

**WELCOME TO OUR INAUGURAL UFONN  
SUNDAY ROUNTABLE WITH . . . DANNY  
SILVA, JOE MURGIA AND JAY**

**UFONN**  
**SUNDAY**

1  
00:01:04,670 --> 00:00:25,070

[Music]

2  
00:01:10,590 --> 00:01:07,830  
and good evening from Philadelphia this

3  
00:01:13,980 --> 00:01:10,600  
is Frank here in James Hill minute from

4  
00:01:16,080 --> 00:01:13,990  
New York and this is a UFO News Network

5  
00:01:18,480 --> 00:01:16,090  
Sunday coming to you in an evening

6  
00:01:20,850 --> 00:01:18,490  
edition with something a little

7  
00:01:22,500 --> 00:01:20,860  
different for us a roundtable but we

8  
00:01:25,590 --> 00:01:22,510  
were able to get everybody on

9  
00:01:28,740 --> 00:01:25,600  
everybody's here check it in and James I

10  
00:01:32,359 --> 00:01:28,750  
will leave the intros to you all right

11  
00:01:35,370 --> 00:01:32,369  
thank you so this is basically a

12  
00:01:38,550 --> 00:01:35,380  
confirmation panel based on our Twitter

13  
00:01:40,230 --> 00:01:38,560

circle we have a Twitter circle of some

14

00:01:44,180 --> 00:01:40,240

pretty serious researchers who tick

15

00:01:46,920 --> 00:01:44,190

around information ideas speculation and

16

00:01:48,450 --> 00:01:46,930

I mean we get into a pretty heavy and we

17

00:01:49,710 --> 00:01:48,460

trade a lot of great information make

18

00:01:51,740 --> 00:01:49,720

some good connections by working

19

00:01:55,080 --> 00:01:51,750

together so we're having this a

20

00:01:57,060 --> 00:01:55,090

confirmation Twitter circle panel I'm

21

00:02:01,710 --> 00:01:57,070

gonna let everybody do their own intro

22

00:02:03,540 --> 00:02:01,720

to introduce themselves because they can

23

00:02:05,219 --> 00:02:03,550

do it better than that to be honest all

24

00:02:06,870 --> 00:02:05,229

right and just because we've got a lot

25

00:02:08,999 --> 00:02:06,880

of people here I will get that the voice

26

00:02:11,670 --> 00:02:09,009

is straight James and I have the

27

00:02:13,980 --> 00:02:11,680

glorious East Coast accents and let's

28

00:02:17,220 --> 00:02:13,990

start it let's start with Jay because

29

00:02:18,480 --> 00:02:17,230

he's over in a good old England and I

30

00:02:21,690 --> 00:02:18,490

think you'll be able to recognize that

31

00:02:24,120 --> 00:02:21,700

that is his location as he introduces

32

00:02:26,520 --> 00:02:24,130

himself so I go Jay tell the folks all

33

00:02:29,630 --> 00:02:26,530

about yourself thank you very much I'm

34

00:02:32,940 --> 00:02:29,640

Jay otherwise known as Twitter user Jay

35

00:02:35,190 --> 00:02:32,950

my actual twitter handle is Jay zero

36

00:02:37,020 --> 00:02:35,200

nine seven eight four six nine one it's

37

00:02:38,730 --> 00:02:37,030

a bit of a mouthful just how it is I've

38

00:02:40,860 --> 00:02:38,740

kept it that way I quite like it

39

00:02:42,360 --> 00:02:40,870

it's a bit an ominous and I prefer to

40

00:02:44,100 --> 00:02:42,370

stay that way

41

00:02:45,809 --> 00:02:44,110

I engage with the community quite

42

00:02:48,570 --> 00:02:45,819

recently despite having been alert for

43

00:02:50,190 --> 00:02:48,580

many years and I made a little bit of a

44

00:02:51,510 --> 00:02:50,200

splash with the Chris Mellon leak so I

45

00:02:54,330 --> 00:02:51,520

found the documents in Chris Mullins

46

00:02:55,850 --> 00:02:54,340

website published them on Twitter and

47

00:02:58,410 --> 00:02:55,860

created a little bit of a storm there

48

00:02:59,850 --> 00:02:58,420

I've been researching all the scientific

49

00:03:02,300 --> 00:02:59,860

papers from needs and various different

50

00:03:05,670 --> 00:03:02,310

scientists involved in the subject

51  
00:03:07,800 --> 00:03:05,680  
fantastic and now let's go to the west

52  
00:03:10,650 --> 00:03:07,810  
of us so that we've already covered the

53  
00:03:14,220 --> 00:03:10,660  
east to the west of us we've got Danny

54  
00:03:14,730 --> 00:03:14,230  
Silva I'm so happy to be here with my

55  
00:03:19,170 --> 00:03:14,740  
friends

56  
00:03:22,560 --> 00:03:19,180  
this is amazing I'm a phenomena blogger

57  
00:03:28,190 --> 00:03:22,570  
UFO and related phenomena I'm from Texas

58  
00:03:30,960 --> 00:03:28,200  
and formerly with apfo net and I got a

59  
00:03:35,400 --> 00:03:30,970  
new website coming up it's called silver

60  
00:03:37,830 --> 00:03:35,410  
record Silv a record calm and I'm just

61  
00:03:41,640 --> 00:03:37,840  
passionate for searching for the truth

62  
00:03:45,150 --> 00:03:41,650  
and I'm super obsessed with to the Stars

63  
00:03:47,790 --> 00:03:45,160

Academy a tip anything Bigelow anything

64

00:03:50,130 --> 00:03:47,800

related like that God and Joe merge

65

00:03:52,710 --> 00:03:50,140

you're joining us all the way from a Las

66

00:03:55,800 --> 00:03:52,720

Vegas Bob Bigelow stomping grounds

67

00:03:57,330 --> 00:03:55,810

thanks for joining us Joe oh thank you

68

00:04:00,810 --> 00:03:57,340

guys for doing this is good I'm really

69

00:04:03,000 --> 00:04:00,820

excited about this from New York been in

70

00:04:04,890 --> 00:04:03,010

Vegas for a while I'm in Houston for a

71

00:04:07,650 --> 00:04:04,900

long time shooting a reality show for

72

00:04:11,460 --> 00:04:07,660

Animal Planet and I have my Twitter

73

00:04:15,390 --> 00:04:11,470

handles UFO Joe won one and I have a

74

00:04:16,950 --> 00:04:15,400

website UFO Joe dotnet where I'm doing a

75

00:04:18,479 --> 00:04:16,960

lot of transcribing lately because I

76

00:04:19,979 --> 00:04:18,489

love to transcribe interviews and try to

77

00:04:22,710 --> 00:04:19,989

find out information that a lot of

78

00:04:27,480 --> 00:04:22,720

people may have missed and I'm obsessed

79

00:04:30,300 --> 00:04:27,490

with the subject fantastic so let's

80

00:04:31,980 --> 00:04:30,310

let's get things rolling how's the last

81

00:04:38,130 --> 00:04:31,990

year been for you pretty exciting or

82

00:04:40,040 --> 00:04:38,140

what for me for everybody yeah it's

83

00:04:42,180 --> 00:04:40,050

definitely exciting yeah I think since

84

00:04:47,130 --> 00:04:42,190

it's the initial announcements that we

85

00:04:49,110 --> 00:04:47,140

had last October for TTS a and then over

86

00:04:50,640 --> 00:04:49,120

to the video releases in December I

87

00:04:51,990 --> 00:04:50,650

think it's been incredible it's the

88

00:04:55,620 --> 00:04:52,000

reason why I interacted with the

89

00:04:59,250 --> 00:04:55,630

community last year has changed my life

90

00:05:01,230 --> 00:04:59,260

totally you know I always had beliefs

91

00:05:04,220 --> 00:05:01,240

about this kind of thing and then to

92

00:05:08,880 --> 00:05:04,230

hear it from actual government sources

93

00:05:10,920 --> 00:05:08,890

it was a shock to say the least and now

94

00:05:13,530 --> 00:05:10,930

I'm open to other things that I never

95

00:05:16,110 --> 00:05:13,540

thought I would be open to all this

96

00:05:17,490 --> 00:05:16,120

physics stuff portals and all these

97

00:05:20,370 --> 00:05:17,500

other things that I probably will

98

00:05:23,840 --> 00:05:20,380

mention right now but I I have a saying

99

00:05:25,260 --> 00:05:23,850

that and I think everything is real oh

100

00:05:27,750 --> 00:05:25,270

that's awesome

101  
00:05:28,050 --> 00:05:27,760  
yeah and I mean one of the well I think

102  
00:05:32,610 --> 00:05:28,060  
one of

103  
00:05:35,310 --> 00:05:32,620  
biggest points of you know the I guess

104  
00:05:36,810 --> 00:05:35,320  
what we can consider what Bigelow had

105  
00:05:37,980 --> 00:05:36,820  
called years ago when he was on

106  
00:05:40,260 --> 00:05:37,990  
interview with George Knapp is

107  
00:05:42,960 --> 00:05:40,270  
confirmation and I mean right now it's

108  
00:05:46,350 --> 00:05:42,970  
apparent that we're in that stage the

109  
00:05:48,840 --> 00:05:46,360  
mainstream media is reporting on UFOs

110  
00:05:51,180 --> 00:05:48,850  
and you ApS and in a completely

111  
00:05:54,930 --> 00:05:51,190  
different manner than they have in many

112  
00:05:56,610 --> 00:05:54,940  
years in the past and an important thing

113  
00:05:59,640 --> 00:05:56,620

that's going on right now that's part of

114

00:06:01,080 --> 00:05:59,650

this is actually not so much I mean

115

00:06:03,450 --> 00:06:01,090

there is a lot of stuff coming up now

116

00:06:05,730 --> 00:06:03,460

for sure but it's a lot of it this is

117

00:06:08,760 --> 00:06:05,740

base going back a few years ago and it's

118

00:06:11,070 --> 00:06:08,770

uncovering stuff that's been going on in

119

00:06:13,260 --> 00:06:11,080

the last two decades concerning the

120

00:06:16,530 --> 00:06:13,270

subject and the government's involvement

121

00:06:19,740 --> 00:06:16,540

in in the studies yeah it's one one

122

00:06:22,469 --> 00:06:19,750

aspect of it and you have skinwalker

123

00:06:25,800 --> 00:06:22,479

ranch and how I you know even me I had

124

00:06:29,670 --> 00:06:25,810

no idea that skinwalker ranch played

125

00:06:31,440 --> 00:06:29,680

such a critical role in the government's

126  
00:06:35,060 --> 00:06:31,450  
UFO study who would have thought right

127  
00:06:38,600 --> 00:06:35,070  
yeah I mean even that's incredible that

128  
00:06:46,110 --> 00:06:38,610  
skinwalker ranch was the impetus for

129  
00:06:48,960 --> 00:06:46,120  
awesome even no I think it was um either

130  
00:06:50,820 --> 00:06:48,970  
Korbelt or Knapp who mentioned that a tip

131  
00:06:53,219 --> 00:06:50,830  
kinda was already there it has been

132  
00:06:57,090 --> 00:06:53,229  
there for years and it wasn't under or I

133  
00:06:58,620 --> 00:06:57,100  
mean he it's kind of confusing how he

134  
00:06:59,940 --> 00:06:58,630  
explains it I think he probably can't

135  
00:07:04,200 --> 00:06:59,950  
they average too much but he talks about

136  
00:07:05,730 --> 00:07:04,210  
how a tea tip was already kind of there

137  
00:07:07,020 --> 00:07:05,740  
there were people in different agencies

138  
00:07:09,930 --> 00:07:07,030

trading informations and they have this

139

00:07:13,080 --> 00:07:09,940

entire database which is you know filled

140

00:07:14,730 --> 00:07:13,090

with all this information except it

141

00:07:17,219 --> 00:07:14,740

wasn't under the official ban or as far

142

00:07:22,500 --> 00:07:17,229

as he knows a tip but when wasit came

143

00:07:23,520 --> 00:07:22,510

around it kind of gave a tip the the

144

00:07:26,580 --> 00:07:23,530

green light to become an official

145

00:07:33,510 --> 00:07:26,590

program funded and organised in such a

146

00:07:34,980 --> 00:07:33,520

manner so long yeah for sure I think

147

00:07:36,540 --> 00:07:34,990

it's been quite fascinating ever since

148

00:07:37,380 --> 00:07:36,550

the initial announcement came out you

149

00:07:39,839 --> 00:07:37,390

know we've had all kinds of

150

00:07:41,879 --> 00:07:39,849

documentation there's come from the

151  
00:07:43,350 --> 00:07:41,889  
group you know T TSA since Tom DeLonge

152  
00:07:45,209 --> 00:07:43,360  
set up this company we have all these

153  
00:07:47,610 --> 00:07:45,219  
different former government officials

154  
00:07:49,619 --> 00:07:47,620  
working for this or working for T TSA

155  
00:07:51,540 --> 00:07:49,629  
and we've got these documents you know

156  
00:07:54,239 --> 00:07:51,550  
we've had the dirt reports come out we

157  
00:07:55,619 --> 00:07:54,249  
had this list of reports there's all

158  
00:07:57,749 --> 00:07:55,629  
kinds of stuff that they've been looking

159  
00:08:00,209 --> 00:07:57,759  
into you know things from communication

160  
00:08:02,730 --> 00:08:00,219  
wormholes I mean absolutely fascinating

161  
00:08:04,559 --> 00:08:02,740  
fascinating stuff and I really think the

162  
00:08:06,300 --> 00:08:04,569  
whole subject seems to be accelerating

163  
00:08:07,850 --> 00:08:06,310

and becoming more mainstream and I think

164

00:08:10,110 --> 00:08:07,860

that's a really really important thing

165

00:08:12,330 --> 00:08:10,120

and it's great to see this kind of stuff

166

00:08:14,909 --> 00:08:12,340

coming through from New York Times as

167

00:08:16,499 --> 00:08:14,919

well but even documents that we've found

168

00:08:18,510 --> 00:08:16,509

from the Mellon's website you know we're

169

00:08:21,689 --> 00:08:18,520

finding documents presentations and

170

00:08:23,519 --> 00:08:21,699

stuff that were present from a tip and

171

00:08:25,499 --> 00:08:23,529

it's got some fascinating details and

172

00:08:27,269 --> 00:08:25,509

really really fascinating I'm really

173

00:08:28,679 --> 00:08:27,279

happy to see that we're finally getting

174

00:08:30,420 --> 00:08:28,689

these details through I'm coming to

175

00:08:38,040 --> 00:08:30,430

hoping at some point soon we'll get the

176

00:08:40,920 --> 00:08:38,050

best studies so we can have a look I

177

00:08:42,930 --> 00:08:40,930

mean another you know I people maybe

178

00:08:45,680 --> 00:08:42,940

haven't focused on this as much Jay

179

00:08:49,410 --> 00:08:45,690

where I should call you 20 years or Jay

180

00:08:50,850 --> 00:08:49,420

but I mean the Mellon leak was one thing

181

00:08:53,069 --> 00:08:50,860

that was I mean that was awesome of

182

00:08:55,350 --> 00:08:53,079

course but the Nitz papers that you

183

00:09:00,720 --> 00:08:55,360

pulled out and that was amazing too as

184

00:09:02,910 --> 00:09:00,730

incredible stuff that's in there and has

185

00:09:04,259 --> 00:09:02,920

been available for a while though you

186

00:09:06,810 --> 00:09:04,269

know when I was speaking to Danny about

187

00:09:08,490 --> 00:09:06,820

it so I posted some of this stuff onto

188

00:09:09,840 --> 00:09:08,500

Twitter I think Danny contacted me off

189

00:09:12,930 --> 00:09:09,850

Twitter said you know this this stuff

190

00:09:14,310 --> 00:09:12,940

has been available for a while but you

191

00:09:15,900 --> 00:09:14,320

know obviously the website was up at

192

00:09:18,240 --> 00:09:15,910

some point in the past I don't know when

193

00:09:19,860 --> 00:09:18,250

it originally was created but I was

194

00:09:22,050 --> 00:09:19,870

pulling up the lists I think from early

195

00:09:23,610 --> 00:09:22,060

2000 something like 2004 something on

196

00:09:26,460 --> 00:09:23,620

those kind of lines and it had all of

197

00:09:27,660 --> 00:09:26,470

these reports that were present and some

198

00:09:30,389 --> 00:09:27,670

of the stuff is I mean it's absolutely

199

00:09:32,850 --> 00:09:30,399

fascinating really really incredible and

200

00:09:35,819 --> 00:09:32,860

it kind of changes the picture of how I

201  
00:09:37,079 --> 00:09:35,829  
perceive the entire subject really you

202  
00:09:38,970 --> 00:09:37,089  
know I don't see it's a nuts-and-bolts

203  
00:09:41,670 --> 00:09:38,980  
UFO thing where we've got these crafts

204  
00:09:43,829 --> 00:09:41,680  
coming from ZT Reticuli or whatever that

205  
00:09:45,060 --> 00:09:43,839  
might be the case as well like James you

206  
00:09:46,680 --> 00:09:45,070  
mentioned the past you think that that's

207  
00:09:49,050 --> 00:09:46,690  
that's probably a bit of the element too

208  
00:09:50,699 --> 00:09:49,060  
but it seems to be seems to be there's

209  
00:09:53,130 --> 00:09:50,709  
something more to it something a bit

210  
00:09:54,680 --> 00:09:53,140  
more esoteric almost like there's

211  
00:09:56,600 --> 00:09:54,690  
another sort of

212  
00:09:58,850 --> 00:09:56,610  
well that kind of exists next to this

213  
00:10:00,830 --> 00:09:58,860

one and there's something sort of crypto

214

00:10:03,110 --> 00:10:00,840

terrestrial sort of element or some sort

215

00:10:04,640 --> 00:10:03,120

of intelligence that's part of that so

216

00:10:06,380 --> 00:10:04,650

that's the kind of bit that's really got

217

00:10:08,570 --> 00:10:06,390

me going quite recently it's finding

218

00:10:10,760 --> 00:10:08,580

these reports on the needs website their

219

00:10:11,960 --> 00:10:10,770

deal with consciousness and talk about

220

00:10:13,580 --> 00:10:11,970

this kind of subject you know there's

221

00:10:15,350 --> 00:10:13,590

some really fascinating stuff in there

222

00:10:17,030 --> 00:10:15,360

and then you kind of go back and you

223

00:10:19,940 --> 00:10:17,040

look to things like the mundus imagine

224

00:10:21,350 --> 00:10:19,950

Alamos so yeah it's been going going

225

00:10:23,180 --> 00:10:21,360

around for years really they're kind of

226

00:10:24,800 --> 00:10:23,190

oats or esoteric teachings but it's

227

00:10:26,810 --> 00:10:24,810

really good to see that kind of stuff

228

00:10:30,140 --> 00:10:26,820

being studied by these different types

229

00:10:32,990 --> 00:10:30,150

of groups yeah I think that you know as

230

00:10:35,990 --> 00:10:33,000

we go forward and the nature of the

231

00:10:38,570 --> 00:10:36,000

phenomenon is unveiled more and more and

232

00:10:41,090 --> 00:10:38,580

and it's mysterious nature you know I

233

00:10:42,790 --> 00:10:41,100

think that we're gonna see more of an

234

00:10:44,930 --> 00:10:42,800

interest in those kind of subjects and

235

00:10:47,620 --> 00:10:44,940

Jacques Vallee highlights that this

236

00:10:50,930 --> 00:10:47,630

phenomenon seems to have been with us

237

00:10:53,090 --> 00:10:50,940

and I think even George mentioned that

238

00:10:55,730 --> 00:10:53,100

the possibility of it being you know

239

00:10:58,760 --> 00:10:55,740

right here just we can't see it at times

240

00:11:01,880 --> 00:10:58,770

but when it wants to it could take on a

241

00:11:05,090 --> 00:11:01,890

on you know form in our reality and just

242

00:11:07,280 --> 00:11:05,100

in you know interact with us I think as

243

00:11:12,410 --> 00:11:07,290

he jokes it can come in and watch us

244

00:11:14,110 --> 00:11:12,420

when it wants to but yeah it's it's you

245

00:11:17,150 --> 00:11:14,120

know it's an incredible phenomenon and

246

00:11:18,950 --> 00:11:17,160

it's an incredible thing to explore kind

247

00:11:20,870 --> 00:11:18,960

of how it's really pushing the

248

00:11:23,530 --> 00:11:20,880

boundaries of what we think we know in

249

00:11:26,720 --> 00:11:23,540

science and and looking back at history

250

00:11:28,520 --> 00:11:26,730

and back to the nits that was really

251  
00:11:30,650 --> 00:11:28,530  
cool about it was you had comments from

252  
00:11:32,150 --> 00:11:30,660  
Bigelow on there and you had all these

253  
00:11:34,910 --> 00:11:32,160  
scientific papers everything's just

254  
00:11:37,520 --> 00:11:34,920  
seemed really open I would love for the

255  
00:11:40,040 --> 00:11:37,530  
website like that to be around these

256  
00:11:41,960 --> 00:11:40,050  
days but it seems like we probably won't

257  
00:11:44,000 --> 00:11:41,970  
get it because the information is a

258  
00:11:45,710 --> 00:11:44,010  
little bit more guarded but this

259  
00:11:48,380 --> 00:11:45,720  
everything was out there on the net site

260  
00:11:50,030 --> 00:11:48,390  
back then yeah yeah we even had stuff on

261  
00:11:51,350 --> 00:11:50,040  
skinwalker ranch you know talking about

262  
00:11:53,450 --> 00:11:51,360  
their cattle mutilations it's got

263  
00:11:55,310 --> 00:11:53,460

statistics it's got figures it's got all

264

00:11:56,930 --> 00:11:55,320

kinds of stuff in there you know got

265

00:11:58,610 --> 00:11:56,940

reports and consciousness studies we've

266

00:12:00,950 --> 00:11:58,620

got the traditional kind of UFO type

267

00:12:02,120 --> 00:12:00,960

papers oh yeah I mean it's incredible

268

00:12:03,680 --> 00:12:02,130

the amount of stuff that was present on

269

00:12:06,020 --> 00:12:03,690

that website and really fascinating to

270

00:12:07,400 --> 00:12:06,030

see it there and quite how it got maybe

271

00:12:08,480 --> 00:12:07,410

so overlooked at the time I don't know

272

00:12:09,800 --> 00:12:08,490

but it's incredible too

273

00:12:11,870 --> 00:12:09,810

it's a bill to access some of those

274

00:12:14,570 --> 00:12:11,880

reports as everyone had the chance to

275

00:12:15,829 --> 00:12:14,580

see the Jeremy's movie about yeah

276

00:12:21,079 --> 00:12:15,839

walkers yes

277

00:12:31,400 --> 00:12:21,089

yeah it's the thoughts I mean I I know I

278

00:12:33,110 --> 00:12:31,410

enjoyed it same here I like that the

279

00:12:36,350 --> 00:12:33,120

extras were great the nap interview is

280

00:12:39,410 --> 00:12:36,360

great it's good stuff and it's something

281

00:12:40,970 --> 00:12:39,420

that now we can talk to people that

282

00:12:43,130 --> 00:12:40,980

aren't interested in the subject and

283

00:12:45,110 --> 00:12:43,140

have them see it and they're gonna you

284

00:12:46,850 --> 00:12:45,120

know get a briefing on what was going on

285

00:12:48,410 --> 00:12:46,860

so I think that's important yeah I

286

00:12:49,850 --> 00:12:48,420

thought George was really the star of

287

00:12:53,300 --> 00:12:49,860

the show it was very interesting

288

00:12:55,040 --> 00:12:53,310

they interpolated some of the old tapes

289

00:12:57,019 --> 00:12:55,050

that he had together where he's doing a

290

00:12:59,449 --> 00:12:57,029

basically a straight narration and then

291

00:13:01,880 --> 00:12:59,459

other parts of the film he was sort of

292

00:13:04,910 --> 00:13:01,890

being a little bit more himself doing

293

00:13:07,750 --> 00:13:04,920

interviews and both naps did a very nice

294

00:13:10,699 --> 00:13:07,760

job in that movie yeah I watched it with

295

00:13:12,290 --> 00:13:10,709

some friends like a week ago and I you

296

00:13:13,490 --> 00:13:12,300

know they were not really interested but

297

00:13:15,650 --> 00:13:13,500

they're willing to watch it with me so

298

00:13:17,740 --> 00:13:15,660

my kid just give it a shot and they they

299

00:13:22,220 --> 00:13:17,750

loved the nap stuff they go he's just

300

00:13:24,710 --> 00:13:22,230

presented so clearly they really yeah I

301  
00:13:26,480 --> 00:13:24,720  
think the great thing was well for

302  
00:13:28,430 --> 00:13:26,490  
Korbelt you know you see these interviews

303  
00:13:29,930 --> 00:13:28,440  
with him and this guy I can talk really

304  
00:13:32,060 --> 00:13:29,940  
coherent Lee about this stuff you know

305  
00:13:33,530 --> 00:13:32,070  
really really clearly yeah that's really

306  
00:13:35,510 --> 00:13:33,540  
fascinating to see I mean I read the

307  
00:13:36,949 --> 00:13:35,520  
book before I saw the film so I kind of

308  
00:13:38,660 --> 00:13:36,959  
knew what to expect I think a lot with

309  
00:13:41,329 --> 00:13:38,670  
the film but it was great definitely an

310  
00:13:43,070 --> 00:13:41,339  
enjoyable for them yeah and I put it out

311  
00:13:44,600 --> 00:13:43,080  
there on a platform where millions of

312  
00:13:47,390 --> 00:13:44,610  
people are gonna see and be introduced

313  
00:13:48,680 --> 00:13:47,400

to it and you know even people that are

314

00:13:51,290 --> 00:13:48,690

just kind of looking oh wow that's

315

00:13:53,900 --> 00:13:51,300

paranormal kind of thing are gonna see

316

00:13:56,780 --> 00:13:53,910

how that this place in the study was

317

00:14:01,519 --> 00:13:56,790

tied into a UFO a government UFO program

318

00:14:03,440 --> 00:14:01,529

like what another another interesting

319

00:14:05,690 --> 00:14:03,450

fact is you know there were other people

320

00:14:06,949 --> 00:14:05,700

involved in skinwalker that that you

321

00:14:10,360 --> 00:14:06,959

know they haven't really been named yet

322

00:14:13,370 --> 00:14:10,370

as you know cuz nap-nap had said that

323

00:14:16,010 --> 00:14:13,380

there there were effects on the people

324

00:14:20,180 --> 00:14:16,020

who who had interactions at the ranch

325

00:14:22,249 --> 00:14:20,190

and mmm you know he didn't really go

326

00:14:24,919 --> 00:14:22,259

much further than that

327

00:14:27,409 --> 00:14:24,929

as to what kind of effects but there was

328

00:14:30,679 --> 00:14:27,419

somebody who studied the the people that

329

00:14:32,059 --> 00:14:30,689

were having the effects from skinwalker

330

00:14:34,219 --> 00:14:32,069

ranch for the past five years and I

331

00:14:43,069 --> 00:14:34,229

think if somebody we all know right and

332

00:14:45,529 --> 00:14:43,079

that's Gary he he was studying that the

333

00:14:48,139 --> 00:14:45,539

effects on the people that were you know

334

00:14:50,679 --> 00:14:48,149

having interactions at skinwalker ranch

335

00:14:53,329 --> 00:14:50,689

and and attracting these hitchhikers and

336

00:14:55,460 --> 00:14:53,339

you know they did all the scans and all

337

00:14:58,309 --> 00:14:55,470

that stuff and there were you know

338

00:15:00,139 --> 00:14:58,319

physical elements and effects from from

339

00:15:01,849 --> 00:15:00,149

the interactions at skinwalker did you

340

00:15:03,289 --> 00:15:01,859

hear that race where did you hear that

341

00:15:04,849 --> 00:15:03,299

James you have is like is there anything

342

00:15:11,329 --> 00:15:04,859

where online where they talk about that

343

00:15:13,189 --> 00:15:11,339

no maybe he'll talk about it sometime in

344

00:15:16,269 --> 00:15:13,199

the future but I you know I know it's

345

00:15:18,409 --> 00:15:16,279

okay that I can say it yeah good thanks

346

00:15:22,129 --> 00:15:18,419

and I think that there is some confusion

347

00:15:24,819 --> 00:15:22,139

too about where some of these things

348

00:15:28,699 --> 00:15:24,829

came from or where some of maybe the

349

00:15:33,619 --> 00:15:28,709

supposed effects came from whether it

350

00:15:35,900 --> 00:15:33,629

was strictly phenomena based or if it

351

00:15:37,779 --> 00:15:35,910

was you know weird testing by you know a

352

00:15:39,889 --> 00:15:37,789

government agency or something like that

353

00:15:41,299 --> 00:15:39,899

you know and that's kinda that's kind of

354

00:15:44,629 --> 00:15:41,309

still a question because the effects

355

00:15:45,679 --> 00:15:44,639

that the people had well there's there's

356

00:15:47,269 --> 00:15:45,689

two effects you know you had the

357

00:15:56,059 --> 00:15:47,279

hitch-hiker effect which people seem to

358

00:15:58,999 --> 00:15:56,069

be followed by a phenomenon exactly

359

00:16:00,710 --> 00:15:59,009

that's the weird part but the other was

360

00:16:02,419 --> 00:16:00,720

an electromagnetic effect on the brain

361

00:16:06,409 --> 00:16:02,429

which actually produced a white matter

362

00:16:08,299 --> 00:16:06,419

in the brain and lesions but yeah the

363

00:16:11,889 --> 00:16:08,309

the part about them being followed home

364

00:16:15,679 --> 00:16:11,899

and and the phenomenon interacting with

365

00:16:17,359 --> 00:16:15,689

individuals that's another story that's

366

00:16:21,349 --> 00:16:17,369

incest that's something else and then

367

00:16:24,109 --> 00:16:21,359

you have no sorry god no go ahead good

368

00:16:26,419 --> 00:16:24,119

and then I Gerry Jeremy Corbyn you know

369

00:16:29,359 --> 00:16:26,429

the new owner in the extras said that

370

00:16:31,519 --> 00:16:29,369

some of his personnel were sent to the

371

00:16:34,129 --> 00:16:31,529

hospital with life-threatening injuries

372

00:16:35,340 --> 00:16:34,139

and I tried to ask Jeremy about that and

373

00:16:37,590 --> 00:16:35,350

he said

374

00:16:39,510 --> 00:16:37,600

more think more like like a blood

375

00:16:41,190 --> 00:16:39,520

infection something that something that

376

00:16:43,050 --> 00:16:41,200

gets into the blood it's an infection in

377

00:16:45,710 --> 00:16:43,060

the whole body and it can it can kill

378

00:16:48,960 --> 00:16:45,720

you but he's never seen any evidence

379

00:16:51,120 --> 00:16:48,970

that you know that it was caused by

380

00:16:53,310 --> 00:16:51,130

phenomena and I tried that I asked him

381

00:16:55,560 --> 00:16:53,320

has the new owner showed you anything

382

00:16:57,060 --> 00:16:55,570

that backs it up I mean and it reven

383

00:16:58,500 --> 00:16:57,070

just showed that they actually were in

384

00:17:00,780 --> 00:16:58,510

the hospital is there any evidence any

385

00:17:02,310 --> 00:17:00,790

hospital records and they won't answer

386

00:17:03,780 --> 00:17:02,320

that question I don't know why if they

387

00:17:05,430 --> 00:17:03,790

don't want to ruffle them to the new

388

00:17:07,740 --> 00:17:05,440

owners feathers they just want to keep

389

00:17:09,510 --> 00:17:07,750

that relationship going but I have not

390

00:17:13,110 --> 00:17:09,520

gotten an answer from him or drawers on

391

00:17:15,870 --> 00:17:13,120

that yeah is interesting that Lou

392

00:17:16,939 --> 00:17:15,880

elizondo's education history as listed

393

00:17:19,140 --> 00:17:16,949

on to the stars Academy's website

394

00:17:22,980 --> 00:17:19,150

suggests that he's been studying

395

00:17:24,569 --> 00:17:22,990

parasitology which kind of fits in with

396

00:17:26,130 --> 00:17:24,579

the whole hitch-hiker

397

00:17:27,150 --> 00:17:26,140

hypothesis as well right it was

398

00:17:29,280 --> 00:17:27,160

something I picked up when I first

399

00:17:30,480 --> 00:17:29,290

looked at the website so when George

400

00:17:31,980 --> 00:17:30,490

Knapp was going to interview him I'll

401  
00:17:33,540 --> 00:17:31,990  
know what it did to ask him this

402  
00:17:35,640 --> 00:17:33,550  
question you know why'd you have that

403  
00:17:37,800 --> 00:17:35,650  
education history when you were studying

404  
00:17:39,690 --> 00:17:37,810  
this stuff within the Pentagon it seemed

405  
00:17:40,830 --> 00:17:39,700  
strange you know what I mean so I

406  
00:17:42,180 --> 00:17:40,840  
wondered whether or not there was a

407  
00:17:43,880 --> 00:17:42,190  
connection then it seems like it might

408  
00:17:46,470 --> 00:17:43,890  
there might be some sort of connection

409  
00:17:50,490 --> 00:17:46,480  
and there's been comments about the

410  
00:17:52,110 --> 00:17:50,500  
other to the Stars Academy guys help me

411  
00:17:56,250 --> 00:17:52,120  
out guys what are they they are like the

412  
00:17:57,840 --> 00:17:56,260  
bio well the guy who I find pretty

413  
00:17:59,490 --> 00:17:57,850

interesting is the guy who keeps the

414

00:18:01,560 --> 00:17:59,500

lowest profile me he keeps a lower

415

00:18:03,810 --> 00:18:01,570

profile than Bigelow and that's a column

416

00:18:06,360 --> 00:18:03,820

Kelleher because he's on the to the

417

00:18:08,850 --> 00:18:06,370

stars Academy Board and he was also a

418

00:18:10,320 --> 00:18:08,860

key guy obviously at mid's and was

419

00:18:11,820 --> 00:18:10,330

interviewed at least a little bit and

420

00:18:13,590 --> 00:18:11,830

that's the first I'd ever really seen of

421

00:18:15,090 --> 00:18:13,600

him he comes across as a an awfully nice

422

00:18:18,060 --> 00:18:15,100

guy but man it seemed quiet

423

00:18:20,580 --> 00:18:18,070

he doesn't talk much I met him at the

424

00:18:22,770 --> 00:18:20,590

premiere and I set up because I'm calm

425

00:18:25,380 --> 00:18:22,780

Kelleher I know who you are he goes who

426

00:18:27,360 --> 00:18:25,390

are you I don't like he goes I know that

427

00:18:29,070 --> 00:18:27,370

name I'm like now I say you don't know

428

00:18:34,170 --> 00:18:29,080

me I post stuff on Twitter you don't

429

00:18:36,030 --> 00:18:34,180

know who I am and then you got the two

430

00:18:39,840 --> 00:18:36,040

stars Academy what is it norm Cohn and

431

00:18:42,120 --> 00:18:39,850

he does all the the bio what is it bio

432

00:18:43,770 --> 00:18:42,130

weapons or I can't remember exactly but

433

00:18:47,010 --> 00:18:43,780

there's definitely a lot of different

434

00:18:48,750 --> 00:18:47,020

guys that do different things and you

435

00:18:49,080 --> 00:18:48,760

know I'd like to hear more about why

436

00:18:51,740 --> 00:18:49,090

there

437

00:18:54,570 --> 00:18:51,750

involved because we really 100% don't know

438

00:18:57,840 --> 00:18:54,580

yeah that is pretty strange yeah there's

439

00:18:59,610 --> 00:18:57,850

a kind of got a vast array of people I

440

00:19:00,630 --> 00:18:59,620

think there's some guy on there unless

441

00:19:06,000 --> 00:19:00,640

it on the website involved with some

442

00:19:11,310 --> 00:19:06,010

kind of neural research to Poole rap I

443

00:19:13,440 --> 00:19:11,320

think possibly yeah yeah so you know who

444

00:19:15,600 --> 00:19:13,450

knows why that stuff is there I mean

445

00:19:18,680 --> 00:19:15,610

right now you know the focus seems to be

446

00:19:20,670 --> 00:19:18,690

the atom project and the materials and

447

00:19:24,600 --> 00:19:20,680

you know they seem to be taking that

448

00:19:26,490 --> 00:19:24,610

pretty seriously and of course I think

449

00:19:28,310 --> 00:19:26,500

Dan you mentioned that not said

450

00:19:32,970 --> 00:19:28,320

something whose recent article about it

451  
00:19:36,540 --> 00:19:32,980  
about what I'm sorry cereals yeah that

452  
00:19:41,220 --> 00:19:36,550  
an atom project oh yeah yeah

453  
00:19:50,610 --> 00:19:41,230  
in the i-team recent I team story were

454  
00:19:54,270 --> 00:19:50,620  
they for yeah some can you hear me now

455  
00:20:14,750 --> 00:19:54,280  
yeah yeah okay Knapp said that we would

456  
00:20:21,390 --> 00:20:14,760  
be getting the round that this must be a

457  
00:20:23,460 --> 00:20:21,400  
mission I heard that was that last

458  
00:20:29,400 --> 00:20:23,470  
little bit I did yeah okay sorry

459  
00:20:31,950 --> 00:20:29,410  
yeah and of the i-team presentation the

460  
00:20:33,630 --> 00:20:31,960  
anniversary of to the Stars Academy he

461  
00:20:36,810 --> 00:20:33,640  
was saying that after the first of the

462  
00:20:38,220 --> 00:20:36,820  
year there will be a an atom project

463  
00:20:41,520 --> 00:20:38,230

announcement I don't know if that means

464

00:20:43,920 --> 00:20:41,530

January but it's pretty promising and

465

00:20:47,580 --> 00:20:43,930

that goes along with what

466

00:20:51,180 --> 00:20:47,590

MUFON Robert Marsh or I think was Robert

467

00:20:52,860 --> 00:20:51,190

Marsh said Ye Lozano had told him so

468

00:20:57,450 --> 00:20:52,870

that's basically confirmation of that

469

00:20:59,520 --> 00:20:57,460

rumor now that they've got actually new

470

00:21:01,130 --> 00:20:59,530

samples as well right because when they

471

00:21:03,270 --> 00:21:01,140

had that original video that went online

472

00:21:04,890 --> 00:21:03,280

had the page there

473

00:21:06,300 --> 00:21:04,900

and they since blocked it out they've

474

00:21:08,310 --> 00:21:06,310

really uploaded the video so you can't

475

00:21:10,560 --> 00:21:08,320

see what's written on the page but had

476  
00:21:12,240 --> 00:21:10,570  
an early copy of that video and I must

477  
00:21:14,490 --> 00:21:12,250  
have write out all of the text and it

478  
00:21:16,740 --> 00:21:14,500  
refers to two different samples there's

479  
00:21:19,320 --> 00:21:16,750  
one that's called Ohio ed sample and

480  
00:21:21,570 --> 00:21:19,330  
there's Rendlesham forest sample so

481  
00:21:23,100 --> 00:21:21,580  
these are presumably to pre-existing

482  
00:21:24,390 --> 00:21:23,110  
samples that are present at earth Tech

483  
00:21:26,580 --> 00:21:24,400  
right so I don't know whether they're

484  
00:21:28,170 --> 00:21:26,590  
they're part of the atom project and

485  
00:21:30,330 --> 00:21:28,180  
they're just sort of included the

486  
00:21:32,490 --> 00:21:30,340  
original analyses from those projects

487  
00:21:38,250 --> 00:21:32,500  
whether or not all the samples in that

488  
00:21:39,540 --> 00:21:38,260

all seven samples in you know I think

489

00:21:41,640 --> 00:21:39,550

that some of these pieces have been

490

00:21:44,820 --> 00:21:41,650

floating around and you know they have

491

00:21:47,640 --> 00:21:44,830

seven pieces and all and we also know

492

00:21:50,940 --> 00:21:47,650

that arts parts the magnesium business

493

00:21:52,680 --> 00:21:50,950

zinc piece as as part of this too so

494

00:21:55,020 --> 00:21:52,690

that that's that's three of the pieces

495

00:21:56,910 --> 00:21:55,030

right there I would expect some of the

496

00:21:59,580 --> 00:21:56,920

you batum of material might be in there

497

00:22:02,550 --> 00:21:59,590

as well that's that comes from a crash

498

00:22:04,080 --> 00:22:02,560

down in Brazil decades ago and that

499

00:22:05,910 --> 00:22:04,090

stuff has been floating around for quite

500

00:22:08,460 --> 00:22:05,920

some time and it's gotten some attention

501  
00:22:10,770 --> 00:22:08,470  
professor peter stork is somebody who

502  
00:22:15,300 --> 00:22:10,780  
has spent a lot of time i working on

503  
00:22:17,550 --> 00:22:15,310  
that stuff going back going back decades

504  
00:22:19,470 --> 00:22:17,560  
you probably wrote a paper i've got

505  
00:22:22,650 --> 00:22:19,480  
linked at my website that back in the

506  
00:22:24,270 --> 00:22:22,660  
very late 90s so this goes back aways of

507  
00:22:26,250 --> 00:22:24,280  
that this has been a phenomenon this

508  
00:22:28,310 --> 00:22:26,260  
have been part of the field it's kind of

509  
00:22:30,780 --> 00:22:28,320  
limited it doesn't have a lot of a

510  
00:22:33,390 --> 00:22:30,790  
material or a lot to talk about but

511  
00:22:35,240 --> 00:22:33,400  
obviously if you know you've got four

512  
00:22:39,420 --> 00:22:35,250  
scientists on the record that between

513  
00:22:42,360 --> 00:22:39,430

nolan valet put off and start going that

514

00:22:43,620 --> 00:22:42,370

back in the day saying that they think

515

00:22:49,140 --> 00:22:43,630

they've got something got something

516

00:22:50,340 --> 00:22:49,150

unique here the two that i mentioned

517

00:22:51,660 --> 00:22:50,350

earlier i don't think i when you

518

00:22:53,670 --> 00:22:51,670

actually read through that report it

519

00:22:57,870 --> 00:22:53,680

sounds like they're terrestrial so i l

520

00:22:59,820 --> 00:22:57,880

hope I hope it's a no Ohio ed sample and

521

00:23:02,100 --> 00:22:59,830

Rendlesham sample I think from the

522

00:23:03,990 --> 00:23:02,110

description on that paper are completely

523

00:23:06,540 --> 00:23:04,000

terrestrial it seems to be you know when

524

00:23:07,830 --> 00:23:06,550

you read down about the different metals

525

00:23:09,090 --> 00:23:07,840

that are included and stuff like that it

526

00:23:11,450 --> 00:23:09,100

doesn't that I don't see anything on

527

00:23:13,650 --> 00:23:11,460

their isotopic ratios it sounds like

528

00:23:15,990 --> 00:23:13,660

there's nothing interesting about them

529

00:23:17,180 --> 00:23:16,000

but in the video again it shows an

530

00:23:19,430 --> 00:23:17,190

implant

531

00:23:21,469 --> 00:23:19,440

it's like a tube that's full of water

532

00:23:22,729 --> 00:23:21,479

and you see this piece of metal within

533

00:23:24,710 --> 00:23:22,739

that water and they've got a magnet

534

00:23:26,599 --> 00:23:24,720

along the side of it now I don't really

535

00:23:28,099 --> 00:23:26,609

know what the implants are for but if it

536

00:23:30,440 --> 00:23:28,109

works anything like terrestrial

537

00:23:32,539 --> 00:23:30,450

technology like we have now if you apply

538

00:23:34,219 --> 00:23:32,549

a magnet to something that has data on

539

00:23:36,529 --> 00:23:34,229

it us since you remove that tater from

540

00:23:37,849 --> 00:23:36,539

the device I hopefully the technology

541

00:23:42,440 --> 00:23:37,859

doesn't work in the same way otherwise

542

00:23:44,810 --> 00:23:42,450

it would have cranked it a lot you

543

00:23:47,269 --> 00:23:44,820

mentioned that magnetism and I do know

544

00:23:50,089 --> 00:23:47,279

one of the elements involved in the arts

545

00:23:53,690 --> 00:23:50,099

parts alloy is bismuth which is not an

546

00:23:55,940 --> 00:23:53,700

especially interesting component to an

547

00:23:57,560 --> 00:23:55,950

alloy and that business is not very

548

00:24:00,759 --> 00:23:57,570

strong now the only thing that's really

549

00:24:04,159 --> 00:24:00,769

interesting about it is it is the most

550

00:24:08,359 --> 00:24:04,169

diamagnetic metal on earth which means

551  
00:24:10,749 --> 00:24:08,369  
basically that it rather than attracting

552  
00:24:13,639 --> 00:24:10,759  
a metal of being a magnetic actually

553  
00:24:15,529 --> 00:24:13,649  
repels the metal which i think is kind

554  
00:24:17,659 --> 00:24:15,539  
of interesting possibly it might have

555  
00:24:19,849 --> 00:24:17,669  
something to do with propulsion maybe I

556  
00:24:21,919 --> 00:24:19,859  
don't know but it seems like it's too

557  
00:24:24,739 --> 00:24:21,929  
weak of metal to me to be part of any

558  
00:24:26,690 --> 00:24:24,749  
kind of a structural metal like a part

559  
00:24:29,029 --> 00:24:26,700  
of a frame part of a hull something

560  
00:24:30,409 --> 00:24:29,039  
along those lines might have something

561  
00:24:32,560 --> 00:24:30,419  
to do with the propulsion that's said

562  
00:24:36,109 --> 00:24:32,570  
the only thing I can think of yeah

563  
00:24:37,639 --> 00:24:36,119

Newseum is conductive nothing bismuth is

564

00:24:39,349 --> 00:24:37,649

non conductive or one of the least

565

00:24:41,619 --> 00:24:39,359

conductive metals so there seems to be

566

00:24:44,330 --> 00:24:41,629

almost like conflicting parts of them

567

00:24:47,149 --> 00:24:44,340

yeah and they said the that you know

568

00:24:50,089 --> 00:24:47,159

bismuth and magnesium I think shouldn't

569

00:24:51,769 --> 00:24:50,099

really mix that readily that the way

570

00:24:53,899 --> 00:24:51,779

that they're layered in that piece is

571

00:24:56,539 --> 00:24:53,909

part of the kind of strange thing about

572

00:25:01,099 --> 00:24:56,549

the piece thickness as well isn't it

573

00:25:04,009 --> 00:25:01,109

it's just a few microns thick and Linda

574

00:25:07,369 --> 00:25:04,019

Moulton Howe she has a whole you know

575

00:25:10,070 --> 00:25:07,379

four-part presentation just on these on

576  
00:25:13,729 --> 00:25:10,080  
arts parts piece and she's explaining it

577  
00:25:15,969 --> 00:25:13,739  
and it's just incredibly you know like

578  
00:25:19,489 --> 00:25:15,979  
you said there's just a few microns

579  
00:25:20,719 --> 00:25:19,499  
thickness of one layer and then microns

580  
00:25:22,669 --> 00:25:20,729  
thickness of the next

581  
00:25:28,999 --> 00:25:22,679  
so it's you know either strange that

582  
00:25:31,070 --> 00:25:29,009  
it's put like that my colleague oh my

583  
00:25:33,139 --> 00:25:31,080  
god regs he

584  
00:25:35,750 --> 00:25:33,149  
he is kind of a conspiracy theory well

585  
00:25:37,940 --> 00:25:35,760  
that is a that is Chris Wolford who was

586  
00:25:39,799 --> 00:25:37,950  
supposed to be here today but I guess he

587  
00:25:41,570 --> 00:25:39,809  
got burned out from his a three hour

588  
00:25:43,639 --> 00:25:41,580

marathon appearance on midnight in the

589

00:25:47,539 --> 00:25:43,649

desert Friday nights so he wasn't able

590

00:25:47,870 --> 00:25:47,549

to squeeze us in today no Dre oh I'm

591

00:25:52,970 --> 00:25:47,880

sorry

592

00:25:56,019 --> 00:25:52,980

anyway

593

00:25:57,200 --> 00:25:56,029

yes that's Chris the homey Chris but um

594

00:25:59,389 --> 00:25:57,210

dregg's

595

00:26:01,190 --> 00:25:59,399

he's a Twitter user you see him on there

596

00:26:03,259 --> 00:26:01,200

but he's a good friend of mine and this

597

00:26:05,180 --> 00:26:03,269

is a conspiracy theory but it did blow

598

00:26:09,110 --> 00:26:05,190

me away just how simple it is is that

599

00:26:11,629 --> 00:26:09,120

you know if there is these metals and

600

00:26:14,240 --> 00:26:11,639

they're in the government or in other

601  
00:26:15,889 --> 00:26:14,250  
places or other organizations where they

602  
00:26:17,810 --> 00:26:15,899  
don't want to release them the fact that

603  
00:26:19,909 --> 00:26:17,820  
to the Stars Academy is accepting things

604  
00:26:21,620 --> 00:26:19,919  
now either and anonymously it is a

605  
00:26:29,620 --> 00:26:21,630  
perfect way for some of this stuff to

606  
00:26:32,720 --> 00:26:29,630  
come out yeah that is pretty interesting

607  
00:26:34,750 --> 00:26:32,730  
an interesting note - also is that um

608  
00:26:39,440 --> 00:26:34,760  
Frank you mentioned the ubatuba piece

609  
00:26:43,580 --> 00:26:39,450  
which they you know Peter stock defined

610  
00:26:46,580 --> 00:26:43,590  
anomalies and but you know Gary Nolan

611  
00:26:49,190 --> 00:26:46,590  
had also said that Jacques Vallee has

612  
00:26:51,769 --> 00:26:49,200  
other pieces that are quite older as

613  
00:26:53,930 --> 00:26:51,779

well that are even more anomalous and

614

00:26:57,470 --> 00:26:53,940

it's almost blatant that it's some kind

615

00:26:59,120 --> 00:26:57,480

of technology and I think there's going

616

00:27:06,919 --> 00:26:59,130

to be more coming in out on that

617

00:27:10,190 --> 00:27:06,929

sometime next year that's so exciting to

618

00:27:12,289 --> 00:27:10,200

me yeah it's fascinating I mean and you

619

00:27:13,820 --> 00:27:12,299

know it's to the Stars there's only you

620

00:27:16,009 --> 00:27:13,830

know one group doing this there's other

621

00:27:18,409 --> 00:27:16,019

groups you know like Jacques Vallee and

622

00:27:20,299 --> 00:27:18,419

knowing or working on these pieces and

623

00:27:21,950 --> 00:27:20,309

they're coming out with there's a film

624

00:27:26,450 --> 00:27:21,960

coming out they're the part in their

625

00:27:28,580 --> 00:27:26,460

film was only a like a section of the

626

00:27:30,529 --> 00:27:28,590

film it's a it's a bigger film but it's

627

00:27:33,470 --> 00:27:30,539

gonna feature their study of the

628

00:27:35,690 --> 00:27:33,480

materials in the film and you know yeah

629

00:27:39,350 --> 00:27:35,700

I guess Gary Nolan was able to build

630

00:27:42,860 --> 00:27:39,360

some kind of device in his lab that's

631

00:27:44,900 --> 00:27:42,870

specifically me to work with you know

632

00:27:46,780 --> 00:27:44,910

cellular biology and that kind of stuff

633

00:27:51,430 --> 00:27:46,790

but it just so happens that the device

634

00:27:54,560 --> 00:27:51,440

works very well analyzing materials wow

635

00:27:56,390 --> 00:27:54,570

that's uh and you know from what he says

636

00:27:59,690 --> 00:27:56,400

is that son you know some of the stuff

637

00:28:01,460 --> 00:27:59,700

is fascinating it's not just um you know

638

00:28:02,900 --> 00:28:01,470

run-of-the-mill material that's all like

639

00:28:05,750 --> 00:28:02,910

this thing's strange he's saying that

640

00:28:11,480 --> 00:28:05,760

some of the materials are pretty

641

00:28:13,550 --> 00:28:11,490

astounding well but also interesting

642

00:28:14,720 --> 00:28:13,560

Noda on peter Sturrock you know he

643

00:28:17,150 --> 00:28:14,730

studied these materials

644

00:28:19,040 --> 00:28:17,160

he was also I believe part of the

645

00:28:23,870 --> 00:28:19,050

Rockefeller initiative and he was also

646

00:28:26,120 --> 00:28:23,880

consultant on knits you know that's it

647

00:28:28,640 --> 00:28:26,130

he gets around he's he's been doing this

648

00:28:30,980 --> 00:28:28,650

for a long time and I had the chance to

649

00:28:33,350 --> 00:28:30,990

interview him a few years back talking

650

00:28:36,650 --> 00:28:33,360

about radars being a physical evidence

651  
00:28:38,510 --> 00:28:36,660  
for UFOs and that was a fun article to

652  
00:28:40,610 --> 00:28:38,520  
write something I always thought it was

653  
00:28:43,370 --> 00:28:40,620  
nice to get a physicist like Sturrock

654  
00:28:45,440 --> 00:28:43,380  
who was actually involved in developing

655  
00:28:46,760 --> 00:28:45,450  
early radar systems during World War two

656  
00:28:50,420 --> 00:28:46,770  
back in his home country of England

657  
00:28:52,850 --> 00:28:50,430  
which you know let's not kid ourselves J

658  
00:28:56,480 --> 00:28:52,860  
yeah thanks to radar that's what allowed

659  
00:28:58,850 --> 00:28:56,490  
your guy you guys to you know one the

660  
00:29:03,010 --> 00:28:58,860  
those Nazi planes were flying over and

661  
00:29:06,890 --> 00:29:03,020  
get up there and take care of them right

662  
00:29:08,390 --> 00:29:06,900  
for sure for the for the actual metals

663  
00:29:10,340 --> 00:29:08,400

as well that it's quite interesting for

664

00:29:12,860 --> 00:29:10,350

a lot of this stuff there's papers now

665

00:29:15,380 --> 00:29:12,870

so we're going patents in the u.s. so in

666

00:29:17,360 --> 00:29:15,390

your country where you actually layering

667

00:29:19,430 --> 00:29:17,370

different types of metals it's either

668

00:29:22,190 --> 00:29:19,440

different metals or like a different

669

00:29:23,950 --> 00:29:22,200

type of material within the metals and

670

00:29:26,660 --> 00:29:23,960

there's part of these patents it says

671

00:29:29,210 --> 00:29:26,670

that if they radiate these materials

672

00:29:31,160 --> 00:29:29,220

these meta materials with a terahertz

673

00:29:32,090 --> 00:29:31,170

frequency or a microwave frequency

674

00:29:35,120 --> 00:29:32,100

depending on the type of material

675

00:29:37,820 --> 00:29:35,130

they're using it gives cloaking

676  
00:29:40,040 --> 00:29:37,830  
abilities which is fascinating you know

677  
00:29:42,020 --> 00:29:40,050  
what I mean it's kind of suggesting what

678  
00:29:44,240 --> 00:29:42,030  
these things do is they make the ship

679  
00:29:45,740 --> 00:29:44,250  
invisible somehow you know just

680  
00:29:47,180 --> 00:29:45,750  
mind-blowing incredible stuff and this

681  
00:29:49,910 --> 00:29:47,190  
stuff is just available you know you

682  
00:29:51,110 --> 00:29:49,920  
look for it look for these patents and

683  
00:29:55,430 --> 00:29:51,120  
you can kind of find this detail

684  
00:29:58,100 --> 00:29:55,440  
incredible stuff metamaterials being

685  
00:29:59,300 --> 00:29:58,110  
used right in aviation and things like

686  
00:30:02,060 --> 00:29:59,310  
that

687  
00:30:03,350 --> 00:30:02,070  
and I've asked Jade this before too and

688  
00:30:06,110 --> 00:30:03,360

I just I wish there was a way that we

689

00:30:07,910 --> 00:30:06,120

could know if it was extra-special

690

00:30:10,750 --> 00:30:07,920

metamaterials or kind of more normal

691

00:30:14,390 --> 00:30:10,760

ones when we're looking at some of these

692

00:30:17,300 --> 00:30:14,400

reports and things like that I think

693

00:30:19,940 --> 00:30:17,310

anything that we manufacture on earth is

694

00:30:22,100 --> 00:30:19,950

probably likely to be you know simpler

695

00:30:23,390 --> 00:30:22,110

than anything that we find as part of

696

00:30:25,160 --> 00:30:23,400

any type of craft and it's going to be

697

00:30:26,300 --> 00:30:25,170

much more complex I think there were

698

00:30:28,040 --> 00:30:26,310

suggestions that you're going to do it

699

00:30:29,150 --> 00:30:28,050

in the zero gravity not this kind of

700

00:30:30,770 --> 00:30:29,160

stuff you know who manufactured this

701  
00:30:33,500 --> 00:30:30,780  
stuff but I don't I don't know too much

702  
00:30:35,930 --> 00:30:33,510  
that's it and James was just talking

703  
00:30:38,960 --> 00:30:35,940  
about that to where he pointed out in

704  
00:30:41,450 --> 00:30:38,970  
that great great nap interview with

705  
00:30:44,780 --> 00:30:41,460  
phenomena radio at the end that they

706  
00:30:48,200 --> 00:30:44,790  
were saying that the big low but is it

707  
00:30:54,350 --> 00:30:48,210  
the space the inflatable space station

708  
00:30:55,730 --> 00:30:54,360  
or yeah and they may be used and for to

709  
00:30:57,950 --> 00:30:55,740  
manufacture some of these meta materials

710  
00:30:59,870 --> 00:30:57,960  
in a zero-gravity which seems to be the

711  
00:31:01,250 --> 00:30:59,880  
case for some of the special

712  
00:31:05,360 --> 00:31:01,260  
metamaterials at least it's been

713  
00:31:07,370 --> 00:31:05,370

theorized yeah I mean it seems that what

714

00:31:09,680 --> 00:31:07,380

Big Oil wants to do do is take you know

715

00:31:13,160 --> 00:31:09,690

let's just say you know we speculate

716

00:31:15,410 --> 00:31:13,170

that there there is a clandestine on the

717

00:31:17,930 --> 00:31:15,420

unacknowledged special access program

718

00:31:20,780 --> 00:31:17,940

that that can create these materials and

719

00:31:23,240 --> 00:31:20,790

wherever they you know do that if that's

720

00:31:24,650 --> 00:31:23,250

even possible that that what big ol

721

00:31:28,580 --> 00:31:24,660

wants to do is bring it out to the white

722

00:31:30,920 --> 00:31:28,590

world and do that publicly sometime in

723

00:31:32,270 --> 00:31:30,930

the future or at least you know create

724

00:31:35,090 --> 00:31:32,280

the environment where people will be

725

00:31:36,530 --> 00:31:35,100

able to have a space station and work

726

00:31:44,360 --> 00:31:36,540

out there and maybe possibly develop

727

00:31:47,230 --> 00:31:44,370

materials so yeah that's a you know

728

00:31:50,870 --> 00:31:47,240

that's pretty that's a pretty big order

729

00:31:54,440 --> 00:31:50,880

about Bigelow you know from some of the

730

00:31:58,400 --> 00:31:54,450

comments that Knapp made he almost made

731

00:32:00,740 --> 00:31:58,410

it sound like Bigelow is not working

732

00:32:05,000 --> 00:32:00,750

specifically on this anymore after that

733

00:32:06,530 --> 00:32:05,010

contract ended with was awesome that

734

00:32:08,960 --> 00:32:06,540

when the with a project was can

735

00:32:12,499 --> 00:32:08,970

basically when the funding was cold

736

00:32:15,079 --> 00:32:12,509

because people were

737

00:32:17,389 --> 00:32:15,089

that you know by studying this that

738

00:32:18,949 --> 00:32:17,399

they're messing with demons and and also

739

00:32:19,879 --> 00:32:18,959

if the public found out that the

740

00:32:21,619 --> 00:32:19,889

government you as government was

741

00:32:22,430 --> 00:32:21,629

studying this it would be an

742

00:32:23,810 --> 00:32:22,440

embarrassment

743

00:32:25,879 --> 00:32:23,820

yeah that's one of the things that Knapp

744

00:32:29,209 --> 00:32:25,889

talked about as well I heard that from

745

00:32:31,369 --> 00:32:29,219

my sources you know that biggest problem

746

00:32:33,469 --> 00:32:31,379

he probably is still doing things but

747

00:32:35,629 --> 00:32:33,479

he's definitely doing it a lot more

748

00:32:36,979 --> 00:32:35,639

reserved and the fact that you have

749

00:32:39,769 --> 00:32:36,989

contracts with NASA

750

00:32:43,129 --> 00:32:39,779

it just doesn't bode well with those

751  
00:32:45,739 --> 00:32:43,139  
guys when you're going full-bore on on

752  
00:32:47,059 --> 00:32:45,749  
UFO stuff at least publicly so he kind

753  
00:32:49,099 --> 00:32:47,069  
of probably had to back off a little bit

754  
00:32:50,959 --> 00:32:49,109  
but I'm sure he's still doing some

755  
00:32:53,259 --> 00:32:50,969  
things behind the scenes though I mean

756  
00:32:55,189 --> 00:32:53,269  
that guy the guy who's now managing

757  
00:32:56,779 --> 00:32:55,199  
adamantium is that how you say it

758  
00:32:58,189 --> 00:32:56,789  
Thomas I think his name is Thomas

759  
00:32:58,699 --> 00:32:58,199  
Edgerton you guys know what who I'm

760  
00:33:01,879 --> 00:32:58,709  
talking about

761  
00:33:04,189 --> 00:33:01,889  
winters maybe Winterton Winterton and he

762  
00:33:06,109 --> 00:33:04,199  
was at that meeting in the public city

763  
00:33:09,019 --> 00:33:06,119

council meeting he said he brought on a

764

00:33:10,579 --> 00:33:09,029

new person so it's it's clear he didn't

765

00:33:14,029 --> 00:33:10,589

you know he purposely used the words

766

00:33:15,409 --> 00:33:14,039

Bigelow on a new person and they asked

767

00:33:16,879 --> 00:33:15,419

him could you clarify and get the

768

00:33:18,409 --> 00:33:16,889

reporter called him up he's like I stick

769

00:33:20,329 --> 00:33:18,419

I stand by my I don't wanna comment but

770

00:33:21,619 --> 00:33:20,339

I stand by what I said so I wouldn't be

771

00:33:23,329 --> 00:33:21,629

surprised if he's in the background and

772

00:33:24,769 --> 00:33:23,339

I'm that's I'm happy with that let him

773

00:33:26,269 --> 00:33:24,779

let him stay in the background doesn't

774

00:33:28,579 --> 00:33:26,279

bother me if you want if he needs to do

775

00:33:30,559 --> 00:33:28,589

that to keep his NASA work going I mean

776

00:33:32,599 --> 00:33:30,569

that's fine with me I mean I know people

777

00:33:35,809 --> 00:33:32,609

are upset that trying to make it a big

778

00:33:37,879 --> 00:33:35,819

deal I'm curious about it but you know

779

00:33:40,339 --> 00:33:37,889

it's an important thing I think what

780

00:33:41,989 --> 00:33:40,349

he's doing is incredible ya know I think

781

00:33:43,969 --> 00:33:41,999

Bigelow's really pushed this whole thing

782

00:33:45,469 --> 00:33:43,979

forwards I think without Bigelow none of

783

00:33:48,739 --> 00:33:45,479

this stuff would have happened it's my

784

00:33:52,819 --> 00:33:48,749

view yeah let certainly a lot of it I

785

00:33:54,379 --> 00:33:52,829

mean back you know he went on the show

786

00:33:56,599 --> 00:33:54,389

with George Knapp and and he talked

787

00:33:58,309 --> 00:33:56,609

about confirmation and he was kind of

788

00:34:00,139 --> 00:33:58,319

hinting at this as George said back then

789

00:34:01,969 --> 00:34:00,149

of some of the stuff that he was doing

790

00:34:03,799 --> 00:34:01,979

in his head he had a partner in this and

791

00:34:05,479 --> 00:34:03,809

he where he was actually talking with

792

00:34:08,180 --> 00:34:05,489

the US government but he couldn't say it

793

00:34:09,919 --> 00:34:08,190

yeah but I mean other than that we you

794

00:34:11,779 --> 00:34:09,929

know he you know people had only heard

795

00:34:14,629 --> 00:34:11,789

speculation of Bigelow putting money

796

00:34:17,509 --> 00:34:14,639

here trying to get involved here but he

797

00:34:19,669 --> 00:34:17,519

you know he has done quite a lot where

798

00:34:23,690 --> 00:34:19,679

he initially funded the skinwalker ranch

799

00:34:25,010 --> 00:34:23,700

stuff right which later went through to

800

00:34:27,500 --> 00:34:25,020

to fast

801

00:34:29,869 --> 00:34:27,510

so yeah so he's from here quietly at

802

00:34:34,369 --> 00:34:29,879

first yeah well yeah he owned the place

803

00:34:36,080 --> 00:34:34,379

for a little bit there yeah yeah donated

804

00:34:39,409 --> 00:34:36,090

five million dollars to consciousness

805

00:34:41,690 --> 00:34:39,419

style is that new and LV and mas yes so

806

00:34:44,090 --> 00:34:41,700

I mean it's a nice little chunk of

807

00:34:45,770 --> 00:34:44,100

change to be studying consciousness yeah

808

00:34:47,419 --> 00:34:45,780

yeah well I think it's a really

809

00:34:49,040 --> 00:34:47,429

important thing that's that that's the

810

00:34:50,840 --> 00:34:49,050

difficult part for me you know when I

811

00:34:52,790 --> 00:34:50,850

read through all of those stuff those

812

00:34:54,530 --> 00:34:52,800

reports that he had on the NIT website

813

00:34:56,540 --> 00:34:54,540

and loads of this stuff that I found

814

00:34:59,450 --> 00:34:56,550

recently I just think it's absolutely

815

00:35:02,030 --> 00:34:59,460

key to all of this stuff it seems to be

816

00:35:03,650 --> 00:35:02,040

something like you know if you get

817

00:35:05,780 --> 00:35:03,660

yourself into a kind of trance like

818

00:35:07,820 --> 00:35:05,790

state you're able to sort of get

819

00:35:09,740 --> 00:35:07,830

yourself almost involved with some other

820

00:35:11,570 --> 00:35:09,750

type of reality to a certain extent you

821

00:35:13,670 --> 00:35:11,580

know like shamanic shamanic initiation

822

00:35:15,859 --> 00:35:13,680

and all this kind of stuff you know the

823

00:35:17,540 --> 00:35:15,869

drumming you know they're able to push

824

00:35:20,150 --> 00:35:17,550

themselves through to these different

825

00:35:22,490 --> 00:35:20,160

what's these different states you know

826

00:35:24,290 --> 00:35:22,500

these shamans when they're drama they

827

00:35:26,000 --> 00:35:24,300

talked about essentially remote viewing

828

00:35:27,020 --> 00:35:26,010

for for years and years and years you

829

00:35:29,450 --> 00:35:27,030

know it's just I certainly got

830

00:35:32,030 --> 00:35:29,460

overlooked by Western cultures because

831

00:35:33,470 --> 00:35:32,040

we just you know we've looked at it from

832

00:35:34,730 --> 00:35:33,480

a totally different perspective we

833

00:35:35,570 --> 00:35:34,740

dissolve or we can't measure this

834

00:35:38,270 --> 00:35:35,580

objectively

835

00:35:40,820 --> 00:35:38,280

so therefore it's false but it seems

836

00:35:43,310 --> 00:35:40,830

like Western culture is almost catching

837

00:35:44,960 --> 00:35:43,320

up with some of these these old

838

00:35:48,230 --> 00:35:44,970

traditional beliefs and it you know

839

00:35:50,240 --> 00:35:48,240

there seems to be something in it yeah I

840

00:35:51,950 --> 00:35:50,250

think that you know consciousness is

841

00:35:55,130 --> 00:35:51,960

definitely at the core of this you know

842

00:35:57,290 --> 00:35:55,140

grant Cameron he goes into that and he

843

00:35:59,900 --> 00:35:57,300

has some other people dr. Steven Greer

844

00:36:02,570 --> 00:35:59,910

he touches on that a lot and especially

845

00:36:04,430 --> 00:36:02,580

how the phenomenon and even the

846

00:36:06,920 --> 00:36:04,440

phenomenon if they're using technology

847

00:36:08,690 --> 00:36:06,930

that's the best way we can describe it

848

00:36:10,790 --> 00:36:08,700

which it seems when you know these

849

00:36:14,620 --> 00:36:10,800

materials are found and you know they're

850

00:36:18,410 --> 00:36:14,630

being tracked but that their technology

851

00:36:20,180 --> 00:36:18,420

interfaces with consciousness and so

852

00:36:22,660 --> 00:36:20,190

consciousness is a huge part of this and

853

00:36:25,250 --> 00:36:22,670

and you know Jay you had mentioned that

854

00:36:27,650 --> 00:36:25,260

there's papers talking about you know

855

00:36:31,070 --> 00:36:27,660

brain technology interface or something

856

00:36:34,130 --> 00:36:31,080

right yeah all kinds of stuff yet so you

857

00:36:36,410 --> 00:36:34,140

can so that was written into a fire

858

00:36:38,210 --> 00:36:36,420

within the most recent book by date

859

00:36:38,740 --> 00:36:38,220

Hartley and he was talking about brain

860

00:36:40,990 --> 00:36:38,750

machine and

861

00:36:42,280 --> 00:36:41,000

faces in that book and that seems to be

862

00:36:43,480 --> 00:36:42,290

something that is actually there's

863

00:36:45,460 --> 00:36:43,490

patents for it you know we've got

864

00:36:47,080 --> 00:36:45,470

research papers about it so it's

865

00:36:48,010 --> 00:36:47,090

something that's happening and they're

866

00:36:49,930 --> 00:36:48,020

saying it's gonna be happening in

867

00:36:52,240 --> 00:36:49,940

something like 2040 as part of these

868

00:36:54,070 --> 00:36:52,250

papers but who knows you know maybe some

869

00:36:55,420 --> 00:36:54,080

of the stuff is available now but it's

870

00:36:57,010 --> 00:36:55,430

the consciousness stuff again that

871

00:36:59,950 --> 00:36:57,020

really interests me and if we look at

872

00:37:03,070 --> 00:36:59,960

stuff like Peter Levin ders book so I

873

00:37:04,720 --> 00:37:03,080

think the first book was gods right it's

874

00:37:06,370 --> 00:37:04,730

kind of all relates back do you know

875

00:37:08,170 --> 00:37:06,380

what I mean it's all of these historical

876  
00:37:10,480 --> 00:37:08,180  
religions seem to sort of came back into

877  
00:37:12,160 --> 00:37:10,490  
these different conscious states and

878  
00:37:14,520 --> 00:37:12,170  
people's view of these spirits

879  
00:37:16,690 --> 00:37:14,530  
malevolent or benevolent whatever it is

880  
00:37:18,190 --> 00:37:16,700  
there seems to be some sort of tying

881  
00:37:19,690 --> 00:37:18,200  
well there seems to be some sort of

882  
00:37:21,490 --> 00:37:19,700  
thread between all of these types of

883  
00:37:23,890 --> 00:37:21,500  
things or even the esoteric religions in

884  
00:37:25,240 --> 00:37:23,900  
them or Shaymin isn't or whatever it is

885  
00:37:27,820 --> 00:37:25,250  
there seems to be some sort of thread

886  
00:37:30,040 --> 00:37:27,830  
that ties it all together and ufology

887  
00:37:31,750 --> 00:37:30,050  
and consciousness and science and you

888  
00:37:34,000 --> 00:37:31,760

know all of these things they they tie

889

00:37:35,440 --> 00:37:34,010

together in a circle it's just just

890

00:37:37,540 --> 00:37:35,450

going to work it all out you know what I

891

00:37:38,800 --> 00:37:37,550

mean and that's that's kind of the view

892

00:37:40,270 --> 00:37:38,810

that I'm going with this there seems to

893

00:37:42,970 --> 00:37:40,280

be some sort of connection between all

894

00:37:44,800 --> 00:37:42,980

or even human experience you know a lot

895

00:37:46,750 --> 00:37:44,810

of normal Asst experiences you know

896

00:37:49,810 --> 00:37:46,760

we're capable of so much more than we

897

00:37:53,290 --> 00:37:49,820

really realize and that kind of stuff is

898

00:37:55,270 --> 00:37:53,300

starting to be looked into by different

899

00:37:56,980 --> 00:37:55,280

scientific groups again started at the

900

00:37:59,170 --> 00:37:56,990

beginning at the beginning of the twenty

901  
00:38:02,500 --> 00:37:59,180  
20th century and then kind of tapered

902  
00:38:03,640 --> 00:38:02,510  
off it seems to be picking up again you

903  
00:38:04,840 --> 00:38:03,650  
know hundred years later we're actually

904  
00:38:07,300 --> 00:38:04,850  
starting to look at it properly again

905  
00:38:10,270 --> 00:38:07,310  
which is fascinating it was that yeah

906  
00:38:13,060 --> 00:38:10,280  
going back to the 1930s you had Upton

907  
00:38:16,800 --> 00:38:13,070  
Sinclair the very famous author of books

908  
00:38:19,450 --> 00:38:16,810  
like it can't happen here getting into

909  
00:38:22,750 --> 00:38:19,460  
psychic research and he'd written a book

910  
00:38:24,730 --> 00:38:22,760  
called a mental radio that the board was

911  
00:38:27,430 --> 00:38:24,740  
actually written for that book by none

912  
00:38:30,430 --> 00:38:27,440  
other than Albert Albert Einstein so oh

913  
00:38:32,740 --> 00:38:30,440

wow this this goes this kind of study

914

00:38:35,470 --> 00:38:32,750

goes back quite some ways and obviously

915

00:38:38,110 --> 00:38:35,480

the history of it that was followed

916

00:38:40,780 --> 00:38:38,120

through and ultimately led to the remote

917

00:38:42,850 --> 00:38:40,790

viewing project which also is a little

918

00:38:45,460 --> 00:38:42,860

bit too intertwined with all this UFO

919

00:38:48,340 --> 00:38:45,470

stuff yeah absolutely

920

00:38:51,460 --> 00:38:48,350

even things like idealism so different

921

00:38:52,480 --> 00:38:51,470

philosophies state that mind is

922

00:38:54,190 --> 00:38:52,490

fundamental Marlon

923

00:38:56,170 --> 00:38:54,200

comes prior to matter I mean I don't

924

00:38:57,160 --> 00:38:56,180

know whether this is true but it's been

925

00:38:58,990 --> 00:38:57,170

something that's been taught for

926  
00:39:02,020 --> 00:38:59,000  
thousands of years but different mystery

927  
00:39:03,580 --> 00:39:02,030  
schools or you know different esoteric

928  
00:39:05,620 --> 00:39:03,590  
religions all of this kind of stuff they

929  
00:39:08,050 --> 00:39:05,630  
all kind of go with this principle first

930  
00:39:10,150 --> 00:39:08,060  
that your mind your consciousness your

931  
00:39:11,680 --> 00:39:10,160  
sense of self comes before anything else

932  
00:39:14,260 --> 00:39:11,690  
that you see and you're kind of

933  
00:39:15,820 --> 00:39:14,270  
manifesting that to some extent it might

934  
00:39:17,950 --> 00:39:15,830  
be a battle of wills with you with

935  
00:39:19,870 --> 00:39:17,960  
versus everybody else you know choosing

936  
00:39:22,840 --> 00:39:19,880  
how things are all that kind of stuff

937  
00:39:24,490 --> 00:39:22,850  
but you know I don't know whether it

938  
00:39:26,680 --> 00:39:24,500

there's anything really in it but it's

939

00:39:30,580 --> 00:39:26,690

quite an interesting way of looking at

940

00:39:32,320 --> 00:39:30,590

the issue I think well everything we're

941

00:39:35,140 --> 00:39:32,330

using to get the show on the road today

942

00:39:37,000 --> 00:39:35,150

whether it's a Skype or the software I

943

00:39:39,340 --> 00:39:37,010

used to do the upload or the site like

944

00:39:42,700 --> 00:39:39,350

YouTube or the the Twitter site that we

945

00:39:47,650 --> 00:39:42,710

all use or Facebook which we most most

946

00:39:50,530 --> 00:39:47,660

of us use anyway that that is all how

947

00:39:52,540 --> 00:39:50,540

can I say it it all began with an idea

948

00:39:54,940 --> 00:39:52,550

it all began with an idea before it

949

00:39:56,770 --> 00:39:54,950

became manifest so that's what we need

950

00:40:01,930 --> 00:39:56,780

more of here on this planet some more

951  
00:40:03,370 --> 00:40:01,940  
good ideas yes and you know what's funny

952  
00:40:05,440 --> 00:40:03,380  
about you're talking about the internet

953  
00:40:07,990 --> 00:40:05,450  
it just can't oh my in my mind is that

954  
00:40:11,920 --> 00:40:08,000  
when Jacques velay helped developed

955  
00:40:13,840 --> 00:40:11,930  
ARPANET and that was that project was

956  
00:40:15,900 --> 00:40:13,850  
actually you know which was the

957  
00:40:18,760 --> 00:40:15,910  
predecessor I guess to the Internet and

958  
00:40:21,630 --> 00:40:18,770  
and the whole concept behind that is a

959  
00:40:24,010 --> 00:40:21,640  
way to manifest the mind beyond the body

960  
00:40:26,050 --> 00:40:24,020  
that's it that's actually was the you

961  
00:40:28,330 --> 00:40:26,060  
know the foundation of that the you know

962  
00:40:34,060 --> 00:40:28,340  
the thing to be able to interface with

963  
00:40:37,240 --> 00:40:34,070

your mind out there in a way well the

964

00:40:39,490 --> 00:40:37,250

the interaction with technology and our

965

00:40:41,220 --> 00:40:39,500

and being ascension to our mind but yeah

966

00:40:43,690 --> 00:40:41,230

Jacques Roy he was involved with the

967

00:40:45,790 --> 00:40:43,700

earlier moon program before team

968

00:40:48,490 --> 00:40:45,800

classified because then I guess who's

969

00:40:50,800 --> 00:40:48,500

who's you know he was in a US citizen so

970

00:40:52,480 --> 00:40:50,810

he wasn't allowed to be properly

971

00:40:54,070 --> 00:40:52,490

involved in the program you know who

972

00:40:56,800 --> 00:40:54,080

knows if he really was afterwards or not

973

00:40:58,990 --> 00:40:56,810

but he was involved in that as well but

974

00:41:01,210 --> 00:40:59,000

the whole consciousness thing you know

975

00:41:03,310 --> 00:41:01,220

it was considered I guess now what

976

00:41:06,040 --> 00:41:03,320

they're calling is phenom phenomenons II

977

00:41:10,240 --> 00:41:06,050

and that's the study of phenomena

978

00:41:14,830 --> 00:41:10,250

and you know the science attitude we had

979

00:41:16,990 --> 00:41:14,840

that CIA paper called mental what it was

980

00:41:21,420 --> 00:41:17,000

a called an almost mental phenomena it

981

00:41:25,350 --> 00:41:21,430

was a CIA paper that was done by SDI and

982

00:41:29,020 --> 00:41:25,360

I mean that's you know that's a 400 page

983

00:41:33,420 --> 00:41:29,030

paper discussing you know an almost

984

00:41:41,050 --> 00:41:39,730

you know what I mean you know it's

985

00:41:43,510 --> 00:41:41,060

fascinating it kind of blows your mind

986

00:41:44,920 --> 00:41:43,520

really when you think about it and

987

00:41:47,650 --> 00:41:44,930

there's so much you know I've got this

988

00:41:49,420 --> 00:41:47,660

book varieties and anomalous experience

989

00:41:51,070 --> 00:41:49,430

there goes these different chapters on

990

00:41:53,410 --> 00:41:51,080

these different types of experiences you

991

00:41:55,240 --> 00:41:53,420

could have I don't think anybody or

992

00:41:57,070 --> 00:41:55,250

everybody can have all every one of them

993

00:41:58,810 --> 00:41:57,080

but you know this these there's this

994

00:42:00,880 --> 00:41:58,820

potential that we've but you know we

995

00:42:03,670 --> 00:42:00,890

might have that I think over the next

996

00:42:04,780 --> 00:42:03,680

few years we might bear to look into a

997

00:42:06,700 --> 00:42:04,790

little bit more and hopefully get some

998

00:42:08,920 --> 00:42:06,710

science proper scientific research and

999

00:42:12,250 --> 00:42:08,930

objective reviews of some of this stuff

1000

00:42:17,050 --> 00:42:12,260

so we can yes start to prove it and a

1001  
00:42:19,120 --> 00:42:17,060  
more realistic yeah and being able to

1002  
00:42:21,970 --> 00:42:19,130  
maybe measure in some way or even just

1003  
00:42:25,330 --> 00:42:21,980  
to detect it would be a huge headway and

1004  
00:42:27,130 --> 00:42:25,340  
you know in the ancient you were talking

1005  
00:42:28,690 --> 00:42:27,140  
about the other you know ancient

1006  
00:42:29,710 --> 00:42:28,700  
traditions are talking about the stuff

1007  
00:42:32,920 --> 00:42:29,720  
the old traditions you know like

1008  
00:42:35,080 --> 00:42:32,930  
Buddhism and the Vedic kind of old

1009  
00:42:37,660 --> 00:42:35,090  
Eastern literature is all talking about

1010  
00:42:39,880 --> 00:42:37,670  
consciousness pre-meeting matter that

1011  
00:42:42,160 --> 00:42:39,890  
consciousness is the the blueprint of

1012  
00:42:44,440 --> 00:42:42,170  
the universe and matter is basically

1013  
00:42:46,330 --> 00:42:44,450

built on top of it manifest out of it

1014

00:42:48,940 --> 00:42:46,340

and who knows if that's true

1015

00:42:52,000 --> 00:42:48,950

who knows that that's partially true but

1016

00:42:55,230 --> 00:42:52,010

getting to the science and being able to

1017

00:42:58,500 --> 00:42:55,240

detect this you know that's kind of what

1018

00:43:01,830 --> 00:42:58,510

Gary Nolan is doing with the antenna is

1019

00:43:05,590 --> 00:43:01,840

being able to basically identify

1020

00:43:10,180 --> 00:43:05,600

physically identify the the intuitive

1021

00:43:14,620 --> 00:43:10,190

process in in the human mind you know

1022

00:43:17,200 --> 00:43:14,630

which God what was the put off quote

1023

00:43:18,730 --> 00:43:17,210

about the I think it was about remote

1024

00:43:20,020 --> 00:43:18,740

viewing or something like that that you

1025

00:43:21,940 --> 00:43:20,030

know the sceptics they're looking

1026

00:43:23,650 --> 00:43:21,950

five percent of it that's been

1027

00:43:26,080 --> 00:43:23,660

Declassified and there's like this other

1028

00:43:28,660 --> 00:43:26,090

95 percent that's classified that they

1029

00:43:31,030 --> 00:43:28,670

don't get to see so it's pretty it was a

1030

00:43:32,650 --> 00:43:31,040

pretty telling comment for me oh yeah

1031

00:43:34,660 --> 00:43:32,660

there's some stuff there's some comments

1032

00:43:37,000 --> 00:43:34,670

that people make that's like oh man I

1033

00:43:38,950 --> 00:43:37,010

mean you know I wish I could really go

1034

00:43:40,360 --> 00:43:38,960

look at the books and see some of the

1035

00:43:41,980 --> 00:43:40,370

classified information on this stuff

1036

00:43:43,690 --> 00:43:41,990

it's just you know to know what they

1037

00:43:45,640 --> 00:43:43,700

know no I know

1038

00:43:47,740 --> 00:43:45,650

Auri Geller gets a lot of flack but for

1039

00:43:50,050 --> 00:43:47,750

the CIA to have had him draw those

1040

00:43:51,610 --> 00:43:50,060

pictures I don't know if you guys have

1041

00:43:53,920 --> 00:43:51,620

seen him it's like the grapes he drew

1042

00:43:56,410 --> 00:43:53,930

the grapes perfectly and all these other

1043

00:43:58,240 --> 00:43:56,420

pictures like I can't discount that this

1044

00:44:01,540 --> 00:43:58,250

is another thing that I just started you

1045

00:44:06,160 --> 00:44:01,550

know realizing his real last year yeah

1046

00:44:07,540 --> 00:44:06,170

it's real yeah I just linked to that

1047

00:44:10,120 --> 00:44:07,550

video because I've watched that several

1048

00:44:14,560 --> 00:44:10,130

times the film back at s RI when put off

1049

00:44:17,100 --> 00:44:14,570

and and who's Russell Targ we're testing

1050

00:44:20,020 --> 00:44:17,110

him and of course you know it's like I

1051

00:44:21,520 --> 00:44:20,030

can't the skeptics are saying that this

1052

00:44:23,440 --> 00:44:21,530

you know he either had something in his

1053

00:44:25,510 --> 00:44:23,450

tooth somebody was feeding information

1054

00:44:28,360 --> 00:44:25,520

there was stuff he was doing I can't

1055

00:44:30,430 --> 00:44:28,370

explain like the way he would cheat to

1056

00:44:31,960 --> 00:44:30,440

get information he was amazing I've

1057

00:44:34,150 --> 00:44:31,970

never seen any way that accurate I've

1058

00:44:36,280 --> 00:44:34,160

seen people do that before but he was so

1059

00:44:38,380 --> 00:44:36,290

accurate I mean in I got a 20 tries

1060

00:44:40,690 --> 00:44:38,390

maybe 17 he tried to guess it and he

1061

00:44:42,520 --> 00:44:40,700

nailed it there was one where they they

1062

00:44:44,710 --> 00:44:42,530

would take a dice and they shake the box

1063

00:44:46,750 --> 00:44:44,720

and then he with that what the Box

1064

00:44:48,400 --> 00:44:46,760

closed he'd have to guess which died you

1065

00:44:50,380 --> 00:44:48,410

know would had to fall on and he the

1066

00:44:53,050 --> 00:44:50,390

ones that he guessed he nailed it so

1067

00:44:55,150 --> 00:44:53,060

it's like I seen no way that he could

1068

00:44:56,680 --> 00:44:55,160

have cheated doing that and as far as

1069

00:44:58,480 --> 00:44:56,690

the spoon bending I don't know because

1070

00:45:01,360 --> 00:44:58,490

he's always holding usually holding a

1071

00:45:03,640 --> 00:45:01,370

spoon but he's another one that he may

1072

00:45:04,840 --> 00:45:03,650

have had his really strong abilities

1073

00:45:06,700 --> 00:45:04,850

back when he was younger and then when

1074

00:45:08,110 --> 00:45:06,710

he get older it might have waned a

1075

00:45:09,400 --> 00:45:08,120

little bit and maybe he cheated on some

1076  
00:45:10,900 --> 00:45:09,410  
stuff because there's some stuff where

1077  
00:45:12,700 --> 00:45:10,910  
he may have cheated on so it kind of

1078  
00:45:14,590 --> 00:45:12,710  
throws everything until you know that

1079  
00:45:16,270 --> 00:45:14,600  
the skeptical like well he cheated you

1080  
00:45:18,160 --> 00:45:16,280  
know he cheated here so he was a fraud

1081  
00:45:20,710 --> 00:45:18,170  
and like no it's not that simple

1082  
00:45:23,800 --> 00:45:20,720  
yeah I don't think he was going in and

1083  
00:45:25,600 --> 00:45:23,810  
and and duping the CIA and and some of

1084  
00:45:27,490 --> 00:45:25,610  
these bright scientists like they didn't

1085  
00:45:29,530 --> 00:45:27,500  
anticipate he might try to trick them

1086  
00:45:32,200 --> 00:45:29,540  
well they said you know they were they

1087  
00:45:33,490 --> 00:45:32,210  
were saying that put off and and Targ

1088  
00:45:35,440 --> 00:45:33,500

just had never had

1089

00:45:36,940 --> 00:45:35,450

perience with live humans doing that

1090

00:45:38,470 --> 00:45:36,950

kind of study so that's why they just

1091

00:45:40,390 --> 00:45:38,480

weren't ready for whatever tricks he

1092

00:45:42,310 --> 00:45:40,400

could pull in that's why Randy got in

1093

00:45:43,840 --> 00:45:42,320

and he was a magician and he warned

1094

00:45:46,210 --> 00:45:43,850

people this is what you have to look for

1095

00:45:49,840 --> 00:45:46,220

but we know we all know about Randy yeah

1096

00:45:52,590 --> 00:45:49,850

yeah but you know Jacques delay he also

1097

00:45:55,900 --> 00:45:52,600

relates a story when he they they were

1098

00:45:59,200 --> 00:45:55,910

going out for lunch and or they went in

1099

00:46:00,850 --> 00:45:59,210

the cafeteria for lunch and SR I and you

1100

00:46:04,000 --> 00:46:00,860

know they've just finished doing their

1101  
00:46:05,290 --> 00:46:04,010  
experiments and out of nowhere Jacques

1102  
00:46:07,150 --> 00:46:05,300  
was like hey look you know it's do an

1103  
00:46:10,150 --> 00:46:07,160  
experiment and they just did one off the

1104  
00:46:12,460 --> 00:46:10,160  
top of the head you know and he knocked

1105  
00:46:13,810 --> 00:46:12,470  
away he actually he said you know I'm

1106  
00:46:19,060 --> 00:46:13,820  
gonna try to trick this guy basically

1107  
00:46:21,970 --> 00:46:19,070  
and he picked two targets and and sure

1108  
00:46:23,260 --> 00:46:21,980  
enough he the guy you're a Yeller he he

1109  
00:46:25,750 --> 00:46:23,270  
said this is what I'm getting he drew

1110  
00:46:27,760 --> 00:46:25,760  
the two different things and you know he

1111  
00:46:29,290 --> 00:46:27,770  
was even amazed you know who could have

1112  
00:46:32,620 --> 00:46:29,300  
anticipated that he was gonna choose two

1113  
00:46:34,420 --> 00:46:32,630

things instead of one yeah so that's

1114

00:46:36,280 --> 00:46:34,430

interesting stuff you know that's

1115

00:46:38,680 --> 00:46:36,290

hopefully we have more answers on that

1116

00:46:39,820 --> 00:46:38,690

kind of stuff in the future and you know

1117

00:46:43,420 --> 00:46:39,830

the other thing the remote viewing

1118

00:46:45,340 --> 00:46:43,430

program was it was the programming

1119

00:46:47,470 --> 00:46:45,350

funding was killed the same similar

1120

00:46:49,060 --> 00:46:47,480

reasons they claimed it didn't work and

1121

00:46:50,350 --> 00:46:49,070

it was the people religious people

1122

00:46:52,630 --> 00:46:50,360

within the government at the time they

1123

00:46:54,340 --> 00:46:52,640

thought it was all the psychic stuff was

1124

00:46:56,260 --> 00:46:54,350

of the devil so they killed it so it's

1125

00:46:58,150 --> 00:46:56,270

the same people doing the same things

1126

00:47:02,020 --> 00:46:58,160

with a tip nowadays so they've been

1127

00:47:04,900 --> 00:47:02,030

around for a long time and recently Napa

1128

00:47:07,270 --> 00:47:04,910

in the phenomena radio interview said

1129

00:47:09,280 --> 00:47:07,280

that he thinks the story of them Harry

1130

00:47:11,890 --> 00:47:09,290

Reid will come out about what he did

1131

00:47:14,260 --> 00:47:11,900

behind the scenes as well as the names

1132

00:47:16,450 --> 00:47:14,270

of some of these haters basically in the

1133

00:47:18,730 --> 00:47:16,460

government so I hope that'll be a huge

1134

00:47:20,590 --> 00:47:18,740

that'll be a huge deal and that's

1135

00:47:22,570 --> 00:47:20,600

another reason why I just thought it

1136

00:47:25,090 --> 00:47:22,580

should be moved more to that at the

1137

00:47:26,890 --> 00:47:25,100

private sector too because you wouldn't

1138

00:47:29,370 --> 00:47:26,900

run into that sort of thing in the

1139

00:47:32,110 --> 00:47:29,380

private sector with religious types

1140

00:47:35,400 --> 00:47:32,120

interjecting at their own beliefs onto

1141

00:47:37,510 --> 00:47:35,410

something that needs a closer walk

1142

00:47:38,590 --> 00:47:37,520

definitely I think you tied you right

1143

00:47:40,270 --> 00:47:38,600

Frank I think the only reason we're

1144

00:47:42,490 --> 00:47:40,280

gonna get this information out at all is

1145

00:47:43,990 --> 00:47:42,500

through private industry I'm all for

1146

00:47:45,220 --> 00:47:44,000

public as well to know what I mean you

1147

00:47:46,270 --> 00:47:45,230

know I think everything should state you

1148

00:47:47,140 --> 00:47:46,280

know schools and all that and stuff

1149

00:47:48,340 --> 00:47:47,150

should be public

1150

00:47:50,230 --> 00:47:48,350

but you know when it comes to the

1151

00:47:52,930 --> 00:47:50,240

analysis of these materials it's really

1152

00:47:55,030 --> 00:47:52,940

important it gets done privately so that

1153

00:47:56,620 --> 00:47:55,040

the information can be given out you

1154

00:47:58,240 --> 00:47:56,630

know without it being kind of restricted

1155

00:47:59,620 --> 00:47:58,250

and confidential all this kind of stuff

1156

00:48:02,350 --> 00:47:59,630

it's really really important that it

1157

00:48:04,480 --> 00:48:02,360

comes out that way but quite how far

1158

00:48:07,870 --> 00:48:04,490

behind we are the private industry

1159

00:48:13,240 --> 00:48:07,880

compared to black budgets or whatever

1160

00:48:15,070 --> 00:48:13,250

else I guess is the real question yeah

1161

00:48:16,720 --> 00:48:15,080

yes it would take a lot of funding to do

1162

00:48:20,590 --> 00:48:16,730

it in the private industry can just get

1163

00:48:21,880 --> 00:48:20,600

defense or government money but and you

1164

00:48:23,590 --> 00:48:21,890

know I will be screwed with the foyers

1165

00:48:28,150 --> 00:48:23,600

so the FOIA guys will go now just but

1166

00:48:29,530 --> 00:48:28,160

hey it's better than nothing and and and

1167

00:48:31,420 --> 00:48:29,540

you know with the FOIA is it doesn't

1168

00:48:33,100 --> 00:48:31,430

necessarily work how you know how

1169

00:48:34,690 --> 00:48:33,110

everybody thinks it does I mean even if

1170

00:48:36,910 --> 00:48:34,700

they're an expert on it there's some

1171

00:48:38,230 --> 00:48:36,920

stuff that you can just not get through

1172

00:48:38,910 --> 00:48:38,240

the Freedom of Information it won't come

1173

00:48:45,910 --> 00:48:38,920

out

1174

00:48:49,060 --> 00:48:45,920

there was some kind of crazy major you

1175

00:48:50,860 --> 00:48:49,070

um you know us you will fall event that

1176

00:48:52,600 --> 00:48:50,870

the government just saw it was too

1177

00:48:54,490 --> 00:48:52,610

secret and classified you can do all the

1178

00:48:56,080 --> 00:48:54,500

floors you want it's not come yet yeah

1179

00:48:58,090 --> 00:48:56,090

it's just a question of adding for you

1180

00:49:00,210 --> 00:48:58,100

exempt to something is it not a that's

1181

00:49:02,830 --> 00:49:00,220

my exact yeah exactly

1182

00:49:05,380 --> 00:49:02,840

for whatever they want to withhold it

1183

00:49:07,810 --> 00:49:05,390

because they think it might they can you

1184

00:49:10,120 --> 00:49:07,820

know they can interpret it as being a

1185

00:49:11,200 --> 00:49:10,130

threat to national security by being put

1186

00:49:13,330 --> 00:49:11,210

out there because of methods and

1187

00:49:15,250 --> 00:49:13,340

information other kind of sources and

1188

00:49:20,680 --> 00:49:15,260

things that they're not gonna put it out

1189

00:49:24,780 --> 00:49:20,690

there but you know what is encouraging

1190

00:49:27,880 --> 00:49:24,790

is that you know Knapp said that these

1191

00:49:30,510 --> 00:49:27,890

you know behind closed door briefings

1192

00:49:33,670 --> 00:49:30,520

that are taking place in Washington

1193

00:49:36,040 --> 00:49:33,680

could you know potentially open up

1194

00:49:38,470 --> 00:49:36,050

another program yeah I see yeah name

1195

00:49:40,270 --> 00:49:38,480

I'll run this by everybody see if there

1196

00:49:43,150 --> 00:49:40,280

they've got anything more on this than I

1197

00:49:44,920 --> 00:49:43,160

do a name a Kirk McConnell as a staffer

1198

00:49:46,870 --> 00:49:44,930

on one of the Senate committees that

1199

00:49:49,600 --> 00:49:46,880

might be taking a closer look at this

1200

00:49:52,360 --> 00:49:49,610

anybody here this guy yet yeah he's the

1201

00:49:54,730 --> 00:49:52,370

one that wrote the tic-tac witness I

1202

00:49:55,870 --> 00:49:54,740

won't name him because I mean we all

1203

00:49:57,970 --> 00:49:55,880

know who he is but he's the one who

1204

00:49:59,290 --> 00:49:57,980

wrote him and said you know we'd like to

1205

00:50:00,910 --> 00:49:59,300

meet with you in Washington we've

1206

00:50:02,890 --> 00:50:00,920

already interviewed some of the pilots

1207

00:50:04,660 --> 00:50:02,900

tic-tac case so he's definitely one of

1208

00:50:06,580 --> 00:50:04,670

the guys involved he's a Senate staffer

1209

00:50:08,980 --> 00:50:06,590

hopefully it makes it actually in front

1210

00:50:12,280 --> 00:50:08,990

of the Senate you know which be amazing

1211

00:50:14,950 --> 00:50:12,290

yeah well he's on the Democratic side as

1212

00:50:19,210 --> 00:50:14,960

well he's uh I'm not sure exactly how it

1213

00:50:21,970 --> 00:50:19,220

works but I think each side can appoint

1214

00:50:24,210 --> 00:50:21,980

staffers and they basically work for

1215

00:50:26,710 --> 00:50:24,220

whoever the Democrat senators are

1216

00:50:28,990 --> 00:50:26,720

Congress yeah our representatives as

1217

00:50:32,040 --> 00:50:29,000

well on the house side but I think

1218

00:50:37,360 --> 00:50:35,170

yeah that's really cool and and I'm well

1219

00:50:40,330 --> 00:50:37,370

if it kind of fit in with that

1220

00:50:41,980 --> 00:50:40,340

congressional record note as well um if

1221

00:50:45,820 --> 00:50:41,990

that had something to do with the Kirk

1222

00:50:47,400 --> 00:50:45,830

McConnell and his people you know and

1223

00:50:50,650 --> 00:50:47,410

you know more of this stuff comes out I

1224

00:50:53,470 --> 00:50:50,660

I just can't see how it it's not gonna

1225

00:50:56,230 --> 00:50:53,480

be seriously looked at you know and even

1226

00:50:57,880 --> 00:50:56,240

if they do devise another program I

1227

00:50:59,020 --> 00:50:57,890

don't think we're necessarily gonna get

1228

00:51:01,150 --> 00:50:59,030

an announcement on the New York Times

1229

00:51:04,270 --> 00:51:01,160

again saying hey the government's there

1230

00:51:05,680 --> 00:51:04,280

could be one put together right now that

1231

00:51:08,200 --> 00:51:05,690

we that we just don't know about you

1232

00:51:09,610 --> 00:51:08,210

know that's a that's a new one they're

1233

00:51:10,840 --> 00:51:09,620

not gonna announce it when they create

1234

00:51:13,990 --> 00:51:10,850

the program because they're gonna want

1235

00:51:16,150 --> 00:51:14,000

to you know protect the study yeah the

1236

00:51:19,270 --> 00:51:16,160

the Korbel comment was interesting the

1237

00:51:21,520 --> 00:51:19,280

for other groups or for other programs I

1238

00:51:22,990 --> 00:51:21,530

kind of wondered and maybe he made a

1239

00:51:25,630 --> 00:51:23,000

more clear and I just didn't get it but

1240

00:51:28,540 --> 00:51:25,640

a you know are they ongoing now or are

1241

00:51:31,750 --> 00:51:28,550

we talking about previous ones or we

1242

00:51:33,310 --> 00:51:31,760

just don't know yeah that's something I

1243

00:51:35,320 --> 00:51:33,320

was kind of trying to figure out too he

1244

00:51:37,360 --> 00:51:35,330

said that there were other programs that

1245

00:51:38,740 --> 00:51:37,370

are that might see the light of day and

1246

00:51:43,150 --> 00:51:38,750

he's you know he's pretty sure on that

1247

00:51:45,280 --> 00:51:43,160

deep and God no do you guys see this a

1248

00:51:46,960 --> 00:51:45,290

just when I see Carvel and nap it's

1249

00:51:49,540 --> 00:51:46,970

every interview they do with specific

1250

00:51:51,310 --> 00:51:49,550

show some shells they'll keep it very

1251  
00:51:52,480 --> 00:51:51,320  
generic like on coast to coast George

1252  
00:51:54,250 --> 00:51:52,490  
will keep it very generic when he's

1253  
00:51:57,040 --> 00:51:54,260  
interviewed by nori but on other shows

1254  
00:51:59,380 --> 00:51:57,050  
you have to listen because every time

1255  
00:52:00,550 --> 00:51:59,390  
you listen they add something new that

1256  
00:52:01,930 --> 00:52:00,560  
they didn't talk about before and I

1257  
00:52:04,030 --> 00:52:01,940  
think that's on purpose it's kind of

1258  
00:52:05,440 --> 00:52:04,040  
like a slow release so they have new

1259  
00:52:07,000 --> 00:52:05,450  
stuff to talk about and people get

1260  
00:52:09,160 --> 00:52:07,010  
interested and they keep their interests

1261  
00:52:10,630 --> 00:52:09,170  
and I actually like that that's why I

1262  
00:52:13,240 --> 00:52:10,640  
was like I can't miss this interview

1263  
00:52:14,080 --> 00:52:13,250

because I don't know what hahaha I did

1264

00:52:16,300 --> 00:52:14,090

get a hit

1265

00:52:17,800 --> 00:52:16,310

ma over and coast-to-coast awhile back

1266

00:52:19,990 --> 00:52:17,810

and I did get the question too haven't

1267

00:52:22,630 --> 00:52:20,000

got an answer to which was great that

1268

00:52:26,410 --> 00:52:22,640

either a tip or AA SAP he's not sure

1269

00:52:29,470 --> 00:52:26,420

which but one of those projects did

1270

00:52:30,940 --> 00:52:29,480

investigate the Stephenville case which

1271

00:52:33,100 --> 00:52:30,950

i think is really interesting I'm a case

1272

00:52:35,050 --> 00:52:33,110

junky from way back so I'm fascinated

1273

00:52:36,940 --> 00:52:35,060

with that case and that was the biggest

1274

00:52:39,490 --> 00:52:36,950

case that happened while a tip was

1275

00:52:41,800 --> 00:52:39,500

operational and I did want to pin that

1276  
00:52:43,900 --> 00:52:41,810  
down and we do know that now I'll take

1277  
00:52:46,540 --> 00:52:43,910  
nap is a good source on that they did

1278  
00:52:49,120 --> 00:52:46,550  
take a look at the at the Stephenville

1279  
00:52:51,310 --> 00:52:49,130  
case and I do notice that the two cases

1280  
00:52:53,380 --> 00:52:51,320  
that are out a little bit through t TSA

1281  
00:52:56,950 --> 00:52:53,390  
the Nimitz case and then the East Coast

1282  
00:52:59,590 --> 00:52:56,960  
case from 2015 I believe we're both out

1283  
00:53:01,420 --> 00:52:59,600  
over the ocean and I'm not sure why but

1284  
00:53:02,380 --> 00:53:01,430  
they don't seem to want to play up the

1285  
00:53:04,720 --> 00:53:02,390  
fact that they didn't look at

1286  
00:53:07,300 --> 00:53:04,730  
Stephenville and I love that case I just

1287  
00:53:09,070 --> 00:53:07,310  
think it's a fantastic case didn't

1288  
00:53:10,540 --> 00:53:09,080

didn't he ask you this under about that

1289

00:53:12,370 --> 00:53:10,550

too or am i miss remembering but I

1290

00:53:15,250 --> 00:53:12,380

thought he asked him about it and that

1291

00:53:17,140 --> 00:53:15,260

was one of or maybe I'm confusing it

1292

00:53:18,550 --> 00:53:17,150

with the skinwalker comment one of those

1293

00:53:19,930 --> 00:53:18,560

he asked he was and he said did you

1294

00:53:22,240 --> 00:53:19,940

look at this and then he was honored I

1295

00:53:23,800 --> 00:53:22,250

said yes and he didn't elaborate at all

1296

00:53:25,780 --> 00:53:23,810

he just said yeah yeah if that did

1297

00:53:26,580 --> 00:53:25,790

happen I missed it maybe that was for

1298

00:53:29,500 --> 00:53:26,590

skinwalker

1299

00:53:31,150 --> 00:53:29,510

it could be could be as far as I know

1300

00:53:32,620 --> 00:53:31,160

that was one that I really wanted to

1301

00:53:34,420 --> 00:53:32,630

find out about like what was a really

1302

00:53:36,430 --> 00:53:34,430

good case that happened while these guys

1303

00:53:39,310 --> 00:53:36,440

were up and running and that was the

1304

00:53:41,620 --> 00:53:39,320

case and it's it's a really good case

1305

00:53:43,360 --> 00:53:41,630

because when I first got into this it

1306

00:53:44,680 --> 00:53:43,370

was just kind of dying down and it

1307

00:53:46,990 --> 00:53:44,690

already happened when I get into the

1308

00:53:49,270 --> 00:53:47,000

seriously but man there was a lot of

1309

00:53:51,100 --> 00:53:49,280

chatter about it back in that still it

1310

00:53:52,210 --> 00:53:51,110

was a 2008 case but there was still a

1311

00:53:54,310 --> 00:53:52,220

lot going on with it

1312

00:53:56,440 --> 00:53:54,320

a lot of new stuff coming out back in

1313

00:53:59,950 --> 00:53:56,450

2009 when I first got serious about all

1314

00:54:01,600 --> 00:53:59,960

this and then one of the right didn't

1315

00:54:03,550 --> 00:54:01,610

they follow one of the radar tracks they

1316

00:54:05,530 --> 00:54:03,560

were able to get was shown that one of

1317

00:54:07,390 --> 00:54:05,540

the craft headed towards george w bush's

1318

00:54:09,820 --> 00:54:07,400

ranch is that true Frank uh

1319

00:54:11,710 --> 00:54:09,830

I don't know it was headed towards it

1320

00:54:14,230 --> 00:54:11,720

but Erath County is pretty close to

1321

00:54:15,940 --> 00:54:14,240

where Bush lived I think he was in

1322

00:54:17,650 --> 00:54:15,950

Crawford County which might be the next

1323

00:54:20,410 --> 00:54:17,660

county over I'd have to look at a map

1324

00:54:23,050 --> 00:54:20,420

again but they did Robert Powell and

1325

00:54:26,560 --> 00:54:23,060

Glen Schultz with they were working for

1326  
00:54:27,630 --> 00:54:26,570  
MUFON now they were able to file a for

1327  
00:54:29,670 --> 00:54:27,640  
you and get

1328  
00:54:31,410 --> 00:54:29,680  
the radar reports from the area I guess

1329  
00:54:33,749 --> 00:54:31,420  
so they had some multiple witnesses at

1330  
00:54:36,359 --> 00:54:33,759  
multiple locations seeing something that

1331  
00:54:38,400 --> 00:54:36,369  
very big and very fast and apparently

1332  
00:54:41,489 --> 00:54:38,410  
they got a radar return of something

1333  
00:54:44,130 --> 00:54:41,499  
that had a wingspan maybe up to a little

1334  
00:54:47,640 --> 00:54:44,140  
over 500 feet and was traveling at 2,000

1335  
00:54:55,670 --> 00:54:47,650  
miles an hour so that that on radar that

1336  
00:55:01,490 --> 00:54:57,650  
now it was yet another case where I was

1337  
00:55:03,860 --> 00:55:01,500  
right by it and I missed it I was in DFW

1338  
00:55:05,660 --> 00:55:03,870

and that was going on you know like an

1339

00:55:08,000 --> 00:55:05,670

hour and a half away from me I was and

1340

00:55:13,340 --> 00:55:08,010

then in the 90s I was in Tucson when the

1341

00:55:15,290 --> 00:55:13,350

Phoenix lights were happening yeah did

1342

00:55:17,150 --> 00:55:15,300

you get to see anything no I know I've

1343

00:55:19,460 --> 00:55:17,160

never seen anything though supposedly

1344

00:55:20,810 --> 00:55:19,470

the mothership flew right up the freeway

1345

00:55:23,030 --> 00:55:20,820

where I was like right next to the

1346

00:55:24,290 --> 00:55:23,040

freeway if only I was outside cheese

1347

00:55:25,970 --> 00:55:24,300

yeah

1348

00:55:28,700 --> 00:55:25,980

did you know anybody who got to see

1349

00:55:32,240 --> 00:55:28,710

anything um you know not directly yeah

1350

00:55:33,770 --> 00:55:32,250

it became such a huge story I'm sure if

1351

00:55:35,060 --> 00:55:33,780

I tracked down it would have been like a

1352

00:55:37,070 --> 00:55:35,070

friend of a friend of a friend or

1353

00:55:39,470 --> 00:55:37,080

something but not I don't really have

1354

00:55:41,060 --> 00:55:39,480

any cool stories about it but being in

1355

00:55:43,700 --> 00:55:41,070

Arizona at the time it was nuts I mean

1356

00:55:46,100 --> 00:55:43,710

it made worldwide news but especially in

1357

00:55:47,420 --> 00:55:46,110

Arizona it was like a huge deal and most

1358

00:55:50,950 --> 00:55:47,430

even though was a big deal out here in

1359

00:55:53,600 --> 00:55:50,960

Texas too yeah I remember that well that

1360

00:55:55,760 --> 00:55:53,610

that was a fun case I mean a lot of good

1361

00:55:57,410 --> 00:55:55,770

witnesses came forward on the civilian

1362

00:55:59,300 --> 00:55:57,420

side but that we really don't have

1363

00:56:01,430 --> 00:55:59,310

anything yet too much from the military

1364

00:56:04,460 --> 00:56:01,440

side and that's why I was really curious

1365

00:56:05,630 --> 00:56:04,470

about it you know I'm glad I found it it

1366

00:56:07,370 --> 00:56:05,640

was more or less the answer that I

1367

00:56:08,930 --> 00:56:07,380

expected but it's nice to get

1368

00:56:14,420 --> 00:56:08,940

confirmation from a source as good as

1369

00:56:16,550 --> 00:56:14,430

George Knapp you know go ahead I have a

1370

00:56:18,650 --> 00:56:16,560

question for Jay but let's finish this

1371

00:56:20,990 --> 00:56:18,660

it's it's on another topic so I go ahead

1372

00:56:22,790 --> 00:56:21,000

Jay I'm sorry no I was just gonna say

1373

00:56:24,440 --> 00:56:22,800

it's you know talking about the cases

1374

00:56:26,960 --> 00:56:24,450

you know it was interesting that both

1375

00:56:29,990 --> 00:56:26,970

Chris melon and Jeremy Korbel had

1376

00:56:31,990 --> 00:56:30,000

mentioned that on the East Coast in 2015

1377

00:56:37,280 --> 00:56:32,000

alone that there were over a dozen

1378

00:56:38,690 --> 00:56:37,290

tic-tac type incidents you know and of

1379

00:56:40,910 --> 00:56:38,700

course I was speculated that we might

1380

00:56:45,050 --> 00:56:40,920

get some of the data in january/february

1381

00:56:47,390 --> 00:56:45,060

go ahead I was getting Jay his his

1382

00:56:50,210 --> 00:56:47,400

theory that a lot of this stuff is

1383

00:56:52,520 --> 00:56:50,220

crypto terrestrial do you think maybe

1384

00:56:55,850 --> 00:56:52,530

they have a lot to do or at least

1385

00:56:59,840 --> 00:56:55,860

partial to do with acad mutilations

1386

00:57:01,880 --> 00:56:59,850

check in the environment yeah I think so

1387

00:57:03,620 --> 00:57:01,890

I mean obviously I can't I don't I don't

1388

00:57:05,450 --> 00:57:03,630

know anything I can't speak in absolute

1389

00:57:07,820 --> 00:57:05,460

terms about any of it but I would hazard

1390

00:57:09,579 --> 00:57:07,830

a guess that yeah I mean they must be

1391

00:57:12,530 --> 00:57:09,589

looking at biological tissue

1392

00:57:14,690 --> 00:57:12,540

you know kind of matter material and all

1393

00:57:16,640 --> 00:57:14,700

that kind of stuff so presumably that's

1394

00:57:18,170 --> 00:57:16,650

why they would be performing cattle

1395

00:57:20,150 --> 00:57:18,180

mutilations but you know obviously I

1396

00:57:22,339 --> 00:57:20,160

don't I don't have any kind of inside

1397

00:57:24,260 --> 00:57:22,349

information about it right that would be

1398

00:57:26,870 --> 00:57:24,270

the that's how I would imagine they

1399

00:57:28,160 --> 00:57:26,880

would be what there'd be interested in

1400

00:57:29,539 --> 00:57:28,170

they would come here they would look at

1401

00:57:31,700 --> 00:57:29,549

different plants and look at different

1402

00:57:33,710 --> 00:57:31,710

animals they look at the humans for

1403

00:57:35,599 --> 00:57:33,720

whatever reason they don't seem to bear

1404

00:57:36,920 --> 00:57:35,609

if then hurt people as far as you

1405

00:57:38,420 --> 00:57:36,930

understand I think there's been a few

1406

00:57:40,520 --> 00:57:38,430

cases in the past where people have been

1407

00:57:41,809 --> 00:57:40,530

mutilated I think they had all that

1408

00:57:43,730 --> 00:57:41,819

blood drained and you know horrible

1409

00:57:46,099 --> 00:57:43,740

things happen to them but I think it's a

1410

00:57:49,160 --> 00:57:46,109

very very rare thing quite the reason

1411

00:57:50,599 --> 00:57:49,170

why I have no idea but it's quite

1412

00:57:53,890 --> 00:57:50,609

interesting you know I don't there's a

1413

00:57:56,870 --> 00:57:53,900

fully connection between near-death

1414

00:57:58,640 --> 00:57:56,880

experiences as well and some of these

1415

00:58:00,890 --> 00:57:58,650

other environments were some of these

1416

00:58:02,539 --> 00:58:00,900

things the other whatever you want to

1417

00:58:04,190 --> 00:58:02,549

call it is coming from there might be

1418

00:58:06,319 --> 00:58:04,200

some sort of a connection there but I

1419

00:58:08,480 --> 00:58:06,329

you know can i I'm just kind of

1420

00:58:12,079 --> 00:58:08,490

hypothesis hypothesizing really forth

1421

00:58:14,359 --> 00:58:12,089

and Knapp mr. Knapp recently said also

1422

00:58:17,210 --> 00:58:14,369

in that same interview that I guess was

1423

00:58:20,599 --> 00:58:17,220

bass or maybe was awesome I think it was

1424

00:58:22,520 --> 00:58:20,609

best we're working with other friendly

1425

00:58:25,250 --> 00:58:22,530

governments around the world and one of

1426  
00:58:27,530 --> 00:58:25,260  
them was Brazil and one and that was in

1427  
00:58:29,870 --> 00:58:27,540  
regards to klaris Island which there was

1428  
00:58:31,549 --> 00:58:29,880  
injuries there which is and that's just

1429  
00:58:33,440 --> 00:58:31,559  
kind of though one of the big examples

1430  
00:58:37,630 --> 00:58:33,450  
we point to when we're thinking about

1431  
00:58:39,740 --> 00:58:37,640  
injuries like injuries go ahead sorry

1432  
00:58:42,140 --> 00:58:39,750  
sorry is gonna said is that there's a

1433  
00:58:44,299 --> 00:58:42,150  
place I think is in Norway or Denmark or

1434  
00:58:46,940 --> 00:58:44,309  
something like that well there's the

1435  
00:58:50,150 --> 00:58:46,950  
right that's the one yeah yeah that's in

1436  
00:58:51,500 --> 00:58:50,160  
Norway Norway got it yeah

1437  
00:58:53,030 --> 00:58:51,510  
well I sort of northern European

1438  
00:58:54,380 --> 00:58:53,040

countries yeah they seem to have these

1439

00:58:58,460 --> 00:58:54,390

lights that happen I think it's a

1440

00:59:00,020 --> 00:58:58,470

similar kind of situation to skinwalker

1441

00:59:01,670 --> 00:59:00,030

ranch but I don't think people get hurt

1442

00:59:16,030 --> 00:59:01,680

as far as I'm aware they just kind of

1443

00:59:21,440 --> 00:59:19,520

unfortunately well they you're you

1444

00:59:28,120 --> 00:59:21,450

you're closest J so you got to get over

1445

00:59:42,500 --> 00:59:31,609

J travel pits J travel in Norway is like

1446

00:59:45,770 --> 00:59:42,510

me traveling to Pittsburgh area no one

1447

00:59:48,920 --> 00:59:45,780

had posited that you know that these

1448

00:59:51,349 --> 00:59:48,930

these could be different phenomenon and

1449

00:59:53,599 --> 00:59:51,359

they're different you know just like

1450

00:59:55,549 --> 00:59:53,609

we're different as people and you know

1451  
00:59:58,609 --> 00:59:55,559  
some people have been that the negative

1452  
01:00:00,410 --> 00:59:58,619  
encounters might just be encountering

1453  
01:00:03,109 --> 01:00:00,420  
and never negative aspect of the

1454  
01:00:06,079 --> 01:00:03,119  
phenomenon but a question I wanted is J

1455  
01:00:10,549 --> 01:00:06,089  
is for the the crypto intelligence would

1456  
01:00:12,859 --> 01:00:10,559  
you think that is technological I think

1457  
01:00:15,260 --> 01:00:12,869  
it would have to be yes if they're kind

1458  
01:00:17,480 --> 01:00:15,270  
of coming through into our environment I

1459  
01:00:19,339 --> 01:00:17,490  
don't know whether it's technology in

1460  
01:00:21,530 --> 01:00:19,349  
the way that we have it it might be some

1461  
01:00:25,940 --> 01:00:21,540  
manifestation in a different kind of way

1462  
01:00:27,620 --> 01:00:25,950  
that that's kind of where is going cuz

1463  
01:00:30,079 --> 01:00:27,630

you know different people I said like

1464

01:00:32,390 --> 01:00:30,089

dr. Greer says you know they can

1465

01:00:34,520 --> 01:00:32,400

manifest things through advanced

1466

01:00:37,579 --> 01:00:34,530

consciousness and that's why some of the

1467

01:00:40,670 --> 01:00:37,589

materials and everything are so pure and

1468

01:00:43,460 --> 01:00:40,680

seamless because their technology is so

1469

01:00:47,410 --> 01:00:43,470

advanced that they can just manifest it

1470

01:00:49,490 --> 01:00:47,420

somehow I guess there's some kind of

1471

01:00:51,260 --> 01:00:49,500

augmented consciousness but they'd have

1472

01:00:55,190 --> 01:00:51,270

to have be using some materials I would

1473

01:00:56,839 --> 01:00:55,200

think but affected the whole mind being

1474

01:00:58,160 --> 01:00:56,849

fundamental and that would suggest that

1475

01:01:01,280 --> 01:00:58,170

they can manifest them that way

1476

01:01:02,599 --> 01:01:01,290

potentially but you know it's ya can

1477

01:01:03,859 --> 01:01:02,609

only kind of guess at this stuff what

1478

01:01:05,270 --> 01:01:03,869

you were saying earlier about some of

1479

01:01:07,609 --> 01:01:05,280

them being good something and being bad

1480

01:01:08,809 --> 01:01:07,619

I think it makes perfect sense you know

1481

01:01:11,000 --> 01:01:08,819

if you were to get some sort of

1482

01:01:12,349 --> 01:01:11,010

intelligence come to earth and they were

1483

01:01:14,180 --> 01:01:12,359

to look at people they were to look at

1484

01:01:17,079 --> 01:01:14,190

people generally you would probably

1485

01:01:19,069 --> 01:01:17,089

assume humans are bad you know they kill

1486

01:01:20,960 --> 01:01:19,079

lots of different things they kill each

1487

01:01:22,490 --> 01:01:20,970

other they're constantly killing you

1488

01:01:24,650 --> 01:01:22,500

know there's lots of bloodshed lots of

1489

01:01:27,349 --> 01:01:24,660

killing so let's just assume that's all

1490

01:01:29,140 --> 01:01:27,359

bad but the rich you know the reality of

1491

01:01:31,819 --> 01:01:29,150

the case is it's completely different

1492

01:01:33,260 --> 01:01:31,829

there's lots of pretty good people in a

1493

01:01:34,700 --> 01:01:33,270

50/50 something like that you've got

1494

01:01:35,900 --> 01:01:34,710

some really wonderful people got some

1495

01:01:38,030 --> 01:01:35,910

really bad people

1496

01:01:39,890 --> 01:01:38,040

so I think the same would be true for

1497

01:01:41,510 --> 01:01:39,900

any kind of other intelligence that's

1498

01:01:43,160 --> 01:01:41,520

probably bound to be good parts to it

1499

01:01:45,650 --> 01:01:43,170

and bad parts to it whether or not

1500

01:01:47,660 --> 01:01:45,660

they're parts of the same thing I don't

1501

01:01:49,849 --> 01:01:47,670

know whether or not this sort of good

1502

01:01:52,250 --> 01:01:49,859

thing which is a different thing to the

1503

01:01:53,839 --> 01:01:52,260

bad thing which is kind of what the

1504

01:01:55,460 --> 01:01:53,849

Bible says you know got the good and bad

1505

01:01:57,319 --> 01:01:55,470

angels I think I don't know whether

1506

01:01:59,359 --> 01:01:57,329

that's that place apart or whether it's

1507

01:02:02,930 --> 01:01:59,369

all one thing you know what I mean yeah

1508

01:02:06,260 --> 01:02:02,940

ya know exactly it makes a lot of sense

1509

01:02:09,500 --> 01:02:06,270

you know in one of the older interviews

1510

01:02:11,960 --> 01:02:09,510

with the ranch owner Terry Sherman he

1511

01:02:15,740 --> 01:02:11,970

said that when they moved their cattle

1512

01:02:17,000 --> 01:02:15,750

to a certain certain area really close

1513

01:02:18,799 --> 01:02:17,010

to that to the house where they were

1514

01:02:20,630 --> 01:02:18,809

living there the mutilations didn't

1515

01:02:22,940 --> 01:02:20,640

happen they never lost one cow which is

1516

01:02:24,500 --> 01:02:22,950

really odd to me have you guys have you

1517

01:02:26,000 --> 01:02:24,510

guys anybody hurt anybody else talk

1518

01:02:27,770 --> 01:02:26,010

about that it was just a one interview

1519

01:02:32,809 --> 01:02:27,780

he did with Linda Moulton Howe back I

1520

01:02:34,819 --> 01:02:32,819

think it was 96 I've not heard that yeah

1521

01:02:37,130 --> 01:02:34,829

and I was like really so whatever is

1522

01:02:38,960 --> 01:02:37,140

causing it was not able to do a

1523

01:02:43,099 --> 01:02:38,970

mutilation if the cattle were close to

1524

01:02:45,770 --> 01:02:43,109

the house it's really odd yes someone if

1525

01:02:48,349 --> 01:02:45,780

it's being observed something like that

1526

01:02:50,329 --> 01:02:48,359

you know he's easily be seen maybe good

1527

01:02:55,550 --> 01:02:50,339

if want to do the mutilation yeah that's

1528

01:02:59,900 --> 01:02:57,680

well what are we looking at guy going

1529

01:03:02,210 --> 01:02:59,910

forward there fellas a lot of talk about

1530

01:03:03,980 --> 01:03:02,220

we're gonna get there some significant

1531

01:03:05,960 --> 01:03:03,990

data drops after the first of the year

1532

01:03:08,330 --> 01:03:05,970

after the midterms wrap-up and maybe

1533

01:03:10,460 --> 01:03:08,340

after the holidays this year is that

1534

01:03:12,560 --> 01:03:10,470

about what everybody else is hearing at

1535

01:03:17,660 --> 01:03:12,570

top of the year we'll start getting some

1536

01:03:21,470 --> 01:03:17,670

more stuff and a big volume yeah yeah

1537

01:03:23,240 --> 01:03:21,480

you know we have we're hearing about new

1538

01:03:25,460 --> 01:03:23,250

videos coming out that's one thing

1539

01:03:27,620 --> 01:03:25,470

that's being speculated by the MUFON guy

1540

01:03:30,350 --> 01:03:27,630

saying that Elizondo had said I think

1541

01:03:31,940 --> 01:03:30,360

that there might be some more videos

1542

01:03:35,570 --> 01:03:31,950

coming out that are even better and

1543

01:03:38,870 --> 01:03:35,580

clearer than the go-fast gimble and

1544

01:03:41,660 --> 01:03:38,880

tic-tac videos that's one thing no they

1545

01:03:42,950 --> 01:03:41,670

exist as well we know comments from

1546

01:03:48,620 --> 01:03:42,960

favor and all these other people so they

1547

01:03:50,660 --> 01:03:48,630

do exist but we'll see them you know

1548

01:03:53,330 --> 01:03:50,670

that melon leaked as well they had four

1549

01:03:55,100 --> 01:03:53,340

CDs presumably at least three of them

1550

01:03:57,440 --> 01:03:55,110

would have been full of data you know

1551

01:03:58,610 --> 01:03:57,450

unless they're copying different parts

1552

01:04:00,470 --> 01:03:58,620

of different things you know one might

1553

01:04:02,390 --> 01:04:00,480

be stream Walker ranch or one might be

1554

01:04:04,190 --> 01:04:02,400

the Nimitz incident on one CD I don't

1555

01:04:05,720 --> 01:04:04,200

know how they sort of do this stuff but

1556

01:04:07,700 --> 01:04:05,730

there's gonna be you know you talk about

1557

01:04:09,560 --> 01:04:07,710

having six to seven hundred megabytes

1558

01:04:10,640 --> 01:04:09,570

each one of those discs each one of

1559

01:04:13,100 --> 01:04:10,650

those videos that they've released

1560

01:04:15,050 --> 01:04:13,110

through about nine Meg in size you get

1561

01:04:16,130 --> 01:04:15,060

hundreds of those videos and they could

1562

01:04:25,760 --> 01:04:16,140

have been blu-rays they could win

1563

01:04:29,180 --> 01:04:25,770

blu-rays so no but so we also have the

1564

01:04:33,140 --> 01:04:29,190

the project atom materials were you know

1565

01:04:35,390 --> 01:04:33,150

a few people had said that come around

1566

01:04:37,880 --> 01:04:35,400

December January February there's going

1567

01:04:39,830 --> 01:04:37,890

to be an initial announcement about it

1568

01:04:41,450 --> 01:04:39,840

you know talking about whatever progress

1569

01:04:43,640 --> 01:04:41,460

there is or you know some kind of Ted

1570

01:04:46,520 --> 01:04:43,650

bit of information that's progressive

1571

01:04:49,430 --> 01:04:46,530

I'm talking about that study I had also

1572

01:04:52,760 --> 01:04:49,440

heard that somebody from somebody close

1573

01:04:54,680 --> 01:04:52,770

to TTS a that's loosely affiliated with

1574

01:04:57,980 --> 01:04:54,690

them I guess you could say they're a

1575

01:05:00,290 --> 01:04:57,990

friend of Tom's he had also confirmed

1576

01:05:02,660 --> 01:05:00,300

that to me and now Knapp has said it so

1577

01:05:06,650 --> 01:05:02,670

I think that's something that we have to

1578

01:05:09,319 --> 01:05:06,660

look forward to for sure and these the

1579

01:05:13,239 --> 01:05:09,329

materials that jockle a and gary norms

1580

01:05:15,709 --> 01:05:13,249

looking at that is also coming out

1581

01:05:18,709 --> 01:05:15,719

sometime next year there's going to be a

1582

01:05:20,959 --> 01:05:18,719

paper on it and there's also going to be

1583

01:05:26,390 --> 01:05:20,969

a peer review paper on this antenna

1584

01:05:30,579 --> 01:05:26,400

stuff in fact Gary Nolan is giving a

1585

01:05:35,660 --> 01:05:30,589

presentation in a few weeks to an

1586

01:05:38,420 --> 01:05:35,670

extremely prestigious University it's

1587

01:05:40,039 --> 01:05:38,430

pretty shocking actually and the way he

1588

01:05:41,180 --> 01:05:40,049

kind of got leaked into it was that he

1589

01:05:43,039 --> 01:05:41,190

was speaking to somebody from that

1590

01:05:46,130 --> 01:05:43,049

university and they were open to these

1591

01:05:47,920 --> 01:05:46,140

concepts and ideas but the way it's

1592

01:05:51,529 --> 01:05:47,930

gonna be presented to the University

1593

01:05:54,799 --> 01:05:51,539

he's not gonna be talking about the

1594

01:05:56,390 --> 01:05:54,809

phenomenon and and extraterrestrials or

1595

01:05:58,880 --> 01:05:56,400

anything like that but it's going to be

1596

01:06:01,009 --> 01:05:58,890

presented in an in a way of you know

1597

01:06:02,749 --> 01:06:01,019

talking about the antenna so there's

1598

01:06:06,499 --> 01:06:02,759

going to be something on that put out as

1599

01:06:09,140 --> 01:06:06,509

well as well as the papers so that's um

1600

01:06:10,999 --> 01:06:09,150

that's another big thing that's going to

1601  
01:06:13,400 --> 01:06:11,009  
happen next year and it seems for

1602  
01:06:15,890 --> 01:06:13,410  
certain and there's been some really big

1603  
01:06:18,079 --> 01:06:15,900  
foreshadowing from you lizand oh and

1604  
01:06:20,120 --> 01:06:18,089  
he's usually to me is usually really

1605  
01:06:23,299 --> 01:06:20,130  
reserved so when he does before

1606  
01:06:24,680 --> 01:06:23,309  
shadowing stuff I get excited like he

1607  
01:06:26,239 --> 01:06:24,690  
said you know the conversation would

1608  
01:06:29,479 --> 01:06:26,249  
change in the next year he said that at

1609  
01:06:31,430 --> 01:06:29,489  
the MUFON conference so that was a big

1610  
01:06:33,650 --> 01:06:31,440  
comment from him I think and then also

1611  
01:06:35,630 --> 01:06:33,660  
on coast to coast he was talking to

1612  
01:06:37,370 --> 01:06:35,640  
George Knapp and he was saying he was

1613  
01:06:39,920 --> 01:06:37,380

talking about the fleet that is

1614

01:06:41,839 --> 01:06:39,930

mentioned and he said you know that none

1615

01:06:44,209 --> 01:06:41,849

of that would come out from him but to

1616

01:06:46,219 --> 01:06:44,219

me it was kind of seemed like he was

1617

01:06:48,799 --> 01:06:46,229

alluding that maybe we would get another

1618

01:06:49,759 --> 01:06:48,809

drop from the Pentagon on that like I

1619

01:06:52,370 --> 01:06:49,769

don't know if that's the case these are

1620

01:06:55,130 --> 01:06:52,380

just all options but for him to really

1621

01:06:57,739 --> 01:06:55,140

focus on the fleet like that it just it

1622

01:06:59,719 --> 01:06:57,749

to me it was equivalent he said that

1623

01:07:01,339 --> 01:06:59,729

that well I don't remember exact words

1624

01:07:04,279 --> 01:07:01,349

he said it would be an aha moment if the

1625

01:07:06,319 --> 01:07:04,289

details of the gimbal come out and all

1626  
01:07:08,120 --> 01:07:06,329  
we need is just one of the gimbal pilots

1627  
01:07:10,009 --> 01:07:08,130  
just one willing to talk and just tell

1628  
01:07:11,930 --> 01:07:10,019  
us exactly what happened and I know

1629  
01:07:14,029 --> 01:07:11,940  
there were other other engagements

1630  
01:07:16,069 --> 01:07:14,039  
supposedly but just one would be amazing

1631  
01:07:18,829 --> 01:07:16,079  
to see because then we could put that

1632  
01:07:21,019 --> 01:07:18,839  
put to rest the mick west argument that

1633  
01:07:22,790 --> 01:07:21,029  
they were chasing a plane it's like if

1634  
01:07:24,260 --> 01:07:22,800  
we know what happened in the rest of the

1635  
01:07:26,030 --> 01:07:24,270  
engagement we can you know we could say

1636  
01:07:27,650 --> 01:07:26,040  
sorry that did not happen they caught up

1637  
01:07:29,660 --> 01:07:27,660  
to her or they couldn't catch up to it

1638  
01:07:31,690 --> 01:07:29,670

or what else happened yeah

1639

01:07:33,940 --> 01:07:31,700

and Melinda Leslie says that she has

1640

01:07:36,650 --> 01:07:33,950

suppose allegedly the some of these

1641

01:07:39,140 --> 01:07:36,660

witnesses from some East Coast go faster

1642

01:07:42,080 --> 01:07:39,150

gimbal event and you know we're hearing

1643

01:07:44,450 --> 01:07:42,090

rumors about maybe some of these other

1644

01:07:46,580 --> 01:07:44,460

witnesses from in other ways being

1645

01:07:48,700 --> 01:07:46,590

talked into coming forward so that kind

1646

01:07:50,630 --> 01:07:48,710

of sounds like it's coming I know yeah

1647

01:07:52,040 --> 01:07:50,640

yeah I would definitely like to know

1648

01:07:53,780 --> 01:07:52,050

more about that case that looks like a

1649

01:07:57,410 --> 01:07:53,790

good case as well I've already got

1650

01:07:59,450 --> 01:07:57,420

Nimitz up in my top 10 all-time so but

1651  
01:08:01,910 --> 01:07:59,460  
there's room for more you know and we

1652  
01:08:04,310 --> 01:08:01,920  
should get the SCU report on the tic-tac

1653  
01:08:06,230 --> 01:08:04,320  
which is supposed to be a huge report as

1654  
01:08:08,450 --> 01:08:06,240  
far as pages that should be coming any

1655  
01:08:10,100 --> 01:08:08,460  
day now in the next couple of days a

1656  
01:08:12,500 --> 01:08:10,110  
couple of weeks so I'm really looking

1657  
01:08:14,720 --> 01:08:12,510  
forward to that and the James Fox UFO

1658  
01:08:16,280 --> 01:08:14,730  
documentary with Lee Spiegel as one of

1659  
01:08:17,809 --> 01:08:16,290  
the producers that's supposed to be

1660  
01:08:19,789 --> 01:08:17,819  
coming out soon - I'm not exactly sure

1661  
01:08:21,590 --> 01:08:19,799  
that he mentioned the month but I forget

1662  
01:08:23,570 --> 01:08:21,600  
I think it might have been this fall and

1663  
01:08:26,870 --> 01:08:23,580

hopefully he may have some amazing stuff

1664

01:08:28,849 --> 01:08:26,880

from there - well sobs eroding yeah

1665

01:08:32,960 --> 01:08:28,859

they're toting that they did they did a

1666

01:08:34,550 --> 01:08:32,970

talk on the podcast UFO right and they

1667

01:08:37,340 --> 01:08:34,560

were they were making some serious

1668

01:08:39,740 --> 01:08:37,350

claims and this is going to be a pretty

1669

01:08:41,599 --> 01:08:39,750

profound movie and I don't think they're

1670

01:08:45,200 --> 01:08:41,609

doing it just like oh we're promoting

1671

01:08:47,000 --> 01:08:45,210

the movie no I don't like James Fox and

1672

01:08:50,200 --> 01:08:47,010

at least me go you know Lee Spiegel was

1673

01:08:53,210 --> 01:08:50,210

involved with the UN and this topic so

1674

01:08:54,740 --> 01:08:53,220

you know there there's somebody that you

1675

01:08:56,599 --> 01:08:54,750

know they really want to make a change

1676

01:09:00,950 --> 01:08:56,609

in this so I think that we can expect

1677

01:09:04,490 --> 01:09:00,960

some some big stuff in there yeah I

1678

01:09:09,559 --> 01:09:04,500

can't wait I'm sorry guys I'm gonna have

1679

01:09:12,740 --> 01:09:09,569

to drop off okay I was gonna say - I you

1680

01:09:15,590 --> 01:09:12,750

know I got a cut out soon - okay maybe

1681

01:09:17,660 --> 01:09:15,600

you want to wrap this up Frank uh yeah

1682

01:09:21,230 --> 01:09:17,670

we can wrap this out any final words

1683

01:09:23,030 --> 01:09:21,240

from anybody before we do uh you know I

1684

01:09:26,930 --> 01:09:23,040

just want to say I'm you know I'm so

1685

01:09:29,120 --> 01:09:26,940

happy that we we got this done I I love

1686

01:09:31,490 --> 01:09:29,130

our Twitter circle you know I think we

1687

01:09:33,500 --> 01:09:31,500

have great camaraderie and we share some

1688

01:09:35,000 --> 01:09:33,510

great information together and you know

1689

01:09:36,590 --> 01:09:35,010

peace different information together and

1690

01:09:37,730 --> 01:09:36,600

kind of put out these different ideas so

1691

01:09:39,730 --> 01:09:37,740

you know thank you guys so much for

1692

01:09:41,900 --> 01:09:39,740

doing all the work that you do and

1693

01:09:44,270 --> 01:09:41,910

putting the information out and sharing

1694

01:09:46,760 --> 01:09:44,280

the information and for coming on here

1695

01:09:48,650 --> 01:09:46,770

are two in discussing with us it's been

1696

01:09:50,450 --> 01:09:48,660

a lot of fun I really like you guys I

1697

01:09:53,150 --> 01:09:50,460

really hold you guys in hold regard high

1698

01:09:58,340 --> 01:09:53,160

regards and man this it's been a real

1699

01:10:03,590 --> 01:09:58,350

fun talk corner handles again I'm at a

1700

01:10:07,130 --> 01:10:03,600

UFO Sunday James which were engaging the

1701

01:10:08,960 --> 01:10:07,140

phenomenon ok easy enough to find J you

1702

01:10:15,710 --> 01:10:08,970

want to go ahead and give your Twitter

1703

01:10:21,260 --> 01:10:15,720

with all the numbers again are you

1704

01:10:23,990 --> 01:10:21,270

already says J 0 9 7 8 4 6 9 1 got it

1705

01:10:26,120 --> 01:10:24,000

okay and I'm following you now over on

1706

01:10:29,720 --> 01:10:26,130

Twitter uh Jo mirja you want to give

1707

01:10:33,070 --> 01:10:29,730

your Twitter handle it's UFO Jo 1-1 and

1708

01:10:35,510 --> 01:10:33,080

the website is UFO Jo dotnet got it and

1709

01:10:37,780 --> 01:10:35,520

Danny you want to go with your Twitter

1710

01:10:42,440 --> 01:10:37,790

handle my twitter handle is silva record

1711

01:10:43,970 --> 01:10:42,450

Silv a re Co Rd and that'll be also the

1712

01:10:46,280 --> 01:10:43,980

name of the website as soon as it

1713

01:10:48,920 --> 01:10:46,290

launches there we go okay so we got all

1714

01:10:50,540 --> 01:10:48,930

our Twitter handles out there then any

1715

01:10:53,690 --> 01:10:50,550

final words from anybody any final

1716

01:10:55,130 --> 01:10:53,700

thoughts but I say thank you so much for

1717

01:10:56,060 --> 01:10:55,140

sitting the suttas it's been incredible

1718

01:11:03,590 --> 01:10:56,070

man I really love you guys

1719

01:11:04,880 --> 01:11:03,600

yeah yeah Danny's a man we're gonna be

1720

01:11:07,510 --> 01:11:04,890

doing it we got to do this again we'll

1721

01:11:10,520 --> 01:11:07,520

do this again some time to put together

1722

01:11:12,530 --> 01:11:10,530

kind of a quick and dirty but we got

1723

01:11:14,780 --> 01:11:12,540

everybody in that we can handle three

1724

01:11:16,940 --> 01:11:14,790

guests at one time plus me and James so

1725

01:11:18,170 --> 01:11:16,950

we set a new record here in terms of the

1726

01:11:21,710 --> 01:11:18,180

most people we've ever had on the show

1727

01:11:23,690 --> 01:11:21,720

this was fantastic and I'm gonna wrap it

1728

01:11:27,560 --> 01:11:23,700

up a goodbye from Philly yeah this is

1729

01:11:28,560 --> 01:11:27,570

Frank stalter here and James I'm out of

1730

01:11:31,400 --> 01:11:28,570

here - thank you everybody

1731

01:11:32,870 --> 01:11:31,410

[Laughter]

1732

01:11:34,820 --> 01:11:32,880

have a nice evening everybody have a

1733

01:11:36,560 --> 01:11:34,830

good one man thanks for tuning in how

1734

01:11:38,210 --> 01:11:36,570

James out we've got some good guests

1735

01:11:40,400 --> 01:11:38,220

coming up don't we I know you can't tell

1736

01:11:42,680 --> 01:11:40,410

ya too much about oh yeah we here we got
