

# UFO NEWS UPDATE

MORE NY TIMES FALLOUT: DO YOU BELIEVE IN UFOS? I DO!

MELLON ON CRASH RETRIEVALS: THEY'VE GOT LEADS

SCIENTIFIC AMERICAN ARTICLE REVIEW

UNIDENTIFIED E4: MORE THREAT NONSENSE

**UFONN**  
**SUNDAY**

1  
00:01:01,910 --> 00:00:33,220

[Music]

2  
00:01:07,429 --> 00:01:04,710

and happy sunday from philadelphia frank

3  
00:01:09,030 --> 00:01:07,439

here with yet another episode of ufo

4  
00:01:11,750 --> 00:01:09,040

news network sunday

5  
00:01:13,830 --> 00:01:11,760

uh more news coming in the last week

6  
00:01:15,670 --> 00:01:13,840

enough to justify doing another show and

7  
00:01:17,990 --> 00:01:15,680

we're certainly glad about that

8  
00:01:20,469 --> 00:01:18,000

a very interesting week a continued

9  
00:01:22,789 --> 00:01:20,479

fallout from the new york times

10  
00:01:23,830 --> 00:01:22,799

uh story from a couple of weeks ago

11  
00:01:25,990 --> 00:01:23,840

blumenthal and

12  
00:01:28,310 --> 00:01:26,000

keane were able to do a follow-up this

13  
00:01:30,870 --> 00:01:28,320

past week which i'm going to discuss in

14

00:01:31,590 --> 00:01:30,880

a little bit of detail and uh qualify

15

00:01:32,870 --> 00:01:31,600

and

16

00:01:34,870 --> 00:01:32,880

be a little critical of some of the

17

00:01:38,230 --> 00:01:34,880

things that they had to say uh

18

00:01:40,310 --> 00:01:38,240

also uh this morning christopher mellon

19

00:01:43,190 --> 00:01:40,320

appeared on the smarkonis show

20

00:01:44,550 --> 00:01:43,200

on cnn talked a little bit more about

21

00:01:47,990 --> 00:01:44,560

crash retrievals

22

00:01:50,230 --> 00:01:48,000

when asked about it and also

23

00:01:52,469 --> 00:01:50,240

in the news in the last week the

24

00:01:54,389 --> 00:01:52,479

scientific american published a story by

25

00:01:56,709 --> 00:01:54,399

a couple of scientists in which

26  
00:01:57,510 --> 00:01:56,719  
they called for more scientific study of

27  
00:01:59,510 --> 00:01:57,520  
the ufo

28  
00:02:00,709 --> 00:01:59,520  
issue so it was a very interesting week

29  
00:02:04,149 --> 00:02:00,719  
and of course i'll wrap up

30  
00:02:07,749 --> 00:02:04,159  
with a uh let's see with a

31  
00:02:10,070 --> 00:02:07,759  
review of episode four of the

32  
00:02:13,670 --> 00:02:10,080  
unidentified show and let me make a

33  
00:02:16,550 --> 00:02:13,680  
quick fix on that hang on here episode

34  
00:02:17,670 --> 00:02:16,560  
four not episode five okay hang on a sec

35  
00:02:19,910 --> 00:02:17,680  
so there we go

36  
00:02:22,390 --> 00:02:19,920  
a little uh quick fix on that and let's

37  
00:02:24,470 --> 00:02:22,400  
get right to it and start talking about

38  
00:02:26,309 --> 00:02:24,480

uh the new york times story it was a a

39

00:02:28,229 --> 00:02:26,319

big story not this past week but the

40

00:02:29,350 --> 00:02:28,239

week before about the crash retrieval

41

00:02:32,150 --> 00:02:29,360

issue

42

00:02:33,350 --> 00:02:32,160

and uh keene and blumenthal did follow

43

00:02:35,670 --> 00:02:33,360

up this week

44

00:02:38,150 --> 00:02:35,680

and uh the the headline of their story

45

00:02:40,550 --> 00:02:38,160

read do we believe in ufos

46

00:02:41,430 --> 00:02:40,560

that's the wrong question so let me uh

47

00:02:43,670 --> 00:02:41,440

go through some

48

00:02:45,670 --> 00:02:43,680

key elements in the story here we're

49

00:02:48,229 --> 00:02:45,680

often asked by well-meaning associates

50

00:02:50,710 --> 00:02:48,239

and readers do you believe in ufos

51  
00:02:52,309 --> 00:02:50,720  
the question sets us up back as being

52  
00:02:54,630 --> 00:02:52,319  
inappropriately personal

53  
00:02:56,550 --> 00:02:54,640  
or what okay well okay you put the you

54  
00:02:57,830 --> 00:02:56,560  
put the material out there as i'm not so

55  
00:02:59,509 --> 00:02:57,840  
sure about that i don't know why it

56  
00:03:00,470 --> 00:02:59,519  
would be inappropriately personal it's a

57  
00:03:02,149 --> 00:03:00,480  
fair question

58  
00:03:03,990 --> 00:03:02,159  
at times reporters are particularly

59  
00:03:07,110 --> 00:03:04,000  
averse to revealing opinions that could

60  
00:03:08,149 --> 00:03:07,120  
imply possible reporting bias well you

61  
00:03:10,390 --> 00:03:08,159  
know you look at the

62  
00:03:11,830 --> 00:03:10,400  
leslie keane's entire career of writing

63  
00:03:14,470 --> 00:03:11,840

books about ufos

64

00:03:15,350 --> 00:03:14,480

of being closely involved with bud

65

00:03:17,910 --> 00:03:15,360

hopkins

66

00:03:18,470 --> 00:03:17,920

of uh currently getting about published

67

00:03:21,430 --> 00:03:18,480

on

68

00:03:21,750 --> 00:03:21,440

uh near death experiences so you know

69

00:03:25,030 --> 00:03:21,760

what

70

00:03:27,270 --> 00:03:25,040

entire her entire career

71

00:03:28,630 --> 00:03:27,280

indicates i wouldn't say a bias in a

72

00:03:31,030 --> 00:03:28,640

negative sense but a

73

00:03:32,149 --> 00:03:31,040

deep interest in that the paranormal so

74

00:03:33,509 --> 00:03:32,159

it's like come on what are you what are

75

00:03:35,670 --> 00:03:33,519

you talking about here

76

00:03:37,430 --> 00:03:35,680

uh but going back to the article but in

77

00:03:38,390 --> 00:03:37,440

this case uh we have no problem uh

78

00:03:41,190 --> 00:03:38,400

responding

79

00:03:41,830 --> 00:03:41,200

no we don't believe in ufos which again

80

00:03:44,390 --> 00:03:41,840

seems

81

00:03:45,670 --> 00:03:44,400

like who wrote this are you kidding here

82

00:03:48,390 --> 00:03:45,680

what are we talking about

83

00:03:49,509 --> 00:03:48,400

of course ufos unidentified flying

84

00:03:51,830 --> 00:03:49,519

objects in the

85

00:03:53,830 --> 00:03:51,840

the strictest sense of the definition is

86

00:03:54,710 --> 00:03:53,840

any kind of flying object that you don't

87

00:03:57,429 --> 00:03:54,720

know what it is

88

00:03:59,750 --> 00:03:57,439

of course i i do agree that the question

89

00:04:01,429 --> 00:03:59,760

do you believe in ufos is uh

90

00:04:03,589 --> 00:04:01,439

not the best question of course really

91

00:04:04,630 --> 00:04:03,599

the best question is do you think or do

92

00:04:07,670 --> 00:04:04,640

you believe that

93

00:04:08,390 --> 00:04:07,680

some ufos are et that's really uh well

94

00:04:10,309 --> 00:04:08,400

you know that's

95

00:04:11,589 --> 00:04:10,319

really the the 64 thousand dollar

96

00:04:14,149 --> 00:04:11,599

question here isn't it

97

00:04:15,589 --> 00:04:14,159

so yeah i would kind of disagree with

98

00:04:17,990 --> 00:04:15,599

the framing so far

99

00:04:19,590 --> 00:04:18,000

again that keene and blumenthal go on as

100

00:04:21,990 --> 00:04:19,600

we see it their existence or

101  
00:04:24,070 --> 00:04:22,000  
non-existence is not a matter of belief

102  
00:04:25,189 --> 00:04:24,080  
that's what the pentagon ufo program has

103  
00:04:27,270 --> 00:04:25,199  
been focusing on

104  
00:04:29,030 --> 00:04:27,280  
making it eminently newsworthy i'm not

105  
00:04:31,350 --> 00:04:29,040  
sure what sense that even makes uh

106  
00:04:33,590 --> 00:04:31,360  
if anything i think uh marco rubio was

107  
00:04:35,990 --> 00:04:33,600  
pretty clear in his interview last week

108  
00:04:38,230 --> 00:04:36,000  
that he's quite convinced that uh these

109  
00:04:40,469 --> 00:04:38,240  
uh these

110  
00:04:41,270 --> 00:04:40,479  
videos captured of objects flying that

111  
00:04:43,830 --> 00:04:41,280  
they don't know

112  
00:04:45,110 --> 00:04:43,840  
uh who is uh piloting them uh that the

113  
00:04:47,590 --> 00:04:45,120

radar and all that

114

00:04:48,710 --> 00:04:47,600

that yeah they're unidentified flying

115

00:04:52,150 --> 00:04:48,720

objects it's not

116

00:04:53,909 --> 00:04:52,160

it's not a question of uh you know uh

117

00:04:55,830 --> 00:04:53,919

are they real do you believe in them or

118

00:04:56,870 --> 00:04:55,840

not yeah there are unidentified flying

119

00:04:58,070 --> 00:04:56,880

objects so again

120

00:05:00,310 --> 00:04:58,080

i kind of don't know what they're

121

00:05:01,029 --> 00:05:00,320

talking about here but uh okay the and

122

00:05:03,110 --> 00:05:01,039

to be clear

123

00:05:04,070 --> 00:05:03,120

going back to the quote ufos don't mean

124

00:05:07,189 --> 00:05:04,080

aliens well

125

00:05:09,430 --> 00:05:07,199

they might not and of course a lot of

126

00:05:10,950 --> 00:05:09,440

ufo cases do get explained as being

127

00:05:13,990 --> 00:05:10,960

perfectly natural or

128

00:05:16,150 --> 00:05:14,000

or man-made objects floating around in

129

00:05:18,310 --> 00:05:16,160

the sky whatever the case may be

130

00:05:19,909 --> 00:05:18,320

but uh yeah i mean that that is what

131

00:05:23,430 --> 00:05:19,919

we're here for isn't it

132

00:05:24,950 --> 00:05:23,440

all you ufo buffs that's uh again the 64

133

00:05:27,430 --> 00:05:24,960

thousand dollar question

134

00:05:28,550 --> 00:05:27,440

uh are some of these ufos et and of

135

00:05:30,469 --> 00:05:28,560

course the answer

136

00:05:31,830 --> 00:05:30,479

uh for me is yeah i think some of them

137

00:05:34,629 --> 00:05:31,840

are do i believe it

138

00:05:37,430 --> 00:05:34,639

well okay but i believe uh i believe is

139

00:05:39,990 --> 00:05:37,440

a pretty high bar but i absolutely think

140

00:05:42,150 --> 00:05:40,000

some of them could might very well be i

141

00:05:43,990 --> 00:05:42,160

can't point to a particular case and say

142

00:05:46,310 --> 00:05:44,000

yeah that's it a hundred percent

143

00:05:48,230 --> 00:05:46,320

but i think over time enough of these

144

00:05:50,870 --> 00:05:48,240

truly extraordinary cases

145

00:05:51,990 --> 00:05:50,880

uh where there are credible witnesses uh

146

00:05:53,909 --> 00:05:52,000

not infrequently

147

00:05:55,110 --> 00:05:53,919

backed up by physical evidence in the

148

00:05:57,430 --> 00:05:55,120

form of radar

149

00:05:58,790 --> 00:05:57,440

yeah i think you put that uh those

150

00:06:00,629 --> 00:05:58,800

together into a pile

151  
00:06:02,950 --> 00:06:00,639  
and you put enough of them together and

152  
00:06:05,430 --> 00:06:02,960  
yeah i think uh some of those cases

153  
00:06:06,230 --> 00:06:05,440  
uh in that pile in that big pile of

154  
00:06:08,870 --> 00:06:06,240  
cases that

155  
00:06:09,590 --> 00:06:08,880  
fit those characteristics that's where

156  
00:06:12,309 --> 00:06:09,600  
you'll find

157  
00:06:13,270 --> 00:06:12,319  
the et's if they're there and yeah i do

158  
00:06:14,870 --> 00:06:13,280  
think they're there so

159  
00:06:16,629 --> 00:06:14,880  
i've been doing this long enough and uh

160  
00:06:18,550 --> 00:06:16,639  
that's what i think okay and

161  
00:06:20,950 --> 00:06:18,560  
i'm not the least bit concerned about

162  
00:06:22,309 --> 00:06:20,960  
saying it so unidentified means we don't

163  
00:06:24,150 --> 00:06:22,319

know what they are only that they

164

00:06:25,510 --> 00:06:24,160

demonstrate capabilities that do not

165

00:06:28,230 --> 00:06:25,520

appear to be possible

166

00:06:29,990 --> 00:06:28,240

through currently available technology

167

00:06:31,670 --> 00:06:30,000

uh it was nice to see a follow-up but it

168

00:06:33,189 --> 00:06:31,680

always gets more attention especially in

169

00:06:34,790 --> 00:06:33,199

the new york times but

170

00:06:36,870 --> 00:06:34,800

honestly it was kind of a throwaway

171

00:06:39,189 --> 00:06:36,880

article we want a little bit more d

172

00:06:40,710 --> 00:06:39,199

in the way of details here and we really

173

00:06:41,830 --> 00:06:40,720

didn't get too much of that in this

174

00:06:44,870 --> 00:06:41,840

particular article

175

00:06:47,990 --> 00:06:44,880

but it leads me to

176

00:06:49,350 --> 00:06:48,000

talk about a a little uh a little bit of

177

00:06:51,350 --> 00:06:49,360

research that was done

178

00:06:53,350 --> 00:06:51,360

back in the day by someone who actually

179

00:06:54,309 --> 00:06:53,360

worked with leslie keane's old boyfriend

180

00:06:59,189 --> 00:06:54,319

john mack

181

00:07:00,870 --> 00:06:59,199

working at harvard he was a psychology

182

00:07:01,589 --> 00:07:00,880

professor or was a psychiatry i'm not

183

00:07:03,589 --> 00:07:01,599

sure which

184

00:07:06,469 --> 00:07:03,599

and he suddenly got interested in the

185

00:07:09,029 --> 00:07:06,479

abductee contactee

186

00:07:10,550 --> 00:07:09,039

phenomenon decided to take a closer look

187

00:07:12,950 --> 00:07:10,560

but being an academic

188

00:07:13,830 --> 00:07:12,960

being a smart guy he had some resources

189

00:07:16,790 --> 00:07:13,840

and sought

190

00:07:18,230 --> 00:07:16,800

out some advice before he decided to uh

191

00:07:20,309 --> 00:07:18,240

get into this whole hog

192

00:07:22,469 --> 00:07:20,319

and uh the person that he went to he was

193

00:07:25,749 --> 00:07:22,479

very lucky guy because he had access

194

00:07:28,230 --> 00:07:25,759

to a very esteemed scientist uh someone

195

00:07:29,749 --> 00:07:28,240

by the name of thomas who was the

196

00:07:31,430 --> 00:07:29,759

author of the book the structure of

197

00:07:34,790 --> 00:07:31,440

scientific revolutions

198

00:07:37,670 --> 00:07:34,800

and in fact uh you likely have

199

00:07:38,390 --> 00:07:37,680

heard or used the expression paradigm

200

00:07:40,870 --> 00:07:38,400

shift

201  
00:07:41,749 --> 00:07:40,880  
meaning just a huge significant change

202  
00:07:44,309 --> 00:07:41,759  
in the

203  
00:07:45,110 --> 00:07:44,319  
the way the world is and our thinking

204  
00:07:47,589 --> 00:07:45,120  
within it

205  
00:07:49,430 --> 00:07:47,599  
and uh kuhn is the guy who coined that

206  
00:07:50,309 --> 00:07:49,440  
phrase in terms of the scientific

207  
00:07:53,510 --> 00:07:50,319  
revolutions

208  
00:07:55,510 --> 00:07:53,520  
paradigm shift that uh that means a big

209  
00:07:57,830 --> 00:07:55,520  
change and not quite possibly

210  
00:07:59,749 --> 00:07:57,840  
a paradigm shift uh seems to be in

211  
00:08:02,070 --> 00:07:59,759  
process in regarding ufos

212  
00:08:03,029 --> 00:08:02,080  
but anyway uh regardless of all that uh

213  
00:08:05,270 --> 00:08:03,039

uh

214

00:08:06,950 --> 00:08:05,280

mac did an interview a few years back

215

00:08:06,950 --> 00:08:07,510

where he talked about his approach of

216

00:08:10,710 --> 00:08:09,670

and this is the this is the advice that

217

00:08:12,629 --> 00:08:10,720

gave him

218

00:08:13,830 --> 00:08:12,639

uh when i started doing this work i went

219

00:08:15,909 --> 00:08:13,840

to see him meaning kuhn

220

00:08:17,110 --> 00:08:15,919

and he was interested he cautioned me in

221

00:08:19,270 --> 00:08:17,120

various ways

222

00:08:20,230 --> 00:08:19,280

he advised me to just collect data to

223

00:08:22,230 --> 00:08:20,240

try to suspend

224

00:08:23,589 --> 00:08:22,240

judgment and look out for the traps of

225

00:08:26,950 --> 00:08:23,599

language like

226

00:08:29,350 --> 00:08:26,960

real unreal exists doesn't exist

227

00:08:30,390 --> 00:08:29,360

happen didn't happen interest psychic

228

00:08:32,469 --> 00:08:30,400

outside

229

00:08:33,670 --> 00:08:32,479

uh he advised me to just report to

230

00:08:36,070 --> 00:08:33,680

regard uh to

231

00:08:37,750 --> 00:08:36,080

record what people were saying uh

232

00:08:38,630 --> 00:08:37,760

feeling and saying and that's what i've

233

00:08:41,909 --> 00:08:38,640

tried to do

234

00:08:43,430 --> 00:08:41,919

and that is really really good advice

235

00:08:44,949 --> 00:08:43,440

and that goes on a little bit more he

236

00:08:46,710 --> 00:08:44,959

got a little bit more advice

237

00:08:48,550 --> 00:08:46,720

the other thing that he said was don't

238

00:08:49,269 --> 00:08:48,560

worry about science because in this

239

00:08:51,030 --> 00:08:49,279

culture

240

00:08:52,870 --> 00:08:51,040

science has become a new kind of

241

00:08:55,269 --> 00:08:52,880

theology what you're really

242

00:08:56,310 --> 00:08:55,279

interested in he said is trying to learn

243

00:08:58,790 --> 00:08:56,320

something and gain

244

00:08:59,590 --> 00:08:58,800

knowledge whether it'll satisfy science

245

00:09:01,590 --> 00:08:59,600

or not

246

00:09:04,230 --> 00:09:01,600

science prefers to study primarily

247

00:09:06,389 --> 00:09:04,240

within the purely material world he said

248

00:09:07,990 --> 00:09:06,399

but don't worry about that and again

249

00:09:10,070 --> 00:09:08,000

that is really good advice i

250

00:09:11,190 --> 00:09:10,080

read this uh little interview a number

251  
00:09:13,430 --> 00:09:11,200  
of years ago

252  
00:09:15,030 --> 00:09:13,440  
and uh have said on the show that's what

253  
00:09:16,550 --> 00:09:15,040  
we're trying to do here trying to gain

254  
00:09:18,949 --> 00:09:16,560  
knowledge about ufos

255  
00:09:19,670 --> 00:09:18,959  
and of course in our case uh go ahead

256  
00:09:23,910 --> 00:09:19,680  
and

257  
00:09:26,550 --> 00:09:23,920  
for everybody but to anybody who's

258  
00:09:26,949 --> 00:09:26,560  
taking a closer look at this ufo field

259  
00:09:30,310 --> 00:09:26,959  
should

260  
00:09:31,269 --> 00:09:30,320  
keep this advice in mind do a screenshot

261  
00:09:33,910 --> 00:09:31,279  
save this meme

262  
00:09:35,269 --> 00:09:33,920  
ask me for it i'll send it to you and

263  
00:09:37,350 --> 00:09:35,279

keep that in mind and

264

00:09:39,269 --> 00:09:37,360

sort of use that as a a bit of a

265

00:09:41,269 --> 00:09:39,279

guidepost in in terms of

266

00:09:42,790 --> 00:09:41,279

going forward i think we're going to see

267

00:09:45,829 --> 00:09:42,800

a lot of language trap

268

00:09:48,550 --> 00:09:45,839

arguments as we move forward uh in this

269

00:09:50,389 --> 00:09:48,560

ufo stuff as we go through this ufo

270

00:09:53,110 --> 00:09:50,399

paradigm shift and that is what we're

271

00:09:55,110 --> 00:09:53,120

going through and uh keep it in mind

272

00:09:56,150 --> 00:09:55,120

avoid those traps of language yeah

273

00:09:59,350 --> 00:09:56,160

sometimes

274

00:10:01,350 --> 00:09:59,360

uh you you do get into them but

275

00:10:03,430 --> 00:10:01,360

i'm telling you don't don't get trapped

276

00:10:03,990 --> 00:10:03,440

by it clear things up and move along

277

00:10:05,829 --> 00:10:04,000

quickly

278

00:10:07,750 --> 00:10:05,839

that's my advice so i'm going to move

279

00:10:08,550 --> 00:10:07,760

along quickly to the next little story

280

00:10:11,350 --> 00:10:08,560

that we've got

281

00:10:13,430 --> 00:10:11,360

but again keep coon's advice in mind

282

00:10:15,829 --> 00:10:13,440

we're looking to gain knowledge and

283

00:10:17,590 --> 00:10:15,839

whether it'll satisfy science or your

284

00:10:19,190 --> 00:10:17,600

parents or the people you work with or

285

00:10:19,590 --> 00:10:19,200

your boyfriend or your girlfriend or

286

00:10:23,430 --> 00:10:19,600

your

287

00:10:24,389 --> 00:10:23,440

neighbor who cares just try to keep on

288

00:10:27,590 --> 00:10:24,399

gaining knowledge

289

00:10:29,190 --> 00:10:27,600

about ufos that's my advice taken from

290

00:10:31,750 --> 00:10:29,200

that the core bit of advice

291

00:10:34,230 --> 00:10:31,760

that kuhn gave mack a number of years

292

00:10:38,550 --> 00:10:36,550

uh this morning uh pleasantly surprised

293

00:10:41,350 --> 00:10:38,560

to see that the christopher millen

294

00:10:43,350 --> 00:10:41,360

appeared on the smerkana show in cnn

295

00:10:45,269 --> 00:10:43,360

i've been familiar with spaghanash for a

296

00:10:46,710 --> 00:10:45,279

lot of years he's a philly guy

297

00:10:48,550 --> 00:10:46,720

has been broadcasting out of

298

00:10:50,949 --> 00:10:48,560

philadelphia for some time doing the

299

00:10:53,430 --> 00:10:50,959

uh the talk radio and political analysis

300

00:10:55,030 --> 00:10:53,440

stuff he's on cnn i guess he's uh on

301  
00:10:57,829 --> 00:10:55,040  
serious radio as well

302  
00:10:59,670 --> 00:10:57,839  
uh but i don't get that but uh he's been

303  
00:11:01,750 --> 00:10:59,680  
around a while he's a

304  
00:11:03,110 --> 00:11:01,760  
pretty grounded guy i certainly don't

305  
00:11:05,750 --> 00:11:03,120  
mind listening to him as

306  
00:11:06,949 --> 00:11:05,760  
far as a mainstream media talking head

307  
00:11:09,670 --> 00:11:06,959  
so it was nice to see

308  
00:11:10,790 --> 00:11:09,680  
him have melon on uh this morning uh

309  
00:11:12,949 --> 00:11:10,800  
christopher mellon

310  
00:11:14,069 --> 00:11:12,959  
and uh let's go to the highlights it's

311  
00:11:16,069 --> 00:11:14,079  
like a five

312  
00:11:18,069 --> 00:11:16,079  
five and a half minute interview a nice

313  
00:11:21,350 --> 00:11:18,079

little chunk of time to spend with melon

314

00:11:23,269 --> 00:11:21,360

and of course uh melon did go through

315

00:11:25,030 --> 00:11:23,279

a few different things related to the

316

00:11:28,710 --> 00:11:25,040

ufo topic in general

317

00:11:29,590 --> 00:11:28,720

but uh obviously uh smokonis has done

318

00:11:32,710 --> 00:11:29,600

his homework and

319

00:11:33,350 --> 00:11:32,720

is aware of the uh the crash retrieval

320

00:11:35,670 --> 00:11:33,360

story

321

00:11:37,430 --> 00:11:35,680

and decided to follow up with melon on

322

00:11:38,069 --> 00:11:37,440

that and that is the key part of the

323

00:11:40,790 --> 00:11:38,079

interview

324

00:11:42,710 --> 00:11:40,800

so let's play the audio on that now i

325

00:11:44,710 --> 00:11:42,720

was quoting eric davis i know you're

326

00:11:46,870 --> 00:11:44,720

familiar with his work when i read that

327

00:11:49,030 --> 00:11:46,880

that new york times paragraph a moment

328

00:11:49,990 --> 00:11:49,040

ago do you believe that there are

329

00:11:52,310 --> 00:11:50,000

objects in

330

00:11:53,190 --> 00:11:52,320

our possession broadly defined our

331

00:11:55,269 --> 00:11:53,200

possession

332

00:11:58,710 --> 00:11:55,279

that are from something other than this

333

00:12:03,190 --> 00:12:00,550

what i will say about that is that i

334

00:12:06,710 --> 00:12:03,200

think that assertion should be taken

335

00:12:09,590 --> 00:12:06,720

seriously um i i'm aware

336

00:12:10,710 --> 00:12:09,600

i know eric very well um i understand

337

00:12:13,910 --> 00:12:10,720

his arguments

338

00:12:17,509 --> 00:12:13,920

uh i was present in his briefings uh

339

00:12:20,470 --> 00:12:17,519

on the hill and uh he tried to provide

340

00:12:23,430 --> 00:12:20,480

some leads for them to follow to enable

341

00:12:25,350 --> 00:12:23,440

them potentially to confirm this

342

00:12:27,190 --> 00:12:25,360

it is an issue that should be taken

343

00:12:30,550 --> 00:12:27,200

seriously in fact

344

00:12:34,550 --> 00:12:30,560

curiously president trump himself on

345

00:12:37,670 --> 00:12:34,560

father's day indicated um

346

00:12:41,190 --> 00:12:37,680

on air while being filmed that

347

00:12:44,230 --> 00:12:41,200

he did have classified information about

348

00:12:45,509 --> 00:12:44,240

roswell new mexico which is as most

349

00:12:48,550 --> 00:12:45,519

people know

350

00:12:53,030 --> 00:12:48,560

is the legendary site of an alleged

351

00:12:55,190 --> 00:12:53,040

craft crash of a uh of a ufo

352

00:12:57,110 --> 00:12:55,200

and when asked by his son about that

353

00:12:58,470 --> 00:12:57,120

about declassifying it he said i'll have

354

00:13:00,629 --> 00:12:58,480

to think about it

355

00:13:03,990 --> 00:13:00,639

i don't know what there is about roswell

356

00:13:07,430 --> 00:13:04,000

that could be classified or interesting

357

00:13:10,550 --> 00:13:07,440

other than that one particular uh issue

358

00:13:12,710 --> 00:13:10,560

so uh there is a lot of of new press and

359

00:13:15,269 --> 00:13:12,720

new information coming forward

360

00:13:16,790 --> 00:13:15,279

uh and again as i said i think this is a

361

00:13:18,829 --> 00:13:16,800

topic that the oversight

362

00:13:23,829 --> 00:13:18,839

communities should take seriously and

363

00:13:28,710 --> 00:13:25,910

well it was certainly very interesting

364

00:13:31,110 --> 00:13:28,720

that mellon brought up the r word

365

00:13:32,710 --> 00:13:31,120

roswell he talked about crash retrievals

366

00:13:34,710 --> 00:13:32,720

and he talked a little bit about the

367

00:13:37,829 --> 00:13:34,720

nature of eric davis's

368

00:13:41,189 --> 00:13:37,839

testimony before

369

00:13:43,030 --> 00:13:41,199

congressional staffers

370

00:13:44,470 --> 00:13:43,040

senators perhaps we don't know the

371

00:13:45,750 --> 00:13:44,480

makeup of the folks that he talked to

372

00:13:46,470 --> 00:13:45,760

could have been just staffers could have

373

00:13:49,910 --> 00:13:46,480

been

374

00:13:51,750 --> 00:13:49,920

we really don't know we don't have

375

00:13:53,750 --> 00:13:51,760

those details uh there were some

376

00:13:54,230 --> 00:13:53,760

questioning uh whether or not he had

377

00:13:57,110 --> 00:13:54,240

actually

378

00:13:59,269 --> 00:13:57,120

done that at all but in fact that has

379

00:14:00,069 --> 00:13:59,279

proven to be the case now confirmed by

380

00:14:01,910 --> 00:14:00,079

mellon

381

00:14:03,509 --> 00:14:01,920

and i'd certainly accepted that didn't

382

00:14:05,430 --> 00:14:03,519

have any problems with that

383

00:14:07,110 --> 00:14:05,440

uh he's been saying these types of

384

00:14:10,069 --> 00:14:07,120

things for some time

385

00:14:11,430 --> 00:14:10,079

and apparently uh based on what uh we

386

00:14:13,670 --> 00:14:11,440

know davis has said

387

00:14:15,509 --> 00:14:13,680

uh in open interviews and that we know

388

00:14:17,590 --> 00:14:15,519

what mellon has said here

389

00:14:19,750 --> 00:14:17,600

is that neither of them really have any

390

00:14:20,550 --> 00:14:19,760

specific knowledge of any particular

391

00:14:24,230 --> 00:14:20,560

crash

392

00:14:27,829 --> 00:14:24,240

program

393

00:14:29,670 --> 00:14:27,839

uh just that such a thing exists

394

00:14:31,269 --> 00:14:29,680

and it doesn't really seem to go any

395

00:14:33,269 --> 00:14:31,279

further than that

396

00:14:36,150 --> 00:14:33,279

a while back i can't remember it was

397

00:14:39,110 --> 00:14:36,160

last year perhaps a year before

398

00:14:41,350 --> 00:14:39,120

davis talked in sort of broad terms not

399

00:14:42,230 --> 00:14:41,360

being able to point to a specific crash

400

00:14:44,790 --> 00:14:42,240

retrieval

401  
00:14:45,350 --> 00:14:44,800  
uh but talk about roswell being a good

402  
00:14:48,310 --> 00:14:45,360  
bet

403  
00:14:49,430 --> 00:14:48,320  
uh he also had mentioned they uh crash a

404  
00:14:52,550 --> 00:14:49,440  
purported crash

405  
00:14:53,350 --> 00:14:52,560  
in del rio that was jumped on by kevin

406  
00:14:55,350 --> 00:14:53,360  
randle

407  
00:14:56,389 --> 00:14:55,360  
who looked into that case a little bit

408  
00:14:58,629 --> 00:14:56,399  
more closely

409  
00:15:00,230 --> 00:14:58,639  
and found that an individual i believe

410  
00:15:02,150 --> 00:15:00,240  
his name was billingham

411  
00:15:03,590 --> 00:15:02,160  
in fact it was sort of a tall tale from

412  
00:15:06,150 --> 00:15:03,600  
this guy and

413  
00:15:08,069 --> 00:15:06,160

nothing came of it davis sort of threw

414

00:15:11,430 --> 00:15:08,079

that out there as an aside

415

00:15:13,350 --> 00:15:11,440

as you know a possibility and randall

416

00:15:15,030 --> 00:15:13,360

jumped all over him and has been very

417

00:15:16,710 --> 00:15:15,040

critical of davis since then

418

00:15:19,269 --> 00:15:16,720

i don't know how fair i don't think that

419

00:15:21,670 --> 00:15:19,279

that criticism is especially fair

420

00:15:23,509 --> 00:15:21,680

but uh both davis mellon the new york

421

00:15:24,310 --> 00:15:23,519

times they're talking about crash

422

00:15:26,629 --> 00:15:24,320

retrievals

423

00:15:28,069 --> 00:15:26,639

and the r word has come up and of course

424

00:15:29,749 --> 00:15:28,079

we like the r word here

425

00:15:31,269 --> 00:15:29,759

i definitely do think there was

426

00:15:34,150 --> 00:15:31,279

something to all that

427

00:15:35,189 --> 00:15:34,160

roswell stuff and we will keep an eye on

428

00:15:38,870 --> 00:15:35,199

all that

429

00:15:42,150 --> 00:15:40,870

now looking for these uh crash retrieval

430

00:15:44,389 --> 00:15:42,160

programs

431

00:15:46,230 --> 00:15:44,399

can be a little bit daunting and i i

432

00:15:47,110 --> 00:15:46,240

suppose there are a few different ways

433

00:15:50,389 --> 00:15:47,120

you could look

434

00:15:52,069 --> 00:15:50,399

uh melon had uh reported that in the

435

00:15:55,030 --> 00:15:52,079

interview today that davis

436

00:15:55,430 --> 00:15:55,040

provided these congressional personnel

437

00:15:57,189 --> 00:15:55,440

with

438

00:15:59,189 --> 00:15:57,199

leads on where they might look and of

439

00:16:00,150 --> 00:15:59,199

course we've got leads here too where

440

00:16:02,870 --> 00:16:00,160

might you look

441

00:16:03,590 --> 00:16:02,880

uh for uh crash retrieval programs of

442

00:16:05,829 --> 00:16:03,600

course

443

00:16:07,030 --> 00:16:05,839

it's been talked about from a lot of i

444

00:16:09,350 --> 00:16:07,040

think some of the more

445

00:16:11,110 --> 00:16:09,360

speculative and not necessarily a

446

00:16:13,269 --> 00:16:11,120

reasonable speculation

447

00:16:14,710 --> 00:16:13,279

coming up from some camps like richard

448

00:16:17,990 --> 00:16:14,720

dolan

449

00:16:19,910 --> 00:16:18,000

as far as these programs being purely

450

00:16:20,790 --> 00:16:19,920

moved over into the private sector as a

451  
00:16:23,030 --> 00:16:20,800  
way of

452  
00:16:25,590 --> 00:16:23,040  
privatizing them properly and once and

453  
00:16:27,509 --> 00:16:25,600  
for all i don't think that's the case

454  
00:16:29,189 --> 00:16:27,519  
but uh the two different ways to look at

455  
00:16:30,150 --> 00:16:29,199  
it you can look at it from the outside

456  
00:16:32,870 --> 00:16:30,160  
in you can look at

457  
00:16:33,350 --> 00:16:32,880  
the these defense contractors and then

458  
00:16:35,829 --> 00:16:33,360  
sort of

459  
00:16:37,829 --> 00:16:35,839  
trace it back to the inside it's uh

460  
00:16:39,430 --> 00:16:37,839  
they've got to get this material from

461  
00:16:40,629 --> 00:16:39,440  
somewhere they don't have their crash

462  
00:16:42,870 --> 00:16:40,639  
retrieval programs

463  
00:16:44,470 --> 00:16:42,880

so it's got to come from the military or

464

00:16:46,949 --> 00:16:44,480

do you look at it from the inside

465

00:16:47,590 --> 00:16:46,959

out we'll take a look right now from the

466

00:16:49,749 --> 00:16:47,600

inside

467

00:16:51,110 --> 00:16:49,759

out and who might be some of the key

468

00:16:53,749 --> 00:16:51,120

players involved

469

00:16:54,710 --> 00:16:53,759

in this type of crash retrieval work

470

00:16:57,269 --> 00:16:54,720

obviously

471

00:16:58,870 --> 00:16:57,279

uh darpa would be one of those uh right

472

00:16:59,670 --> 00:16:58,880

at the top of the list as a matter of

473

00:17:01,990 --> 00:16:59,680

fact

474

00:17:04,470 --> 00:17:02,000

with darpa that is of course the defense

475

00:17:07,909 --> 00:17:04,480

advanced research projects agency

476  
00:17:10,470 --> 00:17:07,919  
and they develop emergency emerging

477  
00:17:12,630 --> 00:17:10,480  
technologies for use by the military

478  
00:17:15,029 --> 00:17:12,640  
then over on the air force side you have

479  
00:17:18,069 --> 00:17:15,039  
of course the air force materiel command

480  
00:17:20,230 --> 00:17:18,079  
which going back in the day they oversaw

481  
00:17:21,429 --> 00:17:20,240  
project blue book what they do is

482  
00:17:24,870 --> 00:17:21,439  
research develop

483  
00:17:27,350 --> 00:17:24,880  
test evaluate acquire maintenance

484  
00:17:28,309 --> 00:17:27,360  
and do program management of existing

485  
00:17:30,310 --> 00:17:28,319  
and future

486  
00:17:32,070 --> 00:17:30,320  
uh air force weapon systems and their

487  
00:17:33,750 --> 00:17:32,080  
components and then of course

488  
00:17:35,830 --> 00:17:33,760

so they have their their own lab

489

00:17:37,830 --> 00:17:35,840

underneath them the air force

490

00:17:39,750 --> 00:17:37,840

research laboratory uh that's a

491

00:17:40,549 --> 00:17:39,760

scientific research organization

492

00:17:43,110 --> 00:17:40,559

operated

493

00:17:43,830 --> 00:17:43,120

by the air material command and they

494

00:17:46,789 --> 00:17:43,840

lead

495

00:17:49,110 --> 00:17:46,799

on discovery development integration of

496

00:17:51,110 --> 00:17:49,120

aerospace warfighting technologies

497

00:17:52,789 --> 00:17:51,120

planning and executing air force science

498

00:17:56,150 --> 00:17:52,799

and technology programs

499

00:17:56,789 --> 00:17:56,160

and provide warfighting capabilities to

500

00:17:59,750 --> 00:17:56,799

the u.s

501  
00:18:01,669 --> 00:17:59,760  
air space and cyber space forces then on

502  
00:18:02,549 --> 00:18:01,679  
the navy side the office of naval

503  
00:18:04,710 --> 00:18:02,559  
research

504  
00:18:06,549 --> 00:18:04,720  
it's an organization within the uh

505  
00:18:08,470 --> 00:18:06,559  
department of the navy responsible for

506  
00:18:10,150 --> 00:18:08,480  
the science and technology programs of

507  
00:18:11,669 --> 00:18:10,160  
the navy and the marine corps

508  
00:18:13,430 --> 00:18:11,679  
and then under them they've got their

509  
00:18:16,710 --> 00:18:13,440  
naval research laboratory

510  
00:18:19,029 --> 00:18:16,720  
and that is a research laboratory that

511  
00:18:19,990 --> 00:18:19,039  
conducts scientific research applied

512  
00:18:21,590 --> 00:18:20,000  
research

513  
00:18:23,029 --> 00:18:21,600

technological development and

514

00:18:25,510 --> 00:18:23,039

prototyping and

515

00:18:26,470 --> 00:18:25,520

specializes in plasma physics space

516

00:18:29,350 --> 00:18:26,480

physics

517

00:18:30,870 --> 00:18:29,360

material sciences and tactical

518

00:18:32,390 --> 00:18:30,880

electronic warfare

519

00:18:34,630 --> 00:18:32,400

so that's what they do and those are

520

00:18:35,909 --> 00:18:34,640

some of the names that that might turn

521

00:18:38,549 --> 00:18:35,919

up in the future if

522

00:18:39,990 --> 00:18:38,559

more details come out as far as any kind

523

00:18:42,390 --> 00:18:40,000

of crash retrieval

524

00:18:43,110 --> 00:18:42,400

any kind of et reverse engineering

525

00:18:45,430 --> 00:18:43,120

programs

526

00:18:46,870 --> 00:18:45,440

uh that's on the inside uh working its

527

00:18:49,909 --> 00:18:46,880

way out towards corporate

528

00:18:50,870 --> 00:18:49,919

and as far as corporate is concerned uh

529

00:18:52,710 --> 00:18:50,880

because of

530

00:18:54,390 --> 00:18:52,720

the silliness surrounding the uh the

531

00:18:57,029 --> 00:18:54,400

wilson davis notes

532

00:18:58,950 --> 00:18:57,039

uh there's been a lot of talk about uh

533

00:19:01,029 --> 00:18:58,960

different

534

00:19:03,190 --> 00:19:01,039

defense contractors are really more on

535

00:19:06,630 --> 00:19:03,200

the the manufacturing side

536

00:19:07,669 --> 00:19:06,640

lockheed martin uh let's see who else is

537

00:19:10,870 --> 00:19:07,679

there there's a

538

00:19:12,390 --> 00:19:10,880

grumman grumman northrup or northrop

539

00:19:14,950 --> 00:19:12,400

grumman i should say

540

00:19:15,750 --> 00:19:14,960

and those types of companies but there

541

00:19:18,310 --> 00:19:15,760

were also and

542

00:19:18,870 --> 00:19:18,320

i went into a lot of detail about this

543

00:19:21,350 --> 00:19:18,880

on

544

00:19:23,350 --> 00:19:21,360

earlier shows there are also a lot of

545

00:19:26,230 --> 00:19:23,360

research institutes out there

546

00:19:27,990 --> 00:19:26,240

that might depending on what's in hand

547

00:19:30,470 --> 00:19:28,000

they might well

548

00:19:32,789 --> 00:19:30,480

be among the contractors used not

549

00:19:35,029 --> 00:19:32,799

necessarily a manufacturing contractor

550

00:19:36,950 --> 00:19:35,039

but a research facility like the

551  
00:19:38,070 --> 00:19:36,960  
battelle memorial institute which has

552  
00:19:41,029 --> 00:19:38,080  
been reported

553  
00:19:41,430 --> 00:19:41,039  
uh is still doing uh work on ufos at

554  
00:19:44,710 --> 00:19:41,440  
least

555  
00:19:46,630 --> 00:19:44,720  
up into the 70s so there's that so keep

556  
00:19:48,310 --> 00:19:46,640  
an eye on those organizations and

557  
00:19:50,390 --> 00:19:48,320  
see what they're going to be working on

558  
00:19:52,710 --> 00:19:50,400  
and they might well

559  
00:19:54,549 --> 00:19:52,720  
their names might well come up as we

560  
00:19:57,029 --> 00:19:54,559  
find out a little bit more

561  
00:19:58,150 --> 00:19:57,039  
about uh possible crash retrieval of

562  
00:19:59,669 --> 00:19:58,160  
course

563  
00:20:01,190 --> 00:19:59,679

again that we're also hearing some

564

00:20:04,390 --> 00:20:01,200

stories about uh

565

00:20:06,310 --> 00:20:04,400

fully intact craft of an et nature

566

00:20:07,830 --> 00:20:06,320

how would something like that get here

567

00:20:11,270 --> 00:20:07,840

well i suppose

568

00:20:11,909 --> 00:20:11,280

uh maybe the same way that a a fully

569

00:20:14,149 --> 00:20:11,919

functional

570

00:20:15,590 --> 00:20:14,159

mig might deliver itself to the united

571

00:20:18,950 --> 00:20:15,600

states that

572

00:20:21,590 --> 00:20:18,960

some e.t decided to defect or that

573

00:20:22,390 --> 00:20:21,600

they landed something uh the pilot

574

00:20:24,630 --> 00:20:22,400

hopped out

575

00:20:26,149 --> 00:20:24,640

climbed aboard another ship and uh went

576  
00:20:28,870 --> 00:20:26,159  
back with the mothership and

577  
00:20:29,830 --> 00:20:28,880  
left a uh a fully intact craft to be

578  
00:20:32,870 --> 00:20:29,840  
recovered

579  
00:20:33,830 --> 00:20:32,880  
those are uh speculative tales don't

580  
00:20:35,990 --> 00:20:33,840  
necessarily

581  
00:20:37,750 --> 00:20:36,000  
believe that stuff but if you're talking

582  
00:20:40,310 --> 00:20:37,760  
about something that's fully functional

583  
00:20:42,149 --> 00:20:40,320  
i don't see any other way for that to

584  
00:20:44,630 --> 00:20:42,159  
fall into our hands but i think

585  
00:20:45,669 --> 00:20:44,640  
by and large we're talking about debris

586  
00:20:48,149 --> 00:20:45,679  
here

587  
00:20:49,669 --> 00:20:48,159  
literal literal wrecks so that's uh

588  
00:20:51,830 --> 00:20:49,679

that's what we're talking about

589

00:20:52,710 --> 00:20:51,840

and if that's the case i think those are

590

00:20:53,990 --> 00:20:52,720

the players

591

00:20:56,549 --> 00:20:54,000

that you're going to want to be taking a

592

00:20:58,470 --> 00:20:56,559

closer look at

593

00:20:59,590 --> 00:20:58,480

also this week a very interesting

594

00:21:02,070 --> 00:20:59,600

article from

595

00:21:04,070 --> 00:21:02,080

scientific american they don't write

596

00:21:05,909 --> 00:21:04,080

much about the ufo stuff but there was

597

00:21:08,549 --> 00:21:05,919

an interview with steve justice

598

00:21:10,870 --> 00:21:08,559

a couple years back right after the

599

00:21:13,750 --> 00:21:10,880

original new york times article came out

600

00:21:15,190 --> 00:21:13,760

all the way back in december of 2017 and

601  
00:21:16,789 --> 00:21:15,200  
that article came out

602  
00:21:18,470 --> 00:21:16,799  
and maybe within a couple months of that

603  
00:21:20,149 --> 00:21:18,480  
or so but here's another one uh we've

604  
00:21:21,990 --> 00:21:20,159  
got a couple of scientists here are

605  
00:21:25,669 --> 00:21:22,000  
writing four scientific american

606  
00:21:28,870 --> 00:21:25,679  
uh one of them uh ravi kumar koparapu

607  
00:21:31,909 --> 00:21:28,880  
uh who is a research scientist for nasa

608  
00:21:35,270 --> 00:21:31,919  
and jacob hak misra

609  
00:21:37,669 --> 00:21:35,280  
who is a an astrobiologist and they're

610  
00:21:39,350 --> 00:21:37,679  
writing in scientific american that they

611  
00:21:40,230 --> 00:21:39,360  
think that that's about time for a

612  
00:21:43,350 --> 00:21:40,240  
little bit more

613  
00:21:46,070 --> 00:21:43,360

scientific research on ufos

614

00:21:47,990 --> 00:21:46,080

in the article they write so what should

615

00:21:49,430 --> 00:21:48,000

be the approach if a scientific approach

616

00:21:51,669 --> 00:21:49,440

is desired one needs an

617

00:21:53,510 --> 00:21:51,679

interdisciplinary approach to address

618

00:21:55,350 --> 00:21:53,520

uh the combined observational

619

00:21:57,990 --> 00:21:55,360

characteristics of uap

620

00:21:58,630 --> 00:21:58,000

rather than isolating one aspect of the

621

00:22:01,350 --> 00:21:58,640

event

622

00:22:02,710 --> 00:22:01,360

furthermore uap phenomenon are not u.s

623

00:22:04,870 --> 00:22:02,720

specific events

624

00:22:06,789 --> 00:22:04,880

there are they are a worldwide

625

00:22:07,590 --> 00:22:06,799

occurrence several other countries

626  
00:22:09,830 --> 00:22:07,600  
studied them

627  
00:22:10,789 --> 00:22:09,840  
so shouldn't we as scientists choose to

628  
00:22:12,710 --> 00:22:10,799  
investigate and

629  
00:22:14,710 --> 00:22:12,720  
curb the speculation around them of

630  
00:22:17,190 --> 00:22:14,720  
course i certainly agree with that

631  
00:22:18,230 --> 00:22:17,200  
and the interdisciplinary approach is

632  
00:22:19,909 --> 00:22:18,240  
very important

633  
00:22:21,669 --> 00:22:19,919  
and we're also going to have to go i

634  
00:22:23,750 --> 00:22:21,679  
think uh beyond the

635  
00:22:24,710 --> 00:22:23,760  
realm of just the physical sciences as

636  
00:22:26,710 --> 00:22:24,720  
well

637  
00:22:27,750 --> 00:22:26,720  
and some historians are going to have to

638  
00:22:29,830 --> 00:22:27,760

get involved

639

00:22:31,270 --> 00:22:29,840

because uh there is a little question in

640

00:22:34,630 --> 00:22:31,280

my mind there is a

641

00:22:35,029 --> 00:22:34,640

genuine untold history regarding ufos

642

00:22:37,350 --> 00:22:35,039

and

643

00:22:38,950 --> 00:22:37,360

what's gone on within the government but

644

00:22:41,350 --> 00:22:38,960

that getting back to the article

645

00:22:42,950 --> 00:22:41,360

a systematic investigation is essential

646

00:22:45,110 --> 00:22:42,960

in order to bring the phenomenon

647

00:22:46,710 --> 00:22:45,120

into mainstream science first collection

648

00:22:48,390 --> 00:22:46,720

of hard data is paramount to

649

00:22:50,789 --> 00:22:48,400

establishing any credibility

650

00:22:53,029 --> 00:22:50,799

to the explanation of the phenomenon our

651  
00:22:53,590 --> 00:22:53,039  
rigorous scientific analysis is sorely

652  
00:22:56,149 --> 00:22:53,600  
needed

653  
00:22:58,230 --> 00:22:56,159  
by multiple independent study groups

654  
00:22:59,750 --> 00:22:58,240  
just as we do for evaluating other

655  
00:23:02,070 --> 00:22:59,760  
scientific discoveries

656  
00:23:02,950 --> 00:23:02,080  
we as scientists cannot hastily dismiss

657  
00:23:05,990 --> 00:23:02,960  
any phenomenon

658  
00:23:07,590 --> 00:23:06,000  
without in-depth examination and then

659  
00:23:08,870 --> 00:23:07,600  
conclude the event itself is

660  
00:23:11,830 --> 00:23:08,880  
unscientific

661  
00:23:13,990 --> 00:23:11,840  
uh the transient nature of uap events

662  
00:23:15,830 --> 00:23:14,000  
and hence the unpredictability about

663  
00:23:18,310 --> 00:23:15,840

uh when and where the next event will

664

00:23:19,350 --> 00:23:18,320

happen is likely one of the main reasons

665

00:23:21,110 --> 00:23:19,360

why uap

666

00:23:23,350 --> 00:23:21,120

have not been taken seriously in

667

00:23:25,590 --> 00:23:23,360

scientific and science circles

668

00:23:27,669 --> 00:23:25,600

but how can one identify a pattern

669

00:23:28,230 --> 00:23:27,679

without systematically collecting the

670

00:23:30,390 --> 00:23:28,240

data

671

00:23:32,549 --> 00:23:30,400

in the first place in astronomy the

672

00:23:35,510 --> 00:23:32,559

observations location and timing

673

00:23:38,430 --> 00:23:35,520

of gamma ray bursts supernova and

674

00:23:39,750 --> 00:23:38,440

gravitational waves are similarly

675

00:23:42,230 --> 00:23:39,760

unpredictable

676

00:23:43,669 --> 00:23:42,240

however we are not we now recognize them

677

00:23:45,990 --> 00:23:43,679

as natural phenomenon

678

00:23:47,350 --> 00:23:46,000

arising from stellar evolution so uh

679

00:23:49,990 --> 00:23:47,360

some great points made there

680

00:23:51,990 --> 00:23:50,000

some caveats though i think that some of

681

00:23:54,630 --> 00:23:52,000

these scientists are thinking well

682

00:23:55,990 --> 00:23:54,640

just go in and uh flash my phd to the

683

00:23:58,950 --> 00:23:56,000

military and i'm going to be

684

00:24:00,630 --> 00:23:58,960

uh getting all their reports all the uh

685

00:24:03,909 --> 00:24:00,640

hard physical evidence that

686

00:24:05,990 --> 00:24:03,919

they have gathered like for example

687

00:24:07,029 --> 00:24:06,000

remote sensing in the form of radar and

688

00:24:08,950 --> 00:24:07,039

flare video

689

00:24:11,190 --> 00:24:08,960

that is not going to happen and that is

690

00:24:13,990 --> 00:24:11,200

going to be a difficult road to hoe

691

00:24:14,549 --> 00:24:14,000

but it's nice to see more scientists uh

692

00:24:16,549 --> 00:24:14,559

getting

693

00:24:18,710 --> 00:24:16,559

interested in this and writing about it

694

00:24:21,269 --> 00:24:18,720

they make some excellent points here

695

00:24:22,950 --> 00:24:21,279

but other scientists have taken a look

696

00:24:25,669 --> 00:24:22,960

and have been interested before

697

00:24:26,230 --> 00:24:25,679

and uh let's uh well let's uh go

698

00:24:28,310 --> 00:24:26,240

actually

699

00:24:29,830 --> 00:24:28,320

let's uh cover this a little bit first

700

00:24:31,110 --> 00:24:29,840

because this is a very interesting

701  
00:24:33,029 --> 00:24:31,120  
anecdotal case

702  
00:24:34,630 --> 00:24:33,039  
that a lot of you might not be familiar

703  
00:24:37,669 --> 00:24:34,640  
with regarding

704  
00:24:39,350 --> 00:24:37,679  
mapping of the ocean floor u.s navy

705  
00:24:42,310 --> 00:24:39,360  
secrecy likely stalled

706  
00:24:43,350 --> 00:24:42,320  
ocean science progress for decades okay

707  
00:24:45,110 --> 00:24:43,360  
now you think

708  
00:24:46,470 --> 00:24:45,120  
they're going to just easily give up ufo

709  
00:24:48,870 --> 00:24:46,480  
data let's look at

710  
00:24:50,870 --> 00:24:48,880  
this particular instance and see uh they

711  
00:24:52,950 --> 00:24:50,880  
didn't give up this data too easily

712  
00:24:54,789 --> 00:24:52,960  
and really i mean what was what was the

713  
00:24:57,110 --> 00:24:54,799

reason for this being classified so

714

00:24:58,950 --> 00:24:57,120

let's uh let's go through the details to

715

00:25:01,669 --> 00:24:58,960

the article

716

00:25:03,590 --> 00:25:01,679

beginning in the late 1930s uh the u.s

717

00:25:05,830 --> 00:25:03,600

navy took an active interest in pursuing

718

00:25:07,990 --> 00:25:05,840

ocean research for military purposes

719

00:25:10,390 --> 00:25:08,000

in doing so the navy reshaped the field

720

00:25:12,390 --> 00:25:10,400

in america focusing most of its research

721

00:25:13,350 --> 00:25:12,400

on studying the physical characteristics

722

00:25:16,549 --> 00:25:13,360

of the ocean

723

00:25:17,510 --> 00:25:16,559

such as using sonar to map the ocean

724

00:25:20,230 --> 00:25:17,520

floor

725

00:25:20,870 --> 00:25:20,240

rather than on exploring biological or

726

00:25:23,909 --> 00:25:20,880

chemical

727

00:25:26,470 --> 00:25:23,919

oceanography oreska said up until around

728

00:25:27,669 --> 00:25:26,480

1938 scientists in the us were exploring

729

00:25:28,870 --> 00:25:27,679

the fundamentals of what would

730

00:25:31,350 --> 00:25:28,880

eventually become

731

00:25:33,430 --> 00:25:31,360

the theory of plate tectonics which

732

00:25:35,110 --> 00:25:33,440

recognizes the rigidity of the outer

733

00:25:38,549 --> 00:25:35,120

layer of the earth the crust

734

00:25:41,029 --> 00:25:38,559

links volcanism and earthquakes to

735

00:25:42,230 --> 00:25:41,039

crustal motion and even estimates its

736

00:25:44,070 --> 00:25:42,240

rate of movement

737

00:25:46,390 --> 00:25:44,080

all that progress came to a halt with

738

00:25:48,070 --> 00:25:46,400

world war ii and scientists who signed

739

00:25:49,750 --> 00:25:48,080

on to work with the us navy

740

00:25:51,669 --> 00:25:49,760

found that not only was their work

741

00:25:53,269 --> 00:25:51,679

designated as classified for the

742

00:25:55,990 --> 00:25:53,279

duration of the war

743

00:25:57,830 --> 00:25:56,000

the secrecy continued even after the war

744

00:25:59,909 --> 00:25:57,840

ended according to arrescus

745

00:26:01,430 --> 00:25:59,919

they were forbidden from sharing key

746

00:26:04,390 --> 00:26:01,440

oceanographic data

747

00:26:05,350 --> 00:26:04,400

such as uh bathymetric or depth

748

00:26:07,350 --> 00:26:05,360

measurements

749

00:26:08,470 --> 00:26:07,360

with scientists who lacked the security

750

00:26:10,870 --> 00:26:08,480

clearance

751

00:26:12,630 --> 00:26:10,880

limiting ocean data access to only a

752

00:26:13,350 --> 00:26:12,640

handful of people on a need to know

753

00:26:15,110 --> 00:26:13,360

basis

754

00:26:16,789 --> 00:26:15,120

greatly reduced the scientific

755

00:26:18,710 --> 00:26:16,799

community's chances of seeing

756

00:26:19,990 --> 00:26:18,720

important scientific breakthroughs

757

00:26:22,070 --> 00:26:20,000

arrest cassette

758

00:26:24,149 --> 00:26:22,080

great discoveries are rare and this

759

00:26:26,149 --> 00:26:24,159

policy makes sure they won't be made

760

00:26:27,590 --> 00:26:26,159

by the simple procedure of limiting

761

00:26:30,630 --> 00:26:27,600

factual information

762

00:26:31,909 --> 00:26:30,640

to a few men she explained and uh there

763

00:26:35,990 --> 00:26:31,919

you go i mean there's a

764

00:26:38,549 --> 00:26:36,000

again just an anecdotal instance but

765

00:26:40,230 --> 00:26:38,559

lots of data gathered by the military

766

00:26:42,470 --> 00:26:40,240

labeled as classified

767

00:26:43,909 --> 00:26:42,480

maybe with good reason in some instances

768

00:26:46,230 --> 00:26:43,919

in this particular instance

769

00:26:47,190 --> 00:26:46,240

uh i don't understand what the uh

770

00:26:49,029 --> 00:26:47,200

possible need for

771

00:26:50,630 --> 00:26:49,039

classification there would be in terms

772

00:26:53,110 --> 00:26:50,640

of mapping the ocean floor

773

00:26:54,230 --> 00:26:53,120

but there you have it so yeah scientists

774

00:26:56,710 --> 00:26:54,240

welcome aboard

775

00:26:57,590 --> 00:26:56,720

and get ready for a rough ride so uh

776

00:27:00,789 --> 00:26:57,600

let's also

777

00:27:02,630 --> 00:27:00,799

take a look at some gathering of data

778

00:27:04,230 --> 00:27:02,640

that's taken place in the past

779

00:27:06,230 --> 00:27:04,240

uh the kind of data that i think is

780

00:27:08,870 --> 00:27:06,240

especially interesting uh this

781

00:27:09,990 --> 00:27:08,880

from professor peter sturek of stanford

782

00:27:12,710 --> 00:27:10,000

university's book

783

00:27:14,549 --> 00:27:12,720

the ufo enigma where he talked about

784

00:27:16,870 --> 00:27:14,559

gathering together a number of cases

785

00:27:19,110 --> 00:27:16,880

from blue book and also uh from a uh

786

00:27:22,470 --> 00:27:19,120

gephant separa which uh

787

00:27:23,909 --> 00:27:22,480

basically uh a french organization and

788

00:27:24,549 --> 00:27:23,919

that basically they gathered a number of

789

00:27:31,029 --> 00:27:24,559

cases

790

00:27:32,070 --> 00:27:31,039

you've got credible witnesses and their

791

00:27:34,470 --> 00:27:32,080

testimony

792

00:27:35,909 --> 00:27:34,480

is corroborated by physical evidence in

793

00:27:39,830 --> 00:27:35,919

the form of radar

794

00:27:42,549 --> 00:27:39,840

uh the the the french came up with 101

795

00:27:44,389 --> 00:27:42,559

radar visual cases a project blue book

796

00:27:46,149 --> 00:27:44,399

came up with 76.

797

00:27:47,669 --> 00:27:46,159

i'm sure that there are more obviously

798

00:27:49,029 --> 00:27:47,679

this book was written i think the better

799

00:27:52,149 --> 00:27:49,039

part of 30 years ago

800

00:27:54,549 --> 00:27:52,159

so a lot has happened since then

801  
00:27:56,870 --> 00:27:54,559  
how how many of these cases are there

802  
00:27:59,029 --> 00:27:56,880  
and are all the metis probably not

803  
00:28:00,710 --> 00:27:59,039  
but again it's that type of database

804  
00:28:02,909 --> 00:28:00,720  
that kind of collection of cases we're

805  
00:28:05,590 --> 00:28:02,919  
talking about uh

806  
00:28:07,830 --> 00:28:05,600  
177 plus four others so

807  
00:28:08,870 --> 00:28:07,840  
you talk about roughly 180 cases give or

808  
00:28:10,470 --> 00:28:08,880  
take uh

809  
00:28:12,470 --> 00:28:10,480  
in that pile are you going to find some

810  
00:28:14,070 --> 00:28:12,480  
e.t cases i think that's where you're

811  
00:28:14,789 --> 00:28:14,080  
going to find that pile that type of

812  
00:28:17,830 --> 00:28:14,799  
pile

813  
00:28:19,909 --> 00:28:17,840

and uh supplement obviously that data

814

00:28:21,430 --> 00:28:19,919

with newer data that might be available

815

00:28:22,789 --> 00:28:21,440

regarding some other cases that have

816

00:28:25,269 --> 00:28:22,799

happened more recently

817

00:28:26,950 --> 00:28:25,279

if we can get it that's the pile i think

818

00:28:30,310 --> 00:28:26,960

that you're going to find those e.t

819

00:28:33,190 --> 00:28:30,320

cases in another study that was uh

820

00:28:33,669 --> 00:28:33,200

uh not actually taken part of but it was

821

00:28:38,230 --> 00:28:33,679

uh

822

00:28:40,149 --> 00:28:38,240

professor linus pauling

823

00:28:41,350 --> 00:28:40,159

i wrote at length about uh this

824

00:28:43,350 --> 00:28:41,360

particular uh

825

00:28:44,630 --> 00:28:43,360

paper from pauling uh just uh really

826

00:28:47,909 --> 00:28:44,640

among his private notes

827

00:28:50,149 --> 00:28:47,919

he outlines a few things that he thinks

828

00:28:51,430 --> 00:28:50,159

should be part of a ufo study a very

829

00:28:53,990 --> 00:28:51,440

interesting paper and

830

00:28:56,149 --> 00:28:54,000

any scientist who's uh going to uh

831

00:28:57,669 --> 00:28:56,159

consider uh taking a closer look at ufos

832

00:28:57,990 --> 00:28:57,679

should at least take a look at this and

833

00:29:03,669 --> 00:28:58,000

uh

834

00:29:05,430 --> 00:29:03,679

certainly talks about witness cases and

835

00:29:08,070 --> 00:29:05,440

uh cases that

836

00:29:09,830 --> 00:29:08,080

uh feature two witnesses unrelated to

837

00:29:11,669 --> 00:29:09,840

one another viewing the same thing from

838

00:29:14,070 --> 00:29:11,679

a couple different locations

839

00:29:15,990 --> 00:29:14,080

merit some special attention he also

840

00:29:18,710 --> 00:29:16,000

talks about the the difficulty

841

00:29:19,830 --> 00:29:18,720

and explaining some cases if they do

842

00:29:22,950 --> 00:29:19,840

happen to be

843

00:29:25,269 --> 00:29:22,960

some sort of advanced military or test

844

00:29:26,149 --> 00:29:25,279

aircraft that you might not be able to

845

00:29:28,549 --> 00:29:26,159

get the information

846

00:29:29,269 --> 00:29:28,559

to prove that uh quite readily also

847

00:29:32,470 --> 00:29:29,279

talks about

848

00:29:34,230 --> 00:29:32,480

the possibility of panspermia and a few

849

00:29:35,990 --> 00:29:34,240

other things there it's very interesting

850

00:29:36,710 --> 00:29:36,000

uh go over and look for that at my

851  
00:29:38,310 --> 00:29:36,720  
website

852  
00:29:42,990 --> 00:29:38,320  
i wrote the article about the linus

853  
00:29:46,070 --> 00:29:44,230  
ufopartisan.blogspot.com

854  
00:29:47,990 --> 00:29:46,080  
so go check that out and find out that

855  
00:29:51,190 --> 00:29:48,000  
article and take a look at

856  
00:29:54,070 --> 00:29:51,200  
some of the ideas that pauling had for a

857  
00:29:56,710 --> 00:29:54,080  
ufo study and again i think you'll find

858  
00:29:59,190 --> 00:29:56,720  
that very interesting

859  
00:30:01,029 --> 00:29:59,200  
and finally i was able to watch episode

860  
00:30:03,269 --> 00:30:01,039  
four of unidentified

861  
00:30:05,029 --> 00:30:03,279  
this particular episode titled a

862  
00:30:07,669 --> 00:30:05,039  
planetary threat

863  
00:30:08,070 --> 00:30:07,679

uh posed as a question and uh the

864

00:30:10,149 --> 00:30:08,080

episode

865

00:30:11,269 --> 00:30:10,159

again another very solid very uh

866

00:30:13,750 --> 00:30:11,279

interesting episode

867

00:30:15,430 --> 00:30:13,760

uh basically elizondo trekked off to

868

00:30:17,269 --> 00:30:15,440

south america talked to a number of

869

00:30:19,350 --> 00:30:17,279

high-level people down there

870

00:30:20,789 --> 00:30:19,360

and uh some witnesses to some very

871

00:30:24,149 --> 00:30:20,799

interesting events

872

00:30:26,070 --> 00:30:24,159

they really didn't present that within

873

00:30:28,549 --> 00:30:26,080

the context of the show

874

00:30:29,350 --> 00:30:28,559

anything that i regarded as especially

875

00:30:31,430 --> 00:30:29,360

threatening

876

00:30:32,470 --> 00:30:31,440

there have been times when tsa i think

877

00:30:35,590 --> 00:30:32,480

has lapsed

878

00:30:37,269 --> 00:30:35,600

and talked about a threat here

879

00:30:39,269 --> 00:30:37,279

i guess they've decided that's the

880

00:30:42,549 --> 00:30:39,279

strategy that's what they need to

881

00:30:45,750 --> 00:30:42,559

get people's attention about all this

882

00:30:46,549 --> 00:30:45,760

but again it's tough enough to get

883

00:30:49,350 --> 00:30:46,559

people to

884

00:30:50,710 --> 00:30:49,360

accept the fact that there really is

885

00:30:53,190 --> 00:30:50,720

something that these ufos

886

00:30:54,549 --> 00:30:53,200

some of them might well be et and then

887

00:30:57,190 --> 00:30:54,559

take that leap and say

888

00:30:57,830 --> 00:30:57,200

well uh they're a threat uh you know uh

889

00:30:59,990 --> 00:30:57,840

from a

890

00:31:01,430 --> 00:31:00,000

strictly aviation point i've made this

891

00:31:03,669 --> 00:31:01,440

point a number of times

892

00:31:04,710 --> 00:31:03,679

uh going back to the uh the language

893

00:31:07,190 --> 00:31:04,720

trap

894

00:31:07,909 --> 00:31:07,200

that the talked about with john

895

00:31:09,430 --> 00:31:07,919

mack

896

00:31:11,029 --> 00:31:09,440

going back to that language trap the

897

00:31:13,190 --> 00:31:11,039

threat word yeah

898

00:31:14,950 --> 00:31:13,200

in the context of aviation really

899

00:31:17,830 --> 00:31:14,960

anything and anything

900

00:31:18,149 --> 00:31:17,840

that could possibly uh lead to some kind

901  
00:31:20,389 --> 00:31:18,159  
of an

902  
00:31:21,590 --> 00:31:20,399  
air mishap is regarded as a threat

903  
00:31:24,549 --> 00:31:21,600  
including birds

904  
00:31:26,149 --> 00:31:24,559  
including weather so uh yeah a ufo

905  
00:31:28,070 --> 00:31:26,159  
almost by definition uh

906  
00:31:29,190 --> 00:31:28,080  
could be regarded as a threat in an

907  
00:31:32,230 --> 00:31:29,200  
aviation sense

908  
00:31:34,149 --> 00:31:32,240  
uh but beyond that uh no it's not not

909  
00:31:34,549 --> 00:31:34,159  
any kind of planetary threat not any

910  
00:31:38,789 --> 00:31:34,559  
kind of

911  
00:31:39,509 --> 00:31:38,799  
threat to the united states or any other

912  
00:31:42,070 --> 00:31:39,519  
country

913  
00:31:42,950 --> 00:31:42,080

that currently exists on this planet but

914

00:31:44,630 --> 00:31:42,960

uh

915

00:31:46,470 --> 00:31:44,640

that was the title maybe a little bit

916

00:31:47,909 --> 00:31:46,480

cheeky a little bit misleading

917

00:31:49,750 --> 00:31:47,919

so they didn't really go there during

918

00:31:51,509 --> 00:31:49,760

the course of the episode uh one thing

919

00:31:53,029 --> 00:31:51,519

that did cross my mind and i did enjoy

920

00:31:54,950 --> 00:31:53,039

the episode and did like it

921

00:31:56,630 --> 00:31:54,960

but what we're finding is in this

922

00:31:59,110 --> 00:31:56,640

increased

923

00:32:00,470 --> 00:31:59,120

heat within the news cycle and things

924

00:32:03,029 --> 00:32:00,480

are happening sort of

925

00:32:04,149 --> 00:32:03,039

on a almost daily basis that are really

926

00:32:06,789 --> 00:32:04,159

quite interesting

927

00:32:07,669 --> 00:32:06,799

and uh i i don't see any reason that's

928

00:32:09,430 --> 00:32:07,679

going to die down

929

00:32:11,830 --> 00:32:09,440

anytime soon i mean i'm sure it will

930

00:32:12,310 --> 00:32:11,840

eventually we do run hot cold with all

931

00:32:14,710 --> 00:32:12,320

this

932

00:32:16,389 --> 00:32:14,720

but the show itself is uh to a certain

933

00:32:18,630 --> 00:32:16,399

extent almost becoming a bit of an

934

00:32:19,830 --> 00:32:18,640

afterthought that what's going on right

935

00:32:21,190 --> 00:32:19,840

here and right now

936

00:32:23,350 --> 00:32:21,200

is more interesting than what they've

937

00:32:24,549 --> 00:32:23,360

got together on the show so uh that's

938

00:32:27,269 --> 00:32:24,559

another issue that

939

00:32:28,549 --> 00:32:27,279

if there is a season three uh then maybe

940

00:32:30,470 --> 00:32:28,559

they might they might want to have to

941

00:32:33,350 --> 00:32:30,480

consider maybe uh turn around do

942

00:32:35,190 --> 00:32:33,360

uh increase uh or i should say uh pick

943

00:32:36,870 --> 00:32:35,200

up the speed on their turnaround time

944

00:32:38,710 --> 00:32:36,880

and do things a little bit more in the

945

00:32:41,669 --> 00:32:38,720

moment because uh

946

00:32:42,870 --> 00:32:41,679

uh yeah i mean when you when your show

947

00:32:44,950 --> 00:32:42,880

is uh kind of getting uh

948

00:32:46,070 --> 00:32:44,960

uh getting its doors blown off by much

949

00:32:47,590 --> 00:32:46,080

more interesting things that are

950

00:32:49,269 --> 00:32:47,600

happening in the news cycle

951  
00:32:50,630 --> 00:32:49,279  
that can be a little bit of a problem

952  
00:32:53,590 --> 00:32:50,640  
but i will say yeah

953  
00:32:55,190 --> 00:32:53,600  
uh john burroughs asked me this week if

954  
00:32:57,590 --> 00:32:55,200  
uh what was that what was the story with

955  
00:32:58,950 --> 00:32:57,600  
the ratings on unidentified and i really

956  
00:33:01,350 --> 00:32:58,960  
haven't been keeping track

957  
00:33:03,029 --> 00:33:01,360  
uh but i was curious and uh did decide

958  
00:33:05,110 --> 00:33:03,039  
to give it a quick look up

959  
00:33:06,389 --> 00:33:05,120  
and uh not this week obviously the

960  
00:33:08,950 --> 00:33:06,399  
readings aren't in for this week

961  
00:33:09,430 --> 00:33:08,960  
but last week's episode was in the top

962  
00:33:11,590 --> 00:33:09,440  
10

963  
00:33:12,549 --> 00:33:11,600

uh regarding that cable original cable

964

00:33:15,669 --> 00:33:12,559

shows uh

965

00:33:17,430 --> 00:33:15,679

for last week so released on that

966

00:33:17,830 --> 00:33:17,440

particular day so it was in the top 10

967

00:33:21,590 --> 00:33:17,840

so

968

00:33:23,669 --> 00:33:21,600

know if saturday night is necessarily

969

00:33:25,350 --> 00:33:23,679

the best night for tv watching but at

970

00:33:27,269 --> 00:33:25,360

least uh compared to its competition

971

00:33:27,990 --> 00:33:27,279

comparing apples to apples and saturday

972

00:33:29,990 --> 00:33:28,000

night shows

973

00:33:31,990 --> 00:33:30,000

it was in the top 10 and obviously

974

00:33:33,350 --> 00:33:32,000

there's an awful lot out there on cable

975

00:33:35,110 --> 00:33:33,360

tv these days so

976

00:33:36,470 --> 00:33:35,120

it seems to be holding its own and i

977

00:33:36,950 --> 00:33:36,480

don't know if we'll get a season three

978

00:33:39,509 --> 00:33:36,960

or not

979

00:33:40,389 --> 00:33:39,519

but so far i definitely do like the uh

980

00:33:42,230 --> 00:33:40,399

the show uh

981

00:33:43,509 --> 00:33:42,240

roughly a halfway through its run at

982

00:33:45,269 --> 00:33:43,519

this point four

983

00:33:47,110 --> 00:33:45,279

episodes in and we'll see what they've

984

00:33:48,149 --> 00:33:47,120

got the rest of the way so uh that's

985

00:33:50,630 --> 00:33:48,159

about all i've got

986

00:33:51,509 --> 00:33:50,640

for tonight for you i really enjoyed it

987

00:33:53,350 --> 00:33:51,519

it was a

988

00:33:54,710 --> 00:33:53,360

quick easy show to do we didn't get too

989

00:33:56,310 --> 00:33:54,720

complicated and

990

00:33:57,990 --> 00:33:56,320

hopefully the news keeps coming and i

991

00:33:59,830 --> 00:33:58,000

can do these more often so

992

00:34:01,430 --> 00:33:59,840

you enjoy the rest of your weekend and

993

00:34:02,630 --> 00:34:01,440

i'll be back as soon as i've got
