

**DAVE BEATY
EARL GREY
MICHAEL HALL
RICH HOFFMAN
SHANE HURD
JEFF KRAUSE
DR. IRENA SCOTT**

**UFONN
SUNDAY**

**2019 SPRING
MEGAPANEL**

1
00:01:27,370 --> 00:00:46,350

[Music]

2
00:01:33,050 --> 00:01:30,770

and good afternoon Frank here with

3
00:01:36,190 --> 00:01:33,060

another episode of UFO news network

4
00:01:39,349 --> 00:01:36,200

Sunday we recorded this show earlier

5
00:01:42,529 --> 00:01:39,359

started maybe 15 to 20 minutes into the

6
00:01:44,149 --> 00:01:42,539

conversation YouTube was nice enough not

7
00:01:45,789 --> 00:01:44,159

to tell me that they had changed their

8
00:01:47,899 --> 00:01:45,799

server configurations and the

9
00:01:49,459 --> 00:01:47,909

information I was looking at on the

10
00:01:51,800 --> 00:01:49,469

board here through the OBS studio

11
00:01:54,199 --> 00:01:51,810

software indicated that it was streaming

12
00:01:55,940 --> 00:01:54,209

just fine but there was none at all so I

13
00:01:59,380 --> 00:01:55,950

think I've got that problem fixed and

14

00:02:02,359 --> 00:01:59,390

what I'm going to do is go to the

15

00:02:05,089 --> 00:02:02,369

recorded conversation that we did a

16

00:02:07,069 --> 00:02:05,099

little bit earlier today we're gonna

17

00:02:09,559 --> 00:02:07,079

pick up the action like I said about 15

18

00:02:12,050 --> 00:02:09,569

minutes in and you'll be able to see

19

00:02:14,240 --> 00:02:12,060

who's on and all that through the new

20

00:02:15,860 --> 00:02:14,250

scroll down at the bottom and through

21

00:02:17,960 --> 00:02:15,870

the slides but you'll be able to pick up

22

00:02:22,069 --> 00:02:17,970

as we go along so let me make those

23

00:02:26,210 --> 00:02:22,079

changes hang on a sec here going to do

24

00:02:28,460 --> 00:02:26,220

that and we will be ready to go as a

25

00:02:34,069 --> 00:02:28,470

great show unfortunately YouTube

26

00:02:39,979 --> 00:02:34,079

neglected to tell me that this was

27

00:02:43,729 --> 00:02:39,989

changed so here we go hang on that any

28

00:02:46,839 --> 00:02:43,739

contact with our visitors is going to be

29

00:03:29,380 --> 00:02:46,849

a positive experience and frankly

30

00:03:29,390 --> 00:05:14,720

[Music]

31

00:05:53,339 --> 00:05:30,450

we

32

00:05:56,040 --> 00:05:53,349

it's these are a bunch of bureaucrats

33

00:05:57,839 --> 00:05:56,050

that got high positions and management

34

00:06:01,110 --> 00:05:57,849

level or high level defense you know

35

00:06:03,150 --> 00:06:01,120

level positions or CIA positions that

36

00:06:04,860 --> 00:06:03,160

were not the people who did the reports

37

00:06:07,080 --> 00:06:04,870

did not do the legwork

38

00:06:09,270 --> 00:06:07,090

they had other people doing that and so

39

00:06:11,189 --> 00:06:09,280

why do I sit here and expect that Lu's

40

00:06:14,010 --> 00:06:11,199

gonna write a scientific paper when he's

41

00:06:16,860 --> 00:06:14,020

not a scientist and so I had to get my

42

00:06:18,420 --> 00:06:16,870

expectations changed and so now they're

43

00:06:20,820 --> 00:06:18,430

looking for people like you know even

44

00:06:22,290 --> 00:06:20,830

like se you to maybe help out to do kind

45

00:06:24,960 --> 00:06:22,300

of thing the same kind of thing well

46

00:06:27,749 --> 00:06:24,970

that's we need to all get together and

47

00:06:29,879 --> 00:06:27,759

help support them a little bit terms of

48

00:06:31,290 --> 00:06:29,889

putting stuff out you know okay I may

49

00:06:33,240 --> 00:06:31,300

have misheard you you'll have to correct

50

00:06:35,550 --> 00:06:33,250

me rich I'm Sarah had to leave for a

51
00:06:37,620 --> 00:06:35,560
moment but I certainly wasn't looking

52
00:06:39,300 --> 00:06:37,630
for Lou to provide us with a scientific

53
00:06:42,029 --> 00:06:39,310
paper I think that's ridiculous I have

54
00:06:44,580 --> 00:06:42,039
no idea who would be dumb enough to

55
00:06:48,330 --> 00:06:44,590
actually ask that kind of question

56
00:06:51,060 --> 00:06:48,340
the question I had 40 TSA is I would

57
00:06:53,969 --> 00:06:51,070
like to see them provide the scientific

58
00:06:55,680 --> 00:06:53,979
analysis and reports that are behind the

59
00:06:57,659 --> 00:06:55,690
kind of claims that they're making now

60
00:06:59,219 --> 00:06:57,669
if somebody assumes I'm not saying you

61
00:07:01,230 --> 00:06:59,229
are rich by the way I'm just saying this

62
00:07:03,810 --> 00:07:01,240
generally speaking without you involved

63
00:07:06,810 --> 00:07:03,820

if somebody thinks I'm asking for Lou

64

00:07:10,350 --> 00:07:06,820

Elizondo scientific report I mean that's

65

00:07:12,749 --> 00:07:10,360

just laughable now back to my point I

66

00:07:15,270 --> 00:07:12,759

would like to see T TSA provide

67

00:07:17,899 --> 00:07:15,280

information to back up their claims of

68

00:07:21,089 --> 00:07:17,909

scientific discoveries that they've had

69

00:07:24,180 --> 00:07:21,099

regarding possible UAP fragments or

70

00:07:26,999 --> 00:07:24,190

metamaterials or exotic alloys or fill

71

00:07:28,800 --> 00:07:27,009

in the blank what are what's everybody's

72

00:07:31,499 --> 00:07:28,810

thoughts on that and please I'd love to

73

00:07:38,850 --> 00:07:31,509

hear any kind of discussion on this

74

00:07:40,769 --> 00:07:38,860

topic I'll jump in because I don't think

75

00:07:42,060 --> 00:07:40,779

that you know number one I think that

76

00:07:43,110 --> 00:07:42,070

they're they're going to do it when

77

00:07:45,390 --> 00:07:43,120

they've done

78

00:07:48,390 --> 00:07:45,400

appropriate homework I mean they're a

79

00:07:50,280 --> 00:07:48,400

relatively new organization if they do

80

00:07:52,439 --> 00:07:50,290

have the materials it was probably

81

00:07:55,230 --> 00:07:52,449

looked at by an organization maybe like

82

00:07:57,420 --> 00:07:55,240

big low or something like that or or

83

00:08:01,129 --> 00:07:57,430

even other kind of like labs that were

84

00:08:05,159 --> 00:08:01,139

engaged in it I don't know I don't know

85

00:08:06,689 --> 00:08:05,169

what access that they have to like if

86

00:08:10,050 --> 00:08:06,699

some of these things were done under a

87

00:08:13,170 --> 00:08:10,060

tip for example and it was under a

88

00:08:15,360 --> 00:08:13,180

contract then there's there's they're

89

00:08:16,770 --> 00:08:15,370

not obligated to give those analyses out

90

00:08:20,159 --> 00:08:16,780

at all if they're probably still

91

00:08:23,010 --> 00:08:20,169

government material and so you're not

92

00:08:25,409 --> 00:08:23,020

going to get necessarily that analysis

93

00:08:27,540 --> 00:08:25,419

especially of an object or something

94

00:08:32,329 --> 00:08:27,550

like that if it's still within the

95

00:08:35,159 --> 00:08:32,339

government reins and and that's so

96

00:08:38,219 --> 00:08:35,169

unless they got these materials outside

97

00:08:40,980 --> 00:08:38,229

of that in order there's somehow made

98

00:08:42,740 --> 00:08:40,990

them releasable I don't expect to see

99

00:08:46,350 --> 00:08:42,750

that kind of thing

100

00:08:49,079 --> 00:08:46,360

same thing I just throw out there is

101

00:08:51,720 --> 00:08:49,089

it's strange that not only they seem to

102

00:08:53,070 --> 00:08:51,730

have a scientific division where they're

103

00:08:55,380 --> 00:08:53,080

studying things but they're an

104

00:08:56,970 --> 00:08:55,390

entertainment company and to George

105

00:08:58,410 --> 00:08:56,980

Knapp's point in that radio interview

106

00:09:00,390 --> 00:08:58,420

one of the things you said is I

107

00:09:02,070 --> 00:09:00,400

completely understand that they're

108

00:09:04,769 --> 00:09:02,080

trying to hold back this information

109

00:09:06,480 --> 00:09:04,779

because they want to break the story and

110

00:09:09,350 --> 00:09:06,490

it may be that that's why they're not

111

00:09:12,269 --> 00:09:09,360

releasing it right now I don't know but

112

00:09:15,390 --> 00:09:12,279

that one thing I find really important

113

00:09:17,550 --> 00:09:15,400

to is is the provenance of these

114

00:09:19,560 --> 00:09:17,560

materials and the story behind it in

115

00:09:21,449 --> 00:09:19,570

other words even even though they you

116

00:09:23,250 --> 00:09:21,459

know we'll get a scientific analysis

117

00:09:25,920 --> 00:09:23,260

perform and you know conclusions will be

118

00:09:28,079 --> 00:09:25,930

made off that but to me it's where did

119

00:09:30,870 --> 00:09:28,089

you get this stuff and you know why

120

00:09:33,120 --> 00:09:30,880

can't we know that and that should be

121

00:09:36,090 --> 00:09:33,130

part of what what's explained to us when

122

00:09:38,130 --> 00:09:36,100

that data comes out because you know

123

00:09:41,280 --> 00:09:38,140

without a strong provenance on that I

124

00:09:43,440 --> 00:09:41,290

you know I would question it I'd like to

125

00:09:45,420 --> 00:09:43,450

hear what dr. irina scott has to say

126

00:09:47,250 --> 00:09:45,430

about the meta materials because she

127

00:09:50,790 --> 00:09:47,260

worked at the patel institute you guys

128

00:09:52,800 --> 00:09:50,800

great question Earl thank you my opinion

129

00:09:56,340 --> 00:09:52,810

would be it's something that would cost

130

00:09:56,910 --> 00:09:56,350

money and maybe that's why it isn't done

131

00:10:00,539 --> 00:09:56,920

too much

132

00:10:04,079 --> 00:10:00,549

but to thin it to regular scientists

133

00:10:06,299 --> 00:10:04,089

like Mattel and other metallurgists and

134

00:10:09,059 --> 00:10:06,309

have I mean send it to several

135

00:10:12,139 --> 00:10:09,069

organizations and have them analyze it

136

00:10:14,280 --> 00:10:12,149

and then put the information together

137

00:10:17,220 --> 00:10:14,290

from organizations that don't have

138

00:10:20,939 --> 00:10:17,230

anything to do with UFOs would be my

139

00:10:24,479 --> 00:10:20,949

opinion on how to a good way to analyze

140

00:10:24,960 --> 00:10:24,489

it if you had the material you had the

141

00:10:27,829 --> 00:10:24,970

money

142

00:10:29,939 --> 00:10:27,839

no presuppositions there on the

143

00:10:33,590 --> 00:10:29,949

investigators part in other words

144

00:10:36,689 --> 00:10:33,600

they're not desiring a certain a certain

145

00:10:38,309 --> 00:10:36,699

disposition on the materials it's just

146

00:10:40,710 --> 00:10:38,319

we you know you're gonna get an honest

147

00:10:45,419 --> 00:10:40,720

opinion from someone like that yeah

148

00:10:49,949 --> 00:10:45,429

don't even tell them you know yeah you

149

00:10:51,659 --> 00:10:49,959

think Morrises cool i I think I know I

150

00:10:55,559 --> 00:10:51,669

sounds like I'm whining about this but I

151

00:10:57,299 --> 00:10:55,569

don't mind the the issue that I've had

152

00:10:58,829 --> 00:10:57,309

which I've received a lot of vitriol in

153

00:11:01,650 --> 00:10:58,839

the UFO community about which I've

154

00:11:04,499 --> 00:11:01,660

already talked about is TTS saying not

155

00:11:07,169 --> 00:11:04,509

publishing of the evidence they've found

156

00:11:10,109 --> 00:11:07,179

regarding the sources and well really

157

00:11:12,059 --> 00:11:10,119

all of it the whole nine yards the the

158

00:11:14,340 --> 00:11:12,069

the problem though that I've had is

159

00:11:15,780 --> 00:11:14,350

they've taken too long now I know that

160

00:11:17,909 --> 00:11:15,790

there's good arguments against what I'm

161

00:11:19,139 --> 00:11:17,919

talking about here as far as taking too

162

00:11:23,009 --> 00:11:19,149

long what does that mean you know it's

163

00:11:25,409 --> 00:11:23,019

not really it's not on my timeframe is

164

00:11:29,999 --> 00:11:25,419

it but then again how many years how

165

00:11:32,159 --> 00:11:30,009

many years do we have to wait until they

166

00:11:34,590 --> 00:11:32,169

being a TTS a provides us the kind of

167

00:11:38,009 --> 00:11:34,600

data to be able to scrutinize their

168

00:11:41,159 --> 00:11:38,019

findings example being a year ago they

169

00:11:44,039 --> 00:11:41,169

provided a I think September last year

170

00:11:45,720 --> 00:11:44,049

they they said they had seven bits of

171

00:11:47,699 --> 00:11:45,730

material they wanted to discuss with the

172

00:11:49,590 --> 00:11:47,709

public it's generating a lot of interest

173

00:11:52,409 --> 00:11:49,600

every time the TTS a brings up

174

00:11:57,090 --> 00:11:52,419

metamaterial discoveries or that kind of

175

00:12:00,389 --> 00:11:57,100

subject matter am I wrong I think let me

176

00:12:04,379 --> 00:12:00,399

Jack we've already pointed out that that

177

00:12:06,659 --> 00:12:04,389

we have spent almost two years doing the

178

00:12:09,510 --> 00:12:06,669

doing these papers that we're doing

179

00:12:11,460 --> 00:12:09,520

right in research and in

180

00:12:13,740 --> 00:12:11,470

and arena will be able to collect it to

181

00:12:16,080 --> 00:12:13,750

tell you this the research takes a long

182

00:12:17,580 --> 00:12:16,090

while and science doesn't progress at

183

00:12:19,770 --> 00:12:17,590

the rate that everybody out there and

184

00:12:22,590 --> 00:12:19,780

then the public world expects that it's

185

00:12:25,110 --> 00:12:22,600

gonna be on their little juicy plates so

186

00:12:28,890 --> 00:12:25,120

I mean there's a there's a timeframe for

187

00:12:32,010 --> 00:12:28,900

it and if I were them and I had

188

00:12:34,470 --> 00:12:32,020

materials boy I would be well I would be

189

00:12:36,450 --> 00:12:34,480

taking a little bit of time I can't

190

00:12:38,250 --> 00:12:36,460

possibly even years before I've even

191

00:12:40,320 --> 00:12:38,260

come out and make some sort of a

192

00:12:42,090 --> 00:12:40,330

statement about the background I've got

193

00:12:46,020 --> 00:12:42,100

that sure you don't want to publish

194

00:12:49,230 --> 00:12:46,030

inaccurate results either precisely for

195

00:12:51,810 --> 00:12:49,240

somebody that's not a scientist what

196

00:12:55,380 --> 00:12:51,820

would you guys like to see dr. Scott or

197

00:12:58,680 --> 00:12:55,390

somebody that knows as far as you know

198

00:13:01,800 --> 00:12:58,690

the types of studies on these materials

199

00:13:05,330 --> 00:13:01,810

and also does anyone know that the costs

200

00:13:07,860 --> 00:13:05,340

of those kind of studies yeah like mass

201
00:13:10,980 --> 00:13:07,870
spectrometry that would be pretty

202
00:13:13,830 --> 00:13:10,990
expensive but it would show quite a bit

203
00:13:18,990 --> 00:13:13,840
and chromatograms and different things

204
00:13:22,380 --> 00:13:19,000
like that are expensive to do but they

205
00:13:27,090 --> 00:13:22,390
would show you what the compounds are

206
00:13:29,090 --> 00:13:27,100
yeah and whether it's something unusual

207
00:13:34,580 --> 00:13:29,100
or whether it's something you know that

208
00:13:38,820 --> 00:13:34,590
is used even though it's not very used

209
00:13:40,500 --> 00:13:38,830
so that you'd be able to roughly tell if

210
00:13:47,090 --> 00:13:40,510
it's something normal or something

211
00:13:49,500 --> 00:13:47,100
really odd how does yeah how do some

212
00:13:52,350 --> 00:13:49,510
isotopic ratio I mean that always comes

213
00:13:53,820 --> 00:13:52,360

out as sort of like the the best thing

214

00:13:56,190 --> 00:13:53,830

you can do to see if something is off

215

00:13:59,400 --> 00:13:56,200

world that kind of test wouldn't be the

216

00:14:02,540 --> 00:13:59,410

first thing you do obviously then well

217

00:14:05,850 --> 00:14:02,550

they use things like that like they tell

218

00:14:09,660 --> 00:14:05,860

meteors from Mars because it has argon

219

00:14:12,950 --> 00:14:09,670

in it and things like that and there's

220

00:14:17,910 --> 00:14:12,960

kind of signatures from you know earth

221

00:14:23,100 --> 00:14:17,920

material and other places you know that

222

00:14:27,450 --> 00:14:25,650

the isotopic ratio so that's why you

223

00:14:30,600 --> 00:14:27,460

would need to use the other tests first

224

00:14:32,190 --> 00:14:30,610

because you after I identify what exotic

225

00:14:34,800 --> 00:14:32,200

material it might be you're even looking

226

00:14:38,070 --> 00:14:34,810

at before you can determine how far it

227

00:14:42,420 --> 00:14:38,080

would be off the periodic table from a

228

00:14:44,730 --> 00:14:42,430

normal isotopic ratio there and I hope

229

00:14:46,470 --> 00:14:44,740

that you know if TTS a does come out and

230

00:14:48,960 --> 00:14:46,480

release or at least on their TV show

231

00:14:50,790 --> 00:14:48,970

saying that they have you know done this

232

00:14:53,010 --> 00:14:50,800

that they release this to groups like

233

00:14:55,140 --> 00:14:53,020

SCU and people that can analyze these

234

00:14:59,340 --> 00:14:55,150

papers that in you know double check

235

00:15:02,000 --> 00:14:59,350

right peer review yeah okay but is it is

236

00:15:05,850 --> 00:15:02,010

it unfair to characterize the TTS a as

237

00:15:10,650 --> 00:15:05,860

making claims of discovery regarding

238

00:15:12,810 --> 00:15:10,660

anything for purposes of trying to make

239

00:15:14,910 --> 00:15:12,820

themselves more popular so to speak or

240

00:15:17,310 --> 00:15:14,920

trying to generate interest about the

241

00:15:20,130 --> 00:15:17,320

TTS a in other words having a different

242

00:15:22,140 --> 00:15:20,140

agenda rather than really just waiting

243

00:15:24,930 --> 00:15:22,150

for their own reports which might take

244

00:15:27,210 --> 00:15:24,940

years to come out well that's a that's

245

00:15:28,680 --> 00:15:27,220

an interesting point I will also point

246

00:15:30,300 --> 00:15:28,690

out that you know with the fact that

247

00:15:33,000 --> 00:15:30,310

they've got this entertainment portion

248

00:15:36,090 --> 00:15:33,010

to them and the fact that they're also

249

00:15:39,690 --> 00:15:36,100

seeking investors which is what their

250

00:15:41,070 --> 00:15:39,700

model is is to get funding and you know

251
00:15:42,840 --> 00:15:41,080
so they're always going to be in a

252
00:15:45,210 --> 00:15:42,850
competition to be able to promote

253
00:15:47,190 --> 00:15:45,220
something with interests to get

254
00:15:50,160 --> 00:15:47,200
investors because that's their structure

255
00:15:52,620 --> 00:15:50,170
and that's how they're gonna pay for the

256
00:15:56,550 --> 00:15:52,630
those kind of like analyses that they

257
00:15:58,320 --> 00:15:56,560
want you know I mean so I think we're

258
00:16:01,140 --> 00:15:58,330
gonna be living with this for a while I

259
00:16:04,560 --> 00:16:01,150
mean that's what the how they're

260
00:16:06,090 --> 00:16:04,570
structured you have to find a research

261
00:16:10,440 --> 00:16:06,100
though I mean you have to you have to

262
00:16:15,300 --> 00:16:10,450
have fun so by the way everyone we too

263
00:16:21,510 --> 00:16:15,310

are looking for funding so I'll give you

264

00:16:23,190 --> 00:16:21,520

my email right but it is a good point

265

00:16:25,620 --> 00:16:23,200

that's sort of what's confusing about

266

00:16:27,930 --> 00:16:25,630

TTS a or it makes some people

267

00:16:30,480 --> 00:16:27,940

uncomfortable is this blend of those

268

00:16:32,850 --> 00:16:30,490

types of organizations and then you know

269

00:16:35,360 --> 00:16:32,860

what what becomes the priority I mean

270

00:16:38,240 --> 00:16:35,370

you know dollars you know

271

00:16:40,550 --> 00:16:38,250

controlling the message and you know the

272

00:16:42,890 --> 00:16:40,560

science I mean it is it's a little

273

00:16:45,050 --> 00:16:42,900

confusing it's it's a new model and you

274

00:16:46,610 --> 00:16:45,060

know I'm neutral on it I'm I'm I mean

275

00:16:49,400 --> 00:16:46,620

I'm supportive but I'm a wait-and-see

276

00:16:51,440 --> 00:16:49,410

kind of guy too so be interesting to see

277

00:16:53,540 --> 00:16:51,450

how they handle this and if they can do

278

00:16:56,930 --> 00:16:53,550

it in a way that you know generates

279

00:17:00,650 --> 00:16:56,940

confidence in them I'm hopeful I mean I

280

00:17:00,830 --> 00:17:00,660

hope that they are successful yeah thank

281

00:17:05,390 --> 00:17:00,840

you

282

00:17:07,640 --> 00:17:05,400

Earl TTS a was formed 2017 as a public

283

00:17:09,290 --> 00:17:07,650

benefit corporation that strives to

284

00:17:11,000 --> 00:17:09,300

empower the outer edges of science and

285

00:17:13,910 --> 00:17:11,010

engineering through research innovation

286

00:17:16,370 --> 00:17:13,920

education and then they go on to say in

287

00:17:18,410 --> 00:17:16,380

their financials we have taken great

288

00:17:20,300 --> 00:17:18,420

store strides towards this goal and

289

00:17:21,770 --> 00:17:20,310

achieved what we believe are historic

290

00:17:24,140 --> 00:17:21,780

milestones through the outstanding

291

00:17:26,660 --> 00:17:24,150

collaboration of our team of experts in

292

00:17:28,820 --> 00:17:26,670

science aerospace and entertainment I

293

00:17:32,680 --> 00:17:28,830

just wanted to read that that's from

294

00:17:35,270 --> 00:17:32,690

your financials and the SEC portion

295

00:17:38,270 --> 00:17:35,280

regarding mighty TSA research I think

296

00:17:41,500 --> 00:17:38,280

it's a good idea and I think many of us

297

00:17:45,680 --> 00:17:41,510

have including rich Hoffmann possibly

298

00:17:51,620 --> 00:17:45,690

looked up the SEC information on TTS a

299

00:17:53,030 --> 00:17:51,630

just type in a TTS a and SEC Securities

300

00:17:55,850 --> 00:17:53,040

Exchange Commission is what that stands

301
00:17:59,530 --> 00:17:55,860
for doc up and you'll see two years

302
00:18:02,540 --> 00:17:59,540
worth of SEC financial information I

303
00:18:05,900 --> 00:18:02,550
think I think I'd like to move on to a

304
00:18:08,450 --> 00:18:05,910
different topic now and wanted to bring

305
00:18:11,690 --> 00:18:08,460
up a really wonderful conference of that

306
00:18:13,180 --> 00:18:11,700
went on earlier in the year and let me

307
00:18:15,410 --> 00:18:13,190
go ahead and get the information on that

308
00:18:17,990 --> 00:18:15,420
here it is it's the SCU

309
00:18:20,060 --> 00:18:18,000
and rich you've had a wonderful

310
00:18:21,560 --> 00:18:20,070
conference this year can you please go

311
00:18:23,720 --> 00:18:21,570
into that conference a little bit

312
00:18:26,110 --> 00:18:23,730
regarding the speakers that were there

313
00:18:32,420 --> 00:18:26,120

and what it was about

314

00:18:35,750 --> 00:18:32,430

sure so bottom line we got started su as

315

00:18:37,790 --> 00:18:35,760

part of its vision statement that it's

316

00:18:42,170 --> 00:18:37,800

reaching out to the public and helping

317

00:18:44,810 --> 00:18:42,180

to educate the public so I had wanted to

318

00:18:46,940 --> 00:18:44,820

hold something here in in Huntsville

319

00:18:49,100 --> 00:18:46,950

Alabama I work over at the Redstone

320

00:18:52,700 --> 00:18:49,110

Arsenal at the Army Materiel Command

321

00:18:55,370 --> 00:18:52,710

and uh and I had been for a long time

322

00:18:57,650 --> 00:18:55,380

wanting to hold something here and and

323

00:18:59,360 --> 00:18:57,660

have it right outside of the base and

324

00:19:02,030 --> 00:18:59,370

see if I could encourage people from

325

00:19:04,370 --> 00:19:02,040

NASA Marshall Space Flight Center here

326

00:19:07,610 --> 00:19:04,380

as well as you've got all the missile

327

00:19:10,520 --> 00:19:07,620

defense agency and all that missile and

328

00:19:15,860 --> 00:19:10,530

and type of people here propulsion

329

00:19:18,560 --> 00:19:15,870

systems experts anyway and so I proposed

330

00:19:21,740 --> 00:19:18,570

the idea that I wanted to have an SEO

331

00:19:24,320 --> 00:19:21,750

conference here and I did that in about

332

00:19:28,730 --> 00:19:24,330

October of last year and then decided to

333

00:19:31,100 --> 00:19:28,740

have this thing in March and so began

334

00:19:32,750 --> 00:19:31,110

working with like Robert Powell and a

335

00:19:35,360 --> 00:19:32,760

number of us to say well who can we get

336

00:19:37,760 --> 00:19:35,370

to come and of course we thought well we

337

00:19:40,820 --> 00:19:37,770

can deliver you know some of our stuff

338

00:19:43,520 --> 00:19:40,830

and help introduce what su is about and

339

00:19:45,770 --> 00:19:43,530

we're trying to do and then also

340

00:19:49,370 --> 00:19:45,780

encourage you know as many people from

341

00:19:51,950 --> 00:19:49,380

the base to come out and to attend and

342

00:19:55,160 --> 00:19:51,960

have now for the maybe a good chance to

343

00:19:58,310 --> 00:19:55,170

have some UFO discussions with some of

344

00:20:02,030 --> 00:19:58,320

those base personnel and and so that was

345

00:20:04,730 --> 00:20:02,040

my objective and so we we basically you

346

00:20:07,340 --> 00:20:04,740

know started promoting it around the

347

00:20:09,020 --> 00:20:07,350

December timeframe and we opened up for

348

00:20:11,270 --> 00:20:09,030

ticket sales and I wanted to keep it low

349

00:20:13,610 --> 00:20:11,280

cost because I wanted to make it you

350

00:20:16,130 --> 00:20:13,620

know easy for people that afford to be

351
00:20:19,910 --> 00:20:16,140
able to come and so I literally made it

352
00:20:22,640 --> 00:20:19,920
to the point where it was like 170 or

353
00:20:24,590 --> 00:20:22,650
150 dollars initially and that included

354
00:20:26,150 --> 00:20:24,600
things like for meals at this restaurant

355
00:20:28,490 --> 00:20:26,160
and they were willing to work with me at

356
00:20:31,310 --> 00:20:28,500
the restaurant and can do that and so we

357
00:20:32,930 --> 00:20:31,320
started promoting it and well what

358
00:20:34,970 --> 00:20:32,940
happened right then was the fact that

359
00:20:37,670 --> 00:20:34,980
the the government shutdown happened and

360
00:20:41,960 --> 00:20:37,680
so suddenly now half of the base is

361
00:20:43,940 --> 00:20:41,970
completely closed the NASA side as well

362
00:20:47,210 --> 00:20:43,950
as you know you have other organizations

363
00:20:48,620 --> 00:20:47,220

that were all completely closed and you

364

00:20:51,590 --> 00:20:48,630

know they couldn't afford to even come

365

00:20:53,690 --> 00:20:51,600

and so it was rather discouraging and I

366

00:20:57,040 --> 00:20:53,700

had a minimum of people that I had to

367

00:20:59,090 --> 00:20:57,050

get and I also had a limited quantity of

368

00:21:00,770 --> 00:20:59,100

tickets that I could've even sold to

369

00:21:02,810 --> 00:21:00,780

people who fit in the venue that I had

370

00:21:05,210 --> 00:21:02,820

it in and so

371

00:21:08,630 --> 00:21:05,220

we started getting presenters that were

372

00:21:12,080 --> 00:21:08,640

wanting to come I I've had dr. Travis

373

00:21:15,020 --> 00:21:12,090

Taylor he's got two PhDs and three

374

00:21:16,940 --> 00:21:15,030

master's degrees in physics and various

375

00:21:19,070 --> 00:21:16,950

other things and he's worked all over

376

00:21:20,590 --> 00:21:19,080

the base he's been he's currently

377

00:21:23,720 --> 00:21:20,600

working at the space and missile defense

378

00:21:26,600 --> 00:21:23,730

agency and he'd been working with MDA as

379

00:21:29,930 --> 00:21:26,610

well as the NASA side and then i

380

00:21:34,340 --> 00:21:29,940

additionally had philippe Alerus

381

00:21:36,920 --> 00:21:34,350

Philippe is was over from Amsterdam and

382

00:21:39,620 --> 00:21:36,930

he's part of SEO and he he wanted to

383

00:21:42,410 --> 00:21:39,630

come and present and then I he was going

384

00:21:44,510 --> 00:21:42,420

to talk about use of satellites because

385

00:21:46,370 --> 00:21:44,520

now there are these earth orbiting

386

00:21:50,930 --> 00:21:46,380

satellites that we might be able to tap

387

00:21:52,940 --> 00:21:50,940

into for UFO investigations then in

388

00:21:55,190 --> 00:21:52,950

addition to that we we thought while we

389

00:21:57,140 --> 00:21:55,200

could deliver the aqua dia report and

390

00:21:59,690 --> 00:21:57,150

and also the Nimitz report there and

391

00:22:04,910 --> 00:21:59,700

then we had propulsion specialists that

392

00:22:07,610 --> 00:22:04,920

came and presented and oh and then I

393

00:22:09,860 --> 00:22:07,620

also got dr. Kevin Knuth down from

394

00:22:14,170 --> 00:22:09,870

University of Albany and he brought with

395

00:22:17,390 --> 00:22:14,180

him dr. Matthews to Daggett's who was a

396

00:22:20,540 --> 00:22:17,400

into basically dark matter and dark

397

00:22:23,090 --> 00:22:20,550

energy stuff research so we had an

398

00:22:24,560 --> 00:22:23,100

impressive number of PhDs I think that

399

00:22:28,580 --> 00:22:24,570

there were probably something on a scale

400

00:22:30,560 --> 00:22:28,590

about maybe 12 PhDs all polled that

401
00:22:34,730 --> 00:22:30,570
attended the conference and it was

402
00:22:36,830 --> 00:22:34,740
extremely good so you know a success to

403
00:22:40,160 --> 00:22:36,840
the point where now a lot of these

404
00:22:43,070 --> 00:22:40,170
people encouraged me to do it again next

405
00:22:45,650 --> 00:22:43,080
year and so we'll do it again next year

406
00:22:48,500 --> 00:22:45,660
possibly later like in April or May but

407
00:22:51,590 --> 00:22:48,510
I was extremely thrilled with the fact

408
00:22:55,760 --> 00:22:51,600
that we got the turnout that we did and

409
00:22:57,950 --> 00:22:55,770
the quality of people that we did and it

410
00:23:00,800 --> 00:22:57,960
was just it for me it was like when I

411
00:23:02,990 --> 00:23:00,810
was like wow and it was a while for a

412
00:23:05,780 --> 00:23:03,000
lot of people just to jump in rich a

413
00:23:09,140 --> 00:23:05,790

little tidbit came out that via you on

414

00:23:10,970 --> 00:23:09,150

Facebook of all places right and that

415

00:23:13,070 --> 00:23:10,980

was that the help put off was there and

416

00:23:15,010 --> 00:23:13,080

he had told you that he drew up the

417

00:23:17,290 --> 00:23:15,020

original statement of work

418

00:23:19,960 --> 00:23:17,300

which is I guess the parameters of the

419

00:23:21,340 --> 00:23:19,970

contract for the a tip program my can

420

00:23:24,820 --> 00:23:21,350

you tell us a little bit about that

421

00:23:29,890 --> 00:23:24,830

well actually it was for the AUSA yeah

422

00:23:31,960 --> 00:23:29,900

okay so just to clarify yeah it was a

423

00:23:34,390 --> 00:23:31,970

surprising thing when I when I was told

424

00:23:37,540 --> 00:23:34,400

Lou said that well somebody was to be

425

00:23:39,100 --> 00:23:37,550

coming with him but and we didn't I

426

00:23:42,970 --> 00:23:39,110

didn't know that was could be dr. Hal

427

00:23:46,690 --> 00:23:42,980

put off and I'm going like whoa and so

428

00:23:48,940 --> 00:23:46,700

here he was he showed up and what a what

429

00:23:52,480 --> 00:23:48,950

an interesting number of conversations I

430

00:23:55,210 --> 00:23:52,490

had with him but yeah he pretty much

431

00:23:58,419 --> 00:23:55,220

confirmed the fact that he he lit he was

432

00:24:04,540 --> 00:23:58,429

the key person who drafted the initial

433

00:24:07,210 --> 00:24:04,550

scope of work for the AUSA program okay

434

00:24:09,880 --> 00:24:07,220

I wanted to jump in here and just and

435

00:24:12,549 --> 00:24:09,890

and rich please interrupt me at any time

436

00:24:15,790 --> 00:24:12,559

to tell me if I'm incorrect or not but

437

00:24:18,400 --> 00:24:15,800

the speakers that were at this wonderful

438

00:24:20,410 --> 00:24:18,410

conference where dr. Travis Taylor

439

00:24:22,180 --> 00:24:20,420

department defense a scientific approach

440

00:24:25,600 --> 00:24:22,190

to analyzing and preparing for an alien

441

00:24:26,410 --> 00:24:25,610

invasion mr. Phillip I cannot pronounce

442

00:24:29,799 --> 00:24:26,420

his name

443

00:24:31,780 --> 00:24:29,809

Ritchie okay a project controller

444

00:24:33,220 --> 00:24:31,790

European Space Agency detection and

445

00:24:36,220 --> 00:24:33,230

characterization of anomalous aerial

446

00:24:40,990 --> 00:24:36,230

objects using satellite data imagery mr.

447

00:24:42,760 --> 00:24:41,000

Robert Powell SCU a 2004 USS Nimitz case

448

00:24:45,700 --> 00:24:42,770

report I want to get back to that just a

449

00:24:49,810 --> 00:24:45,710

moment mr. Peter how do I pronounce that

450

00:24:52,540 --> 00:24:49,820

rich really really okay SC you mm I'm

451
00:24:57,549 --> 00:24:52,550
sorry for some reason I'm reading 2004

452
00:25:01,270 --> 00:24:59,680
God okay we'll get back to that thank

453
00:25:04,990 --> 00:25:01,280
you for confirming that of course

454
00:25:07,270 --> 00:25:05,000
yourself of the SCU 2013 Agudilla

455
00:25:11,560 --> 00:25:07,280
Puerto Rico case technical review which

456
00:25:14,710 --> 00:25:11,570
actually we do want to cover next and I

457
00:25:17,140 --> 00:25:14,720
think it's is it is it mr. little I'm

458
00:25:19,090 --> 00:25:17,150
not sure I'm reading that correctly is

459
00:25:21,970 --> 00:25:19,100
that right of the SCU unidentified

460
00:25:24,610 --> 00:25:21,980
submersible object object us so reports

461
00:25:26,850 --> 00:25:24,620
creating a database for cluster analysis

462
00:25:28,560 --> 00:25:26,860
did I read that name correctly rich

463
00:25:32,400 --> 00:25:28,570

she didn't get to come so you're looking

464

00:25:33,720 --> 00:25:32,410

at an old copy back okay yeah boy that

465

00:25:35,940 --> 00:25:33,730

would have been interesting and then

466

00:25:37,860 --> 00:25:35,950

additional panel members include dr. C

467

00:25:41,580 --> 00:25:37,870

Powell senior engineer scientists at

468

00:25:44,220 --> 00:25:41,590

Davidson technologies wanted to just

469

00:25:48,210 --> 00:25:44,230

briefly touch on this USS Nimitz case

470

00:25:50,130 --> 00:25:48,220

report from Powell and reality regarding

471

00:25:54,290 --> 00:25:50,140

the case physics it can you jump in and

472

00:25:58,920 --> 00:25:54,300

tell us a little bit about that you know

473

00:26:02,010 --> 00:25:58,930

Robert Powell did read bumped into I

474

00:26:05,750 --> 00:26:02,020

guess that Paco I'm not sure how to say

475

00:26:09,450 --> 00:26:05,760

it huh I said to Ricci

476

00:26:12,300 --> 00:26:09,460

cirucci I didn't couldn't know how it

477

00:26:16,290 --> 00:26:12,310

was anyway he had he had written an

478

00:26:19,560 --> 00:26:16,300

article and that got him going on it

479

00:26:22,890 --> 00:26:19,570

several years ago and and I remember

480

00:26:24,630 --> 00:26:22,900

seeing him he was coming for a contract

481

00:26:26,940 --> 00:26:24,640

Robert was coming to Huntsville for a

482

00:26:28,350 --> 00:26:26,950

conference and we talked about it and he

483

00:26:32,130 --> 00:26:28,360

said he was working hot and heavy on

484

00:26:34,620 --> 00:26:32,140

that and then what happened was we

485

00:26:38,040 --> 00:26:34,630

basically formed he formed a team to

486

00:26:41,160 --> 00:26:38,050

work with him on the rapport and I I was

487

00:26:45,450 --> 00:26:41,170

one of the members of Morgan Bell was on

488

00:26:49,260 --> 00:26:45,460

it and doing it you had Peter reali Tim

489

00:26:52,620 --> 00:26:49,270

Thompson done Kimsey Larry Cates

490

00:26:55,080 --> 00:26:52,630

and we all kind of got together and we

491

00:26:57,690 --> 00:26:55,090

would have these periodic meetings and

492

00:26:58,470 --> 00:26:57,700

we would start to do our basically our

493

00:27:01,440 --> 00:26:58,480

report

494

00:27:02,310 --> 00:27:01,450

we were conducting interviews with a lot

495

00:27:05,250 --> 00:27:02,320

of different people

496

00:27:08,400 --> 00:27:05,260

commander Slade we talked with we talked

497

00:27:10,680 --> 00:27:08,410

with the course cabinet day we had

498

00:27:14,520 --> 00:27:10,690

interviews with a lot of different other

499

00:27:17,550 --> 00:27:14,530

people as well Gary I think Voorhees if

500

00:27:20,100 --> 00:27:17,560

I'm saying that right well also was

501
00:27:22,470 --> 00:27:20,110
interviewed and so we we began doing

502
00:27:24,870 --> 00:27:22,480
that that homework if you would in terms

503
00:27:27,090 --> 00:27:24,880
of getting that and we were also trying

504
00:27:28,910 --> 00:27:27,100
to come up with our you know gain our

505
00:27:32,550 --> 00:27:28,920
own better understanding of the video

506
00:27:35,100 --> 00:27:32,560
clip that was released and Larry Cates

507
00:27:36,810 --> 00:27:35,110
has done a remarkable job on analyzing

508
00:27:39,510 --> 00:27:36,820
videos and breaking them down into

509
00:27:40,560 --> 00:27:39,520
individual frames and as it's got tools

510
00:27:44,100 --> 00:27:40,570
to look at

511
00:27:46,430 --> 00:27:44,110
pixels and do that analysis so Larry

512
00:27:50,490 --> 00:27:46,440
concentrated and largely on the video

513
00:27:52,919 --> 00:27:50,500

Peter reality helped do a lot of the

514

00:27:56,100 --> 00:27:52,929

physics aspects because you had reports

515

00:27:59,610 --> 00:27:56,110

of these objects that were dropping down

516

00:28:00,960 --> 00:27:59,620

from guy like eighty thousand feet and

517

00:28:02,549 --> 00:28:00,970

then you know maybe down to twenty

518

00:28:04,769 --> 00:28:02,559

thousand feet and then some of them were

519

00:28:08,820 --> 00:28:04,779

dropping down to sea level and stopping

520

00:28:11,669 --> 00:28:08,830

and so we basically started on putting

521

00:28:16,379 --> 00:28:11,679

the report you know two years ago and of

522

00:28:18,810 --> 00:28:16,389

course as you you know Dave will well

523

00:28:21,450 --> 00:28:18,820

but you know point out the fact that on

524

00:28:22,889 --> 00:28:21,460

Facebook this is a constantly updated

525

00:28:24,930 --> 00:28:22,899

kind of thing I mean like for example

526

00:28:27,720 --> 00:28:24,940

when we were like focused on the

527

00:28:29,399 --> 00:28:27,730

conversation with Kevin day it was about

528

00:28:31,200 --> 00:28:29,409

the fact that the other ships were

529

00:28:33,749 --> 00:28:31,210

actually in the area like the Higgins

530

00:28:35,580 --> 00:28:33,759

and the Chafee were there and we just

531

00:28:37,259 --> 00:28:35,590

now after we published a report we're

532

00:28:39,619 --> 00:28:37,269

finding out that no they weren't even on

533

00:28:45,440 --> 00:28:39,629

site and oh by the way it was not the

534

00:28:48,299 --> 00:28:45,450

the actual Computex comp you to you axe

535

00:28:51,269 --> 00:28:48,309

exercise it was actually previous to

536

00:28:53,159 --> 00:28:51,279

that so where this thing is an

537

00:28:55,470 --> 00:28:53,169

ever-evolving thing and you're starting

538

00:28:57,210 --> 00:28:55,480

to to learn more and it almost kind of

539

00:28:59,999 --> 00:28:57,220

makes our paper a little bit obsolete

540

00:29:03,690 --> 00:29:00,009

and inaccurate in their context but but

541

00:29:05,460 --> 00:29:03,700

overall what we attempted to do and this

542

00:29:07,740 --> 00:29:05,470

is what I hope that everybody walks away

543

00:29:10,830 --> 00:29:07,750

with here is we tried to do the math

544

00:29:14,340 --> 00:29:10,840

based upon what we have heard and we try

545

00:29:17,399 --> 00:29:14,350

to show that if indeed that these

546

00:29:20,399 --> 00:29:17,409

objects were we're doing those kinds of

547

00:29:22,560 --> 00:29:20,409

things that and we also used very

548

00:29:24,330 --> 00:29:22,570

conservative estimates and our report

549

00:29:26,850 --> 00:29:24,340

where they might have said that it

550

00:29:29,039 --> 00:29:26,860

happened in point seven eight seconds we

551

00:29:31,560 --> 00:29:29,049

plotted it out on a table to show all

552

00:29:33,960 --> 00:29:31,570

the way up to ten seconds what it would

553

00:29:36,330 --> 00:29:33,970

be like and we published those things

554

00:29:40,499 --> 00:29:36,340

and showed here's what the speed would

555

00:29:41,999 --> 00:29:40,509

be at you know one you know one one

556

00:29:43,590 --> 00:29:42,009

thing we also looked at it from the

557

00:29:45,830 --> 00:29:43,600

standpoint if you have an object that

558

00:29:49,919 --> 00:29:45,840

drops out of the sky and scuttling stops

559

00:29:51,330 --> 00:29:49,929

well okay is it a parabolic parabolic or

560

00:29:53,250 --> 00:29:51,340

is it linear in terms of that

561

00:29:53,550 --> 00:29:53,260

acceleration and deceleration that's

562

00:29:56,700 --> 00:29:53,560

going to

563

00:29:58,740 --> 00:29:56,710

happen so we thought about this and we

564

00:30:01,410 --> 00:29:58,750

also tested these things out using

565

00:30:04,350 --> 00:30:01,420

different means which what you don't

566

00:30:06,450 --> 00:30:04,360

also understand we we used you know

567

00:30:08,670 --> 00:30:06,460

visual observations to be able to

568

00:30:10,470 --> 00:30:08,680

determine the speed we also use with

569

00:30:13,230 --> 00:30:10,480

this thing called blind point distance

570

00:30:16,050 --> 00:30:13,240

to calculate speed we also use the Flair

571

00:30:18,180 --> 00:30:16,060

video to determine speed and all these

572

00:30:21,930 --> 00:30:18,190

different ways of doing it it shows very

573

00:30:25,560 --> 00:30:21,940

clearly that you have an object that is

574

00:30:27,900 --> 00:30:25,570

not performing anything like anything

575

00:30:30,300 --> 00:30:27,910

that we know of on the planet at least

576

00:30:32,580 --> 00:30:30,310

that we know up again and that if you

577

00:30:34,560 --> 00:30:32,590

take a look at an f-18 dropping down

578

00:30:37,350 --> 00:30:34,570

from the sky and doing the same kind of

579

00:30:39,630 --> 00:30:37,360

thing well it could withstand these kind

580

00:30:43,560 --> 00:30:39,640

of G's it would be breaking apart and

581

00:30:47,280 --> 00:30:43,570

completely you know not there anymore

582

00:30:50,310 --> 00:30:47,290

and so what that does is it gives ammo

583

00:30:52,590 --> 00:30:50,320

for now a conversation with people up on

584

00:30:54,990 --> 00:30:52,600

the hill that says hey wait a minute

585

00:30:56,940 --> 00:30:55,000

these things are definitely measured at

586

00:30:59,760 --> 00:30:56,950

doing things that are beyond anything

587

00:31:02,430 --> 00:30:59,770

that we know of and we can't even

588

00:31:04,830 --> 00:31:02,440

explain what this level of science would

589

00:31:08,280 --> 00:31:04,840

be that has you moving at those kind of

590

00:31:11,960 --> 00:31:08,290

speeds down from those kind of heights

591

00:31:15,510 --> 00:31:11,970

and things like that so it will give Lou

592

00:31:17,970 --> 00:31:15,520

ammo to be able to now help get his

593

00:31:20,400 --> 00:31:17,980

message through that hey wait a minute

594

00:31:25,080 --> 00:31:20,410

you know there's something serious here

595

00:31:26,910 --> 00:31:25,090

that needs to be studied and so just to

596

00:31:29,460 --> 00:31:26,920

jump in here Dave there was another

597

00:31:32,790 --> 00:31:29,470

conference that you attended I got to do

598

00:31:33,900 --> 00:31:32,800

a bit of a panel with Kevin day and some

599

00:31:36,390 --> 00:31:33,910

of the other witnesses that you've

600

00:31:38,430 --> 00:31:36,400

rounded up regarding the Nimitz case the

601
00:31:42,840 --> 00:31:38,440
Megacon so want to tell us a little bit

602
00:31:44,610 --> 00:31:42,850
about that yeah thanks in rich I really

603
00:31:47,700 --> 00:31:44,620
really enjoyed reading the paper that

604
00:31:50,400 --> 00:31:47,710
you guys did appreciate that I learned a

605
00:31:53,790 --> 00:31:50,410
lot from it as well we were invited to

606
00:31:56,760 --> 00:31:53,800
go out to Lachlan Nevada last month and

607
00:31:59,190 --> 00:31:56,770
present and some of the guys that I've

608
00:32:01,350 --> 00:31:59,200
been working with from the US Navy the

609
00:32:05,130 --> 00:32:01,360
veterans like as you mentioned Kevin day

610
00:32:07,139 --> 00:32:05,140
Gary Voorhees and Jason Turner and a new

611
00:32:09,419 --> 00:32:07,149
guy that came forward

612
00:32:13,139 --> 00:32:09,429
really as a result of the little movie

613
00:32:14,489 --> 00:32:13,149

that I did name Patrick Hughes so we all

614

00:32:18,359 --> 00:32:14,499

went out there and this is sort of the

615

00:32:20,399 --> 00:32:18,369

first time that those four guys have all

616

00:32:22,979 --> 00:32:20,409

been together and it was a really

617

00:32:26,489 --> 00:32:22,989

wonderful experience not only to have

618

00:32:28,229 --> 00:32:26,499

them feel vindicated that you know we do

619

00:32:30,629 --> 00:32:28,239

take them seriously and listen to what

620

00:32:33,359 --> 00:32:30,639

they're saying and want to know you know

621

00:32:35,549 --> 00:32:33,369

their stories but to have those guys get

622

00:32:37,889 --> 00:32:35,559

together I mean they hadn't seen each

623

00:32:41,070 --> 00:32:37,899

other in 13 or 14 years was just a

624

00:32:44,459 --> 00:32:41,080

wonderful experience and to go onstage

625

00:32:46,169 --> 00:32:44,469

with them and to hear the audience

626

00:32:49,820 --> 00:32:46,179

questions very intelligent questions

627

00:32:53,009 --> 00:32:49,830

have Kevin and Gary express you know

628

00:32:56,940 --> 00:32:53,019

basically the aw that they felt during

629

00:32:59,119 --> 00:32:56,950

those days when these unknown objects

630

00:33:02,430 --> 00:32:59,129

appeared on their radar screens and

631

00:33:04,799 --> 00:33:02,440

hearing the pilots who are intercepting

632

00:33:08,399 --> 00:33:04,809

them screaming over the microphones you

633

00:33:12,719 --> 00:33:08,409

know and so on so hearing the firsthand

634

00:33:15,959 --> 00:33:12,729

testimony like that live is just me

635

00:33:17,579 --> 00:33:15,969

managed to say reading it and I was able

636

00:33:19,440 --> 00:33:17,589

to because I had them all in one spot I

637

00:33:21,539 --> 00:33:19,450

was able to bring my cameras out there

638

00:33:24,659 --> 00:33:21,549

there have like you know two or three

639

00:33:27,389 --> 00:33:24,669

hours of content now of each one of

640

00:33:29,249 --> 00:33:27,399

those guys giving me testimonies so look

641

00:33:32,310 --> 00:33:29,259

for that coming up you're gonna run that

642

00:33:34,409 --> 00:33:32,320

over on your YouTube channel yeah I mean

643

00:33:36,899 --> 00:33:34,419

I plan like I just figured that this

644

00:33:39,469 --> 00:33:36,909

film doesn't have to really be done sort

645

00:33:41,820 --> 00:33:39,479

of like it can just be an evolving piece

646

00:33:44,039 --> 00:33:41,830

this the things change and new

647

00:33:46,229 --> 00:33:44,049

information comes about so actually

648

00:33:49,859 --> 00:33:46,239

adding all the testimonies going to

649

00:33:52,499 --> 00:33:49,869

really strengthen it I think yeah Dave I

650

00:33:53,849 --> 00:33:52,509

wanted to jump in here and say I know

651
00:33:56,129 --> 00:33:53,859
you've been really busy this year you

652
00:33:59,519 --> 00:33:56,139
know as you're talking about UFO Megacon

653
00:34:01,919 --> 00:33:59,529
as a speaker to doing an article 2 for

654
00:34:03,450 --> 00:34:01,929
UFO truth magazine and you're also going

655
00:34:05,129 --> 00:34:03,460
to be on midnight and does it desert

656
00:34:08,339 --> 00:34:05,139
with Dave Schrader or tell us a little

657
00:34:10,230 --> 00:34:08,349
bit about that please yeah sure

658
00:34:12,329 --> 00:34:10,240
I think you know just because some of

659
00:34:15,299 --> 00:34:12,339
this stuff has been coming out that you

660
00:34:17,309 --> 00:34:15,309
know the the film now has like 1.5

661
00:34:19,409 --> 00:34:17,319
million views and a lot of people are

662
00:34:20,819 --> 00:34:19,419
interested in it and that's organic you

663
00:34:22,229 --> 00:34:20,829

know I again I don't have

664

00:34:24,509 --> 00:34:22,239

History Channel behind me to promote

665

00:34:27,539 --> 00:34:24,519

this stuff or any staff or anything so

666

00:34:29,809 --> 00:34:27,549

I'm just you know a guy basically but

667

00:34:31,979 --> 00:34:29,819

people are interested in the story and

668

00:34:34,349 --> 00:34:31,989

you know I think they heard about it so

669

00:34:37,169 --> 00:34:34,359

I've gotten several calls and I did get

670

00:34:40,109 --> 00:34:37,179

called from the producers of midnight in

671

00:34:41,669 --> 00:34:40,119

the desert and I'm gonna you know Kevin

672

00:34:45,419 --> 00:34:41,679

and Gary are gonna be on there so tune

673

00:34:48,229 --> 00:34:45,429

into that it's going to be the 26th of

674

00:34:54,180 --> 00:34:48,239

this month and I think that ones at like

675

00:34:55,829 --> 00:34:54,190

9:00 to midnight on Pacific time yeah so

676

00:34:58,289 --> 00:34:55,839

that should be a really really

677

00:35:02,999 --> 00:34:58,299

interesting conversation as well oh good

678

00:35:04,769 --> 00:35:03,009

um I want I wanted to also ask you there

679

00:35:06,390 --> 00:35:04,779

was a show eyes on with you with Frank

680

00:35:07,709 --> 00:35:06,400

where you said that you and you may have

681

00:35:09,660 --> 00:35:07,719

already covered this but I still had a

682

00:35:11,519 --> 00:35:09,670

question I was on a show with you last

683

00:35:13,559 --> 00:35:11,529

year with Frank when you were saying

684

00:35:15,930 --> 00:35:13,569

that you had new witnesses that had come

685

00:35:17,789 --> 00:35:15,940

forward can you just tell our listeners

686

00:35:19,709 --> 00:35:17,799

you know you say that this is an ever

687

00:35:22,920 --> 00:35:19,719

evolving documentary that you're adding

688

00:35:24,359 --> 00:35:22,930

to it you probably look forever well who

689

00:35:27,630 --> 00:35:24,369

are those new witnesses and what was

690

00:35:30,199 --> 00:35:27,640

that information about sure sure yeah

691

00:35:33,390 --> 00:35:30,209

and again in my film I asked for

692

00:35:37,170 --> 00:35:33,400

military witnesses that observed

693

00:35:39,180 --> 00:35:37,180

unidentified craft to email you know

694

00:35:40,709 --> 00:35:39,190

that I can put them in touch with other

695

00:35:42,569 --> 00:35:40,719

witnesses and so on which I've been

696

00:35:44,519 --> 00:35:42,579

doing really it's not just for me my

697

00:35:46,380 --> 00:35:44,529

benefit on anything like that but you

698

00:35:50,120 --> 00:35:46,390

know if they want me to tell their story

699

00:35:53,130 --> 00:35:50,130

I will do so so Patrick Hughes was

700

00:35:56,549 --> 00:35:53,140

working for the e to Hawkeye squadron on

701
00:35:59,370 --> 00:35:56,559
Nimitz at the time and he had a buddy

702
00:36:01,819 --> 00:35:59,380
that was an in-flight technician so he

703
00:36:04,680 --> 00:36:01,829
actually flew in the back of the Hawkeye

704
00:36:06,719 --> 00:36:04,690
aircraft that day when commander flavor

705
00:36:11,039 --> 00:36:06,729
and sweet and these guys were up there

706
00:36:13,979 --> 00:36:11,049
and that gentleman saw the tic-tac so he

707
00:36:16,680 --> 00:36:13,989
does not want his name use he had to

708
00:36:18,420 --> 00:36:16,690
sign an NDA after the event was told not

709
00:36:21,689 --> 00:36:18,430
to talk about it that the event did not

710
00:36:23,189 --> 00:36:21,699
happen but he did kind of tell me what

711
00:36:26,279 --> 00:36:23,199
he saw he said I can tell you I saw the

712
00:36:29,370 --> 00:36:26,289
tic-tac the entire crew saw the tic-tac

713
00:36:32,400 --> 00:36:29,380

when we landed our Co brought us down

714

00:36:33,989 --> 00:36:32,410

and you know told us you know don't talk

715

00:36:34,740 --> 00:36:33,999

about this and actually made them sign

716

00:36:39,060 --> 00:36:34,750

NDA's right

717

00:36:40,410 --> 00:36:39,070

spot why other aircrew were allowed to

718

00:36:42,470 --> 00:36:40,420

talk about it the only thing that I can

719

00:36:46,590 --> 00:36:42,480

suspect based on what Patrick told me

720

00:36:49,200 --> 00:36:46,600

was that they were involved with this

721

00:36:50,790 --> 00:36:49,210

technology called CEC or cooperative

722

00:36:54,900 --> 00:36:50,800

engagement capability which is a

723

00:36:57,240 --> 00:36:54,910

classified system we know it exists but

724

00:36:59,370 --> 00:36:57,250

what its capabilities are what they

725

00:37:01,920 --> 00:36:59,380

actually saw on this stuff it could have

726

00:37:04,620 --> 00:37:01,930

been related to that Patrick the guy on

727

00:37:08,370 --> 00:37:04,630

the ground said that after the plane

728

00:37:12,150 --> 00:37:08,380

landed Air Force officials came and

729

00:37:15,000 --> 00:37:12,160

confiscated the flight recorders that he

730

00:37:17,250 --> 00:37:15,010

had removed from the Hawkeye so all of

731

00:37:18,990 --> 00:37:17,260

that information came out as a result of

732

00:37:21,900 --> 00:37:19,000

the film and people contacting me

733

00:37:24,930 --> 00:37:21,910

another gentleman that just came out you

734

00:37:28,050 --> 00:37:24,940

know within the last month named Omar

735

00:37:30,660 --> 00:37:28,060

Lara was a fuelling guy up on the flight

736

00:37:33,300 --> 00:37:30,670

deck of the Nimitz and he said that in a

737

00:37:36,510 --> 00:37:33,310

week or so after the event after the

738

00:37:39,570 --> 00:37:36,520

training was sort of over a man

739

00:37:42,030 --> 00:37:39,580

overboard happened work I accidentally

740

00:37:43,830 --> 00:37:42,040

fell in the water it kind of after the

741

00:37:46,200 --> 00:37:43,840

Sun went down and so they're trying to

742

00:37:47,640 --> 00:37:46,210

rescue this guy and they're all looking

743

00:37:49,670 --> 00:37:47,650

over and they see the strobe light in

744

00:37:53,820 --> 00:37:49,680

the water they're trying to launch a

745

00:37:56,460 --> 00:37:53,830

small boat to go get him you know they

746

00:37:59,610 --> 00:37:56,470

do have search and rescue all there all

747

00:38:03,150 --> 00:37:59,620

of a sudden this light drops out of the

748

00:38:05,580 --> 00:38:03,160

sky and kind of hovers on the horizon he

749

00:38:07,560 --> 00:38:05,590

wasn't sure how far away and 30 to 50

750

00:38:11,400 --> 00:38:07,570

people saw this thing like do a right

751

00:38:13,980 --> 00:38:11,410

angle turn go from like 5 o'clock to 7

752

00:38:15,900 --> 00:38:13,990

o'clock position across the fantail the

753

00:38:19,170 --> 00:38:15,910

carrier and then shoot straight back up

754

00:38:21,480 --> 00:38:19,180

into the sky why and of course I mean

755

00:38:24,300 --> 00:38:21,490

that's just an anecdotal story but he

756

00:38:29,220 --> 00:38:24,310

was there and we're currently trying to

757

00:38:31,440 --> 00:38:29,230

FOIA the Nimitz deck logs post tick-tack

758

00:38:33,540 --> 00:38:31,450

to see if you know just to find out what

759

00:38:35,070 --> 00:38:33,550

day that was in you know I'm pretty sure

760

00:38:37,110 --> 00:38:35,080

a Man Overboard would be listed in her

761

00:38:40,890 --> 00:38:37,120

deck logs so I'm trying to find that out

762

00:38:43,830 --> 00:38:40,900

can you keep doing all of us a favor and

763

00:38:45,360 --> 00:38:43,840

give us all of the websites we need to

764

00:38:48,549 --> 00:38:45,370

know about in order to find out more

765

00:38:50,920 --> 00:38:48,559

about that wonderful 1.5 million viewed

766

00:38:53,729 --> 00:38:50,930

u.s. limits encounter movie you did

767

00:38:56,559 --> 00:38:53,739

including any other research and work

768

00:38:59,910 --> 00:38:56,569

yeah if you go to the Nimitz Encounters

769

00:39:03,609 --> 00:38:59,920

calm it's all there I have a link to the

770

00:39:05,709 --> 00:39:03,619

movie and a lot of the research

771

00:39:08,109 --> 00:39:05,719

documents that I was using I had done

772

00:39:11,349 --> 00:39:08,119

OCR optical character recognition on

773

00:39:15,099 --> 00:39:11,359

some of the scans so a lot of the TTS a

774

00:39:17,739 --> 00:39:15,109

documents the documents that George

775

00:39:20,499 --> 00:39:17,749

Knapp had and released the executive

776

00:39:23,049 --> 00:39:20,509

summary all of that has been done into

777

00:39:24,640 --> 00:39:23,059

OCR which you can download as a PDF so

778

00:39:26,469 --> 00:39:24,650

you so now like if you're trying to

779

00:39:29,589 --> 00:39:26,479

search you know you're looking for a

780

00:39:33,279 --> 00:39:29,599

keyword you can just do a search in that

781

00:39:36,430 --> 00:39:33,289

executive summary report and then the

782

00:39:39,190 --> 00:39:36,440

Facebook page the Nimitz Encounters has

783

00:39:42,099 --> 00:39:39,200

all these videos I'm talking about

784

00:39:43,930 --> 00:39:42,109

thank you for I'm sorry you to YouTube

785

00:39:45,430 --> 00:39:43,940

page sorry oh the YouTube page oh thank

786

00:39:47,680 --> 00:39:45,440

you for making that clear I appreciate

787

00:39:49,449 --> 00:39:47,690

that day Frank if you don't mind we just

788

00:39:52,150 --> 00:39:49,459

have to touch on one thing again and uh

789

00:39:54,660 --> 00:39:52,160

that was rich rich thank you for having

790

00:39:58,299 --> 00:39:54,670

gone through such an incredible analysis

791

00:40:00,999 --> 00:39:58,309

and I wanted to hear more but regarding

792

00:40:03,819 --> 00:40:01,009

guinea scu 2004 us estimates incident

793

00:40:05,769 --> 00:40:03,829

report and that your organization did

794

00:40:08,079 --> 00:40:05,779

wanted to let our listeners know the

795

00:40:10,479 --> 00:40:08,089

name of that report please let me know

796

00:40:12,430 --> 00:40:10,489

if this is correct a forensic analysis

797

00:40:13,989 --> 00:40:12,440

of Navy Carrier Strike Group Elevens

798

00:40:17,439 --> 00:40:13,999

encounter with an anomalous aerial

799

00:40:20,769 --> 00:40:17,449

vehicle and that is a two hundred

800

00:40:24,039 --> 00:40:20,779

seventy page PDF that can be found on

801
00:40:28,930 --> 00:40:24,049
the SE use website and so how you find

802
00:40:31,089 --> 00:40:28,940
that is you would go to explore SC u org

803
00:40:33,609 --> 00:40:31,099
is that correct rich and they can go

804
00:40:35,920 --> 00:40:33,619
from there yeah absolutely and you'll

805
00:40:37,420 --> 00:40:35,930
have the Agudilla paper and various

806
00:40:39,939 --> 00:40:37,430
other papers we're starting to put up

807
00:40:42,969 --> 00:40:39,949
there as well so yeah I actually asked

808
00:40:45,759 --> 00:40:42,979
our panel members to go over that report

809
00:40:47,319 --> 00:40:45,769
Earl you had a chance to gloss over it

810
00:40:51,729 --> 00:40:47,329
did you what did you think of that

811
00:40:52,989 --> 00:40:51,739
reports pretty wild isn't it I don't

812
00:40:56,620 --> 00:40:52,999
know a real stepped away

813
00:40:59,069 --> 00:40:56,630

I don't ya what's it this is not I gotta

814

00:41:02,440 --> 00:40:59,079

say one thing that

815

00:41:05,140 --> 00:41:02,450

testimony by Gary Voorhees the YouTube

816

00:41:09,400 --> 00:41:05,150

testimony that was included on the page

817

00:41:12,430 --> 00:41:09,410

before I read the report I almost blew

818

00:41:16,180 --> 00:41:12,440

coffee out my nose wait when they said

819

00:41:19,720 --> 00:41:16,190

that the official conclusion was

820

00:41:23,140 --> 00:41:19,730

spontaneous ice

821

00:41:26,529 --> 00:41:23,150

I think dr. J Allen Hynek has now been

822

00:41:28,839 --> 00:41:26,539

forgiven for the swamp gas comment and

823

00:41:32,769 --> 00:41:28,849

we can replace the most notorious

824

00:41:37,809 --> 00:41:32,779

comment in history with spontaneous ice

825

00:41:41,680 --> 00:41:37,819

now because that's just ludicrous at

826

00:41:43,839 --> 00:41:41,690

best now the report as I looked over it

827

00:41:47,289 --> 00:41:43,849

very good job rich I don't know if

828

00:41:49,990 --> 00:41:47,299

you're still there highly detailed the

829

00:41:53,289 --> 00:41:50,000

information contained with it again is

830

00:41:56,289 --> 00:41:53,299

exemplary as was the the report on the

831

00:41:59,650 --> 00:41:56,299

incident in Puerto Rico so good job

832

00:42:02,410 --> 00:41:59,660

there I enjoyed looking at it that's a

833

00:42:05,200 --> 00:42:02,420

lot of data of course did not consume

834

00:42:08,079 --> 00:42:05,210

every bit of the data yet I'm still kind

835

00:42:09,849 --> 00:42:08,089

of digesting it but it's one of those

836

00:42:12,099 --> 00:42:09,859

reports that you know I'm gonna be

837

00:42:14,079 --> 00:42:12,109

delving in and know every bit of it by

838

00:42:17,470 --> 00:42:14,089

the time I'm done with it because it has

839

00:42:19,930 --> 00:42:17,480

a very good data in it okay yeah and

840

00:42:21,940 --> 00:42:19,940

Earl I had actually I'm so sorry I had

841

00:42:24,400 --> 00:42:21,950

meant to ask you a question about that

842

00:42:28,599 --> 00:42:24,410

USS Nimitz report that the scientific

843

00:42:32,380 --> 00:42:28,609

regulation of UFO AG had put out it was

844

00:42:34,510 --> 00:42:32,390

a 270 page forensic analysis of the Navy

845

00:42:39,279 --> 00:42:34,520

carrier USS Nimitz did you get a chance

846

00:42:42,220 --> 00:42:39,289

to gloss over that Earl I rose up the

847

00:42:42,640 --> 00:42:42,230

way oh I see he said he's back right

848

00:42:44,920 --> 00:42:42,650

there

849

00:42:47,950 --> 00:42:44,930

I'm back all right I had to turn my

850

00:42:49,870 --> 00:42:47,960

microphone pack I actually read the

851

00:42:52,559 --> 00:42:49,880

whole thing and wonderful work there

852

00:42:58,359 --> 00:42:52,569

rich you know I mean we have so much

853

00:43:02,740 --> 00:42:58,369

respect for Rich's work and it was just

854

00:43:07,240 --> 00:43:02,750

a wonderful paper and I thought that it

855

00:43:11,079 --> 00:43:07,250

was very very it just really kind of

856

00:43:12,370 --> 00:43:11,089

attacked this this incident from kind of

857

00:43:13,960 --> 00:43:12,380

every side

858

00:43:17,259 --> 00:43:13,970

and I thought it was just very

859

00:43:20,410 --> 00:43:17,269

all-encompassing and really Lia that you

860

00:43:23,710 --> 00:43:20,420

guys did really wonderful work on it the

861

00:43:27,339 --> 00:43:23,720

most impressive thing to me was well

862

00:43:30,130 --> 00:43:27,349

I'll just quote you know let's see I

863

00:43:32,019 --> 00:43:30,140

think it was maybe one of the pilots

864

00:43:33,819 --> 00:43:32,029

said it was there then it rifled off out

865

00:43:35,890 --> 00:43:33,829

of sight in the split second it was as

866

00:43:38,289 --> 00:43:35,900

if the object was shot out of a rifle

867

00:43:40,299 --> 00:43:38,299

there is no gradual acceleration or

868

00:43:41,980 --> 00:43:40,309

spooling up period it just shot out of

869

00:43:44,799 --> 00:43:41,990

sight immediately I've never seen

870

00:43:46,480 --> 00:43:44,809

anything like it before or since and no

871

00:43:50,579 --> 00:43:46,490

human could have withstood that kind of

872

00:43:53,529 --> 00:43:50,589

acceleration these objects were breaking

873

00:43:57,370 --> 00:43:53,539

Newton's laws of thermodynamics for

874

00:44:00,309 --> 00:43:57,380

God's sake and and you know we're seeing

875

00:44:01,930 --> 00:44:00,319

them you know with with no just

876

00:44:06,519 --> 00:44:01,940

immediate acceleration and no

877

00:44:08,670 --> 00:44:06,529

deceleration doing 160 degree turns and

878

00:44:11,230 --> 00:44:08,680

and and these these objects were large

879

00:44:15,220 --> 00:44:11,240

we're talking about the size of a school

880

00:44:17,859 --> 00:44:15,230

bus as far as the the little tic-tac

881

00:44:21,759 --> 00:44:17,869

videos the one that was underwater who

882

00:44:24,460 --> 00:44:21,769

knows how big that was but you know I

883

00:44:25,599 --> 00:44:24,470

mean you don't build a drone that size I

884

00:44:27,370 --> 00:44:25,609

mean obviously if you're building

885

00:44:30,880 --> 00:44:27,380

something the size of a bus there's

886

00:44:33,249 --> 00:44:30,890

probably a crew it was just very very

887

00:44:36,190 --> 00:44:33,259

impressive and I think that we learned a

888

00:44:38,680 --> 00:44:36,200

lot through the scu investigation into

889

00:44:41,680 --> 00:44:38,690

this that's kind of thing we need you

890

00:44:43,809 --> 00:44:41,690

know and Earl Earl just so you know Jeff

891

00:44:46,480 --> 00:44:43,819

actually chimed in and he was able to

892

00:44:50,349 --> 00:44:46,490

give his viewpoint saying he was

893

00:44:52,359 --> 00:44:50,359

impressed about the the report to the

894

00:44:55,210 --> 00:44:52,369

report is extremely comprehensive I

895

00:44:58,569 --> 00:44:55,220

wanted to ask our panel about the Nellis

896

00:44:59,950 --> 00:44:58,579

the leaked Nellis UFO video rich can I

897

00:45:03,370 --> 00:44:59,960

start off with you on that

898

00:45:05,740 --> 00:45:03,380

well now what we want to do is we want

899

00:45:08,589 --> 00:45:05,750

to start off and talk about the Julian

900

00:45:10,539 --> 00:45:08,599

Assange arrest oh yeah I can do that

901
00:45:12,339 --> 00:45:10,549
that is no problem thank you very much

902
00:45:13,870 --> 00:45:12,349
for having brought that up just one

903
00:45:15,670 --> 00:45:13,880
moment let me bring it does that happen

904
00:45:20,400 --> 00:45:15,680
within the last week that was a bit of

905
00:45:23,710 --> 00:45:20,410
news and of course Sonya has had some

906
00:45:25,200 --> 00:45:23,720
UFO connections over the years so I yeah

907
00:45:26,940 --> 00:45:25,210
yeah

908
00:45:29,640 --> 00:45:26,950
absolutely thank you very much having

909
00:45:31,650 --> 00:45:29,650
brought that up Frank now talk about

910
00:45:33,390 --> 00:45:31,660
current events we have a current event

911
00:45:36,599 --> 00:45:33,400
here that just happened that is really

912
00:45:38,730 --> 00:45:36,609
expounder hooli and Julian Assange was

913
00:45:40,589 --> 00:45:38,740

charged with very sparse charges one

914

00:45:42,240 --> 00:45:40,599

being a computer hacking conspiracy by

915

00:45:44,280 --> 00:45:42,250

the US Justice Department and another

916

00:45:46,380 --> 00:45:44,290

found guilty of skipping bail by a

917

00:45:48,750 --> 00:45:46,390

London Court Assange was carried out by

918

00:45:51,870 --> 00:45:48,760

British authorities recently from the

919

00:45:54,480 --> 00:45:51,880

Ecuadorian Embassy after seeking refuge

920

00:45:56,430 --> 00:45:54,490

there seven years ago up in the air now

921

00:45:59,309 --> 00:45:56,440

is whether his arrest will now open a

922

00:46:01,890 --> 00:45:59,319

door to possible extraction to the u.s.

923

00:46:04,620 --> 00:46:01,900

to face one count of conspiracy related

924

00:46:07,890 --> 00:46:04,630

to the leaking of 740,000 classified

925

00:46:09,690 --> 00:46:07,900

military documents in 2010 handed over

926
00:46:12,079 --> 00:46:09,700
to him by military whistleblower at

927
00:46:14,460 --> 00:46:12,089
Chelsea Manning according to the US

928
00:46:19,559 --> 00:46:14,470
Department the material Manning gave

929
00:46:23,670 --> 00:46:19,569
WikiLeaks founder Assange were 90,000

930
00:46:27,450 --> 00:46:23,680
reports from the Afghanistan war 400,000

931
00:46:30,000 --> 00:46:27,460
reports from the Iraq war 250,000 US

932
00:46:31,530 --> 00:46:30,010
State Department cables which led up to

933
00:46:33,589 --> 00:46:31,540
the prosecution and conviction of

934
00:46:35,370 --> 00:46:33,599
Chelsea Manning who was sentenced up to

935
00:46:38,520 --> 00:46:35,380
35 years in prison

936
00:46:41,720 --> 00:46:38,530
the question is Assange next Assange

937
00:46:43,920 --> 00:46:41,730
blunt to the Ecuadorian Embassy in 2012

938
00:46:47,220 --> 00:46:43,930

when he was being charged with rape

939

00:46:49,319 --> 00:46:47,230

charges in Sweden Assange denies these the

940

00:46:52,799 --> 00:46:49,329

allegations the Ecuadorian government

941

00:46:55,559 --> 00:46:52,809

has since withdrawn Assange is Asylum

942

00:46:57,480 --> 00:46:55,569

status due to Assange his aggressive

943

00:47:00,270 --> 00:46:57,490

behavior finally a violation and

944

00:47:03,480 --> 00:47:00,280

disregard of their protocols at stake is

945

00:47:06,210 --> 00:47:03,490

Assange considers himself a journalist

946

00:47:08,520 --> 00:47:06,220

moving forward sure Assange has been

947

00:47:11,160 --> 00:47:08,530

under investigation going back to 2010

948

00:47:14,339 --> 00:47:11,170

more recently however the part he played

949

00:47:17,280 --> 00:47:14,349

in the 2016 US presidential elections

950

00:47:19,049 --> 00:47:17,290

ended with his investigation he is being

951
00:47:21,900 --> 00:47:19,059
investigated on leaking classified

952
00:47:24,180 --> 00:47:21,910
material espionage and collusion with

953
00:47:26,250 --> 00:47:24,190
Russia just prior to the election

954
00:47:28,710 --> 00:47:26,260
WikiLeaks released thousands of stolen

955
00:47:31,410 --> 00:47:28,720
emails from Democratic National

956
00:47:33,660 --> 00:47:31,420
Committee Hillary Clinton and Hillary

957
00:47:35,960 --> 00:47:33,670
Clinton's campaign chairman John Podesta

958
00:47:38,200 --> 00:47:35,970
it was concluded by US intelligence

959
00:47:39,730 --> 00:47:38,210
those stolen emails were

960
00:47:44,170 --> 00:47:39,740
hacked by the Russian government and

961
00:47:46,240 --> 00:47:44,180
were allegedly handed over to them by

962
00:47:48,849 --> 00:47:46,250
Assange for his WikiLeaks dumping of

963
00:47:50,920 --> 00:47:48,859

data right after that information was

964

00:47:53,740 --> 00:47:50,930

made public Trump praised WikiLeaks

965

00:47:56,109 --> 00:47:53,750

multiple times however present Trump

966

00:48:00,099 --> 00:47:56,119

said this week he knows nothing and is

967

00:48:02,320 --> 00:48:00,109

and it's not his thing about WikiLeaks

968

00:48:04,990 --> 00:48:02,330

according to a close friend of Assange

969

00:48:07,000 --> 00:48:05,000

who not only visited him just prior to

970

00:48:09,190 --> 00:48:07,010

his being taken out of the Ecuadorian

971

00:48:11,560 --> 00:48:09,200

Embassy but was responsible for having

972

00:48:14,950 --> 00:48:11,570

made part of the Sandra's bail the US

973

00:48:17,560 --> 00:48:14,960

government provided 4.2 billion dollar

974

00:48:19,650 --> 00:48:17,570

loan to the Ecuadorian government right

975

00:48:22,540 --> 00:48:19,660

before Assange's arrest

976

00:48:25,390 --> 00:48:22,550

lastly Assange is facing one computer

977

00:48:27,270 --> 00:48:25,400

intrusion conspiracy charge essentially

978

00:48:28,900 --> 00:48:27,280

saying he's being charged with helping

979

00:48:30,730 --> 00:48:28,910

Chelsea McCord

980

00:48:34,030 --> 00:48:30,740

so she could then login as an

981

00:48:36,220 --> 00:48:34,040

administrator or logon

982

00:48:38,770 --> 00:48:36,230

it's a different user to get clever

983

00:48:40,690 --> 00:48:38,780

about pushing classified material I have

984

00:48:44,020 --> 00:48:40,700

a few questions which I will direct you

985

00:48:46,060 --> 00:48:44,030

our paranormal lawyer Michael W Hall

986

00:48:48,270 --> 00:48:46,070

okay before we get into that I want to

987

00:48:51,430 --> 00:48:48,280

go into a little bit more detail about

988

00:48:53,859 --> 00:48:51,440

Assange is connection with UFOs

989

00:48:57,569 --> 00:48:53,869

of course chant you mentioned the in

990

00:48:59,770 --> 00:48:57,579

modesto emails and of course Podesta's

991

00:49:04,240 --> 00:48:59,780

expressed a lot of interest over the

992

00:49:06,430 --> 00:49:04,250

years in UFOs and as part of that week

993

00:49:09,160 --> 00:49:06,440

the hack leaked whatever you want to

994

00:49:11,440 --> 00:49:09,170

call it as part of all that some

995

00:49:15,010 --> 00:49:11,450

information that regarding at top the

996

00:49:16,960 --> 00:49:15,020

long contact with with Podesta came out

997

00:49:19,510 --> 00:49:16,970

also Edgar Mitchell he was still alive

998

00:49:22,599 --> 00:49:19,520

at that point that material came out

999

00:49:24,460 --> 00:49:22,609

that was rather interesting and gave

1000

00:49:25,990 --> 00:49:24,470

everybody a heads up that the law was

1001
00:49:28,240 --> 00:49:26,000
taking this may be a little bit more

1002
00:49:30,099 --> 00:49:28,250
seriously than some people thought at

1003
00:49:34,780 --> 00:49:30,109
the time and of course very

1004
00:49:36,940 --> 00:49:34,790
interestingly on December 19th of 2017

1005
00:49:40,329 --> 00:49:36,950
right after the New York Times article

1006
00:49:43,089 --> 00:49:40,339
came out about the a tip program all SAP

1007
00:49:45,940 --> 00:49:43,099
program whatever we want to call it

1008
00:49:47,530 --> 00:49:45,950
Assange tweeted the New York Times fake

1009
00:49:50,260 --> 00:49:47,540
news apocalypse has reached perfection

1010
00:49:53,130 --> 00:49:50,270
with a front-page story claiming UFOs

1011
00:49:56,109 --> 00:49:53,140
exist no surprise to see CIA

1012
00:49:58,480 --> 00:49:56,119
parapsychology Scientology frauds like

1013
00:50:01,420 --> 00:49:58,490

Harold E put off involved and the most

1014

00:50:04,870 --> 00:50:01,430

basic journalistic questions unasked of

1015

00:50:07,300 --> 00:50:04,880

course that screed there sounded a

1016

00:50:12,190 --> 00:50:07,310

little bit like what ron Pandolfi was

1017

00:50:15,430 --> 00:50:12,200

saying regarding tts a leading up to

1018

00:50:17,859 --> 00:50:15,440

that point it is rather curious great

1019

00:50:20,710 --> 00:50:17,869

camera and suggested that actually yep

1020

00:50:23,319 --> 00:50:20,720

in buffy got Assange to tweet that out

1021

00:50:25,030 --> 00:50:23,329

because what in for what why would

1022

00:50:27,849 --> 00:50:25,040

Julian Assange really care about this

1023

00:50:30,099 --> 00:50:27,859

but apparently according to grant that's

1024

00:50:32,950 --> 00:50:30,109

exactly what happened and let's go to

1025

00:50:34,630 --> 00:50:32,960

those questions for Michael hall ok

1026
00:50:37,089 --> 00:50:34,640
thank you that's fascinating by the way

1027
00:50:39,819 --> 00:50:37,099
I had no idea that information how I

1028
00:50:40,690 --> 00:50:39,829
just I'm astounded right now thank you

1029
00:50:42,609 --> 00:50:40,700
Frank

1030
00:50:45,069 --> 00:50:42,619
I have a few questions which I did want

1031
00:50:48,930 --> 00:50:45,079
to direct to as we're saying paranormal

1032
00:50:51,540 --> 00:50:48,940
lawyer Michael W Hall Michael

1033
00:51:00,309 --> 00:50:51,550
yes chant I'm here

1034
00:51:09,079 --> 00:51:03,980
go ahead and address and that is one is

1035
00:51:10,640 --> 00:51:09,089
Assange address two does the media have

1036
00:51:12,529 --> 00:51:10,650
anything to worry about regarding

1037
00:51:14,690 --> 00:51:12,539
publishing classified material

1038
00:51:16,730 --> 00:51:14,700

I've heard some complaints regarding

1039

00:51:17,989 --> 00:51:16,740

worries that they have on Assange's

1040

00:51:21,200 --> 00:51:17,999

arrest on the right and the left

1041

00:51:25,700 --> 00:51:21,210

regarding this question and lastly is

1042

00:51:30,019 --> 00:51:25,710

Assange a monster or hero so the first

1043

00:51:33,380 --> 00:51:30,029

one is Assange a journalist Michael yeah

1044

00:51:35,809 --> 00:51:33,390

well you know the Constitution in the

1045

00:51:39,259 --> 00:51:35,819

United States you know the free speech

1046

00:51:42,579 --> 00:51:39,269

Clause regarding free speech for the

1047

00:51:48,440 --> 00:51:42,589

public and the press has always been

1048

00:51:50,299 --> 00:51:48,450

very liberally you know construed by all

1049

00:51:52,730 --> 00:51:50,309

the courts matter of fact you know I

1050

00:51:55,220 --> 00:51:52,740

think as I mentioned in my little memo

1051
00:51:58,400 --> 00:51:55,230
to you earlier that Professor Alan

1052
00:51:59,930 --> 00:51:58,410
Dershowitz you know from Harvard Law has

1053
00:52:01,940 --> 00:51:59,940
mentioned that there is no

1054
00:52:04,970 --> 00:52:01,950
constitutional difference between

1055
00:52:07,460 --> 00:52:04,980
WikiLeaks and then New York Times so

1056
00:52:09,079 --> 00:52:07,470
when you're talking about a journalist

1057
00:52:11,599 --> 00:52:09,089
you're talking about pretty much anyone

1058
00:52:13,460 --> 00:52:11,609
who is disseminating you know

1059
00:52:15,499 --> 00:52:13,470
journalistic information and so I think

1060
00:52:18,829 --> 00:52:15,509
you would definitely qualify for that as

1061
00:52:22,309 --> 00:52:18,839
well as WikiLeaks would the next

1062
00:52:26,120 --> 00:52:22,319
question is of course can can journalism

1063
00:52:29,749 --> 00:52:26,130

be prosecuted for you know publishing

1064

00:52:34,700 --> 00:52:29,759

classified materials now that is more of

1065

00:52:39,769 --> 00:52:34,710

a gray area but the the recent would not

1066

00:52:43,420 --> 00:52:39,779

recent but 1971 Pentagon Papers New York

1067

00:52:48,859 --> 00:52:43,430

Times case was quite a slap in the face

1068

00:52:52,190 --> 00:52:48,869

for those homeland security issues and

1069

00:52:55,370 --> 00:52:52,200

classified document issues when Daniel

1070

00:52:57,710 --> 00:52:55,380

Ellsberg stole the documents they were

1071

00:53:02,029 --> 00:52:57,720

eventually published by the New York

1072

00:53:03,259 --> 00:53:02,039

Times and the real thing was is you know

1073

00:53:05,720 --> 00:53:03,269

whether was going to be a prior

1074

00:53:08,829 --> 00:53:05,730

restraint that they could not publish

1075

00:53:12,200 --> 00:53:08,839

them or whether they're going to be

1076

00:53:16,309 --> 00:53:12,210

prosecuted after they did publish them

1077

00:53:18,230 --> 00:53:16,319

and in reality they were not prosecuted

1078

00:53:21,410 --> 00:53:18,240

at all even after the publication of

1079

00:53:24,710 --> 00:53:21,420

those documents so when you've tried to

1080

00:53:27,010 --> 00:53:24,720

you know affront the free speech Clause

1081

00:53:29,240 --> 00:53:27,020

of the Constitution of the United States

1082

00:53:31,970 --> 00:53:29,250

directly head-on you're going to run

1083

00:53:34,730 --> 00:53:31,980

into a problem and I think that's what

1084

00:53:36,589 --> 00:53:34,740

the federal prosecutors are are thinking

1085

00:53:39,710 --> 00:53:36,599

at this point when they do this Assange

1086

00:53:42,470 --> 00:53:39,720

thing obviously that's why they've kind

1087

00:53:44,890 --> 00:53:42,480

of tweaked their complaint in this

1088

00:53:49,240 --> 00:53:44,900

regard and gone towards more of a

1089

00:53:52,099 --> 00:53:49,250

conspiracy charge against a son

1090

00:53:54,710 --> 00:53:52,109

conspiring with Chelsea Manning to

1091

00:53:56,809 --> 00:53:54,720

actually break in and steal these

1092

00:53:59,359 --> 00:53:56,819

documents so it's not necessarily the

1093

00:54:01,089 --> 00:53:59,369

publication that they're going after at

1094

00:54:04,010 --> 00:54:01,099

this point they're going after the

1095

00:54:06,290 --> 00:54:04,020

conspiracy issues that would lead up to

1096

00:54:08,720 --> 00:54:06,300

this kind of information being obtained

1097

00:54:11,599 --> 00:54:08,730

now that's kind of a key point that you

1098

00:54:14,299 --> 00:54:11,609

made there Michael it's not so much the

1099

00:54:17,030 --> 00:54:14,309

publication of the material but the

1100

00:54:19,069 --> 00:54:17,040

person who either does the leaking of

1101
00:54:20,750 --> 00:54:19,079
classified material or someone who aids

1102
00:54:23,690 --> 00:54:20,760
and abets them apparently yeah that's

1103
00:54:27,490 --> 00:54:23,700
the claim anyway from the US government

1104
00:54:31,789 --> 00:54:27,500
those are the people who are at risk

1105
00:54:34,549 --> 00:54:31,799
yeah exactly and you know it's just

1106
00:54:38,240 --> 00:54:34,559
being more and more narrowly construed

1107
00:54:40,819 --> 00:54:38,250
now all of these broad brush issues of

1108
00:54:44,480 --> 00:54:40,829
what is national security you know what

1109
00:54:47,180 --> 00:54:44,490
is classified material those things are

1110
00:54:50,059 --> 00:54:47,190
very ill-defined when you come down to

1111
00:54:52,450 --> 00:54:50,069
it so it leaves a broad brush for people

1112
00:54:55,250 --> 00:54:52,460
to be caught up and the whole issue of

1113
00:54:57,920 --> 00:54:55,260

disseminating or even possessing that

1114

00:55:02,720 --> 00:54:57,930

kind of material but of course you know

1115

00:55:05,120 --> 00:55:02,730

back in the 1971 Wild West word worth

1116

00:55:08,059 --> 00:55:05,130

and Bernstein era you know that was

1117

00:55:11,660 --> 00:55:08,069

something that was quite important the

1118

00:55:13,609 --> 00:55:11,670

protection of the the press and the

1119

00:55:16,460 --> 00:55:13,619

freedoms that we all have under the

1120

00:55:18,289 --> 00:55:16,470

Constitution nowadays I tell you what

1121

00:55:21,530 --> 00:55:18,299

they're finding some [h__h] holes in

1122

00:55:24,380 --> 00:55:21,540

those defenses and they're trying to go

1123

00:55:25,790 --> 00:55:24,390

after every kind of possible way they

1124

00:55:27,800 --> 00:55:25,800

can control

1125

00:55:31,190 --> 00:55:27,810

these kinds of potential leaks in the

1126

00:55:32,930 --> 00:55:31,200

future I think my my current question is

1127

00:55:36,560 --> 00:55:32,940

why the heck are they going after

1128

00:55:38,780 --> 00:55:36,570

Assange now after all these years you

1129

00:55:41,480 --> 00:55:38,790

know they're to me I always try to take

1130

00:55:44,420 --> 00:55:41,490

a large picture point of view of what's

1131

00:55:47,290 --> 00:55:44,430

going on here behind the scenes and I'm

1132

00:55:49,310 --> 00:55:47,300

hoping it's not going to be a red flag

1133

00:55:50,540 --> 00:55:49,320

you know a thing to try to keep

1134

00:55:51,500 --> 00:55:50,550

everybody's attention away from

1135

00:55:53,630 --> 00:55:51,510

something else

1136

00:55:56,780 --> 00:55:53,640

that's going on right now wellis

1137

00:55:59,060 --> 00:55:56,790

launches friend and just recently the

1138

00:56:00,290 --> 00:55:59,070

gentleman who actually helped to post

1139

00:56:02,900 --> 00:56:00,300

his bail

1140

00:56:05,630 --> 00:56:02,910

but I think is \$20000 he put board and

1141

00:56:09,550 --> 00:56:05,640

the judge reduced it to 12 grand when I

1142

00:56:13,310 --> 00:56:09,560

saw and just kept out skipped the bail

1143

00:56:17,650 --> 00:56:13,320

he was saying that the day before or

1144

00:56:22,310 --> 00:56:17,660

very recent to the arrest of Assange the

1145

00:56:24,560 --> 00:56:22,320

US government gave Ecuador 4.2 billion

1146

00:56:27,050 --> 00:56:24,570

dollar loan well technically it was the

1147

00:56:30,830 --> 00:56:27,060

IMF the International Monetary Fund but

1148

00:56:31,430 --> 00:56:30,840

oh was it yeah and then the other thank

1149

00:56:33,560 --> 00:56:31,440

you Frank

1150

00:56:36,770 --> 00:56:33,570

the the extra bit of data I wanted to

1151
00:56:38,390 --> 00:56:36,780
share is out of all the rape allegations

1152
00:56:41,510 --> 00:56:38,400
there's one left that will not expire

1153
00:56:43,070 --> 00:56:41,520
expires in 2020 so I I don't know if

1154
00:56:45,560 --> 00:56:43,080
they're just trying to hang on anything

1155
00:56:47,420 --> 00:56:45,570
they can not not to downplay rape I'm

1156
00:56:49,700 --> 00:56:47,430
not doing that I'm just saying that

1157
00:56:52,870 --> 00:56:49,710
they're trying to get him on something

1158
00:56:55,630 --> 00:56:52,880
they might trump up more charges later

1159
00:56:57,950 --> 00:56:55,640
but I wanted to read something by a

1160
00:56:59,990 --> 00:56:57,960
person by the name of Jonathan Peters

1161
00:57:03,140 --> 00:57:00,000
who specializes on the First Amendment

1162
00:57:05,510 --> 00:57:03,150
and the press he's a he wrote an

1163
00:57:07,880 --> 00:57:05,520

interesting article in April 18 2011

1164

00:57:09,020 --> 00:57:07,890

regarding this exact thing you can look

1165

00:57:11,240 --> 00:57:09,030

it up it's called and letting our

1166

00:57:13,060 --> 00:57:11,250

listeners know it's called WikiLeaks the

1167

00:57:15,110 --> 00:57:13,070

First Amendment and the press and

1168

00:57:16,370 --> 00:57:15,120

Michael just touched on this I'm just

1169

00:57:19,130 --> 00:57:16,380

going to read a paragraph from his

1170

00:57:21,110 --> 00:57:19,140

article and that is his conclusion in

1171

00:57:23,510 --> 00:57:21,120

the 40 years since the Pentagon Papers

1172

00:57:25,700 --> 00:57:23,520

case the Supreme Court is not once

1173

00:57:28,700 --> 00:57:25,710

upheld a content-based restriction on

1174

00:57:30,200 --> 00:57:28,710

the publication of truthful information

1175

00:57:32,570 --> 00:57:30,210

about the government that did not

1176
00:57:34,910 --> 00:57:32,580
involve some special circumstance such

1177
00:57:36,260 --> 00:57:34,920
as public employment perhaps that is

1178
00:57:38,360 --> 00:57:36,270
because the purpose of the First

1179
00:57:39,500 --> 00:57:38,370
Amendment is protect the free discussion

1180
00:57:41,990 --> 00:57:39,510
of government

1181
00:57:43,310 --> 00:57:42,000
governmental affairs and state action to

1182
00:57:45,470 --> 00:57:43,320
punish the publication of truthful

1183
00:57:48,230 --> 00:57:45,480
information seldom can satisfy

1184
00:57:49,760 --> 00:57:48,240
constitutional standards or perhaps that

1185
00:57:51,890 --> 00:57:49,770
is because the court has come to

1186
00:57:53,840 --> 00:57:51,900
understand the effects of dangerous

1187
00:57:55,820 --> 00:57:53,850
speech opt-in are exaggerated in the

1188
00:57:58,580 --> 00:57:55,830

heat of what Alexander Hamilton called

1189

00:58:00,740 --> 00:57:58,590

temporary caution or perhaps that is

1190

00:58:03,560 --> 00:58:00,750

because in the last 40 years we have

1191

00:58:06,500 --> 00:58:03,570

felt relatively safe as Judge Richard

1192

00:58:09,590 --> 00:58:06,510

Posner put it in 2002 when the country

1193

00:58:11,660 --> 00:58:09,600

feels very safe the justices can klum

1194

00:58:13,370 --> 00:58:11,670

themselves on their fearless devotion to

1195

00:58:15,320 --> 00:58:13,380

freedom of speech and professors can

1196

00:58:17,300 --> 00:58:15,330

divide the cowardice a speech

1197

00:58:18,800 --> 00:58:17,310

restrictive decisions but they are

1198

00:58:22,370 --> 00:58:18,810

likely to change their tune when the

1199

00:58:23,990 --> 00:58:22,380

next country feels endangered did you

1200

00:58:28,400 --> 00:58:24,000

have any comments for their comments

1201
00:58:33,250 --> 00:58:28,410
about the Assange case Michael well

1202
00:58:36,140 --> 00:58:33,260
again it's just puzzling to me that this

1203
00:58:38,390 --> 00:58:36,150
this issue is being brought up currently

1204
00:58:40,790 --> 00:58:38,400
and all of a sudden very quickly all of

1205
00:58:42,890 --> 00:58:40,800
a sudden we find out that he is being

1206
00:58:47,450 --> 00:58:42,900
arrested and they're prosecuting you

1207
00:58:49,820 --> 00:58:47,460
know on a very very not detailed

1208
00:58:52,940 --> 00:58:49,830
complaint by the way if you've read the

1209
00:58:54,680 --> 00:58:52,950
actual charges they're they're kind of

1210
00:58:56,900 --> 00:58:54,690
lacking in detail so that's very

1211
00:58:59,000 --> 00:58:56,910
interesting and it might be very

1212
00:59:02,080 --> 00:58:59,010
possible that they're coming up through

1213
00:59:05,200 --> 00:59:02,090

the statute statute of limitations issue

1214

00:59:07,730 --> 00:59:05,210

that they're dealing with on any kind of

1215

00:59:10,609 --> 00:59:07,740

collateral charge that they can add to

1216

00:59:13,040 --> 00:59:10,619

them as well regarding these rape

1217

00:59:15,320 --> 00:59:13,050

charges or whatever but the main issue

1218

00:59:19,130 --> 00:59:15,330

I've always contended in the background

1219

00:59:21,349 --> 00:59:19,140

is that there is an OL timing of all of

1220

00:59:23,720 --> 00:59:21,359

these kinds of things especially when

1221

00:59:26,330 --> 00:59:23,730

they're ongoing like this why they drop

1222

00:59:28,760 --> 00:59:26,340

the hammer now so we always have to keep

1223

00:59:36,050 --> 00:59:28,770

that in the back of our mind and realize

1224

00:59:38,650 --> 00:59:36,060

I think we dropped off like III do want

1225

00:59:41,000 --> 00:59:38,660

to go through the different types of

1226
00:59:43,250 --> 00:59:41,010
documents that that we in the UFO field

1227
00:59:46,730 --> 00:59:43,260
might be dealing with that way there are

1228
00:59:52,700 --> 00:59:46,740
leaks there are there have been leaked

1229
00:59:53,300 --> 00:59:52,710
videos the initial 2007 nimitz video or

1230
00:59:57,050 --> 00:59:53,310
cv 2

1231
00:59:59,120 --> 00:59:57,060
for that leaked out some time back and

1232
01:00:03,440 --> 00:59:59,130
ended up in the hands of rather

1233
01:00:07,400 --> 01:00:03,450
curiously a organization in Germany I

1234
01:00:10,100 --> 01:00:07,410
believe that did CGI videos so somehow

1235
01:00:12,860 --> 01:00:10,110
they got their hands on that FLIR video

1236
01:00:16,310 --> 01:00:12,870
long before T PSA ever came down the

1237
01:00:18,380 --> 01:00:16,320
pike and of course rich Hoffman you're a

1238
01:00:20,810 --> 01:00:18,390

Guardia video I think it would be safe

1239

01:00:25,150 --> 01:00:20,820

to categorize that as a leaked video

1240

01:00:28,160 --> 01:00:25,160

would you agree with that well I agree I

1241

01:00:29,720 --> 01:00:28,170

was listening the conversation and in

1242

01:00:33,680 --> 01:00:29,730

terms of the the whole thing about

1243

01:00:37,130 --> 01:00:33,690

classified documents and let me just say

1244

01:00:40,510 --> 01:00:37,140

this real quick that I my job I work in

1245

01:00:44,360 --> 01:00:40,520

IT 6i / security kind of concerns for

1246

01:00:46,190 --> 01:00:44,370

the military and I got on my desktop

1247

01:00:47,840 --> 01:00:46,200

I've got two computers I've got one

1248

01:00:51,110 --> 01:00:47,850

that's unclassified and the other one is

1249

01:00:55,520 --> 01:00:51,120

classified and I have to go into both of

1250

01:00:58,790 --> 01:00:55,530

them on a routine basis the marking of

1251

01:01:01,520 --> 01:00:58,800

things with classifications we get

1252

01:01:04,040 --> 01:01:01,530

trained on intensively every year and

1253

01:01:06,650 --> 01:01:04,050

the protection of classified materials

1254

01:01:08,360 --> 01:01:06,660

and we also see the we get briefings all

1255

01:01:10,910 --> 01:01:08,370

the time about you know reminding us

1256

01:01:13,370 --> 01:01:10,920

that you know of the danger of having

1257

01:01:15,230 --> 01:01:13,380

somebody like Aldrich Ames or various

1258

01:01:17,180 --> 01:01:15,240

other types of people that are inside

1259

01:01:20,690 --> 01:01:17,190

that are passing off this classified

1260

01:01:24,170 --> 01:01:20,700

material to our foreign enemies and so I

1261

01:01:26,410 --> 01:01:24,180

take it very seriously and and I'm very

1262

01:01:28,250 --> 01:01:26,420

concerned about the fact that you have

1263

01:01:30,320 --> 01:01:28,260

internal leaks and we're doing

1264

01:01:32,570 --> 01:01:30,330

everything we can to be able to protect

1265

01:01:35,060 --> 01:01:32,580

that data because we don't want it in

1266

01:01:38,480 --> 01:01:35,070

the hands of the other governments so I

1267

01:01:41,480 --> 01:01:38,490

I look at it like this you know I mean I

1268

01:01:43,070 --> 01:01:41,490

I don't know about the Aldrich I think

1269

01:01:45,650 --> 01:01:43,080

that the point there is whoever leaked

1270

01:01:48,170 --> 01:01:45,660

it deserves the same thing that an

1271

01:01:53,690 --> 01:01:48,180

Aldrich Ames has because they've damaged

1272

01:01:56,330 --> 01:01:53,700

our our our interest the so coming back

1273

01:01:59,660 --> 01:01:56,340

to your point in the context of the

1274

01:02:01,460 --> 01:01:59,670

Aguadilla case you know and this

1275

01:02:03,830 --> 01:02:01,470

probably is the same kind of thing that

1276

01:02:06,420 --> 01:02:03,840

maybe happened with the Nimitz as well I

1277

01:02:08,490 --> 01:02:06,430

think that you know so

1278

01:02:12,270 --> 01:02:08,500

pilots after they had this experience

1279

01:02:14,490 --> 01:02:12,280

about have now got this they've got this

1280

01:02:16,380 --> 01:02:14,500

probably put on something like a thumb

1281

01:02:17,760 --> 01:02:16,390

drive or something of that nature and

1282

01:02:20,180 --> 01:02:17,770

they're saying well what do we do with

1283

01:02:22,710 --> 01:02:20,190

this incredible thing that we saw and

1284

01:02:25,200 --> 01:02:22,720

they're questioning it and they probably

1285

01:02:28,559 --> 01:02:25,210

began passing it around and the next

1286

01:02:31,880 --> 01:02:28,569

thing you know is it it ends up being

1287

01:02:34,740 --> 01:02:31,890

you know passed around outside of that

1288

01:02:36,720 --> 01:02:34,750

it was we were told that it went up

1289

01:02:39,540 --> 01:02:36,730

through the chain of their leadership to

1290

01:02:41,760 --> 01:02:39,550

say well what do we do with it and they

1291

01:02:43,530 --> 01:02:41,770

never got a good response with it they

1292

01:02:45,870 --> 01:02:43,540

attempted to go through

1293

01:02:46,980 --> 01:02:45,880

I think Air Force intelligence and they

1294

01:02:48,690 --> 01:02:46,990

didn't you know while we don't do

1295

01:02:50,849 --> 01:02:48,700

investigate these things anymore and uh

1296

01:02:52,440 --> 01:02:50,859

so nobody wanted to do anything with it

1297

01:02:54,480 --> 01:02:52,450

they said they said okay well let me

1298

01:02:56,609 --> 01:02:54,490

pass this off to somebody there they

1299

01:02:58,079 --> 01:02:56,619

might treat it scientifically or and see

1300

01:03:00,540 --> 01:02:58,089

if they can help us figure it out and

1301

01:03:02,910 --> 01:03:00,550

that's what one pilot it was a friend of

1302

01:03:05,520 --> 01:03:02,920

the other pilot did and so that's how we

1303

01:03:07,349 --> 01:03:05,530

got it so and we had to signed a

1304

01:03:09,660 --> 01:03:07,359

nondisclosure agreement saying that we

1305

01:03:12,450 --> 01:03:09,670

wouldn't talk about it either until we

1306

01:03:17,099 --> 01:03:12,460

release the our publication and it's off

1307

01:03:19,319 --> 01:03:17,109

like that so they do leak you know I

1308

01:03:21,299 --> 01:03:19,329

joke 'only always point out the fact

1309

01:03:24,210 --> 01:03:21,309

that if somebody hacked into my computer

1310

01:03:27,210 --> 01:03:24,220

my government computer at work they

1311

01:03:35,069 --> 01:03:27,220

would suddenly declare that the Army is

1312

01:03:37,230 --> 01:03:35,079

now investigating UFOs all the time you

1313

01:03:39,780 --> 01:03:37,240

know I'd say well so gary mckinnon

1314

01:03:42,299 --> 01:03:39,790

breaks it and gets into my computer and

1315

01:03:44,160 --> 01:03:42,309

suddenly the army is now heavily into

1316

01:03:48,180 --> 01:03:44,170

UFOs and man you should see the stuff

1317

01:03:50,670 --> 01:03:48,190

that i got and uh and so you know and

1318

01:03:52,440 --> 01:03:50,680

government people are humans too they

1319

01:03:56,190 --> 01:03:52,450

they have all kinds of stuff on their

1320

01:03:57,839 --> 01:03:56,200

computer or I mean so yeah Ill have fun

1321

01:04:00,210 --> 01:03:57,849

with that the fact that you probably go

1322

01:04:01,950 --> 01:04:00,220

up on their hard drive and find out I

1323

01:04:04,680 --> 01:04:01,960

also want to point out to you fact that

1324

01:04:06,750 --> 01:04:04,690

this notion or that's believing that a

1325

01:04:10,520 --> 01:04:06,760

FOIA request is going to get to my hard

1326

01:04:14,760 --> 01:04:10,530

drive it's is absolutely inaccurate and

1327

01:04:17,940 --> 01:04:14,770

so I'll point that out to you so FOIA

1328

01:04:19,920 --> 01:04:17,950

does is not anything that it's going to

1329

01:04:22,470 --> 01:04:19,930

be even getting to my

1330

01:04:24,120 --> 01:04:22,480

my desktop so I just want to share that

1331

01:04:26,880 --> 01:04:24,130

with you that was my perspective on it

1332

01:04:30,059 --> 01:04:26,890

that I think it was I think it was

1333

01:04:33,390 --> 01:04:30,069

leaked if you would but only after they

1334

01:04:36,599 --> 01:04:33,400

got you know nobody was interested you

1335

01:04:38,460 --> 01:04:36,609

know and nobody nobody said that they

1336

01:04:42,900 --> 01:04:38,470

couldn't you know and so there you go

1337

01:04:44,789 --> 01:04:42,910

I had a question or a comment to is I

1338

01:04:46,859 --> 01:04:44,799

mean I think that this is a roll by the

1339

01:04:48,450 --> 01:04:46,869

way I think that there's a difference

1340

01:04:51,960 --> 01:04:48,460

between though I mean I don't think any

1341

01:04:54,120 --> 01:04:51,970

of us want information going out there

1342

01:04:57,000 --> 01:04:54,130

that can harm our national security

1343

01:04:59,130 --> 01:04:57,010

that's an athame and something that you

1344

01:05:01,589 --> 01:04:59,140

know anybody that's got a patriotic art

1345

01:05:04,559 --> 01:05:01,599

we don't want anything of that sort but

1346

01:05:06,990 --> 01:05:04,569

I think that with with you know the AG

1347

01:05:09,299 --> 01:05:07,000

would say a video that you saw it was

1348

01:05:12,329 --> 01:05:09,309

mostly the pilots were as you were to

1349

01:05:15,299 --> 01:05:12,339

say none satisfied with the swamp gas

1350

01:05:16,859 --> 01:05:15,309

kind of reaction or non reaction that

1351

01:05:20,910 --> 01:05:16,869

they got from something extraordinary

1352

01:05:23,190 --> 01:05:20,920

that they saw and how do you feel about

1353

01:05:27,359 --> 01:05:23,200

that am I correct in my assessment there

1354

01:05:28,980 --> 01:05:27,369

or yeah and I don't think it was even

1355

01:05:31,740 --> 01:05:28,990

you know they don't probably have a

1356

01:05:33,569 --> 01:05:31,750

classified classification scheme like we

1357

01:05:35,370 --> 01:05:33,579

have maybe in the DoD I don't know maybe

1358

01:05:37,920 --> 01:05:35,380

it's not even classified at all you know

1359

01:05:40,500 --> 01:05:37,930

I mean so ultimately it was a situation

1360

01:05:41,910 --> 01:05:40,510

where they said you know we just we want

1361

01:05:43,620 --> 01:05:41,920

to get somebody to look at this and help

1362

01:05:45,539 --> 01:05:43,630

us figure this thing out well what the

1363

01:05:47,640 --> 01:05:45,549

heck did we see you know that type of

1364

01:05:50,670 --> 01:05:47,650

thing and so it was more of like you

1365

01:05:52,620 --> 01:05:50,680

know that scientific curiosity and

1366

01:05:54,269 --> 01:05:52,630

seeing if we can get somebody that can

1367

01:05:55,740 --> 01:05:54,279

help us out to understand what we saw

1368

01:05:57,900 --> 01:05:55,750

hey I wanted to point out real quick

1369

01:06:00,510 --> 01:05:57,910

that if you go up on the to the stars

1370

01:06:01,950 --> 01:06:00,520

Academy and there's COI which is that

1371

01:06:06,359 --> 01:06:01,960

community as we were talking about this

1372

01:06:08,730 --> 01:06:06,369

earlier there's a video clip of dr. Hal

1373

01:06:10,980 --> 01:06:08,740

put off discusses the steps in his

1374

01:06:13,980 --> 01:06:10,990

pioneering research laboratory called

1375

01:06:16,140 --> 01:06:13,990

earth pack international they're using

1376
01:06:18,180 --> 01:06:16,150
to determine if merit material collected

1377
01:06:20,279 --> 01:06:18,190
for the atom research project is likely

1378
01:06:22,559 --> 01:06:20,289
to come from an advanced aerial vehicle

1379
01:06:25,289 --> 01:06:22,569
and he actually talks about what it's

1380
01:06:30,539 --> 01:06:25,299
hard to scientifically test and analyze

1381
01:06:33,390 --> 01:06:30,549
potential UAP UFO material okay so I

1382
01:06:36,000 --> 01:06:33,400
just want to bring up a quick point

1383
01:06:38,310 --> 01:06:36,010
from the peter's article that the chant

1384
01:06:40,320 --> 01:06:38,320
cited earlier that the historically the

1385
01:06:42,330 --> 01:06:40,330
clear and present danger standard

1386
01:06:44,130 --> 01:06:42,340
ensured that americans had broad

1387
01:06:45,900 --> 01:06:44,140
expression rights unless the government

1388
01:06:48,510 --> 01:06:45,910

proved that particular expression posed

1389

01:06:52,020 --> 01:06:48,520

a clear and imminent danger of serious

1390

01:06:53,580 --> 01:06:52,030

harm it's hard to imagine anything that

1391

01:06:56,340 --> 01:06:53,590

might come out that we would all of

1392

01:06:58,950 --> 01:06:56,350

course love to see regarding the UFO

1393

01:07:02,850 --> 01:06:58,960

field and case studies and so on that

1394

01:07:05,520 --> 01:07:02,860

would do that III that's the way i see

1395

01:07:12,540 --> 01:07:05,530

it does anyone else i want to agree or

1396

01:07:15,390 --> 01:07:12,550

disagree with that well let me just jump

1397

01:07:21,150 --> 01:07:15,400

in i work in the IT world like i pointed

1398

01:07:23,730 --> 01:07:21,160

out you can't I mean one of the first

1399

01:07:26,130 --> 01:07:23,740

things that I did was to go on both

1400

01:07:28,290 --> 01:07:26,140

levels and see what I can find all in

1401

01:07:30,750 --> 01:07:28,300

the way of UFOs and and stuff like that

1402

01:07:36,270 --> 01:07:30,760

and generally what I find is so lack of

1403

01:07:39,270 --> 01:07:36,280

interest right I don't care what term

1404

01:07:50,220 --> 01:07:39,280

you throw in there you ap you will work

1405

01:07:54,300 --> 01:07:50,230

and don't think my whole cube is

1406

01:08:01,040 --> 01:07:54,310

decorated in UFO stuff and and spends

1407

01:08:07,080 --> 01:08:03,870

well Michael Holick sounds to me as if

1408

01:08:09,440 --> 01:08:07,090

let's say hypothetically some UFO

1409

01:08:12,540 --> 01:08:09,450

researcher did receive a legitimate

1410

01:08:14,910 --> 01:08:12,550

classified document regarding UFOs and

1411

01:08:17,490 --> 01:08:14,920

I'll think that we all agree they exist

1412

01:08:20,310 --> 01:08:17,500

at least some level in some form if they

1413

01:08:23,880 --> 01:08:20,320

did receive something along those lines

1414

01:08:26,760 --> 01:08:23,890

they'd be pretty gutsy but that pretty

1415

01:08:28,440 --> 01:08:26,770

safe I think in that going with that for

1416

01:08:29,760 --> 01:08:28,450

the simple reason that how can the

1417

01:08:32,190 --> 01:08:29,770

government claim there's a clear and

1418

01:08:34,080 --> 01:08:32,200

imminent danger here when it's something

1419

01:08:38,030 --> 01:08:34,090

the government doesn't care about I mean

1420

01:08:45,109 --> 01:08:42,539

Michael haw I'm not sure he's there but

1421

01:08:48,359 --> 01:08:45,119

not your microphone Michael

1422

01:08:57,050 --> 01:08:48,369

well if okay well well Michael's been

1423

01:09:03,390 --> 01:08:59,309

damn you and I were talking earlier

1424

01:09:05,099 --> 01:09:03,400

today about Asajj and and wanted to know

1425

01:09:08,370 --> 01:09:05,109

if he wouldn't mind can you tell me what

1426

01:09:13,349 --> 01:09:08,380

you meant when you mentioned DeLong and

1427

01:09:15,450 --> 01:09:13,359

general McCasland sure I mean you know

1428

01:09:18,359 --> 01:09:15,460

talking about leaked documents and

1429

01:09:19,919 --> 01:09:18,369

WikiLeaks and you know journalism and so

1430

01:09:21,959 --> 01:09:19,929

on obviously there's a whole debate

1431

01:09:23,999 --> 01:09:21,969

there that goes back a long way I

1432

01:09:26,280 --> 01:09:24,009

personally do believe in freedom of the

1433

01:09:29,329 --> 01:09:26,290

press and if you know he wasn't

1434

01:09:31,829 --> 01:09:29,339

personally responsible for hacking into

1435

01:09:34,800 --> 01:09:31,839

classified systems and this was given to

1436

01:09:37,530 --> 01:09:34,810

him as he claims in these emails he

1437

01:09:39,660 --> 01:09:37,540

claims were not provided to him by the

1438

01:09:43,229 --> 01:09:39,670

Russians you know to sway the election

1439

01:09:44,640 --> 01:09:43,239

that's his claim you know I also like

1440

01:09:46,950 --> 01:09:44,650

going and looking at the documents and

1441

01:09:50,640 --> 01:09:46,960

as everyone knows there are some UFO

1442

01:09:53,700 --> 01:09:50,650

related things in mr. Podesta's emails

1443

01:09:54,959 --> 01:09:53,710

that were leaked so today I started

1444

01:09:58,290 --> 01:09:54,969

going through there and anyone can go to

1445

01:10:01,339 --> 01:09:58,300

WikiLeaks and look at Podesta's emails

1446

01:10:05,040 --> 01:10:01,349

just do a search for Tom DeLonge and

1447

01:10:08,010 --> 01:10:05,050

start reading all of the emails I don't

1448

01:10:11,280 --> 01:10:08,020

know what the context of Tom's DeLong's

1449

01:10:13,069 --> 01:10:11,290

emails to John Podesta were but it's

1450

01:10:17,490 --> 01:10:13,079

very interesting that he talks about

1451

01:10:19,919 --> 01:10:17,500

General William McCaslin and this

1452

01:10:22,229 --> 01:10:19,929

general from wright-patterson Air Force

1453

01:10:25,109 --> 01:10:22,239

Base that was apparently working very

1454

01:10:27,959 --> 01:10:25,119

closely with Tom as he was forming to

1455

01:10:31,560 --> 01:10:27,969

the stars and he had direct influence on

1456

01:10:34,709 --> 01:10:31,570

the team members or the members of his

1457

01:10:37,859 --> 01:10:34,719

committee so to speak and there's some

1458

01:10:40,439 --> 01:10:37,869

very interesting email exchanges talking

1459

01:10:43,109 --> 01:10:40,449

about that this general was the one that

1460

01:10:46,220 --> 01:10:43,119

kind of was in charge of the laboratory

1461

01:10:49,649 --> 01:10:46,230

that received the materials from Roswell

1462

01:10:51,930 --> 01:10:49,659

and that he ran that laboratory for many

1463

01:10:55,459 --> 01:10:51,940

years and then it goes on

1464

01:10:58,650 --> 01:10:55,469

talk about some of the generals ideas

1465

01:11:01,200 --> 01:10:58,660

for a briefing to the American people

1466

01:11:04,410 --> 01:11:01,210

what this would look like to the senior

1467

01:11:06,780 --> 01:11:04,420

leadership what they would say and what

1468

01:11:10,020 --> 01:11:06,790

NASA's position would be and what public

1469

01:11:12,209 --> 01:11:10,030

affairs positions would be and I mean he

1470

01:11:14,250 --> 01:11:12,219

doesn't go right out and say it because

1471

01:11:16,920 --> 01:11:14,260

he knows this is a public email - you

1472

01:11:19,650 --> 01:11:16,930

know that - a you know the government

1473

01:11:23,479 --> 01:11:19,660

these things are public record but it's

1474

01:11:27,240 --> 01:11:23,489

very interesting to read into that now I

1475

01:11:30,870 --> 01:11:27,250

kind of waffle back and forth on the

1476
01:11:33,950 --> 01:11:30,880
classified technology he Tom DeLonge

1477
01:11:37,290 --> 01:11:33,960
uses a term in these emails called

1478
01:11:39,780 --> 01:11:37,300
classified science in the DoD projects

1479
01:11:43,680 --> 01:11:39,790
again I have no idea what that means he

1480
01:11:45,720 --> 01:11:43,690
must have some insider info on that you

1481
01:11:47,910 --> 01:11:45,730
know there could be like four out of

1482
01:11:50,459 --> 01:11:47,920
five of these Navy vets that I talk to

1483
01:11:52,890 --> 01:11:50,469
you do believe that this technology that

1484
01:11:55,560 --> 01:11:52,900
they were witnessing is our technology

1485
01:11:57,930 --> 01:11:55,570
and that's coming from their experience

1486
01:12:01,590 --> 01:11:57,940
you know and these secret programs and

1487
01:12:03,270 --> 01:12:01,600
things they've seen but again I don't

1488
01:12:04,979 --> 01:12:03,280

know if that's the case I just don't

1489

01:12:06,390 --> 01:12:04,989

take it off the table and you read these

1490

01:12:07,620 --> 01:12:06,400

emails and you think what are they

1491

01:12:11,010 --> 01:12:07,630

talking about are they just talking

1492

01:12:11,939 --> 01:12:11,020

about oh hey American public UFOs are

1493

01:12:13,770 --> 01:12:11,949

real we don't know what they are

1494

01:12:15,570 --> 01:12:13,780

everyone should be concerned you know

1495

01:12:18,630 --> 01:12:15,580

the Navy seeing them Air Force to seeing

1496

01:12:21,630 --> 01:12:18,640

oh no we should study it or is there

1497

01:12:23,640 --> 01:12:21,640

something a bigger picture there so I

1498

01:12:25,709 --> 01:12:23,650

think that story still has to be

1499

01:12:28,380 --> 01:12:25,719

answered I'm not sure what the the truth

1500

01:12:31,439 --> 01:12:28,390

is and just to clear something up really

1501

01:12:33,150 --> 01:12:31,449

quick McCasland ran the Air Force

1502

01:12:35,370 --> 01:12:33,160

Research Laboratory I believe at a

1503

01:12:37,500 --> 01:12:35,380

wright-patterson Air Force Base that's

1504

01:12:39,420 --> 01:12:37,510

right yeah that's what it says yeah if

1505

01:12:41,790 --> 01:12:39,430

you look if you do a background on him

1506

01:12:43,050 --> 01:12:41,800

all right yeah you seem to answer that

1507

01:12:44,670 --> 01:12:43,060

pretty quickly do you know anything

1508

01:12:48,900 --> 01:12:44,680

about this guy can you fill us in on him

1509

01:12:51,959 --> 01:12:48,910

well no I just know you know Billy with

1510

01:12:53,520 --> 01:12:51,969

FTD and I'm now that it's I think it's

1511

01:12:56,520 --> 01:12:53,530

called Nasik now or something like that

1512

01:13:00,229 --> 01:12:56,530

but FTD for technology division yeah I

1513

01:13:03,050 --> 01:13:00,239

actually gave a UFO presentation to FTD

1514

01:13:05,510 --> 01:13:03,060

back when in my earlier days

1515

01:13:07,250 --> 01:13:05,520

and so yeah I mean and I'm very familiar

1516

01:13:11,150 --> 01:13:07,260

with the kinds of work that they would

1517

01:13:13,010 --> 01:13:11,160

do because we do the thing with missile

1518

01:13:14,930 --> 01:13:13,020

technologies and stuff like that that we

1519

01:13:18,050 --> 01:13:14,940

get from foreign governments and stuff

1520

01:13:19,190 --> 01:13:18,060

like that here in in Huntsville we've

1521

01:13:21,560 --> 01:13:19,200

got the missile Space Intelligence

1522

01:13:24,350 --> 01:13:21,570

Center so yeah I mean there's a lot of

1523

01:13:27,110 --> 01:13:24,360

claims that I got over the years because

1524

01:13:29,060 --> 01:13:27,120

I would have I would have all kinds of

1525

01:13:30,950 --> 01:13:29,070

when I was giving public lectures around

1526

01:13:34,010 --> 01:13:30,960

the entire city of Dayton all the time

1527

01:13:35,510 --> 01:13:34,020

and I was only on TV and radio and stuff

1528

01:13:37,520 --> 01:13:35,520

like that and I get these people that

1529

01:13:39,620 --> 01:13:37,530

would be asking questions and one of the

1530

01:13:41,210 --> 01:13:39,630

things was I work out at the base and I

1531

01:13:42,470 --> 01:13:41,220

do this and I'm three squad and they

1532

01:13:44,720 --> 01:13:42,480

would they would be sharing their

1533

01:13:47,990 --> 01:13:44,730

stories and stuff like that well you

1534

01:13:49,940 --> 01:13:48,000

know the thing is that you have to vet

1535

01:13:53,480 --> 01:13:49,950

those stories no different than you do

1536

01:13:56,000 --> 01:13:53,490

with a witness on the UFO case I mean we

1537

01:13:58,010 --> 01:13:56,010

believing that that just because they're

1538

01:14:00,560 --> 01:13:58,020

military that they don't lie or that

1539

01:14:02,480 --> 01:14:00,570

they don't have they can't exaggerate

1540

01:14:05,150 --> 01:14:02,490

certain things and stuff like that so

1541

01:14:07,460 --> 01:14:05,160

you have to treat that testimony or that

1542

01:14:10,850 --> 01:14:07,470

statement or that claim with the same

1543

01:14:14,090 --> 01:14:10,860

level of a fact-checking if you would

1544

01:14:17,930 --> 01:14:14,100

and and I don't know all the details

1545

01:14:21,020 --> 01:14:17,940

about this particular individual but I

1546

01:14:23,930 --> 01:14:21,030

can certainly tell you that I think that

1547

01:14:26,900 --> 01:14:23,940

you know materials from Roswell did make

1548

01:14:30,650 --> 01:14:26,910

it to write Pat and I pretty much

1549

01:14:33,710 --> 01:14:30,660

satisfied with that as to what they

1550

01:14:36,710 --> 01:14:33,720

found or and where even that those

1551

01:14:39,740 --> 01:14:36,720

materials are now I have no idea you

1552

01:14:41,540 --> 01:14:39,750

know things are there if sorry if you

1553

01:14:44,180 --> 01:14:41,550

look if you look at the Podesta emails

1554

01:14:46,910 --> 01:14:44,190

with Tom DeLonge and you read into it

1555

01:14:48,320 --> 01:14:46,920

the bigger picture of the things that

1556

01:14:50,830 --> 01:14:48,330

Tom DeLonge has been talking about

1557

01:14:53,420 --> 01:14:50,840

before say the New York Times article

1558

01:14:55,040 --> 01:14:53,430

some of the appearances that he made on

1559

01:14:56,690 --> 01:14:55,050

radio and a few of the things that he

1560

01:15:00,230 --> 01:14:56,700

said and then you put it in contacts

1561

01:15:01,880 --> 01:15:00,240

with these emails it kind of paints a

1562

01:15:04,610 --> 01:15:01,890

picture now I'm not sure exactly what

1563

01:15:06,800 --> 01:15:04,620

the answer is but again you don't know

1564

01:15:09,290 --> 01:15:06,810

if what Tom DeLonge is saying in this

1565

01:15:11,540 --> 01:15:09,300

email to Podesta is accurate or not it's

1566

01:15:13,990 --> 01:15:11,550

just anecdotal and email so it could be

1567

01:15:16,939 --> 01:15:14,000

incorrect but sort of an interesting

1568

01:15:18,620 --> 01:15:16,949

contexts I'm Frank I think

1569

01:15:20,180 --> 01:15:18,630

you may have had a question if you can

1570

01:15:22,850 --> 01:15:20,190

remember what it was if you don't I have

1571

01:15:24,430 --> 01:15:22,860

one for Michael he's back on with us as

1572

01:15:27,979 --> 01:15:24,440

you just brought him back on I think

1573

01:15:33,110 --> 01:15:27,989

well I had asked him about the clear and

1574

01:15:36,229 --> 01:15:33,120

present danger standard that is used in

1575

01:15:40,160 --> 01:15:36,239

terms of a UFO or not our students a UFO

1576

01:15:42,410 --> 01:15:40,170

my bad in terms of whether or not the

1577

01:15:45,229 --> 01:15:42,420

press could not be restrained in some

1578

01:15:48,610 --> 01:15:45,239

way from going with something and it's

1579

01:15:53,240 --> 01:15:48,620

hard to imagine a circumstance where a

1580

01:15:56,780 --> 01:15:53,250

UFO legitimately classified legitimate

1581

01:15:58,490 --> 01:15:56,790

UFO document and gets leaked to a UFO

1582

01:16:00,530 --> 01:15:58,500

researcher let's say and they go with it

1583

01:16:02,600 --> 01:16:00,540

it'll be hard for the government to

1584

01:16:05,959 --> 01:16:02,610

claim there's a we're an imminent danger

1585

01:16:07,340 --> 01:16:05,969

there when basically they're there

1586

01:16:09,590 --> 01:16:07,350

they're not really expressing a whole

1587

01:16:12,490 --> 01:16:09,600

lot of interest in UFOs it seems like

1588

01:16:18,470 --> 01:16:15,350

well that would go to the prior

1589

01:16:23,090 --> 01:16:18,480

restraint issue you're right Frank which

1590

01:16:25,490 --> 01:16:23,100

is is very sharp edge by the way you

1591

01:16:27,770 --> 01:16:25,500

know when a court issues an injunction

1592

01:16:30,050 --> 01:16:27,780

against the newspaper or a publication

1593

01:16:34,070 --> 01:16:30,060

or any kind of a journalist from

1594

01:16:38,240 --> 01:16:34,080

publishing something the journalists can

1595

01:16:40,510 --> 01:16:38,250

make a choice they can go along with the

1596

01:16:43,580 --> 01:16:40,520

court order initially and then try to

1597

01:16:45,740 --> 01:16:43,590

attack it after the fact through the

1598

01:16:49,189 --> 01:16:45,750

court system or they can just go ahead

1599

01:16:52,870 --> 01:16:49,199

and and publish but the real issue is is

1600

01:16:55,390 --> 01:16:52,880

is very difficult to fight the case of

1601
01:16:58,430 --> 01:16:55,400
going against a restraining order

1602
01:17:01,340 --> 01:16:58,440
prospectively ahead of time rather than

1603
01:17:04,850 --> 01:17:01,350
going along with the prior restraint at

1604
01:17:07,160 --> 01:17:04,860
a time at the time the court orders it

1605
01:17:08,900 --> 01:17:07,170
and then trying to attack it later on so

1606
01:17:12,860 --> 01:17:08,910
most people are pretty skittish about

1607
01:17:15,709 --> 01:17:12,870
that but so I would say that if the

1608
01:17:19,220 --> 01:17:15,719
government decided for some reason that

1609
01:17:21,200 --> 01:17:19,230
UFOs were a high enough security risk

1610
01:17:25,310 --> 01:17:21,210
that they were going to bring a prior

1611
01:17:29,630 --> 01:17:25,320
restraint you know order from the court

1612
01:17:33,530 --> 01:17:29,640
to stop a publication in that regard

1613
01:17:37,220 --> 01:17:33,540

they would obviously have to show some

1614

01:17:39,970 --> 01:17:37,230

kind of evidence that this would be of

1615

01:17:42,580 --> 01:17:39,980

such a high regard that they needed to

1616

01:17:46,550 --> 01:17:42,590

you know prospectively stop it before

1617

01:17:49,030 --> 01:17:46,560

it's being published so that they would

1618

01:17:53,240 --> 01:17:49,040

almost give credence to the issue of

1619

01:17:55,930 --> 01:17:53,250

UFOs which they're seeming to to do

1620

01:17:58,370 --> 01:17:55,940

nowadays but they're also given a higher

1621

01:18:01,490 --> 01:17:58,380

priority to it if they're doing to go

1622

01:18:03,410 --> 01:18:01,500

for prior restraint and also just by

1623

01:18:05,000 --> 01:18:03,420

doing that just by taking that action in

1624

01:18:06,950 --> 01:18:05,010

the first place they're basically

1625

01:18:10,160 --> 01:18:06,960

admitting that the document itself is

1626

01:18:13,610 --> 01:18:10,170

legitimate which as far as I know

1627

01:18:16,330 --> 01:18:13,620

they've never done exactly that's uh

1628

01:18:18,620 --> 01:18:16,340

they've been very crafty in that regard

1629

01:18:21,140 --> 01:18:18,630

and you know the whole eye issue with

1630

01:18:23,390 --> 01:18:21,150

Assange and UFOs and all that stuff

1631

01:18:25,100 --> 01:18:23,400

they're not attacking that at this point

1632

01:18:28,280 --> 01:18:25,110

they're talking other things

1633

01:18:31,340 --> 01:18:28,290

collaterally to accomplish maybe their

1634

01:18:33,920 --> 01:18:31,350

final goal of keeping him away from the

1635

01:18:37,490 --> 01:18:33,930

real meat of the issue that that he

1636

01:18:39,230 --> 01:18:37,500

potentially has in his hip pocket at one

1637

01:18:42,350 --> 01:18:39,240

time there was an issue as to whether he

1638

01:18:44,840 --> 01:18:42,360

was really a journalist or not I think

1639

01:18:48,500 --> 01:18:44,850

Asajj I I don't know if I'm correct or

1640

01:18:51,740 --> 01:18:48,510

not may have counted himself as a

1641

01:18:55,220 --> 01:18:51,750

journalist after he released all of that

1642

01:18:57,920 --> 01:18:55,230

data that hackers provided to him I

1643

01:18:59,720 --> 01:18:57,930

wanted to ask you a question but Michael

1644

01:19:03,140 --> 01:18:59,730

but let me just read you something first

1645

01:19:05,060 --> 01:19:03,150

about Hilde liesecke who's 12 years old

1646

01:19:06,610 --> 01:19:05,070

now and the youngest member of the

1647

01:19:09,380 --> 01:19:06,620

National Society of Professional

1648

01:19:11,990 --> 01:19:09,390

Journalists held he is a reporter and

1649

01:19:14,540 --> 01:19:12,000

publisher of Orange Street News a

1650

01:19:15,950 --> 01:19:14,550

Pennsylvania based news site when you're

1651

01:19:18,200 --> 01:19:15,960

at Frank Pennsylvania

1652

01:19:20,060 --> 01:19:18,210

she has received national attention for

1653

01:19:23,210 --> 01:19:20,070

her recording she was only nine years

1654

01:19:26,330 --> 01:19:23,220

old when she grabbed a pen notepad and

1655

01:19:28,370 --> 01:19:26,340

camera and posted something online and

1656

01:19:30,860 --> 01:19:28,380

beat all her local competitors to the

1657

01:19:32,540 --> 01:19:30,870

big scoop with her headline exclusive

1658

01:19:34,670 --> 01:19:32,550

murder on 9th Street

1659

01:19:36,800 --> 01:19:34,680

she didn't only just beat the local

1660

01:19:39,500 --> 01:19:36,810

paper but she managed to grab a short

1661

01:19:42,470 --> 01:19:39,510

video from the crime scene as well the

1662

01:19:43,470 --> 01:19:42,480

point here is she was only nine when she

1663

01:19:46,260 --> 01:19:43,480

counted as a

1664

01:19:51,510 --> 01:19:46,270

journalist and you know it's just

1665

01:19:55,800 --> 01:19:51,520

interesting Michael please fill us in on

1666

01:19:57,720 --> 01:19:55,810

John topic and that is this is it a gray

1667

01:20:06,180 --> 01:19:57,730

area whether people are journals

1668

01:20:09,570 --> 01:20:06,190

journalists are not understand is I you

1669

01:20:14,010 --> 01:20:09,580

know let's just pretend on and you don't

1670

01:20:15,810 --> 01:20:14,020

even have no pad or or pinch you're all

1671

01:20:23,400 --> 01:20:15,820

of your senses and then you were to a

1672

01:20:30,220 --> 01:20:27,230

well yes I would definitely

1673

01:20:33,830 --> 01:20:30,230

you assassin now adays with the

1674

01:20:35,270 --> 01:20:33,840

capability city bus we'd be copies and

1675

01:20:38,810 --> 01:20:35,280

broadcasting I have a degree in

1676
01:20:41,240 --> 01:20:38,820
broadcast journalism myself my BA is is

1677
01:20:44,210 --> 01:20:41,250
is journalism but you know I don't go

1678
01:20:46,640 --> 01:20:44,220
around necessarily talking or explaining

1679
01:20:48,590 --> 01:20:46,650
that I'm a journalist but any kind of

1680
01:20:51,650 --> 01:20:48,600
information you run across

1681
01:20:53,480 --> 01:20:51,660
if you're going to disseminate it you

1682
01:20:57,320 --> 01:20:53,490
become a journalist and I think the

1683
01:20:59,930 --> 01:20:57,330
First Amendment has been very liberally

1684
01:21:01,460 --> 01:20:59,940
construed in that regard because they

1685
01:21:03,620 --> 01:21:01,470
don't want to get into that area of

1686
01:21:06,140 --> 01:21:03,630
trying to attack the freedom of the

1687
01:21:09,980 --> 01:21:06,150
press the freedom of speech head-on

1688
01:21:11,720 --> 01:21:09,990

that's very difficult to do yeah and now

1689

01:21:13,610 --> 01:21:11,730

real quick I want to jump in and

1690

01:21:15,140 --> 01:21:13,620

something we haven't discussed in detail

1691

01:21:17,840 --> 01:21:15,150

I played it a little bit earlier I want

1692

01:21:20,420 --> 01:21:17,850

to play it again was a leaked video that

1693

01:21:22,190 --> 01:21:20,430

came out back in the mid 90s it was

1694

01:21:24,830 --> 01:21:22,200

picked up originally I believe by the

1695

01:21:26,720 --> 01:21:24,840

sittings TV show I wanted to play that

1696

01:21:30,380 --> 01:21:26,730

again I think it's a it was taken over

1697

01:21:33,500 --> 01:21:30,390

the Nellis Air Force Base area and it's

1698

01:21:35,450 --> 01:21:33,510

very curious and I think a few of us had

1699

01:21:36,650 --> 01:21:35,460

a chance to take a look at it do you

1700

01:21:39,020 --> 01:21:36,660

want to give us any thoughts on that

1701
01:21:40,880 --> 01:21:39,030
because I don't think that gets that

1702
01:21:43,430 --> 01:21:40,890
much attention these days but it's

1703
01:21:46,310 --> 01:21:43,440
interesting again it's a leaked video

1704
01:21:50,300 --> 01:21:46,320
that came out and anybody want to jump

1705
01:21:51,920 --> 01:21:50,310
in on the content of the video this is

1706
01:21:53,960 --> 01:21:51,930
Dave I can talk a little bit about that

1707
01:21:57,560 --> 01:21:53,970
um when I first saw that I believe on

1708
01:22:01,160 --> 01:21:57,570
sightings I was pretty blown away by

1709
01:22:02,480 --> 01:22:01,170
what appeared on camera obviously it

1710
01:22:07,010 --> 01:22:02,490
seems to be some type of military

1711
01:22:08,540 --> 01:22:07,020
tracking camera that is imaging a object

1712
01:22:10,130 --> 01:22:08,550
and the operator is heard on the radios

1713
01:22:14,720 --> 01:22:10,140

don't seem to know what they're looking

1714

01:22:16,580 --> 01:22:14,730

at again I think that somebody that was

1715

01:22:20,270 --> 01:22:16,590

there got a hold of this and then ended

1716

01:22:23,330 --> 01:22:20,280

up selling that video piece to like hard

1717

01:22:26,510 --> 01:22:23,340

copy and claim that they weren't the

1718

01:22:29,480 --> 01:22:26,520

ones that filmed it and so on later on

1719

01:22:32,540 --> 01:22:29,490

you know in the 2000s researcher by the

1720

01:22:34,670 --> 01:22:32,550

name of Martin Powell did a bunch of

1721

01:22:37,700 --> 01:22:34,680

forensics on that video and came to the

1722

01:22:41,120 --> 01:22:37,710

conclusion that it was filmed in the

1723

01:22:44,810 --> 01:22:41,130

tano pod electronic war

1724

01:22:47,000 --> 01:22:44,820

their test range where you know the Air

1725

01:22:50,600 --> 01:22:47,010

Force and maybe I believe do these red

1726

01:22:52,220 --> 01:22:50,610

flag exercises and they fly fighter

1727

01:22:55,340 --> 01:22:52,230

planes and other planes around

1728

01:22:58,990 --> 01:22:55,350

simulating combat one of the things that

1729

01:23:02,500 --> 01:22:59,000

they have on the ground are our Soviet

1730

01:23:05,450 --> 01:23:02,510

style radars that would simulate

1731

01:23:07,220 --> 01:23:05,460

anti-aircraft defenses so they bring up

1732

01:23:10,070 --> 01:23:07,230

these radars in the fighter pilots or

1733

01:23:13,189 --> 01:23:10,080

the Bombers have to kind of avoid them

1734

01:23:16,040 --> 01:23:13,199

or defeat these enemy radars and their

1735

01:23:18,770 --> 01:23:16,050

simulated attacks and it's believed that

1736

01:23:21,860 --> 01:23:18,780

that video is from one of those radar

1737

01:23:24,709 --> 01:23:21,870

trucks or radar facilities that is

1738

01:23:27,050 --> 01:23:24,719

simulating an enemy radar and so they're

1739

01:23:29,810 --> 01:23:27,060

you know showing an object coming at

1740

01:23:32,959 --> 01:23:29,820

them that they don't know what it is so

1741

01:23:34,040 --> 01:23:32,969

that's a little background of at least

1742

01:23:37,669 --> 01:23:34,050

what that represents

1743

01:23:39,379 --> 01:23:37,679

and I agree I tried to do some digging

1744

01:23:41,030 --> 01:23:39,389

around this Ridge I tried to do some

1745

01:23:43,640 --> 01:23:41,040

digging around on I've seen a lot my

1746

01:23:45,770 --> 01:23:43,650

teams as well and to me it's like one of

1747

01:23:51,260 --> 01:23:45,780

those things where it's like you know is

1748

01:23:54,110 --> 01:23:51,270

it a significant value to us I mean even

1749

01:23:56,990 --> 01:23:54,120

for us see you to organize an an

1750

01:24:00,860 --> 01:23:57,000

investigate and there's just not any

1751

01:24:03,200 --> 01:24:00,870

data that goes with this thing and you

1752

01:24:05,570 --> 01:24:03,210

just you struggle with it you know

1753

01:24:08,000 --> 01:24:05,580

there's got an elevation and like an

1754

01:24:10,729 --> 01:24:08,010

azimuth kind of like reading and if it

1755

01:24:13,879 --> 01:24:10,739

is in the Tonopah region you know then

1756

01:24:16,459 --> 01:24:13,889

I'm surprised that if it's a test that

1757

01:24:18,229 --> 01:24:16,469

who are these operators that are saying

1758

01:24:21,620 --> 01:24:18,239

that they don't know about the test and

1759

01:24:24,439 --> 01:24:21,630

you know I just struggle with it because

1760

01:24:28,520 --> 01:24:24,449

there's just not any data that goes

1761

01:24:30,740 --> 01:24:28,530

along with it so I I'm hard pressed to

1762

01:24:33,110 --> 01:24:30,750

really spend much time on those kinds of

1763

01:24:33,950 --> 01:24:33,120

things because you just don't really get

1764

01:24:41,080 --> 01:24:33,960

anywhere with them

1765

01:24:47,240 --> 01:24:44,030

rich was saying earlier to me is that

1766

01:24:51,890 --> 01:24:47,250

this interesting video would be labeled

1767

01:24:53,810 --> 01:24:51,900

as insufficient data and MUFON any

1768

01:24:54,910 --> 01:24:53,820

comments on that you don't have the

1769

01:24:57,430 --> 01:24:54,920

Providence bond

1770

01:25:00,430 --> 01:24:57,440

- you know you run into problems you

1771

01:25:02,710 --> 01:25:00,440

know you gotta have some background on

1772

01:25:06,130 --> 01:25:02,720

it you know I I get stuff all the time

1773

01:25:09,700 --> 01:25:06,140

that that you know we can't really go

1774

01:25:11,920 --> 01:25:09,710

and track back to the source and so it

1775

01:25:13,570 --> 01:25:11,930

may be anime the most amazing video that

1776

01:25:16,540 --> 01:25:13,580

you ever saw but if you can't really

1777

01:25:18,130 --> 01:25:16,550

track back where it came from or as far

1778

01:25:21,100 --> 01:25:18,140

as photographs go if you don't have the

1779

01:25:23,260 --> 01:25:21,110

exif data the original photo you know

1780

01:25:25,150 --> 01:25:23,270

it's the same sort of thing you you know

1781

01:25:27,610 --> 01:25:25,160

there's lots of videos out there that I

1782

01:25:29,800 --> 01:25:27,620

think are exciting and interesting but

1783

01:25:32,070 --> 01:25:29,810

if you have zero background on it it's

1784

01:25:34,960 --> 01:25:32,080

kind of unusable to us unfortunately

1785

01:25:37,240 --> 01:25:34,970

yeah I mean that really is a case when

1786

01:25:40,960 --> 01:25:37,250

you think about it no photo no video

1787

01:25:43,360 --> 01:25:40,970

will never stand it on its own as proof

1788

01:25:46,510 --> 01:25:43,370

of anything other than there's a video

1789

01:25:48,580 --> 01:25:46,520

there's an image you've got to have all

1790

01:25:50,830 --> 01:25:48,590

of those other facets of the

1791

01:25:52,690 --> 01:25:50,840

investigation to even point you to a

1792

01:25:55,150 --> 01:25:52,700

direction to say you could identify it

1793

01:26:00,040 --> 01:25:55,160

or not but yeah I agree that's just

1794

01:26:02,380 --> 01:26:00,050

insufficient data there yep Shane is a

1795

01:26:09,730 --> 01:26:02,390

great a great investigator man we're

1796

01:26:11,110 --> 01:26:09,740

proud to have him I think you're right

1797

01:26:13,360 --> 01:26:11,120

by the way about Jenny's wonderful

1798

01:26:15,820 --> 01:26:13,370

person so is his beautiful wife Donna a

1799

01:26:18,430 --> 01:26:15,830

Jeff was saying that he feels the data

1800

01:26:20,250 --> 01:26:18,440

is insufficient for sure Jeff can you

1801

01:26:23,680 --> 01:26:20,260

chime in on that

1802

01:26:25,390 --> 01:26:23,690

regarding the nellis video well again

1803

01:26:29,200 --> 01:26:25,400

you know you don't know the story behind

1804

01:26:32,320 --> 01:26:29,210

it any of the elements in it or even

1805

01:26:36,250 --> 01:26:32,330

that it's a real video so to give it any

1806

01:26:39,010 --> 01:26:36,260

credence would be foolish it looks

1807

01:26:41,650 --> 01:26:39,020

interesting but yeah I can't figure out

1808

01:26:43,750 --> 01:26:41,660

what it is interesting videos are a dime

1809

01:26:45,760 --> 01:26:43,760

a dozen I'm more impressed with the

1810

01:26:48,010 --> 01:26:45,770

video shot by that seven-year-old girl

1811

01:26:52,690 --> 01:26:48,020

that we had the case of no that's a

1812

01:26:56,230 --> 01:26:52,700

great shot of a disc well my opinion

1813

01:26:58,600 --> 01:26:56,240

crap we have excess data on it she took

1814

01:27:01,300 --> 01:26:58,610

photos she didn't mean to but she got

1815

01:27:03,250 --> 01:27:01,310

them you know and I just thought one

1816

01:27:07,120 --> 01:27:03,260

other leak that came out I think is that

1817

01:27:08,860 --> 01:27:07,130

kind of interesting this was one of the

1818

01:27:12,280 --> 01:27:08,870

Defense Intelligence

1819

01:27:14,740 --> 01:27:12,290

documents a couple of reports written by

1820

01:27:18,550 --> 01:27:14,750

Eric Davis ended up in the hands of

1821

01:27:26,680 --> 01:27:18,560

Corey good cut out a cure a curious

1822

01:27:30,190 --> 01:27:26,690

source but one day after the New York

1823

01:27:33,670 --> 01:27:30,200

Times article came out so you can't deny

1824

01:27:34,840 --> 01:27:33,680

it he did have him up there you got to

1825

01:27:36,700 --> 01:27:34,850

think that there's some of the folks

1826

01:27:38,290 --> 01:27:36,710

that are passing this stuff out do you

1827

01:27:41,080 --> 01:27:38,300

have a little bit of a sense of humor

1828

01:27:42,940 --> 01:27:41,090

maybe hard hard to figure out but I did

1829

01:27:45,460 --> 01:27:42,950

want to give good credit where credit is

1830

01:27:51,010 --> 01:27:45,470

due I think that's been taking advantage

1831

01:27:53,380 --> 01:27:51,020

of the new marijuana laws ok like I said

1832

01:27:54,970 --> 01:27:53,390

he did have him he posted him the day

1833

01:27:57,910 --> 01:27:54,980

after the New York Times story came out

1834

01:27:59,680 --> 01:27:57,920

somebody passed them to him so he got

1835

01:28:01,750 --> 01:27:59,690

him he did post them didn't really make

1836

01:28:04,330 --> 01:28:01,760

that much of a big deal about it and as

1837

01:28:06,130 --> 01:28:04,340

far as I know he hasn't done wolvern this

1838

01:28:10,210 --> 01:28:06,140

particular tale and just some of his

1839

01:28:12,580 --> 01:28:10,220

other more shall we say speculative

1840

01:28:15,190 --> 01:28:12,590

stories that he tells but you can't deny

1841

01:28:17,680 --> 01:28:15,200

it he had he had the two reports from

1842

01:28:20,350 --> 01:28:17,690

Davis up on his website the day after

1843

01:28:22,540 --> 01:28:20,360

the New York Times story so there you go

1844

01:28:24,700 --> 01:28:22,550

and like I said I think some people who

1845

01:28:26,200 --> 01:28:24,710

do do some occasional leaking have a

1846

01:28:29,050 --> 01:28:26,210

little bit of a sense of humor in terms

1847

01:28:30,910 --> 01:28:29,060

of who they leak to but that that's also

1848

01:28:33,730 --> 01:28:30,920

part of the leaking process you decide

1849

01:28:35,530 --> 01:28:33,740

who you send it to so I did what I did

1850

01:28:38,110 --> 01:28:35,540

want to mention that and I give a thank

1851

01:28:45,190 --> 01:28:38,120

you he said do do and linking in the

1852

01:28:46,960 --> 01:28:45,200

same sentence to the mj-12 documents I

1853

01:28:49,810 --> 01:28:46,970

wanted to make a comment to Michael Hall

1854

01:28:51,850 --> 01:28:49,820

and that is Michael I don't I'm sure you

1855

01:28:53,890 --> 01:28:51,860

can recall when you were on the show as

1856

01:28:56,050 --> 01:28:53,900

a guest when we had the privilege of

1857

01:28:58,630 --> 01:28:56,060

interviewing you we were just talking

1858

01:29:02,410 --> 01:28:58,640

about the Pentagon Papers of red flags

1859

01:29:05,370 --> 01:29:02,420

and deep state the question I had wanted

1860

01:29:10,210 --> 01:29:05,380

to ask you is this regarding Assange and

1861

01:29:13,300 --> 01:29:10,220

you touched on red flag scenario where

1862

01:29:17,980 --> 01:29:13,310

is the red flag if there was one to be

1863

01:29:20,290 --> 01:29:17,990

had regarding Asajj well the red flag

1864

01:29:22,179 --> 01:29:20,300

for me seems to be the timing of this

1865

01:29:24,540 --> 01:29:22,189

arrest

1866

01:29:28,359 --> 01:29:24,550

you know Assange has been there

1867

01:29:32,799 --> 01:29:28,369

invulnerable for years why just now do

1868

01:29:34,750 --> 01:29:32,809

they give the the large loan to the

1869

01:29:38,319 --> 01:29:34,760

Ecuadorian Embassy or whoever they gave

1870

01:29:41,350 --> 01:29:38,329

it to and what is prompting the the

1871

01:29:44,169 --> 01:29:41,360

action at this point that it's my always

1872

01:29:48,520 --> 01:29:44,179

thought in the background is why is the

1873

01:29:50,259 --> 01:29:48,530

timing ripe at this point to go forward

1874

01:29:51,850 --> 01:29:50,269

like we did mention that might be

1875

01:29:54,279 --> 01:29:51,860

because of a statute of limitation

1876

01:29:58,120 --> 01:29:54,289

problem that they might be perceiving

1877

01:30:02,049 --> 01:29:58,130

down the road or it might be that it's

1878

01:30:03,910 --> 01:30:02,059

not necessarily the red flag itself by

1879

01:30:07,810 --> 01:30:03,920

the arrest of massage but it's just

1880

01:30:10,870 --> 01:30:07,820

hunted taking the spotlight off of this

1881

01:30:11,229 --> 01:30:10,880

whole area at this time for something

1882

01:30:12,600 --> 01:30:11,239

else

1883

01:30:15,640 --> 01:30:12,610

that might be going on in the background

1884

01:30:18,370 --> 01:30:15,650

I'd like another possible scenario is

1885

01:30:20,799 --> 01:30:18,380

just took a while to change over the

1886

01:30:23,379 --> 01:30:20,809

Ecuadorian government send to sort of

1887

01:30:25,089 --> 01:30:23,389

and get them to play ball I think that

1888

01:30:27,189 --> 01:30:25,099

might be part of that process because

1889

01:30:28,839 --> 01:30:27,199

basically what happened was he was safe

1890

01:30:31,149 --> 01:30:28,849

while he was in the embassy and

1891

01:30:32,979 --> 01:30:31,159

basically what the Ecuadorians did is

1892

01:30:36,279 --> 01:30:32,989

they evicted so that's why he became

1893

01:30:37,379 --> 01:30:36,289

available for Mueller I mean elephant in

1894

01:30:41,020 --> 01:30:37,389

the room

1895

01:30:43,569 --> 01:30:41,030

you know the Mueller report we're gonna

1896

01:30:46,810 --> 01:30:43,579

be seen more than four pages very

1897

01:30:49,569 --> 01:30:46,820

shortly and of course a lot of it has to

1898

01:30:51,429 --> 01:30:49,579

deal with the Russian hacking of our

1899

01:30:54,609 --> 01:30:51,439

election system and the democratic

1900

01:30:58,209 --> 01:30:54,619

process and WikiLeaks is intricately

1901

01:31:00,989 --> 01:30:58,219

tied to all these investigations so no

1902

01:31:04,060 --> 01:31:00,999

it's not any surprise to me whatsoever

1903

01:31:06,969 --> 01:31:04,070

that they should make a grab effort to

1904

01:31:09,669 --> 01:31:06,979

try and get Julian Assange especially if

1905

01:31:12,640 --> 01:31:09,679

they can get them extradited to the

1906

01:31:13,600 --> 01:31:12,650

United States but now you see here's the

1907

01:31:15,969 --> 01:31:13,610

sticky wicket

1908

01:31:19,569 --> 01:31:15,979

is he a private citizen or is he a

1909

01:31:22,509 --> 01:31:19,579

journalist doesn't really matter because

1910

01:31:25,000 --> 01:31:22,519

and I'm you know quotes out of the First

1911

01:31:27,399 --> 01:31:25,010

Amendment are great no but one of the

1912

01:31:30,399 --> 01:31:27,409

quotes actually on the old page that you

1913

01:31:32,919 --> 01:31:30,409

sent me earlier chant I think really

1914

01:31:35,500 --> 01:31:32,929

sums up the whole viewpoint on it and

1915

01:31:37,689 --> 01:31:35,510

that is that state action

1916

01:31:40,359 --> 01:31:37,699

to punish the publication of truthful

1917

01:31:45,040 --> 01:31:40,369

information seldom can satisfy

1918

01:31:47,500 --> 01:31:45,050

constitutional standards and you know

1919

01:31:49,990 --> 01:31:47,510

once again you're running up against

1920

01:31:52,959 --> 01:31:50,000

that beautiful brick wall called the

1921

01:31:54,720 --> 01:31:52,969

Constitution that protects the rights of

1922

01:31:58,209 --> 01:31:54,730

journalists and the freedom of speech

1923

01:32:00,970 --> 01:31:58,219

and it's not based on whether you like

1924

01:32:04,379 --> 01:32:00,980

what was said it's based on the fact

1925

01:32:08,259 --> 01:32:04,389

that the person has the right to say it

1926

01:32:11,169 --> 01:32:08,269

there was a kind of similar to the

1927

01:32:14,319 --> 01:32:11,179

Assange situation where again this

1928

01:32:16,720 --> 01:32:14,329

involves British law now - and the

1929

01:32:19,540 --> 01:32:16,730

extradition process there was a fellow

1930

01:32:24,129 --> 01:32:19,550

named Gary McKinnon who was able to get

1931

01:32:26,410 --> 01:32:24,139

into various u.s. governmental computers

1932

01:32:29,439 --> 01:32:26,420

including a NASA computer apparently and

1933

01:32:32,169 --> 01:32:29,449

the u.s. tried very very hard for a lot

1934

01:32:34,810 --> 01:32:32,179

of years to get him extradited that

1935

01:32:36,339 --> 01:32:34,820

failed because basically it became as

1936

01:32:38,770 --> 01:32:36,349

such an issue amongst the British people

1937

01:32:40,810 --> 01:32:38,780

they didn't want their guy extradited

1938

01:32:43,209 --> 01:32:40,820

and they put enough pressure privately

1939

01:32:45,939 --> 01:32:43,219

on the government where it got all the

1940

01:32:47,700 --> 01:32:45,949

way to the top and people like the the

1941

01:32:50,169 --> 01:32:47,710

current prime minister met and

1942

01:32:53,259 --> 01:32:50,179

previously David Cameron who was prime

1943

01:32:55,750 --> 01:32:53,269

minister they got enough political heat

1944

01:32:58,419 --> 01:32:55,760

that they didn't really go along with it

1945

01:33:02,410 --> 01:32:58,429

and ultimately MacKinnon was never

1946

01:33:04,839 --> 01:33:02,420

extradited and just one day get all of

1947

01:33:07,209 --> 01:33:04,849

your thoughts on all that I think the

1948

01:33:09,580 --> 01:33:07,219

difference there is MacKinnon public he

1949

01:33:12,009 --> 01:33:09,590

actually did the deed of breaking in and

1950

01:33:15,129 --> 01:33:12,019

acting which is of course illegal

1951

01:33:17,049 --> 01:33:15,139

whereas Assange didn't actually break in

1952

01:33:19,450 --> 01:33:17,059

and get the information himself he's the

1953

01:33:21,399 --> 01:33:19,460

guy that published the information well

1954

01:33:23,169 --> 01:33:21,409

that's a distinction that needs to be

1955

01:33:24,790 --> 01:33:23,179

made right there I'm glad you brought

1956

01:33:28,509 --> 01:33:24,800

that up because that's actually being

1957

01:33:31,270 --> 01:33:28,519

brought up as a possibility that he

1958

01:33:35,200 --> 01:33:31,280

helped Chelsea Manning break into a

1959

01:33:37,720 --> 01:33:35,210

computer the the files so so I wasn't

1960

01:33:39,459 --> 01:33:37,730

aware he was technologically capable of

1961

01:33:41,200 --> 01:33:39,469

doing such thing or advanced in

1962

01:33:43,930 --> 01:33:41,210

intellect enough to know how to do that

1963

01:33:46,839 --> 01:33:43,940

well whether we surmise that or not or

1964

01:33:48,810 --> 01:33:46,849

postulate on that I tell you that one of

1965

01:33:52,069 --> 01:33:48,820

the charges is he

1966

01:33:56,330 --> 01:33:52,079

being accused of helping Chelsea Manning

1967

01:33:59,490 --> 01:33:56,340

break in to a certain part of I guess

1968

01:34:02,010 --> 01:33:59,500

database or fouls or folders with

1969

01:34:05,160 --> 01:34:02,020

regards to helping her figure out how to

1970

01:34:07,350 --> 01:34:05,170

attain a password or use some kind of

1971

01:34:10,020 --> 01:34:07,360

method to find a second username I

1972

01:34:13,080 --> 01:34:10,030

believe right exactly exactly yep

1973

01:34:15,330 --> 01:34:13,090

so anyway I wanted to let our listeners

1974

01:34:17,819 --> 01:34:15,340

know something about Gary McKinnon

1975

01:34:19,200 --> 01:34:17,829

getting it from Wikipedia I've already

1976

01:34:20,790 --> 01:34:19,210

checked this information is accurate

1977

01:34:23,790 --> 01:34:20,800

sometimes people complain about

1978

01:34:26,729 --> 01:34:23,800

Wikipedia being accurate but Gary McCain

1979

01:34:29,100 --> 01:34:26,739

just so our listeners know who he is he

1980

01:34:30,780 --> 01:34:29,110

was a Scottish assist admin hacker who

1981

01:34:32,399 --> 01:34:30,790

was accused of no - of perpetrating the

1982

01:34:32,879 --> 01:34:32,409

biggest military computer hack of all

1983

01:34:35,760 --> 01:34:32,889

time

1984

01:34:37,470 --> 01:34:35,770

although MacKinnon states himself he was

1985

01:34:40,290 --> 01:34:37,480

merely looking for evidence of free

1986

01:34:41,700 --> 01:34:40,300

energy suppression and a cover-up of UFO

1987

01:34:43,410 --> 01:34:41,710

activity and other technologies

1988

01:34:46,890 --> 01:34:43,420

potentially useful to the public

1989

01:34:48,600 --> 01:34:46,900
on October 16th of 12 2012 after a

1990

01:34:50,850 --> 01:34:48,610
series of legal proceedings in Britain

1991

01:34:52,890 --> 01:34:50,860
Home Secretary Theresa May would through

1992

01:34:56,310 --> 01:34:52,900
her extradition order to the US just as

1993

01:34:57,990 --> 01:34:56,320
you were saying Frank it's interesting

1994

01:34:59,760 --> 01:34:58,000
about MacKinnon does anybody have

1995

01:35:02,399 --> 01:34:59,770
anything they want to say about him

1996

01:35:05,100 --> 01:35:02,409
regarding it yet go ahead I have a

1997

01:35:06,600 --> 01:35:05,110
comment is Dave you know again I don't

1998

01:35:09,689 --> 01:35:06,610
know all this stuff so I start looking

1999

01:35:11,430 --> 01:35:09,699
at it when you arch and aside from the

2000

01:35:12,899 --> 01:35:11,440
political side of it in the legal side

2001

01:35:15,720 --> 01:35:12,909

of it I like what some of these people

2002

01:35:17,879 --> 01:35:15,730

are saying and MacKinnon said to the BBC

2003

01:35:21,180 --> 01:35:17,889

in an interview that he you know he

2004

01:35:22,950 --> 01:35:21,190

started looking into this in his hacking

2005

01:35:25,109 --> 01:35:22,960

because of the disclosure project of

2006

01:35:26,870 --> 01:35:25,119

course you know that one but that he

2007

01:35:29,430 --> 01:35:26,880

said that there are some very credible

2008

01:35:31,890 --> 01:35:29,440

relied upon people that are all saying

2009

01:35:34,830 --> 01:35:31,900

yes you know there is UFO technology

2010

01:35:38,129 --> 01:35:34,840

there is anti-gravity there is free

2011

01:35:40,290 --> 01:35:38,139

energy and it's extraterrestrial origin

2012

01:35:43,560 --> 01:35:40,300

they have captured spacecraft and

2013

01:35:45,500 --> 01:35:43,570

reverse engineered it so whether he

2014

01:35:48,209 --> 01:35:45,510

actually found proof of that in his

2015

01:35:52,709 --> 01:35:48,219

hacking deeds I don't know but he claims

2016

01:35:55,169 --> 01:35:52,719

he did and as an aside he also David

2017

01:35:58,229 --> 01:35:55,179

Gilmore Pink Floyd also released an

2018

01:36:00,740 --> 01:35:58,239

online single supporting him yeah you

2019

01:36:01,830 --> 01:36:00,750

got a lot of public support it wasn't

2020

01:36:04,400 --> 01:36:01,840

not

2021

01:36:06,390 --> 01:36:04,410

I think a Bob Geldof was involved in

2022

01:36:09,560 --> 01:36:06,400

speaking up for him and they're trying

2023

01:36:12,060 --> 01:36:09,570

to fight the extradition a lot of

2024

01:36:13,560 --> 01:36:12,070

high-profile folks did get behind him

2025

01:36:15,960 --> 01:36:13,570

and there was a lot of grassroots

2026

01:36:18,480 --> 01:36:15,970

support for that too and ultimately he

2027

01:36:20,850 --> 01:36:18,490

is where he is he never was extradited

2028

01:36:23,190 --> 01:36:20,860

to the state so we'll see if the same

2029

01:36:25,380 --> 01:36:23,200

sort of thing happens on Assange behalf

2030

01:36:27,540 --> 01:36:25,390

a little too early to tell you we'll see

2031

01:36:29,310 --> 01:36:27,550

how that and wanted to make a comment

2032

01:36:31,580 --> 01:36:29,320

that's actually kind of related to the

2033

01:36:34,550 --> 01:36:31,590

Chelsea Manning statement I just made

2034

01:36:39,170 --> 01:36:34,560

regarding Assange having allegedly

2035

01:36:42,630 --> 01:36:39,180

helped Chelsea Manning get access into a

2036

01:36:45,180 --> 01:36:42,640

network or into a file or folder for

2037

01:36:47,670 --> 01:36:45,190

more classified intelligence and that is

2038

01:36:50,640 --> 01:36:47,680

McKinnon was saying on a BBC click

2039

01:36:51,900 --> 01:36:50,650

program is the name of it is that he was

2040

01:36:53,730 --> 01:36:51,910

able to get into military networks

2041

01:36:56,790 --> 01:36:53,740

simply by using perl script

2042

01:36:58,650 --> 01:36:56,800

that's searched for blank passwords in

2043

01:37:00,150 --> 01:36:58,660

other words says reports suggest that

2044

01:37:03,690 --> 01:37:00,160

there were computers on these networks

2045

01:37:06,210 --> 01:37:03,700

with the default passwords active so is

2046

01:37:16,410 --> 01:37:06,220

that easy it's unfortunate he didn't get

2047

01:37:18,480 --> 01:37:16,420

a screenshot of what he saw into my

2048

01:37:24,150 --> 01:37:18,490

computer you can find out that the army

2049

01:37:28,980 --> 01:37:24,160

is looking into UFOs strange things that

2050

01:37:30,600 --> 01:37:28,990

I've got on my desktop so have fun in

2051

01:37:37,050 --> 01:37:30,610

your computer rich and I really like

2052

01:37:40,730 --> 01:37:37,060

your wife chicken pie recipe long with

2053

01:37:43,410 --> 01:37:40,740

the anti-gravity craft are developing

2054

01:37:48,080 --> 01:37:43,420

you know I'll be able to come right over

2055

01:37:53,990 --> 01:37:50,970

everybody know that on rich Hoffman's

2056

01:38:02,820 --> 01:37:54,000

computer there's a bunch of gifts about

2057

01:38:04,530 --> 01:38:02,830

UFOs abducting cows and the Army's

2058

01:38:08,130 --> 01:38:04,540

really heavily involved in that whole

2059

01:38:13,290 --> 01:38:08,140

thing let me tell you where for a second

2060

01:38:18,400 --> 01:38:13,300

I thought you're gonna say cats pushing

2061

01:38:23,000 --> 01:38:20,900

okay I'm moving along at mj-12 documents

2062

01:38:25,040 --> 01:38:23,010

we have some interesting news to share

2063

01:38:27,380 --> 01:38:25,050

but let's just talk about the old ones

2064

01:38:30,440 --> 01:38:27,390

first and then we're going to move on to

2065

01:38:32,960 --> 01:38:30,450

Michael halls talking about his having

2066

01:38:35,390 --> 01:38:32,970

revealed new mj-12 documents regarding

2067

01:38:37,610 --> 01:38:35,400

grant Cameron having received them from

2068

01:38:40,190 --> 01:38:37,620

a person who leaked them to him at a

2069

01:38:41,990 --> 01:38:40,200

conference and a frank I want to ask you

2070

01:38:44,780 --> 01:38:42,000

a question could you cover the mj-12

2071

01:38:46,760 --> 01:38:44,790

documents regarding the old documents

2072

01:38:50,270 --> 01:38:46,770

and what they were well just very

2073

01:38:52,700 --> 01:38:50,280

quickly they were sent on microfilm to a

2074

01:38:55,310 --> 01:38:52,710

filmmaker named Jamie and array I

2075

01:38:58,760 --> 01:38:55,320

believe it's pronounced and this was a

2076

01:39:00,470 --> 01:38:58,770

back in the 80s really well researched

2077

01:39:03,440 --> 01:39:00,480

I've covered it in more detail in other

2078

01:39:05,420 --> 01:39:03,450

shows and I don't want to go into too

2079

01:39:08,000 --> 01:39:05,430

much detail basically I think they're

2080

01:39:10,790 --> 01:39:08,010

exceptionally well researched fakes they

2081

01:39:13,490 --> 01:39:10,800

are marked top secret you know

2082

01:39:15,860 --> 01:39:13,500

apparently classified to the best of my

2083

01:39:17,810 --> 01:39:15,870

knowledge and somebody jump into correct

2084

01:39:22,130 --> 01:39:17,820

me if I'm wrong about this but as far as

2085

01:39:23,150 --> 01:39:22,140

I know there has never been a genuine no

2086

01:39:26,210 --> 01:39:23,160

question about it

2087

01:39:28,400 --> 01:39:26,220

leap classified document to any kind of

2088

01:39:30,200 --> 01:39:28,410

UFO researcher who made the public as

2089

01:39:32,690 --> 01:39:30,210

far as I know it's never happened

2090

01:39:35,510 --> 01:39:32,700

anybody want to jump in and am I wrong

2091

01:39:38,210 --> 01:39:35,520

about that or well well you're wrong

2092

01:39:41,210 --> 01:39:38,220

according to Stanton Friedman okay okay

2093

01:39:44,960 --> 01:39:41,220

I don't believe the mj-12 Doc's are

2094

01:39:46,910 --> 01:39:44,970

legit and I believe that they that they

2095

01:39:50,660 --> 01:39:46,920

are Air Force Office of Special

2096

01:39:52,970 --> 01:39:50,670

Investigations quite a bit of

2097

01:39:56,330 --> 01:39:52,980

investigation was done on the type of

2098

01:39:59,360 --> 01:39:56,340

them the types of inks that were used at

2099

01:40:02,330 --> 01:39:59,370

the time the type set and it was

2100

01:40:05,990 --> 01:40:02,340

concluded that some of the documents

2101
01:40:08,030 --> 01:40:06,000
were legit and a few that could not be

2102
01:40:11,230 --> 01:40:08,040
verified but there was still a high

2103
01:40:14,720 --> 01:40:11,240
likelihood that they probably were legit

2104
01:40:17,120 --> 01:40:14,730
so as far as the batch of mj-12

2105
01:40:19,940 --> 01:40:17,130
documents that were released to Jamie

2106
01:40:22,790 --> 01:40:19,950
Shand era they've been tested and

2107
01:40:26,630 --> 01:40:22,800
scrutinized by experts like dr. robert

2108
01:40:28,820 --> 01:40:26,640
wood his son ryan wood and others at

2109
01:40:31,400 --> 01:40:28,830
different laboratories

2110
01:40:33,830 --> 01:40:31,410
and verified that you know there's no

2111
01:40:35,960 --> 01:40:33,840
reason whatsoever why they could not be

2112
01:40:41,450 --> 01:40:35,970
actual documents that were microfilm

2113
01:40:43,370 --> 01:40:41,460

like that like I said I'm not convinced

2114

01:40:46,940 --> 01:40:43,380

that they're legitimate but be that as

2115

01:40:49,610 --> 01:40:46,950

it may the does anyone familiar with any

2116

01:40:52,010 --> 01:40:49,620

other documents legitimately classified

2117

01:40:54,110 --> 01:40:52,020

documents regarding a UFOs that have

2118

01:40:58,880 --> 01:40:54,120

been leaked to result there would be the

2119

01:41:03,290 --> 01:40:58,890

Truman memo there would be of God what's

2120

01:41:05,840 --> 01:41:03,300

the FBI now I'm drawing a blank on the

2121

01:41:07,850 --> 01:41:05,850

title it's quite a few documents that

2122

01:41:11,090 --> 01:41:07,860

have been verified to come out

2123

01:41:13,700 --> 01:41:11,100

mentioning UFOs because well for a fact

2124

01:41:17,300 --> 01:41:13,710

UFOs have been studied by the Air Force

2125

01:41:19,160 --> 01:41:17,310

and other agencies richard Dolan's book

2126

01:41:23,000 --> 01:41:19,170

you have both of the national security

2127

01:41:26,030 --> 01:41:23,010

state he listens and shows examples of

2128

01:41:29,090 --> 01:41:26,040

numerous examples verified documents

2129

01:41:31,700 --> 01:41:29,100

that communicated the interest in the

2130

01:41:34,040 --> 01:41:31,710

study and and oh sure sure sure a lot of

2131

01:41:36,080 --> 01:41:34,050

a lot of legitimate documents but they

2132

01:41:39,530 --> 01:41:36,090

became Declassified over a period of

2133

01:41:42,380 --> 01:41:39,540

years and became available saying as

2134

01:41:44,420 --> 01:41:42,390

specifically legitimate in the now are

2135

01:41:48,640 --> 01:41:44,430

classified right now

2136

01:42:00,830 --> 01:41:48,650

UFO documents leaked to a researcher and

2137

01:42:02,600 --> 01:42:00,840

God made public wanted to mention a

2138

01:42:05,390 --> 01:42:02,610

stamp Freedman again is he does not

2139

01:42:08,900 --> 01:42:05,400

believe all the mj-12 documents are real

2140

01:42:12,440 --> 01:42:08,910

and he did a really great audit of them

2141

01:42:14,840 --> 01:42:12,450

and that is on his website Stanton

2142

01:42:17,210 --> 01:42:14,850

Friedman dot-com and you'll see right

2143

01:42:20,120 --> 01:42:17,220

there the mj-12 study he did which is

2144

01:42:21,470 --> 01:42:20,130

extensive beyond belief I mean it's just

2145

01:42:24,590 --> 01:42:21,480

almost I guess you could say it's

2146

01:42:28,040 --> 01:42:24,600

forensic Lee done Michael I wanted to

2147

01:42:29,570 --> 01:42:28,050

ask you a question first let me talk a

2148

01:42:31,250 --> 01:42:29,580

little bit about what Michael did

2149

01:42:34,310 --> 01:42:31,260

recently Frank and I were on the Dave

2150

01:42:36,860 --> 01:42:34,320

Scott show when Michael W Hall the

2151
01:42:40,880 --> 01:42:36,870
attorney for grant Cameron went ahead

2152
01:42:42,560 --> 01:42:40,890
and did the big reveal to let everybody

2153
01:42:46,370 --> 01:42:42,570
know that Grant Cameron had

2154
01:42:47,930 --> 01:42:46,380
new mj-12 documents moving on we had the

2155
01:42:50,690 --> 01:42:47,940
privilege of being able to interview

2156
01:42:53,450 --> 01:42:50,700
Michael and get a little bit more detail

2157
01:42:56,480 --> 01:42:53,460
about those documents on our show and

2158
01:42:59,450 --> 01:42:56,490
then and now I wanted to ask Michael can

2159
01:43:02,450 --> 01:42:59,460
you describe as much detail as you feel

2160
01:43:04,910 --> 01:43:02,460
you're in a position to about what these

2161
01:43:08,810 --> 01:43:04,920
mj-12 documents are that Grant Cameron

2162
01:43:13,370 --> 01:43:08,820
is in possession of well you know first

2163
01:43:15,440 --> 01:43:13,380

of all they characterize them just as

2164

01:43:19,610 --> 01:43:15,450

mj-12 documents I don't think that would

2165

01:43:24,620 --> 01:43:19,620

be fair at this point because basically

2166

01:43:27,620 --> 01:43:24,630

they are a larger set of not just the

2167

01:43:29,420 --> 01:43:27,630

idea of mj-12 but the fact that UFOs

2168

01:43:31,970 --> 01:43:29,430

exist and all those kinds of things

2169

01:43:35,480 --> 01:43:31,980

potentially even the Roswell New Mexico

2170

01:43:38,090 --> 01:43:35,490

crash you know happened so those are the

2171

01:43:40,760 --> 01:43:38,100

issues that are all-encompassing in

2172

01:43:44,030 --> 01:43:40,770

these documents and you know I I don't

2173

01:43:48,470 --> 01:43:44,040

want to get too ahead of myself in

2174

01:43:51,140 --> 01:43:48,480

trying to tell now what grant really

2175

01:43:53,660 --> 01:43:51,150

wants to put out there because I know

2176

01:43:58,070 --> 01:43:53,670

he's still working on getting the

2177

01:43:59,840 --> 01:43:58,080

documents disseminated so at this you

2178

01:44:01,820 --> 01:43:59,850

know we've we've kind of gone over some

2179

01:44:05,030 --> 01:44:01,830

of the details of what it is matter of

2180

01:44:08,300 --> 01:44:05,040

fact Richard Dolan you know in his Jimmy

2181

01:44:11,390 --> 01:44:08,310

Church interview which would have been

2182

01:44:13,730 --> 01:44:11,400

the fifth anniversary show that Jimmy

2183

01:44:17,960 --> 01:44:13,740

Church did on fade to black which would

2184

01:44:21,440 --> 01:44:17,970

have been December 19th of last year had

2185

01:44:24,440 --> 01:44:21,450

actually the same idea release Richard

2186

01:44:26,780 --> 01:44:24,450

Owen says he saw the same document that

2187

01:44:28,910 --> 01:44:26,790

we're talking about here and if people

2188

01:44:32,450 --> 01:44:28,920

want to really get into the details of

2189

01:44:33,860 --> 01:44:32,460

what the you know Richard Owens version

2190

01:44:35,930 --> 01:44:33,870

of this document that would be one of

2191

01:44:39,380 --> 01:44:35,940

the best places to start because he

2192

01:44:45,230 --> 01:44:39,390

talks throughout this entire show about

2193

01:44:48,440 --> 01:44:45,240

how he was shown this document a very

2194

01:44:50,060 --> 01:44:48,450

lengthy manuscript at least of

2195

01:44:56,020 --> 01:44:50,070

conversations with high-ranking

2196

01:44:58,030 --> 01:44:56,030

officials and the fact that he could not

2197

01:45:01,870 --> 01:44:58,040

he could not take a photograph or even

2198

01:45:03,760 --> 01:45:01,880

take notes of it but his source allowed

2199

01:45:05,770 --> 01:45:03,770

him to see it and that's a that's a

2200

01:45:08,380 --> 01:45:05,780

great place to start as far as anybody

2201

01:45:10,690 --> 01:45:08,390

wanting to get the details of what we're

2202

01:45:14,700 --> 01:45:10,700

dealing with here in the potential

2203

01:45:17,830 --> 01:45:14,710

future release of not just mj-12

2204

01:45:21,010 --> 01:45:17,840

documentation or confirmation but a

2205

01:45:22,360 --> 01:45:21,020

whole lot of other details that all of

2206

01:45:24,190 --> 01:45:22,370

us that you followed you would like to

2207

01:45:26,260 --> 01:45:24,200

know well there's so many topics

2208

01:45:27,610 --> 01:45:26,270

involved regarding what you're talking

2209

01:45:31,110 --> 01:45:27,620

about and thank you for correcting me on

2210

01:45:34,840 --> 01:45:31,120

the categorizing as mj-12 when it's not

2211

01:45:36,700 --> 01:45:34,850

when one word if one were to actually do

2212

01:45:39,190 --> 01:45:36,710

research which I plan on doing regarding

2213

01:45:42,250 --> 01:45:39,200

Richard Dolan and the topic you're

2214

01:45:46,180 --> 01:45:42,260

talking about now what keywords would

2215

01:45:50,380 --> 01:45:46,190

one Google in order to find the

2216

01:45:55,050 --> 01:45:50,390

information you're talking about oh that

2217

01:45:58,270 --> 01:45:55,060

would be very easy you just Google Rich

2218

01:46:00,900 --> 01:45:58,280

Richard Dolan and Jimmy Church you could

2219

01:46:04,840 --> 01:46:00,910

put those two together you fo-sho

2220

01:46:07,150 --> 01:46:04,850

interview or you could actually google

2221

01:46:10,450 --> 01:46:07,160

jimmy church's five-year anniversary

2222

01:46:12,490 --> 01:46:10,460

show because that was the the show that

2223

01:46:17,770 --> 01:46:12,500

they were I was just the last show that

2224

01:46:19,600 --> 01:46:17,780

he did of 2018 on December 19th so that

2225

01:46:23,980 --> 01:46:19,610

would be a real easy way to find it yeah

2226

01:46:25,360 --> 01:46:23,990

I think you've been clear about I think

2227

01:46:26,890 --> 01:46:25,370

you've been clear as laughable as this

2228

01:46:30,190 --> 01:46:26,900

sounds about how ambiguous this

2229

01:46:32,290 --> 01:46:30,200

situation is and that is that grant is

2230

01:46:35,500 --> 01:46:32,300

not going to tell us right now what

2231

01:46:37,090 --> 01:46:35,510

these documents are exactly like if if

2232

01:46:40,780 --> 01:46:37,100

somebody were to ask an extremely

2233

01:46:42,250 --> 01:46:40,790

specific questions about it and he's not

2234

01:46:44,560 --> 01:46:42,260

going to tell us when he's going to

2235

01:46:49,180 --> 01:46:44,570

disseminate them for the public to

2236

01:46:52,450 --> 01:46:49,190

scrutinize and then also wanted to make

2237

01:46:53,200 --> 01:46:52,460

it clear that these are not classified

2238

01:46:55,780 --> 01:46:53,210

documents

2239

01:46:57,670 --> 01:46:55,790

they're not even they're just they're

2240

01:47:01,510 --> 01:46:57,680

basically not classified at all isn't

2241

01:47:02,320 --> 01:47:01,520

that all correct yeah that's exactly

2242

01:47:04,810 --> 01:47:02,330

right

2243

01:47:07,030 --> 01:47:04,820

so you know we're we're not skirting the

2244

01:47:09,290 --> 01:47:07,040

whole issue of publication plastic

2245

01:47:11,750 --> 01:47:09,300

docket classified documents

2246

01:47:15,070 --> 01:47:11,760

which is fork is very fortunate for you

2247

01:47:19,220 --> 01:47:15,080

follow G we are basically talking about

2248

01:47:22,340 --> 01:47:19,230

the whole issue of you know we've had

2249

01:47:23,660 --> 01:47:22,350

disclosure and disclosure dribble to us

2250

01:47:27,370 --> 01:47:23,670

over the decades

2251

01:47:29,810 --> 01:47:27,380

on this subject and what I'm kind of

2252

01:47:32,200 --> 01:47:29,820

claiming that these documents would be

2253

01:47:34,850 --> 01:47:32,210

more characterized as would be a

2254

01:47:37,960 --> 01:47:34,860

confirmation of the issues that we're

2255

01:47:42,220 --> 01:47:37,970

talking about because these are very

2256

01:47:44,410 --> 01:47:42,230

interesting document document documented

2257

01:47:47,480 --> 01:47:44,420

statements by high-ranking individuals

2258

01:47:50,930 --> 01:47:47,490

so that's kind of what I'm

2259

01:47:53,120 --> 01:47:50,940

characterizing these as and I think

2260

01:47:56,600 --> 01:47:53,130

people will obviously when when it does

2261

01:47:57,800 --> 01:47:56,610

come out it is just going to ask where

2262

01:48:00,380 --> 01:47:57,810

everybody's going to be having a whole

2263

01:48:01,730 --> 01:48:00,390

lot of other questions to ask but I'll

2264

01:48:04,400 --> 01:48:01,740

tell you what it's gonna be a lot

2265

01:48:06,590 --> 01:48:04,410

farther along down the road as far as

2266

01:48:09,080 --> 01:48:06,600

disclosure and confirmation goes I

2267

01:48:11,060 --> 01:48:09,090

believe okay and then out one key reason

2268

01:48:12,860 --> 01:48:11,070

why we brought up thank you Michael for

2269

01:48:16,760 --> 01:48:12,870

saying that by the way one key reason

2270

01:48:20,480 --> 01:48:16,770

why Frank and I wanted to bring you on

2271

01:48:24,050 --> 01:48:20,490

to the show aside from many others is

2272

01:48:27,680 --> 01:48:24,060

because these were leaked documents to

2273

01:48:30,560 --> 01:48:27,690

grant and by the way side note which is

2274

01:48:32,750 --> 01:48:30,570

really important everybody that has to

2275

01:48:39,620 --> 01:48:32,760

do with these documents are alive is

2276

01:48:40,990 --> 01:48:39,630

that correct or not Michael not not no

2277

01:48:43,250 --> 01:48:41,000

not everyone

2278

01:48:45,770 --> 01:48:43,260

dealing with these documents are alive

2279

01:48:47,390 --> 01:48:45,780

but there are some high-ranking

2280

01:48:49,850 --> 01:48:47,400

officials definitely still alive

2281

01:48:52,190 --> 01:48:49,860

yeah okay and just to be clear Michael

2282

01:48:54,710 --> 01:48:52,200

you can leak something but if it's not

2283

01:48:57,440 --> 01:48:54,720

classified you're not necessarily in any

2284

01:48:59,650 --> 01:48:57,450

kind of legal jeopardy as a result of

2285

01:49:03,500 --> 01:48:59,660

that that'd be about right

2286

01:49:05,740 --> 01:49:03,510

well yes but then again you're talking

2287

01:49:09,560 --> 01:49:05,750

about the difference potentially between

2288

01:49:11,690 --> 01:49:09,570

classified material and material that

2289

01:49:14,990 --> 01:49:11,700

could be presented clear and present

2290

01:49:17,360 --> 01:49:15,000

danger like we've talked about before so

2291

01:49:21,230 --> 01:49:17,370

there's there are ways that you can

2292

01:49:23,049 --> 01:49:21,240

actually restrict you know information

2293

01:49:26,260 --> 01:49:23,059

that might not be classified as well

2294

01:49:28,000 --> 01:49:26,270

so you know those kinds of things are

2295

01:49:29,979 --> 01:49:28,010

what we would call the you know pre

2296

01:49:32,859 --> 01:49:29,989

restraint restraining orders and those

2297

01:49:35,470 --> 01:49:32,869

kinds of things which in this case has

2298

01:49:37,359 --> 01:49:35,480

not happened thank you for that

2299

01:49:39,720 --> 01:49:37,369

information Michael really appreciate

2300

01:49:42,640 --> 01:49:39,730

your having spent time with us on that

2301

01:49:45,310 --> 01:49:42,650

Frank I wanted to move on to the caveat

2302

01:49:47,680 --> 01:49:45,320

lawsuits is that okay yeah yeah let's

2303

01:49:49,510 --> 01:49:47,690

say let's do this and we're talking

2304

01:49:50,890 --> 01:49:49,520

we're we're on now the legal trail here

2305

01:49:53,410 --> 01:49:50,900

now we've got the right guy to talk

2306

01:49:55,689 --> 01:49:53,420

about with this I'm sure Michael and I

2307

01:50:01,029 --> 01:49:55,699

know Dave you are Robert kiveat

2308

01:50:03,760 --> 01:50:01,039

is suing Joe firmage Ron Pandolfi and a

2309

01:50:08,890 --> 01:50:03,770

mr. Marion who is apparently a financial

2310

01:50:11,890 --> 01:50:08,900

backer of Joe firma jizz efforts to put

2311

01:50:15,129 --> 01:50:11,900

together an anti-gravity device he

2312

01:50:16,899 --> 01:50:15,139

claims that he had an agreement to go to

2313

01:50:19,229 --> 01:50:16,909

work for them to work for them

2314

01:50:22,510 --> 01:50:19,239

essentially as their their media guy and

2315

01:50:27,189 --> 01:50:22,520

now I guess that didn't work out in one

2316

01:50:30,100 --> 01:50:27,199

way or another and he is suing them Dave

2317

01:50:32,229 --> 01:50:30,110

and now why you had a well and he's also

2318

01:50:36,549 --> 01:50:32,239

started a GoFundMe where he's also

2319

01:50:38,799 --> 01:50:36,559

looking to kind of mesh this lawsuit

2320

01:50:42,040 --> 01:50:38,809

regarding a little lost wages that he is

2321

01:50:46,930 --> 01:50:42,050

claiming along with getting the entire

2322

01:50:49,450 --> 01:50:46,940

UFO secrecy conspiracy exposed through

2323

01:50:52,930 --> 01:50:49,460

this lawsuit he started to go fund me to

2324

01:50:55,060 --> 01:50:52,940

do that Dave he moderated the panel that

2325

01:50:58,540 --> 01:50:55,070

I believe you were on and the other

2326

01:51:00,399 --> 01:50:58,550

nimitz witnesses walk and Megacon you've

2327

01:51:04,240 --> 01:51:00,409

met this guy why don't you tell us a

2328

01:51:07,870 --> 01:51:04,250

little bit about it yeah sure um I you

2329

01:51:11,169 --> 01:51:07,880

know I probably been talking to Bob for

2330

01:51:14,080 --> 01:51:11,179

maybe the last six months he contacted

2331

01:51:16,779 --> 01:51:14,090

me you know after seeing my interest in

2332

01:51:18,970 --> 01:51:16,789

the nimitz case and seen some of my

2333

01:51:22,270 --> 01:51:18,980

graphics images that i had been putting

2334

01:51:25,959 --> 01:51:22,280

out there so he contacted me explaining

2335

01:51:28,479 --> 01:51:25,969

his interest in pursuing television

2336

01:51:30,129 --> 01:51:28,489

series that deal with the phenomena and

2337

01:51:32,350 --> 01:51:30,139

he thought that perhaps there could be

2338

01:51:35,169 --> 01:51:32,360

some synergy there between our two

2339

01:51:36,850 --> 01:51:35,179

companies and you know he had been

2340

01:51:38,710 --> 01:51:36,860

hinting about this law

2341

01:51:40,990 --> 01:51:38,720

for a while I didn't know too much about

2342

01:51:44,430 --> 01:51:41,000

it he told me that it was in the works

2343

01:51:47,080 --> 01:51:44,440

and so on he had discussed his work with

2344

01:51:48,610 --> 01:51:47,090

Jo firmage a little bit on the

2345

01:51:51,250 --> 01:51:48,620

peripheral and some of the people

2346

01:51:54,850 --> 01:51:51,260

involved I guess you know back when he

2347

01:51:57,160 --> 01:51:54,860

first got in on that team doctor put off

2348

01:51:59,200 --> 01:51:57,170

and kit Green were there as well as

2349

01:52:03,160 --> 01:51:59,210

several other people that we know the

2350

01:52:06,880 --> 01:52:03,170

names of and then last month in Lockland

2351

01:52:08,830 --> 01:52:06,890

they invited Bob out to give a an

2352

01:52:12,280 --> 01:52:08,840

address where he basically spent an hour

2353

01:52:14,260 --> 01:52:12,290

talking about this lawsuit mainly you

2354

01:52:16,330 --> 01:52:14,270

know looking at if you look at the

2355

01:52:19,870 --> 01:52:16,340

lawsuit that the filing it's dealing

2356

01:52:21,550 --> 01:52:19,880

with his salary specifically that he was

2357

01:52:24,940 --> 01:52:21,560

not paid for the work that he claims

2358

01:52:27,280 --> 01:52:24,950

that he did fir in turn acid and gel

2359

01:52:31,570 --> 01:52:27,290

firm urged his company and that mr.

2360

01:52:34,800 --> 01:52:31,580

Pandolfi was a key in a key position

2361

01:52:41,920 --> 01:52:34,810

within that company and I believe that

2362

01:52:45,940 --> 01:52:41,930

it's congressman Marriott yeah right

2363

01:52:49,080 --> 01:52:45,950

that in in this suit he claims that mr.

2364

01:52:51,670 --> 01:52:49,090

Marriott had paid him some money

2365

01:52:53,770 --> 01:52:51,680

acknowledging that he was owed money and

2366

01:52:55,480 --> 01:52:53,780

that this was like a payment you know

2367

01:52:59,350 --> 01:52:55,490

for work that he had done that he was in

2368

01:53:01,870 --> 01:52:59,360

arrears for so again I know Bob believes

2369

01:53:04,420 --> 01:53:01,880

that this is going to allow him to get

2370

01:53:06,070 --> 01:53:04,430

some of these key players into the

2371

01:53:07,810 --> 01:53:06,080

courtroom and that's sort of one of the

2372

01:53:09,940 --> 01:53:07,820

main things in the press releases that

2373

01:53:11,350 --> 01:53:09,950

he's done in the Gulf on amis like

2374

01:53:13,270 --> 01:53:11,360

saying please help me with this lawsuit

2375

01:53:15,280 --> 01:53:13,280

because that would allow us to get these

2376

01:53:17,130 --> 01:53:15,290

people into the courtroom and there's

2377

01:53:19,660 --> 01:53:17,140

been some debate as far as whether

2378

01:53:22,450 --> 01:53:19,670

somebody for instance from the CIA would

2379

01:53:26,080 --> 01:53:22,460

be compelled to testify so that's kind

2380

01:53:28,030 --> 01:53:26,090

of as much as I know I do know that that

2381

01:53:30,010 --> 01:53:28,040

Panda fees position is basically and

2382

01:53:31,960 --> 01:53:30,020

he's expressed this in writing on grants

2383

01:53:34,300 --> 01:53:31,970

page that he doesn't didn't have a

2384

01:53:39,190 --> 01:53:34,310

contract so we didn't have a deal so

2385

01:53:41,770 --> 01:53:39,200

that's basically their prison yeah and

2386

01:53:44,230 --> 01:53:41,780

again I don't know you know from my

2387

01:53:45,910 --> 01:53:44,240

understanding Kivi it does have a

2388

01:53:49,540 --> 01:53:45,920

contract but I believe it's with mr.

2389

01:53:50,560 --> 01:53:49,550

firmage so as you asked your point if

2390

01:53:52,359 --> 01:53:50,570

this

2391

01:53:54,189 --> 01:53:52,369

Pandolfi is not listed and has a

2392

01:53:56,830 --> 01:53:54,199

signature on a contract in the agreement

2393

01:53:58,930 --> 01:53:56,840

between them then that may present some

2394

01:54:01,479 --> 01:53:58,940

problems I'm not sure of contract law

2395

01:54:05,220 --> 01:54:01,489

and all that so there Michael you want

2396

01:54:08,280 --> 01:54:05,230

to jump in here yeah Frank thanks for

2397

01:54:12,010 --> 01:54:08,290

for that that was a very good synopsis

2398

01:54:13,030 --> 01:54:12,020

description by the way the issue of the

2399

01:54:15,310 --> 01:54:13,040

lawsuit

2400

01:54:18,160 --> 01:54:15,320

I'd actually was able to download it

2401

01:54:20,680 --> 01:54:18,170

like I think 2 or 2 days after was filed

2402

01:54:22,450 --> 01:54:20,690

in Orange County California so I

2403

01:54:25,419 --> 01:54:22,460

actually got a copy but right off hot

2404

01:54:28,060 --> 01:54:25,429

off the press and the interesting thing

2405

01:54:32,560 --> 01:54:28,070

that I saw right away was the fact that

2406

01:54:35,470 --> 01:54:32,570

the supposed contract that was referred

2407

01:54:38,560 --> 01:54:35,480

to which is referred to in the complaint

2408

01:54:41,680 --> 01:54:38,570

itself was not attached to the complaint

2409

01:54:45,310 --> 01:54:41,690

so you really can't get into details on

2410

01:54:48,729 --> 01:54:45,320

the face of the document of whether you

2411

01:54:50,950 --> 01:54:48,739

know there was any kind of on the face

2412

01:54:53,200 --> 01:54:50,960

of the document breach of the contract

2413

01:54:55,089 --> 01:54:53,210

so that's going to be very interesting

2414

01:54:57,189 --> 01:54:55,099

when that contract is callate out

2415

01:55:00,399 --> 01:54:57,199

whether it was partially oral whether it

2416

01:55:03,220 --> 01:55:00,409

was some of it was verbal and whether

2417

01:55:05,729 --> 01:55:03,230

some of it was modified even over the

2418

01:55:10,359 --> 01:55:05,739

period of time because I know that

2419

01:55:12,760 --> 01:55:10,369

caveat was working for intern asked and

2420

01:55:15,760 --> 01:55:12,770

fer mention and all those folks for

2421

01:55:18,160 --> 01:55:15,770

quite a few months don't think it was

2422

01:55:21,459 --> 01:55:18,170

quite a few years but it was close to

2423

01:55:24,399 --> 01:55:21,469

two years at least of the kind of work

2424

01:55:27,609 --> 01:55:24,409

that he was known to be able to do as

2425

01:55:30,760 --> 01:55:27,619

far as putting promotions and film

2426

01:55:33,580 --> 01:55:30,770

projects together for this group called

2427

01:55:36,669 --> 01:55:33,590

inter NASA oh that's uh that's kind of

2428

01:55:39,879 --> 01:55:36,679

fascinating that he actually believes he

2429

01:55:42,220 --> 01:55:39,889

has a case one of the interesting

2430

01:55:45,399 --> 01:55:42,230

synchronicity is about that case is when

2431

01:55:48,910 --> 01:55:45,409

I looked it up and finally downloaded

2432

01:55:53,410 --> 01:55:48,920

the document I come to find out that the

2433

01:55:56,500 --> 01:55:53,420

attorney for Robert caveat is an old law

2434

01:56:00,220 --> 01:55:56,510

school mate of mine from Southwestern

2435

01:56:03,490 --> 01:56:00,230

University in California so I often

2436

01:56:04,419 --> 01:56:03,500

thought since he's a younger man than I

2437

01:56:07,089 --> 01:56:04,429

am me

2438

01:56:09,489 --> 01:56:07,099

he could use some expertise but an old

2439

01:56:11,109 --> 01:56:09,499

gunslinger ufologists oh one of these

2440

01:56:13,209 --> 01:56:11,119

days I might get get old

2441

01:56:15,699 --> 01:56:13,219

well he did mention that one of the

2442

01:56:21,189 --> 01:56:15,709

things that got him to move forward

2443

01:56:25,029 --> 01:56:21,199

along with firmage was the work of an

2444

01:56:27,189 --> 01:56:25,039

unnamed UFO researcher who had basically

2445

01:56:29,229 --> 01:56:27,199

said that firmage is really making hay

2446

01:56:31,629 --> 01:56:29,239

with this project I'm gonna go out and a

2447

01:56:33,189 --> 01:56:31,639

lemon suggests that that might be the

2448

01:56:35,319 --> 01:56:33,199

one and only grant camera that

2449

01:56:38,739 --> 01:56:35,329

particular UFO researcher but that's

2450

01:56:40,390 --> 01:56:38,749

just wild speculation on my part there's

2451
01:56:42,549 --> 01:56:40,400
some really interesting yeah there's

2452
01:56:47,229 --> 01:56:42,559
some real interesting players involved

2453
01:56:50,890 --> 01:56:47,239
you know at Megacon Bob said that he

2454
01:56:52,779 --> 01:56:50,900
really believed that that Pandolfi was

2455
01:56:55,600 --> 01:56:52,789
trying to sabotage Fuhrman at one point

2456
01:56:57,729 --> 01:56:55,610
in that that each time that there was

2457
01:57:01,149 --> 01:56:57,739
some break - there would be a higher bar

2458
01:57:03,669 --> 01:57:01,159
that was placed in front of them and you

2459
01:57:05,699 --> 01:57:03,679
know I guess that you know there was

2460
01:57:08,529 --> 01:57:05,709
some work that was done in this

2461
01:57:11,469 --> 01:57:08,539
anti-gravity device that was successful

2462
01:57:13,479 --> 01:57:11,479
but in the end mr. Firman could never

2463
01:57:17,410 --> 01:57:13,489

provide like a demonstration to

2464

01:57:20,699 --> 01:57:17,420

officials and so on so I wanted to make

2465

01:57:23,080 --> 01:57:20,709

a comment about the caveat lawsuit and

2466

01:57:24,729 --> 01:57:23,090

by the way I'm famous for butchering

2467

01:57:26,890 --> 01:57:24,739

names so if anybody ever wants to

2468

01:57:28,839 --> 01:57:26,900

interrupt me - it - correct me on saying

2469

01:57:31,490 --> 01:57:28,849

names I think for a while is calling Joe

2470

01:57:40,709 --> 01:57:31,500

permit Joe fromage like a target RJ

2471

01:57:45,279 --> 01:57:42,069

right

2472

01:57:47,859 --> 01:57:45,289

he's a meal now anyway

2473

01:57:50,350 --> 01:57:47,869

regarding the caveat lawsuit I wanted to

2474

01:57:52,149 --> 01:57:50,360

read a little bit about that lawsuit and

2475

01:57:54,250 --> 01:57:52,159

then also wanted to read some

2476

01:57:56,580 --> 01:57:54,260

interesting and very funny comments some

2477

01:57:59,919 --> 01:57:56,590

people have made about it and that is a

2478

01:58:02,049 --> 01:57:59,929

Robert caveat lawsuit of a known in tell

2479

01:58:04,540 --> 01:58:02,059

agent lawsuit against CIA's Ron

2480

01:58:08,399 --> 01:58:04,550

pandolfini company named in his lawsuit

2481

01:58:11,350 --> 01:58:08,409

or in turn asseh its CEO Joe furnish a

2482

01:58:13,359 --> 01:58:11,360

longtime CIA scientist

2483

01:58:15,699 --> 01:58:13,369

Ron Chen belfie who was working with

2484

01:58:18,229 --> 01:58:15,709

intern asked and investor Daniel

2485

01:58:20,330 --> 01:58:18,239

Marriott a Utah congressman if

2486

01:58:22,100 --> 01:58:20,340

David Marion listed here I don't know if

2487

01:58:26,689 --> 01:58:22,110

we're oh okay we'll just say Dee

2488

01:58:30,439 --> 01:58:26,699

Mariette how's that but a mr. Mariette

2489

01:58:33,439 --> 01:58:30,449

knows that you talk congressman but if

2490

01:58:35,479 --> 01:58:33,449

anybody wants to look up that

2491

01:58:38,239 --> 01:58:35,489

information regarding the caveat lawsuit

2492

01:58:40,879 --> 01:58:38,249

they'll probably end up seeing the first

2493

01:58:44,120 --> 01:58:40,889

page of the lawsuit a picture of it that

2494

01:58:45,500 --> 01:58:44,130

somebody so graciously put online I

2495

01:58:49,430 --> 01:58:45,510

don't know which one they'll see I know

2496

01:58:51,350 --> 01:58:49,440

the one I saw it was fascinating some of

2497

01:58:54,080 --> 01:58:51,360

the comments that I've seen people make

2498

01:58:56,930 --> 01:58:54,090

about this are regarding Rob Robert

2499

01:58:58,790 --> 01:58:56,940

caveat famed Fox network TV producer

2500

01:59:00,500 --> 01:58:58,800

files lawsuit against CIA agents

2501
01:59:02,629 --> 01:59:00,510
information scientists this was on a

2502
01:59:06,020 --> 01:59:02,639
forum does anyone else see the irony

2503
01:59:08,290 --> 01:59:06,030
that a producer of Fox News specialist

2504
01:59:10,939 --> 01:59:08,300
factual documentary programming is

2505
01:59:13,759 --> 01:59:10,949
mythological followed izing the

2506
01:59:16,750 --> 01:59:13,769
paranormal for a profit is suing someone

2507
01:59:19,129 --> 01:59:16,760
because they are a disinformation agent

2508
01:59:21,589 --> 01:59:19,139
who's really telling the truth here is

2509
01:59:23,720 --> 01:59:21,599
anyone making a profit on the paranormal

2510
01:59:25,489 --> 01:59:23,730
interested in truth I don't know these

2511
01:59:27,200 --> 01:59:25,499
are crazy times and then someone else

2512
01:59:30,229 --> 01:59:27,210
jumped in on the same thread and said

2513
01:59:32,600 --> 01:59:30,239

I'm skeptical that we'll learn anything

2514

01:59:34,879 --> 01:59:32,610

from the suit it's a civil suit to

2515

01:59:37,279 --> 01:59:34,889

recover wages hard to see why it would

2516

01:59:39,560 --> 01:59:37,289

focus into the company's operations in

2517

01:59:42,620 --> 01:59:39,570

depth they just need to establish that

2518

01:59:45,049 --> 01:59:42,630

money's indeed is indeed owed and figure

2519

01:59:46,459 --> 01:59:45,059

out who's paying how does anybody feel

2520

01:59:52,790 --> 01:59:46,469

about those comments are they accurate

2521

01:59:55,100 --> 01:59:52,800

the sentiments well I would wonder if if

2522

01:59:58,370 --> 01:59:55,110

you know the assumption that that

2523

02:00:01,160 --> 01:59:58,380

lawsuit on that basis would lead to you

2524

02:00:03,709 --> 02:00:01,170

know exposure of you know the UFO

2525

02:00:05,390 --> 02:00:03,719

reality or some kind of disclosure from

2526
02:00:08,959 --> 02:00:05,400
the government I mean when you think

2527
02:00:12,850 --> 02:00:08,969
about it for example I think it was 1994

2528
02:00:17,200 --> 02:00:12,860
there was a lawsuit against area 51 and

2529
02:00:21,020 --> 02:00:17,210
several staff had been harmed by burning

2530
02:00:23,029 --> 02:00:21,030
chemicals I think yeah and and you know

2531
02:00:24,879 --> 02:00:23,039
that suit didn't go anywhere ultimately

2532
02:00:27,529 --> 02:00:24,889
I think it was President Clinton

2533
02:00:30,680 --> 02:00:27,539
released a presidential order you can't

2534
02:00:31,220 --> 02:00:30,690
do this and ultimately the the thing was

2535
02:00:33,620 --> 02:00:31,230
distant

2536
02:00:35,180 --> 02:00:33,630
so it just seems like if you know if

2537
02:00:37,070 --> 02:00:35,190
you're gonna touch their eyeball they're

2538
02:00:38,210 --> 02:00:37,080

gonna blink you know so I'm not sure

2539

02:00:40,910 --> 02:00:38,220

that would lead that way I'd be

2540

02:00:43,610 --> 02:00:40,920

interested to see if anyone else thinks

2541

02:00:45,920 --> 02:00:43,620

so at least we got that I mean they

2542

02:00:48,710 --> 02:00:45,930

finally went on record and told us there

2543

02:00:53,960 --> 02:00:48,720

was such a thing it's area 51 yeah does

2544

02:00:58,490 --> 02:00:53,970

the personal work yeah yeah okay just a

2545

02:01:02,360 --> 02:00:58,500

gossip here wah-ha-ha-ha wanted to talk

2546

02:01:04,640 --> 02:01:02,370

about ronk Pandolfi so I'm gonna ask a

2547

02:01:07,730 --> 02:01:04,650

really naive question and I was hoping

2548

02:01:10,810 --> 02:01:07,740

somebody could answer if not oh well and

2549

02:01:13,460 --> 02:01:10,820

that is is Ron Pandolfi a confirmed

2550

02:01:16,940 --> 02:01:13,470

intelligence agent if so how do we know

2551

02:01:23,780 --> 02:01:16,950

did he say that himself well he's worked

2552

02:01:26,210 --> 02:01:23,790

for the CIA okay Bob had answered that

2553

02:01:28,940 --> 02:01:26,220

question that I believe there was a

2554

02:01:31,400 --> 02:01:28,950

newspaper article I'm not sure which it

2555

02:01:34,970 --> 02:01:31,410

was The Times or there was some national

2556

02:01:37,070 --> 02:01:34,980

newspaper that had done an article about

2557

02:01:38,420 --> 02:01:37,080

him in the past that listed him as that

2558

02:01:41,090 --> 02:01:38,430

and he was kind of referring back to

2559

02:01:43,400 --> 02:01:41,100

that as evidence that yes he was but

2560

02:01:46,100 --> 02:01:43,410

again aside from that I don't know that

2561

02:01:48,320 --> 02:01:46,110

anyone that works there is going to you

2562

02:01:53,660 --> 02:01:48,330

know put a name tag on it says CIA

2563

02:01:56,000 --> 02:01:53,670

officer on you know yeah service they

2564

02:02:01,880 --> 02:01:56,010

give you a little star on the wall your

2565

02:02:05,090 --> 02:02:01,890

name has gone there I think they're sick

2566

02:02:06,650 --> 02:02:05,100

of gold that's all you get yeah Antron

2567

02:02:07,910 --> 02:02:06,660

graham crackers we got gold stars and

2568

02:02:09,380 --> 02:02:07,920

graham crackers when I was in

2569

02:02:16,430 --> 02:02:09,390

kindergarten I don't know about you guys

2570

02:02:18,710 --> 02:02:16,440

yeah that was just last year right I

2571

02:02:20,060 --> 02:02:18,720

wanted to talk just in Frank is gonna

2572

02:02:22,840 --> 02:02:20,070

kill me for doing this but just really

2573

02:02:26,780 --> 02:02:22,850

quickly with Shane heard about Rick Doty

2574

02:02:29,780 --> 02:02:26,790

confirmed intelligence agents can that

2575

02:02:32,150 --> 02:02:29,790

be said accurately Frank that Rick Doty

2576

02:02:34,460 --> 02:02:32,160

is a confirmed oh yes intelligence

2577

02:02:36,410 --> 02:02:34,470

agents I thought so too on my

2578

02:02:38,950 --> 02:02:36,420

understanding is Paul Dehn actually

2579

02:02:43,100 --> 02:02:38,960

brought forward some good foil

2580

02:02:45,290 --> 02:02:43,110

information on him a quite a bit of it

2581

02:02:47,840 --> 02:02:45,300

and then my other

2582

02:02:50,510 --> 02:02:47,850

a bit of the information I got is that

2583

02:02:52,580 --> 02:02:50,520

Linda Moulton Howe and George Knapp both

2584

02:02:55,310 --> 02:02:52,590

interviewed him and in their own way

2585

02:02:57,980 --> 02:02:55,320

they confirmed his background shame you

2586

02:02:59,660 --> 02:02:57,990

saw Rick Doty speak at the recent UFO

2587

02:03:01,730 --> 02:02:59,670

mega conference which was produced by

2588

02:03:04,780 --> 02:03:01,740

lorian's benton and bob brown how did

2589

02:03:07,610 --> 02:03:04,790

that go yeah I was pretty interesting I

2590

02:03:09,620 --> 02:03:07,620

you know I was pretty shocked actually

2591

02:03:11,900 --> 02:03:09,630

to see him presenting knowing his

2592

02:03:14,930 --> 02:03:11,910

background and past experience and

2593

02:03:17,000 --> 02:03:14,940

reputation so forth with you followed

2594

02:03:21,020 --> 02:03:17,010

you regarding the Paul bennewitz case so

2595

02:03:24,380 --> 02:03:21,030

was a little shocking but yeah the the

2596

02:03:26,420 --> 02:03:24,390

presentation I my impression of it was

2597

02:03:30,980 --> 02:03:26,430

he was just really explaining himself

2598

02:03:34,220 --> 02:03:30,990

and his role in that whole event and was

2599

02:03:37,700 --> 02:03:34,230

really aiming to get the audience to you

2600

02:03:40,100 --> 02:03:37,710

know accept accept him in his role that

2601
02:03:42,500 --> 02:03:40,110
that you know they were actually friends

2602
02:03:45,170 --> 02:03:42,510
he and Paul bennewitz and you know he

2603
02:03:47,650 --> 02:03:45,180
kind of got a bum rap on the whole thing

2604
02:03:50,480 --> 02:03:47,660
but and he you know he had a

2605
02:03:52,670 --> 02:03:50,490
bullet-pointed presentation and he you

2606
02:03:55,940 --> 02:03:52,680
know he didn't hold back from you know

2607
02:03:58,700 --> 02:03:55,950
stating certain things but just given

2608
02:04:01,880 --> 02:03:58,710
who he is and his his his role you know

2609
02:04:03,860 --> 02:04:01,890
I would really think they need to be

2610
02:04:07,100 --> 02:04:03,870
confirmed by someone else some of those

2611
02:04:09,140 --> 02:04:07,110
statements okay

2612
02:04:12,410 --> 02:04:09,150
well Frank I wanted to tell you

2613
02:04:14,510 --> 02:04:12,420

something you and I were talking before

2614

02:04:16,040 --> 02:04:14,520

this show and you said there's not much

2615

02:04:20,090 --> 02:04:16,050

in the way of current events do you

2616

02:04:21,680 --> 02:04:20,100

still believe that we covered quite a

2617

02:04:24,500 --> 02:04:21,690

bit as far as current events goes we

2618

02:04:26,690 --> 02:04:24,510

filled almost over two and a half hours

2619

02:04:29,900 --> 02:04:26,700

so I think this would be a great time to

2620

02:04:31,580 --> 02:04:29,910

wrap everything up thank our guess but I

2621

02:04:35,810 --> 02:04:31,590

do I do have an announcement to make

2622

02:04:37,340 --> 02:04:35,820

Frank and that is I missed something on

2623

02:04:40,160 --> 02:04:37,350

our last show and I meant to

2624

02:04:46,770 --> 02:04:40,170

congratulate Frank for his one-year

2625

02:04:51,140 --> 02:04:48,760

[Music]

2626
02:04:53,630 --> 02:04:51,150
it's been a great experience especially

2627
02:04:56,630 --> 02:04:53,640
when things go without technical

2628
02:04:59,870 --> 02:04:56,640
difficulties all right and so digital

2629
02:05:06,680 --> 02:04:59,880
beer everyone and I I just wanted I've

2630
02:05:09,080 --> 02:05:06,690
got a real one you push other people

2631
02:05:11,630 --> 02:05:09,090
pushed that we can find it here about to

2632
02:05:23,240 --> 02:05:11,640
go like to the specialty store you know

2633
02:05:32,960 --> 02:05:23,250
to get it but I wanted to do a show with

2634
02:05:34,730 --> 02:05:32,970
that milliampere but I do want to jump

2635
02:05:38,770 --> 02:05:34,740
in he's going to be on coast to coast

2636
02:05:49,820 --> 02:05:47,060
congratulations rich will stay up late

2637
02:05:55,940 --> 02:05:49,830
and listen just don't admit your

2638
02:05:57,920 --> 02:05:55,950

ufologist was actually actually coming

2639

02:05:59,900 --> 02:05:57,930

to the SU conference but he couldn't get

2640

02:06:01,760 --> 02:05:59,910

at the last minute they did let him have

2641

02:06:04,280 --> 02:06:01,770

the money but we were looking forward to

2642

02:06:07,970 --> 02:06:04,290

him coming there as well well maybe he

2643

02:06:12,080 --> 02:06:07,980

can started GoFundMe hey Jeff Crouse I I

2644

02:06:14,210 --> 02:06:12,090

had a you said you uh you were going to

2645

02:06:17,390 --> 02:06:14,220

go to a few UFO conferences this year

2646

02:06:20,720 --> 02:06:17,400

can you tell us which ones they are

2647

02:06:24,230 --> 02:06:20,730

well I'll be speaking at alien Con the

2648

02:06:27,560 --> 02:06:24,240

21st 22nd and 23rd of June this year

2649

02:06:31,070 --> 02:06:27,570

down in Los Angeles which is the only

2650

02:06:37,430 --> 02:06:31,080

one for sure that I'm going to I might

2651
02:06:40,550 --> 02:06:37,440
go to the MUFON symposium verified that

2652
02:06:43,190 --> 02:06:40,560
and if I do that'll probably be by

2653
02:06:47,690 --> 02:06:43,200
Phyllis conferences unless I decide to

2654
02:06:49,460 --> 02:06:47,700
jet over to Roswell okay and I wanted to

2655
02:06:52,160 --> 02:06:49,470
just let everybody know before Frank

2656
02:06:54,290 --> 02:06:52,170
wraps up this show that the newest UFO

2657
02:06:56,300 --> 02:06:54,300
conference happening right now is the

2658
02:06:58,340 --> 02:06:56,310
32nd annual Ozark Mountain UFO

2659
02:06:58,879 --> 02:06:58,350
conference which is going on April 12th

2660
02:07:01,790 --> 02:06:58,889
through the four

2661
02:07:05,359 --> 02:07:01,800
obviously ending today and Tom Whitnall

2662
02:07:05,869 --> 02:07:05,369
Tom Whitmore MUFON board member attended

2663
02:07:07,520 --> 02:07:05,879

that event

2664

02:07:09,439 --> 02:07:07,530

I'll give his special report on that the

2665

02:07:11,419 --> 02:07:09,449

next show I did want to just go ahead

2666

02:07:14,119 --> 02:07:11,429

and tell everybody goodbye but before I

2667

02:07:16,310 --> 02:07:14,129

do that I wanted to name off who was on

2668

02:07:18,529 --> 02:07:16,320

our show today regarding our highly

2669

02:07:21,589 --> 02:07:18,539

experienced panel and the realm of us

2670

02:07:24,859 --> 02:07:21,599

follow G and that is Shane herd field

2671

02:07:26,929 --> 02:07:24,869

investigator for Phoenix MUFON Earl Earl

2672

02:07:28,520 --> 02:07:26,939

Gray the chief and field investigator

2673

02:07:30,949 --> 02:07:28,530

for the Southern California Chapter of

2674

02:07:33,020 --> 02:07:30,959

MUFON we have Jeff Crouse the state

2675

02:07:42,229 --> 02:07:33,030

director of MUFON Southern California

2676
02:07:45,169 --> 02:07:42,239
and his bird dr. Harvey Scott an apology

2677
02:07:46,399 --> 02:07:45,179
related books Ohio history and a former

2678
02:07:47,089 --> 02:07:46,409
member of the board of directors of

2679
02:07:49,429 --> 02:07:47,099
MUFON

2680
02:07:51,619 --> 02:07:49,439
rich Hoffman executive board member for

2681
02:07:54,679 --> 02:07:51,629
the Scientific Coalition for youth ology

2682
02:07:56,719 --> 02:07:54,689
also known as SCU Dave CBT

2683
02:07:59,029 --> 02:07:56,729
and Emmy Award Wing they'll make her a

2684
02:08:01,009 --> 02:07:59,039
producer he's also the creator of an

2685
02:08:04,159 --> 02:08:01,019
important movie on the USS Nimitz called

2686
02:08:08,270 --> 02:08:04,169
the u.s. nimitz encounters michael w

2687
02:08:10,639 --> 02:08:08,280
hall paranormal a lawyer head of the UFO

2688
02:08:13,969 --> 02:08:10,649

eye team investigation organization and

2689

02:08:15,469 --> 02:08:13,979

has his own podcast and i just want to

2690

02:08:17,629 --> 02:08:15,479

thank everybody for having been on the

2691

02:08:20,060 --> 02:08:17,639

show today it's been a blast thanks a

2692

02:08:23,719 --> 02:08:20,070

lot everybody thank you thank you thank

2693

02:08:25,609 --> 02:08:23,729

you okay move on that's it we're gonna

2694

02:08:28,310 --> 02:08:25,619

wrap up the show and we're gonna take

2695

02:08:30,649 --> 02:08:28,320

off Easter obviously yeah for the big

2696

02:08:33,619 --> 02:08:30,659

holiday and then we will be back on the

2697

02:08:35,569 --> 02:08:33,629

28th we have scheduled dr. Michael
