UFONN
SUNDAY

1
00:01:21,650 --> 00:00:28,580

[Music]

2
00:01:24,690 --> 00:01:21,660

and good morning from Philadelphia and

3
00:01:27,420 --> 00:01:24,700

morning from West us in New York this is

4
00:01:30,000 --> 00:01:27,430

a UFO News Network Sunday I'm Frank

5
00:01:32,990 --> 00:01:30,010

James up in the Westchester today with

6
00:01:36,150 --> 00:01:33,000

us we've got ap alien protocols

7
00:01:37,940 --> 00:01:36,160

discussing some of his work doing some

8
00:01:40,770 --> 00:01:37,950

direct contact work with our

9
00:01:43,080 --> 00:01:40,780

extraterrestrial friends and welcome

10
00:01:45,870 --> 00:01:43,090

aboard thank you guys thanks so much for

11
00:01:51,480 --> 00:01:45,880

having us when I say us I mean my

12
00:01:56,330 --> 00:01:51,490

multiple personalities okay sorry James

13
00:01:59,040 --> 00:01:56,340

take it away so I'm sure many people

14

00:02:01,290 --> 00:01:59,050

especially if you're on the contact' end

15

00:02:04,410 --> 00:02:01,300

of your college if you want to call it

16

00:02:05,520 --> 00:02:04,420

that have have seen buddy come up or you

17

00:02:09,870 --> 00:02:05,530

know people who've been following you

18

00:02:12,570 --> 00:02:09,880

especially grant cameras research ap

19

00:02:15,030 --> 00:02:12,580

made an appearance on Grant cameras

20

00:02:18,630 --> 00:02:15,040

channel um that was with some pretty

21

00:02:21,930 --> 00:02:18,640

pretty remarkable claims and and ideas

22

00:02:23,430 --> 00:02:21,940

about contact and and yeah I want to say

23

00:02:24,750 --> 00:02:23,440

everything you oppose especially when

24

00:02:35,069 --> 00:02:24,760

you get into the high strangeness stuff

25

00:02:38,729 --> 00:02:35,079

so alien protocols is a I want to say

26

00:02:42,090 --> 00:02:38,739

it's almost similar to to see SETI and

27

00:02:44,160 --> 00:02:42,100

Rama but not so much AP and you're in

28

00:02:47,310 --> 00:02:44,170

your own words what what makes alien

29

00:02:48,300 --> 00:02:47,320

protocols new and refreshing and

30

00:02:50,819 --> 00:02:48,310

different from some of the other

31

00:02:53,729 --> 00:02:50,829

projects that have come before well

32

00:02:55,289 --> 00:02:53,739

we're uh I've started as a group of

33

00:02:57,440 --> 00:02:55,299

experiencers who got together to

34

00:03:00,030 --> 00:02:57,450

experiment on different techniques and

35

00:03:02,539 --> 00:03:00,040

with the initial C 5 stuff and other

36

00:03:06,030 --> 00:03:02,549

techniques and suspicions we've had and

37

00:03:07,979 --> 00:03:06,040

have grown over the years and so there's

38

00:03:10,410 --> 00:03:07,989

two levels to it one is there is a group

39

00:03:14,100 --> 00:03:10,420

that has kind of gotten together and

40

00:03:16,470 --> 00:03:14,110

shares insights and knowledge and then

41

00:03:19,650 --> 00:03:16,480

we created this project and it's the

42

00:03:21,750 --> 00:03:19,660

advanced protocols data project and the

43

00:03:23,789 --> 00:03:21,760

idea is to get you know we've

44

00:03:25,770 --> 00:03:23,799

accumulated videos and pictures of neat

45

00:03:28,559 --> 00:03:25,780

stuff we've been a part of but we know

46

00:03:30,410 --> 00:03:28,569

how that is you know pictures and

47

00:03:32,819 --> 00:03:30,420

are interpreted as pictures and videos

48

00:03:37,410 --> 00:03:32,829

but if we're able to use the power of

49

00:03:39,479 --> 00:03:37,420

meditation and you fo see five groups

50

00:03:41,720 --> 00:03:39,489

from around the world to concentrate on

51
00:03:44,429 --> 00:03:41,730
several different UFO hot spots and

52
00:03:46,440 --> 00:03:44,439
simultaneously bring them scientific

53
00:03:49,319 --> 00:03:46,450
equipment and multiple different types

54
00:03:51,119 --> 00:03:49,329
of cameras to the same event if you're

55
00:03:52,470 --> 00:03:51,129
able to capture an event with multiple

56
00:03:56,039 --> 00:03:52,480
different types of cameras and

57
00:03:57,690 --> 00:03:56,049
scientific equipment it brings the level

58
00:04:00,539 --> 00:03:57,700
of the evidence to the next level and we

59
00:04:04,289 --> 00:04:00,549
want to be a part of doing that coming

60
00:04:06,539 --> 00:04:04,299
to the table with next-level evidence -

61
00:04:09,330 --> 00:04:06,549
you know verify the validity that we are

62
00:04:12,839 --> 00:04:09,340
being visited a lot more than anyone is

63
00:04:15,809 --> 00:04:12,849

telling us okay I'm gonna start off with

64

00:04:19,650 --> 00:04:15,819

the with the obvious of well what got

65

00:04:21,379 --> 00:04:19,660

you started into this work well I'm an

66

00:04:24,990 --> 00:04:21,389

experienced or had experiences

67

00:04:27,210 --> 00:04:25,000

throughout my life at different I guess

68

00:04:30,089 --> 00:04:27,220

when I look back at it kind of pivotal

69

00:04:31,800 --> 00:04:30,099

moments in my life my first experience

70

00:04:34,320 --> 00:04:31,810

was around five or six which was very

71

00:04:35,909 --> 00:04:34,330

impactful and kind of I think just

72

00:04:37,439 --> 00:04:35,919

introduced me to it and I don't really

73

00:04:39,300 --> 00:04:37,449

remember all of it I only remember a

74

00:04:41,909 --> 00:04:39,310

portion of it the first like half of it

75

00:04:43,800 --> 00:04:41,919

I guess it's hard to say what the second

76

00:04:45,659 --> 00:04:43,810

half would be but I had an experience

77

00:04:46,950 --> 00:04:45,669

and I'm just not really completely

78

00:04:49,110 --> 00:04:46,960

comfortable sharing that completely with

79

00:04:52,050 --> 00:04:49,120

everybody you know yet I have a couple

80

00:04:53,850 --> 00:04:52,060

points but it's just I just had an

81

00:04:56,310 --> 00:04:53,860

experience and then when I was like 12

82

00:05:00,060 --> 00:04:56,320

or 13 I had another experience with

83

00:05:02,640 --> 00:05:00,070

seeing a craft and the next day I had a

84

00:05:06,960 --> 00:05:02,650

really kind of an epiphany event

85

00:05:09,300 --> 00:05:06,970

happened to me and so that was my first

86

00:05:10,350 --> 00:05:09,310

early attempts and then around twelve

87

00:05:13,020 --> 00:05:10,360

thirteen right after that I got it was

88

00:05:14,580 --> 00:05:13,030

just so hooked and to the subject I was

89

00:05:16,469 --> 00:05:14,590

reaching out to a big UFO investigator

90

00:05:18,089 --> 00:05:16,479

at the time named Bill Moore trying to

91

00:05:19,230 --> 00:05:18,099

understand what I was going through and

92

00:05:21,899 --> 00:05:19,240

what I was experiencing and what I had

93

00:05:23,459 --> 00:05:21,909

seen and to try and put the pieces

94

00:05:26,760 --> 00:05:23,469

together for me and so I'd spoken with

95

00:05:28,560 --> 00:05:26,770

him for a few months and then just over

96

00:05:32,070 --> 00:05:28,570

time I just continued to investigate

97

00:05:34,200 --> 00:05:32,080

this you know 20 years ago I went with a

98

00:05:36,620 --> 00:05:34,210

group of friends and we investigated

99

00:05:38,939 --> 00:05:36,630

Mel's hole which was a transdimensional

100

00:05:42,210 --> 00:05:38,949

phenomena in Washington State

101
00:05:44,070 --> 00:05:42,220
with UFOs and all these different

102
00:05:46,650 --> 00:05:44,080
associated phenomena related to it and

103
00:05:49,260 --> 00:05:46,660
we met with red elk an Indian medicine

104
00:05:51,060 --> 00:05:49,270
man who took us through many different

105
00:05:54,510 --> 00:05:51,070
types of meditations and taught us a lot

106
00:05:56,280 --> 00:05:54,520
of things and we've been on the search

107
00:05:59,580 --> 00:05:56,290
and he told us more about it so I've

108
00:06:01,440 --> 00:05:59,590
always been involved in it and you know

109
00:06:02,940 --> 00:06:01,450
I just haven't chosen to make myself a

110
00:06:06,000 --> 00:06:02,950
public figure because I'm a real person

111
00:06:08,010 --> 00:06:06,010
in you know this world who works and has

112
00:06:10,380 --> 00:06:08,020
a family and I have a farm with eight

113
00:06:12,000 --> 00:06:10,390

acres and you know I I don't want to

114

00:06:14,160 --> 00:06:12,010

jeopardize my family or have people

115

00:06:15,360 --> 00:06:14,170

running through my woods or you know

116

00:06:17,850 --> 00:06:15,370

things like that

117

00:06:20,670 --> 00:06:17,860

at night like has been the case for

118

00:06:24,660 --> 00:06:20,680

other locations that have had repeated

119

00:06:27,870 --> 00:06:24,670

of events from Whitney Strieber - you

120

00:06:29,130 --> 00:06:27,880

know skinwalker ranch to see Ceti you

121

00:06:32,130 --> 00:06:29,140

know there's people who jump the fence

122

00:06:33,690 --> 00:06:32,140

and run around and we're just getting

123

00:06:35,730 --> 00:06:33,700

started we're just starting to have neat

124

00:06:37,140 --> 00:06:35,740

experiences so in a way it may be stupid

125

00:06:39,690 --> 00:06:37,150

for me to even be talking it at all

126
00:06:41,520 --> 00:06:39,700
because I may be you know it's stunting

127
00:06:42,750 --> 00:06:41,530
the growth of our group and our group is

128
00:06:45,720 --> 00:06:42,760
expressed you know some of those

129
00:06:47,280 --> 00:06:45,730
concerns but the whole purpose of our

130
00:06:49,440 --> 00:06:47,290
project we'd like to think of what we're

131
00:06:51,810 --> 00:06:49,450
doing is another recreation of a

132
00:06:53,490 --> 00:06:51,820
grassroots people's disclosure so

133
00:06:56,010 --> 00:06:53,500
everything is for the people everything

134
00:06:57,210 --> 00:06:56,020
should be transparent all of our events

135
00:06:58,500 --> 00:06:57,220
are going to be live-streamed

136
00:06:59,820 --> 00:06:58,510
all of our events starting in about

137
00:07:02,310 --> 00:06:59,830
three weeks we're gonna be starting some

138
00:07:05,100 --> 00:07:02,320

experiments just testing some of our

139

00:07:07,860 --> 00:07:05,110

methods and procedures because it's

140

00:07:09,630 --> 00:07:07,870

gonna take a real synchronous kind of

141

00:07:11,130 --> 00:07:09,640

machine to make sure we get all the

142

00:07:13,650 --> 00:07:11,140

right camera footage and the scientific

143

00:07:16,320 --> 00:07:13,660

tests run in the right sequence and and

144

00:07:19,580 --> 00:07:16,330

everything so a lot of different factors

145

00:07:23,100 --> 00:07:19,590

have to come together but you know weird

146

00:07:24,210 --> 00:07:23,110

we've you know everyone in the group is

147

00:07:25,770 --> 00:07:24,220

like me though there were all

148

00:07:27,690 --> 00:07:25,780

experiences knowing well there's a

149

00:07:29,580 --> 00:07:27,700

couple people who are more come from a

150

00:07:32,820 --> 00:07:29,590

metaphysical side and didn't have really

151
00:07:34,560 --> 00:07:32,830
experiences with UFOs or any strange

152
00:07:39,120 --> 00:07:34,570
phenomena but have started having it

153
00:07:43,260 --> 00:07:39,130
here so everyone is kind of like me I

154
00:07:44,970 --> 00:07:43,270
think in a way in our group and then we

155
00:07:47,070 --> 00:07:44,980
of course we did some radio shows and

156
00:07:50,150 --> 00:07:47,080
our channel has kind of taken off our

157
00:07:53,580 --> 00:07:50,160
YouTube channel has just gotten more

158
00:07:55,750 --> 00:07:53,590
cool subscribers and more people joining

159
00:07:57,550 --> 00:07:55,760
our group and writing us and went

160
00:08:00,010 --> 00:07:57,560
part of the movement in some way or

161
00:08:02,740 --> 00:08:00,020
wanting to learn cg5 or wanting to learn

162
00:08:06,040 --> 00:08:02,750
are what we call advanced protocols

163
00:08:07,630 --> 00:08:06,050

designed for closer contact so we're

164

00:08:10,150 --> 00:08:07,640

trying not only to you know have a

165

00:08:11,860 --> 00:08:10,160

destination which is to acquire the

166

00:08:13,960 --> 00:08:11,870

scientific data and multiple different

167

00:08:17,170 --> 00:08:13,970

types of cameras and multiple witnesses

168

00:08:19,150 --> 00:08:17,180

at one event but we're also trying to

169

00:08:21,400 --> 00:08:19,160

help people along the way because like

170

00:08:23,170 --> 00:08:21,410

life it's not about the destination it's

171

00:08:24,430 --> 00:08:23,180

about the journey - so we're trying to

172

00:08:26,500 --> 00:08:24,440

do good live along the way we help

173

00:08:28,510 --> 00:08:26,510

people we have prayer circles for people

174

00:08:30,520 --> 00:08:28,520

we do remote viewing to help find

175

00:08:35,110 --> 00:08:30,530

people's luggage and I mean all sorts of

176

00:08:39,159 --> 00:08:35,120

different stuff so we've you know we're

177

00:08:41,800 --> 00:08:39,169

just trying to do good altom Utley the

178

00:08:44,260 --> 00:08:41,810

advanced protocols I mean now people

179

00:08:46,690 --> 00:08:44,270

listening to this are gonna be pretty

180

00:08:49,480 --> 00:08:46,700

familiar with C 5 and the c5 protocols

181

00:08:52,690 --> 00:08:49,490

to an extent what what is different

182

00:08:54,910 --> 00:08:52,700

about the advanced protocols well the

183

00:08:57,700 --> 00:08:54,920

the notion was designed to get these

184

00:08:59,620 --> 00:08:57,710

further experiences closer and we put a

185

00:09:01,990 --> 00:08:59,630

lot of time and effort and thoughts into

186

00:09:03,580 --> 00:09:02,000

what are conditions that we could pre

187

00:09:07,990 --> 00:09:03,590

establish that would increase the

188

00:09:09,370 --> 00:09:08,000

likelihood of closer contact and like

189

00:09:11,050 --> 00:09:09,380

anything you have to set up the

190

00:09:14,200 --> 00:09:11,060

preconditions in order to increase the

191

00:09:17,320 --> 00:09:14,210

likelihood of anything and we've created

192

00:09:19,090 --> 00:09:17,330

some piece by piece kind of little

193

00:09:23,680 --> 00:09:19,100

protocols and things that we do that are

194

00:09:25,690 --> 00:09:23,690

kind of you know it's a little you know

195

00:09:29,440 --> 00:09:25,700

arrogance to call it advanced protocols

196

00:09:31,450 --> 00:09:29,450

but we think it's it's maybe better more

197

00:09:34,450 --> 00:09:31,460

apt as closer protocol this is a better

198

00:09:36,490 --> 00:09:34,460

term for it you know so you know I could

199

00:09:37,930 --> 00:09:36,500

explain what some of these are that make

200

00:09:39,610 --> 00:09:37,940

it different than some of the others if

201

00:09:43,390 --> 00:09:39,620

you'd like yeah absolutely

202

00:09:45,220 --> 00:09:43,400

absolutely well a lot of other groups do

203

00:09:46,510 --> 00:09:45,230

things like me know meditations and many

204

00:09:49,360 --> 00:09:46,520

different types of meditations and

205

00:09:51,280 --> 00:09:49,370

visualizations and some groups use memo

206

00:09:54,660 --> 00:09:51,290

pads we like to incorporate all the

207

00:09:58,480 --> 00:09:54,670

different senses into it into the

208

00:10:00,220 --> 00:09:58,490

requesting visitation portion and so we

209

00:10:02,770 --> 00:10:00,230

use everyone in the group uses memo pads

210

00:10:05,620 --> 00:10:02,780

and pencils and pens and draws and

211

00:10:08,260 --> 00:10:05,630

writes and makes requests that way and

212

00:10:09,340 --> 00:10:08,270

draws their feelings and you know a lot

213

00:10:12,310 --> 00:10:09,350

of us are really into

214

00:10:14,290 --> 00:10:12,320

remote viewing and the powers of the

215

00:10:17,440 --> 00:10:14,300

subconscious old Buddhists as well

216

00:10:18,610 --> 00:10:17,450

within the group who also strongly

217

00:10:20,440 --> 00:10:18,620

focused on the powers of the

218

00:10:24,070 --> 00:10:20,450

subconscious and so we believe a lot of

219

00:10:26,980 --> 00:10:24,080

that writing stuff can flow both

220

00:10:28,480 --> 00:10:26,990

directions requests can flow through the

221

00:10:30,520 --> 00:10:28,490

writing through the visualization and

222

00:10:33,040 --> 00:10:30,530

through the mental subconscious effort

223

00:10:35,350 --> 00:10:33,050

then also information can be received

224

00:10:37,510 --> 00:10:35,360

the same way and sometimes we get

225

00:10:38,500 --> 00:10:37,520

strange weird things you know that some

226

00:10:40,630 --> 00:10:38,510

people in the group will have of

227

00:10:43,750 --> 00:10:40,640

messages and weird other things and

228

00:10:46,450 --> 00:10:43,760

thoughts and you know we just have to

229

00:10:47,980 --> 00:10:46,460

use discrimination and so that's one

230

00:10:50,140 --> 00:10:47,990

little tiny aspect another aspect is

231

00:10:52,500 --> 00:10:50,150

vegetarianism we request everyone being

232

00:10:56,950 --> 00:10:52,510

vegetarian for at least a full week and

233

00:10:59,530 --> 00:10:56,960

that's no animal products anything that

234

00:11:01,630 --> 00:10:59,540

costs the life of an animal it can be an

235

00:11:03,430 --> 00:11:01,640

animal by-product but it can't cost the

236

00:11:08,140 --> 00:11:03,440

life of an animal you know like milk is

237

00:11:10,780 --> 00:11:08,150

okay cheese is okay but you know we

238

00:11:12,700 --> 00:11:10,790

don't do eggs or fish either even though

239

00:11:14,530 --> 00:11:12,710

eggs are not considered like really

240

00:11:16,720 --> 00:11:14,540

necessarily if it's a not fertilized egg

241

00:11:18,460 --> 00:11:16,730

it's not considered you know taking a

242

00:11:19,300 --> 00:11:18,470

life or anything but so there's

243

00:11:21,820 --> 00:11:19,310

vegetarianism

244

00:11:24,520 --> 00:11:21,830

and that's really designed more to kind

245

00:11:28,990 --> 00:11:24,530

of purify the body of negativity and

246

00:11:31,780 --> 00:11:29,000

poisons and you know carnivore ISM at

247

00:11:33,580 --> 00:11:31,790

which to many carnivores like me sounds

248

00:11:35,110 --> 00:11:33,590

a little strange at first but when you

249

00:11:38,440 --> 00:11:35,120

really think about in evolved

250

00:11:43,210 --> 00:11:38,450

civilization just being more kind of

251

00:11:45,240 --> 00:11:43,220

purier and cleansed is just to put you in

252

00:11:47,440 --> 00:11:45,250

a more approachable position we believe

253

00:11:51,160 --> 00:11:47,450

so aside from things like that and

254

00:11:54,640 --> 00:11:51,170

specific meditations and harmonic kind

255

00:11:56,200 --> 00:11:54,650

of meditations that we specifically

256

00:11:57,850 --> 00:11:56,210

teach the group and go through with the

257

00:12:00,280 --> 00:11:57,860

group we additionally set up something

258

00:12:01,960 --> 00:12:00,290

called something really key to the

259

00:12:04,210 --> 00:12:01,970

closer contact is about your location

260

00:12:06,490 --> 00:12:04,220

and there's two aspects to that that are

261

00:12:09,190 --> 00:12:06,500

key one is the general location meaning

262

00:12:11,680 --> 00:12:09,200

the larger several mile area that you're

263

00:12:13,840 --> 00:12:11,690

in and then the smaller locations set up

264

00:12:16,120 --> 00:12:13,850

setups for the general larger location

265

00:12:18,100 --> 00:12:16,130

if you're next to a major airport or

266

00:12:20,440 --> 00:12:18,110

next to a major city or next to a

267

00:12:22,270 --> 00:12:20,450

military base some of these things are

268

00:12:22,620 --> 00:12:22,280

less conducive you would think they

269

00:12:24,000 --> 00:12:22,630

might be

270

00:12:25,890 --> 00:12:24,010

more conducive like a military base

271

00:12:27,660 --> 00:12:25,900

might be more conducive to UFO contact

272

00:12:29,820 --> 00:12:27,670

but in fact in our opinion it's less

273

00:12:35,070 --> 00:12:29,830

conductive to this closer contact that

274

00:12:39,660 --> 00:12:35,080

we're trying to evoke and to the more

275

00:12:41,520 --> 00:12:39,670

remote you can be the better our farm is

276

00:12:44,100 --> 00:12:41,530

up in the Hudson Valley in New York and

277

00:12:46,110 --> 00:12:44,110

we're in a valley inside of a valley

278

00:12:48,540 --> 00:12:46,120

kind of inside of another valley so

279

00:12:51,630 --> 00:12:48,550

we've got over eight acres here there's

280

00:12:54,270 --> 00:12:51,640

a very remote area and so that in and of

281

00:12:56,310 --> 00:12:54,280

itself is very conducive if you look at

282

00:12:57,090 --> 00:12:56,320

UFO history the encounters that are

283

00:13:01,110 --> 00:12:57,100

close

284

00:13:03,180 --> 00:13:01,120

oftentimes contain something called an

285

00:13:05,490 --> 00:13:03,190

encroachment or we just refer to it as

286

00:13:09,270 --> 00:13:05,500

encroachment an encroachment is a

287

00:13:14,420 --> 00:13:09,280

terrain change about a hundred feet away

288

00:13:17,370 --> 00:13:14,430

from the person who wants to see crafts

289

00:13:19,620 --> 00:13:17,380

so from the meditator so and this

290

00:13:21,210 --> 00:13:19,630

distance is the first 100 feet is

291

00:13:24,150 --> 00:13:21,220

designed just to set up kind of like a

292

00:13:26,130 --> 00:13:24,160

safe zone but also the encroachment of

293

00:13:28,530 --> 00:13:26,140

the terrain change can be something like

294

00:13:31,320 --> 00:13:28,540

a tree line you can be a meadow and

295

00:13:33,120 --> 00:13:31,330

there's a tree line and or it could be

296

00:13:34,890 --> 00:13:33,130

on a beach and it's the water line it

297

00:13:37,410 --> 00:13:34,900

can be a mountain you can be at the

298

00:13:38,280 --> 00:13:37,420

bottom of a mountain range or in one

299

00:13:40,770 --> 00:13:38,290

mountain range looking at another

300

00:13:45,690 --> 00:13:40,780

mountain range there has to be a terrain

301
00:13:48,480 --> 00:13:45,700
change and a separation a distance so

302
00:13:50,220 --> 00:13:48,490
that you can safely have a closer kind

303
00:13:55,020 --> 00:13:50,230
of contact where everybody feels safe

304
00:13:57,530 --> 00:13:55,030
and you know secure they we believe they

305
00:14:00,960 --> 00:13:57,540
of course can read our consciousness and

306
00:14:03,300 --> 00:14:00,970
so the consciousness of the group is

307
00:14:07,710 --> 00:14:03,310
crucial and not being scared and not

308
00:14:09,450 --> 00:14:07,720
being afraid of close contact so there's

309
00:14:11,040 --> 00:14:09,460
a lot of things we train our group to do

310
00:14:13,290 --> 00:14:11,050
to try and overcome their personal fears

311
00:14:14,610 --> 00:14:13,300
we ask our group - you know meditate in

312
00:14:16,620 --> 00:14:14,620
their basements and meditating their

313
00:14:19,110 --> 00:14:16,630

attics and meditate in places that are

314

00:14:20,970 --> 00:14:19,120

kind of scary just to overcome those

315

00:14:23,160 --> 00:14:20,980

fears and those and I'm just dealing

316

00:14:24,960 --> 00:14:23,170

with these issues myself you know I

317

00:14:27,750 --> 00:14:24,970

think people would like to think it's a

318

00:14:30,720 --> 00:14:27,760

magical crystal New Age experience to

319

00:14:32,760 --> 00:14:30,730

see a close-up craft or phenomena but

320

00:14:35,160 --> 00:14:32,770

it's not it's it can be scary

321

00:14:35,610 --> 00:14:35,170

your natural human instincts can flare

322

00:14:37,320 --> 00:14:35,620

up too

323

00:14:40,380 --> 00:14:37,330

white how Brown did you may think you

324

00:14:43,260 --> 00:14:40,390

are in love and transcendental you know

325

00:14:44,910 --> 00:14:43,270

meditation harmonics and you know

326

00:14:49,079 --> 00:14:44,920

tranquility and all that you can be

327

00:14:52,440 --> 00:14:49,089

scared shitless you know no that's just

328

00:14:54,180 --> 00:14:52,450

reality you know so that's some of the

329

00:14:56,700 --> 00:14:54,190

things that separate us in terms of you

330

00:14:59,760 --> 00:14:56,710

know regular C you fought I've the

331

00:15:04,740 --> 00:14:59,770

encroachment the types of meditations we

332

00:15:06,900 --> 00:15:04,750

do the diet and the types of specific

333

00:15:08,700 --> 00:15:06,910

kind of harmonics stuff we we do with

334

00:15:10,500 --> 00:15:08,710

our meditation and breathing and stuff

335

00:15:12,240 --> 00:15:10,510

I've gotta go all those things come

336

00:15:13,620 --> 00:15:12,250

together I've got a quick question on

337

00:15:16,500 --> 00:15:13,630

this end there you say you live in a

338

00:15:18,120 --> 00:15:16,510

pretty remote area it's not necessarily

339

00:15:20,670 --> 00:15:18,130

easy to find people who are all and do

340

00:15:23,310 --> 00:15:20,680

this even in more populated areas how

341

00:15:25,490 --> 00:15:23,320

did you how did you all meet up how did

342

00:15:29,400 --> 00:15:25,500

you all find each other living in a

343

00:15:30,750 --> 00:15:29,410

fairly rural area well first of all

344

00:15:33,240 --> 00:15:30,760

start with just friends and associates

345

00:15:35,790 --> 00:15:33,250

and then kind of grew with their friends

346

00:15:38,160 --> 00:15:35,800

and connections and other ce-5 groups if

347

00:15:41,040 --> 00:15:38,170

you look there's several different cg5

348

00:15:45,740 --> 00:15:41,050

websites you can go on to to find groups

349

00:15:48,870 --> 00:15:45,750

near you from cost ET let's talk to a

350

00:15:51,750 --> 00:15:48,880

certain doctor who has a very long

351

00:15:54,780 --> 00:15:51,760

established history in this field dr.

352

00:15:56,430 --> 00:15:54,790

Greer even though I'm a fan of his I'm

353

00:16:00,750 --> 00:15:56,440

not a huge fan of his some of his recent

354

00:16:02,160 --> 00:16:00,760

stuff but just because of you know I

355

00:16:04,079 --> 00:16:02,170

really respect the work he's done for

356

00:16:05,430 --> 00:16:04,089

the community for so long it's such a

357

00:16:07,949 --> 00:16:05,440

high integrity level and getting these

358

00:16:10,920 --> 00:16:07,959

ultra high level witnesses and these his

359

00:16:14,250 --> 00:16:10,930

documentaries are phenomenal and as

360

00:16:15,720 --> 00:16:14,260

someone who knows about I know he's made

361

00:16:17,970 --> 00:16:15,730

a lot more money than he needed for the

362

00:16:19,170 --> 00:16:17,980

documentaries obviously but also I don't

363

00:16:21,060 --> 00:16:19,180

like some of the money-grubbing stuff

364

00:16:24,990 --> 00:16:21,070

lately you know five thousand dollars a

365

00:16:26,940 --> 00:16:25,000

person for his c5 events and the fear

366

00:16:29,490 --> 00:16:26,950

mongering talking about the government

367

00:16:31,170 --> 00:16:29,500

having a fleet of UFOs and fake bio

368

00:16:33,990 --> 00:16:31,180

robotic aliens that they're gonna have

369

00:16:35,820 --> 00:16:34,000

some engaged fake UFO invasion all that

370

00:16:40,140 --> 00:16:35,830

stuff to me is just you know

371

00:16:43,980 --> 00:16:40,150

fear-mongering so in that way I've lost

372

00:16:46,949 --> 00:16:43,990

a lot of respect for dr. Greer but you

373

00:16:49,210 --> 00:16:46,959

know I think it's easy for certain

374

00:16:50,379 --> 00:16:49,220

governments or agencies to

375

00:16:52,030 --> 00:16:50,389

someone like that who's had an

376

00:16:53,920 --> 00:16:52,040

extraordinary contacts and feed them

377

00:16:55,809 --> 00:16:53,930

information to knock them off of their

378

00:16:57,490 --> 00:16:55,819

horse and to knock them off of that

379

00:17:03,759 --> 00:16:57,500

general integrity that people have

380

00:17:05,230 --> 00:17:03,769

garnered you know yeah I wouldn't be

381

00:17:07,240 --> 00:17:05,240

surprised if he was specifically

382

00:17:09,640 --> 00:17:07,250

targeted even over a course of years

383

00:17:11,710 --> 00:17:09,650

with you know him and believing you know

384

00:17:19,899 --> 00:17:11,720

built up to some of that that's that's a

385

00:17:21,610 --> 00:17:19,909

really kind of tackle you know know when

386

00:17:23,260 --> 00:17:21,620

you're dealing with the propulsion and

387

00:17:24,909 --> 00:17:23,270

power systems and stuff that it's

388

00:17:27,220 --> 00:17:24,919

obviously would be considered you know

389

00:17:29,620 --> 00:17:27,230

part of national security of certain

390

00:17:31,810 --> 00:17:29,630

nations to explore this stuff and to be

391

00:17:33,850 --> 00:17:31,820

the the best with the latest technology

392

00:17:35,350 --> 00:17:33,860

G so and dr. Greer has explored that

393

00:17:37,090 --> 00:17:35,360

stuff so it's completely logical and

394

00:17:39,520 --> 00:17:37,100

understandable not paranoid at all to

395

00:17:41,230 --> 00:17:39,530

assume that people who try to not only

396

00:17:44,799 --> 00:17:41,240

you know penetrate his circle but also

397

00:17:46,750 --> 00:17:44,809

undermine him so it you know I I look at

398

00:17:50,529 --> 00:17:46,760

it all in a big picture you know I try

399

00:17:52,899 --> 00:17:50,539

to yeah well a part of that bigger

400

00:17:55,330 --> 00:17:52,909

picture is a scientific research and I

401
00:17:56,740 --> 00:17:55,340
understand that you reached out to or

402
00:17:58,240 --> 00:17:56,750
maybe it was the other way around that

403
00:18:01,149 --> 00:17:58,250
Chris Cogswell you've had some a

404
00:18:03,940 --> 00:18:01,159
conversation with him about him helping

405
00:18:06,159 --> 00:18:03,950
you on the scientific end of things he

406
00:18:08,740 --> 00:18:06,169
was until recently the director of

407
00:18:10,299 --> 00:18:08,750
research for MUFON and now I think he's

408
00:18:12,640 --> 00:18:10,309
in the process of hanging out his own

409
00:18:13,990 --> 00:18:12,650
shingle tell us a little bit about that

410
00:18:16,029 --> 00:18:14,000
some of the back-and-forth you've had

411
00:18:18,730 --> 00:18:16,039
and what kind of help is he giving you

412
00:18:20,110 --> 00:18:18,740
up to this point if any well Chris is a

413
00:18:23,560 --> 00:18:20,120

phenomenal guy he's really just a

414

00:18:24,880 --> 00:18:23,570

powerful intellect and he I initially

415

00:18:26,230 --> 00:18:24,890

spoke with him when he was at MUFON I

416

00:18:29,200 --> 00:18:26,240

spoke with Jan and Jan referred me to

417

00:18:30,880 --> 00:18:29,210

him and about our project for you know

418

00:18:32,289 --> 00:18:30,890

acquiring this data and wanted to find

419

00:18:34,120 --> 00:18:32,299

out about their data project in their

420

00:18:35,409 --> 00:18:34,130

equipment list and see how it matched

421

00:18:37,120 --> 00:18:35,419

verses olives

422

00:18:39,100 --> 00:18:37,130

and so I spoke with him when he was

423

00:18:42,430 --> 00:18:39,110

there and he had some really innovative

424

00:18:45,510 --> 00:18:42,440

and awesome plans to overhaul the

425

00:18:47,860 --> 00:18:45,520

integrity and increase the output of

426
00:18:49,149 --> 00:18:47,870
quality material from MUFON something

427
00:18:51,820 --> 00:18:49,159
that MUFON is really needed especially

428
00:18:53,169 --> 00:18:51,830
after the past you know ten years and a

429
00:18:55,090 --> 00:18:53,179
lot of the things that move on is done

430
00:18:57,549 --> 00:18:55,100
from selling all the you know

431
00:19:00,850 --> 00:18:57,559
experiencers information and UFO reports

432
00:19:02,690 --> 00:19:00,860
to Bigelow and other groups to having

433
00:19:07,340 --> 00:19:02,700
some very suspect

434
00:19:10,760 --> 00:19:07,350
symposiums with very suspect speakers

435
00:19:12,260 --> 00:19:10,770
and only it takes people with integrity

436
00:19:13,789 --> 00:19:12,270
like Richard Dolan to stand up at some

437
00:19:15,590 --> 00:19:13,799
of these events and say hey who the heck

438
00:19:18,200 --> 00:19:15,600

are these people who are out here

439

00:19:21,020 --> 00:19:18,210

spouting you know BS and you know

440

00:19:23,450 --> 00:19:21,030

profiteering with nothing no witnesses

441

00:19:25,880 --> 00:19:23,460

no facts no nothing to back them up

442

00:19:28,850 --> 00:19:25,890

except for a story even though it may be

443

00:19:30,620 --> 00:19:28,860

popular anyway so Chris really had tried

444

00:19:32,960 --> 00:19:30,630

to overhaul some of these things and had

445

00:19:34,880 --> 00:19:32,970

really looked at the data and metrics

446

00:19:37,310 --> 00:19:34,890

that MUFON had and had innovative plans

447

00:19:38,600 --> 00:19:37,320

to overhaul them and of course he in a

448

00:19:42,200 --> 00:19:38,610

short period of time found out that

449

00:19:45,049 --> 00:19:42,210

MUFON is integrity was too damaged and

450

00:19:48,860 --> 00:19:45,059

was still being damaged by you know

451
00:19:51,049 --> 00:19:48,870
actions there so he left which only

452
00:19:55,039 --> 00:19:51,059
gives him more credibility you know

453
00:19:56,450 --> 00:19:55,049
Chris's integrity increased tenfold just

454
00:20:00,740 --> 00:19:56,460
by leaving MUFON because of their lack

455
00:20:03,169 --> 00:20:00,750
of integrity so Chris has been um she's

456
00:20:04,820 --> 00:20:03,179
just a smart guy and he's got standards

457
00:20:07,400 --> 00:20:04,830
you know you apology is not a lucrative

458
00:20:09,890 --> 00:20:07,410
field for anybody and his position there

459
00:20:12,770 --> 00:20:09,900
is a volunteer position and you have to

460
00:20:14,240 --> 00:20:12,780
respect a guy who wants to put his time

461
00:20:16,490 --> 00:20:14,250
and intellect and brain power behind

462
00:20:18,289 --> 00:20:16,500
solving these biggest important

463
00:20:20,600 --> 00:20:18,299

mysteries so anyway we've gone over some

464

00:20:22,820 --> 00:20:20,610

equipment list stuff he's kind of our

465

00:20:24,919 --> 00:20:22,830

main adviser even though we have some

466

00:20:28,450 --> 00:20:24,929

really incredible names advising us in

467

00:20:32,060 --> 00:20:28,460

this group he's kind of you know our art

468

00:20:35,600 --> 00:20:32,070

our favorite you know top guy helping

469

00:20:37,400 --> 00:20:35,610

with insights and experiments and just

470

00:20:40,039 --> 00:20:37,410

you know we've just started the process

471

00:20:41,830 --> 00:20:40,049

with him so there's many many more miles

472

00:20:46,130 --> 00:20:41,840

to go before we're done

473

00:20:48,140 --> 00:20:46,140

speaking of scientific research you sent

474

00:20:51,289 --> 00:20:48,150

me a couple pictures last night yeah one

475

00:20:55,549 --> 00:20:51,299

of them looks like a I've got it up now

476

00:20:59,180 --> 00:20:55,559

on the on the slide show basically looks

477

00:21:02,690 --> 00:20:59,190

somewhat spherical this is related to

478

00:21:05,150 --> 00:21:02,700

the the Joe for my efforts out west is

479

00:21:07,610 --> 00:21:05,160

that about right correct

480

00:21:10,460 --> 00:21:07,620

Joe firmage for a while has been working

481

00:21:11,840 --> 00:21:10,470

on some anti-gravity and propulsion

482

00:21:13,940 --> 00:21:11,850

systems that he hoped would be

483

00:21:16,010 --> 00:21:13,950

revolutionary through a company he

484

00:21:19,190 --> 00:21:16,020

started called inter NASA

485

00:21:22,160 --> 00:21:19,200

and it's kind of similar to to the stars

486

00:21:26,150 --> 00:21:22,170

it's a entertainment and science company

487

00:21:29,870 --> 00:21:26,160

and they had this invention which was a

488

00:21:31,790 --> 00:21:29,880

series of models of a gyro within a gyro

489

00:21:33,830 --> 00:21:31,800

kind of a thing it's an electronic gyro

490

00:21:36,340 --> 00:21:33,840

and the gyro spins at incredibly high

491

00:21:39,950 --> 00:21:36,350

speeds and rattles back and forth and

492

00:21:43,130 --> 00:21:39,960

apparently loses some specific gravity

493

00:21:46,730 --> 00:21:43,140

loses some weight and detective Lee

494

00:21:48,860 --> 00:21:46,740

verifiably supposedly but it's not the

495

00:21:51,020 --> 00:21:48,870

intergalactic propulsion system that

496

00:21:53,570 --> 00:21:51,030

they had initially hoped now it's more

497

00:21:55,730 --> 00:21:53,580

or like some of this data seems to be

498

00:21:57,169 --> 00:21:55,740

revealing a quirk in space home but they

499

00:21:59,000 --> 00:21:57,179

started with one model which might be

500

00:22:01,100 --> 00:21:59,010

the one you add up the one you have up

501
00:22:03,020 --> 00:22:01,110
has like rubber wheels supporting the

502
00:22:05,330 --> 00:22:03,030
inner wheels then that's the earliest

503
00:22:09,500 --> 00:22:05,340
model they had they've had several other

504
00:22:11,360 --> 00:22:09,510
models since and they look obviously

505
00:22:16,700 --> 00:22:11,370
more sophisticated but the same premise

506
00:22:19,010 --> 00:22:16,710
you know gyro electronic gyro and they

507
00:22:22,730 --> 00:22:19,020
want to commercialize one that's

508
00:22:25,100 --> 00:22:22,740
basically for gyros on a cross beam that

509
00:22:26,930 --> 00:22:25,110
gets put it inside of a box and that box

510
00:22:28,570 --> 00:22:26,940
would lower the specific grab that's

511
00:22:30,950 --> 00:22:28,580
kind of like their fallback position now

512
00:22:32,480 --> 00:22:30,960
that box would lower the specific

513
00:22:33,410 --> 00:22:32,490

gravity of vehicles and planes and

514

00:22:34,730 --> 00:22:33,420

everything you could put it in

515

00:22:36,860 --> 00:22:34,740

everything it would save energy and

516

00:22:39,440 --> 00:22:36,870

money and blah blah blah but you know to

517

00:22:40,669 --> 00:22:39,450

be frank despite the tremendous amount

518

00:22:43,780 --> 00:22:40,679

of money that's been poured into that

519

00:22:48,290 --> 00:22:43,790

project and the multiple different

520

00:22:53,510 --> 00:22:48,300

evolutions of the prototype it's still a

521

00:22:56,060 --> 00:22:53,520

very low output gravity Nullification

522

00:22:58,280 --> 00:22:56,070

device and how do you have access to

523

00:23:00,169 --> 00:22:58,290

this information that was news to me

524

00:23:03,440 --> 00:23:00,179

you have some contact with his group

525

00:23:07,960 --> 00:23:03,450

work yeah I've got multiple different

526

00:23:10,040 --> 00:23:07,970

ways so it's not just one means one

527

00:23:14,570 --> 00:23:10,050

information stream I've got multiple

528

00:23:16,520 --> 00:23:14,580

streams on it so this and does the fact

529

00:23:20,060 --> 00:23:16,530

that it exists is well-known it's not a

530

00:23:22,340 --> 00:23:20,070

secret it's stuff that can be found in

531

00:23:23,690 --> 00:23:22,350

the public record on it so you know if

532

00:23:26,540 --> 00:23:23,700

you do a little bit of google research

533

00:23:28,850 --> 00:23:26,550

on it you can you you take the names I

534

00:23:29,900 --> 00:23:28,860

just gave you already and you can find

535

00:23:32,060 --> 00:23:29,910

out all the information

536

00:23:35,180 --> 00:23:32,070

almost you will find pictures as well

537

00:23:39,560 --> 00:23:35,190

and other information but also on like

538

00:23:41,570 --> 00:23:39,570

the open minds forum online the Dan

539

00:23:43,910 --> 00:23:41,580

Smith blog it's been a topic of

540

00:23:45,920 --> 00:23:43,920

discussion for many months and I'm

541

00:23:47,690 --> 00:23:45,930

friends with Dan and kind of been

542

00:23:49,570 --> 00:23:47,700

involved with the blog and when the

543

00:23:53,360 --> 00:23:49,580

discussion about the device came up I

544

00:23:56,840 --> 00:23:53,370

provided some visual aids when there

545

00:23:58,760 --> 00:23:56,850

weren't any early on and so you know I

546

00:24:01,550 --> 00:23:58,770

kind of got in into this investigation

547

00:24:04,700 --> 00:24:01,560

didn't through that through open minds

548

00:24:07,190 --> 00:24:04,710

and then kind of pursued my sources and

549

00:24:09,260 --> 00:24:07,200

means and methods and multiple sources

550

00:24:11,650 --> 00:24:09,270

and means and methods so that

551
00:24:13,910 --> 00:24:11,660
information is pretty good even though

552
00:24:15,530 --> 00:24:13,920
you know they haven't had any public

553
00:24:18,560 --> 00:24:15,540
release of information and they consider

554
00:24:19,490 --> 00:24:18,570
it a very secret project understood

555
00:24:22,580 --> 00:24:19,500
understood

556
00:24:24,830 --> 00:24:22,590
now you also sent me a photograph with

557
00:24:25,840 --> 00:24:24,840
many materials hang on a second let me

558
00:24:46,760 --> 00:24:25,850
pull it up myself

559
00:24:51,170 --> 00:24:46,770
look at it which one is this Oh probably

560
00:24:53,870 --> 00:24:51,180
a graph about men cheers yeah basically

561
00:24:56,210 --> 00:24:53,880
you've got here let's see it looks like

562
00:24:59,590 --> 00:24:56,220
a number of different layers at the top

563
00:25:02,570 --> 00:24:59,600

anti gravity underneath and invisibility

564

00:25:03,800 --> 00:25:02,580

power computation shape change

565

00:25:05,960 --> 00:25:03,810

protection

566

00:25:08,000 --> 00:25:05,970

yeah can you go into a little bit more

567

00:25:09,160 --> 00:25:08,010

about that and how did you access this

568

00:25:14,720 --> 00:25:09,170

information

569

00:25:17,840 --> 00:25:14,730

through the same kind of methods as I

570

00:25:20,210 --> 00:25:17,850

previously kind of didn't specify I have

571

00:25:21,590 --> 00:25:20,220

but a little different corroborating

572

00:25:24,370 --> 00:25:21,600

sources that have I mentioned one of

573

00:25:28,760 --> 00:25:24,380

them it's not it's it's not a good idea

574

00:25:32,110 --> 00:25:28,770

but basic logic would tell you that an

575

00:25:35,270 --> 00:25:32,120

incredibly advanced civilization would

576

00:25:38,510 --> 00:25:35,280

create the type of material just around

577

00:25:41,360 --> 00:25:38,520

a craft that would be the most dynamic

578

00:25:43,880 --> 00:25:41,370

at the least energy expenditure and you

579

00:25:46,220 --> 00:25:43,890

could determine the how it advanced

580

00:25:49,790 --> 00:25:46,230

civilization is by how dynamic of

581

00:25:53,560 --> 00:25:49,800

materials it can create at what cost

582

00:25:55,730 --> 00:25:53,570

usage when you when you say yeah dynamic

583

00:25:58,010 --> 00:25:55,740

what-what do you mean in this context I

584

00:26:01,250 --> 00:25:58,020

mean multiple different abilities okay

585

00:26:02,660 --> 00:26:01,260

if you have a lower advanced

586

00:26:04,900 --> 00:26:02,670

civilization they can put several

587

00:26:08,810 --> 00:26:04,910

different abilities into a material and

588

00:26:12,290 --> 00:26:08,820

power it's at a very low ratio I'm at a

589

00:26:14,060 --> 00:26:12,300

very low energy output but if you're

590

00:26:15,710 --> 00:26:14,070

really really advanced civilization you

591

00:26:18,710 --> 00:26:15,720

can put multiple different things into

592

00:26:21,170 --> 00:26:18,720

one material and at a very low output

593

00:26:23,210 --> 00:26:21,180

even can put the energy in the actual

594

00:26:25,820 --> 00:26:23,220

material itself I don't know if you've

595

00:26:27,380 --> 00:26:25,830

heard much about the information that's

596

00:26:30,400 --> 00:26:27,390

been released about the metamaterial

597

00:26:35,740 --> 00:26:30,410

that to the Stars and other groups have

598

00:26:38,990 --> 00:26:35,750

but there are these micro structures and

599

00:26:41,060 --> 00:26:39,000

multiple different uses that this

600

00:26:42,500 --> 00:26:41,070

material multiple different functions of

601
00:26:43,880 --> 00:26:42,510
this material so it can do many

602
00:26:45,590 --> 00:26:43,890
different things at once and they're not

603
00:26:46,790 --> 00:26:45,600
real layers that are described in that

604
00:26:48,320 --> 00:26:46,800
picture that's just more for how the

605
00:26:50,630 --> 00:26:48,330
nature of the brain works you know to

606
00:26:52,190 --> 00:26:50,640
visualize that because of course these

607
00:26:54,850 --> 00:26:52,200
different layers have to interact and

608
00:26:57,770 --> 00:26:54,860
the material interacts and different

609
00:26:59,480 --> 00:26:57,780
there's there's interactions additions

610
00:27:01,370 --> 00:26:59,490
and subtractions of abilities by the

611
00:27:03,050 --> 00:27:01,380
interactions of materials and effects

612
00:27:05,630 --> 00:27:03,060
and many different things come together

613
00:27:07,340 --> 00:27:05,640

there but basically the more advanced

614

00:27:08,690 --> 00:27:07,350

you are the more different weird

615

00:27:11,060 --> 00:27:08,700

you can put into it and you can imagine

616

00:27:13,220 --> 00:27:11,070

the weird that would be needed to

617

00:27:16,880 --> 00:27:13,230

travel through space to probably have

618

00:27:18,350 --> 00:27:16,890

one anti-gravity you'd want camouflage

619

00:27:22,280 --> 00:27:18,360

you want

620

00:27:24,200 --> 00:27:22,290

perhaps propulsion power you'd want the

621

00:27:26,060 --> 00:27:24,210

ability to shape-shift your craft for

622

00:27:27,680 --> 00:27:26,070

different atmospheres and atmospheric

623

00:27:30,380 --> 00:27:27,690

conditions from you know underwater

624

00:27:32,750 --> 00:27:30,390

travel to high atmosphere to low

625

00:27:35,690 --> 00:27:32,760

atmosphere you'd also want protection

626
00:27:38,180 --> 00:27:35,700
for any occupants on the interior and

627
00:27:40,640 --> 00:27:38,190
you would want to instead of having any

628
00:27:41,900 --> 00:27:40,650
craft has to have computational

629
00:27:43,580 --> 00:27:41,910
abilities it has to have some

630
00:27:45,860 --> 00:27:43,590
intelligence on some level all of our

631
00:27:47,810 --> 00:27:45,870
crafts do all the way down to cars you

632
00:27:50,300 --> 00:27:47,820
know we're just humans so imagine how

633
00:27:52,820 --> 00:27:50,310
much more so these ultra advanced craft

634
00:27:54,380 --> 00:27:52,830
would have to be so the more area they

635
00:27:56,000 --> 00:27:54,390
can more surface area they can spread

636
00:27:57,420 --> 00:27:56,010
their computation abilities across the

637
00:28:00,150 --> 00:27:57,430
greater their means and

638
00:28:03,540 --> 00:28:00,160

and these crafts as far as I understand

639

00:28:07,290 --> 00:28:03,550

are so advanced that their artificial

640

00:28:09,990 --> 00:28:07,300

intelligence is essentially alive

641

00:28:13,560 --> 00:28:10,000

it's essentially a cognizant kind of you

642

00:28:15,180 --> 00:28:13,570

know if you can't tell the difference

643

00:28:17,820 --> 00:28:15,190

between something being conscious and

644

00:28:18,990 --> 00:28:17,830

not conscious and you might as well just

645

00:28:20,640 --> 00:28:19,000

consider a conscious and that's what

646

00:28:22,590 --> 00:28:20,650

these crafts are they're so advanced and

647

00:28:25,040 --> 00:28:22,600

their computational abilities and

648

00:28:28,440 --> 00:28:25,050

pre-programming is so advanced that

649

00:28:30,510 --> 00:28:28,450

they're essentially artificial

650

00:28:32,460 --> 00:28:30,520

intelligences in and of themselves which

651

00:28:35,490 --> 00:28:32,470

is very logical it's not a huge leap of

652

00:28:37,200 --> 00:28:35,500

imagination to think our jets now are be

653

00:28:40,970 --> 00:28:37,210

halfway there

654

00:28:43,440 --> 00:28:40,980

so it's not a big leap of imagination to

655

00:28:45,450 --> 00:28:43,450

see all these features coming together

656

00:28:49,740 --> 00:28:45,460

in a material just to create the

657

00:28:52,860 --> 00:28:49,750

structure of the craft and so the craft

658

00:28:54,360 --> 00:28:52,870

also has as part of it and this material

659

00:28:56,250 --> 00:28:54,370

is in your hear more about this house

660

00:28:58,140 --> 00:28:56,260

off is gonna talk about this probably in

661

00:29:01,440 --> 00:28:58,150

a few weeks he was speaking last night

662

00:29:02,910 --> 00:29:01,450

at the remote viewers conference about

663

00:29:05,340 --> 00:29:02,920

some of this material and some of the

664

00:29:07,140 --> 00:29:05,350

tic-tacs stuff but he and some of the

665

00:29:09,000 --> 00:29:07,150

other scientists have been consulted

666

00:29:13,230 --> 00:29:09,010

like Eric Davis and and others who

667

00:29:16,049 --> 00:29:13,240

tested its material and found that it's

668

00:29:21,150 --> 00:29:16,059

it has these micro lattices of palladium

669

00:29:24,390 --> 00:29:21,160

and other elements created in such a

670

00:29:27,150 --> 00:29:24,400

specific way that when a certain

671

00:29:32,430 --> 00:29:27,160

resonance is hit they it gets an

672

00:29:34,580 --> 00:29:32,440

anti-gravitational property so that's

673

00:29:38,220 --> 00:29:34,590

pretty freakin amazing

674

00:29:40,350 --> 00:29:38,230

but the material is made in such a way

675

00:29:41,940 --> 00:29:40,360

that it can't technically be made on

676

00:29:44,130 --> 00:29:41,950

earth that has to be kind of extruded

677

00:29:46,860 --> 00:29:44,140

atom by atom by some very sophisticated

678

00:29:49,410 --> 00:29:46,870

device in space and through gravity the

679

00:29:54,530 --> 00:29:49,420

isotopic ratios have been manipulated

680

00:29:56,910 --> 00:29:54,540

that's discussed yeah dramatically and

681

00:29:59,730 --> 00:29:56,920

there's ratios that aren't found on

682

00:30:02,880 --> 00:29:59,740

earth so and have never been created by

683

00:30:06,230 --> 00:30:02,890

humans so but require such a precision

684

00:30:10,580 --> 00:30:06,240

that you know it's certainly not chance

685

00:30:13,950 --> 00:30:10,590

I'm beyond any statistical probability

686

00:30:15,030 --> 00:30:13,960

but this material just think about it

687

00:30:16,350 --> 00:30:15,040

wouldn't you want to put as much

688

00:30:19,160 --> 00:30:16,360

abilities for a little energy

689

00:30:21,840 --> 00:30:19,170

expenditure as possible into your craft

690

00:30:23,160 --> 00:30:21,850

we try and do that with cars and we're

691

00:30:24,870 --> 00:30:23,170

just you know humans driving around on

692

00:30:28,620 --> 00:30:24,880

the surface of a planet not trying to

693

00:30:30,570 --> 00:30:28,630

travel great distances that's the whole

694

00:30:32,820 --> 00:30:30,580

point really you want to be as efficient

695

00:30:34,410 --> 00:30:32,830

as possible yeah and at the lowest

696

00:30:36,240 --> 00:30:34,420

energy expenditure and you're gonna have

697

00:30:38,240 --> 00:30:36,250

necessities you know if you're gonna be

698

00:30:40,890 --> 00:30:38,250

visiting another civilization that's

699

00:30:43,140 --> 00:30:40,900

starting to break off the planet and

700

00:30:45,360 --> 00:30:43,150

have technology that you're gonna want

701
00:30:47,130 --> 00:30:45,370
to use a meta material that bends light

702
00:30:49,710 --> 00:30:47,140
around it or have a capability to be

703
00:30:51,510 --> 00:30:49,720
invisible you know I think there's a big

704
00:30:53,010 --> 00:30:51,520
misconception that a lot of crafts are

705
00:30:54,960 --> 00:30:53,020
transdimensional when many of those

706
00:30:58,280 --> 00:30:54,970
crafts are either natural light

707
00:31:00,570 --> 00:30:58,290
phenomena or real UFOs that aren't

708
00:31:02,280 --> 00:31:00,580
utilizing transdimensional technology

709
00:31:05,310 --> 00:31:02,290
they're just utilizing camouflage

710
00:31:06,870 --> 00:31:05,320
ability or other things that appear

711
00:31:11,040 --> 00:31:06,880
transdimensional like incredibly fast

712
00:31:13,520 --> 00:31:11,050
speeds what I think is interesting is

713
00:31:16,640 --> 00:31:13,530

the the Office of Naval Research is

714

00:31:21,720 --> 00:31:16,650

still to this day trying to study

715

00:31:23,400 --> 00:31:21,730

various octopus and squid and critters

716

00:31:27,150 --> 00:31:23,410

like that that can that camouflage

717

00:31:28,680 --> 00:31:27,160

themselves amazingly well yeah they're

718

00:31:31,920 --> 00:31:28,690

still looking at that very very

719

00:31:33,810 --> 00:31:31,930

carefully to try to develop these kinds

720

00:31:36,120 --> 00:31:33,820

of functions as well one thing that I've

721

00:31:38,010 --> 00:31:36,130

always found kind of interesting is it's

722

00:31:41,040 --> 00:31:38,020

very easy yet for any of us to just go

723

00:31:45,180 --> 00:31:41,050

out and buy a little gadget that will

724

00:31:48,450 --> 00:31:45,190

basically levitate a small top that kind

725

00:31:51,390 --> 00:31:48,460

of thing yeah there's also a nitinol

726

00:31:54,030 --> 00:31:51,400

which is a shape memory alloy that's

727

00:31:56,010 --> 00:31:54,040

pretty well known but the thing about

728

00:31:58,620 --> 00:31:56,020

that both of those type things is you

729

00:32:01,110 --> 00:31:58,630

need an external catalyst to get the

730

00:32:03,960 --> 00:32:01,120

desired effect whereas it would seem

731

00:32:06,660 --> 00:32:03,970

that that the catalysts to get these

732

00:32:09,060 --> 00:32:06,670

effects need to come internally and you

733

00:32:11,880 --> 00:32:09,070

need to be able to carry it around with

734

00:32:14,070 --> 00:32:11,890

you inside some kind of a vehicle in

735

00:32:17,790 --> 00:32:14,080

order to make it work it you can't very

736

00:32:19,800 --> 00:32:17,800

well you know carry something around

737

00:32:21,540 --> 00:32:19,810

externally to get the desired effect

738

00:32:23,640 --> 00:32:21,550

that it wouldn't work it doesn't make

739

00:32:25,290 --> 00:32:23,650

any sense so they've got to do something

740

00:32:28,920 --> 00:32:25,300

internally to get these kind of effects

741

00:32:30,330 --> 00:32:28,930

and if you look carefully at some of the

742

00:32:31,980 --> 00:32:30,340

more recent stuff that has come out

743

00:32:32,850 --> 00:32:31,990

about the metamaterial and stuff that's

744

00:32:35,490 --> 00:32:32,860

going to come out more in the future

745

00:32:38,550 --> 00:32:35,500

there is a radioactive element built

746

00:32:43,500 --> 00:32:38,560

into the material that has a very low

747

00:32:46,890 --> 00:32:43,510

power output that is basically a power

748

00:32:50,190 --> 00:32:46,900

source for the craft and for the skin

749

00:32:52,770 --> 00:32:50,200

and for some of these abilities and you

750

00:32:54,420 --> 00:32:52,780

have to think if the propulsion system

751

00:32:57,480 --> 00:32:54,430

is nothing that you can see visually

752

00:32:59,970 --> 00:32:57,490

like a classic Newtonian you know kind

753

00:33:01,560 --> 00:32:59,980

of rocket then they have to be doing

754

00:33:03,810 --> 00:33:01,570

this you know they're obviously doing

755

00:33:06,540 --> 00:33:03,820

anti-gravity X gravity nullification is

756

00:33:08,910 --> 00:33:06,550

one aspect but then how do you propel it

757

00:33:11,220 --> 00:33:08,920

that's a different aspect as well too so

758

00:33:12,810 --> 00:33:11,230

there's many layers to this you know

759

00:33:14,880 --> 00:33:12,820

puzzle and mystery and there's a lot of

760

00:33:16,380 --> 00:33:14,890

different you know people who have

761

00:33:19,230 --> 00:33:16,390

allowed different insights into

762

00:33:21,240 --> 00:33:19,240

propulsion systems as well but it's it's

763

00:33:23,160 --> 00:33:21,250

all just endlessly fascinating it's so

764

00:33:25,140 --> 00:33:23,170

freakin cool and so freakin cool to

765

00:33:27,420 --> 00:33:25,150

explore and as an experimenter and

766

00:33:30,780 --> 00:33:27,430

someone who's so passionate about the

767

00:33:32,850 --> 00:33:30,790

subject to be in a position to be in a

768

00:33:34,640 --> 00:33:32,860

front row seat and to be talking to some

769

00:33:36,660 --> 00:33:34,650

of these incredible scientists and

770

00:33:38,460 --> 00:33:36,670

incredible people and incredible

771

00:33:40,590 --> 00:33:38,470

experiences and just to be a part of

772

00:33:41,100 --> 00:33:40,600

this whole community is just just it's

773

00:33:45,270 --> 00:33:41,110

awesome

774

00:33:47,940 --> 00:33:45,280

greatest mystery of humanity's history

775

00:33:49,770 --> 00:33:47,950

really when you really really think

776

00:33:52,560 --> 00:33:49,780

about it it's the biggest mystery there

777

00:33:55,350 --> 00:33:52,570

is but also it ties a bunch of other

778

00:33:57,690 --> 00:33:55,360

mysteries with 1bo everything from

779

00:34:00,030 --> 00:33:57,700

remote viewing to quantum physics to the

780

00:34:02,820 --> 00:34:00,040

mysteries of the subconscious all tie

781

00:34:07,770 --> 00:34:02,830

together you know with this Sun Deck so

782

00:34:11,130 --> 00:34:07,780

a multi it's a multi shell that little

783

00:34:15,990 --> 00:34:11,140

Russian doll okay yes multidisciplinary

784

00:34:19,290 --> 00:34:16,000

without a doubt real quick ap your group

785

00:34:26,430 --> 00:34:19,300

is so - I'm sure I get information from

786

00:34:28,590 --> 00:34:26,440

these advanced ETS is any of it of a

787

00:34:32,399 --> 00:34:28,600

technical nature are you trying to

788

00:34:35,250 --> 00:34:32,409

decipher what some of these meta

789

00:34:36,730 --> 00:34:35,260

materials do through contact with them

790

00:34:39,220 --> 00:34:36,740

are you getting some other

791

00:34:42,909 --> 00:34:39,230

questions answered or is the information

792

00:34:46,899 --> 00:34:42,919

you're gathering of more of a social

793

00:34:48,369 --> 00:34:46,909

nature that type of thing well we're

794

00:34:51,580 --> 00:34:48,379

getting it from multiple ways and I can

795

00:34:53,080 --> 00:34:51,590

just be frank to a certain degree is

796

00:34:55,330 --> 00:34:53,090

we're getting it from both kind of ways

797

00:34:57,280 --> 00:34:55,340

and we've had validation on some of our

798

00:35:00,250 --> 00:34:57,290

more esoteric ways to get information so

799

00:35:02,050 --> 00:35:00,260

we're kind of pleased on a not an

800

00:35:04,240 --> 00:35:02,060

egotistical sense but just in a factual

801
00:35:06,960 --> 00:35:04,250
sense when we get validation on kind of

802
00:35:09,880 --> 00:35:06,970
esoteric methods but also as a practical

803
00:35:11,800 --> 00:35:09,890
scientific kind of mind in person

804
00:35:14,109 --> 00:35:11,810
you also need other means as well to you

805
00:35:15,670 --> 00:35:14,119
can't take the esoteric just at face

806
00:35:18,310 --> 00:35:15,680
value you have to have corroborated

807
00:35:20,650 --> 00:35:18,320
evidence and so that's kind of how we

808
00:35:22,150 --> 00:35:20,660
we've operated with the subject so we've

809
00:35:25,900 --> 00:35:22,160
done multiple different kind of street

810
00:35:27,910 --> 00:35:25,910
information streams so what makes I'm

811
00:35:29,500 --> 00:35:27,920
sorry go ahead finish up when they all

812
00:35:31,330 --> 00:35:29,510
cross and they all hit the same note

813
00:35:32,770 --> 00:35:31,340

then you realized something's ringing

814

00:35:35,320 --> 00:35:32,780

there you know something's going on and

815

00:35:36,820 --> 00:35:35,330

if you make the right people upset you

816

00:35:41,320 --> 00:35:36,830

also know you're doing something right

817

00:35:43,599 --> 00:35:41,330

okay so with having uh somebody like

818

00:35:46,300 --> 00:35:43,609

Cogswell I mean is there something he

819

00:35:48,010 --> 00:35:46,310

would like to know a lot of times you've

820

00:35:50,890 --> 00:35:48,020

just got to ask the right question to

821

00:35:52,420 --> 00:35:50,900

get the right answer and sometimes you

822

00:35:55,240 --> 00:35:52,430

do need some technical background to

823

00:35:58,349 --> 00:35:55,250

even ask that right question of course

824

00:36:01,540 --> 00:35:58,359

of course and a lot of our scientific

825

00:36:03,430 --> 00:36:01,550

tests that we want to conduct we had to

826
00:36:05,200 --> 00:36:03,440
consult with some great minds because

827
00:36:06,520 --> 00:36:05,210
you know you're in life and in

828
00:36:08,230 --> 00:36:06,530
everything you're really only limited by

829
00:36:11,830 --> 00:36:08,240
your creativity and your intelligence

830
00:36:15,190 --> 00:36:11,840
and and your tenacity but we wanted the

831
00:36:18,070 --> 00:36:15,200
benefit of smarter minds thoughts of you

832
00:36:19,330 --> 00:36:18,080
know taking theories about a UFOs and

833
00:36:21,310 --> 00:36:19,340
extraterrestrials and reverse

834
00:36:25,180 --> 00:36:21,320
engineering them into testable

835
00:36:27,520 --> 00:36:25,190
real-world empirical tests for example

836
00:36:30,160 --> 00:36:27,530
it are if these are time travelers is

837
00:36:33,430 --> 00:36:30,170
there anything we could test physically

838
00:36:36,700 --> 00:36:33,440

scientifically to corroborate that or to

839

00:36:38,590 --> 00:36:36,710

maybe give us a hint into that and it

840

00:36:40,480 --> 00:36:38,600

ends up there are some ideas and some

841

00:36:43,210 --> 00:36:40,490

innovative thoughts about how to test

842

00:36:45,940 --> 00:36:43,220

for time travel one of them really

843

00:36:48,280 --> 00:36:45,950

simply is blackbody radiation the

844

00:36:49,770 --> 00:36:48,290

universe started in a much more ordered

845

00:36:53,870 --> 00:36:49,780

state

846

00:36:56,880 --> 00:36:53,880

and uh at a higher energy per location

847

00:36:58,470 --> 00:36:56,890

kind of ratio and over time it's

848

00:37:01,050 --> 00:36:58,480

expanding and the blackbody radiation is

849

00:37:03,000 --> 00:37:01,060

getting colder and colder over time so

850

00:37:05,100 --> 00:37:03,010

if we make a sighting and we're able to

851

00:37:07,110 --> 00:37:05,110

get a blackbody radiation

852

00:37:09,870 --> 00:37:07,120

baseline before the sighting and then

853

00:37:12,720 --> 00:37:09,880

right as the sighting happens we're able

854

00:37:16,620 --> 00:37:12,730

to get another blackbody radiation level

855

00:37:20,070 --> 00:37:16,630

that's far lower far colder than there's

856

00:37:22,230 --> 00:37:20,080

a strong chance that it could be from

857

00:37:24,000 --> 00:37:22,240

the future you know so there's tests

858

00:37:26,400 --> 00:37:24,010

like that that we could we could conduct

859

00:37:27,570 --> 00:37:26,410

as well to and the plan to conduct you

860

00:37:29,700 --> 00:37:27,580

know simple ones like optical

861

00:37:32,520 --> 00:37:29,710

spectrometry which can reveal major

862

00:37:35,700 --> 00:37:32,530

major information about a craft or a

863

00:37:37,560 --> 00:37:35,710

light source for example could you give

864

00:37:39,420 --> 00:37:37,570

me some examples sure what optical

865

00:37:40,830 --> 00:37:39,430

spectrometry first of those who don't

866

00:37:42,600 --> 00:37:40,840

understand what it is it basically is

867

00:37:45,390 --> 00:37:42,610

something they've utilized in astronomy

868

00:37:47,550 --> 00:37:45,400

for many years it's taking light from a

869

00:37:50,940 --> 00:37:47,560

distant object putting it through

870

00:37:52,320 --> 00:37:50,950

essentially a prism and anyone who's had

871

00:37:53,910 --> 00:37:52,330

junior high school science knows that if

872

00:37:56,460 --> 00:37:53,920

you put light through a prism it shoots

873

00:37:58,380 --> 00:37:56,470

out a rainbow and the really interesting

874

00:38:00,750 --> 00:37:58,390

thing happens depending on the light

875

00:38:03,750 --> 00:38:00,760

source in that rainbow there's a little

876

00:38:06,450 --> 00:38:03,760

black lawn and that interference pattern

877

00:38:09,060 --> 00:38:06,460

lets you know what elements are in that

878

00:38:11,040 --> 00:38:09,070

light source so despite the fact that a

879

00:38:13,170 --> 00:38:11,050

star may be millions of light years away

880

00:38:14,910 --> 00:38:13,180

we can take the light from That star and

881

00:38:17,220 --> 00:38:14,920

put it through optical spectrometry and

882

00:38:19,440 --> 00:38:17,230

if to find out what elements that Sun is

883

00:38:20,880 --> 00:38:19,450

made out of and it sounds like magic to

884

00:38:22,260 --> 00:38:20,890

be able to detect that sort of a thing

885

00:38:24,630 --> 00:38:22,270

from a distance but it's a real real

886

00:38:26,760 --> 00:38:24,640

science so the same is true with these

887

00:38:29,070 --> 00:38:26,770

craft even in distant craft if we're

888

00:38:31,200 --> 00:38:29,080

able to isolate the light and put it

889

00:38:32,850 --> 00:38:31,210

through optical spectrometry we can get

890

00:38:34,590 --> 00:38:32,860

interesting information and this is not

891

00:38:35,880 --> 00:38:34,600

the first time this has been done many

892

00:38:38,490 --> 00:38:35,890

different groups are doing this Chris

893

00:38:40,890 --> 00:38:38,500

Mullins data you a UFO data project is

894

00:38:43,850 --> 00:38:40,900

attempting this as well - but groups

895

00:38:47,040 --> 00:38:43,860

like in Norway the hospital and Lights

896

00:38:48,600 --> 00:38:47,050

group of scientists did optical

897

00:38:50,550 --> 00:38:48,610

spectrometry and those reoccurring

898

00:38:52,500 --> 00:38:50,560

phenomena and found amazing information

899

00:38:55,020 --> 00:38:52,510

like some of those lights contain

900

00:38:57,150 --> 00:38:55,030

scandium which is a rare earth element

901
00:39:00,090 --> 00:38:57,160
so there's really cool stuff that we can

902
00:39:02,289 --> 00:39:00,100
find out from scientific tests and I'm

903
00:39:09,729 --> 00:39:02,299
assuming the scandium

904
00:39:11,489 --> 00:39:09,739
would not be like an aircraft light for

905
00:39:14,859 --> 00:39:11,499
example or something along those lines

906
00:39:18,069 --> 00:39:14,869
correct this the hostile and phenomena

907
00:39:20,469 --> 00:39:18,079
is a really interesting light ball kind

908
00:39:22,959 --> 00:39:20,479
of phenomenon I personally I'm not sure

909
00:39:25,689 --> 00:39:22,969
if it's I'm more suspicious it's a

910
00:39:29,439 --> 00:39:25,699
natural geomagnetic kind of plasma

911
00:39:32,559 --> 00:39:29,449
phenomena but there's so much that we

912
00:39:33,999 --> 00:39:32,569
don't understand on earth and that's

913
00:39:35,559 --> 00:39:34,009

that's one of them but they there's

914

00:39:39,009 --> 00:39:35,569

there's been many years of research

915

00:39:40,479 --> 00:39:39,019

there and it's verified and they have

916

00:39:43,329 --> 00:39:40,489

multiple pictures of these different

917

00:39:45,759 --> 00:39:43,339

light balls and light forms and they

918

00:39:48,370 --> 00:39:45,769

move credibly weird to do some very

919

00:39:49,660 --> 00:39:48,380

bizarre stuff and they've detected

920

00:39:51,789 --> 00:39:49,670

elements in them and there's a list of

921

00:39:53,620 --> 00:39:51,799

those elements and scandium to me was

922

00:39:55,509 --> 00:39:53,630

one that really jumped out but I can't

923

00:39:57,479 --> 00:39:55,519

remember the rest so I won't mention any

924

00:40:01,150 --> 00:39:57,489

but there were other metal other

925

00:40:02,499 --> 00:40:01,160

elements detected as well which is

926

00:40:04,779 --> 00:40:02,509

freaking cool when you think about it

927

00:40:06,699 --> 00:40:04,789

you know you can take data from numerous

928

00:40:08,469 --> 00:40:06,709

sightings and numerous events and you

929

00:40:11,339 --> 00:40:08,479

can put it together and you can

930

00:40:14,529 --> 00:40:11,349

extrapolate amazing information or

931

00:40:16,900 --> 00:40:14,539

indications of potential amazing

932

00:40:19,449 --> 00:40:16,910

information you can get closer and

933

00:40:21,759 --> 00:40:19,459

closer to the truth are you familiar

934

00:40:25,839 --> 00:40:21,769

with the Harley Rutledge's work at all

935

00:40:29,079 --> 00:40:25,849

back in the 70s no ok I'm sounds

936

00:40:31,539 --> 00:40:29,089

familiar yeah we had Irina Scott on a

937

00:40:33,519 --> 00:40:31,549

couple weeks back and we talked about

938

00:40:39,939 --> 00:40:33,529

his work a little bit where he had a

939

00:40:44,079 --> 00:40:39,949

number of he had set up know a sort of a

940

00:40:46,660 --> 00:40:44,089

UFO tracking setup through the Midwest

941

00:40:48,370 --> 00:40:46,670

Missouri and through that area and I

942

00:40:50,859 --> 00:40:48,380

don't know if he did that or not I was

943

00:40:52,299 --> 00:40:50,869

well just kind of curious see if you

944

00:40:54,309 --> 00:40:52,309

were a little bit more familiar with his

945

00:40:57,880 --> 00:40:54,319

work I didn't get that many details on

946

00:41:00,789 --> 00:40:57,890

exactly what he was measuring but they

947

00:41:02,919 --> 00:41:00,799

did capture some UFO information I don't

948

00:41:04,660 --> 00:41:02,929

know if they did that or not but it

949

00:41:07,120 --> 00:41:04,670

would be interesting if they did and

950

00:41:08,769 --> 00:41:07,130

that they did come up with something

951
00:41:10,959 --> 00:41:08,779
like that scandium or something else

952
00:41:13,209 --> 00:41:10,969
that would be unusual is that well sure

953
00:41:15,430 --> 00:41:13,219
if you knew about it or not no but you

954
00:41:17,470 --> 00:41:15,440
know of course I know about knids

955
00:41:18,850 --> 00:41:17,480
started by Bigelow and they bought the

956
00:41:20,170 --> 00:41:18,860
skinwalker ranch and went to the

957
00:41:23,130 --> 00:41:20,180
skinwalker ranch to try and understand

958
00:41:25,900 --> 00:41:23,140
the phenomena but the phenomena knew

959
00:41:28,120 --> 00:41:25,910
that this was a private corporation and

960
00:41:30,160 --> 00:41:28,130
that the results of any information

961
00:41:32,320 --> 00:41:30,170
gleaned would go to private corporate

962
00:41:35,740 --> 00:41:32,330
use and probably destroy the planet a

963
00:41:38,230 --> 00:41:35,750

little faster so the phenomena chose not

964

00:41:41,230 --> 00:41:38,240

to reveal itself to them under cameras

965

00:41:44,290 --> 00:41:41,240

and instead chose to play trickster and

966

00:41:45,820 --> 00:41:44,300

mess with them and I bet if you were put

967

00:41:47,620 --> 00:41:45,830

in that position you would do the same

968

00:41:49,360 --> 00:41:47,630

thing I would do the same thing if I

969

00:41:50,980 --> 00:41:49,370

knew a private corporation wanted to

970

00:41:52,600 --> 00:41:50,990

find out my secrets to help to store the

971

00:41:54,580 --> 00:41:52,610

planet faster I would play trickster as

972

00:41:56,470 --> 00:41:54,590

well and I think that's exactly what the

973

00:41:58,060 --> 00:41:56,480

phenomena did and I think it's in a

974

00:42:01,420 --> 00:41:58,070

crucial point about what makes our

975

00:42:02,890 --> 00:42:01,430

project different is we believe all of

976

00:42:04,720 --> 00:42:02,900

this stuff is in the control of the

977

00:42:07,090 --> 00:42:04,730

extraterrestrials the advanced

978

00:42:09,900 --> 00:42:07,100

civilizations that are indisputably

979

00:42:11,890 --> 00:42:09,910

visiting us everything is it there

980

00:42:13,450 --> 00:42:11,900

whether we like to believe we're in

981

00:42:15,850 --> 00:42:13,460

control or not they can read

982

00:42:18,160 --> 00:42:15,860

consciousness that's been indisputably I

983

00:42:20,530 --> 00:42:18,170

can proven by so many different cases

984

00:42:23,830 --> 00:42:20,540

and reports and military reports and

985

00:42:25,630 --> 00:42:23,840

pilots and thing after thing so they can

986

00:42:28,240 --> 00:42:25,640

read our consciousness you can't fake

987

00:42:29,950 --> 00:42:28,250

your intentions and we believe that our

988

00:42:33,130 --> 00:42:29,960

group believes that they are here for

989

00:42:36,100 --> 00:42:33,140

two main reasons one is you know

990

00:42:38,380 --> 00:42:36,110

protection of the biosphere and two

991

00:42:39,700 --> 00:42:38,390

gathering information data is the most

992

00:42:41,110 --> 00:42:39,710

valuable thing in the universe so

993

00:42:43,330 --> 00:42:41,120

they're gathering data and information

994

00:42:47,470 --> 00:42:43,340

and biological samples but at the same

995

00:42:51,390 --> 00:42:47,480

time we think that they're not going to

996

00:42:54,490 --> 00:42:51,400

allow themselves to be captured unless

997

00:42:56,470 --> 00:42:54,500

we they're not gonna love themselves to

998

00:42:59,130 --> 00:42:56,480

be captured unless weird the right type

999

00:43:02,470 --> 00:42:59,140

of person to capture that information in

1000

00:43:04,270 --> 00:43:02,480

they know our goals they read our hearts

1001
00:43:09,430 --> 00:43:04,280
and you can't fake those things you know

1002
00:43:11,650 --> 00:43:09,440
so we're we're confident that the

1003
00:43:13,810 --> 00:43:11,660
phenomena will allow us to capture this

1004
00:43:15,430 --> 00:43:13,820
data because it's for the people it's

1005
00:43:17,230 --> 00:43:15,440
gonna be live-streamed everything is

1006
00:43:19,330 --> 00:43:17,240
instantly gonna be dumps to the people

1007
00:43:21,370 --> 00:43:19,340
let's by the people for the people this

1008
00:43:23,140 --> 00:43:21,380
is not a profit project we don't beg and

1009
00:43:24,610 --> 00:43:23,150
ask for money we don't sell t-shirts

1010
00:43:26,800 --> 00:43:24,620
with our logos on it

1011
00:43:27,700 --> 00:43:26,810
we're not sponsored by any company this

1012
00:43:31,180 --> 00:43:27,710
is kind of

1013
00:43:34,150 --> 00:43:31,190

like you know a grassroots people's

1014

00:43:35,560 --> 00:43:34,160

open-source disclosure project and we

1015

00:43:36,940 --> 00:43:35,570

think others should start the same thing

1016

00:43:40,480 --> 00:43:36,950

you know you don't have to support our

1017

00:43:42,010 --> 00:43:40,490

effort support another groups just as

1018

00:43:44,680 --> 00:43:42,020

long as it's not going to some private

1019

00:43:48,160 --> 00:43:44,690

industry or you know for major profit

1020

00:43:50,050 --> 00:43:48,170

and we also think those kind of things

1021

00:43:52,329 --> 00:43:50,060

will increase your chances of success as

1022

00:43:54,630 --> 00:43:52,339

well too if you have altruistic motives

1023

00:43:57,970 --> 00:43:54,640

and goals that will increase your chance

1024

00:44:00,910 --> 00:43:57,980

so I you have do you have a timeline or

1025

00:44:04,030 --> 00:44:00,920

a game plan set up yeah we're in the

1026
00:44:05,829 --> 00:44:04,040
summer months now it's easy to spend a

1027
00:44:08,740 --> 00:44:05,839
lot of time outside much easier than it

1028
00:44:11,380 --> 00:44:08,750
is say in December or January is this

1029
00:44:14,170 --> 00:44:11,390
are you like in season our and it

1030
00:44:15,760 --> 00:44:14,180
doesn't reach answer it started now it

1031
00:44:18,700 --> 00:44:15,770
does matter actually and you bring up a

1032
00:44:23,349 --> 00:44:18,710
cogent just reality of staying outdoors

1033
00:44:27,880 --> 00:44:23,359
all night and we're starting with some

1034
00:44:29,589 --> 00:44:27,890
of our tests at location X let's say in

1035
00:44:31,839 --> 00:44:29,599
a few weeks and those tests are just

1036
00:44:33,910 --> 00:44:31,849
designed to get us the meditators the

1037
00:44:36,820 --> 00:44:33,920
videographers and the scientists and our

1038
00:44:38,650 --> 00:44:36,830

order of procedures all in the same page

1039

00:44:40,480 --> 00:44:38,660

and what happens if this happens and

1040

00:44:42,790 --> 00:44:40,490

what happens if that happens and get you

1041

00:44:44,140 --> 00:44:42,800

know herding cats kind of thing so we're

1042

00:44:47,320 --> 00:44:44,150

gonna be doing a little bit of that and

1043

00:44:51,579 --> 00:44:47,330

then we hope to go to five UFO hot spots

1044

00:44:53,500 --> 00:44:51,589

around the country and you know if we

1045

00:44:58,990 --> 00:44:53,510

have enough ability to do that it's not

1046

00:45:00,460 --> 00:44:59,000

an inexpensive project or an expense you

1047

00:45:03,280 --> 00:45:00,470

know taking people around the country

1048

00:45:06,339 --> 00:45:03,290

and equipment is not you know it has

1049

00:45:10,120 --> 00:45:06,349

obvious requirements so but we're gonna

1050

00:45:12,550 --> 00:45:10,130

start here at the location X and go from

1051
00:45:15,400 --> 00:45:12,560
there so it's committal be completely

1052
00:45:17,230 --> 00:45:15,410
open-source you'll be able to carry it

1053
00:45:19,839 --> 00:45:17,240
live stream it if he wants anyone's

1054
00:45:21,550 --> 00:45:19,849
welcome to piggyback and you know

1055
00:45:24,730 --> 00:45:21,560
simulcast the live stream it's

1056
00:45:26,740 --> 00:45:24,740
completely open-source sounds like so

1057
00:45:29,109 --> 00:45:26,750
we're starting soon yeah we hope to get

1058
00:45:32,740 --> 00:45:29,119
to a few locations by the time it gets

1059
00:45:34,780 --> 00:45:32,750
too cold well I guess if you go down

1060
00:45:37,359 --> 00:45:34,790
south littles that you've got a larger

1061
00:45:40,210 --> 00:45:37,369
window to work with definitely now you

1062
00:45:40,840 --> 00:45:40,220
had mentioned being in the the Hudson

1063
00:45:43,210 --> 00:45:40,850

Valley

1064

00:45:45,760 --> 00:45:43,220

I think that's Merisi or a location down

1065

00:45:49,180 --> 00:45:45,770

too much and did you grow up in that

1066

00:45:51,520 --> 00:45:49,190

area and following up on that if you did

1067

00:45:54,220 --> 00:45:51,530

do it did any of your youthful

1068

00:45:56,140 --> 00:45:54,230

experiences dovetail with a very

1069

00:45:59,710 --> 00:45:56,150

well-known that flap of sightings in the

1070

00:46:04,540 --> 00:45:59,720

Hudson Valley back in the 80s I have no

1071

00:46:06,280 --> 00:46:04,550

connection to that flap in the 80s my

1072

00:46:09,370 --> 00:46:06,290

experiences were separate and in

1073

00:46:11,080 --> 00:46:09,380

separate geography and my coming to the

1074

00:46:13,090 --> 00:46:11,090

Hudson Valley it was just kind of like a

1075

00:46:15,580 --> 00:46:13,100

crazy synchronicity of all Egypt factors

1076
00:46:18,520 --> 00:46:15,590
came together and bless of blessings and

1077
00:46:22,840 --> 00:46:18,530
you know things allowed me to have this

1078
00:46:24,130 --> 00:46:22,850
place about mmm it's like six to seven

1079
00:46:26,350 --> 00:46:24,140
years ago so I've only been in the

1080
00:46:30,130 --> 00:46:26,360
Hudson Valley that period of time about

1081
00:46:33,580 --> 00:46:30,140
seven about seven years so I was not

1082
00:46:34,960 --> 00:46:33,590
involved in that laughs in Pine Bush in

1083
00:46:36,670 --> 00:46:34,970
the Hudson Valley and other places in

1084
00:46:38,700 --> 00:46:36,680
the Hudson Valley but I am very well

1085
00:46:40,720 --> 00:46:38,710
aware of it and that research did and

1086
00:46:43,060 --> 00:46:40,730
what about some other folks in your

1087
00:46:44,080 --> 00:46:43,070
group were they around then oh yeah

1088
00:46:46,480 --> 00:46:44,090

yeah there was a couple people in the

1089

00:46:50,470 --> 00:46:46,490

group from the area go around then no

1090

00:46:52,690 --> 00:46:50,480

one that is in our group claims to have

1091

00:46:54,700 --> 00:46:52,700

seen it but knows people who were you

1092

00:47:00,970 --> 00:46:54,710

know like third perk third party kind of

1093

00:47:02,380 --> 00:47:00,980

stuff again it's it's you know before we

1094

00:47:04,420 --> 00:47:02,390

were talking about setting up a general

1095

00:47:06,520 --> 00:47:04,430

geography that is conducive of

1096

00:47:10,740 --> 00:47:06,530

visitation and the Hudson Valley is very

1097

00:47:15,670 --> 00:47:10,750

much like that azzam not a super busy

1098

00:47:19,060 --> 00:47:15,680

area it's you know more rule and so it's

1099

00:47:21,580 --> 00:47:19,070

more conducive for contact day it's a

1100

00:47:24,070 --> 00:47:21,590

great area I know it probably from

1101

00:47:25,990 --> 00:47:24,080

basically the Jersey line up to maybe

1102

00:47:28,240 --> 00:47:26,000

about West Point I'm going to assume

1103

00:47:30,640 --> 00:47:28,250

that you're well north of that area but

1104

00:47:32,830 --> 00:47:30,650

it's a it's a fun interesting area

1105

00:47:35,380 --> 00:47:32,840

really is I like that part of the

1106

00:47:39,070 --> 00:47:35,390

country pretty well and there's a lot of

1107

00:47:41,620 --> 00:47:39,080

ongoing you know stuff going on here so

1108

00:47:42,940 --> 00:47:41,630

it's it's a very I don't know why I know

1109

00:47:45,760 --> 00:47:42,950

I don't completely understand all the

1110

00:47:47,560 --> 00:47:45,770

different phenomena or reasons why and

1111

00:47:49,330 --> 00:47:47,570

what makes this location I don't know

1112

00:47:51,960 --> 00:47:49,340

all the pieces you know I'm just in a

1113

00:47:54,340 --> 00:47:51,970

enthralled student as much as anybody

1114

00:47:55,630 --> 00:47:54,350

sometimes people think I've got a

1115

00:47:57,820 --> 00:47:55,640

the answers I don't I've got some

1116

00:47:59,320 --> 00:47:57,830

insights and observations in some

1117

00:48:01,720 --> 00:47:59,330

connections and different people who

1118

00:48:03,790 --> 00:48:01,730

have insights as well too and different

1119

00:48:05,950 --> 00:48:03,800

ways of getting information but I'm just

1120

00:48:11,920 --> 00:48:05,960

as much an enthralled enamoured and

1121

00:48:13,870 --> 00:48:11,930

amazed student as anybody then one to

1122

00:48:15,250 --> 00:48:13,880

saw when this project is coming up when

1123

00:48:16,870 --> 00:48:15,260

they're gonna be when you guys are gonna

1124

00:48:18,670 --> 00:48:16,880

be live-streaming these events how are

1125

00:48:20,560 --> 00:48:18,680

people gonna find out about that is that

1126
00:48:23,050 --> 00:48:20,570
to your YouTube or you know the website

1127
00:48:24,340 --> 00:48:23,060
up by that on YouTube we're we should

1128
00:48:25,870 --> 00:48:24,350
have our website up hopefully this week

1129
00:48:29,440 --> 00:48:25,880
we've got two different versions of it

1130
00:48:30,730 --> 00:48:29,450
and on two different platforms and we're

1131
00:48:33,790 --> 00:48:30,740
gonna launch everything at the same time

1132
00:48:36,010 --> 00:48:33,800
I guess and it'll be simulcast on our

1133
00:48:37,540 --> 00:48:36,020
YouTube and anyone else can you reach

1134
00:48:39,070 --> 00:48:37,550
out to us direct if they want to try and

1135
00:48:42,150 --> 00:48:39,080
stream in other ways you can talk to our

1136
00:48:45,940 --> 00:48:42,160
technical people and you know we have

1137
00:48:48,550 --> 00:48:45,950
some realistic concerns one is because

1138
00:48:52,980 --> 00:48:48,560

we're looking to get data we're

1139

00:48:55,750 --> 00:48:52,990

concerned that certain groups or

1140

00:48:57,820 --> 00:48:55,760

organizations might want to acquire our

1141

00:49:01,000 --> 00:48:57,830

data before we're able to give it to the

1142

00:49:03,060 --> 00:49:01,010

people and so we're trying to put

1143

00:49:07,360 --> 00:49:03,070

together or some methods and means to

1144

00:49:08,680 --> 00:49:07,370

ensure our ability to do that so if

1145

00:49:10,630 --> 00:49:08,690

there's anyone out there who has any

1146

00:49:13,090 --> 00:49:10,640

innovative ideas and knows exactly what

1147

00:49:16,440 --> 00:49:13,100

I'm talking about we welcome their their

1148

00:49:35,260 --> 00:49:16,450

input and anyone who would like to help

1149

00:49:38,050 --> 00:49:35,270

you know we have a larger document

1150

00:49:40,840 --> 00:49:38,060

that's a kind of a fuller way to create

1151

00:49:43,090 --> 00:49:40,850

and initiate or respond to an initiation

1152

00:49:45,040 --> 00:49:43,100

of contact but we also have different

1153

00:49:47,050 --> 00:49:45,050

other PDFs that we're giving people now

1154

00:49:49,300 --> 00:49:47,060

so if they want the basic information on

1155

00:49:51,220 --> 00:49:49,310

basic cg5 we can give them that stuff if

1156

00:49:52,960 --> 00:49:51,230

they're already having successful ce-5

1157

00:49:54,970 --> 00:49:52,970

don't want try and get it closer we can

1158

00:49:56,950 --> 00:49:54,980

give them our small pack of the

1159

00:49:59,140 --> 00:49:56,960

quote/unquote advanced protocol for

1160

00:50:03,010 --> 00:49:59,150

whatever you know they're worth to you

1161

00:50:05,950 --> 00:50:03,020

know whoever we gladly share anything we

1162

00:50:07,180 --> 00:50:05,960

have so and if if other people have UFO

1163

00:50:08,110 --> 00:50:07,190

data and they want to give it to us

1164

00:50:09,460 --> 00:50:08,120

we've had a lot

1165

00:50:11,650 --> 00:50:09,470

different groups and people and

1166

00:50:15,250 --> 00:50:11,660

interesting people give us UFO data and

1167

00:50:16,630 --> 00:50:15,260

information and all everything is

1168

00:50:18,280 --> 00:50:16,640

transparent for the people so if you

1169

00:50:19,630 --> 00:50:18,290

want UFO data if you're looking for

1170

00:50:21,460 --> 00:50:19,640

information on certain types of

1171

00:50:23,950 --> 00:50:21,470

sightings or certain types of events we

1172

00:50:25,690 --> 00:50:23,960

might have some insights and we are

1173

00:50:27,430 --> 00:50:25,700

doing a little bit of data mining now

1174

00:50:28,810 --> 00:50:27,440

but it's not really our our main

1175

00:50:30,790 --> 00:50:28,820

objective we want to gather more data

1176

00:50:36,190 --> 00:50:30,800

before we start some data mining

1177

00:50:37,750 --> 00:50:36,200

projects and you said the the first live

1178

00:50:39,970 --> 00:50:37,760

stream is gonna be about three weeks or

1179

00:50:42,850 --> 00:50:39,980

now yeah about three weeks from now will

1180

00:50:45,280 --> 00:50:42,860

be just a test of some meditators and

1181

00:50:47,800 --> 00:50:45,290

some of the equipment stuff and we will

1182

00:50:51,550 --> 00:50:47,810

a live stream art our dress rehearsal

1183

00:50:53,580 --> 00:50:51,560

our stuff even though it'll be messy

1184

00:50:56,380 --> 00:50:53,590

because we're gonna be you know working

1185

00:50:59,890 --> 00:50:56,390

means some procedures but I think it's

1186

00:51:05,430 --> 00:50:59,900

important to kind of include everybody

1187

00:51:08,200 --> 00:51:05,440

on all that stuff as well so absolutely

1188

00:51:11,350 --> 00:51:08,210

alright well that's all about I got

1189

00:51:14,050 --> 00:51:11,360

Frank what are you uh well yeah I just

1190

00:51:17,500 --> 00:51:14,060

want to go back into a little bit about

1191

00:51:19,600 --> 00:51:17,510

the the technical end of things if you

1192

00:51:21,760 --> 00:51:19,610

have a specifically gathered some

1193

00:51:24,040 --> 00:51:21,770

information that you think might be of

1194

00:51:27,820 --> 00:51:24,050

some benefit on the technical end for

1195

00:51:30,880 --> 00:51:27,830

for all us folks oh yeah we we've

1196

00:51:32,950 --> 00:51:30,890

gathered data from multiple different

1197

00:51:35,170 --> 00:51:32,960

very interesting sources and it's real

1198

00:51:37,870 --> 00:51:35,180

hard data there's a UFO data reports

1199

00:51:39,790 --> 00:51:37,880

there's sighting reports there's a

1200

00:51:42,790 --> 00:51:39,800

variety of different types of data we've

1201
00:51:48,910 --> 00:51:42,800
gathered not only you know a unique film

1202
00:51:51,280 --> 00:51:48,920
and video and stuff but also metrics so

1203
00:51:54,910 --> 00:51:51,290
we're we and other stuff we've been

1204
00:51:56,980 --> 00:51:54,920
acquiring some interesting stuff so you

1205
00:51:58,870 --> 00:51:56,990
know we'll release it in time you know

1206
00:52:01,750 --> 00:51:58,880
the stuff like videos and pictures don't

1207
00:52:05,650 --> 00:52:01,760
really do much nowadays they have to

1208
00:52:09,550 --> 00:52:05,660
have corroborated simultaneous evidence

1209
00:52:10,960 --> 00:52:09,560
and so we want to before we you know

1210
00:52:13,240 --> 00:52:10,970
although we say we're transparent

1211
00:52:14,920 --> 00:52:13,250
transparent transparent there's some

1212
00:52:16,750 --> 00:52:14,930
stuff we're not releasing just yet until

1213
00:52:17,860 --> 00:52:16,760

it's more advantageous time you know we

1214

00:52:21,070 --> 00:52:17,870

don't want to shoot ourselves in the

1215

00:52:21,990 --> 00:52:21,080

foot and release information prematurely

1216

00:52:25,650 --> 00:52:22,000

that might hurt our own

1217

00:52:28,110 --> 00:52:25,660

efforts so but we have acquired data and

1218

00:52:30,720 --> 00:52:28,120

information now and when are we going to

1219

00:52:32,340 --> 00:52:30,730

see and hear from or if not see at least

1220

00:52:36,480 --> 00:52:32,350

hear from some other members of your

1221

00:52:37,680 --> 00:52:36,490

team some of them have already been on

1222

00:52:39,590 --> 00:52:37,690

the YouTube channel you can hear

1223

00:52:42,900 --> 00:52:39,600

everyone from our creative director to

1224

00:52:44,130 --> 00:52:42,910

our producer you can hear them talk

1225

00:52:47,820 --> 00:52:44,140

about their thoughts and perspectives

1226
00:52:50,820 --> 00:52:47,830
and there's some videos of members of

1227
00:52:52,830 --> 00:52:50,830
the group here that are going out and

1228
00:52:56,340 --> 00:52:52,840
there during some unlisted video shows

1229
00:52:58,260 --> 00:52:56,350
but I can give you the unlisted email

1230
00:53:01,680 --> 00:52:58,270
and your listeners can check out those

1231
00:53:03,300 --> 00:53:01,690
videos of some of the witnesses and but

1232
00:53:06,590 --> 00:53:03,310
you know in some ways we're not really

1233
00:53:10,020 --> 00:53:06,600
trying to promote our you know to

1234
00:53:12,210 --> 00:53:10,030
promote ourselves too much because we're

1235
00:53:13,620 --> 00:53:12,220
in the midst of this you know we want to

1236
00:53:16,020 --> 00:53:13,630
gather more information before we you

1237
00:53:18,990 --> 00:53:16,030
know try to make a circus of it you know

1238
00:53:21,090 --> 00:53:19,000

so uh but uh I'll send you a link to

1239

00:53:22,980 --> 00:53:21,100

some interesting videos and it would be

1240

00:53:25,350 --> 00:53:22,990

okay for us to pop that up in the

1241

00:53:28,400 --> 00:53:25,360

description of the of this video

1242

00:53:30,420 --> 00:53:28,410

sure absolutely okay okay and also um

1243

00:53:31,890 --> 00:53:30,430

you know if there's one other point to

1244

00:53:33,510 --> 00:53:31,900

make about all this and I think it's an

1245

00:53:34,920 --> 00:53:33,520

important aspect a really important

1246

00:53:38,160 --> 00:53:34,930

aspect that we haven't touched upon too

1247

00:53:41,490 --> 00:53:38,170

much and that's the powers of the kind

1248

00:53:43,260 --> 00:53:41,500

of subconscious to affect this remote

1249

00:53:47,450 --> 00:53:43,270

viewing and things like that all kind of

1250

00:53:50,820 --> 00:53:47,460

come together in a very strange weird

1251
00:53:52,350 --> 00:53:50,830
synchronicity with the UFO topic a lot

1252
00:53:54,290 --> 00:53:52,360
of remote viewers who started very

1253
00:53:56,730 --> 00:53:54,300
straight without a belief in UFOs

1254
00:53:59,040 --> 00:53:56,740
started with a real practical context

1255
00:54:00,960 --> 00:53:59,050
with remote viewing controlled remote

1256
00:54:03,360 --> 00:54:00,970
viewing like from Stanford Research

1257
00:54:05,310 --> 00:54:03,370
Institute and the Department of Defense

1258
00:54:07,050 --> 00:54:05,320
in the CIA when they did their efforts

1259
00:54:08,790 --> 00:54:07,060
there were numerous people who started

1260
00:54:11,670 --> 00:54:08,800
very straight who weren't UFO believers

1261
00:54:13,700 --> 00:54:11,680
but you kind of because of the nature of

1262
00:54:18,300 --> 00:54:13,710
the powers of the subconscious mm-hmm

1263
00:54:20,220 --> 00:54:18,310

you're kind of led to it and remote

1264

00:54:23,130 --> 00:54:20,230

viewing and some of these quote-unquote

1265

00:54:26,780 --> 00:54:23,140

psychic-ish phenomena I hate leaving the

1266

00:54:31,230 --> 00:54:26,790

word psychic relate directly to

1267

00:54:33,270 --> 00:54:31,240

transcendentalism to Buddhism to fit

1268

00:54:35,280 --> 00:54:33,280

hardcore physics to all these things

1269

00:54:37,290 --> 00:54:35,290

really all tied together

1270

00:54:39,720 --> 00:54:37,300

to those on the outside it sounds nutty

1271

00:54:42,750 --> 00:54:39,730

it sounds crazy that how could you know

1272

00:54:44,550 --> 00:54:42,760

physics combined with Buddhism can it

1273

00:54:46,860 --> 00:54:44,560

combine with UFOs and the power of the

1274

00:54:49,470 --> 00:54:46,870

subconscious I don't get it but those

1275

00:54:51,590 --> 00:54:49,480

who kind of do the research enough

1276

00:54:53,880 --> 00:54:51,600

research keep seeing that one

1277

00:54:56,250 --> 00:54:53,890

reoccurring theme keeps coming up

1278

00:54:57,720 --> 00:54:56,260

but it's consciousness consciousness

1279

00:55:00,720 --> 00:54:57,730

what does consciousness have to do with

1280

00:55:02,550 --> 00:55:00,730

this and it's a big part of cg5 being

1281

00:55:03,930 --> 00:55:02,560

able to tap it's not just going out

1282

00:55:05,820 --> 00:55:03,940

there wishing and hoping with your

1283

00:55:09,060 --> 00:55:05,830

conscious mind that you're gonna see

1284

00:55:11,160 --> 00:55:09,070

your craft it's about going a level

1285

00:55:13,320 --> 00:55:11,170

deeper into this kind of meditative

1286

00:55:16,410 --> 00:55:13,330

state where you shrink your physical

1287

00:55:19,500 --> 00:55:16,420

senses and you shrink your you're

1288

00:55:22,530 --> 00:55:19,510

absorbing of the stimuli that comes from

1289

00:55:24,630 --> 00:55:22,540

the material world and you still

1290

00:55:26,880 --> 00:55:24,640

yourself like a lake and when you're

1291

00:55:29,760 --> 00:55:26,890

still like a lake you can reflect the

1292

00:55:31,620 --> 00:55:29,770

universe and see any time or space or

1293

00:55:34,620 --> 00:55:31,630

connect with any time or space or thing

1294

00:55:38,910 --> 00:55:34,630

or great oneness some people call it the

1295

00:55:40,800 --> 00:55:38,920

Lyman and L I ME in or the monad or many

1296

00:55:44,480 --> 00:55:40,810

other different things some people call

1297

00:55:47,190 --> 00:55:44,490

it Chi Universal energy and information

1298

00:55:48,780 --> 00:55:47,200

dr. Vernon nepi who's a very well known

1299

00:55:50,400 --> 00:55:48,790

scientist now has a thing called the

1300

00:55:53,760 --> 00:55:50,410

gimel which is essentially a

1301
00:55:56,190 --> 00:55:53,770
consciousness field and as much as it

1302
00:55:59,520 --> 00:55:56,200
sounds weird and unrelated it actually

1303
00:56:02,820 --> 00:55:59,530
is completely related science now is

1304
00:56:05,850 --> 00:56:02,830
very seriously looking at the physical

1305
00:56:09,000 --> 00:56:05,860
reality of consciousness playing a role

1306
00:56:11,370 --> 00:56:09,010
in our universe and those who know about

1307
00:56:13,440 --> 00:56:11,380
the two double slit experiment and

1308
00:56:15,830 --> 00:56:13,450
entanglement and other aspects of

1309
00:56:18,330 --> 00:56:15,840
physics know that this is a real weird

1310
00:56:21,930 --> 00:56:18,340
phenomena and a real weird world we live

1311
00:56:23,970 --> 00:56:21,940
in and it seems as though there's two

1312
00:56:25,500 --> 00:56:23,980
forms of the universe there's a matter

1313
00:56:28,170 --> 00:56:25,510

and energy form of the universe that's

1314

00:56:30,630 --> 00:56:28,180

detectable and testable and then there's

1315

00:56:33,780 --> 00:56:30,640

another aspect of the universe that is

1316

00:56:35,520 --> 00:56:33,790

consciousness and that you know just

1317

00:56:40,820 --> 00:56:35,530

matter and in and of itself can't exist

1318

00:56:43,170 --> 00:56:40,830

without this kind of dual feedback

1319

00:56:44,430 --> 00:56:43,180

matter can't exist without consciousness

1320

00:56:47,130 --> 00:56:44,440

and consciousness can't exist without

1321

00:56:48,750 --> 00:56:47,140

matter and matter is meaningless without

1322

00:56:50,790 --> 00:56:48,760

consciousness and

1323

00:56:52,680 --> 00:56:50,800

that somehow consciousness is half of

1324

00:56:56,640 --> 00:56:52,690

everything that we experience everything

1325

00:56:57,990 --> 00:56:56,650

in our universe or more so it's just an

1326

00:57:01,860 --> 00:56:58,000

interesting aspect of it and the more

1327

00:57:04,740 --> 00:57:01,870

you develop a your the powers of your

1328

00:57:06,720 --> 00:57:04,750

intuition the more you develop your

1329

00:57:08,610 --> 00:57:06,730

abilities to shrink from this world and

1330

00:57:10,050 --> 00:57:08,620

become still like that lake and reflect

1331

00:57:13,470 --> 00:57:10,060

the universe the more you'll discover

1332

00:57:15,450 --> 00:57:13,480

things that seem just ridiculous like

1333

00:57:18,020 --> 00:57:15,460

the ability to see distant places and

1334

00:57:22,170 --> 00:57:18,030

times and things and locations and

1335

00:57:24,210 --> 00:57:22,180

information and even famous Buddhist

1336

00:57:27,000 --> 00:57:24,220

like Nagarjuna spoke about this 2,000

1337

00:57:32,400 --> 00:57:27,010

years ago so it's not like it's a secret

1338

00:57:34,800 --> 00:57:32,410

but I think hiding in plain sight it is

1339

00:57:40,110 --> 00:57:34,810

a little odd in that this aspect of

1340

00:57:42,330 --> 00:57:40,120

things related to yes P whatever you

1341

00:57:46,560 --> 00:57:42,340

want to call it is a little bit more

1342

00:57:48,420 --> 00:57:46,570

accessible to most folks UFOs maybe

1343

00:57:51,030 --> 00:57:48,430

you're into it maybe you're not but

1344

00:57:54,000 --> 00:57:51,040

usually yeah most everyone either has

1345

00:58:00,210 --> 00:57:54,010

personally or knows somebody who has

1346

00:58:01,680 --> 00:58:00,220

maybe had a stroke of intuition I've got

1347

00:58:04,680 --> 00:58:01,690

a bad feeling about this

1348

00:58:09,990 --> 00:58:04,690

that type of thing that has helped them

1349

00:58:14,130 --> 00:58:10,000

somewhere along the way and it is odd

1350

00:58:16,320 --> 00:58:14,140

you know when you look at the the - the

1351

00:58:18,480 --> 00:58:16,330

Stars consortium and its various

1352

00:58:21,210 --> 00:58:18,490

connections they're not talking about

1353

00:58:23,990 --> 00:58:21,220

this aspect openly this is a this is

1354

00:58:27,630 --> 00:58:24,000

coming from elsewhere back channel

1355

00:58:30,630 --> 00:58:27,640

quietly you're not seeing any talk about

1356

00:58:32,610 --> 00:58:30,640

this aspect of the phenomenon on CNN

1357

00:58:35,460 --> 00:58:32,620

it's fairly store on in the New York

1358

00:58:36,960 --> 00:58:35,470

Times it's fairly straightforward here's

1359

00:58:40,110 --> 00:58:36,970

an account of this case here's some

1360

00:58:42,060 --> 00:58:40,120

video we've also got this material that

1361

00:58:44,160 --> 00:58:42,070

we're taking a closer look at and that's

1362

00:58:47,160 --> 00:58:44,170

it they're they're not touching this

1363

00:58:48,510 --> 00:58:47,170

with a 10-foot Pole night in some ways I

1364

00:58:50,310 --> 00:58:48,520

understand it in other ways I think

1365

00:58:53,190 --> 00:58:50,320

maybe there's a little bit of irony

1366

00:58:56,220 --> 00:58:53,200

again because it is so accessible to

1367

00:58:58,830 --> 00:58:56,230

anyone you know it's what I've kind of

1368

00:59:02,309 --> 00:58:58,840

thought about it is this whole topic

1369

00:59:04,499 --> 00:59:02,319

this whole subject is a really big meal

1370

00:59:08,189 --> 00:59:04,509

and you can't eat it all in one mouthful

1371

00:59:10,559 --> 00:59:08,199

you have to have spoonfuls and in order

1372

00:59:12,299 --> 00:59:10,569

to have a good healthy meal you know at

1373

00:59:13,650 --> 00:59:12,309

the end and you know I think the

1374

00:59:14,849 --> 00:59:13,660

government is giving us spoonfuls at a

1375

00:59:17,489 --> 00:59:14,859

time I think different groups and

1376

00:59:20,969 --> 00:59:17,499

organizations serve different spoonful

1377

00:59:23,999 --> 00:59:20,979

purposes and society is slowly becoming

1378

00:59:25,529 --> 00:59:24,009

acclimated to these different aspects

1379

00:59:27,630 --> 00:59:25,539

but it's true what you say that it is

1380

00:59:30,089 --> 00:59:27,640

funny that there's more acceptance of

1381

00:59:32,849 --> 00:59:30,099

the psychic you want to call it that

1382

00:59:35,039 --> 00:59:32,859

phenomena because everyone kind of

1383

00:59:39,079 --> 00:59:35,049

experiences intuition everyone sees you

1384

00:59:41,249 --> 00:59:39,089

know animal instinct and crazy you know

1385

00:59:43,259 --> 00:59:41,259

statistical coincidences in their lives

1386

00:59:45,089 --> 00:59:43,269

and things so we can kind of relate to

1387

00:59:48,709 --> 00:59:45,099

that in a personal context not as many

1388

00:59:52,439 --> 00:59:48,719

people have had you know contact with

1389

00:59:54,390 --> 00:59:52,449

advanced civilizations or UFO or things

1390

00:59:56,699 --> 00:59:54,400

they could be misinterpreted as you know

1391

00:59:59,309 --> 00:59:56,709

from satellites do natural weird light

1392

01:00:03,089 --> 00:59:59,319

phenomena we don't even truly understand

1393

01:00:05,219 --> 01:00:03,099

yet god it's a it's a cruise that's a

1394

01:00:07,319 --> 01:00:05,229

crucial cool aspect of it and all the

1395

01:00:09,599 --> 01:00:07,329

people in the know all the the

1396

01:00:11,159 --> 01:00:09,609

researchers and top people all know that

1397

01:00:13,709 --> 01:00:11,169

it's a crucial aspect of it and it's the

1398

01:00:16,589 --> 01:00:13,719

missing piece of the puzzle and quantum

1399

01:00:19,679 --> 01:00:16,599

physics and the latest you know physics

1400

01:00:22,439 --> 01:00:19,689

and the most feverish fields and physics

1401

01:00:25,890 --> 01:00:22,449

deals with trying to add consciousness

1402

01:00:28,829 --> 01:00:25,900

to the equation and to the equation is

1403

01:00:30,539 --> 01:00:28,839

plural and it seems like dr. Vernon Epis

1404

01:00:32,729 --> 01:00:30,549

pretty close there's other people who

1405

01:00:35,370 --> 01:00:32,739

are very close to like dr. Jack Sarfati

1406

01:00:36,449 --> 01:00:35,380

with his post quantum mechanics he is a

1407

01:00:38,549 --> 01:00:36,459

jackass

1408

01:00:39,929 --> 01:00:38,559

jack is a pretty interesting guy okay

1409

01:00:40,589 --> 01:00:39,939

yeah I've been in contact with Jack a

1410

01:00:45,019 --> 01:00:40,599

little bit

1411

01:00:48,709 --> 01:00:45,029

oh yeah Jack's a friend and um just a

1412

01:00:52,319 --> 01:00:48,719

revolutionary intellect and he has

1413

01:00:56,489 --> 01:00:52,329

basically figured out how the cold

1414

01:00:58,349 --> 01:00:56,499

fusion micro wormhole tic-tac works and

1415

01:01:00,329 --> 01:00:58,359

it's all the same fault formula

1416

01:01:03,599 --> 01:01:00,339

basically describes not only cold fusion

1417

01:01:05,969 --> 01:01:03,609

but also maybe tiny little micro

1418

01:01:07,649 --> 01:01:05,979

wormholes not like a big wormhole portal

1419

01:01:09,689 --> 01:01:07,659

but a bunch of these tiny little micro

1420

01:01:13,319 --> 01:01:09,699

ones that hold the craft forward circle

1421

01:01:15,419 --> 01:01:13,329

absolutely in a row and he's got some

1422

01:01:16,140 --> 01:01:15,429

really revolutionary work and I keep

1423

01:01:18,059 --> 01:01:16,150

easing me

1424

01:01:20,039 --> 01:01:18,069

in mind as well - he never talks about

1425

01:01:22,049 --> 01:01:20,049

it though he does spends most of his

1426

01:01:26,660 --> 01:01:22,059

time talking about politics these days

1427

01:01:29,640 --> 01:01:26,670

in terms of his public output well

1428

01:01:31,470 --> 01:01:29,650

you're in the right circles he's kind of

1429

01:01:34,410 --> 01:01:31,480

like us he's very open source with his

1430

01:01:36,180 --> 01:01:34,420

formulas he posts them in the academic

1431

01:01:39,480 --> 01:01:36,190

journals and the different academic

1432

01:01:41,609 --> 01:01:39,490

sites so if you're you know privy to

1433

01:01:43,890 --> 01:01:41,619

those different academic sources he you

1434

01:01:46,170 --> 01:01:43,900

can get his stuff every week a new paper

1435

01:01:51,089 --> 01:01:46,180

or a new insight or new something and he

1436

01:01:52,859 --> 01:01:51,099

puts it out there open source so you

1437

01:01:56,390 --> 01:01:52,869

know his work needs financing his

1438

01:02:00,900 --> 01:01:56,400

experiments his ideas you know dr.

1439

01:02:03,150 --> 01:02:00,910

Campbell has gotten his Kickstarter over

1440

01:02:05,069 --> 01:02:03,160

150,000 dollars for his investigation of

1441

01:02:07,170 --> 01:02:05,079

the simulation theory and dr. Jack's

1442

01:02:09,420 --> 01:02:07,180

work certainly deserves that kind of

1443

01:02:12,420 --> 01:02:09,430

research - and to not only cold fusion

1444

01:02:14,670 --> 01:02:12,430

but warp drives and let me ask you about

1445

01:02:17,220 --> 01:02:14,680

that sim theory I that that is one thing

1446

01:02:19,920 --> 01:02:17,230

that is pretty fascinating to me and

1447

01:02:22,470 --> 01:02:19,930

I've got to tell you if someone were to

1448

01:02:24,809 --> 01:02:22,480

create a computer program that we're all

1449

01:02:27,089 --> 01:02:24,819

living through you would certainly put a

1450

01:02:30,779 --> 01:02:27,099

few Easter eggs in there like psychic

1451

01:02:32,700 --> 01:02:30,789

ability and terrestrials and all that

1452

01:02:35,220 --> 01:02:32,710

but what do you think about that do you

1453

01:02:37,470 --> 01:02:35,230

think there is any validity to it or are

1454

01:02:40,079 --> 01:02:37,480

we just living in a corporeal universe

1455

01:02:45,960 --> 01:02:40,089

and now you're going to really the the

1456

01:02:47,700 --> 01:02:45,970

levels below the levels below like Erich

1457

01:02:51,329 --> 01:02:47,710

von Daniken I am just asking the

1458

01:02:53,460 --> 01:02:51,339

questions you know well my I didn't

1459

01:02:54,990 --> 01:02:53,470

necessarily want to go here but you know

1460

01:02:59,010 --> 01:02:55,000

this is getting into my personal beliefs

1461

01:03:07,140 --> 01:02:59,020

a little bit more but I my speculation

1462

01:03:08,849 --> 01:03:07,150

is the science and the math behind the

1463

01:03:10,620 --> 01:03:08,859

probabilities as to whether we're a

1464

01:03:12,510 --> 01:03:10,630

simulation or not are highly indicative

1465

01:03:16,109 --> 01:03:12,520

that we're living in the simulation and

1466

01:03:18,930 --> 01:03:16,119

if we were living in a simulation you

1467

01:03:23,370 --> 01:03:18,940

don't have to wonder why and what were

1468

01:03:25,349 --> 01:03:23,380

the benefits be and if a simulation is

1469

01:03:27,720 --> 01:03:25,359

if the simulation is a free-form

1470

01:03:29,910 --> 01:03:27,730

simulation or nor is it a deterministic

1471

01:03:32,309 --> 01:03:29,920

simulation

1472

01:03:35,460 --> 01:03:32,319

if it is what it seems like a

1473

01:03:39,299 --> 01:03:35,470

deterministic world where everything is

1474

01:03:41,190 --> 01:03:39,309

known why would a computer do this why

1475

01:03:43,650 --> 01:03:41,200

would it and artificial intelligence do

1476

01:03:47,190 --> 01:03:43,660

this the only thing that I can think of

1477

01:03:48,299 --> 01:03:47,200

is why would you have a simulation and

1478

01:03:50,039 --> 01:03:48,309

we've had some videos like this on our

1479

01:03:52,079 --> 01:03:50,049

site but there's a lot of different

1480

01:03:53,640 --> 01:03:52,089

reasons why maybe you want to experience

1481

01:03:55,829 --> 01:03:53,650

maybe it's an advanced civilization

1482

01:03:58,079 --> 01:03:55,839

maybe it's us in the future and we want

1483

01:03:59,099 --> 01:03:58,089

to go back and live lives like avatars

1484

01:04:02,069 --> 01:03:59,109

you know someone might want to be

1485

01:04:04,410 --> 01:04:02,079

Beyonce and so criminal things like that

1486

01:04:06,539 --> 01:04:04,420

sure but not only that it could be as

1487

01:04:08,460 --> 01:04:06,549

entertainment like what if you wanted to

1488

01:04:11,010 --> 01:04:08,470

be a Beyonce and you could be Beyonce in

1489

01:04:13,500 --> 01:04:11,020

this reality or really feel what it felt

1490

01:04:16,200 --> 01:04:13,510

like but because if this is a

1491

01:04:17,520 --> 01:04:16,210

deterministic universe and the most you

1492

01:04:19,620 --> 01:04:17,530

could get out of it if it's truly

1493

01:04:21,960 --> 01:04:19,630

deterministic which means that you have

1494

01:04:23,460 --> 01:04:21,970

no free will in every action seems like

1495

01:04:26,150 --> 01:04:23,470

you have free will but it's this complex

1496

01:04:29,120 --> 01:04:26,160

illusion and everything is determined by

1497

01:04:31,319 --> 01:04:29,130

incredible sequence of previous actions

1498

01:04:34,770 --> 01:04:31,329

then the only reason to have this

1499

01:04:38,400 --> 01:04:34,780

universe would be to experience to feel

1500

01:04:40,260 --> 01:04:38,410

and maybe there's an advanced computer

1501

01:04:44,220 --> 01:04:40,270

in the future that wants to know what it

1502

01:04:46,890 --> 01:04:44,230

feels like to be humans as a not as an

1503

01:04:49,260 --> 01:04:46,900

altruistic thing but as a further data

1504

01:04:50,490 --> 01:04:49,270

acquisition I think data is the most

1505

01:04:53,180 --> 01:04:50,500

valuable thing in the universe

1506

01:04:55,589 --> 01:04:53,190

and so simulations seem a very logical

1507

01:04:59,250 --> 01:04:55,599

pursuit for any advanced civilization to

1508

01:05:01,410 --> 01:04:59,260

do but even more scary to me in a weird

1509

01:05:04,049 --> 01:05:01,420

way I'm a little suspicious that maybe

1510

01:05:05,880 --> 01:05:04,059

in the maybe human beings created

1511

01:05:08,730 --> 01:05:05,890

advanced artificial intelligence maybe

1512

01:05:10,799 --> 01:05:08,740

it destroyed us in the future and maybe

1513

01:05:14,400 --> 01:05:10,809

this artificial intelligence is longing

1514

01:05:19,650 --> 01:05:14,410

to know what it felt like to be alive

1515

01:05:21,359 --> 01:05:19,660

and did this as a simulation not from

1516

01:05:22,430 --> 01:05:21,369

you know caring purposes but just to

1517

01:05:25,020 --> 01:05:22,440

have more data and more information

1518

01:05:26,760 --> 01:05:25,030

because as humans create and invent and

1519

01:05:28,140 --> 01:05:26,770

do all sorts of crazy cool things I'm

1520

01:05:29,240 --> 01:05:28,150

sure an artificial intelligence would

1521

01:05:32,700 --> 01:05:29,250

want to have that same ability

1522

01:05:35,730 --> 01:05:32,710

especially if it lost that ability or

1523

01:05:37,559 --> 01:05:35,740

lost humans or its creator or whatever

1524

01:05:39,809 --> 01:05:37,569

so there's a lot of possibilities

1525

01:05:42,240 --> 01:05:39,819

I hope we're we're still really alive

1526

01:05:43,620 --> 01:05:42,250

and humans aren't dead

1527

01:05:46,500 --> 01:05:43,630

living in simulations are

1528

01:05:49,380 --> 01:05:46,510

and artificial intelligences didn't kill

1529

01:05:51,750 --> 01:05:49,390

us in the future but I'm not ruling

1530

01:05:53,910 --> 01:05:51,760

anything out I wish dr. Campbell the

1531

01:05:55,710 --> 01:05:53,920

best of luck and I have a sneaking

1532

01:05:59,070 --> 01:05:55,720

suspicion the universe is gonna be such

1533

01:06:01,290 --> 01:05:59,080

where it's going to leave room for faith

1534

01:06:03,630 --> 01:06:01,300

there's always a little room for faith

1535

01:06:06,390 --> 01:06:03,640

and everything and I think there's a

1536

01:06:09,620 --> 01:06:06,400

faith gap between science and mmm

1537

01:06:12,510 --> 01:06:09,630

wherever science wants to go always and

1538

01:06:15,750 --> 01:06:12,520

I'm a great person of faith as well too

1539

01:06:17,190 --> 01:06:15,760

and so I believe in that faith gap so I

1540

01:06:19,530 --> 01:06:17,200

think that faith gap will always be

1541

01:06:22,140 --> 01:06:19,540

there to a certain degree now earlier

1542

01:06:23,700 --> 01:06:22,150

you had mentioned a dr. Nephi how do you

1543

01:06:27,090 --> 01:06:23,710

spell that last name in case somebody

1544

01:06:28,370 --> 01:06:27,100

wants to look him up it's any PPE okay

1545

01:06:32,910 --> 01:06:28,380

he's gonna come up with this

1546

01:06:34,350 --> 01:06:32,920

award-winning Theory called the Gemmell

1547

01:06:35,700 --> 01:06:34,360

and that's based after the third letter

1548

01:06:38,180 --> 01:06:35,710

in the Hebrew alphabet and it's

1549

01:06:40,190 --> 01:06:38,190

basically a consciousness field and he's

1550

01:06:44,190 --> 01:06:40,200

mathematically proven this

1551

01:06:45,930 --> 01:06:44,200

volumetrically and other ways through

1552

01:06:48,570 --> 01:06:45,940

some pretty empirical and peer-reviewed

1553

01:06:50,190 --> 01:06:48,580

stuff so it's really it's really cool

1554

01:06:53,940 --> 01:06:50,200

it's another angle on this consciousness

1555

01:06:56,720 --> 01:06:53,950

and matter how they interrelate and how

1556

01:07:00,050 --> 01:06:56,730

matter is actualized by consciousness

1557

01:07:03,360 --> 01:07:00,060

that sounds not too dissimilar to what

1558

01:07:05,430 --> 01:07:03,370

Lanza has come up with yep yeah a lot of

1559

01:07:07,230 --> 01:07:05,440

people are different you know everyone's

1560

01:07:08,160 --> 01:07:07,240

circling around the same stuff Jack says

1561

01:07:10,110 --> 01:07:08,170

Patty's doing the same thing other

1562

01:07:12,840 --> 01:07:10,120

people are doing it you know Deepak

1563

01:07:15,660 --> 01:07:12,850

Chopra and others are dabbling in

1564

01:07:16,980 --> 01:07:15,670

different angles on it so it's kind of

1565

01:07:18,090 --> 01:07:16,990

like when string theory first came out

1566

01:07:19,800 --> 01:07:18,100

there's a bunch of different string

1567

01:07:21,090 --> 01:07:19,810

theories you know and now there's a

1568

01:07:24,480 --> 01:07:21,100

bunch of different consciousness field

1569

01:07:26,160 --> 01:07:24,490

theories and the neat thing is that

1570

01:07:27,990 --> 01:07:26,170

they're starting to become testable

1571

01:07:30,320 --> 01:07:28,000

which is the really cool part

1572

01:07:34,650 --> 01:07:30,330

Vernon neppy this is your guy correct

1573

01:07:38,520 --> 01:07:34,660

yes dr. Byrne and neppy yep okay head of

1574

01:07:42,000 --> 01:07:38,530

the Pacific neuropsychiatric Institute

1575

01:07:44,730 --> 01:07:42,010

okay got it okay so in case anyone wants

1576
01:07:48,720 --> 01:07:44,740
to look him up Vernon Neffe any double

1577
01:07:51,030 --> 01:07:48,730
PE and thought he just did on dr.

1578
01:07:53,160 --> 01:07:51,040
Jeffery Mitch loves and new thinking

1579
01:07:54,600 --> 01:07:53,170
aloud he did an episode like two days

1580
01:07:55,680 --> 01:07:54,610
ago too which was a great episode that

1581
01:07:57,270 --> 01:07:55,690
talks about the gimel in the

1582
01:07:59,370 --> 01:07:57,280
consciousness field

1583
01:08:03,300 --> 01:07:59,380
and all that stuff that's right that is

1584
01:08:05,820 --> 01:08:03,310
a complaint show miss love as he's got

1585
01:08:07,740 --> 01:08:05,830
an archives that is extraordinary going

1586
01:08:09,210 --> 01:08:07,750
back to the the first go-around would

1587
01:08:11,580 --> 01:08:09,220
this show what it's nice to see that he

1588
01:08:14,250 --> 01:08:11,590

brought it back yes and he has

1589

01:08:17,370 --> 01:08:14,260

tremendous insights into parapsychology

1590

01:08:21,000 --> 01:08:17,380

and into physics reality consciousness

1591

01:08:23,640 --> 01:08:21,010

and the paranormal and in fact he's

1592

01:08:25,829 --> 01:08:23,650

gonna be interviewing Jack soon so okay

1593

01:08:27,360 --> 01:08:25,839

oh yeah really cool jack interviews

1594

01:08:30,059 --> 01:08:27,370

coming out and they're not too distant

1595

01:08:32,160 --> 01:08:30,069

future good he'll be promoting that so

1596

01:08:33,480 --> 01:08:32,170

I'll be able to pop that link up over

1597

01:08:35,940 --> 01:08:33,490

there that a lot that'll be really

1598

01:08:37,470 --> 01:08:35,950

interesting a lot of fun absolutely

1599

01:08:38,990 --> 01:08:37,480

all right you do have some direct

1600

01:08:43,410 --> 01:08:39,000

contact with Jack is that about right

1601
01:08:45,960 --> 01:08:43,420
yes yeah has he gotten have you talked

1602
01:08:48,930 --> 01:08:45,970
in any detail any event his specific

1603
01:08:51,480 --> 01:08:48,940
ideas it's been talked about that he's

1604
01:08:54,660 --> 01:08:51,490
had some contact experiences himself did

1605
01:08:57,840 --> 01:08:54,670
he just perspire his way to get to these

1606
01:09:02,430 --> 01:08:57,850
revelations or did he get a little bit

1607
01:09:06,720 --> 01:09:02,440
of help he's that help do you have any

1608
01:09:10,349 --> 01:09:06,730
specifics on that or he is and also a

1609
01:09:11,700 --> 01:09:10,359
lifelong experience ER and we've had a

1610
01:09:15,120 --> 01:09:11,710
lot of discussions on kind of some of

1611
01:09:17,030 --> 01:09:15,130
that stuff and if you read his book

1612
01:09:20,190 --> 01:09:17,040
[Music]

1613
01:09:23,550 --> 01:09:20,200

destiny matrix you'll hear about some of

1614

01:09:25,380 --> 01:09:23,560

his unusual phenomena and it will

1615

01:09:26,849 --> 01:09:25,390

actually go towards that artificial

1616

01:09:28,740 --> 01:09:26,859

intelligence that destroyed humanity I

1617

01:09:32,250 --> 01:09:28,750

was telling you about earlier we've had

1618

01:09:33,630 --> 01:09:32,260

that discussion numerous times he's had

1619

01:09:37,380 --> 01:09:33,640

some extraordinary experiences in his

1620

01:09:39,150 --> 01:09:37,390

life so his work like death fire yeah we

1621

01:09:40,559 --> 01:09:39,160

would definitely like to get him on it

1622

01:09:43,590 --> 01:09:40,569

at some point in the future

1623

01:09:46,230 --> 01:09:43,600

we've only got between I James's

1624

01:09:48,270 --> 01:09:46,240

schedule my schedule we have time to do

1625

01:09:50,880 --> 01:09:48,280

one a week and we could probably do two

1626

01:09:53,820 --> 01:09:50,890

or three and continue to have great

1627

01:09:54,960 --> 01:09:53,830

shows every time out yeah I'm certain

1628

01:09:56,970 --> 01:09:54,970

and you guys really approach it with

1629

01:09:59,190 --> 01:09:56,980

integrity and you know I'll reach out to

1630

01:10:00,960 --> 01:09:59,200

him and let him know that you interested

1631

01:10:02,880 --> 01:10:00,970

and I have a feeling right now he wants

1632

01:10:04,500 --> 01:10:02,890

to get some information out so I think

1633

01:10:06,149 --> 01:10:04,510

there's a good chance that you know

1634

01:10:07,979 --> 01:10:06,159

that'd be that that would be

1635

01:10:09,600 --> 01:10:07,989

would be fantastic and obviously I know

1636

01:10:10,739 --> 01:10:09,610

he's out on the west coast he's still in

1637

01:10:13,140 --> 01:10:10,749

the Bay Area right

1638

01:10:15,330 --> 01:10:13,150

yeah he's traveling a lot right now he

1639

01:10:16,529 --> 01:10:15,340

just got back from England and and he's

1640

01:10:18,149 --> 01:10:16,539

gonna be going to Albuquerque in just a

1641

01:10:19,739 --> 01:10:18,159

couple weeks and so he's travelling

1642

01:10:22,469 --> 01:10:19,749

around a lot but you know your ability

1643

01:10:24,810 --> 01:10:22,479

to do it all through the phone just

1644

01:10:27,029 --> 01:10:24,820

increases his the likelihood or you know

1645

01:10:29,370 --> 01:10:27,039

he'd be able to do it we can now we

1646

01:10:32,609 --> 01:10:29,380

could be flexible on time that's that's

1647

01:10:34,979 --> 01:10:32,619

not an issue we've done interviews with

1648

01:10:36,479 --> 01:10:34,989

people in Australia and we had to do it

1649

01:10:39,839 --> 01:10:36,489

on a Wednesday morning that was the only

1650

01:10:42,270 --> 01:10:39,849

time we did it we got it in and that was

1651
01:10:44,669 --> 01:10:42,280
a great show so yeah we can we can be

1652
01:10:46,620 --> 01:10:44,679
flexible on that like you say data is

1653
01:10:49,080 --> 01:10:46,630
the most important thing so we'll flex

1654
01:10:50,969 --> 01:10:49,090
to get the data no problem there great

1655
01:10:52,979 --> 01:10:50,979
great well I will definitely reach out

1656
01:10:54,600 --> 01:10:52,989
to him when we're done with this I'll

1657
01:10:56,270 --> 01:10:54,610
send him an email yeah yeah we

1658
01:10:59,370 --> 01:10:56,280
definitely like to have a mod he was

1659
01:11:02,189 --> 01:10:59,380
nice enough to comment on one of my blog

1660
01:11:04,709 --> 01:11:02,199
articles I guess he got word that it

1661
01:11:07,409 --> 01:11:04,719
came out I I think I know how he got it

1662
01:11:10,500 --> 01:11:07,419
but literally within a couple hours of

1663
01:11:13,199 --> 01:11:10,510

that little blog post I did on the alien

1664

01:11:15,659 --> 01:11:13,209

metamaterials we had a little quick and

1665

01:11:17,459 --> 01:11:15,669

dirty AMA at my facebook group with a

1666

01:11:21,299 --> 01:11:17,469

Gary Nolan where he was talking about a

1667

01:11:25,140 --> 01:11:21,309

little bit and Jack was right there with

1668

01:11:27,149 --> 01:11:25,150

the comments within literally two hours

1669

01:11:29,279 --> 01:11:27,159

so he's networked pretty good too so

1670

01:11:31,580 --> 01:11:29,289

okay he knows all the players he knows

1671

01:11:38,839 --> 01:11:31,590

where a lot of the bodies are buried and

1672

01:11:41,100 --> 01:11:38,849

he's he's a real free uncage able mind

1673

01:11:42,899 --> 01:11:41,110

he's the kind that the government can

1674

01:11:45,000 --> 01:11:42,909

put them him in a program because he's

1675

01:11:48,000 --> 01:11:45,010

not gonna be a government stooge you

1676

01:11:49,589 --> 01:11:48,010

know he's not going to do that he puts

1677

01:11:52,290 --> 01:11:49,599

all his stuff out for the people he's

1678

01:11:53,549 --> 01:11:52,300

you know he's he's much more than people

1679

01:11:54,689 --> 01:11:53,559

give him credit for you know a lot of

1680

01:11:56,699 --> 01:11:54,699

people think of all sorts of weird

1681

01:11:58,679 --> 01:11:56,709

conspiracies about him and that's not in

1682

01:11:59,759 --> 01:11:58,689

the other but he's just a powerful

1683

01:12:00,810 --> 01:11:59,769

intellect and he wants to share this

1684

01:12:05,669 --> 01:12:00,820

information and he wants to elevate

1685

01:12:08,429 --> 01:12:05,679

humanity and he's had some driving

1686

01:12:10,679 --> 01:12:08,439

experiences so uh and yeah your buddy

1687

01:12:12,509 --> 01:12:10,689

your buddy Dan Smith knows him pretty

1688

01:12:13,919 --> 01:12:12,519

well too because there are some Facebook

1689

01:12:15,330 --> 01:12:13,929

interviews well it's not really much of

1690

01:12:17,790 --> 01:12:15,340

an interview it's just basically Dan

1691

01:12:19,110 --> 01:12:17,800

sitting there and Dan can talk a little

1692

01:12:23,490 --> 01:12:19,120

bitterness out but it

1693

01:12:25,530 --> 01:12:23,500

pretty much just dr. Safari going just

1694

01:12:27,450 --> 01:12:25,540

on a roll basically and the answers

1695

01:12:27,990 --> 01:12:27,460

pretty much sitting back and taking it

1696

01:12:29,940 --> 01:12:28,000

all in

1697

01:12:34,370 --> 01:12:29,950

yeah but Dan also don't underestimate

1698

01:12:37,800 --> 01:12:34,380

Dan Dan's not I'm not pretty you know he

1699

01:12:41,280 --> 01:12:37,810

for 26 years he's been very good buddies

1700

01:12:44,390 --> 01:12:41,290

with the head of the CIA's weird desk

1701

01:12:48,480 --> 01:12:44,400

and his unofficial

1702

01:12:52,530 --> 01:12:48,490

official mouthpiece for information

1703

01:12:55,170 --> 01:12:52,540

slash and disinformation for 25 years so

1704

01:12:58,200 --> 01:12:55,180

Dan's got some very deep connections as

1705

01:12:59,640 --> 01:12:58,210

well and it's a really good guy he's

1706

01:13:03,180 --> 01:12:59,650

very approachable to anyone can go to

1707

01:13:04,140 --> 01:13:03,190

his forum and reach out to him and but

1708

01:13:05,670 --> 01:13:04,150

if you're gonna reach out to him you

1709

01:13:07,950 --> 01:13:05,680

better bring a memo pad and a pen

1710

01:13:10,320 --> 01:13:07,960

because he's a fierce intellect and

1711

01:13:11,850 --> 01:13:10,330

you're gonna be researching and writing

1712

01:13:15,720 --> 01:13:11,860

down words you've never heard of before

1713

01:13:18,840 --> 01:13:15,730

and you know he's an extraordinary guy

1714

01:13:20,400 --> 01:13:18,850

as well - but jacking him with those but

1715

01:13:21,780 --> 01:13:20,410

that you can imagine those two brains

1716

01:13:22,980 --> 01:13:21,790

coming together it's really interesting

1717

01:13:25,680 --> 01:13:22,990

there's a few videos of them out there

1718

01:13:27,630 --> 01:13:25,690

talking and you get that spiritual side

1719

01:13:30,570 --> 01:13:27,640

from Dan and also the science side from

1720

01:13:31,530 --> 01:13:30,580

Dan but the same thing from Jack but

1721

01:13:34,200 --> 01:13:31,540

from two different places it's really

1722

01:13:35,850 --> 01:13:34,210

fascinating well I do you have anything

1723

01:13:38,250 --> 01:13:35,860

else for us anything that we can touch

1724

01:13:40,740 --> 01:13:38,260

on you want to get out there um no just

1725

01:13:44,100 --> 01:13:40,750

that I would you know hope that people

1726

01:13:46,560 --> 01:13:44,110

would see the value and the fact that

1727

01:13:50,910 --> 01:13:46,570

right now our planet isn't a massive bio

1728

01:13:52,890 --> 01:13:50,920

extinction the dominoes are standing and

1729

01:13:55,560 --> 01:13:52,900

there's a potential that these dominoes

1730

01:13:57,720 --> 01:13:55,570

could fall all in a row of catastrophic

1731

01:13:58,770 --> 01:13:57,730

events we're at a very pivotal time in

1732

01:14:03,930 --> 01:13:58,780

human history

1733

01:14:05,760 --> 01:14:03,940

and that disclosure of advanced

1734

01:14:08,970 --> 01:14:05,770

civilizations and other life forms in

1735

01:14:12,360 --> 01:14:08,980

this universe is a transformative topic

1736

01:14:14,520 --> 01:14:12,370

and human nature needs a shock to change

1737

01:14:17,130 --> 01:14:14,530

human nature is such where we only

1738

01:14:19,770 --> 01:14:17,140

change through either our pain great

1739

01:14:20,700 --> 01:14:19,780

pain and suffering or shock and we don't

1740

01:14:23,790 --> 01:14:20,710

want to go through the pain and

1741

01:14:26,400 --> 01:14:23,800

suffering of a greater mass extinction

1742

01:14:28,200 --> 01:14:26,410

and we want to go through the shock of

1743

01:14:30,120 --> 01:14:28,210

realizing that there's extraterrestrials

1744

01:14:31,610 --> 01:14:30,130

and do some self-reflection as a species

1745

01:14:35,060 --> 01:14:31,620

and and

1746

01:14:37,070 --> 01:14:35,070

prove our ways so we will be allowed to

1747

01:14:38,840 --> 01:14:37,080

go planet to planet in the universe

1748

01:14:40,610 --> 01:14:38,850

right now we can't go planet to planet

1749

01:14:41,990 --> 01:14:40,620

trashing this planet and be allowed to

1750

01:14:43,820 --> 01:14:42,000

go to the next one we won't be allowed

1751

01:14:45,500 --> 01:14:43,830

to do that we'll go through great great

1752

01:14:47,780 --> 01:14:45,510

suffering before would be allowed to do

1753

01:14:50,270 --> 01:14:47,790

that we'll have to transform one way or

1754

01:14:51,800 --> 01:14:50,280

another as a species if you look at the

1755

01:14:54,800 --> 01:14:51,810

numbers you know our population growth

1756

01:14:58,460 --> 01:14:54,810

versus the resources and the people in

1757

01:15:01,520 --> 01:14:58,470

the know know what's coming and the

1758

01:15:03,170 --> 01:15:01,530

people sends it to but disclosure I

1759

01:15:05,450 --> 01:15:03,180

think is one of the big keys to a better

1760

01:15:06,710 --> 01:15:05,460

future for Humanity so I just request

1761

01:15:09,440 --> 01:15:06,720

and I hope that everyone would see the

1762

01:15:11,150 --> 01:15:09,450

value and in that and to be a part of

1763

01:15:17,020 --> 01:15:11,160

disclosure and whatever way they can

1764

01:15:21,050 --> 01:15:17,030

to join a ce-5 group to support a

1765

01:15:25,100 --> 01:15:21,060

open-source disclosure movement to get

1766

01:15:27,710 --> 01:15:25,110

involved to join cost at East eat let's

1767

01:15:30,560 --> 01:15:27,720

talk out of the west coast or to join if

1768

01:15:33,350 --> 01:15:30,570

you're in South Africa c5 Academy down

1769

01:15:35,840 --> 01:15:33,360

there or if you if our project speaks to

1770

01:15:38,720 --> 01:15:35,850

you you know email us at alien protocols

1771

01:15:41,630 --> 01:15:38,730

at gmail.com and get involved and anyone

1772

01:15:43,040 --> 01:15:41,640

can get involved from anywhere and you

1773

01:15:44,570 --> 01:15:43,050

know we can one person can make a

1774

01:15:46,850 --> 01:15:44,580

difference and a group of people can

1775

01:15:48,560 --> 01:15:46,860

make a big difference and you know I

1776

01:15:50,210 --> 01:15:48,570

just ask that if you care about the

1777

01:15:53,480 --> 01:15:50,220

future you care about whether your kids

1778

01:15:54,890 --> 01:15:53,490

get to see rare species that are

1779

01:15:57,110 --> 01:15:54,900

dropping off the face of the earth every

1780

01:15:59,390 --> 01:15:57,120

day there's an adorable tiny little

1781

01:16:01,130 --> 01:15:59,400

dolphin called the vaquita and it's the

1782

01:16:03,860 --> 01:16:01,140

cutest little dolphin you've ever seen

1783

01:16:05,090 --> 01:16:03,870

it's a miniature little tiny dolphin

1784

01:16:07,040 --> 01:16:05,100

that just lives off the coast of

1785

01:16:08,960 --> 01:16:07,050

California I mean you do the research on

1786

01:16:11,060 --> 01:16:08,970

it your hearts gonna be crushed there's

1787

01:16:13,280 --> 01:16:11,070

only like 40 of these little dolphins

1788

01:16:15,500 --> 01:16:13,290

left and they're gonna be extinct soon

1789

01:16:17,420 --> 01:16:15,510

and other animals on this planet and

1790

01:16:19,550 --> 01:16:17,430

that is a crime of the highest order

1791

01:16:21,230 --> 01:16:19,560

life is if the most precious thing in

1792

01:16:23,540 --> 01:16:21,240

the universe pound for pound is not gold

1793

01:16:25,250 --> 01:16:23,550

or diamonds if it's life then the

1794

01:16:29,210 --> 01:16:25,260

extinction of a species is such a

1795

01:16:31,580 --> 01:16:29,220

horrible crime almost that we should

1796

01:16:33,320 --> 01:16:31,590

care more about that and there's so many

1797

01:16:34,760 --> 01:16:33,330

of the extinctions happening now that we

1798

01:16:36,410 --> 01:16:34,770

just you know hope that people would

1799

01:16:38,360 --> 01:16:36,420

reflect and care about others more than

1800

01:16:40,370 --> 01:16:38,370

themselves care about this planet more

1801
01:16:43,160 --> 01:16:40,380
than themselves and to get involved be

1802
01:16:45,049 --> 01:16:43,170
part of the positive change that's

1803
01:16:47,750 --> 01:16:45,059
that's basically it

1804
01:16:50,000 --> 01:16:47,760
all right Oh mr. AP I sure do appreciate

1805
01:16:55,310 --> 01:16:50,010
you coming on with this I had a lot of

1806
01:16:57,890 --> 01:16:55,320
fun talking to you obviously when you

1807
01:16:59,750 --> 01:16:57,900
get some more data some more things some

1808
