DISCUSSES NORAD, THE USAF SPACE
COMMAND, THE FAA AND NASIC IN
RELATION TO UFOS

UFONN
SUNDAY

1
00:01:01,920 --> 00:00:09,860

[Music]

2
00:01:04,290 --> 00:01:01,930
and good evening from Philadelphia Frank

3
00:01:06,540 --> 00:01:04,300
here with yet another episode of UFO

4
00:01:08,700 --> 00:01:06,550
news network Sunday tonight on a Monday

5
00:01:11,370 --> 00:01:08,710
and tonight we've got a very special

6
00:01:15,270 --> 00:01:11,380
guest with us so let me go ahead and

7
00:01:16,920 --> 00:01:15,280
bring on my co-host chant Hannah to do

8
00:01:21,120 --> 00:01:16,930
the honors of introducing our fine

9
00:01:23,610 --> 00:01:21,130
guests receive hey everybody we have a

10
00:01:26,130 --> 00:01:23,620
really fun person who is a wonderful

11
00:01:28,350 --> 00:01:26,140
researcher and he has a great sense of

12
00:01:29,520 --> 00:01:28,360
humor we love him his name is Paul Dean

13
00:01:31,590 --> 00:01:29,530

but I just want to let you all know

14

00:01:34,380 --> 00:01:31,600

something first we had an interesting

15

00:01:36,480 --> 00:01:34,390

audio interruption there it's just

16

00:01:39,090 --> 00:01:36,490

because our sound was latent for a

17

00:01:42,570 --> 00:01:39,100

moment and so you might have heard a

18

00:01:44,940 --> 00:01:42,580

little bit of talking there for a moment

19

00:01:46,920 --> 00:01:44,950

but I'm gonna go ahead and move along in

20

00:01:49,140 --> 00:01:46,930

and introduce our wonderful guest Paul

21

00:01:51,210 --> 00:01:49,150

Dean Paul Dean is an Australian based

22

00:01:53,730 --> 00:01:51,220

researcher who focuses on government and

23

00:01:56,100 --> 00:01:53,740

military involvement and response to the

24

00:01:58,770 --> 00:01:56,110

UFO phenomena working in total isolation

25

00:02:00,930 --> 00:01:58,780

for 20 years Paul began tackling the

26
00:02:03,150 --> 00:02:00,940
issue of so-called UFO FILES directly

27
00:02:05,100 --> 00:02:03,160
just six years ago he with colleague

28
00:02:06,570 --> 00:02:05,110
Keith pastor field was instrumental in

29
00:02:08,460 --> 00:02:06,580
seeing that Australian government

30
00:02:10,469 --> 00:02:08,470
release are there to classified files

31
00:02:13,530 --> 00:02:10,479
from both the Aussie military and

32
00:02:15,720 --> 00:02:13,540
civilian aviation agencies further Paul

33
00:02:17,640 --> 00:02:15,730
has delved into hard-to-get UFO FILES

34
00:02:19,580 --> 00:02:17,650
generated by both the US and UK

35
00:02:22,110 --> 00:02:19,590
government with some considerable

36
00:02:23,970 --> 00:02:22,120
successes using the Freedom of

37
00:02:26,370 --> 00:02:23,980
Information Act and the mandatory

38
00:02:27,240 --> 00:02:26,380

declassification review process to

39

00:02:28,590 --> 00:02:27,250

obtain records

40

00:02:30,270 --> 00:02:28,600

he is currently securing information

41

00:02:33,510 --> 00:02:30,280

from the North American Aerospace

42

00:02:36,930 --> 00:02:33,520

Defense Command NORAD the Air Force

43

00:02:39,870 --> 00:02:36,940

Space Command AF SPC and the Federal

44

00:02:42,180 --> 00:02:39,880

Aviation Administration further and

45

00:02:44,610 --> 00:02:42,190

sometimes more importantly Paul obtains

46

00:02:46,620 --> 00:02:44,620

and studies the FOIA work of researchers

47

00:02:48,750 --> 00:02:46,630

who have quit the topic or passed on

48

00:02:51,690 --> 00:02:48,760

including the extraordinary work of the

49

00:02:54,089 --> 00:02:51,700

late G Todd lastly Paul has developed

50

00:02:56,490 --> 00:02:54,099

the UFO archive of gigantic size and

51
00:03:00,180 --> 00:02:56,500
works with the likes of Barry Greenwood

52
00:03:02,010 --> 00:03:00,190
Jen Aldridge and nightcaps Francis Ridge

53
00:03:03,690 --> 00:03:02,020
and maintaining that resource that is

54
00:03:05,430 --> 00:03:03,700
quite the bio Paul you are a very

55
00:03:06,690 --> 00:03:05,440
serious researcher we really love having

56
00:03:09,000 --> 00:03:06,700
you on the show you've been on before

57
00:03:12,599 --> 00:03:09,010
how are you

58
00:03:14,670 --> 00:03:12,609
thank you Oh pretty good it's um it's

59
00:03:17,369 --> 00:03:14,680
10:00 in the morning here so we're like

60
00:03:19,530 --> 00:03:17,379
we're you know nearly a day ahead of you

61
00:03:20,910 --> 00:03:19,540
I think or might be 15 hours ahead if

62
00:03:23,369 --> 00:03:20,920
you're something like that yeah I'm

63
00:03:25,349 --> 00:03:23,379

going quite well thank you yeah you know

64

00:03:27,059 --> 00:03:25,359

folks actually heard the tail end of our

65

00:03:28,830 --> 00:03:27,069

conversation I was just letting our

66

00:03:31,349 --> 00:03:28,840

audience know it was just a little bit

67

00:03:32,910 --> 00:03:31,359

of latency regarding his sound and thank

68

00:03:35,390 --> 00:03:32,920

you audience for being so patient with

69

00:03:38,759 --> 00:03:35,400

us on that and just wanted to ask Paul

70

00:03:42,030 --> 00:03:38,769

moving on to the topics now can you talk

71

00:03:44,659 --> 00:03:42,040

about the topic would NORAD yeah this is

72

00:03:47,849 --> 00:03:44,669

this is this is probably the most

73

00:03:50,339 --> 00:03:47,859

overlooked certainly in the United

74

00:03:54,030 --> 00:03:50,349

States or North America a Canada

75

00:03:56,729 --> 00:03:54,040

included obviously in this the okay I

76
00:03:58,979 --> 00:03:56,739
started ice I've studied the UFO topic

77
00:04:00,569 --> 00:03:58,989
from like the way that government

78
00:04:02,759 --> 00:04:00,579
agencies particularly in the United

79
00:04:05,909 --> 00:04:02,769
States I guess because the history is so

80
00:04:09,119 --> 00:04:05,919
rich there your history is so rich I've

81
00:04:10,920 --> 00:04:09,129
studied the the US government whether

82
00:04:14,429 --> 00:04:10,930
that be military or the aviation

83
00:04:17,399 --> 00:04:14,439
community or the intelligence apparatus

84
00:04:19,319 --> 00:04:17,409
of study the the UFO that like the

85
00:04:22,830 --> 00:04:19,329
government's response to the UFO issue

86
00:04:25,170 --> 00:04:22,840
for years and and dating right back to

87
00:04:27,120 --> 00:04:25,180
how they dealt with it really from from

88
00:04:30,749 --> 00:04:27,130

the issue of Foo Fighters with the US

89

00:04:36,659 --> 00:04:30,759

Army Air Forces and in Europe and Asia

90

00:04:41,339 --> 00:04:36,669

right through till now and and I guess

91

00:04:43,200 --> 00:04:41,349

that it was probably look some years ago

92

00:04:48,149 --> 00:04:43,210

probably 10 years ago when I started

93

00:04:52,529 --> 00:04:48,159

studying how the US actually actually

94

00:04:55,439 --> 00:04:52,539

deals with things in the sky so so one

95

00:04:58,020 --> 00:04:55,449

of your organizations that that is it

96

00:05:00,899 --> 00:04:58,030

will it is the premier and paramount air

97

00:05:02,640 --> 00:05:00,909

sovereignty and airspace management from

98

00:05:04,520 --> 00:05:02,650

a military side of a house perspective

99

00:05:07,100 --> 00:05:04,530

it's it's the premier airspace

100

00:05:09,360 --> 00:05:07,110

management and air sovereignty

101
00:05:10,709 --> 00:05:09,370
organization in North America it's it's

102
00:05:12,959 --> 00:05:10,719
the North American Aerospace Defense

103
00:05:15,570 --> 00:05:12,969
Command it's opposed to Peterson Air

104
00:05:17,189 --> 00:05:15,580
Force Base in Colorado with an ultimate

105
00:05:18,800 --> 00:05:17,199
headquarters at Cheyenne Mountain it

106
00:05:22,550 --> 00:05:18,810
also in Colorado

107
00:05:25,990 --> 00:05:22,560
um it it is a is the center it's a it's

108
00:05:30,860 --> 00:05:26,000
a it's a center that the delegates

109
00:05:32,930 --> 00:05:30,870
delegates air surveillance to numerous

110
00:05:36,490 --> 00:05:32,940
United States Air Force squadrons all

111
00:05:39,620 --> 00:05:36,500
around and Canadian first Air Division

112
00:05:41,840 --> 00:05:39,630
joint Canadian air operation yeah it's a

113
00:05:44,270 --> 00:05:41,850

it's a it is a by National Organization

114

00:05:48,110 --> 00:05:44,280

and well how it actually works is is

115

00:05:49,970 --> 00:05:48,120

NORAD nor its parent agency is is

116

00:05:52,520 --> 00:05:49,980

actually NORTHCOM which is one of ten

117

00:05:54,290 --> 00:05:52,530

unified combatant commands that is

118

00:05:55,960 --> 00:05:54,300

organized directly under the Secretary

119

00:05:59,710 --> 00:05:55,970

of Defense and the Joint Chiefs of Staff

120

00:06:04,250 --> 00:05:59,720

and then NORAD also simultaneously

121

00:06:08,240 --> 00:06:04,260

answers to Canada's forces Canada and

122

00:06:10,879 --> 00:06:08,250

the Canadian Parliament and so so what

123

00:06:12,890 --> 00:06:10,889

NORAD's nor is actual they current

124

00:06:14,570 --> 00:06:12,900

factsheet and it's been like this for

125

00:06:17,150 --> 00:06:14,580

decades and decades

126

00:06:20,060 --> 00:06:17,160

NORAD role has never changed it's it's

127

00:06:22,580 --> 00:06:20,070

never changed and the their current fact

128

00:06:24,650 --> 00:06:22,590

sheet and I quote is NORAD is quote

129

00:06:26,690 --> 00:06:24,660

charged with the missions two main

130

00:06:29,090 --> 00:06:26,700

missions of aerospace warning an

131

00:06:31,159 --> 00:06:29,100

aerospace control for North America now

132

00:06:33,260 --> 00:06:31,169

aerospace warning includes detection

133

00:06:34,430 --> 00:06:33,270

validation and warning of attack against

134

00:06:36,680 --> 00:06:34,440

North America whether by aircraft

135

00:06:39,200 --> 00:06:36,690

missiles or space vehicles through

136

00:06:41,420 --> 00:06:39,210

mutual arrangements with other commands

137

00:06:44,870 --> 00:06:41,430

that would be navel navel Space Command

138

00:06:46,820 --> 00:06:44,880

etc and then aerospace control includes

139

00:06:48,500 --> 00:06:46,830

you know ensuring air sovereignty and

140

00:06:50,450 --> 00:06:48,510

air defence of the airspace of calendar

141

00:06:55,060 --> 00:06:50,460

of United States that's that's things

142

00:06:59,210 --> 00:06:55,070

like monitoring ongoing hijackings like

143

00:07:02,390 --> 00:06:59,220

developing statistical databases on on

144

00:07:04,370 --> 00:07:02,400

on stray aircraft movements or or or

145

00:07:08,240 --> 00:07:04,380

studying the the future actions of

146

00:07:11,600 --> 00:07:08,250

airborne drug runners etc so NORAD NORAD

147

00:07:13,279 --> 00:07:11,610

is like a a it people people think NORAD

148

00:07:15,140 --> 00:07:13,289

is is some Center with just a few

149

00:07:17,420 --> 00:07:15,150

massive radars and that's all it is what

150

00:07:20,150 --> 00:07:17,430

NORAD actually is it's almost like a

151
00:07:21,920 --> 00:07:20,160
system of systems it's it's it's like

152
00:07:24,980 --> 00:07:21,930
where the United States Air Forces

153
00:07:27,200 --> 00:07:24,990
Squadron and wing level who detect with

154
00:07:29,870 --> 00:07:27,210
huge huge primary track while scanned

155
00:07:31,520 --> 00:07:29,880
and Hart finding radars they they that

156
00:07:34,900 --> 00:07:31,530
the United States Air Force

157
00:07:38,510 --> 00:07:34,910
looks in the air 24/7 24 hours a day

158
00:07:40,790 --> 00:07:38,520
looks for things in primary mode like

159
00:07:42,590 --> 00:07:40,800
literally write a reflective sand things

160
00:07:47,330 --> 00:07:42,600
in the sky planes the odd balloon

161
00:07:50,150 --> 00:07:47,340
helicopters and that that data feed goes

162
00:07:52,700 --> 00:07:50,160
to NORAD as does data from saying the

163
00:07:55,210 --> 00:07:52,710

Naval Space Command which they the Naval

164

00:08:00,350 --> 00:07:55,220

Space Command have a system that

165

00:08:02,380 --> 00:08:00,360

monitors the movements of a space junk

166

00:08:05,330 --> 00:08:02,390

in low-earth orbit

167

00:08:07,220 --> 00:08:05,340

Canada's first air division which uses

168

00:08:09,590 --> 00:08:07,230

both airborne control and warning and

169

00:08:11,570 --> 00:08:09,600

ground-based radars to monitor the skies

170

00:08:14,510 --> 00:08:11,580

up near the Arctic that information also

171

00:08:16,280 --> 00:08:14,520

goes to NORAD directly information from

172

00:08:18,590 --> 00:08:16,290

the ballistic missile early warning

173

00:08:20,510 --> 00:08:18,600

system which is actually run by the Air

174

00:08:22,850 --> 00:08:20,520

Force Space Command at Vandenberg Air

175

00:08:23,990 --> 00:08:22,860

Force Base that that information from

176

00:08:26,150 --> 00:08:24,000

the ballistic missile early warning

177

00:08:27,740 --> 00:08:26,160

sites in Alaska and Greenland and

178

00:08:30,230 --> 00:08:27,750

actually in England that filing dale's

179

00:08:31,700 --> 00:08:30,240

that information gets spit through

180

00:08:33,320 --> 00:08:31,710

Vandenberg to join the functional

181

00:08:35,990 --> 00:08:33,330

component Center for space and again

182

00:08:38,600 --> 00:08:36,000

NORAD is a customer of that data so

183

00:08:41,300 --> 00:08:38,610

NORAD is like is this is this Center

184

00:08:44,660 --> 00:08:41,310

which has more I've I've studied I've

185

00:08:46,460 --> 00:08:44,670

studied NORAD's our capabilities for 10

186

00:08:49,100 --> 00:08:46,470

years and I've there is no organization

187

00:08:52,100 --> 00:08:49,110

anywhere like it in the world that can

188

00:08:54,920 --> 00:08:52,110

that can do up-to-date monitoring of

189

00:08:59,540 --> 00:08:54,930

such a massive geographical area so it

190

00:09:01,400 --> 00:08:59,550

is always fascinated me as to why why

191

00:09:03,530 --> 00:09:01,410

ufologist and the media and the press

192

00:09:05,870 --> 00:09:03,540

and UFO buffs and even very serious

193

00:09:09,650 --> 00:09:05,880

researchers have bashed on the door of

194

00:09:12,200 --> 00:09:09,660

the CIA and and and and the DIA and have

195

00:09:14,090 --> 00:09:12,210

bashed on the door of the FBI

196

00:09:16,640 --> 00:09:14,100

you know Federal Bureau of Investigation

197

00:09:18,110 --> 00:09:16,650

Central Intelligence Agency even even

198

00:09:19,940 --> 00:09:18,120

some areas of the Air Force who have

199

00:09:22,220 --> 00:09:19,950

long been out of you I thought was long

200

00:09:23,750 --> 00:09:22,230

been out of you if I was like a you know

201
00:09:25,700 --> 00:09:23,760
like some of the air test development

202
00:09:27,770 --> 00:09:25,710
places may the Atomic Energy Commission

203
00:09:30,200 --> 00:09:27,780
and so on people have been bashing on

204
00:09:32,060 --> 00:09:30,210
these these organizations which have had

205
00:09:33,560 --> 00:09:32,070
yes they've got some UFO mythology in

206
00:09:34,220 --> 00:09:33,570
the past yes they've studied do you ever

207
00:09:36,650 --> 00:09:34,230
topic

208
00:09:39,110 --> 00:09:36,660
or had concern about it but on going up

209
00:09:42,350 --> 00:09:39,120
today day after day year after year

210
00:09:44,480 --> 00:09:42,360
NORAD is respond or attend to a slightly

211
00:09:45,440 --> 00:09:44,490
well NORAD to a lesser extent Air Force

212
00:09:47,330 --> 00:09:45,450
Space Command

213
00:09:50,180 --> 00:09:47,340

and its parent unified combatant command

214

00:09:52,370 --> 00:09:50,190

u.s. Stratcom which is based in Nebraska

215

00:09:53,540 --> 00:09:52,380

they are the ones that actually have the

216

00:09:55,640 --> 00:09:53,550

best monitoring and detection

217

00:09:58,220 --> 00:09:55,650

capabilities anywhere in the world and

218

00:10:00,590 --> 00:09:58,230

and nobody is asking because they're too

219

00:10:02,390 --> 00:10:00,600

hard to deal with NORAD is astoundingly

220

00:10:04,010 --> 00:10:02,400

hard to deal with to get a straight

221

00:10:07,160 --> 00:10:04,020

answer right out of them about anything

222

00:10:09,950 --> 00:10:07,170

is hard even congressmen get gets young

223

00:10:12,980 --> 00:10:09,960

at all so so it became very important

224

00:10:14,480 --> 00:10:12,990

for me to start joining dots and yeah

225

00:10:18,460 --> 00:10:14,490

and I've done a lot of work in in that

226

00:10:23,810 --> 00:10:21,350

well yeah real quick Paula just to go

227

00:10:26,660 --> 00:10:23,820

back a few years there was a documentary

228

00:10:29,120 --> 00:10:26,670

done by CBS News here in the States

229

00:10:31,670 --> 00:10:29,130

hosted by Walter Cronkite where they did

230

00:10:33,950 --> 00:10:31,680

actually get a NORAD spokesman to go on

231

00:10:39,490 --> 00:10:33,960

the air and say they've never picked up

232

00:10:43,700 --> 00:10:41,840

I mean casteless we don't know what a

233

00:10:45,740 --> 00:10:43,710

UFO is until it's identified I mean

234

00:10:50,780 --> 00:10:45,750

that's all until until a pair of sight

235

00:10:53,660 --> 00:10:50,790

f15 Eagles or f-16 whatever they call in

236

00:10:56,690 --> 00:10:53,670

to land Falcon say in tall and salt

237

00:10:58,730 --> 00:10:56,700

planes until aircraft observational

238

00:11:00,440 --> 00:10:58,740

aircraft get up next to an object it

239

00:11:02,870 --> 00:11:00,450

could be a balloon it could be something

240

00:11:05,030 --> 00:11:02,880

more mysterious it could just be a stray

241

00:11:06,650 --> 00:11:05,040

missile that's out of control from some

242

00:11:09,200 --> 00:11:06,660

sort of test launch that was never

243

00:11:11,840 --> 00:11:09,210

properly authorized from you know what

244

00:11:14,660 --> 00:11:11,850

sans whatever the the point is is that

245

00:11:16,550 --> 00:11:14,670

I've caught what he's saying is the guy

246

00:11:18,860 --> 00:11:16,560

what that spokesman will simply be

247

00:11:20,270 --> 00:11:18,870

referring to is he's trying to say that

248

00:11:21,740 --> 00:11:20,280

we've never picked anything up that

249

00:11:23,000 --> 00:11:21,750

scared the hell out of us to the point

250

00:11:25,670 --> 00:11:23,010

where we think it's from space we think

251
00:11:27,380 --> 00:11:25,680
it's a tea this is confirmation absolute

252
00:11:30,710 --> 00:11:27,390
trash that NORAD has never picked up

253
00:11:32,660 --> 00:11:30,720
anything of significance that is totally

254
00:11:33,800 --> 00:11:32,670
unexplained they have they do it all the

255
00:11:35,870 --> 00:11:33,810
time and the great thing is we've

256
00:11:37,640 --> 00:11:35,880
actually got the data we're starting to

257
00:11:39,530 --> 00:11:37,650
get the data now it's a little old it's

258
00:11:41,570 --> 00:11:39,540
from the 80s and 90s but we're actually

259
00:11:47,440 --> 00:11:41,580
starting to get the data but I mean oh

260
00:11:52,850 --> 00:11:47,450
well like certainly in 1975 certainly

261
00:11:55,520 --> 00:11:52,860
1975 NORAD NORAD was was in part

262
00:11:58,910 --> 00:11:55,530
responsible for tracking like detecting

263
00:12:01,400 --> 00:11:58,920

and tracking UFOs dead set a new

264

00:12:03,440 --> 00:12:01,410

to UFO events across the northern tier

265

00:12:06,440 --> 00:12:03,450

with Canada with that with the aid of

266

00:12:08,240 --> 00:12:06,450

local command posts like as in bases as

267

00:12:10,100 --> 00:12:08,250

in air traffic control towers and radar

268

00:12:11,780 --> 00:12:10,110

stations that wordsmith Air Force Base

269

00:12:15,920 --> 00:12:11,790

warring Air Force Base Maelstrom Air

270

00:12:17,600 --> 00:12:15,930

Force Base etc the North American

271

00:12:19,490 --> 00:12:17,610

Aerospace Defense Command NORAD its

272

00:12:21,319 --> 00:12:19,500

sector level so Luke Air Force Base

273

00:12:23,420 --> 00:12:21,329

detachment and whatever they were

274

00:12:25,329 --> 00:12:23,430

definitely picking up UFOs we know it

275

00:12:28,009 --> 00:12:25,339

because we've got NORAD's very own

276

00:12:30,350 --> 00:12:28,019

paperwork you know like we've got we've

277

00:12:32,480 --> 00:12:30,360

got some extraordinary NORAD paperwork

278

00:12:35,389 --> 00:12:32,490

that dates back to the 60s and 70s this

279

00:12:38,060 --> 00:12:35,399

is I'll just give you some examples like

280

00:12:40,970 --> 00:12:38,070

the the the the the example you just

281

00:12:42,680 --> 00:12:40,980

gave me then of how you know NORAD

282

00:12:44,600 --> 00:12:42,690

spokesman says we've never picked up

283

00:12:46,100 --> 00:12:44,610

your photos okay we've got piles of

284

00:12:49,550 --> 00:12:46,110

those sort of statements giving us some

285

00:12:52,250 --> 00:12:49,560

examples on the 10th of November 1975

286

00:12:54,560 --> 00:12:52,260

there's a a NORAD's director of

287

00:12:57,050 --> 00:12:54,570

administration was Colonel Terence James

288

00:12:58,699 --> 00:12:57,060

and he stated stated Sir Robert Todd

289

00:13:00,710 --> 00:12:58,709

Robert Todd was probably the best ever

290

00:13:02,720 --> 00:13:00,720

why it freedom of information that

291

00:13:04,939 --> 00:13:02,730

researcher in history he went you know

292

00:13:07,069 --> 00:13:04,949

he submitted 5,000 if I was about UFOs

293

00:13:10,069 --> 00:13:07,079

over a 22-year period

294

00:13:12,470 --> 00:13:10,079

hey NORAD told Bob Todd quote this

295

00:13:15,259 --> 00:13:12,480

command has no present activity in

296

00:13:16,610 --> 00:13:15,269

investigating UFOs nor does any area of

297

00:13:17,420 --> 00:13:16,620

the United States government that I'm

298

00:13:19,819 --> 00:13:17,430

aware of

299

00:13:23,780 --> 00:13:19,829

now both statements are absolutely false

300

00:13:25,639 --> 00:13:23,790

NORAD does detect an investigate UFO

301
00:13:27,259 --> 00:13:25,649
events and other areas of the United

302
00:13:28,660 --> 00:13:27,269
States government whereas well including

303
00:13:31,310 --> 00:13:28,670
the US Air Force and Federal Aviation

304
00:13:32,990 --> 00:13:31,320
Administration as another letter that

305
00:13:35,600 --> 00:13:33,000
went Robert Todd from a ball place as a

306
00:13:35,990 --> 00:13:35,610
US Army in 1976 but I'll get to that

307
00:13:38,509 --> 00:13:36,000
later

308
00:13:41,960 --> 00:13:38,519
another nor another letter from NORAD's

309
00:13:43,730 --> 00:13:41,970
director Administration said quote we do

310
00:13:45,680 --> 00:13:43,740
not undertake investigative measured

311
00:13:47,389 --> 00:13:45,690
measures our interests are satisfied in

312
00:13:49,040 --> 00:13:47,399
near real-time and no formal

313
00:13:50,569 --> 00:13:49,050

documentation is created by this command

314

00:13:52,519 --> 00:13:50,579

that's absolute trash

315

00:13:54,290 --> 00:13:52,529

enormous amounts of documentation I have

316

00:13:57,079 --> 00:13:54,300

been released from NORAD if from the

317

00:13:59,090 --> 00:13:57,089

late 60s through the early 70s right at

318

00:14:02,389 --> 00:13:59,100

this at the precise time of writing this

319

00:14:04,970 --> 00:14:02,399

letter Bob Todd was having another tick

320

00:14:07,189 --> 00:14:04,980

colonel at NORAD actually release UFO

321

00:14:08,870 --> 00:14:07,199

documents well one so while one Colonel

322

00:14:10,230 --> 00:14:08,880

is saying we do not generate any

323

00:14:12,179 --> 00:14:10,240

paperwork

324

00:14:14,850 --> 00:14:12,189

no formal documentation is created by us

325

00:14:17,369 --> 00:14:14,860

another person at NORAD was actually

326

00:14:20,249 --> 00:14:17,379

sending formal documentation from NORAD

327

00:14:22,619 --> 00:14:20,259

headquarters I think 21st NORAD region

328

00:14:25,350 --> 00:14:22,629

in New York was actually sending Bob

329

00:14:27,419 --> 00:14:25,360

Todd NORAD documents extraordinary this

330

00:14:29,249 --> 00:14:27,429

is like two hands simply cannot get

331

00:14:33,509 --> 00:14:29,259

their story straight yet another letter

332

00:14:35,850 --> 00:14:33,519

uh April of 2015 on sent 88 there was a

333

00:14:37,559 --> 00:14:35,860

reply letter to a notable British

334

00:14:41,069 --> 00:14:37,569

researcher by the name of Arman

335

00:14:42,929 --> 00:14:41,079

Victorian Lieutenant Colonel Roger

336

00:14:45,650 --> 00:14:42,939

penal who was the chief of operations

337

00:14:49,889 --> 00:14:45,660

branch in the Director of Public Affairs

338

00:14:51,569 --> 00:14:49,899

stated that thank you for your recent

339

00:14:52,889 --> 00:14:51,579

letter requesting informational

340

00:14:54,989 --> 00:14:52,899

unidentified flying objects

341

00:14:57,749 --> 00:14:54,999

unfortunately we have not recently

342

00:15:00,179 --> 00:14:57,759

released any information concerning UFOs

343

00:15:01,769 --> 00:15:00,189

nor do we keep any information on file

344

00:15:04,439 --> 00:15:01,779

although we do not have any information

345

00:15:05,249 --> 00:15:04,449

on UFOs you may risk wish to write to

346

00:15:08,669 --> 00:15:05,259

the following address

347

00:15:10,769 --> 00:15:08,679

um the address there that that this

348

00:15:14,040 --> 00:15:10,779

lieutenant colonel gave Armin Victorian

349

00:15:16,650 --> 00:15:14,050

was actually move on that was the MUFON

350

00:15:18,150 --> 00:15:16,660

headquarters um which has got to be the

351
00:15:20,069 --> 00:15:18,160
biggest fob off I mean that's a complete

352
00:15:21,809 --> 00:15:20,079
fob off so what he's saying here he was

353
00:15:23,549 --> 00:15:21,819
saying that we haven't got any recent

354
00:15:28,859 --> 00:15:23,559
documentation on UFOs and this was in

355
00:15:31,470 --> 00:15:28,869
1988 well in 1987 Canada's Canada's

356
00:15:34,049 --> 00:15:31,480
first Air Division and headquarters air

357
00:15:37,739 --> 00:15:34,059
defense Winnipeg actually was generating

358
00:15:43,379 --> 00:15:37,749
formal documentation about UFOs I mean

359
00:15:45,600 --> 00:15:43,389
the like another example I mean the list

360
00:15:48,150 --> 00:15:45,610
just goes on and on and on there are

361
00:15:50,970 --> 00:15:48,160
examples here where where where NORAD

362
00:15:53,100 --> 00:15:50,980
has actually had to stress over UFOs to

363
00:15:55,350 --> 00:15:53,110

the point where they've engaged with the

364

00:15:56,429 --> 00:15:55,360

National Nouri command center in

365

00:15:59,850 --> 00:15:56,439

Washington DC

366

00:16:02,249 --> 00:15:59,860

they've had to urgently tell us the 8th

367

00:16:03,869 --> 00:16:02,259

Air Force or the 15th Air Force telling

368

00:16:05,460 --> 00:16:03,879

them so you know who's gonna deal with

369

00:16:08,579 --> 00:16:05,470

this UFO problem we've currently got

370

00:16:09,569 --> 00:16:08,589

over you know be it California or

371

00:16:13,019 --> 00:16:09,579

whatever

372

00:16:17,460 --> 00:16:13,029

one example is I've got a italics here

373

00:16:18,900 --> 00:16:17,470

from 1964 and it says the National

374

00:16:22,619 --> 00:16:18,910

Military Command Center and NORAD

375

00:16:24,180 --> 00:16:22,629

advised that there were six to twelve

376

00:16:25,950 --> 00:16:24,190

unidentified flying

377

00:16:29,280 --> 00:16:25,960

objects at 30 miles east of Merced

378

00:16:31,680 --> 00:16:29,290

California radar picked up 12 objects at

379

00:16:33,150 --> 00:16:31,690

altitude of 60,000 to 90,000 feet and

380

00:16:36,480 --> 00:16:33,160

higher elevations

381

00:16:38,550 --> 00:16:36,490

if 106 aircraft was scrambled at Castle

382

00:16:40,530 --> 00:16:38,560

Air Force Base there were no results

383

00:16:42,270 --> 00:16:40,540

because of the high altitudes they are

384

00:16:46,890 --> 00:16:42,280

checking the possibility of sending you

385

00:16:48,780 --> 00:16:46,900

twos now further there was an update to

386

00:16:51,180 --> 00:16:48,790

that message it was a it's a telex

387

00:16:51,960 --> 00:16:51,190

message and it says objects were

388

00:16:54,570 --> 00:16:51,970

followed

389

00:16:58,200 --> 00:16:54,580

we're sorry objects were following a 60

390

00:16:59,880 --> 00:16:58,210

mile racetrack pattern if 106 is with

391

00:17:02,760 --> 00:16:59,890

flying okay can you run there baby I

392

00:17:04,500 --> 00:17:02,770

know what a racetrack pattern that's the

393

00:17:06,900 --> 00:17:04,510

thing that's when you go around in a big

394

00:17:08,699 --> 00:17:06,910

look okay okay like a look at big oblong

395

00:17:10,439 --> 00:17:08,709

shape look I think it's where you go ran

396

00:17:13,710 --> 00:17:10,449

it in kind of like a lotion shape

397

00:17:17,160 --> 00:17:13,720

and 90,000 feet that's virtually two

398

00:17:19,260 --> 00:17:17,170

women Sameer incredible he's one and

399

00:17:21,329 --> 00:17:19,270

then it says pilots locked onto some of

400

00:17:24,900 --> 00:17:21,339

the objects but could not keep the lock

401
00:17:27,990 --> 00:17:24,910
then it says NORAD sin they said I was

402
00:17:30,540 --> 00:17:28,000
sending two more aircraft with pilots in

403
00:17:33,630 --> 00:17:30,550
pressure suits so this is a rather

404
00:17:35,670 --> 00:17:33,640
extraordinary document well one Pat yeah

405
00:17:37,380 --> 00:17:35,680
well on one hand at a time the United

406
00:17:41,460 --> 00:17:37,390
States Air Force was running Project

407
00:17:42,570 --> 00:17:41,470
Blue Book and and NORAD were always kept

408
00:17:44,640 --> 00:17:42,580
out of the discussion you know

409
00:17:46,620 --> 00:17:44,650
congressmen and Senators and adjunct

410
00:17:49,410 --> 00:17:46,630
generals and inspector generals and and

411
00:17:50,880 --> 00:17:49,420
and whatever would would formally ask

412
00:17:53,190 --> 00:17:50,890
for a Blue Book for latest information

413
00:17:56,460 --> 00:17:53,200

latest statistics latest best cases

414

00:17:59,490 --> 00:17:56,470

latest worst cases whatever and never

415

00:18:01,080 --> 00:17:59,500

ever was NORAD discussed it's always

416

00:18:02,880 --> 00:18:01,090

someone else but NORAD it's always

417

00:18:05,190 --> 00:18:02,890

overseas embassies generating UFO

418

00:18:07,200 --> 00:18:05,200

reports it's always civilian sightings

419

00:18:09,330 --> 00:18:07,210

by hyperactive housewives it's always

420

00:18:12,030 --> 00:18:09,340

someone else's fault it's never NORAD

421

00:18:16,410 --> 00:18:12,040

well you know so that's why this this

422

00:18:18,240 --> 00:18:16,420

this topic is so important that and like

423

00:18:22,860 --> 00:18:18,250

I said we have actually managed to get

424

00:18:24,660 --> 00:18:22,870

some impressive information um the work

425

00:18:30,960 --> 00:18:24,670

who's all along and this is really

426

00:18:33,930 --> 00:18:30,970

interesting um back back in back in 1968

427

00:18:35,940 --> 00:18:33,940

in July some listeners may remember that

428

00:18:38,370 --> 00:18:35,950

the the US House Committee on Science &

429

00:18:41,430 --> 00:18:38,380

astronautics I held a

430

00:18:43,140 --> 00:18:41,440

somewhat at the time famous hearing

431

00:18:45,870 --> 00:18:43,150

which it was called the symposium on

432

00:18:49,830 --> 00:18:45,880

unidentified flying object and it was

433

00:18:52,350 --> 00:18:49,840

several months before the the end of

434

00:18:54,840 --> 00:18:52,360

Project Blue Book was was going on and

435

00:18:56,820 --> 00:18:54,850

and and the condom the famous UFO study

436

00:18:59,370 --> 00:18:56,830

tone Condon report was released tonight

437

00:19:03,420 --> 00:18:59,380

yes that's the one that there Gerald

438

00:19:05,460 --> 00:19:03,430

Ford pretty much jump-started he was pay

439

00:19:07,440 --> 00:19:05,470

was part of yes that was that was

440

00:19:09,030 --> 00:19:07,450

instrumental in in this house in in

441

00:19:11,880 --> 00:19:09,040

these hearings this symposium on a

442

00:19:13,260 --> 00:19:11,890

little dinner fun flying objects Ford

443

00:19:14,610 --> 00:19:13,270

was Ford was actually I don't know if

444

00:19:16,620 --> 00:19:14,620

he'd say instrumental but it certainly

445

00:19:18,300 --> 00:19:16,630

gave at legs it was like called I think

446

00:19:23,780 --> 00:19:18,310

someone called called Gerald Ford's work

447

00:19:26,850 --> 00:19:23,790

a shot in the arm but anyway the

448

00:19:28,230 --> 00:19:26,860

discussions on the dislike buried deep

449

00:19:30,540 --> 00:19:28,240

within those hearings like you know it

450

00:19:34,260 --> 00:19:30,550

like like well into the boring part of

451

00:19:35,540 --> 00:19:34,270

the day the discussions were actually

452

00:19:37,920 --> 00:19:35,550

quite illuminating about military

453

00:19:43,440 --> 00:19:37,930

tracking of space objects and possibly

454

00:19:46,830 --> 00:19:43,450

UFOs and and and something was said that

455

00:19:50,670 --> 00:19:46,840

during during the during the stirring

456

00:19:53,010 --> 00:19:50,680

his speech dr. Robert M Baker who was a

457

00:19:55,800 --> 00:19:53,020

scientist he he was he was somewhat of a

458

00:19:57,960 --> 00:19:55,810

pro euro scientist he said something um

459

00:19:59,630 --> 00:19:57,970

very impressive hey now this is what you

460

00:20:03,240 --> 00:19:59,640

got to remember this is right back in

461

00:20:05,280 --> 00:20:03,250

1968 he said he sent with in dealing

462

00:20:07,740 --> 00:20:05,290

with the subject of space tracking a

463

00:20:09,600 --> 00:20:07,750

missile detection and and anomalous

464

00:20:12,660 --> 00:20:09,610

phenomena he made this astonishing

465

00:20:15,120 --> 00:20:12,670

statement he said there is only one

466

00:20:17,340 --> 00:20:15,130

surveillance system known to me that

467

00:20:20,130 --> 00:20:17,350

exhibits sufficient continue with two

468

00:20:22,890 --> 00:20:20,140

continuous coverage to have even the

469

00:20:25,410 --> 00:20:22,900

slight that he of betraying the presence

470

00:20:27,290 --> 00:20:25,420

of anomalistic phenomena phenomena

471

00:20:30,480 --> 00:20:27,300

operating above the Earth's atmosphere

472

00:20:32,340 --> 00:20:30,490

the system is partially classified and

473

00:20:35,400 --> 00:20:32,350

hence I cannot go into detail about

474

00:20:37,590 --> 00:20:35,410

injuring an unclassified meeting I can

475

00:20:40,260 --> 00:20:37,600

however state that yesterday I traveled

476
00:20:42,540 --> 00:20:40,270
to Colorado Springs and confirm that

477
00:20:44,220 --> 00:20:42,550
since this particular sensor system has

478
00:20:45,020 --> 00:20:44,230
been in operation there have been a

479
00:20:48,480 --> 00:20:45,030
number of

480
00:20:50,340 --> 00:20:48,490
anomalous alarms alarms that as of

481
00:20:51,869 --> 00:20:50,350
this date have not been explained on the

482
00:20:53,879 --> 00:20:51,879
basis of natural phenomena

483
00:20:57,209 --> 00:20:53,889
interference equipment malfunction or

484
00:20:58,589 --> 00:20:57,219
inadequacy or man-made space objects now

485
00:21:00,419 --> 00:20:58,599
what's interesting that's what he

486
00:21:01,349 --> 00:21:00,429
actually said no one took any notice of

487
00:21:04,259 --> 00:21:01,359
it unbelievable

488
00:21:06,329 --> 00:21:04,269

dr. Baca mentioned Colorado Springs and

489

00:21:10,619 --> 00:21:06,339

that is without a doubt a reference

490

00:21:12,209 --> 00:21:10,629

search I enjoyed well back then yeah now

491

00:21:13,919 --> 00:21:12,219

Cheyenne Mountain is simply an Air

492

00:21:16,979 --> 00:21:13,929

Station that's that's on backup warm

493

00:21:19,859 --> 00:21:16,989

alert but but yeah it's it's it's so

494

00:21:21,719 --> 00:21:19,869

even in even in the nineteen sixties

495

00:21:26,729 --> 00:21:21,729

NORAD's ability now I've talked about

496

00:21:28,739 --> 00:21:26,739

more often will detecting things in the

497

00:21:30,329 --> 00:21:28,749

atmosphere already in the 60s and to a

498

00:21:31,919 --> 00:21:30,339

lesser extent in the seventies there

499

00:21:33,899 --> 00:21:31,929

they they had the role of tracking

500

00:21:36,839 --> 00:21:33,909

things in space it's not like that now

501
00:21:38,609 --> 00:21:36,849
which I'll discuss later but the the

502
00:21:41,249 --> 00:21:38,619
even the Deputy Secretary of Defense who

503
00:21:43,680 --> 00:21:41,259
was James Douglas in 1960 which is a

504
00:21:45,599 --> 00:21:43,690
very long time ago said he made a

505
00:21:47,789 --> 00:21:45,609
statement saying we have embarked on

506
00:21:49,829 --> 00:21:47,799
studies to inspect satellites at close

507
00:21:54,419 --> 00:21:49,839
range in the interests of our own

508
00:21:56,399 --> 00:21:54,429
satellite operations in other words us

509
00:21:58,559 --> 00:21:56,409
decision-makers had agreed that defense

510
00:22:01,699 --> 00:21:58,569
satellites in the future could be

511
00:22:05,189 --> 00:22:01,709
designed to study foreign spacecraft and

512
00:22:07,680 --> 00:22:05,199
and that that was that was that was

513
00:22:09,689 --> 00:22:07,690

something that a few UFO logis were

514

00:22:12,059 --> 00:22:09,699

actually very impressed by because

515

00:22:15,499 --> 00:22:12,069

imagine having the ability is way back

516

00:22:17,279 --> 00:22:15,509

because sixties to actually sneak up

517

00:22:19,889 --> 00:22:17,289

under the command of the Space

518

00:22:23,819 --> 00:22:19,899

Operations Center to actually slip on

519

00:22:25,609 --> 00:22:23,829

another satellite and and and and look

520

00:22:28,649 --> 00:22:25,619

what was going on

521

00:22:31,229 --> 00:22:28,659

yeah I mean we were doing that kind of

522

00:22:35,069 --> 00:22:31,239

thing with the Gemini program rendezvous

523

00:22:37,199 --> 00:22:35,079

with the it was the Agena with that they

524

00:22:41,609 --> 00:22:37,209

would do and rendezvous so they were

525

00:22:48,719 --> 00:22:41,619

working on this and to make a NASA yeah

526

00:22:51,749 --> 00:22:48,729

yeah and yeah it's it's it's it's so so

527

00:22:53,399 --> 00:22:51,759

one thing one thing that is is very it

528

00:22:56,819 --> 00:22:53,409

can sometimes be frustrating for me is

529

00:23:00,629 --> 00:22:56,829

that there is is a there is a

530

00:23:03,689 --> 00:23:00,639

misconception so so NORAD and its US Air

531

00:23:05,070 --> 00:23:03,699

Force squadron and wing counterparts are

532

00:23:11,220 --> 00:23:05,080

responsible for an

533

00:23:13,350 --> 00:23:11,230

Emira and canadian also Navy

534

00:23:15,960 --> 00:23:13,360

counterparts are responsible for what we

535

00:23:17,610 --> 00:23:15,970

call in atmosphere or air breathing or

536

00:23:18,060 --> 00:23:17,620

atmospheric detection validation and

537

00:23:20,280 --> 00:23:18,070

warning

538

00:23:22,350 --> 00:23:20,290

so that's planes missiles like cruise

539

00:23:25,950 --> 00:23:22,360

missiles hijacked planes stray aircraft

540

00:23:29,250 --> 00:23:25,960

the odd helicopter whatever most people

541

00:23:31,170 --> 00:23:29,260

at face value think that NORAD is also

542

00:23:34,710 --> 00:23:31,180

entirely or at least mostly responsible

543

00:23:38,610 --> 00:23:34,720

for Space Surveillance you know right

544

00:23:41,670 --> 00:23:38,620

out to height you know to where that

545

00:23:44,010 --> 00:23:41,680

really far satellites go most people

546

00:23:47,700 --> 00:23:44,020

think that NORAD is responsible for a

547

00:23:49,980 --> 00:23:47,710

space warning missile warning like

548

00:23:52,500 --> 00:23:49,990

missile impact warning meteorite debris

549

00:23:54,900 --> 00:23:52,510

impact warning the monitoring of

550

00:23:58,230 --> 00:23:54,910

friendly and not so friendly spacecraft

551
00:24:00,930 --> 00:23:58,240
new foreign launch warning so so the

552
00:24:03,750 --> 00:24:00,940
fact of the matter is now in the 2010s

553
00:24:06,810 --> 00:24:03,760
it's just not the case NORAD are simply

554
00:24:09,510 --> 00:24:06,820
now a customer of space tracking space

555
00:24:10,950 --> 00:24:09,520
detection information the primary and

556
00:24:13,500 --> 00:24:10,960
this is where this is where we'll be

557
00:24:15,210 --> 00:24:13,510
very careful my my colleagues and I with

558
00:24:16,290 --> 00:24:15,220
Freedom of Information requests and

559
00:24:19,380 --> 00:24:16,300
general correspondence with your

560
00:24:22,380 --> 00:24:19,390
government is is that the actual folk

561
00:24:24,450 --> 00:24:22,390
who are responsible for what goes on in

562
00:24:26,010 --> 00:24:24,460
space is actually primarily overall is

563
00:24:29,000 --> 00:24:26,020

actually us Stratcom which is US

564

00:24:31,730 --> 00:24:29,010

Strategic Command which is based at some

565

00:24:34,920 --> 00:24:31,740

offered Air Force Base in Nebraska and

566

00:24:36,900 --> 00:24:34,930

US US Strategic Command is made up of

567

00:24:38,310 --> 00:24:36,910

the space components command space

568

00:24:39,270 --> 00:24:38,320

component commands from the Army the

569

00:24:42,780 --> 00:24:39,280

Navy and the Air Force

570

00:24:44,790 --> 00:24:42,790

so that's army strategic missile defense

571

00:24:48,990 --> 00:24:44,800

command Navy Space Command and Air Force

572

00:24:51,510 --> 00:24:49,000

Space Command and of those of those age

573

00:24:53,310 --> 00:24:51,520

or of those components it is mostly Air

574

00:24:55,920 --> 00:24:53,320

Force Space Command

575

00:24:59,190 --> 00:24:55,930

dedicated to monitoring what goes on in

576
00:25:02,250 --> 00:24:59,200
space detecting new objects updating

577
00:25:04,350 --> 00:25:02,260
orbital catalogs you know sending

578
00:25:06,300 --> 00:25:04,360
sending impact and attack warnings to

579
00:25:09,390 --> 00:25:06,310
NORAD all or all the Joint Chiefs of

580
00:25:10,800 --> 00:25:09,400
Staff or the Canadian Parliament and and

581
00:25:13,260 --> 00:25:10,810
this is really important because people

582
00:25:15,240 --> 00:25:13,270
say well who actually watches like

583
00:25:16,830 --> 00:25:15,250
literally watches what goes on in space

584
00:25:18,010 --> 00:25:16,840
like where are the cameras where are the

585
00:25:21,970 --> 00:25:18,020
radars and

586
00:25:24,040 --> 00:25:21,980
right now it is right now the 21st Space

587
00:25:26,230 --> 00:25:24,050
Wing which is operational and the Air

588
00:25:30,220 --> 00:25:26,240

Force Space Command headquarters yes the

589

00:25:32,380 --> 00:25:30,230

24th 21st Space Wing has a group called

590

00:25:35,400 --> 00:25:32,390

the 21st Operations Group and within the

591

00:25:37,510 --> 00:25:35,410

21st Operations Group the 18th space

592

00:25:39,970 --> 00:25:37,520

control squadron at Vandenberg in

593

00:25:42,960 --> 00:25:39,980

California is responsible for tracking

594

00:25:47,620 --> 00:25:42,970

everything in orbit and it receives its

595

00:25:50,230 --> 00:25:47,630

information from a bunch of Space

596

00:25:54,250 --> 00:25:50,240

Surveillance Network sites which are run

597

00:25:57,549 --> 00:25:54,260

by the xx space control squadron they

598

00:26:02,880 --> 00:25:57,559

are the telescopes that are in Diego

599

00:26:05,590 --> 00:26:02,890

Garcia in Hawaii in Spain in England

600

00:26:08,650 --> 00:26:05,600

plus a bunch of long-range radar sites

601
00:26:11,320 --> 00:26:08,660
that are dedicated to incoming missile

602
00:26:13,210 --> 00:26:11,330
warning and so those those squadrons and

603
00:26:16,990 --> 00:26:13,220
those detachments use radar and

604
00:26:18,669 --> 00:26:17,000
telescopes to to monitor you know

605
00:26:20,950 --> 00:26:18,679
countries are the the launching new

606
00:26:22,870 --> 00:26:20,960
missile systems whatever and that's

607
00:26:25,570 --> 00:26:22,880
where we think at the absolute coalface

608
00:26:27,130 --> 00:26:25,580
some very unusual events you know on the

609
00:26:29,380 --> 00:26:27,140
edge of space are actually up into space

610
00:26:32,320 --> 00:26:29,390
may have occurred we know where the data

611
00:26:33,940 --> 00:26:32,330
goes we even know how it goes we know we

612
00:26:35,830 --> 00:26:33,950
know where it's stored it's stored at a

613
00:26:37,390 --> 00:26:35,840

place called the joint um at the joint

614

00:26:41,260 --> 00:26:37,400

Space Operations Center in Vandenberg

615

00:26:42,640 --> 00:26:41,270

who a tasked it's a center that's run by

616

00:26:44,740 --> 00:26:42,650

the joint functional component center

617

00:26:47,020 --> 00:26:44,750

for space under Air Force Space Command

618

00:26:48,910 --> 00:26:47,030

which are in turn under us Stratcom

619

00:26:52,480 --> 00:26:48,920

and that's precisely where we need to go

620

00:26:54,580 --> 00:26:52,490

for for for space object identification

621

00:26:56,710 --> 00:26:54,590

space verification Dallas Space

622

00:26:58,630 --> 00:26:56,720

Surveillance information object

623

00:27:00,760 --> 00:26:58,640

identification or misidentification or

624

00:27:03,340 --> 00:27:00,770

an identification and that that the

625

00:27:06,490 --> 00:27:03,350

problem is is that time and time again

626
00:27:08,650 --> 00:27:06,500
ever since actually 1996 researchers

627
00:27:10,810 --> 00:27:08,660
have been specifically told that

628
00:27:13,630 --> 00:27:10,820
uncorrelated target information from

629
00:27:16,450 --> 00:27:13,640
space is classified at minimum secret so

630
00:27:18,910 --> 00:27:16,460
so we've seen it in in in policy manuals

631
00:27:21,850 --> 00:27:18,920
and instruction manuals but but u.s.

632
00:27:28,240 --> 00:27:21,860
Stratcom and it's and it's a sub

633
00:27:30,040 --> 00:27:28,250
ordnance keeping all space space object

634
00:27:31,900 --> 00:27:30,050
information at minimum at the secret

635
00:27:33,310 --> 00:27:31,910
level so it

636
00:27:34,660 --> 00:27:33,320
just will not be declassified we're

637
00:27:36,820 --> 00:27:34,670
tried were tried every single angle

638
00:27:39,670 --> 00:27:36,830

we've even tried to approach the

639

00:27:43,690 --> 00:27:39,680

Americans through Britain that's that's

640

00:27:46,180 --> 00:27:43,700

like desperate to do that yeah we've

641

00:27:48,420 --> 00:27:46,190

even tried the Ministry of Defense's UK

642

00:27:52,420 --> 00:27:48,430

spy I think it's called the UK space

643

00:27:54,940 --> 00:27:52,430

space activity centre who'd they get it

644

00:27:56,440 --> 00:27:54,950

erector feed from from from America's

645

00:27:58,540 --> 00:27:56,450

joint functional component center for a

646

00:27:59,890 --> 00:27:58,550

space so we even tried to hoodwink by

647

00:28:03,190 --> 00:27:59,900

going in that direction and it certainly

648

00:28:04,540 --> 00:28:03,200

wasn't going to work yes so it's pretty

649

00:28:06,430 --> 00:28:04,550

fascinating stuff but all of this is

650

00:28:07,900 --> 00:28:06,440

overlooked I mean I mean most

651
00:28:10,840 --> 00:28:07,910
researchers are running around on

652
00:28:15,490 --> 00:28:10,850
Facebook talking about you know Bigelow

653
00:28:17,920 --> 00:28:15,500
and and and and and and AIT IP and and

654
00:28:20,620 --> 00:28:17,930
need some skinwalker ranch and and and

655
00:28:24,400 --> 00:28:20,630
and dabbling in gemstones and an Eastern

656
00:28:28,030 --> 00:28:24,410
religion and and then the the real

657
00:28:30,220 --> 00:28:28,040
culprits you know if if UFOs do exist if

658
00:28:31,780 --> 00:28:30,230
the real culprits are back at Peterson

659
00:28:35,230 --> 00:28:31,790
Air Force Base at Vandenberg in

660
00:28:37,990 --> 00:28:35,240
California so the these guys these

661
00:28:39,520 --> 00:28:38,000
organizations have the gear they've got

662
00:28:41,740 --> 00:28:39,530
the gear to capture the physical

663
00:28:43,780 --> 00:28:41,750

evidence of UFOs or whatever they turn

664

00:28:46,120 --> 00:28:43,790

out to be but they've got the gear to do

665

00:28:47,860 --> 00:28:46,130

it yeah I mean that's really what it

666

00:28:49,870 --> 00:28:47,870

comes down to I don't have a radar set

667

00:28:51,550 --> 00:28:49,880

in my backyard I'm working on you know

668

00:28:53,170 --> 00:28:51,560

I'm getting a refurbished one on eBay

669

00:28:55,210 --> 00:28:53,180

but you know I got to get my tax return

670

00:28:57,580 --> 00:28:55,220

before I can afford it and you know it's

671

00:29:00,670 --> 00:28:57,590

it's it's just you know like look we've

672

00:29:03,730 --> 00:29:00,680

even found um we've even we've even

673

00:29:07,960 --> 00:29:03,740

found but but we've actually even found

674

00:29:09,490 --> 00:29:07,970

a a a manual that is used that wood used

675

00:29:13,360 --> 00:29:09,500

to be used at Cheyenne Mountain in the

676

00:29:17,260 --> 00:29:13,370

80s it was a manual where it was it was

677

00:29:21,310 --> 00:29:17,270

a manual that discussed it discussed who

678

00:29:24,330 --> 00:29:21,320

would be pulled on board in case of you

679

00:29:27,550 --> 00:29:24,340

know a really weird space detection and

680

00:29:29,140 --> 00:29:27,560

it's called the operations loop and the

681

00:29:32,110 --> 00:29:29,150

the people that were involved in the

682

00:29:34,600 --> 00:29:32,120

operations loop worthy the NORAD command

683

00:29:36,340 --> 00:29:34,610

director the all the NORAD senior

684

00:29:38,130 --> 00:29:36,350

directors at sector level like all

685

00:29:41,800 --> 00:29:38,140

around the country and into Canada and

686

00:29:44,159 --> 00:29:41,810

and they would get on something they

687

00:29:46,859 --> 00:29:44,169

would get on a classified phones

688

00:29:49,919 --> 00:29:46,869

it's called the rape warning and and the

689

00:29:51,209 --> 00:29:49,929

it was only it was only five items that

690

00:29:53,609 --> 00:29:51,219

could be discussed between those

691

00:29:57,749 --> 00:29:53,619

particular battle space commanders and

692

00:29:59,609 --> 00:29:57,759

and and and spice of violence is spice

693

00:30:01,080 --> 00:29:59,619

violence operations people there was

694

00:30:04,379 --> 00:30:01,090

only there was only six objects that

695

00:30:06,629 --> 00:30:04,389

could a six person discussed one of them

696

00:30:08,459 --> 00:30:06,639

was unknown right our activity and the

697

00:30:11,070 --> 00:30:08,469

other another one was space object

698

00:30:13,979 --> 00:30:11,080

maneuvering so you know you'd like to be

699

00:30:16,049 --> 00:30:13,989

in in in one of those conversations when

700

00:30:18,749 --> 00:30:16,059

when something odd happened I don't know

701
00:30:21,450 --> 00:30:18,759
yeah well space object maneuvering that

702
00:30:24,200 --> 00:30:21,460
would be interesting yeah yeah yeah I

703
00:30:27,239 --> 00:30:24,210
know that's the actual term that's it's

704
00:30:29,839 --> 00:30:27,249
it's there's this the so many of there's

705
00:30:33,989 --> 00:30:29,849
so many interesting angles tool is

706
00:30:36,419 --> 00:30:33,999
another another organization that that

707
00:30:40,169 --> 00:30:36,429
has that really raised alarm bells for

708
00:30:45,509 --> 00:30:40,179
me was back in the back in the 80s

709
00:30:48,299 --> 00:30:45,519
though that NORAD NORAD was was joined

710
00:30:50,219 --> 00:30:48,309
at the hip with something it's funny

711
00:30:51,509 --> 00:30:50,229
with all this this Trump space force

712
00:30:55,259 --> 00:30:51,519
business because we've actually already

713
00:30:59,099 --> 00:30:55,269

had one back in the back from not and

714

00:31:02,369 --> 00:30:59,109

ahhh ahhh was not an 82 mm who the US

715

00:31:05,459 --> 00:31:02,379

Space Command existed it was it was a

716

00:31:08,129 --> 00:31:05,469

unified combatant command 26,000 staff

717

00:31:10,469 --> 00:31:08,139

underneath it US Space Command was based

718

00:31:13,409 --> 00:31:10,479

literally next to NORAD same buildings

719

00:31:14,969 --> 00:31:13,419

Science Center same land us Spica Space

720

00:31:16,799 --> 00:31:14,979

Command it's a bit like straight con

721

00:31:18,749 --> 00:31:16,809

today it was made up of Army Space

722

00:31:20,869 --> 00:31:18,759

Command Air Force Space Command a Navy

723

00:31:23,459 --> 00:31:20,879

Space Command and it was a centralized

724

00:31:26,070 --> 00:31:23,469

it was a centralized super center for

725

00:31:28,739 --> 00:31:26,080

everything from a space rocket launching

726
00:31:30,419 --> 00:31:28,749
through to you know here aiding foreign

727
00:31:32,789 --> 00:31:30,429
countries with their space launching

728
00:31:36,089 --> 00:31:32,799
through to protecting satellites from

729
00:31:38,159 --> 00:31:36,099
from computer virus uploads through to

730
00:31:40,709 --> 00:31:38,169
working alongside NASA in emergencies

731
00:31:44,009 --> 00:31:40,719
everything US Space Command it was was a

732
00:31:48,180 --> 00:31:44,019
huge unified combatant command and and

733
00:31:51,269 --> 00:31:48,190
and we thin within US Space Command

734
00:31:52,169 --> 00:31:51,279
NORAD there was a joint Directorate

735
00:31:54,659 --> 00:31:52,179
there was a joint

736
00:31:56,099 --> 00:31:54,669
organization that was answered both

737
00:31:57,070 --> 00:31:56,109
directly through the commander in chief

738
00:31:59,080 --> 00:31:57,080

of NORAD on the come

739

00:32:01,390 --> 00:31:59,090

chief of space command and it was called

740

00:32:04,510 --> 00:32:01,400

the Directorate of aerospace analysis

741

00:32:07,480 --> 00:32:04,520

and apparently it had about 60 start off

742

00:32:09,340 --> 00:32:07,490

any 80s and in the 90s it was the name

743

00:32:11,650 --> 00:32:09,350

was changed actually to the center for

744

00:32:15,310 --> 00:32:11,660

aerospace analysis the reason this

745

00:32:19,090 --> 00:32:15,320

center is important is is I found out

746

00:32:23,350 --> 00:32:19,100

through an old an old NORAD / US Space

747

00:32:25,810 --> 00:32:23,360

Command policy document I I found that

748

00:32:27,970 --> 00:32:25,820

that there was a statement that there

749

00:32:30,820 --> 00:32:27,980

was a whole chapter on unknown tracks

750

00:32:32,230 --> 00:32:30,830

so when NORAD's radars when their

751

00:32:34,240 --> 00:32:32,240

long-range trackball scout and heart

752

00:32:36,760 --> 00:32:34,250

finding radars pick up something that

753

00:32:39,370 --> 00:32:36,770

they simply they can't it's it's it's

754

00:32:40,750 --> 00:32:39,380

not communicating on radio it's it's

755

00:32:42,580 --> 00:32:40,760

they're watching it on the screens it's

756

00:32:44,290 --> 00:32:42,590

something coming towards United States

757

00:32:45,940 --> 00:32:44,300

we're leaving at a very rapid pace or

758

00:32:47,620 --> 00:32:45,950

something that shouldn't be there it's

759

00:32:51,640 --> 00:32:47,630

it's on the screens it's literally

760

00:32:54,910 --> 00:32:51,650

called an unknown track or at UNK or UNK

761

00:32:56,380 --> 00:32:54,920

T UT whatever edge screens be different

762

00:33:01,440 --> 00:32:56,390

I think but but it's called an unknown

763

00:33:06,070 --> 00:33:01,450

track and what's important is is that

764

00:33:08,440 --> 00:33:06,080

any any unknown track that stays unknown

765

00:33:11,500 --> 00:33:08,450

for more than five minutes and and is

766

00:33:13,450 --> 00:33:11,510

not resolved it's it's called a NORAD

767

00:33:15,790 --> 00:33:13,460

remaining unknown it means that if

768

00:33:17,650 --> 00:33:15,800

something was definitely up there it

769

00:33:19,450 --> 00:33:17,660

didn't appear to land we can't arrest

770

00:33:22,210 --> 00:33:19,460

the pilot we don't know where it went it

771

00:33:24,100 --> 00:33:22,220

was really strange anyway I've got a

772

00:33:26,710 --> 00:33:24,110

document like I was saying it's a it's a

773

00:33:29,500 --> 00:33:26,720

NORAD s'posed command joint public ocean

774

00:33:33,010 --> 00:33:29,510

and it says in Section 11 point 1 it

775

00:33:36,010 --> 00:33:33,020

says the age the air defense Operations

776

00:33:40,170 --> 00:33:36,020

Center sends a copy of these reports to

777

00:33:44,830 --> 00:33:40,180

the center of the aerospace analysis and

778

00:33:47,320 --> 00:33:44,840

and I thought I've seen this Center for

779

00:33:51,730 --> 00:33:47,330

aerospace analysis before and so I

780

00:33:54,730 --> 00:33:51,740

pulled up I pulled up an old an old

781

00:33:56,440 --> 00:33:54,740

letter that was sent to British

782

00:33:58,660 --> 00:33:56,450

researcher called Armin Victorian which

783

00:34:02,340 --> 00:33:58,670

and this old letter admitted that the

784

00:34:05,050 --> 00:34:02,350

Center for aerospace analysis did do

785

00:34:07,540 --> 00:34:05,060

analysis and investigative work on

786

00:34:08,460 --> 00:34:07,550

unknown tracks and NORAD remaining

787

00:34:10,830 --> 00:34:08,470

unknown tracks

788

00:34:12,330 --> 00:34:10,840

and that was so so I've got sort of like

789

00:34:14,490 --> 00:34:12,340

double confirmation because you can't

790

00:34:16,080 --> 00:34:14,500

just go off one old document you know

791

00:34:20,909 --> 00:34:16,090

like all the time it's really good if

792

00:34:22,649 --> 00:34:20,919

you can have some backup and the I think

793

00:34:23,700 --> 00:34:22,659

the actual wording that was sent to UM

794

00:34:25,139 --> 00:34:23,710

the Victorian I've got it I've just

795

00:34:27,210 --> 00:34:25,149

pulled it up in front of me it says the

796

00:34:30,030 --> 00:34:27,220

aerospace analysis Directorate does

797

00:34:32,070 --> 00:34:30,040

perform analysis on NORAD unknown track

798

00:34:34,200 --> 00:34:32,080

reports they perform their analysis

799

00:34:37,710 --> 00:34:34,210

under the auspices of the NORAD role

800

00:34:42,089 --> 00:34:37,720

using a dedicated NORAD database so here

801
00:34:44,520 --> 00:34:42,099
we've got a I guess a and a discussion

802
00:34:47,190 --> 00:34:44,530
saying that that weird unknown radar

803
00:34:51,240 --> 00:34:47,200
hits and and detection x' using NORAD

804
00:34:53,159 --> 00:34:51,250
radar systems a study that this

805
00:34:54,780 --> 00:34:53,169
directorate for aerospace analysis of

806
00:34:58,260 --> 00:34:54,790
later center for aerospace analysis

807
00:35:00,180 --> 00:34:58,270
finally one final document from 2004

808
00:35:03,990 --> 00:35:00,190
which i haven't written about yet i've

809
00:35:07,170 --> 00:35:04,000
got to do this I found that that in 2004

810
00:35:09,450 --> 00:35:07,180
the House House Committee on Government

811
00:35:11,849 --> 00:35:09,460
Reform asked NORAD a series of questions

812
00:35:14,550 --> 00:35:11,859
we're learning a bit to September 11 and

813
00:35:17,579 --> 00:35:14,560

and hijacked aircraft but in in their

814

00:35:21,210 --> 00:35:17,589

replies the Nora had actually said to

815

00:35:23,760 --> 00:35:21,220

the to the committee they said they said

816

00:35:25,790 --> 00:35:23,770

that the center for again same word the

817

00:35:29,430 --> 00:35:25,800

Center for area of space analysis

818

00:35:31,950 --> 00:35:29,440

performs you know investigative work on

819

00:35:35,220 --> 00:35:31,960

on on NORAD remaining unknown tracks

820

00:35:37,890 --> 00:35:35,230

which have you know puzzled operations

821

00:35:40,109 --> 00:35:37,900

staff whatever it says and that is that

822

00:35:42,480 --> 00:35:40,119

so this this toolkit position has been

823

00:35:45,359 --> 00:35:42,490

around since at least not ever and it

824

00:35:47,130 --> 00:35:45,369

was still current as of 2004 so if

825

00:35:49,050 --> 00:35:47,140

they're if they're performing analysis

826

00:35:53,190 --> 00:35:49,060

and investigative and exploratory work

827

00:35:55,650 --> 00:35:53,200

on on the weirdest unknown radar

828

00:35:58,160 --> 00:35:55,660

detection zyk Ross North America this is

829

00:36:00,660 --> 00:35:58,170

something of paramount importance but

830

00:36:03,570 --> 00:36:00,670

talking to them directly is impossible

831

00:36:07,290 --> 00:36:03,580

because they're they're underneath NORAD

832

00:36:08,760 --> 00:36:07,300

headquarters and they by law they they

833

00:36:11,790 --> 00:36:08,770

are they're exempt from the Freedom of

834

00:36:13,950 --> 00:36:11,800

Information Act and and any everything

835

00:36:16,260 --> 00:36:13,960

would be classified at least secret so

836

00:36:19,710 --> 00:36:16,270

that's another area to significant

837

00:36:21,660 --> 00:36:19,720

investigations got it now you also

838

00:36:24,509 --> 00:36:21,670

mentioned that

839

00:36:30,180 --> 00:36:24,519

they also acquire information from the

840

00:36:32,759 --> 00:36:30,190

Federal Aviation Administration yeah

841

00:36:37,019 --> 00:36:32,769

that was that was an interesting one so

842

00:36:39,900 --> 00:36:37,029

I discovered I was looking in an old

843

00:36:42,690 --> 00:36:39,910

Federal Aviation Administration order

844

00:36:44,460 --> 00:36:42,700

which is kind of like a huge book an

845

00:36:46,859 --> 00:36:44,470

order in this particular order I think

846

00:36:51,150 --> 00:36:46,869

was it running at 600 pages or something

847

00:36:54,029 --> 00:36:51,160

and and it's it that will the Federal

848

00:36:56,549 --> 00:36:54,039

Aviation Administration they have

849

00:36:58,500 --> 00:36:56,559

excellent secondary surveillance radar

850

00:37:01,529 --> 00:36:58,510

and primary radar coverage obviously

851
00:37:03,480 --> 00:37:01,539
around airports and also also between

852
00:37:05,130 --> 00:37:03,490
major airports I have these on route

853
00:37:07,910 --> 00:37:05,140
these massive on route centers which

854
00:37:11,490 --> 00:37:07,920
which which monitor monitor

855
00:37:14,569 --> 00:37:11,500
aircraft flying behind the sky there's

856
00:37:17,309 --> 00:37:14,579
so and and the Federal Aviation

857
00:37:20,549 --> 00:37:17,319
Administration radar feed or radar data

858
00:37:22,559 --> 00:37:20,559
is shared with NORAD so where NORAD and

859
00:37:24,930 --> 00:37:22,569
the US Air Force counterparts where they

860
00:37:26,670 --> 00:37:24,940
do not have radar coverage because the

861
00:37:28,349 --> 00:37:26,680
US Air Force and NORAD can't literally

862
00:37:29,700 --> 00:37:28,359
have radar coverage absolutely

863
00:37:31,769 --> 00:37:29,710

everywhere they're not now you know

864

00:37:34,740 --> 00:37:31,779

they're primarily for attack and warning

865

00:37:37,019 --> 00:37:34,750

and for for drug runners and for hijack

866

00:37:39,319 --> 00:37:37,029

aircraft and and and and attack warning

867

00:37:42,630 --> 00:37:39,329

from the direction of I suppose Russia

868

00:37:45,150 --> 00:37:42,640

the and missile warning so to have say

869

00:37:47,490 --> 00:37:45,160

NORAD and US Air Force live radar

870

00:37:50,130 --> 00:37:47,500

streams from say the middle of Kentucky

871

00:37:54,450 --> 00:37:50,140

we would same a bit so the FAA has

872

00:37:58,440 --> 00:37:54,460

plugged those holes and I found a I

873

00:38:01,319 --> 00:37:58,450

found an interesting document on a and

874

00:38:04,799 --> 00:38:01,329

and what it showed was it was it was if

875

00:38:08,999 --> 00:38:04,809

there's a situation where the FAA has

876

00:38:11,279 --> 00:38:09,009

aided the tracking of all the via the

877

00:38:13,980 --> 00:38:11,289

tracking of a of an unexpected or

878

00:38:17,309 --> 00:38:13,990

unknown aircraft object whatever and

879

00:38:20,519 --> 00:38:17,319

let's say let's say the FIA yet the FAI

880

00:38:25,200 --> 00:38:20,529

share that data with NORAD NORAD will

881

00:38:27,690 --> 00:38:25,210

then command or ask a US Air Force jet

882

00:38:32,309 --> 00:38:27,700

or pair of jets to go and chase that

883

00:38:34,289 --> 00:38:32,319

object and at the eff is on the FAA site

884

00:38:35,130 --> 00:38:34,299

so so now we've got three distinct I

885

00:38:37,590 --> 00:38:35,140

suppose organ

886

00:38:39,960 --> 00:38:37,600

oceans watching or at least concerned

887

00:38:42,150 --> 00:38:39,970

about an unknown object we've got NORAD

888

00:38:44,670 --> 00:38:42,160

whose victory in aircraft we've got the

889

00:38:46,560 --> 00:38:44,680

US aircraft US Air Force were actually

890

00:38:48,720 --> 00:38:46,570

operating the aircraft and piloting them

891

00:38:51,710 --> 00:38:48,730

and we've got the FAA who is monitoring

892

00:38:54,090 --> 00:38:51,720

the whole situation primarily from the

893

00:38:55,650 --> 00:38:54,100

from the point of a prep for the purpose

894

00:38:57,270 --> 00:38:55,660

of air safety think you know civilian

895

00:38:59,100 --> 00:38:57,280

airlines okay if you don't mind let me

896

00:39:01,050 --> 00:38:59,110

yeah jump in here really quick

897

00:39:02,970 --> 00:39:01,060

a lot of folks are at home I'm sure are

898

00:39:05,220 --> 00:39:02,980

familiar with air traffic controllers

899

00:39:06,510 --> 00:39:05,230

and what they do basically when they're

900

00:39:08,820 --> 00:39:06,520

looking at that screen what they're

901
00:39:12,270 --> 00:39:08,830
looking at is merged data where they're

902
00:39:13,800 --> 00:39:12,280
getting a feed from radar and that can

903
00:39:15,600 --> 00:39:13,810
vary depending on what part of the

904
00:39:17,340 --> 00:39:15,610
country they're in in terms of who owns

905
00:39:19,740 --> 00:39:17,350
the radar installation but they're

906
00:39:21,570 --> 00:39:19,750
hitting there they're getting a merged

907
00:39:23,730 --> 00:39:21,580
data the radar and then they're also

908
00:39:25,980 --> 00:39:23,740
getting the transponder information so

909
00:39:29,580 --> 00:39:25,990
they know the flight numbers and so on

910
00:39:30,780 --> 00:39:29,590
of you know who's up in the air now the

911
00:39:32,910 --> 00:39:30,790
reason I happen to know a little bit

912
00:39:36,420 --> 00:39:32,920
about this relates to the Japan airline

913
00:39:39,390 --> 00:39:36,430

case where yeah what what Bruce Maccabee

914

00:39:42,240 --> 00:39:39,400

and Ron Pandolfi were able to do was get

915

00:39:44,520 --> 00:39:42,250

the video screen basically a videotape

916

00:39:46,680 --> 00:39:44,530

of the air traffic controllers screen

917

00:39:50,220 --> 00:39:46,690

and what that was was the merged data

918

00:39:52,260 --> 00:39:50,230

from the obviously the transponder

919

00:39:54,600 --> 00:39:52,270

information and all that but also the

920

00:39:55,860 --> 00:39:54,610

radar and the radar up in Alaska up in

921

00:39:57,240 --> 00:39:55,870

the middle of nowhere was owned by the

922

00:39:58,950 --> 00:39:57,250

Air Force so I just wanted to throw that

923

00:40:01,440 --> 00:39:58,960

in there just to impress people that I

924

00:40:03,690 --> 00:40:01,450

know a little bit about that's a classic

925

00:40:06,330 --> 00:40:03,700

that is a classic stays a classic

926
00:40:09,920 --> 00:40:06,340
example Elmendorf primary radar US Air

927
00:40:13,110 --> 00:40:09,930
Force and the Alaska FAI air region

928
00:40:14,910 --> 00:40:13,120
transponder SSR writer was merging and

929
00:40:17,160 --> 00:40:14,920
mergers both on repay and merger in the

930
00:40:20,190 --> 00:40:17,170
form of printouts like target printouts

931
00:40:22,770 --> 00:40:20,200
but yes so I was I was studying the FAA

932
00:40:24,710 --> 00:40:22,780
in its relationship to you know helping

933
00:40:28,050 --> 00:40:24,720
alright and the US Air Force vectoring

934
00:40:31,110 --> 00:40:28,060
aircraft into like you know encircling

935
00:40:33,150 --> 00:40:31,120
or visually you know inspecting an

936
00:40:36,690 --> 00:40:33,160
unknown object and I found something

937
00:40:39,360 --> 00:40:36,700
turns out that FAA air traffic

938
00:40:41,250 --> 00:40:39,370

controllers when when apparently this

939

00:40:43,830 --> 00:40:41,260

happens when the FAA a part of the

940

00:40:46,080 --> 00:40:43,840

process of helping the US Air Force or

941

00:40:47,610 --> 00:40:46,090

and NORAD chase down and you know a

942

00:40:50,880 --> 00:40:47,620

pesky balloon or

943

00:40:53,960 --> 00:40:50,890

UFO or whatever right the the FAA

944

00:40:56,370 --> 00:40:53,970

controllers have to fill out a form and

945

00:40:58,400 --> 00:40:56,380

there's there's actually two sections to

946

00:41:00,600 --> 00:40:58,410

it depending on what happens in the sky

947

00:41:02,730 --> 00:41:00,610

there's two sections either they fill

948

00:41:05,870 --> 00:41:02,740

out Part A or they fill out Part B and

949

00:41:08,820 --> 00:41:05,880

Part A is called aircraft's

950

00:41:11,670 --> 00:41:08,830

identification before intercept and what

951
00:41:14,910 --> 00:41:11,680
that means is is that if if the US Air

952
00:41:17,280 --> 00:41:14,920
Force identified the object or if

953
00:41:19,830 --> 00:41:17,290
someone identified what the object was

954
00:41:23,040 --> 00:41:19,840
before the planes got there like through

955
00:41:25,350 --> 00:41:23,050
you know a mayday signal and SOS the

956
00:41:27,090 --> 00:41:25,360
aircraft crashed in the sea whatever if

957
00:41:29,100 --> 00:41:27,100
so if the object or aircraft is

958
00:41:30,510 --> 00:41:29,110
identified well before the US Air Force

959
00:41:37,530 --> 00:41:30,520
actually get there don't stare in it

960
00:41:40,980 --> 00:41:37,540
they fill out Part A and and if though

961
00:41:43,590 --> 00:41:40,990
the aircraft or the the object is

962
00:41:46,320 --> 00:41:43,600
identified after intercept occurs that

963
00:41:48,480 --> 00:41:46,330

means so the US Air Force get there they

964

00:41:50,430 --> 00:41:48,490

radioed back to the FAA and NORAD and

965

00:41:52,710 --> 00:41:50,440

say oh crap this is just another balloon

966

00:41:54,710 --> 00:41:52,720

or it's a research balloon or it's a

967

00:41:58,200 --> 00:41:54,720

remote-controlled drone that's obviously

968

00:42:00,240 --> 00:41:58,210

stray or whatever then the the FAA

969

00:42:03,030 --> 00:42:00,250

controllers fill out Part B and that's

970

00:42:06,420 --> 00:42:03,040

that's called a unknown intercept log

971

00:42:08,610 --> 00:42:06,430

Part B and so what I was it occurred to

972

00:42:10,320 --> 00:42:08,620

me that over the years I suppose that if

973

00:42:14,220 --> 00:42:10,330

I can air-traffic controllers have

974

00:42:17,490 --> 00:42:14,230

probably filled out a lot of a lot of

975

00:42:22,320 --> 00:42:17,500

these a lot of these forms so I'd be

976

00:42:24,450 --> 00:42:22,330

curious to see I be curious to see the

977

00:42:27,240 --> 00:42:24,460

after II intercept forms I mean I mean

978

00:42:30,240 --> 00:42:27,250

most times I'm sure that the the after

979

00:42:32,250 --> 00:42:30,250

intercept forms will will simply that

980

00:42:36,450 --> 00:42:32,260

the piles of them that simply say you

981

00:42:38,640 --> 00:42:36,460

know US Air Force jets got there we we

982

00:42:40,500 --> 00:42:38,650

found it was a balloon as we suspected

983

00:42:43,800 --> 00:42:40,510

blah blah blah but I'd be curious to see

984

00:42:45,060 --> 00:42:43,810

what all of them mean I mean imagine if

985

00:42:47,730 --> 00:42:45,070

we found a situation where an air

986

00:42:50,990 --> 00:42:47,740

traffic controller dfi I had written us

987

00:42:54,510 --> 00:42:51,000

a US Air Force jets under our control

988

00:42:58,290 --> 00:42:54,520

and with NORAD identified the object as

989

00:43:00,360 --> 00:42:58,300

you know a football shaped glowing

990

00:43:01,030 --> 00:43:00,370

metallic disc whatever

991

00:43:03,580 --> 00:43:01,040

now that would

992

00:43:05,740 --> 00:43:03,590

interesting and and these these these

993

00:43:07,090 --> 00:43:05,750

these forms apparently I read are

994

00:43:09,190 --> 00:43:07,100

actually kept for a long time

995

00:43:12,520 --> 00:43:09,200

they kept because of the statistical and

996

00:43:16,810 --> 00:43:12,530

safety reasons so you know that's that's

997

00:43:21,280 --> 00:43:16,820

a that's another I suppose angle for for

998

00:43:23,950 --> 00:43:21,290

FOI request yeah now right you also

999

00:43:25,480 --> 00:43:23,960

wanted this to discuss Nasik and that

1000

00:43:27,640 --> 00:43:25,490

might be an acronym that a lot of folks

1001
00:43:32,410 --> 00:43:27,650
are not familiar with so why don't you

1002
00:43:38,320 --> 00:43:32,420
run through that a little bit and that

1003
00:43:41,500 --> 00:43:38,330
was so I guess a lot of a lot of

1004
00:43:45,280 --> 00:43:41,510
listeners will remember that the the US

1005
00:43:47,290 --> 00:43:45,290
Air Force originally well after project

1006
00:43:51,780 --> 00:43:47,300
silent project Roger which would early

1007
00:43:54,400 --> 00:43:51,790
UFO case collection and investigative

1008
00:43:55,870 --> 00:43:54,410
efforts by the Directorate of Air Force

1009
00:43:58,420 --> 00:43:55,880
intelligence and Air Force Materiel

1010
00:44:02,410 --> 00:43:58,430
Command or air Materiel Command back

1011
00:44:07,030 --> 00:44:02,420
then that people will know that from

1012
00:44:10,270 --> 00:44:07,040
from for 20 years until 1969 the Project

1013
00:44:13,570 --> 00:44:10,280

Blue Book was the-- apparently was the

1014

00:44:15,970 --> 00:44:13,580

20-year ongoing study investigative

1015

00:44:18,430 --> 00:44:15,980

study kate's collection coast collation

1016

00:44:22,180 --> 00:44:18,440

public affairs shambles at

1017

00:44:24,810 --> 00:44:22,190

wright-patterson Air Force Base well in

1018

00:44:27,160 --> 00:44:24,820

the early days Blue Book was actually

1019

00:44:30,670 --> 00:44:27,170

operated as it was one of ninety

1020

00:44:34,510 --> 00:44:30,680

projects within the if the air technical

1021

00:44:36,850 --> 00:44:34,520

intelligence centers area air Technol

1022

00:44:41,080 --> 00:44:36,860

intelligence center actually in I think

1023

00:44:43,390 --> 00:44:41,090

1961 changed its name to F today the

1024

00:44:47,980 --> 00:44:43,400

foreign technology division and foreign

1025

00:44:50,050 --> 00:44:47,990

technology division was some was was was

1026
00:44:51,670 --> 00:44:50,060
tasked or functional under Air Force

1027
00:44:53,590 --> 00:44:51,680
Systems Command

1028
00:44:59,890 --> 00:44:53,600
anyway the foreign technology division

1029
00:45:01,900 --> 00:44:59,900
where FTD was well I they existed for

1030
00:45:04,510 --> 00:45:01,910
about thirty years until they got they

1031
00:45:06,370 --> 00:45:04,520
got a whole pile of name changes they've

1032
00:45:08,050 --> 00:45:06,380
always the FTD or foreign technology

1033
00:45:10,540 --> 00:45:08,060
division they've always been it at

1034
00:45:13,450 --> 00:45:10,550
wright-patterson Air Force Base and they

1035
00:45:14,319 --> 00:45:13,460
go back they can draw their lineage all

1036
00:45:16,479 --> 00:45:14,329
the way back to world

1037
00:45:19,870 --> 00:45:16,489
I want this is not a new organization

1038
00:45:22,299 --> 00:45:19,880

yes yeah army i fell ya the army there

1039

00:45:26,019 --> 00:45:22,309

was an army engineering sector the

1040

00:45:29,979 --> 00:45:26,029

traceless that if you go right yeah and

1041

00:45:32,049 --> 00:45:29,989

but in the in the late 80s the FTD was

1042

00:45:34,900 --> 00:45:32,059

all of a sudden the Air Force you know

1043

00:45:36,939 --> 00:45:34,910

it was was some you know I have F to the

1044

00:45:38,859 --> 00:45:36,949

last see which was the foreign aerospace

1045

00:45:41,019 --> 00:45:38,869

science technology center then it was

1046

00:45:44,679 --> 00:45:41,029

then it was neighing at the National Air

1047

00:45:47,679 --> 00:45:44,689

Intelligence Center and in truth about

1048

00:45:50,429 --> 00:45:47,689

fifteen years ago the name changed and

1049

00:45:52,719 --> 00:45:50,439

we're still got it was it's it's now the

1050

00:45:54,870 --> 00:45:52,729

it's now the National Air and Space

1051
00:45:58,890 --> 00:45:54,880
Intelligence Center or NASA k-- and

1052
00:46:01,479 --> 00:45:58,900
where this is important is that NASA

1053
00:46:06,299 --> 00:46:01,489
classics whole job like like their

1054
00:46:09,729 --> 00:46:06,309
primary mission is to is to work with

1055
00:46:12,249 --> 00:46:09,739
foreign like like to study and

1056
00:46:14,919 --> 00:46:12,259
investigate and analyze and replicate

1057
00:46:17,709 --> 00:46:14,929
everything from from foreign missile

1058
00:46:20,529 --> 00:46:17,719
systems to event you know a foreign

1059
00:46:22,929 --> 00:46:20,539
rocket systems to studying everything

1060
00:46:27,130 --> 00:46:22,939
from the fuel requirements of a foreign

1061
00:46:29,469 --> 00:46:27,140
aircraft through the the aerial cyber

1062
00:46:32,890 --> 00:46:29,479
attack capabilities of foreign aircraft

1063
00:46:34,390 --> 00:46:32,900

to you know the progress of satellite

1064

00:46:37,209 --> 00:46:34,400

development within third-world countries

1065

00:46:45,009 --> 00:46:37,219

or rogue states or or whatever they

1066

00:46:48,429 --> 00:46:45,019

Nasik assic a vital in the in keeping

1067

00:46:53,339 --> 00:46:48,439

America at the absolute forefront of of

1068

00:46:58,419 --> 00:46:53,349

of air and aerospace in space capability

1069

00:47:02,109 --> 00:46:58,429

so it is it would be of no surprise to

1070

00:47:04,239 --> 00:47:02,119

me I mean even in the 80s even in the

1071

00:47:07,089 --> 00:47:04,249

80s like like basically project Bluebook

1072

00:47:08,890 --> 00:47:07,099

wound up at the end of 1969 and with

1073

00:47:10,059 --> 00:47:08,900

that the foreign technology division or

1074

00:47:12,219 --> 00:47:10,069

where he had the foreign technology

1075

00:47:15,039 --> 00:47:12,229

division apparently washed their hands

1076

00:47:16,329 --> 00:47:15,049

at the UFO topic well since then in the

1077

00:47:19,539 --> 00:47:16,339

seventies and eighties and nineties

1078

00:47:21,579 --> 00:47:19,549

there has been numerous examples where

1079

00:47:23,410 --> 00:47:21,589

the foreign technology division whether

1080

00:47:26,620 --> 00:47:23,420

it be you know the flight services

1081

00:47:28,210 --> 00:47:26,630

squadron or one of the a disruptive

1082

00:47:31,599 --> 00:47:28,220

technology mission

1083

00:47:34,660 --> 00:47:31,609

whatever have have come up in UFO law so

1084

00:47:38,770 --> 00:47:34,670

so an example would be nights at 89

1085

00:47:39,280 --> 00:47:38,780

a not at 89 so going back to NORAD for a

1086

00:47:41,910 --> 00:47:39,290

second

1087

00:47:43,930 --> 00:47:41,920

NORAD and the Air Force Space Command

1088

00:47:46,839 --> 00:47:43,940

occasionally using something called the

1089

00:47:49,660 --> 00:47:46,849

DSP satellite system occasionally the

1090

00:47:53,320 --> 00:47:49,670

DSP satellite system whose job it is to

1091

00:47:54,460 --> 00:47:53,330

detect Nicola Nicola launch that like

1092

00:47:56,589 --> 00:47:54,470

nuclear missile launchers and

1093

00:47:58,660 --> 00:47:56,599

detonations on the Earth's surface

1094

00:48:00,790 --> 00:47:58,670

the DSP space mission would occasionally

1095

00:48:04,000 --> 00:48:00,800

pick up these things called fast walkers

1096

00:48:06,010 --> 00:48:04,010

and fast walkers if you believe if you

1097

00:48:08,170 --> 00:48:06,020

believe what is written about them which

1098

00:48:12,060 --> 00:48:08,180

is probably true they're fast walkers

1099

00:48:15,130 --> 00:48:12,070

are simply foreign or unknown or

1100

00:48:18,460 --> 00:48:15,140

unexpected subtle other spacecraft that

1101

00:48:20,140 --> 00:48:18,470

get in the field of view of a DSP

1102

00:48:23,140 --> 00:48:20,150

satellite and reflect a lot of sunlight

1103

00:48:27,820 --> 00:48:23,150

so so you've got a DSP satellite looking

1104

00:48:30,480 --> 00:48:27,830

down on earth a new Chinese sorry

1105

00:48:34,420 --> 00:48:30,490

dinnertime DSP can you clear that out

1106

00:48:37,720 --> 00:48:34,430

support program defense Support Program

1107

00:48:39,790 --> 00:48:37,730

satellite and the operated by a Buckley

1108

00:48:43,510 --> 00:48:39,800

Air Force Base Colorado story yeah

1109

00:48:45,060 --> 00:48:43,520

Buckley Air Force place and and okay I

1110

00:48:47,470 --> 00:48:45,070

think Eglin Air Force Base in Florida

1111

00:48:49,570 --> 00:48:47,480

yeah they they just these these I

1112

00:48:52,300 --> 00:48:49,580

suppose constellation of satellites that

1113

00:48:53,500 --> 00:48:52,310

look down on surface waiting for waiting

1114

00:48:56,230 --> 00:48:53,510

for new killer blast

1115

00:48:57,820 --> 00:48:56,240

they light detectors they call bang on

1116

00:48:59,650 --> 00:48:57,830

motors they're Logitech sirs are so

1117

00:49:02,620 --> 00:48:59,660

sensitive that they'll even pick up

1118

00:49:05,380 --> 00:49:02,630

forest fires and oil will explosions and

1119

00:49:07,660 --> 00:49:05,390

and fireworks factory explosions and and

1120

00:49:09,400 --> 00:49:07,670

whatever anyway sometimes here for

1121

00:49:11,770 --> 00:49:09,410

foreign satellite zooms past the field

1122

00:49:16,570 --> 00:49:11,780

of view for a couple of minutes that

1123

00:49:20,950 --> 00:49:16,580

data will the the object is called a

1124

00:49:25,960 --> 00:49:20,960

fast Walker and and fast Walker data is

1125

00:49:27,820 --> 00:49:25,970

handled by is handled by NORAD and the

1126
00:49:30,870 --> 00:49:27,830
and the space and the Air Force Space

1127
00:49:38,349 --> 00:49:34,720
Operations Center anyway so like I was

1128
00:49:40,370 --> 00:49:38,359
saying before the the the lassic or the

1129
00:49:41,809 --> 00:49:40,380
old foreign technology division

1130
00:49:42,980 --> 00:49:41,819
you wouldn't let you know you wouldn't

1131
00:49:44,599 --> 00:49:42,990
think that the foreign technology

1132
00:49:53,329 --> 00:49:44,609
division that wright-patterson Air Force

1133
00:49:55,849 --> 00:49:53,339
Base would be would be so so look there

1134
00:49:58,430 --> 00:49:55,859
their job in unknown object detection

1135
00:50:01,400 --> 00:49:58,440
and tracking has long gone apparently

1136
00:50:04,549 --> 00:50:01,410
but it turns out that that that fast

1137
00:50:06,259 --> 00:50:04,559
Walker data so you know direction of

1138
00:50:08,299 --> 00:50:06,269

strange object in space light

1139

00:50:10,549 --> 00:50:08,309

reflectivity of strange object in space

1140

00:50:12,470 --> 00:50:10,559

what made our systems pick it up and not

1141

00:50:14,539 --> 00:50:12,480

others whatever you know cuz fast

1142

00:50:16,519 --> 00:50:14,549

walkers have been linked to the UFO

1143

00:50:18,640 --> 00:50:16,529

phenomena those who do not believe that

1144

00:50:21,470 --> 00:50:18,650

past walkers are just foreign satellites

1145

00:50:22,670 --> 00:50:21,480

will call them UFOs our sort of UFOs

1146

00:50:25,970 --> 00:50:22,680

anyway

1147

00:50:28,190 --> 00:50:25,980

I was quite surprised because it turns

1148

00:50:31,730 --> 00:50:28,200

out that fast Walker data is actually

1149

00:50:35,390 --> 00:50:31,740

analyzed by the foreign technology

1150

00:50:38,089 --> 00:50:35,400

division and one for instance a Jeff

1151

00:50:40,190 --> 00:50:38,099

return Richardson's famed book American

1152

00:50:42,940 --> 00:50:40,200

space ascent America's Space Central's

1153

00:50:44,930 --> 00:50:42,950

the history of the DSP satellite system

1154

00:50:46,670 --> 00:50:44,940

Jeffrey T Richardson was a was a

1155

00:50:49,190 --> 00:50:46,680

nonfiction author who studied US

1156

00:50:51,859 --> 00:50:49,200

intelligence space surveillance etc he

1157

00:50:53,420 --> 00:50:51,869

wrote after interviewing someone who he

1158

00:50:59,509 --> 00:50:53,430

wouldn't name someone obviously it's

1159

00:51:01,160 --> 00:50:59,519

Space Command or he he Richardson wrote

1160

00:51:04,130 --> 00:51:01,170

in his book he's nice a ninety nine book

1161

00:51:07,279 --> 00:51:04,140

he wrote quote most fast walkers have

1162

00:51:09,559 --> 00:51:07,289

been routine observations of foreign

1163

00:51:13,190 --> 00:51:09,569

spacecraft the infrared readings

1164

00:51:14,809 --> 00:51:13,200

obtained by DSP satellites resulting

1165

00:51:18,140 --> 00:51:14,819

from the reflection of sunlight of

1166

00:51:20,960 --> 00:51:18,150

spacecraft provide analysts at the CIA

1167

00:51:23,240 --> 00:51:20,970

dia an Air Force foreign technology

1168

00:51:25,400 --> 00:51:23,250

division which is now the national air

1169

00:51:28,370 --> 00:51:25,410

Intelligence Center with data on

1170

00:51:30,680 --> 00:51:28,380

spacecraft signatures and movements now

1171

00:51:32,990 --> 00:51:30,690

that's interesting because we've

1172

00:51:35,749 --> 00:51:33,000

essentially got a UFO situation in space

1173

00:51:38,509 --> 00:51:35,759

being picked up by our early warning

1174

00:51:42,079 --> 00:51:38,519

satellites the DSP system right and and

1175

00:51:44,539 --> 00:51:42,089

and fast Walker data they this this data

1176

00:51:47,299 --> 00:51:44,549

like this this actual raw data is being

1177

00:51:51,410 --> 00:51:47,309

sent to the CIA of all places the DIA

1178

00:51:53,120 --> 00:51:51,420

and the foreign technology division at

1179

00:51:54,340 --> 00:51:53,130

wright-patterson Air Force Base what's

1180

00:51:56,830 --> 00:51:54,350

also interesting is that

1181

00:52:00,280 --> 00:51:56,840

if you if you read ritual sons actual

1182

00:52:01,840 --> 00:52:00,290

words he says most fast walkers have

1183

00:52:04,060 --> 00:52:01,850

been retained observations of the

1184

00:52:06,220 --> 00:52:04,070

foreign spacecraft what's the most mean

1185

00:52:08,320 --> 00:52:06,230

mostly is out of fifty percent fifty one

1186

00:52:10,600 --> 00:52:08,330

percent is that a ninety nine percent he

1187

00:52:12,430 --> 00:52:10,610

had Jeffrey T Richardson was very

1188

00:52:14,920 --> 00:52:12,440

well-connected he he was talking to

1189

00:52:17,800 --> 00:52:14,930

people and everywhere from from maritime

1190

00:52:20,020 --> 00:52:17,810

command in Canada through to that the

1191

00:52:22,870 --> 00:52:20,030

the missile warning squadrons up at Cape

1192

00:52:25,930 --> 00:52:22,880

Cod and and wherever and and so he's

1193

00:52:28,270 --> 00:52:25,940

written implicitly trust what he says

1194

00:52:30,310 --> 00:52:28,280

and he's saying most fast walkers have

1195

00:52:32,230 --> 00:52:30,320

been detected and and the other point is

1196

00:52:34,930 --> 00:52:32,240

of course is that this information was

1197

00:52:37,600 --> 00:52:34,940

going to Air Force foreign technology

1198

00:52:41,380 --> 00:52:37,610

division so there's just one simple

1199

00:52:44,080 --> 00:52:41,390

example of of where the UFO sort of

1200

00:52:47,380 --> 00:52:44,090

connection may be there with with NASA

1201
00:52:53,140 --> 00:52:47,390
k-- the current you know another another

1202
00:52:55,660 --> 00:52:53,150
example is is there was a thesis written

1203
00:52:59,560 --> 00:52:55,670
in but for the Air Force Institute of

1204
00:53:00,400 --> 00:52:59,570
Technology not at 89 by captain I can't

1205
00:53:04,090 --> 00:53:00,410
even pronounce his name

1206
00:53:05,710 --> 00:53:04,100
I suppose it's odds acts and the thesis

1207
00:53:07,750 --> 00:53:05,720
was called orbit determination of

1208
00:53:10,390 --> 00:53:07,760
sunlight illuminated objects detected by

1209
00:53:14,500 --> 00:53:10,400
overhead platforms how's that and he

1210
00:53:17,320 --> 00:53:14,510
writes he writes that the North American

1211
00:53:19,480 --> 00:53:17,330
Aerospace Defense Command tasked the

1212
00:53:22,060 --> 00:53:19,490
foreign technology divisions my

1213
00:53:24,930 --> 00:53:22,070

performance division to analyze these

1214

00:53:27,520 --> 00:53:24,940

fifteen to thirty minute data tracks and

1215

00:53:30,330 --> 00:53:27,530

determined they determined the elements

1216

00:53:34,750 --> 00:53:30,340

it and hopefully identifying the object

1217

00:53:37,510 --> 00:53:34,760

okay so okay no if I I do you know what

1218

00:53:41,350 --> 00:53:37,520

that means my element set elements it

1219

00:53:43,510 --> 00:53:41,360

means like each object in space that's

1220

00:53:45,010 --> 00:53:43,520

that's not random like so something that

1221

00:53:46,900 --> 00:53:45,020

passes earth is a bit random like a

1222

00:53:49,660 --> 00:53:46,910

meteorite or whatever or or you know a

1223

00:53:50,920 --> 00:53:49,670

rock in space or something we can't

1224

00:53:52,510 --> 00:53:50,930

track for longer than a few seconds

1225

00:53:53,620 --> 00:53:52,520

whatever but an elements set anything

1226
00:53:56,050 --> 00:53:53,630
that's going round and round the earth

1227
00:53:58,720 --> 00:53:56,060
in an orbit has something called an

1228
00:54:00,550 --> 00:53:58,730
element set and I think it's like a one

1229
00:54:02,920 --> 00:54:00,560
of a better word a sixth a six

1230
00:54:04,300 --> 00:54:02,930
dimensional which can exist but we'll

1231
00:54:06,809 --> 00:54:04,310
call I think it's called like a six

1232
00:54:09,599 --> 00:54:06,819
dimensional a

1233
00:54:12,839 --> 00:54:09,609
display of data so it's like it's like

1234
00:54:16,469 --> 00:54:12,849
it's a version of space azimuth bearing

1235
00:54:19,289 --> 00:54:16,479
heading like it relies on like Kepler's

1236
00:54:21,029 --> 00:54:19,299
law and a Newton's law and and whatever

1237
00:54:22,919 --> 00:54:21,039
it's it's a it's a it's a bunch of

1238
00:54:24,599 --> 00:54:22,929

information that tells us where an

1239

00:54:27,089 --> 00:54:24,609

object should be how fast it's going

1240

00:54:28,859 --> 00:54:27,099

well it's escape velocity should be if

1241

00:54:31,409 --> 00:54:28,869

it if it could get away from Earth you

1242

00:54:34,469 --> 00:54:31,419

know how Earth's gravity is pulling it

1243

00:54:36,929 --> 00:54:34,479

down that sort of thing it's yeah and so

1244

00:54:39,059 --> 00:54:36,939

yeah here we've got a situation where I

1245

00:54:40,799 --> 00:54:39,069

don't know and and you know another

1246

00:54:42,599 --> 00:54:40,809

example that's important this is the

1247

00:54:46,409 --> 00:54:42,609

foreign technology division which as I

1248

00:54:49,229 --> 00:54:46,419

was saying is now Masek they they they

1249

00:54:51,299 --> 00:54:49,239

were sucking in UFO information in the

1250

00:54:53,819 --> 00:54:51,309

in the early eighties and there was

1251
00:55:00,019 --> 00:54:53,829
actually a raft of UFO sightings in

1252
00:55:02,609 --> 00:55:00,029
northwest China in um in in 1982 and and

1253
00:55:04,529 --> 00:55:02,619
look I think they'll probably that would

1254
00:55:07,409 --> 00:55:04,539
probably missile launchers that had

1255
00:55:08,939 --> 00:55:07,419
failed they'd gone wrong but because

1256
00:55:11,370 --> 00:55:08,949
that's just look like the descriptions

1257
00:55:15,829 --> 00:55:11,380
of the actual UFOs the UFO going round

1258
00:55:19,079 --> 00:55:15,839
in circles with no apparent direction

1259
00:55:21,799 --> 00:55:19,089
whatever the the the anyway the foreign

1260
00:55:24,870 --> 00:55:21,809
technology division was was suckling in

1261
00:55:28,159 --> 00:55:24,880
newspaper articles magazine articles and

1262
00:55:31,529 --> 00:55:28,169
so on one one was one was a a Chinese

1263
00:55:34,620 --> 00:55:31,539

was like a Chinese paper called first

1264

00:55:37,589 --> 00:55:34,630

UFO incident for our country and the

1265

00:55:41,929 --> 00:55:37,599

foreign technology division translated

1266

00:55:45,179 --> 00:55:41,939

it and and and held it as as a documents

1267

00:55:48,179 --> 00:55:45,189

for a reference there was another one

1268

00:55:51,059 --> 00:55:48,189

called the the UFO incident of July 24

1269

00:55:53,909 --> 00:55:51,069

1981 a discussion with comrade Jiang

1270

00:55:56,999 --> 00:55:53,919

Jiang and that was found in a Taiwanese

1271

00:55:59,370 --> 00:55:57,009

newspaper and that was also kept by the

1272

00:56:00,870 --> 00:55:59,380

foreign technology division and they

1273

00:56:03,419 --> 00:56:00,880

that those were release some of the

1274

00:56:05,969 --> 00:56:03,429

friend move emotion acts way back in in

1275

00:56:08,189 --> 00:56:05,979

I think the mid eighties and we just

1276

00:56:10,529 --> 00:56:08,199

wonder how many more the work I mean the

1277

00:56:12,149 --> 00:56:10,539

the the I would be very curious to say

1278

00:56:14,729 --> 00:56:12,159

even if the foreign technology division

1279

00:56:18,089 --> 00:56:14,739

or now Masek and not actually doing work

1280

00:56:20,030 --> 00:56:18,099

in any way on the UFO topic I'd be still

1281

00:56:22,160 --> 00:56:20,040

curious to see what resources

1282

00:56:24,349 --> 00:56:22,170

they've actually kept over the years I'd

1283

00:56:26,480 --> 00:56:24,359

be curious to see you know what you'd

1284

00:56:28,070 --> 00:56:26,490

might find an internal email also is

1285

00:56:31,670 --> 00:56:28,080

anyone they're interested in the UFO

1286

00:56:35,330 --> 00:56:31,680

topic yes so so that that's it's

1287

00:56:37,460 --> 00:56:35,340

definitely possible okay I had a

1288

00:56:41,300 --> 00:56:37,470

question for you I don't know if you can

1289

00:56:44,210 --> 00:56:41,310

hear me Paul but the question I had for

1290

00:56:48,500 --> 00:56:44,220

you is about black helicopters we

1291

00:56:50,780 --> 00:56:48,510

actually had we had your colleague Keith

1292

00:56:55,490 --> 00:56:50,790

pastor field on three weeks ago that was

1293

00:56:58,010 --> 00:56:55,500

a fabulous interview also and he I asked

1294

00:57:00,980 --> 00:56:58,020

him whether he had ever had any research

1295

00:57:04,070 --> 00:57:00,990

that came up with black helicopters also

1296

00:57:05,270 --> 00:57:04,080

known as phantom helicopters they take

1297

00:57:07,550 --> 00:57:05,280

their names from the fact they're

1298

00:57:09,580 --> 00:57:07,560

completely black in color and they lack

1299

00:57:11,960 --> 00:57:09,590

any and all identifying markings and

1300

00:57:14,000 --> 00:57:11,970

they've turned up in alien abduction

1301
00:57:18,470 --> 00:57:14,010
cases and cattle mutilation events and

1302
00:57:20,180 --> 00:57:18,480
in late night UFO encounters Meru ported

1303
00:57:23,930 --> 00:57:20,190
this stuff since the 60s by the way I

1304
00:57:26,210 --> 00:57:23,940
just read that from mr. universe but you

1305
00:57:29,359 --> 00:57:26,220
know I've run I've run across this kind

1306
00:57:31,970 --> 00:57:29,369
of story around the world when I've done

1307
00:57:35,060 --> 00:57:31,980
my own research regarding these kind of

1308
00:57:36,470 --> 00:57:35,070
topics and people I've actually spoke to

1309
00:57:39,050 --> 00:57:36,480
who said that they've seen black

1310
00:57:42,020 --> 00:57:39,060
helicopters themselves who you know

1311
00:57:44,690 --> 00:57:42,030
these people know what helicopters look

1312
00:57:46,340 --> 00:57:44,700
like I mean they don't have to be pilots

1313
00:57:48,200 --> 00:57:46,350

to know that they don't have any

1314

00:57:50,750 --> 00:57:48,210

identifying marks and they look very

1315

00:57:52,960 --> 00:57:50,760

strange and they seem to be hovering

1316

00:57:55,880 --> 00:57:52,970

over areas that don't seem appropriate

1317

00:57:59,090 --> 00:57:55,890

for the helicopters to be in and they

1318

00:58:03,950 --> 00:57:59,100

also yes or known whether it be myth or

1319

00:58:07,310 --> 00:58:03,960

fact that they are spotted in areas

1320

00:58:09,590 --> 00:58:07,320

where abductions alleged abductions have

1321

00:58:12,200 --> 00:58:09,600

taken place and when we asked Keith

1322

00:58:15,500 --> 00:58:12,210

about it and he said no regarding

1323

00:58:18,320 --> 00:58:15,510

Australia he has had nothing that has

1324

00:58:21,500 --> 00:58:18,330

come up regarding black helicopters why

1325

00:58:23,300 --> 00:58:21,510

do you think that is why is there are

1326
00:58:26,780 --> 00:58:23,310
there reports around the world around

1327
00:58:28,970 --> 00:58:26,790
about that but not with regards to

1328
00:58:31,580 --> 00:58:28,980
Australia

1329
00:58:33,610 --> 00:58:31,590
it's an SI question will I've got some

1330
00:58:36,820 --> 00:58:33,620
good news I got some bad

1331
00:58:41,530 --> 00:58:36,830
I've get like Keith I've I don't think

1332
00:58:45,430 --> 00:58:41,540
I've ever heard a single cases or

1333
00:58:47,800 --> 00:58:45,440
reports or anecdotes or opinion about

1334
00:58:51,880 --> 00:58:47,810
black helicopters in Australia I've

1335
00:58:53,590 --> 00:58:51,890
there I think I think that even even

1336
00:58:55,300 --> 00:58:53,600
something unreliable it's just literally

1337
00:58:57,430 --> 00:58:55,310
like a third-hand story I don't even

1338
00:59:00,040 --> 00:58:57,440

think I've heard that the closest thing

1339

00:59:03,580 --> 00:59:00,050

would be would be the this I think has

1340

00:59:05,530 --> 00:59:03,590

been a few of random UFO sightings in

1341

00:59:07,390 --> 00:59:05,540

Australia where helicopters have

1342

00:59:09,970 --> 00:59:07,400

happened to be there later and and

1343

00:59:12,940 --> 00:59:09,980

whether they be black or unidentifiable

1344

00:59:14,380 --> 00:59:12,950

or phantom helicopters don't know it

1345

00:59:16,060 --> 00:59:14,390

could be search-and-rescue helicopters

1346

00:59:19,780 --> 00:59:16,070

could be just a coincidence I actually

1347

00:59:23,020 --> 00:59:19,790

do not know I know and the other the

1348

00:59:25,840 --> 00:59:23,030

other thing is I actually I don't know

1349

00:59:31,570 --> 00:59:25,850

enough about the topic anymore I would

1350

00:59:34,270 --> 00:59:31,580

say to to sort of be able to answer why

1351

00:59:35,830 --> 00:59:34,280

it would occur in in one part of the

1352

00:59:38,470 --> 00:59:35,840

world and not others other than I mean

1353

00:59:39,910 --> 00:59:38,480

the the logical example is that like

1354

00:59:42,010 --> 00:59:39,920

helicopters or mystery or phantom

1355

00:59:46,150 --> 00:59:42,020

helicopters are being operated by some

1356

00:59:47,620 --> 00:59:46,160

sort of shadow or face government or

1357

00:59:51,760 --> 00:59:47,630

quasi government organization or

1358

00:59:55,750 --> 00:59:51,770

whatever I don't know well the the good

1359

00:59:57,670 --> 00:59:55,760

news is is this I know I speak to every

1360

01:00:01,320 --> 00:59:57,680

single day almost every single day I

1361

01:00:04,180 --> 01:00:01,330

speak to the author of a book that

1362

01:00:05,830 --> 01:00:04,190

brought black helicopters or mystery

1363

01:00:08,800 --> 01:00:05,840

helicopters to the attention of the

1364

01:00:10,420 --> 01:00:08,810

American public and that author is a guy

1365

01:00:14,290 --> 01:00:10,430

called Barry Greenwood he's based in

1366

01:00:17,470 --> 01:00:14,300

Boston in the early eighties or the late

1367

01:00:20,020 --> 01:00:17,480

70s there was a number of all the is or

1368

01:00:22,330 --> 01:00:20,030

was a number of researchers in the

1369

01:00:25,420 --> 01:00:22,340

United States which started absolutely

1370

01:00:27,430 --> 01:00:25,430

panelling the US military and

1371

01:00:29,590 --> 01:00:27,440

intelligence community with Freedom of

1372

01:00:32,260 --> 01:00:29,600

Information requests usually with great

1373

01:00:34,050 --> 01:00:32,270

success many of those Freedom of

1374

01:00:36,790 --> 01:00:34,060

Information requests made it into

1375

01:00:39,070 --> 01:00:36,800

newsletters and one famed book which

1376

01:00:40,690 --> 01:00:39,080

I'll discuss in a minute and many many

1377

01:00:42,450 --> 01:00:40,700

of the results of those FOI requests

1378

01:00:44,490 --> 01:00:42,460

literally still languishing

1379

01:00:46,319 --> 01:00:44,500

and filing cabinets to this day and

1380

01:00:48,690 --> 01:00:46,329

we're just starting to see them now and

1381

01:00:51,000 --> 01:00:48,700

they some of the contents of them are

1382

01:00:52,530 --> 01:00:51,010

just unbelievable and that's why I write

1383

01:00:55,799 --> 01:00:52,540

my blog to try and get this stuff out

1384

01:00:58,710 --> 01:00:55,809

but anyway in the 70s

1385

01:01:01,109 --> 01:00:58,720

Barry Greenwood Brad sparks Lawrence

1386

01:01:04,920 --> 01:01:01,119

force at Todd Circle and particularly

1387

01:01:07,140 --> 01:01:04,930

Robert Todd were were were submitting

1388

01:01:10,440 --> 01:01:07,150

successfully submitting and and having

1389

01:01:13,460 --> 01:01:10,450

or submitting FOI requests engaging in

1390

01:01:15,569 --> 01:01:13,470

Appeals a bunch of lawsuits even and

1391

01:01:20,339 --> 01:01:15,579

actually ultimately getting UFO

1392

01:01:23,579 --> 01:01:20,349

documents out in in by 1983 those guys

1393

01:01:28,109 --> 01:01:23,589

that I just mentioned had 5,000 pages of

1394

01:01:29,670 --> 01:01:28,119

UFO records that dated from after the

1395

01:01:31,559 --> 01:01:29,680

end of Project Blue Book for had

1396

01:01:33,000 --> 01:01:31,569

finished so the US government at

1397

01:01:35,460 --> 01:01:33,010

military and intelligence level

1398

01:01:37,290 --> 01:01:35,470

particularly it's sort of at naught you

1399

01:01:41,250 --> 01:01:37,300

know with NORAD and and the 8th Air

1400

01:01:42,930 --> 01:01:41,260

Force and and and the the FAA and so on

1401

01:01:45,230 --> 01:01:42,940

had had been generating huge amounts of

1402

01:01:48,510 --> 01:01:45,240

UFO but you know analyzing reports

1403

01:01:52,260 --> 01:01:48,520

developing policy in whatever anyway

1404

01:01:53,730 --> 01:01:52,270

Mary Barry teamed up with a with a

1405

01:01:56,400 --> 01:01:53,740

researcher called by the name of

1406

01:01:59,190 --> 01:01:56,410

Lawrence Fawcett and indices that so

1407

01:02:02,010 --> 01:01:59,200

basically they Lawrence for certain

1408

01:02:05,130 --> 01:02:02,020

Barry Greenwood and and Robert Todd had

1409

01:02:07,200 --> 01:02:05,140

so much so much documentation pouring in

1410

01:02:09,780 --> 01:02:07,210

from government agencies much of much of

1411

01:02:11,849 --> 01:02:09,790

which like I said he still has still

1412

01:02:14,220 --> 01:02:11,859

never been published anyway they decided

1413

01:02:15,809 --> 01:02:14,230

they couldn't handle it they think they

1414

01:02:17,819 --> 01:02:15,819

could literally not keep up but see back

1415

01:02:19,530 --> 01:02:17,829

then there was no internet no blogs even

1416

01:02:21,660 --> 01:02:19,540

long-distance phone calls couldn't do it

1417

01:02:23,280 --> 01:02:21,670

too expensive and so what they what

1418

01:02:25,589 --> 01:02:23,290

Lawrence force it and Mary grant decided

1419

01:02:27,329 --> 01:02:25,599

to do was actually write a book and they

1420

01:02:29,849 --> 01:02:27,339

wrote a book and it's called clear it

1421

01:02:32,160 --> 01:02:29,859

well the original version of it was

1422

01:02:34,890 --> 01:02:32,170

called clear intent and was published in

1423

01:02:37,200 --> 01:02:34,900

1984 it was republished in the 90s as

1424

01:02:38,880 --> 01:02:37,210

the UFO cover-up what the government

1425

01:02:41,549 --> 01:02:38,890

will not say but anyway the original

1426

01:02:45,440 --> 01:02:41,559

book was clear intent and in their page

1427

01:02:49,549 --> 01:02:45,450

after page after page after page of

1428

01:02:53,700 --> 01:02:49,559

detailed reports from sheriff's and from

1429

01:02:56,339 --> 01:02:53,710

aviation people farmers Highway Patrol

1430

01:02:58,380 --> 01:02:56,349

people right down to Indian Reservation

1431

01:03:01,009 --> 01:02:58,390

and everything of these mysterious black

1432

01:03:05,489 --> 01:03:01,019

helicopters particularly peeking in

1433

01:03:09,960 --> 01:03:05,499

1973-74 particularly 1975 dwindling off

1434

01:03:13,289 --> 01:03:09,970

in 1976 now when writing this book Barry

1435

01:03:15,180 --> 01:03:13,299

Greenwood took on certain tasks and

1436

01:03:16,859 --> 01:03:15,190

Lawrence Forsyth took on other tasks

1437

01:03:20,880 --> 01:03:16,869

Lawrence Foster unfortunately is

1438

01:03:24,329 --> 01:03:20,890

deceased he he was the he was the god we

1439

01:03:26,370 --> 01:03:24,339

as the pair went he was the guy that did

1440

01:03:28,859 --> 01:03:26,380

the work did the analysis work and the

1441

01:03:31,559 --> 01:03:28,869

you know did the obtaining of reports

1442

01:03:35,009 --> 01:03:31,569

about these black helicopters Barry was

1443

01:03:36,839 --> 01:03:35,019

more inclined to write about all or or

1444

01:03:41,819 --> 01:03:36,849

pick and choose what's put in the the

1445

01:03:44,339 --> 01:03:41,829

book in regards to government documents

1446

01:03:47,759 --> 01:03:44,349

and you know the blood lemon what who

1447

01:03:49,170 --> 01:03:47,769

not to believe and so on but so a really

1448

01:03:51,529 --> 01:03:49,180

really really good reference if you go

1449

01:03:55,019 --> 01:03:51,539

if you want to go right back to early

1450

01:03:57,690 --> 01:03:55,029

1970s era black helicopter or phantom

1451
01:03:59,489 --> 01:03:57,700
helicopter reports and and and and and

1452
01:04:02,069 --> 01:03:59,499
response to those reports you know that

1453
01:04:05,309 --> 01:04:02,079
head scratching the phone calls the

1454
01:04:07,289 --> 01:04:05,319
alerts at military bases the the the way

1455
01:04:10,410 --> 01:04:07,299
tabloid articles treated the phenomena

1456
01:04:12,450 --> 01:04:10,420
in the 70s clear intent is a fantastic

1457
01:04:15,509 --> 01:04:12,460
resource and the good thing is Barry has

1458
01:04:18,390 --> 01:04:15,519
kept everything so you know if you if

1459
01:04:22,170 --> 01:04:18,400
anyone was if chant if you're curious I

1460
01:04:26,249 --> 01:04:22,180
suppose about about black helicopters

1461
01:04:28,589 --> 01:04:26,259
did Barry and some of his some of the

1462
01:04:30,870 --> 01:04:28,599
rest of us have have fantastic early

1463
01:04:34,910 --> 01:04:30,880

information handwritten letters hat you

1464

01:04:38,009 --> 01:04:34,920

know even Christmas cards mention them

1465

01:04:39,809 --> 01:04:38,019

draft copies of books whatever so but to

1466

01:04:41,370 --> 01:04:39,819

answer your question I don't know I just

1467

01:04:43,589 --> 01:04:41,380

don't know enough about it anymore I

1468

01:04:45,450 --> 01:04:43,599

used to look at it a bit there was

1469

01:04:47,729 --> 01:04:45,460

mysterious helicopter sightings actually

1470

01:04:49,380 --> 01:04:47,739

in Vietnam to the point where of course

1471

01:04:51,390 --> 01:04:49,390

during the Vietnam War you were always

1472

01:04:52,920 --> 01:04:51,400

going to have mysterious helicopters

1473

01:04:55,170 --> 01:04:52,930

you're going to have unmarked

1474

01:04:57,180 --> 01:04:55,180

helicopters operated by the Viet Cong or

1475

01:04:59,700 --> 01:04:57,190

the North Vietnamese or maybe the

1476

01:05:02,700 --> 01:04:59,710

Chinese army air forces ground forces

1477

01:05:04,950 --> 01:05:02,710

you're gonna have black helicopters

1478

01:05:07,319 --> 01:05:04,960

doing search and rescue for commandos or

1479

01:05:09,450 --> 01:05:07,329

you're gonna have CIA black helicopters

1480

01:05:10,200 --> 01:05:09,460

whatever but some of them very quite

1481

01:05:13,050 --> 01:05:10,210

detail

1482

01:05:15,570 --> 01:05:13,060

ports from the Vietnam War from the like

1483

01:05:18,990 --> 01:05:15,580

the force mechanized infantry or or the

1484

01:05:21,599 --> 01:05:19,000

third Marine the fourth third Marine

1485

01:05:23,310 --> 01:05:21,609

Corps whatever some of these reports of

1486

01:05:25,579 --> 01:05:23,320

these mysterious helicopters go even

1487

01:05:28,020 --> 01:05:25,589

beyond that level of weirdness you know

1488

01:05:30,060 --> 01:05:28,030

helicopters that for all intents and

1489

01:05:32,040 --> 01:05:30,070

purposes simply should not be in a

1490

01:05:34,620 --> 01:05:32,050

certain place in a certain time or or

1491

01:05:36,660 --> 01:05:34,630

helicopters that the American ground

1492

01:05:39,150 --> 01:05:36,670

forces would actually blast with

1493

01:05:41,940 --> 01:05:39,160

howitzers and machine gunfire these

1494

01:05:44,070 --> 01:05:41,950

helicopters would be sane to land the

1495

01:05:46,260 --> 01:05:44,080

landing site where they you know in a

1496

01:05:48,359 --> 01:05:46,270

valley or something would be blasted

1497

01:05:51,650 --> 01:05:48,369

from miles away by Harrods afire with

1498

01:05:53,880 --> 01:05:51,660

direct and successful hits and then the

1499

01:05:55,980 --> 01:05:53,890

servicemen would go down there in

1500

01:05:57,900 --> 01:05:55,990

platoons and find that the ground was

1501
01:05:59,609 --> 01:05:57,910
all burnt but there was nothing there no

1502
01:06:01,829 --> 01:05:59,619
dead a helicopter no smashed-up

1503
01:06:03,390 --> 01:06:01,839
helicopter and that's odd

1504
01:06:05,070 --> 01:06:03,400
we've got piles of this sort of

1505
01:06:07,109 --> 01:06:05,080
paperwork it's really really old it's

1506
01:06:08,820 --> 01:06:07,119
it's really mysterious some for though

1507
01:06:11,880 --> 01:06:08,830
it's very old it's very hard to talk to

1508
01:06:14,010 --> 01:06:11,890
people when you know the the event

1509
01:06:16,620 --> 01:06:14,020
occurred fifty-five years ago or

1510
01:06:18,060 --> 01:06:16,630
something yes so there you go right

1511
01:06:19,200 --> 01:06:18,070
thank you very much for having covered

1512
01:06:24,240 --> 01:06:19,210
that I just want to let our listeners

1513
01:06:27,089 --> 01:06:24,250

know is that there's a UK UFO researcher

1514

01:06:29,010 --> 01:06:27,099

by the name of Toni Dodd the late Toni

1515

01:06:31,980 --> 01:06:29,020

Dodd he would actually claim that these

1516

01:06:33,690 --> 01:06:31,990

helicopters were carrying possibly

1517

01:06:35,760 --> 01:06:33,700

top-secret response teams whose job was

1518

01:06:38,520 --> 01:06:35,770

it to recover down to UFOs and her

1519

01:06:40,820 --> 01:06:38,530

evidence of cattle mutilation and it

1520

01:06:42,839 --> 01:06:40,830

might even be possible according to Dodd

1521

01:06:44,670 --> 01:06:42,849

regarding his research that they would

1522

01:06:48,480 --> 01:06:44,680

even retrieve and cover up evidence of

1523

01:06:50,700 --> 01:06:48,490

human cattle mutilation moving along

1524

01:06:53,000 --> 01:06:50,710

regarding the black helicopter topic

1525

01:06:55,710 --> 01:06:53,010

just also wanted to mention is that

1526

01:06:59,130 --> 01:06:55,720

there might be shape-shifting alien

1527

01:07:02,070 --> 01:06:59,140

technology of regarding that and it's

1528

01:07:05,150 --> 01:07:02,080

not really spoken much about in that

1529

01:07:07,620 --> 01:07:05,160

manner but the UFO and well-known

1530

01:07:11,070 --> 01:07:07,630

researcher and author Nick Redfern

1531

01:07:13,170 --> 01:07:11,080

claimed to have had collected over 20

1532

01:07:16,740 --> 01:07:13,180

cases and witness reports stating

1533

01:07:19,400 --> 01:07:16,750

exactly that kind of topic regarding

1534

01:07:22,829 --> 01:07:19,410

possible black helicopters

1535

01:07:24,150 --> 01:07:22,839

shape-shifting and there was even MUFON

1536

01:07:27,120 --> 01:07:24,160

reports regarding

1537

01:07:29,309 --> 01:07:27,130

strange black helicopter events and that

1538

01:07:32,009 --> 01:07:29,319

were reported to them so it's just a

1539

01:07:34,589 --> 01:07:32,019

really interesting topic moving along I

1540

01:07:37,140 --> 01:07:34,599

wanted to ask you Paul about field

1541

01:07:39,359 --> 01:07:37,150

reports from cases like the Nimitz case

1542

01:07:46,289 --> 01:07:39,369

for example where do you think those

1543

01:07:47,999 --> 01:07:46,299

field reports go yeah Paul just to jump

1544

01:07:50,130 --> 01:07:48,009

in here we get there these anecdotes

1545

01:07:52,890 --> 01:07:50,140

from credible sources who were on the

1546

01:07:54,719 --> 01:07:52,900

ship saying you know this Nimitz case

1547

01:07:57,719 --> 01:07:54,729

happened that we they had an Air Force

1548

01:07:59,309 --> 01:07:57,729

guy and maybe some plainclothes guys as

1549

01:08:01,799 --> 01:07:59,319

well I can't recall but at least an Air

1550

01:08:04,469 --> 01:08:01,809

Force guy on the ship very shortly

1551

01:08:06,870 --> 01:08:04,479

thereafter picking up data bricks and

1552

01:08:12,839 --> 01:08:06,880

taking them somewhere you have any idea

1553

01:08:15,779 --> 01:08:12,849

where that somewhere my yeah I guess I

1554

01:08:19,229 --> 01:08:15,789

could I could probably think of a

1555

01:08:20,399 --> 01:08:19,239

chronological list that I mean okay and

1556

01:08:24,209 --> 01:08:20,409

that particular case happened on the

1557

01:08:29,970 --> 01:08:24,219

west coast so yeah I suppose somewhat

1558

01:08:35,189 --> 01:08:29,980

logically Vandenberg Air Force Base has

1559

01:08:39,780 --> 01:08:35,199

an incredible ability or an incredible I

1560

01:08:41,700 --> 01:08:39,790

suppose incredible resources computers

1561

01:08:45,229 --> 01:08:41,710

supercomputers technical people

1562

01:08:47,879 --> 01:08:45,239

scientists boffins with glasses

1563

01:08:49,979 --> 01:08:47,889

Vandenberg band in Vandenberg is at the

1564

01:08:53,519 --> 01:08:49,989

forefront of object detection in space

1565

01:08:56,669 --> 01:08:53,529

they are at the forefront of of safety

1566

01:08:59,010 --> 01:08:56,679

like air safety and space launch safety

1567

01:09:00,479 --> 01:08:59,020

I could not think of certainly on the

1568

01:09:02,640 --> 01:09:00,489

west coast that and Los Angeles air

1569

01:09:06,479 --> 01:09:02,650

force base but but on the on the west

1570

01:09:08,490 --> 01:09:06,489

coast somewhere like either Vandenberg

1571

01:09:12,479 --> 01:09:08,500

or Edwards anywhere with extraordinary

1572

01:09:14,099 --> 01:09:12,489

technical capability that there's look I

1573

01:09:15,720 --> 01:09:14,109

don't you know I don't know that there's

1574

01:09:18,539 --> 01:09:15,730

there's there's there's one organization

1575

01:09:19,859 --> 01:09:18,549

called the 84th radar evaluation

1576

01:09:21,329 --> 01:09:19,869

squadron they're actually based on the

1577

01:09:24,990 --> 01:09:21,339

other side of the country at Langley in

1578

01:09:27,419 --> 01:09:25,000

Langley Virginia and they 84th radar

1579

01:09:31,829 --> 01:09:27,429

evaluation squadron there their job is

1580

01:09:33,660 --> 01:09:31,839

to analyze like analyze radar data for

1581

01:09:35,819 --> 01:09:33,670

safety and statistical purposes for

1582

01:09:38,729 --> 01:09:35,829

training and evaluation

1583

01:09:42,079 --> 01:09:38,739

so so that would as far as radar data

1584

01:09:45,209 --> 01:09:42,089

goes the 84th radar evaluation squadron

1585

01:09:47,129 --> 01:09:45,219

in Virginia or I think it used to be at

1586

01:09:48,959 --> 01:09:47,139

Hill Air Force Base in Utah and I think

1587

01:09:52,229 --> 01:09:48,969

now it's in Virginia but anyway they

1588

01:09:53,910 --> 01:09:52,239

would be very very good probably the

1589

01:09:56,580 --> 01:09:53,920

most likely in place I would have

1590

01:09:59,009 --> 01:09:56,590

thought would be for for Salem limits

1591

01:10:01,319 --> 01:09:59,019

case event I I would have thought would

1592

01:10:02,879 --> 01:10:01,329

be the probably the best case if not

1593

01:10:04,709 --> 01:10:02,889

Vandenberg or Edwards I would have

1594

01:10:06,959 --> 01:10:04,719

thought NASA quit that I was talking

1595

01:10:09,569 --> 01:10:06,969

about before because NASA --ks their six

1596

01:10:12,629 --> 01:10:09,579

job is to understand mean for all for

1597

01:10:14,040 --> 01:10:12,639

all we know I mean that the limits event

1598

01:10:16,770 --> 01:10:14,050

I mean just straight after it happened

1599

01:10:18,870 --> 01:10:16,780

if US Air Force non-commissioned

1600

01:10:20,489 --> 01:10:18,880

officers are warrants you know officers

1601
01:10:22,259 --> 01:10:20,499
whatever if they were on the if they did

1602
01:10:25,859 --> 01:10:22,269
get to the ship and if they did request

1603
01:10:27,180 --> 01:10:25,869
and and and hijack you know radar tapes

1604
01:10:29,970 --> 01:10:27,190
hard drives

1605
01:10:32,009 --> 01:10:29,980
copies of visual footage voice

1606
01:10:34,020 --> 01:10:32,019
recordings from plane to plane voice

1607
01:10:36,359 --> 01:10:34,030
recordings from plane to ship whatever

1608
01:10:38,189 --> 01:10:36,369
if they if they commandeered this stuff

1609
01:10:40,709 --> 01:10:38,199
and squirreled it away

1610
01:10:42,899 --> 01:10:40,719
I would have thought maybe maybe

1611
01:10:45,149 --> 01:10:42,909
multiple places if they can make copies

1612
01:10:46,520 --> 01:10:45,159
of everything but one place one place

1613
01:10:49,709 --> 01:10:46,530

definitely would be now ii mean nasa

1614

01:10:52,520 --> 01:10:49,719

classics job in its squadron and group

1615

01:10:55,020 --> 01:10:52,530

level their mission is to understand and

1616

01:10:56,970 --> 01:10:55,030

foreign or unexpected technology their

1617

01:10:59,669 --> 01:10:56,980

mission is to understand disruptive

1618

01:11:01,770 --> 01:10:59,679

technology or game-changing technology

1619

01:11:04,830 --> 01:11:01,780

that goes out decades there they

1620

01:11:07,709 --> 01:11:04,840

certainly have the ability in in things

1621

01:11:09,930 --> 01:11:07,719

like metallurgy and and and and and

1622

01:11:11,549 --> 01:11:09,940

flight dynamics and aeronautics if you

1623

01:11:13,500 --> 01:11:11,559

look at if you look at nasa --kx if you

1624

01:11:14,970 --> 01:11:13,510

look at people that will work at nasa if

1625

01:11:18,120 --> 01:11:14,980

you look I'll even don't Leah so you go

1626
01:11:19,709 --> 01:11:18,130
to LinkedIn you type in NASA and aside

1627
01:11:21,089 --> 01:11:19,719
from all that you know that IT people

1628
01:11:23,069 --> 01:11:21,099
and the payroll people and the

1629
01:11:25,439 --> 01:11:23,079
administrative people and write to

1630
01:11:27,209 --> 01:11:25,449
answer you know like waste disposal

1631
01:11:28,950 --> 01:11:27,219
people aside from them forget them that

1632
01:11:31,589 --> 01:11:28,960
the the people that actually work there

1633
01:11:34,919 --> 01:11:31,599
are everyone from flight dynamicists to

1634
01:11:38,310 --> 01:11:34,929
aeronautical experts and astrodynamics

1635
01:11:40,290 --> 01:11:38,320
a various people in in in in within

1636
01:11:44,009 --> 01:11:40,300
within the physical sciences like

1637
01:11:45,930 --> 01:11:44,019
atmospheric physics metallurgy cutting

1638
01:11:47,880 --> 01:11:45,940

it cutting edge electrical and

1639

01:11:50,770 --> 01:11:47,890

electromagnetic

1640

01:11:52,479 --> 01:11:50,780

Sciences whatever that would be the

1641

01:11:58,420 --> 01:11:52,489

place to take data that would be the

1642

01:12:00,670 --> 01:11:58,430

place to take data I reckon okay yeah I

1643

01:12:01,810 --> 01:12:00,680

have a question for you Paul Dean thank

1644

01:12:04,270 --> 01:12:01,820

you so much for having covered that

1645

01:12:07,330 --> 01:12:04,280

topic I wanted to know if you ever have

1646

01:12:10,270 --> 01:12:07,340

come across even any anecdotal reports

1647

01:12:12,670 --> 01:12:10,280

regarding men in black also the

1648

01:12:15,220 --> 01:12:12,680

black-eyed children and that's a topic

1649

01:12:17,590 --> 01:12:15,230

that's covered often in ufology and

1650

01:12:21,370 --> 01:12:17,600

there's people from all around the world

1651

01:12:23,650 --> 01:12:21,380

who don't even know each other who have

1652

01:12:26,290 --> 01:12:23,660

stories to tell with regards to men in

1653

01:12:26,700 --> 01:12:26,300

black who have a very strange aura about

1654

01:12:30,610 --> 01:12:26,710

them

1655

01:12:33,910 --> 01:12:30,620

the reports are they vary but the idea

1656

01:12:37,540 --> 01:12:33,920

is the same a report an example might be

1657

01:12:40,479 --> 01:12:37,550

that a black eyed men a men in black

1658

01:12:42,900 --> 01:12:40,489

might be wearing a seemingly all new

1659

01:12:47,080 --> 01:12:42,910

suit and they appear from out of nowhere

1660

01:12:49,380 --> 01:12:47,090

with a black Cadillac that appears to be

1661

01:12:52,600 --> 01:12:49,390

new from like the 50s or the 60s and

1662

01:12:55,959 --> 01:12:52,610

they come to harass witnesses to a UFO

1663

01:12:57,459 --> 01:12:55,969

event and they have very strange and

1664

01:12:59,260 --> 01:12:57,469

should behavior about them they seem

1665

01:13:02,010 --> 01:12:59,270

very aggressive the extreme they ask

1666

01:13:04,959 --> 01:13:02,020

strange questions and then they also

1667

01:13:07,360 --> 01:13:04,969

seemingly disappear - just as oddly as

1668

01:13:11,050 --> 01:13:07,370

they showed up regarding the black-eyed

1669

01:13:12,970 --> 01:13:11,060

children the black-eyed kids they also

1670

01:13:14,350 --> 01:13:12,980

have strange stories of folks who are

1671

01:13:15,400 --> 01:13:14,360

all around the world don't even know

1672

01:13:18,250 --> 01:13:15,410

each other

1673

01:13:20,439 --> 01:13:18,260

mentioned that there's kids that show up

1674

01:13:23,860 --> 01:13:20,449

out of nowhere trying to mesmerize them

1675

01:13:27,040 --> 01:13:23,870

or hypnotize them into getting folks to

1676

01:13:29,950 --> 01:13:27,050

succumb to to their wishes and then

1677

01:13:33,100 --> 01:13:29,960

later on folks described strange events

1678

01:13:37,600 --> 01:13:33,110

that occur to them that are you know bad

1679

01:13:39,939 --> 01:13:37,610

luck divorces financial ruin things like

1680

01:13:41,229 --> 01:13:39,949

that have you come across any stories

1681

01:13:42,459 --> 01:13:41,239

like that that you've collected over the

1682

01:13:46,470 --> 01:13:42,469

many years of research that you've done

1683

01:13:50,830 --> 01:13:46,480

I haven't I certainly would have books

1684

01:13:52,450 --> 01:13:50,840

on these topics I do know about them of

1685

01:13:54,670 --> 01:13:52,460

course I mean they're in UFO lore they

1686

01:13:56,080 --> 01:13:54,680

the men in black the black hole the

1687

01:13:58,419 --> 01:13:56,090

black-eyed children-- thing now that is

1688

01:14:00,410 --> 01:13:58,429

so far from what I do that's not funny

1689

01:14:02,840 --> 01:14:00,420

but the men in black

1690

01:14:05,120 --> 01:14:02,850

me you know like I mean it just

1691

01:14:07,010 --> 01:14:05,130

distracts me from NORAD and Vietnam War

1692

01:14:09,920 --> 01:14:07,020

and whatever but the men in black

1693

01:14:12,080 --> 01:14:09,930

phenomena East it's it's been reported

1694

01:14:14,000 --> 01:14:12,090

with some degree of reliability for a

1695

01:14:15,650 --> 01:14:14,010

very long time I don't even know when it

1696

01:14:19,280 --> 01:14:15,660

started I mean that's the work of John

1697

01:14:22,190 --> 01:14:19,290

keel discussed early on even Richard

1698

01:14:24,890 --> 01:14:22,200

Hall the great researcher was open the

1699

01:14:31,100 --> 01:14:24,900

possibility look this goes back my

1700

01:14:33,380 --> 01:14:31,110

forestalled days I've never encountered

1701

01:14:36,260 --> 01:14:33,390

it in Australia I've never heard I mean

1702

01:14:39,050 --> 01:14:36,270

yes we've had reports and they're really

1703

01:14:41,360 --> 01:14:39,060

quite unreliable with totally utterly on

1704

01:14:43,610 --> 01:14:41,370

stems we're we think we do get these

1705

01:14:45,140 --> 01:14:43,620

stories and I think a lot of the

1706

01:14:46,460 --> 01:14:45,150

witnesses especially in the Nimitz case

1707

01:14:49,400 --> 01:14:46,470

but some others that are a lot more

1708

01:14:51,800 --> 01:14:49,410

reliable something happens somebody

1709

01:14:55,340 --> 01:14:51,810

shows up from somewhere people are

1710

01:14:56,090 --> 01:14:55,350

debriefed evidences accumulated and

1711

01:15:00,230 --> 01:14:56,100

taken away

1712

01:15:02,750 --> 01:15:00,240

those are pretty common and a lot more

1713

01:15:04,760 --> 01:15:02,760

credible I would think yeah I mean I

1714

01:15:07,910 --> 01:15:04,770

would yeah of course I mean if you just

1715

01:15:10,940 --> 01:15:07,920

look look I do know one thing I can tell

1716

01:15:12,500 --> 01:15:10,950

you is that is that some some some

1717

01:15:15,860 --> 01:15:12,510

listeners will remember that there was a

1718

01:15:19,040 --> 01:15:15,870

very influential civilian hobbyist

1719

01:15:21,560 --> 01:15:19,050

whatever UFO group in the 60s mostly it

1720

01:15:23,480 --> 01:15:21,570

was very very famed in the 60s into the

1721

01:15:24,560 --> 01:15:23,490

70s called nycap which national

1722

01:15:27,470 --> 01:15:24,570

investigative committee for oral

1723

01:15:29,540 --> 01:15:27,480

phenomena it was it was a civilian UFO

1724

01:15:31,520 --> 01:15:29,550

group had a huge number of members

1725

01:15:34,430 --> 01:15:31,530

generated a lot of excellent paper work

1726

01:15:37,460 --> 01:15:34,440

they analyzed your photographs and I had

1727

01:15:40,280 --> 01:15:37,470

symposiums and whatever well some I do

1728

01:15:42,770 --> 01:15:40,290

know that some nycap kneecap nycap

1729

01:15:45,650 --> 01:15:42,780

whatever I'll say nycap some nycap

1730

01:15:48,580 --> 01:15:45,660

members it like the did UFO field

1731

01:15:52,030 --> 01:15:48,590

investigation have over there has been

1732

01:15:56,330 --> 01:15:52,040

reported to be a rather overzealous and

1733

01:15:59,420 --> 01:15:56,340

and that I believe that was cases where

1734

01:16:01,880 --> 01:15:59,430

when NICAP when I kept volunteers who

1735

01:16:05,480 --> 01:16:01,890

who were investigating local UFO cases

1736

01:16:07,250 --> 01:16:05,490

or or whatever were a little over

1737

01:16:10,790 --> 01:16:07,260

zealous and would go to people's homes

1738

01:16:12,260 --> 01:16:10,800

and and you know in in nice suits and

1739

01:16:14,040 --> 01:16:12,270

and pretend to me all you know

1740

01:16:16,280 --> 01:16:14,050

authoritative and you

1741

01:16:19,080 --> 01:16:16,290

not discuss where they're from very very

1742

01:16:21,660 --> 01:16:19,090

without a lot of probing and and so on

1743

01:16:23,819 --> 01:16:21,670

and this this could intimidate people

1744

01:16:25,589 --> 01:16:23,829

Ill don't know I mean what I'm so I

1745

01:16:28,049 --> 01:16:25,599

suppose I'm saying is that there are

1746

01:16:30,990 --> 01:16:28,059

certainly will be a few few examples

1747

01:16:35,040 --> 01:16:31,000

through in American history where we're

1748

01:16:36,629 --> 01:16:35,050

completely innocuous real people just

1749

01:16:39,149 --> 01:16:36,639

happen to be in black suits and tires

1750

01:16:40,680 --> 01:16:39,159

and a black car have rocked up so you

1751

01:16:42,660 --> 01:16:40,690

have a look at people's photographs or

1752

01:16:45,270 --> 01:16:42,670

to interrogate their children about a

1753

01:16:47,010 --> 01:16:45,280

UFO and I saw last week or whatever and

1754

01:16:48,569 --> 01:16:47,020

but I mean of course I know that the

1755

01:16:50,520 --> 01:16:48,579

stories are a lot richer than that in

1756

01:16:53,010 --> 01:16:50,530

that you know something claimed claims

1757

01:16:55,859 --> 01:16:53,020

have been consistently made that in MO

1758

01:16:58,290 --> 01:16:55,869

B's they rock up very quickly they you

1759

01:16:59,939 --> 01:16:58,300

know they they ring the house first

1760

01:17:02,160 --> 01:16:59,949

before they get there and just hang up

1761

01:17:04,109 --> 01:17:02,170

there in a brand new car you know that's

1762

01:17:06,180 --> 01:17:04,119

not wet even though it's pouring raining

1763

01:17:08,189 --> 01:17:06,190

summer hair all the grounds you know

1764

01:17:09,629 --> 01:17:08,199

they've been driven up a dirt road or

1765

01:17:12,629 --> 01:17:09,639

something a little [h__h] up to it on the

1766

01:17:14,280 --> 01:17:12,639

car I've heard that one you know I don't

1767

01:17:17,819 --> 01:17:14,290

know I just don't know enough about it

1768

01:17:19,049 --> 01:17:17,829

the the the the that it's too it's too

1769

01:17:21,120 --> 01:17:19,059

hard to quantify

1770

01:17:23,010 --> 01:17:21,130

you know what other than the report from

1771

01:17:25,049 --> 01:17:23,020

the witnessed some cells other from them

1772

01:17:26,339 --> 01:17:25,059

from the from the family who say look

1773

01:17:28,470 --> 01:17:26,349

you know we've got to tell this story

1774

01:17:29,760 --> 01:17:28,480

three months ago we saw a UFO and then

1775

01:17:31,740 --> 01:17:29,770

these men in black appeared I mean

1776

01:17:33,330 --> 01:17:31,750

that's all you've got to go on like you

1777

01:17:35,729 --> 01:17:33,340

don't have more to go on that you don't

1778

01:17:38,850 --> 01:17:35,739

have data like actual instrumented data

1779

01:17:40,319 --> 01:17:38,860

you don't have a chronology like a like

1780

01:17:42,390 --> 01:17:40,329

a witness statement of first men and

1781

01:17:44,220 --> 01:17:42,400

black immediately after they they left a

1782

01:17:45,810 --> 01:17:44,230

house you don't have any idea where

1783

01:17:47,490 --> 01:17:45,820

they're supposedly from there's a dozen

1784

01:17:48,209 --> 01:17:47,500

theories about where I came from and

1785

01:17:50,399 --> 01:17:48,219

where they go

1786

01:17:51,870 --> 01:17:50,409

it's like black helicopters you know say

1787

01:17:53,790 --> 01:17:51,880

they're real right well where do they go

1788

01:17:55,379 --> 01:17:53,800

where do they refuel who's running all

1789

01:17:57,390 --> 01:17:55,389

this phantom helicopters well you know

1790

01:17:59,459 --> 01:17:57,400

what are the pilots tell it wives every

1791

01:18:01,470 --> 01:17:59,469

night it just doesn't make sense like it

1792

01:18:01,950 --> 01:18:01,480

it's yes there is probably something to

1793

01:18:08,069 --> 01:18:01,960

it

1794

01:18:12,750 --> 01:18:08,079

this what I'm trying to say certainly

1795

01:18:14,850 --> 01:18:12,760

not my area as far as the military cases

1796

01:18:16,979 --> 01:18:14,860

a civilian you're not gonna bluff your

1797

01:18:21,149 --> 01:18:16,989

way onto an airport space and find out

1798

01:18:23,370 --> 01:18:21,159

what the pilot saw that's totally

1799

01:18:25,890 --> 01:18:23,380

different situation I'm very curious as

1800

01:18:26,830 --> 01:18:25,900

to the way you're explaining it it seems

1801

01:18:28,990 --> 01:18:26,840

like this day

1802

01:18:31,510 --> 01:18:29,000

is pretty fragmented it's all over the

1803

01:18:33,580 --> 01:18:31,520

place one hand I doesn't see how you

1804

01:18:35,080 --> 01:18:33,590

know what the others doing I don't think

1805

01:18:38,620 --> 01:18:35,090

you think that's the case who do you

1806

01:18:41,589 --> 01:18:38,630

think it all goes hand up so I've never

1807

01:18:44,709 --> 01:18:41,599

felt I have never will look I've never

1808

01:18:46,169 --> 01:18:44,719

felt ever that there is one massive you

1809

01:18:48,720 --> 01:18:46,179

know multi-million dollar

1810

01:18:54,040 --> 01:18:48,730

multi-generational repository for every

1811

01:18:55,540 --> 01:18:54,050

UFO case events detection false alarm

1812

01:18:57,100 --> 01:18:55,550

whatever you know somewhere hiding in

1813

01:19:00,459 --> 01:18:57,110

the bowels of NORAD or whatever we are

1814

01:19:02,350 --> 01:19:00,469

finding that consistently over the years

1815

01:19:04,629 --> 01:19:02,360

and I've got so many examples on paper

1816

01:19:07,080 --> 01:19:04,639

that NORAD and the US Air Force and the

1817

01:19:09,820 --> 01:19:07,090

US Navy do have reporting regulations

1818

01:19:12,490 --> 01:19:09,830

like operator reporting service

1819

01:19:15,040 --> 01:19:12,500

reporting miran reporting Hana reporting

1820

01:19:17,500 --> 01:19:15,050

I'm gonna go into these on in my next

1821

01:19:20,350 --> 01:19:17,510

blog post actually there is that there

1822

01:19:22,990 --> 01:19:20,360

are so many methods of reporting UFOs of

1823

01:19:25,510 --> 01:19:23,000

sequestering information faxing it or

1824

01:19:28,060 --> 01:19:25,520

mailing it with urgency by an old naval

1825

01:19:30,310 --> 01:19:28,070

speed lever letter in the 60s or or now

1826

01:19:34,030 --> 01:19:30,320

it's an on prep three formatted serious

1827

01:19:36,760 --> 01:19:34,040

event message now or or a a sitrep navy

1828

01:19:38,919 --> 01:19:36,770

blue message or whatever that there is

1829

01:19:41,050 --> 01:19:38,929

there are so many ways and yes some of

1830

01:19:44,500 --> 01:19:41,060

the final destinations of UFO reports

1831

01:19:45,970 --> 01:19:44,510

are the Air Force service watch cell

1832

01:19:47,470 --> 01:19:45,980

which I'll be discussing in my next blog

1833

01:19:50,320 --> 01:19:47,480

the National Military Command Center

1834

01:19:54,850 --> 01:19:50,330

their J 2 or J 3 operations slash

1835

01:19:57,399 --> 01:19:54,860

intelligence area now SiC maybe NORAD's

1836

01:20:00,729 --> 01:19:57,409

old we think old center for aerospace

1837

01:20:03,879 --> 01:20:00,739

analysis which I talked about before the

1838

01:20:05,439 --> 01:20:03,889

FI is I'm a system look there is

1839

01:20:06,970 --> 01:20:05,449

multiple places what I'm more interested

1840

01:20:10,780 --> 01:20:06,980

in though and this is something that

1841

01:20:14,350 --> 01:20:10,790

that is is very important is is that if

1842

01:20:16,450 --> 01:20:14,360

US Air Force officers got on the the

1843

01:20:18,370 --> 01:20:16,460

Nimitz all or its support ships the

1844

01:20:21,310 --> 01:20:18,380

Princeton whatever if they got on their

1845

01:20:24,100 --> 01:20:21,320

hours or days after the the main tik tak

1846

01:20:25,510 --> 01:20:24,110

event it's not so much the fact that

1847

01:20:27,129 --> 01:20:25,520

it's a means of course it is very

1848

01:20:28,359 --> 01:20:27,139

important to know who they were where

1849

01:20:30,490 --> 01:20:28,369

they were from how they got there and

1850

01:20:32,439 --> 01:20:30,500

and where they took the information what

1851

01:20:34,899 --> 01:20:32,449

they took that is important what I'm

1852

01:20:36,280 --> 01:20:34,909

curious to know is is how how the US Air

1853

01:20:38,500 --> 01:20:36,290

Force were even involved in the first

1854

01:20:40,209 --> 01:20:38,510

place did the captain or that you know

1855

01:20:40,990 --> 01:20:40,219

dick commander or the or the vice

1856

01:20:43,420 --> 01:20:41,000

captain of

1857

01:20:45,250 --> 01:20:43,430

ship ships did they call the US air

1858

01:20:47,740 --> 01:20:45,260

force in and through what channel

1859

01:20:49,300 --> 01:20:47,750

through through through Washington DC

1860

01:20:51,090 --> 01:20:49,310

for headquarters or did they do a direct

1861

01:20:53,950 --> 01:20:51,100

look with a direct communications link

1862

01:20:56,710 --> 01:20:53,960

to Los Angeles air force base or San

1863

01:20:58,810 --> 01:20:56,720

Diego Naval Air Station or whatever did

1864

01:21:01,000 --> 01:20:58,820

the it was the case that the u.s. air

1865

01:21:02,860 --> 01:21:01,010

force were listening in on the pilots

1866

01:21:04,360 --> 01:21:02,870

pilot and Paul to ship communications

1867

01:21:06,430 --> 01:21:04,370

during the event and I was so curious

1868

01:21:08,410 --> 01:21:06,440

that they simply had to get on that ship

1869

01:21:10,300 --> 01:21:08,420

and sequest copies of the data you know

1870

01:21:13,060 --> 01:21:10,310

did was it a case that there are already

1871

01:21:14,800 --> 01:21:13,070

US Air Force officers I mean I would not

1872

01:21:17,710 --> 01:21:14,810

be surprised when let's face it the US

1873

01:21:20,260 --> 01:21:17,720

Navy is operating planes the same types

1874

01:21:22,110 --> 01:21:20,270

of planes operated by the US Air Force

1875

01:21:24,880 --> 01:21:22,120

you know it's it's just one big family

1876

01:21:26,500 --> 01:21:24,890

so I wouldn't be surprised if the Nimitz

1877

01:21:29,040 --> 01:21:26,510

being a shipper fleet you know carry

1878

01:21:31,240 --> 01:21:29,050

5,000 people are two or three of them

1879

01:21:33,540 --> 01:21:31,250

representatives like liaison or focal

1880

01:21:35,470 --> 01:21:33,550

point people special security officers

1881

01:21:38,530 --> 01:21:35,480

technical people from the United States

1882

01:21:41,380 --> 01:21:38,540

Air Force why not I mean the the the the

1883

01:21:43,120 --> 01:21:41,390

United States Air Force has naval I mean

1884

01:21:45,220 --> 01:21:43,130

any United States Air Force Base that's

1885

01:21:49,480 --> 01:21:45,230

on a coastline has Coast Guard and naval

1886

01:21:51,480 --> 01:21:49,490

people at the base so why not I mean is

1887

01:21:54,520 --> 01:21:51,490

it not inconceivable that a US Navy ship

1888

01:21:56,500 --> 01:21:54,530

somewhere in that in top till all those

1889

01:21:58,420 --> 01:21:56,510

ships will not have a single US Air

1890

01:22:00,970 --> 01:21:58,430

Force officer that either got wind of

1891

01:22:02,770 --> 01:22:00,980

the the tic-tock events or was actually

1892

01:22:05,470 --> 01:22:02,780

involved from the very start of course

1893

01:22:09,280 --> 01:22:05,480

of course US Air Force would know about

1894

01:22:10,990 --> 01:22:09,290

it in that case another one is to do

1895

01:22:13,120 --> 01:22:11,000

just the United States Navy in that

1896

01:22:17,290 --> 01:22:13,130

particular carrier group do they

1897

01:22:19,030 --> 01:22:17,300

communicate advice that a lot like the

1898

01:22:20,380 --> 01:22:19,040

actual voice communications and telex

1899

01:22:22,060 --> 01:22:20,390

daily communications like general

1900

01:22:23,980 --> 01:22:22,070

correspondence communications through

1901

01:22:26,590 --> 01:22:23,990

satellite and someone at Buckley Air

1902

01:22:28,750 --> 01:22:26,600

Force Base or NORAD headquarters or

1903

01:22:30,760 --> 01:22:28,760

whatever someone's listening in in the

1904

01:22:33,910 --> 01:22:30,770

conversation for certain it's like

1905

01:22:36,640 --> 01:22:33,920

emergency alert new killer object

1906

01:22:38,230 --> 01:22:36,650

attack offensive you know any key word

1907

01:22:40,690 --> 01:22:38,240

that can be picked up by a super super

1908

01:22:42,700 --> 01:22:40,700

computer along the way could could could

1909

01:22:45,190 --> 01:22:42,710

alert the right people that's something

1910

01:22:49,390 --> 01:22:45,200

very very very troubling is going on off

1911

01:22:50,920 --> 01:22:49,400

the coast of America yeah Paul thank you

1912

01:22:53,709 --> 01:22:50,930

very much for having covered that topic

1913

01:22:57,070 --> 01:22:53,719

I had a question for you the

1914

01:22:58,810 --> 01:22:57,080

the equivalent for NORAD in Russia is

1915

01:23:02,260 --> 01:22:58,820

called the main center for missile

1916

01:23:04,270 --> 01:23:02,270

attack warning I wanted to know the main

1917

01:23:05,950 --> 01:23:04,280

center for missile attack warning the

1918

01:23:09,630 --> 01:23:05,960

NORAD equivalent which is a Russian

1919

01:23:13,840 --> 01:23:09,640

equivalent of NORAD have you had any

1920

01:23:15,760 --> 01:23:13,850

research come up about that at all no

1921

01:23:18,880 --> 01:23:15,770

and I would really really like to I know

1922

01:23:20,709 --> 01:23:18,890

that aerospace and aerospace warning and

1923

01:23:22,689 --> 01:23:20,719

control every sovereignty like

1924

01:23:25,840 --> 01:23:22,699

long-range warning and control in in

1925

01:23:29,470 --> 01:23:25,850

Russia and and space verification space

1926

01:23:31,870 --> 01:23:29,480

watching in Russia is I know that I've

1927

01:23:33,700 --> 01:23:31,880

forgotten that term and and like that

1928

01:23:37,720 --> 01:23:33,710

the name you just gave and I know in the

1929

01:23:40,390 --> 01:23:37,730

past it was it was part of or or or or

1930

01:23:41,800 --> 01:23:40,400

an adjunct organization of for Soviet I

1931

01:23:43,540 --> 01:23:41,810

think it was Soviet strategic rocket

1932

01:23:46,240 --> 01:23:43,550

forces but although Russian strategic

1933

01:23:48,520 --> 01:23:46,250

rocket forces but all I know is that

1934

01:23:50,650 --> 01:23:48,530

their space tracking and long-range air

1935

01:23:52,120 --> 01:23:50,660

air aerospace tracking capabilities are

1936

01:23:54,040 --> 01:23:52,130

very impressive they're not at the level

1937

01:23:56,620 --> 01:23:54,050

of the United States and Canada there's

1938

01:23:57,100 --> 01:23:56,630

no way that you know the land masses too

1939

01:23:59,020 --> 01:23:57,110

enormous

1940

01:24:00,850 --> 01:23:59,030

their weather is absolutely atrocious

1941

01:24:03,370 --> 01:24:00,860

half their riders are only turned on six

1942

01:24:05,200 --> 01:24:03,380

months of the year I'd say their

1943

01:24:08,229 --> 01:24:05,210

computers of five years behind but the

1944

01:24:10,780 --> 01:24:08,239

point is is that no unfortunately I wish

1945

01:24:13,810 --> 01:24:10,790

I wish we had correspondence and contact

1946

01:24:17,890 --> 01:24:13,820

with with with with Russian researchers

1947

01:24:20,110 --> 01:24:17,900

it's not actual retired Russian military

1948

01:24:21,640 --> 01:24:20,120

officers themselves I wish we had a

1949

01:24:23,830 --> 01:24:21,650

correspondence and a working

1950

01:24:25,900 --> 01:24:23,840

relationship with them so even if we

1951

01:24:28,780 --> 01:24:25,910

could just get the odd rumor out let

1952

01:24:30,130 --> 01:24:28,790

alone you know hard data but no and

1953

01:24:32,020 --> 01:24:30,140

that's actually a very good question and

1954

01:24:34,360 --> 01:24:32,030

and some someone will have to tackle

1955

01:24:35,890 --> 01:24:34,370

that issue one day yeah yeah I don't

1956

01:24:37,540 --> 01:24:35,900

think we'll get any information on that

1957

01:24:40,870 --> 01:24:37,550

because of course that would probably be

1958

01:24:43,150 --> 01:24:40,880

classified and jump but anyway just want

1959

01:24:44,530 --> 01:24:43,160

to let everybody know that the main

1960

01:24:47,110 --> 01:24:44,540

Center for missile attack warning was

1961

01:24:49,150 --> 01:24:47,120

formed in December of 2009 and since

1962

01:24:50,530 --> 01:24:49,160

December 2011 it's been a part of the

1963

01:24:53,200 --> 01:24:50,540

Space Command of the Russian aerospace

1964

01:24:56,800 --> 01:24:53,210

defense forces together with facilities

1965

01:25:00,100 --> 01:24:56,810

such as 8820 first main space

1966

01:25:02,500 --> 01:25:00,110

Intelligence Center and the 153rd t-top

1967

01:25:05,740 --> 01:25:02,510

main space testing center wanted to move

1968

01:25:06,849 --> 01:25:05,750

on to another topic Paul please correct

1969

01:25:10,060 --> 01:25:06,859

me if I'm

1970

01:25:12,699 --> 01:25:10,070

but I'm pretty sure that you may have

1971

01:25:16,989 --> 01:25:12,709

covered the topic of intelligence before

1972

01:25:20,199 --> 01:25:16,999

and that would be intelligence agents

1973

01:25:22,089 --> 01:25:20,209

now we're going to be wrapping up this

1974

01:25:24,639 --> 01:25:22,099

show here pretty soon but I still want

1975

01:25:27,279 --> 01:25:24,649

to cover this topic a little bit I

1976

01:25:29,679 --> 01:25:27,289

wanted to ask you is it correct to say

1977

01:25:32,859 --> 01:25:29,689

that you were able to uncover

1978

01:25:35,589 --> 01:25:32,869

information regarding and in possible

1979

01:25:38,259 --> 01:25:35,599

intelligence or confirmed alleged

1980

01:25:40,810 --> 01:25:38,269

confirmed intelligence agent Richard

1981

01:25:43,869 --> 01:25:40,820

Doty a regarding the FOIA requests that

1982

01:25:45,609 --> 01:25:43,879

she made on him many years ago and my

1983

01:25:49,089 --> 01:25:45,619

understanding is that you actually

1984

01:25:51,129 --> 01:25:49,099

uncovered more documents than anybody

1985

01:25:56,290 --> 01:25:51,139

has ever been able to uncover regarding

1986

01:25:58,359 --> 01:25:56,300

Doty is that correct yes no no Illi

1987

01:26:02,409 --> 01:25:58,369

that's I'm not taking the credit for

1988

01:26:08,290 --> 01:26:02,419

that no what happened was Richard okay

1989

01:26:12,459 --> 01:26:08,300

so some time ago like okay so so as we

1990

01:26:15,669 --> 01:26:12,469

know Richard Doty was a noncommissioned

1991

01:26:18,189 --> 01:26:15,679

officer with the well he was stationed

1992

01:26:19,869 --> 01:26:18,199

at various places in sin in in squadrons

1993

01:26:21,909 --> 01:26:19,879

security roles and and and

1994

01:26:23,799 --> 01:26:21,919

counterintelligence roles right down to

1995

01:26:27,489 --> 01:26:23,809

right down to things like apparently

1996

01:26:28,929 --> 01:26:27,499

doing drink like I don't know what you

1997

01:26:32,859 --> 01:26:28,939

call in your country but I think you

1998

01:26:35,229 --> 01:26:32,869

call it DUI or something he was he was

1999

01:26:37,000 --> 01:26:35,239

he was even doing um you know drink

2000

01:26:40,199 --> 01:26:37,010

driving testing on bases so we're not

2001

01:26:44,020 --> 01:26:40,209

exactly talking about a polished spooky

2002

01:26:46,689 --> 01:26:44,030

now Dodi don't the thing is don't it

2003

01:26:48,219 --> 01:26:46,699

don't he was tasked and served with the

2004

01:26:52,419 --> 01:26:48,229

officer mayor for special investigation

2005

01:26:55,119 --> 01:26:52,429

most famously and he look it's been

2006

01:26:57,699 --> 01:26:55,129

actually extremely difficult for anyone

2007

01:26:59,679 --> 01:26:57,709

to get hold of his service records he

2008

01:27:01,029 --> 01:26:59,689

was with the Air Force for 20 years he

2009

01:27:03,429 --> 01:27:01,039

was a noncommissioned officer I think

2010

01:27:05,560 --> 01:27:03,439

for 20 years and he we moved around a

2011

01:27:07,540 --> 01:27:05,570

lot he was in Germany and everywhere but

2012

01:27:08,290 --> 01:27:07,550

what actually happened with that I dunno

2013

01:27:15,609 --> 01:27:08,300

what you're talking about

2014

01:27:17,979 --> 01:27:15,619

um okay many years ago a researcher and

2015

01:27:20,380 --> 01:27:17,989

this is something has perplexes me but a

2016

01:27:22,510 --> 01:27:20,390

researcher by the name of Larry bro okay

2017

01:27:24,880 --> 01:27:22,520

before before everyone was concerned

2018

01:27:26,530 --> 01:27:24,890

about privacy or more so concerned about

2019

01:27:30,010 --> 01:27:26,540

privacy that it was stifling and

2020

01:27:32,680 --> 01:27:30,020

strangling strangulating the that we

2021

01:27:34,990 --> 01:27:32,690

used to be able to researchers used to

2022

01:27:36,970 --> 01:27:35,000

be able to get service records

2023

01:27:38,740 --> 01:27:36,980

maybe not medical or health records with

2024

01:27:43,060 --> 01:27:38,750

certainly service records you know

2025

01:27:45,670 --> 01:27:43,070

awards given ceremonies a promotional

2026

01:27:47,710 --> 01:27:45,680

information whatever we were able to get

2027

01:27:50,770 --> 01:27:47,720

we were able to get such information on

2028

01:27:52,480 --> 01:27:50,780

servicemen from from actually national

2029

01:27:54,880 --> 01:27:52,490

records and personnel center in San Luis

2030

01:27:56,110 --> 01:27:54,890

and they have alternate places you can

2031

01:27:57,910 --> 01:27:56,120

ask through like at Lackland Air Force

2032

01:28:01,420 --> 01:27:57,920

Base in Texas at the personnel center

2033

01:28:03,220 --> 01:28:01,430

and so on but but but if you if you were

2034

01:28:05,440 --> 01:28:03,230

patient and you gave enough information

2035

01:28:08,500 --> 01:28:05,450

if you wrote a letter to Santa Lewis

2036

01:28:10,810 --> 01:28:08,510

asking for the service records of a

2037

01:28:13,000 --> 01:28:10,820

particular officer or you know

2038

01:28:15,910 --> 01:28:13,010

noncommissioned officer or otherwise

2039

01:28:17,470 --> 01:28:15,920

military personnel they would with some

2040

01:28:20,380 --> 01:28:17,480

level of reductions definitely they

2041

01:28:24,850 --> 01:28:20,390

would actually release service records

2042

01:28:27,400 --> 01:28:24,860

in any way not in in 1987 or early 1988

2043

01:28:32,080 --> 01:28:27,410

I'm not sure which one researcher Larry

2044

01:28:35,110 --> 01:28:32,090

Bryant who it was a good was a good foi

2045

01:28:36,520 --> 01:28:35,120

researcher in the 80s he submitted a

2046

01:28:37,630 --> 01:28:36,530

Freedom of Information request to the

2047

01:28:39,850 --> 01:28:37,640

office of the secretary of the Air Force

2048

01:28:42,940 --> 01:28:39,860

for a copy of Richard D'Oyly service

2049

01:28:44,740 --> 01:28:42,950

records anyway the chief of information

2050

01:28:52,420 --> 01:28:44,750

release at the office of Air for Special

2051
01:28:57,220 --> 01:28:52,430
Investigation actually I guess released

2052
01:28:59,380 --> 01:28:57,230
released to Larry a series of records

2053
01:29:02,890 --> 01:28:59,390
about Richard Doty and then Larry also

2054
01:29:04,540 --> 01:29:02,900
went to the 1606 Air Base Wing at

2055
01:29:06,970 --> 01:29:04,550
Kirkland Air Force Base to ask for

2056
01:29:09,850 --> 01:29:06,980
current records well tony was actually

2057
01:29:13,510 --> 01:29:09,860
working there and anyway so Larry

2058
01:29:16,090 --> 01:29:13,520
actually got out 33 pages of documents

2059
01:29:19,360 --> 01:29:16,100
so the AFOSI service records and the air

2060
01:29:22,630 --> 01:29:19,370
base wing records of rich Dodi these

2061
01:29:24,700 --> 01:29:22,640
these 33 pages of service records were

2062
01:29:26,470 --> 01:29:24,710
given to him and what perplexes me is

2063
01:29:27,790 --> 01:29:26,480

Larry Bryant never published them he

2064

01:29:29,110 --> 01:29:27,800

didn't put them in a newsletter he

2065

01:29:31,000 --> 01:29:29,120

didn't offer them to other researchers

2066

01:29:34,430 --> 01:29:31,010

as far as I know they never made it into

2067

01:29:36,680 --> 01:29:34,440

a book and so anyway they were

2068

01:29:39,020 --> 01:29:36,690

they were given over the years some

2069

01:29:40,610 --> 01:29:39,030

maybe 10 years ago that those service

2070

01:29:42,530 --> 01:29:40,620

records were given to an author

2071

01:29:44,360 --> 01:29:42,540

Christian Lambert and the Christian

2072

01:29:46,460 --> 01:29:44,370

Lambright gave them to me and I

2073

01:29:48,530 --> 01:29:46,470

published them on my blog like I asked

2074

01:29:50,600 --> 01:29:48,540

everyone was really perplexed why no one

2075

01:29:52,010 --> 01:29:50,610

had done this before so I published them

2076

01:29:53,840 --> 01:29:52,020

on my blog so you could say I was the

2077

01:29:55,700 --> 01:29:53,850

first person to openly publish them so

2078

01:29:57,260 --> 01:29:55,710

everyone could you know review them but

2079

01:29:59,180 --> 01:29:57,270

I wasn't the guy that got them out no

2080

01:30:00,890 --> 01:29:59,190

you know and but it leads me on to one

2081

01:30:03,200 --> 01:30:00,900

thing is that now now that we can show

2082

01:30:04,700 --> 01:30:03,210

that so many came out years ago maybe we

2083

01:30:06,980 --> 01:30:04,710

can actually have another crack at it

2084

01:30:09,410 --> 01:30:06,990

and and and and see you know maybe

2085

01:30:13,400 --> 01:30:09,420

though he himself would like to see his

2086

01:30:15,320 --> 01:30:13,410

own separate service records yeah I'm

2087

01:30:17,180 --> 01:30:15,330

glad you brought up Lurie Bryant I just

2088

01:30:18,860 --> 01:30:17,190

wanted to let everybody know that he's

2089

01:30:22,790 --> 01:30:18,870

been involved in researching this topic

2090

01:30:24,560 --> 01:30:22,800

of ufology for 50 or 60 years he did

2091

01:30:29,810 --> 01:30:24,570

actually work for the government and his

2092

01:30:31,010 --> 01:30:29,820

website is UFO view tumblr.com UFO view

2093

01:30:32,990 --> 01:30:31,020

tumblr.com

2094

01:30:35,330 --> 01:30:33,000

please go check that out he is an

2095

01:30:37,640 --> 01:30:35,340

excellent researcher just like Paul Dean

2096

01:30:40,580 --> 01:30:37,650

he's been a little bit longer than he

2097

01:30:42,680 --> 01:30:40,590

has and I did actually call him up to

2098

01:30:46,460 --> 01:30:42,690

ask him to do an interview yeah and that

2099

01:30:50,200 --> 01:30:46,470

was probably earlier in the year but I

2100

01:30:53,330 --> 01:30:50,210

never did get a call back from him why

2101
01:30:55,190 --> 01:30:53,340
he's I don't know I'm supposed to say

2102
01:30:57,290 --> 01:30:55,200
that but he's not well yeah well one

2103
01:31:00,620 --> 01:30:57,300
would imagine so he's probably getting

2104
01:31:02,420 --> 01:31:00,630
along in years and you know we need to

2105
01:31:05,210 --> 01:31:02,430
give him credit because that is one

2106
01:31:06,260 --> 01:31:05,220
person who is very little-known he's

2107
01:31:09,530 --> 01:31:06,270
kept under the radar

2108
01:31:11,900 --> 01:31:09,540
he hasn't sensationalized his research

2109
01:31:13,550 --> 01:31:11,910
and he really should have afforded to

2110
01:31:16,040 --> 01:31:13,560
himself a little bit more credit because

2111
01:31:17,840 --> 01:31:16,050
out of everybody I know aside from

2112
01:31:21,890 --> 01:31:17,850
yourself keep Bastyr field

2113
01:31:25,400 --> 01:31:21,900

Isaac coy many others but he actually is

2114

01:31:27,320 --> 01:31:25,410

right up there with yourself regarding

2115

01:31:29,840 --> 01:31:27,330

having been one of the best researchers

2116

01:31:32,630 --> 01:31:29,850

of all time in ufology and other

2117

01:31:34,160 --> 01:31:32,640

phenomena regarding Richard Doty I just

2118

01:31:35,810 --> 01:31:34,170

wanted to bring to your attention will

2119

01:31:39,710 --> 01:31:35,820

last thing if you look him up on the CIA

2120

01:31:44,330 --> 01:31:39,720

archives website you'll see a few pages

2121

01:31:46,070 --> 01:31:44,340

there regarding him as far as folks

2122

01:31:48,050 --> 01:31:46,080

trying to find out more information on

2123

01:31:50,300 --> 01:31:48,060

him which has been denied

2124

01:31:52,250 --> 01:31:50,310

repeatedly I wanted to read just a

2125

01:31:54,530 --> 01:31:52,260

little bit about that from the CIA

2126
01:31:56,690 --> 01:31:54,540
archives as far as what kind of response

2127
01:31:59,390 --> 01:31:56,700
to gave and that is just a very short

2128
01:32:01,790 --> 01:31:59,400
amount of information on December 7 2007

2129
01:32:03,980 --> 01:32:01,800
the office of information Privacy

2130
01:32:07,310 --> 01:32:03,990
coordinator received this person's

2131
01:32:09,260 --> 01:32:07,320
request on Richard Doty and it says

2132
01:32:11,270 --> 01:32:09,270
specifically or requesting information

2133
01:32:13,100 --> 01:32:11,280
on the CIA use of the services for any

2134
01:32:15,620 --> 01:32:13,110
reason or employment of this individual

2135
01:32:17,120 --> 01:32:15,630
and then it goes on to say that the

2136
01:32:19,040 --> 01:32:17,130
information you're asking for must be

2137
01:32:21,260 --> 01:32:19,050
denied to you since it is classified

2138
01:32:24,260 --> 01:32:21,270

under the provisions of such-and-such

2139

01:32:27,050 --> 01:32:24,270

executive order and so on and it goes on

2140

01:32:29,990 --> 01:32:27,060

to cite more sections and why they

2141

01:32:32,180 --> 01:32:30,000

cannot give that information and they

2142

01:32:35,420 --> 01:32:32,190

just refuse to give any information on

2143

01:32:37,340 --> 01:32:35,430

it now I happen to believe that the

2144

01:32:39,620 --> 01:32:37,350

reason why folks got more information on

2145

01:32:41,500 --> 01:32:39,630

Richard Doty when they did is because

2146

01:32:45,410 --> 01:32:41,510

they asked at a much earlier time than

2147

01:32:47,030 --> 01:32:45,420

2007 so that's great isn't it yep I'm

2148

01:32:51,050 --> 01:32:47,040

actually quite impressed that you know

2149

01:32:53,660 --> 01:32:51,060

about that the CIA the CIA indeed I know

2150

01:32:55,420 --> 01:32:53,670

the researcher who actually submitted

2151
01:32:57,800 --> 01:32:55,430
that very request you just mentioned in

2152
01:32:59,600 --> 01:32:57,810
2007 there was actually there was

2153
01:33:01,610 --> 01:32:59,610
actually five letters that went back and

2154
01:33:04,280 --> 01:33:01,620
forward not just one well obviously not

2155
01:33:06,350 --> 01:33:04,290
just one but I know the researcher that

2156
01:33:10,550 --> 01:33:06,360
actually submitted that and he just gave

2157
01:33:12,920 --> 01:33:10,560
up and that was fine but it looks like

2158
01:33:14,420 --> 01:33:12,930
he gave up I'm what yeah yeah yeah he

2159
01:33:17,450 --> 01:33:14,430
there was actually five letters going

2160
01:33:19,430 --> 01:33:17,460
back and forward and the it does appear

2161
01:33:20,840 --> 01:33:19,440
when you read it in a certain way like

2162
01:33:23,350 --> 01:33:20,850
you just read that then that's that's

2163
01:33:25,940 --> 01:33:23,360

the key line but it does appear that

2164

01:33:27,470 --> 01:33:25,950

they sort of admitted that yeah we do

2165

01:33:28,640 --> 01:33:27,480

have records on Richard C Doty but we

2166

01:33:30,950 --> 01:33:28,650

could obviously can't release them

2167

01:33:33,020 --> 01:33:30,960

you know it's privacy the other thing is

2168

01:33:35,120 --> 01:33:33,030

you gotta understand B I mean my instant

2169

01:33:37,880 --> 01:33:35,130

reaction was oh my god you know Doty

2170

01:33:40,270 --> 01:33:37,890

worked for or was loaned to the CIA for

2171

01:33:43,550 --> 01:33:40,280

whatever reason it may simply be

2172

01:33:45,440 --> 01:33:43,560

something really an oculus like like you

2173

01:33:47,720 --> 01:33:45,450

know it might be well you know the the

2174

01:33:49,010 --> 01:33:47,730

the documents that they that they have

2175

01:33:52,490 --> 01:33:49,020

that they're that they're choosing to

2176
01:33:54,920 --> 01:33:52,500
deny releasing maybe like letters to the

2177
01:33:56,810 --> 01:33:54,930
CIA from Richard Doty himself you know

2178
01:33:58,640 --> 01:33:56,820
they could be they could be sort of like

2179
01:34:00,770 --> 01:33:58,650
synopsises of the whole Richard Doty

2180
01:34:01,550 --> 01:34:00,780
story or they could be a request that

2181
01:34:07,400 --> 01:34:01,560
someone from the

2182
01:34:09,290 --> 01:34:07,410
a you know like trying it try and work

2183
01:34:11,740 --> 01:34:09,300
with Richard Doty or I don't know what

2184
01:34:15,140 --> 01:34:11,750
it doesn't necessarily mean that

2185
01:34:16,670 --> 01:34:15,150
Richards only actually I guess work for

2186
01:34:18,560 --> 01:34:16,680
them or this you know we're talking

2187
01:34:21,740 --> 01:34:18,570
about thousands of pages here I def I

2188
01:34:23,600 --> 01:34:21,750

don't think we will be but you know yeah

2189

01:34:26,570 --> 01:34:23,610

just for the folks listening at Richard

2190

01:34:29,480 --> 01:34:26,580

Doty is a widely believed to be the

2191

01:34:32,320 --> 01:34:29,490

person responsible at least in part for

2192

01:34:38,030 --> 01:34:32,330

material like the mj-12 documents and

2193

01:34:40,370 --> 01:34:38,040

the serpent material and I just wanted

2194

01:34:41,720 --> 01:34:40,380

to bring up something that's still kind

2195

01:34:43,520 --> 01:34:41,730

of related to what we're talking about

2196

01:34:45,410 --> 01:34:43,530

just kind of go back a little bit and

2197

01:34:50,990 --> 01:34:45,420

that is regarding Larry Bryant he's

2198

01:34:53,930 --> 01:34:51,000

known for having had a case a legal case

2199

01:34:56,720 --> 01:34:53,940

that was ended up in the CIA CIA

2200

01:34:59,660 --> 01:34:56,730

archives and that strange court case was

2201
01:35:02,120 --> 01:34:59,670
titled an application has been filed in

2202
01:35:03,350 --> 01:35:02,130
court here demanding that the Air Force

2203
01:35:05,300 --> 01:35:03,360
released the remains of the

2204
01:35:07,370 --> 01:35:05,310
extraterrestrial being or beings it is

2205
01:35:11,210 --> 01:35:07,380
alleged to be holding in secret custody

2206
01:35:13,670 --> 01:35:11,220
Pentagon officials said that is an

2207
01:35:16,070 --> 01:35:13,680
article that was written on the legal

2208
01:35:19,130 --> 01:35:16,080
case and that Larry Bryant brought

2209
01:35:21,320 --> 01:35:19,140
against the US government insisting that

2210
01:35:23,600 --> 01:35:21,330
there were ETS being held against their

2211
01:35:25,490 --> 01:35:23,610
will and that was a curious article that

2212
01:35:27,200 --> 01:35:25,500
was written for Reuters published July

2213
01:35:28,970 --> 01:35:27,210

fourteenth nineteen eighty-three details

2214

01:35:31,700 --> 01:35:28,980

an alleged abduction of extraterrestrial

2215

01:35:34,460 --> 01:35:31,710

creatures by the US government and I

2216

01:35:37,670 --> 01:35:34,470

just wanted to also let him folks know a

2217

01:35:40,400 --> 01:35:37,680

little bit more about the enigma called

2218

01:35:42,290 --> 01:35:40,410

mr. Larry Bryant and that is he was a

2219

01:35:44,750 --> 01:35:42,300

former director for the Washington DC

2220

01:35:47,690 --> 01:35:44,760

office of citizens against UFO secrecy

2221

01:35:49,310 --> 01:35:47,700

as Paul Dean knows so well he was also a

2222

01:35:49,970 --> 01:35:49,320

civilian federal employee for over

2223

01:35:51,770 --> 01:35:49,980

thirty years

2224

01:35:53,600 --> 01:35:51,780

Bryant has researched the area of

2225

01:35:56,000 --> 01:35:53,610

ufology for many years from his home in

2226

01:35:57,980 --> 01:35:56,010

Alexandria Virginia he has published

2227

01:35:59,780 --> 01:35:57,990

hundreds of articles in these reports

2228

01:36:02,210 --> 01:35:59,790

range from personal long sought after

2229

01:36:03,740 --> 01:36:02,220

FOIA requests his other reports are

2230

01:36:05,660 --> 01:36:03,750

empirical investigative research

2231

01:36:08,810 --> 01:36:05,670

regarding ufology in extraterrestrial

2232

01:36:11,150 --> 01:36:08,820

subject matters and his Brian his

2233

01:36:13,550 --> 01:36:11,160

extensive blog can be found on tumblr as

2234

01:36:15,530 --> 01:36:13,560

I said and the article detailing this

2235

01:36:17,180 --> 01:36:15,540

extraordinary court case about extra

2236

01:36:20,870 --> 01:36:17,190

Errol's and US military can be found in

2237

01:36:22,640 --> 01:36:20,880

the CIA archives or the 7,000 word

2238

01:36:24,200 --> 01:36:22,650

article I wrote on the CIA which you can

2239

01:36:27,790 --> 01:36:24,210

actually go to chant Hannity

2240

01:36:30,380 --> 01:36:27,800

wordpress.com and look up that CIA

2241

01:36:33,530 --> 01:36:30,390

article I wrote which includes Larry

2242

01:36:36,620 --> 01:36:33,540

Bryant and many many other stories

2243

01:36:38,720 --> 01:36:36,630

having to do with CIA intelligence Paul

2244

01:36:41,480 --> 01:36:38,730

we really wanted to thank you for having

2245

01:36:43,580 --> 01:36:41,490

come onto our show and wanted to let

2246

01:36:46,460 --> 01:36:43,590

everybody know about your website and

2247

01:36:48,950 --> 01:36:46,470

that is UFOs documenting the evidence

2248

01:36:51,230 --> 01:36:48,960

dot blog spot.com I'm going to input

2249

01:36:54,050 --> 01:36:51,240

that in the chat so everybody knows

2250

01:36:56,620 --> 01:36:54,060

where to go again it's UFOs documenting

2251

01:37:00,800 --> 01:36:56,630

the evidence blogspot.com

2252

01:37:02,390 --> 01:37:00,810

in the video description as well right

2253

01:37:03,800 --> 01:37:02,400

and I did want to let Paul know

2254

01:37:05,720 --> 01:37:03,810

something that's really important

2255

01:37:08,240 --> 01:37:05,730

Paul you know what you really need to be

2256

01:37:12,070 --> 01:37:08,250

thanked for all of the hard work you've

2257

01:37:14,540 --> 01:37:12,080

done you've done you put your heart

2258

01:37:17,060 --> 01:37:14,550

basically blood sweat and tears your

2259

01:37:17,810 --> 01:37:17,070

soul into your work it's a thankless

2260

01:37:21,020 --> 01:37:17,820

task

2261

01:37:24,230 --> 01:37:21,030

I'm sure you've put all kinds of not

2262

01:37:26,360 --> 01:37:24,240

just money you know but all kinds of

2263

01:37:29,410 --> 01:37:26,370

energy and time regarding what you do

2264

01:37:32,060 --> 01:37:29,420

hundreds probably thousands of hours

2265

01:37:34,520 --> 01:37:32,070

spent and want to thank you for having

2266

01:37:39,340 --> 01:37:34,530

done that and lightened and educated the

2267

01:37:42,140 --> 01:37:39,350

UFO community for so many years that's

2268

01:37:45,110 --> 01:37:42,150

exactly what Andy's thankful it's very

2269

01:37:47,480 --> 01:37:45,120

very dry sometimes incredibly very slow

2270

01:37:49,940 --> 01:37:47,490

very boring you've got a remember you've

2271

01:37:51,110 --> 01:37:49,950

got to have a really acute memory and

2272

01:37:53,780 --> 01:37:51,120

that that's that can be actually very

2273

01:37:56,150 --> 01:37:53,790

draining but no thank you for giving me

2274

01:37:58,610 --> 01:37:56,160

the opportunity sure to come on the show

2275

01:38:00,350 --> 01:37:58,620

yeah it was good it was good I never

2276

01:38:02,690 --> 01:38:00,360

know what time is it like what time is

2277

01:38:04,250 --> 01:38:02,700

it time it's about quarter of its about

2278

01:38:06,650 --> 01:38:04,260

quarter of ten my time I think it's

2279

01:38:10,730 --> 01:38:06,660

quarter of 7:00 in the evening chant

2280

01:38:13,910 --> 01:38:10,740

time it is alright alright thank you

2281

01:38:15,950 --> 01:38:13,920

okay thanks so much I appreciate your

2282

01:38:18,200 --> 01:38:15,960

time Paul and you know you've got a

2283

01:38:20,900 --> 01:38:18,210

strong geek following you know you might

2284

01:38:23,410 --> 01:38:20,910

not have tens of thousands of fans but

2285

01:38:27,380 --> 01:38:23,420

you've got your hardcore fans know Chris

2286

01:38:28,520 --> 01:38:27,390

highlighted really very roughly on it

2287

01:38:32,030 --> 01:38:28,530

like you know

2288

01:38:35,120 --> 01:38:32,040

like it's it's it's it is and it's very

2289

01:38:37,880 --> 01:38:35,130

very hard to do what I do and there's

2290

01:38:40,700 --> 01:38:37,890

very few people doing it like yeah

2291

01:38:42,620 --> 01:38:40,710

anyway well thank you very much it's

2292

01:38:44,750 --> 01:38:42,630

it's a special calling but we surely do

2293

01:38:55,810 --> 01:38:44,760

appreciate it thanks so much Paul thank

2294

01:39:02,990 --> 01:38:59,870

so another successful show in the books

2295

01:39:05,570 --> 01:39:03,000

J Hannah what do you think fantastic

2296

01:39:07,610 --> 01:39:05,580

that's exciting and up you know I just

2297

01:39:09,590 --> 01:39:07,620

am so impressed with Paul you know I

2298

01:39:13,040 --> 01:39:09,600

just also wanted to mention that UFO

2299

01:39:16,850 --> 01:39:13,050

Congress this year I believe they might

2300

01:39:18,860 --> 01:39:16,860

be doing a a vote on researcher of the

2301

01:39:21,320 --> 01:39:18,870

year and so that's gonna be really

2302

01:39:23,810 --> 01:39:21,330

exciting to find out who they're going

2303

01:39:26,030 --> 01:39:23,820

to vote for personally there's a few

2304

01:39:28,820 --> 01:39:26,040

people I wanted to mention that I think

2305

01:39:31,400 --> 01:39:28,830

deserve the vote if there is a

2306

01:39:33,350 --> 01:39:31,410

possibility regarding voting on many

2307

01:39:36,440 --> 01:39:33,360

people at once in other words they all

2308

01:39:37,970 --> 01:39:36,450

get the trophy did you make it they

2309

01:39:39,590 --> 01:39:37,980

should make it special this year like

2310

01:39:41,300 --> 01:39:39,600

they did with that Walt Disney Oscar

2311

01:39:45,620 --> 01:39:41,310

where they gave the the big Oscar and

2312

01:39:47,990 --> 01:39:45,630

then the little dwarf Oscars right yeah

2313

01:39:52,010 --> 01:39:48,000

yeah and the folks that I would vote for

2314

01:39:55,040 --> 01:39:52,020

are Paul Dean Keith pastor field Issac

2315

01:40:00,920 --> 01:39:55,050

coy hands down all these folks and then

2316

01:40:03,770 --> 01:40:00,930

also the the wonderful but low-key Larry

2317

01:40:06,680 --> 01:40:03,780

Bryant who has to be the quietest

2318

01:40:08,120 --> 01:40:06,690

researcher of all and then I would say

2319

01:40:12,650 --> 01:40:08,130

Paul Dean is after that he's an

2320

01:40:14,510 --> 01:40:12,660

extremely quiet guy and I am pulling for

2321

01:40:20,120 --> 01:40:14,520

with all due respect to Paul I am

2322

01:40:21,860 --> 01:40:20,130

pulling for Dave Beatty yes came for

2323

01:40:24,710 --> 01:40:21,870

came from out of nowhere came from

2324

01:40:27,380 --> 01:40:24,720

nowhere actually and not really you'd

2325

01:40:30,710 --> 01:40:27,390

been in the UFOs for a while took a took

2326

01:40:34,520 --> 01:40:30,720

a step back then jump back in and he has

2327

01:40:35,900 --> 01:40:34,530

had a great year for a second it's

2328

01:40:38,900 --> 01:40:35,910

really important everybody understand

2329

01:40:42,079 --> 01:40:38,910

what Frank means by that not as he did a

2330

01:40:45,199 --> 01:40:42,089

wonderful documentary and that is

2331

01:40:47,209 --> 01:40:45,209

only an one known of its kind and he did

2332

01:40:49,489 --> 01:40:47,219

that it's USS new Mets encounter and

2333

01:40:51,649 --> 01:40:49,499

it's about that tic-tac event that

2334

01:40:54,559 --> 01:40:51,659

occurred and that we've been talking

2335

01:40:56,989 --> 01:40:54,569

about and that actually hit Amazon I

2336

01:40:59,719 --> 01:40:56,999

think it was was it early last late last

2337

01:41:03,049 --> 01:40:59,729

year yeah it was it was on YouTube late

2338

01:41:05,719 --> 01:41:03,059

last year and it picked up almost a

2339

01:41:08,919 --> 01:41:05,729

million and a half views eventually a

2340

01:41:11,719 --> 01:41:08,929

matter of weeks now that is astounding

2341

01:41:13,790 --> 01:41:11,729

he's not making a dime off that by the

2342

01:41:15,829 --> 01:41:13,800

way you know and he put so many hours

2343

01:41:19,309 --> 01:41:15,839

into that he's such a wonderful person

2344

01:41:20,959 --> 01:41:19,319

also all these folks are so yes Dave

2345

01:41:23,209 --> 01:41:20,969

baby for sure are there any other

2346

01:41:24,829 --> 01:41:23,219

researchers you'd like to bring up those

2347

01:41:26,540 --> 01:41:24,839

are the guys I mean there there are some

2348

01:41:28,339 --> 01:41:26,550

others out there who have come along and

2349

01:41:32,000 --> 01:41:28,349

that have done a really good job but

2350

01:41:33,409 --> 01:41:32,010

let's you know in the end there can only

2351

01:41:37,309 --> 01:41:33,419

be one just like the Highlander

2352

01:41:39,859 --> 01:41:37,319

tournament so we will see we will see

2353

01:41:41,479 --> 01:41:39,869

what the UFO Congress comes up with but

2354

01:41:44,239 --> 01:41:41,489

yeah they couldn't go wrong with either

2355

01:41:47,059 --> 01:41:44,249

Dave or Paul or Keith no question about

2356

01:41:48,859 --> 01:41:47,069

that over the last year or so no doubt

2357

01:41:51,469 --> 01:41:48,869

about it they've had very very good

2358

01:41:53,029 --> 01:41:51,479

years yeah I wanted to bring up an

2359

01:41:55,339 --> 01:41:53,039

interesting topic which we'll just talk

2360

01:41:57,559 --> 01:41:55,349

about briefly because I know you want to

2361

01:41:59,959 --> 01:41:57,569

wrap this up soon but UFO Fest which is

2362

01:42:02,540 --> 01:41:59,969

McMinnville I think that's Oregon

2363

01:42:03,829 --> 01:42:02,550

they're gonna be holding that I think

2364

01:42:05,270 --> 01:42:03,839

it's gonna be this weekend they're gonna

2365

01:42:07,549 --> 01:42:05,280

have some really interesting speakers

2366

01:42:09,770 --> 01:42:07,559

there I wanted to mention what speakers

2367

01:42:13,309 --> 01:42:09,780

they are because they have a speaker

2368

01:42:16,609 --> 01:42:13,319

that absolutely astounded me that is

2369

01:42:18,649 --> 01:42:16,619

going to be there it's Bob Lazar Bob

2370

01:42:20,959 --> 01:42:18,659

Lazar former government physicists

2371

01:42:23,779 --> 01:42:20,969

alleged government physicists he made

2372

01:42:26,299 --> 01:42:23,789

headlines as everybody knows in the late

2373

01:42:29,389 --> 01:42:26,309

80s he came forward via George Knapp

2374

01:42:31,759 --> 01:42:29,399

regarding reverse engineering tech alien

2375

01:42:33,859 --> 01:42:31,769

propulsion systems for the US military

2376

01:42:37,520 --> 01:42:33,869

there were nine crafts that he said he

2377

01:42:39,649 --> 01:42:37,530

saw at area 51 rather s4's where he said

2378

01:42:42,409 --> 01:42:39,659

he saw them inside of airplane hangars

2379

01:42:45,919 --> 01:42:42,419

and he also claims to have worked for

2380

01:42:47,750 --> 01:42:45,929

Los Alamos elapsed in New Mexico so it's

2381

01:42:51,109 --> 01:42:47,760

interesting that he's going to be at UFO

2382

01:42:53,359 --> 01:42:51,119

fest and I actually had wanted to attend

2383

01:42:55,780 --> 01:42:53,369

that event I might still we'll see if I

2384

01:42:57,700 --> 01:42:55,790

get down there

2385

01:42:58,840 --> 01:42:57,710

there's also commander David flavour

2386

01:43:02,170 --> 01:42:58,850

who's going to be there

2387

01:43:09,520 --> 01:43:02,180

Daniel Marek David I think is it Pilates

2388

01:43:11,950 --> 01:43:09,530

appala I can never say yes Jeremy Korbel

2389

01:43:15,370 --> 01:43:11,960

is gonna be there right Peter Davenport

2390

01:43:16,780 --> 01:43:15,380

is gonna be there so yeah it looks like

2391

01:43:17,560 --> 01:43:16,790

they've got a really good lineup there

2392

01:43:21,130 --> 01:43:17,570

no doubt about it

2393

01:43:22,780 --> 01:43:21,140

it's you yes and I wanted to let

2394

01:43:26,200 --> 01:43:22,790

everybody know that if you want to see a

2395

01:43:28,810 --> 01:43:26,210

really interesting event that will never

2396

01:43:30,880 --> 01:43:28,820

probably ever happen again in our

2397

01:43:34,030 --> 01:43:30,890

lifetimes and you want to see Bob Lazar

2398

01:43:36,910 --> 01:43:34,040

talk they have not sold out on tickets

2399

01:43:39,130 --> 01:43:36,920

regarding that I would go if I can I

2400

01:43:41,230 --> 01:43:39,140

might still go but also wanted to

2401
01:43:43,810 --> 01:43:41,240
mention one thing I noticed there was

2402
01:43:45,250 --> 01:43:43,820
one female at this event and I'm not

2403
01:43:46,810 --> 01:43:45,260
going to take them to task over that I'm

2404
01:43:49,750 --> 01:43:46,820
just mentioning it'd be nice to see a

2405
01:43:51,100 --> 01:43:49,760
few more females there's one lady that's

2406
01:43:52,480 --> 01:43:51,110
going to be there by the name of Joe and

2407
01:43:55,150 --> 01:43:52,490
Clarkson I'm sure she'll have a

2408
01:43:57,550 --> 01:43:55,160
fascinating talk while she's there but

2409
01:43:58,930 --> 01:43:57,560
you know we need to also give these

2410
01:44:00,820 --> 01:43:58,940
folks that benefit the doubt it's quite

2411
01:44:02,590 --> 01:44:00,830
possible that you know they tried to

2412
01:44:04,780 --> 01:44:02,600
reach out to more female speakers

2413
01:44:06,370 --> 01:44:04,790

regarding the topic of ufology know

2414

01:44:09,070 --> 01:44:06,380

their phenomena but they weren't able to

2415

01:44:11,740 --> 01:44:09,080

actually achieve that so I'd like to see

2416

01:44:13,660 --> 01:44:11,750

more females involved in conventions and

2417

01:44:15,610 --> 01:44:13,670

I know that UFO Congress will have that

2418

01:44:17,530 --> 01:44:15,620

they have a lot to say and it's just

2419

01:44:20,830 --> 01:44:17,540

always nice to hear them have a chance

2420

01:44:23,080 --> 01:44:20,840

to give a talk anyway so you mentioned

2421

01:44:25,540 --> 01:44:23,090

that the females it looks like at the

2422

01:44:27,100 --> 01:44:25,550

end of this month the 31st they are

2423

01:44:30,790 --> 01:44:27,110

finally going to premiere the

2424

01:44:34,450 --> 01:44:30,800

unidentified TV show you know the the

2425

01:44:36,130 --> 01:44:34,460

stars Tom DeLonge and Lou Elizondo but

2426

01:44:39,790 --> 01:44:36,140

it looks like they've got an interview

2427

01:44:43,480 --> 01:44:39,800

featuring the infamous anonymous female

2428

01:44:47,020 --> 01:44:43,490

pilot not necessarily going public but

2429

01:44:48,550 --> 01:44:47,030

they are apparently they she long it's

2430

01:44:50,470 --> 01:44:48,560

been talked about now she'll never come

2431

01:44:51,640 --> 01:44:50,480

forward she'll never be bought but it

2432

01:44:53,860 --> 01:44:51,650

looks like they've got at least an

2433

01:44:56,860 --> 01:44:53,870

interview with her she may not have

2434

01:44:59,950 --> 01:44:56,870

reveal her identity but at least she is

2435

01:45:02,380 --> 01:44:59,960

going on camera and recounting her side

2436

01:45:04,510 --> 01:45:02,390

of things she was the other pilot when

2437

01:45:06,730 --> 01:45:04,520

Dave flavor was out there a rendezvous

2438

01:45:08,459 --> 01:45:06,740

with the tic-tac you up out so that

2439

01:45:10,049 --> 01:45:08,469

should be pretty interesting and

2440

01:45:12,689 --> 01:45:10,059

have a lot of stuff I guess starting in

2441

01:45:14,549 --> 01:45:12,699

June where will likely do some in-depth

2442

01:45:16,680 --> 01:45:14,559

reviews of the different shows that

2443

01:45:18,209 --> 01:45:16,690

they've got coming out so we will see

2444

01:45:20,459 --> 01:45:18,219

we're definitely looking forward to that

2445

01:45:22,020 --> 01:45:20,469

we've got what at least we made do a

2446

01:45:24,239 --> 01:45:22,030

show between now and the end of the week

2447

01:45:26,399 --> 01:45:24,249

depending on what your plans are related

2448

01:45:28,259 --> 01:45:26,409

to Oregon but for sure we'll be back

2449

01:45:30,839 --> 01:45:28,269

next Monday night with Calvin Parker

2450

01:45:32,879 --> 01:45:30,849

that's gonna be a lot of fun and yeah

2451

01:45:34,350 --> 01:45:32,889

we've got some other shows lined up I

2452

01:45:36,930 --> 01:45:34,360

don't have the schedule in front of me

2453

01:45:38,790 --> 01:45:36,940

but stay tuned I mean well well spam

2454

01:45:40,560 --> 01:45:38,800

will spam around so you'll know when

2455

01:45:42,719 --> 01:45:40,570

they're coming up but for sure at the

2456

01:45:44,609 --> 01:45:42,729

very least we'll be back next Monday at

2457

01:45:47,609 --> 01:45:44,619

the latest with Calvin Parker so that's

2458

01:45:50,009 --> 01:45:47,619

going to be a lot of fun so okay we do

2459

01:45:51,450 --> 01:45:50,019

also just want to last mention one last

2460

01:45:54,629 --> 01:45:51,460

thing that is we do have Mark Dantonio

2461

01:45:57,930 --> 01:45:54,639

and I think we may have Tom Whitmore

2462

01:46:00,770 --> 01:45:57,940

your guardian angel of coming up so

2463

01:46:04,259 --> 01:46:00,780

that's going to be an interesting

2464

01:46:06,600 --> 01:46:04,269

interview and Mark Dantonio a belief

2465

01:46:08,430 --> 01:46:06,610

he's an astronomer he has some really

2466

01:46:09,899 --> 01:46:08,440

fascinating things to say I always love

2467

01:46:12,989 --> 01:46:09,909

listening to him because he always talks

2468

01:46:15,359 --> 01:46:12,999

about things in from the perspective of

2469

01:46:17,279 --> 01:46:15,369

pure science so that's always will be

2470

01:46:19,560 --> 01:46:17,289

ready he'll be ready to go for those I

2471

01:46:21,330 --> 01:46:19,570

think we did a real nice job

2472

01:46:23,459 --> 01:46:21,340

Paul's always great you can't do a bad

2473

01:46:26,009 --> 01:46:23,469

interview with Paul so I think we did

2474

01:46:28,259 --> 01:46:26,019

well and Channel we've got ready to wrap

2475

01:46:29,850 --> 01:46:28,269

up I think I'm ready I just want to

2476

01:46:33,629 --> 01:46:29,860

thank everybody for having listened

2477

01:46:35,819 --> 01:46:33,639

tonight really appreciate your taking

2478

01:46:37,080 --> 01:46:35,829

the time you're you know taking your

2479

01:46:39,000 --> 01:46:37,090

time out of your day to come and listen

2480

01:46:40,680 --> 01:46:39,010

to us because we want to make sure that

2481

01:46:42,779 --> 01:46:40,690

we get only the best guests to you and

2482

01:46:44,129 --> 01:46:42,789

so it's just really wonderful to spend

2483

01:46:46,379 --> 01:46:44,139

this kind of time with you so thank you

2484

01:46:47,009 --> 01:46:46,389

very much we appreciate very much good
