DISCUSSES THE BALLISTIC MISSILE
EARLY WARNING SYSTEM, THE
DISTANT EARLY WARNING LINE,
PROJECT SPACE TRACK AND UFOS

UFONN
SUNDAY

00:01:04,310 --> 00:00:17,840

[Music]

2
00:01:06,530 --> 00:01:04,320
and good evening from Philadelphia Frank

3
00:01:10,010 --> 00:01:06,540
here with yet another episode a

4
00:01:12,590 --> 00:01:10,020
quarantine episode of UFO news network

5
00:01:15,320 --> 00:01:12,600
Sunday we've got a special guest for you

6
00:01:18,649 --> 00:01:15,330
this evening and let me go over to my

7
00:01:21,320 --> 00:01:18,659
co-host to introduce him chant Hannah as

8
00:01:23,749 --> 00:01:21,330
always chant how are you tonight I'm

9
00:01:25,700 --> 00:01:23,759
doing well Frank thank you so much we

10
00:01:27,620 --> 00:01:25,710
have a wonderful person on the show

11
00:01:29,240 --> 00:01:27,630
tonight he's an iconic researcher

12
00:01:31,790 --> 00:01:29,250
everybody knows him he's also a dear

13
00:01:33,290 --> 00:01:31,800

friend of both of ours Paul Dean I'd

14

00:01:36,320 --> 00:01:33,300

like to go ahead and just give a longer

15

00:01:38,960 --> 00:01:36,330

bio for him because you know he's done

16

00:01:41,840 --> 00:01:38,970

quite a lot of work regarding the topic

17

00:01:44,359 --> 00:01:41,850

of ufology and other topics that are

18

00:01:46,310 --> 00:01:44,369

meaningful to all of us Paul Dean is an

19

00:01:47,990 --> 00:01:46,320

Australian researcher who focuses on

20

00:01:50,450 --> 00:01:48,000

government and military involvement and

21

00:01:53,180 --> 00:01:50,460

response to the so called UFO phenomena

22

00:01:55,880 --> 00:01:53,190

working alone for 20 years Paul became

23

00:01:58,520 --> 00:01:55,890

an expert in regards to so-called UFO

24

00:02:00,320 --> 00:01:58,530

FILES six years ago he began tackling

25

00:02:01,910 --> 00:02:00,330

the problem directly and became

26

00:02:03,949 --> 00:02:01,920

instrumental in seeing that the

27

00:02:06,109 --> 00:02:03,959

Australian government release here

28

00:02:08,359 --> 00:02:06,119

though classified files from the Royal

29

00:02:10,100 --> 00:02:08,369

Australian Air Force Air Services

30

00:02:12,620 --> 00:02:10,110

Australia the Australian Transport

31

00:02:15,949 --> 00:02:12,630

Safety Bureau and the National Archives

32

00:02:18,140 --> 00:02:15,959

of Australia he works extensively with

33

00:02:20,869 --> 00:02:18,150

Australian based researcher Keith pastor

34

00:02:24,770 --> 00:02:20,879

field on UFO case analysis and the

35

00:02:26,330 --> 00:02:24,780

preservation of UFO related records Paul

36

00:02:28,760 --> 00:02:26,340

Dean and his team used the Freedom of

37

00:02:30,500 --> 00:02:28,770

Information Act FOIA us to obtain

38

00:02:32,930 --> 00:02:30,510

records and is hot on the trail of

39

00:02:35,270 --> 00:02:32,940

hundreds of never-before-seen classified

40

00:02:37,610 --> 00:02:35,280

military files recent discoveries

41

00:02:39,339 --> 00:02:37,620

include UFO sighting reports created

42

00:02:41,750 --> 00:02:39,349

during the Vietnam War and

43

00:02:43,699 --> 00:02:41,760

administrative records related to a pair

44

00:02:46,729 --> 00:02:43,709

of highly classified UFO tracking

45

00:02:50,000 --> 00:02:46,739

programs which were ran by the US Army

46

00:02:52,699 --> 00:02:50,010

and the US Air Force during America's

47

00:02:54,470 --> 00:02:52,709

involvement in Vietnam other fresh finds

48

00:02:56,809 --> 00:02:54,480

include federal bureau of investigation

49

00:02:59,300 --> 00:02:56,819

records related to the interrogation of

50

00:03:01,490 --> 00:02:59,310

UFO researchers in the 70s and a current

51
00:03:03,860 --> 00:03:01,500
Federal Aviation Administration system

52
00:03:07,220 --> 00:03:03,870
for logging military intercepts of

53
00:03:09,979 --> 00:03:07,230
unknown objects in America's airspace

54
00:03:12,680 --> 00:03:09,989
Paul has also began requesting UFO

55
00:03:15,320 --> 00:03:12,690
records from the U

56
00:03:17,510 --> 00:03:15,330
as Air Force's Space Command which will

57
00:03:20,450 --> 00:03:17,520
include fousls from the 21st Space Wing

58
00:03:22,580 --> 00:03:20,460
and the vital joint functional component

59
00:03:25,760 --> 00:03:22,590
Center for space at Vanderburgh Air

60
00:03:26,630 --> 00:03:25,770
Force Base working on a daily basis with

61
00:03:28,730 --> 00:03:26,640
boston-based

62
00:03:30,950 --> 00:03:28,740
archivist and historian Barry Greenwood

63
00:03:33,710 --> 00:03:30,960

Paul believes there are likely hundreds

64

00:03:36,290 --> 00:03:33,720

of thousands of UFO records still held

65

00:03:38,240 --> 00:03:36,300

by elements of the US government and

66

00:03:40,760 --> 00:03:38,250

works tirelessly to source their

67

00:03:44,060 --> 00:03:40,770

location and availability status all in

68

00:03:46,610 --> 00:03:44,070

all Paul has acquired a total of 240

69

00:03:48,740 --> 00:03:46,620

thousand pages of UFO related government

70

00:03:51,370 --> 00:03:48,750

and military records from around the

71

00:03:53,900 --> 00:03:51,380

world and tens of millions of pages of

72

00:03:56,330 --> 00:03:53,910

non-government UFO records including

73

00:03:58,040 --> 00:03:56,340

books newsletters monographs newspaper

74

00:04:00,440 --> 00:03:58,050

articles case studies letters and

75

00:04:02,540 --> 00:04:00,450

magazine articles Paul welcome to our

76

00:04:04,490 --> 00:04:02,550

show again we've had you on many times

77

00:04:08,140 --> 00:04:04,500

and we enjoy having you thank you for

78

00:04:11,510 --> 00:04:08,150

being on the show tonight thank you I

79

00:04:13,130 --> 00:04:11,520

wanted to ask you about a little bit

80

00:04:15,260 --> 00:04:13,140

about the definitive history regarding

81

00:04:17,930 --> 00:04:15,270

the ballistic missile early warning

82

00:04:21,340 --> 00:04:17,940

system could you please cover that topic

83

00:04:24,020 --> 00:04:21,350

I know it goes from the u.s. to the UK

84

00:04:26,659 --> 00:04:24,030

maybe gloss over that with us for a

85

00:04:29,659 --> 00:04:26,669

little bit yeah

86

00:04:31,870 --> 00:04:29,669

so so one thing that UFO researchers

87

00:04:35,110 --> 00:04:31,880

don't do anywhere near enough of is

88

00:04:38,240 --> 00:04:35,120

study the operational capacity and

89

00:04:40,130 --> 00:04:38,250

capability in a history of the actual

90

00:04:43,159 --> 00:04:40,140

sights like the actual sights and

91

00:04:45,830 --> 00:04:43,169

systems and facilities and squadrons and

92

00:04:48,320 --> 00:04:45,840

battalions and whatever that that are

93

00:04:50,030 --> 00:04:48,330

responsible for aerospace detection and

94

00:04:53,780 --> 00:04:50,040

tracking of objects in the atmosphere

95

00:04:57,380 --> 00:04:53,790

and space verification of real objects

96

00:05:00,860 --> 00:04:57,390

versus like fake returns or radar

97

00:05:02,570 --> 00:05:00,870

clutter or whatever and one of the one

98

00:05:05,690 --> 00:05:02,580

of the one of the most potent and

99

00:05:09,409 --> 00:05:05,700

capable and legacy systems we have to

100

00:05:11,570 --> 00:05:09,419

look at period is the it's a it's a

101
00:05:13,780 --> 00:05:11,580
system it's a system called the

102
00:05:18,200 --> 00:05:13,790
ballistic missile early warning system

103
00:05:22,909 --> 00:05:18,210
and it's it was it was developed by the

104
00:05:24,469 --> 00:05:22,919
9th aerospace that they gave them not

105
00:05:25,740 --> 00:05:24,479
their I suppose division the NORAD

106
00:05:35,100 --> 00:05:25,750
missile warning

107
00:05:38,520 --> 00:05:35,110
universities and think tanks and what it

108
00:05:42,810 --> 00:05:38,530
is it's a it's a try site that's three

109
00:05:45,990 --> 00:05:42,820
sites around the world one is in clear

110
00:05:48,270 --> 00:05:46,000
in Alaska the another one the second one

111
00:05:51,780 --> 00:05:48,280
is in fool at fool Air Station in

112
00:05:54,780 --> 00:05:51,790
Greenland and the third site is actually

113
00:05:59,640 --> 00:05:54,790

on on the east coast of England none in

114

00:06:01,409 --> 00:05:59,650

North look she and is these three sites

115

00:06:02,880 --> 00:06:01,419

what their what their job is what their

116

00:06:07,260 --> 00:06:02,890

job is always been since the early

117

00:06:09,450 --> 00:06:07,270

sixties is to they will it that these

118

00:06:11,730 --> 00:06:09,460

three sites have have have have a

119

00:06:15,330 --> 00:06:11,740

primary mission and a secondary mission

120

00:06:18,600 --> 00:06:15,340

the primary mission is is missile

121

00:06:20,909 --> 00:06:18,610

warning or missile launch warning or

122

00:06:22,620 --> 00:06:20,919

missile a missile detection and tracking

123

00:06:24,390 --> 00:06:22,630

an impact prediction and so on and what

124

00:06:25,740 --> 00:06:24,400

the what being being all in a northern

125

00:06:30,780 --> 00:06:25,750

hemisphere what these three facilities

126

00:06:33,450 --> 00:06:30,790

do up until today still now is they they

127

00:06:36,390 --> 00:06:33,460

have these unbelievably powerful radar

128

00:06:39,990 --> 00:06:36,400

as the synthetic aperture trackball scan

129

00:06:42,930 --> 00:06:40,000

radars that can that can see for one of

130

00:06:45,060 --> 00:06:42,940

a better word at 3,000 miles into space

131

00:06:48,180 --> 00:06:45,070

on a pretty sharp angle and what they're

132

00:06:49,940 --> 00:06:48,190

looking for in primary mode primary mode

133

00:06:53,250 --> 00:06:49,950

what they've always looked for is

134

00:06:55,530 --> 00:06:53,260

missiles like as in nuclear missiles and

135

00:06:56,850 --> 00:06:55,540

not just one but they can track as many

136

00:06:59,040 --> 00:06:56,860

as you know two or three hundred at a

137

00:07:01,590 --> 00:06:59,050

time they're looking for missiles that

138

00:07:03,870 --> 00:07:01,600

have originated from the oceans like

139

00:07:05,850 --> 00:07:03,880

from submarines or ships around the at

140

00:07:07,980 --> 00:07:05,860

the old Soviet Union or current Russia

141

00:07:09,900 --> 00:07:07,990

and they're looking for intercontinental

142

00:07:12,120 --> 00:07:09,910

ballistic missiles which have originated

143

00:07:14,490 --> 00:07:12,130

from northern China Central Russia

144

00:07:17,820 --> 00:07:14,500

northern Russia back in the old days

145

00:07:20,390 --> 00:07:17,830

maybe East Germany or Poland so

146

00:07:23,280 --> 00:07:20,400

basically their primary mission is to

147

00:07:26,820 --> 00:07:23,290

constantly search the skies 24 hours a

148

00:07:28,530 --> 00:07:26,830

day looking for objects which look which

149

00:07:31,650 --> 00:07:28,540

fit the parameters of missiles that's

150

00:07:34,110 --> 00:07:31,660

fast-moving independent non maneuverable

151

00:07:37,320 --> 00:07:34,120

objects that that come up from the

152

00:07:38,820 --> 00:07:37,330

ground at very shallow angles means

153

00:07:40,830 --> 00:07:38,830

perpendicular to a surfer

154

00:07:43,020 --> 00:07:40,840

and then you know make a bit of a

155

00:07:45,089 --> 00:07:43,030

right-hand turn and head towards England

156

00:07:47,909 --> 00:07:45,099

Scotland the United States or Canada so

157

00:07:50,820 --> 00:07:47,919

they this is frontline missile warning

158

00:07:53,129 --> 00:07:50,830

like this is this is as soon as objects

159

00:07:55,890 --> 00:07:53,139

or an object is detected that fits the

160

00:07:57,869 --> 00:07:55,900

parameters of a missile these three

161

00:08:01,110 --> 00:07:57,879

sites in Alaska Greenland in England

162

00:08:04,860 --> 00:08:01,120

they automatically they automatically

163

00:08:06,480 --> 00:08:04,870

send data to swell to over the years the

164

00:08:11,700 --> 00:08:06,490

Aerospace Defense Command and all the

165

00:08:14,300 --> 00:08:11,710

air Paul you're breaking up a little bit

166

00:08:19,290 --> 00:08:14,310

but just to jump in really quick

167

00:08:20,459 --> 00:08:19,300

basically yeah that was in the back go

168

00:08:23,820 --> 00:08:20,469

ahead go ahead you're breaking up Paul

169

00:08:25,529 --> 00:08:23,830

yeah can you hear me yeah I can hear you

170

00:08:27,420 --> 00:08:25,539

now but I was just telling the folks

171

00:08:31,379 --> 00:08:27,430

that really the reason why they're

172

00:08:32,819 --> 00:08:31,389

located so in such northern latitudes is

173

00:08:34,589 --> 00:08:32,829

because basically that's the shortest

174

00:08:38,639 --> 00:08:34,599

path for missiles to get from the old

175

00:08:42,209 --> 00:08:38,649

Soviet Union yeah yes so Soviet and

176

00:08:43,620 --> 00:08:42,219

polish missiles that are hitting over

177

00:08:48,660 --> 00:08:43,630

the poles to Canada or the United States

178

00:08:49,980 --> 00:08:48,670

or Scotland they they're the we want to

179

00:08:52,139 --> 00:08:49,990

detect them there's no point having the

180

00:08:54,240 --> 00:08:52,149

facility demo in Antarctica it's it's

181

00:08:56,670 --> 00:08:54,250

its it dictate that this these sites are

182

00:08:58,410 --> 00:08:56,680

responsible for missile warning for

183

00:09:00,810 --> 00:08:58,420

North America and Western Europe and

184

00:09:02,940 --> 00:09:00,820

that's in primary mode this secondary

185

00:09:05,819 --> 00:09:02,950

they said these radar systems are so

186

00:09:07,290 --> 00:09:05,829

powerful that in they have a secondary

187

00:09:09,829 --> 00:09:07,300

capability it's called

188

00:09:12,389 --> 00:09:09,839

Space Surveillance and that simply means

189

00:09:14,760 --> 00:09:12,399

the detection tracking and

190

00:09:17,190 --> 00:09:14,770

identification of objects in low-earth

191

00:09:19,380 --> 00:09:17,200

low-earth orbits so that's satellite

192

00:09:23,040 --> 00:09:19,390

satellite junk rocket boosters the odd

193

00:09:26,280 --> 00:09:23,050

asteroid whatever so so basically the

194

00:09:27,780 --> 00:09:26,290

thule clear and falling dale site the

195

00:09:29,880 --> 00:09:27,790

flatter one file in thousand england

196

00:09:33,060 --> 00:09:29,890

their job is in primary mode is missile

197

00:09:36,060 --> 00:09:33,070

warning and in secondary mode is is to

198

00:09:38,400 --> 00:09:36,070

is to detect and track satellites which

199

00:09:40,410 --> 00:09:38,410

which should conform to the satellite or

200

00:09:42,750 --> 00:09:40,420

space object catalog and every now and

201
00:09:43,889 --> 00:09:42,760
again they will pick up a new object in

202
00:09:46,110 --> 00:09:43,899
space that they've never seen before

203
00:09:47,790 --> 00:09:46,120
like a might be part of a new foreign

204
00:09:49,230 --> 00:09:47,800
launch or it might be a piece of space

205
00:09:51,030 --> 00:09:49,240
debris that's broken off from another

206
00:09:51,920 --> 00:09:51,040
piece of space debris that they've never

207
00:09:54,550 --> 00:09:51,930
tagged or

208
00:09:58,579 --> 00:09:54,560
so far before but so basically these

209
00:10:00,380 --> 00:09:58,589
these three sites look northward north

210
00:10:01,910 --> 00:10:00,390
over the poles just looking for anything

211
00:10:04,370 --> 00:10:01,920
that's in the upper atmosphere and in

212
00:10:09,560 --> 00:10:04,380
and and out into space that's basically

213
00:10:11,389 --> 00:10:09,570

what they do yep okay thank you very

214

00:10:12,920 --> 00:10:11,399

much for having covered that I wanted to

215

00:10:15,139 --> 00:10:12,930

ask you a little bit about an

216

00:10:16,940 --> 00:10:15,149

interesting a situation occurred to you

217

00:10:21,590 --> 00:10:16,950

while you were actually requesting

218

00:10:22,820 --> 00:10:21,600

information from the UK and I I we

219

00:10:25,160 --> 00:10:22,830

talked about this a little earlier

220

00:10:27,769 --> 00:10:25,170

before before the show it sounds like

221

00:10:30,019 --> 00:10:27,779

you were actually kind of fighting with

222

00:10:33,139 --> 00:10:30,029

him I use that term loosely by the way

223

00:10:35,410 --> 00:10:33,149

with the British government on the topic

224

00:10:39,340 --> 00:10:35,420

of the ballistic missile early warning

225

00:10:42,440 --> 00:10:39,350

system and when you actually fired them

226

00:10:45,579 --> 00:10:42,450

you asked them specifically about that

227

00:10:47,750 --> 00:10:45,589

topic and then they came back bizarrely

228

00:10:50,210 --> 00:10:47,760

didn't argue on that

229

00:10:53,660 --> 00:10:50,220

but but the bizarre part was that they

230

00:10:56,230 --> 00:10:53,670

touched on the topic of UFOs and the et

231

00:11:00,920 --> 00:10:56,240

topic can you please fill us in on that

232

00:11:04,880 --> 00:11:00,930

yeah now this was bizarre I I have been

233

00:11:07,820 --> 00:11:04,890

studying space object and missile object

234

00:11:10,340 --> 00:11:07,830

and atmospheric detection issues for 20

235

00:11:13,340 --> 00:11:10,350

years and so obviously one of the best

236

00:11:15,519 --> 00:11:13,350

places to to go is the ballistic missile

237

00:11:19,630 --> 00:11:15,529

early warning system now in America at

238

00:11:22,370 --> 00:11:19,640

the sites in Alaska and Greenland are a

239

00:11:25,160 --> 00:11:22,380

run by the 13th and 12th missile warning

240

00:11:28,340 --> 00:11:25,170

squadron respectively but England's are

241

00:11:30,199 --> 00:11:28,350

be different so England being at an

242

00:11:32,120 --> 00:11:30,209

international site between the US Air

243

00:11:34,640 --> 00:11:32,130

Force and England's royal air force

244

00:11:36,650 --> 00:11:34,650

England's England's ballistic missile

245

00:11:41,240 --> 00:11:36,660

early warning systems site which is

246

00:11:44,960 --> 00:11:41,250

called RAF filing nails huge place it's

247

00:11:50,720 --> 00:11:44,970

it reports administratively to the Royal

248

00:12:01,970 --> 00:12:00,230

a British Ministry of Defence sorry Air

249

00:12:05,810 --> 00:12:01,980

Force Space Command headquarters and in

250

00:12:07,819 --> 00:12:05,820

England data is supplied to the space

251
00:12:09,500 --> 00:12:07,829
warning service and and and various

252
00:12:11,569 --> 00:12:09,510
other cells within England so this is

253
00:12:14,569 --> 00:12:11,579
truly an international site the reason I

254
00:12:17,720 --> 00:12:14,579
wanted to I wanted to ask the RAF

255
00:12:19,310 --> 00:12:17,730
fouling dolls I run into us are someone

256
00:12:22,550 --> 00:12:19,320
whether it be the US Air Force or the

257
00:12:24,500 --> 00:12:22,560
Royal Air Force an Eton and for for

258
00:12:27,259 --> 00:12:24,510
material like reports and electronic

259
00:12:29,180 --> 00:12:27,269
forms about object detection and now I

260
00:12:31,819 --> 00:12:29,190
had two choices I could go to the US Air

261
00:12:33,199 --> 00:12:31,829
Force for RAF filing Dal's material or I

262
00:12:34,850 --> 00:12:33,209
could go to the British Ministry of

263
00:12:36,829 --> 00:12:34,860

Defence for rap filing Dal's material

264

00:12:40,100 --> 00:12:36,839

the reason I picked the Ministry of

265

00:12:41,660 --> 00:12:40,110

Defence is because there foi Department

266

00:12:43,939 --> 00:12:41,670

their Freedom of Information request

267

00:12:47,240 --> 00:12:43,949

Department is very streamlined it's

268

00:12:49,280 --> 00:12:47,250

quick they're honest they're they they

269

00:12:52,009 --> 00:12:49,290

they don't lose if I were I request like

270

00:12:57,050 --> 00:12:52,019

the Americans do so what I did I went to

271

00:12:59,870 --> 00:12:57,060

in um in now June 2017 I went to the the

272

00:13:01,519 --> 00:12:59,880

British Ministry of Defence and I asked

273

00:13:12,740 --> 00:13:01,529

and I'll write out my actual request

274

00:13:15,230 --> 00:13:12,750

right I asked for copies of records well

275

00:13:17,480 --> 00:13:15,240

is the detection for a falling dolls

276

00:13:18,949 --> 00:13:17,490

specifically I wish to be furnished with

277

00:13:21,620 --> 00:13:18,959

copies of actual detections and

278

00:13:23,360 --> 00:13:21,630

Tracking's which may include electronic

279

00:13:25,910 --> 00:13:23,370

forms electronic reports

280

00:13:28,220 --> 00:13:25,920

automated pictorials etc which are

281

00:13:30,470 --> 00:13:28,230

created by the system a Trevor systems

282

00:13:34,460 --> 00:13:30,480

at RAF following girls blah blah blah

283

00:13:36,800 --> 00:13:34,470

now I got an acknowledgement at the end

284

00:13:43,519 --> 00:13:36,810

of month from the British Ministry of

285

00:13:46,850 --> 00:13:43,529

Defence a ashen right turn later on the

286

00:13:48,829 --> 00:13:46,860

5th of July 2017 so about a month after

287

00:13:54,379 --> 00:13:48,839

I submitted by if I want request by

288

00:13:57,889 --> 00:13:54,389

God's eye I got an email the very mouth

289

00:14:02,600 --> 00:13:57,899

from a command Secretariat of the Royal

290

00:14:03,910 --> 00:14:02,610

Air Command accorded and well most of

291

00:14:07,240 --> 00:14:03,920

what its it

292

00:14:12,699 --> 00:14:07,250

it said I have searched our records for

293

00:14:14,230 --> 00:14:12,709

the information for and I can confirm

294

00:14:16,480 --> 00:14:14,240

that the Ministry of Defense holds

295

00:14:18,730 --> 00:14:16,490

information in the skopic you'll request

296

00:14:20,319 --> 00:14:18,740

formation relates to matters pertinent

297

00:14:22,509 --> 00:14:20,329

to the defense of the United Kingdom and

298

00:14:29,500 --> 00:14:22,519

not to any so-called extraterrestrial

299

00:14:31,210 --> 00:14:29,510

life then it goes on discussing we've

300

00:14:33,130 --> 00:14:31,220

got with with with retrieving data and

301
00:14:34,870 --> 00:14:33,140
so on and then it says I'm wishing to

302
00:14:37,060 --> 00:14:34,880
I'm writing to advise you that it would

303
00:14:38,530 --> 00:14:37,070
take considerably longer than 3.5

304
00:14:41,500 --> 00:14:38,540
working days to provide you with

305
00:14:43,360 --> 00:14:41,510
information blah blah blah unfortunately

306
00:14:45,550 --> 00:14:43,370
in this instance I am unable to offer

307
00:14:47,590 --> 00:14:45,560
you any advice on how you may refine

308
00:14:49,990 --> 00:14:47,600
your requests in a way that would enable

309
00:14:51,880 --> 00:14:50,000
the Emoji to provide you with response

310
00:14:55,240 --> 00:14:51,890
and then it goes on with more

311
00:14:58,060 --> 00:14:55,250
administrative stuff anyway finally it

312
00:15:00,840 --> 00:14:58,070
says as you would expect the mo D has a

313
00:15:03,009 --> 00:15:00,850

responsibility to use defense resource

314

00:15:05,230 --> 00:15:03,019

including those available to us at RAF

315

00:15:06,639 --> 00:15:05,240

filing girls-only for activities which

316

00:15:10,030 --> 00:15:06,649

contribute to the defence and security

317

00:15:13,170 --> 00:15:10,040

of the UK the department has no opinion

318

00:15:17,860 --> 00:15:13,180

on the existence or otherwise of

319

00:15:19,540 --> 00:15:17,870

terrestrial life if the mo G continues

320

00:15:21,250 --> 00:15:19,550

to receive correspondence from members

321

00:15:23,439 --> 00:15:21,260

of the public confirming at concerning

322

00:15:26,800 --> 00:15:23,449

UFO sightings the mo D does not

323

00:15:28,660 --> 00:15:26,810

investigate these so this is incredible

324

00:15:31,600 --> 00:15:28,670

because I specifically I'll go back I

325

00:15:33,130 --> 00:15:31,610

specifically asked two copies of records

326

00:15:35,939 --> 00:15:33,140

related to the detection of unknown

327

00:15:39,069 --> 00:15:35,949

unidentified and unsolved objects

328

00:15:40,480 --> 00:15:39,079

farling dolls which would include copies

329

00:15:42,460 --> 00:15:40,490

of actual detections and Tracking's

330

00:15:44,110 --> 00:15:42,470

electronic forms reports automatic

331

00:15:45,370 --> 00:15:44,120

toriel's that have been created by the

332

00:15:48,009 --> 00:15:45,380

systems a trifling dolls

333

00:15:53,680 --> 00:15:48,019

and like I said they were there they

334

00:15:55,810 --> 00:15:53,690

reply one first mentioned first mentions

335

00:15:58,030 --> 00:15:55,820

that that filing dolls is all to do with

336

00:16:00,069 --> 00:15:58,040

defensive United Kingdom and not to do

337

00:16:03,160 --> 00:16:00,079

with extraterrestrial life and then in

338

00:16:05,949 --> 00:16:03,170

the last paragraph they mentioned UFO

339

00:16:08,199 --> 00:16:05,959

sightings and again extraterrestrial

340

00:16:10,960 --> 00:16:08,209

life and I've never seen that before

341

00:16:12,970 --> 00:16:10,970

I've never seen I mean I can only assume

342

00:16:17,680 --> 00:16:12,980

that they have received requests like

343

00:16:20,770 --> 00:16:17,690

this before that can

344

00:16:22,540 --> 00:16:20,780

flog the UFO angle or the et angle but I

345

00:16:25,330 --> 00:16:22,550

certainly didn't ask for that so that

346

00:16:27,580 --> 00:16:25,340

was certainly very unusual when you when

347

00:16:30,580 --> 00:16:27,590

you read that did your jaw drop and did

348

00:16:32,680 --> 00:16:30,590

you laugh yes I well I sort of thought

349

00:16:34,780 --> 00:16:32,690

to myself follow my sort of thoughts

350

00:16:36,520 --> 00:16:34,790

myself hold on I sort of had to go back

351

00:16:38,620 --> 00:16:36,530

to my original if I were a request and

352

00:16:41,170 --> 00:16:38,630

think because I mean I knew I hadn't

353

00:16:44,020 --> 00:16:41,180

asked about 80 or aliens or UFO

354

00:16:46,750 --> 00:16:44,030

sightings or UFO records as such I I

355

00:16:48,670 --> 00:16:46,760

mean I mean yes it is true that the RAF

356

00:16:50,440 --> 00:16:48,680

filing dulcis ballistic missile oil

357

00:16:52,900 --> 00:16:50,450

early warning system radar on computers

358

00:16:55,360 --> 00:16:52,910

it is true that they they do pick up the

359

00:16:58,900 --> 00:16:55,370

job is to pick up unidentified flying

360

00:17:01,840 --> 00:16:58,910

objects in a sense but but but but I

361

00:17:04,600 --> 00:17:01,850

never included that radioactive term in

362

00:17:06,819 --> 00:17:04,610

my that toxic sort of term in my FOI

363

00:17:08,590 --> 00:17:06,829

request and I certainly didn't talk

364

00:17:14,620 --> 00:17:08,600

about extraterrestrial life I was quite

365

00:17:16,750 --> 00:17:14,630

start I can only free up as an FOI

366

00:17:19,990 --> 00:17:16,760

request of which I'm quite prolific or

367

00:17:21,960 --> 00:17:20,000

they have simply assumed - this guy you

368

00:17:24,130 --> 00:17:21,970

know he wants UFO informational et

369

00:17:25,510 --> 00:17:24,140

records or something like that but yeah

370

00:17:26,590 --> 00:17:25,520

I was very surprised because usually the

371

00:17:27,610 --> 00:17:26,600

Ministry of Defense are very very

372

00:17:31,870 --> 00:17:27,620

straight down the line and they're very

373

00:17:33,850 --> 00:17:31,880

specific they're very they they they got

374

00:17:36,250 --> 00:17:33,860

their eyes and cross their toes I have

375

00:17:37,840 --> 00:17:36,260

never seen the Ministry of Defence make

376

00:17:41,410 --> 00:17:37,850

such an assumption like this I was quite

377

00:17:44,500 --> 00:17:41,420

surprised year I just want to thank you

378

00:17:46,900 --> 00:17:44,510

for having gone over si SOI the space

379

00:17:48,700 --> 00:17:46,910

object identification which can measure

380

00:17:51,040 --> 00:17:48,710

anything in space regarding the length

381

00:17:52,480 --> 00:17:51,050

the width the right eye cross-section

382

00:17:54,370 --> 00:17:52,490

returned the brightness the tumbling

383

00:17:56,830 --> 00:17:54,380

motions and this all helps to identify

384

00:17:59,470 --> 00:17:56,840

with the object is regarding space

385

00:18:01,720 --> 00:17:59,480

objects and you do you have any more on

386

00:18:05,110 --> 00:18:01,730

that topic you wanted to cover pipes I

387

00:18:07,540 --> 00:18:05,120

mean okay so like this is this is

388

00:18:09,670 --> 00:18:07,550

something really really important for

389

00:18:12,880 --> 00:18:09,680

UFO research so space object

390

00:18:16,300 --> 00:18:12,890

identification it's it's a it's a theory

391

00:18:19,180 --> 00:18:16,310

it's a it's a term used by the US Air

392

00:18:21,100 --> 00:18:19,190

Force's Space Command and the 14th Air

393

00:18:23,650 --> 00:18:21,110

Force and the old air defense command

394

00:18:25,990 --> 00:18:23,660

and Aerospace Defense Command and the

395

00:18:28,120 --> 00:18:26,000

British Royal Air Force and so on what's

396

00:18:30,880 --> 00:18:28,130

what's away is space object

397

00:18:31,380 --> 00:18:30,890

identification is is any number of the

398

00:18:32,610 --> 00:18:31,390

sites

399

00:18:35,060 --> 00:18:32,620

whether it's the ballistic missile early

400

00:18:37,110 --> 00:18:35,070

warning system sites or the ground

401
00:18:39,330 --> 00:18:37,120
electro-optical deep surveillance system

402
00:18:42,299 --> 00:18:39,340
sites or the naval space surveillance

403
00:18:44,400 --> 00:18:42,309
fence in America whatever they when they

404
00:18:46,710 --> 00:18:44,410
detect an object in space there a

405
00:18:50,250 --> 00:18:46,720
missile warhead or missile warheads

406
00:18:52,440 --> 00:18:50,260
plural or satellite their systems their

407
00:18:54,180 --> 00:18:52,450
actual computer systems can perform

408
00:18:56,910 --> 00:18:54,190
something called space object

409
00:18:59,370 --> 00:18:56,920
identification or sewing and that means

410
00:19:02,039 --> 00:18:59,380
that the computer systems look at the

411
00:19:04,560 --> 00:19:02,049
characteristics of the imaging or the

412
00:19:06,810 --> 00:19:04,570
radar returns they're looking for radar

413
00:19:08,760 --> 00:19:06,820

reflectivity or optical reflectivity

414

00:19:10,980 --> 00:19:08,770

like how bright the object is in either

415

00:19:13,110 --> 00:19:10,990

radio mode or in optical right

416

00:19:15,090 --> 00:19:13,120

wavelengths they're looking for tumbling

417

00:19:17,070 --> 00:19:15,100

motions like is the is the object

418

00:19:20,970 --> 00:19:17,080

tumbling so it's going sort of bright

419

00:19:23,250 --> 00:19:20,980

dark bright dark at very consistent time

420

00:19:25,770 --> 00:19:23,260

lines they're looking for so they can

421

00:19:27,510 --> 00:19:25,780

determine with consistent radar data

422

00:19:29,640 --> 00:19:27,520

they can determine size shape

423

00:19:32,000 --> 00:19:29,650

characteristics and the reason I bring

424

00:19:33,780 --> 00:19:32,010

we we don't know a lot about SOI

425

00:19:36,090 --> 00:19:33,790

identification because obviously it's

426

00:19:37,680 --> 00:19:36,100

highly classified but one thing that is

427

00:19:39,510 --> 00:19:37,690

interesting I was able to get some

428

00:19:42,840 --> 00:19:39,520

really interesting

429

00:19:46,640 --> 00:19:42,850

I suppose descriptors or narratives from

430

00:19:49,140 --> 00:19:46,650

from a from a from an old documents that

431

00:19:51,180 --> 00:19:49,150

that comes from a missile warning

432

00:19:53,370 --> 00:19:51,190

squadron in Florida that has a similar

433

00:19:55,140 --> 00:19:53,380

radar system so the ballistic missile

434

00:19:57,419 --> 00:19:55,150

early warning systems now what this is

435

00:19:59,280 --> 00:19:57,429

is down in Florida there's a there's an

436

00:20:02,310 --> 00:19:59,290

Air Force Base called Eglin Air Force

437

00:20:04,110 --> 00:20:02,320

Base and nearby there's a huge radar

438

00:20:06,870 --> 00:20:04,120

it's one of the most powerful radars in

439

00:20:10,409 --> 00:20:06,880

the world it's called the c6 sight and

440

00:20:14,010 --> 00:20:10,419

it's a it's a it's a US Air Force radar

441

00:20:15,750 --> 00:20:14,020

site it's it's been variously operated

442

00:20:17,880 --> 00:20:15,760

by the over the years it's been around

443

00:20:21,870 --> 00:20:17,890

since 1968 and it's been variously

444

00:20:24,539 --> 00:20:21,880

operated by xx surveillance squadron xx

445

00:20:27,539 --> 00:20:24,549

missile warning squadron xx Space

446

00:20:29,669 --> 00:20:27,549

Surveillance Aldrin and so on now in the

447

00:20:32,100 --> 00:20:29,679

now like the ballistic missile early

448

00:20:34,230 --> 00:20:32,110

warning system the Egglund's site also

449

00:20:35,909 --> 00:20:34,240

does as its primary mission that does

450

00:20:38,039 --> 00:20:35,919

missile warning like missile object

451
00:20:40,200 --> 00:20:38,049
warning like radar detection of missiles

452
00:20:43,200 --> 00:20:40,210
and it also does space object

453
00:20:45,149 --> 00:20:43,210
identification or spy surveillance and

454
00:20:50,279 --> 00:20:45,159
I've got some

455
00:20:52,200 --> 00:20:50,289
colleague of mine in Britain actually

456
00:20:55,169 --> 00:20:52,210
was able to get a document it's called a

457
00:20:57,899 --> 00:20:55,179
unit history and it's he was able to get

458
00:21:00,629 --> 00:20:57,909
a unit history from the 20th missile

459
00:21:01,830 --> 00:21:00,639
warning squadron it's the it's a you

460
00:21:03,779 --> 00:21:01,840
know history is a document that

461
00:21:05,190 --> 00:21:03,789
describes the history the mission the

462
00:21:08,609 --> 00:21:05,200
budget the manpower and personnel

463
00:21:13,200 --> 00:21:08,619

requirements significant events visiting

464

00:21:16,889 --> 00:21:13,210

dignitaries awards and promotions health

465

00:21:20,039 --> 00:21:16,899

and safety incidences evacuations and so

466

00:21:23,129 --> 00:21:20,049

on by any squadron or battalion or wing

467

00:21:26,999 --> 00:21:23,139

or whatever of any US Air Force or US

468

00:21:28,619 --> 00:21:27,009

Army unit and anyway so so a unit

469

00:21:30,269 --> 00:21:28,629

history this particular unit history

470

00:21:32,519 --> 00:21:30,279

that we got out of the US Air Force it's

471

00:21:34,529 --> 00:21:32,529

called history of a 20th missile warning

472

00:21:38,820 --> 00:21:34,539

squadron first of October the 31st of

473

00:21:41,580 --> 00:21:38,830

December 1981 and in this so like I say

474

00:21:43,109 --> 00:21:41,590

we we don't have much about operation we

475

00:21:45,469 --> 00:21:43,119

don't have much on the record about

476
00:21:47,940 --> 00:21:45,479
operational space object identification

477
00:21:50,129 --> 00:21:47,950
because it's it's it's it's highly

478
00:21:53,310 --> 00:21:50,139
classified it's very very specific it's

479
00:21:54,419 --> 00:21:53,320
very hard to understand and and most

480
00:21:56,190 --> 00:21:54,429
people just aren't interested they

481
00:21:58,080 --> 00:21:56,200
should be UFO researchers should be

482
00:22:01,440 --> 00:21:58,090
exceedingly interested in this but most

483
00:22:04,289 --> 00:22:01,450
aren't anyway within the within this

484
00:22:06,599 --> 00:22:04,299
particular unit history there was a

485
00:22:09,119 --> 00:22:06,609
there was a couple of passages about

486
00:22:12,899 --> 00:22:09,129
space object identification at Eglin Air

487
00:22:14,669 --> 00:22:12,909
Force Base on and rag2 of them one of

488
00:22:16,769 --> 00:22:14,679

them it says the space object

489

00:22:18,989 --> 00:22:16,779

identification technician was

490

00:22:22,409 --> 00:22:18,999

responsible for using radar information

491

00:22:25,019 --> 00:22:22,419

to define what a space object was and

492

00:22:27,269 --> 00:22:25,029

what it looked like each object and each

493

00:22:29,580 --> 00:22:27,279

part of an object had certain radar

494

00:22:31,560 --> 00:22:29,590

returns which the technician could

495

00:22:33,659 --> 00:22:31,570

translate into a description of the

496

00:22:36,509 --> 00:22:33,669

object right that's the first sentence

497

00:22:41,159 --> 00:22:36,519

another sentence on the same page says

498

00:22:44,099 --> 00:22:41,169

the signals analysis system was used to

499

00:22:46,320 --> 00:22:44,109

analyze returns from the radar for

500

00:22:50,479 --> 00:22:46,330

characteristics of space objects

501
00:22:54,119 --> 00:22:50,489
including shape with length height etc

502
00:22:57,119 --> 00:22:54,129
the SOI technicians use this information

503
00:22:59,590 --> 00:22:57,129
to identify space objects so what this

504
00:23:02,200 --> 00:22:59,600
is saying is right back in 1980

505
00:23:04,990 --> 00:23:02,210
which was nearly 40 years ago they're

506
00:23:08,530 --> 00:23:05,000
using 1970s computers and technologies

507
00:23:10,570 --> 00:23:08,540
in not 81 right even back then their

508
00:23:16,300 --> 00:23:10,580
technicians and their computer output

509
00:23:21,990 --> 00:23:16,310
systems are able to seriously use use

510
00:23:24,720 --> 00:23:22,000
incoming data to to to to ascertain a

511
00:23:27,430 --> 00:23:24,730
full description of objects in space

512
00:23:30,160 --> 00:23:27,440
right and me and presumably in missile

513
00:23:32,440 --> 00:23:30,170

warning mode they were able to ascertain

514

00:23:33,700 --> 00:23:32,450

the shape and size of missile warheads

515

00:23:35,530 --> 00:23:33,710

you know like I mean it actually says

516

00:23:37,540 --> 00:23:35,540

literally says here that this was

517

00:23:39,700 --> 00:23:37,550

incredible to me that in 1981 it

518

00:23:41,740 --> 00:23:39,710

actually says here they're looking for

519

00:23:44,200 --> 00:23:41,750

characteristics of space objects like I

520

00:23:47,650 --> 00:23:44,210

said including shape with length height

521

00:23:49,240 --> 00:23:47,660

etc so it if that's in 1991 can you

522

00:23:54,880 --> 00:23:49,250

imagine what the capabilities are like

523

00:23:58,930 --> 00:23:54,890

now exactly yes I was just looking up

524

00:24:01,930 --> 00:23:58,940

also a little bit about SOI today and I

525

00:24:04,270 --> 00:24:01,940

see contracts that get awarded for it on

526
00:24:08,110 --> 00:24:04,280
the web when was under was just a few

527
00:24:09,790 --> 00:24:08,120
dollars shy of \$100,000 ad agency was

528
00:24:13,300 --> 00:24:09,800
Department of Defense branch of course

529
00:24:16,870 --> 00:24:13,310
Air Force and that amount of awarded to

530
00:24:19,360 --> 00:24:16,880
that program was \$100,000 for SOI for a

531
00:24:21,310 --> 00:24:19,370
certain year but yes of course any

532
00:24:23,530 --> 00:24:21,320
government would be acutely interested

533
00:24:26,410 --> 00:24:23,540
in following anything in space so I can

534
00:24:31,140 --> 00:24:26,420
imagine how acutely interested you

535
00:24:34,240 --> 00:24:31,150
people who research the topic of UFOs

536
00:24:36,580 --> 00:24:34,250
should be and they should take heed

537
00:24:38,260 --> 00:24:36,590
regarding what you're saying wanted to

538
00:24:40,180 --> 00:24:38,270

ask you if there's any more on the

539

00:24:41,470 --> 00:24:40,190

ballistic early uh missile warning

540

00:24:44,890 --> 00:24:41,480

system you wanted to cover at all

541

00:24:48,760 --> 00:24:44,900

absolutely hopes I mean the the there is

542

00:24:53,500 --> 00:24:48,770

just there is just so much here the the

543

00:24:58,900 --> 00:24:53,510

I'll give you an example of potentially

544

00:25:00,340 --> 00:24:58,910

how important this is the the ballistic

545

00:25:03,940 --> 00:25:00,350

missile early warning system which like

546

00:25:07,090 --> 00:25:03,950

off set is in Alaska Greenland and

547

00:25:08,500 --> 00:25:07,100

England they don't just so they are

548

00:25:09,970 --> 00:25:08,510

constantly searching for missile

549

00:25:12,220 --> 00:25:09,980

launchers and missile bodies like

550

00:25:13,690 --> 00:25:12,230

missile nuclear warheads or conventional

551
00:25:16,029 --> 00:25:13,700
warheads and like I said in sick

552
00:25:17,259 --> 00:25:16,039
remote secondary operational mode

553
00:25:19,000 --> 00:25:17,269
they're searching for all their

554
00:25:20,649 --> 00:25:19,010
characterizing now identifying every

555
00:25:22,840 --> 00:25:20,659
object in space that passes overhead

556
00:25:25,659 --> 00:25:22,850
right now they don't just sit on this

557
00:25:27,279 --> 00:25:25,669
data and and and and and then alert

558
00:25:28,389 --> 00:25:27,289
you know authorities that are you know

559
00:25:30,220 --> 00:25:28,399
Crockett we've got missiles coming

560
00:25:32,470 --> 00:25:30,230
towards us there is a massive stream

561
00:25:37,169 --> 00:25:32,480
chain-of-command and what actually

562
00:25:39,970 --> 00:25:37,179
happens is is that is that with with

563
00:25:43,269 --> 00:25:39,980

with all that data so all that data is

564

00:25:47,799 --> 00:25:43,279

constantly coming in right the the that

565

00:25:49,240 --> 00:25:47,809

data it goes in the UK that data that

566

00:25:52,720 --> 00:25:49,250

all at least at the Royal Air Force

567

00:25:54,519 --> 00:25:52,730

filing Dale's site in the UK the the the

568

00:25:57,129 --> 00:25:54,529

ballistic missile early warning radar

569

00:25:59,169 --> 00:25:57,139

data in the UK it goes to a place called

570

00:26:01,240 --> 00:25:59,179

the Space Operations Coordination Center

571

00:26:04,149 --> 00:26:01,250

and it also goes to another facility

572

00:26:06,539 --> 00:26:04,159

called the satellite warning service now

573

00:26:12,100 --> 00:26:06,549

in America things get more complicated

574

00:26:14,409 --> 00:26:12,110

the data the the the the data from

575

00:26:16,509 --> 00:26:14,419

rofling dials and it's an its systems

576
00:26:18,970 --> 00:26:16,519
goes to the joint functional component

577
00:26:22,000 --> 00:26:18,980
center for space and specifically within

578
00:26:23,740 --> 00:26:22,010
that Center which is at Vandenberg in

579
00:26:25,690 --> 00:26:23,750
California at the actual the actual

580
00:26:30,820 --> 00:26:25,700
building the data goes to is the joint

581
00:26:33,370 --> 00:26:30,830
space Operations Center now from there

582
00:26:36,039 --> 00:26:33,380
there's different customers so some dart

583
00:26:37,450 --> 00:26:36,049
has some processed data from ballistic

584
00:26:38,950 --> 00:26:37,460
missile early warning system at filing

585
00:26:41,289 --> 00:26:38,960
Dale's like I said it comes through the

586
00:26:43,539 --> 00:26:41,299
the Vandenberg site some of some of the

587
00:26:44,980 --> 00:26:43,549
data gets forwarded onto NORAD's missile

588
00:26:48,250 --> 00:26:44,990

Warning Center at Peterson Air Force

589

00:26:51,190 --> 00:26:48,260

Base Colorado some goes to NASA some

590

00:26:52,899 --> 00:26:51,200

goes to US Strategic Command in Nebraska

591

00:26:56,649 --> 00:26:52,909

oh sorry

592

00:27:00,639 --> 00:26:56,659

in here in Nebraska now this is really

593

00:27:03,399 --> 00:27:00,649

important because you know if somewhere

594

00:27:04,419 --> 00:27:03,409

like RAF filing Geils itself or any of

595

00:27:06,700 --> 00:27:04,429

the ballistic missile early warning

596

00:27:09,009 --> 00:27:06,710

system sites if they won't release you

597

00:27:11,769 --> 00:27:09,019

know objects space object or missile

598

00:27:13,750 --> 00:27:11,779

object or what you could call UFO data

599

00:27:15,460 --> 00:27:13,760

lock UFO detection some reports if they

600

00:27:18,310 --> 00:27:15,470

won't release it then any of these other

601
00:27:20,649 --> 00:27:18,320
sites much so so I mean it's a bit like

602
00:27:22,180 --> 00:27:20,659
if you won't you know if you write a

603
00:27:23,769 --> 00:27:22,190
letter for someone and you won't give me

604
00:27:25,180 --> 00:27:23,779
a copy of the letter maybe I can go to

605
00:27:25,960 --> 00:27:25,190
the person who you wrote it to and

606
00:27:27,610 --> 00:27:25,970
they'll give me a copy

607
00:27:30,549 --> 00:27:27,620
so I've identified

608
00:27:32,799 --> 00:27:30,559
you know a good 15 places or facilities

609
00:27:36,730 --> 00:27:32,809
or squadrons around the world where

610
00:27:38,920 --> 00:27:36,740
we're we're raffling Dale's missile an

611
00:27:41,860 --> 00:27:38,930
object warning data goes to and I'm in

612
00:27:44,470 --> 00:27:41,870
the process of Fi wine all them as well

613
00:27:46,390 --> 00:27:44,480

so I've ever wide Air Force Space

614

00:27:48,640 --> 00:27:46,400

Command I've if I wide NORAD which is

615

00:27:51,700 --> 00:27:48,650

nearly impossible to do and I'll give

616

00:27:53,830 --> 00:27:51,710

you an example of of why well how

617

00:27:56,440 --> 00:27:53,840

difficult incredibly difficult at this

618

00:27:58,299 --> 00:27:56,450

is a really sensitive issue and and the

619

00:28:02,880 --> 00:27:58,309

reason I'll give you an example of how

620

00:28:05,890 --> 00:28:02,890

difficult it is is back back in the 80s

621

00:28:07,900 --> 00:28:05,900

the one of the one of the organizations

622

00:28:10,360 --> 00:28:07,910

that actually received ballistic missile

623

00:28:13,299 --> 00:28:10,370

early warning data from from raffling

624

00:28:15,820 --> 00:28:13,309

Dale's it was a it was a it was a small

625

00:28:18,669 --> 00:28:15,830

squadron at well back then there was

626

00:28:20,650 --> 00:28:18,679

there was an old US Space Command and it

627

00:28:22,510 --> 00:28:20,660

was co-located with the North American

628

00:28:25,060 --> 00:28:22,520

Aerospace Defense Command or NORAD it

629

00:28:27,549 --> 00:28:25,070

was co-located at Cheyenne Mountain in

630

00:28:30,010 --> 00:28:27,559

Colorado right so so in Cheyenne

631

00:28:31,630 --> 00:28:30,020

Mountain Colorado you had you had NORAD

632

00:28:33,010 --> 00:28:31,640

on one side of the room and you had

633

00:28:35,410 --> 00:28:33,020

Space Command on the other side of the

634

00:28:38,070 --> 00:28:35,420

room and both of them will they both had

635

00:28:40,750 --> 00:28:38,080

a joint squadron it was called the first

636

00:28:41,230 --> 00:28:40,760

command and control squadron or one

637

00:28:43,570 --> 00:28:41,240

KAK's

638

00:28:46,210 --> 00:28:43,580

right and one can see their software and

639

00:28:48,820 --> 00:28:46,220

hardware they received you know we'll

640

00:28:51,070 --> 00:28:48,830

call it UFO data or missile or a space

641

00:28:53,380 --> 00:28:51,080

object data they received that sort of

642

00:28:56,110 --> 00:28:53,390

data from all over the world including

643

00:28:59,169 --> 00:28:56,120

from raffling girls in England and they

644

00:29:01,210 --> 00:28:59,179

must have my understanding of one cakes

645

00:29:03,520 --> 00:29:01,220

one cakes was a squadron that lasts for

646

00:29:07,510 --> 00:29:03,530

11 years my understanding is that they

647

00:29:10,390 --> 00:29:07,520

they they must have produced hundreds of

648

00:29:12,490 --> 00:29:10,400

thousands or millions and millions of

649

00:29:14,680 --> 00:29:12,500

pages of records space object

650

00:29:17,200 --> 00:29:14,690

identification reports missile alerts

651
00:29:19,600 --> 00:29:17,210
missile false alerts update reports

652
00:29:23,020 --> 00:29:19,610
manpower and personnel requirements

653
00:29:25,870 --> 00:29:23,030
system outages it you know display

654
00:29:28,000 --> 00:29:25,880
configurations actual images of objects

655
00:29:30,130 --> 00:29:28,010
in space or whatever and if this

656
00:29:32,500 --> 00:29:30,140
squadron if one capsule on just one

657
00:29:34,660 --> 00:29:32,510
capsule on this little squadron if they

658
00:29:36,460 --> 00:29:34,670
produce hundreds of thousands of records

659
00:29:39,580 --> 00:29:36,470
millions of pages of records files

660
00:29:41,260 --> 00:29:39,590
special object assessments special staff

661
00:29:42,790 --> 00:29:41,270
studies i've worked

662
00:29:45,460 --> 00:29:42,800
you know the sort of documentation that

663
00:29:47,350 --> 00:29:45,470

this squadron produced that was there

664

00:29:50,950 --> 00:29:47,360

was you know astrological studies and

665

00:29:52,570 --> 00:29:50,960

and and special analysis point papers

666

00:29:55,420 --> 00:29:52,580

and space object identification

667

00:29:59,260 --> 00:29:55,430

requirements lists and whatever you know

668

00:30:01,420 --> 00:29:59,270

and and so far I've identified there is

669

00:30:02,170 --> 00:30:01,430

in all those years of history at one

670

00:30:05,440 --> 00:30:02,180

Kirk's

671

00:30:08,050 --> 00:30:05,450

in all those years the US Air Force or

672

00:30:11,200 --> 00:30:08,060

NORAD or whatever has only released one

673

00:30:13,360 --> 00:30:11,210

single file there is so in other words

674

00:30:15,100 --> 00:30:13,370

this squadron which like I say must have

675

00:30:19,380 --> 00:30:15,110

produced an enormous amount of stuff on

676

00:30:22,000 --> 00:30:19,390

what essentially are UFOs even if our

677

00:30:23,410 --> 00:30:22,010

missiles and satellites and stuff but

678

00:30:26,200 --> 00:30:23,420

they must have produced millions of

679

00:30:28,840 --> 00:30:26,210

pages of stuff and yet they only have

680

00:30:30,940 --> 00:30:28,850

ever released one single page of record

681

00:30:32,050 --> 00:30:30,950

and that happens to be a fact sheet it

682

00:30:34,180 --> 00:30:32,060

was called Air Force Space Command

683

00:30:37,360 --> 00:30:34,190

mission directive organization mission

684

00:30:38,050 --> 00:30:37,370

field one kaxe that's all I've ever

685

00:30:39,820 --> 00:30:38,060

produced

686

00:30:42,700 --> 00:30:39,830

like that's all they've ever released

687

00:30:45,190 --> 00:30:42,710

under foi extraordinary that that so

688

00:30:48,460 --> 00:30:45,200

I've I'm in the process of going to

689

00:30:50,800 --> 00:30:48,470

NORAD and u.s. Stratcom to release old

690

00:30:52,780 --> 00:30:50,810

one cax records and it is proving

691

00:30:54,780 --> 00:30:52,790

impossible they simply will not release

692

00:30:56,980 --> 00:30:54,790

anything they pretend they can't find it

693

00:30:58,390 --> 00:30:56,990

they pretend they don't know where it's

694

00:30:59,770 --> 00:30:58,400

house they pretend to know what the

695

00:31:02,200 --> 00:30:59,780

search and not know what the squadron

696

00:31:04,450 --> 00:31:02,210

ever actually was even though it was

697

00:31:07,060 --> 00:31:04,460

responsible for frontline early warning

698

00:31:10,120 --> 00:31:07,070

for the Western world for space object

699

00:31:12,340 --> 00:31:10,130

and missile warning they they are simply

700

00:31:16,030 --> 00:31:12,350

not playing ball I mean this so this is

701
00:31:17,950 --> 00:31:16,040
going to be a very very long affair I

702
00:31:22,270 --> 00:31:17,960
wanted to bring up something a little

703
00:31:23,770 --> 00:31:22,280
random and that is in 2001 and by the

704
00:31:25,780 --> 00:31:23,780
way you're right you really can't find

705
00:31:28,720 --> 00:31:25,790
anything on that topic at all except for

706
00:31:30,910 --> 00:31:28,730
what you just said when I was doing just

707
00:31:32,770 --> 00:31:30,920
a little bit of research on the flying

708
00:31:34,780 --> 00:31:32,780
dales regarding the American radar

709
00:31:39,090 --> 00:31:34,790
stations over there

710
00:31:43,920 --> 00:31:39,100
it said in this article done in 2001

711
00:31:46,990 --> 00:31:43,930
that there was a controversial Star Wars

712
00:31:48,130 --> 00:31:47,000
program as you know and I'll just go

713
00:31:50,500 --> 00:31:48,140

ahead and read the paragraph to you

714

00:31:52,420 --> 00:31:50,510

regarding this 2001 article there have

715

00:31:55,120 --> 00:31:52,430

been American radar stations at flying

716

00:31:57,340 --> 00:31:55,130

Dale's and Menwith Hill for

717

00:31:58,900 --> 00:31:57,350

scanning the skies for hostile missiles

718

00:32:01,360 --> 00:31:58,910

they've never attracted much criticism

719

00:32:01,900 --> 00:32:01,370

but recently they've changed in

720

00:32:03,789 --> 00:32:01,910

appearance

721

00:32:05,770 --> 00:32:03,799

surely this could mean only one thing

722

00:32:07,690 --> 00:32:05,780

they will play a central role in the

723

00:32:10,510 --> 00:32:07,700

u.s. president's controversial Star Wars

724

00:32:13,090 --> 00:32:10,520

strategy now it's not just the people of

725

00:32:15,580 --> 00:32:13,100

North Yorkshire who are worrying I

726

00:32:18,700 --> 00:32:15,590

wanted to know did you ever hear about

727

00:32:20,650 --> 00:32:18,710

that topic no no I mean I've looked a

728

00:32:23,200 --> 00:32:20,660

lot of mostly looked into the history

729

00:32:25,180 --> 00:32:23,210

and the actual capabilities of the site

730

00:32:26,830 --> 00:32:25,190

but no I mean there is so much out there

731

00:32:29,409 --> 00:32:26,840

that's very very generalized and yeah I

732

00:32:31,720 --> 00:32:29,419

mean you know like it is definitely a

733

00:32:34,180 --> 00:32:31,730

political issue I mean that the raffling

734

00:32:39,820 --> 00:32:34,190

doll site as part of the wider and

735

00:32:43,419 --> 00:32:39,830

growing new US Space Command Network it

736

00:32:45,070 --> 00:32:43,429

is a frontline site I mean you know it's

737

00:32:47,620 --> 00:32:45,080

been discussed in Britain's Parliament a

738

00:32:50,230 --> 00:32:47,630

lot like how it should be funded you

739

00:32:52,450 --> 00:32:50,240

know the possibility for protests and

740

00:32:53,799 --> 00:32:52,460

terrorism at the site and so on but no

741

00:32:55,779 --> 00:32:53,809

specifically what you've said I haven't

742

00:32:58,060 --> 00:32:55,789

touched that but I mean you know there's

743

00:33:01,029 --> 00:32:58,070

there's a lot you know there's a heck of

744

00:33:03,490 --> 00:33:01,039

a lot out there well it also goes on to

745

00:33:06,669 --> 00:33:03,500

say that culturally the flying dales

746

00:33:08,560 --> 00:33:06,679

have never become unacceptable to

747

00:33:12,340 --> 00:33:08,570

Britons in general do you know what that

748

00:33:19,480 --> 00:33:12,350

means I don't know I mean I I know that

749

00:33:22,570 --> 00:33:19,490

the the the would be it sounds like it

750

00:33:24,070 --> 00:33:22,580

was politicized a little bit yeah anyway

751

00:33:26,710 --> 00:33:24,080

do you think in the future there might

752

00:33:27,970 --> 00:33:26,720

be you know more files or do you think

753

00:33:30,370 --> 00:33:27,980

you might have to hold your breath on

754

00:33:32,919 --> 00:33:30,380

that there's going to be there's going

755

00:33:34,659 --> 00:33:32,929

to be absolutely phenomenal a number of

756

00:33:37,210 --> 00:33:34,669

files but but we're gonna be holding our

757

00:33:39,220 --> 00:33:37,220

breath for years you know like the the

758

00:33:41,289 --> 00:33:39,230

the the chances of us getting anything

759

00:33:43,720 --> 00:33:41,299

out of NORAD whether it's historical or

760

00:33:47,350 --> 00:33:43,730

currency currently that the ballistic

761

00:33:49,390 --> 00:33:47,360

missile early warning system like I said

762

00:33:52,870 --> 00:33:49,400

that the data the data goes both to US

763

00:33:55,750 --> 00:33:52,880

Air Force and to Britain's space and

764

00:33:57,760 --> 00:33:55,760

missile warning cells and and certainly

765

00:34:00,850 --> 00:33:57,770

in the US Air Force the actual the

766

00:34:02,500 --> 00:34:00,860

actual controlling wing of the three

767

00:34:04,419 --> 00:34:02,510

ballistic missile early warning system

768

00:34:06,669 --> 00:34:04,429

sites the controlling win wing is the

769

00:34:08,590 --> 00:34:06,679

21st spice wing and the actual group

770

00:34:08,890 --> 00:34:08,600

underneath that is the 21st Operations

771

00:34:11,140 --> 00:34:08,900

grow

772

00:34:13,600 --> 00:34:11,150

now to get anything out of the 21st

773

00:34:17,050 --> 00:34:13,610

Operations Group about capability radar

774

00:34:18,340 --> 00:34:17,060

detection special studies anything

775

00:34:20,380 --> 00:34:18,350

highly classified it's going to be

776

00:34:23,050 --> 00:34:20,390

nearly impossible but you know like

777

00:34:26,380 --> 00:34:23,060

there is a possibility if foi

778

00:34:28,210 --> 00:34:26,390

laws relax a lot or if there's any

779

00:34:30,670 --> 00:34:28,220

historical data that's deemed to be

780

00:34:32,290 --> 00:34:30,680

worth that it's not particularly

781

00:34:33,910 --> 00:34:32,300

sensitive i mean eventually they will

782

00:34:36,070 --> 00:34:33,920

release it but it's going to take a lot

783

00:34:39,850 --> 00:34:36,080

of letter writing it's going to take a

784

00:34:43,270 --> 00:34:39,860

lot of the archival searching yeah it's

785

00:34:46,570 --> 00:34:43,280

going to be really difficult during a

786

00:34:49,180 --> 00:34:46,580

show with a christian Lambright he was a

787

00:34:51,490 --> 00:34:49,190

very good friend of yours i touched upon

788

00:34:54,520 --> 00:34:51,500

the topic just wanted to bring up a

789

00:34:57,580 --> 00:34:54,530

random subject here regarding FOIAs and

790

00:35:01,090 --> 00:34:57,590

how a you know an individual dedicated

791

00:35:04,080 --> 00:35:01,100

to requesting boys from any government

792

00:35:07,810 --> 00:35:04,090

around the world can run into some

793

00:35:10,810 --> 00:35:07,820

extreme challenges and actually on the

794

00:35:14,230 --> 00:35:10,820

national security archives website they

795

00:35:16,900 --> 00:35:14,240

talked about that topic on that website

796

00:35:22,840 --> 00:35:16,910

they talk about a twenty five-year-old

797

00:35:26,950 --> 00:35:22,850

FOIA requests a FOIA delay continues

798

00:35:29,830 --> 00:35:26,960

unabated meaning it's basically a an

799

00:35:33,250 --> 00:35:29,840

argument that's happened for years where

800

00:35:36,790 --> 00:35:33,260

people will ask ad nauseam what happened

801
00:35:40,840 --> 00:35:36,800
my FOIA for 25 years and they're

802
00:35:42,550 --> 00:35:40,850
basically ignored and then it says here

803
00:35:45,610 --> 00:35:42,560
in this national security archives

804
00:35:51,910 --> 00:35:45,620
article it says the key driver for FOIA

805
00:35:53,860 --> 00:35:51,920
requests that could be it's actually a

806
00:35:56,020 --> 00:35:53,870
strange article i'm gonna have to read a

807
00:35:58,360 --> 00:35:56,030
paragraph before it so it can actually

808
00:35:59,740 --> 00:35:58,370
make sense because these it again it's

809
00:36:01,720 --> 00:35:59,750
very strange the way they talk in this

810
00:36:03,850 --> 00:36:01,730
article so the first paragraph i'm going

811
00:36:05,680 --> 00:36:03,860
to read here is the archive audit audit

812
00:36:08,410 --> 00:36:05,690
team parsed through the annual FOIA

813
00:36:10,330 --> 00:36:08,420

reports federal agencies are required to

814

00:36:12,790 --> 00:36:10,340

submit to the Department of Justice's

815

00:36:14,650 --> 00:36:12,800

Office on information policy and found

816

00:36:16,720 --> 00:36:14,660

that while many agencies appear to have

817

00:36:19,090 --> 00:36:16,730

used new reporting requirements as a

818

00:36:21,200 --> 00:36:19,100

tool to address the oldest agency's FOIA

819

00:36:27,470 --> 00:36:21,210

requests

820

00:36:29,000 --> 00:36:27,480

archive used the fiscal year 2017

821

00:36:30,620 --> 00:36:29,010

reports because they were the most

822

00:36:33,140 --> 00:36:30,630

comprehensive collection available at

823

00:36:35,090 --> 00:36:33,150

the time of publication due to the delay

824

00:36:37,820 --> 00:36:35,100

caused by government shutdown and will

825

00:36:40,520 --> 00:36:37,830

be update and will update this posting

826

00:36:42,290 --> 00:36:40,530

once a complete set of FY 2018 reports

827

00:36:44,840 --> 00:36:42,300

are available then it gets a little

828

00:36:48,320 --> 00:36:44,850

stranger it says the key driver for FOIA

829

00:36:50,870 --> 00:36:48,330

requests that could be renting cars by

830

00:36:53,870 --> 00:36:50,880

now and growing backlogs there must be a

831

00:36:57,170 --> 00:36:53,880

spelling error there is the referral

832

00:36:59,960 --> 00:36:57,180

black hole is what it's called agencies

833

00:37:02,660 --> 00:36:59,970

currently refer or consult on any FOIA

834

00:37:04,850 --> 00:37:02,670

request in which it feels another agency

835

00:37:08,300 --> 00:37:04,860

or agencies may possibly claim ownership

836

00:37:10,970 --> 00:37:08,310

of or equity in the information within

837

00:37:13,580 --> 00:37:10,980

the records this daisy-chain of

838

00:37:17,210 --> 00:37:13,590

referrals can result often in decades

839

00:37:19,220 --> 00:37:17,220

long delay and the re-review of the same

840

00:37:22,130 --> 00:37:19,230

document by multiple agencies is

841

00:37:25,660 --> 00:37:22,140

redundant costly and inefficient I guess

842

00:37:29,140 --> 00:37:25,670

it doesn't really shock you and that how

843

00:37:32,060 --> 00:37:29,150

ineffective inefficient and apathetic

844

00:37:33,500 --> 00:37:32,070

the US government probably the UK

845

00:37:36,260 --> 00:37:33,510

government I'm guessing you'll have to

846

00:37:39,770 --> 00:37:36,270

confirm that how how they react to a

847

00:37:45,310 --> 00:37:39,780

person who typically is dedicated to

848

00:37:47,960 --> 00:37:45,320

FOIA requests and they get kind of a

849

00:37:51,350 --> 00:37:47,970

non-response or when they do get a

850

00:37:54,290 --> 00:37:51,360

response it puts them it forces a person

851

00:37:56,800 --> 00:37:54,300

like you into a circular conversation

852

00:37:59,360 --> 00:37:56,810

with them so it's going to ask you

853

00:38:03,560 --> 00:37:59,370

statistically just a guess on your part

854

00:38:09,110 --> 00:38:03,570

in your lifetime of requesting FOIAs

855

00:38:11,660 --> 00:38:09,120

from any government how often do you get

856

00:38:13,280 --> 00:38:11,670

stonewalled on it all the time all the

857

00:38:14,930 --> 00:38:13,290

time I can give you so many examples we

858

00:38:19,100 --> 00:38:14,940

could hate be hail me but would you say

859

00:38:21,920 --> 00:38:19,110

the percent of the time for America when

860

00:38:23,630 --> 00:38:21,930

I'm when I'm requesting military and to

861

00:38:25,370 --> 00:38:23,640

a lesser extent intelligence material

862

00:38:28,730 --> 00:38:25,380

but but particularly operational

863

00:38:31,370 --> 00:38:28,740

military material or administrative

864

00:38:33,350 --> 00:38:31,380

material there is it is so common

865

00:38:34,370 --> 00:38:33,360

probably above fifty percent of the time

866

00:38:35,780 --> 00:38:34,380

the the agent

867

00:38:39,470 --> 00:38:35,790

see that our request information from

868

00:38:41,960 --> 00:38:39,480

will consult with two three four five

869

00:38:44,600 --> 00:38:41,970

other agencies at different layerings of

870

00:38:50,060 --> 00:38:44,610

government so for example let's say I

871

00:38:52,670 --> 00:38:50,070

asked for certain records from the 11th

872

00:38:55,640 --> 00:38:52,680

tactical control group in Alaska right

873

00:38:57,320 --> 00:38:55,650

which is which is those records are

874

00:39:00,230 --> 00:38:57,330

controlled by the United States Air

875

00:39:01,910 --> 00:39:00,240

Forces Alaska Air Region find simple

876

00:39:03,880 --> 00:39:01,920

that's that's that's one organization

877

00:39:06,320 --> 00:39:03,890

within another organization that's fine

878

00:39:08,960 --> 00:39:06,330

okay then they'll come back to me and

879

00:39:11,690 --> 00:39:08,970

say hold on we've got a consult with

880

00:39:14,600 --> 00:39:11,700

Pacific Air Force Headquarters we've got

881

00:39:21,670 --> 00:39:14,610

a consult with Pacific Command we've got

882

00:39:27,170 --> 00:39:24,890

regions say the 25th Air Division at

883

00:39:30,140 --> 00:39:27,180

McChord Air Force Base we've got a

884

00:39:32,000 --> 00:39:30,150

consult with let's see who else would

885

00:39:33,920 --> 00:39:32,010

maybe if it's an old document if the

886

00:39:35,690 --> 00:39:33,930

whoever inherited Air Force Systems

887

00:39:36,860 --> 00:39:35,700

Command documents so that would be the

888

00:39:38,570 --> 00:39:36,870

Air Force materials command at

889

00:39:40,340 --> 00:39:38,580

wright-patterson Air Force Base and so

890

00:39:43,370 --> 00:39:40,350

on so you get this situation where you

891

00:39:44,420 --> 00:39:43,380

ask for you know the documents you asked

892

00:39:47,660 --> 00:39:44,430

for documents within a particular

893

00:39:49,940 --> 00:39:47,670

squadron or wing or within say an

894

00:39:50,960 --> 00:39:49,950

intelligence community document like say

895

00:39:53,300 --> 00:39:50,970

the Directorate of Science and

896

00:39:55,100 --> 00:39:53,310

Technology within the CIA and all of a

897

00:39:56,570 --> 00:39:55,110

sudden they say well that's all right we

898

00:39:58,130 --> 00:39:56,580

might want to release these records

899

00:40:00,440 --> 00:39:58,140

that's fine but we've got to consult

900

00:40:03,620 --> 00:40:00,450

with the NSA we've got a consult with

901
00:40:08,420 --> 00:40:03,630
you know in ska army intelligence we've

902
00:40:10,820 --> 00:40:08,430
got a consult with a Air Force Systems

903
00:40:13,310 --> 00:40:10,830
Command or whatever it happens all the

904
00:40:14,930 --> 00:40:13,320
time and it's very very very slow you

905
00:40:18,170 --> 00:40:14,940
know like I've seen this I've seen this

906
00:40:20,000 --> 00:40:18,180
many many many times I mean even with

907
00:40:21,980 --> 00:40:20,010
with all this filing Dale stuff I've

908
00:40:24,710 --> 00:40:21,990
been asking the British government for

909
00:40:27,200 --> 00:40:24,720
filing draft filing diols material I've

910
00:40:28,910 --> 00:40:27,210
been asking them for a long time and

911
00:40:33,350 --> 00:40:28,920
even I mean they're not going to release

912
00:40:34,880 --> 00:40:33,360
actual object data but but the the aside

913
00:40:36,320 --> 00:40:34,890

from that that they're not going to

914

00:40:38,900 --> 00:40:36,330

release anything in any way because

915

00:40:43,550 --> 00:40:38,910

raffling does is an international site

916

00:40:46,100 --> 00:40:43,560

like it's it's it's its own I've got it

917

00:40:49,309 --> 00:40:46,110

I've got a statement here that discusses

918

00:40:56,190 --> 00:40:54,390

I've got a I've got a a in another

919

00:40:58,410 --> 00:40:56,200

request that I did for a filing Dale's

920

00:41:01,079 --> 00:40:58,420

doctrinal wasn't asking for actual

921

00:41:02,760 --> 00:41:01,089

object identification records I was

922

00:41:04,740 --> 00:41:02,770

asking for administrative material from

923

00:41:06,960 --> 00:41:04,750

the British government and like I simply

924

00:41:10,589 --> 00:41:06,970

came back and they said that being a US

925

00:41:12,029 --> 00:41:10,599

adjoints British and US side they've

926
00:41:13,710 --> 00:41:12,039
said he having reviewed the information

927
00:41:15,359 --> 00:41:13,720
Howell it is evident that the

928
00:41:16,950 --> 00:41:15,369
information requested may fall within

929
00:41:22,410 --> 00:41:16,960
the scope of international relations

930
00:41:24,240 --> 00:41:22,420
exemptions 27 1 8 27 27 2 and 27 3 these

931
00:41:26,069 --> 00:41:24,250
exemptions require us to conduct a

932
00:41:30,079 --> 00:41:26,079
Public Interest tests bla bla bla bla

933
00:41:32,309 --> 00:41:30,089
bla so you know they're basically

934
00:41:34,440 --> 00:41:32,319
they're basically saying that these doc

935
00:41:36,630 --> 00:41:34,450
you got another sentence that says these

936
00:41:37,500 --> 00:41:36,640
documents contain information expecting

937
00:41:40,319 --> 00:41:37,510
the National Defense of the United

938
00:41:42,029 --> 00:41:40,329

States within the meaning of espionage

939

00:41:44,400 --> 00:41:42,039

laws bla bla bla bla bla

940

00:41:46,170 --> 00:41:44,410

so the so even even if you find

941

00:41:48,630 --> 00:41:46,180

something even if you want some fairly

942

00:41:50,039 --> 00:41:48,640

specific documents in a case of say the

943

00:41:51,329 --> 00:41:50,049

case of raffling dollars it's even

944

00:41:54,089 --> 00:41:51,339

harder because they've got to go through

945

00:41:56,460 --> 00:41:54,099

international bodies like you know the

946

00:41:58,019 --> 00:41:56,470

US Air Force so this happens all the

947

00:41:59,970 --> 00:41:58,029

time to answer your question I'm not I'm

948

00:42:02,519 --> 00:41:59,980

not surprised at all so I wanted to ask

949

00:42:05,220 --> 00:42:02,529

you another question so let me preface

950

00:42:07,470 --> 00:42:05,230

my question with kind of how you

951
00:42:09,839 --> 00:42:07,480
summarized it now I'm going to bring up

952
00:42:13,170 --> 00:42:09,849
some points that you made and then I'll

953
00:42:15,390 --> 00:42:13,180
ask my question and a few things a few

954
00:42:18,049 --> 00:42:15,400
points you made and then I'll may be out

955
00:42:21,120 --> 00:42:18,059
in one of one of my own there's endless

956
00:42:23,760 --> 00:42:21,130
possibly or potentially endless

957
00:42:27,210 --> 00:42:23,770
paperwork and red tape a lack of

958
00:42:28,980 --> 00:42:27,220
decision-making ability I'm talking on

959
00:42:31,589 --> 00:42:28,990
behalf of the government's you're asking

960
00:42:36,890 --> 00:42:31,599
regarding FOIAs seemingly seemingly

961
00:42:38,789 --> 00:42:36,900
useless policies possibly lack of a

962
00:42:41,180 --> 00:42:38,799
transparency which is why you're asking

963
00:42:44,789 --> 00:42:41,190

for the FOIA is in the first place and

964

00:42:55,380 --> 00:42:44,799

all that can be a blessing and a curse

965

00:42:58,740 --> 00:42:55,390

mostly occurs it was how does he permit

966

00:43:00,520 --> 00:42:58,750

with it psychologically oh boy patience

967

00:43:03,609 --> 00:43:00,530

absolutely enormous Matt supply

968

00:43:04,300 --> 00:43:03,619

you've got to you've got to well one of

969

00:43:05,589 --> 00:43:04,310

them you've got to have great

970

00:43:07,450 --> 00:43:05,599

record-keeping so you've got to keep

971

00:43:10,089 --> 00:43:07,460

copies of all if I wash I've sent out

972

00:43:11,559 --> 00:43:10,099

all the appeals you've made but

973

00:43:13,510 --> 00:43:11,569

psychologically you've got to be patient

974

00:43:15,880 --> 00:43:13,520

you're in it for the long haul I mean in

975

00:43:18,520 --> 00:43:15,890

Australia it's much we're much luckier

976
00:43:22,900 --> 00:43:18,530
here al now at the Department of Defense

977
00:43:24,220 --> 00:43:22,910
anyway ll ow if I wire system is totally

978
00:43:27,250 --> 00:43:24,230
centralized for the Department of

979
00:43:29,380 --> 00:43:27,260
Defense that's Army Air Force Navy and

980
00:43:30,910 --> 00:43:29,390
and then top echelon records like the

981
00:43:33,099 --> 00:43:30,920
Minister of Defence and and whatever

982
00:43:35,859 --> 00:43:33,109
it's all centralized so here it's quite

983
00:43:37,960 --> 00:43:35,869
easy it's much easier but for for the

984
00:43:39,609 --> 00:43:37,970
for the United States and and even the

985
00:43:41,980 --> 00:43:39,619
United Kingdom you've got to be

986
00:43:45,010 --> 00:43:41,990
incredibly patient you've got to read

987
00:43:47,020 --> 00:43:45,020
the FOI act like you've if you if you

988
00:43:50,020 --> 00:43:47,030

could stomach it you've got a read the

989

00:43:55,319 --> 00:43:50,030

laws you've got it's really advantageous

990

00:43:57,550 --> 00:43:55,329

to read read the results of other foi

991

00:43:59,800 --> 00:43:57,560

requesters work like you know

992

00:44:02,500 --> 00:43:59,810

journalists work and and researchers

993

00:44:04,210 --> 00:44:02,510

work and university professors studies

994

00:44:05,890 --> 00:44:04,220

and so on you've got a read other people

995

00:44:08,140 --> 00:44:05,900

you eat you wouldn't just go in just

996

00:44:09,579 --> 00:44:08,150

blasting out if I were requests if other

997

00:44:11,170 --> 00:44:09,589

people had already done the same stuff

998

00:44:12,790 --> 00:44:11,180

so you've got to do a mixture of

999

00:44:16,690 --> 00:44:12,800

research and you've got to have a lot of

1000

00:44:18,460 --> 00:44:16,700

patience yeah so and and we all know you

1001
00:44:20,200 --> 00:44:18,470
have an immense amount of patience and

1002
00:44:21,819 --> 00:44:20,210
you're not afraid of hearing no because

1003
00:44:24,430 --> 00:44:21,829
obviously you wouldn't have been asking

1004
00:44:26,859 --> 00:44:24,440
for is all these years later now I

1005
00:44:29,170 --> 00:44:26,869
wanted to bring up another FOIA topic if

1006
00:44:30,309 --> 00:44:29,180
you don't mind and I'll go ahead and

1007
00:44:33,550 --> 00:44:30,319
preface again with a little bit of

1008
00:44:34,930 --> 00:44:33,560
information mainstream media like for

1009
00:44:37,120 --> 00:44:34,940
example let's just say the New York

1010
00:44:39,450 --> 00:44:37,130
Times they have deep pockets so if they

1011
00:44:42,940 --> 00:44:39,460
need to go ahead and create a lawsuit

1012
00:44:46,150 --> 00:44:42,950
regarding a FOIA request they probably

1013
00:44:48,640 --> 00:44:46,160

can do that no problem but an individual

1014

00:44:50,530 --> 00:44:48,650

like yourself who does all this for free

1015

00:44:52,839 --> 00:44:50,540

you don't get paid a dime for what you

1016

00:44:55,030 --> 00:44:52,849

do this is all volunteer based and you

1017

00:44:58,150 --> 00:44:55,040

work just as hard if not harder and then

1018

00:45:00,579 --> 00:44:58,160

most people regarding FOIA requests and

1019

00:45:04,000 --> 00:45:00,589

you're just utterly dedicated to that

1020

00:45:07,089 --> 00:45:04,010

exercise of requesting information for

1021

00:45:09,730 --> 00:45:07,099

transparencies sake what do you do when

1022

00:45:12,910 --> 00:45:09,740

you realize that you're dealing with a

1023

00:45:14,260 --> 00:45:12,920

flawed decision in other words let's say

1024

00:45:16,780 --> 00:45:14,270

you get a letter back

1025

00:45:18,400 --> 00:45:16,790

or one of many indicating that you don't

1026

00:45:20,650 --> 00:45:18,410

have the right friend from information

1027

00:45:23,710 --> 00:45:20,660

you're asking but you know you do and

1028

00:45:27,160 --> 00:45:23,720

you don't have the money to create a

1029

00:45:29,860 --> 00:45:27,170

lawsuit to force that agency or agencies

1030

00:45:33,370 --> 00:45:29,870

to give that information that rightfully

1031

00:45:34,630 --> 00:45:33,380

should be given what do you do that's a

1032

00:45:37,360 --> 00:45:34,640

good question and there's a couple of

1033

00:45:39,970 --> 00:45:37,370

things you can do one you can appeal it

1034

00:45:41,290 --> 00:45:39,980

you can you can any foi decision where

1035

00:45:43,180 --> 00:45:41,300

they come back and they say we have no

1036

00:45:45,280 --> 00:45:43,190

records or we have records but we can't

1037

00:45:47,350 --> 00:45:45,290

find them or we need more time and we

1038

00:45:49,600 --> 00:45:47,360

need even more time and whatever you can

1039

00:45:52,480 --> 00:45:49,610

appeal it you can appeal it and that can

1040

00:45:53,740 --> 00:45:52,490

sometimes yield records or yield further

1041

00:45:55,420 --> 00:45:53,750

information that you didn't know before

1042

00:45:57,340 --> 00:45:55,430

like where the records are physically

1043

00:45:58,690 --> 00:45:57,350

kept or where they used to be physically

1044

00:46:02,260 --> 00:45:58,700

kept or whatever that's one thing you

1045

00:46:04,660 --> 00:46:02,270

can do another thing you can do is is

1046

00:46:07,270 --> 00:46:04,670

ultimately all records eventually are

1047

00:46:09,730 --> 00:46:07,280

truly archived and go somewhere that's

1048

00:46:11,920 --> 00:46:09,740

on microfiche harddrive physical files

1049

00:46:14,020 --> 00:46:11,930

in in manila folders whatever they

1050

00:46:16,060 --> 00:46:14,030

ultimately are either destroyed or they

1051
00:46:19,630 --> 00:46:16,070
have to go somewhere so in the case of

1052
00:46:21,550 --> 00:46:19,640
the United States old USA for US

1053
00:46:23,740 --> 00:46:21,560
Airforce files or US Navy files or

1054
00:46:25,300 --> 00:46:23,750
whatever they can go to the National

1055
00:46:29,160 --> 00:46:25,310
Archives and Records Administration in

1056
00:46:32,230 --> 00:46:29,170
Washington DC they can go into the Naval

1057
00:46:34,660 --> 00:46:32,240
War College they might go to Maxwell Air

1058
00:46:36,970 --> 00:46:34,670
Force bases has two Air Force historical

1059
00:46:38,890 --> 00:46:36,980
research agency they might they might go

1060
00:46:41,050 --> 00:46:38,900
to the federal records Center of San

1061
00:46:44,140 --> 00:46:41,060
Luis one thing you can do is try and

1062
00:46:48,100 --> 00:46:44,150
speed that up so let's say let's say you

1063
00:46:50,860 --> 00:46:48,110

ask for records from NASA 10-8 like 1983

1064

00:46:52,720 --> 00:46:50,870

records and let's say US Strategic

1065

00:46:54,610 --> 00:46:52,730

Command comes back and says well we've

1066

00:46:59,200 --> 00:46:54,620

found some of the records you want the

1067

00:47:01,000 --> 00:46:59,210

rest we can't find and you know that

1068

00:47:03,130 --> 00:47:01,010

we're gonna knock you back for blah blah

1069

00:47:05,740 --> 00:47:03,140

blah what you can do you can then go to

1070

00:47:07,690 --> 00:47:05,750

the National Archives or the or you know

1071

00:47:09,550 --> 00:47:07,700

the the Air Force historical research

1072

00:47:12,040 --> 00:47:09,560

agency or whatever and you can say to

1073

00:47:14,710 --> 00:47:12,050

them hey look I've just done some if I

1074

00:47:16,270 --> 00:47:14,720

work with US Stratcom they've got some

1075

00:47:18,160 --> 00:47:16,280

records which really you should have by

1076

00:47:20,080 --> 00:47:18,170

now because they're still sitting on

1077

00:47:21,910 --> 00:47:20,090

them in their libraries and in their big

1078

00:47:23,560 --> 00:47:21,920

vaults and you know shouldn't they be

1079

00:47:25,990 --> 00:47:23,570

requested centrally by now because

1080

00:47:27,980 --> 00:47:26,000

they're so old so basically all the

1081

00:47:30,320 --> 00:47:27,990

records are all records eventually on

1082

00:47:31,970 --> 00:47:30,330

records should eventually go to big

1083

00:47:34,760 --> 00:47:31,980

archival centers they should be

1084

00:47:36,650 --> 00:47:34,770

declassified usually Declassified and go

1085

00:47:38,420 --> 00:47:36,660

to big archival centers and you can see

1086

00:47:40,070 --> 00:47:38,430

if you can speed that up by saying well

1087

00:47:41,480 --> 00:47:40,080

you know guys you shouldn't actually

1088

00:47:43,190 --> 00:47:41,490

have to still have these records anyway

1089

00:47:45,200 --> 00:47:43,200

they're 40 years old maybe you should

1090

00:47:47,660 --> 00:47:45,210

sequester them and sent literally send

1091

00:47:50,540 --> 00:47:47,670

them to the National Archives or the

1092

00:47:53,480 --> 00:47:50,550

Space Museum or whatever and and then

1093

00:47:54,590 --> 00:47:53,490

but even that is of course very slow so

1094

00:47:57,560 --> 00:47:54,600

that's one thing you can do another

1095

00:47:59,480 --> 00:47:57,570

thing you can do is is possibly find out

1096

00:48:01,190 --> 00:47:59,490

let's say there's some records that they

1097

00:48:04,120 --> 00:48:01,200

refuse to release or pretend they don't

1098

00:48:06,800 --> 00:48:04,130

have you can see if possibly in the past

1099

00:48:08,750 --> 00:48:06,810

anyone else has got those records out so

1100

00:48:11,690 --> 00:48:08,760

I know an author who's actually recently

1101

00:48:14,270 --> 00:48:11,700

died he's a very famous the aerospace

1102

00:48:16,760 --> 00:48:14,280

and space historian his name was Jeffrey

1103

00:48:19,220 --> 00:48:16,770

T Richardson and he wrote a lot of books

1104

00:48:23,900 --> 00:48:19,230

on space satellites space object

1105

00:48:26,720 --> 00:48:23,910

detection the army the history of the

1106

00:48:28,940 --> 00:48:26,730

CIA etc he was a really brilliant guy

1107

00:48:31,550 --> 00:48:28,950

and I had a fair bit to do with him via

1108

00:48:33,830 --> 00:48:31,560

email usually sometimes on the phone but

1109

00:48:36,230 --> 00:48:33,840

anyway Jeffrey to rich Wilson he managed

1110

00:48:38,870 --> 00:48:36,240

back in the 80s and 90s to get a heck of

1111

00:48:40,780 --> 00:48:38,880

a lot of records out of the US Air Force

1112

00:48:43,880 --> 00:48:40,790

and the US Navy and the US Army and

1113

00:48:45,500 --> 00:48:43,890

these records now I can't find them or

1114

00:48:46,910 --> 00:48:45,510

they say that's a highly classified or

1115

00:48:49,670 --> 00:48:46,920

whatever but he actually got them out

1116

00:48:51,290 --> 00:48:49,680

and I was able before he died I was able

1117

00:48:54,830 --> 00:48:51,300

to actually track down where his records

1118

00:48:57,620 --> 00:48:54,840

were and his research assistant Jennifer

1119

00:48:59,180 --> 00:48:57,630

Rimmer actually sent me some of the most

1120

00:49:00,700 --> 00:48:59,190

important records I've ever seen there

1121

00:49:03,320 --> 00:49:00,710

was squadron and wing based

1122

00:49:05,620 --> 00:49:03,330

administrative and command records there

1123

00:49:09,200 --> 00:49:05,630

were instructions manuals regulations

1124

00:49:11,030 --> 00:49:09,210

from Air Division and aerospace epsilon

1125

00:49:13,880 --> 00:49:11,040

level of the US Air Force what other

1126
00:49:16,520 --> 00:49:13,890
records were there fact sheets and chart

1127
00:49:21,020 --> 00:49:16,530
books memorandums of understanding

1128
00:49:22,910 --> 00:49:21,030
between space like space agencies they

1129
00:49:25,280 --> 00:49:22,920
were there were records on the actual

1130
00:49:27,320 --> 00:49:25,290
physical capabilities of radar sites and

1131
00:49:30,530 --> 00:49:27,330
and optical telescopes sites scattered

1132
00:49:32,720 --> 00:49:30,540
across the United States all sorts of

1133
00:49:34,520 --> 00:49:32,730
all sorts of record records that I would

1134
00:49:35,510 --> 00:49:34,530
have thought would now be classified but

1135
00:49:37,430 --> 00:49:35,520
back in the 80s they weren't

1136
00:49:38,270 --> 00:49:37,440
particularly interesting which is ironic

1137
00:49:41,150 --> 00:49:38,280
you'd think it would be the other way

1138
00:49:41,980 --> 00:49:41,160

around but no but the very records are

1139

00:49:45,760 --> 00:49:41,990

Jeffrey Taylor

1140

00:49:48,190 --> 00:49:45,770

Richardson got out in in the 80s and 90s

1141

00:49:50,079 --> 00:49:48,200

a record sale to can't find at the

1142

00:49:52,420 --> 00:49:50,089

moment or or they consider to be too

1143

00:49:53,829 --> 00:49:52,430

sensitive and he he's somehow managed to

1144

00:49:55,450 --> 00:49:53,839

get them out because he was an excellent

1145

00:49:57,849 --> 00:49:55,460

researcher he was a very very dogmatic

1146

00:49:59,800 --> 00:49:57,859

researcher he had a bit of funding from

1147

00:50:01,540 --> 00:49:59,810

universities as well and he wrote very

1148

00:50:02,410 --> 00:50:01,550

very popular book so he had a lot more

1149

00:50:04,390 --> 00:50:02,420

clout than I do

1150

00:50:06,099 --> 00:50:04,400

I mean I'm stuck in Australia as an

1151

00:50:09,490 --> 00:50:06,109

individual researcher he had a whole

1152

00:50:11,230 --> 00:50:09,500

organization behind him and and then he

1153

00:50:13,720 --> 00:50:11,240

I mean to have a research assistant like

1154

00:50:16,630 --> 00:50:13,730

Jennifer who helped me out knowing when

1155

00:50:19,540 --> 00:50:16,640

when I started asking Jeffery for scant

1156

00:50:20,740 --> 00:50:19,550

materials was fantastic so sometimes

1157

00:50:22,300 --> 00:50:20,750

you've got to look back into the past

1158

00:50:23,680 --> 00:50:22,310

and see what other people have managed

1159

00:50:25,510 --> 00:50:23,690

to get out of government agencies but

1160

00:50:26,829 --> 00:50:25,520

it's very slow you know you're gonna

1161

00:50:31,740 --> 00:50:26,839

write a lot of books a lot of magazines

1162

00:50:34,270 --> 00:50:31,750

and yeah yeah I wanted to also bring up

1163

00:50:35,890 --> 00:50:34,280

an interesting topic if you don't mind

1164

00:50:38,650 --> 00:50:35,900

touching on it just a little bit and

1165

00:50:40,960 --> 00:50:38,660

that is the you'll see where I'm going

1166

00:50:45,849 --> 00:50:40,970

with this it's still related to the FOIA

1167

00:50:47,980 --> 00:50:45,859

topic Richard Doty he wrote a wonderful

1168

00:50:50,680 --> 00:50:47,990

article regarding this on UFOs

1169

00:50:54,670 --> 00:50:50,690

documenting the evidence was in June of

1170

00:50:57,130 --> 00:50:54,680

2018 and the title of it is finally

1171

00:51:01,300 --> 00:50:57,140

Richard C Doty's United States Air Force

1172

00:51:02,859 --> 00:51:01,310

service records well nearly and wanted

1173

00:51:04,420 --> 00:51:02,869

to ask you a question about that before

1174

00:51:09,609 --> 00:51:04,430

you cover that just a little bit and

1175

00:51:11,650 --> 00:51:09,619

that is is it true and that when if FOIA

1176
00:51:16,030 --> 00:51:11,660
requests were put forth regarding

1177
00:51:18,730 --> 00:51:16,040
Richard Doty do you believe it's

1178
00:51:24,599 --> 00:51:18,740
possible that the agency or agencies

1179
00:51:26,740 --> 00:51:24,609
that released the documentation on Doty

1180
00:51:31,270 --> 00:51:26,750
accidentally gave too too much

1181
00:51:32,740 --> 00:51:31,280
information yes before you answer that

1182
00:51:36,400 --> 00:51:32,750
one asks you if they gave too much

1183
00:51:39,190 --> 00:51:36,410
information do you secretly believe it's

1184
00:51:44,730 --> 00:51:39,200
possible it's because the individual or

1185
00:51:48,849 --> 00:51:44,740
individuals that granted those documents

1186
00:51:50,620 --> 00:51:48,859
did not know what they were doing that's

1187
00:51:53,200 --> 00:51:50,630
yeah I have thought about this quite a

1188
00:51:54,990 --> 00:51:53,210

bit it's a good question I can tell you

1189

00:51:56,550 --> 00:51:55,000

this right now the the Richard Doty

1190

00:51:58,530 --> 00:51:56,560

records I didn't obviously get them out

1191

00:52:01,410 --> 00:51:58,540

what actually happened was researcher

1192

00:52:04,410 --> 00:52:01,420

Larry Bryant he he he had he actually

1193

00:52:06,090 --> 00:52:04,420

wrote a number of FOI requests who I

1194

00:52:07,650 --> 00:52:06,100

think it was like I look it was one of

1195

00:52:09,200 --> 00:52:07,660

the airbase wings and one of the afar's

1196

00:52:11,550 --> 00:52:09,210

he detachments and one of the

1197

00:52:13,230 --> 00:52:11,560

administrative squadrons at Kirkland Air

1198

00:52:15,060 --> 00:52:13,240

Force Base and Bolling Air Force Base

1199

00:52:17,430 --> 00:52:15,070

headquarters opposed in so on he wrote

1200

00:52:19,830 --> 00:52:17,440

yeah he wrote a CAF UFO are a question

1201

00:52:23,900 --> 00:52:19,840

and he got this sort of this sort of

1202

00:52:27,210 --> 00:52:23,910

mixed sort of dissimilar a batch of

1203

00:52:30,060 --> 00:52:27,220

records particularly quite old records

1204

00:52:31,680 --> 00:52:30,070

on on Richard Doty there is Staff

1205

00:52:33,000 --> 00:52:31,690

Sergeant Richard Doty he he got all this

1206

00:52:34,710 --> 00:52:33,010

stuff out look there was a good I can't

1207

00:52:36,810 --> 00:52:34,720

remember forty pages or something thirty

1208

00:52:39,090 --> 00:52:36,820

pages and I can tell you two things I

1209

00:52:42,090 --> 00:52:39,100

can tell you now if if someone like me

1210

00:52:43,770 --> 00:52:42,100

or whatever tried that now there is

1211

00:52:45,420 --> 00:52:43,780

every chance that they would not release

1212

00:52:48,060 --> 00:52:45,430

them because because we've got the

1213

00:52:49,920 --> 00:52:48,070

Privacy Act now I mean back in 1988 when

1214

00:52:51,450 --> 00:52:49,930

Larry Bryant got that material released

1215

00:52:53,850 --> 00:52:51,460

the Privacy Act was much weaker than

1216

00:52:55,770 --> 00:52:53,860

what it is now now it's very very strong

1217

00:52:57,600 --> 00:52:55,780

everyone's everyone's hypnotized by this

1218

00:52:59,280 --> 00:52:57,610

Privacy Act everyone's terrified to

1219

00:53:01,380 --> 00:52:59,290

release anything on anyone's privacy and

1220

00:53:03,390 --> 00:53:01,390

those records are quite specific I mean

1221

00:53:05,400 --> 00:53:03,400

those Richard Doty records they'd they

1222

00:53:08,160 --> 00:53:05,410

discuss what sort of tickets he had like

1223

00:53:10,080 --> 00:53:08,170

like courses qualifications you know

1224

00:53:13,170 --> 00:53:10,090

what sort of aptitude testing he was

1225

00:53:16,230 --> 00:53:13,180

doing his his his exact places of tours

1226

00:53:19,550 --> 00:53:16,240

of duty right down to the to specific

1227

00:53:21,720 --> 00:53:19,560

dates various that the names of various

1228

00:53:24,390 --> 00:53:21,730

students going through courses that were

1229

00:53:26,130 --> 00:53:24,400

with him addresses all this sort of

1230

00:53:28,200 --> 00:53:26,140

stuff it was it was it was quite an

1231

00:53:30,240 --> 00:53:28,210

eye-opener and um but I can tell you

1232

00:53:32,820 --> 00:53:30,250

right now that there is no way it will

1233

00:53:36,390 --> 00:53:32,830

almost no way that a fuzzy or Kirkland

1234

00:53:38,370 --> 00:53:36,400

Air Force bases administrative airbase

1235

00:53:40,380 --> 00:53:38,380

wings records would be released now I

1236

00:53:42,750 --> 00:53:40,390

just I mean they may be released but

1237

00:53:45,900 --> 00:53:42,760

with huge reductions like massive pages

1238

00:53:48,030 --> 00:53:45,910

of black ink all over them and a fancy

1239

00:53:49,860 --> 00:53:48,040

other bit of the question and the person

1240

00:53:51,870 --> 00:53:49,870

who released them to Larry Bryant I

1241

00:53:56,700 --> 00:53:51,880

would I mean it would be nice to think

1242

00:53:58,080 --> 00:53:56,710

that that that they that they were and

1243

00:53:59,610 --> 00:53:58,090

there's possibility that they release

1244

00:54:01,470 --> 00:53:59,620

them because they knew exactly what they

1245

00:54:04,620 --> 00:54:01,480

were doing because doping was then by

1246

00:54:06,990 --> 00:54:04,630

somewhat well-known in media circles in

1247

00:54:08,490 --> 00:54:07,000

UFO community but probably more likely

1248

00:54:10,200 --> 00:54:08,500

the person who

1249

00:54:14,010 --> 00:54:10,210

those documents and redacted some of

1250

00:54:15,480 --> 00:54:14,020

them were simply rushed they were there

1251
00:54:16,950 --> 00:54:15,490
you know there may be a lot of personnel

1252
00:54:18,300 --> 00:54:16,960
records were being released at the time

1253
00:54:19,440 --> 00:54:18,310
and this was just another batch you know

1254
00:54:21,270 --> 00:54:19,450
who knows I don't know

1255
00:54:22,770 --> 00:54:21,280
Larry Bryant would know better mean but

1256
00:54:24,540 --> 00:54:22,780
that that was that release was in

1257
00:54:27,690 --> 00:54:24,550
nineteen eighty eight which is which is

1258
00:54:30,840 --> 00:54:27,700
I guess you know some thirty years ago

1259
00:54:32,550 --> 00:54:30,850
or so so III I wouldn't mind saying I

1260
00:54:34,740 --> 00:54:32,560
wouldn't mind saying you know what else

1261
00:54:36,090 --> 00:54:34,750
what what I mean they must have they

1262
00:54:37,620 --> 00:54:36,100
must have had a lot of material that

1263
00:54:41,610 --> 00:54:37,630

they didn't release in the form of

1264

00:54:43,200 --> 00:54:41,620

probably quite dry stuff like you know

1265

00:54:45,390 --> 00:54:43,210

like applications for annual leave and

1266

00:54:47,520 --> 00:54:45,400

sickness reports and like medical

1267

00:54:49,860 --> 00:54:47,530

incidences and an Occupational Health

1268

00:54:51,480 --> 00:54:49,870

and Safety and everytime in the USA of

1269

00:54:53,490 --> 00:54:51,490

course every time you fall over every

1270

00:54:55,080 --> 00:54:53,500

time you put a bandaid on every time you

1271

00:54:56,310 --> 00:54:55,090

come like for work every time you're

1272

00:54:59,310 --> 00:54:56,320

suspected of being under the influence

1273

00:55:01,470 --> 00:54:59,320

of alcohol every time you know you you

1274

00:55:04,080 --> 00:55:01,480

you fail to appear at a meeting or fail

1275

00:55:05,490 --> 00:55:04,090

to write down you know it's it's so much

1276

00:55:07,350 --> 00:55:05,500

as recorded and and some of that

1277

00:55:09,300 --> 00:55:07,360

material will be very dry and probably

1278

00:55:12,390 --> 00:55:09,310

destroyed by now and someone but I don't

1279

00:55:13,740 --> 00:55:12,400

know you know I I never heard from

1280

00:55:16,200 --> 00:55:13,750

Richard Doty on that when I released

1281

00:55:17,910 --> 00:55:16,210

that stuff I don't know why Larry Bryan

1282

00:55:22,320 --> 00:55:17,920

didn't release it years ago and I don't

1283

00:55:25,130 --> 00:55:22,330

know why what yeah when I released that

1284

00:55:27,210 --> 00:55:25,140

stuff on my blog and put it put it out

1285

00:55:29,130 --> 00:55:27,220

Ill would have thought Richard Doty

1286

00:55:30,480 --> 00:55:29,140

himself would actually sort of say

1287

00:55:33,360 --> 00:55:30,490

something to me because I have spoken to

1288

00:55:35,790 --> 00:55:33,370

him before but he never did so either he

1289

00:55:37,110 --> 00:55:35,800

didn't care or he you know I thought it

1290

00:55:38,460 --> 00:55:37,120

was a bit of a laugh or maybe he was

1291

00:55:41,660 --> 00:55:38,470

annoyed but just couldn't do anything

1292

00:55:49,980 --> 00:55:44,580

strange I wanted to bring up just a

1293

00:55:51,990 --> 00:55:49,990

little bit on Larry Bryant who kind of

1294

00:55:54,420 --> 00:55:52,000

stays under the radar he's not a person

1295

00:55:57,090 --> 00:55:54,430

who seeks attention as you know but he

1296

00:56:00,270 --> 00:55:57,100

has been prolific as a rioter and a

1297

00:56:02,400 --> 00:56:00,280

researcher dedicated to his UFO blog

1298

00:56:04,350 --> 00:56:02,410

which he kept for many years and I'm

1299

00:56:07,020 --> 00:56:04,360

just going to read a little bit on him

1300

00:56:09,030 --> 00:56:07,030

that just kind of interesting I actually

1301

00:56:10,440 --> 00:56:09,040

wrote an article regarding the CIA

1302

00:56:11,700 --> 00:56:10,450

archive so I'm just going to read a

1303

00:56:13,320 --> 00:56:11,710

little bit from that article and Larry

1304

00:56:15,390 --> 00:56:13,330

Bryant a well-known researcher of

1305

00:56:18,150 --> 00:56:15,400

ufology who ended up in the CIA archives

1306

00:56:20,130 --> 00:56:18,160

was writer Larry W Bryant his strange

1307

00:56:21,990 --> 00:56:20,140

court case an application has been filed

1308

00:56:23,940 --> 00:56:22,000

in court here demanding that

1309

00:56:25,680 --> 00:56:23,950

Air Force release the remains of the

1310

00:56:28,080 --> 00:56:25,690

extraterrestrial being or beings it

1311

00:56:29,910 --> 00:56:28,090

alleged to be holding in secret custody

1312

00:56:33,870 --> 00:56:29,920

Pentagon officials said today that's a

1313

00:56:35,660 --> 00:56:33,880

really old article by the way and this

1314

00:56:39,080 --> 00:56:35,670

cures curious article written for

1315

00:56:41,370 --> 00:56:39,090

Reuters published in that July 14 1983

1316

00:56:43,260 --> 00:56:41,380

details an alleged abduction of

1317

00:56:45,450 --> 00:56:43,270

extraterrestrial creatures by the US

1318

00:56:48,360 --> 00:56:45,460

government mr. bright was a former

1319

00:56:51,060 --> 00:56:48,370

director for the Washington DC office of

1320

00:56:53,460 --> 00:56:51,070

citizens against UFO secrecy

1321

00:56:54,720 --> 00:56:53,470

he was also a civilian federal employee

1322

00:56:56,400 --> 00:56:54,730

for over 30 years

1323

00:56:58,110 --> 00:56:56,410

Bryant has researched the area of

1324

00:57:00,210 --> 00:56:58,120

ufology for many years from his home in

1325

00:57:02,640 --> 00:57:00,220

Alexandria Virginia he has published

1326

00:57:04,290 --> 00:57:02,650

hundreds of articles these reports I

1327

00:57:06,090 --> 00:57:04,300

believe it's actually thousands but

1328

00:57:08,610 --> 00:57:06,100

anyway these reports range from personal

1329

00:57:10,170 --> 00:57:08,620

to long sought after FOIA requests as

1330

00:57:12,300 --> 00:57:10,180

though the reports are empirical and

1331

00:57:15,750 --> 00:57:12,310

investigative research regarding ufology

1332

00:57:17,460 --> 00:57:15,760

and et subject matters mr. brian has an

1333

00:57:21,210 --> 00:57:17,470

extensive blog which can be found on

1334

00:57:22,950 --> 00:57:21,220

tumblr anyway that article goes on the

1335

00:57:25,080 --> 00:57:22,960

detailed extraordinary case regarding

1336

00:57:26,940 --> 00:57:25,090

ETS in the US military which can be

1337

00:57:29,940 --> 00:57:26,950

found in the CIA archives who wanted to

1338

00:57:32,850 --> 00:57:29,950

ask you fellow researcher Larry Bryant

1339

00:57:35,790 --> 00:57:32,860

what do you think gave him the impetus

1340

00:57:40,230 --> 00:57:35,800

to ask for any kind of FOIA related

1341

00:57:43,110 --> 00:57:40,240

records on Doty because he was a

1342

00:57:46,410 --> 00:57:43,120

prolific if I were a request over one it

1343

00:57:47,880 --> 00:57:46,420

would be absolutely a no surprise that I

1344

00:57:52,650 --> 00:57:47,890

mean he wouldn't have been the only one

1345

00:57:55,440 --> 00:57:52,660

I mean Richard Doty's name and myth with

1346

00:57:57,330 --> 00:57:55,450

as being a Anna fuzzy

1347

00:57:59,640 --> 00:57:57,340

counterintelligence or intelligence

1348

00:58:03,780 --> 00:57:59,650

officer was well-known by the late

1349

00:58:05,490 --> 00:58:03,790

eighties he you know he's his role in

1350

00:58:07,620 --> 00:58:05,500

the so-called bennewitz affair and and

1351
00:58:09,210 --> 00:58:07,630
and UFOs at Kirkland Air Force Base and

1352
00:58:13,020 --> 00:58:09,220
maybe at other sites have been well

1353
00:58:15,180 --> 00:58:13,030
known by then Doty was extremely well

1354
00:58:18,780 --> 00:58:15,190
known so researchers like Hurley Graham

1355
00:58:21,960 --> 00:58:18,790
and Bill Moore so I mean Larry Bryant as

1356
00:58:23,670 --> 00:58:21,970
a researcher was already well and said

1357
00:58:25,950 --> 00:58:23,680
well in the 80s was already submitting

1358
00:58:28,740 --> 00:58:25,960
FOI requests and and doing general

1359
00:58:31,230 --> 00:58:28,750
archival searching so so I don't know I

1360
00:58:32,630 --> 00:58:31,240
don't know what particular impetus or

1361
00:58:37,400 --> 00:58:32,640
stimulus

1362
00:58:39,440 --> 00:58:37,410
hey he gots who to fi y fo Z or anyone

1363
00:58:40,700 --> 00:58:39,450

else I'm Richard Doty especially but I

1364

00:58:42,349 --> 00:58:40,710

mean it would be unthinkable that

1365

00:58:46,279 --> 00:58:42,359

someone wouldn't and just say happen to

1366

00:58:47,809 --> 00:58:46,289

be the guy yeah well thank you very much

1367

00:58:50,029 --> 00:58:47,819

for having covered that topic it's

1368

00:58:52,279 --> 00:58:50,039

fascinating also wanted to bring up an

1369

00:58:54,109 --> 00:58:52,289

interesting topic add that we were

1370

00:58:56,750 --> 00:58:54,119

talking about before the show and that

1371

00:58:59,690 --> 00:58:56,760

is oddball UFO researcher Armond

1372

00:59:03,380 --> 00:58:59,700

Victorian from the 1990s can you talk a

1373

00:59:06,559 --> 00:59:03,390

little bit about that topic yes so this

1374

00:59:13,700 --> 00:59:06,569

is an interesting one so like I was

1375

00:59:16,549 --> 00:59:13,710

saying oh boy so so the RAF filing diols

1376

00:59:18,170 --> 00:59:16,559

mission which is a ballistic missile

1377

00:59:20,089 --> 00:59:18,180

ballistic missile early warning missile

1378

00:59:22,759 --> 00:59:20,099

detection space object detection mission

1379

00:59:26,210 --> 00:59:22,769

in England over the years it has

1380

00:59:29,140 --> 00:59:26,220

reported variously to NORAD Aerospace

1381

00:59:34,339 --> 00:59:29,150

Defense Command the old US Space Command

1382

00:59:35,870 --> 00:59:34,349

14th Air Force and so on right so the

1383

00:59:39,620 --> 00:59:35,880

ballistic missile early warning system

1384

00:59:41,690 --> 00:59:39,630

the three sites make up three make up a

1385

00:59:43,210 --> 00:59:41,700

small portion of what we call the US

1386

00:59:46,910 --> 00:59:43,220

government's Space Surveillance Network

1387

00:59:49,339 --> 00:59:46,920

SSN so the Space Surveillance Network in

1388

00:59:51,620 --> 00:59:49,349

the 90s for example was made up of 22

1389

00:59:53,150 --> 00:59:51,630

Space Surveillance sites the ballistic

1390

00:59:54,710 --> 00:59:53,160

missile early warning system sites were

1391

00:59:58,339 --> 00:59:54,720

just three of them there was another you

1392

01:00:00,980 --> 00:59:58,349

know 19 or whatever now that it the

1393

01:00:04,940 --> 01:00:00,990

entire SSN Network the entire Space

1394

01:00:08,870 --> 01:00:04,950

Surveillance Network back in the back in

1395

01:00:11,690 --> 01:00:08,880

the 90s it was the entire the entire

1396

01:00:14,839 --> 01:00:11,700

thing was functionally and operationally

1397

01:00:17,269 --> 01:00:14,849

governed by a huge document an

1398

01:00:20,799 --> 01:00:17,279

absolutely vital document classified

1399

01:00:24,769 --> 01:00:20,809

secret it was called US Space Command

1400

01:00:27,319 --> 01:00:24,779

regulation 55 - 12 Operations Space

1401

01:00:30,999 --> 01:00:27,329

Surveillance Network SSN right that's

1402

01:00:33,740 --> 01:00:31,009

what the document was called now back in

1403

01:00:35,210 --> 01:00:33,750

and that was that the particular version

1404

01:00:37,039 --> 01:00:35,220

of the document we've got was published

1405

01:00:39,769 --> 01:00:37,049

on the 1st of June 1992 it was

1406

01:00:43,339 --> 01:00:39,779

classified by multiple sources as secret

1407

01:00:46,220 --> 01:00:43,349

and and it's a it's you know a 200 page

1408

01:00:49,250 --> 01:00:46,230

document anyway back in the

1409

01:00:51,560 --> 01:00:49,260

back in the 1990s some listeners may

1410

01:00:53,690 --> 01:00:51,570

remember that there was a curious very

1411

01:00:57,050 --> 01:00:53,700

unusual researcher in England by the

1412

01:00:58,609 --> 01:00:57,060

name of her dr. Armond Victorian right

1413

01:00:59,990 --> 01:00:58,619

some people will not know who the hell

1414

01:01:01,790 --> 01:01:00,000

I'm talking about and some people will

1415

01:01:04,520 --> 01:01:01,800

shake their heads and say oh boy this

1416

01:01:07,940 --> 01:01:04,530

guy so Armin Victorian was really

1417

01:01:11,480 --> 01:01:07,950

bizarre so Arman Arman was well he was

1418

01:01:15,530 --> 01:01:11,490

born in Soviet Armenia in the 60s he

1419

01:01:18,260 --> 01:01:15,540

fled Soviet Armenia for a run in the 70s

1420

01:01:21,140 --> 01:01:18,270

he's his actual real name was Habib as

1421

01:01:24,170 --> 01:01:21,150

that Adel he fled Iran and United

1422

01:01:26,930 --> 01:01:24,180

Kingdom some time in I think about 1979

1423

01:01:29,750 --> 01:01:26,940

he changed his name to Henry as that

1424

01:01:31,730 --> 01:01:29,760

Adel then he decided he was interested

1425

01:01:34,250 --> 01:01:31,740

in two things he was interested in

1426

01:01:37,430 --> 01:01:34,260

orchids as in the plants like flowers

1427

01:01:40,099 --> 01:01:37,440

and he was interested in UFOs and he was

1428

01:01:43,390 --> 01:01:40,109

very very good at both of them I'm in

1429

01:01:45,950 --> 01:01:43,400

Victorian stir started flooding

1430

01:01:47,810 --> 01:01:45,960

he called himself dr. Ehrman Victorian

1431

01:01:51,020 --> 01:01:47,820

he also went under other names like

1432

01:01:51,650 --> 01:01:51,030

Colin Baker cassava Anna tumba if you

1433

01:01:56,620 --> 01:01:51,660

can believe that

1434

01:02:00,349 --> 01:01:56,630

an African name he started flowing the

1435

01:02:02,660 --> 01:02:00,359

British Vince industrial complex and and

1436

01:02:04,579 --> 01:02:02,670

in the u.s. is like America's military

1437

01:02:07,400 --> 01:02:04,589

started flooding them with FOI requests

1438

01:02:10,099 --> 01:02:07,410

and he was so dogmatic he was so clever

1439

01:02:10,970 --> 01:02:10,109

and so determined and he just came along

1440

01:02:12,710 --> 01:02:10,980

at the right time

1441

01:02:14,599 --> 01:02:12,720

whenever while laws were quite lacks and

1442

01:02:15,950 --> 01:02:14,609

he started flooding them with ever wire

1443

01:02:18,349 --> 01:02:15,960

requests and he started and he actually

1444

01:02:20,359 --> 01:02:18,359

got some incredible results he was the

1445

01:02:23,540 --> 01:02:20,369

first person to identify John Alexander

1446

01:02:26,030 --> 01:02:23,550

as being part of a so-called non-lethal

1447

01:02:28,520 --> 01:02:26,040

weapons testing and long-long non-lethal

1448

01:02:30,680 --> 01:02:28,530

weapons and psychic warfare development

1449

01:02:35,329 --> 01:02:30,690

within the army he was the first person

1450

01:02:38,329 --> 01:02:35,339

to associate so-called op rep 3 reports

1451
01:02:40,550 --> 01:02:38,339
with UFO so operatory reports are a type

1452
01:02:42,950 --> 01:02:40,560
of reporting within the US Air Force's

1453
01:02:45,050 --> 01:02:42,960
reporting network that you that officers

1454
01:02:48,109 --> 01:02:45,060
can reduce to report UFOs and indeed

1455
01:02:51,250 --> 01:02:48,119
have almond Victorian was also the first

1456
01:02:54,410 --> 01:02:51,260
person to identify the proper name for

1457
01:02:56,420 --> 01:02:54,420
an unknown object in space and that

1458
01:02:59,540 --> 01:02:56,430
unknown object in space the proper term

1459
01:03:01,880 --> 01:02:59,550
is an uncorrelated target right you see

1460
01:03:06,560 --> 01:03:01,890
two uncorrelated target the way he did

1461
01:03:09,080 --> 01:03:06,570
that was in in 1992 in Victorian asked

1462
01:03:11,540 --> 01:03:09,090
us Space command's public relations an

1463
01:03:13,550 --> 01:03:11,550

FOI desk he asked them for a copy of

1464

01:03:15,350 --> 01:03:13,560

that document I just ran out before he'd

1465

01:03:17,000 --> 01:03:15,360

obviously seen it somewhere it's seen a

1466

01:03:19,190 --> 01:03:17,010

reference to it like I said it was

1467

01:03:21,020 --> 01:03:19,200

called US Space Command regulation 55 -

1468

01:03:24,800 --> 01:03:21,030

12 operation Space Surveillance Network

1469

01:03:30,110 --> 01:03:24,810

SSN classified secret Armen asked them

1470

01:03:31,760 --> 01:03:30,120

for a copy and and amazingly they gave

1471

01:03:34,160 --> 01:03:31,770

it to him there were reductions we do

1472

01:03:35,840 --> 01:03:34,170

have a copy of Armand Victorians copy we

1473

01:03:37,910 --> 01:03:35,850

do have a copy there are full of

1474

01:03:42,590 --> 01:03:37,920

reductions it's all about unidentified

1475

01:03:44,630 --> 01:03:42,600

eye detection in space uncorrelated

1476

01:03:47,090 --> 01:03:44,640

targets in space the criticality of

1477

01:03:48,530 --> 01:03:47,100

unidentified objects in space how to

1478

01:03:50,150 --> 01:03:48,540

process them through the system how to

1479

01:03:52,580 --> 01:03:50,160

draw them or write them down how to

1480

01:03:54,350 --> 01:03:52,590

store radar data how to report unknown

1481

01:03:55,880 --> 01:03:54,360

objects in space to NORAD and US Space

1482

01:03:58,400 --> 01:03:55,890

Command headquarters from the the

1483

01:04:00,590 --> 01:03:58,410

individual space detection facilities

1484

01:04:02,110 --> 01:04:00,600

how to keep NASA in the loop and so on

1485

01:04:04,730 --> 01:04:02,120

it's 100 you know 200 page document

1486

01:04:07,160 --> 01:04:04,740

anyway within there on the very very

1487

01:04:09,770 --> 01:04:07,170

first page one of the things that it

1488

01:04:12,050 --> 01:04:09,780

offers it basically says that the entire

1489

01:04:14,570 --> 01:04:12,060

Space Surveillance Network is under the

1490

01:04:17,210 --> 01:04:14,580

purview of US Space Command of NORAD

1491

01:04:19,430 --> 01:04:17,220

except one site and that site is RAF

1492

01:04:23,060 --> 01:04:19,440

filing girls and that's what gave me the

1493

01:04:25,640 --> 01:04:23,070

idea originally really took over falling

1494

01:04:28,070 --> 01:04:25,650

down so on the on the front page so

1495

01:04:30,860 --> 01:04:28,080

really Armin Victorians work in the in

1496

01:04:33,440 --> 01:04:30,870

the in the 90s which which gave me the

1497

01:04:34,640 --> 01:04:33,450

idea to to harass the Ministry of

1498

01:04:36,470 --> 01:04:34,650

Defense for their documents on

1499

01:04:38,150 --> 01:04:36,480

rappelling girls because what it

1500

01:04:41,360 --> 01:04:38,160

actually says on the front cover of US

1501

01:04:44,180 --> 01:04:41,370

Space Command regulation 5512 it

1502

01:04:46,280 --> 01:04:44,190

actually says this regulation provides

1503

01:04:47,540 --> 01:04:46,290

policy and guidance for operations of

1504

01:04:50,570 --> 01:04:47,550

the worldwide Space Surveillance Network

1505

01:04:53,030 --> 01:04:50,580

or SSN it applies to headquarters US

1506

01:04:54,380 --> 01:04:53,040

Space Command the component commands

1507

01:04:56,510 --> 01:04:54,390

being headquarters Air Force Space

1508

01:04:58,460 --> 01:04:56,520

Command naval Space Command and Army's

1509

01:04:59,540 --> 01:04:58,470

space command the space surveillance

1510

01:05:01,610 --> 01:04:59,550

center and the ultimate space

1511

01:05:05,000 --> 01:05:01,620

surveillance center and the SS and

1512

01:05:09,340 --> 01:05:05,010

sensor sites except RAF foiling dials

1513

01:05:11,210 --> 01:05:09,350

then it says RAF filing has an acronym

1514

01:05:13,520 --> 01:05:11,220

raffling doles follows different

1515

01:05:21,250 --> 01:05:13,530

guidance specified in

1516

01:05:25,040 --> 01:05:21,260

ss-sorry sr55 1 2 2 / 8 8 7 7 1 / 7 / GE

1517

01:05:27,320 --> 01:05:25,050

1518

01:05:29,300 --> 01:05:27,330

US Air Force Royal Air Force operations

1519

01:05:32,840 --> 01:05:29,310

manual Jo M ballistic missile early

1520

01:05:35,000 --> 01:05:32,850

warning system site 3 RAF England so

1521

01:05:36,590 --> 01:05:35,010

when I saw that when I saw that years

1522

01:05:38,990 --> 01:05:36,600

ago I thought hold on this is cool

1523

01:05:40,820 --> 01:05:39,000

so RAF filing nails England follows

1524

01:05:42,590 --> 01:05:40,830

slightly different guidance than the

1525

01:05:45,230 --> 01:05:42,600

rest of the space violence network sites

1526

01:05:47,000 --> 01:05:45,240

so it was originally that's what got me

1527

01:05:48,920 --> 01:05:47,010

interested and now I've asked for a copy

1528

01:05:49,280 --> 01:05:48,930

of that document and they've knocked me

1529

01:05:51,400 --> 01:05:49,290

back

1530

01:05:54,080 --> 01:05:51,410

it's the document still actually exists

1531

01:05:56,090 --> 01:05:54,090

it's actually changes names a few times

1532

01:05:58,220 --> 01:05:56,100

over the years but so the RAF filing

1533

01:05:59,540 --> 01:05:58,230

dolls operating manual that still exists

1534

01:06:01,760 --> 01:05:59,550

but I've been knocked back for copies of

1535

01:06:03,560 --> 01:06:01,770

that and then further today they're like

1536

01:06:07,450 --> 01:06:03,570

further in currently in the 2000 and

1537

01:06:10,460 --> 01:06:07,460

2010 I've asked us Stratcom for the old

1538

01:06:11,600 --> 01:06:10,470

US Space Command 50 5-12 document

1539

01:06:13,160 --> 01:06:11,610

they've knocked me back for that as well

1540

01:06:15,920 --> 01:06:13,170

even though they released it to almond

1541

01:06:17,810 --> 01:06:15,930

Victorian right back in the 90s so you

1542

01:06:20,000 --> 01:06:17,820

know so it's just funny how a UFO

1543

01:06:21,980 --> 01:06:20,010

researcher in England who wasn't English

1544

01:06:23,750 --> 01:06:21,990

at all he was Iranian he stumbled a

1545

01:06:25,340 --> 01:06:23,760

product across these documents and

1546

01:06:27,290 --> 01:06:25,350

references to other documents and we're

1547

01:06:30,530 --> 01:06:27,300

still using them now as researchers and

1548

01:06:32,480 --> 01:06:30,540

we still can't get them out I wanted to

1549

01:06:36,140 --> 01:06:32,490

ask you a little bit more about arm and

1550

01:06:39,370 --> 01:06:36,150

Victorian alias Henry as a head doll is

1551

01:06:46,670 --> 01:06:44,870

I can say I'm not even gonna bust have a

1552

01:06:47,420 --> 01:06:46,680

fit if I even bother trying to say those

1553

01:06:50,830 --> 01:06:47,430

names I'm sorry

1554

01:06:53,240 --> 01:06:50,840

alias casaba and tomba and many others

1555

01:06:56,630 --> 01:06:53,250

thank you

1556

01:07:00,980 --> 01:06:56,640

also apparently allegedly an orchid

1557

01:07:04,670 --> 01:07:00,990

smuggler sheerest and kind of a creepy

1558

01:07:08,960 --> 01:07:04,680

all-around guy of yes armenian of

1559

01:07:17,540 --> 01:07:08,970

Armenian ancestry and allegedly a former

1560

01:07:20,300 --> 01:07:17,550

operative of the Shah of Iran yeah but I

1561

01:07:23,990 --> 01:07:20,310

don't know how verifiable that that

1562

01:07:26,279 --> 01:07:24,000

alleged last bit is not right but I'll

1563

01:07:28,499 --> 01:07:26,289

tell you what okay yeah

1564

01:07:30,239 --> 01:07:28,509

so I look I know a fair bit about this

1565

01:07:32,279 --> 01:07:30,249

guy I actually it's it's really bizarre

1566

01:07:34,739 --> 01:07:32,289

because he just came into the field he

1567

01:07:36,959 --> 01:07:34,749

so he was indeed an orchid smuggler he

1568

01:07:38,609 --> 01:07:36,969

actually went to the Philippines and

1569

01:07:40,589 --> 01:07:38,619

other places we'll put it this way look

1570

01:07:42,209 --> 01:07:40,599

you can believe the myth that he was an

1571

01:07:44,189 --> 01:07:42,219

orchid smuggler right but it turns out

1572

01:07:47,099 --> 01:07:44,199

Zak actually true because not once but

1573

01:07:49,049 --> 01:07:47,109

twice he was actually hauled up in court

1574

01:07:51,509 --> 01:07:49,059

at the Old Bailey in England in London

1575

01:07:53,429 --> 01:07:51,519

on orchid smuggling charges and he

1576

01:07:55,079 --> 01:07:53,439

actually did go to jail now I think it

1577

01:07:56,069 --> 01:07:55,089

was a suspended sentence which means he

1578

01:07:58,140 --> 01:07:56,079

would have been put under house arrest

1579

01:07:59,759 --> 01:07:58,150

course the jails are full but the point

1580

01:08:01,319 --> 01:07:59,769

is he actually was charged and convicted

1581

01:08:03,329 --> 01:08:01,329

of all could smuggling I think there

1582

01:08:05,489 --> 01:08:03,339

were three charges one was dropped but

1583

01:08:07,709 --> 01:08:05,499

the other two were stood up the other

1584

01:08:09,029 --> 01:08:07,719

thing about him is is that that over the

1585

01:08:10,679 --> 01:08:09,039

years look there are people that

1586

01:08:14,099 --> 01:08:10,689

remember him and who actually do know

1587

01:08:15,809 --> 01:08:14,109

him would did know him and he he

1588

01:08:17,819 --> 01:08:15,819

actually also was busted on

1589

01:08:19,919 --> 01:08:17,829

phone-tapping so it wasn't so much

1590

01:08:23,519 --> 01:08:19,929

foreign tapping it was more he was

1591

01:08:25,260 --> 01:08:23,529

actually he was actually getting free

1592

01:08:27,120 --> 01:08:25,270

free international phone calls by

1593

01:08:29,399 --> 01:08:27,130

mucking around with the telephone lines

1594

01:08:31,319 --> 01:08:29,409

in the street so he was basically making

1595

01:08:33,780 --> 01:08:31,329

tell of international telephone calls

1596

01:08:35,249 --> 01:08:33,790

around the world but but someone else

1597

01:08:36,930 --> 01:08:35,259

was getting the bill or British Telecom

1598

01:08:41,099 --> 01:08:36,940

was having to pay for it it was funny

1599

01:08:42,629 --> 01:08:41,109

because Boston based research Barry

1600

01:08:44,549 --> 01:08:42,639

Greenwood used to talk to him quite a

1601

01:08:46,349 --> 01:08:44,559

lot on the phone and Barry said to me

1602

01:08:48,479 --> 01:08:46,359

once Barry Barry didn't know all this

1603

01:08:50,789 --> 01:08:48,489

phone tapping or phone hijacking stuff

1604

01:08:52,140 --> 01:08:50,799

but Barry said to me once years ago he

1605

01:08:54,870 --> 01:08:52,150

said to me you know I never really

1606

01:08:57,599 --> 01:08:54,880

understood how Armin could afford so

1607

01:08:58,979 --> 01:08:57,609

many phone calls to me in most was back

1608

01:09:00,510 --> 01:08:58,989

then international back in the 90s

1609

01:09:04,079 --> 01:09:00,520

international phone calls very expensive

1610

01:09:05,640 --> 01:09:04,089

and especially in peak times and Barry

1611

01:09:07,439 --> 01:09:05,650

said to me yeah I don't know how he

1612

01:09:09,780 --> 01:09:07,449

afforded these phone calls three times a

1613

01:09:11,309 --> 01:09:09,790

week to all of us and and I said well

1614

01:09:14,490 --> 01:09:11,319

don't you know about the phone tapping

1615

01:09:16,740 --> 01:09:14,500

charges and yeah and but someone else I

1616

01:09:17,640 --> 01:09:16,750

know who knew Armin Victorians said no

1617

01:09:20,339 --> 01:09:17,650

this is interesting

1618

01:09:23,039 --> 01:09:20,349

said he had suitcases full of

1619

01:09:25,530 --> 01:09:23,049

international money so he had suitcases

1620

01:09:28,439 --> 01:09:25,540

full of Iranian and Italian and British

1621

01:09:30,299 --> 01:09:28,449

money and he also had multiple passports

1622

01:09:32,970 --> 01:09:30,309

so he had fake passports he had

1623

01:09:34,499 --> 01:09:32,980

passports they were issued that we had

1624

01:09:36,959 --> 01:09:34,509

an Italian passport that was issued in

1625

01:09:38,579 --> 01:09:36,969

Rome he had an Iranian passport which

1626
01:09:39,090 --> 01:09:38,589
maybe is not so surprising and he also

1627
01:09:42,750 --> 01:09:39,100
had a

1628
01:09:46,710 --> 01:09:42,760
passport which shouldn't really mix like

1629
01:09:48,810 --> 01:09:46,720
so so he definitely he was a hey look at

1630
01:09:50,940 --> 01:09:48,820
this there is a possibility I have heard

1631
01:09:52,680 --> 01:09:50,950
that there was a possibility he actually

1632
01:09:54,840 --> 01:09:52,690
worked for the Iranian embassy in

1633
01:09:56,640 --> 01:09:54,850
England as kind of like a bit of a spide

1634
01:09:58,140 --> 01:09:56,650
like not so much spying on the British

1635
01:10:00,240 --> 01:09:58,150
government or the British civilians or

1636
01:10:02,550 --> 01:10:00,250
whatever but actually spying on embassy

1637
01:10:05,190 --> 01:10:02,560
staff so the Iranian the Iranian embassy

1638
01:10:07,200 --> 01:10:05,200

has all in in London has always been

1639

01:10:09,270 --> 01:10:07,210

fraught with problems you know Iranian

1640

01:10:11,010 --> 01:10:09,280

embassy has always had its diplomats you

1641

01:10:13,380 --> 01:10:11,020

know smoking drugs and gambling and

1642

01:10:16,020 --> 01:10:13,390

carrying on and I have heard by the

1643

01:10:18,720 --> 01:10:16,030

great fund that Armen was employed by

1644

01:10:20,910 --> 01:10:18,730

the Iranian government to keep some of

1645

01:10:22,980 --> 01:10:20,920

the office workers at the Iranian

1646

01:10:24,420 --> 01:10:22,990

embassy in London in check basically see

1647

01:10:26,190 --> 01:10:24,430

what they're up to you know if they're

1648

01:10:26,820 --> 01:10:26,200

even turning up the work that sort of

1649

01:10:28,260 --> 01:10:26,830

thing

1650

01:10:31,650 --> 01:10:28,270

but look I don't know if that's true but

1651

01:10:35,130 --> 01:10:31,660

the fact of the matter yep he's kind of

1652

01:10:37,710 --> 01:10:35,140

obviously a an eccentric guy to say the

1653

01:10:40,920 --> 01:10:37,720

least who apparently had a very strange

1654

01:10:44,790 --> 01:10:40,930

grocery list of goals and included on

1655

01:10:46,710 --> 01:10:44,800

that Bazaar list of goals was ufology

1656

01:10:49,050 --> 01:10:46,720

why do you think he even cared about

1657

01:10:51,950 --> 01:10:49,060

that topic so much apparently he pursued

1658

01:10:54,960 --> 01:10:51,960

it relentlessly I'm sure he had

1659

01:10:58,110 --> 01:10:54,970

thousands and thousands of documents on

1660

01:10:59,700 --> 01:10:58,120

that topic so I'm wondering what

1661

01:11:02,160 --> 01:10:59,710

happened all those documents who his

1662

01:11:06,000 --> 01:11:02,170

family was and where did where did that

1663

01:11:07,470 --> 01:11:06,010

estate that UFO archive estate go and

1664

01:11:09,090 --> 01:11:07,480

this is this is something that I've been

1665

01:11:11,520 --> 01:11:09,100

instrumental in trying to track down and

1666

01:11:13,170 --> 01:11:11,530

so is Isaac coin in England and a few of

1667

01:11:15,210 --> 01:11:13,180

us has it's really important a grant

1668

01:11:16,770 --> 01:11:15,220

Cameron's interested to basically what

1669

01:11:18,540 --> 01:11:16,780

happened is this is really weird I mean

1670

01:11:22,850 --> 01:11:18,550

the guy Locke have said the guy had

1671

01:11:25,620 --> 01:11:22,860

multiple passports he had multiple he

1672

01:11:27,690 --> 01:11:25,630

had money different countries he

1673

01:11:29,670 --> 01:11:27,700

possibly worked for he was interested in

1674

01:11:32,280 --> 01:11:29,680

mind control psychic warfare UFOs

1675

01:11:34,020 --> 01:11:32,290

crashed UFOs you have a retrieval nor

1676
01:11:36,690 --> 01:11:34,030
red space detection US Space Command

1677
01:11:38,400 --> 01:11:36,700
space detection whatever and all could

1678
01:11:40,440 --> 01:11:38,410
smuggler to top it off a phone tapper

1679
01:11:44,730 --> 01:11:40,450
and all of a sudden what's really

1680
01:11:46,380 --> 01:11:44,740
bizarre is in 1907 he just disappeared

1681
01:11:47,970 --> 01:11:46,390
right no one heard from him again

1682
01:11:52,120 --> 01:11:47,980
no one as far as I can tell Barry

1683
01:11:56,050 --> 01:11:52,130
Greenwood Brad sparks

1684
01:11:57,820 --> 01:11:56,060
all true or and camryn nobody heard from

1685
01:12:12,100 --> 01:11:57,830
him all of a sudden in 1997 he just

1686
01:12:13,419 --> 01:12:12,110
disappeared and the new records of that

1687
01:12:18,990 --> 01:12:13,429
though he could have spent was

1688
01:12:21,160 --> 01:12:19,000

interested in the topic or around

1689

01:12:22,959 --> 01:12:21,170

license I found someone called Armin

1690

01:12:24,790 --> 01:12:22,969

Victorian and certainly some of the

1691

01:12:26,379 --> 01:12:24,800

things he'd written back years ago on

1692

01:12:30,160 --> 01:12:26,389

Twitter certainly featured somewhat

1693

01:12:32,169 --> 01:12:30,170

defeated him so what are gene I joined

1694

01:12:35,020 --> 01:12:32,179

up to Twitter and I actually sort of

1695

01:12:36,760 --> 01:12:35,030

personally messaged this account and 18

1696

01:12:39,520 --> 01:12:36,770

months later so what two years ago yet

1697

01:12:41,200 --> 01:12:39,530

two years ago 18 months later this Armin

1698

01:12:43,540 --> 01:12:41,210

Victorian on Twitter actually wrote back

1699

01:12:45,970 --> 01:12:43,550

to me and said yes I'm a man Victorian

1700

01:12:47,379 --> 01:12:45,980

and I said I really want to get your

1701

01:12:49,959 --> 01:12:47,389

email address I want to ask you a few

1702

01:12:52,330 --> 01:12:49,969

questions so he gave me an email address

1703

01:12:54,129 --> 01:12:52,340

it was a really unusual email address

1704

01:12:56,530 --> 01:12:54,139

but I emailed it and then a few days

1705

01:12:58,540 --> 01:12:56,540

later he wrote back and and I won't

1706

01:12:59,950 --> 01:12:58,550

repeat what he wrote because it's one I

1707

01:13:00,850 --> 01:12:59,960

haven't got it in front of me and two it

1708

01:13:03,879 --> 01:13:00,860

was just so bizarre

1709

01:13:07,149 --> 01:13:03,889

he wrote really what you would call

1710

01:13:09,040 --> 01:13:07,159

almost paranoid religious fanaticism I

1711

01:13:10,840 --> 01:13:09,050

mean I can't remember what he wrote word

1712

01:13:12,370 --> 01:13:10,850

for word but he talked about aliens

1713

01:13:14,169 --> 01:13:12,380

being here for thousands of years he

1714

01:13:15,910 --> 01:13:14,179

talked about yeah he talked about

1715

01:13:17,590 --> 01:13:15,920

ancient civilizations he talked about

1716

01:13:19,959 --> 01:13:17,600

God he talked about the devil he

1717

01:13:22,300 --> 01:13:19,969

whatever it was really bizarre I mean it

1718

01:13:24,879 --> 01:13:22,310

was one of the most wacked-out and

1719

01:13:27,100 --> 01:13:24,889

almost it was fanatical it was bizarre

1720

01:13:30,430 --> 01:13:27,110

I'm just laughing because it's an

1721

01:13:32,050 --> 01:13:30,440

interesting response back look either I

1722

01:13:33,700 --> 01:13:32,060

don't even know if it was him I don't

1723

01:13:35,620 --> 01:13:33,710

know if it was him to this day I do

1724

01:13:37,240 --> 01:13:35,630

viii the email address means nothing

1725

01:13:40,180 --> 01:13:37,250

it's just it's just a bizarre email

1726

01:13:42,729 --> 01:13:40,190

address I actually asked I actually I

1727

01:13:44,740 --> 01:13:42,739

actually forded that it afforded that

1728

01:13:46,870 --> 01:13:44,750

email to people that knew Armin in the

1729

01:13:48,189 --> 01:13:46,880

80s and 90s and they said look

1730

01:13:49,840 --> 01:13:48,199

personally I just don't think it's him

1731

01:13:51,399 --> 01:13:49,850

he but something Barry Greenwood I

1732

01:13:52,750 --> 01:13:51,409

remember Barry Greenwood came back to me

1733

01:13:54,399 --> 01:13:52,760

because Barry had a lot to do with our

1734

01:13:56,370 --> 01:13:54,409

Victorian Barry Greenwood came back to

1735

01:13:59,770 --> 01:13:56,380

me and said look Armin was already very

1736

01:14:03,910 --> 01:13:59,780

Armin was or always quite flowery in his

1737

01:14:05,860 --> 01:14:03,920

language but never this bad do you think

1738

01:14:08,830 --> 01:14:05,870

it's just possible

1739

01:14:11,470 --> 01:14:08,840

is that he he may have hear me out on

1740

01:14:13,330 --> 01:14:11,480

this I used this term loosely but the

1741

01:14:16,450 --> 01:14:13,340

way mental illness do you think it's

1742

01:14:18,310 --> 01:14:16,460

possible that he succumbed to a form of

1743

01:14:21,940 --> 01:14:18,320

mental illness that caused him to have

1744

01:14:25,890 --> 01:14:21,950

word salad and rant and maybe you know

1745

01:14:37,200 --> 01:14:25,900

his emotional IQ in his response

1746

01:14:42,940 --> 01:14:37,210

compromised his ability to have or and

1747

01:14:44,470 --> 01:14:42,950

conversation with with the Tor account

1748

01:14:46,180 --> 01:14:44,480

in the emails over because anyone can

1749

01:14:48,490 --> 01:14:46,190

make up a Twitter account called Armin

1750

01:14:49,810 --> 01:14:48,500

Victorian a very very well-known guy I

1751

01:14:52,420 --> 01:14:49,820

mean he really was very well known in

1752

01:14:54,370 --> 01:14:52,430

UFO circles well-known in the in rare

1753

01:14:56,560 --> 01:14:54,380

rare plant species circles he had a

1754

01:14:58,150 --> 01:14:56,570

criminal record he's he's had magazine

1755

01:14:59,890 --> 01:14:58,160

articles written about him what anyone

1756

01:15:02,470 --> 01:14:59,900

could either I was dealing with a troll

1757

01:15:04,810 --> 01:15:02,480

who wasn't him whose God knows who

1758

01:15:07,090 --> 01:15:04,820

oh it was actually him and he is totally

1759

01:15:09,100 --> 01:15:07,100

succumbed to paranoia and mental illness

1760

01:15:10,780 --> 01:15:09,110

I mean like I said what I got back in

1761

01:15:13,600 --> 01:15:10,790

the form of that email was just

1762

01:15:17,100 --> 01:15:13,610

absolutely bizarre now look I spoke to

1763

01:15:19,480 --> 01:15:17,110

Nick Pope he almond Victorian used to

1764

01:15:20,980 --> 01:15:19,490

used to converse on the phone quite a

1765

01:15:24,640 --> 01:15:20,990

bit with Nick Pope when Nick Pope was

1766

01:15:27,400 --> 01:15:24,650

running the mo DS heir Secretariat H OS

1767

01:15:30,010 --> 01:15:27,410

cell in London

1768

01:15:31,210 --> 01:15:30,020

almond Victorian would commonly talk to

1769

01:15:33,610 --> 01:15:31,220

Nick Pope he would ring him on the phone

1770

01:15:35,950 --> 01:15:33,620

or he would send him in UFO reports that

1771

01:15:38,830 --> 01:15:35,960

he'd gotten from somewhere and Nick Nick

1772

01:15:40,420 --> 01:15:38,840

Pope always found him very strange but

1773

01:15:41,950 --> 01:15:40,430

every now and again a even Nick Pope

1774

01:15:43,480 --> 01:15:41,960

admitted to me he said every now and

1775

01:15:44,950 --> 01:15:43,490

again and would actually come out with

1776

01:15:48,010 --> 01:15:44,960

something really interesting about UFOs

1777

01:15:49,690 --> 01:15:48,020

that we didn't know and but but Nick

1778

01:15:52,380 --> 01:15:49,700

found him very eccentric I mean most

1779

01:15:56,080 --> 01:15:52,390

people did he was also look he was also

1780

01:15:57,670 --> 01:15:56,090

he look god I don't know how much I can

1781

01:16:01,240 --> 01:15:57,680

say he was apparently fairly

1782

01:16:02,920 --> 01:16:01,250

untrustworthy you you know he used to he

1783

01:16:04,360 --> 01:16:02,930

also used to record phone calls so he

1784

01:16:05,620 --> 01:16:04,370

would ring people and actually record

1785

01:16:09,970 --> 01:16:05,630

the phone call without permission he

1786

01:16:11,860 --> 01:16:09,980

apparently didn't yeah he was he also

1787

01:16:13,980 --> 01:16:11,870

abrasive and very aggressive

1788

01:16:16,960 --> 01:16:13,990

somewhat yes he was very hyperactive

1789

01:16:19,209 --> 01:16:16,970

okay um well I I didn't want to mention

1790

01:16:21,250 --> 01:16:19,219

something about him

1791

01:16:23,319 --> 01:16:21,260

and that is and then I have a question

1792

01:16:25,660 --> 01:16:23,329

for you and that's it about that topic

1793

01:16:27,250 --> 01:16:25,670

but apparently a short film may have

1794

01:16:31,270 --> 01:16:27,260

been made about him called an ethologist

1795

01:16:34,120 --> 01:16:31,280

I think it was made by a gentleman by

1796

01:16:36,250 --> 01:16:34,130

the name of John Lundberg a 26 minute

1797

01:16:39,489 --> 01:16:36,260

documentary which was first broadcast on

1798

01:16:41,649 --> 01:16:39,499

BBC in 2004 what what are your thoughts

1799

01:16:44,919 --> 01:16:41,659

on that and then also wanted to ask you

1800

01:16:48,040 --> 01:16:44,929

again because I'll know you got caught up

1801
01:16:53,489 --> 01:16:48,050
on other topics but where do you think

1802
01:16:57,549 --> 01:16:53,499
the archive of his UFO data went look I

1803
01:17:00,759 --> 01:16:57,559
I asked him look when I got his weird

1804
01:17:01,959 --> 01:17:00,769
email I wrote back to I wanted to try

1805
01:17:04,089 --> 01:17:01,969
and stay on topic I mean I didn't even

1806
01:17:06,520 --> 01:17:04,099
know what to say to it but I asked him

1807
01:17:09,250 --> 01:17:06,530
where his material went and he actually

1808
01:17:10,600 --> 01:17:09,260
told me that well this person if it was

1809
01:17:12,790 --> 01:17:10,610
a man which were in or not I'll never

1810
01:17:16,060 --> 01:17:12,800
know but this person told me that he

1811
01:17:19,209 --> 01:17:16,070
divided his UFO FILES up so be FOI

1812
01:17:20,229 --> 01:17:19,219
requests appeals sighting reports

1813
01:17:24,969 --> 01:17:20,239

whatever

1814

01:17:27,370 --> 01:17:24,979

he divided up between two universities

1815

01:17:29,290 --> 01:17:27,380

one in England and one in America and I

1816

01:17:31,689 --> 01:17:29,300

thought what the hell what the hell's

1817

01:17:34,719 --> 01:17:31,699

going on here and I thought okay which

1818

01:17:36,609 --> 01:17:34,729

University so even if this is true and

1819

01:17:37,779 --> 01:17:36,619

even if this person is actually a mammal

1820

01:17:39,489 --> 01:17:37,789

in Victorian I thought so

1821

01:17:41,859 --> 01:17:39,499

what universities has thousands of them

1822

01:17:43,719 --> 01:17:41,869

and why why would you do that and I

1823

01:17:45,580 --> 01:17:43,729

wrote back to him and I said you know

1824

01:17:46,719 --> 01:17:45,590

which universities which university in

1825

01:17:49,149 --> 01:17:46,729

England and which university in America

1826

01:17:51,279 --> 01:17:49,159

please never heard a reply never got a

1827

01:17:54,640 --> 01:17:51,289

response so I just don't know what's

1828

01:17:56,290 --> 01:17:54,650

going on but his material is would be

1829

01:17:58,930 --> 01:17:56,300

really important I mean I know some of

1830

01:18:01,299 --> 01:17:58,940

the FOI requests he did and got replies

1831

01:18:03,430 --> 01:18:01,309

to I know that he he was the first

1832

01:18:06,029 --> 01:18:03,440

person I know also to get a copy of what

1833

01:18:09,399 --> 01:18:06,039

we call the Joint Chiefs of Staff

1834

01:18:12,399 --> 01:18:09,409

operational reporting manual which

1835

01:18:14,169 --> 01:18:12,409

includes layouts or a synopsis of

1836

01:18:16,479 --> 01:18:14,179

operatory reporting which can be used

1837

01:18:19,180 --> 01:18:16,489

for UFOs so obviously right back in

1838

01:18:21,250 --> 01:18:19,190

nineteen that was in 1990 or so so back

1839

01:18:23,919 --> 01:18:21,260

in 1990 Armen Victorian had already

1840

01:18:26,410 --> 01:18:23,929

ascertained that I prep three reports

1841

01:18:28,569 --> 01:18:26,420

were being used to report UFOs over

1842

01:18:31,810 --> 01:18:28,579

military bases in the United States so I

1843

01:18:32,469 --> 01:18:31,820

mean I I discovered that independently

1844

01:18:34,299 --> 01:18:32,479

muscle

1845

01:18:35,859 --> 01:18:34,309

a few years ago and then I found out

1846

01:18:38,619 --> 01:18:35,869

that Armen had actually discovered it

1847

01:18:39,909 --> 01:18:38,629

you know 20 years before me so that mean

1848

01:18:41,619 --> 01:18:39,919

this guy's records will be really

1849

01:18:44,799 --> 01:18:41,629

important so where they are I don't know

1850

01:18:47,709 --> 01:18:44,809

I know it's my brother but yeah not only

1851

01:18:51,609 --> 01:18:47,719

that but it would probably be

1852

01:18:55,389 --> 01:18:51,619

interesting to pour over his a massive

1853

01:19:00,539 --> 01:18:55,399

archive of UFO information if he

1854

01:19:04,299 --> 01:19:00,549

actually was able to grab information

1855

01:19:06,039 --> 01:19:04,309

that was top-secret by a mistake like if

1856

01:19:07,689 --> 01:19:06,049

if the government actually sent it by

1857

01:19:12,729 --> 01:19:07,699

mistake classified material that would

1858

01:19:15,129 --> 01:19:12,739

be interesting to read and then also I'm

1859

01:19:16,839 --> 01:19:15,139

gonna assume it's possible since he was

1860

01:19:19,419 --> 01:19:16,849

in the position he was which was

1861

01:19:23,169 --> 01:19:19,429

possibly a spy that he may have had

1862

01:19:24,969 --> 01:19:23,179

access to intelligence related data that

1863

01:19:26,529 --> 01:19:24,979

might have been classified what do you

1864

01:19:30,009 --> 01:19:26,539

think about that I wouldn't be surprised

1865

01:19:33,099 --> 01:19:30,019

I would not be surprised at all does it

1866

01:19:35,459 --> 01:19:33,109

strike you as strange that a spy if he

1867

01:19:43,749 --> 01:19:35,469

was that would be filling out FOIA

1868

01:19:45,939 --> 01:19:43,759

requests anyone can anyone can fill out

1869

01:19:49,329 --> 01:19:45,949

for requests that's no problem

1870

01:19:54,039 --> 01:19:49,339

look I don't know you know look I don't

1871

01:19:56,889 --> 01:19:54,049

know yeah he just had a very strange

1872

01:19:58,599 --> 01:19:56,899

lifestyle anyway that mythologist movie

1873

01:20:01,149 --> 01:19:58,609

I was gonna ask you did you get a chance

1874

01:20:04,059 --> 01:20:01,159

to actually watch that documentary I've

1875

01:20:05,679 --> 01:20:04,069

never seen it I can't get I mean III I

1876

01:20:08,519 --> 01:20:05,689

don't know anyone who's got a copy I

1877

01:20:12,069 --> 01:20:08,529

would love a copy but I don't have one I

1878

01:20:14,589 --> 01:20:12,079

yeah I I don't know how accurate is I

1879

01:20:16,709 --> 01:20:14,599

mean it's it's it's it look I'd I've got

1880

01:20:19,329 --> 01:20:16,719

to look into it a bit more I want to ask

1881

01:20:20,709 --> 01:20:19,339

Lumbergh and I think it was also helped

1882

01:20:22,539 --> 01:20:20,719

along the documentary was helped along

1883

01:20:25,509 --> 01:20:22,549

by a guy called Marco Pendleton who is

1884

01:20:28,029 --> 01:20:25,519

quite a good writer I've got to I've got

1885

01:20:29,439 --> 01:20:28,039

to look into that further but you know

1886

01:20:32,799 --> 01:20:29,449

it's dead like dealing with smoke and

1887

01:20:34,389 --> 01:20:32,809

mirrors because you know like like it's

1888

01:20:36,039 --> 01:20:34,399

already hard enough that back then this

1889

01:20:38,379 --> 01:20:36,049

scar was quite mysterious so dealing

1890

01:20:40,779 --> 01:20:38,389

with him now or you know we just don't

1891

01:20:42,279 --> 01:20:40,789

know like I would love to I don't even

1892

01:20:43,800 --> 01:20:42,289

know how old he is you know like I don't

1893

01:20:47,230 --> 01:20:43,810

know

1894

01:20:48,790 --> 01:20:47,240

okay so we've exhausted that topic but I

1895

01:20:51,250 --> 01:20:48,800

do want to give a disclaimer to our

1896

01:20:54,820 --> 01:20:51,260

audience and that is I don't think the

1897

01:20:56,560 --> 01:20:54,830

possibility of anyone ever a come across

1898

01:20:58,540 --> 01:20:56,570

classified material is going to be very

1899

01:21:01,240 --> 01:20:58,550

often in their lifetime but if that

1900

01:21:04,060 --> 01:21:01,250

happens to you just remember there are

1901

01:21:08,230 --> 01:21:04,070

laws you will be prosecuted you cannot

1902

01:21:10,420 --> 01:21:08,240

publish information regarding that and I

1903

01:21:12,250 --> 01:21:10,430

know it sounds a little square to say

1904

01:21:15,400 --> 01:21:12,260

but if you come across any classified

1905

01:21:19,620 --> 01:21:15,410

material you need to report it to proper

1906

01:21:21,670 --> 01:21:19,630

US agency immediately yeah so anyway I

1907

01:21:24,280 --> 01:21:21,680

wanted to really thank you for having

1908

01:21:26,110 --> 01:21:24,290

gone over that interesting topic

1909

01:21:28,000 --> 01:21:26,120

regarding arm and he has very colorful

1910

01:21:31,840 --> 01:21:28,010

past and I may have missed it did you

1911

01:21:33,400 --> 01:21:31,850

say that he is deceased or not I mean if

1912

01:21:34,870 --> 01:21:33,410

the guy that was a mailing me is

1913

01:21:37,510 --> 01:21:34,880

actually I'm touring well then he's not

1914

01:21:39,970 --> 01:21:37,520

deceased but I mean if he is deceased I

1915

01:21:41,440 --> 01:21:39,980

don't know I suppose we haven't really

1916

01:21:43,900 --> 01:21:41,450

looked at death records or anything he

1917

01:21:47,080 --> 01:21:43,910

does have a brother basil basil God

1918

01:21:49,150 --> 01:21:47,090

dazzle as that adult in London I have

1919

01:21:50,800 --> 01:21:49,160

try think I tried to get answer him it

1920

01:21:52,420 --> 01:21:50,810

but his email address even his own email

1921

01:21:54,730 --> 01:21:52,430

address was 20 years old or something

1922

01:21:57,190 --> 01:21:54,740

but look I don't know if he's dead well

1923

01:21:59,530 --> 01:21:57,200

I don't know if anyone's listening and

1924

01:22:03,640 --> 01:21:59,540

they're in London or they have access to

1925

01:22:05,110 --> 01:22:03,650

being able to find out death records you

1926

01:22:08,670 --> 01:22:05,120

know in any of the countries we just

1927

01:22:11,260 --> 01:22:08,680

talked about please contact Paul Dean

1928

01:22:13,090 --> 01:22:11,270

he's easy to contact is there an email

1929

01:22:15,970 --> 01:22:13,100

that people can actually be allowed to

1930

01:22:19,290 --> 01:22:15,980

have on air too conscious of course of

1931

01:22:25,660 --> 01:22:19,300

course so it's all lowercase P J

1932

01:22:27,310 --> 01:22:25,670

underscore D be a n at hotmail.com yeah

1933

01:22:32,080 --> 01:22:27,320

and then also it's really important for

1934

01:22:34,570 --> 01:22:32,090

people to know that you are an avid and

1935

01:22:37,870 --> 01:22:34,580

active writer on the UFO topic and many

1936

01:22:39,790 --> 01:22:37,880

other topics you have UFOs - doc in fact

1937

01:22:41,700 --> 01:22:39,800

I'll just I'll just mention your website

1938

01:22:44,650 --> 01:22:41,710

it's UFOs documenting the evidence at

1939

01:22:46,030 --> 01:22:44,660

blogspot.com but let me just go ahead

1940

01:22:52,180 --> 01:22:46,040

say that URL better

1941

01:22:56,050 --> 01:22:52,190

it's UFOs - documenting - the - evidence

1942

01:22:58,900 --> 01:22:56,060

dot blog spot.com now easier

1943

01:23:01,810 --> 01:22:58,910

a way to find it is just type in UFOs

1944

01:23:04,630 --> 01:23:01,820

documenting the evidence with Paul

1945

01:23:05,980 --> 01:23:04,640

Dean's name after that after you click

1946

01:23:06,850 --> 01:23:05,990

search on Google and it'll come up

1947

01:23:11,200 --> 01:23:06,860

immediately

1948

01:23:15,160 --> 01:23:11,210

a 1 and you like that you went over

1949

01:23:17,560 --> 01:23:15,170

regarding the ballistic missile early

1950

01:23:21,730 --> 01:23:17,570

warning topic are you going to be

1951

01:23:23,200 --> 01:23:21,740

writing an article on that if so like as

1952

01:23:25,840 --> 01:23:23,210

soon as possible I've just got to finish

1953

01:23:27,460 --> 01:23:25,850

it I've got a got a yeah I've written a

1954

01:23:29,740 --> 01:23:27,470

very very lengthy article I've just got

1955

01:23:32,560 --> 01:23:29,750

to finish it it's it's a thousand words

1956

01:23:34,480 --> 01:23:32,570

already so yeah it's going to be it's

1957

01:23:37,750 --> 01:23:34,490

got a lot of material in there I've got

1958

01:23:38,340 --> 01:23:37,760

sadly there's one thing that is a

1959

01:23:41,140 --> 01:23:38,350

problem

1960

01:23:43,720 --> 01:23:41,150

is-is-is I've actually found that Old

1961

01:23:45,670 --> 01:23:43,730

Spice command records which which

1962

01:23:49,570 --> 01:23:45,680

include ballistic missile early warning

1963

01:23:51,820 --> 01:23:49,580

system records unfortunately they a

1964

01:23:57,720 --> 01:23:51,830

large amount of them has have been

1965

01:24:01,600 --> 01:23:57,730

destroyed and I've got some I've got the

1966

01:24:05,890 --> 01:24:01,610

rot in front of me I've got it as an

1967

01:24:08,230 --> 01:24:05,900

example I've got a a a USA an old you

1968

01:24:10,330 --> 01:24:08,240

were from I think looks from 1991 an old

1969

01:24:14,170 --> 01:24:10,340

US Air Force Directorate of information

1970

01:24:16,090 --> 01:24:14,180

management file which which explains the

1971

01:24:17,920 --> 01:24:16,100

National Archive the sort of Space

1972

01:24:19,420 --> 01:24:17,930

Surveillance and missile records that

1973

01:24:22,140 --> 01:24:19,430

they'll be destroying in the future and

1974

01:24:24,760 --> 01:24:22,150

not passing on and some of them include

1975

01:24:26,800 --> 01:24:24,770

missile warning records space object

1976

01:24:29,680 --> 01:24:26,810

identification recordings of special

1977

01:24:31,780 --> 01:24:29,690

interest whatever that is raw satellite

1978

01:24:33,880 --> 01:24:31,790

data used and similar record use for

1979

01:24:36,640 --> 01:24:33,890

trend analysis and anomaly resolution

1980

01:24:39,430 --> 01:24:36,650

and so on and so these are the sort of

1981

01:24:42,760 --> 01:24:39,440

records that even in the 1990s the US

1982

01:24:44,620 --> 01:24:42,770

Air Force wanted to destroy before you

1983

01:24:47,680 --> 01:24:44,630

know handing them over to more permanent

1984

01:24:49,600 --> 01:24:47,690

sites like the National Archives so that

1985

01:24:53,020 --> 01:24:49,610

that's a blow for if I were research but

1986

01:24:54,880 --> 01:24:53,030

so so but you know yeah I'll be writing

1987

01:24:58,360 --> 01:24:54,890

about all this you know I'll be

1988

01:25:00,370 --> 01:24:58,370

publishing all this very soon I want to

1989

01:25:02,430 --> 01:25:00,380

thank you for having talked about the

1990

01:25:05,230 --> 01:25:02,440

ballistic missile early warning topic

1991

01:25:09,250 --> 01:25:05,240

along with the space object

1992

01:25:10,050 --> 01:25:09,260

identification topic and the RAF flying

1993

01:25:12,750 --> 01:25:10,060

Dales

1994

01:25:15,510 --> 01:25:12,760

and the missile a warning mission and

1995

01:25:18,810 --> 01:25:15,520

the Space Surveillance mission and then

1996

01:25:21,540 --> 01:25:18,820

the Armen topic the armin victorian

1997

01:25:23,610 --> 01:25:21,550

topic and he has too many aliases to

1998

01:25:26,100 --> 01:25:23,620

mention here's but anyway it's been a

1999

01:25:28,140 --> 01:25:26,110

fascinating evening with you and we

2000

01:25:30,350 --> 01:25:28,150

always love having you on the show

2001

01:25:33,120 --> 01:25:30,360

now i wanted to mention to our listeners

2002

01:25:35,760 --> 01:25:33,130

one last thing before we go here and

2003

01:25:37,770 --> 01:25:35,770

paul has a few last things to say to

2004

01:25:41,340 --> 01:25:37,780

wrap up and that is tomorrow

2005

01:25:43,980 --> 01:25:41,350

we will be interviewing a close friends

2006

01:25:46,500 --> 01:25:43,990

of actually Paul Dean and those are

2007

01:25:48,480 --> 01:25:46,510

veteran UFO researchers Christian

2008

01:25:50,310 --> 01:25:48,490

Lambert who is a former investigator for

2009

01:25:52,140 --> 01:25:50,320

the center of UFO studies and a

2010

01:25:54,150 --> 01:25:52,150

contributor to the computer UFO network

2011

01:25:56,520 --> 01:25:54,160

he holds a degree in psychology from

2012

01:25:58,980 --> 01:25:56,530

Baylor University has worked extensively

2013

01:26:00,480 --> 01:25:58,990

in computer technology and Internet

2014

01:26:03,390 --> 01:26:00,490

services and has a background in graphic

2015

01:26:06,900 --> 01:26:03,400

arts and illustration and then also Jan

2016

01:26:10,080 --> 01:26:06,910

Aldrich since 1995 mr. Aldrich has

2017

01:26:12,750 --> 01:26:10,090

worked full-time in project 1947 which

2018

01:26:16,230 --> 01:26:12,760

is also a website additionally it's a

2019

01:26:18,630 --> 01:26:16,240

research effort funded by Koufos v4 and

2020

01:26:21,870 --> 01:26:18,640

MUFON now called the UFO research

2021

01:26:25,020 --> 01:26:21,880

coalition and mr. Aldrich has visited

2022

01:26:28,350 --> 01:26:25,030

over 150 libraries universities archives

2023

01:26:30,870 --> 01:26:28,360

museums and historical societies in 46

2024

01:26:33,210 --> 01:26:30,880

states and Canadian provinces and Jan

2025

01:26:46,379 --> 01:26:33,220

delved into the MUFON UFO FILES when he

2026

01:26:54,029 --> 01:26:46,389

visited sick ok

2027

01:26:56,850 --> 01:26:54,039

if yours will be having the constant

2028

01:27:01,169 --> 01:26:56,860

discussion within UFO circles of the FBI

2029

01:27:04,500 --> 01:27:01,179

and the CIA and the DIA and quasi

2030

01:27:07,919 --> 01:27:04,510

private organizations and you know even

2031

01:27:10,770 --> 01:27:07,929

to even to an extent some aspects of the

2032

01:27:13,199 --> 01:27:10,780

Air Force I think it fit forever why and

2033

01:27:16,790 --> 01:27:13,209

documents and history research is

2034

01:27:20,689 --> 01:27:16,800

becoming very very tired almost mythical

2035

01:27:23,459 --> 01:27:20,699

the exact places that we should be

2036

01:27:28,229 --> 01:27:23,469

harassing and studying and researching

2037

01:27:29,819 --> 01:27:28,239

and analyzing the frontline object

2038

01:27:31,199 --> 01:27:29,829

detection sites whether it's objects in

2039

01:27:33,870 --> 01:27:31,209

space or objects in the atmosphere

2040

01:27:36,679 --> 01:27:33,880

that's NORAD Air Force Space Command

2041

01:27:38,639 --> 01:27:36,689

including especially the 21st Space Wing

2042

01:27:44,549 --> 01:27:38,649

the ballistic missile early warning

2043

01:27:46,799 --> 01:27:44,559

sites the the Geo DSS sites the the

2044

01:27:48,359 --> 01:27:46,809

Naval Space Surveillance fence the air

2045

01:27:50,520 --> 01:27:48,369

traffic control towers of the joint

2046

01:27:52,229 --> 01:27:50,530

surveillance system it's these places

2047

01:27:56,339 --> 01:27:52,239

that actually look let's not forget here

2048

01:27:59,189 --> 01:27:56,349

they detect track identify unknown or

2049

01:28:02,159 --> 01:27:59,199

unusual or unexpected objects in the air

2050

01:28:04,830 --> 01:28:02,169

or in space I mean isn't that what this

2051

01:28:06,779 --> 01:28:04,840

is all about like like constantly

2052

01:28:09,060 --> 01:28:06,789

bashing on about how the FBI probably

2053

01:28:11,279 --> 01:28:09,070

you know monitor UFO researchers on a

2054

01:28:13,469 --> 01:28:11,289

fuzzy or the office of Air Force Special

2055

01:28:16,139 --> 01:28:13,479

Investigation are interfering with you

2056

01:28:18,419 --> 01:28:16,149

know UFO researchers and the big bad CIA

2057

01:28:21,299 --> 01:28:18,429

and it's secret UFO programs and all

2058

01:28:24,359 --> 01:28:21,309

this it's just it's it's like all this

2059

01:28:27,389 --> 01:28:24,369

time as each year goes on you know the

2060

01:28:30,029 --> 01:28:27,399

the the frontline air defense units and

2061

01:28:32,429 --> 01:28:30,039

the spy surveillance wings and squadrons

2062

01:28:35,850 --> 01:28:32,439

are if they are detecting what we call

2063

01:28:37,919 --> 01:28:35,860

UFOs they they're getting away with it

2064

01:28:40,259 --> 01:28:37,929

red-handed because we're not pressuring

2065

01:28:43,739 --> 01:28:40,269

them at all I mean nobody I know nobody

2066

01:28:45,479 --> 01:28:43,749

I know is like in a stroke with

2067

01:28:47,250 --> 01:28:45,489

Australian Defense Department all the US

2068

01:28:49,739 --> 01:28:47,260

Defense Department virtually no one I

2069

01:28:51,719 --> 01:28:49,749

know is well there's one person I know

2070

01:28:55,319 --> 01:28:51,729

my colleague David Carmichael but other

2071

01:28:59,390 --> 01:28:55,329

than him and me virtually no one I know

2072

01:29:02,530 --> 01:28:59,400

is consistently asking US Air Force wing

2073

01:29:05,810 --> 01:29:02,540

and squadrons or you know

2074

01:29:07,370 --> 01:29:05,820

NORTHCOM or Air Force Space Command or

2075

01:29:09,440 --> 01:29:07,380

what no one's asking them for the sort

2076

01:29:12,740 --> 01:29:09,450

of data and policy direction and plant

2077

01:29:14,450 --> 01:29:12,750

statements and special analysis reports

2078

01:29:15,890 --> 01:29:14,460

and capabilities no one's asking them

2079

01:29:17,570 --> 01:29:15,900

for the right documentation and even

2080

01:29:20,150 --> 01:29:17,580

when you can't ask them even when it's

2081

01:29:22,130 --> 01:29:20,160

classified or non-existent or whatever

2082

01:29:24,050 --> 01:29:22,140

look very few people are even reading

2083

01:29:26,900 --> 01:29:24,060

the history of atmospheric warning and

2084

01:29:28,730 --> 01:29:26,910

atmospheric detection and and space

2085

01:29:32,690 --> 01:29:28,740

warning and space objects it's it's a

2086

01:29:34,850 --> 01:29:32,700

very very complicated true but it does

2087

01:29:36,710 --> 01:29:34,860

frustrate me when I see people banging

2088

01:29:38,810 --> 01:29:36,720

on about you know the Army's Horton

2089

01:29:41,150 --> 01:29:38,820

Brothers or you know Betty and Barney

2090

01:29:42,470 --> 01:29:41,160

Hill abduction or whatever just banging

2091

01:29:44,930 --> 01:29:42,480

on for years and years and years

2092

01:29:47,330 --> 01:29:44,940

hypnotized by the CIA and absolutely

2093

01:29:49,700 --> 01:29:47,340

hypnotized by by you know the

2094

01:29:52,370 --> 01:29:49,710

president's secret UFO meetings and all

2095

01:29:54,950 --> 01:29:52,380

this this trash that seeps into the UFO

2096

01:29:56,930 --> 01:29:54,960

community like a poisoned eye

2097

01:29:59,480 --> 01:29:56,940

the and no one's no one's actually

2098

01:30:01,550 --> 01:29:59,490

asking the very agencies that have the

2099

01:30:07,760 --> 01:30:01,560

job of detecting UFOs that it baffles me

2100

01:30:10,370 --> 01:30:07,770

but anyway I just some advice I give

2101

01:30:12,440 --> 01:30:10,380

chant once in a while don't complain

2102

01:30:13,970 --> 01:30:12,450

about somebody else not doing something

2103

01:30:32,390 --> 01:30:13,980

because it gives you the opportunity to

2104

01:30:34,640 --> 01:30:32,400

do it holding has a fantastic point

2105

01:30:37,190 --> 01:30:34,650

there and also I think UFO researchers

2106

01:30:39,470 --> 01:30:37,200

should take heed of that point and

2107

01:30:42,020 --> 01:30:39,480

really understand that if they want to

2108

01:30:44,990 --> 01:30:42,030

pursue that topic the UFO topic as

2109

01:30:48,290 --> 01:30:45,000

aggressively and Dan in dedicated manner

2110

01:30:50,150 --> 01:30:48,300

as they strive to they need to really

2111

01:30:52,180 --> 01:30:50,160

understand what you just said and I'm

2112

01:30:58,430 --> 01:30:52,190

glad you emphasized that so thank you

2113

01:30:59,810 --> 01:30:58,440

okay we're having been on our show Paul

2114

01:31:02,920 --> 01:30:59,820

we look forward to having you more on

2115

01:31:04,070 --> 01:31:02,930

this year as we did last year so we

2116

01:31:07,160 --> 01:31:04,080

appreciate it

2117

01:31:10,700 --> 01:31:07,170

thank you okay

2118

01:31:11,670 --> 01:31:10,710

and thanks Paul and as Chant mentioned

2119

01:31:13,710 --> 01:31:11,680

we will be

2120

01:31:16,770 --> 01:31:13,720

back tomorrow where anything on the way

2121

01:31:18,390 --> 01:31:16,780

out there chant yeah I mentioned our

2122

01:31:20,760 --> 01:31:18,400

show I mentioned who we're gonna have on

2123

01:31:23,070 --> 01:31:20,770

Christian Lambright and Jen Aldridge

2124

01:31:24,690 --> 01:31:23,080

veteran UFO researchers I gave their

2125

01:31:26,820 --> 01:31:24,700

BIOS and that's it

2126
01:31:29,940 --> 01:31:26,830
so we're sorry that we just recorded

2127
01:31:31,620 --> 01:31:29,950
when is this show going online well it's

2128
01:31:40,490 --> 01:31:31,630
a we're still recording right now Paul I

2129
01:31:46,020 --> 01:31:43,260
we'll wrap up and the the process

2130
01:31:48,690 --> 01:31:46,030
usually goes we do the recording and

2131
01:31:51,060 --> 01:31:48,700
then usually takes a couple three hours

2132
01:31:52,530 --> 01:31:51,070
to upload and process right yeah and

2133
01:31:53,850 --> 01:31:52,540
that's a good question too because I get

2134
01:31:55,830 --> 01:31:53,860
that question from folks in the

2135
01:31:57,720 --> 01:31:55,840
community when I'm announcing a post

2136
01:31:59,580 --> 01:31:57,730
we're gonna do a show how long does it

2137
01:32:02,460 --> 01:31:59,590
take Frank's right he's the person who

2138
01:32:05,040 --> 01:32:02,470

does the publishing of the post the the

2139

01:32:08,700 --> 01:32:05,050

pot the talk show and that takes about

2140

01:32:09,960 --> 01:32:08,710

three or four hours okay it kind of

2141

01:32:12,150 --> 01:32:09,970

depends on the length of the show this

2142

01:32:14,100 --> 01:32:12,160

one was reasonable at an hour thirty so

2143

01:32:17,220 --> 01:32:14,110

good night everybody enjoy the rest of

2144

01:32:18,690 --> 01:32:17,230

your night enjoy your quarantine and we

2145

01:32:19,560 --> 01:32:18,700

will talk to you tomorrow because you're
