**DISCUSSES HIS FILM**  
**THE NIMITZ**  
**ENCOUNTERS**

**UFONN**  
**SUNDAY**

1  
00:00:05,840 --> 00:00:02,899  
hello everyone this is a special report

2  
00:00:08,179 --> 00:00:05,850  
I'm doing with Dave Beatty the creator

3  
00:00:10,820 --> 00:00:08,189  
of the Nimitz encounter film Dave is a

4  
00:00:13,339 --> 00:00:10,830  
filmmaker a UFO researcher and was a

5  
00:00:16,430 --> 00:00:13,349  
former television journalist he has done

6  
00:00:18,050 --> 00:00:16,440  
films for History Channel PBS and Travel

7  
00:00:20,900 --> 00:00:18,060  
Channel thank you Dave for being on the

8  
00:00:23,779 --> 00:00:20,910  
show today Thank You Jan it's great to

9  
00:00:27,380 --> 00:00:23,789  
be here I wanted to ask you a few

10  
00:00:29,929 --> 00:00:27,390  
questions the question I wanted to ask

11  
00:00:31,790 --> 00:00:29,939  
you first was there's a new witness from

12  
00:00:34,190 --> 00:00:31,800  
the sonar operators that you and Gary

13  
00:00:36,850 --> 00:00:34,200

have been discussing how did you track

14

00:00:40,250 --> 00:00:36,860

him down what's his story

15

00:00:42,319 --> 00:00:40,260

yeah you know Gary probably has

16

00:00:45,049 --> 00:00:42,329

mentioned this you know in the show and

17

00:00:48,529 --> 00:00:45,059

it's really interesting to me that when

18

00:00:49,729 --> 00:00:48,539

the the witnesses see the film and they

19

00:00:52,250 --> 00:00:49,739

see the show on the History Channel

20

00:00:55,250 --> 00:00:52,260

unidentified you know I think that that

21

00:00:56,840 --> 00:00:55,260

has in some ways allowed them to kind of

22

00:00:58,430 --> 00:00:56,850

come forward because they see that other

23

00:01:01,939 --> 00:00:58,440

people are interested in this in talking

24

00:01:05,380 --> 00:01:01,949

about it so we've had several you know

25

00:01:08,840 --> 00:01:05,390

Navy veterans come forward and talk to

26  
00:01:12,410 --> 00:01:08,850  
you know Jason and Kevin and Gary and

27  
00:01:14,480 --> 00:01:12,420  
Patrick saying you know yeah I was there

28  
00:01:16,520 --> 00:01:14,490  
and one of the gentlemen that you may

29  
00:01:20,030 --> 00:01:16,530  
have already heard the story sort of

30  
00:01:22,490 --> 00:01:20,040  
confirmed to Gary that you know he was

31  
00:01:26,179 --> 00:01:22,500  
there in combat information in the sonar

32  
00:01:29,090 --> 00:01:26,189  
department that week in November and you

33  
00:01:31,460 --> 00:01:29,100  
know I guess that he was from his

34  
00:01:33,319 --> 00:01:31,470  
perspective they didn't see any context

35  
00:01:36,710 --> 00:01:33,329  
under the water which is sort of new

36  
00:01:39,590 --> 00:01:36,720  
information somebody else had mentioned

37  
00:01:42,649 --> 00:01:39,600  
to Gary that there were contacts under

38  
00:01:44,450 --> 00:01:42,659

the water and this guy you know

39

00:01:45,859 --> 00:01:44,460

basically said that's incorrect and

40

00:01:47,120 --> 00:01:45,869

again I don't want to kind of repeat

41

00:01:49,280 --> 00:01:47,130

this because I think Gary's already

42

00:01:51,710 --> 00:01:49,290

mentioned it in the show but it's pretty

43

00:01:53,120 --> 00:01:51,720

interesting new information and I would

44

00:01:55,490 --> 00:01:53,130

like to make it clear for our listeners

45

00:01:56,569 --> 00:01:55,500

that Dave is talking about Gary Voorhees

46

00:01:58,670 --> 00:01:56,579

is that correct

47

00:02:00,260 --> 00:01:58,680

that's right I sometimes assume people

48

00:02:02,510 --> 00:02:00,270

know who I'm talking about and we do

49

00:02:05,359 --> 00:02:02,520

have to mention that Gary Voorhees who's

50

00:02:07,770 --> 00:02:05,369

the fire-control men on the USS

51  
00:02:11,250 --> 00:02:07,780  
Princeton wonderful

52  
00:02:13,650 --> 00:02:11,260  
of the USS Nimitz CDC watch team also

53  
00:02:15,570 --> 00:02:13,660  
known as combat Direction Center from

54  
00:02:17,790 --> 00:02:15,580  
the Oh aye division on the carrier says

55  
00:02:21,840 --> 00:02:17,800  
he saw something truly amazing on radar

56  
00:02:24,210 --> 00:02:21,850  
the whole week yeah now that one is

57  
00:02:27,600 --> 00:02:24,220  
really interesting because there's been

58  
00:02:31,560 --> 00:02:27,610  
very very few witnesses that have come

59  
00:02:33,960 --> 00:02:31,570  
forward from USS Nimitz obviously you

60  
00:02:36,540 --> 00:02:33,970  
know we you're talking to aviation Tech

61  
00:02:39,020 --> 00:02:36,550  
Patrick Hughes that was a member of the

62  
00:02:42,780 --> 00:02:39,030  
Wallbanger squadron for the e-2 Hawkeye

63  
00:02:45,420 --> 00:02:42,790

early warning airplanes and you know his

64

00:02:48,420 --> 00:02:45,430

story is pretty remarkable you know I

65

00:02:49,920 --> 00:02:48,430

have an address an email address in the

66

00:02:51,979 --> 00:02:49,930

film asking people to come forward so

67

00:02:54,750 --> 00:02:51,989

sometimes I'll get an email from

68

00:02:57,570 --> 00:02:54,760

military service members in this case I

69

00:03:02,100 --> 00:02:57,580

got an email from a gentleman that said

70

00:03:06,090 --> 00:03:02,110

that he was in the CDC you know combat

71

00:03:09,000 --> 00:03:06,100

space within the Nimitz aircraft carrier

72

00:03:10,860 --> 00:03:09,010

and that's similar to the CIC or combat

73

00:03:13,680 --> 00:03:10,870

Information Center on the USS Princeton

74

00:03:16,080 --> 00:03:13,690

sort of the nerve center of the ship

75

00:03:20,070 --> 00:03:16,090

with all the radars and so on and this

76  
00:03:22,830 --> 00:03:20,080  
gentleman indicated that he had seen you

77  
00:03:25,560 --> 00:03:22,840  
know all of the unknown tracks that were

78  
00:03:28,080 --> 00:03:25,570  
going on that week of November run from

79  
00:03:31,979 --> 00:03:28,090  
like around November temped we think the

80  
00:03:34,350 --> 00:03:31,989  
15th or 16th that whole timeframe he

81  
00:03:37,530 --> 00:03:34,360  
said that you know he indicated that he

82  
00:03:39,780 --> 00:03:37,540  
was aware of even some other areas

83  
00:03:42,600 --> 00:03:39,790  
he hasn't cleared that up for me yet but

84  
00:03:44,039 --> 00:03:42,610  
he said that there's some areas where

85  
00:03:45,930 --> 00:03:44,049  
these contacts occurred that aren't

86  
00:03:48,330 --> 00:03:45,940  
mentioned in the film so I'm trying to

87  
00:03:49,979 --> 00:03:48,340  
find out you know where those things

88  
00:03:52,890 --> 00:03:49,989

were obviously Kevin was seeing them

89

00:03:57,120 --> 00:03:52,900

coming south from San Clemente Island

90

00:03:59,789 --> 00:03:57,130

you know at 28,000 feet Catalina Island

91

00:04:02,069 --> 00:03:59,799

in that area going south down to

92

00:04:05,699 --> 00:04:02,079

Guadalupe Island off the coast of Baja

93

00:04:07,229 --> 00:04:05,709

Mexico during that week this gentleman

94

00:04:09,630 --> 00:04:07,239

said there was some other area so I'm

95

00:04:12,690 --> 00:04:09,640

not sure what he meant by that but one

96

00:04:14,819 --> 00:04:12,700

of the things that he said it was really

97

00:04:16,949 --> 00:04:14,829

really interesting to me that I have

98

00:04:20,310 --> 00:04:16,959

never heard anyone talk about this he

99

00:04:21,430 --> 00:04:20,320

said that what about the meeting and and

100

00:04:23,410 --> 00:04:21,440

I said you know

101  
00:04:25,840 --> 00:04:23,420  
he said you didn't mention the meeting

102  
00:04:31,320 --> 00:04:25,850  
and he said the meeting was at Sims hall

103  
00:04:35,530 --> 00:04:31,330  
and Point Loma and he said it was the

104  
00:04:37,150 --> 00:04:35,540  
ASW base so that's all he said it first

105  
00:04:39,190 --> 00:04:37,160  
and I won't had to go back and look in

106  
00:04:41,470 --> 00:04:39,200  
and find that and doing a quick search I

107  
00:04:44,110 --> 00:04:41,480  
realized that that's a part of the Navy

108  
00:04:46,600 --> 00:04:44,120  
base there in San Diego and it's it's

109  
00:04:49,540 --> 00:04:46,610  
this part of the submarine base its

110  
00:04:54,100 --> 00:04:49,550  
anti-submarine warfare and I found like

111  
00:04:55,660 --> 00:04:54,110  
if you go Sims Hall like si mm s Hall it

112  
00:04:58,780 --> 00:04:55,670  
shows it on Google Earth is this

113  
00:05:01,710 --> 00:04:58,790

building so I said to him you know what

114

00:05:05,530 --> 00:05:01,720

was this about and he said that after

115

00:05:07,300 --> 00:05:05,540

the Nimitz came back to the pier after

116

00:05:10,420 --> 00:05:07,310

that November encounter and that

117

00:05:14,250 --> 00:05:10,430

training exercise that all the people

118

00:05:17,470 --> 00:05:14,260

that were involved with the unknown UFOs

119

00:05:19,450 --> 00:05:17,480

were asked to go to Sims Hall so it

120

00:05:21,520 --> 00:05:19,460

wasn't like everybody was a specific

121

00:05:23,410 --> 00:05:21,530

group of individuals and he said that

122

00:05:27,370 --> 00:05:23,420

once they were in Sims Hall its Sims

123

00:05:29,980 --> 00:05:27,380

Hall these individuals and he didn't say

124

00:05:32,410 --> 00:05:29,990

who they were and he said he didn't know

125

00:05:36,550 --> 00:05:32,420

them address the group and basically

126  
00:05:39,940 --> 00:05:36,560  
told them that quote we don't know what

127  
00:05:42,909 --> 00:05:39,950  
those things were but we don't want you

128  
00:05:44,740 --> 00:05:42,919  
talking about it nonetheless so they

129  
00:05:48,460 --> 00:05:44,750  
were instructed by some type of

130  
00:05:49,900 --> 00:05:48,470  
officials not to talk about this event

131  
00:05:52,360 --> 00:05:49,910  
and he's actually been very hesitant

132  
00:05:55,659 --> 00:05:52,370  
just tell me anything I mean he doesn't

133  
00:05:58,150 --> 00:05:55,669  
he didn't give me his name and we did I

134  
00:06:01,000 --> 00:05:58,160  
did have Patrick Hughes who's was in on

135  
00:06:03,250 --> 00:06:01,010  
us Nimitz to that sort of talk to this

136  
00:06:05,560 --> 00:06:03,260  
gentleman and ask him a whole bunch of

137  
00:06:08,710 --> 00:06:05,570  
questions about what he his job was when

138  
00:06:10,450 --> 00:06:08,720

what he claimed he did and in patrick

139

00:06:12,460 --> 00:06:10,460

said he pretty much checked out as far

140

00:06:14,890 --> 00:06:12,470

as he's concerned I mean we haven't gone

141

00:06:17,980 --> 00:06:14,900

so far as to get paperwork as far as

142

00:06:20,770 --> 00:06:17,990

like his DD 214 form from the military

143

00:06:22,540 --> 00:06:20,780

and all that but at this point he seems

144

00:06:24,490 --> 00:06:22,550

pretty legit and it's kind of

145

00:06:26,200 --> 00:06:24,500

interesting information one of the

146

00:06:27,790 --> 00:06:26,210

things he said because I was asking well

147

00:06:29,800 --> 00:06:27,800

who was at the meeting and he said all

148

00:06:33,640 --> 00:06:29,810

the people that were involved in this

149

00:06:34,640 --> 00:06:33,650

and he said and the pilots and I don't

150

00:06:36,200 --> 00:06:34,650

know which pilots were

151  
00:06:37,520 --> 00:06:36,210  
there he said apparently according to

152  
00:06:40,040 --> 00:06:37,530  
him there were some pilots at this

153  
00:06:41,780 --> 00:06:40,050  
meeting in Sims Hall so it's all new

154  
00:06:42,890 --> 00:06:41,790  
information sort of breaking right now

155  
00:06:45,499 --> 00:06:42,900  
understood

156  
00:06:48,080 --> 00:06:45,509  
Dave regarding FOIAs and missing deck

157  
00:06:50,390 --> 00:06:48,090  
locks which docks are missing Chris

158  
00:06:53,110 --> 00:06:50,400  
Mullin mentioned this on unidentified

159  
00:06:57,110 --> 00:06:53,120  
the History Channel show unidentified

160  
00:06:59,240 --> 00:06:57,120  
yeah that's right um we back when we

161  
00:07:01,400 --> 00:06:59,250  
were first investigating this case we

162  
00:07:03,230 --> 00:07:01,410  
were trying to get the deck clogs of all

163  
00:07:05,900 --> 00:07:03,240

the vessels that were there to try to

164

00:07:09,080 --> 00:07:05,910

correlate the timing and to see if there

165

00:07:11,290 --> 00:07:09,090

was any mention of unknown objects or

166

00:07:14,750 --> 00:07:11,300

anything unusual in those logs

167

00:07:16,730 --> 00:07:14,760

deck logs are usually created on the

168

00:07:19,340 --> 00:07:16,740

bridge of the ships where the

169

00:07:21,590 --> 00:07:19,350

watchstanders are noting everything that

170

00:07:23,930 --> 00:07:21,600

happens on the bridge including mundane

171

00:07:26,450 --> 00:07:23,940

details such as the speed the direction

172

00:07:29,540 --> 00:07:26,460

the weather when they turned the lights

173

00:07:32,080 --> 00:07:29,550

on that small detail you know when the

174

00:07:35,210 --> 00:07:32,090

captain arrives and everything else well

175

00:07:37,339 --> 00:07:35,220

we got the deck logs from the Nimitz but

176

00:07:40,219 --> 00:07:37,349

when we tried to get the deck logs from

177

00:07:44,060 --> 00:07:40,229

the USS Princeton the Navy came back and

178

00:07:46,600 --> 00:07:44,070

told us that they're missing and it

179

00:07:48,620 --> 00:07:46,610

seemed to be highly unusual the

180

00:07:50,899 --> 00:07:48,630

individual that I was working with it

181

00:07:54,080 --> 00:07:50,909

the name he was helpful and I asked you

182

00:07:57,170 --> 00:07:54,090

know is that common and and she said it

183

00:08:00,649 --> 00:07:57,180

was highly unusual that that would occur

184

00:08:02,779 --> 00:08:00,659

that they're required to you know submit

185

00:08:06,560 --> 00:08:02,789

every year their deck logs to this

186

00:08:08,779 --> 00:08:06,570

archive in the Navy and that she had no

187

00:08:11,480 --> 00:08:08,789

explanation and because it had been so

188

00:08:13,969 --> 00:08:11,490

long over you know 13 years or whatever

189

00:08:16,969 --> 00:08:13,979

that it would be pretty hard to find out

190

00:08:18,469 --> 00:08:16,979

why they didn't submit the logs they

191

00:08:20,300 --> 00:08:18,479

said that they also want to Naval

192

00:08:22,189 --> 00:08:20,310

Intelligence to see if there was any

193

00:08:25,550 --> 00:08:22,199

chance that they were routed over there

194

00:08:28,100 --> 00:08:25,560

and they got a negative reply back on

195

00:08:30,469 --> 00:08:28,110

that as well and I said well what would

196

00:08:33,709 --> 00:08:30,479

be some reasons that you know that you

197

00:08:35,149 --> 00:08:33,719

wouldn't have it submitted and she said

198

00:08:38,600 --> 00:08:35,159

well one reason could be that the

199

00:08:41,149 --> 00:08:38,610

document was classified but she said

200

00:08:44,510 --> 00:08:41,159

that it was pretty highly unlikely in

201  
00:08:45,920 --> 00:08:44,520  
the case of a cruiser in you know in a

202  
00:08:47,490 --> 00:08:45,930  
training environment like that that

203  
00:08:49,200 --> 00:08:47,500  
would have that log

204  
00:08:51,930 --> 00:08:49,210  
aasif ID she just didn't think that was

205  
00:08:53,970 --> 00:08:51,940  
likely now on the show unidentified

206  
00:08:55,980 --> 00:08:53,980  
Chris Mellon said that they looked into

207  
00:08:58,260 --> 00:08:55,990  
the National Archives and I guess that's

208  
00:09:00,360 --> 00:08:58,270  
the same thing we were looking in you

209  
00:09:03,360 --> 00:09:00,370  
know a Department of the Navy naval

210  
00:09:06,450 --> 00:09:03,370  
history and maybe that's what he was

211  
00:09:10,380 --> 00:09:06,460  
talking about so we those decks are lost

212  
00:09:13,110 --> 00:09:10,390  
or missing that's very odd and I don't

213  
00:09:15,000 --> 00:09:13,120

think that's coincidental either the

214

00:09:16,950 --> 00:09:15,010

female pilot has come poured on the

215

00:09:19,200 --> 00:09:16,960

History Channel's unidentified show you

216

00:09:19,920 --> 00:09:19,210

talked about it last May Dave no one

217

00:09:23,280 --> 00:09:19,930

believed you

218

00:09:28,680 --> 00:09:23,290

however Frank and I did what about what

219

00:09:32,160 --> 00:09:28,690

she said yeah I mean that was surprising

220

00:09:34,980 --> 00:09:32,170

to me because all this time you know we

221

00:09:37,080 --> 00:09:34,990

were sort of aware of that and I don't

222

00:09:38,760 --> 00:09:37,090

know when I first was bringing it up and

223

00:09:40,590 --> 00:09:38,770

inquiring with some of the pilots I

224

00:09:43,560 --> 00:09:40,600

thought that they didn't like the fact

225

00:09:44,640 --> 00:09:43,570

that I was bringing it up because from

226

00:09:46,800 --> 00:09:44,650

what I understand they were they were

227

00:09:49,020 --> 00:09:46,810

covering for her they she didn't want

228

00:09:52,079 --> 00:09:49,030

her name out there she don't want anyone

229

00:09:54,540 --> 00:09:52,089

they they never mentioned a female pilot

230

00:09:57,380 --> 00:09:54,550

ever in all of the news reports in all

231

00:10:00,600 --> 00:09:57,390

the publicity they did on every major

232

00:10:03,329 --> 00:10:00,610

news show on the New York Times no one

233

00:10:05,520 --> 00:10:03,339

ever said female pilot they always made

234

00:10:08,700 --> 00:10:05,530

it seem like lieutenant commander Jim

235

00:10:10,650 --> 00:10:08,710

slate was the other pilot and they kind

236

00:10:12,690 --> 00:10:10,660

of got around that by saying he was the

237

00:10:15,480 --> 00:10:12,700

wing man but you would assume that that

238

00:10:17,970 --> 00:10:15,490

he was the pilot then but I found out

239

00:10:20,910 --> 00:10:17,980

just by putting pieces together that it

240

00:10:22,650 --> 00:10:20,920

seemed to be this lieutenant a younger

241

00:10:24,300 --> 00:10:22,660

pilot that was on her first carrier

242

00:10:25,490 --> 00:10:24,310

deployment so that I was putting that

243

00:10:28,680 --> 00:10:25,500

out there the whole time

244

00:10:30,690 --> 00:10:28,690

I forget worth when the first

245

00:10:34,350 --> 00:10:30,700

confirmation was but I guess I'd have to

246

00:10:36,600 --> 00:10:34,360

say it was unidentified episode one

247

00:10:39,090 --> 00:10:36,610

where there she is in silhouette you

248

00:10:41,520 --> 00:10:39,100

know with her identity hidden and she's

249

00:10:44,760 --> 00:10:41,530

talking and we're hearing her for the

250

00:10:49,710 --> 00:10:44,770

first time no one had ever heard her her

251  
00:10:52,650 --> 00:10:49,720  
voice she had written her description of

252  
00:10:54,540 --> 00:10:52,660  
the events in what's called the pilots

253  
00:10:54,900 --> 00:10:54,550  
report which is found on the to the

254  
00:10:58,079 --> 00:10:54,910  
stars

255  
00:11:00,150 --> 00:10:58,089  
Academy's Community Interest website you

256  
00:11:01,049 --> 00:11:00,160  
can find that there now it gives no

257  
00:11:03,749 --> 00:11:01,059  
indication of

258  
00:11:05,459 --> 00:11:03,759  
gender at all but that's her you know

259  
00:11:07,889 --> 00:11:05,469  
it's a lot of detail if you read that

260  
00:11:09,929 --> 00:11:07,899  
you understand where her mindset was

261  
00:11:12,479 --> 00:11:09,939  
that day she was frightened actually of

262  
00:11:15,449 --> 00:11:12,489  
this occurrence she was she was

263  
00:11:18,409 --> 00:11:15,459

concerned about it especially when the

264

00:11:22,319 --> 00:11:18,419

controllers began asking about weapons

265

00:11:24,419 --> 00:11:22,329

and at that point this is post 9/11 you

266

00:11:27,149 --> 00:11:24,429

have to realize that this is a several

267

00:11:30,959 --> 00:11:27,159

years after civilian aircraft had been

268

00:11:34,069 --> 00:11:30,969

you know hijacked and flown into you

269

00:11:36,479 --> 00:11:34,079

know our national you know you know

270

00:11:38,309 --> 00:11:36,489

Pentagon and the whole thing the World

271

00:11:41,249 --> 00:11:38,319

Trade Center people are on edge about

272

00:11:43,739 --> 00:11:41,259

like airplanes that are not that don't

273

00:11:45,689 --> 00:11:43,749

have transponders that are flying around

274

00:11:47,879 --> 00:11:45,699

and no one can contact them so she was

275

00:11:50,549 --> 00:11:47,889

concerned they're asking about weapons

276  
00:11:52,829 --> 00:11:50,559  
so she thought maybe that this was some

277  
00:11:54,989 --> 00:11:52,839  
type of civilian plane that had been

278  
00:11:57,179 --> 00:11:54,999  
hijacked that might be flying into the

279  
00:11:59,909 --> 00:11:57,189  
carrier or something like that they

280  
00:12:01,529 --> 00:11:59,919  
didn't know what it was at that point so

281  
00:12:03,239 --> 00:12:01,539  
you imagine you know they're asking

282  
00:12:04,709 --> 00:12:03,249  
about weapons she's thinking what are we

283  
00:12:06,899 --> 00:12:04,719  
gonna do if we get out there and it's

284  
00:12:10,049 --> 00:12:06,909  
like some type of terrorist or something

285  
00:12:13,289 --> 00:12:10,059  
we have no weapons and you could tell

286  
00:12:15,719 --> 00:12:13,299  
like there was that concern in her voice

287  
00:12:19,799 --> 00:12:15,729  
I know that you know since then other

288  
00:12:22,169 --> 00:12:19,809

people have commented that that she if

289

00:12:24,839 --> 00:12:22,179

if this was like our technology in the

290

00:12:27,089 --> 00:12:24,849

end you know this these objects that she

291

00:12:30,269 --> 00:12:27,099

would also be furious that they would

292

00:12:33,029 --> 00:12:30,279

put their own air crews in a situation

293

00:12:35,009 --> 00:12:33,039

like that where they're like going into

294

00:12:38,399 --> 00:12:35,019

something that's like our own technology

295

00:12:40,229 --> 00:12:38,409

what they call blue on blue so again

296

00:12:42,139 --> 00:12:40,239

it's it's really really interesting to

297

00:12:45,539 --> 00:12:42,149

hear her comments on that show I

298

00:12:47,789 --> 00:12:45,549

actually thought it was great so just a

299

00:12:49,529 --> 00:12:47,799

side question here have you ever had

300

00:12:51,419 --> 00:12:49,539

contact with her ever had the

301  
00:12:56,699 --> 00:12:51,429  
opportunity to speak with her or do you

302  
00:12:58,349 --> 00:12:56,709  
wish to you know I made a pledge back

303  
00:13:02,149 --> 00:12:58,359  
when I first started talking to some of

304  
00:13:05,369 --> 00:13:02,159  
the pilots that I had no intention of

305  
00:13:07,649 --> 00:13:05,379  
using her name I had no intention of

306  
00:13:10,439 --> 00:13:07,659  
talking to her that I respected her

307  
00:13:11,879 --> 00:13:10,449  
wishes to remain anonymous the only

308  
00:13:14,319 --> 00:13:11,889  
thing that I wanted to do is do a

309  
00:13:16,030 --> 00:13:14,329  
recreation that got the facts right

310  
00:13:18,069 --> 00:13:16,040  
which is like if there's a female flying

311  
00:13:19,929 --> 00:13:18,079  
the Jedi wanted to say there was a

312  
00:13:22,059 --> 00:13:19,939  
female in the chat I had enough

313  
00:13:24,999 --> 00:13:22,069

information from the pilots report which

314

00:13:27,669 --> 00:13:25,009

is her description of the whole event to

315

00:13:28,840 --> 00:13:27,679

write a script about it so I didn't

316

00:13:30,369 --> 00:13:28,850

really feel like needed to I mean

317

00:13:32,139 --> 00:13:30,379

obviously I've got to talk to all of

318

00:13:34,780 --> 00:13:32,149

them but again because I made that

319

00:13:37,539 --> 00:13:34,790

pledge with it I've never attempted to

320

00:13:39,970 --> 00:13:37,549

contact or I never used her name I

321

00:13:43,210 --> 00:13:39,980

understood Dave there have been several

322

00:13:45,309 --> 00:13:43,220

versions of the film the minute Deena

323

00:13:47,199 --> 00:13:45,319

mitts encounter one in November 2018

324

00:13:50,829 --> 00:13:47,209

with commander flavor then another

325

00:13:53,410 --> 00:13:50,839

version in April 2000 19 and the one now

326

00:13:55,449 --> 00:13:53,420

which totals what appears to be three

327

00:13:58,329 --> 00:13:55,459

versions of the same documentary with

328

00:14:00,549 --> 00:13:58,339

several more witnesses added to that new

329

00:14:05,019 --> 00:14:00,559

documentary why do you keep changing it

330

00:14:08,710 --> 00:14:05,029

Dave well you know one reason is because

331

00:14:10,379 --> 00:14:08,720

new information keeps coming out another

332

00:14:12,429 --> 00:14:10,389

thing you know when I first started

333

00:14:15,489 --> 00:14:12,439

contemplating putting this film together

334

00:14:17,229 --> 00:14:15,499

I figured I'm not gonna play by the

335

00:14:19,569 --> 00:14:17,239

rules I'm not gonna do something just

336

00:14:22,090 --> 00:14:19,579

because you have to make a film that's

337

00:14:24,069 --> 00:14:22,100

like goes out there and it's done you

338

00:14:26,139 --> 00:14:24,079

know and then then you move on never

339

00:14:27,729 --> 00:14:26,149

look at it again my feeling was like

340

00:14:30,639 --> 00:14:27,739

look this is the Internet I could post

341

00:14:32,409 --> 00:14:30,649

the same film and add stuff to it every

342

00:14:35,350 --> 00:14:32,419

month for the next 10 years if there was

343

00:14:38,289 --> 00:14:35,360

new information the the ending hat isn't

344

00:14:40,539 --> 00:14:38,299

written yet so I went into it with like

345

00:14:43,439 --> 00:14:40,549

this idea this is a nonlinear film it's

346

00:14:46,629 --> 00:14:43,449

it's basically going to evolve over time

347

00:14:48,329 --> 00:14:46,639

as the story changes you know like we

348

00:14:50,949 --> 00:14:48,339

were talking about with the the

349

00:14:53,590 --> 00:14:50,959

underwater UFOs and the sonar guys

350

00:14:55,569 --> 00:14:53,600

saying that didn't happen well you know

351  
00:14:58,239 --> 00:14:55,579  
if that's wrong then in the film the

352  
00:15:00,759 --> 00:14:58,249  
next version has to change to evolve and

353  
00:15:03,179 --> 00:15:00,769  
as these new witnesses come out the

354  
00:15:05,829 --> 00:15:03,189  
first version I didn't have any of the

355  
00:15:08,699 --> 00:15:05,839  
witnesses that are in the film now I

356  
00:15:12,039 --> 00:15:08,709  
didn't have them on camera all I had was

357  
00:15:15,429 --> 00:15:12,049  
you know the commander flavor interview

358  
00:15:17,409 --> 00:15:15,439  
which I had I had received permission

359  
00:15:19,509 --> 00:15:17,419  
from to the stars Academy to use a

360  
00:15:22,799 --> 00:15:19,519  
little snippet of this interview on

361  
00:15:26,780 --> 00:15:22,809  
their website so then moving forward

362  
00:15:28,490 --> 00:15:26,790  
into you know that next year

363  
00:15:30,710 --> 00:15:28,500

I got word from them that commander

364

00:15:32,660 --> 00:15:30,720

freighter saw the film you know you know

365

00:15:35,660 --> 00:15:32,670

that it had become pretty popular like

366

00:15:38,150 --> 00:15:35,670

1.5 million views and he didn't want his

367

00:15:40,190 --> 00:15:38,160

interview used him in the film because

368

00:15:43,220 --> 00:15:40,200

he said that it was only for to the

369

00:15:46,160 --> 00:15:43,230

stars only for their website and he

370

00:15:48,830 --> 00:15:46,170

wanted it taken out of my film that you

371

00:15:51,320 --> 00:15:48,840

know for whatever reason but I respect

372

00:15:53,210 --> 00:15:51,330

that I respect people's wishes even

373

00:15:55,520 --> 00:15:53,220

though I had gotten permission from to

374

00:15:57,500 --> 00:15:55,530

the stars you know again I had never

375

00:15:59,870 --> 00:15:57,510

been able I had never been able to

376

00:16:02,870 --> 00:15:59,880

contact flavor myself even though I did

377

00:16:05,270 --> 00:16:02,880

send them an email and so on I just

378

00:16:07,310 --> 00:16:05,280

wasn't able to talk to him so I figured

379

00:16:11,360 --> 00:16:07,320

I had to take it out so the next version

380

00:16:13,580 --> 00:16:11,370

they came out was you know it had some

381

00:16:15,910 --> 00:16:13,590

of the witnesses but phone interviews I

382

00:16:18,500 --> 00:16:15,920

didn't I still didn't have a chance to

383

00:16:20,000 --> 00:16:18,510

get in person and do interviews on

384

00:16:22,610 --> 00:16:20,010

camera with them so the next version

385

00:16:25,730 --> 00:16:22,620

that came out I think in March 2019

386

00:16:28,940 --> 00:16:25,740

featured those telephone or yet

387

00:16:31,670 --> 00:16:28,950

telephone interviews for instance and I

388

00:16:35,390 --> 00:16:31,680

mentioned a few of the other guys had

389

00:16:37,310 --> 00:16:35,400

some still photos and so on of them that

390

00:16:40,760 --> 00:16:37,320

later that month I got together with

391

00:16:44,570 --> 00:16:40,770

them out in Nevada at the UFO Megacon

392

00:16:46,880 --> 00:16:44,580

event and I seized that opportunity I

393

00:16:49,190 --> 00:16:46,890

mean I had for the witnesses actually I

394

00:16:52,340 --> 00:16:49,200

helped kind of put them in touch with

395

00:16:54,560 --> 00:16:52,350

the coordinators of that a bad and so

396

00:16:56,540 --> 00:16:54,570

you know we were all gonna be there at

397

00:16:58,670 --> 00:16:56,550

the same time I was like this is a

398

00:17:00,500 --> 00:16:58,680

perfect you know a perfect opportunity

399

00:17:03,560 --> 00:17:00,510

so I brought my camera equipment out

400

00:17:06,500 --> 00:17:03,570

there and interviewed each one of those

401  
00:17:08,090 --> 00:17:06,510  
guys so I got cabin day from the

402  
00:17:10,220 --> 00:17:08,100  
Princeton that Gary Voorhees from the

403  
00:17:12,620 --> 00:17:10,230  
Princeton Jason Turner from the

404  
00:17:15,079 --> 00:17:12,630  
Princeton and Patrick Hughes from the

405  
00:17:17,360 --> 00:17:15,089  
Nimitz and we just went out outside of

406  
00:17:20,600 --> 00:17:17,370  
town there in beautiful Nevada desert

407  
00:17:22,640 --> 00:17:20,610  
and Canyon and spent an hour with each

408  
00:17:24,500 --> 00:17:22,650  
one of them kind of talking about the

409  
00:17:27,410 --> 00:17:24,510  
events and they explained everything

410  
00:17:30,230 --> 00:17:27,420  
that happened to him that week I planned

411  
00:17:32,240 --> 00:17:30,240  
by the way on releasing each one of

412  
00:17:34,970 --> 00:17:32,250  
those interviews in its entirety which

413  
00:17:37,550 --> 00:17:34,980

again that's a whole another video for

414

00:17:39,450 --> 00:17:37,560

people to enjoy this topic can see

415

00:17:42,380 --> 00:17:39,460

coming up soon I'll put that on my

416

00:17:45,240 --> 00:17:42,390

Tube channel so now that I had those

417

00:17:47,580 --> 00:17:45,250

four for interviews what I did is I

418

00:17:51,570 --> 00:17:47,590

rewrote the script to incorporate what

419

00:17:54,600 --> 00:17:51,580

they had said and so coming up we we

420

00:17:56,250 --> 00:17:54,610

looked at the schedule and we noticed

421

00:17:59,960 --> 00:17:56,260

that the History Channel show is going

422

00:18:03,419 --> 00:17:59,970

to be airing I think the next weekend

423

00:18:04,950 --> 00:18:03,429

well would have been like May 31st or

424

00:18:08,610 --> 00:18:04,960

first week or something like that right

425

00:18:11,220 --> 00:18:08,620

um no yeah right May 1st I think so

426

00:18:13,500 --> 00:18:11,230

we were like will launch ours the

427

00:18:16,500 --> 00:18:13,510

weekend before that the Sunday is a good

428

00:18:16,860 --> 00:18:16,510

night so we scheduled the release of the

429

00:18:21,330 --> 00:18:16,870

film

430

00:18:23,580 --> 00:18:21,340

on April 26 just so happen I didn't know

431

00:18:26,039 --> 00:18:23,590

this just so happened that you know that

432

00:18:27,690 --> 00:18:26,049

was the same day that that New York

433

00:18:30,510 --> 00:18:27,700

Times article came out but anyways

434

00:18:32,460 --> 00:18:30,520

that's the story of why and of course in

435

00:18:34,950 --> 00:18:32,470

this version we don't have commander

436

00:18:36,990 --> 00:18:34,960

forever since he wanted to be taken out

437

00:18:41,399 --> 00:18:37,000

and that's why he's not in it understood

438

00:18:44,399 --> 00:18:41,409

by the way the video that you did the

439

00:18:47,580 --> 00:18:44,409

incan omits encounters documentary and

440

00:18:53,250 --> 00:18:47,590

that was wildly and is wildly popular in

441

00:18:55,710 --> 00:18:53,260

Amazon is it still there on Amazon it's

442

00:18:58,889 --> 00:18:55,720

not on Amazon right now I'm doing a new

443

00:19:00,330 --> 00:18:58,899

audio mix and I'm going to soon as I get

444

00:19:02,909 --> 00:19:00,340

that new audio mix I'm gonna put it back

445

00:19:04,799 --> 00:19:02,919

the one that was on Amazon going back to

446

00:19:07,110 --> 00:19:04,809

last year had commander flavor in it so

447

00:19:09,330 --> 00:19:07,120

as you know since I had to take that I

448

00:19:11,880 --> 00:19:09,340

agreed to take that out I pulled it off

449

00:19:13,019 --> 00:19:11,890

the Amazon but I'll let you guys know

450

00:19:14,130 --> 00:19:13,029

it'll be up there soon good I just

451

00:19:17,340 --> 00:19:14,140

wanted to clear that up

452

00:19:20,010 --> 00:19:17,350

yes I understand that because but folks

453

00:19:22,260 --> 00:19:20,020

when they think about the minim it's

454

00:19:25,560 --> 00:19:22,270

encounter documentary you did they

455

00:19:26,760 --> 00:19:25,570

automatically think about Amazon and so

456

00:19:29,820 --> 00:19:26,770

although you made it very clear

457

00:19:31,590 --> 00:19:29,830

regarding sort of the the provenance the

458

00:19:33,779 --> 00:19:31,600

history of events regarding what has

459

00:19:36,120 --> 00:19:33,789

happened it's still important for folks

460

00:19:38,490 --> 00:19:36,130

to understand whether it's there on

461

00:19:41,519 --> 00:19:38,500

Amazon or not but it will be going back

462

00:19:43,409 --> 00:19:41,529

up again soon on Amazon is that correct

463

00:19:47,009 --> 00:19:43,419

in a different format

464

00:19:48,959 --> 00:19:47,019

that's correct yeah all right has anyone

465

00:19:53,009 --> 00:19:48,969

from TTS a or History Channel ever

466

00:19:55,649 --> 00:19:53,019

contacted you Dave no one's contacted me

467

00:19:59,129 --> 00:19:55,659

from the hmm from you know aside from

468

00:20:01,560 --> 00:19:59,139

the little commander frayberg deal there

469

00:20:04,999 --> 00:20:01,570

no one's can make contact with me from

470

00:20:09,180 --> 00:20:05,009

TTS eh no one from history channels

471

00:20:12,209 --> 00:20:09,190

unidentified shows contacted me but just

472

00:20:15,599 --> 00:20:12,219

recently within the last month I was

473

00:20:18,079 --> 00:20:15,609

contacted by the show in search of which

474

00:20:21,180 --> 00:20:18,089

is that new History Channel show that

475

00:20:24,180 --> 00:20:21,190

you know they explore sort of mysteries

476

00:20:26,519 --> 00:20:24,190

and so on it's it's a remake of the 70s

477

00:20:28,319 --> 00:20:26,529

show with Leonard Nimoy actually it's a

478

00:20:30,659 --> 00:20:28,329

pretty interesting show so they contact

479

00:20:32,759 --> 00:20:30,669

me and said Dave we absolutely love the

480

00:20:34,560 --> 00:20:32,769

graphics that you did in the Nimitz

481

00:20:36,690 --> 00:20:34,570

Encounters it's there any possibility

482

00:20:39,359 --> 00:20:36,700

that we can source some of those

483

00:20:40,680 --> 00:20:39,369

computer graphics for an episode an

484

00:20:44,129 --> 00:20:40,690

upcoming episode that we're gonna be

485

00:20:47,459 --> 00:20:44,139

doing on UFOs and so on and I was like

486

00:20:50,219 --> 00:20:47,469

more than happy to provide that you know

487

00:20:52,259 --> 00:20:50,229

for them so I'm anxious to see what's

488

00:20:55,949 --> 00:20:52,269

gonna become of that that's fantastic

489

00:21:00,019 --> 00:20:55,959

congratulations regarding dad Dave what

490

00:21:02,579 --> 00:21:00,029

about NDA's in reference to the Navy

491

00:21:06,089 --> 00:21:02,589

there's been a lot of questions about

492

00:21:07,919 --> 00:21:06,099

that because in my documentary there's a

493

00:21:11,299 --> 00:21:07,929

scene where I showed out and people have

494

00:21:14,489 --> 00:21:11,309

over and over said how can these guys

495

00:21:17,609 --> 00:21:14,499

come forward with these stories if they

496

00:21:20,690 --> 00:21:17,619

sign NDA's that is impossible they would

497

00:21:23,789 --> 00:21:20,700

be in jail this isn't wrong it's a lie

498

00:21:25,319 --> 00:21:23,799

well if you really watch the documentary

499

00:21:28,680 --> 00:21:25,329

you would understand there's only one

500

00:21:31,469 --> 00:21:28,690

individual that claims to have signed an

501  
00:21:35,609 --> 00:21:31,479  
NDA and he's not in the film other than

502  
00:21:38,579 --> 00:21:35,619  
other people mentioning him we use you

503  
00:21:40,109 --> 00:21:38,589  
know a pseudonym for him called Roger he

504  
00:21:43,849 --> 00:21:40,119  
doesn't want to come out he doesn't want

505  
00:21:46,709 --> 00:21:43,859  
his name used he contacted me early on

506  
00:21:49,529 --> 00:21:46,719  
Patrick Hughes knows this gentleman

507  
00:21:52,879 --> 00:21:49,539  
personally and basically they vouch for

508  
00:21:55,589 --> 00:21:52,889  
each other of this event and this this

509  
00:21:56,710 --> 00:21:55,599  
person basically said that when they

510  
00:21:59,019 --> 00:21:56,720  
landed on the

511  
00:22:01,989 --> 00:21:59,029  
the carrier after their mission with the

512  
00:22:05,440 --> 00:22:01,999  
e-2 Hawkeye they were brought down into

513  
00:22:07,719 --> 00:22:05,450

the ship and they had to sign NDA's now

514

00:22:12,460 --> 00:22:07,729

it's my understanding that the subject

515

00:22:15,159 --> 00:22:12,470

matter of the NDA is a classified Center

516

00:22:19,479 --> 00:22:15,169

and that's what they can't talk about

517

00:22:21,700 --> 00:22:19,489

not necessarily the tic-tac UFO per se

518

00:22:24,759 --> 00:22:21,710

everyone else is talking about the tic

519

00:22:27,969 --> 00:22:24,769

tacs as you know so yeah I think that

520

00:22:30,009 --> 00:22:27,979

that while he did sign an NDA he hasn't

521

00:22:32,469 --> 00:22:30,019

really broken that it unless just saying

522

00:22:34,869 --> 00:22:32,479

that you sign one is against against it

523

00:22:38,469 --> 00:22:34,879

I don't know so that's a very good point

524

00:22:42,310 --> 00:22:38,479

actually I wanted to ask you the

525

00:22:45,580 --> 00:22:42,320

military having allegedly taken data

526

00:22:48,099 --> 00:22:45,590

which was considered key evidence to

527

00:22:52,690 --> 00:22:48,109

this Nimitz event how do we know that's

528

00:22:55,810 --> 00:22:52,700

accurate well you know hopefully Patrick

529

00:22:57,940 --> 00:22:55,820

has clarified that and I think that in

530

00:23:00,609 --> 00:22:57,950

my document dot in in my documentary

531

00:23:02,409 --> 00:23:00,619

film you know we spent you know several

532

00:23:06,070 --> 00:23:02,419

minutes with him telling the story of

533

00:23:08,919 --> 00:23:06,080

what happened there's been a few people

534

00:23:11,320 --> 00:23:08,929

that have verified that as well that are

535

00:23:13,060 --> 00:23:11,330

sort of you know they don't want to come

536

00:23:16,210 --> 00:23:13,070

forward at this time but they served

537

00:23:18,909 --> 00:23:16,220

together with Patrick as well as Roger

538

00:23:21,399 --> 00:23:18,919

and so on in that Wallbangers workshop

539

00:23:23,769 --> 00:23:21,409

and there were several people that

540

00:23:25,629 --> 00:23:23,779

witnessed these guys coming in and he

541

00:23:29,320 --> 00:23:25,639

Patrick you know said that they were Air

542

00:23:31,359 --> 00:23:29,330

Force officers that came with his Co you

543

00:23:33,700 --> 00:23:31,369

know came in there and said we want that

544

00:23:35,919 --> 00:23:33,710

hard drive that came off with the e to

545

00:23:39,489 --> 00:23:35,929

Hawkeye plane that had witnessed these

546

00:23:43,029 --> 00:23:39,499

tick-tack things and Patrick said it was

547

00:23:45,070 --> 00:23:43,039

highly unusual but he he took him out of

548

00:23:48,219 --> 00:23:45,080

the safe and sighted out to these guys

549

00:23:50,499 --> 00:23:48,229

that and they left and it you know I

550

00:23:52,450 --> 00:23:50,509

actually put it together with Gary

551  
00:23:54,219 --> 00:23:52,460  
because I was asking Gary afterwards I

552  
00:23:56,409 --> 00:23:54,229  
said Gary or he's from the Prince though

553  
00:23:59,379 --> 00:23:56,419  
I said Gary did anyone ever take any of

554  
00:24:01,509 --> 00:23:59,389  
your dating he's like yeah and I'm like

555  
00:24:03,580 --> 00:24:01,519  
what do you mean yeah when he was like

556  
00:24:04,839 --> 00:24:03,590  
right after the event I'm like man how

557  
00:24:09,070 --> 00:24:04,849  
come he didn't tell me that I've been

558  
00:24:11,050 --> 00:24:09,080  
you didn't ask me so these Navy

559  
00:24:12,880 --> 00:24:11,060  
nice for like that you have to realize

560  
00:24:14,710 --> 00:24:12,890  
that you really have to ask them

561  
00:24:17,200 --> 00:24:14,720  
specific questions because they're not

562  
00:24:20,080 --> 00:24:17,210  
gonna volunteer it but Gary said that

563  
00:24:22,660 --> 00:24:20,090

yet okay that's not important but Gary's

564

00:24:25,450 --> 00:24:22,670

said that these guys came on board on a

565

00:24:27,790 --> 00:24:25,460

helicopter maybe a few hours or whatever

566

00:24:30,820 --> 00:24:27,800

an hour so after this event with the tic

567

00:24:35,050 --> 00:24:30,830

tacs and so on and he was in charge of

568

00:24:37,390 --> 00:24:35,060

tape recordings of data from the CIC and

569

00:24:40,150 --> 00:24:37,400

they wanted those tapes and this is like

570

00:24:42,340 --> 00:24:40,160

the aegis combat system and they took

571

00:24:45,490 --> 00:24:42,350

the tapes and you know had to sign them

572

00:24:48,070 --> 00:24:45,500

out chain of custody and they made him

573

00:24:50,200 --> 00:24:48,080

erase all of the other tapes he had left

574

00:24:53,950 --> 00:24:50,210

that were even if they were blank like

575

00:24:56,230 --> 00:24:53,960

just tape cassettes so that there was

576

00:24:57,880 --> 00:24:56,240

nothing left on the ship that had any

577

00:25:01,540 --> 00:24:57,890

evidence is there another system called

578

00:25:05,320 --> 00:25:01,550

the CEC and he said they erased that so

579

00:25:08,530 --> 00:25:05,330

pretty much all this data that was you

580

00:25:12,100 --> 00:25:08,540

know probably capturing these tic tacs

581

00:25:14,980 --> 00:25:12,110

on radar and so and seems to be gone so

582

00:25:16,930 --> 00:25:14,990

I understood I actually want to make a

583

00:25:20,710 --> 00:25:16,940

comment you know I've had a lot of

584

00:25:22,780 --> 00:25:20,720

family members and friends who have been

585

00:25:24,700 --> 00:25:22,790

in the military and I used to hear this

586

00:25:26,940 --> 00:25:24,710

kind of comment a lot and that is when

587

00:25:29,500 --> 00:25:26,950

she joined the military they own you and

588

00:25:32,800 --> 00:25:29,510

it whether it's an expression or not or

589

00:25:35,080 --> 00:25:32,810

it's literal they literally can come in

590

00:25:37,510 --> 00:25:35,090

and they can make you do something like

591

00:25:38,430 --> 00:25:37,520

that such as erase tapes isn't that

592

00:25:42,610 --> 00:25:38,440

correct

593

00:25:45,430 --> 00:25:42,620

yeah I think Gary put it bluntly when he

594

00:25:47,500 --> 00:25:45,440

when people would say if they said you

595

00:25:49,240 --> 00:25:47,510

know give us the tapes and then people

596

00:25:51,700 --> 00:25:49,250

would say well why didn't why didn't you

597

00:25:53,410 --> 00:25:51,710

why didn't you give it to him and it's

598

00:25:57,100 --> 00:25:53,420

because the you'll go to jail

599

00:25:59,680 --> 00:25:57,110

if you refuse to do it you know you want

600

00:26:02,860 --> 00:25:59,690

to go to jail these I guess his his

601  
00:26:04,630 --> 00:26:02,870  
chain of command or whatever these

602  
00:26:06,610 --> 00:26:04,640  
people that came on board were the kind

603  
00:26:08,470 --> 00:26:06,620  
of people that you didn't question and

604  
00:26:10,600 --> 00:26:08,480  
they could do anything that they wanted

605  
00:26:13,810 --> 00:26:10,610  
that's what he said understood and I

606  
00:26:15,730 --> 00:26:13,820  
believed him Dave wanted the pilot said

607  
00:26:18,760 --> 00:26:15,740  
there's no longer video from für one

608  
00:26:21,070 --> 00:26:18,770  
but Jason Turner said there is has

609  
00:26:24,019 --> 00:26:21,080  
anyone else confirmed that

610  
00:26:26,060 --> 00:26:24,029  
yeah that that's a question we're in

611  
00:26:28,249 --> 00:26:26,070  
relationship to the length of the video

612  
00:26:28,970 --> 00:26:28,259  
that we have that was released to the

613  
00:26:31,340 --> 00:26:28,980

public

614

00:26:33,830 --> 00:26:31,350

you know the FLIR one is the one with

615

00:26:36,739 --> 00:26:33,840

the little fuzzy white egg-shaped object

616

00:26:40,159 --> 00:26:36,749

in the center of the screen it's about a

617

00:26:42,950 --> 00:26:40,169

minute 16 seconds the one that was

618

00:26:44,600 --> 00:26:42,960

released well as Jason has said Jason

619

00:26:46,940 --> 00:26:44,610

Turner from the US Princeton has said

620

00:26:51,230 --> 00:26:46,950

that there's a much longer fill in the

621

00:26:54,259 --> 00:26:51,240

he saw it in the the ships secure space

622

00:26:58,759 --> 00:26:54,269

that he was in I guess he was shown that

623

00:27:00,739 --> 00:26:58,769

by another veteran that at that time you

624

00:27:02,869 --> 00:27:00,749

know said take a look at this and he

625

00:27:06,470 --> 00:27:02,879

said it was probably somewhere between

626  
00:27:08,470 --> 00:27:06,480  
five and ten minutes in length so that's

627  
00:27:11,480 --> 00:27:08,480  
what you know it's one person's

628  
00:27:15,019 --> 00:27:11,490  
observation since that time there's been

629  
00:27:18,379 --> 00:27:15,029  
a few other individuals that have sort

630  
00:27:19,789 --> 00:27:18,389  
of clarify that in some ways you know

631  
00:27:21,789 --> 00:27:19,799  
and again some of this stuff I don't

632  
00:27:24,879 --> 00:27:21,799  
even ask it just comes forward

633  
00:27:28,159 --> 00:27:24,889  
researcher Robert Powell just last week

634  
00:27:32,840 --> 00:27:28,169  
indicated to me that in his interviews

635  
00:27:35,779 --> 00:27:32,850  
with Lieutenant Commander Jim slate Jim

636  
00:27:37,580 --> 00:27:35,789  
indicated that when the Jets take off

637  
00:27:40,850 --> 00:27:37,590  
from the aircraft carrier if they're

638  
00:27:43,549 --> 00:27:40,860

carrying the targeting pod like the FLIR

639

00:27:45,440 --> 00:27:43,559

system as soon as they get up in the air

640

00:27:47,180 --> 00:27:45,450

and they're turning that on getting

641

00:27:49,730 --> 00:27:47,190

ready for the mission getting ready to

642

00:27:51,889 --> 00:27:49,740

use it for instance they would begin

643

00:27:53,869 --> 00:27:51,899

recording right then when they're

644

00:27:55,609 --> 00:27:53,879

setting it up they don't want to wait

645

00:27:57,259 --> 00:27:55,619

until they're in the thick of it where

646

00:27:59,749 --> 00:27:57,269

they're you know in some type of

647

00:28:02,239 --> 00:27:59,759

engagement to try to like hit the record

648

00:28:04,100 --> 00:28:02,249

button there's no reason to do it like

649

00:28:06,169 --> 00:28:04,110

that they start the recording when they

650

00:28:08,480 --> 00:28:06,179

when they begin the mission it's normal

651  
00:28:11,149 --> 00:28:08,490  
procedure and I think that could be

652  
00:28:14,299 --> 00:28:11,159  
verified by other weapons system

653  
00:28:16,220 --> 00:28:14,309  
officers for instance but so they take

654  
00:28:18,710 --> 00:28:16,230  
off and you can imagine that they're

655  
00:28:21,049 --> 00:28:18,720  
flying out sixty miles or something from

656  
00:28:23,779 --> 00:28:21,059  
the ship there's going to be a longer

657  
00:28:27,049 --> 00:28:23,789  
recording now where that went after the

658  
00:28:30,909 --> 00:28:27,059  
mission what happened to it we don't

659  
00:28:33,680 --> 00:28:30,919  
know the the one that originally the one

660  
00:28:34,909 --> 00:28:33,690  
website that originally leaked it back

661  
00:28:37,710 --> 00:28:34,919  
in 2000

662  
00:28:41,430 --> 00:28:37,720  
there was an individual called the final

663  
00:28:43,409 --> 00:28:41,440

theory his username he claims that he

664

00:28:45,840 --> 00:28:43,419

had access to that film and the one

665

00:28:50,130 --> 00:28:45,850

that's the short one was leaked onto the

666

00:28:51,840 --> 00:28:50,140

Internet researcher Isaac boy this week

667

00:28:54,630 --> 00:28:51,850

has been communicating with this

668

00:28:58,289 --> 00:28:54,640

individual he changed his name to the

669

00:29:00,770 --> 00:28:58,299

final theory returns and Isaac thinks

670

00:29:04,909 --> 00:29:00,780

it's the same person and I believe that

671

00:29:09,600 --> 00:29:04,919

he did say that there was a longer film

672

00:29:10,950 --> 00:29:09,610

that they weren't able to play it for

673

00:29:13,320 --> 00:29:10,960

some reason and that's what the

674

00:29:16,020 --> 00:29:13,330

statement was but that there was but one

675

00:29:18,870 --> 00:29:16,030

existed so who has seen it

676

00:29:21,510 --> 00:29:18,880

aside from Jason I'm not sure but that's

677

00:29:28,560 --> 00:29:21,520

the story yeah it sounds like an x-files

678

00:29:31,680 --> 00:29:28,570

episode I wanted to ask you Dave could

679

00:29:35,149 --> 00:29:31,690

you please go into an interesting topic

680

00:29:38,870 --> 00:29:35,159

here that I really deeply admire you for

681

00:29:41,850 --> 00:29:38,880

having the passion to do and that is

682

00:29:45,210 --> 00:29:41,860

starting a forum regarding the military

683

00:29:47,370 --> 00:29:45,220

police and pilots so that they have the

684

00:29:49,649 --> 00:29:47,380

ability to go ahead and network and talk

685

00:29:53,250 --> 00:29:49,659

about their experiences regarding you

686

00:29:54,960 --> 00:29:53,260

ApS is that correct yes that's something

687

00:29:58,380 --> 00:29:54,970

that I'm working on it's a work in

688

00:30:00,390 --> 00:29:58,390

progress if you go to my website

689

00:30:02,610 --> 00:30:00,400

the Nimitz encounters comm you'll see a

690

00:30:05,310 --> 00:30:02,620

page there that sort of describes the

691

00:30:07,680 --> 00:30:05,320

inception of that we also started a

692

00:30:11,340 --> 00:30:07,690

Facebook page of the same name and it's

693

00:30:16,409 --> 00:30:11,350

called the military police and pilots

694

00:30:18,930 --> 00:30:16,419

UAP network and that the acronym for

695

00:30:21,779 --> 00:30:18,940

that would be the same those letters so

696

00:30:25,440 --> 00:30:21,789

the reason that I thought this was a

697

00:30:28,200 --> 00:30:25,450

good idea was when I got all of the the

698

00:30:30,450 --> 00:30:28,210

witnesses together when I began forming

699

00:30:33,330 --> 00:30:30,460

groups of the Princeton and Nimitz

700

00:30:36,120 --> 00:30:33,340

witnesses I sort of witnessed this

701  
00:30:38,970 --> 00:30:36,130  
really remarkable thing occurring which

702  
00:30:41,580 --> 00:30:38,980  
was it it seemed to really help these

703  
00:30:44,700 --> 00:30:41,590  
guys I mean they were struggling in some

704  
00:30:46,560 --> 00:30:44,710  
cases with this information they really

705  
00:30:47,990 --> 00:30:46,570  
hadn't talked about it in many many

706  
00:30:49,820 --> 00:30:48,000  
years and

707  
00:30:52,760 --> 00:30:49,830  
having other guys to talk about it with

708  
00:30:55,490 --> 00:30:52,770  
seeing sort of vindicating in a way that

709  
00:30:57,470 --> 00:30:55,500  
they didn't have to think that they were

710  
00:31:00,200 --> 00:30:57,480  
losing their minds and it didn't really

711  
00:31:02,630 --> 00:31:00,210  
happen you know in some cases they were

712  
00:31:05,020 --> 00:31:02,640  
told this didn't happen back then you

713  
00:31:07,460 --> 00:31:05,030

know forget about it sort of thing and

714

00:31:10,010 --> 00:31:07,470

now being able to talk about it and

715

00:31:12,860 --> 00:31:10,020

having you know the courage to come

716

00:31:16,580 --> 00:31:12,870

forward I think was because other people

717

00:31:18,350 --> 00:31:16,590

had their backs and I was like this is

718

00:31:21,620 --> 00:31:18,360

one of the best things of this whole

719

00:31:22,940 --> 00:31:21,630

case we should try to duplicate this and

720

00:31:25,310 --> 00:31:22,950

I looked out there to see if there was

721

00:31:27,620 --> 00:31:25,320

anything really formalized that was easy

722

00:31:29,090 --> 00:31:27,630

to find for people that you know kind of

723

00:31:31,310 --> 00:31:29,100

one they didn't have to have a rapport

724

00:31:34,070 --> 00:31:31,320

that perhaps they just wanted to talk to

725

00:31:37,130 --> 00:31:34,080

other about sad experiences and so on so

726

00:31:38,810 --> 00:31:37,140

that's really kind of my initial reason

727

00:31:41,180 --> 00:31:38,820

for doing this and I'm really hoping

728

00:31:43,450 --> 00:31:41,190

that it takes off there was a period of

729

00:31:46,280 --> 00:31:43,460

time where the general consensus between

730

00:31:49,520 --> 00:31:46,290

pilots if they had ever seen an

731

00:31:54,170 --> 00:31:49,530

anomalous object in the sky back in the

732

00:31:57,530 --> 00:31:54,180

day to not say anything about it

733

00:32:01,610 --> 00:31:57,540

publicly now they might talk to radar

734

00:32:05,210 --> 00:32:01,620

operators about it or report it sort of

735

00:32:06,770 --> 00:32:05,220

quietly but it never went beyond a

736

00:32:09,590 --> 00:32:06,780

circle of people

737

00:32:11,930 --> 00:32:09,600

isn't that correct and nowadays it seems

738

00:32:15,740 --> 00:32:11,940

to be a little bit better in the respect

739

00:32:17,870 --> 00:32:15,750

that if pilots see anomalous objects

740

00:32:18,950 --> 00:32:17,880

they're more likely to talk about it

741

00:32:23,000 --> 00:32:18,960

than ever before

742

00:32:25,070 --> 00:32:23,010

is that right I hope so we've learned

743

00:32:28,010 --> 00:32:25,080

that the US Navy has sort of been

744

00:32:31,400 --> 00:32:28,020

putting in some new guidelines for Navy

745

00:32:32,930 --> 00:32:31,410

pilots to report unidentified objects

746

00:32:36,140 --> 00:32:32,940

for instance I know that there were some

747

00:32:37,910 --> 00:32:36,150

briefings in Washington that we're

748

00:32:40,040 --> 00:32:37,920

dealing with that and from my

749

00:32:43,100 --> 00:32:40,050

understanding that those new policies

750

00:32:46,040 --> 00:32:43,110

have actually been implemented I hope so

751

00:32:48,950 --> 00:32:46,050

you know as far as civilian pilots you

752

00:32:51,470 --> 00:32:48,960

know the conversation needs to continue

753

00:32:54,740 --> 00:32:51,480

I think there's still stigma attached to

754

00:32:57,050 --> 00:32:54,750

it you know it's your career and

755

00:33:00,740 --> 00:32:57,060

reporting this stuff can have negative

756

00:33:03,530 --> 00:33:00,750

ramifications for somebody that you know

757

00:33:05,690 --> 00:33:03,540

a commercial pilot at one of the major

758

00:33:07,790 --> 00:33:05,700

airlines for instance you might not

759

00:33:10,040 --> 00:33:07,800

report something because of the stigma

760

00:33:12,710 --> 00:33:10,050

and I hope that that does change as we

761

00:33:15,920 --> 00:33:12,720

move forward I also wanted to ask you a

762

00:33:18,260 --> 00:33:15,930

question about that what good does it do

763

00:33:20,750 --> 00:33:18,270

the pilots to say anything at all really

764

00:33:23,120 --> 00:33:20,760

I mean if they're put in a position

765

00:33:26,000 --> 00:33:23,130

where they're being scrutinized possibly

766

00:33:28,490 --> 00:33:26,010

heavily by the public what is the point

767

00:33:30,530 --> 00:33:28,500

of them saying anything if they have

768

00:33:33,350 --> 00:33:30,540

witnessed any kind of anomalous activity

769

00:33:36,260 --> 00:33:33,360

in the skies well you're absolutely

770

00:33:38,180 --> 00:33:36,270

right number one they might think about

771

00:33:39,410 --> 00:33:38,190

it for a while take a day or two to

772

00:33:42,590 --> 00:33:39,420

think they don't report it right away

773

00:33:45,680 --> 00:33:42,600

and they they would play it out and say

774

00:33:48,410 --> 00:33:45,690

what good is it gonna do what is gonna

775

00:33:51,560 --> 00:33:48,420

happen if I report this and really I

776

00:33:54,020 --> 00:33:51,570

don't know a bet a positive benefit for

777

00:33:56,570 --> 00:33:54,030

the pilot you know I mean especially if

778

00:33:58,640 --> 00:33:56,580

it's just one guy or something you know

779

00:34:01,610 --> 00:33:58,650

I can think of a lot of negative things

780

00:34:04,160 --> 00:34:01,620

so I think that it's way underreported I

781

00:34:06,620 --> 00:34:04,170

think that there's probably significant

782

00:34:09,590 --> 00:34:06,630

events that have not been reported yeah

783

00:34:12,320 --> 00:34:09,600

I think the cons outweigh the pros in

784

00:34:14,690 --> 00:34:12,330

that respect so it's interesting that

785

00:34:16,909 --> 00:34:14,700

you ApS are becoming more mainstream

786

00:34:19,580 --> 00:34:16,919

regarding the news so hopefully that

787

00:34:22,720 --> 00:34:19,590

will still help become an impetus for

788

00:34:25,340 --> 00:34:22,730

pilots to report and it will be more

789

00:34:28,159 --> 00:34:25,350

commonplace for that to happen if they

790

00:34:30,590 --> 00:34:28,169

see an anomalous object in the sky that

791

00:34:32,750 --> 00:34:30,600

they cannot explain Dave do you think

792

00:34:35,540 --> 00:34:32,760

what the anomalous objects these pilots

793

00:34:39,889 --> 00:34:35,550

saw was derive from et technology or was

794

00:34:42,080 --> 00:34:39,899

it man-made I go I'm usually on the

795

00:34:46,490 --> 00:34:42,090

fence about that I always say I don't

796

00:34:49,940 --> 00:34:46,500

know I really don't know on one day I

797

00:34:54,740 --> 00:34:49,950

might be on the side of wow this is like

798

00:34:58,910 --> 00:34:54,750

some black super you know black aircraft

799

00:35:03,950 --> 00:34:58,920

project special access area 51 you know

800

00:35:08,120 --> 00:35:03,960

I I have trouble linking Bob lazarre's

801  
00:35:11,030 --> 00:35:08,130  
you know sports model with this tic-tac

802  
00:35:12,560 --> 00:35:11,040  
I mean I don't know I I'm just not gonna

803  
00:35:15,160 --> 00:35:12,570  
go there but you

804  
00:35:17,780 --> 00:35:15,170  
could it be some other type of

805  
00:35:20,720 --> 00:35:17,790  
intelligence that were unaware of you

806  
00:35:22,730 --> 00:35:20,730  
know maybe is it related to the ocean

807  
00:35:25,040 --> 00:35:22,740  
I mean 95 percent of the ocean is

808  
00:35:27,350 --> 00:35:25,050  
unexplored and there's some deep ocean

809  
00:35:30,950 --> 00:35:27,360  
you know even out there you know it's

810  
00:35:32,750 --> 00:35:30,960  
pretty deep the they seem to you know

811  
00:35:36,130 --> 00:35:32,760  
from all the reports that I've gotten

812  
00:35:38,510 --> 00:35:36,140  
over the years they seem to have some

813  
00:35:40,010 --> 00:35:38,520

under the water and coming out of the

814

00:35:44,210 --> 00:35:40,020

water there's a lot of reports of that

815

00:35:47,810 --> 00:35:44,220

so that's quite interesting idea now on

816

00:35:50,810 --> 00:35:47,820

the flip side the the man-made man-made

817

00:35:54,230 --> 00:35:50,820

stuff I could possibly see that if you

818

00:35:57,320 --> 00:35:54,240

would erase the physics-defying part of

819

00:35:59,890 --> 00:35:57,330

it the antigravity part of it I just

820

00:36:03,370 --> 00:35:59,900

don't know if we have anti-gravity

821

00:36:07,790 --> 00:36:03,380

physics bending space-time bubbles

822

00:36:10,070 --> 00:36:07,800

metric engineered craft that can go you

823

00:36:12,080 --> 00:36:10,080

know tens of thousands of miles an hour

824

00:36:14,390 --> 00:36:12,090

or hundreds of thousands miles or and

825

00:36:16,580 --> 00:36:14,400

stop instantly and go the other

826

00:36:18,800 --> 00:36:16,590

direction I mean I mean if we have that

827

00:36:21,730 --> 00:36:18,810

technology we should be living in a

828

00:36:25,520 --> 00:36:21,740

utopian society with like you know

829

00:36:27,890 --> 00:36:25,530

hovercrafts in green energy and a little

830

00:36:29,510 --> 00:36:27,900

cube that powers a city you know we

831

00:36:33,020 --> 00:36:29,520

wouldn't need to be polluting our

832

00:36:34,940 --> 00:36:33,030

environment with gas combustion turbine

833

00:36:36,710 --> 00:36:34,950

engines you know and the whole thing we

834

00:36:39,410 --> 00:36:36,720

would have solved a lot of that problem

835

00:36:41,390 --> 00:36:39,420

so I think I'm like do we really have

836

00:36:43,790 --> 00:36:41,400

that if we do I mean come on it's time

837

00:36:46,520 --> 00:36:43,800

to give it to us you know right release

838

00:36:48,020 --> 00:36:46,530

that technology yes agreed by the way

839

00:36:50,570 --> 00:36:48,030

one of the topics you mentioned

840

00:36:52,870 --> 00:36:50,580

regarding us so possible us no activity

841

00:36:55,610 --> 00:36:52,880

I do have a question from Tom Whitmore

842

00:36:57,890 --> 00:36:55,620

regarding that a little bit later on so

843

00:37:01,420 --> 00:36:57,900

wanted to ask you there have been some

844

00:37:04,640 --> 00:37:01,430

DARPA drone projects circulating lately

845

00:37:06,650 --> 00:37:04,650

are there are those the drones that the

846

00:37:10,670 --> 00:37:06,660

pot do you think they're drones that the

847

00:37:13,340 --> 00:37:10,680

pilot saw in other words well you know I

848

00:37:18,040 --> 00:37:13,350

some people have sent me a lot of links

849

00:37:21,020 --> 00:37:18,050

lately to these both underwater drones

850

00:37:24,140 --> 00:37:21,030

you know vehicles and you know what they

851  
00:37:25,940 --> 00:37:24,150  
say is DARPA is trying to develop these

852  
00:37:28,190 --> 00:37:25,950  
systems that would be

853  
00:37:30,740 --> 00:37:28,200  
underwater vehicle that would go to a

854  
00:37:33,230 --> 00:37:30,750  
location it would surface and deploy

855  
00:37:35,270 --> 00:37:33,240  
drones you know for surveillance or

856  
00:37:37,430 --> 00:37:35,280  
whatever and I believe that that stuff

857  
00:37:40,070 --> 00:37:37,440  
is gonna really come true now again I

858  
00:37:43,040 --> 00:37:40,080  
could see something like that for

859  
00:37:46,520 --> 00:37:43,050  
intelligence gathering or even to as

860  
00:37:49,100 --> 00:37:46,530  
decoys to confuse say an enemy Air Force

861  
00:37:53,150 --> 00:37:49,110  
or something but again we still haven't

862  
00:37:55,910 --> 00:37:53,160  
seen this gravity-defying hypersonic

863  
00:37:58,370 --> 00:37:55,920

drones drones travel slow

864

00:38:02,030 --> 00:37:58,380

they have propellers you know they have

865

00:38:05,480 --> 00:38:02,040

like most drones have rotors and so on

866

00:38:08,060 --> 00:38:05,490

they don't go 24,000 miles an hour so

867

00:38:11,810 --> 00:38:08,070

and they there's very few that can go

868

00:38:14,030 --> 00:38:11,820

from the air underwater so you know I

869

00:38:15,320 --> 00:38:14,040

have I believe that that technology is

870

00:38:18,520 --> 00:38:15,330

there I just don't think that that's

871

00:38:21,980 --> 00:38:18,530

what we're seeing now as far as

872

00:38:26,200 --> 00:38:21,990

anomalous undersea objects USO is for

873

00:38:28,880 --> 00:38:26,210

instance I believe that that is true and

874

00:38:32,030 --> 00:38:28,890

just recently I was contacted by a

875

00:38:34,640 --> 00:38:32,040

Submariner on a US Navy Submariner now I

876

00:38:36,500 --> 00:38:34,650

checked I mean vetted the guy I believe

877

00:38:37,940 --> 00:38:36,510

him he's saying that he served you know

878

00:38:38,660 --> 00:38:37,950

he gave me the name of the sub that he

879

00:38:43,550 --> 00:38:38,670

served aboard

880

00:38:46,340 --> 00:38:43,560

he said that they do report under USO

881

00:38:48,860 --> 00:38:46,350

contacts that he said he's even

882

00:38:52,930 --> 00:38:48,870

witnessed them going in excess of 500

883

00:38:55,550 --> 00:38:52,940

knots underwater he said it happens so

884

00:38:58,820 --> 00:38:55,560

you know I believe it yeah very good

885

00:39:00,920 --> 00:38:58,830

points thank you I wanted to ask you on

886

00:39:04,580 --> 00:39:00,930

May 26 the New York Times broke the

887

00:39:06,710 --> 00:39:04,590

story on the USS Roosevelt in 2015 and

888

00:39:08,630 --> 00:39:06,720

that was the same day you released the

889

00:39:13,190 --> 00:39:08,640

latest in myths movie what do you think

890

00:39:15,530 --> 00:39:13,200

about that article Dave well you know in

891

00:39:18,010 --> 00:39:15,540

some ways I feel vindicated because it's

892

00:39:21,110 --> 00:39:18,020

you if you guys remember back in

893

00:39:24,050 --> 00:39:21,120

November of 2018 when we first came out

894

00:39:26,870 --> 00:39:24,060

with the film at the end of the film we

895

00:39:29,180 --> 00:39:26,880

show a picture of the gimbal film and

896

00:39:31,460 --> 00:39:29,190

there's a little graphic there and the

897

00:39:35,420 --> 00:39:31,470

narrator says you know this is the

898

00:39:38,810 --> 00:39:35,430

gimbal film captured by the crew the air

899

00:39:41,150 --> 00:39:38,820

crews on the USS Roosevelt

900

00:39:44,900 --> 00:39:41,160

and on the screen it says estimated date

901  
00:39:46,970 --> 00:39:44,910  
of January 26 2015 that information

902  
00:39:49,820 --> 00:39:46,980  
wasn't out in the public and a small

903  
00:39:52,220 --> 00:39:49,830  
core group of researchers including on

904  
00:39:54,950 --> 00:39:52,230  
Christoph Spitzer out of France and

905  
00:39:58,390 --> 00:39:54,960  
Keith pastor field out of Australia and

906  
00:40:02,690 --> 00:39:58,400  
myself had been for months kind of

907  
00:40:04,310 --> 00:40:02,700  
bantering back and forth and Christophe

908  
00:40:06,740 --> 00:40:04,320  
had done this document where he put all

909  
00:40:09,830 --> 00:40:06,750  
this information that had information

910  
00:40:13,130 --> 00:40:09,840  
about the wind at 20,000 feet that the

911  
00:40:15,020 --> 00:40:13,140  
pilots reported as being 120 knots out

912  
00:40:17,270 --> 00:40:15,030  
of the West they put together

913  
00:40:19,550 --> 00:40:17,280

information about commercial airline

914

00:40:23,030 --> 00:40:19,560

flights that were diverted around the

915

00:40:24,920 --> 00:40:23,040

coast of Florida in in that month they

916

00:40:28,510 --> 00:40:24,930

looked at weather patterns in frontal

917

00:40:31,160 --> 00:40:28,520

patterns that would show clouds that had

918

00:40:34,340 --> 00:40:31,170

similar patterns to what we saw in the

919

00:40:37,610 --> 00:40:34,350

gimbal at that altitude I got the the

920

00:40:40,790 --> 00:40:37,620

final thing was I got the foyers for the

921

00:40:43,640 --> 00:40:40,800

USS Normandy which is the it's basically

922

00:40:46,010 --> 00:40:43,650

like the USS Princeton but for the

923

00:40:48,980 --> 00:40:46,020

Roosevelt it's the cruiser the cruiser

924

00:40:52,040 --> 00:40:48,990

you know is right with the aircraft

925

00:40:54,290 --> 00:40:52,050

carrier so we had this cruiser out there

926  
00:40:57,560 --> 00:40:54,300  
we could track where it was in the ocean

927  
00:41:00,110 --> 00:40:57,570  
in January and putting it together we

928  
00:41:01,970 --> 00:41:00,120  
kind of figured out where the aircraft

929  
00:41:04,310 --> 00:41:01,980  
carrier was we figured out what the

930  
00:41:08,060 --> 00:41:04,320  
aircrew was that was flying off there we

931  
00:41:10,490 --> 00:41:08,070  
even had all the names so after the the

932  
00:41:12,710 --> 00:41:10,500  
article came out in The Times I went

933  
00:41:15,080 --> 00:41:12,720  
back to our documents and I looked at

934  
00:41:17,390 --> 00:41:15,090  
the names and like oh there's like

935  
00:41:20,360 --> 00:41:17,400  
lieutenant Aucoin yep we had him we just

936  
00:41:22,790 --> 00:41:20,370  
we hadn't gotten to the point of trying

937  
00:41:24,800 --> 00:41:22,800  
to go out and contact all these guys you

938  
00:41:26,720 --> 00:41:24,810

know it's kind of actually hard you know

939

00:41:28,940 --> 00:41:26,730

you've called like a pilot and say hey

940

00:41:31,700 --> 00:41:28,950

I'm a UFO researcher you can we talk to

941

00:41:35,360 --> 00:41:31,710

you yeah they could either click you

942

00:41:38,090 --> 00:41:35,370

know but it was indicating a sense that

943

00:41:41,540 --> 00:41:38,100

they had this information from to the

944

00:41:43,880 --> 00:41:41,550

stars from a tip apparently that's where

945

00:41:46,250 --> 00:41:43,890

to the stars got it we sell the Sandow

946

00:41:49,310 --> 00:41:46,260

and so on we already had it and we were

947

00:41:51,320 --> 00:41:49,320

right that's incredible I wanted to move

948

00:41:52,460 --> 00:41:51,330

on to a few of frank stahl ters

949

00:41:54,170 --> 00:41:52,470

questions

950

00:41:56,210 --> 00:41:54,180

you may have already answered some of

951  
00:41:59,240 --> 00:41:56,220  
these so we'll just go ahead and skip

952  
00:42:01,819 --> 00:41:59,250  
over those if he already if I already

953  
00:42:04,880 --> 00:42:01,829  
asked you those questions one of the

954  
00:42:06,170 --> 00:42:04,890  
question says has the finished nimitz

955  
00:42:09,710 --> 00:42:06,180  
encounter movie exceeded your

956  
00:42:13,790 --> 00:42:09,720  
expectations going in oh yeah absolutely

957  
00:42:17,270 --> 00:42:13,800  
you know I mean I'm up to 1.8 knowing

958  
00:42:19,550 --> 00:42:17,280  
views on YouTube this week of you know I

959  
00:42:23,030 --> 00:42:19,560  
mean I never expected it to be that

960  
00:42:26,240 --> 00:42:23,040  
popular I've I've received you know

961  
00:42:29,270 --> 00:42:26,250  
calls from around the world and that's

962  
00:42:32,510 --> 00:42:29,280  
that's wild 1.8 million did you say that

963  
00:42:34,760 --> 00:42:32,520

yeah 1.8 million this week Wow okay

964

00:42:37,480 --> 00:42:34,770

would like to also ask you the film

965

00:42:40,520 --> 00:42:37,490

succeeds both in content and technically

966

00:42:42,290 --> 00:42:40,530

CGI's effects slash stock footage at

967

00:42:43,970 --> 00:42:42,300

what point did you realize both these

968

00:42:45,160 --> 00:42:43,980

aspects of the film's were going to be

969

00:42:50,720 --> 00:42:45,170

great

970

00:42:53,380 --> 00:42:50,730

what it was finished yeah when I started

971

00:42:55,849 --> 00:42:53,390

I wasn't too sure I I thought you know

972

00:42:57,890 --> 00:42:55,859

me you know that's what happens a lot of

973

00:43:00,470 --> 00:42:57,900

times in this production world it's like

974

00:43:02,300 --> 00:43:00,480

you start out unsure especially with CGI

975

00:43:06,530 --> 00:43:02,310

that it might look cheesy

976  
00:43:09,050 --> 00:43:06,540  
it might look hokey and kind of fake but

977  
00:43:11,270 --> 00:43:09,060  
the technology is remarkable you know it

978  
00:43:12,920 --> 00:43:11,280  
really is and there are certain scenes

979  
00:43:14,480 --> 00:43:12,930  
in there to people I you know I read the

980  
00:43:16,520 --> 00:43:14,490  
comments they really think it's real and

981  
00:43:18,260 --> 00:43:16,530  
these are people that are on computers

982  
00:43:19,730 --> 00:43:18,270  
and they're like how did you get a shot

983  
00:43:21,620 --> 00:43:19,740  
of the tic-tac you know or something in

984  
00:43:25,160 --> 00:43:21,630  
like you know they really thought it was

985  
00:43:26,329 --> 00:43:25,170  
the real video because the CGI was kind

986  
00:43:29,780 --> 00:43:26,339  
of read it's a photo what they call a

987  
00:43:31,130 --> 00:43:29,790  
photorealistic and they thought that I

988  
00:43:33,710 --> 00:43:31,140

had somehow mean they're like you know

989

00:43:35,809 --> 00:43:33,720

how did you get the the radio recordings

990

00:43:37,579 --> 00:43:35,819

of course I have to preface that and say

991

00:43:39,500 --> 00:43:37,589

yeah but there's like a lot of other

992

00:43:43,880 --> 00:43:39,510

comments or like that is the worst voice

993

00:43:46,280 --> 00:43:43,890

acting I've ever heard in my life but

994

00:43:49,550 --> 00:43:46,290

I'm like alright I'm gonna tell Nancy my

995

00:43:53,750 --> 00:43:49,560

wife that somebody's criticizing her who

996

00:43:57,530 --> 00:43:53,760

you know I always doing I can do I can

997

00:44:00,579 --> 00:43:57,540

do my what's one of the lines way he

998

00:44:04,700 --> 00:44:00,589

says like hey are you guys seeing this

999

00:44:11,220 --> 00:44:08,550

that's it just just curious do you have

1000

00:44:14,370 --> 00:44:11,230

a moderator who takes care of the if

1001  
00:44:16,380 --> 00:44:14,380  
there's 1.8 million views the thousands

1002  
00:44:23,550 --> 00:44:16,390  
upon thousands of comments or do you

1003  
00:44:26,880 --> 00:44:23,560  
just let them have at it well sometime I

1004  
00:44:29,520 --> 00:44:26,890  
mean I have fun with it i insult a lot

1005  
00:44:31,290 --> 00:44:29,530  
of people believe me I mean because you

1006  
00:44:33,750 --> 00:44:31,300  
know how they troll you on YouTube then

1007  
00:44:35,700 --> 00:44:33,760  
for that I I sometimes will sit down

1008  
00:44:39,620 --> 00:44:35,710  
there at night spend a couple hours just

1009  
00:44:41,700 --> 00:44:39,630  
answering every one of those that's

1010  
00:44:44,640 --> 00:44:41,710  
incredible amount of devotion on your

1011  
00:44:46,530 --> 00:44:44,650  
part day okay we're still talking about

1012  
00:44:49,320 --> 00:44:46,540  
Frank here regarding his questions how

1013  
00:44:50,880 --> 00:44:49,330

much have you used cinema4d before this

1014

00:44:52,200 --> 00:44:50,890

film and what were the biggest

1015

00:44:56,610 --> 00:44:52,210

challenges in using it and getting

1016

00:44:58,440 --> 00:44:56,620

things right I've been using it for a

1017

00:45:00,960 --> 00:44:58,450

long time I mean it's part of my

1018

00:45:04,230 --> 00:45:00,970

production arsenal so you know my whole

1019

00:45:08,550 --> 00:45:04,240

career basically I I was always on on

1020

00:45:12,930 --> 00:45:08,560

mats on now the challenges I think of

1021

00:45:15,300 --> 00:45:12,940

doing realistic looking stuff is the

1022

00:45:18,270 --> 00:45:15,310

time invested in the rendering that

1023

00:45:20,280 --> 00:45:18,280

would be what I would say the longer

1024

00:45:23,220 --> 00:45:20,290

that the computer generates one frame

1025

00:45:26,220 --> 00:45:23,230

the better it looks so if I could if I

1026  
00:45:29,040 --> 00:45:26,230  
had forever if I had you know a render

1027  
00:45:31,650 --> 00:45:29,050  
farm they call it with 20 you know

1028  
00:45:33,540 --> 00:45:31,660  
computers churning at the same time I

1029  
00:45:36,180 --> 00:45:33,550  
could do more I didn't have that

1030  
00:45:38,190 --> 00:45:36,190  
resource and I had to like you know dumb

1031  
00:45:41,130 --> 00:45:38,200  
it down a little bit basically the

1032  
00:45:44,370 --> 00:45:41,140  
quality wise you know Hollywood feature

1033  
00:45:46,760 --> 00:45:44,380  
may use those types of processing power

1034  
00:45:49,530 --> 00:45:46,770  
to do really high-end looking

1035  
00:45:52,830 --> 00:45:49,540  
photorealistic stuff but I was able to

1036  
00:45:54,840 --> 00:45:52,840  
cut corners and you know I it did take

1037  
00:45:56,580 --> 00:45:54,850  
me about six months to do all the

1038  
00:45:58,650 --> 00:45:56,590

different stuff so that's the challenge

1039

00:46:01,110 --> 00:45:58,660

it's just the amount of time it takes to

1040

00:46:04,170 --> 00:46:01,120

crank out say five seconds of animation

1041

00:46:07,890 --> 00:46:04,180

might take 10 hours of computing power

1042

00:46:10,470 --> 00:46:07,900

I understood if you had an unlimited

1043

00:46:12,300 --> 00:46:10,480

budget what are some of the things you

1044

00:46:14,010 --> 00:46:12,310

would like to have done in the film but

1045

00:46:17,560 --> 00:46:14,020

could not

1046

00:46:20,830 --> 00:46:17,570

well number one I wouldn't have to use

1047

00:46:22,930 --> 00:46:20,840

synthetic actors that was the one thing

1048

00:46:26,110 --> 00:46:22,940

that I didn't like doing but I didn't

1049

00:46:29,020 --> 00:46:26,120

have a choice that means the in in

1050

00:46:33,100 --> 00:46:29,030

cockpit views I would really love to I

1051  
00:46:34,740 --> 00:46:33,110  
would really love to see you know people

1052  
00:46:37,300 --> 00:46:34,750  
in their flight suits with helmets

1053  
00:46:39,100 --> 00:46:37,310  
oxygen masks inside you know whether

1054  
00:46:40,870 --> 00:46:39,110  
it's green screen or whatever but inside

1055  
00:46:44,800 --> 00:46:40,880  
a cockpit were you actually are doing

1056  
00:46:46,780 --> 00:46:44,810  
these you know actors acting out the

1057  
00:46:48,490 --> 00:46:46,790  
scenes which would be so much more

1058  
00:46:50,710 --> 00:46:48,500  
powerful and I of course would have

1059  
00:46:53,230 --> 00:46:50,720  
really loved to get access to the

1060  
00:46:55,540 --> 00:46:53,240  
vessels the Navy vessels where you know

1061  
00:46:57,370 --> 00:46:55,550  
you commissioned the Navy and say we

1062  
00:46:58,750 --> 00:46:57,380  
want to use one of your vessels that's

1063  
00:47:00,250 --> 00:46:58,760

sitting in port or something like that

1064

00:47:02,440 --> 00:47:00,260

to go on and do some of these

1065

00:47:04,150 --> 00:47:02,450

recreations I mean those are the only

1066

00:47:07,090 --> 00:47:04,160

things that I I wish I could have done

1067

00:47:08,310 --> 00:47:07,100

that there was just no budget to do so

1068

00:47:11,290 --> 00:47:08,320

right

1069

00:47:13,780 --> 00:47:11,300

still Frank's questions can you talk a

1070

00:47:16,030 --> 00:47:13,790

little bit about the first on ship and

1071

00:47:18,160 --> 00:47:16,040

nimitz encounter witness that came

1072

00:47:23,140 --> 00:47:18,170

forward and how did you handle all of

1073

00:47:26,380 --> 00:47:23,150

that you know i think that going back to

1074

00:47:28,720 --> 00:47:26,390

the very beginning you know in 2018 when

1075

00:47:31,090 --> 00:47:28,730

when this first started happening you

1076  
00:47:35,770 --> 00:47:31,100  
know commander framework commander slate

1077  
00:47:37,300 --> 00:47:35,780  
were all on TV I tried to contact all of

1078  
00:47:38,790 --> 00:47:37,310  
them in the beginning I mean that's they

1079  
00:47:42,580 --> 00:47:38,800  
were the only ones that we knew about

1080  
00:47:44,380 --> 00:47:42,590  
commander slate was polite you know when

1081  
00:47:46,120 --> 00:47:44,390  
I got I finally he was the only pilot I

1082  
00:47:50,680 --> 00:47:46,130  
got a hold of he was really polite and

1083  
00:47:52,720 --> 00:47:50,690  
he seemed enthusiastic about talking to

1084  
00:47:55,600 --> 00:47:52,730  
me and he said he would answer any

1085  
00:47:56,920 --> 00:47:55,610  
questions unfortunately the first

1086  
00:47:59,020 --> 00:47:56,930  
question I asked him it was about two

1087  
00:48:01,720 --> 00:47:59,030  
female pilot and I think that was a big

1088  
00:48:03,490 --> 00:48:01,730

mistake as I said before because that

1089

00:48:05,650 --> 00:48:03,500

was like the last question he ever asked

1090

00:48:07,960 --> 00:48:05,660

King he ended up saying that he was busy

1091

00:48:11,620 --> 00:48:07,970

working on contract on contracts and

1092

00:48:13,570 --> 00:48:11,630

ending the conversation so I never got

1093

00:48:15,970 --> 00:48:13,580

any more without it and I've learned a

1094

00:48:19,420 --> 00:48:15,980

lot since then that maybe you should you

1095

00:48:21,280 --> 00:48:19,430

know kind of do softball questions with

1096

00:48:24,220 --> 00:48:21,290

some of these guys first and don't go

1097

00:48:26,500 --> 00:48:24,230

for the jugular or whatever so that I

1098

00:48:27,490 --> 00:48:26,510

learned a lot you know some of the other

1099

00:48:30,160 --> 00:48:27,500

guys that came for

1100

00:48:31,300 --> 00:48:30,170

have been wonderful just the opposite

1101

00:48:34,480 --> 00:48:31,310

that are willing to answer any questions

1102

00:48:36,100 --> 00:48:34,490

and really feel I think humbled by the

1103

00:48:38,200 --> 00:48:36,110

experience and you know that would be

1104

00:48:41,620 --> 00:48:38,210

the guys that have been on the show and

1105

00:48:44,050 --> 00:48:41,630

like Kevin and so on so that's wonderful

1106

00:48:45,820 --> 00:48:44,060

have any fakers try to get through your

1107

00:48:50,650 --> 00:48:45,830

vetting process and how did you figure

1108

00:48:53,860 --> 00:48:50,660

them out no one's gotten through I get a

1109

00:48:57,610 --> 00:48:53,870

lot of emails you know hundreds and

1110

00:49:00,190 --> 00:48:57,620

hundreds of emails and I think that you

1111

00:49:02,320 --> 00:49:00,200

know there are some people that want to

1112

00:49:04,960 --> 00:49:02,330

sort of test the defenses or something

1113

00:49:07,660 --> 00:49:04,970

or they're just you know pranking or

1114

00:49:09,910 --> 00:49:07,670

whatever but no one I mean even in the

1115

00:49:11,950 --> 00:49:09,920

very beginning if someone said I was I

1116

00:49:13,660 --> 00:49:11,960

was on the ship and then I would ask a

1117

00:49:15,790 --> 00:49:13,670

few questions I'd never hear from them

1118

00:49:18,370 --> 00:49:15,800

again whether they really were several

1119

00:49:22,510 --> 00:49:18,380

people claimed that they were you know

1120

00:49:25,600 --> 00:49:22,520

for instance in Patrick squadron and he

1121

00:49:27,910 --> 00:49:25,610

could very quickly you know determine

1122

00:49:29,170 --> 00:49:27,920

that they were not they you know that

1123

00:49:32,560 --> 00:49:29,180

person that would just like kind of

1124

00:49:34,180 --> 00:49:32,570

disappear so so far you know as far as

1125

00:49:37,030 --> 00:49:34,190

I'm concerned the people that we have

1126  
00:49:38,980 --> 00:49:37,040  
are who they say they are understood

1127  
00:49:42,250 --> 00:49:38,990  
this is the last question from Frank

1128  
00:49:44,650 --> 00:49:42,260  
stalter are the other nimitz encounter

1129  
00:49:46,480 --> 00:49:44,660  
witnesses helping in any vetting process

1130  
00:49:48,760 --> 00:49:46,490  
oh this is the second to the last

1131  
00:49:52,600 --> 00:49:48,770  
question I apologize I mean ask again

1132  
00:49:56,170 --> 00:49:52,610  
are the other nimitz encounter witnesses

1133  
00:49:58,570 --> 00:49:56,180  
helping in any vetting process yeah I

1134  
00:50:02,650 --> 00:49:58,580  
mean as I just said you know I think

1135  
00:50:04,810 --> 00:50:02,660  
that when I'm unsure and I want somebody

1136  
00:50:07,900 --> 00:50:04,820  
that has experienced sort of on the

1137  
00:50:10,270 --> 00:50:07,910  
inside that can talk the talk

1138  
00:50:12,460 --> 00:50:10,280

they are gonna know way before me if

1139

00:50:16,710 --> 00:50:12,470

this person who says he had a specific

1140

00:50:21,220 --> 00:50:16,720

job on the ship is who he said he he is

1141

00:50:23,200 --> 00:50:21,230

so as soon as I get that contact going I

1142

00:50:25,810 --> 00:50:23,210

may bring one of the men to help me bet

1143

00:50:28,990 --> 00:50:25,820

the witness understood this is the last

1144

00:50:30,790 --> 00:50:29,000

question from Frank Stoll term what is

1145

00:50:34,680 --> 00:50:30,800

the best thing to have happened to you

1146

00:50:39,210 --> 00:50:34,690

since starting this project Dave

1147

00:50:43,620 --> 00:50:39,220

I think the best thing is all the

1148

00:50:46,760 --> 00:50:43,630

friends that I made I don't think that I

1149

00:50:49,950 --> 00:50:46,770

ever expected to have this group of

1150

00:50:52,440 --> 00:50:49,960

former Navy veterans that I consider my

1151  
00:50:54,750 --> 00:50:52,450  
good friends and you know even one of

1152  
00:50:56,550 --> 00:50:54,760  
them said that I'm their honorary

1153  
00:50:59,340 --> 00:50:56,560  
brother because they all call each other

1154  
00:51:00,690 --> 00:50:59,350  
brothers and I think that they just

1155  
00:51:03,210 --> 00:51:00,700  
appreciate the fact that I've been

1156  
00:51:05,370 --> 00:51:03,220  
honest and forthright with them and

1157  
00:51:08,490 --> 00:51:05,380  
everything that I've tried to do I've

1158  
00:51:11,630 --> 00:51:08,500  
been trying to maintain that those

1159  
00:51:13,980 --> 00:51:11,640  
ethics and so on and Trust basically and

1160  
00:51:16,740 --> 00:51:13,990  
that's kind of the best thing it's just

1161  
00:51:18,630 --> 00:51:16,750  
having these new friends one short

1162  
00:51:20,120 --> 00:51:18,640  
question before I begin some serious

1163  
00:51:22,140 --> 00:51:20,130

other questions

1164

00:51:23,520 --> 00:51:22,150

not that Frank's questions weren't

1165

00:51:26,880 --> 00:51:23,530

serious by the way he's gonna laugh when

1166

00:51:29,640 --> 00:51:26,890

he hears that one short question I have

1167

00:51:32,120 --> 00:51:29,650

for you is how many hours how many

1168

00:51:36,570 --> 00:51:32,130

hundreds of hours did it take for you

1169

00:51:38,640 --> 00:51:36,580

from the very point of the inception of

1170

00:51:41,100 --> 00:51:38,650

the Nimitz Encounter project no matter

1171

00:51:44,430 --> 00:51:41,110

how many different times you have remade

1172

00:51:50,370 --> 00:51:44,440

this documentary up until today have you

1173

00:51:52,260 --> 00:51:50,380

invested on this project you know I try

1174

00:51:55,230 --> 00:51:52,270

to avoid thinking about that because if

1175

00:51:59,100 --> 00:51:55,240

I realize it I would probably think man

1176

00:52:01,920 --> 00:51:59,110

I'm working cheap I should be paying

1177

00:52:04,710 --> 00:52:01,930

myself a lot more because I don't have

1178

00:52:07,070 --> 00:52:04,720

too much to show for that you know but I

1179

00:52:12,390 --> 00:52:07,080

mean I started working at it you know

1180

00:52:15,360 --> 00:52:12,400

January 2018 and you know I finished

1181

00:52:17,220 --> 00:52:15,370

like the last cut I'm still like working

1182

00:52:21,000 --> 00:52:17,230

on it a little but the last one was you

1183

00:52:21,480 --> 00:52:21,010

know in April of this year so how many

1184

00:52:24,300 --> 00:52:21,490

months now

1185

00:52:26,700 --> 00:52:24,310

I mean back when I was really cranking

1186

00:52:29,370 --> 00:52:26,710

away at it I was spending you know

1187

00:52:32,070 --> 00:52:29,380

thousands of hours I know I did I never

1188

00:52:34,530 --> 00:52:32,080

kept a time sheet on it but there's a

1189

00:52:36,840 --> 00:52:34,540

lot of hours in there so just to be more

1190

00:52:39,330 --> 00:52:36,850

direct in my question you could probably

1191

00:52:42,780 --> 00:52:39,340

do a little forensic research on your

1192

00:52:45,809 --> 00:52:42,790

computers and add up at that time

1193

00:52:48,599 --> 00:52:45,819

because it should be logged there right

1194

00:52:50,549 --> 00:52:48,609

yeah okay I could yeah you probably

1195

00:52:52,890 --> 00:52:50,559

could do that okay on to another

1196

00:52:54,809 --> 00:52:52,900

question you and a few key people who

1197

00:52:56,670 --> 00:52:54,819

have the same interests who have a long

1198

00:52:58,650 --> 00:52:56,680

history together when did you both

1199

00:53:02,219 --> 00:52:58,660

connect and start to share a common

1200

00:53:04,709 --> 00:53:02,229

interest in UFOs and I I didn't

1201  
00:53:08,969 --> 00:53:04,719  
understand that one like me and who you

1202  
00:53:10,680 --> 00:53:08,979  
and certain people that might be close

1203  
00:53:13,410 --> 00:53:10,690  
to you regarding the immense encounter

1204  
00:53:16,170 --> 00:53:13,420  
project who have the same interests as

1205  
00:53:17,849 --> 00:53:16,180  
you regarding having a long friendship a

1206  
00:53:19,949 --> 00:53:17,859  
long history of a friendship together

1207  
00:53:22,289 --> 00:53:19,959  
when did you all connect and start to

1208  
00:53:24,779 --> 00:53:22,299  
share a common interest in UFOs do you

1209  
00:53:27,359 --> 00:53:24,789  
have a long friendship with anybody in

1210  
00:53:29,939 --> 00:53:27,369  
the UFO community who has been with you

1211  
00:53:33,439 --> 00:53:29,949  
from the very beginning of the Nimitz

1212  
00:53:36,180 --> 00:53:33,449  
encounter project supported yeah I mean

1213  
00:53:38,009 --> 00:53:36,190

it's an interesting question because you

1214

00:53:41,999 --> 00:53:38,019

know in in our lives I think that we

1215

00:53:44,849 --> 00:53:42,009

have certain synchronicities that happen

1216

00:53:46,829 --> 00:53:44,859

and when you look back across your life

1217

00:53:48,269 --> 00:53:46,839

you might have people that come in and

1218

00:53:52,499 --> 00:53:48,279

out of your life you know one of the

1219

00:53:53,880 --> 00:53:52,509

people that is in my spear right now and

1220

00:53:57,930 --> 00:53:53,890

basically is one of the administrators

1221

00:54:00,599 --> 00:53:57,940

of the group called the a tip group on

1222

00:54:05,249 --> 00:54:00,609

Facebook that I'm in the ministry his

1223

00:54:09,930 --> 00:54:05,259

name his name is Joel Mercia and he has

1224

00:54:12,839 --> 00:54:09,940

a blog called you know UFO Joe so you

1225

00:54:14,910 --> 00:54:12,849

know I've known him for decades we

1226

00:54:18,630 --> 00:54:14,920

basically worked in television back in

1227

00:54:20,819 --> 00:54:18,640

the 90s when I first came to Florida and

1228

00:54:25,469 --> 00:54:20,829

I didn't know at that time he had an

1229

00:54:26,519 --> 00:54:25,479

interest in UFOs you know other than you

1230

00:54:30,269 --> 00:54:26,529

know in passing

1231

00:54:33,839 --> 00:54:30,279

later on I ran into him in Gulf Breeze

1232

00:54:36,689 --> 00:54:33,849

at a UFO conference up there and kind of

1233

00:54:39,180 --> 00:54:36,699

knew Wow and he was doing a newsletter

1234

00:54:40,979 --> 00:54:39,190

at that time as well so I became

1235

00:54:44,699 --> 00:54:40,989

interested in that subscribed to his

1236

00:54:47,219 --> 00:54:44,709

newsletter and so on he went on to be

1237

00:54:49,380 --> 00:54:47,229

the DP at the History Channel's Pawn

1238

00:54:52,559 --> 00:54:49,390

Stars show for many many years and was

1239

00:54:55,920 --> 00:54:52,569

out in Vegas and still out there so he

1240

00:54:57,599 --> 00:54:55,930

came kind of came back into into it you

1241

00:54:59,640 --> 00:54:57,609

know during the whole Nimitz thing in

1242

00:55:02,760 --> 00:54:59,650

the whole two stars thing

1243

00:55:04,980 --> 00:55:02,770

and so we kind of contacted each other

1244

00:55:07,170 --> 00:55:04,990

and you know he's an admitted my group

1245

00:55:11,100 --> 00:55:07,180

and we communicate on the almost daily

1246

00:55:14,940 --> 00:55:11,110

basis we we sort of bounce stuff off

1247

00:55:16,440 --> 00:55:14,950

each other you know and he was there

1248

00:55:18,780 --> 00:55:16,450

when I was talking about the female

1249

00:55:21,120 --> 00:55:18,790

pilot and people were saying I was crazy

1250

00:55:22,620 --> 00:55:21,130

kind of giving me advice so there are

1251

00:55:24,450 --> 00:55:22,630

people like that I think for all of us

1252

00:55:27,630 --> 00:55:24,460

that have been around and you're like

1253

00:55:29,880 --> 00:55:27,640

wow that was unrelated to UFOs back in

1254

00:55:32,850 --> 00:55:29,890

the 90s but now he's in minima occur in

1255

00:55:35,570 --> 00:55:32,860

a minister in like group completely

1256

00:55:39,300 --> 00:55:35,580

unrelated to television in a way

1257

00:55:43,260 --> 00:55:39,310

understood some of these questions are

1258

00:55:46,080 --> 00:55:43,270

from when we put this way a high profile

1259

00:55:48,240 --> 00:55:46,090

person in the UFO community or I will

1260

00:55:50,970 --> 00:55:48,250

not name now if you've already answered

1261

00:55:55,050 --> 00:55:50,980

the question just let me know and we'll

1262

00:55:56,970 --> 00:55:55,060

move on to the next one you recently ran

1263

00:55:59,010 --> 00:55:56,980

into some problems with commander flavor

1264

00:56:01,110 --> 00:55:59,020

over the use of his image in the video I

1265

00:56:03,360 --> 00:56:01,120

believe he not only approved I believe

1266

00:56:05,280 --> 00:56:03,370

he only approved this forty TSA was any

1267

00:56:07,920 --> 00:56:05,290

civil action taken against you for this

1268

00:56:09,510 --> 00:56:07,930

I hope not your work was far better than

1269

00:56:12,120 --> 00:56:09,520

the renderings of the History Channel's

1270

00:56:15,780 --> 00:56:12,130

episode unidentified you already covered

1271

00:56:19,260 --> 00:56:15,790

that isn't that corrected yeah no I mean

1272

00:56:22,200 --> 00:56:19,270

no action basically as I said he asked

1273

00:56:24,540 --> 00:56:22,210

for his interview to be taken out of the

1274

00:56:26,730 --> 00:56:24,550

film I just simply took his interview

1275

00:56:29,730 --> 00:56:26,740

out of the film that was what happened

1276

00:56:31,740 --> 00:56:29,740

so I understood again if there's any

1277

00:56:34,500 --> 00:56:31,750

questions you've all you feel you've

1278

00:56:36,930 --> 00:56:34,510

already answered just let me know this

1279

00:56:38,670 --> 00:56:36,940

is still from a high profile person in

1280

00:56:40,890 --> 00:56:38,680

the community that does not want to be

1281

00:56:43,380 --> 00:56:40,900

named this this is a continuation of

1282

00:56:45,390 --> 00:56:43,390

their questions the Roosevelt case does

1283

00:56:49,320 --> 00:56:45,400

not have the witness testimonies like

1284

00:56:51,360 --> 00:56:49,330

the USS Nimitz had and scu the

1285

00:56:54,630 --> 00:56:51,370

scientific coalition coalition for you

1286

00:56:57,600 --> 00:56:54,640

ApS stated it has not seen enough data

1287

00:57:01,110 --> 00:56:57,610

and sequencing of events for the many

1288

00:57:03,750 --> 00:57:01,120

instances of observations claimed the

1289

00:57:05,760 --> 00:57:03,760

videos go fast and Gimbel lack essential

1290

00:57:08,460 --> 00:57:05,770

data information and any assumptions

1291

00:57:10,770 --> 00:57:08,470

about such things as speed and what

1292

00:57:11,620 --> 00:57:10,780

transpired are insufficient to reach any

1293

00:57:14,230 --> 00:57:11,630

conclusion

1294

00:57:16,750 --> 00:57:14,240

I do not anticipate another one of your

1295

00:57:20,830 --> 00:57:16,760

fine videos until you to get data is

1296

00:57:23,500 --> 00:57:20,840

this corrective yes absolutely

1297

00:57:27,420 --> 00:57:23,510

I mean right now we have witness

1298

00:57:30,520 --> 00:57:27,430

testimony and we have some clear videos

1299

00:57:32,860 --> 00:57:30,530

but we don't have enough information at

1300

00:57:34,600 --> 00:57:32,870

this point to really I mean if you're

1301  
00:57:37,830 --> 00:57:34,610  
talking about a recreation like I did

1302  
00:57:40,090 --> 00:57:37,840  
with the the Nimitz there were multiple

1303  
00:57:42,910 --> 00:57:40,100  
documents that we could source from we

1304  
00:57:44,950 --> 00:57:42,920  
had information from the radar ship you

1305  
00:57:46,660 --> 00:57:44,960  
know we had information from the pilots

1306  
00:57:49,630 --> 00:57:46,670  
we had information from the FLIR we had

1307  
00:57:53,020 --> 00:57:49,640  
all these all these testimonies and so

1308  
00:57:55,270 --> 00:57:53,030  
on to create the story right now the USS

1309  
00:57:57,760 --> 00:57:55,280  
Roosevelt we don't have that we have

1310  
00:57:59,710 --> 00:57:57,770  
some pieces and there's a lot of patch

1311  
00:58:02,200 --> 00:57:59,720  
works that are sort of blank at this

1312  
00:58:04,750 --> 00:58:02,210  
point so I mean maybe in the future I

1313  
00:58:09,820 --> 00:58:04,760

really would love to do one based on the

1314

00:58:11,680 --> 00:58:09,830

the Roosevelt stuff so we'll see I'll

1315

00:58:14,530 --> 00:58:11,690

let you know when his question stopped

1316

00:58:16,270 --> 00:58:14,540

just so you're aware I know that you had

1317

00:58:18,910 --> 00:58:16,280

a wonderful opportunity to be with the

1318

00:58:21,100 --> 00:58:18,920

crew of the ships that must have been

1319

00:58:26,020 --> 00:58:21,110

very rewarding for you what was the most

1320

00:58:28,060 --> 00:58:26,030

rewarding about the Meetup you know

1321

00:58:30,220 --> 00:58:28,070

again I think that that was a good

1322

00:58:32,140 --> 00:58:30,230

question that I kind of covered I think

1323

00:58:35,140 --> 00:58:32,150

I would I would answer it the same way

1324

00:58:37,750 --> 00:58:35,150

that you know just having the the

1325

00:58:40,930 --> 00:58:37,760

friendship basically of these guys and

1326

00:58:42,580 --> 00:58:40,940

being able to hang out with them and

1327

00:58:44,440 --> 00:58:42,590

talk to them and get to know them you

1328

00:58:46,660 --> 00:58:44,450

know just as people not even as

1329

00:58:49,540 --> 00:58:46,670

witnesses really was something that was

1330

00:58:51,250 --> 00:58:49,550

unexpected and you know to me it was

1331

00:58:52,660 --> 00:58:51,260

probably one of the best things also

1332

00:58:57,010 --> 00:58:52,670

it's fair to say that you now have

1333

00:58:59,890 --> 00:58:57,020

friendships for life next question what

1334

00:59:05,320 --> 00:58:59,900

other videos have you done and are being

1335

00:59:07,330 --> 00:59:05,330

planned I am planning to at this point

1336

00:59:11,200 --> 00:59:07,340

the next step for me I do plan on

1337

00:59:14,170 --> 00:59:11,210

releasing the interviews that each of

1338

00:59:16,570 --> 00:59:14,180

the witnesses provided to me I couldn't

1339

00:59:18,340 --> 00:59:16,580

use everything on the film itself so

1340

00:59:19,420 --> 00:59:18,350

there's other content in those

1341

00:59:22,990 --> 00:59:19,430

interviews and I'm going to make those

1342

00:59:25,269 --> 00:59:23,000

available to everybody the the other

1343

00:59:27,509 --> 00:59:25,279

thing that I'm doing is I'm working with

1344

00:59:30,700 --> 00:59:27,519

a wonderful guy that's volunteer

1345

00:59:33,039 --> 00:59:30,710

volunteering his time to help do audio

1346

00:59:34,779 --> 00:59:33,049

sweetening on the program there's you

1347

00:59:38,079 --> 00:59:34,789

know there's some issues with the audio

1348

00:59:40,390 --> 00:59:38,089

track but it's simply because it's a

1349

00:59:42,910 --> 00:59:40,400

low-budget process and I didn't have the

1350

00:59:44,739 --> 00:59:42,920

time and he's taking the time it says

1351  
00:59:47,620 --> 00:59:44,749  
that's what he's doing that for free so

1352  
00:59:49,239 --> 00:59:47,630  
I really appreciate that and you know

1353  
00:59:50,950 --> 00:59:49,249  
once that comes out I'll make sure I

1354  
00:59:54,609 --> 00:59:50,960  
talk about it so that's the next kind of

1355  
00:59:56,680 --> 00:59:54,619  
part of this documentary what is your

1356  
01:00:01,839 --> 00:59:56,690  
long-term goals or objectives with the

1357  
01:00:05,019 --> 01:00:01,849  
UFO subtractor you know right now for me

1358  
01:00:07,239 --> 01:00:05,029  
it's date day today again I do hope to

1359  
01:00:09,910 --> 01:00:07,249  
form that Network that's a long-term

1360  
01:00:11,380 --> 01:00:09,920  
goal the other goals is to continue

1361  
01:00:13,599 --> 01:00:11,390  
looking at some of the cases that are

1362  
01:00:16,269 --> 01:00:13,609  
emerging emerging at this point the

1363  
01:00:17,979 --> 01:00:16,279

Roosevelt case is still emerging trying

1364

01:00:21,940 --> 01:00:17,989

to connect the dots try to find more

1365

01:00:23,979 --> 01:00:21,950

information to FOIA as you know we're

1366

01:00:26,079 --> 01:00:23,989

hoping that this continues that more and

1367

01:00:28,150 --> 01:00:26,089

more this comes forward and that the

1368

01:00:31,299 --> 01:00:28,160

public is more accepting of it the news

1369

01:00:33,640 --> 01:00:31,309

media and so on do you have any reason

1370

01:00:35,380 --> 01:00:33,650

to believe that we will all know more

1371

01:00:37,329 --> 01:00:35,390

about the encounters with the military

1372

01:00:39,069 --> 01:00:37,339

or do you see this as being classified

1373

01:00:44,170 --> 01:00:39,079

and the public getting fed the

1374

01:00:46,599 --> 01:00:44,180

information they want to feed us it

1375

01:00:49,299 --> 01:00:46,609

always seems like it's only what they

1376

01:00:52,059 --> 01:00:49,309

want to feed us and of course you know

1377

01:00:54,249 --> 01:00:52,069

in the case of be a tip in Lewis

1378

01:00:56,710 --> 01:00:54,259

elizondo's resignation and the formation

1379

01:00:59,470 --> 01:00:56,720

of to the stars it seems kind of like an

1380

01:01:03,039 --> 01:00:59,480

anomaly in itself it doesn't seem like

1381

01:01:05,410 --> 01:01:03,049

the normal status quo you know even with

1382

01:01:09,009 --> 01:01:05,420

the civilian research efforts such as

1383

01:01:11,620 --> 01:01:09,019

you know bass with Robert Bigelow and in

1384

01:01:14,950 --> 01:01:11,630

that group all of that information that

1385

01:01:17,019 --> 01:01:14,960

went into that studies is not available

1386

01:01:20,289 --> 01:01:17,029

to anybody else it doesn't benefit the

1387

01:01:24,309 --> 01:01:20,299

public I would like to see more of this

1388

01:01:27,400 --> 01:01:24,319

go into the academic world like the SCU

1389

01:01:31,720 --> 01:01:27,410

you know the scientific coalition you ap

1390

01:01:33,999 --> 01:01:31,730

study and I think that that if Congress

1391

01:01:36,430 --> 01:01:34,009

can get involved and they can do

1392

01:01:38,210 --> 01:01:36,440

briefings and so on that fundings should

1393

01:01:40,010 --> 01:01:38,220

be allocated not only

1394

01:01:43,130 --> 01:01:40,020

to the military and defense budgets but

1395

01:01:44,570 --> 01:01:43,140

to academic research grants because we

1396

01:01:46,849 --> 01:01:44,580

need to figure this out we don't just

1397

01:01:49,250 --> 01:01:46,859

need to build weapon systems to defend

1398

01:01:52,310 --> 01:01:49,260

against it I mean that's one way of

1399

01:01:55,040 --> 01:01:52,320

thinking but why not why not put money

1400

01:01:56,839 --> 01:01:55,050

into scientific study of it there's a

1401

01:01:59,990 --> 01:01:56,849

lot of really good minds out there that

1402

01:02:03,410 --> 01:02:00,000

might be able to figure this out this is

1403

01:02:05,900 --> 01:02:03,420

the last one reporting from the

1404

01:02:07,030 --> 01:02:05,910

high-profile individual that had his set

1405

01:02:10,520 --> 01:02:07,040

of questions for you

1406

01:02:12,349 --> 01:02:10,530

reporting UFOs is the only first part of

1407

01:02:15,050 --> 01:02:12,359

the is only the first part of the

1408

01:02:18,740 --> 01:02:15,060

process the second part is investigating

1409

01:02:20,839 --> 01:02:18,750

claims and eliminating IFOS do you

1410

01:02:25,609 --> 01:02:20,849

believe the Navy and Air Force will

1411

01:02:28,660 --> 01:02:25,619

conduct investigations I think that they

1412

01:02:31,550 --> 01:02:28,670

probably will with their own pilots and

1413

01:02:33,410 --> 01:02:31,560

service members that have significant

1414

01:02:35,750 --> 01:02:33,420

encounters I do believe that they will

1415

01:02:38,720 --> 01:02:35,760

and who's to say that they haven't in

1416

01:02:41,060 --> 01:02:38,730

the past you know I mean I think that

1417

01:02:44,450 --> 01:02:41,070

that's hidden from the public I mean if

1418

01:02:47,329 --> 01:02:44,460

a military pilot you know now you know I

1419

01:02:48,920 --> 01:02:47,339

I have to say that some of these guys

1420

01:02:50,780 --> 01:02:48,930

from the Nimitz said that they have

1421

01:02:53,660 --> 01:02:50,790

reported it and no one seemed to care so

1422

01:02:56,000 --> 01:02:53,670

again I can't be sure that I'm not privy

1423

01:02:58,060 --> 01:02:56,010

to that information I do hope that they

1424

01:03:01,400 --> 01:02:58,070

do take it seriously I hope that they

1425

01:03:03,920 --> 01:03:01,410

investigate the reports from their

1426

01:03:06,050 --> 01:03:03,930

pilots and I hope that they continue to

1427

01:03:09,230 --> 01:03:06,060

eliminate the ones that are I oppose for

1428

01:03:12,380 --> 01:03:09,240

instance I think that there should be

1429

01:03:14,990 --> 01:03:12,390

some way for the public as well to

1430

01:03:18,109 --> 01:03:15,000

report things at this point as you know

1431

01:03:19,849 --> 01:03:18,119

there really is no official program if

1432

01:03:21,800 --> 01:03:19,859

you try to report something people are

1433

01:03:24,079 --> 01:03:21,810

very frustrated even if they see

1434

01:03:26,300 --> 01:03:24,089

something significant say near an

1435

01:03:29,390 --> 01:03:26,310

airport or something that they feel as a

1436

01:03:32,570 --> 01:03:29,400

safety issue unless it's you know I mean

1437

01:03:35,450 --> 01:03:32,580

I don't know that if you call in a

1438

01:03:36,800 --> 01:03:35,460

report that you would just be told to if

1439

01:03:39,470 --> 01:03:36,810

you call the police they would tell you

1440

01:03:40,670 --> 01:03:39,480

to call the Air Force and call the Air

1441

01:03:42,470 --> 01:03:40,680

Force they would tell you to call the

1442

01:03:45,020 --> 01:03:42,480

police then finally anyway tell you to

1443

01:03:47,770 --> 01:03:45,030

calm you thought in the end or they

1444

01:03:51,400 --> 01:03:47,780

might tell you to call Peter Davenport

1445

01:03:55,390 --> 01:03:51,410

so so yeah I mean I

1446

01:03:58,420 --> 01:03:55,400

I really should create an agency you

1447

01:04:00,910 --> 01:03:58,430

know I'm not sure if it's under NASA or

1448

01:04:03,700 --> 01:04:00,920

what what department but there should be

1449

01:04:05,260 --> 01:04:03,710

some office that's it handles it you

1450

01:04:07,599 --> 01:04:05,270

know we don't have Project Blue Book

1451

01:04:12,279 --> 01:04:07,609

anymore so I think it's about time

1452

01:04:13,900 --> 01:04:12,289

now Tom Whitmore formerly have moved on

1453

01:04:15,430 --> 01:04:13,910

I believe he may have returned from that

1454

01:04:19,779 --> 01:04:15,440

organization I'll have to double check

1455

01:04:23,230 --> 01:04:19,789

on that but Tom Whitmore he wants to

1456

01:04:25,720 --> 01:04:23,240

know a what if any parties confiscated

1457

01:04:28,390 --> 01:04:25,730

information regarding the incidents from

1458

01:04:34,390 --> 01:04:28,400

the ship government agency and her

1459

01:04:38,799 --> 01:04:34,400

department you know the guys that handed

1460

01:04:43,029 --> 01:04:38,809

over the stuff namely Gary Ortiz and

1461

01:04:45,640 --> 01:04:43,039

Patrick you know Hughes said that they

1462

01:04:47,289 --> 01:04:45,650

didn't recognize the guys that took it

1463

01:04:49,630 --> 01:04:47,299

they of course their chain of command

1464

01:04:53,910 --> 01:04:49,640

that we're leading these guys into their

1465

01:04:55,930 --> 01:04:53,920

spaces to retrieve the classified data

1466

01:04:58,930 --> 01:04:55,940

they knew them because that was their

1467

01:05:00,549 --> 01:04:58,940

CEO but the guys in tow Patrick says

1468

01:05:03,309 --> 01:05:00,559

they were United States Air Force

1469

01:05:05,470 --> 01:05:03,319

officers he recognized the insignia but

1470

01:05:07,839 --> 01:05:05,480

he didn't recognize any other unit or

1471

01:05:10,569 --> 01:05:07,849

anything like that gary said the guys

1472

01:05:13,779 --> 01:05:10,579

that came aboard were just plainclothes

1473

01:05:16,150 --> 01:05:13,789

guys so at this point we don't know who

1474

01:05:18,640 --> 01:05:16,160

they were or what their intentions were

1475

01:05:24,490 --> 01:05:18,650

wouldn't it be safe to say or assume

1476

01:05:27,190 --> 01:05:24,500

that it could not just have been any Joe

1477

01:05:28,870 --> 01:05:27,200

off the street that it definitely would

1478

01:05:31,660 --> 01:05:28,880

have had to have been a government

1479

01:05:34,299 --> 01:05:31,670

related party of folks who went in there

1480

01:05:36,730 --> 01:05:34,309

to gather this information and take it

1481

01:05:38,500 --> 01:05:36,740

away because how could that information

1482

01:05:42,339 --> 01:05:38,510

have leaked to the public so that folks

1483

01:05:44,859 --> 01:05:42,349

could then disguise himself so to speak

1484

01:05:49,180 --> 01:05:44,869

as officials when they're not or was

1485

01:05:52,630 --> 01:05:49,190

there a possibility of that no both

1486

01:05:55,240 --> 01:05:52,640

individuals both Navy vets said that the

1487

01:05:58,240 --> 01:05:55,250

the people that were there basically

1488

01:06:02,700 --> 01:05:58,250

were with their chain of command I mean

1489

01:06:04,350 --> 01:06:02,710

the commanding officers so you know you

1490

01:06:06,390 --> 01:06:04,360

from from what they said they had

1491

01:06:10,320 --> 01:06:06,400

authority they would have had command

1492

01:06:13,050 --> 01:06:10,330

above the people on the ship now what

1493

01:06:14,460 --> 01:06:13,060

those vetting processes are for for that

1494

01:06:17,070 --> 01:06:14,470

type of thing you know

1495

01:06:22,190 --> 01:06:17,080

boarding a military ship and so on I'm

1496

01:06:27,860 --> 01:06:24,960

another question concerning the water

1497

01:06:30,800 --> 01:06:27,870

turbulence indicated in Episode one of

1498

01:06:35,280 --> 01:06:30,810

unidentified was this from an underwater

1499

01:06:37,140 --> 01:06:35,290

UFO in other words us so that was that

1500

01:06:40,680 --> 01:06:37,150

us no question I had wanted to ask you

1501  
01:06:44,190 --> 01:06:40,690  
from Tom Whitmore yeah I mean at this

1502  
01:06:47,360 --> 01:06:44,200  
point we still don't know you know there

1503  
01:06:51,030 --> 01:06:47,370  
has been conjecture about sonar contacts

1504  
01:06:53,550 --> 01:06:51,040  
during this event but as Gary has

1505  
01:06:55,260 --> 01:06:53,560  
learned recently at least the Princeton

1506  
01:06:57,270 --> 01:06:55,270  
didn't apparently didn't have any

1507  
01:07:01,170 --> 01:06:57,280  
contacts in some of the official

1508  
01:07:03,030 --> 01:07:01,180  
documents the USS Louisville the you

1509  
01:07:06,600 --> 01:07:03,040  
know Los Angeles class attack submarine

1510  
01:07:10,560 --> 01:07:06,610  
that was there in the strike group did

1511  
01:07:12,900 --> 01:07:10,570  
not have sonar contacts and the pilots

1512  
01:07:14,570 --> 01:07:12,910  
didn't really see exactly what was under

1513  
01:07:17,610 --> 01:07:14,580

the water if there was something there

1514

01:07:20,790 --> 01:07:17,620

what was causing it so at this point I

1515

01:07:23,310 --> 01:07:20,800

don't think we know Tom's last question

1516

01:07:28,170 --> 01:07:23,320

do you believe the US Navy is capable of

1517

01:07:30,750 --> 01:07:28,180

tracking UFOs underwater yeah I believe

1518

01:07:34,350 --> 01:07:30,760

that they're capable of tracking it I'm

1519

01:07:38,100 --> 01:07:34,360

not entirely convinced there isn't some

1520

01:07:41,300 --> 01:07:38,110

type of program specifically in with the

1521

01:07:43,610 --> 01:07:41,310

submarine service in the Navy that

1522

01:07:46,950 --> 01:07:43,620

doesn't report

1523

01:07:49,710 --> 01:07:46,960

unidentified contacts the term fast

1524

01:07:52,500 --> 01:07:49,720

movers is thrown about around a lot and

1525

01:07:55,640 --> 01:07:52,510

you know in some reports that's an

1526

01:07:58,500 --> 01:07:55,650

official terms official designation of

1527

01:08:01,320 --> 01:07:58,510

these underwater contacts that a

1528

01:08:04,920 --> 01:08:01,330

submarine might have anywhere in the

1529

01:08:07,560 --> 01:08:04,930

world that's traveling at speeds that

1530

01:08:12,120 --> 01:08:07,570

exceed any kind of conventional craft

1531

01:08:13,650 --> 01:08:12,130

that we have just so you know there's

1532

01:08:15,420 --> 01:08:13,660

quite a few people who had wanted to

1533

01:08:16,200 --> 01:08:15,430

talk to you today so I actually could

1534

01:08:17,670 --> 01:08:16,210

not take all of

1535

01:08:19,979 --> 01:08:17,680

their questions because there were so

1536

01:08:21,539 --> 01:08:19,989

many people but I do just have a few

1537

01:08:23,280 --> 01:08:21,549

people left who wanted to ask you

1538

01:08:25,499 --> 01:08:23,290

questions do you have time for that and

1539

01:08:28,110 --> 01:08:25,509

they did want to let you know that this

1540

01:08:29,430 --> 01:08:28,120

will actually be a part two is what

1541

01:08:33,930 --> 01:08:29,440

we're going to do with this so we'll

1542

01:08:36,780 --> 01:08:33,940

have this show on Sunday at noon West

1543

01:08:38,940 --> 01:08:36,790

Coast time with the in the midst

1544

01:08:40,769 --> 01:08:38,950

gentleman and other gentleman that want

1545

01:08:42,360 --> 01:08:40,779

to be able to share their stories and

1546

01:08:44,910 --> 01:08:42,370

then they're going to there's going to

1547

01:08:47,010 --> 01:08:44,920

be a special part to with just you okay

1548

01:08:49,200 --> 01:08:47,020

yeah that sounds good otherwise people

1549

01:08:53,099 --> 01:08:49,210

are going to have to like plan half

1550

01:08:55,079 --> 01:08:53,109

their day to like listen to hope yes so

1551

01:08:57,150 --> 01:08:55,089

I'm gonna go ahead and ask those other

1552

01:08:59,610 --> 01:08:57,160

folks questions right now rabe Rose

1553

01:09:01,620 --> 01:08:59,620

wants to know this with so many people

1554

01:09:04,170 --> 01:09:01,630

reporting a conscious connection either

1555

01:09:07,740 --> 01:09:04,180

before or after an encounter such as

1556

01:09:10,050 --> 01:09:07,750

Kevin day has described I would ask Dave

1557

01:09:12,360 --> 01:09:10,060

if they have experienced something

1558

01:09:16,769 --> 01:09:12,370

similar or asked them do you have any

1559

01:09:19,979 --> 01:09:16,779

input on that yeah you know one thing

1560

01:09:22,860 --> 01:09:19,989

that I didn't expect in the email

1561

01:09:24,749 --> 01:09:22,870

address and you know in the film that I

1562

01:09:28,590 --> 01:09:24,759

asked people to contact me if they've

1563

01:09:31,490 --> 01:09:28,600

had encounters was people contacting me

1564

01:09:36,269 --> 01:09:31,500

that wanted to talk about these

1565

01:09:39,209 --> 01:09:36,279

post-effects I I have had navy and other

1566

01:09:42,630 --> 01:09:39,219

military service branch members contact

1567

01:09:45,690 --> 01:09:42,640

me wanting to talk about that in some

1568

01:09:48,059 --> 01:09:45,700

cases they want to tell me that you know

1569

01:09:51,660 --> 01:09:48,069

the sightings themselves aren't three

1570

01:09:55,140 --> 01:09:51,670

the real thing to focus on that actually

1571

01:09:58,020 --> 01:09:55,150

it's part of something much bigger that

1572

01:09:59,490 --> 01:09:58,030

is gonna be you know happening and you

1573

01:10:02,250 --> 01:09:59,500

know sort of interesting I have an open

1574

01:10:05,910 --> 01:10:02,260

mind I don't you know try to shut these

1575

01:10:07,320 --> 01:10:05,920

people down in any way I'm not sure so

1576

01:10:09,590 --> 01:10:07,330

if somebody's telling me that I'll

1577

01:10:13,200 --> 01:10:09,600

listen to them I've had other people

1578

01:10:15,720 --> 01:10:13,210

that have had sightings profound

1579

01:10:18,630 --> 01:10:15,730

sightings that have said that it's been

1580

01:10:21,270 --> 01:10:18,640

truly troubling to them even all these

1581

01:10:23,090 --> 01:10:21,280

years it could be you know many years

1582

01:10:25,200 --> 01:10:23,100

later that they're still having

1583

01:10:27,470 --> 01:10:25,210

experiences and it's been very troubling

1584

01:10:29,990 --> 01:10:27,480

to them you know you

1585

01:10:33,410 --> 01:10:30,000

I get here's something interesting I I

1586

01:10:37,300 --> 01:10:33,420

get those comments but then I've also

1587

01:10:40,940 --> 01:10:37,310

been contacted by people that you know

1588

01:10:43,850 --> 01:10:40,950

clinical psychologists and people that

1589

01:10:46,640 --> 01:10:43,860

do regression and so on that are saying

1590

01:10:49,729 --> 01:10:46,650

you know hey if you have anybody that

1591

01:10:52,370 --> 01:10:49,739

needs to talk to anybody that is you

1592

01:10:55,460 --> 01:10:52,380

know it needs help I'm willing to help

1593

01:10:58,100 --> 01:10:55,470

so there's sort of both sides of it and

1594

01:10:59,690 --> 01:10:58,110

I found that quite surprising and I

1595

01:11:02,270 --> 01:10:59,700

don't know that the full story isn't

1596

01:11:06,440 --> 01:11:02,280

related to something much bigger you

1597

01:11:08,630 --> 01:11:06,450

know Ray Bros still had more questions

1598

01:11:10,900 --> 01:11:08,640

added to the above commander faber

1599

01:11:13,460 --> 01:11:10,910

reported seeing a cube within a sphere

1600

01:11:15,170 --> 01:11:13,470

before other eyewitnesses especially

1601

01:11:17,180 --> 01:11:15,180

those pilots who may have got a

1602

01:11:19,520 --> 01:11:17,190

relatively close view did they also

1603

01:11:22,700 --> 01:11:19,530

witness this effect and could this be

1604

01:11:25,310 --> 01:11:22,710

excuse me could the sphere be described

1605

01:11:27,680 --> 01:11:25,320

as a solid object or more of an

1606

01:11:31,070 --> 01:11:27,690

atmospheric anomaly in other words a

1607

01:11:34,280 --> 01:11:31,080

field distortion around the inner object

1608

01:11:37,040 --> 01:11:34,290

with the atom project suggesting

1609

01:11:40,340 --> 01:11:37,050

negative mass field generators could

1610

01:11:44,170 --> 01:11:40,350

this explain the phenomenon well yeah I

1611

01:11:46,820 --> 01:11:44,180

think he's talking about the reports by

1612

01:11:51,020 --> 01:11:46,830

lieutenant graves and a coin of the USS

1613

01:11:52,670 --> 01:11:51,030

Roosevelt 2015 describing them seeing a

1614

01:11:56,080 --> 01:11:52,680

at least I don't think it was them but

1615

01:11:58,700 --> 01:11:56,090

one of their squadron mates seeing a

1616

01:12:02,300 --> 01:11:58,710

sphere that looked like a commis like an

1617

01:12:06,110 --> 01:12:02,310

opaque beach ball that had a cube inside

1618

01:12:07,610 --> 01:12:06,120

of it and that it almost they almost had

1619

01:12:09,820 --> 01:12:07,620

a mid-air collision with this thing it

1620

01:12:13,270 --> 01:12:09,830

like flew between two of their jets now

1621

01:12:15,950 --> 01:12:13,280

what that could be I have no idea

1622

01:12:17,930 --> 01:12:15,960

there's been several people that have

1623

01:12:23,420 --> 01:12:17,940

proposed that this might be some type of

1624

01:12:24,920 --> 01:12:23,430

radar radar balloon it's in use and that

1625

01:12:28,340 --> 01:12:24,930

they just didn't know they weren't aware

1626

01:12:30,410 --> 01:12:28,350

that that was there I have really it

1627

01:12:31,340 --> 01:12:30,420

again this is the the Roosevelt thing

1628

01:12:33,290 --> 01:12:31,350

and I don't think we have enough

1629

01:12:35,120 --> 01:12:33,300

information it's just basically one

1630

01:12:35,630 --> 01:12:35,130

statement we don't even know how big it

1631

01:12:38,240 --> 01:12:35,640

is

1632

01:12:40,700 --> 01:12:38,250

we don't know you know if it was

1633

01:12:42,440 --> 01:12:40,710

rotating if it was glowing there's just

1634

01:12:44,780 --> 01:12:42,450

any questions at this point that need to

1635

01:12:46,970 --> 01:12:44,790

be answered I want to make it clear to

1636

01:12:50,180 --> 01:12:46,980

our Linton listeners what the atom

1637

01:12:52,729 --> 01:12:50,190

project means the dot is affiliated with

1638

01:12:55,550 --> 01:12:52,739

to the Stars Academy of Arts and Science

1639

01:12:57,950 --> 01:12:55,560

the atom research project is an academic

1640

01:12:59,870 --> 01:12:57,960

research program program focused on

1641

01:13:04,700 --> 01:12:59,880

exotic materials for technology

1642

01:13:07,400 --> 01:13:04,710

innovation next question still ray Bros

1643

01:13:09,200 --> 01:13:07,410

with naval and Air Force bases close by

1644

01:13:11,600 --> 01:13:09,210

to the field operations during these

1645

01:13:13,490 --> 01:13:11,610

encounters and days of possible

1646

01:13:15,920 --> 01:13:13,500

notification due to the Princeton's

1647

01:13:18,320 --> 01:13:15,930

tracking days prior to the pilots

1648

01:13:20,540 --> 01:13:18,330

encounters could the Air Force Response

1649

01:13:24,590 --> 01:13:20,550

Team reported as taking the data tapes

1650

01:13:26,540 --> 01:13:24,600

been dispatched from there oh yeah I

1651

01:13:29,780 --> 01:13:26,550

mean there's two parts of that first of

1652

01:13:31,820 --> 01:13:29,790

all absolutely you know it's probably

1653

01:13:34,580 --> 01:13:31,830

San Diego in that area is one of the

1654

01:13:36,860 --> 01:13:34,590

most highly monitored naval warning

1655

01:13:39,680 --> 01:13:36,870

areas and operations areas yeah also

1656

01:13:41,900 --> 01:13:39,690

have the facilities on San Clemente

1657

01:13:45,470 --> 01:13:41,910

Island which is also you know has a

1658

01:13:48,020 --> 01:13:45,480

whole base and radar system there you

1659

01:13:49,760 --> 01:13:48,030

know if something was going on all of

1660

01:13:52,280 --> 01:13:49,770

those different commands are going to be

1661

01:13:54,170 --> 01:13:52,290

aware of it and if indeed they were

1662

01:13:56,780 --> 01:13:54,180

aware of it starting back on the

1663

01:13:58,670 --> 01:13:56,790

November 10th and by the 16th they would

1664

01:14:00,650 --> 01:13:58,680

have been very aware of it and the fact

1665

01:14:03,560 --> 01:14:00,660

that these airplanes were we're seeing

1666

01:14:06,010 --> 01:14:03,570

these things they may have you know come

1667

01:14:08,630 --> 01:14:06,020

right out like a 30 minute hop from

1668

01:14:11,060 --> 01:14:08,640

Naval Air Station

1669

01:14:11,900 --> 01:14:11,070

out there to the ship so I don't see any

1670

01:14:14,209 --> 01:14:11,910

reason why not

1671

01:14:17,209 --> 01:14:14,219

now that the second part of that is in

1672

01:14:21,440 --> 01:14:17,219

these encounters why is it that they all

1673

01:14:24,650 --> 01:14:21,450

seem to be around these Navy operations

1674

01:14:27,530 --> 01:14:24,660

areas like in each case with the

1675

01:14:30,890 --> 01:14:27,540

Roosevelt and the Nimitz events these

1676

01:14:33,979 --> 01:14:30,900

are you know training areas that the

1677

01:14:36,979 --> 01:14:33,989

Navy controls and there's bases and so

1678

01:14:39,950 --> 01:14:36,989

on in those areas you know I start

1679

01:14:41,780 --> 01:14:39,960

thinking well what are some other bases

1680

01:14:43,370 --> 01:14:41,790

what are some other Navy bases on our

1681

01:14:46,070 --> 01:14:43,380

Coast maybe we should start looking

1682

01:14:48,350 --> 01:14:46,080

there because these UFOs seem to be only

1683

01:14:51,290 --> 01:14:48,360

appearing well not only but you know in

1684

01:14:53,310 --> 01:14:51,300

these cases around those areas so if we

1685

01:14:56,790 --> 01:14:53,320

had to predict we should look at other

1686

01:15:00,150 --> 01:14:56,800

similar Navy training areas understood

1687

01:15:02,490 --> 01:15:00,160

last ray bros question was there any

1688

01:15:05,340 --> 01:15:02,500

reporting to the higher command done or

1689

01:15:08,340 --> 01:15:05,350

potential monitoring of chatter those

1690

01:15:11,520 --> 01:15:08,350

days priors two prior to alert what

1691

01:15:14,220 --> 01:15:11,530

surely was a response team Dave was such

1692

01:15:16,620 --> 01:15:14,230

a positive response to your first two

1693

01:15:19,470 --> 01:15:16,630

efforts to document this encounter have

1694

01:15:21,150 --> 01:15:19,480

you been approached to expand upon them

1695

01:15:25,260 --> 01:15:21,160

with professional funding or to produce

1696

01:15:28,230 --> 01:15:25,270

a show of your own you know as far as

1697

01:15:30,030 --> 01:15:28,240

reporting it yeah I do know that the the

1698

01:15:32,070 --> 01:15:30,040

guys on the ships again I can't speak

1699

01:15:36,480 --> 01:15:32,080

for everybody I know that on the

1700

01:15:38,640 --> 01:15:36,490

Princeton Kevin and you know his crew

1701

01:15:41,670 --> 01:15:38,650

there did try to set it up the chain of

1702

01:15:45,150 --> 01:15:41,680

command and for the most part they were

1703

01:15:47,460 --> 01:15:45,160

ignored you know they were told that you

1704

01:15:51,630 --> 01:15:47,470

know it's just ice crystals or something

1705

01:15:55,530 --> 01:15:51,640

like that so you know going back to to

1706

01:15:57,360 --> 01:15:55,540

the Nimitz and the the the the reporting

1707

01:15:59,430 --> 01:15:57,370

of that event I know that I think if

1708

01:16:01,860 --> 01:15:59,440

they go up to fleet and it didn't go any

1709

01:16:04,080 --> 01:16:01,870

further and that information can be

1710

01:16:07,890 --> 01:16:04,090

found and I believe it's the executive

1711

01:16:12,840 --> 01:16:07,900

summary report that is on the Tuda stars

1712

01:16:16,560 --> 01:16:12,850

Academy website no one has offered me a

1713

01:16:18,000 --> 01:16:16,570

film deal I am here if you if you want

1714

01:16:21,360 --> 01:16:18,010

to send me a film do give me a call

1715

01:16:24,090 --> 01:16:21,370

let's talk let's do lunch because we can

1716

01:16:25,620 --> 01:16:24,100

make a film yes sorry wait sorry ray I

1717

01:16:27,480 --> 01:16:25,630

didn't realize there was those were two

1718

01:16:29,460 --> 01:16:27,490

questions there in that last cluster of

1719

01:16:30,900 --> 01:16:29,470

the paragraph that you sent me so I

1720

01:16:33,240 --> 01:16:30,910

apologize for that but yes thank you for

1721

01:16:38,250 --> 01:16:33,250

having answered that Kirk Morgan has a

1722

01:16:40,200 --> 01:16:38,260

question for you perhaps you can maybe

1723

01:16:44,130 --> 01:16:40,210

glean from this sentence what he's

1724

01:16:46,980 --> 01:16:44,140

asking one could be if they had seen any

1725

01:16:49,290 --> 01:16:46,990

anomalies on the older radar systems

1726  
01:16:54,660 --> 01:16:49,300  
maybe he's asking a question there about

1727  
01:16:56,940 --> 01:16:54,670  
older radar systems you know I I'm going

1728  
01:17:00,780 --> 01:16:56,950  
to sort of assume what he's talking

1729  
01:17:02,490 --> 01:17:00,790  
about and in the unidentified program

1730  
01:17:06,600 --> 01:17:02,500  
when they talk about the USS Roosevelt

1731  
01:17:10,050 --> 01:17:06,610  
event the pilots start talking about

1732  
01:17:16,649 --> 01:17:10,060  
seeing objects when they had newer

1733  
01:17:19,560 --> 01:17:16,659  
radars upgraded and the Navy f-18s Super

1734  
01:17:23,160 --> 01:17:19,570  
Hornets did get an upgrade to the radar

1735  
01:17:28,020 --> 01:17:23,170  
system and those began I think around

1736  
01:17:30,570 --> 01:17:28,030  
2005 and this was called the apg 79 AAS

1737  
01:17:34,610 --> 01:17:30,580  
a radar and they were installing these

1738  
01:17:39,270 --> 01:17:34,620

back then so I would assume that the the

1739

01:17:43,800 --> 01:17:39,280

Roosevelt in 2015 2014 had that specific

1740

01:17:45,689 --> 01:17:43,810

radar installed in it it did seem like

1741

01:17:50,850 --> 01:17:45,699

what they were talking about in the show

1742

01:17:52,350 --> 01:17:50,860

is something happen that year that gave

1743

01:17:54,930 --> 01:17:52,360

them this capability and they all

1744

01:17:56,879 --> 01:17:54,940

started seeing stuff that they hadn't

1745

01:17:58,860 --> 01:17:56,889

seen the year before I started

1746

01:18:03,959 --> 01:17:58,870

researching that and I found a

1747

01:18:07,410 --> 01:18:03,969

technology called first infrared search

1748

01:18:09,689 --> 01:18:07,420

and track that was deployed around that

1749

01:18:13,050 --> 01:18:09,699

time and this is a technology I think

1750

01:18:16,680 --> 01:18:13,060

that might have come out of Lockheed or

1751

01:18:18,930 --> 01:18:16,690

Boeing and it's basically an infrared

1752

01:18:21,379 --> 01:18:18,940

sensor that's attached to the centerline

1753

01:18:24,149 --> 01:18:21,389

fuel tank on the Super Hornet jet and

1754

01:18:27,479 --> 01:18:24,159

according to what I researched it said

1755

01:18:29,669 --> 01:18:27,489

it gives the pilots long-range infrared

1756

01:18:32,129 --> 01:18:29,679

scanning and tracking of airborne

1757

01:18:33,660 --> 01:18:32,139

targets and I'm like wow that sounds

1758

01:18:36,840 --> 01:18:33,670

like exactly what could have allowed

1759

01:18:38,970 --> 01:18:36,850

them to maybe start seeing UFOs if they

1760

01:18:41,310 --> 01:18:38,980

suddenly got this new sensor attached to

1761

01:18:44,040 --> 01:18:41,320

their jet in addition to the radar so

1762

01:18:45,840 --> 01:18:44,050

I'm gonna like follow up on that and

1763

01:18:48,419 --> 01:18:45,850

find more information about that sensor

1764

01:18:50,939 --> 01:18:48,429

and see if that you know as we move

1765

01:18:52,680 --> 01:18:50,949

forward in this case becomes true that

1766

01:18:57,090 --> 01:18:52,690

they say yeah that's what allowed us to

1767

01:18:58,649 --> 01:18:57,100

you know track these UFOs these

1768

01:19:01,410 --> 01:18:58,659

questions are from an extremely

1769

01:19:04,890 --> 01:19:01,420

well-known person who is iconic in the

1770

01:19:06,120 --> 01:19:04,900

youth fall G community and I believe

1771

01:19:08,850 --> 01:19:06,130

some of these questions have already

1772

01:19:11,070 --> 01:19:08,860

been answered so let's just go ahead and

1773

01:19:12,930 --> 01:19:11,080

do it this way if you feel you've

1774

01:19:15,600 --> 01:19:12,940

answered them you can just say so and

1775

01:19:18,510 --> 01:19:15,610

I'll move on to the next question

1776

01:19:21,300 --> 01:19:18,520

over the years you have been flying have

1777

01:19:22,560 --> 01:19:21,310

other pilots chatted up encounters with

1778

01:19:28,050 --> 01:19:22,570

a you ApS

1779

01:19:29,700 --> 01:19:28,060

they have had can you repeat that one

1780

01:19:31,290 --> 01:19:29,710

more time like over the years I think

1781

01:19:33,150 --> 01:19:31,300

what he meant I think what he meant to

1782

01:19:36,270 --> 01:19:33,160

ask is over the years you have been

1783

01:19:39,090 --> 01:19:36,280

flying have other pilots chatted you up

1784

01:19:41,940 --> 01:19:39,100

with encounters with you ApS they have

1785

01:19:45,450 --> 01:19:41,950

had well I think that that would be

1786

01:19:47,610 --> 01:19:45,460

probably more you know aimed at one of

1787

01:19:49,530 --> 01:19:47,620

the pilots Heights what he meant yeah

1788

01:19:51,450 --> 01:19:49,540

right because you don't fly isn't that

1789

01:19:55,290 --> 01:19:51,460

good oh yeah and so that's probably what

1790

01:19:57,120 --> 01:19:55,300

he meant that for so uh what he did was

1791

01:20:00,420 --> 01:19:57,130

he wrote a series of questions for me to

1792

01:20:02,220 --> 01:20:00,430

ask folks on the show and I think he he

1793

01:20:04,290 --> 01:20:02,230

rightfully assumed that you were going

1794

01:20:05,850 --> 01:20:04,300

to be on the panel and some of these are

1795

01:20:08,190 --> 01:20:05,860

for you and some of these are for them

1796

01:20:10,200 --> 01:20:08,200

so I'll go ahead and look for the ones

1797

01:20:15,690 --> 01:20:10,210

that could be for you it'll just take a

1798

01:20:19,200 --> 01:20:15,700

moment okay I'll ask you this one are

1799

01:20:21,600 --> 01:20:19,210

you aware of the huge database of pilot

1800

01:20:26,370 --> 01:20:21,610

sightings built up over several decades

1801  
01:20:28,980 --> 01:20:26,380  
by dr. Richard Haines at NASA no I'm not

1802  
01:20:32,190 --> 01:20:28,990  
I mean I'd be interested to definitely

1803  
01:20:36,330 --> 01:20:32,200  
research that though okay the next one

1804  
01:20:38,580 --> 01:20:36,340  
is I know this is a bit sensitive so let

1805  
01:20:40,950 --> 01:20:38,590  
me ask this way are you comfortable with

1806  
01:20:42,540 --> 01:20:40,960  
the explanation these you IPS being

1807  
01:20:47,040 --> 01:20:42,550  
reported are controlled by non-human

1808  
01:20:49,740 --> 01:20:47,050  
intelligence from elsewhere I think that

1809  
01:20:52,170 --> 01:20:49,750  
that's a theory I mean there's many

1810  
01:20:54,450 --> 01:20:52,180  
theories that have been proposed and you

1811  
01:20:57,750 --> 01:20:54,460  
know that's one of them I mean I'm not

1812  
01:21:00,480 --> 01:20:57,760  
at this point I'm sort of a non-biased

1813  
01:21:02,610 --> 01:21:00,490

skeptic that is trying to find answers

1814

01:21:05,070 --> 01:21:02,620

and I don't think that we have the

1815

01:21:07,290 --> 01:21:05,080

answers yet so I think the answers are

1816

01:21:09,720 --> 01:21:07,300

out there we just have to keep looking

1817

01:21:11,670 --> 01:21:09,730

at the observations that are being

1818

01:21:15,480 --> 01:21:11,680

presented to us and eventually if we can

1819

01:21:18,570 --> 01:21:15,490

t continue with that you know that will

1820

01:21:21,780 --> 01:21:18,580

one I hope one day in my life and we'll

1821

01:21:23,790 --> 01:21:21,790

have more answers can you envision a

1822

01:21:26,250 --> 01:21:23,800

full congressional hearing specifically

1823

01:21:28,620 --> 01:21:26,260

for military pilots who have had you ap

1824

01:21:32,310 --> 01:21:28,630

encounters

1825

01:21:35,950 --> 01:21:32,320

well I think that you know if we have a

1826

01:21:38,590 --> 01:21:35,960

significant enough event that that's

1827

01:21:41,140 --> 01:21:38,600

gonna be demanded I mean it depends I

1828

01:21:44,290 --> 01:21:41,150

think at this point I can't really see

1829

01:21:47,350 --> 01:21:44,300

that but perhaps as as we move forward

1830

01:21:49,960 --> 01:21:47,360

with you know the military's reporting

1831

01:21:52,270 --> 01:21:49,970

of these events if this continues and

1832

01:21:54,700 --> 01:21:52,280

there's no sort of explanation if our

1833

01:21:56,440 --> 01:21:54,710

military cannot provide that maybe that

1834

01:21:58,980 --> 01:21:56,450

Congress would get involved is like say

1835

01:22:01,450 --> 01:21:58,990

we need to form a committee we need to

1836

01:22:02,800 --> 01:22:01,460

investigate this we need to get answers

1837

01:22:05,500 --> 01:22:02,810

because this is a matter of national

1838

01:22:08,440 --> 01:22:05,510

security this is a matter of airspace

1839

01:22:10,930 --> 01:22:08,450

safety we have you know civilian jets

1840

01:22:13,000 --> 01:22:10,940

flying crisscross a clock across the

1841

01:22:15,390 --> 01:22:13,010

globe if there's technology out there

1842

01:22:17,860 --> 01:22:15,400

that can shut down for instance a

1843

01:22:19,390 --> 01:22:17,870

civilian aircraft would you want to be

1844

01:22:20,890 --> 01:22:19,400

flying around in this thing we don't

1845

01:22:23,050 --> 01:22:20,900

know what it is actually can shut off a

1846

01:22:25,330 --> 01:22:23,060

jet that you're flying in I don't want

1847

01:22:27,430 --> 01:22:25,340

to be in that chat if this technology is

1848

01:22:30,340 --> 01:22:27,440

out there I want to find out where it's

1849

01:22:32,770 --> 01:22:30,350

coming from how it works you know whose

1850

01:22:35,230 --> 01:22:32,780

technology it is and there should be

1851  
01:22:38,080 --> 01:22:35,240  
congressional inquiry if that happens I

1852  
01:22:39,610 --> 01:22:38,090  
mean did you notice that many articles

1853  
01:22:41,890 --> 01:22:39,620  
published during the last presidential

1854  
01:22:46,680 --> 01:22:41,900  
election about connections between the

1855  
01:22:48,940 --> 01:22:46,690  
Clinton campaign team and you a piece I

1856  
01:22:52,150 --> 01:22:48,950  
you know I looked into that a little bit

1857  
01:22:56,230 --> 01:22:52,160  
I mean there has been some conjecture

1858  
01:23:00,850 --> 01:22:56,240  
that if Clinton was elected her team was

1859  
01:23:03,550 --> 01:23:00,860  
going to press much more into this idea

1860  
01:23:05,320 --> 01:23:03,560  
that the government has UFO information

1861  
01:23:07,900 --> 01:23:05,330  
that's not being you know presented to

1862  
01:23:11,170 --> 01:23:07,910  
the general public and that it would be

1863  
01:23:13,660 --> 01:23:11,180

presented and of course that you know

1864

01:23:16,570 --> 01:23:13,670

that didn't happen she wasn't elected

1865

01:23:17,910 --> 01:23:16,580

and so that that poll ID and program

1866

01:23:20,890 --> 01:23:17,920

never took place

1867

01:23:22,420 --> 01:23:20,900

I'm you know I I would just read about

1868

01:23:24,850 --> 01:23:22,430

it but I don't know too much about it

1869

01:23:27,640 --> 01:23:24,860

are you where'd that billionaire space

1870

01:23:29,680 --> 01:23:27,650

entrepreneur Robert Bigelow stated on 60

1871

01:23:32,460 --> 01:23:29,690

minutes in May of 2017 that

1872

01:23:35,650 --> 01:23:32,470

extraterrestrials are visiting earth now

1873

01:23:39,430 --> 01:23:35,660

that's right yeah I mean I think that is

1874

01:23:40,990 --> 01:23:39,440

a pretty iconic interview for somebody

1875

01:23:43,360 --> 01:23:41,000

that is you know do

1876

01:23:45,790 --> 01:23:43,370

contract work for NASA with the

1877

01:23:48,880 --> 01:23:45,800

inflatable space habitats and the other

1878

01:23:53,430 --> 01:23:48,890

you know you know work that he does for

1879

01:23:56,740 --> 01:23:53,440

US government as you know Robert Bigelow

1880

01:24:01,870 --> 01:23:56,750

was also contracted under the a tip-in a

1881

01:24:04,720 --> 01:24:01,880

SAP programs to study you ApS he seems

1882

01:24:08,410 --> 01:24:04,730

convinced now I don't know that he's

1883

01:24:11,320 --> 01:24:08,420

ever provided an explanation for those

1884

01:24:14,110 --> 01:24:11,330

comments I mean he said he doesn't give

1885

01:24:16,990 --> 01:24:14,120

a damn if anyone believes him or not he

1886

01:24:19,210 --> 01:24:17,000

knows it well you know I think for the

1887

01:24:22,150 --> 01:24:19,220

rest of us maybe we don't have that

1888

01:24:23,620 --> 01:24:22,160

luxury to not give a damn about whether

1889

01:24:25,780 --> 01:24:23,630

somebody believes us or not I mean

1890

01:24:27,490 --> 01:24:25,790

that's why I don't say I know they're

1891

01:24:29,080 --> 01:24:27,500

real because I don't know if he knows

1892

01:24:31,810 --> 01:24:29,090

I'd like to know what his proof is and

1893

01:24:33,520 --> 01:24:31,820

what his evidence well any advanced

1894

01:24:35,770 --> 01:24:33,530

technology of unknown origin is a

1895

01:24:37,600 --> 01:24:35,780

potential threat do you think the u IPS

1896

01:24:39,430 --> 01:24:37,610

you encountered are threat at this time

1897

01:24:42,400 --> 01:24:39,440

that would be for one of the pilots let

1898

01:24:44,350 --> 01:24:42,410

me move on to the next one do you expect

1899

01:24:46,030 --> 01:24:44,360

other pilots and support crew to come

1900

01:24:49,450 --> 01:24:46,040

forward in the near future I think we

1901

01:24:51,640 --> 01:24:49,460

covered that yeah I mean I I hope that

1902

01:24:54,210 --> 01:24:51,650

we have more aircrew that come forward

1903

01:24:57,970 --> 01:24:54,220

if you look at a you know both the

1904

01:25:00,040 --> 01:24:57,980

Roosevelt and you look at the Nimitz for

1905

01:25:02,200 --> 01:25:00,050

instance you have multiple fighter

1906

01:25:05,200 --> 01:25:02,210

squadrons and within each of those

1907

01:25:07,630 --> 01:25:05,210

squadrons you have dozens and dozens of

1908

01:25:10,570 --> 01:25:07,640

pilots and jets and if you're talking

1909

01:25:12,250 --> 01:25:10,580

about you know years of deployment and

1910

01:25:14,080 --> 01:25:12,260

so on there has to be hundreds and

1911

01:25:16,030 --> 01:25:14,090

hundreds there if there's two guys that

1912

01:25:18,490 --> 01:25:16,040

came forward or three guys that came

1913

01:25:20,380 --> 01:25:18,500

forward there's probably hundreds of

1914

01:25:23,530 --> 01:25:20,390

people that have had these encounters we

1915

01:25:25,150 --> 01:25:23,540

just haven't heard from them yet you're

1916

01:25:28,150 --> 01:25:25,160

gonna be very happy when I tell you this

1917

01:25:31,260 --> 01:25:28,160

there's only two questions left one is

1918

01:25:35,280 --> 01:25:31,270

from rice break and one is for myself

1919

01:25:37,540 --> 01:25:35,290

awesome the one from Ryan Sprague is

1920

01:25:39,730 --> 01:25:37,550

just the latest with the gibble and

1921

01:25:42,070 --> 01:25:39,740

go-fast videos is the info on the

1922

01:25:44,140 --> 01:25:42,080

unidentified show aligning with the

1923

01:25:48,100 --> 01:25:44,150

extensive research dave is doing on

1924

01:25:52,580 --> 01:25:48,110

tracking more roosevelt members down

1925

01:25:54,710 --> 01:25:52,590

you know as far as I found from our

1926

01:25:57,770 --> 01:25:54,720

research you know it kind of lined up

1927

01:26:01,010 --> 01:25:57,780

now again we had names of pilots from

1928

01:26:03,230 --> 01:26:01,020

the Roosevelt incident we had Maine made

1929

01:26:06,290 --> 01:26:03,240

contact with them it's my understanding

1930

01:26:09,620 --> 01:26:06,300

that the scu the scientific coalition of

1931

01:26:11,450 --> 01:26:09,630

ethology has had some contact with USS

1932

01:26:14,110 --> 01:26:11,460

Roosevelt personnel I don't know if they

1933

01:26:16,940 --> 01:26:14,120

were pilots or not I'm not privy to that

1934

01:26:18,770 --> 01:26:16,950

particular witness but from what

1935

01:26:21,230 --> 01:26:18,780

everything that I've heard it has all

1936

01:26:23,330 --> 01:26:21,240

lined up I mean I haven't seen anything

1937

01:26:25,820 --> 01:26:23,340

diverged from that I mean nothing in

1938

01:26:30,160 --> 01:26:25,830

unidentified even with the US has

1939

01:26:33,560 --> 01:26:30,170

Princeton you know as far as you know

1940

01:26:37,910 --> 01:26:33,570

the idea of of seeing the objects

1941

01:26:40,610 --> 01:26:37,920

through the big eye on the ships which

1942

01:26:42,740 --> 01:26:40,620

in some ways has been in dispute that's

1943

01:26:46,190 --> 01:26:42,750

been you know shown in that program as

1944

01:26:48,320 --> 01:26:46,200

being factual you know with Sean Cahill

1945

01:26:49,940 --> 01:26:48,330

you know the underwater stuff I mean

1946

01:26:52,490 --> 01:26:49,950

there's a lot of reports of that and

1947

01:26:54,950 --> 01:26:52,500

unidentified as far as underwater UFOs

1948

01:26:58,070 --> 01:26:54,960

being observed especially off the Baja I

1949

01:27:00,800 --> 01:26:58,080

mean Kevin days am account of the

1950

01:27:02,990 --> 01:27:00,810

objects on radar the groups he calls

1951

01:27:06,320 --> 01:27:03,000

them fleets of UFOs or it was raining

1952

01:27:09,320 --> 01:27:06,330

UFOs that's all been you know covered in

1953

01:27:10,670 --> 01:27:09,330

that program yeah I mean everything that

1954

01:27:12,470 --> 01:27:10,680

that I know and everything in my

1955

01:27:15,620 --> 01:27:12,480

document I mean the one thing perhaps

1956

01:27:18,200 --> 01:27:15,630

they don't address and on identify ideas

1957

01:27:21,650 --> 01:27:18,210

these guys coming aboard and taking

1958

01:27:24,530 --> 01:27:21,660

class afire data bricks but you know it

1959

01:27:27,050 --> 01:27:24,540

hasn't been it hasn't been discounted

1960

01:27:29,120 --> 01:27:27,060

either refuted in any way as far as I

1961

01:27:30,890 --> 01:27:29,130

know two things regarding what you said

1962

01:27:32,540 --> 01:27:30,900

and I know you already know this you

1963

01:27:33,410 --> 01:27:32,550

just said this out of habit which I do

1964

01:27:35,660 --> 01:27:33,420

all the time

1965

01:27:37,610 --> 01:27:35,670

this scientific Coalition for ufology

1966

01:27:40,100 --> 01:27:37,620

was changed to scientific coalition for

1967

01:27:42,200 --> 01:27:40,110

you a piece and then the other thing I

1968

01:27:44,060 --> 01:27:42,210

wanted to mention is I will of course be

1969

01:27:46,190 --> 01:27:44,070

coming back to you later to ask for your

1970

01:27:48,110 --> 01:27:46,200

statement on a review of all of the

1971

01:27:50,180 --> 01:27:48,120

History Channel's unidentified shows

1972

01:27:51,830 --> 01:27:50,190

because I know you've been watching them

1973

01:27:53,360 --> 01:27:51,840

and your statement to us is very

1974

01:27:55,550 --> 01:27:53,370

important regarding your reviews of

1975

01:27:57,450 --> 01:27:55,560

those shows the last question I have for

1976

01:28:00,640 --> 01:27:57,460

you Dave is this

1977

01:28:03,100 --> 01:28:00,650

from the point that you started this

1978

01:28:09,070 --> 01:28:03,110

project regarding the nimitz encounter

1979

01:28:12,490 --> 01:28:09,080

and the evolution of it what is your

1980

01:28:16,030 --> 01:28:12,500

takeaway overall and I don't mean just

1981

01:28:18,910 --> 01:28:16,040

with the documentary I mean with the

1982

01:28:21,040 --> 01:28:18,920

natural inclination to want a network to

1983

01:28:25,570 --> 01:28:21,050

find more people to add to the film or

1984

01:28:29,320 --> 01:28:25,580

talk to them the the entire experience

1985

01:28:32,590 --> 01:28:29,330

sort of a panoramic view in every angle

1986

01:28:34,450 --> 01:28:32,600

possible what is your takeaway what have

1987

01:28:37,510 --> 01:28:34,460

you learned from everything that you've

1988

01:28:40,840 --> 01:28:37,520

done regarding the inception of your

1989

01:28:45,520 --> 01:28:40,850

project to now and everything else that

1990

01:28:50,350 --> 01:28:45,530

goes along with it well you know from

1991

01:28:54,400 --> 01:28:50,360

the very beginning I think that I had an

1992

01:28:56,950 --> 01:28:54,410

idea that anyone could do anything that

1993

01:29:00,520 --> 01:28:56,960

they want to do you don't have to ask

1994

01:29:02,740 --> 01:29:00,530

for permission so there may be a group

1995

01:29:05,830 --> 01:29:02,750

that's called to the stars there may be

1996

01:29:09,700 --> 01:29:05,840

a government that's studying this

1997

01:29:13,120 --> 01:29:09,710

phenomena if somebody wants to do their

1998

01:29:15,460 --> 01:29:13,130

own project for instance make a film

1999

01:29:18,880 --> 01:29:15,470

about the event and contact every single

2000

01:29:22,390 --> 01:29:18,890

person and they're not a Hollywood

2001

01:29:26,170 --> 01:29:22,400

studio they're just one person well why

2002

01:29:28,750 --> 01:29:26,180

not no one I didn't ask permission to do

2003

01:29:30,070 --> 01:29:28,760

a film you know if I called somebody I'm

2004

01:29:31,870 --> 01:29:30,080

not saying I'm from The History Channel

2005

01:29:34,330 --> 01:29:31,880

I'm just saying hi I'm Dave I'm doing

2006

01:29:36,400 --> 01:29:34,340

well and you know I think that in some

2007

01:29:38,200 --> 01:29:36,410

ways people expect there's some

2008

01:29:42,310 --> 01:29:38,210

notoriety or there's some kind of

2009

01:29:45,160 --> 01:29:42,320

monetary reward for doing this and

2010

01:29:46,840 --> 01:29:45,170

they're not gonna participate if I'm not

2011

01:29:48,790 --> 01:29:46,850

the government I'm not gonna participate

2012

01:29:49,960 --> 01:29:48,800

I don't want to be in your film because

2013

01:29:52,390 --> 01:29:49,970

you're not the History Channel you're

2014

01:29:54,460 --> 01:29:52,400

not ABC News I have no interest in what

2015

01:29:57,130 --> 01:29:54,470

you're doing because you're nobody well

2016

01:29:59,800 --> 01:29:57,140

I am somebody I'm me and I think anybody

2017

01:30:02,710 --> 01:29:59,810

can do it all you have to do is have the

2018

01:30:04,780 --> 01:30:02,720

willpower you have to have persistence

2019

01:30:07,510 --> 01:30:04,790

you have to have dedication you have to

2020

01:30:08,819 --> 01:30:07,520

put the sweat into any project that

2021

01:30:10,950 --> 01:30:08,829

you're doing and this

2022

01:30:13,500 --> 01:30:10,960

projects a prime example because when I

2023

01:30:15,600 --> 01:30:13,510

started I had nothing and year later I

2024

01:30:16,950 --> 01:30:15,610

have a film with 1.8 million views and

2025

01:30:19,290 --> 01:30:16,960

people some people like it and some

2026

01:30:22,169 --> 01:30:19,300

people don't but you know what can I say

2027

01:30:24,899 --> 01:30:22,179

it's it's something that anyone can do

2028

01:30:27,330 --> 01:30:24,909

and that's like studying this phenomena

2029

01:30:29,609 --> 01:30:27,340

as well if you want to study go study it

2030

01:30:31,649 --> 01:30:29,619

I think anyone can do it and I think

2031

01:30:34,049 --> 01:30:31,659

that's what we need actually to find the

2032

01:30:36,270 --> 01:30:34,059

answers is to have people that are out

2033

01:30:38,040 --> 01:30:36,280

there that have good ideas that our

2034

01:30:39,569 --> 01:30:38,050

interest didn't want to put the time in

2035

01:30:42,919 --> 01:30:39,579

those are the people that are probably

2036

01:30:45,000 --> 01:30:42,929

gonna solve this not some you know

2037

01:30:47,640 --> 01:30:45,010

company out there that's trying to make

2038

01:30:52,470 --> 01:30:47,650

a million dollars you know you manage to

2039

01:30:54,899 --> 01:30:52,480

cover a part of the US policy topic that

2040

01:30:57,359 --> 01:30:54,909

nobody has in the respect that you did

2041

01:31:00,030 --> 01:30:57,369

and I really want to congratulate you on

2042

01:31:02,850 --> 01:31:00,040

your incredible efforts that you have

2043

01:31:05,729 --> 01:31:02,860

put forth and whether you like it or not

2044

01:31:08,490 --> 01:31:05,739

you've become a deeply respected icon in

2045

01:31:11,010 --> 01:31:08,500

the UFO G community I just want to thank

2046

01:31:13,919 --> 01:31:11,020

you for having taken all of that time

2047

01:31:16,500 --> 01:31:13,929

and effort not just on your behalf but

2048

01:31:18,689 --> 01:31:16,510

on all of our behalf to be able to

2049

01:31:20,790 --> 01:31:18,699

represent something so historical and so

2050

01:31:23,700 --> 01:31:20,800

important for all posterity so thank you

2051  
01:31:27,780 --> 01:31:23,710  
so much for having done that and I just

2052  
01:31:29,609 --> 01:31:27,790  
want to extend my gratitude to you well

2053  
01:31:31,680 --> 01:31:29,619  
I mean thank you I appreciate that

2054  
01:31:34,200 --> 01:31:31,690  
chance those are really nice words to

2055  
01:31:36,299 --> 01:31:34,210  
say and you know I mean I don't know

2056  
01:31:38,339 --> 01:31:36,309  
that we we don't congratulate ourselves

2057  
01:31:41,250 --> 01:31:38,349  
enough in this field I mean there's a

2058  
01:31:42,990 --> 01:31:41,260  
lot of negativity out there but I think

2059  
01:31:45,930 --> 01:31:43,000  
that you know anybody that's putting an

2060  
01:31:47,760 --> 01:31:45,940  
effort in and trying to help we're

2061  
01:31:50,780 --> 01:31:47,770  
trying to help finding answers we're

2062  
01:31:54,870 --> 01:31:50,790  
trying to uncover this mystery and

2063  
01:31:57,000 --> 01:31:54,880

understand it and you know shine light

2064

01:31:58,890 --> 01:31:57,010

on it for instance and everybody that's

2065

01:32:01,229 --> 01:31:58,900

doing that I think deserves credit and I

2066

01:32:03,870 --> 01:32:01,239

appreciate you recognising the stuff

2067

01:32:05,729 --> 01:32:03,880

that I'm doing well actually I think

2068

01:32:09,030 --> 01:32:05,739

millions of people have and it wasn't

2069

01:32:11,399 --> 01:32:09,040

just one point eight million one point

2070

01:32:13,530 --> 01:32:11,409

eight million people who saw that video

2071

01:32:17,280 --> 01:32:13,540

and the YouTube channel that you have it

2072

01:32:21,180 --> 01:32:17,290

on but it's also the one and a half

2073

01:32:22,100 --> 01:32:21,190

million people that saw it on Amazon so

2074

01:32:24,560 --> 01:32:22,110

literally

2075

01:32:27,350 --> 01:32:24,570

millions and millions of people have

2076

01:32:29,450 --> 01:32:27,360

watched your documentary repeatedly and

2077

01:32:31,640 --> 01:32:29,460

I would like for you if you don't mind

2078

01:32:33,320 --> 01:32:31,650

to mention the name of your channel so

2079

01:32:35,630 --> 01:32:33,330

that they can actually have the benefit

2080

01:32:39,560 --> 01:32:35,640

and privilege of watching that amazing

2081

01:32:41,990 --> 01:32:39,570

nimitz encounter film sure I mean if you

2082

01:32:45,050 --> 01:32:42,000

go on YouTube and you just punch in the

2083

01:32:47,120 --> 01:32:45,060

nimitz encounters and hit return

2084

01:32:51,320 --> 01:32:47,130

it'll probably show up like right in the

2085

01:32:53,600 --> 01:32:51,330

on the top level of that you know you

2086

01:32:55,610 --> 01:32:53,610

sometimes get it with other links in

2087

01:32:58,250 --> 01:32:55,620

there but that's the one way to find it

2088

01:33:01,490 --> 01:32:58,260

if you go to the website the nimitz

2089

01:33:04,430 --> 01:33:01,500

encounters dot-com you'll also find a

2090

01:33:06,950 --> 01:33:04,440

link there if you're interested in

2091

01:33:11,770 --> 01:33:06,960

downloading the film I've been working

2092

01:33:14,990 --> 01:33:11,780

with John Greenwald of the blackbaud.com

2093

01:33:18,320 --> 01:33:15,000

and he was gracious enough to give me

2094

01:33:20,300 --> 01:33:18,330

space on his high-speed server to host

2095

01:33:23,150 --> 01:33:20,310

the file so if you're interested in

2096

01:33:25,760 --> 01:33:23,160

downloading this the film for instance

2097

01:33:27,380 --> 01:33:25,770

to show people at home or something you

2098

01:33:30,170 --> 01:33:27,390

know or even to put it on your own

2099

01:33:32,960 --> 01:33:30,180

channel which I encourage that's fine

2100

01:33:34,790 --> 01:33:32,970

with me you can download download the

2101

01:33:38,420 --> 01:33:34,800

film there what is the name of your

2102

01:33:40,370 --> 01:33:38,430

channel on YouTube son Nimitz encounters

2103

01:33:41,930 --> 01:33:40,380

I just wanted to make that clear thank

2104

01:33:43,460 --> 01:33:41,940

you Dave for having been on our show

2105

01:33:45,580 --> 01:33:43,470

today I'm very grateful to you and it

2106

01:33:48,620 --> 01:33:45,590

was a privilege and Audia interview deal

2107

01:33:51,590 --> 01:33:48,630

well I appreciate you know the work that

2108

01:33:54,350 --> 01:33:51,600

you're doing Shannon you know Frank as

2109

01:33:56,840 --> 01:33:54,360

well and you know you guys have

2110
