

# **NIMITZ ENCOUNTERS SUPERPANEL**

**KEVIN DAY, PJ HUGHES, JASON  
TURNER AND GARY VOORHIS DISCUSS  
MORE DETAILS ABOUT THE 2004  
NIMITZ ENCOUNTERS CASE ALONG  
WITH SPECIAL GUEST PANELIST RICH  
HOFFMAN.**

**UFONN  
SUNDAY**

1  
00:00:02,250 --> 00:00:26,330  
[Applause]

2  
00:01:24,220 --> 00:00:38,980  
[Music]

3  
00:01:30,950 --> 00:01:27,790  
and Frank here with another episode of

4  
00:01:33,170 --> 00:01:30,960  
UFO news network Sunday from

5  
00:01:35,450 --> 00:01:33,180  
Philadelphia we've got a very special

6  
00:01:39,290 --> 00:01:35,460  
show for you today at Nimitz Encounters

7  
00:01:41,359 --> 00:01:39,300  
super panel with a huge selection of

8  
00:01:43,880 --> 00:01:41,369  
guests all of them special in their own

9  
00:01:46,969 --> 00:01:43,890  
way let me bring you on my co-host chant

10  
00:01:51,050 --> 00:01:46,979  
Hannah to do the honors of introducing

11  
00:01:53,330 --> 00:01:51,060  
our fantastic panel for today thank you

12  
00:01:54,859 --> 00:01:53,340  
Frank how are you doing today doing just

13  
00:01:57,380 --> 00:01:54,869

well ready to go we're ready for this

14

00:02:01,070 --> 00:01:57,390

one yep we have a great mega panel

15

00:02:03,230 --> 00:02:01,080

regarding the USS Prince and then the

16

00:02:05,120 --> 00:02:03,240

USS Nimitz I did want to mention I

17

00:02:06,740 --> 00:02:05,130

already interviewed Dave Beatty and that

18

00:02:09,020 --> 00:02:06,750

will be a special report which will be a

19

00:02:10,340 --> 00:02:09,030

part two to this and I'm gonna go ahead

20

00:02:12,949 --> 00:02:10,350

and start introducing our guests on to

21

00:02:14,840 --> 00:02:12,959

our panel now rich Hoffman he has been a

22

00:02:17,840 --> 00:02:14,850

defense contractor for over 20 years

23

00:02:20,030 --> 00:02:17,850

working primarily for the Army Materiel

24

00:02:23,180 --> 00:02:20,040

Command a hue at the variety of

25

00:02:25,070 --> 00:02:23,190

companies currently mr. Hoffman is an

26  
00:02:26,830 --> 00:02:25,080  
enterprise architect working at Redstone

27  
00:02:32,289 --> 00:02:26,840  
Arsenal and the Marshall Space Flight

28  
00:02:36,740 --> 00:02:32,299  
Center in Huntsville Alabama yeah yeah

29  
00:02:39,920 --> 00:02:36,750  
four years experience and investigations

30  
00:02:41,900 --> 00:02:39,930  
a research application star team manager

31  
00:02:43,370 --> 00:02:41,910  
and director of strategic projects as

32  
00:02:45,560 --> 00:02:43,380  
well as state director and MUFON and

33  
00:02:48,110 --> 00:02:45,570  
other organizations he is on the board

34  
00:02:50,630 --> 00:02:48,120  
of the Sun my identification for you AP

35  
00:02:53,300 --> 00:02:50,640  
studies also known as the SCU we have

36  
00:02:55,430 --> 00:02:53,310  
Gary P Borah he's his background is

37  
00:02:57,770 --> 00:02:55,440  
mechanical engineering and working as an

38  
00:03:01,550 --> 00:02:57,780

electronic and RF technician he was a

39

00:03:04,100 --> 00:03:01,560

fire control man and aegis computer CEC

40

00:03:06,080 --> 00:03:04,110

technician in the United States Navy his

41

00:03:08,840 --> 00:03:06,090

responsibilities included operating

42

00:03:10,850 --> 00:03:08,850

maintaining and repairing various

43

00:03:13,640 --> 00:03:10,860

computers in support of the launching of

44

00:03:15,560 --> 00:03:13,650

the aegis weapon system and non EGIS

45

00:03:17,960 --> 00:03:15,570

sensor systems for the purpose of

46

00:03:20,300 --> 00:03:17,970

testing and evaluating experimental

47

00:03:22,580 --> 00:03:20,310

upgrades during his time on the USS

48

00:03:24,560 --> 00:03:22,590

Princeton he was tasked with the

49

00:03:26,630 --> 00:03:24,570

security and invention of top secret and

50

00:03:29,210 --> 00:03:26,640

classified materials including being

51  
00:03:32,390 --> 00:03:29,220  
trained to operate the Wasp military

52  
00:03:33,920 --> 00:03:32,400  
recon UAV for the Pacific fleets during

53  
00:03:38,929 --> 00:03:33,930  
operation and in

54  
00:03:41,089 --> 00:03:38,939  
during freedom on the 14th of November

55  
00:03:43,280 --> 00:03:41,099  
2004 he was a witness to the USS

56  
00:03:45,289 --> 00:03:43,290  
Nimitz tick-tack event and it's aegis

57  
00:03:46,729 --> 00:03:45,299  
sorry I didn't mean to miss pronounce

58  
00:03:47,300 --> 00:03:46,739  
that thank you very much for correcting

59  
00:03:50,449 --> 00:03:47,310  
me on that

60  
00:03:52,330 --> 00:03:50,459  
PJ Hughes served in the Navy as an

61  
00:03:57,649 --> 00:03:52,340  
aviation electronics technician

62  
00:04:02,660 --> 00:03:57,659  
primarily on the e-tec Hawkeye etc to

63  
00:04:05,390 --> 00:04:02,670

see Hawkeye and c2 a Greyhound airframes

64

00:04:07,849 --> 00:04:05,400

he left Navy in December 2010 as a

65

00:04:09,440 --> 00:04:07,859

first-class petty officer to work on the

66

00:04:12,080 --> 00:04:09,450

civilian side of military aviation

67

00:04:17,089 --> 00:04:12,090

employed as a technical representative

68

00:04:19,039 --> 00:04:17,099

for the et to C & E to D Hawkeye he

69

00:04:21,830 --> 00:04:19,049

spent his active duty time on both the

70

00:04:27,830 --> 00:04:21,840

east and west coast costs deploying in

71

00:04:30,249 --> 00:04:27,840

2003 Oh 405 haka and 2010 as an aviation

72

00:04:32,990 --> 00:04:30,259

electronics tech he was responsible for

73

00:04:36,020 --> 00:04:33,000

the avionics and weapons systems on

74

00:04:39,110 --> 00:04:36,030

board the Hawkeye these systems included

75

00:04:42,529 --> 00:04:39,120

an /us g3 cooperative engagement

76

00:04:45,620 --> 00:04:42,539

capability the aps 145 radar system and

77

00:04:48,740 --> 00:04:45,630

various other communications COMSEC and

78

00:04:50,330 --> 00:04:48,750

navigation equipment in November 2004

79

00:04:55,010 --> 00:04:50,340

Patrick was the second class Petty

80

00:04:57,560 --> 00:04:55,020

Officer attached to VAW 117 carrier

81

00:05:00,080 --> 00:04:57,570

airborne early warning squadron the

82

00:05:02,149 --> 00:05:00,090

Wallbangers and was the squadron onboard

83

00:05:04,730 --> 00:05:02,159

the Nimitz conducting air wing and

84

00:05:07,129 --> 00:05:04,740

battle group exercises while he did not

85

00:05:08,990 --> 00:05:07,139

directly witness the tic-tock anomaly he

86

00:05:11,839 --> 00:05:09,000

adds to the events at November when he

87

00:05:14,240 --> 00:05:11,849

describes how to USAF officers along

88

00:05:17,270 --> 00:05:14,250

with his commanding officer confiscated

89

00:05:19,820 --> 00:05:17,280

his classified recordings from an e TC e

90

00:05:22,730 --> 00:05:19,830

to see Hawkeye that witnessed the

91

00:05:24,290 --> 00:05:22,740

tick-tock PJ is also privileged to share

92

00:05:26,149 --> 00:05:24,300

the events described to him by close

93

00:05:27,890 --> 00:05:26,159

friend and another Navy sailor who was

94

00:05:31,550 --> 00:05:27,900

airborne in the Hawkeye and witness a

95

00:05:33,379 --> 00:05:31,560

tic-tac form up with the e-2c during

96

00:05:37,040 --> 00:05:33,389

flight we'll hear a little bit more

97

00:05:39,409 --> 00:05:37,050

about that from pj talking points up

98

00:05:42,500 --> 00:05:39,419

Jason Turner Jason was stationed on

99

00:05:44,839 --> 00:05:42,510

board the USS Princeton from 2001 205 he

100

00:05:45,860 --> 00:05:44,849

worked in supply and changed jobs in

101  
00:05:47,660 --> 00:05:45,870  
hospital corpsman

102  
00:05:49,340 --> 00:05:47,670  
in his third year of active duty

103  
00:05:53,180 --> 00:05:49,350  
since then he has completed two

104  
00:05:54,920 --> 00:05:53,190  
additional deployments to Iraq where he

105  
00:05:56,990 --> 00:05:54,930  
worked as a Customs and Border Patrol

106  
00:05:58,730 --> 00:05:57,000  
agent and a prison guard he was an

107  
00:06:00,290 --> 00:05:58,740  
eyewitness to the tick-tack event and

108  
00:06:03,850 --> 00:06:00,300  
was able to view the original unedited

109  
00:06:07,040 --> 00:06:03,860  
virgin version of the Fleur video from

110  
00:06:09,170 --> 00:06:07,050  
signals which is the ship signal

111  
00:06:12,140 --> 00:06:09,180  
exploitation space following the initial

112  
00:06:14,480 --> 00:06:12,150  
contact Kevin Day a retired United

113  
00:06:17,120 --> 00:06:14,490

States Navy senior chief petty officer a

114

00:06:19,520 --> 00:06:17,130

former Operations Specialist and Top Gun

115

00:06:21,910 --> 00:06:19,530

air intercept controller with more than

116

00:06:25,360 --> 00:06:21,920

20 years experience in Strike Group air

117

00:06:27,680 --> 00:06:25,370

defense including wartime operations an

118

00:06:31,010 --> 00:06:27,690

expert operator in the highly advanced

119

00:06:33,850 --> 00:06:31,020

spy-1 radar system with years of service

120

00:06:38,090 --> 00:06:33,860

on board aegis equipped ships including

121

00:06:40,190 --> 00:06:38,100

Vincent chosen and Princeton Kevin has

122

00:06:42,770 --> 00:06:40,200

logged hundreds of air - intercepts of

123

00:06:45,350 --> 00:06:42,780

suspect aircraft in both train training

124

00:06:47,660 --> 00:06:45,360

and wartime operations it was Kevin's

125

00:06:50,120 --> 00:06:47,670

team in Princeton's combat Information

126

00:06:52,760 --> 00:06:50,130

Center that has discovered the fleet's

127

00:06:56,720 --> 00:06:52,770

of anomalous air contacts welcome

128

00:07:02,170 --> 00:06:56,730

everybody this show and bring enrich as

129

00:07:05,030 --> 00:07:02,180

well yes I did actually read Rich's bio

130

00:07:06,890 --> 00:07:05,040

welcome everybody this show Thank You

131

00:07:09,580 --> 00:07:06,900

Chanda this is Kevin great to be here

132

00:07:12,170 --> 00:07:09,590

with y'all thanks mates

133

00:07:18,200 --> 00:07:12,180

hey thanks for having us on this is Gary

134

00:07:20,840 --> 00:07:18,210

hey Gary hey rich yep rich has been on

135

00:07:23,270 --> 00:07:20,850

many of our panels that we've had how

136

00:07:24,980 --> 00:07:23,280

has the experience been for you all

137

00:07:27,470 --> 00:07:24,990

since the Nimitz case has gone public I

138

00:07:28,940 --> 00:07:27,480

wanted to start with you Gary how has

139

00:07:33,050 --> 00:07:28,950

the experience been for you since the

140

00:07:36,140 --> 00:07:33,060

Nimitz case has gone public well first

141

00:07:39,020 --> 00:07:36,150

off it was pretty primarily completely

142

00:07:40,970 --> 00:07:39,030

positive I've been able to get in touch

143

00:07:42,920 --> 00:07:40,980

with a lot of my old shipmates you know

144

00:07:45,590 --> 00:07:42,930

it's it's pretty much blown up at this

145

00:07:49,790 --> 00:07:45,600

point mainstream on History Channel on

146

00:07:53,840 --> 00:07:49,800

and held even the news so it's kind of

147

00:07:55,670 --> 00:07:53,850

vindicating for me other than that I

148

00:07:58,610 --> 00:07:55,680

just you know I'm glad that I was able

149

00:08:00,080 --> 00:07:58,620

to you know back up my shipmates and you

150

00:08:01,610 --> 00:08:00,090

don't let everybody know that these

151

00:08:04,670 --> 00:08:01,620

events do occur on

152

00:08:09,320 --> 00:08:04,680

regular basis and you know we need to

153

00:08:11,210 --> 00:08:09,330

really find out what they are and for

154

00:08:12,680 --> 00:08:11,220

you Jason how's the experience been for

155

00:08:17,000 --> 00:08:12,690

you since the nimitz case has gone

156

00:08:19,879 --> 00:08:17,010

public it's been quite interesting

157

00:08:22,969 --> 00:08:19,889

a lot of like I'll piggyback on what

158

00:08:24,530 --> 00:08:22,979

Gary said it's a vindication and you

159

00:08:26,689 --> 00:08:24,540

know we're I think we're all thankful

160

00:08:29,810 --> 00:08:26,699

that it's finally come out and we're

161

00:08:34,100 --> 00:08:29,820

able to talk about it openly about being

162

00:08:35,810 --> 00:08:34,110

looked upon as you know what are you

163

00:08:38,510 --> 00:08:35,820

talking about what yeah it's been it's

164

00:08:40,430 --> 00:08:38,520

been good it's been positive and you

165

00:08:42,140 --> 00:08:40,440

know I'm thankful that that we finally

166

00:08:46,850 --> 00:08:42,150

all are able to get here and talk about

167

00:08:48,650 --> 00:08:46,860

it how about for you PJ same as the

168

00:08:52,490 --> 00:08:48,660

other guys it's been it's been pretty

169

00:08:57,110 --> 00:08:52,500

positive closest apart and and like Gary

170

00:09:02,030 --> 00:08:57,120

I've got a lot of a lot of guys I know

171

00:09:05,290 --> 00:09:02,040

stationed with that and it's kind of you

172

00:09:07,160 --> 00:09:05,300

know in the gaps in my memory with Stan

173

00:09:09,019 --> 00:09:07,170

it's been nice to meet you guys in

174

00:09:11,300 --> 00:09:09,029

Princeton we believe formed tight little

175

00:09:14,180 --> 00:09:11,310

group it's kind of it's good that this

176

00:09:15,620 --> 00:09:14,190

is all getting out into mainstream we

177

00:09:18,440 --> 00:09:15,630

have Kevin day with us Kevin how has it

178

00:09:21,019 --> 00:09:18,450

been for you since the Nimitz case has

179

00:09:23,600 --> 00:09:21,029

gone public personally it's been

180

00:09:24,650 --> 00:09:23,610

absolutely amazing experience I can't

181

00:09:29,030 --> 00:09:24,660

even believe that this is happening

182

00:09:30,949 --> 00:09:29,040

chant the best part for me is reuniting

183

00:09:32,300 --> 00:09:30,959

with my former shipmates and a lot of

184

00:09:34,790 --> 00:09:32,310

the new friends that I've met since this

185

00:09:36,740 --> 00:09:34,800

has all come out publicly it's just an

186

00:09:38,720 --> 00:09:36,750

amazing thing that we're witnessing and

187

00:09:41,750 --> 00:09:38,730

what I want people to know is this

188

00:09:44,230 --> 00:09:41,760

really did happen these things were

189

00:09:46,730 --> 00:09:44,240

really real

190

00:09:50,480 --> 00:09:46,740

thank you yeah brich I wanted to ask you

191

00:09:52,880 --> 00:09:50,490

something and that was the scientific

192

00:09:56,120 --> 00:09:52,890

coalition for you AP studies the SCU

193

00:09:57,680 --> 00:09:56,130

they did a special report on the Nimitz

194

00:10:02,449 --> 00:09:57,690

case can you please share a little bit

195

00:10:04,460 --> 00:10:02,459

about that report oh sure well let me

196

00:10:06,640 --> 00:10:04,470

give you a little bit of insight and how

197

00:10:09,140 --> 00:10:06,650

we even got involved in the first place

198

00:10:11,449 --> 00:10:09,150

Robert Powell had happened to be reading

199

00:10:13,430 --> 00:10:11,459

the fighter suite article that was like

200

00:10:14,769 --> 00:10:13,440

you know going back to I think 2015 or

201

00:10:18,699 --> 00:10:14,779

something like that and

202

00:10:20,710 --> 00:10:18,709

managed to look into that case there

203

00:10:22,420 --> 00:10:20,720

were a lot of names or on it and of

204

00:10:24,460 --> 00:10:22,430

course we've been investigating UFOs for

205

00:10:27,400 --> 00:10:24,470

a very long time I've been I've been an

206

00:10:30,269 --> 00:10:27,410

addict for 55 years and so it's been a

207

00:10:33,639 --> 00:10:30,279

quite a ride but but anyway nevertheless

208

00:10:36,369 --> 00:10:33,649

you know Robert took it upon himself and

209

00:10:40,030 --> 00:10:36,379

started to look into it and document it

210

00:10:41,800 --> 00:10:40,040

and then from that he started reaching

211

00:10:43,809 --> 00:10:41,810

out I think he cabin I think he reached

212

00:10:47,559 --> 00:10:43,819

out to you like in a January time frame

213

00:10:49,869 --> 00:10:47,569

if I'm not mistaken for an interview and

214

00:10:52,829 --> 00:10:49,879

I think you are one of the first ones

215

00:10:55,660 --> 00:10:52,839

that we actually talked with and then I

216

00:10:57,040 --> 00:10:55,670

we were all doing our own research in

217

00:10:58,869 --> 00:10:57,050

terms of trying to find out how we can

218

00:11:01,240 --> 00:10:58,879

get a hold of crew members because that

219

00:11:03,009 --> 00:11:01,250

was important and I happened to come

220

00:11:04,749 --> 00:11:03,019

across a Facebook page that was

221

00:11:07,660 --> 00:11:04,759

dedicated to it and I started like

222

00:11:09,280 --> 00:11:07,670

talking with Kevin and a number of

223

00:11:11,590 --> 00:11:09,290

others that were you know we're trying

224

00:11:14,259 --> 00:11:11,600

to like find out what we could you know

225

00:11:16,540 --> 00:11:14,269

and it was great that they had done that

226  
00:11:18,579 --> 00:11:16,550  
in a facebook forum because it allowed

227  
00:11:21,309 --> 00:11:18,589  
us to be able to you know try to reach

228  
00:11:25,420 --> 00:11:21,319  
out and and start to get their their

229  
00:11:27,009 --> 00:11:25,430  
story which was very critical and so we

230  
00:11:29,410 --> 00:11:27,019  
we started collecting all the

231  
00:11:31,780 --> 00:11:29,420  
information we get and then over a

232  
00:11:35,470 --> 00:11:31,790  
period of time we started to assemble a

233  
00:11:37,480 --> 00:11:35,480  
report that that involved there were

234  
00:11:40,569 --> 00:11:37,490  
three prime primary authors with that

235  
00:11:42,639 --> 00:11:40,579  
Robert Powell wrote the first actually

236  
00:11:44,559 --> 00:11:42,649  
the report and then we have a whole

237  
00:11:46,689 --> 00:11:44,569  
bunch of appendices that are attached to

238  
00:11:49,689 --> 00:11:46,699

it and that was done by Larry Cates who

239

00:11:51,369 --> 00:11:49,699

did the work on the video and then you

240

00:11:54,519 --> 00:11:51,379

also have Peter reality that was doing

241

00:11:56,650 --> 00:11:54,529

the who did the physics and then I took

242

00:11:58,600 --> 00:11:56,660

several sections because I work in the

243

00:12:01,509 --> 00:11:58,610

DoD and I could get information about

244

00:12:04,179 --> 00:12:01,519

that a lot of the equipment aboard the

245

00:12:06,129 --> 00:12:04,189

the carrier group if you would and

246

00:12:09,340 --> 00:12:06,139

started collecting that kind of

247

00:12:11,259 --> 00:12:09,350

technical data on it as well as trying

248

00:12:13,809 --> 00:12:11,269

to put together a like a glossary and

249

00:12:15,069 --> 00:12:13,819

and then in that type of thing so we all

250

00:12:16,660 --> 00:12:15,079

kind of pitched in and there were a

251  
00:12:20,259 --> 00:12:16,670  
whole bunch of others believe it or not

252  
00:12:23,079 --> 00:12:20,269  
that did some renderings as well but

253  
00:12:25,540 --> 00:12:23,089  
over a period of time we took us about

254  
00:12:28,270 --> 00:12:25,550  
two years to assemble this 270 page

255  
00:12:31,960 --> 00:12:28,280  
report and what the important point

256  
00:12:36,430 --> 00:12:31,970  
for us and this is why this particular

257  
00:12:39,100 --> 00:12:36,440  
case is so very important is that and I

258  
00:12:40,120 --> 00:12:39,110  
mean mind you there's the tic-tac in

259  
00:12:43,030 --> 00:12:40,130  
this thing

260  
00:12:46,060 --> 00:12:43,040  
doesn't perform any different than what

261  
00:12:48,550 --> 00:12:46,070  
I experience with UFOs back in the 55

262  
00:12:50,460 --> 00:12:48,560  
years ago meaning they could go from a

263  
00:12:52,870 --> 00:12:50,470

standstill to instantaneous acceleration

264

00:12:54,940 --> 00:12:52,880

they could go vertical they could go and

265

00:12:57,280 --> 00:12:54,950

do all these types of things they did it

266

00:12:59,080 --> 00:12:57,290

without sound they did it without all

267

00:13:01,540 --> 00:12:59,090

that other stuff and we've occasionally

268

00:13:03,490 --> 00:13:01,550

had radar contacts and radar tracks that

269

00:13:05,470 --> 00:13:03,500

are that are out there that on these

270

00:13:09,370 --> 00:13:05,480

objects doing incredible maneuvers as

271

00:13:13,860 --> 00:13:09,380

well but what we'd never had was the

272

00:13:16,780 --> 00:13:13,870

sheer amount of involvement and data

273

00:13:17,650 --> 00:13:16,790

from current technologies like we are

274

00:13:21,760 --> 00:13:17,660

now

275

00:13:24,040 --> 00:13:21,770

and so in the s use perspective you

276

00:13:26,200 --> 00:13:24,050

don't you don't just dismiss these cases

277

00:13:28,840 --> 00:13:26,210

and not spend time on them you spend

278

00:13:30,640 --> 00:13:28,850

years analyzing this data and trying to

279

00:13:33,370 --> 00:13:30,650

get it and that's pretty much what we've

280

00:13:35,500 --> 00:13:33,380

done and so that's pretty much it

281

00:13:37,390 --> 00:13:35,510

chant and and I've had the pleasure of

282

00:13:40,840 --> 00:13:37,400

getting to know these guys and they're

283

00:13:42,490 --> 00:13:40,850

all incredible I and and one other thing

284

00:13:45,460 --> 00:13:42,500

I just want to mention and this is the

285

00:13:47,170 --> 00:13:45,470

important thing so many UFO cases that

286

00:13:48,850 --> 00:13:47,180

I've looked into over the period of

287

00:13:52,510 --> 00:13:48,860

years that I've been doing this and

288

00:13:55,360 --> 00:13:52,520

investigating of thousands of cases you

289

00:13:57,130 --> 00:13:55,370

know it's a life altering event when you

290

00:14:00,130 --> 00:13:57,140

have this experience of seeing these

291

00:14:07,030 --> 00:14:00,140

kind of objects it really does it

292

00:14:10,060 --> 00:14:07,040

changes your life your perspective and

293

00:14:12,070 --> 00:14:10,070

I'm I know that this group has grown

294

00:14:14,350 --> 00:14:12,080

closer which is very very important and

295

00:14:16,810 --> 00:14:14,360

at the same time you know they're all

296

00:14:18,400 --> 00:14:16,820

starting to remember other things or you

297

00:14:21,190 --> 00:14:18,410

know making corrections to their initial

298

00:14:23,470 --> 00:14:21,200

testimonies and that's okay I want to

299

00:14:25,000 --> 00:14:23,480

reassure them that it's okay like for

300

00:14:27,850 --> 00:14:25,010

example we thought that this was the

301  
00:14:29,680 --> 00:14:27,860  
comp 2x well it was at ETS a it would

302  
00:14:32,140 --> 00:14:29,690  
that was an activity before the comp 2x

303  
00:14:34,150 --> 00:14:32,150  
so I mean there's those details in our

304  
00:14:36,190 --> 00:14:34,160  
report that are still changing you know

305  
00:14:38,860 --> 00:14:36,200  
and it's because the story keeps

306  
00:14:40,510 --> 00:14:38,870  
changing but it it comes about in the

307  
00:14:41,950 --> 00:14:40,520  
sense that these people are all now

308  
00:14:43,930 --> 00:14:41,960  
getting together and we're

309  
00:14:45,700 --> 00:14:43,940  
oh yeah this is what happened oh yeah

310  
00:14:48,220 --> 00:14:45,710  
that's right and they start to have

311  
00:14:49,690 --> 00:14:48,230  
those memories come back to them and so

312  
00:14:51,730 --> 00:14:49,700  
that's very critical and I just want to

313  
00:14:54,310 --> 00:14:51,740

applaud them for keeping and hanging in

314

00:14:57,269 --> 00:14:54,320

there and they are an incredible group

315

00:15:00,880 --> 00:14:57,279

of people that have helped the entire

316

00:15:02,949 --> 00:15:00,890

phenomena in ways that I can't even

317

00:15:04,630 --> 00:15:02,959

begin to express I've been at this for a

318

00:15:06,699 --> 00:15:04,640

long time and I've been waiting for

319

00:15:09,730 --> 00:15:06,709

something like this to happen and it did

320

00:15:11,980 --> 00:15:09,740

and I'm just it's altered my life so I

321

00:15:18,510 --> 00:15:11,990

rich yeah real quick would you regard

322

00:15:22,780 --> 00:15:21,250

I've seen you know we've had other cases

323

00:15:25,060 --> 00:15:22,790

that are pretty dynamic you know if you

324

00:15:28,630 --> 00:15:25,070

took a look at the Iranian case that

325

00:15:31,449 --> 00:15:28,640

involved two f42 f-4s that were

326

00:15:33,970 --> 00:15:31,459

scrambled out of Tehran that had all

327

00:15:36,340 --> 00:15:33,980

kinds of data with it as well you've had

328

00:15:38,500 --> 00:15:36,350

other like incredible cases over nuclear

329

00:15:41,889 --> 00:15:38,510

silos which we all saw an unidentified

330

00:15:43,870 --> 00:15:41,899

that were talked about but I mean the

331

00:15:46,720 --> 00:15:43,880

the credibility of all these guys the

332

00:15:48,550 --> 00:15:46,730

credibility of all the witnesses the the

333

00:15:51,519 --> 00:15:48,560

incredible amount of technology that was

334

00:15:53,769 --> 00:15:51,529

involved the the aegis system and the

335

00:15:56,920 --> 00:15:53,779

capability of the CEC and and all that

336

00:15:59,199 --> 00:15:56,930

stuff it's absolutely incredible so yeah

337

00:16:01,000 --> 00:15:59,209

I would Frank yep I would agree with

338

00:16:03,670 --> 00:16:01,010

that that most definitely and obviously

339

00:16:05,710 --> 00:16:03,680

for the guys it's a top all-time one

340

00:16:08,079 --> 00:16:05,720

case I would say I would suspect but

341

00:16:10,329 --> 00:16:08,089

Kevin now let's get over to you you were

342

00:16:13,600 --> 00:16:10,339

manning the radar on the Princeton and

343

00:16:16,269 --> 00:16:13,610

for a long time you know people have

344

00:16:18,940 --> 00:16:16,279

been following the UFO field I've always

345

00:16:20,650 --> 00:16:18,950

heard skeptics say well where is the

346

00:16:21,250 --> 00:16:20,660

physical evidence where is the physical

347

00:16:27,370 --> 00:16:21,260

evidence

348

00:16:30,340 --> 00:16:27,380

that we're on the Princeton and tell us

349

00:16:32,470 --> 00:16:30,350

a little bit about if you could it might

350

00:16:33,819 --> 00:16:32,480

be a little tough on short notice but

351  
00:16:36,400 --> 00:16:33,829  
that tell us a little bit about that

352  
00:16:37,930 --> 00:16:36,410  
just basically how radar works and why

353  
00:16:39,940 --> 00:16:37,940  
it is such strong evidence that

354  
00:16:42,400 --> 00:16:39,950  
something was actually there that they

355  
00:16:44,170 --> 00:16:42,410  
you were tracking a real object flying

356  
00:16:46,019 --> 00:16:44,180  
around and not performing all these

357  
00:16:48,340 --> 00:16:46,029  
otherworldly maneuvers

358  
00:16:49,840 --> 00:16:48,350  
yeah and just a little background on

359  
00:16:51,490 --> 00:16:49,850  
that first and we'll get into some of

360  
00:16:53,470 --> 00:16:51,500  
the details of the radar and Gary can

361  
00:16:55,150 --> 00:16:53,480  
help me on this too when we'll keep this

362  
00:16:56,410 --> 00:16:55,160  
all at the unclassified level of course

363  
00:17:00,340 --> 00:16:56,420

your

364

00:17:03,189 --> 00:17:00,350

right around the 10th of November play

365

00:17:05,079 --> 00:17:03,199

in the Navy so it's kind of a it was

366

00:17:06,730 --> 00:17:05,089

kind of a trip down memory lane for me I

367

00:17:08,559 --> 00:17:06,740

was doing a lot of reminisce and I went

368

00:17:11,079 --> 00:17:08,569

up to combat and I noticed he's really

369

00:17:12,549 --> 00:17:11,089

weird context on the radar in what I

370

00:17:14,260 --> 00:17:12,559

mean by that there were office in

371

00:17:16,390 --> 00:17:14,270

Clemente Island I believe there were six

372

00:17:18,549 --> 00:17:16,400

of them at a time in a in a group in a

373

00:17:21,939 --> 00:17:18,559

formation if you will and they were at

374

00:17:24,909 --> 00:17:21,949

28,000 feet going 100 knots which in

375

00:17:26,319 --> 00:17:24,919

itself is very strange never seen

376

00:17:29,110 --> 00:17:26,329

anything like that and everyone that was

377

00:17:31,299 --> 00:17:29,120

looking around that was it was pretty I

378

00:17:33,159 --> 00:17:31,309

know we were all looking at him like you

379

00:17:34,570 --> 00:17:33,169

know what the heck could be in the air

380

00:17:36,930 --> 00:17:34,580

just doing 100 knots

381

00:17:38,770 --> 00:17:36,940

I mean without falling out of the sky

382

00:17:41,049 --> 00:17:38,780

absolutely Gary you know you know I

383

00:17:42,880 --> 00:17:41,059

didn't conform to anything known I mean

384

00:17:45,400 --> 00:17:42,890

they weren't obviously civilian

385

00:17:48,039 --> 00:17:45,410

airliners they weren't helicopters was

386

00:17:50,080 --> 00:17:48,049

not ice particles from space it wasn't a

387

00:17:52,390 --> 00:17:50,090

flock of geese it was none of those

388

00:17:53,590 --> 00:17:52,400

things so you know I wasn't concerned

389

00:17:55,150 --> 00:17:53,600

that they were a threat at all because

390

00:17:56,710 --> 00:17:55,160

they weren't threatening in any way they

391

00:17:57,610 --> 00:17:56,720

just happened to be in the space in fact

392

00:17:59,080 --> 00:17:57,620

they could have been something

393

00:17:59,500 --> 00:17:59,090

completely unrelated to what we were

394

00:18:02,110 --> 00:17:59,510

doing

395

00:18:04,270 --> 00:18:02,120

totally civilian oriented and we had no

396

00:18:05,740 --> 00:18:04,280

business even messing with them in fact

397

00:18:06,909 --> 00:18:05,750

that was my intention now although I

398

00:18:09,159 --> 00:18:06,919

wanted to intercept them because I'm

399

00:18:11,470 --> 00:18:09,169

kind of a type 8 guy that way especially

400

00:18:14,560 --> 00:18:11,480

was gonna be my last underway we were

401  
00:18:15,220 --> 00:18:14,570  
gonna do a air defense exercise on the

402  
00:18:18,190 --> 00:18:15,230  
14th

403  
00:18:20,289 --> 00:18:18,200  
so is bidding my time and we continue to

404  
00:18:21,970 --> 00:18:20,299  
track these things and they appeared in

405  
00:18:24,880 --> 00:18:21,980  
groups between five and ten over a

406  
00:18:26,289 --> 00:18:24,890  
couple of days so command captive Smith

407  
00:18:27,730 --> 00:18:26,299  
comes down to combat I said hey sir

408  
00:18:29,200 --> 00:18:27,740  
we're gonna launch a bunch of aircraft

409  
00:18:30,820 --> 00:18:29,210  
off the aircraft carrier to do this

410  
00:18:33,820 --> 00:18:30,830  
error defense exercise that we call an

411  
00:18:35,620 --> 00:18:33,830  
8x and I strongly recommend that we

412  
00:18:37,960 --> 00:18:35,630  
intercept one of these guys that we're

413  
00:18:40,330 --> 00:18:37,970

seeing higher because if we don't and

414

00:18:43,210 --> 00:18:40,340

there's a an air-to-air miss half of

415

00:18:45,730 --> 00:18:43,220

some kind somebody is gonna ask us why

416

00:18:46,990 --> 00:18:45,740

we were so damn and curious about it he

417

00:18:49,630 --> 00:18:47,000

said you know what senior chief you're

418

00:18:51,940 --> 00:18:49,640

right go find one of them so that's

419

00:18:54,549 --> 00:18:51,950

exactly what we did we went and found

420

00:18:56,770 --> 00:18:54,559

one of them and that puppy dropped out

421

00:18:58,659 --> 00:18:56,780

of the sky from 28,000 feet down to the

422

00:19:02,230 --> 00:18:58,669

surface of the ocean in less than one

423

00:19:03,520 --> 00:19:02,240

second and from that look that moment

424

00:19:07,299 --> 00:19:03,530

probably changed the course of history

425

00:19:09,280 --> 00:19:07,309

and you ballpark the speed from I gone

426

00:19:11,380 --> 00:19:09,290

from 28,000 feet down base

427

00:19:13,930 --> 00:19:11,390

the ocean level what what kind of speed

428

00:19:17,410 --> 00:19:13,940

did you come up with it tracks out to

429

00:19:19,360 --> 00:19:17,420

about 22,000 miles per hour and by oh by

430

00:19:22,810 --> 00:19:19,370

the way the current ever speed record is

431

00:19:25,270 --> 00:19:22,820

about 10% of that 2200 miles per hour so

432

00:19:29,080 --> 00:19:25,280

ever whatever this thing was totally

433

00:19:30,580 --> 00:19:29,090

kicked our butts if you will and Gary

434

00:19:33,880 --> 00:19:30,590

you were jumping in a little bit there

435

00:19:36,520 --> 00:19:33,890

why don't you follow up on what Kevin

436

00:19:37,960 --> 00:19:36,530

was talking about and then one of the

437

00:19:40,450 --> 00:19:37,970

one of the common questions that I've

438

00:19:43,390 --> 00:19:40,460

had before that kinda clear up is that

439

00:19:45,550 --> 00:19:43,400

when objects do this and they're just

440

00:19:47,530 --> 00:19:45,560

reactionary and they're in the way that

441

00:19:50,770 --> 00:19:47,540

they react to us and they're not

442

00:19:52,510 --> 00:19:50,780

actually pursuing us or engaging us with

443

00:19:55,390 --> 00:19:52,520

like active radar they're not actually

444

00:19:58,690 --> 00:19:55,400

considered a current threat that we

445

00:19:59,710 --> 00:19:58,700

would go and engage because a lot of

446

00:20:01,660 --> 00:19:59,720

people like why didn't we shoot them

447

00:20:03,910 --> 00:20:01,670

down why did you chase after and why

448

00:20:06,660 --> 00:20:03,920

didn't you try to why'd you try to get

449

00:20:09,160 --> 00:20:06,670

them well they don't pose a threat so

450

00:20:12,430 --> 00:20:09,170

when you have rules of engagement you

451

00:20:14,680 --> 00:20:12,440

generally can't fire upon unless you

452

00:20:18,100 --> 00:20:14,690

know so they fire upon you or you they

453

00:20:19,540 --> 00:20:18,110

have an active look it's going to be you

454

00:20:27,730 --> 00:20:19,550

know something an octave luck meaning

455

00:20:33,010 --> 00:20:27,740

their radar to locate what you or

456

00:20:34,240 --> 00:20:33,020

something of that nature and now as a

457

00:20:36,640 --> 00:20:34,250

matter of fact if I could describe the

458

00:20:45,820 --> 00:20:36,650

behavior of those things yes go ahead

459

00:20:47,590 --> 00:20:45,830

please they they they behave like some

460

00:20:49,530 --> 00:20:47,600

super capable flock of birds if you will

461

00:20:52,690 --> 00:20:49,540

like they just wanted to be left alone

462

00:20:53,890 --> 00:20:52,700

and want nothing to do with this um when

463

00:20:55,960 --> 00:20:53,900

commander flavor did his now-famous

464

00:20:57,910 --> 00:20:55,970

intercept that object he pursued down to

465

00:21:00,580 --> 00:20:57,920

the surface of the water when he left

466

00:21:02,170 --> 00:21:00,590

the scene there that object popped back

467

00:21:04,000 --> 00:21:02,180

out from the surface of the water to

468

00:21:05,560 --> 00:21:04,010

twenty eight thousand feet and continued

469

00:21:08,020 --> 00:21:05,570

tracking south at a hundred and knots as

470

00:21:09,940 --> 00:21:08,030

nifty as if nothing fun had just

471

00:21:12,790 --> 00:21:09,950

happened at all they just wanted to be

472

00:21:14,410 --> 00:21:12,800

left alone and this this this whole lot

473

00:21:17,050 --> 00:21:14,420

this whole notion of this thing seemed

474

00:21:19,240 --> 00:21:17,060

in like a migrating whatever is now

475

00:21:22,180 --> 00:21:19,250

turned into a proposed expedition in

476

00:21:23,020 --> 00:21:22,190

November of 2020 there's a group of us

477

00:21:26,200 --> 00:21:23,030

some

478

00:21:28,840 --> 00:21:26,210

distinguished physicists and scientists

479

00:21:30,970 --> 00:21:28,850

and I'm probably the most uneducated one

480

00:21:32,560 --> 00:21:30,980

there in the group so far but we're

481

00:21:34,660 --> 00:21:32,570

proposing to anchor off San Clemente

482

00:21:36,100 --> 00:21:34,670

Island in since now we know when to

483

00:21:37,420 --> 00:21:36,110

expect these things in the sky because

484

00:21:40,180 --> 00:21:37,430

we think they're related to well

485

00:21:42,160 --> 00:21:40,190

migration if you will the whales migrate

486

00:21:45,160 --> 00:21:42,170

from Catalina down to Guadalupe Island

487

00:21:46,240 --> 00:21:45,170

every November and it's just a hunch but

488

00:21:48,040 --> 00:21:46,250

we're gonna go out there where you

489

00:21:49,510 --> 00:21:48,050

listen to hydrophones we're gonna watch

490

00:21:51,910 --> 00:21:49,520

a night vision and we're gonna try to

491

00:21:55,150 --> 00:21:51,920

correlate well songs with the appearance

492

00:21:57,790 --> 00:21:55,160

of UAP well probably wrong but just

493

00:22:00,790 --> 00:21:57,800

imagine just imagine it from the right

494

00:22:03,280 --> 00:22:00,800

yeah yeah exactly exactly and it'll be a

495

00:22:05,980 --> 00:22:03,290

great trip regardless so what it'd be

496

00:22:08,260 --> 00:22:05,990

this is rich one of the things about the

497

00:22:11,050 --> 00:22:08,270

frothing of the water were the tic-tac

498

00:22:12,700 --> 00:22:11,060

was above it was that a lot of people

499

00:22:16,990 --> 00:22:12,710

were speculating initially that it was

500

00:22:18,580 --> 00:22:17,000

probably a whale so with you now

501  
00:22:20,470 --> 00:22:18,590  
injecting the fact that there's a

502  
00:22:22,480 --> 00:22:20,480  
relationship or correlation maybe

503  
00:22:25,390 --> 00:22:22,490  
between Wales and stuff like that or

504  
00:22:27,160 --> 00:22:25,400  
whale migrations that's that's kind of

505  
00:22:30,370 --> 00:22:27,170  
interesting correlation I'd like to see

506  
00:22:34,930 --> 00:22:30,380  
that but especially when we have objects

507  
00:22:36,880 --> 00:22:34,940  
all over you know the ocean one of the

508  
00:22:38,830 --> 00:22:36,890  
questions that I had and I don't know

509  
00:22:40,240 --> 00:22:38,840  
where we got we lost the bubble on it

510  
00:22:42,820 --> 00:22:40,250  
but I know that when we did our

511  
00:22:45,700 --> 00:22:42,830  
calculations and so we were going and

512  
00:22:49,300 --> 00:22:45,710  
doing a lot of that from 80,000 feet

513  
00:22:52,690 --> 00:22:49,310

down to 28,000 feet and I don't know if

514

00:22:55,870 --> 00:22:52,700

that was because the story changed or

515

00:22:57,970 --> 00:22:55,880

what I originally didn't hear the 28,000

516

00:23:00,690 --> 00:22:57,980

feet being discussed I always thought

517

00:23:03,700 --> 00:23:00,700

that we were measuring the 0.78 seconds

518

00:23:05,800 --> 00:23:03,710

as being from an eighty thousand foot

519

00:23:07,480 --> 00:23:05,810

drop but somehow we got that I think

520

00:23:09,220 --> 00:23:07,490

wrong so going back to that our

521

00:23:13,090 --> 00:23:09,230

calculations are a little bit more on

522

00:23:17,830 --> 00:23:13,100

speed because we did an eighty thousand

523

00:23:20,620 --> 00:23:17,840

to a twenty thousand foot drop and it

524

00:23:22,990 --> 00:23:20,630

came up a little bit different but

525

00:23:28,000 --> 00:23:23,000

anyway I just want to check with you on

526

00:23:29,650 --> 00:23:28,010

their comment on that if I could so yeah

527

00:23:31,870 --> 00:23:29,660

perspective of the different watch

528

00:23:34,840 --> 00:23:31,880

standers uh theater ballistic missile

529

00:23:36,880 --> 00:23:34,850

defense watch tenders tend to watch real

530

00:23:39,220 --> 00:23:36,890

high in the sky real high altitudes

531

00:23:40,510 --> 00:23:39,230

and that was just not my situational

532

00:23:42,010 --> 00:23:40,520

awareness at all my I tend to focus

533

00:23:45,760 --> 00:23:42,020

right down you know and their altitude

534

00:23:48,220 --> 00:23:45,770

lots for aircraft tend to fly so I I

535

00:23:49,510 --> 00:23:48,230

wasn't aware of myself of the 80th out I

536

00:23:52,840 --> 00:23:49,520

wasn't aware that they were coming from

537

00:23:55,120 --> 00:23:52,850

space eighty thousand feet intelligence

538

00:23:58,270 --> 00:23:55,130

about several months ago which is the

539

00:23:59,320 --> 00:23:58,280

testimony yeah and just to jump in with

540

00:24:02,680 --> 00:23:59,330

a little factoid

541

00:24:04,750 --> 00:24:02,690

the only man-made object I've ever seen

542

00:24:07,660 --> 00:24:04,760

associated with speeds that high up in

543

00:24:11,110 --> 00:24:07,670

that 20 mm at miles per hour range has

544

00:24:12,549 --> 00:24:11,120

been a spacecraft in orbit I don't know

545

00:24:15,850 --> 00:24:12,559

if I rich you've got to any other

546

00:24:18,250 --> 00:24:15,860

details on anything along those lines I

547

00:24:20,140 --> 00:24:18,260

think during re-entry some of these

548

00:24:22,000 --> 00:24:20,150

objects when they're coming back down to

549

00:24:24,430 --> 00:24:22,010

earth like the shuttle or some of the

550

00:24:26,140 --> 00:24:24,440

you know the older craft like the apollo

551

00:24:28,900 --> 00:24:26,150

craft and all that they might have hit

552

00:24:31,240 --> 00:24:28,910

you know up in that 17 18 thousand miles

553

00:24:32,350 --> 00:24:31,250

an hour range i just think yeah they

554

00:24:33,610 --> 00:24:32,360

come in from reentry

555

00:24:35,020 --> 00:24:33,620

so that that's the kind of thing that

556

00:24:36,159 --> 00:24:35,030

we're talking about that no test

557

00:24:39,100 --> 00:24:36,169

vehicles that I'm aware of

558

00:24:40,659 --> 00:24:39,110

I've ever hit those kind of speeds the

559

00:24:42,130 --> 00:24:40,669

other key thing there Frank is that you

560

00:24:43,840 --> 00:24:42,140

know when we yeah and you're absolutely

561

00:24:46,680 --> 00:24:43,850

right and so what happens when we get

562

00:24:49,780 --> 00:24:46,690

like at 17,000 feet dropping down into

563

00:24:51,850 --> 00:24:49,790

you know from space and coming into land

564

00:24:55,210 --> 00:24:51,860

if you would is you still that heating

565

00:24:57,250 --> 00:24:55,220

up of the air right yep and and so we

566

00:24:59,440 --> 00:24:57,260

don't have that with a stick tack or

567

00:25:01,870 --> 00:24:59,450

these objects that where they're moving

568

00:25:05,200 --> 00:25:01,880

at these speeds and there's no

569

00:25:07,720 --> 00:25:05,210

indication of any heating whatsoever if

570

00:25:09,850 --> 00:25:07,730

you take a look at it so I mean even on

571

00:25:11,470 --> 00:25:09,860

the the FLIR when the object shoots off

572

00:25:14,440 --> 00:25:11,480

to the left and stuff like that you

573

00:25:16,000 --> 00:25:14,450

would see some indication of atmospheric

574

00:25:18,909 --> 00:25:16,010

heating but so that means that they're

575

00:25:20,860 --> 00:25:18,919

not really impacted at all by the

576

00:25:23,320 --> 00:25:20,870

atmosphere yeah and that air friction

577

00:25:26,320 --> 00:25:23,330

really heats up but just again another

578

00:25:29,560 --> 00:25:26,330

example from a days gone by when they

579

00:25:31,930 --> 00:25:29,570

were getting up you know breaking Mach

580

00:25:33,669 --> 00:25:31,940

one and all that back in the day they

581

00:25:35,320 --> 00:25:33,679

knew that they couldn't use aluminum

582

00:25:36,789 --> 00:25:35,330

which was a lighter metal than the steel

583

00:25:39,400 --> 00:25:36,799

that they used on that something like

584

00:25:41,470 --> 00:25:39,410

that the x1 for example they weren't

585

00:25:43,360 --> 00:25:41,480

able to use a aluminum because aluminum

586

00:25:45,580 --> 00:25:43,370

just isn't strong enough that air

587

00:25:47,590 --> 00:25:45,590

friction literally melts the metal melts

588

00:25:48,820 --> 00:25:47,600

the aluminum so would that rule that out

589

00:25:50,890 --> 00:25:48,830

as any kind of

590

00:25:53,140 --> 00:25:50,900

a structural metal for some of these

591

00:25:54,910 --> 00:25:53,150

more advanced crafts as we were building

592

00:25:56,890 --> 00:25:54,920

our faster planes you know through the

593

00:26:00,400 --> 00:25:56,900

late 40s and into the 50s and that where

594

00:26:04,420 --> 00:26:00,410

we're all at today and the sr-71 as an

595

00:26:06,460 --> 00:26:04,430

example this is that titanium four on

596

00:26:09,480 --> 00:26:06,470

their bodies because again it's strong

597

00:26:12,040 --> 00:26:09,490

enough it doesn't melt so there's that

598

00:26:16,810 --> 00:26:12,050

yeah and they would even heat up

599

00:26:20,560 --> 00:26:16,820

tremendously in fact you know we we saw

600

00:26:22,210 --> 00:26:20,570

repeatedly situations where when they

601  
00:26:24,310 --> 00:26:22,220  
land you know and then they cool off

602  
00:26:26,740 --> 00:26:24,320  
there's a differences a difference or

603  
00:26:28,090 --> 00:26:26,750  
expansion that happens yep in fact they

604  
00:26:31,420 --> 00:26:28,100  
were leaking they were leaking yeah they

605  
00:26:33,100 --> 00:26:31,430  
new leak like sibs exactly and then when

606  
00:26:35,620 --> 00:26:33,110  
that when they hit top speed the metal

607  
00:26:37,030 --> 00:26:35,630  
expands and it you know closes off the

608  
00:26:42,670 --> 00:26:37,040  
leaking all the leaking of the fuel

609  
00:26:44,920 --> 00:26:42,680  
right okay so yeah now I Gary and the

610  
00:26:47,980 --> 00:26:44,930  
Kevin you actually were able to go on

611  
00:26:49,540 --> 00:26:47,990  
board were you both on the same ship and

612  
00:26:51,610 --> 00:26:49,550  
now looking through a a pair of a

613  
00:26:52,900 --> 00:26:51,620

heavy-duty mounted binoculars that that

614

00:26:54,840 --> 00:26:52,910

were on the ship and actually saw the

615

00:26:56,950 --> 00:26:54,850

tic-tacs ourselves is that about right

616

00:26:59,560 --> 00:26:56,960

yes that's correct

617

00:27:06,220 --> 00:26:59,570

we were both able to because we have

618

00:27:08,200 --> 00:27:06,230

access to actually figure out just about

619

00:27:09,910 --> 00:27:08,210

where they were and then basically go up

620

00:27:12,700 --> 00:27:09,920

and look in that general direction to

621

00:27:14,410 --> 00:27:12,710

see if we could see them I I got to see

622

00:27:17,680 --> 00:27:14,420

just basically small lights in the

623

00:27:20,640 --> 00:27:17,690

distance moving at weird you know it's

624

00:27:23,050 --> 00:27:20,650

it's a light show back and forth and

625

00:27:25,330 --> 00:27:23,060

doing a it's a little dance back and

626  
00:27:27,310 --> 00:27:25,340  
forth and I know Kevin he was able to

627  
00:27:30,400 --> 00:27:27,320  
see some stuff and then we have another

628  
00:27:34,450 --> 00:27:30,410  
shipmate that was just on TV that saw an

629  
00:27:36,640 --> 00:27:34,460  
entire fleet of them and looking at

630  
00:27:38,980 --> 00:27:36,650  
looking through the binoculars roughly

631  
00:27:41,470 --> 00:27:38,990  
was was what you saw basically what

632  
00:27:44,410 --> 00:27:41,480  
they're the size of a bright star that

633  
00:27:47,920 --> 00:27:44,420  
kind of size can you give our folks at

634  
00:27:49,900 --> 00:27:47,930  
home an idea of how big what you saw was

635  
00:27:53,830 --> 00:27:49,910  
through the view that you were able to

636  
00:27:59,889 --> 00:27:57,310  
I went up to combat was the evening

637  
00:28:01,629 --> 00:27:59,899  
after the 14th commander flavors

638  
00:28:04,299 --> 00:28:01,639

intercept and of course now I'm

639

00:28:06,070 --> 00:28:04,309

convinced we'd intercepted UFOs and it

640

00:28:08,459 --> 00:28:06,080

was like hell yeah interest for the UFO

641

00:28:11,080 --> 00:28:08,469

my very last intercept in the name I

642

00:28:13,659 --> 00:28:11,090

wanted to see these things with my own

643

00:28:15,609 --> 00:28:13,669

eyes so lo and behold there was another

644

00:28:17,469 --> 00:28:15,619

group on the radar and I just happened

645

00:28:20,379 --> 00:28:17,479

to pick the closest one I quick like a

646

00:28:23,499 --> 00:28:20,389

bunny ran up to the up there on the

647

00:28:24,700 --> 00:28:23,509

bridge where the big guy but not oculars

648

00:28:26,619 --> 00:28:24,710

are located and I was up on the

649

00:28:28,419 --> 00:28:26,629

starboard side looked in that piece of

650

00:28:32,649 --> 00:28:28,429

sky which is one of my skill sets I

651  
00:28:34,539 --> 00:28:32,659  
often we part of my job description is

652  
00:28:37,029 --> 00:28:34,549  
to be able to correlate visual reports

653  
00:28:38,680 --> 00:28:37,039  
with radar so I'm absolutely convinced

654  
00:28:40,239 --> 00:28:38,690  
to what I saw in the sky was indeed the

655  
00:28:42,759 --> 00:28:40,249  
radar our contact that was on the screen

656  
00:28:44,859 --> 00:28:42,769  
and I have to tell you all I saw was a

657  
00:28:46,629 --> 00:28:44,869  
boring white light in fact I was so

658  
00:28:49,959 --> 00:28:46,639  
disappointed that I went back down to

659  
00:28:52,389 --> 00:28:49,969  
combat yeah it was a bit anti-climatic

660  
00:28:54,430 --> 00:28:52,399  
but it was he saying that we saw it's

661  
00:28:58,539 --> 00:28:54,440  
not a physical object this is Gary again

662  
00:29:02,019 --> 00:28:58,549  
by the way and it kind of kind of like

663  
00:29:04,299 --> 00:29:02,029

you ever see one of those tap lights you

664

00:29:06,789 --> 00:29:04,309

know like you put you put somewhere and

665

00:29:09,279 --> 00:29:06,799

you tap and it's got that kind of offset

666

00:29:10,599 --> 00:29:09,289

kind of glow not quite a direct light or

667

00:29:12,310 --> 00:29:10,609

anything like that that's kind of what

668

00:29:14,200 --> 00:29:12,320

it felt like at a distance you know kind

669

00:29:16,829 --> 00:29:14,210

of like seeing a street like from you

670

00:29:19,690 --> 00:29:16,839

know 830 miles away

671

00:29:22,029 --> 00:29:19,700

see any colors always I was a just a

672

00:29:24,459 --> 00:29:22,039

boring white light kind of a glow

673

00:29:26,950 --> 00:29:24,469

actually thing I'd love the opportunity

674

00:29:28,149 --> 00:29:26,960

here from PJ Hughes and Jason Turner if

675

00:29:31,029 --> 00:29:28,159

you all want to jump in on the

676  
00:29:32,889 --> 00:29:31,039  
discussion that would be great to share

677  
00:29:42,700 --> 00:29:32,899  
any of your experiences regarding the

678  
00:29:48,639 --> 00:29:42,710  
topic at hand yeah there's a microphone

679  
00:29:50,950 --> 00:29:48,649  
on mute good Patrick unlike the other

680  
00:29:54,249 --> 00:29:50,960  
guys I never actually saw the tic-tac I

681  
00:29:56,109 --> 00:29:54,259  
never saw radar tracks I never saw the

682  
00:30:01,450 --> 00:29:56,119  
video till it was released to the public

683  
00:30:04,329 --> 00:30:01,460  
and everybody outside what I had to deal

684  
00:30:07,510 --> 00:30:04,339  
with was the day of favor flight we had

685  
00:30:16,360 --> 00:30:07,520  
a Hawkeye airborne the same haw

686  
00:30:19,690 --> 00:30:16,370  
I haven't took control of and when that

687  
00:30:21,250 --> 00:30:19,700  
flight came back Air Force officers who

688  
00:30:23,440 --> 00:30:21,260

as far as I know hadn't been on the ship

689

00:30:25,539 --> 00:30:23,450

before that appeared at my door my

690

00:30:31,930 --> 00:30:25,549

commanding officer asked him for our

691

00:30:34,470 --> 00:30:31,940

removable hard drives off that flight so

692

00:30:39,000 --> 00:30:34,480

we had to open up the safe give to him

693

00:30:43,149 --> 00:30:39,010

they took him left I never saw him again

694

00:30:48,549 --> 00:30:43,159

Roger who was one of my co-workers is on

695

00:30:52,600 --> 00:30:48,559

that Hawkeye well he signed an NDA can't

696

00:30:54,370 --> 00:30:52,610

tell me the majority of what they did

697

00:30:59,649 --> 00:30:54,380

briefed about or what they were talking

698

00:31:02,220 --> 00:30:59,659

about or what they saw but what he did

699

00:31:04,539 --> 00:31:02,230

share was that the tic-tac did indeed

700

00:31:08,230 --> 00:31:04,549

form up with the Hawkeye for very brief

701  
00:31:13,840 --> 00:31:08,240  
time and that they saw it that's about

702  
00:31:17,289 --> 00:31:13,850  
all he was gonna tell me uh yeah let me

703  
00:31:19,330 --> 00:31:17,299  
jump in here real quick with PJ PJ yeah

704  
00:31:22,029 --> 00:31:19,340  
you said that the the Air Force guys

705  
00:31:24,700 --> 00:31:22,039  
that got onto the ship in a fairly short

706  
00:31:27,159 --> 00:31:24,710  
order after the Hawkeye landed idea of

707  
00:31:29,380 --> 00:31:27,169  
the ballpark is said to have quickly you

708  
00:31:32,710 --> 00:31:29,390  
saw those guys after the e two landed I

709  
00:31:34,149 --> 00:31:32,720  
mean roughly and that's I've kind of

710  
00:31:35,289 --> 00:31:34,159  
firmed up my timeline talking to

711  
00:31:40,419 --> 00:31:35,299  
somebody else actually in the last

712  
00:31:42,220 --> 00:31:40,429  
couple weeks when the plane lands we've

713  
00:31:44,700 --> 00:31:42,230

got a series of checks and stuff that we

714

00:31:46,930 --> 00:31:44,710

do to get the plane ready to fly again

715

00:31:48,430 --> 00:31:46,940

before I end up taking all those

716

00:31:51,310 --> 00:31:48,440

classified hard drives out of the plane

717

00:31:53,049 --> 00:31:51,320

go back downstairs into our shop the

718

00:31:55,090 --> 00:31:53,059

overall process was probably about 20

719

00:31:57,340 --> 00:31:55,100

minutes between me leaving the airplane

720

00:31:59,169 --> 00:31:57,350

getting down to my shop and maybe about

721

00:32:00,850 --> 00:31:59,179

another 10 minutes after that before

722

00:32:02,769 --> 00:32:00,860

they showed up my my door to grab stuff

723

00:32:05,169 --> 00:32:02,779

but probably about thirty minutes from

724

00:32:09,340 --> 00:32:05,179

when that plane landed till there were

725

00:32:11,620 --> 00:32:09,350

they to take the stuff so we had go

726

00:32:13,210 --> 00:32:11,630

ahead go ahead Richard this is rich I'm

727

00:32:16,360 --> 00:32:13,220

just gonna ask about that because I was

728

00:32:19,480 --> 00:32:16,370

always curious about the e-2c Hawkeye so

729

00:32:21,340 --> 00:32:19,490

they they didn't are you saying that

730

00:32:24,490 --> 00:32:21,350

they did pickups

731

00:32:25,899 --> 00:32:24,500

thing and they did try to track

732

00:32:30,700 --> 00:32:25,909

something is that correct

733

00:32:33,669 --> 00:32:30,710

um I don't know 100% sure yeah I know

734

00:32:36,580 --> 00:32:33,679

the capability that radar well no ear

735

00:32:40,720 --> 00:32:36,590

spy one quality I know II had it tuned

736

00:32:44,830 --> 00:32:40,730

and if it was as close to them as

737

00:32:48,249 --> 00:32:44,840

they say was to see it they were

738

00:32:49,960 --> 00:32:48,259

tracking it on radar but more

739

00:32:51,720 --> 00:32:49,970

importantly what I the data I believe

740

00:32:54,789 --> 00:32:51,730

they were actually after is tied into

741

00:33:00,759 --> 00:32:54,799

the CC system and the ESM system that

742

00:33:02,350 --> 00:33:00,769

were fire at that time I was always

743

00:33:04,149 --> 00:33:02,360

curious about that because I kept

744

00:33:06,759 --> 00:33:04,159

thinking live where is this hot tie that

745

00:33:08,200 --> 00:33:06,769

it was so was it so far away that it

746

00:33:11,769 --> 00:33:08,210

couldn't capture it but you know I mean

747

00:33:13,749 --> 00:33:11,779

you think with the fact that its whole

748

00:33:20,889 --> 00:33:13,759

purpose is to be able to do this kind of

749

00:33:23,320 --> 00:33:20,899

surreal oh it has to do with the

750

00:33:26,289 --> 00:33:23,330

differences between the Princeton's

751

00:33:27,759 --> 00:33:26,299

radar and the hot guys radar the hot

752

00:33:31,600 --> 00:33:27,769

guys later at that time was a search

753

00:33:37,930 --> 00:33:31,610

radar that's not meant for fire control

754

00:33:40,269 --> 00:33:37,940

it's a lot slower but plus the the fact

755

00:33:42,249 --> 00:33:40,279

that FCC onboard it would have been a

756

00:33:43,570 --> 00:33:42,259

blended view so they would have been

757

00:33:45,899 --> 00:33:43,580

able to tell the difference between

758

00:33:50,080 --> 00:33:45,909

their own tracks and our tracks

759

00:33:52,299 --> 00:33:50,090

exactly alright well that's that helps

760

00:33:53,669 --> 00:33:52,309

because I I never really could make ever

761

00:33:56,590 --> 00:33:53,679

figure that one out

762

00:33:58,240 --> 00:33:56,600

alright well good and then I guess what

763

00:34:01,690 --> 00:33:58,250

I'm curious about when this thing came

764

00:34:04,360 --> 00:34:01,700

back to the the cap point would it have

765

00:34:06,009 --> 00:34:04,370

been do you think that that's when it

766

00:34:09,069 --> 00:34:06,019

would have I mean would it have seen it

767

00:34:11,050 --> 00:34:09,079

then maybe or is that because the object

768

00:34:12,609 --> 00:34:11,060

shot back into the cap point which I

769

00:34:14,109 --> 00:34:12,619

thought was really curious and a lot of

770

00:34:17,440 --> 00:34:14,119

us think that it's pretty curious that

771

00:34:20,169 --> 00:34:17,450

yeah it would know that number one and

772

00:34:23,109 --> 00:34:20,179

number two be at the cap point and then

773

00:34:25,240 --> 00:34:23,119

I would think that you know quite

774

00:34:27,669 --> 00:34:25,250

possibly that you would start to have a

775

00:34:30,609 --> 00:34:27,679

little bit more visibility of that thing

776

00:34:32,829 --> 00:34:30,619

as well so just kind of yeah I've heard

777

00:34:34,359 --> 00:34:32,839

of people to talk about you know they

778

00:34:34,790 --> 00:34:34,369

were surprised about it knowing where

779

00:34:36,680 --> 00:34:34,800

the cap

780

00:34:39,050 --> 00:34:36,690

point is but my kind of point in that

781

00:34:41,090 --> 00:34:39,060

matter is if it's got this ridiculously

782

00:34:43,430 --> 00:34:41,100

advanced technology to be able to move

783

00:34:44,780 --> 00:34:43,440

around like it does it's not too

784

00:34:46,490 --> 00:34:44,790

far-fetched to think that they could

785

00:34:49,190 --> 00:34:46,500

just listen to our encrypted

786

00:34:51,260 --> 00:34:49,200

transmissions without without right yeah

787

00:34:52,730 --> 00:34:51,270

just to explain that for the folks at

788

00:34:54,350 --> 00:34:52,740

home who might not be that familiar with

789

00:34:57,910 --> 00:34:54,360

what you're talking about basically the

790

00:35:00,980 --> 00:34:57,920

other two the two Jet's a flew out

791

00:35:04,040 --> 00:35:00,990

intercepted the UFO the UFO took off and

792

00:35:06,200 --> 00:35:04,050

then they had a pre-arranged meeting

793

00:35:09,050 --> 00:35:06,210

point the cap point basically a

794

00:35:11,360 --> 00:35:09,060

rendezvous point prearranged and when

795

00:35:13,160 --> 00:35:11,370

they went there to sort of regroup the

796

00:35:15,290 --> 00:35:13,170

UFO was waiting for them at that point

797

00:35:19,550 --> 00:35:15,300

so yeah that is our really interesting

798

00:35:21,710 --> 00:35:19,560

how about this case yeah and basically

799

00:35:23,510 --> 00:35:21,720

just so the audience understands

800

00:35:25,370 --> 00:35:23,520

completely that cat point that we're

801  
00:35:28,070 --> 00:35:25,380  
calling it is actually a combat air

802  
00:35:30,080 --> 00:35:28,080  
patrol points in the sky they're kind of

803  
00:35:32,060 --> 00:35:30,090  
arbitrary and we basically put them

804  
00:35:34,400 --> 00:35:32,070  
around the strike group towards the

805  
00:35:37,070 --> 00:35:34,410  
direction of any notional threat and

806  
00:35:38,410 --> 00:35:37,080  
it's it's just a socialize point in the

807  
00:35:42,590 --> 00:35:38,420  
sky

808  
00:35:43,100 --> 00:35:42,600  
know about and it's kind of just a

809  
00:35:44,390 --> 00:35:43,110  
loader

810  
00:35:47,060 --> 00:35:44,400  
it's a loiter spot for the aircraft

811  
00:35:51,140 --> 00:35:47,070  
until they can get a vector or a mission

812  
00:35:53,810 --> 00:35:51,150  
assignment and somehow that that thing

813  
00:35:55,670 --> 00:35:53,820

because I'll never forget the words from

814

00:35:57,860 --> 00:35:55,680

the a that error intercept controller

815

00:35:59,570 --> 00:35:57,870

out person they say hey sir he was

816

00:36:01,640 --> 00:35:59,580

talking to commander favored on the air

817

00:36:03,500 --> 00:36:01,650

intercept control communications he was

818

00:36:05,270 --> 00:36:03,510

like hey sir you're not gonna believe

819

00:36:07,400 --> 00:36:05,280

this but that thing is now your cat

820

00:36:09,380 --> 00:36:07,410

point you know we were just followed by

821

00:36:12,260 --> 00:36:09,390

a stunned silence because that cat point

822

00:36:13,580 --> 00:36:12,270

was 60 miles away from where he was you

823

00:36:17,060 --> 00:36:13,590

know what there and it went there I

824

00:36:19,630 --> 00:36:17,070

don't know how fast but it was just that

825

00:36:23,540 --> 00:36:19,640

fast as quickly as I said it was there

826

00:36:26,810 --> 00:36:23,550

and Jason can you air can you read me

827

00:36:31,340 --> 00:36:26,820

Jason can you can you hear me yeah I got

828

00:36:34,820 --> 00:36:31,350

you okay yeah Jason you saw a unedited

829

00:36:35,780 --> 00:36:34,830

version of the FLIR video and tell us a

830

00:36:37,250 --> 00:36:35,790

little bit about that in the

831

00:36:39,800 --> 00:36:37,260

circumstances under which you saw it

832

00:36:43,640 --> 00:36:39,810

yeah I was I was actually working in

833

00:36:47,670 --> 00:36:43,650

supply and we basically they had an

834

00:36:50,310 --> 00:36:47,680

order to change out some of the

835

00:36:53,670 --> 00:36:50,320

pieces of the computers that we have up

836

00:36:55,860 --> 00:36:53,680

there so I went in to the cassettes

837

00:36:58,410 --> 00:36:55,870

which is a ship signal exploitation

838

00:37:03,740 --> 00:36:58,420

space and happened to look to the left

839

00:37:06,960 --> 00:37:03,750

and there's this video rolling it was

840

00:37:09,180 --> 00:37:06,970

the O's 7 and 10 minutes long and a lot

841

00:37:10,620 --> 00:37:09,190

clearer than what you see now because

842

00:37:13,410 --> 00:37:10,630

now I think we have like a minute and a

843

00:37:15,030 --> 00:37:13,420

half of video but it's real grainy it's

844

00:37:18,030 --> 00:37:15,040

real fuzzy it's hard to even read some

845

00:37:24,360 --> 00:37:18,040

of the numbers on there but the original

846

00:37:26,760 --> 00:37:24,370

video was a lot cleaner if you will got

847

00:37:29,280 --> 00:37:26,770

it and did you see anything on there

848

00:37:32,280 --> 00:37:29,290

that was interesting that is not in the

849

00:37:33,990 --> 00:37:32,290

video that we've all seen no everything

850

00:37:36,020 --> 00:37:34,000

I mean other than like the protrusions

851  
00:37:40,080 --> 00:37:36,030  
that are coming out of the bottom of the

852  
00:37:41,730 --> 00:37:40,090  
tic-tac I had recently saw a video where

853  
00:37:43,530 --> 00:37:41,740  
I thought he was commander flavor was

854  
00:37:44,820 --> 00:37:43,540  
talking about it where you know they

855  
00:37:48,240 --> 00:37:44,830  
would come out and they were finding

856  
00:37:50,010 --> 00:37:48,250  
that I didn't see the bending backwards

857  
00:37:52,800 --> 00:37:50,020  
part of it but that's I mean that's

858  
00:37:55,320 --> 00:37:52,810  
really I would say insignificant the

859  
00:37:57,150 --> 00:37:55,330  
fact that there were protrusions coming

860  
00:38:00,210 --> 00:37:57,160  
up in the bottom kind of like I you know

861  
00:38:01,950 --> 00:38:00,220  
they would go down but he he said they

862  
00:38:04,710 --> 00:38:01,960  
were kind of like a L shape I saw

863  
00:38:09,090 --> 00:38:04,720

straight down and but other than that

864

00:38:13,230 --> 00:38:09,100

what you see on the video that there was

865

00:38:16,200 --> 00:38:13,240

a lot more to the videos to the video as

866

00:38:17,910 --> 00:38:16,210

far as the movements the erratic turning

867

00:38:21,780 --> 00:38:17,920

they're going from one place to another

868

00:38:24,630 --> 00:38:21,790

and you know Gary had had mentioned it

869

00:38:26,400 --> 00:38:24,640

when we were out in Laughlin about how

870

00:38:28,940 --> 00:38:26,410

this thing would just go from point A to

871

00:38:32,490 --> 00:38:28,950

point B like it would you may think area

872

00:38:33,780 --> 00:38:32,500

Kevin but you know wherever it was it

873

00:38:35,670 --> 00:38:33,790

made a decision to go from point A to

874

00:38:37,320 --> 00:38:35,680

point B it went from the speed that it

875

00:38:40,310 --> 00:38:37,330

started to the speed that it needed to

876

00:38:43,980 --> 00:38:40,320

get there and then stopped on a dime and

877

00:38:49,200 --> 00:38:43,990

you know the maneuvers are saying was

878

00:38:52,710 --> 00:38:49,210

making was incredible with no sonic

879

00:38:56,910 --> 00:38:52,720

booms just Kevin yeah the question I've

880

00:39:01,090 --> 00:38:56,920

got is and I guess since you saw like a

881

00:39:03,910 --> 00:39:01,100

longer version correct and we're seeing

882

00:39:06,400 --> 00:39:03,920

short version you know typically like

883

00:39:08,560 --> 00:39:06,410

you know when the DoD releases stopping

884

00:39:10,180 --> 00:39:08,570

and they'll go and edit it or they'll

885

00:39:12,460 --> 00:39:10,190

cut out like you know the metadata

886

00:39:14,350 --> 00:39:12,470

associated with it or though you know

887

00:39:16,780 --> 00:39:14,360

there might be somebody that's talking

888

00:39:19,270 --> 00:39:16,790

and they mention a pilot's name or

889

00:39:22,210 --> 00:39:19,280

something of that nature is there any

890

00:39:24,190 --> 00:39:22,220

reason why we don't have the longer one

891

00:39:28,030 --> 00:39:24,200

in your opinion that would you know that

892

00:39:30,040 --> 00:39:28,040

the other part was classified or I'm not

893

00:39:32,680 --> 00:39:30,050

I'm not perfect at that so I really

894

00:39:36,010 --> 00:39:32,690

couldn't answer that maybe Kevin or Gary

895

00:39:38,770 --> 00:39:36,020

could as you know the reason why but I I

896

00:39:41,410 --> 00:39:38,780

wouldn't know that answer no I was just

897

00:39:43,660 --> 00:39:41,420

curious if you if you knew anything I

898

00:39:46,630 --> 00:39:43,670

mean like problems go ahead anybody

899

00:39:49,060 --> 00:39:46,640

wanna if is Gary if I had to guess

900

00:39:52,450 --> 00:39:49,070

because they the extent of the

901  
00:39:56,400 --> 00:39:52,460  
capabilities of the craft uni you were

902  
00:39:59,590 --> 00:39:56,410  
the physicist right yeah well we've got

903  
00:40:02,140 --> 00:39:59,600  
now the small tip yeah you could speed

904  
00:40:03,880 --> 00:40:02,150  
out the tube there you know a lot of a

905  
00:40:07,710 --> 00:40:03,890  
lot of a lot of information but if you

906  
00:40:10,780 --> 00:40:07,720  
actually got to see how this thing moved

907  
00:40:13,300 --> 00:40:10,790  
then being able to actually figure out

908  
00:40:15,130 --> 00:40:13,310  
the numbers of you know and and look at

909  
00:40:17,290 --> 00:40:15,140  
the way it was engineered and the way it

910  
00:40:20,020 --> 00:40:17,300  
was moving it would have been a lot more

911  
00:40:21,670 --> 00:40:20,030  
data for you to crunch in a lot more

912  
00:40:24,310 --> 00:40:21,680  
numbers and a lot more specifics on its

913  
00:40:26,860 --> 00:40:24,320

actual capabilities with the full video

914

00:40:28,570 --> 00:40:26,870

rather than the small snippet it's kind

915

00:40:31,890 --> 00:40:28,580

of like you're just gonna wet your

916

00:40:34,240 --> 00:40:31,900

whistle yeah it exists and then stop

917

00:40:46,200 --> 00:40:34,250

yeah well it's certainly winter whistle

918

00:40:46,210 --> 00:40:50,730

we're getting some breaking up here

919

00:40:56,890 --> 00:40:55,359

where we try like look at that and do

920

00:40:58,720 --> 00:40:56,900

and a lot of people asked about that at

921

00:41:02,290 --> 00:40:58,730

our conference we had as well yeah I

922

00:41:04,870 --> 00:41:02,300

think mostly it's just to just keep the

923

00:41:11,170 --> 00:41:04,880

full capabilities of the craft a secret

924

00:41:12,700 --> 00:41:11,180

yeah okay from what I saw in there I

925

00:41:14,020 --> 00:41:12,710

mean like what you guys are talking

926  
00:41:15,700 --> 00:41:14,030  
about now if you could actually see the

927  
00:41:17,109 --> 00:41:15,710  
full video when they were chasing this

928  
00:41:20,740 --> 00:41:17,119  
thing to intercept it to cut you know

929  
00:41:21,970 --> 00:41:20,750  
that the way that it was cutting and it

930  
00:41:24,550 --> 00:41:21,980  
was amazing I mean it was absolutely

931  
00:41:26,290 --> 00:41:24,560  
amazing to see something move like that

932  
00:41:30,130 --> 00:41:26,300  
when you you know right here on earth

933  
00:41:31,900 --> 00:41:30,140  
you know insane this is Kevin if if I

934  
00:41:34,210 --> 00:41:31,910  
had to speculate on answer and that's

935  
00:41:36,430 --> 00:41:34,220  
all I'm doing and speculating is that

936  
00:41:41,400 --> 00:41:36,440  
that video is in the same place with the

937  
00:41:48,609 --> 00:41:46,089  
because I'm guessing that the the video

938  
00:41:57,310 --> 00:41:48,619

the video movers strongly correlate with

939

00:41:59,020 --> 00:41:57,320

the radar and PJ they wanted that stuff

940

00:42:01,599 --> 00:41:59,030

pretty quick they must have gotten our

941

00:42:03,190 --> 00:42:01,609

word somehow that all this information

942

00:42:06,070 --> 00:42:03,200

was available and they move very very

943

00:42:07,990 --> 00:42:06,080

rapidly to get it well is how fast they

944

00:42:10,000 --> 00:42:08,000

they reacted you also have to remember

945

00:42:11,589 --> 00:42:10,010

we were tracking these things for like

946

00:42:14,980 --> 00:42:11,599

over a week I mean they could have

947

00:42:16,720 --> 00:42:14,990

gotten to every every portion of the

948

00:42:22,349 --> 00:42:16,730

entire government by the time we

949

00:42:24,849 --> 00:42:22,359

actually did the intercept sure we

950

00:42:26,829 --> 00:42:24,859

openly talking about it I mean what

951  
00:42:28,420 --> 00:42:26,839  
would in their word somebody listening

952  
00:42:29,470 --> 00:42:28,430  
in like your maybe your security officer

953  
00:42:31,270 --> 00:42:29,480  
or something like that would have been

954  
00:42:34,240 --> 00:42:31,280  
overhearing it and saying hey we had

955  
00:42:35,829 --> 00:42:34,250  
something or how do you think that were

956  
00:42:38,710 --> 00:42:35,839  
leave it I don't even think it would be

957  
00:42:40,990 --> 00:42:38,720  
like that unofficial I think it was just

958  
00:42:43,690 --> 00:42:41,000  
it would just be completely reported up

959  
00:42:46,030 --> 00:42:43,700  
and then you know as it got filtered

960  
00:42:47,530 --> 00:42:46,040  
through just the PD people that we're

961  
00:42:50,349 --> 00:42:47,540  
dealing with it would deal with it here

962  
00:42:52,210 --> 00:42:50,359  
kick this over to a to kick this over to

963  
00:42:53,380 --> 00:42:52,220

did it you know and then they do good

964

00:42:54,680 --> 00:42:53,390

then they did start heading out and

965

00:42:59,120 --> 00:42:54,690

doing their thing

966

00:43:01,960 --> 00:42:59,130

and these guys do it incident reports or

967

00:43:04,370 --> 00:43:01,970

something like stat reps don't you

968

00:43:06,170 --> 00:43:04,380

well Kevin now you had talked about at

969

00:43:07,940 --> 00:43:06,180

least considering doing an opera 3

970

00:43:09,650 --> 00:43:07,950

report at what point I remember you're

971

00:43:10,520 --> 00:43:09,660

talking about that when you were on with

972

00:43:14,330 --> 00:43:10,530

us last time

973

00:43:16,970 --> 00:43:14,340

but you decided not to do that combat

974

00:43:18,890 --> 00:43:16,980

and uh it was my it was my feeling that

975

00:43:20,300 --> 00:43:18,900

Captain Smith was not gonna release some

976

00:43:23,000 --> 00:43:20,310

message but I was gonna put one together

977

00:43:26,030 --> 00:43:23,010

anyway so I went up to combat the lead

978

00:43:28,430 --> 00:43:26,040

technician helped me he had saved a copy

979

00:43:29,960 --> 00:43:28,440

of the radar data when he wasn't

980

00:43:32,090 --> 00:43:29,970

supposed to I think anyway we bruised

981

00:43:34,160 --> 00:43:32,100

dessert observed that and that's how I

982

00:43:36,140 --> 00:43:34,170

know this maneuvers happened in 0.78

983

00:43:38,120 --> 00:43:36,150

seconds by the way and also something

984

00:43:39,890 --> 00:43:38,130

else interesting happened we record all

985

00:43:42,050 --> 00:43:39,900

of our external communications onto

986

00:43:46,130 --> 00:43:42,060

optical discs well all those

987

00:43:47,960 --> 00:43:46,140

communications were gone they nothing

988

00:44:01,460 --> 00:43:47,970

was there and uh at that point I just

989

00:44:04,550 --> 00:44:01,470

kind of threw up my hand I don't know if

990

00:44:06,800 --> 00:44:04,560

anybody can hear me but I wanted to go

991

00:44:08,300 --> 00:44:06,810

ahead and ask a question Frank can you

992

00:44:11,030 --> 00:44:08,310

hear me yep I can hear you

993

00:44:13,220 --> 00:44:11,040

ok the question I have is what is your

994

00:44:14,690 --> 00:44:13,230

everybody's take regarding the History

995

00:44:17,780 --> 00:44:14,700

Channel's unidentified show which I

996

00:44:23,060 --> 00:44:17,790

believe Kevin day has been on anybody

997

00:44:28,100 --> 00:44:23,070

want to go ahead and pipe in on that too

998

00:44:30,650 --> 00:44:28,110

Gary okay wonderful this is Patrick PA

999

00:44:32,510 --> 00:44:30,660

I'll be perfectly honest with you other

1000

00:44:37,340 --> 00:44:32,520

than watching Kevin and Gary's part I

1001  
00:44:39,290 --> 00:44:37,350  
haven't seen any of the show it's been

1002  
00:44:40,700 --> 00:44:39,300  
good it's been a really good show I've

1003  
00:44:42,830 --> 00:44:40,710  
been very pleased with it

1004  
00:44:44,890 --> 00:44:42,840  
Kevin I'd tell us a little bit about

1005  
00:44:48,050 --> 00:44:44,900  
your experience appearing on the show I

1006  
00:44:49,910 --> 00:44:48,060  
was so surprised I was so much a part of

1007  
00:44:51,800 --> 00:44:49,920  
episode 3 I kind of figured I'd make

1008  
00:44:54,260 --> 00:44:51,810  
like maybe 1 or 2 minutes and the rest

1009  
00:44:56,960 --> 00:44:54,270  
ended up on the cutting room floor but

1010  
00:45:00,470 --> 00:44:56,970  
it was you know I live in a real small

1011  
00:45:02,030 --> 00:45:00,480  
town so it's hard to go into town now

1012  
00:45:04,760 --> 00:45:02,040  
without people like pointing and stuff

1013  
00:45:06,650 --> 00:45:04,770

my life changed because of that show

1014

00:45:11,870 --> 00:45:06,660

yeah I could tell you that

1015

00:45:13,789 --> 00:45:11,880

I don't think unlike am I get a little

1016

00:45:14,900 --> 00:45:13,799

bit bigger town but I live in podunk and

1017

00:45:18,970 --> 00:45:14,910

you know other than people just saying

1018

00:45:21,859 --> 00:45:18,980

hey sorry on TV that's about it but uh

1019

00:45:24,049 --> 00:45:21,869

but I've been following it I found Blue

1020

00:45:25,339 --> 00:45:24,059

Book for entertaining but I'm looking

1021

00:45:27,079 --> 00:45:25,349

forward to seeing with the conclusion of

1022

00:45:30,799 --> 00:45:27,089

this is whether it's gonna be just you

1023

00:45:33,620 --> 00:45:30,809

know mostly good publicity and you know

1024

00:45:36,380 --> 00:45:33,630

them trying make a buck off the stories

1025

00:45:38,690 --> 00:45:36,390

I I uh I went to see some actual

1026

00:45:46,220 --> 00:45:38,700

something happen from it then I'll be

1027

00:45:48,769 --> 00:45:46,230

happy yes please before we went out to

1028

00:45:50,539 --> 00:45:48,779

sea and it was above my security

1029

00:45:52,249 --> 00:45:50,549

clearance at the time but apparently we

1030

00:45:55,220 --> 00:45:52,259

I just heard in the last couple of weeks

1031

00:45:59,749 --> 00:45:55,230

or so that the person had received a

1032

00:46:03,819 --> 00:45:59,759

major firm or firmware update to our spy

1033

00:46:08,509 --> 00:46:03,829

and CC system and that kind of treatment

1034

00:46:13,430 --> 00:46:08,519

I'm thinking you know that stuff is

1035

00:46:16,220 --> 00:46:13,440

probably talking about just you can just

1036

00:46:18,259 --> 00:46:16,230

basically say that our systems were just

1037

00:46:20,749 --> 00:46:18,269

they were stay there at that time they

1038

00:46:22,670 --> 00:46:20,759

were a an experimental baseline and

1039

00:46:25,069 --> 00:46:22,680

that's about all we can talk about the

1040

00:46:28,099 --> 00:46:25,079

specifics on what was on the ship what

1041

00:46:30,589 --> 00:46:28,109

wasn't on the ship this is rich I mean

1042

00:46:33,200 --> 00:46:30,599

basically you know you guys come back

1043

00:46:35,029 --> 00:46:33,210

and you get retrofitted and upgrade

1044

00:46:38,420 --> 00:46:35,039

there's always upgrades to equipment

1045

00:46:40,940 --> 00:46:38,430

going on even in the army weapon systems

1046

00:46:42,769 --> 00:46:40,950

that we have you know so it's no

1047

00:46:44,359 --> 00:46:42,779

surprise that when you come back to pour

1048

00:46:46,279 --> 00:46:44,369

or something like that you go through

1049

00:46:49,700 --> 00:46:46,289

upgrades and then they test the upgrades

1050

00:46:51,589 --> 00:46:49,710

and exercises but the larger point here

1051

00:46:53,930 --> 00:46:51,599

the larger point I think I'm trying to

1052

00:46:56,299 --> 00:46:53,940

make is I think that's the reason I was

1053

00:46:57,890 --> 00:46:56,309

able to see these things suddenly in my

1054

00:47:00,349 --> 00:46:57,900

opinion they probably had long been

1055

00:47:02,870 --> 00:47:00,359

there but I could now suddenly see them

1056

00:47:05,180 --> 00:47:02,880

and I also think it explains why there's

1057

00:47:09,620 --> 00:47:05,190

so many reports now because the whole

1058

00:47:12,740 --> 00:47:09,630

fleet has possibly got this upgrade now

1059

00:47:14,359 --> 00:47:12,750

we're we're sending this guy that we

1060

00:47:15,890 --> 00:47:14,369

couldn't see before and I think big

1061

00:47:17,269 --> 00:47:15,900

Eddie I think big Navy was just as

1062

00:47:18,650 --> 00:47:17,279

shocked as I was and that explains

1063

00:47:19,750 --> 00:47:18,660

people running out to the ships and

1064

00:47:22,960 --> 00:47:19,760

gathering all the data

1065

00:47:24,700 --> 00:47:22,970

as quickly as they did yeah this is rich

1066

00:47:26,500 --> 00:47:24,710

again I want to inject and say the same

1067

00:47:29,560 --> 00:47:26,510

kind of thing I think with our increased

1068

00:47:32,710 --> 00:47:29,570

capabilities of you know that we are now

1069

00:47:36,550 --> 00:47:32,720

able or even even the equipment that we

1070

00:47:39,040 --> 00:47:36,560

have on the Roosevelt is was upgraded to

1071

00:47:41,859 --> 00:47:39,050

the point where the capabilities of the

1072

00:47:44,470 --> 00:47:41,869

radar is able to discern even better a

1073

00:47:47,349 --> 00:47:44,480

lot of things that it might not have

1074

00:47:49,780 --> 00:47:47,359

bought so the equipment keeps getting

1075

00:47:52,359 --> 00:47:49,790

better and better I think we're able to

1076

00:47:54,910 --> 00:47:52,369

to catch these things now and

1077

00:47:57,250 --> 00:47:54,920

distinguish them a lot better the

1078

00:47:58,810 --> 00:47:57,260

aircraft certainly the f-18 Hornets have

1079

00:48:01,630 --> 00:47:58,820

been Super Hornets have been upgraded

1080

00:48:03,160 --> 00:48:01,640

with all kinds of advanced capabilities

1081

00:48:05,260 --> 00:48:03,170

now so I think that you're you're

1082

00:48:08,140 --> 00:48:05,270

absolutely right I think that it's it's

1083

00:48:10,990 --> 00:48:08,150

the factor of the technology has now so

1084

00:48:15,069 --> 00:48:11,000

vastly improved that we're able to now

1085

00:48:18,160 --> 00:48:15,079

discern and separate out you know these

1086

00:48:20,530 --> 00:48:18,170

type of objects and you know in the past

1087

00:48:22,660 --> 00:48:20,540

we've had radar we've had another kind

1088

00:48:24,849 --> 00:48:22,670

of things that have got got these things

1089

00:48:28,089 --> 00:48:24,859

but even the radar has been not

1090

00:48:29,980 --> 00:48:28,099

necessarily valuable or accurate all the

1091

00:48:32,260 --> 00:48:29,990

time too and the older Raider I'm the

1092

00:48:35,530 --> 00:48:32,270

older cases what I'm talking about

1093

00:48:38,650 --> 00:48:35,540

but yeah it's it is a factor and it's

1094

00:48:41,290 --> 00:48:38,660

very important did you guys experience

1095

00:48:44,470 --> 00:48:41,300

anything else I mean you went from from

1096

00:48:46,690 --> 00:48:44,480

that TTS a went over to other exercise

1097

00:48:49,089 --> 00:48:46,700

you were probably deployed or but did

1098

00:48:53,200 --> 00:48:49,099

you ever run across anything anywhere

1099

00:48:55,420 --> 00:48:53,210

else or like this or no well I I haven't

1100

00:48:58,839 --> 00:48:55,430

I actually left the service pretty

1101

00:49:05,349 --> 00:48:58,849

quickly after we we hope we got back was

1102

00:49:14,040 --> 00:49:05,359

well underway with this but other it's

1103

00:49:17,200 --> 00:49:14,050

it's it's been oh I did need to abridge

1104

00:49:20,470 --> 00:49:17,210

something and after we're done that this

1105

00:49:22,420 --> 00:49:20,480

top you need to talk about my original

1106

00:49:24,599 --> 00:49:22,430

statements that would be great you're

1107

00:49:27,099 --> 00:49:24,609

welcome to talk about it now if you wish

1108

00:49:29,740 --> 00:49:27,109

all right so I've gotten in contact with

1109

00:49:32,319 --> 00:49:29,750

one of the leading the leading petty

1110

00:49:33,339 --> 00:49:32,329

officers that were that was in charge of

1111

00:49:35,259 --> 00:49:33,349

the sonar that day

1112

00:49:39,039 --> 00:49:35,269

and I was able to confirm that the

1113

00:49:44,319 --> 00:49:39,049

Princeton itself never had any active on

1114

00:49:46,599 --> 00:49:44,329

a submerged vehicle when I heard when I

1115

00:49:48,789 --> 00:49:46,609

was told about a an active track in the

1116

00:49:50,559 --> 00:49:48,799

submerged vehicle that it wasn't this

1117

00:49:52,930 --> 00:49:50,569

particular sonar technician it was a

1118

00:49:54,759 --> 00:49:52,940

different technician and he directly

1119

00:49:56,109 --> 00:49:54,769

told me that we did have tracks but he

1120

00:50:00,219 --> 00:49:56,119

didn't specify whether it was the

1121

00:50:02,799 --> 00:50:00,229

Princeton or the the Nimitz or the

1122

00:50:05,380 --> 00:50:02,809

submarine so I've got no clue where that

1123

00:50:07,029 --> 00:50:05,390

source was from and that's what I've

1124

00:50:07,900 --> 00:50:07,039

been trying very hard to track down

1125

00:50:12,089 --> 00:50:07,910

myself

1126

00:50:16,359 --> 00:50:12,099

but that particular person is renaming

1127

00:50:18,130 --> 00:50:16,369

staying as the unnamed sonar technician

1128

00:50:22,599 --> 00:50:18,140

due to the fact it doesn't want us his

1129

00:50:25,089 --> 00:50:22,609

name associated with this but he with a

1130

00:50:28,390 --> 00:50:25,099

shadowed he basically he said two things

1131

00:50:30,279 --> 00:50:28,400

he said a he didn't have any active

1132

00:50:32,949 --> 00:50:30,289

tracks the entire week on the Princeton

1133

00:50:34,089 --> 00:50:32,959

itself and B if anybody told me that

1134

00:50:35,769 --> 00:50:34,099

they would have had to gotten the whole

1135

00:50:38,620 --> 00:50:35,779

gotten a hold of somebody from the other

1136

00:50:40,539 --> 00:50:38,630

ships on their own because during their

1137

00:50:42,189 --> 00:50:40,549

own duties on watch they would have

1138

00:50:44,799 --> 00:50:42,199

never actually been in contact with any

1139

00:50:46,239 --> 00:50:44,809

of the other ships so that's that's

1140

00:50:47,859 --> 00:50:46,249

that's part of my story that I'm

1141

00:50:49,630 --> 00:50:47,869

actually trying to track the person that

1142

00:50:52,749 --> 00:50:49,640

told me down which I haven't been able

1143

00:50:54,459 --> 00:50:52,759

to get ahold of yet so know that that is

1144

00:50:59,189 --> 00:50:54,469

the abridged version of the underwater

1145

00:51:01,180 --> 00:50:59,199

tracks that's good Gary

1146

00:51:02,979 --> 00:51:01,190

understood I did have a question from

1147

00:51:05,469 --> 00:51:02,989

Earl Gray who's the chief investigator

1148

00:51:08,799 --> 00:51:05,479

for a MUFON in Southern California

1149

00:51:10,449 --> 00:51:08,809

chapter he said this Kevin Day wrote in

1150

00:51:11,829 --> 00:51:10,459

his short story about the Nimitz affair

1151  
00:51:13,449 --> 00:51:11,839  
that there were some wear defects that

1152  
00:51:15,400 --> 00:51:13,459  
he noticed on the radar deck of the

1153  
00:51:18,279 --> 00:51:15,410  
princeton while they were tracking the

1154  
00:51:20,829 --> 00:51:18,289  
tic-tac i asked him about this he thinks

1155  
00:51:22,539 --> 00:51:20,839  
there's an intelligence from ET contact

1156  
00:51:25,269 --> 00:51:22,549  
that is contagious so to speak

1157  
00:51:26,559 --> 00:51:25,279  
contagious intelligence and perhaps what

1158  
00:51:28,809 --> 00:51:26,569  
he witnessed on the radar deck had

1159  
00:51:29,890 --> 00:51:28,819  
something to do with this that the crew

1160  
00:51:31,839 --> 00:51:29,900  
was literally being changed

1161  
00:51:35,529 --> 00:51:31,849  
psychologically and intelligence wise by

1162  
00:51:38,799 --> 00:51:35,539  
their contact with et intelligence Kevin

1163  
00:51:41,709 --> 00:51:38,809

do you have any comments about that I do

1164

00:51:44,019 --> 00:51:41,719

Jacques Vallee and dr. Eric Davis did a

1165

00:51:45,219 --> 00:51:44,029

paper and I forget the exact name of

1166

00:51:47,260 --> 00:51:45,229

someone helped me out if they you can

1167

00:51:49,120 --> 00:51:47,270

remember it I think it's called

1168

00:51:50,350 --> 00:51:49,130

the high string just increments or

1169

00:51:52,150 --> 00:51:50,360

ability or something like that

1170

00:51:55,720 --> 00:51:52,160

and basically what it does is outlined

1171

00:51:59,140 --> 00:51:55,730

six different layers a phenomena that

1172

00:52:01,210 --> 00:51:59,150

happens with UAP encounters and a couple

1173

00:52:03,609 --> 00:52:01,220

of those layers I believe there are four

1174

00:52:05,560 --> 00:52:03,619

or five and six the fourth one is

1175

00:52:09,420 --> 00:52:05,570

physical changes to people that

1176

00:52:11,890 --> 00:52:09,430

encounter these things the fifth one is

1177

00:52:13,690 --> 00:52:11,900

psychological changes that happens to

1178

00:52:15,640 --> 00:52:13,700

people and then the the the very last

1179

00:52:17,170 --> 00:52:15,650

one is social changes which is what

1180

00:52:19,240 --> 00:52:17,180

we're all observed in happening right

1181

00:52:21,040 --> 00:52:19,250

now and I think there's something to it

1182

00:52:22,540 --> 00:52:21,050

I it's been and well documented that

1183

00:52:26,830 --> 00:52:22,550

people that come in contact with this

1184

00:52:29,950 --> 00:52:26,840

phenomenon their life bifurcates that

1185

00:52:31,690 --> 00:52:29,960

changes them and it's part of the

1186

00:52:32,109 --> 00:52:31,700

mystery here why does it why does that

1187

00:52:34,120 --> 00:52:32,119

happen

1188

00:52:35,890 --> 00:52:34,130

I don't know but I can tell you that it

1189

00:52:37,750 --> 00:52:35,900

does I was profoundly affected by this

1190

00:52:39,520 --> 00:52:37,760

thing we don't have enough time now to

1191

00:52:41,740 --> 00:52:39,530

go into all of it but at some later time

1192

00:52:44,020 --> 00:52:41,750

I'd like to talk about that yeah I'm

1193

00:52:46,030 --> 00:52:44,030

gonna post a link to that paper in the

1194

00:52:48,730 --> 00:52:46,040

chat so people yeah a closer look at it

1195

00:52:51,070 --> 00:52:48,740

it's available there I wanted to just

1196

00:52:52,510 --> 00:52:51,080

talk about the topic of UFOs in

1197

00:52:54,580 --> 00:52:52,520

consciousness just for a moment and

1198

00:52:56,950 --> 00:52:54,590

that's a hot topic that everybody's been

1199

00:53:00,849 --> 00:52:56,960

talking about probably for I don't know

1200

00:53:03,160 --> 00:53:00,859

50 or maybe 60 years now rich do you

1201  
00:53:05,170 --> 00:53:03,170  
have any comments regarding that topic I

1202  
00:53:07,720 --> 00:53:05,180  
know that you and grant talked about it

1203  
00:53:09,609 --> 00:53:07,730  
on another program but you have any

1204  
00:53:11,770 --> 00:53:09,619  
comments regarding the scientific aspect

1205  
00:53:13,170 --> 00:53:11,780  
of that or is there any science to it

1206  
00:53:16,720 --> 00:53:13,180  
whatsoever

1207  
00:53:19,210 --> 00:53:16,730  
well I mean consciousness study I mean

1208  
00:53:19,990 --> 00:53:19,220  
you know people have a difficulty trying

1209  
00:53:22,480 --> 00:53:20,000  
to even figure out what what

1210  
00:53:25,390 --> 00:53:22,490  
consciousness is I mean you know how do

1211  
00:53:26,950 --> 00:53:25,400  
how do basic like cells and even if you

1212  
00:53:28,540 --> 00:53:26,960  
get down to the quantum level how does

1213  
00:53:30,900 --> 00:53:28,550

that work in terms of you having a

1214

00:53:34,570 --> 00:53:30,910

conscious and how do you interpret that

1215

00:53:38,410 --> 00:53:34,580

there there has always been some types

1216

00:53:40,330 --> 00:53:38,420

of let's put it this way cycle a post

1217

00:53:43,240 --> 00:53:40,340

experience or kinds of effects with

1218

00:53:45,849 --> 00:53:43,250

people we've had that with reported

1219

00:53:47,920 --> 00:53:45,859

cases as well if you take a look at if

1220

00:53:51,370 --> 00:53:47,930

you want to accept that the abduction

1221

00:53:54,780 --> 00:53:51,380

phenomena is indeed happening you're

1222

00:53:58,000 --> 00:53:54,790

talking about people being spoken with

1223

00:54:00,910 --> 00:53:58,010

flying telepathy they're hearing the the

1224

00:54:03,610 --> 00:54:00,920

conversation in their head you also

1225

00:54:05,920 --> 00:54:03,620

have the situation where people are

1226  
00:54:08,290 --> 00:54:05,930  
allegedly floating through buildings and

1227  
00:54:10,710 --> 00:54:08,300  
various other things are they really

1228  
00:54:13,360 --> 00:54:10,720  
doing that from the physical standpoint

1229  
00:54:15,520 --> 00:54:13,370  
there's the impact of the individual

1230  
00:54:17,890 --> 00:54:15,530  
that that is in the bed next to them

1231  
00:54:21,580 --> 00:54:17,900  
that is cotton some sort of like

1232  
00:54:23,200 --> 00:54:21,590  
suspended whatever you know so I mean

1233  
00:54:26,740 --> 00:54:23,210  
the consciousness and how we interpret

1234  
00:54:29,350 --> 00:54:26,750  
reality is definitely always going to be

1235  
00:54:32,020 --> 00:54:29,360  
a factor and everything and and so I

1236  
00:54:34,630 --> 00:54:32,030  
mean these guys are all witnessing this

1237  
00:54:36,520 --> 00:54:34,640  
phenomena by their consciousness you

1238  
00:54:38,860 --> 00:54:36,530

know and I guess what I'm trying to get

1239

00:54:42,250 --> 00:54:38,870

at is I'm you know it's not something

1240

00:54:45,100 --> 00:54:42,260

that we necessarily studied we we tended

1241

00:54:46,450 --> 00:54:45,110

to look at the hard science behind it if

1242

00:54:49,840 --> 00:54:46,460

you would the physics and stuff like

1243

00:54:52,840 --> 00:54:49,850

that but you know trying to explain a

1244

00:54:55,210 --> 00:54:52,850

this phenomena and I know that Jacque

1245

00:54:57,370 --> 00:54:55,220

Malay wants to put it in the context of

1246

00:54:59,410 --> 00:54:57,380

for example that it might be an

1247

00:55:01,390 --> 00:54:59,420

interdimensional kind of thing or it

1248

00:55:03,160 --> 00:55:01,400

might be tied to consciousness and Eric

1249

00:55:05,770 --> 00:55:03,170

Davis and there's a whole host of people

1250

00:55:08,280 --> 00:55:05,780

like Gary Nolan are also looking into it

1251  
00:55:12,340 --> 00:55:08,290  
and I applaud them for doing it that

1252  
00:55:17,110 --> 00:55:12,350  
science for that standpoint has not yet

1253  
00:55:19,210 --> 00:55:17,120  
come to grips with something but again I

1254  
00:55:21,190 --> 00:55:19,220  
mean from the standpoint of this

1255  
00:55:23,140 --> 00:55:21,200  
particular phenomena and how do you sort

1256  
00:55:24,850 --> 00:55:23,150  
there or separate this phenomena from

1257  
00:55:28,330 --> 00:55:24,860  
just life in general

1258  
00:55:30,910 --> 00:55:28,340  
you know I mean so was the object out

1259  
00:55:33,250 --> 00:55:30,920  
there manipulating the consciousness of

1260  
00:55:34,990 --> 00:55:33,260  
flavor or was it you know and I where do

1261  
00:55:38,770 --> 00:55:35,000  
you how do you inject that was it

1262  
00:55:41,170 --> 00:55:38,780  
impacting you know Kevin day we don't

1263  
00:55:43,920 --> 00:55:41,180

have any way even to measure or identify

1264

00:55:46,570 --> 00:55:43,930

that it is usually just an experience

1265

00:55:48,130 --> 00:55:46,580

that people talk about some people don't

1266

00:55:51,640 --> 00:55:48,140

even talk about it because it's too

1267

00:55:53,620 --> 00:55:51,650

weird you know in it weirds out when you

1268

00:55:56,050 --> 00:55:53,630

talk to somebody else about it because

1269

00:55:58,960 --> 00:55:56,060

they're not as open about it but I mean

1270

00:56:02,040 --> 00:55:58,970

these impacts or this these experiences

1271

00:56:05,470 --> 00:56:02,050

from the standpoint of the individuals

1272

00:56:08,290 --> 00:56:05,480

psychological or how they you know

1273

00:56:10,300 --> 00:56:08,300

they're the impacts of that they don't

1274

00:56:14,110 --> 00:56:10,310

want to talk about in general and UFO

1275

00:56:14,920 --> 00:56:14,120

cases and we don't learn much thank you

1276

00:56:19,060 --> 00:56:14,930

for that right

1277

00:56:20,980 --> 00:56:19,070

PJ Aaron Jason did you experience any

1278

00:56:23,620 --> 00:56:20,990

high strangeness after this event in

1279

00:56:31,360 --> 00:56:23,630

your lives after having been exposed to

1280

00:56:33,940 --> 00:56:31,370

it I didn't have anything beyond you

1281

00:56:35,110 --> 00:56:33,950

know just a normal life afterwards and

1282

00:56:38,080 --> 00:56:35,120

that's what I was sitting here thinking

1283

00:56:41,400 --> 00:56:38,090

like you know if this does happen maybe

1284

00:56:44,200 --> 00:56:41,410

it doesn't affect people the same way or

1285

00:56:53,320 --> 00:56:44,210

you know each individual person has

1286

00:56:56,410 --> 00:56:53,330

their own experience I know for this is

1287

00:56:58,300 --> 00:56:56,420

Carrie I know for me if that so much

1288

00:57:00,460 --> 00:56:58,310

stuff happened that I don't know whether

1289

00:57:01,960 --> 00:57:00,470

it was a UFO or just normal life

1290

00:57:05,230 --> 00:57:01,970

experiences that have changed the way

1291

00:57:07,260 --> 00:57:05,240

I've seen things in the world but I've

1292

00:57:11,650 --> 00:57:07,270

definitely had a dramatic change from

1293

00:57:12,760 --> 00:57:11,660

before that day and today but like I

1294

00:57:16,240 --> 00:57:12,770

said I don't know what to really

1295

00:57:19,090 --> 00:57:16,250

attribute that to we do have a question

1296

00:57:22,660 --> 00:57:19,100

from Shane Hurd who is a investigator

1297

00:57:25,330 --> 00:57:22,670

from the Phoenix MUFON chapter and he

1298

00:57:27,690 --> 00:57:25,340

asked if you're allowed to say did you

1299

00:57:31,000 --> 00:57:27,700

or have you ever experienced any

1300

00:57:32,800 --> 00:57:31,010

activity before after the nimitz

1301  
00:57:34,840 --> 00:57:32,810  
incident I think he means of some kind

1302  
00:57:38,290 --> 00:57:34,850  
of anomalous event maybe similar to what

1303  
00:57:46,170 --> 00:57:38,300  
you all were exposed to can anyone give

1304  
00:57:48,640 --> 00:57:46,180  
any input regarding that topic I had

1305  
00:57:50,560 --> 00:57:48,650  
what I can only describe his daytime

1306  
00:57:51,940 --> 00:57:50,570  
visions that helped me find a huge

1307  
00:57:56,320 --> 00:57:51,950  
deposit of gold back here in the

1308  
00:57:57,940 --> 00:57:56,330  
wilderness I'm not I'm not and I'm not a

1309  
00:58:00,130 --> 00:57:57,950  
geologist you know my family had that

1310  
00:58:01,990 --> 00:58:00,140  
mine back there since the 1930s and I

1311  
00:58:05,260 --> 00:58:02,000  
became obsessed with this idea that I

1312  
00:58:06,670 --> 00:58:05,270  
could find it and I did I did although

1313  
00:58:07,810 --> 00:58:06,680

we're never gonna mind it cuz it's in

1314

00:58:09,910 --> 00:58:07,820

the wilderness and we're not going to

1315

00:58:11,340 --> 00:58:09,920

have food and we're not going to give

1316

00:58:17,160 --> 00:58:11,350

your address out either

1317

00:58:23,800 --> 00:58:21,280

yeah just regarding that topic is

1318

00:58:25,870 --> 00:58:23,810

anybody hot go ahead Frank oh yeah I

1319

00:58:28,300 --> 00:58:25,880

just don't wanted to jump in and talk

1320

00:58:30,100 --> 00:58:28,310

about how you guys went

1321

00:58:32,380 --> 00:58:30,110

public with all this what was that what

1322

00:58:34,960 --> 00:58:32,390

was that process and you know how were

1323

00:58:36,970 --> 00:58:34,970

you contacted and told that the hey yeah

1324

00:58:40,270 --> 00:58:36,980

we want to hear more about this was it

1325

00:58:41,740 --> 00:58:40,280

that was day baby or no I dropped I

1326

00:58:44,530 --> 00:58:41,750

dropped a note on Robert Powell's

1327

00:58:47,080 --> 00:58:44,540

YouTube video right after December 17th

1328

00:58:48,700 --> 00:58:47,090

happened okay and he contacted me and

1329

00:58:53,880 --> 00:58:48,710

that's how this whole thing started at

1330

00:59:02,800 --> 00:58:53,890

least for me personally okay and PJ I

1331

00:59:10,720 --> 00:59:02,810

ran into babies and I sent him an email

1332

00:59:12,880 --> 00:59:10,730

based on that and yeah sorry about that

1333

00:59:16,180 --> 00:59:12,890

Jason how did you get involved in all

1334

00:59:19,930 --> 00:59:16,190

this more directly mine was the same way

1335

00:59:24,180 --> 00:59:19,940

I saw the original version that David

1336

00:59:30,910 --> 00:59:26,830

you know I like to come out and talk

1337

00:59:33,160 --> 00:59:30,920

about it see where we go since we're

1338

00:59:35,370 --> 00:59:33,170

giving shoutouts shout out the day bTW

1339

00:59:37,930 --> 00:59:35,380

cuz I tell you what his video has really

1340

00:59:39,190 --> 00:59:37,940

really helped people come forward and I

1341

00:59:40,900 --> 00:59:39,200

don't know we'd all be sitting here

1342

00:59:42,670 --> 00:59:40,910

right now without without what he did

1343

00:59:43,840 --> 00:59:42,680

I really don't and the other guy I'd

1344

00:59:45,880 --> 00:59:43,850

like to give a shout out to this Dave

1345

00:59:47,200 --> 00:59:45,890

Altman he's the agent of Hollywood that

1346

00:59:50,620 --> 00:59:47,210

is helping me out because I started

1347

00:59:53,230 --> 00:59:50,630

getting so many requests and swap I'm

1348

00:59:57,210 --> 00:59:53,240

just stood we appreciate you coming on

1349

01:00:02,230 --> 01:00:00,820

they're helping us I did want to mention

1350

01:00:03,820 --> 01:00:02,240

that I did actually have the privilege

1351  
01:00:05,470 --> 01:00:03,830  
and honor of interviewing Dave Beatty

1352  
01:00:08,470 --> 01:00:05,480  
last week for about an hour and a half

1353  
01:00:10,810 --> 01:00:08,480  
and he did get to talk extensively about

1354  
01:00:12,520 --> 01:00:10,820  
his nimitz encounter film and how it's

1355  
01:00:14,680 --> 01:00:12,530  
actually changed over a period of time

1356  
01:00:16,780 --> 01:00:14,690  
and the reasons why he was very candid

1357  
01:00:18,520 --> 01:00:16,790  
about that and that is gonna be a part

1358  
01:00:20,320 --> 01:00:18,530  
two to this show that we will have so in

1359  
01:00:21,820 --> 01:00:20,330  
other words when this show ends we're

1360  
01:00:24,550 --> 01:00:21,830  
actually gonna go ahead and post that

1361  
01:00:26,440 --> 01:00:24,560  
part to which special report regarding

1362  
01:00:28,690 --> 01:00:26,450  
Dave Beatty and rich Hoffman I was going

1363  
01:00:30,370 --> 01:00:28,700

to ask you what was your response to

1364

01:00:34,020 --> 01:00:30,380

Dave Beatty's on the mid Singh counter

1365

01:00:37,740 --> 01:00:34,030

film what are your thoughts on that oh

1366

01:00:40,060 --> 01:00:37,750

my god I loved it I mean I you know we

1367

01:00:42,070 --> 01:00:40,070

when we deal with cases you know

1368

01:00:44,020 --> 01:00:42,080

typically it's hard for us to have

1369

01:00:45,940 --> 01:00:44,030

during you know to where we can you know

1370

01:00:49,510 --> 01:00:45,950

have something in other quality that he

1371

01:00:51,700 --> 01:00:49,520

did in terms of the video to show you

1372

01:00:54,340 --> 01:00:51,710

know how how did this actually happen I

1373

01:00:56,020 --> 01:00:54,350

mean I work with Dave I'm sure that

1374

01:00:57,940 --> 01:00:56,030

other guys and we're all working with

1375

01:01:01,270 --> 01:00:57,950

them to try to get this as precise as

1376

01:01:03,400 --> 01:01:01,280

possible and that's the thing I

1377

01:01:05,560 --> 01:01:03,410

appreciated about Dave is that he was

1378

01:01:07,600 --> 01:01:05,570

not you know let me just make a picture

1379

01:01:09,970 --> 01:01:07,610

and you know and let me just do this and

1380

01:01:11,830 --> 01:01:09,980

put this story together he really tried

1381

01:01:14,800 --> 01:01:11,840

to get every little detail and every

1382

01:01:19,150 --> 01:01:14,810

little nuance and an accurate and and

1383

01:01:22,300 --> 01:01:19,160

that was fabulous and so I you know we

1384

01:01:24,070 --> 01:01:22,310

don't often have that and then usually

1385

01:01:25,420 --> 01:01:24,080

what happens is when Hollywood or

1386

01:01:27,940 --> 01:01:25,430

something like that goes out and tries

1387

01:01:30,130 --> 01:01:27,950

to tell the story on shows they do an

1388

01:01:33,450 --> 01:01:30,140

abysmal job of making the renderings and

1389

01:01:36,460 --> 01:01:33,460

they add now additional problematic data

1390

01:01:38,890 --> 01:01:36,470

where they don't do it accurately and

1391

01:01:41,890 --> 01:01:38,900

now everybody that sees the video thinks

1392

01:01:43,570 --> 01:01:41,900

that that's the way UFOs operate or that

1393

01:01:46,330 --> 01:01:43,580

that's the way that they look or that

1394

01:01:48,700 --> 01:01:46,340

and it's totally wrong and they get it

1395

01:01:53,140 --> 01:01:48,710

wrong periodic and so I appreciate Dave

1396

01:01:55,630 --> 01:01:53,150

to the nth degree and PJ yeah you would

1397

01:01:57,340 --> 01:01:55,640

dimension a interesting new witness son

1398

01:01:58,540 --> 01:01:57,350

that you wanted to share so why don't

1399

01:02:02,290 --> 01:01:58,550

you jump in and that tell us all about

1400

01:02:05,740 --> 01:02:02,300

that yeah a little more than a week ago

1401

01:02:08,890 --> 01:02:05,750

Dave got an email he ended up forwarding

1402

01:02:10,920 --> 01:02:08,900

to me and I don't have mission to share

1403

01:02:14,770 --> 01:02:10,930

the guy's name or anything so I'm long

1404

01:02:17,050 --> 01:02:14,780

but I've pretty much verified most of

1405

01:02:19,090 --> 01:02:17,060

what he had to tell me so I'm pretty

1406

01:02:23,560 --> 01:02:19,100

sure he's a legitimate witness but he's

1407

01:02:25,720 --> 01:02:23,570

actually a an operation specialist from

1408

01:02:29,590 --> 01:02:25,730

the Nimitz and he was telling Dave and I

1409

01:02:31,330 --> 01:02:29,600

about a meeting that appeared at a place

1410

01:02:37,000 --> 01:02:31,340

called Simmons hall which is on the ASW

1411

01:02:39,010 --> 01:02:37,010

base in San Diego where he stated the

1412

01:02:42,040 --> 01:02:39,020

pilots some people from the Princeton

1413

01:02:44,920 --> 01:02:42,050

and some other people were all there and

1414

01:02:48,070 --> 01:02:44,930

they were told and I'm gonna quote his

1415

01:02:50,170 --> 01:02:48,080

line hey we don't know what that was but

1416

01:02:53,890 --> 01:02:50,180

just in case you should not talk about

1417

01:02:55,510 --> 01:02:53,900

it like I said that's the the first we'd

1418

01:02:57,810 --> 01:02:55,520

heard about

1419

01:03:01,030 --> 01:02:57,820

and in meeting or anything taking place

1420

01:03:02,640 --> 01:03:01,040

after the ship's pull back in I've been

1421

01:03:06,880 --> 01:03:02,650

able to verify who's actually been there

1422

01:03:08,200 --> 01:03:06,890

but the rest of cow if it's the same

1423

01:03:11,109 --> 01:03:08,210

meeting he's talking about I was there

1424

01:03:14,560 --> 01:03:11,119

and that's another verification we got

1425

01:03:19,030 --> 01:03:14,570

yeah but that also tells us that Nimitz

1426

01:03:21,670 --> 01:03:19,040

was I said he was I'm not gonna share

1427

01:03:24,490 --> 01:03:21,680

what he was track you know but they were

1428

01:03:27,820 --> 01:03:24,500

tracking it on the Nimitz his own radar

1429

01:03:29,560 --> 01:03:27,830

along with all the data links which the

1430

01:03:32,710 --> 01:03:29,570

Princeton and the Hawkeye wasn't sharing

1431

01:03:34,240 --> 01:03:32,720

anyways yeah Kevin if he can tell us who

1432

01:03:36,310 --> 01:03:34,250

put the meeting together or was that

1433

01:03:38,200 --> 01:03:36,320

there something that came from above

1434

01:03:41,460 --> 01:03:38,210

down or was that there something that

1435

01:03:44,710 --> 01:03:41,470

kind of had you know sort of a a

1436

01:03:47,680 --> 01:03:44,720

groundswell amongst you guys doing your

1437

01:03:49,840 --> 01:03:47,690

jobs on the ship we were gonna do the

1438

01:03:52,359 --> 01:03:49,850

meeting anyway because we often do post

1439

01:03:54,220 --> 01:03:52,369

meetings after exercises to do like go

1440

01:03:57,220 --> 01:03:54,230

over lessons learned and come up with

1441

01:03:58,840 --> 01:03:57,230

ideas for better stuff later and because

1442

01:04:00,160 --> 01:03:58,850

this happened it became a topic of the

1443

01:04:01,840 --> 01:04:00,170

conference chasing while we were there

1444

01:04:07,930 --> 01:04:01,850

we would have had the meeting anyway

1445

01:04:15,160 --> 01:04:07,940

it's standard routine for us yeah what

1446

01:04:17,859 --> 01:04:15,170

was the result of the meeting Wow yeah I

1447

01:04:19,690 --> 01:04:17,869

mean even then in that room knowing no

1448

01:04:21,910 --> 01:04:19,700

one really understood what we hit all

1449

01:04:23,500 --> 01:04:21,920

this we had all just witnessed we didn't

1450

01:04:30,250 --> 01:04:23,510

even know what to how to make sense of

1451

01:04:32,740 --> 01:04:30,260

it at the time I had had a question from

1452

01:04:35,890 --> 01:04:32,750

a high profile person in the UFO

1453

01:04:37,870 --> 01:04:35,900

community who had asked we need ask you

1454

01:04:39,010 --> 01:04:37,880

all question actually he sent a series

1455

01:04:40,599 --> 01:04:39,020

of questions but I'll go ahead and ask

1456

01:04:42,430 --> 01:04:40,609

one of them now I'm gonna start off with

1457

01:04:45,250 --> 01:04:42,440

rich Hoffman to see if he knows about

1458

01:04:47,349 --> 01:04:45,260

this topic that this well-known person

1459

01:04:48,910 --> 01:04:47,359

wanted to ask he asked are you aware of

1460

01:04:51,670 --> 01:04:48,920

the huge database of pilot sightings

1461

01:04:55,240 --> 01:04:51,680

built up over several decades by dr.

1462

01:04:57,340 --> 01:04:55,250

Richard Haines at NASA rich oh sure I

1463

01:05:00,670 --> 01:04:57,350

mean dr. Haines that an incredible job

1464

01:05:03,099 --> 01:05:00,680

of collecting this in our cap so I mean

1465

01:05:05,470 --> 01:05:03,109

and and you know they're talking about

1466

01:05:07,720 --> 01:05:05,480

this from the context of you know this

1467

01:05:09,300 --> 01:05:07,730

threat if you would the fact that we

1468

01:05:12,180 --> 01:05:09,310

have objects that were out there

1469

01:05:14,100 --> 01:05:12,190

that were you know getting up within our

1470

01:05:17,070 --> 01:05:14,110

exercises and we have objects that are

1471

01:05:19,980 --> 01:05:17,080

doing this or that dr. Haynes has done

1472

01:05:22,170 --> 01:05:19,990

for an incredible job overall though for

1473

01:05:24,510 --> 01:05:22,180

decades of documenting all the

1474

01:05:27,810 --> 01:05:24,520

commercial pilots kinds of things that

1475

01:05:29,520 --> 01:05:27,820

come forward and and his big thing was

1476

01:05:33,810 --> 01:05:29,530

getting those reports where there's a

1477

01:05:37,230 --> 01:05:33,820

safety or a flight safety issue I'm in

1478

01:05:42,600 --> 01:05:37,240

in 2010 2013 for example I had a case

1479

01:05:44,580 --> 01:05:42,610

where four foot object-- that was you

1480

01:05:47,070 --> 01:05:44,590

know it was basically like a disc shaped

1481

01:05:50,370 --> 01:05:47,080

object that came underneath the wing of

1482

01:05:52,380 --> 01:05:50,380

an aircraft like a Cessna and it's right

1483

01:05:54,600 --> 01:05:52,390

underneath its wingtip as it's flying

1484

01:05:57,300 --> 01:05:54,610

along well these are concerns you know I

1485

01:05:58,950 --> 01:05:57,310

mean so from a flight safety standpoint

1486

01:06:00,570 --> 01:05:58,960

you've got to be concerned about it at

1487

01:06:03,180 --> 01:06:00,580

the same time if you look at the East

1488

01:06:04,980 --> 01:06:03,190

Coast encounter if you're a flying it

1489

01:06:06,420 --> 01:06:04,990

like say twenty-eight thousand feet or

1490

01:06:09,270 --> 01:06:06,430

something like that and you've got this

1491

01:06:12,030 --> 01:06:09,280

object that's whizzing by that you know

1492

01:06:15,840 --> 01:06:12,040

you could have hit that's a big concern

1493

01:06:18,630 --> 01:06:15,850

so I mean yeah Norah gnarrk cap and dick

1494

01:06:21,000 --> 01:06:18,640

Cates I in fact we conduct we contacted

1495

01:06:24,090 --> 01:06:21,010

him a lot about even the Agudilla case

1496

01:06:25,710 --> 01:06:24,100

that we studied yeah I just wanted to

1497

01:06:27,150 --> 01:06:25,720

read a little bit about his bio just so

1498

01:06:29,250 --> 01:06:27,160

folks know I'm talking about and then

1499

01:06:31,320 --> 01:06:29,260

also I included a link into the chat

1500

01:06:33,510 --> 01:06:31,330

area so folks can actually click on that

1501

01:06:35,670 --> 01:06:33,520

and see a little bit about doctor

1502

01:06:38,450 --> 01:06:35,680

Richard Haines he was born raised in

1503

01:06:42,240 --> 01:06:38,460

Seattle Washington and he worked at NASA

1504

01:06:46,040 --> 01:06:42,250

from 67 to 86 as a research scientist in

1505

01:06:48,570 --> 01:06:46,050

numerous aeronautical topics and

1506

01:06:50,490 --> 01:06:48,580

aeronautical as well and he retired from

1507

01:06:52,620 --> 01:06:50,500

the government service in 88 and he also

1508

01:06:54,510 --> 01:06:52,630

taught at San Jose State University as

1509

01:06:56,460 --> 01:06:54,520

associate professor of psychology and so

1510

01:07:00,420 --> 01:06:56,470

on and then the other thing I wanted to

1511

01:07:02,970 --> 01:07:00,430

mention is he has a extensive article

1512

01:07:05,820 --> 01:07:02,980

that is titled a review of selected

1513

01:07:09,710 --> 01:07:05,830

sightings from aircraft from 73 to 78

1514

01:07:12,150 --> 01:07:09,720

and then another one that it has is a

1515

01:07:15,150 --> 01:07:12,160

review of selected aerial phenomenon

1516

01:07:20,010 --> 01:07:15,160

sightings from aircraft from 1942 to

1517

01:07:23,070 --> 01:07:20,020

1952 and then there's there's many but

1518

01:07:24,900 --> 01:07:23,080

he has a quite lengthy are

1519

01:07:26,760 --> 01:07:24,910

dedicated to the topics that we're

1520

01:07:28,350 --> 01:07:26,770

talking about here and sounds like he's

1521

01:07:31,350 --> 01:07:28,360

dedicated quite a bit of his life to

1522

01:07:33,840 --> 01:07:31,360

this topic which is quite interesting

1523

01:07:35,880 --> 01:07:33,850

the other yeah let me jump in here and

1524

01:07:37,830 --> 01:07:35,890

make one quick point about to air safety

1525

01:07:41,130 --> 01:07:37,840

in general and folks who are in the

1526  
01:07:42,510 --> 01:07:41,140  
business are fanatics about safety you

1527  
01:07:44,970 --> 01:07:42,520  
know it's part of the reason why air

1528  
01:07:47,160 --> 01:07:44,980  
travel is so safe but on the civilian

1529  
01:07:49,740 --> 01:07:47,170  
commercial side and literally everything

1530  
01:07:52,620 --> 01:07:49,750  
imaginable that could be a threat is

1531  
01:07:55,410 --> 01:07:52,630  
regarded as a threat birds I think Sully

1532  
01:07:58,860 --> 01:07:55,420  
Sullenberger would agree that the birds

1533  
01:08:01,560 --> 01:07:58,870  
can be a potential hazard or air travel

1534  
01:08:04,350 --> 01:08:01,570  
weather obviously any kind of a pilot

1535  
01:08:06,930 --> 01:08:04,360  
distraction is categorized in the threat

1536  
01:08:10,670 --> 01:08:06,940  
error management protocols as a

1537  
01:08:12,960 --> 01:08:10,680  
potential threat to your air safety so

1538  
01:08:14,460 --> 01:08:12,970

literally anything and everything could

1539

01:08:16,230 --> 01:08:14,470

be and certainly UFOs even though

1540

01:08:18,000 --> 01:08:16,240

they're not specifically mentioned could

1541

01:08:20,400 --> 01:08:18,010

easily be just by providing a

1542

01:08:23,550 --> 01:08:20,410

distraction to a pilot that could be a

1543

01:08:24,690 --> 01:08:23,560

potential risk so now there yet the

1544

01:08:26,820 --> 01:08:24,700

folks who were in that business

1545

01:08:29,460 --> 01:08:26,830

take care safety very seriously and I'm

1546

01:08:39,270 --> 01:08:29,470

I'm sure the same applies over in in

1547

01:08:41,010 --> 01:08:39,280

terms of the military as well the San

1548

01:08:42,750 --> 01:08:41,020

Clemente expedition that's now just

1549

01:08:44,070 --> 01:08:42,760

getting work and getting proposed if if

1550

01:08:46,590 --> 01:08:44,080

there's anyone out there listening that

1551

01:08:48,329 --> 01:08:46,600

wants more information on that or maybe

1552

01:08:51,120 --> 01:08:48,339

even potentially wants to help us fund

1553

01:08:53,039 --> 01:08:51,130

it please contact chant Hannah and

1554

01:08:55,800 --> 01:08:53,049

she'll contact me and we'll make that

1555

01:08:58,559 --> 01:08:55,810

happen absolutely and you can contact me

1556

01:08:59,940 --> 01:08:58,569

at chat Hannah at hotmail.com and can

1557

01:09:01,230 --> 01:08:59,950

you just repeat that one more time so

1558

01:09:03,450 --> 01:09:01,240

people can hear what you just said in

1559

01:09:05,490 --> 01:09:03,460

case they missed it yeah we're proposing

1560

01:09:07,920 --> 01:09:05,500

to do an expedition we're gonna anchor

1561

01:09:11,789 --> 01:09:07,930

off San Clemente Island off the coast of

1562

01:09:13,559 --> 01:09:11,799

San Diego and because we suspect we know

1563

01:09:15,539 --> 01:09:13,569

where these UAP are coming from where

1564

01:09:16,800 --> 01:09:15,549

are they going to and also what time of

1565

01:09:19,890 --> 01:09:16,810

the year they're doing it we think it's

1566

01:09:20,970 --> 01:09:19,900

based on the migration of whales we're

1567

01:09:22,559 --> 01:09:20,980

gonna go out there and just see if it

1568

01:09:24,180 --> 01:09:22,569

happens we're gonna listen to the water

1569

01:09:25,710 --> 01:09:24,190

we're gonna listen for whale songs and

1570

01:09:29,329 --> 01:09:25,720

we're gonna try to correlate anything

1571

01:09:32,039 --> 01:09:29,339

you see in this guy with the whale songs

1572

01:09:33,150 --> 01:09:32,049

it's an all-volunteer crew it's not a

1573

01:09:36,539 --> 01:09:33,160

profit-making thing

1574

01:09:38,160 --> 01:09:36,549

it's an expedition of Discovery only

1575

01:09:40,140 --> 01:09:38,170

that definitely sounds like something

1576

01:09:41,700 --> 01:09:40,150

that's worth contributing to and you're

1577

01:09:43,530 --> 01:09:41,710

welcome to talk about that topic at any

1578

01:09:45,480 --> 01:09:43,540

time our show at length if you want to

1579

01:09:47,190 --> 01:09:45,490

and we're not in any rush we're here for

1580

01:09:49,440 --> 01:09:47,200

you all today so interrupt us at any

1581

01:09:52,170 --> 01:09:49,450

time and talk about any topics you feel

1582

01:09:53,910 --> 01:09:52,180

are relevant the other question that

1583

01:09:56,430 --> 01:09:53,920

this gentleman wanted to ask you all is

1584

01:09:58,470 --> 01:09:56,440

he had a few but one of them is while

1585

01:10:00,450 --> 01:09:58,480

any advanced technology of unknown

1586

01:10:02,310 --> 01:10:00,460

origin is a potential threat do you

1587

01:10:04,050 --> 01:10:02,320

think the UA PS you encountered or a

1588

01:10:09,060 --> 01:10:04,060

threat at this time

1589

01:10:10,710 --> 01:10:09,070

can anyone chime in on that topic I this

1590

01:10:12,480 --> 01:10:10,720

is Kevin I think there a threat from

1591

01:10:14,340 --> 01:10:12,490

this from this one perspective and

1592

01:10:17,790 --> 01:10:14,350

that's really as far much as I'll say

1593

01:10:19,770 --> 01:10:17,800

about it what if the 2004 encounter

1594

01:10:21,930 --> 01:10:19,780

happened off the coast of

1595

01:10:23,820 --> 01:10:21,940

fill-in-the-blank country when there are

1596

01:10:26,970 --> 01:10:23,830

hostilities and I do have missiles to

1597

01:10:29,070 --> 01:10:26,980

shoot what happens for an overreactor

1598

01:10:30,450 --> 01:10:29,080

pilot this is oh my god oh my god I'm

1599

01:10:32,340 --> 01:10:30,460

being engaged I'm in I'm being engage

1600

01:10:34,770 --> 01:10:32,350

like commander forever did only this

1601  
01:10:36,780 --> 01:10:34,780  
time they actually shoot a missile damn

1602  
01:10:41,430 --> 01:10:36,790  
man we could start a war without even

1603  
01:10:45,410 --> 01:10:41,440  
trying to in that right right there is a

1604  
01:10:52,320 --> 01:10:50,280  
this and start training the watch

1605  
01:10:53,580 --> 01:10:52,330  
standers and the pilots and their stuff

1606  
01:10:55,260 --> 01:10:53,590  
in our skies and we don't know what the

1607  
01:10:56,820 --> 01:10:55,270  
hell it is I'm glad you brought that up

1608  
01:10:58,410 --> 01:10:56,830  
because that's a good segue to a topic

1609  
01:10:59,220 --> 01:10:58,420  
that seems to be hitting the news

1610  
01:11:01,170 --> 01:10:59,230  
recently

1611  
01:11:03,680 --> 01:11:01,180  
and I'd like everybody's input on that

1612  
01:11:06,000 --> 01:11:03,690  
is that it seems like it's become more

1613  
01:11:07,650 --> 01:11:06,010

normal so to speak for pilots to be able

1614

01:11:10,290 --> 01:11:07,660

come forward and talk about anomalous

1615

01:11:17,850 --> 01:11:10,300

objects in the sky is that true can

1616

01:11:19,800 --> 01:11:17,860

anybody give input on that topic I mean

1617

01:11:22,080 --> 01:11:19,810

me personally I think it's honestly all

1618

01:11:23,910 --> 01:11:22,090

atactic just kind of desensitize the

1619

01:11:26,340 --> 01:11:23,920

public to it and normalize it so that

1620

01:11:29,160 --> 01:11:26,350

it's just not a big deal anymore just a

1621

01:11:32,250 --> 01:11:29,170

kind of a different way of suppressing

1622

01:11:33,510 --> 01:11:32,260

it do you expect other pilots and

1623

01:11:34,080 --> 01:11:33,520

support crew to come forward in the

1624

01:11:37,350 --> 01:11:34,090

future

1625

01:11:41,510 --> 01:11:37,360

anyone regarding anomalous objects in

1626  
01:11:50,730 --> 01:11:47,490  
think on the commercial side apply the

1627  
01:11:53,640 --> 01:11:50,740  
private pilot's I think a lot of

1628  
01:11:56,010 --> 01:11:53,650  
are doing it there's the stigma is

1629  
01:11:58,290 --> 01:11:56,020  
starting to leave that's associated with

1630  
01:12:00,440 --> 01:11:58,300  
it so I think the more that we talk

1631  
01:12:04,500 --> 01:12:00,450  
about it the more that it becomes

1632  
01:12:06,630 --> 01:12:04,510  
relevant everyday flight operations I

1633  
01:12:10,200 --> 01:12:06,640  
think we will see a lot more people

1634  
01:12:13,020 --> 01:12:10,210  
coming forward especially on the the

1635  
01:12:17,190 --> 01:12:13,030  
private side and more so on the

1636  
01:12:19,110 --> 01:12:17,200  
commercial side rich go ahead please

1637  
01:12:23,940 --> 01:12:19,120  
no this is rich I just learned it to say

1638  
01:12:27,810 --> 01:12:23,950

one thing that you know in my decades of

1639

01:12:30,570 --> 01:12:27,820

this thing you know it's only just

1640

01:12:32,520 --> 01:12:30,580

within the this recent announcement

1641

01:12:35,270 --> 01:12:32,530

about the Roosevelt and the fact that

1642

01:12:39,840 --> 01:12:35,280

you've ever seen active-duty military

1643

01:12:42,870 --> 01:12:39,850

who have come forward with a story you

1644

01:12:45,180 --> 01:12:42,880

know we typically get retirees in fact

1645

01:12:48,120 --> 01:12:45,190

I'm gonna be giving a presentation on

1646

01:12:50,880 --> 01:12:48,130

UFOs here in Huntsville to a group of

1647

01:12:52,650 --> 01:12:50,890

Vietnam veterans and and typically like

1648

01:12:54,720 --> 01:12:52,660

when you give these lectures you talk to

1649

01:12:56,520 --> 01:12:54,730

people they're willing to talk about it

1650

01:12:58,740 --> 01:12:56,530

after the fact they're out of service

1651  
01:13:00,570 --> 01:12:58,750  
they can talk about I don't know I saw

1652  
01:13:01,260 --> 01:13:00,580  
something back and one you know and

1653  
01:13:03,540 --> 01:13:01,270  
that's okay

1654  
01:13:05,760 --> 01:13:03,550  
it's rare that you get somebody gets

1655  
01:13:08,370 --> 01:13:05,770  
still active duty and wearing the green

1656  
01:13:12,000 --> 01:13:08,380  
suit that can come forward publicly and

1657  
01:13:14,730 --> 01:13:12,010  
say that they saw an object that they

1658  
01:13:16,950 --> 01:13:14,740  
couldn't identify that it outmaneuvered

1659  
01:13:20,520 --> 01:13:16,960  
them and you know there was more of a

1660  
01:13:23,820 --> 01:13:20,530  
UFO so this is a this is a huge huge

1661  
01:13:26,040 --> 01:13:23,830  
change and I'm just thrilled to death

1662  
01:13:29,040 --> 01:13:26,050  
the fact that you know now you got that

1663  
01:13:31,620 --> 01:13:29,050

stigma that's going away which would

1664

01:13:35,430 --> 01:13:31,630

allow for conversations to happen and

1665

01:13:37,620 --> 01:13:35,440

and now for scientists to get engaged

1666

01:13:40,470 --> 01:13:37,630

and feel like they can come out and talk

1667

01:13:45,660 --> 01:13:40,480

about it without being laughed at and so

1668

01:13:47,520 --> 01:13:45,670

this is a huge change okay guys I want

1669

01:13:49,620 --> 01:13:47,530

to make a point that is that we have

1670

01:13:51,180 --> 01:13:49,630

Kevin canoe thinker Nolan who are

1671

01:13:54,390 --> 01:13:51,190

willing to come out publicly and talk

1672

01:13:55,470 --> 01:13:54,400

about the topic of ufology rich how do

1673

01:13:56,760 --> 01:13:55,480

you feel about that

1674

01:14:00,180 --> 01:13:56,770

could you please touch on that just a

1675

01:14:02,910 --> 01:14:00,190

little bit more well know I'm thrilled I

1676

01:14:04,919 --> 01:14:02,920

met with Karen Knuth and he also brought

1677

01:14:07,380 --> 01:14:04,929

with him dr. Matthews

1678

01:14:10,050 --> 01:14:07,390

Vegas who's like a very knowledgeable

1679

01:14:12,090 --> 01:14:10,060

individual and a professor at the same

1680

01:14:15,840 --> 01:14:12,100

school that he is that does dark energy

1681

01:14:18,510 --> 01:14:15,850

and dark matter studies and when I met

1682

01:14:21,300 --> 01:14:18,520

with dr. Knuth you know he was

1683

01:14:23,370 --> 01:14:21,310

presenting at the SU conference we had

1684

01:14:25,850 --> 01:14:23,380

this was about the week before that the

1685

01:14:28,740 --> 01:14:25,860

the guys got together at in Nevada but

1686

01:14:32,010 --> 01:14:28,750

we and I was we were hoping that they

1687

01:14:35,430 --> 01:14:32,020

could all come by Glee a but anyway the

1688

01:14:37,830 --> 01:14:35,440

situation was that that you know he said

1689

01:14:40,410 --> 01:14:37,840

it's still a challenge in fact dr.

1690

01:14:44,939 --> 01:14:40,420

Matthew Sudeikis said he's willing to

1691

01:14:49,020 --> 01:14:44,949

join us you possibly after he graduates

1692

01:14:51,320 --> 01:14:49,030

from some sort of degree or again or no

1693

01:14:53,370 --> 01:14:51,330

he was he had to wait until he got his

1694

01:14:58,080 --> 01:14:53,380

where they call that when you have your

1695

01:15:01,979 --> 01:14:58,090

tenure okay yeah tenure that he's

1696

01:15:02,430 --> 01:15:01,989

willing to then do that you get what I'm

1697

01:15:06,149 --> 01:15:02,440

saying

1698

01:15:09,120 --> 01:15:06,159

oh yeah so I mean and that's got a

1699

01:15:11,760 --> 01:15:09,130

change and I guess cases like you know

1700

01:15:13,470 --> 01:15:11,770

this and the fact that it's now coming

1701

01:15:16,919 --> 01:15:13,480

out and being open and Lee openly

1702

01:15:20,130 --> 01:15:16,929

discussed is now allowing them to have

1703

01:15:22,860 --> 01:15:20,140

those conversations and it not being

1704

01:15:24,419 --> 01:15:22,870

laughed at that they can talk about it

1705

01:15:26,490 --> 01:15:24,429

and and that's gonna be the change

1706

01:15:28,320 --> 01:15:26,500

that's going on even where I work in a

1707

01:15:30,360 --> 01:15:28,330

DoD and stuff like that you know we're

1708

01:15:32,370 --> 01:15:30,370

having I got more people coming up and

1709

01:15:34,200 --> 01:15:32,380

talking to me about UFOs of course my

1710

01:15:37,140 --> 01:15:34,210

whole whole cube is decked out and you

1711

01:15:39,000 --> 01:15:37,150

have both paraphernalia but but you know

1712

01:15:41,580 --> 01:15:39,010

I mean more and more people are coming

1713

01:15:43,470 --> 01:15:41,590

forward and and yeah that's great we

1714

01:15:45,450 --> 01:15:43,480

want that and now what I was gonna ask

1715

01:15:47,459 --> 01:15:45,460

you at rich and really anybody who wants

1716

01:15:49,709 --> 01:15:47,469

to respond it's a pretty obvious that

1717

01:15:51,240 --> 01:15:49,719

with the graves and our coin the two

1718

01:15:53,149 --> 01:15:51,250

pilots in the Roosevelt case coming

1719

01:15:55,770 --> 01:15:53,159

forward while still on active duty

1720

01:15:57,959 --> 01:15:55,780

they're getting the okay internally to

1721

01:16:02,610 --> 01:15:57,969

do that they're not just doing it on

1722

01:16:04,740 --> 01:16:02,620

their own yeah well yeah and that made

1723

01:16:06,540 --> 01:16:04,750

me speculate I'm sure that the other

1724

01:16:08,010 --> 01:16:06,550

guys and the Navy would we'd probably

1725

01:16:09,750 --> 01:16:08,020

say the same thing but you know it's

1726

01:16:11,010 --> 01:16:09,760

like usually like announcements like

1727

01:16:12,689 --> 01:16:11,020

this they've got to go to the public

1728

01:16:13,979 --> 01:16:12,699

affairs office and the public affairs

1729

01:16:16,919 --> 01:16:13,989

office has got a

1730

01:16:19,799 --> 01:16:16,929

prove you going on TV and talking about

1731

01:16:21,330 --> 01:16:19,809

the you know something like this and I

1732

01:16:23,549 --> 01:16:21,340

and I don't know if that coordination

1733

01:16:26,129 --> 01:16:23,559

happened or I mean somehow they got that

1734

01:16:29,239 --> 01:16:26,139

approved I'd love to know the backstory

1735

01:16:31,919 --> 01:16:29,249

that you know but anyway it's it's great

1736

01:16:35,430 --> 01:16:31,929

that you've got to active duty coming

1737

01:16:37,589 --> 01:16:35,440

forward and more power to do them and I

1738

01:16:39,330 --> 01:16:37,599

hope more the Berrier we're enjoying a

1739

01:16:40,620 --> 01:16:39,340

question I had a question for rich and

1740

01:16:42,479 --> 01:16:40,630

that is can you envision a full

1741

01:16:44,970 --> 01:16:42,489

congressional hearing specifically for

1742

01:16:47,910 --> 01:16:44,980

military pilots who have had you ap

1743

01:16:50,759 --> 01:16:47,920

encounters or possibly other personnel

1744

01:16:53,459 --> 01:16:50,769

on the ground or can you touch on that

1745

01:16:55,919 --> 01:16:53,469

topic well sure I mean Lou and them have

1746

01:16:58,379 --> 01:16:55,929

been meeting with and and Chris Mel and

1747

01:17:00,720 --> 01:16:58,389

have been pushing for that kind of thing

1748

01:17:04,350 --> 01:17:00,730

to happen they've been working with and

1749

01:17:06,870 --> 01:17:04,360

they got senator you know Warren Warner

1750

01:17:08,370 --> 01:17:06,880

out of Virginia and I think that they

1751

01:17:10,680 --> 01:17:08,380

met with a couple other senators and I

1752

01:17:13,169 --> 01:17:10,690

think that with the fact that these

1753

01:17:15,479 --> 01:17:13,179

these gentlemen are all coming forward

1754

01:17:18,359 --> 01:17:15,489

it lends that conversation and make a

1755

01:17:20,129 --> 01:17:18,369

you know credence and the intelligence

1756

01:17:22,200 --> 01:17:20,139

subcommittees are probably having

1757

01:17:25,200 --> 01:17:22,210

conversations about it and I think that

1758

01:17:27,330 --> 01:17:25,210

that's that's gonna make a big change

1759

01:17:29,310 --> 01:17:27,340

and so yeah I wouldn't be surprised that

1760

01:17:31,830 --> 01:17:29,320

we're gonna see congressional hearings I

1761

01:17:34,950 --> 01:17:31,840

mean when they're done talking about

1762

01:17:37,529 --> 01:17:34,960

other things of course but we'll see

1763

01:17:41,279 --> 01:17:37,539

we'll see that happen and that evidence

1764

01:17:44,430 --> 01:17:41,289

being brought forward and now for the

1765

01:17:47,009 --> 01:17:44,440

the guys say here the Navy is really

1766

01:17:50,189 --> 01:17:47,019

taking the lead on this particular issue

1767

01:17:52,140 --> 01:17:50,199

and as former Navy guys you guys taking

1768

01:17:54,080 --> 01:17:52,150

any sense of pride in that that the Navy

1769

01:17:56,399 --> 01:17:54,090

is kind of leading the way on all this

1770

01:17:58,739 --> 01:17:56,409

Kevin day sure is I'll tell you that I

1771

01:18:02,189 --> 01:17:58,749

am so damn proud of my Navy right now I

1772

01:18:03,670 --> 01:18:02,199

could hug it no I'm still just trying to

1773

01:18:03,690 --> 01:18:03,680

figure out where we have other branches

1774

01:18:17,279 --> 01:18:03,700

[Laughter]

1775

01:18:18,839 --> 01:18:17,289

advanced Marines all right Roger I have

1776

01:18:20,910 --> 01:18:18,849

a family full of army people just so

1777

01:18:24,299 --> 01:18:20,920

everybody knows I have another question

1778

01:18:26,939 --> 01:18:24,309

that is from that individual so last

1779

01:18:27,450 --> 01:18:26,949

question he has for you all he said I

1780

01:18:29,070 --> 01:18:27,460

know this

1781

01:18:31,229 --> 01:18:29,080

is a bit sensitive so let me ask this

1782

01:18:33,810 --> 01:18:31,239

way are you comfortable with the

1783

01:18:35,880 --> 01:18:33,820

explanation these you APs being reported

1784

01:18:38,100 --> 01:18:35,890

are controlled by non-human intelligence

1785

01:18:41,040 --> 01:18:38,110

from elsewhere assuming that's true

1786

01:18:43,020 --> 01:18:41,050

again can you envision a full I'm sorry

1787

01:18:44,940 --> 01:18:43,030

and are you comfortable with the

1788

01:18:47,670 --> 01:18:44,950

explanation these you ApS being reported

1789

01:18:48,870 --> 01:18:47,680

are controlled by non-human intelligence

1790

01:18:52,080 --> 01:18:48,880

from elsewhere

1791

01:18:55,470 --> 01:18:52,090

can anyone chime in on that topic Kevin

1792

01:18:57,750 --> 01:18:55,480

this is Kevin um okay you know you said

1793

01:18:59,190 --> 01:18:57,760

if it's true right yeah sure if it's

1794

01:19:02,000 --> 01:18:59,200

true I don't think it matters what I

1795

01:19:04,400 --> 01:19:02,010

think about it because it is what it is

1796

01:19:07,290 --> 01:19:04,410

it doesn't really care what I think

1797

01:19:08,910 --> 01:19:07,300

although I have to say I'm not convinced

1798

01:19:14,220 --> 01:19:08,920

that's what's happening my mind is open

1799

01:19:16,920 --> 01:19:14,230

on that question okay why because I

1800

01:19:18,660 --> 01:19:16,930

don't haven't I'm still waiting for

1801

01:19:23,040 --> 01:19:18,670

evidence like a lot of other people you

1802

01:19:24,660 --> 01:19:23,050

know and I faith faith is fine and faith

1803

01:19:26,490 --> 01:19:24,670

is good but it can't be the only thing

1804

01:19:27,840 --> 01:19:26,500

you should have some evidence to go

1805

01:19:30,209 --> 01:19:27,850

along with your faith I have to think

1806

01:19:34,860 --> 01:19:30,219

okay so I'm gonna ask a question that

1807

01:19:36,990 --> 01:19:34,870

some might feel as outrageous or not not

1808

01:19:40,020 --> 01:19:37,000

correct but I'll ask it anyway is it

1809

01:19:42,680 --> 01:19:40,030

possible that the the craft if it was

1810

01:19:46,830 --> 01:19:42,690

that that you all saw was one of ours

1811

01:19:48,479 --> 01:19:46,840

this is a PJ and I actually leaned on

1812

01:19:50,640 --> 01:19:48,489

the side offense that it's initially our

1813

01:19:55,590 --> 01:19:50,650

technology I hope it's ours but then in

1814

01:19:58,110 --> 01:19:55,600

earthbound technology versus offworld

1815

01:19:59,820 --> 01:19:58,120

technology but if it turns out to be

1816

01:20:02,220 --> 01:19:59,830

something from outer space or from

1817

01:20:06,720 --> 01:20:02,230

another planet I'm deeply happy to see

1818

01:20:10,110 --> 01:20:06,730

that - and as scary I mean I I leaned

1819

01:20:12,209 --> 01:20:10,120

towards our own tech for now and I say

1820

01:20:15,090 --> 01:20:12,219

that is because you know being in a

1821

01:20:18,030 --> 01:20:15,100

service at the time 15 years ago I mean

1822

01:20:21,030 --> 01:20:18,040

I've seen the emergence of the tech that

1823

01:20:23,850 --> 01:20:21,040

we're using today as commonplace would

1824

01:20:26,820 --> 01:20:23,860

be science fiction just 15 years ago you

1825

01:20:28,470 --> 01:20:26,830

know and so I mean just because we can't

1826  
01:20:30,229 --> 01:20:28,480  
imagine how it works right now doesn't

1827  
01:20:34,260 --> 01:20:30,239  
mean that we didn't already develop it

1828  
01:20:37,560 --> 01:20:34,270  
and then on top of that if it's not and

1829  
01:20:39,660 --> 01:20:37,570  
so if this is non earth-based tech I

1830  
01:20:40,760 --> 01:20:39,670  
honestly don't care I just wanna know

1831  
01:20:43,250 --> 01:20:40,770  
how it works

1832  
01:20:46,640 --> 01:20:43,260  
okay so is it true to say cuz I've heard

1833  
01:20:49,070 --> 01:20:46,650  
this topic bounced around and I don't

1834  
01:20:51,920 --> 01:20:49,080  
know the accuracy of it and that is that

1835  
01:20:54,230 --> 01:20:51,930  
the military is always supposedly 20

1836  
01:20:57,830 --> 01:20:54,240  
years ahead in the technology compared

1837  
01:21:00,410 --> 01:20:57,840  
to the public sector is that true I so

1838  
01:21:04,730 --> 01:21:00,420

as I know one of the small crafts it's

1839

01:21:07,430 --> 01:21:04,740

now not class the UAV wasp that we were

1840

01:21:11,600 --> 01:21:07,440

using as a aerial reconnaissance vehicle

1841

01:21:13,780 --> 01:21:11,610

for VBSS it's a vertical base ik Elise

1842

01:21:17,210 --> 01:21:13,790

boarding other ships during the Gulf War

1843

01:21:21,230 --> 01:21:17,220

and we were using it to reconnaissance

1844

01:21:23,960 --> 01:21:21,240

those other ships I mean that was at

1845

01:21:26,420 --> 01:21:23,970

least 15 years old before I even saw it

1846

01:21:28,910 --> 01:21:26,430

on I saw it on a TV show on the

1847

01:21:30,350 --> 01:21:28,920

Discovery Channel so I mean and I could

1848

01:21:32,450 --> 01:21:30,360

say without a shadow of a doubt at least

1849

01:21:34,190 --> 01:21:32,460

15 years ahead of what we got now

1850

01:21:41,090 --> 01:21:34,200

probably a whole lot more when it comes

1851  
01:21:43,490 --> 01:21:41,100  
to advanced tech this is that was the

1852  
01:21:45,020 --> 01:21:43,500  
with the advances of AI and super

1853  
01:21:47,390 --> 01:21:45,030  
computers that we have that we've been

1854  
01:21:50,780 --> 01:21:47,400  
working on you know you say that it you

1855  
01:21:54,470 --> 01:21:50,790  
know they was all I was thinking on its

1856  
01:21:57,380 --> 01:21:54,480  
own this is what AI does and and so I

1857  
01:21:59,930 --> 01:21:57,390  
would also lean toward it's ours however

1858  
01:22:00,850 --> 01:21:59,940  
hope it's ours but if it's not whose is

1859  
01:22:03,380 --> 01:22:00,860  
it

1860  
01:22:04,850 --> 01:22:03,390  
what is the reasoning reasoning behind

1861  
01:22:08,720 --> 01:22:04,860  
it what are we doing with it what are

1862  
01:22:10,310 --> 01:22:08,730  
they doing with it you know so yeah I

1863  
01:22:12,800 --> 01:22:10,320

like to look at the supercomputer side

1864

01:22:16,790 --> 01:22:12,810

of things and think about it that way

1865

01:22:18,260 --> 01:22:16,800

that it can do things on its own yeah I

1866

01:22:20,270 --> 01:22:18,270

mean we've already had we've already had

1867

01:22:21,440 --> 01:22:20,280

scientists that shut down a eyes because

1868

01:22:25,010 --> 01:22:21,450

they weren't happy with what direction

1869

01:22:31,880 --> 01:22:25,020

they were going in I mean it's DJ this

1870

01:22:35,570 --> 01:22:31,890

is the stuff we have it's ridiculous I

1871

01:22:37,040 --> 01:22:35,580

mean we have planes that have AI that

1872

01:22:39,890 --> 01:22:37,050

will land themselves on carrier

1873

01:22:43,460 --> 01:22:39,900

you know it's limited on AI technology

1874

01:22:45,730 --> 01:22:43,470

but it's there the stuff that we can do

1875

01:22:49,970 --> 01:22:45,740

and some of it we can't talk about is

1876

01:22:52,220 --> 01:22:49,980

remarkable oh yeah we're ahead and not

1877

01:22:54,379 --> 01:22:52,230

to leave the UFO community behind but

1878

01:22:58,890 --> 01:22:54,389

you know I mean if

1879

01:23:00,929 --> 01:22:58,900

if UFOs do exist that means that we

1880

01:23:03,359 --> 01:23:00,939

probably did have a craft that was down

1881

01:23:05,669 --> 01:23:03,369

they can Roswell or even before that and

1882

01:23:07,529 --> 01:23:05,679

if we had that tech I mean who says we

1883

01:23:10,439 --> 01:23:07,539

haven't tried to reverse-engineer it and

1884

01:23:12,390 --> 01:23:10,449

if that's just if that's true you know I

1885

01:23:14,790 --> 01:23:12,400

mean I have too many theories of if

1886

01:23:17,850 --> 01:23:14,800

that's true and we could talk about all

1887

01:23:21,359 --> 01:23:17,860

of them but since this is a UFO chat

1888

01:23:24,060 --> 01:23:21,369

yeah we talk about you know give the

1889

01:23:28,259 --> 01:23:24,070

give the sci-fi geeks a little bit too

1890

01:23:30,239 --> 01:23:28,269

even though we do I will say this the

1891

01:23:33,060 --> 01:23:30,249

cases that go back in the day that

1892

01:23:34,770 --> 01:23:33,070

really have a lot of similar

1893

01:23:37,830 --> 01:23:34,780

characteristics I think rich will back

1894

01:23:41,580 --> 01:23:37,840

me up on this the you know hypersonic

1895

01:23:44,129 --> 01:23:41,590

speeds the maneuverability stopping on a

1896

01:23:46,589 --> 01:23:44,139

dime going straight up and down that

1897

01:23:48,989 --> 01:23:46,599

type of thing those kind of cases go

1898

01:23:51,750 --> 01:23:48,999

back you know into the late 40s and

1899

01:23:53,219 --> 01:23:51,760

early 50s and I don't think we had that

1900

01:23:55,140 --> 01:23:53,229

kind of thing it gets a little hazy or

1901

01:23:58,080 --> 01:23:55,150

it gets a little trickier with more

1902

01:24:00,419 --> 01:23:58,090

contemporary cases but those cases from

1903

01:24:02,489 --> 01:24:00,429

way back when are the ones that really

1904

01:24:05,580 --> 01:24:02,499

got everybody excited including

1905

01:24:07,140 --> 01:24:05,590

government folks and it does get

1906

01:24:09,600 --> 01:24:07,150

trickier these days in terms of

1907

01:24:12,299 --> 01:24:09,610

determining whether it's our tech we

1908

01:24:15,600 --> 01:24:12,309

have we got this or is it that possibly

1909

01:24:19,049 --> 01:24:15,610

et but those cases have been in the

1910

01:24:21,239 --> 01:24:19,059

books for a long long time and you know

1911

01:24:24,209 --> 01:24:21,249

everything that you guys have said is of

1912

01:24:26,310 --> 01:24:24,219

course I unique to your stories but by

1913

01:24:28,949 --> 01:24:26,320

the same token we've heard a lot of

1914

01:24:30,149 --> 01:24:28,959

these things in cases gone by and I rich

1915

01:24:35,310 --> 01:24:30,159

I think you probably backed me up on

1916

01:24:37,080 --> 01:24:35,320

that pretty effectively you know to me

1917

01:24:39,359 --> 01:24:37,090

it's like those things when I look at

1918

01:24:41,580 --> 01:24:39,369

those pieces that are in the past you

1919

01:24:44,370 --> 01:24:41,590

know to me from the standpoint of the

1920

01:24:46,350 --> 01:24:44,380

the physics or the the maneuverability

1921

01:24:49,290 --> 01:24:46,360

of the objects and and the fact that

1922

01:24:52,259 --> 01:24:49,300

they're not impacted by inertia and you

1923

01:24:55,259 --> 01:24:52,269

know the size of UFOs the that has

1924

01:24:56,699 --> 01:24:55,269

varied over the period of history and to

1925

01:24:58,560 --> 01:24:56,709

me it's one of those things where it's

1926

01:25:01,439 --> 01:24:58,570

like you know there's always been a

1927

01:25:04,919 --> 01:25:01,449

phenomena here ultimately what any

1928

01:25:06,509 --> 01:25:04,929

military will do when it's and if you go

1929

01:25:07,799 --> 01:25:06,519

back to the Greeks doing the same thing

1930

01:25:09,929 --> 01:25:07,809

when you conquer another nation

1931

01:25:12,959 --> 01:25:09,939

you take over their technology right so

1932

01:25:15,719 --> 01:25:12,969

anytime we get any pieces arts and stuff

1933

01:25:18,750 --> 01:25:15,729

like that we take it we break it apart

1934

01:25:21,659 --> 01:25:18,760

we you're out what the metal it's or

1935

01:25:23,609 --> 01:25:21,669

whatever the material is and we re

1936

01:25:26,399 --> 01:25:23,619

reengineer it I mean we're doing that

1937

01:25:27,629 --> 01:25:26,409

here at the base here at missile Space

1938

01:25:29,159 --> 01:25:27,639

Intelligence Center where we get

1939

01:25:30,750 --> 01:25:29,169

missiles or something like that we'll

1940

01:25:32,939 --> 01:25:30,760

tear it apart figure out what it's about

1941

01:25:36,089 --> 01:25:32,949

and then see if we can't use that

1942

01:25:39,119 --> 01:25:36,099

technology so yes we're gonna do that

1943

01:25:41,849 --> 01:25:39,129

and you know and we certainly have

1944

01:25:43,529 --> 01:25:41,859

advanced from 1950 Frank and I'm

1945

01:25:45,239 --> 01:25:43,539

thinking we got a hell of a lot of smart

1946

01:25:48,869 --> 01:25:45,249

people out there so it's more than

1947

01:25:52,259 --> 01:25:48,879

likely that we are building or coming

1948

01:25:56,239 --> 01:25:52,269

very very close to the building craft

1949

01:25:59,099 --> 01:25:56,249

that can do the the tic-tac you know and

1950

01:26:00,779 --> 01:25:59,109

look at even just the patents that have

1951

01:26:03,779 --> 01:26:00,789

come out just recently that we're aware

1952

01:26:06,599 --> 01:26:03,789

of with Salvatore Pius who's now filed

1953

01:26:09,719 --> 01:26:06,609

he's in the Navy by the way going back

1954

01:26:11,729 --> 01:26:09,729

to the Navy yeah Navy these patents that

1955

01:26:13,259 --> 01:26:11,739

are out there for craft that looked like

1956

01:26:16,469 --> 01:26:13,269

that they could have the capabilities of

1957

01:26:19,559 --> 01:26:16,479

a tic-tac and so I don't think that

1958

01:26:21,839 --> 01:26:19,569

we're that far away from getting it it's

1959

01:26:24,270 --> 01:26:21,849

just a matter of you know working out

1960

01:26:25,709 --> 01:26:24,280

like you know Frank I mean even if we

1961

01:26:28,589 --> 01:26:25,719

wanted to go to Mars we have to look at

1962

01:26:30,839 --> 01:26:28,599

the logistics of moving humans but now

1963

01:26:32,489 --> 01:26:30,849

we're building drones that are self

1964

01:26:34,589 --> 01:26:32,499

autonomous they are able to fly

1965

01:26:37,979 --> 01:26:34,599

themselves go on their own missions if

1966

01:26:40,500 --> 01:26:37,989

you would so we're very close okay

1967

01:26:41,909 --> 01:26:40,510

um go ahead please oh look at the

1968

01:26:44,179 --> 01:26:41,919

nuclear drone they're about the sent to

1969

01:26:47,729 --> 01:26:44,189

Titan I mean yeah that tech is amazing

1970

01:26:50,009 --> 01:26:47,739

yeah I did have a question from Tom

1971

01:26:51,959 --> 01:26:50,019

Whitmore he's been actively involved in

1972

01:26:53,579 --> 01:26:51,969

the UFO fields since 1990 and he served

1973

01:26:57,689 --> 01:26:53,589

on the board of MUFON business board

1974

01:27:00,689 --> 01:26:57,699

since 94 he wanted to know this if

1975

01:27:02,399 --> 01:27:00,699

anybody can talk about this topic do you

1976

01:27:06,649 --> 01:27:02,409

believe the US Navy is capable of

1977

01:27:09,599 --> 01:27:06,659

tracking UFOs underwater you SOS I

1978

01:27:11,669 --> 01:27:09,609

actually do have an insight about that

1979

01:27:13,409 --> 01:27:11,679

because I kind of picked the brain of a

1980

01:27:15,889 --> 01:27:13,419

sonar technician I granted this was

1981

01:27:18,629 --> 01:27:15,899

based off a technology from 15 years ago

1982

01:27:20,729 --> 01:27:18,639

but from what he said unless they were

1983

01:27:21,689 --> 01:27:20,739

dragging an array which is basically a

1984

01:27:24,660 --> 01:27:21,699

super

1985

01:27:29,130 --> 01:27:24,670

array the drags behind the ship and so

1986

01:27:30,689 --> 01:27:29,140

they have multiple you know ways of

1987

01:27:32,790 --> 01:27:30,699

tracking it so they're getting multiple

1988

01:27:36,030 --> 01:27:32,800

tracks in off for this raid that they

1989

01:27:39,209 --> 01:27:36,040

can't check they can't do speed or and

1990

01:27:42,030 --> 01:27:39,219

they can't tell direction or anything

1991

01:27:44,100 --> 01:27:42,040

without that array so if it's just a

1992

01:27:46,950 --> 01:27:44,110

straight active sonar all they can see

1993

01:27:49,560 --> 01:27:46,960

was say right it's there and now it's

1994

01:27:52,530 --> 01:27:49,570

there and now it's there they can't it's

1995

01:27:53,910 --> 01:27:52,540

not reliable enough for speed I didn't

1996

01:27:56,580 --> 01:27:53,920

have another question that you all may

1997

01:27:59,280 --> 01:27:56,590

have already answered in part but I'm

1998

01:28:02,400 --> 01:27:59,290

going to answer the question in its

1999

01:28:04,500 --> 01:28:02,410

entirety from Dwight Hannah and he's

2000

01:28:06,330 --> 01:28:04,510

listening right now he said at any time

2001  
01:28:08,729 --> 01:28:06,340  
did the carrier group become concerned

2002  
01:28:11,220 --> 01:28:08,739  
about being attacked by an obvious

2003  
01:28:15,689 --> 01:28:11,230  
superior entity and if so what level of

2004  
01:28:17,550 --> 01:28:15,699  
readiness did they raise it to at no

2005  
01:28:19,380 --> 01:28:17,560  
time did the air defense commander feel

2006  
01:28:21,750 --> 01:28:19,390  
like we were under attack in oh by the

2007  
01:28:23,490 --> 01:28:21,760  
way even if we had been attacked we were

2008  
01:28:24,990 --> 01:28:23,500  
screwed there's nothing we could have

2009  
01:28:28,770 --> 01:28:25,000  
done to defend ourselves against these

2010  
01:28:31,590 --> 01:28:28,780  
things yeah if I could jump in really

2011  
01:28:34,320 --> 01:28:31,600  
quick I've seen a number of videos taken

2012  
01:28:37,070 --> 01:28:34,330  
on ships of Soviet fighters really

2013  
01:28:39,150 --> 01:28:37,080

buzzing our ships pretty closely and

2014

01:28:41,880 --> 01:28:39,160

obviously we're not shooting at those

2015

01:28:44,880 --> 01:28:41,890

guys can you tell us a little bit about

2016

01:28:48,270 --> 01:28:44,890

what it would take to get the US Navy to

2017

01:28:50,100 --> 01:28:48,280

fire on you probably them taking an

2018

01:28:51,390 --> 01:28:50,110

active track on us so basically they

2019

01:28:54,060 --> 01:28:51,400

would have to have their their fire

2020

01:28:57,500 --> 01:28:54,070

control radar on and and have something

2021

01:28:59,760 --> 01:28:57,510

targeted and also the geopolitical

2022

01:29:01,470 --> 01:28:59,770

environment comes into play with that

2023

01:29:08,400 --> 01:29:01,480

too because it affects our rules of

2024

01:29:11,250 --> 01:29:08,410

engagement hey this is rich just one

2025

01:29:13,260 --> 01:29:11,260

question I had you know in the blue the

2026

01:29:15,870 --> 01:29:13,270

red blue exercise you know you had of

2027

01:29:18,689 --> 01:29:15,880

course lieutenant colonel Kurth who was

2028

01:29:20,430 --> 01:29:18,699

with the the Marines you know he was

2029

01:29:23,580 --> 01:29:20,440

positioned out in the water and he

2030

01:29:25,140 --> 01:29:23,590

actually got to see the bubbling water

2031

01:29:27,930 --> 01:29:25,150

you didn't see the Tic Tac but he saw

2032

01:29:30,209 --> 01:29:27,940

the bubbling water if you would from

2033

01:29:32,820 --> 01:29:30,219

something underneath the water what was

2034

01:29:35,029 --> 01:29:32,830

there another aircraft with him in that

2035

01:29:37,490 --> 01:29:35,039

exercise that

2036

01:29:39,609 --> 01:29:37,500

or it was he just in a solo aircraft

2037

01:29:43,600 --> 01:29:39,619

that he was going to be the red guy

2038

01:29:47,870 --> 01:29:43,610

they were definitely - it was a fly - -

2039

01:29:49,970 --> 01:29:47,880

yeah he almost never fly alone yeah I

2040

01:29:51,290 --> 01:29:49,980

didn't think that they would but anyway

2041

01:29:53,270 --> 01:29:51,300

I was just curious we never hear about

2042

01:29:55,640 --> 01:29:53,280

that the fact that the other plane was

2043

01:29:58,549 --> 01:29:55,650

that might have been out there all right

2044

01:30:01,430 --> 01:29:58,559

thank you yes I'd like to go ahead and

2045

01:30:02,240 --> 01:30:01,440

ask some questions from the chat room by

2046

01:30:05,180 --> 01:30:02,250

the way

2047

01:30:06,770 --> 01:30:05,190

Gary Kevin PJ or Jason have you seen any

2048

01:30:09,410 --> 01:30:06,780

questions in the chat room you'd like to

2049

01:30:12,109 --> 01:30:09,420

address right now please yeah well I saw

2050

01:30:14,720 --> 01:30:12,119

one that I was thinking of asking myself

2051  
01:30:16,700 --> 01:30:14,730  
and just as compared with the Navy being

2052  
01:30:19,669 --> 01:30:16,710  
very open about all this in more recent

2053  
01:30:21,589 --> 01:30:19,679  
days the Air Force remaining completely

2054  
01:30:23,209 --> 01:30:21,599  
silent and I think that's interesting

2055  
01:30:26,779 --> 01:30:23,219  
and I want to get everybody's thoughts

2056  
01:30:28,879 --> 01:30:26,789  
on that as well no and I thought is only

2057  
01:30:36,319 --> 01:30:28,889  
that they faked walked outside it's not

2058  
01:30:39,319 --> 01:30:36,329  
air conditioning so anybody else want to

2059  
01:30:41,600 --> 01:30:39,329  
jump in on that yeah I would okay Rick

2060  
01:30:45,470 --> 01:30:41,610  
this is rich I I'm aware from

2061  
01:30:47,779 --> 01:30:45,480  
conversation with the flu that the Air

2062  
01:30:50,600 --> 01:30:47,789  
Force is also looking into it now again

2063  
01:30:53,870 --> 01:30:50,610

in terms of getting reports so they

2064

01:30:55,879 --> 01:30:53,880

might be place since they since they

2065

01:30:57,290 --> 01:30:55,889

were like you know in Blue Book and and

2066

01:31:00,649 --> 01:30:57,300

the ramifications of Blue Book they're

2067

01:31:03,500 --> 01:31:00,659

probably playing it pretty low low-key

2068

01:31:05,779 --> 01:31:03,510

if you would but anyway they are

2069

01:31:10,640 --> 01:31:05,789

supposed to be also engaged in trying to

2070

01:31:14,060 --> 01:31:10,650

do this we we did have a question from

2071

01:31:16,609 --> 01:31:14,070

de Sylvia custodial he said if they saw

2072

01:31:19,490 --> 01:31:16,619

UFOs UFO movies detected by

2073

01:31:21,319 --> 01:31:19,500

high-definition radars or photos and if

2074

01:31:23,240 --> 01:31:21,329

they have not seen it if they know the

2075

01:31:27,620 --> 01:31:23,250

existence of movies from these High

2076

01:31:30,470 --> 01:31:27,630

Definition UFOs well there's no movies

2077

01:31:32,509 --> 01:31:30,480

from radar data the only day only data

2078

01:31:35,810 --> 01:31:32,519

that you're gonna get for like like

2079

01:31:39,140 --> 01:31:35,820

could be kind of a movie is the CC data

2080

01:31:41,689 --> 01:31:39,150

can be extrapolated to a 3d picture but

2081

01:31:43,879 --> 01:31:41,699

it would have to be put the the data set

2082

01:31:45,560 --> 01:31:43,889

would have to be applied through a

2083

01:31:47,450 --> 01:31:45,570

different program it wouldn't be just

2084

01:31:48,409 --> 01:31:47,460

through the CC that you'd be able to see

2085

01:31:50,540 --> 01:31:48,419

this stuff

2086

01:31:56,000 --> 01:31:50,550

because all it does is just share the

2087

01:31:58,459 --> 01:31:56,010

data - okay there is a question that you

2088

01:32:00,409 --> 01:31:58,469

may all may not be able to answer I'm

2089

01:32:02,509 --> 01:32:00,419

going to go ahead and ask it anyway what

2090

01:32:04,310 --> 01:32:02,519

if any parties confiscated information

2091

01:32:07,100 --> 01:32:04,320

regarding the incidents from the ship

2092

01:32:08,810 --> 01:32:07,110

government agency and our departments or

2093

01:32:17,389 --> 01:32:08,820

any organization of any kind

2094

01:32:19,669 --> 01:32:17,399

I hear silence okay sure what if any

2095

01:32:22,060 --> 01:32:19,679

parties conference confiscated

2096

01:32:25,609 --> 01:32:22,070

information regarding the incidents

2097

01:32:27,439 --> 01:32:25,619

incident / you know incident from the

2098

01:32:29,839 --> 01:32:27,449

ship government agencies or other

2099

01:32:31,279 --> 01:32:29,849

departments in other words if there is

2100

01:32:35,089 --> 01:32:31,289

any information that was confiscated

2101  
01:32:40,029 --> 01:32:35,099  
from the ship regarding the event that

2102  
01:32:44,270 --> 01:32:40,039  
you all witnessed who did that well

2103  
01:32:48,020 --> 01:32:44,280  
stuff but guys took my stuff when US Air

2104  
01:32:50,479 --> 01:32:48,030  
Force flight suits the guys that came

2105  
01:32:52,159 --> 01:32:50,489  
and took our stuff I only saw them

2106  
01:32:54,859 --> 01:32:52,169  
getting on and off the helicopters and

2107  
01:32:56,120 --> 01:32:54,869  
they didn't really have I honestly it

2108  
01:32:57,949 --> 01:32:56,130  
was they were so plain dressed

2109  
01:32:59,270 --> 01:32:57,959  
I don't even exactly remember what they

2110  
01:33:02,629 --> 01:32:59,280  
were wearing I just remember they said

2111  
01:33:04,009 --> 01:33:02,639  
normal civilian clothes on the part to

2112  
01:33:08,089 --> 01:33:04,019  
that question is they want to know what

2113  
01:33:10,969 --> 01:33:08,099

information was acquired on my ship it

2114

01:33:13,069 --> 01:33:10,979

would have been all the spy-1 Bravo data

2115

01:33:15,589 --> 01:33:13,079

and all the data recordings plus

2116

01:33:19,520 --> 01:33:15,599

anything that was recorded from any of

2117

01:33:20,929 --> 01:33:19,530

the consoles in combat it looks like

2118

01:33:23,060 --> 01:33:20,939

we're nearing the end of our show here I

2119

01:33:25,549 --> 01:33:23,070

wanted to ask Frank if there's any other

2120

01:33:27,529 --> 01:33:25,559

questions he had left so that I can go

2121

01:33:29,359 --> 01:33:27,539

ahead and wrap it up I could I could

2122

01:33:30,859 --> 01:33:29,369

keep going for quite a while but I think

2123

01:33:32,870 --> 01:33:30,869

this is a good spot to end we got an

2124

01:33:34,129 --> 01:33:32,880

hour and a half and I think we had a

2125

01:33:35,929 --> 01:33:34,139

great shower I really I wanted the

2126

01:33:37,370 --> 01:33:35,939

opportunity go ahead and thank everybody

2127

01:33:39,049 --> 01:33:37,380

for having been on our show we have

2128

01:33:41,959 --> 01:33:39,059

Kerry for he's on with us today

2129

01:33:43,819 --> 01:33:41,969

Kevin day PJ Hughes Jason Turner and

2130

01:33:45,439 --> 01:33:43,829

rich Hoffman thank you very much for

2131

01:33:49,850 --> 01:33:45,449

having been up on our show today we

2132

01:33:50,959 --> 01:33:49,860

really appreciate your time thank you so

2133

01:33:55,370 --> 01:33:50,969

very very much

2134

01:33:57,830 --> 01:33:55,380

thank you Frank I wanted to go ahead and

2135

01:34:02,290 --> 01:33:57,840

ask our guest this we will be having a

2136

01:34:04,840 --> 01:34:02,300

mega panel a lot of

2137

01:34:06,460 --> 01:34:04,850

then my seventh regarding the History

2138

01:34:07,660 --> 01:34:06,470

Channel's unidentified series and we're

2139

01:34:09,160 --> 01:34:07,670

going to be doing a review of all of

2140

01:34:13,180 --> 01:34:09,170

those shows would you all like to join

2141

01:34:18,330 --> 01:34:13,190

us for that panel no that will be on

2142

01:34:21,040 --> 01:34:18,340

July 7th at Sunday at noon first time

2143

01:34:23,920 --> 01:34:21,050

that I won't be able to I'll be working

2144

01:34:30,340 --> 01:34:23,930

during the day okay okay this is Jason

2145

01:34:32,110 --> 01:34:30,350

not I'll be in the wood so we'll be sure

2146

01:34:33,340 --> 01:34:32,120

to I think rich Hoffman might be on that

2147

01:34:35,170 --> 01:34:33,350

show with us I don't know I have to

2148

01:34:37,150 --> 01:34:35,180

double-check with him but everybody else

2149

01:34:39,430 --> 01:34:37,160

I'll be sure to contact you regarding

2150

01:34:40,960 --> 01:34:39,440

that show July 7th it's gonna be a

2151  
01:34:43,540 --> 01:34:40,970  
review of the History Channel's

2152  
01:34:45,520 --> 01:34:43,550  
unidentified series and I think the last

2153  
01:34:47,140 --> 01:34:45,530  
show for that is July 5th thank you

2154  
01:34:48,820 --> 01:34:47,150  
everybody for having taken the time to

2155  
01:34:50,890 --> 01:34:48,830  
be with us on the show today we really

2156  
01:34:53,250 --> 01:34:50,900  
urge everybody thanks so much thanks so

2157  
01:34:56,110 --> 01:34:53,260  
much it was a great shot I appreciate it

2158  
01:34:58,840 --> 01:34:56,120  
thanks guys all right and we're gonna

2159  
01:35:00,970 --> 01:34:58,850  
wrap up here join us we're gonna have a

2160  
01:35:03,250 --> 01:35:00,980  
little update on the Admiral Wilson

2161  
01:35:05,100 --> 01:35:03,260  
documents at some point this week with

2162  
01:35:08,170 --> 01:35:05,110  
some more information regarding that and

2163  
01:35:09,940 --> 01:35:08,180

good night everybody and have a great

2164

01:35:11,320 --> 01:35:09,950

week and enjoy your holiday if we don't

2165

01:35:12,070 --> 01:35:11,330

talk to you thanks a lot bye-bye now
