

# UNIDENTIFIED PANEL REVIEW

KAREN BRARD  
EARL GREY  
RICH HOFFMAN  
SHANE HURD  
ALEJANDRO ROJAS  
DR. IRENA SCOTT  
MICHAEL W. HALL

**UFONN**  
**SUNDAY**

1  
00:01:04,630 --> 00:00:35,450

[Music]

2  
00:01:10,010 --> 00:01:07,580

and good afternoon from Philadelphia

3  
00:01:13,370 --> 00:01:10,020

Frank here with another episode of UFO

4  
00:01:15,230 --> 00:01:13,380

news network Sunday we've got a big time

5  
00:01:17,690 --> 00:01:15,240

roundtable discussion ready for you all

6  
00:01:20,750 --> 00:01:17,700

and we're gonna be joined by Karen

7  
00:01:23,890 --> 00:01:20,760

Burrard Earl Grey rich Hoffmann Shane

8  
00:01:27,010 --> 00:01:23,900

herd Alejandro Rojas and dr. irina scott

9  
00:01:30,490 --> 00:01:27,020

reviewing the first episode of

10  
00:01:34,010 --> 00:01:30,500

unidentified inside America's UFO and

11  
00:01:37,040 --> 00:01:34,020

investigation it's out finally after all

12  
00:01:38,840 --> 00:01:37,050

this time the TTS a group has finally

13  
00:01:43,450 --> 00:01:38,850

gotten their TV show on the road

14

00:01:46,130 --> 00:01:43,460

telling their story their way and let's

15

00:01:48,230 --> 00:01:46,140

let's get right down to it what did

16

00:01:57,010 --> 00:01:48,240

everyone think of the show just go ahead

17

00:02:02,990 --> 00:01:59,780

This Is Earl I thought it was wonderful

18

00:02:05,450 --> 00:02:03,000

I thought it was soft disclosure not the

19

00:02:09,070 --> 00:02:05,460

whole story but hey you know it's

20

00:02:12,860 --> 00:02:09,080

getting to you know a mass audience that

21

00:02:15,710 --> 00:02:12,870

you know used to ask me where my tinfoil

22

00:02:18,949 --> 00:02:15,720

hat was and now people ask me better

23

00:02:21,080 --> 00:02:18,959

questions yeah yeah this is Shane I

24

00:02:23,420 --> 00:02:21,090

enjoyed it very much as well and I

25

00:02:25,400 --> 00:02:23,430

watched it through twice and the first

26

00:02:27,590 --> 00:02:25,410

time I watched it you know for me

27

00:02:29,420 --> 00:02:27,600

personally you know as a person you know

28

00:02:31,910 --> 00:02:29,430

I have some knowledge on the subject and

29

00:02:33,979 --> 00:02:31,920

then the second time I tried to watch it

30

00:02:37,220 --> 00:02:33,989

from the perspective of someone that you

31

00:02:38,840 --> 00:02:37,230

know was new or just interested or you

32

00:02:41,150 --> 00:02:38,850

know like maybe my wife would interpret

33

00:02:43,699 --> 00:02:41,160

it not I was really satisfied from both

34

00:02:46,220 --> 00:02:43,709

perspectives because you know gave me

35

00:02:48,860 --> 00:02:46,230

some of the meat I needed to see in here

36

00:02:51,500 --> 00:02:48,870

and yet it was laid out in a cogent and

37

00:02:53,570 --> 00:02:51,510

simple and direct forward way that a

38

00:02:56,870 --> 00:02:53,580

newcomer you know could certainly get

39

00:02:59,030 --> 00:02:56,880

with the program pretty quick on it this

40

00:03:01,670 --> 00:02:59,040

is rich I think after you know we put

41

00:03:03,680 --> 00:03:01,680

together our 270 page paper honey you

42

00:03:06,199 --> 00:03:03,690

know for me it was a little bit like ok

43

00:03:10,280 --> 00:03:06,209

you know I know but I was very happy to

44

00:03:12,979 --> 00:03:10,290

see the female pilot come forward you

45

00:03:14,530 --> 00:03:12,989

know she didn't reveal our identity but

46

00:03:16,990 --> 00:03:14,540

you actually engaged in

47

00:03:19,780 --> 00:03:17,000

telling her her perspective which we had

48

00:03:22,259 --> 00:03:19,790

not had a chance to do so there were

49

00:03:25,240 --> 00:03:22,269

elements of the the case that were

50

00:03:27,970 --> 00:03:25,250

discussed which I was particularly

51  
00:03:30,190 --> 00:03:27,980  
pleased that they did the way they did

52  
00:03:32,470 --> 00:03:30,200  
it yeah they didn't beat around the bush

53  
00:03:34,720 --> 00:03:32,480  
and that was a bit of a bit of a coup

54  
00:03:36,880 --> 00:03:34,730  
for them to actually get her on even in

55  
00:03:39,280 --> 00:03:36,890  
the shadows with her identity not

56  
00:03:42,069 --> 00:03:39,290  
properly revealed but you know we knew

57  
00:03:44,949 --> 00:03:42,079  
she was out there and talked about for a

58  
00:03:47,619 --> 00:03:44,959  
long time that some insiders Paco

59  
00:03:50,440 --> 00:03:47,629  
cirucci I think a flavour as well and

60  
00:03:52,420 --> 00:03:50,450  
said behind the scenes she's never gonna

61  
00:03:54,339 --> 00:03:52,430  
come forward so this was a nice little

62  
00:03:57,670 --> 00:03:54,349  
coup for them and she was very

63  
00:03:59,890 --> 00:03:57,680

compelling yeah I totally agree with

64

00:04:03,550 --> 00:03:59,900

that I think that I really found it

65

00:04:05,500 --> 00:04:03,560

great that they used her to kind of walk

66

00:04:07,330 --> 00:04:05,510

the narrative through the Nimitz because

67

00:04:10,360 --> 00:04:07,340

for those of us like all of us here

68

00:04:11,920 --> 00:04:10,370

we're all very familiar with the Nimitz

69

00:04:14,649 --> 00:04:11,930

case some of us more than others but all

70

00:04:16,360 --> 00:04:14,659

of us know quite a bit about it we've

71

00:04:19,029 --> 00:04:16,370

read all the reports we've heard from

72

00:04:20,740 --> 00:04:19,039

many of the witnesses but even we got to

73

00:04:23,800 --> 00:04:20,750

see something new by sitting there and

74

00:04:26,620 --> 00:04:23,810

watching her for the first time share

75

00:04:28,629 --> 00:04:26,630

the story from her perspective with

76

00:04:31,990 --> 00:04:28,639

flavor coming in and other great

77

00:04:34,330 --> 00:04:32,000

graphics and that was that was great

78

00:04:37,240 --> 00:04:34,340

that was really cool to see yeah I

79

00:04:39,909 --> 00:04:37,250

thought the the amount of emotion she

80

00:04:41,469 --> 00:04:39,919

displayed was pretty compelling as well

81

00:04:43,870 --> 00:04:41,479

you know you yeah

82

00:04:46,930 --> 00:04:43,880

you know you know flavor obviously he's

83

00:04:49,149 --> 00:04:46,940

you know he's a confident guy and and

84

00:04:50,860 --> 00:04:49,159

but with her she you know you got a

85

00:04:52,659 --> 00:04:50,870

sense that they they were a little

86

00:04:54,670 --> 00:04:52,669

unnerved by the whole thing and I think

87

00:04:56,920 --> 00:04:54,680

that made that storyline pretty

88

00:04:57,969 --> 00:04:56,930

compelling as well and this was

89

00:05:00,520 --> 00:04:57,979

something that I thought was pretty

90

00:05:02,860 --> 00:05:00,530

interesting as she talked she was when

91

00:05:06,550 --> 00:05:02,870

this event took place she was very new

92

00:05:09,580 --> 00:05:06,560

and yes and another thing that had been

93

00:05:11,680 --> 00:05:09,590

discussed as sort of a amongst the geeks

94

00:05:14,140 --> 00:05:11,690

like us who follow have been following

95

00:05:16,600 --> 00:05:14,150

every the smallest breadcrumb the

96

00:05:19,719 --> 00:05:16,610

smallest detail it had been said that

97

00:05:21,939 --> 00:05:19,729

the incident shook her up and still even

98

00:05:24,760 --> 00:05:21,949

after all this time that sort of came

99

00:05:28,300 --> 00:05:24,770

across in the interview you know I I

100

00:05:30,580 --> 00:05:28,310

think that that it that contrast

101  
00:05:32,160 --> 00:05:30,590  
great you have flavor who is seasoned

102  
00:05:34,570 --> 00:05:32,170  
and he's in this jet and he's like

103  
00:05:35,920 --> 00:05:34,580  
excited man here's something new and

104  
00:05:37,600 --> 00:05:35,930  
different I want to go take a look at

105  
00:05:41,260 --> 00:05:37,610  
what the heck is going on down here and

106  
00:05:43,510 --> 00:05:41,270  
then she's apprehensive and you you kind

107  
00:05:45,130 --> 00:05:43,520  
of read some of that in the report where

108  
00:05:46,810 --> 00:05:45,140  
she was kind of like whoa you know

109  
00:05:48,580 --> 00:05:46,820  
they're asking if we have weapons and

110  
00:05:51,610 --> 00:05:48,590  
that kind of kicked them out but you got

111  
00:05:52,990 --> 00:05:51,620  
more of a sense of the emotion and you

112  
00:05:54,820 --> 00:05:53,000  
know the fear when they're asking if

113  
00:05:56,770 --> 00:05:54,830

they have weapons like oh my gosh you

114

00:05:59,790 --> 00:05:56,780

know why they asked this before we're

115

00:06:03,460 --> 00:05:59,800

you know zeroing in on this weird thing

116

00:06:05,950 --> 00:06:03,470

ordnance you don't carry ordinates

117

00:06:10,930 --> 00:06:05,960

during war games you hope to have

118

00:06:14,020 --> 00:06:10,940

everybody come home from that even ask

119

00:06:16,360 --> 00:06:14,030

yeah hi this is Karen and I just wanted

120

00:06:19,180 --> 00:06:16,370

to add I'd heard this story many times

121

00:06:22,480 --> 00:06:19,190

but it wasn't until I watched the show

122

00:06:24,760 --> 00:06:22,490

that it really became alive for me and

123

00:06:25,810 --> 00:06:24,770

it really got me excited because even

124

00:06:28,480 --> 00:06:25,820

though I'd heard it before

125

00:06:31,030 --> 00:06:28,490

seeing the recreations on the television

126

00:06:34,210 --> 00:06:31,040

and hearing the words it just hit me how

127

00:06:36,070 --> 00:06:34,220

how amazing and how overwhelming this

128

00:06:38,110 --> 00:06:36,080

must have been seeing this you know

129

00:06:40,330 --> 00:06:38,120

forty foot kick kack doing all these

130

00:06:42,360 --> 00:06:40,340

weird things and it just really brought

131

00:06:45,430 --> 00:06:42,370

it to life for me which I really enjoyed

132

00:06:49,510 --> 00:06:45,440

that's awesome I'm guessing that none of

133

00:06:53,920 --> 00:06:49,520

the pilots it's not like they were UFO

134

00:06:55,390 --> 00:06:53,930

people ya know this you got a figure you

135

00:06:57,850 --> 00:06:55,400

know I mean you're there they're

136

00:06:59,620 --> 00:06:57,860

expecting drug runners and suddenly you

137

00:07:02,770 --> 00:06:59,630

know it's Independence Day as David

138

00:07:04,690 --> 00:07:02,780

Bailey was mentioning yeah and nothing I

139

00:07:08,830 --> 00:07:04,700

wanted to add is that I think it's

140

00:07:11,590 --> 00:07:08,840

important for us to maybe mention to our

141

00:07:13,240 --> 00:07:11,600

non UFO acquaintances and family that

142

00:07:15,370 --> 00:07:13,250

hey maybe you'd like to watch this show

143

00:07:16,990 --> 00:07:15,380

because it's not a weird you know far

144

00:07:19,330 --> 00:07:17,000

out there show because there's so many

145

00:07:21,700 --> 00:07:19,340

people that don't even watch a UFO show

146

00:07:23,140 --> 00:07:21,710

if it has the words you know if they

147

00:07:24,550 --> 00:07:23,150

know it's about UFOs because they think

148

00:07:25,660 --> 00:07:24,560

it's going to be just like all the other

149

00:07:28,150 --> 00:07:25,670

shows have been before

150

00:07:29,890 --> 00:07:28,160

whereas this show is different this show

151

00:07:32,290 --> 00:07:29,900

has people who are currently in the

152

00:07:36,280 --> 00:07:32,300

military this you know this is happening

153

00:07:39,070 --> 00:07:36,290

now in in recent times but I think that

154

00:07:40,600 --> 00:07:39,080

more people that aren't into UFOs will

155

00:07:42,300 --> 00:07:40,610

want to watch but unless they know that

156

00:07:45,670 --> 00:07:42,310

they won't even tuned in

157

00:07:47,740 --> 00:07:45,680

yeah good point and I thought the just

158

00:07:49,660 --> 00:07:47,750

the whole tone of the program and kind

159

00:07:51,910 --> 00:07:49,670

of the pace of it but the way they laid

160

00:07:53,800 --> 00:07:51,920

it out and and you know went back and

161

00:07:56,230 --> 00:07:53,810

forth between the footages and the

162

00:07:58,900 --> 00:07:56,240

commentary and stuff was it was

163

00:08:01,540 --> 00:07:58,910

different than most other UFO shows and

164

00:08:03,790 --> 00:08:01,550

it you know it just had that serious you

165

00:08:07,540 --> 00:08:03,800

know tone to it that was you know really

166

00:08:09,580 --> 00:08:07,550

just appropriate for for the information

167

00:08:12,520 --> 00:08:09,590

and for the audience right what is like

168

00:08:14,020 --> 00:08:12,530

a regular news show yeah I want to know

169

00:08:16,360 --> 00:08:14,030

and I think you all felt you all

170

00:08:18,940 --> 00:08:16,370

probably felt this way I did there was a

171

00:08:21,520 --> 00:08:18,950

lot of this expressed online we were all

172

00:08:23,560 --> 00:08:21,530

fearful of course we seen the TV shows

173

00:08:26,620 --> 00:08:23,570

many of us have been involved with

174

00:08:29,110 --> 00:08:26,630

television shows and that we've almost

175

00:08:32,590 --> 00:08:29,120

always very disappointed with the end

176

00:08:34,570 --> 00:08:32,600

result and and a lot of us had fear that

177

00:08:39,640 --> 00:08:34,580

you know this wouldn't be treated well

178

00:08:42,430 --> 00:08:39,650

and seriously but I was happily you know

179

00:08:44,980 --> 00:08:42,440

I felt good about the end results I I'm

180

00:08:48,220 --> 00:08:44,990

glad that you know all of my fears were

181

00:08:57,100 --> 00:08:48,230

kind of you know subsided after watching

182

00:08:59,070 --> 00:08:57,110

it this is a boring show and that was

183

00:09:03,910 --> 00:08:59,080

probably somebody used to the

184

00:09:06,010 --> 00:09:03,920

fantastical UFO that was like you know

185

00:09:09,130 --> 00:09:06,020

what that's what we need we need a very

186

00:09:10,870 --> 00:09:09,140

boring UFO show for the UFO people so

187

00:09:13,900 --> 00:09:10,880

the regular people will actually

188

00:09:17,160 --> 00:09:13,910

appreciate it opposed with ancient

189

00:09:20,590 --> 00:09:17,170

aliens how about that it was like

190

00:09:23,800 --> 00:09:20,600

between you know ancient aliens the

191

00:09:26,170 --> 00:09:23,810

antarctica stuff you know and we though

192

00:09:28,210 --> 00:09:26,180

there's a serious wonderful things it

193

00:09:30,400 --> 00:09:28,220

really yeah I'll take boring any day

194

00:09:34,720 --> 00:09:30,410

yeah yeah

195

00:09:36,580 --> 00:09:34,730

Hynek over Hancock you know I was

196

00:09:38,410 --> 00:09:36,590

pleased that one thing in that that was

197

00:09:41,070 --> 00:09:38,420

that they started to introduce the who

198

00:09:43,510 --> 00:09:41,080

the character or Lou Elizondo is I

199

00:09:45,490 --> 00:09:43,520

thought that that was a nice touch of

200

00:09:47,380 --> 00:09:45,500

getting to know who we is because you

201  
00:09:49,420 --> 00:09:47,390  
know let's face it a lot of people just

202  
00:09:52,110 --> 00:09:49,430  
don't understand who he is there's a

203  
00:09:55,510 --> 00:09:52,120  
mistrust a lot of us you know and others

204  
00:09:57,700 --> 00:09:55,520  
you know ties to intelligence and

205  
00:10:00,160 --> 00:09:57,710  
experiences around certain cases where

206  
00:10:02,290 --> 00:10:00,170  
the you know you have the CIA coming in

207  
00:10:04,630 --> 00:10:02,300  
and confiscating all the data and stuff

208  
00:10:06,820 --> 00:10:04,640  
like that so they're going to hopefully

209  
00:10:08,410 --> 00:10:06,830  
do and I think they are going to be

210  
00:10:10,540 --> 00:10:08,420  
going through and explaining more and

211  
00:10:12,880 --> 00:10:10,550  
more about who he is and what what

212  
00:10:14,860 --> 00:10:12,890  
they're trying to do and and that'll be

213  
00:10:17,650 --> 00:10:14,870

good I think that they'll give us a

214

00:10:20,680 --> 00:10:17,660

little bit more confidence in what

215

00:10:24,040 --> 00:10:20,690

they're about yeah I mean he's a really

216

00:10:26,320 --> 00:10:24,050

regular great really regular guy that's

217

00:10:29,680 --> 00:10:26,330

easy to talk to but he has been through

218

00:10:30,670 --> 00:10:29,690

a lot of stuff in his life so this guy

219

00:10:33,130 --> 00:10:30,680

is very impressive

220

00:10:34,390 --> 00:10:33,140

he's got his background you know a lot

221

00:10:36,690 --> 00:10:34,400

of most stuff he can't even talk about

222

00:10:40,210 --> 00:10:36,700

but the guy's been through a lot

223

00:10:42,250 --> 00:10:40,220

now I saw all over the background sorry

224

00:10:44,050 --> 00:10:42,260

about that I think I just they had a lot

225

00:10:46,150 --> 00:10:44,060

of information to tackle in this first

226  
00:10:47,770 --> 00:10:46,160  
episode and I just you know as someone

227  
00:10:50,530 --> 00:10:47,780  
who writes about this I know it's always

228  
00:10:52,990 --> 00:10:50,540  
hard to be concise and thorough but they

229  
00:10:54,760 --> 00:10:53,000  
did such a great job with all of the

230  
00:10:56,020 --> 00:10:54,770  
backgrounds because the backgrounds of

231  
00:10:58,030 --> 00:10:56,030  
all of these individuals is

232  
00:11:00,610 --> 00:10:58,040  
extraordinary it's really important

233  
00:11:03,310 --> 00:11:00,620  
their credibility is is immense compared

234  
00:11:05,170 --> 00:11:03,320  
to anything else related to anything on

235  
00:11:07,570 --> 00:11:05,180  
television or much on television I

236  
00:11:09,480 --> 00:11:07,580  
thought they did a great job being able

237  
00:11:11,800 --> 00:11:09,490  
to present all of their backgrounds

238  
00:11:14,530 --> 00:11:11,810

accurately and thoroughly and still

239

00:11:17,380 --> 00:11:14,540

present much of the nimitz case yeah I

240

00:11:19,660 --> 00:11:17,390

was fantastic I mean um I was super

241

00:11:22,420 --> 00:11:19,670

impressed with Chris Mellon I mean that

242

00:11:25,090 --> 00:11:22,430

guy here I the way he speaks and you

243

00:11:27,190 --> 00:11:25,100

know his he's articulate yet he's down

244

00:11:33,100 --> 00:11:27,200

to earth and you know again a Hollywood

245

00:11:34,330 --> 00:11:33,110

actor yeah the way he's coming across is

246

00:11:36,940 --> 00:11:34,340

a lot better than what he did I think

247

00:11:40,240 --> 00:11:36,950

initially no no you can see that happen

248

00:11:42,040 --> 00:11:40,250

as you see him more and more on TV I

249

00:11:47,410 --> 00:11:42,050

thought he did a great job the other day

250

00:11:49,450 --> 00:11:47,420

on Good Morning America I think he's

251  
00:11:51,010 --> 00:11:49,460  
he's an impressive character and what

252  
00:11:53,530 --> 00:11:51,020  
amazes me is the guy could have done

253  
00:11:54,550 --> 00:11:53,540  
nothing with his life he probably had so

254  
00:11:56,020 --> 00:11:54,560  
much money he could have done nothing

255  
00:11:58,300 --> 00:11:56,030  
but yeah he dedicated his life to

256  
00:12:00,760 --> 00:11:58,310  
actually you know doing a lot and he

257  
00:12:02,800 --> 00:12:00,770  
worked really hard thank goodness

258  
00:12:05,080 --> 00:12:02,810  
well it takes a while it takes a while

259  
00:12:07,420 --> 00:12:05,090  
to develop these media skills if you

260  
00:12:08,840 --> 00:12:07,430  
folks remember when Lou Elizondo was

261  
00:12:11,900 --> 00:12:08,850  
first doing

262  
00:12:13,999 --> 00:12:11,910  
but a TV way back in the day back in

263  
00:12:15,949 --> 00:12:14,009

December of seventeen and maybe a little

264

00:12:17,900 --> 00:12:15,959

bit after that he looked like he'd

265

00:12:25,030 --> 00:12:17,910

rather be in a combat zone than in front

266

00:12:31,460 --> 00:12:28,400

he's completely told me you know he says

267

00:12:33,740 --> 00:12:31,470

I'm an introvert not an extrovert you

268

00:12:36,050 --> 00:12:33,750

know and this is very new territory for

269

00:12:39,230 --> 00:12:36,060

me to have to come out and be on TV and

270

00:12:40,129 --> 00:12:39,240

and it's awkward yeah you know and I

271

00:12:42,439 --> 00:12:40,139

would like to hear what you guys think

272

00:12:45,230 --> 00:12:42,449

I've warned him that you know you may

273

00:12:46,970 --> 00:12:45,240

become fairly famous I mean look at

274

00:12:50,389 --> 00:12:46,980

Giorgio of course he's got the goofy

275

00:12:53,240 --> 00:12:50,399

hair and stuff but but Giorgio is also a

276

00:12:56,090 --> 00:12:53,250

very nice guy very approachable I'm I

277

00:12:59,059 --> 00:12:56,100

really like Giorgio but lose like that

278

00:13:01,430 --> 00:12:59,069

also and I think that you know he been

279

00:13:04,040 --> 00:13:01,440

crossed that way on the show he could

280

00:13:06,230 --> 00:13:04,050

become if this show does well and it

281

00:13:08,600 --> 00:13:06,240

could be I'm you know viewpoint cannot

282

00:13:10,280 --> 00:13:08,610

be about a credible UFO show maybe the

283

00:13:12,319 --> 00:13:10,290

public won't be is excited about that

284

00:13:14,210 --> 00:13:12,329

but he could get you know some pretty

285

00:13:16,579 --> 00:13:14,220

decent notoriety through all of this I

286

00:13:19,879 --> 00:13:16,589

don't know that he wants that he doesn't

287

00:13:23,030 --> 00:13:19,889

and he doesn't but I'm like dude this

288

00:13:27,189 --> 00:13:23,040

could happen you better be ready with

289

00:13:30,679 --> 00:13:27,199

the tattoo sleeves he's got you know and

290

00:13:33,559 --> 00:13:30,689

you know I mean who is saying that he's

291

00:13:35,889 --> 00:13:33,569

he's kind of x-files and out no he's not

292

00:13:39,620 --> 00:13:35,899

x-files he's more like Bruce Springsteen

293

00:13:41,090 --> 00:13:39,630

suddenly comes out you know when he's a

294

00:13:45,650 --> 00:13:41,100

dude you want to sit and have a beer

295

00:13:49,579 --> 00:13:45,660

with no doubt yeah he's the guy you went

296

00:13:53,480 --> 00:13:49,589

for the bouncer - hey hey I had kind of

297

00:13:55,220 --> 00:13:53,490

a question maybe that maybe rich or dr.

298

00:13:57,559 --> 00:13:55,230

Scott or anyone who's had involvement

299

00:14:01,579 --> 00:13:57,569

with um you know the military-industrial

300

00:14:04,160 --> 00:14:01,589

complex so to say you know did you did

301  
00:14:06,980 --> 00:14:04,170  
you guys notice either anything the

302  
00:14:10,009 --> 00:14:06,990  
words they used or the way they said

303  
00:14:11,809 --> 00:14:10,019  
things or the things they didn't say in

304  
00:14:14,210 --> 00:14:11,819  
a certain way did that catch your

305  
00:14:17,389 --> 00:14:14,220  
attention at all do you know what I'm

306  
00:14:18,679 --> 00:14:17,399  
trying to get out it you know like I

307  
00:14:20,870 --> 00:14:18,689  
work in government there's just certain

308  
00:14:22,400 --> 00:14:20,880  
things you terms you don't use because

309  
00:14:24,319 --> 00:14:22,410  
they have all this connotation

310  
00:14:26,720 --> 00:14:24,329  
into it and you know you say it in a

311  
00:14:29,540 --> 00:14:26,730  
different way I mean did you guys pick

312  
00:14:32,720 --> 00:14:29,550  
up on anything like that well he asked

313  
00:14:35,629 --> 00:14:32,730

several times he mentions I won't say

314

00:14:39,069 --> 00:14:35,639

anything classified and he kept bringing

315

00:14:42,350 --> 00:14:39,079

in that in probably make him feel better

316

00:14:44,689 --> 00:14:42,360

yeah I think that that's the way I even

317

00:14:47,119 --> 00:14:44,699

my interactions with him you know at the

318

00:14:49,850 --> 00:14:47,129

conference and stuff like that the guys

319

00:14:51,889 --> 00:14:49,860

you know I mean first off he's extremely

320

00:14:54,139 --> 00:14:51,899

patriotic and he's a good soldier and

321

00:14:56,540 --> 00:14:54,149

he's you know he's gone through working

322

00:14:58,670 --> 00:14:56,550

in an intelligence capacity and access

323

00:15:00,350 --> 00:14:58,680

to a lot of information and you know you

324

00:15:02,749 --> 00:15:00,360

sit there and you question you know can

325

00:15:05,240 --> 00:15:02,759

I have a conversation about this even my

326

00:15:07,369 --> 00:15:05,250

family you know and can I bring up these

327

00:15:10,579 --> 00:15:07,379

topics and you know and what's you know

328

00:15:13,670 --> 00:15:10,589

and you try to be mindful of you know

329

00:15:15,740 --> 00:15:13,680

well what do I say and can I say this

330

00:15:19,369 --> 00:15:15,750

and you know you don't want to be hauled

331

00:15:23,059 --> 00:15:19,379

off but I think from what I see is he's

332

00:15:26,030 --> 00:15:23,069

trying to be very careful he will you

333

00:15:28,040 --> 00:15:26,040

know call it very quickly and say I can

334

00:15:31,639 --> 00:15:28,050

talk about something and you know if

335

00:15:35,420 --> 00:15:31,649

you're in very you know you have to look

336

00:15:37,699 --> 00:15:35,430

at this this this project initially was

337

00:15:40,850 --> 00:15:37,709

looked at it being a SAP program okay

338

00:15:43,910 --> 00:15:40,860

and in the context of it being a special

339

00:15:45,829 --> 00:15:43,920

access program that you can't even talk

340

00:15:48,230 --> 00:15:45,839

about the fact that you work in that

341

00:15:49,730 --> 00:15:48,240

program you can't you can't have your

342

00:15:51,470 --> 00:15:49,740

name attached to it so all this like

343

00:15:53,360 --> 00:15:51,480

controversy that's going on about what

344

00:15:55,509 --> 00:15:53,370

he didn't work for this project or

345

00:15:59,030 --> 00:15:55,519

whatever like that you know that's all

346

00:16:01,340 --> 00:15:59,040

potentially like you know you've covered

347

00:16:03,920 --> 00:16:01,350

up if you would there's always like a

348

00:16:06,199 --> 00:16:03,930

false story or or something like that

349

00:16:07,759 --> 00:16:06,209

because you can't have that he'll be

350

00:16:10,309 --> 00:16:07,769

connected at a different level versus

351  
00:16:12,139 --> 00:16:10,319  
the program so anyway that being said

352  
00:16:15,129 --> 00:16:12,149  
you know yes you'll you'll run across

353  
00:16:18,230 --> 00:16:15,139  
him being very careful being very

354  
00:16:22,309 --> 00:16:18,240  
providing very professional about it yes

355  
00:16:24,889 --> 00:16:22,319  
and and I and I applaud his wanting to

356  
00:16:28,009 --> 00:16:24,899  
be discreet at the same time being

357  
00:16:29,360 --> 00:16:28,019  
cautious rang rich I had a question for

358  
00:16:32,780 --> 00:16:29,370  
you you know we were talking a little

359  
00:16:35,710 --> 00:16:32,790  
bit messaging where you were saying that

360  
00:16:37,689 --> 00:16:35,720  
this must have been sanctioned by the

361  
00:16:39,910 --> 00:16:37,699  
the Department of Defense because if it

362  
00:16:41,889 --> 00:16:39,920  
hadn't been these pilots everybody that

363  
00:16:43,749 --> 00:16:41,899

gone on record they'd be imprisoned

364

00:16:46,090 --> 00:16:43,759

right now I mean you're you're familiar

365

00:16:47,800 --> 00:16:46,100

with security oaths could you talk a

366

00:16:51,429 --> 00:16:47,810

little bit about that because I found it

367

00:16:53,350 --> 00:16:51,439

very interesting yeah I mean so what

368

00:16:56,699 --> 00:16:53,360

happens with a lot of these things and I

369

00:16:58,629 --> 00:16:56,709

ran across this back when I gave a a UFO

370

00:17:02,259 --> 00:16:58,639

presentation at wright-patterson Air

371

00:17:04,689 --> 00:17:02,269

Force Base to the FTD people your matter

372

00:17:06,669 --> 00:17:04,699

these decades and decades ago but I mean

373

00:17:08,860 --> 00:17:06,679

back like I started I was talking with

374

00:17:11,439 --> 00:17:08,870

one individual and the typical thing is

375

00:17:13,210 --> 00:17:11,449

that once you have an encounter or

376

00:17:15,970 --> 00:17:13,220

something like that and you hear it from

377

00:17:17,649 --> 00:17:15,980

frayberg you know well we come back and

378

00:17:19,990 --> 00:17:17,659

we meet with the the intelligence guy

379

00:17:21,370 --> 00:17:20,000

and we sign non-disclosures or something

380

00:17:24,340 --> 00:17:21,380

like that saying we won't talk about

381

00:17:28,630 --> 00:17:24,350

what we saw you know and you know

382

00:17:31,450 --> 00:17:28,640

they're debriefed and so then you know

383

00:17:34,120 --> 00:17:31,460

what happens is over a period of time in

384

00:17:36,039 --> 00:17:34,130

case of you know which you might run

385

00:17:39,010 --> 00:17:36,049

across like these Nimitz guys there

386

00:17:40,450 --> 00:17:39,020

they're no longer active duty and and

387

00:17:44,700 --> 00:17:40,460

then suddenly you hear them coming

388

00:17:50,649 --> 00:17:44,710

forward with discussing their cases well

389

00:17:53,980 --> 00:17:50,659

what I find extremely compelling now is

390

00:17:57,399 --> 00:17:53,990

that you've got active duty soldiers

391

00:18:00,760 --> 00:17:57,409

that probably have had to do the same

392

00:18:03,490 --> 00:18:00,770

thing and they're now openly discussing

393

00:18:05,770 --> 00:18:03,500

their cases you know and that type thing

394

00:18:07,299 --> 00:18:05,780

but they're also not you know you don't

395

00:18:12,909 --> 00:18:07,309

see them saying here are the coordinates

396

00:18:16,120 --> 00:18:12,919

for the the for our ship and you don't

397

00:18:17,770 --> 00:18:16,130

see them talking about the date yet of

398

00:18:19,060 --> 00:18:17,780

when that incident happened in terms of

399

00:18:19,630 --> 00:18:19,070

the Roosevelt know I'm talking about

400

00:18:22,510 --> 00:18:19,640

right

401  
00:18:24,940 --> 00:18:22,520  
so off the East Coast so there are still

402  
00:18:27,100 --> 00:18:24,950  
elements that look like you know and

403  
00:18:29,320 --> 00:18:27,110  
even in the videos that they've scrub

404  
00:18:31,390 --> 00:18:29,330  
they scrubbed off the the GPS

405  
00:18:33,159 --> 00:18:31,400  
coordinates and some of the metadata so

406  
00:18:35,260 --> 00:18:33,169  
I what I'm trying to tell you is it's

407  
00:18:38,500 --> 00:18:35,270  
it's it's extremely interesting that you

408  
00:18:40,899 --> 00:18:38,510  
see that happening where active-duty

409  
00:18:43,330 --> 00:18:40,909  
soldiers are able to talk and when I

410  
00:18:44,830 --> 00:18:43,340  
talked with Lou about it basically said

411  
00:18:49,420 --> 00:18:44,840  
well you know that's the stuff that

412  
00:18:52,810 --> 00:18:49,430  
they've been working to to have happen

413  
00:18:55,270 --> 00:18:52,820

behind the scenes with the department so

414

00:18:57,780 --> 00:18:55,280

that would tell that would tell me that

415

00:19:00,190 --> 00:18:57,790

there's somebody it's look at the PA oh

416

00:19:02,470 --> 00:19:00,200

the Public Affairs Office or something

417

00:19:04,060 --> 00:19:02,480

which typically gets involved when you

418

00:19:05,800 --> 00:19:04,070

go up and you get in front of the

419

00:19:08,280 --> 00:19:05,810

cameras and stuff like that would have

420

00:19:10,960 --> 00:19:08,290

probably somehow granted your release

421

00:19:13,750 --> 00:19:10,970

that was a real interesting point that

422

00:19:15,850 --> 00:19:13,760

you brought up regarding GPS coordinates

423

00:19:18,580 --> 00:19:15,860

and so on one of the most astonishing

424

00:19:21,340 --> 00:19:18,590

things I find about this Nimitz case is

425

00:19:27,600 --> 00:19:21,350

after they had their initial sighting of

426

00:19:29,770 --> 00:19:27,610

the UFO they were then went on to a

427

00:19:34,300 --> 00:19:29,780

predetermined rendezvous point that they

428

00:19:37,300 --> 00:19:34,310

called a cap point and the UFO was

429

00:19:38,650 --> 00:19:37,310

actually there waiting for them when

430

00:19:42,160 --> 00:19:38,660

they got there I think that is

431

00:19:44,350 --> 00:19:42,170

absolutely astonishing and does anyone

432

00:19:50,350 --> 00:19:44,360

want to venture a guess as to how that

433

00:19:51,760 --> 00:19:50,360

might have happened or discuss it they

434

00:19:52,900 --> 00:19:51,770

can read the minds and they know where

435

00:19:55,870 --> 00:19:52,910

they're going before they're even going

436

00:19:57,970 --> 00:19:55,880

there he David framer said that he did

437

00:20:02,470 --> 00:19:57,980

not have the coordinates memorized

438

00:20:04,000 --> 00:20:02,480

though that it was on a screen so they

439

00:20:05,800 --> 00:20:04,010

were actually reading oh yeah that's

440

00:20:08,110 --> 00:20:05,810

right they were there they were reading

441

00:20:10,930 --> 00:20:08,120

the tech you know from the planes and

442

00:20:12,840 --> 00:20:10,940

the planes themselves or or maybe from

443

00:20:17,650 --> 00:20:12,850

the you know Nimitz

444

00:20:23,040 --> 00:20:17,660

I just had from the future so they

445

00:20:27,910 --> 00:20:25,840

say that a similar thing that you know

446

00:20:29,650 --> 00:20:27,920

they did have that in their databases or

447

00:20:32,860 --> 00:20:29,660

it was essentially in the computer

448

00:20:35,380 --> 00:20:32,870

system so yeah not necessarily in their

449

00:20:38,530 --> 00:20:35,390

minds but that is very important so

450

00:20:41,530 --> 00:20:38,540

somehow I mean it's apparent it the odds

451  
00:20:43,660 --> 00:20:41,540  
are that somehow whatever this was

452  
00:20:45,750 --> 00:20:43,670  
somehow was able to access that

453  
00:20:48,070 --> 00:20:45,760  
information

454  
00:20:50,320 --> 00:20:48,080  
member that they got went into this

455  
00:20:52,660 --> 00:20:50,330  
during the show but we know that the

456  
00:20:56,350 --> 00:20:52,670  
flavor has discussed his onboard radar

457  
00:20:58,690 --> 00:20:56,360  
was jammed yet the radar from the the

458  
00:21:00,040 --> 00:20:58,700  
Princeton I was able to pick these UFOs

459  
00:21:01,660 --> 00:21:00,050  
up in fact that's how our they were

460  
00:21:02,260 --> 00:21:01,670  
directed to the location in the first

461  
00:21:07,630 --> 00:21:02,270  
place

462  
00:21:11,560 --> 00:21:07,640  
Frank let me clarify okay so his radar

463  
00:21:15,190 --> 00:21:11,570

system was not jammed was not okay okay

464

00:21:18,850 --> 00:21:15,200

so he he only saw it visually okay him

465

00:21:21,340 --> 00:21:18,860

and the the other his wizzo and yeah I

466

00:21:24,340 --> 00:21:21,350

mean the other plane so what he

467

00:21:28,330 --> 00:21:24,350

describes is the fact that was what was

468

00:21:30,669 --> 00:21:28,340

jamming was the third crew that went out

469

00:21:32,710 --> 00:21:30,679

that actually had the app flare on it

470

00:21:35,410 --> 00:21:32,720

that when he came back that they

471

00:21:39,130 --> 00:21:35,420

indicate okay sense that though that

472

00:21:40,960 --> 00:21:39,140

flight crew was had the jamming okay and

473

00:21:42,640 --> 00:21:40,970

and then when you know the other

474

00:21:45,850 --> 00:21:42,650

interesting point here that I want to

475

00:21:48,640 --> 00:21:45,860

make is that we never we were never

476  
00:21:51,640 --> 00:21:48,650  
clear about whether the radar tapes that

477  
00:21:55,480 --> 00:21:51,650  
were being discussed on the on the ship

478  
00:21:58,150 --> 00:21:55,490  
were that of the the Princeton or what

479  
00:22:01,570 --> 00:21:58,160  
and it turns out it was according to

480  
00:22:04,690 --> 00:22:01,580  
favor it was he had two tapes handed to

481  
00:22:08,590 --> 00:22:04,700  
him from that third crew one was of the

482  
00:22:13,350 --> 00:22:08,600  
object that they got the at flare on and

483  
00:22:15,490 --> 00:22:13,360  
then the other tape was the radar now he

484  
00:22:19,110 --> 00:22:15,500  
allegedly says that he looked at both

485  
00:22:21,970 --> 00:22:19,120  
but he doesn't clarify is that the radar

486  
00:22:23,919 --> 00:22:21,980  
you know would have been jammed and and

487  
00:22:25,960 --> 00:22:23,929  
that that would have what that would

488  
00:22:28,000 --> 00:22:25,970

have given on that tape I have no idea

489

00:22:29,740 --> 00:22:28,010

but but he made it very clear it was the

490

00:22:31,180 --> 00:22:29,750

third crew that was out that that's the

491

00:22:34,030 --> 00:22:31,190

whir of the jamming took place because

492

00:22:37,150 --> 00:22:34,040

we very carefully looked at what on his

493

00:22:39,910 --> 00:22:37,160

flight was he jammed and he said no okay

494

00:22:41,830 --> 00:22:39,920

so I so rich that third flight that was

495

00:22:43,600 --> 00:22:41,840

there that pilot go who goes by the name

496

00:22:47,590 --> 00:22:43,610

of cheeks is it that fellow we're

497

00:22:52,120 --> 00:22:47,600

talking about here no no it's not so let

498

00:22:56,140 --> 00:22:52,130

me clarify that you had cheeks Kurth

499

00:23:00,490 --> 00:22:56,150

Colonel Kirk was in the marine group he

500

00:23:02,200 --> 00:23:00,500

was on that that marine based aircraft

501  
00:23:04,419 --> 00:23:02,210  
remember that they were playing a game

502  
00:23:06,850 --> 00:23:04,429  
the game was that they were supposed to

503  
00:23:08,350 --> 00:23:06,860  
have a game go to the cat point the the

504  
00:23:09,880 --> 00:23:08,360  
two planes were supposed to be at the

505  
00:23:13,419 --> 00:23:09,890  
cat point and they were gonna be the

506  
00:23:15,520 --> 00:23:13,429  
blue team the friendlies and the non

507  
00:23:16,030 --> 00:23:15,530  
friendlies was going to be the marine

508  
00:23:20,470 --> 00:23:16,040  
group

509  
00:23:22,990 --> 00:23:20,480  
which is curved cakes and they were they

510  
00:23:25,210 --> 00:23:23,000  
were set up out in the ocean in fact

511  
00:23:27,400 --> 00:23:25,220  
what you find out is Perth is the one

512  
00:23:32,320 --> 00:23:27,410  
who actually saw the bubbling of the

513  
00:23:34,030 --> 00:23:32,330

water before free burden okay so because

514

00:23:38,190 --> 00:23:34,040

he was already out in that in that

515

00:23:43,690 --> 00:23:38,200

general area and actually saw it first

516

00:23:46,690 --> 00:23:43,700

but he didn't see the tic-tac just very

517

00:23:48,340 --> 00:23:46,700

clear you that that if the radar jamming

518

00:23:51,760 --> 00:23:48,350

was very interesting in our report you'd

519

00:23:53,920 --> 00:23:51,770

have to read it but but what flavor will

520

00:23:57,280 --> 00:23:53,930

tell you is that there's active and

521

00:23:59,530 --> 00:23:57,290

passive jamming and this was active

522

00:24:02,020 --> 00:23:59,540

jamming meaning that whatever it was

523

00:24:04,590 --> 00:24:02,030

typically could have led to them going

524

00:24:08,110 --> 00:24:04,600

into full combat have they had weapons

525

00:24:11,950 --> 00:24:08,120

yes great the statement that it's an act

526

00:24:16,150 --> 00:24:11,960

of war two jam-packed if Jam is an act

527

00:24:18,940 --> 00:24:16,160

of war so again this whole threat you

528

00:24:20,620 --> 00:24:18,950

know connotation to this I mean again

529

00:24:23,590 --> 00:24:20,630

you're in the military you're you're

530

00:24:25,710 --> 00:24:23,600

engaged in this way you can't you can't

531

00:24:28,510 --> 00:24:25,720

blame them for interpreting in that way

532

00:24:29,920 --> 00:24:28,520

and they showed up at the cap point and

533

00:24:32,410 --> 00:24:29,930

that's where they're supposed to meet

534

00:24:35,290 --> 00:24:32,420

their you know their enemy they're as

535

00:24:37,660 --> 00:24:35,300

crazy so what were we being told there

536

00:24:40,690 --> 00:24:37,670

that's a little scary you know isn't it

537

00:24:42,310 --> 00:24:40,700

yeah excuse me I wonder if at first they

538

00:24:45,880 --> 00:24:42,320

thought they were being tested with some

539

00:24:47,050 --> 00:24:45,890

new you know being you know not told

540

00:24:50,410 --> 00:24:47,060

about what was gonna happen and they

541

00:24:52,570 --> 00:24:50,420

were being tested at first yeah braver

542

00:24:54,790 --> 00:24:52,580

did talk about that they and and others

543

00:24:57,580 --> 00:24:54,800

that they had assumed and favor even

544

00:25:00,160 --> 00:24:57,590

said this in an organ that they had

545

00:25:01,990 --> 00:25:00,170

assumed what they were catching on radar

546

00:25:04,270 --> 00:25:02,000

up until this point and we heard this

547

00:25:06,640 --> 00:25:04,280

actually in those clips from the the

548

00:25:08,430 --> 00:25:06,650

guys at the Roosevelt too that they had

549

00:25:11,950 --> 00:25:08,440

assumed that whatever they were seeing

550

00:25:13,900 --> 00:25:11,960

most likely was ours some sort of

551

00:25:16,150 --> 00:25:13,910

top-secret project being tested in the

552

00:25:17,470 --> 00:25:16,160

area both of the locations were these

553

00:25:20,950 --> 00:25:17,480

incidents happened they were during

554

00:25:22,900 --> 00:25:20,960

training during testing periods you know

555

00:25:25,210 --> 00:25:22,910

Tyler drove away has made the point that

556

00:25:28,240 --> 00:25:25,220

they were testing even new radar

557

00:25:29,890 --> 00:25:28,250

technologies at the time so that's what

558

00:25:33,070 --> 00:25:29,900

a lot of the pilots thought

559

00:25:34,840 --> 00:25:33,080

but framer said that you know and what's

560

00:25:37,270 --> 00:25:34,850

important about flavor I think in his

561

00:25:39,549 --> 00:25:37,280

testimony is that when this occurred he

562

00:25:41,230 --> 00:25:39,559

actively investigated at the time he

563

00:25:43,630 --> 00:25:41,240

collected the information such as a

564

00:25:46,330 --> 00:25:43,640

radar data available to him he looked at

565

00:25:49,660 --> 00:25:46,340

the videos he talked to his colleagues

566

00:25:51,400 --> 00:25:49,670

on the different ship so he investigated

567

00:25:54,910 --> 00:25:51,410

to look into what the heck did I just

568

00:25:56,920 --> 00:25:54,920

experience and it wasn't until time

569

00:25:59,710 --> 00:25:56,930

passed that he began to believe this was

570

00:26:01,540 --> 00:25:59,720

definitely not ours he felt if it was

571

00:26:02,710 --> 00:26:01,550

ours there's no way they could have kept

572

00:26:05,230 --> 00:26:02,720

that secret and I wouldn't have

573

00:26:07,180 --> 00:26:05,240

discovered that over the years so this

574

00:26:10,000 --> 00:26:07,190

has got to be something else is how he

575

00:26:12,160 --> 00:26:10,010

felt that's what he expressed in Oregon

576

00:26:16,390 --> 00:26:12,170

but by the way the other thing is that

577

00:26:19,540 --> 00:26:16,400

these were new brand-new f-18 model FS

578

00:26:22,419 --> 00:26:19,550

that were just out and the first time

579

00:26:27,100 --> 00:26:22,429

from Boeing so these are new aircraft

580

00:26:29,710 --> 00:26:27,110

they're on tube so wow they were

581

00:26:34,330 --> 00:26:29,720

checking them out I've got a question

582

00:26:38,500 --> 00:26:34,340

you know this is Earl again that they

583

00:26:41,440 --> 00:26:38,510

saw the white water down below and that

584

00:26:43,270 --> 00:26:41,450

kind of I have the feeling that didn't

585

00:26:45,160 --> 00:26:43,280

that kind of divert them from going to

586

00:26:47,830 --> 00:26:45,170

where they were originally getting the

587

00:26:51,160 --> 00:26:47,840

radar hits off of Catalina Island I

588

00:26:52,990 --> 00:26:51,170

wonder how this led no no they weren't

589

00:26:55,930 --> 00:26:53,000

at the merge point so they saw the

590

00:26:57,669 --> 00:26:55,940

bubbling water at what they called the

591

00:26:59,760 --> 00:26:57,679

merge point is essentially in the

592

00:27:04,060 --> 00:26:59,770

location that we're supposed to go to

593

00:27:08,560 --> 00:27:04,070

but that brought the attention to the

594

00:27:10,120 --> 00:27:08,570

area where the tic-tac was okay which

595

00:27:11,950 --> 00:27:10,130

was a completely different direction

596

00:27:14,169 --> 00:27:11,960

from Catalina Island by the way I mean

597

00:27:19,000 --> 00:27:14,179

they were going out to the I think the

598

00:27:23,200 --> 00:27:19,010

west where the ship was actually located

599

00:27:24,640 --> 00:27:23,210

at the time and so they were they were

600

00:27:27,669 --> 00:27:24,650

going out in a completely opposite

601  
00:27:29,950 --> 00:27:27,679  
direction from Catalina Island where on

602  
00:27:32,740 --> 00:27:29,960  
the previous days there was a lot of

603  
00:27:35,049 --> 00:27:32,750  
this like you know activity that was be

604  
00:27:37,120 --> 00:27:35,059  
reported by Kevin day where these things

605  
00:27:41,080 --> 00:27:37,130  
were popping down from high altitudes

606  
00:27:47,690 --> 00:27:45,230  
you know I want to ask Shane put you on

607  
00:27:49,100 --> 00:27:47,700  
the spot a little and because there's

608  
00:27:50,330 --> 00:27:49,110  
certainly a lot of information that's

609  
00:27:52,220 --> 00:27:50,340  
not being shared

610  
00:27:54,529 --> 00:27:52,230  
I wonder what were you getting at what

611  
00:27:58,990 --> 00:27:54,539  
were you noticing Shane that made you

612  
00:28:03,289 --> 00:27:59,000  
ask that question yeah I thought that

613  
00:28:05,299 --> 00:28:03,299

Lou was very measured in what he said in

614

00:28:07,549 --> 00:28:05,309

the way he said it and he was he was

615

00:28:10,490 --> 00:28:07,559

very careful it appeared to me anyway

616

00:28:13,640 --> 00:28:10,500

that he was very careful how he chose

617

00:28:16,190 --> 00:28:13,650

his words and you know that's kind of

618

00:28:18,200 --> 00:28:16,200

obvious from the perspective that hey we

619

00:28:20,240 --> 00:28:18,210

want to make sure this show is credible

620

00:28:22,610 --> 00:28:20,250

and we don't want to speculate but I

621

00:28:26,029 --> 00:28:22,620

thought there might even something

622

00:28:28,700 --> 00:28:26,039

deeper you know from and nothing nothing

623

00:28:30,350 --> 00:28:28,710

conspiratorial I'm just saying from you

624

00:28:32,270 --> 00:28:30,360

know somebody who has knowledge working

625

00:28:34,789 --> 00:28:32,280

with the military with intelligence

626

00:28:36,560 --> 00:28:34,799

again you know I have that experience in

627

00:28:39,230 --> 00:28:36,570

government where they're just things you

628

00:28:42,260 --> 00:28:39,240

don't say in a certain way because of

629

00:28:44,450 --> 00:28:42,270

the political ramifications or and I

630

00:28:46,430 --> 00:28:44,460

kind of got that feeling that you know

631

00:28:48,470 --> 00:28:46,440

all of them really but in particular Lou

632

00:28:51,200 --> 00:28:48,480

cuz this shows you know well he's a

633

00:28:53,419 --> 00:28:51,210

filing him Lou did say in Alabama at the

634

00:28:56,539 --> 00:28:53,429

scu conference that he has to be very

635

00:28:58,520 --> 00:28:56,549

careful because there are people in in

636

00:29:00,590 --> 00:28:58,530

on the inside who are not happy with

637

00:29:02,480 --> 00:29:00,600

that with the information he's sharing

638

00:29:04,279 --> 00:29:02,490

and he has to be careful what he says

639

00:29:06,770 --> 00:29:04,289

because they're watching everything he

640

00:29:11,899 --> 00:29:06,780

says just in case he mentioned something

641

00:29:14,360 --> 00:29:11,909

beyond what he should share yeah and I

642

00:29:16,640 --> 00:29:14,370

want to jump in here because one thing

643

00:29:18,890 --> 00:29:16,650

that he was quoted as saying in the show

644

00:29:21,320 --> 00:29:18,900

it was right there forever and that was

645

00:29:25,820 --> 00:29:21,330

it he was asked at your conference rich

646

00:29:29,000 --> 00:29:25,830

as well the question was basically about

647

00:29:31,100 --> 00:29:29,010

frequency and in the show Elizondo is

648

00:29:33,860 --> 00:29:31,110

quoted as saying that is a sensitive

649

00:29:35,870 --> 00:29:33,870

number and I want to get some feedback

650

00:29:38,419 --> 00:29:35,880

on that I thought that was a kind of a

651  
00:29:41,500 --> 00:29:38,429  
key statement not a very long-winded one

652  
00:29:43,520 --> 00:29:41,510  
but I think it's very interesting yeah

653  
00:29:45,200 --> 00:29:43,530  
one of the other things that I want to

654  
00:29:47,840 --> 00:29:45,210  
bring up about Lou is that he pointed

655  
00:29:49,970 --> 00:29:47,850  
out he said you know I and he you saw

656  
00:29:51,799 --> 00:29:49,980  
this early on when you know you didn't

657  
00:29:52,910 --> 00:29:51,809  
hear him talking about being connected

658  
00:29:54,980 --> 00:29:52,920  
at all to be

659  
00:29:57,980 --> 00:29:54,990  
a sec program he didn't talk about that

660  
00:30:00,620 --> 00:29:57,990  
right no it was part of the eight okay

661  
00:30:02,690 --> 00:30:00,630  
and and then the other point here that I

662  
00:30:04,340 --> 00:30:02,700  
want to make is that you don't want to

663  
00:30:05,930 --> 00:30:04,350

hit you want to hear him making

664

00:30:08,060 --> 00:30:05,940

statements about what the current

665

00:30:10,850 --> 00:30:08,070

program is he's still in contact with

666

00:30:12,800 --> 00:30:10,860

the lead for that but I mean he's not

667

00:30:14,660 --> 00:30:12,810

and he's not outing that person and

668

00:30:16,490 --> 00:30:14,670

they've gone on and changed the name of

669

00:30:18,710 --> 00:30:16,500

it and everything else but but the point

670

00:30:22,640 --> 00:30:18,720

is that I'm trying to get out he will

671

00:30:25,370 --> 00:30:22,650

not speak or speculate even about that

672

00:30:28,430 --> 00:30:25,380

kind of thing he'll only talk about what

673

00:30:31,090 --> 00:30:28,440

he feels that he can talk about and what

674

00:30:33,380 --> 00:30:31,100

he was actively involved with yes

675

00:30:35,300 --> 00:30:33,390

something else I don't know if everyone

676

00:30:39,170 --> 00:30:35,310

knows this when he was involved with

677

00:30:41,780 --> 00:30:39,180

this he never researched anything in the

678

00:30:44,060 --> 00:30:41,790

UFO field he didn't go around and say

679

00:30:45,830 --> 00:30:44,070

let me look up any background he did

680

00:30:49,490 --> 00:30:45,840

nothing of that because he said he

681

00:30:51,080 --> 00:30:49,500

didn't want any anything to affect his

682

00:30:53,510 --> 00:30:51,090

judgment of what was happening so he

683

00:30:56,180 --> 00:30:53,520

doesn't know about any of the UFO stuff

684

00:30:58,640 --> 00:30:56,190

that he does now but yeah he didn't know

685

00:31:00,440 --> 00:30:58,650

any of the authors any other researchers

686

00:31:02,570 --> 00:31:00,450

he knew nothing about UFO research

687

00:31:05,120 --> 00:31:02,580

previously I think the word he used was

688

00:31:08,690 --> 00:31:05,130

loot he didn't want to pollute his

689

00:31:11,300 --> 00:31:08,700

opinion by looking into what's been said

690

00:31:14,720 --> 00:31:11,310

in the past right he's very smart

691

00:31:17,900 --> 00:31:14,730

I think yeah well that time that has

692

00:31:19,580 --> 00:31:17,910

changed that because he did discuss the

693

00:31:21,740 --> 00:31:19,590

history of UFOs it was basically the

694

00:31:29,090 --> 00:31:21,750

lion's share of his presentation when

695

00:31:30,860 --> 00:31:29,100

they went to Italy so you've got

696

00:31:32,330 --> 00:31:30,870

multiple levels where he's got to be

697

00:31:33,350 --> 00:31:32,340

very careful he's got to be careful not

698

00:31:35,360 --> 00:31:33,360

to talk about anything

699

00:31:37,100 --> 00:31:35,370

classified he's got to be careful not to

700

00:31:39,170 --> 00:31:37,110

talk about anything he doesn't want to

701  
00:31:40,720 --> 00:31:39,180  
share that his friends and on the inside

702  
00:31:43,280 --> 00:31:40,730  
wouldn't want him to share cuz he

703  
00:31:45,650 --> 00:31:43,290  
respects you know his colleagues and

704  
00:31:49,430 --> 00:31:45,660  
then he's also got to make sure that

705  
00:31:51,080 --> 00:31:49,440  
he's not overstating anything which

706  
00:31:53,840 --> 00:31:51,090  
we're all prone to do at times you know

707  
00:31:56,210 --> 00:31:53,850  
when we get excited about that so yeah

708  
00:31:59,210 --> 00:31:56,220  
so and the background he's got this this

709  
00:32:00,920 --> 00:31:59,220  
metering that has to happen and that's

710  
00:32:03,140 --> 00:32:00,930  
why he doesn't like doing this public

711  
00:32:06,350 --> 00:32:03,150  
speaking stuff but I think that we I

712  
00:32:08,330 --> 00:32:06,360  
think he does a great job with it yeah

713  
00:32:10,970 --> 00:32:08,340

I agree I think he does very well that

714

00:32:14,060 --> 00:32:10,980

he comes across very credible and very

715

00:32:16,149 --> 00:32:14,070

very measured and careful and he does

716

00:32:18,799 --> 00:32:16,159

that and he's trying to be very precise

717

00:32:19,759 --> 00:32:18,809

he doesn't get into the speculation you

718

00:32:21,710 --> 00:32:19,769

don't hear him saying that they're

719

00:32:23,870 --> 00:32:21,720

aliens right you know he he's very

720

00:32:25,580 --> 00:32:23,880

cautious about saying that he said well

721

00:32:27,620 --> 00:32:25,590

and you know it's it's one of the

722

00:32:29,149 --> 00:32:27,630

hypotheses it even Chris Mellon saying

723

00:32:31,820 --> 00:32:29,159

you know it's like it's one of the

724

00:32:33,470 --> 00:32:31,830

hypotheses but we've also got to look at

725

00:32:35,240 --> 00:32:33,480

the fact that it could be potentially

726

00:32:36,440 --> 00:32:35,250

something else that we just don't know

727

00:32:39,169 --> 00:32:36,450

and and yeah

728

00:32:40,639 --> 00:32:39,179

precisely we just don't know do you know

729

00:32:42,529 --> 00:32:40,649

everything that the Russians have in

730

00:32:44,570 --> 00:32:42,539

their back door you never everything the

731

00:32:48,860 --> 00:32:44,580

Chinese have no we don't I mean okay so

732

00:32:50,899 --> 00:32:48,870

we rely on Intel and but still you've

733

00:32:53,060 --> 00:32:50,909

got something that's outperforming and

734

00:32:55,159 --> 00:32:53,070

breaking you know like what we typically

735

00:32:56,810 --> 00:32:55,169

see in laws of physics as we know them

736

00:32:59,769 --> 00:32:56,820

anyway mm-hmm

737

00:33:04,009 --> 00:32:59,779

and how do you how do you reconcile that

738

00:33:05,360 --> 00:33:04,019

and and then you go talking around with

739

00:33:07,850 --> 00:33:05,370

people that you know that are in

740

00:33:10,850 --> 00:33:07,860

high-level positions that and and Boeing

741

00:33:13,580 --> 00:33:10,860

and Boeing are Lockheed Martin and you

742

00:33:15,799 --> 00:33:13,590

know they got the the gentlemen from

743

00:33:17,419 --> 00:33:15,809

Lockheed Martin who works at the skunk

744

00:33:22,909 --> 00:33:17,429

works he said well we can't do anything

745

00:33:24,470 --> 00:33:22,919

like that okay right yeah I'm just

746

00:33:26,389 --> 00:33:24,480

really excited for the rest of the show

747

00:33:29,029 --> 00:33:26,399

because I'm thinking you know we've

748

00:33:30,889 --> 00:33:29,039

we've known about the three short films

749

00:33:32,210 --> 00:33:30,899

that for Nimitz and the tic-tac and all

750

00:33:35,060 --> 00:33:32,220

those we've all been known about those

751  
00:33:36,769 --> 00:33:35,070  
for quite a while and much of that was

752  
00:33:38,840 --> 00:33:36,779  
in the very first show so I'm thinking

753  
00:33:43,549 --> 00:33:38,850  
what's gonna be in those next five shows

754  
00:33:46,009 --> 00:33:43,559  
that's coming up a little bit I mean I

755  
00:33:47,629 --> 00:33:46,019  
do know that my conversation with Lou I

756  
00:33:49,519 --> 00:33:47,639  
said I asked him are you gonna get into

757  
00:33:52,220 --> 00:33:49,529  
the how many other cases they're gonna

758  
00:33:53,810 --> 00:33:52,230  
be getting into with other Navy ships

759  
00:33:56,480 --> 00:33:53,820  
and stuff like you know the USS

760  
00:33:57,649 --> 00:33:56,490  
Bainbridge or the USS boxer he said I'm

761  
00:34:00,440 --> 00:33:57,659  
not we're not getting into those this

762  
00:34:03,230 --> 00:34:00,450  
this season because we had we had to cut

763  
00:34:06,470 --> 00:34:03,240

him off because we just have so much in

764

00:34:09,230 --> 00:34:06,480

six shows to do in six add six hours or

765

00:34:11,119 --> 00:34:09,240

whatever it was you know and so that he

766

00:34:13,579 --> 00:34:11,129

said that they ended up on the editing

767

00:34:15,800 --> 00:34:13,589

floor and hopefully if they get to do

768

00:34:18,450 --> 00:34:15,810

with their season then they can start to

769

00:34:20,220 --> 00:34:18,460

talk about those other events

770

00:34:21,660 --> 00:34:20,230

so that means there's a lot of stuff

771

00:34:23,460 --> 00:34:21,670

that's just gonna be coming out every

772

00:34:27,210 --> 00:34:23,470

week that's gonna be new that's

773

00:34:30,750 --> 00:34:27,220

wonderful yeah you said focus on Oh at

774

00:34:34,740 --> 00:34:30,760

the Roosevelt and that's the one in 2015

775

00:34:36,510 --> 00:34:34,750

off the east coast near Florida and that

776

00:34:39,360 --> 00:34:36,520

one's gonna have a lot that's the one

777

00:34:41,400 --> 00:34:39,370

with the gimbal and the gun ah yeah that

778

00:34:43,530 --> 00:34:41,410

seems to be coming up next week and a

779

00:34:46,110 --> 00:34:43,540

little snippet from that was shown at

780

00:34:48,480 --> 00:34:46,120

the end of the show this past Friday and

781

00:34:51,990 --> 00:34:48,490

what I thought was interesting one

782

00:34:54,600 --> 00:34:52,000

little piece is apparently that one of

783

00:34:58,470 --> 00:34:54,610

the pilots on camera is confirming that

784

00:34:59,940 --> 00:34:58,480

the audio to those two videos is in fact

785

00:35:02,250 --> 00:34:59,950

legitimate there's been a lot of

786

00:35:05,760 --> 00:35:02,260

question about that but he did seem to

787

00:35:06,990 --> 00:35:05,770

confirm that so is anyone that did been

788

00:35:09,740 --> 00:35:07,000

something that has been questioned

789

00:35:13,470 --> 00:35:09,750

widely that pilots don't talk that way

790

00:35:15,870 --> 00:35:13,480

this can't possibly be legit you bring

791

00:35:17,760 --> 00:35:15,880

up a great point here because that that

792

00:35:19,890 --> 00:35:17,770

I don't know if it's the next episode I

793

00:35:23,190 --> 00:35:19,900

know Kevin days in that we're gonna get

794

00:35:24,240 --> 00:35:23,200

morning on Nimitz so at some point

795

00:35:27,330 --> 00:35:24,250

though we're gonna get a lot on

796

00:35:30,450 --> 00:35:27,340

Roosevelt we've gotten maybe about 3 1

797

00:35:33,890 --> 00:35:30,460

minute clips from the Roosevelt thing

798

00:35:37,440 --> 00:35:33,900

which also one of those clips and I've

799

00:35:39,750 --> 00:35:37,450

you know shared those clips myself on on

800

00:35:41,970 --> 00:35:39,760

all of my pages but one of those clips

801  
00:35:45,110 --> 00:35:41,980  
shows the origins of those two videos

802  
00:35:47,340 --> 00:35:45,120  
where they discuss how you know the

803  
00:35:51,390 --> 00:35:47,350  
situation and how they were part of this

804  
00:35:53,520 --> 00:35:51,400  
Roosevelt incident so although we've

805  
00:35:56,220 --> 00:35:53,530  
only got three minutes so far so it's

806  
00:35:57,930 --> 00:35:56,230  
extremely exciting that I hope we get

807  
00:35:59,610 --> 00:35:57,940  
kind of like the Nimitz treatment we got

808  
00:36:03,270 --> 00:35:59,620  
on Roosevelt where they go through the

809  
00:36:05,340 --> 00:36:03,280  
timeline of what happened wind yeah yeah

810  
00:36:07,500 --> 00:36:05,350  
it makes sense to do it that way for

811  
00:36:10,200 --> 00:36:07,510  
sure yeah I want to hear about the the

812  
00:36:16,800 --> 00:36:10,210  
closing incident were they almost you

813  
00:36:19,520 --> 00:36:16,810

know collided right a near-miss leans in

814

00:36:22,320 --> 00:36:19,530

here you know it was an ear yet and

815

00:36:24,900 --> 00:36:22,330

apparently at least according to Jeremy

816

00:36:29,040 --> 00:36:24,910

Korbel there was actual video of it do

817

00:36:30,430 --> 00:36:29,050

any of us think that that is going to be

818

00:36:32,230 --> 00:36:30,440

shown

819

00:36:34,480 --> 00:36:32,240

I don't think there's gonna be any more

820

00:36:36,880 --> 00:36:34,490

video than we've seen I can't say that I

821

00:36:38,800 --> 00:36:36,890

know that for sure

822

00:36:40,330 --> 00:36:38,810

luckily I'll have an interview sometime

823

00:36:45,730 --> 00:36:40,340

this week with Lou and all I'm gonna ask

824

00:36:47,680 --> 00:36:45,740

that very question but cool I thought

825

00:36:50,530 --> 00:36:47,690

there were indications that there might

826

00:36:53,820 --> 00:36:50,540

be some new video but I may be wrong and

827

00:36:56,260 --> 00:36:53,830

hopefully you can check that out I'll I

828

00:36:58,150 --> 00:36:56,270

I know that they're also probably going

829

00:37:00,820 --> 00:36:58,160

to at some point talk about the the

830

00:37:05,140 --> 00:37:00,830

metal analysis and so that might be a

831

00:37:06,940 --> 00:37:05,150

part of this ceiling and renovation

832

00:37:08,530 --> 00:37:06,950

yeah Rendlesham that's what I was just

833

00:37:10,690 --> 00:37:08,540

gonna ask I wonder if they have anything

834

00:37:13,440 --> 00:37:10,700

new on Rendlesham I mean that would be

835

00:37:16,690 --> 00:37:13,450

interesting well here's something new uh

836

00:37:19,630 --> 00:37:16,700

but we if we piece this all together

837

00:37:25,000 --> 00:37:19,640

there have been some inferences from

838

00:37:28,270 --> 00:37:25,010

Nick Pope and burrows that you know the

839

00:37:30,310 --> 00:37:28,280

human research part of all of this and

840

00:37:33,520 --> 00:37:30,320

then we've seen these articles from like

841

00:37:37,060 --> 00:37:33,530

Nolan kick green dr. kick greenies work

842

00:37:39,880 --> 00:37:37,070

with the CIA and work with TSA or a tip

843

00:37:42,280 --> 00:37:39,890

at least those I think we've heard from

844

00:37:44,260 --> 00:37:42,290

where they're examining people who have

845

00:37:47,110 --> 00:37:44,270

experiences and they're checking things

846

00:37:49,150 --> 00:37:47,120

like their DNA and and different aspects

847

00:37:50,230 --> 00:37:49,160

of the nature of the physical nature of

848

00:37:52,900 --> 00:37:50,240

these people to see if they could

849

00:37:54,640 --> 00:37:52,910

determine I even interviewed Erik Davis

850

00:37:56,770 --> 00:37:54,650

and he said he was part of this they

851  
00:37:58,720 --> 00:37:56,780  
took samples from him because Erik Davis

852  
00:38:01,150 --> 00:37:58,730  
had a lot of experiences at skinwalker

853  
00:38:02,830 --> 00:38:01,160  
where they're trying to determine people

854  
00:38:04,540 --> 00:38:02,840  
who have experiences is there something

855  
00:38:07,510 --> 00:38:04,550  
physical that makes that the case and

856  
00:38:10,120 --> 00:38:07,520  
Nick Pope had inferred in an article

857  
00:38:13,450 --> 00:38:10,130  
that that was done to the some

858  
00:38:15,580 --> 00:38:13,460  
Rendlesham witnesses and so it's

859  
00:38:17,290 --> 00:38:15,590  
possible now that kind of is it as a

860  
00:38:20,670 --> 00:38:17,300  
hush-hush part we don't hear a lot about

861  
00:38:23,020 --> 00:38:20,680  
that from the group but that may be

862  
00:38:24,460 --> 00:38:23,030  
where they go with Rendlesham that would

863  
00:38:28,330 --> 00:38:24,470

be something at least original they

864

00:38:30,490 --> 00:38:28,340

would have I heard Eric Davis where he

865

00:38:32,020 --> 00:38:30,500

was featuring that whole discussion I

866

00:38:34,180 --> 00:38:32,030

can't remember now what it was or which

867

00:38:36,280 --> 00:38:34,190

show it was but I'm sure that if you do

868

00:38:38,920 --> 00:38:36,290

a google look or something like that

869

00:38:40,360 --> 00:38:38,930

you'll probably find Eric Davis but it

870

00:38:43,030 --> 00:38:40,370

was a interesting show because it was

871

00:38:45,970 --> 00:38:43,040

our you know our long discussion about

872

00:38:48,430 --> 00:38:45,980

that very thing and the fact that they

873

00:38:51,099 --> 00:38:48,440

were looking in and what specifically

874

00:38:53,859 --> 00:38:51,109

they were looking at that will in I

875

00:38:57,190 --> 00:38:53,869

think it was in the middle of a camera

876

00:39:01,180 --> 00:38:57,200

which part of brain but yeah it's it's

877

00:39:04,930 --> 00:39:01,190

fascinating stuff the hypothalamus what

878

00:39:06,570 --> 00:39:04,940

it changes the hypothalamus I think it

879

00:39:09,130 --> 00:39:06,580

was a very interesting article by dr.

880

00:39:10,780 --> 00:39:09,140

Davis I thought that that was very but

881

00:39:13,450 --> 00:39:10,790

you know I I've always been interested

882

00:39:15,370 --> 00:39:13,460

in neurology it was my best best course

883

00:39:18,550 --> 00:39:15,380

when I was in nursing school you know

884

00:39:19,900 --> 00:39:18,560

and and I just kind of ran with it you

885

00:39:24,130 --> 00:39:19,910

know have a lot of close friends

886

00:39:26,050 --> 00:39:24,140

actually who are neurologists and and if

887

00:39:27,580 --> 00:39:26,060

this causes a physical change in the

888

00:39:30,250 --> 00:39:27,590

human brain you know that's that's

889

00:39:32,560 --> 00:39:30,260

really is is this a new sort of

890

00:39:35,349 --> 00:39:32,570

evolution is it a new kind of mutation

891

00:39:37,720 --> 00:39:35,359

that we're going through to give us I

892

00:39:39,849 --> 00:39:37,730

don't know cosmic consciousness or well

893

00:39:44,470 --> 00:39:39,859

you know it's just very very interesting

894

00:39:47,260 --> 00:39:44,480

well wasn't it project condign that had

895

00:39:49,930 --> 00:39:47,270

a report in it that included sort of a

896

00:39:51,820 --> 00:39:49,940

chart that that indicated you know

897

00:39:53,950 --> 00:39:51,830

different physical effects on different

898

00:39:56,500 --> 00:39:53,960

people according to the level of

899

00:39:58,359 --> 00:39:56,510

exposure they had to UFOs and it's um

900

00:40:01,120 --> 00:39:58,369

it's part of what led to john burroughs

901  
00:40:02,650 --> 00:40:01,130  
you know getting his um his medical

902  
00:40:03,160 --> 00:40:02,660  
records released so that he can deal

903  
00:40:06,460 --> 00:40:03,170  
with that

904  
00:40:10,150 --> 00:40:06,470  
oh yeah it wasn't necessarily what it

905  
00:40:13,900 --> 00:40:10,160  
was was Condon was making the argument

906  
00:40:16,030 --> 00:40:13,910  
that there are am effects from the UFO

907  
00:40:17,620 --> 00:40:16,040  
occurrences although they were making

908  
00:40:21,520 --> 00:40:17,630  
the argument that it's some sort of

909  
00:40:23,560 --> 00:40:21,530  
plasma phenomena and so they used the

910  
00:40:25,510 --> 00:40:23,570  
Rendlesham witnesses as an example that

911  
00:40:28,090 --> 00:40:25,520  
they had suffered some physical effects

912  
00:40:31,510 --> 00:40:28,100  
apparently from their experience so it

913  
00:40:33,580 --> 00:40:31,520

was very speculative ah their statement

914

00:40:35,890 --> 00:40:33,590

around all of this and it was related to

915

00:40:39,310 --> 00:40:35,900

you know kind of this what they felt was

916

00:40:41,170 --> 00:40:39,320

a natural phenomenon but yeah that is

917

00:40:44,170 --> 00:40:41,180

where drom burrow said look you know

918

00:40:47,500 --> 00:40:44,180

here's evidence that people at least in

919

00:40:49,810 --> 00:40:47,510

the UK mo d felt that I was affected by

920

00:40:54,820 --> 00:40:49,820

my experience and that did I guess help

921

00:40:56,529 --> 00:40:54,830

with his argument to get his a his VA

922

00:40:58,499 --> 00:40:56,539

privileges but what

923

00:41:01,419 --> 00:40:58,509

so interesting about that one really

924

00:41:04,449 --> 00:41:01,429

weird part is that his health records

925

00:41:06,309 --> 00:41:04,459

were classified for some reason and at

926

00:41:08,679 --> 00:41:06,319

least his lawyer had said that that was

927

00:41:11,019 --> 00:41:08,689

very strange at it it's not odd that

928

00:41:13,390 --> 00:41:11,029

people's records would get classified

929

00:41:15,849 --> 00:41:13,400

however this is for people that are

930

00:41:18,400 --> 00:41:15,859

working on classified projects Burroughs

931

00:41:20,829 --> 00:41:18,410

was not and so it was odd that they had

932

00:41:22,329 --> 00:41:20,839

classified that and to this day he does

933

00:41:23,979 --> 00:41:22,339

not have those records he worked with

934

00:41:27,130 --> 00:41:23,989

McCain's office and they were able to

935

00:41:29,650 --> 00:41:27,140

correct his military records which were

936

00:41:32,199 --> 00:41:29,660

somehow changed and didn't weren't

937

00:41:33,400 --> 00:41:32,209

accurate but even McCain's opposite will

938

00:41:37,359 --> 00:41:33,410

probably never be able to get those

939

00:41:40,390 --> 00:41:37,369

medical records music the other thing is

940

00:41:47,859 --> 00:41:40,400

the fact that the base has nuclear was

941

00:41:52,509 --> 00:41:47,869

also classified and yes nuclear stuff

942

00:41:54,579 --> 00:41:52,519

over in another country yeah and I don't

943

00:41:56,529 --> 00:41:54,589

know that that's ever been completely

944

00:42:00,309 --> 00:41:56,539

acknowledged in fact I don't think Hall

945

00:42:04,929 --> 00:42:00,319

doesn't even talk about that or I don't

946

00:42:06,849 --> 00:42:04,939

even think Nick hey it's been a great

947

00:42:10,509 --> 00:42:06,859

time talking with all you guys but I

948

00:42:20,140 --> 00:42:10,519

gotta get going so I appreciate it Karen

949

00:42:22,359 --> 00:42:20,150

thanks for coming on yeah dr. Scott you

950

00:42:25,899 --> 00:42:22,369

know you out there what what do you

951  
00:42:29,079 --> 00:42:25,909  
think was what do you think that the Tic

952  
00:42:30,729 --> 00:42:29,089  
Tac incident was telling us do you think

953  
00:42:33,579 --> 00:42:30,739  
that we action do you think that we

954  
00:42:36,609 --> 00:42:33,589  
stumbled upon this that it was just you

955  
00:42:42,039 --> 00:42:36,619  
know by accident and they got caught or

956  
00:42:44,380 --> 00:42:42,049  
do you think mmus actually a show

957  
00:42:48,009 --> 00:42:44,390  
was it a show of power and and why I

958  
00:42:50,439 --> 00:42:48,019  
mean I I keep on you know running that

959  
00:42:53,349 --> 00:42:50,449  
thought through my mind you know I what

960  
00:42:55,899 --> 00:42:53,359  
were they trying to tell us well in a

961  
00:43:00,789 --> 00:42:55,909  
lot of cases it seems like it's more of

962  
00:43:04,749 --> 00:43:00,799  
a display than just a coincidence that

963  
00:43:07,439 --> 00:43:04,759

somebody runs into them and it reminds

964

00:43:10,979 --> 00:43:07,449

me of the work of dr. Harley Rutledge

965

00:43:14,079 --> 00:43:10,989

who did a real time study

966

00:43:15,700 --> 00:43:14,089

UFOs and was finding the same thing that

967

00:43:19,229 --> 00:43:15,710

they could almost read your mind that

968

00:43:22,029 --> 00:43:19,239

they could just change position like

969

00:43:24,640 --> 00:43:22,039

according to what sort of what you

970

00:43:28,599 --> 00:43:24,650

thought and he said a lot of it is sub

971

00:43:30,190 --> 00:43:28,609

living a liminal that it's so it's

972

00:43:34,210 --> 00:43:30,200

something that people just don't

973

00:43:38,710 --> 00:43:34,220

understand consciously I mean this was

974

00:43:41,049 --> 00:43:38,720

just such an overt show of power and and

975

00:43:43,599 --> 00:43:41,059

that they that the guy that the tic-tac

976  
00:43:45,759 --> 00:43:43,609  
was waiting at the cap point to me and I

977  
00:43:49,359 --> 00:43:45,769  
kind of get chills thinking about that

978  
00:43:51,789 --> 00:43:49,369  
yeah that's freaky pretty aggressive you

979  
00:43:53,799 --> 00:43:51,799  
know I mean we've had aggressive shows

980  
00:43:55,960 --> 00:43:53,809  
of power before you know Robert solace

981  
00:43:58,450 --> 00:43:55,970  
is story of you know the nukes kind of

982  
00:44:01,539 --> 00:43:58,460  
you know ding ding ding ding you know

983  
00:44:03,569 --> 00:44:01,549  
turning off and then turning back on yes

984  
00:44:06,309 --> 00:44:03,579  
we can do this you know this this

985  
00:44:08,499 --> 00:44:06,319  
discovering ominously over the the

986  
00:44:10,239 --> 00:44:08,509  
missile base that he was stationed at

987  
00:44:12,309 --> 00:44:10,249  
and we've you know there are other

988  
00:44:14,680 --> 00:44:12,319

stories that have come out that this

989

00:44:16,450 --> 00:44:14,690

happened elsewhere you know in the you

990

00:44:20,979 --> 00:44:16,460

know the former Soviet Union they had

991

00:44:24,009 --> 00:44:20,989

this happen it's it's pretty overt you

992

00:44:26,289 --> 00:44:24,019

know keep in mind if you would if this

993

00:44:29,920 --> 00:44:26,299

phenomena has been around as long as it

994

00:44:32,470 --> 00:44:29,930

has been they fully will know how to tap

995

00:44:35,410 --> 00:44:32,480

into our data they know how to they know

996

00:44:38,349 --> 00:44:35,420

how to get information they know how to

997

00:44:40,359 --> 00:44:38,359

jam our systems they knew how to turn

998

00:44:43,029 --> 00:44:40,369

off the missile systems they know how to

999

00:44:45,160 --> 00:44:43,039

do all different kinds of things that we

1000

00:44:48,279 --> 00:44:45,170

do and they're keeping up with what we

1001  
00:44:51,700 --> 00:44:48,289  
do so I'm not the least bit surprised

1002  
00:44:53,769 --> 00:44:51,710  
that they would have information to know

1003  
00:44:56,859 --> 00:44:53,779  
where the cat point is and probably know

1004  
00:44:59,109 --> 00:44:56,869  
a lot more than that what we want to

1005  
00:45:01,299 --> 00:44:59,119  
give them credit for and you know think

1006  
00:45:04,930 --> 00:45:01,309  
about it I mean yeah the same thing that

1007  
00:45:07,779 --> 00:45:04,940  
we were the trying to collect intel on a

1008  
00:45:11,769 --> 00:45:07,789  
species that we were like observing and

1009  
00:45:13,599 --> 00:45:11,779  
wanting to to interact with or whatever

1010  
00:45:15,190 --> 00:45:13,609  
like that or to know about I mean I

1011  
00:45:16,839 --> 00:45:15,200  
don't I'm not surprised

1012  
00:45:20,229 --> 00:45:16,849  
from that's the one that's so

1013  
00:45:23,079 --> 00:45:20,239

interesting now what what about this

1014

00:45:24,339 --> 00:45:23,089

seems maybe really simplistic but when

1015

00:45:26,710 --> 00:45:24,349

I'm curious about it

1016

00:45:29,109 --> 00:45:26,720

when when these things move they're

1017

00:45:32,380 --> 00:45:29,119

clearly exceeding the sound barrier and

1018

00:45:34,839 --> 00:45:32,390

yet no sonic boom I mean is it is it

1019

00:45:37,690 --> 00:45:34,849

even physically possible do we have the

1020

00:45:39,670 --> 00:45:37,700

knowledge or even theory how something

1021

00:45:42,479 --> 00:45:39,680

that could move through the atmosphere

1022

00:45:45,960 --> 00:45:42,489

that fast and not cause a sonic boom

1023

00:45:50,890 --> 00:45:45,970

well I know there's there's theory yeah

1024

00:45:52,390 --> 00:45:50,900

theory but it's very even from what I

1025

00:45:54,549 --> 00:45:52,400

understand and people can correct me

1026

00:45:57,249 --> 00:45:54,559

even the theories are things that take

1027

00:45:59,200 --> 00:45:57,259

tremendous amounts of energy I think

1028

00:46:02,380 --> 00:45:59,210

that was a really great point that at

1029

00:46:06,759 --> 00:46:02,390

least Peter had made one of the authors

1030

00:46:09,489 --> 00:46:06,769

of the seu report on Nimitz is that you

1031

00:46:12,400 --> 00:46:09,499

know all of these things that we

1032

00:46:14,380 --> 00:46:12,410

witnessed in order for us and our

1033

00:46:18,880 --> 00:46:14,390

understanding to accomplish these things

1034

00:46:21,700 --> 00:46:18,890

they would take an extreme amount of

1035

00:46:25,120 --> 00:46:21,710

energy a release of extreme amounts of

1036

00:46:28,900 --> 00:46:25,130

energy in some cases you know equal to

1037

00:46:31,630 --> 00:46:28,910

you nuclear blasts but we're not seeing

1038

00:46:34,209 --> 00:46:31,640

that in this so it really is

1039

00:46:36,249 --> 00:46:34,219

demonstrating a physics that we don't

1040

00:46:38,579 --> 00:46:36,259

understand yeah

1041

00:46:41,019 --> 00:46:38,589

then take a look at the Navy the Navy

1042

00:46:43,599 --> 00:46:41,029

schematics and if you saw that patent

1043

00:46:46,690 --> 00:46:43,609

that was put out by the one gentleman up

1044

00:46:49,559 --> 00:46:46,700

at NAVAIR and if you look at those

1045

00:46:53,529 --> 00:46:49,569

patents that that that they put in

1046

00:46:55,599 --> 00:46:53,539

they're dealing with a right now

1047

00:46:58,289 --> 00:46:55,609

advanced designs and it's the you know

1048

00:47:01,269 --> 00:46:58,299

there's theoretical where they're using

1049

00:47:04,180 --> 00:47:01,279

microwave transmitters to be able to

1050

00:47:06,749 --> 00:47:04,190

create what what and by the way Howell

1051  
00:47:09,670 --> 00:47:06,759  
is heavily engaged in this as well but

1052  
00:47:13,539 --> 00:47:09,680  
if you think about it like creating a

1053  
00:47:15,009 --> 00:47:13,549  
vacuum around the ship and and that it's

1054  
00:47:17,259 --> 00:47:15,019  
almost I want to I want to say like

1055  
00:47:21,160 --> 00:47:17,269  
slipstreaming but it's it's slipping

1056  
00:47:23,229 --> 00:47:21,170  
through the atmosphere without having

1057  
00:47:25,690 --> 00:47:23,239  
the big bang on the backside like our

1058  
00:47:29,410 --> 00:47:25,700  
aircraft one of the one of the things

1059  
00:47:31,569 --> 00:47:29,420  
you see that that Lou continues to point

1060  
00:47:34,209 --> 00:47:31,579  
out is that this is trans medium the

1061  
00:47:36,670 --> 00:47:34,219  
meaning that it can these are the same

1062  
00:47:38,370 --> 00:47:36,680  
designed objects maneuver through water

1063  
00:47:41,130 --> 00:47:38,380

in the air and in

1064

00:47:43,230 --> 00:47:41,140

where we be build things that have a

1065

00:47:45,930 --> 00:47:43,240

certain shape and you certain type of

1066

00:47:50,250 --> 00:47:45,940

propulsion and and it's for each of

1067

00:47:52,560 --> 00:47:50,260

those individual things water and you

1068

00:47:54,360 --> 00:47:52,570

know that a submarine looks quite a you

1069

00:47:55,890 --> 00:47:54,370

know qualitatively different than an

1070

00:47:57,930 --> 00:47:55,900

aircraft that an aircraft looks

1071

00:47:59,460 --> 00:47:57,940

qualitatively different than what we

1072

00:48:03,330 --> 00:47:59,470

have in the way of things we put in

1073

00:48:05,670 --> 00:48:03,340

space so I think that what what it's

1074

00:48:09,630 --> 00:48:05,680

saying here is that we're seeing a

1075

00:48:11,580 --> 00:48:09,640

physics that we don't currently have but

1076

00:48:13,800 --> 00:48:11,590

the encouraging thing is people are

1077

00:48:17,880 --> 00:48:13,810

starting to think about that and oh by

1078

00:48:21,330 --> 00:48:17,890

the way even in that design they built

1079

00:48:23,850 --> 00:48:21,340

some sort of a power system in that

1080

00:48:27,180 --> 00:48:23,860

design to be able to have it create

1081

00:48:31,470 --> 00:48:27,190

energy at a large scale and it can also

1082

00:48:36,170 --> 00:48:31,480

it's also able to be able to avoid the

1083

00:48:39,510 --> 00:48:36,180

inertia aspects which I think extremely

1084

00:48:42,660 --> 00:48:39,520

interesting and compelling so I think

1085

00:48:45,270 --> 00:48:42,670

that you know if there's any you know

1086

00:48:47,070 --> 00:48:45,280

any validity to the patent and and by

1087

00:48:51,120 --> 00:48:47,080

the way Lou is very very interested in

1088

00:48:52,830 --> 00:48:51,130

that himself then we might be getting to

1089

00:48:55,290 --> 00:48:52,840

the point where we're starting to see

1090

00:48:58,140 --> 00:48:55,300

how we could actually construct

1091

00:49:00,780 --> 00:48:58,150

something that could do something very

1092

00:49:02,370 --> 00:49:00,790

very similar but it's still a ways out

1093

00:49:10,280 --> 00:49:02,380

you know in terms of our developing it

1094

00:49:16,230 --> 00:49:14,400

you know ox X and no fire ball no sonic

1095

00:49:18,480 --> 00:49:16,240

boom you guys think these things are

1096

00:49:20,070 --> 00:49:18,490

piloted or they remote piloted I mean

1097

00:49:22,080 --> 00:49:20,080

why do you build something that's 40

1098

00:49:24,030 --> 00:49:22,090

feet long if there's no crew that's

1099

00:49:25,590 --> 00:49:24,040

another thing I'm wondering about are we

1100

00:49:31,050 --> 00:49:25,600

dealing with drones are we dealing with

1101

00:49:33,000 --> 00:49:31,060

ships I tell you think the latter right

1102

00:49:34,830 --> 00:49:33,010

and I think that you know we still

1103

00:49:37,590 --> 00:49:34,840

there's still an outstanding question of

1104

00:49:40,020 --> 00:49:37,600

whose are they or what but I think that

1105

00:49:42,480 --> 00:49:40,030

a lot of what we're talking about at

1106

00:49:44,880 --> 00:49:42,490

least is evidence towards an intelligent

1107

00:49:47,100 --> 00:49:44,890

nature to these things which would rule

1108

00:49:49,200 --> 00:49:47,110

out you know any natural sort of

1109

00:49:52,080 --> 00:49:49,210

phenomena even the theory that perhaps

1110

00:49:55,800 --> 00:49:52,090

you know sometimes the

1111

00:49:57,900 --> 00:49:55,810

the the veil between other dimensions is

1112

00:50:00,360 --> 00:49:57,910

thin and things can come true at times

1113

00:50:03,200 --> 00:50:00,370

this are through that's that's kind of

1114

00:50:06,120 --> 00:50:03,210

another theory out there but that this

1115

00:50:08,700 --> 00:50:06,130

demonstrates an intelligence where they

1116

00:50:11,940 --> 00:50:08,710

they are sort of demonstrating something

1117

00:50:13,800 --> 00:50:11,950

to us so that would mean potentially I

1118

00:50:15,360 --> 00:50:13,810

mean we can't say it with a hundred

1119

00:50:17,760 --> 00:50:15,370

percent certainty I think a large

1120

00:50:21,660 --> 00:50:17,770

percent certainty that they're not human

1121

00:50:25,820 --> 00:50:21,670

made but then you know that kind of

1122

00:50:30,930 --> 00:50:25,830

factors into I think this conversation

1123

00:50:32,970 --> 00:50:30,940

pretty largely as well what one of the

1124

00:50:36,980 --> 00:50:32,980

things that you you you heard very

1125

00:50:41,850 --> 00:50:36,990

eloquently but with flavor was that the

1126  
00:50:45,180 --> 00:50:41,860  
object itself responded to his moves and

1127  
00:50:47,840 --> 00:50:45,190  
and you heard the female talking about

1128  
00:50:50,460 --> 00:50:47,850  
that it seemed as though it was

1129  
00:50:53,700 --> 00:50:50,470  
responding to what he was doing

1130  
00:50:56,700 --> 00:50:53,710  
it specifically knew where to go and you

1131  
00:50:59,070 --> 00:50:56,710  
know so in that context there's there's

1132  
00:51:02,250 --> 00:50:59,080  
an intelligence behind it but it knows

1133  
00:51:04,800 --> 00:51:02,260  
how to if it's a drone they know how to

1134  
00:51:06,510 --> 00:51:04,810  
fly it they knew how where to go and

1135  
00:51:07,790 --> 00:51:06,520  
they knew had all that kind of ability

1136  
00:51:10,590 --> 00:51:07,800  
to be able to fly the drone

1137  
00:51:12,630 --> 00:51:10,600  
hypothetically to what they did and they

1138  
00:51:14,850 --> 00:51:12,640

were they had visibility and they could

1139

00:51:19,800 --> 00:51:14,860

actually see what was going on and and

1140

00:51:22,530 --> 00:51:19,810

and so that's pretty impressive and then

1141

00:51:25,470 --> 00:51:22,540

if you have if you have you know

1142

00:51:29,340 --> 00:51:25,480

somebody it's in it yeah you know okay

1143

00:51:33,270 --> 00:51:29,350

well you know can a a small being that's

1144

00:51:34,620 --> 00:51:33,280

three or four feet high you know like we

1145

00:51:37,950 --> 00:51:34,630

if we want to believe that that's the

1146

00:51:39,690 --> 00:51:37,960

typical of whatever and then and they

1147

00:51:42,540 --> 00:51:39,700

have the means to be able to see through

1148

00:51:44,040 --> 00:51:42,550

the craft or or that they can control it

1149

00:51:46,410 --> 00:51:44,050

with their minds or something like that

1150

00:51:48,990 --> 00:51:46,420

well that's possible too

1151  
00:51:50,940 --> 00:51:49,000  
it's what yeah it's when you get down to

1152  
00:51:52,590 --> 00:51:50,950  
those objects they're like being seen

1153  
00:51:58,410 --> 00:51:52,600  
where they're like only the size of a

1154  
00:52:00,360 --> 00:51:58,420  
baseball small alien right

1155  
00:52:02,370 --> 00:52:00,370  
yeah the tic-tacs large enough where we

1156  
00:52:08,049 --> 00:52:02,380  
all could you know do this podcast

1157  
00:52:14,419 --> 00:52:11,749  
that's one day I'm trying that don't

1158  
00:52:16,459 --> 00:52:14,429  
spill our secret but I mean that that's

1159  
00:52:19,219 --> 00:52:16,469  
where it's just a big question mark with

1160  
00:52:21,319 --> 00:52:19,229  
something this size in and knowing that

1161  
00:52:23,269 --> 00:52:21,329  
you know of course the g-forces at the

1162  
00:52:25,429 --> 00:52:23,279  
speed nobody should be able to do that

1163  
00:52:27,409 --> 00:52:25,439

but neither should any material be able

1164

00:52:30,979 --> 00:52:27,419

to withstand those g-forces but

1165

00:52:33,109 --> 00:52:30,989

obviously it is so they're able to do

1166

00:52:35,239 --> 00:52:33,119

something you know that at least it

1167

00:52:37,639 --> 00:52:35,249

seems this thing's exhibiting technology

1168

00:52:39,769 --> 00:52:37,649

that is able to really counter all of

1169

00:52:41,359 --> 00:52:39,779

everything we know about physics so it

1170

00:52:43,339 --> 00:52:41,369

could be possible there could be a

1171

00:52:45,859 --> 00:52:43,349

physical being inside of one of those

1172

00:52:49,309 --> 00:52:45,869

things you know I mean one thing that I

1173

00:52:51,919 --> 00:52:49,319

I've heard many many times and stories

1174

00:52:54,589 --> 00:52:51,929

from experiencers that I've interviewed

1175

00:52:57,159 --> 00:52:54,599

is that it's sort of Alice in Wonderland

1176

00:53:00,499 --> 00:52:57,169

like how something can be very small

1177

00:53:02,569 --> 00:53:00,509

looking on the outside a craft and once

1178

00:53:07,279 --> 00:53:02,579

they go inside the craft it's suddenly

1179

00:53:10,159 --> 00:53:07,289

just huge you know voluminous and so

1180

00:53:14,569 --> 00:53:10,169

perhaps I mean if we're talking you know

1181

00:53:18,649 --> 00:53:14,579

folding you know spaces and things like

1182

00:53:20,899 --> 00:53:18,659

that they may have just mastered the

1183

00:53:22,549 --> 00:53:20,909

physical properties of objects to where

1184

00:53:25,370 --> 00:53:22,559

something can appear to be baseball

1185

00:53:27,499 --> 00:53:25,380

sized on the outside and you get sucked

1186

00:53:40,489 --> 00:53:27,509

into it and suddenly it's a cathedral

1187

00:53:42,259 --> 00:53:40,499

inside darkness ATAR yeah you know it's

1188

00:53:44,870 --> 00:53:42,269

interesting to me to see that they used

1189

00:53:47,509 --> 00:53:44,880

microwave transmitters in that patent

1190

00:53:50,779 --> 00:53:47,519

and and one of the things that I saw

1191

00:53:52,969 --> 00:53:50,789

early autumn was microwave radiation at

1192

00:53:55,849 --> 00:53:52,979

the landing case that I looked at into

1193

00:53:58,399 --> 00:53:55,859

with a 70 foot in diameter area area in

1194

00:53:59,749 --> 00:53:58,409

Ohio was completely the wheat was gone

1195

00:54:02,149 --> 00:53:59,759

and stuff like that there was puffed

1196

00:54:04,519 --> 00:54:02,159

wheat but we had microwave radiation and

1197

00:54:07,309 --> 00:54:04,529

so if you think about Kansas and dopost

1198

00:54:11,299 --> 00:54:07,319

and stuff like that microwave kind of

1199

00:54:14,120 --> 00:54:11,309

thing is is coming into play that's that

1200

00:54:17,569 --> 00:54:14,130

polarizing vacuum that is being

1201  
00:54:18,490 --> 00:54:17,579  
discussed around the craft you know that

1202  
00:54:21,280 --> 00:54:18,500  
that also

1203  
00:54:25,270 --> 00:54:21,290  
might lead into potentially the glowing

1204  
00:54:27,460 --> 00:54:25,280  
you might have around an object you know

1205  
00:54:29,920 --> 00:54:27,470  
a long time ago Jim McCampbell wrote a

1206  
00:54:31,360 --> 00:54:29,930  
book on ufology and put the physics and

1207  
00:54:33,760 --> 00:54:31,370  
stuff like that that was being discussed

1208  
00:54:37,150 --> 00:54:33,770  
in that book

1209  
00:54:39,280 --> 00:54:37,160  
ufology and you know and when things he

1210  
00:54:41,140 --> 00:54:39,290  
mentioned was that the objects seemingly

1211  
00:54:43,630 --> 00:54:41,150  
would change colors or something like

1212  
00:54:45,520 --> 00:54:43,640  
that but there's a lot of this stuff we

1213  
00:54:48,760 --> 00:54:45,530

just you know need to do a better job of

1214

00:54:52,660 --> 00:54:48,770

documenting putting it together you know

1215

00:54:53,860 --> 00:54:52,670

eliminating all the ash and trash if you

1216

00:54:55,480 --> 00:54:53,870

would and going with some of the better

1217

00:54:57,490 --> 00:54:55,490

cases you know and actually seeing four

1218

00:55:00,280 --> 00:54:57,500

so like for example right now I'd be

1219

00:55:02,860 --> 00:55:00,290

looking to see do the Tic Tacs did

1220

00:55:07,120 --> 00:55:02,870

anybody report on the East Coast any of

1221

00:55:08,860 --> 00:55:07,130

that same collect you know there was

1222

00:55:12,280 --> 00:55:08,870

like a mirage effect that was being

1223

00:55:14,260 --> 00:55:12,290

described around the tic-tac did they

1224

00:55:16,510 --> 00:55:14,270

did anybody see that kind of mirages

1225

00:55:17,950 --> 00:55:16,520

like effect because again that's

1226  
00:55:20,380 --> 00:55:17,960  
indicating some sort of a field around

1227  
00:55:23,680 --> 00:55:20,390  
the object right yeah like a force field

1228  
00:55:26,200 --> 00:55:23,690  
tape yeah some sort of if you would and

1229  
00:55:29,110 --> 00:55:26,210  
maybe that's how it's helping the

1230  
00:55:34,270 --> 00:55:29,120  
cushion this going through the

1231  
00:55:36,460 --> 00:55:34,280  
atmosphere and not heating up there's no

1232  
00:55:40,150 --> 00:55:36,470  
reentry in the air you know there's no

1233  
00:55:42,120 --> 00:55:40,160  
reentry of like an Apollo capsule coming

1234  
00:55:44,020 --> 00:55:42,130  
into the atmosphere with exactly

1235  
00:55:46,480 --> 00:55:44,030  
traveling from one hundred and eighty

1236  
00:55:48,490 --> 00:55:46,490  
thousand feet down to sea level and in

1237  
00:55:54,370 --> 00:55:48,500  
an instant and there's no fireball

1238  
00:55:56,860 --> 00:55:54,380

there's no explosive that's what's

1239

00:55:59,050 --> 00:55:56,870

exciting about the show too is that it's

1240

00:56:01,990 --> 00:55:59,060

of course we can all discuss this and we

1241

00:56:03,970 --> 00:56:02,000

do and you know we're grounded

1242

00:56:06,910 --> 00:56:03,980

level-headed researchers in this field

1243

00:56:09,300 --> 00:56:06,920

and you know I we certainly do not feel

1244

00:56:12,820 --> 00:56:09,310

that we're being fringe or or talking

1245

00:56:14,020 --> 00:56:12,830

just out of out of turn you know when

1246

00:56:15,940 --> 00:56:14,030

we're talking about this sort of stuff

1247

00:56:17,320 --> 00:56:15,950

but of course we don't have the

1248

00:56:19,690 --> 00:56:17,330

credentials of some of the guys in the

1249

00:56:21,820 --> 00:56:19,700

show so the skeptics can you know kind

1250

00:56:24,160 --> 00:56:21,830

of do whatever they want with all of

1251  
00:56:26,830 --> 00:56:24,170  
this but what's exciting about the show

1252  
00:56:29,380 --> 00:56:26,840  
and I think what really kind of had me

1253  
00:56:31,270 --> 00:56:29,390  
feeling really excited watching the show

1254  
00:56:31,930 --> 00:56:31,280  
is just the level of credibility and

1255  
00:56:33,400 --> 00:56:31,940  
that's

1256  
00:56:35,860 --> 00:56:33,410  
it's exciting we're gonna be talking

1257  
00:56:37,930 --> 00:56:35,870  
about these new gimbal video in

1258  
00:56:39,550 --> 00:56:37,940  
particular for instance because there

1259  
00:56:41,980 --> 00:56:39,560  
happened that skeptics out there too

1260  
00:56:44,680 --> 00:56:41,990  
bunking some of these videos yet they

1261  
00:56:47,710 --> 00:56:44,690  
haven't even heard you know the analysis

1262  
00:56:50,560 --> 00:56:47,720  
from the Navy or from whatever whoever

1263  
00:56:52,480 --> 00:56:50,570

else Lou had look at this in the ain't

1264

00:56:54,130 --> 00:56:52,490

hit program but now we're gonna be

1265

00:56:57,280 --> 00:56:54,140

hearing from them we heard from flavor

1266

00:56:59,590 --> 00:56:57,290

in Oregon about the gimbal and he was

1267

00:57:01,570 --> 00:56:59,600

supporting the physics why this is not a

1268

00:57:03,400 --> 00:57:01,580

plane like some people have explained

1269

00:57:04,750 --> 00:57:03,410

and we're going to be getting more of

1270

00:57:06,670 --> 00:57:04,760

that and we got some of that in the

1271

00:57:09,010 --> 00:57:06,680

first episode from the experts they

1272

00:57:10,960 --> 00:57:09,020

brought in that is really exciting to

1273

00:57:12,790 --> 00:57:10,970

hear because you know then they're gonna

1274

00:57:15,280 --> 00:57:12,800

get into these real issues like we're

1275

00:57:17,440 --> 00:57:15,290

talking about as opposed to a lot of the

1276  
00:57:19,140 --> 00:57:17,450  
skeptics out there assuming these are

1277  
00:57:23,590 --> 00:57:19,150  
just normal aircraft being

1278  
00:57:25,300 --> 00:57:23,600  
misinterpreted right yeah what things

1279  
00:57:28,090 --> 00:57:25,310  
like it I get a kick out of this you

1280  
00:57:30,760 --> 00:57:28,100  
know like you know minute if you take a

1281  
00:57:34,000 --> 00:57:30,770  
look at those five five traits of UFOs

1282  
00:57:36,850 --> 00:57:34,010  
that he talks about I think for the most

1283  
00:57:39,280 --> 00:57:36,860  
part if you've been in ufology as long

1284  
00:57:41,110 --> 00:57:39,290  
as we have many of us have and you look

1285  
00:57:42,640 --> 00:57:41,120  
at cases you we've had this stuff

1286  
00:57:53,980 --> 00:57:42,650  
throughout history doing these kind of

1287  
00:57:56,590 --> 00:57:53,990  
things repulsion when they take off from

1288  
00:58:02,710 --> 00:57:56,600

a standstill or there's no effects or

1289

00:58:04,480 --> 00:58:02,720

that or so it's like what okay yeah but

1290

00:58:06,610 --> 00:58:04,490

you know I'm looking at this show I'm

1291

00:58:09,190 --> 00:58:06,620

not really looking for something new I'm

1292

00:58:11,290 --> 00:58:09,200

looking for verifying what we all have

1293

00:58:13,540 --> 00:58:11,300

been seeing the old stuff right there's

1294

00:58:16,660 --> 00:58:13,550

been no proof it's all speculative but

1295

00:58:19,180 --> 00:58:16,670

now we have credible people you know

1296

00:58:21,040 --> 00:58:19,190

very serious people doing some serious

1297

00:58:21,850 --> 00:58:21,050

science you know on a very serious

1298

00:58:24,250 --> 00:58:21,860

subject

1299

00:58:26,350 --> 00:58:24,260

I mean it's finally getting that kind of

1300

00:58:30,880 --> 00:58:26,360

consideration and you don't like that

1301  
00:58:33,400 --> 00:58:30,890  
confirmation okay so I you know going to

1302  
00:58:36,550 --> 00:58:33,410  
your point I think what I'm trying to

1303  
00:58:38,350 --> 00:58:36,560  
tell you is that if you look back at the

1304  
00:58:41,730 --> 00:58:38,360  
military cases that have been in the

1305  
00:58:45,370 --> 00:58:41,740  
past there have been some incredible

1306  
00:58:48,070 --> 00:58:45,380  
encounters by military that

1307  
00:58:50,770 --> 00:58:48,080  
are oftentimes I mean it's just it's not

1308  
00:58:52,330 --> 00:58:50,780  
as in front of your face and nobody's

1309  
00:58:54,790 --> 00:58:52,340  
you know we're not out there talking

1310  
00:58:56,950 --> 00:58:54,800  
about it and yet you'll hear about those

1311  
00:58:58,810 --> 00:58:56,960  
cases I mean I've been studying some of

1312  
00:59:01,510 --> 00:58:58,820  
the Vietnam cases and stuff like that

1313  
00:59:04,090 --> 00:59:01,520

that are going on and and you listen to

1314

00:59:07,660 --> 00:59:04,100

a testimony even at the hearings that

1315

00:59:09,400 --> 00:59:07,670

were that you often heard up on the hill

1316

00:59:11,740 --> 00:59:09,410

and stuff like that these guys are

1317

00:59:13,870 --> 00:59:11,750

talking about you know an object for

1318

00:59:16,690 --> 00:59:13,880

example that was out at Big Sur that

1319

00:59:20,320 --> 00:59:16,700

basically came in shot three rays of

1320

00:59:22,090 --> 00:59:20,330

light and a warhead that was going off

1321

00:59:23,950 --> 00:59:22,100

and and you're going like oh wait a

1322

00:59:28,600 --> 00:59:23,960

minute that's pretty doggone impressive

1323

00:59:31,180 --> 00:59:28,610

yeah and so you know I mean these things

1324

00:59:35,350 --> 00:59:31,190

are getting now attention at the Navy

1325

00:59:37,330 --> 00:59:35,360

level but I'll tell you this much I I'm

1326

00:59:38,950 --> 00:59:37,340

just as much impressed with some of the

1327

00:59:42,820 --> 00:59:38,960

older cases that we've even had on

1328

00:59:44,980 --> 00:59:42,830

record even in blue book even 1982 in

1329

00:59:48,190 --> 00:59:44,990

Washington you're exactly correct when

1330

00:59:52,150 --> 00:59:48,200

people see that you know 2004 Nimitz

1331

00:59:54,040 --> 00:59:52,160

Roosevelt 2015 this isn't new ever since

1332

00:59:56,410 --> 00:59:54,050

we've been looking at the UFO phenomena

1333

00:59:58,240 --> 00:59:56,420

Blue Book is Chuck full of cases that

1334

01:00:00,070 --> 00:59:58,250

are very similar and just as

1335

01:00:01,660 --> 01:00:00,080

extraordinary that nobody paid attention

1336

01:00:05,770 --> 01:00:01,670

to her at least not in the last few

1337

01:00:08,890 --> 01:00:05,780

decades I have a quote from Bruce dr.

1338

01:00:10,810 --> 01:00:08,900

Bruce Maccabee he made this he worthless

1339

01:00:13,120 --> 01:00:10,820

on Facebook a couple of days ago and I

1340

01:00:14,860 --> 01:00:13,130

thought it was very impressive it's

1341

01:00:17,710 --> 01:00:14,870

exactly what we're talking about here

1342

01:00:19,330 --> 01:00:17,720

I'll just read it he said they want us

1343

01:00:22,300 --> 01:00:19,340

to know that they are here and have

1344

01:00:24,550 --> 01:00:22,310

superior capabilities and technology to

1345

01:00:27,190 --> 01:00:24,560

assure that we see them they play with

1346

01:00:28,630 --> 01:00:27,200

us because of this plane most of the

1347

01:00:30,610 --> 01:00:28,640

technical abilities that have been

1348

01:00:32,490 --> 01:00:30,620

recorded recently as if they were new

1349

01:00:35,170 --> 01:00:32,500

discoveries like extreme acceleration

1350

01:00:37,960 --> 01:00:35,180

have been known to the Air Force and the

1351  
01:00:40,240 --> 01:00:37,970  
Navy for more than 70 years he's got a

1352  
01:00:42,310 --> 01:00:40,250  
point there that's we're talking you

1353  
01:00:48,940 --> 01:00:42,320  
know Project Blue Book certainly you

1354  
01:00:51,310 --> 01:00:48,950  
know yeah the question is that and this

1355  
01:00:55,150 --> 01:00:51,320  
is what maybe we'll find out maybe we

1356  
01:00:57,190 --> 01:00:55,160  
won't I don't know is who has we know by

1357  
01:00:59,140 --> 01:00:57,200  
researching that this whole black and

1358  
01:01:01,890 --> 01:00:59,150  
white kind of

1359  
01:01:04,029 --> 01:01:01,900  
and it's what the PR departments of the

1360  
01:01:06,279 --> 01:01:04,039  
entire Department of Defense has said

1361  
01:01:08,109 --> 01:01:06,289  
that you know we haven't taken this

1362  
01:01:10,269 --> 01:01:08,119  
seriously because we discovered there is

1363  
01:01:11,769 --> 01:01:10,279

no reason to take UFO seriously of

1364

01:01:13,329 --> 01:01:11,779

course we know through official

1365

01:01:16,779 --> 01:01:13,339

documents that they certainly have taken

1366

01:01:20,440 --> 01:01:16,789

many account seriously in the last few

1367

01:01:21,789 --> 01:01:20,450

decades so the military has not been

1368

01:01:24,160 --> 01:01:21,799

black-and-white there have been people

1369

01:01:26,650 --> 01:01:24,170

inside who have taken this seriously but

1370

01:01:28,630 --> 01:01:26,660

who and was it recorded and did they

1371

01:01:30,609 --> 01:01:28,640

work on it those are the questions we

1372

01:01:32,319 --> 01:01:30,619

don't know for sure they you know people

1373

01:01:33,430 --> 01:01:32,329

like Alexander have told us and we have

1374

01:01:35,140 --> 01:01:33,440

seen this ourselves

1375

01:01:36,729 --> 01:01:35,150

that a lot of the times they just shove

1376

01:01:38,739 --> 01:01:36,739

this under the rug because they don't

1377

01:01:41,709 --> 01:01:38,749

want to deal with it has it all been

1378

01:01:43,440 --> 01:01:41,719

like that or Paul Dean has done some

1379

01:01:46,390 --> 01:01:43,450

work to discover these kind of

1380

01:01:48,609 --> 01:01:46,400

departments out there that change their

1381

01:01:49,870 --> 01:01:48,619

name and are very elusive and difficult

1382

01:01:51,759 --> 01:01:49,880

to find that are collecting this

1383

01:01:53,769 --> 01:01:51,769

information and taking it seriously how

1384

01:01:55,959 --> 01:01:53,779

seriously have they taken it how much

1385

01:01:57,670 --> 01:01:55,969

research have they done you know those

1386

01:02:01,569 --> 01:01:57,680

are some of the interesting questions I

1387

01:02:04,599 --> 01:02:01,579

hope we get answers to yes and how about

1388

01:02:07,299 --> 01:02:04,609

this just a quick thought why the

1389

01:02:09,459 --> 01:02:07,309

deafening silence from the Air Force and

1390

01:02:11,739 --> 01:02:09,469

it's coming through the Navy now that

1391

01:02:14,380 --> 01:02:11,749

weirds me out that's a great point you

1392

01:02:15,940 --> 01:02:14,390

and you know these departments it was

1393

01:02:18,880 --> 01:02:15,950

really interesting to see the Navy

1394

01:02:21,640 --> 01:02:18,890

mention the Air Force in their UFO

1395

01:02:23,410 --> 01:02:21,650

procedures because these groups as many

1396

01:02:24,819 --> 01:02:23,420

of you know and it whether you're in the

1397

01:02:26,319 --> 01:02:24,829

military or not they don't get along

1398

01:02:28,870 --> 01:02:26,329

that great they don't share information

1399

01:02:30,459 --> 01:02:28,880

they're very adversarial sometimes for

1400

01:02:33,819 --> 01:02:30,469

fun but sometimes they're pretty serious

1401

01:02:37,269 --> 01:02:33,829

about it so was the Navy prompting the

1402

01:02:39,640 --> 01:02:37,279

Air Force by doing that and if so it

1403

01:02:42,009 --> 01:02:39,650

seems like that was unsuccessful because

1404

01:02:44,499 --> 01:02:42,019

we've still like you said got this what

1405

01:02:48,130 --> 01:02:44,509

we feel is this deafening silence yeah

1406

01:02:49,900 --> 01:02:48,140

yeah I agree I think the Air Force

1407

01:02:55,809 --> 01:02:49,910

probably still has a bad taste it's

1408

01:02:57,999 --> 01:02:55,819

found from Project Blue Book they're

1409

01:03:03,640 --> 01:02:58,009

faced with things like Roswell in the

1410

01:03:06,130 --> 01:03:03,650

way it was gas yeah exactly it's that's

1411

01:03:07,930 --> 01:03:06,140

you know probably a pride issue and and

1412

01:03:10,089 --> 01:03:07,940

then they don't want to look stupid and

1413

01:03:12,849 --> 01:03:10,099

they had somebody you have to walk back

1414

01:03:14,410 --> 01:03:12,859

the Robertson Report now you know though

1415

01:03:16,390 --> 01:03:14,420

Robertson panel where you know we'll

1416

01:03:18,609 --> 01:03:16,400

deal with this with ridicule and the

1417

01:03:20,410 --> 01:03:18,619

media and now they have to walk it back

1418

01:03:24,120 --> 01:03:20,420

and that doesn't make them look very

1419

01:03:26,859 --> 01:03:24,130

good you know it doesn't look there

1420

01:03:29,499 --> 01:03:26,869

eventually they can you know obviously

1421

01:03:31,809 --> 01:03:29,509

the Air Force and the Marine Corps and

1422

01:03:34,180 --> 01:03:31,819

the Navy and even the army you know I

1423

01:03:37,299 --> 01:03:34,190

mean the Army's got military bases and

1424

01:03:39,430 --> 01:03:37,309

they ought to be but if I told this to

1425

01:03:41,559 --> 01:03:39,440

Lou I said I would be really hopeful

1426

01:03:43,960 --> 01:03:41,569

that at some point down the road that

1427

01:03:46,749 --> 01:03:43,970

there is a government-wide

1428

01:03:48,880 --> 01:03:46,759

look at not just those branches of

1429

01:03:51,940 --> 01:03:48,890

service but what about the faa and

1430

01:03:54,309 --> 01:03:51,950

feeding that in and and and looking at

1431

01:03:57,430 --> 01:03:54,319

that what pilots report commercial

1432

01:04:00,130 --> 01:03:57,440

pilots and and you know what what a

1433

01:04:02,440 --> 01:04:00,140

tasty aren't those threats I mean you

1434

01:04:05,259 --> 01:04:02,450

know look at what Richard Haines did

1435

01:04:07,809 --> 01:04:05,269

with yes Nora pointing out the fact that

1436

01:04:09,309 --> 01:04:07,819

these are safety hazards and then you

1437

01:04:11,259 --> 01:04:09,319

know god bless him for all of his work

1438

01:04:13,809 --> 01:04:11,269

that he did before he retired I mean but

1439

01:04:16,660 --> 01:04:13,819

that's that's a threat as well I mean

1440

01:04:20,620 --> 01:04:16,670

that's over our sovereign airspace and

1441

01:04:22,599 --> 01:04:20,630

so I'm hoping that eventually if it's at

1442

01:04:25,269 --> 01:04:22,609

the Senate level that they can convince

1443

01:04:27,039 --> 01:04:25,279

some of those things to happen for the

1444

01:04:29,109 --> 01:04:27,049

other branches to come together as well

1445

01:04:31,569 --> 01:04:29,119

well what you mentioned with the

1446

01:04:33,220 --> 01:04:31,579

Robinson panel and that's what's really

1447

01:04:34,779 --> 01:04:33,230

significant especially about the Navy

1448

01:04:36,729 --> 01:04:34,789

involvement and there's a couple aspects

1449

01:04:39,039 --> 01:04:36,739

to that we touched on this earlier but

1450

01:04:40,509 --> 01:04:39,049

really essentially what they discovered

1451

01:04:42,989 --> 01:04:40,519

and what they determined in the Robinson

1452

01:04:45,430 --> 01:04:42,999

panel is what they've done and you know

1453

01:04:47,319 --> 01:04:45,440

we can't necessarily fault them for

1454

01:04:49,239 --> 01:04:47,329

deciding how are we gonna deal with this

1455

01:04:50,410 --> 01:04:49,249

what's the best way for us to deal with

1456

01:04:52,660 --> 01:04:50,420

this and they thought well it'd probably

1457

01:04:54,309 --> 01:04:52,670

be easier for us just to kind of poopoo

1458

01:04:56,890 --> 01:04:54,319

it and not pay attention or like Nick

1459

01:04:59,019 --> 01:04:56,900

Pope says he even participated when he

1460

01:05:02,229 --> 01:04:59,029

worked in the mo D and spin and dirty

1461

01:05:03,999 --> 01:05:02,239

tricks just trying to people to just

1462

01:05:06,130 --> 01:05:04,009

don't pay attention to this because it

1463

01:05:09,819 --> 01:05:06,140

could create too many headaches for them

1464

01:05:13,150 --> 01:05:09,829

the Navy is explicitly now changing to

1465

01:05:15,430 --> 01:05:13,160

go against that policy they are now

1466

01:05:17,979 --> 01:05:15,440

being cooperative and they're the only

1467

01:05:21,069 --> 01:05:17,989

real group because Lou did this on his

1468

01:05:22,960 --> 01:05:21,079

own by all appearances they're the only

1469

01:05:24,309 --> 01:05:22,970

ones to say okay we're gonna step in

1470

01:05:26,270 --> 01:05:24,319

front of this and we're gonna be

1471

01:05:29,090 --> 01:05:26,280

proactive about being

1472

01:05:31,040 --> 01:05:29,100

positive about this and that that is

1473

01:05:32,690 --> 01:05:31,050

very significant it seems like they

1474

01:05:36,290 --> 01:05:32,700

prompted the airforce to do the same

1475

01:05:37,970 --> 01:05:36,300

they didn't the DoD has obviously at

1476

01:05:41,900 --> 01:05:37,980

least the the Public Affairs Department

1477

01:05:45,950 --> 01:05:41,910

has been adversarial towards Lou coming

1478

01:05:47,780 --> 01:05:45,960

forward they have essentially given

1479

01:05:49,820 --> 01:05:47,790

wrong information where you used to this

1480

01:05:51,080 --> 01:05:49,830

you know often in UFO cases they give

1481

01:05:52,790 --> 01:05:51,090

wrong information then they have to

1482

01:05:54,680 --> 01:05:52,800

correct themselves and they've had to do

1483

01:05:56,360 --> 01:05:54,690

that over and over in this case when

1484

01:05:57,890 --> 01:05:56,370

they've said you know countered

1485

01:05:59,480 --> 01:05:57,900

something that Lou had said and then it

1486

01:06:01,400 --> 01:05:59,490

turns out Lou was right all along

1487

01:06:03,650 --> 01:06:01,410

and they have to correct themselves so

1488

01:06:06,560 --> 01:06:03,660

they have not come on board with this

1489

01:06:08,930 --> 01:06:06,570

whole Navy you know new arena of being

1490

01:06:10,850 --> 01:06:08,940

more proactive about UFOs so the Navy

1491

01:06:12,920 --> 01:06:10,860

standing out on their own and somebody

1492

01:06:15,470 --> 01:06:12,930

mentioned you know at least I think one

1493

01:06:17,390 --> 01:06:15,480

of these pilots is active you have to

1494

01:06:19,760 --> 01:06:17,400

get permission if you're an active pilot

1495

01:06:22,880 --> 01:06:19,770

to talk so they got permission from the

1496

01:06:25,430 --> 01:06:22,890

Navy to participate in this television

1497

01:06:27,950 --> 01:06:25,440

show so the Navy is proactively working

1498

01:06:30,350 --> 01:06:27,960

with to the stars some people see a

1499

01:06:32,150 --> 01:06:30,360

conspiracy there I don't here's what I

1500

01:06:35,060 --> 01:06:32,160

see in and I would love to hear what you

1501

01:06:38,750 --> 01:06:35,070

all feel I see Chris Mellon who is a

1502

01:06:41,930 --> 01:06:38,760

very very high-level official let alone

1503

01:06:43,190 --> 01:06:41,940

his family dynasty he's a very important

1504

01:06:46,310 --> 01:06:43,200

person along the lines of you know

1505

01:06:48,140 --> 01:06:46,320

rockefeller then you have Elizondo you

1506

01:06:49,970 --> 01:06:48,150

have Steve justice who of course worked

1507

01:06:51,890 --> 01:06:49,980

for Lockheed Martin skunk works which is

1508

01:06:54,230 --> 01:06:51,900

also influential I think you have a

1509

01:06:57,080 --> 01:06:54,240

group of credible guys who are getting

1510

01:06:59,480 --> 01:06:57,090

in there and then the people who are

1511

01:07:01,340 --> 01:06:59,490

also into this topic or I believe that

1512

01:07:03,020 --> 01:07:01,350

there should be more shared are finally

1513

01:07:05,180 --> 01:07:03,030

like look we've got some advocates from

1514

01:07:07,010 --> 01:07:05,190

the outside now this is our chance to

1515

01:07:09,230 --> 01:07:07,020

really start to get some movement here

1516

01:07:11,150 --> 01:07:09,240

and I think it's really kind of inspired

1517

01:07:12,860 --> 01:07:11,160

almost like a grassroots more of an

1518

01:07:13,760 --> 01:07:12,870

effort than a top-down type of thing

1519

01:07:17,390 --> 01:07:13,770

mm-hmm

1520

01:07:20,450 --> 01:07:17,400

then you can kind of see why Tom DeLonge

1521

01:07:23,510 --> 01:07:20,460

is involved in you know he he provided

1522

01:07:26,330 --> 01:07:23,520

an outlet monetarily you know mainly

1523

01:07:29,780 --> 01:07:26,340

monetarily but he is a person like they

1524

01:07:31,760 --> 01:07:29,790

they I saw George not make a comment

1525

01:07:34,550 --> 01:07:31,770

that Tom DeLonge just you know he used

1526

01:07:37,580 --> 01:07:34,560

shoe leather knocked on doors made phone

1527

01:07:40,299 --> 01:07:37,590

calls and emails you know to make this

1528

01:07:43,940 --> 01:07:40,309

happen in and so maybe he was

1529

01:07:45,980 --> 01:07:43,950

this this thought among many in the in

1530

01:07:49,700 --> 01:07:45,990

the government that this stuff should be

1531

01:07:51,650 --> 01:07:49,710

out there just like John Podesta and Tom

1532

01:07:54,950 --> 01:07:51,660

came along at the right time he he had

1533

01:07:57,910 --> 01:07:54,960

money and and you know he had good

1534

01:08:02,150 --> 01:07:57,920

knowledge and this was a way to you know

1535

01:08:05,510 --> 01:08:02,160

start making this happen protects the

1536

01:08:08,270 --> 01:08:05,520

the government and you know is gonna be

1537

01:08:10,819 --> 01:08:08,280

credible let me interject here and

1538

01:08:12,770 --> 01:08:10,829

change right now so it's it's a

1539

01:08:15,200 --> 01:08:12,780

situation where like you know like as

1540

01:08:17,959 --> 01:08:15,210

you just pointed out yeah Chris Mellon

1541

01:08:21,439 --> 01:08:17,969

who's like convinced you have low who's

1542

01:08:25,039 --> 01:08:21,449

convinced you have John you know Reid

1543

01:08:28,070 --> 01:08:25,049

and three senators and a mid John Glenn

1544

01:08:29,840 --> 01:08:28,080

and you had so you know you always hear

1545

01:08:32,780 --> 01:08:29,850

these like stories about like well the

1546

01:08:36,140 --> 01:08:32,790

says this you know or the government

1547

01:08:38,539 --> 01:08:36,150

says that and yeah it's composed of

1548

01:08:40,999 --> 01:08:38,549

people who don't share the same view you

1549

01:08:44,539 --> 01:08:41,009

know and and so you have to realise that

1550

01:08:47,090 --> 01:08:44,549

it's a big behemoth and often time I

1551

01:08:48,919 --> 01:08:47,100

mean I can talk a lot of the people I

1552

01:08:50,120 --> 01:08:48,929

were at work you know and they're

1553

01:08:51,769 --> 01:08:50,130

they're convinced that there's something

1554

01:08:55,039 --> 01:08:51,779

to it and you know and all this other

1555

01:08:56,209 --> 01:08:55,049

stuff but you don't do it so I I get a

1556

01:08:58,039 --> 01:08:56,219

kick out of these things while the

1557

01:08:59,749 --> 01:08:58,049

government says this it doesn't believe

1558

01:09:03,439 --> 01:08:59,759

this it doesn't do and I'm gonna like

1559

01:09:05,900 --> 01:09:03,449

that's not true yeah yeah you know it

1560

01:09:07,430 --> 01:09:05,910

doesn't reflect everybody's views in the

1561

01:09:09,410 --> 01:09:07,440

surface and many of them are quite

1562

01:09:11,749 --> 01:09:09,420

interested in this subject but guess

1563

01:09:13,990 --> 01:09:11,759

what you know it's it's risky for them

1564

01:09:17,450 --> 01:09:14,000

to even talk about it because of the

1565

01:09:20,030 --> 01:09:17,460

humiliation factor or it might have you

1566

01:09:22,309 --> 01:09:20,040

know negative repercussions for for them

1567

01:09:24,650 --> 01:09:22,319

you know from their career standpoint or

1568

01:09:27,680 --> 01:09:24,660

something so they don't talk about it

1569

01:09:28,249 --> 01:09:27,690

you know yeah yeah the taboo extends to

1570

01:09:31,610 --> 01:09:28,259

everybody

1571

01:09:34,130 --> 01:09:31,620

yeah and with its that stigma that's out

1572

01:09:37,579 --> 01:09:34,140

there that it's associated with it and

1573

01:09:38,809 --> 01:09:37,589

and it's just it's so prevalent that you

1574

01:09:40,999 --> 01:09:38,819

just you know you can't even hardly

1575

01:09:43,160 --> 01:09:41,009

bring it up but I'm glad to see that it

1576

01:09:44,479 --> 01:09:43,170

is being brought up and that's now

1577

01:09:46,519 --> 01:09:44,489

leading to a lot of hallway

1578

01:09:48,860 --> 01:09:46,529

conversations that I normally didn't

1579

01:09:50,390 --> 01:09:48,870

have and it's swinging through a lot of

1580

01:09:51,370 --> 01:09:50,400

people that are now saying well yeah I

1581

01:09:54,340 --> 01:09:51,380

don't I don't

1582

01:09:55,720 --> 01:09:54,350

and again it goes back to the time you

1583

01:09:57,190 --> 01:09:55,730

had that credibility from now the

1584

01:09:59,200 --> 01:09:57,200

government saying that they were doing

1585

01:10:04,420 --> 01:09:59,210

something about it where before they

1586

01:10:07,390 --> 01:10:04,430

didn't we I felt personally when blood

1587

01:10:09,250 --> 01:10:07,400

blue book closed that my legs were cut

1588

01:10:11,170 --> 01:10:09,260

out from underneath because as I thought

1589

01:10:13,870 --> 01:10:11,180

well you know now it's suddenly like

1590

01:10:17,020 --> 01:10:13,880

it's well it's all a big joke it's

1591

01:10:18,700 --> 01:10:17,030

nothing you know so now it's something

1592

01:10:20,920 --> 01:10:18,710

because guess what the government was

1593

01:10:23,080 --> 01:10:20,930

investigating it and there is something

1594

01:10:24,580 --> 01:10:23,090

to it and there's pilots that are coming

1595

01:10:29,440 --> 01:10:24,590

out and now you're going up and saying

1596

01:10:31,630 --> 01:10:29,450

you see what I told you I mean dollar

1597

01:10:33,910 --> 01:10:31,640

long is just take it serious don't you

1598

01:10:36,970 --> 01:10:33,920

know let's have a conversation we don't

1599

01:10:39,370 --> 01:10:36,980

not saying it has to be you know X or Y

1600

01:10:40,780 --> 01:10:39,380

but study it discuss it because it's

1601  
01:10:43,110 --> 01:10:40,790  
real there's something going on and

1602  
01:10:46,510 --> 01:10:43,120  
there's nothing more frustrating to see

1603  
01:10:49,210 --> 01:10:46,520  
something on that scale ignored you know

1604  
01:10:52,090 --> 01:10:49,220  
and and what is what's what's it gonna

1605  
01:10:54,910 --> 01:10:52,100  
hurt you know to to engage in study and

1606  
01:10:57,130 --> 01:10:54,920  
I mean is just is you know hard to

1607  
01:10:59,890 --> 01:10:57,140  
conceive but you know it's that's it's

1608  
01:11:02,950 --> 01:10:59,900  
our history right seventy years of it so

1609  
01:11:06,400 --> 01:11:02,960  
I feel like a lot of people are

1610  
01:11:09,010 --> 01:11:06,410  
gathering around what the to the stars

1611  
01:11:11,530 --> 01:11:09,020  
guys are doing that I've never really

1612  
01:11:13,960 --> 01:11:11,540  
seen before you know people as you guys

1613  
01:11:15,460 --> 01:11:13,970

know ufology can be quite a snake pit

1614

01:11:18,220 --> 01:11:15,470

and everybody is out for their own

1615

01:11:20,020 --> 01:11:18,230

little group this little group in that

1616

01:11:21,700 --> 01:11:20,030

little group but it seems like

1617

01:11:23,440 --> 01:11:21,710

everybody's kind of gathering around the

1618

01:11:27,370 --> 01:11:23,450

campfire here and there's sort of a

1619

01:11:29,470 --> 01:11:27,380

coalescence of attitude amongst people

1620

01:11:31,330 --> 01:11:29,480

that perhaps this is our bright and

1621

01:11:35,080 --> 01:11:31,340

shining moment where we can actually get

1622

01:11:38,680 --> 01:11:35,090

this out and into the general you know

1623

01:11:41,800 --> 01:11:38,690

public and and how what a good idea to

1624

01:11:43,510 --> 01:11:41,810

use TV to you to do this because you

1625

01:11:45,700 --> 01:11:43,520

know people don't really read anymore

1626  
01:11:49,480 --> 01:11:45,710  
like they did unfortunately you know cuz

1627  
01:11:51,220 --> 01:11:49,490  
I'm a heavy reader people don't trust

1628  
01:11:53,050 --> 01:11:51,230  
the news services because of the

1629  
01:11:54,640 --> 01:11:53,060  
partisanship involved with the news

1630  
01:11:57,810 --> 01:11:54,650  
services you know everybody thinks

1631  
01:12:00,340 --> 01:11:57,820  
everybody else is you know fake news now

1632  
01:12:02,680 --> 01:12:00,350  
how do you get this out to the public

1633  
01:12:05,340 --> 01:12:02,690  
and I've heard a lot of a lot of

1634  
01:12:09,030 --> 01:12:05,350  
negative you know naysayers out

1635  
01:12:11,970 --> 01:12:09,040  
just in individuals whose whose

1636  
01:12:14,310 --> 01:12:11,980  
complaint is as oh it's a TV show it's a

1637  
01:12:16,830 --> 01:12:14,320  
moneymaker it's like no you know we're

1638  
01:12:19,260 --> 01:12:16,840

talking Harry Reid John Podesta all

1639

01:12:21,810 --> 01:12:19,270

these big guys that really don't need

1640

01:12:25,620 --> 01:12:21,820

you know a cash cow right now they're

1641

01:12:27,780 --> 01:12:25,630

pretty much set and but you know

1642

01:12:29,790 --> 01:12:27,790

television is a great medium to get this

1643

01:12:31,860 --> 01:12:29,800

through it's nonpartisan it's not

1644

01:12:34,170 --> 01:12:31,870

politicized in any way shape or form

1645

01:12:35,880 --> 01:12:34,180

like it would be if if the president

1646

01:12:40,620 --> 01:12:35,890

came out and announced that we weren't

1647

01:12:42,570 --> 01:12:40,630

alone to myself you know I can't see any

1648

01:12:46,200 --> 01:12:42,580

better way for them to have done this

1649

01:12:48,450 --> 01:12:46,210

then with with you know America's

1650

01:12:51,480 --> 01:12:48,460

favorite pastime which is watching

1651  
01:12:53,970 --> 01:12:51,490  
television easily baseball yes and one

1652  
01:12:58,260 --> 01:12:53,980  
that one thing that or one thing that I

1653  
01:13:00,660 --> 01:12:58,270  
like about the show is it's given enough

1654  
01:13:04,800 --> 01:13:00,670  
but there's still plenty left over for

1655  
01:13:07,710 --> 01:13:04,810  
us to chew over yeah absolutely yeah it

1656  
01:13:10,320 --> 01:13:07,720  
feels like a setup this episode is set

1657  
01:13:12,810 --> 01:13:10,330  
up from for others to come you know it

1658  
01:13:16,560 --> 01:13:12,820  
gave us enough but you know your

1659  
01:13:18,930 --> 01:13:16,570  
appetite is wet for more yeah UFOs for

1660  
01:13:22,010 --> 01:13:18,940  
everybody we don't have to fight with

1661  
01:13:24,510 --> 01:13:22,020  
each other there's no lack of good UFO

1662  
01:13:26,580 --> 01:13:24,520  
sightings that's for sure yeah I

1663  
01:13:29,130 --> 01:13:26,590

definitely feel that the show exceeded

1664

01:13:32,820 --> 01:13:29,140

expectations and again now there were no

1665

01:13:35,250 --> 01:13:32,830

great revelations per se but still the

1666

01:13:38,580 --> 01:13:35,260

presentation did provide some surprises

1667

01:13:40,770 --> 01:13:38,590

I thought it covered a lot of really

1668

01:13:43,740 --> 01:13:40,780

interesting points a hammered home that

1669

01:13:47,130 --> 01:13:43,750

cap point the issue which i think is key

1670

01:13:49,380 --> 01:13:47,140

had the lady pilot I had a lot of good

1671

01:13:51,360 --> 01:13:49,390

stuff in there that's that even the most

1672

01:13:54,150 --> 01:13:51,370

the the geekiest among us should have

1673

01:13:58,800 --> 01:13:54,160

been pretty pleased with yes totally

1674

01:14:02,280 --> 01:13:58,810

agree so we're giving this show like a

1675

01:14:04,050 --> 01:14:02,290

a-plus yeah pretty much yeah yeah I mean

1676

01:14:05,940 --> 01:14:04,060

they might have been some stylistic

1677

01:14:08,460 --> 01:14:05,950

things that died well you know they

1678

01:14:09,780 --> 01:14:08,470

didn't really need to play the the music

1679

01:14:11,940 --> 01:14:09,790

in the background during some of the

1680

01:14:14,430 --> 01:14:11,950

interviews that they did maybe that was

1681

01:14:16,380 --> 01:14:14,440

a little bit overwrought but yeah I mean

1682

01:14:18,780 --> 01:14:16,390

by and large yeah I really those are

1683

01:14:20,340 --> 01:14:18,790

those are small points really

1684

01:14:22,440 --> 01:14:20,350

yeah they weren't going for

1685

01:14:25,500 --> 01:14:22,450

sensationalistic I mean that that's

1686

01:14:27,450 --> 01:14:25,510

clear right it was not a you know no

1687

01:14:29,070 --> 01:14:27,460

offense but wasn't ancient aliens you

1688

01:14:31,890 --> 01:14:29,080

know they these guys were being you know

1689

01:14:34,050 --> 01:14:31,900

straightforward and factual and and you

1690

01:14:38,430 --> 01:14:34,060

know laying out a laying out a court

1691

01:14:41,790 --> 01:14:38,440

case in a way yeah we'll have to be

1692

01:14:43,410 --> 01:14:41,800

careful with is the marketing and they

1693

01:14:45,180 --> 01:14:43,420

didn't do a lot of marketing for the

1694

01:14:47,760 --> 01:14:45,190

show I don't know if they were

1695

01:14:49,950 --> 01:14:47,770

predicting that at this media storm

1696

01:14:52,980 --> 01:14:49,960

would happen around the show I kind of

1697

01:14:54,750 --> 01:14:52,990

feel personally with my experience that

1698

01:14:56,220 --> 01:14:54,760

I don't know that they would have bet on

1699

01:14:58,320 --> 01:14:56,230

that I don't know that they were but

1700

01:15:00,150 --> 01:14:58,330

that did for tchen Utley for them the

1701

01:15:03,900 --> 01:15:00,160

meteor storm did happen and it did work

1702

01:15:06,780 --> 01:15:03,910

for them well but you know the marketing

1703

01:15:09,300 --> 01:15:06,790

department is completely separate from

1704

01:15:10,710 --> 01:15:09,310

the production group so for instance we

1705

01:15:13,050 --> 01:15:10,720

saw this when they put out that one

1706

01:15:15,480 --> 01:15:13,060

marketing image and they played with the

1707

01:15:18,330 --> 01:15:15,490

image in the flare video to look more

1708

01:15:20,790 --> 01:15:18,340

like your traditional UFO that of course

1709

01:15:22,830 --> 01:15:20,800

makes us uncomfortable as researchers

1710

01:15:24,000 --> 01:15:22,840

we're gonna see more of that the more

1711

01:15:25,920 --> 01:15:24,010

marketing because the marketing

1712

01:15:27,810 --> 01:15:25,930

department is the same marketing

1713

01:15:31,350 --> 01:15:27,820

department that's marketing ancient

1714

01:15:32,810 --> 01:15:31,360

aliens and project Bluebook even saw

1715

01:15:34,680 --> 01:15:32,820

this happen with an already

1716

01:15:36,450 --> 01:15:34,690

sensationalized show project Bluebook

1717

01:15:38,490 --> 01:15:36,460

where they made it even more wild with

1718

01:15:41,670 --> 01:15:38,500

like kind of implying that connect was

1719

01:15:44,190 --> 01:15:41,680

going to run into an alien so we're

1720

01:15:47,040 --> 01:15:44,200

gonna see when marketing department gets

1721

01:15:51,930 --> 01:15:47,050

their hands on it that's the that PTSA

1722

01:15:54,540 --> 01:15:51,940

is gonna have less ability to meter what

1723

01:15:57,180 --> 01:15:54,550

they do you're sure about that alejandro

1724

01:15:59,550 --> 01:15:57,190

because positive no okay okay absolutely

1725

01:16:00,930 --> 01:15:59,560

100% positive and here's why we got to

1726

01:16:03,480 --> 01:16:00,940

remember these are all disparate

1727

01:16:04,860 --> 01:16:03,490

organizations when you have a television

1728

01:16:06,660 --> 01:16:04,870

show you have different production

1729

01:16:09,090 --> 01:16:06,670

companies that are involved in this case

1730

01:16:11,730 --> 01:16:09,100

we have the producers like Anthony lap

1731

01:16:13,890 --> 01:16:11,740

are lepay who some of us have got to

1732

01:16:15,390 --> 01:16:13,900

interview seems like a great guy an

1733

01:16:16,290 --> 01:16:15,400

investigative journalist he wants to

1734

01:16:18,900 --> 01:16:16,300

stick to the facts

1735

01:16:21,270 --> 01:16:18,910

you also have Tom DeLonge who's an

1736

01:16:23,580 --> 01:16:21,280

executive producer but then you have the

1737

01:16:26,310 --> 01:16:23,590

History Channel History Channel is not

1738

01:16:28,050 --> 01:16:26,320

going to be as careful because they

1739

01:16:30,090 --> 01:16:28,060

don't understand the nuances and plus

1740

01:16:32,340 --> 01:16:30,100

their ideas they want eyeballs they

1741

01:16:32,640 --> 01:16:32,350

don't necessarily care so much about the

1742

01:16:36,600 --> 01:16:32,650

facts

1743

01:16:39,060 --> 01:16:36,610

as we do and then the the marketing

1744

01:16:41,580 --> 01:16:39,070

department is completely separate this

1745

01:16:43,740 --> 01:16:41,590

is a group of people that are in a

1746

01:16:47,460 --> 01:16:43,750

different part of the country who have

1747

01:16:50,070 --> 01:16:47,470

very little conversation with the people

1748

01:16:51,990 --> 01:16:50,080

who are producing the show and I hope

1749

01:16:53,940 --> 01:16:52,000

they do this and I guess we should

1750

01:16:55,950 --> 01:16:53,950

encourage it but it's really difficult

1751

01:16:57,930 --> 01:16:55,960

for even Tom DeLonge to get in there and

1752

01:17:00,000 --> 01:16:57,940

say hey guys I mean he's gonna probably

1753

01:17:02,040 --> 01:17:00,010

have to give him an ultimatum and say if

1754

01:17:03,540 --> 01:17:02,050

you guys don't market us this right

1755

01:17:05,250 --> 01:17:03,550

we're gonna have to walk I mean you got

1756

01:17:07,290 --> 01:17:05,260

to be really strong with these guys get

1757

01:17:08,760 --> 01:17:07,300

it on paper because they have to

1758

01:17:10,860 --> 01:17:08,770

understand because it's going to take an

1759

01:17:14,490 --> 01:17:10,870

effort on their part to not do their

1760

01:17:16,050 --> 01:17:14,500

normal processes overseas yeah that was

1761

01:17:19,860 --> 01:17:16,060

the reason why I kind of pressed you on

1762

01:17:22,590 --> 01:17:19,870

the point sort of comparing apples to

1763

01:17:26,040 --> 01:17:22,600

oranges but stanley kubrick the director

1764

01:17:28,020 --> 01:17:26,050

famously had you know control over the

1765

01:17:30,800 --> 01:17:28,030

marketing of his films it may be a

1766

01:17:34,260 --> 01:17:30,810

little irony there but sometimes

1767

01:17:38,010 --> 01:17:34,270

creating who had that he did yeah yeah

1768

01:17:40,020 --> 01:17:38,020

right but I didn't yeah he did get it

1769

01:17:41,970 --> 01:17:40,030

you've got to go you got a first of all

1770

01:17:43,740 --> 01:17:41,980

you got to have a leverage some leverage

1771

01:17:45,480 --> 01:17:43,750

so you can't it can't be your first

1772

01:17:47,160 --> 01:17:45,490

couple of movies you got to do some hit

1773

01:17:49,950 --> 01:17:47,170

movies and then you have that sort of

1774

01:17:52,770 --> 01:17:49,960

leverage because sometimes filmmakers do

1775

01:17:56,640 --> 01:17:52,780

do that but it's really difficult to do

1776

01:17:59,850 --> 01:17:56,650

even for the big guys a shout out to

1777

01:18:02,490 --> 01:17:59,860

Dave Beatty for you know basically after

1778

01:18:07,440 --> 01:18:02,500

one a week he's had over a million views

1779

01:18:11,430 --> 01:18:07,450

of his Nimet encounters yes I'll be you

1780

01:18:14,850 --> 01:18:11,440

know I pretty much like what Dave did

1781

01:18:18,840 --> 01:18:14,860

over what if we saw in the show me too

1782

01:18:21,900 --> 01:18:18,850

yeah Dave did a hell of a job putting

1783

01:18:24,210 --> 01:18:21,910

together that that and being accurate to

1784

01:18:27,840 --> 01:18:24,220

the nth degree about everything that he

1785

01:18:30,240 --> 01:18:27,850

did and you know I mean I just want to

1786

01:18:32,670 --> 01:18:30,250

give a shout out yeah definitely and I

1787

01:18:34,620 --> 01:18:32,680

want to bring something up to rich if

1788

01:18:37,020 --> 01:18:34,630

you don't mind what I'd like to mention

1789

01:18:39,240 --> 01:18:37,030

is when I watch the first version I

1790

01:18:40,500 --> 01:18:39,250

watched it on the on my big-screen TV

1791

01:18:43,560 --> 01:18:40,510

and

1792

01:18:47,130 --> 01:18:43,570

maybe within a week after I happened to

1793

01:18:49,890 --> 01:18:47,140

see the film Dunkirk by Christopher

1794

01:18:53,190 --> 01:18:49,900

Nolan which also included some CGI

1795

01:18:55,290 --> 01:18:53,200

aerial scenes and I gotta tell you it

1796

01:18:57,840 --> 01:18:55,300

matched up I mean it wasn't better or

1797

01:19:00,300 --> 01:18:57,850

wasn't where he was very comparable to

1798

01:19:02,190 --> 01:19:00,310

what Nolan had done with his you know a

1799

01:19:04,350 --> 01:19:02,200

hundred million dollar Hollywood

1800

01:19:05,670 --> 01:19:04,360

production I was very impressed now I

1801

01:19:07,710 --> 01:19:05,680

know a little bit about the tools that

1802

01:19:10,650 --> 01:19:07,720

Dave works with he he did those aerial

1803

01:19:15,590 --> 01:19:10,660

scenes with something called cinema 4d

1804

01:19:19,080 --> 01:19:15,600

which is a really fine CGI program and

1805

01:19:21,630 --> 01:19:19,090

he did a fantastic job and another thing

1806

01:19:23,310 --> 01:19:21,640

I want to mention is the fact that two

1807

01:19:26,130 --> 01:19:23,320

things are very very difficult to get

1808

01:19:28,680 --> 01:19:26,140

right in CGI one of them is water and

1809

01:19:30,660 --> 01:19:28,690

the other is essentially the the

1810

01:19:32,970 --> 01:19:30,670

contrails from the Jets which are

1811

01:19:36,120 --> 01:19:32,980

basically particle effects in that 3d

1812

01:19:38,430 --> 01:19:36,130

CGI and he did a nice job on both of

1813

01:19:40,080 --> 01:19:38,440

those so you know just for my technical

1814

01:19:42,450 --> 01:19:40,090

end and knowing a little bit about the

1815

01:19:45,540 --> 01:19:42,460

the 3d animation that he included in

1816

01:19:46,950 --> 01:19:45,550

there it was yeah and that to be honest

1817

01:19:48,680 --> 01:19:46,960

whether you would did outstrip the work

1818

01:19:51,210 --> 01:19:48,690

that they did with the unidentified

1819

01:19:54,810 --> 01:19:51,220

program I don't know if you folks notice

1820

01:19:57,360 --> 01:19:54,820

but what they did was they sort of D

1821

01:20:00,780 --> 01:19:57,370

saturated the colors when they cut to

1822

01:20:03,240 --> 01:20:00,790

the CGI that they used the 3d CGI that

1823

01:20:05,610 --> 01:20:03,250

they used and usually the reason for

1824

01:20:07,380 --> 01:20:05,620

that is the illusion doesn't hold up if

1825

01:20:09,690 --> 01:20:07,390

you've got more color information in the

1826  
01:20:11,490 --> 01:20:09,700  
scene so they likely did that because it

1827  
01:20:12,810 --> 01:20:11,500  
just didn't look that good that's why

1828  
01:20:14,850 --> 01:20:12,820  
they had to go ahead and do that that's

1829  
01:20:16,770 --> 01:20:14,860  
my guess I don't know that but that

1830  
01:20:18,720 --> 01:20:16,780  
would be my guess as to why they did

1831  
01:20:21,810 --> 01:20:18,730  
that and that really speaks volumes to

1832  
01:20:25,770 --> 01:20:21,820  
Dave's work as far as the the 3d

1833  
01:20:28,800 --> 01:20:25,780  
animation that he did here a lot of

1834  
01:20:30,360 --> 01:20:28,810  
people saying that they liked babies 3d

1835  
01:20:33,450 --> 01:20:30,370  
animations better than the television

1836  
01:20:35,930 --> 01:20:33,460  
was yes it was better let's not kid

1837  
01:20:38,880 --> 01:20:35,940  
ourselves like I said I watched both his

1838  
01:20:41,190 --> 01:20:38,890

document the first version on the same

1839

01:20:42,780 --> 01:20:41,200

TV that I watched dunkirk on and I'm

1840

01:20:45,990 --> 01:20:42,790

telling you it matches up very very

1841

01:20:47,460 --> 01:20:46,000

nicely it does it's comfortable I think

1842

01:20:49,530 --> 01:20:47,470

that the fact that he's got over a

1843

01:20:52,170 --> 01:20:49,540

million hits on that thing is remarkable

1844

01:20:53,820 --> 01:20:52,180

in one week I mean so that going back to

1845

01:20:54,310 --> 01:20:53,830

the fact but I think this is gaining so

1846

01:20:57,640 --> 01:20:54,320

much

1847

01:21:00,580 --> 01:20:57,650

action and interest that I'm hoping that

1848

01:21:03,310 --> 01:21:00,590

it does I hope that we can continue to

1849

01:21:05,170 --> 01:21:03,320

see that it's now getting into the

1850

01:21:07,600 --> 01:21:05,180

mainstream public if you would as

1851  
01:21:09,820 --> 01:21:07,610  
opposed to just the UFO crowd or

1852  
01:21:13,230 --> 01:21:09,830  
something like that that mainstream

1853  
01:21:16,420 --> 01:21:13,240  
public is now you know watching this and

1854  
01:21:18,280 --> 01:21:16,430  
taking it in and I encourage people I

1855  
01:21:20,800 --> 01:21:18,290  
said if you're on the if you're on the

1856  
01:21:23,140 --> 01:21:20,810  
basically the sitting post if you would

1857  
01:21:25,540 --> 01:21:23,150  
are on the fence before please watch

1858  
01:21:30,760 --> 01:21:25,550  
this and and now that might help shape

1859  
01:21:34,480 --> 01:21:30,770  
your future conversations but already

1860  
01:21:37,960 --> 01:21:34,490  
has yeah it said just amazing what a

1861  
01:21:39,970 --> 01:21:37,970  
dedicated guy largely as far as the

1862  
01:21:42,010 --> 01:21:39,980  
cutting and the assembling the footage

1863  
01:21:42,760 --> 01:21:42,020

as far as I know he did that pretty well

1864

01:21:45,930 --> 01:21:42,770

by himself

1865

01:21:49,540 --> 01:21:45,940

and you know hats off to him it it is

1866

01:21:52,120 --> 01:21:49,550

tough work doing CGI animation the 3d

1867

01:21:54,490 --> 01:21:52,130

animation it is not easy and I know a

1868

01:21:55,990 --> 01:21:54,500

little bit about what what went on it

1869

01:21:58,450 --> 01:21:56,000

looked like he had also added that he

1870

01:22:01,810 --> 01:21:58,460

didn't have in the first version a 3d

1871

01:22:03,730 --> 01:22:01,820

version of the Hawkeye radar plane as

1872

01:22:06,190 --> 01:22:03,740

well so it looks like he went out and I

1873

01:22:08,740 --> 01:22:06,200

spent a few extra bucks and bought one

1874

01:22:10,870 --> 01:22:08,750

of those models now that that airplane

1875

01:22:13,510 --> 01:22:10,880

modeling in there the kind of details

1876

01:22:14,980 --> 01:22:13,520

that that is some serious work so he did

1877

01:22:19,870 --> 01:22:14,990

go out and purchase those I do know that

1878

01:22:22,300 --> 01:22:19,880

but you know the path animation it's not

1879

01:22:26,080 --> 01:22:22,310

as difficult as character animation but

1880

01:22:28,510 --> 01:22:26,090

it's not easy let me tell you yep it's a

1881

01:22:30,730 --> 01:22:28,520

labor for love for David isn't it I mean

1882

01:22:37,720 --> 01:22:30,740

that's what it is

1883

01:22:39,760 --> 01:22:37,730

it shows it's a good guy I guess what

1884

01:22:42,340 --> 01:22:39,770

are you all seeing as far as the

1885

01:22:44,350 --> 01:22:42,350

reactions to the show what I felt was

1886

01:22:47,890 --> 01:22:44,360

interesting I saw a lot of comments

1887

01:22:51,850 --> 01:22:47,900

coming in from otherwise skeptical

1888

01:22:53,500 --> 01:22:51,860

people or even a lot of people who the

1889

01:22:55,570 --> 01:22:53,510

good thing because of course not

1890

01:22:58,360 --> 01:22:55,580

everybody was comfortable that this was

1891

01:23:00,460 --> 01:22:58,370

right on the heels of ancient aliens but

1892

01:23:02,200 --> 01:23:00,470

I think a lot of those ancient alien

1893

01:23:03,640 --> 01:23:02,210

people wouldn't have stuck around or

1894

01:23:04,060 --> 01:23:03,650

might not have tuned in if it wasn't

1895

01:23:05,740 --> 01:23:04,070

like that

1896

01:23:08,290 --> 01:23:05,750

and I know from experience from doing

1897

01:23:10,330 --> 01:23:08,300

the alien colony in aliens conference

1898

01:23:11,920 --> 01:23:10,340

of course because I'm got a much more

1899

01:23:13,270 --> 01:23:11,930

skeptical perspective than a lot of

1900

01:23:15,490 --> 01:23:13,280

these people and I'm providing facts

1901

01:23:17,530 --> 01:23:15,500

about UFO history but a lot of these

1902

01:23:21,040 --> 01:23:17,540

guys are educated people who appreciate

1903

01:23:22,330 --> 01:23:21,050

that you know they just are curious

1904

01:23:24,610 --> 01:23:22,340

about what might have happened in

1905

01:23:26,830 --> 01:23:24,620

ancient time so they're not all super

1906

01:23:28,810 --> 01:23:26,840

Frenchy people so it seems like a lot of

1907

01:23:30,790 --> 01:23:28,820

people it did open eyes to people who

1908

01:23:33,040 --> 01:23:30,800

otherwise might not have tuned into the

1909

01:23:36,550 --> 01:23:33,050

show yeah well I'll tell you I enjoy

1910

01:23:38,530 --> 01:23:36,560

ancient aliens you know it's obviously

1911

01:23:41,590 --> 01:23:38,540

not the final word on the subjects that

1912

01:23:43,840 --> 01:23:41,600

they cover they've got their their slant

1913

01:23:45,640 --> 01:23:43,850

theirs their spin you know but I've

1914

01:23:47,980 --> 01:23:45,650

always enjoyed the show I enjoy their

1915

01:23:49,840 --> 01:23:47,990

enthusiasm about their end of the

1916

01:23:52,690 --> 01:23:49,850

subject I think that goes a long way

1917

01:23:54,910 --> 01:23:52,700

it's not all dark and forbidding there

1918

01:23:56,710 --> 01:23:54,920

they're very excited about it I mean

1919

01:24:00,070 --> 01:23:56,720

giorgio obviously stands out in that

1920

01:24:02,980 --> 01:24:00,080

department david childress as well I

1921

01:24:06,040 --> 01:24:02,990

enjoy that I like the enthusiasm for the

1922

01:24:09,580 --> 01:24:06,050

topic that they have and they haven't

1923

01:24:14,620 --> 01:24:09,590

entirely seemed to have copied that over

1924

01:24:16,540 --> 01:24:14,630

with the identified show but you know so

1925

01:24:18,490 --> 01:24:16,550

long as they've got their facts so long

1926

01:24:19,930 --> 01:24:18,500

as they've got the material and it seems

1927

01:24:22,750 --> 01:24:19,940

like they do and they're going to be

1928

01:24:23,980 --> 01:24:22,760

able to fill two hours and I'll tell you

1929

01:24:26,200 --> 01:24:23,990

they filled an hour

1930

01:24:28,120 --> 01:24:26,210

very very night an hour less commercial

1931

01:24:30,310 --> 01:24:28,130

time very very nicely they had no

1932

01:24:34,290 --> 01:24:30,320

problems there and I expect we'll see

1933

01:24:47,860 --> 01:24:34,300

more as the show's roll on yeah ditto

1934

01:24:52,380 --> 01:24:47,870

and hey sometimes I'm just like you know

1935

01:24:55,180 --> 01:24:52,390

my wife has to listen to me go I always

1936

01:24:57,580 --> 01:24:55,190

like their enthusiasm that is what has

1937

01:24:59,650 --> 01:24:57,590

set that show apart from so many other

1938

01:25:02,350 --> 01:24:59,660

UFO shows that have run over the years

1939

01:25:04,030 --> 01:25:02,360

they are into their topic you know again

1940

01:25:06,280 --> 01:25:04,040

maybe you take some of the material with

1941

01:25:08,740 --> 01:25:06,290

a grain of salt but they are into it it

1942

01:25:10,510 --> 01:25:08,750

comes across and I think that is really

1943

01:25:15,790 --> 01:25:10,520

the secret ingredient for why that show

1944

01:25:18,760 --> 01:25:15,800

has run so many seasons I think it's

1945

01:25:21,820 --> 01:25:18,770

more than that oh yeah yeah a ton of

1946

01:25:25,990 --> 01:25:21,830

seasons it's pretty shocking

1947

01:25:27,540 --> 01:25:26,000

and I mean you know the number of people

1948

01:25:30,910 --> 01:25:27,550

that watch the show is absolutely

1949

01:25:33,730 --> 01:25:30,920

mind-boggling at the alien Con the first

1950

01:25:36,940 --> 01:25:33,740

one the reboot they did in California

1951

01:25:39,460 --> 01:25:36,950

last year what they did so they did this

1952

01:25:41,590 --> 01:25:39,470

alien con they got way more people than

1953

01:25:43,090 --> 01:25:41,600

they can handle and so they actually

1954

01:25:44,830 --> 01:25:43,100

fired the company that put it together

1955

01:25:47,530 --> 01:25:44,840

because they weren't able to handle it

1956

01:25:49,030 --> 01:25:47,540

got this new company which geared up and

1957

01:25:51,370 --> 01:25:49,040

was ready for a bigger crowd

1958

01:25:52,810 --> 01:25:51,380

they even got overwhelmed and every one

1959

01:25:55,810 --> 01:25:52,820

of these they get overwhelmed by the

1960

01:26:01,120 --> 01:25:55,820

number of people we go there these lines

1961

01:26:02,500 --> 01:26:01,130

go down the blocks for for ever and then

1962

01:26:04,000 --> 01:26:02,510

what happens it's kind of sad because

1963

01:26:06,280 --> 01:26:04,010

then they'll close the doors to the

1964

01:26:09,100 --> 01:26:06,290

lectures or you know they're done with

1965

01:26:11,230 --> 01:26:09,110

the picture-taking moment and you hear

1966

01:26:13,390 --> 01:26:11,240

everybody boo but they're just they just

1967

01:26:16,000 --> 01:26:13,400

can't handle the number of people there

1968

01:26:17,170 --> 01:26:16,010

it's like these comic-con disease things

1969

01:26:19,720 --> 01:26:17,180

they're gonna have to go to bigger and

1970

01:26:22,600 --> 01:26:19,730

bigger venues there are so many people

1971

01:26:25,570 --> 01:26:22,610

into this it's really shocking LA

1972

01:26:27,910 --> 01:26:25,580

Convention Center this year right bro

1973

01:26:29,680 --> 01:26:27,920

it's over at LA Convention Center huge

1974

01:26:32,080 --> 01:26:29,690

it's where they do the car the big car

1975

01:26:34,690 --> 01:26:32,090

show you know I mean I've you know been

1976

01:26:36,940 --> 01:26:34,700

there a few times and and by the way if

1977

01:26:39,070 --> 01:26:36,950

anybody's coming out do go to the MUFON

1978

01:26:46,540 --> 01:26:39,080

panels both of them because I'm gonna be

1979

01:26:49,690 --> 01:26:46,550

on them coming up on an hour and a half

1980

01:26:50,980 --> 01:26:49,700

I'd like to wrap this up and we had some

1981

01:26:53,980 --> 01:26:50,990

streaming issues so I'm gonna have to

1982

01:26:55,660 --> 01:26:53,990

upload this video later so yeah if we

1983

01:26:57,460 --> 01:26:55,670

can go around the horn Michael J Hall

1984

01:26:58,690 --> 01:26:57,470

you've been you've been quiet you've

1985

01:27:01,030 --> 01:26:58,700

been with us for a while

1986

01:27:02,770 --> 01:27:01,040

look that let's get your thoughts and

1987

01:27:07,180 --> 01:27:02,780

then they get kind of a final summation

1988

01:27:09,420 --> 01:27:07,190

from everybody thanks Frank I tell you

1989

01:27:11,680 --> 01:27:09,430

what I am just enjoying all the

1990

01:27:14,560 --> 01:27:11,690

conversations here this is exactly what

1991

01:27:16,900 --> 01:27:14,570

needs to happen get this thing out to as

1992

01:27:19,510 --> 01:27:16,910

many people as possible as Alejandro

1993

01:27:21,580 --> 01:27:19,520

said but one question that I would throw

1994

01:27:23,710 --> 01:27:21,590

into the mix that we haven't discussed

1995

01:27:25,450 --> 01:27:23,720

on this yet and we're going to take a

1996

01:27:29,860 --> 01:27:25,460

whole nother show I'm sure to do that

1997

01:27:33,160 --> 01:27:29,870

with me why now you know this incident

1998

01:27:35,500 --> 01:27:33,170

happened in 2004 the Nimitz tick tockia

1999

01:27:37,359 --> 01:27:35,510

issue and we are now

2000

01:27:40,080 --> 01:27:37,369

just hearing about it you know with the

2001  
01:27:42,990 --> 01:27:40,090  
the major push in the mainstream media

2002  
01:27:45,370 --> 01:27:43,000  
that's the question that the attorney

2003  
01:27:48,189 --> 01:27:45,380  
interrogatories need to have answered

2004  
01:27:50,229 --> 01:27:48,199  
well I'll jump on that one really quick

2005  
01:27:51,430 --> 01:27:50,239  
and that this is just a theory obviously

2006  
01:27:55,479 --> 01:27:51,440  
I don't have any inside information

2007  
01:27:57,729 --> 01:27:55,489  
don't really know but there has to be

2008  
01:28:00,399 --> 01:27:57,739  
some kind of thinking on the inside and

2009  
01:28:02,350 --> 01:28:00,409  
the I think s Steve Bassett and I had

2010  
01:28:04,180 --> 01:28:02,360  
discussed this last time he was on there

2011  
01:28:07,029 --> 01:28:04,190  
is still some kind of an inside team

2012  
01:28:09,850 --> 01:28:07,039  
here that if for whatever reason it

2013  
01:28:12,129 --> 01:28:09,860

comes to pass that it becomes undeniable

2014

01:28:14,919 --> 01:28:12,139

that there is some sort of the et

2015

01:28:18,399 --> 01:28:14,929

visitation going on and they've done

2016

01:28:20,589 --> 01:28:18,409

basically nothing with this they've just

2017

01:28:23,080 --> 01:28:20,599

given it short shrift and blown it off

2018

01:28:25,270 --> 01:28:23,090

and denied it and so on and so forth

2019

01:28:27,549 --> 01:28:25,280

there would be some kind of a hell to

2020

01:28:31,000 --> 01:28:27,559

pay with the public that it's better off

2021

01:28:32,890 --> 01:28:31,010

to sort of try to try to get something

2022

01:28:36,430 --> 01:28:32,900

out there that hey we're on this and

2023

01:28:39,399 --> 01:28:36,440

we've been on this that's my best theory

2024

01:28:41,919 --> 01:28:39,409

yes sir absolutely just because you know

2025

01:28:44,229 --> 01:28:41,929

I I think we there are a lot of

2026  
01:28:46,120 --> 01:28:44,239  
incredible people who really need to be

2027  
01:28:48,370 --> 01:28:46,130  
given credit for a lot of this and in my

2028  
01:28:50,859 --> 01:28:48,380  
view at least from following the history

2029  
01:28:52,660 --> 01:28:50,869  
and looking at historically what we can

2030  
01:28:54,490 --> 01:28:52,670  
say there may be stuff going on the

2031  
01:28:56,410 --> 01:28:54,500  
background but everybody I've asked that

2032  
01:28:58,660 --> 01:28:56,420  
to has said no they don't have any

2033  
01:29:01,450 --> 01:28:58,670  
evidence of that but what we have are

2034  
01:29:04,209 --> 01:29:01,460  
people like help hood up who since the

2035  
01:29:06,069 --> 01:29:04,219  
70s tackled remote-viewing got that

2036  
01:29:08,319 --> 01:29:06,079  
taken seriously by the government and

2037  
01:29:11,379 --> 01:29:08,329  
ran a program has continued to work on

2038  
01:29:13,359 --> 01:29:11,389

UFOs he couples up with Bob Bigelow Bob

2039

01:29:15,399 --> 01:29:13,369

Bigelow spends millions and millions of

2040

01:29:17,680 --> 01:29:15,409

dollars investigating this and gathering

2041

01:29:19,629 --> 01:29:17,690

these scientists these guys continue on

2042

01:29:21,729 --> 01:29:19,639

to do all of this research and bring it

2043

01:29:24,069 --> 01:29:21,739

credibility and try to make discoveries

2044

01:29:25,839 --> 01:29:24,079

then they start to partner up with more

2045

01:29:27,640 --> 01:29:25,849

people we find out they're partnering up

2046

01:29:30,879 --> 01:29:27,650

with the Pentagon with Lou with Harry

2047

01:29:33,009 --> 01:29:30,889

Reid then I you know then they're

2048

01:29:35,020 --> 01:29:33,019

partnering up with Tom DeLonge so it's

2049

01:29:37,270 --> 01:29:35,030

this rich history that's gone on for a

2050

01:29:39,520 --> 01:29:37,280

long time were these people for decades

2051  
01:29:42,040 --> 01:29:39,530  
have been trying to bring credibility to

2052  
01:29:44,439 --> 01:29:42,050  
this topic and do investigations and

2053  
01:29:45,970 --> 01:29:44,449  
research you know some of us have been

2054  
01:29:47,709 --> 01:29:45,980  
involved with all of that in the past

2055  
01:29:48,970 --> 01:29:47,719  
some of us with MUFON working on the

2056  
01:29:50,410 --> 01:29:48,980  
Bigelow project or

2057  
01:29:52,450 --> 01:29:50,420  
things like that rich has been involved

2058  
01:29:54,310 --> 01:29:52,460  
with a lot of the back and a lot of the

2059  
01:29:57,310 --> 01:29:54,320  
SE you guys were involved with some of

2060  
01:29:59,770 --> 01:29:57,320  
that work so really we have a lot of

2061  
01:30:01,210 --> 01:29:59,780  
great people including Leslie Cain who

2062  
01:30:02,500 --> 01:30:01,220  
has kind of worked on the forefront and

2063  
01:30:04,900 --> 01:30:02,510

bringing the information to the public

2064

01:30:06,910 --> 01:30:04,910

as well as George Knapp that have been

2065

01:30:10,030 --> 01:30:06,920

working at this for years and this is

2066

01:30:13,570 --> 01:30:10,040

the fruits of their work for decades and

2067

01:30:16,390 --> 01:30:13,580

a large part of all of this is that on

2068

01:30:18,820 --> 01:30:16,400

the surface we know that and I think we

2069

01:30:21,820 --> 01:30:18,830

we really a lot of gratitude those of us

2070

01:30:24,210 --> 01:30:21,830

who appreciate this to those people yes

2071

01:30:26,800 --> 01:30:24,220

you're here

2072

01:30:29,350 --> 01:30:26,810

Leslie Cain that wonderful book that she

2073

01:30:33,100 --> 01:30:29,360

wrote the pylons and you know that boy

2074

01:30:36,370 --> 01:30:33,110

oh boy when that came out that's when I

2075

01:30:38,650 --> 01:30:36,380

really started to think about you know

2076

01:30:40,600 --> 01:30:38,660

but I don't just want to be armchair

2077

01:30:43,720 --> 01:30:40,610

about this you know I want to get my my

2078

01:30:48,640 --> 01:30:43,730

feet dirty here you know and and what a

2079

01:30:50,320 --> 01:30:48,650

groundbreaking book that got me in and

2080

01:30:59,770 --> 01:30:50,330

anyone else want to jump in with some

2081

01:31:01,720 --> 01:30:59,780

final words I just talked a lot we spent

2082

01:31:11,350 --> 01:31:01,730

an hour and a half analyzing a one-hour

2083

01:31:12,880 --> 01:31:11,360

show to the for you know to the stars

2084

01:31:15,310 --> 01:31:12,890

Academy for putting together a great

2085

01:31:17,980 --> 01:31:15,320

maybe serious you're in it the first

2086

01:31:19,780 --> 01:31:17,990

show was excellent I think that more to

2087

01:31:22,510 --> 01:31:19,790

come I'm looking forward to it I think

2088

01:31:24,730 --> 01:31:22,520

that it's gonna help open up a lot more

2089

01:31:26,590 --> 01:31:24,740

doors and I think you know that's a good

2090

01:31:28,690 --> 01:31:26,600

thing I think that it's gonna also help

2091

01:31:31,450 --> 01:31:28,700

to get the general public more engaged

2092

01:31:33,850 --> 01:31:31,460

and willing to engage it again and I

2093

01:31:36,580 --> 01:31:33,860

think that's a good thing and you know I

2094

01:31:39,250 --> 01:31:36,590

just all the way around I'm to me this

2095

01:31:41,460 --> 01:31:39,260

is like a milestone event in my life you

2096

01:31:44,500 --> 01:31:41,470

know I'm just thrilled about it and I

2097

01:31:46,660 --> 01:31:44,510

mean that's just me speaking out to say

2098

01:31:48,370 --> 01:31:46,670

I'm glad to see all this attention that

2099

01:31:51,910 --> 01:31:48,380

there was all this like news media

2100

01:31:54,490 --> 01:31:51,920

coverage four days this week man I'm

2101  
01:31:58,060 --> 01:31:54,500  
just just jumping up and down this is

2102  
01:31:59,650 --> 01:31:58,070  
what a long time well yes 60 minutes is

2103  
01:32:01,090 --> 01:31:59,660  
a lot better than the five minutes the

2104  
01:32:02,529 --> 01:32:01,100  
news generally gives these kind of

2105  
01:32:04,270 --> 01:32:02,539  
stories and

2106  
01:32:07,419 --> 01:32:04,280  
an hour and a half is better than 60

2107  
01:32:10,779 --> 01:32:07,429  
minutes yeah yeah and I never thought I

2108  
01:32:13,629 --> 01:32:10,789  
would see the day and and even this even

2109  
01:32:16,959 --> 01:32:13,639  
feels like it snuck up on us quick you

2110  
01:32:18,790 --> 01:32:16,969  
know but I am so thrilled for it and and

2111  
01:32:21,549 --> 01:32:18,800  
you know for all the people that have

2112  
01:32:24,310 --> 01:32:21,559  
spent a long time dr. Scott rich you

2113  
01:32:26,890 --> 01:32:24,320

know Alejandra all you guys like you

2114

01:32:29,649 --> 01:32:26,900

said many years decades even you know

2115

01:32:32,169 --> 01:32:29,659

Stan Friedman Bruce Maccabee you name it

2116

01:32:33,759 --> 01:32:32,179

I mean these these guys really pave the

2117

01:32:35,680 --> 01:32:33,769

way and it's finally we're seeing the

2118

01:32:39,220 --> 01:32:35,690

fruit of it and you know I came along

2119

01:32:41,830 --> 01:32:39,230

you know more recently but you know I'm

2120

01:32:43,779 --> 01:32:41,840

just like I'm glad to be alive right now

2121

01:32:46,629 --> 01:32:43,789

and seeing this in my lifetime because I

2122

01:32:49,240 --> 01:32:46,639

really didn't or wasn't sure that we

2123

01:32:52,060 --> 01:32:49,250

would see that so it's great to not be

2124

01:32:53,620 --> 01:32:52,070

ridiculed - you stand on the shoulders

2125

01:32:56,589 --> 01:32:53,630

of giants and you know some of those

2126

01:33:00,129 --> 01:32:56,599

giants are on this very panel yeah I'll

2127

01:33:02,979 --> 01:33:00,139

say that yeah with you Shane hmm we're

2128

01:33:07,689 --> 01:33:02,989

still working the problem

2129

01:33:09,759 --> 01:33:07,699

all right so okay go ahead say that it's

2130

01:33:13,120 --> 01:33:09,769

it's for me it's a privilege to work

2131

01:33:15,189 --> 01:33:13,130

with people like Earl and Shane and this

2132

01:33:16,839 --> 01:33:15,199

whole group - and to have people like

2133

01:33:20,560 --> 01:33:16,849

Steve Bassett come on and you know

2134

01:33:22,870 --> 01:33:20,570

because you know these guys are doing

2135

01:33:25,120 --> 01:33:22,880

the right thing trying to get to the

2136

01:33:26,919 --> 01:33:25,130

answers and and I'm encouraged by the

2137

01:33:32,080 --> 01:33:26,929

fact that one that they're younger than

2138

01:33:34,990 --> 01:33:32,090

me in this thing but I applaud them for

2139

01:33:39,850 --> 01:33:35,000

getting involved and in this this whole

2140

01:33:42,450 --> 01:33:39,860

UFO thing it's not it's murky its muddy

2141

01:33:46,120 --> 01:33:42,460

and then but the good thing is that

2142

01:33:49,709 --> 01:33:46,130

they've gotten engaged and I'm just glad

2143

01:33:52,240 --> 01:33:49,719

to be on with them I applaud them for

2144

01:33:55,600 --> 01:33:52,250

for taking a stand and being willing to

2145

01:33:57,729 --> 01:33:55,610

to share you know and we can learn from

2146

01:34:00,009 --> 01:33:57,739

Stanton we've talked about this in the

2147

01:34:02,439 --> 01:34:00,019

last few weeks ed since his passing he

2148

01:34:05,709 --> 01:34:02,449

loved to debate he loved people with

2149

01:34:08,080 --> 01:34:05,719

different views yes he loved to discuss

2150

01:34:10,660 --> 01:34:08,090

the different views and he was very

2151

01:34:12,910 --> 01:34:10,670

respectful of even Phil class I mean

2152

01:34:14,979 --> 01:34:12,920

they they had sort of a relationship and

2153

01:34:16,330 --> 01:34:14,989

even though they debated you know he was

2154

01:34:18,850 --> 01:34:16,340

very respectful

2155

01:34:20,560 --> 01:34:18,860

and I think we all need to learn from

2156

01:34:23,230 --> 01:34:20,570

that and it's important right now that

2157

01:34:25,600 --> 01:34:23,240

we we all be as cohesive as possible and

2158

01:34:29,590 --> 01:34:25,610

that and tolerate each other

2159

01:34:31,840 --> 01:34:29,600

yep okay so yeah I'm going to wrap

2160

01:34:35,110 --> 01:34:31,850

everything up thanks to everybody for

2161

01:34:38,050 --> 01:34:35,120

joining us Karen Burrard rich Hoffman

2162

01:34:42,310 --> 01:34:38,060

she heard Michael era Michael J Scott

2163

01:34:45,010 --> 01:34:42,320

and let's see I got a weight here hang

2164

01:34:46,360 --> 01:34:45,020

on a sec our Michael J Hall sorry about

2165

01:34:49,900 --> 01:34:46,370

that I got you confused with your buddy

2166

01:34:52,390 --> 01:34:49,910

Dave Scott rich Hoffman's ain't heard

2167

01:34:54,370 --> 01:34:52,400

Alejandro Rojas and of course dr. Irina

2168

01:34:56,560 --> 01:34:54,380

Scott thanks everybody we did have a

2169

01:34:58,870 --> 01:34:56,570

streaming issue so I will get this

2170

01:34:59,860 --> 01:34:58,880

uploaded and get you the links as soon

2171

01:35:02,050 --> 01:34:59,870

as they are available
