

JAN ALDRICH AND PAUL DEAN
DISCUSS PROJECT 1947 AND WHAT'S
GOING ON WITH UFOS TODAY

UFONN
SUNDAY

1
00:00:05,440 --> 00:00:04,370

[Music]

2
00:00:14,510 --> 00:00:05,450

[Applause]

3
00:01:04,250 --> 00:00:34,160

[Music]

4
00:01:06,890 --> 00:01:04,260
and good afternoon from Philadelphia

5
00:01:09,980 --> 00:01:06,900
Frank here with another episode of UFO

6
00:01:12,530 --> 00:01:09,990
news network Sunday and today we've got

7
00:01:16,280 --> 00:01:12,540
a couple very special guests to talk all

8
00:01:18,560 --> 00:01:16,290
about UFOs past and maybe a little bit

9
00:01:20,719 --> 00:01:18,570
about the present and possibly even the

10
00:01:23,300 --> 00:01:20,729
future you just never know and let me

11
00:01:25,820 --> 00:01:23,310
bring on my co-host today chant Hannah

12
00:01:29,510 --> 00:01:25,830
to introduce our very first special

13
00:01:31,010 --> 00:01:29,520

guest good afternoon thank you Frank

14

00:01:33,260 --> 00:01:31,020

yeah I really appreciate that

15

00:01:35,420 --> 00:01:33,270

introduction we have a wonderful person

16

00:01:38,889 --> 00:01:35,430

who is an icon in the UFO community he's

17

00:01:41,330 --> 00:01:38,899

a well known researcher and historian

18

00:01:44,960 --> 00:01:41,340

various topics that we're gonna discuss

19

00:01:48,200 --> 00:01:44,970

on the show it is Jann Aldridge he is a

20

00:01:51,950 --> 00:01:48,210

former master sergeant retired 25 plus

21

00:01:54,440 --> 00:01:51,960

years at the US Army and he now resides

22

00:01:58,219 --> 00:01:54,450

in Connecticut he received a BA in

23

00:02:00,820 --> 00:01:58,229

history from the University of Maryland

24

00:02:04,690 --> 00:02:00,830

and Aldridge retired from the US Army

25

00:02:08,900 --> 00:02:04,700

with the field and artillery is seven

26

00:02:11,089 --> 00:02:08,910

overseas years overseas tours he has had

27

00:02:12,770 --> 00:02:11,099

16 years experience in meteorology with

28

00:02:15,410 --> 00:02:12,780

the remaining time and intelligence

29

00:02:17,210 --> 00:02:15,420

personnel and safety positions in spite

30

00:02:19,640 --> 00:02:17,220

of his many overseas assignments plus

31

00:02:23,210 --> 00:02:19,650

the continental US Jan has had no

32

00:02:26,979 --> 00:02:23,220

significant UFO personal experiences and

33

00:02:31,040 --> 00:02:26,989

since 95 Jan has worked full-time on

34

00:02:34,880 --> 00:02:31,050

project 1947 this is a research effort

35

00:02:37,820 --> 00:02:34,890

funded by Koufos fou four and MUFON now

36

00:02:39,530 --> 00:02:37,830

called the UFO research coalition he has

37

00:02:41,809 --> 00:02:39,540

visited over a hundred and fifty

38

00:02:44,839 --> 00:02:41,819

libraries universities archives museums

39

00:02:47,960 --> 00:02:44,849
and historical societies in 46 states

40

00:02:50,330 --> 00:02:47,970
and Canadian provinces and Jan delved

41

00:02:53,089 --> 00:02:50,340
into MUFON UFO FILES when he visited

42

00:02:55,940 --> 00:02:53,099
sequin Texas former location of the

43

00:02:59,180 --> 00:02:55,950
MUFON headquarters over 300 contributors

44

00:03:01,009 --> 00:02:59,190
worldwide have submitted over 10,000

45

00:03:02,990 --> 00:03:01,019
pages of personal accounts newspaper

46

00:03:06,920 --> 00:03:03,000
clippings reports and government

47

00:03:08,840 --> 00:03:06,930
documents to project 1947 in 1996 with

48

00:03:11,120 --> 00:03:08,850
the assistance of America Online and

49

00:03:12,830 --> 00:03:11,130
other researchers he created a private

50

00:03:15,890 --> 00:03:12,840
email computer network

51
00:03:17,390 --> 00:03:15,900
the project 1947 email research list to

52
00:03:20,690 --> 00:03:17,400
share and encourage serious UFO

53
00:03:22,070 --> 00:03:20,700
researchers worldwide project 1947

54
00:03:24,590 --> 00:03:22,080
continues and welcomes further

55
00:03:28,430 --> 00:03:24,600
contributions in the collection research

56
00:03:31,850 --> 00:03:28,440
and analysis of pre 47 1947 and early

57
00:03:34,430 --> 00:03:31,860
UFO era material and really I could go

58
00:03:36,110 --> 00:03:34,440
on about project 1947 we will be asking

59
00:03:40,630 --> 00:03:36,120
him about this in a moment but I'd like

60
00:03:44,180 --> 00:03:40,640
to paint the area era of the pre 1947

61
00:03:48,290 --> 00:03:44,190
research area that Jan has been working

62
00:03:51,490 --> 00:03:48,300
so hard on in 1939 Nazi Germany invades

63
00:03:53,300 --> 00:03:51,500

Poland World War two begins in 41

64

00:03:55,550 --> 00:03:53,310

regular commercial television

65

00:03:58,250 --> 00:03:55,560

broadcasting begins CBS and NBC

66

00:04:00,290 --> 00:03:58,260

television networks launched in 45

67

00:04:02,960 --> 00:04:00,300

President Roosevelt begins a fourth term

68

00:04:06,470 --> 00:04:02,970

he dies Truman becomes vice president

69

00:04:08,390 --> 00:04:06,480

becomes president and he becomes a 33rd

70

00:04:11,750 --> 00:04:08,400

President of the United States President

71

00:04:16,190 --> 00:04:11,760

Truman dead in 46 the US Atomic Energy

72

00:04:17,780 --> 00:04:16,200

Act of 46 occurred and that determined

73

00:04:21,760 --> 00:04:17,790

how the US would control and manage

74

00:04:23,960 --> 00:04:21,770

nuclear technology and then it goes on

75

00:04:25,970 --> 00:04:23,970

regarding Robert Goddard

76

00:04:30,860 --> 00:04:25,980

he was an American engineer professor

77

00:04:35,150 --> 00:04:30,870

and physicist he died in 1945 in 1945

78

00:04:37,820 --> 00:04:35,160

World War two ended in 44 B two rockets

79

00:04:39,950 --> 00:04:37,830

began falling on Britain and 45 the

80

00:04:43,910 --> 00:04:39,960

nuclear atomic bomb is perfected in the

81

00:04:46,340 --> 00:04:43,920

u.s. tested in New Mexico 46 we had

82

00:04:48,110 --> 00:04:46,350

ghost rockets that occurred ghost

83

00:04:50,390 --> 00:04:48,120

rockets is a name given to mysterious

84

00:04:52,040 --> 00:04:50,400

rocket or missile shaped objects which

85

00:04:55,400 --> 00:04:52,050

were sighted on many different occasions

86

00:04:57,710 --> 00:04:55,410

between May and December of 46 with

87

00:05:00,410 --> 00:04:57,720

peaks on the 9th and 11th of August and

88

00:05:02,390 --> 00:05:00,420

46 they were seen primarily in Sweden

89

00:05:05,450 --> 00:05:02,400

and nearby skiing in Scandinavian

90

00:05:06,860 --> 00:05:05,460

countries I will be asking John a little

91

00:05:10,070 --> 00:05:06,870

bit about that to see if he has any

92

00:05:12,020 --> 00:05:10,080

information on that topic in early July

93

00:05:14,630 --> 00:05:12,030

the alleged and disputed Roswell UFO

94

00:05:16,610 --> 00:05:14,640

incident occurred which will of course

95

00:05:19,210 --> 00:05:16,620

be going over that with Jan and Paul

96

00:05:24,050 --> 00:05:19,220

Dehn later on into the show and

97

00:05:26,030 --> 00:05:24,060

September 18th of 47 the CIA officially

98

00:05:29,030 --> 00:05:26,040

comes into existence

99

00:05:31,580 --> 00:05:29,040

in 47 power was finally transferred and

100

00:05:33,620 --> 00:05:31,590

India was declared a free nation then we

101
00:05:35,180 --> 00:05:33,630
had some interesting TV shows that were

102
00:05:38,660 --> 00:05:35,190
on that was dragnet Miracle on 34th

103
00:05:43,880 --> 00:05:38,670
Street was great movie and then we also

104
00:05:45,770 --> 00:05:43,890
had in 47 an x1 rocket plane piloted by

105
00:05:49,370 --> 00:05:45,780
Chuck Yeager which broke the sound

106
00:05:53,690 --> 00:05:49,380
barrier 47 was a really interesting year

107
00:05:57,140 --> 00:05:53,700
Jan of you started project 1947 can you

108
00:06:04,030 --> 00:05:57,150
tell us why you started project 1947

109
00:06:14,630 --> 00:06:04,040
which focuses in on pre 1947 era and

110
00:06:18,890 --> 00:06:14,640
1947 okay when in 93 when I when I came

111
00:06:24,040 --> 00:06:18,900
back from Germany after my last tour I

112
00:06:32,450 --> 00:06:27,080
about that time the UFO research

113
00:06:37,390 --> 00:06:32,460

coalition was formed and I made contact

114

00:06:43,010 --> 00:06:37,400

with Don Berliner and I said you know I

115

00:06:51,910 --> 00:06:43,020

I asked him about Ted bloater who had in

116

00:06:55,700 --> 00:06:51,920

the 60s as part of his employment he was

117

00:06:58,040 --> 00:06:55,710

he was in a Broadway show that was

118

00:07:07,930 --> 00:06:58,050

touring the country he would go around

119

00:07:12,020 --> 00:07:07,940

to various libraries and go through 1947

120

00:07:18,650 --> 00:07:12,030

newspapers because the era was not well

121

00:07:20,690 --> 00:07:18,660

documented and so he went to our guests

122

00:07:24,620 --> 00:07:20,700

I went he went through a hundred and

123

00:07:31,790 --> 00:07:24,630

sixty and then after after his book he

124

00:07:36,670 --> 00:07:31,800

went to through more so with with 168

125

00:07:38,450 --> 00:07:36,680

newspapers he found over 850 sightings

126

00:07:41,800 --> 00:07:38,460

which he

127

00:07:47,150 --> 00:07:41,810

documented in the in his book about the

128

00:07:52,189 --> 00:07:47,160

1947 wave I I didn't hear about it to

129

00:07:55,610 --> 00:07:52,199

almost the end and I tried to help him

130

00:08:00,469 --> 00:07:55,620

by finding things in local newspapers

131

00:08:05,990 --> 00:08:00,479

and whenever I want anything went

132

00:08:09,430 --> 00:08:06,000

anywhere after after the book was out he

133

00:08:13,700 --> 00:08:09,440

he made the total well over a thousand I

134

00:08:16,670 --> 00:08:13,710

said this is this is a almost completely

135

00:08:20,170 --> 00:08:16,680

unknown era I mean you know laying no

136

00:08:23,510 --> 00:08:20,180

but we know about three or four

137

00:08:32,750 --> 00:08:23,520

incidences that's in every UFO book but

138

00:08:35,600 --> 00:08:32,760

the actual extent and also the the type

139

00:08:37,519 --> 00:08:35,610

of sightings that were happening there

140

00:08:40,850 --> 00:08:37,529

unknown everybody always tells me oh

141

00:08:44,300 --> 00:08:40,860

well 1947 we're talking about sightings

142

00:08:46,630 --> 00:08:44,310

that are way off in the distance and not

143

00:08:50,840 --> 00:08:46,640

true at all

144

00:08:53,590 --> 00:08:50,850

so I I when I talked to it Don bruiner I

145

00:08:58,730 --> 00:08:53,600

asked him if anybody had kept Ted's

146

00:09:00,500 --> 00:08:58,740

research up and he said no and I said

147

00:09:02,210 --> 00:09:00,510

well I'd like to continue it and he says

148

00:09:03,139 --> 00:09:02,220

now there's nothing more to find they

149

00:09:07,340 --> 00:09:03,149

found everything

150

00:09:12,010 --> 00:09:07,350

hahaha okay that's that's a challenge

151

00:09:14,240 --> 00:09:12,020

don't tell me that I'm always contrary

152

00:09:15,710 --> 00:09:14,250

that's never that's never the case

153

00:09:19,699 --> 00:09:15,720

there's always something new that the

154

00:09:23,750 --> 00:09:19,709

escapes somebody right so I I said okay

155

00:09:28,069 --> 00:09:23,760

I wanna I want to continue this project

156

00:09:32,900 --> 00:09:28,079

and then he Don told me well there might

157

00:09:37,040 --> 00:09:32,910

be some money were ya explaining about

158

00:09:43,130 --> 00:09:37,050

the UFO coalition which was MUFON fool

159

00:09:46,880 --> 00:09:43,140

for and Koufos got together and Robert

160

00:09:49,790 --> 00:09:46,890

Bigelow was offering some money at the

161

00:09:53,050 --> 00:09:49,800

time it hadn't been finalized I said

162

00:09:57,790 --> 00:09:53,060

look I'm going out to the west coast

163

00:10:13,130 --> 00:10:02,960

where the whole thing started so I went

164

00:10:17,650 --> 00:10:13,140

up to Washington Oregon and Idaho I went

165

00:10:21,230 --> 00:10:17,660

to the university's main universities

166

00:10:24,740 --> 00:10:21,240

there was something at the time it's

167

00:10:32,480 --> 00:10:24,750

continued for years now it's the

168

00:10:34,370 --> 00:10:32,490

National Newspaper project excuse me

169

00:10:39,940 --> 00:10:34,380

that's going to happen a couple of times

170

00:10:43,730 --> 00:10:39,950

I it's a cancer go off it's it's from I

171

00:10:46,070 --> 00:10:43,740

had an operation so maybe I'll sound

172

00:10:57,200 --> 00:10:46,080

like I'm eating something I'm taking it

173

00:11:07,090 --> 00:10:57,210

off no words no racism okay so like the

174

00:11:17,020 --> 00:11:14,360

University in Idaho or the main entity

175

00:11:21,050 --> 00:11:17,030

in Idaho that was collecting newspapers

176

00:11:23,360 --> 00:11:21,060

so I went there and started going

177

00:11:26,360 --> 00:11:23,370

through Idaho newspapers at Ted head and

178

00:11:30,950 --> 00:11:26,370

touched and you know things were coming

179

00:11:33,500 --> 00:11:30,960

out yeah yeah just to jump in here

180

00:11:35,840 --> 00:11:33,510

really quick Jan it's been a long time

181

00:11:38,390 --> 00:11:35,850

probably yeah excuse me I have the

182

00:11:40,580 --> 00:11:38,400

better part of 40 years as since I was

183

00:11:44,320 --> 00:11:40,590

going around and they're spelunking

184

00:11:46,580 --> 00:11:44,330

around in old newspapers and just

185

00:11:48,980 --> 00:11:46,590

looking for this and that day you know

186

00:11:50,440 --> 00:11:48,990

on microfilm I'm assuming most of these

187

00:11:54,580 --> 00:11:50,450

are on microfilm

188

00:11:56,750 --> 00:11:54,590

really I mean howdy is this material

189

00:11:59,530 --> 00:11:56,760

indexed in any way or do you literally

190

00:12:03,200 --> 00:11:59,540

have to go through page by page by page

191

00:12:05,330 --> 00:12:03,210

looking for UFO sightings and it sounds

192

00:12:05,960 --> 00:12:05,340

like it's potentially some some pretty

193

00:12:08,990 --> 00:12:05,970

tedious

194

00:12:13,759 --> 00:12:09,000

work yeah it's it's grunt work at the

195

00:12:17,389 --> 00:12:13,769

time it was burnt work because you had

196

00:12:19,400 --> 00:12:17,399

you know well you didn't have microfilm

197

00:12:20,449 --> 00:12:19,410

or all the times you had some microfilm

198

00:12:22,850 --> 00:12:20,459

sometimes you had to go through

199

00:12:27,710 --> 00:12:22,860

newspaper after newspaper turn page

200

00:12:31,519 --> 00:12:27,720

after page now you can do this all this

201

00:12:34,429 --> 00:12:31,529

research online so compared to the

202

00:12:42,829 --> 00:12:34,439

amount of money money we spent going to

203

00:12:46,670 --> 00:12:42,839

all these all these places all over the

204

00:12:48,679 --> 00:12:46,680

country and in Canada you could do that

205

00:12:52,150 --> 00:12:48,689

from the from your computer now

206

00:12:58,490 --> 00:12:52,160

but you couldn't then and nothing had

207

00:13:01,519 --> 00:12:58,500

not actually correct most newspapers had

208

00:13:04,179 --> 00:13:01,529

not been indexed a few had and that was

209

00:13:15,980 --> 00:13:09,889

the the newspaper collections were

210

00:13:18,079 --> 00:13:15,990

smaller than two because now the they're

211

00:13:20,929 --> 00:13:18,089

putting them online and it's commercial

212

00:13:27,379 --> 00:13:20,939

operation and they're constantly adding

213

00:13:29,240 --> 00:13:27,389

to the newspapers but at the time during

214

00:13:35,449 --> 00:13:29,250

the time we were I was traveling around

215

00:13:41,509 --> 00:13:35,459

the country myself and others that were

216

00:13:47,299 --> 00:13:41,519

aiding me went through four thousand

217

00:13:51,860 --> 00:13:47,309

newspapers and then about another I'd

218

00:13:53,990 --> 00:13:51,870

say six hundred overseas newspapers like

219

00:13:57,619 --> 00:13:54,000

I say today it's much easier because

220

00:14:00,199 --> 00:13:57,629

they have this online you can do you

221

00:14:02,629 --> 00:14:00,209

could do this research and we've

222

00:14:07,610 --> 00:14:02,639

continued this research very green woods

223

00:14:11,480 --> 00:14:07,620

the main one and he he's done thousands

224

00:14:13,840 --> 00:14:11,490

of newspapers and he's not just

225

00:14:17,929 --> 00:14:13,850

concentrating on nineteen forty-seven

226

00:14:19,400 --> 00:14:17,939

like I was although I did you know I did

227

00:14:26,229 --> 00:14:19,410

dip into other newspapers

228

00:14:29,659 --> 00:14:26,239

at other times oh go ahead I'm sorry

229

00:14:35,710 --> 00:14:29,669

yeah I used to go 1947 then I look for

230

00:14:38,509 --> 00:14:35,720

anything in the 1957 wave and maybe 1950

231

00:14:48,619 --> 00:14:38,519

but I was a coward I didn't want to look

232

00:14:51,769 --> 00:14:48,629

at 52 52 is 47 was a giant wave I don't

233

00:14:54,949 --> 00:14:51,779

think people most people in ufology do

234

00:15:05,329 --> 00:14:54,959

not understand how what a big wave it

235

00:15:11,149 --> 00:15:05,339

was so found almost 3000 items on UFOs

236

00:15:14,989 --> 00:15:11,159

some are humorous or political cartoons

237

00:15:23,799 --> 00:15:14,999

or or things like that but as far as

238

00:15:26,689 --> 00:15:23,809

sightings you know it's way over 1500

239

00:15:28,909 --> 00:15:26,699

yeah I just yeah if I can jump in with a

240

00:15:30,889 --> 00:15:28,919

quick question here over the last couple

241

00:15:34,009 --> 00:15:30,899

years we've seen a lot of obviously

242

00:15:36,229 --> 00:15:34,019

articles about the UFOs the attention

243

00:15:39,319 --> 00:15:36,239

has really picked up but we also saw a

244

00:15:42,409 --> 00:15:39,329

fair number of editorials as well did

245

00:15:45,679 --> 00:15:42,419

you come across any editorials related

246

00:15:47,419 --> 00:15:45,689

to the waves whether it was 47 or 57 or

247

00:15:50,059 --> 00:15:47,429

whatever you looked at did you come

248

00:15:53,539 --> 00:15:50,069

across any kind of editorial articles

249

00:15:56,659 --> 00:15:53,549

about the UFO subject and if you did

250

00:16:02,659 --> 00:15:56,669

what was the what was the the general

251

00:16:06,049 --> 00:16:02,669

take on it all well in 47 it was I mean

252

00:16:10,099 --> 00:16:06,059

there were were of course the old ideas

253

00:16:12,619 --> 00:16:10,109

that it's a big joke in its it's summer

254

00:16:14,659 --> 00:16:12,629

silly season remember this is after the

255

00:16:19,279 --> 00:16:14,669

war two people are trying to get back to

256

00:16:21,729 --> 00:16:19,289

normal life and humor is a kind of a

257

00:16:26,179 --> 00:16:21,739

thing that's going on about that time so

258

00:16:28,669 --> 00:16:26,189

whether you had some material like that

259

00:16:33,319 --> 00:16:28,679

you had other people are awarding this

260

00:16:37,479 --> 00:16:33,329

mighty rations 1947 too many

261

00:16:46,489 --> 00:16:43,789

outer space as a as a place which these

262

00:16:48,350 --> 00:16:46,499

things could come from except they would

263

00:16:53,119 --> 00:16:48,360

they they thought they might be meteors

264

00:16:56,379 --> 00:16:53,129

the first the first Gallup poll was

265

00:17:01,789 --> 00:16:56,389

taken in August the recognition of

266

00:17:06,889 --> 00:17:01,799

flying saucers the name was almost it

267

00:17:09,829 --> 00:17:06,899

was in the high 90s and so almost

268

00:17:16,909 --> 00:17:09,839

everybody in America had heard about him

269

00:17:19,610 --> 00:17:16,919

and then later on of course the the

270

00:17:21,769 --> 00:17:19,620

spectrum goes all the way from serious

271

00:17:23,779 --> 00:17:21,779

and why are we doing something about

272

00:17:29,690 --> 00:17:23,789

this and let's look into this to the

273

00:17:36,919 --> 00:17:29,700

idea that oh the it's silly season again

274

00:17:40,970 --> 00:17:36,929

the nuts are out here we're having more

275

00:17:43,490 --> 00:17:40,980

these things reported and it's obvious

276

00:17:54,980 --> 00:17:43,500

that these people are publicity seekers

277

00:17:57,440 --> 00:17:54,990

her or other things like that so I do

278

00:17:59,480 --> 00:17:57,450

know that the the Arnold case was a

279

00:18:02,629 --> 00:17:59,490

Kenneth Arnold case was a very famous

280

00:18:05,480 --> 00:18:02,639

case from 1947 and I don't know if was

281

00:18:07,730 --> 00:18:05,490

immediately afterwards or you know a few

282

00:18:08,810 --> 00:18:07,740

months afterwards maybe 48 49 now

283

00:18:11,060 --> 00:18:08,820

whatever the case may be

284

00:18:13,399 --> 00:18:11,070

edward r murrow had done an interview

285

00:18:16,039 --> 00:18:13,409

with him and do you get the sense that

286

00:18:22,730 --> 00:18:16,049

that helped any in terms of taking the

287

00:18:30,300 --> 00:18:22,740

subject matter seriously people did I

288

00:18:30,310 --> 00:18:33,690

[Applause]

289

00:18:47,520 --> 00:18:39,270

the wright-patterson Air Force Base the

290

00:18:51,000 --> 00:18:47,530

air Materiel Command this was this is an

291

00:18:54,690 --> 00:18:51,010

interesting 1946 letter or letters

292

00:18:57,690 --> 00:18:54,700

between general LeMay who at the time

293

00:19:01,050 --> 00:18:57,700

was in charge of research and

294

00:19:06,330 --> 00:19:01,060

development and the secretary of the Air

295

00:19:09,030 --> 00:19:06,340

Force and the secretary Air Force

296

00:19:12,030 --> 00:19:09,040

[h__h] may says what happens if you

297

00:19:21,210 --> 00:19:12,040

have a project something that happens

298

00:19:24,620 --> 00:19:21,220

between budgets and LeMay said well look

299

00:19:29,940 --> 00:19:24,630

here's what here's what happens if the

300

00:19:32,310 --> 00:19:29,950

if the commander of AMC decides that

301

00:19:36,720 --> 00:19:32,320

there's a necessity for some kind of

302

00:19:43,010 --> 00:19:36,730

project between budgets he has the right

303

00:19:51,120 --> 00:19:43,020

to do a interim report interim project

304

00:19:55,920 --> 00:19:51,130

and but the next budget he has to he has

305

00:19:58,020 --> 00:19:55,930

to go ahead and justify putting it in

306

00:20:01,380 --> 00:19:58,030

the next budget but he has the authority

307

00:20:02,420 --> 00:20:01,390

to do an interim project that's exactly

308

00:20:07,710 --> 00:20:02,430

what happened

309

00:20:13,560 --> 00:20:07,720

the aviation editor at the Boise

310

00:20:18,720 --> 00:20:13,570

statement Statesman newspaper who had

311

00:20:21,720 --> 00:20:18,730

interviewed Arnold very early on the 3rd

312

00:20:29,120 --> 00:20:21,730

of July 1947 Arnold's sighting was on

313

00:20:32,640 --> 00:20:29,130

them on the 24th so on the 3rd of July

314

00:20:39,570 --> 00:20:32,650

there just before the July 4th weekend

315

00:20:42,540 --> 00:20:39,580

he called General twining at their

316

00:20:44,490 --> 00:20:42,550

materials come in and he told John 20 he

317

00:20:46,210 --> 00:20:44,500

said you know there's something to this

318

00:20:48,970 --> 00:20:46,220

UFO stuff

319

00:20:53,649 --> 00:20:48,980

he says I I've got five cases here that

320

00:21:00,119 --> 00:20:53,659

I've looked into as part of the journal

321

00:21:09,100 --> 00:21:05,019

so I'm a wrote a little memo it's it's

322

00:21:13,240 --> 00:21:09,110

on project 47 he wrote a little memo to

323

00:21:16,110 --> 00:21:13,250

his his second general brett-brett Nell

324

00:21:18,850 --> 00:21:16,120

who was in charge of engineering at

325

00:21:20,950 --> 00:21:18,860

wright-patterson he wrote the memo said

326

00:21:28,480 --> 00:21:20,960

we're going to look into this flying

327

00:21:31,299 --> 00:21:28,490

saucer thing so get ready and so right

328

00:21:35,070 --> 00:21:31,309

almost right after the fourth of July

329

00:21:43,139 --> 00:21:39,310

AMC was already looking into this now he

330

00:21:46,269 --> 00:21:43,149

didn't need to to go to the Pentagon and

331

00:21:48,659 --> 00:21:46,279

get permission he could do it on his own

332

00:21:53,889 --> 00:21:48,669

authority and that's what he did

333

00:21:56,889 --> 00:21:53,899

later on they did go to Vandenberg the

334

00:22:00,149 --> 00:21:56,899

vice commander of the Air Force and or

335

00:22:03,850 --> 00:22:00,159

vice chief of staff of the Air Force and

336

00:22:05,440 --> 00:22:03,860

told them what he had done they were

337

00:22:08,080 --> 00:22:05,450

already at the Pentagon they were

338

00:22:16,539 --> 00:22:08,090

already thinking about having such a

339

00:22:19,480 --> 00:22:16,549

project anyways so the the officials

340

00:22:26,560 --> 00:22:19,490

took it seriously from the beginning

341

00:22:29,889 --> 00:22:26,570

even though the the public relations

342

00:22:33,789 --> 00:22:29,899

people I'll spend a lot of time

343

00:22:37,090 --> 00:22:33,799

pooh-poohing the whole business so it's

344

00:22:40,509 --> 00:22:37,100

a it's kind of interesting and finding

345

00:22:45,129 --> 00:22:40,519

that that letter that told how the how

346

00:22:50,110 --> 00:22:45,139

an interim project could be initiated

347

00:22:52,779 --> 00:22:50,120

was very fortunate was that project was

348

00:22:53,320 --> 00:22:52,789

that sign or grudge or don't know sign

349

00:22:55,899 --> 00:22:53,330

yet

350

00:22:57,940 --> 00:22:55,909

okay okay it wasn't sign but they

351
00:23:00,250 --> 00:22:57,950
stopped start looking into this almost

352
00:23:03,970 --> 00:23:00,260
immediately

353
00:23:07,840 --> 00:23:03,980
the engineer section was up there was

354
00:23:12,820 --> 00:23:07,850
the one that was doing it at first and

355
00:23:16,090 --> 00:23:12,830
I've got a few of general breton Elle's

356
00:23:20,560 --> 00:23:16,100
letters where he's thanking people for

357
00:23:24,430 --> 00:23:20,570
sending in UFO reports but later it

358
00:23:27,580 --> 00:23:24,440
transferred over to intelligence up

359
00:23:29,980 --> 00:23:27,590
there years are you talking about yet

360
00:23:32,350 --> 00:23:29,990
okay you talk about a check now air

361
00:23:39,360 --> 00:23:32,360
technical Intelligence Center you know

362
00:23:43,810 --> 00:23:39,370
at the time it was called the T - okay

363
00:23:48,190 --> 00:23:43,820

Colonel McCoy was the was in charge of

364

00:23:52,630 --> 00:23:48,200

it and he was his title was deputy

365

00:23:59,230 --> 00:23:52,640

commanding general for air Materiel

366

00:24:01,480 --> 00:23:59,240

Center intelligence so he was he was in

367

00:24:04,090 --> 00:24:01,490

charge of intelligence and he his

368

00:24:08,530 --> 00:24:04,100

position was a generalist position even

369

00:24:13,060 --> 00:24:08,540

though he was a colonel which which

370

00:24:15,970 --> 00:24:13,070

meant something later when people were

371

00:24:21,010 --> 00:24:15,980

dealing with with him I mean he is only

372

00:24:24,640 --> 00:24:21,020

a colonel but he had the ear of general

373

00:24:26,920 --> 00:24:24,650

xx who was a lieutenant general so the

374

00:24:30,070 --> 00:24:26,930

head of Air Force intelligence was a

375

00:24:32,950 --> 00:24:30,080

major-general so you can see the

376

00:24:35,710 --> 00:24:32,960

dynamics there mm-hmm and they were

377

00:24:37,840 --> 00:24:35,720

obviously they were on this before the

378

00:24:40,630 --> 00:24:37,850

the Arnold case because that was the

379

00:24:42,760 --> 00:24:40,640

case that really got a lot of attention

380

00:24:44,230 --> 00:24:42,770

they weren't on it before the Arnold

381

00:24:47,700 --> 00:24:44,240

case they weren't you slightly

382

00:24:56,860 --> 00:24:47,710

afterwards right now okay okay yeah

383

00:25:01,570 --> 00:24:56,870

Arnold June 24 and Twinings memo to

384

00:25:05,530 --> 00:25:01,580

Britain L is 3 July

385

00:25:08,680 --> 00:25:05,540

just before ok ok yeah so just before

386

00:25:11,560 --> 00:25:08,690

the fourth of Joe because that case was

387

00:25:13,000 --> 00:25:11,570

really a turning point at least looking

388

00:25:15,190 --> 00:25:13,010

back from today that

389

00:25:17,320 --> 00:25:15,200

was a real turning point in terms of at

390

00:25:21,040 --> 00:25:17,330

least the public consciousness regarding

391

00:25:23,860 --> 00:25:21,050

UFOs after that case it really got a lot

392

00:25:27,340 --> 00:25:23,870

more attention and something about

393

00:25:29,440 --> 00:25:27,350

Arnold that he was regarded as a

394

00:25:31,990 --> 00:25:29,450

credible guide he he became kind of the

395

00:25:34,990 --> 00:25:32,000

first sort of private ufologist himself

396

00:25:38,680 --> 00:25:35,000

after that yes he did he did

397

00:25:43,540 --> 00:25:38,690

investigations in fact he even got a a

398

00:25:46,680 --> 00:25:43,550

letter from 4th Air Force you know

399

00:25:49,720 --> 00:25:46,690

saying that it was okay for him to do

400

00:25:51,610 --> 00:25:49,730

investigations he kind of hyped it up a

401
00:25:56,100 --> 00:25:51,620
little bit but yeah essentially they

402
00:26:01,180 --> 00:25:56,110
yeah they let him get involved

403
00:26:05,980 --> 00:26:01,190
officially and still in 219 I since 1967

404
00:26:11,410 --> 00:26:05,990
he he did investigation and sent it into

405
00:26:14,430 --> 00:26:11,420
the Idaho National Air Guard which we

406
00:26:18,940 --> 00:26:14,440
can't find it's not in the Blue Book

407
00:26:28,750 --> 00:26:18,950
files so but the newspaper said that he

408
00:26:31,000 --> 00:26:28,760
wouldn't did this ce-1 case so he stayed

409
00:26:32,670 --> 00:26:31,010
active for quite a while yeah and he

410
00:26:36,400 --> 00:26:32,680
developed a really good relationship

411
00:26:39,670 --> 00:26:36,410
with the Air Force and I mean the the

412
00:26:42,130 --> 00:26:39,680
two officers who interviewed him

413
00:26:45,910 --> 00:26:42,140

initially they they kind of vouched for

414

00:26:48,820 --> 00:26:45,920

his credibility and that that one I

415

00:26:51,450 --> 00:26:48,830

think probably a long way towards adding

416

00:26:54,820 --> 00:26:51,460

us and credibility to his sighting and

417

00:26:56,290 --> 00:26:54,830

also after and I don't know I guess it's

418

00:26:58,620 --> 00:26:56,300

in the timeframe so I'm guessing you

419

00:27:02,380 --> 00:26:58,630

know a little bit about that the two

420

00:27:05,020 --> 00:27:02,390

officers who interviewed him Arnold sort

421

00:27:06,490 --> 00:27:05,030

of called them in when there was a case

422

00:27:09,520 --> 00:27:06,500

in Maury island

423

00:27:11,560 --> 00:27:09,530

not too long after his own sighting that

424

00:27:14,890 --> 00:27:11,570

he went down investigated and he also

425

00:27:17,440 --> 00:27:14,900

called them in there were allegedly some

426
00:27:21,610 --> 00:27:17,450
some fragments from the UFO that was

427
00:27:24,670 --> 00:27:21,620
sighted that you know they they took

428
00:27:26,290 --> 00:27:24,680
possession of and can you talk a little

429
00:27:29,230 --> 00:27:26,300
bit about that case because I'm not

430
00:27:32,110 --> 00:27:29,240
sure it's not necessarily an ET UFO case

431
00:27:34,240 --> 00:27:32,120
but it ended pretty badly for the the

432
00:27:37,000 --> 00:27:34,250
air force guys involved some folks not

433
00:27:39,340 --> 00:27:37,010
familiar with that they were killed in a

434
00:27:42,460 --> 00:27:39,350
crash and of course then when you have

435
00:27:45,400 --> 00:27:42,470
conspiracy theories you can theorist you

436
00:27:48,040 --> 00:27:45,410
could say well the UFO destroyed the

437
00:27:53,080 --> 00:27:48,050
plane which is not the case it's not the

438
00:28:00,660 --> 00:27:53,090

case I've read the accident report it

439

00:28:04,210 --> 00:28:00,670

will the aircraft was defective but the

440

00:28:06,940 --> 00:28:04,220

these were remember the Air Force in

441

00:28:12,310 --> 00:28:06,950

early forty-seven is still part of the

442

00:28:15,510 --> 00:28:12,320

army it's the Army Air Force so two of

443

00:28:19,450 --> 00:28:15,520

the two officers that went up there were

444

00:28:21,580 --> 00:28:19,460

in the counterintelligence Corps Brown

445

00:28:27,250 --> 00:28:21,590

and I forget what the other guy's name

446

00:28:29,920 --> 00:28:27,260

was well they went up an interviewed

447

00:28:33,900 --> 00:28:29,930

Arnold they looked at some of the

448

00:28:38,170 --> 00:28:33,910

letters that he had got he had got about

449

00:28:40,210 --> 00:28:38,180

during the first as soon as he hit the

450

00:28:43,330 --> 00:28:40,220

newspapers people started sending him

451
00:28:54,040 --> 00:28:43,340
letters some of them were just theories

452
00:28:57,400 --> 00:28:54,050
or questions or things like that but a

453
00:28:59,560 --> 00:28:57,410
lot of people just hold him their

454
00:29:03,100 --> 00:28:59,570
sightings unfortunately Arnold didn't

455
00:29:05,410 --> 00:29:03,110
hold on to these almost 6,000 letters he

456
00:29:10,950 --> 00:29:05,420
sent him to Ray Palmer who sent him back

457
00:29:12,970 --> 00:29:10,960
and I they they were destroyed

458
00:29:15,760 --> 00:29:12,980
unfortunately and would that would be a

459
00:29:19,660 --> 00:29:15,770
treasure trove of stuff and then just a

460
00:29:22,300 --> 00:29:19,670
jump in identified didn't Palmer didn't

461
00:29:25,900 --> 00:29:22,310
Palmer publish faint magazine was that

462
00:29:29,500 --> 00:29:25,910
the one that he published a magazine so

463
00:29:31,710 --> 00:29:29,510

the Murray Island story got in there and

464

00:29:35,590 --> 00:29:31,720

a few other places

465

00:29:39,430 --> 00:29:35,600

now the FBI did an investigation of

466

00:29:41,990 --> 00:29:39,440

murray island it's in the fourth Air

467

00:29:43,970 --> 00:29:42,000

Force five

468

00:29:46,310 --> 00:29:43,980

usually when people look at the Murray

469

00:29:51,590 --> 00:29:46,320

Island thing they just throw up their

470

00:29:55,370 --> 00:29:51,600

hands because the FBI has crossed out

471

00:30:01,340 --> 00:29:55,380

all the names so it's it's hard to tell

472

00:30:03,529 --> 00:30:01,350

who did what to whom so most people

473

00:30:06,259 --> 00:30:03,539

don't even look at that most writers

474

00:30:09,830 --> 00:30:06,269

haven't looked at it but in the 4th air

475

00:30:12,169 --> 00:30:09,840

force files which is headquartered and

476
00:30:14,750 --> 00:30:12,179
that's where the two officers came from

477
00:30:19,009 --> 00:30:14,760
that investigator 4th Air Force file has

478
00:30:26,860 --> 00:30:19,019
a FBI has the FBI investigation without

479
00:30:34,149 --> 00:30:26,870
the names being redacted the witnesses

480
00:30:45,070 --> 00:30:38,019
the FBI is talking about one of the

481
00:30:47,629 --> 00:30:45,080
sacona so-called witnesses and one his

482
00:30:50,000 --> 00:30:47,639
relatives comes out with a knife and

483
00:30:51,740 --> 00:30:50,010
holds it to the guy's I

484
00:30:59,470 --> 00:30:51,750
it wasn't Chrisman it was the other

485
00:31:05,149 --> 00:31:01,509
[Music]

486
00:31:09,769 --> 00:31:05,159
man that you're lying all this is all

487
00:31:12,409 --> 00:31:09,779
you know this is just we made this up so

488
00:31:15,560 --> 00:31:12,419

that's in the FBI files you could fight

489

00:31:17,299 --> 00:31:15,570

it there like I said the best the best

490

00:31:25,360 --> 00:31:17,309

copy of that thing is in the 4th

491

00:31:29,110 --> 00:31:25,370

airforce files they did look at the

492

00:31:34,419 --> 00:31:29,120

material that was on the plane that the

493

00:31:40,509 --> 00:31:37,159

then there's there's something that

494

00:31:43,810 --> 00:31:40,519

happened that affected the whole UFO

495

00:31:48,649 --> 00:31:46,549

Colonel Springer who is the intelligence

496

00:31:50,210 --> 00:31:48,659

officer at 4th Air Force would sent

497

00:31:51,250 --> 00:31:50,220

those two officers up there to

498

00:31:54,040 --> 00:31:51,260

investigate

499

00:31:59,510 --> 00:31:54,050

he said we're through investigating

500

00:32:02,120 --> 00:31:59,520

now the reporter that heard that I mean

501
00:32:06,230 --> 00:32:02,130
he had like a mini press conference at

502
00:32:08,120 --> 00:32:06,240
his headquarters when Springer said

503
00:32:10,610 --> 00:32:08,130
we're through investigating he

504
00:32:16,210 --> 00:32:10,620
interpreted that Springer was talking

505
00:32:23,480 --> 00:32:16,220
about the Air Force and so worldwide on

506
00:32:26,300 --> 00:32:23,490
the news wire it said that the Air Force

507
00:32:39,220 --> 00:32:26,310
is through investigating flying saucers

508
00:32:49,610 --> 00:32:44,840
third of July to about the 10th of

509
00:32:51,410 --> 00:32:49,620
August the public thought that there was

510
00:32:54,490 --> 00:32:51,420
an investigation it was announced that

511
00:32:58,270 --> 00:32:54,500
would they were they were investigating

512
00:33:03,890 --> 00:32:58,280
however on the 10th of August

513
00:33:05,930 --> 00:33:03,900

springers a little press conference gave

514

00:33:09,200 --> 00:33:05,940

everybody impression all over the world

515

00:33:11,300 --> 00:33:09,210

I mean I found stories in India that

516

00:33:17,120 --> 00:33:11,310

says the the US Air Force has stopped

517

00:33:19,730 --> 00:33:17,130

investigating UFOs they caught you know

518

00:33:24,140 --> 00:33:19,740

at the time the UFO hadn't been coined

519

00:33:28,220 --> 00:33:24,150

really some people used it

520

00:33:34,060 --> 00:33:28,230

I mean Rubel says he investigated you

521

00:33:37,100 --> 00:33:34,070

after he and he coined the term UFO but

522

00:33:41,960 --> 00:33:37,110

the term unidentified flying objects had

523

00:33:45,230 --> 00:33:41,970

been used before Rubel came on the scene

524

00:33:53,990 --> 00:33:45,240

have been used on the 3rd of July in a

525

00:33:56,030 --> 00:33:54,000

Canadian Air Force letter so it's he

526

00:34:00,850 --> 00:33:56,040

didn't really coin the term but he

527

00:34:03,770 --> 00:34:00,860

coined the abbreviation I guess duh

528

00:34:08,090 --> 00:34:03,780

anyways it's kind of kind of getting

529

00:34:12,650 --> 00:34:08,100

away from the the whole 47 waves

530

00:34:13,190 --> 00:34:12,660

this is a murray island i think is a

531

00:34:16,610 --> 00:34:13,200

hoax

532

00:34:18,980 --> 00:34:16,620

i think most people believe that there's

533

00:34:23,320 --> 00:34:18,990

there's a minority that don't and

534

00:34:25,669 --> 00:34:23,330

Jacques Vallee is one of the people

535

00:34:29,570 --> 00:34:25,679

getting better but he thinks there might

536

00:34:32,450 --> 00:34:29,580

be something to it yeah getting back to

537

00:34:35,510 --> 00:34:32,460

Arnold he you know a lot of people came

538

00:34:39,290 --> 00:34:35,520

his way up pilots came his way you can

539

00:34:41,870 --> 00:34:39,300

see that in some of his public

540

00:34:44,450 --> 00:34:41,880

statements he's referring back to what I

541

00:34:47,510 --> 00:34:44,460

think we know now is Foo Fighters

542

00:34:49,100 --> 00:34:47,520

apparently some World War two vets in

543

00:34:52,660 --> 00:34:49,110

contact with him saying they had seen

544

00:34:55,669 --> 00:34:52,670

things so he became a pretty big deal

545

00:34:57,290 --> 00:34:55,679

back in those days he was he was kind of

546

00:35:00,940 --> 00:34:57,300

the man that as far as UFOs were

547

00:35:04,130 --> 00:35:00,950

concerned in this timeframe right yeah

548

00:35:08,060 --> 00:35:04,140

like I say Don Johnson is the one that

549

00:35:10,520 --> 00:35:08,070

kicked the whole ball off with the

550

00:35:12,620 --> 00:35:10,530

general twining on the on the

551
00:35:15,740 --> 00:35:12,630
investigations and he was a pretty big

552
00:35:20,660 --> 00:35:15,750
deal at the time the Air Force probably

553
00:35:26,480 --> 00:35:20,670
told Johnson to shut up because Johnson

554
00:35:27,770 --> 00:35:26,490
was in the Idaho Air National Guard he

555
00:35:34,160 --> 00:35:27,780
went out of himself

556
00:35:38,150 --> 00:35:34,170
Johnson did I think was on it was it was

557
00:35:40,670 --> 00:35:38,160
the 9th and 10th and 11th he went out

558
00:35:46,820 --> 00:35:40,680
himself in his in an Idaho National

559
00:35:50,420 --> 00:35:46,830
Guard plane looking for UFOs as a part

560
00:35:53,870 --> 00:35:50,430
of his his editor sent him out and he

561
00:35:57,190 --> 00:35:53,880
filmed the UFO it wasn't a very good

562
00:36:02,120 --> 00:35:57,200
film but it's in Project Blue Book

563
00:36:07,460 --> 00:36:02,130

Arnold you're right he was he was he

564

00:36:13,220 --> 00:36:07,470

spoke all around the country he was on

565

00:36:16,280 --> 00:36:13,230

TV was on in or on the radio and he was

566

00:36:19,130 --> 00:36:16,290

a big deal and like you said yeah people

567

00:36:22,250 --> 00:36:19,140

sent him all kinds of accounts

568

00:36:28,250 --> 00:36:22,260

like I said most of them don't survive

569

00:36:30,819 --> 00:36:28,260

unfortunately right after his sighting

570

00:36:35,750 --> 00:36:30,829

which went worldwide as a matter of fact

571

00:36:38,059 --> 00:36:35,760

he not only him but the local newspapers

572

00:36:40,220 --> 00:36:38,069

people veterans were coming forward from

573

00:36:44,599 --> 00:36:40,230

the signal or talking about Foo Fighters

574

00:36:50,140 --> 00:36:44,609

so there were a number of those things I

575

00:36:52,430 --> 00:36:50,150

found a quite a few of them not only

576

00:36:55,849 --> 00:36:52,440

pilots in the air but people on the

577

00:37:01,640 --> 00:36:55,859

ground so I'm in Europe and in the

578

00:37:05,870 --> 00:37:01,650

Pacific and several other places and of

579

00:37:08,089 --> 00:37:05,880

course there's some Navy sightings too

580

00:37:11,990 --> 00:37:08,099

that came in came up in the newspapers

581

00:37:15,740 --> 00:37:12,000

it was and then we just before that just

582

00:37:19,630 --> 00:37:15,750

before 47 in 1946 newspapers were full

583

00:37:26,210 --> 00:37:19,640

of ghost rockets there's another

584

00:37:35,420 --> 00:37:26,220

phenomena so the thing about the 1947

585

00:37:43,520 --> 00:37:35,430

wave is every say at least I could say

586

00:37:49,040 --> 00:37:43,530

this in 1995 every known UFO activity

587

00:37:52,339 --> 00:37:49,050

that that we had on record almost all of

588

00:38:00,520 --> 00:37:52,349

them took place in 1947 - that's close

589

00:38:13,849 --> 00:38:04,720

buzzing aircraft following aircraft

590

00:38:18,290 --> 00:38:13,859

following cars and even occupied cases

591

00:38:25,910 --> 00:38:18,300

all these things happened in 1947 I mean

592

00:38:29,710 --> 00:38:25,920

it's not an evolving phenomena it's from

593

00:38:33,400 --> 00:38:29,720

the very start many of these things

594

00:38:42,310 --> 00:38:33,410

were happening right during the 1947

595

00:38:44,500 --> 00:38:42,320

wave so now looking at your outline for

596

00:38:48,609 --> 00:38:44,510

different goals you've got regarding a

597

00:38:51,880 --> 00:38:48,619

project 1947 I see a couple paragraphs

598

00:38:54,430 --> 00:38:51,890

devoted to early close encounters those

599

00:38:57,730 --> 00:38:54,440

types of cases according to what I'm

600

00:39:00,550 --> 00:38:57,740

reading here from Roop Hill and Kehoe

601
00:39:02,770 --> 00:39:00,560
we're very skeptical apparently did not

602
00:39:05,260 --> 00:39:02,780
follow up on them all yeah any at all

603
00:39:07,030 --> 00:39:05,270
really but there are a number of cases

604
00:39:09,640 --> 00:39:07,040
like that that you were kind of alluding

605
00:39:11,589 --> 00:39:09,650
to him which is why I brought it up any

606
00:39:13,089 --> 00:39:11,599
any particular case that there really

607
00:39:14,800 --> 00:39:13,099
stands out from that time frame

608
00:39:20,400 --> 00:39:14,810
regarding you know extra Close

609
00:39:28,089 --> 00:39:25,270
1940 to 1950 - I'm sorry 1952 in

610
00:39:32,770 --> 00:39:28,099
September Rudolph's going down there to

611
00:39:39,490 --> 00:39:32,780
look at a the Scoutmaster case which is

612
00:39:44,109 --> 00:39:39,500
kind of famous and he's going down there

613
00:39:48,370 --> 00:39:44,119

to look at look at that case and I don't

614

00:39:50,829 --> 00:39:48,380

understand why he did not know about or

615

00:39:56,500 --> 00:39:50,839

look at other cases down there were

616

00:40:06,810 --> 00:39:56,510

happening at the same time Florida has

617

00:40:20,200 --> 00:40:12,930

Institute down there Farmer Brown had a

618

00:40:22,120 --> 00:40:20,210

he worked for them he had a herd of cows

619

00:40:30,400 --> 00:40:22,130

and he was getting ready to bring him in

620

00:40:35,710 --> 00:40:30,410

for milking and this red UFO came very

621

00:40:40,660 --> 00:40:35,720

close to him in fact he he smelled some

622

00:40:44,310 --> 00:40:40,670

kind of acidic odor associated with the

623

00:40:49,450 --> 00:40:44,320

UFO but he chased his cows over the

624

00:40:52,890 --> 00:40:49,460

all over the pastures there and when he

625

00:40:57,370 --> 00:40:52,900

got him in the milk content that they

626

00:41:00,580 --> 00:40:57,380

that he got from them had it had

627

00:41:07,000 --> 00:41:00,590

decreased for a number of days

628

00:41:09,640 --> 00:41:07,010

afterwards about two weeks later at the

629

00:41:16,300 --> 00:41:09,650

same place a number of the scientists

630

00:41:20,200 --> 00:41:16,310

and their wives were at the at the

631

00:41:23,440 --> 00:41:20,210

facility later on this is like I say two

632

00:41:26,050 --> 00:41:23,450

weeks later it's foggy it's in the

633

00:41:29,470 --> 00:41:26,060

morning and there's it they have a

634

00:41:34,540 --> 00:41:29,480

closing toner that's two right at rate

635

00:41:40,120 --> 00:41:34,550

one right after the other and I always

636

00:41:47,830 --> 00:41:40,130

thought that rue Pelt had dinner had

637

00:41:49,900 --> 00:41:47,840

influenced Kiel apparently authority the

638

00:41:54,850 --> 00:41:49,910

other way around or they influenced both

639

00:41:57,130 --> 00:41:54,860

on close encounter cases rupa has a list

640

00:42:00,870 --> 00:41:57,140

of close encounter cases in his personal

641

00:42:05,680 --> 00:42:00,880

papers and he's talked about ab dam ski

642

00:42:08,680 --> 00:42:05,690

the Scoutmaster case and a couple other

643

00:42:11,290 --> 00:42:08,690

contact these and he says this this is

644

00:42:14,170 --> 00:42:11,300

just junk and anyways the policy was

645

00:42:17,140 --> 00:42:14,180

that if we got any such cases we threw

646

00:42:18,910 --> 00:42:17,150

him away yeah i remember in his book i

647

00:42:22,330 --> 00:42:18,920

don't recall any kind of mention of any

648

00:42:25,860 --> 00:42:22,340

of those types of cases in the our

649

00:42:29,770 --> 00:42:25,870

policy was to throw them in the trash

650

00:42:32,620 --> 00:42:29,780

which is unfortunate they don't there

651
00:42:41,170 --> 00:42:32,630
are some in the early blue book but you

652
00:42:44,080 --> 00:42:41,180
know they're aquino belonged to a rope

653
00:42:50,080 --> 00:42:44,090
for true magazine and true magazine had

654
00:42:55,870 --> 00:42:50,090
done to expose about the Scully story

655
00:42:57,680 --> 00:42:55,880
and so that was about the other New

656
00:43:01,610 --> 00:42:57,690
Mexico crash flying

657
00:43:04,940 --> 00:43:01,620
ah sir exactly what is about and they

658
00:43:10,520 --> 00:43:04,950
had done to expose days so I think he

659
00:43:11,810 --> 00:43:10,530
knew that true was not they were not

660
00:43:15,200 --> 00:43:11,820
happy about this

661
00:43:17,510 --> 00:43:15,210
oh he he didn't look into those until

662
00:43:24,820 --> 00:43:17,520
much later to I don't think he was

663
00:43:28,280 --> 00:43:24,830

really convinced until the 1957 however

664

00:43:34,670 --> 00:43:28,290

now we're talking early days about 52 or

665

00:43:38,330 --> 00:43:34,680

so bill Nash he and another bill mesh

666

00:43:42,730 --> 00:43:38,340

was a pilot for Pan American Airways and

667

00:43:53,930 --> 00:43:42,740

he had a spectacular UFO sighting in 52

668

00:43:57,950 --> 00:43:53,940

he an industrialist who had film cameras

669

00:44:02,860 --> 00:43:57,960

and recording material went out and

670

00:44:05,690 --> 00:44:02,870

interviewed Farmer Brown in in 1954

671

00:44:08,030 --> 00:44:05,700

Brown said he had reported and of course

672

00:44:11,210 --> 00:44:08,040

in the newspapers had said this to Brown

673

00:44:14,240 --> 00:44:11,220

said he had reported it to to the local

674

00:44:18,320 --> 00:44:14,250

civil defense and it shows the local

675

00:44:20,750 --> 00:44:18,330

police and the mayor standing with

676
00:44:25,870 --> 00:44:20,760
Farmer Brown and talking about his case

677
00:44:29,060 --> 00:44:25,880
but he when Nash went out there he said

678
00:44:31,910 --> 00:44:29,070
Browns told them he said I've also been

679
00:44:35,570 --> 00:44:31,920
questioned by naval intelligence and Air

680
00:44:38,150 --> 00:44:35,580
Force intelligence and of course we

681
00:44:41,090 --> 00:44:38,160
can't find anything in the project

682
00:44:49,070 --> 00:44:41,100
Bluebook files

683
00:44:51,350 --> 00:44:49,080
nash wrote to to captain Bob white who

684
00:44:54,440 --> 00:44:51,360
is the pentagon spokesman and he says we

685
00:45:00,530 --> 00:44:54,450
don't have anything on this case so it's

686
00:45:07,040 --> 00:45:00,540
I mean the the government doesn't do do

687
00:45:12,260 --> 00:45:10,070
because they apparently the the right

688
00:45:12,940 --> 00:45:12,270

hand never knows what the left hand is

689

00:45:14,960 --> 00:45:12,950

doing

690

00:45:29,630 --> 00:45:14,970

we're still getting a little bit of that

691

00:45:31,370 --> 00:45:29,640

today nothing's changed and of course

692

00:45:36,680 --> 00:45:31,380

there's people inside the government

693

00:45:38,960 --> 00:45:36,690

that disagree with the policy so Captain

694

00:45:41,420 --> 00:45:38,970

Bob White was the pentagon spokesman

695

00:45:46,100 --> 00:45:41,430

Modi was a good friend of Chios and he

696

00:45:52,730 --> 00:45:46,110

used to slip to you things under the

697

00:45:57,970 --> 00:45:52,740

table Kiel had a lot of internal people

698

00:46:00,920 --> 00:45:57,980

that were constantly giving him hints or

699

00:46:03,860 --> 00:46:00,930

actually sending him UFO reports

700

00:46:07,160 --> 00:46:03,870

you know official UFO reports from you

701
00:46:10,240 --> 00:46:07,170
know remembered nobody could get to

702
00:46:15,410 --> 00:46:10,250
Project Blue Book until way into the

703
00:46:17,390 --> 00:46:15,420
into the 70s and it was hard you had to

704
00:46:22,100 --> 00:46:17,400
go to Maxwell Air Force Base in Alabama

705
00:46:25,280 --> 00:46:22,110
they finally moved them up to the

706
00:46:28,400 --> 00:46:25,290
National Archives in Washington but it

707
00:46:30,050 --> 00:46:28,410
was either impossible to get it because

708
00:46:32,600 --> 00:46:30,060
the Air Force wouldn't let anybody see

709
00:46:34,730 --> 00:46:32,610
him they just there's about I think

710
00:46:37,160 --> 00:46:34,740
quintanilla has a list of about 20

711
00:46:40,850 --> 00:46:37,170
people that got to look at the Blue Book

712
00:46:42,830 --> 00:46:40,860
files when blue rook was operating or at

713
00:46:48,680 --> 00:46:42,840

least when they were up when he when he

714

00:46:51,350 --> 00:46:48,690

was in charge so there were there were

715

00:46:53,960 --> 00:46:51,360

some newsmen that got got to go there

716

00:46:56,900 --> 00:46:53,970

but they were always writing what the

717

00:46:59,960 --> 00:46:56,910

Air Force wanted them to write like

718

00:47:02,240 --> 00:46:59,970

Sidney Shelton now you had mentioned

719

00:47:05,420 --> 00:47:02,250

another writer I Frank Scully briefly

720

00:47:07,610 --> 00:47:05,430

and Scully's kind of an interesting guy

721

00:47:10,850 --> 00:47:07,620

because if you ask people these days

722

00:47:12,860 --> 00:47:10,860

what's the most famous case from back in

723

00:47:14,600 --> 00:47:12,870

those days late 40s meet let's say

724

00:47:17,210 --> 00:47:14,610

during the Truman administration era

725

00:47:20,539 --> 00:47:17,220

they would tell you the Roswell case and

726

00:47:23,749 --> 00:47:20,549

here's Scully writing about Dedic

727

00:47:26,630 --> 00:47:23,759

extraterrestrial beings recovered from a

728

00:47:29,329 --> 00:47:26,640

crashed flying saucer in New Mexico here

729

00:47:31,939 --> 00:47:29,339

he's doing it you know back in that time

730

00:47:34,669 --> 00:47:31,949

frame and you know as far as I know he's

731

00:47:36,439 --> 00:47:34,679

about the only guy who's doing this can

732

00:47:38,870 --> 00:47:36,449

you tell us a little bit about Frank

733

00:47:43,179 --> 00:47:38,880

Scully and what do you make of his

734

00:47:46,729 --> 00:47:43,189

writing and his work well Scully was a

735

00:47:54,519 --> 00:47:46,739

writer he he wrote a lot for riot II he

736

00:47:57,380 --> 00:47:54,529

would he wrote on movie criticism really

737

00:48:00,549 --> 00:47:57,390

he was is an interesting character he

738

00:48:03,169 --> 00:48:00,559

always had a lot of people in his home

739

00:48:11,509 --> 00:48:03,179

visiting and things all from all over

740

00:48:18,939 --> 00:48:11,519

the place Roswell was covered in the

741

00:48:25,130 --> 00:48:18,949

newspapers the 9th and 10th of July and

742

00:48:30,380 --> 00:48:25,140

that was about the end of the the 47

743

00:48:38,539 --> 00:48:30,390

ways the newspapers nationally stopped

744

00:48:40,849 --> 00:48:38,549

carrying stories after Roswell they

745

00:48:45,890 --> 00:48:40,859

would carry overseas stories and

746

00:48:49,989 --> 00:48:45,900

numerous stories but most UFO cases only

747

00:48:52,339 --> 00:48:49,999

got regional coverage after that

748

00:49:02,109 --> 00:48:52,349

national coverage like I said was only

749

00:49:06,469 --> 00:49:02,119

for overseas debunking stories and humor

750

00:49:09,709 --> 00:49:06,479

so Roswell did hit the papers and some

751

00:49:13,099 --> 00:49:09,719

people didn't know even though it was

752

00:49:19,069 --> 00:49:13,109

supposedly debunked you know the press

753

00:49:21,650 --> 00:49:19,079

conference at 8th Air Force the we found

754

00:49:24,829 --> 00:49:21,660

a thesis that was wrote written in 48

755

00:49:30,739 --> 00:49:24,839

and this this guy is talking about in

756

00:49:37,519 --> 00:49:30,749

his college thesis about Roswell and how

757

00:49:44,690 --> 00:49:41,089

kept it alive but not too many Scully's

758

00:49:47,870 --> 00:49:44,700

thing was a crashed saucer of course

759

00:49:50,509 --> 00:49:47,880

it's got all kinds of fantastic things

760

00:49:52,969 --> 00:49:50,519

that probably can't be that we don't

761

00:49:59,829 --> 00:49:52,979

think that extraterrestrials would use

762

00:50:08,329 --> 00:50:04,450

nine inches or multiples of nine or

763

00:50:16,069 --> 00:50:08,339

parts of nine inches it was like the

764

00:50:19,609 --> 00:50:16,079

extra-terrestrial foot or something but

765

00:50:23,719 --> 00:50:19,619

he said that the powerful radars in New

766

00:50:26,390 --> 00:50:23,729

Mexico brought down the saucer okay they

767

00:50:29,599 --> 00:50:26,400

did this is funny because this is the

768

00:50:36,319 --> 00:50:29,609

beginning of the radar era they do have

769

00:50:39,769 --> 00:50:36,329

some better than normal radars at White

770

00:50:43,009 --> 00:50:39,779

Sands they do have those definitely but

771

00:50:44,839 --> 00:50:43,019

as far as being powerful there they're

772

00:50:50,299 --> 00:50:44,849

they're pretty primitive actually the

773

00:50:54,589 --> 00:50:50,309

radars at the time just just after World

774

00:50:57,609 --> 00:50:54,599

War two so the ones that white sands had

775

00:51:04,749 --> 00:50:57,619

been modified so they were better than

776

00:51:11,269 --> 00:51:08,839

powerful enough to interfere with you

777

00:51:12,829 --> 00:51:11,279

know if you got extraterrestrials that

778

00:51:19,099 --> 00:51:12,839

got here I don't think they're going to

779

00:51:27,259 --> 00:51:19,109

be crashing because of lightning strikes

780

00:51:29,749 --> 00:51:27,269

or 1947 radar transmissions I don't

781

00:51:35,900 --> 00:51:29,759

think they're going to be crashed but

782

00:51:37,609 --> 00:51:35,910

that that was Scully's thesis the Air

783

00:51:40,309 --> 00:51:37,619

Force didn't like that of course and

784

00:51:43,599 --> 00:51:40,319

like I said kilos magazine wrote to

785

00:51:46,490 --> 00:51:43,609

expert expose is about Scully

786

00:51:53,710 --> 00:51:46,500

the guys that started this too

787

00:51:58,550 --> 00:51:53,720

korie's which they were based on were

788

00:52:00,620 --> 00:51:58,560

you could say oil prospectors you can

789

00:52:04,250 --> 00:52:00,630

probably put that in quotation once they

790

00:52:08,530 --> 00:52:04,260

were more like Kahneman one of them I

791

00:52:10,820 --> 00:52:08,540

guess I was served some time in jail

792

00:52:13,880 --> 00:52:10,830

yeah I think I know you're talking about

793

00:52:18,260 --> 00:52:13,890

a guy's name off the top my head kind of

794

00:52:20,270 --> 00:52:18,270

questionable carriers characters I don't

795

00:52:22,750 --> 00:52:20,280

know if Scully had run into some of the

796

00:52:27,050 --> 00:52:22,760

stuff that had happened in Roswell and

797

00:52:29,270 --> 00:52:27,060

used that in his book that's why I asked

798

00:52:32,210 --> 00:52:29,280

on Berliner when I for when I talked to

799

00:52:36,470 --> 00:52:32,220

him after returning from overseas I said

800

00:52:40,640 --> 00:52:36,480

well Scully's stories has got some

801
00:52:43,700 --> 00:52:40,650
credence to Jesus no no this is

802
00:52:45,380 --> 00:52:43,710
Roswell's different and now what do you

803
00:52:46,820 --> 00:52:45,390
what do you think of the other Roswell

804
00:52:48,770 --> 00:52:46,830
case in general do you think it's

805
00:52:54,640 --> 00:52:48,780
possible that an ET craft didn't crash

806
00:53:02,720 --> 00:52:59,650
yeah I have I have a Roswell page on my

807
00:53:06,110 --> 00:53:02,730
on project 47 because you can't talk

808
00:53:08,240 --> 00:53:06,120
about him wave although that's what I

809
00:53:11,600 --> 00:53:08,250
was trying to do I was trying to talk

810
00:53:14,150 --> 00:53:11,610
about the 1947 wave without getting into

811
00:53:16,550 --> 00:53:14,160
Roswell right because because

812
00:53:18,710 --> 00:53:16,560
everybody's doing these people that have

813
00:53:20,780 --> 00:53:18,720

never been to Rosalie they're calling me

814

00:53:22,880 --> 00:53:20,790

up and say I'm a Roswell researcher I

815

00:53:25,310 --> 00:53:22,890

said no have you been down so look at

816

00:53:31,700 --> 00:53:25,320

the places no now we're up here in

817

00:53:39,920 --> 00:53:31,710

Kentucky we Amazon you guys are Roswell

818

00:53:43,370 --> 00:53:39,930

researchers so it's like I said the end

819

00:53:46,790 --> 00:53:43,380

of the 1947 wave as far as national

820

00:53:51,530 --> 00:53:46,800

press coverage so is it's significant

821

00:53:54,290 --> 00:53:51,540

historically what I did is I I put

822

00:53:55,630 --> 00:53:54,300

everything I could find on Roswell

823

00:53:58,820 --> 00:53:55,640

and

824

00:54:01,430 --> 00:53:58,830

places that I had looked them in the

825

00:54:03,290 --> 00:54:01,440

National Archives and other places which

826
00:54:06,770 --> 00:54:03,300
might have some information on Roswell

827
00:54:12,260 --> 00:54:06,780
as far as official stuff I put that in

828
00:54:15,530 --> 00:54:12,270
my project 1947 and then I listed a

829
00:54:18,260 --> 00:54:15,540
whole bunch of possible sources that

830
00:54:21,800 --> 00:54:18,270
people should check or things that were

831
00:54:28,700 --> 00:54:21,810
in the Air Forces report that people

832
00:54:33,020 --> 00:54:28,710
should double-check quite frankly I've

833
00:54:36,980 --> 00:54:33,030
never heard anybody taking my advice on

834
00:54:39,680 --> 00:54:36,990
any of that stuff so but no I hadn't I

835
00:54:46,360 --> 00:54:39,690
hadn't done that much Rozell research I

836
00:54:46,370 --> 00:54:51,850
Roswell newspaper nothing Roswell the

837
00:55:03,760 --> 00:54:59,360
the Roswell Air Air Base newspaper for

838
00:55:06,050 --> 00:55:03,770

the 10th of July it just mentions that

839

00:55:08,030 --> 00:55:06,060

well it's not the 10th of July it's

840

00:55:14,800 --> 00:55:08,040

after the 10th of July but it mentions

841

00:55:26,950 --> 00:55:17,860

newspaper interest

842

00:55:31,930 --> 00:55:26,960

does it go into the case at all as I did

843

00:55:37,010 --> 00:55:31,940

go and look in the Fort Worth newspaper

844

00:55:39,440 --> 00:55:37,020

and what was interesting is the when

845

00:55:44,180 --> 00:55:39,450

they had the news conference in Raimi's

846

00:55:47,900 --> 00:55:44,190

office the the 8th Air Force

847

00:55:51,950 --> 00:55:47,910

intelligence officer was was was not

848

00:55:54,260 --> 00:55:51,960

present and the assistant intelligence

849

00:55:59,360 --> 00:55:54,270

officer was the officer of the day that

850

00:56:03,950 --> 00:55:59,370

day so he was he was not in his office

851
00:56:08,040 --> 00:56:03,960
either that's kind of seemed to me

852
00:56:17,860 --> 00:56:13,660
so that's about all I found by research

853
00:56:24,040 --> 00:56:17,870
on this case like I said I wasn't I was

854
00:56:29,730 --> 00:56:24,050
specifically trying to avoid getting him

855
00:56:31,990 --> 00:56:29,740
broiled in Roslin understood yeah

856
00:56:34,750 --> 00:56:32,000
because there were more than enough

857
00:56:46,540 --> 00:56:34,760
people looking at it I wanted to look at

858
00:56:49,150 --> 00:56:46,550
the whole panoply of the 1947 wave now

859
00:56:52,390 --> 00:56:49,160
with like I said the newspapers

860
00:56:54,130 --> 00:56:52,400
nationally stopped carrying stories but

861
00:56:59,170 --> 00:56:54,140
there were still plenty of stories but

862
00:57:02,140 --> 00:56:59,180
they're mostly regional or local butcher

863
00:57:03,610 --> 00:57:02,150

head when he had screen in newspapers as

864

00:57:07,300 --> 00:57:03,620

he was going around the country he

865

00:57:09,520 --> 00:57:07,310

stopped at the 10th of July I tried to

866

00:57:13,240 --> 00:57:09,530

screen all newspapers at least to the

867

00:57:19,150 --> 00:57:13,250

15th of July and then if they were out

868

00:57:23,650 --> 00:57:19,160

west I tried to link to the end of July

869

00:57:27,670 --> 00:57:23,660

and then also some of the ones where

870

00:57:31,180 --> 00:57:27,680

there were UFO activities I screened all

871

00:57:34,060 --> 00:57:31,190

the way to the end of 1947 but that

872

00:57:37,930 --> 00:57:34,070

wasn't very many of them of course today

873

00:57:42,820 --> 00:57:37,940

we could do a better job about taking

874

00:57:44,770 --> 00:57:42,830

are your search terms yes oh yeah thank

875

00:57:46,450 --> 00:57:44,780

you so much for all that wonderful

876

00:57:48,580 --> 00:57:46,460

information you just shared I wanted to

877

00:57:50,590 --> 00:57:48,590

go ahead and welcome Paul Dean onto our

878

00:57:52,000 --> 00:57:50,600

show and let me just go ahead and share

879

00:57:54,490 --> 00:57:52,010

a little bit about Paul Dean he's an

880

00:57:56,290 --> 00:57:54,500

icon in the UFO community he is not

881

00:57:57,940 --> 00:57:56,300

showing researcher who focuses on

882

00:57:59,770 --> 00:57:57,950

government and military involvement and

883

00:58:02,290 --> 00:57:59,780

response to the soup so-called UFO

884

00:58:04,150 --> 00:58:02,300

phenomena working alone for 20 years

885

00:58:07,210 --> 00:58:04,160

Paul became an expert in regards to

886

00:58:09,190 --> 00:58:07,220

so-called UFO FILES six years ago he

887

00:58:11,590 --> 00:58:09,200

began tackling the problem directly and

888

00:58:13,420 --> 00:58:11,600

became became instrumental in saying

889

00:58:15,760 --> 00:58:13,430

that the Australian government release

890

00:58:17,860 --> 00:58:15,770

classified files from the Royal

891

00:58:20,710 --> 00:58:17,870

Australian Air Force Air Services

892

00:58:22,930 --> 00:58:20,720

Australia the Australia Osprey

893

00:58:25,030 --> 00:58:22,940

Sport Safety Bureau and the National

894

00:58:26,920 --> 00:58:25,040

Archives of Australia he works

895

00:58:29,260 --> 00:58:26,930

extensively with Australian based

896

00:58:32,079 --> 00:58:29,270

researcher Keith faster field on UFO

897

00:58:34,750 --> 00:58:32,089

case analysis and preservation of UFO

898

00:58:37,089 --> 00:58:34,760

related records he also works with John

899

00:58:39,309 --> 00:58:37,099

Aldridge on a project that he's going to

900

00:58:41,050 --> 00:58:39,319

go over with us and I just wanted to

901
00:58:45,220 --> 00:58:41,060
welcome Paul on the show welcome Paul

902
00:58:47,319 --> 00:58:45,230
how are you going great yeah Paul you've

903
00:58:49,720 --> 00:58:47,329
been on the show with us multiple times

904
00:58:53,079 --> 00:58:49,730
we actually had John a really great show

905
00:58:56,260 --> 00:58:53,089
it was review of 2019 or most recently

906
00:58:58,660 --> 00:58:56,270
and I wanted to ask you a actually I had

907
00:58:59,980 --> 00:58:58,670
a lot of questions to ask you but I

908
00:59:04,059 --> 00:58:59,990
wanted to kind of paint a background

909
00:59:06,400 --> 00:59:04,069
regarding the pre 1947 in 1947 era which

910
00:59:08,200 --> 00:59:06,410
I did for Jan I just wanted to remind

911
00:59:11,589 --> 00:59:08,210
our listeners of the era that we're

912
00:59:14,260 --> 00:59:11,599
talking about and that is in 45 World

913
00:59:16,690 --> 00:59:14,270

War two ended then we also had some

914

00:59:19,240 --> 00:59:16,700

really interesting things going on in

915

00:59:21,460 --> 00:59:19,250

that era and that was a Chuck Yeager

916

00:59:24,819 --> 00:59:21,470

broke the sound barrier with a barrier

917

00:59:27,670 --> 00:59:24,829

with the x1 a rocket plane and then we

918

00:59:32,950 --> 00:59:27,680

also had polaroid camera was invented in

919

00:59:35,829 --> 00:59:32,960

1947 Jackie Robinson breaks a barrier in

920

00:59:37,990 --> 00:59:35,839

baseball in 47 the Studebaker became the

921

00:59:42,190 --> 00:59:38,000

first automobile manufacturer to

922

00:59:43,750 --> 00:59:42,200

introduce a post-war model and also we

923

00:59:46,839 --> 00:59:43,760

had some other interesting things happen

924

00:59:49,120 --> 00:59:46,849

just trivia first broadcast of Meet the

925

00:59:50,890 --> 00:59:49,130

Press and the World Series is broadcast

926
00:59:53,559 --> 00:59:50,900
live on television for the first time

927
00:59:56,559 --> 00:59:53,569
and George Orwell was frantically riding

928
00:59:59,559 --> 00:59:56,569
1984 from his sickbed wanted to ask you

929
01:00:01,300 --> 00:59:59,569
about the 1947 project you are working

930
01:00:04,210 --> 01:00:01,310
on with Jan can you share a little bit

931
01:00:07,059 --> 01:00:04,220
about that project with us Paul yeah

932
01:00:10,089 --> 01:00:07,069
sure um so let me explain something hi

933
01:00:13,450 --> 01:00:10,099
Jan by the way Jan I should just say Jan

934
01:00:17,829 --> 01:00:13,460
is one of the the sort of work I do is

935
01:00:19,510 --> 01:00:17,839
is is the sort of so so what Jan does is

936
01:00:21,190 --> 01:00:19,520
essentially what I do but the thing is

937
01:00:23,710 --> 01:00:21,200
Jan's been at it for about 40 years

938
01:00:28,270 --> 01:00:23,720

whereas I've been you know at it for you

939

01:00:30,010 --> 01:00:28,280

know like at only 20% of that time so so

940

01:00:33,250 --> 01:00:30,020

people like Jan and I work very well

941

01:00:34,360 --> 01:00:33,260

together but what what what yeah I think

942

01:00:36,460 --> 01:00:34,370

you mean is is

943

01:00:38,710 --> 01:00:36,470

I'll start with this down in Alabama

944

01:00:40,810 --> 01:00:38,720

there's a there's a there's a place

945

01:00:43,720 --> 01:00:40,820

called Maxwell Air Force Base and it's

946

01:00:46,950 --> 01:00:43,730

it houses a a command called the Air

947

01:00:49,960 --> 01:00:46,960

Force Research and historical agency and

948

01:00:54,420 --> 01:00:49,970

it does everything from president

949

01:00:56,950 --> 01:00:54,430

preserving air force materiel to to

950

01:00:59,800 --> 01:00:56,960

assessing old Air Force files for

951
01:01:02,680 --> 01:00:59,810
release to the public oral history

952
01:01:08,050 --> 01:01:02,690
interviews with former commanders or

953
01:01:10,300 --> 01:01:08,060
rank officers they they they they they

954
01:01:11,800 --> 01:01:10,310
allow so through there's there's a

955
01:01:13,810 --> 01:01:11,810
system there you'd call it an online

956
01:01:15,220 --> 01:01:13,820
system I suppose but it does have people

957
01:01:18,760 --> 01:01:15,230
on the other end of it it's called the

958
01:01:21,280 --> 01:01:18,770
Air Force restore II the Air Force

959
01:01:24,310 --> 01:01:21,290
history index and what it is the Air

960
01:01:27,550 --> 01:01:24,320
Force history index is an is is a smoke

961
01:01:40,000 --> 01:01:27,560
is an online database of holdings that

962
01:01:42,850 --> 01:01:40,010
that uh it if historical urgency actual

963
01:01:46,300 --> 01:01:42,860

number and what they hold is documents

964

01:01:49,780 --> 01:01:46,310

called things like unit histories base

965

01:01:52,270 --> 01:01:49,790

histories command chronologies various

966

01:01:55,570 --> 01:01:52,280

special studies they could be special

967

01:01:59,140 --> 01:01:55,580

war studies or special battle studies or

968

01:02:02,190 --> 01:01:59,150

flight regime studies technical reports

969

01:02:05,440 --> 01:02:02,200

other sort of historical preservation

970

01:02:07,840 --> 01:02:05,450

information like like correspondence

971

01:02:09,250 --> 01:02:07,850

letters between say the Air Force and

972

01:02:12,130 --> 01:02:09,260

the other commands like the Army the

973

01:02:15,220 --> 01:02:12,140

Marines documents relating to the Air

974

01:02:18,100 --> 01:02:15,230

Force's role in the space race and and

975

01:02:20,170 --> 01:02:18,110

so on and when we're I think it was Jan

976
01:02:22,330 --> 01:02:20,180
1st look if it wasn't Janet was someone

977
01:02:25,600 --> 01:02:22,340
only slightly earlier than Jan when Jen

978
01:02:27,460 --> 01:02:25,610
and the the great archivist Barry

979
01:02:29,950 --> 01:02:27,470
Greenwood in Boston when they cottoned

980
01:02:32,890 --> 01:02:29,960
onto this so this Air Force history

981
01:02:35,140 --> 01:02:32,900
index a database of documents what they

982
01:02:38,340 --> 01:02:35,150
found instantaneously this would have

983
01:02:41,140 --> 01:02:38,350
been in what four years ago they found

984
01:02:43,330 --> 01:02:41,150
instantaneously that in the when you do

985
01:02:45,730 --> 01:02:43,340
keyword searches in the descriptive

986
01:02:48,010 --> 01:02:45,740
strikes section of each document they're

987
01:02:51,130 --> 01:02:48,020
finding the word UFO

988
01:02:53,020 --> 01:02:51,140

or unknown incident or whatever over and

989

01:02:55,510 --> 01:02:53,030

over and over again and more importantly

990

01:02:57,760 --> 01:02:55,520

they're finding that there's other

991

01:03:00,370 --> 01:02:57,770

documents that should or could relate to

992

01:03:03,030 --> 01:03:00,380

the to the UFO matter such as oral

993

01:03:05,740 --> 01:03:03,040

histories with brigadier General's

994

01:03:09,460 --> 01:03:05,750

various pieces of doctrine that deal

995

01:03:13,180 --> 01:03:09,470

with that spray aircraft or unknown

996

01:03:15,580 --> 01:03:13,190

aircraft and one particularly important

997

01:03:17,380 --> 01:03:15,590

type of document that is totally

998

01:03:20,620 --> 01:03:17,390

overlooked in the inner in the

999

01:03:22,510 --> 01:03:20,630

historical UFO field by the it will mean

1000

01:03:25,000 --> 01:03:22,520

it's overlooked by the average UFO buff

1001

01:03:26,950 --> 01:03:25,010

is something a pair of types of

1002

01:03:30,070 --> 01:03:26,960

documents called a unit histories or

1003

01:03:32,710 --> 01:03:30,080

base histories now a unit in in the

1004

01:03:35,230 --> 01:03:32,720

United States Air Force a unit is like a

1005

01:03:38,320 --> 01:03:35,240

squadron or a parent organization like a

1006

01:03:40,720 --> 01:03:38,330

wing and sorry a a wing or their parent

1007

01:03:42,400 --> 01:03:40,730

organization which are groups and their

1008

01:03:45,310 --> 01:03:42,410

parent organizations which are air

1009

01:03:47,770 --> 01:03:45,320

divisions or major commands it likes to

1010

01:03:49,300 --> 01:03:47,780

eat so for those in the Army you would

1011

01:03:52,180 --> 01:03:49,310

know it going up from the bottom as a

1012

01:03:53,680 --> 01:03:52,190

battalion brigade division Corps in the

1013

01:03:57,640 --> 01:03:53,690

Navy it would be something like Task

1014

01:03:59,800 --> 01:03:57,650

Force flotilla or Armada fleet so so a

1015

01:04:01,660 --> 01:03:59,810

squadron history is a unit history a

1016

01:04:04,599 --> 01:04:01,670

wing history is a unit history whatever

1017

01:04:06,609 --> 01:04:04,609

then there's base history so so over the

1018

01:04:09,190 --> 01:04:06,619

years I think the United States just on

1019

01:04:10,840 --> 01:04:09,200

contantly in other states alone has had

1020

01:04:13,180 --> 01:04:10,850

something like a hundred and twenty Air

1021

01:04:16,270 --> 01:04:13,190

Force bases and Air Force stations in

1022

01:04:17,470 --> 01:04:16,280

the last sort of 70s dating back to the

1023

01:04:21,010 --> 01:04:17,480

time period that you're talking about

1024

01:04:24,640 --> 01:04:21,020

say 1945 or whatever and anyway so each

1025

01:04:26,440 --> 01:04:24,650

each year by clockwork some water ins

1026

01:04:28,720 --> 01:04:26,450

produce squadrons and wings and groups

1027

01:04:30,820 --> 01:04:28,730

produce unit histories and bases produce

1028

01:04:32,890 --> 01:04:30,830

base histories they're done by the base

1029

01:04:34,900 --> 01:04:32,900

executive officer or the base historian

1030

01:04:39,550 --> 01:04:34,910

or the chief of operations or the chief

1031

01:04:42,430 --> 01:04:39,560

of a sort of internal affairs or

1032

01:04:48,880 --> 01:04:42,440

whatever and lo and behold if you go

1033

01:04:53,170 --> 01:04:48,890

back to the 1940 1941 Thrun you can pick

1034

01:04:55,480 --> 01:04:53,180

any year not 1065 1973 whatever you will

1035

01:04:57,099 --> 01:04:55,490

see references to UFOs I mean you can go

1036

01:04:58,990 --> 01:04:57,109

to a unit hit now what what a unit

1037

01:05:01,000 --> 01:04:59,000

history contains is is a year-long

1038

01:05:01,660 --> 01:05:01,010

history of the unit so it could be I

1039

01:05:04,569 --> 01:05:01,670

don't know

1040

01:05:08,829 --> 01:05:04,579

4:06 airborne reconnaissance squadron or

1041

01:05:11,230 --> 01:05:08,839

the the 1024 airborne refueling wing

1042

01:05:14,770 --> 01:05:11,240

unit or the 26th Fighter Command or

1043

01:05:17,620 --> 01:05:14,780

whatever and you all it could be a base

1044

01:05:20,260 --> 01:05:17,630

that could be a you know

1045

01:05:22,210 --> 01:05:20,270

McChord Air Force Base base history or

1046

01:05:24,130 --> 01:05:22,220

or Griffis Air Force Base base history

1047

01:05:26,200 --> 01:05:24,140

they're always over twelve month or six

1048

01:05:27,760 --> 01:05:26,210

six-month periods published and there

1049

01:05:29,799 --> 01:05:27,770

can be hundreds of pages of long age

1050

01:05:31,740 --> 01:05:29,809

anyway you'll go through and there's

1051
01:05:34,990 --> 01:05:31,750
different chapters on awards given to

1052
01:05:36,880 --> 01:05:35,000
personnel or visiting staff or fuel

1053
01:05:39,280 --> 01:05:36,890
requirements financial requirements

1054
01:05:42,520 --> 01:05:39,290
electricity requirements of the base or

1055
01:05:45,099 --> 01:05:42,530
the unit and in there time and time

1056
01:05:46,390 --> 01:05:45,109
again every it seems every single time

1057
01:05:49,930 --> 01:05:46,400
we have the Air Force historical

1058
01:05:51,549 --> 01:05:49,940
research agency release a unit history

1059
01:05:54,549 --> 01:05:51,559
to us it could be a unit history from

1060
01:05:57,099 --> 01:05:54,559
from for some squadron that hasn't been

1061
01:05:59,109 --> 01:05:57,109
around for 50 years that nobody could

1062
01:06:01,539 --> 01:05:59,119
barely even remember and sure enough

1063
01:06:03,880 --> 01:06:01,549

there is sometimes pages of UFO

1064

01:06:05,680 --> 01:06:03,890

sightings sometimes you know they'll be

1065

01:06:07,750 --> 01:06:05,690

they'll be they'll be a chapter called

1066

01:06:10,210 --> 01:06:07,760

intelligence and security incidences and

1067

01:06:12,400 --> 01:06:10,220

in there there will be actually a

1068

01:06:14,140 --> 01:06:12,410

category called UFO sightings as if it's

1069

01:06:16,299 --> 01:06:14,150

normal yeah Wow

1070

01:06:18,099 --> 01:06:16,309

that is fascinating and also wanted to

1071

01:06:20,650 --> 01:06:18,109

bring up something that we had talked

1072

01:06:23,559 --> 01:06:20,660

about a little bit previous to the show

1073

01:06:26,880 --> 01:06:23,569

and that is a really interesting topic

1074

01:06:29,079 --> 01:06:26,890

about Barry Greenwood may have found

1075

01:06:31,480 --> 01:06:29,089

investigation files which linked plane

1076

01:06:32,400 --> 01:06:31,490

crashes to UFOs can you touch on that

1077

01:06:38,380 --> 01:06:32,410

topic

1078

01:06:41,500 --> 01:06:38,390

absolutely back in back in 1984 Barry

1079

01:06:45,039 --> 01:06:41,510

Green would produce basically Barry

1080

01:06:47,109 --> 01:06:45,049

Greenwood is is a is a famous friend of

1081

01:06:51,640 --> 01:06:47,119

Information Act user and abuser from the

1082

01:06:53,289 --> 01:06:51,650

70s and 80s he worked with an even more

1083

01:06:57,339 --> 01:06:53,299

prolific effort why by the name of

1084

01:06:59,559 --> 01:06:57,349

Robert Todd and Lawrence force at

1085

01:07:02,980 --> 01:06:59,569

another one to a lesser extent Larry

1086

01:07:06,700 --> 01:07:02,990

Brian Todd Circle Brad sparks and what

1087

01:07:10,960 --> 01:07:06,710

some what bet basically between between

1088

01:07:13,180 --> 01:07:10,970

nineteen probably about 1974 and not

1089

01:07:14,780 --> 01:07:13,190

well really into the nineties burying

1090

01:07:17,420 --> 01:07:14,790

these guys

1091

01:07:20,390 --> 01:07:17,430

submitted we think especially Robert

1092

01:07:22,610 --> 01:07:20,400

Todd submitted some 4,000 FOI requests

1093

01:07:25,280 --> 01:07:22,620

to the US government whether it be two

1094

01:07:29,060 --> 01:07:25,290

army battalions or naval task forces or

1095

01:07:32,980 --> 01:07:29,070

Air Force squadrons to the CIA dia and I

1096

01:07:36,320 --> 01:07:32,990

you know the whole lot and and in in by

1097

01:07:39,110 --> 01:07:36,330

1984 Barry and Lawrence Fossett and

1098

01:07:42,560 --> 01:07:39,120

Robert Todd and so on had amassed so

1099

01:07:44,810 --> 01:07:42,570

many documents that were that were more

1100

01:07:46,790 --> 01:07:44,820

that had been written and released after

1101

01:07:49,220 --> 01:07:46,800

Project Blue Book had finished after the

1102

01:07:51,350 --> 01:07:49,230

so-called Condon report after the US

1103

01:07:53,420 --> 01:07:51,360

government was supposedly not interested

1104

01:07:55,790 --> 01:07:53,430

not investigating not taking reports not

1105

01:07:58,520 --> 01:07:55,800

studying UFOs anyway one of the more

1106

01:08:02,390 --> 01:07:58,530

obscure things that Barry found was that

1107

01:08:05,240 --> 01:08:02,400

this back in um back in well back in the

1108

01:08:07,760 --> 01:08:05,250

moat for really in the 60s 70s and 80s

1109

01:08:11,960 --> 01:08:07,770

and 90s there was a there was a command

1110

01:08:13,520 --> 01:08:11,970

known as the the Air Force necessarily

1111

01:08:15,440 --> 01:08:13,530

look if it was Air Force safety

1112

01:08:17,870 --> 01:08:15,450

inspection center or no yeah it was Air

1113

01:08:19,400 --> 01:08:17,880

Force inspection and Safety Center and

1114

01:08:22,910 --> 01:08:19,410

it was based at Norton Air Force Base

1115

01:08:24,610 --> 01:08:22,920

and what what the Air Force inspection

1116

01:08:27,500 --> 01:08:24,620

and Safety Center did they analyzed

1117

01:08:30,920 --> 01:08:27,510

significant plane crashes near mid-air

1118

01:08:34,130 --> 01:08:30,930

collisions filings on helicopters and

1119

01:08:36,170 --> 01:08:34,140

planes the use of safety equipment from

1120

01:08:38,810 --> 01:08:36,180

fire hydrants right up through to

1121

01:08:41,780 --> 01:08:38,820

complex avionics systems they were your

1122

01:08:45,410 --> 01:08:41,790

they were your safety and and and flight

1123

01:08:47,120 --> 01:08:45,420

safety and an air worthiness section of

1124

01:08:50,270 --> 01:08:47,130

for the whole United States Air Force um

1125

01:08:51,590 --> 01:08:50,280

5,000 staff at any one time anyway now

1126

01:08:53,360 --> 01:08:51,600

they're actually just simply called the

1127

01:08:55,790 --> 01:08:53,370

Air Force Safety Center and it's moved

1128

01:09:00,530 --> 01:08:55,800

to Kate Kirkland Air Force Base but be

1129

01:09:02,720 --> 01:09:00,540

that as it may Barry found that he he he

1130

01:09:05,000 --> 01:09:02,730

actually he actually sent freedom he

1131

01:09:06,560 --> 01:09:05,010

Barry found that that there was an

1132

01:09:08,420 --> 01:09:06,570

obviously over the years has been a

1133

01:09:10,400 --> 01:09:08,430

number of cases where planes have

1134

01:09:12,770 --> 01:09:10,410

crashed disappeared

1135

01:09:15,950 --> 01:09:12,780

they've had to do emergency landings and

1136

01:09:18,170 --> 01:09:15,960

crashed upon landings and and and he he

1137

01:09:20,030 --> 01:09:18,180

took the step of actually asking the Air

1138

01:09:24,050 --> 01:09:20,040

Force inspection and Safety Center

1139

01:09:25,940 --> 01:09:24,060

thought well we're we knew there were

1140

01:09:28,010 --> 01:09:25,950

cases were applying hood crashing that

1141

01:09:30,349 --> 01:09:28,020

had been rumors of UFOs or

1142

01:09:32,390 --> 01:09:30,359

rumors of another weed aircraft up there

1143

01:09:33,710 --> 01:09:32,400

all we had copies of the pilots

1144

01:09:35,269 --> 01:09:33,720

conversation with air traffic control

1145

01:09:38,630 --> 01:09:35,279

and he mentions another aircraft

1146

01:09:40,730 --> 01:09:38,640

whatever Barry actually asked for those

1147

01:09:42,260 --> 01:09:40,740

those particular files and there was

1148

01:09:44,260 --> 01:09:42,270

there was three or four of them and sure

1149

01:09:46,700 --> 01:09:44,270

enough every one of them contained

1150

01:09:49,280 --> 01:09:46,710

significant information about at least

1151

01:09:52,250 --> 01:09:49,290

the possibility that the pilot was stuck

1152

01:09:56,180 --> 01:09:52,260

up there with a UFO and in his famous so

1153

01:09:57,950 --> 01:09:56,190

Barry Barry found that by 1983 he had so

1154

01:09:59,930 --> 01:09:57,960

many documents that he that him and

1155

01:10:02,150 --> 01:09:59,940

Laurence Fossett simply were forced to

1156

01:10:05,300 --> 01:10:02,160

write a book about it and the book is

1157

01:10:08,120 --> 01:10:05,310

called clear intent it was published

1158

01:10:11,840 --> 01:10:08,130

again in the 90s as the UFO cover-up

1159

01:10:14,090 --> 01:10:11,850

what the government won't say but but

1160

01:10:17,530 --> 01:10:14,100

let's go back so clear intent page 61

1161

01:10:21,980 --> 01:10:17,540

has a has a section I want to read this

1162

01:10:23,780 --> 01:10:21,990

so this is Barry writing UFO jet chases

1163

01:10:25,190 --> 01:10:23,790

and crashes are not new a number of

1164

01:10:26,480 --> 01:10:25,200

incidences have occurred over the years

1165

01:10:29,780 --> 01:10:26,490

by and by using the Freedom of

1166

01:10:31,760 --> 01:10:29,790

Information Act chased jet reports

1167

01:10:34,160 --> 01:10:31,770

involved in UFOs have been made public

1168

01:10:35,870 --> 01:10:34,170

military orientated aircraft accident

1169

01:10:38,300 --> 01:10:35,880

reports are now on file at the Air Force

1170

01:10:40,550 --> 01:10:38,310

inspection and Safety Center at Norton

1171

01:10:42,470 --> 01:10:40,560

Air Force Base in California release of

1172

01:10:43,820 --> 01:10:42,480

information is subject to the guidelines

1173

01:10:46,610 --> 01:10:43,830

and restrictions of the Freedom of

1174

01:10:49,430 --> 01:10:46,620

Information Act so that only portions of

1175

01:10:51,710 --> 01:10:49,440

the reports can be made public perhaps

1176

01:10:53,750 --> 01:10:51,720

the most important part of any accident

1177

01:10:56,120 --> 01:10:53,760

report is the board of investigation

1178

01:10:57,860 --> 01:10:56,130

proceedings this gives the full details

1179

01:11:00,170 --> 01:10:57,870

of the circumstances surrounding the

1180

01:11:03,830 --> 01:11:00,180

cause of a crash in probing the crash

1181

01:11:06,680 --> 01:11:03,840

files we have not received one single

1182

01:11:08,930 --> 01:11:06,690

board of investigations preceding of any

1183

01:11:10,250 --> 01:11:08,940

crash report today the reason being is

1184

01:11:12,380 --> 01:11:10,260

that the Freedom of Information Act

1185

01:11:15,650 --> 01:11:12,390

allows an agency to protect internal

1186

01:11:17,600 --> 01:11:15,660

decision making and in the case of crash

1187

01:11:19,940 --> 01:11:17,610

reports to protect the methods used for

1188

01:11:21,650 --> 01:11:19,950

investigation this is most convenient

1189

01:11:23,450 --> 01:11:21,660

for the Air Force and most inconvenient

1190

01:11:27,050 --> 01:11:23,460

for us trying to obtain the facts behind

1191

01:11:29,240 --> 01:11:27,060

UFO and jet incidences some revealing so

1192

01:11:31,280 --> 01:11:29,250

if things have surfaced though so what

1193

01:11:34,580 --> 01:11:31,290

he's saying is is he's had for three or

1194

01:11:35,990 --> 01:11:34,590

four files released from this Center but

1195

01:11:37,670 --> 01:11:36,000

the most important part of the file

1196

01:11:39,500 --> 01:11:37,680

which is aboard a preceding section has

1197

01:11:41,720 --> 01:11:39,510

never been released in any of them so

1198

01:11:43,640 --> 01:11:41,730

his UFO information that have come from

1199

01:11:45,740 --> 01:11:43,650

cases has come from other sections

1200

01:11:47,720 --> 01:11:45,750

within the files like the conclusions

1201

01:11:50,600 --> 01:11:47,730

the recommendations the introductions

1202

01:11:53,630 --> 01:11:50,610

the contents pages and so on so this is

1203

01:11:56,540 --> 01:11:53,640

this is a whole area of UFO history that

1204

01:11:59,360 --> 01:11:56,550

we know virtually nothing about yeah and

1205

01:12:01,130 --> 01:11:59,370

I also wanted to ask you actually but I

1206

01:12:03,110 --> 01:12:01,140

have a few questions to ask you but I'll

1207

01:12:04,580 --> 01:12:03,120

I'll go ahead and go with this one and

1208

01:12:07,340 --> 01:12:04,590

then I have another one right after that

1209

01:12:09,880 --> 01:12:07,350

regarding the unit history and the base

1210

01:12:12,050 --> 01:12:09,890

histories that she went over so well

1211

01:12:14,720 --> 01:12:12,060

regarding the definition of them what I

1212

01:12:18,229 --> 01:12:14,730

wanted to know is the unit and the base

1213

01:12:20,630 --> 01:12:18,239

histories did you find or did any

1214

01:12:23,780 --> 01:12:20,640

researchers find any anecdotal

1215

01:12:31,820 --> 01:12:23,790

information located in those histories

1216

01:12:35,380 --> 01:12:31,830

other than clinical data okay yes sure I

1217

01:12:38,800 --> 01:12:35,390

can explain thank you for your question

1218

01:12:41,360 --> 01:12:38,810

other than dry data was there ever any

1219

01:12:43,550 --> 01:12:41,370

colorful sounding or personal or

1220

01:12:46,760 --> 01:12:43,560

anecdotal sounding information that was

1221

01:12:52,880 --> 01:12:46,770

shared regarding any of the dry data in

1222

01:13:00,530 --> 01:12:52,890

the unit or base histories yes well it's

1223

01:13:05,350 --> 01:13:00,540

things like you know 1980 this is this

1224

01:13:08,360 --> 01:13:05,360

is post blue look so 1980 in England

1225

01:13:10,340 --> 01:13:08,370

it's a near miss report that's the thing

1226

01:13:16,729 --> 01:13:10,350

we when you when you go to the maximal

1227

01:13:20,720 --> 01:13:16,739

Air Force Base early the stuff that was

1228

01:13:24,500 --> 01:13:20,730

there before the 1960s or 70s was not

1229

01:13:29,360 --> 01:13:24,510

indexed for UFOs or flying saucers or

1230

01:13:32,720 --> 01:13:29,370

flying discs now some indexers took it

1231

01:13:39,920 --> 01:13:32,730

on their own team to to index these

1232

01:13:43,340 --> 01:13:39,930

things but it wasn't it wasn't policy

1233

01:13:47,030 --> 01:13:43,350

after I guess in the 90s or so they

1234

01:13:48,350 --> 01:13:47,040

started indexing for UFOs so what you

1235

01:13:51,050 --> 01:13:48,360

have to do if you go to maximal air

1236

01:13:54,650 --> 01:13:51,060

force base a lot of cases it's just

1237

01:13:55,129 --> 01:13:54,660

what's a likely unit that would have a

1238

01:14:01,370 --> 01:13:55,139

UF

1239

01:14:07,250 --> 01:14:01,380

case and look it up they're very helpful

1240

01:14:10,520 --> 01:14:07,260

at Maxwell but they they have limited

1241

01:14:14,800 --> 01:14:10,530

staff but why I wanted to comment I was

1242

01:14:25,520 --> 01:14:17,840

recently a lot of accident reports have

1243

01:14:30,200 --> 01:14:25,530

been have been released to the National

1244

01:14:36,109 --> 01:14:30,210

Archives the Maxwell and National

1245

01:14:40,729 --> 01:14:36,119

Archives are and the in the Air Force

1246

01:14:45,260 --> 01:14:40,739

Academy are fighting over records they

1247

01:14:47,660 --> 01:14:45,270

all want stuff for their library so

1248

01:14:52,399 --> 01:14:47,670

there's you have to visit all these

1249

01:14:55,070 --> 01:14:52,409

places to get stuff plus places like st.

1250

01:14:57,470 --> 01:14:55,080

Louis the archives branch archives and

1251

01:15:00,320 --> 01:14:57,480

st. Louis they won't let you in there

1252

01:15:04,990 --> 01:15:00,330

you can't see what's in there and the

1253

01:15:09,709 --> 01:15:05,000

Air Force Air Defense records are there

1254

01:15:11,660 --> 01:15:09,719

but I'm talking about the accidents some

1255

01:15:18,859 --> 01:15:11,670

of these are now at the National

1256

01:15:21,470 --> 01:15:18,869

Archives I got the one for Kinross yeah

1257

01:15:26,180 --> 01:15:21,480

and yeah no I didn't get the one for

1258

01:15:29,510 --> 01:15:26,190

Kinross that's I got the one for upstate

1259

01:15:33,020 --> 01:15:29,520

New York while still a little while so

1260

01:15:34,669 --> 01:15:33,030

yeah yeah yeah so it says this is

1261

01:15:38,390 --> 01:15:34,679

interesting because this stuff is

1262

01:15:43,550 --> 01:15:38,400

obscured in the actual official report

1263

01:15:47,000 --> 01:15:43,560

it says the aircraft was on a practice

1264

01:15:49,370 --> 01:15:47,010

mission that was changed to an air

1265

01:15:51,290 --> 01:15:49,380

defense mission in other words this is

1266

01:16:00,620 --> 01:15:51,300

something real that they have to go and

1267

01:16:05,390 --> 01:16:00,630

look and find what it was it doesn't

1268

01:16:07,310 --> 01:16:05,400

state the why it was changed what we

1269

01:16:09,130 --> 01:16:07,320

were looking for it just says it's

1270

01:16:15,800 --> 01:16:09,140

changed to an air defense mission

1271

01:16:21,770 --> 01:16:15,810

in there it says the the engine light

1272

01:16:23,510 --> 01:16:21,780

came on indicating a fire and this is

1273

01:16:27,820 --> 01:16:23,520

what they're trying to tell the public

1274

01:16:35,030 --> 01:16:27,830

ok did this this red light came on on my

1275

01:16:37,280 --> 01:16:35,040

my dashboard and I we punched out we

1276

01:16:38,540 --> 01:16:37,290

punched out in other words we ejected

1277

01:16:44,750 --> 01:16:38,550

from the aircraft and the aircraft

1278

01:16:48,350 --> 01:16:44,760

crashed into a residential area killing

1279

01:16:54,080 --> 01:16:48,360

people now that's mostly when you read

1280

01:16:56,720 --> 01:16:54,090

Air Force pilots when they encounter

1281

01:17:01,100 --> 01:16:56,730

some kind of problem they try to get the

1282

01:17:03,610 --> 01:17:01,110

aircraft away from residential areas or

1283

01:17:06,140 --> 01:17:03,620

where there's people they try to crash

1284

01:17:08,420 --> 01:17:06,150

somewhere where people won't get hurt if

1285

01:17:11,690 --> 01:17:08,430

they can but just because a white came

1286

01:17:13,850 --> 01:17:11,700

came on they punched out yeah that makes

1287

01:17:17,990 --> 01:17:13,860

no sense to me that's completely false

1288

01:17:20,090 --> 01:17:18,000

yeah I wanted to bring up a topic that

1289

01:17:22,880 --> 01:17:20,100

Frank brought up earlier Jan and Paul

1290

01:17:24,590 --> 01:17:22,890

and that is Frank had asked Jan if he

1291

01:17:28,540 --> 01:17:24,600

felt there was any ring of authenticity

1292

01:17:32,960 --> 01:17:28,550

to the 1947 early July

1293

01:17:34,760 --> 01:17:32,970

Roswell alleged Roswell ET craft

1294

01:17:36,800 --> 01:17:34,770

basically let's not beat around the bush

1295

01:17:40,250 --> 01:17:36,810

there was allegedly an ET craft or

1296

01:17:44,270 --> 01:17:40,260

crafts that allegedly crashed in Corona

1297

01:17:45,830 --> 01:17:44,280

New Mexico he was July 7 1947 I wanted

1298

01:17:47,930 --> 01:17:45,840

to bring up something interesting I

1299

01:17:50,240 --> 01:17:47,940

found when I was doing research of that

1300

01:17:53,270 --> 01:17:50,250

era it's not necessarily directly

1301

01:17:55,760 --> 01:17:53,280

related at it by any means but it's an

1302

01:17:57,320 --> 01:17:55,770

interesting piece of trivia I'll lead up

1303

01:17:58,640 --> 01:17:57,330

to it first let me go ahead and share a

1304

01:18:01,310 --> 01:17:58,650

little bit of background that you all

1305

01:18:05,680 --> 01:18:01,320

already know and that is that wins in

1306

01:18:10,190 --> 01:18:05,690

research WI and ze n wins n Research Inc

1307

01:18:12,500 --> 01:18:10,200

won a bid to build a balloon for the Air

1308

01:18:17,930 --> 01:18:12,510

Force which was part of the army during

1309

01:18:21,870 --> 01:18:17,940

that period of time and apparently Otto

1310

01:18:24,330 --> 01:18:21,880

C Winson who was part owner of wins

1311

01:18:29,129 --> 01:18:24,340

research his wife Vere own two-thirds of

1312

01:18:30,930 --> 01:18:29,139

that company he told a friend of his and

1313

01:18:34,830 --> 01:18:30,940

this leads up to something so bear with

1314

01:18:37,410 --> 01:18:34,840

me he told a friend of his here's the

1315

01:18:40,410 --> 01:18:37,420

quote otto then told me that if you hear

1316

01:18:45,330 --> 01:18:40,420

i died by suicide or accident it will be

1317

01:18:48,209 --> 01:18:45,340

neither in 1979 otto see when zijn died

1318

01:18:50,160 --> 01:18:48,219

from suicide and i just thought that was

1319

01:18:53,850 --> 01:18:50,170

interesting because it was allegedly one

1320

01:18:57,930 --> 01:18:53,860

of his balloons that was used during

1321

01:19:01,169 --> 01:18:57,940

that crash that happened in 1947

1322

01:19:04,169 --> 01:19:01,179

according to the US Air Force that that

1323

01:19:06,899 --> 01:19:04,179

was his balloon that crashed instead of

1324

01:19:08,640 --> 01:19:06,909

an ET craft do you all have any topics

1325

01:19:13,140 --> 01:19:08,650

on that anecdotal bit of information

1326

01:19:18,600 --> 01:19:13,150

right there yeah his company was

1327

01:19:22,410 --> 01:19:18,610

involved in Roswell okay I the

1328

01:19:27,000 --> 01:19:22,420

University of New York and there were

1329

01:19:28,830 --> 01:19:27,010

several other subcontractors you would

1330

01:19:30,840 --> 01:19:28,840

would not believe the amount of

1331

01:19:34,590 --> 01:19:30,850

information that I have on that

1332

01:19:39,810 --> 01:19:34,600

yeah boxes and boxes of what's going on

1333

01:19:41,520 --> 01:19:39,820

people's Diaries how they we would have

1334

01:19:42,899 --> 01:19:41,530

heard about we would have heard we would

1335

01:19:44,580 --> 01:19:42,909

have heard about this years and years

1336

01:19:46,919 --> 01:19:44,590

and years and years and years ago like

1337

01:19:49,020 --> 01:19:46,929

the Kevin Randle jamberry they've done

1338

01:19:51,030 --> 01:19:49,030

so much work on Roswell this would this

1339

01:19:52,760 --> 01:19:51,040

is just another sideline story that I

1340

01:19:55,379 --> 01:19:52,770

think Jan would agree with that

1341

01:19:57,689 --> 01:19:55,389

that's fantastic thank you so much for

1342

01:19:59,729 --> 01:19:57,699

that input I wanted to know if you all

1343

01:20:01,320 --> 01:19:59,739

went over a report Frank can you share

1344

01:20:05,220 --> 01:20:01,330

which report that is that you shared

1345

01:20:08,760 --> 01:20:05,230

underneath the post I did regarding 1947

1346

01:20:11,010 --> 01:20:08,770

it was government yeah that was the Air

1347

01:20:13,229 --> 01:20:11,020

Force investigation that the behest of

1348

01:20:15,990 --> 01:20:13,239

then President Bill Clinton and our

1349

01:20:18,770 --> 01:20:16,000

regarding Roswell yeah it was in that

1350

01:20:21,899 --> 01:20:18,780

report that I saw winds in Research Inc

1351

01:20:24,180 --> 01:20:21,909

having been possibly involved in that

1352

01:20:26,430 --> 01:20:24,190

crash I don't mind being wrong and I'm

1353

01:20:32,640 --> 01:20:26,440

glad you corrected me I know I know

1354

01:20:35,399 --> 01:20:32,650

what's okay I'm sure most of the stuff I

1355

01:20:39,500 --> 01:20:35,409

find here they're not mentioned

1356

01:20:44,250 --> 01:20:39,510

oh that's that the printer I'm doing a

1357

01:20:47,159 --> 01:20:44,260

an outline some what was for this way

1358

01:20:54,120 --> 01:20:47,169

George Eberhardt of Koufos is doing an

1359

01:20:56,489 --> 01:20:54,130

outline of UFO history it's it's hundred

1360

01:21:02,009 --> 01:20:56,499

it runs into hundreds of pages it's

1361

01:21:06,750 --> 01:21:02,019

something like 600 pages yeah Dolan

1362

01:21:12,179 --> 01:21:06,760

Dolan Dolan has a an outline of UFO

1363

01:21:19,529 --> 01:21:12,189

history in his first national UFO as a

1364

01:21:22,500 --> 01:21:19,539

national security state what I'm doing

1365

01:21:36,239 --> 01:21:22,510

is I'm putting I'm doing the part before

1366

01:21:40,649 --> 01:21:36,249

from from the 1600s to to 1964 and there

1367

01:21:44,089 --> 01:21:40,659

are so many things about what was going

1368

01:21:48,629 --> 01:21:44,099

on with the balloons out there at all

1369

01:21:51,629 --> 01:21:48,639

Alamogordo and I'm using people's

1370

01:21:53,969 --> 01:21:51,639

Diaries and things like that okay one I

1371

01:21:57,600 --> 01:21:53,979

don't know if it was a balloon or not I

1372

01:22:00,359 --> 01:21:57,610

don't know what it is okay so I just had

1373

01:22:02,850 --> 01:22:00,369

a question gentlemen and that is let's

1374

01:22:07,080 --> 01:22:02,860

say wins in in theory wins in research

1375

01:22:10,370 --> 01:22:07,090

Inc was involved allegedly in an actual

1376

01:22:14,310 --> 01:22:10,380

balloon crash out there in early July

1377

01:22:15,689 --> 01:22:14,320

would that still be at that time that's

1378

01:22:18,330 --> 01:22:15,699

what I'm saying

1379

01:22:21,509 --> 01:22:18,340

General Mills was doing research with

1380

01:22:23,790 --> 01:22:21,519

those big balloons wins and I think and

1381

01:22:29,190 --> 01:22:23,800

wins and got a lot of they got a grant

1382

01:22:33,040 --> 01:22:29,200

from General Mills a labral from General

1383

01:22:34,660 --> 01:22:33,050

General Mills later on well I think I

1384

01:22:36,550 --> 01:22:34,670

think Odyssey wins and actually worked

1385

01:22:41,080 --> 01:22:36,560

with General Mills regarding his

1386

01:22:46,600 --> 01:22:41,090

balloons yeah he did he did his own

1387

01:22:49,180 --> 01:22:46,610

company yeah yeah but I'm not sure okay

1388

01:22:51,670 --> 01:22:49,190

I don't know the history exactly when he

1389

01:22:54,310 --> 01:22:51,680

broke off okay well he lapped General

1390

01:22:57,880 --> 01:22:54,320

Mills in 1949 to found wins and research

1391

01:23:00,520 --> 01:22:57,890

Inc so that sounds that makes sense yeah

1392

01:23:02,380 --> 01:23:00,530

which and research didn't exist yet yeah

1393

01:23:04,750 --> 01:23:02,390

okay I'm glad you caught that very very

1394

01:23:06,130 --> 01:23:04,760

good okay so then if people were to do

1395

01:23:09,460 --> 01:23:06,140

research during that period of time

1396

01:23:13,480 --> 01:23:09,470

regarding balloons that may have been

1397

01:23:16,030 --> 01:23:13,490

used in July or during the 1947 era a

1398

01:23:17,830 --> 01:23:16,040

period of time they need to go ahead and

1399

01:23:20,130 --> 01:23:17,840

find out what companies were involved

1400

01:23:24,250 --> 01:23:20,140

and it was not when then is that right

1401
01:23:29,260 --> 01:23:24,260
right University in New York was was I

1402
01:23:33,930 --> 01:23:29,270
think the main contractor there yeah

1403
01:23:38,950 --> 01:23:33,940
that's right we interviewed CB more yeah

1404
01:23:46,420 --> 01:23:38,960
okay and and a number of other people

1405
01:23:51,180 --> 01:23:46,430
involved at General Mills of course TV

1406
01:23:54,490 --> 01:23:51,190
more is a is a skeptic on the Roswell

1407
01:23:57,280 --> 01:23:54,500
okay so getting into it too much so then

1408
01:23:59,590 --> 01:23:57,290
the question I go back to thank you for

1409
01:24:02,560 --> 01:23:59,600
clarifying all that by the way Jan I

1410
01:24:04,060 --> 01:24:02,570
just wanted to and I did actually look

1411
01:24:05,350 --> 01:24:04,070
up what you were talking about while we

1412
01:24:08,260 --> 01:24:05,360
were talking and that's why I was able

1413
01:24:10,930 --> 01:24:08,270

to confirm the that wins in left General

1414

01:24:13,740 --> 01:24:10,940

Mills in 49 but anyway what I was going

1415

01:24:16,780 --> 01:24:13,750

to ask you is what Frank did and that is

1416

01:24:19,780 --> 01:24:16,790

do you believe and this this question is

1417

01:24:23,710 --> 01:24:19,790

for pause well do you both believe that

1418

01:24:26,560 --> 01:24:23,720

there is a ring of authenticity to the

1419

01:24:29,860 --> 01:24:26,570

possibility that there was some kind of

1420

01:24:32,980 --> 01:24:29,870

anomalous craft that was not made by the

1421

01:24:35,650 --> 01:24:32,990

US military or any first world or any

1422

01:24:37,780 --> 01:24:35,660

other kind of girl a world government on

1423

01:24:39,850 --> 01:24:37,790

our planet that there may have been some

1424

01:24:41,259 --> 01:24:39,860

kind of technology that landed or

1425

01:24:45,029 --> 01:24:41,269

crashed

1426

01:24:48,039 --> 01:24:45,039

in Corona New Mexico in early July 1947

1427

01:24:50,019 --> 01:24:48,049

don't I mean I don't it's such a it

1428

01:24:54,219 --> 01:24:50,029

you've got to remember it's it's it's

1429

01:24:57,069 --> 01:24:54,229

such a fantastic it did the evidence has

1430

01:25:01,419 --> 01:24:57,079

to be so overwhelming and so compelling

1431

01:25:03,759 --> 01:25:01,429

it's such a it's it's so such a

1432

01:25:05,229 --> 01:25:03,769

fantastic claim I mean you're talking

1433

01:25:07,419 --> 01:25:05,239

about something that will completely

1434

01:25:09,250 --> 01:25:07,429

right rewrite the history of history I

1435

01:25:13,019 --> 01:25:09,260

mean this is you're actually implying

1436

01:25:15,279 --> 01:25:13,029

that that a creature from another planet

1437

01:25:19,899 --> 01:25:15,289

another entity from somewhere else

1438

01:25:21,939 --> 01:25:19,909

completely actually was was actually

1439

01:25:24,519 --> 01:25:21,949

physically crashed in the desert in

1440

01:25:26,679 --> 01:25:24,529

United States and I mean the the

1441

01:25:28,509 --> 01:25:26,689

research just doesn't hold out I mean

1442

01:25:31,209 --> 01:25:28,519

the early investigations into Roswell

1443

01:25:34,719 --> 01:25:31,219

will pour the story about bodies on that

1444

01:25:37,059 --> 01:25:34,729

come in much later on they you know that

1445

01:25:38,679 --> 01:25:37,069

the Mogul balloon flight is very likely

1446

01:25:42,309 --> 01:25:38,689

responsible I don't know what the chance

1447

01:25:44,489 --> 01:25:42,319

Jam thinks on it but I I we need we need

1448

01:25:59,679 --> 01:25:44,499

far better evidence than that you know

1449

01:26:04,149 --> 01:25:59,689

well Richard Hastings now Randle and

1450

01:26:06,939 --> 01:26:04,159

Schmitt would call Hastings in when

1451

01:26:13,089 --> 01:26:06,949

during the investigation to look at what

1452

01:26:15,819 --> 01:26:13,099

they are doing and Hastings told me he

1453

01:26:17,979 --> 01:26:15,829

said these guys at some time would

1454

01:26:19,750 --> 01:26:17,989

almost be at each other's throats about

1455

01:26:22,029 --> 01:26:19,760

whether they should believe one of the

1456

01:26:25,110 --> 01:26:22,039

witnesses they had or not he said there

1457

01:26:27,299 --> 01:26:25,120

was a lot of conflict and there was a

1458

01:26:30,449 --> 01:26:27,309

[Music]

1459

01:26:33,759 --> 01:26:30,459

some doubt but when you write the book

1460

01:26:37,000 --> 01:26:33,769

when they wrote the book you don't you

1461

01:26:40,000 --> 01:26:37,010

don't get any anything that that

1462

01:26:42,639 --> 01:26:40,010

deviates from it's a straight story

1463

01:26:45,699 --> 01:26:42,649

now I understand telling about a

1464

01:26:49,449 --> 01:26:45,709

straight story but if you have doubts

1465

01:26:50,850 --> 01:26:49,459

about some witness or some event in the

1466

01:26:53,370 --> 01:26:50,860

story

1467

01:26:56,729 --> 01:26:53,380

I think that should come out and it

1468

01:27:00,629 --> 01:26:56,739

didn't and I asked Donna Schmidt about

1469

01:27:03,030 --> 01:27:00,639

that and he said yeah we did we we

1470

01:27:06,870 --> 01:27:03,040

didn't we didn't talk about the

1471

01:27:10,800 --> 01:27:06,880

conflicts in our books we just wrote the

1472

01:27:13,229 --> 01:27:10,810

straight story so and remember these

1473

01:27:17,970 --> 01:27:13,239

people are talking about things that

1474

01:27:19,770 --> 01:27:17,980

happened decades ago and in the book it

1475

01:27:23,270 --> 01:27:19,780

says that three o'clock this happened

1476

01:27:29,459 --> 01:27:23,280

well are you sure it's three o'clock and

1477

01:27:31,410 --> 01:27:29,469

how is that so I'm sort of agnostic on

1478

01:27:33,149 --> 01:27:31,420

Roswell

1479

01:27:34,800 --> 01:27:33,159

like I said I was involved in

1480

01:27:39,120 --> 01:27:34,810

meteorology and some of the stuff that

1481

01:27:42,450 --> 01:27:39,130

they were doing out at Alamogordo I know

1482

01:27:44,310 --> 01:27:42,460

about but I can't talk about it okay I

1483

01:27:47,330 --> 01:27:44,320

wanted to ask you a question that I

1484

01:27:51,209 --> 01:27:47,340

think is important since you both are

1485

01:27:54,000 --> 01:27:51,219

veteran researchers of various topics

1486

01:27:56,340 --> 01:27:54,010

that include not just the UFO topic but

1487

01:28:00,959 --> 01:27:56,350

of history the question I have for both

1488

01:28:05,609 --> 01:28:00,969

of you is this what constitutes good

1489

01:28:08,970 --> 01:28:05,619

data what constitutes or makes for proof

1490

01:28:12,030 --> 01:28:08,980

a scientists still argue regarding the

1491

01:28:16,560 --> 01:28:12,040

definition of proof to this day so what

1492

01:28:21,310 --> 01:28:16,570

is evidence good data and proof to both

1493

01:28:29,400 --> 01:28:24,970

chan okay if you want if you want a good

1494

01:28:42,760 --> 01:28:39,090

120 pages of actual transcripts of of

1495

01:28:46,450 --> 01:28:42,770

the pilot and the tower talking to each

1496

01:28:51,340 --> 01:28:46,460

other there are interviews that were

1497

01:28:57,400 --> 01:28:51,350

done by the air force and Tom on the on

1498

01:29:01,900 --> 01:28:57,410

the ground personnel involved but then

1499

01:29:10,300 --> 01:29:01,910

we went back and interviewed everybody

1500

01:29:13,600 --> 01:29:10,310

all the living crew of the b-52 case the

1501

01:29:17,670 --> 01:29:13,610

b-52 part of the case Tom went and

1502

01:29:25,110 --> 01:29:17,680

interviewed the guys on the ground and

1503

01:29:29,620 --> 01:29:25,120

then ABC News got involved in the case

1504

01:29:35,710 --> 01:29:29,630

and they went and re interviewed

1505

01:29:42,210 --> 01:29:35,720

everybody and and when they presented it

1506

01:29:45,310 --> 01:29:42,220

on on the on the air that thing had been

1507

01:29:50,220 --> 01:29:45,320

the the people involved had been

1508

01:29:52,750 --> 01:29:50,230

interviewed multiple times and

1509

01:29:56,110 --> 01:29:52,760

especially with Tom he had taken all the

1510

01:30:00,010 --> 01:29:56,120

documents documents involved in the case

1511

01:30:03,760 --> 01:30:00,020

and put it with the with the witness

1512

01:30:09,910 --> 01:30:03,770

statements and the one thing about the

1513

01:30:13,570 --> 01:30:09,920

minor case is they had an out briefing

1514

01:30:15,460 --> 01:30:13,580

and one of Tom's questions is the

1515

01:30:17,980 --> 01:30:15,470

general at the base gave me a briefing

1516

01:30:19,780 --> 01:30:17,990

he said that the general tell you that

1517

01:30:23,950 --> 01:30:19,790

you guys should not discuss this among

1518

01:30:27,130 --> 01:30:23,960

yourselves and the pilot in the minor

1519

01:30:29,440 --> 01:30:27,140

Kay said no he didn't we didn't need to

1520

01:30:32,080 --> 01:30:29,450

be told we knew we weren't supposed to

1521

01:30:35,170 --> 01:30:32,090

discuss it among ourselves and they

1522

01:30:37,930 --> 01:30:35,180

didn't and so these

1523

01:30:40,240 --> 01:30:37,940

they were broken up the crew was broken

1524

01:30:43,120 --> 01:30:40,250

up afterwards because of the Vietnam War

1525

01:30:45,010 --> 01:30:43,130

they were taken they were sending some

1526

01:30:49,960 --> 01:30:45,020

people over and some people would go to

1527

01:30:56,080 --> 01:30:49,970

other assignments these guys only I

1528

01:30:59,700 --> 01:30:56,090

think only two guys met and mainly

1529

01:31:01,050 --> 01:30:59,710

mentioned it they so their their their

1530

01:31:04,380 --> 01:31:01,060

[Music]

1531

01:31:06,640 --> 01:31:04,390

their testimonies uncontaminated by

1532

01:31:10,510 --> 01:31:06,650

talking to each other at all

1533

01:31:12,100 --> 01:31:10,520

and they're telling basically where they

1534

01:31:14,560 --> 01:31:12,110

were in the aircraft they're telling

1535

01:31:16,000 --> 01:31:14,570

their story from their point of view if

1536

01:31:18,280 --> 01:31:16,010

your radar off so you're talking about

1537

01:31:19,840 --> 01:31:18,290

the radar if you're is a pilot you're

1538

01:31:26,080 --> 01:31:19,850

talking about what it looked like

1539

01:31:33,580 --> 01:31:26,090

outside so I think absolutely because

1540

01:31:38,530 --> 01:31:33,590

they each part of the case each each

1541

01:31:42,390 --> 01:31:38,540

different testimony or document confirms

1542

01:31:45,930 --> 01:31:42,400

each other and it's been multiple

1543

01:31:49,180 --> 01:31:45,940

investigators have confirmed the things

1544

01:31:51,310 --> 01:31:49,190

yeah janna Tjader Paul if I let me jump

1545

01:31:53,740 --> 01:31:51,320

in here real quick Janet Janet Paul can

1546

01:31:55,180 --> 01:31:53,750

you fill the folks in on the details of

1547

01:31:57,900 --> 01:31:55,190

the mine act case I mean what their what

1548

01:32:01,470 --> 01:31:57,910

did these guys see in experience

1549

01:32:04,690 --> 01:32:01,480

Jan you'll better with this one oh boy

1550

01:32:05,470 --> 01:32:04,700

this is the skeptics hate this case they

1551

01:32:08,470 --> 01:32:05,480

won't go near it

1552

01:32:11,500 --> 01:32:08,480

they're scared of us yeah scared of it

1553

01:32:14,740 --> 01:32:11,510

they're dead it nobody will touch it no

1554

01:32:19,060 --> 01:32:14,750

one and and they they've said that

1555

01:32:22,150 --> 01:32:19,070

they're scared of this case it's in it's

1556

01:32:30,130 --> 01:32:22,160

in October of 68 it's too late for the

1557

01:32:33,010 --> 01:32:30,140

Condon report the b-52 they are not

1558

01:32:36,460 --> 01:32:33,020

nuclear armed they're coming off alert

1559

01:32:40,240 --> 01:32:36,470

after after there they've been on alert

1560

01:32:43,240 --> 01:32:40,250

with nuclear weapons for for 30 days

1561

01:32:45,910 --> 01:32:43,250

when they come off alert they they go

1562

01:32:47,590 --> 01:32:45,920

through a check flight they had one

1563

01:32:52,300 --> 01:32:47,600

additional member of the crew

1564

01:32:54,550 --> 01:32:52,310

who was getting his pilot at time so he

1565

01:33:01,330 --> 01:32:54,560

was on there it's a regular crew of this

1566

01:33:06,460 --> 01:33:01,340

aircraft they they were returning to

1567

01:33:10,630 --> 01:33:06,470

Minot they had permission to land prior

1568

01:33:14,260 --> 01:33:10,640

to to them coming on the scene people on

1569

01:33:19,650 --> 01:33:14,270

the ground at at the various some of the

1570

01:33:25,660 --> 01:33:19,660

missile areas there were seeing things

1571

01:33:28,930 --> 01:33:25,670

white and b-52 came into the area and

1572

01:33:35,770 --> 01:33:28,940

the tower told them go to this position

1573

01:33:37,030 --> 01:33:35,780

and tell us what you see oh my god it

1574

01:33:39,820 --> 01:33:37,040

sounds a little bit like the man

1575

01:33:43,810 --> 01:33:39,830

chelators Anderson

1576

01:33:48,610 --> 01:33:43,820

oh my god do we have to do this so yeah

1577

01:33:52,930 --> 01:33:48,620

so they went to the scene something came

1578

01:33:55,990 --> 01:33:52,940

up on the back of them so the radar

1579

01:33:58,390 --> 01:33:56,000

officer and the eland officer are the

1580

01:34:02,290 --> 01:33:58,400

only guys that know what's going on at

1581

01:34:05,110 --> 01:34:02,300

this time and they're they they've got

1582

01:34:07,270 --> 01:34:05,120

the radar on and they also have a camera

1583

01:34:10,990 --> 01:34:07,280

there so they they say oh we better

1584

01:34:13,240 --> 01:34:11,000

start taking pictures of this thing yeah

1585

01:34:14,950 --> 01:34:13,250

on training flights like this the radar

1586

01:34:16,630 --> 01:34:14,960

officer doesn't have much to do so this

1587

01:34:20,920 --> 01:34:16,640

is this is something important so he

1588

01:34:26,440 --> 01:34:20,930

starts taking radar pictures of this

1589

01:34:31,990 --> 01:34:26,450

thing now it's running around over a

1590

01:34:33,790 --> 01:34:32,000

thousand miles an hour behind them it's

1591

01:34:35,620 --> 01:34:33,800

moving from one side of the aircraft to

1592

01:34:41,530 --> 01:34:35,630

the other the pilot can't see it because

1593

01:34:48,160 --> 01:34:41,540

he's looking up front they missed their

1594

01:34:50,800 --> 01:34:48,170

landing they and the beautiful

1595

01:34:55,200 --> 01:34:50,810

apparently goes away but then they come

1596

01:34:58,240 --> 01:34:55,210

back for another way another try and

1597

01:35:00,649 --> 01:34:58,250

this time the pilot sees them

1598

01:35:04,909 --> 01:35:00,659

sees the aircraft now

1599

01:35:07,669 --> 01:35:04,919

the transcript of what's happening is

1600

01:35:12,080 --> 01:35:07,679

being recorded in the tower and that

1601
01:35:18,589 --> 01:35:12,090
transcript is part of the file so he's

1602
01:35:21,770 --> 01:35:18,599
seeing a lighted object which looks from

1603
01:35:24,469 --> 01:35:21,780
the front has a some kind of a tunnel

1604
01:35:28,009 --> 01:35:24,479
like structure and then there's almost

1605
01:35:31,330 --> 01:35:28,019
like an X a forward cabin

1606
01:35:36,259 --> 01:35:31,340
that's detached from the body of the UFO

1607
01:35:41,770 --> 01:35:36,269
but it's connected by the tunnel and it

1608
01:35:47,029 --> 01:35:41,780
looks like a an access not an accident

1609
01:35:50,770 --> 01:35:47,039
maduk head and there's my shining out of

1610
01:35:55,879 --> 01:35:50,780
that as they as they come close to it

1611
01:35:58,099 --> 01:35:55,889
the radio is interfered with now the

1612
01:36:02,949 --> 01:35:58,109
radar officers back there still taking

1613
01:36:06,040 --> 01:36:02,959

pictures now this is a new shimmer

1614

01:36:08,859 --> 01:36:06,050

capable aircraft they got two radios

1615

01:36:11,540 --> 01:36:08,869

there everything is everything is

1616

01:36:14,089 --> 01:36:11,550

redundant on an aircraft that carries

1617

01:36:18,439 --> 01:36:14,099

nuclear weapons this is not this is

1618

01:36:20,899 --> 01:36:18,449

serious stuff so they do all the anti

1619

01:36:27,859 --> 01:36:20,909

jamming stuff and all that they're being

1620

01:36:32,209 --> 01:36:27,869

jammed by this object so they come

1621

01:36:37,909 --> 01:36:32,219

around the object goes down and out of

1622

01:36:41,719 --> 01:36:37,919

their sight and then they come around in

1623

01:36:44,080 --> 01:36:41,729

the land as they land the instruction is

1624

01:36:47,179 --> 01:36:44,090

the senior man will come to the

1625

01:36:51,709 --> 01:36:47,189

operations area and fill out a report

1626
01:36:54,409 --> 01:36:51,719
now the pilot was not the senior man so

1627
01:36:59,209 --> 01:36:54,419
this Czech pilot was the one that went

1628
01:37:02,599 --> 01:36:59,219
up there and and filled this out so no

1629
01:37:09,139 --> 01:37:02,609
almost nobody knew about this case yeah

1630
01:37:10,520 --> 01:37:09,149
until the pilot the actual pilot sent in

1631
01:37:13,790 --> 01:37:10,530
a Koufos report

1632
01:37:14,240 --> 01:37:13,800
I was so since they cross out the names

1633
01:37:17,850 --> 01:37:14,250
that

1634
01:37:24,620 --> 01:37:17,860
when I looked in blue look I I assumed

1635
01:37:27,600 --> 01:37:24,630
that the pilot whose name was Runyan

1636
01:37:29,640 --> 01:37:27,610
that was his report and when I showed it

1637
01:37:32,459 --> 01:37:29,650
to him he said no no I didn't fill out

1638
01:37:35,430 --> 01:37:32,469

anything like that I feel that the thing

1639

01:37:36,990 --> 01:37:35,440

now he who I sent to coolest the Air

1640

01:37:40,919 --> 01:37:37,000

Force never asked me to fill out a

1641

01:37:43,290 --> 01:37:40,929

report so the other pilot filled out a

1642

01:37:47,189 --> 01:37:43,300

report he's wrong in there just like

1643

01:37:48,090 --> 01:37:47,199

that pilot described it though this is

1644

01:37:50,790 --> 01:37:48,100

another if there's an interesting

1645

01:37:55,800 --> 01:37:50,800

anecdote to this case where um one of

1646

01:37:58,229 --> 01:37:55,810

the guys involved was a opposite by the

1647

01:38:00,930 --> 01:37:58,239

name of Joseph cappucci and many many

1648

01:38:03,330 --> 01:38:00,940

years later Joseph cappucci was actually

1649

01:38:04,760 --> 01:38:03,340

a Major General of the United States Air

1650

01:38:09,450 --> 01:38:04,770

Force he was actually head of the

1651
01:38:11,520 --> 01:38:09,460
defense investigative services the whole

1652
01:38:13,140 --> 01:38:11,530
so he investigated so he's office

1653
01:38:15,320 --> 01:38:13,150
investigated security breaches within

1654
01:38:17,610 --> 01:38:15,330
the Department of Defense and so on

1655
01:38:21,720 --> 01:38:17,620
apparently into the 70s he actually had

1656
01:38:25,830 --> 01:38:21,730
an interest in UFOs he he was probably

1657
01:38:29,010 --> 01:38:25,840
involved in the in the Robert Rob Robert

1658
01:38:32,130 --> 01:38:29,020
M&A Gore affair with with with supposed

1659
01:38:34,410 --> 01:38:32,140
what's a Holloman Air Force Base UFO

1660
01:38:35,939 --> 01:38:34,420
film footage and so on so you've got

1661
01:38:37,770 --> 01:38:35,949
this you've got this end of the whole

1662
01:38:39,620 --> 01:38:37,780
United States Air Force which has got

1663
01:38:42,720 --> 01:38:39,630

some you know million people or whatever

1664

01:38:45,060 --> 01:38:42,730

you've got this one officer one very

1665

01:38:47,189 --> 01:38:45,070

senior ranked officer in the 70s who's

1666

01:38:49,260 --> 01:38:47,199

who develops a UFO interest and he

1667

01:38:53,430 --> 01:38:49,270

happens to be there on the base during

1668

01:38:55,830 --> 01:38:53,440

the 1968 Minard sighting and we wonder

1669

01:38:57,840 --> 01:38:55,840

if the interest in UFOs in the later on

1670

01:38:59,490 --> 01:38:57,850

actually came from that but yeah that's

1671

01:39:01,229 --> 01:38:59,500

that's a good case and chance to answer

1672

01:39:03,479 --> 01:39:01,239

your question what constitutes is proof

1673

01:39:06,780 --> 01:39:03,489

for me in a case right let's say you've

1674

01:39:08,790 --> 01:39:06,790

got a case where where where the where

1675

01:39:10,680 --> 01:39:08,800

any other explanations are even more

1676

01:39:13,290 --> 01:39:10,690

ridiculous than a UFO so say you've got

1677

01:39:15,300 --> 01:39:13,300

a case where where where where you look

1678

01:39:17,669 --> 01:39:15,310

at it and and you think we'll if it's a

1679

01:39:19,229 --> 01:39:17,679

plane if it was a plan or a shooting

1680

01:39:21,060 --> 01:39:19,239

star or something that would be even

1681

01:39:22,560 --> 01:39:21,070

more unlikely it would be the most

1682

01:39:25,340 --> 01:39:22,570

bizarre plane or shooting star in

1683

01:39:27,690 --> 01:39:25,350

history than being a truly unknown

1684

01:39:29,130 --> 01:39:27,700

object intelligently controlled from

1685

01:39:31,050 --> 01:39:29,140

somewhere else like that that's when you

1686

01:39:35,460 --> 01:39:31,060

when you have a when you have a UFO case

1687

01:39:37,620 --> 01:39:35,470

that's that's that's so compelling that

1688

01:39:39,240 --> 01:39:37,630

it simply virtually can't be anything

1689

01:39:41,130 --> 01:39:39,250

else that's that's that's proof another

1690

01:39:43,080 --> 01:39:41,140

another piece of proof for me with with

1691

01:39:45,360 --> 01:39:43,090

documents and policy and plans within

1692

01:39:48,200 --> 01:39:45,370

military and intelligence communities

1693

01:39:50,940 --> 01:39:48,210

when you've got when you've got say a

1694

01:39:53,280 --> 01:39:50,950

commander or an entire department who's

1695

01:39:55,260 --> 01:39:53,290

constantly telling you no we do not have

1696

01:39:57,180 --> 01:39:55,270

this particular type of paperwork no we

1697

01:39:57,690 --> 01:39:57,190

do not take these particular types of

1698

01:40:00,000 --> 01:39:57,700

cases

1699

01:40:02,430 --> 01:40:00,010

no our reporting system never deals with

1700

01:40:05,400 --> 01:40:02,440

UFOs and then you know years later you

1701

01:40:07,290 --> 01:40:05,410

find you have them release documents

1702

01:40:08,670 --> 01:40:07,300

that actually show that that everything

1703

01:40:11,010 --> 01:40:08,680

they said involved was completely

1704

01:40:13,230 --> 01:40:11,020

incorrect so that to me is proof of a

1705

01:40:16,380 --> 01:40:13,240

level of disinformation or cover-up or

1706

01:40:17,970 --> 01:40:16,390

embarrassment or or you know that so yes

1707

01:40:19,980 --> 01:40:17,980

I mean there's different types of proof

1708

01:40:22,380 --> 01:40:19,990

but but yeah and I hope that answers

1709

01:40:24,210 --> 01:40:22,390

your question it does and I wanted to

1710

01:40:28,410 --> 01:40:24,220

talk about an interesting topic see if

1711

01:40:32,700 --> 01:40:28,420

you all want to chime in in on it when I

1712

01:40:36,150 --> 01:40:32,710

was studying the 1946 era I came up with

1713

01:40:38,550 --> 01:40:36,160

a topic that's about ghost rockets it's

1714

01:40:40,920 --> 01:40:38,560

a name given to mysterious rockets or

1715

01:40:42,660 --> 01:40:40,930

missiles shaped objects which were sited

1716

01:40:46,080 --> 01:40:42,670

on many different occasions between May

1717

01:40:50,190 --> 01:40:46,090

and December of 1946 with peaks on the

1718

01:40:52,050 --> 01:40:50,200

9th and the 11th of August 1946 they

1719

01:40:54,330 --> 01:40:52,060

were seen primarily in Sweden and nearby

1720

01:40:56,580 --> 01:40:54,340

Scandinavian countries but also in other

1721

01:40:58,650 --> 01:40:56,590

European countries as well altogether

1722

01:41:01,500 --> 01:40:58,660

some 2,000 reported sightings were

1723

01:41:03,420 --> 01:41:01,510

logged 200 of them being on radar and a

1724

01:41:05,820 --> 01:41:03,430

number of fragments were reported and

1725

01:41:07,560 --> 01:41:05,830

found by military authorities if you

1726

01:41:09,570 --> 01:41:07,570

don't know about that topic what I did

1727

01:41:12,240 --> 01:41:09,580

want to move on to is radar evidence

1728

01:41:15,270 --> 01:41:12,250

yeah let me jump in here really quick

1729

01:41:16,710 --> 01:41:15,280

chance because while Jan and Paul were

1730

01:41:20,580 --> 01:41:16,720

giving us some background on the Minow

1731

01:41:22,560 --> 01:41:20,590

case I came across Tom two liens our

1732

01:41:25,020 --> 01:41:22,570

article about the case and just want to

1733

01:41:27,780 --> 01:41:25,030

read a couple of points that Tom made

1734

01:41:29,970 --> 01:41:27,790

the radar scope photograph said I've

1735

01:41:31,980 --> 01:41:29,980

actually downloaded them and included

1736

01:41:34,440 --> 01:41:31,990

them in the slideshow so you can take a

1737

01:41:36,120 --> 01:41:34,450

look at them the radar scope photographs

1738

01:41:38,340 --> 01:41:36,130

contain information to examine the

1739

01:41:40,470 --> 01:41:38,350

nature of the the UFO that is typically

1740

01:41:44,510 --> 01:41:40,480

not available in the majority

1741

01:41:48,600 --> 01:41:44,520

UFO reports and then he goes on in cites

1742

01:41:51,479 --> 01:41:48,610

dr. Claude power who was a scientist and

1743

01:41:56,000 --> 01:41:51,489

astronomer with the bench basically the

1744

01:41:59,040 --> 01:41:56,010

French version of NASA CNES and

1745

01:42:01,670 --> 01:41:59,050

incorporating a multi multi disciplinary

1746

01:42:03,930 --> 01:42:01,680

approach power systematically formulate

1747

01:42:06,420 --> 01:42:03,940

hypotheses leading to theoretical

1748

01:42:09,360 --> 01:42:06,430

considerations concerning the energetic

1749

01:42:11,370 --> 01:42:09,370

potential of the UFO he suggests for

1750

01:42:14,240 --> 01:42:11,380

instance that if it were possible for

1751

01:42:16,740 --> 01:42:14,250

the UFOs has sustained the inferred

1752

01:42:19,340 --> 01:42:16,750

accelerations for more than a dozen

1753

01:42:21,720 --> 01:42:19,350

hours it could theoretically attain

1754

01:42:25,100 --> 01:42:21,730

relativistic speeds approaching that of

1755

01:42:28,080 --> 01:42:25,110

light such such that and the inner

1756

01:42:29,520 --> 01:42:28,090

Internet stellar voyage as possible I

1757

01:42:32,670 --> 01:42:29,530

didn't read that all that well but

1758

01:42:35,550 --> 01:42:32,680

basically we're talking about this UFO

1759

01:42:37,500 --> 01:42:35,560

at Minot just kind of taking off at an

1760

01:42:42,540 --> 01:42:37,510

extraordinary speed is that about right

1761

01:42:44,550 --> 01:42:42,550

everybody yeah yeah he says later on in

1762

01:42:49,080 --> 01:42:44,560

there that the amount of energy that it

1763

01:42:52,590 --> 01:42:49,090

had to use is like multiple nuclear

1764

01:42:56,210 --> 01:42:52,600

power plants I think he says 147 in one

1765

01:43:02,060 --> 01:42:56,220

place he used the radar photographs

1766

01:43:05,760 --> 01:43:02,070

which are to me even better than the

1767

01:43:08,190 --> 01:43:05,770

flare photographs from the tic-tac and

1768

01:43:13,850 --> 01:43:08,200

stuff this is this is even more

1769

01:43:18,600 --> 01:43:13,860

evidentiary than than that materially

1770

01:43:23,060 --> 01:43:18,610

for different experts analyzed the radar

1771

01:43:28,410 --> 01:43:23,070

photographs outside the air force for us

1772

01:43:32,310 --> 01:43:28,420

okay Jen go ahead my almonds I was going

1773

01:43:35,040 --> 01:43:32,320

to say the thing that we were Tom and I

1774

01:43:38,630 --> 01:43:35,050

were out doing a bunch of other reviews

1775

01:43:46,200 --> 01:43:38,640

and we stopped by Colonel Wayne Matson

1776

01:43:52,800 --> 01:43:46,210

and he's the he was doing oral histories

1777

01:43:55,760 --> 01:43:52,810

for Jimmy for

1778

01:43:58,770 --> 01:43:55,770

they're in Space Museum in New Mexico

1779

01:44:01,470 --> 01:43:58,780

and we showed him those photographs he

1780

01:44:03,540 --> 01:44:01,480

had never seen him before and he's

1781

01:44:05,280 --> 01:44:03,550

looking at the photographs and of course

1782

01:44:09,990 --> 01:44:05,290

we already know what the other people

1783

01:44:13,220 --> 01:44:10,000

said dr. Hanes and polar and the other

1784

01:44:16,980 --> 01:44:13,230

people already knew what they said and

1785

01:44:19,200 --> 01:44:16,990

he looks at the photographs he says it's

1786

01:44:22,920 --> 01:44:19,210

doing this here it's moving across the

1787

01:44:28,020 --> 01:44:22,930

back of the aircraft it looks about of

1788

01:44:29,790 --> 01:44:28,030

the size of a c-47 it's it's going at

1789

01:44:32,670 --> 01:44:29,800

over a thousand miles an hour I mean

1790

01:44:34,320 --> 01:44:32,680

he's just just confirming what the other

1791

01:44:37,500 --> 01:44:34,330

people said he had never seen the

1792

01:44:39,870 --> 01:44:37,510

photographs before they just yeah so the

1793

01:44:42,540 --> 01:44:39,880

radar people came up that looked at this

1794

01:44:45,690 --> 01:44:42,550

the people who were experts on radar all

1795

01:44:47,430 --> 01:44:45,700

came up with them about the same thing

1796

01:44:52,230 --> 01:44:47,440

just looking at the photographs this is

1797

01:44:54,510 --> 01:44:52,240

this is excellent evidence okay great I

1798

01:44:58,230 --> 01:44:54,520

wanted to actually bring up the ghost

1799

01:45:01,380 --> 01:44:58,240

rocket topic because if there were a

1800

01:45:05,790 --> 01:45:01,390

flurry or a wave of UFO sightings during

1801

01:45:07,920 --> 01:45:05,800

that period of time that the

1802

01:45:10,980 --> 01:45:07,930

descriptions here of what a ghost rocket

1803

01:45:14,280 --> 01:45:10,990

allegedly is might account for those UFO

1804

01:45:17,130 --> 01:45:14,290

sightings during 1946 specifically

1805

01:45:19,710 --> 01:45:17,140

during the July a period of time of 1946

1806

01:45:23,910 --> 01:45:19,720

Jan I wanted to know did you have any

1807

01:45:27,170 --> 01:45:23,920

data on the ghost rockets that were I

1808

01:45:34,320 --> 01:45:27,180

guess that's probably an understatement

1809

01:45:41,220 --> 01:45:34,330

yeah the the Swedish archives are open

1810

01:45:45,270 --> 01:45:41,230

to the to the guys in Sweden AFU and UFO

1811

01:45:47,760 --> 01:45:45,280

Sweden they have they have all the

1812

01:45:51,570 --> 01:45:47,770

official reports they've also gone back

1813

01:45:53,550 --> 01:45:51,580

and the newspaper research in the

1814

01:45:58,230 --> 01:45:53,560

Swedish newspapers remember Sweden

1815

01:46:00,150 --> 01:45:58,240

wasn't involved in the war so life went

1816

01:46:02,220 --> 01:46:00,160

on in Sweden and there so there's a lot

1817

01:46:05,430 --> 01:46:02,230

of newspapers that they can look at for

1818

01:46:12,400 --> 01:46:07,810

it's not like the rest of Europe that

1819

01:46:16,600 --> 01:46:12,410

was pretty well destroyed okay so were

1820

01:46:18,880 --> 01:46:16,610

there any reports of you know yeah

1821

01:46:21,130 --> 01:46:18,890

here's what I here's what I have okay I

1822

01:46:28,979 --> 01:46:21,140

went to the National Archives I looked

1823

01:46:35,940 --> 01:46:28,989

at Navy Army and Air Force messages

1824

01:46:41,320 --> 01:46:35,950

documents found over 100 documents from

1825

01:46:43,210 --> 01:46:41,330

confidential to top-secret this is the

1826
01:46:45,550 --> 01:46:43,220
most top-secret documents that I've ever

1827
01:46:48,790 --> 01:46:45,560
seen on UFO stuff so we got over a

1828
01:46:52,240 --> 01:46:48,800
hundred of them those 100 documents

1829
01:46:54,130 --> 01:46:52,250
refer to another 100 documents that we

1830
01:46:56,920 --> 01:46:54,140
don't have yet every time I go to the

1831
01:47:01,360 --> 01:46:56,930
archives I find new documents on us

1832
01:47:02,830 --> 01:47:01,370
there's a report from the CI G to

1833
01:47:07,900 --> 01:47:02,840
President Truman in there in fact

1834
01:47:09,850 --> 01:47:07,910
there's two reports on ghost rockets to

1835
01:47:13,390 --> 01:47:09,860
the to the President of the United

1836
01:47:16,000 --> 01:47:13,400
States from general Vandenberg who at

1837
01:47:21,550 --> 01:47:16,010
the time was the head of the CI G it's a

1838
01:47:24,970 --> 01:47:21,560

forerunner of the CIA this is the most

1839

01:47:32,820 --> 01:47:24,980

Navy documents that I've seen that our

1840

01:47:42,550 --> 01:47:35,440

everybody in Europe is involved just

1841

01:47:45,940 --> 01:47:42,560

about the embassy in in London the air

1842

01:47:47,680 --> 01:47:45,950

the area attache in London the well he's

1843

01:47:54,580 --> 01:47:47,690

not called there he's called the air

1844

01:47:58,900 --> 01:47:54,590

liaison officer the the naval attache in

1845

01:48:04,120 --> 01:47:58,910

London and ghost raucous didn't stop in

1846

01:48:07,150 --> 01:48:04,130

in 46 and they've going on in like cross

1847

01:48:10,000 --> 01:48:07,160

LAN tells us when we interviewed him he

1848

01:48:12,370 --> 01:48:10,010

said well he went on to the 90s he said

1849

01:48:16,209 --> 01:48:12,380

not as since the Soviet Union well

1850

01:48:19,030 --> 01:48:16,219

they're not as much as they used

1851

01:48:22,120 --> 01:48:19,040

b-but he said they never stopped he said

1852

01:48:24,400 --> 01:48:22,130

they really never stopped so Jan my

1853

01:48:28,720 --> 01:48:24,410

question to you is then we're there any

1854

01:48:33,370 --> 01:48:28,730

qfo sore of any kind of UFO organization

1855

01:48:34,990 --> 01:48:33,380

related UFO reports that these ghost

1856

01:48:37,689 --> 01:48:35,000

rockets can really account for those

1857

01:48:39,820 --> 01:48:37,699

reports possibly in other words they

1858

01:48:42,430 --> 01:48:39,830

these reports actually may have been

1859

01:48:48,280 --> 01:48:42,440

based on a ghost rocket sighting is that

1860

01:48:53,260 --> 01:48:48,290

possible well yeah some of these things

1861

01:49:02,050 --> 01:48:53,270

are real interesting in 1946 in the

1862

01:49:06,010 --> 01:49:02,060

Swedish defense archives these people

1863

01:49:10,689 --> 01:49:06,020

report three triangular objects in

1864

01:49:13,300 --> 01:49:10,699

formation flying overhead when when they

1865

01:49:17,500 --> 01:49:13,310

go over the houses the electricity is

1866

01:49:20,080 --> 01:49:17,510

affected the clocks are stopped and the

1867

01:49:22,180 --> 01:49:20,090

the origin of the report is from the

1868

01:49:27,310 --> 01:49:22,190

local police officers that went to

1869

01:49:33,850 --> 01:49:27,320

investigate this so Sweden had a UFO and

1870

01:49:39,430 --> 01:49:33,860

Sweden actually had a UFO investigation

1871

01:49:42,430 --> 01:49:39,440

before Kenneth Arnold because those

1872

01:49:43,240 --> 01:49:42,440

rockets they had an investigation in

1873

01:49:48,570 --> 01:49:43,250

Switzerland

1874

01:49:53,860 --> 01:49:48,580

I mean Sweden before Kenneth Arnold

1875

01:49:56,410 --> 01:49:53,870

that's where these thousands of reports

1876

01:50:04,350 --> 01:49:56,420

are home

1877

01:50:12,790 --> 01:50:04,360

besides that Andrews Millikan in Sweden

1878

01:50:15,970 --> 01:50:12,800

for my 1947 he rolled up a ura UFOs in

1879

01:50:19,570 --> 01:50:15,980

Sweden in 1947 of course like I said the

1880

01:50:21,910 --> 01:50:19,580

ghost rockets just kept on goin through

1881

01:50:25,090 --> 01:50:21,920

47 he didn't read much about it in the

1882

01:50:29,530 --> 01:50:25,100

newspapers but they just kept going 47

1883

01:50:38,270 --> 01:50:33,920

and like cloth says well they never

1884

01:50:40,220 --> 01:50:38,280

really stopped at all okay um so Paul

1885

01:50:41,720 --> 01:50:40,230

what do you think are there any UFO

1886

01:50:45,230 --> 01:50:41,730

sightings that could be accounted for by

1887

01:50:50,300 --> 01:50:45,240

actual ghost rockets that probably be

1888

01:50:52,040 --> 01:50:50,310

some I mean look we don't have we don't

1889

01:50:54,800 --> 01:50:52,050

have enough of say say the Soviet

1890

01:50:57,050 --> 01:50:54,810

Union's history in rocket design rocket

1891

01:51:00,140 --> 01:50:57,060

propulsion test bedding of rockets and

1892

01:51:02,060 --> 01:51:00,150

early unguided missiles guided bombs

1893

01:51:03,620 --> 01:51:02,070

that sort of thing we you know we can't

1894

01:51:05,300 --> 01:51:03,630

read Russian we don't have access to

1895

01:51:08,810 --> 01:51:05,310

Russian archives there's been some great

1896

01:51:11,090 --> 01:51:08,820

non-fiction books written encyclopedia

1897

01:51:13,670 --> 01:51:11,100

entries documentaries on early wrote

1898

01:51:15,500 --> 01:51:13,680

like Russian or Soviet rocket

1899

01:51:17,510 --> 01:51:15,510

development but I mean there would be

1900

01:51:19,610 --> 01:51:17,520

some of those there would be some in the

1901
01:51:21,740 --> 01:51:19,620
Arctic and into Finland and maybe even

1902
01:51:23,900 --> 01:51:21,750
in at the top of Norway and Sweden is

1903
01:51:25,940 --> 01:51:23,910
going to be so in the Baltic Sea region

1904
01:51:29,350 --> 01:51:25,950
the Black Sea maybe in the Mediterranean

1905
01:51:32,360 --> 01:51:29,360
there's going to be some examples of

1906
01:51:34,220 --> 01:51:32,370
Russian long-range artillery shells and

1907
01:51:36,440 --> 01:51:34,230
rocket barrages which could account for

1908
01:51:38,240 --> 01:51:36,450
some of these ghost rockets eiling's but

1909
01:51:40,340 --> 01:51:38,250
I would say that only a small percentage

1910
01:51:42,020 --> 01:51:40,350
would be I mean essentially these things

1911
01:51:43,580 --> 01:51:42,030
are unsolved look the ones that happened

1912
01:51:45,620 --> 01:51:43,590
at nighttime

1913
01:51:48,590 --> 01:51:45,630

to me not great because they could

1914

01:51:52,760 --> 01:51:48,600

easily have been just very very so

1915

01:51:55,010 --> 01:51:52,770

straight line or very very strong

1916

01:51:56,390 --> 01:51:55,020

bollards like fireball reentry's and

1917

01:51:58,520 --> 01:51:56,400

whatever but the ones that happen during

1918

01:52:01,760 --> 01:51:58,530

the day that we're going at weird angles

1919

01:52:03,470 --> 01:52:01,770

in around unpopulated areas where

1920

01:52:05,240 --> 01:52:03,480

there's no military installations and

1921

01:52:06,920 --> 01:52:05,250

whether it's just farmland or or

1922

01:52:10,460 --> 01:52:06,930

whatever that they're the ones that

1923

01:52:13,280 --> 01:52:10,470

confuse me yeah that's what okay great

1924

01:52:15,410 --> 01:52:13,290

and I wanted to actually let me go ahead

1925

01:52:18,530 --> 01:52:15,420

and preface my question with this

1926

01:52:20,750 --> 01:52:18,540

comment first and that is you can't

1927

01:52:24,200 --> 01:52:20,760

really talk about the topic of ufology

1928

01:52:27,380 --> 01:52:24,210

and the 1940 era without bringing up the

1929

01:52:28,790 --> 01:52:27,390

Battle of Los Angeles so wanted to ask

1930

01:52:30,230 --> 01:52:28,800

you guys about that but let me go ahead

1931

01:52:32,510 --> 01:52:30,240

and let our listeners know a little bit

1932

01:52:36,560 --> 01:52:32,520

about that topic and that happened in

1933

01:52:38,600 --> 01:52:36,570

February of 24th of February of 1942

1934

01:52:40,100 --> 01:52:38,610

unidentified aerial objects triggered

1935

01:52:42,900 --> 01:52:40,110

the firing of thousands of anti-aircraft

1936

01:52:45,570 --> 01:52:42,910

rounds and raised the wartime

1937

01:52:47,190 --> 01:52:45,580

status the Battle of launched Los

1938

01:52:49,260 --> 01:52:47,200

Angeles also known as the great Los

1939

01:52:51,120 --> 01:52:49,270

Angeles air raid is the name given by

1940

01:52:53,520 --> 01:52:51,130

contemporary sources to the rumored

1941

01:52:56,280 --> 01:52:53,530

attack by Japan and subsequent air

1942

01:52:59,190 --> 01:52:56,290

anti-aircraft artillery barrage which

1943

01:53:01,920 --> 01:52:59,200

took place from late February 24th 25th

1944

01:53:04,580 --> 01:53:01,930

of 1942 over Los Angeles California as

1945

01:53:07,920 --> 01:53:04,590

you both know so well regarding that

1946

01:53:10,890 --> 01:53:07,930

anecdotal story and also a base maybe

1947

01:53:13,050 --> 01:53:10,900

partly on fact wanted to know Jan and

1948

01:53:19,170 --> 01:53:13,060

Paul what do you think about that story

1949

01:53:21,660 --> 01:53:19,180

is there is there any et craft that

1950

01:53:24,960 --> 01:53:21,670

could have been involved in that or what

1951

01:53:27,000 --> 01:53:24,970

what what is your take on that I'll

1952

01:53:30,000 --> 01:53:27,010

start by saying that the vast majority

1953

01:53:32,850 --> 01:53:30,010

of what you read online today and in

1954

01:53:34,470 --> 01:53:32,860

books has been grossly exaggerated it

1955

01:53:37,560 --> 01:53:34,480

does not mean some of the stats are real

1956

01:53:40,680 --> 01:53:37,570

doctor really was anti-aircraft systems

1957

01:53:42,750 --> 01:53:40,690

in in Los Angeles there really there

1958

01:53:46,260 --> 01:53:42,760

really was that amount of fire at night

1959

01:53:48,630 --> 01:53:46,270

the were high levels involved the but

1960

01:53:50,850 --> 01:53:48,640

but but the rest of it about UFOs or

1961

01:53:52,590 --> 01:53:50,860

alien spacecraft you know like being

1962

01:53:54,960 --> 01:53:52,600

across the Pacific Ocean and into the

1963

01:53:58,050 --> 01:53:54,970

suburbs of Los Angeles being shot at

1964

01:54:00,930 --> 01:53:58,060

violently and then some sort of massive

1965

01:54:02,640 --> 01:54:00,940

cover-up I just I it's been exaggerated

1966

01:54:04,620 --> 01:54:02,650

it's a lot of this stuff's been added in

1967

01:54:10,560 --> 01:54:04,630

yearly just later completely out of the

1968

01:54:13,730 --> 01:54:10,570

engine what do you think well it's like

1969

01:54:16,140 --> 01:54:13,740

other UFO problems

1970

01:54:17,100 --> 01:54:16,150

there's official information that hasn't

1971

01:54:20,840 --> 01:54:17,110

been released

1972

01:54:24,600 --> 01:54:20,850

I remember reading the chronology of the

1973

01:54:27,810 --> 01:54:24,610

the official chronology not not some

1974

01:54:31,950 --> 01:54:27,820

writers thing correct

1975

01:54:38,280 --> 01:54:31,960

it says the Navy gave the alert I'm

1976

01:54:41,850 --> 01:54:38,290

saying to myself what does that mean how

1977

01:54:44,700 --> 01:54:41,860

did the Navy give the alert word it was

1978

01:54:48,510 --> 01:54:44,710

their radar I mean there were Navy ships

1979

01:54:55,290 --> 01:54:48,520

in the area the the Japanese had used

1980

01:54:56,290 --> 01:54:55,300

some of their submarines to show a sure

1981

01:54:59,260 --> 01:54:56,300

installation

1982

01:55:03,090 --> 01:54:59,270

around Los Angeles they have been doing

1983

01:55:05,890 --> 01:55:03,100

that for a couple of days beforehand

1984

01:55:08,080 --> 01:55:05,900

they did have planes that they could

1985

01:55:11,890 --> 01:55:08,090

launch from submarines but there's no

1986

01:55:14,340 --> 01:55:11,900

evidence that that occurred they asked

1987

01:55:20,710 --> 01:55:14,350

the Japanese afterwards if they had

1988

01:55:22,990 --> 01:55:20,720

attack Los Angeles and the the the the

1989

01:55:25,600 --> 01:55:23,000

people that should know our claim that

1990

01:55:32,560 --> 01:55:25,610

they no they never they were involved in

1991

01:55:35,700 --> 01:55:32,570

this Los Angeles one there's also a good

1992

01:55:40,090 --> 01:55:35,710

possibility that part of Los Angeles

1993

01:55:43,600 --> 01:55:40,100

scenario was a weather balloon used to

1994

01:55:45,520 --> 01:55:43,610

correct artillery firings that was

1995

01:55:50,800 --> 01:55:45,530

launched just about the time the

1996

01:55:56,020 --> 01:55:50,810

incident started so there is the thing

1997

01:55:59,550 --> 01:55:56,030

about to me is the Navy gave the the

1998

01:56:02,080 --> 01:55:59,560

warning and then the Navy disappears

1999

01:56:04,630 --> 01:56:02,090

scenario what the heck are you talking

2000

01:56:09,030 --> 01:56:04,640

about this is there's there's all kinds

2001
01:56:13,120 --> 01:56:09,040
of missing information there yeah and I

2002
01:56:15,880 --> 01:56:13,130
look into it as a matter of fact and and

2003
01:56:19,380 --> 01:56:15,890
they quit right away they say this is

2004
01:56:22,750 --> 01:56:19,390
too much I say well go out and gather

2005
01:56:26,890 --> 01:56:22,760
sightings look in newspapers around the

2006
01:56:27,730 --> 01:56:26,900
whole area Los Angeles Indian Northern

2007
01:56:30,280 --> 01:56:27,740
California

2008
01:56:31,600 --> 01:56:30,290
see if you can find things and and

2009
01:56:33,640 --> 01:56:31,610
people will told me you know this is too

2010
01:56:35,680 --> 01:56:33,650
complicated this is a pain in the neck

2011
01:56:38,220 --> 01:56:35,690
I'm not going to do it and they send me

2012
01:56:43,690 --> 01:56:38,230
what I have so I've accumulated a lot of

2013
01:56:44,680 --> 01:56:43,700

documents on this but it's it's a super

2014

01:56:48,070 --> 01:56:44,690

strange thing

2015

01:56:51,690 --> 01:56:48,080

part of it is explainable part isn't

2016

01:56:54,640 --> 01:56:51,700

okay not enough of fishel information

2017

01:56:57,100 --> 01:56:54,650

release Barry got a lot of official

2018

01:57:00,400 --> 01:56:57,110

information on this but it's just not

2019

01:57:02,860 --> 01:57:00,410

enough okay so you asked about radar

2020

01:57:05,860 --> 01:57:02,870

information I know that you probably

2021

01:57:07,360 --> 01:57:05,870

know what I'm talking about here and you

2022

01:57:10,090 --> 01:57:07,370

can go ahead and tell me whether you

2023

01:57:12,220 --> 01:57:10,100

think it's false or not

2024

01:57:14,110 --> 01:57:12,230

but it says that on the 24th of February

2025

01:57:15,580 --> 01:57:14,120

a warning issued by naval intelligence

2026

01:57:17,440 --> 01:57:15,590

indicated that an attack could be

2027

01:57:19,750 --> 01:57:17,450

expected within the next 10 hours that

2028

01:57:21,340 --> 01:57:19,760

evening a large number of flares and

2029

01:57:23,920 --> 01:57:21,350

blinking lights were reported from the

2030

01:57:27,340 --> 01:57:23,930

vicinity of defense plants an alert

2031

01:57:30,040 --> 01:57:27,350

called at 7:18 p.m. pacific time was

2032

01:57:33,070 --> 01:57:30,050

lifted and the tension temporarily

2033

01:57:35,200 --> 01:57:33,080

relaxed which was lifted hours later but

2034

01:57:37,960 --> 01:57:35,210

early in the morning of the 25th renewed

2035

01:57:41,080 --> 01:57:37,970

activity began radars you asked about

2036

01:57:42,550 --> 01:57:41,090

radar activity which I know you probably

2037

01:57:43,830 --> 01:57:42,560

know about what I'm talking about here

2038

01:57:46,680 --> 01:57:43,840

but I'm gonna talk about it anyway

2039

01:57:50,020 --> 01:57:46,690

radars picked up an unidentified target

2040

01:57:52,600 --> 01:57:50,030

120 miles west of La anti-aircraft

2041

01:57:54,640 --> 01:57:52,610

batteries were alerted and put on green

2042

01:57:57,610 --> 01:57:54,650

alert ready to fire a few minutes later

2043

01:57:59,830 --> 01:57:57,620

the AAF kept its pursuit planes on the

2044

01:58:01,450 --> 01:57:59,840

ground preferring to await indications

2045

01:58:03,400 --> 01:58:01,460

of the scale and direction of any attack

2046

01:58:06,490 --> 01:58:03,410

before committing its limited fighter

2047

01:58:08,050 --> 01:58:06,500

force radars tracked the approaching

2048

01:58:12,850 --> 01:58:08,060

target to within a few miles of the

2049

01:58:15,430 --> 01:58:12,860

coast and at Oh 221 the regional

2050

01:58:17,350 --> 01:58:15,440

controller ordered a black out there for

2051

01:58:19,150 --> 01:58:17,360

the info center was flirtd with reports

2052

01:58:22,870 --> 01:58:19,160

of enemy planes even though the

2053

01:58:25,480 --> 01:58:22,880

mysterious object tracked by radar in

2054

01:58:28,690 --> 01:58:25,490

from sea seems to have vanished

2055

01:58:31,470 --> 01:58:28,700

okay so comments from you Paul and Jan

2056

01:58:33,760 --> 01:58:31,480

Paul do you have any comments on this no

2057

01:58:38,410 --> 01:58:33,770

I just I actually don't know that much

2058

01:58:39,940 --> 01:58:38,420

about the case no it certainly is

2059

01:58:42,520 --> 01:58:39,950

interesting I mean it's that it's

2060

01:58:44,290 --> 01:58:42,530

definitely if that's very very if that's

2061

01:58:46,600 --> 01:58:44,300

material that's absolutely pinned at the

2062

01:58:48,160 --> 01:58:46,610

time written at the time and not not

2063

01:58:50,950 --> 01:58:48,170

years later you know that's very very

2064

01:58:53,010 --> 01:58:50,960

important narrative jen-jen definitely

2065

01:59:01,360 --> 01:58:53,020

knows more about this than I do

2066

01:59:03,210 --> 01:59:01,370

okay Jan your input well okay that's not

2067

01:59:06,370 --> 01:59:03,220

from an official document I don't think

2068

01:59:09,660 --> 01:59:06,380

no no you're right it is not your

2069

01:59:15,860 --> 01:59:09,670

abstract on that that is wicked Tony

2070

01:59:22,480 --> 01:59:17,160

[Music]

2071

01:59:23,859 --> 01:59:22,490

nycap one of the guys at nycap in the

2072

01:59:27,129 --> 01:59:23,869

sixties

2073

01:59:31,750 --> 01:59:27,139

was an air raid war warden during that

2074

01:59:37,540 --> 01:59:31,760

and his his testimony is in Gordon

2075

01:59:41,680 --> 01:59:37,550

lawyers and rich the notes book UFOs in

2076

01:59:44,709 --> 01:59:41,690

perspective so he he says he saw an

2077

01:59:50,320 --> 01:59:44,719

actual object and he was a he was an air

2078

01:59:53,709 --> 01:59:50,330

raid warden on the scene I have a report

2079

01:59:58,209 --> 01:59:53,719

from a guy that was on guard duty and he

2080

02:00:02,080 --> 01:59:58,219

saw a green fireball and he didn't think

2081

02:00:04,600 --> 02:00:02,090

it was a player or a meteor just before

2082

02:00:07,140 --> 02:00:04,610

the attack took place or the incident

2083

02:00:12,820 --> 02:00:07,150

took place let's put it that way now

2084

02:00:21,399 --> 02:00:12,830

officially in the in the documents there

2085

02:00:25,689 --> 02:00:21,409

is the the the the artillery did loose a

2086

02:00:29,260 --> 02:00:25,699

balloon and they were able to track it

2087

02:00:33,010 --> 02:00:29,270

so some of the artillery fire was

2088

02:00:35,020 --> 02:00:33,020

actually mistakenly directed at the

2089

02:00:36,729 --> 02:00:35,030

balloon so we know that but there's

2090

02:00:43,379 --> 02:00:36,739

other things that this thing is going up

2091

02:00:46,270 --> 02:00:43,389

and down the interior of California

2092

02:00:47,109 --> 02:00:46,280

north and south so this is this is

2093

02:00:51,790 --> 02:00:47,119

interesting

2094

02:00:54,640 --> 02:00:51,800

now this is almost like a Roswell case

2095

02:00:58,200 --> 02:00:54,650

though there's so much rumors around

2096

02:01:03,850 --> 02:00:58,210

this case there's supposed to the

2097

02:01:08,530 --> 02:01:03,860

crashed Air Force Army Air Force planes

2098

02:01:12,370 --> 02:01:08,540

that are seen later on why people I

2099

02:01:14,410 --> 02:01:12,380

can't confirm that that's one of the one

2100

02:01:17,050 --> 02:01:14,420

of these rulers in the newspaper that

2101
02:01:17,470 --> 02:01:17,060
one of these guys did research for me

2102
02:01:27,879 --> 02:01:17,480
out there

2103
02:01:29,620 --> 02:01:27,889
found so it's it's it's really difficult

2104
02:01:32,140 --> 02:01:29,630
there's more there's got to be more

2105
02:01:34,870 --> 02:01:32,150
official documents out there okay great

2106
02:01:36,820 --> 02:01:34,880
thank you and just that let me let me

2107
02:01:37,210 --> 02:01:36,830
jump in here really quick chant your

2108
02:01:40,150 --> 02:01:37,220
mention

2109
02:01:43,810 --> 02:01:40,160
the radar target and all that the source

2110
02:01:47,920 --> 02:01:43,820
on that comes from two gentlemen Frank

2111
02:01:50,080 --> 02:01:47,930
Wesley Craven and James Lee Kate West

2112
02:01:55,690 --> 02:01:50,090
Coast air defenses and the battle of Los

2113
02:01:58,420 --> 02:01:55,700

Angeles which is part of the office of

2114

02:02:01,090 --> 02:01:58,430

Air Force history so that's the source

2115

02:02:03,370 --> 02:02:01,100

on that as far as the radar target being

2116

02:02:05,680 --> 02:02:03,380

picked up thank you so much for that

2117

02:02:08,800 --> 02:02:05,690

valuable information Frank Paul I wanted

2118

02:02:11,140 --> 02:02:08,810

to ask you and also Jan but I'd like

2119

02:02:14,230 --> 02:02:11,150

Paul to actually respond first if you

2120

02:02:17,740 --> 02:02:14,240

don't mind and that is do you think the

2121

02:02:20,350 --> 02:02:17,750

majority of the UFO related reports or

2122

02:02:25,900 --> 02:02:20,360

related any phenomena reported also

2123

02:02:28,140 --> 02:02:25,910

aside from UFO reports for 1947 are

2124

02:02:32,380 --> 02:02:28,150

explainable or do they remain firmly

2125

02:02:33,820 --> 02:02:32,390

unidentified oh I think that the this

2126

02:02:37,090 --> 02:02:33,830

there's a big percentage that remain

2127

02:02:38,650 --> 02:02:37,100

unidentified in that in that even the

2128

02:02:40,540 --> 02:02:38,660

ones that even the ones that have gone

2129

02:02:42,630 --> 02:02:40,550

through a rigorous investigation there's

2130

02:02:46,260 --> 02:02:42,640

there's a significant percentage that

2131

02:02:48,340 --> 02:02:46,270

that that have have eluded us completely

2132

02:02:49,960 --> 02:02:48,350

if you're talking about ones where

2133

02:02:52,930 --> 02:02:49,970

they're simple very very tiny little

2134

02:02:54,880 --> 02:02:52,940

newspaper articles or letters to let you

2135

02:02:57,400 --> 02:02:54,890

know belated letters 10 years 20 years

2136

02:02:58,930 --> 02:02:57,410

later right that they are not including

2137

02:03:00,670 --> 02:02:58,940

those and then and then cases are clear

2138

02:03:03,280 --> 02:03:00,680

hoaxes I'm not including those oh if

2139

02:03:06,250 --> 02:03:03,290

you're looking at core reasonable UFO

2140

02:03:08,980 --> 02:03:06,260

reports which have significant detail I

2141

02:03:12,340 --> 02:03:08,990

would say that that a very significant

2142

02:03:14,860 --> 02:03:12,350

percentage I suppose I could say 40

2143

02:03:19,200 --> 02:03:14,870

percent 35 something like 35 40 percent

2144

02:03:22,720 --> 02:03:19,210

have remained unidentified that that

2145

02:03:24,100 --> 02:03:22,730

that can't easily be explained away that

2146

02:03:27,940 --> 02:03:24,110

even the government of the time in say

2147

02:03:31,050 --> 02:03:27,950

project sign or and and and other sort

2148

02:03:33,040 --> 02:03:31,060

of like local army investigations or

2149

02:03:35,170 --> 02:03:33,050

intelligence investigations within the

2150

02:03:36,670 --> 02:03:35,180

Air Force or even the FBI couldn't solve

2151

02:03:38,920 --> 02:03:36,680

at the time so if I couldn't solve from

2152

02:03:40,390 --> 02:03:38,930

them they may not solve from there so

2153

02:03:43,390 --> 02:03:40,400

yeah I'd say a significant percentage

2154

02:03:44,830 --> 02:03:43,400

are unidentifiable okay and John same

2155

02:03:47,830 --> 02:03:44,840

question to you do you think the

2156

02:03:50,959 --> 02:03:47,840

majority of the UFO reports for the 1947

2157

02:03:53,089 --> 02:03:50,969

era are explainable

2158

02:03:56,239 --> 02:03:53,099

or do they remain firmly unidentified

2159

02:03:56,689 --> 02:03:56,249

Jen well I think a lot of let's put it

2160

02:04:01,520 --> 02:03:56,699

this way

2161

02:04:05,930 --> 02:04:01,530

a lot of 1947 reports are trivial now

2162

02:04:08,390 --> 02:04:05,940

there's there's almost 40 sightings from

2163

02:04:13,700 --> 02:04:08,400

aircraft and most of those are not

2164

02:04:17,870 --> 02:04:13,710

trivial and the UFOs do make unusual

2165

02:04:26,089 --> 02:04:23,930

there's paid pacing aircraft evading

2166

02:04:29,180 --> 02:04:26,099

there's a lot of things that are like

2167

02:04:31,819 --> 02:04:29,190

that there's there's radar cases and 47

2168

02:04:35,509 --> 02:04:31,829

you won't find them in Google but their

2169

02:04:43,040 --> 02:04:35,519

official radar cases in 47 yeah and

2170

02:04:49,839 --> 02:04:43,050

there's there's a lot of serious good

2171

02:04:54,140 --> 02:04:49,849

commentary by the witnesses reports that

2172

02:05:01,819 --> 02:04:54,150

indicate that there's something it's not

2173

02:05:09,560 --> 02:05:01,829

aircraft it's not astronomical it's not

2174

02:05:13,279 --> 02:05:09,570

balloons 1947 was the biggest sky watch

2175

02:05:16,489 --> 02:05:13,289

that ever happened people would stay

2176
02:05:17,899 --> 02:05:16,499
outside for hours and look at the sky so

2177
02:05:20,120 --> 02:05:17,909
they would see things that they had

2178
02:05:22,939 --> 02:05:20,130
never seen before nobody had ever

2179
02:05:24,890 --> 02:05:22,949
noticed like all the balloons that were

2180
02:05:29,390 --> 02:05:24,900
going up and a lot more balloons are

2181
02:05:31,219 --> 02:05:29,400
going up for weather work in 47 that are

2182
02:05:34,160 --> 02:05:31,229
doing it now because we have satellites

2183
02:05:36,529 --> 02:05:34,170
and everything so people had never

2184
02:05:40,250 --> 02:05:36,539
noticed those things would be seeing

2185
02:05:44,810 --> 02:05:40,260
them and there is a lot of trivial

2186
02:05:49,250 --> 02:05:44,820
things like mrs. Johnson was riding back

2187
02:05:55,009 --> 02:05:49,260
from grocery shopping and saw a you a

2188
02:05:57,770 --> 02:05:55,019

flying saucer zip across the road about

2189

02:05:59,600 --> 02:05:57,780

a mile up from her and there's no

2190

02:06:01,790 --> 02:05:59,610

information in there to me that's a

2191

02:06:04,399 --> 02:06:01,800

trivial report that you know and there's

2192

02:06:08,379 --> 02:06:04,409

things things that are even worse

2193

02:06:16,580 --> 02:06:08,389

yeah also remember was a fad at the time

2194

02:06:17,899 --> 02:06:16,590

so I had some stuff about okay I think

2195

02:06:20,089 --> 02:06:17,909

you're cutting out there a little bit

2196

02:06:23,810 --> 02:06:20,099

Jen but thank you for that input I

2197

02:06:27,469 --> 02:06:23,820

wanted to talk about what might be

2198

02:06:29,359 --> 02:06:27,479

considered radar evidence Frank you know

2199

02:06:29,810 --> 02:06:29,369

a lot about this topic a lot more than I

2200

02:06:36,049 --> 02:06:29,820

do

2201

02:06:39,589 --> 02:06:36,059

about radar being used as proof or

2202

02:06:43,279 --> 02:06:39,599

evidence regarding a possible UFO

2203

02:06:45,409 --> 02:06:43,289

sighting any any input on that Frank

2204

02:06:46,969 --> 02:06:45,419

well yeah I'll jump in really quick and

2205

02:06:49,429 --> 02:06:46,979

say it's excellent evidence I mean it's

2206

02:06:51,739 --> 02:06:49,439

well it's worth that that when you've

2207

02:06:53,540 --> 02:06:51,749

got the radar evidence and visual to

2208

02:06:57,799 --> 02:06:53,550

back it up it's proof that something was

2209

02:07:01,909 --> 02:06:57,809

there for sure and that yeah a radar is

2210

02:07:04,310 --> 02:07:01,919

physical evidence okay John or Paul yeah

2211

02:07:06,319 --> 02:07:04,320

right out right hours pretty good once

2212

02:07:07,609 --> 02:07:06,329

the once the once the software look

2213

02:07:09,859 --> 02:07:07,619

today it's all different cause it's

2214

02:07:11,989 --> 02:07:09,869

synthetic digital displays and so on and

2215

02:07:13,159 --> 02:07:11,999

this and and and if you look if you're

2216

02:07:14,989 --> 02:07:13,169

talking about just primary right our

2217

02:07:19,549 --> 02:07:14,999

primary echo radar track tracking or

2218

02:07:21,439 --> 02:07:19,559

scan rider it look look the once an

2219

02:07:23,229 --> 02:07:21,449

experienced radar operator and even in

2220

02:07:27,319 --> 02:07:23,239

the early days the rudimentary software

2221

02:07:29,479 --> 02:07:27,329

either what's out or the operator can

2222

02:07:31,459 --> 02:07:29,489

recognize things like electrical

2223

02:07:33,739 --> 02:07:31,469

interference from from from other radio

2224

02:07:37,310 --> 02:07:33,749

sources like trucks or whatever can

2225

02:07:38,540 --> 02:07:37,320

recognize temperature inversions and

2226

02:07:41,509 --> 02:07:38,550

particularly things like what we call

2227

02:07:43,759 --> 02:07:41,519

running rabbits or whatever once they

2228

02:07:45,290 --> 02:07:43,769

can be identified and you've got when

2229

02:07:48,350 --> 02:07:45,300

you've got a cases where there's a song

2230

02:07:50,870 --> 02:07:48,360

object that's got a good return then

2231

02:07:52,370 --> 02:07:50,880

then then then right out radar is

2232

02:07:54,049 --> 02:07:52,380

reasonably good evidence where it can be

2233

02:07:55,819 --> 02:07:54,059

really powerful this we've got two

2234

02:07:57,709 --> 02:07:55,829

completely different radar systems in

2235

02:07:59,179 --> 02:07:57,719

the same area so let's say you've got

2236

02:08:01,729 --> 02:07:59,189

let's say you've got a trackball scan

2237

02:08:04,399 --> 02:08:01,739

military radar I don't know in in Oregon

2238

02:08:06,379 --> 02:08:04,409

and then you've got a an airport with a

2239

02:08:08,390 --> 02:08:06,389

with a with a rapcon radar approach

2240

02:08:10,669 --> 02:08:08,400

control radar on different frequencies

2241

02:08:12,560 --> 02:08:10,679

with a different spinning head rate with

2242

02:08:14,000 --> 02:08:12,570

the completely different software let's

2243

02:08:16,339 --> 02:08:14,010

say they both show the same thing they

2244

02:08:17,520 --> 02:08:16,349

both both both bases are talking talking

2245

02:08:19,020 --> 02:08:17,530

to each other and

2246

02:08:21,419 --> 02:08:19,030

I say look if you've got something in

2247

02:08:23,040 --> 02:08:21,429

this sector it's you know 16 degrees and

2248

02:08:24,299 --> 02:08:23,050

altitude like this and the other guy

2249

02:08:26,399 --> 02:08:24,309

said oh yeah we've been watching this

2250

02:08:28,020 --> 02:08:26,409

for 20 minutes we don't know what it is

2251

02:08:29,819 --> 02:08:28,030

well we've got a 2g it's getting big

2252

02:08:35,129 --> 02:08:29,829

like that that's that's that's

2253

02:08:36,600 --> 02:08:35,139

significant evidence you know okay great

2254

02:08:39,149 --> 02:08:36,610

and I wanted to go ahead and let our

2255

02:08:40,950 --> 02:08:39,159

listeners know that there's a website

2256

02:08:44,419 --> 02:08:40,960

that's very very important that they

2257

02:08:48,510 --> 02:08:44,429

need to check out it is called project

2258

02:08:52,500 --> 02:08:48,520

1947 and how you get to it and it is run

2259

02:08:57,510 --> 02:08:52,510

by Jan Eldridge by the way it is triple

2260

02:09:00,419 --> 02:08:57,520

w dot project 1947 dot-com and that is a

2261

02:09:02,510 --> 02:09:00,429

worldwide effort to document the origins

2262

02:09:05,370 --> 02:09:02,520

of the modern UFO phenomenon and

2263

02:09:08,549 --> 02:09:05,380

research for the project is yielded many

2264

02:09:10,140 --> 02:09:08,559

early era UFO reports via the FOIA news

2265

02:09:12,089 --> 02:09:10,150

people newspaper articles and

2266

02:09:14,970 --> 02:09:12,099

contemporary accounts some of the

2267

02:09:16,680 --> 02:09:14,980

material gathered by project 1947 is on

2268

02:09:19,879 --> 02:09:16,690

is displayed on that website

2269

02:09:22,500 --> 02:09:19,889

I think they updated on a regular and

2270

02:09:25,859 --> 02:09:22,510

Jan at this project that you've been

2271

02:09:29,010 --> 02:09:25,869

working on so diligently for quite a

2272

02:09:32,569 --> 02:09:29,020

while now do you feel like you will this

2273

02:09:42,180 --> 02:09:32,579

is a project that will never end I think

2274

02:09:43,919 --> 02:09:42,190

we are finding new material and

2275

02:09:51,770 --> 02:09:43,929

sometimes it's got nothing to do with

2276

02:10:03,390 --> 02:09:59,600

released some Korean War documents and

2277

02:10:08,450 --> 02:10:03,400

it was by the first Marine Air Wing in

2278

02:10:14,430 --> 02:10:08,460

in Korea at the time of the war from

2279

02:10:19,910 --> 02:10:14,440

1951 to 1953 and it was weekly combat

2280

02:10:23,850 --> 02:10:19,920

summaries and they segregated say UFO

2281

02:10:29,669 --> 02:10:23,860

UFOs from unidentified aircraft or

2282

02:10:31,110 --> 02:10:29,679

things like that they actually had a an

2283

02:10:36,810 --> 02:10:31,120

entry on you

2284

02:10:40,440 --> 02:10:36,820

see in Korea during the war and that

2285

02:10:42,690 --> 02:10:40,450

just came out because some Korean War

2286

02:10:45,270 --> 02:10:42,700

vets that getting up there in age they

2287

02:10:47,670 --> 02:10:45,280

have been hounding the government to

2288

02:10:52,560 --> 02:10:47,680

release some of these documents and it

2289

02:10:56,550 --> 02:10:52,570

wasn't it wasn't ufo-related that our

2290

02:11:02,090 --> 02:10:56,560

inquiry was just vet doing that and in

2291

02:11:05,670 --> 02:11:02,100

the same same way the Vietnam War some

2292

02:11:09,450 --> 02:11:05,680

some material at the archives about UFOs

2293

02:11:13,740 --> 02:11:09,460

in Vietnam were just released because

2294

02:11:17,580 --> 02:11:13,750

vets want to look at histories of their

2295

02:11:22,260 --> 02:11:17,590

units and stuff and there's there there

2296

02:11:26,970 --> 02:11:22,270

is material there so ok never this is

2297

02:11:28,080 --> 02:11:26,980

never ending it's a labor of love so I'm

2298

02:11:29,460 --> 02:11:28,090

very glad that you're doing it because

2299

02:11:32,160 --> 02:11:29,470

what you're doing is you're doing a

2300

02:11:34,140 --> 02:11:32,170

great big service to not just the UFO

2301

02:11:36,750 --> 02:11:34,150

community but also the world of the

2302

02:11:39,260 --> 02:11:36,760

world Paul wanted to ask you what part

2303

02:11:42,570 --> 02:11:39,270

do you what role do you play in project

2304

02:11:46,170 --> 02:11:42,580

1947 can you be specific about that

2305

02:11:48,390 --> 02:11:46,180

please oh I don't do anything well I I

2306

02:11:50,520 --> 02:11:48,400

don't I can't be specific but I don't do

2307

02:11:52,050 --> 02:11:50,530

anything specific with Jan I mean we

2308

02:11:53,480 --> 02:11:52,060

just take on projects so there's a

2309

02:11:56,610 --> 02:11:53,490

little a lot of Australian stuff

2310

02:11:59,190 --> 02:11:56,620

researcher cake pasture field and I will

2311

02:11:59,580 --> 02:11:59,200

submit a heckuva tour so for those who

2312

02:12:02,550 --> 02:11:59,590

don't know

2313

02:12:04,890 --> 02:12:02,560

Jan's project 1947 site that the actual

2314

02:12:07,230 --> 02:12:04,900

web development like the the a lot of

2315

02:12:08,460 --> 02:12:07,240

the the web work like the uploads and

2316

02:12:10,740 --> 02:12:08,470

downloads and so on are sometimes

2317

02:12:13,770 --> 02:12:10,750

they're actually managed by a guy called

2318

02:12:17,700 --> 02:12:13,780

John stemkowski and he actually lives in

2319

02:12:19,590 --> 02:12:17,710

Australia and and he helps Jan a lot and

2320

02:12:22,020 --> 02:12:19,600

he has helped a lot over the years and

2321

02:12:24,720 --> 02:12:22,030

we Keith Inouye Keith bast field and I

2322

02:12:27,540 --> 02:12:24,730

often submit things to John step Kowski

2323

02:12:29,850 --> 02:12:27,550

to upload onto the project 1947 sites

2324

02:12:31,500 --> 02:12:29,860

who to fill in blanks from Australia so

2325

02:12:33,750 --> 02:12:31,510

early letters between government

2326

02:12:36,000 --> 02:12:33,760

agencies and we do sometimes Keith and I

2327

02:12:39,090 --> 02:12:36,010

do cold case investigations on very old

2328

02:12:42,900 --> 02:12:39,100

cases that that that fills in blanks at

2329

02:12:44,730 --> 02:12:42,910

project 947 sites and like I say there's

2330

02:12:46,560 --> 02:12:44,740

all these unit histories and by

2331

02:12:48,840 --> 02:12:46,570

history's that we're slowly going for

2332

02:12:50,520 --> 02:12:48,850

you know Jer and Reid summer I read some

2333

02:12:53,070 --> 02:12:50,530

a lot of them have nothing in them and a

2334

02:12:57,420 --> 02:12:53,080

lot do and we we sort of called night

2335

02:12:59,790 --> 02:12:57,430

like that so so yeah I mean but project

2336

02:13:02,100 --> 02:12:59,800

1947 is an extremely significant site

2337

02:13:03,600 --> 02:13:02,110

it's it's just part of an overall

2338

02:13:05,880 --> 02:13:03,610

history that there was other history

2339

02:13:09,540 --> 02:13:05,890

projects to look they you know the Tom

2340

02:13:11,430 --> 02:13:09,550

Tulane oral history project work where

2341

02:13:14,580 --> 02:13:11,440

Tom Selene and others maybe Brad sparks

2342

02:13:16,950 --> 02:13:14,590

at times or Jan interview old rank

2343

02:13:19,230 --> 02:13:16,960

officers or old sort of intelligence

2344

02:13:21,360 --> 02:13:19,240

officials that's another program there's

2345

02:13:24,180 --> 02:13:21,370

this Fran ridges no I cap massive

2346

02:13:26,190 --> 02:13:24,190

nightcap database this crew Faust with

2347

02:13:27,690 --> 02:13:26,200

Mary Kastner and and so on you know

2348

02:13:30,600 --> 02:13:27,700

there's there's a lot of projects that

2349

02:13:31,950 --> 02:13:30,610

all leading and and and we we help

2350

02:13:34,110 --> 02:13:31,960

each other a lot but it's insurmountable

2351

02:13:37,380 --> 02:13:34,120

I mean the amount of stuff we're finding

2352

02:13:39,090 --> 02:13:37,390

even from I mean again Jan can tell you

2353

02:13:40,400 --> 02:13:39,100

from the Korean War we're only just

2354

02:13:42,900 --> 02:13:40,410

scratching the surface it is

2355

02:13:46,740 --> 02:13:42,910

unbelievable how much that you know the

2356

02:13:48,390 --> 02:13:46,750

the the the I think there was an air

2357

02:13:49,500 --> 02:13:48,400

Intelligence Service Squadron I think it

2358

02:13:51,410 --> 02:13:49,510

was a five thousand fourth air

2359

02:13:53,790 --> 02:13:51,420

Intelligence Service Squadron in Korea

2360

02:13:56,220 --> 02:13:53,800

unless it was a six thousand fourth I'm

2361

02:13:58,590 --> 02:13:56,230

not sure but it was it was one in Korea

2362

02:14:00,360 --> 02:13:58,600

that definitely dealt with with UFO

2363

02:14:01,680 --> 02:14:00,370

cases and we've got scarcely a single

2364

02:14:02,970 --> 02:14:01,690

page about it

2365

02:14:05,610 --> 02:14:02,980

there could be there could be thousands

2366

02:14:08,040 --> 02:14:05,620

of pages out there classified secret

2367

02:14:09,840 --> 02:14:08,050

maybe even top-secret sitting in

2368

02:14:12,000 --> 02:14:09,850

archives and sitting in at Maxwell Air

2369

02:14:13,470 --> 02:14:12,010

Force Base so this is what we do you

2370

02:14:14,790 --> 02:14:13,480

know like it's but it's very slow though

2371

02:14:16,770 --> 02:14:14,800

dealing with government agencies and

2372

02:14:19,920 --> 02:14:16,780

archives and and dealing physically with

2373

02:14:21,570 --> 02:14:19,930

paperwork and and clunky CDs and keyword

2374

02:14:22,890 --> 02:14:21,580

searches that don't work very well and

2375

02:14:24,540 --> 02:14:22,900

and we're you know we're trying to

2376

02:14:27,210 --> 02:14:24,550

bounce around the world time zone

2377

02:14:30,240 --> 02:14:27,220

problems technology problems that's it's

2378

02:14:34,860 --> 02:14:30,250

it's very very hard at times you know

2379

02:14:36,900 --> 02:14:34,870

the light go ahead Jan please we have

2380

02:14:40,290 --> 02:14:36,910

this we have this really small group

2381

02:14:42,750 --> 02:14:40,300

it's about six people right now Paul's

2382

02:14:47,370 --> 02:14:42,760

part of it it's called UFOs and

2383

02:14:50,010 --> 02:14:47,380

government s governments you know the

2384

02:14:52,590 --> 02:14:50,020

the inspiration was you opposing

2385

02:14:55,170 --> 02:14:52,600

government the book that we were but

2386

02:14:57,420 --> 02:14:55,180

Paul is part of this UFOs and

2387

02:14:59,790 --> 02:14:57,430

governments

2388

02:15:02,220 --> 02:14:59,800

and that's what we're we're doing we're

2389

02:15:03,450 --> 02:15:02,230

looking for government things and we

2390

02:15:06,840 --> 02:15:03,460

found you know something real

2391

02:15:11,340 --> 02:15:06,850

interesting a low-level case in of all

2392

02:15:17,130 --> 02:15:11,350

places the middle of Africa in 1952 in

2393

02:15:21,000 --> 02:15:17,140

an official government south Rhodesian

2394

02:15:22,680 --> 02:15:21,010

government document as you know that's

2395

02:15:25,650 --> 02:15:22,690

the kind of stuff we're looking for

2396

02:15:27,930 --> 02:15:25,660

and of course it's my site you might as

2397

02:15:31,890 --> 02:15:27,940

well call it the Keith faster for you

2398

02:15:34,080 --> 02:15:31,900

research UFO research site because he

2399

02:15:39,120 --> 02:15:34,090

has so much material up there he's

2400

02:15:41,850 --> 02:15:39,130

pushing me out okay I wanted to talk

2401
02:15:44,250 --> 02:15:41,860
about and then we'll wrap it up real

2402
02:15:46,950 --> 02:15:44,260
briefly about what it means to be a

2403
02:15:49,680 --> 02:15:46,960
researcher you know I just want to talk

2404
02:15:51,390 --> 02:15:49,690
about a very simple concept but I'd like

2405
02:15:53,640 --> 02:15:51,400
to go ahead and give the definition for

2406
02:15:57,210 --> 02:15:53,650
it it's something that Jan and Paul live

2407
02:15:59,190 --> 02:15:57,220
out probably 24/7 and that is what is

2408
02:16:01,260 --> 02:15:59,200
what is research what does that mean

2409
02:16:04,410 --> 02:16:01,270
well it's a careful and detailed study

2410
02:16:06,330 --> 02:16:04,420
into specific a problem or problems

2411
02:16:09,390 --> 02:16:06,340
concern or issues using the scientific

2412
02:16:11,730 --> 02:16:09,400
method or methods that you all have come

2413
02:16:13,860 --> 02:16:11,740

to use that you're used to as a system

2414

02:16:16,890 --> 02:16:13,870

and that's best accomplished by turning

2415

02:16:18,210 --> 02:16:16,900

an issue into a question according to

2416

02:16:20,130 --> 02:16:18,220

this definition with the intent of

2417

02:16:21,810 --> 02:16:20,140

research to answer the question whatever

2418

02:16:23,580 --> 02:16:21,820

the question or series of questions are

2419

02:16:25,530 --> 02:16:23,590

and some of the skill sets that a

2420

02:16:27,660 --> 02:16:25,540

researcher would need are an analytical

2421

02:16:29,250 --> 02:16:27,670

mind the ability to stay calm which

2422

02:16:31,230 --> 02:16:29,260

might be laughable to both of you

2423

02:16:32,730 --> 02:16:31,240

because I'm sure you pull your hair out

2424

02:16:35,700 --> 02:16:32,740

sometimes trying to get some of this

2425

02:16:38,450 --> 02:16:35,710

data a compiled collated and together a

2426

02:16:40,050 --> 02:16:38,460

curiosity quick thinker commitment

2427

02:16:42,630 --> 02:16:40,060

excellent written and verbal

2428

02:16:45,300 --> 02:16:42,640

communication skills I do have an issue

2429

02:16:47,040 --> 02:16:45,310

with that regarding excellent written or

2430

02:16:50,010 --> 02:16:47,050

verbal communication skills because I

2431

02:16:51,750 --> 02:16:50,020

have met some absolutely astounding

2432

02:16:53,940 --> 02:16:51,760

researchers just like yourselves and

2433

02:16:56,430 --> 02:16:53,950

they cannot communicate well verbally

2434

02:16:59,550 --> 02:16:56,440

they do not have social skill sets that

2435

02:17:01,530 --> 02:16:59,560

really can be used very well and their

2436

02:17:03,390 --> 02:17:01,540

written skills are pretty miserable but

2437

02:17:06,480 --> 02:17:03,400

they are amazing and astounding

2438

02:17:08,310 --> 02:17:06,490

researchers anyway wanted to ask you

2439

02:17:11,219 --> 02:17:08,320

what are the characteristics do you both

2440

02:17:13,620 --> 02:17:11,229

think of being a good researcher

2441

02:17:15,239 --> 02:17:13,630

what has worked for you regarding being

2442

02:17:18,870 --> 02:17:15,249

able to research the topic of ufology

2443

02:17:22,790 --> 02:17:18,880

and other phenomena and other subjects

2444

02:17:29,759 --> 02:17:22,800

like history for example Paul or Jian

2445

02:17:35,819 --> 02:17:29,769

Chen okay so I'm a plotter I plot plot

2446

02:17:40,109 --> 02:17:35,829

along I'm and and I'm not the deep

2447

02:17:43,019 --> 02:17:40,119

thinker type I'm if I go to the archives

2448

02:17:48,450 --> 02:17:43,029

what I'm doing is I am looking for

2449

02:17:51,239 --> 02:17:48,460

likely areas which will produce results

2450

02:17:54,959 --> 02:17:51,249

now let me tell you it's like drilling

2451

02:18:00,919 --> 02:17:54,969

for oil you've got a bunch of dry holes

2452

02:18:05,729 --> 02:18:00,929

and in some cases like I got out all the

2453

02:18:09,839 --> 02:18:05,739

released top-secret documents from 1946

2454

02:18:13,200 --> 02:18:09,849

up to 1952 which is the only stuff that

2455

02:18:16,769 --> 02:18:13,210

was available at a time and I turned

2456

02:18:18,809 --> 02:18:16,779

every top-secret document over page by

2457

02:18:24,719 --> 02:18:18,819

page that's how I found stuff about

2458

02:18:28,849 --> 02:18:24,729

ghost rockets Foo Fighters UFOs that

2459

02:18:33,120 --> 02:18:28,859

that aren't in blue book or other places

2460

02:18:38,040 --> 02:18:33,130

so a lot of research is just the kind of

2461

02:18:42,509 --> 02:18:38,050

things that I'm doing plotting mr. Lewis

2462

02:18:48,739 --> 02:18:42,519

at the National Archives told Robert

2463

02:18:52,200 --> 02:18:48,749

Todd the the father of all four guys

2464

02:18:55,049 --> 02:18:52,210

that he he and his staff are too small

2465

02:19:01,169 --> 02:18:55,059

to dig out every UFO reference that's at

2466

02:19:02,790 --> 02:19:01,179

the National Archives and so but there's

2467

02:19:07,139 --> 02:19:02,800

plenty but he says there's plenty of

2468

02:19:13,879 --> 02:19:07,149

stuff here you've got to come and look

2469

02:19:19,259 --> 02:19:13,889

at it I have eleven thousand eleven

2470

02:19:23,240 --> 02:19:19,269

thousand intelligence documents that I

2471

02:19:33,180 --> 02:19:27,180

in that there's a subset of what what I

2472

02:19:37,169 --> 02:19:33,190

know is about 1,000 UFO cases most of

2473

02:19:39,089 --> 02:19:37,179

them are not in blue book yeah yeah so

2474

02:19:44,549 --> 02:19:39,099

that that gives you an idea I have I

2475

02:19:48,150 --> 02:19:44,559

have a database with about 800 cases but

2476

02:19:52,890 --> 02:19:48,160

I've got I've got notes around here for

2477

02:19:56,760 --> 02:19:52,900

a lot more this is just government

2478

02:20:02,180 --> 02:19:56,770

documents on UFOs which are not in Blue

2479

02:20:05,160 --> 02:20:02,190

Book or what we've found so far but I

2480

02:20:09,540 --> 02:20:05,170

want to look at that might have

2481

02:20:12,030 --> 02:20:09,550

something and Jan's probably talking

2482

02:20:14,250 --> 02:20:12,040

about like some of those we've got Jan's

2483

02:20:16,380 --> 02:20:14,260

found that the Navy like the United

2484

02:20:19,500 --> 02:20:16,390

States Navy in the 40s and 50s had had

2485

02:20:21,330 --> 02:20:19,510

unidentified phenomena so an hour and

2486

02:20:23,310 --> 02:20:21,340

radar targets they were dealing with

2487

02:20:25,830 --> 02:20:23,320

they were dealing with sort of like

2488

02:20:28,350 --> 02:20:25,840

stray or incoming or unusual aircraft

2489

02:20:30,120 --> 02:20:28,360

cases or none of this stuff got to

2490

02:20:31,500 --> 02:20:30,130

projects are all not much of it got to

2491

02:20:34,080 --> 02:20:31,510

projects on or project

2492

02:20:35,670 --> 02:20:34,090

grab your project Bluebook it went

2493

02:20:37,560 --> 02:20:35,680

through Office of Naval Intelligence it

2494

02:20:40,050 --> 02:20:37,570

went some of it went straight to the

2495

02:20:42,690 --> 02:20:40,060

safer that the base where the ship were

2496

02:20:46,050 --> 02:20:42,700

all the ships were um were based all

2497

02:20:47,460 --> 02:20:46,060

that were dealt with in in sure in in in

2498

02:20:49,440 --> 02:20:47,470

short order inside the Mediterranean or

2499

02:20:51,120 --> 02:20:49,450

the North Atlantic or or whatever all

2500

02:20:53,310 --> 02:20:51,130

that all the cases essentially stayed on

2501
02:20:56,100 --> 02:20:53,320
the ships and internal telex was printed

2502
02:20:58,080 --> 02:20:56,110
and that was it it there will be the US

2503
02:21:00,360 --> 02:20:58,090
Navy our I wouldn't be surprised if they

2504
02:21:02,160 --> 02:21:00,370
had they nearly have as much UFO

2505
02:21:04,080 --> 02:21:02,170
paperwork as what the Air Force ever

2506
02:21:06,570 --> 02:21:04,090
produced and this isn't I mean then

2507
02:21:08,160 --> 02:21:06,580
imagine their army and then the National

2508
02:21:11,790 --> 02:21:08,170
Guard's and the Army National Guard's

2509
02:21:14,040 --> 02:21:11,800
it's just insurmountable you know okay

2510
02:21:15,360 --> 02:21:14,050
so Paul what constitutes of being good

2511
02:21:17,910 --> 02:21:15,370
researcher to you if you could keep that

2512
02:21:19,469 --> 02:21:17,920
little short and then I just have one

2513
02:21:22,770 --> 02:21:19,479

last question for both of you and that

2514

02:21:25,740 --> 02:21:22,780

would be okay don't throw things out

2515

02:21:28,110 --> 02:21:25,750

archive things keep things in in in in

2516

02:21:31,800 --> 02:21:28,120

good order file things with proper dates

2517

02:21:33,150 --> 02:21:31,810

and titles cake quality tape child care

2518

02:21:35,480 --> 02:21:33,160

quality material always be on the

2519

02:21:38,390 --> 02:21:35,490

surgery if you've got a document or

2520

02:21:39,980 --> 02:21:38,400

newspaper or a magazine article it's

2521

02:21:41,210 --> 02:21:39,990

barely legible black-and-white

2522

02:21:42,710 --> 02:21:41,220

upside-down whatever

2523

02:21:43,969 --> 02:21:42,720

try and get you know try and get a

2524

02:21:45,410 --> 02:21:43,979

better copy so that's being a true

2525

02:21:49,100 --> 02:21:45,420

archivist that's that's important

2526

02:21:50,600 --> 02:21:49,110

another thing is to is to sort of try

2527

02:21:53,510 --> 02:21:50,610

and get the opinions of other people

2528

02:21:56,300 --> 02:21:53,520

don't don't do if possible don't form

2529

02:21:58,370 --> 02:21:56,310

opinions just with one sole track mind

2530

02:22:01,160 --> 02:21:58,380

whether you're a skeptic or otherwise or

2531

02:22:02,420 --> 02:22:01,170

a pro UFO researcher on the fence try

2532

02:22:04,310 --> 02:22:02,430

and get you know try and bring in the

2533

02:22:07,760 --> 02:22:04,320

odd opinion of a meteorologist or a

2534

02:22:09,590 --> 02:22:07,770

historian or a handwriting expert expert

2535

02:22:11,420 --> 02:22:09,600

or or a person who interrogated the

2536

02:22:13,040 --> 02:22:11,430

people try and get some sort of opinion

2537

02:22:14,900 --> 02:22:13,050

off off a person who's built radars

2538

02:22:17,480 --> 02:22:14,910

before or taken them apart or or

2539

02:22:19,040 --> 02:22:17,490

whatever you know like that that's me is

2540

02:22:20,990 --> 02:22:19,050

quite important yeah

2541

02:22:22,730 --> 02:22:21,000

wanted to talk to the listeners real

2542

02:22:24,200 --> 02:22:22,740

fast about something that happened when

2543

02:22:26,810 --> 02:22:24,210

I was talking to Paul I noticed there

2544

02:22:28,910 --> 02:22:26,820

was a bundle of paper next to him and he

2545

02:22:32,420 --> 02:22:28,920

picked it up it was three bundles or

2546

02:22:34,640 --> 02:22:32,430

more and they were basically FOIAs that

2547

02:22:38,750 --> 02:22:34,650

he had asked for and he had gotten you

2548

02:22:40,370 --> 02:22:38,760

know response on you you just know folks

2549

02:22:43,550 --> 02:22:40,380

out there if you end up becoming a

2550

02:22:47,480 --> 02:22:43,560

researcher you will end up with a lot of

2551

02:22:53,450 --> 02:22:47,490

paper there's a lot of data mountains of

2552

02:22:54,920 --> 02:22:53,460

data and right Paul yeah you know you're

2553

02:22:56,210 --> 02:22:54,930

gonna need an external hard drive if

2554

02:22:57,980 --> 02:22:56,220

you're gonna need a backup of that in

2555

02:23:00,350 --> 02:22:57,990

case it blows up you're going to have a

2556

02:23:02,000 --> 02:23:00,360

printer you're gonna have a scanner yeah

2557

02:23:04,130 --> 02:23:02,010

I mean I've done I've actually submitted

2558

02:23:05,990 --> 02:23:04,140

three FOI requests for the Australian

2559

02:23:08,600 --> 02:23:06,000

Department of Defense in the last two

2560

02:23:10,219 --> 02:23:08,610

weeks and I know that mean each if I

2561

02:23:12,020 --> 02:23:10,229

were a request is two pages their

2562

02:23:13,790 --> 02:23:12,030

replies are going to be a page or print

2563

02:23:15,410 --> 02:23:13,800

them out then they've got a substantive

2564

02:23:16,730 --> 02:23:15,420

reply telling me what they're found on

2565

02:23:18,980 --> 02:23:16,740

how much it's going to cost if it costs

2566

02:23:20,660 --> 02:23:18,990

any thing at all so that's another two

2567

02:23:22,040 --> 02:23:20,670

pages then there's a legal stuff that's

2568

02:23:24,020 --> 02:23:22,050

another two pages then there's the

2569

02:23:25,850 --> 02:23:24,030

covering emails that's a page each set

2570

02:23:27,290 --> 02:23:25,860

this is before any documents are

2571

02:23:31,969 --> 02:23:27,300

released at all like not even close to

2572

02:23:33,650 --> 02:23:31,979

that yet they respond back yeah yeah

2573

02:23:35,810 --> 02:23:33,660

well yeah we're in Australia we're lucky

2574

02:23:38,540 --> 02:23:35,820

they absolutely do America's got the

2575

02:23:41,050 --> 02:23:38,550

problem with that America's America's

2576

02:23:45,770 --> 02:23:41,060

agencies and commands are just terrible

2577

02:23:47,420 --> 02:23:45,780

you know the CIA is very bad now the the

2578

02:23:49,350 --> 02:23:47,430

Department of Air Force Headquarters is

2579

02:23:52,110 --> 02:23:49,360

very very bad the Navy's that you know

2580

02:23:53,910 --> 02:23:52,120

that office intelligence and sea-surface

2581

02:23:56,761 --> 02:23:53,920

systems command they're all very poor

2582

02:24:00,270 --> 02:23:56,771

now some some US agencies are good US

2583

02:24:03,090 --> 02:24:00,280

strategic commands been very good to me

2584

02:24:05,220 --> 02:24:03,100

northern commands been very good to me

2585

02:24:08,040 --> 02:24:05,230

who else Air Force Space Command is not

2586

02:24:09,570 --> 02:24:08,050

bad and the 14th Air Force but but Jan

2587

02:24:11,551 --> 02:24:09,580

Jan will tell you that particularly the

2588

02:24:13,620 --> 02:24:11,561

Navy friends for example it's very hard

2589

02:24:14,970 --> 02:24:13,630

to deal with we don't have that problem

2590

02:24:17,551 --> 02:24:14,980

here you have it there

2591

02:24:18,810 --> 02:24:17,561

England's good New Zealand's very good

2592

02:24:21,150 --> 02:24:18,820

because such a small country they're

2593

02:24:22,710 --> 02:24:21,160

just not dealing with that much but but

2594

02:24:28,110 --> 02:24:22,720

the United States is definitely the

2595

02:24:31,051 --> 02:24:28,120

worst of all of them there are some

2596

02:24:34,440 --> 02:24:31,061

pretty terrible weights waiting times

2597

02:24:36,450 --> 02:24:34,450

regarding FOIA requests there was a 25

2598

02:24:39,450 --> 02:24:36,460

year old FOIA requests that were

2599

02:24:42,150 --> 02:24:39,460

confirmed that those delays still

2600

02:24:45,301 --> 02:24:42,160

continue and that article if you look it

2601

02:24:47,480 --> 02:24:45,311

up you just can type in the keywords I

2602

02:24:50,850 --> 02:24:47,490

typed in which was FOIA request delays

2603

02:24:55,051 --> 02:24:50,860

but anyway wanted to ask John in you one

2604

02:24:59,340 --> 02:24:55,061

last question and that is what is your

2605

02:25:02,670 --> 02:24:59,350

takeaway let's just pretend you know you

2606

02:25:04,980 --> 02:25:02,680

had to sum up everything that you have

2607

02:25:08,340 --> 02:25:04,990

learned from being a researcher

2608

02:25:10,950 --> 02:25:08,350

regarding the UFO topic Jan and Paul

2609

02:25:14,630 --> 02:25:10,960

what is your takeaway from having spent

2610

02:25:19,551 --> 02:25:14,640

so many decades and so much copious

2611

02:25:23,610 --> 02:25:19,561

amount of time studying and researching

2612

02:25:26,820 --> 02:25:23,620

collating and organizing and actually

2613

02:25:29,720 --> 02:25:26,830

accumulating mountains of data on the

2614

02:25:32,551 --> 02:25:29,730

UFO topic what is your takeaway from it

2615

02:25:34,890 --> 02:25:32,561

thought somebody that it's incredibly

2616

02:25:37,350 --> 02:25:34,900

complex and and the average person would

2617

02:25:39,450 --> 02:25:37,360

have would be absolutely astounded if I

2618

02:25:41,370 --> 02:25:39,460

knew how much material was out there and

2619

02:25:42,900 --> 02:25:41,380

not even reactionary material like you

2620

02:25:44,670 --> 02:25:42,910

know tabloid magazines and junk

2621

02:25:46,170 --> 02:25:44,680

newspaper articles and junk

2622

02:25:48,120 --> 02:25:46,180

documentaries and not even talking about

2623

02:25:49,680 --> 02:25:48,130

that I'm talking about core information

2624

02:25:51,450 --> 02:25:49,690

originally interviews photographs

2625

02:25:53,910 --> 02:25:51,460

whatever that the average person would

2626
02:25:56,040 --> 02:25:53,920
be a standard both both how rich this is

2627
02:25:57,830 --> 02:25:56,050
and how complex it is that's what my

2628
02:26:01,320 --> 02:25:57,840
that's what my thing is

2629
02:26:02,940 --> 02:26:01,330
okay Jan what's your input on that I

2630
02:26:04,770 --> 02:26:02,950
started I was

2631
02:26:06,661 --> 02:26:04,780
started being interested in junior

2632
02:26:11,520 --> 02:26:06,671
height so that that's more than fifty

2633
02:26:16,921 --> 02:26:11,530
years ago I'm I was a babe in the woods

2634
02:26:19,650 --> 02:26:16,931
then and I'm a babe in woods now that

2635
02:26:24,121 --> 02:26:19,660
boy sure said in an interview we did

2636
02:26:27,331 --> 02:26:24,131
with him he said you know what I've come

2637
02:26:32,400 --> 02:26:27,341
full circle after about three decades

2638
02:26:36,751 --> 02:26:32,410

I'm rapping where I was when I begin I

2639

02:26:38,131 --> 02:26:36,761

don't yeah yep you know we've heard that

2640

02:26:39,841 --> 02:26:38,141

by the way Frank and I have heard that

2641

02:26:41,940 --> 02:26:39,851

when we've done panels when we've asked

2642

02:26:43,560 --> 02:26:41,950

people what is your major takeaway we've

2643

02:26:46,261 --> 02:26:43,570

actually had people tell us after

2644

02:26:47,940 --> 02:26:46,271

decades of doing research that they

2645

02:26:50,220 --> 02:26:47,950

actually have determined they still

2646

02:26:52,560 --> 02:26:50,230

don't know anything exactly there's an

2647

02:26:54,961 --> 02:26:52,570

old anecdote I think Jack valet Jacques

2648

02:26:56,821 --> 02:26:54,971

Vallee said this he essentially said

2649

02:26:58,381 --> 02:26:56,831

that really since we I don't know what

2650

02:27:00,751 --> 02:26:58,391

year he said I think it was possibly

2651
02:27:02,251 --> 02:27:00,761
1970 he said that maybe because of the

2652
02:27:04,321 --> 02:27:02,261
end of blue book and the common report

2653
02:27:05,430 --> 02:27:04,331
but he he said that we've learned so

2654
02:27:10,081 --> 02:27:05,440
much but we've actually learned so

2655
02:27:13,230 --> 02:27:10,091
little so then go ahead yes please go on

2656
02:27:16,321 --> 02:27:13,240
so so what he is basically saying is is

2657
02:27:17,791 --> 02:27:16,331
that is that is that where we're we're

2658
02:27:20,281 --> 02:27:17,801
not that much further ahead than what we

2659
02:27:24,440 --> 02:27:20,291
were are saying 1970s that's what he's

2660
02:27:32,161 --> 02:27:27,741
I'm dealing with a retired Air Force

2661
02:27:35,001 --> 02:27:32,171
pilot who is super knowledgeable on

2662
02:27:40,761 --> 02:27:35,011
everything with aviation and he is a

2663
02:27:45,600 --> 02:27:40,771

he's a physicist and his specialty is

2664

02:27:48,301 --> 02:27:45,610

other planets atmosphere and he said you

2665

02:27:51,350 --> 02:27:48,311

know what I think

2666

02:27:55,501 --> 02:27:51,360

UFOs are finally getting some scientific

2667

02:27:57,511 --> 02:27:55,511

recognition he says he think we can

2668

02:28:03,451 --> 02:27:57,521

think we're on the verge of some

2669

02:28:06,571 --> 02:28:03,461

scientific I hope so okay so then if

2670

02:28:08,100 --> 02:28:06,581

we've come full circle and we really are

2671

02:28:11,190 --> 02:28:08,110

back where we started

2672

02:28:13,560 --> 02:28:11,200

what is the point what is the point of

2673

02:28:16,411 --> 02:28:13,570

doing research then Jan and Paul that's

2674

02:28:16,920 --> 02:28:16,421

my last question because it's going to

2675

02:28:20,309 --> 02:28:16,930

incur

2676

02:28:22,950 --> 02:28:20,319

scientists and technical people with far

2677

02:28:24,599 --> 02:28:22,960

more Skills than what we have to take

2678

02:28:26,130 --> 02:28:24,609

the subject seriously I mean there were

2679

02:28:28,139 --> 02:28:26,140

scientists in the past we just don't

2680

02:28:30,479 --> 02:28:28,149

have well not publicly anyway we just

2681

02:28:32,820 --> 02:28:30,489

don't have a James McDonald and a Joseph

2682

02:28:35,479 --> 02:28:32,830

Allen Hynek and Jack Fuller ice and and

2683

02:28:38,189 --> 02:28:35,489

and and the early you know like the

2684

02:28:39,540 --> 02:28:38,199

Thorton page and and an early technical

2685

02:28:41,820 --> 02:28:39,550

specialists and policymakers and

2686

02:28:43,290 --> 02:28:41,830

scientists and and experts we just don't

2687

02:28:45,630 --> 02:28:43,300

have the numbers that we used to have

2688

02:28:48,059 --> 02:28:45,640

that would spend months at a time on the

2689

02:28:50,280 --> 02:28:48,069

subject and and the more we research the

2690

02:28:52,290 --> 02:28:50,290

more we generate original quality

2691

02:28:54,420 --> 02:28:52,300

material for people to look at well into

2692

02:28:56,550 --> 02:28:54,430

the future right that that's that's

2693

02:29:00,630 --> 02:28:56,560

something that should happen and and and

2694

02:29:04,700 --> 02:29:00,640

eventually will I'm sure that Jan what

2695

02:29:10,950 --> 02:29:08,099

completing the record and that I'm

2696

02:29:14,250 --> 02:29:10,960

mostly interested in UFO history so I I

2697

02:29:17,670 --> 02:29:14,260

can study that I can study actual things

2698

02:29:20,400 --> 02:29:17,680

like people and organizations and how

2699

02:29:24,030 --> 02:29:20,410

they react to UFOs and we of course we

2700

02:29:26,130 --> 02:29:24,040

wrote UFOs and government which is in

2701

02:29:30,269 --> 02:29:26,140

many universities all across the world

2702

02:29:32,370 --> 02:29:30,279

now the other thing is I do something

2703

02:29:38,479 --> 02:29:32,380

that's called filling in the gaps I try

2704

02:29:45,889 --> 02:29:38,489

to find more about old cases and also

2705

02:29:45,899 --> 02:29:56,240

I'm constantly surprised about what we

2706

02:30:01,950 --> 02:29:58,860

thank you so much John and Paul for

2707

02:30:03,750 --> 02:30:01,960

having been on our show today Jan we

2708

02:30:06,120 --> 02:30:03,760

really appreciate everything that you

2709

02:30:10,019 --> 02:30:06,130

are doing for the UFO community and also

2710

02:30:11,809 --> 02:30:10,029

just for everybody on the planet there's

2711

02:30:15,540 --> 02:30:11,819

folks on the other side of the planet

2712

02:30:19,110 --> 02:30:15,550

that are reading the material you put on

2713

02:30:22,290 --> 02:30:19,120

your website project 1947 dot-com and

2714

02:30:25,320 --> 02:30:22,300

I'm sure it inspires them to learn more

2715

02:30:27,750 --> 02:30:25,330

about this topic the UFO phenomena which

2716

02:30:30,160 --> 02:30:27,760

is an enigmatic one and one that's just

2717

02:30:32,320 --> 02:30:30,170

as mysterious as

2718

02:30:33,400 --> 02:30:32,330

many other topics that we cover Paul

2719

02:30:35,650 --> 02:30:33,410

thank you very much for everything

2720

02:30:37,120 --> 02:30:35,660

you've done community we're really glad

2721

02:30:39,100 --> 02:30:37,130

that we were able to have you on the

2722

02:30:40,690 --> 02:30:39,110

show and Jan and Paul we look forward to

2723

02:30:43,330 --> 02:30:40,700

having you on more shows in the future

2724

02:30:47,230 --> 02:30:43,340

Frank do you have any last words uh yeah

2725

02:30:49,270 --> 02:30:47,240

just to cite an incident involving at

2726

02:30:51,400 --> 02:30:49,280

John Mackey was involved a little bit

2727

02:30:54,070 --> 02:30:51,410

more in the the contact the abductee

2728

02:30:57,130 --> 02:30:54,080

thing but when he undertook his research

2729

02:31:00,610 --> 02:30:57,140

he contacted a fellow that he knew and

2730

02:31:02,170 --> 02:31:00,620

Harvard by the name of Thomas Kuhn who

2731

02:31:04,870 --> 02:31:02,180

had written a book called the structure

2732

02:31:08,200 --> 02:31:04,880

of scientific revolutions and Kuhns

2733

02:31:09,880 --> 02:31:08,210

advice to Mac was a just keep gathering

2734

02:31:11,500 --> 02:31:09,890

data now you want to gain knowledge

2735

02:31:12,160 --> 02:31:11,510

about the subject you find it

2736

02:31:15,219 --> 02:31:12,170

interesting

2737

02:31:17,410 --> 02:31:15,229

just keep gathering data and that's

2738

02:31:19,630 --> 02:31:17,420

that's really what we're here for to

2739

02:31:22,330 --> 02:31:19,640

keep gathering data gather it share it

2740

02:31:27,190 --> 02:31:22,340

and let the chips fall where they may

2741

02:31:31,390 --> 02:31:27,200

so that's an interesting character he

2742

02:31:35,320 --> 02:31:31,400

was in the OSS and he was interested in

2743

02:31:37,990 --> 02:31:35,330

UFOs yeah this is the CIA before it was

2744

02:31:43,510 --> 02:31:38,000

the CIA mr. Tate is it Office of

2745

02:31:46,810 --> 02:31:43,520

Strategic Services yeah they just dumped

2746

02:31:55,060 --> 02:31:46,820

them in North Africa and said disrupt

2747

02:31:56,410 --> 02:31:55,070

the enemy that's big well I think he

2748

02:31:58,540 --> 02:31:56,420

gave her back some pretty good advice

2749

02:32:01,960 --> 02:31:58,550

though you know well interested in this

2750

02:32:05,290 --> 02:32:01,970

subject I want to emphasize that he was

2751

02:32:07,000 --> 02:32:05,300

knowledgeable on UFOs - got it

2752

02:32:09,010 --> 02:32:07,010

got it I was not aware of that I was a

2753

02:32:10,840 --> 02:32:09,020

Mac did not mention that in the

2754

02:32:12,490 --> 02:32:10,850

interview where he I mentioned you know

2755

02:32:15,250 --> 02:32:12,500

seeking Coons advice before you

2756

02:32:17,560 --> 02:32:15,260

undertook the abductee search so yeah

2757

02:32:19,179 --> 02:32:17,570

let's let's wrap everything up Jane and

2758

02:32:22,450 --> 02:32:19,189

Paul thanks so much sir for taking a

2759

02:32:25,840 --> 02:32:22,460

well Jan your Sunday and Paul your early

2760

02:32:28,270 --> 02:32:25,850

Monday for joining us a great show and

2761

02:32:30,130 --> 02:32:28,280

we're gonna be back at Tuesday chant you

2762

02:32:34,360 --> 02:32:30,140

want to tell the folks who we're gonna

2763

02:32:39,400 --> 02:32:34,370

have on Tuesday Thursday well coach yeah

2764

02:32:42,610 --> 02:32:39,410

I'd like to keep that a secret frozen

2765

02:32:43,871 --> 02:32:42,620

and yeah and but anyway I wanted to also

2766

02:32:48,191 --> 02:32:43,881

encourage our listeners

2767

02:32:52,121 --> 02:32:48,201

please please contribute to project 1947

2768

02:32:53,771 --> 02:32:52,131

if you can now just as far as

2769

02:32:57,911 --> 02:32:53,781

information goes there's a part of the

2770

02:33:00,671 --> 02:32:57,921

website where you can actually lend

2771

02:33:03,491 --> 02:33:00,681

whatever help you can to them by

2772

02:33:06,821 --> 02:33:03,501

contacting project 1947 which will be

2773

02:33:09,461 --> 02:33:06,831

Jan Aldrich and also GN if people want

2774

02:33:13,841 --> 02:33:09,471

to contribute monetarily to that project

2775

02:33:18,881 --> 02:33:13,851

how do they do that okay I don't have a

2776

02:33:22,621 --> 02:33:18,891

PayPal I'm trying to give back you know

2777

02:33:25,031 --> 02:33:22,631

I started out with a with a pretty good

2778

02:33:28,661 --> 02:33:25,041

starting fee so I tried to keep

2779

02:33:33,451 --> 02:33:28,671

everything for free but yeah we could

2780

02:33:43,901 --> 02:33:33,461

use money and the postal address is

2781

02:33:50,711 --> 02:33:43,911

pillbox 391 Canterbury Connecticut zero

2782

02:33:52,481 --> 02:33:50,721

six three three one if you wouldn't mind

2783

02:33:54,341 --> 02:33:52,491

repeating that again that way folks will

2784

02:34:00,901 --> 02:33:54,351

get that information down go ahead its

2785

02:34:08,111 --> 02:34:00,911

project 40 1947 at P o box 391

2786

02:34:12,371 --> 02:34:08,121

Canterbury Connecticut zero six three

2787

02:34:15,220 --> 02:34:12,381

three one okay great and they can also

2788

02:34:17,621 --> 02:34:15,230

go to project 1947 dot-com to reach out

2789

02:34:19,031 --> 02:34:17,631

to you and hit contact so they can

2790

02:34:23,281 --> 02:34:19,041

actually communicate with you that way

2791

02:34:28,751 --> 02:34:23,291

is that right yes we've gotten a lot of

2792

02:34:31,691 --> 02:34:28,761

UFO reports by by that and many of them

2793

02:34:35,531 --> 02:34:31,701

very serious and very very good and I

2794

02:34:39,180 --> 02:34:35,541

really appreciate that yes so his

2795

02:34:42,430 --> 02:34:39,190

project 1947 staff continues to welcome

2796

02:34:44,771 --> 02:34:42,440

further contributions monetarily if

2797

02:34:47,621 --> 02:34:44,781

there's any to be had please do send

2798

02:34:50,711 --> 02:34:47,631

them their way because they work for

2799

02:34:53,501 --> 02:34:50,721

nothing and this is all voluntary this

2800

02:34:56,081 --> 02:34:53,511

project this is not a for-profit project

2801

02:34:57,670 --> 02:34:56,091

obviously and also if you have any

2802

02:35:00,729 --> 02:34:57,680

information that you can share

2803

02:35:03,189 --> 02:35:00,739

regarding that era of time it's vitally

2804

02:35:05,710 --> 02:35:03,199

important you contact Jan and let him

2805

02:35:08,439 --> 02:35:05,720

have the information that he can share

2806

02:35:09,790 --> 02:35:08,449

to add to that website thank you so much

2807

02:35:11,409 --> 02:35:09,800

gentlemen for having been on our show

2808

02:35:13,779 --> 02:35:11,419

today we look forward to having you on

2809

02:35:15,370 --> 02:35:13,789

the show again this year actually be

2810

02:35:20,349 --> 02:35:15,380

next year because we're just a few weeks

2811

02:35:22,840 --> 02:35:20,359

shy of 2020 yeah thanks so much Jan and

2812

02:35:25,029 --> 02:35:22,850

Paul and everybody thanks for listening

2813

02:35:28,199 --> 02:35:25,039

you have enjoyed the rest of your

2814

02:35:31,599 --> 02:35:28,209

weekend and we will see you on Tuesday

2815

02:35:34,000 --> 02:35:31,609

with a special surprise guest thank you

2816

02:35:35,620 --> 02:35:34,010

so much so it's a famous guest he's

2817

02:35:37,449 --> 02:35:35,630

known worldwide so I look forward to

2818

02:35:39,760 --> 02:35:37,459

that show and thank you I

2819

02:35:41,319 --> 02:35:39,770

I want to thank Jan and Paul for having

2820

02:35:44,819 --> 02:35:41,329

had the privilege and honor of

2821

02:35:46,630 --> 02:35:44,829

interviewing today thank you thank you
