Ramirez gentlemen thanks for joining us

00:01:55,040 --> 00:01:52,920
good afternoon Frank so I know yeah yeah

00:01:57,230 --> 00:01:55,050
let's say let's start with you and give

16
00:02:01,340 --> 00:01:57,240
us a little background about how you got

17
00:02:04,190 --> 00:02:01,350
into all this UFO stuff if you could yes

18
00:02:06,469 --> 00:02:04,200
sir Frank again all of us appreciate

19
00:02:09,499 --> 00:02:06,479
being on your show today along with

20
00:02:13,370 --> 00:02:09,509
Chant who will join us shortly hopefully

21
00:02:19,100 --> 00:02:13,380
in a half hopefully the traffic God's

22
00:02:22,430 --> 00:02:19,110
willing yeah as you mentioned I'm noe

23
00:02:27,380 --> 00:02:22,440
Torres and I'm I live in South Texas on

24
00:02:31,190 --> 00:02:27,390
the border with Mexico and I had been

25
00:02:35,870 --> 00:02:31,200
compiling putting together a book of UFO

26
00:02:39,440 --> 00:02:35,880
cases from Texas and I was doing

27
00:02:41,810 --> 00:02:39,450
searches both in my local libraries and

28
00:02:47,150 --> 00:02:41,820
also online when I ran across this very

29
00:02:52,370 --> 00:02:47,160
interesting story from 1974 in fact 45

30
00:02:55,099 --> 00:02:52,380
years ago today August 25th 1974 where a

31
00:02:58,490 --> 00:02:55,109
mysterious UFO incident happened right

32
00:03:01,250 --> 00:02:58,500
along the texas-mexico border in West

33
00:03:04,970 --> 00:03:01,260
Texas which we will describe more in

34
00:03:06,830 --> 00:03:04,980
detail as the day goes along but about

35
00:03:10,759 --> 00:03:06,840
the only person that was doing research

36
00:03:13,009 --> 00:03:10,769
on that specific cases at the time was a

37
00:03:14,899 --> 00:03:13,019
gentleman who is one of your guests

38
00:03:17,420 --> 00:03:14,909

tonight and as my friend and co-author

39

00:03:20,990 --> 00:03:17,430

Ruben Uriarte

40

00:03:24,770 --> 00:03:21,000

from San Francisco Bay Area so Reuben

41

00:03:27,800 --> 00:03:24,780

and I I contacted him I actually

42

00:03:29,720 --> 00:03:27,810

contacted five or six other people who

43

00:03:31,430 --> 00:03:29,730

had something to say about the case and

44

00:03:32,089 --> 00:03:31,440

he was the one who responded to me

45

00:03:35,149 --> 00:03:32,099

immediately

46

00:03:40,330 --> 00:03:35,159

in fact within a couple of hours of me

47

00:03:44,119 --> 00:03:40,340

sending an email and thus began

48

00:03:48,110 --> 00:03:44,129

correspondence and working together

49

00:03:49,690 --> 00:03:48,120

we've done about close to 10 books now

50

00:03:53,509 --> 00:03:49,700

that we worked on together

51
00:03:56,180 --> 00:03:53,519
collaboratively and but the very first

52
00:03:58,280 --> 00:03:56,190
book was the one about this 1974 case

53
00:04:00,559 --> 00:03:58,290
that we'll be working we'll be talking

54
00:04:04,009 --> 00:04:00,569
about today so that's how it all got

55
00:04:06,319 --> 00:04:04,019
started and we have actually now written

56
00:04:09,410 --> 00:04:06,329
three books about this one case we've

57
00:04:11,110 --> 00:04:09,420
been on several television shows for the

58
00:04:14,690 --> 00:04:11,120
History Channel on the Travel Channel

59
00:04:16,909 --> 00:04:14,700
and so it continues to be a case that is

60
00:04:19,939 --> 00:04:16,919
fascinating because it has a lot of the

61
00:04:22,250 --> 00:04:19,949
same elements as a Roswell UFO crash but

62
00:04:27,409 --> 00:04:22,260
it happened much closer in time to where

63
00:04:29,890 --> 00:04:27,419

we are today 1974 so we'll have

64

00:04:32,620 --> 00:04:29,900

definitely a lot more to say about it

65

00:04:35,960 --> 00:04:32,630

over the course of this program today

66

00:04:37,969 --> 00:04:35,970

got it and Reuben now let's bring you in

67

00:04:41,110 --> 00:04:37,979

and tell us a little bit about your

68

00:04:43,760 --> 00:04:41,120

involvement in UFOs you're also with the

69

00:04:46,010 --> 00:04:43,770

Northern California director for MUFON

70

00:04:48,920 --> 00:04:46,020

is that about right yes the state

71

00:04:55,810 --> 00:04:48,930

director thank you it's a big enough

72

00:05:02,480 --> 00:04:58,909

also I'm connected with international

73

00:05:08,150 --> 00:05:02,490

work I work mostly with and assist other

74

00:05:11,000 --> 00:05:08,160

countries as needed as Titone as Noah

75

00:05:12,710 --> 00:05:11,010

had mentioned it's been 45 years as of

76

00:05:16,330 --> 00:05:12,720

today that this extraordinary event

77

00:05:21,110 --> 00:05:16,340

happened there right across the border

78

00:05:22,850 --> 00:05:21,120

about 40 miles south of Presidio in an

79

00:05:27,620 --> 00:05:22,860

area known as cleome

80

00:05:30,920 --> 00:05:27,630

and we've been real fortunate to network

81

00:05:32,930 --> 00:05:30,930

with a number of investigators

82

00:05:37,820 --> 00:05:32,940

specifically from Mexico we have mr.

83

00:05:40,010 --> 00:05:37,830

Carlos Guzman who is a well-known author

84

00:05:42,230 --> 00:05:40,020

and researcher in Mexico in Latin

85

00:05:44,659 --> 00:05:42,240

America and we've Housel have

86

00:05:47,960 --> 00:05:44,669

collaborated with him several others on

87

00:05:50,749 --> 00:05:47,970

this unique case so it's been been

88

00:05:54,310 --> 00:05:50,759

really very interesting and then of

89

00:05:56,810 --> 00:05:54,320

course having a witness who was there

90

00:06:00,140 --> 00:05:56,820

who experienced something quite

91

00:06:02,600 --> 00:06:00,150

extraordinary is also we're very

92

00:06:06,800 --> 00:06:02,610

fortunate having Tony to meet us on the

93

00:06:09,409 --> 00:06:06,810

show so we really appreciate Frankie and

94

00:06:12,680 --> 00:06:09,419

and chanta having us on on your show

95

00:06:14,779 --> 00:06:12,690

yeah with that just to explain we have a

96

00:06:16,580 --> 00:06:14,789

technical difficulties now and then but

97

00:06:18,920 --> 00:06:16,590

they usually relate to computers and

98

00:06:21,740 --> 00:06:18,930

stream connections and things like that

99

00:06:23,719 --> 00:06:21,750

but today unfortunately her issue was

100

00:06:25,730 --> 00:06:23,729

technical regarding her vehicle so

101
00:06:27,830 --> 00:06:25,740
that's that's where she's at she's stuck

102
00:06:28,610 --> 00:06:27,840
somewhere in Phoenix and she'll be

103
00:06:31,240 --> 00:06:28,620
joining us

104
00:06:35,719 --> 00:06:31,250
hopefully before we wrap up here and

105
00:06:38,779 --> 00:06:35,729
Carlos come on in and tell us a little

106
00:06:41,810 --> 00:06:38,789
bit about yourself and if you guys have

107
00:06:43,969 --> 00:06:41,820
to translate Carlos English is the

108
00:06:46,250 --> 00:06:43,979
second language but we went back and

109
00:06:47,839 --> 00:06:46,260
forth a little bit so Carlos please

110
00:06:49,580 --> 00:06:47,849
introduce yourself to everybody and that

111
00:06:52,279 --> 00:06:49,590
tell us a little bit about yourself

112
00:06:55,460 --> 00:06:52,289
yes thank you very much for this

113
00:06:59,360 --> 00:06:55,470

opportunity and to speak with with you

114

00:07:03,070 --> 00:06:59,370

and your guests well I will be involving

115

00:07:08,450 --> 00:07:03,080

in the UFO researchers in I was very shy

116

00:07:14,050 --> 00:07:08,460

I started to study at around 12 when I

117

00:07:19,790 --> 00:07:14,060

was when I was 12 years old the world

118

00:07:22,909 --> 00:07:19,800

now I am has written about the five six

119

00:07:28,040 --> 00:07:22,919

books about this and the first time that

120

00:07:33,230 --> 00:07:28,050

I heard about the coyame incident was in

121

00:07:36,680 --> 00:07:33,240

the end of the night at that time I I

122

00:07:40,909 --> 00:07:36,690

heard some Mexican researches that live

123

00:07:44,129 --> 00:07:40,919

in Chihuahua Mexico and they said that

124

00:07:53,439 --> 00:07:44,139

something happened in

125

00:07:57,580 --> 00:07:53,449

1974 but until no and and ruined what

126

00:08:01,360 --> 00:07:57,590

more interested in this case I know that

127

00:08:07,360 --> 00:08:01,370

something really had happened and well I

128

00:08:11,370 --> 00:08:07,370

started to look of the if I can find

129

00:08:15,280 --> 00:08:11,380

some news in the newspaper of the

130

00:08:19,529 --> 00:08:15,290

abductee you and I fall and I found some

131

00:08:23,379 --> 00:08:19,539

strange not is that I will comment

132

00:08:25,240 --> 00:08:23,389

during your show and again thank you

133

00:08:27,719 --> 00:08:25,250

very much for this opportunity

134

00:08:31,240 --> 00:08:27,729

oh absolutely thank you and of course

135

00:08:33,100 --> 00:08:31,250

last but not least the the witness to

136

00:08:36,510 --> 00:08:33,110

the case we've got that Tony Ramirez

137

00:08:39,130 --> 00:08:36,520

here and Tony you witnessed this and

138

00:08:41,200 --> 00:08:39,140

tell us a little bit about how these

139

00:08:42,450 --> 00:08:41,210

guys found you and of course welcome to

140

00:08:45,430 --> 00:08:42,460

the show

141

00:08:46,150 --> 00:08:45,440

well thank you very much and I'm honored

142

00:08:52,600 --> 00:08:46,160

to be on your show

143

00:09:00,180 --> 00:08:52,610

and basically you know I didn't witness

144

00:09:04,180 --> 00:09:00,190

the crack the first basically the way I

145

00:09:07,090 --> 00:09:04,190

ran into Rubin and knowing were was I

146

00:09:10,449 --> 00:09:07,100

was listening to do a radio show called

147

00:09:12,820 --> 00:09:10,459

coast to coast and row avid listener of

148

00:09:17,440 --> 00:09:12,830

that program I've always been into UFOs

149

00:09:20,199 --> 00:09:17,450

and stuff like that so I was listening

150

00:09:23,560 --> 00:09:20,209

to the show and and they were talking

151

00:09:28,540 --> 00:09:23,570

about the koyama incident and I recall

152

00:09:31,320 --> 00:09:28,550

then the year that had happened and and

153

00:09:36,220 --> 00:09:31,330

I went wow you know my parents and I

154

00:09:41,190 --> 00:09:36,230

along with my my brothers as far as I

155

00:09:45,100 --> 00:09:41,200

can remember back went to coyame every

156

00:09:46,900 --> 00:09:45,110

as soon as we got out of school within a

157

00:09:52,329 --> 00:09:46,910

couple of days we were on the road and

158

00:09:55,420 --> 00:09:52,339

we spent the entire summer there and you

159

00:09:57,180 --> 00:09:55,430

know so it brought back that memory and

160

00:09:58,890 --> 00:09:57,190

not that I'd forgotten about it

161

00:10:02,430 --> 00:09:58,900

just you know I just went on with my

162

00:10:05,280 --> 00:10:02,440

life after the incident but so I'm

163

00:10:07,230 --> 00:10:05,290

listening to them and and I went poyomi

164

00:10:11,970 --> 00:10:07,240

man that's what we're from you know what

165

00:10:14,100 --> 00:10:11,980

do they bring him out for you know I and

166

00:10:16,320 --> 00:10:14,110

then you know so I called the show and I

167

00:10:19,440 --> 00:10:16,330

got in contact with them I told him my

168

00:10:22,320 --> 00:10:19,450

story on the show and and that's how I

169

00:10:24,450 --> 00:10:22,330

got started so basically it was what

170

00:10:26,670 --> 00:10:24,460

family lived in the area so you went

171

00:10:28,200 --> 00:10:26,680

back during the summer and it hung out

172

00:10:32,430 --> 00:10:28,210

is that that basically it or is it like

173

00:10:34,500 --> 00:10:32,440

a tourist area or our family has a

174

00:10:38,910 --> 00:10:34,510

history there you know we we have a

175

00:10:43,860 --> 00:10:38,920

ranch there that's called in Salcido

176

00:10:45,960 --> 00:10:43,870

and so it's owned by my cousins now but

177

00:10:50,160 --> 00:10:45,970

it originally belonged to my grandfather

178

00:10:54,680 --> 00:10:50,170

and my father was raised there at the

179

00:10:58,950 --> 00:10:54,690

ranch you know he used to days to sell

180

00:11:01,710 --> 00:10:58,960

cheese called us ah that'll they make it

181

00:11:04,050 --> 00:11:01,720

at the ranch and then you know my dad

182

00:11:06,150 --> 00:11:04,060

would go to koyama and salad you know

183

00:11:07,770 --> 00:11:06,160

they'd anytime something happened they

184

00:11:09,750 --> 00:11:07,780

were at for yelling but you know

185

00:11:13,650 --> 00:11:09,760

basically we had family in Qayamat and

186

00:11:17,070 --> 00:11:13,660

then on the ranches and chihuahua part

187

00:11:19,560 --> 00:11:17,080

is so yeah we were always there during

188

00:11:23,310 --> 00:11:19,570

the summers and I was just you know I'd

189

00:11:26,010 --> 00:11:23,320

I was just there enjoying it as a kid as

190

00:11:30,120 --> 00:11:26,020

far back as I can remember you know we

191

00:11:35,040 --> 00:11:30,130

went to oh yeah got it

192

00:11:37,320 --> 00:11:35,050

and noe and Reuben and Carlos how did

193

00:11:38,910 --> 00:11:37,330

you find out about this case yeah I go

194

00:11:42,329 --> 00:11:38,920

ahead no absolutely how did you find out

195

00:11:45,540 --> 00:11:42,339

about this case as I mentioned earlier I

196

00:11:49,380 --> 00:11:45,550

was writing a book kind of collecting a

197

00:11:51,870 --> 00:11:49,390

lot of UFO stories from Texas I had

198

00:11:53,990 --> 00:11:51,880

written some books on local history and

199

00:11:56,850 --> 00:11:54,000

I had always been fascinated by the

200

00:11:58,290 --> 00:11:56,860

paranormal dating back to my childhood

201
00:12:00,540 --> 00:11:58,300
in the 60s

202
00:12:04,560 --> 00:12:00,550
I remember reading lots of books by

203
00:12:07,800 --> 00:12:04,570
Frank Edwards and many of the big

204
00:12:10,269 --> 00:12:07,810
paranormal authors later on Erich von

205
00:12:13,030 --> 00:12:10,279
däniken and his Chariots of the Gods

206
00:12:19,900 --> 00:12:13,040
so that's something that I was always

207
00:12:21,999 --> 00:12:19,910
fascinated by and how did you fight get

208
00:12:33,910 --> 00:12:22,009
your first tip that something happened

209
00:12:36,610 --> 00:12:33,920
in Co Yami hello hello so ok second back

210
00:12:39,400 --> 00:12:36,620
I was it's a funny answer to your

211
00:12:43,389 --> 00:12:39,410
question how I first got wind of this

212
00:12:45,939 --> 00:12:43,399
particular case in 1934 I was doing I

213
00:12:47,769 --> 00:12:45,949

was compiling stories and doing library

214

00:12:52,900 --> 00:12:47,779

research and then I came across a

215

00:12:57,460 --> 00:12:52,910

mention online of a document called the

216

00:13:00,160 --> 00:12:57,470

Deneb report denna de and EB it's a star

217

00:13:04,540 --> 00:13:00,170

system consolation we'll talk more about

218

00:13:11,379 --> 00:13:04,550

as a show goes on but the Deneb report

219

00:13:13,780 --> 00:13:11,389

was a top-secret document or purported

220

00:13:17,799 --> 00:13:13,790

to be a top-secret document that was

221

00:13:22,150 --> 00:13:17,809

smuggled out from the US intelligence

222

00:13:25,809 --> 00:13:22,160

community that mentioned a crash

223

00:13:30,699 --> 00:13:25,819

retrieval recovery operation by the CIA

224

00:13:35,369 --> 00:13:30,709

of a downed flying saucer in the desert

225

00:13:37,990 --> 00:13:35,379

about 20 miles west of Candelaria Texas

226

00:13:42,009 --> 00:13:38,000

just on the other side of the Rio Grande

227

00:13:45,610 --> 00:13:42,019

River which is north of koyama the small

228

00:13:48,790 --> 00:13:45,620

town of oilmen so I saw that became

229

00:13:52,299 --> 00:13:48,800

fascinated by and then coincidentally

230

00:13:55,449 --> 00:13:52,309

the History Channel had a program at

231

00:13:58,960 --> 00:13:55,459

that time called the UFO FILES and I

232

00:14:00,879 --> 00:13:58,970

noticed when I was browsing through the

233

00:14:06,220 --> 00:14:00,889

channel listings that they were going to

234

00:14:07,929 --> 00:14:06,230

talk about the koyama incident and one

235

00:14:10,090 --> 00:14:07,939

of the persons who was being interviewed

236

00:14:14,069 --> 00:14:10,100

for that show was a gentleman from San

237

00:14:16,720 --> 00:14:14,079

Francisco area called mr. Ruben Uriarte

238

00:14:20,769 --> 00:14:16,730

so with that information in mind I

239

00:14:22,570 --> 00:14:20,779

teamed into the show and it was amazing

240

00:14:25,060 --> 00:14:22,580

to hear

241

00:14:28,510 --> 00:14:25,070

we'll be telling the story in great

242

00:14:30,810 --> 00:14:28,520

detail as tonight's show develops but

243

00:14:34,410 --> 00:14:30,820

when I first heard about it I was just

244

00:14:36,880 --> 00:14:34,420

amazed and astounded so I immediately

245

00:14:39,250 --> 00:14:36,890

took note of all the persons who were

246

00:14:43,960 --> 00:14:39,260

interviewed during that in that segment

247

00:14:48,100 --> 00:14:43,970

in that History Channel show UFO FILES

248

00:14:49,480 --> 00:14:48,110

show and one of the the people was Ruben

249

00:14:51,910 --> 00:14:49,490

who died out there

250

00:14:55,660 --> 00:14:51,920

our get our other guest tonight and he

251
00:14:57,940 --> 00:14:55,670
contacted me right away and although

252
00:15:01,090 --> 00:14:57,950
originally I had envisioned writing a

253
00:15:04,210 --> 00:15:01,100
chapter of a larger book eventually

254
00:15:06,220 --> 00:15:04,220
after talking to Ruben and the two of us

255
00:15:08,950 --> 00:15:06,230
working together for several weeks it

256
00:15:11,200 --> 00:15:08,960
became clear that there was enough

257
00:15:15,700 --> 00:15:11,210
material for an entire book which ended

258
00:15:19,090 --> 00:15:15,710
up being a 300 plus page book which we

259
00:15:23,320 --> 00:15:19,100
called Mexico's Roswell the Chihuahua

260
00:15:25,690 --> 00:15:23,330
UFO crash which we released in 2007 so

261
00:15:30,550 --> 00:15:25,700
it's been 12 years since the release of

262
00:15:32,410 --> 00:15:30,560
our book and and that's how that's how

263
00:15:34,660 --> 00:15:32,420

the story developed then other people

264

00:15:37,210 --> 00:15:34,670

became involved when we went we made

265

00:15:41,260 --> 00:15:37,220

several trips down to Qayamat Chihuahua

266

00:15:43,330 --> 00:15:41,270

and we talked to a lot of the

267

00:15:46,210 --> 00:15:43,340

townspeople we interviewed other

268

00:15:49,600 --> 00:15:46,220

researchers such as Carlos Guzman to see

269

00:15:53,500 --> 00:15:49,610

if they could shed additional light on

270

00:15:56,320 --> 00:15:53,510

this rather fascinating case and then

271

00:15:58,480 --> 00:15:56,330

interestingly enough as we'll talk about

272

00:16:00,670 --> 00:15:58,490

more later when we get to that part of

273

00:16:03,490 --> 00:16:00,680

the story we found some witnesses on the

274

00:16:07,000 --> 00:16:03,500

Texas side at the time that this

275

00:16:10,660 --> 00:16:07,010

incident happened who saw several of the

276

00:16:13,750 --> 00:16:10,670

events that are part of the narrative of

277

00:16:18,580 --> 00:16:13,760

the incident itself so on the Texas side

278

00:16:22,300 --> 00:16:18,590

in 1974 we found two eyewitnesses to the

279

00:16:25,480 --> 00:16:22,310

events of the of the crash and retrieval

280

00:16:28,780 --> 00:16:25,490

so that's basically just a quick

281

00:16:31,210 --> 00:16:28,790

timeline without you know specific

282

00:16:33,010 --> 00:16:31,220

details which we will get into shortly

283

00:16:35,740 --> 00:16:33,020

yeah let's say let's get into those

284

00:16:36,260 --> 00:16:35,750

details I tell us about this incident

285

00:16:42,590 --> 00:16:36,270

and

286

00:16:45,290 --> 00:16:42,600

let's start with you there yeah can you

287

00:16:49,480 --> 00:16:45,300

hear me here yep you're just fine okay

288

00:16:54,170 --> 00:16:49,490

yeah as know he was mentioned he saw the

289

00:16:56,600 --> 00:16:54,180

documentary in regards to Mexico's

290

00:16:59,830 --> 00:16:56,610

Roswell effect that was the title of the

291

00:17:02,270 --> 00:16:59,840

documentary and I was working with

292

00:17:04,460 --> 00:17:02,280

several producers from the History

293

00:17:09,350 --> 00:17:04,470

Channel they had contacted me and they

294

00:17:11,960 --> 00:17:09,360

wanted to do a story on UFOs in Mexico

295

00:17:15,800 --> 00:17:11,970

and network with a number of the Mex

296

00:17:17,660 --> 00:17:15,810

investigators but one thing I did not

297

00:17:20,270 --> 00:17:17,670

know was that they were doing a series

298

00:17:22,850 --> 00:17:20,280

of crash retrievals on crash retrievals

299

00:17:25,449 --> 00:17:22,860

and and they had a number of other

300

00:17:29,420 --> 00:17:25,459

countries as well like Russia's Roswell

301
00:17:32,240 --> 00:17:29,430
China's Roswell etcetera and of course

302
00:17:35,630 --> 00:17:32,250
Mexico's Roswell and when they aired

303
00:17:38,180 --> 00:17:35,640
that that's when and I was very

304
00:17:41,500 --> 00:17:38,190
fortunate to be a part of this because

305
00:17:44,780 --> 00:17:41,510
they were looking at having other

306
00:17:46,940 --> 00:17:44,790
researchers that to do the narration but

307
00:17:49,250 --> 00:17:46,950
no no one was available until they asked

308
00:17:51,830 --> 00:17:49,260
me hey Ruben would you be willing to

309
00:17:55,790 --> 00:17:51,840
narrate their ensure your your thoughts

310
00:17:58,550 --> 00:17:55,800
and I said sure and that's how we

311
00:17:59,660 --> 00:17:58,560
connected but noe and I and then as he

312
00:18:02,270 --> 00:17:59,670
had mentioned we've been collaborating

313
00:18:05,780 --> 00:18:02,280

on the number of other crash retrievals

314

00:18:08,690 --> 00:18:05,790

stories and other historical UFO cases

315

00:18:12,320 --> 00:18:08,700

and then we're also been very blessed

316

00:18:17,840 --> 00:18:12,330

with connecting with with researchers

317

00:18:21,110 --> 00:18:17,850

like Carlos Guzman and and so in he's he

318

00:18:23,750 --> 00:18:21,120

has a vast network and connections as

319

00:18:25,970 --> 00:18:23,760

well so it's been it's been quite a

320

00:18:29,060 --> 00:18:25,980

quite a great experience and of course

321

00:18:35,030 --> 00:18:29,070

meeting Tony yeah which we'll go into

322

00:18:38,090 --> 00:18:35,040

into depth the oh no he had mentioned

323

00:18:42,350 --> 00:18:38,100

he's in that either you or I will talk

324

00:18:44,270 --> 00:18:42,360

about the UFO incident yeah let's say it

325

00:18:46,220 --> 00:18:44,280

let's get into all that whoever wants to

326

00:18:48,860 --> 00:18:46,230

start and tell us about what actually

327

00:18:53,100 --> 00:18:51,150

okay Ruben I'm gonna I'm gonna get

328

00:18:57,410 --> 00:18:53,110

started and then you can fill in the

329

00:19:01,850 --> 00:18:57,420

details or step in if I forget your name

330

00:19:05,610 --> 00:19:01,860

so we're talking about August 25th 1974

331

00:19:09,120 --> 00:19:05,620

the evening of it was getting to be

332

00:19:14,070 --> 00:19:09,130

around 9 9 p.m. central time in Texas

333

00:19:16,470 --> 00:19:14,080

and suddenly the radar screens at the

334

00:19:19,830 --> 00:19:16,480

Naval Air Station in Corpus Christi

335

00:19:22,560 --> 00:19:19,840

Texas that's on the Gulf Coast it's

336

00:19:24,240 --> 00:19:22,570

south of Houston it's right along the

337

00:19:26,820 --> 00:19:24,250

water's edge

338

00:19:29,190 --> 00:19:26,830

so the radar screens at the Naval Air

339

00:19:31,920 --> 00:19:29,200

Station in Corpus Christi suddenly light

340

00:19:35,630 --> 00:19:31,930

up with a strange object that was

341

00:19:38,790 --> 00:19:35,640

inbound to Texas from the Gulf of Mexico

342

00:19:43,080 --> 00:19:38,800

at a very high speed over 2,000 miles

343

00:19:48,500 --> 00:19:43,090

per hour and at a very high altitude the

344

00:19:52,440 --> 00:19:48,510

frantic radar operators immediately

345

00:19:53,910 --> 00:19:52,450

sounded the alert thinking that you know

346

00:19:56,070 --> 00:19:53,920

there were only a limited number of

347

00:20:00,570 --> 00:19:56,080

possibilities of what this object could

348

00:20:04,260 --> 00:20:00,580

be and the most worrisome being that it

349

00:20:06,840 --> 00:20:04,270

was some kind of inbound ICBM Corpus

350

00:20:09,660 --> 00:20:06,850

Christi is a major port town a major

351
00:20:14,130 --> 00:20:09,670
port city in Texas a lot of shipping

352
00:20:16,710 --> 00:20:14,140
goes in and out so it was more likely

353
00:20:19,770 --> 00:20:16,720
than not a primary target of the

354
00:20:25,860 --> 00:20:19,780
Russians of the Soviet Union at that

355
00:20:27,690 --> 00:20:25,870
time in 74 and so that would explain why

356
00:20:30,240 --> 00:20:27,700
there was a lot of concern when this

357
00:20:35,190 --> 00:20:30,250
object was seen inbound on the radar

358
00:20:37,590 --> 00:20:35,200
screens as these guys watched the object

359
00:20:39,870 --> 00:20:37,600
suddenly made a 90-degree angle turned

360
00:20:42,240 --> 00:20:39,880
to the south so in other words it was

361
00:20:45,360 --> 00:20:42,250
inbound more or less traveling to the

362
00:20:48,990 --> 00:20:45,370
west toward the Texas coast and then

363
00:20:52,200 --> 00:20:49,000

suddenly Zig zagged and made a 90-degree

364

00:20:55,260 --> 00:20:52,210

angle turn heading south now south in

365

00:20:58,380 --> 00:20:55,270

the Gulf of Mexico still a hundred miles

366

00:21:00,330 --> 00:20:58,390

or so off the Texas coast so it was

367

00:21:01,640 --> 00:21:00,340

essentially skirting the Texas coast

368

00:21:04,520 --> 00:21:01,650

until got down

369

00:21:07,190 --> 00:21:04,530

around Brownsville which is near where I

370

00:21:10,010 --> 00:21:07,200

live I live in the extreme southern part

371

00:21:13,010 --> 00:21:10,020

of Texas and then suddenly it made

372

00:21:15,770 --> 00:21:13,020

another 90-degree angle turn into

373

00:21:18,680 --> 00:21:15,780

northern Mexico just just past

374

00:21:21,670 --> 00:21:18,690

Brownsville turned into northern Mexico

375

00:21:25,100 --> 00:21:21,680

that's an extremely sparsely populated

376

00:21:27,740 --> 00:21:25,110

area of Mexico it's an area of Mexico

377

00:21:30,470 --> 00:21:27,750

that over the the years has gotten hit

378

00:21:33,620 --> 00:21:30,480

by a lot of major hurricanes there's not

379

00:21:36,320 --> 00:21:33,630

a lot a large population center anywhere

380

00:21:39,500 --> 00:21:36,330

around there so then the interesting

381

00:21:44,390 --> 00:21:39,510

thing is this object travel it slowed

382

00:21:47,150 --> 00:21:44,400

down and descended and it followed more

383

00:21:49,850 --> 00:21:47,160

or less the course of the Rio Grande

384

00:21:53,780 --> 00:21:49,860

River but on the south side of the

385

00:21:55,160 --> 00:21:53,790

texas-mexico border so it was you know

386

00:21:58,190 --> 00:21:55,170

we're going to not have looked at the

387

00:22:01,010 --> 00:21:58,200

map of this object zigzagging all over

388

00:22:03,470 --> 00:22:01,020

the map after it was first spotted and

389

00:22:05,420 --> 00:22:03,480

we noticed one thing that's very

390

00:22:07,790 --> 00:22:05,430

apparent is that it seemed to be

391

00:22:12,050 --> 00:22:07,800

avoiding all the larger a large

392

00:22:15,740 --> 00:22:12,060

metropolitan order population centers

393

00:22:17,930 --> 00:22:15,750

both in Texas and northern Mexico so and

394

00:22:20,990 --> 00:22:17,940

just a joke just to jump in it's a

395

00:22:23,300 --> 00:22:21,000

roughly maintaining this 2,000 mile an

396

00:22:25,070 --> 00:22:23,310

hour speed which is roughly Mach 3 I

397

00:22:29,600 --> 00:22:25,080

mean that there that's a really quick

398

00:22:34,430 --> 00:22:29,610

accredit it came down to about 12 1212

399

00:22:38,390 --> 00:22:34,440

50 miles per hour and it it came down an

400

00:22:40,940 --> 00:22:38,400

altitude quite a bit I don't remember

401
00:22:45,800 --> 00:22:40,950
exactly I think we were at around

402
00:22:47,930 --> 00:22:45,810
between 40 and 50 thousand feet right

403
00:22:50,210 --> 00:22:47,940
before the incident that we're about to

404
00:22:55,040 --> 00:22:50,220
describe happen but it was descending

405
00:22:58,460 --> 00:22:55,050
and it was slowing down so for those of

406
00:23:00,410 --> 00:22:58,470
you who aren't familiar with the

407
00:23:02,780 --> 00:23:00,420
southern part of Texas there's a number

408
00:23:07,460 --> 00:23:02,790
of military installations all along the

409
00:23:10,010 --> 00:23:07,470
texas-mexico border and throughout the

410
00:23:12,050 --> 00:23:10,020
state of Texas San Antonio which is kind

411
00:23:13,470 --> 00:23:12,060
of in the center dia graphical center of

412
00:23:17,340 --> 00:23:13,480
the state has

413
00:23:20,519 --> 00:23:17,350

five or six major military bases and

414

00:23:22,169 --> 00:23:20,529

then there are bases all around along

415

00:23:26,810 --> 00:23:22,179

the texas-mexico border including

416

00:23:35,970 --> 00:23:31,379

the big Air Force Base in El Paso which

417

00:23:39,870 --> 00:23:35,980

we'll talk about more bliss not not Air

418

00:23:42,930 --> 00:23:39,880

Force but army so all of these military

419

00:23:45,269 --> 00:23:42,940

bases became involved in tracking this

420

00:23:46,860 --> 00:23:45,279

thing as it skirted the Rio Grande River

421

00:23:52,710 --> 00:23:46,870

on the Mexican side

422

00:23:55,230 --> 00:23:52,720

headed north northwest when suddenly at

423

00:24:00,000 --> 00:23:55,240

the same time it's going to be around

424

00:24:02,519 --> 00:24:00,010

10:00 p.m. in Texas and a small aircraft

425

00:24:06,120 --> 00:24:02,529

which we think had two occupants the

426
00:24:10,529 --> 00:24:06,130
pilot and one other person took off from

427
00:24:13,529 --> 00:24:10,539
El Paso International Airport ELP and

428
00:24:17,009 --> 00:24:13,539
was headed south toward Mexico City

429
00:24:20,220 --> 00:24:17,019
well according to our analysis of flight

430
00:24:23,210 --> 00:24:20,230
paths and all that at that time it was

431
00:24:27,810 --> 00:24:23,220
common for planes headed from El Paso to

432
00:24:31,169 --> 00:24:27,820
Mexico City to take the route that we

433
00:24:34,080 --> 00:24:31,179
think was what the plane was taking when

434
00:24:36,539 --> 00:24:34,090
it collided with this object so the

435
00:24:37,980 --> 00:24:36,549
collision between the small plane and a

436
00:24:41,820 --> 00:24:37,990
very fast-moving

437
00:24:46,139 --> 00:24:41,830
UFO which by this time had descended

438
00:24:48,480 --> 00:24:46,149

quite low to where it came into the

439

00:24:51,779 --> 00:24:48,490

flight path of the oncoming plane and

440

00:24:56,789 --> 00:24:51,789

the fiery collision the fireball was

441

00:25:01,220 --> 00:24:56,799

seen over the skies of coyame Chihuahua

442

00:25:04,500 --> 00:25:01,230

Mexico right along the Texas border and

443

00:25:07,740 --> 00:25:04,510

that time was around 10:30 p.m. Texas

444

00:25:10,200 --> 00:25:07,750

time if I can jump in and ask a real toy

445

00:25:12,899 --> 00:25:10,210

real quick question how would did you

446

00:25:14,960 --> 00:25:12,909

find out that that this object was being

447

00:25:18,840 --> 00:25:14,970

tracked on radar

448

00:25:21,210 --> 00:25:18,850

okay that gets back to the Deneb report

449

00:25:23,610 --> 00:25:21,220

which we're going to have more to say

450

00:25:26,310 --> 00:25:23,620

about it appears to have been the work

451
00:25:28,470 --> 00:25:26,320
of a group of military insiders who are

452
00:25:31,590 --> 00:25:28,480
collecting information on major UFO

453
00:25:35,070 --> 00:25:31,600
cases and worse smuggling that

454
00:25:39,330 --> 00:25:35,080
information out from the secret files

455
00:25:41,940 --> 00:25:39,340
that the US government maintains so the

456
00:25:45,000 --> 00:25:41,950
denaburg port tells us that all of this

457
00:25:48,840 --> 00:25:45,010
was being tracked and was being followed

458
00:25:51,030 --> 00:25:48,850
and then it also tells us what happens

459
00:25:51,810 --> 00:25:51,040
next because the debris from both the

460
00:25:53,820 --> 00:25:51,820
craft

461
00:25:56,670 --> 00:25:53,830
well actually the debris from the plane

462
00:26:00,630 --> 00:25:56,680
rained down to the desert below it was

463
00:26:03,900 --> 00:26:00,640

all in small pieces but the ship the UFO

464

00:26:08,580 --> 00:26:03,910

itself crash-landed down in the desert

465

00:26:10,910 --> 00:26:08,590

below in a fairly intact condition by

466

00:26:15,090 --> 00:26:10,920

the time the retrieval teams got there

467

00:26:19,800 --> 00:26:15,100

there were no sign of survivors there

468

00:26:22,980 --> 00:26:19,810

was no sign of entities beings of any

469

00:26:25,110 --> 00:26:22,990

kind associated with the UFO however

470

00:26:33,870 --> 00:26:25,120

this is where Tony Ramirez a story

471

00:26:37,170 --> 00:26:33,880

becomes incredibly important because he

472

00:26:38,970 --> 00:26:37,180

had an encounter at the time shortly

473

00:26:43,400 --> 00:26:38,980

after the crash happened he had an

474

00:26:46,020 --> 00:26:43,410

entity encounter in Toyama mass so one

475

00:26:48,180 --> 00:26:46,030

immediately makes the association with

476

00:26:51,420 --> 00:26:48,190

between this crash and the entities that

477

00:26:53,580 --> 00:26:51,430

he saw as well here they are on but yeah

478

00:26:55,800 --> 00:26:53,590

let's go over to that but that one last

479

00:26:58,080 --> 00:26:55,810

question do we know what happened with

480

00:27:00,300 --> 00:26:58,090

it I'm assuming this is a private plane

481

00:27:03,150 --> 00:27:00,310

that based on the illustration overview

482

00:27:07,140 --> 00:27:03,160

book this is a private plane that was

483

00:27:13,470 --> 00:27:07,150

headed as I said from El Paso to Mexico

484

00:27:16,440 --> 00:27:13,480

City and we have both Carlos Guzman and

485

00:27:19,140 --> 00:27:16,450

well not just Carlos but other Mexican

486

00:27:21,720 --> 00:27:19,150

UFO investigators Ruben and I have all

487

00:27:23,910 --> 00:27:21,730

been on the track for years trying to

488

00:27:27,150 --> 00:27:23,920

determine who was in that plane but we

489

00:27:28,950 --> 00:27:27,160

have unfortunately been unable to find

490

00:27:32,880 --> 00:27:28,960

any information about it it's been

491

00:27:34,950 --> 00:27:32,890

expunged or hidden from view removed

492

00:27:37,169 --> 00:27:34,960

where we're not completely sure what

493

00:27:41,610 --> 00:27:37,179

happened but it's we have not had any

494

00:27:46,650 --> 00:27:41,620

success though this Reuben if I could

495

00:27:49,560 --> 00:27:46,660

just also add to what know he was had

496

00:27:52,200 --> 00:27:49,570

shared with us one of the interesting

497

00:27:55,770 --> 00:27:52,210

parts of this investigation was that

498

00:28:00,000 --> 00:27:55,780

during the time of the UFO crash it was

499

00:28:01,890 --> 00:28:00,010

the next day that the Mexican military

500

00:28:06,090 --> 00:28:01,900

was involved in the search and rescue

501
00:28:08,820 --> 00:28:06,100
and he found this disc as though he had

502
00:28:10,529 --> 00:28:08,830
mentioned can you hear me there right

503
00:28:16,560 --> 00:28:10,539
now you sound great you sound fantastic

504
00:28:21,840 --> 00:28:16,570
keep going okay and so as as know he had

505
00:28:24,180 --> 00:28:21,850
mentioned throughout throughout the this

506
00:28:28,950 --> 00:28:24,190
period that craft was being monitored

507
00:28:31,860 --> 00:28:28,960
and so the US military had sent

508
00:28:33,930 --> 00:28:31,870
surveillance airplanes and spy

509
00:28:37,529 --> 00:28:33,940
satellites to focus on what was

510
00:28:41,669 --> 00:28:37,539
happening and the Mexican military had a

511
00:28:44,159 --> 00:28:41,679
Mexican truck convoy to retrieve the UFO

512
00:28:46,380 --> 00:28:44,169
it was approximately it was small it was

513
00:28:48,289 --> 00:28:46,390

a small disc there was approximately 16

514

00:28:54,690 --> 00:28:48,299

feet diameter and about five feet in

515

00:28:57,779 --> 00:28:54,700

thickness and I so they the Mexican

516

00:29:00,840 --> 00:28:57,789

soldiers were able to put the craft on

517

00:29:07,200 --> 00:29:00,850

the truck and they were departing in a

518

00:29:11,190 --> 00:29:07,210

convoy and then the surveillance plane

519

00:29:14,850 --> 00:29:11,200

notice that the convoy had stopped and

520

00:29:17,760 --> 00:29:14,860

as they were getting closer to with

521

00:29:20,370 --> 00:29:17,770

their cameras they were able to see that

522

00:29:23,430 --> 00:29:20,380

all the soldiers Mexican soldiers were

523

00:29:27,000 --> 00:29:23,440

laying on the ground so immediately

524

00:29:30,240 --> 00:29:27,010

there was a US military helicopter team

525

00:29:31,470 --> 00:29:30,250

that flew out of Fort Bliss that flew

526

00:29:33,539 --> 00:29:31,480

there were about proximately four

527

00:29:37,260 --> 00:29:33,549

helicopters see through they flew from

528

00:29:40,740 --> 00:29:37,270

El Paso along the border and he entered

529

00:29:44,400 --> 00:29:40,750

into Mexican airspace in a little near

530

00:29:46,110 --> 00:29:44,410

town called and ilaria so and the other

531

00:29:48,920 --> 00:29:46,120

thing was that the American soldiers

532

00:29:51,420 --> 00:29:48,930

were wearing protective biological suits

533

00:29:53,520 --> 00:29:51,430

so the US team arrived and they

534

00:29:58,470 --> 00:29:53,530

discovered that all the Mexican soldiers

535

00:30:03,450 --> 00:29:58,480

were dead so the they were able to

536

00:30:06,360 --> 00:30:03,460

gather the at the the debris but they

537

00:30:09,060 --> 00:30:06,370

also attached the UFO to a very large

538

00:30:12,900 --> 00:30:09,070

giant helicopter known as a sea stallion

539

00:30:14,760 --> 00:30:12,910

and it was Rubin dad just to jump in

540

00:30:17,160 --> 00:30:14,770

really quick how many Mexican soldiers

541

00:30:20,910 --> 00:30:17,170

are we talking about here but no I think

542

00:30:24,660 --> 00:30:20,920

we had estimated maybe around possibly a

543

00:30:29,550 --> 00:30:24,670

team of 24 was it but you either a dozen

544

00:30:32,850 --> 00:30:29,560

or two dozen at the at the most but yeah

545

00:30:36,660 --> 00:30:32,860

it was characteristic of deployments at

546

00:30:41,520 --> 00:30:36,670

that time to send out about 20 somewhere

547

00:30:45,300 --> 00:30:41,530

between 20 and 30 men out of that that

548

00:30:48,770 --> 00:30:45,310

base the nearest base would have been in

549

00:30:52,170 --> 00:30:48,780

Chihuahua City Mexican Air Force Base

550

00:30:54,120 --> 00:30:52,180

and what it was was such interesting

551
00:30:58,410 --> 00:30:54,130
again all this information is coming out

552
00:31:02,430 --> 00:30:58,420
of the Deneb report and so they took the

553
00:31:04,110 --> 00:31:02,440
saucer over to an area known as the

554
00:31:07,680 --> 00:31:04,120
Davis Mountains and that's located right

555
00:31:09,420 --> 00:31:07,690
there in West Texas and what does what

556
00:31:11,940 --> 00:31:09,430
the US soldiers did was they gathered

557
00:31:16,110 --> 00:31:11,950
all the dead bodies and all the vehicles

558
00:31:19,620 --> 00:31:16,120
and they destroyed them we think it was

559
00:31:22,020 --> 00:31:19,630
probably due to 14 because the death of

560
00:31:25,680 --> 00:31:22,030
the Mexican soldiers may have been

561
00:31:28,500 --> 00:31:25,690
caused by a virus we've in the reason

562
00:31:31,050 --> 00:31:28,510
why we say that is that in the report

563
00:31:33,810 --> 00:31:31,060

they mentioned that the convoy of trucks

564

00:31:35,970 --> 00:31:33,820

they transported the disc into Atlanta

565

00:31:38,820 --> 00:31:35,980

Georgia and we were wondering what's in

566

00:31:40,770 --> 00:31:38,830

Atlanta Georgia and then we then we we

567

00:31:44,690 --> 00:31:40,780

figure that that is the headquarters of

568

00:31:48,210 --> 00:31:44,700

the agency for Disease Control or CDC

569

00:31:50,370 --> 00:31:48,220

exactly and so we an order to another

570

00:31:54,510 --> 00:31:50,380

military base but as you know they are

571

00:31:57,690 --> 00:31:54,520

really equipped with specialized

572

00:32:00,240 --> 00:31:57,700

like that study these these different

573

00:32:02,190 --> 00:32:00,250

types of virus deadly viruses throughout

574

00:32:04,860 --> 00:32:02,200

the world so we think that's it's all

575

00:32:07,440 --> 00:32:04,870

part of that whole quarantine aspect of

576

00:32:10,560 --> 00:32:07,450

it and now this is a really interesting

577

00:32:13,380 --> 00:32:10,570

time frame to you're talking August of

578

00:32:16,590 --> 00:32:13,390

74 this is and lots going on in the Gulf

579

00:32:19,260 --> 00:32:16,600

because this is maybe within a year of

580

00:32:21,120 --> 00:32:19,270

the pascagoula abduction case I don't

581

00:32:23,220 --> 00:32:21,130

know how from you you guys are with that

582

00:32:25,650 --> 00:32:23,230

but that was a huge case back in those

583

00:32:29,670 --> 00:32:25,660

days so lots going on and the Gulf is a

584

00:32:34,680 --> 00:32:29,680

long bid a very interesting place as far

585

00:32:39,650 --> 00:32:34,690

as UFO sightings so what one of our main

586

00:32:42,900 --> 00:32:39,660

objectives was to go out to coyame and

587

00:32:45,810 --> 00:32:42,910

and see we could find any witnesses and

588

00:32:48,870 --> 00:32:45,820

we went into the smuggle into the town

589

00:32:53,280 --> 00:32:48,880

of coyame and then to the outskirts into

590

00:32:55,800 --> 00:32:53,290

these areas these ranches that Tony will

591

00:32:59,870 --> 00:32:55,810

talk about his ranch or a he dose I

592

00:33:02,970 --> 00:32:59,880

believe is the term and so we began in

593

00:33:04,730 --> 00:33:02,980

talking to people and then what was

594

00:33:08,310 --> 00:33:04,740

really interesting was we also

595

00:33:11,160 --> 00:33:08,320

interviewed people from the US side of

596

00:33:14,940 --> 00:33:11,170

the border and of course the connection

597

00:33:17,490 --> 00:33:14,950

with Tony's experience yeah let's say

598

00:33:19,280 --> 00:33:17,500

let's bring Tony in and tell us your

599

00:33:26,280 --> 00:33:19,290

story Tony

600

00:33:28,890 --> 00:33:26,290

well again I I I recall you know we as

601
00:33:32,310 --> 00:33:28,900
far as I can remember we we always went

602
00:33:36,270 --> 00:33:32,320
to going on it during the summer my

603
00:33:40,560 --> 00:33:36,280
family is from coyame Chihuahua my

604
00:33:46,310 --> 00:33:40,570
family back in those days I still have a

605
00:33:49,230 --> 00:33:46,320
ranch it's it's called and Salcido and

606
00:33:52,530 --> 00:33:49,240
you know what what kind of triggered my

607
00:33:56,610 --> 00:33:52,540
attention was that you know one day I

608
00:33:59,640 --> 00:33:56,620
was watching I believe it was a History

609
00:34:05,340 --> 00:33:59,650
Channel I was I think in the mid 90s or

610
00:34:08,920 --> 00:34:05,350
so and the story or the

611
00:34:11,020 --> 00:34:08,930
the documentary about oh yeah III

612
00:34:11,710 --> 00:34:11,030
remember just hearing the word call

613
00:34:15,910 --> 00:34:11,720

yamanami

614

00:34:17,980 --> 00:34:15,920

well what's going on here you know and I

615

00:34:19,980 --> 00:34:17,990

you know it's just nothing ever happens

616

00:34:23,520 --> 00:34:19,990

in koyama it's a real small town

617

00:34:28,060 --> 00:34:23,530

everybody knew each other and you know

618

00:34:30,310 --> 00:34:28,070

just slows just you know be it was just

619

00:34:34,030 --> 00:34:30,320

fun to be there as far as I was

620

00:34:36,100 --> 00:34:34,040

concerned as as a youth and but what

621

00:34:39,610 --> 00:34:36,110

triggered my attention was that you know

622

00:34:46,170 --> 00:34:39,620

they said it happened in 1974 and I went

623

00:34:48,610 --> 00:34:46,180

I was oh they're around that time and

624

00:34:51,430 --> 00:34:48,620

you know that that that got everything

625

00:34:58,110 --> 00:34:51,440

rolling and basically about what I'll do

626

00:35:02,620 --> 00:34:58,120

is I'll tell my story back in 1974 so I

627

00:35:04,300 --> 00:35:02,630

we went to Coriana on vacation and we

628

00:35:08,800 --> 00:35:04,310

basically spent the whole summer there

629

00:35:12,760 --> 00:35:08,810

and you know along with doing all the

630

00:35:15,340 --> 00:35:12,770

you know things that kids do my thing

631

00:35:20,170 --> 00:35:15,350

was riding horses I loved riding horses

632

00:35:22,090 --> 00:35:20,180

so that morning or that particular day I

633

00:35:25,180 --> 00:35:22,100

don't you know I don't remember exactly

634

00:35:29,680 --> 00:35:25,190

what day it was but I borrowed a horse

635

00:35:33,700 --> 00:35:29,690

from from an uncle and early in the

636

00:35:36,370 --> 00:35:33,710

morning and you know just he saddled it

637

00:35:38,350 --> 00:35:36,380

up for me and my member my mom making me

638

00:35:41,110 --> 00:35:38,360

at lunch because I what I would do is

639

00:35:43,630 --> 00:35:41,120

just right around the town I didn't go

640

00:35:45,580 --> 00:35:43,640

out into the desert or anything you know

641

00:35:50,410 --> 00:35:45,590

I just listened to my mom and she said

642

00:35:52,390 --> 00:35:50,420

just just hang around the town and so

643

00:35:57,660 --> 00:35:52,400

yeah you know I I rode the horse all day

644

00:36:01,930 --> 00:35:57,670

long and then it finally it got dark and

645

00:36:05,260 --> 00:36:01,940

I took the horse back to my my uncle's

646

00:36:07,210 --> 00:36:05,270

house I you know as I was to walk around

647

00:36:09,940 --> 00:36:07,220

I mean there's tarantulas there's all

648

00:36:13,890 --> 00:36:09,950

kinds of stuff so so basically I just

649

00:36:17,920 --> 00:36:13,900

tied the horse to the to the fence

650

00:36:18,450 --> 00:36:17,930

house and went to my aunt my my other

651
00:36:20,670 --> 00:36:18,460
uncle

652
00:36:25,710 --> 00:36:20,680
house where we were staying at the time

653
00:36:27,150 --> 00:36:25,720
and he had a little store and it was you

654
00:36:33,000 --> 00:36:27,160
know just across the street from the

655
00:36:36,990 --> 00:36:33,010
Placita and and across the street from

656
00:36:41,730 --> 00:36:37,000
the the main building or the most

657
00:36:44,250 --> 00:36:41,740
luminous about and so I went home and

658
00:36:48,230 --> 00:36:44,260
and everybody just you know sitting

659
00:36:51,030 --> 00:36:48,240
around eating and having dinner and

660
00:36:55,530 --> 00:36:51,040
shortly thereafter my uncle who I

661
00:36:58,260 --> 00:36:55,540
borrowed a horse from came over and he

662
00:36:59,910 --> 00:36:58,270
was he was really upset you know said

663
00:37:01,620 --> 00:36:59,920

hey you don't just tie the horse you

664

00:37:03,150 --> 00:37:01,630

know the horses have to eat they have to

665

00:37:06,990 --> 00:37:03,160

drink water you have to take the saddle

666

00:37:11,400 --> 00:37:07,000

off and so my dad got upset and he made

667

00:37:12,720 --> 00:37:11,410

me go and take care of the horse and one

668

00:37:14,339 --> 00:37:12,730

of the things that I had to do was go

669

00:37:17,849 --> 00:37:14,349

cut the hay

670

00:37:22,440 --> 00:37:17,859

out in the field now this this happened

671

00:37:26,970 --> 00:37:22,450

Koriyama the the town itself so there's

672

00:37:29,250 --> 00:37:26,980

there's a boat behind the town just to

673

00:37:33,570 --> 00:37:29,260

the north of the town there's a church

674

00:37:36,030 --> 00:37:33,580

there and it leads to the swimming pool

675

00:37:39,920 --> 00:37:36,040

it's a public pool they've had that

676
00:37:46,320 --> 00:37:39,930
there for as far as I can remember and

677
00:37:48,990 --> 00:37:46,330
the the hay was was right across a

678
00:37:51,180 --> 00:37:49,000
little irrigation ditch so I had to jump

679
00:37:53,670 --> 00:37:51,190
over the ditch and then go to the where

680
00:37:58,290 --> 00:37:53,680
the hay was and then just with an eye I

681
00:37:59,420 --> 00:37:58,300
would ask me about 30 to 40 feet maybe

682
00:38:05,700 --> 00:37:59,430
50 feet

683
00:38:09,270 --> 00:38:05,710
there was a corn stalks so you know I

684
00:38:11,609 --> 00:38:09,280
went over there and I had the the I

685
00:38:14,400 --> 00:38:11,619
don't remember what you call the the

686
00:38:16,680 --> 00:38:14,410
instrument to cut the hay with but I had

687
00:38:18,720 --> 00:38:16,690
a flashlight and I had that instrument

688
00:38:22,530 --> 00:38:18,730

so you know I started gathering up the

689

00:38:29,370 --> 00:38:22,540

hay and cutting it and right at that

690

00:38:31,920 --> 00:38:29,380

point I hear something rustling the corn

691

00:38:39,089 --> 00:38:35,309

now it was it was a clear bright night

692

00:38:43,620 --> 00:38:39,099

that the moon was bright so it wasn't as

693

00:38:45,539 --> 00:38:43,630

low as you know real dark so I'm sitting

694

00:38:50,009 --> 00:38:45,549

there and I look up and I and I see

695

00:38:53,609 --> 00:38:50,019

something inside or within the corn

696

00:38:59,220 --> 00:38:53,619

stalks and it was all I could see were

697

00:39:02,549 --> 00:38:59,230

were to what I thought back then word

698

00:39:04,920 --> 00:39:02,559

work eyes but they weren't very high off

699

00:39:09,509 --> 00:39:04,930

the ground and I and I had that caught

700

00:39:13,470 --> 00:39:09,519

my attention and then I stood up and as

701
00:39:16,559 --> 00:39:13,480
I stood up this little now it you know I

702
00:39:19,529 --> 00:39:16,569
have to say it was an entity but it

703
00:39:24,329 --> 00:39:19,539
looked like a tiny person it could have

704
00:39:26,400 --> 00:39:24,339
been more than three feet tall you know

705
00:39:29,849 --> 00:39:26,410
it stepped out of the the cornfield and

706
00:39:34,799 --> 00:39:29,859
and looked at me or its attention was

707
00:39:36,839 --> 00:39:34,809
what I thought was toward me and I just

708
00:39:40,769 --> 00:39:36,849
remember the the hair standing at the

709
00:39:42,870 --> 00:39:40,779
back of my neck and you know I didn't

710
00:39:49,170 --> 00:39:42,880
know what to do and I I remember shaking

711
00:39:54,900 --> 00:39:49,180
it just scared me to the core and about

712
00:39:58,589 --> 00:39:54,910
that point it started walking to my left

713
00:40:02,339 --> 00:39:58,599

and almost as it was walking towards the

714

00:40:06,660 --> 00:40:02,349

pool area and I just dropped everything

715

00:40:12,180 --> 00:40:06,670

I turned and I ran as fast as I could

716

00:40:14,759 --> 00:40:12,190

I remember my my younger brother and my

717

00:40:18,870 --> 00:40:14,769

cousin one of my cousins

718

00:40:21,569 --> 00:40:18,880

I guess my my parents or my aunt or

719

00:40:25,470 --> 00:40:21,579

uncle sent them to make sure I was okay

720

00:40:28,349 --> 00:40:25,480

right right well they're walking they're

721

00:40:31,140 --> 00:40:28,359

walking up the road towards me and I was

722

00:40:35,039 --> 00:40:31,150

running I I just remember running past

723

00:40:41,880 --> 00:40:35,049

them as fast as I could and ran back to

724

00:40:44,160 --> 00:40:41,890

the to the house and I remember I was

725

00:40:45,509 --> 00:40:44,170

crying you know I just started crying

726

00:40:48,479 --> 00:40:45,519

and and I

727

00:40:49,859 --> 00:40:48,489

shaken up and I remember everybody

728

00:40:53,579 --> 00:40:49,869

saying what's wrong what's wrong and I

729

00:40:56,759 --> 00:40:53,589

and I couldn't I couldn't talk and I

730

00:40:58,949 --> 00:40:56,769

remember my aunt giving me a glass of

731

00:41:01,349 --> 00:40:58,959

water with I remember her pretty putting

732

00:41:03,809 --> 00:41:01,359

a lot of sugar in it I don't know I

733

00:41:06,029 --> 00:41:03,819

don't know why he did that but they gave

734

00:41:11,069 --> 00:41:06,039

it to me and I seemed to settle me too

735

00:41:13,559 --> 00:41:11,079

now and then I told the story and and

736

00:41:18,899 --> 00:41:13,569

they all said huh well see that's what

737

00:41:22,709 --> 00:41:18,909

you get you know so it was always a

738

00:41:24,899 --> 00:41:22,719

little table yeah bleep oh and well

739

00:41:28,109 --> 00:41:24,909

that's you know I I thought you know

740

00:41:31,169 --> 00:41:28,119

this is this is my religious turn around

741

00:41:36,239 --> 00:41:31,179

here yeah right you know as I said maril

742

00:41:39,509 --> 00:41:36,249

yeah Tony yeah real quick how old were

743

00:41:42,329 --> 00:41:39,519

you at this point I was about 15 years

744

00:41:46,649 --> 00:41:42,339

old okay okay so yeah all right okay

745

00:41:48,919 --> 00:41:46,659

okay so you know I you know you know

746

00:41:55,379 --> 00:41:48,929

back then I was kind of small for my age

747

00:42:00,269 --> 00:41:55,389

and stature and but you know I I get

748

00:42:03,449 --> 00:42:00,279

back to what I saw you know all I recall

749

00:42:06,329 --> 00:42:03,459

is that the way it the way it walked was

750

00:42:08,370 --> 00:42:06,339

was really awkward I I got the feeling

751

00:42:12,449 --> 00:42:08,380

that it was floating more than it was

752

00:42:16,679 --> 00:42:12,459

walking on solid ground and I say that

753

00:42:20,689 --> 00:42:16,689

because the way it walked was almost

754

00:42:25,109 --> 00:42:20,699

like a slumbering you know slow walk and

755

00:42:30,329 --> 00:42:25,119

and that's pretty much as far as I as I

756

00:42:35,759 --> 00:42:30,339

saw before I turned and ran right but I

757

00:42:37,889 --> 00:42:35,769

did did recall that it had you know that

758

00:42:40,349 --> 00:42:37,899

the eyes were were glow it was almost

759

00:42:43,859 --> 00:42:40,359

like a glowing almost like when you see

760

00:42:45,449 --> 00:42:43,869

a laser a red laser that's what they

761

00:42:47,909 --> 00:42:45,459

look like now they weren't lasers they

762

00:42:49,019 --> 00:42:47,919

were you know like coming out of them or

763

00:42:54,599 --> 00:42:49,029

anything like there they just kind of

764

00:42:56,120 --> 00:42:54,609

glowed like a lace and it had it had a

765

00:43:01,229 --> 00:42:56,130

big

766

00:43:04,199 --> 00:43:01,239

kind of a teardrop shaped head the head

767

00:43:07,529 --> 00:43:04,209

was you know a lot bigger than what I

768

00:43:11,160 --> 00:43:07,539

thought afterward would support would be

769

00:43:14,009 --> 00:43:11,170

supported by that such a small body but

770

00:43:17,370 --> 00:43:14,019

it had I I couldn't tell whether it had

771

00:43:20,249 --> 00:43:17,380

a mouth or nose or ears I just remember

772

00:43:23,969 --> 00:43:20,259

the eyes and then just above the eyes it

773

00:43:27,089 --> 00:43:23,979

had kind of like three horns that I

774

00:43:31,859 --> 00:43:27,099

wouldn't say horns or protrusions like

775

00:43:38,029 --> 00:43:31,869

lumps on the top of the head and after

776

00:43:43,019 --> 00:43:38,039

after I heard no ad Noah and Reuben on

777

00:43:46,199 --> 00:43:43,029

close to coast you know I I remember

778

00:43:52,349 --> 00:43:46,209

seeing a another show or another program

779

00:43:54,799 --> 00:43:52,359

and Brazil were some girls came across

780

00:43:58,259 --> 00:43:54,809

an entity and they were supposedly uh

781

00:44:01,199 --> 00:43:58,269

you got a folk crash and there was a

782

00:44:03,630 --> 00:44:01,209

picture you know I was watching this

783

00:44:05,339 --> 00:44:03,640

documentary and I and I remember they

784

00:44:08,969 --> 00:44:05,349

showed a picture of this little entity

785

00:44:11,669 --> 00:44:08,979

that that they saw and right away I mean

786

00:44:16,679 --> 00:44:11,679

I just went that's what I saw that's

787

00:44:20,279 --> 00:44:16,689

exactly what I that and but anyway you

788

00:44:21,870 --> 00:44:20,289

know I my grand I recall my grandmother

789

00:44:24,689 --> 00:44:21,880

now we you know again my family has

790

00:44:29,069 --> 00:44:24,699

ranch it's called it s all Seto and it's

791

00:44:32,569 --> 00:44:29,079

a little just west of Koriyama I

792

00:44:37,289 --> 00:44:32,579

remember when we would go to the ranch

793

00:44:43,489 --> 00:44:37,299

we take the main road out of the out of

794

00:44:47,249 --> 00:44:43,499

the town and I was a dirt road and I

795

00:44:50,339 --> 00:44:47,259

meant it was maybe about a 45 minute

796

00:44:52,739 --> 00:44:50,349

drive from there I just remember when I

797

00:44:56,039 --> 00:44:52,749

was a kid it was a long drive and and we

798

00:44:58,289 --> 00:44:56,049

would stop on the way and use a bathroom

799

00:45:01,620 --> 00:44:58,299

do whatever you know just sometimes when

800

00:45:04,859 --> 00:45:01,630

it was raining we you know the Royals

801
00:45:08,560 --> 00:45:04,869
would be flooded and you know my uncle

802
00:45:14,060 --> 00:45:08,570
had a one of those big

803
00:45:16,280 --> 00:45:14,070
flatbed what the fence sake that I think

804
00:45:18,860 --> 00:45:16,290
they call it and you know but you know

805
00:45:21,860 --> 00:45:18,870
my dad had a station legend so we had to

806
00:45:23,990 --> 00:45:21,870
wait till the water slowed down and then

807
00:45:26,420 --> 00:45:24,000
we cross and we you know we jump out and

808
00:45:27,920 --> 00:45:26,430
get in the water and just you know have

809
00:45:31,490 --> 00:45:27,930
a good time and then we'd go to the

810
00:45:37,900 --> 00:45:31,500
ranch and and that was it but yeah I

811
00:45:41,000 --> 00:45:37,910
remember my grandmother talking about

812
00:45:44,480 --> 00:45:41,010
the you know life in the ranch back in

813
00:45:47,210 --> 00:45:44,490

the day and she you know I told her

814

00:45:48,350 --> 00:45:47,220

about what happened and she says well

815

00:45:51,110 --> 00:45:48,360

yeah we used to see them all the time

816

00:45:53,510 --> 00:45:51,120

you know they get up real early in the

817

00:45:57,590 --> 00:45:53,520

morning I think at five o'clock in the

818

00:45:58,970 --> 00:45:57,600

morning my grandmother and and you know

819

00:46:01,400 --> 00:45:58,980

they they were it was like a little

820

00:46:04,610 --> 00:46:01,410

community you know all the sons and

821

00:46:06,890 --> 00:46:04,620

daughters lived it and I remember all

822

00:46:10,010 --> 00:46:06,900

the you know my mom and dad tell me yeah

823

00:46:11,480 --> 00:46:10,020

that little Toby that little house right

824

00:46:14,300 --> 00:46:11,490

there yeah that was our house you know

825

00:46:16,580 --> 00:46:14,310

is all practically gone you know from

826

00:46:18,590 --> 00:46:16,590

the weather and everything but they all

827

00:46:21,290 --> 00:46:18,600

lived together on the ranch not in the

828

00:46:27,020 --> 00:46:21,300

main house but everybody had their own

829

00:46:30,620 --> 00:46:27,030

little Adobe house and my grandmother

830

00:46:32,810 --> 00:46:30,630

would get up earlier and start breakfast

831

00:46:34,780 --> 00:46:32,820

and her coffee and what have you and and

832

00:46:37,670 --> 00:46:34,790

she said that she would see these little

833

00:46:40,760 --> 00:46:37,680

Diablito she said would run around and

834

00:46:45,140 --> 00:46:40,770

and hide you know they'd run from one

835

00:46:47,600 --> 00:46:45,150

place to another and hide and she also

836

00:46:49,670 --> 00:46:47,610

mentioned that they would steal the salt

837

00:46:52,660 --> 00:46:49,680

licks that they would put out for the

838

00:46:59,180 --> 00:46:52,670

cows no they they did have a storage

839

00:47:00,410 --> 00:46:59,190

shed it was made out of Adobe and you

840

00:47:04,010 --> 00:47:00,420

know they had everything stored there

841

00:47:08,270 --> 00:47:04,020

and you know she she'd much I don't know

842

00:47:09,830 --> 00:47:08,280

why I remembered that but you know that

843

00:47:11,870 --> 00:47:09,840

was kind of something that that kind of

844

00:47:15,170 --> 00:47:11,880

stuck out of my mind about why would

845

00:47:17,840 --> 00:47:15,180

they steal the salt lake's right right

846

00:47:21,530 --> 00:47:17,850

and you know that's that's that's

847

00:47:24,470 --> 00:47:21,540

basically would happen and live

848

00:47:26,180 --> 00:47:24,480

in Iran you know I I as I went on

849

00:47:28,750 --> 00:47:26,190

through my life you know I was always

850

00:47:31,970 --> 00:47:28,760

interested in UFOs I remember my

851

00:47:36,620 --> 00:47:31,980

freshman year in high school I was in

852

00:47:40,820 --> 00:47:36,630

the librarian and they had the book of

853

00:47:42,830 --> 00:47:40,830

the Roswell book I don't recall who who

854

00:47:44,780 --> 00:47:42,840

wrote it or anything but it caught my

855

00:47:46,640 --> 00:47:44,790

eye and I got it I sat down I started

856

00:47:50,450 --> 00:47:46,650

reading it and and then I ended up

857

00:47:53,120 --> 00:47:50,460

buying one I think at Salvation Army

858

00:47:57,800 --> 00:47:53,130

somewhere where my parents used to shop

859

00:47:59,660 --> 00:47:57,810

for stuff for us and and I kept that

860

00:48:03,380 --> 00:47:59,670

book and I would read it over and over

861

00:48:09,590 --> 00:48:03,390

and over again and and then you know of

862

00:48:12,020 --> 00:48:09,600

course later on as an adult I heard I

863

00:48:17,030 --> 00:48:12,030

was an avid listener to coast to coast

864

00:48:19,849 --> 00:48:17,040

and that's when I was listening and Noah

865

00:48:21,260 --> 00:48:19,859

and Reuben were were guests on the show

866

00:48:23,780 --> 00:48:21,270

and they were talking about the Corey

867

00:48:25,550 --> 00:48:23,790

I'm incident and you know I got on the

868

00:48:27,140 --> 00:48:25,560

phone and I just started battling over

869

00:48:29,720 --> 00:48:27,150

and over again trying to get through and

870

00:48:32,470 --> 00:48:29,730

I finally got through and you know they

871

00:48:36,650 --> 00:48:32,480

put me on air and I talked to them I

872

00:48:38,800 --> 00:48:36,660

don't recall what was that said hey can

873

00:48:42,710 --> 00:48:38,810

you hold on and give us your information

874

00:48:43,250 --> 00:48:42,720

and we'll talk to you after a rest no

875

00:48:44,900 --> 00:48:43,260

problem

876

00:48:47,900 --> 00:48:44,910

and you know I gave them all my

877

00:48:52,760 --> 00:48:47,910

information and and thus everything

878

00:48:55,160 --> 00:48:52,770

started with at least my story yeah you

879

00:48:57,170 --> 00:48:55,170

had mentioned that the individual that

880

00:48:58,550 --> 00:48:57,180

you saw looked a good bit like the

881

00:49:01,070 --> 00:48:58,560

descriptions that came out of our

882

00:49:03,050 --> 00:49:01,080

Virginia and Brazil and I was able to

883

00:49:04,730 --> 00:49:03,060

gin up a few quick images and I have

884

00:49:06,560 --> 00:49:04,740

them in here just that no ad there's

885

00:49:09,410 --> 00:49:06,570

some visuals that to help the folks out

886

00:49:11,420 --> 00:49:09,420

with an idea of what you're describing

887

00:49:14,230 --> 00:49:11,430

here with the red eyes and you said the

888

00:49:21,620 --> 00:49:14,240

three ridges on top of the head as well

889

00:49:24,290 --> 00:49:21,630

yes yes and and you know it it when when

890

00:49:27,050 --> 00:49:24,300

I read when I saw the documentary of

891

00:49:30,170 --> 00:49:27,060

that Brazil incident that it just I mean

892

00:49:32,060 --> 00:49:30,180

I did the same thing happened over again

893

00:49:33,300 --> 00:49:32,070

the you know the hair on the back of my

894

00:49:36,440 --> 00:49:33,310

neck just

895

00:49:39,180 --> 00:49:36,450

Rene and I went wow you know I was there

896

00:49:43,140 --> 00:49:39,190

did this have something to do with that

897

00:49:44,970 --> 00:49:43,150

you know was you know maybe the crash

898

00:49:50,130 --> 00:49:44,980

happened and by the way you know just

899

00:49:53,450 --> 00:49:50,140

just to add a little extra segment to it

900

00:49:56,460 --> 00:49:53,460

you know when I was when we were there I

901
00:49:58,680 --> 00:49:56,470
don't I don't recall anybody talking I

902
00:50:00,600 --> 00:49:58,690
don't recall anybody mentioning the

903
00:50:03,900 --> 00:50:00,610
military or anything you know

904
00:50:09,630 --> 00:50:03,910
nine o'clock you know at night we were

905
00:50:11,310 --> 00:50:09,640
all know how sin bed ready to fall

906
00:50:13,110 --> 00:50:11,320
asleep you know back then they didn't

907
00:50:15,710 --> 00:50:13,120
have electricity would they had a

908
00:50:20,700 --> 00:50:15,720
generator that kept the lights on in the

909
00:50:24,030 --> 00:50:20,710
Placita yeah one phone and that was it

910
00:50:27,000 --> 00:50:24,040
so you know if it happened sometime

911
00:50:29,850 --> 00:50:27,010
around 10 o'clock I don't think anybody

912
00:50:34,590 --> 00:50:29,860
would have known about it if there was a

913
00:50:37,050 --> 00:50:34,600

military growing through that I I doubt

914

00:50:40,650 --> 00:50:37,060

very much if the military actually went

915

00:50:41,070 --> 00:50:40,660

to the town because we would have known

916

00:50:42,060 --> 00:50:41,080

about it

917

00:50:44,670 --> 00:50:42,070

you know everybody would have been

918

00:50:47,250 --> 00:50:44,680

talking about it you know I mean I

919

00:50:51,200 --> 00:50:47,260

remember I I think it was the year

920

00:50:54,510 --> 00:50:51,210

before maybe in 73 or so there was a

921

00:50:59,370 --> 00:50:54,520

stranger that that drowned in a in a

922

00:51:01,920 --> 00:50:59,380

river nearby koyama and they had his

923

00:51:03,360 --> 00:51:01,930

body there you know it was just you know

924

00:51:06,240 --> 00:51:03,370

but the whole town was there to see the

925

00:51:07,860 --> 00:51:06,250

Buffy right right right you know you

926
00:51:09,930 --> 00:51:07,870
know something like that happens

927
00:51:11,520 --> 00:51:09,940
everybody was there or everybody was

928
00:51:13,830 --> 00:51:11,530
talking about it or knew about it I I

929
00:51:15,810 --> 00:51:13,840
really I don't remember anybody saying

930
00:51:17,850 --> 00:51:15,820
anything I hearing explosions or

931
00:51:21,090 --> 00:51:17,860
anything like you know the town was shut

932
00:51:22,830 --> 00:51:21,100
down at about nine o'clock so everybody

933
00:51:24,870 --> 00:51:22,840
would have been indoors and you know in

934
00:51:27,150 --> 00:51:24,880
bed or getting ready to go to sleep or

935
00:51:29,250 --> 00:51:27,160
what have you so and the way sound

936
00:51:31,080 --> 00:51:29,260
travels when you're out in the you know

937
00:51:32,340 --> 00:51:31,090
out know those rural areas

938
00:51:37,230 --> 00:51:32,350

somebody's likely would have heard

939

00:51:39,590 --> 00:51:37,240

something too but yeah I mean but again

940

00:51:44,100 --> 00:51:39,600

you know I mean we were we were indoors

941

00:51:46,830 --> 00:51:44,110

even at night when they would have you

942

00:51:48,930 --> 00:51:46,840

know parties or fiestas or stuff

943

00:51:51,750 --> 00:51:48,940

like that and by the way koyama still

944

00:51:55,080 --> 00:51:51,760

has them you know I think I think they

945

00:51:57,030 --> 00:51:55,090

have them twice a year but you know

946

00:52:00,330 --> 00:51:57,040

while we were there you know if

947

00:52:04,560 --> 00:52:00,340

everybody was out late you know it would

948

00:52:06,300 --> 00:52:04,570

have been ten o'clock at the latest okay

949

00:52:08,570 --> 00:52:06,310

so I don't think anybody would have

950

00:52:13,500 --> 00:52:08,580

known or noticed or heard or anything

951
00:52:18,720 --> 00:52:13,510
about any of those incident or any of

952
00:52:22,260 --> 00:52:18,730
those things that may have happened you

953
00:52:28,080 --> 00:52:22,270
know I I just I went by the way also you

954
00:52:34,760 --> 00:52:28,090
know I I also recall my cousin's talking

955
00:52:37,110 --> 00:52:34,770
about seeing lights in the sky and I

956
00:52:40,950 --> 00:52:37,120
remember one night and it I don't think

957
00:52:44,970 --> 00:52:40,960
it was that same year we went out jack

958
00:52:48,230 --> 00:52:44,980
rabbit hunting and we saw these lights

959
00:52:49,800 --> 00:52:48,240
come down from the north over the

960
00:52:54,780 --> 00:52:49,810
mountain

961
00:52:57,060 --> 00:52:54,790
just north of Muhammad and they

962
00:52:59,070 --> 00:52:57,070
descended on the side of the mountain I

963
00:53:03,030 --> 00:52:59,080

and I remember we were talking about wow

964

00:53:04,320 --> 00:53:03,040

what's this but they were far away but

965

00:53:08,220 --> 00:53:04,330

they were close enough where you could

966

00:53:12,600 --> 00:53:08,230

see the light the lights coming from

967

00:53:16,260 --> 00:53:12,610

these objects on the ground and then you

968

00:53:18,300 --> 00:53:16,270

could see the cows running from the

969

00:53:22,020 --> 00:53:18,310

light and I was almost like like the

970

00:53:24,900 --> 00:53:22,030

lights were shining down onto the cows

971

00:53:28,440 --> 00:53:24,910

and the cows would run from the light

972

00:53:30,540 --> 00:53:28,450

and and my cousin's I remember them

973

00:53:33,470 --> 00:53:30,550

saying you know oh yeah they saw you

974

00:53:37,830 --> 00:53:33,480

know in Spanish and some openings and

975

00:53:40,980 --> 00:53:37,840

and I remember this one that one

976

00:53:42,930 --> 00:53:40,990

particular night that the lights went

977

00:53:44,550 --> 00:53:42,940

back up the side of the mountain to the

978

00:53:49,140 --> 00:53:44,560

top of the mountain and then they shot

979

00:53:51,030 --> 00:53:49,150

off to the west and and then you know

980

00:53:53,510 --> 00:53:51,040

thinking back now after learning all

981

00:53:57,210 --> 00:53:53,520

this stuff from Ruben and Noah and

982

00:53:59,860 --> 00:53:57,220

listening to all these shows and you

983

00:54:02,260 --> 00:53:59,870

know it it really meant young

984

00:54:05,550 --> 00:54:02,270

that day I guess they call that the Sun

985

00:54:11,410 --> 00:54:05,560

wet or something like that Reuben or

986

00:54:13,720 --> 00:54:11,420

know it but yeah I mean you know even

987

00:54:15,550 --> 00:54:13,730

even the people there would talk about

988

00:54:19,900 --> 00:54:15,560

stuff like that they wouldn't refer to

989

00:54:21,490 --> 00:54:19,910

them as UFOs you know or old knees and a

990

00:54:23,590 --> 00:54:21,500

lot of times they'd say oh yeah you know

991

00:54:26,020 --> 00:54:23,600

some of us yeah blow sword

992

00:54:28,180 --> 00:54:26,030

you know Los Angeles or you know they

993

00:54:32,020 --> 00:54:28,190

they would just refer to it as that and

994

00:54:35,770 --> 00:54:32,030

that was it but yeah that's my story

995

00:54:38,470 --> 00:54:35,780

okay I wanted to jump in Frank real

996

00:54:40,420 --> 00:54:38,480

quick and confirm what Tony's saying

997

00:54:43,870 --> 00:54:40,430

that Reuben and I spent some time in

998

00:54:47,650 --> 00:54:43,880

Koyomi on several occasions talking to

999

00:54:51,850 --> 00:54:47,660

the townspeople and to some of the out

1000

00:54:57,610 --> 00:54:51,860

line people who live in outlying Ranch

1001
00:55:00,460 --> 00:54:57,620
branches we were we found out by a

1002
00:55:04,060 --> 00:55:00,470
careful study of the Benham document

1003
00:55:07,660 --> 00:55:04,070
that the crash in the case of the coyame

1004
00:55:13,390 --> 00:55:07,670
UFO incident happened approximately 60

1005
00:55:18,700 --> 00:55:13,400
miles north east of the small town of

1006
00:55:21,400 --> 00:55:18,710
koyama so that is quite a distance we

1007
00:55:24,730 --> 00:55:21,410
also encountered the question on several

1008
00:55:26,950 --> 00:55:24,740
occasions where people would ask us well

1009
00:55:29,470 --> 00:55:26,960
you know we didn't see anything in town

1010
00:55:31,930 --> 00:55:29,480
we heard nothing in town but when you

1011
00:55:35,830 --> 00:55:31,940
stop and think about it that's quite a

1012
00:55:38,470 --> 00:55:35,840
distance away from the actual town now

1013
00:55:41,950 --> 00:55:38,480

the fact that there were no entities

1014

00:55:44,500 --> 00:55:41,960

found at the crash land of UFO was

1015

00:55:47,980 --> 00:55:44,510

always an interesting point to reuben

1016

00:55:50,590 --> 00:55:47,990

and me because we felt that unless the

1017

00:55:53,530 --> 00:55:50,600

ship was unmanned there was a

1018

00:55:56,260 --> 00:55:53,540

possibility that entities had been there

1019

00:55:59,380 --> 00:55:56,270

and after the crash landing they made

1020

00:56:02,860 --> 00:55:59,390

their way to they made their way to the

1021

00:56:06,490 --> 00:56:02,870

nearest major population center which

1022

00:56:10,690 --> 00:56:06,500

would have been the town of Qayamat

1023

00:56:12,430 --> 00:56:10,700

which if if we correlate all this out on

1024

00:56:14,900 --> 00:56:12,440

a map

1025

00:56:16,880 --> 00:56:14,910

you know there was also a story that we

1026
00:56:21,580 --> 00:56:16,890
were told where the entities were

1027
00:56:25,490 --> 00:56:21,590
floating away from the crash site

1028
00:56:27,410 --> 00:56:25,500
supposedly seen by witnesses entities

1029
00:56:33,580 --> 00:56:27,420
floating away

1030
00:56:36,710 --> 00:56:33,590
so we it certainly seems reasonable that

1031
00:56:39,550 --> 00:56:36,720
within a day or two they might have made

1032
00:56:42,920 --> 00:56:39,560
it to the location around the town of

1033
00:56:45,160 --> 00:56:42,930
Koriyama now when Reuben and I went and

1034
00:56:48,950 --> 00:56:45,170
interviewed the townspeople and also

1035
00:56:51,860 --> 00:56:48,960
well let me just back up and say the

1036
00:56:56,000 --> 00:56:51,870
ranch closest to the point where we

1037
00:57:00,860 --> 00:56:56,010
think the impact happened is a place

1038
00:57:03,800 --> 00:57:00,870

called El Jana and what we did was we

1039

00:57:07,150 --> 00:57:03,810

took a four-wheel drive vehicle down

1040

00:57:10,550 --> 00:57:07,160

this road north from koyama called

1041

00:57:14,360 --> 00:57:10,560

lebretia and basically it's just a dirt

1042

00:57:19,460 --> 00:57:14,370

road it you have to go through a number

1043

00:57:22,490 --> 00:57:19,470

of ravines it really is a rough rough

1044

00:57:24,800 --> 00:57:22,500

way to go and but and you have to take

1045

00:57:26,870 --> 00:57:24,810

it at a very slow speed maybe 20 30

1046

00:57:30,950 --> 00:57:26,880

miles an hour the whole way so it it

1047

00:57:33,410 --> 00:57:30,960

took as an entire day to make it out to

1048

00:57:36,470 --> 00:57:33,420

the location 60 miles northeast of

1049

00:57:39,530 --> 00:57:36,480

koyama where we feel the initial crash

1050

00:57:42,320 --> 00:57:39,540

happened and out there at the ranch

1051
00:57:45,140 --> 00:57:42,330
closest to that location we talked to a

1052
00:57:49,400 --> 00:57:45,150
a gentleman who had lived there for many

1053
00:57:52,670 --> 00:57:49,410
years and he lived there in 1974 and he

1054
00:57:54,770 --> 00:57:52,680
remembered a night although he didn't

1055
00:57:56,690 --> 00:57:54,780
remember the exact date he remembered a

1056
00:58:02,690 --> 00:57:56,700
night when there was a terrific

1057
00:58:05,840 --> 00:58:02,700
explosion and his windows rattled in his

1058
00:58:09,800 --> 00:58:05,850
little his little house his windows

1059
00:58:11,630 --> 00:58:09,810
rattled so severely that he felt certain

1060
00:58:14,210 --> 00:58:11,640
that they were going to be the glass was

1061
00:58:15,400 --> 00:58:14,220
going to be smashed to smithereens

1062
00:58:18,029 --> 00:58:15,410
there was an earth

1063
00:58:21,370 --> 00:58:18,039

definitely an earth-shaking event

1064

00:58:26,020 --> 00:58:21,380

explosion the earth shook his windows

1065

00:58:29,289 --> 00:58:26,030

rattled and and then he he pulled out

1066

00:58:34,329 --> 00:58:29,299

this dusty old notebook from one of the

1067

00:58:36,430 --> 00:58:34,339

rooms in the back and he he said that

1068

00:58:39,460 --> 00:58:36,440

after that night he began began

1069

00:58:42,160 --> 00:58:39,470

documenting every time he saw strange

1070

00:58:45,220 --> 00:58:42,170

lights and strange objects in the hills

1071

00:58:46,870 --> 00:58:45,230

around his little ranch and we saw

1072

00:58:49,930 --> 00:58:46,880

Reuben and I were just amazed when he

1073

00:58:53,650 --> 00:58:49,940

opened this book there were just tons of

1074

00:58:58,750 --> 00:58:53,660

listings of strange objects that he saw

1075

00:59:00,430 --> 00:58:58,760

after that that 1934 incident so and the

1076

00:59:03,609 --> 00:59:00,440

same thing the same types of stories

1077

00:59:07,059 --> 00:59:03,619

such as Tony told us about entities

1078

00:59:09,339 --> 00:59:07,069

being seen and lights in the sky

1079

00:59:11,349 --> 00:59:09,349

they just predominated in the town of

1080

00:59:14,099 --> 00:59:11,359

Qayamat we even heard it from the mayor

1081

00:59:17,859 --> 00:59:14,109

and his wife who were a longtime

1082

00:59:21,609 --> 00:59:17,869

residents of the area and there seems to

1083

00:59:25,089 --> 00:59:21,619

be a definite energy or it seems to be a

1084

00:59:28,029 --> 00:59:25,099

definite trend there's some kind of

1085

00:59:30,490 --> 00:59:28,039

strange goings-on in that little town

1086

00:59:32,819 --> 00:59:30,500

where nothing really seems to ever

1087

00:59:37,269 --> 00:59:32,829

happen and yet there's this underlying

1088

00:59:40,120 --> 00:59:37,279

kind of deep dark secret there oh yeah

1089

00:59:43,059 --> 00:59:40,130

I could I could jump in real quickly and

1090

00:59:45,970 --> 00:59:43,069

know Carlos has a lot to share with us

1091

00:59:48,490 --> 00:59:45,980

do but we have a friend who's also

1092

00:59:50,680 --> 00:59:48,500

investigator Hubert Authority data

1093

00:59:53,920 --> 00:59:50,690

he runs the UFO organization in

1094

00:59:56,380 --> 00:59:53,930

Chihuahua and he had shared that the

1095

00:59:59,140 --> 00:59:56,390

with some server of their witnesses have

1096

01:00:02,559 --> 00:59:59,150

also seen this type of being that Tony

1097

01:00:04,269 --> 01:00:02,569

had just described so and then the other

1098

01:00:06,370 --> 01:00:04,279

thought is that there might be an

1099

01:00:08,380 --> 01:00:06,380

underground alien base somewhere in that

1100

01:00:13,750 --> 01:00:08,390

whole region so that's another

1101

01:00:17,470 --> 01:00:13,760

interesting theory behind his I'll stop

1102

01:00:18,940 --> 01:00:17,480

here and Carlos I wanted to come in and

1103

01:00:20,890 --> 01:00:18,950

tell us about some of the background

1104

01:00:25,140 --> 01:00:20,900

investigating you did on this case as

1105

01:00:28,810 --> 01:00:25,150

far as finding newspaper accounts and

1106

01:00:31,870 --> 01:00:28,820

also there is apparently a

1107

01:00:32,890 --> 01:00:31,880

pilot mishap around the same time frame

1108

01:00:38,610 --> 01:00:32,900

so if you could tell us a little bit

1109

01:00:38,620 --> 01:00:42,900

hello Carlos

1110

01:00:48,730 --> 01:00:46,630

yeah I Carlos you have your mic muted so

1111

01:00:51,400 --> 01:00:48,740

if you're gonna meet your mic well you

1112

01:00:55,630 --> 01:00:51,410

hear me I can hear you now yes sir did

1113

01:01:00,300 --> 01:00:55,640

you hear my question let me tell you

1114

01:01:03,270 --> 01:01:00,310

some interesting symptom that I found

1115

01:01:07,540 --> 01:01:03,280

ourselves recommendation not knowing

1116

01:01:09,990 --> 01:01:07,550

underwent a they they request to me that

1117

01:01:13,150 --> 01:01:10,000

I look for in the newspaper of the

1118

01:01:17,110 --> 01:01:13,160

obscure that was published in Mexico at

1119

01:01:20,290 --> 01:01:17,120

times I could find I cou I could find

1120

01:01:22,990 --> 01:01:20,300

that newspaper because here in Mexico

1121

01:01:27,370 --> 01:01:23,000

City the Universidad Nacional autónoma

1122

01:01:33,160 --> 01:01:27,380

de Mexico have the main newspaper all

1123

01:01:36,160 --> 01:01:33,170

harren Mexico so the first let me try to

1124

01:01:41,230 --> 01:01:36,170

remember the first the first news does I

1125

01:01:44,920 --> 01:01:41,240

found is about the that the Mexican do

1126

01:01:48,870 --> 01:01:44,930

follow he pedro fries a cruise which is

1127

01:01:52,360 --> 01:01:48,880

already he died his right four years ago

1128

01:01:57,040 --> 01:01:52,370

Pedro Feliz was a pioneers here in

1129

01:02:01,260 --> 01:01:57,050

Mexico and I found a news that the de

1130

01:02:06,390 --> 01:02:01,270

News newspaper wrote the death month

1131

01:02:10,840 --> 01:02:06,400

visit coyame at the time for bees was a

1132

01:02:17,070 --> 01:02:10,850

very big surprise because the doctor

1133

01:02:20,710 --> 01:02:17,080

salt was very no well you follow a

1134

01:02:25,720 --> 01:02:20,720

research field in Mexico is a is among

1135

01:02:29,680 --> 01:02:25,730

who who worked for the many media's in

1136

01:02:34,780 --> 01:02:29,690

Mexico TV radio newspaper etc and as

1137

01:02:38,410 --> 01:02:34,790

news said that he that he were the quick

1138

01:02:40,300 --> 01:02:38,420

word couple of a couple of week before

1139

01:02:42,340 --> 01:02:40,310

the incident in Kagame

1140

01:02:46,870 --> 01:02:42,350

well that one of the

1141

01:02:50,020 --> 01:02:46,880

that that catches my attention a night

1142

01:02:56,340 --> 01:02:50,030

and I talked about these to Reuben annoy

1143

01:03:02,080 --> 01:02:56,350

the other news that iPhone is that the

1144

01:03:04,900 --> 01:03:02,090

time president for who who was President

1145

01:03:08,560 --> 01:03:04,910

of the United States and Lisa Jeffrey

1146

01:03:14,470 --> 01:03:08,570

Alvarez was a Mexican president at that

1147

01:03:19,570 --> 01:03:14,480

time the news said that the president

1148

01:03:22,840 --> 01:03:19,580

for requests an encounter request a

1149

01:03:27,100 --> 01:03:22,850

meeting with the Mexican president and

1150

01:03:27,820 --> 01:03:27,110

also again is for me was a very big

1151

01:03:32,680 --> 01:03:27,830

surprise

1152

01:03:35,440 --> 01:03:32,690

Laura yeah what what what they make the

1153

01:03:42,850 --> 01:03:35,450

the United States President are

1154

01:03:46,120 --> 01:03:42,860

requesting Iranian to see and to talk of

1155

01:03:50,530 --> 01:03:46,130

course the the main point perhaps is

1156

01:03:55,720 --> 01:03:50,540

always that the both presidents for the

1157

01:04:01,330 --> 01:03:55,730

history talk the a province of the

1158

01:04:05,100 --> 01:04:01,340

border the the problem with the with the

1159

01:04:08,440 --> 01:04:05,110

drugs etc but what's the second

1160

01:04:12,130 --> 01:04:08,450

newspapers at site found very strange

1161

01:04:15,790 --> 01:04:12,140

but nothing is for coincident the other

1162

01:04:23,170 --> 01:04:15,800

the other news that iPhone in the

1163

01:04:24,750 --> 01:04:23,180

newspaper was that yes or no can I just

1164

01:04:28,990 --> 01:04:24,760

say something real quick

1165

01:04:31,240 --> 01:04:29,000

the the encounter between President Ford

1166

01:04:33,970 --> 01:04:31,250

and the President of Mexico was very

1167

01:04:37,360 --> 01:04:33,980

strange I remember that after you told

1168

01:04:42,430 --> 01:04:37,370

us that story I looked it up and it says

1169

01:04:45,580 --> 01:04:42,440

that the two presidents came together by

1170

01:04:47,500 --> 01:04:45,590

themselves apart from all of their aides

1171

01:04:51,160 --> 01:04:47,510

and the people who travel with them they

1172

01:04:54,850 --> 01:04:51,170

went walking side by side they were

1173

01:04:55,750 --> 01:04:54,860

engaged in a conversation that nobody

1174

01:04:57,460 --> 01:04:55,760

heard

1175

01:05:00,340 --> 01:04:57,470

and nobody knew what they were talking

1176

01:05:02,710 --> 01:05:00,350

about they were just they just met at

1177

01:05:04,570 --> 01:05:02,720

the international boundary the two

1178

01:05:07,630 --> 01:05:04,580

presidents started walking off by

1179

01:05:12,370 --> 01:05:07,640

themselves there were hand gestures back

1180

01:05:15,460 --> 01:05:12,380

and forth between them and then when

1181

01:05:19,480 --> 01:05:15,470

they came back when they came back then

1182

01:05:21,700 --> 01:05:19,490

everybody was was very quiet about what

1183

01:05:23,349 --> 01:05:21,710

they had talked about nobody ever found

1184

01:05:25,900 --> 01:05:23,359

out what they had talked about so I

1185

01:05:28,690 --> 01:05:25,910

thought that that was an extremely

1186

01:05:31,000 --> 01:05:28,700

unusual event and I'm so glad you

1187

01:05:33,570 --> 01:05:31,010

brought that up Carlos yeah now just a

1188

01:05:36,520 --> 01:05:33,580

little bit of background Gerald Ford and

1189

01:05:40,780 --> 01:05:36,530

taken over the presidency from Richard

1190

01:05:42,730 --> 01:05:40,790

Nixon and just roughly yeah I guess I'm

1191

01:05:45,490 --> 01:05:42,740

looking up now and it seems to recall

1192

01:05:47,590 --> 01:05:45,500

that it was it was late summer if you

1193

01:05:50,800 --> 01:05:47,600

folks remember maybe some younger folks

1194

01:05:52,300 --> 01:05:50,810

aren't really familiar with it the Nixon

1195

01:05:56,950 --> 01:05:52,310

had resigned because of the Watergate

1196

01:06:00,460 --> 01:05:56,960

issue and he sort of took over in let's

1197

01:06:02,020 --> 01:06:00,470

see one that was the exact date so you

1198

01:06:04,240 --> 01:06:02,030

know you would figure him that just

1199

01:06:07,240 --> 01:06:04,250

coming into the presidency seventy-two

1200

01:06:12,160 --> 01:06:07,250

and the other very significant thing is

1201
01:06:14,800 --> 01:06:12,170
that Gerald Ford had a substantial UFO

1202
01:06:17,620 --> 01:06:14,810
encounter himself that he was a witness

1203
01:06:21,040 --> 01:06:17,630
to and so he was very interested in the

1204
01:06:26,140 --> 01:06:21,050
topic which is another interesting angle

1205
01:06:27,070 --> 01:06:26,150
here that the President of Mexico met

1206
01:06:31,570 --> 01:06:27,080
with Ford

1207
01:06:33,430 --> 01:06:31,580
they talked privately on the border very

1208
01:06:36,280 --> 01:06:33,440
close to where this incident happened

1209
01:06:41,140 --> 01:06:36,290
because this was sealed off Juarez El

1210
01:06:43,810 --> 01:06:41,150
Paso area and then nothing was said

1211
01:06:45,580 --> 01:06:43,820
about what they talked about although we

1212
01:06:47,500 --> 01:06:45,590
looked up in the presidential records

1213
01:06:49,780 --> 01:06:47,510

for Gerald Ford and it indicates that

1214

01:06:52,599 --> 01:06:49,790

they didn't meet but it doesn't talk

1215

01:06:55,960 --> 01:06:52,609

about it doesn't give any reason for the

1216

01:06:59,080 --> 01:06:55,970

meeting or what they discussed and then

1217

01:07:01,480 --> 01:06:59,090

a plus on top of that you had Ford's

1218

01:07:05,650 --> 01:07:01,490

intense interest personal interest in

1219

01:07:08,140 --> 01:07:05,660

UFOs yeah from his own sighting yeah he

1220

01:07:09,460 --> 01:07:08,150

had been a congressman from Michigan and

1221

01:07:11,320 --> 01:07:09,470

there were a lot of

1222

01:07:13,570 --> 01:07:11,330

there and he was the one who got a

1223

01:07:16,870 --> 01:07:13,580

congressional hearing going in the late

1224

01:07:20,140 --> 01:07:16,880

60s but then he took office in on August

1225

01:07:21,670 --> 01:07:20,150

9th of 74 and you know for those old

1226

01:07:23,859 --> 01:07:21,680

enough to remember that the country was

1227

01:07:25,450 --> 01:07:23,869

in a lot of turmoil so for him to sort

1228

01:07:27,820 --> 01:07:25,460

of drop everything with a lot on his

1229

01:07:29,680 --> 01:07:27,830

plate obviously yeah relations with

1230

01:07:32,109 --> 01:07:29,690

Mexico were pretty stable so for him to

1231

01:07:33,880 --> 01:07:32,119

drop everything and go meet with the

1232

01:07:36,220 --> 01:07:33,890

president of Texas right in that time

1233

01:07:39,070 --> 01:07:36,230

frame is very interesting like Carlos

1234

01:07:41,320 --> 01:07:39,080

says there weren't any pressing border

1235

01:07:45,280 --> 01:07:41,330

issues at that time like we have now

1236

01:07:47,730 --> 01:07:45,290

with Trump back then it was just like

1237

01:07:50,200 --> 01:07:47,740

Carlos mentioned it was just the mother

1238

01:07:53,260 --> 01:07:50,210

everyday if you can get him everyday

1239

01:07:55,839 --> 01:07:53,270

issues of the drugs being flowing across

1240

01:07:58,540 --> 01:07:55,849

the border and things like that but

1241

01:08:00,400 --> 01:07:58,550

there was nothing pressing in the agenda

1242

01:08:03,940 --> 01:08:00,410

if you look at the news coverage of the

1243

01:08:05,530 --> 01:08:03,950

time there seemed to be nothing big that

1244

01:08:08,260 --> 01:08:05,540

they would have been meeting about and

1245

01:08:12,250 --> 01:08:08,270

it's so odd that it happened right after

1246

01:08:15,280 --> 01:08:12,260

this August 25th 1974 incidentally right

1247

01:08:17,680 --> 01:08:15,290

right so right yeah that Mexico US

1248

01:08:22,120 --> 01:08:17,690

relations have really been that stable

1249

01:08:24,309 --> 01:08:22,130

for a long time now and just well well

1250

01:08:25,809 --> 01:08:24,319

we'll avoid the politics of today but

1251

01:08:27,670 --> 01:08:25,819

going back then yeah it is very

1252

01:08:29,499 --> 01:08:27,680

interesting that the Ford and the

1253

01:08:34,240 --> 01:08:29,509

President of Mexico and what was his

1254

01:08:39,309 --> 01:08:34,250

name at the time Mexican President was

1255

01:08:41,470 --> 01:08:39,319

Lucy choo Mary Alice okay and you know

1256

01:08:44,470 --> 01:08:41,480

you lived down there any anything in

1257

01:08:45,760 --> 01:08:44,480

particular about that president that you

1258

01:08:47,320 --> 01:08:45,770

can share with the folks anything that

1259

01:08:51,839 --> 01:08:47,330

really stands out for folks who aren't

1260

01:08:57,240 --> 01:08:55,559

well no no okay apparently yeah just

1261

01:09:00,240 --> 01:08:57,250

everything ran pretty smooth while he

1262

01:09:01,890 --> 01:09:00,250

was there that okay okay Carlos did he

1263

01:09:04,979 --> 01:09:01,900

have any involvement with other UFO

1264

01:09:08,669 --> 01:09:04,989

cases the Chavarria that he did he ever

1265

01:09:17,129 --> 01:09:08,679

express any interest in openings himself

1266

01:09:19,859 --> 01:09:17,139

that you know yes witnesses in 1975 in

1267

01:09:25,140 --> 01:09:19,869

Cuernavaca Cuernavaca is a small town

1268

01:09:30,140 --> 01:09:25,150

about less than an hour by car from

1269

01:09:37,859 --> 01:09:30,150

Mexico City to there and at that time in

1270

01:09:41,700 --> 01:09:37,869

1965 in Mexico or register the biggest

1271

01:09:47,550 --> 01:09:41,710

the biggest wave that that happened here

1272

01:09:51,269 --> 01:09:47,560

in Mexico all these at any time the UFOs

1273

01:09:54,750 --> 01:09:51,279

was reporting from all the state of

1274

01:09:57,780 --> 01:09:54,760

Mexico and one of them belongs to

1275

01:10:00,030 --> 01:09:57,790

achieve area and in another time was

1276

01:10:04,830 --> 01:10:00,040

very important with that sighting that

1277

01:10:09,689 --> 01:10:04,840

each area was witness also at that time

1278

01:10:13,680 --> 01:10:09,699

was witness the president a municipal of

1279

01:10:16,709 --> 01:10:13,690

corn lbaka and each every row was very

1280

01:10:23,790 --> 01:10:16,719

interesting in the circuit if you

1281

01:10:27,390 --> 01:10:23,800

remember in 1968 nineteen just 1968 the

1282

01:10:32,280 --> 01:10:27,400

NASA requests our special permission

1283

01:10:34,830 --> 01:10:32,290

that the American astronauts came to

1284

01:10:39,569 --> 01:10:34,840

Sonora to Sonora Mexico

1285

01:10:42,950 --> 01:10:39,579

in order to make some practice because

1286

01:10:46,919 --> 01:10:42,960

in Sonora there are a desert that

1287

01:10:54,120 --> 01:10:46,929

according with NASA said that are very

1288

01:10:56,640 --> 01:10:54,130

similar like in in the moon so the so

1289

01:11:01,169 --> 01:10:56,650

the the NASA request to the Mexican

1290

01:11:05,189 --> 01:11:01,179

government government that he the US

1291

01:11:09,380 --> 01:11:05,199

astronauts who came to to here in Mexico

1292

01:11:13,080 --> 01:11:09,390

and also bomb Braun was there and

1293

01:11:15,540 --> 01:11:13,090

echeverria said okay the mexican

1294

01:11:19,910 --> 01:11:15,550

government give the permission to make

1295

01:11:25,800 --> 01:11:22,979

there's another dimension to this which

1296

01:11:27,600 --> 01:11:25,810

we haven't touched on Frank that's very

1297

01:11:30,600 --> 01:11:27,610

interesting regarding us-mexico

1298

01:11:33,900 --> 01:11:30,610

relations at the time that the coyame

1299

01:11:36,810 --> 01:11:33,910

incident happened 1974 echeverria and

1300

01:11:38,459 --> 01:11:36,820

Ford as we mentioned were the presidents

1301
01:11:41,490 --> 01:11:38,469
of the respective countries and there

1302
01:11:47,090 --> 01:11:41,500
was good relations between the two

1303
01:11:49,890 --> 01:11:47,100
countries but the US and Mexico were

1304
01:11:52,709 --> 01:11:49,900
they had kind of an informal agreement

1305
01:11:55,590 --> 01:11:52,719
that if the u.s. lost military hardware

1306
01:11:58,470 --> 01:11:55,600
in northern Mexico they were allowed to

1307
01:12:04,130 --> 01:11:58,480
come over and retrieve it so we have

1308
01:12:06,510 --> 01:12:04,140
found instances of where test missiles

1309
01:12:10,560 --> 01:12:06,520
experimental aircraft test missiles

1310
01:12:14,550 --> 01:12:10,570
things like that shot out of New Mexico

1311
01:12:18,930 --> 01:12:14,560
Arizona even one of them was fired out

1312
01:12:21,689 --> 01:12:18,940
of California and they would they went

1313
01:12:24,570 --> 01:12:21,699

down in northern northwestern Mexico

1314

01:12:28,290 --> 01:12:24,580

along the Texas border and the u.s. was

1315

01:12:30,330 --> 01:12:28,300

given permission to go there and and

1316

01:12:34,310 --> 01:12:30,340

make the retrieval even in the case of

1317

01:12:37,680 --> 01:12:34,320

the Athena missile crash where you had

1318

01:12:39,870 --> 01:12:37,690

it wasn't a full radioactive warhead but

1319

01:12:43,340 --> 01:12:39,880

there were radioactive materials aboard

1320

01:12:47,400 --> 01:12:43,350

the Athena missile when it crashed and

1321

01:12:51,240 --> 01:12:47,410

and again the u.s. went down retrieved

1322

01:12:55,470 --> 01:12:51,250

its hardware and did a kind of a cleanup

1323

01:12:59,430 --> 01:12:55,480

of the area under the auspices of the

1324

01:13:01,500 --> 01:12:59,440

Mexican government so but the

1325

01:13:04,140 --> 01:13:01,510

interesting thing is that when this

1326

01:13:07,530 --> 01:13:04,150

incident happened supposedly the crash

1327

01:13:09,750 --> 01:13:07,540

retrievable the u.s. crash retrieval of

1328

01:13:12,870 --> 01:13:09,760

the downed UFO was conducted by the

1329

01:13:15,870 --> 01:13:12,880

Central Intelligence Agency that would

1330

01:13:18,300 --> 01:13:15,880

be after the Mexican retrieval team

1331

01:13:21,960 --> 01:13:18,310

failed to recover the UFO

1332

01:13:24,600 --> 01:13:21,970

and the US interceded on short notice

1333

01:13:28,980 --> 01:13:24,610

staging a recovery team at Fort Bliss in

1334

01:13:33,660 --> 01:13:28,990

El Paso conducted by the CIA that went

1335

01:13:37,470 --> 01:13:33,670

down there and unmarked helicopters they

1336

01:13:39,270 --> 01:13:37,480

were to disavow if caught that they were

1337

01:13:42,900 --> 01:13:39,280

had anything to do with the US

1338

01:13:46,170 --> 01:13:42,910

government so they made that retrieval

1339

01:13:48,150 --> 01:13:46,180

they brought the downed UFO into Texas

1340

01:13:52,380 --> 01:13:48,160

according to the den of dark document

1341

01:13:56,490 --> 01:13:52,390

the CIA at that time had a headquarters

1342

01:13:59,130 --> 01:13:56,500

in Mexico City as well as other in other

1343

01:14:01,400 --> 01:13:59,140

Mexican cities as we mentioned relations

1344

01:14:04,980 --> 01:14:01,410

were good between the two countries but

1345

01:14:07,710 --> 01:14:04,990

perhaps the fact that this incident

1346

01:14:10,140 --> 01:14:07,720

happened the way it did with the CIA and

1347

01:14:13,470 --> 01:14:10,150

that are ending up with the goods so to

1348

01:14:16,320 --> 01:14:13,480

speak maybe that is what occasioned the

1349

01:14:19,080 --> 01:14:16,330

meeting between Ford and Echevarria on

1350

01:14:21,410 --> 01:14:19,090

the Texas border shortly after the

1351

01:14:24,330 --> 01:14:21,420

incident happened and then the other

1352

01:14:26,220 --> 01:14:24,340

possibility Ruben and I have been told

1353

01:14:29,790 --> 01:14:26,230

that the Mexican soldiers didn't just

1354

01:14:33,260 --> 01:14:29,800

die that they were eliminated in order

1355

01:14:37,110 --> 01:14:33,270

that the crash materials could be

1356

01:14:40,290 --> 01:14:37,120

recovered and that is wild speculation

1357

01:14:43,380 --> 01:14:40,300

Ruben and I have seen no documentation

1358

01:14:46,440 --> 01:14:43,390

that that was the case that's one theory

1359

01:14:49,440 --> 01:14:46,450

that's out there in in cyberspace

1360

01:14:51,570 --> 01:14:49,450

right and that as far as the CIA getting

1361

01:14:53,760 --> 01:14:51,580

involved in crash retrievals that is not

1362

01:14:55,770 --> 01:14:53,770

unprecedented at all there are a couple

1363

01:14:57,870 --> 01:14:55,780

of very famous cases that that we know

1364

01:15:01,410 --> 01:14:57,880

about that absolutely did happen there

1365

01:15:03,000 --> 01:15:01,420

was one case involving and the CIA going

1366

01:15:05,100 --> 01:15:03,010

to great lengths to recover macaque

1367

01:15:08,580 --> 01:15:05,110

crash materials now there was the case

1368

01:15:10,740 --> 01:15:08,590

involving a downed a Soviet spy plane

1369

01:15:12,330 --> 01:15:10,750

over Africa that they simply couldn't

1370

01:15:14,910 --> 01:15:12,340

find because it disappeared into the

1371

01:15:18,060 --> 01:15:14,920

jungle and they were able to use remote

1372

01:15:19,650 --> 01:15:18,070

viewers to find the location and

1373

01:15:21,660 --> 01:15:19,660

apparently that was one of the great

1374

01:15:24,480 --> 01:15:21,670

successes of the remote viewing program

1375

01:15:26,570 --> 01:15:24,490

and some of you guys might be in the age

1376

01:15:30,090 --> 01:15:26,580

demographic to remember the very famous

1377

01:15:30,959 --> 01:15:30,100

Glomar Explorer case involving Howard

1378

01:15:33,180 --> 01:15:30,969

Hughes where

1379

01:15:36,080 --> 01:15:33,190

I think essentially they commissioned

1380

01:15:38,640 --> 01:15:36,090

Howard Hughes to build a ship to pull a

1381

01:15:42,720 --> 01:15:38,650

Soviet sub off the bottom of the Pacific

1382

01:15:44,820 --> 01:15:42,730

ocean floor so the idea that the CIA

1383

01:15:46,020 --> 01:15:44,830

wouldn't be involved in crash retrievals

1384

01:15:47,970 --> 01:15:46,030

or that they wouldn't go to

1385

01:15:51,300 --> 01:15:47,980

extraordinary lengths to retrieve that

1386

01:15:53,910 --> 01:15:51,310

material that that that's a fact

1387

01:15:56,100 --> 01:15:53,920

so we know about that those people are

1388

01:15:59,939 --> 01:15:56,110

incident and in the narrative about this

1389

01:16:04,170 --> 01:15:59,949

story the story goes that the u.s.

1390

01:16:07,229 --> 01:16:04,180

requested permission to assist the

1391

01:16:10,920 --> 01:16:07,239

Mexican government and recovering the in

1392

01:16:12,510 --> 01:16:10,930

you know going to the crash site where

1393

01:16:15,150 --> 01:16:12,520

the UFO and the small plane had crashed

1394

01:16:19,320 --> 01:16:15,160

and come down in the desert and that the

1395

01:16:23,729 --> 01:16:19,330

Mexican government had denied the u.s.

1396

01:16:25,650 --> 01:16:23,739

permission to become involved that to me

1397

01:16:28,350 --> 01:16:25,660

sends a little bit of a warning bell

1398

01:16:30,900 --> 01:16:28,360

there and then the next thing we know

1399

01:16:37,170 --> 01:16:30,910

all the Mexican recovery team members

1400

01:16:41,600 --> 01:16:37,180

were dead and the u.s. swooped in by an

1401

01:16:45,689 --> 01:16:41,610

unmarked you know unmarked aircraft

1402

01:16:48,090 --> 01:16:45,699

supposedly piloted by the CIA controlled

1403

01:16:53,880 --> 01:16:48,100

by the CIA to make the recovery of the

1404

01:16:56,189 --> 01:16:53,890

object all of this is very strange got

1405

01:17:04,169 --> 01:17:00,390

and also there is an instance involving

1406

01:17:06,260 --> 01:17:04,179

well we've already had discussed the the

1407

01:17:09,740 --> 01:17:06,270

the collision between the UFO and a

1408

01:17:12,720 --> 01:17:09,750

riotous and a plane and there was a

1409

01:17:17,100 --> 01:17:12,730

pilot by the name of and wreck a Rivera

1410

01:17:19,950 --> 01:17:17,110

Gutierrez who is apparently passed away

1411

01:17:25,439 --> 01:17:19,960

in August of 74 can you tell us a little

1412

01:17:28,110 --> 01:17:25,449

bit more about that Carlos you did the

1413

01:17:30,600 --> 01:17:28,120

research looking at the newspaper

1414

01:17:34,709 --> 01:17:30,610

I believe you looked at the newspaper

1415

01:17:38,280 --> 01:17:34,719

out of C laughs what is and you found a

1416

01:17:42,900 --> 01:17:38,290

story about a pilot and Rican Roberto

1417

01:17:45,570 --> 01:17:42,910

Gutierrez who died around August 1974

1418

01:17:49,860 --> 01:17:45,580

and we thought maybe that was the pilot

1419

01:17:54,470 --> 01:17:49,870

of the small plane what do you think yes

1420

01:18:00,270 --> 01:17:54,480

as I mentioned before we look for some

1421

01:18:06,330 --> 01:18:00,280

news all around that date and continue

1422

01:18:09,810 --> 01:18:06,340

we find and strange news and nothing is

1423

01:18:13,530 --> 01:18:09,820

for coincident and also I want to

1424

01:18:19,729 --> 01:18:13,540

comment that I have the opportunity to

1425

01:18:27,630 --> 01:18:23,850

also he had the opportunity to check the

1426

01:18:32,390 --> 01:18:27,640

names that that noe and Ruben gave me

1427

01:18:37,010 --> 01:18:32,400

many years ago he they told me that that

1428

01:18:40,770 --> 01:18:37,020

listening I think was poor oh five names

1429

01:18:43,979 --> 01:18:40,780

belongs to the to the soldiers to the

1430

01:18:47,459 --> 01:18:43,989

Mexican soldier that that was dead that

1431

01:18:50,880 --> 01:18:47,469

that signed and that's the Mexican

1432

01:18:53,910 --> 01:18:50,890

military this is a premier this is a

1433

01:18:59,220 --> 01:18:53,920

premier for all of you that the name of

1434

01:19:04,320 --> 01:18:59,230

that four or five names really exist in

1435

01:19:07,250 --> 01:19:04,330

the Mexican military both both have

1436

01:19:09,740 --> 01:19:07,260

right many years ago

1437

01:19:12,710 --> 01:19:09,750

yellow was an interesting angle Frank I

1438

01:19:15,130 --> 01:19:12,720

should add the stories the names that

1439

01:19:19,820 --> 01:19:15,140

Carlos is talking about were suddenly

1440

01:19:22,010 --> 01:19:19,830

posted on the Wikipedia article that

1441

01:19:25,400 --> 01:19:22,020

Reuben and I initially wrote about the

1442

01:19:28,100 --> 01:19:25,410

coyame UFO incident we loaded we wrote

1443

01:19:30,500 --> 01:19:28,110

it and then somebody went in and added

1444

01:19:33,830 --> 01:19:30,510

the names of several of the soldiers

1445

01:19:35,960 --> 01:19:33,840

from Mexico and several of the soldiers

1446

01:19:38,810 --> 01:19:35,970

from the US that took part in the crash

1447

01:19:40,850 --> 01:19:38,820

retrieval we don't know who was the

1448

01:19:44,090 --> 01:19:40,860

person that put those names into the

1449

01:19:49,100 --> 01:19:44,100

Wikipedia article and Wikipedia refused

1450

01:19:53,780 --> 01:19:49,110

to disclose the source we contacted the

1451

01:19:57,979 --> 01:19:53,790

person by email who posted those names

1452

01:19:59,720 --> 01:19:57,989

and they never responded to us as to who

1453

01:20:01,520 --> 01:19:59,730

they were what their identity was so

1454

01:20:05,030 --> 01:20:01,530

that was another big mystery in this

1455

01:20:07,340 --> 01:20:05,040

case how did they know the names and as

1456

01:20:10,130 --> 01:20:07,350

Carlos Carlos just said those were

1457

01:20:12,890 --> 01:20:10,140

actual members of the Mexican military

1458

01:20:16,790 --> 01:20:12,900

from around that time period so how did

1459

01:20:17,330 --> 01:20:16,800

they know got it got it that is

1460

01:20:18,920 --> 01:20:17,340

interesting

1461

01:20:21,739 --> 01:20:18,930

have you been able to run down any of

1462

01:20:27,680 --> 01:20:25,549

carlos has done research on the the

1463

01:20:30,589 --> 01:20:27,690

Mexican soldiers that were named and he

1464

01:20:34,540 --> 01:20:30,599

found those names those exact names in

1465

01:20:37,339 --> 01:20:34,550

the service records for Mexican military

1466

01:20:39,529 --> 01:20:37,349

although of course we don't have

1467

01:20:42,290 --> 01:20:39,539

specific specific information as to

1468

01:20:45,169 --> 01:20:42,300

where they were in August of 1974 we do

1469

01:20:49,779 --> 01:20:45,179

know that they were at one time members

1470

01:20:52,970 --> 01:20:49,789

of the Mexican military yes you're right

1471

01:20:55,330 --> 01:20:52,980

okay now I've also gotten the

1472

01:20:58,640 --> 01:20:55,340

information that you all sent me

1473

01:20:59,419 --> 01:20:58,650

regarding this say a witness of another

1474

01:21:01,399 --> 01:20:59,429

world

1475

01:21:02,689 --> 01:21:01,409

an official trailer now is that

1476

01:21:04,850 --> 01:21:02,699

connected to this case or is that

1477

01:21:07,220 --> 01:21:04,860

something else oh that that is something

1478

01:21:08,540 --> 01:21:07,230

else okay okay you guys want to talk

1479

01:21:15,709 --> 01:21:08,550

about that a little bit before we wrap

1480

01:21:19,899 --> 01:21:15,719

up uh well I think Carlos and uh and noe

1481

01:21:22,970 --> 01:21:19,909

and as well as my some other other

1482

01:21:25,600 --> 01:21:22,980

colleagues and I have been working on on

1483

01:21:29,979 --> 01:21:25,610

different projects and I know that

1484

01:21:33,319 --> 01:21:29,989

Carlos has worked on several new books

1485

01:21:35,839 --> 01:21:33,329

some related to crash retrievals with

1486

01:21:39,979 --> 01:21:35,849

another colleague Don Francis al-assad

1487

01:21:42,319 --> 01:21:39,989

and twittering briefly Ruben yeah yeah

1488

01:21:46,370 --> 01:21:42,329

Ruben I'd like to I'd like to jump in on

1489

01:21:48,620 --> 01:21:46,380

our latest project if we could Frank go

1490

01:21:51,830 --> 01:21:48,630

for it this this Kodama incident

1491

01:21:56,839 --> 01:21:51,840

happened within maybe 20 or 30 miles of

1492

01:21:59,839 --> 01:21:56,849

a famous place in Texas where some

1493

01:22:01,580 --> 01:21:59,849

strange lights have been appearing since

1494

01:22:05,390 --> 01:22:01,590

the 1800s

1495

01:22:07,609 --> 01:22:05,400

called the Marfa lights short and it's a

1496

01:22:10,489 --> 01:22:07,619

strange phenomenon that to this day

1497

01:22:12,680 --> 01:22:10,499

remains unexplained even though a lot of

1498

01:22:14,989 --> 01:22:12,690

scientific studies have been conducted

1499

01:22:20,180 --> 01:22:14,999

some people think it's geologic

1500

01:22:24,049 --> 01:22:20,190

geothermal mineralogical in in nature

1501

01:22:26,149 --> 01:22:24,059

and so almost every night in the small

1502

01:22:30,169 --> 01:22:26,159

town of Marfa Texas which is directly

1503

01:22:31,149 --> 01:22:30,179

across the border from where the events

1504

01:22:33,790 --> 01:22:31,159

we've been talking about

1505

01:22:36,520 --> 01:22:33,800

on this show and Qayamat took place

1506

01:22:39,010 --> 01:22:36,530

right on the Texas side is the small

1507

01:22:41,379 --> 01:22:39,020

town of Marfa which Ruben and I have

1508

01:22:43,689 --> 01:22:41,389

been to many times we've gone out there

1509

01:22:46,240 --> 01:22:43,699

we've taken other UFO researchers out

1510

01:22:48,340 --> 01:22:46,250

there to look at them we recently went

1511

01:22:49,810 --> 01:22:48,350

out with Travis Walton and a number of

1512

01:22:54,610 --> 01:22:49,820

other researchers to look at these

1513

01:22:56,740 --> 01:22:54,620

lights and the UFO people well

1514

01:23:00,600 --> 01:22:56,750

those lights have been seen since the

1515

01:23:04,750 --> 01:23:00,610

1800s as I mentioned and so Ruben and I

1516

01:23:07,180 --> 01:23:04,760

and another part of our research team

1517

01:23:10,149 --> 01:23:07,190

John LeMay who lives in Roswell New

1518

01:23:13,149 --> 01:23:10,159

Mexico we came out with a book called

1519

01:23:15,729 --> 01:23:13,159

the real Cowboys and Aliens UFO

1520

01:23:18,310 --> 01:23:15,739

encounters of the Old West and that

1521

01:23:21,430 --> 01:23:18,320

included that book included a chapter on

1522

01:23:28,979 --> 01:23:21,440

the Marfa lights which were first seen

1523

01:23:31,899 --> 01:23:28,989

by Cowboys Texas Cowboys back in 1888

1524

01:23:35,979 --> 01:23:31,909

and we also have in the book many other

1525

01:23:39,430 --> 01:23:35,989

cases that occurred in the in the 1800s

1526

01:23:41,500 --> 01:23:39,440

in the nineteenth century and so Reuben

1527

01:23:44,290 --> 01:23:41,510

and I and John have been working on

1528

01:23:46,360 --> 01:23:44,300

follow-up book now which we're about to

1529

01:23:49,479 --> 01:23:46,370

release it's going to be a three book

1530

01:23:51,640 --> 01:23:49,489

series the real Cowboys and Aliens which

1531

01:23:55,180 --> 01:23:51,650

were very excited about so that's been

1532

01:23:57,850 --> 01:23:55,190

taking up a lot of our time recently got

1533

01:24:00,580 --> 01:23:57,860

it now your book on that economy case

1534

01:24:03,060 --> 01:24:00,590

the Kuriyama incident that is available

1535

01:24:04,209 --> 01:24:03,070

now over at Roswell Books your website

1536

01:24:06,160 --> 01:24:04,219

yeah

1537

01:24:08,590 --> 01:24:06,170

Roswell books calm we have more

1538

01:24:10,810 --> 01:24:08,600

information on that the original book

1539

01:24:14,709 --> 01:24:10,820

was called Mexico's Roswell and then we

1540

01:24:17,410 --> 01:24:14,719

followed it up with a second book about

1541

01:24:20,169 --> 01:24:17,420

the case called the coyame incident

1542

01:24:23,729 --> 01:24:20,179

which went more into depth and included

1543

01:24:26,379 --> 01:24:23,739

new information so the original book

1544

01:24:28,570 --> 01:24:26,389

mexico's roswell came out in a first

1545

01:24:33,280 --> 01:24:28,580

edition and then we had a second edition

1546

01:24:35,709 --> 01:24:33,290

and then the third the third updating of

1547

01:24:39,070 --> 01:24:35,719

the story was the book the koyama

1548

01:24:42,160 --> 01:24:39,080

incident which is also available in in

1549

01:24:43,450 --> 01:24:42,170

color with all the photographs in it in

1550

01:24:46,920 --> 01:24:43,460

color

1551

01:24:49,150 --> 01:24:46,930

which is you know there's some very nice

1552

01:24:52,090 --> 01:24:49,160

photographs that we took over the years

1553

01:24:54,670 --> 01:24:52,100

of koyama and the surrounding desert it

1554

01:24:59,980 --> 01:24:54,680

turned out really well in as a color

1555

01:25:04,540 --> 01:24:59,990

addition but we mainly what folks mainly

1556

01:25:07,210 --> 01:25:04,550

get are the it's the regular black and

1557

01:25:09,850 --> 01:25:07,220

white bird and you've got another book

1558

01:25:13,000 --> 01:25:09,860

available over there at Roswell Books

1559

01:25:15,310 --> 01:25:13,010

calm the Cisco Grove UFO encounter can

1560

01:25:18,370 --> 01:25:15,320

you give us a quick synopsis of that

1561

01:25:21,030 --> 01:25:18,380

case I'm gonna turn that over to my

1562

01:25:24,630 --> 01:25:21,040

friend Reuben as he was the primary

1563

01:25:29,110 --> 01:25:24,640

mover and shaker on that story Reuben Oh

1564

01:25:32,410 --> 01:25:29,120

primarily thank you noe we investigated

1565

01:25:37,330 --> 01:25:32,420

a case that it's a historical case

1566

01:25:41,080 --> 01:25:37,340

happened in 1964 up in the mountains of

1567

01:25:43,750 --> 01:25:41,090

northern California point toward Truckee

1568

01:25:46,690 --> 01:25:43,760

and toward Reno where a gentleman and

1569

01:25:48,790 --> 01:25:46,700

his friends were that weekend we're

1570

01:25:51,730 --> 01:25:48,800

going on and we're involved in bow and

1571

01:25:56,560 --> 01:25:51,740

arrow hunting and he had an encounter

1572

01:26:01,030 --> 01:25:56,570

while hunting with these humanoids and

1573

01:26:03,640 --> 01:26:01,040

also he had observed as large cylinder

1574

01:26:07,330 --> 01:26:03,650

shape object and what he did was he

1575

01:26:10,810 --> 01:26:07,340

climbed up a tree and stood up and had

1576

01:26:13,840 --> 01:26:10,820

used the tree as a refuge and was

1577

01:26:16,660 --> 01:26:13,850

fighting for avoiding being captured by

1578

01:26:17,850 --> 01:26:16,670

these entities so it's a whole story and

1579

01:26:22,150 --> 01:26:17,860

it really happened

1580

01:26:25,660 --> 01:26:22,160

we have his testimony really quite

1581

01:26:27,970 --> 01:26:25,670

really an interesting case got it okay

1582

01:26:30,460 --> 01:26:27,980

well yeah let's let's wrap this up

1583

01:26:34,110 --> 01:26:30,470

everybody I'd like to thank our guests

1584

01:26:38,320 --> 01:26:34,120

for today noe Torres Ruben Uriarte

1585

01:26:39,700 --> 01:26:38,330

Carlos Guzman and Tony Ramirez thanks

1586

01:26:43,240 --> 01:26:39,710

gentlemen for coming on with us this is

1587

01:26:45,730 --> 01:26:43,250

an amazing case that definitely serves a

1588

01:26:48,520 --> 01:26:45,740

good bit more attention head on over to

1589

01:26:51,880 --> 01:26:48,530

roswell books and you'll see noe and

1590

01:26:54,520 --> 01:26:51,890

Rubens entire bibliography over there

1591

01:26:56,229 --> 01:26:54,530

and that by all means go find out more

1592

01:26:57,970 --> 01:26:56,239

about it because I think we kind of

1593

01:26:59,830 --> 01:26:57,980

just scratched the surface today so I

1594

01:27:06,820 --> 01:26:59,840

gentlemen thank you all very much for

1595

01:27:08,650 --> 01:27:06,830

joining us absolutely absolutely so I am

1596

01:27:10,690 --> 01:27:08,660

going to wrap things up we are going to

1597

01:27:13,930 --> 01:27:10,700

be back on Tuesday yeah hopefully chan

1598

01:27:15,760 --> 01:27:13,940

is able to join us because sparrows mole

1599

01:27:19,570 --> 01:27:15,770

heirress is going to talk a little bit

1600

01:27:22,479 --> 01:27:19,580

about the alien autopsy case the video

1601
01:27:24,070 --> 01:27:22,489
that he was involved in producing a fake

1602
01:27:25,900 --> 01:27:24,080
video that he's gonna tell us all about

1603
01:27:28,300 --> 01:27:25,910
but there are still some people who were

1604
01:27:30,700 --> 01:27:28,310
involved in that that are trying to lead

1605
01:27:33,220 --> 01:27:30,710
people into believing that that is a

1606
01:27:34,780 --> 01:27:33,230
legitimate video when in fact it's not

1607
01:27:36,310 --> 01:27:34,790
but then we're going to go into some

1608
01:27:38,020 --> 01:27:36,320
detail on that that's been getting a lot

1609
01:27:39,700 --> 01:27:38,030
of attention lately so that's gonna be a

1610
01:27:41,770 --> 01:27:39,710
lot of fun now we've got that scheduled

1611
01:27:43,900 --> 01:27:41,780
for Tuesday and then next weekend is

1612
01:27:46,209 --> 01:27:43,910
Labor Day weekend so I guess what I'm

1613
01:27:48,630 --> 01:27:46,219

gonna be doing I'm gonna be taking off

1614

01:27:50,920 --> 01:27:48,640

and relaxing and having some fun

1615

01:27:53,020 --> 01:27:50,930

gentlemen again thanks for coming on

1616

01:27:57,010 --> 01:27:53,030

enjoy your Labor Day holiday coming up

1617

01:27:58,209 --> 01:27:57,020

next week and goodbye everybody thank
