

**NEXT** ON **UFONN**

**STANTON T. FRIEDMAN**

NUCLEAR PHYSICIST, PROFESSIONAL UFOLOGIST

**SUNDAY** AT

**11AM**

**UFONN**

1  
00:01:07,370 --> 00:00:34,620

[Music]

2  
00:01:10,130 --> 00:01:07,380  
and good morning from Philadelphia this

3  
00:01:13,190 --> 00:01:10,140  
is Frank and then James coming in from

4  
00:01:15,170 --> 00:01:13,200  
Westchester New York and this is UFO

5  
00:01:18,200 --> 00:01:15,180  
news network Sunday and today we've got

6  
00:01:21,710 --> 00:01:18,210  
a tremendous guest Stanton Friedman a

7  
00:01:24,740 --> 00:01:21,720  
longtime UFO researcher has been one of

8  
00:01:25,310 --> 00:01:24,750  
the if not the preeminent names in the

9  
00:01:27,859 --> 00:01:25,320  
business

10  
00:01:32,540 --> 00:01:27,869  
since he got started in all this way

11  
00:01:34,400 --> 00:01:32,550  
back I believe in the 1960s and who's

12  
00:01:37,490 --> 00:01:34,410  
gonna tell us everything he knows about

13  
00:01:40,609 --> 00:01:37,500

the Betty and Barney Hill case the

14

00:01:42,889 --> 00:01:40,619

Roswell incident and anything else we

15

00:01:46,550 --> 00:01:42,899

can squeeze into our limited time so

16

00:01:48,400 --> 00:01:46,560

James well uh dr. freer mr. Friedman

17

00:01:51,320 --> 00:01:48,410

died good morning to you sir

18

00:01:53,690 --> 00:01:51,330

good morning from beautiful Fredericton

19

00:01:54,880 --> 00:01:53,700

New Brunswick Canada it's a lovely day

20

00:01:59,510 --> 00:01:54,890

today

21

00:02:02,690 --> 00:01:59,520

fantastic so James take it away well

22

00:02:04,850 --> 00:02:02,700

first I just like to say thank you so

23

00:02:09,259 --> 00:02:04,860

much Stan for inment for joining us I

24

00:02:11,960 --> 00:02:09,269

have to say back some probably 20 or

25

00:02:14,000 --> 00:02:11,970

more years ago when I was just a kid in

26  
00:02:17,870 --> 00:02:14,010  
elementary school I was watching you on

27  
00:02:19,759 --> 00:02:17,880  
TV amazing and fascinated by the ideas

28  
00:02:21,380 --> 00:02:19,769  
of UFOs and and and the way you're

29  
00:02:24,140 --> 00:02:21,390  
presenting the information it was just

30  
00:02:26,240 --> 00:02:24,150  
um I mean it seemed so matter-of-fact to

31  
00:02:29,030 --> 00:02:26,250  
me so um you know I would like to thank

32  
00:02:30,620 --> 00:02:29,040  
you for all the work you've done you

33  
00:02:33,830 --> 00:02:30,630  
know making this so public I know in

34  
00:02:36,170 --> 00:02:33,840  
those times it is nothing or not as easy

35  
00:02:39,410 --> 00:02:36,180  
as it is today to talk about the subject

36  
00:02:41,060 --> 00:02:39,420  
and you coming from a background of

37  
00:02:42,710 --> 00:02:41,070  
nuclear physicists you know you had a

38  
00:02:46,340 --> 00:02:42,720

lot on the line to talk about that kind

39

00:02:48,190 --> 00:02:46,350

of stuff so you know major kudos to you

40

00:02:50,830 --> 00:02:48,200

for that so thank you so much thank you

41

00:02:55,250 --> 00:02:50,840

appreciate your appreciation

42

00:02:56,660 --> 00:02:55,260

that's appreciation day so before we get

43

00:03:01,280 --> 00:02:56,670

into the meat of some of this I just

44

00:03:04,130 --> 00:03:01,290

want to talk some current events with

45

00:03:06,580 --> 00:03:04,140

the discovery of a tip the advanced

46

00:03:10,220 --> 00:03:06,590

aerospace through identification program

47

00:03:12,530 --> 00:03:10,230

in December with the New York Times

48

00:03:14,570 --> 00:03:12,540

article and Politico and The Washington

49

00:03:14,840 --> 00:03:14,580

Post I mean that to me that just sounds

50

00:03:20,150 --> 00:03:14,850

like

51  
00:03:22,460 --> 00:03:20,160  
incredible news what how do you see that

52  
00:03:26,690 --> 00:03:22,470  
in your and your your deep background in

53  
00:03:29,690 --> 00:03:26,700  
history in the subject well I was quite

54  
00:03:32,330 --> 00:03:29,700  
surprised to see the article in the

55  
00:03:35,330 --> 00:03:32,340  
sense that is taken off a long time for

56  
00:03:37,610 --> 00:03:35,340  
this to come out and I also I'm curious

57  
00:03:40,850 --> 00:03:37,620  
and my curiosity really hasn't been

58  
00:03:44,390 --> 00:03:40,860  
answered as to why that happened at this

59  
00:03:46,360 --> 00:03:44,400  
time who said okay and you know what was

60  
00:03:48,920 --> 00:03:46,370  
the precipitating event does this mean

61  
00:03:52,550 --> 00:03:48,930  
something more is gonna happen I kept

62  
00:03:56,180 --> 00:03:52,560  
expecting more more to drop but I

63  
00:03:58,430 --> 00:03:56,190

haven't heard anything more really so I

64

00:04:00,650 --> 00:03:58,440

I don't know what's going on I was

65

00:04:04,070 --> 00:04:00,660

impressed with Elizondo I listened to

66

00:04:06,110 --> 00:04:04,080

him and the other people and I'm not

67

00:04:09,560 --> 00:04:06,120

surprised in other words there had to

68

00:04:13,870 --> 00:04:09,570

have been more work going on but you

69

00:04:17,300 --> 00:04:13,880

know that ended supposedly in 2012 and

70

00:04:19,789 --> 00:04:17,310

you know what's what's happening who's

71

00:04:23,960 --> 00:04:19,799

pulling the strings what's going on I'd

72

00:04:26,240 --> 00:04:23,970

like more answers right and I was on who

73

00:04:28,550 --> 00:04:26,250

claims that the program actually went on

74

00:04:30,770 --> 00:04:28,560

after 2012 but you know we don't have

75

00:04:32,330 --> 00:04:30,780

too much too much on paper about that

76  
00:04:34,130 --> 00:04:32,340  
and you know that's become a big mystery

77  
00:04:35,930 --> 00:04:34,140  
in the field that we're we have a lot of

78  
00:04:37,490 --> 00:04:35,940  
researchers like Paul Dean and and

79  
00:04:40,880 --> 00:04:37,500  
others trying to really get to the

80  
00:04:44,420 --> 00:04:40,890  
bottom of but do you do see it as a step

81  
00:04:46,880 --> 00:04:44,430  
forward well yeah any anything that

82  
00:04:49,430 --> 00:04:46,890  
opens up the box a bit that shows that

83  
00:04:53,390 --> 00:04:49,440  
the government as one would have to

84  
00:04:55,520 --> 00:04:53,400  
expect has been busy I mean let's face

85  
00:04:58,040 --> 00:04:55,530  
it we spend an awful lot of effort

86  
00:04:59,720 --> 00:04:58,050  
monitoring the skies to make sure the

87  
00:05:02,180 --> 00:04:59,730  
Russians don't attack us and you know

88  
00:05:04,970 --> 00:05:02,190

all that sort of stuff there's a huge

89

00:05:08,000 --> 00:05:04,980  
effort in that and to suggest that

90

00:05:11,540 --> 00:05:08,010  
nothing has been going on about UFOs for

91

00:05:13,940 --> 00:05:11,550  
all those years is nonsense I worked

92

00:05:16,760 --> 00:05:13,950  
under security for 14 years its standard

93

00:05:20,840 --> 00:05:16,770  
practice to keep top secret matters so

94

00:05:25,280 --> 00:05:20,850  
top secret you know you keep receiver by

95

00:05:27,110 --> 00:05:25,290  
not telling anybody ever and so I expect

96

00:05:28,159 --> 00:05:27,120  
there's an awful lot of data what's

97

00:05:30,679 --> 00:05:28,169  
missing soap

98

00:05:34,279 --> 00:05:30,689  
farm so where are the reports that these

99

00:05:35,959 --> 00:05:34,289  
guys generated hey I worked on 14 years

100

00:05:37,790 --> 00:05:35,969  
on government-sponsored research and

101  
00:05:41,689 --> 00:05:37,800  
development programs you always have to

102  
00:05:43,700 --> 00:05:41,699  
write reports dammit we know about one

103  
00:05:45,890 --> 00:05:43,710  
case that we have some detail on that

104  
00:05:48,409 --> 00:05:45,900  
Nimitz case and it's a great case but

105  
00:05:52,040 --> 00:05:48,419  
there's got to be more than one you're

106  
00:05:53,749 --> 00:05:52,050  
damn right there does and so you know I

107  
00:05:54,980 --> 00:05:53,759  
don't know who's pulling the strings I

108  
00:05:57,350 --> 00:05:54,990  
don't know what's going on back there

109  
00:06:00,920 --> 00:05:57,360  
whether this is a forerunner or just a

110  
00:06:04,279 --> 00:06:00,930  
taste of t's I have no idea I'm

111  
00:06:06,050 --> 00:06:04,289  
mystified and if the mystery man would

112  
00:06:09,079 --> 00:06:06,060  
stand up and tell us what's happening I

113  
00:06:10,129 --> 00:06:09,089

would like to know about yeah I mean if

114

00:06:13,040 --> 00:06:10,139

you want if you want to get on a

115

00:06:18,200 --> 00:06:13,050

speculative side it seems that they're

116

00:06:21,529 --> 00:06:18,210

purposely doing some kind of like a slow

117

00:06:26,029 --> 00:06:21,539

release of it to drop it like every few

118

00:06:29,179 --> 00:06:26,039

months so it's a constant it stays in

119

00:06:32,420 --> 00:06:29,189

the and everybody's focused for you know

120

00:06:34,820 --> 00:06:32,430

for a long period of time so every few

121

00:06:36,050 --> 00:06:34,830

months they'll drop another video or you

122

00:06:39,139 --> 00:06:36,060

know just I want to say about a month

123

00:06:42,559 --> 00:06:39,149

ago Tom DeLonge posted on his Instagram

124

00:06:46,369 --> 00:06:42,569

that him and his team you know I'm

125

00:06:47,929 --> 00:06:46,379

guessing Jim semi van Elizondo and the

126

00:06:51,790 --> 00:06:47,939

rest of the to the Stars Academy team

127

00:06:55,070 --> 00:06:51,800

that were briefing members in Washington

128

00:06:57,889 --> 00:06:55,080

I mean that's nothing new because we've

129

00:06:59,510 --> 00:06:57,899

had that happened with dr. Steven Greer

130

00:07:01,879 --> 00:06:59,520

as disclosure project when it was a

131

00:07:04,249 --> 00:07:01,889

little bit more credible with dr. Edgar

132

00:07:06,320 --> 00:07:04,259

Mitchell was involved and some others

133

00:07:08,839 --> 00:07:06,330

and we had the citizens hearing which

134

00:07:13,339 --> 00:07:08,849

was a huge event as well you know for

135

00:07:15,079 --> 00:07:13,349

the public scene to kind of yeah and

136

00:07:17,149 --> 00:07:15,089

that and your speech you believe it or

137

00:07:19,489 --> 00:07:17,159

not there's a there's a speech on

138

00:07:22,790 --> 00:07:19,499

YouTube it says like Stanton Friedman

139

00:07:24,649 --> 00:07:22,800

best UFO citizens hearing speech it's

140

00:07:27,829 --> 00:07:24,659

probably got like hundreds of thousands

141

00:07:30,980 --> 00:07:27,839

if not millions of views which was

142

00:07:32,800 --> 00:07:30,990

excellent but it seems that that's a

143

00:07:37,610 --> 00:07:32,810

plan that they're they're keeping

144

00:07:39,740 --> 00:07:37,620

they're keeping the releases partial so

145

00:07:41,990 --> 00:07:39,750

that it stays and everybody's focused

146

00:07:44,540 --> 00:07:42,000

over months and months to come

147

00:07:48,590 --> 00:07:44,550

but another another revelation about a

148

00:07:51,380 --> 00:07:48,600

tip was not I mean it's not such a

149

00:07:53,210 --> 00:07:51,390

surprise to people in the field but it

150

00:07:55,460 --> 00:07:53,220

was still big news to be made public

151

00:07:59,900 --> 00:07:55,470

that there was a contract with Robert

152

00:08:01,700 --> 00:07:59,910

Bigelow Bigelow Aerospace and Bigelow

153

00:08:04,940 --> 00:08:01,710

has been involved in this for quite a

154

00:08:09,080 --> 00:08:04,950

long time it was his first research

155

00:08:09,860 --> 00:08:09,090

project many years ago he funded exactly

156

00:08:11,570 --> 00:08:09,870

where I was going

157

00:08:12,710 --> 00:08:11,580

have you had involvements with Bigelow

158

00:08:16,280 --> 00:08:12,720

and what are your thoughts on him and

159

00:08:18,140 --> 00:08:16,290

his work that he's helped more than ten

160

00:08:21,290 --> 00:08:18,150

years ago I got a call out of the blue

161

00:08:23,840 --> 00:08:21,300

from Robert Bigelow I had no idea who he

162

00:08:25,580 --> 00:08:23,850

was I actually checked later with people

163

00:08:30,080 --> 00:08:25,590

I knew in Las Vegas to make sure he was

164

00:08:32,709 --> 00:08:30,090

real but he sure was he asked if I had

165

00:08:35,060 --> 00:08:32,719

any research ideas he has some money

166

00:08:37,610 --> 00:08:35,070

maybe he could be of help I said oh I

167

00:08:40,969 --> 00:08:37,620

got a whole bunch of them well well send

168

00:08:44,029 --> 00:08:40,979

me a list and I did in a day later and

169

00:08:46,820 --> 00:08:44,039

two days later he says pick one and I

170

00:08:49,790 --> 00:08:46,830

did and I got sixteen thousand dollar

171

00:08:51,470 --> 00:08:49,800

grant from him and the money was in the

172

00:08:55,720 --> 00:08:51,480

bank when he said it would be and I

173

00:08:58,700 --> 00:08:55,730

spent a lot of time looking at mj-12 and

174

00:09:00,500 --> 00:08:58,710

the plains of san agustin and stuff like

175

00:09:01,850 --> 00:09:00,510

that as a matter of fact Bob went on one

176

00:09:04,579 --> 00:09:01,860

of the trips out in the middle of

177

00:09:07,400 --> 00:09:04,589

nowhere and the plains of san agustin I

178

00:09:09,230 --> 00:09:07,410

have a great respect for him not because

179

00:09:12,410 --> 00:09:09,240

a billionaire although I suppose that's

180

00:09:15,190 --> 00:09:12,420

really a respect in and of itself but he

181

00:09:17,840 --> 00:09:15,200

makes decisions he was straightforward

182

00:09:21,200 --> 00:09:17,850

it was a pleasure to deal with them and

183

00:09:23,090 --> 00:09:21,210

he wasn't quite a tidy we were out in

184

00:09:25,940 --> 00:09:23,100

the middle of nowhere the thing at a

185

00:09:29,540 --> 00:09:25,950

dumpy motel and so forth you know he was

186

00:09:32,060 --> 00:09:29,550

one of the guys and so I wasn't

187

00:09:35,240 --> 00:09:32,070

surprised to hear he was involved

188

00:09:39,160 --> 00:09:35,250

especially with Senator Reid you know

189

00:09:41,750 --> 00:09:39,170

being from West Las Vegas and stuff so

190

00:09:44,450 --> 00:09:41,760

yeah I have a lot of respect for Bob and

191

00:09:48,020 --> 00:09:44,460

I don't know where all this stuff is

192

00:09:51,050 --> 00:09:48,030

going you know who can say what who's

193

00:09:53,480 --> 00:09:51,060

pulling what strings where for home and

194

00:09:55,820 --> 00:09:53,490

you know I think one of the problems we

195

00:09:58,160 --> 00:09:55,830

have is that people in the government

196

00:10:01,280 --> 00:09:58,170

I've been so fearful that the public

197

00:10:03,950 --> 00:10:01,290

would panic would be shocked to life

198

00:10:06,590 --> 00:10:03,960

wouldn't come crashing down if they knew

199

00:10:09,170 --> 00:10:06,600

that planet was being visited I have

200

00:10:11,300 --> 00:10:09,180

given more than 700 lectures in all 50

201  
00:10:14,360 --> 00:10:11,310  
states ten province and 19 other

202  
00:10:16,520 --> 00:10:14,370  
countries I have seen no signs of that

203  
00:10:20,330 --> 00:10:16,530  
at all and I come on

204  
00:10:22,040 --> 00:10:20,340  
very very strong I'm not mealy-mouthed I

205  
00:10:23,840 --> 00:10:22,050  
don't say maybe it's possible and

206  
00:10:25,520 --> 00:10:23,850  
somebody's coming here I say the planet

207  
00:10:27,740 --> 00:10:25,530  
is being visited that there is a cosmic

208  
00:10:30,710 --> 00:10:27,750  
Watergate it's the biggest story of the

209  
00:10:34,790 --> 00:10:30,720  
millennium and I cite chapter and verse

210  
00:10:36,920 --> 00:10:34,800  
and I've seen no signs of people oh you

211  
00:10:39,830 --> 00:10:36,930  
know worrying about what does that mean

212  
00:10:41,840 --> 00:10:39,840  
I think in today's world people are

213  
00:10:44,660 --> 00:10:41,850

prepared for the notion that would be

214

00:10:46,130 --> 00:10:44,670

surprising if there weren't others

215

00:10:48,320 --> 00:10:46,140

coming here and people have come to

216

00:10:51,140 --> 00:10:48,330

realized that with all these discoveries

217

00:10:54,320 --> 00:10:51,150

about planets I mean the latest word

218

00:10:57,440 --> 00:10:54,330

indicates there's about 1.6 planets per

219

00:11:00,020 --> 00:10:57,450

star so within a hundred light-years of

220

00:11:04,250 --> 00:11:00,030

here there's 10,000 stars that means

221

00:11:05,540 --> 00:11:04,260

about 16,000 planets and yet in 1960

222

00:11:07,070 --> 00:11:05,550

when Frank Drake was talking about

223

00:11:09,620 --> 00:11:07,080

listening for signals he said there

224

00:11:11,450 --> 00:11:09,630

might be six or eight thousand places

225

00:11:16,190 --> 00:11:11,460

that could sign signals in the galaxy

226

00:11:17,960 --> 00:11:16,200

six or eight billion is mr. Friedman

227

00:11:19,430 --> 00:11:17,970

just really quick to jump in I was going

228

00:11:20,480 --> 00:11:19,440

to get to this later on but now it seems

229

00:11:22,760 --> 00:11:20,490

as good a time as any

230

00:11:24,350 --> 00:11:22,770

have you ever sat down and done your own

231

00:11:26,140 --> 00:11:24,360

little Drake Equation and what kind of

232

00:11:29,060 --> 00:11:26,150

number did you come up with if he did

233

00:11:31,190 --> 00:11:29,070

well I don't but I think there's life

234

00:11:33,560 --> 00:11:31,200

all over the place out there the Drake

235

00:11:37,280 --> 00:11:33,570

Equation isn't an equation you can put

236

00:11:39,320 --> 00:11:37,290

any numbers in that you want and so you

237

00:11:41,510 --> 00:11:39,330

know it's totally misleading to call it

238

00:11:48,010 --> 00:11:41,520

an equation equals  $mc^2$  that's an

239

00:11:50,840 --> 00:11:48,020

equation  $E=mc^2$  equals  $E=hf$  these are equations

240

00:11:53,210 --> 00:11:50,850

so the Drake Equation is one approach

241

00:11:55,640 --> 00:11:53,220

and it's amazing the whole SETI

242

00:11:58,370 --> 00:11:55,650

community I say SETI stands for silly

243

00:11:59,410 --> 00:11:58,380

effort to investigate rather than search

244

00:12:02,840 --> 00:11:59,420

for extraterrestrial intelligence

245

00:12:05,510 --> 00:12:02,850

because there's all kinds of evidence

246

00:12:07,940 --> 00:12:05,520

that beings are coming here why are you

247

00:12:09,840 --> 00:12:07,950

talking about listening for signals that

248

00:12:11,430 --> 00:12:09,850

which maybe nobody is sending

249

00:12:14,100 --> 00:12:11,440

using techniques about which you know

250

00:12:16,410 --> 00:12:14,110

nothing when we have all the day last

251

00:12:20,370 --> 00:12:16,420

month two months ago

252

00:12:25,379 --> 00:12:20,380

you finally got 650 reports of UFO

253

00:12:28,530 --> 00:12:25,389

sightings let's say only 10% are alien a

254

00:12:31,290 --> 00:12:28,540

lot in one moment yeah

255

00:12:34,050 --> 00:12:31,300

yeah so it's not like you got to look

256

00:12:35,759 --> 00:12:34,060

hard for the data it's not being

257

00:12:40,019 --> 00:12:35,769

recorded terribly well in many places

258

00:12:43,199 --> 00:12:40,029

but in other words I find that people

259

00:12:44,460 --> 00:12:43,209

are not shocked I've had one guy at the

260

00:12:46,920 --> 00:12:44,470

end of one of my lectures that have been

261

00:12:49,340 --> 00:12:46,930

asking this audience how they feel about

262

00:12:53,189 --> 00:12:49,350

flying saucers after I'd given some

263

00:12:55,710 --> 00:12:53,199

Gallup poll data and I you know hemmed

264

00:12:59,040 --> 00:12:55,720

it on a little bit it's not my job to

265

00:13:01,079 --> 00:12:59,050

put you under the microscope that's my

266

00:13:02,460 --> 00:13:01,089

job to stick my neck out I don't think

267

00:13:05,180 --> 00:13:02,470

anybody will mind he said everybody

268

00:13:09,019 --> 00:13:05,190

clapped so I did ask more than 90%

269

00:13:12,389 --> 00:13:09,029

thought some UFOs are alien spacecraft

270

00:13:14,370 --> 00:13:12,399

and so what's the big deal you never get

271

00:13:17,939 --> 00:13:14,380

a hundred percent on anything you know

272

00:13:20,550 --> 00:13:17,949

so in today's world it seems to be

273

00:13:23,069 --> 00:13:20,560

generally accepted that hey there's

274

00:13:26,910 --> 00:13:23,079

nothing special about us maybe we're

275

00:13:30,030 --> 00:13:26,920

nastier than others I don't know but you

276

00:13:32,189 --> 00:13:30,040

know it's not a big deal and also I

277

00:13:35,910 --> 00:13:32,199

think people have learned not only that

278

00:13:37,980 --> 00:13:35,920

there are lots of planets out there but

279

00:13:39,660 --> 00:13:37,990

that interstellar travel may be part of

280

00:13:46,230 --> 00:13:39,670

this is from my talking about it but

281

00:13:48,030 --> 00:13:46,240

it's no big deal at 1g acceleration it

282

00:13:49,220 --> 00:13:48,040

takes less than a year to get to the

283

00:13:52,050 --> 00:13:49,230

speed of light

284

00:13:55,439 --> 00:13:52,060

I've had people guess a thousand years

285

00:13:57,600 --> 00:13:55,449

or a hundred years it's one less a year

286

00:13:59,790 --> 00:13:57,610

as you get close to the speed of light

287

00:14:01,920 --> 00:13:59,800

time slows down and don't ask me why

288

00:14:03,389 --> 00:14:01,930

that sounds crazy Stan of course it

289

00:14:05,850 --> 00:14:03,399

sounds crazy but that's the way God

290

00:14:07,650 --> 00:14:05,860

created the universe you know well can I

291

00:14:10,490 --> 00:14:07,660

say we've established that we have

292

00:14:12,120 --> 00:14:10,500

accelerators where particles are going

293

00:14:15,210 --> 00:14:12,130

99.99

294

00:14:20,069 --> 00:14:15,220

9% of this light it's not an unknown

295

00:14:23,009 --> 00:14:20,079

realm in other words so Ill think people

296

00:14:25,230 --> 00:14:23,019

have come around to the notion that it's

297

00:14:27,480 --> 00:14:25,240

not a big deal and our specialness is a

298

00:14:30,030 --> 00:14:27,490

product of our own imagination

299

00:14:34,110 --> 00:14:30,040

every generation likes to think they're

300

00:14:35,999 --> 00:14:34,120

you know they're it a great astronomer

301

00:14:38,160 --> 00:14:36,009

in the early 1900's that if there's one

302

00:14:40,230 --> 00:14:38,170

thing he was sure a man would never fly

303

00:14:41,879 --> 00:14:40,240

any distance in a vehicle that was two

304

00:14:46,019 --> 00:14:41,889

months before the Wright brothers first

305

00:14:48,620 --> 00:14:46,029

flight in 1956 space travelers utter

306

00:14:50,790 --> 00:14:48,630

build said the British astronomer royal

307

00:14:52,590 --> 00:14:50,800

what good would it do who would pay for

308

00:14:53,639 --> 00:14:52,600

it well we need is better tools for

309

00:14:55,949 --> 00:14:53,649

astronomy

310

00:14:57,780 --> 00:14:55,959

so Sputnik went up the next year and the

311

00:15:01,040 --> 00:14:57,790

field that's benefited the most has been

312

00:15:04,230 --> 00:15:01,050

astronomy from all the space exploration

313

00:15:07,470 --> 00:15:04,240

so we've come around the notion that

314

00:15:11,129 --> 00:15:07,480

it's a big universe and but it's not

315

00:15:13,139 --> 00:15:11,139

that big another it's also there's a

316

00:15:15,360 --> 00:15:13,149

kind of myth here people are taught all

317

00:15:18,600 --> 00:15:15,370

the nearest start of the Sun is 4.3

318

00:15:20,249 --> 00:15:18,610

light years away that's a good ways but

319

00:15:22,199 --> 00:15:20,259

there are loads of places in our local

320

00:15:25,650 --> 00:15:22,209

neighborhood where their stars less than

321

00:15:28,199 --> 00:15:25,660

a lighting from other stars the price is

322

00:15:30,420 --> 00:15:28,209

crawling with stars and with climates

323

00:15:32,460 --> 00:15:30,430

that was the missing ingredient you know

324

00:15:35,550 --> 00:15:32,470

while you guys saw where the planets

325

00:15:41,670 --> 00:15:35,560

stand well now we know thanks to Kepler

326

00:15:44,189 --> 00:15:41,680

there's the satellite finding like I say

327

00:15:48,090 --> 00:15:44,199

one point six planets per star think

328

00:15:50,519 --> 00:15:48,100

about that so the place is crawling with

329

00:15:55,139 --> 00:15:50,529

planets an ardent notion of our own

330

00:15:57,360 --> 00:15:55,149

specialness you know wow look at us look

331

00:15:59,579 --> 00:15:57,370

at us you know we've got a pretty sorry

332

00:16:02,100 --> 00:15:59,589

track record world war two we only

333

00:16:03,480 --> 00:16:02,110

killed 50 million people you know I

334

00:16:05,759 --> 00:16:03,490

don't know if that's a record for the

335

00:16:09,120 --> 00:16:05,769

neighborhood but it's not something to

336

00:16:11,100 --> 00:16:09,130

be proud of and we spend a trillion

337

00:16:12,030 --> 00:16:11,110

dollars this year on things military on

338

00:16:14,040 --> 00:16:12,040

planet Earth

339

00:16:19,199 --> 00:16:14,050

these aren't nice guys on this planet

340

00:16:21,179 --> 00:16:19,209

yeah yeah now getting back to the

341

00:16:23,340 --> 00:16:21,189

respect about Robert Bigelow of course

342

00:16:25,650 --> 00:16:23,350

I'm sure you heard on 60 minutes and a

343

00:16:31,110 --> 00:16:25,660

Stephen Basset pointed out his special

344

00:16:33,449 --> 00:16:31,120

I don't give a damn line about the of UT

345

00:16:36,720 --> 00:16:33,459

of UFOs and he didn't just say UFOs he

346

00:16:39,240 --> 00:16:36,730

said et presence he flat-out said it

347

00:16:41,639 --> 00:16:39,250

right on national TV one of the most

348

00:16:45,769 --> 00:16:41,649

watched shows that riot - guts for doing

349

00:16:49,769 --> 00:16:45,779

that yeah I thought that was fantastic

350

00:16:51,420 --> 00:16:49,779

ahead way for sure and you know talking

351

00:16:56,400 --> 00:16:51,430

about the the public's perception of

352

00:16:57,780 --> 00:16:56,410

this nowadays it's you know I I almost

353

00:17:00,689 --> 00:16:57,790

hate to admit this I'm a woman you know

354

00:17:04,799 --> 00:17:00,699

but the people in my age group

355

00:17:08,159 --> 00:17:04,809

I honestly I've never really met anybody

356

00:17:12,689 --> 00:17:08,169

in my generation and I was born in 87

357

00:17:14,549 --> 00:17:12,699

that really ever ever questioned the

358

00:17:19,679 --> 00:17:14,559

notion of extraterrestrial life in the

359

00:17:21,659 --> 00:17:19,689

universe even UFOs I mean we grow up we

360

00:17:23,210 --> 00:17:21,669

grew up with et and all these other

361

00:17:26,579 --> 00:17:23,220

shows it was all over the place right

362

00:17:28,199 --> 00:17:26,589

and we all you know it's almost like

363

00:17:29,909 --> 00:17:28,209

matter-of-fact for our generation well

364

00:17:32,940 --> 00:17:29,919

it's like of course there's life out

365

00:17:34,799 --> 00:17:32,950

there because the consensus nowadays is

366

00:17:37,260 --> 00:17:34,809

of course there's life out there which

367

00:17:38,970 --> 00:17:37,270

you know some years ago you know it was

368

00:17:42,480 --> 00:17:38,980

you know you couldn't really say that

369

00:17:43,860 --> 00:17:42,490

but nowadays you know the consensus for

370

00:17:45,690 --> 00:17:43,870

mainstream science is of course there's

371

00:17:47,490 --> 00:17:45,700

life out there they just argue about all

372

00:17:50,159 --> 00:17:47,500

they can't get here yet but if we're

373

00:17:51,539 --> 00:17:50,169

working with civilizations that are even

374

00:17:53,070 --> 00:17:51,549

a hundred years ahead of us we couldn't

375

00:17:55,590 --> 00:17:53,080

understand their physics for the most

376

00:18:02,220 --> 00:17:55,600

part about a million yeah exactly a

377

00:18:06,360 --> 00:18:02,230

million but 1650s Bishop Ussher thought

378

00:18:09,690 --> 00:18:06,370

that the world was created in 4004 BC so

379

00:18:16,080 --> 00:18:09,700

6,000 years ago he left zeroes out of

380

00:18:17,940 --> 00:18:16,090

this billion years of the small talk

381

00:18:20,220 --> 00:18:17,950

here what are your what are your

382

00:18:22,380 --> 00:18:20,230

thoughts are in the terms from from UFO

383

00:18:24,210 --> 00:18:22,390

to you ap just you know Hillary Clinton

384

00:18:25,950 --> 00:18:24,220

mentioned that term and it's it's been a

385

00:18:28,230 --> 00:18:25,960

buzz term sense it hasn't picked up

386

00:18:30,000 --> 00:18:28,240

quite as much as UFOs but people are

387

00:18:34,289 --> 00:18:30,010

using it in the in the research field

388

00:18:36,210 --> 00:18:34,299

well you know always so much easier to

389

00:18:37,680 --> 00:18:36,220

say you know and it's been around for so

390

00:18:39,320 --> 00:18:37,690

long that everybody knows what you're

391

00:18:42,110 --> 00:18:39,330

talking about

392

00:18:46,230 --> 00:18:42,120

UAP sounds very much more sophisticated

393

00:18:49,399 --> 00:18:46,240

and covers a bit more ground and to most

394

00:18:52,759 --> 00:18:49,409

people UFO means alien spacecraft you ap

395

00:18:56,820 --> 00:18:52,769

could be Russian spacecraft who knows

396

00:18:59,220 --> 00:18:56,830

but I don't mind UFO and most of my

397

00:19:01,590 --> 00:18:59,230

lectures I entitled flying saucers are

398

00:19:04,259 --> 00:19:01,600

real and I prefer flying saucer to UFO

399

00:19:06,509 --> 00:19:04,269

because UFOs are all kinds of things

400

00:19:09,330 --> 00:19:06,519

many different things are get my beliefs

401  
00:19:12,779 --> 00:19:09,340  
UFOs and get identified I'm interested

402  
00:19:14,070 --> 00:19:12,789  
in alien spacecraft I'm not seeing their

403  
00:19:17,070 --> 00:19:14,080  
honor they're interesting things going

404  
00:19:18,330 --> 00:19:17,080  
on of course I and wouldn't dare to say

405  
00:19:20,610 --> 00:19:18,340  
that because there are interesting

406  
00:19:22,019 --> 00:19:20,620  
things out there and unlike some people

407  
00:19:23,789 --> 00:19:22,029  
I don't think we know all there is to

408  
00:19:25,980 --> 00:19:23,799  
know about what's going on in our

409  
00:19:28,440 --> 00:19:25,990  
neighborhood and every generation thinks

410  
00:19:32,159 --> 00:19:28,450  
that it knows at all nothing new to be

411  
00:19:34,529 --> 00:19:32,169  
discovered and in my book with kathleen

412  
00:19:36,480 --> 00:19:34,539  
martin science was wrong we have 14

413  
00:19:39,210 --> 00:19:36,490

chapters each one stimulated by some

414

00:19:42,419 --> 00:19:39,220

very smart person saying something was

415

00:19:45,749 --> 00:19:42,429

impossible who turned out to be wrong

416

00:19:48,509 --> 00:19:45,759

not just that man will will never fly

417

00:19:51,680 --> 00:19:48,519

which was one of the accepted notions

418

00:19:55,860 --> 00:19:51,690

but there's a whole bunch more of those

419

00:20:00,749 --> 00:19:55,870

would stop smallpox etc etc people been

420

00:20:02,430 --> 00:20:00,759

wrong way of life yeah that was a very

421

00:20:04,590 --> 00:20:02,440

good book I remember reading that I see

422

00:20:08,450 --> 00:20:04,600

when it came out quite some time ago now

423

00:20:10,950 --> 00:20:08,460

it's years ago they were the one where

424

00:20:12,240 --> 00:20:10,960

they thought the person was ridiculous

425

00:20:14,100 --> 00:20:12,250

who said if you don't wash your hands

426

00:20:15,810 --> 00:20:14,110

after giving childbirth that you can get

427

00:20:20,549 --> 00:20:15,820

the next person sick or I'm dealing with

428

00:20:24,029 --> 00:20:20,559

the dead people what can I say there are

429

00:20:28,460 --> 00:20:24,039

myths all over the place we do make

430

00:20:31,049 --> 00:20:28,470

mistakes we're not all omnipotent at all

431

00:20:32,820 --> 00:20:31,059

we have to learn to be a little

432

00:20:35,100 --> 00:20:32,830

respectful of team maybe there's some

433

00:20:37,200 --> 00:20:35,110

stuff we don't know but there's one

434

00:20:39,060 --> 00:20:37,210

thing we do know is that aliens are

435

00:20:40,950 --> 00:20:39,070

visiting the government won't tell us

436

00:20:43,259 --> 00:20:40,960

and the press isn't pushing or the

437

00:20:45,119 --> 00:20:43,269

scientific community either I've heard

438

00:20:46,840 --> 00:20:45,129

more nonsense from the scientific

439

00:20:49,770 --> 00:20:46,850

community

440

00:20:53,980 --> 00:20:49,780

you know I'm out there on the hustings

441

00:20:56,140 --> 00:20:53,990

700 lectures is not a trivial amount 50

442

00:20:59,770 --> 00:20:56,150

states 10 provinces 19 other countries

443

00:21:01,300 --> 00:20:59,780

so I got my finger on the pulse and you

444

00:21:03,190 --> 00:21:01,310

know I've had 11 hecklers and I can't

445

00:21:07,060 --> 00:21:03,200

remember the last one and two of them

446

00:21:10,030 --> 00:21:07,070

were drunk people are and I come on very

447

00:21:13,360 --> 00:21:10,040

strong starting every lecture with four

448

00:21:14,710 --> 00:21:13,370

conclusions the earth is being visited

449

00:21:17,140 --> 00:21:14,720

by intelligently controlled

450

00:21:19,300 --> 00:21:17,150

extraterrestrial spacecraft in other

451

00:21:21,370 --> 00:21:19,310

words some UFOs or alien spacecraft

452

00:21:23,590 --> 00:21:21,380

we're dealing with a cosmic Watergate

453

00:21:26,710 --> 00:21:23,600

meaning some people in government know

454

00:21:28,780 --> 00:21:26,720

what's going around on 3rd you're no

455

00:21:30,760 --> 00:21:28,790

good arguments against the first two and

456

00:21:34,510 --> 00:21:30,770

fourth we're dealing with the biggest

457

00:21:36,910 --> 00:21:34,520

story of the millennium so I'm not a

458

00:21:38,470 --> 00:21:36,920

quiet little guy who's hemming and

459

00:21:42,340 --> 00:21:38,480

hawing and saying maybe something

460

00:21:45,070 --> 00:21:42,350

exciting is going on and I don't get

461

00:21:49,720 --> 00:21:45,080

tomatoes thrown at me and goodness no

462

00:21:51,730 --> 00:21:49,730

eggs either so I all over you know small

463

00:21:55,570 --> 00:21:51,740

towns big town's big country small

464

00:21:57,310 --> 00:21:55,580

countries so I don't worry about it when

465

00:22:01,320 --> 00:21:57,320

I go out there I was worried when I

466

00:22:05,620 --> 00:22:01,330

started to speak back in first lecture

467

00:22:07,500 --> 00:22:05,630

1967 I think you know how would people

468

00:22:09,670 --> 00:22:07,510

react and the first talk I gave to a

469

00:22:11,770 --> 00:22:09,680

section of the Americans due to her or

470

00:22:13,780 --> 00:22:11,780

knotek's and Astronautics I'm a member

471

00:22:16,300 --> 00:22:13,790

of the AIA it's the biggest group of

472

00:22:18,280 --> 00:22:16,310

space scientists in the world and I was

473

00:22:19,780 --> 00:22:18,290

a little worried about what kind of

474

00:22:21,790 --> 00:22:19,790

reaction we're gonna get how are these

475

00:22:27,700 --> 00:22:21,800

guys gonna come at me and I've never had

476

00:22:29,470 --> 00:22:27,710

a problem so it's okay in your time

477

00:22:30,880 --> 00:22:29,480

though you've seen you've seen a big

478

00:22:34,210 --> 00:22:30,890

change in the in the public perception

479

00:22:41,620 --> 00:22:34,220

about this right well no they've always

480

00:22:46,110 --> 00:22:41,630

been receptive darn it now we're dealing

481

00:22:47,980 --> 00:22:46,120

with a lot of hard evidence and facts

482

00:22:49,780 --> 00:22:47,990

you know you're known being

483

00:22:51,340 --> 00:22:49,790

down-to-earth and grounded with your

484

00:22:53,920 --> 00:22:51,350

research dealing with just the facts

485

00:23:00,280 --> 00:22:53,930

getting rid of speculation and pointing

486

00:23:05,590 --> 00:23:03,670

uh were were kind of smaug by some of

487

00:23:08,380 --> 00:23:05,600

what was saying like with the special

488

00:23:11,200 --> 00:23:08,390

report they were they were only counting

489

00:23:13,480 --> 00:23:11,210

the 3% part when it was a much greater

490

00:23:15,310 --> 00:23:13,490

number well you know that was

491

00:23:17,260 --> 00:23:15,320

interesting that was a one of the

492

00:23:20,860 --> 00:23:17,270

earliest examples of clear and

493

00:23:24,730 --> 00:23:20,870

unambiguous lying the press release that

494

00:23:26,200 --> 00:23:24,740

went out when Project Blue Book was say

495

00:23:31,090 --> 00:23:26,210

released they didn't distribute it

496

00:23:33,640 --> 00:23:31,100

special report 14 it was in 1955 the

497

00:23:37,080 --> 00:23:33,650

press release which got very wide

498

00:23:40,240 --> 00:23:37,090

distribution didn't say who did the work

499

00:23:42,760 --> 00:23:40,250

didn't say what company did the work

500

00:23:44,530 --> 00:23:42,770

what group did the work and gave none of

501  
00:23:46,450 --> 00:23:44,540  
the data from the report however what

502  
00:23:48,370 --> 00:23:46,460  
they did say was the secretary of the

503  
00:23:49,500 --> 00:23:48,380  
Air Force was quoted as saying not just

504  
00:23:52,540 --> 00:23:49,510  
anybody

505  
00:23:55,120 --> 00:23:52,550  
Donal quarrels on the basis of this

506  
00:23:57,070 --> 00:23:55,130  
study we believe that no objects such as

507  
00:23:58,990 --> 00:23:57,080  
those properly described as flying

508  
00:24:03,010 --> 00:23:59,000  
saucers have over flown the United

509  
00:24:04,510 --> 00:24:03,020  
States even the unknown 3% could have

510  
00:24:07,150 --> 00:24:04,520  
been identified as conventional

511  
00:24:09,300 --> 00:24:07,160  
phenomena or illusions if more complete

512  
00:24:11,830 --> 00:24:09,310  
observational data had been available

513  
00:24:14,710 --> 00:24:11,840

well that's pretty straightforward to

514

00:24:16,810 --> 00:24:14,720

lie the unknowns were twenty one and a

515

00:24:19,240 --> 00:24:16,820

half percent I had the report when I

516

00:24:20,890 --> 00:24:19,250

looked at the press release and I was

517

00:24:23,530 --> 00:24:20,900

shocked I'm not accustomed to being

518

00:24:28,720 --> 00:24:23,540

lying about especially by the secretary

519

00:24:31,420 --> 00:24:28,730

of the Air Force lied to and not only

520

00:24:34,030 --> 00:24:31,430

that that it was 21 and a half and not

521

00:24:35,770 --> 00:24:34,040

three but it was also found that the

522

00:24:39,460 --> 00:24:35,780

better the quality of this sighting the

523

00:24:41,500 --> 00:24:39,470

more likely to be unexplainable they did

524

00:24:44,170 --> 00:24:41,510

a cross comparison between the unknowns

525

00:24:46,450 --> 00:24:44,180

and the knowns the probability that the

526

00:24:47,950 --> 00:24:46,460

unknowns are just missed knowns a

527

00:24:50,800 --> 00:24:47,960

chi-square analysis for any

528

00:24:54,640 --> 00:24:50,810

mathematicians out there probably the

529

00:24:56,800 --> 00:24:54,650

unknowns are just misses less than 1% so

530

00:24:59,050 --> 00:24:56,810

we're not talking about you know maybe

531

00:25:00,670 --> 00:24:59,060

there's something going on it's clear

532

00:25:03,610 --> 00:25:00,680

that there's something going on and they

533

00:25:05,650 --> 00:25:03,620

lied about it and I don't like that

534

00:25:09,190 --> 00:25:05,660

that's one of the reasons for my quest

535

00:25:11,560 --> 00:25:09,200

if you will I don't like the public

536

00:25:13,030 --> 00:25:11,570

being told lies I'm not opposed to

537

00:25:15,520 --> 00:25:13,040

secrecy as such

538

00:25:18,850 --> 00:25:15,530

I worked under security and I understand

539

00:25:21,480 --> 00:25:18,860

the need for it but let's not say 3%

540

00:25:24,100 --> 00:25:21,490

unknown if it's 21 and a half percent

541

00:25:26,140 --> 00:25:24,110

just to jump in there that that study

542

00:25:29,590 --> 00:25:26,150

was done by Patel the Battelle Memorial

543

00:25:31,210 --> 00:25:29,600

Institute and it was actually right

544

00:25:33,460 --> 00:25:31,220

right it was actually a pretty good

545

00:25:35,320 --> 00:25:33,470

study wouldn't you agree the study

546

00:25:38,950 --> 00:25:35,330

itself not the spin on it from the Air

547

00:25:40,960 --> 00:25:38,960

Force yeah the the study was an

548

00:25:43,480 --> 00:25:40,970

outstanding study under the tables

549

00:25:45,970 --> 00:25:43,490

charts graphs maps they use to write

550

00:25:47,950 --> 00:25:45,980

questions but people didn't know at the

551  
00:25:50,230 --> 00:25:47,960  
end what the results were because the

552  
00:25:52,210 --> 00:25:50,240  
press release was totally misleading the

553  
00:25:56,530 --> 00:25:52,220  
press release was not issued by Patel it

554  
00:25:58,180 --> 00:25:56,540  
was put out by the airport now you're

555  
00:26:01,030 --> 00:25:58,190  
dealing with all these these the

556  
00:26:03,100 --> 00:26:01,040  
evidence and the hard facts how did you

557  
00:26:05,350 --> 00:26:03,110  
go from from that and then get involved

558  
00:26:08,440 --> 00:26:05,360  
into the the infamous Betty and Barney

559  
00:26:12,700 --> 00:26:08,450  
Hill case well I don't know why it's

560  
00:26:16,210 --> 00:26:12,710  
infamous I was curious I read the book

561  
00:26:20,670 --> 00:26:16,220  
interrupted journey and then I had been

562  
00:26:24,070 --> 00:26:20,680  
doing programs on KDKA and Pittsburgh

563  
00:26:27,100 --> 00:26:24,080

big television station there and it

564

00:26:28,450 --> 00:26:27,110

called me and told me that Betty and

565

00:26:29,950 --> 00:26:28,460

Barney they were bringing Betty and

566

00:26:32,890 --> 00:26:29,960

Barney into town I'd done several

567

00:26:35,230 --> 00:26:32,900

appearances on their programs and they

568

00:26:39,040 --> 00:26:35,240

told me where they were staying which is

569

00:26:42,610 --> 00:26:39,050

very unusual and I called them and we

570

00:26:44,740 --> 00:26:42,620

had dinner together and I was kept

571

00:26:46,540 --> 00:26:44,750

listening carefully to see did they say

572

00:26:48,910 --> 00:26:46,550

anything that was different from what

573

00:26:51,820 --> 00:26:48,920

was said in the book and no they didn't

574

00:26:53,950 --> 00:26:51,830

I was very favorably impressed and I

575

00:26:56,560 --> 00:26:53,960

spent time I've been it was at their

576  
00:26:59,350 --> 00:26:56,570  
home they're both gone now of course but

577  
00:27:01,680 --> 00:26:59,360  
and Kathleen Martin with whom I've

578  
00:27:04,420 --> 00:27:01,690  
written three books is Betty's niece and

579  
00:27:06,880 --> 00:27:04,430  
she made a serious effort to find out

580  
00:27:08,110 --> 00:27:06,890  
was Betty telling the whole truth and

581  
00:27:11,860 --> 00:27:08,120  
nothing but the truth they're just

582  
00:27:15,160 --> 00:27:11,870  
looking for attention or whatever and no

583  
00:27:20,560 --> 00:27:15,170  
I bet he does have a good imagination I

584  
00:27:22,510 --> 00:27:20,570  
don't did I don't mean that but so I got

585  
00:27:24,390 --> 00:27:22,520  
interested and then I was particularly

586  
00:27:26,470 --> 00:27:24,400  
concerned about the starmap

587  
00:27:28,390 --> 00:27:26,480  
and I got a call for

588  
00:27:30,250 --> 00:27:28,400

Koral Lorenzen head of the aerial

589

00:27:34,840 --> 00:27:30,260

phenomenon research organization way

590

00:27:36,970 --> 00:27:34,850

back in the 60s marjorie fish was a

591

00:27:39,789 --> 00:27:36,980

woman who was trying to do something

592

00:27:41,890 --> 00:27:39,799

about the star map that was in the book

593

00:27:46,090 --> 00:27:41,900

that betty supposedly had seen on board

594

00:27:48,039 --> 00:27:46,100

the craft and she Marjorie called coral

595

00:27:49,240 --> 00:27:48,049

to find out if she knew any scientists

596

00:27:51,340 --> 00:27:49,250

who might be interested in working with

597

00:27:54,310 --> 00:27:51,350

her to deal with some of the problems

598

00:27:56,260 --> 00:27:54,320

about that and she brick said yes it was

599

00:27:58,419 --> 00:27:56,270

okay to recommend me and I said sure so

600

00:28:01,470 --> 00:27:58,429

I called Marjorie and I visited with her

601  
00:28:05,289 --> 00:28:01,480  
in Toledo she's gone now unfortunately

602  
00:28:09,520 --> 00:28:05,299  
and I was the first to publish about her

603  
00:28:13,360 --> 00:28:09,530  
work it was outstanding research and out

604  
00:28:16,360 --> 00:28:13,370  
of that came the identification of the

605  
00:28:21,340 --> 00:28:16,370  
place that the Stars the the names of

606  
00:28:23,950 --> 00:28:21,350  
the stars in the map and it was amazing

607  
00:28:26,289 --> 00:28:23,960  
that the base stars were the closest to

608  
00:28:29,350 --> 00:28:26,299  
each other pair of sun-like stars in our

609  
00:28:32,740 --> 00:28:29,360  
entire local neighborhood could that be

610  
00:28:37,090 --> 00:28:32,750  
a coincidence you know there were only

611  
00:28:40,659 --> 00:28:37,100  
an eighth of a Lightyear apart not four

612  
00:28:43,930 --> 00:28:40,669  
or five light-years apart and Zeta 1 and

613  
00:28:45,100 --> 00:28:43,940

Zeta 2 Reticuli so I got heavily

614

00:28:47,049 --> 00:28:45,110  
involved in that I was opposed to

615

00:28:49,210 --> 00:28:47,059  
publishing the article I convinced teri

616

00:28:51,190 --> 00:28:49,220  
Dickinson editor of astronomy magazine

617

00:28:53,020 --> 00:28:51,200  
to do an article and he talked to lots

618

00:28:55,570 --> 00:28:53,030  
of people it wasn't on my say-so but I

619

00:28:57,430 --> 00:28:55,580  
sent him a copy of my article and then

620

00:28:59,530 --> 00:28:57,440  
he talked to all kinds of people and the

621

00:29:02,110 --> 00:28:59,540  
article got more response than any

622

00:29:07,390 --> 00:29:02,120  
article astronomy ever published and

623

00:29:09,460 --> 00:29:07,400  
they got they published a letter an

624

00:29:14,950 --> 00:29:09,470  
issue I think for the next year in

625

00:29:16,960 --> 00:29:14,960  
response to that so I was very heavily

626

00:29:18,870 --> 00:29:16,970

involved and I was very favorably

627

00:29:21,549 --> 00:29:18,880

impressed and I was willing to appear

628

00:29:24,909 --> 00:29:21,559

Betty and I were on with on the tomorrow

629

00:29:27,690 --> 00:29:24,919

show at Tom Snyder and you know there's

630

00:29:31,720 --> 00:29:27,700

a guy I got to give a lot of credit on

631

00:29:33,669 --> 00:29:31,730

the first segment Betty was on and when

632

00:29:36,130 --> 00:29:33,679

I came on they were done in segments and

633

00:29:39,039 --> 00:29:36,140

there was no audience and I said to time

634

00:29:40,460 --> 00:29:39,049

you know the audience doesn't know that

635

00:29:45,310 --> 00:29:40,470

Betty is a

636

00:29:48,649 --> 00:29:45,320

worker you know maybe it would help

637

00:29:51,529 --> 00:29:48,659

recognize that she's not just a nobody

638

00:29:53,450 --> 00:29:51,539

first we come back on the air first

639

00:29:56,270 --> 00:29:53,460

thing he asks her is about her

640

00:30:01,000 --> 00:29:56,280

background not everybody will pay

641

00:30:04,669 --> 00:30:01,010

attention to what I guess the truth

642

00:30:07,669 --> 00:30:04,679

having been out there so I was very

643

00:30:11,029 --> 00:30:07,679

impressed with that so I've been on that

644

00:30:13,220 --> 00:30:11,039

case for a very long time and it was

645

00:30:15,230 --> 00:30:13,230

easy to get connected because I could

646

00:30:19,100 --> 00:30:15,240

use my science background go for the

647

00:30:22,010 --> 00:30:19,110

facts the evidence the data find out

648

00:30:23,630 --> 00:30:22,020

about stars and which ones are where and

649

00:30:26,120 --> 00:30:23,640

how far apart they are and it's

650

00:30:29,480 --> 00:30:26,130

interesting that all the stars in the

651  
00:30:33,680 --> 00:30:29,490  
map turn out to be in a plane like the

652  
00:30:39,080 --> 00:30:33,690  
planets in our solar system like pieces

653  
00:30:42,470 --> 00:30:39,090  
of pizza on a piece of salami I was

654  
00:30:44,240 --> 00:30:42,480  
going to say on a pizza you know they're

655  
00:30:47,990 --> 00:30:44,250  
not floating about in three dimensions

656  
00:30:50,539 --> 00:30:48,000  
there and on the surface and all the

657  
00:30:52,220 --> 00:30:50,549  
stars in the map are in a plane now

658  
00:30:54,740 --> 00:30:52,230  
that's important because it's much easy

659  
00:30:56,690 --> 00:30:54,750  
to travel if you stay within the same

660  
00:31:01,390 --> 00:30:56,700  
plane going around the solar system for

661  
00:31:04,010 --> 00:31:01,400  
example so I got intrigued by always

662  
00:31:06,980 --> 00:31:04,020  
stuff and what for the facts and the

663  
00:31:11,210 --> 00:31:06,990

data that's what science is all about

664

00:31:13,220 --> 00:31:11,220

and remember I'm independent I don't

665

00:31:16,430 --> 00:31:13,230

know anybody having to stick to their

666

00:31:21,580 --> 00:31:16,440

party line I can say what I darn please

667

00:31:24,440 --> 00:31:21,590

and some people will tell you I do now

668

00:31:27,890 --> 00:31:24,450

other than the storm at the storm up

669

00:31:29,750 --> 00:31:27,900

aspect of the case what are some of the

670

00:31:31,070 --> 00:31:29,760

other compelling pieces of facts and

671

00:31:32,230 --> 00:31:31,080

evidence do you think that support of

672

00:31:36,200 --> 00:31:32,240

the case

673

00:31:40,220 --> 00:31:36,210

well dr. Simon but the psychiatrist who

674

00:31:44,870 --> 00:31:40,230

did the hypnosis work now here's a man

675

00:31:47,930 --> 00:31:44,880

who treated 3,000 people at a Veterans

676  
00:31:50,510 --> 00:31:47,940  
Hospital shell-shocked veterans people

677  
00:31:52,880 --> 00:31:50,520  
who dr. Syme didn't know anything about

678  
00:31:54,140 --> 00:31:52,890  
flying saucers but he knew how to deal

679  
00:31:57,200 --> 00:31:54,150  
with people who had

680  
00:31:59,600 --> 00:31:57,210  
maduk experiences and how to get him

681  
00:32:01,130 --> 00:31:59,610  
back online so to speak you know your

682  
00:32:03,380 --> 00:32:01,140  
buddy said gets blown off in the

683  
00:32:05,540 --> 00:32:03,390  
military next to you

684  
00:32:09,020 --> 00:32:05,550  
how do you handle that that's that's not

685  
00:32:11,060 --> 00:32:09,030  
easy and he did have to stop one session

686  
00:32:12,710 --> 00:32:11,070  
each with Betty and Barney because the

687  
00:32:15,350 --> 00:32:12,720  
emotional intensity was getting too

688  
00:32:18,530 --> 00:32:15,360

great he was worried about it so he was

689

00:32:20,600 --> 00:32:18,540

not a UFO expert but he sure was an

690

00:32:22,400 --> 00:32:20,610

expert about dealing with people who

691

00:32:24,550 --> 00:32:22,410

have had traumatic experiences that was

692

00:32:27,560 --> 00:32:24,560

very impressive

693

00:32:30,680 --> 00:32:27,570

you know that's unusually well he wasn't

694

00:32:35,720 --> 00:32:30,690

a party hypnotist kind of thing this is

695

00:32:39,350 --> 00:32:35,730

a world-class expert 3,000 shell-shocked

696

00:32:42,440 --> 00:32:39,360

War veterans from World War two is quite

697

00:32:46,370 --> 00:32:42,450

a number of people to have to deal with

698

00:32:49,760 --> 00:32:46,380

he knew what he was doing and so trying

699

00:32:52,160 --> 00:32:49,770

to it's funny how the debunkers and all

700

00:32:55,480 --> 00:32:52,170

aspects of ufology almost always leave

701

00:32:59,840 --> 00:32:55,490

out significant aspects of the

702

00:33:02,840 --> 00:32:59,850

investigation you know about Betty and

703

00:33:04,910 --> 00:33:02,850

Barney or dr. Simon or all kinds of

704

00:33:08,690 --> 00:33:04,920

other ones where they don't bother to

705

00:33:11,210 --> 00:33:08,700

mention the important details that help

706

00:33:14,480 --> 00:33:11,220

you to understand that this opinion is

707

00:33:17,330 --> 00:33:14,490

not from the bottom of the pet it's from

708

00:33:20,630 --> 00:33:17,340

a lofty investigation by people who know

709

00:33:22,340 --> 00:33:20,640

what they're doing so I was very

710

00:33:27,740 --> 00:33:22,350

impressed with Betty and Barney and with

711

00:33:29,570 --> 00:33:27,750

dr. Simon and you know it's so easy to

712

00:33:33,440 --> 00:33:29,580

take a stand well that's too outlandish

713

00:33:36,470 --> 00:33:33,450

that can't be true you know most great

714

00:33:37,760 --> 00:33:36,480

discoveries in science were rejected at

715

00:33:42,520 --> 00:33:37,770

the beginning because they were too

716

00:33:47,660 --> 00:33:42,530

outlandish you know I'm sorry but

717

00:33:50,420 --> 00:33:47,670

surprise is a way of life in science do

718

00:33:53,270 --> 00:33:50,430

you think that the the Betty and Barney

719

00:33:57,770 --> 00:33:53,280

talk case is a standalone that that

720

00:34:01,100 --> 00:33:57,780

that's like the only case of its kind or

721

00:34:03,500 --> 00:34:01,110

you think that no I don't know no I do

722

00:34:05,370 --> 00:34:03,510

not at all like there are loads of good

723

00:34:08,409 --> 00:34:05,380

abduction cases

724

00:34:10,540 --> 00:34:08,419

and I don't know of another one that had

725

00:34:13,630 --> 00:34:10,550

such details on a star map and things

726

00:34:15,909 --> 00:34:13,640

like that but look the importance of the

727

00:34:19,389 --> 00:34:15,919

star map is much more because of

728

00:34:24,610 --> 00:34:19,399

Marjorie Fisher's work to pin denim that

729

00:34:28,149 --> 00:34:24,620

was an incredible piece of work and I I

730

00:34:29,710 --> 00:34:28,159

did meet with her that's not action from

731

00:34:33,250 --> 00:34:29,720

a distance I was the first to publish

732

00:34:36,940 --> 00:34:33,260

about it and I was darn careful about

733

00:34:38,470 --> 00:34:36,950

what I said and I was like I said I was

734

00:34:42,399 --> 00:34:38,480

very impressed with her but I also

735

00:34:44,590 --> 00:34:42,409

looked at her work and so it's the only

736

00:34:46,600 --> 00:34:44,600

case like that in the sense of having

737

00:34:48,880 --> 00:34:46,610

week where we can pin down a particular

738

00:34:51,310 --> 00:34:48,890

star system and and all that sort of

739

00:34:54,610 --> 00:34:51,320

stuff but in terms of being a good

740

00:34:56,380 --> 00:34:54,620

abduction case no the Kathleen Martin

741

00:35:00,730 --> 00:34:56,390

with whom I've written three books

742

00:35:03,910 --> 00:35:00,740

Betty's niece has really done a lot of

743

00:35:06,970 --> 00:35:03,920

look at experiences people have been

744

00:35:07,720 --> 00:35:06,980

abducted and there are lots of them out

745

00:35:10,930 --> 00:35:07,730

there

746

00:35:12,460 --> 00:35:10,940

and trying to get it the facts I'm not

747

00:35:14,980 --> 00:35:12,470

saying there aren't people out there who

748

00:35:18,010 --> 00:35:14,990

were putting up Bologna that's true and

749

00:35:19,120 --> 00:35:18,020

everything so I'm not saying every story

750

00:35:21,670 --> 00:35:19,130

of an abduction is our

751  
00:35:23,980 --> 00:35:21,680  
honest-to-goodness abduction I'm not

752  
00:35:27,820 --> 00:35:23,990  
saying that at all but when the stories

753  
00:35:28,570 --> 00:35:27,830  
get carefully investigated were facts

754  
00:35:32,200 --> 00:35:28,580  
get checked

755  
00:35:38,230 --> 00:35:32,210  
data gets sorted so to speak there are

756  
00:35:40,810 --> 00:35:38,240  
lots of good abduction cases not me I've

757  
00:35:46,210 --> 00:35:40,820  
never never even seen an alien D'Arnot

758  
00:35:49,120 --> 00:35:46,220  
hey guys and just work just for the

759  
00:35:51,420 --> 00:35:49,130  
audience listening of course as Stan

760  
00:35:53,770 --> 00:35:51,430  
mentioned that he he co-authored a book

761  
00:35:56,290 --> 00:35:53,780  
called captured the Betty and Barney

762  
00:35:57,610 --> 00:35:56,300  
Hill UFO experience that'll be in this

763  
00:36:03,010 --> 00:35:57,620

description for people who are

764

00:36:05,860 --> 00:36:03,020

interested in that book but now I think

765

00:36:07,060 --> 00:36:05,870

we're gonna get worn into the Roswell

766

00:36:11,380 --> 00:36:07,070

side of things Frank what do you got

767

00:36:13,330 --> 00:36:11,390

okay one thing we didn't mention at the

768

00:36:15,580 --> 00:36:13,340

top of the show is that the statement

769

00:36:18,670 --> 00:36:15,590

you have announced essentially your

770

00:36:22,000 --> 00:36:18,680

retirement from at least actively speak

771

00:36:24,610 --> 00:36:22,010

writing and so on and there's a whole

772

00:36:30,190 --> 00:36:24,620

new generation of researchers out there

773

00:36:33,250 --> 00:36:30,200

and you got into the Roswell case in the

774

00:36:35,110 --> 00:36:33,260

first place is basically a tip that came

775

00:36:39,040 --> 00:36:35,120

to you while you were down in Louisiana

776

00:36:40,960 --> 00:36:39,050

I believe yeah doing some work this is

777

00:36:43,570 --> 00:36:40,970

probably you probably should go down in

778

00:36:47,250 --> 00:36:43,580

the UFO research history as the greatest

779

00:36:51,610 --> 00:36:47,260

tip ever gotten that you followed up on

780

00:36:54,970 --> 00:36:51,620

well yeah it was I was thinking at

781

00:36:56,800 --> 00:36:54,980

Louisiana State University and the

782

00:36:58,870 --> 00:36:56,810

students from school had brought me out

783

00:37:01,930 --> 00:36:58,880

to a television station I supposed to do

784

00:37:04,090 --> 00:37:01,940

three interviews and I done the

785

00:37:06,430 --> 00:37:04,100

interviews and when I was finished the

786

00:37:08,830 --> 00:37:06,440

guy who had been doing the interviews

787

00:37:11,020 --> 00:37:08,840

said you know the guy this is off the

788

00:37:13,710 --> 00:37:11,030

air nobody else around and not joking

789

00:37:16,180 --> 00:37:13,720

the guy ought to talk to is Jesse Marcel

790

00:37:19,180 --> 00:37:16,190

brilliant investigator that I am I said

791

00:37:20,710 --> 00:37:19,190

who's eight he handled wreckage of one

792

00:37:23,590 --> 00:37:20,720

of those saucers you're interested in

793

00:37:25,630 --> 00:37:23,600

when he was in the military what and it

794

00:37:27,640 --> 00:37:25,640

was totally out of the blue and he was

795

00:37:29,050 --> 00:37:27,650

serious this was not a joke he was

796

00:37:30,340 --> 00:37:29,060

telling and it weren't other people

797

00:37:37,300 --> 00:37:30,350

around who were there well what do you

798

00:37:41,460 --> 00:37:37,310

know about him he's a great guy he was

799

00:37:46,870 --> 00:37:41,470

the intelligence officer in Roswell and

800

00:37:48,970 --> 00:37:46,880

he was the guy who the guy was talk to

801  
00:37:51,970 --> 00:37:48,980  
me heard about it because the two of

802  
00:37:53,980 --> 00:37:51,980  
them were ham radio operators and this

803  
00:37:58,360 --> 00:37:53,990  
Jesse's story was actually in the

804  
00:38:00,580 --> 00:37:58,370  
newspapers in 1947 I it was old

805  
00:38:02,350 --> 00:38:00,590  
today wonder until the airport said no

806  
00:38:04,420 --> 00:38:02,360  
no just a radar reflector weather

807  
00:38:06,760 --> 00:38:04,430  
balloon combination but back in those

808  
00:38:09,340 --> 00:38:06,770  
days back in those days you have no way

809  
00:38:10,990 --> 00:38:09,350  
of knowing any of that you're just

810  
00:38:14,770 --> 00:38:11,000  
getting a tip from a guy about another

811  
00:38:17,080 --> 00:38:14,780  
guy you said a saucer crashed so you

812  
00:38:20,410 --> 00:38:17,090  
know nothing at this point yes so the

813  
00:38:23,170 --> 00:38:20,420

next day I guess where's he live well

814

00:38:26,500 --> 00:38:23,180

he's over in Houma Louisiana I didn't

815

00:38:28,600 --> 00:38:26,510

know where that was but the next day I

816

00:38:30,850 --> 00:38:28,610

called information and for the young

817

00:38:32,260 --> 00:38:30,860

people that's how we used to get phone

818

00:38:34,060 --> 00:38:32,270

numbers you called him for

819

00:38:35,710 --> 00:38:34,070

Meishan in the right area code and they

820

00:38:38,950 --> 00:38:35,720

could even tell you what part of town it

821

00:38:41,440 --> 00:38:38,960

was in and I got a number for Jesse a

822

00:38:46,180 --> 00:38:41,450

Marcel fortunately his name wasn't on

823

00:38:49,000 --> 00:38:46,190

Smith and I spoke with him and he told

824

00:38:52,960 --> 00:38:49,010

me his story he was the intelligence

825

00:38:55,540 --> 00:38:52,970

officer of the 509 and he talked about

826

00:38:57,400 --> 00:38:55,550

the rancher coming in and it's going to

827

00:38:59,620 --> 00:38:57,410

a sheriff and the sheriff sending him to

828

00:39:01,300 --> 00:38:59,630

Jesse who was the base intelligence

829

00:39:02,530 --> 00:39:01,310

officer and the thing you have to

830

00:39:04,450 --> 00:39:02,540

remember about Roswell

831

00:39:07,510 --> 00:39:04,460

I was the home of the most elite

832

00:39:10,780 --> 00:39:07,520

military group in the entire world

833

00:39:12,820 --> 00:39:10,790

the 509 why do I say that they're the

834

00:39:15,790 --> 00:39:12,830

most elite group they dropped the atomic

835

00:39:17,860 --> 00:39:15,800

bombs on Hiroshima and Nagasaki they

836

00:39:20,740 --> 00:39:17,870

dropped two more in operation crossroads

837

00:39:23,890 --> 00:39:20,750

a couple of years later nobody else had

838

00:39:25,570 --> 00:39:23,900

atomic bombs at that time so yeah to

839

00:39:27,370 --> 00:39:25,580

have a high-level security clearance and

840

00:39:29,350 --> 00:39:27,380

you pick your best people for this kind

841

00:39:33,730 --> 00:39:29,360

of thing you know big things to drop

842

00:39:36,820 --> 00:39:33,740

atomic and the guy I talked to when I

843

00:39:39,520 --> 00:39:36,830

first heard about this and again it was

844

00:39:44,650 --> 00:39:39,530

just my accident I heard about the

845

00:39:47,020 --> 00:39:44,660

Roswell story from this interaction and

846

00:39:49,590 --> 00:39:47,030

I looked in the editor and publisher and

847

00:39:53,140 --> 00:39:49,600

oh there's a newspaper in Roswell

848

00:39:55,810 --> 00:39:53,150

why would I know anything you know so I

849

00:39:57,520 --> 00:39:55,820

called a newspaper and I say a kind of

850

00:40:00,970 --> 00:39:57,530

story here I wonder if you can help me

851  
00:40:03,880 --> 00:40:00,980  
sure as well sensitive guy named Walter

852  
00:40:05,770 --> 00:40:03,890  
how to haunt his name is spoke two or

853  
00:40:07,120 --> 00:40:05,780  
three different ways before I could

854  
00:40:10,450 --> 00:40:07,130  
finish the centuries here so his wife

855  
00:40:14,470 --> 00:40:10,460  
works here what she works at the

856  
00:40:18,070 --> 00:40:14,480  
newspaper so I talk to her and then I

857  
00:40:20,080 --> 00:40:18,080  
talked to Walter and Walter was indeed

858  
00:40:23,290 --> 00:40:20,090  
the public information officer who put

859  
00:40:26,290 --> 00:40:23,300  
out the story about Roswell and his name

860  
00:40:29,610 --> 00:40:26,300  
is in the original articles but at least

861  
00:40:34,480 --> 00:40:29,620  
is important he was a bombardier who

862  
00:40:38,230 --> 00:40:34,490  
flew 20 missions over Japan and actually

863  
00:40:39,910 --> 00:40:38,240

dropped one of the nuclear weapons the

864

00:40:44,410 --> 00:40:39,920

instrument package over one of the

865

00:40:47,980 --> 00:40:44,420

nuclear weapons explosions in 1947 I

866

00:40:49,660 --> 00:40:47,990

guess it was and you pick your best guy

867

00:40:52,240 --> 00:40:49,670

to do that because we didn't have many

868

00:40:53,620 --> 00:40:52,250

atomic bombs to waste at that time and

869

00:40:56,980 --> 00:40:53,630

if you don't have the instrument package

870

00:40:58,720 --> 00:40:56,990

it's a wasted effort so Walter and it

871

00:41:00,670 --> 00:40:58,730

was well respected in the community of

872

00:41:03,280 --> 00:41:00,680

Roswell and all I say he was a big help

873

00:41:06,670 --> 00:41:03,290

to me he had a base your book shared all

874

00:41:10,780 --> 00:41:06,680

I remembered where a lot of the people

875

00:41:13,780 --> 00:41:10,790

still were I mean this happened in 47 I

876

00:41:16,840 --> 00:41:13,790

talked to him and 78 you know just a few

877

00:41:19,180 --> 00:41:16,850

years at what point are you finally

878

00:41:22,060 --> 00:41:19,190

saying to yourself oh my goodness

879

00:41:24,850 --> 00:41:22,070

gracious me I'm actually on to something

880

00:41:26,770 --> 00:41:24,860

here well it was pretty quick after

881

00:41:30,490 --> 00:41:26,780

talking to Walter I mean I was impressed

882

00:41:32,020 --> 00:41:30,500

with Jesse I'm a nuclear guy you know

883

00:41:35,020 --> 00:41:32,030

he's the intelligence officer at the

884

00:41:37,930 --> 00:41:35,030

only nuclear group in the world that

885

00:41:41,440 --> 00:41:37,940

says something again you don't pick a

886

00:41:44,770 --> 00:41:41,450

dink for that uh you know what I mean oh

887

00:41:49,380 --> 00:41:44,780

yeah right after the war you know you

888

00:41:52,270 --> 00:41:49,390

don't say anybody volunteer for this job

889

00:41:53,680 --> 00:41:52,280

so I was very impressed with him and I

890

00:41:56,560 --> 00:41:53,690

was impressed with Walter and Walter

891

00:41:58,930 --> 00:41:56,570

gave me within a year bill more and I

892

00:42:01,390 --> 00:41:58,940

had found 60 people in conjunction with

893

00:42:02,800 --> 00:42:01,400

the Roswell incident his happen to

894

00:42:04,510 --> 00:42:02,810

yearbook was a big help and he

895

00:42:07,390 --> 00:42:04,520

remembered a lot of the guys and so

896

00:42:09,100 --> 00:42:07,400

forth and you call one guy and you don't

897

00:42:10,810 --> 00:42:09,110

remember anybody else who was there and

898

00:42:13,150 --> 00:42:10,820

at first they'll say now you know it so

899

00:42:15,910 --> 00:42:13,160

long ago and then oh how about Bill

900

00:42:18,520 --> 00:42:15,920

Jones and pretty soon you may wind up

901  
00:42:20,890 --> 00:42:18,530  
with five names and yeah the last I

902  
00:42:22,990 --> 00:42:20,900  
heard my Christmas card list he was

903  
00:42:26,050 --> 00:42:23,000  
living in Oshkosh you know stuff like

904  
00:42:28,060 --> 00:42:26,060  
that so it's hard work you know because

905  
00:42:29,380 --> 00:42:28,070  
a lot of times you don't find out

906  
00:42:32,770 --> 00:42:29,390  
anything useful then you call somebody

907  
00:42:36,910 --> 00:42:32,780  
but we've found 60 people within a year

908  
00:42:39,490 --> 00:42:36,920  
and another 30 within another year but

909  
00:42:41,440 --> 00:42:39,500  
it doesn't just happen in other words

910  
00:42:43,120 --> 00:42:41,450  
they they don't come running to you hey

911  
00:42:48,270 --> 00:42:43,130  
I understand you're investigating

912  
00:42:50,800 --> 00:42:48,280  
Roswell far from it and you know

913  
00:42:53,320 --> 00:42:50,810

everybody realizes that there's a sort

914

00:42:54,970 --> 00:42:53,330

of stigma attached if you say you've

915

00:42:56,800 --> 00:42:54,980

seen a flying saucer and if you're going

916

00:42:59,380 --> 00:42:56,810

to talk about a crash flying

917

00:43:01,870 --> 00:42:59,390

boy you're gonna be very careful about

918

00:43:04,900 --> 00:43:01,880

opening your mouth so you have to

919

00:43:08,260 --> 00:43:04,910

approach these things cautiously and you

920

00:43:09,930 --> 00:43:08,270

know I can't get people to understand

921

00:43:13,060 --> 00:43:09,940

that you're going to take it seriously

922

00:43:16,660 --> 00:43:13,070

but the people are out there but you got

923

00:43:19,810 --> 00:43:16,670

to go looking for him some people are

924

00:43:23,140 --> 00:43:19,820

too lazy got it it's a little easier

925

00:43:25,480 --> 00:43:23,150

today but how oh yeah how far in were

926

00:43:30,070 --> 00:43:25,490

you before you actually physically

927

00:43:35,110 --> 00:43:30,080

decided to go to Roswell that's a good

928

00:43:37,180 --> 00:43:35,120

question I don't know it was pretty

929

00:43:40,060 --> 00:43:37,190

close to the beginning long before there

930

00:43:42,490 --> 00:43:40,070

was a music him okay okay okay

931

00:43:44,320 --> 00:43:42,500

and you also I mentioned working with

932

00:43:46,840 --> 00:43:44,330

Bill Moore on this now I know he ran

933

00:43:49,660 --> 00:43:46,850

into some controversy after the fact

934

00:43:53,760 --> 00:43:49,670

yeah yeah he was taking some information

935

00:43:56,230 --> 00:43:53,770

from a fuzzy I believe and basically

936

00:43:58,330 --> 00:43:56,240

spreading some bad information in order

937

00:43:59,800 --> 00:43:58,340

to get some good information can you

938

00:44:03,070 --> 00:43:59,810

tell us a little bit about him before we

939

00:44:05,020 --> 00:44:03,080

double back to Roswell well bill and I

940

00:44:09,040 --> 00:44:05,030

knew each other from a UFO research

941

00:44:11,050 --> 00:44:09,050

group in Pittsburgh and when I heard

942

00:44:13,750 --> 00:44:11,060

about Roswell I shared information with

943

00:44:16,090 --> 00:44:13,760

him and he was a big part of finding

944

00:44:20,770 --> 00:44:16,100

those 60 people he's a persistent

945

00:44:22,930 --> 00:44:20,780

investigator you know he'd go off to go

946

00:44:27,190 --> 00:44:22,940

to three research places on the same

947

00:44:29,350 --> 00:44:27,200

trip kind of thing but he got out of it

948

00:44:32,680 --> 00:44:29,360

and sometimes his imagination was a

949

00:44:34,960 --> 00:44:32,690

little bit too great maybe but didn't

950

00:44:38,260 --> 00:44:34,970

have the same drive it was different

951  
00:44:41,470 --> 00:44:38,270  
that I did and he hasn't done anything

952  
00:44:47,320 --> 00:44:41,480  
in ufology for many many years far as I

953  
00:44:51,670 --> 00:44:47,330  
know so you know to each his own we all

954  
00:44:53,980 --> 00:44:51,680  
have to though he did a lot of good work

955  
00:44:58,000 --> 00:44:53,990  
but let's face it

956  
00:45:00,880 --> 00:44:58,010  
then he makes some mistakes yes all

957  
00:45:05,310 --> 00:45:00,890  
right which of us can say that he hasn't

958  
00:45:07,750 --> 00:45:05,320  
made mistakes so I eat in sick with it

959  
00:45:10,130 --> 00:45:07,760  
terribly long but long enough to make a

960  
00:45:13,099 --> 00:45:10,140  
real contribution to the research

961  
00:45:14,989 --> 00:45:13,109  
God and he got you got offered I guess

962  
00:45:17,210 --> 00:45:14,999  
maybe looking from his perspective

963  
00:45:18,950 --> 00:45:17,220

looking back on it now you might have

964

00:45:21,890 --> 00:45:18,960

taken a little bit of a sucker bet from

965

00:45:23,420 --> 00:45:21,900

some folks inside the military have you

966

00:45:25,789 --> 00:45:23,430

ever gotten that kind of an offer it's

967

00:45:29,269 --> 00:45:25,799

like hey Stanton will will give you this

968

00:45:32,420 --> 00:45:29,279

but you got to go with that and no no

969

00:45:33,769 --> 00:45:32,430

okay okay I don't know why maybe I just

970

00:45:37,370 --> 00:45:33,779

don't look like the kind of guy who's

971

00:45:38,809 --> 00:45:37,380

gonna you know buy it I don't know I've

972

00:45:41,109 --> 00:45:38,819

got it understood understood

973

00:45:43,220 --> 00:45:41,119

I'm getting back to Roswell the

974

00:45:45,829 --> 00:45:43,230

Materials Research and a lot of that

975

00:45:48,249 --> 00:45:45,839

work was done at Battelle as well that

976  
00:45:50,779 --> 00:45:48,259  
is especially interesting to me the

977  
00:45:54,170 --> 00:45:50,789  
materials advancement right after the

978  
00:45:56,870 --> 00:45:54,180  
Roswell era there are some very

979  
00:45:59,720 --> 00:45:56,880  
interesting developments in that and

980  
00:46:02,390 --> 00:45:59,730  
also a lot of the materials that were

981  
00:46:04,999 --> 00:46:02,400  
described shape memory alloys things

982  
00:46:07,999 --> 00:46:05,009  
like that suddenly within a relatively

983  
00:46:10,460 --> 00:46:08,009  
short time after the Roswell crash we're

984  
00:46:11,989 --> 00:46:10,470  
making those kinds of alloys can you

985  
00:46:14,660 --> 00:46:11,999  
tell us a little bit more about that

986  
00:46:16,759 --> 00:46:14,670  
well yeah one of the one of the things I

987  
00:46:21,729 --> 00:46:16,769  
should mention is that I had a contract

988  
00:46:24,680 --> 00:46:21,739

in the early 1960s to give me the title

989

00:46:27,489 --> 00:46:24,690

analysis and evaluation of fast and

990

00:46:28,670 --> 00:46:27,499

intermediate reactors for space vehicle

991

00:46:32,690 --> 00:46:28,680

applications

992

00:46:38,599 --> 00:46:36,589

one word was left out Soviet I had a

993

00:46:40,880 --> 00:46:38,609

contract and I work for urge at General

994

00:46:44,109 --> 00:46:40,890

nucleonic s-- with Air Force foreign

995

00:46:47,900 --> 00:46:44,119

technology division so look at Russian

996

00:46:50,900 --> 00:46:47,910

technological literature to come up with

997

00:46:56,539 --> 00:46:50,910

an evaluation whether they would be able

998

00:46:58,489 --> 00:46:56,549

to use nuclear energy in space and the

999

00:47:00,920 --> 00:46:58,499

reason I got the contract is because I

1000

00:47:04,430 --> 00:47:00,930

had been working on nuclear systems for

1001  
00:47:07,069 --> 00:47:04,440  
space applications so I knew what we

1002  
00:47:09,529 --> 00:47:07,079  
were doing and I spent a year and I got

1003  
00:47:11,420 --> 00:47:09,539  
the best price to get information about

1004  
00:47:15,170 --> 00:47:11,430  
Russian technology was Battelle Memorial

1005  
00:47:17,479 --> 00:47:15,180  
Institute and Columbus they had a

1006  
00:47:18,610 --> 00:47:17,489  
contract with the Air Force to gather

1007  
00:47:22,270 --> 00:47:18,620  
such

1008  
00:47:23,920 --> 00:47:22,280  
data their connection was classified and

1009  
00:47:29,730 --> 00:47:23,930  
their name isn't mentioned in my final

1010  
00:47:32,890 --> 00:47:29,740  
report I don't have a copy of my final

1011  
00:47:35,230 --> 00:47:32,900  
because it was Chrysler ID and I

1012  
00:47:39,550 --> 00:47:35,240  
concluded that indeed the Russians were

1013  
00:47:41,200 --> 00:47:39,560

doing it everything you need to do to

1014

00:47:43,780 --> 00:47:41,210

use nuclear energy in space and it

1015

00:47:46,960 --> 00:47:43,790

turned out later I found out they had

1016

00:47:49,900 --> 00:47:46,970

launched 30 more than 30 I can't

1017

00:47:52,090 --> 00:47:49,910

remember was 31 or 32 nuclear reactors

1018

00:47:55,480 --> 00:47:52,100

are in space the United States has

1019

00:47:57,580 --> 00:47:55,490

launched one and not a very good one so

1020

00:48:01,900 --> 00:47:57,590

the Russians are way ahead of us in that

1021

00:48:03,460 --> 00:48:01,910

I and the point of nuclear energy in

1022

00:48:06,690 --> 00:48:03,470

space is it gives you a lot more power

1023

00:48:09,130 --> 00:48:06,700

per pound so you can operate the

1024

00:48:13,030 --> 00:48:09,140

sideband radar and all kinds of other

1025

00:48:15,040 --> 00:48:13,040

stuff particle beam weapons all kinds of

1026

00:48:17,230 --> 00:48:15,050

things if it got the power and nuclear

1027

00:48:19,000 --> 00:48:17,240

energy is the way to get the power and I

1028

00:48:20,350 --> 00:48:19,010

know a lot about small reactors and

1029

00:48:24,910 --> 00:48:20,360

small radioisotope thermoelectric

1030

00:48:29,050 --> 00:48:24,920

generators and stuff like that so I had

1031

00:48:30,580 --> 00:48:29,060

done that study in the early 60s and was

1032

00:48:33,310 --> 00:48:30,590

very impressed with what the Russians

1033

00:48:37,570 --> 00:48:33,320

had been doing because frankly they were

1034

00:48:39,440 --> 00:48:37,580

way ahead of us and I don't say that

1035

00:48:41,070 --> 00:48:39,450

because my grandparents were all Russia

1036

00:48:43,960 --> 00:48:41,080

[Laughter]

1037

00:48:46,480 --> 00:48:43,970

that's not the point here

1038

00:48:52,780 --> 00:48:46,490

I had to go by facts and data and so

1039

00:48:54,430 --> 00:48:52,790

forth so and I was was so glad after I

1040

00:48:57,310 --> 00:48:54,440

had said the things I said in the

1041

00:49:04,030 --> 00:48:57,320

classified report that this other data

1042

00:49:05,860 --> 00:49:04,040

came out that indicated oh boy so and

1043

00:49:08,590 --> 00:49:05,870

most Americans aren't aware of that you

1044

00:49:12,940 --> 00:49:08,600

know there was an attitude back then you

1045

00:49:15,700 --> 00:49:12,950

know these are a bunch of dumb peasants

1046

00:49:19,030 --> 00:49:15,710

in the Soviet Union it made some people

1047

00:49:21,160 --> 00:49:19,040

happy to think that way and you know in

1048

00:49:23,050 --> 00:49:21,170

general Leslie groves who directed the

1049

00:49:28,690 --> 00:49:23,060

Manhattan Project to develop nuclear

1050

00:49:31,180 --> 00:49:28,700

weapons was asked in 1948 how long would

1051  
00:49:32,980 --> 00:49:31,190  
it be before the Russians were able to

1052  
00:49:35,750 --> 00:49:32,990  
build an atomic

1053  
00:49:37,520 --> 00:49:35,760  
and he pointed out that they had been

1054  
00:49:39,860 --> 00:49:37,530  
devastated by the war in a way the

1055  
00:49:41,570 --> 00:49:39,870  
United States hadn't been and you know

1056  
00:49:43,190 --> 00:49:41,580  
they had a lot of rebuilding to do and

1057  
00:49:46,250 --> 00:49:43,200  
all I'm sort of thinking it would

1058  
00:49:53,810 --> 00:49:46,260  
probably be at least eight years it took

1059  
00:49:56,030 --> 00:49:53,820  
one year they you know he underestimated

1060  
00:49:58,460 --> 00:49:56,040  
them make sure they had some spy input

1061  
00:50:01,510 --> 00:49:58,470  
I'm not putting that down I'm just

1062  
00:50:03,800 --> 00:50:01,520  
saying that it was a standard practice

1063  
00:50:05,390 --> 00:50:03,810

as a matter of fact we didn't worry

1064

00:50:07,040 --> 00:50:05,400

about the Russians with atomic bombs

1065

00:50:11,110 --> 00:50:07,050

because they didn't have any means for

1066

00:50:15,530 --> 00:50:11,120

delivering them we thought we had b-29s

1067

00:50:17,810 --> 00:50:15,540

well two years later there was a big

1068

00:50:19,970 --> 00:50:17,820

parade in Moscow you know Mayday and all

1069

00:50:23,570 --> 00:50:19,980

that stuff and there was a whole bunch

1070

00:50:25,850 --> 00:50:23,580

of bigger planes and you know what they

1071

00:50:27,950 --> 00:50:25,860

had done we had left the b-29 over there

1072

00:50:31,760 --> 00:50:27,960

at Lund least aircraft and it was

1073

00:50:36,680 --> 00:50:31,770

damaged and they copied it built a bunch

1074

00:50:38,150 --> 00:50:36,690

of them we underestimated them and you

1075

00:50:40,040 --> 00:50:38,160

know what do we do we we didn't even

1076  
00:50:41,720 --> 00:50:40,050  
have a radar Network around the United

1077  
00:50:44,180 --> 00:50:41,730  
States what do we need one for there's

1078  
00:50:49,400 --> 00:50:44,190  
no no possibility the Russians are gonna

1079  
00:50:52,820 --> 00:50:49,410  
cross the ocean and bomb ice whoops well

1080  
00:50:58,490 --> 00:50:52,830  
I mentioned this because it doesn't pay

1081  
00:51:00,590 --> 00:50:58,500  
to underestimate your enemies moving

1082  
00:51:03,530 --> 00:51:00,600  
over a little bit

1083  
00:51:05,930 --> 00:51:03,540  
well touching on your nuclear physics

1084  
00:51:08,870 --> 00:51:05,940  
background and also a little bit on some

1085  
00:51:11,780 --> 00:51:08,880  
of the more recent news regarding the

1086  
00:51:13,460 --> 00:51:11,790  
many materials that the to the Stars

1087  
00:51:15,920 --> 00:51:13,470  
Academy folks have been talking about at

1088  
00:51:18,320 --> 00:51:15,930

least a little bit I don't have a

1089

00:51:20,540 --> 00:51:18,330

physical science background but from

1090

00:51:25,370 --> 00:51:20,550

what I understand there there have been

1091

00:51:30,350 --> 00:51:25,380

a number of found at least claimed to be

1092

00:51:31,790 --> 00:51:30,360

a found items from UFOs and these have

1093

00:51:34,580 --> 00:51:31,800

been studied actually going back

1094

00:51:36,710 --> 00:51:34,590

sometime Peters storica professor for a

1095

00:51:38,570 --> 00:51:36,720

mus Stanford has been involved in this

1096

00:51:41,600 --> 00:51:38,580

jacques valet has been involved in this

1097

00:51:43,880 --> 00:51:41,610

more recently Gary Nolan from Stanford

1098

00:51:44,900 --> 00:51:43,890

has been involved with this at least to

1099

00:51:48,730 --> 00:51:44,910

some extent

1100

00:51:52,340 --> 00:51:48,740

and apparently the the thing that

1101  
00:51:55,790 --> 00:51:52,350  
baffles them that has really gotten

1102  
00:51:59,840 --> 00:51:55,800  
their attention is that these items

1103  
00:52:02,180 --> 00:51:59,850  
these objects still have all you know

1104  
00:52:03,980 --> 00:52:02,190  
they're they they're the same chemical

1105  
00:52:06,020 --> 00:52:03,990  
elements that that are found on earth

1106  
00:52:07,790 --> 00:52:06,030  
the same elements so either type to

1107  
00:52:10,370 --> 00:52:07,800  
learn more magnesium or whatever the

1108  
00:52:13,310 --> 00:52:10,380  
case may be but the differences that

1109  
00:52:16,490 --> 00:52:13,320  
really has these fellows baffle is the

1110  
00:52:19,040 --> 00:52:16,500  
differences in the isotopes that the

1111  
00:52:22,820 --> 00:52:19,050  
isotopes can isotopes can be different

1112  
00:52:25,190 --> 00:52:22,830  
and that is what's gotten them confused

1113  
00:52:28,160 --> 00:52:25,200

the isotopic ratios and can you speak

1114

00:52:31,340 --> 00:52:28,170

and maybe give us a real quick and dirty

1115

00:52:34,970 --> 00:52:31,350

a tutorial on does that sound like it

1116

00:52:36,440 --> 00:52:34,980

makes some sense to you yes it does look

1117

00:52:38,960 --> 00:52:36,450

one of the biggest things about

1118

00:52:41,710 --> 00:52:38,970

developing the atomic bomb was that we

1119

00:52:44,900 --> 00:52:41,720

needed to have a lot of uranium-235

1120

00:52:46,060 --> 00:52:44,910

unfortunately it's only seven tenths of

1121

00:52:51,980 --> 00:52:46,070

one percent

1122

00:52:55,940 --> 00:52:51,990

we built a mile-long facility to run

1123

00:52:59,660 --> 00:52:55,950

loads of a uranium based gas through

1124

00:53:01,640 --> 00:52:59,670

that facility to separate the isotopes

1125

00:53:03,860 --> 00:53:01,650

because the lighter isotope will move a

1126  
00:53:05,930 --> 00:53:03,870  
little faster than the rest of its 238

1127  
00:53:08,660 --> 00:53:05,940  
so that doesn't move quite as fast and

1128  
00:53:12,680 --> 00:53:08,670  
we were using believe it or not in the

1129  
00:53:14,690 --> 00:53:12,690  
middle of the war 5% of all the

1130  
00:53:17,870 --> 00:53:14,700  
electricity being generated in the

1131  
00:53:22,520 --> 00:53:17,880  
United States to separate those isotopes

1132  
00:53:25,190 --> 00:53:22,530  
and sacred I might add in secret so

1133  
00:53:27,290 --> 00:53:25,200  
separating isotopes is an important

1134  
00:53:29,780 --> 00:53:27,300  
aspect and we've there's been an awful

1135  
00:53:33,020 --> 00:53:29,790  
lot of work going on and it's different

1136  
00:53:38,080 --> 00:53:33,030  
for different isotopes how you do it and

1137  
00:53:42,100 --> 00:53:38,090  
you know how much concentration you need

1138  
00:53:44,870 --> 00:53:42,110

so it wouldn't be surprising to me that

1139

00:53:47,270 --> 00:53:44,880

somebody a little more advanced than we

1140

00:53:51,320 --> 00:53:47,280

are you know a thousand a million years

1141

00:53:53,720 --> 00:53:51,330

whatever knows how to do things that we

1142

00:53:57,500 --> 00:53:53,730

weren't yet able to do when we found

1143

00:53:57,809 --> 00:53:57,510

this out all right in other words this

1144

00:53:59,640 --> 00:53:57,819

guy

1145

00:54:02,009 --> 00:53:59,650

it comes from finding something where

1146

00:54:04,349 --> 00:54:02,019

you say chi how'd they do that let's see

1147

00:54:06,349 --> 00:54:04,359

what we can do and there are all kinds

1148

00:54:10,079 --> 00:54:06,359

of examples of that in the history of

1149

00:54:13,439 --> 00:54:10,089

development of science but it's one of

1150

00:54:15,719 --> 00:54:13,449

the things when we find a piece of

1151  
00:54:19,289 --> 00:54:15,729  
Russian equipment or German equipment

1152  
00:54:22,309 --> 00:54:19,299  
during the war we study it like crazy to

1153  
00:54:25,140 --> 00:54:22,319  
find out oh look what they're using here

1154  
00:54:28,949 --> 00:54:25,150  
why are they using this or that or the

1155  
00:54:33,089 --> 00:54:28,959  
other thing and you do your own work

1156  
00:54:35,279 --> 00:54:33,099  
so finding something different is one of

1157  
00:54:38,759 --> 00:54:35,289  
the goals when you're doing research on

1158  
00:54:42,779 --> 00:54:38,769  
new materials what's going on here why

1159  
00:54:44,609 --> 00:54:42,789  
did they put that in there oh but you

1160  
00:54:47,839 --> 00:54:44,619  
got to check you got to run a lot of

1161  
00:54:53,219 --> 00:54:47,849  
tests you got to be curious and

1162  
00:54:56,039 --> 00:54:53,229  
persistent and a lot of that well that

1163  
00:54:58,349 --> 00:54:56,049

worked for the Air Force generally gets

1164

00:55:00,180 --> 00:54:58,359

done out of the foreign technology

1165

00:55:03,719 --> 00:55:00,190

division at wright-patterson Air Force

1166

00:55:07,289 --> 00:55:03,729

Base that's the way that a lot of that I

1167

00:55:09,739 --> 00:55:07,299

did my work was was for them but there

1168

00:55:12,390 --> 00:55:09,749

are a lot of places where that gets done

1169

00:55:15,479 --> 00:55:12,400

people don't realize how much classified

1170

00:55:17,309 --> 00:55:15,489

work goes on all right when I was

1171

00:55:18,989 --> 00:55:17,319

working and how big the budgets are when

1172

00:55:21,689 --> 00:55:18,999

I was working that general electric

1173

00:55:25,769 --> 00:55:21,699

aircraft nuclear propulsion Department

1174

00:55:29,689 --> 00:55:25,779

and people say why'd this is back

1175

00:55:31,920 --> 00:55:29,699

between 1956 and 59 in Cincinnati

1176

00:55:34,259 --> 00:55:31,930

general I think aircraft got their

1177

00:55:37,890 --> 00:55:34,269

propulsion I sort of set on the door the

1178

00:55:42,769 --> 00:55:37,900

data was classified and our budget in

1179

00:55:47,009 --> 00:55:42,779

1958 was one hundred million dollars

1180

00:55:50,400 --> 00:55:47,019

that was a lot of money in 1958 it's a

1181

00:55:52,829 --> 00:55:50,410

lot of money now but we employed 3400

1182

00:55:55,380 --> 00:55:52,839

people of whom 1,100 were engineers and

1183

00:55:57,839 --> 00:55:55,390

scientists that's one company on one

1184

00:55:59,579 --> 00:55:57,849

project there were lots of projects and

1185

00:56:02,009 --> 00:55:59,589

we never flew a nuclear-powered airplane

1186

00:56:06,529 --> 00:56:02,019

we did operate two engines on nuclear

1187

00:56:09,239 --> 00:56:06,539

power but just you know people forget

1188

00:56:11,150 --> 00:56:09,249

little clear Navy we have submarines

1189

00:56:13,580 --> 00:56:11,160

that can go around the world under

1190

00:56:17,000 --> 00:56:13,590

water in World War 2 a submarine could

1191

00:56:18,860 --> 00:56:17,010

stay underwater for it 24 hours now that

1192

00:56:21,350 --> 00:56:18,870

go around the world we have aircraft

1193

00:56:25,900 --> 00:56:21,360

carriers nuclear-powered that can

1194

00:56:28,100 --> 00:56:25,910

operate for 18 years without refueling

1195

00:56:30,410 --> 00:56:28,110

think about that for a minute if you're

1196

00:56:34,910 --> 00:56:30,420

a ship captain you mean I don't need to

1197

00:56:37,730 --> 00:56:34,920

go to the gas station well it makes a

1198

00:56:40,400 --> 00:56:37,740

little difference in the world and being

1199

00:56:42,080 --> 00:56:40,410

able to accomplish your mission if you

1200

00:56:45,200 --> 00:56:42,090

don't need to worry about finding a

1201

00:56:49,400 --> 00:56:45,210

tanker the oceans are big you know and

1202

00:56:52,130 --> 00:56:49,410

so many people just aren't aware how big

1203

00:56:54,950 --> 00:56:52,140

the developments have been and how much

1204

00:56:57,020 --> 00:56:54,960

money was spent to get there it's not

1205

00:56:59,810 --> 00:56:57,030

just us the Russians - as I said the

1206

00:57:04,730 --> 00:56:59,820

Russians operated 30-some reactors in

1207

00:57:06,530 --> 00:57:04,740

space we operated one but you don't hear

1208

00:57:09,680 --> 00:57:06,540

anybody talking to the American people

1209

00:57:11,270 --> 00:57:09,690

oh you got to learn some more folks yeah

1210

00:57:14,480 --> 00:57:11,280

you do got it

1211

00:57:17,060 --> 00:57:14,490

jumping back to Roswell like with a lot

1212

00:57:19,280 --> 00:57:17,070

of other UFO cases that come out a lot

1213

00:57:22,340 --> 00:57:19,290

of the additional claims have come out

1214

00:57:25,750 --> 00:57:22,350

over the years bodies were found as part

1215

00:57:28,340 --> 00:57:25,760

of the crash I'm going apart from where

1216

00:57:32,240 --> 00:57:28,350

Marcel found some debris and brought or

1217

00:57:34,660 --> 00:57:32,250

went out to the Brazel location and that

1218

00:57:39,010 --> 00:57:34,670

brought some additional debris back in

1219

00:57:41,000 --> 00:57:39,020

bodies perhaps one of them surviving

1220

00:57:43,010 --> 00:57:41,010

communicating with the military that

1221

00:57:44,750 --> 00:57:43,020

type of thing anything that you've been

1222

00:57:48,380 --> 00:57:44,760

able to turn up that would lend credence

1223

00:57:49,910 --> 00:57:48,390

to those types of claims well I have see

1224

00:57:52,610 --> 00:57:49,920

no reason not to believe them when I

1225

00:57:55,040 --> 00:57:52,620

look at the people I heard them from and

1226

00:57:58,190 --> 00:57:55,050

Jesse didn't say he saw bodies he said

1227

00:57:59,750 --> 00:57:58,200

bodies were found okay it wouldn't be

1228

00:58:05,360 --> 00:57:59,760

surprising if there was a crew

1229

00:58:10,790 --> 00:58:05,370

compartment plenty of other reports from

1230

00:58:13,970 --> 00:58:10,800

witnesses and what can I say there are

1231

00:58:15,170 --> 00:58:13,980

operators for the ships and you think

1232

00:58:16,640 --> 00:58:15,180

they're going to go public with them

1233

00:58:22,400 --> 00:58:16,650

bring them out for the New York Times to

1234

00:58:24,950 --> 00:58:22,410

take pictures the kicker here that when

1235

00:58:28,700 --> 00:58:24,960

you find something like an alien

1236

00:58:31,250 --> 00:58:28,710

spacecraft you're not about to go public

1237

00:58:33,560 --> 00:58:31,260

with oh yeah here's a materials we found

1238

00:58:34,940 --> 00:58:33,570

and look look what they did something

1239

00:58:37,160 --> 00:58:34,950

different and look at the bodies we

1240

00:58:40,280 --> 00:58:37,170

found we're talking what's important

1241

00:58:42,650 --> 00:58:40,290

about Roswell isn't just advanced

1242

00:58:44,810 --> 00:58:42,660

technology but it's proof positive that

1243

00:58:47,900 --> 00:58:44,820

aliens are visited that they're more

1244

00:58:49,640 --> 00:58:47,910

advanced than we are and let's face it

1245

00:58:51,710 --> 00:58:49,650

we don't want to share what we learn

1246

00:58:55,040 --> 00:58:51,720

about these alien spacecraft with the

1247

00:58:56,750 --> 00:58:55,050

Russians or anybody else do we we're not

1248

00:58:59,810 --> 00:58:56,760

going to if they have what they have

1249

00:59:02,300 --> 00:58:59,820

learned from crash is over there with

1250

00:59:03,890 --> 00:59:02,310

what we have learned they may be able to

1251

00:59:06,920 --> 00:59:03,900

get there quicker in terms of

1252

00:59:09,079 --> 00:59:06,930

duplication and you know people think oh

1253

00:59:12,050 --> 00:59:09,089

you got one now you can build one that's

1254

00:59:16,040 --> 00:59:12,060

nonsense all kinds of things if you

1255

00:59:18,260 --> 00:59:16,050

tried to well a ten-dollar transistor

1256

00:59:20,570 --> 00:59:18,270

radio give that to the smartest person

1257

00:59:22,280 --> 00:59:20,580

on the planet in 1935 could he have

1258

00:59:24,800 --> 00:59:22,290

built one not a chance

1259

00:59:28,160 --> 00:59:24,810

he couldn't analyze the chips and he

1260

00:59:31,310 --> 00:59:28,170

certainly couldn't duplicate them so

1261

00:59:34,609 --> 00:59:31,320

there are huge steps that need to be

1262

00:59:37,400 --> 00:59:34,619

taken that are very expensive and that

1263

00:59:39,470 --> 00:59:37,410

you want to protect the integrity of the

1264

00:59:42,440 --> 00:59:39,480

knowledge you learn from your possible

1265

00:59:44,270 --> 00:59:42,450

enemies because if they get what you

1266

00:59:46,450 --> 00:59:44,280

have with what they have they may beat

1267

00:59:49,280 --> 00:59:46,460

you to the punch and you don't want that

1268

00:59:52,010 --> 00:59:49,290

all right the whole point of all this

1269

00:59:55,940 --> 00:59:52,020

stuff is technology to be used in war

1270

00:59:58,670 --> 00:59:55,950

isn't it I mean isn't that what it's all

1271

01:00:00,589 --> 00:59:58,680

about it at least on the military and

1272

01:00:02,660 --> 01:00:00,599

absolutely although I got to think that

1273

01:00:05,359 --> 01:00:02,670

you know there there have got to be

1274

01:00:07,820 --> 01:00:05,369

plenty of positive civilian uses for a

1275

01:00:10,690 --> 01:00:07,830

lot of this material too but getting

1276

01:00:12,829 --> 01:00:10,700

back to finding an advanced alien craft

1277

01:00:14,780 --> 01:00:12,839

yeah you wouldn't be able to figure out

1278

01:00:17,210 --> 01:00:14,790

the avionics right away yeah you

1279

01:00:19,160 --> 01:00:17,220

wouldn't be able to duplicate the

1280

01:00:20,960 --> 01:00:19,170

propulsion right away but you could

1281

01:00:24,400 --> 01:00:20,970

figure out what the structural metal

1282

01:00:27,560 --> 01:00:24,410

alloys were made of now you can probably

1283

01:00:29,359 --> 01:00:27,570

what you could make figure out what

1284

01:00:32,240 --> 01:00:29,369

they're made of that doesn't mean you

1285

01:00:34,820 --> 01:00:32,250

can duplicate them there's all kinds of

1286

01:00:38,360 --> 01:00:34,830

process that go into making advanced

1287

01:00:42,620 --> 01:00:38,370

materials if you look at jet engine

1288

01:00:47,000 --> 01:00:42,630

and Blaine's for example today those

1289

01:00:48,350 --> 01:00:47,010

materials are really exotic in terms of

1290

01:00:51,380 --> 01:00:48,360

their characteristics at high

1291

01:00:52,730 --> 01:00:51,390

temperature and pressure and there was

1292

01:00:56,210 --> 01:00:52,740

nobody in the world who could build

1293

01:00:59,210 --> 01:00:56,220

those back you know go back enough years

1294

01:01:01,280 --> 01:00:59,220

it takes a while to get to that point

1295

01:01:04,430 --> 01:01:01,290

advanced technology it doesn't come

1296

01:01:06,290 --> 01:01:04,440

cheap and it doesn't come rapidly you

1297

01:01:10,210 --> 01:01:06,300

can see that in all directions around I

1298

01:01:13,970 --> 01:01:10,220

mean if I told you that Moore's Law

1299

01:01:15,650 --> 01:01:13,980

Moore was a physicist who found it's

1300

01:01:18,980 --> 01:01:15,660

called as law because what he discovered

1301

01:01:21,650 --> 01:01:18,990

was that the number of transistors you

1302

01:01:24,500 --> 01:01:21,660

can put on the chip doubles about every

1303

01:01:26,930 --> 01:01:24,510

year or two that doesn't sound like much

1304

01:01:28,850 --> 01:01:26,940

until you say them oh you mean after 10

1305

01:01:33,230 --> 01:01:28,860

years you got 2 times 2 times 2 times

1306

01:01:37,040 --> 01:01:33,240

you know right Wow and that doesn't come

1307

01:01:40,400 --> 01:01:37,050

easy and you don't publicize how you do

1308

01:01:42,340 --> 01:01:40,410

it because you've got competitors out

1309

01:01:44,990 --> 01:01:42,350

there and you've got enemies out there

1310

01:01:48,920 --> 01:01:45,000

so there's all kinds of work going on

1311

01:01:52,760 --> 01:01:48,930

and as I say this work isn't cheap and

1312

01:01:54,500 --> 01:01:52,770

it isn't fast and you got to be

1313

01:01:58,910 --> 01:01:54,510

persistent somebody's got to pay the

1314

01:02:01,100 --> 01:01:58,920

freight I was in that business and it be

1315

01:02:03,340 --> 01:02:01,110

amazed that the National Laboratories

1316

01:02:08,360 --> 01:02:03,350

I've been the ocher inch in Los Alamos

1317

01:02:10,370 --> 01:02:08,370

and several other places and all kinds

1318

01:02:15,650 --> 01:02:10,380

of great work going on and secret at

1319

01:02:17,900 --> 01:02:15,660

these places but it takes money and at

1320

01:02:19,430 --> 01:02:17,910

least if it's a straight private sector

1321

01:02:26,360 --> 01:02:19,440

initiative they've got to see some

1322

01:02:28,160 --> 01:02:26,370

profit in it too yeah I'd like to be

1323

01:02:31,220 --> 01:02:28,170

able to build more stuff like this now

1324

01:02:32,900 --> 01:02:31,230

remember there's a cross factor if

1325

01:02:34,490 --> 01:02:32,910

you're building jet engine turbine

1326

01:02:37,520 --> 01:02:34,500

blades you really don't care how much

1327

01:02:39,140 --> 01:02:37,530

they cost if you can build a plane

1328

01:02:41,630 --> 01:02:39,150

that'll or an engine that's more

1329

01:02:44,060 --> 01:02:41,640

powerful than the other guys and can

1330

01:02:46,790 --> 01:02:44,070

allow you to go 50 percent faster than

1331

01:02:49,860 --> 01:02:46,800

the other guy that's worth enormous

1332

01:02:51,150 --> 01:02:49,870

amount of time money effort

1333

01:02:55,200 --> 01:02:51,160

you know we're not talking about it as a

1334

01:02:59,310 --> 01:02:55,210

2% improvement the real world out there

1335

01:03:01,950 --> 01:02:59,320

is a strange place circling back to

1336

01:03:04,980 --> 01:03:01,960

Roswell by most accounts said the ship

1337

01:03:06,390 --> 01:03:04,990

itself was wouldn't be described as a

1338

01:03:07,590 --> 01:03:06,400

motherhip by any stretch of the

1339

01:03:10,230 --> 01:03:07,600

imagination no

1340

01:03:13,970 --> 01:03:10,240

any thoughts on your part as to whether

1341

01:03:16,290 --> 01:03:13,980

these types of relatively small ships

1342

01:03:19,860 --> 01:03:16,300

considering a the distances need to be

1343

01:03:22,650 --> 01:03:19,870

covered are they coming each individual

1344

01:03:25,470 --> 01:03:22,660

time directly from another star system

1345

01:03:30,600 --> 01:03:25,480

or you think they have relatively close

1346

01:03:32,100 --> 01:03:30,610

by bases mother my mother ships in there

1347

01:03:34,830 --> 01:03:32,110

they're sort of in the neighborhood and

1348

01:03:36,870 --> 01:03:34,840

then they drop essentially a little

1349

01:03:40,620 --> 01:03:36,880

Scout ships out of them that's your

1350

01:03:42,750 --> 01:03:40,630

theory well or a dozen of them yeah look

1351

01:03:45,000 --> 01:03:42,760

we have aircraft carriers that can

1352

01:03:47,850 --> 01:03:45,010

operate as I said for 18 years without

1353

01:03:49,680 --> 01:03:47,860

refueling they carry about 75 little

1354

01:03:51,780 --> 01:03:49,690

airplanes I can operate for two hours

1355

01:03:54,150 --> 01:03:51,790

without refueling they don't work the

1356

01:03:56,670 --> 01:03:54,160

same way in other words getting here

1357

01:03:59,520 --> 01:03:56,680

from another star is an entirely

1358

01:04:01,200 --> 01:03:59,530

different problem then once you're in

1359

01:04:03,840 --> 01:04:01,210

the atmosphere is zipping around in the

1360

01:04:05,670 --> 01:04:03,850

atmosphere we've got air to create drag

1361

01:04:08,970 --> 01:04:05,680

and heating and all that sort of thing

1362

01:04:11,550 --> 01:04:08,980

they're two different problems okay and

1363

01:04:16,130 --> 01:04:11,560

so we got mother ships and we got earth

1364

01:04:19,830 --> 01:04:16,140

excursion modules as I prefer to call em

1365

01:04:21,390 --> 01:04:19,840

and it makes sense is what I'm saying

1366

01:04:24,390 --> 01:04:21,400

there's nothing surprising about that

1367

01:04:26,460 --> 01:04:24,400

okay not much going on between the stars

1368

01:04:28,170 --> 01:04:26,470

but when you're in the atmosphere and

1369

01:04:31,350 --> 01:04:28,180

you got to worry about heating and drag

1370

01:04:32,790 --> 01:04:31,360

and radar profile and plasmas and all

1371

01:04:38,820 --> 01:04:32,800

kinds of stuff that's another ballgame

1372

01:04:40,170 --> 01:04:38,830

and incidentally way back in 1919 62

1373

01:04:43,140 --> 01:04:40,180

makes me feel old

1374

01:04:46,770 --> 01:04:43,150

worked on fusion propulsion systems for

1375

01:04:48,720 --> 01:04:46,780

deep space travel and a conversion of

1376

01:04:50,340 --> 01:04:48,730

our study which was headed by the guy

1377

01:04:52,140 --> 01:04:50,350

who had headed the fusion research at

1378

01:04:55,170 --> 01:04:52,150

Oak Ridge National Laboratory John Lewis

1379

01:04:59,640 --> 01:04:55,180

brilliant man I'm probably smartest guy

1380

01:05:02,220 --> 01:04:59,650

I ever worked for the conclusion of our

1381

01:05:03,180 --> 01:05:02,230

study we only spent nine million dollars

1382

01:05:06,510 --> 01:05:03,190

on the study

1383

01:05:09,359 --> 01:05:06,520

you couldn't build anything was that if

1384

01:05:14,910 --> 01:05:09,369

you want to go oh it takes us dough a

1385

01:05:17,190 --> 01:05:14,920

lot of it well I mean that's the thing

1386

01:05:19,290 --> 01:05:17,200

you have to be concerned about it's not

1387

01:05:22,170 --> 01:05:19,300

six professors sitting around the table

1388

01:05:25,950 --> 01:05:22,180

with eight grad students oh I'll get

1389

01:05:30,690 --> 01:05:25,960

this done next month guys I like I said

1390

01:05:33,980 --> 01:05:30,700

that Gea NP we employed 3,500 people of

1391

01:05:36,390 --> 01:05:33,990

whom 1,100 or engineers and scientists

1392

01:05:38,569 --> 01:05:36,400

and spent a hundred million dollars in

1393

01:05:43,349 --> 01:05:38,579

one year in 1958

1394

01:05:45,180 --> 01:05:43,359

so it you need some idea of the scope of

1395

01:05:45,900 --> 01:05:45,190

the project there's one thing to say can

1396

01:05:48,750 --> 01:05:45,910

you do it

1397

01:05:50,599 --> 01:05:48,760

another is uh how much the kind of cost

1398

01:05:54,750 --> 01:05:50,609

and how many people are gonna need

1399

01:05:57,990 --> 01:05:54,760

that's a different sort of question got

1400

01:06:01,589 --> 01:05:58,000

it okay James ever and he follow-ups for

1401

01:06:03,780 --> 01:06:01,599

mr. Friedman oh yeah I just want to make

1402

01:06:06,720 --> 01:06:03,790

a small comment on the metamaterials I'm

1403

01:06:10,640 --> 01:06:06,730

also aside from some of the stuff that

1404

01:06:15,150 --> 01:06:10,650

was mentioned by Jacques belay that

1405

01:06:19,200 --> 01:06:15,160

it seemed that you know Jeremy corbels

1406

01:06:23,460 --> 01:06:19,210

alluding to the idea that the patients

1407

01:06:25,410 --> 01:06:23,470

that Roger Leir were working with and in

1408

01:06:27,540 --> 01:06:25,420

his movie that he put our patients

1409

01:06:35,180 --> 01:06:27,550

seventeen that those implants were also

1410

01:06:37,200 --> 01:06:35,190

had the elements in the in the alleged

1411

01:06:39,960 --> 01:06:37,210

implants from these people who were

1412

01:06:43,559 --> 01:06:39,970

claiming abduction were had had these

1413

01:06:45,210 --> 01:06:43,569

anomalous isotopes so that I just wanted

1414

01:06:48,990 --> 01:06:45,220

to add that comment in there and and

1415

01:06:50,849 --> 01:06:49,000

also in his upcoming film hunt for the

1416

01:06:54,059 --> 01:06:50,859

skinwalker about skinwalker ranch I

1417

01:06:55,380 --> 01:06:54,069

think he also alluded to that some meta

1418

01:07:00,079 --> 01:06:55,390

materials might have been recovered

1419

01:07:03,480 --> 01:07:00,089

around there but getting back to the the

1420

01:07:05,250 --> 01:07:03,490

extra-terrestrial hypothesis you know I

1421

01:07:07,710 --> 01:07:05,260

know stand that you were very strong

1422

01:07:10,130 --> 01:07:07,720

about that idea that these are learn

1423

01:07:13,410 --> 01:07:10,140

fact aliens and extraterrestrials and

1424

01:07:15,000 --> 01:07:13,420

and you know possibly other things but

1425

01:07:16,950 --> 01:07:15,010

for certain that there are is the

1426

01:07:21,050 --> 01:07:16,960

extraterrestrial element would you

1427

01:07:23,970 --> 01:07:21,060

think that there are there purposes here

1428

01:07:27,450 --> 01:07:23,980

one of my papers that I think I listed

1429

01:07:30,810 --> 01:07:27,460

20 reasons for coming here one of those

1430

01:07:33,120 --> 01:07:30,820

is to keep us from going out there we're

1431

01:07:36,480 --> 01:07:33,130

a primitive society whose major activity

1432

01:07:39,000 --> 01:07:36,490

is tribal warfare we are a threat to the

1433

01:07:42,000 --> 01:07:39,010

neighborhood sit back a little bit

1434

01:07:44,220 --> 01:07:42,010

we have exploded 2000 nuclear weapons

1435

01:07:46,260 --> 01:07:44,230

once you've figured out fishing in

1436

01:07:50,280 --> 01:07:46,270

fusion you can go to bother your

1437

01:07:55,530 --> 01:07:50,290

neighbors look at the progression it's a

1438

01:07:58,680 --> 01:07:55,540

huge progression a big bomb in 1944 was

1439

01:08:01,079 --> 01:07:58,690

a 10 ton blockbuster Wow release the

1440

01:08:03,290 --> 01:08:01,089

energy of 10 tons of dynamite one bomb

1441

01:08:08,880 --> 01:08:03,300

and it took a bigger plane to carry it

1442

01:08:13,260 --> 01:08:08,890

1945 first fishing atomic bomb released

1443

01:08:16,440 --> 01:08:13,270

the energy of 15,000 tons of dynamite so

1444

01:08:21,420 --> 01:08:16,450

you go from 10 to 15,000 our first

1445

01:08:25,979 --> 01:08:21,430

h-bomb of fusion device 1952 first a

1446

01:08:30,510 --> 01:08:25,989

bomb is 45 1952 our first fusion device

1447

01:08:35,099 --> 01:08:30,520

released the energy of 10 million tons

1448

01:08:41,670 --> 01:08:35,109

of dynamite one stinkin weapon and the

1449

01:08:45,599 --> 01:08:41,680

Russians in about 1960 or so set off

1450

01:08:51,390 --> 01:08:45,609

I don't know Alice if it exploded Tsar

1451

01:08:53,900 --> 01:08:51,400

Bomba 50 million tons of TNT that's how

1452

01:08:57,959 --> 01:08:53,910

much energy was released with that one

1453

01:09:00,360 --> 01:08:57,969

weapon and you see as soon as you get to

1454

01:09:03,360 --> 01:09:00,370

talking about that kinds of energy then

1455

01:09:03,990 --> 01:09:03,370

the stars are within reached the same is

1456

01:09:06,030 --> 01:09:04,000

cheap

1457

01:09:09,019 --> 01:09:06,040

you don't go down to the Walmarts and

1458

01:09:12,749 --> 01:09:09,029

yeah I need to fusion devices please

1459

01:09:15,570 --> 01:09:12,759

but it becomes feasible and then we

1460

01:09:17,490 --> 01:09:15,580

haven't been at it that long so

1461

01:09:19,620 --> 01:09:17,500

everybody out there knows these idiots

1462

01:09:23,490 --> 01:09:19,630

on earth or a threat to the neighborhood

1463

01:09:28,380 --> 01:09:23,500

I say threat I don't like the idea we

1464

01:09:30,390 --> 01:09:28,390

Earthlings killed 250 million people in

1465

01:09:35,800 --> 01:09:30,400

World War 2

1466

01:09:37,270 --> 01:09:35,810

50 million people we're not nice guys so

1467

01:09:39,220 --> 01:09:37,280

that's the first thing they want to keep

1468

01:09:41,260 --> 01:09:39,230

us from going out there secondly they

1469

01:09:43,600 --> 01:09:41,270

want to know how rapidly we are

1470

01:09:44,800 --> 01:09:43,610

advancing third they want to know if

1471

01:09:46,450 --> 01:09:44,810

there are goodies here that they can

1472

01:09:50,140 --> 01:09:46,460

steal from here that are depleted

1473

01:09:51,790 --> 01:09:50,150

elsewhere you know it's not just uranium

1474

01:09:55,270 --> 01:09:51,800

that's interesting you know that was

1475

01:09:57,070 --> 01:09:55,280

used as a coloring agent back under tear

1476

01:09:58,780 --> 01:09:57,080

sicko certainly had nothing to do with

1477

01:10:05,710 --> 01:09:58,790

atomic energy we didn't know anything

1478

01:10:09,900 --> 01:10:05,720

about it sonic energy so the earth maybe

1479

01:10:13,150 --> 01:10:09,910

somebody's colony maybe somebody's crop

1480

01:10:14,590 --> 01:10:13,160

we may have been planted here yeah penal

1481

01:10:18,370 --> 01:10:14,600

colony you know they dumped all the bad

1482

01:10:20,380 --> 01:10:18,380

boys and grocery that's why we but you

1483

01:10:23,290 --> 01:10:20,390

know you don't have to look for to find

1484

01:10:24,880 --> 01:10:23,300

reasons why anybody would want to come

1485

01:10:26,650 --> 01:10:24,890

here graduate students doing your thesis

1486

01:10:30,480 --> 01:10:26,660

research on the development of a

1487

01:10:34,330 --> 01:10:30,490

primitive society and we are a primitive

1488

01:10:36,940 --> 01:10:34,340

Society finding out if we've learned any

1489

01:10:39,730 --> 01:10:36,950

they're looking for certain kinds of DNA

1490

01:10:44,290 --> 01:10:39,740

pick up a thousand specimens and maybe

1491

01:10:46,210 --> 01:10:44,300

to have oh look what we found and I say

1492

01:10:49,210 --> 01:10:46,220

that because we know that we're often

1493

01:10:52,960 --> 01:10:49,220

looking for the unusual the small

1494

01:10:56,170 --> 01:10:52,970

percentage of what is that and what does

1495

01:11:01,720 --> 01:10:56,180

it do when we put it into some other

1496

01:11:05,260 --> 01:11:01,730

material so I think they may be checking

1497

01:11:07,300 --> 01:11:05,270

on their own colonies of course and

1498

01:11:10,540 --> 01:11:07,310

they're getting ready to work a deal or

1499

01:11:12,160 --> 01:11:10,550

their you know aliens are buying with

1500

01:11:17,490 --> 01:11:12,170

each other how can we get these idiots

1501

01:11:20,110 --> 01:11:17,500

on our side we need a bad side

1502

01:11:22,480 --> 01:11:20,120

look look at all the reasons the guys

1503

01:11:24,520 --> 01:11:22,490

across the ocean back a few hundred

1504

01:11:28,570 --> 01:11:24,530

years ago yeah why don't we looking for

1505

01:11:29,680 --> 01:11:28,580

gold so we're looking for slaves you

1506

01:11:32,110 --> 01:11:29,690

know and there are plenty of other

1507

01:11:37,420 --> 01:11:32,120

things potatoes came out of the New

1508

01:11:43,400 --> 01:11:37,430

World and they well you know potatoes

1509

01:11:51,860 --> 01:11:48,200

now doubling back here on the some of

1510

01:11:53,590 --> 01:11:51,870

the recent news it seems that pretty

1511

01:11:56,750 --> 01:11:53,600

clear that even though they keep

1512

01:11:58,970 --> 01:11:56,760

generally a pretty low profile there are

1513

01:12:01,310 --> 01:11:58,980

a fair number of a scientists working

1514

01:12:03,140 --> 01:12:01,320

scientists who are interested in this

1515

01:12:06,800 --> 01:12:03,150

subject and they have done a few things

1516

01:12:08,420 --> 01:12:06,810

in the field Jacques Vallee wrote a book

1517

01:12:12,320 --> 01:12:08,430

a few years ago called the invisible

1518

01:12:14,690 --> 01:12:12,330

college and basically there are these

1519

01:12:17,030 --> 01:12:14,700

guys who for years even though they like

1520

01:12:20,420 --> 01:12:17,040

I said they do keep a low profile who

1521

01:12:22,520 --> 01:12:20,430

have had some interest on at least some

1522

01:12:23,930 --> 01:12:22,530

research on the subject have you ever

1523

01:12:27,050 --> 01:12:23,940

been in contact with any of those

1524

01:12:29,210 --> 01:12:27,060

fellows do you have a list of guys who

1525

01:12:30,920 --> 01:12:29,220

say yes that keep my name out of this

1526

01:12:31,880 --> 01:12:30,930

but I've got something for you or

1527

01:12:35,360 --> 01:12:31,890

vice-versa

1528

01:12:38,210 --> 01:12:35,370

well that occasionally happens remember

1529

01:12:42,020 --> 01:12:38,220

I worked under security for 14 years

1530

01:12:45,590 --> 01:12:42,030

jock didn't so I had some insiders

1531

01:12:48,740 --> 01:12:45,600

situations and at four or five different

1532

01:12:50,060 --> 01:12:48,750

companies not exactly proud of that but

1533

01:12:56,510 --> 01:12:50,070

at least I was able to get a job when

1534

01:12:57,920 --> 01:12:56,520

the program ended so yeah we talk to

1535

01:13:00,620 --> 01:12:57,930

each other there are different

1536

01:13:04,010 --> 01:13:00,630

backgrounds different people and not

1537

01:13:05,780 --> 01:13:04,020

many of them around I do one of the

1538

01:13:07,700 --> 01:13:05,790

people I respect the most is dr. Bruce

1539

01:13:10,100 --> 01:13:07,710

Maccabee for example an optical

1540

01:13:11,860 --> 01:13:10,110

physicist who worked at Navy research

1541

01:13:15,850 --> 01:13:11,870

lab for over 30 years

1542

01:13:18,590 --> 01:13:15,860

under security and he sent some

1543

01:13:20,950 --> 01:13:18,600

interesting work on electromagnetic

1544

01:13:23,690 --> 01:13:20,960

effects and all that sort of stuff I

1545

01:13:28,460 --> 01:13:23,700

there aren't too many like that that we

1546

01:13:31,520 --> 01:13:28,470

know about but these guys come out from

1547

01:13:33,620 --> 01:13:31,530

under Bruce's uh dr. Maccabees pretty

1548

01:13:35,570 --> 01:13:33,630

upfront and he's a very public about his

1549

01:13:39,320 --> 01:13:35,580

interest but it does seem like they're

1550

01:13:41,600 --> 01:13:39,330

at least a few others that have kept

1551

01:13:43,730 --> 01:13:41,610

that low profile they pretty much

1552

01:13:45,500 --> 01:13:43,740

under the radar but they have been

1553

01:13:48,080 --> 01:13:45,510

helpful at times at least in your case

1554

01:13:49,810 --> 01:13:48,090

yeah I'd say so and it's good to have

1555

01:13:53,180 --> 01:13:49,820

somebody to talk to

1556

01:13:57,670 --> 01:13:53,190

look the boundaries between classified

1557

01:14:04,100 --> 01:14:01,280

Mattel me all this guy well day 12 I've

1558

01:14:06,800 --> 01:14:04,110

written a whole book on top-secret magic

1559

01:14:08,660 --> 01:14:06,810

Maj I see about these this group set up

1560

01:14:12,320 --> 01:14:08,670

by prison and crewmen and some people

1561

01:14:17,180 --> 01:14:12,330

you know that that's all phony it isn't

1562

01:14:18,830 --> 01:14:17,190

phony they see those guys would have

1563

01:14:20,750 --> 01:14:18,840

told their wives what they were doing of

1564

01:14:21,980 --> 01:14:20,760

course they wouldn't no they wouldn't

1565

01:14:23,240 --> 01:14:21,990

have done that I've talked to enough

1566

01:14:25,460 --> 01:14:23,250

people who've confirmed that

1567

01:14:27,680 --> 01:14:25,470

yeah I mean I I never told my wife

1568

01:14:29,090 --> 01:14:27,690

anything classified we breaking the law

1569

01:14:31,880 --> 01:14:29,100

for one thing she doesn't have a

1570

01:14:34,280 --> 01:14:31,890

clearance or I need to know those are

1571

01:14:38,240 --> 01:14:34,290

the two vital parts curiosity isn't

1572

01:14:39,500 --> 01:14:38,250

enough a lot of people think well surely

1573

01:14:46,490 --> 01:14:39,510

they would have told this guy or that

1574

01:14:49,880 --> 01:14:46,500

guy that's not how the system works I've

1575

01:14:52,550 --> 01:14:49,890

got one final question on my end I I do

1576

01:14:54,830 --> 01:14:52,560

follow the the seti type research the

1577

01:14:56,570 --> 01:14:54,840

exoplanet hunters and all that and the

1578

01:14:58,760 --> 01:14:56,580

one guy whose name comes up on a pretty

1579

01:15:02,120 --> 01:14:58,770

regular basis a fellow named Abraham

1580

01:15:04,550 --> 01:15:02,130

Loeb out of Harvard and he had written a

1581

01:15:05,750 --> 01:15:04,560

rather interesting article I thought it

1582

01:15:08,120 --> 01:15:05,760

was interesting because I thought I had

1583

01:15:10,400 --> 01:15:08,130

a direct connection with UFOs where he

1584

01:15:13,280 --> 01:15:10,410

was talking about this this exoplanet

1585

01:15:16,430 --> 01:15:13,290

study is going to be a little tricky for

1586

01:15:19,390 --> 01:15:16,440

the simple reason that there really is

1587

01:15:21,290 --> 01:15:19,400

never going to be an exoplanet a

1588

01:15:25,210 --> 01:15:21,300

discipline that it's going to take

1589

01:15:28,070 --> 01:15:25,220

multiple disciplines chemists physicists

1590

01:15:30,200 --> 01:15:28,080

all manner of different scientists to

1591

01:15:32,930 --> 01:15:30,210

really get a good grip on this subject

1592

01:15:34,820 --> 01:15:32,940

and I see the same sort of thing in the

1593

01:15:36,230 --> 01:15:34,830

UFO research field you've got somebody

1594

01:15:38,000 --> 01:15:36,240

like you coming from a physics

1595

01:15:39,920 --> 01:15:38,010

background well that's and you've made

1596

01:15:41,420 --> 01:15:39,930

your contributions that's great but I

1597

01:15:43,220 --> 01:15:41,430

want to contribute to I'm not a

1598

01:15:44,660 --> 01:15:43,230

physicist but I'd like to think that

1599

01:15:47,360 --> 01:15:44,670

I've turned up a few things here and

1600

01:15:49,610 --> 01:15:47,370

there that are interesting and I've

1601  
01:15:52,130 --> 01:15:49,620  
helped in my own way James helps in his

1602  
01:15:54,440 --> 01:15:52,140  
own way lots of people come to the field

1603  
01:15:57,020 --> 01:15:54,450  
from different backgrounds have skill

1604  
01:16:00,560 --> 01:15:57,030  
sets knowledge bases that can help out

1605  
01:16:02,839 --> 01:16:00,570  
to some extent and if you could

1606  
01:16:05,660 --> 01:16:02,849  
send us off you know you said you're

1607  
01:16:07,399 --> 01:16:05,670  
wrapping things up give us all a good

1608  
01:16:10,939 --> 01:16:07,409  
pep talk about what we can do with this

1609  
01:16:12,740 --> 01:16:10,949  
very exciting field going forward well a

1610  
01:16:15,740 --> 01:16:12,750  
lot of things we can do one of them is

1611  
01:16:20,689 --> 01:16:15,750  
to develop new technology to is to

1612  
01:16:23,240 --> 01:16:20,699  
recognize openly many people recognize

1613  
01:16:24,770 --> 01:16:23,250

it but not openly that indeed the planet

1614

01:16:26,509 --> 01:16:24,780

is being visited and that has some

1615

01:16:28,459 --> 01:16:26,519

implications what do they know that we

1616

01:16:29,959 --> 01:16:28,469

don't know whether the government's know

1617

01:16:32,540 --> 01:16:29,969

that we don't know what are these guys

1618

01:16:34,520 --> 01:16:32,550

intend here they're going to gather data

1619

01:16:37,189 --> 01:16:34,530

and say the heck with these idiots and

1620

01:16:39,109 --> 01:16:37,199

wipe us out who knows what their

1621

01:16:41,950 --> 01:16:39,119

intentions are I don't certainly don't

1622

01:16:46,060 --> 01:16:41,960

know I think these are areas of

1623

01:16:48,140 --> 01:16:46,070

considerable interest but remembered

1624

01:16:50,089 --> 01:16:48,150

governments don't want to tell anybody

1625

01:16:52,609 --> 01:16:50,099

else anything new that they've learned

1626

01:16:56,450 --> 01:16:52,619

because it has potential implications

1627

01:16:58,790 --> 01:16:56,460

for national security to say that you've

1628

01:17:01,750 --> 01:16:58,800

just found a new material that'll do a V

1629

01:17:04,209 --> 01:17:01,760

and C you don't put that out in the open

1630

01:17:07,220 --> 01:17:04,219

because of the potential military

1631

01:17:09,620 --> 01:17:07,230

applications and the military budget on

1632

01:17:13,129 --> 01:17:09,630

the planet is about a trillion dollars

1633

01:17:15,830 --> 01:17:13,139

this year that's a crime as far as I'm

1634

01:17:20,810 --> 01:17:15,840

concerned I got plenty of starving kids

1635

01:17:24,799 --> 01:17:20,820

we should feed them so you know we live

1636

01:17:26,660 --> 01:17:24,809

in a peculiar world one of their I don't

1637

01:17:29,060 --> 01:17:26,670

know what the last count is 190

1638

01:17:32,540 --> 01:17:29,070

different countries we don't have an

1639

01:17:36,919 --> 01:17:32,550

Earthling Society we have a whole bunch

1640

01:17:39,080 --> 01:17:36,929

of different nationalistic groups so we

1641

01:17:40,790 --> 01:17:39,090

got a lot to learn and I'm sure one of

1642

01:17:42,799 --> 01:17:40,800

the groups coming here must be

1643

01:17:45,049 --> 01:17:42,809

historians trying to figure out of these

1644

01:17:47,600 --> 01:17:45,059

idiots keep up this crazy approach they

1645

01:17:49,580 --> 01:17:47,610

live on a small planet got all kinds of

1646

01:17:50,990 --> 01:17:49,590

goodies and they're keeping a secret

1647

01:17:52,759 --> 01:17:51,000

from each other and they're all working

1648

01:17:56,240 --> 01:17:52,769

separately in their big klinger's

1649

01:18:03,109 --> 01:17:56,250

military these guys you're nuts that's

1650

01:18:04,490 --> 01:18:03,119

why I say this was a penal colony in

1651

01:18:07,399 --> 01:18:04,500

other words when you stand back and look

1652

01:18:09,680 --> 01:18:07,409

at this thing it's a there are a lot of

1653

01:18:13,430 --> 01:18:09,690

aspects that are very interesting and

1654

01:18:14,180 --> 01:18:13,440

very indicative of how little effort we

1655

01:18:17,150 --> 01:18:14,190

make

1656

01:18:19,130 --> 01:18:17,160

to act as people on a planet I'm an

1657

01:18:25,550 --> 01:18:19,140

earthling and you're in earthling I

1658

01:18:29,959 --> 01:18:25,560

think farsighted but you see my point

1659

01:18:33,410 --> 01:18:29,969

yeah that we're separated society we're

1660

01:18:36,320 --> 01:18:33,420

not a together society it's expensive

1661

01:18:38,090 --> 01:18:36,330

yeah just just as a little aside I've

1662

01:18:39,290 --> 01:18:38,100

sometimes I can be a bit of a date at

1663

01:18:41,660 --> 01:18:39,300

night I don't know if you're familiar

1664

01:18:44,540 --> 01:18:41,670

with this or not but there the UN does a

1665

01:18:47,420 --> 01:18:44,550

study roughly every year where they pull

1666

01:18:50,330 --> 01:18:47,430

people in every country they can and

1667

01:18:51,530 --> 01:18:50,340

they have a Happiness ranking have you

1668

01:18:53,030 --> 01:18:51,540

ever seen that in the news they usually

1669

01:18:55,880 --> 01:18:53,040

give it a little bit of publicity each

1670

01:18:57,800 --> 01:18:55,890

year when it comes out well I I have

1671

01:18:59,510 --> 01:18:57,810

seen little herbs in the paper but I

1672

01:19:01,760 --> 01:18:59,520

haven't looked at the data okay it's

1673

01:19:03,439 --> 01:19:01,770

it's kind of interesting in that if you

1674

01:19:06,770 --> 01:19:03,449

look at the happiest countries in the

1675

01:19:10,790 --> 01:19:06,780

world what you find is they tend not to

1676

01:19:13,400 --> 01:19:10,800

have really large populations I thought

1677

01:19:15,979 --> 01:19:13,410

that was a really interesting a little

1678

01:19:18,680 --> 01:19:15,989

connection there that the larger

1679

01:19:22,100 --> 01:19:18,690

countries tend to be a little bit

1680

01:19:23,780 --> 01:19:22,110

further down so I do hear a lot of talk

1681

01:19:24,470 --> 01:19:23,790

about one-world government and things

1682

01:19:27,020 --> 01:19:24,480

like that

1683

01:19:29,090 --> 01:19:27,030

but it seems to me that maybe the the

1684

01:19:30,770 --> 01:19:29,100

largest governments in the world don't

1685

01:19:35,750 --> 01:19:30,780

keep their people very happy and that

1686

01:19:39,410 --> 01:19:35,760

may be a small area you know a less of a

1687

01:19:44,540 --> 01:19:39,420

smaller population to keep happy is an

1688

01:19:47,390 --> 01:19:44,550

easier job it could be I don't know well

1689

01:19:50,000 --> 01:19:47,400

I hope you're not giving anybody any

1690

01:19:51,320 --> 01:19:50,010

ideas you know well I just thought it

1691

01:19:55,520 --> 01:19:51,330

was interesting I just thought it was

1692

01:19:57,620 --> 01:19:55,530

interesting I was the US actually holds

1693

01:20:01,520 --> 01:19:57,630

up pretty well for such a large country

1694

01:20:03,500 --> 01:20:01,530

but we are not even close to the top 10

1695

01:20:05,840 --> 01:20:03,510

in terms of the world's happiest people

1696

01:20:08,030 --> 01:20:05,850

I Canada is by the way I notice you're

1697

01:20:09,920 --> 01:20:08,040

living up there but the population

1698

01:20:10,520 --> 01:20:09,930

scared is a lot less than it is in the

1699

01:20:16,070 --> 01:20:10,530

States

1700

01:20:18,560 --> 01:20:16,080

it's fewer people in California and the

1701

01:20:21,350 --> 01:20:18,570

the more people where you've got under

1702

01:20:24,050 --> 01:20:21,360

your government could be could be no

1703

01:20:26,950 --> 01:20:24,060

proof obviously but could be much more

1704

01:20:30,910 --> 01:20:26,960

difficult job governing so

1705

01:20:34,720 --> 01:20:30,920

surprise me yep okay so that's what I've

1706

01:20:36,490 --> 01:20:34,730

got one oh god yeah I just want very

1707

01:20:39,430 --> 01:20:36,500

briefly I want to I'm gonna throw two

1708

01:20:41,080 --> 01:20:39,440

names stand and if you wouldn't mind

1709

01:20:43,080 --> 01:20:41,090

just give him brief commentary I know

1710

01:20:45,610 --> 01:20:43,090

you've gone over one of the names before

1711

01:20:49,030 --> 01:20:45,620

I want to see if you--if you have any

1712

01:20:49,930 --> 01:20:49,040

idea changes order inside on that his

1713

01:20:51,400 --> 01:20:49,940

Bob Lazar

1714

01:20:53,200 --> 01:20:51,410

to this day because you know whose

1715

01:20:55,750 --> 01:20:53,210

stories resurfacing now there's there's

1716

01:20:58,030 --> 01:20:55,760

gonna be more publicity about that in

1717

01:21:02,050 --> 01:20:58,040

the coming months has any of your

1718

01:21:04,930 --> 01:21:02,060

previous commentary change on that no

1719

01:21:07,840 --> 01:21:04,940

he's a bright guy I don't deny that at

1720

01:21:10,570 --> 01:21:07,850

all all right he's not a scientist

1721

01:21:13,150 --> 01:21:10,580

he certainly lied about his academic

1722

01:21:17,709 --> 01:21:13,160

background he didn't go to MIT or to

1723

01:21:19,690 --> 01:21:17,719

Caltech and I don't believe his story

1724

01:21:22,270 --> 01:21:19,700

other than that he certainly is

1725

01:21:25,510 --> 01:21:22,280

interested in the subject and look

1726  
01:21:28,270 --> 01:21:25,520  
George Knapp and I are friends I would

1727  
01:21:30,400 --> 01:21:28,280  
say and I don't believe him about Lazar

1728  
01:21:32,440 --> 01:21:30,410  
and he knows where I stand he doesn't

1729  
01:21:34,330 --> 01:21:32,450  
believe bob has those degrees either but

1730  
01:21:35,950 --> 01:21:34,340  
I say once a guy starts lying about this

1731  
01:21:39,790 --> 01:21:35,960  
degrees why should I believe him about

1732  
01:21:42,459 --> 01:21:39,800  
anything else but you notice bob has not

1733  
01:21:46,240 --> 01:21:42,469  
published anything the scientists

1734  
01:21:49,450 --> 01:21:46,250  
normally publish papers they write books

1735  
01:21:52,810 --> 01:21:49,460  
they do all kinds of stuff and bob has

1736  
01:21:55,690 --> 01:21:52,820  
done none of those so he's got a story

1737  
01:21:58,630 --> 01:21:55,700  
to tell and he's a good storyteller and

1738  
01:22:00,400 --> 01:21:58,640

he's a bright guy I give him that but I

1739

01:22:02,050 --> 01:22:00,410

don't believe him that he had anything

1740

01:22:03,880 --> 01:22:02,060

to do with back-engineering flying

1741

01:22:08,890 --> 01:22:03,890

saucers why would he he's not a

1742

01:22:11,140 --> 01:22:08,900

scientist yeah that's fine so moving on

1743

01:22:13,780 --> 01:22:11,150

I know we have a friend Brian together

1744

01:22:16,450 --> 01:22:13,790

he has a youtube called post disclosure

1745

01:22:18,610 --> 01:22:16,460

world and he's also known as UFO Jesus

1746

01:22:20,560 --> 01:22:18,620

believed in hilarious guy great Channel

1747

01:22:22,750 --> 01:22:20,570

but I know he'd want me to ask this

1748

01:22:26,160 --> 01:22:22,760

question what do you think about the

1749

01:22:29,560 --> 01:22:26,170

Travis Walton case just briefly well I

1750

01:22:31,240 --> 01:22:29,570

met with Travis many many years ago and

1751

01:22:34,120 --> 01:22:31,250

I've been with him out where the event

1752

01:22:37,060 --> 01:22:34,130

took place I'm a fan of his we've done

1753

01:22:38,830 --> 01:22:37,070

programs together and he was surprised

1754

01:22:40,540 --> 01:22:38,840

that I stood behind him instead of

1755

01:22:40,899 --> 01:22:40,550

saying well I think he believes that

1756

01:22:44,379 --> 01:22:40,909

he's

1757

01:22:45,699 --> 01:22:44,389

the truth I say I believe him and he was

1758

01:22:48,250 --> 01:22:45,709

very pleased about that

1759

01:22:50,859 --> 01:22:48,260

I'm very favorably impressed with Travis

1760

01:22:54,159 --> 01:22:50,869

sure actually yes that was an excellent

1761

01:22:59,949 --> 01:22:54,169

case and Frank Frank touched on this

1762

01:23:02,290 --> 01:22:59,959

lately but just closing out here what do

1763

01:23:04,239 --> 01:23:02,300

you what do you think that going forward

1764

01:23:06,640 --> 01:23:04,249

what would you leave because you know of

1765

01:23:10,600 --> 01:23:06,650

course you're retiring soon god bless

1766

01:23:13,689 --> 01:23:10,610

you you know you had such a run that the

1767

01:23:16,959 --> 01:23:13,699

next generation of researchers can do in

1768

01:23:20,229 --> 01:23:16,969

the field of ufology to take this

1769

01:23:22,919 --> 01:23:20,239

forward well I think for one thing they

1770

01:23:26,580 --> 01:23:22,929

can become familiar I just looked at a

1771

01:23:29,649 --> 01:23:26,590

bibliography and there are dozens now of

1772

01:23:33,189 --> 01:23:29,659

PhD theses that people don't know about

1773

01:23:36,100 --> 01:23:33,199

done about UFOs they can become familiar

1774

01:23:38,560 --> 01:23:36,110

with the evidence instead of just

1775

01:23:39,909 --> 01:23:38,570

arguing theoretically about all I think

1776

01:23:41,859 --> 01:23:39,919

they're realer I don't think they're

1777

01:23:43,959 --> 01:23:41,869

real or you know why don't they do this

1778

01:23:46,779 --> 01:23:43,969

side of the other thing I think we could

1779

01:23:48,669 --> 01:23:46,789

do more information sharing I think we

1780

01:23:52,299 --> 01:23:48,679

could do more pressure on the government

1781

01:23:54,850 --> 01:23:52,309

I think that people need the scientists

1782

01:23:58,359 --> 01:23:54,860

need to have guts enough to study the

1783

01:24:00,250 --> 01:23:58,369

evidence instead of profound make

1784

01:24:01,290 --> 01:24:00,260

profound statements that have no basis

1785

01:24:04,270 --> 01:24:01,300

in fact

1786

01:24:07,029 --> 01:24:04,280

nasty noisy negativism is not a way to

1787

01:24:11,439 --> 01:24:07,039

be a scientist there's a lot of that

1788

01:24:15,399 --> 01:24:11,449

going on so I I think do your homework

1789

01:24:17,679 --> 01:24:15,409

is the first thing that I shock people

1790

01:24:20,620 --> 01:24:17,689

when you say there are PhD theses yeah

1791

01:24:23,290 --> 01:24:20,630

and in a book I wrote more than 10 years

1792

01:24:26,409 --> 01:24:23,300

ago I listed 10 of them and the number

1793

01:24:29,919 --> 01:24:26,419

is well up over 30 now don't tell me

1794

01:24:32,080 --> 01:24:29,929

there's no data do your homework that's

1795

01:24:33,729 --> 01:24:32,090

the big thing they can read my books

1796

01:24:35,620 --> 01:24:33,739

I've got six books out there I

1797

01:24:37,659 --> 01:24:35,630

autographed them all when I send them

1798

01:24:42,520 --> 01:24:37,669

out they're listed at my website triple

1799

01:24:45,459 --> 01:24:42,530

w dot Stanton Friedman calm no charge

1800

01:24:51,669 --> 01:24:48,640

but there is plenty of data that people

1801  
01:24:54,250 --> 01:24:51,679  
don't seem to be aware of and that's a

1802  
01:24:55,660 --> 01:24:54,260  
shame and if you're gonna have an

1803  
01:24:59,560 --> 01:24:55,670  
opinion about something as complicated

1804  
01:25:01,330 --> 01:24:59,570  
as this you should have the facts not

1805  
01:25:06,310 --> 01:25:01,340  
the maybes and the Possible's

1806  
01:25:08,590 --> 01:25:06,320  
the reality well in the description of

1807  
01:25:11,140 --> 01:25:08,600  
this video we will have the links to all

1808  
01:25:13,600 --> 01:25:11,150  
your books your website and and I'm

1809  
01:25:15,010 --> 01:25:13,610  
gonna hunt down some of the the PhD

1810  
01:25:16,740 --> 01:25:15,020  
thesis is that you're talking about as

1811  
01:25:19,810 --> 01:25:16,750  
well and try to include as much as that

1812  
01:25:21,310 --> 01:25:19,820  
so reg will be familiar with that and

1813  
01:25:23,919 --> 01:25:21,320

try to put it out there

1814

01:25:26,680 --> 01:25:23,929

but I just want to say again Stan thank

1815

01:25:29,830 --> 01:25:26,690

you so much for all the work you've done

1816

01:25:31,149 --> 01:25:29,840

in this field again like I over twenty

1817

01:25:34,600 --> 01:25:31,159

years ago when I was a kid watching on

1818

01:25:37,120 --> 01:25:34,610

you you on TV I never imagined that I'd

1819

01:25:38,410 --> 01:25:37,130

be sitting on the other side doing an

1820

01:25:41,140 --> 01:25:38,420

interview with you so that's just an

1821

01:25:50,880 --> 01:25:41,150

amazing to me that's you know that's I

1822

01:25:58,390 --> 01:25:56,740

this has been fantastic yeah I couldn't

1823

01:26:00,010 --> 01:25:58,400

I couldn't imagine that I'd be doing

1824

01:26:03,070 --> 01:26:00,020

this that you know that long ago

1825

01:26:05,410 --> 01:26:03,080

watching those programs on TV as a you

1826

01:26:08,950 --> 01:26:05,420

know in elementary school that you know

1827

01:26:12,130 --> 01:26:08,960

I'd be doing all this had no idea um so

1828

01:26:14,140 --> 01:26:12,140

it's it's been a complete honor you know

1829

01:26:15,959 --> 01:26:14,150

and I really congratulate you on

1830

01:26:19,030 --> 01:26:15,969

everything in that I hope that you have

1831

01:26:20,860 --> 01:26:19,040

an amazing retirement you deserve it I

1832

01:26:23,860 --> 01:26:20,870

mean you're a machine going at this so

1833

01:26:26,020 --> 01:26:23,870

hard for so long hahahahaha well you

1834

01:26:31,360 --> 01:26:26,030

know both my parents live to be 90 so I

1835

01:26:33,550 --> 01:26:31,370

got six years more to go I think my

1836

01:26:36,430 --> 01:26:33,560

understanding is it's a basically a

1837

01:26:38,800 --> 01:26:36,440

retirement from writing lecturing more

1838

01:26:40,180 --> 01:26:38,810

actively traveling around but you're

1839

01:26:42,760 --> 01:26:40,190

still going to be keeping an eye on

1840

01:26:45,700 --> 01:26:42,770

things is that correct oh yeah okay okay

1841

01:26:48,040 --> 01:26:45,710

so if something hot drops weed it's

1842

01:26:50,560 --> 01:26:48,050

certainly okay after July which is I

1843

01:26:52,870 --> 01:26:50,570

believe you last scheduled seminar

1844

01:26:55,300 --> 01:26:52,880

presentation you'd still be willing to

1845

01:26:57,300 --> 01:26:55,310

come back on with us and let us know

1846

01:27:00,260 --> 01:26:57,310

everything you think oh yeah

1847

01:27:01,980 --> 01:27:00,270

right yeah that's good to know all right

1848

01:27:04,620 --> 01:27:01,990

take it easy

1849

01:27:10,920 --> 01:27:04,630

Thank You Stanton Friedman thank you so

1850

01:27:13,320 --> 01:27:10,930

very much for joining us and James I

1851

01:27:15,420 --> 01:27:13,330

believe this was a very good interview

1852

01:27:18,630 --> 01:27:15,430

found out some very interesting things

1853

01:27:20,100 --> 01:27:18,640

that we didn't know about before and if

1854

01:27:22,740 --> 01:27:20,110

you have anything else before we wrap up

1855

01:27:24,390 --> 01:27:22,750

here that's about it I mean that was

1856

01:27:28,100 --> 01:27:24,400

excellent again it was you know honors

1857

01:27:30,450 --> 01:27:28,110

me to test and they were then and

1858

01:27:33,240 --> 01:27:30,460

delivered on the information to which is

1859

01:27:35,610 --> 01:27:33,250

the main thing yeah absolutely I was

1860

01:27:37,470 --> 01:27:35,620

glad to ask him about some of those some

1861

01:27:39,000 --> 01:27:37,480

of those things especially the Travis

1862

01:27:42,330 --> 01:27:39,010

Walton case and know he was so behind

1863

01:27:44,760 --> 01:27:42,340

that excellent ok so I will let you go

1864

01:27:47,310 --> 01:27:44,770

we will wrap up the show if you picked

1865

01:27:49,890 --> 01:27:47,320

it up midway through the full video

1866

01:27:52,860 --> 01:27:49,900

should be available and we will post the

1867

01:27:55,950 --> 01:27:52,870

link all over the place at Facebook

1868

01:27:57,210 --> 01:27:55,960

accounts and over a Twitter so you

1869

01:27:58,890 --> 01:27:57,220

should be able to pick it up from the

1870

01:28:01,080 --> 01:27:58,900

beginning and listen to it at your

1871

01:28:04,740 --> 01:28:01,090

convenience so everybody else you have a

1872

01:28:06,540 --> 01:28:04,750

great day and join us again we don't

1873

01:28:08,550 --> 01:28:06,550

have a show scheduled for next week our

1874

01:28:11,310 --> 01:28:08,560

original plan was to do seven shows

1875

01:28:13,140 --> 01:28:11,320

before Memorial Day this was our seventh

1876

01:28:15,810 --> 01:28:13,150

so we may or may not come up with

1877

01:28:17,640 --> 01:28:15,820

something next week and certainly a

1878

01:28:20,190 --> 01:28:17,650

Memorial Day weekend will be taking that

1879

01:28:22,530 --> 01:28:20,200

off so one way or the other will be

1880

01:28:24,900 --> 01:28:22,540

seeing you at the very least in June I

1881

01:28:28,200 --> 01:28:24,910

believe Chris Wolford is going to be

1882

01:28:30,840 --> 01:28:28,210

joining us talking about his experiences

1883

01:28:32,640 --> 01:28:30,850

he's an experimenter and also had some

1884

01:28:35,700 --> 01:28:32,650

experience in there dealing with the

1885

01:28:37,680 --> 01:28:35,710

KITT green that Gary Nolan's study of

1886

01:28:39,600 --> 01:28:37,690

experimenters so we'll be talking about

1887

01:28:42,420 --> 01:28:39,610

that and all sorts of detail we've also

1888

01:28:44,370 --> 01:28:42,430

got another Adam Dodd from the

1889

01:28:47,430 --> 01:28:44,380

University of Queensland coming on next

1890

01:28:49,920 --> 01:28:47,440

month talking about scientists and UFOs

1891

01:28:52,410 --> 01:28:49,930

and later in the month that we've got

1892

01:28:55,200 --> 01:28:52,420

dr. Lyn khatai scheduled to talk about

1893

01:28:57,740 --> 01:28:55,210

the Phoenix lights incident yeah and I

1894

01:29:00,510 --> 01:28:57,750

think we might we might have another

1895

01:29:02,490 --> 01:29:00,520

midweek one coming up so we might

1896

01:29:05,130 --> 01:29:02,500

surprise you guys all right and I also

1897

01:29:06,690 --> 01:29:05,140

wanted to say you know happy Mother's

1898

01:29:09,360 --> 01:29:06,700

Day to all the mothers out there we love

1899

01:29:11,640 --> 01:29:09,370

you mom any of this without you you know

1900

01:29:12,810 --> 01:29:11,650

we need the mothers

1901

01:29:14,100 --> 01:29:12,820

I just wanted to put that out there

1902

01:29:16,920 --> 01:29:14,110

there we go

1903

01:29:19,080 --> 01:29:16,930

all righty and that's about it on my end

1904

01:29:19,800 --> 01:29:19,090

you have anything else James no that's

1905

01:29:21,840 --> 01:29:19,810

it I got it

1906

01:29:23,820 --> 01:29:21,850

all right have a great day everybody my
