

2018 REVIEW ROUNDTABLE: THE YEAR OF TO THE STARS ACADEMY AND AATIP

1
00:01:00,130 --> 00:00:20,240

[Music]

2
00:01:05,540 --> 00:01:02,180

there I'm good afternoon from

3
00:01:08,570 --> 00:01:05,550

Philadelphia Frank here UFO News Network

4
00:01:11,270 --> 00:01:08,580

Sunday a special 2018 Year in Review

5
00:01:13,490 --> 00:01:11,280

round table it was pretty much the year

6
00:01:14,930 --> 00:01:13,500

of the to the Stars Academy the eighth

7
00:01:17,690 --> 00:01:14,940

tip program and everything surrounding

8
00:01:19,640 --> 00:01:17,700

that some other things happened to here

9
00:01:22,190 --> 00:01:19,650

and there but it was pretty much their

10
00:01:24,710 --> 00:01:22,200

year they pretty much dominated just

11
00:01:27,140 --> 00:01:24,720

about all the major news in the field

12
00:01:29,300 --> 00:01:27,150

over the last year and there's no sense

13
00:01:33,499 --> 00:01:29,310

in denying it we're gonna tackle it and

14

00:01:35,270 --> 00:01:33,509

go basically from coast to coast let's

15

00:01:37,550 --> 00:01:35,280

bring in a great panel we've got for

16

00:01:39,680 --> 00:01:37,560

everybody today we've got well I'll

17

00:01:41,840 --> 00:01:39,690

start that going now west to east we got

18

00:01:43,930 --> 00:01:41,850

pretty much half the world covered all

19

00:01:47,180 --> 00:01:43,940

the way out west from the wild wild west

20

00:01:50,900 --> 00:01:47,190

chant Hannah UFO investigative

21

00:01:52,790 --> 00:01:50,910

journalist doing interviews most

22

00:01:54,770 --> 00:01:52,800

recently I saw the one with Irina Scott

23

00:01:57,169 --> 00:01:54,780

you also introduced to some guy named

24

00:01:58,669 --> 00:01:57,179

Dave Beatty who I didn't know that much

25

00:02:01,160 --> 00:01:58,679

about that learned a lot more reading

26

00:02:03,620 --> 00:02:01,170

your interview and some mufon state

27

00:02:05,810 --> 00:02:03,630

directors as well welcome aboard chant

28

00:02:09,139 --> 00:02:05,820

thanks for coming on thank you for

29

00:02:10,729 --> 00:02:09,149

having me and this is this is your

30

00:02:14,140 --> 00:02:10,739

rookie year in all this is that about

31

00:02:16,460 --> 00:02:14,150

right that you're just getting active in

32

00:02:18,410 --> 00:02:16,470

proactively going out and asking

33

00:02:21,410 --> 00:02:18,420

questions about UFOs and sharing it

34

00:02:24,380 --> 00:02:21,420

online yeah I think it's important for

35

00:02:27,050 --> 00:02:24,390

the average UFO enthusiast to learn as

36

00:02:29,900 --> 00:02:27,060

much as possible and um you know you

37

00:02:31,539 --> 00:02:29,910

have you're very serious UFO researchers

38

00:02:34,160 --> 00:02:31,549

out there but there's a lot of people

39

00:02:39,229 --> 00:02:34,170

who want to learn more about this topic

40

00:02:41,240 --> 00:02:39,239

and so what I do is I try and interview

41

00:02:43,430 --> 00:02:41,250

as many people who are serious in the

42

00:02:46,630 --> 00:02:43,440

field of ufology as possible so that we

43

00:02:50,900 --> 00:02:46,640

can educate everybody about this topic

44

00:02:54,170 --> 00:02:50,910

and all the way from Winnipeg Grant

45

00:02:58,190 --> 00:02:54,180

Cameron grant you've obviously not a

46

00:02:59,960 --> 00:02:58,200

rookie anymore at all this but you've

47

00:03:02,390 --> 00:02:59,970

had a pretty good 20 18 I would say

48

00:03:04,490 --> 00:03:02,400

you've had a great 2018 thanks for

49

00:03:06,890 --> 00:03:04,500

coming back on board with this grant

50

00:03:08,530 --> 00:03:06,900

Cameron you know thanks Frank it was

51
00:03:10,430 --> 00:03:08,540
yeah it was an exciting year it sort of

52
00:03:12,110 --> 00:03:10,440
felt good it

53
00:03:13,670 --> 00:03:12,120
felt a little bit of indication for what

54
00:03:16,370 --> 00:03:13,680
I've been saying for so many years

55
00:03:17,960 --> 00:03:16,380
everything seems to be going along the

56
00:03:19,310 --> 00:03:17,970
way I thought it was gonna happen so it

57
00:03:21,710 --> 00:03:19,320
was it was a good year and I it looks

58
00:03:22,100 --> 00:03:21,720
like a better year coming certainly hope

59
00:03:25,010 --> 00:03:22,110
so

60
00:03:28,460 --> 00:03:25,020
one question for you grant you started

61
00:03:30,740 --> 00:03:28,470
actively researching all this a number

62
00:03:34,210 --> 00:03:30,750
of years ago would you say this is your

63
00:03:37,370 --> 00:03:34,220

best year in the field since you started

64

00:03:40,670 --> 00:03:37,380

huh hard to say

65

00:03:44,440 --> 00:03:40,680

you've had some other good years to me

66

00:03:47,270 --> 00:03:44,450

it's it's served to me it's a matter of

67

00:03:49,370 --> 00:03:47,280

inspiration whether I think I've sort of

68

00:03:51,380 --> 00:03:49,380

figured it out and I think as it goes

69

00:03:53,450 --> 00:03:51,390

along every year gets better where I

70

00:03:56,120 --> 00:03:53,460

have less last questions as you know I

71

00:03:57,770 --> 00:03:56,130

started 75 where I saw something and all

72

00:04:00,200 --> 00:03:57,780

I wanted to know after everybody

73

00:04:03,380 --> 00:04:00,210

rejected my manuscript was what's going

74

00:04:04,940 --> 00:04:03,390

on and I think I I don't have that many

75

00:04:07,850 --> 00:04:04,950

questions anymore as to what's going on

76

00:04:08,480 --> 00:04:07,860

okay okay great and all the way from

77

00:04:14,090 --> 00:04:08,490

Florida

78

00:04:16,580 --> 00:04:14,100

Dave Beatty Dave UFO researcher

79

00:04:19,340 --> 00:04:16,590

obviously a MUFON investigator back in

80

00:04:22,070 --> 00:04:19,350

the day and the producer of the nimitz

81

00:04:25,130 --> 00:04:22,080

chronicles dave you've had a really good

82

00:04:27,080 --> 00:04:25,140

year too yeah thanks Frank

83

00:04:29,330 --> 00:04:27,090

I think we have to say this would

84

00:04:31,850 --> 00:04:29,340

probably be one of the best years for me

85

00:04:34,070 --> 00:04:31,860

in this field but then again I have been

86

00:04:37,010 --> 00:04:34,080

out of it for quite the while and I did

87

00:04:39,830 --> 00:04:37,020

kind of just get back into it when this

88

00:04:41,650 --> 00:04:39,840

all broke last December so it kind of I

89

00:04:45,409 --> 00:04:41,660

would say it's probably the best year

90

00:04:47,720 --> 00:04:45,419

and in your wildest dreams your nimitz

91

00:04:49,970 --> 00:04:47,730

encounters on a documentary over on

92

00:04:52,310 --> 00:04:49,980

youtube and roughly a month you're

93

00:04:55,340 --> 00:04:52,320

pushing a million views already

94

00:04:58,250 --> 00:04:55,350

dave did you and your wildest dreams did

95

00:05:00,770 --> 00:04:58,260

you anticipate that kind of response you

96

00:05:03,860 --> 00:05:00,780

know it was completely surprising to me

97

00:05:06,800 --> 00:05:03,870

I have no idea how that occurred how

98

00:05:08,900 --> 00:05:06,810

that it reached that many people I mean

99

00:05:10,940 --> 00:05:08,910

there must have been a share by somebody

100

00:05:13,490 --> 00:05:10,950

that had a lot of followers that's all I

101
00:05:15,380 --> 00:05:13,500
can think of or a lot of people are

102
00:05:17,750 --> 00:05:15,390
interested in this topic so I'm not sure

103
00:05:20,000 --> 00:05:17,760
how that happened but I'm very happy

104
00:05:22,040 --> 00:05:20,010
that it did so sure sure absolutely yeah

105
00:05:23,300 --> 00:05:22,050
you've got that some news for us and

106
00:05:26,360 --> 00:05:23,310
we're gonna talk you know a little bit

107
00:05:28,250 --> 00:05:26,370
more detail because obviously just died

108
00:05:31,250 --> 00:05:28,260
last month November that's when it was

109
00:05:32,780 --> 00:05:31,260
released and we're gonna try to review

110
00:05:34,220 --> 00:05:32,790
the year in chronological order but I

111
00:05:36,140 --> 00:05:34,230
know you've got plenty of stuff because

112
00:05:38,600 --> 00:05:36,150
you've been working all this throughout

113
00:05:42,620 --> 00:05:38,610

the year and all the way from England

114

00:05:45,650 --> 00:05:42,630

we've got Twitter user Jay Jay thanks

115

00:05:47,630 --> 00:05:45,660

for coming back on with us thank you

116

00:05:49,520 --> 00:05:47,640

very much for inviting me it's really a

117

00:05:50,780 --> 00:05:49,530

pleasure to be here with people that

118

00:05:52,700 --> 00:05:50,790

I've been following for a long time you

119

00:05:55,250 --> 00:05:52,710

know Grant camera and I think is a bit

120

00:05:56,570 --> 00:05:55,260

of a legend in the area and Dave and

121

00:05:58,340 --> 00:05:56,580

Shawn as well so it's gonna be really

122

00:06:00,320 --> 00:05:58,350

really great thanks for the invite I

123

00:06:03,380 --> 00:06:00,330

apologize in advance I've got a bit of a

124

00:06:07,480 --> 00:06:03,390

cold okay yeah this sort of see through

125

00:06:10,610 --> 00:06:07,490

that fantast and fine you sound great

126

00:06:13,850 --> 00:06:10,620

Jay yeah you're a basically a rookie in

127

00:06:16,730 --> 00:06:13,860

all this - as far as proactive UFO

128

00:06:20,270 --> 00:06:16,740

research and sharing your sharing their

129

00:06:21,620 --> 00:06:20,280

information talk about how talk about

130

00:06:25,160 --> 00:06:21,630

your rookie year a little bit tell us a

131

00:06:28,730 --> 00:06:25,170

little bit about that sure yeah so I got

132

00:06:30,230 --> 00:06:28,740

involved in this stuff starting June

133

00:06:31,820 --> 00:06:30,240

this year you know it's kind of always

134

00:06:34,310 --> 00:06:31,830

been something I've been interested in

135

00:06:35,750 --> 00:06:34,320

for 20 odd years on coming up for 40 and

136

00:06:38,440 --> 00:06:35,760

just a few months at you know it's been

137

00:06:40,730 --> 00:06:38,450

there for a little while but only really

138

00:06:43,670 --> 00:06:40,740

introduced myself to the community in

139

00:06:45,680 --> 00:06:43,680

June when I signed up to Twitter and

140

00:06:47,750 --> 00:06:45,690

made a little splash with the Mellon

141

00:06:56,480 --> 00:06:47,760

leak finding these documents likely were

142

00:06:59,690 --> 00:06:56,490

elizondo's that's gonna be a lot of fun

143

00:07:01,010 --> 00:06:59,700

because I'm I'm not too clear on that so

144

00:07:05,510 --> 00:07:01,020

I've got quite a few questions for you

145

00:07:07,580 --> 00:07:05,520

and let us go back basically yeah this

146

00:07:09,320 --> 00:07:07,590

this idea it's a real shame that James

147

00:07:11,660 --> 00:07:09,330

isn't here because the idea to do this

148

00:07:14,000 --> 00:07:11,670

show was James's baby he wanted to talk

149

00:07:16,010 --> 00:07:14,010

about this and a lot of the notes that

150

00:07:18,740 --> 00:07:16,020

I've shared with you offer about some of

151
00:07:21,700 --> 00:07:18,750
the key events throughout the year that

152
00:07:24,080 --> 00:07:21,710
he put a lot of that together so

153
00:07:26,150 --> 00:07:24,090
obviously it's a big disappointment that

154
00:07:31,070 --> 00:07:26,160
James is it with us but the show must go

155
00:07:33,650 --> 00:07:31,080
on so basically a year ago this Sunday a

156
00:07:36,950 --> 00:07:33,660
year ago the New York Times broke that

157
00:07:38,450 --> 00:07:36,960
huge story revealing the a tip program

158
00:07:40,520 --> 00:07:38,460
the names of some of the Senators

159
00:07:42,020 --> 00:07:40,530
involved including most famously Harry

160
00:07:43,629 --> 00:07:42,030
Reid who was doing a little bit of

161
00:07:46,689 --> 00:07:43,639
talking about it as well

162
00:07:50,390 --> 00:07:46,699
simultaneously with all that to videos

163
00:07:53,330 --> 00:07:50,400

yeah lear video and a gimbal video one

164

00:07:55,490 --> 00:07:53,340

of them confirmed to be from the famous

165

00:07:58,820 --> 00:07:55,500

nimitz encounter the other from a

166

00:08:01,969 --> 00:07:58,830

somewhat hazy encounter that we've since

167

00:08:05,480 --> 00:08:01,979

tracked down as something happening off

168

00:08:08,719 --> 00:08:05,490

the east coast of the US in 2015 i

169

00:08:11,540 --> 00:08:08,729

believe it is is that correct dave yeah

170

00:08:13,689 --> 00:08:11,550

that's that's what we believe you know

171

00:08:16,370 --> 00:08:13,699

it hasn't ever been announced anywhere

172

00:08:17,860 --> 00:08:16,380

aside from our group and a couple of the

173

00:08:20,839 --> 00:08:17,870

researchers there that believe that

174

00:08:23,689 --> 00:08:20,849

those videos were filmed off the coast

175

00:08:26,680 --> 00:08:23,699

of florida actually not far from me off

176

00:08:29,899 --> 00:08:26,690

the coast of daytona in a training area

177

00:08:31,339 --> 00:08:29,909

where they were doing similar work ups

178

00:08:34,010 --> 00:08:31,349

that the Nimitz was doing and this would

179

00:08:36,290 --> 00:08:34,020

be the USS Roosevelt Strike Group and

180

00:08:39,740 --> 00:08:36,300

it's believed that that was filmed in

181

00:08:41,870 --> 00:08:39,750

the month of January so God okay well

182

00:08:44,329 --> 00:08:41,880

the story breaks I know I woke up that

183

00:08:48,230 --> 00:08:44,339

Sunday morning and I couldn't believe it

184

00:08:50,240 --> 00:08:48,240

I'm trying to save links and keep

185

00:08:52,579 --> 00:08:50,250

information together and tabulate it and

186

00:08:55,250 --> 00:08:52,589

share it and it was it was an

187

00:08:57,380 --> 00:08:55,260

extraordinary day grant Cameron you've

188

00:08:59,829 --> 00:08:57,390

been on all this a while but the the

189

00:09:02,810 --> 00:08:59,839

actual story itself when it broke the

190

00:09:05,300 --> 00:09:02,820

coordinated media attack by whoever

191

00:09:07,190 --> 00:09:05,310

wants to get this information out came

192

00:09:09,319 --> 00:09:07,200

down and that was there for all the

193

00:09:12,190 --> 00:09:09,329

world to see it were you surprised it

194

00:09:14,750 --> 00:09:12,200

happened that way on that particular day

195

00:09:16,400 --> 00:09:14,760

well I was surprised that wasn't

196

00:09:18,319 --> 00:09:16,410

surprised because I had actually written

197

00:09:21,620 --> 00:09:18,329

managing magic it had been released in

198

00:09:24,139 --> 00:09:21,630

February about maybe almost a year

199

00:09:26,240 --> 00:09:24,149

before and I had predicted that Tom

200

00:09:27,889 --> 00:09:26,250

DeLonge and Jim semi van and all these

201
00:09:29,240 --> 00:09:27,899
guys were doing this I've been told that

202
00:09:31,579 --> 00:09:29,250
they were going to do this but if you

203
00:09:32,960 --> 00:09:31,589
remember the way it broke was Hillary

204
00:09:35,990 --> 00:09:32,970
was supposed to do this it was gonna be

205
00:09:38,329 --> 00:09:36,000
Hillary and Podesta and Obama had green

206
00:09:39,680 --> 00:09:38,339
lighted this thing and because Hillary

207
00:09:42,410 --> 00:09:39,690
lost the election there was all this

208
00:09:46,310 --> 00:09:42,420
delay so when the thing actually broke

209
00:09:47,960 --> 00:09:46,320
December of the 16th if you recall even

210
00:09:49,480 --> 00:09:47,970
Tom DeLonge was very frustrated a couple

211
00:09:53,980 --> 00:09:49,490
days before the

212
00:09:56,199 --> 00:09:53,990
the actual release in these media Tom

213
00:09:58,180 --> 00:09:56,209

DeLonge had posted and said ugh you know

214

00:09:59,889 --> 00:09:58,190

like Oh another delay and it was like it

215

00:10:02,500 --> 00:09:59,899

was almost given up too and he was

216

00:10:05,440 --> 00:10:02,510

taking a lot of a lot of hits on his you

217

00:10:07,180 --> 00:10:05,450

know his his various media that he was a

218

00:10:10,269 --> 00:10:07,190

big scam artist and this is all garbage

219

00:10:12,820 --> 00:10:10,279

and nothing was gonna happen so when it

220

00:10:14,139 --> 00:10:12,830

happened I went oh finally they finally

221

00:10:15,579 --> 00:10:14,149

cuz I heard I've been talking to people

222

00:10:16,870 --> 00:10:15,589

on the inside and they kept saying it's

223

00:10:19,120 --> 00:10:16,880

coming it's coming don't worry it's

224

00:10:22,060 --> 00:10:19,130

coming and so when it broke I just

225

00:10:23,920 --> 00:10:22,070

basically said this is disclosure this

226

00:10:26,889 --> 00:10:23,930

is what we've sort of been waiting for

227

00:10:29,380 --> 00:10:26,899

this confirmation and my first step was

228

00:10:31,540 --> 00:10:29,390

immediately to go to Ron Pandolfi so I

229

00:10:34,060 --> 00:10:31,550

went through Dan Smith and I immediately

230

00:10:35,949 --> 00:10:34,070

said what's Ron got to say and so it

231

00:10:39,070 --> 00:10:35,959

started that whole thing that I believe

232

00:10:40,990 --> 00:10:39,080

that they were part of this and but I I

233

00:10:44,050 --> 00:10:41,000

said basically this is disclosure and I

234

00:10:45,550 --> 00:10:44,060

still maintain that basically it's over

235

00:10:48,699 --> 00:10:45,560

I mean it's it's just it's unraveling

236

00:10:50,620 --> 00:10:48,709

now and from what I hear now it's just

237

00:10:52,090 --> 00:10:50,630

gonna be more unraveling and people will

238

00:10:54,579 --> 00:10:52,100

say you know there was no disclosure and

239

00:10:55,960 --> 00:10:54,589

I'm going depends were you the Fed

240

00:10:57,730 --> 00:10:55,970

definition of disclosure disclosure

241

00:10:58,630 --> 00:10:57,740

means to reveal and that is the biggest

242

00:11:00,340 --> 00:10:58,640

purview

243

00:11:01,510 --> 00:11:00,350

I mean I've been at it since 74 there's

244

00:11:03,310 --> 00:11:01,520

nothing even close to this there's been

245

00:11:05,590 --> 00:11:03,320

a lot of rumors this is gonna happen but

246

00:11:07,840 --> 00:11:05,600

I mean it was absolutely major event

247

00:11:10,060 --> 00:11:07,850

admit it it falls into what I said it's

248

00:11:10,949 --> 00:11:10,070

it's not full disclosure it's not you

249

00:11:14,319 --> 00:11:10,959

know they're gonna tell you everything

250

00:11:15,699 --> 00:11:14,329

it started with the three newspapers two

251
00:11:17,530 --> 00:11:15,709
of them using one name and one of them

252
00:11:20,050 --> 00:11:17,540
using the other all of them would have

253
00:11:21,730 --> 00:11:20,060
had two sources inside two sources in

254
00:11:23,410 --> 00:11:21,740
inside the Pentagon who were confirming

255
00:11:26,050 --> 00:11:23,420
to the Misses for real and so it was

256
00:11:28,510 --> 00:11:26,060
still this game of gradually you know

257
00:11:31,290 --> 00:11:28,520
mess up the story leaking out but to me

258
00:11:34,300 --> 00:11:31,300
it was December 16th was basically

259
00:11:37,769 --> 00:11:34,310
disclosure on a Saturday morning when

260
00:11:42,430 --> 00:11:37,779
you shouldn't be releasing anything like

261
00:11:44,139 --> 00:11:42,440
39 years after December 17 when the

262
00:11:47,380 --> 00:11:44,149
shutdown Bluebook so there's all these

263
00:11:48,340 --> 00:11:47,390

different connections but very very

264

00:11:50,170 --> 00:11:48,350

significant the mode the most

265

00:11:51,910 --> 00:11:50,180

significant event and did this

266

00:11:54,910 --> 00:11:51,920

disclosure nobody jumped off a roof

267

00:11:56,319 --> 00:11:54,920

nobody committed suicide you know run on

268

00:12:00,660 --> 00:11:56,329

the stock market nothing happened

269

00:12:03,440 --> 00:12:00,670

everybody just went oh okay well Dave

270

00:12:05,390 --> 00:12:03,450

that morning when all that broker

271

00:12:07,670 --> 00:12:05,400

are you working on your documentary at

272

00:12:12,110 --> 00:12:07,680

that point or was this a catalyst for

273

00:12:14,570 --> 00:12:12,120

you no it was totally a catalyst I

274

00:12:17,150 --> 00:12:14,580

really you know again hadn't been

275

00:12:19,580 --> 00:12:17,160

involved in the community as much in you

276

00:12:21,590 --> 00:12:19,590

know as grant knew about this Tom

277

00:12:23,750 --> 00:12:21,600

DeLonge and the whole thing in advance I

278

00:12:26,150 --> 00:12:23,760

hadn't really known too much about it so

279

00:12:28,220 --> 00:12:26,160

I had a lot of catching up to do and you

280

00:12:30,410 --> 00:12:28,230

know reading that article that that

281

00:12:32,810 --> 00:12:30,420

morning in the subsequent articles in

282

00:12:35,000 --> 00:12:32,820

the Washington Post and so on it was

283

00:12:36,890 --> 00:12:35,010

startling to me I mean I could not

284

00:12:40,360 --> 00:12:36,900

believe that was reading this in a major

285

00:12:43,280 --> 00:12:40,370

American newspaper and then globally

286

00:12:45,770 --> 00:12:43,290

it's usually not even covered or it's on

287

00:12:48,560 --> 00:12:45,780

the back page or a tabloid or something

288

00:12:51,110 --> 00:12:48,570

and it was being taken seriously and it

289

00:12:52,490 --> 00:12:51,120

was being discussed I think this had one

290

00:12:54,620 --> 00:12:52,500

of the most profound effects on their

291

00:12:56,330 --> 00:12:54,630

website I believe that York Times

292

00:12:58,970 --> 00:12:56,340

website it was one of their most

293

00:13:01,370 --> 00:12:58,980

successful articles and so yeah that was

294

00:13:04,880 --> 00:13:01,380

really the starting point for me in

295

00:13:07,190 --> 00:13:04,890

starting to conceptualize doing a visual

296

00:13:09,740 --> 00:13:07,200

representation of that one event that

297

00:13:13,460 --> 00:13:09,750

was mentioned in in New York Times

298

00:13:17,810 --> 00:13:13,470

that's the Nimitz part right yet did

299

00:13:20,360 --> 00:13:17,820

this particular event get your attention

300

00:13:23,360 --> 00:13:20,370

when it was happening or I wasn't more a

301
00:13:26,960 --> 00:13:23,370
case of the attention that followed kind

302
00:13:30,350 --> 00:13:26,970
of drew you in well I think the point

303
00:13:32,960 --> 00:13:30,360
that was just made about how it was

304
00:13:35,480 --> 00:13:32,970
disclosed on a Saturday morning you know

305
00:13:37,250 --> 00:13:35,490
when people would be very relaxed and

306
00:13:39,830 --> 00:13:37,260
not really noticing anything is

307
00:13:42,020 --> 00:13:39,840
important that's how I kind of feel

308
00:13:44,780 --> 00:13:42,030
about it I don't mean to sound so

309
00:13:47,780 --> 00:13:44,790
nonchalant but I honestly believe if

310
00:13:50,240 --> 00:13:47,790
there's full disclosure people really

311
00:13:52,400 --> 00:13:50,250
will have the same response you know so

312
00:13:54,710 --> 00:13:52,410
that's quasi disclosure right there

313
00:13:57,020 --> 00:13:54,720

that's exactly what happened there was a

314

00:13:59,600 --> 00:13:57,030

lack of response by the general public

315

00:14:02,090 --> 00:13:59,610

I mean to a degree you know seriously

316

00:14:04,970 --> 00:14:02,100

research they were very passionate about

317

00:14:07,310 --> 00:14:04,980

it as they should be and you know all of

318

00:14:09,740 --> 00:14:07,320

us in the UFO community that follow

319

00:14:12,500 --> 00:14:09,750

these kinds of stories we were very

320

00:14:16,010 --> 00:14:12,510

excited about it thrilled in fact but

321

00:14:17,330 --> 00:14:16,020

the rest of the world just seemed to

322

00:14:19,400 --> 00:14:17,340

continue

323

00:14:23,660 --> 00:14:19,410

you know doing their normal everyday

324

00:14:26,240 --> 00:14:23,670

routine God and J was did this get your

325

00:14:27,770 --> 00:14:26,250

attention on day one or did the

326

00:14:30,860 --> 00:14:27,780

follow-up attention kind of draw you

327

00:14:34,430 --> 00:14:30,870

into all this yeah it's pretty much

328

00:14:36,050 --> 00:14:34,440

exactly the stuff on the day since he

329

00:14:38,030 --> 00:14:36,060

got released checking out all the videos

330

00:14:39,380 --> 00:14:38,040

I wasn't familiar with any of it

331

00:14:40,970 --> 00:14:39,390

beforehand I know that there was some of

332

00:14:42,710 --> 00:14:40,980

the videos floating around for the

333

00:14:44,620 --> 00:14:42,720

nimitz incidents for a few years

334

00:14:47,120 --> 00:14:44,630

beforehand but I'd never heard of them

335

00:14:49,820 --> 00:14:47,130

so yeah it's all new to me but it was

336

00:14:53,120 --> 00:14:49,830

all fascinating I think some videos have

337

00:14:54,800 --> 00:14:53,130

a bit more to them the Nimitz one has

338

00:14:56,570 --> 00:14:54,810

quite it's quite an interesting one and

339

00:14:59,090 --> 00:14:56,580

the gimbal is quite interesting I think

340

00:15:02,180 --> 00:14:59,100

there's valid criticism for the go-fast

341

00:15:04,130 --> 00:15:02,190

video which I know came a bit later but

342

00:15:06,050 --> 00:15:04,140

yeah I was a essentially new to it all

343

00:15:08,060 --> 00:15:06,060

but obviously absolutely fascinated me

344

00:15:09,620 --> 00:15:08,070

straight from day one got it fascinated

345

00:15:13,040 --> 00:15:09,630

a lot of other people there was a lot of

346

00:15:16,010 --> 00:15:13,050

media coverage outside well outside the

347

00:15:18,200 --> 00:15:16,020

immediate big news sources like the New

348

00:15:20,740 --> 00:15:18,210

York Times and the Politico was involved

349

00:15:22,880 --> 00:15:20,750

right from the get-go but some other

350

00:15:25,190 --> 00:15:22,890

mainstream entities were picking this up

351
00:15:28,640 --> 00:15:25,200
there were some interviews getting done

352
00:15:30,140 --> 00:15:28,650
on the various national level news

353
00:15:32,660 --> 00:15:30,150
channels here in the States

354
00:15:34,670 --> 00:15:32,670
I know one story that really got my

355
00:15:37,430 --> 00:15:34,680
attention in the immediate aftermath was

356
00:15:40,250 --> 00:15:37,440
a story in Scientific American which

357
00:15:42,980 --> 00:15:40,260
never does UFO stuff but there they are

358
00:15:45,050 --> 00:15:42,990
covering it and a fairly in-depth

359
00:15:48,020 --> 00:15:45,060
interview with Steve Justus who's with

360
00:15:52,640 --> 00:15:48,030
the Stars Academy recently retired from

361
00:15:54,340 --> 00:15:52,650
the aerospace industry so that this

362
00:15:56,420 --> 00:15:54,350
story got a lot of people's attention

363
00:15:57,290 --> 00:15:56,430

especially in the media there's no doubt

364

00:16:00,170 --> 00:15:57,300

about that

365

00:16:02,360 --> 00:16:00,180

any other stories any other things that

366

00:16:04,220 --> 00:16:02,370

you read that they got your attention in

367

00:16:07,970 --> 00:16:04,230

the immediate aftermath that that stands

368

00:16:10,330 --> 00:16:07,980

out for you before we leave this subject

369

00:16:13,790 --> 00:16:10,340

I did just want to give credit to

370

00:16:17,420 --> 00:16:13,800

Twitter Jay for not having revealed the

371

00:16:18,770 --> 00:16:17,430

female pilots name and information and

372

00:16:23,810 --> 00:16:18,780

you know her background regarding the

373

00:16:26,360 --> 00:16:23,820

Nimitz UFO case yeah yeah we're gonna

374

00:16:28,730 --> 00:16:26,370

get into that and lots of detail when we

375

00:16:30,360 --> 00:16:28,740

get around to August correct Jay what

376

00:16:34,470 --> 00:16:30,370

yeah

377

00:16:37,930 --> 00:16:34,480

hahahaha okay that and right after that

378

00:16:39,310 --> 00:16:37,940

between Christmas and you well another

379

00:16:40,750 --> 00:16:39,320

thing that happened I'm getting a little

380

00:16:45,070 --> 00:16:40,760

bit ahead of myself we got so much to

381

00:16:49,120 --> 00:16:45,080

cover here suddenly mainstream media was

382

00:16:52,630 --> 00:16:49,130

asking questions questions once at the

383

00:16:56,110 --> 00:16:52,640

general press conference which Huckabee

384

00:16:57,760 --> 00:16:56,120

Sanders runs that was asked and she

385

00:16:59,020 --> 00:16:57,770

didn't have an answer at that point I

386

00:17:01,120 --> 00:16:59,030

was going to get back to the gentleman

387

00:17:03,280 --> 00:17:01,130

who asked the question and then while

388

00:17:07,150 --> 00:17:03,290

Trump was leaving to go away on the

389

00:17:08,830 --> 00:17:07,160

holidays one screamed question from the

390

00:17:10,090 --> 00:17:08,840

press crowd and of course presidents

391

00:17:11,710 --> 00:17:10,100

never answer those questions no matter

392

00:17:13,360 --> 00:17:11,720

what they are they always keep back

393

00:17:15,340 --> 00:17:13,370

going that running to her from the

394

00:17:17,320 --> 00:17:15,350

helicopter whatever they're doing but

395

00:17:19,360 --> 00:17:17,330

that got in there too

396

00:17:22,660 --> 00:17:19,370

gret I know you had some thoughts at the

397

00:17:24,580 --> 00:17:22,670

time about how all that played out yeah

398

00:17:27,220 --> 00:17:24,590

well I I still maintain that the

399

00:17:28,750 --> 00:17:27,230

president knows and you're not going to

400

00:17:31,990 --> 00:17:28,760

drag the president because it just leads

401
00:17:34,990 --> 00:17:32,000
to another 5,000 questions and 3,000

402
00:17:37,570 --> 00:17:35,000
reporters so that looks worse Sanders

403
00:17:38,740 --> 00:17:37,580
said she to actually told the reporter

404
00:17:40,930 --> 00:17:38,750
from the hill who was the one the guy

405
00:17:42,550 --> 00:17:40,940
the guy asked the question that she knew

406
00:17:43,870 --> 00:17:42,560
the question might be coming but she

407
00:17:45,690 --> 00:17:43,880
didn't think anybody would ask the UFO

408
00:17:47,920 --> 00:17:45,700
question and his question of course was

409
00:17:49,990 --> 00:17:47,930
what does Donald Trump think about UFOs

410
00:17:52,270 --> 00:17:50,000
and will he refinance the ATA program

411
00:17:53,950 --> 00:17:52,280
and she said I'll get all I haven't

412
00:17:55,210 --> 00:17:53,960
talked to the president I'll talk to him

413
00:17:56,590 --> 00:17:55,220

I'll get back to you and I knew she

414

00:17:58,870 --> 00:17:56,600

wouldn't and I tried to contact the

415

00:18:00,970 --> 00:17:58,880

reporter and he wouldn't but on the 16th

416

00:18:02,290 --> 00:18:00,980

story there's there's two things I'd

417

00:18:04,000 --> 00:18:02,300

like to point out that people keep

418

00:18:07,930 --> 00:18:04,010

overlooking and that is the fact that

419

00:18:11,200 --> 00:18:07,940

the 16th story the Deezer stories took

420

00:18:14,650 --> 00:18:11,210

two months to take to unravel so all

421

00:18:16,150 --> 00:18:14,660

these various media were coordinated and

422

00:18:18,340 --> 00:18:16,160

I was told with Jim semi van who would

423

00:18:19,750 --> 00:18:18,350

pretended the whole thing and they all

424

00:18:23,140 --> 00:18:19,760

went on the same day of this long

425

00:18:25,660 --> 00:18:23,150

involved story and then on the 18th

426

00:18:27,010 --> 00:18:25,670

there was a very sort of interesting

427

00:18:28,420 --> 00:18:27,020

thing that everybody sort of overlooked

428

00:18:30,070 --> 00:18:28,430

that was the New York Times the

429

00:18:33,640 --> 00:18:30,080

Blumenthal article a couple days later

430

00:18:35,650 --> 00:18:33,650

where he details how this thing came to

431

00:18:37,390 --> 00:18:35,660

be and he refers to the fact that Leslie

432

00:18:39,250 --> 00:18:37,400

Kane went from New York City to

433

00:18:41,440 --> 00:18:39,260

Washington and that there was a whole

434

00:18:43,300 --> 00:18:41,450

pile of people in the room so it wasn't

435

00:18:45,260 --> 00:18:43,310

just Lou Elizondo and I think they said

436

00:18:49,080 --> 00:18:45,270

there was the

437

00:18:51,240 --> 00:18:49,090

former and present and former

438

00:18:53,100 --> 00:18:51,250

intelligence officers and a military

439

00:18:54,270 --> 00:18:53,110

contractor were in the room and that's

440

00:18:56,880 --> 00:18:54,280

where you start to see that this thing

441

00:18:58,799 --> 00:18:56,890

was much more involved than then people

442

00:19:00,330 --> 00:18:58,809

think it was it was well coordinated

443

00:19:02,400 --> 00:19:00,340

there was a lot of people involved and

444

00:19:03,780 --> 00:19:02,410

that it as always keep maintaining that

445

00:19:05,850 --> 00:19:03,790

everybody leaves out is the fact that

446

00:19:08,250 --> 00:19:05,860

somebody green lighted this this whole

447

00:19:10,680 --> 00:19:08,260

operations take place now semi van told

448

00:19:13,080 --> 00:19:10,690

my friend mental Amendola Leslie that it

449

00:19:15,630 --> 00:19:13,090

was the Pentagon and I firmly believe

450

00:19:18,510 --> 00:19:15,640

and I'm that's my next objective is to

451
00:19:20,159 --> 00:19:18,520
identify where this thing is being

452
00:19:23,039 --> 00:19:20,169
green-lighted but somebody's behind this

453
00:19:25,770 --> 00:19:23,049
thing it was very very carefully

454
00:19:27,360 --> 00:19:25,780
orchestrated and very involved operation

455
00:19:29,580 --> 00:19:27,370
this December 16 thing this was not just

456
00:19:32,490 --> 00:19:29,590
something that three newspapers just dis

457
00:19:35,070 --> 00:19:32,500
suddenly decided all to do their first

458
00:19:36,330 --> 00:19:35,080
UFO story in like three years on the

459
00:19:38,549 --> 00:19:36,340
front page of the newspaper and they all

460
00:19:40,020 --> 00:19:38,559
just happened to all the same day and

461
00:19:42,330 --> 00:19:40,030
nobody tried to out scoop the other

462
00:19:45,720 --> 00:19:42,340
person it was very very well done and

463
00:19:47,850 --> 00:19:45,730

very very very planned well a part of

464

00:19:50,280 --> 00:19:47,860

that planned I might well have been a

465

00:19:52,530 --> 00:19:50,290

little break that came my way over at my

466

00:19:54,240 --> 00:19:52,540

facebook group by Gary Nolan at the time

467

00:19:56,730 --> 00:19:54,250

was a member and he did a little

468

00:19:59,730 --> 00:19:56,740

impromptu ask me anything over there

469

00:20:01,770 --> 00:19:59,740

about the meta materials which were

470

00:20:04,440 --> 00:20:01,780

revealed in the The New York Times story

471

00:20:08,130 --> 00:20:04,450

and he was nice enough to do that and

472

00:20:10,169 --> 00:20:08,140

that is a pretty interesting subtopic

473

00:20:12,740 --> 00:20:10,179

and it's very easy to find it that

474

00:20:16,770 --> 00:20:12,750

basically covers up the front page and

475

00:20:19,650 --> 00:20:16,780

that is a was a good starting point to

476

00:20:22,110 --> 00:20:19,660

get started on that aspect of things and

477

00:20:24,210 --> 00:20:22,120

also there's a history behind it

478

00:20:26,970 --> 00:20:24,220

jacques ballet has been involved in this

479

00:20:29,640 --> 00:20:26,980

quite heavily peter stearic going back

480

00:20:32,730 --> 00:20:29,650

in the day how put off as well basically

481

00:20:36,870 --> 00:20:32,740

what we've got is for scientists ballet

482

00:20:39,570 --> 00:20:36,880

put off Sturrock and nolan on the record

483

00:20:41,580 --> 00:20:39,580

saying that they have studied and have

484

00:20:45,169 --> 00:20:41,590

had it and we have or have had in their

485

00:20:48,360 --> 00:20:45,179

possession of these anomalous alloys and

486

00:20:51,120 --> 00:20:48,370

they can't at least a historic in his

487

00:20:54,240 --> 00:20:51,130

paper from the late nineties wrote he

488

00:20:55,409 --> 00:20:54,250

could not figure out where this the

489

00:20:57,089 --> 00:20:55,419

items that he had

490

00:20:59,069 --> 00:20:57,099

we're manufactured there's obviously

491

00:21:02,539 --> 00:20:59,079

some other things floating around but

492

00:21:05,430 --> 00:21:02,549

that is to me anyway a very interesting

493

00:21:06,690 --> 00:21:05,440

sub aspect somewhat limited in the

494

00:21:08,129 --> 00:21:06,700

information that we have

495

00:21:09,779 --> 00:21:08,139

it's a gotten to the point now where I

496

00:21:12,449 --> 00:21:09,789

would say the proof is sort of in the

497

00:21:14,039 --> 00:21:12,459

pudding they've got stuff let's see what

498

00:21:16,680 --> 00:21:14,049

they have to say when they release their

499

00:21:18,180 --> 00:21:16,690

stuff we know what Double A has said we

500

00:21:20,459 --> 00:21:18,190

know what Nolan said we know what stork

501
00:21:22,889 --> 00:21:20,469
said and put off as already said on the

502
00:21:26,279 --> 00:21:22,899
record for scientists they think they've

503
00:21:29,310 --> 00:21:26,289
got something grant you're sort of in a

504
00:21:34,289 --> 00:21:29,320
nutshell sum up of the materials aspect

505
00:21:35,579 --> 00:21:34,299
of all this yeah that well vali was

506
00:21:38,399 --> 00:21:35,589
talking about this a little bit earlier

507
00:21:41,909 --> 00:21:38,409
and so it sort of opened it up there was

508
00:21:43,499 --> 00:21:41,919
a lot of yes yeah and I had contact in

509
00:21:47,099 --> 00:21:43,509
the desert II did an hour-long

510
00:21:49,019 --> 00:21:47,109
presentation yeah and there was a lot of

511
00:21:53,369 --> 00:21:49,029
rumors started about Bigelow and about

512
00:21:55,619 --> 00:21:53,379
his you know the altering his you know

513
00:21:57,209 --> 00:21:55,629

his his facilities there in Las Vegas

514

00:21:59,009 --> 00:21:57,219

and I knew and that sort of been

515

00:22:00,359 --> 00:21:59,019

confirmed now was it had really nothing

516

00:22:02,789 --> 00:22:00,369

to do it's the fact that they suddenly

517

00:22:05,459 --> 00:22:02,799

moved the Roswell crash to the Bigelow

518

00:22:08,069 --> 00:22:05,469

Aerospace it was basically the fact that

519

00:22:11,369 --> 00:22:08,079

he had to update his his facilities to

520

00:22:13,259 --> 00:22:11,379

handle top-secret sei material in case

521

00:22:14,489 --> 00:22:13,269

he came his way you needed a skiff that

522

00:22:16,169 --> 00:22:14,499

he didn't have a skiff and yet that's

523

00:22:17,969 --> 00:22:16,179

where the alterations took place in

524

00:22:19,949 --> 00:22:17,979

order to have that contract so there was

525

00:22:21,119 --> 00:22:19,959

a lot of stuff and there was a lot of

526

00:22:22,949 --> 00:22:21,129

other rumors I'm just thinking of one

527

00:22:25,049 --> 00:22:22,959

other rumor that came out and that was

528

00:22:27,149 --> 00:22:25,059

that a lot of people sort of ignore

529

00:22:28,979 --> 00:22:27,159

their Washington Post and political but

530

00:22:30,329 --> 00:22:28,989

they were actually the the big ones it

531

00:22:32,039 --> 00:22:30,339

was actually the political that got the

532

00:22:34,289 --> 00:22:32,049

the conch it's a congressional thing

533

00:22:36,539 --> 00:22:34,299

going and it was the Washington Post guy

534

00:22:38,489 --> 00:22:36,549

had two Pulitzer Prizes and there was an

535

00:22:41,639 --> 00:22:38,499

interview I think was done by the guy

536

00:22:43,199 --> 00:22:41,649

from the the political who've announced

537

00:22:46,499 --> 00:22:43,209

right as the word go he was interviewed

538

00:22:48,479 --> 00:22:46,509

the day later by NPR the day or day two

539

00:22:50,279 --> 00:22:48,489

days later and he basically said there

540

00:22:52,190 --> 00:22:50,289

was a pilot programs and this is the

541

00:22:54,479 --> 00:22:52,200

latest sort of rumor that's run out that

542

00:22:56,099 --> 00:22:54,489

jeremy Korb has said there's going to

543

00:22:58,409 --> 00:22:56,109

be at least four programs i heard eight

544

00:23:00,089 --> 00:22:58,419

programs and this whole idea that this

545

00:23:01,379 --> 00:23:00,099

is not the only program this is a tip

546

00:23:03,329 --> 00:23:01,389

program and they're gonna drop the bomb

547

00:23:06,389 --> 00:23:03,339

on this but that was being said right on

548

00:23:08,279 --> 00:23:06,399

day one by the guy from from political

549

00:23:08,970 --> 00:23:08,289

and a lot of people just spent all the

550

00:23:10,680 --> 00:23:08,980

time watching

551
00:23:12,390 --> 00:23:10,690
New York Times story and I said actually

552
00:23:14,909 --> 00:23:12,400
in some ways the New York Times is the

553
00:23:16,740 --> 00:23:14,919
last ago they didn't put the story on on

554
00:23:18,780 --> 00:23:16,750
in their newspaper in the print edition

555
00:23:21,390 --> 00:23:18,790
until until the Sunday morning on the

556
00:23:23,700 --> 00:23:21,400
17th and so in some ways it was it was

557
00:23:25,080 --> 00:23:23,710
there were all the same time but in some

558
00:23:26,760 --> 00:23:25,090
ways the New York Times is the last to

559
00:23:30,120 --> 00:23:26,770
go and people I don't think have given

560
00:23:31,080 --> 00:23:30,130
enough reading of the other articles

561
00:23:32,820 --> 00:23:31,090
that were done by the other two News

562
00:23:34,860 --> 00:23:32,830
major newspapers that carried that story

563
00:23:36,750 --> 00:23:34,870

that day and that the New Yorker had

564

00:23:38,909 --> 00:23:36,760

electra follow up by they sat down with

565

00:23:40,470 --> 00:23:38,919

harry reid that was a good article there

566

00:23:42,060 --> 00:23:40,480

were quite a few other good articles

567

00:23:45,450 --> 00:23:42,070

that bless the story out a little bit

568

00:23:47,789 --> 00:23:45,460

but moving along i on day one the bomb

569

00:23:50,220 --> 00:23:47,799

drops then on day two it was the easiest

570

00:23:53,820 --> 00:23:50,230

prediction in the world that the the

571

00:23:56,190 --> 00:23:53,830

foia requests would start and there be

572

00:23:57,659 --> 00:23:56,200

an avalanche of FOIA requests that was

573

00:23:58,860 --> 00:23:57,669

the easiest prediction in the world to

574

00:24:02,400 --> 00:23:58,870

make it in terms of what's going to

575

00:24:06,830 --> 00:24:02,410

happen next and one of the key stories

576

00:24:10,260 --> 00:24:06,840

of this is in terms of FOIA requests a

577

00:24:12,000 --> 00:24:10,270

lot of researchers ran into a brick wall

578

00:24:13,310 --> 00:24:12,010

and quite frankly they weren't too happy

579

00:24:18,270 --> 00:24:13,320

about it

580

00:24:20,909 --> 00:24:18,280

anybody have any comments on that i can

581

00:24:22,980 --> 00:24:20,919

make a comment I immediately went to to

582

00:24:24,690 --> 00:24:22,990

Damon steer Danish here was the guy who

583

00:24:26,940 --> 00:24:24,700

asked Hillary Clinton a UFO question

584

00:24:28,409 --> 00:24:26,950

when Podesta said ask Hillary about the

585

00:24:30,090 --> 00:24:28,419

aliens he was the first guy from New

586

00:24:32,490 --> 00:24:30,100

Hampshire to ask Hillary the question I

587

00:24:34,260 --> 00:24:32,500

immediately went after him and I said

588

00:24:35,460 --> 00:24:34,270

file enough away let's get you the way

589

00:24:37,500 --> 00:24:35,470

this game is played you got to get in

590

00:24:38,970 --> 00:24:37,510

the front of the line and he phoned and

591

00:24:40,440 --> 00:24:38,980

that's when I started to realize it's

592

00:24:42,600 --> 00:24:40,450

the same game they've been playing for

593

00:24:44,370 --> 00:24:42,610

50 years he comes back to me and he said

594

00:24:46,799 --> 00:24:44,380

I talk he he didn't know where they

595

00:24:49,020 --> 00:24:46,809

should file a boy how should do it sir

596

00:24:50,700 --> 00:24:49,030

stuff I said just file just gonna do

597

00:24:53,370 --> 00:24:50,710

what she can to file a thing get in and

598

00:24:55,049 --> 00:24:53,380

get in the front of the line and so he

599

00:24:56,520 --> 00:24:55,059

phoned the Pentagon to find out what the

600

00:25:00,030 --> 00:24:56,530

procedure who he should be talking to

601
00:25:01,919 --> 00:25:00,040
and he was told by the Pentagon I can

602
00:25:04,169 --> 00:25:01,929
tell I can assure you mr. steer we do

603
00:25:05,700 --> 00:25:04,179
not we did not release any videos and as

604
00:25:07,380 --> 00:25:05,710
soon as I heard that and he came back

605
00:25:08,940 --> 00:25:07,390
with that I got other they're doing the

606
00:25:10,380 --> 00:25:08,950
same thing again it's this plausible

607
00:25:12,000 --> 00:25:10,390
deniability thing you drop it out there

608
00:25:13,950 --> 00:25:12,010
but nobody's gonna confirm it and that

609
00:25:16,010 --> 00:25:13,960
basically got verified by the fact that

610
00:25:19,270 --> 00:25:16,020
you know the Washington Post used

611
00:25:22,430 --> 00:25:19,280
aviation political used aviation

612
00:25:24,590 --> 00:25:22,440
time's use aerospace and you started to

613
00:25:25,669 --> 00:25:24,600

see this this game where you couldn't

614

00:25:28,100 --> 00:25:25,679

get the documents you couldn't get the

615

00:25:29,539 --> 00:25:28,110

videos and everybody's running around

616

00:25:31,159 --> 00:25:29,549

bumping into each other accusing each

617

00:25:32,840 --> 00:25:31,169

other of you know getting the wrong name

618

00:25:35,900 --> 00:25:32,850

and all this kind of stuff and it was

619

00:25:37,220 --> 00:25:35,910

you drop it into the public but you you

620

00:25:39,740 --> 00:25:37,230

throw mud in the water while you're

621

00:25:41,210 --> 00:25:39,750

doing it and everybody can't confirm

622

00:25:44,030 --> 00:25:41,220

that this is for real and the story gets

623

00:25:46,010 --> 00:25:44,040

out well one way to get around the foyer

624

00:25:47,210 --> 00:25:46,020

requests of course is to ask direct

625

00:25:52,490 --> 00:25:47,220

questions to the people directly

626
00:25:54,799 --> 00:25:52,500
involved and in February roughly 60 days

627
00:25:58,250 --> 00:25:54,809
after the story broke and roughly which

628
00:26:01,580 --> 00:25:58,260
was roughly 60 days after the initial to

629
00:26:05,230 --> 00:26:01,590
the Stars Academy rollout a presentation

630
00:26:09,020 --> 00:26:05,240
that they did it was a Lewis Elizondo

631
00:26:11,450 --> 00:26:09,030
was slated to appear at the UFO Congress

632
00:26:13,730 --> 00:26:11,460
he was going to be there live in person

633
00:26:16,430 --> 00:26:13,740
and people leading up to that were

634
00:26:17,690 --> 00:26:16,440
thinking great 60 days had he's gonna

635
00:26:20,870 --> 00:26:17,700
bring something he's not going to go to

636
00:26:22,400 --> 00:26:20,880
the UFO Congress empty-handed but he's

637
00:26:22,610 --> 00:26:22,410
gonna have another bombshell for all of

638
00:26:24,620 --> 00:26:22,620

us

639

00:26:28,220 --> 00:26:24,630

but that is not exactly what happened

640

00:26:30,620 --> 00:26:28,230

does it grant camera yeah well that

641

00:26:33,140 --> 00:26:30,630

that's what I had heard we had um we had

642

00:26:35,750 --> 00:26:33,150

been involved with semi van there was a

643

00:26:37,070 --> 00:26:35,760

set up with some van and when Lewton

644

00:26:38,150 --> 00:26:37,080

melinda leslie my friend she told me

645

00:26:39,530 --> 00:26:38,160

this was interview is gonna take place

646

00:26:42,590 --> 00:26:39,540

and what do you want to ask him and all

647

00:26:46,010 --> 00:26:42,600

her stuff and what he told her was that

648

00:26:47,990 --> 00:26:46,020

the reason that lou didn't go to the

649

00:26:50,120 --> 00:26:48,000

congress is because john alexander had

650

00:26:52,100 --> 00:26:50,130

said there's no point in you going there

651
00:26:53,900 --> 00:26:52,110
because you're just gonna get asked a

652
00:26:55,130 --> 00:26:53,910
bunch of hardball questions and when you

653
00:26:57,470 --> 00:26:55,140
answer them nobody's gonna believe you

654
00:27:00,830 --> 00:26:57,480
anyway and so when they first started

655
00:27:02,090 --> 00:27:00,840
they started this this game of you

656
00:27:03,470 --> 00:27:02,100
couldn't get anybody for an interview i

657
00:27:05,240 --> 00:27:03,480
know a lot of people are asking me for

658
00:27:07,970 --> 00:27:05,250
podcasts can you put me a link with

659
00:27:09,169 --> 00:27:07,980
these people and they were doing CNN and

660
00:27:11,419 --> 00:27:09,179
all these but these people don't know

661
00:27:14,030 --> 00:27:11,429
what's going on they would not do any to

662
00:27:15,980 --> 00:27:14,040
say like you or like you know some of

663
00:27:17,450 --> 00:27:15,990

the people that are doing podcasts who

664

00:27:19,400 --> 00:27:17,460

are gonna ask all sorts of really

665

00:27:21,350 --> 00:27:19,410

difficult questions and so for the first

666

00:27:22,490 --> 00:27:21,360

while they played the game where you

667

00:27:25,610 --> 00:27:22,500

couldn't get anybody for an interview

668

00:27:26,960 --> 00:27:25,620

and that's where why Lou didn't from

669

00:27:29,330 --> 00:27:26,970

what I was told Lou didn't show up as he

670

00:27:31,930 --> 00:27:29,340

was basically told not to yeah well he

671

00:27:33,639 --> 00:27:31,940

did yeah he did I video

672

00:27:35,230 --> 00:27:33,649

interview with George Knapp where I

673

00:27:36,730 --> 00:27:35,240

basically Georgia I ran some

674

00:27:38,560 --> 00:27:36,740

pre-screened questions at him that's

675

00:27:39,879 --> 00:27:38,570

what actually ended up happening yeah

676

00:27:42,460 --> 00:27:39,889

and that that's where you come into this

677

00:27:44,289 --> 00:27:42,470

society is there embedded journalists so

678

00:27:46,029 --> 00:27:44,299

I mean they they're going to certain

679

00:27:48,340 --> 00:27:46,039

people so they're going to let the cane

680

00:27:52,990 --> 00:27:48,350

they're going to you know George Knapp

681

00:27:54,549 --> 00:27:53,000

they're going to Jeremy Korb and stuff

682

00:27:56,950 --> 00:27:54,559

but other researchers they're not

683

00:27:58,360 --> 00:27:56,960

they're not or other reporters they're

684

00:28:00,549 --> 00:27:58,370

not dealing with and that's what they

685

00:28:02,619 --> 00:28:00,559

they will always do and even with now

686

00:28:04,119 --> 00:28:02,629

what you see now is is their briefing

687

00:28:05,830 --> 00:28:04,129

certain people I mean James tells a

688

00:28:07,840 --> 00:28:05,840

story about somebody I'm friend of mine

689

00:28:09,190 --> 00:28:07,850

was briefed John John Burroughs talks

690

00:28:10,690 --> 00:28:09,200

about being briefed that they're

691

00:28:12,430 --> 00:28:10,700

actually going to certain researchers

692

00:28:13,720 --> 00:28:12,440

and briefing them as to what's about to

693

00:28:15,909 --> 00:28:13,730

happen what's going to come and that

694

00:28:20,320 --> 00:28:15,919

sort of stuff and it's that sort of

695

00:28:22,570 --> 00:28:20,330

carefully trying to manage the story do

696

00:28:24,759 --> 00:28:22,580

the PR thing which I guess DeLong as

697

00:28:26,799 --> 00:28:24,769

part of is how do you roll the story out

698

00:28:29,379 --> 00:28:26,809

without having it sort of blow up in

699

00:28:31,480 --> 00:28:29,389

your face well I'm gonna jump ahead to a

700

00:28:33,879 --> 00:28:31,490

July I'm gonna we'll go back to

701

00:28:34,869 --> 00:28:33,889

chronological order but later on in the

702

00:28:36,970 --> 00:28:34,879

year in July

703

00:28:38,799 --> 00:28:36,980

Elizondo was booked essentially to do

704

00:28:42,220 --> 00:28:38,809

the same thing at the MUFON national

705

00:28:44,230 --> 00:28:42,230

conference in New Jersey and he did show

706

00:28:46,570 --> 00:28:44,240

up for that he did appear live he did

707

00:28:49,110 --> 00:28:46,580

take questions some very tough ones

708

00:28:52,269 --> 00:28:49,120

including from Professor Kevin Knuth

709

00:28:55,110 --> 00:28:52,279

physics professor from SUNY Albany

710

00:28:57,519 --> 00:28:55,120

you took live questions he hung in there

711

00:28:59,590 --> 00:28:57,529

any thoughts on why there might have

712

00:29:01,360 --> 00:28:59,600

been a change in that strategy because

713

00:29:03,580 --> 00:29:01,370

he did exactly what he said he was going

714

00:29:06,580 --> 00:29:03,590

to do but then didn't at the last minute

715

00:29:08,499 --> 00:29:06,590

back in February for the UFO Congress he

716

00:29:11,590 --> 00:29:08,509

talked he was live and he delivered that

717

00:29:13,149 --> 00:29:11,600

the MUFON national conference well I can

718

00:29:15,850 --> 00:29:13,159

make I can make one comment and let

719

00:29:17,320 --> 00:29:15,860

other people answer it he was pulled

720

00:29:18,820 --> 00:29:17,330

though his story you may not know is

721

00:29:23,710 --> 00:29:18,830

that they were gonna do a fundraiser

722

00:29:25,090 --> 00:29:23,720

event at MUFON and he was pulled like a

723

00:29:27,310 --> 00:29:25,100

couple of minutes before this thing it

724

00:29:29,499 --> 00:29:27,320

began Tom DeLonge phoned up and said

725

00:29:31,749 --> 00:29:29,509

we're not going to do a pay-to-play and

726

00:29:33,100 --> 00:29:31,759

he's to be pulled he's not to do this

727

00:29:34,659 --> 00:29:33,110

thing and they said well it's really

728

00:29:36,549 --> 00:29:34,669

good nothing do it to the stars this

729

00:29:38,049 --> 00:29:36,559

just a fundraiser for MUFON and that

730

00:29:41,409 --> 00:29:38,059

event he did not attend so there still

731

00:29:45,700 --> 00:29:41,419

was some control over who he talked to

732

00:29:48,730 --> 00:29:45,710

and what he said God uh then that's a

733

00:29:50,830 --> 00:29:48,740

time passed and in March out comes an

734

00:29:53,669 --> 00:29:50,840

opinion piece from Christopher Mellon

735

00:29:57,760 --> 00:29:53,679

former Undersecretary of Defense and

736

00:30:00,310 --> 00:29:57,770

also working for the to the stars

737

00:30:04,139 --> 00:30:00,320

Academy now he writes a very lengthy

738

00:30:05,919 --> 00:30:04,149

piece in The Washington Post and also

739

00:30:08,710 --> 00:30:05,929

simultaneously with all that an

740

00:30:12,340 --> 00:30:08,720

additional third video comes out the

741

00:30:14,230 --> 00:30:12,350

go-fast video and does anyone have any

742

00:30:17,470 --> 00:30:14,240

thoughts on the the Mellon piece and

743

00:30:20,919 --> 00:30:17,480

everything around that well what if

744

00:30:23,350 --> 00:30:20,929

Mellon points points his Washington Post

745

00:30:25,810 --> 00:30:23,360

article is that multiple US agencies are

746

00:30:27,430 --> 00:30:25,820

not acting concerned or taking the

747

00:30:30,789 --> 00:30:27,440

subject of unidentified aircraft

748

00:30:33,100 --> 00:30:30,799

seriously enough and he also says there

749

00:30:35,350 --> 00:30:33,110

is no Pentagon process for synthesizing

750

00:30:37,450 --> 00:30:35,360

all the observations and military is

751

00:30:40,180 --> 00:30:37,460

making which are all great points

752

00:30:41,950 --> 00:30:40,190

however I do think it's possible the

753

00:30:43,779 --> 00:30:41,960

Pentagon does take these kinds of things

754

00:30:48,010 --> 00:30:43,789

seriously regarding unidentified

755

00:30:50,110 --> 00:30:48,020

aircrafts but they don't share their

756

00:30:53,380 --> 00:30:50,120

concerns or data with every US

757

00:30:55,149 --> 00:30:53,390

Department in other words unless you're

758

00:30:57,399 --> 00:30:55,159

in their circle of the need-to-know you

759

00:31:00,010 --> 00:30:57,409

know air quotes here then you don't need

760

00:31:01,990 --> 00:31:00,020

to the US government has a history of

761

00:31:05,590 --> 00:31:02,000

having undisclosed top-secret

762

00:31:08,200 --> 00:31:05,600

departments that other US departments

763

00:31:09,940 --> 00:31:08,210

are and have been unaware of this kind

764

00:31:12,519 --> 00:31:09,950
of coveting of information by the

765

00:31:15,909 --> 00:31:12,529
Pentagon has happened for decades now I

766

00:31:18,220 --> 00:31:15,919
realize Elizondo used to run a Pentagon

767

00:31:20,799 --> 00:31:18,230
intelligence program that examined the

768

00:31:22,840 --> 00:31:20,809
evidence of anomalous aircraft but

769

00:31:24,789 --> 00:31:22,850
whatever until they gathered may have

770

00:31:27,909 --> 00:31:24,799
ended up in one of those cleanses

771

00:31:30,279 --> 00:31:27,919
clandestine you know seriously run

772

00:31:32,500 --> 00:31:30,289
government agencies one of those

773

00:31:35,799 --> 00:31:32,510
top-secret departments run by the US

774

00:31:37,870 --> 00:31:35,809
Naval Intelligence is area 51 where I

775

00:31:39,960 --> 00:31:37,880
believe they would actively take part in

776

00:31:42,490 --> 00:31:39,970

taking any intelligence gathered

777

00:31:44,500 --> 00:31:42,500

part-and-parcel and use it for some of

778

00:31:48,760 --> 00:31:44,510

the defense technology and aircrafts we

779

00:31:50,740 --> 00:31:48,770

see today I just want to continue on

780

00:31:53,230 --> 00:31:50,750

here again I think if the US government

781

00:31:55,629 --> 00:31:53,240

takes a time to build these teams to

782

00:31:57,430 --> 00:31:55,639

monitor not only our airspace for

783

00:31:58,930 --> 00:31:57,440

threats of any kind they would most

784

00:32:00,550 --> 00:31:58,940

probably have a

785

00:32:02,640 --> 00:32:00,560

apartment dedicated to actively

786

00:32:04,510 --> 00:32:02,650

researching and compiling evidence for

787

00:32:06,430 --> 00:32:04,520

unidentified aircraft

788

00:32:07,660 --> 00:32:06,440

I just don't think melon was privy to

789

00:32:09,490 --> 00:32:07,670

all of these top-secret government

790

00:32:12,280 --> 00:32:09,500

agencies you know it's just a guess

791

00:32:15,250 --> 00:32:12,290

otherwise for example what is area 51

792

00:32:18,490 --> 00:32:15,260

for supposedly together we don't

793

00:32:20,560 --> 00:32:18,500

understand the physics up God and the

794

00:32:22,840 --> 00:32:20,570

go-fast video came out that Dave earlier

795

00:32:24,960 --> 00:32:22,850

in the show you had mentioned some of

796

00:32:28,270 --> 00:32:24,970

the the controversy surrounding that

797

00:32:31,720 --> 00:32:28,280

won't you tell us your opinions on that

798

00:32:33,880 --> 00:32:31,730

go fast video uh yeah and just I'm

799

00:32:35,850 --> 00:32:33,890

circling back to Chris melon you know

800

00:32:38,050 --> 00:32:35,860

one of the things that I thought

801
00:32:40,660 --> 00:32:38,060
immediately was like okay who was this

802
00:32:43,870 --> 00:32:40,670
guy and then I was like oh he's on the

803
00:32:45,280 --> 00:32:43,880
former United States Secretary assistant

804
00:32:47,050 --> 00:32:45,290
secretary of defense for intelligence

805
00:32:49,990 --> 00:32:47,060
and then later for security and

806
00:32:52,540 --> 00:32:50,000
information operations so you would

807
00:32:54,970 --> 00:32:52,550
think that he would be the guy that kind

808
00:32:58,030 --> 00:32:54,980
of had the inside scoop and he was

809
00:33:00,760 --> 00:32:58,040
almost pleading frustration saying that

810
00:33:02,680 --> 00:33:00,770
nobody wants to be the alien guy in the

811
00:33:04,720 --> 00:33:02,690
national security bureaucracy nobody

812
00:33:06,760 --> 00:33:04,730
wants to get ridiculed and it has a

813
00:33:09,700 --> 00:33:06,770

serious reoccurring impediment to

814

00:33:12,100 --> 00:33:09,710

progress and it's time you set aside the

815

00:33:13,540 --> 00:33:12,110

taboos and instead listen to the pilots

816

00:33:16,090 --> 00:33:13,550

and radar operators it's almost like he

817

00:33:19,180 --> 00:33:16,100

was pleading with his former colleagues

818

00:33:21,280 --> 00:33:19,190

to you know come on let's take this

819

00:33:24,460 --> 00:33:21,290

seriously for once and I don't know if

820

00:33:27,820 --> 00:33:24,470

that's the actual you know overall

821

00:33:30,160 --> 00:33:27,830

feeling within the bad office but it

822

00:33:33,690 --> 00:33:30,170

seemed to be from that article so that

823

00:33:36,220 --> 00:33:33,700

was my little take on it now go fast

824

00:33:39,970 --> 00:33:36,230

that was the one that was released by to

825

00:33:42,760 --> 00:33:39,980

the stars correct that wasn't released

826

00:33:44,170 --> 00:33:42,770

in the initial well yeah well it got out

827

00:33:46,870 --> 00:33:44,180

the same day that the Mellon's story

828

00:33:50,140 --> 00:33:46,880

came out you know who actually releases

829

00:33:51,520 --> 00:33:50,150

these and yeah to me Ivan to be honest

830

00:33:54,520 --> 00:33:51,530

with you follow that closely I rely on

831

00:33:56,140 --> 00:33:54,530

you guys to fill me in on all those

832

00:33:58,870 --> 00:33:56,150

details I tell you the proof is in the

833

00:34:00,850 --> 00:33:58,880

pudding I think so I think that that one

834

00:34:02,680 --> 00:34:00,860

was the one that was kind of first

835

00:34:05,680 --> 00:34:02,690

broadcast on their website on their

836

00:34:07,450 --> 00:34:05,690

community of interest website and the

837

00:34:09,340 --> 00:34:07,460

initial people that were looking at it I

838

00:34:11,800 --> 00:34:09,350

mean there was a lot of the debunkers

839

00:34:13,540 --> 00:34:11,810

like mixed rest I was saying

840

00:34:16,480 --> 00:34:13,550

it was a parallax effect that he thought

841

00:34:18,550 --> 00:34:16,490

it was a bird mm-hmm right he thought it

842

00:34:21,520 --> 00:34:18,560

was a bird or some type of balloon and

843

00:34:24,640 --> 00:34:21,530

there there's a surprising lack of

844

00:34:27,640 --> 00:34:24,650

information in these FLIR videos it's

845

00:34:29,770 --> 00:34:27,650

very very difficult to do the image

846

00:34:32,350 --> 00:34:29,780

analysis and try to figure out the

847

00:34:35,740 --> 00:34:32,360

actual position of the CH at the speed

848

00:34:38,290 --> 00:34:35,750

of the jet and then doing the the math

849

00:34:40,510 --> 00:34:38,300

and you know to actually come up with

850

00:34:44,590 --> 00:34:40,520

the size and space of this object or

851
00:34:47,590 --> 00:34:44,600
seeing from what I gather is the latest

852
00:34:49,600 --> 00:34:47,600
information if they believe that the jet

853
00:34:53,170 --> 00:34:49,610
was probably traveling at about 370

854
00:34:56,260 --> 00:34:53,180
knots and on a pretty straight course

855
00:34:57,790 --> 00:34:56,270
and that the go-fast object may have

856
00:35:01,660 --> 00:34:57,800
been an object that could have been

857
00:35:03,940 --> 00:35:01,670
about six feet seven lengths and may

858
00:35:06,790 --> 00:35:03,950
have been traveling at a rate of 70

859
00:35:08,740 --> 00:35:06,800
miles an hour so well yeah that fits

860
00:35:11,980 --> 00:35:08,750
well into a bird every night that could

861
00:35:14,440 --> 00:35:11,990
definitely be a big sea bird yes but I

862
00:35:17,200 --> 00:35:14,450
believe there's an acceleration that's

863
00:35:19,180 --> 00:35:17,210

unaccounted for Frank so you know bird

864

00:35:23,320 --> 00:35:19,190

might not go be able to go to that speed

865

00:35:25,360 --> 00:35:23,330

that fast from a you know but again it's

866

00:35:27,100 --> 00:35:25,370

not the greatest video is a proof of

867

00:35:28,240 --> 00:35:27,110

anything unfortunately I think you have

868

00:35:30,970 --> 00:35:28,250

to take everything else into

869

00:35:33,280 --> 00:35:30,980

consideration so right right now there

870

00:35:34,840 --> 00:35:33,290

were two videos released the previous

871

00:35:37,360 --> 00:35:34,850

December which we've talked about though

872

00:35:40,300 --> 00:35:37,370

the one is tied to the Nimitz case the

873

00:35:45,310 --> 00:35:40,310

other is not and listening to the sound

874

00:35:47,500 --> 00:35:45,320

on that that is the the gimbal the the

875

00:35:53,460 --> 00:35:47,510

FLIR is the video tied to the Nimitz

876

00:35:56,230 --> 00:35:53,470

case unless I've got that wrong I guess

877

00:35:59,830 --> 00:35:56,240

there's audio on go-fast an audio on

878

00:36:02,320 --> 00:35:59,840

gimble right right right and it seems to

879

00:36:04,690 --> 00:36:02,330

me that is the exact same voice on both

880

00:36:08,080 --> 00:36:04,700

of those videos that fellow who says my

881

00:36:11,170 --> 00:36:08,090

gosh and you believe that those two are

882

00:36:14,410 --> 00:36:11,180

connected to this Florida coast incident

883

00:36:16,420 --> 00:36:14,420

in 2015 is that correct Davis yeah I

884

00:36:18,430 --> 00:36:16,430

mean we're pretty sure I mean we don't

885

00:36:21,340 --> 00:36:18,440

have definitive evidence of witness

886

00:36:24,340 --> 00:36:21,350

testimony that those two videos are from

887

00:36:25,630 --> 00:36:24,350

that same incident but that's the same

888

00:36:27,279 --> 00:36:25,640

the voice is exactly

889

00:36:30,009 --> 00:36:27,289

same it's the same guy using the same

890

00:36:32,680 --> 00:36:30,019

expression I would love to get like some

891

00:36:34,930 --> 00:36:32,690

kind of voice analysis expert that is

892

00:36:36,549 --> 00:36:34,940

used in forensic cases that would be

893

00:36:38,349 --> 00:36:36,559

cold Oh like if they could definitively

894

00:36:39,910 --> 00:36:38,359

say out that's the same guy because I'm

895

00:36:46,089 --> 00:36:39,920

not sure but maybe it is you know it

896

00:36:49,410 --> 00:36:46,099

sounds like it to me anyway point out

897

00:36:52,630 --> 00:36:49,420

Frank is regarding that go fast video

898

00:36:55,420 --> 00:36:52,640

the TTS a on their website does indicate

899

00:36:57,759 --> 00:36:55,430

that they were the first in a copy of it

900

00:36:59,769 --> 00:36:57,769

but that if anybody wants to get it they

901
00:37:04,930 --> 00:36:59,779
have to go ahead and file a FOIA request

902
00:37:07,630 --> 00:37:04,940
work okay okay and you know it's the UFO

903
00:37:10,450 --> 00:37:07,640
field so yeah of course we have to have

904
00:37:14,859 --> 00:37:10,460
some drama you know always always the

905
00:37:16,150 --> 00:37:14,869
drama also in March the Gary Nolan

906
00:37:21,160 --> 00:37:16,160
Atacama

907
00:37:24,759 --> 00:37:21,170
mummy study was properly published that

908
00:37:27,609 --> 00:37:24,769
story goes back a little ways initially

909
00:37:31,089 --> 00:37:27,619
it got a lot of attention as a segment

910
00:37:34,749 --> 00:37:31,099
of Steven Greer's serious documentary at

911
00:37:36,670 --> 00:37:34,759
that time Nolan was able to do some

912
00:37:39,809 --> 00:37:36,680
preliminary studies and certainly

913
00:37:44,220 --> 00:37:39,819

determined that the remains were human

914

00:37:46,720 --> 00:37:44,230

but well I shouldn't say but Greer

915

00:37:49,779 --> 00:37:46,730

basically used those preliminary

916

00:37:52,809 --> 00:37:49,789

findings I gave Gary about five minutes

917

00:37:54,970 --> 00:37:52,819

of his own to go through them and that

918

00:37:59,650 --> 00:37:54,980

was the last that the attic camera mummy

919

00:38:01,960 --> 00:37:59,660

was mentioned in that movie they sort of

920

00:38:04,329 --> 00:38:01,970

attacked it in bits and pieces and my

921

00:38:05,890 --> 00:38:04,339

led up to that and basically no one said

922

00:38:08,829 --> 00:38:05,900

now it's human it's not an alien

923

00:38:11,499 --> 00:38:08,839

whatsoever but this study comes out and

924

00:38:13,809 --> 00:38:11,509

that Greer decides to a jump all over it

925

00:38:16,210 --> 00:38:13,819

starts making claims about the integrity

926
00:38:19,499 --> 00:38:16,220
of Stanford University and about Nolan

927
00:38:21,490 --> 00:38:19,509
in particular and my understanding is

928
00:38:23,920 --> 00:38:21,500
there were a lot of people who were very

929
00:38:25,900 --> 00:38:23,930
unhappy over all that but not just Gary

930
00:38:28,779 --> 00:38:25,910
Nolan they weren't happy about that at

931
00:38:31,930 --> 00:38:28,789
all but Greer kind of stuck to his guns

932
00:38:34,420 --> 00:38:31,940
in that kept ripping and also excited

933
00:38:38,440 --> 00:38:34,430
that he had information criticisms from

934
00:38:39,250 --> 00:38:38,450
a pioneer in DNA research from Caltech

935
00:38:43,480 --> 00:38:39,260
who

936
00:38:45,460 --> 00:38:43,490
basically tech to death the process that

937
00:38:47,079 --> 00:38:45,470
they use my feeling is there's no

938
00:38:51,220 --> 00:38:47,089

question in my mind it's a human being

939

00:38:55,710 --> 00:38:51,230

and unfortunate a fetus that suffered

940

00:38:57,970 --> 00:38:55,720

all manner of apparently genetic defects

941

00:39:00,579 --> 00:38:57,980

to me there's no question about that in

942

00:39:03,420 --> 00:39:00,589

my mind but that greer suddenly even

943

00:39:05,980 --> 00:39:03,430

after allowing nolan to do his

944

00:39:08,140 --> 00:39:05,990

presentation during the serious

945

00:39:09,130 --> 00:39:08,150

documentary coming out and saying that

946

00:39:13,270 --> 00:39:09,140

is ridiculous

947

00:39:16,960 --> 00:39:13,280

my feeling is that that that the the

948

00:39:19,960 --> 00:39:16,970

Caltech DNA pioneer researcher was a

949

00:39:21,910 --> 00:39:19,970

fella by the name of Horace drew he does

950

00:39:25,930 --> 00:39:21,920

fit the profile as far as being at

951
00:39:28,000 --> 00:39:25,940
Caltech researching DNA also he's pretty

952
00:39:30,339 --> 00:39:28,010
well left the field he relocated to

953
00:39:33,730 --> 00:39:30,349
Australia and has become a crop circle

954
00:39:35,770 --> 00:39:33,740
research researcher he fits the profile

955
00:39:38,650 --> 00:39:35,780
and it seems to me like he would be the

956
00:39:41,140 --> 00:39:38,660
guy I've never heard any other name put

957
00:39:43,839 --> 00:39:41,150
out there as possibly being a better fit

958
00:39:46,359 --> 00:39:43,849
for Greer's description but that created

959
00:39:49,720 --> 00:39:46,369
some drama I grant that did you have any

960
00:39:51,880 --> 00:39:49,730
thoughts about all that I'm not quite as

961
00:39:55,720 --> 00:39:51,890
sure about the whole analysis that you

962
00:39:58,569 --> 00:39:55,730
have there was a there was a a number of

963
00:40:02,260 --> 00:39:58,579

things number one various connection to

964

00:40:04,690 --> 00:40:02,270

Pandolfi I interviewed this woman from

965

00:40:06,640 --> 00:40:04,700

Spain who was involved when they did the

966

00:40:09,609 --> 00:40:06,650

DNA thing she was talking about these

967

00:40:11,530 --> 00:40:09,619

live beings that people had you may know

968

00:40:14,200 --> 00:40:11,540

the Russians had one that was on video

969

00:40:16,780 --> 00:40:14,210

they had a similar being and it goes

970

00:40:19,089 --> 00:40:16,790

back to this thing where all these

971

00:40:22,180 --> 00:40:19,099

things they they really seemed to

972

00:40:23,920 --> 00:40:22,190

unravel and then somebody else hoax and

973

00:40:25,569 --> 00:40:23,930

every runs for the hills and they just

974

00:40:28,870 --> 00:40:25,579

everybody just runs on to the next story

975

00:40:31,960 --> 00:40:28,880

there was eight people on that release

976

00:40:35,200 --> 00:40:31,970

of that paper saying that it was that it

977

00:40:38,800 --> 00:40:35,210

was a human fetus not all of the people

978

00:40:40,990 --> 00:40:38,810

agreed and you also had the situation

979

00:40:45,150 --> 00:40:41,000

where there was all these rumors stories

980

00:40:47,950 --> 00:40:45,160

where Nolan had phoned and and told this

981

00:40:49,630 --> 00:40:47,960

the guy that claimed that 3,000 alien

982

00:40:50,920 --> 00:40:49,640

autopsy things that that they were going

983

00:40:52,569 --> 00:40:50,930

to alter the numbers that we were

984

00:40:55,089 --> 00:40:52,579

changing the numbers were

985

00:40:58,059 --> 00:40:55,099

we're putting this from Mary Smith Emory

986

00:40:59,709 --> 00:40:58,069

Emory Smith so Emory Smith is on that

987

00:41:00,999 --> 00:40:59,719

paper as well his name is on that final

988

00:41:02,499 --> 00:41:01,009

release to the paper he didn't agree

989

00:41:05,049 --> 00:41:02,509

with that it's one of these things oh

990

00:41:06,699 --> 00:41:05,059

yeah yeah yeah but grant that Emory

991

00:41:10,269 --> 00:41:06,709

Smith I did get a credit on it

992

00:41:14,169 --> 00:41:10,279

he took the photograph of the remains

993

00:41:19,059 --> 00:41:14,179

you got a fun to pull the DNA from the

994

00:41:21,160 --> 00:41:19,069

body instead yeah yes yes yes but well

995

00:41:22,479 --> 00:41:21,170

he doesn't agree it's it's it's one of

996

00:41:24,279 --> 00:41:22,489

these things where it's just a big

997

00:41:25,449 --> 00:41:24,289

controversy and one of the things is

998

00:41:27,069 --> 00:41:25,459

like with the videos the same thing of

999

00:41:28,870 --> 00:41:27,079

the videos as soon as I heard the noise

1000

00:41:30,849 --> 00:41:28,880

this vacuum cleaner noise I phoned John

1001
00:41:33,459 --> 00:41:30,859
earlier I said John does they have this

1002
00:41:36,249 --> 00:41:33,469
kind of noise in an jet if you've got a

1003
00:41:38,259 --> 00:41:36,259
mask on if you're sealed off and the

1004
00:41:40,269 --> 00:41:38,269
voice and then Ron Pandolfi said this

1005
00:41:42,160 --> 00:41:40,279
was done in front of a simulator he

1006
00:41:44,169 --> 00:41:42,170
immediately said as soon as that I am

1007
00:41:46,569 --> 00:41:44,179
December 16th as soon as I went there he

1008
00:41:47,289 --> 00:41:46,579
said the video is a hoax the whole

1009
00:41:49,419 --> 00:41:47,299
thing's a hoax

1010
00:41:51,099 --> 00:41:49,429
and it's the same game that they're

1011
00:41:53,229 --> 00:41:51,109
playing all the time as is they release

1012
00:41:54,999 --> 00:41:53,239
it if they wanted to convince the UFO

1013
00:41:56,289 --> 00:41:55,009

community they would release the whole

1014

00:41:57,880 --> 00:41:56,299

video they would give you the stuff

1015

00:41:59,199 --> 00:41:57,890

there they're not trying to convince you

1016

00:42:01,179 --> 00:41:59,209

of whole community in fact this whole

1017

00:42:03,370 --> 00:42:01,189

thing as I said the UFO community has

1018

00:42:05,469 --> 00:42:03,380

been fired they couldn't care less about

1019

00:42:08,109 --> 00:42:05,479

whether you or I or anybody believes

1020

00:42:09,640 --> 00:42:08,119

these videos the videos are there just

1021

00:42:10,630 --> 00:42:09,650

to impress the public that's why they

1022

00:42:12,519 --> 00:42:10,640

went to the New York Times and

1023

00:42:14,529 --> 00:42:12,529

Washington Post and political instead of

1024

00:42:16,569 --> 00:42:14,539

coming to the UFO community is they're

1025

00:42:18,549 --> 00:42:16,579

trying to shift the swing voters in the

1026
00:42:19,630 --> 00:42:18,559
population in order to get money from

1027
00:42:21,640 --> 00:42:19,640
Congress think it couldn't care less

1028
00:42:23,019 --> 00:42:21,650
what you and I if they wanted you and I

1029
00:42:25,120 --> 00:42:23,029
to believe the whole thing they would

1030
00:42:26,829 --> 00:42:25,130
actually fill in the blanks and give us

1031
00:42:28,419 --> 00:42:26,839
all the data they wouldn't release these

1032
00:42:31,089 --> 00:42:28,429
little snippets of videos that have

1033
00:42:33,069 --> 00:42:31,099
bizarre little voices on them and noise

1034
00:42:34,509 --> 00:42:33,079
and stuff like that to me it's the same

1035
00:42:36,219 --> 00:42:34,519
game they've been playing all the time

1036
00:42:37,599 --> 00:42:36,229
it's this sort of you put it out it's

1037
00:42:40,029 --> 00:42:37,609
half true half false

1038
00:42:42,009 --> 00:42:40,039

there's also some little things and the

1039

00:42:43,329 --> 00:42:42,019

skeptics will pick up on it and jump on

1040

00:42:45,069 --> 00:42:43,339

the story and everybody will run away

1041

00:42:46,569 --> 00:42:45,079

from the story and it just sort of gets

1042

00:42:48,099 --> 00:42:46,579

out there and bounces around which is I

1043

00:42:50,410 --> 00:42:48,109

think is exactly what they wanted to do

1044

00:42:53,859 --> 00:42:50,420

I grant that you did that interview with

1045

00:42:56,640 --> 00:42:53,869

with weir and I didn't have it my notes

1046

00:43:00,120 --> 00:42:56,650

but I'm glad you brought it up because

1047

00:43:03,160 --> 00:43:00,130

he made a couple of points there about

1048

00:43:06,280 --> 00:43:03,170

the the slow speed of the Jets how they

1049

00:43:08,950 --> 00:43:06,290

can top out at 1,800 miles an hour

1050

00:43:10,750 --> 00:43:08,960

and well that is true but every time

1051

00:43:13,240 --> 00:43:10,760

they're off the carrier deck they're not

1052

00:43:15,940 --> 00:43:13,250

ramping it up to full speed he also made

1053

00:43:18,010 --> 00:43:15,950

some criticisms of pilots not talking

1054

00:43:19,480 --> 00:43:18,020

that way Dave you're pretty what pretty

1055

00:43:22,300 --> 00:43:19,490

well plugged in down to some of those

1056

00:43:26,170 --> 00:43:22,310

guys did you see leaders a criticisms of

1057

00:43:29,200 --> 00:43:26,180

the video and what are your thoughts on

1058

00:43:30,880 --> 00:43:29,210

all that you know I haven't seen his

1059

00:43:33,880 --> 00:43:30,890

criticism unfortunately I'd love to read

1060

00:43:36,720 --> 00:43:33,890

that you know in my research basically

1061

00:43:40,210 --> 00:43:36,730

involved going and trying to find other

1062

00:43:42,730 --> 00:43:40,220

videos that are out there other you know

1063

00:43:46,060 --> 00:43:42,740

recordings of carrier operations and so

1064

00:43:49,060 --> 00:43:46,070

on most of what you find out there is it

1065

00:43:51,940 --> 00:43:49,070

would be radio transmissions on their

1066

00:43:53,770 --> 00:43:51,950

networks and you know when they're

1067

00:43:56,620 --> 00:43:53,780

talking officially that way they're not

1068

00:43:58,480 --> 00:43:56,630

using that language but it's my

1069

00:44:00,460 --> 00:43:58,490

understanding that the intercom is what

1070

00:44:03,310 --> 00:44:00,470

we're hearing on those videos and that

1071

00:44:05,530 --> 00:44:03,320

would be the in terms plane intercoms it

1072

00:44:07,720 --> 00:44:05,540

would be the pilot talking to the

1073

00:44:10,960 --> 00:44:07,730

weapons system officer in the back so

1074

00:44:13,180 --> 00:44:10,970

they're much more informal in it if it

1075

00:44:15,790 --> 00:44:13,190

could be real you know I I'm not saying

1076

00:44:17,860 --> 00:44:15,800

that this wasn't a some type of audio

1077

00:44:20,650 --> 00:44:17,870

lake that grant mentioned it was made up

1078

00:44:23,140 --> 00:44:20,660

you know that if that's a real concern

1079

00:44:25,330 --> 00:44:23,150

but I think it's possible that that was

1080

00:44:27,520 --> 00:44:25,340

an intercom recording between two pilots

1081

00:44:29,200 --> 00:44:27,530

that never in their wildest dreams you

1082

00:44:30,610 --> 00:44:29,210

know like we're thinking oh this is

1083

00:44:31,960 --> 00:44:30,620

going to be all over the world exactly

1084

00:44:35,020 --> 00:44:31,970

what we're saying you know right now

1085

00:44:37,480 --> 00:44:35,030

dropping f-bombs and so on and so David

1086

00:44:40,210 --> 00:44:37,490

question yeah

1087

00:44:41,860 --> 00:44:40,220

I wanted to clarify did those jets that

1088

00:44:44,170 --> 00:44:41,870

took the video did they come off the

1089

00:44:46,480 --> 00:44:44,180

carrier did they come the coast one of

1090

00:44:48,460 --> 00:44:46,490

the stories was that the first jets went

1091

00:44:50,560 --> 00:44:48,470

back to the carrier and then they sent

1092

00:44:52,780 --> 00:44:50,570

the two jets from the coast from an Air

1093

00:44:55,260 --> 00:44:52,790

Force Base on the coast to intercept and

1094

00:44:59,050 --> 00:44:55,270

they got the video you know the

1095

00:45:02,010 --> 00:44:59,060

unfortunately the the video go fast and

1096

00:45:05,020 --> 00:45:02,020

gimble it has never been you know

1097

00:45:07,120 --> 00:45:05,030

basically proven where these were taken

1098

00:45:08,530 --> 00:45:07,130

that you said off the east coast of the

1099

00:45:11,770 --> 00:45:08,540

United States I'm talking about the

1100

00:45:14,380 --> 00:45:11,780

Nimitz what okay the Nimitz won there's

1101
00:45:16,360 --> 00:45:14,390
no audio on that than that for one thing

1102
00:45:18,430 --> 00:45:16,370
and then the other thing is those Jets

1103
00:45:21,039 --> 00:45:18,440
all came off of Nimitz including the

1104
00:45:24,579 --> 00:45:21,049
Marine Corps aviation jet

1105
00:45:25,870 --> 00:45:24,589
with lieutenant Kirk he was to one of

1106
00:45:27,549 --> 00:45:25,880
the first guys on the scene you didn't

1107
00:45:30,220 --> 00:45:27,559
see the tic-tac he saw the disturbance

1108
00:45:31,569 --> 00:45:30,230
but they were all you know from my

1109
00:45:34,509 --> 00:45:31,579
understanding and all the research I've

1110
00:45:37,829 --> 00:45:34,519
done they were out there doing tailored

1111
00:45:39,880 --> 00:45:37,839
ship training complex training and

1112
00:45:43,900 --> 00:45:39,890
during that month in November and they

1113
00:45:46,299 --> 00:45:43,910

all came off the Nimitz carrier okay now

1114

00:45:48,970 --> 00:45:46,309

moving along to April a kind of a slow

1115

00:45:51,940 --> 00:45:48,980

month except for one thing happened the

1116

00:45:54,309 --> 00:45:51,950

UFO news network Sunday show premiered

1117

00:45:57,250 --> 00:45:54,319

on YouTube first week we got off to a

1118

00:46:00,400 --> 00:45:57,260

nice start we had Grant Cameron on a

1119

00:46:03,819 --> 00:46:00,410

second week we added to that and we had

1120

00:46:05,500 --> 00:46:03,829

Dave Beatty on and I just want to say

1121

00:46:07,390 --> 00:46:05,510

really quick here and I think I'm

1122

00:46:09,309 --> 00:46:07,400

speaking I know that James has said this

1123

00:46:11,410 --> 00:46:09,319

this has been a really huge experience

1124

00:46:14,589 --> 00:46:11,420

for us and thanks to both of you guys

1125

00:46:18,370 --> 00:46:14,599

for coming on before and really making

1126

00:46:20,920 --> 00:46:18,380

it easy for us to get started well I

1127

00:46:22,779 --> 00:46:20,930

like to thank you because as I think I

1128

00:46:25,630 --> 00:46:22,789

mentioned last week or whenever you're

1129

00:46:27,460 --> 00:46:25,640

talking that there's always complaint in

1130

00:46:29,289 --> 00:46:27,470

the UFO community this thing about you

1131

00:46:30,759 --> 00:46:29,299

know there's no young people and I think

1132

00:46:33,099 --> 00:46:30,769

you've helped bring in a lot of young

1133

00:46:34,299 --> 00:46:33,109

people who are on top of this whole

1134

00:46:35,009 --> 00:46:34,309

subject who are following it very

1135

00:46:37,509 --> 00:46:35,019

closely

1136

00:46:39,130 --> 00:46:37,519

that's always a major complaint at every

1137

00:46:40,259 --> 00:46:39,140

UFO conference is there's no young

1138

00:46:42,130 --> 00:46:40,269

people here and there's no

1139

00:46:44,259 --> 00:46:42,140

african-americans and it's just all

1140

00:46:46,180 --> 00:46:44,269

these old white haired people and what

1141

00:46:48,039 --> 00:46:46,190

the hell's gonna happen when we're when

1142

00:46:50,289 --> 00:46:48,049

we're gone and I'm glad to see all these

1143

00:46:52,749 --> 00:46:50,299

young people who are really on top of

1144

00:46:55,529 --> 00:46:52,759

this issue and are chasing it and maybe

1145

00:46:58,120 --> 00:46:55,539

will carry the ball once we're gone

1146

00:47:00,609 --> 00:46:58,130

yeah and I'd also like to say thanks

1147

00:47:04,059 --> 00:47:00,619

Frank for inviting me I mean when I

1148

00:47:06,940 --> 00:47:04,069

started writing posting online some of

1149

00:47:09,640 --> 00:47:06,950

my viewpoints and I started the the

1150

00:47:11,410 --> 00:47:09,650

group called you know advanced aerospace

1151
00:47:14,170 --> 00:47:11,420
threat identification group on Facebook

1152
00:47:16,539 --> 00:47:14,180
there was not too many people were

1153
00:47:19,089 --> 00:47:16,549
really listening and I think you were

1154
00:47:20,950 --> 00:47:19,099
one of the guys the kind of messaged me

1155
00:47:22,630 --> 00:47:20,960
and said hey Dave what you're saying is

1156
00:47:24,640 --> 00:47:22,640
pretty interesting that's kind of you

1157
00:47:26,950 --> 00:47:24,650
know unique and then you follow it up so

1158
00:47:29,769 --> 00:47:26,960
I appreciate the you know that vote of

1159
00:47:31,359 --> 00:47:29,779
confidence and you know I'm also you

1160
00:47:33,400 --> 00:47:31,369
know a fan of the other people that are

1161
00:47:34,120 --> 00:47:33,410
on on the show and I'm I appreciate the

1162
00:47:36,430 --> 00:47:34,130
opportunity

1163
00:47:38,590 --> 00:47:36,440

absolutely absolutely and I couldn't

1164

00:47:39,880 --> 00:47:38,600

agree more grant yeah we've got we've

1165

00:47:42,160 --> 00:47:39,890

got a couple rookies here on the

1166

00:47:45,220 --> 00:47:42,170

year-end show so that that says a little

1167

00:47:47,560 --> 00:47:45,230

something about our commitment you know

1168

00:47:50,530 --> 00:47:47,570

getting getting some new voices and not

1169

00:47:54,670 --> 00:47:50,540

trying to help him get hurt and moving

1170

00:47:57,910 --> 00:47:54,680

on to May we had very interesting a

1171

00:48:00,730 --> 00:47:57,920

little bit of news maybe one of the the

1172

00:48:03,250 --> 00:48:00,740

first more significant pieces from Paul

1173

00:48:05,560 --> 00:48:03,260

Dean where he revealed that in addition

1174

00:48:06,880 --> 00:48:05,570

to this a tip program there was

1175

00:48:10,960 --> 00:48:06,890

something of an umbrella organization

1176
00:48:13,930 --> 00:48:10,970
known as AUSA and he got that out there

1177
00:48:15,250 --> 00:48:13,940
and it was huge news we got him on right

1178
00:48:18,040 --> 00:48:15,260
away we got him about a day and a half

1179
00:48:20,650 --> 00:48:18,050
after that news broke and he gave us

1180
00:48:22,750 --> 00:48:20,660
pretty much an hour and a half a street

1181
00:48:25,920 --> 00:48:22,760
the street scoop on all that how he

1182
00:48:29,260 --> 00:48:25,930
found it what it meant and all that and

1183
00:48:32,650 --> 00:48:29,270
you know it was a fantastic bit of news

1184
00:48:36,940 --> 00:48:32,660
and I know a Dave you're familiar with

1185
00:48:39,130 --> 00:48:36,950
Erik Davis was not too happy about some

1186
00:48:41,290 --> 00:48:39,140
of the the bloggers and some of the

1187
00:48:43,000 --> 00:48:41,300
things that were saying and some of the

1188
00:48:46,300 --> 00:48:43,010

things that they were turning up I've

1189

00:48:49,510 --> 00:48:46,310

got a quote here from Eric Rodger

1190

00:48:52,570 --> 00:48:49,520

Glassell a Swedish citizen and Paul Dehn

1191

00:48:54,240 --> 00:48:52,580

our rank amateurs with no demonstrated

1192

00:48:57,040 --> 00:48:54,250

professional record of success in

1193

00:48:59,320 --> 00:48:57,050

scientific intelligence or forensic

1194

00:49:02,560 --> 00:48:59,330

investigations research into anything

1195

00:49:04,540 --> 00:49:02,570

much less the UFO phenomenon quite

1196

00:49:06,820 --> 00:49:04,550

frankly what Paul Dean did was he

1197

00:49:09,060 --> 00:49:06,830

brought the goods he basically scooped

1198

00:49:11,860 --> 00:49:09,070

as a grant referred to a match the the

1199

00:49:14,350 --> 00:49:11,870

to the Stars Academy embedded reporter

1200

00:49:18,400 --> 00:49:14,360

George Knapp and I say more power to

1201

00:49:20,410 --> 00:49:18,410

Paul deed he had a great year to one

1202

00:49:22,630 --> 00:49:20,420

comment to that and that goes back to my

1203

00:49:24,040 --> 00:49:22,640

contention to 30 years is that this

1204

00:49:25,870 --> 00:49:24,050

thing is she graduated being the leak

1205

00:49:27,010 --> 00:49:25,880

people have the idea of this evil

1206

00:49:29,050 --> 00:49:27,020

government that's trying to cover this

1207

00:49:30,250 --> 00:49:29,060

thing up and Paul Dean proves there

1208

00:49:31,930 --> 00:49:30,260

wasn't because he gets the phone call

1209

00:49:33,670 --> 00:49:31,940

from the Pentagon and the guy says you

1210

00:49:35,590 --> 00:49:33,680

know you know I'm here or I'm here to

1211

00:49:37,750 --> 00:49:35,600

help you you should look at this name

1212

00:49:39,760 --> 00:49:37,760

and even after the attack by Erik Davis

1213

00:49:41,680 --> 00:49:39,770

it turned out he was right that the name

1214

00:49:43,300 --> 00:49:41,690

that he'd been given by a leak inside

1215

00:49:45,160 --> 00:49:43,310

the Pentagon turned out to be right so

1216

00:49:47,170 --> 00:49:45,170

we are getting some help from ins from

1217

00:49:48,010 --> 00:49:47,180

inside people who are sort of not

1218

00:49:49,420 --> 00:49:48,020

telling you the whole

1219

00:49:50,410 --> 00:49:49,430

but sort of directing you and getting

1220

00:49:54,190 --> 00:49:50,420

you in the going in the right direction

1221

00:49:56,680 --> 00:49:54,200

and it's really it's amazing it's an

1222

00:49:59,370 --> 00:49:56,690

it's amazing that um you know we have

1223

00:50:02,800 --> 00:49:59,380

some Australian guys including you know

1224

00:50:04,960 --> 00:50:02,810

Keith pastor field as well blocking on

1225

00:50:07,060 --> 00:50:04,970

this in and when I read that I was just

1226

00:50:09,430 --> 00:50:07,070

kind of floored that wow this guy has

1227

00:50:10,750 --> 00:50:09,440

somebody on the inside that is feeding

1228

00:50:13,150 --> 00:50:10,760

him this information it turns out to be

1229

00:50:16,240 --> 00:50:13,160

correct and you know Keith coming up

1230

00:50:17,020 --> 00:50:16,250

with the solicitation for the contract

1231

00:50:20,470 --> 00:50:17,030

and so on

1232

00:50:22,210 --> 00:50:20,480

under a swap yeah you say that so that

1233

00:50:23,950 --> 00:50:22,220

that was great one thing that was

1234

00:50:26,350 --> 00:50:23,960

confusing to be with Eric Davis reaction

1235

00:50:28,510 --> 00:50:26,360

I still don't get this sometimes is you

1236

00:50:30,910 --> 00:50:28,520

know he was saying that these guys that

1237

00:50:34,150 --> 00:50:30,920

had found this we're trying to smear the

1238

00:50:37,630 --> 00:50:34,160

name of T TSA and smear the name of

1239

00:50:40,780 --> 00:50:37,640

Elizondo and the valiant DoD military

1240

00:50:42,220 --> 00:50:40,790

personnel I didn't see that at all I it

1241

00:50:44,620 --> 00:50:42,230

seemed to me more like that they were

1242

00:50:47,260 --> 00:50:44,630

being more helpful to get some of this

1243

00:50:50,620 --> 00:50:47,270

information out but you know I guess if

1244

00:50:53,110 --> 00:50:50,630

it's a scripted play that somebody on

1245

00:50:55,390 --> 00:50:53,120

the outside trying to come in and

1246

00:50:57,760 --> 00:50:55,400

changing the release of information on

1247

00:51:00,490 --> 00:50:57,770

from that script would be viewed as some

1248

00:51:02,800 --> 00:51:00,500

kind of adversary you know I'm not sure

1249

00:51:04,930 --> 00:51:02,810

so it'd be interesting to see what Davis

1250

00:51:06,850 --> 00:51:04,940

says now because it turned out it was

1251
00:51:09,760 --> 00:51:06,860
right and it was almost like I've known

1252
00:51:11,200 --> 00:51:09,770
Eric Davis for 20 years 15 years very

1253
00:51:12,850 --> 00:51:11,210
very sharp guy got a security clearance

1254
00:51:15,880 --> 00:51:12,860
and knows a lot of stuff you and I and

1255
00:51:17,290 --> 00:51:15,890
it's almost like he didn't know that he

1256
00:51:18,970 --> 00:51:17,300
wasn't aware of this thing and he had

1257
00:51:20,560 --> 00:51:18,980
jumped on it you know that it was wrong

1258
00:51:22,450 --> 00:51:20,570
and whatever and turned out it was right

1259
00:51:24,100 --> 00:51:22,460
I'd be interested to see what Eric Davis

1260
00:51:26,050 --> 00:51:24,110
has to say now about the fact that a

1261
00:51:27,970 --> 00:51:26,060
stop actually exists and it was actually

1262
00:51:34,510 --> 00:51:27,980
the superior program a tip was the lower

1263
00:51:38,260 --> 00:51:34,520

program right a tip a tip came into

1264

00:51:40,540 --> 00:51:38,270

existence after us a p-- from what I

1265

00:51:43,690 --> 00:51:40,550

read that the former program manager

1266

00:51:46,210 --> 00:51:43,700

actually changed it or created maybe a

1267

00:51:49,150 --> 00:51:46,220

subprogram him a tip to more narrowly

1268

00:51:51,490 --> 00:51:49,160

focus on the five observables so that

1269

00:51:52,900 --> 00:51:51,500

was something that I believe Heath

1270

00:51:54,280 --> 00:51:52,910

Bastyr field wrote and I was like oh

1271

00:51:57,910 --> 00:51:54,290

that's kind of an interesting fact as

1272

00:51:59,500 --> 00:51:57,920

well and also in May I believe I don't

1273

00:52:00,910 --> 00:51:59,510

have a specific date on this but I

1274

00:52:05,070 --> 00:52:00,920

believe it was in May

1275

00:52:08,260 --> 00:52:05,080

/ both Tom DeLonge and David flavor.that

1276

00:52:10,660 --> 00:52:08,270

TTS a was running witnesses up to

1277

00:52:12,280 --> 00:52:10,670

Congress and doing some congressional

1278

00:52:15,460 --> 00:52:12,290

briefings is that about right or am i

1279

00:52:18,910 --> 00:52:15,470

little off on that time frame grant do

1280

00:52:20,890 --> 00:52:18,920

you know yeah you're probably right

1281

00:52:23,230 --> 00:52:20,900

that was where that's where I say that

1282

00:52:24,820 --> 00:52:23,240

the the guys from political started that

1283

00:52:26,920 --> 00:52:24,830

thing and the interesting thing about

1284

00:52:29,380 --> 00:52:26,930

that that I think maybe people have not

1285

00:52:32,320 --> 00:52:29,390

really realized is that they're saying

1286

00:52:34,120 --> 00:52:32,330

okay so you got to the stars there and

1287

00:52:36,010 --> 00:52:34,130

then these people really have except

1288

00:52:37,450 --> 00:52:36,020

maybe a little AI's andö have the

1289

00:52:39,610 --> 00:52:37,460

security clearances but one of the

1290

00:52:42,040 --> 00:52:39,620

things that was made public by Nick Pope

1291

00:52:44,170 --> 00:52:42,050

about these these moves to go to

1292

00:52:47,440 --> 00:52:44,180

Congress into the arms Appropriations

1293

00:52:49,900 --> 00:52:47,450

Committee was the fact that the DIA gave

1294

00:52:51,580 --> 00:52:49,910

a briefing to the set to this to the

1295

00:52:53,110 --> 00:52:51,590

Senate Appropriations Committee which

1296

00:52:55,060 --> 00:52:53,120

means there's actually this direct link

1297

00:52:56,650 --> 00:52:55,070

that thing there is somebody inside the

1298

00:52:58,090 --> 00:52:56,660

government who's actually providing

1299

00:53:00,040 --> 00:52:58,100

material it's not some program that

1300

00:53:07,710 --> 00:53:00,050

leaked out is actually coming from the

1301
00:53:11,860 --> 00:53:07,720
government and the following month June

1302
00:53:15,490 --> 00:53:11,870
big news in June the premiere of a grant

1303
00:53:16,990 --> 00:53:15,500
Cameron's kgr a show the Cameron files a

1304
00:53:19,690 --> 00:53:17,000
grant you had mentioned that you've been

1305
00:53:20,980 --> 00:53:19,700
actively in this since the mid-70s what

1306
00:53:23,530 --> 00:53:20,990
was the big hurry getting your own

1307
00:53:24,850 --> 00:53:23,540
interview show together oh it's actually

1308
00:53:29,440 --> 00:53:24,860
the last thing I wanted to do it's the

1309
00:53:31,120 --> 00:53:29,450
last time I ever won the only reason I

1310
00:53:33,580 --> 00:53:31,130
have is because I get the situations

1311
00:53:35,920 --> 00:53:33,590
where like for I got John John John

1312
00:53:37,540 --> 00:53:35,930
Burroughs on or I've got people on you

1313
00:53:39,130 --> 00:53:37,550

can ask questions that if you out were

1314

00:53:41,230 --> 00:53:39,140

to ask them in a private interview they

1315

00:53:42,550 --> 00:53:41,240

tell you to go to hell but on neurio

1316

00:53:46,000 --> 00:53:42,560

show they actually have to tell you so

1317

00:53:48,070 --> 00:53:46,010

I'll run out of witnesses to talk to but

1318

00:53:50,560 --> 00:53:48,080

I've had a couple of good shows but

1319

00:53:52,240 --> 00:53:50,570

basically I was basically talked into it

1320

00:53:55,660 --> 00:53:52,250

if you know the background story this is

1321

00:53:58,180 --> 00:53:55,670

the last thing I wanted to do God also

1322

00:54:00,460 --> 00:53:58,190

that month a an article we mentioned him

1323

00:54:05,230 --> 00:54:00,470

earlier Professor Kevin Knuth from SUNY

1324

00:54:07,570 --> 00:54:05,240

Albany was basically they this site the

1325

00:54:10,750 --> 00:54:07,580

conversation calm sort of went to him

1326

00:54:12,490 --> 00:54:10,760

and requisitioned a story hey can you

1327

00:54:13,200 --> 00:54:12,500

knock down all this nonsense down about

1328

00:54:16,260 --> 00:54:13,210

UFO

1329

00:54:19,200 --> 00:54:16,270

PT's and professor Knuth went ahead and

1330

00:54:23,400 --> 00:54:19,210

said well it's maybe not so crazy after

1331

00:54:26,130 --> 00:54:23,410

all more recently a paper that had been

1332

00:54:29,640 --> 00:54:26,140

published in March by a NASA scientist

1333

00:54:32,700 --> 00:54:29,650

dr. Colin Bono that came out so we're

1334

00:54:35,490 --> 00:54:32,710

seeing maybe not this avalanche or this

1335

00:54:37,500 --> 00:54:35,500

giant rush of scientists being a little

1336

00:54:39,900 --> 00:54:37,510

bit more open to this field but that

1337

00:54:42,120 --> 00:54:39,910

we're seeing a one year and one their

1338

00:54:44,370 --> 00:54:42,130

going public and saying yeah I'm kind of

1339

00:54:45,420 --> 00:54:44,380

interested in all this stuff [h__h] do you

1340

00:54:48,690 --> 00:54:45,430

have any thoughts on that

1341

00:54:51,060 --> 00:54:48,700

um just a short statement and that is

1342

00:54:53,280 --> 00:54:51,070

the more scientists that are involved in

1343

00:54:56,670 --> 00:54:53,290

acting interested in the field of

1344

00:54:58,470 --> 00:54:56,680

ufology the mart legitimise isn't and so

1345

00:55:02,070 --> 00:54:58,480

you know it's really encouraging that

1346

00:55:04,980 --> 00:55:02,080

Kevin Knuth he didn't back down and shy

1347

00:55:06,990 --> 00:55:04,990

away when somebody asked him you know

1348

00:55:09,900 --> 00:55:07,000

how do you feel about UFOs hoping that

1349

00:55:13,050 --> 00:55:09,910

he would do ride it publicly he actually

1350

00:55:15,870 --> 00:55:13,060

said he you know very publicly and in a

1351
00:55:17,400 --> 00:55:15,880
very unafraid way he held his stance and

1352
00:55:21,060 --> 00:55:17,410
he said that he was actually interested

1353
00:55:23,490 --> 00:55:21,070
and he he didn't act like you know he

1354
00:55:25,770 --> 00:55:23,500
wanted to put it down or marginalize the

1355
00:55:28,590 --> 00:55:25,780
UFO community I'm really tired of that

1356
00:55:31,680 --> 00:55:28,600
by the way just one expansion it's nice

1357
00:55:34,590 --> 00:55:31,690
to have people like Kevin Knuth out

1358
00:55:38,430 --> 00:55:34,600
there on our side in the field of

1359
00:55:40,800 --> 00:55:38,440
ufology I believe the more people

1360
00:55:43,170 --> 00:55:40,810
involved in science to pay attention to

1361
00:55:45,510 --> 00:55:43,180
this field the more it allows people

1362
00:55:49,590 --> 00:55:45,520
like us to be taken seriously

1363
00:55:53,730 --> 00:55:49,600

you know the people on this panel they

1364

00:55:57,030 --> 00:55:53,740

have literally spent a large investment

1365

00:55:59,460 --> 00:55:57,040

of their life working day and night to

1366

00:56:01,860 --> 00:55:59,470

try and bring as much serious and

1367

00:56:05,190 --> 00:56:01,870

legitimate information to the field of

1368

00:56:06,540 --> 00:56:05,200

ufology as possible so that people again

1369

00:56:08,700 --> 00:56:06,550

who are your average you have gone

1370

00:56:11,850 --> 00:56:08,710

through yes to your you know from your

1371

00:56:14,070 --> 00:56:11,860

novice to your advance researchers they

1372

00:56:18,180 --> 00:56:14,080

get to become more educated regarding

1373

00:56:21,690 --> 00:56:18,190

the finds that Grant and Dave and

1374

00:56:23,670 --> 00:56:21,700

Twitter Jay myself off you James other

1375

00:56:26,470 --> 00:56:23,680

people James being the co-host of this

1376

00:56:29,020 --> 00:56:26,480

show and other people of

1377

00:56:33,370 --> 00:56:29,030

we're iconic or not well known they get

1378

00:56:35,680 --> 00:56:33,380

to educate the public eye I think it's

1379

00:56:39,790 --> 00:56:35,690

important that more scientists actually

1380

00:56:41,710 --> 00:56:39,800

stand up like a vacuum and say yes you

1381

00:56:43,630 --> 00:56:41,720

know what it is okay to say that there

1382

00:56:46,000 --> 00:56:43,640

is a possibility that there is life out

1383

00:56:49,720 --> 00:56:46,010

there you know it's a mathematical

1384

00:56:53,830 --> 00:56:49,730

probability so it's yeah I don't need a

1385

00:56:55,930 --> 00:56:53,840

rant here but it's just like Jay I know

1386

00:56:57,520 --> 00:56:55,940

that that's one of your areas that then

1387

00:57:00,550 --> 00:56:57,530

you take a real particular interested in

1388

00:57:03,690 --> 00:57:00,560

I tried to gin up scientific papers on

1389

00:57:08,460 --> 00:57:03,700

the subject on those occasions when

1390

00:57:10,690 --> 00:57:08,470

scientist does decide to get involved

1391

00:57:12,370 --> 00:57:10,700

tell us a little bit about your feelings

1392

00:57:13,960 --> 00:57:12,380

of some of these scientists that are

1393

00:57:17,200 --> 00:57:13,970

becoming a little bit more public with

1394

00:57:21,010 --> 00:57:17,210

their approval of looking at the UFO

1395

00:57:23,110 --> 00:57:21,020

topic I think it's been something to be

1396

00:57:25,240 --> 00:57:23,120

looked into for a while by scientists

1397

00:57:27,220 --> 00:57:25,250

you look at the Society for scientific

1398

00:57:29,560 --> 00:57:27,230

exploration which has been going for

1399

00:57:31,570 --> 00:57:29,570

about 40 odd years or 30 odd years

1400

00:57:32,980 --> 00:57:31,580

something like that but they've been

1401

00:57:35,680 --> 00:57:32,990

looking into it quite seriously for

1402

00:57:37,780 --> 00:57:35,690

quite some time but it's really on many

1403

00:57:39,070 --> 00:57:37,790

people's radars but if you look at the

1404

00:57:41,200 --> 00:57:39,080

papers and the journals and stuff that

1405

00:57:42,730 --> 00:57:41,210

they've released you know they're

1406

00:57:44,530 --> 00:57:42,740

looking at consciousness they're looking

1407

00:57:47,350 --> 00:57:44,540

at UFOs they're looking at crash

1408

00:57:49,660 --> 00:57:47,360

materials all of this stuff is included

1409

00:57:51,010 --> 00:57:49,670

in these these journals but there's

1410

00:57:52,480 --> 00:57:51,020

loads and loads of scientists that are

1411

00:57:54,400 --> 00:57:52,490

getting involved now it's really really

1412

00:57:56,260 --> 00:57:54,410

important and it's legitimizing it and

1413

00:57:58,750 --> 00:57:56,270

that's the most important thing really

1414

00:58:01,660 --> 00:57:58,760

we need scientific exploration of these

1415

00:58:03,610 --> 00:58:01,670

items because you know without that it's

1416

00:58:05,440 --> 00:58:03,620

just speculation we need to have that

1417

00:58:07,720 --> 00:58:05,450

objective truth behind it rather than

1418

00:58:09,820 --> 00:58:07,730

just pure subjectivity of witness

1419

00:58:11,770 --> 00:58:09,830

testimony and that kind of stuff so yeah

1420

00:58:13,420 --> 00:58:11,780

really really really important it's

1421

00:58:14,730 --> 00:58:13,430

loads loads of papers available you know

1422

00:58:17,290 --> 00:58:14,740

you search around the internet you find

1423

00:58:18,850 --> 00:58:17,300

papers and all manner of things

1424

00:58:22,270 --> 00:58:18,860

consciousness obviously is a very

1425

00:58:23,560 --> 00:58:22,280

primary thing at the moment so yeah yet

1426

00:58:24,640 --> 00:58:23,570

very very important loads and loads of

1427

00:58:28,360 --> 00:58:24,650

scientists getting involved at the

1428

00:58:31,090 --> 00:58:28,370

moment frankly I could comment in terms

1429

00:58:32,530 --> 00:58:31,100

of not scientists but in terms of

1430

00:58:34,930 --> 00:58:32,540

because my I spent a lot of time with

1431

00:58:36,520 --> 00:58:34,940

the the government people one of the

1432

00:58:38,260 --> 00:58:36,530

other thing to change but not not just

1433

00:58:40,820 --> 00:58:38,270

scientists but government people's and

1434

00:58:45,020 --> 00:58:40,830

I'm the prime example

1435

00:58:48,110 --> 00:58:45,030

Billy Cox who I've known since 1980s and

1436

00:58:50,390 --> 00:58:48,120

he's written this lonely UFO blog every

1437

00:58:52,910 --> 00:58:50,400

week for for many many years he said his

1438

00:58:56,500 --> 00:58:52,920

le editor just basically tolerates it he

1439

00:58:59,420 --> 00:58:56,510

tells the story after the TSA release

1440

00:59:00,860 --> 00:58:59,430

before he had had they have this event

1441

00:59:03,290 --> 00:59:00,870

that happens in Florida where he's a

1442

00:59:10,520 --> 00:59:03,300

reporter there for the CIA guy he comes

1443

00:59:15,530 --> 00:59:10,530

down and they write dropping off grant

1444

00:59:20,030 --> 00:59:15,540

you dropped off yeah I think he I don't

1445

00:59:32,080 --> 00:59:20,040

see him yeah I think the aliens took a

1446

00:59:39,410 --> 00:59:37,550

great you're still there you know what

1447

00:59:41,150 --> 00:59:39,420

he's done in the past is he is are

1448

00:59:43,130 --> 00:59:41,160

called back and we had some issues with

1449

00:59:45,260 --> 00:59:43,140

him while we had him on premiere week so

1450

00:59:47,540 --> 00:59:45,270

well let's say let's move forward this

1451

00:59:49,490 --> 00:59:47,550

is something actually yeah actually is

1452

00:59:51,260 --> 00:59:49,500

that we go forward hopefully yeah grant

1453

00:59:54,350 --> 00:59:51,270

that gets back to us but as we move

1454

00:59:56,360 --> 00:59:54,360

forward we've got basically stuff that

1455

01:00:00,920 --> 00:59:56,370

the the remaining panel can go into some

1456

01:00:06,440 --> 01:00:00,930

detail on we've got in July George Knapp

1457

01:00:08,480 --> 01:00:06,450

well as I was saying earlier it's a if

1458

01:00:10,010 --> 01:00:08,490

you the 40 requests don't work that you

1459

01:00:13,160 --> 01:00:10,020

got to kind of get your questions in

1460

01:00:16,040 --> 01:00:13,170

when you can and as a granted mentioned

1461

01:00:18,620 --> 01:00:16,050

that George is a bit of a a embedded

1462

01:00:21,680 --> 01:00:18,630

reporter with the to the Stars Academy

1463

01:00:24,260 --> 01:00:21,690

and what he did was a little AMA online

1464

01:00:26,900 --> 01:00:24,270

over at coast to coast and I wanted to

1465

01:00:28,460 --> 01:00:26,910

jump off jump on that opportunity to get

1466

01:00:31,430 --> 01:00:28,470

the question that I've wanted to have

1467

01:00:35,060 --> 01:00:31,440

answered the for right from the get-go

1468

01:00:37,280 --> 01:00:35,070

the first and well not the first but the

1469

01:00:40,820 --> 01:00:37,290

the biggest UFO case that took place

1470

01:00:42,800 --> 01:00:40,830

while the a tip program was operational

1471

01:00:46,430 --> 01:00:42,810

was the Stephenville case in

1472

01:00:48,290 --> 01:00:46,440

Stephenville Texas back in 2008 and that

1473

01:00:51,470 --> 01:00:48,300

basically what I wanted to ask him was

1474

01:00:53,630 --> 01:00:51,480

did he know if a tip investigated the

1475

01:00:55,190 --> 01:00:53,640

Stephenville case at all and

1476

01:00:57,470 --> 01:00:55,200

he confirmed that they did it might have

1477

01:01:00,829 --> 01:00:57,480

been all SAP not necessarily a tip but

1478

01:01:02,809 --> 01:01:00,839

that case was investigated and it's good

1479

01:01:04,430 --> 01:01:02,819

to know that and obviously we all want

1480

01:01:06,230 --> 01:01:04,440

to follow up with somebody who might

1481

01:01:08,299 --> 01:01:06,240

know a little bit more about that namely

1482

01:01:10,609 --> 01:01:08,309

louie Elizondo who's made himself

1483

01:01:12,289 --> 01:01:10,619

available for some questions but as far

1484

01:01:14,269 --> 01:01:12,299

as I know he's never been asked that

1485

01:01:16,880 --> 01:01:14,279

specific question and I would certainly

1486

01:01:18,620 --> 01:01:16,890

like to know more about that case does

1487

01:01:20,870 --> 01:01:18,630

anybody hear I doubt it but does anybody

1488

01:01:25,220 --> 01:01:20,880

here like that Stephenville case as much

1489

01:01:29,539 --> 01:01:25,230

as I do this is Dave I think it's a

1490

01:01:32,150 --> 01:01:29,549

great case yeah I mean that was the one

1491

01:01:34,730 --> 01:01:32,160

here the one comment that I have and I

1492

01:01:36,920 --> 01:01:34,740

know Robert Powell I mean he's the guy

1493

01:01:38,900 --> 01:01:36,930

that really investigated that boots on

1494

01:01:41,240 --> 01:01:38,910

the ground he talked to all the

1495

01:01:44,420 --> 01:01:41,250

witnesses he really knows that case and

1496

01:01:46,099 --> 01:01:44,430

in fact it was the last case in the

1497

01:01:52,339 --> 01:01:46,109

United States where they were able to

1498

01:01:54,109 --> 01:01:52,349

FOIA the raw FAA radar data and it

1499

01:01:57,259 --> 01:01:54,119

allowed them to look at this rough these

1500

01:01:59,569 --> 01:01:57,269

raw blips on the radar from the air

1501
01:02:01,999 --> 01:01:59,579
traffic control in that area that showed

1502
01:02:05,359 --> 01:02:02,009
every single return and it didn't just

1503
01:02:07,430 --> 01:02:05,369
show aircraft with transponders and of

1504
01:02:09,289 --> 01:02:07,440
course until UFOs start using

1505
01:02:13,099 --> 01:02:09,299
transponders they wouldn't show up there

1506
01:02:16,249 --> 01:02:13,109
well what happened is that the FAA and I

1507
01:02:19,819 --> 01:02:16,259
guess the the government saw that they

1508
01:02:25,009 --> 01:02:19,829
were able to look at this specific data

1509
01:02:26,809 --> 01:02:25,019
in relationship to you know Bush's home

1510
01:02:29,120 --> 01:02:26,819
there in Texas right isn't that correct

1511
01:02:30,950 --> 01:02:29,130
and after that one County on out with it

1512
01:02:35,450 --> 01:02:30,960
yeah they came out with a law that

1513
01:02:38,769 --> 01:02:35,460

basically you know prevents from now on

1514

01:02:42,289 --> 01:02:38,779

you cannot FOIA that raw radar data as a

1515

01:02:44,120 --> 01:02:42,299

national security concern so just to

1516

01:02:47,749 --> 01:02:44,130

point out what that Powell and Glen

1517

01:02:50,150 --> 01:02:47,759

Schultz MUFON report indicated was one

1518

01:02:52,690 --> 01:02:50,160

of those radar returns was traveling at

1519

01:02:56,870 --> 01:02:52,700

a speed of about 2,000 miles an hour and

1520

01:03:00,410 --> 01:02:56,880

had an in diameter was about 500 feet

1521

01:03:02,059 --> 01:03:00,420

across so they changed the law bigger

1522

01:03:03,849 --> 01:03:02,069

than that that was the information that

1523

01:03:06,049 --> 01:03:03,859

they went with and now their report and

1524

01:03:07,069 --> 01:03:06,059

all that's available over at my website

1525

01:03:08,719 --> 01:03:07,079

so you can go check

1526

01:03:11,749 --> 01:03:08,729

read the whole thing if you want to it's

1527

01:03:13,969 --> 01:03:11,759

like it's like 80 pages long it's a huge

1528

01:03:17,479 --> 01:03:13,979

report but that's really the key finding

1529

01:03:20,900 --> 01:03:17,489

I think and also oh go ahead David I was

1530

01:03:23,949 --> 01:03:20,910

gonna ask you do you now Elizondo so he

1531

01:03:26,479 --> 01:03:23,959

said that the program did indeed

1532

01:03:28,249 --> 01:03:26,489

investigate that case none was around

1533

01:03:29,930 --> 01:03:28,259

that was nap that was nap who's saying

1534

01:03:31,670 --> 01:03:29,940

that not what I'm saying is the

1535

01:03:34,039 --> 01:03:31,680

follow-up questions I think at this

1536

01:03:35,900 --> 01:03:34,049

point need to go to a Lozano that's

1537

01:03:37,910 --> 01:03:35,910

right because yeah there was just

1538

01:03:38,599 --> 01:03:37,920

confirmation that but no details about

1539

01:03:40,759 --> 01:03:38,609

what they found

1540

01:03:42,380 --> 01:03:40,769

exactly exactly we're even know

1541

01:03:43,819 --> 01:03:42,390

specifically who looked at it he said it

1542

01:03:46,670 --> 01:03:43,829

might have been awesome if that's the

1543

01:03:49,219 --> 01:03:46,680

case then Elizondo might not have looked

1544

01:03:50,299 --> 01:03:49,229

at it at all but again you still got to

1545

01:03:51,799 --> 01:03:50,309

ask the question you want to run

1546

01:03:56,329 --> 01:03:51,809

something like this down you know I

1547

01:03:58,789 --> 01:03:56,339

think when you when you look at us app

1548

01:04:01,880 --> 01:03:58,799

you have to go back to the beginning

1549

01:04:05,059 --> 01:04:01,890

there were you find out that that

1550

01:04:07,699 --> 01:04:05,069

contract that solicitation from Defense

1551

01:04:10,069 --> 01:04:07,709

Intelligence Agency was awarded to

1552

01:04:12,319 --> 01:04:10,079

Bigelow who then had field investigators

1553

01:04:14,180 --> 01:04:12,329

so you know they were running as a

1554

01:04:16,640 --> 01:04:14,190

subcontractor for this program and then

1555

01:04:18,439 --> 01:04:16,650

they did indeed have guys that were sent

1556

01:04:21,949 --> 01:04:18,449

out all over the place to investigate

1557

01:04:24,829 --> 01:04:21,959

UFO cases so yeah and just another point

1558

01:04:27,829 --> 01:04:24,839

Roberts been pretty negative and very

1559

01:04:31,370 --> 01:04:27,839

dismissive of that claim from Knapp very

1560

01:04:32,870 --> 01:04:31,380

very skeptical of it a feeling that you

1561

01:04:35,390 --> 01:04:32,880

know he was on the ground he talked to

1562

01:04:36,799 --> 01:04:35,400

every witness he didn't see anybody from

1563

01:04:39,319 --> 01:04:36,809

the government running around and

1564

01:04:41,269 --> 01:04:39,329

talking to folks but you know I know

1565

01:04:44,390 --> 01:04:41,279

that case I think those ground witnesses

1566

01:04:47,870 --> 01:04:44,400

are great constable gate and Ricky

1567

01:04:49,069 --> 01:04:47,880

Sorrell Steve Allen there was it also an

1568

01:04:50,359 --> 01:04:49,079

officer who didn't want to go on the

1569

01:04:53,589 --> 01:04:50,369

record who saw something a police

1570

01:04:55,880 --> 01:04:53,599

officer in the center of town there and

1571

01:04:57,829 --> 01:04:55,890

despite all that if you're a government

1572

01:04:59,569 --> 01:04:57,839

investigator why do you want to go talk

1573

01:05:02,390 --> 01:04:59,579

to those people when it's quite possible

1574

01:05:03,979 --> 01:05:02,400

that you're able to talk to the David

1575

01:05:05,569 --> 01:05:03,989

flavour of this case because a lot of

1576

01:05:07,789 --> 01:05:05,579

people were talking about scrambled

1577

01:05:09,859 --> 01:05:07,799

aircraft well you would have it

1578

01:05:12,199 --> 01:05:09,869

essentially a David flavour being the

1579

01:05:14,630 --> 01:05:12,209

pilot you know he's analog in this

1580

01:05:16,699 --> 01:05:14,640

particular case or the analog of a Kevin

1581

01:05:19,430 --> 01:05:16,709

day a radar operator in this particular

1582

01:05:20,160 --> 01:05:19,440

case if they were also able to pick up

1583

01:05:26,039 --> 01:05:20,170

this

1584

01:05:27,480 --> 01:05:26,049

NamUs radar target so I I think just

1585

01:05:28,859 --> 01:05:27,490

because Robert didn't see anything

1586

01:05:30,630 --> 01:05:28,869

doesn't mean it didn't happen

1587

01:05:32,370 --> 01:05:30,640

Ill think that if they did send

1588

01:05:33,750 --> 01:05:32,380

government investigators and I don't

1589

01:05:35,400 --> 01:05:33,760

have any reason to believe that they

1590

01:05:35,760 --> 01:05:35,410

don't I think Knapp is a good source on

1591

01:05:39,299 --> 01:05:35,770

this

1592

01:05:41,010 --> 01:05:39,309

I simply believe it and again you would

1593

01:05:42,690 --> 01:05:41,020

talk to the military people in the area

1594

01:05:44,280 --> 01:05:42,700

if you were sending them out so no

1595

01:05:46,020 --> 01:05:44,290

Robert Powell wouldn't have cross paths

1596

01:05:48,839 --> 01:05:46,030

with them because they're not talking to

1597

01:05:50,849 --> 01:05:48,849

the the local ground witnesses as great

1598

01:05:52,470 --> 01:05:50,859

as they are they've got military

1599

01:05:54,390 --> 01:05:52,480

witnesses they can talk to and that's

1600

01:05:55,289 --> 01:05:54,400

who they would have talked to so okay

1601

01:06:00,690 --> 01:05:55,299

all right

1602

01:06:04,559 --> 01:06:00,700

and then in august twitter j twitter

1603

01:06:08,490 --> 01:06:04,569

user j found some documents at

1604

01:06:10,680 --> 01:06:08,500

Christopher melons website and just go

1605

01:06:13,799 --> 01:06:10,690

ahead to tell that whole story IJ

1606

01:06:17,970 --> 01:06:13,809

because I think how did you even know to

1607

01:06:19,530 --> 01:06:17,980

look there well didn't there was no real

1608

01:06:23,089 --> 01:06:19,540

indication or anything like that it was

1609

01:06:25,799 --> 01:06:23,099

just pure chance I guess you could say

1610

01:06:29,099 --> 01:06:25,809

nothing wrong with beginner's luck J

1611

01:06:30,390 --> 01:06:29,109

nothing at all exactly right I mean

1612

01:06:32,069 --> 01:06:30,400

that's only can be brought down through

1613

01:06:33,270 --> 01:06:32,079

really so I was just looking to Chris

1614

01:06:37,049 --> 01:06:33,280

Mellon that the debt on the day

1615

01:06:38,670 --> 01:06:37,059

obviously I knew him from a TTS a so I

1616

01:06:41,700 --> 01:06:38,680

just watched an interview of his that

1617

01:06:44,520 --> 01:06:41,710

morning so they started to look around I

1618

01:06:47,880 --> 01:06:44,530

saw his he had a Twitter account and a

1619

01:06:50,339 --> 01:06:47,890

link to his website to basically clicked

1620

01:06:52,140 --> 01:06:50,349

on that link when over there had a

1621

01:06:56,640 --> 01:06:52,150

little rummage around it had different

1622

01:06:58,380 --> 01:06:56,650

sections at security defense all of this

1623

01:07:01,109 --> 01:06:58,390

kind of stuff in different sections and

1624

01:07:02,849 --> 01:07:01,119

they will all the URLs for each of these

1625

01:07:04,890 --> 01:07:02,859

different parts had a different numeric

1626
01:07:07,020 --> 01:07:04,900
value that one started off as one which

1627
01:07:09,390 --> 01:07:07,030
might be the security defense might be

1628
01:07:11,339 --> 01:07:09,400
number two and I realized there was a

1629
01:07:13,049 --> 01:07:11,349
miscellaneous section as well it was

1630
01:07:16,380 --> 01:07:13,059
listed there was a link there present on

1631
01:07:19,349 --> 01:07:16,390
the web site and I think it might have

1632
01:07:20,880 --> 01:07:19,359
had a zero numeric value in the URL so I

1633
01:07:24,960 --> 01:07:20,890
went over to the miscellaneous section

1634
01:07:27,710 --> 01:07:24,970
and I see a presentation or a set of

1635
01:07:31,890 --> 01:07:27,720
PowerPoint slides something like that

1636
01:07:33,360 --> 01:07:31,900
actually for a tip though it tweeted

1637
01:07:34,830 --> 01:07:33,370
some of those

1638
01:07:36,960 --> 01:07:34,840

I realized there are a couple more links

1639

01:07:38,690 --> 01:07:36,970

within that mystical Irenaeus section

1640

01:07:43,470 --> 01:07:38,700

one of which had Lou Ellis on those

1641

01:07:45,450 --> 01:07:43,480

resignation letter and we had the actual

1642

01:07:46,830 --> 01:07:45,460

videos themselves to the original

1643

01:07:48,600 --> 01:07:46,840

versions of those videos which only

1644

01:07:53,220 --> 01:07:48,610

about eight nine megabytes in size

1645

01:07:56,550 --> 01:07:53,230

something like that and also limits our

1646

01:07:59,070 --> 01:07:56,560

unredacted report so basically I just

1647

01:08:00,120 --> 01:07:59,080

posted some of that stuff to Twitter and

1648

01:08:02,520 --> 01:08:00,130

creating a little bit of a storm but

1649

01:08:04,230 --> 01:08:02,530

there's no nothing really outstanding to

1650

01:08:05,850 --> 01:08:04,240

be interestingly about it apart from the

1651
01:08:07,230 --> 01:08:05,860
facts you know most have a good rummage

1652
01:08:08,460 --> 01:08:07,240
around the website when I spoke to

1653
01:08:10,530 --> 01:08:08,470
people about it afterwards they seemed

1654
01:08:12,210 --> 01:08:10,540
to imply that it was lots or there was a

1655
01:08:14,100 --> 01:08:12,220
password or something like that but I

1656
01:08:17,970 --> 01:08:14,110
did not experience that when I try to

1657
01:08:20,520 --> 01:08:17,980
access his website people yeah I go

1658
01:08:22,230 --> 01:08:20,530
ahead finish up please yeah yeah I was

1659
01:08:23,910 --> 01:08:22,240
just gonna say I think you know once I

1660
01:08:25,950 --> 01:08:23,920
posted it when I was seem to go to

1661
01:08:27,150 --> 01:08:25,960
access it foreign as well so yeah it

1662
01:08:30,300 --> 01:08:27,160
seemed like it was available for a few

1663
01:08:33,060 --> 01:08:30,310

few days and yeah our chant had

1664

01:08:34,770 --> 01:08:33,070

mentioned earlier that one of the things

1665

01:08:37,560 --> 01:08:34,780

that turned up there was a document that

1666

01:08:39,390 --> 01:08:37,570

does specifically identified the female

1667

01:08:41,280 --> 01:08:39,400

pilot that day flavor but the other

1668

01:08:43,590 --> 01:08:41,290

pilot was a female that's something that

1669

01:08:46,650 --> 01:08:43,600

they had from way back in the day but

1670

01:08:48,480 --> 01:08:46,660

she wanted to stay anonymous she wanted

1671

01:08:50,670 --> 01:08:48,490

no part of any publicity surrounding all

1672

01:08:52,980 --> 01:08:50,680

this that information was in there you

1673

01:08:56,550 --> 01:08:52,990

held back on that information J and

1674

01:09:05,040 --> 01:08:56,560

kudos for you to you for that

1675

01:09:06,810 --> 01:09:05,050

I want a second that wanted to say that

1676

01:09:08,460 --> 01:09:06,820

I'm sorry to interrupt you just want to

1677

01:09:10,680 --> 01:09:08,470

say that I think that shows a lot of

1678

01:09:13,250 --> 01:09:10,690

honor and integrity on your part not

1679

01:09:15,540 --> 01:09:13,260

having revealed the female pilots

1680

01:09:19,440 --> 01:09:15,550

background you know her information her

1681

01:09:21,300 --> 01:09:19,450

name that's really really very important

1682

01:09:23,640 --> 01:09:21,310

that she didn't do that you know it's

1683

01:09:28,040 --> 01:09:23,650

funny people expect journalists to

1684

01:09:31,020 --> 01:09:28,050

reveal everything that's sometimes a

1685

01:09:33,390 --> 01:09:31,030

stereotype but actually what you did was

1686

01:09:35,220 --> 01:09:33,400

important regarding what you didn't do

1687

01:09:38,220 --> 01:09:35,230

and so I just really commend you for

1688

01:09:39,980 --> 01:09:38,230

that thank you very much do you need to

1689

01:09:43,500 --> 01:09:39,990

be a hundred percent honest about

1690

01:09:46,289 --> 01:09:43,510

initiative I posted the a tip

1691

01:09:47,879 --> 01:09:46,299

presentation I also posted

1692

01:09:50,249 --> 01:09:47,889

a couple of images from the nimitz

1693

01:09:52,049 --> 01:09:50,259

incident as well which i think did

1694

01:09:55,680 --> 01:09:52,059

initially have some of those names but

1695

01:09:59,990 --> 01:09:55,690

somebody UFO joe in fact just drop me a

1696

01:10:04,350 --> 01:10:02,850

when it be fair to see on your behalf

1697

01:10:06,240 --> 01:10:04,360

that there was probably an immense

1698

01:10:09,750 --> 01:10:06,250

amount of data to go through

1699

01:10:11,189 --> 01:10:09,760

right so oh absolutely yeah you know

1700

01:10:13,770 --> 01:10:11,199

when you [h__\h] these kind of stuff on a

1701
01:10:16,290 --> 01:10:13,780
website it's you know it's overwhelming

1702
01:10:19,410 --> 01:10:16,300
to come across this kind of stuff anyway

1703
01:10:20,700 --> 01:10:19,420
and you just kind of digest you all of

1704
01:10:22,109 --> 01:10:20,710
the information you know what i mean i

1705
01:10:23,819 --> 01:10:22,119
didn't have any kind of followers at the

1706
01:10:25,819 --> 01:10:23,829
time on twitter so i just thought i was

1707
01:10:30,240 --> 01:10:25,829
gonna post this stuff see what happens

1708
01:10:32,970 --> 01:10:30,250
obviously you know the question i have

1709
01:10:34,319 --> 01:10:32,980
for you is did your jaw drop when you

1710
01:10:36,270 --> 01:10:34,329
realize that you had valuable

1711
01:10:38,370 --> 01:10:36,280
information that nobody had really

1712
01:10:40,379 --> 01:10:38,380
stared at you know that had just

1713
01:10:42,540 --> 01:10:40,389

basically been overlooked were you

1714

01:10:46,439 --> 01:10:42,550

actually astounded when you came across

1715

01:10:50,069 --> 01:10:46,449

some extremely interesting data yeah i

1716

01:10:53,850 --> 01:10:50,079

was surprised it was on the website yeah

1717

01:10:55,260 --> 01:10:53,860

there was a it was also an image so you

1718

01:10:59,280 --> 01:10:55,270

know going to all the different parts

1719

01:11:02,609 --> 01:10:59,290

the miscellaneous website there was

1720

01:11:04,589 --> 01:11:02,619

actually an image that had four discs so

1721

01:11:06,030 --> 01:11:04,599

for cds they're actually listed and see

1722

01:11:08,879 --> 01:11:06,040

these they weren't dvds they weren't

1723

01:11:11,939 --> 01:11:08,889

blu-ray or anything like that and also a

1724

01:11:16,109 --> 01:11:11,949

photograph of a package part of those CD

1725

01:11:18,209 --> 01:11:16,119

said that they were yeah yeah basically

1726

01:11:20,609 --> 01:11:18,219

had come from the pentagon so it's you

1727

01:11:21,839 --> 01:11:20,619

know kind of legitimizes some of the

1728

01:11:24,810 --> 01:11:21,849

information that it was part of those

1729

01:11:30,020 --> 01:11:24,820

releases from t TSA as well but very

1730

01:11:34,770 --> 01:11:32,910

what a fantastic find that you you know

1731

01:11:37,530 --> 01:11:34,780

that kudos to you you did such a

1732

01:11:38,819 --> 01:11:37,540

wonderful job and I have a quick comment

1733

01:11:39,149 --> 01:11:38,829

is well I think I know where you're

1734

01:11:42,330 --> 01:11:39,159

gonna go

1735

01:11:45,060 --> 01:11:42,340

okay go I was gonna ask you first of all

1736

01:11:48,000 --> 01:11:45,070

I just wanted to say that the website is

1737

01:11:51,180 --> 01:11:48,010

gone now it was I think global security

1738

01:11:53,240 --> 01:11:51,190

issues something like that and you know

1739

01:11:55,589 --> 01:11:53,250

when when you had first posted the link

1740

01:11:58,229 --> 01:11:55,599

many of us went there and checked it out

1741

01:11:59,910 --> 01:11:58,239

and tried to make heads or tails of why

1742

01:12:02,880 --> 01:11:59,920

would these documents were there

1743

01:12:04,919 --> 01:12:02,890

what possibly use could it be to have

1744

01:12:07,290 --> 01:12:04,929

this specific collection of documents

1745

01:12:09,750 --> 01:12:07,300

and the only thing I could ever surmise

1746

01:12:11,820 --> 01:12:09,760

would was this was used in some type of

1747

01:12:14,400 --> 01:12:11,830

high-level briefings with people that

1748

01:12:16,620 --> 01:12:14,410

had clearances and so on and that blue

1749

01:12:18,810 --> 01:12:16,630

knew I knew the link guests or to use it

1750

01:12:21,240 --> 01:12:18,820

as that may be a share folders yeah

1751

01:12:22,890 --> 01:12:21,250

maybe it was part of a PowerPoint or

1752

01:12:24,510 --> 01:12:22,900

something like that that he was doing I

1753

01:12:27,660 --> 01:12:24,520

think there was a PowerPoint slides and

1754

01:12:29,370 --> 01:12:27,670

in the folder one uh one of the

1755

01:12:32,010 --> 01:12:29,380

interesting things was Luis Luis

1756

01:12:34,320 --> 01:12:32,020

elizondo's resignation letter which some

1757

01:12:36,570 --> 01:12:34,330

people had asked for previously that

1758

01:12:39,180 --> 01:12:36,580

said you know we want proof that this

1759

01:12:41,160 --> 01:12:39,190

guy did work for you know defense

1760

01:12:43,560 --> 01:12:41,170

intelligence and so on and we want to

1761

01:12:47,669 --> 01:12:43,570

see his resignation letter so there it

1762

01:12:50,340 --> 01:12:47,679

was a part that you might have just you

1763

01:12:53,700 --> 01:12:50,350

know been foreshadowing was that some of

1764

01:12:55,860 --> 01:12:53,710

the names that we had previously thought

1765

01:12:57,510 --> 01:12:55,870

work or accurate because there was some

1766

01:12:59,580 --> 01:12:57,520

confusion in the beginning if you look

1767

01:13:01,770 --> 01:12:59,590

at some of the first news reports about

1768

01:13:05,070 --> 01:13:01,780

some of these especially specifically

1769

01:13:07,860 --> 01:13:05,080

the Nimmons case the pilots names were

1770

01:13:10,680 --> 01:13:07,870

listed as command and flavor and

1771

01:13:12,270 --> 01:13:10,690

lieutenant commander slate and so it was

1772

01:13:15,479 --> 01:13:12,280

reported over and over and over that

1773

01:13:17,370 --> 01:13:15,489

these were the two pilots I had done

1774

01:13:20,070 --> 01:13:17,380

some research that indicated that one of

1775

01:13:22,200 --> 01:13:20,080

the pilots was actually a female and I

1776

01:13:24,990 --> 01:13:22,210

did not actually know her name I had

1777

01:13:27,479 --> 01:13:25,000

some suspicions but none of the primary

1778

01:13:30,390 --> 01:13:27,489

witnesses had mentioned who this person

1779

01:13:33,689 --> 01:13:30,400

was in fact has chance said they told me

1780

01:13:35,790 --> 01:13:33,699

that this pilot does not want to go on

1781

01:13:38,750 --> 01:13:35,800

the record she's still active duty and

1782

01:13:41,040 --> 01:13:38,760

doesn't want to be named and so I had

1783

01:13:42,660 --> 01:13:41,050

reported this you know on some of the

1784

01:13:44,700 --> 01:13:42,670

social media and I got a lot of flack

1785

01:13:47,280 --> 01:13:44,710

for that they said no you're you're

1786

01:13:50,070 --> 01:13:47,290

completely wrong it was a lieutenant

1787

01:13:53,160 --> 01:13:50,080

commander slate was the second pilot he

1788

01:13:56,610 --> 01:13:53,170

was the wingman of that that he was in

1789

01:13:58,350 --> 01:13:56,620

fact was it that when it was at flavors

1790

01:14:00,930 --> 01:13:58,360

weapons systems officer or was it the

1791

01:14:03,750 --> 01:14:00,940

lady pilots it was a lady Hewitt he was

1792

01:14:06,180 --> 01:14:03,760

based on this research that Jay had

1793

01:14:08,400 --> 01:14:06,190

uncovered and this information it sort

1794

01:14:11,060 --> 01:14:08,410

of provide painted that picture okay

1795

01:14:13,770 --> 01:14:11,070

okay now we know who is in what jet and

1796

01:14:16,020 --> 01:14:13,780

none of us were interested in out

1797

01:14:18,209 --> 01:14:16,030

anybody are using any names this was a

1798

01:14:19,560 --> 01:14:18,219

very personal sensitive information on

1799

01:14:21,540 --> 01:14:19,570

that document it said so right at the

1800

01:14:24,450 --> 01:14:21,550

top personal sensitive information not

1801
01:14:26,700 --> 01:14:24,460
be released so we just kind of buried it

1802
01:14:28,919 --> 01:14:26,710
all but it was nice to see that that

1803
01:14:35,640 --> 01:14:28,929
yeah see I was right about that one fat

1804
01:14:38,129 --> 01:14:35,650
so thanks Jay appreciate that and from

1805
01:14:39,870 --> 01:14:38,139
there we get on towards the latter part

1806
01:14:41,970 --> 01:14:39,880
of the year it hasn't been as busy

1807
01:14:44,459 --> 01:14:41,980
certainly as the first half some

1808
01:14:47,339 --> 01:14:44,469
interesting things happened hunt for the

1809
01:14:49,890 --> 01:14:47,349
skinwalker was released in September in

1810
01:14:52,160 --> 01:14:49,900
October I'd the long and Elizondo went

1811
01:14:54,569 --> 01:14:52,170
to Italy we've covered a lot of this in

1812
01:14:55,770 --> 01:14:54,579
excruciating detail in early roundtable

1813
01:14:59,339 --> 01:14:55,780

so I'm not going to spend a whole lot of

1814

01:15:01,319 --> 01:14:59,349

time on that the the TTS a financial

1815

01:15:05,100 --> 01:15:01,329

statement came out anybody have any

1816

01:15:07,680 --> 01:15:05,110

comments on all that at all is anybody

1817

01:15:08,819 --> 01:15:07,690

interested in whether or not Tom DeLonge

1818

01:15:13,830 --> 01:15:08,829

is going to be able to keep a roof over

1819

01:15:15,870 --> 01:15:13,840

his head I think they actually post

1820

01:15:17,729 --> 01:15:15,880

their financial information on their

1821

01:15:20,910 --> 01:15:17,739

website I think what they're trying to

1822

01:15:26,390 --> 01:15:20,920

do right now is ask for donations from

1823

01:15:29,819 --> 01:15:26,400

different states and they also post like

1824

01:15:32,189 --> 01:15:29,829

basically reports indicating the money

1825

01:15:34,140 --> 01:15:32,199

they have received so they've made it

1826
01:15:38,339 --> 01:15:34,150
very public you know they haven't tried

1827
01:15:40,290 --> 01:15:38,349
to hide anything yet I think it took a

1828
01:15:42,689 --> 01:15:40,300
while they weren't immediately able to

1829
01:15:44,399 --> 01:15:42,699
solicit investments in a couple of

1830
01:15:47,189 --> 01:15:44,409
states in there that kind of came along

1831
01:15:48,810 --> 01:15:47,199
later but that in general their money

1832
01:15:50,310 --> 01:15:48,820
worries are their money worries I'm not

1833
01:15:52,350 --> 01:15:50,320
that concerned about it I think it's

1834
01:15:54,450 --> 01:15:52,360
basically all about cash flow that

1835
01:15:57,240 --> 01:15:54,460
initial fundraiser for the two million

1836
01:15:58,890 --> 01:15:57,250
that that kept them going and now

1837
01:16:01,109 --> 01:15:58,900
they've got TV deals which we haven't

1838
01:16:03,930 --> 01:16:01,119

gone into too much but they've got TV

1839

01:16:05,850 --> 01:16:03,940

deals and the the pre-production costs

1840

01:16:07,470 --> 01:16:05,860

or development costs that's going to

1841

01:16:10,020 --> 01:16:07,480

provide some cash flow for them as well

1842

01:16:11,220 --> 01:16:10,030

and running any kind of organization I

1843

01:16:13,649 --> 01:16:11,230

don't care if it's for-profit or

1844

01:16:15,839 --> 01:16:13,659

not-for-profit it's it's all about the

1845

01:16:18,450 --> 01:16:15,849

cash flow and I think they're going to

1846

01:16:20,189 --> 01:16:18,460

be fine one thing I wanted to mention it

1847

01:16:23,729 --> 01:16:20,199

might be kind of a boring detail but

1848

01:16:26,189 --> 01:16:23,739

it's still important to note that the to

1849

01:16:27,600 --> 01:16:26,199

the stars Academy is a public benefit

1850

01:16:29,430 --> 01:16:27,610

corporation

1851

01:16:32,340 --> 01:16:29,440

do you know what that means basically is

1852

01:16:34,919 --> 01:16:32,350

for example public benefits corporation

1853

01:16:37,290 --> 01:16:34,929

that is usually a corporation created by

1854

01:16:39,660 --> 01:16:37,300

the government that performs a specific

1855

01:16:43,859 --> 01:16:39,670

function for the benefit of public such

1856

01:16:47,189 --> 01:16:43,869

as a public library or big Adult Day

1857

01:16:49,260 --> 01:16:47,199

Center but more broadly a public benefit

1858

01:16:52,620 --> 01:16:49,270

corporation can mean any corporation

1859

01:16:54,530 --> 01:16:52,630

created for a charitable purpose so

1860

01:16:58,709 --> 01:16:54,540

though these are usually called

1861

01:17:01,160 --> 01:16:58,719

nonprofit organizations this is not a

1862

01:17:03,600 --> 01:17:01,170

this is a basically a charitable

1863

01:17:05,370 --> 01:17:03,610

corporation called a public benefit

1864

01:17:08,280 --> 01:17:05,380

corporation so you can give them money

1865

01:17:10,229 --> 01:17:08,290

so they can keep going that that sounds

1866

01:17:12,600 --> 01:17:10,239

a little boring but it's important that

1867

01:17:17,070 --> 01:17:12,610

people know that's what they're about

1868

01:17:20,700 --> 01:17:17,080

the one other comment was there was some

1869

01:17:24,629 --> 01:17:20,710

misunderstanding about the SEC report

1870

01:17:26,760 --> 01:17:24,639

that people jumped on showed 37 million

1871

01:17:28,830 --> 01:17:26,770

dollars of debt and so there were some

1872

01:17:31,919 --> 01:17:28,840

reports that said oh look these guys are

1873

01:17:34,020 --> 01:17:31,929

that far in the red but there was some

1874

01:17:36,240 --> 01:17:34,030

later corrections to that in

1875

01:17:39,180 --> 01:17:36,250

explanations in fact to the Stars came

1876

01:17:41,220 --> 01:17:39,190

out with a an explanation kind of

1877

01:17:42,060 --> 01:17:41,230

chastising that one report saying you

1878

01:17:44,490 --> 01:17:42,070

know if you don't know what you're

1879

01:17:46,379 --> 01:17:44,500

talking about don't put this in in print

1880

01:17:47,790 --> 01:17:46,389

as news because you don't know what

1881

01:17:50,220 --> 01:17:47,800

you're talking about and they kind of

1882

01:17:52,890 --> 01:17:50,230

explained what those numbers met and

1883

01:17:55,439 --> 01:17:52,900

indeed it was sort of okay I get it it's

1884

01:17:57,030 --> 01:17:55,449

complex financial stuff that you know

1885

01:18:00,000 --> 01:17:57,040

was kind of boring but it made sense

1886

01:18:04,919 --> 01:18:00,010

after you read that so got it and then

1887

01:18:07,500 --> 01:18:04,929

in November mid-november November the

1888

01:18:10,410 --> 01:18:07,510

14th the release of the long-awaited

1889

01:18:14,100 --> 01:18:10,420

documentary from Dave Beattie the nimitz

1890

01:18:16,879 --> 01:18:14,110

encounters Dave I know you put countless

1891

01:18:19,290 --> 01:18:16,889

hours into all this finally it came out

1892

01:18:21,330 --> 01:18:19,300

tell us a little bit about that that

1893

01:18:23,820 --> 01:18:21,340

process that we had that some rough cuts

1894

01:18:27,510 --> 01:18:23,830

back in April and with the finished

1895

01:18:29,370 --> 01:18:27,520

product that was just fantastic tell us

1896

01:18:30,899 --> 01:18:29,380

all about it I think he ended up with a

1897

01:18:32,609 --> 01:18:30,909

lot more than you were expecting to have

1898

01:18:35,820 --> 01:18:32,619

back in April including some expert

1899

01:18:38,010 --> 01:18:35,830

voiceovers in there yeah you know I mean

1900

01:18:40,200 --> 01:18:38,020

I've been on television producer for my

1901

01:18:41,550 --> 01:18:40,210

entire career um I did I started as a

1902

01:18:44,160 --> 01:18:41,560

news

1903

01:18:46,110 --> 01:18:44,170

and by the way I'm kind of interested in

1904

01:18:47,970 --> 01:18:46,120

learning about this embedded journalist

1905

01:18:49,890 --> 01:18:47,980

and not that familiar with that embedded

1906

01:18:54,180 --> 01:18:49,900

journalist but that's an interesting

1907

01:18:55,740 --> 01:18:54,190

concept but anyways the the film project

1908

01:18:57,959 --> 01:18:55,750

started out of course with the New York

1909

01:19:01,110 --> 01:18:57,969

Times article and I read that and saw

1910

01:19:04,050 --> 01:19:01,120

the interviews that were done and I

1911

01:19:06,900 --> 01:19:04,060

started thinking wow this would be great

1912

01:19:10,050 --> 01:19:06,910

to do a visual representation a

1913

01:19:12,720 --> 01:19:10,060

recreation of this and how can I pull

1914

01:19:15,570 --> 01:19:12,730

that off and I thought well I don't

1915

01:19:18,180 --> 01:19:15,580

really have any money but I can do the

1916

01:19:20,220 --> 01:19:18,190

editing and I probably could do some

1917

01:19:23,940 --> 01:19:20,230

computer graphics that would simulate

1918

01:19:28,140 --> 01:19:23,950

the Jets I have some you know background

1919

01:19:30,060 --> 01:19:28,150

experience in doing CGI so by taking

1920

01:19:33,720 --> 01:19:30,070

those elements and then taking the

1921

01:19:36,030 --> 01:19:33,730

course the story and I also had done

1922

01:19:39,150 --> 01:19:36,040

some documentaries for like History

1923

01:19:43,560 --> 01:19:39,160

Channel and PBS in the past work I know

1924

01:19:45,630 --> 01:19:43,570

the the track to get footage from the US

1925

01:19:48,330 --> 01:19:45,640

government through the National Archives

1926

01:19:49,950 --> 01:19:48,340

for instance and in this case a lot of

1927

01:19:54,300 --> 01:19:49,960

it was from the defense visual

1928

01:19:57,330 --> 01:19:54,310

information center and most US defense

1929

01:20:00,600 --> 01:19:57,340

footage of warships and planes and jets

1930

01:20:03,150 --> 01:20:00,610

and all that is public domain so I was

1931

01:20:05,930 --> 01:20:03,160

able to get footage of for instance the

1932

01:20:10,680 --> 01:20:05,940

USS Nimitz and the Princeton under way

1933

01:20:12,530 --> 01:20:10,690

by combining all those elements you know

1934

01:20:15,180 --> 01:20:12,540

to create a recreation of this event

1935

01:20:18,030 --> 01:20:15,190

turned out to be about 17 minutes in the

1936

01:20:20,250 --> 01:20:18,040

end and it was a great experience I mean

1937

01:20:22,500 --> 01:20:20,260

I worked on it after work and you know

1938

01:20:24,540 --> 01:20:22,510

I'd come home home and let the computer

1939

01:20:27,479 --> 01:20:24,550

run or overnight probably I think I

1940

01:20:31,740 --> 01:20:27,489

started the process back in January or

1941

01:20:33,240 --> 01:20:31,750

February of this year and oh yeah the

1942

01:20:34,440 --> 01:20:33,250

one of the great things it's like I

1943

01:20:36,090 --> 01:20:34,450

don't have I don't have money to fly

1944

01:20:39,570 --> 01:20:36,100

around to try to interview some of these

1945

01:20:40,950 --> 01:20:39,580

primary witnesses I have the camera

1946

01:20:42,840 --> 01:20:40,960

equipment but you know it's kind of

1947

01:20:45,780 --> 01:20:42,850

expensive and takes me away from my day

1948

01:20:51,600 --> 01:20:45,790

job so I reached out to to the stars

1949

01:20:53,080 --> 01:20:51,610

they have a press inquiry contact page

1950

01:20:54,760 --> 01:20:53,090

on their website so

1951

01:20:57,609 --> 01:20:54,770

I think was actually Gary Nolan that

1952

01:20:59,050 --> 01:20:57,619

said that I should do that so I reached

1953

01:21:00,669 --> 01:20:59,060

out to them and I explained that I was

1954

01:21:03,459 --> 01:21:00,679

making this little movie that it was

1955

01:21:04,959 --> 01:21:03,469

gonna be you know given to people for

1956

01:21:08,620 --> 01:21:04,969

free I wasn't gonna charge a

1957

01:21:10,689 --> 01:21:08,630

pay-per-view type you know or theatrical

1958

01:21:12,250 --> 01:21:10,699

or anything like that and that I

1959

01:21:14,919 --> 01:21:12,260

wouldn't use the entire thing I was just

1960

01:21:17,140 --> 01:21:14,929

gonna use some excerpts from it and a

1961

01:21:19,870 --> 01:21:17,150

couple weeks went by and he or anything

1962

01:21:22,270 --> 01:21:19,880

and then I get an email from I'm carried

1963

01:21:25,030 --> 01:21:22,280

along I guess that's Tom's sister saying

1964

01:21:27,490 --> 01:21:25,040

that yeah as long as you know I don't

1965

01:21:29,020 --> 01:21:27,500

charge for it and I you know give them

1966

01:21:31,149 --> 01:21:29,030

credit that it's okay if I use it for

1967

01:21:33,640 --> 01:21:31,159

you know for free or whatever without

1968

01:21:36,760 --> 01:21:33,650

charging so then that gave me that

1969

01:21:38,800 --> 01:21:36,770

aspect of it a interview or primary

1970

01:21:41,140 --> 01:21:38,810

witness to go along with those other two

1971

01:21:46,479 --> 01:21:41,150

elements that I mentioned and you see

1972

01:21:48,760 --> 01:21:46,489

the results right now on YouTube we

1973

01:21:50,950 --> 01:21:48,770

talked a little bit about it but the the

1974

01:21:55,209 --> 01:21:50,960

million views I don't know if there's

1975

01:21:57,459 --> 01:21:55,219

any other UFO dedicated video on YouTube

1976

01:21:58,810 --> 01:21:57,469

with that many views and it would have

1977

01:22:00,640 --> 01:21:58,820

to be pointed out to me I don't remember

1978

01:22:02,470 --> 01:22:00,650

ever seeing a number quite that high a

1979

01:22:04,660 --> 01:22:02,480

chant you're gonna jump in there I just

1980

01:22:07,930 --> 01:22:04,670

kind of say that it's really important

1981

01:22:10,959 --> 01:22:07,940

for people to know that Dave worked very

1982

01:22:13,600 --> 01:22:10,969

hard on that film and you know after

1983

01:22:16,479 --> 01:22:13,610

only three weeks there were a million

1984

01:22:18,609 --> 01:22:16,489

views on it almost and that's just

1985

01:22:21,129 --> 01:22:18,619

incredible you know also wanted to

1986

01:22:22,600 --> 01:22:21,139

mention that some of these films have

1987

01:22:25,660 --> 01:22:22,610

been featured on the History Channel the

1988

01:22:27,370 --> 01:22:25,670

Travel Channel in PBS nationally I had

1989

01:22:29,830 --> 01:22:27,380

the privilege and honor of actually

1990

01:22:33,580 --> 01:22:29,840

being able to interview Dave and it was

1991

01:22:35,709 --> 01:22:33,590

really a i opening interview having the

1992

01:22:38,800 --> 01:22:35,719

opportunity learn more about him and

1993

01:22:41,620 --> 01:22:38,810

find out how he feels about the topic of

1994

01:22:44,070 --> 01:22:41,630

you apology and other subjects also

1995

01:22:48,250 --> 01:22:44,080

additionally so thank you for that Dave

1996

01:22:50,370 --> 01:22:48,260

yeah no problem you know it was it was

1997

01:22:53,140 --> 01:22:50,380

really fun because not only creating the

1998

01:22:54,970 --> 01:22:53,150

film but being able to engage the

1999

01:22:57,430 --> 01:22:54,980

community and ask questions everyone was

2000

01:22:59,979 --> 01:22:57,440

very supportive of the project and you

2001
01:23:02,530 --> 01:22:59,989
know I I was able to provide updates as

2002
01:23:04,689 --> 01:23:02,540
I went along and so on and it was really

2003
01:23:05,800 --> 01:23:04,699
cool I think to look at some of the

2004
01:23:08,440 --> 01:23:05,810
documents and

2005
01:23:13,000 --> 01:23:08,450
listen to the interviews one of my

2006
01:23:17,080 --> 01:23:13,010
friends has a amazing website on Omni

2007
01:23:19,300 --> 01:23:17,090
talk radio you announced Giuliano yeah

2008
01:23:21,730 --> 01:23:19,310
with pretty much every single news

2009
01:23:25,180 --> 01:23:21,740
report that ever took place on this a

2010
01:23:28,000 --> 01:23:25,190
tip subject and I was able to listen to

2011
01:23:30,100 --> 01:23:28,010
all the interviews and compare them so

2012
01:23:32,800 --> 01:23:30,110
you might have one of the pilots giving

2013
01:23:35,200 --> 01:23:32,810

an entire account of the Nimitz of

2014

01:23:37,420 --> 01:23:35,210

counters and another pilot and radar

2015

01:23:40,720 --> 01:23:37,430

operators and so on and by combining

2016

01:23:42,430 --> 01:23:40,730

them all together into one timeline you

2017

01:23:44,710 --> 01:23:42,440

know I think that I got it pretty

2018

01:23:46,660 --> 01:23:44,720

accurate based on the witnesses there's

2019

01:23:48,970 --> 01:23:46,670

some things that are wrong I know like

2020

01:23:52,270 --> 01:23:48,980

there's a couple you know things that

2021

01:23:55,870 --> 01:23:52,280

were unclear about the direction of the

2022

01:23:58,660 --> 01:23:55,880

travel or exact altitude and if it was a

2023

01:24:01,810 --> 01:23:58,670

girl that was on the radio asking about

2024

01:24:04,180 --> 01:24:01,820

the weapons if it was a guy so there's

2025

01:24:05,800 --> 01:24:04,190

some discrepancies that are small and

2026

01:24:09,310 --> 01:24:05,810

minor so what I tried to do is kind of

2027

01:24:11,530 --> 01:24:09,320

if it was a guy or I put both a female

2028

01:24:14,170 --> 01:24:11,540

radio operator and a male radio operator

2029

01:24:16,150 --> 01:24:14,180

and you brought in some ringers you had

2030

01:24:22,720 --> 01:24:16,160

some help in terms of bringing that

2031

01:24:24,370 --> 01:24:22,730

dialogue up to more credibility he tell

2032

01:24:26,920 --> 01:24:24,380

us how well you were able to bring in

2033

01:24:29,290 --> 01:24:26,930

Kevin day who is the radar operator on

2034

01:24:32,080 --> 01:24:29,300

the plainest and who's come forward tell

2035

01:24:34,420 --> 01:24:32,090

us all about that sure you know I guess

2036

01:24:37,210 --> 01:24:34,430

listener says it to this podcast get to

2037

01:24:38,920 --> 01:24:37,220

know that there's some Easter eggs in

2038

01:24:40,840 --> 01:24:38,930

the film and one is that in the

2039

01:24:43,180 --> 01:24:40,850

beginning you'll you know when the

2040

01:24:46,060 --> 01:24:43,190

recreation starts you hear some radio

2041

01:24:49,870 --> 01:24:46,070

operators and one is called Charlie and

2042

01:24:52,900 --> 01:24:49,880

he is talking to e to Hawkeye and that

2043

01:24:56,470 --> 01:24:52,910

pilot or radio operator is on the radio

2044

01:24:59,530 --> 01:24:56,480

called banger well these are two of the

2045

01:25:01,210 --> 01:24:59,540

primary witnesses that were on USS

2046

01:25:04,840 --> 01:25:01,220

Princeton in the combat information

2047

01:25:08,290 --> 01:25:04,850

Center that day in November when this

2048

01:25:10,210 --> 01:25:08,300

whole incident went down they were you

2049

01:25:12,970 --> 01:25:10,220

know seeing the radar screens they were

2050

01:25:16,030 --> 01:25:12,980

hearing the pilots on talkback radios in

2051
01:25:18,340 --> 01:25:16,040
the combat and they were hearing the

2052
01:25:19,660 --> 01:25:18,350
intercepts and so these were the guys

2053
01:25:21,100 --> 01:25:19,670
that were there

2054
01:25:24,430 --> 01:25:21,110
but and I just asked him my hey you want

2055
01:25:26,740 --> 01:25:24,440
to be my film you can do some radio you

2056
01:25:28,540 --> 01:25:26,750
know dialogue and they're like sure so

2057
01:25:30,220 --> 01:25:28,550
we set up a conference call I'm like I

2058
01:25:32,440 --> 01:25:30,230
don't need to go all the way to Oregon

2059
01:25:34,930 --> 01:25:32,450
where Kevin lives I can just put him on

2060
01:25:38,140 --> 01:25:34,940
a speaker phone and it almost sounds

2061
01:25:39,790 --> 01:25:38,150
like a radio and same with Gary who you

2062
01:25:42,190 --> 01:25:39,800
know we kind of had fun that day

2063
01:25:44,770 --> 01:25:42,200

creating that little dialogue and then

2064

01:25:46,510 --> 01:25:44,780

you know I got my wife to do want and

2065

01:25:48,310 --> 01:25:46,520

one of my other buddies he came in and

2066

01:25:49,990 --> 01:25:48,320

did one of the others our pilot so it

2067

01:25:52,540 --> 01:25:50,000

was all done you know without having to

2068

01:25:57,100 --> 01:25:52,550

spend a great deal of money and it was a

2069

01:25:59,170 --> 01:25:57,110

lot of fun as well and by the way at the

2070

01:26:04,020 --> 01:25:59,180

end of the film I say you know if you

2071

01:26:06,400 --> 01:26:04,030

have any information about witnesses to

2072

01:26:09,520 --> 01:26:06,410

UFO sightings for military ships are

2073

01:26:12,010 --> 01:26:09,530

playing give us an email you know give

2074

01:26:14,260 --> 01:26:12,020

us a shout out on this email so I put an

2075

01:26:16,690 --> 01:26:14,270

email address on the film and I've

2076

01:26:20,020 --> 01:26:16,700

probably gotten over a hundred emails

2077

01:26:22,030 --> 01:26:20,030

real don't yeah I've gotten well I have

2078

01:26:24,670 --> 01:26:22,040

witnesses that go all the way back to

2079

01:26:27,130 --> 01:26:24,680

the 50s like hey you know I was on an

2080

01:26:29,590 --> 01:26:27,140

Air Force Base in 1950 whatever and I'll

2081

01:26:31,360 --> 01:26:29,600

tell you them the site that I had it's

2082

01:26:32,650 --> 01:26:31,370

very interesting so now I have this hope

2083

01:26:35,680 --> 01:26:32,660

I could write a book I have a whole

2084

01:26:41,110 --> 01:26:35,690

collection of probably untold UFO

2085

01:26:43,090 --> 01:26:41,120

stories but I have three that are from

2086

01:26:45,580 --> 01:26:43,100

the Nimitz encounters and these are guys

2087

01:26:47,950 --> 01:26:45,590

that have not been heard of before

2088

01:26:50,890 --> 01:26:47,960

no one knows their names and they're

2089

01:26:51,880 --> 01:26:50,900

very interesting and I can I can share

2090

01:26:53,440 --> 01:26:51,890

them with you guys if you want to hear

2091

01:26:54,460 --> 01:26:53,450

about it sure oh yeah of course we want

2092

01:26:59,020 --> 01:26:54,470

to hear about it yes

2093

01:27:02,350 --> 01:26:59,030

okay all right so start out with one

2094

01:27:04,060 --> 01:27:02,360

that's like I'll go from you know you

2095

01:27:05,350 --> 01:27:04,070

know on a scale of one to nine I'll

2096

01:27:07,690 --> 01:27:05,360

start around five and then the last one

2097

01:27:10,500 --> 01:27:07,700

will be like the good one okay so the

2098

01:27:13,330 --> 01:27:10,510

first witness his name is Jason Turner

2099

01:27:15,580 --> 01:27:13,340

he's listening I told him I was gonna

2100

01:27:18,510 --> 01:27:15,590

say his name out there and he okay with

2101
01:27:22,480 --> 01:27:18,520
it he was on the USS Princeton November

2102
01:27:24,100 --> 01:27:22,490
2004 and he wasn't like in the combat

2103
01:27:25,930 --> 01:27:24,110
Information Center sitting behind a

2104
01:27:28,780 --> 01:27:25,940
radar screen actually you work like in

2105
01:27:31,030 --> 01:27:28,790
the ship's store and medical department

2106
01:27:33,430 --> 01:27:31,040
you know I was like a petty officer I

2107
01:27:35,260 --> 01:27:33,440
guess but of course everybody

2108
01:27:37,300 --> 01:27:35,270
that [h__h] and you what was going on on

2109
01:27:41,020 --> 01:27:37,310
that next day or whatever right and he

2110
01:27:42,700 --> 01:27:41,030
had a buddy that worked in the I guess

2111
01:27:45,120 --> 01:27:42,710
it would be in one of the Intel spaces

2112
01:27:47,890 --> 01:27:45,130
on the ship he was like a cryptographic

2113
01:27:50,260 --> 01:27:47,900

technician something like that and he

2114

01:27:51,670 --> 01:27:50,270

invited Jason and he's like hey you got

2115

01:27:53,800 --> 01:27:51,680

to see this video because we have it on

2116

01:27:55,120 --> 01:27:53,810

our console so he had clearance to go

2117

01:27:58,180 --> 01:27:55,130

into that area this ship and it was

2118

01:28:02,110 --> 01:27:58,190

called the sses the ship's signal

2119

01:28:04,930 --> 01:28:02,120

exploitation space where these consoles

2120

01:28:08,320 --> 01:28:04,940

were that they used for you know I guess

2121

01:28:11,770 --> 01:28:08,330

storing Intel and he showed him this

2122

01:28:15,280 --> 01:28:11,780

FLIR video and it is the video that we

2123

01:28:17,170 --> 01:28:15,290

have a copy of but Jason says that the

2124

01:28:19,660 --> 01:28:17,180

video he saw first of all was much

2125

01:28:23,260 --> 01:28:19,670

higher quality much higher resolution

2126
01:28:25,060 --> 01:28:23,270
and he said that it was much longer the

2127
01:28:28,930 --> 01:28:25,070
video that we have is about one minute

2128
01:28:32,310 --> 01:28:28,940
17 seconds and the one he saw was seven

2129
01:28:35,950 --> 01:28:32,320
to ten minutes in length and I said well

2130
01:28:37,540 --> 01:28:35,960
was there anything you know cool on it

2131
01:28:39,340 --> 01:28:37,550
or it's just this white blob in the

2132
01:28:43,150 --> 01:28:39,350
center of the screen like what we

2133
01:28:46,090 --> 01:28:43,160
haven't said no he goes this this thing

2134
01:28:49,300 --> 01:28:46,100
was being chased by the jet and it did a

2135
01:28:50,770 --> 01:28:49,310
90-degree turn you know which you could

2136
01:28:53,740 --> 01:28:50,780
see and he said it just took off like

2137
01:28:55,150 --> 01:28:53,750
hypersonic out of the frame you know as

2138
01:28:56,290 --> 01:28:55,160

part of this thing I go whoa is that in

2139

01:28:58,060 --> 01:28:56,300

the video that we have you guys know

2140

01:28:59,470 --> 01:28:58,070

that you don't see that in the FLIR

2141

01:29:02,890 --> 01:28:59,480

video we have but it was on this

2142

01:29:04,209 --> 01:29:02,900

original one that he saw so you know

2143

01:29:08,200 --> 01:29:04,219

somewhere that's out there this

2144

01:29:10,870 --> 01:29:08,210

10-minute FLIR did yeah and I asked him

2145

01:29:13,030 --> 01:29:10,880

I go well did you see anybody come on to

2146

01:29:15,970 --> 01:29:13,040

the ship or were you asked not to talk

2147

01:29:17,260 --> 01:29:15,980

about this he said no they weren't ever

2148

01:29:20,830 --> 01:29:17,270

told not to talk about it

2149

01:29:22,750 --> 01:29:20,840

he said that when the ship docked after

2150

01:29:24,250 --> 01:29:22,760

you know that training I guess in San

2151

01:29:27,370 --> 01:29:24,260

Diego when they came back to port

2152

01:29:31,560 --> 01:29:27,380

he said that guys came on board in

2153

01:29:33,970 --> 01:29:31,570

plainclothes and secured all the data

2154

01:29:36,459 --> 01:29:33,980

from the ship all the radar and

2155

01:29:38,380 --> 01:29:36,469

everything and took it away so that was

2156

01:29:39,880 --> 01:29:38,390

like the last he saw that and he didn't

2157

01:29:42,250 --> 01:29:39,890

know who I don't think he knew who these

2158

01:29:45,040 --> 01:29:42,260

guys were aside from the officers that

2159

01:29:46,820 --> 01:29:45,050

were part of the Navy so that's one

2160

01:29:49,130 --> 01:29:46,830

interesting story and

2161

01:29:51,080 --> 01:29:49,140

Jason's out there and you know he

2162

01:29:54,710 --> 01:29:51,090

doesn't mind having his name used and

2163

01:29:55,580 --> 01:29:54,720

and so on so okay the next yeah any

2164

01:29:59,900 --> 01:29:55,590

questions by the way

2165

01:30:01,760 --> 01:29:59,910

no keep going okay next one again these

2166

01:30:05,330 --> 01:30:01,770

long names through the email that I had

2167

01:30:07,310 --> 01:30:05,340

set up on at Nimitz the Nimitz

2168

01:30:09,890 --> 01:30:07,320

encounters comm you know

2169

01:30:13,400 --> 01:30:09,900

so the the second guy was on the USS

2170

01:30:18,680 --> 01:30:13,410

Nimitz and he was in the Wallbanger

2171

01:30:21,470 --> 01:30:18,690

squadron this is the e2 Hawkeye early

2172

01:30:24,110 --> 01:30:21,480

the radar plan the radar plan yeah the

2173

01:30:26,090 --> 01:30:24,120

one you seen in my film banger you know

2174

01:30:28,340 --> 01:30:26,100

with a giant round radar dish I'm

2175

01:30:30,530 --> 01:30:28,350

sitting on top of it they normally

2176

01:30:32,540 --> 01:30:30,540

control the fighter jets when there's

2177

01:30:36,020 --> 01:30:32,550

like you know missions going on they get

2178

01:30:38,180 --> 01:30:36,030

up high and they can see everything so

2179

01:30:42,590 --> 01:30:38,190

they're sort of like a air traffic

2180

01:30:45,350 --> 01:30:42,600

control in the sky well this guy was on

2181

01:30:50,320 --> 01:30:45,360

there he was a an avionics technician

2182

01:30:54,110 --> 01:30:50,330

and his job was when these planes landed

2183

01:30:56,930 --> 01:30:54,120

they would to maintenance on the on the

2184

01:30:59,570 --> 01:30:56,940

planes but his job was to secure and

2185

01:31:02,150 --> 01:30:59,580

remove part of the avionics are these

2186

01:31:04,340 --> 01:31:02,160

hard drives he said that they record the

2187

01:31:08,060 --> 01:31:04,350

radar tracks on you know I guess it's

2188

01:31:11,330 --> 01:31:08,070

kept as a copy and on that day when that

2189

01:31:13,460 --> 01:31:11,340

particular mission came back in that e

2190

01:31:17,660 --> 01:31:13,470

to Hawkeye I guess you know the one in

2191

01:31:19,520 --> 01:31:17,670

my film or one of them landed the plane

2192

01:31:23,570 --> 01:31:19,530

was sitting there for like 20 minutes

2193

01:31:25,070 --> 01:31:23,580

and they were taking these parts off the

2194

01:31:28,030 --> 01:31:25,080

skipper or the commanding officer came

2195

01:31:30,920 --> 01:31:28,040

up and he said there's some guys here

2196

01:31:33,410 --> 01:31:30,930

they were going to take that material so

2197

01:31:35,780 --> 01:31:33,420

you know we need to get those hard

2198

01:31:40,460 --> 01:31:35,790

drives and he says that there were like

2199

01:31:43,250 --> 01:31:40,470

two Air Force officers or two United

2200

01:31:47,540 --> 01:31:43,260

States Air Force personnel that had been

2201

01:31:49,130 --> 01:31:47,550

they had landed on Nimitz that morning

2202

01:31:52,310 --> 01:31:49,140

or that afternoon and they were there to

2203

01:31:54,800 --> 01:31:52,320

take these hard drives off of this EP

2204

01:31:56,720 --> 01:31:54,810

Hawkeye and he saw of him like take them

2205

01:31:59,480 --> 01:31:56,730

and they were they confiscated these

2206

01:32:01,940 --> 01:31:59,490

hard drives and then they were gone

2207

01:32:03,950 --> 01:32:01,950

I had never heard that I said you sure

2208

01:32:05,990 --> 01:32:03,960

these were United States Air Force on a

2209

01:32:07,910 --> 01:32:06,000

navy carrier he's like yep he goes

2210

01:32:11,090 --> 01:32:07,920

they stood out like a sore thumb ha ha

2211

01:32:14,030 --> 01:32:11,100

ha ha ha well you know I've heard of you

2212

01:32:16,640 --> 01:32:14,040

know the OSI or whatever you know so

2213

01:32:20,150 --> 01:32:16,650

perhaps he's correct I mean I I would

2214

01:32:22,700 --> 01:32:20,160

assume you know in by the way I went I

2215

01:32:25,190 --> 01:32:22,710

can't 100% verify these guys cuz I

2216

01:32:30,170 --> 01:32:25,200

didn't go and see their ID like but I

2217

01:32:33,710 --> 01:32:30,180

did go to the USS Nimitz cruise book and

2218

01:32:35,930 --> 01:32:33,720

look them up and sure enough they're you

2219

01:32:37,070 --> 01:32:35,940

know that they claimed to be these guys

2220

01:32:38,870 --> 01:32:37,080

and I'm looking at their picture and

2221

01:32:42,080 --> 01:32:38,880

there's her name they were on the ship

2222

01:32:46,760 --> 01:32:42,090

and that's their job so you know unless

2223

01:32:48,020 --> 01:32:46,770

I get that DD whatever form I'm you know

2224

01:32:51,020 --> 01:32:48,030

I'm just gonna have to go with it and

2225

01:32:52,670 --> 01:32:51,030

say yeah pretty sure they're telling me

2226

01:32:56,630 --> 01:32:52,680

the truth and you're not just you know

2227

01:33:00,170 --> 01:32:56,640

pulling my leg ok so the last one this

2228

01:33:03,020 --> 01:33:00,180

witness this is pretty cool he was a

2229

01:33:08,860 --> 01:33:03,030

radar officer with the Wallbanger

2230

01:33:11,120 --> 01:33:08,870

squadron so he flew in the Hawkeye and

2231

01:33:12,260 --> 01:33:11,130

both of these last two they don't want

2232

01:33:15,260 --> 01:33:12,270

their names mentioned at least

2233

01:33:17,000 --> 01:33:15,270

physically so they're anonymous this guy

2234

01:33:20,330 --> 01:33:17,010

was just a radar officer

2235

01:33:23,990 --> 01:33:20,340

he says that they were up there and he

2236

01:33:26,660 --> 01:33:24,000

heard the Jets flavor and slit 8th and

2237

01:33:28,850 --> 01:33:26,670

Kuykendall these guys on the radio he

2238

01:33:31,850 --> 01:33:28,860

heard the you know weapons load out and

2239

01:33:33,410 --> 01:33:31,860

these intercepts and he said that it was

2240

01:33:35,870 --> 01:33:33,420

kind of scary because they didn't know

2241

01:33:37,850 --> 01:33:35,880

if there was hostile and Ted it says

2242

01:33:41,030 --> 01:33:37,860

what was going on so it was very tense

2243

01:33:43,370 --> 01:33:41,040

day and he was kind of glad that no

2244

01:33:47,150 --> 01:33:43,380

casualties resulted in any of this stuff

2245

01:33:51,020 --> 01:33:47,160

but he said that he and the crew saw the

2246

01:33:53,990 --> 01:33:51,030

tic-tacs that on this Hawkeye he said

2247

01:33:56,960 --> 01:33:54,000

that this craft trance he says it

2248

01:33:59,600 --> 01:33:56,970

transited very quickly and then for a

2249

01:34:01,880 --> 01:33:59,610

second he said it joined up on their

2250

01:34:03,770 --> 01:34:01,890

hawkeye egg I'm not sure if that meant

2251

01:34:06,110 --> 01:34:03,780

like off the wing or whatever and then

2252

01:34:09,830 --> 01:34:06,120

it took off for like 2 or 3 seconds so

2253

01:34:12,890 --> 01:34:09,840

he said that everybody on a plane saw

2254

01:34:14,419 --> 01:34:12,900

the tic-tac and so

2255

01:34:15,649 --> 01:34:14,429

finally the missions over and they're

2256

01:34:17,149 --> 01:34:15,659

coming back you know the call back to

2257

01:34:20,510 --> 01:34:17,159

the carrier to come into trap on the

2258

01:34:24,770 --> 01:34:20,520

carrier and over the radio they're told

2259

01:34:27,649 --> 01:34:24,780

to sit there and not to turn off the

2260

01:34:29,240 --> 01:34:27,659

motor and he said that that means it's

2261

01:34:31,520 --> 01:34:29,250

called like a hot pump he said that

2262

01:34:32,990 --> 01:34:31,530

their engines are running in a combat

2263

01:34:34,850 --> 01:34:33,000

situation I guess they would they would

2264

01:34:37,430 --> 01:34:34,860

sometimes refuel the plane as it just

2265

01:34:38,840 --> 01:34:37,440

sits there on the dock and then take off

2266

01:34:41,750 --> 01:34:38,850

again or something he so it was very

2267

01:34:44,959 --> 01:34:41,760

unusual in this situation to be asked to

2268

01:34:46,370 --> 01:34:44,969

sit there with the engines running he

2269

01:34:50,090 --> 01:34:46,380

said okay after 20 minutes they were

2270

01:34:52,729 --> 01:34:50,100

given the order to you know take turn

2271

01:34:55,459 --> 01:34:52,739

off the engines and come out they were

2272

01:34:57,350 --> 01:34:55,469

met there on the deck by their Co or

2273

01:34:59,180 --> 01:34:57,360

their skipper or whatever and a couple

2274

01:35:02,479 --> 01:34:59,190

of under individuals and they were told

2275

01:35:06,979 --> 01:35:02,489

to follow them downstairs into some some

2276

01:35:09,590 --> 01:35:06,989

secure area on the carrier when they got

2277

01:35:11,780 --> 01:35:09,600

into the secure area they began

2278

01:35:15,410 --> 01:35:11,790

individually briefing these guys and

2279

01:35:19,430 --> 01:35:15,420

they told them nothing you didn't see

2280

01:35:22,939 --> 01:35:19,440

anything this did not happen and they

2281

01:35:26,660 --> 01:35:22,949

had them sign you know affidavits or

2282

01:35:28,370 --> 01:35:26,670

NDA's or something so he's saying you

2283

01:35:31,610 --> 01:35:28,380

know he had to sign something that he

2284

01:35:34,250 --> 01:35:31,620

would not discuss this incident he said

2285

01:35:37,580 --> 01:35:34,260

after that they were led back to their

2286

01:35:39,919 --> 01:35:37,590

ready room and when they got back they

2287

01:35:42,530 --> 01:35:39,929

were another unusual thing they were

2288

01:35:44,870 --> 01:35:42,540

told that they were not going to debrief

2289

01:35:47,479 --> 01:35:44,880

the mission which was something that

2290

01:35:49,700 --> 01:35:47,489

they always did they were tyke talk

2291

01:35:52,550 --> 01:35:49,710

about safety issues or post-flight

2292

01:35:54,590 --> 01:35:52,560

call-outs in this case they weren't even

2293

01:35:58,399 --> 01:35:54,600

allowed to talk about the flight at all

2294

01:36:00,620 --> 01:35:58,409

and so I mean he was said he was told

2295

01:36:02,270 --> 01:36:00,630

this didn't happen and he said after he

2296

01:36:05,570 --> 01:36:02,280

saw my film he was like this is like the

2297

01:36:07,399 --> 01:36:05,580

first time in you know 14 years that I

2298

01:36:09,950 --> 01:36:07,409

was able to look at that and go you know

2299

01:36:11,330 --> 01:36:09,960

what it's great to see that because for

2300

01:36:15,040 --> 01:36:11,340

all these years I was really starting to

2301
01:36:19,640 --> 01:36:15,050
think maybe it really did not happen so

2302
01:36:21,860 --> 01:36:19,650
there's three brand-new semi one one

2303
01:36:24,770 --> 01:36:21,870
Prime in a couple other witnesses that

2304
01:36:26,689 --> 01:36:24,780
saw all this stuff you know to sort of

2305
01:36:30,500 --> 01:36:26,699
indicate an even further stir

2306
01:36:32,750 --> 01:36:30,510
this as a real very unexplained case you

2307
01:36:35,479 --> 01:36:32,760
know I think it's a top 10 all-time case

2308
01:36:38,120 --> 01:36:35,489
just because of who's involved and the

2309
01:36:44,299 --> 01:36:38,130
hub that surrounded it I'm big on ha Bob

2310
01:36:47,060 --> 01:36:44,309
so I think it's a top so uh I I wanted a

2311
01:36:50,989 --> 01:36:47,070
a Steve um regarding your nimitz

2312
01:36:53,149 --> 01:36:50,999
encounters film if anybody were to take

2313
01:36:55,580 --> 01:36:53,159

anything away from your film without

2314

01:36:57,890 --> 01:36:55,590

really giving you know way too much what

2315

01:36:58,819 --> 01:36:57,900

would you say is one of the most

2316

01:37:02,109 --> 01:36:58,829

important things

2317

01:37:06,859 --> 01:37:02,119

somebody can gain from watching it I

2318

01:37:08,540 --> 01:37:06,869

would say that you know in again I I

2319

01:37:11,270 --> 01:37:08,550

look at the comments in the video and

2320

01:37:12,979 --> 01:37:11,280

these are probably people that are into

2321

01:37:15,080 --> 01:37:12,989

UFO it was you know I mean they might

2322

01:37:17,259 --> 01:37:15,090

look at it just cuz it's on a popular

2323

01:37:20,029 --> 01:37:17,269

list or something and in their feed and

2324

01:37:23,209 --> 01:37:20,039

they'll say this didn't happen this is

2325

01:37:25,489 --> 01:37:23,219

not real this is BS there is no way that

2326

01:37:27,589 --> 01:37:25,499

this really happened you know I've seen

2327

01:37:31,819 --> 01:37:27,599

the beginning of a disclaimer saying

2328

01:37:36,049 --> 01:37:31,829

that it's not presented in fact and my

2329

01:37:38,629 --> 01:37:36,059

reply is no it did happen you can look

2330

01:37:41,689 --> 01:37:38,639

at the these links to the New York Times

2331

01:37:44,089 --> 01:37:41,699

article you can look at this interview

2332

01:37:47,120 --> 01:37:44,099

that this fighter this commanding

2333

01:37:50,569 --> 01:37:47,130

officer or the fighter squadron his

2334

01:37:52,339 --> 01:37:50,579

statements the corroborating witness

2335

01:37:54,859 --> 01:37:52,349

statements it did happen

2336

01:37:58,580 --> 01:37:54,869

it's just unexplained I'm not saying

2337

01:38:00,290 --> 01:37:58,590

that these white objects are aliens from

2338

01:38:01,819 --> 01:38:00,300

another planet I'm just saying that we

2339

01:38:03,680 --> 01:38:01,829

don't know what they are and I don't

2340

01:38:06,799 --> 01:38:03,690

think the military knows either but

2341

01:38:09,319 --> 01:38:06,809

maybe they do I don't know I mean when

2342

01:38:11,299 --> 01:38:09,329

you have people telling you know radar

2343

01:38:14,419 --> 01:38:11,309

technicians that hey you didn't see

2344

01:38:17,810 --> 01:38:14,429

anything don't ever talk about this I'm

2345

01:38:19,459 --> 01:38:17,820

not sure why they would do that but I

2346

01:38:22,100 --> 01:38:19,469

think the biggest takeaway I would say

2347

01:38:24,709 --> 01:38:22,110

is yeah it did happen I don't think we

2348

01:38:26,359 --> 01:38:24,719

know why or what they are yet so well

2349

01:38:28,430 --> 01:38:26,369

and that's a really important point you

2350

01:38:31,310 --> 01:38:28,440

made regarding sort of the unexplained

2351

01:38:32,569 --> 01:38:31,320

physics of something going so fast you

2352

01:38:34,459 --> 01:38:32,579

don't really know what they are you

2353

01:38:36,560 --> 01:38:34,469

can't really say oh that was an

2354

01:38:38,629 --> 01:38:36,570

extraterrestrial craft but there was an

2355

01:38:41,270 --> 01:38:38,639

unidentified craft that was going at

2356

01:38:45,140 --> 01:38:41,280

speeds that were beyond what we are

2357

01:38:47,210 --> 01:38:45,150

especially I'm a dad hovering start and

2358

01:38:51,560 --> 01:38:47,220

it's not just somebody's eyeballs I mean

2359

01:38:54,530 --> 01:38:51,570

the the USS Princeton and aegis system

2360

01:38:58,760 --> 01:38:54,540

the spy-1 radar is probably one of the

2361

01:39:01,850 --> 01:38:58,770

most advanced radars we have on a naval

2362

01:39:03,380 --> 01:39:01,860

platform George Knapp likes to say you

2363

01:39:04,490 --> 01:39:03,390

could see a golf ball at a hundred miles

2364

01:39:09,050 --> 01:39:04,500

or something like that I mean these

2365

01:39:10,700 --> 01:39:09,060

things can I submarine you know you know

2366

01:39:12,080 --> 01:39:10,710

the mast or something sticking out of

2367

01:39:13,220 --> 01:39:12,090

water and antenna from a submarine

2368

01:39:15,080 --> 01:39:13,230

sticking out of the water they probably

2369

01:39:17,410 --> 01:39:15,090

could see that from miles away

2370

01:39:19,910 --> 01:39:17,420

so it's a very sophisticated radar and

2371

01:39:23,120 --> 01:39:19,920

seven-day says the they were tracking

2372

01:39:25,600 --> 01:39:23,130

these thing coming in from above the the

2373

01:39:28,310 --> 01:39:25,610

height of the stand island they call it

2374

01:39:31,430 --> 01:39:28,320

sixty to eighty thousand you know and

2375

01:39:33,350 --> 01:39:31,440

then in the atmosphere dropping to the

2376

01:39:36,470 --> 01:39:33,360

surface of the water in less than one

2377

01:39:39,140 --> 01:39:36,480

second which would put the speed at you

2378

01:39:40,370 --> 01:39:39,150

know it's just I don't know like fifteen

2379

01:39:42,980 --> 01:39:40,380

thousand miles an hour or something like

2380

01:39:46,430 --> 01:39:42,990

that that you know you just you it

2381

01:39:49,580 --> 01:39:46,440

defies physics so I don't know I mean

2382

01:39:51,800 --> 01:39:49,590

I'm not sure we have some technology

2383

01:39:54,770 --> 01:39:51,810

like that guess bob lazar say sure we

2384

01:39:56,630 --> 01:39:54,780

have it but I don't have the proof of

2385

01:39:59,720 --> 01:39:56,640

that so I don't know what they are but

2386

01:40:02,510 --> 01:39:59,730

this event did happen and many people

2387

01:40:03,020 --> 01:40:02,520

saw that and you know and explained and

2388

01:40:05,690 --> 01:40:03,030

I died

2389

01:40:07,790 --> 01:40:05,700

radar is physical evidence I can't drive

2390

01:40:10,460 --> 01:40:07,800

that home enough I've spoken to a couple

2391

01:40:13,010 --> 01:40:10,470

physicists we're on the same page on

2392

01:40:15,890 --> 01:40:13,020

that professor Stark and professor Knuth

2393

01:40:17,780 --> 01:40:15,900

I asked both of them specifically radar

2394

01:40:19,580 --> 01:40:17,790

is physical evidence a lot of people run

2395

01:40:22,610 --> 01:40:19,590

around and say oh where's the evidence

2396

01:40:25,240 --> 01:40:22,620

radar that's the evidence well

2397

01:40:27,530 --> 01:40:25,250

unfortunately a book according

2398

01:40:31,400 --> 01:40:27,540

technician the US Air Force came and

2399

01:40:35,960 --> 01:40:31,410

took the radar data and confiscated it

2400

01:40:38,960 --> 01:40:35,970

so I didn't say it was easy to get I

2401

01:40:40,730 --> 01:40:38,970

just say it is yeah and of course I as

2402

01:40:43,100 --> 01:40:40,740

we spoke about earlier they changed the

2403

01:40:45,650 --> 01:40:43,110

law regarding out for your request in

2404

01:40:47,840 --> 01:40:45,660

radar so there's all that well yeah

2405

01:40:49,970 --> 01:40:47,850

we're yeah we're gonna wrap things up

2406

01:40:52,640 --> 01:40:49,980

but we've got a good hour now three core

2407

01:40:55,550 --> 01:40:52,650

and I think we reviewed the year pretty

2408

01:40:56,750 --> 01:40:55,560

thoroughly we we lost grant that

2409

01:40:59,630 --> 01:40:56,760

somewhere early along the way weren't

2410

01:41:01,520 --> 01:40:59,640

able to pick him back up but he was able

2411

01:41:03,560 --> 01:41:01,530

to make some key contributions early on

2412

01:41:05,840 --> 01:41:03,570

the latter part of the year I was a lot

2413

01:41:07,729 --> 01:41:05,850

from Jay and Dave regardless and a lot

2414

01:41:11,060 --> 01:41:07,739

of stuff that we already covered in

2415

01:41:12,710 --> 01:41:11,070

recent roundtables pretty well we we

2416

01:41:15,710 --> 01:41:12,720

took all the meat off of those bones

2417

01:41:18,530 --> 01:41:15,720

within the last few weeks so not gonna

2418

01:41:20,690 --> 01:41:18,540

repeat ourselves on that I'm gonna wrap

2419

01:41:22,580 --> 01:41:20,700

things up and I want to go around the

2420

01:41:24,740 --> 01:41:22,590

horn and thank everybody for joining us

2421

01:41:26,660 --> 01:41:24,750

thanks grant Cameron now if you're

2422

01:41:29,030 --> 01:41:26,670

listening sorry we lost you there

2423

01:41:30,500 --> 01:41:29,040

but really yeah oh yeah grant you're

2424

01:41:33,800 --> 01:41:30,510

back okay yeah sorry about that

2425

01:41:37,220 --> 01:41:33,810

okay your big scoop it was good yeah

2426

01:41:39,680 --> 01:41:37,230

yeah so uh grant thanks so much for

2427

01:41:42,110 --> 01:41:39,690

coming on now thanks for coming on for a

2428

01:41:45,740 --> 01:41:42,120

third time now and also helping us

2429

01:41:47,510 --> 01:41:45,750

promote the show with links at over on

2430

01:41:50,390 --> 01:41:47,520

your Facebook pages

2431

01:41:52,760 --> 01:41:50,400

thanks again so much you've been a huge

2432

01:41:54,490 --> 01:41:52,770

help to us and I can't appreciate your

2433

01:41:56,750 --> 01:41:54,500

early Christmas present to us and after

2434

01:41:59,870 --> 01:41:56,760

well I appreciate I appreciate being on

2435

01:42:02,090 --> 01:41:59,880

I appreciate being these young people

2436

01:42:04,850 --> 01:42:02,100

who have got things under control I

2437

01:42:05,690 --> 01:42:04,860

think we're working on it's a work in

2438

01:42:08,450 --> 01:42:05,700

progress

2439

01:42:10,580 --> 01:42:08,460

Johana thanks so much for coming on

2440

01:42:12,830 --> 01:42:10,590

again for a second time I'm sure we'll

2441

01:42:15,229 --> 01:42:12,840

be having you back on in the future I

2442

01:42:17,060 --> 01:42:15,239

think maybe some scoops might be coming

2443

01:42:19,970 --> 01:42:17,070

your way if you stay on it thanks again

2444

01:42:22,580 --> 01:42:19,980

yeah thank you and scoops will be coming

2445

01:42:28,670 --> 01:42:22,590

your way we already discussed that I

2446

01:42:32,200 --> 01:42:28,680

also wanted to congratulate you and your

2447

01:42:34,340 --> 01:42:32,210

co-hosts for a fantastic berth and

2448

01:42:35,960 --> 01:42:34,350

there's more to come for next year so

2449

01:42:38,270 --> 01:42:35,970

I'm really excited about all your guests

2450

01:42:41,600 --> 01:42:38,280

next year you better believe it I can't

2451

01:42:42,979 --> 01:42:41,610

say this is gonna be our last show it is

2452

01:42:44,360 --> 01:42:42,989

as far as I'm concerned but you never

2453

01:42:47,150 --> 01:42:44,370

know with James he might pull a rabbit

2454

01:42:49,250 --> 01:42:47,160

out of his hat and we might get one more

2455

01:42:50,930 --> 01:42:49,260

thing going I can assure you all if we

2456

01:42:52,850 --> 01:42:50,940

do it'll be a big one

2457

01:42:55,790 --> 01:42:52,860

Twitter Jay thanks for coming on again

2458

01:42:58,670 --> 01:42:55,800

my friend you were awesome again as

2459

01:43:00,500 --> 01:42:58,680

always I'm sure you're gonna be back -

2460

01:43:03,280 --> 01:43:00,510

no doubt about that in my mind that was

2461

01:43:07,760 --> 01:43:03,290

some more spectacular

2462

01:43:09,770 --> 01:43:07,770

yeah no worries uh come on any time

2463

01:43:11,240 --> 01:43:09,780

think about any other kind of stuff that

2464

01:43:14,930 --> 01:43:11,250

I'm putting up rights the environment

2465

01:43:17,150 --> 01:43:14,940

yeah steer probably yep absolutely and

2466

01:43:19,550 --> 01:43:17,160

again that day baby I know we want to do

2467

01:43:22,600 --> 01:43:19,560

more with your work and I know you've

2468

01:43:25,310 --> 01:43:22,610

recommended Christoph Spitzer as a

2469

01:43:27,729 --> 01:43:25,320

person that we should get more in touch

2470

01:43:30,290 --> 01:43:27,739

with I'm sure that's going to happen

2471

01:43:32,690 --> 01:43:30,300

think things do happen as far as getting

2472

01:43:34,430 --> 01:43:32,700

these shows on the road but believe me I

2473

01:43:36,290 --> 01:43:34,440

have not forgotten about that tip and

2474

01:43:38,380 --> 01:43:36,300

thanks for all that you've done for our

2475

01:43:41,840 --> 01:43:38,390

show I appreciate it

2476

01:43:43,880 --> 01:43:41,850

yeah thanks Frank I really appreciate

2477

01:43:47,570 --> 01:43:43,890

the invite on your show I mean I listen

2478

01:43:50,510 --> 01:43:47,580

to it being part of the discussion is is

2479

01:43:55,729 --> 01:43:50,520

humble to me to be you know amongst

2480

01:43:59,540 --> 01:43:55,739

these people and I just liked it you

2481

01:44:02,120 --> 01:43:59,550

know taking your time put together this

2482

01:44:05,120 --> 01:44:02,130

for the listeners out there and 2019

2483

01:44:06,860 --> 01:44:05,130

it's just as big as 2018 yeah though

2484

01:44:09,200 --> 01:44:06,870

there was a lot of complaining over the

2485

01:44:11,300 --> 01:44:09,210

course of the year but in between all

2486

01:44:13,790 --> 01:44:11,310

the complaining we did turn up some good

2487

01:44:15,200 --> 01:44:13,800

stuff we know more about UFOs today than

2488

01:44:15,890 --> 01:44:15,210

we did this time last year and that's

2489

01:44:17,360 --> 01:44:15,900

always a good thing

2490

01:44:19,640 --> 01:44:17,370

alright so I'm gonna wrap it up

2491

01:44:21,470 --> 01:44:19,650

everybody thanks for your support thanks

2492

01:44:23,660 --> 01:44:21,480

for listening merry Christmas to

2493

01:44:26,540 --> 01:44:23,670

everybody I'm going to close out the

2494

01:44:28,670 --> 01:44:26,550

show with a little bit of audio from 50

2495

01:44:31,910 --> 01:44:28,680

years ago this coming New Year's Eve

2496

01:44:34,670 --> 01:44:31,920

the Apollo 8 astronauts sent their

2497

01:44:38,060 --> 01:44:34,680

Christmas greetings back to Planet Earth

2498

01:44:40,430 --> 01:44:38,070

I'm gonna play that it was it was big

2499

01:44:42,440 --> 01:44:40,440

for me I remember watching this very

2500

01:44:44,270 --> 01:44:42,450

video well it's not a video it's an

2501

01:44:47,090 --> 01:44:44,280

audio but I remember watching this

2502

01:44:49,610 --> 01:44:47,100

moment as it unfolded sitting at home as

2503

01:44:51,890 --> 01:44:49,620

an 8 year old kid just blown away by it

2504

01:44:53,810 --> 01:44:51,900

so I'm gonna close I go to astronaut

2505

01:44:55,430 --> 01:44:53,820

Frank Borman gonna wrap this up I'm

2506

01:44:57,380 --> 01:44:55,440

gonna need to ask everybody to be a

2507

01:44:59,780 --> 01:44:57,390

little quiet while this little snippet

2508

01:45:02,570 --> 01:44:59,790

plays but our holiday greetings to you
