> 00:25:18,220
that thing

537
00:25:22,800 --> 00:25:20,380
so that's where that originated from

538
00:25:24,450 --> 00:25:22,810

okay got it all right well there's

539

00:25:27,270 --> 00:25:24,460

another little piece of the puzzle that

540

00:25:29,730 --> 00:25:27,280

I was not aware of so we certainly

541

00:25:32,940 --> 00:25:29,740

appreciate that James what have you got

542

00:25:35,160 --> 00:25:32,950

for Dave yeah and I had heard the

543

00:25:38,250 --> 00:25:35,170

controversy about the video footage not

544

00:25:39,720 --> 00:25:38,260

being from actually from flavors jet so

545

00:25:43,790 --> 00:25:39,730

that is definitely interesting

546

00:25:46,410 --> 00:25:43,800

but so do only details on the instrument

547

00:25:48,990 --> 00:25:46,420

well two weeks prior to the incident

548

00:25:51,120 --> 00:25:49,000

occurring they were allegedly tracking

549

00:25:55,830 --> 00:25:51,130

these or at least to take that objects

550

00:25:58,140 --> 00:25:55,840

on radar mm-hmm yeah so that was in I

551
00:26:01,170 --> 00:25:58,150
believe several of the reports including

552
00:26:03,930 --> 00:26:01,180
fighters week and they talked about the

553
00:26:06,270 --> 00:26:03,940
USS Princeton has a radar system on it

554
00:26:07,890 --> 00:26:06,280
it's like an array radar it doesn't even

555
00:26:11,130 --> 00:26:07,900
spin around it's just on the side of a

556
00:26:12,960 --> 00:26:11,140
jet a big giant array doesn't move but

557
00:26:16,710 --> 00:26:12,970
it's so sensitive that they were able to

558
00:26:19,740 --> 00:26:16,720
pick up this object coming in from like

559
00:26:22,200 --> 00:26:19,750
some super altitude like 80,000 feet

560
00:26:25,890 --> 00:26:22,210
dropping down to the surface of the

561
00:26:28,260 --> 00:26:25,900
ocean in like in a number of seconds so

562
00:26:30,630 --> 00:26:28,270
that was kind of one of the first things

563
00:26:34,200 --> 00:26:30,640

that prompted them to send and vector

564

00:26:36,030 --> 00:26:34,210

other units out to that area

565

00:26:38,970 --> 00:26:36,040

so it had been going on for quite the

566

00:26:40,860 --> 00:26:38,980

wild now I could tell you that I'm

567

00:26:43,770 --> 00:26:40,870

working with some of the people in the

568

00:26:45,290 --> 00:26:43,780

scientific Coalition for youth ology to

569

00:26:48,980 --> 00:26:45,300

give them a little plug here who are

570

00:26:53,100 --> 00:26:48,990

investigating this scientifically and

571

00:26:56,190 --> 00:26:53,110

independently they they are all working

572

00:26:57,990 --> 00:26:56,200

on separate parts of this just to jump

573

00:27:00,180 --> 00:26:58,000

in Dave real quick is that the Robert

574

00:27:02,670 --> 00:27:00,190

Powell's group that's correct yeah Oh

575

00:27:05,100 --> 00:27:02,680

con they have a website and I don't

576
00:27:06,930 --> 00:27:05,110
really know all the members and I'm just

577
00:27:08,460 --> 00:27:06,940
helping a little bit on the side to be

578
00:27:09,900 --> 00:27:08,470
honest with you I'm not a member of that

579
00:27:15,630 --> 00:27:09,910
group but I am helping them a little bit

580
00:27:18,360 --> 00:27:15,640
and I did see I did see the deck log for

581
00:27:19,310 --> 00:27:18,370
the Nimitz which was acquired through a

582
00:27:22,520 --> 00:27:19,320
Freedom of Information

583
00:27:24,680 --> 00:27:22,530
act and I believe it covered

584
00:27:26,840 --> 00:27:24,690
a few days on either end of that event

585
00:27:29,300 --> 00:27:26,850
it didn't go back you know two weeks or

586
00:27:31,880 --> 00:27:29,310
whatever and looking through the deck

587
00:27:35,060 --> 00:27:31,890
log of the entire day there's no mention

588
00:27:38,750 --> 00:27:35,070

of anything odd going on and in fact you

589

00:27:41,450 --> 00:27:38,760

know when you look at the the the

590

00:27:42,890 --> 00:27:41,460

command of that aircraft carrier on the

591

00:27:45,770 --> 00:27:42,900

bridge so to speak there

592

00:27:47,060 --> 00:27:45,780

noting course changes in speed and when

593

00:27:48,770 --> 00:27:47,070

the commander is on the deck and

594

00:27:51,170 --> 00:27:48,780

everything they see from the bridge they

595

00:27:54,770 --> 00:27:51,180

see you know an odd object or something

596

00:27:57,290 --> 00:27:54,780

but there's no mention on the Nimitz

597

00:27:58,910 --> 00:27:57,300

death log of anything out of the

598

00:28:00,740 --> 00:27:58,920

ordinary going on and kind of looked

599

00:28:03,950 --> 00:28:00,750

through it pretty pretty good so I want

600

00:28:06,320 --> 00:28:03,960

to make that point the other point you

601
00:28:08,830 --> 00:28:06,330
know with that app FLIR and stuff is

602
00:28:13,700 --> 00:28:08,840
that the other two videos that we have

603
00:28:18,170 --> 00:28:13,710
as you know were from 2015 so you know

604
00:28:20,930 --> 00:28:18,180
many many years later you know a whole

605
00:28:22,490 --> 00:28:20,940
different situation there and the the

606
00:28:24,200 --> 00:28:22,500
media oftentimes is playing the wrong

607
00:28:27,590 --> 00:28:24,210
video so they were playing a video that

608
00:28:29,720 --> 00:28:27,600
was filmed like in another ocean in 2015

609
00:28:33,530 --> 00:28:29,730
and then talking about the nimitz event

610
00:28:35,510 --> 00:28:33,540
from 2004 there's just a confusion and

611
00:28:38,150 --> 00:28:35,520
being a former journalist i know how

612
00:28:40,190 --> 00:28:38,160
that happens on you know there's b-roll

613
00:28:42,800 --> 00:28:40,200

so to speak they have this video look

614

00:28:44,330 --> 00:28:42,810

it's a UFO you know and these plastered

615

00:28:46,040 --> 00:28:44,340

up there like wallpaper over the

616

00:28:48,260 --> 00:28:46,050

interview without ever even you know

617

00:28:50,000 --> 00:28:48,270

realizing that this is like a something

618

00:28:53,240 --> 00:28:50,010

that happened like a decade later you

619

00:28:55,430 --> 00:28:53,250

know and then people say there's some

620

00:28:57,710 --> 00:28:55,440

conspiracy oh you can see the you know

621

00:28:59,060 --> 00:28:57,720

they're playing this video well and in

622

00:29:01,540 --> 00:28:59,070

the people that are talking don't

623

00:29:04,370 --> 00:29:01,550

correct them so they're trying to

624

00:29:06,020 --> 00:29:04,380

hopefully somebody but i don't think

625

00:29:08,420 --> 00:29:06,030

they even know about it's like added

626

00:29:09,830 --> 00:29:08,430

later or like i said you know they can't

627

00:29:13,370 --> 00:29:09,840

see what's on the screen so there's

628

00:29:15,170 --> 00:29:13,380

talking about the tic tac and yet this

629

00:29:17,450 --> 00:29:15,180

other footage is playing from a decade

630

00:29:21,110 --> 00:29:17,460

later you know gotta the gimbal footage

631

00:29:23,540 --> 00:29:21,120

yeah that happened over and over so now

632

00:29:25,730 --> 00:29:23,550

a lot of it is time constraints these

633

00:29:28,400 --> 00:29:25,740

yeah they're trying to squeeze a lot of

634

00:29:30,290 --> 00:29:28,410

very dense complicated information into

635

00:29:31,520 --> 00:29:30,300

five or six minutes and there's just no

636

00:29:36,380 --> 00:29:31,530

way you can do that

637

00:29:37,700 --> 00:29:36,390

no and it's also how exciting it is as

638

00:29:39,380 --> 00:29:37,710

an editor I know that when I'm looking

639

00:29:41,630 --> 00:29:39,390

at some footage I look at the FLIR it's

640

00:29:43,040 --> 00:29:41,640

like this little dot you know doesn't

641

00:29:44,660 --> 00:29:43,050

move and then I look at this other

642

00:29:46,400 --> 00:29:44,670

footage it looks kind of similar but wow

643

00:29:49,250 --> 00:29:46,410

that's cool you know like any guy that

644

00:29:50,960 --> 00:29:49,260

are talking and X you know in the

645

00:29:52,340 --> 00:29:50,970

background you have the audio oh my gosh

646

00:29:54,110 --> 00:29:52,350

or whatever look at there's a whole

647

00:29:57,080 --> 00:29:54,120

fleet of my man you know bro what is

648

00:29:59,120 --> 00:29:57,090

that dude yeah so they're like that's

649

00:30:02,390 --> 00:29:59,130

better footage I'm using that it's just

650

00:30:05,900 --> 00:30:02,400

a momentary decision but of course it

651
00:30:08,540 --> 00:30:05,910
wasn't the right footage you know yeah

652
00:30:09,740 --> 00:30:08,550
now also the I'm not sure if it was the

653
00:30:11,930 --> 00:30:09,750
tech tech I think it was a gimbal

654
00:30:15,050 --> 00:30:11,940
footage people were saying that that was

655
00:30:19,700 --> 00:30:15,060
released like in 2007 on reddit is that

656
00:30:24,500 --> 00:30:19,710
true I am not aware of that um I mean

657
00:30:27,800 --> 00:30:24,510
I'm aware of the release of the FLIR one

658
00:30:30,560 --> 00:30:27,810
video and there is somewhat of a

659
00:30:33,740 --> 00:30:30,570
conspiracy theory idea based on what

660
00:30:37,130 --> 00:30:33,750
happened I think that that appeared on

661
00:30:38,990 --> 00:30:37,140
YouTube maybe around 2008 or something

662
00:30:43,160 --> 00:30:39,000
and it also appeared on this obscure

663
00:30:45,650 --> 00:30:43,170

german website called vision unlimited

664

00:30:48,140 --> 00:30:45,660

and vision unlimited was this website

665

00:30:50,480 --> 00:30:48,150

being used by well people that do

666

00:30:54,260 --> 00:30:50,490

visuals facts in 3d animation like i'm

667

00:30:55,550 --> 00:30:54,270

doing and the the video appeared on one

668

00:30:57,980 --> 00:30:55,560

of their servers I'm not sure how

669

00:30:59,960 --> 00:30:57,990

someone found found it but then it

670

00:31:03,830 --> 00:30:59,970

disappeared but it was there for a while

671

00:31:07,120 --> 00:31:03,840

and of course the the conspiracy would

672

00:31:09,920 --> 00:31:07,130

be hey like that video is not real of

673

00:31:12,860 --> 00:31:09,930

FLIR one the Nimitz stave freighter

674

00:31:15,770 --> 00:31:12,870

encounter and so on that's a fake video

675

00:31:19,190 --> 00:31:15,780

made by computer graphics students and

676
00:31:21,380 --> 00:31:19,200
this German yeah and so the whole story

677
00:31:23,660 --> 00:31:21,390
is thrown out the Dave flavours lying

678
00:31:26,600 --> 00:31:23,670
the government's lying everything that's

679
00:31:29,690 --> 00:31:26,610
a big lie to cover something up which

680
00:31:31,190 --> 00:31:29,700
you know I don't know maybe there's some

681
00:31:34,640 --> 00:31:31,200
other explanation of how that ended up

682
00:31:37,790 --> 00:31:34,650
there maybe you the person anonymously

683
00:31:40,790 --> 00:31:37,800
posting it had some reason to put it on

684
00:31:42,650 --> 00:31:40,800
that German web site I don't know yeah

685
00:31:44,450 --> 00:31:42,660
but I don't know about the reddit when I

686
00:31:46,489 --> 00:31:44,460
never heard that

687
00:31:47,810 --> 00:31:46,499
yeah I could have that wrong - I thought

688
00:31:50,509 --> 00:31:47,820

I could have sworn I heard somebody say

689

00:31:58,720 --> 00:31:50,519

the disorders of Reese but I did hear

690

00:32:01,460 --> 00:31:58,730

the German website and yeah now also the

691

00:32:03,499 --> 00:32:01,470

when you were investigating all this a

692

00:32:06,109 --> 00:32:03,509

tip stuff you did come across a big law

693

00:32:10,009 --> 00:32:06,119

and did you come also come across an

694

00:32:12,200 --> 00:32:10,019

AIDS or Beth no I mean the only thing

695

00:32:15,649 --> 00:32:12,210

that I did find you know I mean I still

696

00:32:18,259 --> 00:32:15,659

I follow all that stuff online it's very

697

00:32:22,460 --> 00:32:18,269

interesting how the government basically

698

00:32:25,999 --> 00:32:22,470

was using subcontractors you know

699

00:32:29,239 --> 00:32:26,009

Bigelow Aerospace and the funding for a

700

00:32:30,850 --> 00:32:29,249

tip that was set up and you know the

701
00:32:35,029 --> 00:32:30,860
funding that went to Bigelow Aerospace

702
00:32:38,659 --> 00:32:35,039
obviously going back before that time

703
00:32:42,019 --> 00:32:38,669
you had needs going on in the

704
00:32:44,210 --> 00:32:42,029
investigation of skinwalker ranch which

705
00:32:46,700 --> 00:32:44,220
I believe that he privately funded knits

706
00:32:49,609 --> 00:32:46,710
I think I mean I could be wrong about

707
00:32:51,289 --> 00:32:49,619
that but a whole other you know thing

708
00:32:53,720 --> 00:32:51,299
very interesting how this stuff ties

709
00:32:55,850 --> 00:32:53,730
together and I know you guys are going

710
00:32:58,730 --> 00:32:55,860
to be talking a little bit about meta

711
00:33:00,409 --> 00:32:58,740
materials and so on and when you start

712
00:33:02,869 --> 00:33:00,419
like putting the pieces together to the

713
00:33:06,259 --> 00:33:02,879

stuff you're like okay Nimitz and you

714

00:33:09,019 --> 00:33:06,269

had Douglas Kurt the fighter pilot Wow

715

00:33:11,749 --> 00:33:09,029

then he went to work for big a little

716

00:33:13,460 --> 00:33:11,759

aerospace and then you have skinwalker

717

00:33:15,710 --> 00:33:13,470

ranch and you have these meta materials

718

00:33:19,100 --> 00:33:15,720

that are being stored at Bigelow

719

00:33:21,529 --> 00:33:19,110

Aerospace and you know there's still

720

00:33:24,609 --> 00:33:21,539

some some really murky stuff there but

721

00:33:28,279 --> 00:33:24,619

it seems to all tie together in some way

722

00:33:30,440 --> 00:33:28,289

yeah Jeremy Korbelt had said that in the

723

00:33:32,869 --> 00:33:30,450

skinwalker ranch documentary that he's

724

00:33:34,820 --> 00:33:32,879

doing that the hunter skinwalker that

725

00:33:40,039 --> 00:33:34,830

there's gonna be information there that

726

00:33:42,769 --> 00:33:40,049

talks about what led into a tip so

727

00:33:44,810 --> 00:33:42,779

that's actually know as well I mean how

728

00:33:48,080 --> 00:33:44,820

do you connect those that's gonna be

729

00:33:51,909 --> 00:33:48,090

pretty interesting well what's it I mean

730

00:33:55,609 --> 00:33:51,919

didn't he say that there was an a

731

00:33:58,549 --> 00:33:55,619

government intelligence participation at

732

00:34:01,460 --> 00:33:58,559

skinwalker ranch you know why is

733

00:34:04,310 --> 00:34:01,470

our government intelligence working with

734

00:34:06,440 --> 00:34:04,320

Bigelow Aerospace at this remote rant

735

00:34:11,059 --> 00:34:06,450

what's there that would prompt that you

736

00:34:14,149 --> 00:34:11,069

know exactly well I've got a clue a

737

00:34:16,430 --> 00:34:14,159

little bit later on as far as the the

738

00:34:18,319 --> 00:34:16,440

metamaterials go I don't know if I you

739

00:34:20,210 --> 00:34:18,329

could probably go to our live stream

740

00:34:22,220 --> 00:34:20,220

there's about a 10 second delay and

741

00:34:23,899 --> 00:34:22,230

you'll be able to see some of the slides

742

00:34:26,419 --> 00:34:23,909

that I'm gonna put up related to that

743

00:34:28,309 --> 00:34:26,429

and if you want to go ahead and do that

744

00:34:31,069 --> 00:34:28,319

like I said there's about a 10 second

745

00:34:32,720 --> 00:34:31,079

delay between what we're talking about

746

00:34:34,579 --> 00:34:32,730

in the moment as compared to what you

747

00:34:36,079 --> 00:34:34,589

see up on YouTube but you'll be able to

748

00:34:38,510 --> 00:34:36,089

see those slides if you do want to play

749

00:34:41,000 --> 00:34:38,520

along oh great yeah I'm really

750

00:34:42,559 --> 00:34:41,010

interested and I just wanted to go back

751
00:34:43,909 --> 00:34:42,569
and talk about the film that I'm making

752
00:34:46,129 --> 00:34:43,919
because people might say like what is

753
00:34:48,440 --> 00:34:46,139
this film where's it gonna be shown or

754
00:34:50,359 --> 00:34:48,450
whatever and I wanted to let everyone

755
00:34:54,050 --> 00:34:50,369
know that look I'm just doing this like

756
00:34:56,030 --> 00:34:54,060
on the side like after work and I'm not

757
00:34:58,280 --> 00:34:56,040
being paid to do it

758
00:35:00,800 --> 00:34:58,290
and I'm just basically gonna put this

759
00:35:03,740 --> 00:35:00,810
together and put it out there in the

760
00:35:05,960 --> 00:35:03,750
community two stars Kadim ii was kind

761
00:35:07,940 --> 00:35:05,970
enough to let me use david flavors

762
00:35:09,200 --> 00:35:07,950
interview that you saw and that in that

763
00:35:12,170 --> 00:35:09,210

video and you can also see it on their

764

00:35:15,890 --> 00:35:12,180

web site which really lends you know

765

00:35:17,300 --> 00:35:15,900

credibility to the account so once this

766

00:35:19,190 --> 00:35:17,310

film is done i don't know how long it's

767

00:35:21,290 --> 00:35:19,200

going to take me to to put it all

768

00:35:23,930 --> 00:35:21,300

together and do all the voices and so on

769

00:35:25,599 --> 00:35:23,940

well once it's done you know it will be

770

00:35:28,309 --> 00:35:25,609

out there you'll be able to find it

771

00:35:33,230 --> 00:35:28,319

fantastic I think it's looking good so

772

00:35:35,630 --> 00:35:33,240

far yeah it's a lot of fun I mean 3d

773

00:35:37,910 --> 00:35:35,640

animation and rendering takes a long

774

00:35:40,520 --> 00:35:37,920

time so that's one little five-second

775

00:35:43,160 --> 00:35:40,530

clip might take like three hours of

776
00:35:45,559 --> 00:35:43,170
computer time so it's like you know one

777
00:35:48,020 --> 00:35:45,569
little piece at a time and the hardest

778
00:35:51,319 --> 00:35:48,030
part was getting the model set up like

779
00:35:54,260 --> 00:35:51,329
getting the the jet models on one of one

780
00:35:56,359 --> 00:35:54,270
of the followers on Facebook was kind

781
00:35:58,790 --> 00:35:56,369
enough to shoot me like 30 bucks so I

782
00:36:01,250 --> 00:35:58,800
had to buy a model online it cost like

783
00:36:03,440 --> 00:36:01,260
70 bucks and you know so people are

784
00:36:05,690 --> 00:36:03,450
helping out there and getting the

785
00:36:07,920 --> 00:36:05,700
modeling done and actually getting the

786
00:36:10,170 --> 00:36:07,930
proper

787
00:36:12,930 --> 00:36:10,180
you know symbols on the jad and the unit

788
00:36:15,239 --> 00:36:12,940

numbers and the whole thing has taken a

789

00:36:18,960 --> 00:36:15,249

lot of time but once that stuff's done

790

00:36:21,029 --> 00:36:18,970

then actually animating and it's not as

791

00:36:22,829 --> 00:36:21,039

difficult it's kind of fun you know yeah

792

00:36:23,910 --> 00:36:22,839

it looks like it for the most part it's

793

00:36:27,960 --> 00:36:23,920

going to be pretty much straightforward

794

00:36:29,910 --> 00:36:27,970

path animation yeah we have that the

795

00:36:33,089 --> 00:36:29,920

other the defense visual information

796

00:36:35,759 --> 00:36:33,099

Center has public domain footage that's

797

00:36:38,279 --> 00:36:35,769

been filmed by men and women of our

798

00:36:49,329 --> 00:36:38,289

service you know our military service so

799

00:36:56,890 --> 00:36:52,109

this isn't good connection successful

800

00:36:58,329 --> 00:36:56,900

okay okay it seems like we're back it

801
00:37:01,390 --> 00:36:58,339
looks like we had some issues with the

802
00:37:04,209 --> 00:37:01,400
stream unfortunately but we are we are

803
00:37:08,410 --> 00:37:04,219
rolling so sorry about that okay

804
00:37:10,269 --> 00:37:08,420
back to normal and let's see oh yeah you

805
00:37:14,890 --> 00:37:10,279
were talking about getting the models

806
00:37:17,849 --> 00:37:14,900
together and doing the animations like I

807
00:37:23,170 --> 00:37:17,859
said you're using a cinema 4d for this

808
00:37:24,160 --> 00:37:23,180
that's quite a program I didn't quite

809
00:37:27,009 --> 00:37:24,170
hear that I don't know if we're still

810
00:37:28,479 --> 00:37:27,019
connected but I can tell you that the

811
00:37:30,700 --> 00:37:28,489
software that I'm using to do this is

812
00:37:33,160 --> 00:37:30,710
you know the Adobe Creative Suite which

813
00:37:35,529 --> 00:37:33,170

is a complete post-production system for

814

00:37:37,359 --> 00:37:35,539

added ting and it integrates very well

815

00:37:39,190 --> 00:37:37,369

with the animation package which is

816

00:37:42,190 --> 00:37:39,200

called cinema 4d

817

00:37:45,759 --> 00:37:42,200

that's the 3d animation software I'm

818

00:37:48,700 --> 00:37:45,769

rendering in got it and like I said so

819

00:37:51,549 --> 00:37:48,710

far so good so Dave you were telling me

820

00:37:54,009 --> 00:37:51,559

before we went on the air that you have

821

00:37:55,690 --> 00:37:54,019

been involved in the UFOs before you

822

00:37:57,640 --> 00:37:55,700

worked for MUFON a little bit

823

00:37:58,809 --> 00:37:57,650

took a little break and with all this

824

00:38:01,259 --> 00:37:58,819

you got back into it

825

00:38:04,150 --> 00:38:01,269

so tell us a little bit more about that

826

00:38:06,279 --> 00:38:04,160

sure yeah

827

00:38:09,430 --> 00:38:06,289

you know I've always been very

828

00:38:12,009 --> 00:38:09,440

interested in the phenomenon and you

829

00:38:13,779 --> 00:38:12,019

know from from when I was a teenager you

830

00:38:19,229 --> 00:38:13,789

know I read a lot everything I could get

831

00:38:23,650 --> 00:38:19,239

my hands on about the paranormal UFO UFO

832

00:38:25,959 --> 00:38:23,660

events and so on so you know fast

833

00:38:28,779 --> 00:38:25,969

forward to when I moved to Florida I did

834

00:38:31,390 --> 00:38:28,789

live in New York I grew up there upstate

835

00:38:32,650 --> 00:38:31,400

and when I moved to Florida I wanted to

836

00:38:35,489 --> 00:38:32,660

follow up and get a little bit more

837

00:38:40,180 --> 00:38:35,499

involved so I found out that there was a

838

00:38:43,209 --> 00:38:40,190

mutual UFO network section down here got

839

00:38:45,130 --> 00:38:43,219

involved that little little bit you know

840

00:38:47,049 --> 00:38:45,140

did some studying on their investigative

841

00:38:48,789 --> 00:38:47,059

methods and so I was a field

842

00:38:52,299 --> 00:38:48,799

investigator for a number of years down

843

00:38:55,269 --> 00:38:52,309

here studied a couple of interesting

844

00:39:00,819 --> 00:38:55,279

cases there was one case that involved

845

00:39:03,130 --> 00:39:00,829

like a shiny metallic object that was

846

00:39:05,550 --> 00:39:03,140

captured on videotape I'm above and

847

00:39:08,530 --> 00:39:05,560

neighborhood a guy saw this thing and

848

00:39:10,660 --> 00:39:08,540

probably at about I don't know 500 feet

849

00:39:14,920 --> 00:39:10,670

away from it at an altitude of maybe a

850

00:39:17,770 --> 00:39:14,930

hundred feet it was going along and we

851
00:39:20,320 --> 00:39:17,780
looked at this video and investigated it

852
00:39:23,800 --> 00:39:20,330
with air traffic control they had no

853
00:39:27,100 --> 00:39:23,810
nothing on radar but what what really

854
00:39:31,030 --> 00:39:27,110
kind of sealed the case is I I had sent

855
00:39:32,770 --> 00:39:31,040
it to dr. Bruce Maccabee who is doing

856
00:39:36,490 --> 00:39:32,780
photo analysis for a move out at the

857
00:39:38,440 --> 00:39:36,500
time and I also started noting all of

858
00:39:42,040 --> 00:39:38,450
the weather phenomena at the time it

859
00:39:44,200 --> 00:39:42,050
appeared that this object was going in

860
00:39:47,620 --> 00:39:44,210
the same direction in speed as the wind

861
00:39:49,660 --> 00:39:47,630
was going so in that particular case we

862
00:39:52,480 --> 00:39:49,670
determined that it had to be some type

863
00:39:55,180 --> 00:39:52,490

of balloon it didn't really look like a

864

00:39:56,830 --> 00:39:55,190

mylar balloon like the normal kind you

865

00:39:58,960 --> 00:39:56,840

see in the store it was sort of

866

00:40:02,220 --> 00:39:58,970

trapezoidal and it had different

867

00:40:05,230 --> 00:40:02,230

sections of it almost like if you had to

868

00:40:07,390 --> 00:40:05,240

trapezoid side-by-side and then it was

869

00:40:08,770 --> 00:40:07,400

going along like this so in this one

870

00:40:10,390 --> 00:40:08,780

individual that film that actually had

871

00:40:12,910 --> 00:40:10,400

film a similar event I think up in

872

00:40:14,890 --> 00:40:12,920

Augusta Georgia earlier in his life so

873

00:40:18,730 --> 00:40:14,900

he said it looked like the same type of

874

00:40:21,190 --> 00:40:18,740

object so even though it seemed to be

875

00:40:23,860 --> 00:40:21,200

you know okay this is a prosaic mylar

876

00:40:25,750 --> 00:40:23,870

balloon flowing with the wind he kind of

877

00:40:28,540 --> 00:40:25,760

disagreed with without her assessment on

878

00:40:31,510 --> 00:40:28,550

that another case that I got involved in

879

00:40:34,120 --> 00:40:31,520

my mom actually happened to live in Gulf

880

00:40:37,240 --> 00:40:34,130

Breeze Florida and you guys Canton

881

00:40:43,480 --> 00:40:37,250

probably know what oh yeah yeah yeah I

882

00:40:47,230 --> 00:40:43,490

think UFO flap over there and he had

883

00:40:49,780 --> 00:40:47,240

bought UFO and of course I know that

884

00:40:54,250 --> 00:40:49,790

some people believe ed Walters and son

885

00:40:56,710 --> 00:40:54,260

oh I don't know I I don't I don't have a

886

00:40:58,150 --> 00:40:56,720

judgment on that you know Wow Wow his

887

00:41:01,780 --> 00:40:58,160

sightings were going on after he wrote

888

00:41:04,450 --> 00:41:01,790

his book the Gulf Breeze sightings there

889

00:41:07,180 --> 00:41:04,460

was another UFO that was there and it

890

00:41:08,920 --> 00:41:07,190

was a red light UFO and they called it

891

00:41:12,070 --> 00:41:08,930

they nicknamed it Bubba

892

00:41:13,270 --> 00:41:12,080

so this would have been I think this

893

00:41:15,400 --> 00:41:13,280

would have been like mid 90s or

894

00:41:16,539 --> 00:41:15,410

something and so I used to go up there

895

00:41:18,789 --> 00:41:16,549

and we

896

00:41:21,939 --> 00:41:18,799

would sky watch it shoreline park and

897

00:41:23,979 --> 00:41:21,949

all these people in the area we would go

898

00:41:25,660 --> 00:41:23,989

there at night with their binoculars of

899

00:41:29,410 --> 00:41:25,670

course I never saw it when I was there

900

00:41:32,349 --> 00:41:29,420

but my mom did see Baba which would

901
00:41:35,049 --> 00:41:32,359
appear over the you know where the bay

902
00:41:38,169 --> 00:41:35,059
this red light and we're just kind of

903
00:41:39,309 --> 00:41:38,179
move slowly I don't they got a lot of

904
00:41:40,539 --> 00:41:39,319
footage of that thing but I don't know

905
00:41:43,120 --> 00:41:40,549
that they ever explained what that thing

906
00:41:45,009 --> 00:41:43,130
was but it's kind of nice when you have

907
00:41:46,719 --> 00:41:45,019
a predictable UFO you can go someplace

908
00:41:50,049 --> 00:41:46,729
and it shows up every night you know

909
00:41:53,289 --> 00:41:50,059
that would be nice yeah very interesting

910
00:41:55,900 --> 00:41:53,299
very interesting case so that's kind of

911
00:41:59,019 --> 00:41:55,910
my you know investigative stuff back

912
00:42:01,779 --> 00:41:59,029
many years ago I got out of the ufology

913
00:42:03,789 --> 00:42:01,789

for a long time didn't follow it but you

914

00:42:05,949 --> 00:42:03,799

know when when the announcement came and

915

00:42:08,469 --> 00:42:05,959

you know maybe three months four months

916

00:42:11,589 --> 00:42:08,479

before that when to the stars CAD me of

917

00:42:14,620 --> 00:42:11,599

Arts and Science announced formation of

918

00:42:17,199 --> 00:42:14,630

their group and you know the top level

919

00:42:21,419 --> 00:42:17,209

people the top level government

920

00:42:25,179 --> 00:42:21,429

intelligence aerospace coming together

921

00:42:27,489 --> 00:42:25,189

with Tom DeLonge is just unprecedented I

922

00:42:31,299 --> 00:42:27,499

mean I mean it makes you stand up and

923

00:42:32,349 --> 00:42:31,309

take notice and say you know obviously

924

00:42:34,959 --> 00:42:32,359

they're gonna tell us something

925

00:42:36,759 --> 00:42:34,969

something is coming out and they give

926
00:42:38,620 --> 00:42:36,769
this these videos and they say we don't

927
00:42:41,709 --> 00:42:38,630
know if you know Lois Elizondo who says

928
00:42:43,509 --> 00:42:41,719
we don't know what these are we we want

929
00:42:45,069 --> 00:42:43,519
to know if someone out there can help us

930
00:42:47,370 --> 00:42:45,079
explain what these are that would be

931
00:42:49,630 --> 00:42:47,380
great we don't know what they are so

932
00:42:52,829 --> 00:42:49,640
there's that side of it then there's

933
00:42:55,269 --> 00:42:52,839
well maybe they know what they are and

934
00:42:56,979 --> 00:42:55,279
looking at all of that the whole thing I

935
00:43:00,880 --> 00:42:56,989
just can't aside I don't know if it's

936
00:43:05,759 --> 00:43:00,890
like okay you know Oh back in the 50s

937
00:43:08,829 --> 00:43:05,769
you know we got Nazi technology that we

938
00:43:11,709 --> 00:43:08,839

you know after the war our intelligent

939

00:43:13,239 --> 00:43:11,719

operation went into Germany and got all

940

00:43:15,390 --> 00:43:13,249

these scientists and got all their

941

00:43:18,249 --> 00:43:15,400

papers and all the research of the

942

00:43:19,509 --> 00:43:18,259

planes and you know UFOs that they were

943

00:43:21,749 --> 00:43:19,519

building and then we brought it back to

944

00:43:27,579 --> 00:43:21,759

the United States and since then we've

945

00:43:30,550 --> 00:43:27,589

created anti-gravity ships you know the

946

00:43:33,250 --> 00:43:30,560

the Astra and like UFOs that you see

947

00:43:35,800 --> 00:43:33,260

our technology because we actually have

948

00:43:39,310 --> 00:43:35,810

secret technology that's anti-gravity

949

00:43:41,440 --> 00:43:39,320

stuff that's just speculation you know I

950

00:43:44,080 --> 00:43:41,450

don't know that could be true I would

951
00:43:44,940 --> 00:43:44,090
you know I mean what do you guys think

952
00:43:49,420 --> 00:43:44,950
about that

953
00:43:51,100 --> 00:43:49,430
well I I think I think there's a real

954
00:43:54,490 --> 00:43:51,110
good chance that we're being visited

955
00:43:58,900 --> 00:43:54,500
that there's there's enough evidence out

956
00:44:01,480 --> 00:43:58,910
there radar tracks corroborating a

957
00:44:03,910 --> 00:44:01,490
witness accounts yeah I'm not sure I

958
00:44:06,370 --> 00:44:03,920
believe it was you but then you had at

959
00:44:09,700 --> 00:44:06,380
least five different radar hits on on

960
00:44:12,910 --> 00:44:09,710
this UFO involving the with the Nimitz

961
00:44:15,700 --> 00:44:12,920
case five different ones corroborating

962
00:44:16,960 --> 00:44:15,710
what the pilots were saying so I mean do

963
00:44:19,330 --> 00:44:16,970

you guys think it's possible that

964

00:44:22,650 --> 00:44:19,340

there's both that we have this

965

00:44:27,070 --> 00:44:22,660

technology in our you know hands and

966

00:44:29,290 --> 00:44:27,080

there's visitors as well I'm sure that

967

00:44:33,400 --> 00:44:29,300

I'm sure we're pretty advanced I'm sure

968

00:44:35,350 --> 00:44:33,410

that we've advanced a long way but I

969

00:44:38,470 --> 00:44:35,360

don't think it could and I'm sure some

970

00:44:40,090 --> 00:44:38,480

UFO sightings are our most advanced gear

971

00:44:42,610 --> 00:44:40,100

right but I don't think it accounts for

972

00:44:44,680 --> 00:44:42,620

all of them right it to me it makes you

973

00:44:46,120 --> 00:44:44,690

know like we're gonna we're gonna invest

974

00:44:49,210 --> 00:44:46,130

you know billions and billions of

975

00:44:51,760 --> 00:44:49,220

dollars in the program like the f-35 you

976
00:44:54,430 --> 00:44:51,770
know advanced fighter you know and all

977
00:44:56,530 --> 00:44:54,440
the whole aerospace industry yet Oh back

978
00:44:58,030 --> 00:44:56,540
here we have the Lazar sports model that

979
00:44:59,470 --> 00:44:58,040
were flying around in desert and we're

980
00:45:00,970 --> 00:44:59,480
not going to tell anybody in the

981
00:45:02,770 --> 00:45:00,980
civilian population never gets to use

982
00:45:04,180 --> 00:45:02,780
any of this cool tack that we have it

983
00:45:06,670 --> 00:45:04,190
seems kind of a little far-fetched like

984
00:45:08,530 --> 00:45:06,680
that we wouldn't have actually you know

985
00:45:11,290 --> 00:45:08,540
commercialized that in some way but I

986
00:45:15,010 --> 00:45:11,300
don't know on the other hand you know

987
00:45:18,010 --> 00:45:15,020
the whole UFO phenomena the the evidence

988
00:45:20,230 --> 00:45:18,020

is overwhelming that you know we're

989

00:45:28,410 --> 00:45:20,240

these things are real people are seeing

990

00:45:33,100 --> 00:45:28,420

them and it goes way beyond then of

991

00:45:37,660 --> 00:45:33,110

discs it goes farther into very very

992

00:45:41,140 --> 00:45:37,670

high strange witness encounters of what

993

00:45:43,670 --> 00:45:41,150

would appear to be aliens you know they

994

00:45:51,680 --> 00:45:45,260

throughout you know the last hundred

995

00:45:53,540 --> 00:45:51,690

years we have numerous reports of David

996

00:45:58,970 --> 00:45:53,550

you're breaking up a little bit I don't

997

00:46:00,590 --> 00:45:58,980

know if you can hear me yeah okay okay

998

00:46:04,220 --> 00:46:00,600

yeah you're breaking up a little bit

999

00:46:06,080 --> 00:46:04,230

James can you hear me okay yeah okay

1000

00:46:08,120 --> 00:46:06,090

okay so yeah I think you might be

1001

00:46:10,460 --> 00:46:08,130

running into some technical stuff on

1002

00:46:14,000 --> 00:46:10,470

your end so I'll tell you what you want

1003

00:46:16,520 --> 00:46:14,010

to hang and it looks like a your webcam

1004

00:46:19,430 --> 00:46:16,530

is frozen at the moment no I just saw

1005

00:46:23,800 --> 00:46:19,440

you blink so you're okay can you hear me

1006

00:46:29,480 --> 00:46:27,230

David yeah you can hear me but I think

1007

00:46:33,140 --> 00:46:29,490

there's an issue on Dave's end

1008

00:46:35,510 --> 00:46:33,150

so whether yeah there was an issue with

1009

00:46:38,570 --> 00:46:35,520

us going now streaming up to YouTube and

1010

00:46:41,110 --> 00:46:38,580

now looks like Dave might be having some

1011

00:46:44,990 --> 00:46:41,120

little issues can you hear me okay Dave

1012

00:46:47,420 --> 00:46:45,000

yeah the audio has not broken up coming

1013

00:46:49,190 --> 00:46:47,430

on me and bounced up okay yeah coming

1014

00:46:52,850 --> 00:46:49,200

coming out to our end you were breaking

1015

00:46:54,710 --> 00:46:52,860

up a little bit just is there anything

1016

00:46:55,460 --> 00:46:54,720

that that we missed that we didn't ask

1017

00:46:57,020 --> 00:46:55,470

you about that

1018

00:46:58,700 --> 00:46:57,030

you think you've got that's pretty hot

1019

00:47:02,600 --> 00:46:58,710

and most people probably don't know

1020

00:47:04,610 --> 00:47:02,610

about it no not I mean I love I love

1021

00:47:07,610 --> 00:47:04,620

talking about all of this subject matter

1022

00:47:09,680 --> 00:47:07,620

and contemplating it so I don't have any

1023

00:47:11,870 --> 00:47:09,690

I mean the Nimitz case and my little

1024

00:47:15,680 --> 00:47:11,880

film is the thing I'm working on you

1025

00:47:18,410 --> 00:47:15,690

know so that's about it okay yeah I

1026

00:47:20,540 --> 00:47:18,420

think it already just for no other

1027

00:47:22,820 --> 00:47:20,550

reason the hullabaloo that's surrounded

1028

00:47:26,750 --> 00:47:22,830

it it's a top 10 all-time case already

1029

00:47:31,310 --> 00:47:26,760

oh yeah yeah I mean the whole thing with

1030

00:47:34,760 --> 00:47:31,320

the a tip and the to the stars Academy

1031

00:47:37,280 --> 00:47:34,770

and as I understand it the New York

1032

00:47:38,240 --> 00:47:37,290

Times is working on another article as

1033

00:47:40,700 --> 00:47:38,250

well right

1034

00:47:43,520 --> 00:47:40,710

that's what I've heard so we will see we

1035

00:47:45,290 --> 00:47:43,530

will see yeah how that plays out one

1036

00:47:47,150 --> 00:47:45,300

thing they are taking their time about

1037

00:47:49,430 --> 00:47:47,160

it so I'm not gonna hold my breath but

1038

00:47:50,660 --> 00:47:49,440

when it does come obviously we'll know

1039

00:47:52,340 --> 00:47:50,670

about it if it's coming out through the

1040

00:47:55,750 --> 00:47:52,350

New York Times we won't have to dig for

1041

00:47:57,650 --> 00:47:55,760

that well you know people say this is

1042

00:48:00,289 --> 00:47:57,660

disclosure we're seeing

1043

00:48:03,470 --> 00:48:00,299

the government I'm going is going to

1044

00:48:06,200 --> 00:48:03,480

announce to the public that you know we

1045

00:48:07,460 --> 00:48:06,210

are being visited by these crafts and

1046

00:48:10,450 --> 00:48:07,470

these are real I mean they've said that

1047

00:48:13,970 --> 00:48:10,460

but how much more they know I don't know

1048

00:48:16,999 --> 00:48:13,980

we won't we will find anything that that

1049

00:48:19,880 --> 00:48:17,009

I mean in consequence to all this

1050

00:48:21,710 --> 00:48:19,890

surfacing you know the government has

1051
00:48:23,839 --> 00:48:21,720
denied any kind of involvement with UFOs

1052
00:48:26,539 --> 00:48:23,849
since 1969 with the end of Project Blue

1053
00:48:29,749 --> 00:48:26,549
Book this is an on-the-record thing

1054
00:48:32,630 --> 00:48:29,759
saying okay you know even though over

1055
00:48:35,210 --> 00:48:32,640
the last I don't know 10 15 years

1056
00:48:39,039 --> 00:48:35,220
there's been a ton of petitions trying

1057
00:48:42,140 --> 00:48:39,049
to you know get information about UFOs

1058
00:48:44,470 --> 00:48:42,150
to the government they've denied any

1059
00:48:47,450 --> 00:48:44,480
kind of involvement but this proves that

1060
00:48:49,509 --> 00:48:47,460
there is in fact an inquiry and

1061
00:48:52,970 --> 00:48:49,519
involvement by the US government and

1062
00:48:57,289 --> 00:48:52,980
also the the New York Times reported

1063
00:49:00,559 --> 00:48:57,299

that there were other programs so yeah

1064

00:49:04,400 --> 00:49:00,569

I'm a pretty big deal it's a very big

1065

00:49:07,130 --> 00:49:04,410

deal you know and then you you combine

1066

00:49:10,549 --> 00:49:07,140

that with the fact that no one has been

1067

00:49:13,490 --> 00:49:10,559

independently able to get the Pentagon

1068

00:49:16,490 --> 00:49:13,500

to release anything acknowledging this

1069

00:49:19,309 --> 00:49:16,500

program the a tip program or even say

1070

00:49:22,279 --> 00:49:19,319

that Louis a Lozano worked for them they

1071

00:49:24,230 --> 00:49:22,289

haven't found any in fact the I think

1072

00:49:26,450 --> 00:49:24,240

that the public spokesperson said we

1073

00:49:29,539 --> 00:49:26,460

didn't release these videos we didn't

1074

00:49:31,910 --> 00:49:29,549

put these out to the public so you have

1075

00:49:34,430 --> 00:49:31,920

that side of it as well but like you

1076

00:49:36,890 --> 00:49:34,440

said the fact that you know the

1077

00:49:39,109 --> 00:49:36,900

government did release these videos

1078

00:49:42,309 --> 00:49:39,119

which I sure would be classified from

1079

00:49:44,480 --> 00:49:42,319

these a clear camera systems is really

1080

00:49:47,269 --> 00:49:44,490

incredible and the fact that Louis I is

1081

00:49:49,190 --> 00:49:47,279

Donna the head of that program coming

1082

00:49:52,759 --> 00:49:49,200

out and explaining to everybody how it

1083

00:49:55,640 --> 00:49:52,769

worked it's just mind-boggling very

1084

00:49:58,880 --> 00:49:55,650

exciting just just to jump in here real

1085

00:50:01,759 --> 00:49:58,890

quick Dave James you got a little piece

1086

00:50:03,680 --> 00:50:01,769

of some speculation at least but that

1087

00:50:06,049 --> 00:50:03,690

considering it came from Gary Nolan

1088

00:50:09,200 --> 00:50:06,059

who's on the Advisory Board of to the

1089

00:50:10,950 --> 00:50:09,210

stars he's the source on this you got

1090

00:50:12,960 --> 00:50:10,960

some information from him

1091

00:50:15,809 --> 00:50:12,970

in terms of how he thinks that in from

1092

00:50:17,280 --> 00:50:15,819

those videos might have gotten out so

1093

00:50:19,049 --> 00:50:17,290

I'm not sure if Dave knows this or not

1094

00:50:20,940 --> 00:50:19,059

and I'm not sure a lot of our listeners

1095

00:50:23,819 --> 00:50:20,950

know about it but why don't you share

1096

00:50:27,210 --> 00:50:23,829

that which I'm not sure what you're

1097

00:50:30,390 --> 00:50:27,220

referring to okay yeah Gary Nolan had

1098

00:50:33,059 --> 00:50:30,400

said at one point he thought that they

1099

00:50:35,849 --> 00:50:33,069

were able to get those videos out prior

1100

00:50:39,620 --> 00:50:35,859

to their big announced state through

1101
00:50:43,770 --> 00:50:39,630
Freedom of Information Act requests oh

1102
00:50:45,359 --> 00:50:43,780
well I think I'm I'm not sure where I

1103
00:50:47,370 --> 00:50:45,369
came from but I heard that they were

1104
00:50:50,250 --> 00:50:47,380
actually previously Declassified they

1105
00:50:55,079 --> 00:50:50,260
got them Declassified through the

1106
00:50:56,790 --> 00:50:55,089
Department of Defense in August so or

1107
00:50:59,490 --> 00:50:56,800
they were in the process of getting that

1108
00:51:02,400 --> 00:50:59,500
done right right that that's what they

1109
00:51:04,410 --> 00:51:02,410
got a Declassified but I believe Nolan

1110
00:51:08,010 --> 00:51:04,420
had said that it was his speculation

1111
00:51:10,349 --> 00:51:08,020
that it was Declassified and then they

1112
00:51:12,690 --> 00:51:10,359
filed for years to get the material out

1113
00:51:14,520 --> 00:51:12,700

before the Defense Department got

1114

00:51:17,609 --> 00:51:14,530

bombarded with for years after their

1115

00:51:19,049 --> 00:51:17,619

announcement came up yeah that's that's

1116

00:51:22,559 --> 00:51:19,059

pretty amazing I don't know if we're

1117

00:51:25,230 --> 00:51:22,569

ever gonna hear more about that you know

1118

00:51:26,819 --> 00:51:25,240

it's it's sort of funny that that Lewis

1119

00:51:29,880 --> 00:51:26,829

Elizondo and to the star says he'll

1120

00:51:31,380 --> 00:51:29,890

anyone can get this material by

1121

00:51:32,940 --> 00:51:31,390

following a freedom of information and I

1122

00:51:36,120 --> 00:51:32,950

think we encourage everyone to do that

1123

00:51:38,730 --> 00:51:36,130

but so far no one has gotten even one

1124

00:51:42,900 --> 00:51:38,740

sentence that acknowledges the program

1125

00:51:45,059 --> 00:51:42,910

even existed from the Pentagon but the

1126
00:51:48,000 --> 00:51:45,069
the fact that the New York Times said

1127
00:51:50,849 --> 00:51:48,010
that they did I think the New York Times

1128
00:51:54,510 --> 00:51:50,859
is one of the most trusted journalistic

1129
00:51:56,069 --> 00:51:54,520
high ethical you know newspapers the

1130
00:51:59,910 --> 00:51:56,079
fact that they printed the story to me

1131
00:52:03,630 --> 00:51:59,920
says they had evidence presented to them

1132
00:52:05,640 --> 00:52:03,640
that they vetted and found it to be true

1133
00:52:07,440 --> 00:52:05,650
so anyone can say anything they want

1134
00:52:11,520 --> 00:52:07,450
that this program didn't really exist

1135
00:52:13,890 --> 00:52:11,530
and it's all like fabricated but the

1136
00:52:16,559 --> 00:52:13,900
fact that New York Times says it did I

1137
00:52:19,319 --> 00:52:16,569
have to believe that they saw the

1138
00:52:22,109 --> 00:52:19,329

evidence but Harry Reid has gone on the

1139

00:52:24,120 --> 00:52:22,119

record saying that yeah he was involved

1140

00:52:25,170 --> 00:52:24,130

he's the one who got the the program

1141

00:52:29,039 --> 00:52:25,180

started

1142

00:52:31,589 --> 00:52:29,049

yeah the New York Times Leslie Kane said

1143

00:52:34,349 --> 00:52:31,599

that she personally saw the

1144

00:52:36,720 --> 00:52:34,359

documentation proving that these videos

1145

00:52:38,870 --> 00:52:36,730

were Declassified that by the Department

1146

00:52:41,519 --> 00:52:38,880

of Defense and that is no question

1147

00:52:43,710 --> 00:52:41,529

the New York Times was satisfied with

1148

00:52:48,569 --> 00:52:43,720

the documentation proving both the

1149

00:52:51,000 --> 00:52:48,579

program existed and that the videos were

1150

00:52:53,460 --> 00:52:51,010

indeed Declassified but the Department

1151
00:52:55,920 --> 00:52:53,470
of Defense right they she saw the chain

1152
00:52:57,720 --> 00:52:55,930
of custody and said that the individual

1153
00:52:59,609 --> 00:52:57,730
that provided this is not going to be

1154
00:53:01,349 --> 00:52:59,619
named and they are not going to be

1155
00:53:06,420 --> 00:53:01,359
providing that evidence to the public

1156
00:53:08,400 --> 00:53:06,430
that's their source so yeah okay so what

1157
00:53:11,039 --> 00:53:08,410
you say the only other I was gonna say

1158
00:53:15,019 --> 00:53:11,049
one more thing the only other nuance to

1159
00:53:18,390 --> 00:53:15,029
this is that you have the two names the

1160
00:53:21,769 --> 00:53:18,400
advanced aerospace for identification

1161
00:53:24,450 --> 00:53:21,779
program and the the advanced aviation

1162
00:53:26,309 --> 00:53:24,460
identification program that that has a

1163
00:53:27,510 --> 00:53:26,319

lot of people confused as well and that

1164

00:53:29,130 --> 00:53:27,520

you know they said that's interfering

1165

00:53:31,829 --> 00:53:29,140

they're trying to FOIA both of them they

1166

00:53:34,049 --> 00:53:31,839

can't get anything yeah that's right and

1167

00:53:36,120 --> 00:53:34,059

I think one of the investigators

1168

00:53:38,700 --> 00:53:36,130

Greenwald I think that he said his

1169

00:53:41,430 --> 00:53:38,710

contact at the office of Secretary of

1170

00:53:43,890 --> 00:53:41,440

Defense told him personally that you

1171

00:53:46,230 --> 00:53:43,900

know they had the name wrong and you

1172

00:53:51,890 --> 00:53:46,240

know that's why something to that effect

1173

00:53:55,349 --> 00:53:51,900

but I presented with Lewis Elizondo on

1174

00:53:56,700 --> 00:53:55,359

camera saying hey there's been some

1175

00:53:59,339 --> 00:53:56,710

confusion about the name of the program

1176

00:54:02,430 --> 00:53:59,349

I want to clarify that and this is the

1177

00:54:05,450 --> 00:54:02,440

guy that ran the program saying yeah the

1178

00:54:08,760 --> 00:54:05,460

name is advanced aerospace threat

1179

00:54:11,010 --> 00:54:08,770

identification program so he said it I

1180

00:54:12,319 --> 00:54:11,020

don't know why unless he's covering

1181

00:54:15,930 --> 00:54:12,329

something I don't know why you would lie

1182

00:54:18,150 --> 00:54:15,940

yeah all right well let's s switch over

1183

00:54:20,450 --> 00:54:18,160

into something that I've been looking at

1184

00:54:22,740 --> 00:54:20,460

for a little while but it certainly died

1185

00:54:25,170 --> 00:54:22,750

certainly fits in with what dave has

1186

00:54:27,870 --> 00:54:25,180

been doing trying to dig in and find out

1187

00:54:30,359 --> 00:54:27,880

more about a completely different aspect

1188

00:54:34,049 --> 00:54:30,369

of all this which is the meta materials

1189

00:54:36,329 --> 00:54:34,059

I've been looking at materials research

1190

00:54:37,920 --> 00:54:36,339

and advancement since World War two not

1191

00:54:38,720 --> 00:54:37,930

since World War two I'm not quite that

1192

00:54:46,310 --> 00:54:38,730

all I'm getting up

1193

00:54:48,290 --> 00:54:46,320

not that old but when they you look at

1194

00:54:51,440 --> 00:54:48,300

the materials advancement that we've

1195

00:54:53,300 --> 00:54:51,450

gone through from not long after the

1196

00:54:55,130 --> 00:54:53,310

Roswell crash it's been a very

1197

00:54:56,750 --> 00:54:55,140

interesting subject and one of the

1198

00:54:59,270 --> 00:54:56,760

things that that was brought up as a

1199

00:55:03,590 --> 00:54:59,280

result of the time story and some other

1200

00:55:06,680 --> 00:55:03,600

comments made by mr. Ellison now there

1201
00:55:09,859 --> 00:55:06,690
are these materials that are being

1202
00:55:12,920 --> 00:55:09,869
studied and a lot of people are looking

1203
00:55:16,370 --> 00:55:12,930
for them through for your requests and

1204
00:55:18,230 --> 00:55:16,380
such but the reality is this is a kind

1205
00:55:19,390 --> 00:55:18,240
of this is a study that's been going on

1206
00:55:26,210 --> 00:55:19,400
for quite some time

1207
00:55:28,430 --> 00:55:26,220
including fragments from crashes or just

1208
00:55:31,670 --> 00:55:28,440
pieces that have dropped off or been

1209
00:55:34,460 --> 00:55:31,680
ejected from UFOs and that's been going

1210
00:55:37,160 --> 00:55:34,470
on for decades and a lot of people don't

1211
00:55:39,290 --> 00:55:37,170
necessarily realize this that just

1212
00:55:41,480 --> 00:55:39,300
because TTS a is talking about it

1213
00:55:44,510 --> 00:55:41,490

doesn't mean that this study has

1214

00:55:47,090 --> 00:55:44,520

involved the UFO has involved the

1215

00:55:48,650 --> 00:55:47,100

government at all so if the government

1216

00:55:51,050 --> 00:55:48,660

never had the material in the first

1217

00:55:52,880 --> 00:55:51,060

place to study it then obviously a

1218

00:55:55,820 --> 00:55:52,890

4-year request is not going to do you

1219

00:56:00,500 --> 00:55:55,830

any good and this all sort of began

1220

00:56:05,240 --> 00:56:00,510

around maybe a week a week to ten days

1221

00:56:08,060 --> 00:56:05,250

after the initial Times story Gary Nolan

1222

00:56:13,040 --> 00:56:08,070

is a member of my facebook group and

1223

00:56:14,630 --> 00:56:13,050

what he did basically was just give us

1224

00:56:16,670 --> 00:56:14,640

he must have had a little bit of free

1225

00:56:19,540 --> 00:56:16,680

time in between semesters whatever the

1226

00:56:23,150 --> 00:56:19,550

case may be is working away at Stanford

1227

00:56:28,370 --> 00:56:23,160

you know trying to save kids lives with

1228

00:56:35,450 --> 00:56:28,380

that cancer cures and looking at the the

1229

00:56:39,020 --> 00:56:35,460

DNA of not not an et from Peru and also

1230

00:56:42,740 --> 00:56:39,030

working with the CTSA also conducting a

1231

00:56:44,870 --> 00:56:42,750

study on experiencers with kit Green so

1232

00:56:46,400 --> 00:56:44,880

he's got a lot of irons in the fire but

1233

00:56:48,770 --> 00:56:46,410

he didn't have enough time to do a real

1234

00:56:52,000 --> 00:56:48,780

quick sort of ask me anything at my

1235

00:56:54,820 --> 00:56:52,010

Facebook group and he talked a good

1236

00:56:58,710 --> 00:56:54,830

about the metamaterials and how the

1237

00:57:02,590 --> 00:56:58,720

isotopic ratios are different than

1238

00:57:03,220 --> 00:57:02,600

anything that you know that we have here

1239

00:57:05,830 --> 00:57:03,230

on earth

1240

00:57:07,960 --> 00:57:05,840

so it's a very interesting subject and

1241

00:57:11,560 --> 00:57:07,970

of course he went as far as he could in

1242

00:57:14,200 --> 00:57:11,570

the real brief am a nobody you ask some

1243

00:57:16,360 --> 00:57:14,210

questions including me really and looked

1244

00:57:17,830 --> 00:57:16,370

into it all that carefully so maybe the

1245

00:57:20,530 --> 00:57:17,840

questions were a little bit superficial

1246

00:57:23,350 --> 00:57:20,540

but as I've continued to dig in I have

1247

00:57:27,760 --> 00:57:23,360

found that this type of research has

1248

00:57:30,340 --> 00:57:27,770

been going on for some time and there's

1249

00:57:33,250 --> 00:57:30,350

a paper from Peter Sturrock that he

1250

00:57:36,460 --> 00:57:33,260

wrote I can't pin down the paper but the

1251
00:57:38,530 --> 00:57:36,470
most recent citation in the paper goes

1252
00:57:42,340 --> 00:57:38,540
back to the late 90s so I'm guessing it

1253
00:57:45,940 --> 00:57:42,350
was a 2000 that may be very late 90s or

1254
00:57:49,120 --> 00:57:45,950
a 2000 the early 2000s he wrote a paper

1255
00:57:52,150 --> 00:57:49,130
about that Jacques Vallee did a full

1256
00:57:54,280 --> 00:57:52,160
hour-long presentation about it at the

1257
00:57:56,650 --> 00:57:54,290
contact in the desert conference last

1258
00:57:58,540 --> 00:57:56,660
year none of these things have really

1259
00:58:00,880 --> 00:57:58,550
gotten a lot of attention or they've

1260
00:58:03,070 --> 00:58:00,890
kind of fallen by the wayside over the

1261
00:58:07,210 --> 00:58:03,080
years but I've been covering it a little

1262
00:58:10,360 --> 00:58:07,220
bit and what and at my website I've got

1263
00:58:13,960 --> 00:58:10,370

the original AMA with dr. Noland and

1264

00:58:16,660 --> 00:58:13,970

also have added to it and compiled in

1265

00:58:19,750 --> 00:58:16,670

that one article the updates as I found

1266

00:58:23,050 --> 00:58:19,760

additional material so what I've got is

1267

00:58:25,690 --> 00:58:23,060

I as far as I know the best compilation

1268

00:58:28,360 --> 00:58:25,700

of material related to the meta

1269

00:58:31,090 --> 00:58:28,370

materials and so I've got that over

1270

00:58:33,100 --> 00:58:31,100

there you can find the link to that at

1271

00:58:35,980 --> 00:58:33,110

our page on YouTube if you're watching

1272

00:58:41,020 --> 00:58:35,990

the YouTube video now or just go to UFO

1273

00:58:43,240 --> 00:58:41,030

partisan doctor blog spot.com it's very

1274

00:58:46,090 --> 00:58:43,250

easy to find once you do that but

1275

00:58:51,180 --> 00:58:46,100

basically what vallei covered in his

1276

00:58:54,130 --> 00:58:51,190

presentation was some details and let me

1277

00:58:56,740 --> 00:58:54,140

update the slide here and basically

1278

00:58:59,590 --> 00:58:56,750

there there's a whole list of possible

1279

00:59:03,130 --> 00:58:59,600

et materials some of them he's been able

1280

00:59:05,740 --> 00:59:03,140

to study some of them he has not a one

1281

00:59:08,470 --> 00:59:05,750

of them was actually

1282

00:59:10,410 --> 00:59:08,480

in the hands of Ned's which is I believe

1283

00:59:14,080 --> 00:59:10,420

the National Institute for discovery

1284

00:59:17,950 --> 00:59:14,090

sciences that is Bigelow's organization

1285

00:59:20,370 --> 00:59:17,960

he has not been able to study that but

1286

00:59:24,099 --> 00:59:20,380

I'm gonna assume that they acquired that

1287

00:59:26,470 --> 00:59:24,109

privately through through their research

1288

00:59:28,570 --> 00:59:26,480

at the skinwalker ranch there are some

1289

00:59:31,480 --> 00:59:28,580

others possibly something was recovered

1290

00:59:34,330 --> 00:59:31,490

in Aurora Texas velay doesn't have

1291

00:59:37,630 --> 00:59:34,340

access to that something related to the

1292

00:59:40,240 --> 00:59:37,640

1952 DC UFO incident it doesn't have

1293

00:59:42,609 --> 00:59:40,250

access to that what he does have access

1294

00:59:47,800 --> 00:59:42,619

and he spends a lot of time on is the

1295

00:59:50,410 --> 00:59:47,810

material discovered in Brazil back in

1296

00:59:52,599 --> 00:59:50,420

the late night well the incident took

1297

00:59:54,940 --> 00:59:52,609

place in the 1930s and goes back that

1298

00:59:58,000 --> 00:59:54,950

long but the material became available

1299

01:00:00,790 --> 00:59:58,010

for study in the 1950s and the Valais

1300

01:00:04,080 --> 01:00:00,800

goes into some detail about that and

1301

01:00:07,570 --> 01:00:04,090

also he cites a paper written by

1302

01:00:10,060 --> 01:00:07,580

Professor stork like I said roughly 2000

1303

01:00:13,900 --> 01:00:10,070

give or take and in that paper a

1304

01:00:16,180 --> 01:00:13,910

professor stearic concludes as far as

1305

01:00:18,400 --> 01:00:16,190

one can tell from analysis carried out

1306

01:00:20,950 --> 01:00:18,410

to date there was no case for believing

1307

01:00:23,290 --> 01:00:20,960

that the Brazil magnesium specimens had

1308

01:00:26,140 --> 01:00:23,300

an extraterrestrial origin on the other

1309

01:00:28,359 --> 01:00:26,150

hand and has not proved possible to

1310

01:00:30,730 --> 01:00:28,369

identify where the material was produced

1311

01:00:33,010 --> 01:00:30,740

and throughout the paper what he does is

1312

01:00:35,079 --> 01:00:33,020

he goes through all the different tests

1313

01:00:37,750 --> 01:00:35,089

that were run on it how he acquired

1314

01:00:41,680 --> 01:00:37,760

samples from different countries to

1315

01:00:44,140 --> 01:00:41,690

compare this to is this just the way

1316

01:00:45,730 --> 01:00:44,150

they process this magnesium differently

1317

01:00:48,040 --> 01:00:45,740

in these other countries that could

1318

01:00:51,040 --> 01:00:48,050

cause it to have that different isotopic

1319

01:00:52,930 --> 01:00:51,050

ratio so there's a lot of detail like I

1320

01:00:56,040 --> 01:00:52,940

said at the website a link to the full

1321

01:00:59,260 --> 01:00:56,050

paper the full hour-long valais

1322

01:01:00,760 --> 01:00:59,270

presentation on the matter these guys

1323

01:01:02,920 --> 01:01:00,770

are the scientists they do it a lot

1324

01:01:05,680 --> 01:01:02,930

better than I do for me to sit here and

1325

01:01:08,829 --> 01:01:05,690

explain it it's a little bit outside my

1326

01:01:10,540 --> 01:01:08,839

weight class but you've got a good two

1327

01:01:13,030 --> 01:01:10,550

maybe even three hours of entertainment

1328

01:01:14,920 --> 01:01:13,040

if you watch the entire video and read

1329

01:01:17,109 --> 01:01:14,930

through the paper as far as bringing

1330

01:01:18,000 --> 01:01:17,119

yourself up to date but the main point

1331

01:01:21,450 --> 01:01:18,010

is that I want to

1332

01:01:23,940 --> 01:01:21,460

is that a lot of people are are thinking

1333

01:01:26,700 --> 01:01:23,950

because TTS a is talking about

1334

01:01:30,060 --> 01:01:26,710

metamaterials oh it was necessarily

1335

01:01:32,370 --> 01:01:30,070

related to the 8a program that is not

1336

01:01:34,320 --> 01:01:32,380

entirely the case they may have some

1337

01:01:36,180 --> 01:01:34,330

different materials that the military

1338

01:01:39,840 --> 01:01:36,190

discovered that is certainly possible

1339

01:01:43,670 --> 01:01:39,850

but it's also certain that some of those

1340

01:01:47,490 --> 01:01:43,680

materials have been always had been and

1341

01:01:49,860 --> 01:01:47,500

in private hands and never in the hands

1342

01:01:52,170 --> 01:01:49,870

of the United States government so I

1343

01:01:54,360 --> 01:01:52,180

think that's really key and as a result

1344

01:01:57,150 --> 01:01:54,370

of that of course that is the type of

1345

01:01:58,770 --> 01:01:57,160

thing that all the FOIA requests in the

1346

01:02:00,600 --> 01:01:58,780

world no matter how well-written they

1347

01:02:03,030 --> 01:02:00,610

are are not going to be of any

1348

01:02:05,070 --> 01:02:03,040

assistance because again the

1349

01:02:07,020 --> 01:02:05,080

government's not involved in this at all

1350

01:02:09,360 --> 01:02:07,030

it's a completely private

1351

01:02:12,030 --> 01:02:09,370

it hasn't been privatized it was always

1352

01:02:16,680 --> 01:02:12,040

private and that's kind of the key there

1353

01:02:18,750 --> 01:02:16,690

I think yeah and you know it's pretty

1354

01:02:21,480 --> 01:02:18,760

interesting too that Tom DeLonge he

1355

01:02:23,850 --> 01:02:21,490

mentioned something about aiming

1356

01:02:27,240 --> 01:02:23,860

terahertz at and the material gaining

1357

01:02:30,300 --> 01:02:27,250

lift and that that's provable yeah

1358

01:02:32,940 --> 01:02:30,310

supposedly from what I have heard that

1359

01:02:34,560 --> 01:02:32,950

was something that was suggested by how

1360

01:02:35,610 --> 01:02:34,570

put off I don't know if that's correct

1361

01:02:38,850 --> 01:02:35,620

or not

1362

01:02:41,520 --> 01:02:38,860

that's obviously something that happened

1363

01:02:43,260 --> 01:02:41,530

well apparently so I shouldn't say

1364

01:02:45,260 --> 01:02:43,270

obviously apparently something that

1365

01:02:47,820 --> 01:02:45,270

happened though well after professor

1366

01:02:50,070 --> 01:02:47,830

Asterix paper it might relate to

1367

01:02:54,440 --> 01:02:50,080

materials that were not studied that

1368

01:02:57,360 --> 01:02:54,450

weren't part of the yuba tuba incident

1369

01:02:58,920 --> 01:02:57,370

that that is a little unclear we're not

1370

01:03:02,070 --> 01:02:58,930

can't be a hundred percent sure about

1371

01:03:05,880 --> 01:03:02,080

that but what is sure like I said is

1372

01:03:08,190 --> 01:03:05,890

that these materials do exist and this

1373

01:03:11,340 --> 01:03:08,200

type of study and this find that the

1374

01:03:13,590 --> 01:03:11,350

isotopic ratios are different than what

1375

01:03:17,130 --> 01:03:13,600

we're generally familiar with in normal

1376

01:03:20,520 --> 01:03:17,140

manufacture of these kind of alloys that

1377

01:03:23,370 --> 01:03:20,530

is significant yeah I have a question

1378

01:03:26,220 --> 01:03:23,380

nor you know in the New York Times

1379

01:03:29,000 --> 01:03:26,230

article they mentioned that Bigelow

1380

01:03:31,800 --> 01:03:29,010

Aerospace had actually constructed

1381

01:03:34,470 --> 01:03:31,810

buildings to house these materi

1382

01:03:37,440 --> 01:03:34,480

so I guess my understanding from what

1383

01:03:39,510 --> 01:03:37,450

you said is that you know Bigelow

1384

01:03:41,130 --> 01:03:39,520

Aerospace has some materials but then

1385

01:03:43,290 --> 01:03:41,140

and there's other materials that are

1386

01:03:44,670 --> 01:03:43,300

being studied by other scientists as

1387

01:03:47,220 --> 01:03:44,680

well it's not they don't have all of

1388

01:03:49,950 --> 01:03:47,230

them in other words right exactly it's a

1389

01:03:53,690 --> 01:03:49,960

the the whole thing is not that mutually

1390

01:03:57,590 --> 01:03:53,700

exclusive and apparently this is this

1391

01:04:01,110 --> 01:03:57,600

difference in the isotopic ratios is

1392

01:04:03,260 --> 01:04:01,120

something of a common thread at least

1393

01:04:06,840 --> 01:04:03,270

that's what it seems to be at this point

1394

01:04:10,350 --> 01:04:06,850

yeah in I kind of briefly looked at that

1395

01:04:14,190 --> 01:04:10,360

your your website on you know the UFO

1396

01:04:16,110 --> 01:04:14,200

partisan comm website and it said that

1397

01:04:18,660 --> 01:04:16,120

anyone reading this material wanting to

1398

01:04:21,870 --> 01:04:18,670

understand it should try to get a basic

1399

01:04:24,150 --> 01:04:21,880

understanding of what it I see topos are

1400

01:04:25,590 --> 01:04:24,160

otherwise it kind of goes up your hat it

1401

01:04:27,720 --> 01:04:25,600

was kind of like a little confusing so

1402

01:04:29,940 --> 01:04:27,730

I'm gonna have to take a look at you

1403

01:04:31,860 --> 01:04:29,950

know go back to high school chemistry or

1404

01:04:34,650 --> 01:04:31,870

whatever and it does get better it gets

1405

01:04:38,010 --> 01:04:34,660

dense in a hurry and it does put some

1406

01:04:40,680 --> 01:04:38,020

people off but again I think the key

1407

01:04:43,530 --> 01:04:40,690

here is that a lot of this material is

1408

01:04:45,480 --> 01:04:43,540

not necessarily in the hands of TTS a

1409

01:04:48,300 --> 01:04:45,490

just because they're familiar with it

1410

01:04:51,750 --> 01:04:48,310

doesn't mean they have it they may have

1411

01:04:54,480 --> 01:04:51,760

some they certainly do not have all but

1412

01:04:56,190 --> 01:04:54,490

I think that's about where we're at at

1413

01:04:58,320 --> 01:04:56,200

the moment on this and you know

1414

01:05:00,960 --> 01:04:58,330

obviously yeah we'll look to find out

1415

01:05:03,540 --> 01:05:00,970

more and I know we've got Stanton

1416

01:05:05,430 --> 01:05:03,550

Friedman coming on next month certainly

1417

01:05:07,890 --> 01:05:05,440

he's got the physics background he was a

1418

01:05:11,670 --> 01:05:07,900

working physicist before he got into the

1419

01:05:12,960 --> 01:05:11,680

UFO research full-time so he'll know

1420

01:05:16,380 --> 01:05:12,970

this stuff he'll know this stuff pretty

1421

01:05:18,420 --> 01:05:16,390

well but this is this is not necessarily

1422

01:05:19,950 --> 01:05:18,430

for the casual observer you do have to

1423

01:05:23,910 --> 01:05:19,960

dig in a little bit more for this type

1424

01:05:26,220 --> 01:05:23,920

of thing yeah absolutely and I wanted to

1425

01:05:28,350 --> 01:05:26,230

bring up that there is also a video out

1426

01:05:31,020 --> 01:05:28,360

there in YouTube that I believe Linda

1427

01:05:34,320 --> 01:05:31,030

Moulton Howe presented on what what are

1428

01:05:37,680 --> 01:05:34,330

known as the arts parts and again these

1429

01:05:40,830 --> 01:05:37,690

have been discussed for a long time they

1430

01:05:43,920 --> 01:05:40,840

were an honest anonymously shipped to

1431

01:05:45,900 --> 01:05:43,930

you to them I guess art Bell you know

1432

01:05:48,789 --> 01:05:45,910

God rest his soul in Linda

1433

01:05:51,039 --> 01:05:48,799

first study and in the in the paper that

1434

01:05:53,319 --> 01:05:51,049

went with the Saint was saying that my

1435

01:05:56,259 --> 01:05:53,329

grandfather worked for the Army Air

1436

01:05:59,079 --> 01:05:56,269

Corps and he was part of a crash

1437

01:06:02,710 --> 01:05:59,089

recovery team and he got this what I

1438

01:06:05,140 --> 01:06:02,720

would call metamaterial and so he wanted

1439

01:06:07,420 --> 01:06:05,150

you know who he wanted to be anonymous

1440

01:06:09,220 --> 01:06:07,430

and he sent these two to these UFO

1441

01:06:12,910 --> 01:06:09,230

researchers so there's some controversy

1442

01:06:15,519 --> 01:06:12,920

about it you know I started a thread

1443

01:06:18,579 --> 01:06:15,529

talking about out of it and lo and

1444

01:06:20,529 --> 01:06:18,589

behold a scientist that actually studied

1445

01:06:22,390 --> 01:06:20,539

these parts shows up in my conversation

1446

01:06:24,370 --> 01:06:22,400

which kind of blew me away and start

1447

01:06:28,029 --> 01:06:24,380

saying oh yeah I studied these these are

1448

01:06:31,390 --> 01:06:28,039

arts parts you know there's not a lot of

1449

01:06:35,289 --> 01:06:31,400

special properties to them but one thing

1450

01:06:38,620 --> 01:06:35,299

to remember the the parts that they had

1451
01:06:46,599 --> 01:06:38,630
these meta materials were magnesium

1452
01:06:48,279 --> 01:06:46,609
bismuth well there's something and

1453
01:06:49,960 --> 01:06:48,289
supposably we don't have the

1454
01:06:52,870 --> 01:06:49,970
manufacturing capabilities to create

1455
01:06:55,150 --> 01:06:52,880
that type of layering but you know you

1456
01:06:56,380 --> 01:06:55,160
can go out there and see that film and

1457
01:06:58,089 --> 01:06:56,390
the PowerPoint she does is very

1458
01:07:00,640 --> 01:06:58,099
interesting yeah

1459
01:07:02,410 --> 01:07:00,650
we will off to take a look at that we

1460
01:07:05,200 --> 01:07:02,420
will have to see how this plays out I do

1461
01:07:07,450 --> 01:07:05,210
know that people have been looking at

1462
01:07:09,370 --> 01:07:07,460
different materials thinking maybe

1463
01:07:12,160 --> 01:07:09,380

they've got something they spent a

1464

01:07:13,989 --> 01:07:12,170

pretty nice chunk of money on getting it

1465

01:07:17,410 --> 01:07:13,999

researched and a lot of times it comes

1466

01:07:20,170 --> 01:07:17,420

back well you know it's weird but this

1467

01:07:23,259 --> 01:07:20,180

was made on earth and obviously then you

1468

01:07:25,150 --> 01:07:23,269

get to other situations where they're

1469

01:07:27,670 --> 01:07:25,160

taking a look at it and they can't

1470

01:07:29,410 --> 01:07:27,680

figure out who made this stuff and if it

1471

01:07:32,319 --> 01:07:29,420

wasn't made here on earth well then

1472

01:07:35,640 --> 01:07:32,329

obviously you're left with only one

1473

01:07:43,269 --> 01:07:39,519

yep that's true so okay we have lost

1474

01:07:44,979 --> 01:07:43,279

James so if I could do this let me we'll

1475

01:07:46,749 --> 01:07:44,989

wrap up here I don't really have

1476

01:07:48,579 --> 01:07:46,759

anything more like I said the main thing

1477

01:07:51,309 --> 01:07:48,589

is I want to point people over to the

1478

01:07:53,979 --> 01:07:51,319

site and get the full details from the

1479

01:07:56,589 --> 01:07:53,989

best sources but we've lost James so let

1480

01:07:59,440 --> 01:07:56,599

me end with you really quick and if

1481

01:08:01,840 --> 01:07:59,450

because what I can't do it unfortunately

1482

01:08:06,850 --> 01:08:01,850

through Skype is to recall James I have

1483

01:08:08,620 --> 01:08:06,860

to end our call and then and and then oh

1484

01:08:11,440 --> 01:08:08,630

you're back you're back what happened

1485

01:08:13,600 --> 01:08:11,450

and I cut it I got cut out in and out a

1486

01:08:15,760 --> 01:08:13,610

few times when um when Dave was talking

1487

01:08:18,810 --> 01:08:15,770

got it okay so you're still with us aa

1488

01:08:22,300 --> 01:08:18,820

day James do you have anything else

1489

01:08:24,640 --> 01:08:22,310

no no that's about it okay David do you

1490

01:08:27,370 --> 01:08:24,650

have anything else for us no I think

1491

01:08:29,320 --> 01:08:27,380

that you know it was really enjoyable

1492

01:08:31,300 --> 01:08:29,330

talking to you guys and explained what

1493

01:08:33,490 --> 01:08:31,310

I'm doing it's a very exciting time it's

1494

01:08:35,020 --> 01:08:33,500

fantastic obviously yeah we'll be

1495

01:08:37,990 --> 01:08:35,030

staying in touch so when you got some

1496

01:08:40,210 --> 01:08:38,000

new stuff obviously we'd be more than

1497

01:08:42,700 --> 01:08:40,220

happy to have you back we've got our

1498

01:08:44,170 --> 01:08:42,710

guest lineup coming up any old time if

1499

01:08:46,660 --> 01:08:44,180

you wanted to jump in and ask a few

1500

01:08:49,420 --> 01:08:46,670

quick questions either jump on board

1501

01:08:52,750 --> 01:08:49,430

live or I get them to me we'll get them

1502

01:08:58,510 --> 01:08:52,760

answered for you and I think we had a

1503

01:09:00,640 --> 01:08:58,520

successful number to show great well

1504

01:09:02,500 --> 01:09:00,650

thank you very much guys thanks for

1505

01:09:04,870 --> 01:09:02,510

listening everybody we'll be back next

1506

01:09:07,150 --> 01:09:04,880

week Steve Bassett is going to be our

1507

01:09:09,340 --> 01:09:07,160

guest next week so we'll have a lot to

1508

01:09:12,580 --> 01:09:09,350

talk about with Steve so I have a great

1509

01:09:13,150 --> 01:09:12,590

day three hours from opening faceoff

1510

01:09:17,590 --> 01:09:13,160

time

1511

01:09:27,660 --> 01:09:17,600

let's go flyers Africa to what everybody
