DISCUSSES THE PURPORTED ADMIRAL  
WILSON DOCUMENT, NORAD, THE  
USAF AND THEIR OPREP-3 9B AND 9F  
CLASSES OF INTELLIGENCE  
REPORTING.

**UFONN**  
**SUNDAY**

1  
00:00:00,000 --> 00:00:34,380  
great I'll do that first great perfect

2  
00:00:43,750 --> 00:00:37,890  
guy for it going

3  
00:00:45,880 --> 00:00:43,760  
okay so are we on the edit the preview

4  
00:00:49,090 --> 00:00:45,890  
is running okay

5  
00:00:53,320 --> 00:00:49,100  
sorry we can talk through it it's just

6  
00:01:00,840 --> 00:00:57,700  
so chant had us get chance yeah here

7  
00:01:10,040 --> 00:01:00,850  
topic come on so we're just gonna roll

8  
00:01:19,110 --> 00:01:17,220  
hello today Ella yeah and good evening

9  
00:01:21,390 --> 00:01:19,120  
from Philadelphia Frank here with

10  
00:01:23,670 --> 00:01:21,400  
another episode of UFO news network

11  
00:01:25,020 --> 00:01:23,680  
Sunday Jan had something come up so

12  
00:01:27,330 --> 00:01:25,030  
she's not gonna make it right which

13  
00:01:30,090 --> 00:01:27,340

gives me the opportunity to introduce

14

00:01:31,440 --> 00:01:30,100

something normally yeah a chant wants to

15

00:01:32,670 --> 00:01:31,450

do she doesn't want me introducing

16

00:01:35,460 --> 00:01:32,680

guests but I'm gonna get to do it

17

00:01:36,960 --> 00:01:35,470

tonight I get to introduce Paul Dean

18

00:01:40,200 --> 00:01:36,970

back to the show

19

00:01:41,730 --> 00:01:40,210

becoming a semi-regular here thanks Paul

20

00:01:43,470 --> 00:01:41,740

for joining us and we want to get

21

00:01:44,850 --> 00:01:43,480

through this quick but you've got a lot

22

00:01:48,180 --> 00:01:44,860

of good stuff for us thanks for coming

23

00:01:48,920 --> 00:01:48,190

back on I appreciate it hi how's it

24

00:01:55,010 --> 00:01:48,930

going

25

00:01:57,660 --> 00:01:55,020

everything as you well know yes

26

00:02:01,950 --> 00:01:57,670

so yeah this was the last-minute one

27

00:02:03,930 --> 00:02:01,960

I've I had yeah a chant got me two to

28

00:02:06,780 --> 00:02:03,940

work out a time if I could come on and

29

00:02:09,300 --> 00:02:06,790

some here we are yeah I appreciate it I

30

00:02:12,090 --> 00:02:09,310

know well we were kind of blocked up

31

00:02:14,910 --> 00:02:12,100

over the last couple three days with

32

00:02:16,440 --> 00:02:14,920

this Admiral Wilson document and I know

33

00:02:18,410 --> 00:02:16,450

you wanted to make some comment on that

34

00:02:24,900 --> 00:02:18,420

so I'd love to hear from you on that

35

00:02:29,970 --> 00:02:24,910

yeah I this this is a very very very

36

00:02:31,890 --> 00:02:29,980

complex place of record I I've heard

37

00:02:34,350 --> 00:02:31,900

about this before like years and years

38

00:02:36,060 --> 00:02:34,360

and years ago and and I you know there's

39

00:02:37,979 --> 00:02:36,070

nothing else other than you just hear a

40

00:02:40,680 --> 00:02:37,989

story you know like this there's this

41

00:02:43,140 --> 00:02:40,690

lengthy record between a scientist and

42

00:02:44,640 --> 00:02:43,150

an admiral who some people said it was

43

00:02:46,979 --> 00:02:44,650

Wilson some people said they didn't know

44

00:02:48,390 --> 00:02:46,989

if it was Wilson and I didn't I never

45

00:02:52,920 --> 00:02:48,400

thought anything of it at all it's it's

46

00:02:58,380 --> 00:02:52,930

so vague to me now that but anyway then

47

00:02:59,880 --> 00:02:58,390

it comes out and and the the the some

48

00:03:02,550 --> 00:02:59,890

people look everyone's got a different

49

00:03:04,880 --> 00:03:02,560

reaction like some people are giddy like

50

00:03:09,240 --> 00:03:04,890

schoolgirls over there some people

51  
00:03:13,259 --> 00:03:09,250  
trading it with disdain and everywhere

52  
00:03:15,210 --> 00:03:13,269  
in between but one thing that I found I

53  
00:03:17,070 --> 00:03:15,220  
started going through it because the

54  
00:03:19,170 --> 00:03:17,080  
biggest problem for me was I'm thinking

55  
00:03:21,540 --> 00:03:19,180  
was with these notes even if they're

56  
00:03:23,559 --> 00:03:21,550  
real with these notes recorded from a

57  
00:03:25,660 --> 00:03:23,569  
dictaphone like like it

58  
00:03:30,129 --> 00:03:25,670  
the implication that Eric Davis actually

59  
00:03:31,800 --> 00:03:30,139  
recorded this this this viral microphone

60  
00:03:33,849 --> 00:03:31,810  
or a dictaphone and then later

61  
00:03:36,660 --> 00:03:33,859  
transcribed it virtually word-for-word

62  
00:03:38,949 --> 00:03:36,670  
put his own comments in like notes like

63  
00:03:40,959 --> 00:03:38,959

abbreviations and so on and that's

64

00:03:43,300 --> 00:03:40,969

that's one scenario the other scenario

65

00:03:44,979 --> 00:03:43,310

is that he did it all from memory like

66

00:03:46,629 --> 00:03:44,989

you know that night or a few days later

67

00:03:49,179 --> 00:03:46,639

right and that of course would introduce

68

00:03:51,429 --> 00:03:49,189

problems especially when you've got 15

69

00:03:54,159 --> 00:03:51,439

pages worth very complex material very

70

00:03:57,640 --> 00:03:54,169

you know lengthy names lengthy acronyms

71

00:04:00,789 --> 00:03:57,650

dates and so on and you know the the the

72

00:04:04,899 --> 00:04:00,799

the implication to me it looks like it

73

00:04:06,759 --> 00:04:04,909

was done very quickly after the event

74

00:04:08,830 --> 00:04:06,769

and and hope you know to me it looks

75

00:04:11,140 --> 00:04:08,840

like it was it seems to have been done

76  
00:04:14,020 --> 00:04:11,150  
from a microphone now what all those

77  
00:04:15,999 --> 00:04:14,030  
involved or in this now Paul I want to

78  
00:04:17,800 --> 00:04:16,009  
jump in here and say if accurate it was

79  
00:04:18,969 --> 00:04:17,810  
just somebody concocting something and

80  
00:04:20,979 --> 00:04:18,979  
they can do it at their convenience

81  
00:04:23,589 --> 00:04:20,989  
whenever they wanted yeah exactly

82  
00:04:25,360 --> 00:04:23,599  
exactly so so if it was if it was

83  
00:04:28,749 --> 00:04:25,370  
concocted from scratch like like a

84  
00:04:33,330 --> 00:04:28,759  
traditional fraudulent record then it

85  
00:04:35,920 --> 00:04:33,340  
could take them years now the the the

86  
00:04:38,080 --> 00:04:35,930  
the I went through it I've read it

87  
00:04:41,350 --> 00:04:38,090  
really well twice now and it is the the

88  
00:04:43,420 --> 00:04:41,360

more the more you read it the more you

89

00:04:46,480 --> 00:04:43,430

realize how sort of complexities I mean

90

00:04:48,700 --> 00:04:46,490

there is there is so many names to look

91

00:04:52,240 --> 00:04:48,710

up you know contractors and various

92

00:04:54,300 --> 00:04:52,250

directors program managers even you know

93

00:04:57,820 --> 00:04:54,310

there's remote viewers that are named

94

00:04:59,950 --> 00:04:57,830

what we it's actually it's it's it's a

95

00:05:02,830 --> 00:04:59,960

it's a really big job and I you assume

96

00:05:05,529 --> 00:05:02,840

that that that it mean that the source

97

00:05:07,270 --> 00:05:05,539

is the implication here has been that

98

00:05:10,209 --> 00:05:07,280

grand camera and the Canadian researcher

99

00:05:11,920 --> 00:05:10,219

has had this record for a while and has

100

00:05:15,310 --> 00:05:11,930

been trying to work on it you would

101  
00:05:16,689 --> 00:05:15,320  
think that there he or you know the mr.

102  
00:05:18,610 --> 00:05:16,699  
hall that you had on yesterday have done

103  
00:05:20,020 --> 00:05:18,620  
some of that I went through it from a

104  
00:05:22,120 --> 00:05:20,030  
bit of a different angle I thought I

105  
00:05:24,339 --> 00:05:22,130  
said any I've read it properly twice and

106  
00:05:26,920 --> 00:05:24,349  
I've already found okay a few pretty big

107  
00:05:29,980 --> 00:05:26,930  
problems and I don't know if they're

108  
00:05:31,899 --> 00:05:29,990  
just they just sort of - or the clerical

109  
00:05:34,000 --> 00:05:31,909  
errors or if they if they imply

110  
00:05:36,780 --> 00:05:34,010  
something that would point to Bank

111  
00:05:39,240 --> 00:05:36,790  
fraudulent one of them is some

112  
00:05:40,590 --> 00:05:39,250  
sevim does a there's a footnote down at

113  
00:05:43,170 --> 00:05:40,600

the bottom it's just a little footnote

114

00:05:45,960 --> 00:05:43,180

and it and its exact words are Judith

115

00:05:47,700 --> 00:05:45,970

deli assistant deputy undersecretary of

116

00:05:52,500 --> 00:05:47,710

Defense for advanced development

117

00:05:54,120 --> 00:05:52,510

Oh USD 80 now the first problem is

118

00:05:57,330 --> 00:05:54,130

without is there's actually no such

119

00:05:59,240 --> 00:05:57,340

place it's not because the the person

120

00:06:01,590 --> 00:05:59,250

who wrote this this document has written

121

00:06:03,420 --> 00:06:01,600

assistant deputy undersecretary of

122

00:06:05,760 --> 00:06:03,430

Defense the actual proper title is

123

00:06:07,260 --> 00:06:05,770

deputy assistant and the Secretary of

124

00:06:09,390 --> 00:06:07,270

Defense they've got the deputy in the

125

00:06:11,490 --> 00:06:09,400

system the wrong way around and that

126

00:06:13,830 --> 00:06:11,500

might be okay yeah that seems like it

127

00:06:15,690 --> 00:06:13,840

could be a reasonable mistake it could

128

00:06:17,940 --> 00:06:15,700

be the only problem is if you read the

129

00:06:19,770 --> 00:06:17,950

next bit where it says for advanced

130

00:06:22,200 --> 00:06:19,780

development ie assistant deputy

131

00:06:23,610 --> 00:06:22,210

undersecretary for a defense for

132

00:06:27,600 --> 00:06:23,620

advanced development then you read the

133

00:06:29,490 --> 00:06:27,610

acronym oh you s dat that doesn't say

134

00:06:32,040 --> 00:06:29,500

that the advanced development would be

135

00:06:33,690 --> 00:06:32,050

ad the acronym that's been given here is

136

00:06:38,490 --> 00:06:33,700

a T which I think would be advanced

137

00:06:41,190 --> 00:06:38,500

technology so so so that that whole line

138

00:06:43,320 --> 00:06:41,200

has two problems which you know most

139

00:06:46,320 --> 00:06:43,330

likely that is just a simple rushed

140

00:06:51,960 --> 00:06:46,330

error you know like I don't know though

141

00:06:53,610 --> 00:06:51,970

but it there's more on on page 12 does

142

00:06:56,130 --> 00:06:53,620

this discrepancy in that in the

143

00:06:57,990 --> 00:06:56,140

apparently Admiral Wilson was shown the

144

00:07:00,750 --> 00:06:58,000

bigot list and it says it was several

145

00:07:02,850 --> 00:07:00,760

pages long right dated early nineties

146

00:07:05,400 --> 00:07:02,860

the bigot list for this apparent secret

147

00:07:07,260 --> 00:07:05,410

UFO program was several pages long now

148

00:07:09,660 --> 00:07:07,270

several means two three four five

149

00:07:12,690 --> 00:07:09,670

whatever right but then later just the

150

00:07:16,280 --> 00:07:12,700

next page page 13 Wilson purportedly

151  
00:07:18,900 --> 00:07:16,290  
says that there are 400 to 800 names

152  
00:07:22,020 --> 00:07:18,910  
listed right in this bigot list now you

153  
00:07:23,790 --> 00:07:22,030  
can't fit say 400 five six seven eight

154  
00:07:26,490 --> 00:07:23,800  
hundred names you can't fit that on

155  
00:07:30,660 --> 00:07:26,500  
several pages like if you can fit 30 or

156  
00:07:30,870 --> 00:07:30,670  
40 names on a page it just doesn't add

157  
00:07:32,520 --> 00:07:30,880  
up

158  
00:07:34,170 --> 00:07:32,530  
I mean if you were gonna fit say eight

159  
00:07:35,340 --> 00:07:34,180  
hundred names on a page it's gonna be

160  
00:07:37,850 --> 00:07:35,350  
it's gonna be mean it's gonna be a

161  
00:07:39,960 --> 00:07:37,860  
booklet it's got to be important to you

162  
00:07:41,880 --> 00:07:39,970  
and the other thing is thing it the

163  
00:07:44,430 --> 00:07:41,890

other thing is why such the wide range I

164

00:07:47,030 --> 00:07:44,440

mean 800 is like a hundred percent

165

00:07:50,320 --> 00:07:47,040

discrepancy that's like a doubling again

166

00:07:55,510 --> 00:07:50,330

it may not be a problem but

167

00:07:57,400 --> 00:07:55,520

the the the the I don't know the the

168

00:07:59,230 --> 00:07:57,410

other thing is is that this one part

169

00:08:02,050 --> 00:07:59,240

that doesn't add up to me that will is

170

00:08:05,560 --> 00:08:02,060

is that is that these purported secret

171

00:08:07,360 --> 00:08:05,570

program program contractors you know did

172

00:08:08,710 --> 00:08:07,370

they meet with Wilson at all and I mean

173

00:08:10,540 --> 00:08:08,720

they weren't military men or even

174

00:08:12,970 --> 00:08:10,550

government officials but they're private

175

00:08:17,200 --> 00:08:12,980

contractors so Admiral Wilson can't

176

00:08:19,060 --> 00:08:17,210

really be ordering them around the you

177

00:08:21,280 --> 00:08:19,070

know they supposedly showed Wilson that

178

00:08:23,020 --> 00:08:21,290

he was not on their bigot list fair

179

00:08:24,670 --> 00:08:23,030

enough so that actually shouldn't have

180

00:08:26,890 --> 00:08:24,680

been talking to him or meeting at him

181

00:08:28,780 --> 00:08:26,900

with him at all now Pete you know you

182

00:08:30,220 --> 00:08:28,790

might say look being being a deputy at

183

00:08:33,070 --> 00:08:30,230

the time he was deputy director for the

184

00:08:34,540 --> 00:08:33,080

DIA he was a four-star Admiral or maybe

185

00:08:36,040 --> 00:08:34,550

it was a three-star then but he was

186

00:08:39,100 --> 00:08:36,050

certainly three or four star flag

187

00:08:40,660 --> 00:08:39,110

officer and he was it was deep deeply

188

00:08:43,660 --> 00:08:40,670

imbedded within the intelligence and

189

00:08:46,330 --> 00:08:43,670

security community you would sort of

190

00:08:49,840 --> 00:08:46,340

think that that that he should have sort

191

00:08:52,270 --> 00:08:49,850

of like a like he's need to know should

192

00:08:53,470 --> 00:08:52,280

be there almost no matter what but maybe

193

00:08:54,580 --> 00:08:53,480

it doesn't work like that

194

00:08:57,070 --> 00:08:54,590

I mean maybe they shouldn't have been

195

00:08:59,950 --> 00:08:57,080

talking to him and and they just felt

196

00:09:02,440 --> 00:08:59,960

they should look I don't know if someone

197

00:09:04,180 --> 00:09:02,450

needs to someone needs to be able to ask

198

00:09:07,180 --> 00:09:04,190

the question of a very senior officer

199

00:09:11,260 --> 00:09:07,190

you know within your area within your

200

00:09:12,490 --> 00:09:11,270

realm do you do you know can you can you

201  
00:09:14,530 --> 00:09:12,500  
sort of beep chucked on the need-to-know

202  
00:09:17,050 --> 00:09:14,540  
list or the bigoted bigoted list like

203  
00:09:18,490 --> 00:09:17,060  
very very very quickly so have access to

204  
00:09:19,420 --> 00:09:18,500  
anything now maybe it doesn't look like

205  
00:09:21,310 --> 00:09:19,430  
that we've heard of special

206  
00:09:23,410 --> 00:09:21,320  
compartmentalized information we've

207  
00:09:24,940 --> 00:09:23,420  
heard of stovepipes and si pays we've

208  
00:09:28,780 --> 00:09:24,950  
heard of being briefed in and briefed

209  
00:09:31,570 --> 00:09:28,790  
out whatever but now I've only got gone

210  
00:09:33,400 --> 00:09:31,580  
through this document twice and I've

211  
00:09:35,440 --> 00:09:33,410  
already found these problems then and I

212  
00:09:38,680 --> 00:09:35,450  
would suspect that there are probably a

213  
00:09:40,090 --> 00:09:38,690

whole bunch more is the don't people

214

00:09:41,800 --> 00:09:40,100

have even said you know is the document

215

00:09:44,830 --> 00:09:41,810

real I've got it like as he you know was

216

00:09:46,690 --> 00:09:44,840

it actually penned by Eric Davis after

217

00:09:49,480 --> 00:09:46,700

his meeting that I I think it probably

218

00:09:50,860 --> 00:09:49,490

Israel there's just something about it

219

00:09:53,020 --> 00:09:50,870

my gut instinct would say it's probably

220

00:09:54,160 --> 00:09:53,030

probably is a real record not something

221

00:09:58,150 --> 00:09:54,170

that was cooked up in someone's basement

222

00:10:00,310 --> 00:09:58,160

for fun yeah okay okay now do you think

223

00:10:02,560 --> 00:10:00,320

see when I look through it the first

224

00:10:04,510 --> 00:10:02,570

time what I was looking for was sort of

225

00:10:08,140 --> 00:10:04,520

the tropes the plot devices

226  
00:10:13,090 --> 00:10:08,150  
of known AFOSI disinformation and when

227  
00:10:15,400 --> 00:10:13,100  
when I saw the what was listed as a

228  
00:10:17,350 --> 00:10:15,410  
Miller's particular interest they didn't

229  
00:10:19,030 --> 00:10:17,360  
sound to me like the type of cases that

230  
00:10:20,920 --> 00:10:19,040  
somebody in Miller's position would have

231  
00:10:22,630 --> 00:10:20,930  
been interested in and that was a key

232  
00:10:25,060 --> 00:10:22,640  
question I wanted to ask him right away

233  
00:10:28,120 --> 00:10:25,070  
was you know are you interested in these

234  
00:10:30,520 --> 00:10:28,130  
cases and he professed a very little

235  
00:10:33,490 --> 00:10:30,530  
knowledge were interested at all in the

236  
00:10:35,200 --> 00:10:33,500  
Socorro case so that struck me as a bit

237  
00:10:37,780 --> 00:10:35,210  
of a red flag because that is a case

238  
00:10:40,090 --> 00:10:37,790

that has been used in past the fuzzy

239

00:10:41,680 --> 00:10:40,100

disinformation so that's why that was

240

00:10:43,180 --> 00:10:41,690

the key question I wanted to ask him of

241

00:10:45,280 --> 00:10:43,190

course I asked him about the letter but

242

00:10:46,570 --> 00:10:45,290

his answer was you know he couldn't

243

00:10:48,220 --> 00:10:46,580

remember off the top of his head I

244

00:10:49,870 --> 00:10:48,230

wouldn't have expected him to that would

245

00:10:52,120 --> 00:10:49,880

have been a reasonable answer and then

246

00:10:54,160 --> 00:10:52,130

the way we left our conversations was

247

00:10:56,410 --> 00:10:54,170

you know is it okay if I follow up with

248

00:10:57,820 --> 00:10:56,420

you he said fine but that chant wanted

249

00:10:59,890 --> 00:10:57,830

to follow up the next day and she did

250

00:11:03,250 --> 00:10:59,900

and she got her questions in and

251  
00:11:06,040 --> 00:11:03,260  
basically he went on to say that as well

252  
00:11:08,620 --> 00:11:06,050  
he has never had any dealings with any

253  
00:11:10,450 --> 00:11:08,630  
kind of recovery DT technology anything

254  
00:11:12,370 --> 00:11:10,460  
along those lines so that's where that

255  
00:11:14,080 --> 00:11:12,380  
was left but yeah obviously we want to

256  
00:11:16,480 --> 00:11:14,090  
get a lot of eyes on this sort of thing

257  
00:11:19,420 --> 00:11:16,490  
and get a lot of people looking at it I

258  
00:11:21,250 --> 00:11:19,430  
mean when I first off I had no

259  
00:11:24,220 --> 00:11:21,260  
reasonable expectation of being able to

260  
00:11:26,440 --> 00:11:24,230  
contact Miller and when he returned my

261  
00:11:28,270 --> 00:11:26,450  
call I was shocked as I could possibly

262  
00:11:29,980 --> 00:11:28,280  
be you know I didn't expect the guy to

263  
00:11:32,020 --> 00:11:29,990

get back to me but here's somebody who's

264

00:11:34,330 --> 00:11:32,030

really tied in with these documents who

265

00:11:36,490 --> 00:11:34,340

has actually responded to some questions

266

00:11:39,100 --> 00:11:36,500

and we're getting nobody else saying

267

00:11:41,920 --> 00:11:39,110

anything so we don't know exactly where

268

00:11:44,800 --> 00:11:41,930

it's at to me right now is we've raised

269

00:11:46,780 --> 00:11:44,810

some legitimate questions what the

270

00:11:49,210 --> 00:11:46,790

proponents really have to do is you know

271

00:11:50,740 --> 00:11:49,220

at the very least okay yeah at some

272

00:11:52,930 --> 00:11:50,750

point in time yeah you're going to have

273

00:11:55,120 --> 00:11:52,940

to contact Admiral Wilson and you're

274

00:11:57,520 --> 00:11:55,130

gonna have to find out okay let's say

275

00:11:59,770 --> 00:11:57,530

this is true he's not gonna say it's

276

00:12:02,230 --> 00:11:59,780

true he's not gonna say all these things

277

00:12:03,850 --> 00:12:02,240

actually happened but what you can do is

278

00:12:06,880 --> 00:12:03,860

you've got to prove that he was in Las

279

00:12:08,920 --> 00:12:06,890

Vegas on the date if you can't do that

280

00:12:10,300 --> 00:12:08,930

and you should be able to do that you

281

00:12:13,870 --> 00:12:10,310

should be able to do that there's a bit

282

00:12:16,330 --> 00:12:13,880

of a problem with that because Davis

283

00:12:18,100 --> 00:12:16,340

Davis left his directorship of the DIA

284

00:12:22,329 --> 00:12:18,110

in

285

00:12:25,329 --> 00:12:22,339

Wilson Wilson that Davis sorry sorry

286

00:12:28,120 --> 00:12:25,339

sorry sorry Wilson left Wilson Wilson

287

00:12:29,710 --> 00:12:28,130

Wilson was relieved of his is his

288

00:12:31,810 --> 00:12:29,720

directorship like his head honcho

289

00:12:33,460 --> 00:12:31,820

position of them yeah he's retired at

290

00:12:35,880 --> 00:12:33,470

the point of the alleged meeting yes so

291

00:12:41,860 --> 00:12:35,890

so what I was thinking my first reaction

292

00:12:44,590 --> 00:12:41,870

was actually to was to like to to submit

293

00:12:46,900 --> 00:12:44,600

it if I request to the DIA for the for

294

00:12:49,780 --> 00:12:46,910

the for the day-to-day meeting and

295

00:12:51,460 --> 00:12:49,790

briefing and and and trip records for

296

00:12:53,199 --> 00:12:51,470

Admiral Wilson and then we'd find out

297

00:12:54,340 --> 00:12:53,209

you know if it wasn't classified or if

298

00:12:56,259 --> 00:12:54,350

they could actually even find them

299

00:13:00,130 --> 00:12:56,269

because there's a little old now this

300

00:13:01,389 --> 00:13:00,140

stuff if he look like potentially we

301  
00:13:04,360 --> 00:13:01,399  
could find out where he was at certain

302  
00:13:05,829 --> 00:13:04,370  
times there is there is one other thing

303  
00:13:07,480 --> 00:13:05,839  
as for the air for she mentioned

304  
00:13:09,880 --> 00:13:07,490  
disinformation there was one thing that

305  
00:13:14,740 --> 00:13:09,890  
did jump out at me you'll notice that

306  
00:13:16,180 --> 00:13:14,750  
that an Air Force H Marshall Ward I

307  
00:13:18,190 --> 00:13:16,190  
think it might be her but I'm not sure

308  
00:13:20,019 --> 00:13:18,200  
but it's a it's a it's an H Marshall

309  
00:13:23,259 --> 00:13:20,029  
Ward who was a three or four star

310  
00:13:26,470 --> 00:13:23,269  
general in the Air Force hey hey he was

311  
00:13:28,090 --> 00:13:26,480  
the one that steered will system towards

312  
00:13:31,180 --> 00:13:28,100  
office of the undersecretary of Defense

313  
00:13:34,840 --> 00:13:31,190

records das you could say that he was

314

00:13:37,389 --> 00:13:34,850

steering Wilson away from what I would

315

00:13:39,460 --> 00:13:37,399

call like like will others other forms

316

00:13:44,230 --> 00:13:39,470

of UFO information like air force

317

00:13:47,380 --> 00:13:44,240

generated UFO information so so so so if

318

00:13:49,389 --> 00:13:47,390

if Wilson had have gone to the Air Force

319

00:13:52,540 --> 00:13:49,399

general and said I want to talk to you

320

00:13:54,519 --> 00:13:52,550

about you know UFOs generally the Air

321

00:13:57,009 --> 00:13:54,529

Force general would would potentially

322

00:13:59,470 --> 00:13:57,019

steer him towards NORAD like Air Force

323

00:14:01,840 --> 00:13:59,480

dominated NORAD the Air Force Space

324

00:14:05,319 --> 00:14:01,850

track system old blue book files

325

00:14:08,230 --> 00:14:05,329

whatever but but the the the general

326

00:14:10,449 --> 00:14:08,240

steered him towards Undersecretary of

327

00:14:12,130 --> 00:14:10,459

defer oh yeah office of the Secretary of

328

00:14:15,100 --> 00:14:12,140

Defense records and I don't I mean I

329

00:14:16,660 --> 00:14:15,110

don't think that would may mean that

330

00:14:18,939 --> 00:14:16,670

much but it's something that just did

331

00:14:21,069 --> 00:14:18,949

jump out at me now one thing that that

332

00:14:23,650 --> 00:14:21,079

is that is curious about all this is

333

00:14:26,559 --> 00:14:23,660

that is how these actually came out now

334

00:14:28,210 --> 00:14:26,569

I believe that they were on I'm not good

335

00:14:30,490 --> 00:14:28,220

with these web sites I can't even

336

00:14:31,630 --> 00:14:30,500

pronounce them but image you or

337

00:14:33,519 --> 00:14:31,640

something um

338

00:14:34,720 --> 00:14:33,529

I think I don't know they're not a

339

00:14:37,329 --> 00:14:34,730

spelling I don't know how to pronounce

340

00:14:40,150 --> 00:14:37,339

it I didn't even know what I read it is

341

00:14:44,860 --> 00:14:40,160

but but I know that I think it was yeah

342

00:14:47,699 --> 00:14:44,870

tracer Tyndall who's a I think of

343

00:14:50,590 --> 00:14:47,709

researcher in in your neck of the woods

344

00:14:52,000 --> 00:14:50,600

said that she actually she thought she

345

00:14:54,130 --> 00:14:52,010

was the first one to find them on that

346

00:14:55,780 --> 00:14:54,140

imagery will immature whatever it is and

347

00:14:58,480 --> 00:14:55,790

then other people found them quite

348

00:15:01,000 --> 00:14:58,490

rapidly on reddit and whatever and I

349

00:15:03,460 --> 00:15:01,010

know that Keith pastor field has just

350

00:15:06,069 --> 00:15:03,470

done a blog about sort of like the order

351  
00:15:08,319 --> 00:15:06,079  
of how things came out and I'd be I'd be

352  
00:15:10,030 --> 00:15:08,329  
really curious to see who actually

353  
00:15:12,040 --> 00:15:10,040  
leaked them because all we've got is

354  
00:15:13,990 --> 00:15:12,050  
anonymous handles like these these

355  
00:15:15,550 --> 00:15:14,000  
anonymous handles of holy who sort of

356  
00:15:17,440 --> 00:15:15,560  
put them on the web for the foot

357  
00:15:19,870 --> 00:15:17,450  
potentially for the first time and and

358  
00:15:21,910 --> 00:15:19,880  
that you know what you want to ask these

359  
00:15:24,490 --> 00:15:21,920  
people you know why did we not so much

360  
00:15:26,530 --> 00:15:24,500  
when did they leak them or how or what

361  
00:15:29,710 --> 00:15:26,540  
but you want to ask them why like what

362  
00:15:32,170 --> 00:15:29,720  
purpose and and and you know where they

363  
00:15:34,120 --> 00:15:32,180

told to or they give them permission or

364

00:15:36,030 --> 00:15:34,130

do they do it from another country on

365

00:15:38,199 --> 00:15:36,040

another you know like using someone else

366

00:15:40,389 --> 00:15:38,209

someone else's handled whatever um

367

00:15:42,069 --> 00:15:40,399

because that potentially could be

368

00:15:43,990 --> 00:15:42,079

interesting but if you go back all I

369

00:15:46,090 --> 00:15:44,000

know is look when I read when I read

370

00:15:48,250 --> 00:15:46,100

this document it is it is quite complex

371

00:15:50,410 --> 00:15:48,260

and and the big that's just the biggest

372

00:15:53,530 --> 00:15:50,420

question to me is how accurately was it

373

00:15:55,090 --> 00:15:53,540

all recorded down because that that

374

00:15:56,620 --> 00:15:55,100

means everything I mean if there was if

375

00:15:59,410 --> 00:15:56,630

there's significant errors in there that

376

00:16:01,870 --> 00:15:59,420

I can't find or no one can find then and

377

00:16:04,030 --> 00:16:01,880

then we we don't know we just don't know

378

00:16:05,680 --> 00:16:04,040

how accurate anybody knows but you know

379

00:16:07,509 --> 00:16:05,690

for the people who say that it's

380

00:16:09,939 --> 00:16:07,519

probably literally a fake document

381

00:16:13,540 --> 00:16:09,949

cooked up cooked up by a timothy cooper

382

00:16:14,680 --> 00:16:13,550

like entity or or or or a bill more type

383

00:16:15,850 --> 00:16:14,690

into the i don't think that's right i

384

00:16:18,460 --> 00:16:15,860

think we're looking at something that is

385

00:16:22,329 --> 00:16:18,470

relatively genuine okay okay

386

00:16:25,090 --> 00:16:22,339

and when you've looked at for though the

387

00:16:26,350 --> 00:16:25,100

holes in it are you looking for any kind

388

00:16:31,150 --> 00:16:26,360

of actionable weeds

389

00:16:32,710 --> 00:16:31,160

yeah the dimension well well i mean if i

390

00:16:35,470 --> 00:16:32,720

why with the office of the Secretary of

391

00:16:37,780 --> 00:16:35,480

Defense and the Joint Chiefs and and the

392

00:16:40,210 --> 00:16:37,790

under secretaries it is staggeringly

393

00:16:42,579 --> 00:16:40,220

slow at the moment and and it's just

394

00:16:44,950 --> 00:16:42,589

sorting in classification I mean even

395

00:16:47,890 --> 00:16:44,960

look like there are leads as far as

396

00:16:51,460 --> 00:16:47,900

the the special access specialist access

397

00:16:54,940 --> 00:16:51,470

program lists those leads with with the

398

00:16:57,460 --> 00:16:54,950

Undersecretary of advanced technology

399

00:16:59,440 --> 00:16:57,470

and all the yet the deputy assistant

400

00:17:01,420 --> 00:16:59,450

record oh sorry I should say deputy

401  
00:17:02,860 --> 00:17:01,430  
assistant records say undersecretary of

402  
00:17:04,630 --> 00:17:02,870  
advanced technology or if it was

403  
00:17:06,610 --> 00:17:04,640  
advanced development whatever the this

404  
00:17:08,199 --> 00:17:06,620  
potentially leads here but I mean

405  
00:17:10,630 --> 00:17:08,209  
submitting an F oh well I say now in

406  
00:17:12,490 --> 00:17:10,640  
what are we the middle of 2019 may not

407  
00:17:18,699 --> 00:17:12,500  
generate we're called records if at all

408  
00:17:21,550 --> 00:17:18,709  
till 2020 2021 2022 to it you know so so

409  
00:17:23,740 --> 00:17:21,560  
it's it's painfully slow and the other

410  
00:17:25,030 --> 00:17:23,750  
thing is is the potential for records to

411  
00:17:27,970 --> 00:17:25,040  
come out that are just that are just

412  
00:17:29,890 --> 00:17:27,980  
covered in black ink as in like very

413  
00:17:31,900 --> 00:17:29,900

significant reduction and the chances of

414

00:17:33,280 --> 00:17:31,910

that are actually quite high like the

415

00:17:35,260 --> 00:17:33,290

only thing we've got going for it is

416

00:17:37,660 --> 00:17:35,270

that is that this is that this is quite

417

00:17:39,820 --> 00:17:37,670

old and obviously as time goes on

418

00:17:41,410 --> 00:17:39,830

documents records don't necessarily

419

00:17:43,180 --> 00:17:41,420

warrants the classification that they

420

00:17:46,330 --> 00:17:43,190

used to have sometimes what they do

421

00:17:49,420 --> 00:17:46,340

which is it is a good thing they do this

422

00:17:51,520 --> 00:17:49,430

a lot with me with NORTHCOM and Stratcom

423

00:17:53,470 --> 00:17:51,530

the US Strategic Command and Northern

424

00:17:55,840 --> 00:17:53,480

Command is what they do is they'll

425

00:17:58,480 --> 00:17:55,850

they'll essentially have release

426

00:18:00,640 --> 00:17:58,490

completely redacted records or writ

427

00:18:02,890 --> 00:18:00,650

records so that really the best stuff is

428

00:18:04,450 --> 00:18:02,900

blacked out but then they'll tell you

429

00:18:06,820 --> 00:18:04,460

that this document is due for another

430

00:18:08,740 --> 00:18:06,830

review in eight years or ten years or

431

00:18:10,660 --> 00:18:08,750

whatever and so they're effectively

432

00:18:12,490 --> 00:18:10,670

saying you know like this document right

433

00:18:17,200 --> 00:18:12,500

now is classified you know it's a secret

434

00:18:19,000 --> 00:18:17,210

but but like it's due for a downgrading

435

00:18:21,220 --> 00:18:19,010

in a certain time not being an

436

00:18:25,030 --> 00:18:21,230

instruction or a manual or a pamphlet or

437

00:18:27,810 --> 00:18:25,040

a a budgetary per piece of budgetary or

438

00:18:30,190 --> 00:18:27,820

fiscal information line items

439

00:18:32,950 --> 00:18:30,200

memorandums of understanding command

440

00:18:34,540 --> 00:18:32,960

directives whatever and that and

441

00:18:36,760 --> 00:18:34,550

sometimes they'll say I've certainly got

442

00:18:39,700 --> 00:18:36,770

one US Strategic Command instruction

443

00:18:43,120 --> 00:18:39,710

that relates to spy surveillance and it

444

00:18:45,700 --> 00:18:43,130

does say that it is due for downgrading

445

00:18:47,580 --> 00:18:45,710

from secret to your hope unclassified

446

00:18:52,240 --> 00:18:47,590

it's due for downgrading I think it was

447

00:18:54,550 --> 00:18:52,250

2027 so the the there is a possibility

448

00:18:57,070 --> 00:18:54,560

that the that in the long-term future we

449

00:19:00,729 --> 00:18:57,080

may get some action on this yeah

450

00:19:03,340 --> 00:19:00,739

yeah yeah looking at looking at this it

451  
00:19:05,259 --> 00:19:03,350  
seems to me again know that somebody has

452  
00:19:07,299 --> 00:19:05,269  
basically got to get hold of Wilson and

453  
00:19:08,919 --> 00:19:07,309  
that they do you know where you were on

454  
00:19:10,810 --> 00:19:08,929  
that such-and-such a date

455  
00:19:12,700 --> 00:19:10,820  
whatever the meeting did but memorized

456  
00:19:15,639 --> 00:19:12,710  
off the top of my head were you in Vegas

457  
00:19:21,399 --> 00:19:15,649  
if he wasn't that presents a real

458  
00:19:23,830 --> 00:19:21,409  
problem yeah yeah yeah it does the the

459  
00:19:25,869 --> 00:19:23,840  
well I mean has anyone I don't know from

460  
00:19:27,279 --> 00:19:25,879  
Dan here but has anyone tried do you

461  
00:19:29,859 --> 00:19:27,289  
know of anyone who's trying to get on to

462  
00:19:32,399 --> 00:19:29,869  
Admiral Wilson like currently I do not

463  
00:19:34,930 --> 00:19:32,409

know it's again this kind of dropped and

464

00:19:36,549 --> 00:19:34,940

picked up the ball over the weekend we

465

00:19:39,190 --> 00:19:36,559

were originally talking to Michael about

466

00:19:41,499 --> 00:19:39,200

him coming on on Sunday and we're

467

00:19:43,299 --> 00:19:41,509

thinking about doing that but I really

468

00:19:45,099 --> 00:19:43,309

wanted to follow up and see if I can

469

00:19:47,529 --> 00:19:45,109

make direct contact with commander

470

00:19:49,930 --> 00:19:47,539

Wilson and he did return my call Monday

471

00:19:51,310 --> 00:19:49,940

I just as I was heading out to work so I

472

00:19:53,590 --> 00:19:51,320

didn't really have a lot of time to chat

473

00:19:55,419 --> 00:19:53,600

but you know obviously one of the

474

00:19:56,950 --> 00:19:55,429

opportunity to follow up and then chant

475

00:19:58,509 --> 00:19:56,960

went ahead and did that yesterday and

476  
00:20:00,549 --> 00:19:58,519  
then we did the show with Michael so

477  
00:20:02,019 --> 00:20:00,559  
really you know you got a you got to

478  
00:20:03,849 --> 00:20:02,029  
take care of business in your normal

479  
00:20:06,099 --> 00:20:03,859  
life and haven't had the chance to do

480  
00:20:08,320 --> 00:20:06,109  
that too much but you know I also think

481  
00:20:10,090 --> 00:20:08,330  
we've raised some pretty fair questions

482  
00:20:12,849 --> 00:20:10,100  
and there's a lot of possibilities here

483  
00:20:17,220 --> 00:20:12,859  
again that there's some real truth

484  
00:20:19,359 --> 00:20:17,230  
behind the docs even if the docs are

485  
00:20:21,999 --> 00:20:19,369  
fabricated and that's always a

486  
00:20:23,769 --> 00:20:22,009  
possibility and from having looked at

487  
00:20:25,359 --> 00:20:23,779  
the old majestic 12 Doc's that's what

488  
00:20:27,369 --> 00:20:25,369

kind of got me interested in this field

489

00:20:29,320 --> 00:20:27,379

in the first place as you can find

490

00:20:31,509 --> 00:20:29,330

things out there is interesting

491

00:20:34,090 --> 00:20:31,519

information there even if it's presented

492

00:20:36,039 --> 00:20:34,100

in sort of a fictionalized scenario that

493

00:20:37,779 --> 00:20:36,049

are actionable and that are useful and

494

00:20:39,940 --> 00:20:37,789

that's that why I'm not saying oh I

495

00:20:41,590 --> 00:20:39,950

debunked these docs and they're useless

496

00:20:43,419 --> 00:20:41,600

and they're crap I'm not saying I'm

497

00:20:45,460 --> 00:20:43,429

saying just the opposite of that this is

498

00:20:47,979 --> 00:20:45,470

what we found out so far and keep

499

00:20:49,330 --> 00:20:47,989

looking you know yeah and then of course

500

00:20:51,220 --> 00:20:49,340

I had to turn around and get ready and

501  
00:20:54,220 --> 00:20:51,230  
do this show with you tonight yeah is

502  
00:20:56,889 --> 00:20:54,230  
that you know I haven't had a whole lot

503  
00:20:58,090 --> 00:20:56,899  
of time but but again you know there's

504  
00:21:00,460 --> 00:20:58,100  
other people out there we're not the

505  
00:21:01,810 --> 00:21:00,470  
only UFO researchers in the world let

506  
00:21:04,749 --> 00:21:01,820  
some other people try to run some of

507  
00:21:07,029 --> 00:21:04,759  
this stuff down but as it stands now you

508  
00:21:10,280 --> 00:21:07,039  
know from looking at that past Nona

509  
00:21:12,710 --> 00:21:10,290  
Posey fakes yeah they're really well

510  
00:21:14,900 --> 00:21:12,720  
research you know and another thing that

511  
00:21:17,600 --> 00:21:14,910  
I think is important is that it's always

512  
00:21:19,340 --> 00:21:17,610  
a lot easier to do your research in this

513  
00:21:22,280 --> 00:21:19,350

day and age with an Internet where you

514

00:21:24,680 --> 00:21:22,290

can generate some names and what their

515

00:21:26,660 --> 00:21:24,690

positions were and all that it seems to

516

00:21:28,580 --> 00:21:26,670

me that these documents were generated

517

00:21:30,200 --> 00:21:28,590

during that time frame as compared to

518

00:21:32,060 --> 00:21:30,210

when the majestic 12 documents were

519

00:21:33,860 --> 00:21:32,070

generated and that actually required

520

00:21:36,470 --> 00:21:33,870

some real footwork you know doing some

521

00:21:39,020 --> 00:21:36,480

either going directly to or hiring

522

00:21:42,340 --> 00:21:39,030

somebody to go to the Truman library and

523

00:21:46,310 --> 00:21:42,350

find that date when the Forrestal and

524

00:21:48,260 --> 00:21:46,320

the fellow who started Raytheon Bush met

525

00:21:50,750 --> 00:21:48,270

with Truman you know that that's kind of

526

00:21:53,290 --> 00:21:50,760

like a key tie-in to make them seem

527

00:21:55,580 --> 00:21:53,300

legit again I don't think they are

528

00:21:57,950 --> 00:21:55,590

you're you're on the same page with me

529

00:22:00,230 --> 00:21:57,960

or not on that that way yeah yeah yeah

530

00:22:01,700 --> 00:22:00,240

so a research this stuff pretty well and

531

00:22:02,870 --> 00:22:01,710

when you when you're able to do some

532

00:22:04,340 --> 00:22:02,880

research on the Internet

533

00:22:09,070 --> 00:22:04,350

it makes things a hell of a lot easier

534

00:22:11,900 --> 00:22:09,080

to concoct things you know yeah yeah

535

00:22:15,020 --> 00:22:11,910

it's it just same as we keep coming back

536

00:22:16,850 --> 00:22:15,030

to this you know like that these these

537

00:22:18,920 --> 00:22:16,860

documents that have the difficult

538

00:22:21,110 --> 00:22:18,930

Providence they appear in people's

539

00:22:24,850 --> 00:22:21,120

mailboxes or they appear you know burnt

540

00:22:27,410 --> 00:22:24,860

or they appear on on on websites that

541

00:22:31,820 --> 00:22:27,420

riddled with viruses and stuff like it's

542

00:22:32,960 --> 00:22:31,830

just I don't know like look the bottom

543

00:22:35,630 --> 00:22:32,970

line is I think at the end the

544

00:22:38,990 --> 00:22:35,640

implication is of course is that is that

545

00:22:41,060 --> 00:22:39,000

is is that there is request like you

546

00:22:43,760 --> 00:22:41,070

know being retrieved alien hardware

547

00:22:45,380 --> 00:22:43,770

retrieved extra-terrestrial hardware or

548

00:22:47,810 --> 00:22:45,390

hardware that's not American anyway and

549

00:22:50,120 --> 00:22:47,820

that the trying to reverse engineer it

550

00:22:51,530 --> 00:22:50,130

and so on my prediction is is just like

551  
00:22:54,470 --> 00:22:51,540  
with everything else in twelve months or

552  
00:22:58,030 --> 00:22:54,480  
five years time that you know there is

553  
00:23:00,710 --> 00:22:58,040  
going to be no sudden flooding of

554  
00:23:03,380 --> 00:23:00,720  
crashed space vehicle technology there's

555  
00:23:05,150 --> 00:23:03,390  
going to be no outpouring of highly

556  
00:23:07,100 --> 00:23:05,160  
highly classified records from the under

557  
00:23:09,080 --> 00:23:07,110  
the office of the Secretary of Defense

558  
00:23:11,960 --> 00:23:09,090  
there's going to be no deathbed

559  
00:23:14,420 --> 00:23:11,970  
confession from say Admiral Miller if he

560  
00:23:17,480 --> 00:23:14,430  
happens to pass away there's going to be

561  
00:23:21,680 --> 00:23:17,490  
no New York Times article that the dulse

562  
00:23:23,750 --> 00:23:21,690  
into the DIA s history there's going to

563  
00:23:26,360 --> 00:23:23,760

be no successful

564

00:23:28,550 --> 00:23:26,370

if I request that confirm all of this

565

00:23:30,830 --> 00:23:28,560

that's just one of those things yeah but

566

00:23:33,950 --> 00:23:30,840

there's still enough in that document

567

00:23:35,870 --> 00:23:33,960

that there's stuff to follow up on yeah

568

00:23:39,620 --> 00:23:35,880

yeah there's stuff to follow up on

569

00:23:42,980 --> 00:23:39,630

yeah the tapes of tapes to follow up yes

570

00:23:44,570 --> 00:23:42,990

so I don't know I think that it'll twist

571

00:23:46,100 --> 00:23:44,580

and turn someone really needs to get on

572

00:23:47,420 --> 00:23:46,110

to Admiral Miller I'll suppose I don't

573

00:23:51,020 --> 00:23:47,430

know if he would be taking calls like

574

00:23:54,560 --> 00:23:51,030

this I don't know I mean how would you

575

00:23:55,970 --> 00:23:54,570

even get on swim Billy Cox might have

576

00:23:59,150 --> 00:23:55,980

the best chance I don't know yeah Billy

577

00:24:00,830 --> 00:23:59,160

wrote an article today where yeah he's

578

00:24:05,480 --> 00:24:00,840

that sort of following up on all this

579

00:24:08,180 --> 00:24:05,490

and let's see I'm looking at it right

580

00:24:10,160 --> 00:24:08,190

now I don't know terribly adds to it he

581

00:24:13,670 --> 00:24:10,170

goes back over his old story because

582

00:24:16,220 --> 00:24:13,680

this basically this story came out as a

583

00:24:17,900 --> 00:24:16,230

result of a meeting that had that did

584

00:24:20,090 --> 00:24:17,910

happen nobody questions it they happened

585

00:24:24,160 --> 00:24:20,100

including Wilson himself from back in

586

00:24:27,290 --> 00:24:24,170

the day and it got out that yeah

587

00:24:29,180 --> 00:24:27,300

the scenario that's put in print was

588

00:24:31,760 --> 00:24:29,190

basically discussed the number of years

589

00:24:34,340 --> 00:24:31,770

ago and Cox followed up with him and

590

00:24:36,470 --> 00:24:34,350

Wilson denied it so there was that back

591

00:24:38,330 --> 00:24:36,480

at that point but now you know again

592

00:24:41,900 --> 00:24:38,340

you've got Wilson in a particular

593

00:24:43,880 --> 00:24:41,910

location on a particular day and you

594

00:24:45,830 --> 00:24:43,890

know that that's a lead that's worth

595

00:24:49,600 --> 00:24:45,840

following up on it seems to me anyway

596

00:24:52,180 --> 00:24:49,610

yeah whether I do it or not I don't know

597

00:24:55,160 --> 00:24:52,190

someone do it I don't know

598

00:24:56,570 --> 00:24:55,170

all right are we done with this we want

599

00:24:59,000 --> 00:24:56,580

to move on to some more knowledge to

600

00:25:00,860 --> 00:24:59,010

offer yeah yeah you got you got some

601  
00:25:02,480 --> 00:25:00,870  
more NORAD stuff since a you are with us

602  
00:25:06,470 --> 00:25:02,490  
last so once you tell us all about that

603  
00:25:08,720 --> 00:25:06,480  
well it's sort of well yeah I do there's

604  
00:25:12,680 --> 00:25:08,730  
there's a I probably should introduce

605  
00:25:16,430 --> 00:25:12,690  
this like this the the the United States

606  
00:25:20,060 --> 00:25:16,440  
Air Force in in an in an operational

607  
00:25:23,090 --> 00:25:20,070  
setting so that's in the field on the

608  
00:25:25,370 --> 00:25:23,100  
bases in the sky the US Air Force like

609  
00:25:27,320 --> 00:25:25,380  
the members of the US Air Force have to

610  
00:25:29,290 --> 00:25:27,330  
especially communications off this is

611  
00:25:33,050 --> 00:25:29,300  
base commander's deputy base commander's

612  
00:25:35,210 --> 00:25:33,060  
pilot pilot leads base executive

613  
00:25:37,430 --> 00:25:35,220

officers and so on they have to be able

614

00:25:39,200 --> 00:25:37,440

to report things up

615

00:25:41,240 --> 00:25:39,210

chyna of command and I don't mean things

616

00:25:43,220 --> 00:25:41,250

like the results of surveys and audits I

617

00:25:44,960 --> 00:25:43,230

don't mean things like you know the

618

00:25:47,330 --> 00:25:44,970

missing money I don't mean things like

619

00:25:51,259 --> 00:25:47,340

that I mean stuff that's up to date

620

00:25:55,129 --> 00:25:51,269

happening now such as you know outbreaks

621

00:25:57,830 --> 00:25:55,139

of flu the loss of the loss of actual

622

00:26:00,259 --> 00:25:57,840

material things falling off planes an

623

00:26:03,950 --> 00:26:00,269

active shooter they have to be out you

624

00:26:05,360 --> 00:26:03,960

know they that they need to evacuate a

625

00:26:07,249 --> 00:26:05,370

base whatever they have to be able to

626  
00:26:09,110 --> 00:26:07,259  
report things an oncoming hurricane it

627  
00:26:10,909 --> 00:26:09,120  
could be anything and one of the

628  
00:26:14,330 --> 00:26:10,919  
documents one of the pieces of us Bo's

629  
00:26:18,919 --> 00:26:14,340  
encoded rules or doctrine that lays out

630  
00:26:20,749 --> 00:26:18,929  
how Air Force bases and how Air Force

631  
00:26:22,820 --> 00:26:20,759  
officers actually report things it's

632  
00:26:24,440 --> 00:26:22,830  
it's a document I mean it's one of a few

633  
00:26:26,450 --> 00:26:24,450  
but it's there's a there's a good

634  
00:26:30,350 --> 00:26:26,460  
document it's called Air Force

635  
00:26:32,269 --> 00:26:30,360  
instruction 10 206 and the actual title

636  
00:26:38,899 --> 00:26:32,279  
of it is called operational reporting

637  
00:26:40,190 --> 00:26:38,909  
and this particular it's it's it's it's

638  
00:26:41,899 --> 00:26:40,200

been going for a long time this this

639

00:26:45,379 --> 00:26:41,909

particular piece of doctrines been going

640

00:26:47,629 --> 00:26:45,389

since 1995 I think and it's just gets

641

00:26:50,210 --> 00:26:47,639

amended and updated all the time but the

642

00:26:52,340 --> 00:26:50,220

the one of the types of reports and I've

643

00:26:54,169 --> 00:26:52,350

talked about a lot about this before one

644

00:26:57,560 --> 00:26:54,179

of the types of reports is called and

645

00:27:00,499 --> 00:26:57,570

I'll prep three and and I'll prep three

646

00:27:02,240 --> 00:27:00,509

eat right back even back to the 60s and

647

00:27:04,639 --> 00:27:02,250

I'll prep and especially now and I'll

648

00:27:07,610 --> 00:27:04,649

prep three is considered a serious

649

00:27:10,480 --> 00:27:07,620

incident or a serious event report and

650

00:27:15,440 --> 00:27:10,490

it's kind of like a miscellaneous report

651  
00:27:16,820 --> 00:27:15,450  
well it overall it's it's it's a it

652  
00:27:20,560 --> 00:27:16,830  
certainly used to be like a

653  
00:27:22,970 --> 00:27:20,570  
miscellaneous report for for anything

654  
00:27:25,730 --> 00:27:22,980  
that was developing very very quickly

655  
00:27:28,190 --> 00:27:25,740  
that it was a dire concern to local

656  
00:27:30,110 --> 00:27:28,200  
commanders was potentially going to be

657  
00:27:31,999 --> 00:27:30,120  
very embarrassing or very costly in

658  
00:27:33,649 --> 00:27:32,009  
terms of lives or financially or

659  
00:27:35,480 --> 00:27:33,659  
whatever and um and you know just to

660  
00:27:37,279 --> 00:27:35,490  
jump in I don't know if you're aware of

661  
00:27:39,649 --> 00:27:37,289  
this or not but when he had a kevin day

662  
00:27:42,560 --> 00:27:39,659  
on the show I think was very late last

663  
00:27:44,299 --> 00:27:42,570

year and he is the radar operator on the

664

00:27:46,070 --> 00:27:44,309

Princeton during their the tic-tac case

665

00:27:49,129 --> 00:27:46,080

he had mentioned that he at least

666

00:27:50,720 --> 00:27:49,139

considered filing a prep 3:03 report he

667

00:27:52,610 --> 00:27:50,730

didn't do it but they

668

00:27:55,370 --> 00:27:52,620

thought about it so there's that little

669

00:27:56,659 --> 00:27:55,380

aside there yeah now that would be that

670

00:27:58,580 --> 00:27:56,669

would be that would that would be

671

00:28:01,100 --> 00:27:58,590

actually a pretty good situation either

672

00:28:02,870 --> 00:28:01,110

they're actually the when I say yeah

673

00:28:04,970 --> 00:28:02,880

when I say the Air Force have our prep

674

00:28:07,190 --> 00:28:04,980

throws it's actually all branches of the

675

00:28:09,080 --> 00:28:07,200

military now you see I prep three

676  
00:28:12,440 --> 00:28:09,090  
reporting channel it's it's literally a

677  
00:28:14,150 --> 00:28:12,450  
it's it's it's like a it's like an

678  
00:28:18,460 --> 00:28:14,160  
actual reporting channel that that's

679  
00:28:20,630 --> 00:28:18,470  
already embedded you just simply have to

680  
00:28:22,310 --> 00:28:20,640  
simply the computer would you would

681  
00:28:23,419 --> 00:28:22,320  
simply select our prep that's not

682  
00:28:27,350 --> 00:28:23,429  
something you want to do I actually

683  
00:28:29,450 --> 00:28:27,360  
asked a base executive officer for our

684  
00:28:31,039 --> 00:28:29,460  
Kings Bay Naval Station which I think

685  
00:28:33,260 --> 00:28:31,049  
was it's in Georgia or somewhere like

686  
00:28:35,720 --> 00:28:33,270  
that I actually asked him have you ever

687  
00:28:38,360 --> 00:28:35,730  
sent an opera tree and he said no way

688  
00:28:40,159 --> 00:28:38,370

and I said and I said why and he said

689

00:28:41,659 --> 00:28:40,169

because you're in a lot of trouble like

690

00:28:44,000 --> 00:28:41,669

if you're sending submitting an opera at

691

00:28:46,190 --> 00:28:44,010

three he said look we practice them all

692

00:28:47,659 --> 00:28:46,200

the time but we he said I've never

693

00:28:51,770 --> 00:28:47,669

personally sent one he said I've never

694

00:28:54,440 --> 00:28:51,780

seen one sent and anyway so the oh yeah

695

00:28:56,510 --> 00:28:54,450

I I hate to interrupt but also another

696

00:28:58,490 --> 00:28:56,520

little aside I was actually reading an

697

00:29:00,500 --> 00:28:58,500

article about their sexual harassment in

698

00:29:02,630 --> 00:29:00,510

the military and that is a channel for

699

00:29:06,500 --> 00:29:02,640

that as well not that anything close to

700

00:29:09,860 --> 00:29:06,510

it's kind of a a catch-all for anything

701  
00:29:11,810 --> 00:29:09,870  
that really needs to get addressed yeah

702  
00:29:13,100 --> 00:29:11,820  
yeah it is it is a catch-all it's

703  
00:29:16,190 --> 00:29:13,110  
certainly used to be and this is what

704  
00:29:20,600 --> 00:29:16,200  
well the it is a it is a catch-all the

705  
00:29:24,320 --> 00:29:20,610  
the that there is there is actually a

706  
00:29:27,230 --> 00:29:24,330  
number of it was a number of documents

707  
00:29:29,480 --> 00:29:27,240  
that lie lay out the sort of things that

708  
00:29:32,060 --> 00:29:29,490  
that an opera prey should enclose

709  
00:29:35,930 --> 00:29:32,070  
include and sometimes they're as simple

710  
00:29:38,650 --> 00:29:35,940  
as anything of major concern to an

711  
00:29:41,060 --> 00:29:38,660  
installation that requires major command

712  
00:29:43,310 --> 00:29:41,070  
assistance or reporting and blah blah

713  
00:29:45,440 --> 00:29:43,320

blah so it is something serious but the

714

00:29:47,299 --> 00:29:45,450

there are different when you get into it

715

00:29:48,830 --> 00:29:47,309

there are different categories certainly

716

00:29:54,020 --> 00:29:48,840

within the Air Force there are different

717

00:29:57,440 --> 00:29:54,030

categories of operatories this does does

718

00:30:01,130 --> 00:29:57,450

loss reports those cyberattack reports

719

00:30:04,240 --> 00:30:01,140

and so on but the the current Air Force

720

00:30:07,570 --> 00:30:04,250

operational reporting instra

721

00:30:10,690 --> 00:30:07,580

it runs at say 100 pages or whatever it

722

00:30:12,040 --> 00:30:10,700

doesn't actually have the doesn't

723

00:30:14,590 --> 00:30:12,050

actually really have the different

724

00:30:16,510 --> 00:30:14,600

classes or categories of operatories

725

00:30:19,300 --> 00:30:16,520

that can be sent because they are

726

00:30:23,860 --> 00:30:19,310

contained you know in like an attachment

727

00:30:25,870 --> 00:30:23,870

like an enclosure document and and we

728

00:30:27,880 --> 00:30:25,880

didn't it's actually called an opera 3

729

00:30:30,850 --> 00:30:27,890

matrix or in the case of the current air

730

00:30:33,400 --> 00:30:30,860

force it's called a chief of staff of

731

00:30:36,130 --> 00:30:33,410

the air force op prep 3 reporting matrix

732

00:30:38,620 --> 00:30:36,140

and as far as we know no no one no one

733

00:30:42,160 --> 00:30:38,630

in the UFO field or just generally has

734

00:30:44,140 --> 00:30:42,170

we've had a copy of this particular 15

735

00:30:46,240 --> 00:30:44,150

page matrix it just it just lays out all

736

00:30:48,460 --> 00:30:46,250

the different types of our prep 3

737

00:30:50,800 --> 00:30:48,470

reporting's and sexual I think sexual

738

00:30:53,110 --> 00:30:50,810

harassment is one of them there's active

739

00:30:54,490 --> 00:30:53,120

shooter the cyber attack this emergency

740

00:31:03,430 --> 00:30:54,500

evacuation there's lots of a nuclear

741

00:31:06,130 --> 00:31:03,440

warhead and so on and the the the thing

742

00:31:08,440 --> 00:31:06,140

is is that is that if you read the

743

00:31:10,710 --> 00:31:08,450

operatory manual it says that that all

744

00:31:14,260 --> 00:31:10,720

our prep threes have to go to somewhere

745

00:31:16,690 --> 00:31:14,270

called a called the air force service

746

00:31:19,180 --> 00:31:16,700

watch cell and we hadn't seen that I

747

00:31:22,360 --> 00:31:19,190

mean we knew that our prep 3 reports go

748

00:31:25,000 --> 00:31:22,370

to the National Military Command Center

749

00:31:27,460 --> 00:31:25,010

they go to the nearest major commands

750

00:31:29,740 --> 00:31:27,470

they can go to the CIA they can go to

751

00:31:31,810 --> 00:31:29,750

the White House they can go to the

752

00:31:35,500 --> 00:31:31,820

numbered Air Force's like 8th Air Force

753

00:31:38,230 --> 00:31:35,510

or 15th Air Force or whatever but we we

754

00:31:39,820 --> 00:31:38,240

never really make me and a friend I've

755

00:31:41,440 --> 00:31:39,830

got a I've got a colleague in England

756

00:31:44,620 --> 00:31:41,450

called David Carmichael we'd sort of

757

00:31:48,010 --> 00:31:44,630

forgotten that that this this Air Force

758

00:31:49,810 --> 00:31:48,020

service watch cell actually was on the

759

00:31:53,110 --> 00:31:49,820

distribution list for all Air Force or

760

00:31:55,090 --> 00:31:53,120

prep trees so on the let's say I think

761

00:31:56,310 --> 00:31:55,100

it was that yeah it was the 16th of May

762

00:31:58,510 --> 00:31:56,320

2017

763

00:32:00,340 --> 00:31:58,520

my friend David Carmichael he's

764

00:32:01,480 --> 00:32:00,350  
submitted an FOI request to the

765

00:32:04,840 --> 00:32:01,490  
headquarters of United States Air Force

766

00:32:06,790 --> 00:32:04,850  
for the most recent copy or one that I'm

767

00:32:09,310 --> 00:32:06,800  
quoting here the most recent copy or one

768

00:32:11,320 --> 00:32:09,320  
that is deemed releasable of the of the

769

00:32:13,030 --> 00:32:11,330  
chief of staff of the Air Force opera

770

00:32:15,310 --> 00:32:13,040  
preparatory reports matrix

771

00:32:16,420 --> 00:32:15,320  
anyway nine months later it was the end

772

00:32:17,710 --> 00:32:16,430  
of February

773

00:32:19,510 --> 00:32:17,720  
David Carmichael

774

00:32:22,080 --> 00:32:19,520  
finally got an answer he got a reply

775

00:32:24,700 --> 00:32:22,090  
from the Secretary of the Air Force and

776

00:32:27,070 --> 00:32:24,710

they actually said that's fine you can

777

00:32:28,960 --> 00:32:27,080

have a copy it's unclassified and her

778

00:32:31,090 --> 00:32:28,970

exact words were in response to if I

779

00:32:32,920 --> 00:32:31,100

were a request for the Chief of Air

780

00:32:35,230 --> 00:32:32,930

Staff operator reports matrix the Air

781

00:32:37,480 --> 00:32:35,240

Force is based on information operations

782

00:32:39,850 --> 00:32:37,490

area Air Force watch so determined that

783

00:32:43,510 --> 00:32:39,860

the attached documents to be responsive

784

00:32:47,110 --> 00:32:43,520

to your request and so out comes a 15

785

00:32:50,950 --> 00:32:47,120

page list essentially a huge table of

786

00:32:52,660 --> 00:32:50,960

the types of these very serious reports

787

00:32:55,390 --> 00:32:52,670

that can be sent and like I said there's

788

00:32:59,290 --> 00:32:55,400

everything in there a loss of nuclear

789

00:33:02,170 --> 00:32:59,300

war a warhead a sudden disruption to

790

00:33:06,040 --> 00:33:02,180

electrical activity on a base and then

791

00:33:08,980 --> 00:33:06,050

curiously on page on page I think was

792

00:33:11,050 --> 00:33:08,990

page 9 there was there was two

793

00:33:14,650 --> 00:33:11,060

categories or subcategories of our prep

794

00:33:16,510 --> 00:33:14,660

3 that I looked at them and and all we

795

00:33:19,540 --> 00:33:16,520

both looked at them and there is

796

00:33:21,760 --> 00:33:19,550

absolutely no question that both of them

797

00:33:25,000 --> 00:33:21,770

could generate UFO reports and in fact

798

00:33:27,670 --> 00:33:25,010

the second one is particularly likely

799

00:33:29,590 --> 00:33:27,680

and in the past the same wording was

800

00:33:32,680 --> 00:33:29,600

used and actually was used for you if I

801  
00:33:34,600 --> 00:33:32,690  
reports it was the 8th so I'll go

802  
00:33:37,060 --> 00:33:34,610  
through the first one it's it's it's

803  
00:33:39,820 --> 00:33:37,070  
rule or it's operatory category is 9

804  
00:33:42,850 --> 00:33:39,830  
beep and it's called the title of it is

805  
00:33:44,860 --> 00:33:42,860  
called unauthorized vehicle military

806  
00:33:48,970 --> 00:33:44,870  
installation airspace violation or

807  
00:33:50,920 --> 00:33:48,980  
intrusion and it actually says that the

808  
00:33:53,880 --> 00:33:50,930  
description of this particular operatory

809  
00:33:56,410 --> 00:33:53,890  
for commanders it says any confirmed

810  
00:33:58,480 --> 00:33:56,420  
unauthorized civilians small unmanned

811  
00:34:01,030 --> 00:33:58,490  
aircraft system remotely piloted

812  
00:34:02,850 --> 00:34:01,040  
aircraft unmanned aerial vehicle gyro

813  
00:34:05,050 --> 00:34:02,860

copter or similar car aircraft

814

00:34:07,480 --> 00:34:05,060

positioned over any Department of

815

00:34:10,180 --> 00:34:07,490

Defense mission activity facility asset

816

00:34:11,740 --> 00:34:10,190

installation ships convoys etc the

817

00:34:14,770 --> 00:34:11,750

report will include at minimum

818

00:34:17,560 --> 00:34:14,780

description of aerial object or device

819

00:34:21,250 --> 00:34:17,570

the color of it identifying markings

820

00:34:24,250 --> 00:34:21,260

actual size manufacturer distance from

821

00:34:27,940 --> 00:34:24,260

observer blah blah blah goes on then it

822

00:34:30,550 --> 00:34:27,950

says also as applicable any event such

823

00:34:32,710 --> 00:34:30,560

as an exercise and inspection etc

824

00:34:35,350 --> 00:34:32,720

that was in progress at the time of the

825

00:34:38,649 --> 00:34:35,360

reported observation finally it says

826

00:34:40,960 --> 00:34:38,659

note units will send initial operatory

827

00:34:44,490 --> 00:34:40,970

report to Air Force service watch cell

828

00:34:47,710 --> 00:34:44,500

within one hour of confirmed you a

829

00:34:49,780 --> 00:34:47,720

sighting and final report report if

830

00:34:52,480 --> 00:34:49,790

applicable within three hours after the

831

00:34:54,399 --> 00:34:52,490

event or incident so here you've got

832

00:34:57,000 --> 00:34:54,409

it's quite obvious what this is for this

833

00:35:00,910 --> 00:34:57,010

is this is for pesky drones or

834

00:35:02,680 --> 00:35:00,920

threatening unmanned aerial systems that

835

00:35:05,080 --> 00:35:02,690

are hovering over bases hovering near

836

00:35:06,730 --> 00:35:05,090

planes taking on and off now they could

837

00:35:08,200 --> 00:35:06,740

be completely innocuous just a bunch of

838

00:35:10,900 --> 00:35:08,210

a bunch of kids playing with a remote

839

00:35:15,040 --> 00:35:10,910

control plane right through to a serious

840

00:35:17,950 --> 00:35:15,050

open like foreign or terrorist actions

841

00:35:20,560 --> 00:35:17,960

to take photographs of a sensitive base

842

00:35:22,450 --> 00:35:20,570

or over fly to disrupt the flights or

843

00:35:25,090 --> 00:35:22,460

jam communications or listening in on

844

00:35:26,440 --> 00:35:25,100

communications not now that's fine

845

00:35:28,600 --> 00:35:26,450

that's probably what it is for though

846

00:35:30,900 --> 00:35:28,610

there's nothing about this that screams

847

00:35:34,450 --> 00:35:30,910

at me that it's a secret you know a

848

00:35:37,690 --> 00:35:34,460

little channel to report UFO sightings

849

00:35:39,880 --> 00:35:37,700

however imagine you're on a base or

850

00:35:42,340 --> 00:35:39,890

you're near a convoy of of Air Force

851

00:35:44,320 --> 00:35:42,350

trucks or you're near as some sort of

852

00:35:47,980 --> 00:35:44,330

Air Force installation or a rocket range

853

00:35:49,150 --> 00:35:47,990

or whatever and it's sunset and there's

854

00:35:50,590 --> 00:35:49,160

something in the sky you know you

855

00:35:52,090 --> 00:35:50,600

immediately think well it's making a

856

00:35:54,220 --> 00:35:52,100

little bit of noise it's not applying

857

00:35:55,630 --> 00:35:54,230

whatever you reported as an opera tree

858

00:35:58,600 --> 00:35:55,640

you don't actually know what it is I

859

00:36:00,160 --> 00:35:58,610

mean if if obviously if it's got if it's

860

00:36:02,320 --> 00:36:00,170

got rotors on it and it's got some

861

00:36:05,980 --> 00:36:02,330

markings and a camera it's obviously a

862

00:36:09,480 --> 00:36:05,990

giant a drone but what my contention is

863

00:36:12,730 --> 00:36:09,490

is that this this type of report could

864

00:36:14,770 --> 00:36:12,740

generate UFO sightings especially if the

865

00:36:16,900 --> 00:36:14,780

if the report is sent up the chain of

866

00:36:18,670 --> 00:36:16,910

command to the Air Force Service watch

867

00:36:21,370 --> 00:36:18,680

so very rapidly if everything's done in

868

00:36:22,900 --> 00:36:21,380

a hurry you know there could be if you

869

00:36:24,700 --> 00:36:22,910

look if you if we were able to go

870

00:36:27,940 --> 00:36:24,710

through all these opera trees that could

871

00:36:30,580 --> 00:36:27,950

be a some really serious UFO reports in

872

00:36:32,890 --> 00:36:30,590

there so that's the first one that I

873

00:36:36,310 --> 00:36:32,900

found but the next one is actually quite

874

00:36:39,190 --> 00:36:36,320

a bit more important it's rule code is

875

00:36:42,340 --> 00:36:39,200

nine F and it's it's description is

876  
00:36:43,040 --> 00:36:42,350  
vital intelligence sightings slash Intel

877  
00:36:47,800 --> 00:36:43,050  
reports

878  
00:36:50,600 --> 00:36:47,810  
and it's descriptor says a any or all

879  
00:36:54,170 --> 00:36:50,610  
unidentifiable suspicious or hostile

880  
00:36:56,690 --> 00:36:54,180  
traffic that means land aerospace or sea

881  
00:36:58,760 --> 00:36:56,700  
which because of its nature course or

882  
00:37:00,980 --> 00:36:58,770  
actions may constitute a threat to

883  
00:37:04,490 --> 00:37:00,990  
security of the US and Canada

884  
00:37:07,850 --> 00:37:04,500  
include a includes reports from airborne

885  
00:37:09,830 --> 00:37:07,860  
platforms the significant air receipt of

886  
00:37:12,440 --> 00:37:09,840  
significant intelligence received

887  
00:37:13,850 --> 00:37:12,450  
through other Intel channels now the

888  
00:37:15,680 --> 00:37:13,860

wording of this is really interesting

889

00:37:18,860 --> 00:37:15,690

the title which is vital intelligence

890

00:37:20,560 --> 00:37:18,870

sightings and Intel reports it matches a

891

00:37:26,990 --> 00:37:20,570

very old

892

00:37:29,840 --> 00:37:27,000

that has been around since 1954 and

893

00:37:33,470 --> 00:37:29,850

that's the old service reporting and the

894

00:37:37,820 --> 00:37:33,480

old service reporting of course it stood

895

00:37:39,650 --> 00:37:37,830

for the communications you'd think I'd

896

00:37:42,350 --> 00:37:39,660

know this the communications

897

00:37:45,050 --> 00:37:42,360

instructions for reporting of vital

898

00:37:47,660 --> 00:37:45,060

intelligence sightings that's exactly

899

00:37:49,370 --> 00:37:47,670

what was is in the current operator

900

00:37:52,960 --> 00:37:49,380

matrix so so what I'm saying is from

901  
00:37:56,090 --> 00:37:52,970  
from really 1954 well into the 80s

902  
00:37:57,770 --> 00:37:56,100  
America and Canada promulgated a manual

903  
00:38:00,500 --> 00:37:57,780  
called Joan upon for six and it had

904  
00:38:01,970 --> 00:38:00,510  
within it these service reporting's for

905  
00:38:04,910 --> 00:38:01,980  
pilots and other members of the Armed

906  
00:38:07,550 --> 00:38:04,920  
Forces to report so-called vital

907  
00:38:09,290 --> 00:38:07,560  
intelligence sightings and they included

908  
00:38:10,400 --> 00:38:09,300  
but right back in the doctrine back then

909  
00:38:12,680 --> 00:38:10,410  
in the in the rulebook

910  
00:38:13,970 --> 00:38:12,690  
they included missiles anything

911  
00:38:16,220 --> 00:38:13,980  
threatening the United States in the

912  
00:38:18,500 --> 00:38:16,230  
form of like bombers or suspicious air

913  
00:38:20,450 --> 00:38:18,510

air contrails submarines but right in

914

00:38:23,720 --> 00:38:20,460

there traditionally has always been the

915

00:38:27,050 --> 00:38:23,730

word UFO unidentified flying objects so

916

00:38:31,100 --> 00:38:27,060

we're seeing not only the title of this

917

00:38:33,080 --> 00:38:31,110

current 2017 era or prep three matrix

918

00:38:36,050 --> 00:38:33,090

we're seeing the term vital intelligence

919

00:38:38,990 --> 00:38:36,060

sightings now and this this that exact

920

00:38:41,240 --> 00:38:39,000

term goes back to the traditional UFO or

921

00:38:46,190 --> 00:38:41,250

unknown object reporting procedures of

922

00:38:47,420 --> 00:38:46,200

the past and the because so listeners I

923

00:38:50,300 --> 00:38:47,430

mean this is a this is a bit of a

924

00:38:51,680 --> 00:38:50,310

footnote but service reporting the

925

00:38:52,930 --> 00:38:51,690

traditional service reporting was

926  
00:38:55,270 --> 00:38:52,940  
actually removed

927  
00:38:59,170 --> 00:38:55,280  
from Air Force operational reporting

928  
00:39:01,090 --> 00:38:59,180  
doctrine in 2011 and and it appears that

929  
00:39:04,120 --> 00:39:01,100  
simply moved it simply moved to the

930  
00:39:06,760 --> 00:39:04,130  
operat three report matrix which has

931  
00:39:09,520 --> 00:39:06,770  
been an article that we've only just

932  
00:39:10,750 --> 00:39:09,530  
like I was saying if I want now so this

933  
00:39:13,030 --> 00:39:10,760  
is this is really interesting so

934  
00:39:15,250 --> 00:39:13,040  
obviously the only the thing we can do

935  
00:39:18,640 --> 00:39:15,260  
from here is which is what I did

936  
00:39:20,650 --> 00:39:18,650  
straightaway is the smart thing to do

937  
00:39:22,210 --> 00:39:20,660  
was obviously the the Air Force service

938  
00:39:23,560 --> 00:39:22,220

watch cell at headquarters Air Force

939

00:39:26,410 --> 00:39:23,570

which is part of the National Military

940

00:39:28,360 --> 00:39:26,420

Command Center they receive all our prep

941

00:39:31,270 --> 00:39:28,370

threes from all Air Force installations

942

00:39:34,090 --> 00:39:31,280

and communication systems and so my

943

00:39:35,440 --> 00:39:34,100

first thing to do was to I mean

944

00:39:37,240 --> 00:39:35,450

obviously if they've got these two

945

00:39:40,060 --> 00:39:37,250

categories of our prep threes which

946

00:39:41,980 --> 00:39:40,070

which Parsifal unidentified things and

947

00:39:44,260 --> 00:39:41,990

identified intelligence sightings weird

948

00:39:46,210 --> 00:39:44,270

stuff that flies whatever above bases or

949

00:39:49,600 --> 00:39:46,220

near planes or whatever my first thing

950

00:39:51,520 --> 00:39:49,610

was to immediately ask the Air Force for

951  
00:39:53,890 --> 00:39:51,530  
copies of any operat threats that have

952  
00:39:55,570 --> 00:39:53,900  
been reported like that and so what I

953  
00:39:58,300 --> 00:39:55,580  
actually wrote I mean it's pretty

954  
00:40:00,040 --> 00:39:58,310  
long-winded but I wrote who I submitted

955  
00:40:02,800 --> 00:40:00,050  
an FOI request to headquarters US Air

956  
00:40:04,660 --> 00:40:02,810  
Force for and I quote electronic or hard

957  
00:40:06,640 --> 00:40:04,670  
copy records of ah prep three reports

958  
00:40:09,580 --> 00:40:06,650  
submitted from the field bases

959  
00:40:11,800 --> 00:40:09,590  
commanders etc to or through the Air

960  
00:40:13,960 --> 00:40:11,810  
Force service watch so this cell may now

961  
00:40:15,520 --> 00:40:13,970  
be known as Air Force watch because I

962  
00:40:17,620 --> 00:40:15,530  
think I sort of the name had change and

963  
00:40:20,140 --> 00:40:17,630

then I've written but either way it is

964

00:40:22,960 --> 00:40:20,150

the local where incoming operat 3s come

965

00:40:26,260 --> 00:40:22,970

in blah blah blah and I've asked for any

966

00:40:28,650 --> 00:40:26,270

any any nine B or 9 F category or prep

967

00:40:31,150 --> 00:40:28,660

threes that would include keywords like

968

00:40:34,300 --> 00:40:31,160

unidentified aircraft UFO unusually

969

00:40:36,070 --> 00:40:34,310

aircraft low-flying aircraft etc so and

970

00:40:37,720 --> 00:40:36,080

again with foi it could be two years

971

00:40:40,710 --> 00:40:37,730

before we get an answer maybe a whole

972

00:40:45,100 --> 00:40:40,720

lot of documents will come out yeah okay

973

00:40:47,200 --> 00:40:45,110

and so let me ask you this the

974

00:40:49,330 --> 00:40:47,210

unidentified shows come out now you're

975

00:40:50,860 --> 00:40:49,340

down in Australia so have you had a

976

00:40:55,060 --> 00:40:50,870

chance to watch it yet the first couple

977

00:40:57,280 --> 00:40:55,070

of episodes okay there is a way there is

978

00:40:59,770 --> 00:40:57,290

a way we can watch it okay it's a little

979

00:41:01,330 --> 00:40:59,780

it's a little bit jumpy I think it comes

980

00:41:02,140 --> 00:41:01,340

through a service from somewhere in

981

00:41:04,870 --> 00:41:02,150

Eastern Europe

982

00:41:07,040 --> 00:41:04,880

it's obviously not legitimate but you

983

00:41:08,510 --> 00:41:07,050

know I I just

984

00:41:11,030 --> 00:41:08,520

have I have seen the first two episodes

985

00:41:13,580 --> 00:41:11,040

and um yeah you know they could that you

986

00:41:16,250 --> 00:41:13,590

know there's so many documentary series

987

00:41:18,590 --> 00:41:16,260

or individual documentaries or or

988

00:41:20,560 --> 00:41:18,600

whatever that have royally screwed up

989

00:41:25,400 --> 00:41:20,570

and missed the boat they've quoted

990

00:41:27,950 --> 00:41:25,410

completely superseded people or the

991

00:41:30,290 --> 00:41:27,960

people who are a little marginal or

992

00:41:33,800 --> 00:41:30,300

whatever but this this one is is is

993

00:41:34,850 --> 00:41:33,810

actually compared to most of the of the

994

00:41:36,830 --> 00:41:34,860

stuff that's come out in the last

995

00:41:38,990 --> 00:41:36,840

whatever years and the unidentified

996

00:41:40,370 --> 00:41:39,000

series is actually pretty good I think

997

00:41:41,990 --> 00:41:40,380

to their credit they're actually trying

998

00:41:44,870 --> 00:41:42,000

to do something very different it's

999

00:41:46,610 --> 00:41:44,880

something that that individually no UFO

1000

00:41:49,610 --> 00:41:46,620

research could have done I mean that

1001  
00:41:52,490 --> 00:41:49,620  
like like it to do to do what they've

1002  
00:41:54,020 --> 00:41:52,500  
done in a reasonable quick time is is

1003  
00:41:55,370 --> 00:41:54,030  
really good they're approaching this

1004  
00:41:58,160 --> 00:41:55,380  
from a slightly different angle and

1005  
00:42:00,740 --> 00:41:58,170  
obviously when the Navy are involved and

1006  
00:42:04,790 --> 00:42:00,750  
when current not just retired but

1007  
00:42:06,350 --> 00:42:04,800  
current naval serving officers are

1008  
00:42:08,390 --> 00:42:06,360  
involved that's that's a very very

1009  
00:42:11,560 --> 00:42:08,400  
serious break from from the standard

1010  
00:42:15,230 --> 00:42:11,570  
fair I mean most UFO documentaries a

1011  
00:42:16,520 --> 00:42:15,240  
people that left military commands or

1012  
00:42:19,880 --> 00:42:16,530  
left the aviation community

1013  
00:42:21,440 --> 00:42:19,890

you know 10 20 30 years ago and we've

1014

00:42:23,960 --> 00:42:21,450

got a situation where we're current

1015

00:42:28,640 --> 00:42:23,970

people or very recently retired people

1016

00:42:32,330 --> 00:42:28,650

who are sort of somewhat unpolluted you

1017

00:42:34,220 --> 00:42:32,340

know the the they've been quoted and and

1018

00:42:37,400 --> 00:42:34,230

I and I think that the people involved

1019

00:42:38,900 --> 00:42:37,410

are actually quite truthful I mean

1020

00:42:41,210 --> 00:42:38,910

there's a lot of ads and there's a lot

1021

00:42:44,200 --> 00:42:41,220

of driving around and pictures of Tom's

1022

00:42:47,780 --> 00:42:44,210

along with his rock shirts rucksack on I

1023

00:42:49,820 --> 00:42:47,790

mean it's a show I mean this there's an

1024

00:42:51,680 --> 00:42:49,830

element of they can't just bombard

1025

00:42:53,780 --> 00:42:51,690

especially for listeners who are

1026

00:42:55,640 --> 00:42:53,790

seriously they know very very little

1027

00:42:57,680 --> 00:42:55,650

about the UFO topic they know obviously

1028

00:42:59,900 --> 00:42:57,690

just going to be able to bombard people

1029

00:43:01,810 --> 00:42:59,910

with with military witness after

1030

00:43:04,310 --> 00:43:01,820

military witnesses and images of

1031

00:43:06,950 --> 00:43:04,320

documents and and pictures of a Pentagon

1032

00:43:09,680 --> 00:43:06,960

you can't just do that for non-stop but

1033

00:43:11,840 --> 00:43:09,690

I I think overall it's actually pretty

1034

00:43:13,940 --> 00:43:11,850

good I I'm not a very good person at

1035

00:43:15,800 --> 00:43:13,950

reviewing this sort of stuff I I know

1036

00:43:17,060 --> 00:43:15,810

that there's there's people who will

1037

00:43:19,160 --> 00:43:17,070

look at this completely differently from

1038

00:43:20,510 --> 00:43:19,170

I and and I'm down here you know like

1039

00:43:22,609 --> 00:43:20,520

it's a little harder

1040

00:43:24,050 --> 00:43:22,619

um but yeah I have sight have you have

1041

00:43:26,060 --> 00:43:24,060

you had a chance to watch it oh sure

1042

00:43:27,560 --> 00:43:26,070

absolutely I watched a couple of men now

1043

00:43:29,510 --> 00:43:27,570

one point I want to make because I was a

1044

00:43:31,460 --> 00:43:29,520

little critical of this in the second

1045

00:43:33,920 --> 00:43:31,470

episode where there was a little bit of

1046

00:43:36,350 --> 00:43:33,930

a road trip to Catalina Island I thought

1047

00:43:38,270 --> 00:43:36,360

well what's the point of this but I'm

1048

00:43:40,940 --> 00:43:38,280

told that there's gonna be a little bit

1049

00:43:43,430 --> 00:43:40,950

of a payoff to all that in the next

1050

00:43:45,740 --> 00:43:43,440

episode so we will see on Friday night

1051  
00:43:47,510 --> 00:43:45,750  
and I guess you'll see whatever you get

1052  
00:43:49,550 --> 00:43:47,520  
around to it but yeah I'll be watching

1053  
00:43:51,500 --> 00:43:49,560  
it alive so of course I'm all over it

1054  
00:43:54,050 --> 00:43:51,510  
absolutely yeah yeah yes so far so good

1055  
00:43:55,790 --> 00:43:54,060  
I mean it's great to see it's a great to

1056  
00:43:58,700 --> 00:43:55,800  
see yet guys we've had here on the show

1057  
00:44:02,150 --> 00:43:58,710  
while talking to Lou Elizondo and Tom

1058  
00:44:04,010 --> 00:44:02,160  
DeLonge and so far I've been into it you

1059  
00:44:06,260 --> 00:44:04,020  
know and there haven't been any real

1060  
00:44:10,010 --> 00:44:06,270  
great revelations and getting to see the

1061  
00:44:11,660 --> 00:44:10,020  
lady pilot on the first show was really

1062  
00:44:13,700 --> 00:44:11,670  
unexpected it was a nice little cool for

1063  
00:44:15,890 --> 00:44:13,710

them because the word had always been

1064

00:44:18,140 --> 00:44:15,900

that she was never gonna come forward in

1065

00:44:20,510 --> 00:44:18,150

any way shape or form he doesn't exactly

1066

00:44:22,310 --> 00:44:20,520

come forward but you know going on

1067

00:44:24,350 --> 00:44:22,320

camera and doing that interview it was

1068

00:44:26,780 --> 00:44:24,360

it was quite a little coup for them it

1069

00:44:29,210 --> 00:44:26,790

was very effective so yes so far so good

1070

00:44:31,220 --> 00:44:29,220

a mom like in the show and the nice

1071

00:44:32,660 --> 00:44:31,230

thing about it is they're not gonna be

1072

00:44:35,270 --> 00:44:32,670

able to go they're just not gonna have

1073

00:44:37,820 --> 00:44:35,280

the time to go into the you know sort of

1074

00:44:39,830 --> 00:44:37,830

the insane geek detail that we all want

1075

00:44:41,599 --> 00:44:39,840

you know so that gives us a lot of

1076

00:44:43,849 --> 00:44:41,609

opportunity to sort of dig in and work

1077

00:44:47,450 --> 00:44:43,859

around the margins and gin up some new

1078

00:44:49,849 --> 00:44:47,460

stuff yeah yeah um I can I do know

1079

00:44:53,230 --> 00:44:49,859

something laws I think this is right but

1080

00:44:56,560 --> 00:44:53,240

I do believe that in future episodes

1081

00:45:00,890 --> 00:44:56,570

that's one of Lou Ellis on those

1082

00:45:02,840 --> 00:45:00,900

subordinates is going to be on right

1083

00:45:07,040 --> 00:45:02,850

that's something that's completely new

1084

00:45:08,980 --> 00:45:07,050

I'm also now with the with the we

1085

00:45:12,859 --> 00:45:08,990

through witnesses to the so-called

1086

00:45:18,020 --> 00:45:12,869

2014-15 Atlantic Coast events I know

1087

00:45:20,570 --> 00:45:18,030

that that that one of the one of the the

1088

00:45:22,160 --> 00:45:20,580

people on last week or the week that the

1089

00:45:25,130 --> 00:45:22,170

episode that just passed episode 2 and

1090

00:45:27,380 --> 00:45:25,140

who's been quoted in the media are

1091

00:45:32,420 --> 00:45:27,390

currently me his name but graves is one

1092

00:45:34,240 --> 00:45:32,430

of them anyways now Ill haven't been

1093

00:45:35,920 --> 00:45:34,250

able to ascertain his hey Stiles

1094

00:45:38,020 --> 00:45:35,930

actually serving with United States Navy

1095

00:45:40,120 --> 00:45:38,030

I believe so I can look that up pretty

1096

00:45:44,110 --> 00:45:40,130

quick but I believe he used to active

1097

00:45:46,630 --> 00:45:44,120

yep and that's that's I was told I was

1098

00:45:48,460 --> 00:45:46,640

told actually some time ago that they

1099

00:45:50,650 --> 00:45:48,470

will be sir that they will be featuring

1100

00:45:52,780 --> 00:45:50,660

actual active duty people and that that

1101

00:45:55,240 --> 00:45:52,790

certainly is I mean how many times can

1102

00:45:58,150 --> 00:45:55,250

you go back through history and actually

1103

00:46:00,220 --> 00:45:58,160

see documentaries where where where a

1104

00:46:02,080 --> 00:46:00,230

serving member of say the Federal

1105

00:46:04,320 --> 00:46:02,090

Aviation Administration or an airport or

1106

00:46:06,700 --> 00:46:04,330

or indeed a military officer or or

1107

00:46:09,070 --> 00:46:06,710

staffer is actually interviewed allowed

1108

00:46:11,080 --> 00:46:09,080

to be interviewed comfortably and given

1109

00:46:13,000 --> 00:46:11,090

some time to talk I mean you go right

1110

00:46:15,760 --> 00:46:13,010

back to say the Washington so-called

1111

00:46:18,580 --> 00:46:15,770

Washington overflights of 52 when when L

1112

00:46:21,580 --> 00:46:18,590

shop and and repent and various others

1113

00:46:23,590 --> 00:46:21,590

were were seen you know on TV that's

1114

00:46:25,330 --> 00:46:23,600

that's one of the only times I really

1115

00:46:28,390 --> 00:46:25,340

can't think of many occasions where

1116

00:46:30,070 --> 00:46:28,400

where a serving member of the Armed

1117

00:46:33,280 --> 00:46:30,080

Forces or the intelligence community or

1118

00:46:36,700 --> 00:46:33,290

the aviation community has been has been

1119

00:46:39,310 --> 00:46:36,710

put on camera and and they've been

1120

00:46:41,200 --> 00:46:39,320

apparently completely fine with it it's

1121

00:46:43,390 --> 00:46:41,210

just not something that's it's that

1122

00:46:44,710 --> 00:46:43,400

seems to be done very often so I thought

1123

00:46:47,620 --> 00:46:44,720

that was pretty good yeah

1124

00:46:51,190 --> 00:46:47,630

Steve Bassett was on with us last a

1125

00:46:53,800 --> 00:46:51,200

couple weeks ago now and going back and

1126

00:46:55,690 --> 00:46:53,810

forth with him a little bit it seems

1127

00:46:59,380 --> 00:46:55,700

obvious to me there's there's an inside

1128

00:47:01,270 --> 00:46:59,390

team that the the TTS a still has you

1129

00:47:02,830 --> 00:47:01,280

know they've obviously got contact still

1130

00:47:04,270 --> 00:47:02,840

on the inside obviously and they're

1131

00:47:07,750 --> 00:47:04,280

they're getting a lot of this stuff done

1132

00:47:09,130 --> 00:47:07,760

that way is that is that about your view

1133

00:47:11,830 --> 00:47:09,140

on things or you have different

1134

00:47:14,410 --> 00:47:11,840

absolutely no absolutely does I do know

1135

00:47:19,030 --> 00:47:14,420

that well I mean I know as best as I can

1136

00:47:23,170 --> 00:47:19,040

that that the the TTS a group and any

1137

00:47:26,170 --> 00:47:23,180

interest of parties like say congressmen

1138

00:47:28,810 --> 00:47:26,180

or senators retired senators or whatever

1139

00:47:32,470 --> 00:47:28,820

are working actively within the

1140

00:47:34,120 --> 00:47:32,480

Department of Defense and and maybe

1141

00:47:36,610 --> 00:47:34,130

maybe even the aviation community maybe

1142

00:47:38,620 --> 00:47:36,620

with the Secretary of the Navy they

1143

00:47:41,470 --> 00:47:38,630

there are there are certainly people

1144

00:47:43,660 --> 00:47:41,480

absolutely right now at Admiral level or

1145

00:47:45,940 --> 00:47:43,670

captain level or or current congressman

1146

00:47:48,110 --> 00:47:45,950

who are showing an interest in this who

1147

00:47:50,270 --> 00:47:48,120

have actually given this some time

1148

00:47:53,380 --> 00:47:50,280

there is that you think if you think

1149

00:47:57,500 --> 00:47:53,390

what's been done already say in 2017

1150

00:48:01,490 --> 00:47:57,510

2016 2018 from John Podesta to Tom

1151  
00:48:04,040 --> 00:48:01,500  
DeLonge to elizondo's retirement to the

1152  
00:48:06,950 --> 00:48:04,050  
involvement with Bigelow to Senator Reid

1153  
00:48:09,050 --> 00:48:06,960  
to whatever there's been I mean that's

1154  
00:48:11,930 --> 00:48:09,060  
all stuff that we had no idea about and

1155  
00:48:13,820 --> 00:48:11,940  
and so you can only assume I mean that

1156  
00:48:16,700 --> 00:48:13,830  
this would just not stop I mean

1157  
00:48:18,620 --> 00:48:16,710  
obviously right now the it's very safe

1158  
00:48:21,710 --> 00:48:18,630  
and I do know so it's best like Hannah

1159  
00:48:23,210 --> 00:48:21,720  
it's very safe to assume that that it's

1160  
00:48:25,370 --> 00:48:23,220  
it's actually probably growing I mean

1161  
00:48:28,430 --> 00:48:25,380  
there is no way they are going to have

1162  
00:48:30,260 --> 00:48:28,440  
active naval personnel plus the New York

1163  
00:48:31,850 --> 00:48:30,270

Times article and the Politico articles

1164

00:48:35,030 --> 00:48:31,860

and every other article in the news

1165

00:48:37,340 --> 00:48:35,040

there is no way that that the Navy

1166

00:48:41,060 --> 00:48:37,350

internally and not discussing this issue

1167

00:48:44,720 --> 00:48:41,070

with with interested parties and be they

1168

00:48:46,880 --> 00:48:44,730

T TSA or senators or congressmen or you

1169

00:48:48,830 --> 00:48:46,890

know inspector generals or I don't know

1170

00:48:51,530 --> 00:48:48,840

how you say this but adjunct generals I

1171

00:48:53,750 --> 00:48:51,540

don't know if that's the right word yeah

1172

00:48:56,420 --> 00:48:53,760

so I think it's all I think it's all

1173

00:48:59,090 --> 00:48:56,430

mostly very pop you know positive and it

1174

00:49:00,320 --> 00:48:59,100

seems to be very Navy centric and not

1175

00:49:00,890 --> 00:49:00,330

too much from the Air Force you have any

1176

00:49:08,770 --> 00:49:00,900

thoughts on that

1177

00:49:12,410 --> 00:49:08,780

yeah I do the Air Force the Air Force a

1178

00:49:14,600 --> 00:49:12,420

deafening by their silence um even even

1179

00:49:17,810 --> 00:49:14,610

the army but but particularly the Air

1180

00:49:21,170 --> 00:49:17,820

Force um I I this is my personal view

1181

00:49:24,380 --> 00:49:21,180

from from 20 years of study and 20 years

1182

00:49:26,030 --> 00:49:24,390

of reading Declassified or publicly

1183

00:49:28,550 --> 00:49:26,040

available information from aviation

1184

00:49:30,860 --> 00:49:28,560

journals or military journals or thesis

1185

00:49:33,140 --> 00:49:30,870

dissertations you'd be amazed what is

1186

00:49:35,780 --> 00:49:33,150

found in thesis dissertations from like

1187

00:49:39,230 --> 00:49:35,790

the air university or various air

1188

00:49:41,570 --> 00:49:39,240

institutes even a Naval War College

1189

00:49:43,940 --> 00:49:41,580

whatever you'd be amazed what you can

1190

00:49:46,340 --> 00:49:43,950

actually find in people's educational

1191

00:49:48,980 --> 00:49:46,350

output so thesis as master's thesis is

1192

00:49:51,980 --> 00:49:48,990

the test test results that's the thing

1193

00:49:55,520 --> 00:49:51,990

and the Air Force personally to me I

1194

00:49:59,510 --> 00:49:55,530

think that the best so-called UFO data

1195

00:50:01,850 --> 00:49:59,520

or certainly data on unknown or stray or

1196

00:50:04,160 --> 00:50:01,860

or unexpected or unidentifiable

1197

00:50:06,620 --> 00:50:04,170

after all aircraft the best data is

1198

00:50:09,830 --> 00:50:06,630

housed with North American Aerospace

1199

00:50:12,200 --> 00:50:09,840

Defense Command within their various

1200

00:50:15,260 --> 00:50:12,210

combat operations cells within their

1201  
00:50:17,870 --> 00:50:15,270  
what they call the NORAD j33 sea area

1202  
00:50:20,180 --> 00:50:17,880  
which is the NORAD's Directorate of

1203  
00:50:21,830 --> 00:50:20,190  
operations aerospace operations airspace

1204  
00:50:25,790 --> 00:50:21,840  
management branch

1205  
00:50:28,430 --> 00:50:25,800  
NORAD's interagency liaison cells with

1206  
00:50:32,120 --> 00:50:28,440  
the Federal Aviation Administration then

1207  
00:50:34,580 --> 00:50:32,130  
the Air Force Base commands 21st space

1208  
00:50:35,660 --> 00:50:34,590  
wings 21st operations were a data from

1209  
00:50:38,780 --> 00:50:35,670  
the ballistic missile early warning

1210  
00:50:41,570 --> 00:50:38,790  
system so much of this this say radar

1211  
00:50:44,240 --> 00:50:41,580  
data and an optical camera data goes

1212  
00:50:47,180 --> 00:50:44,250  
back to either United States Air Force

1213  
00:50:49,070 --> 00:50:47,190

or it goes back to NORAD dominated Air

1214

00:50:51,470 --> 00:50:49,080

Force because NORAD is mostly staff by

1215

00:50:52,970 --> 00:50:51,480

air forces they mostly by air force

1216

00:50:56,240 --> 00:50:52,980

officers I should say and were Adam

1217

00:50:57,680 --> 00:50:56,250

mostly they they work mostly in

1218

00:50:59,810 --> 00:50:57,690

conjunction with the Air Force it's the

1219

00:51:02,270 --> 00:50:59,820

Air Force that's scramble jets for

1220

00:51:04,550 --> 00:51:02,280

unknown objects through NORAD NORAD

1221

00:51:06,440 --> 00:51:04,560

Victor Victor the jets in to the unknown

1222

00:51:08,030 --> 00:51:06,450

object but it's seen on States Air Force

1223

00:51:10,490 --> 00:51:08,040

are actually flying the planes that sort

1224

00:51:14,210 --> 00:51:10,500

of relationship is why I call Nora and

1225

00:51:18,290 --> 00:51:14,220

the you know an Air Force dominated and

1226  
00:51:19,190 --> 00:51:18,300  
and that that is where that is obviously

1227  
00:51:22,100 --> 00:51:19,200  
where some of the most sensitive

1228  
00:51:24,470 --> 00:51:22,110  
real-time data is is stored or analyzed

1229  
00:51:25,970 --> 00:51:24,480  
that is where it's no secret that the

1230  
00:51:28,580 --> 00:51:25,980  
Air Force have had a very very long

1231  
00:51:30,980 --> 00:51:28,590  
history of UFO involvement more so than

1232  
00:51:32,600 --> 00:51:30,990  
say the Army or the Marine Corps even

1233  
00:51:35,420 --> 00:51:32,610  
the Navy more so than I believe the

1234  
00:51:36,920 --> 00:51:35,430  
intelligence community it's it's to me

1235  
00:51:39,080 --> 00:51:36,930  
it's Air Force all the way that's just

1236  
00:51:41,450 --> 00:51:39,090  
like me oh okay and yeah just asking you

1237  
00:51:44,780 --> 00:51:41,460  
to speculate widely based on your 20

1238  
00:51:47,360 --> 00:51:44,790

years experience what what I'm thinking

1239

00:51:50,180 --> 00:51:47,370

is maybe this is kind of a a slow roll

1240

00:51:51,730 --> 00:51:50,190

out and the reason that the Navy is sort

1241

00:51:54,710 --> 00:51:51,740

of upfront at the moment is because

1242

00:51:56,870 --> 00:51:54,720

their information is fewer and further

1243

00:51:58,250 --> 00:51:56,880

between than the Air Force and if the

1244

00:52:00,410 --> 00:51:58,260

Air Force came out and did essentially

1245

00:52:02,990 --> 00:52:00,420

what the Navy is doing now I mean all

1246

00:52:08,090 --> 00:52:03,000

hell would break loose yeah you know I

1247

00:52:10,370 --> 00:52:08,100

don't know I don't know i yeah if the

1248

00:52:12,680 --> 00:52:10,380

Air Force I think it would be far more

1249

00:52:15,680 --> 00:52:12,690

impactful if the Air Force came out with

1250

00:52:18,920 --> 00:52:15,690

even even just a significant number of

1251  
00:52:20,569 --> 00:52:18,930  
of modern-day pilot sightings forget all

1252  
00:52:23,569 --> 00:52:20,579  
the NORAD space tracking data and

1253  
00:52:25,940 --> 00:52:23,579  
aerospace alike detection aerospace

1254  
00:52:28,670 --> 00:52:25,950  
warning data forget all the radar tracks

1255  
00:52:30,650 --> 00:52:28,680  
right our tract files the weird the

1256  
00:52:32,740 --> 00:52:30,660  
weird you know sightings by Air Force

1257  
00:52:36,470 --> 00:52:32,750  
part sorry the weird the weird

1258  
00:52:39,800 --> 00:52:36,480  
displays they have of stuff that if the

1259  
00:52:42,950 --> 00:52:39,810  
F was just alone started talking openly

1260  
00:52:45,470 --> 00:52:42,960  
about pilot sightings I think that that

1261  
00:52:47,450 --> 00:52:45,480  
would be it would be a it would be very

1262  
00:52:53,750 --> 00:52:47,460  
very tough for some generals to stomach

1263  
00:52:57,530 --> 00:52:53,760

I I just I don't know I wish I wish we

1264

00:53:01,700 --> 00:52:57,540

had more inside information I guess you

1265

00:53:03,170 --> 00:53:01,710

could say yeah we all do but well think

1266

00:53:04,760 --> 00:53:03,180

that one of the one of the one of the

1267

00:53:08,420 --> 00:53:04,770

the one of the people I respect most in

1268

00:53:11,569 --> 00:53:08,430

ufology is is a guy called Barry

1269

00:53:16,970 --> 00:53:11,579

Greenwood who's in Boston and he's only

1270

00:53:18,680 --> 00:53:16,980

watching Game seven of the final he will

1271

00:53:20,210 --> 00:53:18,690

be he will be and he'll have this he'll

1272

00:53:23,450 --> 00:53:20,220

be listening to me this talk right now

1273

00:53:25,190 --> 00:53:23,460

but on the side but he um he said

1274

00:53:27,740 --> 00:53:25,200

something me incredibly to me incredibly

1275

00:53:30,380 --> 00:53:27,750

insightful once he for those who don't

1276

00:53:32,210 --> 00:53:30,390

know Barry is an archivist he's been

1277

00:53:34,250 --> 00:53:32,220

store he's certainly got we think

1278

00:53:35,839 --> 00:53:34,260

certainly the largest individual for

1279

00:53:38,240 --> 00:53:35,849

like for one person in their home the

1280

00:53:40,730 --> 00:53:38,250

largest collection of UFO material in

1281

00:53:42,200 --> 00:53:40,740

the world it's only dwarfed by places

1282

00:53:44,930 --> 00:53:42,210

like the Center for UFO studies that

1283

00:53:48,170 --> 00:53:44,940

kuvasz in Chicago and so on but but

1284

00:53:50,720 --> 00:53:48,180

Barry Barry has has hey Barry famously

1285

00:53:52,670 --> 00:53:50,730

wrote a book in not an early fall with a

1286

00:53:56,510 --> 00:53:52,680

co-author Lawrence force of called clear

1287

00:53:58,550 --> 00:53:56,520

intent he published over 50 newsletters

1288

00:54:00,770 --> 00:53:58,560

under the name Just Cause which slowly

1289

00:54:04,460 --> 00:54:00,780

get dealt with government UFO

1290

00:54:06,589 --> 00:54:04,470

information and Barry Barry his berries

1291

00:54:08,900 --> 00:54:06,599

I think 67 now and he's been doing this

1292

00:54:09,890 --> 00:54:08,910

since his 20s and he's very objective

1293

00:54:11,839 --> 00:54:09,900

he's very quiet

1294

00:54:14,329 --> 00:54:11,849

he's very sensible and he said to me

1295

00:54:16,910 --> 00:54:14,339

once he said to me this topic moves

1296

00:54:19,130 --> 00:54:16,920

incredibly slowly and I said oh yeah

1297

00:54:21,680 --> 00:54:19,140

that's nice whatever and then he says he

1298

00:54:27,260 --> 00:54:21,690

said he said he said I'll put it another

1299

00:54:29,230 --> 00:54:27,270

way said slow defines the UFO topic slow

1300

00:54:32,260 --> 00:54:29,240

defiance a UFO topic and

1301  
00:54:33,820 --> 00:54:32,270  
seem that the the things are you know

1302  
00:54:35,530 --> 00:54:33,830  
you have to wait twenty years before a

1303  
00:54:37,690 --> 00:54:35,540  
particular pilot comes forward you have

1304  
00:54:40,050 --> 00:54:37,700  
Nora who are fifty years before some

1305  
00:54:43,060 --> 00:54:40,060  
document is redacted you have to wait

1306  
00:54:45,880 --> 00:54:43,070  
fifteen years before some news newspaper

1307  
00:54:47,859 --> 00:54:45,890  
some old newspaper goes online from the

1308  
00:54:50,350 --> 00:54:47,869  
50s to get some newspaper article you

1309  
00:54:52,840 --> 00:54:50,360  
desperately want you you know that it is

1310  
00:54:55,780 --> 00:54:52,850  
it is you know even just to scan things

1311  
00:54:58,450 --> 00:54:55,790  
like Barry and others scan documents and

1312  
00:55:00,250 --> 00:54:58,460  
all record some newspaper articles ship

1313  
00:55:01,960 --> 00:55:00,260

logs whatever and even that is

1314

00:55:03,700 --> 00:55:01,970

incredibly slow and the Internet has

1315

00:55:06,340 --> 00:55:03,710

spent everything up and that's fine but

1316

00:55:08,410 --> 00:55:06,350

we're still dealing with with a mismatch

1317

00:55:10,570 --> 00:55:08,420

of of different ideas and different

1318

00:55:14,020 --> 00:55:10,580

opinions and anecdotes and facts and

1319

00:55:16,030 --> 00:55:14,030

opinions and and yes so I mean even some

1320

00:55:19,210 --> 00:55:16,040

people take ten years to publish their

1321

00:55:21,609 --> 00:55:19,220

one and only UFO book so this is not a

1322

00:55:23,500 --> 00:55:21,619

dynamic it's it's better now but it's

1323

00:55:25,270 --> 00:55:23,510

not what you call a very dynamic topic

1324

00:55:26,710 --> 00:55:25,280

yeah I was gonna say it is better now

1325

00:55:28,810 --> 00:55:26,720

because things aren't picking up I know

1326

00:55:32,410 --> 00:55:28,820

I can't keep up with it all I can't so

1327

00:55:34,930 --> 00:55:32,420

and that's good it's good it keeps me

1328

00:55:37,210 --> 00:55:34,940

out of trouble and gives lots of people

1329

00:55:39,730 --> 00:55:37,220

lots of things to do and I know you're

1330

00:55:41,020 --> 00:55:39,740

one of those guys anything hot you're

1331

00:55:45,520 --> 00:55:41,030

working on right at the moment you can

1332

00:55:48,910 --> 00:55:45,530

share a little bit about so this is

1333

00:55:51,609 --> 00:55:48,920

really bizarre so there's there's the

1334

00:55:55,599 --> 00:55:51,619

United States Air Force the 21st

1335

00:55:57,820 --> 00:55:55,609

Operations Group they run a a a there

1336

00:55:59,349 --> 00:55:57,830

are three bases three bases around the

1337

00:56:01,660 --> 00:55:59,359

world that they have control over and

1338

00:56:04,120 --> 00:56:01,670

ones in Alaska ones in Greenland and

1339

00:56:06,040 --> 00:56:04,130

ones actually in England and they are

1340

00:56:08,290 --> 00:56:06,050

they form something called the ballistic

1341

00:56:11,020 --> 00:56:08,300

missile early warning system or B news

1342

00:56:14,380 --> 00:56:11,030

and the job of the ballistic missile

1343

00:56:17,859 --> 00:56:14,390

early warning system is to is to it

1344

00:56:19,690 --> 00:56:17,869

constantly scans the sky for submarine

1345

00:56:22,120 --> 00:56:19,700

launch you know the implication is

1346

00:56:26,560 --> 00:56:22,130

Russian maybe China is but they

1347

00:56:28,750 --> 00:56:26,570

constantly scan out into space across

1348

00:56:30,970 --> 00:56:28,760

the north across the poles and announce

1349

00:56:32,590 --> 00:56:30,980

the Atlantic and so on they they scan

1350

00:56:34,690 --> 00:56:32,600

the skies for submarine launched

1351  
00:56:37,450 --> 00:56:34,700  
ballistic missiles intercontinental

1352  
00:56:39,849 --> 00:56:37,460  
ballistic missiles and they've got that

1353  
00:56:41,960 --> 00:56:39,859  
this the secondary mission of these

1354  
00:56:44,359 --> 00:56:41,970  
sites is is low Earth's

1355  
00:56:46,820 --> 00:56:44,369  
surveillance so tracking lower sampled

1356  
00:56:48,080 --> 00:56:46,830  
satellites up to 600 cows into space so

1357  
00:56:51,109 --> 00:56:48,090  
they've really got two missions but

1358  
00:56:52,760 --> 00:56:51,119  
anyway the the facility that one of it

1359  
00:56:54,680 --> 00:56:52,770  
like I said there's three ballistic

1360  
00:56:57,620 --> 00:56:54,690  
missile early warning system centers one

1361  
00:56:59,480 --> 00:56:57,630  
is in England at Caen Yorkshire and it's

1362  
00:57:01,670 --> 00:56:59,490  
called filing Dales it's called RAF

1363  
00:57:04,700 --> 00:57:01,680

filing Dale's Royal Air Force filing

1364

00:57:06,680 --> 00:57:04,710

Dales and though the rules and and what

1365

00:57:09,500 --> 00:57:06,690

they do is governed by the US Air Force

1366

00:57:14,270 --> 00:57:09,510

it's actually manned by the air like

1367

00:57:16,280 --> 00:57:14,280

English Airmen it's manned by sorry it's

1368

00:57:17,900 --> 00:57:16,290

it's it's it's sort of administered by

1369

00:57:20,690 --> 00:57:17,910

the English it's on British land so it's

1370

00:57:24,260 --> 00:57:20,700

very much I a joint or combined effort

1371

00:57:27,470 --> 00:57:24,270

anyway I as part of a slightly wider

1372

00:57:29,660 --> 00:57:27,480

effort I actually sent a freight will I

1373

00:57:32,540 --> 00:57:29,670

sent a Freedom of Information request to

1374

00:57:35,500 --> 00:57:32,550

the British Ministry of Defence for I'd

1375

00:57:39,140 --> 00:57:35,510

say a day like a day's worth of

1376  
00:57:41,390 --> 00:57:39,150  
uncorrelated or unknown track data like

1377  
00:57:43,250 --> 00:57:41,400  
basically I wanted potentially I've seen

1378  
00:57:45,680 --> 00:57:43,260  
this sort of data from before from the

1379  
00:57:47,630 --> 00:57:45,690  
other sites or from other similar sites

1380  
00:57:51,849 --> 00:57:47,640  
in America so I essentially asked them

1381  
00:57:54,560 --> 00:57:51,859  
for tabulated data or alert data of any

1382  
00:57:57,829 --> 00:57:54,570  
unknown objects or aircraft or whatever

1383  
00:57:59,900 --> 00:57:57,839  
that the huge radar system and filing

1384  
00:58:02,390 --> 00:57:59,910  
dials picked up saying in a 24 hour

1385  
00:58:04,940 --> 00:58:02,400  
period in any random 24 hour period and

1386  
00:58:07,160 --> 00:58:04,950  
I didn't mention UFOs I didn't even

1387  
00:58:08,690 --> 00:58:07,170  
necessarily mention unknown objects I

1388  
00:58:11,690 --> 00:58:08,700

actually use their terms like

1389

00:58:13,940 --> 00:58:11,700

uncorrelated targets and and an airborne

1390

00:58:15,710 --> 00:58:13,950

alerts and so on and they came back to

1391

00:58:17,359 --> 00:58:15,720

me and they said that you know we've

1392

00:58:19,490 --> 00:58:17,369

accepted UFO our request

1393

00:58:20,630 --> 00:58:19,500

bear in mind this is an international

1394

00:58:22,190 --> 00:58:20,640

effort we're gonna have to go to the

1395

00:58:24,620 --> 00:58:22,200

Americans this is gonna be very slow

1396

00:58:25,910 --> 00:58:24,630

blah blah blah blah and they said

1397

00:58:27,980 --> 00:58:25,920

that there's an enormous amount of data

1398

00:58:29,510 --> 00:58:27,990

even for one day's worth of data they

1399

00:58:31,370 --> 00:58:29,520

must pick up every raindrop and

1400

00:58:33,620 --> 00:58:31,380

everything in space and whatever heard

1401  
00:58:35,060 --> 00:58:33,630  
anyway they came back to me and in one

1402  
00:58:36,740 --> 00:58:35,070  
of the lines it's quite funny I'm not

1403  
00:58:38,930 --> 00:58:36,750  
reading anything into this but it's it's

1404  
00:58:40,480 --> 00:58:38,940  
just a funny little anecdote in one of

1405  
00:58:43,160 --> 00:58:40,490  
the lines just in that very first

1406  
00:58:46,220 --> 00:58:43,170  
acknowledgement of my FOI request the

1407  
00:58:47,270 --> 00:58:46,230  
the officer in Britain said something I

1408  
00:58:50,030 --> 00:58:47,280  
haven't got it in front of me but

1409  
00:58:53,240 --> 00:58:50,040  
something along the lines of bear in

1410  
00:58:55,400 --> 00:58:53,250  
mind the British Ministry of Defence

1411  
00:58:59,089 --> 00:58:55,410  
does not have any opinion

1412  
00:59:01,400 --> 00:58:59,099  
on extraterrestrial activities in area

1413  
00:59:03,200 --> 00:59:01,410

space or anything about UFOs from an

1414

00:59:05,059 --> 00:59:03,210

extraterrestrial angle or whatever it

1415

00:59:07,279 --> 00:59:05,069

said so even in their first letter

1416

00:59:09,680 --> 00:59:07,289

they've automatically assumed that on

1417

00:59:12,920 --> 00:59:09,690

the UFO above well they were right about

1418

00:59:17,660 --> 00:59:12,930

that will they write about I didn't ask

1419

00:59:19,670 --> 00:59:17,670

I didn't use Ryland but in their very

1420

00:59:22,190 --> 00:59:19,680

phone I was asking them essentially four

1421

00:59:24,650 --> 00:59:22,200

four four missile were warning data like

1422

00:59:26,450 --> 00:59:24,660

actual track data for a day uncorrelated

1423

00:59:28,549 --> 00:59:26,460

space surveillance data whatever a

1424

00:59:30,109 --> 00:59:28,559

satellite warning space warning data

1425

00:59:32,000 --> 00:59:30,119

anything that they picked up in the form

1426  
00:59:33,890 --> 00:59:32,010  
of moving aircraft whatever that's what

1427  
00:59:35,870 --> 00:59:33,900  
I'm using their terms that's in open

1428  
00:59:37,520 --> 00:59:35,880  
doctrine like in on their websites and

1429  
00:59:39,740 --> 00:59:37,530  
so on I'm using their turns I'm not

1430  
00:59:41,180 --> 00:59:39,750  
saying anything about ATT and then

1431  
00:59:42,890 --> 00:59:41,190  
they've come back to me very first also

1432  
00:59:44,240 --> 00:59:42,900  
certainly definitely I think it might

1433  
00:59:45,470 --> 00:59:44,250  
have been the second acknowledgement but

1434  
00:59:47,539 --> 00:59:45,480  
it was certainly the first or second

1435  
00:59:49,609 --> 00:59:47,549  
acknowledgment they said to me bear in

1436  
00:59:51,920 --> 00:59:49,619  
mind we don't do extraterrestrials we

1437  
00:59:54,680 --> 00:59:51,930  
don't do classic UFOs and that was I'm

1438  
00:59:56,210 --> 00:59:54,690

just reading his thinking just jump to a

1439

00:59:57,470 --> 00:59:56,220

massive either they're hiding something

1440

00:59:59,180 --> 00:59:57,480

which I you know it wouldn't be that

1441

01:00:00,829 --> 00:59:59,190

obvious that wouldn't be that silly or

1442

01:00:02,240 --> 01:00:00,839

they've they've just jumped to that

1443

01:00:04,400 --> 01:00:02,250

conclusion because they've had so many

1444

01:00:05,750 --> 01:00:04,410

people come some before or the other

1445

01:00:09,680 --> 01:00:05,760

potential is that they've looked me up

1446

01:00:16,789 --> 01:00:09,690

and just by curiosity right maybe Google

1447

01:00:18,500 --> 01:00:16,799

paul-dean UFO yeah he's our guy I mean I

1448

01:00:19,970 --> 01:00:18,510

dunno because there was subsequent there

1449

01:00:21,019 --> 01:00:19,980

was this is what I'm gonna write my next

1450

01:00:22,579 --> 01:00:21,029

blog about because there was very

1451  
01:00:24,950 --> 01:00:22,589  
significant communications I actually

1452  
01:00:26,450 --> 01:00:24,960  
fought the emoji for two years for this

1453  
01:00:28,700 --> 01:00:26,460  
data and I'm actually I could actually

1454  
01:00:30,349 --> 01:00:28,710  
revisit that now and keep fighting or

1455  
01:00:32,240 --> 01:00:30,359  
I'd have to I'd have to actually go to

1456  
01:00:33,920 --> 01:00:32,250  
the Americans jointly as words really

1457  
01:00:35,329 --> 01:00:33,930  
complex and it's just not worth it

1458  
01:00:37,309 --> 01:00:35,339  
they're not gonna release they're not

1459  
01:00:39,559 --> 01:00:37,319  
they're simply not gonna release alert

1460  
01:00:41,900 --> 01:00:39,569  
and missile and uncorrelated target data

1461  
01:00:44,359 --> 01:00:41,910  
from such a sensitive site I mean even

1462  
01:00:46,460 --> 01:00:44,369  
even the raft filing gaol site which

1463  
01:00:49,309 --> 01:00:46,470

raffling does consumes 20 million pounds

1464

01:00:51,109 --> 01:00:49,319

a year from the British an unclassified

1465

01:00:53,420 --> 01:00:51,119

amount of money from the Americans

1466

01:00:55,549 --> 01:00:53,430

it's an incredibly sensitive site it's

1467

01:00:58,039 --> 01:00:55,559

an absolute Tier one new killer target

1468

01:01:00,349 --> 01:00:58,049

from for Russia it's it's it's it's

1469

01:01:02,870 --> 01:01:00,359

absolutely sodden with security measures

1470

01:01:05,210 --> 01:01:02,880

right even the filing nails website is

1471

01:01:07,010 --> 01:01:05,220

literally like new reader and it's just

1472

01:01:08,750 --> 01:01:07,020

like two minutes to read it's not there

1473

01:01:09,190 --> 01:01:08,760

is nothing there and the only the only

1474

01:01:10,359 --> 01:01:09,200

bit

1475

01:01:12,280 --> 01:01:10,369

information you can get about filing

1476

01:01:14,859 --> 01:01:12,290

Dale's real most of it dates back to the

1477

01:01:18,370 --> 01:01:14,869

80s 70s 60s 50s when it when it was

1478

01:01:20,440 --> 01:01:18,380

being built and so so it's obviously a

1479

01:01:22,060 --> 01:01:20,450

super it's obviously an absolute like

1480

01:01:23,410 --> 01:01:22,070

it's a jewel in the crown of missile

1481

01:01:26,050 --> 01:01:23,420

defense and space warning there was no

1482

01:01:28,870 --> 01:01:26,060

question about that the the I mean even

1483

01:01:30,880 --> 01:01:28,880

even in classified NORAD histories that

1484

01:01:32,740 --> 01:01:30,890

mentioned filing dolls is literally only

1485

01:01:34,810 --> 01:01:32,750

one or two sentences when when other

1486

01:01:37,720 --> 01:01:34,820

sites they talk you know for two hours

1487

01:01:40,359 --> 01:01:37,730

or you know two pages or twenty pages

1488

01:01:43,480 --> 01:01:40,369

about very sensitive radar so it's this

1489

01:01:44,770 --> 01:01:43,490

thing barely gets mentioned so so

1490

01:01:46,720 --> 01:01:44,780

they're obviously not gonna release

1491

01:01:49,870 --> 01:01:46,730

anything that's current but it was

1492

01:01:52,359 --> 01:01:49,880

certainly an experiment yeah got it so

1493

01:01:54,370 --> 01:01:52,369

there you go alrighty so I got anything

1494

01:01:59,380 --> 01:01:54,380

else for us or you want to wrap up or

1495

01:02:01,870 --> 01:01:59,390

Frost I don't know I've got types of

1496

01:02:04,270 --> 01:02:01,880

blogs coming out about with freedom

1497

01:02:07,690 --> 01:02:04,280

knives there's just slow burn and stuff

1498

01:02:10,089 --> 01:02:07,700

I can tell you one thing I mentioned

1499

01:02:10,990 --> 01:02:10,099

before Barry Greenwood published Heymann

1500

01:02:13,120 --> 01:02:11,000

others

1501

01:02:16,079 --> 01:02:13,130

Larry Brian Todd Circle etc they

1502

01:02:18,750 --> 01:02:16,089

published a newsletter called Just Cause

1503

01:02:22,660 --> 01:02:18,760

newsletter and it went from it went from

1504

01:02:24,910 --> 01:02:22,670

1977 to 1996 I think and there were 72

1505

01:02:27,849 --> 01:02:24,920

editions over overall and Barry was

1506

01:02:29,319 --> 01:02:27,859

involved in publishing the about 50 of

1507

01:02:33,819 --> 01:02:29,329

them he was a sub-editor sort of thing

1508

01:02:35,559 --> 01:02:33,829

and anyway here's a tidbit one of those

1509

01:02:37,750 --> 01:02:35,569

editions well I think it was like

1510

01:02:39,160 --> 01:02:37,760

edition it might have been edition four

1511

01:02:42,280 --> 01:02:39,170

or six or something like that

1512

01:02:44,770 --> 01:02:42,290

it was the NSA the National Security

1513

01:02:47,680 --> 01:02:44,780

Agency actually obtained a copy of it

1514

01:02:51,460 --> 01:02:47,690

and internally they classified a

1515

01:02:54,190 --> 01:02:51,470

top-secret no [h\_\_h] so imagine a public

1516

01:02:54,880 --> 01:02:54,200

newsletter that's sent sent to 200

1517

01:02:56,980 --> 01:02:54,890

readers

1518

01:02:58,420 --> 01:02:56,990

it's a private newsletter it's as if I

1519

01:03:00,640 --> 01:02:58,430

dropped a newsletter together and send

1520

01:03:03,150 --> 01:03:00,650

it to my friends what the NSA got a copy

1521

01:03:06,010 --> 01:03:03,160

and they actually working with the FBI

1522

01:03:09,280 --> 01:03:06,020

so the FBI and the NSA jointly got a

1523

01:03:12,900 --> 01:03:09,290

copy of a just cause edition and they

1524

01:03:15,670 --> 01:03:12,910

they considered that it had within it

1525

01:03:17,370 --> 01:03:15,680

information that was considered and I

1526

01:03:21,520 --> 01:03:17,380

quote top secret and I've actually got

1527

01:03:22,510 --> 01:03:21,530

actual FBI I've got two pages of FBI

1528

01:03:28,870 --> 01:03:22,520

material

1529

01:03:33,220 --> 01:03:28,880

from 1970 I that actually silent at a

1530

01:03:34,510 --> 01:03:33,230

guy bury his Bruins who down to zip

1531

01:03:36,520 --> 01:03:34,520

right at the moment but a little bit

1532

01:03:39,130 --> 01:03:36,530

more than halfway through the game so he

1533

01:03:41,530 --> 01:03:39,140

might he might be having a long tough

1534

01:03:43,060 --> 01:03:41,540

night but now he's is berry still

1535

01:03:44,650 --> 01:03:43,070

working the fields or is a yeah pretty

1536

01:03:46,570 --> 01:03:44,660

much backed away or he's a still out

1537

01:03:48,520 --> 01:03:46,580

there doing all right all right

1538

01:03:50,950 --> 01:03:48,530

so Paul it was a great having you on

1539

01:03:54,160 --> 01:03:50,960

again and you know we will be in touch

1540

01:03:55,780 --> 01:03:54,170

and obviously a lot going on and you

1541

01:03:58,330 --> 01:03:55,790

never know what's going to come up next

1542

01:04:00,600 --> 01:03:58,340

just never know so if he knows it's a

1543

01:04:03,580 --> 01:04:00,610

grindstone and I appreciate it and

1544

01:04:05,710 --> 01:04:03,590

everybody thanks for listening next show

1545

01:04:07,240 --> 01:04:05,720

that we've got on the schedule Steve

1546

01:04:09,370 --> 01:04:07,250

Bassett is gonna be back on with a

1547

01:04:11,140 --> 01:04:09,380

Sunday and we've got quite a few other

1548

01:04:13,240 --> 01:04:11,150

things lined up but I'll have to go look

1549

01:04:14,830 --> 01:04:13,250

him up I can't remember them all but

1550

01:04:16,540 --> 01:04:14,840

Steve had some technical difficulties

1551

01:04:19,210 --> 01:04:16,550

last Sunday and wasn't able to make it

1552

01:04:22,270 --> 01:04:19,220

so we'll have him on Sunday and I know

1553

01:04:24,400 --> 01:04:22,280

he's got a lot more drama more craziness

1554

01:04:26,350 --> 01:04:24,410

and hopefully some good stuff in there
