00:01:03,810 --> 00:00:32,499

[Music]

2
00:01:06,270 --> 00:01:03,820

and hello from Philadelphia Frank here

3
00:01:08,850 --> 00:01:06,280

with yet another episode of UFO news

4
00:01:12,510 --> 00:01:08,860

network Sunday today coming to you on a

5
00:01:14,789 --> 00:01:12,520

Wednesday covering recent news that has

6
00:01:17,700 --> 00:01:14,799

popped up since the last time we did a

7
00:01:20,399 --> 00:01:17,710

show here and it was a real interesting

8
00:01:22,680 --> 00:01:20,409

period lots of good stuff and has come

9
00:01:25,499 --> 00:01:22,690

out that will be of interest to you all

10
00:01:28,560 --> 00:01:25,509

and the top story of course is the

11
00:01:32,399 --> 00:01:28,570

Senate Intelligence Committee a once a

12
00:01:33,570 --> 00:01:32,409

UFO report from the Pentagon so let's

13
00:01:36,320 --> 00:01:33,580

get right to it

14

00:01:40,290 --> 00:01:36,330

this story got a lot of mainstream

15

00:01:43,469 --> 00:01:40,300

coverage I know it got out well beyond

16

00:01:46,680 --> 00:01:43,479

the usual UFO people because I was asked

17

00:01:50,010 --> 00:01:46,690

about it at the office so that was of

18

00:01:52,680 --> 00:01:50,020

course a very interesting and this story

19

00:01:55,169 --> 00:01:52,690

from a Brian bender senators want the

20

00:01:58,230 --> 00:01:55,179

public to see government's UFO reports I

21

00:02:00,510 --> 00:01:58,240

quote from it from Christopher Mellon of

22

00:02:03,210 --> 00:02:00,520

course from the to the stars Academy it

23

00:02:04,710 --> 00:02:03,220

further legitimizes the issue said

24

00:02:07,050 --> 00:02:04,720

Christopher Mellon a former top

25

00:02:09,180 --> 00:02:07,060

intelligence official and Senate staffer

26
00:02:11,369 --> 00:02:09,190
who was pressed for more research on the

27
00:02:13,110 --> 00:02:11,379
topic that in itself is extremely

28
00:02:15,180 --> 00:02:13,120
important people can talk about it

29
00:02:17,280 --> 00:02:15,190
without fear of embarrassment he said

30
00:02:19,979 --> 00:02:17,290
the potential implications cannot be

31
00:02:22,290 --> 00:02:19,989
overstated assuming the report is

32
00:02:24,089 --> 00:02:22,300
properly prepared and delivered there is

33
00:02:26,280 --> 00:02:24,099
no telling what the impacts could be

34
00:02:28,979 --> 00:02:26,290
Mellon said that could range from

35
00:02:31,680 --> 00:02:28,989
revealing an unknown threat or military

36
00:02:34,259 --> 00:02:31,690
vulnerability to there have been probes

37
00:02:34,650 --> 00:02:34,269
visiting our planet or anything in

38
00:02:37,229 --> 00:02:34,660

between

39

00:02:39,750 --> 00:02:37,239

so that is very nice to see actually

40

00:02:41,699 --> 00:02:39,760

that last part worried begins to raise

41

00:02:45,570 --> 00:02:41,709

the possibility that yes some of these

42

00:02:47,910 --> 00:02:45,580

UFOs are in fact extraterrestrial so we

43

00:02:51,509 --> 00:02:47,920

do like that of course obviously I've

44

00:02:54,660 --> 00:02:51,519

been that critical of the threat talk

45

00:02:56,309 --> 00:02:54,670

the threat implications that is always a

46

00:02:59,100 --> 00:02:56,319

problem with me I don't see anything

47

00:03:02,720 --> 00:02:59,110

threatening and the otherworldly UFOs

48

00:03:05,699 --> 00:03:02,730

and that has been part of the tts a

49

00:03:07,319 --> 00:03:05,709

message getting out there who knows it

50

00:03:09,569 --> 00:03:07,329

may have been just a necessary evil

51
00:03:10,780 --> 00:03:09,579
something that they had to do to get the

52
00:03:13,929 --> 00:03:10,790
right people's attention

53
00:03:16,300 --> 00:03:13,939
but be that as it may that is an

54
00:03:18,729 --> 00:03:16,310
exciting quote from melon and an

55
00:03:21,850 --> 00:03:18,739
exciting development in the Senate of

56
00:03:24,550 --> 00:03:21,860
course when this news came out the

57
00:03:26,229 --> 00:03:24,560
chairman of the committee Marco Rubio is

58
00:03:28,630 --> 00:03:26,239
the individual seem to get the most

59
00:03:30,880 --> 00:03:28,640
attention very high-profile senator

60
00:03:32,890 --> 00:03:30,890
obviously ran for president last time

61
00:03:35,920 --> 00:03:32,900
around but they're really the driving

62
00:03:38,110 --> 00:03:35,930
force behind this is a Senator Mark

63
00:03:41,860 --> 00:03:38,120

Warner and I'll get into that a little

64

00:03:45,099 --> 00:03:41,870

bit let's get some feedback and some

65

00:03:48,430 --> 00:03:45,109

opinions that came out from others Billy

66

00:03:49,360 --> 00:03:48,440

Cox over at devoid usually a kind of a

67

00:03:53,770 --> 00:03:49,370

curmudgeonly

68

00:03:56,080 --> 00:03:53,780

old school a reporter type guy a little

69

00:03:57,970 --> 00:03:56,090

bit on the crusty side here he sounds

70

00:04:00,369 --> 00:03:57,980

almost like a cheerleader like he's

71

00:04:02,589 --> 00:04:00,379

literally giddy with excitement it is

72

00:04:04,509 --> 00:04:02,599

impossible to overstate the magnitude of

73

00:04:07,210 --> 00:04:04,519

this heretofore unthinkable directive

74

00:04:10,180 --> 00:04:07,220

issued by the Senate last week it sounds

75

00:04:12,220 --> 00:04:10,190

almost what to normal to pro forma as if

76

00:04:14,110 --> 00:04:12,230

the most radical fishing expedition of

77

00:04:16,390 --> 00:04:14,120

our lifetime is simply a matter of good

78

00:04:16,569 --> 00:04:16,400

bureaucratic housekeeping yet here we

79

00:04:18,150 --> 00:04:16,579

are

80

00:04:20,969 --> 00:04:18,160

in a place no one could have predicted

81

00:04:23,409 --> 00:04:20,979

even a year ago and that is about right

82

00:04:26,290 --> 00:04:23,419

however what did happen not more than a

83

00:04:28,570 --> 00:04:26,300

year ago is the ranking member on the

84

00:04:31,210 --> 00:04:28,580

minority side that Democrat Mark Warner

85

00:04:33,909 --> 00:04:31,220

from Virginia has been pushing this us

86

00:04:35,860 --> 00:04:33,919

UFO issue he has been not contacting the

87

00:04:39,100 --> 00:04:35,870

Navy in the past asking for more

88

00:04:42,610 --> 00:04:39,110

information and finally this week what

89

00:04:46,360 --> 00:04:42,620

he day he's a no question in my mind

90

00:04:49,750 --> 00:04:46,370

that he is the driving force behind this

91

00:04:53,020 --> 00:04:49,760

particular piece here we see in the bill

92

00:04:54,399 --> 00:04:53,030

itself as some details you hopefully you

93

00:04:56,050 --> 00:04:54,409

can read it if you're not I'm not going

94

00:04:58,180 --> 00:04:56,060

to read the whole thing but I'll buzz

95

00:05:01,020 --> 00:04:58,190

through some key points committee

96

00:05:04,029 --> 00:05:01,030

further directs the report to include a

97

00:05:06,580 --> 00:05:04,039

hang on a sec we were actually jumped

98

00:05:08,140 --> 00:05:06,590

ahead here advanced aerial threats the

99

00:05:10,600 --> 00:05:08,150

committee supports the efforts of the

100

00:05:12,700 --> 00:05:10,610

unidentified aerial phenomenon task

101
00:05:14,950 --> 00:05:12,710
force at the Office of Navy Naval

102
00:05:17,290 --> 00:05:14,960
Intelligence to standardize collection

103
00:05:20,230 --> 00:05:17,300
and reporting on unidentified aerial

104
00:05:22,300 --> 00:05:20,240
phenomenon any links they have to

105
00:05:24,040 --> 00:05:22,310
adversarial foreign governments and the

106
00:05:26,619 --> 00:05:24,050
threat they pose to you of

107
00:05:28,270 --> 00:05:26,629
US military assets committee remains

108
00:05:30,399 --> 00:05:28,280
concern there is no unified

109
00:05:32,920 --> 00:05:30,409
comprehensive process within the

110
00:05:36,040 --> 00:05:32,930
government for collecting and analyzing

111
00:05:38,170 --> 00:05:36,050
intelligence on you ApS despite the

112
00:05:40,210 --> 00:05:38,180
potential threat committee understands

113
00:05:42,460 --> 00:05:40,220

relevant intelligence may be sensitive

114

00:05:44,800 --> 00:05:42,470

nevertheless committee finds that the

115

00:05:46,450 --> 00:05:44,810

information sharing and coordination

116

00:05:49,210 --> 00:05:46,460

across the intelligence community has

117

00:05:51,430 --> 00:05:49,220

been inconsistent lacked attention from

118

00:05:53,740 --> 00:05:51,440

senior leaders therefore committee

119

00:05:56,140 --> 00:05:53,750

directs the DNI director of Naval

120

00:05:58,270 --> 00:05:56,150

Intelligence in consultation with the

121

00:06:00,490 --> 00:05:58,280

Secretary of Defense and the heads of

122

00:06:03,219 --> 00:06:00,500

such other agencies as the director and

123

00:06:06,670 --> 00:06:03,229

secretary jointly consider relevant to

124

00:06:09,070 --> 00:06:06,680

submit a report within 180 days of the

125

00:06:10,689 --> 00:06:09,080

date of enactment of the Act to the

126
00:06:13,959 --> 00:06:10,699
congressional intelligence and Armed

127
00:06:15,909 --> 00:06:13,969
Services committees on you ApS including

128
00:06:16,800 --> 00:06:15,919
observed airborne objects that have not

129
00:06:19,570 --> 00:06:16,810
been identified

130
00:06:21,399 --> 00:06:19,580
of course the devil's always in the

131
00:06:23,409 --> 00:06:21,409
details here's a little bit more detail

132
00:06:25,779 --> 00:06:23,419
about what they're asking for detailed

133
00:06:27,700 --> 00:06:25,789
analysis of UAP data and intelligence

134
00:06:29,320 --> 00:06:27,710
reporting collected or held by the

135
00:06:30,760 --> 00:06:29,330
Office of Naval Intelligence

136
00:06:33,760 --> 00:06:30,770
this seems specifically geared towards

137
00:06:36,430 --> 00:06:33,770
the Navy here and no no mention

138
00:06:38,649 --> 00:06:36,440

specifically of the Air Force we'll get

139

00:06:40,120 --> 00:06:38,659

to some Air Force news up next but

140

00:06:43,779 --> 00:06:40,130

including data and intelligence

141

00:06:46,899 --> 00:06:43,789

reporting held by UA UAP Task Force

142

00:06:48,820 --> 00:06:46,909

detailed analysis of unidentified

143

00:06:51,100 --> 00:06:48,830

phenomenon data collected by a

144

00:06:53,469 --> 00:06:51,110

geospatial signals intelligence human

145

00:06:56,260 --> 00:06:53,479

intelligence measurement and signals

146

00:06:59,559 --> 00:06:56,270

intelligence detailed analysis of data

147

00:07:01,089 --> 00:06:59,569

from the FBI regarding a restricted

148

00:07:04,240 --> 00:07:01,099

airspace detailed description of

149

00:07:06,820 --> 00:07:04,250

interagency process for ensuring timely

150

00:07:09,749 --> 00:07:06,830

data timely data collection and

151

00:07:11,379 --> 00:07:09,759

centralized analysis identified

152

00:07:14,110 --> 00:07:11,389

identification of an official

153

00:07:16,420 --> 00:07:14,120

accountable for the process described in

154

00:07:18,760 --> 00:07:16,430

paragraph four so we're going to see it

155

00:07:20,860 --> 00:07:18,770

looks like some of the inner workings of

156

00:07:22,719 --> 00:07:20,870

this UAP task force and now who's

157

00:07:26,010 --> 00:07:22,729

running it who's in charge over there so

158

00:07:28,930 --> 00:07:26,020

that will be of some interest of course

159

00:07:31,420 --> 00:07:28,940

identify identification of potential

160

00:07:33,730 --> 00:07:31,430

aerospace and other threats posed by the

161

00:07:36,040 --> 00:07:33,740

UAP phenomenon identification of

162

00:07:37,540 --> 00:07:36,050

incidents or patterns that indicate a

163

00:07:39,340 --> 00:07:37,550

potential adversary

164

00:07:41,860 --> 00:07:39,350

well identification of incidents or

165

00:07:44,380 --> 00:07:41,870

patterns that is obviously getting

166

00:07:46,900 --> 00:07:44,390

towards a real key question regarding

167

00:07:49,630 --> 00:07:46,910

UFOs and that is frequency how often do

168

00:07:52,360 --> 00:07:49,640

these truly otherworldly events happen

169

00:07:55,090 --> 00:07:52,370

that and are there any patterns involved

170

00:07:56,830 --> 00:07:55,100

are there enough of them to discern a

171

00:07:58,840 --> 00:07:56,840

pattern at all so we don't know about

172

00:08:00,430 --> 00:07:58,850

that but that is key information we

173

00:08:02,740 --> 00:08:00,440

definitely want to get our hands on and

174

00:08:04,590 --> 00:08:02,750

then number eight our recommendations

175

00:08:06,730 --> 00:08:04,600

regarding increased collection of data

176
00:08:09,430 --> 00:08:06,740
enhanced research and development

177
00:08:12,210 --> 00:08:09,440
additional funding other resources the

178
00:08:14,920 --> 00:08:12,220
report this is key shall be submitted in

179
00:08:16,000 --> 00:08:14,930
unclassified form so at least that we

180
00:08:18,940 --> 00:08:16,010
should be getting something that's

181
00:08:20,920 --> 00:08:18,950
unclassified but may include a

182
00:08:23,290 --> 00:08:20,930
classified annex so we may not get

183
00:08:26,350 --> 00:08:23,300
everything but hopefully we get some

184
00:08:28,480 --> 00:08:26,360
stuff here now this is not over until

185
00:08:31,600 --> 00:08:28,490
it's over of course anything involving

186
00:08:33,280 --> 00:08:31,610
government it never is this is this is a

187
00:08:35,200 --> 00:08:33,290
bill it hasn't been passed that still

188
00:08:37,480 --> 00:08:35,210

has to get through the full Senate still

189

00:08:39,100 --> 00:08:37,490

has to get through the house and that

190

00:08:41,860 --> 00:08:39,110

will take some time and then we've got

191

00:08:44,410 --> 00:08:41,870

another 180 days after it passes

192

00:08:46,690 --> 00:08:44,420

hopefully it may not but after it passes

193

00:08:48,280 --> 00:08:46,700

another 180 days beyond that so you're

194

00:08:50,380 --> 00:08:48,290

not going to be looking at seeing

195

00:08:53,320 --> 00:08:50,390

anything until maybe at the earliest

196

00:08:56,350 --> 00:08:53,330

late in the first quarter that would be

197

00:08:58,290 --> 00:08:56,360

my suggestion and there are still some

198

00:09:01,960 --> 00:08:58,300

problems and some hurdles to overcome

199

00:09:05,020 --> 00:09:01,970

and I will get to that let's let's go

200

00:09:07,300 --> 00:09:05,030

back to the Brian bender article Brian

201
00:09:09,880 --> 00:09:07,310
did a lengthy interview with Alejandro

202
00:09:12,220 --> 00:09:09,890
Rojas last week where they talked about

203
00:09:14,140 --> 00:09:12,230
a number of things are related to the

204
00:09:15,880 --> 00:09:14,150
bill itself and how the issue is going

205
00:09:18,460 --> 00:09:15,890
but they also talked a lot and I thought

206
00:09:20,350 --> 00:09:18,470
this was very interesting about Winn I

207
00:09:23,110 --> 00:09:20,360
mean what's in it for the individuals

208
00:09:27,430 --> 00:09:23,120
who are involved what is in it for them

209
00:09:30,010 --> 00:09:27,440
obviously we know that there is a mr.

210
00:09:32,680 --> 00:09:30,020
inside that the senator himself and that

211
00:09:34,840 --> 00:09:32,690
is a Mark Warner and we know that there

212
00:09:37,630 --> 00:09:34,850
is a mr. outside and that is Christopher

213
00:09:39,280 --> 00:09:37,640

Mellon who was a Senate Intelligence

214

00:09:41,530 --> 00:09:39,290

Committee staffer at one point in his

215

00:09:43,510 --> 00:09:41,540

career and now is over at the to the

216

00:09:45,880 --> 00:09:43,520

stars Academy so you've got your mr.

217

00:09:47,860 --> 00:09:45,890

inside near mr. outside but that doesn't

218

00:09:49,690 --> 00:09:47,870

mean that this is a done deal of course

219

00:09:51,190 --> 00:09:49,700

so lots of things can happen as I

220

00:09:53,079 --> 00:09:51,200

mentioned before

221

00:09:55,629 --> 00:09:53,089

that's this has not gotten through the

222

00:09:57,639 --> 00:09:55,639

full Senate and the house now what might

223

00:10:00,790 --> 00:09:57,649

happen that to create some problems

224

00:10:02,740 --> 00:10:00,800

well when bender and ro Haase talked

225

00:10:04,120 --> 00:10:02,750

about this they talked about wind i mean

226

00:10:06,730 --> 00:10:04,130

what's in it for these various

227

00:10:09,069 --> 00:10:06,740

individuals obviously we know that the

228

00:10:11,470 --> 00:10:09,079

Warner is motivated and that Mellon is

229

00:10:13,389 --> 00:10:11,480

motivated to get this kind of

230

00:10:16,569 --> 00:10:13,399

information now but there might be some

231

00:10:19,360 --> 00:10:16,579

some people who are motivated to not get

232

00:10:20,889 --> 00:10:19,370

this out now is it possible that a

233

00:10:23,439 --> 00:10:20,899

member of the house or a member of the

234

00:10:25,810 --> 00:10:23,449

Senate just on their own doesn't want it

235

00:10:29,259 --> 00:10:25,820

that's always possible now politically I

236

00:10:30,939 --> 00:10:29,269

think the UFO subject has gotten to the

237

00:10:33,699 --> 00:10:30,949

point now where it's not really a

238

00:10:35,019 --> 00:10:33,709

negative people have basically accepted

239

00:10:36,430 --> 00:10:35,029

the fact that that yeah this is

240

00:10:38,590 --> 00:10:36,440

something we should be looking at and

241

00:10:40,540 --> 00:10:38,600

let's get more information out let's

242

00:10:42,400 --> 00:10:40,550

have some more transparency on this so I

243

00:10:44,439 --> 00:10:42,410

don't think it's a negative but it's not

244

00:10:46,600 --> 00:10:44,449

necessarily a positive either I don't

245

00:10:50,620 --> 00:10:46,610

know there's no a great groundswell of

246

00:10:53,769 --> 00:10:50,630

people looking to have their vote hinge

247

00:10:55,750 --> 00:10:53,779

on whether someone is Pro disclosure or

248

00:10:57,519 --> 00:10:55,760

against it so it's it kind of in the

249

00:10:59,350 --> 00:10:57,529

middle I think that the general public

250

00:11:01,540 --> 00:10:59,360

is kind of neutral on this it's not

251
00:11:03,009 --> 00:11:01,550
gonna be looking that people especially

252
00:11:05,439 --> 00:11:03,019
in Virginia are not gonna be looking

253
00:11:07,600 --> 00:11:05,449
that closely at well mark Warner is

254
00:11:09,329 --> 00:11:07,610
behind disclosure let's all vote for him

255
00:11:11,740 --> 00:11:09,339
and he's going to win it in a landslide

256
00:11:13,689 --> 00:11:11,750
that's an important point to that I want

257
00:11:15,250 --> 00:11:13,699
to get to mark Warner is up for

258
00:11:17,380 --> 00:11:15,260
re-election this fall it's not a

259
00:11:21,280 --> 00:11:17,390
guarantee he's going to be the senator

260
00:11:23,590 --> 00:11:21,290
from Virginia come January so is it

261
00:11:25,449 --> 00:11:23,600
possible that if he happens to lose and

262
00:11:27,850 --> 00:11:25,459
he won his last reelection in a very

263
00:11:30,009 --> 00:11:27,860

close race don't know how things are

264

00:11:31,810 --> 00:11:30,019

looking for him for this race but it's

265

00:11:33,850 --> 00:11:31,820

always possible that he doesn't win

266

00:11:36,100 --> 00:11:33,860

reelection does that mean that this

267

00:11:39,430 --> 00:11:36,110

entire effort doesn't fall apart at that

268

00:11:42,160 --> 00:11:39,440

at some point that may be a stall game

269

00:11:44,079 --> 00:11:42,170

takes place within the Pentagon 180 days

270

00:11:46,150 --> 00:11:44,089

that's not enough time give us more time

271

00:11:48,009 --> 00:11:46,160

let's put more the information that we

272

00:11:50,350 --> 00:11:48,019

give you more of it should be in the

273

00:11:53,170 --> 00:11:50,360

classified annex rather than in the

274

00:11:55,000 --> 00:11:53,180

publicly released information a lot of

275

00:11:57,220 --> 00:11:55,010

different things can happen is it also

276

00:11:59,199 --> 00:11:57,230

possible that that maybe someone in the

277

00:12:00,970 --> 00:11:59,209

Senate or the House just on their own

278

00:12:04,090 --> 00:12:00,980

doesn't like this for whatever reason

279

00:12:04,460 --> 00:12:04,100

and wants to get rid of it or someone in

280

00:12:06,470 --> 00:12:04,470

the pen

281

00:12:08,180 --> 00:12:06,480

GaN dislikes it to the point that they

282

00:12:09,470 --> 00:12:08,190

go to a friend of theirs it doesn't

283

00:12:11,630 --> 00:12:09,480

really care that much one way or another

284

00:12:13,790 --> 00:12:11,640

but they go to a friend of theirs in the

285

00:12:15,110 --> 00:12:13,800

house or the set and say get this thing

286

00:12:17,390 --> 00:12:15,120

out of here we don't want to deal with

287

00:12:20,330 --> 00:12:17,400

this all those things they're possible

288

00:12:24,020 --> 00:12:20,340

and again things are never over until

289

00:12:25,670 --> 00:12:24,030

they're over so let's add a lot of

290

00:12:26,990 --> 00:12:25,680

different opinions as I've said have

291

00:12:29,450 --> 00:12:27,000

been written about this and that was

292

00:12:32,390 --> 00:12:29,460

reported very very widely but I found

293

00:12:35,660 --> 00:12:32,400

the work of someone named Adam Kehoe

294

00:12:38,300 --> 00:12:35,670

over at medium and he looks very closely

295

00:12:41,840 --> 00:12:38,310

at the work of Mellon and does some very

296

00:12:43,460 --> 00:12:41,850

good analysis on what he thinks that

297

00:12:45,680 --> 00:12:43,470

Mellon is up to and how he's approaching

298

00:12:48,050 --> 00:12:45,690

all this in a quote from his most recent

299

00:12:49,760 --> 00:12:48,060

article after all this came out given

300

00:12:51,500 --> 00:12:49,770

the above experience I would Mellon

301
00:12:53,510 --> 00:12:51,510
approach the problem of influencing

302
00:12:56,660 --> 00:12:53,520
government on the perennial charge and

303
00:12:58,820 --> 00:12:56,670
toxic topic of you ApS to start it makes

304
00:13:01,760 --> 00:12:58,830
sense that he would turn to SSCI the

305
00:13:04,010 --> 00:13:01,770
Senate Select Committee on Intelligence

306
00:13:05,870 --> 00:13:04,020
it is extremely well positioned to

307
00:13:08,150 --> 00:13:05,880
investigate the type of reform he is

308
00:13:10,520 --> 00:13:08,160
interested in he also has the advantage

309
00:13:12,320 --> 00:13:10,530
of understanding it very well secondly

310
00:13:14,570 --> 00:13:12,330
he would already know that the game

311
00:13:17,420 --> 00:13:14,580
would most likely not Center on

312
00:13:19,730 --> 00:13:17,430
distracted s distracted Senators but

313
00:13:21,560 --> 00:13:19,740

rather on key staff to that end he knows

314

00:13:23,600 --> 00:13:21,570

that staff were also busy and our

315

00:13:25,240 --> 00:13:23,610

challenge to spend time on issues that

316

00:13:27,470 --> 00:13:25,250

are not in the political spotlight

317

00:13:29,810 --> 00:13:27,480

therefore it would be important to cede

318

00:13:32,480 --> 00:13:29,820

discussions with sample language to

319

00:13:34,310 --> 00:13:32,490

jumpstart the policy process this is of

320

00:13:36,560 --> 00:13:34,320

course precisely what he did in May of

321

00:13:38,660 --> 00:13:36,570

2019 he appears to have taken a

322

00:13:40,820 --> 00:13:38,670

two-pronged strategy writing both

323

00:13:42,980 --> 00:13:40,830

technical draft language for the Senate

324

00:13:45,440 --> 00:13:42,990

and an opinion piece intended for a

325

00:13:47,270 --> 00:13:45,450

general audience I strongly recommend it

326

00:13:50,270 --> 00:13:47,280

that people start following Adam Kehoe

327

00:13:52,670 --> 00:13:50,280

over on medium news the kind of guy who

328

00:13:56,000 --> 00:13:52,680

seems to be writing the sort of material

329

00:13:58,880 --> 00:13:56,010

on this subject that is nuanced and

330

00:14:01,940 --> 00:13:58,890

thinks a little bit deeper on these

331

00:14:04,370 --> 00:14:01,950

subjects and he's somebody well worth

332

00:14:06,770 --> 00:14:04,380

keeping in your little portfolio of

333

00:14:08,930 --> 00:14:06,780

people to follow on this issue so that

334

00:14:10,670 --> 00:14:08,940

was a really interesting letter big news

335

00:14:12,890 --> 00:14:10,680

I gotta say I love it

336

00:14:15,260 --> 00:14:12,900

again it's not over till it's over but

337

00:14:17,360 --> 00:14:15,270

this is where we're at now and if this

338

00:14:20,090 --> 00:14:17,370

does get

339

00:14:21,950 --> 00:14:20,100

torpedoed at some point in time I think

340

00:14:25,820 --> 00:14:21,960

that will make the news - and at least

341

00:14:28,010 --> 00:14:25,830

we will know about it and Republican or

342

00:14:30,860 --> 00:14:28,020

Democrat whichever you are I think maybe

343

00:14:33,980 --> 00:14:30,870

you want to be rooting or rooting for or

344

00:14:36,320 --> 00:14:33,990

voting for Mark Warner in Virginia he

345

00:14:38,060 --> 00:14:36,330

see he is mr. inside on this at this

346

00:14:42,110 --> 00:14:38,070

point I think there's no question about

347

00:14:44,510 --> 00:14:42,120

that circling back to the Rojas and the

348

00:14:47,090 --> 00:14:44,520

bender interview bender did mention the

349

00:14:48,940 --> 00:14:47,100

name of a particular staffer that is

350

00:14:50,960 --> 00:14:48,950

very much involved in this on that

351
00:14:52,940 --> 00:14:50,970
apparently on the Intelligence Committee

352
00:14:56,060 --> 00:14:52,950
I have to admit it wasn't taking notes

353
00:14:58,400 --> 00:14:56,070
so I forgot the name but that that is an

354
00:15:00,890 --> 00:14:58,410
important part of the process as Kehoe

355
00:15:03,410 --> 00:15:00,900
in fact pointed out so good analysis

356
00:15:05,600 --> 00:15:03,420
from Kehoe good work from Alejandro

357
00:15:08,390 --> 00:15:05,610
Rojas in terms of getting Brian bender

358
00:15:10,580 --> 00:15:08,400
on the air good a good show there from

359
00:15:12,680 --> 00:15:10,590
Billy Cox a good show all around things

360
00:15:15,080 --> 00:15:12,690
looking very good this is a very

361
00:15:18,890 --> 00:15:15,090
important news and that is of course why

362
00:15:21,200 --> 00:15:18,900
we want to delete with it now the yes

363
00:15:22,820 --> 00:15:21,210

second story is of course if you've been

364

00:15:24,920 --> 00:15:22,830

not following the show carefully we've

365

00:15:27,740 --> 00:15:24,930

been talking for some time about the

366

00:15:30,110 --> 00:15:27,750

relative silence from the air force

367

00:15:32,020 --> 00:15:30,120

regarding all this Navy seems to be

368

00:15:35,150 --> 00:15:32,030

taking the lead no question about it

369

00:15:36,860 --> 00:15:35,160

they've got some good information but I

370

00:15:38,570 --> 00:15:36,870

don't think they have the motherlode of

371

00:15:41,150 --> 00:15:38,580

information that the Air Force does

372

00:15:43,670 --> 00:15:41,160

finally within the last week a couple

373

00:15:45,050 --> 00:15:43,680

things have come out that do at least

374

00:15:48,080 --> 00:15:45,060

get our attention nothing

375

00:15:52,120 --> 00:15:48,090

earth-shattering but the war zone was

376

00:15:55,160 --> 00:15:52,130

able to FOIA some case some reports that

377

00:15:57,380 --> 00:15:55,170

were obtained from the Air Force Safety

378

00:16:00,700 --> 00:15:57,390

Center regarding not what we would

379

00:16:03,410 --> 00:16:00,710

consider to be classic UFOs as far as

380

00:16:05,270 --> 00:16:03,420

crafts that are literally unidentified

381

00:16:08,750 --> 00:16:05,280

as it look in the air what is that

382

00:16:12,110 --> 00:16:08,760

these are fairly mundane cases where the

383

00:16:13,850 --> 00:16:12,120

Air Force pilots will spot an aircraft

384

00:16:16,760 --> 00:16:13,860

and they don't know whose aircraft it is

385

00:16:19,160 --> 00:16:16,770

that type of thing or a spot a drone and

386

00:16:20,750 --> 00:16:19,170

not who know whose drone it is those are

387

00:16:24,080 --> 00:16:20,760

the types of cases that they were able

388

00:16:26,600 --> 00:16:24,090

to FOIA out so and also it's a very

389

00:16:28,170 --> 00:16:26,610

similar to the the type of information

390

00:16:30,300 --> 00:16:28,180

that the

391

00:16:32,639 --> 00:16:30,310

a war zone and then also the New York

392

00:16:34,530 --> 00:16:32,649

Times and their last article I was able

393

00:16:36,930 --> 00:16:34,540

to get from the Navy sort of ordinary

394

00:16:39,900 --> 00:16:36,940

mundane cases nothing otherworldly

395

00:16:42,210 --> 00:16:39,910

nothing even potentially et related but

396

00:16:44,220 --> 00:16:42,220

here's some highlights of from this

397

00:16:45,930 --> 00:16:44,230

particular article in May the war zone

398

00:16:48,630 --> 00:16:45,940

was first to publish details from a

399

00:16:50,570 --> 00:16:48,640

number of hazard reports from the naval

400

00:16:52,710 --> 00:16:50,580

Safety Center obtained via FOIA

401
00:16:54,930 --> 00:16:52,720
regarding interactions between that

402
00:16:57,120 --> 00:16:54,940
services aircraft and unknown aerial

403
00:16:59,370 --> 00:16:57,130
craft that offered an additional look

404
00:17:01,530 --> 00:16:59,380
into what might be happening why and how

405
00:17:03,750 --> 00:17:01,540
these encounters were or weren't getting

406
00:17:06,990 --> 00:17:03,760
reported we can now share information

407
00:17:08,760 --> 00:17:07,000
from 25 similar reports obtained through

408
00:17:11,250 --> 00:17:08,770
the FOIA from the Air Force Safety

409
00:17:13,500 --> 00:17:11,260
Center these Air Force reports as well

410
00:17:16,590 --> 00:17:13,510
as the previously disclosed one that the

411
00:17:18,569 --> 00:17:16,600
Navy has on file could easily be among

412
00:17:20,220 --> 00:17:18,579
the information that the intelligence

413
00:17:23,429 --> 00:17:20,230

community and the Department of Defense

414

00:17:25,110 --> 00:17:23,439

might end up compiling for senators to

415

00:17:26,309 --> 00:17:25,120

review yeah hopefully they've got a

416

00:17:27,929 --> 00:17:26,319

little bit more than that and that's

417

00:17:30,570 --> 00:17:27,939

what comes out in that Senate report

418

00:17:32,250 --> 00:17:30,580

something a little bit more akin to what

419

00:17:34,200 --> 00:17:32,260

we've heard regarding the Nimitz case

420

00:17:36,870 --> 00:17:34,210

said the Roosevelt case or not well I

421

00:17:38,790 --> 00:17:36,880

see a drone or I see an airplane and

422

00:17:42,270 --> 00:17:38,800

we're not sure who it is hopefully it's

423

00:17:44,460 --> 00:17:42,280

more than that but again this article is

424

00:17:47,970 --> 00:17:44,470

proof positive that the even the most

425

00:17:49,770 --> 00:17:47,980

mundane types of cases do get reported

426

00:17:52,200 --> 00:17:49,780

so if there is anything a little bit

427

00:17:54,090 --> 00:17:52,210

more exciting than that you got a you

428

00:17:56,370 --> 00:17:54,100

got a figure that's getting reported too

429

00:18:00,090 --> 00:17:56,380

and obviously those are the reports that

430

00:18:03,480 --> 00:18:00,100

we want to see and also the in this

431

00:18:06,750 --> 00:18:03,490

email chain from Defense Department

432

00:18:10,549 --> 00:18:06,760

folks going back involving Air Force

433

00:18:15,020 --> 00:18:10,559

personnel and civilian employees of the

434

00:18:17,970 --> 00:18:15,030

of the Pentagon this email came out

435

00:18:21,720 --> 00:18:17,980

regarding how the Air Force handles

436

00:18:26,240 --> 00:18:21,730

these types of reports from sue looks

437

00:18:28,770 --> 00:18:26,250

from a sue guff or to sue guff and

438

00:18:30,600 --> 00:18:28,780

basically the key paragraph here

439

00:18:32,580 --> 00:18:30,610

currently the Air Force is not working

440

00:18:35,970 --> 00:18:32,590

any specific guidelines for reporting

441

00:18:37,650 --> 00:18:35,980

you IPS a sidenote and off the record we

442

00:18:39,750 --> 00:18:37,660

do have reporting instructions for

443

00:18:41,110 --> 00:18:39,760

unauthorized air vehicles military

444

00:18:44,410 --> 00:18:41,120

installation airspace

445

00:18:47,020 --> 00:18:44,420

violation but that is more in the COAS

446

00:18:51,070 --> 00:18:47,030

realm that information is provided via

447

00:18:52,690 --> 00:18:51,080

op reps or s IPR so here's that opera

448

00:18:55,000 --> 00:18:52,700

name again that is something we've

449

00:18:58,090 --> 00:18:55,010

talked about Paul Dean has made sort of

450

00:19:00,820 --> 00:18:58,100

a cottage industry of ferreting out not

451
00:19:02,890 --> 00:19:00,830
really interesting UFO cases that were

452
00:19:05,290 --> 00:19:02,900
reported through that uh prep channel a

453
00:19:07,530 --> 00:19:05,300
basically operational report that pretty

454
00:19:10,900 --> 00:19:07,540
simple there and it's sort of a

455
00:19:12,549 --> 00:19:10,910
catch-all a device for someone to report

456
00:19:15,669 --> 00:19:12,559
something that doesn't really fit into

457
00:19:17,860 --> 00:19:15,679
any other type of category it can range

458
00:19:20,650 --> 00:19:17,870
from something like a UFO encounter to a

459
00:19:22,540 --> 00:19:20,660
an instance of sexual harassment really

460
00:19:24,669 --> 00:19:22,550
literally anything and everything that

461
00:19:27,580 --> 00:19:24,679
doesn't fit into a sort of a normal

462
00:19:30,010 --> 00:19:27,590
channel goes into an opera report

463
00:19:31,600 --> 00:19:30,020

apparently that is what the Air Force is

464

00:19:35,830 --> 00:19:31,610

still using and they don't have any kind

465

00:19:37,419 --> 00:19:35,840

of formal specific UFO you and they all

466

00:19:40,390 --> 00:19:37,429

seem to be using you IP but I'm gonna

467

00:19:44,890 --> 00:19:40,400

stick the UFO Eddie a specific UFO

468

00:19:48,460 --> 00:19:44,900

Channel so now we move some from the

469

00:19:50,470 --> 00:19:48,470

very exciting interesting important end

470

00:19:52,540 --> 00:19:50,480

of the pool to the dirty end of the pool

471

00:19:54,010 --> 00:19:52,550

where we start talking about fake

472

00:19:55,930 --> 00:19:54,020

documents that have been not floating

473

00:19:58,000 --> 00:19:55,940

around again and have been getting

474

00:20:01,660 --> 00:19:58,010

probably an undue level of attention

475

00:20:03,850 --> 00:20:01,670

this most recent dacha has been floating

476

00:20:06,010 --> 00:20:03,860

around out there for some time but

477

00:20:09,010 --> 00:20:06,020

apparently through some has been

478

00:20:10,870 --> 00:20:09,020

discussed by among others how put off

479

00:20:15,220 --> 00:20:10,880

who is on record is vouching for it's

480

00:20:17,890 --> 00:20:15,230

legitimate legitimacy as as well as Eric

481

00:20:19,630 --> 00:20:17,900

Davis bol saying this document is legit

482

00:20:21,370 --> 00:20:19,640

well it was I finally figured out which

483

00:20:24,060 --> 00:20:21,380

particular document has been talking

484

00:20:27,190 --> 00:20:24,070

about for some time it is this one and

485

00:20:29,560 --> 00:20:27,200

just I was able to give it a quick read

486

00:20:31,419 --> 00:20:29,570

through read through when it when it

487

00:20:34,390 --> 00:20:31,429

came out and their release became

488

00:20:36,400 --> 00:20:34,400

available to me and immediately with

489

00:20:39,310 --> 00:20:36,410

jumped out to me was the last pair at

490

00:20:41,380 --> 00:20:39,320

last sentence on this particular graphic

491

00:20:43,600 --> 00:20:41,390

I've got here we also believe the

492

00:20:45,790 --> 00:20:43,610

Soviets have calculated the u.s. ECM

493

00:20:48,370 --> 00:20:45,800

capabilities on a level similar to

494

00:20:50,530 --> 00:20:48,380

theirs and are at parity of course of

495

00:20:52,419 --> 00:20:50,540

the word parity should be the one there

496

00:20:53,680 --> 00:20:52,429

is rather than parity now this is

497

00:20:54,880 --> 00:20:53,690

something that I've noticed because I've

498

00:20:56,140 --> 00:20:54,890

read a lot of these documents

499

00:20:58,780 --> 00:20:56,150

looked at a lot of them over the years

500

00:21:02,140 --> 00:20:58,790

and you will often find these little

501
00:21:05,230 --> 00:21:02,150
jokes these a little almost like insider

502
00:21:08,080 --> 00:21:05,240
wink and nods to other people in the the

503
00:21:09,790 --> 00:21:08,090
Intel community as if to say yeah this

504
00:21:12,190 --> 00:21:09,800
is kind of this is a parody this is a

505
00:21:13,630 --> 00:21:12,200
joke we're kidding around here this is

506
00:21:15,850 --> 00:21:13,640
not a legitimate document

507
00:21:17,620 --> 00:21:15,860
well it's certainly possible that a lot

508
00:21:21,010 --> 00:21:17,630
of the misspells and the misuse of that

509
00:21:23,650 --> 00:21:21,020
particular word might well you know just

510
00:21:25,600 --> 00:21:23,660
happen and they do happen I know that

511
00:21:28,480 --> 00:21:25,610
for a fact that wouldn't really stood

512
00:21:32,320 --> 00:21:28,490
out to me as a red flag when I first

513
00:21:34,660 --> 00:21:32,330

read through it no I mean I can tell you

514

00:21:36,940 --> 00:21:34,670

at a very high level a misspellings do

515

00:21:40,270 --> 00:21:36,950

happen over at my website I've got an

516

00:21:43,150 --> 00:21:40,280

article on a meeting that took place in

517

00:21:47,230 --> 00:21:43,160

the White House regarding the UFO

518

00:21:53,770 --> 00:21:47,240

incident over Washington DC in 1952 now

519

00:21:55,870 --> 00:21:53,780

in the in the Truman library's account

520

00:21:59,050 --> 00:21:55,880

of the president's calendar for that

521

00:22:01,390 --> 00:21:59,060

particular entry regarding that

522

00:22:04,180 --> 00:22:01,400

particular meaning of the word aid is

523

00:22:06,610 --> 00:22:04,190

misspelled a couple times normally an

524

00:22:08,530 --> 00:22:06,620

aid used as a noun as a person who was

525

00:22:12,100 --> 00:22:08,540

an aide or assistant to someone it is

526

00:22:14,680 --> 00:22:12,110

spelled a IDE and in this particular

527

00:22:17,860 --> 00:22:14,690

entry it is spelled AI D which is more

528

00:22:20,800 --> 00:22:17,870

the verb you know to aid someone so it's

529

00:22:23,020 --> 00:22:20,810

a the the wrong word is really is being

530

00:22:26,170 --> 00:22:23,030

used there and that you know hey that's

531

00:22:28,360 --> 00:22:26,180

an entry in the president's actual

532

00:22:30,610 --> 00:22:28,370

calendar and it's a misspell so those

533

00:22:33,100 --> 00:22:30,620

kind of things do happen but there are

534

00:22:35,320 --> 00:22:33,110

an awful lot of them in there and there

535

00:22:37,960 --> 00:22:35,330

and again that use of looked misuse of

536

00:22:39,910 --> 00:22:37,970

the word parody that that is awfully

537

00:22:42,160 --> 00:22:39,920

problematic but a couple of researchers

538

00:22:45,700 --> 00:22:42,170

have taken a really deep look at this

539

00:22:48,460 --> 00:22:45,710

they're obviously very well qualified to

540

00:22:51,550 --> 00:22:48,470

do that Paul Dean looked at there

541

00:22:53,980 --> 00:22:51,560

basically the history cited of different

542

00:22:56,410 --> 00:22:53,990

organizations that are mentioned in this

543

00:22:58,930 --> 00:22:56,420

particular document and then that Keith

544

00:23:00,760 --> 00:22:58,940

pastor field last night that put out his

545

00:23:03,160 --> 00:23:00,770

article where he looked more at the

546

00:23:05,100 --> 00:23:03,170

provenance of this document they both

547

00:23:06,750 --> 00:23:05,110

again raised that many

548

00:23:09,240 --> 00:23:06,760

more red flags there's literally a sea

549

00:23:11,400 --> 00:23:09,250

of red flags regarding this particular

550

00:23:13,880 --> 00:23:11,410

document Paula

551
00:23:16,799 --> 00:23:13,890
took the extra step of actually offering

552
00:23:20,220 --> 00:23:16,809
\$1,000 to Peru for anyone to prove that

553
00:23:22,020 --> 00:23:20,230
this is a genuine document and Paul

554
00:23:24,840 --> 00:23:22,030
definitely wrote this I can hear his

555
00:23:26,340 --> 00:23:24,850
voice as I read it so I had the mention

556
00:23:29,220 --> 00:23:26,350
of certain government agencies which

557
00:23:31,650 --> 00:23:29,230
didn't even exist in 1961 is far worse

558
00:23:34,110 --> 00:23:31,660
obviously earlier in the article he had

559
00:23:36,480 --> 00:23:34,120
that talked about some of the misuse of

560
00:23:38,190 --> 00:23:36,490
certain words and misspellings but this

561
00:23:40,409 --> 00:23:38,200
is the meat of it there are a lot of

562
00:23:43,409 --> 00:23:40,419
mistakes in this particular document

563
00:23:45,480 --> 00:23:43,419

related to organizations and what they

564

00:23:46,919 --> 00:23:45,490

were called and when they existed and so

565

00:23:50,850 --> 00:23:46,929

on and he goes through it in great

566

00:23:53,190 --> 00:23:50,860

detail which didn't exist in 1961 is far

567

00:23:55,830 --> 00:23:53,200

worse the joint research and development

568

00:23:58,169 --> 00:23:55,840

board went out of existence in 1948 49

569

00:23:59,730 --> 00:23:58,179

was replaced by the research and

570

00:24:02,970 --> 00:23:59,740

development board which was then

571

00:24:05,220 --> 00:24:02,980

abolished in 1953 we see the joint

572

00:24:07,470 --> 00:24:05,230

nuclear energy intelligence committee

573

00:24:10,049 --> 00:24:07,480

named yet it was replaced by the Joint

574

00:24:12,750 --> 00:24:10,059

atomic energy intelligence committee in

575

00:24:16,799 --> 00:24:12,760

1948 in fact that both are named but

576
00:24:18,900 --> 00:24:16,809
only the jaeyi I see existed in 1961 was

577
00:24:20,580 --> 00:24:18,910
the when the document was allegedly

578
00:24:22,620 --> 00:24:20,590
authored hoaxer should have made up

579
00:24:26,400 --> 00:24:22,630
their minds and settle on not only one

580
00:24:29,220 --> 00:24:26,410
our set alone only the ji jaeyi I see

581
00:24:31,380 --> 00:24:29,230
the listing of the CIA's deputy director

582
00:24:38,039 --> 00:24:31,390
of operations is impossible didn't exist

583
00:24:40,320 --> 00:24:38,049
until 73 let's say the CIA's foreign

584
00:24:43,230 --> 00:24:40,330
broadcast information service didn't

585
00:24:45,330 --> 00:24:43,240
exist in 1961 either it was the foreign

586
00:24:49,310 --> 00:24:45,340
broadcast information division back then

587
00:24:53,730 --> 00:24:49,320
and it was only in 1965 that the FBI D

588
00:24:57,620 --> 00:24:53,740

transition to the FBI s oops Los Angeles

589

00:25:00,010 --> 00:24:57,630

National Laboratory was renamed and

590

00:25:04,880 --> 00:25:00,020

and there's a mistake regarding that

591

00:25:07,460 --> 00:25:04,890

some lol a SL staffers ostensibly used

592

00:25:09,830 --> 00:25:07,470

the term National Laboratory on select

593

00:25:11,450 --> 00:25:09,840

formal documents a one researcher who

594

00:25:13,430 --> 00:25:11,460

would prefer not to be named as seen

595

00:25:15,410 --> 00:25:13,440

such records still the use of an

596

00:25:17,720 --> 00:25:15,420

incorrect of otherwise internally

597

00:25:19,820 --> 00:25:17,730

grasped term in such an important

598

00:25:22,070 --> 00:25:19,830

document seems unlikely whatever the

599

00:25:24,260 --> 00:25:22,080

situation the impossible organizational

600

00:25:26,510 --> 00:25:24,270

red flags up highlighted are more than

601
00:25:29,330 --> 00:25:26,520
enough to warrant extreme suspicion if

602
00:25:32,360 --> 00:25:29,340
not outright scorn finally the document

603
00:25:34,280 --> 00:25:32,370
mentions the hoax mj-12 group and we all

604
00:25:36,110 --> 00:25:34,290
know where that leads no more discussion

605
00:25:39,170 --> 00:25:36,120
on that affair is worth anyone's time

606
00:25:40,970 --> 00:25:39,180
especially mine so Paula goes through

607
00:25:42,950 --> 00:25:40,980
the details on the organizational

608
00:25:45,710 --> 00:25:42,960
structures and finds obviously a

609
00:25:47,600 --> 00:25:45,720
significant number of problems well

610
00:25:49,760 --> 00:25:47,610
Keith on the other hand took a different

611
00:25:52,220 --> 00:25:49,770
tact and he's focused a little bit more

612
00:25:55,220 --> 00:25:52,230
on the original provenance of the doc

613
00:25:57,350 --> 00:25:55,230

how it how it came out so where did the

614

00:26:00,320 --> 00:25:57,360

document first surface it seems that it

615

00:26:01,520 --> 00:26:00,330

came to light here and he's got the the

616

00:26:03,230 --> 00:26:01,530

quote that I've got he's actually got

617

00:26:05,240 --> 00:26:03,240

the link over and his article over at

618

00:26:07,550 --> 00:26:05,250

his website so you can click on that on

619

00:26:09,530 --> 00:26:07,560

that website the introduction states to

620

00:26:12,140 --> 00:26:09,540

our knowledge this is not only on any

621

00:26:14,030 --> 00:26:12,150

webpage except this one originally

622

00:26:17,120 --> 00:26:14,040

leaked to Tim Cooper and sent by Bob

623

00:26:19,850 --> 00:26:17,130

wood thanks to both this site that UFO

624

00:26:22,370 --> 00:26:19,860

conspiracy calm provides links to the

625

00:26:25,790 --> 00:26:22,380

four-page document it also states in two

626
00:26:28,190 --> 00:26:25,800
thousand Washington DC OSI sources

627
00:26:31,250 --> 00:26:28,200
according to Rick Doty verified this

628
00:26:34,700 --> 00:26:31,260
document as real but is a retype of the

629
00:26:36,740 --> 00:26:34,710
original than an August 2000 email from

630
00:26:39,710 --> 00:26:36,750
Doty to wood referring to a number of

631
00:26:42,320 --> 00:26:39,720
documents in part it states document

632
00:26:45,530 --> 00:26:42,330
five restricted data Atomic Energy Act

633
00:26:47,810 --> 00:26:45,540
of 1954 this document is authentic based

634
00:26:49,760 --> 00:26:47,820
on a source document contained in a

635
00:26:53,150 --> 00:26:49,770
government file this document was

636
00:26:57,170 --> 00:26:53,160
retyped from its original and you know

637
00:26:59,300 --> 00:26:57,180
you're also starting to see connected to

638
00:27:01,460 --> 00:26:59,310

this particular document some really

639

00:27:03,590 --> 00:27:01,470

unfortunate names obviously had DoDEA

640

00:27:07,370 --> 00:27:03,600

not a good one at all and of course Bob

641

00:27:10,250 --> 00:27:07,380

wood with his son Ryan run the majestic

642

00:27:12,470 --> 00:27:10,260

12 documents website and I'm not going

643

00:27:14,630 --> 00:27:12,480

to question that their integrity on that

644

00:27:17,300 --> 00:27:14,640

but basically they believe pretty much

645

00:27:20,300 --> 00:27:17,310

all these fake documents are legitimate

646

00:27:22,460 --> 00:27:20,310

and again that that went through those

647

00:27:25,340 --> 00:27:22,470

kinds of hands and I think don't think

648

00:27:27,260 --> 00:27:25,350

it's impossible that the Wilson notes

649

00:27:29,420 --> 00:27:27,270

documents I went through those hands as

650

00:27:33,620 --> 00:27:29,430

well if they did that's not good news

651
00:27:36,050 --> 00:27:33,630
for the Wilson notes now again the dodi

652
00:27:39,470 --> 00:27:36,060
are assuming not Dodi but put off and

653
00:27:42,260 --> 00:27:39,480
Davis also bowing for these documents as

654
00:27:44,780 --> 00:27:42,270
being legit and of course they are

655
00:27:47,600 --> 00:27:44,790
heavily involved in that the Wilson

656
00:27:50,390 --> 00:27:47,610
notes as well again that's this should

657
00:27:53,390 --> 00:27:50,400
this should be a real red flag for a lot

658
00:27:55,370 --> 00:27:53,400
of folks out there and of course very

659
00:27:58,010 --> 00:27:55,380
little mention from the product folks

660
00:28:00,800 --> 00:27:58,020
that Rick Doty was in fact employed by a

661
00:28:03,680 --> 00:28:00,810
help put off for a number of years put

662
00:28:05,840 --> 00:28:03,690
off has confirmed this vouches for Dodi

663
00:28:07,130 --> 00:28:05,850

as being a nice guy when that questioned

664

00:28:08,810 --> 00:28:07,140

about it doesn't go into much more

665

00:28:11,420 --> 00:28:08,820

detail than that and of course that

666

00:28:15,830 --> 00:28:11,430

nexus in connection with all these fake

667

00:28:18,290 --> 00:28:15,840

documents that is a real problem but be

668

00:28:23,000 --> 00:28:18,300

that as it may were not done yet with

669

00:28:25,310 --> 00:28:23,010

the fake documents and finally we're

670

00:28:27,890 --> 00:28:25,320

going to go back to a topic we spent an

671

00:28:31,910 --> 00:28:27,900

awful lot of time on here the Wilson

672

00:28:34,370 --> 00:28:31,920

notes and before we get into the

673

00:28:36,320 --> 00:28:34,380

resurrection of this case I going to

674

00:28:38,840 --> 00:28:36,330

talk about a point that that Christian

675

00:28:40,610 --> 00:28:38,850

Lambright brought up now in the notes

676

00:28:43,700 --> 00:28:40,620

and you can see I've got these kind of

677

00:28:45,860 --> 00:28:43,710

these different image files kind of

678

00:28:47,840 --> 00:28:45,870

cobbled together here in the lower right

679

00:28:50,300 --> 00:28:47,850

you see the excerpt from the Wilson

680

00:28:53,570 --> 00:28:50,310

notes that Christian Lambright is

681

00:28:57,070 --> 00:28:53,580

talking about we're basically at Castel

682

00:29:00,020 --> 00:28:57,080

Nick's background is sort of laid out by

683

00:29:03,020 --> 00:29:00,030

you knows a part of the story by Wilson

684

00:29:05,960 --> 00:29:03,030

that to Eric Davis who is who is this

685

00:29:08,720 --> 00:29:05,970

guy Michael Chris telic well basically

686

00:29:09,770 --> 00:29:08,730

what Christian did was he paired up what

687

00:29:12,919 --> 00:29:09,780

was in the notes to

688

00:29:14,630 --> 00:29:12,929

Castel Nick's actual resume so there are

689

00:29:17,300 --> 00:29:14,640

some discrepancies and they are

690

00:29:18,190 --> 00:29:17,310

significant something odd in the Davis

691

00:29:20,260 --> 00:29:18,200

Wilson

692

00:29:22,630 --> 00:29:20,270

convinced a Christian posted on page

693

00:29:25,030 --> 00:29:22,640

seven is a discussion that mentions Paul

694

00:29:27,280 --> 00:29:25,040

Kaminsky and Myka stomach Castel ik is

695

00:29:28,990 --> 00:29:27,290

described as a brigadier general and as

696

00:29:31,960 --> 00:29:29,000

being in Kaminsky's office at who is

697

00:29:33,880 --> 00:29:31,970

that Castel ik is also said to be the

698

00:29:36,310 --> 00:29:33,890

sap co-director and a member and

699

00:29:39,300 --> 00:29:36,320

executive secretary of the s AP

700

00:29:42,970 --> 00:29:39,310

Oversight Committee s AP of course is a

701
00:29:45,190 --> 00:29:42,980
special access project among a few other

702
00:29:49,690 --> 00:29:45,200
things but according to Castel Nix Air

703
00:29:51,640 --> 00:29:49,700
Force biography he held above you held

704
00:29:55,090 --> 00:29:51,650
the above positions from June of 94

705
00:29:58,900 --> 00:29:55,100
through September of 95 then moved to

706
00:30:00,580 --> 00:29:58,910
air material command in 1997 when Wilson

707
00:30:03,190 --> 00:30:00,590
is said to have been talking to these

708
00:30:06,490 --> 00:30:03,200
men in Kaminsky's office Castel Nick was

709
00:30:09,190 --> 00:30:06,500
a vice commander at headquarters air

710
00:30:11,680 --> 00:30:09,200
material command at wright-patterson Air

711
00:30:14,140 --> 00:30:11,690
Force Base in Ohio furthermore he was

712
00:30:15,850 --> 00:30:14,150
not a brigadier general in 97 having

713
00:30:21,310 --> 00:30:15,860

already been promoted to Major General

714

00:30:24,400 --> 00:30:21,320

in late 96 so those are excellent points

715

00:30:26,970 --> 00:30:24,410

obviously backed up by facts could they

716

00:30:29,410 --> 00:30:26,980

have been Wilson

717

00:30:33,360 --> 00:30:29,420

making some mistakes in terms of a

718

00:30:37,350 --> 00:30:33,370

Castel Nix actual rank could it be that

719

00:30:39,340 --> 00:30:37,360

that Castel mnek was just visiting

720

00:30:41,950 --> 00:30:39,350

Washington and was in the office it's

721

00:30:44,440 --> 00:30:41,960

not entirely clear I mean those kinds of

722

00:30:46,120 --> 00:30:44,450

things are possible but there are errors

723

00:30:48,670 --> 00:30:46,130

there there are discrepancies between

724

00:30:51,040 --> 00:30:48,680

what the notes state in terms of Castel

725

00:30:54,310 --> 00:30:51,050

Dix resume and in terms of the actual

726

00:30:56,950 --> 00:30:54,320

facts very important points and ones

727

00:30:58,660 --> 00:30:56,960

well worth making not proof but

728

00:31:01,300 --> 00:30:58,670

certainly evidence that there are

729

00:31:04,870 --> 00:31:01,310

continuing problems being ferreted out

730

00:31:06,370 --> 00:31:04,880

regarding these notes now one individual

731

00:31:09,700 --> 00:31:06,380

who doesn't have any problems with the

732

00:31:12,370 --> 00:31:09,710

notes whatsoever is a UFO Joe Joe mirja

733

00:31:14,500 --> 00:31:12,380

he is on record as saying the notes are

734

00:31:16,390 --> 00:31:14,510

real he's convinced of it he's got

735

00:31:18,730 --> 00:31:16,400

sources that have told him this he has

736

00:31:19,510 --> 00:31:18,740

categorized those sources or they aren't

737

00:31:22,810 --> 00:31:19,520

just anybody

738

00:31:25,990 --> 00:31:22,820

they are former needs people that's a

739

00:31:28,930 --> 00:31:26,000

Bigelow's National Institute for

740

00:31:31,630 --> 00:31:28,940

discovery sciences that was folded up

741

00:31:33,670 --> 00:31:31,640

back in 2004 but that wasn't exist

742

00:31:36,130 --> 00:31:33,680

and back during the time that the notes

743

00:31:38,020 --> 00:31:36,140

were being put together and he says

744

00:31:39,700 --> 00:31:38,030

those are his sources he's categorized

745

00:31:42,250 --> 00:31:39,710

them not name them but categorized them

746

00:31:44,980 --> 00:31:42,260

and that they are telling him that these

747

00:31:47,710 --> 00:31:44,990

notes are in fact real now Joe has put

748

00:31:51,550 --> 00:31:47,720

together an exhaustive and exhausting to

749

00:31:53,560 --> 00:31:51,560

go through but exhaustive four-page

750

00:31:55,540 --> 00:31:53,570

report over at his website I do

751
00:31:56,980 --> 00:31:55,550
recommend that whatever your opinion is

752
00:31:59,890 --> 00:31:56,990
on the notes to go over and take a look

753
00:32:01,680 --> 00:31:59,900
at it I would especially recommend part

754
00:32:06,880 --> 00:32:01,690
one which I thought was actually quite

755
00:32:09,850 --> 00:32:06,890
excellent that mmm more closely covers

756
00:32:11,170 --> 00:32:09,860
the actual original meeting which no one

757
00:32:13,240 --> 00:32:11,180
questions has been confirmed by

758
00:32:18,040 --> 00:32:13,250
everybody who took part in it of the

759
00:32:21,790 --> 00:32:18,050
greer mitchell miller and wilson meeting

760
00:32:24,460 --> 00:32:21,800
in the pentagon that back in 97 and that

761
00:32:25,930 --> 00:32:24,470
is of course something that a lot of

762
00:32:27,520 --> 00:32:25,940
people are intrigued by even if they

763
00:32:28,720 --> 00:32:27,530

have problems with the notes I'm not the

764

00:32:30,040 --> 00:32:28,730

only one I've talked to some other

765

00:32:33,520 --> 00:32:30,050

people are pretty interested in that

766

00:32:37,240 --> 00:32:33,530

they don't necessarily think it's as

767

00:32:39,790 --> 00:32:37,250

cut-and-dried as it was a place back in

768

00:32:41,590 --> 00:32:39,800

the day that that does merit some

769

00:32:45,370 --> 00:32:41,600

additional follow-up but still have

770

00:32:47,890 --> 00:32:45,380

problems with these notes now Joe did

771

00:32:50,380 --> 00:32:47,900

also cover more about some of the

772

00:32:53,740 --> 00:32:50,390

research he's done in terms of talking

773

00:32:55,300 --> 00:32:53,750

directly to Commander Miller he did

774

00:32:58,330 --> 00:32:55,310

follow what with commander Miller and an

775

00:33:00,610 --> 00:32:58,340

interview commander Miller did reiterate

776

00:33:02,980 --> 00:33:00,620

that one of the questions that I asked

777

00:33:06,370 --> 00:33:02,990

him regarding his interest in this Koro

778

00:33:08,680 --> 00:33:06,380

case which in the notes it expresses

779

00:33:11,800 --> 00:33:08,690

that that was one of the things that he

780

00:33:14,860 --> 00:33:11,810

asked Wilson to ask this secret

781

00:33:18,400 --> 00:33:14,870

committee with this defense contractor

782

00:33:20,890 --> 00:33:18,410

about and he again an on record stating

783

00:33:23,200 --> 00:33:20,900

that he doesn't have any particular

784

00:33:24,640 --> 00:33:23,210

interest in this case and of course

785

00:33:26,980 --> 00:33:24,650

that's one of the things when these

786

00:33:29,230 --> 00:33:26,990

notes came out that I particularly

787

00:33:32,970 --> 00:33:29,240

jumped on very very quickly because that

788

00:33:35,410 --> 00:33:32,980

socorro case really is not one of the

789

00:33:37,360 --> 00:33:35,420

it's a really interesting case but it's

790

00:33:39,640 --> 00:33:37,370

not one that I think would necessarily

791

00:33:41,620 --> 00:33:39,650

get a lot of people's attention so when

792

00:33:43,780 --> 00:33:41,630

he says that I have no doubt that he's

793

00:33:44,409 --> 00:33:43,790

telling the truth on that and that would

794

00:33:47,259 --> 00:33:44,419

therefore

795

00:33:50,409 --> 00:33:47,269

make those documents in that instance at

796

00:33:52,919 --> 00:33:50,419

the very least the fabrication that that

797

00:33:55,919 --> 00:33:52,929

the serpo material which is

798

00:33:59,529 --> 00:33:55,929

unquestionably a hoax a references this

799

00:34:02,080 --> 00:33:59,539

summit meeting between extraterrestrials

800

00:34:04,210 --> 00:34:02,090

and air force members had to Holloman

801
00:34:08,200 --> 00:34:04,220
Air Force Base and they list a very

802
00:34:11,530 --> 00:34:08,210
specific date April 24th 1964 that is

803
00:34:13,659 --> 00:34:11,540
the date of the Socorro case so there

804
00:34:18,309 --> 00:34:13,669
has always been an effort and this these

805
00:34:24,639 --> 00:34:18,319
disinformation efforts to tie the little

806
00:34:27,250 --> 00:34:24,649
mentions of known UFO cases to this

807
00:34:30,369 --> 00:34:27,260
disinformation ulm aterial there's also

808
00:34:32,500 --> 00:34:30,379
been mentions in the past about the ETS

809
00:34:34,960 --> 00:34:32,510
we know that they come from Zeta

810
00:34:38,559 --> 00:34:34,970
Reticuli which is of course was

811
00:34:40,180 --> 00:34:38,569
identified as via the Betty Hill star

812
00:34:42,190 --> 00:34:40,190
map as the location for these

813
00:34:44,440 --> 00:34:42,200

extraterrestrials that was also

814

00:34:46,299 --> 00:34:44,450

mentioned by Bob Lazar he said that he

815

00:34:48,280 --> 00:34:46,309

was told that the Air Force knows

816

00:34:51,369 --> 00:34:48,290

they're from the Zeta Reticuli and of

817

00:34:53,049 --> 00:34:51,379

course that's that's highly highly

818

00:34:56,770 --> 00:34:53,059

unlikely I would have to go ahead and

819

00:34:58,599 --> 00:34:56,780

say but that Joanne he asked me some

820

00:35:01,480 --> 00:34:58,609

questions and I followed up with him and

821

00:35:03,400 --> 00:35:01,490

I gave him what we had regarding us some

822

00:35:05,559 --> 00:35:03,410

of the stuff that he asked us about and

823

00:35:07,960 --> 00:35:05,569

he did include that mention in them I

824

00:35:10,180 --> 00:35:07,970

don't have any real harsh criticisms

825

00:35:12,730 --> 00:35:10,190

here I just would like to take a moment

826

00:35:15,700 --> 00:35:12,740

now to sort of qualify some of the

827

00:35:16,299 --> 00:35:15,710

things that he wrote and let me get to

828

00:35:18,819 --> 00:35:16,309

that right now

829

00:35:20,740 --> 00:35:18,829

stalter has also repeatedly pointed out

830

00:35:22,930 --> 00:35:20,750

that in the documents Wilson talks about

831

00:35:25,660 --> 00:35:22,940

rich and Doug from the new a Pheo

832

00:35:28,299 --> 00:35:25,670

chapter now that is of course true and

833

00:35:31,720 --> 00:35:28,309

of course I believe that I've identified

834

00:35:33,640 --> 00:35:31,730

rich as being a rich Cohen who was the

835

00:35:35,890 --> 00:35:33,650

founder of that a Pheo chapter it does

836

00:35:39,130 --> 00:35:35,900

turn out quite correct that it was a new

837

00:35:41,200 --> 00:35:39,140

chapter in October of 2002 that is in

838

00:35:43,630 --> 00:35:41,210

fact quite accurate and that would also

839

00:35:46,599 --> 00:35:43,640

indicate that whoever put those Doc's

840

00:35:49,299 --> 00:35:46,609

together knew where the inner workings

841

00:35:52,200 --> 00:35:49,309

of that organization as well as a lot of

842

00:35:54,880 --> 00:35:52,210

other things so

843

00:35:56,829 --> 00:35:54,890

the Las Vegas chapter and how they need

844

00:35:57,849 --> 00:35:56,839

speakers to help raise money and

845

00:36:00,519 --> 00:35:57,859

membership of course that's quite

846

00:36:02,470 --> 00:36:00,529

accurate stalter now this is this is the

847

00:36:04,809 --> 00:36:02,480

sentence I have a some issue with and I

848

00:36:07,120 --> 00:36:04,819

think needs clarification stalter

849

00:36:09,279 --> 00:36:07,130

believes if the Wilson Davis document is

850

00:36:11,950 --> 00:36:09,289

real Wilson would have been a speaker

851
00:36:13,749 --> 00:36:11,960
there so he got a John quote from John

852
00:36:16,230 --> 00:36:13,759
Alexander actually chant got that quote

853
00:36:18,130 --> 00:36:16,240
from Alexander but that's ok

854
00:36:20,079 --> 00:36:18,140
Wilson though would have been a speaker

855
00:36:23,620 --> 00:36:20,089
there I wouldn't say it but I wouldn't

856
00:36:25,269 --> 00:36:23,630
put it that way what I believe is if you

857
00:36:27,880 --> 00:36:25,279
know and I went back in I did the

858
00:36:31,059 --> 00:36:27,890
research into the newsletters of a Pheo

859
00:36:32,319 --> 00:36:31,069
where they list the goings-on at

860
00:36:36,309 --> 00:36:32,329
different chapters are around the

861
00:36:38,920 --> 00:36:36,319
country and in October 2002 in fact the

862
00:36:41,289 --> 00:36:38,930
a Pheo chapter in Las Vegas had its very

863
00:36:42,849 --> 00:36:41,299

first meetings what I believe is that if

864

00:36:46,089 --> 00:36:42,859

Wilson had been there that would have

865

00:36:48,940 --> 00:36:46,099

been recorded and we would have had some

866

00:36:51,130 --> 00:36:48,950

proof that the Wilson was in Vegas at

867

00:36:53,410 --> 00:36:51,140

least in roughly the timeframe the notes

868

00:36:57,640 --> 00:36:53,420

are purported to have been taken and

869

00:37:00,279 --> 00:36:57,650

what has actually happened of course

870

00:37:02,349 --> 00:37:00,289

Billy Cox I was able to follow up a

871

00:37:05,440 --> 00:37:02,359

couple weeks back with Wilson himself

872

00:37:08,759 --> 00:37:05,450

and Wilson gave a very broad very

873

00:37:11,559 --> 00:37:08,769

specific denial where he talked about

874

00:37:13,390 --> 00:37:11,569

the the mention of the aides ferrying

875

00:37:15,549 --> 00:37:13,400

him around that he was retired at that

876

00:37:17,349 --> 00:37:15,559

point that the Navy personnel was not

877

00:37:19,420 --> 00:37:17,359

driving him from place to place he was

878

00:37:21,549 --> 00:37:19,430

retired so that didn't happen and he

879

00:37:26,019 --> 00:37:21,559

also said very specifically I have not

880

00:37:30,190 --> 00:37:26,029

been in Las Vegas since 1979 1980

881

00:37:31,870 --> 00:37:30,200

so again if know let's say for example

882

00:37:34,569 --> 00:37:31,880

if he had made a statement like that and

883

00:37:36,309 --> 00:37:34,579

we had it on record in the the a Pheo

884

00:37:38,289 --> 00:37:36,319

newsletter that that he had made at

885

00:37:40,900 --> 00:37:38,299

least an appearance at this at this very

886

00:37:43,329 --> 00:37:40,910

first half EO meeting after being told

887

00:37:45,670 --> 00:37:43,339

all about how rich and dog were having

888

00:37:47,470 --> 00:37:45,680

some trouble or just going through some

889

00:37:49,210 --> 00:37:47,480

issues with getting the whole thing

890

00:37:50,650 --> 00:37:49,220

together that would have put the lie to

891

00:37:53,920 --> 00:37:50,660

that and that didn't happen it also

892

00:37:55,450 --> 00:37:53,930

would have proven that that Wilson that

893

00:37:57,910 --> 00:37:55,460

was in the area and roughly the

894

00:38:01,359 --> 00:37:57,920

timeframe that though has proven that

895

00:38:03,460 --> 00:38:01,369

not to be the case so and then going but

896

00:38:04,690 --> 00:38:03,470

in the documents Wilson was on this is a

897

00:38:06,370 --> 00:38:04,700

Joe sort of rebuttal

898

00:38:09,490 --> 00:38:06,380

that point even though it's not exactly

899

00:38:11,980 --> 00:38:09,500

a carefully represented or accurately

900

00:38:13,690 --> 00:38:11,990

represented but in the documents Wilson

901
00:38:16,089 --> 00:38:13,700
was on a tour on it and to say goodbye

902
00:38:18,819 --> 00:38:16,099
we have no idea how long he may have

903
00:38:21,040 --> 00:38:18,829
been in Vegas would he have had time to

904
00:38:24,010 --> 00:38:21,050
lecture and I'll take some issue with

905
00:38:25,720 --> 00:38:24,020
that a little bit - well it does take

906
00:38:28,210 --> 00:38:25,730
some time to put together lectures and

907
00:38:29,740 --> 00:38:28,220
there's no question that at these a Pheo

908
00:38:31,780 --> 00:38:29,750
meetings people do come in and give

909
00:38:33,790 --> 00:38:31,790
presentations and lectures and so on and

910
00:38:35,859 --> 00:38:33,800
so forth but it's also a first meeting

911
00:38:39,280 --> 00:38:35,869
and if Wilson's in town for him to stop

912
00:38:40,720 --> 00:38:39,290
by and that like at a store opening

913
00:38:43,390 --> 00:38:40,730

where you might bring in a celebrity do

914

00:38:45,040 --> 00:38:43,400

it attract attention to your new store

915

00:38:47,260 --> 00:38:45,050

it might have been there something a

916

00:38:49,240 --> 00:38:47,270

little bit more than that like that if

917

00:38:50,770 --> 00:38:49,250

it had happened which it didn't but if

918

00:38:53,200 --> 00:38:50,780

it had you know he doesn't necessarily

919

00:38:54,700 --> 00:38:53,210

have to do a lecture if he shows up it

920

00:38:56,020 --> 00:38:54,710

could be you know they've got this some

921

00:38:58,180 --> 00:38:56,030

business to do but he's there for a

922

00:39:00,099 --> 00:38:58,190

little informal meet and greet to shake

923

00:39:03,099 --> 00:39:00,109

a few hands so welcome to the a Pheo

924

00:39:06,430 --> 00:39:03,109

chapter here in Vegas maybe answer a few

925

00:39:09,280 --> 00:39:06,440

questions rather informally so he's I

926

00:39:12,010 --> 00:39:09,290

think kind of a miss framing my point

927

00:39:13,750 --> 00:39:12,020

there and then finally stalter says

928

00:39:16,500 --> 00:39:13,760

there's no evidence for Wilson being in

929

00:39:19,720 --> 00:39:16,510

Vegas and as of right now he's right I

930

00:39:21,940 --> 00:39:19,730

am right about that and again there

931

00:39:24,309 --> 00:39:21,950

really has not been any evidence brought

932

00:39:27,550 --> 00:39:24,319

forth by the product people to back up

933

00:39:30,099 --> 00:39:27,560

these Doc's not not evidence that that

934

00:39:31,900 --> 00:39:30,109

the meeting took place and but of course

935

00:39:34,150 --> 00:39:31,910

it doesn't change that my opinion that's

936

00:39:35,680 --> 00:39:34,160

fine to Joe's entitled whose opinion IVA

937

00:39:36,460 --> 00:39:35,690

he believes what he wants he likes

938

00:39:38,589 --> 00:39:36,470

sources

939

00:39:41,079 --> 00:39:38,599

he's categorized them at least and I

940

00:39:43,510 --> 00:39:41,089

have no doubt that he's being honest

941

00:39:44,740 --> 00:39:43,520

about all that but it doesn't but that

942

00:39:47,260 --> 00:39:44,750

what he's saying about his sources

943

00:39:48,579 --> 00:39:47,270

doesn't change my opinion either so what

944

00:39:51,430 --> 00:39:48,589

have we seen in the last week

945

00:39:54,480 --> 00:39:51,440

we're also seeing a Eric Davis and he'll

946

00:39:57,309 --> 00:39:54,490

put off vouching for the veracity of a

947

00:39:59,890 --> 00:39:57,319

thoroughly thoroughly debunked fake

948

00:40:02,500 --> 00:39:59,900

document and that's not good on them and

949

00:40:07,020 --> 00:40:02,510

I don't know specifically who his mid

950

00:40:09,309 --> 00:40:07,030

sources might be but I have to say that

951
00:40:10,660 --> 00:40:09,319
you know we're still waiting for some

952
00:40:12,400 --> 00:40:10,670
evidence we're still waiting for some

953
00:40:14,500 --> 00:40:12,410
evidence but I do give the pro doc

954
00:40:16,300 --> 00:40:14,510
people credit I mean they got knocked

955
00:40:18,190 --> 00:40:16,310
down pretty thoroughly by the Wilson

956
00:40:19,750 --> 00:40:18,200
denial more information come

957
00:40:22,089 --> 00:40:19,760
from Christian Lambright about some

958
00:40:24,010 --> 00:40:22,099
problems with those knocks but they they

959
00:40:25,960 --> 00:40:24,020
take a lickin and they keep on tickin so

960
00:40:29,380 --> 00:40:25,970
I give him credit for that and we'll see

961
00:40:31,930 --> 00:40:29,390
what happens again in the recent past

962
00:40:34,230 --> 00:40:31,940
that may be a couple months back Ralph

963
00:40:37,450 --> 00:40:34,240

Blumenthal from the New York Times

964

00:40:39,220 --> 00:40:37,460

contacted Michael hall and they had a

965

00:40:41,589 --> 00:40:39,230

discussion about the docks so there is

966

00:40:44,020 --> 00:40:41,599

some interest on that end Leslie Kean

967

00:40:46,450 --> 00:40:44,030

who is a co-written New York Times

968

00:40:48,099 --> 00:40:46,460

stories with Blumenthal has a track

969

00:40:50,319 --> 00:40:48,109

record of a being interested in this

970

00:40:51,940 --> 00:40:50,329

specific case she did write about it in

971

00:40:54,400 --> 00:40:51,950

The Boston Globe at least about the

972

00:40:56,200 --> 00:40:54,410

original meeting back in the late 2000s

973

00:40:58,420 --> 00:40:56,210

obviously before these notes came out so

974

00:41:00,730 --> 00:40:58,430

she as far as I know hasn't addressed

975

00:41:02,859 --> 00:41:00,740

them in any form but she did write about

976

00:41:05,230 --> 00:41:02,869

that the original Wilson meeting with

977

00:41:08,020 --> 00:41:05,240

Mitchell and Greer and she has in the

978

00:41:10,660 --> 00:41:08,030

past been involved heavily in the

979

00:41:14,230 --> 00:41:10,670

foiling information regarding the

980

00:41:17,020 --> 00:41:14,240

Kecksburg UFO case not sure what landed

981

00:41:18,940 --> 00:41:17,030

in Kecksburg but i am quite convinced

982

00:41:20,950 --> 00:41:18,950

that it was a genuine crash retrieval

983

00:41:23,740 --> 00:41:20,960

case and those are of course interested

984

00:41:25,089 --> 00:41:23,750

what I'm looking at now and there seems

985

00:41:27,309 --> 00:41:25,099

to be a lot of talking where that

986

00:41:29,349 --> 00:41:27,319

weather is smoke there is some fire we

987

00:41:31,450 --> 00:41:29,359

might be seeing a good bit more about

988

00:41:34,300 --> 00:41:31,460

crash retrievals coming up in the near

989

00:41:37,000 --> 00:41:34,310

future and I've been looking closer at

990

00:41:39,579 --> 00:41:37,010

the some that we know about and some

991

00:41:42,849 --> 00:41:39,589

other some that we know about regarding

992

00:41:45,220 --> 00:41:42,859

either UFO stuff which doesn't really

993

00:41:47,290 --> 00:41:45,230

have a they're not proved let's put it

994

00:41:48,420 --> 00:41:47,300

that way that what was a retrieved was

995

00:41:50,470 --> 00:41:48,430

in some way shape or form

996

00:41:52,930 --> 00:41:50,480

extraterrestrial but there are certainly

997

00:41:55,300 --> 00:41:52,940

some others again I talked about it last

998

00:42:01,000 --> 00:41:55,310

time the sub project Azorian the Glomar

999

00:42:03,910 --> 00:42:01,010

Explorer case where again a Soviet sub

1000

00:42:05,589 --> 00:42:03,920

sank in the Pacific and we built a ship

1001
00:42:07,780 --> 00:42:05,599
and basically went out there and picked

1002
00:42:10,030 --> 00:42:07,790
it up off the ocean floor a very

1003
00:42:13,000 --> 00:42:10,040
fascinating case the United States

1004
00:42:15,849 --> 00:42:13,010
military and government will go to great

1005
00:42:18,550 --> 00:42:15,859
lengths to recover foreign technology so

1006
00:42:21,309 --> 00:42:18,560
do some of that involve extraterrestrial

1007
00:42:22,809 --> 00:42:21,319
technology well we will see I don't know

1008
00:42:24,160 --> 00:42:22,819
about that but that's about all I have

1009
00:42:27,130 --> 00:42:24,170
time for running a little bit late

1010
00:42:29,349 --> 00:42:27,140
tonight and I'm gonna let you go thanks

1011
00:42:30,700 --> 00:42:29,359
for listening in and we'll be back I

1012
00:42:31,390 --> 00:42:30,710
don't know if we're going to do anything

1013
00:42:33,700 --> 00:42:31,400

over the

1014

00:42:35,829 --> 00:42:33,710

fourth of July weekend but the second

1015

00:42:37,690 --> 00:42:35,839

season of unidentified is going to be

1016

00:42:39,579 --> 00:42:37,700

premiering on the 11th so at the very

1017

00:42:41,950 --> 00:42:39,589

least we'll have something the following

1018

00:42:43,839 --> 00:42:41,960

day where we'll kind of give a quick and

1019

00:42:45,279 --> 00:42:43,849

dirty review of all that so thanks for

1020

00:42:46,960 --> 00:42:45,289

tuning in everybody that's about all
