**ADMIRAL WILSON: "I HAVEN'T BEEN TO LAS VEGAS
SINCE 1979."**

**THE 1964 SOCORRO CASE REVISITED
AND A WHOLE LOT MORE!**

UFONN
SUNDAY

1
00:01:04,789 --> 00:00:32,800

[Music]

2
00:01:07,580 --> 00:01:04,799
and hello from Philadelphia Frank here

3
00:01:10,160 --> 00:01:07,590
with yet another episode of UFO news

4
00:01:12,410 --> 00:01:10,170
network Sunday it was a pretty good week

5
00:01:15,710 --> 00:01:12,420
for UFO news we're gonna be covering a

6
00:01:17,359 --> 00:01:15,720
few things obviously the top news when

7
00:01:20,120 --> 00:01:17,369
the President of the United States

8
00:01:21,859 --> 00:01:20,130
speaks about UFOs that we're all

9
00:01:24,800 --> 00:01:21,869
listening so what we've got Donald

10
00:01:26,990 --> 00:01:24,810
Trump's most recent comments about the

11
00:01:30,590 --> 00:01:27,000
UFO subject we're also going to be

12
00:01:35,029 --> 00:01:30,600
talking a little bit about a document

13
00:01:38,060 --> 00:01:35,039

that just came out today regarding crash

14

00:01:40,700 --> 00:01:38,070

retrievals and so on and so forth that

15

00:01:42,800 --> 00:01:40,710

doesn't look very compelling but it's

16

00:01:46,490 --> 00:01:42,810

always good to get that stuff out there

17

00:01:48,980 --> 00:01:46,500

and take a critical look at it also some

18

00:01:51,320 --> 00:01:48,990

very interesting news regarding the

19

00:01:54,499 --> 00:01:51,330

Wilson notes admiral Wilson himself

20

00:01:56,359 --> 00:01:54,509

going on the record about that and we'll

21

00:01:59,270 --> 00:01:56,369

take a look back at a case I happen to

22

00:02:03,109 --> 00:01:59,280

know a little bit about the Socorro case

23

00:02:06,800 --> 00:02:03,119

from 1964 that has been tied that is

24

00:02:09,590 --> 00:02:06,810

mentioned in the Wilson notes and also

25

00:02:14,509 --> 00:02:09,600

there was a recent presentation by a

26
00:02:17,150 --> 00:02:14,519
different researcher who left out some

27
00:02:19,130 --> 00:02:17,160
key details that certainly any

28
00:02:22,520 --> 00:02:19,140
researcher worth assault would have

29
00:02:26,380 --> 00:02:22,530
covered if they were covering the 64

30
00:02:28,699 --> 00:02:26,390
Socorro as a Maura case in detail

31
00:02:31,550 --> 00:02:28,709
certainly they would have had that and

32
00:02:33,410 --> 00:02:31,560
if you're doing a fair and proper and

33
00:02:35,810 --> 00:02:33,420
thorough presentation on it they

34
00:02:37,550 --> 00:02:35,820
certainly should have been mentioned but

35
00:02:40,120 --> 00:02:37,560
let's not beat around the bush let's go

36
00:02:43,009 --> 00:02:40,130
right to the president's comments

37
00:02:46,340 --> 00:02:43,019
Thursday night he was interviewed a a

38
00:02:49,340 --> 00:02:46,350

hard-hitting interview by his son Donald

39

00:02:52,340 --> 00:02:49,350

Trump jr. and they talked about a number

40

00:02:54,020 --> 00:02:52,350

of things but Donald Trump jr. is an

41

00:02:56,050 --> 00:02:54,030

interesting fellow he's done a fair

42

00:03:00,259 --> 00:02:56,060

amount of tweeting in the past about

43

00:03:03,740 --> 00:03:00,269

deep state conspiracy theories and so on

44

00:03:06,409 --> 00:03:03,750

and so forth and he expresses a great

45

00:03:09,740 --> 00:03:06,419

deal of enthusiasm on the subject of

46

00:03:11,059 --> 00:03:09,750

UFOs and Roswell and all that so he did

47

00:03:12,770 --> 00:03:11,069

ask his dad

48

00:03:14,780 --> 00:03:12,780

president that when they had this little

49

00:03:17,030 --> 00:03:14,790

sit-down interview it was streamed live

50

00:03:18,739 --> 00:03:17,040

on YouTube on Thursday and let's not

51
00:03:27,520 --> 00:03:18,749
beat around the bush let's get right to

52
00:03:32,959 --> 00:03:31,220
what's going on well let us know what's

53
00:03:36,649 --> 00:03:32,969
really going on so many people ask me

54
00:03:38,270 --> 00:03:36,659
that question is almost ridiculous but I

55
00:03:40,729 --> 00:03:38,280
got cute question but it's actually

56
00:03:43,129 --> 00:03:40,739
there are millions and millions of

57
00:03:45,709 --> 00:03:43,139
people that want to go there that want

58
00:03:47,089 --> 00:03:45,719
to see it I won't talk to you about what

59
00:03:49,490 --> 00:03:47,099
I know about it but it's very

60
00:03:51,409 --> 00:03:49,500
interesting but Roswell is a very

61
00:03:52,699 --> 00:03:51,419
interesting place with a lot of people

62
00:03:54,740 --> 00:03:52,709
that would like to know what's going on

63
00:03:57,649 --> 00:03:54,750

so you're saying you made declassifying

64

00:04:04,759 --> 00:03:57,659

you'll take it well I'll have to think

65

00:04:06,170 --> 00:04:04,769

about that one and you can see Trump but

66

00:04:07,939 --> 00:04:06,180

during the interview it gives the

67

00:04:11,089 --> 00:04:07,949

answers Roswell is a very interesting

68

00:04:13,429 --> 00:04:11,099

place he expresses that the opinion that

69

00:04:15,800 --> 00:04:13,439

he's learned a little bit about all this

70

00:04:17,420 --> 00:04:15,810

while he's been president and it is a

71

00:04:19,879 --> 00:04:17,430

little bit different than some of his

72

00:04:22,249 --> 00:04:19,889

earlier comments if we'd go back in to

73

00:04:24,140 --> 00:04:22,259

review things he said when asked about

74

00:04:26,120 --> 00:04:24,150

UFOs in the past it's not something he

75

00:04:27,469 --> 00:04:26,130

ever is a brought up to the best of my

76

00:04:30,399 --> 00:04:27,479

knowledge but that one of these been

77

00:04:34,310 --> 00:04:30,409

asked he does respond he does answer

78

00:04:37,129 --> 00:04:34,320

recently a interview with Reuters he

79

00:04:39,620 --> 00:04:37,139

said that it's a hell of a video he

80

00:04:42,499 --> 00:04:39,630

wonders if it's real right after the

81

00:04:47,950 --> 00:04:42,509

Navy oh yeah formally released videos

82

00:04:50,749 --> 00:04:47,960

from the Nimitz and Roosevelt cases and

83

00:04:52,550 --> 00:04:50,759

then going back a little bit in a couple

84

00:04:56,629 --> 00:04:52,560

interviews he did one with George

85

00:04:59,209 --> 00:04:56,639

Stephanopoulos a gaze not expressing a

86

00:05:01,820 --> 00:04:59,219

great deal of interest in it or a belief

87

00:05:04,399 --> 00:05:01,830

in it but he does support the pilot

88

00:05:07,129 --> 00:05:04,409

witnesses so that's a nice sort of

89

00:05:09,620 --> 00:05:07,139

non-committal position to take they're

90

00:05:11,270 --> 00:05:09,630

not not trashing the pilots but not

91

00:05:13,850 --> 00:05:11,280

saying he necessarily believes in the

92

00:05:17,450 --> 00:05:13,860

UFO stuff and then in an interview with

93

00:05:21,080 --> 00:05:17,460

Tucker Carlson says he's got an open

94

00:05:23,129 --> 00:05:21,090

mind again expresses confidence in the

95

00:05:25,739 --> 00:05:23,139

accounts of the pilots but it's

96

00:05:29,879 --> 00:05:25,749

not kind of non-committal and in the

97

00:05:31,499 --> 00:05:29,889

interview itself he the the Trump jr.

98

00:05:35,309 --> 00:05:31,509

has a big smile in his face when he's

99

00:05:36,929 --> 00:05:35,319

asking and President Trump it seems to

100

00:05:38,790 --> 00:05:36,939

you know has a little bit of a smirk on

101
00:05:41,760 --> 00:05:38,800
his face in this particular screengrab

102
00:05:44,070 --> 00:05:41,770
has his arms folded at one point I'm

103
00:05:46,830 --> 00:05:44,080
sure some people are going to be doing a

104
00:05:49,619 --> 00:05:46,840
body language analysis of Trump's

105
00:05:52,739 --> 00:05:49,629
answers the arms folding is he's not

106
00:05:53,760 --> 00:05:52,749
necessarily glad that his son asked him

107
00:05:55,170 --> 00:05:53,770
this question might have been the

108
00:05:57,510 --> 00:05:55,180
toughest question he got the entire

109
00:05:59,249 --> 00:05:57,520
interview he looks off to the side and

110
00:06:01,350 --> 00:05:59,259
kind of smiles he looks off to his right

111
00:06:04,679 --> 00:06:01,360
and at the very end there must be

112
00:06:06,719 --> 00:06:04,689
somebody off camera who also has an

113
00:06:09,420 --> 00:06:06,729

interest in this particular subject and

114

00:06:11,879 --> 00:06:09,430

he just sort of looks off well you got

115

00:06:14,790 --> 00:06:11,889

it and so I will see we'll see if it

116

00:06:16,499 --> 00:06:14,800

that if we do see is that the campaign

117

00:06:19,260 --> 00:06:16,509

wears on a lot of other things are going

118

00:06:22,679 --> 00:06:19,270

on in the world of course but the UFO

119

00:06:24,659 --> 00:06:22,689

subject that might pop up again and if

120

00:06:26,790 --> 00:06:24,669

he gets asked at least the at least he

121

00:06:28,439 --> 00:06:26,800

does answer so I would urge you any

122

00:06:32,070 --> 00:06:28,449

reporter and he journalist who has the

123

00:06:34,320 --> 00:06:32,080

opportunity to interview him to go ahead

124

00:06:36,450 --> 00:06:34,330

and ask that UFO question he said that

125

00:06:39,779 --> 00:06:36,460

it's at least the possibility he might

126

00:06:41,939 --> 00:06:39,789

be doing some declassifying of some UFO

127

00:06:44,159 --> 00:06:41,949

information so we'll see how all that

128

00:06:45,779 --> 00:06:44,169

goes I'm not holding my breath but you

129

00:06:48,059 --> 00:06:45,789

never know a lot of crazy things have

130

00:06:54,329 --> 00:06:48,069

happened especially over the last few

131

00:06:58,050 --> 00:06:54,339

months so we will see so earlier today

132

00:07:00,659 --> 00:06:58,060

over on Twitter this particular document

133

00:07:02,689 --> 00:07:00,669

is a being a floated around it's getting

134

00:07:06,389 --> 00:07:02,699

at passed around on Facebook as well

135

00:07:09,719 --> 00:07:06,399

Danny Silva over at Silva record calm as

136

00:07:12,119 --> 00:07:09,729

written up a little bit about it and

137

00:07:13,619 --> 00:07:12,129

also I posted it over there so it's

138

00:07:15,510 --> 00:07:13,629

around you should be able to find it I

139

00:07:17,790 --> 00:07:15,520

might even upload it to the Facebook

140

00:07:21,029 --> 00:07:17,800

group but this is one of those documents

141

00:07:23,309 --> 00:07:21,039

that falls apart pretty quickly I think

142

00:07:28,399 --> 00:07:23,319

most of them do these faked up documents

143

00:07:30,749 --> 00:07:28,409

first off this you know if an mj-12

144

00:07:33,189 --> 00:07:30,759

organization in fact does exist that I

145

00:07:35,290 --> 00:07:33,199

have good reason to think that it does

146

00:07:36,969 --> 00:07:35,300

yeah these documents are not going to

147

00:07:39,850 --> 00:07:36,979

get out this type of thing is not going

148

00:07:41,920 --> 00:07:39,860

to be put into writing but here that the

149

00:07:44,230 --> 00:07:41,930

basic documents but just the fact that

150

00:07:46,719 --> 00:07:44,240

it's out is a bit of a red flag to begin

151
00:07:49,209 --> 00:07:46,729
with but then there you look at some of

152
00:07:51,219 --> 00:07:49,219
the the details on this there are a

153
00:07:53,860 --> 00:07:51,229
number of misspellings that people were

154
00:07:56,679 --> 00:07:53,870
able to find pretty quickly and also

155
00:07:58,540 --> 00:07:56,689
this one here that jumped out at me look

156
00:08:00,939 --> 00:07:58,550
at that the bottom sentence there if you

157
00:08:04,209 --> 00:08:00,949
can we also believe the Soviets have

158
00:08:07,329 --> 00:08:04,219
calculated that u.s. ECM capabilities

159
00:08:10,689 --> 00:08:07,339
are on a level similar to theirs and are

160
00:08:12,790 --> 00:08:10,699
at parity and of course parity would not

161
00:08:17,649 --> 00:08:12,800
be the right word to use there it would

162
00:08:19,809 --> 00:08:17,659
be parity P AR ity rather than parity

163
00:08:22,089 --> 00:08:19,819

and of course a parody is a spoof of a

164

00:08:23,800 --> 00:08:22,099

bit of a put-on and if you look

165

00:08:25,480 --> 00:08:23,810

carefully at these kind of faked up docs

166

00:08:27,959 --> 00:08:25,490

say you do see that kind of thing often

167

00:08:31,839 --> 00:08:27,969

these little jokes these little asides

168

00:08:34,449 --> 00:08:31,849

sometimes sort of inside baseball digs

169

00:08:37,899 --> 00:08:34,459

at individuals that we saw that in the

170

00:08:40,329 --> 00:08:37,909

Wilson notes but we're saying this here

171

00:08:46,750 --> 00:08:40,339

and this is a real red flag for this

172

00:08:49,389 --> 00:08:46,760

particular document just nobody's really

173

00:08:52,210 --> 00:08:49,399

that I've seen that when they've taken a

174

00:08:54,880 --> 00:08:52,220

look at it is that really too jazzed up

175

00:08:56,530 --> 00:08:54,890

about this one but it is out there it is

176
00:08:58,449 --> 00:08:56,540
floating around and that has been

177
00:09:00,120 --> 00:08:58,459
written up I don't think there's too

178
00:09:02,710 --> 00:09:00,130
much to it but it's interesting that

179
00:09:05,079 --> 00:09:02,720
this this kind of thing is getting

180
00:09:07,990 --> 00:09:05,089
passed around we might see more this

181
00:09:11,290 --> 00:09:08,000
type of thing as the year goes on with

182
00:09:15,480 --> 00:09:11,300
these types of fake docs but this one's

183
00:09:18,910 --> 00:09:15,490
out today and this one is not really

184
00:09:21,309 --> 00:09:18,920
passing the smell test it's getting

185
00:09:23,410 --> 00:09:21,319
picked apart pretty thoroughly and does

186
00:09:26,559 --> 00:09:23,420
not seem at all accurate another point

187
00:09:30,340 --> 00:09:26,569
that was brought up was the top-secret

188
00:09:33,000 --> 00:09:30,350

Umbra designation which would not have

189

00:09:36,129 --> 00:09:33,010

come into usage until after these

190

00:09:38,920 --> 00:09:36,139

documents were purportedly concocted or

191

00:09:40,269 --> 00:09:38,930

put together if the real would show you

192

00:09:44,470 --> 00:09:40,279

know obviously I don't think that they

193

00:09:46,249 --> 00:09:44,480

are also apparently a note from Richard

194

00:09:49,340 --> 00:09:46,259

Doty was not exactly the best saw

195

00:09:51,739 --> 00:09:49,350

as says that these notes were typed up

196

00:09:55,639 --> 00:09:51,749

from an original well yeah I don't know

197

00:09:57,409 --> 00:09:55,649

why you would do that unless you know

198

00:09:58,969 --> 00:09:57,419

why why would somebody even do that if

199

00:10:01,400 --> 00:09:58,979

you've got copies of the originals why

200

00:10:06,079 --> 00:10:01,410

not put out the original so this one

201
00:10:07,669 --> 00:10:06,089
does not pass the smell test and but

202
00:10:10,759 --> 00:10:07,679
it's out there and it's it's worth

203
00:10:14,329 --> 00:10:10,769
talking about any time a leaked document

204
00:10:17,239 --> 00:10:14,339
comes out that that in itself should be

205
00:10:19,369 --> 00:10:17,249
a bit of a red flag and whatever

206
00:10:22,669 --> 00:10:19,379
material is in there should be looked at

207
00:10:24,590 --> 00:10:22,679
very cautiously before getting behind it

208
00:10:28,210 --> 00:10:24,600
and claiming it's the leak of the

209
00:10:32,960 --> 00:10:28,220
century or any such thing like that

210
00:10:35,179 --> 00:10:32,970
and this past Monday finally we have an

211
00:10:39,710 --> 00:10:35,189
on-the-record comment from Admiral

212
00:10:42,169 --> 00:10:39,720
Thomas Wilson retired now living in

213
00:10:44,329 --> 00:10:42,179

retirement for about 18 years now I was

214

00:10:48,229 --> 00:10:44,339

surprised to find out that Wilson's only

215

00:10:51,139 --> 00:10:48,239

74 years old so and apparently yes still

216

00:10:53,299 --> 00:10:51,149

a pretty sharp guy and that also means

217

00:10:54,979 --> 00:10:53,309

he retired at 56 which is pretty young

218

00:10:57,829 --> 00:10:54,989

it's a pretty good work if you can get

219

00:11:00,529 --> 00:10:57,839

it so good for him but anyway Billy Cox

220

00:11:03,429 --> 00:11:00,539

from the d'void blog was able to get

221

00:11:07,309 --> 00:11:03,439

hold of Wilson this past week and

222

00:11:10,400 --> 00:11:07,319

basically he denied any kind of

223

00:11:16,789 --> 00:11:10,410

follow-up to the initial Greer Mitchel

224

00:11:21,439 --> 00:11:16,799

and Miller meeting and finding out more

225

00:11:23,749 --> 00:11:21,449

about the unacknowledged special access

226

00:11:27,349 --> 00:11:23,759

programs but be that as it may gave a

227

00:11:30,229 --> 00:11:27,359

pretty firm denial to these notes and

228

00:11:33,799 --> 00:11:30,239

that he ever had anything to do with

229

00:11:35,899 --> 00:11:33,809

Eric Davis so he said basically quoting

230

00:11:38,559 --> 00:11:35,909

here from Cox's story I'm not saying

231

00:11:41,090 --> 00:11:38,569

that someone somewhere I never met

232

00:11:42,919 --> 00:11:41,100

sometimes somewhere I never met Davis

233

00:11:44,899 --> 00:11:42,929

but I certainly don't know him I don't

234

00:11:46,939 --> 00:11:44,909

remember him I definitely did not sit

235

00:11:49,849 --> 00:11:46,949

with him in a car for an hour in Las

236

00:11:51,919 --> 00:11:49,859

Vegas you may also see in those notes

237

00:11:54,470 --> 00:11:51,929

where I came with two other naval

238

00:11:56,090 --> 00:11:54,480

officers a lieutenant and a lieutenant

239

00:11:58,429 --> 00:11:56,100

commander and a petty officer was

240

00:11:59,519 --> 00:11:58,439

driving the car I was not even in the

241

00:12:02,100 --> 00:11:59,529

Navy then and the name

242

00:12:05,040 --> 00:12:02,110

was certainly not ferrying me around in

243

00:12:07,379 --> 00:12:05,050

a car at that point those notes are

244

00:12:09,090 --> 00:12:07,389

really detailed it's like somebody wrote

245

00:12:11,460 --> 00:12:09,100

a fiction piece he's right about that

246

00:12:12,660 --> 00:12:11,470

we'll get into some of those details a

247

00:12:14,999 --> 00:12:12,670

little bit more getting back to the

248

00:12:17,519 --> 00:12:15,009

quote here but it never happened trust

249

00:12:19,860 --> 00:12:17,529

me there are so many things in those

250

00:12:21,720 --> 00:12:19,870

notes that are demonstrably inaccurate

251

00:12:24,420 --> 00:12:21,730

certainly I would like to know a little

252

00:12:26,189 --> 00:12:24,430

bit more about that which which points

253

00:12:28,530 --> 00:12:26,199

say he considers as a demonstrably

254

00:12:30,119 --> 00:12:28,540

inaccurate and I don't know how I could

255

00:12:33,540 --> 00:12:30,129

prove it but I haven't been to Las Vegas

256

00:12:35,100 --> 00:12:33,550

since 1979 at 80 and right from day one

257

00:12:36,749 --> 00:12:35,110

that was one of the points that I was

258

00:12:40,679 --> 00:12:36,759

bringing out if you couldn't put the

259

00:12:43,889 --> 00:12:40,689

Wilson in Las Vegas on the the date of

260

00:12:47,759 --> 00:12:43,899

the purported meeting then these notes

261

00:12:49,079 --> 00:12:47,769

have obviously been fictionalized it's a

262

00:12:51,840 --> 00:12:49,089

piece of fan fiction

263

00:12:54,559 --> 00:12:51,850

did not happen and I still believe that

264

00:12:57,269 --> 00:12:54,569

is the case and that's a pretty firm

265

00:13:01,259 --> 00:12:57,279

far-reaching denial I haven't even been

266

00:13:03,150 --> 00:13:01,269

to Las Vegas since 1979 80 I can hold

267

00:13:05,369 --> 00:13:03,160

out that some of his denials regarding

268

00:13:08,129 --> 00:13:05,379

any follow-up he might have done to that

269

00:13:12,809 --> 00:13:08,139

Greer Mitchell meeting in the Pentagon

270

00:13:15,090 --> 00:13:12,819

all those years ago didn't happen that

271

00:13:17,490 --> 00:13:15,100

that I'm not obviously quite so sure at

272

00:13:19,530 --> 00:13:17,500

that I think that I'm a little bit more

273

00:13:22,139 --> 00:13:19,540

open-minded on that but as far as these

274

00:13:23,999 --> 00:13:22,149

notes being an accurate representation

275

00:13:26,579 --> 00:13:24,009

of a follow-up he might have had with

276

00:13:29,280 --> 00:13:26,589

Eric Davis at that point back in 2002

277

00:13:31,079 --> 00:13:29,290

when that Davis was living in Las Vegas

278

00:13:33,840 --> 00:13:31,089

so he would have been there no doubt

279

00:13:36,420 --> 00:13:33,850

about that no surprise there and was

280

00:13:39,179 --> 00:13:36,430

still working for Robert Bigelow's knids

281

00:13:41,699 --> 00:13:39,189

organization the National Institute for

282

00:13:43,110 --> 00:13:41,709

discovery science that would that part

283

00:13:45,179 --> 00:13:43,120

wouldn't be a shock at all of course

284

00:13:48,480 --> 00:13:45,189

Davis was there that no surprise on that

285

00:13:50,579 --> 00:13:48,490

but that Wilson was there you still have

286

00:13:53,009 --> 00:13:50,589

to prove that Wilson was in town on that

287

00:13:54,749 --> 00:13:53,019

particular day and even changing some

288

00:13:59,400 --> 00:13:54,759

dates around is a little bit problematic

289

00:14:01,949 --> 00:13:59,410

and all I get to that covering some old

290

00:14:06,840 --> 00:14:01,959

ground here purported in the notes

291

00:14:09,660 --> 00:14:06,850

Wilson says rich and Doug you Davis know

292

00:14:12,090 --> 00:14:09,670

them a Pheo members told about how new

293

00:14:13,150 --> 00:14:12,100

Las Vegas chapter needed guest speakers

294

00:14:16,809 --> 00:14:13,160

for chapter public

295

00:14:18,970 --> 00:14:16,819

menu and so on and so forth and rich

296

00:14:21,430 --> 00:14:18,980

dunk I'm not so sure about bur rich I

297

00:14:24,939 --> 00:14:21,440

believe is almost certainly a gentleman

298

00:14:27,759 --> 00:14:24,949

named Richard Kohn who did start the Las

299

00:14:29,829 --> 00:14:27,769

Vegas a Pheo chapter and in fact they

300

00:14:35,670 --> 00:14:29,839

had their first meeting in October of

301
00:14:39,879 --> 00:14:35,680
that that particular year was 2002 and

302
00:14:42,569 --> 00:14:39,889
that that that demonstrates to me that

303
00:14:46,600 --> 00:14:42,579
yeah these these notes were not

304
00:14:48,280 --> 00:14:46,610
concocted by uh some armchair individual

305
00:14:50,710 --> 00:14:48,290
these notes were put together by

306
00:14:54,519 --> 00:14:50,720
somebody who had some inside information

307
00:14:56,829 --> 00:14:54,529
somebody who almost certainly got the

308
00:14:59,319 --> 00:14:56,839
feo newsletter the periscope and the

309
00:15:00,879 --> 00:14:59,329
knew that that was a new chapter and put

310
00:15:02,199 --> 00:15:00,889
that little piece of accurate

311
00:15:03,369 --> 00:15:02,209
information now there's no question

312
00:15:05,889 --> 00:15:03,379
about that

313
00:15:08,290 --> 00:15:05,899

into the scenario plug that in there and

314

00:15:11,769 --> 00:15:08,300

I got run down it does check out that

315

00:15:13,749 --> 00:15:11,779

proves to me that the the person who put

316

00:15:15,939 --> 00:15:13,759

these notes together does know what

317

00:15:17,050 --> 00:15:15,949

they're talking about and it's very

318

00:15:20,230 --> 00:15:17,060

interesting to me that the the

319

00:15:21,939 --> 00:15:20,240

proponents for these notes and they they

320

00:15:23,650 --> 00:15:21,949

won't talk about the fact that Eric

321

00:15:27,129 --> 00:15:23,660

Davis was a member of a Pheo they won't

322

00:15:29,379 --> 00:15:27,139

talk about the connection between Davis

323

00:15:31,749 --> 00:15:29,389

and is a longtime employee or how put

324

00:15:34,840 --> 00:15:31,759

off and also the fact that that put off

325

00:15:37,540 --> 00:15:34,850

employed the noted disinformation artist

326

00:15:38,889 --> 00:15:37,550

known as Richard Doty they they don't

327

00:15:40,360 --> 00:15:38,899

want to talk about that sort of thing

328

00:15:43,720 --> 00:15:40,370

and they don't want to mention the fact

329

00:15:46,210 --> 00:15:43,730

that this is actually the only piece of

330

00:15:47,800 --> 00:15:46,220

evidence that I'm aware of that that

331

00:15:50,860 --> 00:15:47,810

actually checks out as far as the

332

00:15:53,139 --> 00:15:50,870

general scenario surrounding Wilson

333

00:15:55,059 --> 00:15:53,149

being in Las Vegas and of course we were

334

00:15:57,999 --> 00:15:55,069

able to turn up some information a

335

00:16:02,019 --> 00:15:58,009

direct quote from John Alexander that

336

00:16:03,790 --> 00:16:02,029

Wilson played no role and that did not

337

00:16:06,370 --> 00:16:03,800

although it doesn't specifically state

338

00:16:09,910 --> 00:16:06,380

that in the notes that the Wilson played

339

00:16:13,119 --> 00:16:09,920

no role never spoken to any kind of a

340

00:16:15,249 --> 00:16:13,129

Pheo a meeting didn't play any rule and

341

00:16:16,960 --> 00:16:15,259

not founding the organization again it

342

00:16:18,910 --> 00:16:16,970

doesn't specify that but these

343

00:16:21,939 --> 00:16:18,920

individuals are the one who I believe is

344

00:16:25,090 --> 00:16:21,949

a rich Cohen and also this fellow Doug

345

00:16:26,200 --> 00:16:25,100

they did per the notes that facilitate

346

00:16:28,660 --> 00:16:26,210

that Wilson's

347

00:16:30,190 --> 00:16:28,670

to the Vegas area and you would think

348

00:16:33,430 --> 00:16:30,200

that if there were nice enough to do

349

00:16:35,769 --> 00:16:33,440

that Wilson might show up and say a few

350

00:16:38,910 --> 00:16:35,779

things at their initial meeting that did

351

00:16:41,440 --> 00:16:38,920

not happen it's not proof that Wilson

352

00:16:44,740 --> 00:16:41,450

wasn't in Las Vegas on that particular

353

00:16:46,720 --> 00:16:44,750

day but again let's say that he was in

354

00:16:48,639 --> 00:16:46,730

Las Vegas on that particular day and he

355

00:16:50,680 --> 00:16:48,649

did speak there well they would at least

356

00:16:52,540 --> 00:16:50,690

the proponents of the notes would at

357

00:16:54,070 --> 00:16:52,550

least be able to say well he was there

358

00:16:56,590 --> 00:16:54,080

so that that's some really good evidence

359

00:16:59,350 --> 00:16:56,600

and it would be really good evidence and

360

00:17:02,650 --> 00:16:59,360

very early on I actually suspected that

361

00:17:05,049 --> 00:17:02,660

it might be provable that Wilson was in

362

00:17:06,970 --> 00:17:05,059

that Vegas on that particular day but

363

00:17:08,470 --> 00:17:06,980

his denial is pretty far-reaching he's

364

00:17:11,799 --> 00:17:08,480

not just saying I wasn't there that date

365

00:17:15,790 --> 00:17:11,809

it's Hughes saying I literally haven't

366

00:17:17,679 --> 00:17:15,800

been to Las Vegas in 40 years and he

367

00:17:19,780 --> 00:17:17,689

said he wasn't in Las Vegas at that

368

00:17:21,699 --> 00:17:19,790

particular time so again now it's up to

369

00:17:24,130 --> 00:17:21,709

the product people to to come up with

370

00:17:27,069 --> 00:17:24,140

some evidence that Wilson was there

371

00:17:31,330 --> 00:17:27,079

otherwise you know these these notes are

372

00:17:33,910 --> 00:17:31,340

a bit of a farce the piece of evidence

373

00:17:36,820 --> 00:17:33,920

that apparently is linking these

374

00:17:39,790 --> 00:17:36,830

documents coming from the estate of

375

00:17:43,480 --> 00:17:39,800

Edgar Mitchell is really just this

376

00:17:45,490 --> 00:17:43,490

particular letter that a fairly standard

377

00:17:49,230 --> 00:17:45,500

knids Lou's letter this is again

378

00:17:51,910 --> 00:17:49,240

material I've spoken to two before and

379

00:17:54,280 --> 00:17:51,920

what you see here is an interesting

380

00:17:56,320 --> 00:17:54,290

letter and we've had this looked at and

381

00:17:57,970 --> 00:17:56,330

yeah it's a fairly standard NIN's

382

00:18:00,700 --> 00:17:57,980

newsletter that went out who knows how

383

00:18:04,780 --> 00:18:00,710

often maybe monthly baby quarterly it

384

00:18:07,510 --> 00:18:04,790

does have Mitchell's it was his accurate

385

00:18:10,570 --> 00:18:07,520

address back in that time frame he did

386

00:18:15,280 --> 00:18:10,580

live there but that is not necessarily

387

00:18:18,120 --> 00:18:15,290

proof that that that these documents

388

00:18:20,740 --> 00:18:18,130

came from Mitchell again I think they're

389

00:18:24,190 --> 00:18:20,750

sort of that jumping to conclusions of

390

00:18:26,950 --> 00:18:24,200

believing a scenario the proponents are

391

00:18:29,799 --> 00:18:26,960

saying yeah these documents came from

392

00:18:32,230 --> 00:18:29,809

Mitchell no guarantee of that any any

393

00:18:33,760 --> 00:18:32,240

anybody could have really found out

394

00:18:37,510 --> 00:18:33,770

about what the Edgar Mitchell's home

395

00:18:39,520 --> 00:18:37,520

address is and actually gone in and sort

396

00:18:41,830 --> 00:18:39,530

of plugged that in there

397

00:18:43,990 --> 00:18:41,840

this mids newsletter was a fairly

398

00:18:46,450 --> 00:18:44,000

standard newsletter that would have gone

399

00:18:48,880 --> 00:18:46,460

out to anybody from needs but it also

400

00:18:51,460 --> 00:18:48,890

demonstrates that again it would be an

401
00:18:53,020 --> 00:18:51,470
insider who would have had to put this

402
00:18:55,360 --> 00:18:53,030
material together somebody who had

403
00:18:57,700 --> 00:18:55,370
access to this material and that would

404
00:18:59,770 --> 00:18:57,710
have been able to plug in Mitchell's

405
00:19:01,150 --> 00:18:59,780
name and address into this this might be

406
00:19:03,130 --> 00:19:01,160
accurate this might be a fully accurate

407
00:19:04,990 --> 00:19:03,140
document but when you've got so much

408
00:19:07,360 --> 00:19:05,000
that's corrupted in the other documents

409
00:19:10,540 --> 00:19:07,370
that are part of this package that you

410
00:19:16,090 --> 00:19:10,550
have to be skeptical of everything in my

411
00:19:19,090 --> 00:19:16,100
view and here are some other points here

412
00:19:21,220 --> 00:19:19,100
let's see some of these scenario I'm

413
00:19:23,530 --> 00:19:21,230

going to skip over that part right now

414

00:19:26,130 --> 00:19:23,540

as far as the original meeting goes this

415

00:19:31,780 --> 00:19:26,140

is a different case I'm not necessarily

416

00:19:34,090 --> 00:19:31,790

buying the denials by you know by

417

00:19:37,270 --> 00:19:34,100

Admiral s'en and Commander Miller who

418

00:19:40,720 --> 00:19:37,280

made them to both me and my co-host

419

00:19:44,410 --> 00:19:40,730

chant directly basically what I base

420

00:19:47,350 --> 00:19:44,420

that suspicion on is of course the

421

00:19:51,670 --> 00:19:47,360

hubbub regarding a Greer meeting set up

422

00:19:55,570 --> 00:19:51,680

by John Peterson with then CIA director

423

00:19:58,120 --> 00:19:55,580

james Woolsey and from talking to some

424

00:19:59,710 --> 00:19:58,130

people including dr. Joseph Berks who

425

00:20:01,660 --> 00:19:59,720

was involved in setting that up and not

426

00:20:04,810 --> 00:20:01,670

knowing a little bit more about that

427

00:20:07,660 --> 00:20:04,820

John Peterson's background who was on

428

00:20:13,600 --> 00:20:07,670

the board of the National Bigelow's

429

00:20:16,720 --> 00:20:13,610

needs organizations that this my my

430

00:20:19,300 --> 00:20:16,730

needle leans a little bit more towards

431

00:20:21,190 --> 00:20:19,310

Greer in terms of being accurate as far

432

00:20:23,680 --> 00:20:21,200

as that goes and that's why you know I'm

433

00:20:27,100 --> 00:20:23,690

a still uh staying pretty open-minded as

434

00:20:28,540 --> 00:20:27,110

far as any follow up that the Greer and

435

00:20:30,850 --> 00:20:28,550

Mitchell may have heard about either

436

00:20:33,040 --> 00:20:30,860

from Wilson directly or from Miller a

437

00:20:35,920 --> 00:20:33,050

little bit more open-minded on that the

438

00:20:37,470 --> 00:20:35,930

notes though not so much so that's where

439

00:20:39,700 --> 00:20:37,480

that's at now and I keep hearing that

440

00:20:41,770 --> 00:20:39,710

yeah there's gonna be this big

441

00:20:43,000 --> 00:20:41,780

confirmation that the notes are going to

442

00:20:45,160 --> 00:20:43,010

be proved and of course I've been

443

00:20:48,430 --> 00:20:45,170

hearing that kind of thing for a year

444

00:20:50,680 --> 00:20:48,440

now and well we'll say and again this is

445

00:20:51,880 --> 00:20:50,690

a pretty far-reaching and detailed

446

00:20:55,500 --> 00:20:51,890

denial

447

00:20:58,870 --> 00:20:55,510

from from admiral wilson noticed that

448

00:21:01,260 --> 00:20:58,880

over the last week the great proponent

449

00:21:03,490 --> 00:21:01,270

the highest profile proponent of the

450

00:21:05,950 --> 00:21:03,500

veracity of these notes has come from

451
00:21:08,740 --> 00:21:05,960
Richard Dolan and he has remained

452
00:21:10,720 --> 00:21:08,750
completely silent on the issue and again

453
00:21:13,030 --> 00:21:10,730
I'm not crowing too much all I'm saying

454
00:21:16,000 --> 00:21:13,040
is this is this is a pretty damning

455
00:21:18,340 --> 00:21:16,010
piece regarding the notes not so much

456
00:21:20,920 --> 00:21:18,350
about the meeting itself the original

457
00:21:23,050 --> 00:21:20,930
meeting of the Pentagon meeting just to

458
00:21:27,640 --> 00:21:23,060
be clear here that pentagon meeting

459
00:21:30,940 --> 00:21:27,650
involving Wilson Mitchel Greer and

460
00:21:33,520 --> 00:21:30,950
Miller so that's the end of that for now

461
00:21:37,510 --> 00:21:33,530
and as any updates come in you know

462
00:21:39,730 --> 00:21:37,520
whichever way the whichever way the the

463
00:21:42,220 --> 00:21:39,740

evidence goes will report it will take a

464

00:21:44,260 --> 00:21:42,230

close look at it and give it a fair

465

00:21:46,240 --> 00:21:44,270

shake unlike some people who went

466

00:21:48,070 --> 00:21:46,250

hog-wild and claimed that this was the

467

00:21:51,100 --> 00:21:48,080

leak of the century and so on and so

468

00:21:53,470 --> 00:21:51,110

forth well you know they've been that

469

00:21:55,060 --> 00:21:53,480

the the silence is deafening from that

470

00:21:59,140 --> 00:21:55,070

end of things so we'll see what happens

471

00:22:00,790 --> 00:21:59,150

with all that and anything else on this

472

00:22:02,740 --> 00:22:00,800

let me think let me think do I want to

473

00:22:04,420 --> 00:22:02,750

say anything else uh well if I think

474

00:22:09,100 --> 00:22:04,430

about it I'll plug it in later on in the

475

00:22:11,220 --> 00:22:09,110

show off to the next topic now finally

476

00:22:14,800 --> 00:22:11,230

I'm gonna talk a little bit about the

477

00:22:17,650 --> 00:22:14,810

1964 Socorro case this is a case that I

478

00:22:20,380 --> 00:22:17,660

got involved with way back the very

479

00:22:23,560 --> 00:22:20,390

first year I was seriously researching

480

00:22:28,120 --> 00:22:23,570

UFOs back in 2009 was somewhat

481

00:22:31,780 --> 00:22:28,130

accidental just looking around basically

482

00:22:33,490 --> 00:22:31,790

I had contacted the UFO researcher Tony

483

00:22:36,910 --> 00:22:33,500

Berg Elia and basically I wrote him a

484

00:22:39,220 --> 00:22:36,920

fan letter and he had asked me you know

485

00:22:41,710 --> 00:22:39,230

if you ever happened to find anything

486

00:22:44,020 --> 00:22:41,720

regarding an individual name that Clyde

487

00:22:46,300 --> 00:22:44,030

Williams who was running the Battelle

488

00:22:48,730 --> 00:22:46,310

Memorial Institute in the days following

489

00:22:50,620 --> 00:22:48,740

the Roswell crash if I ever came across

490

00:22:53,170 --> 00:22:50,630

anything regarding him to let him know

491

00:22:54,310 --> 00:22:53,180

well I did I started poking around I

492

00:22:57,430 --> 00:22:54,320

didn't find anything that directly

493

00:23:00,100 --> 00:22:57,440

related to UFOs but what I did find was

494

00:23:02,590 --> 00:23:00,110

the fact that a very interesting guy guy

495

00:23:03,389 --> 00:23:02,600

while I'm a big fan of two-time Nobel

496

00:23:07,070 --> 00:23:03,399

Prize winner

497

00:23:09,239 --> 00:23:07,080

and scientist Linus Pauling had

498

00:23:11,969 --> 00:23:09,249

basically I guess stopped off at

499

00:23:13,320 --> 00:23:11,979

Battelle and had enjoyed his day there

500

00:23:15,450 --> 00:23:13,330

and now they had that he had not

501
00:23:17,879 --> 00:23:15,460
Williams had corresponded a bit and I

502
00:23:19,979 --> 00:23:17,889
decided to take a look and see excuse me

503
00:23:21,989 --> 00:23:19,989
decided to take a look and see if there

504
00:23:24,299 --> 00:23:21,999
was anything online related to Linus

505
00:23:25,709 --> 00:23:24,309
Pauling and UFOs well sure enough there

506
00:23:28,169 --> 00:23:25,719
was as it turned out

507
00:23:30,839 --> 00:23:28,179
appalling after he died donated all his

508
00:23:33,989 --> 00:23:30,849
papers to Oregon State University and in

509
00:23:36,599 --> 00:23:33,999
fact there is a website dedicated to

510
00:23:38,180 --> 00:23:36,609
that collection online and at the

511
00:23:41,759 --> 00:23:38,190
website there was an article about

512
00:23:45,060 --> 00:23:41,769
Pauling's interest in UFOs and the main

513
00:23:48,359 --> 00:23:45,070

piece that I found on the site was an

514

00:23:50,549 --> 00:23:48,369

outline of his regarding a potential UFO

515

00:23:53,849 --> 00:23:50,559

study seems like it's quite possible

516

00:23:55,950 --> 00:23:53,859

that he may have been asked to join the

517

00:23:57,719 --> 00:23:55,960

Condon committee he did have a

518

00:23:59,430 --> 00:23:57,729

relationship with Edward Condon who

519

00:24:01,859 --> 00:23:59,440

headed up that committee for whatever

520

00:24:04,289 --> 00:24:01,869

reason that never ended up taking place

521

00:24:06,419 --> 00:24:04,299

but regardless it looked like he had put

522

00:24:08,430 --> 00:24:06,429

at least some thought into a UFO study

523

00:24:10,769 --> 00:24:08,440

outlined some notes it was a really

524

00:24:13,950 --> 00:24:10,779

interesting piece and just like back in

525

00:24:15,989 --> 00:24:13,960

2009 just like it is today what you have

526

00:24:17,999 --> 00:24:15,999

is people always saying yeah why don't

527

00:24:20,459 --> 00:24:18,009

more scientists get interested in UFOs

528

00:24:22,680 --> 00:24:20,469

well this was a pretty good outline now

529

00:24:25,469 --> 00:24:22,690

I've gone over it there's our article

530

00:24:27,869 --> 00:24:25,479

about it over at and my website that

531

00:24:30,749 --> 00:24:27,879

over at the UFO partisan blog spot.com

532

00:24:32,519 --> 00:24:30,759

you can read about all that there but

533

00:24:36,029 --> 00:24:32,529

also in the archive was apparently

534

00:24:40,039 --> 00:24:36,039

appalling did contact sterling Colgate

535

00:24:42,060 --> 00:24:40,049

who was the head of the president of the

536

00:24:44,249 --> 00:24:42,070

university there that New Mexico

537

00:24:47,039 --> 00:24:44,259

Institute of mining and technology today

538

00:24:48,839 --> 00:24:47,049

it's known as New Mexico Tech Pauling

539

00:24:51,239 --> 00:24:48,849

asked him about this case the Lonnie

540

00:24:54,479 --> 00:24:51,249

Zamora case this is a very interesting

541

00:24:58,289 --> 00:24:54,489

case I got a lot of notoriety in its day

542

00:24:59,729 --> 00:24:58,299

these days maybe not so much but back in

543

00:25:02,159 --> 00:24:59,739

the day it was certainly a big case in

544

00:25:05,129 --> 00:25:02,169

still an interesting case so basically

545

00:25:06,839 --> 00:25:05,139

Pauling had asked Colgate what he knew

546

00:25:09,329 --> 00:25:06,849

about the case and Colgate respondents

547

00:25:12,899 --> 00:25:09,339

saying it was basically a student hoax

548

00:25:15,420 --> 00:25:12,909

and Tony saw that he followed up on that

549

00:25:18,300 --> 00:25:15,430

I thought that the Pauling outline

550

00:25:19,670 --> 00:25:18,310

of the UFO study was a lot more

551

00:25:22,260 --> 00:25:19,680

interesting and what with that and

552

00:25:25,050 --> 00:25:22,270

basically I thought well kind of good

553

00:25:27,090 --> 00:25:25,060

luck you know this was a student hoax

554

00:25:30,750 --> 00:25:27,100

how did they how did they possibly pull

555

00:25:32,550 --> 00:25:30,760

that off well Tony you dug in a little

556

00:25:34,260 --> 00:25:32,560

bitty contact and colgate it was still

557

00:25:36,330 --> 00:25:34,270

alive back at that time it called you at

558

00:25:39,180 --> 00:25:36,340

home yeah it was it was a student hoax

559

00:25:41,910 --> 00:25:39,190

and you know it was a relatively simple

560

00:25:46,170 --> 00:25:41,920

it you know it was a a balloon that they

561

00:25:47,580 --> 00:25:46,180

set off and then it develops some hubbub

562

00:25:49,260 --> 00:25:47,590

and I got more interested because

563

00:25:51,060 --> 00:25:49,270

initially I wasn't that interested in it

564

00:25:52,800 --> 00:25:51,070

which is why Tony picked up the ball and

565

00:25:55,770 --> 00:25:52,810

ran with it and of course I'm glad that

566

00:25:59,070 --> 00:25:55,780

he did but what actually what actually

567

00:26:01,080 --> 00:25:59,080

happened was this hubbub got me to want

568

00:26:03,210 --> 00:26:01,090

to take a closer look at the details of

569

00:26:05,550 --> 00:26:03,220

the case and this is why and I think

570

00:26:07,290 --> 00:26:05,560

it's so important whenever possible you

571

00:26:09,270 --> 00:26:07,300

don't want to go through somebody else's

572

00:26:11,700 --> 00:26:09,280

filter you don't want to go through

573

00:26:14,190 --> 00:26:11,710

somebody else's interpretation of what

574

00:26:16,230 --> 00:26:14,200

happened when it's possible to get

575

00:26:18,240 --> 00:26:16,240

directly to the source itself the

576

00:26:20,100 --> 00:26:18,250

original source itself and again I've

577

00:26:23,280 --> 00:26:20,110

got a lengthy article about this over at

578

00:26:26,280 --> 00:26:23,290

my website but basically what happened

579

00:26:30,030 --> 00:26:26,290

is Azamara was patrolling around Socorro

580

00:26:32,160 --> 00:26:30,040

and suddenly he decides he's gonna start

581

00:26:33,720 --> 00:26:32,170

following a speeder out of town and if

582

00:26:35,820 --> 00:26:33,730

you ever take a look at a map of Socorro

583

00:26:40,860 --> 00:26:35,830

basically what you've got is this a

584

00:26:42,540 --> 00:26:40,870

relatively small town and as soon as you

585

00:26:44,130 --> 00:26:42,550

get out of town you're out in the desert

586

00:26:47,070 --> 00:26:44,140

there's not too much out there so

587

00:26:51,570 --> 00:26:47,080

basically this this driver sort of leads

588

00:26:53,970 --> 00:26:51,580

leads amaura out of town on a little bit

589

00:26:55,830 --> 00:26:53,980

of a chase and while Zamora is chasing

590

00:26:59,070 --> 00:26:55,840

him and actually if you take a look at

591

00:27:01,970 --> 00:26:59,080

this particular graphic here the that's

592

00:27:04,470 --> 00:27:01,980

where that red line starts basically

593

00:27:06,870 --> 00:27:04,480

before it starts there that's a sort of

594

00:27:09,570 --> 00:27:06,880

a road out of town words he's he's

595

00:27:11,090 --> 00:27:09,580

following this guy this unidentified

596

00:27:15,300 --> 00:27:11,100

speeder he said looked like a young

597

00:27:18,270 --> 00:27:15,310

young boy so basically well Zamora's

598

00:27:19,340 --> 00:27:18,280

following him he sees an explosion like

599

00:27:46,700 --> 00:27:19,350

a

600

00:27:50,510 --> 00:27:46,710

vehicle sort of looks like this he sees

601
00:27:52,910 --> 00:27:50,520
a couple of legs and he pursues it

602
00:27:54,980 --> 00:27:52,920
further but as he's pursuing it and this

603
00:27:57,140 --> 00:27:54,990
is very interesting and it's why I'm not

604
00:27:58,820 --> 00:27:57,150
quite convinced that this is definitely

605
00:28:01,670 --> 00:27:58,830
the student hoax that the Stirling

606
00:28:03,860 --> 00:28:01,680
colgate laid out - - Tony is that

607
00:28:06,860 --> 00:28:03,870
there's this Hill area here so as he's

608
00:28:09,080 --> 00:28:06,870
driving closer to get to where this this

609
00:28:11,810 --> 00:28:09,090
vehicle is his view is actually

610
00:28:15,530 --> 00:28:11,820
obstructed so he can't really see down

611
00:28:17,630 --> 00:28:15,540
into this Arroyo where this this balloon

612
00:28:19,940 --> 00:28:17,640
actually is so his view is obstructed

613
00:28:22,880 --> 00:28:19,950

until he kind of gets to the yellow area

614

00:28:25,670 --> 00:28:22,890

here and then he's able to see at that

615

00:28:28,430 --> 00:28:25,680

point this balloon is taking off and at

616

00:28:31,700 --> 00:28:28,440

that point he's also in communication

617

00:28:37,130 --> 00:28:31,710

with his police station and is telling

618

00:28:38,600 --> 00:28:37,140

that the nez at that point in time he's

619

00:28:40,880 --> 00:28:38,610

talking to someone that back at the

620

00:28:43,490 --> 00:28:40,890

station house that as he's getting

621

00:28:46,610 --> 00:28:43,500

closer to it it looks like a balloon now

622

00:28:50,360 --> 00:28:46,620

these are kind of important details that

623

00:28:53,150 --> 00:28:50,370

were left out of a very recent Richard

624

00:28:55,310 --> 00:28:53,160

Dolan analysis of this case and again

625

00:28:58,340 --> 00:28:55,320

this type of material is very easy to

626

00:29:01,280 --> 00:28:58,350

find there are a number of verbatim

627

00:29:02,720 --> 00:29:01,290

accounts from Zamora you know they're

628

00:29:04,970 --> 00:29:02,730

all the same they're all accurate on a

629

00:29:07,700 --> 00:29:04,980

number of different websites it was

630

00:29:10,850 --> 00:29:07,710

printed accurately and hectic ananias

631

00:29:13,040 --> 00:29:10,860

book about his experiences running

632

00:29:15,290 --> 00:29:13,050

Project Blue Book it's on a number of

633

00:29:18,380 --> 00:29:15,300

different sites and a link to a Zamora's

634

00:29:20,720 --> 00:29:18,390

account is also at my website as well so

635

00:29:22,580 --> 00:29:20,730

go check it out but basically when

636

00:29:26,450 --> 00:29:22,590

there's more again that when he was

637

00:29:28,250 --> 00:29:26,460

closest to this to this balloon he said

638

00:29:29,600 --> 00:29:28,260

quite clearly it looked like a balloon

639

00:29:31,340 --> 00:29:29,610

and there was a little flame at the

640

00:29:32,160 --> 00:29:31,350

bottom it's just basically a hot air

641

00:29:34,530 --> 00:29:32,170

balloon that

642

00:29:36,330 --> 00:29:34,540

sort of takes off but when you get from

643

00:29:39,780 --> 00:29:36,340

a lot of these researchers and now this

644

00:29:41,700 --> 00:29:39,790

is very important you never you so often

645

00:29:44,010 --> 00:29:41,710

do not get the whole truth you don't get

646

00:29:46,140 --> 00:29:44,020

essential details that you really need

647

00:29:48,810 --> 00:29:46,150

to make an informed a proper decision

648

00:29:51,720 --> 00:29:48,820

about these cases these incidents these

649

00:29:53,520 --> 00:29:51,730

documents and so on and so forth it's

650

00:29:56,790 --> 00:29:53,530

not so much of what the people say about

651
00:29:59,160 --> 00:29:56,800
them but it is what they don't say and

652
00:30:01,410 --> 00:29:59,170
again you'll never hear from by somebody

653
00:30:03,630 --> 00:30:01,420
trying to pump up this case that Zamora

654
00:30:05,970 --> 00:30:03,640
did in fact say it looks like a blue

655
00:30:07,380 --> 00:30:05,980
when he got closest to it and there are

656
00:30:10,230 --> 00:30:07,390
some other things that doesn't more I

657
00:30:13,260 --> 00:30:10,240
never said that he saw for example a he

658
00:30:15,360 --> 00:30:13,270
never saw anything land some researchers

659
00:30:17,460 --> 00:30:15,370
will tell you he saw this craft land he

660
00:30:20,520 --> 00:30:17,470
never saw that his attention was drawn

661
00:30:23,910 --> 00:30:20,530
by some explosions some fireworks in the

662
00:30:26,850 --> 00:30:23,920
sky that drew him over to the area he

663
00:30:29,370 --> 00:30:26,860

never saw anybody get into or out of a

664

00:30:32,700 --> 00:30:29,380

vehicle he never saw four legs he only

665

00:30:34,650 --> 00:30:32,710

saw two so it was not some type of

666

00:30:37,590 --> 00:30:34,660

landing craft all he saw was something

667

00:30:39,450 --> 00:30:37,600

take off and leave the area and he said

668

00:30:42,240 --> 00:30:39,460

when he got closest to it that it looks

669

00:30:46,400 --> 00:30:42,250

like a balloon and again any researcher

670

00:30:49,590 --> 00:30:46,410

who does just the the very basic said

671

00:30:52,050 --> 00:30:49,600

you know basically grade school level

672

00:30:55,440 --> 00:30:52,060

research to go to the original source

673

00:30:57,210 --> 00:30:55,450

and go back and represent accurately

674

00:31:00,030 --> 00:30:57,220

what they said you can still think that

675

00:31:02,190 --> 00:31:00,040

that this particular case wasn't a

676
00:31:03,750 --> 00:31:02,200
balloon but that for God's sakes though

677
00:31:05,580 --> 00:31:03,760
the least you can do is present the

678
00:31:08,070 --> 00:31:05,590
facts of the case fairly and accurately

679
00:31:10,500 --> 00:31:08,080
and I expect the silence is going to be

680
00:31:13,080 --> 00:31:10,510
deafening regarding this particular case

681
00:31:15,390 --> 00:31:13,090
a really interesting case for one

682
00:31:17,820 --> 00:31:15,400
particular reason why I've grown to

683
00:31:20,340 --> 00:31:17,830
really love this case is because more

684
00:31:24,330 --> 00:31:20,350
than anything else what it demonstrates

685
00:31:27,990 --> 00:31:24,340
is that the UFO witnesses despite a lot

686
00:31:30,210 --> 00:31:28,000
of debunker disinformation that spread

687
00:31:33,270 --> 00:31:30,220
out UFO witnesses can be very detailed

688
00:31:36,930 --> 00:31:33,280

and very accurate and yes I absolutely

689

00:31:38,850 --> 00:31:36,940

urgent of you every one of you to go to

690

00:31:41,850 --> 00:31:38,860

my website look at the original story

691

00:31:44,190 --> 00:31:41,860

that I wrote back in 2009 and take a

692

00:31:45,200 --> 00:31:44,200

close look at it and more important than

693

00:31:47,240 --> 00:31:45,210

all that forget what

694

00:31:50,150 --> 00:31:47,250

forget what anybody's written about it

695

00:31:53,270 --> 00:31:50,160

look at Zamora's original account that

696

00:31:55,700 --> 00:31:53,280

really is the key and again folks that's

697

00:31:58,060 --> 00:31:55,710

about all I've got time for you want to

698

00:32:00,350 --> 00:31:58,070

take a look at that on the record

699

00:32:03,590 --> 00:32:00,360

original account sir whenever possible

700

00:32:05,420 --> 00:32:03,600

that's how you find things out and let's

701
00:32:07,220 --> 00:32:05,430
see oh there's one other thing I did

702
00:32:11,560 --> 00:32:07,230
want to get to hang on just a moment

703
00:32:14,210 --> 00:32:11,570
please thanks for reminding me before I

704
00:32:17,300 --> 00:32:14,220
wrapped up here there's a really

705
00:32:19,070 --> 00:32:17,310
interesting story written by a Tom Rogan

706
00:32:21,650 --> 00:32:19,080
over at the Washington Examiner that

707
00:32:24,290 --> 00:32:21,660
came out this week and so much in the

708
00:32:25,940 --> 00:32:24,300
UFO field you're hearing so much and

709
00:32:28,730 --> 00:32:25,950
even from the to the stars Academy

710
00:32:31,610 --> 00:32:28,740
you're hearing a lot about UFO crash

711
00:32:34,190 --> 00:32:31,620
retrievals and one thing that I would

712
00:32:38,240 --> 00:32:34,200
strongly suggest to anybody listening is

713
00:32:40,970 --> 00:32:38,250

to put the words UFO and crash sort of

714

00:32:45,020 --> 00:32:40,980

out of your head what we've got is the

715

00:32:47,720 --> 00:32:45,030

military always always always looking

716

00:32:51,350 --> 00:32:47,730

for and willing to go to great lengths

717

00:32:54,290 --> 00:32:51,360

to acquire foreign technology it's not

718

00:32:56,420 --> 00:32:54,300

necessarily crashed yeah it may be it's

719

00:33:00,440 --> 00:32:56,430

crashed maybe it's not but they're

720

00:33:02,720 --> 00:33:00,450

always looking to go to some great great

721

00:33:04,310 --> 00:33:02,730

lengths extraordinary like so now talk

722

00:33:06,230 --> 00:33:04,320

about real quickly before I get into the

723

00:33:10,040 --> 00:33:06,240

meat of this particular story there's

724

00:33:13,160 --> 00:33:10,050

the famous story of a converted Tupelo

725

00:33:16,520 --> 00:33:13,170

22 bomber that was a it's a Soviet plane

726

00:33:18,890 --> 00:33:16,530

that was converted to a spy plane that

727

00:33:21,350 --> 00:33:18,900

was used over Angola when that they were

728

00:33:24,080 --> 00:33:21,360

involved in a conflict over there along

729

00:33:25,520 --> 00:33:24,090

with the Cubans back in the 70s so they

730

00:33:27,740 --> 00:33:25,530

were there and they were flying out one

731

00:33:30,290 --> 00:33:27,750

of their spy planes over and apparently

732

00:33:31,820 --> 00:33:30,300

it came down well it came down in the

733

00:33:34,820 --> 00:33:31,830

jungle so it was pretty difficult to

734

00:33:37,670 --> 00:33:34,830

find and as the story goes the remote

735

00:33:41,690 --> 00:33:37,680

viewing program was in full swing at

736

00:33:43,970 --> 00:33:41,700

that point and they actually got got

737

00:33:46,040 --> 00:33:43,980

some remote viewers to try to find out

738

00:33:48,020 --> 00:33:46,050

where this plane was and apparently they

739

00:33:50,840 --> 00:33:48,030

were quite successful it's regarded as

740

00:33:54,080 --> 00:33:50,850

one of the Great's successes of the

741

00:33:55,460 --> 00:33:54,090

remote viewing program so again they're

742

00:33:58,730 --> 00:33:55,470

going through some great lengths and

743

00:34:00,919 --> 00:33:58,740

also going back to the 70s some of you

744

00:34:02,450 --> 00:34:00,929

old enough to remember it or maybe if

745

00:34:03,380 --> 00:34:02,460

you're not that looking up because it's

746

00:34:05,750 --> 00:34:03,390

a hell of a story

747

00:34:09,440 --> 00:34:05,760

absolutely a true story the Glomar

748

00:34:10,760 --> 00:34:09,450

Explorer case a a Soviet submarine sank

749

00:34:13,520 --> 00:34:10,770

and fell from the bottom of the Pacific

750

00:34:16,399 --> 00:34:13,530

Ocean didn't crash it just sank it fell

751
00:34:18,290 --> 00:34:16,409
to the bottom of the ocean and obviously

752
00:34:19,280 --> 00:34:18,300
the United States I wanted to get their

753
00:34:21,260 --> 00:34:19,290
hands on it

754
00:34:23,480 --> 00:34:21,270
so again they go to great lengths so

755
00:34:26,770 --> 00:34:23,490
what did they do they contacted the

756
00:34:29,930 --> 00:34:26,780
still-living billionaire and pretty

757
00:34:30,980 --> 00:34:29,940
advanced engineer Howard Hughes you

758
00:34:32,990 --> 00:34:30,990
could almost say that Hughes was

759
00:34:34,970 --> 00:34:33,000
something about Elon Musk in his day

760
00:34:37,180 --> 00:34:34,980
maybe something along those lines but

761
00:34:39,980 --> 00:34:37,190
regardless they contacted Hughes and

762
00:34:42,530 --> 00:34:39,990
what Hughes was able to come up with was

763
00:34:44,659 --> 00:34:42,540

the design for a ship that they were

764

00:34:46,430 --> 00:34:44,669

actually able to sail over they knew

765

00:34:48,139 --> 00:34:46,440

where the sub was it was just at the

766

00:34:50,300 --> 00:34:48,149

bottom of the ocean so it that basically

767

00:34:51,859 --> 00:34:50,310

had this a long arm and they were able

768

00:34:53,810 --> 00:34:51,869

to drop it down to the floor of the

769

00:34:56,030 --> 00:34:53,820

ocean and they were able to kind of

770

00:34:58,220 --> 00:34:56,040

scoop up the sub well unfortunately they

771

00:34:59,450 --> 00:34:58,230

didn't get as good a grip on the sub as

772

00:35:01,460 --> 00:34:59,460

they wanted maybe the Russian

773

00:35:03,109 --> 00:35:01,470

engineering isn't as great so it kind of

774

00:35:04,910 --> 00:35:03,119

broke in half so they didn't get the

775

00:35:06,349 --> 00:35:04,920

whole thing so it wasn't as a hundred

776

00:35:10,040 --> 00:35:06,359

percent successful as they would have

777

00:35:11,840 --> 00:35:10,050

liked but again they're going to had

778

00:35:14,780 --> 00:35:11,850

some pretty extraordinary lengths to

779

00:35:17,090 --> 00:35:14,790

acquire foreign technology and this

780

00:35:19,580 --> 00:35:17,100

story from Tom that came out this week

781

00:35:23,900 --> 00:35:19,590

it's very interesting because apparently

782

00:35:26,240 --> 00:35:23,910

what the US military has done was secure

783

00:35:30,260 --> 00:35:26,250

an advanced Russian combat system so

784

00:35:32,660 --> 00:35:30,270

here's the story and go at the well I'll

785

00:35:34,550 --> 00:35:32,670

read this in early June US military

786

00:35:36,590 --> 00:35:34,560

personnel secured an advanced Russian

787

00:35:38,750 --> 00:35:36,600

combat system in Libya the exact

788

00:35:40,340 --> 00:35:38,760

identity of the platform now extracted

789

00:35:42,740 --> 00:35:40,350

out of Libya and subject the u.s.

790

00:35:45,320 --> 00:35:42,750

technical analysis is unknown to me but

791

00:35:49,730 --> 00:35:45,330

I am led to believe and is either the

792

00:35:53,120 --> 00:35:49,740

Chris Chris Okafor electronic warfare

793

00:35:55,849 --> 00:35:53,130

system or the s3 50 medium-range air

794

00:35:58,040 --> 00:35:55,859

defense system both reflect higher-end

795

00:36:00,020 --> 00:35:58,050

Russian military capabilities primarily

796

00:36:03,320 --> 00:36:00,030

designed to defeat NATO air operations

797

00:36:04,880 --> 00:36:03,330

so such systems have taken on added

798

00:36:06,320 --> 00:36:04,890

value in Libya of late due to the

799

00:36:08,870 --> 00:36:06,330

success of Turkish drones

800

00:36:09,710 --> 00:36:08,880

okay well we'll move forward you can

801
00:36:11,780 --> 00:36:09,720
read that yourselves

802
00:36:12,440 --> 00:36:11,790
the u.s. success under the authority of

803
00:36:15,500 --> 00:36:12,450
the death

804
00:36:19,130 --> 00:36:15,510
Vence intelligent intelligence agencies

805
00:36:22,250 --> 00:36:19,140
foreign military exploitation program is

806
00:36:25,010 --> 00:36:22,260
a significant one and this is a get in

807
00:36:26,930 --> 00:36:25,020
this more detail so so later but what do

808
00:36:28,910 --> 00:36:26,940
we now well speaking on the condition of

809
00:36:31,280 --> 00:36:28,920
anonymity to current and defense

810
00:36:33,410 --> 00:36:31,290
intelligence officials and one former

811
00:36:35,540 --> 00:36:33,420
official said that the military now has

812
00:36:38,390 --> 00:36:35,550
a highly advanced Russian military

813
00:36:40,400 --> 00:36:38,400

system under its control it was secured

814

00:36:43,220 --> 00:36:40,410

from the control of a Russian military

815

00:36:45,710 --> 00:36:43,230

intelligence contractor Wagner group and

816

00:36:47,510 --> 00:36:45,720

know those details okay I'll pass over

817

00:36:49,250 --> 00:36:47,520

those that said there was no evidence

818

00:36:51,710 --> 00:36:49,260

that the system was secured by the use

819

00:36:52,940 --> 00:36:51,720

of US combat action I reached out to

820

00:36:54,920 --> 00:36:52,950

numerous government agencies but

821

00:36:57,700 --> 00:36:54,930

received no requests to avoid

822

00:37:00,140 --> 00:36:57,710

publication or admit or omit details

823

00:37:02,150 --> 00:37:00,150

officials offered no comment on the

824

00:37:04,460 --> 00:37:02,160

specifics of the story but did not deny

825

00:37:07,040 --> 00:37:04,470

them behind the scenes however US

826

00:37:11,420 --> 00:37:07,050

officials are celebrating a significant

827

00:37:13,810 --> 00:37:11,430

win now this is kind of key because

828

00:37:15,890 --> 00:37:13,820

think about UFO crash retrieval

829

00:37:18,890 --> 00:37:15,900

seriously how often do you think that

830

00:37:21,650 --> 00:37:18,900

happens how often do you think that the

831

00:37:24,710 --> 00:37:21,660

the military or defense intelligence

832

00:37:27,829 --> 00:37:24,720

agency personnel are able to go out and

833

00:37:29,450 --> 00:37:27,839

hunt down UFO material well and even

834

00:37:31,490 --> 00:37:29,460

then if they hunt down foreign

835

00:37:33,260 --> 00:37:31,500

technology they necessarily know let's

836

00:37:35,809 --> 00:37:33,270

say something fell from space do they

837

00:37:39,020 --> 00:37:35,819

necessarily know it's et or you know

838

00:37:40,940 --> 00:37:39,030

Russian or Chinese or whatever the case

839

00:37:43,160 --> 00:37:40,950

may be but no they're gonna want to go

840

00:37:44,599 --> 00:37:43,170

get it so the idea that there are crash

841

00:37:47,000 --> 00:37:44,609

retrievals sometimes the crash

842

00:37:49,450 --> 00:37:47,010

retrievals sometimes something drops

843

00:37:53,809 --> 00:37:49,460

into their lap a defector might fly a

844

00:37:55,700 --> 00:37:53,819

fully functional jet over or somehow it

845

00:37:58,550 --> 00:37:55,710

seems like they got this particular

846

00:38:00,079 --> 00:37:58,560

platform fully functional and they were

847

00:38:02,839 --> 00:38:00,089

able and just I don't know apparently

848

00:38:05,200 --> 00:38:02,849

walk it right out from under the nose of

849

00:38:07,490 --> 00:38:05,210

this Wagner group over there in Libya

850

00:38:10,550 --> 00:38:07,500

don't know the details and that they're

851
00:38:13,040 --> 00:38:10,560
not in here but that sort of thing I

852
00:38:15,109 --> 00:38:13,050
think likely does happen but in the the

853
00:38:18,050 --> 00:38:15,119
narrative that you so often hear UFO

854
00:38:20,510 --> 00:38:18,060
crash retrieval it sort of leaves the I

855
00:38:23,030 --> 00:38:20,520
think an erroneous impression that

856
00:38:25,019 --> 00:38:23,040
somehow there's this special task force

857
00:38:27,509 --> 00:38:25,029
that is just sitting around

858
00:38:29,459 --> 00:38:27,519
- wait a another UFOs come down let's go

859
00:38:34,289 --> 00:38:29,469
out and get it it doesn't work that way

860
00:38:37,769 --> 00:38:34,299
and that that is again a real-world

861
00:38:40,499 --> 00:38:37,779
example of if there is any kind of UFO

862
00:38:42,479 --> 00:38:40,509
crash retrieval it kind of works this

863
00:38:45,359 --> 00:38:42,489

way and then gets routed wherever it

864

00:38:47,729 --> 00:38:45,369

gets routed but we're also seeing at Tom

865

00:38:49,739 --> 00:38:47,739

of course is written in great detail at

866

00:38:52,799 --> 00:38:49,749

great length and I think I with a

867

00:38:55,140 --> 00:38:52,809

remarkable level of savvy about the UFO

868

00:38:57,539 --> 00:38:55,150

subject and if he's getting this

869

00:39:01,140 --> 00:38:57,549

material from Defense Intelligence

870

00:39:03,989 --> 00:39:01,150

people that might very well be the same

871

00:39:08,189 --> 00:39:03,999

location of his sources on his seemingly

872

00:39:10,289 --> 00:39:08,199

well-informed UFO reportage so that's

873

00:39:12,299 --> 00:39:10,299

that for now we're done for this week

874

00:39:13,859 --> 00:39:12,309

and might be another week might be

875

00:39:17,370 --> 00:39:13,869

another two weeks might not be until

876

00:39:20,789 --> 00:39:17,380

after the premiere of season two of the

877

00:39:23,269 --> 00:39:20,799

TTS a show unidentified over on the the

878

00:39:26,909 --> 00:39:23,279

History Channel that program is

879

00:39:29,099 --> 00:39:26,919

apparently going to start up on July the

880

00:39:31,559 --> 00:39:29,109

11th the Saturday night a change in

881

00:39:33,120 --> 00:39:31,569

nights but in this day and age we can

882

00:39:35,039 --> 00:39:33,130

always pick up these shows whenever we

883

00:39:37,559 --> 00:39:35,049

pick them up so maybe there'll be

884

00:39:39,509 --> 00:39:37,569

another update news update between now

885

00:39:42,269 --> 00:39:39,519

and then maybe the next show will be a

886

00:39:44,519 --> 00:39:42,279

review of episode 1 of season 2 of

887

00:39:47,189 --> 00:39:44,529

unidentified can't say for sure but

888

00:39:49,409 --> 00:39:47,199

regardless once I get a couple three

889

00:39:51,630 --> 00:39:49,419

four things together that I think are of

890

00:39:54,749 --> 00:39:51,640

note and are worth talking about we'll

891

00:39:57,569 --> 00:39:54,759

do another show and glad you all tuned

892

00:39:59,519 --> 00:39:57,579

in so have a great weekend everybody and
