

UFOs: WHERE DO THEY COME FROM?

WE SPECULATE WILDLY ON THE
EXTRATERRESTRIAL,
INTERDIMENSIONAL AND TIME
TRAVELER HYPOTHESES AND
MORE

DR. IRENA SCOTT

DR. MICHAEL MASTERS

RICH HOFFMAN

LEON KIRKBECK

UFONN
SUNDAY

1
00:01:01,410 --> 00:00:16,570

[Music]

2
00:01:07,210 --> 00:01:04,210

and good afternoon from Philadelphia

3
00:01:09,789 --> 00:01:07,220

Frank here with another episode of UFO

4
00:01:13,330 --> 00:01:09,799

news network Sunday we've got a big

5
00:01:16,149 --> 00:01:13,340

panel to widely speculate about where

6
00:01:17,920 --> 00:01:16,159

UFOs come from a lot of different ideas

7
00:01:20,230 --> 00:01:17,930

that have been tossed around over the

8
00:01:22,749 --> 00:01:20,240

years and we've got a great panel to

9
00:01:24,880 --> 00:01:22,759

sort of dig in on those and go through

10
00:01:28,149 --> 00:01:24,890

the pros and the caveat to all the

11
00:01:28,600 --> 00:01:28,159

different hypotheses on where UFOs come

12
00:01:31,180 --> 00:01:28,610

from

13
00:01:33,219 --> 00:01:31,190

so I normally my co-host is with us and

14

00:01:37,510 --> 00:01:33,229

she normally handles the introductions

15

00:01:39,910 --> 00:01:37,520

but she had a last-minute upset that is

16

00:01:42,040 --> 00:01:39,920

preventing her from joining us today so

17

00:01:43,809 --> 00:01:42,050

what I'm gonna do is I'm gonna ask our

18

00:01:46,779 --> 00:01:43,819

guests to tell us each a little bit

19

00:01:48,520 --> 00:01:46,789

about themselves and do their like a

20

00:01:50,289 --> 00:01:48,530

little bit of a self introduction since

21

00:01:52,990 --> 00:01:50,299

I don't have chance information in front

22

00:01:55,840 --> 00:01:53,000

of me so let's start with a dr. irina

23

00:01:57,639 --> 00:01:55,850

scott joining us today dr. scott how are

24

00:02:00,309 --> 00:01:57,649

you and tell the folks at home a little

25

00:02:04,749 --> 00:02:00,319

bit about yourself okay

26

00:02:06,670 --> 00:02:04,759

glad to be here I have a PhD from the

27

00:02:09,880 --> 00:02:06,680

University of Missouri College of

28

00:02:12,160 --> 00:02:09,890

Veterinary Medicine had a postdoc at

29

00:02:14,400 --> 00:02:12,170

Cornell University and had been a

30

00:02:17,470 --> 00:02:14,410

professor at st. Bonaventure University

31

00:02:21,270 --> 00:02:17,480

and I had also been on the board of

32

00:02:24,460 --> 00:02:21,280

directors and MUFON several years ago

33

00:02:27,190 --> 00:02:24,470

fantastic and also joining us all the

34

00:02:28,990 --> 00:02:27,200

way from Montana dr. Michael masters our

35

00:02:31,660 --> 00:02:29,000

author of the book identified flying

36

00:02:32,800 --> 00:02:31,670

objects dr. Masters how are you today

37

00:02:40,840 --> 00:02:32,810

and that tell us a little bit about

38

00:02:50,590 --> 00:02:40,850

yourself hello dr. Masters did we lose

39

00:02:51,120 --> 00:02:50,600

them already I am back forgot to turn it

40

00:02:54,370 --> 00:02:51,130

back on

41

00:02:56,849 --> 00:02:54,380

yeah Mike masters I'm a professor of

42

00:03:00,610 --> 00:02:56,859

biological anthropology at Montana Tech

43

00:03:02,319 --> 00:03:00,620

located in Butte Montana and yeah as you

44

00:03:05,080 --> 00:03:02,329

mentioned just published a book coming

45

00:03:06,870 --> 00:03:05,090

up on about a year ago now titled

46

00:03:08,920 --> 00:03:06,880

identified flying objects a

47

00:03:10,809 --> 00:03:08,930

multidisciplinary scientific approach to

48

00:03:14,920 --> 00:03:10,819

the UFO phenomenon

49

00:03:18,099 --> 00:03:14,930

which primarily looks at this phenomenon

50

00:03:20,709 --> 00:03:18,109

in the context of time travel and human

51
00:03:23,140 --> 00:03:20,719
evolution into the future and explores

52
00:03:25,989 --> 00:03:23,150
the possibility that these craft and the

53
00:03:27,849 --> 00:03:25,999
beans reportedly inside of them are just

54
00:03:31,179 --> 00:03:27,859
us from the future investigate in their

55
00:03:35,740 --> 00:03:31,189
own past got it and rich Hoffmann all

56
00:03:39,849 --> 00:03:35,750
the way from Alabama rich heads heads up

57
00:03:41,770 --> 00:03:39,859
the Coalition for scientific UAP studies

58
00:03:45,250 --> 00:03:41,780
I believe rich tell us all about

59
00:03:47,110 --> 00:03:45,260
yourself well I've been around for a

60
00:03:49,539 --> 00:03:47,120
while with this phenomena I guess

61
00:03:53,170 --> 00:03:49,549
fifty five years got started when I was

62
00:03:55,509 --> 00:03:53,180
age thirteen in Dayton Ohio and uh had

63
00:03:57,399 --> 00:03:55,519

plenty of experiences with Blue Book and

64

00:04:01,899 --> 00:03:57,409

various other people around the the

65

00:04:03,610 --> 00:04:01,909

Dayton area move to Huntsville you know

66

00:04:06,789 --> 00:04:03,620

and basically I've been down here for

67

00:04:08,709 --> 00:04:06,799

the last ten years I'm working with the

68

00:04:12,099 --> 00:04:08,719

United States Army I'm in the art US

69

00:04:14,559 --> 00:04:12,109

Army Materiel Command I'm an IT cyber

70

00:04:16,810 --> 00:04:14,569

kinda like individual that works with

71

00:04:18,849 --> 00:04:16,820

their networks and systems and stuff

72

00:04:20,370 --> 00:04:18,859

been doing that for about twenty-five

73

00:04:25,839 --> 00:04:20,380

years

74

00:04:28,510 --> 00:04:25,849

but I was with yeah the new pond

75

00:04:30,580 --> 00:04:28,520

actually when it was called the Midwest

76
00:04:33,760 --> 00:04:30,590
UFO network so I go quite a ways back

77
00:04:36,040 --> 00:04:33,770
with that and then I played various

78
00:04:37,870 --> 00:04:36,050
roles that was a state section director

79
00:04:39,010 --> 00:04:37,880
state director with them then I was

80
00:04:40,810 --> 00:04:39,020
moved

81
00:04:42,640 --> 00:04:40,820
I had several states down here in

82
00:04:44,770 --> 00:04:42,650
Alabama and Mississippi then eventually

83
00:04:47,950 --> 00:04:44,780
moved of his deputy director of

84
00:04:50,200 --> 00:04:47,960
Investigations with them then moved into

85
00:04:54,040 --> 00:04:50,210
a role of the director of strategic

86
00:04:56,070 --> 00:04:54,050
projects in 2017 and left basically

87
00:04:58,060 --> 00:04:56,080
those roles and we started a

88
00:05:00,480 --> 00:04:58,070

organization called the scientific

89

00:05:02,740 --> 00:05:00,490

Coalition for you you ap studies and

90

00:05:06,129 --> 00:05:02,750

that's been going strong we have about

91

00:05:08,529 --> 00:05:06,139

seventy plus odd people on board

92

00:05:11,730 --> 00:05:08,539

including Michael masters and every miss

93

00:05:14,350 --> 00:05:11,740

Scott which I'm pleased to have on board

94

00:05:16,209 --> 00:05:14,360

and we're a coalition of people that are

95

00:05:18,939 --> 00:05:16,219

looking at doing projects and studies

96

00:05:22,260 --> 00:05:18,949

and research and doing doing all the

97

00:05:24,650 --> 00:05:22,270

good stuff and it's very exciting and

98

00:05:27,230 --> 00:05:24,660

certainly last but not

99

00:05:31,550 --> 00:05:27,240

leon kirk becca joining us for the first

100

00:05:34,040 --> 00:05:31,560

time Liana hosts a ufo-related podcast

101
00:05:34,880 --> 00:05:34,050
over on Spotify and Leon tell us all

102
00:05:37,850 --> 00:05:34,890
about yourself

103
00:05:40,070 --> 00:05:37,860
well I thanks so much Frank I think

104
00:05:42,950 --> 00:05:40,080
that's probably the first time the

105
00:05:45,350 --> 00:05:42,960
phrase last but not least is very not

106
00:05:46,850 --> 00:05:45,360
much not true because I seem to be the

107
00:05:48,590 --> 00:05:46,860
only one without doctor in front of my

108
00:05:49,630 --> 00:05:48,600
name or or have some sort of huge

109
00:05:53,300 --> 00:05:49,640
credentials

110
00:05:56,750 --> 00:05:53,310
apart from entertainment but but I'm

111
00:06:01,280 --> 00:05:56,760
glad to be on the show I'm a co-host of

112
00:06:04,100 --> 00:06:01,290
a Spotify podcast called aliens like us

113
00:06:06,470 --> 00:06:04,110

it's just freshly been released in the

114

00:06:08,570 --> 00:06:06,480

last two or three weeks and the main

115

00:06:11,770 --> 00:06:08,580

host of the show is a gentleman called

116

00:06:14,360 --> 00:06:11,780

Rhys Darby who is one of New Zealand's

117

00:06:17,390 --> 00:06:14,370

funniest people and or what goes far to

118

00:06:21,080 --> 00:06:17,400

say as as one of the world's premier

119

00:06:23,990 --> 00:06:21,090

comics and actors most recently been on

120

00:06:25,970 --> 00:06:24,000

Jumanji and what-have-you and he and I

121

00:06:30,950 --> 00:06:25,980

have done a podcast for a good ten years

122

00:06:34,480 --> 00:06:30,960

before this Spotify one and have talked

123

00:06:37,490 --> 00:06:34,490

a great deal about UF ology and about

124

00:06:41,659 --> 00:06:37,500

cryptozoology and and all of these

125

00:06:44,570 --> 00:06:41,669

wonderful hidden Sciences and we're

126

00:06:47,540 --> 00:06:44,580

great big believers in it and I won't

127

00:06:50,720 --> 00:06:47,550

call ourselves amateur your follow gist

128

00:06:53,060 --> 00:06:50,730

but but certainly we love the subject

129

00:06:56,780 --> 00:06:53,070

matter and and really glad to be on the

130

00:06:58,580 --> 00:06:56,790

show with these esteemed guests thanks

131

00:07:00,650 --> 00:06:58,590

for joining us ed I will add that there

132

00:07:02,630 --> 00:07:00,660

since I got seriously into this UFO

133

00:07:05,630 --> 00:07:02,640

stuff about a decade ago I have

134

00:07:08,540 --> 00:07:05,640

completely fallen out of touch with all

135

00:07:12,970 --> 00:07:08,550

pop culture but I've actually heard of

136

00:07:16,460 --> 00:07:12,980

Rhys so he is a famous guy he's

137

00:07:20,510 --> 00:07:16,470

certainly he's out there and and and

138

00:07:23,000 --> 00:07:20,520

it's fair to say our podcast certainly

139

00:07:26,150 --> 00:07:23,010

as comedic and and we certainly take the

140

00:07:28,280 --> 00:07:26,160

lighter side of of the of the science

141

00:07:29,930 --> 00:07:28,290

but we take the science very seriously

142

00:07:31,640 --> 00:07:29,940

we just don't take ourselves very

143

00:07:34,640 --> 00:07:31,650

seriously at all I think it's fair to

144

00:07:37,250 --> 00:07:34,650

say and thanks everybody for joining us

145

00:07:38,120 --> 00:07:37,260

and obviously we're going to talk about

146

00:07:40,160 --> 00:07:38,130

a lot

147

00:07:42,140 --> 00:07:40,170

the different as many as I could think

148

00:07:44,090 --> 00:07:42,150

of as many of the different ideas that

149

00:07:47,120 --> 00:07:44,100

are floating around regarding where

150

00:07:49,250 --> 00:07:47,130

these UFOs possibly come from and we do

151
00:07:51,860 --> 00:07:49,260
have an expert on one of those ideas and

152
00:07:55,400 --> 00:07:51,870
that is the the time travelers from the

153
00:07:57,320 --> 00:07:55,410
future theory and dr. masters I wanted

154
00:07:59,840 --> 00:07:57,330
to run that by some people and then the

155
00:08:05,570 --> 00:07:59,850
rest of us can basically do what we can

156
00:08:07,160 --> 00:08:05,580
to try to tear it apart I mean the ideas

157
00:08:11,440 --> 00:08:07,170
been around for a long time it certainly

158
00:08:15,140 --> 00:08:11,450
isn't something that that I contributed

159
00:08:16,640 --> 00:08:15,150
initially it's been I mean it's it's

160
00:08:18,850 --> 00:08:16,650
really been described in a lot of

161
00:08:21,440 --> 00:08:18,860
different ways both scientifically and

162
00:08:23,540 --> 00:08:21,450
I've had a tremendous number of people

163
00:08:26,260 --> 00:08:23,550

contact me since publishing the book

164

00:08:28,730 --> 00:08:26,270

talking about books they've written or

165

00:08:30,860 --> 00:08:28,740

films they've produced more in a science

166

00:08:32,409 --> 00:08:30,870

fiction capacity but the idea is

167

00:08:36,020 --> 00:08:32,419

definitely been around for a while

168

00:08:37,430 --> 00:08:36,030

George Knapp told me recently that he's

169

00:08:39,980 --> 00:08:37,440

obviously heard of this for a long time

170

00:08:42,709 --> 00:08:39,990

but my research is the first one that

171

00:08:44,840 --> 00:08:42,719

he's seen that takes a biological and a

172

00:08:46,490 --> 00:08:44,850

multidisciplinary approach and that's

173

00:08:49,570 --> 00:08:46,500

mostly where I come from with this is

174

00:08:52,910 --> 00:08:49,580

looking at long term evolutionary trends

175

00:08:55,730 --> 00:08:52,920

in hominid history and specifically with

176

00:08:58,820 --> 00:08:55,740

regard to our cranial facial anatomy

177

00:09:00,740 --> 00:08:58,830

where the the major trend throughout the

178

00:09:02,840 --> 00:09:00,750

last six to eight million years since we

179

00:09:06,080 --> 00:09:02,850

became bipedal meaning upright walking

180

00:09:08,270 --> 00:09:06,090

hominins is encephalization meaning an

181

00:09:11,810 --> 00:09:08,280

increase in brain size and a retraction

182

00:09:13,460 --> 00:09:11,820

of our mid and lower facial anatomy so

183

00:09:15,220 --> 00:09:13,470

if those trends continue into the future

184

00:09:17,630 --> 00:09:15,230

in the same way that they have in

185

00:09:19,910 --> 00:09:17,640

association with the development of more

186

00:09:22,910 --> 00:09:19,920

sophisticated tools and culture and

187

00:09:25,240 --> 00:09:22,920

technology we are likely to be more

188

00:09:27,830 --> 00:09:25,250

advanced potentially even have

189

00:09:29,930 --> 00:09:27,840

discovered the mechanisms with which to

190

00:09:31,280 --> 00:09:29,940

travel backward through time and we're

191

00:09:33,020 --> 00:09:31,290

very likely to have these same

192

00:09:35,690 --> 00:09:33,030

characteristics that are so ubiquitous

193

00:09:37,460 --> 00:09:35,700

Lee described in UFO encounters where

194

00:09:40,370 --> 00:09:37,470

you have the big round what we call

195

00:09:42,980 --> 00:09:40,380

globular neurocranium larger eyes a

196

00:09:44,780 --> 00:09:42,990

smaller face but still with the nose the

197

00:09:47,240 --> 00:09:44,790

mouth and the eye is all in the same

198

00:09:51,110 --> 00:09:47,250

place in the same way that they are and

199

00:09:51,920 --> 00:09:51,120

modern humans still bipedal having penet

200

00:09:55,460 --> 00:09:51,930

actually the

201

00:09:56,690 --> 00:09:55,470

five digits on our hands and feet so

202

00:09:59,810 --> 00:09:56,700

just looking at these correlations

203

00:10:03,050 --> 00:09:59,820

between our evolutionary past or modern

204

00:10:04,700 --> 00:10:03,060

human forms and the distant future it

205

00:10:06,710 --> 00:10:04,710

would seem to indicate that there is

206

00:10:10,010 --> 00:10:06,720

some sort of genetic continuity through

207

00:10:11,750 --> 00:10:10,020

time so your theory is pretty well based

208

00:10:14,420 --> 00:10:11,760

on leaning pretty heavily on these

209

00:10:17,269 --> 00:10:14,430

contact the accounts no not at all

210

00:10:20,060 --> 00:10:17,279

actually I bring them up in the book and

211

00:10:23,360 --> 00:10:20,070

I mentioned in the book that they they

212

00:10:25,389 --> 00:10:23,370

can't be considered evidence in in the

213

00:10:28,639 --> 00:10:25,399

true sense of the word we can have

214

00:10:32,840 --> 00:10:28,649

eyewitness accounts be used in court but

215

00:10:34,790 --> 00:10:32,850

in the context of of science what people

216

00:10:37,340 --> 00:10:34,800

see and describe is not considered

217

00:10:40,160 --> 00:10:37,350

evidence so I make a very clear

218

00:10:41,900 --> 00:10:40,170

distinction in in approaching this

219

00:10:42,920 --> 00:10:41,910

question and bringing some of those and

220

00:10:45,949 --> 00:10:42,930

I think they should certainly be

221

00:10:49,010 --> 00:10:45,959

considered and I do so cautiously in the

222

00:10:51,530 --> 00:10:49,020

book but no it doesn't hinge on the

223

00:10:54,380 --> 00:10:51,540

future reality or the description of

224

00:10:57,829 --> 00:10:54,390

these forms but rather just takes these

225

00:11:00,350 --> 00:10:57,839

very dominant trends in our bio cultural

226

00:11:02,630 --> 00:11:00,360

evolution and projects them forward so

227

00:11:06,890 --> 00:11:02,640

it's it's more of a modeling into the

228

00:11:08,780 --> 00:11:06,900

future which I tie in that alleged

229

00:11:11,110 --> 00:11:08,790

future form but it doesn't hinge on

230

00:11:14,360 --> 00:11:11,120

their existence now or in the future

231

00:11:17,480 --> 00:11:14,370

okay and another question now regards

232

00:11:19,970 --> 00:11:17,490

the time-travel concept and it has been

233

00:11:21,380 --> 00:11:19,980

out there for you know a long time as

234

00:11:24,260 --> 00:11:21,390

long as there's been at least science

235

00:11:26,570 --> 00:11:24,270

fiction and there obviously some other

236

00:11:29,900 --> 00:11:26,580

accounts that may or may not be accurate

237

00:11:31,730 --> 00:11:29,910

as far as actually a people deal and go

238

00:11:34,220 --> 00:11:31,740

with Time Traveller's and that sort of

239

00:11:36,949 --> 00:11:34,230

thing that's been out there but a one

240

00:11:41,150 --> 00:11:36,959

issue with it and it's a it's a caveat

241

00:11:44,060 --> 00:11:41,160

and that is the universe does not hold

242

00:11:48,350 --> 00:11:44,070

still the earth is orbiting around the

243

00:11:50,480 --> 00:11:48,360

Sun at roughly 65 70 thousand miles an

244

00:11:52,160 --> 00:11:50,490

hour so if we wanted to travel six

245

00:11:53,900 --> 00:11:52,170

months into the future or six months

246

00:11:55,550 --> 00:11:53,910

into the past you'd have to go to the

247

00:11:58,130 --> 00:11:55,560

far side of the Sun which is about a

248

00:12:01,040 --> 00:11:58,140

hundred eighty six thousand miles away a

249

00:12:03,980 --> 00:12:01,050

pretty significant distance to travel in

250

00:12:04,770 --> 00:12:03,990

in space and also you're dealing with

251
00:12:07,860 --> 00:12:04,780
the issue

252
00:12:10,550 --> 00:12:07,870
the Sun the solar system itself orbiting

253
00:12:13,710 --> 00:12:10,560
around galactic center at more than

254
00:12:16,410 --> 00:12:13,720
500,000 miles an hour to travel any

255
00:12:19,050 --> 00:12:16,420
significant distance in space or in time

256
00:12:21,540 --> 00:12:19,060
excuse me you would also have to travel

257
00:12:24,330 --> 00:12:21,550
a significant distance in space I have

258
00:12:26,460 --> 00:12:24,340
is that is that part of your hypothesis

259
00:12:29,220 --> 00:12:26,470
do you consider that absolutely yeah no

260
00:12:30,960 --> 00:12:29,230
I've heard this this mentioned quite a

261
00:12:34,970 --> 00:12:30,970
few times and I even addressed this

262
00:12:37,170 --> 00:12:34,980
specifically at a talk I gave at the the

263
00:12:38,730 --> 00:12:37,180

International UFO Congress down in

264

00:12:40,800 --> 00:12:38,740

Phoenix back and I think it was

265

00:12:41,910 --> 00:12:40,810

September early September because yeah

266

00:12:44,430 --> 00:12:41,920

it's definitely something to consider

267

00:12:46,890 --> 00:12:44,440

but a lot of it well for one I'd like to

268

00:12:49,380 --> 00:12:46,900

point out that these crafts by all

269

00:12:52,020 --> 00:12:49,390

accounts can go very fast so you're

270

00:12:54,570 --> 00:12:52,030

right things move if we think of it as

271

00:12:56,910 --> 00:12:54,580

three dimensions of space and then one

272

00:12:59,160 --> 00:12:56,920

dimension of time but in the context of

273

00:13:02,040 --> 00:12:59,170

the block universe which is the dominant

274

00:13:04,770 --> 00:13:02,050

model to explain time and space amongst

275

00:13:06,420 --> 00:13:04,780

physicists and in one of my favorite

276

00:13:07,950 --> 00:13:06,430

physicists who put this better than

277

00:13:12,030 --> 00:13:07,960

anybody else I've seen is named max

278

00:13:15,450 --> 00:13:12,040

tegmark he's a physicist at MIT he said

279

00:13:17,010 --> 00:13:15,460

we can portray our reality either as a

280

00:13:19,860 --> 00:13:17,020

three-dimensional place where stuff

281

00:13:22,050 --> 00:13:19,870

happens over time or in the context of

282

00:13:24,870 --> 00:13:22,060

the block universe as a four-dimensional

283

00:13:28,110 --> 00:13:24,880

place where nothing happens and in this

284

00:13:29,880 --> 00:13:28,120

the second picture change as you

285

00:13:33,020 --> 00:13:29,890

describe it with this movement is really

286

00:13:35,940 --> 00:13:33,030

just an illusion where we impose that on

287

00:13:38,040 --> 00:13:35,950

this three-dimensional space we add this

288

00:13:39,810 --> 00:13:38,050

extra dimension of time but in the

289

00:13:41,790 --> 00:13:39,820

context of the block universe there

290

00:13:43,770 --> 00:13:41,800

really isn't change there isn't movement

291

00:13:45,870 --> 00:13:43,780

and another physicist named Julian

292

00:13:49,140 --> 00:13:45,880

Barbour has been arguing this for

293

00:13:51,240 --> 00:13:49,150

decades and and so if we think of it in

294

00:13:53,520 --> 00:13:51,250

the context of the block universe enough

295

00:13:56,130 --> 00:13:53,530

if our future human descendants are

296

00:13:58,590 --> 00:13:56,140

moving through it in that context it's

297

00:14:00,420 --> 00:13:58,600

it's separate from how we see it and and

298

00:14:02,190 --> 00:14:00,430

when we talk about the movement of the

299

00:14:04,980 --> 00:14:02,200

earth around the Sun or the Sun around

300

00:14:07,620 --> 00:14:04,990

the galaxies the galaxies through space

301
00:14:10,650 --> 00:14:07,630
they all has to be relative to something

302
00:14:12,540 --> 00:14:10,660
and in the context of how time is viewed

303
00:14:15,000 --> 00:14:12,550
in the block universe there really isn't

304
00:14:17,400 --> 00:14:15,010
that relative movement and the way that

305
00:14:18,569 --> 00:14:17,410
we conceptualize is so it may simply be

306
00:14:20,609 --> 00:14:18,579
moving back

307
00:14:22,949 --> 00:14:20,619
through layers of this static

308
00:14:24,840 --> 00:14:22,959
four-dimensional universe as opposed to

309
00:14:29,309 --> 00:14:24,850
trying to chase down earth wherever it

310
00:14:31,979 --> 00:14:29,319
may be at any particular time and also

311
00:14:34,229 --> 00:14:31,989
some of the other ideas that we're going

312
00:14:37,530 --> 00:14:34,239
to at least touch on a little bit don't

313
00:14:39,780 --> 00:14:37,540

know how we're steeped anyone is in the

314

00:14:40,949 --> 00:14:39,790

subjects and some of them are not but

315

00:14:43,679 --> 00:14:40,959

I'm just gonna throw them out there

316

00:14:46,919 --> 00:14:43,689

there's a theory from a gentleman named

317

00:14:48,900 --> 00:14:46,929

Hugh Everett from I think back in the

318

00:14:52,439 --> 00:14:48,910

50s when he first developed this this

319

00:14:56,970 --> 00:14:52,449

many worlds theory where a quantum event

320

00:15:00,059 --> 00:14:56,980

occurs that basically creates another

321

00:15:04,169 --> 00:15:00,069

universe a parallel universe any

322

00:15:06,689 --> 00:15:04,179

thoughts to the possibility that in fact

323

00:15:09,419 --> 00:15:06,699

that they're travelers they're

324

00:15:11,309 --> 00:15:09,429

earthlings but they may have evolved

325

00:15:13,619 --> 00:15:11,319

quite differently and are just able to

326

00:15:16,109 --> 00:15:13,629

jump back and forth between parallel

327

00:15:18,389 --> 00:15:16,119

universes that there's still there's

328

00:15:20,789 --> 00:15:18,399

still earthlings but you know they just

329

00:15:22,499 --> 00:15:20,799

evolve differently or faster or whatever

330

00:15:24,989 --> 00:15:22,509

the case may be in the the many-worlds

331

00:15:27,059 --> 00:15:24,999

interpretation of quantum mechanics is

332

00:15:30,689 --> 00:15:27,069

certainly something to be considered and

333

00:15:33,329 --> 00:15:30,699

many would argue based on this model

334

00:15:35,549 --> 00:15:33,339

that if you go into the past it creates

335

00:15:39,090 --> 00:15:35,559

that quantum decoherence and you have a

336

00:15:42,299 --> 00:15:39,100

split where a two universes form from

337

00:15:44,989 --> 00:15:42,309

one previously cohesive universe and if

338

00:15:47,579 --> 00:15:44,999

that's the case you would have multiple

339

00:15:49,409 --> 00:15:47,589

universes that if you were able to move

340

00:15:51,509 --> 00:15:49,419

through those different dimensions you

341

00:15:53,429 --> 00:15:51,519

would be able to visit them there are

342

00:15:56,249 --> 00:15:53,439

issues though with interpreting the

343

00:15:57,929 --> 00:15:56,259

phenomenon in this way in the context of

344

00:16:00,479 --> 00:15:57,939

backward time travel because if you went

345

00:16:02,879 --> 00:16:00,489

into the past and you did something that

346

00:16:04,769 --> 00:16:02,889

created this change are you now in that

347

00:16:07,829 --> 00:16:04,779

universe where your future is different

348

00:16:09,539 --> 00:16:07,839

maybe you don't exist there or how do

349

00:16:12,629 --> 00:16:09,549

you get between these dimensions and

350

00:16:14,069 --> 00:16:12,639

honestly many people that adhere to this

351

00:16:15,900 --> 00:16:14,079

theory will be the first to admit that

352

00:16:18,449 --> 00:16:15,910

it might not even be something we can

353

00:16:22,590 --> 00:16:18,459

ever prove because we don't have any

354

00:16:25,319 --> 00:16:22,600

means with which to observe or quantify

355

00:16:27,710 --> 00:16:25,329

anything in these theoretical dimensions

356

00:16:31,079 --> 00:16:27,720

that might exist so because of those

357

00:16:32,430 --> 00:16:31,089

issues currently and we may discover far

358

00:16:33,660 --> 00:16:32,440

more about this in the future

359

00:16:36,120 --> 00:16:33,670

it may turn out that the many-worlds

360

00:16:37,500 --> 00:16:36,130

interpretation is correct and as you

361

00:16:39,750 --> 00:16:37,510

said I don't think it's mutually

362

00:16:41,610 --> 00:16:39,760

exclusive to what I'm describing because

363

00:16:44,190 --> 00:16:41,620

they would still be humans they would

364

00:16:46,410 --> 00:16:44,200

still be upright walking hominins with

365

00:16:49,380 --> 00:16:46,420

these same traits but their origins may

366

00:16:51,360 --> 00:16:49,390

be not necessarily from our specific

367

00:16:53,370 --> 00:16:51,370

future in this timeline but potentially

368

00:16:55,620 --> 00:16:53,380

a separate timeline so it's certainly

369

00:16:58,140 --> 00:16:55,630

something that should be considered and

370

00:17:01,110 --> 00:16:58,150

I'm very open to that possibility but in

371

00:17:03,000 --> 00:17:01,120

writing the book I mostly adhere to the

372

00:17:06,090 --> 00:17:03,010

block universe theory because it is the

373

00:17:07,470 --> 00:17:06,100

most widely accepted and to be honest I

374

00:17:10,199 --> 00:17:07,480

think it makes the most sense in the

375

00:17:11,910 --> 00:17:10,209

context of this phenomenon and does

376

00:17:20,850 --> 00:17:11,920

anyone else on the panel have any

377

00:17:23,189 --> 00:17:20,860

questions for dr. masters well I just I

378

00:17:26,670 --> 00:17:23,199

want to interject it and just basically

379

00:17:30,200 --> 00:17:26,680

say that I appreciate it work greatly I

380

00:17:33,900 --> 00:17:30,210

think that that's when I look at my

381

00:17:37,530 --> 00:17:33,910

decades with this thing I I've had lots

382

00:17:39,300 --> 00:17:37,540

of people who have confirmed it if you

383

00:17:41,100 --> 00:17:39,310

would that there was something about

384

00:17:42,750 --> 00:17:41,110

time travel involved if you take a look

385

00:17:44,820 --> 00:17:42,760

at the Bentwaters case and you know the

386

00:17:47,910 --> 00:17:44,830

fact that Jim Penniston was touching the

387

00:17:50,760 --> 00:17:47,920

object and allegedly got the ones and

388

00:17:52,470 --> 00:17:50,770

zeroes that were interpreted to be some

389

00:17:54,360 --> 00:17:52,480

sort of a message and indicated that the

390

00:17:58,650 --> 00:17:54,370

object that he was standing and touching

391

00:18:00,420 --> 00:17:58,660

was basically from the future the other

392

00:18:02,760 --> 00:18:00,430

thing that I'd like to interject is that

393

00:18:05,310 --> 00:18:02,770

I when I was working up and in the

394

00:18:08,490 --> 00:18:05,320

living in Dayton I had an interesting

395

00:18:11,520 --> 00:18:08,500

interaction with dr. Leon Kazarian who

396

00:18:16,020 --> 00:18:11,530

was the chief of aeromed research at the

397

00:18:17,850 --> 00:18:16,030

time at the wright-patterson and I was I

398

00:18:21,540 --> 00:18:17,860

had an interesting meeting with him and

399

00:18:24,090 --> 00:18:21,550

like a TV station in an enclosed room

400

00:18:26,370 --> 00:18:24,100

where he started mentioning the fact

401
00:18:28,350 --> 00:18:26,380
that that the beings that they were

402
00:18:31,110 --> 00:18:28,360
studying alleged or they know they the

403
00:18:34,730 --> 00:18:31,120
cosmonauts and the returning astronauts

404
00:18:37,800 --> 00:18:34,740
had basically some sort of like you know

405
00:18:39,780 --> 00:18:37,810
the changes in their body from being in

406
00:18:41,669 --> 00:18:39,790
space and we all know that from Scott

407
00:18:44,910 --> 00:18:41,679
Kelly being out there that has great

408
00:18:46,250 --> 00:18:44,920
impacts on us and apparently his team of

409
00:18:48,800 --> 00:18:46,260
scientists had project

410
00:18:50,450 --> 00:18:48,810
it out that we would start to look just

411
00:18:54,770 --> 00:18:50,460
like the little guys that we've get

412
00:18:58,850 --> 00:18:54,780
reports of now within two generations of

413
00:19:00,650 --> 00:18:58,860

living in space so I hypothetically if

414

00:19:03,020 --> 00:19:00,660

you said that well we're racing to get

415

00:19:05,300 --> 00:19:03,030

out in space and let's say we want to go

416

00:19:08,510 --> 00:19:05,310

out there and do our civilization or you

417

00:19:11,300 --> 00:19:08,520

know move around could we then not look

418

00:19:13,850 --> 00:19:11,310

like these aliens and that's what his

419

00:19:16,070 --> 00:19:13,860

team was suggesting so I keep bumping

420

00:19:17,930 --> 00:19:16,080

into this you know kind of experience

421

00:19:21,980 --> 00:19:17,940

around the fact that they may be time

422

00:19:24,440 --> 00:19:21,990

travelers it's pretty doggone logical

423

00:19:25,880 --> 00:19:24,450

when you say that you see beings coming

424

00:19:29,150 --> 00:19:25,890

out of them and people are alleging that

425

00:19:31,910 --> 00:19:29,160

they have two legs two arms and a head

426

00:19:34,880 --> 00:19:31,920

with two eyes and that type thing that

427

00:19:41,180 --> 00:19:34,890

it seems to be all connected to either

428

00:19:43,520 --> 00:19:41,190

here and that either they are us from

429

00:19:45,140 --> 00:19:43,530

the future or you could speculate and

430

00:19:47,930 --> 00:19:45,150

say that they are helping to construct

431

00:19:50,420 --> 00:19:47,940

us which is another hypothesis and that

432

00:19:52,820 --> 00:19:50,430

is basically that there they seem to be

433

00:19:55,040 --> 00:19:52,830

doing if you look at the abduction

434

00:19:56,720 --> 00:19:55,050

phenomena there is stand back at about a

435

00:19:58,250 --> 00:19:56,730

ninety five thousand foot ceiling we

436

00:20:01,280 --> 00:19:58,260

seem to be doing something along the

437

00:20:03,560 --> 00:20:01,290

lines of genetic and hybridization so

438

00:20:06,440 --> 00:20:03,570

you know could they have constructed us

439

00:20:07,880 --> 00:20:06,450

over a period of time so I I don't know

440

00:20:10,750 --> 00:20:07,890

I don't know what the answers are to

441

00:20:13,880 --> 00:20:10,760

that but it's an interesting hypothesis

442

00:20:16,070 --> 00:20:13,890

and also I can see some potential

443

00:20:18,860 --> 00:20:16,080

tie-ins in terms of these changes that

444

00:20:21,800 --> 00:20:18,870

would take place over lengthy periods of

445

00:20:26,270 --> 00:20:21,810

space travel the some of Professor Kevin

446

00:20:29,740 --> 00:20:26,280

canoes ideas about the ETS being nomadic

447

00:20:32,930 --> 00:20:29,750

and basically a spacefaring civilization

448

00:20:35,270 --> 00:20:32,940

yeah well that's what his presentation

449

00:20:38,510 --> 00:20:35,280

was at our su conference last year what

450

00:20:40,370 --> 00:20:38,520

it wasn't saying necessarily the he said

451
00:20:43,430 --> 00:20:40,380
that if we were to go out in space and

452
00:20:45,110 --> 00:20:43,440
we were to try to maneuver how do we go

453
00:20:47,600 --> 00:20:45,120
about it and the best way would be

454
00:20:50,360 --> 00:20:47,610
probably for us to be nomadic if you

455
00:20:53,360 --> 00:20:50,370
would and going large groups and you

456
00:20:54,800 --> 00:20:53,370
know if you move it you know a third of

457
00:20:56,930 --> 00:20:54,810
the speed of light or something like

458
00:20:59,360 --> 00:20:56,940
that for those people again going

459
00:21:02,090 --> 00:20:59,370
somewhere if there's not the impact of

460
00:21:05,330 --> 00:21:02,100
they're just maneuvering and existing as

461
00:21:07,670 --> 00:21:05,340
they normally would it's the people back

462
00:21:08,900 --> 00:21:07,680
on earth of course that have changed so

463
00:21:11,480 --> 00:21:08,910

you would go out with these nomadic

464

00:21:14,030 --> 00:21:11,490

missions to the nearest whatever place

465

00:21:15,760 --> 00:21:14,040

do you want to go to possibly settle and

466

00:21:18,530 --> 00:21:15,770

then you could potentially have

467

00:21:19,970 --> 00:21:18,540

eventually you know people splitting off

468

00:21:22,670 --> 00:21:19,980

in different directions and they could

469

00:21:24,770 --> 00:21:22,680

end up going out and doing the same

470

00:21:28,010 --> 00:21:24,780

thing and suddenly you could be having

471

00:21:29,990 --> 00:21:28,020

humans across the entire universe if you

472

00:21:32,570 --> 00:21:30,000

would could i interject something real

473

00:21:34,760 --> 00:21:32,580

quick sure yeah I'm certainly not gonna

474

00:21:36,680 --> 00:21:34,770

try to dominate the conversation but I

475

00:21:39,380 --> 00:21:36,690

did want to throw something in real

476
00:21:41,210 --> 00:21:39,390
quick about that is if if we do think

477
00:21:43,760 --> 00:21:41,220
about that the special relativity

478
00:21:46,580 --> 00:21:43,770
limitations and the the twins paradoxes

479
00:21:49,340 --> 00:21:46,590
it's more generally known one of the

480
00:21:53,440 --> 00:21:49,350
best ways to achieve deep space travel

481
00:21:56,390 --> 00:21:53,450
and to return to our own time because

482
00:21:58,010 --> 00:21:56,400
absolutely as we travel high-speed for

483
00:21:59,840 --> 00:21:58,020
long distance as we come back maybe

484
00:22:01,669 --> 00:21:59,850
hundreds thousands tens of thousands of

485
00:22:03,230 --> 00:22:01,679
years have passed it may be possible

486
00:22:05,960 --> 00:22:03,240
that we develop backward time travel

487
00:22:09,890 --> 00:22:05,970
technology in association with deep

488
00:22:11,450 --> 00:22:09,900

space voyages so that we can not leave

489

00:22:13,669 --> 00:22:11,460

our families and our friends and our

490

00:22:14,930 --> 00:22:13,679

entire civilization behind to go out on

491

00:22:17,030 --> 00:22:14,940

these missions so it's very possible

492

00:22:19,190 --> 00:22:17,040

that the two are developed in

493

00:22:20,720 --> 00:22:19,200

association with each other and that

494

00:22:22,490 --> 00:22:20,730

they're not mutually exclusive that

495

00:22:24,680 --> 00:22:22,500

we're going out and were exploring the

496

00:22:26,690 --> 00:22:24,690

universe but also still able to get home

497

00:22:29,090 --> 00:22:26,700

not just to our planet but also to our

498

00:22:31,370 --> 00:22:29,100

time that have somebody can share your

499

00:22:34,580 --> 00:22:31,380

data with yeah absolutely

500

00:22:35,900 --> 00:22:34,590

you know we're going on the base of

501
00:22:37,700 --> 00:22:35,910
Frank we're going on the basis of

502
00:22:40,010 --> 00:22:37,710
thinking about this in the context of

503
00:22:42,790 --> 00:22:40,020
the physics we know now oh yeah and if

504
00:22:45,290 --> 00:22:42,800
we talk if we're talking about you know

505
00:22:47,299 --> 00:22:45,300
an alien race coming from somewhere else

506
00:22:49,220 --> 00:22:47,309
they don't think like us number one

507
00:22:52,160 --> 00:22:49,230
number two we don't know how long

508
00:22:55,070 --> 00:22:52,170
they've been a civilization they could

509
00:22:56,720 --> 00:22:55,080
have way more advanced capabilities and

510
00:22:58,220 --> 00:22:56,730
a different set of knowledge and a

511
00:22:59,660 --> 00:22:58,230
different set of physics if you would I

512
00:23:03,830 --> 00:22:59,670
mean in in terms of their understanding

513
00:23:05,930 --> 00:23:03,840

and so it's hard for us to sit back and

514

00:23:08,440 --> 00:23:05,940

say that well they can't do this I can't

515

00:23:11,750 --> 00:23:08,450

do that when they could you know so it's

516

00:23:12,930 --> 00:23:11,760

dead so it's a that's one of the things

517

00:23:15,620 --> 00:23:12,940

that I love most

518

00:23:18,420 --> 00:23:15,630

about this theory and and I have to say

519

00:23:23,250 --> 00:23:18,430

Mike reading your book and I've told

520

00:23:25,800 --> 00:23:23,260

this to you I actually had audio version

521

00:23:27,150 --> 00:23:25,810

and in my headphones while I was on the

522

00:23:30,480 --> 00:23:27,160

New York Transit System

523

00:23:31,770 --> 00:23:30,490

and I found it very hard not to sort of

524

00:23:35,160 --> 00:23:31,780

really doubt

525

00:23:39,270 --> 00:23:35,170

lots of you know joy when you were

526

00:23:41,220 --> 00:23:39,280

mentioning things in there and you know

527

00:23:43,110 --> 00:23:41,230

it makes so much sense and and when you

528

00:23:45,150 --> 00:23:43,120

read your book and put the science to it

529

00:23:48,360 --> 00:23:45,160

it's one of those things that actually

530

00:23:50,310 --> 00:23:48,370

just is you know I guess puts all the

531

00:23:54,180 --> 00:23:50,320

pieces together in such a great way of

532

00:23:57,240 --> 00:23:54,190

the science of block time and and what

533

00:23:58,950 --> 00:23:57,250

is it do we have free will and and you

534

00:24:01,020 --> 00:23:58,960

know obviously or the physiological

535

00:24:04,980 --> 00:24:01,030

changes in the in the sightings that

536

00:24:07,350 --> 00:24:04,990

people see of these aliens and and the

537

00:24:09,480 --> 00:24:07,360

trajectory of us turning into them I

538

00:24:11,520 --> 00:24:09,490

think for me though as well the one

539

00:24:14,130 --> 00:24:11,530

thing that I really love about this

540

00:24:16,260 --> 00:24:14,140

theory is that it gives us hope you know

541

00:24:19,860 --> 00:24:16,270

right in the middle of this pandemic and

542

00:24:21,930 --> 00:24:19,870

looking at all of the the the world

543

00:24:24,600 --> 00:24:21,940

heating up and are we going to survive

544

00:24:28,020 --> 00:24:24,610

well if this is the case if they are

545

00:24:31,980 --> 00:24:28,030

from the future that's fantastic and and

546

00:24:33,720 --> 00:24:31,990

and also with that you know if the world

547

00:24:36,660 --> 00:24:33,730

is going to end and we do figure time

548

00:24:39,510 --> 00:24:36,670

travel out to some degree if we can time

549

00:24:42,980 --> 00:24:39,520

travel a population back in time and

550

00:24:46,500 --> 00:24:42,990

repopulate the earth before we actually

551

00:24:49,220 --> 00:24:46,510

exist theoretically we can keep living

552

00:24:53,340 --> 00:24:49,230

forever even if the world does explode

553

00:24:55,680 --> 00:24:53,350

which is a nice little so I like to put

554

00:24:57,390 --> 00:24:55,690

in my head I've never even thought about

555

00:24:59,330 --> 00:24:57,400

that but that makes a lot of sense and

556

00:25:02,760 --> 00:24:59,340

and maybe if it already happened before

557

00:25:05,730 --> 00:25:02,770

we we have done that and we get this

558

00:25:08,280 --> 00:25:05,740

sense that we were created if there was

559

00:25:10,230 --> 00:25:08,290

some sort of mass extinction and well

560

00:25:15,090 --> 00:25:10,240

we're patting each other on the back for

561

00:25:18,420 --> 00:25:15,100

things like your podcast both the

562

00:25:19,650 --> 00:25:18,430

cryptid factor and aliens like us your

563

00:25:22,590 --> 00:25:19,660

new one

564

00:25:24,630 --> 00:25:22,600

you guys tackle a lot of these and one

565

00:25:26,370 --> 00:25:24,640

thing you mentioned on a recent one I

566

00:25:28,080 --> 00:25:26,380

think I told you before that when I was

567

00:25:29,880 --> 00:25:28,090

my book to earth I think we listen to

568

00:25:31,770 --> 00:25:29,890

probably 20 or 30 episodes of the

569

00:25:34,590 --> 00:25:31,780

cryptid factor you just laughed

570

00:25:36,420 --> 00:25:34,600

hysterically at all of them but it also

571

00:25:37,860 --> 00:25:36,430

you guys bring up a lot of really

572

00:25:40,440 --> 00:25:37,870

thought-provoking ideas and one you

573

00:25:41,970 --> 00:25:40,450

brought up recently too is and and and

574

00:25:44,370 --> 00:25:41,980

others have talked about this as well

575

00:25:47,820 --> 00:25:44,380

but the transfer of information you know

576

00:25:49,560 --> 00:25:47,830

not just bringing people back or but but

577

00:25:51,690 --> 00:25:49,570

the transfer of information from the

578

00:25:55,070 --> 00:25:51,700

future to the past and how that may help

579

00:25:58,110 --> 00:25:55,080

create some of those same technologies

580

00:26:01,590 --> 00:25:58,120

yeah and I have to say that the the

581

00:26:04,980 --> 00:26:01,600

science as well of time travel and and I

582

00:26:09,270 --> 00:26:04,990

love having this I ruin too many really

583

00:26:11,490 --> 00:26:09,280

great dinner parties this theory and

584

00:26:14,430 --> 00:26:11,500

when I love it when people say yeah but

585

00:26:17,820 --> 00:26:14,440

the science of time travel is ridiculous

586

00:26:20,520 --> 00:26:17,830

it's not possible and in the same breath

587

00:26:23,630 --> 00:26:20,530

I'd love to say well the the science of

588

00:26:26,370 --> 00:26:23,640

intergalactic travel is just as

589

00:26:28,650 --> 00:26:26,380

improbably as time travel you know

590

00:26:30,600 --> 00:26:28,660

traveling from one galaxy to another we

591

00:26:33,510 --> 00:26:30,610

don't know how to do that yet we can't

592

00:26:36,120 --> 00:26:33,520

we can't figure out how to get ourselves

593

00:26:39,270 --> 00:26:36,130

those you know you know thousands

594

00:26:41,250 --> 00:26:39,280

millions of light years away so that is

595

00:26:44,910 --> 00:26:41,260

just as impossible in my mind as the

596

00:26:47,430 --> 00:26:44,920

science of time travel so you know I was

597

00:26:49,650 --> 00:26:47,440

on ER I was on a panel at MUFON and dr.

598

00:26:52,320 --> 00:26:49,660

Scott you were actually on this panel as

599

00:26:54,210 --> 00:26:52,330

well maybe you remember this somewhat

600

00:26:56,790 --> 00:26:54,220

contentious exchange but there was a

601
00:26:58,320 --> 00:26:56,800
fella sitting next to me and I just you

602
00:27:01,080 --> 00:26:58,330
know briefly toward the beginning

603
00:27:03,690 --> 00:27:01,090
mentioned this idea and he grabbed the

604
00:27:06,000 --> 00:27:03,700
microphone said well according to Michio

605
00:27:08,160 --> 00:27:06,010
Kaku time travels impossible and then

606
00:27:12,090 --> 00:27:08,170
set the microphone down out of my reach

607
00:27:14,400 --> 00:27:12,100
so I couldn't even respond to it but I

608
00:27:16,860 --> 00:27:14,410
don't know like from from that very

609
00:27:18,360 --> 00:27:16,870
moment it was just this this like well

610
00:27:20,610 --> 00:27:18,370
we're not even talk about this because

611
00:27:22,770 --> 00:27:20,620
it's impossible but we should consider

612
00:27:24,720 --> 00:27:22,780
everything and especially because he's

613
00:27:27,660 --> 00:27:24,730

wrong and I looked it up Michio Kaku

614

00:27:29,850 --> 00:27:27,670

never said that in fact a proponent of

615

00:27:31,680 --> 00:27:29,860

the fact that will someday be able to

616

00:27:38,520 --> 00:27:31,690

time-travel do you remember that arena

617

00:27:40,350 --> 00:27:38,530

yeah I remember it it seems kind of

618

00:27:42,539 --> 00:27:40,360

complicated me because

619

00:27:45,510 --> 00:27:42,549

it seems like a lot of things like

620

00:27:48,960 --> 00:27:45,520

people say they see an orb and it

621

00:27:52,200 --> 00:27:48,970

changes into a being or it changes into

622

00:27:54,330 --> 00:27:52,210

something else and that makes it seem

623

00:27:56,400 --> 00:27:54,340

more complex and time-travel than me

624

00:27:59,940 --> 00:27:56,410

because it seems like something might

625

00:28:01,530 --> 00:27:59,950

influence that maybe we're so simple

626
00:28:03,480 --> 00:28:01,540
our little minds are so simple that they

627
00:28:04,080 --> 00:28:03,490
can make us see anything they want us to

628
00:28:06,720 --> 00:28:04,090
see

629
00:28:09,539 --> 00:28:06,730
[Music]

630
00:28:15,480 --> 00:28:09,549
but let's get there some of these other

631
00:28:17,789 --> 00:28:15,490
ideas out on the table here and I was

632
00:28:20,310 --> 00:28:17,799
just listening to an interview by Terry

633
00:28:23,669 --> 00:28:20,320
Lovelace and he said that exact same

634
00:28:25,919 --> 00:28:23,679
thing that they they were able to give

635
00:28:27,810 --> 00:28:25,929
him the impression that they were like

636
00:28:29,549 --> 00:28:27,820
little circus monkeys or other people

637
00:28:32,640 --> 00:28:29,559
have described Disney characters where

638
00:28:34,320 --> 00:28:32,650

they they actually supposedly or I don't

639

00:28:36,630 --> 00:28:34,330

obviously we don't know how this works

640

00:28:38,850 --> 00:28:36,640

yet but get into our brains and then

641

00:28:40,830 --> 00:28:38,860

show us an image that they think will be

642

00:28:44,430 --> 00:28:40,840

more comforting to us to not freak us

643

00:28:47,060 --> 00:28:44,440

out and and cause all kinds of undue

644

00:28:49,770 --> 00:28:47,070

stress so I definitely think that that's

645

00:28:52,080 --> 00:28:49,780

that that's happening and something we

646

00:28:58,710 --> 00:28:52,090

should consider the Disney character

647

00:29:01,200 --> 00:28:58,720

would be the wrong choice for me well

648

00:29:03,750 --> 00:29:01,210

right now we've got a quote from Alan

649

00:29:06,419 --> 00:29:03,760

Hynek that I'm gonna read really briefly

650

00:29:08,850 --> 00:29:06,429

here I hold it entirely possible that a

651
00:29:11,039 --> 00:29:08,860
technology exists which encompasses both

652
00:29:13,500 --> 00:29:11,049
the physical and the psychic

653
00:29:15,270 --> 00:29:13,510
psychic the material and the mental

654
00:29:17,370 --> 00:29:15,280
there are stars that are millions of

655
00:29:19,440 --> 00:29:17,380
years older than the Sun there may be a

656
00:29:21,810 --> 00:29:19,450
civilization that it's millions of years

657
00:29:23,850 --> 00:29:21,820
more advanced than man's we have gone

658
00:29:26,100 --> 00:29:23,860
from a Kitty Hawk to the moon in some

659
00:29:28,830 --> 00:29:26,110
seventy years but it's possible that a

660
00:29:31,560 --> 00:29:28,840
million year old civilization may know

661
00:29:36,090 --> 00:29:31,570
something that we don't i hypothesize a

662
00:29:39,030 --> 00:29:36,100
m and M and M a technology encompassing

663
00:29:43,400 --> 00:29:39,040

the mental and material realms the

664

00:29:47,220 --> 00:29:43,410

psychic realms so mysterious to us today

665

00:29:52,159 --> 00:29:47,230

may be an ordinary part of an advanced

666

00:29:57,299 --> 00:29:54,539

yeah we're probably really primitive

667

00:29:58,740 --> 00:29:57,309

compared to I mean earth is about four

668

00:30:01,619 --> 00:29:58,750

billion years old in the universe is

669

00:30:06,240 --> 00:30:01,629

about thirteen billion and stars have

670

00:30:10,080 --> 00:30:06,250

come and going and coming so I imagine

671

00:30:13,350 --> 00:30:10,090

you know a lot of beings can do it life

672

00:30:16,049 --> 00:30:13,360

forms can do a lot that we can't we do

673

00:30:19,440 --> 00:30:16,059

here a lot of accounts from folks that

674

00:30:22,499 --> 00:30:19,450

seem to indicate at least from their

675

00:30:25,590 --> 00:30:22,509

perspective that a lot of this contact

676

00:30:27,389 --> 00:30:25,600

communication is the result of this sort

677

00:30:30,930 --> 00:30:27,399

of psychic ability that the Hynek

678

00:30:32,519 --> 00:30:30,940

touches upon and one thing again like

679

00:30:35,279 --> 00:30:32,529

you were saying dr. masters we should

680

00:30:38,970 --> 00:30:35,289

stay open-minded that I'm not so sure

681

00:30:41,100 --> 00:30:38,980

that we should grab hold of that to

682

00:30:43,200 --> 00:30:41,110

firmly and should at least be open to

683

00:30:46,860 --> 00:30:43,210

the possibility that some of these

684

00:30:49,560 --> 00:30:46,870

contact these are experiencing advanced

685

00:30:54,990 --> 00:30:49,570

technology and wonder if anyone wants to

686

00:30:56,940 --> 00:30:55,000

touch on that as a possibility you're

687

00:30:59,039 --> 00:30:56,950

saying that they're in touch with

688

00:31:05,669 --> 00:30:59,049

advanced technology I'm struggling with

689

00:31:08,369 --> 00:31:05,679

that what I'm saying is that that a lot

690

00:31:10,289 --> 00:31:08,379

of folks are of the opinion that these

691

00:31:12,480 --> 00:31:10,299

ETS are whether their us from the future

692

00:31:12,899 --> 00:31:12,490

or intergalactic or whatever the case

693

00:31:15,360 --> 00:31:12,909

may be

694

00:31:18,419 --> 00:31:15,370

possess these extraordinary psychic

695

00:31:20,249 --> 00:31:18,429

powers when perhaps they should be a

696

00:31:22,560 --> 00:31:20,259

little bit more open to the possibility

697

00:31:25,490 --> 00:31:22,570

that this is simply technology that

698

00:31:30,389 --> 00:31:25,500

allows for this kind of communication oh

699

00:31:32,190 --> 00:31:30,399

I guess I'm confused because we were

700

00:31:35,009 --> 00:31:32,200

talking about origins if we think of an

701
00:31:36,889 --> 00:31:35,019
origin but we're talking about the fact

702
00:31:39,990 --> 00:31:36,899
that you know that's you're using some

703
00:31:47,100 --> 00:31:40,000
type of technology to be able to what

704
00:31:52,950 --> 00:31:47,110
project their presence here was yes I've

705
00:31:54,450 --> 00:31:52,960
never heard this idea I know I'm trying

706
00:31:58,200 --> 00:31:54,460
to bring something a little bit

707
00:32:00,690 --> 00:31:58,210
different you know but oh sorry I

708
00:32:02,399 --> 00:32:00,700
actually did a talk about this and in my

709
00:32:05,760 --> 00:32:02,409
book a little bit because that that

710
00:32:08,370 --> 00:32:05,770
telepathy aspect is fascinating too

711
00:32:11,400 --> 00:32:08,380
and and something that's described in

712
00:32:13,590 --> 00:32:11,410
almost all instances of of close contact

713
00:32:15,330 --> 00:32:13,600

and without even seeing the beams people

714

00:32:18,000 --> 00:32:15,340

claim to have downloads or they claim to

715

00:32:20,100 --> 00:32:18,010

have conscious interaction with these

716

00:32:22,500 --> 00:32:20,110

things that they're not even seen and I

717

00:32:24,090 --> 00:32:22,510

try to address that in the book whether

718

00:32:26,430 --> 00:32:24,100

it's some sort of technology that

719

00:32:29,240 --> 00:32:26,440

they're using or if it's an aspect of

720

00:32:31,680 --> 00:32:29,250

our brains itself that it's some

721

00:32:33,180 --> 00:32:31,690

conscious connection where we are able

722

00:32:35,100 --> 00:32:33,190

to communicate not just thoughts but

723

00:32:37,320 --> 00:32:35,110

feelings to in a sense of empathy so

724

00:32:40,230 --> 00:32:37,330

many people that are abducted come away

725

00:32:42,390 --> 00:32:40,240

with it describing this insane level of

726

00:32:44,460 --> 00:32:42,400

empathy toward fellow humans and just

727

00:32:47,550 --> 00:32:44,470

this this new way of perceiving the

728

00:32:51,240 --> 00:32:47,560

world around them and I obviously can't

729

00:32:53,390 --> 00:32:51,250

know I mean until we exist in that stage

730

00:32:54,960 --> 00:32:53,400

in the future or we meet

731

00:32:57,150 --> 00:32:54,970

extraterrestrials if they're from a

732

00:32:59,730 --> 00:32:57,160

different planet who have this ability

733

00:33:02,490 --> 00:32:59,740

we can't know but what I think is the

734

00:33:05,370 --> 00:33:02,500

fact that we they can also understand

735

00:33:07,290 --> 00:33:05,380

what we're saying and we don't have that

736

00:33:07,920 --> 00:33:07,300

technology we don't have anything in our

737

00:33:10,860 --> 00:33:07,930

brains

738

00:33:12,660 --> 00:33:10,870

maybe indicates that it is just a

739

00:33:15,810 --> 00:33:12,670

conscious connection and energy

740

00:33:17,790 --> 00:33:15,820

connection between the energy of our

741

00:33:20,610 --> 00:33:17,800

brains but again I don't know I'm just

742

00:33:25,770 --> 00:33:20,620

speculating we're here I think it's a

743

00:33:27,960 --> 00:33:25,780

really good reason why again it's in my

744

00:33:31,890 --> 00:33:27,970

head it makes so much more sense that

745

00:33:35,040 --> 00:33:31,900

they these beings do come from our own

746

00:33:38,210 --> 00:33:35,050

world our own earth and somewhere in the

747

00:33:41,190 --> 00:33:38,220

fact that you know being able to

748

00:33:43,800 --> 00:33:41,200

understand the science of our brain and

749

00:33:46,260 --> 00:33:43,810

effort as through telepathy to be able

750

00:33:48,360 --> 00:33:46,270

to be connected in that way for the

751

00:33:50,880 --> 00:33:48,370

language to be the same to be able to

752

00:33:53,520 --> 00:33:50,890

know how to be able to communicate to us

753

00:33:55,440 --> 00:33:53,530

and that way whether that's through time

754

00:33:58,080 --> 00:33:55,450

or whether that's you know just purely

755

00:34:00,540 --> 00:33:58,090

somebody you know that physical being

756

00:34:02,210 --> 00:34:00,550

coming back in time and actually being

757

00:34:05,160 --> 00:34:02,220

here and being able to talk

758

00:34:08,040 --> 00:34:05,170

telepathically I just find it so hard to

759

00:34:10,440 --> 00:34:08,050

think about being coming from a

760

00:34:12,149 --> 00:34:10,450

completely different existence and

761

00:34:15,180 --> 00:34:12,159

coming over and figuring that stuff out

762

00:34:17,070 --> 00:34:15,190

but then again I'm a big proponent of

763

00:34:18,560 --> 00:34:17,080

the the fact that we are only here

764

00:34:23,180 --> 00:34:18,570

because we've been

765

00:34:25,820 --> 00:34:23,190

here by by aliens of using earth as a

766

00:34:28,370 --> 00:34:25,830

little bit of a science lab if you like

767

00:34:33,110 --> 00:34:28,380

so I just completely under my argument

768

00:34:36,740 --> 00:34:33,120

and that too I mean the language aspect

769

00:34:40,130 --> 00:34:36,750

of it and if they are trying to mask

770

00:34:43,160 --> 00:34:40,140

their their true identity or if they're

771

00:34:44,900 --> 00:34:43,170

trying to make their abductions of us

772

00:34:48,020 --> 00:34:44,910

less horrific to us you know we talked

773

00:34:50,390 --> 00:34:48,030

about Terry Lovelace as example or

774

00:34:52,670 --> 00:34:50,400

trying to implant different figures but

775

00:34:56,630 --> 00:34:52,680

yeah I mean they you would think maybe a

776

00:34:59,000 --> 00:34:56,640

default might be a hockey mask to hide

777

00:35:00,410 --> 00:34:59,010

your face but that would just freak

778

00:35:02,210 --> 00:35:00,420

people out even more they'd start

779

00:35:04,190 --> 00:35:02,220

thinking about Chainsaw massacres and

780

00:35:06,110 --> 00:35:04,200

whatnot so you give them beyond the

781

00:35:08,030 --> 00:35:06,120

language but like the way to interact

782

00:35:11,630 --> 00:35:08,040

with people at different periods of the

783

00:35:13,130 --> 00:35:11,640

pastor imagery or things that they

784

00:35:16,490 --> 00:35:13,140

conjure up in our minds they would have

785

00:35:17,780 --> 00:35:16,500

to have some knowledge of our culture in

786

00:35:19,850 --> 00:35:17,790

order to be able to do that I would

787

00:35:20,840 --> 00:35:19,860

think and I think that there's plenty of

788

00:35:23,720 --> 00:35:20,850

evidence for that

789

00:35:25,850 --> 00:35:23,730

I mean Jacques valets book wonders in

790

00:35:29,090 --> 00:35:25,860

the sky is documented every culture on

791

00:35:31,190 --> 00:35:29,100

the planet and over a period history and

792

00:35:35,390 --> 00:35:31,200

we've had interactions with these things

793

00:35:37,310 --> 00:35:35,400

all along and so why would I think that

794

00:35:38,570 --> 00:35:37,320

if we've had this interaction over this

795

00:35:41,270 --> 00:35:38,580

long period of time that they really

796

00:35:45,050 --> 00:35:41,280

wouldn't understand us and then when you

797

00:35:47,510 --> 00:35:45,060

take a look at actual cases like you

798

00:35:50,540 --> 00:35:47,520

know I was struck by the fact that that

799

00:35:53,360 --> 00:35:50,550

there seemed to be an understanding of a

800

00:35:54,980 --> 00:35:53,370

lot of things with a nimitz case ah in a

801
00:35:57,860 --> 00:35:54,990
good example would be the fact that

802
00:36:00,410 --> 00:35:57,870
number one that the object decided to do

803
00:36:03,530 --> 00:36:00,420
it detected the presence of the aircraft

804
00:36:05,630 --> 00:36:03,540
coming down swooping down toward and

805
00:36:07,130 --> 00:36:05,640
then it started the maneuver up and it

806
00:36:09,560 --> 00:36:07,140
was doing the circling thing and then

807
00:36:11,980 --> 00:36:09,570
eventually when he caught it off halfway

808
00:36:15,230 --> 00:36:11,990
across and just cut the circle in half

809
00:36:16,880 --> 00:36:15,240
that thing decided then to interact and

810
00:36:19,640 --> 00:36:16,890
where did it go it went to the cap point

811
00:36:22,550 --> 00:36:19,650
and that it looked knew where the cap

812
00:36:26,570 --> 00:36:22,560
point was that it was obviously paying

813
00:36:28,400 --> 00:36:26,580

attention to where that that was and was

814

00:36:30,650 --> 00:36:28,410

indicating that it's well aware of it

815

00:36:31,660 --> 00:36:30,660

and numeira was it sort of a sort of a

816

00:36:35,300 --> 00:36:31,670

random

817

00:36:37,760 --> 00:36:35,310

rendezvous point for these pilot is how

818

00:36:40,610 --> 00:36:37,770

did they know yeah but I mean when you

819

00:36:42,590 --> 00:36:40,620

look at again documented UFO cases you

820

00:36:44,990 --> 00:36:42,600

see that there's these indications of

821

00:36:46,880 --> 00:36:45,000

them completely aware of what we're

822

00:36:48,440 --> 00:36:46,890

doing I mean even look at the nuke cases

823

00:36:51,470 --> 00:36:48,450

you know they're hanging over there

824

00:36:53,050 --> 00:36:51,480

they're knocking things out and stuff

825

00:36:56,750 --> 00:36:53,060

like that they know about all that stuff

826

00:36:59,390 --> 00:36:56,760

wherever they are um if you would and so

827

00:37:02,600 --> 00:36:59,400

there's a complete indication that they

828

00:37:05,870 --> 00:37:02,610

know a lot about us nor do we want to

829

00:37:08,330 --> 00:37:05,880

give them credit and would does that

830

00:37:10,880 --> 00:37:08,340

surprise me if they're doing these on

831

00:37:12,980 --> 00:37:10,890

board exams and having abduction it's at

832

00:37:15,890 --> 00:37:12,990

what they're doing that there's this

833

00:37:19,280 --> 00:37:15,900

awareness of us and our language and our

834

00:37:21,770 --> 00:37:19,290

culture and our destructing ability and

835

00:37:23,510 --> 00:37:21,780

I'm just even wondering what happens to

836

00:37:32,540 --> 00:37:23,520

them if they abduct somebody with the

837

00:37:35,050 --> 00:37:32,550

corona virus isn't that what Will Smith

838

00:37:42,200 --> 00:37:35,060

takes up onto the spaceship for

839

00:37:45,230 --> 00:37:42,210

Independence Day right quarantine as

840

00:37:47,570 --> 00:37:45,240

well well when we work with chimpanzees

841

00:37:50,600 --> 00:37:47,580

and other primates we have to wear

842

00:37:52,190 --> 00:37:50,610

protective masks and there's there's

843

00:37:53,900 --> 00:37:52,200

definitely the possibility of disease

844

00:37:55,790 --> 00:37:53,910

transmission between even closely

845

00:37:58,300 --> 00:37:55,800

related species that aren't the same

846

00:38:00,200 --> 00:37:58,310

species but if if we're able to

847

00:38:02,720 --> 00:38:00,210

interbreed with them or there is a

848

00:38:04,280 --> 00:38:02,730

hybridization program it indicates that

849

00:38:07,310 --> 00:38:04,290

we are the same species by the

850

00:38:10,610 --> 00:38:07,320

biological classification of species

851
00:38:12,560 --> 00:38:10,620
concept because you you have to have two

852
00:38:14,150 --> 00:38:12,570
species that can not only reproduce but

853
00:38:15,740 --> 00:38:14,160
produce viable offspring meaning they

854
00:38:18,380 --> 00:38:15,750
can reproduce themselves and that's been

855
00:38:21,320 --> 00:38:18,390
the long-standing definition of a

856
00:38:24,530 --> 00:38:21,330
species so if if we are able to

857
00:38:26,300 --> 00:38:24,540
reproduce with them it's absolutely

858
00:38:28,190 --> 00:38:26,310
certain that we'd be able to share

859
00:38:29,780 --> 00:38:28,200
diseases and it is definitely something

860
00:38:32,330 --> 00:38:29,790
that they would have to be aware of not

861
00:38:36,050 --> 00:38:32,340
just giving them to us but us giving

862
00:38:39,350 --> 00:38:36,060
them to them well we we do see these

863
00:38:41,720 --> 00:38:39,360

consistent behaviors reported in UFO

864

00:38:43,400 --> 00:38:41,730

cases where you know it's sort of like

865

00:38:45,160 --> 00:38:43,410

gather they're flying around they're

866

00:38:48,190 --> 00:38:45,170

sort of hanging around

867

00:38:50,270 --> 00:38:48,200

restricted air spaces military

868

00:38:52,970 --> 00:38:50,280

technology they're sort of hanging

869

00:38:54,920 --> 00:38:52,980

around Here I am Here I am and it seems

870

00:38:57,650 --> 00:38:54,930

to me that they're playing these chase

871

00:39:03,320 --> 00:38:57,660

games which is kind of basic animal

872

00:39:06,620 --> 00:39:03,330

behavior yeah yeah I think it's a more

873

00:39:09,110 --> 00:39:06,630

than animal a little more intelligent

874

00:39:11,180 --> 00:39:09,120

they're a little bit more but still it's

875

00:39:14,270 --> 00:39:11,190

a it's it's very basic behavior I mean

876

00:39:17,000 --> 00:39:14,280

animals will seek to play the chase game

877

00:39:20,440 --> 00:39:17,010

with you dogs will do it and there's

878

00:39:23,210 --> 00:39:20,450

videos all over the internet with

879

00:39:25,100 --> 00:39:23,220

animals sometimes in the same species

880

00:39:27,620 --> 00:39:25,110

sometimes of different species that's

881

00:39:29,030 --> 00:39:27,630

just a basic kind of playing around and

882

00:39:31,820 --> 00:39:29,040

playing with each other it's these

883

00:39:33,440 --> 00:39:31,830

little chase games that they play it

884

00:39:36,740 --> 00:39:33,450

could very well be to try to get

885

00:39:39,350 --> 00:39:36,750

information to see what what abilities

886

00:39:42,680 --> 00:39:39,360

we have with our aircraft at any

887

00:39:44,300 --> 00:39:42,690

particular time I would say that we're

888

00:39:46,040 --> 00:39:44,310

also doing that with the Russians and

889

00:39:52,760 --> 00:39:46,050

the Russians are doing it to us oh yeah

890

00:39:55,730 --> 00:39:52,770

absolutely we do that and and especially

891

00:39:58,250 --> 00:39:55,740

when we run this show our superiority if

892

00:39:59,990 --> 00:39:58,260

you would or or to detect your

893

00:40:03,830 --> 00:40:00,000

capability or something like that and

894

00:40:06,140 --> 00:40:03,840

and so but you know we were speculating

895

00:40:07,430 --> 00:40:06,150

on possible origins and when we take a

896

00:40:11,060 --> 00:40:07,440

look at these kinds of things

897

00:40:15,050 --> 00:40:11,070

thank you know as an one possible origin

898

00:40:18,620 --> 00:40:15,060

is that it indeed is us but it's in the

899

00:40:20,870 --> 00:40:18,630

current timeframe and we basically have

900

00:40:22,850 --> 00:40:20,880

captured and re-engineered or done

901
00:40:26,330 --> 00:40:22,860
something along the lines of figuring

902
00:40:28,610 --> 00:40:26,340
out how they fly and it's in some body

903
00:40:30,320 --> 00:40:28,620
on the planet doesn't have to be us it

904
00:40:32,690 --> 00:40:30,330
could be the Chinese could be somebody

905
00:40:35,150 --> 00:40:32,700
that has had there's been plenty of

906
00:40:38,120 --> 00:40:35,160
crashes they've got one day figuring out

907
00:40:40,250 --> 00:40:38,130
how to fly it and are doing you know

908
00:40:43,160 --> 00:40:40,260
using it to their advantage militarily I

909
00:40:44,840 --> 00:40:43,170
mean that's just as plausible well that

910
00:40:46,310 --> 00:40:44,850
is one theory and I'll bring this up now

911
00:40:49,850 --> 00:40:46,320
I don't know if anyone has any

912
00:40:52,040 --> 00:40:49,860
particular knowledge of it but the

913
00:40:55,700 --> 00:40:52,050

author MACT tönies before he passed

914

00:40:57,890 --> 00:40:55,710

away sadly he died a few months after I

915

00:41:00,530 --> 00:40:57,900

was just a few months after I got sea

916

00:41:04,520 --> 00:41:00,540

into this but he wrote a book called the

917

00:41:06,980 --> 00:41:04,530

crypto terrestrials and that was a his

918

00:41:09,200 --> 00:41:06,990

theory is basically that not only are

919

00:41:11,390 --> 00:41:09,210

they they us are they uh so the

920

00:41:13,490 --> 00:41:11,400

earthbound but they're within our

921

00:41:15,830 --> 00:41:13,500

timeframe and that somehow they

922

00:41:18,440 --> 00:41:15,840

developed this advanced society and they

923

00:41:20,570 --> 00:41:18,450

have these capabilities and they are

924

00:41:22,760 --> 00:41:20,580

just right here on earth more or less

925

00:41:25,330 --> 00:41:22,770

right next to us and I was wondering if

926
00:41:28,840 --> 00:41:25,340
anyone has any thoughts on that idea

927
00:41:32,030 --> 00:41:28,850
there is familiar with that max work

928
00:41:34,670 --> 00:41:32,040
with Max but yes that's I mean what I

929
00:41:36,260 --> 00:41:34,680
mean if you're saying that they could be

930
00:41:37,850 --> 00:41:36,270
here from another planet that they're

931
00:41:41,780 --> 00:41:37,860
living basically underwater or something

932
00:41:43,880 --> 00:41:41,790
like that and they're using Max as best

933
00:41:46,580 --> 00:41:43,890
as I understand it now this is max work

934
00:41:50,470 --> 00:41:46,590
not mine but as best as I understand it

935
00:41:54,590 --> 00:41:50,480
his idea was that they are a simply a

936
00:41:56,540 --> 00:41:54,600
separate race that they are living among

937
00:41:58,520 --> 00:41:56,550
us now and that they're they're advanced

938
00:42:01,910 --> 00:41:58,530

but they're here on earth they are

939

00:42:03,920 --> 00:42:01,920

essentially earthlings and that that

940

00:42:07,250 --> 00:42:03,930

that was his idea and I was wondering if

941

00:42:09,800 --> 00:42:07,260

anyone took a as taking a look at it or

942

00:42:11,210 --> 00:42:09,810

knows much about it I've never looked at

943

00:42:12,910 --> 00:42:11,220

that but where would they be doing all

944

00:42:18,950 --> 00:42:12,920

the development work and everything else

945

00:42:23,600 --> 00:42:18,960

I'll guess you have to read the body join

946

00:42:25,940 --> 00:42:23,610

us I think he knows a new Mac it's

947

00:42:29,380 --> 00:42:25,950

really well too things like the you know

948

00:42:32,660 --> 00:42:29,390

the hidden bases and what-have-you below

949

00:42:35,570 --> 00:42:32,670

Antarctica and potentially even you know

950

00:42:37,360 --> 00:42:35,580

the the you know people living in the

951
00:42:39,290 --> 00:42:37,370
center of Earth and what-have-you and

952
00:42:41,600 --> 00:42:39,300
you know what was that they're looking

953
00:42:43,730 --> 00:42:41,610
for when he was going and looking for

954
00:42:45,680 --> 00:42:43,740
these people over Guardian in the middle

955
00:42:47,660 --> 00:42:45,690
center of the world you know it's it's

956
00:42:49,670 --> 00:42:47,670
really quite plausible there you know

957
00:42:52,240 --> 00:42:49,680
maybe they do have this additional

958
00:42:55,100 --> 00:42:52,250
technology to be able to love

959
00:42:57,830 --> 00:42:55,110
subterranean and down there and watching

960
00:43:01,370 --> 00:42:57,840
us up here you know with our viruses and

961
00:43:03,680 --> 00:43:01,380
might have you so like you know there's

962
00:43:06,140 --> 00:43:03,690
I think there is some credibility there

963
00:43:08,180 --> 00:43:06,150

I'm really quite keen to buy the book

964

00:43:11,339 --> 00:43:08,190

I'm I'm on Amazon already it's a great

965

00:43:15,630 --> 00:43:13,259

but but I certainly think that leads

966

00:43:18,539 --> 00:43:15,640

really well I mean regardless of where

967

00:43:20,370 --> 00:43:18,549

they come from clearly this is showing

968

00:43:23,419 --> 00:43:20,380

all of this you know the Nimitz case

969

00:43:27,149 --> 00:43:23,429

that all of the the mind control of the

970

00:43:30,749 --> 00:43:27,159

telepathic abilities really is leading

971

00:43:33,359 --> 00:43:30,759

to only one plausibility that they are

972

00:43:35,539 --> 00:43:33,369

way more advanced than us and therefore

973

00:43:38,309 --> 00:43:35,549

it's hard not to feel all the time like

974

00:43:40,949 --> 00:43:38,319

you're some kind of lab experiment or

975

00:43:43,169 --> 00:43:40,959

we're some kind of nursery earth is some

976

00:43:45,149 --> 00:43:43,179

kind of place where these people are

977

00:43:48,149 --> 00:43:45,159

checking in on us and watching us from

978

00:43:50,789 --> 00:43:48,159

afar and and you know treating us very

979

00:43:53,069 --> 00:43:50,799

much as some kind of scientific

980

00:43:55,169 --> 00:43:53,079

experiment because if it wasn't that

981

00:43:57,149 --> 00:43:55,179

they would make contact and they would

982

00:43:59,099 --> 00:43:57,159

talk to us and they would go hey we've

983

00:44:01,499 --> 00:43:59,109

just it's been a long journey just come

984

00:44:03,809 --> 00:44:01,509

all the way from you know a few million

985

00:44:05,609 --> 00:44:03,819

light years away whew we can I have a

986

00:44:07,559 --> 00:44:05,619

drink and let's sit down and chat about

987

00:44:11,339 --> 00:44:07,569

that place on the other side of the

988

00:44:13,979 --> 00:44:11,349

solar system but they're not doing that

989

00:44:17,009 --> 00:44:13,989

they're keeping very much you know at

990

00:44:19,289 --> 00:44:17,019

arm's length and that is really the

991

00:44:21,359 --> 00:44:19,299

thing that's fascinating right because

992

00:44:23,640 --> 00:44:21,369

all those sci-fi movies where they land

993

00:44:26,729 --> 00:44:23,650

Mars Attacks and all these kind of ideas

994

00:44:29,519 --> 00:44:26,739

of them landing and and saying take me

995

00:44:32,219 --> 00:44:29,529

to your leader isn't happening you gotta

996

00:44:33,539 --> 00:44:32,229

ask why is that not happening yeah and

997

00:44:34,829 --> 00:44:33,549

why aren't they killing us

998

00:44:37,829 --> 00:44:34,839

why aren't they taking all of our stuff

999

00:44:39,749 --> 00:44:37,839

there's so much more advanced than us I

1000

00:44:41,669 --> 00:44:39,759

had a conversation with Chris Mellon

1001
00:44:44,279 --> 00:44:41,679
about this not too long ago and his his

1002
00:44:45,919 --> 00:44:44,289
big thing is are we in danger and given

1003
00:44:48,809 --> 00:44:45,929
us background that certainly makes sense

1004
00:44:52,019 --> 00:44:48,819
but but the fact that they run circles

1005
00:44:53,489 --> 00:44:52,029
around us technologically and clearly

1006
00:44:55,499 --> 00:44:53,499
are far more advanced and they haven't

1007
00:44:58,049 --> 00:44:55,509
and they seem to be just studying us

1008
00:44:59,699 --> 00:44:58,059
like Lee and Leon just pointed out it

1009
00:45:02,130 --> 00:44:59,709
would seem to indicate that yeah it is

1010
00:45:05,159 --> 00:45:02,140
more about collecting data and doing

1011
00:45:06,989 --> 00:45:05,169
research than it is trying to to really

1012
00:45:11,640 --> 00:45:06,999
get to know us or introduce themselves

1013
00:45:14,329 --> 00:45:11,650

or take all of our resources yeah I be I

1014

00:45:17,099 --> 00:45:14,339

mean if you take a look at a lot of the

1015

00:45:20,309 --> 00:45:17,109

different kinds of reports you get of

1016

00:45:22,380 --> 00:45:20,319

objects and stuff like that it to me it

1017

00:45:25,350 --> 00:45:22,390

indicates more often

1018

00:45:29,280 --> 00:45:25,360

something similar to a drone if you

1019

00:45:31,320 --> 00:45:29,290

would doing and especially some of the

1020

00:45:32,640 --> 00:45:31,330

smaller objects that are reported I mean

1021

00:45:34,320 --> 00:45:32,650

there are some that are like baseball

1022

00:45:37,890 --> 00:45:34,330

and basketball and everything else sighs

1023

00:45:40,170 --> 00:45:37,900

um so if you put that in the context of

1024

00:45:42,120 --> 00:45:40,180

what we're doing with even our own space

1025

00:45:45,630 --> 00:45:42,130

travel we're finding out that whoa wait

1026

00:45:47,640 --> 00:45:45,640

a minute there's a huge logistics trail

1027

00:45:49,740 --> 00:45:47,650

or tail you got to put on in order to be

1028

00:45:52,200 --> 00:45:49,750

able to get humans to survive in space

1029

00:45:53,430 --> 00:45:52,210

um you're gonna have food you gotta

1030

00:45:55,830 --> 00:45:53,440

water you could have all these other

1031

00:45:57,420 --> 00:45:55,840

things and we go to great lengths to be

1032

00:46:00,060 --> 00:45:57,430

able to create these things but I mean

1033

00:46:02,400 --> 00:46:00,070

it's very easy for us to send unmanned

1034

00:46:05,790 --> 00:46:02,410

types of things out through the universe

1035

00:46:07,950 --> 00:46:05,800

if you would and to go and look at

1036

00:46:09,480 --> 00:46:07,960

things and see what they're like and if

1037

00:46:11,100 --> 00:46:09,490

you had a capability where you could

1038

00:46:12,890 --> 00:46:11,110

have like a drone if you would that

1039

00:46:16,200 --> 00:46:12,900

would be moving around on Mars

1040

00:46:18,390 --> 00:46:16,210

you'd have now us doing that we would

1041

00:46:20,670 --> 00:46:18,400

see if I were on Mars I would be seeing

1042

00:46:23,370 --> 00:46:20,680

these objects flying around and watching

1043

00:46:25,680 --> 00:46:23,380

things and stuff so I mean it's very

1044

00:46:27,270 --> 00:46:25,690

likely that you know if you want to go

1045

00:46:30,180 --> 00:46:27,280

out and find out what's out there

1046

00:46:31,830 --> 00:46:30,190

just very quickly send various kinds of

1047

00:46:34,700 --> 00:46:31,840

intelligent machines off in different

1048

00:46:37,740 --> 00:46:34,710

directions and have them go and do that

1049

00:46:42,450 --> 00:46:37,750

and I tend to be one of these people

1050

00:46:45,840 --> 00:46:42,460

that that looked at just the UFO and the

1051
00:46:49,710 --> 00:46:45,850
UFO reports and try to just distinguish

1052
00:46:51,960 --> 00:46:49,720
the UFO cases where you've got an

1053
00:46:54,660 --> 00:46:51,970
individual that or a being if you would

1054
00:46:57,330 --> 00:46:54,670
it was next to the craft or coming out

1055
00:46:59,550 --> 00:46:57,340
of the craft and there's a holistically

1056
00:47:02,520 --> 00:46:59,560
different looking kinds of beings if you

1057
00:47:04,950 --> 00:47:02,530
would then then what we typically think

1058
00:47:07,710 --> 00:47:04,960
of in the abduction cases with greys and

1059
00:47:10,770 --> 00:47:07,720
so then you come back and question well

1060
00:47:13,290 --> 00:47:10,780
is this you know is the abduction

1061
00:47:14,970 --> 00:47:13,300
phenomena which hasn't really been is

1062
00:47:18,270 --> 00:47:14,980
starting to get better in terms of

1063
00:47:21,540 --> 00:47:18,280

discipline and this hard one to to look

1064

00:47:23,340 --> 00:47:21,550

at scientifically I guess but you know

1065

00:47:24,840 --> 00:47:23,350

is it is it one of these things were

1066

00:47:26,910 --> 00:47:24,850

that's a whole other kind of like

1067

00:47:28,290 --> 00:47:26,920

experience is that is that the

1068

00:47:32,250 --> 00:47:28,300

consciousness thing you're talking about

1069

00:47:34,980 --> 00:47:32,260

is that um you know somehow manipulating

1070

00:47:35,790 --> 00:47:34,990

the mind is that something like that

1071

00:47:37,650 --> 00:47:35,800

which

1072

00:47:40,230 --> 00:47:37,660

holistically different than the object

1073

00:47:42,870 --> 00:47:40,240

that's flying around yeah and in the

1074

00:47:44,970 --> 00:47:42,880

context of the technology - and looking

1075

00:47:47,220 --> 00:47:44,980

at the UFOs I mean some of these these

1076

00:47:50,220 --> 00:47:47,230

beans I'm using air quotes which you

1077

00:47:52,050 --> 00:47:50,230

can't see but yeah interject air quotes

1078

00:47:54,360 --> 00:47:52,060

in your mind right now I guess but if

1079

00:47:56,670 --> 00:47:54,370

some of these beans are just artificial

1080

00:47:58,020 --> 00:47:56,680

intelligence and it's AI that's doing

1081

00:48:00,330 --> 00:47:58,030

the heavy lifting and it's putting

1082

00:48:02,250 --> 00:48:00,340

themselves at risk because I mean

1083

00:48:04,410 --> 00:48:02,260

clearly they're very good at paralyzing

1084

00:48:06,900 --> 00:48:04,420

us and making us unable to fight back or

1085

00:48:08,940 --> 00:48:06,910

anything like that but how much of it

1086

00:48:10,770 --> 00:48:08,950

yeah just the day-to-day operations is

1087

00:48:14,190 --> 00:48:10,780

artificial intelligence piloting these

1088

00:48:16,260 --> 00:48:14,200

sophisticated flying machines that gets

1089

00:48:21,630 --> 00:48:16,270

around the g-forces and things like that

1090

00:48:22,680 --> 00:48:21,640

which would crush you know time -

1091

00:48:24,480 --> 00:48:22,690

because they're good and they're

1092

00:48:26,640 --> 00:48:24,490

reference frame be a very slow

1093

00:48:28,350 --> 00:48:26,650

acceleration but in our reference frame

1094

00:48:30,840 --> 00:48:28,360

we see it as this instantaneous

1095

00:48:33,510 --> 00:48:30,850

acceleration so in the context of time

1096

00:48:35,520 --> 00:48:33,520

it may help explain that as well one of

1097

00:48:37,800 --> 00:48:35,530

the things we looked at even with the

1098

00:48:40,830 --> 00:48:37,810

Nimitz case if you did have a craft that

1099

00:48:43,980 --> 00:48:40,840

let's say hypothetically could move with

1100

00:48:46,940 --> 00:48:43,990

these incredible speeds the kind of

1101

00:48:49,140 --> 00:48:46,950

wheat bill would fall apart right

1102

00:48:50,790 --> 00:48:49,150

basically disintegrate you know it

1103

00:48:54,300 --> 00:48:50,800

couldn't it couldn't deal with that and

1104

00:48:57,480 --> 00:48:54,310

so if you you're talking about a kind of

1105

00:49:00,480 --> 00:48:57,490

like technology whereby you know you

1106

00:49:03,660 --> 00:49:00,490

lose your inertial mass you're being

1107

00:49:06,120 --> 00:49:03,670

basically you you uh you can maneuver

1108

00:49:08,520 --> 00:49:06,130

through and seemingly move through our

1109

00:49:11,070 --> 00:49:08,530

atmosphere without any kind of like heat

1110

00:49:14,520 --> 00:49:11,080

buildup resistance no sonic booms

1111

00:49:17,550 --> 00:49:14,530

I mean Oh what are you doing are you

1112

00:49:21,030 --> 00:49:17,560

manipulating space and time the fabric

1113

00:49:23,040 --> 00:49:21,040

of space and time to do that um it's

1114

00:49:24,780 --> 00:49:23,050

it's fascinating to contemplate this

1115

00:49:26,790 --> 00:49:24,790

thing because it's I think that that's

1116

00:49:28,920 --> 00:49:26,800

eventually where we're gonna probably

1117

00:49:33,360 --> 00:49:28,930

end up going because it's hard to get

1118

00:49:36,150 --> 00:49:33,370

data on this subject and you know UFO

1119

00:49:37,980 --> 00:49:36,160

cases you can we're starting to get now

1120

00:49:41,730 --> 00:49:37,990

where we can start to see these things

1121

00:49:43,860 --> 00:49:41,740

in the in other spectral ranges if you

1122

00:49:44,740 --> 00:49:43,870

would in other words infrared as opposed

1123

00:49:46,720 --> 00:49:44,750

to it

1124

00:49:49,000 --> 00:49:46,730

and so the fact that we're now starting

1125

00:49:51,700 --> 00:49:49,010

to see them in the infrared helps to

1126
00:49:53,320 --> 00:49:51,710
understand a little bit more uh what do

1127
00:49:57,040 --> 00:49:53,330
they look like in other aspects of the

1128
00:49:59,380 --> 00:49:57,050
spectrum and and is that cloaking - are

1129
00:50:01,810 --> 00:49:59,390
they cloaking themselves in between 400

1130
00:50:04,150 --> 00:50:01,820
and 700 nanometers of visual the visual

1131
00:50:05,880 --> 00:50:04,160
light spectrum and we only recognize

1132
00:50:08,020 --> 00:50:05,890
them because you're right all of these

1133
00:50:10,450 --> 00:50:08,030
dashboard cams it's probably not the

1134
00:50:12,910 --> 00:50:10,460
right word for it but the ones that the

1135
00:50:14,590 --> 00:50:12,920
pilots are picking up it's it's always

1136
00:50:16,150 --> 00:50:14,600
in the infrared it would seem so are

1137
00:50:18,310 --> 00:50:16,160
they just cloaking themselves in the

1138
00:50:22,450 --> 00:50:18,320

visual light spectrum - to hide in plain

1139

00:50:24,190 --> 00:50:22,460

sight essentially correct and the other

1140

00:50:26,530 --> 00:50:24,200

thing is that we've got now the advanced

1141

00:50:29,170 --> 00:50:26,540

kind of like radars which seemingly are

1142

00:50:33,160 --> 00:50:29,180

helping us to detect them which is great

1143

00:50:35,320 --> 00:50:33,170

on the at flare and some of the the more

1144

00:50:38,560 --> 00:50:35,330

like the aegis and stuff like that we're

1145

00:50:40,060 --> 00:50:38,570

starting to pick pick them up maybe as

1146

00:50:42,490 --> 00:50:40,070

we continue to develop our own

1147

00:50:44,380 --> 00:50:42,500

technology tools if you would that we'll

1148

00:50:48,040 --> 00:50:44,390

start to see that there's quite a bit

1149

00:50:49,780 --> 00:50:48,050

more that we don't know yeah and it's

1150

00:50:51,910 --> 00:50:49,790

it's fascinating to watch as this

1151

00:50:54,220 --> 00:50:51,920

happens because you know we've all seen

1152

00:50:56,920 --> 00:50:54,230

the blurry the blurry photographs that

1153

00:50:58,480 --> 00:50:56,930

we get you know passed around and and

1154

00:51:01,300 --> 00:50:58,490

that didn't help us to understand them

1155

00:51:03,100 --> 00:51:01,310

at all you know despite thousands and

1156

00:51:07,540 --> 00:51:03,110

thousands of photographs that people

1157

00:51:09,370 --> 00:51:07,550

have so it's it's interesting to see

1158

00:51:11,140 --> 00:51:09,380

that we live in interesting times and

1159

00:51:14,980 --> 00:51:11,150

I'm hoping that we can learn more about

1160

00:51:16,690 --> 00:51:14,990

what they're about and our tools can

1161

00:51:19,630 --> 00:51:16,700

help us I guess if you would get the

1162

00:51:22,240 --> 00:51:19,640

data to do science if you would well one

1163

00:51:26,980 --> 00:51:22,250

possible workaround that's been put out

1164

00:51:29,980 --> 00:51:26,990

there by dr. Q BRE is

1165

00:51:32,740 --> 00:51:29,990

the Alcubierre e bubble and basically

1166

00:51:35,050 --> 00:51:32,750

that might be a workaround for the space

1167

00:51:38,260 --> 00:51:35,060

time travel and the g-force problem and

1168

00:51:40,540 --> 00:51:38,270

things like that but according him the

1169

00:51:42,010 --> 00:51:40,550

basic idea can be more easily understood

1170

00:51:43,960 --> 00:51:42,020

if we think for a moment in the

1171

00:51:46,510 --> 00:51:43,970

inflationary phase of the early universe

1172

00:51:49,720 --> 00:51:46,520

and consider the relative speed of

1173

00:51:52,210 --> 00:51:49,730

separation of two comoving observers it

1174

00:51:54,430 --> 00:51:52,220

is easy to convince oneself that if we

1175

00:51:57,329 --> 00:51:54,440

define this relative speed as the rate

1176

00:52:00,150 --> 00:51:57,339

of change over our CB as the

1177

00:52:03,299 --> 00:52:00,160

change of proper spatial distance over

1178

00:52:05,219 --> 00:52:03,309

proper time we will obtain a value that

1179

00:52:07,440 --> 00:52:05,229

is much larger than the speed of light

1180

00:52:09,420 --> 00:52:07,450

now this doesn't mean that our observers

1181

00:52:11,849 --> 00:52:09,430

will be traveling faster than light they

1182

00:52:13,979 --> 00:52:11,859

always move inside there look local

1183

00:52:16,499 --> 00:52:13,989

light cones the enormous speed of a

1184

00:52:19,950 --> 00:52:16,509

separation comes from the expansion of

1185

00:52:22,759 --> 00:52:19,960

space-time itself and just throwing that

1186

00:52:26,370 --> 00:52:22,769

out there is a possible explanation for

1187

00:52:29,459 --> 00:52:26,380

traveling great distances in time and

1188

00:52:32,640 --> 00:52:29,469

space traveling you know we're not

1189

00:52:35,279 --> 00:52:32,650

having g-forces have any impact on some

1190

00:52:39,239 --> 00:52:35,289

kind of a living pilot any thoughts on

1191

00:52:42,239 --> 00:52:39,249

all that I suggested once it may be some

1192

00:52:45,839 --> 00:52:42,249

of our images such as possibly with

1193

00:52:49,799 --> 00:52:45,849

laser or something rather than real

1194

00:52:52,650 --> 00:52:49,809

objects yeah there's a little there's

1195

00:52:55,950 --> 00:52:52,660

been speculation about the link like

1196

00:52:59,219 --> 00:52:55,960

what you're saying arena is that there's

1197

00:53:01,499 --> 00:52:59,229

some sort of like guess projection or

1198

00:53:04,620 --> 00:53:01,509

something like a holographic you would

1199

00:53:06,660 --> 00:53:04,630

our greatness tremendous energy that

1200

00:53:08,579 --> 00:53:06,670

would be how a case would be needed as

1201

00:53:10,559 --> 00:53:08,589

well to be able to do that but yet you

1202

00:53:12,539 --> 00:53:10,569

get picked up on radar to at least in

1203

00:53:15,989 --> 00:53:12,549

some places yeah because they would have

1204

00:53:18,269 --> 00:53:15,999

there there also means some objects are

1205

00:53:20,880 --> 00:53:18,279

picked up on radar some are not um and

1206

00:53:22,950 --> 00:53:20,890

you know I'll come back to this because

1207

00:53:23,940 --> 00:53:22,960

as I've given presentations over the

1208

00:53:25,890 --> 00:53:23,950

years I cover all the different

1209

00:53:27,870 --> 00:53:25,900

hypotheses then I come down to the one

1210

00:53:29,549 --> 00:53:27,880

where it's it's a hybrid it's a mixture

1211

00:53:31,920 --> 00:53:29,559

of all of them I mean they're we don't

1212

00:53:33,870 --> 00:53:31,930

know but there could be time-travel

1213

00:53:36,719 --> 00:53:33,880

mixed in with all these other things I

1214

00:53:39,630 --> 00:53:36,729

mean the beings don't look alike you

1215

00:53:41,150 --> 00:53:39,640

know the craft necessarily are a little

1216

00:53:43,589 --> 00:53:41,160

bit different in terms of their

1217

00:53:46,289 --> 00:53:43,599

structures and how they look and we

1218

00:53:49,380 --> 00:53:46,299

don't some disappear and appear out of

1219

00:53:51,049 --> 00:53:49,390

nowhere is that cloaking or is that

1220

00:53:54,059 --> 00:53:51,059

something where they're moving through

1221

00:53:58,410 --> 00:53:54,069

again time and space or manipulating it

1222

00:54:00,569 --> 00:53:58,420

in some way it's just we get into the

1223

00:54:02,700 --> 00:54:00,579

point where it's like how do we think

1224

00:54:05,160 --> 00:54:02,710

then you know you have landings and then

1225

00:54:07,709 --> 00:54:05,170

you have impacts to the landings and I'm

1226

00:54:11,310 --> 00:54:07,719

sad to see that we lost Ted Phillips

1227

00:54:14,760 --> 00:54:11,320

here with the past week he had document

1228

00:54:16,890 --> 00:54:14,770

over 4,000 cases of of landings that

1229

00:54:20,850 --> 00:54:16,900

have happened more physical evidence was

1230

00:54:23,220 --> 00:54:20,860

present but I mean so you have a mixture

1231

00:54:27,210 --> 00:54:23,230

of both physical objects and sometimes

1232

00:54:27,810 --> 00:54:27,220

not physical objects and what does that

1233

00:54:32,760 --> 00:54:27,820

mean

1234

00:54:34,920 --> 00:54:32,770

I don't know how do we all feel about

1235

00:54:37,440 --> 00:54:34,930

because talking about the specific nuts

1236

00:54:39,990 --> 00:54:37,450

and bolts of the actual craft I think

1237

00:54:42,570 --> 00:54:40,000

has one thing and and Mike fully respect

1238

00:54:44,640 --> 00:54:42,580

your your work and and figuring that

1239

00:54:47,220 --> 00:54:44,650

stuff out but on the aliens themselves

1240

00:54:49,470 --> 00:54:47,230

the actual you know contact that people

1241

00:54:51,900 --> 00:54:49,480

have had and and as well you know

1242

00:54:53,520 --> 00:54:51,910

everything like the the actual being

1243

00:54:55,620 --> 00:54:53,530

taking on board and seen all the

1244

00:54:58,410 --> 00:54:55,630

different types of aliens everything

1245

00:55:01,200 --> 00:54:58,420

from the greys to the Nordics and and

1246

00:55:04,770 --> 00:55:01,210

you know everything that goes in between

1247

00:55:06,810 --> 00:55:04,780

there how do we relate all of that and

1248

00:55:09,690 --> 00:55:06,820

all the technical stuff as well is that

1249

00:55:12,030 --> 00:55:09,700

something that any of you actually put

1250

00:55:16,290 --> 00:55:12,040

time and thought into as well and you're

1251
00:55:22,620 --> 00:55:16,300
in your studies they can make us see

1252
00:55:25,530 --> 00:55:22,630
anything they want us to see dr. masters

1253
00:55:27,300 --> 00:55:25,540
you still with us yeah I just I was

1254
00:55:29,470 --> 00:55:27,310
trying to back away for a little bit

1255
00:55:34,430 --> 00:55:29,480
there so that's get a little too talky

1256
00:55:39,740 --> 00:55:36,840
it's interesting Mike because that's one

1257
00:55:44,430 --> 00:55:39,750
part of the book that I really loved

1258
00:55:49,920 --> 00:55:44,440
will you talk about anal probes and that

1259
00:55:59,010 --> 00:55:49,930
came out wrong but in the picture book

1260
00:56:00,960 --> 00:55:59,020
the original draft but the part that I

1261
00:56:04,350 --> 00:56:00,970
really like of that is the fact that you

1262
00:56:06,360 --> 00:56:04,360
go into the the point that you know we

1263
00:56:10,110 --> 00:56:06,370

are coming back from the future and we

1264

00:56:12,510 --> 00:56:10,120

need to do some kind of analysis of the

1265

00:56:14,960 --> 00:56:12,520

human body and everything from our

1266

00:56:17,640 --> 00:56:14,970

digestive system and what have you that

1267

00:56:19,770 --> 00:56:17,650

in this current day right now one of the

1268

00:56:21,990 --> 00:56:19,780

best ways that we can figure that out

1269

00:56:23,790 --> 00:56:22,000

and even when we find archaeological

1270

00:56:24,400 --> 00:56:23,800

sites where there are mummies and

1271

00:56:26,200 --> 00:56:24,410

what-have-you

1272

00:56:28,330 --> 00:56:26,210

animals that we need to look at the very

1273

00:56:31,210 --> 00:56:28,340

first thing we do is go for the feces

1274

00:56:32,680 --> 00:56:31,220

and look at what bacteria was or is in

1275

00:56:33,880 --> 00:56:32,690

the feces and what have you so it makes

1276

00:56:38,200 --> 00:56:33,890

a lot of sense

1277

00:56:39,760 --> 00:56:38,210

all of a sudden these you know a neural

1278

00:56:41,530 --> 00:56:39,770

probes are there for a reason rather

1279

00:56:42,490 --> 00:56:41,540

than just the aliens come in and have

1280

00:56:45,640 --> 00:56:42,500

good luck

1281

00:56:48,010 --> 00:56:45,650

I was recently in LA and I met with a

1282

00:56:50,110 --> 00:56:48,020

producer who's who was interested in

1283

00:56:52,810 --> 00:56:50,120

this and had been anally probed as a

1284

00:56:55,290 --> 00:56:52,820

young child for a long time and kept

1285

00:56:57,610 --> 00:56:55,300

asking his parents as he got older like

1286

00:57:00,160 --> 00:56:57,620

mom what was with all the butt stuff

1287

00:57:01,540 --> 00:57:00,170

when I was a kid and and she's like I

1288

00:57:02,830 --> 00:57:01,550

have no idea what you're talking about

1289

00:57:05,170 --> 00:57:02,840

but that's something that really

1290

00:57:06,940 --> 00:57:05,180

impacted him is just being violated in

1291

00:57:08,770 --> 00:57:06,950

that way because anybody sticking

1292

00:57:11,260 --> 00:57:08,780

something in your bum is definitely

1293

00:57:13,930 --> 00:57:11,270

gonna shock you and make you feel

1294

00:57:15,880 --> 00:57:13,940

violated but yeah he to reading the book

1295

00:57:18,220 --> 00:57:15,890

he was like you know if that's the case

1296

00:57:20,110 --> 00:57:18,230

if it is us they're collecting data it

1297

00:57:22,480 --> 00:57:20,120

still sucks but I feel a little bit

1298

00:57:24,300 --> 00:57:22,490

better about it I guess um but you're

1299

00:57:27,160 --> 00:57:24,310

right like when we find coprolites just

1300

00:57:29,590 --> 00:57:27,170

preserve turds for lack of a better word

1301

00:57:30,790 --> 00:57:29,600

we learned so much from that information

1302

00:57:33,220 --> 00:57:30,800

that's that's how we know that

1303

00:57:35,260 --> 00:57:33,230

Neanderthals consumed upwards of 7,000

1304

00:57:38,050 --> 00:57:35,270

calories per day of mostly mean is

1305

00:57:40,480 --> 00:57:38,060

because we broke down the chemical

1306

00:57:42,400 --> 00:57:40,490

composition of their poop and yeah

1307

00:57:43,870 --> 00:57:42,410

there's many things about the phenomenon

1308

00:57:45,730 --> 00:57:43,880

that are like that and I would

1309

00:57:48,040 --> 00:57:45,740

definitely agree with rich too that I

1310

00:57:49,420 --> 00:57:48,050

tell my students this all the time when

1311

00:57:51,330 --> 00:57:49,430

we were looking at various theories

1312

00:57:53,080 --> 00:57:51,340

about for instance the Out of Africa

1313

00:57:55,690 --> 00:57:53,090

hypothesis or the multi-regional

1314

00:57:57,300 --> 00:57:55,700

hypothesis how we developed into

1315

00:57:59,740 --> 00:57:57,310

anatomically modern humans is that

1316

00:58:01,480 --> 00:57:59,750

anytime someone presents something as

1317

00:58:04,720 --> 00:58:01,490

black or white it's almost always the

1318

00:58:06,550 --> 00:58:04,730

gray area in between and I think if this

1319

00:58:09,630 --> 00:58:06,560

phenomenon is the same thing I think as

1320

00:58:13,060 --> 00:58:09,640

as dr. Scott pointed out it's the the

1321

00:58:15,490 --> 00:58:13,070

images that they convey to us mentally

1322

00:58:17,760 --> 00:58:15,500

telepathically I think there is probably

1323

00:58:20,260 --> 00:58:17,770

some likelihood of an extraterrestrial

1324

00:58:22,450 --> 00:58:20,270

presence in some capacity I think a lot

1325

00:58:24,700 --> 00:58:22,460

of its AI obviously I think a lot of its

1326

00:58:26,830 --> 00:58:24,710

time travel in human evolution so we

1327

00:58:28,810 --> 00:58:26,840

should absolutely be considering all of

1328

00:58:30,490 --> 00:58:28,820

these things because we don't know and

1329

00:58:35,680 --> 00:58:30,500

anybody that claims that they have all

1330

00:58:36,900 --> 00:58:35,690

the answers is just full of [h__h] needs

1331

00:58:39,630 --> 00:58:36,910

to be probed

1332

00:58:41,040 --> 00:58:39,640

yeah gosh should a probe I was just

1333

00:58:56,790 --> 00:58:41,050

reminded that I got my call for my

1334

00:58:58,920 --> 00:58:56,800

colonoscopy set up next month all right

1335

00:59:00,540 --> 00:58:58,930

getting back to the stealthy stuff and

1336

00:59:02,640 --> 00:59:00,550

rich you work for the Defense Department

1337

00:59:05,010 --> 00:59:02,650

I think it's kind of interesting there

1338

00:59:07,770 --> 00:59:05,020

was a lot of talk obviously about the a

1339

00:59:10,980 --> 00:59:07,780

tip program getting 22 million dollars

1340

00:59:14,430 --> 00:59:10,990

over five years for their UFO study

1341

00:59:18,800 --> 00:59:14,440

there was a study commissioned by the US

1342

00:59:21,240 --> 00:59:18,810

Navy with a Duke University to study and

1343

00:59:24,000 --> 00:59:21,250

cephalopods and their ability which is

1344

00:59:26,070 --> 00:59:24,010

really uncanny I advise that anybody go

1345

00:59:28,320 --> 00:59:26,080

and go check out some YouTube videos and

1346

00:59:31,470 --> 00:59:28,330

you see these critters in action where

1347

00:59:33,090 --> 00:59:31,480

they can they camouflage incredibly well

1348

00:59:37,650 --> 00:59:33,100

they can actually look at their

1349

00:59:40,110 --> 00:59:37,660

surroundings and they've got dies within

1350

00:59:41,640 --> 00:59:40,120

their skin these little sacs and they

1351
00:59:43,890 --> 00:59:41,650
move it around and they can literally

1352
00:59:46,590 --> 00:59:43,900
within a matter of seconds literally

1353
00:59:51,030 --> 00:59:46,600
copy the background in their natural

1354
00:59:54,000 --> 00:59:51,040
camouflage is absolutely uncanny and and

1355
00:59:56,960 --> 00:59:54,010
also there's another example with the

1356
00:59:59,310 --> 00:59:56,970
dolphins they've got a separate organ

1357
01:00:02,100 --> 00:59:59,320
where they can actually shoot out these

1358
01:00:04,500 --> 01:00:02,110
sound waves and they can see potential

1359
01:00:07,080 --> 01:00:04,510
food that's hiding underneath the sand

1360
01:00:10,950 --> 01:00:07,090
and you know on the ocean floor I think

1361
01:00:12,870 --> 01:00:10,960
that's really amazing capability and dr.

1362
01:00:15,540 --> 01:00:12,880
masters let me ask you about this I mean

1363
01:00:18,540 --> 01:00:15,550

what do you think of all that and what

1364

01:00:21,060 --> 01:00:18,550

do you think is possible as could can

1365

01:00:23,120 --> 01:00:21,070

humans develop but you know an extra

1366

01:00:26,940 --> 01:00:23,130

organ or something along those lines to

1367

01:00:28,980 --> 01:00:26,950

you know improve their psychic ability

1368

01:00:32,280 --> 01:00:28,990

for example something like that is that

1369

01:00:33,900 --> 01:00:32,290

kind of thing possible yeah I think it's

1370

01:00:35,520 --> 01:00:33,910

unfortunate too that Reese wasn't able

1371

01:00:40,200 --> 01:00:35,530

to link up because I've I've heard him

1372

01:00:42,150 --> 01:00:40,210

talk about the the octopi a lot and you

1373

01:00:46,890 --> 01:00:42,160

guys Leon have talked about that on your

1374

01:00:49,390 --> 01:00:46,900

show quite a few times there's a lot of

1375

01:00:51,970 --> 01:00:49,400

theories out there that they

1376

01:00:53,710 --> 01:00:51,980

truly aliens living amongst us that I

1377

01:00:57,610 --> 01:00:53,720

mean there's people that go as far as

1378

01:01:01,030 --> 01:00:57,620

explain that the only way that you can

1379

01:01:03,160 --> 01:01:01,040

explain how cephalopods actually got

1380

01:01:06,190 --> 01:01:03,170

here on earth is through some kind of

1381

01:01:09,070 --> 01:01:06,200

meteors you know some organism that came

1382

01:01:11,470 --> 01:01:09,080

from outer space because it's just

1383

01:01:13,840 --> 01:01:11,480

really hard to prove their lineage back

1384

01:01:15,220 --> 01:01:13,850

through through time through fossils and

1385

01:01:17,050 --> 01:01:15,230

what-have-you sake they just turned up

1386

01:01:21,190 --> 01:01:17,060

one day with these incredible abilities

1387

01:01:25,330 --> 01:01:21,200

that nobody else has you know they're

1388

01:01:27,790 --> 01:01:25,340

incredibly smart yeah and their DNA is

1389

01:01:29,080 --> 01:01:27,800

really divergent from our own and and

1390

01:01:31,870 --> 01:01:29,090

yeah these abilities that they haven't

1391

01:01:33,280 --> 01:01:31,880

and we could absolutely develop things

1392

01:01:34,840 --> 01:01:33,290

and coming back to what we were talking

1393

01:01:37,060 --> 01:01:34,850

about earlier with the question of

1394

01:01:39,670 --> 01:01:37,070

whether this telepathic ability is is

1395

01:01:42,100 --> 01:01:39,680

some sort of brain to brain interface or

1396

01:01:46,330 --> 01:01:42,110

it's just a conscious connection and an

1397

01:01:48,760 --> 01:01:46,340

energy exchange if there is a part of

1398

01:01:51,670 --> 01:01:48,770

our brain that allows us to do that it

1399

01:01:53,170 --> 01:01:51,680

likely already exists in our and as part

1400

01:01:56,860 --> 01:01:53,180

of our cerebrum most likely in our

1401

01:02:00,760 --> 01:01:56,870

neocortex that just develops further to

1402

01:02:03,850 --> 01:02:00,770

accommodate that ability but but yeah

1403

01:02:06,970 --> 01:02:03,860

there there are other organs that wax

1404

01:02:08,770 --> 01:02:06,980

and wane they you know we're probably

1405

01:02:10,900 --> 01:02:08,780

not likely in the near future at least

1406

01:02:13,810 --> 01:02:10,910

to just all of a sudden sprout some new

1407

01:02:16,420 --> 01:02:13,820

organ especially because a mutation that

1408

01:02:18,580 --> 01:02:16,430

would have to take place for that to

1409

01:02:20,920 --> 01:02:18,590

happen wouldn't necessarily be selected

1410

01:02:23,080 --> 01:02:20,930

for since we don't have natural

1411

01:02:25,570 --> 01:02:23,090

selection in the same sense we're more

1412

01:02:28,630 --> 01:02:25,580

or less just this giant interbreeding

1413

01:02:30,430 --> 01:02:28,640

genetic drift population where we're not

1414

01:02:32,470 --> 01:02:30,440

selecting for certain traits or

1415

01:02:35,410 --> 01:02:32,480

selecting against certain traits in the

1416

01:02:38,170 --> 01:02:35,420

same way but there's absolutely the

1417

01:02:40,180 --> 01:02:38,180

possibility that specific organs that we

1418

01:02:42,670 --> 01:02:40,190

have now could be repurposed or could be

1419

01:02:46,870 --> 01:02:42,680

expanded in order to facilitate some of

1420

01:02:50,410 --> 01:02:46,880

these abilities well we do experiments

1421

01:02:52,600 --> 01:02:50,420

on animals where we effect particularly

1422

01:02:56,340 --> 01:02:52,610

put electrodes in and affect particular

1423

01:02:58,900 --> 01:02:56,350

brain cells and things happen and to

1424

01:03:03,160 --> 01:02:58,910

things that are advanced our brain may

1425

01:03:06,849 --> 01:03:03,170

be just as simple as other brains looked

1426

01:03:11,260 --> 01:03:06,859

it's from you know smaller animals with

1427

01:03:13,030 --> 01:03:11,270

smaller brains yeah absolutely and if we

1428

01:03:16,569 --> 01:03:13,040

can manipulate them I think I talked

1429

01:03:19,030 --> 01:03:16,579

about one study in my book about a dolls

1430

01:03:22,210 --> 01:03:19,040

Raleigh rat or something where we're

1431

01:03:25,240 --> 01:03:22,220

able to make it move its tail with us

1432

01:03:28,270 --> 01:03:25,250

thinking about it we collect in think

1433

01:03:30,160 --> 01:03:28,280

what's it called encephalo gram EEG and

1434

01:03:32,609 --> 01:03:30,170

then the information that comes out of

1435

01:03:35,740 --> 01:03:32,619

that is sent through a third party

1436

01:03:37,960 --> 01:03:35,750

medium and then causes that rat to move

1437

01:03:39,339 --> 01:03:37,970

it sit still and obviously if we're

1438

01:03:40,870 --> 01:03:39,349

talking about these beans that are far

1439

01:03:42,970 --> 01:03:40,880

more advanced than us in the distant

1440

01:03:45,970 --> 01:03:42,980

future if we're doing these things now

1441

01:03:47,319 --> 01:03:45,980

in a very very primitive form it's quite

1442

01:03:50,500 --> 01:03:47,329

possible that in the distant future

1443

01:03:53,559 --> 01:03:50,510

we'll have developed that technology to

1444

01:03:55,599 --> 01:03:53,569

the extent that we can manipulate their

1445

01:03:57,339 --> 01:03:55,609

brains will be our brains I guess in

1446

01:04:01,150 --> 01:03:57,349

this context in all of these ways that

1447

01:04:03,730 --> 01:04:01,160

we we see today and another theory

1448

01:04:07,299 --> 01:04:03,740

regarding a potential interstellar

1449

01:04:10,000 --> 01:04:07,309

travel or time travel going that back

1450

01:04:13,839 --> 01:04:10,010

and forth is the concept of wormholes

1451

01:04:16,630 --> 01:04:13,849

and I was a traversable wormholes where

1452

01:04:18,460 --> 01:04:16,640

we can apparently jump into the throat

1453

01:04:20,859 --> 01:04:18,470

of a wormhole one end and not come out

1454

01:04:23,200 --> 01:04:20,869

the other end maybe in a different part

1455

01:04:25,150 --> 01:04:23,210

of the galaxy or in roughly the same

1456

01:04:27,160 --> 01:04:25,160

neighborhood within the galaxy but in a

1457

01:04:31,620 --> 01:04:27,170

different time and I was wondering if

1458

01:04:37,990 --> 01:04:34,660

think that that goes part and parcel

1459

01:04:39,520 --> 01:04:38,000

with the AI the Alcubierre drive I think

1460

01:04:43,120 --> 01:04:39,530

that the idea that was that you're

1461

01:04:45,670 --> 01:04:43,130

manipulating the forward motion of the

1462

01:04:48,280 --> 01:04:45,680

craft by basically creating a wormhole

1463

01:04:49,960 --> 01:04:48,290

in front of the craft if I if I'm

1464

01:04:52,349 --> 01:04:49,970

correct about that I recall a

1465

01:04:58,539 --> 01:04:52,359

presentation that dr. Eric Davis gave

1466

01:05:01,599 --> 01:04:58,549

back in 2013 in MUFON and it was it was

1467

01:05:05,020 --> 01:05:01,609

talking about you having a basically a

1468

01:05:07,870 --> 01:05:05,030

craft that would use a Alcubierre drive

1469

01:05:11,049 --> 01:05:07,880

and you know altering space in front of

1470

01:05:12,880 --> 01:05:11,059

it and then popping through that through

1471

01:05:16,750 --> 01:05:12,890

a wormhole

1472

01:05:18,850 --> 01:05:16,760

and then being able to get to the other

1473

01:05:22,000 --> 01:05:18,860

side of the universe if you would or in

1474

01:05:23,980 --> 01:05:22,010

a different even time but again it very

1475

01:05:26,530 --> 01:05:23,990

speculative I mean I don't know that we

1476

01:05:28,570 --> 01:05:26,540

got it or anywhere staring something

1477

01:05:30,550 --> 01:05:28,580

like that it's just all hypothetical

1478

01:05:33,840 --> 01:05:30,560

well yeah yeah that's that's what we're

1479

01:05:36,580 --> 01:05:33,850

here for basically yeah and so you know

1480

01:05:39,970 --> 01:05:36,590

concepts are out there like left and

1481

01:05:42,450 --> 01:05:39,980

right in terms of propulsion systems and

1482

01:05:48,220 --> 01:05:42,460

ability to manipulate the space-time

1483

01:05:50,620 --> 01:05:48,230

metric if you would the there I know

1484

01:05:54,370 --> 01:05:50,630

that how put off and then we're working

1485

01:05:58,510 --> 01:05:54,380

on the what they called the polarizable

1486

01:06:02,440 --> 01:05:58,520

vacuum around a craft or an object and

1487

01:06:07,720 --> 01:06:02,450

the you it's kind of consistent with

1488

01:06:10,300 --> 01:06:07,730

that patent that Salvator paiace guess

1489

01:06:13,840 --> 01:06:10,310

as they say his name from the Navy had

1490

01:06:16,150 --> 01:06:13,850

published with the patents that he put

1491

01:06:18,820 --> 01:06:16,160

out that looked like the the dick tack

1492

01:06:21,190 --> 01:06:18,830

so I they're the whole concept there was

1493

01:06:25,360 --> 01:06:21,200

again some sort of a means of being able

1494

01:06:29,410 --> 01:06:25,370

to create if you would like a bubble if

1495

01:06:32,440 --> 01:06:29,420

you would around the craft you're in and

1496

01:06:36,400 --> 01:06:32,450

then somehow be able to manipulate the

1497

01:06:39,490 --> 01:06:36,410

space-time metric if you would they're

1498

01:06:41,440 --> 01:06:39,500

calling that and then you're able to

1499

01:06:45,750 --> 01:06:41,450

slip stream through of not having a kind

1500

01:06:49,600 --> 01:06:45,760

of mass and there's all kinds of like

1501
01:06:52,390 --> 01:06:49,610
ideas one of my favorite books growing

1502
01:06:55,240 --> 01:06:52,400
up was won by Kip Thorne he's a

1503
01:06:57,280 --> 01:06:55,250
physicist I think he was at Caltech or

1504
01:06:59,560 --> 01:06:57,290
somewhere in California but he just won

1505
01:07:02,110 --> 01:06:59,570
a Nobel Prize for his work in detecting

1506
01:07:04,900 --> 01:07:02,120
gravity waves the name of the book was

1507
01:07:07,750 --> 01:07:04,910
black holes and time warps and he's sort

1508
01:07:09,940 --> 01:07:07,760
of the main proponent of the wormhole

1509
01:07:12,190 --> 01:07:09,950
as a means with which to traverse vast

1510
01:07:14,500 --> 01:07:12,200
distances and he was mostly looking at

1511
01:07:18,070 --> 01:07:14,510
it in this context and he was

1512
01:07:21,310 --> 01:07:18,080
commissioned as a consultant for contact

1513
01:07:23,560 --> 01:07:21,320

Carl Sagan's book and then film and and

1514

01:07:26,650 --> 01:07:23,570

he points out a number of problems with

1515

01:07:29,110 --> 01:07:26,660

it mostly related to keeping it open

1516

01:07:31,150 --> 01:07:29,120

a massive gravitational forces that

1517

01:07:33,910 --> 01:07:31,160

would be sucking everything and the

1518

01:07:35,920 --> 01:07:33,920

tidal forces that would rip you apart if

1519

01:07:38,740 --> 01:07:35,930

it takes a singularity to create this

1520

01:07:42,760 --> 01:07:38,750

thing how you pass through an infinitely

1521

01:07:44,260 --> 01:07:42,770

dense singularity and and all of the the

1522

01:07:46,300 --> 01:07:44,270

problems that would go along with that

1523

01:07:48,010 --> 01:07:46,310

and then he and his grad students

1524

01:07:50,500 --> 01:07:48,020

proposed what what they referred to as

1525

01:07:52,390 --> 01:07:50,510

exotic matter as a way of propping these

1526

01:07:54,520 --> 01:07:52,400

open so it's it's speculative it's

1527

01:07:57,520 --> 01:07:54,530

theoretical but if if we were able to

1528

01:07:59,380 --> 01:07:57,530

find some force that repelled that

1529

01:08:01,480 --> 01:07:59,390

constrictive force of gravity to keep

1530

01:08:03,220 --> 01:08:01,490

the wormhole open in these two different

1531

01:08:07,390 --> 01:08:03,230

places then potentially we could use

1532

01:08:10,240 --> 01:08:07,400

that for interstellar travel I do know

1533

01:08:12,430 --> 01:08:10,250

that that Sagan and that Thorne did

1534

01:08:14,320 --> 01:08:12,440

communicate a bit and I did read an

1535

01:08:16,060 --> 01:08:14,330

interview with Thorne where he had de

1536

01:08:18,460 --> 01:08:16,070

mentioned that the one thing that Sagan

1537

01:08:21,850 --> 01:08:18,470

brought up to him was that while it's

1538

01:08:23,830 --> 01:08:21,860

important to try to figure out what is

1539

01:08:26,370 --> 01:08:23,840

possible for the most advanced

1540

01:08:30,580 --> 01:08:26,380

civilization it's also important to

1541

01:08:33,790 --> 01:08:30,590

consider what is impossible even for the

1542

01:08:36,370 --> 01:08:33,800

most advanced civilization and I think

1543

01:08:38,590 --> 01:08:36,380

that's a really interesting idea some

1544

01:08:40,920 --> 01:08:38,600

other ideas have gotten out there doctor

1545

01:08:44,740 --> 01:08:40,930

Freeman Dyson had recently passed away

1546

01:08:47,050 --> 01:08:44,750

earlier rich you had mentioned that Ted

1547

01:08:48,550 --> 01:08:47,060

Phillips but dr. Dyson passed away

1548

01:08:51,700 --> 01:08:48,560

within the last couple of weeks or so

1549

01:08:55,090 --> 01:08:51,710

and he was famous for his Dyson Sphere

1550

01:08:57,250 --> 01:08:55,100

idea and some of those more advanced

1551

01:08:59,350 --> 01:08:57,260

ideas anyone have any thoughts on those

1552

01:09:00,970 --> 01:08:59,360

like that the Dyson Sphere and some of

1553

01:09:03,400 --> 01:09:00,980

the others I know that was it was

1554

01:09:06,010 --> 01:09:03,410

brought up that there was at least a

1555

01:09:08,230 --> 01:09:06,020

possibility that tabbies star might be a

1556

01:09:11,020 --> 01:09:08,240

evidence of a Dyson Sphere that didn't

1557

01:09:12,400 --> 01:09:11,030

prove to be the case but that is an idea

1558

01:09:16,120 --> 01:09:12,410

that has at least gotten some traction

1559

01:09:19,240 --> 01:09:16,130

in serious scientific circles so just

1560

01:09:23,050 --> 01:09:19,250

super quickly back to the before we move

1561

01:09:27,280 --> 01:09:23,060

on from the wormhole concept I read

1562

01:09:30,850 --> 01:09:27,290

recently that a Harvard physicist Daniel

1563

01:09:33,310 --> 01:09:30,860

Jeffrey's I think was actually proved

1564

01:09:36,370 --> 01:09:33,320

that you can actually be plausible for

1565

01:09:38,830 --> 01:09:36,380

men to make a wormhole but in the in the

1566

01:09:39,640 --> 01:09:38,840

same sentence he also proved through

1567

01:09:42,249 --> 01:09:39,650

that that

1568

01:09:44,289 --> 01:09:42,259

wormhole would actually be a lot slower

1569

01:09:51,640 --> 01:09:44,299

to go through than just going there

1570

01:09:54,099 --> 01:09:51,650

directly undone himself but yeah but the

1571

01:09:56,970 --> 01:09:54,109

the spirit I haven't heard much I'd love

1572

01:10:01,540 --> 01:10:00,070

well I yeah I would say within the last

1573

01:10:03,459 --> 01:10:01,550

couple of years I there is something

1574

01:10:07,410 --> 01:10:03,469

called cabby star you could search that

1575

01:10:10,419 --> 01:10:07,420

out pretty easily and where they had

1576

01:10:13,720 --> 01:10:10,429

discovered a star that was a dimming on

1577

01:10:15,640 --> 01:10:13,730

a consistent basis and and now they seem

1578

01:10:18,220 --> 01:10:15,650

to be of the opinion after some closer

1579

01:10:21,939 --> 01:10:18,230

observation that it was in fact just

1580

01:10:23,680 --> 01:10:21,949

some some stellar dust going around the

1581

01:10:25,120 --> 01:10:23,690

star that was causing that but at least

1582

01:10:28,060 --> 01:10:25,130

initially they thought that there was a

1583

01:10:31,630 --> 01:10:28,070

chance that it might be evidence of a

1584

01:10:34,870 --> 01:10:31,640

Dyson Sphere well they've been joking

1585

01:10:38,380 --> 01:10:34,880

around about the star what they call

1586

01:10:43,240 --> 01:10:38,390

Betelgeuse and Ryan that it's been

1587

01:10:45,130 --> 01:10:43,250

varying in light intensity and that some

1588

01:10:48,610 --> 01:10:45,140

people joke maybe that's a Dyson Sphere

1589

01:10:51,550 --> 01:10:48,620

too and also that it might be going

1590

01:10:54,610 --> 01:10:51,560

supernova yeah they've said that too

1591

01:10:56,410 --> 01:10:54,620

it's it's been variable all along but I

1592

01:10:58,260 --> 01:10:56,420

guess it's been varying more than it

1593

01:11:02,350 --> 01:10:58,270

usually does

1594

01:11:04,000 --> 01:11:02,360

recently definitely something to keep an

1595

01:11:05,830 --> 01:11:04,010

eye on if it does go supernova but we

1596

01:11:08,020 --> 01:11:05,840

don't we don't see those too often so

1597

01:11:09,939 --> 01:11:08,030

that would be that would be a real

1598

01:11:12,669 --> 01:11:09,949

interesting astronomical experience if

1599

01:11:23,860 --> 01:11:12,679

it happens hmm it's a pretty cool star

1600

01:11:25,090 --> 01:11:23,870

too and it's very big yeah you wouldn't

1601
01:11:26,680 --> 01:11:25,100
want to be in the neighborhood when that

1602
01:11:31,570 --> 01:11:26,690
goes off if it does there are a lot of

1603
01:11:34,649 --> 01:11:31,580
times and moving along another theory

1604
01:11:38,500 --> 01:11:34,659
that has gotten some increasing

1605
01:11:40,390 --> 01:11:38,510
attention would be the the simulation

1606
01:11:42,580 --> 01:11:40,400
theory this this one goes a little bit

1607
01:11:44,830 --> 01:11:42,590
that closer to our you know our our very

1608
01:11:47,620 --> 01:11:44,840
existence I personally find it kind of

1609
01:11:50,410 --> 01:11:47,630
fascinating and it would they would seem

1610
01:11:52,240 --> 01:11:50,420
to explain all the weird phenomena that

1611
01:11:55,330 --> 01:11:52,250
go on because all

1612
01:11:58,840 --> 01:11:55,340
really is at its core is just you know

1613
01:12:01,780 --> 01:11:58,850

coders who want to insert a few Easter

1614

01:12:03,820 --> 01:12:01,790

eggs in our existence just to drive us

1615

01:12:06,190 --> 01:12:03,830

nuts I suppose and see what the reaction

1616

01:12:08,920 --> 01:12:06,200

is but that one's gotten more attention

1617

01:12:13,840 --> 01:12:08,930

and I wonder if anyone has any thoughts

1618

01:12:18,700 --> 01:12:13,850

on all that this theory is second only

1619

01:12:21,790 --> 01:12:18,710

to my favorite Mike P masters theory of

1620

01:12:24,640 --> 01:12:21,800

time travel and the fact that it is just

1621

01:12:27,010 --> 01:12:24,650

it explains so much more than even UFOs

1622

01:12:31,300 --> 01:12:27,020

you APs and aliens it could explain

1623

01:12:33,970 --> 01:12:31,310

everything from ghosts to miracles to

1624

01:12:36,760 --> 01:12:33,980

you know to the everything in the fact

1625

01:12:38,160 --> 01:12:36,770

that if this is all just a simulation

1626

01:12:41,920 --> 01:12:38,170

and if this is just the matrix

1627

01:12:45,040 --> 01:12:41,930

effectively you know and I love the fact

1628

01:12:47,590 --> 01:12:45,050

that the the Bank of America actually

1629

01:12:49,360 --> 01:12:47,600

did a study to try and prove whether

1630

01:12:51,820 --> 01:12:49,370

were in the matrix and they came out I

1631

01:12:53,860 --> 01:12:51,830

think it was over 50% chance of us

1632

01:12:57,310 --> 01:12:53,870

living in the matrix purely by the fact

1633

01:13:00,070 --> 01:12:57,320

that if there is only one original run

1634

01:13:04,060 --> 01:13:00,080

of life and then many multiple millions

1635

01:13:07,440 --> 01:13:04,070

of reruns the the fact that we think

1636

01:13:10,390 --> 01:13:07,450

that we are in the very first original

1637

01:13:13,090 --> 01:13:10,400

concept if you like before all of the

1638

01:13:15,610 --> 01:13:13,100

multiple reruns is actually quite naive

1639

01:13:19,360 --> 01:13:15,620

it's actually far more likely that we're

1640

01:13:22,420 --> 01:13:19,370

statistically part of a re-run of a

1641

01:13:24,760 --> 01:13:22,430

simulation and the fact that they

1642

01:13:27,970 --> 01:13:24,770

even bothered to do that study is it

1643

01:13:30,640 --> 01:13:27,980

fascinates me but the thing that I loved

1644

01:13:34,690 --> 01:13:30,650

about it is the the fact that it's you

1645

01:13:38,860 --> 01:13:34,700

know it's it's you know it explains so

1646

01:13:41,290 --> 01:13:38,870

many different strange things yeah and I

1647

01:13:43,840 --> 01:13:41,300

think you know it's also possible as

1648

01:13:45,670 --> 01:13:43,850

much as I'm disappointed to admit it we

1649

01:13:48,160 --> 01:13:45,680

might not just be in a simulation but we

1650

01:13:49,630 --> 01:13:48,170

might just be a beta test well I'd like

1651

01:13:57,190 --> 01:13:49,640

to get the coder who came up with

1652

01:13:58,750 --> 01:13:57,200

kroehner virus and anal probes perfectly

1653

01:14:01,090 --> 01:13:58,760

great dinner party the other night by

1654

01:14:03,700 --> 01:14:01,100

talking about this theory

1655

01:14:05,370 --> 01:14:03,710

lots of rolling eyes all around me but I

1656

01:14:07,830 --> 01:14:05,380

didn't care

1657

01:14:09,420 --> 01:14:07,840

and and I pointed out of fact that they

1658

01:14:12,510 --> 01:14:09,430

said yeah well then why do so many bad

1659

01:14:15,120 --> 01:14:12,520

things happen and my point was when you

1660

01:14:17,610 --> 01:14:15,130

go to Disneyland which in itself is kind

1661

01:14:19,710 --> 01:14:17,620

of a simulation of life right you're

1662

01:14:21,060 --> 01:14:19,720

going there together to escape real life

1663

01:14:23,790 --> 01:14:21,070

you're going because you want everything

1664

01:14:25,920 --> 01:14:23,800

to be great everything's not lovely

1665

01:14:28,740 --> 01:14:25,930

flowers and butterflies

1666

01:14:31,200 --> 01:14:28,750

there's terrifying rides and jump scares

1667

01:14:34,770 --> 01:14:31,210

and rollercoasters which make you feel

1668

01:14:39,510 --> 01:14:34,780

like you're about to die they we pay to

1669

01:14:45,420 --> 01:14:39,520

have pain and fear inserted into us at

1670

01:14:47,910 --> 01:14:45,430

the happiest place on earth if a coda

1671

01:14:49,800 --> 01:14:47,920

sit now I'm about to put you in now

1672

01:14:51,030 --> 01:14:49,810

you've got the option of leading a

1673

01:14:52,530 --> 01:14:51,040

lovely lovely

1674

01:14:54,780 --> 01:14:52,540

you know Little House on the Prairie

1675

01:14:57,810 --> 01:14:54,790

life here with nothing going wrong

1676

01:14:59,520 --> 01:14:57,820

beautiful existence all we can pit up a

1677

01:15:03,870 --> 01:14:59,530

little bit and put some weird [h__\h] in

1678

01:15:05,490 --> 01:15:03,880

there like you'd be mental to just you

1679

01:15:08,430 --> 01:15:05,500

know not take a little bit of risk

1680

01:15:10,680 --> 01:15:08,440

surely yeah that's a really good way of

1681

01:15:14,250 --> 01:15:10,690

looking at there like that well there's

1682

01:15:17,250 --> 01:15:14,260

no way to really prove that whether we

1683

01:15:19,080 --> 01:15:17,260

are in reality or virtual reality

1684

01:15:21,360 --> 01:15:19,090

because we'd have to get out if we're in

1685

01:15:26,070 --> 01:15:21,370

virtual reality we'd have to get out of

1686

01:15:27,840 --> 01:15:26,080

it to figure out what I mean that was

1687

01:15:29,580 --> 01:15:27,850

the premise behind the matrix that he

1688

01:15:32,160 --> 01:15:29,590

got out and was like oh man this is

1689

01:15:36,720 --> 01:15:32,170

terrible is like weird octopus robots

1690

01:15:38,280 --> 01:15:36,730

attack yeah put me back in and what

1691

01:15:40,800 --> 01:15:38,290

happened to me the other day which I'm

1692

01:15:43,740 --> 01:15:40,810

all the time this is revealing way too

1693

01:15:45,990 --> 01:15:43,750

much but I'm all the time sort of like

1694

01:15:49,230 --> 01:15:46,000

on the hunt for reasons that we're in

1695

01:15:51,900 --> 01:15:49,240

the matrix and it just has a little

1696

01:15:54,960 --> 01:15:51,910

hobby cyber hottie side aside hobby that

1697

01:15:59,910 --> 01:15:54,970

is and the other day I was driving to

1698

01:16:01,500 --> 01:15:59,920

work and the radio was on and I had live

1699

01:16:04,110 --> 01:16:01,510

in New York stirred as many you know

1700

01:16:07,320 --> 01:16:04,120

potholes and bumps and what-have-you and

1701

01:16:10,920 --> 01:16:07,330

my car had a pretty sizeable bump and

1702

01:16:14,040 --> 01:16:10,930

ice where the woman who was talking on

1703

01:16:16,500 --> 01:16:14,050

the radio at the time her voice jumped

1704

01:16:18,750 --> 01:16:16,510

at the exact same point as if she was in

1705

01:16:21,510 --> 01:16:18,760

the car and she was disturbed

1706

01:16:23,010 --> 01:16:21,520

by the fact I went over a pothole and at

1707

01:16:25,260 --> 01:16:23,020

that moment I thought would it be

1708

01:16:28,350 --> 01:16:25,270

interesting if the coders forgot to put

1709

01:16:30,120 --> 01:16:28,360

in the fact on that day that if somebody

1710

01:16:31,740 --> 01:16:30,130

is on the radio they don't get affected

1711

01:16:34,260 --> 01:16:31,750

by a speed bump but if somebody's in the

1712

01:16:36,600 --> 01:16:34,270

car they do and this woman you know it

1713

01:16:39,210 --> 01:16:36,610

was affected by my speed bump purely

1714

01:16:46,650 --> 01:16:39,220

from a coding error so I think I proved

1715

01:16:48,570 --> 01:16:46,660

that guys when you look at the quantum

1716

01:16:51,030 --> 01:16:48,580

the quantum world as compared to the

1717

01:16:53,430 --> 01:16:51,040

Newtonian world because yeah I keep

1718

01:16:55,950 --> 01:16:53,440

bumping into the Newtonian world kind of

1719

01:16:58,100 --> 01:16:55,960

constructed if I tried to think about

1720

01:17:00,540 --> 01:16:58,110

going through like packets of energy

1721

01:17:02,280 --> 01:17:00,550

packets that are you know have no space

1722

01:17:03,900 --> 01:17:02,290

and all those other stuff I'm doing like

1723

01:17:06,750 --> 01:17:03,910

well wait a minute that didn't hurt as

1724

01:17:08,580 --> 01:17:06,760

bad but I still live in a Newtonian

1725

01:17:13,110 --> 01:17:08,590

world where I bumped my head and then

1726

01:17:15,750 --> 01:17:13,120

doggone it hurts you know yeah I

1727

01:17:19,500 --> 01:17:15,760

appreciate I appreciate it rich thanks

1728

01:17:21,210 --> 01:17:19,510

for coming on again you take care it's

1729

01:17:23,520 --> 01:17:21,220

great talking to everybody thanks for

1730

01:17:25,410 --> 01:17:23,530

having me on okay

1731

01:17:27,450 --> 01:17:25,420

dr. masters you have to step away for a

1732

01:17:28,650 --> 01:17:27,460

bit or because we're getting down to the

1733

01:17:30,480 --> 01:17:28,660

point where I think we've covered

1734

01:17:36,140 --> 01:17:30,490

everything unless somebody else has

1735

01:17:41,760 --> 01:17:38,730

would just like to reiterate something I

1736

01:17:45,300 --> 01:17:41,770

guess if I sure if I could be so brazen

1737

01:17:47,850 --> 01:17:45,310

as to do so that that I think there's a

1738

01:17:51,600 --> 01:17:47,860

lot of unnecessary infighting and

1739

01:17:53,430 --> 01:17:51,610

contention and and it's not necessarily

1740

01:17:54,960 --> 01:17:53,440

I kind of expected it more for my

1741

01:17:57,750 --> 01:17:54,970

academic colleagues when I published

1742

01:18:01,020 --> 01:17:57,760

this book but I found so much in the UFO

1743

01:18:02,880 --> 01:18:01,030

community that's and I it was shocking

1744

01:18:04,290 --> 01:18:02,890

to me at first I've sort of come to

1745

01:18:06,090 --> 01:18:04,300

understand it more and it's the same

1746

01:18:08,670 --> 01:18:06,100

thing that exists within academia too

1747

01:18:11,280 --> 01:18:08,680

but I think I think it's important that

1748

01:18:12,990 --> 01:18:11,290

we all maintain an open mind and look at

1749

01:18:16,050 --> 01:18:13,000

everything critically not just accept

1750

01:18:18,360 --> 01:18:16,060

whatever is is forced upon us but but

1751

01:18:20,280 --> 01:18:18,370

that were also cordial and collaborative

1752

01:18:21,600 --> 01:18:20,290

with each other and aren't just at each

1753

01:18:24,690 --> 01:18:21,610

other's throats because we'll get a lot

1754

01:18:26,730 --> 01:18:24,700

farther and and we'll get more pushing

1755

01:18:28,950 --> 01:18:26,740

in the mainstream I think as well if we

1756

01:18:30,540 --> 01:18:28,960

if we do and the show and what you did

1757

01:18:32,299 --> 01:18:30,550

here today is a great example of that

1758

01:18:34,309 --> 01:18:32,309

bringing people onto

1759

01:18:36,409 --> 01:18:34,319

talk about these things and get ideas

1760

01:18:39,500 --> 01:18:36,419

out there and and debate them in very

1761

01:18:41,779 --> 01:18:39,510

cordial ways yeah you know what happens

1762

01:18:44,659 --> 01:18:41,789

though doctor is that when things

1763

01:18:47,659 --> 01:18:44,669

weren't a little slow idle hands are

1764

01:18:50,509 --> 01:18:47,669

kind of the devil's workshop and then

1765

01:18:53,629 --> 01:18:50,519

that is a you know every now I've seen

1766

01:18:56,659 --> 01:18:53,639

it there you know it it it's not all a

1767

01:18:58,879 --> 01:18:56,669

flat line you know and things get busy

1768

01:19:01,339 --> 01:18:58,889

and then things slow up and then when

1769

01:19:03,069 --> 01:19:01,349

things do slow up people tend to start

1770

01:19:05,509 --> 01:19:03,079

picking at each other a little bit and

1771

01:19:08,299 --> 01:19:05,519

that has happened we've even seen it

1772

01:19:11,299 --> 01:19:08,309

over the last two two-and-a-half years

1773

01:19:13,579 --> 01:19:11,309

or so that kind of thing does happen you

1774

01:19:15,500 --> 01:19:13,589

know actually that was one of the ideas

1775

01:19:18,259 --> 01:19:15,510

that I had for putting together this

1776

01:19:19,549 --> 01:19:18,269

show you know sometimes rather than just

1777

01:19:22,549 --> 01:19:19,559

sitting around and picking each other

1778

01:19:24,139 --> 01:19:22,559

let's let's do something like this where

1779

01:19:26,659 --> 01:19:24,149

you know we're we're saying it upfront

1780

01:19:29,119 --> 01:19:26,669

we're just gonna speculate wildly we're

1781

01:19:32,270 --> 01:19:29,129

just going to kick around as many

1782

01:19:34,549 --> 01:19:32,280

different ideas as we can none of us

1783

01:19:36,889 --> 01:19:34,559

know a hundred percent for sure how

1784

01:19:38,979 --> 01:19:36,899

right or how wrong we are on any of this

1785

01:19:41,569 --> 01:19:38,989

stuff but let's just get on and

1786

01:19:44,119 --> 01:19:41,579

speculate as wildly as we can and kick

1787

01:19:48,259 --> 01:19:44,129

around as many out there ideas as we can

1788

01:19:49,699 --> 01:19:48,269

and let's let's just do that and keep

1789

01:19:51,679 --> 01:19:49,709

ourselves occupied with something

1790

01:19:54,500 --> 01:19:51,689

positive and then eventually you know

1791

01:19:57,199 --> 01:19:54,510

well we'll find out about more UFO cases

1792

01:19:59,419 --> 01:19:57,209

and we'll find out more about what the

1793

01:20:01,429 --> 01:19:59,429

government's doing about UFOs that stuff

1794

01:20:03,020 --> 01:20:01,439

is going to come out but I think we've

1795

01:20:04,579 --> 01:20:03,030

seen over the last couple years it's

1796

01:20:07,040 --> 01:20:04,589

going to come out slowly and there were

1797

01:20:10,129 --> 01:20:07,050

gonna be some slow stretches and you're

1798

01:20:12,859 --> 01:20:10,139

just best off recognizing that and as

1799

01:20:14,540 --> 01:20:12,869

best you can kind of step away from the

1800

01:20:16,489 --> 01:20:14,550

kind of negativity that you're talking

1801
01:20:18,559 --> 01:20:16,499
about and you know I'm as guilty as

1802
01:20:21,259 --> 01:20:18,569
anybody else I get involved with it I

1803
01:20:23,419 --> 01:20:21,269
get into flame wars and arguments with

1804
01:20:25,040 --> 01:20:23,429
people over this and that and what all

1805
01:20:28,129 --> 01:20:25,050
else fails I can always argue with my

1806
01:20:30,559 --> 01:20:28,139
co-host chant because you know we you

1807
01:20:34,819 --> 01:20:30,569
know that's all we do is argue basically

1808
01:20:36,679 --> 01:20:34,829
but that it's healthy yeah yeah well I'm

1809
01:20:39,770 --> 01:20:36,689
trying to get her loosen up but we want

1810
01:20:43,579 --> 01:20:39,780
our show to be as funny as the show that

1811
01:20:46,160 --> 01:20:43,589
that that recently on do but I'm evident

1812
01:20:47,870 --> 01:20:46,170
I'm it's been a struggle get

1813
01:20:50,000 --> 01:20:47,880

to loosen up on the show I do have her

1814

01:20:52,130 --> 01:20:50,010

insulting me constantly on Facebook now

1815

01:20:53,630 --> 01:20:52,140

so she's I've gotten her to that point I

1816

01:20:59,950 --> 01:20:53,640

just have to get her to loosen up a

1817

01:21:03,770 --> 01:20:59,960

little bit more on the show I'm sorry

1818

01:21:08,090 --> 01:21:03,780

just gonna say like it's the one thing I

1819

01:21:11,209 --> 01:21:08,100

have to add specifically to to Mike it

1820

01:21:14,060 --> 01:21:11,219

said to the wonderful dr. masters and

1821

01:21:16,310 --> 01:21:14,070

the fact I think he's a genius not just

1822

01:21:18,380 --> 01:21:16,320

because he can pull together all of the

1823

01:21:22,520 --> 01:21:18,390

science around us and put together such

1824

01:21:24,709 --> 01:21:22,530

a fantastic you know case study and you

1825

01:21:27,950 --> 01:21:24,719

know thought-provoking book but he's a

1826
01:21:32,060 --> 01:21:27,960
genius because time is so gonna be on

1827
01:21:35,660 --> 01:21:32,070
his side because in the future if they

1828
01:21:37,550 --> 01:21:35,670
prove that time travel is possible and

1829
01:21:39,200 --> 01:21:37,560
that we start going back in time they're

1830
01:21:41,390 --> 01:21:39,210
gonna look back and go who was the first

1831
01:21:43,490 --> 01:21:41,400
person who really published this idea

1832
01:21:46,520 --> 01:21:43,500
and actually put this out there in a

1833
01:21:48,740 --> 01:21:46,530
very scientific way and he's going to be

1834
01:21:51,770 --> 01:21:48,750
the name that's remembered you know very

1835
01:21:53,570 --> 01:21:51,780
far into the future and if not if it's

1836
01:21:55,850 --> 01:21:53,580
never proven that time travel is

1837
01:21:57,380 --> 01:21:55,860
possible well that's never going to

1838
01:21:59,000 --> 01:21:57,390

happen is it because we're always going

1839

01:22:00,650 --> 01:21:59,010

to be wondering whether or not we can

1840

01:22:03,530 --> 01:22:00,660

time travel and whether or not science

1841

01:22:11,209 --> 01:22:03,540

as they say effectively Mike's never

1842

01:22:12,950 --> 01:22:11,219

going to be proven wrong which to be a

1843

01:22:16,280 --> 01:22:12,960

genius I would have had to consciously

1844

01:22:17,930 --> 01:22:16,290

consider that before doing but is the

1845

01:22:21,080 --> 01:22:17,940

first time that's even crossed my mind

1846

01:22:22,669 --> 01:22:21,090

so or maybe he's already cracked

1847

01:22:27,160 --> 01:22:22,679

time-travel he travelled into the future

1848

01:22:32,630 --> 01:22:30,919

the future I mean people always ask when

1849

01:22:34,520 --> 01:22:32,640

what time period what you want to go

1850

01:22:36,919 --> 01:22:34,530

back to I say I'd screw the past I only

1851
01:22:38,330 --> 01:22:36,929
go to the future and see what happens

1852
01:22:38,959 --> 01:22:38,340
and the time that we don't know about

1853
01:22:41,780 --> 01:22:38,969
already

1854
01:22:44,840 --> 01:22:41,790
I yeah I wouldn't mind going and

1855
01:22:47,209 --> 01:22:44,850
visiting myself as a you know eighth

1856
01:22:52,840 --> 01:22:47,219
grader and give a few tips straighten

1857
01:22:58,250 --> 01:22:56,240
you know I can tell you that I'm pretty

1858
01:22:59,510 --> 01:22:58,260
happy with where I'm at right now so I

1859
01:23:01,550 --> 01:22:59,520
can't complain too much

1860
01:23:03,650 --> 01:23:01,560
everything that went wrong who knows if

1861
01:23:06,050 --> 01:23:03,660
I can go back and fix it I might not be

1862
01:23:09,680 --> 01:23:06,060
where I'm at so you know yeah I'm more

1863
01:23:11,270 --> 01:23:09,690

philosophical well anyone else have

1864

01:23:19,340 --> 01:23:11,280

anything to add before we wrap things up

1865

01:23:22,070 --> 01:23:19,350

I guess not yeah okay well let me thank

1866

01:23:23,530 --> 01:23:22,080

our guests for today dr. Irina Scott

1867

01:23:25,520 --> 01:23:23,540

thanks so much for joining us again

1868

01:23:27,530 --> 01:23:25,530

thanks for having me

1869

01:23:29,930 --> 01:23:27,540

dr. masters thanks so much for joining

1870

01:23:34,280 --> 01:23:29,940

us again absolute lot of fun for sure

1871

01:23:35,630 --> 01:23:34,290

let's thank Leon Kirk back for joining

1872

01:23:41,470 --> 01:23:35,640

us for the first time thank you very

1873

01:23:47,450 --> 01:23:45,410

for future opportunities no no no not at

1874

01:23:51,140 --> 01:23:47,460

all not at all absolutely I definitely

1875

01:23:53,720 --> 01:23:51,150

appreciate the the humor and the great

1876

01:23:56,150 --> 01:23:53,730

questions the great feedback and of

1877

01:23:57,470 --> 01:23:56,160

course the one and only rich Hoffman who

1878

01:24:00,380 --> 01:23:57,480

had to leave us a little early today

1879

01:24:02,930 --> 01:24:00,390

sorry yep thanks for joining us folks so

1880

01:24:08,090 --> 01:24:02,940

we will be back next week with who knows

1881

01:24:10,280 --> 01:24:08,100

what and in the meantime you know just

1882

01:24:14,510 --> 01:24:10,290

take advantage of that social distancing

1883

01:24:16,880 --> 01:24:14,520

I think thanks everybody for joining us
