

KEITH BASTERFIELD

JOINS US TO DISCUSS HIS
RESEARCH INTO AATIP, TTSA,
BIGELOW AND UFOS IN
AUSTRALIA

WITH CHANT HANNAH

UFONN
SUNDAY

1
00:00:05,900 --> 00:00:03,710
he turned up in Belgium shortly after

2
00:00:07,400 --> 00:00:05,910
the Belgium UFO wave with all of the

3
00:00:09,860 --> 00:00:07,410
triangular objects that were being

4
00:00:12,490 --> 00:00:09,870
reported over there and he had a meeting

5
00:00:16,129 --> 00:00:12,500
with several the high officials in

6
00:00:18,529 --> 00:00:16,139
Belgium including the Air Force pods who

7
00:00:21,650 --> 00:00:18,539
were responsible for chasing one object

8
00:00:24,800 --> 00:00:21,660
one night and tracking it on radar but

9
00:00:28,400 --> 00:00:24,810
strangely the lay said tomato's

10
00:00:31,130 --> 00:00:28,410
perspective on the end was that the

11
00:00:34,700 --> 00:00:31,140
objects being seen in Belgium were

12
00:00:36,440 --> 00:00:34,710
man-made now that was very interesting

13
00:00:39,530 --> 00:00:36,450

I'd never heard that put forward before

14

00:00:41,810 --> 00:00:39,540

by somebody who was a Senate staffer

15

00:00:44,540 --> 00:00:41,820

I've heard it put forward by other

16

00:00:47,630 --> 00:00:44,550

people but here's someone who actually

17

00:00:50,900 --> 00:00:47,640

took the time to go to Belgium meet with

18

00:00:53,119 --> 00:00:50,910

high officials their access data later

19

00:00:56,900 --> 00:00:53,129

and came back and still his thought was

20

00:00:58,970 --> 00:00:56,910

that the objects were man-made and so

21

00:01:01,250 --> 00:00:58,980

that really threw Jacques filet in his

22

00:01:03,729 --> 00:01:01,260

diary entry he said well that's what he

23

00:01:08,060 --> 00:01:03,739

came back and told me he also said that

24

00:01:11,719 --> 00:01:08,070

tomato mentioned that the American

25

00:01:14,570 --> 00:01:11,729

Federation of scientists had a research

26

00:01:17,149 --> 00:01:14,580

project going on on Belgium style

27

00:01:20,420 --> 00:01:17,159

aircraft believing that something was

28

00:01:22,190 --> 00:01:20,430

being manufactured in the US so very

29

00:01:24,679 --> 00:01:22,200

interesting to have look at chat fillets

30

00:01:25,850 --> 00:01:24,689

Diaries just released to find out

31

00:01:28,070 --> 00:01:25,860

information about some of these

32

00:01:30,140 --> 00:01:28,080

characters I don't think we'd find out

33

00:01:33,109 --> 00:01:30,150

any of this any other way than a shack

34

00:01:34,760 --> 00:01:33,119

fillet didn't take the time to to make

35

00:01:41,060 --> 00:01:34,770

these notes that we can read 20 years

36

00:01:43,429 --> 00:01:41,070

later got it and yeah let's move on to

37

00:01:45,649 --> 00:01:43,439

another insider from back in the day

38

00:01:47,749 --> 00:01:45,659

that you turned up but apparently there

39

00:01:50,149 --> 00:01:47,759

was at least some ad hoc work going on

40

00:01:52,569 --> 00:01:50,159

with an individual named Ron Blackburn

41

00:01:55,999 --> 00:01:52,579

can you tell us a little bit about him

42

00:01:59,359 --> 00:01:56,009

yes I came across from Blackburn in jock

43

00:02:02,270 --> 00:01:59,369

valets volume three Diaries where he was

44

00:02:04,940 --> 00:02:02,280

talking about the decade 1980 to 89

45

00:02:07,010 --> 00:02:04,950

towards the end of the 1989 a character

46

00:02:09,199 --> 00:02:07,020

popped up in the Lay's book called Ron

47

00:02:10,699 --> 00:02:09,209

Blackburn and like many other people I

48

00:02:13,280 --> 00:02:10,709

think we'll never heard of this

49

00:02:13,730 --> 00:02:13,290

particular person maybe I should try and

50

00:02:17,360 --> 00:02:13,740

do sir

51
00:02:20,090 --> 00:02:17,370
search on it and in fact there was very

52
00:02:23,810 --> 00:02:20,100
little on the surface on the internet

53
00:02:26,870 --> 00:02:23,820
about Blackburn he turned up at a

54
00:02:28,460 --> 00:02:26,880
conference in Las Vegas in 2005 where

55
00:02:31,100 --> 00:02:28,470
someone was holding a UFO crash

56
00:02:33,800 --> 00:02:31,110
retrieval conference and the person who

57
00:02:36,920 --> 00:02:33,810
wrote up the conference proceedings

58
00:02:39,200 --> 00:02:36,930
mentioned that one dr. Ron Blackburn had

59
00:02:42,650 --> 00:02:39,210
turned up a lieutenant colonel in the US

60
00:02:45,110 --> 00:02:42,660
Air Force and that he had investigated

61
00:02:47,840 --> 00:02:45,120
UFOs for the Air Force and for military

62
00:02:49,070 --> 00:02:47,850
military contractors unquote and I

63
00:02:50,990 --> 00:02:49,080

thought well this is very interesting

64

00:02:53,330 --> 00:02:51,000

I've never heard of anyone who's openly

65

00:02:56,110 --> 00:02:53,340

admitted that they were they were doing

66

00:03:00,770 --> 00:02:56,120

this back back at me in that area in the

67

00:03:03,290 --> 00:03:00,780

1989 time and just as a slide i might

68

00:03:07,100 --> 00:03:03,300

mention that i was reading at the time a

69

00:03:09,920 --> 00:03:07,110

book by journalist howard Blum BL um and

70

00:03:12,500 --> 00:03:09,930

Howard Blum wrote a book saying they'd

71

00:03:17,870 --> 00:03:12,510

been a United States Air Force UFO

72

00:03:21,110 --> 00:03:17,880

project running in 1983 to 1985 and that

73

00:03:23,750 --> 00:03:21,120

McGinn was fairly fairly new to me so I

74

00:03:25,670 --> 00:03:23,760

did some more deeper research on the

75

00:03:28,070 --> 00:03:25,680

internet and thank goodness we've got

76
00:03:30,320 --> 00:03:28,080
the Internet and what I came across was

77
00:03:33,830 --> 00:03:30,330
here sure enough that had been a

78
00:03:37,790 --> 00:03:33,840
character who turned up to talk to Jack

79
00:03:41,810 --> 00:03:37,800
fillet in the mid-1980s so this was just

80
00:03:46,070 --> 00:03:41,820
after Howard Blum proposed project and

81
00:03:48,980 --> 00:03:46,080
he was talking to Jack fillet about his

82
00:03:51,410 --> 00:03:48,990
own research and Blackburn was

83
00:03:54,500 --> 00:03:51,420
particularly interested in UFO

84
00:03:57,890 --> 00:03:54,510
technology he was at that time a

85
00:04:02,360 --> 00:03:57,900
consulting engineer for advanced systems

86
00:04:04,010 --> 00:04:02,370
technology and Lockheed and a bit of

87
00:04:06,980 --> 00:04:04,020
checking does show that Lockheed does

88
00:04:08,720 --> 00:04:06,990

recording during that period and what it

89

00:04:11,720 --> 00:04:08,730

says is he spent 21 years in the Air

90

00:04:13,820 --> 00:04:11,730

Force and he joined then went on to join

91

00:04:16,010 --> 00:04:13,830

Lockheed and worked at the famous skunk

92

00:04:21,440 --> 00:04:16,020

works where so many people have an

93

00:04:23,990 --> 00:04:21,450

interest in UFOs and he what he wanted

94

00:04:26,659 --> 00:04:24,000

to actually do like many of us he was a

95

00:04:28,909 --> 00:04:26,669

very classic UFO researcher

96

00:04:31,999 --> 00:04:28,919

he actually wanted to compute the mass

97

00:04:34,550 --> 00:04:32,009

and acceleration for UFOs working on

98

00:04:37,850 --> 00:04:34,560

ground traces the weight of an object

99

00:04:39,950 --> 00:04:37,860

and get stuck in to engineer an

100

00:04:43,909 --> 00:04:39,960

engineering approach he was a typical

101
00:04:45,860 --> 00:04:43,919
engineering approach board and what

102
00:04:48,860 --> 00:04:45,870
happened then is that I found out by

103
00:04:53,809 --> 00:04:48,870
reading Shawn Alexander's book a little

104
00:04:56,559 --> 00:04:53,819
bit more about about him that Blackburn

105
00:04:59,689 --> 00:04:56,569
had in fact turned up as a co-founder

106
00:05:04,760 --> 00:04:59,699
John Alexander's advanced theoretical

107
00:05:06,589 --> 00:05:04,770
project UFO government get together a

108
00:05:08,450 --> 00:05:06,599
number of people who are interested in

109
00:05:10,909 --> 00:05:08,460
UFOs and the government and that

110
00:05:12,890 --> 00:05:10,919
particular program we've now heard about

111
00:05:14,779 --> 00:05:12,900
we know some more details but what I

112
00:05:18,050 --> 00:05:14,789
wasn't aware is Ron Blackburn actually

113
00:05:19,779 --> 00:05:18,060

co-founded it with John Alexander and so

114

00:05:22,939 --> 00:05:19,789

there were a number of people who were

115

00:05:25,969 --> 00:05:22,949

involved with Blackburn looking at an

116

00:05:29,209 --> 00:05:25,979

engineering approach and he was

117

00:05:32,510 --> 00:05:29,219

particularly interested in microwaves

118

00:05:35,269 --> 00:05:32,520

Blackburn in fact he has some patents in

119

00:05:39,260 --> 00:05:35,279

that particular area and he was involved

120

00:05:42,679 --> 00:05:39,270

with the Air Force with electromagnetic

121

00:05:45,379 --> 00:05:42,689

pulse projects but what I found out is I

122

00:05:47,629 --> 00:05:45,389

actually found a an old audio interview

123

00:05:49,939 --> 00:05:47,639

with him which was an excellent source

124

00:05:52,279 --> 00:05:49,949

of original information and in that he

125

00:05:54,769 --> 00:05:52,289

was he was saying so this is personally

126

00:05:58,639 --> 00:05:54,779

coming from Blackburn that he was doing

127

00:06:00,350 --> 00:05:58,649

UFO investigations as a hobby so the

128

00:06:02,649 --> 00:06:00,360

person who said that he had been

129

00:06:05,149 --> 00:06:02,659

investigating on behalf of the Air Force

130

00:06:06,409 --> 00:06:05,159

Blackburn himself actually contradicted

131

00:06:08,839 --> 00:06:06,419

that and said no it was just a hobby

132

00:06:11,420 --> 00:06:08,849

with me but he said what I was doing is

133

00:06:13,579 --> 00:06:11,430

straight engineering I was noticing

134

00:06:17,300 --> 00:06:13,589

things like there were no reported sonic

135

00:06:19,070 --> 00:06:17,310

booms from UFOs and so Blackburn claimed

136

00:06:21,920 --> 00:06:19,080

that he actually reverse engineered a

137

00:06:25,909 --> 00:06:21,930

process to mitigate or eliminate sonic

138

00:06:29,029 --> 00:06:25,919

booms based on what he had what his

139

00:06:31,519 --> 00:06:29,039

research on UFOs had told him and he

140

00:06:35,449 --> 00:06:31,529

actually filed a patent for sonic booms

141

00:06:37,790 --> 00:06:35,459

dissipation back in the the 1980s which

142

00:06:39,760 --> 00:06:37,800

is way ahead of today's research where I

143

00:06:43,839 --> 00:06:39,770

think last year Locke

144

00:06:49,330 --> 00:06:43,849

it's old sonic booms and it was

145

00:06:51,400 --> 00:06:49,340

preparing a aircraft for production in

146

00:06:53,879 --> 00:06:51,410

the next few years which would fly

147

00:06:56,320 --> 00:06:53,889

supersonic without creating a sonic boom

148

00:06:59,379 --> 00:06:56,330

but he was Blackburn saying the same

149

00:06:59,860 --> 00:06:59,389

thing in the 1990s so that was

150

00:07:03,120 --> 00:06:59,870

interesting

151
00:07:05,589 --> 00:07:03,130
and he also in this audio interview

152
00:07:09,450 --> 00:07:05,599
mentioned that he had submitted a patent

153
00:07:12,820 --> 00:07:09,460
for a cloaking device again based on his

154
00:07:14,710 --> 00:07:12,830
observations of UFO reports and I

155
00:07:18,309 --> 00:07:14,720
thought well this is something that one

156
00:07:21,550 --> 00:07:18,319
of the 38 defense intelligence referent

157
00:07:25,320 --> 00:07:21,560
documents leaders for short that we've

158
00:07:28,149 --> 00:07:25,330
all seen a list of one of those is about

159
00:07:31,719 --> 00:07:28,159
cloaking and here's Blackburn in the

160
00:07:34,409 --> 00:07:31,729
late 1980s early 1990s saying that he

161
00:07:38,499 --> 00:07:34,419
reversed engineered a cloaking device

162
00:07:41,260 --> 00:07:38,509
concept from UFO sightings and that he

163
00:07:43,990 --> 00:07:41,270

applied for a patent and the patent came

164

00:07:48,279 --> 00:07:44,000

back and said quote this idea is not

165

00:07:50,709 --> 00:07:48,289

Payton patentable unquote it's not

166

00:07:53,439 --> 00:07:50,719

patentable but unclassified because it's

167

00:07:57,100 --> 00:07:53,449

foreign export controlled in the quote

168

00:08:00,070 --> 00:07:57,110

so he said well look twenty years before

169

00:08:02,980 --> 00:08:00,080

everybody else I was working on how to

170

00:08:06,459 --> 00:08:02,990

eliminate sonic blooms I got this idea

171

00:08:08,379 --> 00:08:06,469

from UFO reports I also did it applied

172

00:08:11,050 --> 00:08:08,389

for a patent for a cloaking device based

173

00:08:13,270 --> 00:08:11,060

on my research so here's somebody 30

174

00:08:17,680 --> 00:08:13,280

years ahead of his time so I thought he

175

00:08:20,050 --> 00:08:17,690

was quite an interesting character is it

176

00:08:21,249 --> 00:08:20,060

okay if I mention that patents number

177

00:08:25,209 --> 00:08:21,259

you're talking about

178

00:08:27,159 --> 00:08:25,219

yes certainly okay good that patent

179

00:08:29,680 --> 00:08:27,169

number for our listeners to be able to

180

00:08:32,079 --> 00:08:29,690

go ahead and do research on and then I'm

181

00:08:33,699 --> 00:08:32,089

also going to refer them to your website

182

00:08:35,769 --> 00:08:33,709

so they can look at this wonderful

183

00:08:37,690 --> 00:08:35,779

article you've written on regarding

184

00:08:39,699 --> 00:08:37,700

sonic booms and the rest of the subject

185

00:08:44,170 --> 00:08:39,709

matter you just covered the patent

186

00:08:48,670 --> 00:08:44,180

number is five seven nine seven five six

187

00:08:52,519 --> 00:08:48,680

three that's five seven nine seven five

188

00:08:55,910 --> 00:08:52,529

six three and you would go to UFOs -

189

00:09:00,110 --> 00:08:55,920
scientific research blogspot.com

190

00:09:01,939 --> 00:09:00,120
and if you look up sonicboom research by

191

00:09:07,100 --> 00:09:01,949
Keith you'll see that I will also go

192

00:09:09,860 --> 00:09:07,110
into the chat section of our talk and I

193

00:09:12,559 --> 00:09:09,870
will go ahead and drop that URL to the

194

00:09:14,780 --> 00:09:12,569
article that Keith wrote on this topic

195

00:09:17,540 --> 00:09:14,790
and include the patent number as well

196

00:09:19,879 --> 00:09:17,550
yeah we can also drop the page number in

197

00:09:22,809 --> 00:09:19,889
there as well yeah where the other

198

00:09:26,780 --> 00:09:22,819
Justia com I would just don't like that

199

00:09:28,160 --> 00:09:26,790
okay good okay I'm sorry Keith please

200

00:09:30,679 --> 00:09:28,170
please keep going I didn't mean to

201

00:09:32,929 --> 00:09:30,689

interrupt Frank there not a problem

202

00:09:35,869 --> 00:09:32,939

thanks for quoting that I mean what what

203

00:09:38,150 --> 00:09:35,879

I am about I'd yes is a love original

204

00:09:40,340 --> 00:09:38,160

documentation the fact that you can go

205

00:09:43,699 --> 00:09:40,350

back and find an original audio from

206

00:09:46,579 --> 00:09:43,709

from a person three years ago and get

207

00:09:48,949 --> 00:09:46,589

their perspective directly rather than

208

00:09:50,780 --> 00:09:48,959

quoting somebody from from a book who's

209

00:09:53,199 --> 00:09:50,790

interviewed them or even hasn't

210

00:09:55,819 --> 00:09:53,209

interviewed them or just summarizes what

211

00:09:57,889 --> 00:09:55,829

information they presented so what was a

212

00:09:59,960 --> 00:09:57,899

great believer in giving listeners and

213

00:10:02,350 --> 00:09:59,970

viewers an opportunity to go back and

214

00:10:06,410 --> 00:10:02,360

have a look at this thing for themselves

215

00:10:08,660 --> 00:10:06,420

yeah and another fellow who was involved

216

00:10:11,299 --> 00:10:08,670

apparently in the Nimitz case was one of

217

00:10:14,090 --> 00:10:11,309

the pilots in the Nimitz case he has

218

00:10:16,490 --> 00:10:14,100

kind of gone off the radar as well but

219

00:10:20,360 --> 00:10:16,500

he left in kind of a different fashion

220

00:10:24,139 --> 00:10:20,370

he was hired on by Bob Bigelow and

221

00:10:26,329 --> 00:10:24,149

signed a NDA with that organization and

222

00:10:28,160 --> 00:10:26,339

is not talking right now he's a fellow

223

00:10:30,249 --> 00:10:28,170

by the name of Douglas Kurth and you've

224

00:10:33,710 --> 00:10:30,259

written a little bit about him as well

225

00:10:37,490 --> 00:10:33,720

yes it's amazing how many characters

226

00:10:39,590 --> 00:10:37,500

there are there and I couldn't believe

227

00:10:42,110 --> 00:10:39,600

the fact when I looked at the LinkedIn

228

00:10:45,290 --> 00:10:42,120

profile on the internet the Douglas

229

00:10:49,610 --> 00:10:45,300

Kurth that in fact he was citing having

230

00:10:52,999 --> 00:10:49,620

work for Bobbitt Robert Bigelow and of

231

00:10:55,129 --> 00:10:53,009

course a number of the research areas

232

00:10:59,059 --> 00:10:55,139

that were interested in currently is all

233

00:11:02,679 --> 00:10:59,069

concerning the Nimitz 2004 incidents Bob

234

00:11:06,060 --> 00:11:02,689

Bigelow's research the I a contract that

235

00:11:09,180 --> 00:11:06,070

people are advanced to aerospace studies

236

00:11:12,180 --> 00:11:09,190

got for the CIA and the information that

237

00:11:15,060 --> 00:11:12,190

came out of that though I was just

238

00:11:16,710 --> 00:11:15,070

looking up as a matter of fact trying to

239

00:11:20,250 --> 00:11:16,720

find some details about Douglass curve

240

00:11:25,440 --> 00:11:20,260

he was a Marine pilot highly decorated

241

00:11:28,320 --> 00:11:25,450

and on his LinkedIn page he actually

242

00:11:31,650 --> 00:11:28,330

said that he went to work Robert Bigelow

243

00:11:35,010 --> 00:11:31,660

in December 2007 which caused a bit of a

244

00:11:39,030 --> 00:11:35,020

red flag to me because the Nevada State

245

00:11:42,420 --> 00:11:39,040

records which I checked for the creation

246

00:11:45,660 --> 00:11:42,430

of the registration of B double a SS

247

00:11:48,540 --> 00:11:45,670

bass they weren't actually registered

248

00:11:50,940 --> 00:11:48,550

until January 2008 so here was Douglas

249

00:11:54,480 --> 00:11:50,950

Cerf citing the fact that he was working

250

00:11:56,940 --> 00:11:54,490

for the organization a month or two

251

00:11:59,550 --> 00:11:56,950

before that's granted that Douglass

252

00:12:02,250 --> 00:11:59,560

Kurtz dates correct on Lincoln but I

253

00:12:05,790 --> 00:12:02,260

found nothing - to actually contradict

254

00:12:08,130 --> 00:12:05,800

that and then on LinkedIn page I thought

255

00:12:09,660 --> 00:12:08,140

well what did he actually do for bass

256

00:12:12,110 --> 00:12:09,670

this will be interesting because we

257

00:12:14,940 --> 00:12:12,120

we've never really known much about that

258

00:12:18,420 --> 00:12:14,950

about the what the people who were

259

00:12:20,910 --> 00:12:18,430

working for bass we're doing and the the

260

00:12:23,400 --> 00:12:20,920

LinkedIn entry said that he was the

261

00:12:25,830 --> 00:12:23,410

program on a quote here the program lead

262

00:12:28,440 --> 00:12:25,840

for novel and emerging space

263

00:12:32,280 --> 00:12:28,450

technologies targeting operational

264

00:12:35,030 --> 00:12:32,290

deployment in 2014 directed and managed

265

00:12:38,670 --> 00:12:35,040

a team of 40 scientists engineers

266

00:12:40,770 --> 00:12:38,680

analysts and researchers and then he

267

00:12:43,470 --> 00:12:40,780

went on to the fact that he was also

268

00:12:47,520 --> 00:12:43,480

involved in business developing and he

269

00:12:50,340 --> 00:12:47,530

was working on contracts for bass now

270

00:12:52,590 --> 00:12:50,350

that may not seem to mean much to your

271

00:12:54,690 --> 00:12:52,600

listeners that the very fact that he was

272

00:12:57,840 --> 00:12:54,700

leading a tea direct him managing a team

273

00:12:59,760 --> 00:12:57,850

of 40 scientists for Robert Bigelow and

274

00:13:04,680 --> 00:12:59,770

it was dealing with emerging space

275

00:13:06,240 --> 00:13:04,690

technologies that's exactly why bass got

276

00:13:08,940 --> 00:13:06,250

the contract from the Defense

277

00:13:11,910 --> 00:13:08,950

Intelligence Agency was exactly those

278

00:13:14,940 --> 00:13:11,920

areas to cover so here we here we have

279

00:13:16,470 --> 00:13:14,950

some confirmation our bass people did

280

00:13:19,170 --> 00:13:16,480

get the contract from the Defense

281

00:13:22,830 --> 00:13:19,180

Intelligence Agency in 2008

282

00:13:25,950 --> 00:13:22,840

and by early 2008 were working on this

283

00:13:28,080 --> 00:13:25,960

so here's another little confirmation

284

00:13:31,050 --> 00:13:28,090

from a person putting some details on

285

00:13:34,260 --> 00:13:31,060

their LinkedIn page to the solicitation

286

00:13:36,900 --> 00:13:34,270

or broad area announcement which we know

287

00:13:39,750 --> 00:13:36,910

was about that program which we know

288

00:13:42,750 --> 00:13:39,760

wasn't led by the Caskey so all these

289

00:13:44,430 --> 00:13:42,760

characters are interwoven but a question

290

00:13:46,680 --> 00:13:44,440

that then came to my mind because I

291

00:13:49,830 --> 00:13:46,690

became more I am a very inquisitive

292

00:13:53,490 --> 00:13:49,840

person I thought well how come a Marine

293

00:13:57,240 --> 00:13:53,500

pilot who was involved in the Nimitz UFO

294

00:13:58,980 --> 00:13:57,250

incidences of November 2004 how come he

295

00:14:02,990 --> 00:13:58,990

went to Robert work for Robert Bigelow

296

00:14:05,880 --> 00:14:03,000

on a program which was dealing with UFOs

297

00:14:08,370 --> 00:14:05,890

now I haven't found a definitive answer

298

00:14:13,190 --> 00:14:08,380

but that is a very interesting question

299

00:14:16,230 --> 00:14:13,200

I can only imagine Bob Bigelow in 2007

300

00:14:18,170 --> 00:14:16,240

when the nimitz video was leaked to the

301

00:14:22,350 --> 00:14:18,180

internet because we know now that

302

00:14:27,780 --> 00:14:22,360

although to the stars academy exposed

303

00:14:30,990 --> 00:14:27,790

the video back in December 2017 and the

304

00:14:35,430 --> 00:14:31,000

New York Times saw it we know that

305

00:14:39,150 --> 00:14:35,440

actually the exact same video was leaked

306

00:14:44,090 --> 00:14:39,160

to the Internet in 2007 only that it was

307

00:14:48,060 --> 00:14:44,100

leaked to a German CGI studio I believe

308

00:14:50,310 --> 00:14:48,070

yeah and what we what we now know is

309

00:14:54,780 --> 00:14:50,320

that was the same video that was

310

00:14:59,010 --> 00:14:54,790

released in 2017 and that was reportedly

311

00:15:02,760 --> 00:14:59,020

from the Nimitz 2004 and so we have a

312

00:15:05,610 --> 00:15:02,770

link there to the Nimitz 2004 incidents

313

00:15:08,250 --> 00:15:05,620

so it's just a just a jump in I think

314

00:15:10,680 --> 00:15:08,260

it's really curious that that video

315

00:15:13,800 --> 00:15:10,690

would end up with a German CGI company

316

00:15:16,020 --> 00:15:13,810

the Corey Goode would get of all people

317

00:15:18,450 --> 00:15:16,030

would get leaked the a couple of there

318

00:15:19,950 --> 00:15:18,460

Eric Davis's scientific papers that were

319

00:15:21,990 --> 00:15:19,960

for the program it seems like somebody

320

00:15:26,790 --> 00:15:22,000

who does this leaking is got a little

321

00:15:30,030 --> 00:15:26,800

bit of a sense of humor there I agree

322

00:15:32,910 --> 00:15:30,040

totally it is I mean if one goes back to

323

00:15:35,490 --> 00:15:32,920

the above top secret for

324

00:15:38,100 --> 00:15:35,500

forums discussing the fact that this was

325

00:15:39,930 --> 00:15:38,110

leaked first of all the individuals on

326

00:15:41,780 --> 00:15:39,940

the forum were absolutely amazed and

327

00:15:46,530 --> 00:15:41,790

claimed it's cocked to be a hoax right

328

00:15:51,180 --> 00:15:46,540

exactly no one is going to leak a Navy

329

00:15:53,629 --> 00:15:51,190

Department video infrared video of a UFO

330

00:15:57,329 --> 00:15:53,639

they just aren't going to do it and even

331

00:16:00,060 --> 00:15:57,339

individuals like researcher Isaac Roy in

332

00:16:02,160 --> 00:16:00,070

the UK at the time dismissed us

333

00:16:02,939 --> 00:16:02,170

dismissed the whole thing as the

334

00:16:04,740 --> 00:16:02,949

probable hoax

335

00:16:06,389 --> 00:16:04,750

sure and and Isaac now for folks who

336

00:16:08,639 --> 00:16:06,399

don't know does a lot of great work at

337

00:16:11,490 --> 00:16:08,649

exposing these cgi videos that go viral

338

00:16:14,189 --> 00:16:11,500

and a lot of times they are created by

339

00:16:16,590 --> 00:16:14,199

CGI houses legitimately for things like

340

00:16:17,970 --> 00:16:16,600

commercials that are shown overseas so

341

00:16:20,220 --> 00:16:17,980

people in the states have never seen

342

00:16:21,689 --> 00:16:20,230

them and they don't know yeah they don't

343

00:16:25,350 --> 00:16:21,699

know that this was a commercial that was

344

00:16:27,689 --> 00:16:25,360

running in Brazil for example so some

345

00:16:29,910 --> 00:16:27,699

people think they're legitimate and you

346

00:16:33,060 --> 00:16:29,920

know they go along with the with the

347

00:16:35,310 --> 00:16:33,070

hoax and some folks dismiss them all but

348

00:16:37,800 --> 00:16:35,320

you know here you go the proof is in the

349

00:16:39,660 --> 00:16:37,810

pudding it was a legit video and the

350

00:16:46,530 --> 00:16:39,670

papers were legit - regardless of who

351
00:16:49,230 --> 00:16:46,540
broke them yes well if we was a genuine

352
00:16:51,870 --> 00:16:49,240
video released by somebody who appeared

353
00:16:54,240 --> 00:16:51,880
to be a member of the crew of our lab

354
00:16:56,430 --> 00:16:54,250
that Nimitz or the USS Princeton who

355
00:16:59,069 --> 00:16:56,440
were involved in those incidents but

356
00:17:01,310 --> 00:16:59,079
also I mean talking about things coming

357
00:17:03,990 --> 00:17:01,320
back to bite you

358
00:17:07,909 --> 00:17:04,000
ufologist Kurt Collins mentioned to me

359
00:17:11,030 --> 00:17:07,919
he said did you know that in a 2008

360
00:17:14,970 --> 00:17:11,040
conference presentation Richard Dolan

361
00:17:17,640 --> 00:17:14,980
missed the Nimitz incidents completely

362
00:17:20,100 --> 00:17:17,650
when he announced that he had a source

363
00:17:22,919 --> 00:17:20,110

that had come to him giving him details

364

00:17:25,890 --> 00:17:22,929

about this this this isn't this that had

365

00:17:30,630 --> 00:17:25,900

happened in 2004 and Richard Dolan just

366

00:17:32,850 --> 00:17:30,640

passed over it at the time so there were

367

00:17:35,220 --> 00:17:32,860

a few people who might have got a lead

368

00:17:37,919 --> 00:17:35,230

into all of this ten years before it

369

00:17:41,909 --> 00:17:37,929

emerged but who knows I mean we win only

370

00:17:44,070 --> 00:17:41,919

know now in hindsight that in fact Kevin

371

00:17:46,590 --> 00:17:44,080

day one of the witnesses from the USS

372

00:17:49,409 --> 00:17:46,600

Princeton was in fact the person who to

373

00:17:51,680 --> 00:17:49,419

- Richard Dolan but he talked to him

374

00:17:54,210 --> 00:17:51,690

anonymously so Richard quite rightly

375

00:17:57,510 --> 00:17:54,220

wasn't able to verify the story but

376

00:17:58,460 --> 00:17:57,520

Dolan did mention it in 2008 conference

377

00:18:01,680 --> 00:17:58,470

presentation

378

00:18:03,510 --> 00:18:01,690

Robert from my SCU he got a good

379

00:18:05,789 --> 00:18:03,520

deadbeat on this story fairly early on

380

00:18:09,330 --> 00:18:05,799

so that was a good thing he didn't pass

381

00:18:10,919 --> 00:18:09,340

over it but yeah sometimes you did you

382

00:18:13,049 --> 00:18:10,929

think you've come up on come across

383

00:18:15,060 --> 00:18:13,059

something that's so wild you dismiss it

384

00:18:16,590 --> 00:18:15,070

but it turns out to be true that's a

385

00:18:19,169 --> 00:18:16,600

mistake that happens it happened with me

386

00:18:23,880 --> 00:18:19,179

once I think we've all we've all been

387

00:18:25,770 --> 00:18:23,890

there we've all kicked ourselves just

388

00:18:28,520 --> 00:18:25,780

coming back to Douglas cursed so here we

389

00:18:32,370 --> 00:18:28,530

have one of the Aviators involved in the

390

00:18:34,649 --> 00:18:32,380

USS Nimitz 2004 for incidents who turns

391

00:18:37,169 --> 00:18:34,659

up working for Bob Bigelow on a UFO

392

00:18:41,220 --> 00:18:37,179

program now I only know if a couple of

393

00:18:45,149 --> 00:18:41,230

people who approached Douglas Kurth over

394

00:18:45,899 --> 00:18:45,159

time I'll mention Aras researcher and

395

00:18:48,510 --> 00:18:45,909

journalist

396

00:18:49,860 --> 00:18:48,520

gulia know her in Quebec who managed to

397

00:18:53,970 --> 00:18:49,870

track down a phone number for Kurth

398

00:18:55,399 --> 00:18:53,980

ranked him up and said that blah blah

399

00:18:59,010 --> 00:18:55,409

blah blah blah I'm interested to know

400

00:19:01,590 --> 00:18:59,020

you views on this thank the century said

401
00:19:05,640 --> 00:19:01,600
something and I'm quoting Gillian ohia

402
00:19:07,830 --> 00:19:05,650
quote I did something full stop

403
00:19:09,860 --> 00:19:07,840
I can't talk about it full stop and

404
00:19:13,799 --> 00:19:09,870
that's all I Coolio know got out of

405
00:19:16,590 --> 00:19:13,809
Douglas Cerf so he's another person that

406
00:19:18,870 --> 00:19:16,600
we would absolutely love to interview to

407
00:19:20,909 --> 00:19:18,880
find out what he was doing working with

408
00:19:25,110 --> 00:19:20,919
Robert Bigelow and past for several

409
00:19:27,149 --> 00:19:25,120
years and speaking of Bigelow obviously

410
00:19:29,220 --> 00:19:27,159
he's put his money where his mouth is

411
00:19:31,409 --> 00:19:29,230
he's not too big on sharing a lot of the

412
00:19:33,870 --> 00:19:31,419
information he gathers but he's gathered

413
00:19:36,510 --> 00:19:33,880

plenty of it some of it at the famous

414

00:19:39,029 --> 00:19:36,520

skinwalker ranch but you also wrote a

415

00:19:40,440 --> 00:19:39,039

story about another piece of property

416

00:19:43,380 --> 00:19:40,450

that he purchased so why don't you tell

417

00:19:45,060 --> 00:19:43,390

our folks about that yeah this is one of

418

00:19:46,830 --> 00:19:45,070

those things where you reading a book

419

00:19:50,640 --> 00:19:46,840

and you just literally can't believe

420

00:19:54,560 --> 00:19:50,650

what you read again Shack Falaise

421

00:19:57,120 --> 00:19:54,570

diaries vol 4 released early this year

422

00:19:59,280 --> 00:19:57,130

lots and lots of interesting small facts

423

00:20:02,340 --> 00:19:59,290

in there but I'm reading away and

424

00:20:04,830 --> 00:20:02,350

then chuckle I said oh and I went to

425

00:20:07,860 --> 00:20:04,840

Robert Bigelow's ranch youfo ranch and

426

00:20:11,040 --> 00:20:07,870

thought yeah okay skinwalker ranch and

427

00:20:12,810 --> 00:20:11,050

then I read further and he said ah we

428

00:20:15,180 --> 00:20:12,820

spent the day I'll quote him here we

429

00:20:18,510 --> 00:20:15,190

spent the day exploring the Mount Wilson

430

00:20:21,060 --> 00:20:18,520

ranch and I thought what's that got to

431

00:20:24,360 --> 00:20:21,070

do with UFOs the Mount Wilson ranch so I

432

00:20:26,520 --> 00:20:24,370

read over that and he said yes it was

433

00:20:29,430 --> 00:20:26,530

spent the day at the Mount Wilson ranch

434

00:20:32,760 --> 00:20:29,440

I was along with a person called dr. Tim

435

00:20:34,980 --> 00:20:32,770

Ryan of a scientific organization who

436

00:20:37,560 --> 00:20:34,990

was coming along to do some

437

00:20:40,590 --> 00:20:37,570

instrumentation we were here at the

438

00:20:44,520 --> 00:20:40,600

bidding of Bob Bigelow who'd bought a

439

00:20:47,250 --> 00:20:44,530

second UFO ranch now this Mount Wilson

440

00:20:52,400 --> 00:20:47,260

ranch I'll just check it's in Nevada

441

00:20:58,590 --> 00:20:56,130

this was in August 1996 so this would be

442

00:21:01,040 --> 00:20:58,600

roughly the same time period that Bob

443

00:21:03,960 --> 00:21:01,050

Bigelow was buying the skinwalker ranch

444

00:21:06,150 --> 00:21:03,970

95-96 I know we're going back 20 years

445

00:21:09,000 --> 00:21:06,160

here but this is things that we we're

446

00:21:11,460 --> 00:21:09,010

literally none of us ever knew and what

447

00:21:17,070 --> 00:21:11,470

they said about the place was that it

448

00:21:21,150 --> 00:21:17,080

was a typical western old movie stage

449

00:21:23,030 --> 00:21:21,160

set type of presentation bars old

450

00:21:25,920 --> 00:21:23,040

buildings he said you could have had a

451
00:21:27,390 --> 00:21:25,930
gunfight at the okay Corral at the

452
00:21:29,730 --> 00:21:27,400
particular ranch because it was that

453
00:21:33,480 --> 00:21:29,740
style and what he found out by talking

454
00:21:36,240 --> 00:21:33,490
to an employee of Bigelow who had been

455
00:21:39,140 --> 00:21:36,250
hired by Bigelow to do UFO research in

456
00:21:43,800 --> 00:21:39,150
Nevada a lady called Shelly wodsworth

457
00:21:45,840 --> 00:21:43,810
who pops up in a few places but Bob

458
00:21:48,420 --> 00:21:45,850
Bigelow did confirm in one of his

459
00:21:50,130 --> 00:21:48,430
writings that he had employed Shelly was

460
00:21:53,340 --> 00:21:50,140
worth to look at your foes in Nevada for

461
00:21:56,550 --> 00:21:53,350
him so she was close to the Mount Wilson

462
00:21:58,830 --> 00:21:56,560
ranch in Nevada and what we learned from

463
00:22:00,810 --> 00:21:58,840

or what I learnt and then shared with my

464

00:22:04,860 --> 00:22:00,820

blog readers about the ranch

465

00:22:07,140 --> 00:22:04,870

according to check fillets visit was

466

00:22:10,950 --> 00:22:07,150

that that UFOs had been seen as far back

467

00:22:13,140 --> 00:22:10,960

as 1993 there were stories of craft

468

00:22:15,660 --> 00:22:13,150

following cars at night

469

00:22:19,410 --> 00:22:15,670

UFOs that shot intense beams into the

470

00:22:22,410 --> 00:22:19,420

sky hovering black Delta craft and

471

00:22:24,780 --> 00:22:22,420

strangely tinfoil like squares that

472

00:22:26,210 --> 00:22:24,790

folded onto themselves in the sky and

473

00:22:30,060 --> 00:22:26,220

then vanished

474

00:22:34,980 --> 00:22:30,070

there were poltergeists recorded that

475

00:22:37,740 --> 00:22:34,990

the the ranch there was a ghost in one

476
00:22:40,140 --> 00:22:37,750
of the rooms there and it seemed to have

477
00:22:41,250 --> 00:22:40,150
all the typical markings of what was

478
00:22:45,990 --> 00:22:41,260
going on at skinwalker

479
00:22:48,870 --> 00:22:46,000
and yet until the shack fillet opened up

480
00:22:50,970 --> 00:22:48,880
about it in his Diaries until this year

481
00:22:53,100 --> 00:22:50,980
I don't know that it well I'd never come

482
00:22:55,920 --> 00:22:53,110
across anyone else referring to a second

483
00:22:58,140 --> 00:22:55,930
ranch board port by bottom people oh so

484
00:22:59,790 --> 00:22:58,150
we've got lots of people who are

485
00:23:01,980 --> 00:22:59,800
interested in skinwalker we've had a

486
00:23:03,840 --> 00:23:01,990
book written about skinwalker we've had

487
00:23:05,940 --> 00:23:03,850
documentary films popping up in the last

488
00:23:08,250 --> 00:23:05,950

year about the skinwalker ranch but my

489

00:23:11,670 --> 00:23:08,260

question is now is why did Bob Bigelow

490

00:23:14,940 --> 00:23:11,680

buy another ranch now we do have a

491

00:23:17,400 --> 00:23:14,950

partial answer Shack fillet ask Bob

492

00:23:20,670 --> 00:23:17,410

Bigelow exactly that question why do you

493

00:23:23,610 --> 00:23:20,680

want to buy another wrench when Bigelow

494

00:23:25,380 --> 00:23:23,620

said well what we could do

495

00:23:29,190 --> 00:23:25,390

Jack fillet you're always talking about

496

00:23:30,510 --> 00:23:29,200

using controls we could have two ranches

497

00:23:32,190 --> 00:23:30,520

both of which we've got you those

498

00:23:34,590 --> 00:23:32,200

stories poltergeist experiences

499

00:23:37,500 --> 00:23:34,600

paranormal experiences we could compare

500

00:23:39,750 --> 00:23:37,510

notes between the two we can make one

501
00:23:41,730 --> 00:23:39,760
public and keep one private and we could

502
00:23:43,800 --> 00:23:41,740
we could compare what happens at the two

503
00:23:45,210 --> 00:23:43,810
places one way we're doing public

504
00:23:47,820 --> 00:23:45,220
research Skywalker

505
00:23:54,080 --> 00:23:47,830
that's skywalk am thinking of Star Wars

506
00:23:57,240 --> 00:23:54,090
there we can we can have a private

507
00:23:59,430 --> 00:23:57,250
comparison ranch where the same sort of

508
00:24:01,410 --> 00:23:59,440
things are said to be going on and we'll

509
00:24:06,210 --> 00:24:01,420
just keep all of this quiet and I guess

510
00:24:09,090 --> 00:24:06,220
that's why we've never to this day heard

511
00:24:11,250 --> 00:24:09,100
of this second ranch if you go into the

512
00:24:14,310 --> 00:24:11,260
Internet you can go to the Mount Wilson

513
00:24:15,090 --> 00:24:14,320

wrench.now and stay there it's it's open

514

00:24:17,610 --> 00:24:15,100

to the public

515

00:24:19,710 --> 00:24:17,620

you can stay in room number four where

516

00:24:21,120 --> 00:24:19,720

the ghost inhabits and if you're lucky

517

00:24:24,690 --> 00:24:21,130

while you're there you can see some of

518

00:24:26,380 --> 00:24:24,700

UFOs so it's it's it's now public

519

00:24:28,510 --> 00:24:26,390

property as it were probably

520

00:24:30,340 --> 00:24:28,520

but available for you to go and stay

521

00:24:32,140 --> 00:24:30,350

there do you know if Bigelow still owns

522

00:24:33,790 --> 00:24:32,150

it because I know he did sell skinwalker

523

00:24:37,120 --> 00:24:33,800

ranch and apparently they're gonna turn

524

00:24:39,220 --> 00:24:37,130

that place into a resort Jack fillets

525

00:24:41,470 --> 00:24:39,230

Diaries silent on the question of what

526
00:24:43,660 --> 00:24:41,480
actually happened to the to date to that

527
00:24:46,510 --> 00:24:43,670
particular wrench in fact apart from

528
00:24:48,040 --> 00:24:46,520
Jacque fillets reference I can't find a

529
00:24:50,410 --> 00:24:48,050
single other please place on the

530
00:24:54,040 --> 00:24:50,420
internet which discusses any of this at

531
00:24:56,470 --> 00:24:54,050
all Robert Bigelow owning it so that's a

532
00:25:00,520 --> 00:24:56,480
story for I think our friend in Las

533
00:25:02,410 --> 00:25:00,530
Vegas George Knapp to follow up on by

534
00:25:05,110 --> 00:25:02,420
the way George Knapp did get asked about

535
00:25:06,700 --> 00:25:05,120
this last point I went to dimension

536
00:25:09,520 --> 00:25:06,710
certainly went to George Knapp on

537
00:25:11,920 --> 00:25:09,530
Twitter this year and following me

538
00:25:15,010 --> 00:25:11,930

mention yet somebody actually went to

539

00:25:18,730 --> 00:25:15,020

George Knapp and said once the wrenched

540

00:25:20,470 --> 00:25:18,740

uses of control and I found a tweet from

541

00:25:23,500 --> 00:25:20,480

George Knapp on the 11th of March this

542

00:25:26,020 --> 00:25:23,510

year quote it was a positive control

543

00:25:28,210 --> 00:25:26,030

mount Wilson was purchased by Bigelow

544

00:25:30,940 --> 00:25:28,220

because had had a long history of both

545

00:25:34,180 --> 00:25:30,950

pata Geist and haunting witness reports

546

00:25:36,640 --> 00:25:34,190

and UFO sightings on the property and in

547

00:25:38,680 --> 00:25:36,650

the general area and then he puts in

548

00:25:41,260 --> 00:25:38,690

brackets brackets skin was similar to

549

00:25:43,570 --> 00:25:41,270

skinwalker they're not the same range of

550

00:25:46,630 --> 00:25:43,580

reported phenomena closed brackets and

551
00:25:49,870 --> 00:25:46,640
then lighter and his Tweety George said

552
00:25:53,590 --> 00:25:49,880
I must say I never visited that

553
00:25:56,320 --> 00:25:53,600
particular ranch so maybe we can get

554
00:25:58,810 --> 00:25:56,330
George to do a follow-up on that and

555
00:26:00,460 --> 00:25:58,820
tell us it or even sure or maybe you can

556
00:26:08,350 --> 00:26:00,470
go back on coast-to-coast and interview

557
00:26:11,440 --> 00:26:08,360
him how we have to wait 20 years for a

558
00:26:13,930 --> 00:26:11,450
book by a by an American you follow gist

559
00:26:16,840 --> 00:26:13,940
who openly admits that he's Diaries only

560
00:26:18,400 --> 00:26:16,850
sell a few hundred copies and somebody

561
00:26:21,430 --> 00:26:18,410
has to have happen to read it in

562
00:26:22,990 --> 00:26:21,440
Australia and then happens to know that

563
00:26:25,030 --> 00:26:23,000

they'd never heard of the mountain

564

00:26:27,730 --> 00:26:25,040

written wasn't ranch for all this thing

565

00:26:29,650 --> 00:26:27,740

to become open yeah I mean I'm amazed by

566

00:26:32,710 --> 00:26:29,660

the synchronicity sometimes does that

567

00:26:34,540 --> 00:26:32,720

happen well I've got to get into an

568

00:26:36,790 --> 00:26:34,550

Australian case there the Perth case

569

00:26:38,470 --> 00:26:36,800

that you've written about but cuz

570

00:26:40,090 --> 00:26:38,480

obviously some things go on that down

571

00:26:42,010 --> 00:26:40,100

under as well and there's some great you

572

00:26:44,590 --> 00:26:42,020

Oh cases down there but that let's stay

573

00:26:48,310 --> 00:26:44,600

on the the North American track for now

574

00:26:51,100 --> 00:26:48,320

and move over again staying on the Bob

575

00:26:52,659 --> 00:26:51,110

Bigelow trail here you would also

576

00:26:54,279 --> 00:26:52,669

written an article about some of the

577

00:26:55,990 --> 00:26:54,289

checks he's thrown around though like I

578

00:26:58,720 --> 00:26:56,000

said the guy definitely puts his money

579

00:27:00,340 --> 00:26:58,730

where his mouth is and you wrote that

580

00:27:03,070 --> 00:27:00,350

he's written some pretty significant

581

00:27:05,770 --> 00:27:03,080

checks to various people and I want to

582

00:27:07,960 --> 00:27:05,780

talk a little bit about that yeah over

583

00:27:09,760 --> 00:27:07,970

the years and again we only know the

584

00:27:12,580 --> 00:27:09,770

details thanks to chunk delays latest

585

00:27:15,130 --> 00:27:12,590

Diaries because you had actually quotes

586

00:27:16,960 --> 00:27:15,140

actually money at monetary amounts so

587

00:27:20,980 --> 00:27:16,970

for example there was I think two

588

00:27:25,890 --> 00:27:20,990

hundred thousand dollars given to David

589

00:27:29,500 --> 00:27:25,900

Jacobs and Bob Hopkins to do the Roper

590

00:27:32,710 --> 00:27:29,510

survey where they engaged a professional

591

00:27:35,950 --> 00:27:32,720

polling company to pose the question to

592

00:27:38,320 --> 00:27:35,960

the US community trying to answer the

593

00:27:42,730 --> 00:27:38,330

question of how many Americans had been

594

00:27:45,490 --> 00:27:42,740

abducted by aliens and that caused quite

595

00:27:47,830 --> 00:27:45,500

a funeral when the results came out

596

00:27:50,080 --> 00:27:47,840

because I think they were so dings

597

00:27:52,210 --> 00:27:50,090

citing something like about 5% of the

598

00:27:55,779 --> 00:27:52,220

American population according to this

599

00:27:57,580 --> 00:27:55,789

all had been abducted by somebody so

600

00:27:59,760 --> 00:27:57,590

that was some money that was tossed

601
00:28:03,580 --> 00:27:59,770
around there but Bigelow funded

602
00:28:04,390 --> 00:28:03,590
conferences actually I must admit for

603
00:28:06,640 --> 00:28:04,400
transparency

604
00:28:10,440 --> 00:28:06,650
I was actually funded to go to a

605
00:28:15,539 --> 00:28:10,450
conference in 1992 on abductions and

606
00:28:19,899 --> 00:28:15,549
that was held in a venue hired at MIT

607
00:28:22,360 --> 00:28:19,909
where Bob Bigelow and the crown prince

608
00:28:24,460 --> 00:28:22,370
of liechtenstein of all people who had

609
00:28:26,350 --> 00:28:24,470
an interest in you of those put up the

610
00:28:29,289 --> 00:28:26,360
money to bring together about a hundred

611
00:28:30,789 --> 00:28:29,299
of us from all over the globe to MIT I

612
00:28:33,070 --> 00:28:30,799
think the six days to talk about

613
00:28:35,680 --> 00:28:33,080

abductions and that must have cost them

614

00:28:38,409 --> 00:28:35,690

a packet to to do that well I said you

615

00:28:40,149 --> 00:28:38,419

bring that up but if you don't mind

616

00:28:41,409 --> 00:28:40,159

jumping over to that a little bit

617

00:28:44,620 --> 00:28:41,419

because that was brought to my attention

618

00:28:47,320 --> 00:28:44,630

by James John Dalli who has been the

619

00:28:48,700 --> 00:28:47,330

coast here at times and might be back

620

00:28:50,890 --> 00:28:48,710

again down the road although he's got

621

00:28:52,570 --> 00:28:50,900

his own channel going these days but he

622

00:28:53,870 --> 00:28:52,580

had asked me to ask you about that so

623

00:28:55,610 --> 00:28:53,880

since you brought it up

624

00:28:57,010 --> 00:28:55,620

why don't you talk in a little bit more

625

00:29:00,740 --> 00:28:57,020

detail about that

626

00:29:03,680 --> 00:29:00,750

yeah go ahead what went on there yeah so

627

00:29:06,440 --> 00:29:03,690

what we got was we we got an invitation

628

00:29:08,060 --> 00:29:06,450

I came by phone call from the front of

629

00:29:10,490 --> 00:29:08,070

the UFO research that were helping

630

00:29:12,800 --> 00:29:10,500

manage the money I forgot to it wasn't a

631

00:29:15,440 --> 00:29:12,810

dinner where there was Bruce Maccabee or

632

00:29:17,480 --> 00:29:15,450

someone else said we'd like to invite

633

00:29:18,620 --> 00:29:17,490

you to a conference on abductions we

634

00:29:21,380 --> 00:29:18,630

noticed you've been doing a bit of

635

00:29:22,550 --> 00:29:21,390

research in Australia and I had I had

636

00:29:24,970 --> 00:29:22,560

been working with a number of

637

00:29:28,810 --> 00:29:24,980

psychologists psychiatrists and

638

00:29:30,860 --> 00:29:28,820

experiences behind the scenes to try and

639

00:29:33,620 --> 00:29:30,870

uncover what was happening in this

640

00:29:38,810 --> 00:29:33,630

country to compare it to to the US and

641

00:29:40,070 --> 00:29:38,820

other places and I ended up at MIT there

642

00:29:42,770 --> 00:29:40,080

was about a hundred and fifty of us

643

00:29:46,820 --> 00:29:42,780

there all the names you could name had

644

00:29:50,630 --> 00:29:46,830

had done abduction research John Mack

645

00:29:56,600 --> 00:29:53,870

let's see Robert Bigelow was apparently

646

00:29:58,370 --> 00:29:56,610

apparently Daryl I didn't know you was

647

00:30:00,860 --> 00:29:58,380

there somebody told me later on that

648

00:30:02,810 --> 00:30:00,870

he'd attended John Alexander was there

649

00:30:06,830 --> 00:30:02,820

giving a paper I gave a couple of papers

650

00:30:09,290 --> 00:30:06,840

myself it was a who's who list from from

651
00:30:14,780 --> 00:30:09,300
all over the planets South Africa South

652
00:30:16,940 --> 00:30:14,790
America Sweden the the US Canada and so

653
00:30:20,510 --> 00:30:16,950
what we did is we we presented a whole

654
00:30:22,940 --> 00:30:20,520
host of scientific papers to the

655
00:30:26,630 --> 00:30:22,950
audience and then we had discussions we

656
00:30:29,060 --> 00:30:26,640
had panel sessions we had panel sessions

657
00:30:32,060 --> 00:30:29,070
by experiences some experiences

658
00:30:34,280 --> 00:30:32,070
presented their particular work but

659
00:30:38,590 --> 00:30:34,290
Hopkins gave a detailed presentation and

660
00:30:42,500 --> 00:30:38,600
on on the Linda case famous abduction

661
00:30:45,140 --> 00:30:42,510
report from Manhattan said to involve

662
00:30:46,460 --> 00:30:45,150
someone from the United Nations we heard

663
00:30:48,770 --> 00:30:46,470

all those firsthand

664

00:30:51,020 --> 00:30:48,780

Richard Boylan was there there was a

665

00:30:55,190 --> 00:30:51,030

number of psychologists who were

666

00:30:58,580 --> 00:30:55,200

studying the topic behind the scenes who

667

00:31:00,320 --> 00:30:58,590

I met but I won't quote because some of

668

00:31:03,790 --> 00:31:00,330

them never went on to become interested

669

00:31:06,860 --> 00:31:03,800

in subject any further but it was a real

670

00:31:07,530 --> 00:31:06,870

attempt at a scientific presentation of

671

00:31:10,140 --> 00:31:07,540

data

672

00:31:13,410 --> 00:31:10,150

about abduction cases we talked implants

673

00:31:15,480 --> 00:31:13,420

we talked Bota graphs we cat-scans we

674

00:31:19,070 --> 00:31:15,490

looked at cat scans we talk to

675

00:31:22,880 --> 00:31:19,080

psychologists who take had handled

676
00:31:25,470 --> 00:31:22,890
implants we talk to you for researchers

677
00:31:27,930 --> 00:31:25,480
handled implants so it was a great

678
00:31:29,430 --> 00:31:27,940
opportunity to the lingual with whole

679
00:31:32,670 --> 00:31:29,440
bunch of people who are otherwise

680
00:31:36,390 --> 00:31:32,680
wouldn't admit and what came out of it

681
00:31:38,760 --> 00:31:36,400
was well the proceedings which was about

682
00:31:41,100 --> 00:31:38,770
I think six seven hundred pages long

683
00:31:43,290 --> 00:31:41,110
which you can still buy a copy of on the

684
00:31:46,110 --> 00:31:43,300
net called the Proceedings of the

685
00:31:49,680 --> 00:31:46,120
particular abduction conference a

686
00:31:52,890 --> 00:31:49,690
journalist wrote a book about it based

687
00:31:55,950 --> 00:31:52,900
on his his six days at the conference

688
00:31:57,570 --> 00:31:55,960

interviewing a whole range of us and it

689

00:32:00,030 --> 00:31:57,580

was a very interesting time to be

690

00:32:02,780 --> 00:32:00,040

involved because remember this was in

691

00:32:06,630 --> 00:32:02,790

1992 so we're almost 30 years back now

692

00:32:09,420 --> 00:32:06,640

but it was the high I guess the high

693

00:32:11,310 --> 00:32:09,430

time of abduction research and this was

694

00:32:15,300 --> 00:32:11,320

where Bigelow the crown prince of

695

00:32:17,970 --> 00:32:15,310

liechtenstein and Rockefeller were all

696

00:32:20,070 --> 00:32:17,980

putting the big dollars into the into

697

00:32:22,320 --> 00:32:20,080

the topic and coming back to what we

698

00:32:23,970 --> 00:32:22,330

were originally talking about was the

699

00:32:25,440 --> 00:32:23,980

fact that yeah they were spending

700

00:32:28,260 --> 00:32:25,450

literally millions and millions of

701
00:32:30,540 --> 00:32:28,270
dollars to UFO researchers and

702
00:32:33,630 --> 00:32:30,550
individuals both scientists and lay

703
00:32:35,250 --> 00:32:33,640
researchers to look at this topic I

704
00:32:36,810 --> 00:32:35,260
don't think there's ever been an era

705
00:32:40,190 --> 00:32:36,820
where so much money has been poured into

706
00:32:43,770 --> 00:32:40,200
research fascinating era to read about

707
00:32:45,480 --> 00:32:43,780
and also obviously yes the money's

708
00:32:48,500 --> 00:32:45,490
getting poured in today some of it is

709
00:32:52,020 --> 00:32:48,510
apparently going towards research into

710
00:32:54,690 --> 00:32:52,030
metamaterials possible fragments from ET

711
00:32:57,780 --> 00:32:54,700
ships that have crashed or pieces of

712
00:33:01,280 --> 00:32:57,790
fallen off or as something is going on

713
00:33:04,370 --> 00:33:01,290

in that department and you have gone and

714

00:33:07,050 --> 00:33:04,380

are attempting to add to catalogue

715

00:33:08,670 --> 00:33:07,060

various pieces that are over a long

716

00:33:10,590 --> 00:33:08,680

period of time now some of this goes

717

00:33:14,130 --> 00:33:10,600

back to the Aurora case back in the late

718

00:33:17,400 --> 00:33:14,140

1800s and that has been brought up and

719

00:33:20,340 --> 00:33:17,410

right up until right up until today

720

00:33:22,770 --> 00:33:20,350

TTS a and also separately

721

00:33:24,450 --> 00:33:22,780

Gary Nolan and Jacques Vallee of you

722

00:33:26,549 --> 00:33:24,460

already mentioned they've got their own

723

00:33:28,890 --> 00:33:26,559

separate study going and you're

724

00:33:32,279 --> 00:33:28,900

attempting to figure out which piece

725

00:33:33,799 --> 00:33:32,289

belongs to what claim fragment and what

726

00:33:37,520 --> 00:33:33,809

have you got on that so far

727

00:33:40,919 --> 00:33:37,530

well I was very surprised I went to the

728

00:33:42,930 --> 00:33:40,929

Internet and my networks and said where

729

00:33:44,940 --> 00:33:42,940

can I find a catalogue where somebody

730

00:33:47,270 --> 00:33:44,950

has brought together all the cases over

731

00:33:50,730 --> 00:33:47,280

the years where there have been

732

00:33:52,710 --> 00:33:50,740

fragments of UFOs reported picked up

733

00:33:54,510 --> 00:33:52,720

associated with sightings and they've

734

00:33:57,870 --> 00:33:54,520

actually been analyzed where can I read

735

00:34:00,539 --> 00:33:57,880

something about all of this and time and

736

00:34:02,669 --> 00:34:00,549

time again people came back from the US

737

00:34:04,919 --> 00:34:02,679

or from Sweden or from Canada or from

738

00:34:06,899 --> 00:34:04,929

other countries and said no one's done

739

00:34:07,919 --> 00:34:06,909

the work there isn't a single place

740

00:34:10,830 --> 00:34:07,929

where you can find all this stuff

741

00:34:12,389 --> 00:34:10,840

brought together and I thought well hmm

742

00:34:14,820 --> 00:34:12,399

I'm not gonna have to spend some time

743

00:34:17,070 --> 00:34:14,830

doing this and I thought well yes if I

744

00:34:19,320 --> 00:34:17,080

want the answer to that question what do

745

00:34:20,909 --> 00:34:19,330

we know about all of this stuff perhaps

746

00:34:24,240 --> 00:34:20,919

I've got to be the one to sit down and

747

00:34:26,520 --> 00:34:24,250

work at it so over the last six months

748

00:34:31,609 --> 00:34:26,530

or so in conjunction with a whole range

749

00:34:34,200 --> 00:34:31,619

of people like Chris Rakowski in Canada

750

00:34:37,740 --> 00:34:34,210

Ted Phillips his old tracer catalog

751

00:34:40,800 --> 00:34:37,750

which he did in the 1980s 1990s and a

752

00:34:42,599 --> 00:34:40,810

whole range of other other people Barry

753

00:34:48,030 --> 00:34:42,609

Greenwood dug into his archives in

754

00:34:50,220 --> 00:34:48,040

Boston for me I was just looking down my

755

00:34:52,859 --> 00:34:50,230

list here yet guys in Sweden of help

756

00:34:55,710 --> 00:34:52,869

guys in German Germany helped me with

757

00:34:57,810 --> 00:34:55,720

material and very kindly Jack belay can

758

00:35:01,040 --> 00:34:57,820

be some information for the catalog so

759

00:35:04,650 --> 00:35:01,050

what ended up is about 50 instances

760

00:35:06,599 --> 00:35:04,660

where over the years we have had pieces

761

00:35:10,440 --> 00:35:06,609

of UFO fragments come forward by

762

00:35:14,340 --> 00:35:10,450

individuals right back from 1897 to as

763

00:35:16,859 --> 00:35:14,350

recently as about two years ago and I've

764

00:35:20,270 --> 00:35:16,869

been able to by reading the UFO

765

00:35:22,940 --> 00:35:20,280

literature tapping my networks overseas

766

00:35:25,590 --> 00:35:22,950

digging out old publications from

767

00:35:28,680 --> 00:35:25,600

various archives I've been able to

768

00:35:32,010 --> 00:35:28,690

compile a list together places where

769

00:35:33,300 --> 00:35:32,020

these samples have turned up and not

770

00:35:33,780 --> 00:35:33,310

only have they turned up they've been

771

00:35:36,300 --> 00:35:33,790

analyzed

772

00:35:38,850 --> 00:35:36,310

in some way and I was surprised as a

773

00:35:42,000 --> 00:35:38,860

starting point to find out that they'd

774

00:35:44,190 --> 00:35:42,010

been at least seven different pieces of

775

00:35:46,470 --> 00:35:44,200

material so these are from seven

776

00:35:48,510 --> 00:35:46,480

different individuals seven pieces of

777

00:35:50,790 --> 00:35:48,520

material said to have come from the

778

00:35:54,540 --> 00:35:50,800

Roswell crash which is a remarkable

779

00:35:57,180 --> 00:35:54,550

number and yes every one of those seven

780

00:36:00,480 --> 00:35:57,190

individuals have had their samples

781

00:36:03,450 --> 00:36:00,490

analyzed and unfortunately the net

782

00:36:07,740 --> 00:36:03,460

result is more mystery than anything

783

00:36:10,590 --> 00:36:07,750

else we've had laboratories in the u.s.

784

00:36:12,210 --> 00:36:10,600

we've had laboratories in various other

785

00:36:14,820 --> 00:36:12,220

countries have a look at this stuff they

786

00:36:17,310 --> 00:36:14,830

published their information theory Don

787

00:36:21,510 --> 00:36:17,320

the internet in various places websites

788

00:36:24,390 --> 00:36:21,520

old books old magazines and quite a lot

789

00:36:28,830 --> 00:36:24,400

of debate and discussion about it has

790

00:36:31,170 --> 00:36:28,840

come forward what I then found is going

791

00:36:33,840 --> 00:36:31,180

more into recent times it was a big

792

00:36:36,270 --> 00:36:33,850

announcement in I think it was about ten

793

00:36:39,030 --> 00:36:36,280

years ago someone said we have the

794

00:36:41,340 --> 00:36:39,040

definitive analysis of a piece of

795

00:36:43,470 --> 00:36:41,350

material from Roswell I thought well

796

00:36:45,180 --> 00:36:43,480

this is great who actually analyzed it

797

00:36:47,040 --> 00:36:45,190

and I don't know whether you've ever

798

00:36:50,640 --> 00:36:47,050

heard of a fella called dr. Russell

799

00:36:54,180 --> 00:36:50,650

Vernon Clark became a not from Caltech

800

00:36:57,360 --> 00:36:54,190

he held a conference which was widely

801
00:36:59,220 --> 00:36:57,370
carried globally where he announced that

802
00:37:02,040 --> 00:36:59,230
he had done an analysis of the material

803
00:37:05,160 --> 00:37:02,050
from Roswell that had been his material

804
00:37:07,710 --> 00:37:05,170
been given to him it had a history which

805
00:37:09,330 --> 00:37:07,720
could be tracked back to Roswell and he

806
00:37:12,030 --> 00:37:09,340
was publicly announcing that as a

807
00:37:15,840 --> 00:37:12,040
scientist and chemist that he had found

808
00:37:18,570 --> 00:37:15,850
unusual isotopic ratios in the material

809
00:37:20,220 --> 00:37:18,580
and he was willing to bet his career on

810
00:37:23,280 --> 00:37:20,230
the fact that this was extraterrestrial

811
00:37:26,360 --> 00:37:23,290
material well you can't get much better

812
00:37:29,250 --> 00:37:26,370
than a chemist from a Californian top

813
00:37:32,040 --> 00:37:29,260

university going on a global conference

814

00:37:34,200 --> 00:37:32,050

and announcing that here we have et

815

00:37:37,710 --> 00:37:34,210

material and he had the analysis to

816

00:37:41,360 --> 00:37:37,720

prove it unfortunately like a lot of the

817

00:37:44,220 --> 00:37:41,370

material ID I tracked down it unraveled

818

00:37:46,620 --> 00:37:44,230

it turned out that he wasn't a top

819

00:37:48,000 --> 00:37:46,630

scientist he was an environmental health

820

00:37:51,480 --> 00:37:48,010

and safety specialist

821

00:37:55,800 --> 00:37:51,490

he'd done the work in private in his own

822

00:37:58,230 --> 00:37:55,810

time at a university and other

823

00:38:02,160 --> 00:37:58,240

scientists who looked at the results

824

00:38:05,040 --> 00:38:02,170

that he published on the internet said

825

00:38:07,680 --> 00:38:05,050

that they doubted his work that there

826

00:38:10,380 --> 00:38:07,690

were probably quote huge mistakes in the

827

00:38:11,910 --> 00:38:10,390

original testing unquote they pointed

828

00:38:14,340 --> 00:38:11,920

out that one of the material one of the

829

00:38:18,420 --> 00:38:14,350

elements he was talking about that he

830

00:38:21,360 --> 00:38:18,430

had analyzed was supposedly from a 1947

831

00:38:24,180 --> 00:38:21,370

crash however that isotope was

832

00:38:25,410 --> 00:38:24,190

radioactive and had a short half-life of

833

00:38:27,120 --> 00:38:25,420

less than a day

834

00:38:30,840 --> 00:38:27,130

so there's no way that it could have

835

00:38:33,930 --> 00:38:30,850

come from 1947 and what happened is that

836

00:38:39,180 --> 00:38:33,940

dr. June and Clark just disappeared from

837

00:38:43,890 --> 00:38:39,190

the scene his results were held I guess

838

00:38:46,080 --> 00:38:43,900

in up as a possible potential mistake

839

00:38:48,870 --> 00:38:46,090

and in the ten years since his

840

00:38:51,750 --> 00:38:48,880

conference nothing else as they become

841

00:38:53,850 --> 00:38:51,760

from any of those results so that's the

842

00:38:56,550 --> 00:38:53,860

kind of material I was pulling together

843

00:38:59,300 --> 00:38:56,560

I found three samples that had come from

844

00:39:02,220 --> 00:38:59,310

the Rendlesham forest 1980

845

00:39:04,740 --> 00:39:02,230

incident and yet sure they've been

846

00:39:06,780 --> 00:39:04,750

analyzed as well results aren't fairly

847

00:39:10,290 --> 00:39:06,790

well known they just buried in the

848

00:39:13,650 --> 00:39:10,300

literature old magazines on the internet

849

00:39:16,680 --> 00:39:13,660

in very odd websites and so my attempt

850

00:39:19,560 --> 00:39:16,690

which ended up with a fifty two-page

851

00:39:24,420 --> 00:39:19,570

document which is available on the the

852

00:39:26,880 --> 00:39:24,430

net at the project 1947 web site for

853

00:39:30,120 --> 00:39:26,890

anyone to go and read the analysis has

854

00:39:33,030 --> 00:39:30,130

some really interesting instances most

855

00:39:36,500 --> 00:39:33,040

turn out to be mundane but some of them

856

00:39:39,690 --> 00:39:36,510

just are crying out for peer review and

857

00:39:42,630 --> 00:39:39,700

another look at them and as I'm hoping

858

00:39:44,130 --> 00:39:42,640

that by publishing this material that

859

00:39:46,500 --> 00:39:44,140

will get other people interested in

860

00:39:47,750 --> 00:39:46,510

doing a reanalysis of all this work

861

00:39:51,090 --> 00:39:47,760

because

862

00:39:52,530 --> 00:39:51,100

period amongst all of the the trash

863

00:39:54,750 --> 00:39:52,540

awesome treasures

864

00:39:57,810 --> 00:39:54,760

yeah I think that the work that Peter

865

00:40:00,989 --> 00:39:57,820

Stewart did on the Yuba tuber material

866

00:40:03,359 --> 00:40:00,999

is especially interesting he's written

867

00:40:06,680 --> 00:40:03,369

there's a link at my website over to

868

00:40:10,019 --> 00:40:06,690

that paper basically the the list of

869

00:40:12,870 --> 00:40:10,029

labs that studied this material a

870

00:40:15,900 --> 00:40:12,880

high-end labs a government private

871

00:40:18,870 --> 00:40:15,910

sector institutional like colleges or

872

00:40:20,509 --> 00:40:18,880

whatnot more than two dozen in one way

873

00:40:23,009 --> 00:40:20,519

or another had looked at this material

874

00:40:25,019 --> 00:40:23,019

ster ekat the end of his paper concluded

875

00:40:27,599 --> 00:40:25,029

they couldn't figure out where was

876

00:40:29,969 --> 00:40:27,609

manufactured a very interesting case

877

00:40:33,959 --> 00:40:29,979

that Yuba tuba case apparently yeah

878

00:40:37,920 --> 00:40:33,969

based on valets presentation that

879

00:40:40,469 --> 00:40:37,930

contacted the desert in late 2017 they

880

00:40:43,170 --> 00:40:40,479

the he had Nolan that do have samples

881

00:40:45,329 --> 00:40:43,180

from that I was wondering if TTS a have

882

00:40:46,920 --> 00:40:45,339

any of those samples yeah I've never

883

00:40:51,569 --> 00:40:46,930

seen a photograph of this stuff so I

884

00:40:53,450 --> 00:40:51,579

really have no idea manok if T TSA has

885

00:40:56,190 --> 00:40:53,460

it it seems like Nolan and gray and

886

00:40:59,099 --> 00:40:56,200

ballet absolutely do they've got some

887

00:41:01,019 --> 00:40:59,109

samples from from students the loo

888

00:41:02,579 --> 00:41:01,029

Elizondo when he gave his talk in Rome

889

00:41:04,589 --> 00:41:02,589

put up the slide where he showed

890

00:41:08,069 --> 00:41:04,599

photographs some of the samples that

891

00:41:10,289 --> 00:41:08,079

they were analyzing T TSA and none of

892

00:41:13,370 --> 00:41:10,299

them seem to be the Hubert uber sample

893

00:41:14,700 --> 00:41:13,380

interestingly I did find in an old

894

00:41:16,920 --> 00:41:14,710

magazine

895

00:41:19,380 --> 00:41:16,930

that's one of my correspondents sent me

896

00:41:22,319 --> 00:41:19,390

some photographs of the youbut with the

897

00:41:25,109 --> 00:41:22,329

sample which I'd never seen before old

898

00:41:26,609 --> 00:41:25,119

black-and-white photographs well it's

899

00:41:28,650 --> 00:41:26,619

probably more interesting is that when

900

00:41:31,140 --> 00:41:28,660

Jack valet was I think down in South

901
00:41:34,620 --> 00:41:31,150
America a couple of years ago he went to

902
00:41:36,959 --> 00:41:34,630
a museum and there he found a couple of

903
00:41:41,759 --> 00:41:36,969
samples from yooba dooba that he wasn't

904
00:41:43,559 --> 00:41:41,769
aware existed and he kindly was given a

905
00:41:46,410 --> 00:41:43,569
portion of those samples to take back to

906
00:41:49,339 --> 00:41:46,420
the US and he has in fact analyzed them

907
00:41:52,289 --> 00:41:49,349
and had the contact and the desert

908
00:41:55,829 --> 00:41:52,299
presentations the lady did shows some of

909
00:41:58,469 --> 00:41:55,839
the results from those samples that he'd

910
00:42:00,719 --> 00:41:58,479
brought back recently and he said that

911
00:42:03,690 --> 00:42:00,729
those samples definitely had some

912
00:42:05,579 --> 00:42:03,700
unusual isotopic ratios which is what

913
00:42:09,749 --> 00:42:05,589

we're trying to find some material that

914

00:42:12,029 --> 00:42:09,759

hasn't been made on on the earth but

915

00:42:13,799 --> 00:42:12,039

that he thought thought that the fact

916

00:42:15,539 --> 00:42:13,809

was that he needed to do some

917

00:42:19,069 --> 00:42:15,549

checking and that he wasn't ready to

918

00:42:22,709 --> 00:42:19,079

publish much about the u-boot uber

919

00:42:25,049 --> 00:42:22,719

recently acquired samples so that that's

920

00:42:27,989 --> 00:42:25,059

a very interesting promising line of

921

00:42:30,709 --> 00:42:27,999

research yeah as best as I recall from

922

00:42:35,069 --> 00:42:30,719

the stork paper what bag

923

00:42:36,749 --> 00:42:35,079

there was not any unusual isotopic

924

00:42:39,839 --> 00:42:36,759

ratios and the samples that he had

925

00:42:41,849 --> 00:42:39,849

checked at least as far as yes what's

926

00:42:43,920 --> 00:42:41,859

interesting now is if if we have the

927

00:42:47,099 --> 00:42:43,930

chain of evidence showing that the

928

00:42:49,679 --> 00:42:47,109

sample which was in this museum did come

929

00:42:52,079 --> 00:42:49,689

from you batula and the bill a seems to

930

00:42:53,999 --> 00:42:52,089

think that it did because of what he

931

00:42:56,309 --> 00:42:54,009

found out and what he was told but when

932

00:42:58,709 --> 00:42:56,319

he spoke to the people who run the

933

00:43:01,769 --> 00:42:58,719

museum he was quite keen to get the

934

00:43:05,789 --> 00:43:01,779

sample tested so then if that chain of

935

00:43:09,150 --> 00:43:05,799

evidence chain of circumstances doesn't

936

00:43:11,819 --> 00:43:09,160

lead back to to yubi tuber in 57 and

937

00:43:13,469 --> 00:43:11,829

then we do have some unusual hospital

938

00:43:18,029 --> 00:43:13,479

grosses associated with that particular

939

00:43:21,239 --> 00:43:18,039

sample what's probably the best thing

940

00:43:22,919 --> 00:43:21,249

that I came across was I asked Chuck

941

00:43:25,229 --> 00:43:22,929

belaying an email recently I said well

942

00:43:26,729 --> 00:43:25,239

what have you done recently that you can

943

00:43:29,039 --> 00:43:26,739

talk about what are you doing I was

944

00:43:32,370 --> 00:43:29,049

hoping to bring out some work that he

945

00:43:34,079 --> 00:43:32,380

and Gary Nolan were we're doing and he

946

00:43:37,499 --> 00:43:34,089

said well no we're not ready to to

947

00:43:39,749 --> 00:43:37,509

publish it but I then found a quote on a

948

00:43:41,759 --> 00:43:39,759

YouTube video well what was the time

949

00:43:44,069 --> 00:43:41,769

frame for that correspondence if you

950

00:43:48,329 --> 00:43:44,079

don't mind my jumping in here about

951
00:43:50,939 --> 00:43:48,339
three months ago okay okay yeah well I

952
00:43:53,069 --> 00:43:50,949
very kindly posted a copy of my

953
00:43:54,870 --> 00:43:53,079
catalogue and he very kindly write back

954
00:43:56,729 --> 00:43:54,880
and said do you know it's great that

955
00:43:59,699 --> 00:43:56,739
somebody's assembled such a catalogue

956
00:44:03,089 --> 00:43:59,709
this would be very useful to us which I

957
00:44:04,799 --> 00:44:03,099
took as a nice compliment and then I

958
00:44:06,660 --> 00:44:04,809
went back to him treacly and said well

959
00:44:08,309 --> 00:44:06,670
what can you tell me about more recent

960
00:44:10,439 --> 00:44:08,319
things and he said well we can't was

961
00:44:16,380 --> 00:44:10,449
still working on it and then somebody

962
00:44:18,779 --> 00:44:16,390
pointed me to a 2017 September YouTube

963
00:44:22,289 --> 00:44:18,789

interview of the like which appeared on

964

00:44:25,739 --> 00:44:22,299

a podcast called grim occur or grim

965

00:44:27,240 --> 00:44:25,749

Erika so this was a YouTube video I

966

00:44:30,390 --> 00:44:27,250

could watch my sauce

967

00:44:32,070 --> 00:44:30,400

Golay in his own words quote for example

968

00:44:35,250 --> 00:44:32,080

there is an element that has five

969

00:44:38,070 --> 00:44:35,260

isotopes in different abundance in the

970

00:44:39,900 --> 00:44:38,080

sample we have two of the isotopes are

971

00:44:46,200 --> 00:44:39,910

not present and the other three are

972

00:44:49,020 --> 00:44:46,210

present at 33% 33% 33% that can only

973

00:44:51,810 --> 00:44:49,030

happen if somebody has separated the

974

00:44:54,990 --> 00:44:51,820

isotopes and reintroduced them into an

975

00:44:57,000 --> 00:44:55,000

ally for some reason we can't fathom but

976

00:44:59,640 --> 00:44:57,010

I'm not ready to publish it we need to

977

00:45:02,670 --> 00:44:59,650

read you'd redo the analysis so this is

978

00:45:06,710 --> 00:45:02,680

a relay in September 2017 talking about

979

00:45:10,500 --> 00:45:06,720

yet another sample with extremely odd

980

00:45:14,310 --> 00:45:10,510

isotopic ratios in fact if I remember I

981

00:45:16,860 --> 00:45:14,320

think that was the sierra sample he

982

00:45:19,350 --> 00:45:16,870

doesn't actually in the bit that I saw

983

00:45:21,150 --> 00:45:19,360

on YouTube that I took my quote from he

984

00:45:24,330 --> 00:45:21,160

doesn't actually say that it was the

985

00:45:26,610 --> 00:45:24,340

Sierra one I did find his Sierra

986

00:45:28,590 --> 00:45:26,620

analysis from contact in the desert and

987

00:45:30,510 --> 00:45:28,600

it's certainly the work that he

988

00:45:33,030 --> 00:45:30,520

published and showed as a slide at that

989

00:45:35,250 --> 00:45:33,040

conference that contact in the the

990

00:45:39,300 --> 00:45:35,260

desert didn't have anything like these

991

00:45:42,230 --> 00:45:39,310

really bizarre odd isotopic ratios so

992

00:45:46,170 --> 00:45:42,240

I'm not certain that it is Sierra okay

993

00:45:48,300 --> 00:45:46,180

and there was a I was just going to

994

00:45:49,920 --> 00:45:48,310

finish off last time but it is nice to

995

00:45:53,940 --> 00:45:49,930

know that people of the quality of

996

00:45:57,570 --> 00:45:53,950

Jacque fillet and Gary Nolan are working

997

00:46:00,150 --> 00:45:57,580

on this at the present moment yeah now

998

00:46:02,310 --> 00:46:00,160

there was an additional sample that was

999

00:46:05,490 --> 00:46:02,320

mentioned in the Valais presentation

1000

00:46:07,140 --> 00:46:05,500

with the needs and obviously we know

1001
00:46:09,330 --> 00:46:07,150
that's Bigelow's organization the

1002
00:46:11,910 --> 00:46:09,340
National Institute of Discovery Science

1003
00:46:16,200 --> 00:46:11,920
er at least I'm close there on that and

1004
00:46:18,660 --> 00:46:16,210
they didn't have a sample available do

1005
00:46:21,240 --> 00:46:18,670
we know how far have you gotten in terms

1006
00:46:23,160 --> 00:46:21,250
of identifying the specific piece with

1007
00:46:26,520 --> 00:46:23,170
the picture on elizondo's slide

1008
00:46:28,200 --> 00:46:26,530
presentation one jumps out one sort of

1009
00:46:31,140 --> 00:46:28,210
front and center you've got it or

1010
00:46:33,840 --> 00:46:31,150
they've got is the arts parts piece the

1011
00:46:35,670 --> 00:46:33,850
piece with the bismuth that how put off

1012
00:46:37,980 --> 00:46:35,680
is talked about quite a bit there's

1013
00:46:40,990 --> 00:46:37,990

another piece that looks like a

1014

00:46:43,750 --> 00:46:41,000

Rendlesham sample it's labeled as such

1015

00:46:47,200 --> 00:46:43,760

and there's another piece that goes back

1016

00:46:51,700 --> 00:46:47,210

a ways a bobwhite sample and and

1017

00:46:57,330 --> 00:46:51,710

have you been able to attach us known

1018

00:47:03,790 --> 00:47:01,900

colleagues overseas and posted a very

1019

00:47:06,400 --> 00:47:03,800

high definition photograph of Luo

1020

00:47:10,150 --> 00:47:06,410

elizondo's slide which is really clear

1021

00:47:12,640 --> 00:47:10,160

and if we were I expected somebody

1022

00:47:16,330 --> 00:47:12,650

somewhere to be able to say that was the

1023

00:47:19,720 --> 00:47:16,340

Russian sample from 2010 but no one has

1024

00:47:21,580 --> 00:47:19,730

so I've scratched the brains of quite a

1025

00:47:26,410 --> 00:47:21,590

lot of people and come up with about

1026

00:47:28,599 --> 00:47:26,420

five of those images which are TTS a

1027

00:47:30,339 --> 00:47:28,609

samples that they've got that are

1028

00:47:33,910 --> 00:47:30,349

completely unknown to the UFO community

1029

00:47:35,530 --> 00:47:33,920

so I can only surmise that individuals

1030

00:47:39,520 --> 00:47:35,540

who've been keeping these samples for a

1031

00:47:42,520 --> 00:47:39,530

while heard the call from TTS a4 samples

1032

00:47:46,540 --> 00:47:42,530

and simply said well I've got something

1033

00:47:48,910 --> 00:47:46,550

for you to look at well I had said that

1034

00:47:52,240 --> 00:47:48,920

most of those samples are mundane but

1035

00:47:54,220 --> 00:47:52,250

they are some interesting ones there but

1036

00:47:56,410 --> 00:47:54,230

he wasn't wasn't willing to point out

1037

00:47:59,050 --> 00:47:56,420

which of the images to correspond to the

1038

00:48:00,670 --> 00:47:59,060

interesting material okay now are the

1039

00:48:03,280 --> 00:48:00,680

ones that we do know about now the arts

1040

00:48:05,740 --> 00:48:03,290

parts is the one that sort of a bottom

1041

00:48:07,690 --> 00:48:05,750

centre shaped a bit like an icicle I

1042

00:48:10,030 --> 00:48:07,700

believe the one that's sort of on the

1043

00:48:13,660 --> 00:48:10,040

top in the center but to the left of the

1044

00:48:17,620 --> 00:48:13,670

round object that is a Rendlesham sample

1045

00:48:18,880 --> 00:48:17,630

I believe let's see I think that the the

1046

00:48:21,010 --> 00:48:18,890

one that sort of looks like a baseball

1047

00:48:24,460 --> 00:48:21,020

bat to the far right in the centre I

1048

00:48:26,650 --> 00:48:24,470

think that's the bobwhite piece not sure

1049

00:48:29,339 --> 00:48:26,660

about all that so can you tell the folks

1050

00:48:33,220 --> 00:48:29,349

at least what we're a little bit sure of

1051

00:48:35,170 --> 00:48:33,230

well what the catalogue is revealed is

1052

00:48:38,829 --> 00:48:35,180

that some of these pieces that are

1053

00:48:41,790 --> 00:48:38,839

imaged on the TTS a slide have actually

1054

00:48:47,470 --> 00:48:41,800

in fact undergone quite a few previous

1055

00:48:51,570 --> 00:48:47,480

analyses so with the the bobwhite piece

1056

00:48:54,579 --> 00:48:51,580

of material from about 1985 87 in the US

1057

00:48:56,829 --> 00:48:54,589

that has a lot of people who've an ally

1058

00:48:59,099 --> 00:48:56,839

who said that it's unknown there are

1059

00:49:01,089 --> 00:48:59,109

pieces on YouTube saying it's unknown

1060

00:49:02,259 --> 00:49:01,099

documentaries that have appeared on the

1061

00:49:04,359 --> 00:49:02,269

History Channel or the geographic

1062

00:49:08,079 --> 00:49:04,369

National Geographic Channel have said

1063

00:49:09,759 --> 00:49:08,089

it's odd and unknown only one group of

1064

00:49:14,019 --> 00:49:09,769

people have come forward and said we

1065

00:49:16,930 --> 00:49:14,029

know that what that was and a skeptics

1066

00:49:19,529 --> 00:49:16,940

group in the u.s. said that all it was

1067

00:49:23,410 --> 00:49:19,539

was a piece of accumulated material

1068

00:49:26,229 --> 00:49:23,420

which is part of an industrial process

1069

00:49:28,269 --> 00:49:26,239

they explained the industrial process in

1070

00:49:29,979 --> 00:49:28,279

a journal article they showed

1071

00:49:31,329 --> 00:49:29,989

photographs of similar castings which

1072

00:49:36,459 --> 00:49:31,339

they had found which had come out of

1073

00:49:39,099 --> 00:49:36,469

these particular processes and to me as

1074

00:49:42,009 --> 00:49:39,109

a layperson they look almost identical

1075

00:49:44,170 --> 00:49:42,019

to that particular piece of material so

1076

00:49:46,809 --> 00:49:44,180

I think some of these things have a long

1077

00:49:50,019 --> 00:49:46,819

history of having claims to be anomalous

1078

00:49:53,279 --> 00:49:50,029

but may not be and sustained with arts

1079

00:49:59,709 --> 00:49:53,289

parts and back in I think it was about

1080

00:50:02,469 --> 00:49:59,719

1997 the bismuth sample which was handed

1081

00:50:04,630 --> 00:50:02,479

over to Hal put off in the early 2000s

1082

00:50:08,200 --> 00:50:04,640

was given by Linda Moulton Howe to

1083

00:50:11,289 --> 00:50:08,210

several universities to analyze and one

1084

00:50:13,150 --> 00:50:11,299

of the analyses said I think this piece

1085

00:50:15,519 --> 00:50:13,160

of material was manufactured on earth I

1086

00:50:18,160 --> 00:50:15,529

think it was manufactured in America I

1087

00:50:20,950 --> 00:50:18,170

think it was part of this stealth US Air

1088

00:50:24,069 --> 00:50:20,960

Force program I'm pretty certain from my

1089

00:50:28,120 --> 00:50:24,079

analysis that its earthly technology

1090

00:50:31,599 --> 00:50:28,130

very unusual but earthly and that

1091

00:50:33,609 --> 00:50:31,609

particular analysis rarely is quoted by

1092

00:50:35,979 --> 00:50:33,619

anybody your secret most of the quotes

1093

00:50:38,049 --> 00:50:35,989

on the internet off on the analysis

1094

00:50:40,599 --> 00:50:38,059

which raised the possibility of the

1095

00:50:42,729 --> 00:50:40,609

material being extraterrestrial so what

1096

00:50:44,170 --> 00:50:42,739

I've been attempting to do is look at

1097

00:50:47,170 --> 00:50:44,180

the pros and cons for some of these

1098

00:50:50,049 --> 00:50:47,180

analyses so that we can have a debate

1099

00:50:53,140 --> 00:50:50,059

and hopefully people will reanalyze like

1100

00:50:55,630 --> 00:50:53,150

know the TTS a is reanalyzing parts

1101
00:50:58,839 --> 00:50:55,640
parts materials so I'm looking forward

1102
00:50:59,920 --> 00:50:58,849
to to their results I'm hoping that

1103
00:51:02,609 --> 00:50:59,930
we're going to get a peer-reviewed

1104
00:51:05,529 --> 00:51:02,619
science paper out of it but my

1105
00:51:08,470 --> 00:51:05,539
pessimistic side says the results are

1106
00:51:11,200 --> 00:51:08,480
going to be announced to us on a his

1107
00:51:13,750 --> 00:51:11,210
the channel documentary in May we won't

1108
00:51:15,730 --> 00:51:13,760
get we won't get the hard science paper

1109
00:51:18,310 --> 00:51:15,740
that I would love to see with these

1110
00:51:21,160 --> 00:51:18,320
analyses but we'll wait and see that's

1111
00:51:24,090 --> 00:51:21,170
not coming up for a few weeks in one

1112
00:51:27,490 --> 00:51:24,100
piece that that you did cover in your

1113
00:51:30,099 --> 00:51:27,500

gigantic basically encyclopedia your PDF

1114

00:51:31,480 --> 00:51:30,109

encyclopedia of all these pieces that

1115

00:51:34,510 --> 00:51:31,490

have been mentioned over the years is

1116

00:51:36,400 --> 00:51:34,520

one that relates to the DC 52 case I

1117

00:51:39,190 --> 00:51:36,410

think this is really fascinating because

1118

00:51:42,520 --> 00:51:39,200

I'm a big buff on this case in general

1119

00:51:46,060 --> 00:51:42,530

but was not aware of this particular

1120

00:51:49,660 --> 00:51:46,070

claim coming from Robert Smith that they

1121

00:51:54,630 --> 00:51:49,670

found a sample door as a result of the

1122

00:51:57,849 --> 00:51:54,640

DC 52 case that had let me see here

1123

00:52:00,730 --> 00:51:57,859

matrix of great numbers thousands of 15

1124

00:52:02,710 --> 00:52:00,740

micron spheres scattered throughout it a

1125

00:52:05,650 --> 00:52:02,720

piece of metal about twice the size of

1126
00:52:07,270 --> 00:52:05,660
the your thumb and this apparently came

1127
00:52:11,440 --> 00:52:07,280
out that Nick Redfern has written about

1128
00:52:13,090 --> 00:52:11,450
it and we we've only got the source that

1129
00:52:14,740 --> 00:52:13,100
one Burt Smith who happens to be the

1130
00:52:18,010 --> 00:52:14,750
same fellow that grant Cameron often

1131
00:52:20,849 --> 00:52:18,020
cites as being the guy who has said that

1132
00:52:23,710 --> 00:52:20,859
out of Canada that keeping the

1133
00:52:26,710 --> 00:52:23,720
extraterrestrial secret under wraps is

1134
00:52:31,810 --> 00:52:26,720
the most highly classified thing going

1135
00:52:33,670 --> 00:52:31,820
in the United States so I'm assuming

1136
00:52:36,220 --> 00:52:33,680
we'll never see a sample of that that'll

1137
00:52:38,430 --> 00:52:36,230
never get into any kind of public hands

1138
00:52:40,480 --> 00:52:38,440

but have you found out anything

1139

00:52:41,550 --> 00:52:40,490

interesting about that beyond what I've

1140

00:52:44,590 --> 00:52:41,560

already mentioned

1141

00:52:47,170 --> 00:52:44,600

yeah well I've actually found out some

1142

00:52:50,500 --> 00:52:47,180

information which tends to relegate that

1143

00:52:53,470 --> 00:52:50,510

to more of a mythology than anything

1144

00:52:56,680 --> 00:52:53,480

else okay and what I found is that I've

1145

00:52:59,050 --> 00:52:56,690

been corresponding with a person in the

1146

00:53:00,820 --> 00:52:59,060

u.s. who doesn't want me to mention his

1147

00:53:03,760 --> 00:53:00,830

name but he's one of the top ufologists

1148

00:53:06,609 --> 00:53:03,770

probably our best analyst in the field

1149

00:53:08,530 --> 00:53:06,619

goes back years and years and years and

1150

00:53:10,090 --> 00:53:08,540

he actually studied this case which I

1151
00:53:12,580 --> 00:53:10,100
was unaware of until I mentioned it to

1152
00:53:14,500 --> 00:53:12,590
him and he saw my catalog and what he

1153
00:53:17,109 --> 00:53:14,510
says is that the details up Frank

1154
00:53:20,620 --> 00:53:17,119
Edwards wrote up and the details that

1155
00:53:21,120 --> 00:53:20,630
were cited by Wilbur Smith are in fact a

1156
00:53:25,200 --> 00:53:21,130
very

1157
00:53:27,900 --> 00:53:25,210
distorted version of the fall of a stone

1158
00:53:30,299 --> 00:53:27,910
from the sky near a place called Hendon

1159
00:53:33,779 --> 00:53:30,309
Virginia fan by a family called the

1160
00:53:36,779 --> 00:53:33,789
Lanham family the object wasn't metal

1161
00:53:39,390 --> 00:53:36,789
more resemble concrete and we're sampled

1162
00:53:42,450 --> 00:53:39,400
over to the US Air Force but he said

1163
00:53:44,700 --> 00:53:42,460

I've interviewed the person who looked

1164

00:53:47,789 --> 00:53:44,710

at all of that and he tells me that

1165

00:53:50,390 --> 00:53:47,799

Smith's comments about quote and matrix

1166

00:53:52,950 --> 00:53:50,400

and magnesium all those silicate

1167

00:53:55,529 --> 00:53:52,960

composed of particles of fifteen microns

1168

00:54:00,380 --> 00:53:55,539

under coat actually fits the description

1169

00:54:04,829 --> 00:54:00,390

of a rare magnesium in static kronkite

1170

00:54:08,220 --> 00:54:04,839

meteorite and so there's some doubt now

1171

00:54:10,259 --> 00:54:08,230

in my mind as to the value of or the

1172

00:54:13,710 --> 00:54:10,269

genuineness of the original story that

1173

00:54:15,509 --> 00:54:13,720

we've got from those two sources I'm

1174

00:54:17,990 --> 00:54:15,519

trying to get my correspondent to go

1175

00:54:20,190 --> 00:54:18,000

public with the information that he has

1176
00:54:22,859 --> 00:54:20,200
but I've known him for years and years

1177
00:54:24,839 --> 00:54:22,869
and years and I'm really value his work

1178
00:54:27,529 --> 00:54:24,849
and that seems to me the possible

1179
00:54:31,529 --> 00:54:27,539
ability of it actually being a meteorite

1180
00:54:33,329 --> 00:54:31,539
now who knows I can only quote what I'm

1181
00:54:36,029 --> 00:54:33,339
being told at the present moment yeah

1182
00:54:39,359 --> 00:54:36,039
I'm a little skeptical myself the story

1183
00:54:42,029 --> 00:54:39,369
but it does relate to the DC 52 case and

1184
00:54:44,549 --> 00:54:42,039
obviously I'm very curious so uh he's

1185
00:54:47,640 --> 00:54:44,559
updated on how that all that pans out

1186
00:54:51,539 --> 00:54:47,650
and so we've gotten through all that and

1187
00:54:54,210 --> 00:54:51,549
let's let's go obviously you spend so

1188
00:54:56,069 --> 00:54:54,220

much time researching UFOs here in the

1189

00:54:57,839 --> 00:54:56,079

states it's like you would think that

1190

00:55:00,569 --> 00:54:57,849

nothing ever happens in Australia but

1191

00:55:02,279 --> 00:55:00,579

that's not the case well we have a

1192

00:55:04,620 --> 00:55:02,289

couple of famous cases that I guess

1193

00:55:08,190 --> 00:55:04,630

probably just about everyone's heard of

1194

00:55:11,279 --> 00:55:08,200

the disappearing pilot Frederic polenta

1195

00:55:14,670 --> 00:55:11,289

CH who was flying a plane over southern

1196

00:55:18,150 --> 00:55:14,680

the southern ocean out of Melbourne in

1197

00:55:22,109 --> 00:55:18,160

the state of Victoria who in 1978 one

1198

00:55:23,849 --> 00:55:22,119

night flying alone radioed air-traffic

1199

00:55:27,089 --> 00:55:23,859

controller that he was being buzzed by a

1200

00:55:29,759 --> 00:55:27,099

green UFO and that pilot and plane

1201
00:55:32,400 --> 00:55:29,769
disappeared never to be seen again so

1202
00:55:35,730 --> 00:55:32,410
that's one of our most I guess famous

1203
00:55:38,070 --> 00:55:35,740
cases that have went globally

1204
00:55:41,100 --> 00:55:38,080
was investigated by a whole range of

1205
00:55:43,530 --> 00:55:41,110
people at a time Richard Haines famous

1206
00:55:47,340 --> 00:55:43,540
US ufologist wrote a book about it

1207
00:55:50,100 --> 00:55:47,350
called the Melbourne episode lots of

1208
00:55:52,130 --> 00:55:50,110
debate about what exactly happened story

1209
00:55:55,340 --> 00:55:52,140
disappeared after a while because no one

1210
00:55:58,140 --> 00:55:55,350
no one knew what what had happened until

1211
00:56:01,380 --> 00:55:58,150
I went searching in our Australian

1212
00:56:04,800 --> 00:56:01,390
government archives about 10 years ago

1213
00:56:06,330 --> 00:56:04,810

and like I do a lot of times I'm just

1214

00:56:08,280 --> 00:56:06,340

playing around with keywords

1215

00:56:11,400 --> 00:56:08,290

I just thought just on a whim I'll type

1216

00:56:14,850 --> 00:56:11,410

in Fredrik Valenta CH alone behold I

1217

00:56:19,440 --> 00:56:14,860

found that the Australian government had

1218

00:56:21,830 --> 00:56:19,450

just made available 1,000 pages of its

1219

00:56:25,080 --> 00:56:21,840

own research into that particular

1220

00:56:27,270 --> 00:56:25,090

mysterious disappearance now that was

1221

00:56:30,120 --> 00:56:27,280

something no one had ever seen before so

1222

00:56:32,520 --> 00:56:30,130

I ordered a copy of it kept it to myself

1223

00:56:36,300 --> 00:56:32,530

sat down and read the entire file and

1224

00:56:39,480 --> 00:56:36,310

here was our government aircraft crash

1225

00:56:41,370 --> 00:56:39,490

investigators doing a detailed

1226
00:56:44,670 --> 00:56:41,380
investigation of what had happened a

1227
00:56:49,500 --> 00:56:44,680
wealth of material in those thousand

1228
00:56:53,460 --> 00:56:49,510
pages I wrote quite a lot of items about

1229
00:56:55,650 --> 00:56:53,470
it it ended up overseas a lot of people

1230
00:56:58,620 --> 00:56:55,660
read the actual files themselves because

1231
00:57:01,770 --> 00:56:58,630
I got them digitized by the Australian

1232
00:57:04,860 --> 00:57:01,780
government and that's one of our classic

1233
00:57:05,430 --> 00:57:04,870
cases I guess which remains a mystery to

1234
00:57:07,680 --> 00:57:05,440
this day

1235
00:57:12,210 --> 00:57:07,690
and now that's that's how you've got it

1236
00:57:14,160 --> 00:57:12,220
you've got it as a mystery yes yes you

1237
00:57:15,180 --> 00:57:14,170
read the thousand pages and you scratch

1238
00:57:17,580 --> 00:57:15,190

your head at the end of it you think

1239

00:57:19,620 --> 00:57:17,590

well the government Accident

1240

00:57:23,130 --> 00:57:19,630

Investigation people who are extremely

1241

00:57:25,920 --> 00:57:23,140

thorough who will find the fact that a

1242

00:57:28,290 --> 00:57:25,930

small bird flew into the intake of a jet

1243

00:57:30,870 --> 00:57:28,300

and caused a crash have a look at this

1244

00:57:33,240 --> 00:57:30,880

particular set of data they don't have

1245

00:57:35,520 --> 00:57:33,250

an aircraft they don't have a body they

1246

00:57:39,090 --> 00:57:35,530

merely can interview everyone associated

1247

00:57:42,270 --> 00:57:39,100

with it the air traffic controller the

1248

00:57:44,970 --> 00:57:42,280

plane wasn't on radar at the time the

1249

00:57:47,710 --> 00:57:44,980

weather was calm he just disappeared in

1250

00:57:50,050 --> 00:57:47,720

the middle of nowhere shouldn't

1251

00:57:52,109 --> 00:57:50,060

possible was and so they did all they

1252

00:57:56,080 --> 00:57:52,119

could short of having an aircraft

1253

00:57:58,540 --> 00:57:56,090

crashed aircraft parts and a pilot or a

1254

00:57:59,890 --> 00:57:58,550

body but they were baffled in the end

1255

00:58:03,970 --> 00:57:59,900

the conclusion from the government

1256

00:58:07,240 --> 00:58:03,980

investigation was we don't know and I

1257

00:58:10,900 --> 00:58:07,250

have a question from a listener Keith I

1258

00:58:12,490 --> 00:58:10,910

don't know if you can hear me but one of

1259

00:58:16,770 --> 00:58:12,500

our listeners who wishes to remain

1260

00:58:19,300 --> 00:58:16,780

anonymous he's a loyal listener and he

1261

00:58:22,060 --> 00:58:19,310

really appreciates and respects your

1262

00:58:25,750 --> 00:58:22,070

work he said he wants to know did you

1263

00:58:27,280 --> 00:58:25,760

investigate the West all UFO case like

1264

00:58:30,640 --> 00:58:27,290

the Ariel school this was also

1265

00:58:33,460 --> 00:58:30,650

schoolchildren sighting also a

1266

00:58:35,589 --> 00:58:33,470

schoolchildren sighting from 1966 again

1267

00:58:38,710 --> 00:58:35,599

it was the West all UFO case did you

1268

00:58:40,750 --> 00:58:38,720

investigate that a number of us here in

1269

00:58:43,540 --> 00:58:40,760

Australia are investigating just for

1270

00:58:47,440 --> 00:58:43,550

listeners is a bit of perspective back

1271

00:58:49,570 --> 00:58:47,450

in April 1966 and a school in out of

1272

00:58:52,120 --> 00:58:49,580

Melbourne so was an outer suburb of one

1273

00:58:54,730 --> 00:58:52,130

of our capital cities a group of

1274

00:58:57,849 --> 00:58:54,740

schoolchildren were out on the school

1275

00:59:00,070 --> 00:58:57,859

oval and they saw a mysterious oval

1276

00:59:03,480 --> 00:59:00,080

object approached them pass over the

1277

00:59:09,910 --> 00:59:03,490

school and appear to land in an adjacent

1278

00:59:14,130 --> 00:59:09,920

set of fields a number of them went to

1279

00:59:17,620 --> 00:59:14,140

the spot a number of them reports seeing

1280

00:59:20,260 --> 00:59:17,630

one object then take off a school

1281

00:59:25,750 --> 00:59:20,270

teacher at the school verifies that he

1282

00:59:28,240 --> 00:59:25,760

saw an object in the sky and the story

1283

00:59:29,290 --> 00:59:28,250

was investigated by the local UFO

1284

00:59:32,320 --> 00:59:29,300

Research Society

1285

00:59:34,720 --> 00:59:32,330

but apparently the headmaster at the

1286

00:59:37,300 --> 00:59:34,730

school called an assembly of the school

1287

00:59:41,140 --> 00:59:37,310

children and advised them not to talk

1288

00:59:45,370 --> 00:59:41,150

about it and so the story from 1966 sat

1289

00:59:49,120 --> 00:59:45,380

very quietly until it reached only in

1290

00:59:52,000 --> 00:59:49,130

about 2006 when a camera researcher

1291

00:59:54,099 --> 00:59:52,010

named Shane Ryan decided to try and

1292

00:59:56,310 --> 00:59:54,109

gather all the pieces of evidence that

1293

00:59:59,410 --> 00:59:56,320

he could about the particular case and

1294

01:00:00,800 --> 00:59:59,420

ultimately Shane brought together about

1295

01:00:02,810 --> 01:00:00,810

200 witnesses from

1296

01:00:05,180 --> 01:00:02,820

the school he trapped on a number of

1297

01:00:08,120 --> 01:00:05,190

teachers interviewed them he found all

1298

01:00:11,350 --> 01:00:08,130

papers as I did from James McDonald

1299

01:00:14,150 --> 01:00:11,360

James McDonald came to Australia the

1300

01:00:16,630 --> 01:00:14,160

famous physicist researcher came to

1301

01:00:18,320 --> 01:00:16,640

Australia in there in the mid sixties

1302

01:00:20,570 --> 01:00:18,330

interviewed the teacher

1303

01:00:22,250 --> 01:00:20,580

collected some of the the evidence about

1304

01:00:25,640 --> 01:00:22,260

the sightings so we're talking about a

1305

01:00:29,360 --> 01:00:25,650

visual sighting where there are claims

1306

01:00:32,240 --> 01:00:29,370

of a physical trace being found and I'll

1307

01:00:34,910 --> 01:00:32,250

say a claim because the local UFO group

1308

01:00:36,560 --> 01:00:34,920

at the time wasn't able to document it

1309

01:00:38,570 --> 01:00:36,570

because they couldn't get access to a

1310

01:00:41,810 --> 01:00:38,580

lot of the schoolchildren and teachers

1311

01:00:44,930 --> 01:00:41,820

so we have a very interesting math

1312

01:00:47,600 --> 01:00:44,940

observation in 1966 which then popped up

1313

01:00:49,670 --> 01:00:47,610

50 years later and the number of us went

1314

01:00:51,470 --> 01:00:49,680

round we interviewed people we tracked

1315

01:00:53,780 --> 01:00:51,480

down old data we track with the data

1316

01:00:57,350 --> 01:00:53,790

from the time we tracked astronomical

1317

01:00:59,860 --> 01:00:57,360

data we we got all the original material

1318

01:01:02,750 --> 01:00:59,870

we could find newspaper clippings

1319

01:01:06,770 --> 01:01:02,760

interviewed that the teacher was reinter

1320

01:01:09,710 --> 01:01:06,780

viewed he was still living and still is

1321

01:01:11,870 --> 01:01:09,720

living about a dozen to 15 that the

1322

01:01:15,800 --> 01:01:11,880

students were reinterviews by a whole

1323

01:01:19,220 --> 01:01:15,810

range of researchers and no one has been

1324

01:01:21,170 --> 01:01:19,230

able to find any information in terms of

1325

01:01:25,370 --> 01:01:21,180

documents in Australian government

1326

01:01:27,980 --> 01:01:25,380

archives about it I've spent a lot of

1327

01:01:29,660 --> 01:01:27,990

time trying to find documentation by the

1328

01:01:33,170 --> 01:01:29,670

government the government is supposed to

1329

01:01:35,750 --> 01:01:33,180

have investigated it there are anecdotal

1330

01:01:37,610 --> 01:01:35,760

accounts from people who say I went to

1331

01:01:39,950 --> 01:01:37,620

investigated on behalf and bla bla there

1332

01:01:41,450 --> 01:01:39,960

are but we haven't found any documents

1333

01:01:44,390 --> 01:01:41,460

so it's one of these cases which is

1334

01:01:47,660 --> 01:01:44,400

tantalizing visual observation possible

1335

01:01:49,850 --> 01:01:47,670

physical trace case resurfaces fifty

1336

01:01:52,400 --> 01:01:49,860

years later we have all the problems of

1337

01:01:55,070 --> 01:01:52,410

people are they remembering correctly

1338

01:01:57,800 --> 01:01:55,080

what happened misremembering we don't

1339

01:01:59,390 --> 01:01:57,810

have any diary entries from the time we

1340

01:02:01,340 --> 01:01:59,400

don't have any original documentation

1341

01:02:03,620 --> 01:02:01,350

from the time where somebody wrote an

1342

01:02:08,570 --> 01:02:03,630

account of what happened apart from one

1343

01:02:10,940 --> 01:02:08,580

local UFO UFO group report form so to me

1344

01:02:14,010 --> 01:02:10,950

having looked at that again it is one of

1345

01:02:18,329 --> 01:02:14,020

our classic mysterious cases

1346

01:02:20,190 --> 01:02:18,339

to try and explain okay Keith I actually

1347

01:02:25,349 --> 01:02:20,200

had a question for you sorry to

1348

01:02:27,089 --> 01:02:25,359

interrupt Frank but Keith I had the

1349

01:02:29,940 --> 01:02:27,099

pleasure and privilege of interviewing

1350

01:02:33,510 --> 01:02:29,950

John Dover you probably know who he is

1351

01:02:34,980 --> 01:02:33,520

he's a retired Navajo Ranger he was a

1352

01:02:37,079 --> 01:02:34,990

part of a group of federal law

1353

01:02:40,920 --> 01:02:37,089

enforcement officers here in the United

1354

01:02:43,710 --> 01:02:40,930

States that police Navajo reservations

1355

01:02:47,970 --> 01:02:43,720

along with his partner Stan Milford and

1356

01:02:50,579 --> 01:02:47,980

John Dover has taken paranormal reports

1357

01:02:54,299 --> 01:02:50,589

and and UFO reports and also done

1358

01:02:56,069 --> 01:02:54,309

investigations on them for 11 years when

1359

01:02:58,349 --> 01:02:56,079

I interviewed him during the Phoenix

1360

01:03:01,170 --> 01:02:58,359

lights movie he said this and then I was

1361

01:03:03,150 --> 01:03:01,180

going to ask you a question whenever he

1362

01:03:05,730 --> 01:03:03,160

conducted investigations which were

1363

01:03:08,690 --> 01:03:05,740

during an 11 year stint into the

1364

01:03:11,519 --> 01:03:08,700

paranormal and UFO incidents on Navajo

1365

01:03:14,460 --> 01:03:11,529

reservations when he and his partner had

1366

01:03:16,500 --> 01:03:14,470

major cases to investigate he said there

1367

01:03:20,220 --> 01:03:16,510

was always a government presence other

1368

01:03:23,490 --> 01:03:20,230

than their own staff on site to

1369

01:03:27,029 --> 01:03:23,500

investigate major cases they had they

1370

01:03:30,240 --> 01:03:27,039

would get over flights of yellow H ch-53

1371

01:03:34,349 --> 01:03:30,250

s no markings on these black helicopters

1372

01:03:36,660 --> 01:03:34,359

that were there were also special ops

1373

01:03:39,599 --> 01:03:36,670

people Navy SEALs Delta Force Green

1374

01:03:42,809 --> 01:03:39,609

Berets Secret Service elite types

1375

01:03:44,400 --> 01:03:42,819

showing up over time regarding their

1376
01:03:47,760 --> 01:03:44,410
major investigations into the paranormal

1377
01:03:50,640 --> 01:03:47,770
and UFOs and what they believed were

1378
01:03:53,370 --> 01:03:50,650
extraterrestrial crafts Dover took

1379
01:03:56,309 --> 01:03:53,380
pictures of these guys my question to

1380
01:03:58,500 --> 01:03:56,319
you Keith is do you hear about this kind

1381
01:04:01,680 --> 01:03:58,510
of situation taking place during your

1382
01:04:04,500 --> 01:04:01,690
research of the topics you cover meaning

1383
01:04:06,720 --> 01:04:04,510
these elite types showing up and black

1384
01:04:10,069 --> 01:04:06,730
helicopters and unmarked helicopters

1385
01:04:14,510 --> 01:04:10,079
hovering over areas of interest

1386
01:04:16,890 --> 01:04:14,520
regarding UFOs or extraterrestrial craft

1387
01:04:19,380 --> 01:04:16,900
based on my own research here in

1388
01:04:21,240 --> 01:04:19,390

Australia in which I've attempted to

1389

01:04:23,970 --> 01:04:21,250

track down some of the individuals who

1390

01:04:25,650 --> 01:04:23,980

haven't done the official government

1391

01:04:27,750 --> 01:04:25,660

investigations I must stress the

1392

01:04:29,190 --> 01:04:27,760

official government investigations

1393

01:04:32,130 --> 01:04:29,200

we don't know what else may have

1394

01:04:35,250 --> 01:04:32,140

occurred I've never found any instances

1395

01:04:38,370 --> 01:04:35,260

where a similar nature to what you're

1396

01:04:40,770 --> 01:04:38,380

describing I made an effort one time

1397

01:04:44,359 --> 01:04:40,780

through the government archives to track

1398

01:04:47,340 --> 01:04:44,369

down the Royal Australian Air Force's

1399

01:04:49,200 --> 01:04:47,350

top scientists who work for our Defense

1400

01:04:51,870 --> 01:04:49,210

Intelligence people who was the

1401

01:04:54,960 --> 01:04:51,880

consultant for the Air Force here who

1402

01:04:57,770 --> 01:04:54,970

investigated UFOs in Australia from the

1403

01:05:01,260 --> 01:04:57,780

early 50s and till about the mid 90s and

1404

01:05:05,250 --> 01:05:01,270

he was in his 80s at the time very lucid

1405

01:05:07,920 --> 01:05:05,260

and he he was able to tell me the

1406

01:05:09,720 --> 01:05:07,930

background right from the 1950s of his

1407

01:05:13,470 --> 01:05:09,730

involvement with the Australian

1408

01:05:14,880 --> 01:05:13,480

government and he was he told me in

1409

01:05:17,250 --> 01:05:14,890

contact with people in the US

1410

01:05:19,230 --> 01:05:17,260

intelligence agencies he compared notes

1411

01:05:21,330 --> 01:05:19,240

to what was going on in the u.s. to what

1412

01:05:24,500 --> 01:05:21,340

was going here he also compared notes

1413

01:05:28,590 --> 01:05:24,510

with intelligence agencies in the UK and

1414

01:05:31,859 --> 01:05:28,600

he was baffled by why these things

1415

01:05:34,980 --> 01:05:31,869

tended to happen overseas particularly

1416

01:05:36,960 --> 01:05:34,990

in the US and not here in Australia he

1417

01:05:42,109 --> 01:05:36,970

told me that he'd never found any

1418

01:05:45,660 --> 01:05:42,119

evidence of a covert program that he was

1419

01:05:48,570 --> 01:05:45,670

able to access and in all my contacts

1420

01:05:50,640 --> 01:05:48,580

with whistleblowers officials who talked

1421

01:05:53,730 --> 01:05:50,650

to me behind the scenes I've not found

1422

01:05:57,780 --> 01:05:53,740

any parallels to it in the u.s. it's a

1423

01:06:00,080 --> 01:05:57,790

bit like accounts of military

1424

01:06:05,040 --> 01:06:00,090

involvement with abductions mylabs

1425

01:06:05,880 --> 01:06:05,050

helmet you name just to kill me or

1426

01:06:08,520 --> 01:06:05,890

something like that

1427

01:06:11,840 --> 01:06:08,530

who started the research into my labs he

1428

01:06:13,740 --> 01:06:11,850

was an Austrian scientist in the 90s

1429

01:06:15,180 --> 01:06:13,750

approached me and said do you have

1430

01:06:17,160 --> 01:06:15,190

anything similar happening here in

1431

01:06:20,220 --> 01:06:17,170

Australia I said no look I have a

1432

01:06:22,349 --> 01:06:20,230

network Australia wide network of health

1433

01:06:24,960 --> 01:06:22,359

professionals and experiences about a

1434

01:06:27,300 --> 01:06:24,970

hundred strong who I am talking to about

1435

01:06:29,250 --> 01:06:27,310

all of these things we just haven't had

1436

01:06:32,730 --> 01:06:29,260

anything like that occurring here in

1437

01:06:35,060 --> 01:06:32,740

Australia so it seems to us that part

1438

01:06:37,500 --> 01:06:35,070

seems to me that part of the phenomena

1439

01:06:39,920 --> 01:06:37,510

is us-centric

1440

01:06:44,420 --> 01:06:39,930

rather than global and

1441

01:06:46,360 --> 01:06:44,430

no explanation for that okay go ahead I

1442

01:06:49,040 --> 01:06:46,370

just have one last question Frank and

1443

01:06:55,160 --> 01:06:49,050

Keith I have a philosophical question

1444

01:07:00,610 --> 01:06:55,170

for you and dr. Anna Freud I think she

1445

01:07:03,380 --> 01:07:00,620

was a daughter of Freud Sigmund Freud

1446

01:07:05,420 --> 01:07:03,390

she said you have to have a great love

1447

01:07:08,120 --> 01:07:05,430

of the truth scientific truth as well as

1448

01:07:10,700 --> 01:07:08,130

personal truth and you have to place

1449

01:07:13,850 --> 01:07:10,710

this appreciation of truth higher than

1450

01:07:17,090 --> 01:07:13,860

any discomfort at meeting unpleasant

1451
01:07:20,420 --> 01:07:17,100
facts whether they belong to the outside

1452
01:07:23,660 --> 01:07:20,430
world whether they belong to the world

1453
01:07:28,040 --> 01:07:23,670
outside or to your inner person do you

1454
01:07:32,180 --> 01:07:28,050
agree with that I do indeed yes I mean

1455
01:07:34,430 --> 01:07:32,190
I'm sat in panics what we call fields in

1456
01:07:39,620 --> 01:07:34,440
Australia paddocks talking to farmers

1457
01:07:42,140 --> 01:07:39,630
who've had mental Communications to move

1458
01:07:44,330 --> 01:07:42,150
out of a building the barn and go and

1459
01:07:46,240 --> 01:07:44,340
watch something in the sky I've spoken

1460
01:07:48,260 --> 01:07:46,250
to a whole range of people who've

1461
01:07:52,460 --> 01:07:48,270
experienced some extraordinary things

1462
01:07:56,030 --> 01:07:52,470
which I never have but whose personal

1463
01:07:58,910 --> 01:07:56,040

veracity and credibility I wouldn't say

1464

01:08:00,800 --> 01:07:58,920

rate is extremely high in my opinion

1465

01:08:02,810 --> 01:08:00,810

I've sat with people and they've told me

1466

01:08:05,090 --> 01:08:02,820

some extraordinary things and just

1467

01:08:08,800 --> 01:08:05,100

because I haven't experienced them gives

1468

01:08:11,240 --> 01:08:08,810

me no reason to doubt that they have and

1469

01:08:14,480 --> 01:08:11,250

I would certainly agree with that

1470

01:08:16,520 --> 01:08:14,490

statement that we need not to dismiss

1471

01:08:20,500 --> 01:08:16,530

any piece of information that we come

1472

01:08:23,630 --> 01:08:20,510

across unless we can verify that it is

1473

01:08:25,220 --> 01:08:23,640

not accurate or inter factual or

1474

01:08:27,380 --> 01:08:25,230

somebody's trying to Hocus us or as a

1475

01:08:30,200 --> 01:08:27,390

piece of disinformation but I'd

1476

01:08:32,320 --> 01:08:30,210

certainly in in my research honor

1477

01:08:35,750 --> 01:08:32,330

looking back at original material

1478

01:08:37,430 --> 01:08:35,760

finding and talking to individuals

1479

01:08:41,150 --> 01:08:37,440

themselves who had the experiences

1480

01:08:45,170 --> 01:08:41,160

rather than relying on second or third

1481

01:08:49,190 --> 01:08:45,180

hand documentation so yes I think we

1482

01:08:51,830 --> 01:08:49,200

have to really value the individuals who

1483

01:08:53,779 --> 01:08:51,840

having these experiences and and learn

1484

01:08:58,160 --> 01:08:53,789

from what they're able to describe to us

1485

01:09:00,740 --> 01:08:58,170

I think a famous statement by John

1486

01:09:05,120 --> 01:09:00,750

Alexander who said he thought that the

1487

01:09:09,289 --> 01:09:05,130

phenomena was possibly unknowable is is

1488

01:09:11,450 --> 01:09:09,299

very very accurate in a Jack valets

1489

01:09:14,299 --> 01:09:11,460

mentoring the same sort of thing is it

1490

01:09:16,490 --> 01:09:14,309

possible for us to ever know and fully

1491

01:09:19,490 --> 01:09:16,500

understand what the phenomenon is about

1492

01:09:23,419 --> 01:09:19,500

because once we we come up with one idea

1493

01:09:25,399 --> 01:09:23,429

of what we think it is then suddenly

1494

01:09:28,279 --> 01:09:25,409

twelve other pieces of data points

1495

01:09:31,809 --> 01:09:28,289

somewhere else I don't know who other

1496

01:09:34,640 --> 01:09:31,819

Sandow is also ascribed to the same

1497

01:09:37,279 --> 01:09:34,650

viewpoint that we shouldn't be saying

1498

01:09:39,109 --> 01:09:37,289

just because some of the evidence points

1499

01:09:43,220 --> 01:09:39,119

to the phenomena being extraterrestrial

1500

01:09:46,539 --> 01:09:43,230

that it is extraterrestrial he is asking

1501

01:09:49,999 --> 01:09:46,549

us to retain an open mind on both

1502

01:09:52,240 --> 01:09:50,009

paranormal and UFO experiences so yes I

1503

01:09:54,890 --> 01:09:52,250

think what the quote who you read is

1504

01:09:57,049 --> 01:09:54,900

extremely accurate and I would agree

1505

01:10:00,680 --> 01:09:57,059

with that yeah I think yeah what we're

1506

01:10:03,439 --> 01:10:00,690

involved in with all this is we are in a

1507

01:10:07,069 --> 01:10:03,449

process of discovering new questions I

1508

01:10:10,250 --> 01:10:07,079

think that is our quote that I saw in a

1509

01:10:12,259 --> 01:10:10,260

science article recently and I think it

1510

01:10:15,410 --> 01:10:12,269

applies very very well that's we're

1511

01:10:17,750 --> 01:10:15,420

doing discovering new questions so and

1512

01:10:19,250 --> 01:10:17,760

I've got a question for you I key

1513

01:10:21,169 --> 01:10:19,260

thematic at case you've taken a closer

1514

01:10:23,810 --> 01:10:21,179

look at and written up at your blog a

1515

01:10:26,359 --> 01:10:23,820

specific type of case that I happen to

1516

01:10:29,270 --> 01:10:26,369

think very very highly of and that is

1517

01:10:31,339 --> 01:10:29,280

radar cases where there is a witness

1518

01:10:33,109 --> 01:10:31,349

back up they corroborate each other I

1519

01:10:35,000 --> 01:10:33,119

think they're fascinating I consider

1520

01:10:38,060 --> 01:10:35,010

radar to be physical evidence of UFOs

1521

01:10:41,060 --> 01:10:38,070

and there was a case in Australia near

1522

01:10:43,910 --> 01:10:41,070

Perth that you've taken a closer look at

1523

01:10:45,379 --> 01:10:43,920

that in December of 1980 and you've

1524

01:10:48,140 --> 01:10:45,389

written that up and I wanted to tell the

1525

01:10:51,169 --> 01:10:48,150

folks a little bit about that yes this

1526

01:10:54,410 --> 01:10:51,179

is an instance of a case which I knew

1527

01:10:57,020 --> 01:10:54,420

very little about back in 1980 so we're

1528

01:11:00,229 --> 01:10:57,030

going about what what do you use now

1529

01:11:03,500 --> 01:11:00,239

unlike 40 years now and I did come

1530

01:11:06,290 --> 01:11:03,510

across on an Air Force file a telex

1531

01:11:07,490 --> 01:11:06,300

referring to a radar visual case in

1532

01:11:09,860 --> 01:11:07,500

Perth which

1533

01:11:13,370 --> 01:11:09,870

a capital city of one of our states here

1534

01:11:15,500 --> 01:11:13,380

on the western coast of Australia and it

1535

01:11:17,450 --> 01:11:15,510

simply was tantalizing saying that air

1536

01:11:19,640 --> 01:11:17,460

traffic control had picked up four

1537

01:11:21,350 --> 01:11:19,650

objects tracking across Perth during the

1538

01:11:23,210 --> 01:11:21,360

daytime and had been some visual

1539

01:11:26,030 --> 01:11:23,220

sightings and that was never ever

1540

01:11:27,530 --> 01:11:26,040

followed up on the air force file and I

1541

01:11:29,420 --> 01:11:27,540

just never was that had an opportunity

1542

01:11:30,020 --> 01:11:29,430

to see anything or read anything more

1543

01:11:32,120 --> 01:11:30,030

about it

1544

01:11:34,280 --> 01:11:32,130

recently an old friend of mine passed

1545

01:11:37,790 --> 01:11:34,290

away and his papers buried in his garage

1546

01:11:40,400 --> 01:11:37,800

I found he had some documentation about

1547

01:11:43,370 --> 01:11:40,410

this in fact somebody had interviewed

1548

01:11:47,300 --> 01:11:43,380

some of the visual witnesses the air

1549

01:11:49,310 --> 01:11:47,310

traffic controllers own Diaries had been

1550

01:11:52,040 --> 01:11:49,320

photocopied and placed in these

1551
01:11:54,920 --> 01:11:52,050
documents and it was an instance which

1552
01:11:57,380 --> 01:11:54,930
we get all over the world where some

1553
01:12:00,860 --> 01:11:57,390
strange objects were picked up on on

1554
01:12:02,720 --> 01:12:00,870
radar air traffic controllers themselves

1555
01:12:05,990 --> 01:12:02,730
made some visual sightings of these

1556
01:12:09,320 --> 01:12:06,000
things and they saw the classic silver

1557
01:12:11,630 --> 01:12:09,330
tumbling discs popping across based on

1558
01:12:13,850 --> 01:12:11,640
radar they were seen at a height of

1559
01:12:15,800 --> 01:12:13,860
about 8,000 meters they went up to

1560
01:12:18,080 --> 01:12:15,810
20,000 meters and then they were lost to

1561
01:12:20,210 --> 01:12:18,090
sight there was nothing in the area that

1562
01:12:22,940 --> 01:12:20,220
could explain it the Air Force were

1563
01:12:23,990 --> 01:12:22,950

baffled just for the fog so not familiar

1564

01:12:25,970 --> 01:12:24,000

with the metric system

1565

01:12:30,290 --> 01:12:25,980

when you say 8,000 meters is at 72

1566

01:12:32,450 --> 01:12:30,300

thousand feet 8,000 meters is about this

1567

01:12:35,330 --> 01:12:32,460

it's about 3 feet to a meter so that

1568

01:12:37,460 --> 01:12:35,340

would be about 24,000 feet okay because

1569

01:12:40,880 --> 01:12:37,470

I do see a tension here where at the

1570

01:12:42,860 --> 01:12:40,890

later altitude now 72,000 feet that's

1571

01:12:46,520 --> 01:12:42,870

much higher than any kind of commercial

1572

01:12:48,500 --> 01:12:46,530

aircraft that's right yes so what was

1573

01:12:50,690 --> 01:12:48,510

interesting is actually finding a copy

1574

01:12:52,880 --> 01:12:50,700

of the air traffic control what they

1575

01:12:54,470 --> 01:12:52,890

call their daily journal which we coddle

1576

01:12:57,490 --> 01:12:54,480

all these sightings that were coming

1577

01:13:00,410 --> 01:12:57,500

visually it recorded on the radar detail

1578

01:13:03,410 --> 01:13:00,420

because it's so far in the past in

1579

01:13:05,240 --> 01:13:03,420

recent examples of cases here in

1580

01:13:07,130 --> 01:13:05,250

Australia we've used a freedom of

1581

01:13:10,640 --> 01:13:07,140

information to actually get the radar

1582

01:13:12,890 --> 01:13:10,650

data out of air traffic control people

1583

01:13:15,890 --> 01:13:12,900

who have been very very open with us

1584

01:13:18,470 --> 01:13:15,900

I've spoken to a number of them I can

1585

01:13:21,289 --> 01:13:18,480

put in an FOI request and say I'd like

1586

01:13:24,259 --> 01:13:21,299

the the radar from this Airport this

1587

01:13:26,089 --> 01:13:24,269

this time to this time and I'll within a

1588

01:13:29,719 --> 01:13:26,099

few days I get a DVD with all of the

1589

01:13:32,899 --> 01:13:29,729

radar detail on it going back to 1980

1590

01:13:35,779 --> 01:13:32,909

those sort of records don't exist so I'd

1591

01:13:38,839 --> 01:13:35,789

love a case like this to happen today or

1592

01:13:42,889 --> 01:13:38,849

in fact in recent times and strange to

1593

01:13:46,489 --> 01:13:42,899

say another one did my colleague in

1594

01:13:48,079 --> 01:13:46,499

Melbourne Paul Dean and I in 2014 so

1595

01:13:50,839 --> 01:13:48,089

we're going back almost five years but

1596

01:13:53,359 --> 01:13:50,849

fairly recent there was an incident

1597

01:13:57,739 --> 01:13:53,369

where a passenger aircraft was flying in

1598

01:14:00,739 --> 01:13:57,749

to Perth Airport and the pilot of

1599

01:14:02,379 --> 01:14:00,749

copilot who we interviewed said they had

1600

01:14:04,819 --> 01:14:02,389

seen what looked like a green

1601
01:14:07,519 --> 01:14:04,829
cylindrical object approaching the

1602
01:14:09,349 --> 01:14:07,529
aircraft they caught on touch with air

1603
01:14:11,599 --> 01:14:09,359
traffic control and asked if they could

1604
01:14:13,879 --> 01:14:11,609
maneuver because the object was going to

1605
01:14:15,439 --> 01:14:13,889
crash with them they air traffic

1606
01:14:17,689 --> 01:14:15,449
controllers say we've got nothing on

1607
01:14:20,329 --> 01:14:17,699
radar you don't have permission to

1608
01:14:23,149 --> 01:14:20,339
maneuver and the pilot in typical

1609
01:14:25,609 --> 01:14:23,159
Australian language said a four-letter

1610
01:14:28,189 --> 01:14:25,619
word and said blow you I am going to

1611
01:14:30,079 --> 01:14:28,199
maneuver the aircraft so he he

1612
01:14:33,079 --> 01:14:30,089
maneuvered around this object which went

1613
01:14:35,599 --> 01:14:33,089

past him at very close range possibly

1614

01:14:37,479 --> 01:14:35,609

within 50 feet of the aircraft and the

1615

01:14:41,889 --> 01:14:37,489

object just kept going up into the sky

1616

01:14:44,359 --> 01:14:41,899

the pilot and co-pilot landed bit shaken

1617

01:14:47,239 --> 01:14:44,369

reported it officially which a lot of

1618

01:14:51,919 --> 01:14:47,249

pilots refused to do so they were

1619

01:14:53,509 --> 01:14:51,929

interviewed by air traffic control we

1620

01:14:57,859 --> 01:14:53,519

managed to interview the pilot the

1621

01:14:59,889 --> 01:14:57,869

copilot we got the radar data we have a

1622

01:15:05,469 --> 01:14:59,899

radar expert who analyzed it for us

1623

01:15:09,079 --> 01:15:05,479

nothing was visible on the radar either

1624

01:15:11,809 --> 01:15:09,089

transponder radar or on raw radar there

1625

01:15:13,729 --> 01:15:11,819

was nothing in the area at the time we

1626

01:15:16,250 --> 01:15:13,739

could see the aircraft on the radar

1627

01:15:18,799 --> 01:15:16,260

tapes we saw the we saw the aircraft

1628

01:15:21,049 --> 01:15:18,809

make a small deviation that the radar

1629

01:15:22,969 --> 01:15:21,059

picked up at the time that he claimed

1630

01:15:25,519 --> 01:15:22,979

two air traffic control that this object

1631

01:15:28,459 --> 01:15:25,529

went past him now you don't deviate a

1632

01:15:31,209 --> 01:15:28,469

passenger aircraft for nothing he swore

1633

01:15:34,680 --> 01:15:31,219

to us on the we interviewed him by phone

1634

01:15:38,580 --> 01:15:34,690

that the object had a you

1635

01:15:40,709 --> 01:15:38,590

five units long by one unit wide it was

1636

01:15:45,120 --> 01:15:40,719

green in color what do you mean by a

1637

01:15:48,000 --> 01:15:45,130

unit Keith he was unable to say the

1638

01:15:50,070 --> 01:15:48,010

actual size of the object was 200 feet

1639

01:15:52,560 --> 01:15:50,080

long what we said to him what was the

1640

01:15:56,130 --> 01:15:52,570

ratio of the length to mark I see we say

1641

01:15:58,560 --> 01:15:56,140

okay okay okay five times the width so

1642

01:16:00,479 --> 01:15:58,570

if it was a ten ten feet across it was

1643

01:16:03,150 --> 01:16:00,489

fifty feet long and that's because he

1644

01:16:04,920 --> 01:16:03,160

couldn't exactly come up with a distance

1645

01:16:06,689 --> 01:16:04,930

for you he didn't know the distance

1646

01:16:09,270 --> 01:16:06,699

therefore he couldn't estimate so he was

1647

01:16:12,330 --> 01:16:09,280

good he just went on the ratio it was

1648

01:16:15,120 --> 01:16:12,340

close enough to avoid them up well he

1649

01:16:17,040 --> 01:16:15,130

there was no wash from it he it was

1650

01:16:20,130 --> 01:16:17,050

close enough that he had to maneuver his

1651

01:16:22,380 --> 01:16:20,140

aircraft to avoid a collision so what

1652

01:16:24,540 --> 01:16:22,390

happened then is the aircraft accident

1653

01:16:26,580 --> 01:16:24,550

investigation people our official

1654

01:16:28,680 --> 01:16:26,590

government body interviewed the pilot

1655

01:16:33,090 --> 01:16:28,690

the air traffic controller and for the

1656

01:16:35,130 --> 01:16:33,100

first time ever published a report that

1657

01:16:37,170 --> 01:16:35,140

stated that an unknown object they

1658

01:16:39,060 --> 01:16:37,180

didn't use the word a UFO they said an

1659

01:16:40,709 --> 01:16:39,070

unknown object it almost collided with

1660

01:16:44,820 --> 01:16:40,719

the passenger plane in broad daylight

1661

01:16:47,520 --> 01:16:44,830

and so what Paul and I did is we

1662

01:16:50,910 --> 01:16:47,530

interviewed the guy who wrote the report

1663

01:16:51,390 --> 01:16:50,920

and he said officially I can't tell you

1664

01:16:54,090 --> 01:16:51,400

anything

1665

01:16:57,360 --> 01:16:54,100

he said unofficially he said we are

1666

01:16:59,060 --> 01:16:57,370

baffled we have no clues what it was he

1667

01:17:00,180 --> 01:16:59,070

said you could think perhaps it was an

1668

01:17:03,720 --> 01:17:00,190

asari

1669

01:17:05,550 --> 01:17:03,730

unmanned aerial vehicle but he says you

1670

01:17:09,959 --> 01:17:05,560

don't have UAVs that a missile missile

1671

01:17:13,890 --> 01:17:09,969

shaped with no fins no wings no nose no

1672

01:17:17,820 --> 01:17:13,900

control surfaces just a five to one

1673

01:17:19,590 --> 01:17:17,830

ratio cylinder I hate to call it to

1674

01:17:21,930 --> 01:17:19,600

tic-tac because no one described it as a

1675

01:17:25,550 --> 01:17:21,940

tic-tac of her but it's seamless sort of

1676

01:17:27,900 --> 01:17:25,560

shape right and the official government

1677

01:17:31,410 --> 01:17:27,910

document which they put on their website

1678

01:17:33,600 --> 01:17:31,420

for accident investigations said we just

1679

01:17:35,490 --> 01:17:33,610

don't know unknown aircraft unknown

1680

01:17:37,800 --> 01:17:35,500

object nearly collided with the

1681

01:17:39,660 --> 01:17:37,810

passenger aircraft so that's the closest

1682

01:17:43,380 --> 01:17:39,670

radar visual thing we've had in the last

1683

01:17:46,350 --> 01:17:43,390

five years here I wanted to make a

1684

01:17:47,720 --> 01:17:46,360

comment to you a Keith and then see if

1685

01:17:49,880 --> 01:17:47,730

you have any comment

1686

01:17:52,130 --> 01:17:49,890

back not really a question just to

1687

01:17:54,260 --> 01:17:52,140

comment so I'm gonna talk for a moment

1688

01:17:56,450 --> 01:17:54,270

Earth's broadcast signals have reached

1689

01:17:59,330 --> 01:17:56,460

every star within about 80 light-years

1690

01:18:01,940 --> 01:17:59,340

as of 2016 so the Stata needs to be

1691

01:18:03,890 --> 01:18:01,950

updated a little bit from the Sun about

1692

01:18:07,910 --> 01:18:03,900

eight thousand five hundred thirty one

1693

01:18:10,100 --> 01:18:07,920

stars and 3,555 earth-like planets that

1694

01:18:10,730 --> 01:18:10,110

is a very tiny fraction of what it is

1695

01:18:12,350 --> 01:18:10,740

out there

1696

01:18:14,150 --> 01:18:12,360

furthermore it would take the same

1697

01:18:17,060 --> 01:18:14,160

amount of time for aliens to answer

1698

01:18:18,830 --> 01:18:17,070

moving on and there could well be alien

1699

01:18:21,430 --> 01:18:18,840

civilizations that do not transmit

1700

01:18:24,080 --> 01:18:21,440

strong enough signals to be detected

1701

01:18:26,210 --> 01:18:24,090

alien civilizations might have died long

1702

01:18:29,270 --> 01:18:26,220

ago and any radio waves they may have

1703

01:18:32,000 --> 01:18:29,280

used the they used might have long

1704

01:18:33,950 --> 01:18:32,010

passed earth and the time it takes for

1705

01:18:35,960 --> 01:18:33,960

radio signals to broadcast throughout

1706

01:18:37,550 --> 01:18:35,970

the universe is much larger than the

1707

01:18:40,420 --> 01:18:37,560

time we have spent listening for

1708

01:18:43,660 --> 01:18:40,430

responses that's kind of a smattering of

1709

01:18:45,740 --> 01:18:43,670

information all alien related about

1710

01:18:50,330 --> 01:18:45,750

broadcast signals throughout the

1711

01:18:52,790 --> 01:18:50,340

universe whether past or present but I

1712

01:18:56,090 --> 01:18:52,800

wanted to kind of see if you have any

1713

01:18:59,960 --> 01:18:56,100

comments about aliens broadcasting

1714

01:19:03,830 --> 01:18:59,970

signals and being detected long after

1715

01:19:07,490 --> 01:19:03,840

they're dead that's a very interesting

1716

01:19:10,160 --> 01:19:07,500

concept and because with recent

1717

01:19:12,380 --> 01:19:10,170

scientific findings we have found so

1718

01:19:14,810 --> 01:19:12,390

many exoplanets now in their thousands

1719

01:19:18,770 --> 01:19:14,820

orbiting stars with a whole range of

1720

01:19:20,690 --> 01:19:18,780

distances from from Earth the likelihood

1721

01:19:23,150 --> 01:19:20,700

of the being lifeforce where in the

1722

01:19:25,340 --> 01:19:23,160

universe has increased highly and

1723

01:19:27,500 --> 01:19:25,350

probability the possibility of

1724

01:19:30,350 --> 01:19:27,510

intelligent life in the universe I think

1725

01:19:32,530 --> 01:19:30,360

has increased slightly and the

1726

01:19:35,270 --> 01:19:32,540

possibility that someone is visiting us

1727

01:19:37,520 --> 01:19:35,280

has increased I think with the knowledge

1728

01:19:39,560 --> 01:19:37,530

that we have but it's one of those

1729

01:19:41,870 --> 01:19:39,570

questions that Frank said we're still

1730

01:19:43,540 --> 01:19:41,880

finding the questions to ask rather than

1731

01:19:45,560 --> 01:19:43,550

finding the answers to those questions

1732

01:19:50,020 --> 01:19:45,570

but it's a really interesting

1733

01:19:53,600 --> 01:19:52,520

well Keith I sure do appreciate you

1734

01:19:55,730 --> 01:19:53,610

coming on with us

1735

01:19:57,560 --> 01:19:55,740

you spent a good solid two hours and I

1736

01:19:58,760 --> 01:19:57,570

think we're a jam-packed with fantastic

1737

01:20:00,570 --> 01:19:58,770

information

1738

01:20:02,850 --> 01:20:00,580

I sure do appreciate it

1739

01:20:07,980 --> 01:20:02,860

stay in touch and obviously keep an eye

1740

01:20:12,900 --> 01:20:07,990

on key slog spot it is see a scientific

1741

01:20:15,690 --> 01:20:12,910

research hang on a sec here UFO -

1742

01:20:18,450 --> 01:20:15,700

scientific research blog spot.com

1743

01:20:21,150 --> 01:20:18,460

I think if you just google Keith pastor

1744

01:20:22,560 --> 01:20:21,160

field and UFOs you'll turn up that blog

1745

01:20:24,300 --> 01:20:22,570

spot pretty quick that might be the

1746

01:20:26,010 --> 01:20:24,310

easiest way to find it but we've got a

1747

01:20:28,650 --> 01:20:26,020

link to it in our description section

1748

01:20:31,080 --> 01:20:28,660

and Keith I should - appreciate you

1749

01:20:32,910 --> 01:20:31,090

coming on and you know keep up the good

1750

01:20:36,450 --> 01:20:32,920

work we'll be keeping our eyes on now

1751

01:20:38,100 --> 01:20:36,460

your latest mrs. Keith I would yeah I

1752

01:20:41,160 --> 01:20:38,110

would like to also thank you and I also

1753

01:20:44,700 --> 01:20:41,170

want to reassure you I have shared your

1754

01:20:47,070 --> 01:20:44,710

link amply throughout the chat

1755

01:20:49,920 --> 01:20:47,080

discussion to the right of the interview

1756

01:20:51,930 --> 01:20:49,930

and it's just been such an honor to

1757

01:20:54,050 --> 01:20:51,940

interview you you have such you were so

1758

01:20:57,270 --> 01:20:54,060

well respected in the UFO community and

1759

01:20:59,910 --> 01:20:57,280

there's a reason for that so we all want

1760

01:21:00,480 --> 01:20:59,920

to thank you for being on the show thank

1761

01:21:02,460 --> 01:21:00,490

you John

1762

01:21:05,910 --> 01:21:02,470

what I do appreciate is an opportunity

1763

01:21:07,590 --> 01:21:05,920

to network with people not not a single

1764

01:21:09,930 --> 01:21:07,600

one of us is going to solve the

1765

01:21:11,220 --> 01:21:09,940

attitudes of solanum and alone we do

1766

01:21:14,270 --> 01:21:11,230

need the networks that we're creating

1767

01:21:16,980 --> 01:21:14,280

and the discussions that we have and

1768

01:21:19,440 --> 01:21:16,990

bits and pieces of data that we can find

1769

01:21:21,810 --> 01:21:19,450

from wherever so I appreciate the

1770

01:21:25,350 --> 01:21:21,820

opportunity to to network with people as

1771

01:21:25,980 --> 01:21:25,360

well thanks so much again Keith and good

1772

01:21:27,330 --> 01:21:25,990

night everybody

1773

01:21:29,970 --> 01:21:27,340

thanks for staying up late on the East

1774

01:21:32,100 --> 01:21:29,980

Coast in the US and maybe some folks in

1775

01:21:33,300 --> 01:21:32,110

Europe are listening over breakfast so

1776

01:21:34,610 --> 01:21:33,310

you have a good night and Keith enjoy
