ON AATIP

**UFONN**  
**SUNDAY**

1  
00:00:00,000 --> 00:00:03,190

Thanks

2  
00:00:57,510 --> 00:00:16,700

[Music]

3  
00:00:57,520 --> 00:01:02,110

you

4  
00:01:08,360 --> 00:01:04,939

and good afternoon from Philadelphia

5  
00:01:10,550 --> 00:01:08,370

Frank here with an episode of UFO news

6  
00:01:11,960 --> 00:01:10,560

network Sunday we've got a big panel a

7  
00:01:14,390 --> 00:01:11,970

big show so let me get right to my

8  
00:01:16,070 --> 00:01:14,400

co-host chant Hannah and she can

9  
00:01:18,230 --> 00:01:16,080

introduce everybody and get the ball

10  
00:01:20,330 --> 00:01:18,240

rolling how are you today champ I'm

11  
00:01:21,830 --> 00:01:20,340

doing well Frank thank you so much this

12  
00:01:24,380 --> 00:01:21,840

is going to be such a great show we have

13  
00:01:25,969 --> 00:01:24,390

such a fabulous guest panel on our show

14

00:01:28,609 --> 00:01:25,979

today we're talking about the topic of

15

00:01:30,290 --> 00:01:28,619

UFO data the compilation of it and what

16

00:01:32,330 --> 00:01:30,300

does one do with it once they acquire it

17

00:01:34,880 --> 00:01:32,340

considering the UFO topic has always

18

00:01:36,529 --> 00:01:34,890

been a decentralized initiative it is

19

00:01:38,810 --> 00:01:36,539

not surprising the efforts to organize

20

00:01:41,090 --> 00:01:38,820

it have been similarly independent and

21

00:01:42,889 --> 00:01:41,100

uncoordinated with the rapid growth and

22

00:01:45,139 --> 00:01:42,899

the number of UFO sightings as folks

23

00:01:47,810 --> 00:01:45,149

have more access to technology to look

24

00:01:49,580 --> 00:01:47,820

at the sky use applications to do so and

25

00:01:51,800 --> 00:01:49,590

many other tech advances it is

26  
00:01:53,840 --> 00:01:51,810  
imperative UFO organizations have a good

27  
00:01:56,389 --> 00:01:53,850  
reliable system for data collection and

28  
00:01:58,520 --> 00:01:56,399  
the categorizing of it one goal and

29  
00:02:00,529 --> 00:01:58,530  
challenge of many UFO organizations and

30  
00:02:02,749 --> 00:02:00,539  
individuals regarding this distributed

31  
00:02:04,910 --> 00:02:02,759  
catalog type system is the ability to

32  
00:02:07,190 --> 00:02:04,920  
provide access to everything in the UFO

33  
00:02:10,969 --> 00:02:07,200  
database collection through one totally

34  
00:02:13,970 --> 00:02:10,979  
integrated catalog today we have a huge

35  
00:02:18,590 --> 00:02:13,980  
panel of guests with with us to talk

36  
00:02:22,009 --> 00:02:18,600  
about how this 50 to 70 year old topic

37  
00:02:24,530 --> 00:02:22,019  
or possibly longer has grappled with the

38  
00:02:26,740 --> 00:02:24,540

voluminous amount of UFO related data

39

00:02:30,050 --> 00:02:26,750

today on the show we have a Peter deed

40

00:02:32,390 --> 00:02:30,060

Davenport of the UFO Reporting Center we

41

00:02:35,720 --> 00:02:32,400

also have Earl Grey he was the director

42

00:02:37,250 --> 00:02:35,730

of Southern California move on and we

43

00:02:39,699 --> 00:02:37,260

have Ruben Uriarte

44

00:02:43,490 --> 00:02:39,709

who is the director of northern Cal

45

00:02:44,930 --> 00:02:43,500

California MUFON we also have scientist

46

00:02:47,979 --> 00:02:44,940

Roger Stang kovitch director of

47

00:02:50,780 --> 00:02:47,989

Australia MUFON we have Mark Dantonio

48

00:02:54,590 --> 00:02:50,790

astronomer and chief forensic analyst of

49

00:02:57,979 --> 00:02:54,600

video and photos and more for MUFON we

50

00:03:00,110 --> 00:02:57,989

also have let's see Shane Hurd who is

51  
00:03:02,479 --> 00:03:00,120  
the assistant director for Phoenix MUFON

52  
00:03:06,800 --> 00:03:02,489  
we have dr. irina scott who is the

53  
00:03:10,720 --> 00:03:06,810  
author of many UFO books ohio historian

54  
00:03:13,910 --> 00:03:10,730  
is written a book on that she is the

55  
00:03:15,580 --> 00:03:13,920  
great-great niece of grand niece of a

56  
00:03:18,160 --> 00:03:15,590  
John Purdue

57  
00:03:20,260 --> 00:03:18,170  
let's see have I left anybody out I know

58  
00:03:26,410 --> 00:03:20,270  
there might be a few other folks anybody

59  
00:03:29,860 --> 00:03:26,420  
else Frank Jan we have John Aldridge of

60  
00:03:33,610 --> 00:03:29,870  
project 1947 Thank You Jan UFO he's

61  
00:03:36,520 --> 00:03:33,620  
actually he is a historian and

62  
00:03:39,430 --> 00:03:36,530  
researcher and then we also have the

63  
00:03:41,740 --> 00:03:39,440

venerable Michael W Hall who has known

64

00:03:44,170 --> 00:03:41,750

Peter Davenport for years and he's been

65

00:03:47,110 --> 00:03:44,180

involved like you all have for decades

66

00:03:49,840 --> 00:03:47,120

on this UFO topic he actually knew Cora

67

00:03:52,750 --> 00:03:49,850

Lorenson and her husband Bob here in

68

00:03:56,650 --> 00:03:52,760

Arizona when they were involved in the

69

00:03:59,740 --> 00:03:56,660

UFO topic heavily and he is a judge and

70

00:04:01,600 --> 00:03:59,750

also a lawyer Michael W ha also known as

71

00:04:03,820 --> 00:04:01,610

the paranormal lawyer he has his own

72

00:04:05,830 --> 00:04:03,830

show and he also has his own UFO eye

73

00:04:07,750 --> 00:04:05,840

team so he covers this topic on a

74

00:04:09,699 --> 00:04:07,760

regular by the way I'd like to also

75

00:04:11,770 --> 00:04:09,709

mention Mark Dantonio has his own show

76

00:04:14,199 --> 00:04:11,780

also and we'll be talking about that

77

00:04:16,330 --> 00:04:14,209

later on in the show I wanted to go

78

00:04:17,890 --> 00:04:16,340

ahead and throw this question out there

79

00:04:21,219 --> 00:04:17,900

to our panelists

80

00:04:24,790 --> 00:04:21,229

wanted to ask everybody if you had the

81

00:04:27,670 --> 00:04:24,800

opportunity into a catalog a large

82

00:04:30,909 --> 00:04:27,680

compilation of UFO data how does one go

83

00:04:32,890 --> 00:04:30,919

about actually cataloging it and do you

84

00:04:35,740 --> 00:04:32,900

keep it to yourself or do you centralize

85

00:04:37,750 --> 00:04:35,750

it worldwide anybody want to go ahead

86

00:04:43,710 --> 00:04:37,760

and address that question Peter

87

00:04:49,120 --> 00:04:46,900

well our operation my operation is

88

00:04:51,190 --> 00:04:49,130

pretty simple in the sense that just

89

00:04:55,300 --> 00:04:51,200

about everything I receive over the

90

00:04:58,690 --> 00:04:55,310

Internet I post to our website UFO

91

00:05:00,610 --> 00:04:58,700

center.com so anybody who is interested

92

00:05:03,850 --> 00:05:00,620

in the subject will be able to see what

93

00:05:06,430 --> 00:05:03,860

I'm looking at as well and we post it so

94

00:05:09,580 --> 00:05:06,440

that people can sort the data by the

95

00:05:11,620 --> 00:05:09,590

date of the occurrence by the location

96

00:05:15,040 --> 00:05:11,630

of the occurrence by state province and

97

00:05:18,850 --> 00:05:15,050

country by the type of object seen and

98

00:05:21,730 --> 00:05:18,860

by the date that the material was posted

99

00:05:24,550 --> 00:05:21,740

to our website so that's how we do it

100

00:05:27,710 --> 00:05:24,560

and that's given that I work solo by

101  
00:05:30,790 --> 00:05:27,720  
myself that's about all I'm able to do

102  
00:05:33,650 --> 00:05:30,800  
we don't were not an investigative

103  
00:05:35,390 --> 00:05:33,660  
organization as most people know we're

104  
00:05:41,930 --> 00:05:35,400  
principally a clearinghouse for

105  
00:05:44,570 --> 00:05:41,940  
information okay wonderful so we

106  
00:05:46,910 --> 00:05:44,580  
actually spoke Peter with Jan Harrison

107  
00:05:48,530 --> 00:05:46,920  
on Friday and had a wonderful show with

108  
00:05:50,930 --> 00:05:48,540  
him regarding this topic and he did

109  
00:05:53,360 --> 00:05:50,940  
mention how you bridge your information

110  
00:05:55,970 --> 00:05:53,370  
that you get regarding the UFO reports

111  
00:05:58,160 --> 00:05:55,980  
those Colin reports and then you

112  
00:06:03,410 --> 00:05:58,170  
actually shared that data with MUFON can

113  
00:06:07,010 --> 00:06:03,420

you explain that investigative body and

114

00:06:10,010 --> 00:06:07,020

very very few very small percentage of

115

00:06:12,740 --> 00:06:10,020

reports I feel weren't follow up

116

00:06:15,260 --> 00:06:12,750

investigation to any degree but when we

117

00:06:18,770 --> 00:06:15,270

get a good one I usually turn it over to

118

00:06:21,530 --> 00:06:18,780

Jan or to a MUFON representative for

119

00:06:24,409 --> 00:06:21,540

follow-up investigation so we can try to

120

00:06:27,230 --> 00:06:24,419

develop more information get more

121

00:06:29,810 --> 00:06:27,240

witnesses and so on with regard to

122

00:06:32,290 --> 00:06:29,820

trying to find more witnesses one of the

123

00:06:35,659 --> 00:06:32,300

things I usually do over the hotline is

124

00:06:38,180 --> 00:06:35,669

encourage a caller after the call and

125

00:06:40,909 --> 00:06:38,190

after they've submitted a report to go

126  
00:06:43,870 --> 00:06:40,919  
to the local news media radio television

127  
00:06:46,909 --> 00:06:43,880  
in a newspaper try to get some publicity

128  
00:06:50,030 --> 00:06:46,919  
with the effort of trying to with the

129  
00:06:52,909 --> 00:06:50,040  
intent of trying to get other witnesses

130  
00:06:59,480 --> 00:06:52,919  
to come forward but that's the extent to

131  
00:07:01,490 --> 00:06:59,490  
which I investigate great thank you

132  
00:07:02,659 --> 00:07:01,500  
before I move on to the other guest I

133  
00:07:04,790 --> 00:07:02,669  
wanted to bring up something kind of

134  
00:07:06,830 --> 00:07:04,800  
funny to you Peter and not as I know

135  
00:07:08,719 --> 00:07:06,840  
everybody on this panel has had to deal

136  
00:07:10,760 --> 00:07:08,729  
with this kind of situation before and

137  
00:07:12,350 --> 00:07:10,770  
it might give you a chuckle and that is

138  
00:07:15,020 --> 00:07:12,360

back in the day remember going to a

139

00:07:19,159 --> 00:07:15,030

public library and pulling out from that

140

00:07:23,300 --> 00:07:19,169

huge wooden cabinet a long drawer that

141

00:07:26,000 --> 00:07:23,310

had the index card catalog and looking

142

00:07:29,170 --> 00:07:26,010

stuff up that way by paper I wanted to

143

00:07:32,360 --> 00:07:29,180

ask you since technology has taken hold

144

00:07:35,600 --> 00:07:32,370

how have you graduated from a very

145

00:07:38,240 --> 00:07:35,610

primitive system possibly paper oriented

146

00:07:41,270 --> 00:07:38,250

to now how did you streamline your

147

00:07:46,190 --> 00:07:41,280

cataloguing UFO compilation data effort

148

00:07:47,300 --> 00:07:46,200

Peter well this is Peter speaking about

149

00:07:49,580 --> 00:07:47,310

the only thing we've done is

150

00:07:53,659 --> 00:07:49,590

computerized it and that says it all I

151  
00:07:58,520 --> 00:07:53,669  
feel it catalogs the material in toto

152  
00:08:00,350 --> 00:07:58,530  
and allows us to sort through it to look

153  
00:08:02,600 --> 00:08:00,360  
for trends and anything else where we

154  
00:08:06,580 --> 00:08:02,610  
may be searching for in the database but

155  
00:08:09,170 --> 00:08:06,590  
I haven't gone to any great extent to

156  
00:08:12,740 --> 00:08:09,180  
catalogue other than using a database

157  
00:08:14,450 --> 00:08:12,750  
and a computer ok I wanted to bring up a

158  
00:08:16,010 --> 00:08:14,460  
really important comment John Aldridge

159  
00:08:18,290 --> 00:08:16,020  
has made actually he's made many

160  
00:08:20,690 --> 00:08:18,300  
comments because I went on social media

161  
00:08:23,990 --> 00:08:20,700  
and I made a post about this topic the

162  
00:08:26,630 --> 00:08:24,000  
UFO a data compilation and the

163  
00:08:28,580 --> 00:08:26,640

cataloguing of it and he said a few

164

00:08:30,710 --> 00:08:28,590

things I'm gonna read what he said he

165

00:08:33,110 --> 00:08:30,720

said work like the Italians who decades

166

00:08:35,390 --> 00:08:33,120

ago bought compatible computer scanning

167

00:08:37,700 --> 00:08:35,400

equipment then they began scanning their

168

00:08:39,740 --> 00:08:37,710

files to a central location when the

169

00:08:41,420 --> 00:08:39,750

government released its released its

170

00:08:44,149 --> 00:08:41,430

files they traced down missing cases

171

00:08:46,070 --> 00:08:44,159

stuck in the bureaucracy most anything

172

00:08:48,980 --> 00:08:46,080

done in the USA was usually done in

173

00:08:51,350 --> 00:08:48,990

Italy 10 years before then he said one

174

00:08:55,370 --> 00:08:51,360

more Hynek effort evaluation of cases

175

00:08:57,440 --> 00:08:55,380

and reevaluation of PBB PBB cases rebut

176

00:08:58,430 --> 00:08:57,450

reliability against strangeness we'll

177

00:09:00,860 --> 00:08:58,440

have to ask you what you meant by that

178

00:09:02,329 --> 00:09:00,870

Jen and then the last one this is a

179

00:09:04,670 --> 00:09:02,339

little bit of a long list but I'm going

180

00:09:07,790 --> 00:09:04,680

to read it to you John Aldridge said

181

00:09:13,070 --> 00:09:07,800

regarding the compilation UFO data topic

182

00:09:15,440 --> 00:09:13,080

number one GI geo get rid of IFOS to

183

00:09:17,510 --> 00:09:15,450

take out trivial cases three assigned

184

00:09:20,090 --> 00:09:17,520

subjective evaluation of confidence of

185

00:09:22,970 --> 00:09:20,100

data for search for patterns secondary

186

00:09:25,190 --> 00:09:22,980

patterns third etc in parentheses CQ

187

00:09:28,700 --> 00:09:25,200

fuss vehicle interference cases report

188

for examples and the parentheses 5 run

189

00:09:32,530 --> 00:09:30,270

the data through filters for various

190

00:09:35,870 --> 00:09:32,540

aspects attributes activities etc

191

00:09:38,300 --> 00:09:35,880

parentheses C halls UFO evidence too as

192

00:09:40,220 --> 00:09:38,310

a starting point and the parentheses 6

193

00:09:42,590 --> 00:09:40,230

feedback constant feedback and

194

00:09:44,920 --> 00:09:42,600

redesigned filters based on this this

195

00:09:47,570 --> 00:09:44,930

may seem like a reinvent the wheel

196

00:09:49,400 --> 00:09:47,580

tactic I think is what he meant valet

197

00:09:51,430 --> 00:09:49,410

has covered some of these problems and

198

00:09:53,990 --> 00:09:51,440

then lastly he concluded by saying

199

00:09:55,370 --> 00:09:54,000

frankly we are still in the collection

200

00:09:57,740 --> 00:09:55,380

phase after 70

201  
00:10:00,260 --> 00:09:57,750  
personally I believe ce2 cases are the

202  
00:10:02,420 --> 00:10:00,270  
answer here Jan can you please expand

203  
00:10:05,170 --> 00:10:02,430  
upon what you stated there publicly on

204  
00:10:08,540 --> 00:10:05,180  
social media okay

205  
00:10:11,600 --> 00:10:08,550  
I've been collecting since since the

206  
00:10:17,320 --> 00:10:11,610  
fifties so I've got five rooms in my

207  
00:10:22,450 --> 00:10:17,330  
house full of UFO stuff plus I got a a

208  
00:10:32,710 --> 00:10:27,020  
Brina word and I have started scanning

209  
00:10:37,940 --> 00:10:32,720  
our collections making them digital and

210  
00:10:40,490 --> 00:10:37,950  
we have a convention so and if you want

211  
00:10:44,660 --> 00:10:40,500  
to see that you can go to project 1947

212  
00:10:50,360 --> 00:10:44,670  
and then go to what's new and then look

213  
00:10:54,370 --> 00:10:50,370

at the trip report in there we've put

214

00:11:01,670 --> 00:10:54,380

forward what we do essentially we were

215

00:11:04,430 --> 00:11:01,680

were by date we're using the convention

216

00:11:06,440 --> 00:11:04,440

is by date so and we also put in what

217

00:11:10,220 --> 00:11:06,450

type of cases they are where they

218

00:11:11,900 --> 00:11:10,230

originated things like that that's in

219

00:11:17,330 --> 00:11:11,910

the title and you can search for

220

00:11:18,470 --> 00:11:17,340

specific kinds of cases that way we've

221

00:11:22,330 --> 00:11:18,480

also started doing

222

00:11:30,740 --> 00:11:22,340

Koufos Koufos NICAP

223

00:11:33,550 --> 00:11:30,750

CSI Los Angeles CSI New York all the all

224

00:11:39,650 --> 00:11:33,560

the organizations that poured into

225

00:11:46,600 --> 00:11:39,660

cupa-hr maybe 20 or so and their files

226  
00:11:50,090 --> 00:11:46,610  
are integrated so we have Bosch hmm I

227  
00:11:54,580 --> 00:11:50,100  
think we we've got about somewhere

228  
00:11:59,540 --> 00:11:54,590  
between 35 and 40 percent of those files

229  
00:12:02,570 --> 00:11:59,550  
scanned and digitized and as I say it's

230  
00:12:07,040 --> 00:12:02,580  
a it's a digital filing cabinet arranged

231  
00:12:09,380 --> 00:12:07,050  
by date it that means you can carry it

232  
00:12:15,410 --> 00:12:09,390  
with you and you can share with other

233  
00:12:17,030 --> 00:12:15,420  
very easily okay Jen I wanted to start

234  
00:12:20,930 --> 00:12:17,040  
interject wanted to bring up something

235  
00:12:22,880 --> 00:12:20,940  
up you actually are head of project 1947

236  
00:12:25,670 --> 00:12:22,890  
created that project for good reason

237  
00:12:30,470 --> 00:12:25,680  
I spoke to Jan on Friday regarding this

238  
00:12:32,930 --> 00:12:30,480

topic and he said that you share your

239

00:12:36,230 --> 00:12:32,940

data with MUFON can you explain how that

240

00:12:39,170 --> 00:12:36,240

works we're not sharing the data we move

241

00:12:41,960 --> 00:12:39,180

on maybe we will I I was supposed to go

242

00:12:48,560 --> 00:12:41,970

out there and see can a few years ago

243

00:12:51,590 --> 00:12:48,570

but other things intervened so what

244

00:12:53,780 --> 00:12:51,600

we're doing now is the KU profiles which

245

00:12:56,240 --> 00:12:53,790

I think are going to be shared with

246

00:12:58,490 --> 00:12:56,250

MUFON okay that's probably what he meant

247

00:13:00,680 --> 00:12:58,500

okay yeah I apologize from is speaking

248

00:13:02,630 --> 00:13:00,690

on that do you work with MUFON in any

249

00:13:06,590 --> 00:13:02,640

way shape or form regarding the projects

250

00:13:09,560 --> 00:13:06,600

that you do well in the beginning of

251  
00:13:13,400 --> 00:13:09,570  
projects forty-seven yes I did I visited

252  
00:13:14,180 --> 00:13:13,410  
out there but not recently and except to

253  
00:13:16,070 --> 00:13:14,190  
be a member

254  
00:13:18,470 --> 00:13:16,080  
great yeah I think that's what I was

255  
00:13:20,030 --> 00:13:18,480  
referring to regarding that topic okay

256  
00:13:21,920 --> 00:13:20,040  
thanks very much for that guy clearing

257  
00:13:25,460 --> 00:13:21,930  
that up okay just wanted to move along

258  
00:13:27,290 --> 00:13:25,470  
here to the folks involved with a MUFON

259  
00:13:29,750 --> 00:13:27,300  
that would be a Roger Stang Kovac a

260  
00:13:34,070 --> 00:13:29,760  
director of Australia MUFON we have Earl

261  
00:13:36,260 --> 00:13:34,080  
Grey director of Southern California

262  
00:13:38,510 --> 00:13:36,270  
MUFON then we have Ruben Uriarte who is

263  
00:13:41,120 --> 00:13:38,520

co-director of Northern California MUFON

264

00:13:44,360 --> 00:13:41,130

and I wanted to ask you all we all know

265

00:13:46,970 --> 00:13:44,370

how MUFON categorizes things Jan went

266

00:13:50,900 --> 00:13:46,980

over that very carefully how would you

267

00:13:53,330 --> 00:13:50,910

all categorize the compilation of UFO

268

00:13:56,360 --> 00:13:53,340

data would you continue on in the manner

269

00:13:58,370 --> 00:13:56,370

that MUFON does and then add extra

270

00:14:00,380 --> 00:13:58,380

categories or would you take them off

271

00:14:03,140 --> 00:14:00,390

would you centralize your effort and

272

00:14:05,780 --> 00:14:03,150

open up the vaults of the data to the

273

00:14:11,990 --> 00:14:05,790

whole world to other countries and work

274

00:14:18,140 --> 00:14:12,000

on that idea how would you do it can you

275

00:14:22,310 --> 00:14:18,150

hear me this is chant this ribbon and

276

00:14:23,300 --> 00:14:22,320

that really great to be on with some

277

00:14:26,630 --> 00:14:23,310

great panel

278

00:14:29,390 --> 00:14:26,640

the stair and one gentleman I also know

279

00:14:31,460 --> 00:14:29,400

there's several people there that I have

280

00:14:34,580 --> 00:14:31,470

a lot of respect but will everyone

281

00:14:38,600 --> 00:14:34,590

actually but one of the things that I

282

00:14:42,200 --> 00:14:38,610

see myself using the data as for

283

00:14:45,680 --> 00:14:42,210

educational purposes mainly the who what

284

00:14:48,410 --> 00:14:45,690

where when and what happened kind of

285

00:14:52,850 --> 00:14:48,420

situation and what I do is I'll gather

286

00:14:56,590 --> 00:14:52,860

that data in order to give reports

287

00:14:59,030 --> 00:14:56,600

either to at our meetings or mainstream

288

00:15:01,250 --> 00:14:59,040

organizations this let people know

289

00:15:04,280 --> 00:15:01,260

what's going on in our skies you know

290

00:15:07,430 --> 00:15:04,290

what is going on in it what's being what

291

00:15:09,710 --> 00:15:07,440

is what is considered as the UFO

292

00:15:11,840 --> 00:15:09,720

compared to the IFO where we get many of

293

00:15:15,950 --> 00:15:11,850

those reports so it's it's a matter of

294

00:15:17,780 --> 00:15:15,960

Education but one thing that I wanted to

295

00:15:20,450 --> 00:15:17,790

bring up when we were talking about the

296

00:15:22,630 --> 00:15:20,460

cardboard the catalog you know system

297

00:15:26,390 --> 00:15:22,640

that you that the in the libraries that

298

00:15:31,270 --> 00:15:26,400

you would go to research or find find a

299

00:15:35,030 --> 00:15:31,280

particular topic one of my former chief

300

00:15:40,010 --> 00:15:35,040

investigators sure Peter would remember

301

00:15:43,700 --> 00:15:40,020

him and in mark Stacy fridge myth put

302

00:15:46,579 --> 00:15:43,710

together a great project in he called it

303

00:15:49,940 --> 00:15:46,589

UFO weather map and what he did was he

304

00:15:53,810 --> 00:15:49,950

plotted the data from MUFON sightings as

305

00:15:56,390 --> 00:15:53,820

well as from new fork and and some other

306

00:16:01,280 --> 00:15:56,400

other date databases but basically he

307

00:16:02,480 --> 00:16:01,290

would plot it manually on a map and over

308

00:16:05,990 --> 00:16:02,490

a period of time this became really

309

00:16:11,329 --> 00:16:06,000

valuable this was before we had the that

310

00:16:14,780 --> 00:16:11,339

oh what the UFO stalker you know where

311

00:16:17,540 --> 00:16:14,790

it's automatic here where it's

312

00:16:19,190 --> 00:16:17,550

interactive but basically what what

313

00:16:23,199 --> 00:16:19,200

Steve would do would he would plot the

314

00:16:28,030 --> 00:16:23,209

location a symbol and everything and

315

00:16:32,540 --> 00:16:28,040

this became really useful in terms of

316

00:16:36,079 --> 00:16:32,550

the maps became useful each month to the

317

00:16:37,070 --> 00:16:36,089

state directors and I recall that when

318

00:16:43,970 --> 00:16:37,080

we had the Stevens

319

00:16:47,900 --> 00:16:43,980

flap back in 2008 Steve was able to plot

320

00:16:49,460 --> 00:16:47,910

these clusters of activity sightings you

321

00:16:52,160 --> 00:16:49,470

know throughout the Southwest and then

322

00:16:57,230 --> 00:16:52,170

you could see that but gradually you can

323

00:16:59,690 --> 00:16:57,240

see these these sighting reports

324

00:17:01,970 --> 00:16:59,700

shifting from one state one part of the

325

00:17:04,820 --> 00:17:01,980

state of Texas to the other and then you

326

00:17:07,310 --> 00:17:04,830

can see that you start seeing all the

327

00:17:09,740 --> 00:17:07,320

activity around the Stephenville area

328

00:17:11,770 --> 00:17:09,750

and this was really of interest to the

329

00:17:15,230 --> 00:17:11,780

state director at that time Kent cherry

330

00:17:18,680 --> 00:17:15,240

where he was involved with him and the

331

00:17:22,070 --> 00:17:18,690

state chapter was involved in the follow

332

00:17:25,220 --> 00:17:22,080

up and and investigations of the

333

00:17:29,120 --> 00:17:25,230

students Vil so the data is definitely

334

00:17:30,620 --> 00:17:29,130

very it's a very valuable tool and all

335

00:17:34,130 --> 00:17:30,630

the gentlemen that are involved in

336

00:17:37,280 --> 00:17:34,140

putting together this type of data it's

337

00:17:39,560 --> 00:17:37,290

you know it's it's valuable and it will

338

00:17:41,660 --> 00:17:39,570

be much more valuable as time moves

339

00:17:44,120 --> 00:17:41,670

along so that's I just wanted to make

340

00:17:46,280 --> 00:17:44,130

that sure comment there really

341

00:17:49,190 --> 00:17:46,290

appreciate that so much Rubin also

342

00:17:51,230 --> 00:17:49,200

wanted to bring into the huddle here dr.

343

00:17:52,010 --> 00:17:51,240

Irena Scott who was on the board of

344

00:17:54,980 --> 00:17:52,020

MUFON

345

00:17:57,140 --> 00:17:54,990

in the 2000s early 2000s I believe and

346

00:17:59,240 --> 00:17:57,150

then also a Mark Dantonio is an

347

00:18:01,010 --> 00:17:59,250

astronomer and has the sky watches sky

348

00:18:03,200 --> 00:18:01,020

watch show which is a very very popular

349

00:18:05,300 --> 00:18:03,210

show and has millions of listeners

350

00:18:08,930 --> 00:18:05,310

around the world I wanted to ask

351  
00:18:10,820 --> 00:18:08,940  
everybody there from MUFON feel free to

352  
00:18:13,310 --> 00:18:10,830  
jump in whoever wants to jump in first

353  
00:18:16,160 --> 00:18:13,320  
would you add an extra category or

354  
00:18:18,380 --> 00:18:16,170  
categories or take off shave off

355  
00:18:20,450 --> 00:18:18,390  
categories from the UFO compilation data

356  
00:18:28,730 --> 00:18:20,460  
effort what are your thoughts on this

357  
00:18:30,890 --> 00:18:28,740  
topic anyone so I think that was Roger I

358  
00:18:33,350 --> 00:18:30,900  
think I heard Roger syncovich a director

359  
00:18:35,360 --> 00:18:33,360  
of MUFON Australia go ahead yes sorry if

360  
00:18:42,290 --> 00:18:35,370  
I was talking there was somebody else

361  
00:18:44,750 --> 00:18:42,300  
there yeah I I saw the young the program

362  
00:18:46,660 --> 00:18:44,760  
we had on the with Jane recently and he

363  
00:18:48,860 --> 00:18:46,670

obviously described a lot of the

364

00:18:50,330 --> 00:18:48,870

functionalities of the CMS of the case

365

00:18:52,910 --> 00:18:50,340

management system in move on

366

00:18:58,880 --> 00:18:52,920

and a little louder we just fit breasts

367

00:19:00,110 --> 00:18:58,890

sorry I'll just turn my volume up I'm

368

00:19:02,810 --> 00:19:00,120

not sure whether I'm gonna be turning it

369

00:19:06,560 --> 00:19:02,820

up or down can you hear me now much

370

00:19:10,100 --> 00:19:06,570

better yep much better okay so um I just

371

00:19:12,620 --> 00:19:10,110

said that I saw the video that chant had

372

00:19:16,430 --> 00:19:12,630

done with Jane house and the other day

373

00:19:19,960 --> 00:19:16,440

and Jane went into quite a bit of detail

374

00:19:23,570 --> 00:19:19,970

about how the CMS worked with MUFON

375

00:19:27,230 --> 00:19:23,580

which is the case management system and

376

00:19:30,550 --> 00:19:27,240

how he went through how it's not up to

377

00:19:33,440 --> 00:19:30,560

200 data points that we collect on on

378

00:19:36,230 --> 00:19:33,450

reports we don't collect 200 HP report

379

00:19:41,330 --> 00:19:36,240

but this is 200 there that we can we can

380

00:19:42,740 --> 00:19:41,340

actually obtain I think that we I think

381

00:19:45,110 --> 00:19:42,750

it would be pointless to put more data

382

00:19:46,940 --> 00:19:45,120

points there but to be able to use those

383

00:19:49,460 --> 00:19:46,950

data points in a meaningful scientific

384

00:19:52,160 --> 00:19:49,470

way is what we should be doing more

385

00:19:55,790 --> 00:19:52,170

often and what we need to do is to be

386

00:19:59,510 --> 00:19:55,800

able to select a data point and

387

00:20:03,730 --> 00:19:59,520

basically search for that particular

388

00:20:10,490 --> 00:20:06,200

material on that say for example I

389

00:20:13,010 --> 00:20:10,500

wanted to know how many orbs were being

390

00:20:15,080 --> 00:20:13,020

seen in a particular area in Australia

391

00:20:16,850 --> 00:20:15,090

or whatever you could there's a

392

00:20:19,120 --> 00:20:16,860

functionality within the CMS that

393

00:20:22,850 --> 00:20:19,130

enables you to be able to search for

394

00:20:23,780 --> 00:20:22,860

forms and a particular I'm not sure

395

00:20:25,820 --> 00:20:23,790

whether you can actually search a

396

00:20:27,730 --> 00:20:25,830

particular location but there's there's

397

00:20:30,920 --> 00:20:27,740

certain fields that you can actually put

398

00:20:33,350 --> 00:20:30,930

keywords in that will actually give you

399

00:20:36,860 --> 00:20:33,360

then a list of all the cases that have

400

00:20:38,660 --> 00:20:36,870

come up farm with with orbs sacred

401  
00:20:39,980 --> 00:20:38,670  
temple blue orbs or something like that

402  
00:20:42,590 --> 00:20:39,990  
that was seen by individuals that

403  
00:20:45,020 --> 00:20:42,600  
reported their sightings on the CMS I

404  
00:20:47,440 --> 00:20:45,030  
think that that should really happen

405  
00:20:52,910 --> 00:20:47,450  
more often people should be using the

406  
00:20:54,230 --> 00:20:52,920  
power and the the full functionality of

407  
00:20:56,950 --> 00:20:54,240  
it because I don't see that often I

408  
00:21:00,410 --> 00:20:56,960  
don't see it you know people publishing

409  
00:21:03,740 --> 00:21:00,420  
things in in articles in the mouflon

410  
00:21:06,050 --> 00:21:03,750  
newsletter using this useful

411  
00:21:06,950 --> 00:21:06,060  
functioning with you saying this all

412  
00:21:09,500 --> 00:21:06,960  
points

413  
00:21:13,850 --> 00:21:09,510

I think dr. Rena Scott had wanted to say

414

00:21:16,040 --> 00:21:13,860

if he thinks dr. arena yes um one thing

415

00:21:18,560 --> 00:21:16,050

I think that needs more information on

416

00:21:23,840 --> 00:21:18,570

and I don't think it's even exactly a

417

00:21:26,840 --> 00:21:23,850

category now it's a witness's and it's

418

00:21:31,010 --> 00:21:26,850

set up like just if you're somebody on a

419

00:21:33,050 --> 00:21:31,020

shore looking at a boat describing you

420

00:21:34,580 --> 00:21:33,060

don't know in the case of UFOs where

421

00:21:38,780 --> 00:21:34,590

there's a relationship between the

422

00:21:41,000 --> 00:21:38,790

witnesses and the sighting and you

423

00:21:45,500 --> 00:21:41,010

should be able to find out whether a

424

00:21:47,900 --> 00:21:45,510

witness has seen one or a number of UFOs

425

00:21:52,220 --> 00:21:47,910

what age they were when they saw them

426  
00:21:55,460 --> 00:21:52,230  
what kind of UFOs and that sort of thing

427  
00:21:57,050 --> 00:21:55,470  
even more information on witnesses would

428  
00:21:58,570 --> 00:21:57,060  
be important because a lot of people

429  
00:22:02,720 --> 00:21:58,580  
have said there are certain

430  
00:22:07,760 --> 00:22:02,730  
characteristics are together if they

431  
00:22:10,070 --> 00:22:07,770  
found it like with witnesses that with

432  
00:22:11,870 --> 00:22:10,080  
things in common I think they need to

433  
00:22:14,980 --> 00:22:11,880  
add that category and get all the

434  
00:22:17,420 --> 00:22:14,990  
information on witnesses that they can

435  
00:22:20,660 --> 00:22:17,430  
that's wonderful thank you so much for

436  
00:22:22,820 --> 00:22:20,670  
that valuable input and I know Earl Grey

437  
00:22:24,380 --> 00:22:22,830  
and Mark Dantonio raring to talk here so

438  
00:22:25,400 --> 00:22:24,390

you guys can fight it out as to who's

439

00:22:33,760 --> 00:22:25,410

gonna go next

440

00:22:37,880 --> 00:22:33,770

no thank you

441

00:22:39,470 --> 00:22:37,890

this is Earl Grey and I'm assistant

442

00:22:42,200 --> 00:22:39,480

state director in Southern California

443

00:22:43,460 --> 00:22:42,210

and chief investigator wanted to clear

444

00:22:45,650 --> 00:22:43,470

that up because we don't want to get

445

00:22:57,940 --> 00:22:45,660

Jeff Crouse angry he's actually the

446

00:23:00,530 --> 00:22:57,950

state directors email to Jeff then I

447

00:23:04,310 --> 00:23:00,540

know a bunch of us are friends with Jeff

448

00:23:06,470 --> 00:23:04,320

too so we want to play nice here but you

449

00:23:08,270 --> 00:23:06,480

know just talking about the CMS I'm a

450

00:23:13,610 --> 00:23:08,280

big fan of it I think it works really

451  
00:23:15,700 --> 00:23:13,620  
beautifully I mean you can put in you

452  
00:23:19,510 --> 00:23:15,710  
know these subgenres

453  
00:23:21,370 --> 00:23:19,520  
of different I don't think that's right

454  
00:23:24,010 --> 00:23:21,380  
word but but you know if you're looking

455  
00:23:27,039 --> 00:23:24,020  
for a triangular craft you're looking

456  
00:23:29,549 --> 00:23:27,049  
for triangular craft that were up saying

457  
00:23:32,889 --> 00:23:29,559  
your Bakersfield or or in a particular

458  
00:23:35,260 --> 00:23:32,899  
region you can you can fund those you

459  
00:23:37,210 --> 00:23:35,270  
know but you have to click you do have

460  
00:23:39,789 --> 00:23:37,220  
to be proficient you have to have a

461  
00:23:42,779 --> 00:23:39,799  
little bit of literacy and computers you

462  
00:23:46,600 --> 00:23:42,789  
know do it to be able to utilize it but

463  
00:23:49,570 --> 00:23:46,610

you know just you you you can find what

464

00:23:53,110 --> 00:23:49,580

you know search a certain period of time

465

00:23:57,970 --> 00:23:53,120

you can search for a particular shape of

466

00:24:01,510 --> 00:23:57,980

a craft and region this time of day time

467

00:24:04,680 --> 00:24:01,520

of evening so for me it really works

468

00:24:07,210 --> 00:24:04,690

very well and I do use the CMS that way

469

00:24:10,210 --> 00:24:07,220

you know recently we've had quite a few

470

00:24:14,139 --> 00:24:10,220

sightings of black triangular craft up

471

00:24:19,149 --> 00:24:14,149

in the SE Palmdale Bakersfield area and

472

00:24:21,250 --> 00:24:19,159

kind of up near the Mojave area and you

473

00:24:24,279 --> 00:24:21,260

know I it was really interesting to go

474

00:24:26,230 --> 00:24:24,289

back in time and to look and see how

475

00:24:28,360 --> 00:24:26,240

many of those had been seen in that area

476

00:24:31,480 --> 00:24:28,370

and there's been a number of them from

477

00:24:33,970 --> 00:24:31,490

before I was working for MUFON

478

00:24:36,789 --> 00:24:33,980

so if you know how to use the CMS it's a

479

00:24:39,490 --> 00:24:36,799

beautiful tool a lot of you know the

480

00:24:42,539 --> 00:24:39,500

categories are based on dr. Jael and

481

00:24:46,269 --> 00:24:42,549

hynek's work you know just

482

00:24:49,149 --> 00:24:46,279

tried-and-true stuff and so I'm you can

483

00:24:53,440 --> 00:24:49,159

see I'm a fan I if I could change one

484

00:24:56,019 --> 00:24:53,450

thing perhaps would be to say when we

485

00:24:59,680 --> 00:24:56,029

have SpaceX launches and stuff and we

486

00:25:02,139 --> 00:24:59,690

get like 20 UFO reports about the same

487

00:25:04,000 --> 00:25:02,149

thing it might be nice if we had more

488

00:25:06,760 --> 00:25:04,010

like a form letter or something that we

489

00:25:08,980 --> 00:25:06,770

could click that would categorize that

490

00:25:10,480 --> 00:25:08,990

those cases instantly rather than have

491

00:25:12,940 --> 00:25:10,490

to spend a couple of hours because

492

00:25:15,820 --> 00:25:12,950

that's you know even if case is an IFO

493

00:25:18,490 --> 00:25:15,830

or information only it still takes a

494

00:25:22,510 --> 00:25:18,500

good hour you know two or two hours you

495

00:25:25,870 --> 00:25:22,520

know for one case so I think that for

496

00:25:28,480 --> 00:25:25,880

certain IFOS that are you know

497

00:25:29,440 --> 00:25:28,490

especially the SpaceX launches we have

498

00:25:31,299 --> 00:25:29,450

now or the

499

00:25:32,590 --> 00:25:31,309

you know Jen Harrison was talking a

500

00:25:36,310 --> 00:25:32,600

little bit about the Star League

501

00:25:38,620 --> 00:25:36,320

satellite so we get a lot of reports on

502

00:25:40,600 --> 00:25:38,630

that right now I will actually be asking

503

00:25:42,519 --> 00:25:40,610

ruben o diyate about that later and of

504

00:25:44,740 --> 00:25:42,529

course Mark Dantonio on the Starling

505

00:25:46,570 --> 00:25:44,750

topic but so we'll hold off on that

506

00:25:50,080 --> 00:25:46,580

Starling topic until after we're done

507

00:25:52,180 --> 00:25:50,090

with this cataloging topic subject

508

00:25:54,700 --> 00:25:52,190

matter but I want to bring in Mark

509

00:25:57,220 --> 00:25:54,710

Dantonio and ask you and then Shane herd

510

00:25:58,810 --> 00:25:57,230

of course what would you do regarding

511

00:26:00,610 --> 00:25:58,820

the cataloging at the UFO topic would

512

00:26:03,159 --> 00:26:00,620

you do anything different or or stick

513

00:26:05,320 --> 00:26:03,169

with the tried and true tactic well you

514

00:26:08,019 --> 00:26:05,330

know what we did is we have a number of

515

00:26:11,230 --> 00:26:08,029

via for instance identifications and

516

00:26:13,779 --> 00:26:11,240

dispositions as we call them in CMS or

517

00:26:15,850 --> 00:26:13,789

the case management system and when I'm

518

00:26:20,500 --> 00:26:15,860

doing photo or video analysis I try to

519

00:26:23,320 --> 00:26:20,510

you know shoehorn if they fit some of

520

00:26:25,720 --> 00:26:23,330

these objects into the given

521

00:26:28,419 --> 00:26:25,730

classifications as given in CMS but

522

00:26:30,759 --> 00:26:28,429

sometimes it's not that easy so there's

523

00:26:33,159 --> 00:26:30,769

a one called other and then you explain

524

00:26:35,799 --> 00:26:33,169

it in the in the case for instance in

525

00:26:38,169 --> 00:26:35,809

the disposition but one of the things

526

00:26:40,389 --> 00:26:38,179

that I think is needed which has really

527

00:26:42,820 --> 00:26:40,399

never been addressed I don't believe is

528

00:26:45,009 --> 00:26:42,830

the technical attitude you know

529

00:26:48,580 --> 00:26:45,019

technical aptitude of the people making

530

00:26:50,379 --> 00:26:48,590

the reports that is the witness now I

531

00:26:52,870 --> 00:26:50,389

think you have to be careful with that

532

00:26:56,980 --> 00:26:52,880

because you don't want to have like you

533

00:26:58,299 --> 00:26:56,990

know categories like dummy smarter than

534

00:27:00,340 --> 00:26:58,309

normal dummy I mean you don't want that

535

00:27:02,529 --> 00:27:00,350

kind of thing obviously but you do want

536

00:27:05,110 --> 00:27:02,539

to have some type of understanding of

537

00:27:06,759 --> 00:27:05,120

whether the person has any kind of an

538

00:27:11,259 --> 00:27:06,769

understanding of what you're looking at

539

00:27:15,519 --> 00:27:11,269

on this guy and give you an idea okay

540

00:27:17,549 --> 00:27:15,529

well for instance when you have well I

541

00:27:21,909 --> 00:27:17,559

got two cases in the last two days and

542

00:27:22,620 --> 00:27:21,919

they both had out-of-focus images of the

543

00:27:25,090 --> 00:27:22,630

planet Venus

544

00:27:27,519 --> 00:27:25,100

now when Venus sets it's pretty dramatic

545

00:27:29,169 --> 00:27:27,529

it makes these really cool flashes on

546

00:27:31,060 --> 00:27:29,179

the horizon and in a camera they can

547

00:27:35,230 --> 00:27:31,070

look rainbowy colors it's really pretty

548

00:27:38,019 --> 00:27:35,240

and one of the guys sent me a video of

549

00:27:39,070 --> 00:27:38,029

this and said look this is Venus and I

550

00:27:41,769 --> 00:27:39,080

said well look here I have an

551

00:27:43,340 --> 00:27:41,779

observatory that I run and here's

552

00:27:45,440 --> 00:27:43,350

picture of Venus that we took tonight

553

00:27:47,330 --> 00:27:45,450

same night that you took that and I

554

00:27:49,909 --> 00:27:47,340

showed them the crescent of Venus you

555

00:27:52,460 --> 00:27:49,919

can actually see the shape the moon moon

556

00:27:53,990 --> 00:27:52,470

like phase of Venus okay

557

00:27:56,090 --> 00:27:54,000

same thing with Mercury you can do the

558

00:27:57,799 --> 00:27:56,100

same well any planet closer to the Sun

559

00:27:59,390 --> 00:27:57,809

you can see that well I showed them that

560

00:28:01,370 --> 00:27:59,400

would be innocent he goes that's not

561

00:28:01,820 --> 00:28:01,380

Venus you don't know what you're talking

562

00:28:07,310 --> 00:28:01,830

about

563

00:28:10,070 --> 00:28:07,320

now his technical aptitude with a camera

564

00:28:12,919 --> 00:28:10,080

was if you had the measure from zero to

565

00:28:14,630 --> 00:28:12,929

ten it was probably a one-and-a-half but

566

00:28:17,029 --> 00:28:14,640

the problem is he thinks is his attitude

567

00:28:19,399 --> 00:28:17,039

is a seven and a half so you have to

568

00:28:22,539 --> 00:28:19,409

kind of you know you have to judge

569

00:28:25,010 --> 00:28:22,549

people's technical aptitude as well and

570

00:28:26,390 --> 00:28:25,020

when he said the kind of camera I knew

571

00:28:27,740 --> 00:28:26,400

that he couldn't focus on a star with

572

00:28:30,860 --> 00:28:27,750

that kind of camera it didn't work for

573

00:28:32,690 --> 00:28:30,870

that the P 900 Nikon doesn't see stars

574

00:28:35,960 --> 00:28:32,700

for instance can't I mean you can but

575

00:28:36,950 --> 00:28:35,970

you can't focus on it well anyway so we

576  
00:28:38,990 --> 00:28:36,960  
have to have a way of measuring the

577  
00:28:40,970 --> 00:28:39,000  
technical aptitude of the people that

578  
00:28:43,789 --> 00:28:40,980  
are making these reports even if it's

579  
00:28:45,770 --> 00:28:43,799  
just based on the way they relay the

580  
00:28:47,990 --> 00:28:45,780  
data there has to be some type of

581  
00:28:50,149 --> 00:28:48,000  
category to say whether this person is

582  
00:28:53,240 --> 00:28:50,159  
knowledgeable what's this person's

583  
00:28:55,760 --> 00:28:53,250  
background you know are they capable of

584  
00:28:59,149 --> 00:28:55,770  
making the statements they're making and

585  
00:29:03,200 --> 00:28:59,159  
in other words are they believable and

586  
00:29:04,990 --> 00:29:03,210  
so then it actually becomes easier to

587  
00:29:07,580 --> 00:29:05,000  
understand what they might have seen

588  
00:29:10,240 --> 00:29:07,590

because if you know that the guy making

589

00:29:13,039 --> 00:29:10,250

the call and the cases say an astronomer

590

00:29:15,919 --> 00:29:13,049

okay then I would say okay well then

591

00:29:17,720 --> 00:29:15,929

obviously this guy knows astronomy he

592

00:29:19,760 --> 00:29:17,730

knows what Venus is and it would be

593

00:29:21,470 --> 00:29:19,770

insulting to say what do you think you

594

00:29:23,450 --> 00:29:21,480

think is Venus and we get a lot of

595

00:29:25,669 --> 00:29:23,460

reports where people say I'm not stupid

596

00:29:28,130 --> 00:29:25,679

I know what Venus looks like okay

597

00:29:29,779 --> 00:29:28,140

sometimes they're right but sometimes

598

00:29:30,860 --> 00:29:29,789

they're not and it's again that case

599

00:29:33,950 --> 00:29:30,870

where they think they know more than

600

00:29:36,380 --> 00:29:33,960

they do so it's a fine line but we have

601  
00:29:38,810 --> 00:29:36,390  
to have a way of measuring that even if

602  
00:29:40,310 --> 00:29:38,820  
internally so that we can make a better

603  
00:29:41,840 --> 00:29:40,320  
judgment as to what they may have seen

604  
00:29:45,140 --> 00:29:41,850  
okay when to bring up something

605  
00:29:46,789 --> 00:29:45,150  
important and actually nearly everybody

606  
00:29:50,659 --> 00:29:46,799  
on this show is with us when we did this

607  
00:29:54,399 --> 00:29:50,669  
MUFON camp special show where we talked

608  
00:29:57,120 --> 00:29:54,409  
about a person who might have a

609  
00:29:59,370 --> 00:29:57,130  
investigator might accompany

610  
00:30:01,740 --> 00:29:59,380  
another newbie investigator into a

611  
00:30:03,930 --> 00:30:01,750  
ufo-related investigation where I'm

612  
00:30:06,660 --> 00:30:03,940  
going with this is do we also need to

613  
00:30:09,240 --> 00:30:06,670

add in and that there were there was a

614

00:30:11,460 --> 00:30:09,250

veteran a UFO investigator and a newbie

615

00:30:15,000 --> 00:30:11,470

investigator involved should that be a

616

00:30:16,770 --> 00:30:15,010

subcategory in a report behind the

617

00:30:19,020 --> 00:30:16,780

scenes so to speak so it doesn't show up

618

00:30:21,210 --> 00:30:19,030

in a public case you know the MUFON

619

00:30:23,460 --> 00:30:21,220

cases so that people can search publicly

620

00:30:25,200 --> 00:30:23,470

but behind the scenes in the more

621

00:30:28,980 --> 00:30:25,210

private part of the database should that

622

00:30:31,080 --> 00:30:28,990

be subcategory Marc personal feeling I

623

00:30:34,830 --> 00:30:31,090

think so and I know you're addressing

624

00:30:36,810 --> 00:30:34,840

everybody but yeah I'll just say I think

625

00:30:38,880 --> 00:30:36,820

it should be something that stated

626

00:30:41,090 --> 00:30:38,890

because you don't know when you read a

627

00:30:44,190 --> 00:30:41,100

case sometimes you get the enthusiasm of

628

00:30:45,870 --> 00:30:44,200

younger fresh field investigator who

629

00:30:47,430 --> 00:30:45,880

just wants to see every you know UFOs

630

00:30:49,950 --> 00:30:47,440

everywhere they look and it takes some

631

00:30:52,560 --> 00:30:49,960

time to refine that I you know to

632

00:30:55,620 --> 00:30:52,570

understand that they're very elusive

633

00:31:00,330 --> 00:30:55,630

so okay wonderful thank you so very much

634

00:31:03,180 --> 00:31:00,340

I appreciate a chant check I just wanted

635

00:31:06,240 --> 00:31:03,190

to say real briefly and how can our CMS

636

00:31:09,300 --> 00:31:06,250

we do have primary investigator and then

637

00:31:11,910 --> 00:31:09,310

we do have secondary investigator so

638

00:31:14,340 --> 00:31:11,920

that that's where we may have two people

639

00:31:17,070 --> 00:31:14,350

working on the case of course one a

640

00:31:20,370 --> 00:31:17,080

veteran and the other is a newbie but

641

00:31:28,860 --> 00:31:20,380

that that is indicated that's great to

642

00:31:31,080 --> 00:31:28,870

know end up please so yeah I was going

643

00:31:35,850 --> 00:31:31,090

to elaborate a little bit on what Reuben

644

00:31:39,540 --> 00:31:35,860

was saying for every single case that it

645

00:31:41,880 --> 00:31:39,550

has to be okayed by the state director

646

00:31:46,460 --> 00:31:41,890

or the chief investigator so there's

647

00:31:50,490 --> 00:31:46,470

always a veteran ufologist on every case

648

00:31:53,070 --> 00:31:50,500

so if it's a newbie and and and they get

649

00:31:55,650 --> 00:31:53,080

excited you know over a mylar balloon

650

00:31:57,330 --> 00:31:55,660

spinning and the winds you know

651  
00:32:01,680 --> 00:31:57,340  
reflecting the Sun back which is

652  
00:32:04,860 --> 00:32:01,690  
probably about 40% of the UFO reports I

653  
00:32:07,770 --> 00:32:04,870  
get in I'll send it back to them I'll

654  
00:32:10,140 --> 00:32:07,780  
tell them no you need to redo this and

655  
00:32:10,910 --> 00:32:10,150  
you need to become more acquainted with

656  
00:32:13,190 --> 00:32:10,920  
what

657  
00:32:15,560 --> 00:32:13,200  
our balloon looks like in the wind and

658  
00:32:17,780 --> 00:32:15,570  
wind currents you know you look up the

659  
00:32:21,020 --> 00:32:17,790  
wind currents you can do that on Weather

660  
00:32:26,020 --> 00:32:21,030  
Underground if you have an exact time

661  
00:32:28,400 --> 00:32:26,030  
and you know so I think there is sort of

662  
00:32:31,360 --> 00:32:28,410  
you know there there is a two-fold

663  
00:32:35,390 --> 00:32:31,370

investigation going on there already

664

00:32:36,800 --> 00:32:35,400

okay great and I just want to tell

665

00:32:38,900 --> 00:32:36,810

everybody I encourage you to interrupt

666

00:32:41,240 --> 00:32:38,910

me because this show is about you

667

00:32:45,620 --> 00:32:41,250

so please do interrupt me whenever you

668

00:32:47,930 --> 00:32:45,630

feel it's perfect this is general right

669

00:32:50,360 --> 00:32:47,940

here yes go what would you what you're

670

00:32:52,370 --> 00:32:50,370

saying here is what you're doing is the

671

00:32:56,390 --> 00:32:52,380

cases you investigate now you've got

672

00:32:58,190 --> 00:32:56,400

vehicle put them in the CMS okay I'm

673

00:33:04,390 --> 00:32:58,200

talking about a hundred thousand cases

674

00:33:15,920 --> 00:33:09,110

convention which gives you the low date

675

00:33:17,510 --> 00:33:15,930

location type of sighting DD ecce one or

676

00:33:19,670 --> 00:33:17,520

something like that if there's if

677

00:33:21,650 --> 00:33:19,680

there's something peculiar about the

678

00:33:26,360 --> 00:33:21,660

case you can put a one-word thing in

679

00:33:30,410 --> 00:33:26,370

there the witness and the origin of the

680

00:33:34,660 --> 00:33:30,420

material and you may be able to put a

681

00:33:43,130 --> 00:33:39,560

Greenwood has gone through the Brazilian

682

00:33:45,710 --> 00:33:43,140

National Archives and he's not finished

683

00:33:48,650 --> 00:33:45,720

yet he's just starting he's got five

684

00:33:53,450 --> 00:33:48,660

thousand cases I can't I can't put five

685

00:33:57,170 --> 00:33:53,460

thousand cases in the in the CMS I don't

686

00:34:02,840 --> 00:33:57,180

have enough life span left he's just

687

00:34:04,790 --> 00:34:02,850

gone through the Swedish newspapers that

688

00:34:06,620 --> 00:34:04,800

are that are up therefore there's about

689

00:34:11,560 --> 00:34:06,630

twelve newspapers that are up there for

690

00:34:15,620 --> 00:34:11,570

a month he has over 3,000 cases already

691

00:34:18,770 --> 00:34:15,630

established this is after getting rid of

692

00:34:21,350 --> 00:34:18,780

the drawers and stuff you got to think

693

00:34:25,090 --> 00:34:21,360

about this it's great if you investigate

694

00:34:29,000 --> 00:34:25,100

a dozen cases are you

695

00:34:31,510 --> 00:34:29,010

to try to make put the stuff in the CMS

696

00:34:36,730 --> 00:34:31,520

but if you're doing thousands of cases

697

00:34:39,380 --> 00:34:36,740

you got a fear we don't live that long

698

00:34:42,110 --> 00:34:39,390

okay that's a very very valid point and

699

00:34:45,200 --> 00:34:42,120

I think Shane heard wanted to ask him

700

00:34:47,800 --> 00:34:45,210

his insight on this topic also I think

701  
00:34:50,720 --> 00:34:47,810  
you might have been mentioning earlier

702  
00:34:52,370 --> 00:34:50,730  
Shane what was it that you were talking

703  
00:34:54,770 --> 00:34:52,380  
about a technical aptitude of the

704  
00:34:56,990 --> 00:34:54,780  
witnesses that was mark and then though

705  
00:34:58,910 --> 00:34:57,000  
you want to know if they've seen UFOs or

706  
00:35:03,020 --> 00:34:58,920  
paranormal before that's interesting can

707  
00:35:04,940 --> 00:35:03,030  
you touch on that yeah I was gonna say

708  
00:35:07,400 --> 00:35:04,950  
this is along the lines of both what

709  
00:35:09,080 --> 00:35:07,410  
mark and Jan are talking about and where

710  
00:35:11,990 --> 00:35:09,090  
I'll get there at the end it is is

711  
00:35:15,740 --> 00:35:12,000  
really the credibility of the witness

712  
00:35:19,670 --> 00:35:15,750  
but let me start with obviously with the

713  
00:35:22,640 --> 00:35:19,680

database you have tables of information

714

00:35:24,470 --> 00:35:22,650

that contain metadata so let's just say

715

00:35:26,930 --> 00:35:24,480

one table is you know contact

716

00:35:29,720 --> 00:35:26,940

information and you have name address

717

00:35:32,450 --> 00:35:29,730

phone number email blah blah all those

718

00:35:33,590 --> 00:35:32,460

things are searchable you can report on

719

00:35:37,310 --> 00:35:33,600

those things because they're part of

720

00:35:40,430 --> 00:35:37,320

that table and that's non subjective

721

00:35:43,130 --> 00:35:40,440

data it's just black and white the

722

00:35:45,080 --> 00:35:43,140

problem is is when one comes down to an

723

00:35:48,050 --> 00:35:45,090

investigation you do have a lot of

724

00:35:49,640 --> 00:35:48,060

subjective data and you you know you

725

00:35:51,470 --> 00:35:49,650

want to eliminate the subjectivity as

726

00:35:53,870 --> 00:35:51,480

much as possible but frankly when you're

727

00:35:57,380 --> 00:35:53,880

dealing with human beings that's not

728

00:35:59,780 --> 00:35:57,390

going to happen and so some of the

729

00:36:02,300 --> 00:35:59,790

questions I ask in my investigations

730

00:36:04,670 --> 00:36:02,310

there's not a field a searchable field

731

00:36:07,880 --> 00:36:04,680

in the CMS for them but I always ask the

732

00:36:10,160 --> 00:36:07,890

question and I put the information in in

733

00:36:13,910 --> 00:36:10,170

the you know non searchable text field

734

00:36:16,790 --> 00:36:13,920

so for example every every person I ask

735

00:36:19,240 --> 00:36:16,800

what was it about your sighting that

736

00:36:22,760 --> 00:36:19,250

makes you feel this was not something

737

00:36:25,790 --> 00:36:22,770

prosaic like a planet or an airplane and

738

00:36:28,670 --> 00:36:25,800

I think that I it's a very interesting

739

00:36:31,610 --> 00:36:28,680

thing to get a response on that and then

740

00:36:33,920 --> 00:36:31,620

and then and it does speak sort of to

741

00:36:35,600 --> 00:36:33,930

the person's credibility well no that

742

00:36:37,559 --> 00:36:35,610

died witness testimony is one of the

743

00:36:41,699 --> 00:36:37,569

most important things on

744

00:36:44,429 --> 00:36:41,709

in a case but on the same Hannah it can

745

00:36:47,489 --> 00:36:44,439

be very unreliable so you do have to

746

00:36:49,229 --> 00:36:47,499

sort of size up or determine the

747

00:36:52,079 --> 00:36:49,239

credibility of the person making the

748

00:36:55,229 --> 00:36:52,089

report and so another thought I had to

749

00:36:58,199 --> 00:36:55,239

was you know have you ever had a

750

00:37:00,629 --> 00:36:58,209

paranormal experience or seen a UFO

751  
00:37:02,399 --> 00:37:00,639  
prior to making this report because that

752  
00:37:05,069 --> 00:37:02,409  
does suggest some other things on

753  
00:37:09,569 --> 00:37:05,079  
another line of questioning that you

754  
00:37:12,239 --> 00:37:09,579  
might want to employ so again I like the

755  
00:37:14,759 --> 00:37:12,249  
CMS away it's set up it's wonderful I

756  
00:37:17,909 --> 00:37:14,769  
think it could be expanded to you know

757  
00:37:20,189 --> 00:37:17,919  
include some of the less or the more

758  
00:37:21,929 --> 00:37:20,199  
subjective stuff because even though you

759  
00:37:24,449 --> 00:37:21,939  
can't nail it down and say black or

760  
00:37:26,719 --> 00:37:24,459  
white it does suggest some things that

761  
00:37:29,159 --> 00:37:26,729  
that are important to the investigation

762  
00:37:30,719 --> 00:37:29,169  
well we appreciate that and thank you

763  
00:37:37,079 --> 00:37:30,729

for the valuable input including the

764

00:37:38,879 --> 00:37:37,089

rooster as well I'm sorry guys gotta go

765

00:37:46,649 --> 00:37:38,889

that's hilarious does he wake you up in

766

00:37:50,219 --> 00:37:46,659

the morning oh yeah all day he's on the

767

00:37:52,109 --> 00:37:50,229

shortlist let me tell you that's great

768

00:37:54,989 --> 00:37:52,119

he's dinner okay I wanted to bring on

769

00:37:56,519 --> 00:37:54,999

Michael Hall and he saw known as a

770

00:37:59,339 --> 00:37:56,529

paranormal lawyer he's an attorney a

771

00:38:01,649 --> 00:37:59,349

Doctor of Jurisprudence and a former

772

00:38:03,569 --> 00:38:01,659

Superior Court Judge Pro Tem I wanted to

773

00:38:05,129 --> 00:38:03,579

just give a little bit of background

774

00:38:07,349 --> 00:38:05,139

regarding uh Michael he's got a

775

00:38:10,109 --> 00:38:07,359

fascinating history as an experienced

776

00:38:11,879 --> 00:38:10,119

UFO field investigator for the for a pro

777

00:38:14,099 --> 00:38:11,889

the aerial phenomenon research

778

00:38:16,949 --> 00:38:14,109

organization he's a longtime a

779

00:38:18,749 --> 00:38:16,959

consultant to MUFON since 1995 the

780

00:38:21,149 --> 00:38:18,759

attorney of record for the national UFO

781

00:38:23,519 --> 00:38:21,159

Reporting Center Peter Davenport knows

782

00:38:25,649 --> 00:38:23,529

him very well and the National Aviation

783

00:38:28,409 --> 00:38:25,659

Reporting Center on anomalous phenomena

784

00:38:31,229 --> 00:38:28,419

in our camp 1999 an experience for

785

00:38:33,449 --> 00:38:31,239

himself and he's also represented such

786

00:38:35,069 --> 00:38:33,459

noted UFO just such as the grant Cameron

787

00:38:37,439 --> 00:38:35,079

chief petty officer kevin de Peter

788

00:38:40,169 --> 00:38:37,449

Davenport dr. Richard Haines and dr.

789

00:38:41,969 --> 00:38:40,179

James harder and he also is good friends

790

00:38:43,709 --> 00:38:41,979

with the doctor

791

00:38:45,359 --> 00:38:43,719

yes dr. Richard Haines just mentioned

792

00:38:46,919 --> 00:38:45,369

him we would love to have him on the

793

00:38:48,599 --> 00:38:46,929

show a Michael if you ever feel like

794

00:38:50,750 --> 00:38:48,609

you're in position ask him anyway

795

00:38:52,730 --> 00:38:50,760

Michael wanted to ask you a

796

00:38:55,070 --> 00:38:52,740

you have your own UFO i-team you go out

797

00:38:59,230 --> 00:38:55,080

in the field just like the rest of the

798

00:39:02,420 --> 00:38:59,240

folks here do or have done any tips or

799

00:39:06,380 --> 00:39:02,430

insight on how to improve the UFO

800

00:39:08,960 --> 00:39:06,390

cataloguing effort well yes thank you

801  
00:39:11,780 --> 00:39:08,970  
chant by the way for and inviting me to

802  
00:39:14,210 --> 00:39:11,790  
be on this August panel today and this

803  
00:39:18,080 --> 00:39:14,220  
is fantastic we've got ufologists from

804  
00:39:20,330 --> 00:39:18,090  
around the world here doing on an

805  
00:39:22,670 --> 00:39:20,340  
interesting important topic you know I

806  
00:39:25,300 --> 00:39:22,680  
think my client and longtime friend

807  
00:39:28,790 --> 00:39:25,310  
Peter Davenport would agree with me that

808  
00:39:31,490 --> 00:39:28,800  
what we need to also concentrate on is

809  
00:39:34,670 --> 00:39:31,500  
getting all those reports that are

810  
00:39:36,980 --> 00:39:34,680  
unreported in reality Peter you can

811  
00:39:40,790 --> 00:39:36,990  
correct me if I'm wrong but I've heard

812  
00:39:43,520 --> 00:39:40,800  
him say that probably one in 20,000

813  
00:39:47,000 --> 00:39:43,530

actual UFO sightings are ever reported

814

00:39:50,110 --> 00:39:47,010

anywhere Peter I'll let you jump in here

815

00:39:51,650 --> 00:39:50,120

with me if you want to corroborate that

816

00:39:53,570 --> 00:39:51,660

you're correct

817

00:39:56,060 --> 00:39:53,580

Michael you quote me correctly it's

818

00:39:58,670 --> 00:39:56,070

somewhere I estimate that out of

819

00:40:02,470 --> 00:39:58,680

somewhere between 10,000 and 20,000

820

00:40:06,910 --> 00:40:02,480

sightings of legitimate authentic UFOs

821

00:40:09,680 --> 00:40:06,920

only one of them has ever captained the

822

00:40:12,790 --> 00:40:09,690

UFO organization people are just

823

00:40:16,160 --> 00:40:12,800

hesitant to report it they're lazy and

824

00:40:19,550 --> 00:40:16,170

and often many times they just put it

825

00:40:23,540 --> 00:40:19,560

off until it disappears in the recesses

826  
00:40:26,540 --> 00:40:23,550  
of their memories yes and exactly and

827  
00:40:29,210 --> 00:40:26,550  
we've Peter you and I dealt with this

828  
00:40:31,280 --> 00:40:29,220  
for almost 30 years now that I've been

829  
00:40:34,760 --> 00:40:31,290  
involved with you at the national UFO

830  
00:40:37,430 --> 00:40:34,770  
Reporting Center in the fact that you

831  
00:40:39,770 --> 00:40:37,440  
know the baby boomers out there the

832  
00:40:44,740 --> 00:40:39,780  
largest influx of souls on the planet

833  
00:40:49,580 --> 00:40:47,240  
expertise that say if for instance they

834  
00:40:52,330 --> 00:40:49,590  
need to go to a web site even or even do

835  
00:40:54,950 --> 00:40:52,340  
something on their phone so in reality

836  
00:40:58,100 --> 00:40:54,960  
what we've done with the national UFO

837  
00:41:02,460 --> 00:40:58,110  
Reporting Center is make sure that the

838  
00:41:07,140 --> 00:41:02,470

hotline phone number for reporting UFOs

839

00:41:10,470 --> 00:41:07,150

new fork which is 206 seven two to three

840

00:41:14,210 --> 00:41:10,480

thousand that hotline phone number is in

841

00:41:18,270 --> 00:41:14,220

every FAA tower in the United States

842

00:41:20,790 --> 00:41:18,280

civilian military and commercial as well

843

00:41:23,460 --> 00:41:20,800

as all the law enforcement agencies

844

00:41:26,550 --> 00:41:23,470

around the planet and I'm talking local

845

00:41:30,359 --> 00:41:26,560

law enforcement agencies that you can go

846

00:41:31,920 --> 00:41:30,369

to and your small hometown and or you

847

00:41:36,260 --> 00:41:31,930

know federal wise as well so I think

848

00:41:38,339 --> 00:41:36,270

it's important for all of us in these

849

00:41:41,030 --> 00:41:38,349

organizations that we belong to you to

850

00:41:43,800 --> 00:41:41,040

make ourselves accessible to people

851  
00:41:47,010 --> 00:41:43,810  
somehow that maybe even don't even have

852  
00:41:49,290 --> 00:41:47,020  
the technical expertise to fill out a

853  
00:41:54,390 --> 00:41:49,300  
reporting form on the internet for

854  
00:41:56,760 --> 00:41:54,400  
instance okay that's fantastic and just

855  
00:41:58,710 --> 00:41:56,770  
wanted to ask you Michael if folks

856  
00:42:00,960 --> 00:41:58,720  
wanted to find out more about your

857  
00:42:02,550 --> 00:42:00,970  
wonderful UFO i-team how did they do

858  
00:42:04,320 --> 00:42:02,560  
that and can you mention that you're on

859  
00:42:05,640 --> 00:42:04,330  
duh spaced-out radio L so you have a

860  
00:42:06,720 --> 00:42:05,650  
wonderful show going on there you

861  
00:42:09,390 --> 00:42:06,730  
actually have two shows to my

862  
00:42:12,120 --> 00:42:09,400  
understanding you do your own show

863  
00:42:14,040 --> 00:42:12,130

live and then you also have that show as

864

00:42:15,599 --> 00:42:14,050

well I've seen you do both can you

865

00:42:17,460 --> 00:42:15,609

please explain a little bit about that

866

00:42:20,849 --> 00:42:17,470

before we move on to the next topic

867

00:42:23,579 --> 00:42:20,859

oh thank a chance yeah well tonight by

868

00:42:26,280 --> 00:42:23,589

the way is my my Sunday night show and

869

00:42:29,640 --> 00:42:26,290

spaced out radio so I appreciate you

870

00:42:32,790 --> 00:42:29,650

mentioning that we literally have an

871

00:42:36,120 --> 00:42:32,800

audience worldwide Dave Scott is the

872

00:42:38,040 --> 00:42:36,130

station manager and director and weekday

873

00:42:40,620 --> 00:42:38,050

host and has brought me on board for

874

00:42:43,079 --> 00:42:40,630

Sunday evenings on spaced out Sunday so

875

00:42:46,589 --> 00:42:43,089

you can join us on Spreaker or any kind

876

00:42:49,050 --> 00:42:46,599

of app that you've got the UFO i-team I

877

00:42:53,000 --> 00:42:49,060

would love to have people join us on our

878

00:42:55,950 --> 00:42:53,010

Monday night's weekly meetings over zoom

879

00:42:58,500 --> 00:42:55,960

literally we used to you know meet at

880

00:43:00,329 --> 00:42:58,510

Denny's live you know out here in the

881

00:43:03,599 --> 00:43:00,339

Pacific Northwest in Lynnwood Washington

882

00:43:06,150 --> 00:43:03,609

on Monday nights but of course the

883

00:43:08,849 --> 00:43:06,160

lockdown is per prevented us from doing

884

00:43:12,930 --> 00:43:08,859

so but literally has provided us an

885

00:43:16,200 --> 00:43:12,940

opportunity over zoom Monday evening 6

886

00:43:19,440 --> 00:43:16,210

p.m. Pacific Standard Time to invite the

887

00:43:21,930 --> 00:43:19,450

world to tell us their story that's our

888

00:43:24,420 --> 00:43:21,940

motto at the UFO i-team and literally

889

00:43:27,120 --> 00:43:24,430

people now ever since the New York Times

890

00:43:30,720 --> 00:43:27,130

article came out you know December 16th

891

00:43:32,670 --> 00:43:30,730

of 2017 people are now feeling

892

00:43:34,849 --> 00:43:32,680

vindicated to be able to come out and

893

00:43:37,829 --> 00:43:34,859

tell us their sighting stories

894

00:43:40,620 --> 00:43:37,839

personally right over the internet on

895

00:43:43,560 --> 00:43:40,630

zoom' so thank you for allowing us to

896

00:43:45,480 --> 00:43:43,570

invite folks to join us that's great and

897

00:43:47,670 --> 00:43:45,490

also want to mention something very very

898

00:43:49,770 --> 00:43:47,680

important and that is our listeners need

899

00:43:52,500 --> 00:43:49,780

to know how to contact Peter Davenport

900

00:43:54,120 --> 00:43:52,510

if they have a UFO report to make Peter

901  
00:43:56,310 --> 00:43:54,130  
do you mind trimming in and letting us

902  
00:44:01,310 --> 00:43:56,320  
know how one would actually contact you

903  
00:44:07,380 --> 00:44:04,380  
Michael gave out the hotline number

904  
00:44:10,980 --> 00:44:07,390  
seven two oh six seven two to three

905  
00:44:13,320 --> 00:44:10,990  
thousand but I frankly prefer to go

906  
00:44:17,099 --> 00:44:13,330  
directly to the online reporting form on

907  
00:44:20,010 --> 00:44:17,109  
our website which is UFO center.com and

908  
00:44:22,740 --> 00:44:20,020  
for those folks down in Australia we

909  
00:44:27,540 --> 00:44:22,750  
spell center a little bit strangely we

910  
00:44:30,960 --> 00:44:27,550  
spell at cen ter so that's the best way

911  
00:44:32,880 --> 00:44:30,970  
to get to us and while I'm talking here

912  
00:44:35,010 --> 00:44:32,890  
I'd like to make a just a short

913  
00:44:38,880 --> 00:44:35,020

editorial comment if we have enough time

914

00:44:43,410 --> 00:44:38,890

a global comment about ufology in

915

00:44:47,310 --> 00:44:43,420

general we we've somehow got to graduate

916

00:44:50,339 --> 00:44:47,320

beyond eyewitness accounts and fuzzy

917

00:44:52,349 --> 00:44:50,349

photographs to be able to bring what we

918

00:44:54,200 --> 00:44:52,359

believe is happening to the American

919

00:44:56,760 --> 00:44:54,210

people and around the world

920

00:44:59,460 --> 00:44:56,770

I'd invite people if they're not

921

00:45:03,690 --> 00:44:59,470

familiar with my proposal I know Jan is

922

00:45:06,180 --> 00:45:03,700

at least Jim Tarzan that is familiar

923

00:45:10,170 --> 00:45:06,190

with my proposal for using so-called

924

00:45:13,530 --> 00:45:10,180

passive radar for detecting UFOs it is

925

00:45:17,579 --> 00:45:13,540

within our technical ability today to be

926

00:45:20,550 --> 00:45:17,589

able to build a system to detect UFOs

927

00:45:23,250 --> 00:45:20,560

directly by reflected radio and

928

00:45:26,609 --> 00:45:23,260

television signals all we need is

929

00:45:28,950 --> 00:45:26,619

financing and I invite anybody who's

930

00:45:30,030 --> 00:45:28,960

interested in the subject who hasn't yet

931

00:45:33,060 --> 00:45:30,040

read my paper too

932

00:45:37,710 --> 00:45:33,070

do so as posted to my website UFO

933

00:45:42,510 --> 00:45:37,720

center.com and all we need is funding we

934

00:45:45,030 --> 00:45:42,520

have a an engineering team assembled the

935

00:45:47,630 --> 00:45:45,040

concept is not a new one the first

936

00:45:51,530 --> 00:45:47,640

application for passive radar for a

937

00:45:55,440 --> 00:45:51,540

patent in that field is from England in

938

00:45:57,960 --> 00:45:55,450

1927 so we can do it and it will allow

939

00:46:00,780 --> 00:45:57,970

us to graduate from where we are to

940

00:46:02,700 --> 00:46:00,790

where we'd like to be that's fantastic

941

00:46:04,950 --> 00:46:02,710

Peter thank you so very much for sharing

942

00:46:07,320 --> 00:46:04,960

that vital information for all of us

943

00:46:09,120 --> 00:46:07,330

become more educated about and I hope

944

00:46:11,610 --> 00:46:09,130

that people are encouraged by that to

945

00:46:13,800 --> 00:46:11,620

actually call him if they have a UFO

946

00:46:15,750 --> 00:46:13,810

report to make and Peter how long have

947

00:46:18,410 --> 00:46:15,760

you had your UFO Reporting Center can

948

00:46:22,580 --> 00:46:18,420

you please share that was founded in

949

00:46:25,740 --> 00:46:22,590

1974 by Bob Robert J Gribble a retired

950

00:46:29,220 --> 00:46:25,750

Seattle fireman he turned it over to me

951  
00:46:34,700 --> 00:46:29,230  
in 1994 is July of 94 so I'm coming up

952  
00:46:37,740 --> 00:46:34,710  
on 26 years of running the UFO online

953  
00:46:40,350 --> 00:46:37,750  
well like everybody on this panel you

954  
00:46:43,050 --> 00:46:40,360  
have contributed immensely invaluable

955  
00:46:45,960 --> 00:46:43,060  
service to the entire world regarding

956  
00:46:47,610 --> 00:46:45,970  
the UFO topic and more so we're very

957  
00:46:49,200 --> 00:46:47,620  
grateful to you for that great benefit

958  
00:46:50,990 --> 00:46:49,210  
and thank you so much for your great

959  
00:46:54,510 --> 00:46:51,000  
service

960  
00:46:58,500 --> 00:46:54,520  
I may have said 24 years I should have

961  
00:47:00,900 --> 00:46:58,510  
said 26 years Wow that is so wonderful

962  
00:47:04,200 --> 00:47:00,910  
and we appreciate all the time you've

963  
00:47:06,210 --> 00:47:04,210

invested an immense amount of time we

964

00:47:08,010 --> 00:47:06,220

are all better for it I wanted to

965

00:47:10,590 --> 00:47:08,020

mention a few topics that we're going to

966

00:47:12,630 --> 00:47:10,600

bring be bringing up and Donna said dr.

967

00:47:14,520 --> 00:47:12,640

Irina Scott will review a short bio from

968

00:47:16,320 --> 00:47:14,530

her perspective regarding her very close

969

00:47:19,890 --> 00:47:16,330

friendship with the late Jenny our

970

00:47:21,450 --> 00:47:19,900

Zeidman and I'll go ahead and go over

971

00:47:23,700 --> 00:47:21,460

that in a moment but I wanted to bring

972

00:47:25,500 --> 00:47:23,710

up an interesting topic and this is a

973

00:47:27,150 --> 00:47:25,510

something very funny Mark Dantonio

974

00:47:29,550 --> 00:47:27,160

wanted to mention to you that happened

975

00:47:33,450 --> 00:47:29,560

when you are on a we're on a panel with

976  
00:47:35,730 --> 00:47:33,460  
us before regarding a certain topic I

977  
00:47:37,680 --> 00:47:35,740  
brought up and you were really

978  
00:47:38,970 --> 00:47:37,690  
fascinating when you're talking about it

979  
00:47:41,370 --> 00:47:38,980  
I wanted to bring up something

980  
00:47:43,440 --> 00:47:41,380  
interesting you had very little time to

981  
00:47:43,800 --> 00:47:43,450  
be with us on that show you spent as

982  
00:47:45,600 --> 00:47:43,810  
much

983  
00:47:46,770 --> 00:47:45,610  
as you possibly could you'll know what

984  
00:47:49,680 --> 00:47:46,780  
should I'm talking about in just a

985  
00:47:51,390 --> 00:47:49,690  
moment and doubt when you left dr. Irina

986  
00:47:53,610 --> 00:47:51,400  
actually promptly brought up a really

987  
00:47:55,080 --> 00:47:53,620  
fantastic point that I wanted both of

988  
00:47:57,690 --> 00:47:55,090

you to discuss if you have the

989

00:48:01,200 --> 00:47:57,700

opportunity to do so and that is and

990

00:48:03,330 --> 00:48:01,210

there is a professor Chandra and Mark

991

00:48:03,960 --> 00:48:03,340

you'll have to actually correct me how

992

00:48:06,600 --> 00:48:03,970

to say this

993

00:48:09,360 --> 00:48:06,610

it's Chandra right is that mark we

994

00:48:11,940 --> 00:48:09,370

promised Inga okay I can't I can't say

995

00:48:15,510 --> 00:48:11,950

that there's no way I'm gonna have to

996

00:48:17,400 --> 00:48:15,520

rely on my seeing you know I make it

997

00:48:20,670 --> 00:48:17,410

easier Wickramasinghe okay professor

998

00:48:22,710 --> 00:48:20,680

Chandra Wickramasinghe the Buckingham

999

00:48:24,570 --> 00:48:22,720

Center for astrobiology I'm going to go

1000

00:48:26,490 --> 00:48:24,580

ahead and quote him he said the sudden

1001  
00:48:28,320 --> 00:48:26,500  
outbreak of a new corona virus is very

1002  
00:48:30,300 --> 00:48:28,330  
likely to have a space connection and

1003  
00:48:32,310 --> 00:48:30,310  
the strong localization of the virus

1004  
00:48:35,310 --> 00:48:32,320  
within China is the most remarkable

1005  
00:48:37,350 --> 00:48:35,320  
aspect of this disease in October last

1006  
00:48:39,600 --> 00:48:37,360  
year a fragment of a common exploded in

1007  
00:48:42,300 --> 00:48:39,610  
brief flash North East China as a new

1008  
00:48:44,280 --> 00:48:42,310  
sir and he said we think it probable

1009  
00:48:48,300 --> 00:48:44,290  
this contained embedded within it a

1010  
00:48:50,340 --> 00:48:48,310  
monoculture of infective 2019 and CoV

1011  
00:48:52,710 --> 00:48:50,350  
virus particles that survived in the

1012  
00:48:54,420 --> 00:48:52,720  
interior of the incandescent meteor he

1013  
00:48:56,790 --> 00:48:54,430

goes on to say we consider the seemingly

1014

00:48:58,920 --> 00:48:56,800

outrageous possibility the hundreds of

1015

00:49:01,080 --> 00:48:58,930

trillions of infective viral particles

1016

00:49:04,500 --> 00:49:01,090

were then released embedded in the form

1017

00:49:06,690 --> 00:49:04,510

of fine carbonaceous dust and he goes on

1018

00:49:08,670 --> 00:49:06,700

to finish we believe infectious agents

1019

00:49:10,320 --> 00:49:08,680

are prevalent in space carried in comets

1020

00:49:12,810 --> 00:49:10,330

and can fall towards Earth through the

1021

00:49:16,080 --> 00:49:12,820

troposphere now when you went over all

1022

00:49:18,510 --> 00:49:16,090

that interesting data that this

1023

00:49:21,900 --> 00:49:18,520

professor felt that you you had insight

1024

00:49:23,820 --> 00:49:21,910

to share on and then left the show and

1025

00:49:26,760 --> 00:49:23,830

dr. rena scott brought up a brilliant

1026

00:49:29,340 --> 00:49:26,770

point and I wanted to dr. rena scott to

1027

00:49:32,370 --> 00:49:29,350

hone in on this and then perhaps you can

1028

00:49:35,070 --> 00:49:32,380

chime in on it mark and Donna's she said

1029

00:49:37,920 --> 00:49:35,080

if there was RNA data to be had that

1030

00:49:39,630 --> 00:49:37,930

would be key dr. rena scott can you

1031

00:49:41,850 --> 00:49:39,640

please share a little bit more with us

1032

00:49:46,200 --> 00:49:41,860

on that perspective regarding RNA data

1033

00:49:51,110 --> 00:49:46,210

and that pandemic by meteor or a topic

1034

00:49:57,049 --> 00:49:51,120

that professor Chandra Wickramasinghe

1035

00:49:57,059 --> 00:50:02,049

the coronavirus has complicated RNA

1036

00:50:07,460 --> 00:50:05,269

organic molecules insofar as known of

1037

00:50:10,220 --> 00:50:07,470

meteors meteorites

1038

00:50:13,160 --> 00:50:10,230

they found organic molecules and they

1039

00:50:16,880 --> 00:50:13,170

found they possibly found ribose but

1040

00:50:21,970 --> 00:50:16,890

they haven't found anything so far such

1041

00:50:24,920 --> 00:50:21,980

as RNA or DNA that that's a order

1042

00:50:27,559 --> 00:50:24,930

magnitudes greater in complexity than

1043

00:50:30,230 --> 00:50:27,569

what they found and if they did find RNA

1044

00:50:32,930 --> 00:50:30,240

or DNA a meteorite it would be

1045

00:50:35,480 --> 00:50:32,940

newsworthy all over the world because it

1046

00:50:39,499 --> 00:50:35,490

might suggest that there's life in the

1047

00:50:42,259 --> 00:50:39,509

universe just like ours you know I think

1048

00:50:44,450 --> 00:50:42,269

it's possible there is RNA in the

1049

00:50:47,720 --> 00:50:44,460

universe but I don't think they've ever

1050

00:50:51,890 --> 00:50:47,730

found that in the meteorite yeah and so

1051

00:50:55,339 --> 00:50:51,900

I don't think so and so if it came in on

1052

00:50:58,940 --> 00:50:55,349

the if something was causing the corona

1053

00:51:03,380 --> 00:50:58,950

virus from a meteorite that would be a

1054

00:51:04,730 --> 00:51:03,390

specific RNA for the corona virus that

1055

00:51:08,150 --> 00:51:04,740

would come in on a meteorite and that's

1056

00:51:11,740 --> 00:51:08,160

just probably not something that there'd

1057

00:51:13,870 --> 00:51:11,750

be a lot of chance against that I

1058

00:51:18,769 --> 00:51:13,880

actually tend to agree with that that

1059

00:51:21,890 --> 00:51:18,779

and now when I think I said that there

1060

00:51:23,749 --> 00:51:21,900

was a small comet that exploded I think

1061

00:51:26,329 --> 00:51:23,759

he really should have said a small

1062

00:51:30,220 --> 00:51:26,339

meteor because we haven't been hit by

1063

00:51:34,339 --> 00:51:30,230

any comments since possibly Tunguska so

1064

00:51:37,190 --> 00:51:34,349

and that was early 1900s and that is the

1065

00:51:42,940 --> 00:51:37,200

the only one we know of an historical

1066

00:51:45,410 --> 00:51:42,950

modern history actually so as far as the

1067

00:51:47,720 --> 00:51:45,420

fireball that came in let's say it was a

1068

00:51:49,549 --> 00:51:47,730

space rock we know that space rocks have

1069

00:51:51,559 --> 00:51:49,559

fallen to earth that have amino acids in

1070

00:51:54,799 --> 00:51:51,569

them the Murchison meteorite had amino

1071

00:51:56,720 --> 00:51:54,809

acids and I believe that you know that's

1072

00:51:59,749 --> 00:51:56,730

those are obviously part of the building

1073

00:52:01,160 --> 00:51:59,759

blocks of life sure and clearly they're

1074

00:52:04,880 --> 00:52:01,170

made on the earth are made on other

1075

00:52:08,970 --> 00:52:04,890

planets certainly but as dr. Scott says

1076

00:52:11,580 --> 00:52:08,980

we don't have any evidence that

1077

00:52:13,590 --> 00:52:11,590

getting deoxyribonucleic acid or DNA

1078

00:52:16,500 --> 00:52:13,600

right we're not we haven't seen that yet

1079

00:52:18,900 --> 00:52:16,510

not a variant of it anyway

1080

00:52:21,599 --> 00:52:18,910

you know DNA strands are different for

1081

00:52:22,920 --> 00:52:21,609

all the species right so there are

1082

00:52:24,870 --> 00:52:22,930

similarities to a certain percentage

1083

00:52:28,670 --> 00:52:24,880

above that that makes that species

1084

00:52:32,880 --> 00:52:28,680

unique to its own little niche right so

1085

00:52:34,950 --> 00:52:32,890

right now as far as I can tell it was a

1086

00:52:38,430 --> 00:52:34,960

meteor that struck over China just like

1087

00:52:40,349 --> 00:52:38,440

the Chelyabinsk meteor that that turned

1088

00:52:42,510 --> 00:52:40,359

that in today blew off security doors

1089

00:52:45,720 --> 00:52:42,520

and injured lots of people up in Russia

1090

00:52:48,560 --> 00:52:45,730

earlier so I don't think that this

1091

00:52:53,400 --> 00:52:48,570

fireball in corona are linked in any way

1092

00:52:54,990 --> 00:52:53,410

because I think that's like that that

1093

00:52:56,460 --> 00:52:55,000

sort of spitballing as far as I'm

1094

00:52:58,680 --> 00:52:56,470

concerned yeah I don't think he was

1095

00:53:00,240 --> 00:52:58,690

particularly saying that he believes

1096

00:53:01,950 --> 00:53:00,250

that's what this is I think he's saying

1097

00:53:05,040 --> 00:53:01,960

we can't rule out the possibility and

1098

00:53:06,210 --> 00:53:05,050

that's scientifically a valid thing to

1099

00:53:08,030 --> 00:53:06,220

say

1100

00:53:11,730 --> 00:53:08,040

but I don't think we can rule it out but

1101

00:53:13,560 --> 00:53:11,740

there is a chance and it merits being

1102

00:53:15,330 --> 00:53:13,570

looked at because there could be a time

1103

00:53:19,230 --> 00:53:15,340

in the future when we will get a

1104

00:53:22,140 --> 00:53:19,240

pathogen from space okay wonderful and

1105

00:53:24,930 --> 00:53:22,150

dr. rena scott did you have any more to

1106

00:53:27,090 --> 00:53:24,940

talk about on that top of it yeah I

1107

00:53:28,920 --> 00:53:27,100

agree I mean the earth has been here for

1108

00:53:30,900 --> 00:53:28,930

like four billion years and there might

1109

00:53:35,010 --> 00:53:30,910

have been something drifting in called

1110

00:53:38,450 --> 00:53:35,020

cuz panspermia or something but far as

1111

00:53:40,890 --> 00:53:38,460

the current iris I think it's against

1112

00:53:44,970 --> 00:53:40,900

probability there isn't much probability

1113

00:53:47,480 --> 00:53:44,980

that could have happened today

1114

00:53:51,450 --> 00:53:47,490

the RNA the specific RNA for

1115

00:53:55,200 --> 00:53:51,460

coronaviruses come in on meteor this is

1116

00:53:57,420 --> 00:53:55,210

a roll again so when I was looking at

1117

00:53:58,920 --> 00:53:57,430

the name of the you know the Indian

1118

00:54:03,780 --> 00:53:58,930

gentleman who I'm not going to try to

1119

00:54:05,609 --> 00:54:03,790

pronounce but but but he was it did when

1120

00:54:08,670 --> 00:54:05,619

it was talking about the theory it had

1121

00:54:11,010 --> 00:54:08,680

his name slash Quayle and I believe

1122

00:54:14,220 --> 00:54:11,020

that's dr. Frederick Hoyle who is the

1123

00:54:17,370 --> 00:54:14,230

guy who proposed panspermia in the first

1124

00:54:20,400 --> 00:54:17,380

place it was yes yeah so I mean I think

1125

00:54:22,870 --> 00:54:20,410

that perhaps this gentleman is priest is

1126

00:54:25,240 --> 00:54:22,880

sort of quick to presuppose

1127

00:54:27,670 --> 00:54:25,250

since he you know was working with

1128

00:54:34,660 --> 00:54:27,680

Fredric oil if that's where his mind is

1129

00:54:37,930 --> 00:54:34,670

going you know is a very good

1130

00:54:41,079 --> 00:54:37,940

possibility of how life you know erupts

1131

00:54:44,950 --> 00:54:41,089

throughout the cosmos but but yet has

1132

00:54:47,079 --> 00:54:44,960

not been proven theory that's correct

1133

00:54:48,880 --> 00:54:47,089

but we do know that as I said that you

1134

00:54:51,430 --> 00:54:48,890

know that we do have meteor falls here

1135

00:54:56,579 --> 00:54:51,440

on the planet that did bring amino acids

1136

00:55:00,160 --> 00:54:56,589

from elsewhere to the planet so there is

1137

00:55:01,630 --> 00:55:00,170

some evidence that building blocks of

1138

00:55:03,609 --> 00:55:01,640

life have been delivered here actually

1139

00:55:05,920 --> 00:55:03,619

there's copious evidence you know comets

1140

00:55:09,490 --> 00:55:05,930

and meteors strikes from Murchison on

1141

00:55:12,579 --> 00:55:09,500

and the inevitable asteroid strike from

1142

00:55:13,930 --> 00:55:12,589

the past could have delivered the

1143

00:55:17,859 --> 00:55:13,940

building blocks I don't think they

1144

00:55:21,730 --> 00:55:17,869

delivered live pathogens dr. Scott also

1145

00:55:23,559 --> 00:55:21,740

I think agrees it's it's a it's it's

1146

00:55:26,140 --> 00:55:23,569

worth mentioning because it could happen

1147

00:55:27,640 --> 00:55:26,150

maybe someday but I don't think we're at

1148

00:55:30,309 --> 00:55:27,650

that point I don't think it's ever

1149

00:55:32,380 --> 00:55:30,319

really happened here but we have enough

1150

00:55:34,499 --> 00:55:32,390

ultraviolet radiation from the Sun to

1151

00:55:36,640 --> 00:55:34,509

cause many mutations in our DNA

1152

00:55:38,980 --> 00:55:36,650

throughout time which may very well be

1153

00:55:41,079 --> 00:55:38,990

the reason why we have so many different

1154

00:55:43,390 --> 00:55:41,089

and varied species on our planet maybe

1155

00:55:45,670 --> 00:55:43,400

it's because this mutation followed by

1156

00:55:49,420 --> 00:55:45,680

adaptation which is evolution is

1157

00:55:51,009 --> 00:55:49,430

something triggered by a Sun that's very

1158

00:55:54,999 --> 00:55:51,019

active in the ultraviolet region and

1159

00:55:56,529 --> 00:55:55,009

ours actually is that's fantastic thank

1160

00:55:58,870 --> 00:55:56,539

you so much for that valuable insight

1161

00:56:00,309 --> 00:55:58,880

also want to ask Roger I believe Roger

1162

00:56:02,559 --> 00:56:00,319

you're a scientist can you please

1163

00:56:04,210 --> 00:56:02,569

explain what you do and if you have

1164

00:56:08,859 --> 00:56:04,220

anything you want to say about this

1165

00:56:11,589 --> 00:56:08,869

topic yeah I think it's an interesting

1166

00:56:15,390 --> 00:56:11,599

topic and I didn't read up on it last

1167

00:56:20,170 --> 00:56:15,400

night actually I got I'm a

1168

00:56:23,009 --> 00:56:20,180

neuroscientist so I I actually I've now

1169

00:56:25,299 --> 00:56:23,019

a teacher but I used to run run a

1170

00:56:28,170 --> 00:56:25,309

neuroscience lab at University of Sydney

1171

00:56:31,599 --> 00:56:28,180

and one of my specialities was some

1172

00:56:34,779 --> 00:56:31,609

virtual jerk-offs disease which we used

1173

00:56:35,420 --> 00:56:34,789

to obtain brains from from people who

1174

00:56:41,599 --> 00:56:35,430

had

1175

00:56:44,780 --> 00:56:41,609

diagnose it and as some of you may know

1176

00:56:47,569 --> 00:56:44,790

prions are proteins that are infectious

1177

00:56:49,579 --> 00:56:47,579

like viruses and bacteria that's the

1178

00:56:51,500 --> 00:56:49,589

only known thing other than a bite virus

1179

00:56:54,680 --> 00:56:51,510

and the bacteria that's infectious it's

1180

00:56:56,150 --> 00:56:54,690

quite unusual because these proteins are

1181

00:56:58,250 --> 00:56:56,160

found normally in the brain and they

1182

00:57:01,609 --> 00:56:58,260

miss fold and they recruit other

1183

00:57:03,520 --> 00:57:01,619

proteins to form the infection in the

1184

00:57:07,370 --> 00:57:03,530

brain that causes holes in the brain

1185

00:57:10,730 --> 00:57:07,380

literally and I didn't I didn't get on

1186

00:57:13,849 --> 00:57:10,740

to dr. wickless but WIC Rama Singh last

1187

00:57:15,710 --> 00:57:13,859

night and he emailed me funny enough and

1188

00:57:19,730 --> 00:57:15,720

he said because but what I had a problem

1189

00:57:24,049 --> 00:57:19,740

with was if if some DNA RNA is

1190

00:57:26,420 --> 00:57:24,059

transported by a a meteorite or a comet

1191

00:57:30,160 --> 00:57:26,430

more likely a comet because you find

1192

00:57:32,270 --> 00:57:30,170

water on comets how does it survive

1193

00:57:34,640 --> 00:57:32,280

re-entry into the Earth's atmosphere

1194

00:57:38,720 --> 00:57:34,650

because there's a lot of heat generated

1195

00:57:41,059 --> 00:57:38,730

etc and he responded by saying as you

1196

00:57:43,579 --> 00:57:41,069

know smaller disintegrating fragments of

1197

00:57:45,980 --> 00:57:43,589

a ball like that eventually end up as a

1198

00:57:49,400 --> 00:57:45,990

fireball that released non-destructively

1199

00:57:52,880 --> 00:57:49,410

into the mesosphere so he's saying that

1200

00:57:57,049 --> 00:57:52,890

basically these viruses can be released

1201  
00:57:59,440 --> 00:57:57,059  
in the the troposphere which is to look

1202  
00:58:02,059 --> 00:57:59,450  
quite quite high up I should imagine

1203  
00:58:05,240 --> 00:58:02,069  
from from the Earth's atmosphere and

1204  
00:58:08,839 --> 00:58:05,250  
they they settle down onto earth prior

1205  
00:58:11,660 --> 00:58:08,849  
to the actual meteorite or comet hitting

1206  
00:58:16,099 --> 00:58:11,670  
both the the earth and then breaking up

1207  
00:58:17,650 --> 00:58:16,109  
and and generating all that heat so he's

1208  
00:58:25,010 --> 00:58:17,660  
saying that there is a possibility of

1209  
00:58:28,640 --> 00:58:25,020  
our fun of panspermia to to to happen in

1210  
00:58:32,150 --> 00:58:28,650  
this way but also it brings up the

1211  
00:58:35,690 --> 00:58:32,160  
concept of you know if if you do find by

1212  
00:58:37,880 --> 00:58:35,700  
RNA or DNA on meteorites and comets well

1213  
00:58:40,370 --> 00:58:37,890

where did it come from you know how did

1214

00:58:43,520 --> 00:58:40,380

original originate did it originate on

1215

00:58:46,059 --> 00:58:43,530

earth or did RNA and DNA originate on

1216

00:58:48,590 --> 00:58:46,069

earth or was it did it was aboard here

1217

00:58:51,550 --> 00:58:48,600

via Pam sperm hence

1218

00:58:55,010 --> 00:58:51,560

here from another another assault system

1219

00:58:57,860 --> 00:58:55,020

and if it did we'll had it gen8 in that

1220

00:59:00,740 --> 00:58:57,870

solar system it's it's quite interesting

1221

00:59:04,460 --> 00:59:00,750

concept but something that really can't

1222

00:59:07,880 --> 00:59:04,470

be answered at the month and it takes us

1223

00:59:10,550 --> 00:59:07,890

back to how life originated on earth you

1224

00:59:14,110 --> 00:59:10,560

know how have prokaryotic organisms

1225

00:59:17,390 --> 00:59:14,120

originated on earth prokaryotes

1226

00:59:19,720 --> 00:59:17,400

eukaryotes are cells that have a nucleus

1227

00:59:23,840 --> 00:59:19,730

and have DNA in and with prokaryotes

1228

00:59:26,450 --> 00:59:23,850

don't don't have a nucleus that look DNA

1229

00:59:29,840 --> 00:59:26,460

or RNA but they have it floating around

1230

00:59:31,970 --> 00:59:29,850

the cycle isn't so yeah it's it's

1231

00:59:35,390 --> 00:59:31,980

interesting some there's some theories

1232

00:59:38,090 --> 00:59:35,400

that say that these this the DNA or RNA

1233

00:59:40,790 --> 00:59:38,100

could have come from from panspermia and

1234

00:59:43,130 --> 00:59:40,800

then entered into cells like prokaryotes

1235

00:59:46,670 --> 00:59:43,140

that we have here on earth that evolve

1236

00:59:50,210 --> 00:59:46,680

your so yeah i think it's an interesting

1237

00:59:51,410 --> 00:59:50,220

topic and he has written quite a few

1238

00:59:53,630 --> 00:59:51,420

papers I've read a couple of these

1239

00:59:55,190 --> 00:59:53,640

papers on it I don't believe it

1240

00:59:57,740 --> 00:59:55,200

at the moment there's not enough

1241

01:00:00,740 --> 00:59:57,750

evidence to say that you know RNA is

1242

01:00:04,940 --> 01:00:00,750

transported and DNA's transport employee

1243

01:00:08,170 --> 01:00:04,950

as of Jurina Scott is saying they have

1244

01:00:10,910 --> 01:00:08,180

detected things like polycyclic

1245

01:00:13,040 --> 01:00:10,920

hydrocarbons and and horse of Sodom it

1246

01:00:14,540 --> 01:00:13,050

let me just take a look and see if I

1247

01:00:18,140 --> 01:00:14,550

pronounced that correctly I don't think

1248

01:00:22,090 --> 01:00:18,150

I have but that you can get like amino

1249

01:00:27,380 --> 01:00:22,100

some typos and complex complex

1250

01:00:30,080 --> 01:00:27,390

carbon-based organic molecules on on on

1251

01:00:35,020 --> 01:00:30,090

meteorites and comets oh absolutely

1252

01:00:37,750 --> 01:00:35,030

actually yeah and also formaldehyde is

1253

01:00:40,340 --> 01:00:37,760

found in interstellar space which is a

1254

01:00:43,250 --> 01:00:40,350

preservative that we use to preserve

1255

01:00:47,180 --> 01:00:43,260

tissue or proteins and tissue so that

1256

01:00:49,130 --> 01:00:47,190

that's interesting that from aldehyde is

1257

01:00:51,020 --> 01:00:49,140

actually it's a gas it's found in

1258

01:00:53,360 --> 01:00:51,030

interstellar space but it's also sort of

1259

01:00:57,490 --> 01:00:53,370

an organic molecule which didn't be

1260

01:01:01,790 --> 01:00:57,500

built up on to form these polycyclic

1261

01:01:02,480 --> 01:01:01,800

hydrocarbons that are found in it in in

1262

01:01:05,839 --> 01:01:02,490

nature

1263

01:01:08,720 --> 01:01:05,849

some things personally there's no theory

1264

01:01:09,950 --> 01:01:08,730

to if I can just throw that in we want

1265

01:01:12,410 --> 01:01:09,960

we want to hear from you because we know

1266

01:01:15,109 --> 01:01:12,420

you have to go so please do thank you

1267

01:01:16,820 --> 01:01:15,119

oh sorry huh there's another theory too

1268

01:01:19,550 --> 01:01:16,830

and thank you that was actually very

1269

01:01:21,500 --> 01:01:19,560

interesting cuz uh we could ramalinga

1270

01:01:24,349 --> 01:01:21,510

someone that I've paid attention to as

1271

01:01:26,240 --> 01:01:24,359

well one of the things I want to mention

1272

01:01:28,400 --> 01:01:26,250

was that the whole panspermia concept

1273

01:01:31,040 --> 01:01:28,410

doesn't necessarily have to leave our

1274

01:01:33,650 --> 01:01:31,050

solar system to have the origin found

1275

01:01:35,720 --> 01:01:33,660

okay one of the early thoughts is that

1276

01:01:38,240 --> 01:01:35,730

the early planet Mars

1277

01:01:40,130 --> 01:01:38,250

had a much thicker atmosphere had a lot

1278

01:01:45,560 --> 01:01:40,140

of running water potentially had life

1279

01:01:47,270 --> 01:01:45,570

and when it suffered an impact some of

1280

01:01:50,060 --> 01:01:47,280

that atmosphere and material will be

1281

01:01:51,770 --> 01:01:50,070

blown out into space inevitably possibly

1282

01:01:53,630 --> 01:01:51,780

reaching the earth as a meteorite we

1283

01:01:56,329 --> 01:01:53,640

have seen in the Antarctic we have been

1284

01:02:00,849 --> 01:01:56,339

able to identify Martian meteorites so

1285

01:02:04,000 --> 01:02:00,859

it's possible that early life from Mars

1286

01:02:06,050 --> 01:02:04,010

marched its way here through an impact

1287

01:02:07,930 --> 01:02:06,060

and that's another theory too so

1288

01:02:11,150 --> 01:02:07,940

panspermia doesn't have to be

1289

01:02:13,460 --> 01:02:11,160

extraterrestrial other than being you

1290

01:02:15,070 --> 01:02:13,470

know within our solar system and and the

1291

01:02:17,210 --> 01:02:15,080

existing planets early in their history

1292

01:02:19,579 --> 01:02:17,220

thank you I just wanted to interject

1293

01:02:21,170 --> 01:02:19,589

before anybody says anything I'm I

1294

01:02:23,510 --> 01:02:21,180

apologize just hold on to that thought

1295

01:02:25,849 --> 01:02:23,520

and please do ask it or I make that

1296

01:02:27,650 --> 01:02:25,859

point mark if you do have to leave I

1297

01:02:30,530 --> 01:02:27,660

just want to let everybody know a little

1298

01:02:32,990 --> 01:02:30,540

bit about you Mark Dantonio who is a

1299

01:02:34,190 --> 01:02:33,000

very well known astronomer millions of

1300

01:02:36,200 --> 01:02:34,200

people around the world listen to his

1301

01:02:37,130 --> 01:02:36,210

show I believe it's called Sky Watch but

1302

01:02:39,290 --> 01:02:37,140

he will go ahead and let us know

1303

01:02:41,329 --> 01:02:39,300

everything regarding when do we see his

1304

01:02:43,609 --> 01:02:41,339

show what the full name of it is and

1305

01:02:45,620 --> 01:02:43,619

just won't let our listeners know he has

1306

01:02:46,599 --> 01:02:45,630

a degree in astronomy and as a mutual

1307

01:02:51,170 --> 01:02:46,609

UFO network s--

1308

01:02:53,810 --> 01:02:51,180

chief video photo of forensic analyst he

1309

01:02:55,640 --> 01:02:53,820

is CEO of FX models a model making and

1310

01:02:57,650 --> 01:02:55,650

special effects company specializing in

1311

01:02:58,910 --> 01:02:57,660

digital physical models and organic

1312

01:03:01,099 --> 01:02:58,920

special effects in the film industry

1313

01:03:03,260 --> 01:03:01,109

he's done extensive work in the film and

1314

01:03:05,599 --> 01:03:03,270

television arena appearing regularly on

1315

01:03:09,140 --> 01:03:05,609

a number of networks and his efforts

1316

01:03:12,050 --> 01:03:09,150

creating UFO t OG to a remote UFO

1317

01:03:14,750 --> 01:03:12,060

detective detective detection system

1318

01:03:16,310 --> 01:03:14,760

with douglas trumbull promises to bring

1319

01:03:18,890 --> 01:03:16,320

ufology into the 21st

1320

01:03:20,810 --> 01:03:18,900

entering a mark can you please share

1321

01:03:22,580 --> 01:03:20,820

with us what the name of your show is

1322

01:03:23,150 --> 01:03:22,590

when people can watch it and how do they

1323

01:03:25,640 --> 01:03:23,160

do that

1324

01:03:27,410 --> 01:03:25,650

sure I mean and thank you for that chant

1325

01:03:29,360 --> 01:03:27,420

and it was nice to be here and I'm sorry

1326

01:03:31,220 --> 01:03:29,370

I have to run off but I do have an

1327

01:03:34,640 --> 01:03:31,230

appointment that's a pending right in

1328

01:03:37,250 --> 01:03:34,650

the moment this radio show was on Sunday

1329

01:03:42,020 --> 01:03:37,260

nights from 8 p.m. to 10 p.m. Eastern

1330

01:03:44,510 --> 01:03:42,030

Time and it's called sky tour radio and

1331

01:03:47,870 --> 01:03:44,520

then on YouTube we have a channel that's

1332

01:03:50,120 --> 01:03:47,880

tied to our observatory we have one

1333

01:03:51,650 --> 01:03:50,130

observatory now in northwestern

1334

01:03:53,720 --> 01:03:51,660

Connecticut and we have another one that

1335

01:03:56,690 --> 01:03:53,730

we're building in the Sonoran Desert in

1336

01:03:58,550 --> 01:03:56,700

Arizona and both will be online by well

1337

01:04:02,150 --> 01:03:58,560

the one in the salon will be online by

1338

01:04:05,120 --> 01:04:02,160

the summer early summer actually and so

1339

01:04:06,860 --> 01:04:05,130

that's called Sky to livestream and

1340

01:04:08,210 --> 01:04:06,870

that's on YouTube and if you look up Sky

1341

01:04:10,970 --> 01:04:08,220

to our live stream you'll find it

1342

01:04:14,390 --> 01:04:10,980

subscribe hit the bell get notified come

1343

01:04:19,970 --> 01:04:14,400

along and nights it's all free and sky -

1344

01:04:21,620 --> 01:04:19,980

a radio on kgr a radio calm of course

1345

01:04:26,300 --> 01:04:21,630

you can listen to it on talk stream live

1346

01:04:29,090 --> 01:04:26,310

and other online services thanks that's

1347

01:04:31,220 --> 01:04:29,100

fantastic and we appreciate your time

1348

01:04:32,690 --> 01:04:31,230

today I know you have very short amount

1349

01:04:34,730 --> 01:04:32,700

of time anyway because you're extremely

1350

01:04:36,680 --> 01:04:34,740

busy so we appreciate your discretionary

1351  
01:04:37,640 --> 01:04:36,690  
time today mark thank you very much

1352  
01:04:40,340 --> 01:04:37,650  
thank you

1353  
01:04:42,380 --> 01:04:40,350  
anybody that I apologize for having

1354  
01:04:44,090 --> 01:04:42,390  
interrupted you can you please continue

1355  
01:04:47,060 --> 01:04:44,100  
your point and then I want to bring in a

1356  
01:04:50,480 --> 01:04:47,070  
point that shane herd has made and also

1357  
01:04:53,390 --> 01:04:50,490  
a point that a Reuben or yata has made

1358  
01:04:55,700 --> 01:04:53,400  
also to me on the side so please do make

1359  
01:04:57,380 --> 01:04:55,710  
up the point make the point you were

1360  
01:05:01,250 --> 01:04:57,390  
making prior I apologize to my

1361  
01:05:10,630 --> 01:05:05,780  
oh good I'll get this drooping thank you

1362  
01:05:14,240 --> 01:05:10,640  
and that's a really fascinating topic

1363  
01:05:17,000 --> 01:05:14,250

possibility of viruses being brought in

1364

01:05:18,890 --> 01:05:17,010

from comments and that and I just began

1365

01:05:23,230 --> 01:05:18,900

thinking what about crash retrievals

1366

01:05:26,210 --> 01:05:23,240

there's always that possibility of

1367

01:05:29,240 --> 01:05:26,220

people being exposed or the

1368

01:05:32,840 --> 01:05:29,250

search-and-rescue teams that may go and

1369

01:05:36,080 --> 01:05:32,850

and start investigating and retrieving a

1370

01:05:39,710 --> 01:05:36,090

crash and then they potentially may be

1371

01:05:45,250 --> 01:05:39,720

exposed or have been exposed to is some

1372

01:05:48,349 --> 01:05:45,260

sort of pathogen so that I was just

1373

01:05:49,670 --> 01:05:48,359

thinking about that and and and also the

1374

01:05:52,250 --> 01:05:49,680

some of the cases that have been

1375

01:05:55,070 --> 01:05:52,260

presented whether there's actual proof

1376

01:05:58,940 --> 01:05:55,080

that's another story but I began

1377

01:06:01,820 --> 01:05:58,950

thinking about that oh by the way I

1378

01:06:06,020 --> 01:06:01,830

forgot to mention to Peter Davenport

1379

01:06:07,550 --> 01:06:06,030

brought up a really good point and I saw

1380

01:06:10,550 --> 01:06:07,560

that his presentation at one of the

1381

01:06:14,599 --> 01:06:10,560

MUFON symposiums on the on his project

1382

01:06:17,120 --> 01:06:14,609

the posts or the on the radar that he

1383

01:06:18,650 --> 01:06:17,130

was passing reader and I thought that

1384

01:06:20,990 --> 01:06:18,660

was fascinating and I would really love

1385

01:06:24,109 --> 01:06:21,000

to see that get funded so I could

1386

01:06:27,020 --> 01:06:24,119

definitely support it thank you for the

1387

01:06:31,340 --> 01:06:27,030

comment this is Peter I think that was

1388

01:06:36,440 --> 01:06:31,350

the 2004 symposium in Denver if I'm not

1389

01:06:36,980 --> 01:06:36,450

mistaken yes yes that's right yes that's

1390

01:06:39,710 --> 01:06:36,990

correct

1391

01:06:43,490 --> 01:06:39,720

and then I appeared before the board of

1392

01:06:46,700 --> 01:06:43,500

directors and state directors and I

1393

01:06:53,300 --> 01:06:46,710

think it was July of 2008 am I correct

1394

01:06:56,420 --> 01:06:53,310

Jan Jan may not be here 10 cars am made

1395

01:07:01,040 --> 01:06:56,430

pitch before the state directors and the

1396

01:07:03,740 --> 01:07:01,050

Board of Directors in July of 2008 for a

1397

01:07:06,109 --> 01:07:03,750

joint project between all UFO

1398

01:07:08,510 --> 01:07:06,119

organizations if we can build a

1399

01:07:12,260 --> 01:07:08,520

prototype we can cover the North

1400

01:07:16,880 --> 01:07:12,270

American continent with is

1401

01:07:19,910 --> 01:07:16,890

you as three stations I estimate and we

1402

01:07:23,210 --> 01:07:19,920

can monitor UFO activity directly and on

1403

01:07:28,490 --> 01:07:23,220

a real-time basis that's exactly what

1404

01:07:30,530 --> 01:07:28,500

the US Navy did with its in naval space

1405

01:07:35,540 --> 01:07:30,540

surveillance system that used to be in

1406

01:07:37,580 --> 01:07:35,550

operation in southern United States okay

1407

01:07:40,490 --> 01:07:37,590

fantastic thank you so much for that

1408

01:07:42,590 --> 01:07:40,500

input and also Shane had a interesting

1409

01:07:44,480 --> 01:07:42,600

pointing I know he wanted to bring up do

1410

01:07:46,460 --> 01:07:44,490

you still want to make that point Shane

1411

01:07:48,650 --> 01:07:46,470

regarding what would constitute proof of

1412

01:07:50,780 --> 01:07:48,660

a pathogen that may have been delivered

1413

01:07:53,870 --> 01:07:50,790

by meteor or comet that's a good

1414

01:07:57,320 --> 01:07:53,880

question what does constitute proof did

1415

01:08:00,290 --> 01:07:57,330

you still have that question Shane yeah

1416

01:08:03,980 --> 01:08:00,300

I was hoping market chairman but family

1417

01:08:06,680 --> 01:08:03,990

doctor Scott and and Roger as well and

1418

01:08:08,360 --> 01:08:06,690

just my thought is is there are so many

1419

01:08:11,390 --> 01:08:08,370

theories out there this might be a

1420

01:08:13,640 --> 01:08:11,400

viable theory but how would you know how

1421

01:08:19,240 --> 01:08:13,650

could you prove that a pathogen came

1422

01:08:26,450 --> 01:08:23,020

would be very difficult or impossible

1423

01:08:28,790 --> 01:08:26,460

that was Peter talking and dr. Rena

1424

01:08:30,710 --> 01:08:28,800

Scott or Roger estanque ovitch did you

1425

01:08:33,710 --> 01:08:30,720

have any input you want to share on that

1426

01:08:38,000 --> 01:08:33,720

a very interesting point that Shane just

1427

01:08:41,420 --> 01:08:38,010

made about some how would you prove that

1428

01:08:44,420 --> 01:08:41,430

John a virus came on it on a meteorite

1429

01:08:50,570 --> 01:08:44,430

is that the question is that correct

1430

01:08:53,420 --> 01:08:50,580

Shane yeah that's it well it would be

1431

01:08:55,640 --> 01:08:53,430

almost impossible because once it I

1432

01:08:57,250 --> 01:08:55,650

suppose if you picked up a fragment of

1433

01:09:00,200 --> 01:08:57,260

the meteor out of the Commodore whatever

1434

01:09:02,090 --> 01:09:00,210

you know if you tested it it had already

1435

01:09:04,340 --> 01:09:02,100

hit the Earth's atmosphere it's already

1436

01:09:07,280 --> 01:09:04,350

hit the ground etc you'd be contaminated

1437

01:09:11,270 --> 01:09:07,290

by by bacteria and viruses on earth so

1438

01:09:14,480 --> 01:09:11,280

there's no real way of testing it apart

1439

01:09:16,700 --> 01:09:14,490

from I suppose sampling the the

1440

01:09:19,460 --> 01:09:16,710

troposphere to see whether there's DNA

1441

01:09:22,460 --> 01:09:19,470

or RNA up there I don't know whether

1442

01:09:26,210 --> 01:09:22,470

anyone's done that but there could be

1443

01:09:33,050 --> 01:09:26,220

you know fragments of DNA or RNA already

1444

01:09:34,940 --> 01:09:33,060

up and I'm off a meteorite but that's

1445

01:09:38,420 --> 01:09:34,950

come within close proximity to earth I

1446

01:09:40,940 --> 01:09:38,430

don't know how you will be tested okay

1447

01:09:43,550 --> 01:09:40,950

and dr. Irina Scott did you want to

1448

01:09:46,670 --> 01:09:43,560

bring up any information on or insight

1449

01:09:50,059 --> 01:09:46,680

on that topic brought up well if you had

1450

01:09:55,790 --> 01:09:50,069

a meteorite that just oh and you're able

1451

01:09:58,190 --> 01:09:55,800

to absolutely confirm that that a

1452

01:10:01,160 --> 01:09:58,200

particular organic compound was in that

1453

01:10:03,350 --> 01:10:01,170

meteorite you could but that would be

1454

01:10:06,950 --> 01:10:03,360

very difficult because they have they

1455

01:10:09,020 --> 01:10:06,960

don't always they can't always tell

1456

01:10:11,210 --> 01:10:09,030

whether it's contamination or not and

1457

01:10:13,850 --> 01:10:11,220

then if you found DNA in the atmosphere

1458

01:10:15,710 --> 01:10:13,860

well it probably our own DNA it wouldn't

1459

01:10:17,480 --> 01:10:15,720

it wouldn't necessarily be from anyplace

1460

01:10:19,610 --> 01:10:17,490

else unless it was a completely

1461

01:10:23,660 --> 01:10:19,620

different type of molecule than what we

1462

01:10:27,980 --> 01:10:23,670

have of the four components of the DNA

1463

01:10:29,660 --> 01:10:27,990

so I think it would be but you could

1464

01:10:30,680 --> 01:10:29,670

prove it I mean if you found a meteorite

1465

01:10:31,850 --> 01:10:30,690

in your app

1466

01:10:35,390 --> 01:10:31,860

solutely sure that it wasn't

1467

01:10:38,660 --> 01:10:35,400

contaminated it had a particular RNA or

1468

01:10:40,970 --> 01:10:38,670

DNA you could show that but I don't been

1469

01:10:43,070 --> 01:10:40,980

done great thank you that was a great

1470

01:10:44,420 --> 01:10:43,080

point Shane and also Ruben who do you a

1471

01:10:46,340 --> 01:10:44,430

thank you very much for bringing up

1472

01:10:48,770 --> 01:10:46,350

those interesting points I wanted to

1473

01:10:50,450 --> 01:10:48,780

talk to dr. Anna Scott very briefly

1474

01:10:54,650 --> 01:10:50,460

because we're pressed for time on a

1475

01:10:56,689 --> 01:10:54,660

really a wonderful icon in the UFO

1476

01:10:58,760 --> 01:10:56,699

community I believe she passed away

1477

01:11:00,470 --> 01:10:58,770

early April she may have to correct me

1478

01:11:04,459 --> 01:11:00,480

on the day believe it was April 8th of

1479

01:11:07,430 --> 01:11:04,469

this year and dr. rena scott was very

1480

01:11:10,490 --> 01:11:07,440

close friends with jenny our Zeidman and

1481

01:11:12,850 --> 01:11:10,500

dino michael hall and possibly Peter

1482

01:11:17,000 --> 01:11:12,860

Davenport have heard of her she wrote

1483

01:11:18,770 --> 01:11:17,010

extensively on the UFO topic and wanted

1484

01:11:21,800 --> 01:11:18,780

to mention just a little bit about her

1485

01:11:24,320 --> 01:11:21,810

as she was Jenny or Zeidman was dr. J

1486

01:11:27,110 --> 01:11:24,330

Allen Hynek private secretary and author

1487

01:11:28,790 --> 01:11:27,120

of multiple UFO related books she was

1488

01:11:30,650 --> 01:11:28,800

considered a serious investigator of the

1489

01:11:32,510 --> 01:11:30,660

UFO topic if you want to learn a little

1490

01:11:35,930 --> 01:11:32,520

bit more about what she wrote about you

1491

01:11:38,209 --> 01:11:35,940

can actually look up Isaac coy he

1492

01:11:41,240 --> 01:11:38,219

actually collected quite a bit of data

1493

01:11:43,280 --> 01:11:41,250

and that she actually took the time to

1494

01:11:46,729 --> 01:11:43,290

write on and does she dedicated her life

1495

01:11:48,979 --> 01:11:46,739

to that the UFO topic and also I believe

1496

01:11:52,459 --> 01:11:48,989

it was so Steven Bassett and his

1497

01:11:55,850 --> 01:11:52,469

paradigm Research Center he had some

1498

01:11:59,209 --> 01:11:55,860

really fantastic info on her also so be

1499

01:12:02,000 --> 01:11:59,219

triple W paradigm research group dot-org

1500

01:12:05,240 --> 01:12:02,010

he has a great bibliography on her and

1501

01:12:07,550 --> 01:12:05,250

then also Isaac coy if you look him up

1502

01:12:10,370 --> 01:12:07,560

he has fantastic lists of books that she

1503

01:12:14,180 --> 01:12:10,380

wrote including other details of her

1504

01:12:16,610 --> 01:12:14,190

life dr. rena scott you actually said

1505

01:12:18,229 --> 01:12:16,620

something really wonderful about her i'm

1506

01:12:22,400 --> 01:12:18,239

going to go ahead and read to everybody

1507

01:12:25,490 --> 01:12:22,410

what it was she said she was about the

1508

01:12:27,530 --> 01:12:25,500

first ufologist i met she helped me in

1509

01:12:30,170 --> 01:12:27,540

many ways and furnished a lot of the

1510

01:12:31,610 --> 01:12:30,180

material for my last book this included

1511

01:12:34,400 --> 01:12:31,620

dr. J Allen Hynek

1512

01:12:37,700 --> 01:12:34,410

handwritten letters and much material

1513

01:12:40,430 --> 01:12:37,710

and information from the Patel SR 14

1514

01:12:44,280 --> 01:12:40,440

study that gave a super idea of what

1515

01:12:47,010 --> 01:12:44,290

went on and much more from Blue Book and

1516

01:12:48,090 --> 01:12:47,020

where she worked for dr. Hynek at Ohio

1517

01:12:50,070 --> 01:12:48,100

State University

1518

01:12:52,710 --> 01:12:50,080

Battelle Memorial Institute and

1519

01:12:54,930 --> 01:12:52,720

wright-patterson Air Force bases Project

1520

01:12:56,640 --> 01:12:54,940

Blue Book she worked at all these

1521

01:12:59,250 --> 01:12:56,650

institutions was a writer and

1522

01:13:03,000 --> 01:12:59,260

investigator she let me use many photos

1523

01:13:05,400 --> 01:13:03,010

of ufologists and also of dr. Hynek she

1524

01:13:07,530 --> 01:13:05,410

will be really missed I think she had

1525

01:13:10,920 --> 01:13:07,540

been on the board of directors of both q

1526

01:13:13,680 --> 01:13:10,930

fo and MUFON she was a pilot and solved

1527

01:13:16,380 --> 01:13:13,690

one of dr. hynek's cases that impressed

1528

01:13:21,030 --> 01:13:16,390

him and he hired her she spent many

1529

01:13:23,100 --> 01:13:21,040

years researching UFOs then dr. Scott

1530

01:13:25,110 --> 01:13:23,110

goes on to say much of the material in

1531

01:13:27,360 --> 01:13:25,120

my last book came from her sacred

1532

01:13:29,130 --> 01:13:27,370

quarters secrets behind the real Project

1533

01:13:29,700 --> 01:13:29,140

Blue Book wright-patterson Air Force

1534

01:13:33,030 --> 01:13:29,710

Base

1535

01:13:35,160 --> 01:13:33,040

Roswell Patel memory metal and dr. J

1536

01:13:36,600 --> 01:13:35,170

Allen Hynek and UFO cover-ups if you

1537

01:13:38,520 --> 01:13:36,610

want to find out more about those

1538

01:13:40,560 --> 01:13:38,530

wonderful books at dr. arenas Scott

1539

01:13:42,480 --> 01:13:40,570

wrote which I myself have actually

1540

01:13:45,210 --> 01:13:42,490

bought one recently and it's just

1541

01:13:47,790 --> 01:13:45,220

wonderful reading you go to Amazon and

1542

01:13:52,110 --> 01:13:47,800

you can just Google dr. arena Scott and

1543

01:13:54,540 --> 01:13:52,120

then type in Amazon and a UFO and all of

1544

01:13:55,890 --> 01:13:54,550

her books will pop up now dr. rena scott

1545

01:13:59,640 --> 01:13:55,900

i want to tell you something very

1546

01:14:01,740 --> 01:13:59,650

personal and that is you know i've seen

1547

01:14:06,210 --> 01:14:01,750

a lot in my lifetime i've been through

1548

01:14:09,360 --> 01:14:06,220

breast cancer twice and i have actually

1549

01:14:11,760 --> 01:14:09,370

seen also in my lifetime an awful lot of

1550

01:14:15,210 --> 01:14:11,770

sexism i've seen women treated very

1551  
01:14:19,710 --> 01:14:15,220  
badly because they were women now I

1552  
01:14:24,290 --> 01:14:19,720  
think to say that and Jenny are Zeidman

1553  
01:14:28,140 --> 01:14:24,300  
was dr. J Allen Hynek private secretary

1554  
01:14:32,700 --> 01:14:28,150  
marginalizes her regarding all the

1555  
01:14:36,600 --> 01:14:32,710  
extensive effort and wherewithal she put

1556  
01:14:39,510 --> 01:14:36,610  
forward toward the UFO topic and I think

1557  
01:14:41,940 --> 01:14:39,520  
it's important that we emphasize how

1558  
01:14:44,220 --> 01:14:41,950  
great she really was can you please

1559  
01:14:46,770 --> 01:14:44,230  
touch on that topic a doctor Irena Scott

1560  
01:14:48,690 --> 01:14:46,780  
I don't think she was a his private

1561  
01:14:51,480 --> 01:14:48,700  
secretary she started out as his

1562  
01:14:55,080 --> 01:14:51,490  
research associate he was teaching

1563  
01:14:57,570 --> 01:14:55,090

astronomy at OSU and he was impressed by

1564

01:15:01,200 --> 01:14:57,580

her ability to solve a

1565

01:15:03,600 --> 01:15:01,210

that he had with he would discuss his

1566

01:15:06,630 --> 01:15:03,610

UFO cases in class and she solved one of

1567

01:15:11,070 --> 01:15:06,640

them and he hired her but she worked for

1568

01:15:19,290 --> 01:15:11,080

Mattel and for wright-patterson project

1569

01:15:21,840 --> 01:15:19,300

Bluebook and Ohio State University in

1570

01:15:30,240 --> 01:15:21,850

the Astronomy Department she worked for

1571

01:15:34,050 --> 01:15:30,250

all three and she investigated UFOs is

1572

01:15:36,810 --> 01:15:34,060

her own self not as his secretary when

1573

01:15:41,490 --> 01:15:36,820

she was working for him one of her jobs

1574

01:15:43,770 --> 01:15:41,500

was to go through the UFO cases that

1575

01:15:46,170 --> 01:15:43,780

they had selected for Blue Book and she

1576

01:15:48,600 --> 01:15:46,180

selected the ones that she thought were

1577

01:15:50,760 --> 01:15:48,610

interesting that he oughta look into

1578

01:15:55,020 --> 01:15:50,770

more detail and that was one of her

1579

01:16:00,110 --> 01:15:55,030

things but she um she was actually being

1580

01:16:08,580 --> 01:16:00,120

paid by the four by the Air Force and a

1581

01:16:10,590 --> 01:16:08,590

lot of my book came from the write the

1582

01:16:13,290 --> 01:16:10,600

Project Blue Book special report number

1583

01:16:18,120 --> 01:16:13,300

fourteen and that was done by Mattel

1584

01:16:20,940 --> 01:16:18,130

back in 1952 and it was it was probably

1585

01:16:28,140 --> 01:16:20,950

the top scientific work that's ever been

1586

01:16:31,040 --> 01:16:28,150

done on UFOs and back in 1952 they put

1587

01:16:36,210 --> 01:16:31,050

the information for Project Blue Book on

1588

01:16:39,600 --> 01:16:36,220

computers I mean way back then and they

1589

01:16:42,210 --> 01:16:39,610

used cards and all that and did a study

1590

01:16:44,780 --> 01:16:42,220

and not only did they do things like

1591

01:16:47,010 --> 01:16:44,790

finding out what portions are

1592

01:16:50,160 --> 01:16:47,020

astronomical and all that but they also

1593

01:16:53,300 --> 01:16:50,170

did a study to find out if UFOs were

1594

01:16:59,460 --> 01:16:53,310

real and they did a statistical study

1595

01:17:01,920 --> 01:16:59,470

using you well he he had about thirteen

1596

01:17:05,100 --> 01:17:01,930

thousand cases and they called that down

1597

01:17:07,680 --> 01:17:05,110

to about three thousand and get a

1598

01:17:11,109 --> 01:17:07,690

statistical study there where they use

1599

01:17:13,449 --> 01:17:11,119

the control group of you

1600

01:17:16,270 --> 01:17:13,459

phoE reports that were identified later

1601  
01:17:20,369 --> 01:17:16,280  
compared to UFOs reports that were never

1602  
01:17:23,619 --> 01:17:20,379  
identified and they came out with a a

1603  
01:17:26,139 --> 01:17:23,629  
very highly significant difference in

1604  
01:17:31,959 --> 01:17:26,149  
them which would highly suggest that

1605  
01:17:34,839 --> 01:17:31,969  
UFOs are real and so they went one step

1606  
01:17:36,819 --> 01:17:34,849  
further of just analyzing you know where

1607  
01:17:38,279 --> 01:17:36,829  
they were and what they were the shape

1608  
01:17:41,109 --> 01:17:38,289  
and things like that they did an actual

1609  
01:17:44,319 --> 01:17:41,119  
statistical study with chi-squared

1610  
01:17:47,500 --> 01:17:44,329  
comparing to a control group and a real

1611  
01:17:50,830 --> 01:17:47,510  
group of UFOs and finding statistical

1612  
01:17:53,859 --> 01:17:50,840  
differences only got about one chance in

1613  
01:17:56,409 --> 01:17:53,869

a billion that against the idea that

1614

01:18:00,759 --> 01:17:56,419

your foes are prosaic objects and they

1615

01:18:03,459 --> 01:18:00,769

even suggested further studies but this

1616

01:18:07,330 --> 01:18:03,469

was about the highest level study that's

1617

01:18:09,069 --> 01:18:07,340

been done on UFOs ever it'd be very hard

1618

01:18:10,719 --> 01:18:09,079

for a private organization do that

1619

01:18:16,259 --> 01:18:10,729

because of government there because they

1620

01:18:19,449 --> 01:18:16,269

had money and so I used a lot of the

1621

01:18:25,020 --> 01:18:19,459

information she had directly from Mattel

1622

01:18:28,060 --> 01:18:25,030

on that and she went into a lot of work

1623

01:18:30,669 --> 01:18:28,070

studying it and interviewed the people

1624

01:18:32,919 --> 01:18:30,679

that did the study that she could find

1625

01:18:36,609 --> 01:18:32,929

and that sort of thing - and got their

1626

01:18:39,399 --> 01:18:36,619

opinions it was a highly it was top

1627

01:18:41,949 --> 01:18:39,409

secret - I mean Project Blue Book was

1628

01:18:44,639 --> 01:18:41,959

sort of a debunking thing for the public

1629

01:18:48,520 --> 01:18:44,649

but it showed that they were actually

1630

01:18:49,899 --> 01:18:48,530

interested in what UFOs were the only

1631

01:18:51,369 --> 01:18:49,909

reason anybody found out about the

1632

01:18:54,699 --> 01:18:51,379

secret study was because of a

1633

01:18:58,869 --> 01:18:54,709

whistleblower and she never found out

1634

01:19:00,669 --> 01:18:58,879

who the whistleblower was that is

1635

01:19:02,529 --> 01:19:00,679

fabulous and thank you so very much for

1636

01:19:05,229 --> 01:19:02,539

having corrected me on that I wanted to

1637

01:19:08,500 --> 01:19:05,239

mention something interesting and and

1638

01:19:10,719 --> 01:19:08,510

that is that Jenny Zeidman was actually

1639

01:19:12,369 --> 01:19:10,729

mentioned in a book called UFO secrets

1640

01:19:14,919 --> 01:19:12,379

inside wright-patterson eyewitness

1641

01:19:18,069 --> 01:19:14,929

accounts from the role area 51 by Thomas

1642

01:19:20,949 --> 01:19:18,079

J Carey I believe it says and Donald R

1643

01:19:23,439 --> 01:19:20,959

Schmidt I'm trying to read one point

1644

01:19:24,820 --> 01:19:23,449

font there so forgive me I think that is

1645

01:19:27,550 --> 01:19:24,830

the gentleman's named

1646

01:19:30,310 --> 01:19:27,560

Thomas J Carrey in paragraph in that

1647

01:19:31,900 --> 01:19:30,320

book it actually says I'll go ahead and

1648

01:19:34,030 --> 01:19:31,910

read the paragraph the last-known

1649

01:19:36,190 --> 01:19:34,040

meeting between general Weinbrenner and

1650

01:19:38,770 --> 01:19:36,200

Hynek also included colonel robert

1651

01:19:40,560 --> 01:19:38,780

friend the former head of Project Blue

1652

01:19:43,900 --> 01:19:40,570

Book the appointment took place in early

1653

01:19:46,150 --> 01:19:43,910

1974 and after heated exchange Hynek

1654

01:19:48,070 --> 01:19:46,160

stormed out of the room yelling patsies

1655

01:19:50,740 --> 01:19:48,080

patsies they're trying to make us all

1656

01:19:54,130 --> 01:19:50,750

patsies all over again his private

1657

01:19:56,620 --> 01:19:54,140

secretary and Jenny Seidman was waiting

1658

01:19:59,140 --> 01:19:56,630

for him as he entered her car he was

1659

01:20:00,520 --> 01:19:59,150

clearly upset and it was a long tense

1660

01:20:03,670 --> 01:20:00,530

drive back to Illinois

1661

01:20:07,480 --> 01:20:03,680

Hynek did not say a word what is your

1662

01:20:10,390 --> 01:20:07,490

input on that right there regarding her

1663

01:20:13,720 --> 01:20:10,400

being labeled a private secretary also

1664

01:20:15,640 --> 01:20:13,730

wanted to mention to you I noticed my

1665

01:20:17,890 --> 01:20:15,650

repeated efforts to do research on her

1666

01:20:19,600 --> 01:20:17,900

would bring up that title can you please

1667

01:20:25,360 --> 01:20:19,610

fill us in on that and thank you for

1668

01:20:29,470 --> 01:20:25,370

correcting me well I think she was she

1669

01:20:34,140 --> 01:20:29,480

was a secretary okay great well thank

1670

01:20:52,050 --> 01:20:43,320

dr. Scott so in Koufos files there's a

1671

01:20:58,210 --> 01:20:52,060

some material about bikel and also a

1672

01:21:04,150 --> 01:20:58,220

special report 14 and of course in 1953

1673

01:21:08,140 --> 01:21:04,160

Hynek and jeanne were working on

1674

01:21:10,720 --> 01:21:08,150

something called project Henry have you

1675

01:21:15,820 --> 01:21:10,730

heard of that I can't think of it right

1676

01:21:18,250 --> 01:21:15,830

now okay well anyways I I I'm I'm

1677

01:21:22,080 --> 01:21:18,260

fascinated by the fact that you say you

1678

01:21:24,940 --> 01:21:22,090

have that she she kept a lot of his

1679

01:21:29,800 --> 01:21:24,950

handwritten correspondence is there any

1680

01:21:33,480 --> 01:21:29,810

chance that that might be scanned or

1681

01:21:35,580 --> 01:21:33,490

available at some time it's in my book I

1682

01:21:37,660 --> 01:21:35,590

prove all the court all the

1683

01:21:38,640 --> 01:21:37,670

correspondences in there I thought there

1684

01:21:44,490 --> 01:21:38,650

was extensive

1685

01:21:49,959 --> 01:21:44,500

of what she gave me oh okay yeah

1686

01:21:54,100 --> 01:21:49,969

Vitelli is really interesting Rubel

1687

01:21:57,129 --> 01:21:54,110

tries to take credit for being the

1688

01:22:02,500 --> 01:21:57,139

instigator but it was actually the whole

1689

01:22:04,689 --> 01:22:02,510

thing with patel was actually in 1950

1690

01:22:07,649 --> 01:22:04,699

before they even got room felt into

1691

01:22:13,569 --> 01:22:07,659

Project Blue Book that was already

1692

01:22:17,549 --> 01:22:13,579

proposed by General Garland he already

1693

01:22:20,319 --> 01:22:17,559

wanted to see this study done so it's

1694

01:22:22,419 --> 01:22:20,329

it's interesting the number of people

1695

01:22:23,919 --> 01:22:22,429

that try to get in there and say I I was

1696

01:22:28,479 --> 01:22:23,929

responsible for this

1697

01:22:30,399 --> 01:22:28,489

but yeah it's historically there's a

1698

01:22:37,109 --> 01:22:30,409

there's a lot of stuff that has not yet

1699

01:22:41,290 --> 01:22:37,119

come out and yeah I mean you know on the

1700

01:22:43,660 --> 01:22:41,300

pentacle memorandum the person that's

1701

01:22:46,149 --> 01:22:43,670

listed first is a president at Mattel

1702

01:22:50,049 --> 01:22:46,159

and he's the one that accepted the study

1703

01:22:52,060 --> 01:22:50,059

from Project Blue Book which you know

1704

01:22:54,819 --> 01:22:52,070

that was his rep you the tells

1705

01:22:58,259 --> 01:22:54,829

reputation right there and he accepted

1706

01:23:03,549 --> 01:22:58,269

the study enables to be top-secret but

1707

01:23:05,680 --> 01:23:03,559

he was interested and Jenny interviewed

1708

01:23:07,689 --> 01:23:05,690

people to find out what his opinion on

1709

01:23:09,279 --> 01:23:07,699

things were and he was very interested

1710

01:23:18,549 --> 01:23:09,289

in the project and thought they might be

1711

01:23:22,479 --> 01:23:18,559

able to find something so he was I think

1712

01:23:30,250 --> 01:23:22,489

he was the president of Mattel won the

1713

01:23:32,009 --> 01:23:30,260

1947 Roswell even occurred yeah one

1714

01:23:39,359 --> 01:23:32,019

thing that I said that

1715

01:23:42,640 --> 01:23:39,369

Patel took they got copies of not only

1716

01:23:44,950 --> 01:23:42,650

Project Blue Book stuff but civilians

1717

01:23:48,970 --> 01:23:44,960

that were given especially after Life

1718

01:23:52,240 --> 01:23:48,980

magazine they got they had several

1719

01:23:57,130 --> 01:23:52,250

hundred items that the

1720

01:24:03,220 --> 01:23:57,140

both Life magazine and civilian saucer

1721

01:24:07,600 --> 01:24:03,230

in intelligence in Los Angeles and Life

1722

01:24:09,130 --> 01:24:07,610

magazine and and Blue Book got and they

1723

01:24:10,600 --> 01:24:09,140

took some of those letters when they

1724

01:24:14,160 --> 01:24:10,610

made this study so it wasn't just

1725

01:24:17,920 --> 01:24:14,170

Project Blue Book stuff but Hayek said

1726

01:24:22,950 --> 01:24:17,930

after they finished the study they

1727

01:24:25,360 --> 01:24:22,960

destroyed all the the raw data and

1728

01:24:30,640 --> 01:24:25,370

unfortunately some of that raw data was

1729

01:24:33,250 --> 01:24:30,650

only in one copy and so stuff was lost

1730

01:24:36,070 --> 01:24:33,260

there it's one of the many times many

1731

01:24:43,689 --> 01:24:36,080

times that stuff was lost from Project

1732

01:24:48,070 --> 01:24:43,699

Blue Book but tells interesting there

1733

01:24:51,880 --> 01:24:48,080

and contractors actually comparable to

1734

01:24:54,790 --> 01:24:51,890

the contract with Bigelow they're both

1735

01:24:56,530 --> 01:24:54,800

very interesting yes and I'm glad you

1736

01:25:00,580 --> 01:24:56,540

mentioned that topic Jim we're gonna go

1737

01:25:02,790 --> 01:25:00,590

and move on to that topic jim Kerr could

1738

01:25:05,229 --> 01:25:02,800

not be with us today he is a

1739

01:25:08,110 --> 01:25:05,239

investigator of the UFO topic he

1740

01:25:10,780 --> 01:25:08,120

actually forensic ly analyzes a video in

1741

01:25:12,610 --> 01:25:10,790

photo and we were ready for him but he

1742

01:25:14,650 --> 01:25:12,620

had to back out at the last minute due

1743

01:25:17,110 --> 01:25:14,660

to a personal emergency wanted to

1744

01:25:19,150 --> 01:25:17,120

mention a really fascinating topic and

1745

01:25:21,340 --> 01:25:19,160

that Jan brought to my attention I'm

1746

01:25:23,080 --> 01:25:21,350

gonna read what he said and then I'm

1747

01:25:26,160 --> 01:25:23,090

hoping that Jan will go ahead and start

1748

01:25:29,290 --> 01:25:26,170

the topic and people can chime in on it

1749

01:25:34,930 --> 01:25:29,300

I'll go ahead and start it says on the

1750

01:25:38,830 --> 01:25:34,940

topic of a ati p / Bigelow bass ba BWA

1751

01:25:40,150 --> 01:25:38,840

SS a first and foremost and the

1752

01:25:42,820 --> 01:25:40,160

government can't tell the truth

1753

01:25:45,580 --> 01:25:42,830

involving UFOs or whatever they want to

1754

01:25:49,530 --> 01:25:45,590

call them and their involvement with

1755

01:25:52,479 --> 01:25:49,540

them second Elizondo is basically a

1756

01:25:55,780 --> 01:25:52,489

soft-shoe dancer his answers are full of

1757

01:25:57,790 --> 01:25:55,790

evasions and obfuscation 'he's it is

1758

01:25:59,860 --> 01:25:57,800

unclear what Bigelow and his company

1759

01:26:02,620 --> 01:25:59,870

actually investigated involving his

1760

01:26:04,780 --> 01:26:02,630

contract with skinwalker ranch part of

1761

01:26:06,100 --> 01:26:04,790

the government business or just a side

1762

01:26:08,110 --> 01:26:06,110

investigation

1763

01:26:10,180 --> 01:26:08,120

the glow is under no obligation to

1764

01:26:12,340 --> 01:26:10,190

explain his involvement as I have

1765

01:26:15,280 --> 01:26:12,350

pointed out before probably the wrong

1766

01:26:17,920 --> 01:26:15,290

questions are being asked everyone in

1767

01:26:20,190 --> 01:26:17,930

the military has a boss what entity

1768

01:26:26,470 --> 01:26:20,200

parenthesis entities and the parentheses

1769

01:26:28,960 --> 01:26:26,480

did a a TI P and a a WS AP report - in

1770

01:26:32,470 --> 01:26:28,970

the chain of command were their staff

1771

01:26:34,990 --> 01:26:32,480

supervision number - Elizondo contention

1772

01:26:37,690 --> 01:26:35,000

that AAT IP was never told to stand down

1773

01:26:41,350 --> 01:26:37,700

seems quite unlikely what allowed them

1774

01:26:43,420 --> 01:26:41,360

to continue three Elizondo claimed that

1775

01:26:46,210 --> 01:26:43,430

its incidents came to him already

1776

01:26:48,930 --> 01:26:46,220

investigated and vetted what entities

1777

01:26:53,110 --> 01:26:48,940

weren't involved here investigating such

1778

01:26:56,050 --> 01:26:53,120

report number four Elizondo claim

1779

01:26:59,860 --> 01:26:56,060

funding post dia came for other

1780

01:27:02,140 --> 01:26:59,870

departments or agencies which seems this

1781

01:27:04,600 --> 01:27:02,150

should be subject to some kind of audit

1782

01:27:06,910 --> 01:27:04,610

I don't expect any answers to these

1783

01:27:08,590 --> 01:27:06,920

questions in the next decade what I

1784

01:27:10,660 --> 01:27:08,600

expect are further outright lies

1785

01:27:12,580 --> 01:27:10,670

evasions and obfuscation

1786

01:27:14,500 --> 01:27:12,590

I wanted to mention that was the end of

1787

01:27:19,390 --> 01:27:14,510

the quote that he's talking about Lou

1788

01:27:21,730 --> 01:27:19,400

Elizondo so Jan can you please let us

1789

01:27:26,860 --> 01:27:21,740

know what you were touching upon there

1790

01:27:30,000 --> 01:27:26,870

explain a little bit well the first

1791

01:27:33,180 --> 01:27:30,010

thing about the government is of course

1792

01:27:36,610 --> 01:27:33,190

a quote from Barry Greenwood the

1793

01:27:40,710 --> 01:27:36,620

government can't tell the truth about

1794

01:27:44,110 --> 01:27:40,720

UFOs in their row and we said that in

1795

01:27:47,620 --> 01:27:44,120

UFOs in government the book by Michael

1796

01:27:51,880 --> 01:27:47,630

swords and Woodham Paulo and the rest of

1797

01:27:54,340 --> 01:27:51,890

us hangers on we said that and of course

1798

01:27:56,320 --> 01:27:54,350

the British got very upset about that or

1799

01:27:58,780 --> 01:27:56,330

you can't say that about government

1800

01:28:04,780 --> 01:27:58,790

servants and stuff like that we can and

1801  
01:28:07,600 --> 01:28:04,790  
we do yeah as far as being able to tell

1802  
01:28:10,450 --> 01:28:07,610  
the truth let's go back to Patel when

1803  
01:28:16,030 --> 01:28:10,460  
they issued project

1804  
01:28:18,520 --> 01:28:16,040  
special project special report 14th the

1805  
01:28:20,290 --> 01:28:18,530  
secretary Air Force outright lied he

1806  
01:28:26,129 --> 01:28:20,300  
said that

1807  
01:28:33,339 --> 01:28:30,209  
vehicles that will behave like UFOs do

1808  
01:28:36,700 --> 01:28:33,349  
and he was referring to the avrocar and

1809  
01:28:39,580 --> 01:28:36,710  
anybody that's seen a film of the

1810  
01:28:42,129 --> 01:28:39,590  
avrocar I saw one order it tried to take

1811  
01:28:44,050 --> 01:28:42,139  
off and and went into a ditch out at

1812  
01:28:49,089 --> 01:28:44,060  
wright-patterson so it's it's a real

1813  
01:28:51,359 --> 01:28:49,099

joke so the secretary Air Force was

1814

01:28:58,510 --> 01:28:51,369

outright lying to the press right there

1815

01:29:01,359 --> 01:28:58,520

um as far as Allison Dole is he is a he

1816

01:29:04,780 --> 01:29:01,369

is an intelligence official he's uh he

1817

01:29:07,319 --> 01:29:04,790

has a very interesting career and he's

1818

01:29:10,180 --> 01:29:07,329

you know he you know it's like you say

1819

01:29:12,970 --> 01:29:10,190

thank you for your service but I believe

1820

01:29:18,700 --> 01:29:12,980

he is not being at all candid whenever

1821

01:29:22,540 --> 01:29:18,710

he talks about his role and AAA ITP and

1822

01:29:26,080 --> 01:29:22,550

anything else and I know my friend

1823

01:29:28,240 --> 01:29:26,090

interviewed him and a lot of things were

1824

01:29:30,910 --> 01:29:28,250

this is classified that's classified

1825

01:29:33,450 --> 01:29:30,920

this is classified and of course the

1826

01:29:35,950 --> 01:29:33,460

article in The New York Times said no

1827

01:29:38,080 --> 01:29:35,960

everything almost everything is

1828

01:29:41,020 --> 01:29:38,090

unclassified so what do we have here we

1829

01:29:48,910 --> 01:29:41,030

have a real something there that needs

1830

01:29:53,319 --> 01:29:48,920

to be resolved as as far as I've always

1831

01:29:57,700 --> 01:29:53,329

been interested in in where a AIT P and

1832

01:30:01,089 --> 01:29:57,710

the other organization fit in where

1833

01:30:03,370 --> 01:30:01,099

where is on the wire diagram of the

1834

01:30:06,189 --> 01:30:03,380

Defense Intelligence Agency exactly

1835

01:30:09,669 --> 01:30:06,199

where it is who's the boss who do they

1836

01:30:12,729 --> 01:30:09,679

report to that's that's unclear and that

1837

01:30:14,169 --> 01:30:12,739

that to me being it having 25 years in

1838

01:30:19,839 --> 01:30:14,179

the military it's important to figure

1839

01:30:24,160 --> 01:30:19,849

out who who's interacting with who s but

1840

01:30:26,410 --> 01:30:24,170

he he did say that a AIT P was a hundred

1841

01:30:28,479 --> 01:30:26,420

percent UFOs and of course the

1842

01:30:32,740 --> 01:30:28,489

government says didn't have anything to

1843

01:30:33,760 --> 01:30:32,750

do with UFOs so there's another thing

1844

01:30:37,690 --> 01:30:33,770

that needs to be reason

1845

01:30:40,660 --> 01:30:37,700

all okay I just wanted to interject here

1846

01:30:43,210 --> 01:30:40,670

thank you for clearing up that statement

1847

01:30:45,280 --> 01:30:43,220

you made I wanted to just say something

1848

01:30:48,700 --> 01:30:45,290

about the Louella zonder topic and that

1849

01:30:52,180 --> 01:30:48,710

is I think it's a very naive for all of

1850

01:30:58,930 --> 01:30:52,190

us to think is that the UFO topic was

1851

01:31:01,600 --> 01:30:58,940

only attributed to a project with with

1852

01:31:04,810 --> 01:31:01,610

money to back it up for five to seven

1853

01:31:07,030 --> 01:31:04,820

years not that's very naive for anybody

1854

01:31:09,610 --> 01:31:07,040

to believe that that's the only allotted

1855

01:31:12,220 --> 01:31:09,620

time that the US government would have

1856

01:31:16,540 --> 01:31:12,230

actually studied anything traversing the

1857

01:31:18,220 --> 01:31:16,550

skies that is an unknown now Frank can

1858

01:31:20,440 --> 01:31:18,230

you do me a favor and just mute mute

1859

01:31:22,770 --> 01:31:20,450

your mic thank you

1860

01:31:25,390 --> 01:31:22,780

the other thing I wanted to mention is

1861

01:31:28,540 --> 01:31:25,400

anything that traverses the skies around

1862

01:31:30,220 --> 01:31:28,550

the world any government whether the

1863

01:31:32,800 --> 01:31:30,230

first or third world governments are

1864

01:31:35,320 --> 01:31:32,810

going to want to monitor it and so for

1865

01:31:37,840 --> 01:31:35,330

anybody to believe and that the Pentagon

1866

01:31:42,340 --> 01:31:37,850

had a ufo-related

1867

01:31:46,120 --> 01:31:42,350

program for only a few years is it's

1868

01:31:47,860 --> 01:31:46,130

unreasonable and it's unrealistic does

1869

01:31:53,760 --> 01:31:47,870

anybody want to touch in on this topic

1870

01:31:58,390 --> 01:31:53,770

at all I used to work in air order and

1871

01:32:02,920 --> 01:31:58,400

the DIA tried to keep track of all all

1872

01:32:04,540 --> 01:32:02,930

the aircraft in the world I mean we was

1873

01:32:07,600 --> 01:32:04,550

satellite photography we would look at

1874

01:32:09,520 --> 01:32:07,610

see the aircraft and measure it and its

1875

01:32:11,650 --> 01:32:09,530

dimensions and everything figure out

1876

01:32:14,560 --> 01:32:11,660

what aircraft it was and I think they do

1877

01:32:23,710 --> 01:32:14,570

that for all over the world I mean it's

1878

01:32:25,740 --> 01:32:23,720

all classified okay great go ahead this

1879

01:32:30,100 --> 01:32:25,750

is Peter speaking from Washington State

1880

01:32:32,650 --> 01:32:30,110

I agree with your statement I alluded to

1881

01:32:35,050 --> 01:32:32,660

the naval space surveillance system and

1882

01:32:39,000 --> 01:32:35,060

it can be found on the internet quite

1883

01:32:42,520 --> 01:32:39,010

easily that was run i presume from

1884

01:32:46,410 --> 01:32:42,530

shortly after when Sputnik was launched

1885

01:32:51,180 --> 01:32:46,420

in october 57 - just a few years ago

1886

01:32:54,810 --> 01:32:51,190

and the system is ideally suited for

1887

01:32:59,520 --> 01:32:54,820

detecting not only satellites and other

1888

01:33:02,130 --> 01:32:59,530

orbiting objects but UFOs as well so the

1889

01:33:06,180 --> 01:33:02,140

US Navy and therefore the government

1890

01:33:09,630 --> 01:33:06,190

must have been detecting UFOs directly

1891

01:33:14,400 --> 01:33:09,640

on a real-time basis for decades at

1892

01:33:20,189 --> 01:33:14,410

least five decades I would say I jumped

1893

01:33:25,770 --> 01:33:20,199

in here again Peter you're absolutely

1894

01:33:28,800 --> 01:33:25,780

correct in fact Greenwood did a soil to

1895

01:33:30,900 --> 01:33:28,810

the Navy and they they said in listen

1896

01:33:34,110 --> 01:33:30,910

these might be interesting to you and

1897

01:33:38,610 --> 01:33:34,120

they sent them a whole bunch of angles

1898

01:33:40,560 --> 01:33:38,620

where they detected unknown objects they

1899

01:33:43,950 --> 01:33:40,570

they claimed that they didn't have the

1900

01:33:50,419 --> 01:33:43,960

money to to go ahead and figure out what

1901

01:33:58,490 --> 01:33:55,110

Brad sparks articles in Gary Clark's new

1902

01:34:03,030 --> 01:33:58,500

encyclopedia about NORAD and how they

1903

01:34:07,410 --> 01:34:03,040

they're unknown list power it figures

1904

01:34:11,550 --> 01:34:07,420

into the UFO thing and why I can talk to

1905

01:34:13,530 --> 01:34:11,560

you I want to say I salute you I I can't

1906

01:34:16,979 --> 01:34:13,540

believe the work that you've done here

1907

01:34:19,140 --> 01:34:16,989

Peter thank you well thank you thank you

1908

01:34:22,709 --> 01:34:19,150

for the comment thanks for the nice

1909

01:34:27,150 --> 01:34:22,719

compliment the government has clearly

1910

01:34:31,100 --> 01:34:27,160

been detecting UFOs using radars and

1911

01:34:33,810 --> 01:34:31,110

passive radars for decades and it's

1912

01:34:37,080 --> 01:34:33,820

proof positive I think that they've been

1913

01:34:41,790 --> 01:34:37,090

lying to us since 1947 or even before

1914

01:34:44,340 --> 01:34:41,800

then okay Peter thank you very much for

1915

01:34:47,459 --> 01:34:44,350

that input and yes I know we've thank

1916

01:34:49,200 --> 01:34:47,469

you before but Jan did say thank you

1917

01:34:50,610 --> 01:34:49,210

again for good reason we really can't

1918

01:34:52,919 --> 01:34:50,620

thank you enough for all the valuable

1919

01:34:55,970 --> 01:34:52,929

work that you've contributed to the UFO

1920

01:34:58,650 --> 01:34:55,980

community Michael I wanted to ask you a

1921

01:35:00,330 --> 01:34:58,660

how do you feel about this topic that

1922

01:35:02,970 --> 01:35:00,340

Gianna's brought up do you have any

1923

01:35:08,490 --> 01:35:02,980

mints or insight you want to share about

1924

01:35:10,860 --> 01:35:08,500

it well yes you know it's very amazing

1925

01:35:12,690 --> 01:35:10,870

to me and I'm sure all of us seasoned

1926

01:35:15,420 --> 01:35:12,700

people that have been involved in this

1927

01:35:18,990 --> 01:35:15,430

field for decades literally most of us

1928

01:35:22,040 --> 01:35:19,000

here on the panel is that why all of a

1929

01:35:26,180 --> 01:35:22,050

sudden December 16th

1930

01:35:30,200 --> 01:35:26,190

2017 the floodgates have opened with

1931

01:35:33,870 --> 01:35:30,210

actual confirmation from the Pentagon

1932

01:35:36,030 --> 01:35:33,880

the Department of Defense the Navy all

1933

01:35:39,170 --> 01:35:36,040

of these government and military

1934

01:35:43,050 --> 01:35:39,180

entities actually now coming forth

1935

01:35:46,260 --> 01:35:43,060

confirming the existence of UFOs and

1936

01:35:49,170 --> 01:35:46,270

giving us gun camera footage of the same

1937

01:35:52,680 --> 01:35:49,180

and now we're seeing the topics

1938

01:35:55,500 --> 01:35:52,690

discussed on mainstream media on our

1939

01:35:58,050 --> 01:35:55,510

cable channels galore with Project Blue

1940

01:36:01,680 --> 01:35:58,060

Book you know starting its third season

1941

01:36:04,890 --> 01:36:01,690

eventually unidentified with Lou

1942

01:36:08,670 --> 01:36:04,900

Elizondo and to the Stars Academy these

1943

01:36:11,160 --> 01:36:08,680

folks are all government you know of

1944

01:36:13,920 --> 01:36:11,170

retired officials that are still

1945

01:36:16,380 --> 01:36:13,930

involved in this thing and literally as

1946

01:36:18,960 --> 01:36:16,390

grant Cameron has mentioned most of

1947

01:36:21,710 --> 01:36:18,970

these people that you see out there that

1948

01:36:25,560 --> 01:36:21,720

are still involved in these high-level

1949

01:36:28,740 --> 01:36:25,570

programs have been so since the aviary

1950

01:36:32,310 --> 01:36:28,750

days you know decades ago they've cycled

1951

01:36:36,150 --> 01:36:32,320

through knids Robert Bigelow is bass and

1952

01:36:40,020 --> 01:36:36,160

to the stars Academy etc so we have to

1953

01:36:43,820 --> 01:36:40,030

keep asking our question is why now what

1954

01:36:47,280 --> 01:36:43,830

is been the giant force behind this

1955

01:36:52,650 --> 01:36:47,290

rather quick red pilling I believe of

1956

01:36:55,560 --> 01:36:52,660

the public in this regard Shane I think

1957

01:37:00,120 --> 01:36:55,570

we wanted to bring a point whoever who

1958

01:37:06,510 --> 01:37:00,130

is speaking right now I didn't hear Oh

1959

01:37:11,070 --> 01:37:06,520

Peter please sequoias Ando and that

1960

01:37:12,419 --> 01:37:11,080

cabal of guys is as you point out

1961

01:37:15,270 --> 01:37:12,429

Michael the

1962

01:37:18,780 --> 01:37:15,280

they were made evident to the American

1963

01:37:20,970 --> 01:37:18,790

people to December 16th 2017 and since

1964

01:37:24,300 --> 01:37:20,980

that time by my calculation they have

1965

01:37:28,380 --> 01:37:24,310

revealed or released exactly two cases

1966

01:37:30,630 --> 01:37:28,390

in that same amount of time MUFON and

1967

01:37:34,830 --> 01:37:30,640

the national UFO Reporting Center and

1968

01:37:39,390 --> 01:37:34,840

many others possibly Koufos UFOs

1969

01:37:41,040 --> 01:37:39,400

Northwest and so on have tens of

1970

01:37:43,890 --> 01:37:41,050

thousands of cases that they have

1971

01:37:46,649 --> 01:37:43,900

collected my question is if these guys

1972

01:37:49,830 --> 01:37:46,659

were the government's cat's meow when it

1973

01:38:00,180 --> 01:37:49,840

came to UFOs where the rest of the cases

1974

01:38:04,919 --> 01:38:00,190

that they must have good point yeah

1975

01:38:07,110 --> 01:38:04,929

so I'm generally supportive of the G TSA

1976

01:38:09,720 --> 01:38:07,120

and it's because they have accomplished

1977

01:38:12,990 --> 01:38:09,730

some things that we've not seen in 70

1978

01:38:15,750 --> 01:38:13,000

years I mean the revealing of a tip is a

1979

01:38:19,110 --> 01:38:15,760

government UFO study program for example

1980

01:38:21,990 --> 01:38:19,120

or as was mentioned you know gun camera

1981

01:38:24,140 --> 01:38:22,000

footage I bet we have 70 years worth of

1982

01:38:26,720 --> 01:38:24,150

gun camera footage and we've not seen it

1983

01:38:29,430 --> 01:38:26,730

and you know it is an impressive

1984

01:38:31,350 --> 01:38:29,440

compilation of folks that you know got

1985

01:38:34,860 --> 01:38:31,360

together and are participating this

1986

01:38:37,169 --> 01:38:34,870

however that being said for all the

1987

01:38:40,290 --> 01:38:37,179

reasons that both Jan and Peter

1988

01:38:43,080 --> 01:38:40,300

mentioned you know at its root this

1989

01:38:46,229 --> 01:38:43,090

organization is based on intelligence

1990

01:38:49,169 --> 01:38:46,239

and I think that we have to be careful

1991

01:38:52,830 --> 01:38:49,179

and take everything that we hear with a

1992

01:38:55,979 --> 01:38:52,840

grain of salt because because of that

1993

01:38:59,010 --> 01:38:55,989

close relationship and origins to

1994

01:39:02,310 --> 01:38:59,020

intelligence which is designed to Optus

1995

01:39:03,689 --> 01:39:02,320

Kate and keep something secret they

1996

01:39:05,160 --> 01:39:03,699

might have thrown us a little bit of a

1997

01:39:06,149 --> 01:39:05,170

bone here and there which great

1998

01:39:08,580 --> 01:39:06,159

appreciate it

1999

01:39:09,300 --> 01:39:08,590

they may be acknowledging UFOs are real

2000

01:39:11,189 --> 01:39:09,310

that's big

2001

01:39:16,649 --> 01:39:11,199

you know altering their reporting

2002

01:39:19,260 --> 01:39:16,659

program so again no organization is

2003

01:39:23,760 --> 01:39:19,270

perfect and I think we always have to

2004

01:39:25,729 --> 01:39:23,770

have our BS meter set on high and filter

2005

01:39:27,920 --> 01:39:25,739

some of this stuff but

2006

01:39:29,360 --> 01:39:27,930

to some extent they've accomplished some

2007

01:39:31,010 --> 01:39:29,370

things that haven't been accomplished in

2008

01:39:34,940 --> 01:39:31,020

seven years I at least tip my hat off to

2009

01:39:36,560 --> 01:39:34,950

that thank you and dr. Rena Scott did

2010

01:39:42,590 --> 01:39:36,570

you have anything you wanted to share on

2011

01:39:44,450 --> 01:39:42,600

that topic yeah I think you know about

2012

01:39:46,100 --> 01:39:44,460

because they keep track of everything is

2013

01:39:49,610 --> 01:39:46,110

flying my satellite photography and so

2014

01:39:57,800 --> 01:39:49,620

they know what's flying over where and

2015

01:40:04,100 --> 01:39:57,810

the yeah sure they possibly can and keep

2016

01:40:07,250 --> 01:40:04,110

track of everything else is my

2017

01:40:09,979 --> 01:40:07,260

understanding correct that Elizondo has

2018

01:40:12,860 --> 01:40:09,989

asserted that he was allowed to talk

2019

01:40:16,160 --> 01:40:12,870

about about his work the day after he

2020

01:40:18,590 --> 01:40:16,170

left the service even though he had a at

2021

01:40:27,650 --> 01:40:18,600

least a top-secret security clearance I

2022

01:40:29,540 --> 01:40:27,660

had one of those two bands so it seems

2023

01:40:35,840 --> 01:40:29,550

strange to me that he would have been

2024

01:40:39,110 --> 01:40:35,850

cleared for discussing his work in the

2025

01:40:43,910 --> 01:40:39,120

while he was still in uniform what's

2026

01:40:48,500 --> 01:40:43,920

your thought on that Jim well I was

2027

01:40:51,050 --> 01:40:48,510

quoting the New York Times article that

2028

01:40:54,830 --> 01:40:51,060

said most of this stuff is unclassified

2029

01:40:56,630 --> 01:40:54,840

and then I expected well let's go to a

2030

01:41:00,920 --> 01:40:56,640

couple of these conferences and listen

2031

01:41:05,150 --> 01:41:00,930

to this guy and you know he talks he's

2032

01:41:06,680 --> 01:41:05,160

very entertaining and he he's a very

2033

01:41:10,100 --> 01:41:06,690

charming let's put it that way

2034

01:41:12,709 --> 01:41:10,110

and but he says very you know and when

2035

01:41:16,850 --> 01:41:12,719

you get to the end of his presentation

2036

01:41:24,220 --> 01:41:16,860

what is he told you almost nothing very

2037

01:41:26,930 --> 01:41:24,230

little stuff comes up the the Huntsville

2038

01:41:29,300 --> 01:41:26,940

conference he got they they got to ask

2039

01:41:33,800 --> 01:41:29,310

questions down there but they had to be

2040

01:41:35,810 --> 01:41:33,810

submitted in in advance and of course

2041

01:41:39,080 --> 01:41:35,820

the the government is constantly

2042

01:41:39,570 --> 01:41:39,090

contradicting what he's saying he's a he

2043

01:41:49,950 --> 01:41:39,580

told

2044

01:41:52,020 --> 01:41:49,960

but feel that the the his a hundred 100%

2045

01:41:54,420 --> 01:41:52,030

of his time was spent on UFOs and of

2046

01:41:57,120 --> 01:41:54,430

course the government said first of all

2047

01:42:02,430 --> 01:41:57,130

he didn't have any connection with a a

2048

01:42:05,880 --> 01:42:02,440

IDP and second in it it had nothing to

2049

01:42:07,620 --> 01:42:05,890

do with UFOs I mean you know also I

2050

01:42:12,060 --> 01:42:07,630

could say about the government is they

2051  
01:42:14,850 --> 01:42:12,070  
never tell the truth yeah presented with

2052  
01:42:19,650 --> 01:42:14,860  
this this observation that you make Jim

2053  
01:42:23,550 --> 01:42:19,660  
and what yeah it's hard to you know I I

2054  
01:42:25,890 --> 01:42:23,560  
belong to that group that post all the

2055  
01:42:28,830 --> 01:42:25,900  
time but you can't say anything bad

2056  
01:42:30,600 --> 01:42:28,840  
about him and I'm not sitting there

2057  
01:42:32,130 --> 01:42:30,610  
anything bad I just have some questions

2058  
01:42:33,960 --> 01:42:32,140  
which you don't even want to ask

2059  
01:42:41,250 --> 01:42:33,970  
questions because they jumped on it down

2060  
01:42:42,900 --> 01:42:41,260  
here oh yeah I wanted to jump in here

2061  
01:42:45,120 --> 01:42:42,910  
Jam because it sounds like you have a

2062  
01:42:47,850 --> 01:42:45,130  
lot of angst and emotion about that

2063  
01:42:49,770 --> 01:42:47,860

topic I know I do I might not I might

2064

01:42:51,600 --> 01:42:49,780

come across as being monotone about it

2065

01:42:54,330 --> 01:42:51,610

believe me I feel the same way you do in

2066

01:42:56,160 --> 01:42:54,340

many respects I wanted to ask Earl if he

2067

01:42:59,190 --> 01:42:56,170

shared the same sentiment or if you have

2068

01:43:04,320 --> 01:42:59,200

any other insight on this topic you

2069

01:43:05,430 --> 01:43:04,330

wanted to share with us think so well

2070

01:43:08,580 --> 01:43:05,440

one thing I think you have to remember

2071

01:43:11,250 --> 01:43:08,590

about a tip is that they are predisposed

2072

01:43:12,540 --> 01:43:11,260

to see they're looking for threats I

2073

01:43:17,670 --> 01:43:12,550

mean it was originally a threat

2074

01:43:20,730 --> 01:43:17,680

assessment group and their Pentagon you

2075

01:43:23,400 --> 01:43:20,740

know there it was at origin in the

2076

01:43:26,130 --> 01:43:23,410

Pentagon so I mean I guess you kind of

2077

01:43:29,010 --> 01:43:26,140

want them to be protecting us right

2078

01:43:31,350 --> 01:43:29,020

that's what the Pentagon does but I

2079

01:43:35,160 --> 01:43:31,360

think it's kind of unfortunate that that

2080

01:43:37,890 --> 01:43:35,170

is carried on into their civilian you

2081

01:43:42,590 --> 01:43:37,900

know quote unquote group you know to the

2082

01:43:46,140 --> 01:43:42,600

Stars Academy because listening to

2083

01:43:48,270 --> 01:43:46,150

listening to the various players and and

2084

01:43:50,190 --> 01:43:48,280

having heard a couple of them speak at

2085

01:43:52,860 --> 01:43:50,200

alien Con and things like that

2086

01:43:53,370 --> 01:43:52,870

I mean they do admit that you know it's

2087

01:43:55,919 --> 01:43:53,380

a threat

2088

01:44:00,709 --> 01:43:55,929

assessment group originally is what it

2089

01:44:08,160 --> 01:44:00,719

came from so you know they're kind of

2090

01:44:09,870 --> 01:44:08,170

presupposing that it's a threat okay

2091

01:44:12,780 --> 01:44:09,880

great thank you so much I wanted to

2092

01:44:16,560 --> 01:44:12,790

until our listeners a little bit about a

2093

01:44:20,450 --> 01:44:16,570

Peter Davenport and that is a Peter

2094

01:44:24,750 --> 01:44:20,460

actually spent time and seeing the the

2095

01:44:27,510 --> 01:44:24,760

McMinnville Oregon a UFO festival that

2096

01:44:30,600 --> 01:44:27,520

McMinn immense hotel I had it there in

2097

01:44:32,610 --> 01:44:30,610

Oregon and he was there with a lot of

2098

01:44:36,510 --> 01:44:32,620

folks that we actually know very well a

2099

01:44:38,879 --> 01:44:36,520

Honda Rojas Karen Burrard Michael W Hall

2100

01:44:41,850 --> 01:44:38,889

and his son and we actually had the

2101

01:44:45,720 --> 01:44:41,860

privilege and a pleasure of being able

2102

01:44:49,050 --> 01:44:45,730

to interview all of those folks also we

2103

01:44:52,200 --> 01:44:49,060

were able to interview Phoenix MUFON the

2104

01:44:54,840 --> 01:44:52,210

the team that actually went over there

2105

01:44:56,729 --> 01:44:54,850

to go listen to Peter speak and all the

2106

01:44:59,100 --> 01:44:56,739

rest of the wonderful speakers that were

2107

01:45:00,660 --> 01:44:59,110

there at that conference but anyway

2108

01:45:02,340 --> 01:45:00,670

Peter Davenport has been the director of

2109

01:45:03,629 --> 01:45:02,350

the national UFO Reporting Center since

2110

01:45:05,939 --> 01:45:03,639

1994

2111

01:45:09,209 --> 01:45:05,949

Peter reports UFO sighting cases

2112

01:45:11,790 --> 01:45:09,219

regularly on the Jeff rents radio show

2113

01:45:14,160 --> 01:45:11,800

and other shows he presents lectures on

2114

01:45:16,020 --> 01:45:14,170

specific UFO cases most notably the

2115

01:45:18,330 --> 01:45:16,030

Phoenix lights sighting in addition to

2116

01:45:20,970 --> 01:45:18,340

being the director of the national UFO

2117

01:45:22,620 --> 01:45:20,980

Reporting Center Peter has served as a

2118

01:45:24,959 --> 01:45:22,630

director of investigations for the

2119

01:45:27,899 --> 01:45:24,969

Washington Center a chapter of the

2120

01:45:30,000 --> 01:45:27,909

mutual UFO network also he received his

2121

01:45:32,160 --> 01:45:30,010

undergraduate education at Stanford

2122

01:45:34,010 --> 01:45:32,170

University in California where he earned

2123

01:45:37,560 --> 01:45:34,020

a bachelor's degree in both Russian and

2124

01:45:40,709 --> 01:45:37,570

biology as well as a translators a

2125

01:45:42,720 --> 01:45:40,719

certificate in Russian translation his

2126  
01:45:44,129 --> 01:45:42,730  
graduate education was completed at the

2127  
01:45:47,070 --> 01:45:44,139  
University of Washington in Seattle

2128  
01:45:49,709 --> 01:45:47,080  
where he earned an MS degree in the

2129  
01:45:51,780 --> 01:45:49,719  
genetics and biochemistry of fish from

2130  
01:45:54,030 --> 01:45:51,790  
the college of fisheries as well as an

2131  
01:45:55,740 --> 01:45:54,040  
MBA degree in finance and international

2132  
01:45:58,760 --> 01:45:55,750  
business from the Graduate School of

2133  
01:46:01,379 --> 01:45:58,770  
Business not a lot of people know your

2134  
01:46:02,729 --> 01:46:01,389  
extensive background regarding education

2135  
01:46:04,750 --> 01:46:02,739  
Peter I think it's really important for

2136  
01:46:07,510 --> 01:46:04,760  
people to know that

2137  
01:46:10,210 --> 01:46:07,520  
thank you for reading that I'm not sure

2138  
01:46:13,120 --> 01:46:10,220

how much of any of what you've said has

2139

01:46:17,710 --> 01:46:13,130

to do with my work and ufology except in

2140

01:46:21,070 --> 01:46:17,720

the general sense but it's been a long

2141

01:46:24,730 --> 01:46:21,080

torturous past that has led me to being

2142

01:46:28,480 --> 01:46:24,740

a UFO investigator my my first sighting

2143

01:46:31,870 --> 01:46:28,490

was in I think July of 1954 I've talked

2144

01:46:36,730 --> 01:46:31,880

about it on Michael halls Michael W

2145

01:46:38,980 --> 01:46:36,740

halls program and elsewhere but thanks

2146

01:46:41,530 --> 01:46:38,990

for sharing that information with the

2147

01:46:43,000 --> 01:46:41,540

other people on the line and great Peter

2148

01:46:44,920 --> 01:46:43,010

thank you it was a pleasure and a

2149

01:46:46,630 --> 01:46:44,930

privilege having you on our show today

2150

01:46:49,590 --> 01:46:46,640

we certainly hope to have you on again

2151

01:46:52,480 --> 01:46:49,600

and also wanted to just think our

2152

01:46:54,940 --> 01:46:52,490

wonderful panelists who have spent their

2153

01:46:57,850 --> 01:46:54,950

lives to the UFO dedicated to the UFO

2154

01:46:59,200 --> 01:46:57,860

topic and we appreciate you very much

2155

01:47:04,440 --> 01:46:59,210

and we look forward to having you on the

2156

01:47:08,950 --> 01:47:06,850

this is Peter again I just want to

2157

01:47:11,890 --> 01:47:08,960

compliment all those people have been on

2158

01:47:15,250 --> 01:47:11,900

this on this program because it

2159

01:47:18,030 --> 01:47:15,260

represents a lot of experience and a lot

2160

01:47:21,760 --> 01:47:18,040

of competency in the field of ufology

2161

01:47:23,140 --> 01:47:21,770

UFO research all right in Frankel so

2162

01:47:25,480 --> 01:47:23,150

thank you very much for giving us a

2163

01:47:28,390 --> 01:47:25,490

forum to talk here thanks everybody I

2164

01:47:31,900 --> 01:47:28,400

appreciate it and are we good it's not

2165

01:47:33,490 --> 01:47:31,910

about it yes and we appreciate everybody

2166

01:47:34,990 --> 01:47:33,500

here so thank you if everybody wants to

2167

01:47:40,140 --> 01:47:35,000

chime in and say goodbye here's your

2168

01:47:42,580 --> 01:47:40,150

opportunity thank you I would like to I

2169

01:47:44,950 --> 01:47:42,590

just like to say to to both Peter and

2170

01:47:47,170 --> 01:47:44,960

Jen that you guys are the Giants on

2171

01:47:49,450 --> 01:47:47,180

whose shoulders many of us stand today

2172

01:47:51,760 --> 01:47:49,460

and I just really want to thank you for

2173

01:47:54,490 --> 01:47:51,770

all your efforts and your commitment and

2174

01:48:02,370 --> 01:47:54,500

diligence and hard work that's you're

2175

01:48:07,540 --> 01:48:04,930

well thanks everybody yeah thanks for

2176

01:48:10,180 --> 01:48:07,550

tuning in and we'll be back with another

2177

01:48:11,890 --> 01:48:10,190

show at some point down the road thanks

2178

01:48:14,470 --> 01:48:11,900

a lot enjoyed the rest of your weekend
