

CHERYL COSTA

UFO DATA ANALYSIS

UFONN
SUNDAY

1
00:01:02,549 --> 00:00:16,430

[Music]

2
00:01:07,109 --> 00:01:05,270
and good afternoon and happy halloween

3
00:01:09,590 --> 00:01:07,119
from philadelphia frank here with

4
00:01:10,390 --> 00:01:09,600
another episode of ufo news network

5
00:01:12,870 --> 00:01:10,400
sunday

6
00:01:14,789 --> 00:01:12,880
we've got a special guest for you today

7
00:01:17,270 --> 00:01:14,799
and let me bring in my co-host

8
00:01:20,070 --> 00:01:17,280
chant hannah to do the introductions how

9
00:01:22,230 --> 00:01:20,080
are you today chad happy halloween

10
00:01:23,510 --> 00:01:22,240
happy halloween to you and to our

11
00:01:26,390 --> 00:01:23,520
special guest cheryl

12
00:01:28,870 --> 00:01:26,400
costa whom we've had the privilege and

13
00:01:31,670 --> 00:01:28,880

honor of interviewing before on our show

14

00:01:33,030 --> 00:01:31,680

she's a wonderful person and the ufo

15

00:01:36,390 --> 00:01:33,040

community has a great

16

00:01:38,789 --> 00:01:36,400

uh and deep respect for her

17

00:01:40,390 --> 00:01:38,799

cheryl before i start your bio i wanted

18

00:01:43,270 --> 00:01:40,400

to thank you for our service

19

00:01:43,910 --> 00:01:43,280

for your service to our country thank

20

00:01:47,910 --> 00:01:43,920

you very much

21

00:01:49,590 --> 00:01:47,920

chant frank cheryl is a two-time service

22

00:01:53,190 --> 00:01:49,600

military veteran

23

00:01:55,429 --> 00:01:53,200

um a retired aerospace security engineer

24

00:01:58,550 --> 00:01:55,439

she has had a lifelong interest in ufos

25

00:02:00,709 --> 00:01:58,560

from 1998 to 2001 she hosted the x

26
00:02:01,429 --> 00:02:00,719
factor talk radio program in washington

27
00:02:03,670 --> 00:02:01,439
dc

28
00:02:04,950 --> 00:02:03,680
covering ufos and many other paranormal

29
00:02:08,309 --> 00:02:04,960
topics

30
00:02:10,949 --> 00:02:08,319
from 2013 through june 2018 she wrote

31
00:02:15,270 --> 00:02:10,959
the wildly popular weekly newspaper blog

32
00:02:18,150 --> 00:02:15,280
new york skies for syracuse newtimes.com

33
00:02:19,190 --> 00:02:18,160
in 2017 cheryl and her spouse linda

34
00:02:21,030 --> 00:02:19,200
miller costa

35
00:02:23,430 --> 00:02:21,040
published the ufo sightings desk

36
00:02:27,190 --> 00:02:23,440
reference united states of america

37
00:02:28,430 --> 00:02:27,200
2001 through 2000 2015 it is the first

38
00:02:32,150 --> 00:02:28,440

ever published

39

00:02:34,309 --> 00:02:32,160

statistical analysis of us ufo sightings

40

00:02:36,229 --> 00:02:34,319

all over the united states cheryl was

41

00:02:39,350 --> 00:02:36,239

the 2018 researcher

42

00:02:41,430 --> 00:02:39,360

of the year award uh won that award

43

00:02:43,270 --> 00:02:41,440

and by the way i will be adding her

44

00:02:45,670 --> 00:02:43,280

email address at the end of the show

45

00:02:47,030 --> 00:02:45,680

so if folks have any data that they want

46

00:02:49,430 --> 00:02:47,040

to share with her

47

00:02:51,350 --> 00:02:49,440

they can do so i wanted to talk a little

48

00:02:54,150 --> 00:02:51,360

bit about the ufo sightings desk

49

00:02:56,070 --> 00:02:54,160

uh reference which was a book that she

50

00:02:58,630 --> 00:02:56,080

wrote along with her wife

51
00:02:59,270 --> 00:02:58,640
linda miller costa it's a very important

52
00:03:05,030 --> 00:02:59,280
book

53
00:03:07,509 --> 00:03:05,040
both in and out of the ufo community

54
00:03:08,630 --> 00:03:07,519
that book is the first of its kind as we

55
00:03:10,869 --> 00:03:08,640
stated earlier

56
00:03:12,550 --> 00:03:10,879
and it presents data and analysis for a

57
00:03:14,229 --> 00:03:12,560
hundred thousand plus signings of

58
00:03:16,229 --> 00:03:14,239
unidentified flying objects

59
00:03:18,869 --> 00:03:16,239
reported by individuals during the first

60
00:03:21,750 --> 00:03:18,879
15 years of the 21st century

61
00:03:23,190 --> 00:03:21,760
since 1969 the government has claimed no

62
00:03:25,509 --> 00:03:23,200
interest in the topic

63
00:03:27,670 --> 00:03:25,519

and the press and media either ignore or

64

00:03:29,670 --> 00:03:27,680

ridicule any mention of ufos

65

00:03:30,710 --> 00:03:29,680

yet citizen scientists and

66

00:03:33,110 --> 00:03:30,720

non-governmental

67

00:03:35,509 --> 00:03:33,120

organizations have continued to this day

68

00:03:38,470 --> 00:03:35,519

the research into this important subject

69

00:03:40,229 --> 00:03:38,480

this book seeks to make the hardest data

70

00:03:40,869 --> 00:03:40,239

available accessible to the general

71

00:03:43,430 --> 00:03:40,879

public

72

00:03:45,270 --> 00:03:43,440

as well as other ufo researchers the

73

00:03:46,070 --> 00:03:45,280

book is organized into beginning

74

00:03:48,229 --> 00:03:46,080

narrative

75

00:03:50,550 --> 00:03:48,239

sections including analysis of ufo

76

00:03:52,789 --> 00:03:50,560

sightings frequently asked questions

77

00:03:55,030 --> 00:03:52,799

and how to use this book followed by the

78

00:03:56,710 --> 00:03:55,040

data charts tables and maps are

79

00:03:58,949 --> 00:03:56,720

presented by summary data

80

00:03:59,990 --> 00:03:58,959

for the entire us and individual

81

00:04:03,030 --> 00:04:00,000

chapters for all 50

82

00:04:04,550 --> 00:04:03,040

states down to the county level plus the

83

00:04:07,030 --> 00:04:04,560

district of columbia

84

00:04:09,270 --> 00:04:07,040

aimed at the serious ufo researcher this

85

00:04:11,110 --> 00:04:09,280

comprehensive volume is also of value to

86

00:04:13,270 --> 00:04:11,120

academic and public libraries

87

00:04:14,710 --> 00:04:13,280

news organizations and anyone who is

88

00:04:15,429 --> 00:04:14,720

interested in what is flying in the

89

00:04:18,069 --> 00:04:15,439

skies

90

00:04:19,189 --> 00:04:18,079

over their heads where they live as seen

91

00:04:21,110 --> 00:04:19,199

in the new york times

92

00:04:23,990 --> 00:04:21,120

people are seeing ufos everywhere and

93

00:04:26,310 --> 00:04:24,000

this book proves it by ralph blumenthal

94

00:04:28,070 --> 00:04:26,320

uh that was published in april on april

95

00:04:30,469 --> 00:04:28,080

24 2017

96

00:04:31,990 --> 00:04:30,479

uh i would like to welcome cheryl costa

97

00:04:32,710 --> 00:04:32,000

onto the show welcome thank you so much

98

00:04:35,909 --> 00:04:32,720

for having

99

00:04:37,990 --> 00:04:35,919

uh joined us on the show today hi jen

100

00:04:39,590 --> 00:04:38,000

i had a question i wanted to start off

101
00:04:42,710 --> 00:04:39,600
with this cheryl uh

102
00:04:43,990 --> 00:04:42,720
why did you publish the ufo beat and who

103
00:04:45,749 --> 00:04:44,000
did you go through

104
00:04:47,110 --> 00:04:45,759
uh in order to get that published i

105
00:04:48,710 --> 00:04:47,120
understand that the story was a little

106
00:04:51,350 --> 00:04:48,720
complicated

107
00:04:52,550 --> 00:04:51,360
okay um for seven years i wrote the

108
00:04:56,070 --> 00:04:52,560
syracuse new times

109
00:04:59,270 --> 00:04:56,080
uh column called new york skies from

110
00:05:03,749 --> 00:04:59,280
july of 2013 till

111
00:05:06,390 --> 00:05:03,759
june 26th of 2019

112
00:05:07,830 --> 00:05:06,400
i was always a freelancer with the paper

113
00:05:09,430 --> 00:05:07,840

okay even though they considered me one

114

00:05:11,350 --> 00:05:09,440

of their columnists i was not actually

115

00:05:12,629 --> 00:05:11,360

on their payroll i got paid but i wasn't

116

00:05:16,070 --> 00:05:12,639

on the payroll

117

00:05:18,870 --> 00:05:16,080

and uh so they didn't

118

00:05:20,310 --> 00:05:18,880

really own the articles as i the editor

119

00:05:22,390 --> 00:05:20,320

and the publisher told me that

120

00:05:24,070 --> 00:05:22,400

i could use my articles for other

121

00:05:26,870 --> 00:05:24,080

resource other things

122

00:05:28,950 --> 00:05:26,880

so when i went to do the book uh ufo

123

00:05:30,950 --> 00:05:28,960

beat i i did go back to the publisher

124

00:05:32,230 --> 00:05:30,960

and i verified that it would be okay and

125

00:05:35,350 --> 00:05:32,240

he said sure

126
00:05:36,230 --> 00:05:35,360
but where they we ran into snacks was i

127
00:05:39,110 --> 00:05:36,240
had

128
00:05:39,909 --> 00:05:39,120
uh three actually let's say four

129
00:05:42,550 --> 00:05:39,919
different

130
00:05:43,670 --> 00:05:42,560
digital editors it was an online edition

131
00:05:46,310 --> 00:05:43,680
uh feature

132
00:05:47,430 --> 00:05:46,320
and what happened was the um every one

133
00:05:49,510 --> 00:05:47,440
of those editors

134
00:05:51,110 --> 00:05:49,520
saved it in a different place on the

135
00:05:53,189 --> 00:05:51,120
server

136
00:05:54,710 --> 00:05:53,199
uh i went through fits initially trying

137
00:05:57,430 --> 00:05:54,720
to find the articles

138
00:05:58,309 --> 00:05:57,440

uh the origin the articles while i had

139

00:06:00,710 --> 00:05:58,319

copies

140

00:06:01,510 --> 00:06:00,720

their cop final copy was the official

141

00:06:04,629 --> 00:06:01,520

copy

142

00:06:06,390 --> 00:06:04,639

so i um finally i worked out a uh

143

00:06:07,749 --> 00:06:06,400

an algorithm they could they could look

144

00:06:10,070 --> 00:06:07,759

for it and

145

00:06:10,870 --> 00:06:10,080

uh we launched that we were able to

146

00:06:14,070 --> 00:06:10,880

identify

147

00:06:16,390 --> 00:06:14,080

every single article that we published

148

00:06:18,870 --> 00:06:16,400

oh wonderful thank you for explaining

149

00:06:20,309 --> 00:06:18,880

that um i wanted to ask you a personal

150

00:06:23,110 --> 00:06:20,319

question

151
00:06:25,430 --> 00:06:23,120
cheryl at times it appears as though you

152
00:06:27,029 --> 00:06:25,440
have a photographic memory i say that

153
00:06:29,990 --> 00:06:27,039
from personal

154
00:06:32,309 --> 00:06:30,000
experience friendship with you it just

155
00:06:35,590 --> 00:06:32,319
appears to me as though you do have

156
00:06:37,430 --> 00:06:35,600
a really razor sharp memory can you

157
00:06:38,790 --> 00:06:37,440
can you share a little input with us on

158
00:06:41,830 --> 00:06:38,800
that topic

159
00:06:43,749 --> 00:06:41,840
uh it's twofold um i always sort of had

160
00:06:46,710 --> 00:06:43,759
this i don't want to say

161
00:06:48,230 --> 00:06:46,720
true photographic memory uh when i was

162
00:06:49,990 --> 00:06:48,240
in high school and i had to take a final

163
00:06:52,070 --> 00:06:50,000

exam or something i used to sit down

164

00:06:53,990 --> 00:06:52,080

a week or two before the exam and write

165

00:06:55,670 --> 00:06:54,000

down any formulas or any

166

00:06:57,990 --> 00:06:55,680

notes that i needed and i would write

167

00:06:58,790 --> 00:06:58,000

them out about a dozen times on a piece

168

00:07:01,749 --> 00:06:58,800

of paper

169

00:07:01,990 --> 00:07:01,759

on same way every time on the paper and

170

00:07:04,469 --> 00:07:02,000

when

171

00:07:06,950 --> 00:07:04,479

the exam came up you all that you were

172

00:07:08,950 --> 00:07:06,960

given was a pencil and a paper

173

00:07:11,189 --> 00:07:08,960

and i would just go to the exam in a

174

00:07:13,029 --> 00:07:11,199

t-shirt you know colored t-shirt and

175

00:07:14,710 --> 00:07:13,039

uh when they gave me the test i would

176
00:07:15,990 --> 00:07:14,720
turn it face down and i would sit there

177
00:07:18,070 --> 00:07:16,000
for 10 minutes and just

178
00:07:20,070 --> 00:07:18,080
jot down all my crib notes and then once

179
00:07:21,110 --> 00:07:20,080
i got into the test i had all this stuff

180
00:07:23,670 --> 00:07:21,120
available to me is

181
00:07:24,150 --> 00:07:23,680
sort of a cheat sheet um i had a couple

182
00:07:25,589 --> 00:07:24,160
a couple

183
00:07:27,270 --> 00:07:25,599
teachers try to give me crap about it

184
00:07:29,430 --> 00:07:27,280
but it happened

185
00:07:30,550 --> 00:07:29,440
after i started the test so nobody could

186
00:07:34,469 --> 00:07:30,560
say anything

187
00:07:37,589 --> 00:07:34,479
right from a photographic standpoint um

188
00:07:39,830 --> 00:07:37,599

uh i i i'm very visually oriented that's

189

00:07:42,790 --> 00:07:39,840

why i went to film school

190

00:07:44,309 --> 00:07:42,800

because i think in pictures so that's

191

00:07:46,790 --> 00:07:44,319

kind of where the skill is

192

00:07:48,230 --> 00:07:46,800

ah thank you for sharing that i wanted

193

00:07:51,189 --> 00:07:48,240

to dive right into

194

00:07:52,869 --> 00:07:51,199

the ufo data topic was there an uptick

195

00:07:53,270 --> 00:07:52,879

in the number of sightings this year

196

00:07:57,350 --> 00:07:53,280

during

197

00:07:59,270 --> 00:07:57,360

any of the seasons uh yeah

198

00:08:01,589 --> 00:07:59,280

two stories ago with that i i had been

199

00:08:03,589 --> 00:08:01,599

on hiatus all through 2019

200

00:08:05,430 --> 00:08:03,599

regarding ufo stuff i really wasn't

201
00:08:08,230 --> 00:08:05,440
paying attention i was working on

202
00:08:09,189 --> 00:08:08,240
other projects and what happened was i

203
00:08:12,390 --> 00:08:09,199
got a phone call

204
00:08:13,510 --> 00:08:12,400
in uh late march early april i think the

205
00:08:16,550 --> 00:08:13,520
first week of april

206
00:08:19,350 --> 00:08:16,560
i got a phone call from uh uh

207
00:08:20,790 --> 00:08:19,360
george stamp out of klas out in uh las

208
00:08:21,270 --> 00:08:20,800
vegas and he said his phone's been

209
00:08:24,070 --> 00:08:21,280
running

210
00:08:26,070 --> 00:08:24,080
ringing off the hook for sightings and i

211
00:08:28,390 --> 00:08:26,080
had a little trickle of emails saying

212
00:08:29,990 --> 00:08:28,400
there were optical sightings down in

213
00:08:31,589 --> 00:08:30,000

down in the hudson valley things like

214

00:08:32,149 --> 00:08:31,599

that you know and since new york states

215

00:08:34,389 --> 00:08:32,159

might beat

216

00:08:36,630 --> 00:08:34,399

so to speak i said wow okay let me look

217

00:08:40,230 --> 00:08:36,640

at this and i pulled up a spreadsheet

218

00:08:41,430 --> 00:08:40,240

that had the last 18 years worth of um

219

00:08:43,670 --> 00:08:41,440

first two or three months they had a

220

00:08:46,630 --> 00:08:43,680

bike by monthly numbers

221

00:08:47,110 --> 00:08:46,640

and the numbers uh for the first three

222

00:08:50,829 --> 00:08:47,120

months

223

00:08:52,150 --> 00:08:50,839

of 2020 hadn't been this high since

224

00:08:54,630 --> 00:08:52,160

2014.

225

00:08:56,230 --> 00:08:54,640

so it was like a seven-year high which

226

00:08:58,230 --> 00:08:56,240

kind of fell into a model i had

227

00:08:59,829 --> 00:08:58,240

predicted that this is a six or seven

228

00:09:01,269 --> 00:08:59,839

year cycle type of thing

229

00:09:03,670 --> 00:09:01,279

and two or three years ago when the

230

00:09:06,150 --> 00:09:03,680

numbers started falling off really

231

00:09:07,509 --> 00:09:06,160

falling into the dirt uh i predicted

232

00:09:11,110 --> 00:09:07,519

they'd be back about now

233

00:09:15,590 --> 00:09:14,470

and yes 2020 off the rails things are

234

00:09:17,350 --> 00:09:15,600

through the roof

235

00:09:19,030 --> 00:09:17,360

and that's good for our listeners to

236

00:09:21,670 --> 00:09:19,040

know i wanted to

237

00:09:22,550 --> 00:09:21,680

i'll dive into that topic a little more

238

00:09:25,670 --> 00:09:22,560

in a bit

239

00:09:26,790 --> 00:09:25,680

and i wanted you to please explain to

240

00:09:29,509 --> 00:09:26,800

our listeners

241

00:09:31,350 --> 00:09:29,519

the four the four drivers for ufo

242

00:09:34,150 --> 00:09:31,360

sightings

243

00:09:37,509 --> 00:09:34,160

okay um they're the four basic drivers

244

00:09:39,030 --> 00:09:37,519

that we published in our original book

245

00:09:40,949 --> 00:09:39,040

were population and most people

246

00:09:42,470 --> 00:09:40,959

knee-jerk in the ufo community tend to

247

00:09:44,389 --> 00:09:42,480

knee-jerk with population

248

00:09:46,710 --> 00:09:44,399

okay but we we discovered it was

249

00:09:49,910 --> 00:09:46,720

population temperate weather

250

00:09:51,590 --> 00:09:49,920

leisure time and hours of darkness those

251
00:09:54,310 --> 00:09:51,600
were the four major drivers

252
00:09:55,829 --> 00:09:54,320
the next major driver after that sort of

253
00:09:58,949 --> 00:09:55,839
a fifth one

254
00:10:02,470 --> 00:09:58,959
is coastline to major bodies of

255
00:10:03,350 --> 00:10:02,480
water okay i discovered that after the

256
00:10:05,350 --> 00:10:03,360
book came out

257
00:10:07,509 --> 00:10:05,360
i was sitting there with the census

258
00:10:09,190 --> 00:10:07,519
chart map that we have in the book

259
00:10:11,110 --> 00:10:09,200
i was sitting there with it in my lap

260
00:10:13,190 --> 00:10:11,120
because i was on another talk show

261
00:10:15,030 --> 00:10:13,200
and we were on a commercial break and i

262
00:10:16,230 --> 00:10:15,040
happened to notice and i didn't notice

263
00:10:17,190 --> 00:10:16,240

this when we were putting the book

264

00:10:19,269 --> 00:10:17,200

together

265

00:10:21,829 --> 00:10:19,279

that all the states that actually

266

00:10:24,710 --> 00:10:21,839

touched like the great lakes

267

00:10:25,829 --> 00:10:24,720

had aster had very high sightings in the

268

00:10:27,670 --> 00:10:25,839

many thousands

269

00:10:29,910 --> 00:10:27,680

okay moved two states away and the

270

00:10:32,630 --> 00:10:29,920

numbers fell into the low hundreds

271

00:10:34,470 --> 00:10:32,640

okay and then we notice that like with a

272

00:10:35,350 --> 00:10:34,480

place like california has a very long

273

00:10:37,430 --> 00:10:35,360

coastline

274

00:10:38,630 --> 00:10:37,440

on the ocean and east coast states you

275

00:10:40,790 --> 00:10:38,640

know like florida and new york and

276

00:10:45,110 --> 00:10:40,800

things like that have these coastlines

277

00:10:46,949 --> 00:10:45,120

and um we we loosely say coasts kind to

278

00:10:48,310 --> 00:10:46,959

a major body of water but we say

279

00:10:51,990 --> 00:10:48,320

basically four basic

280

00:10:54,470 --> 00:10:52,000

major drivers okay um

281

00:10:56,230 --> 00:10:54,480

kind of a slightly off-topic question do

282

00:10:59,590 --> 00:10:56,240

you think that the sightings

283

00:11:03,190 --> 00:10:59,600

um uh that uh that are

284

00:11:04,069 --> 00:11:03,200

so high um are due in part possibly to

285

00:11:05,750 --> 00:11:04,079

usos

286

00:11:07,110 --> 00:11:05,760

since there's a long coastline and

287

00:11:09,509 --> 00:11:07,120

there's an ocean there

288

00:11:11,430 --> 00:11:09,519

if it's possible that there might be

289

00:11:14,069 --> 00:11:11,440

some kind of anomalous craft

290

00:11:14,630 --> 00:11:14,079

uh coming out of the ocean and that's

291

00:11:17,670 --> 00:11:14,640

why

292

00:11:20,710 --> 00:11:17,680

the sightings are so high in that area

293

00:11:21,190 --> 00:11:20,720

that's kind of a macro question well no

294

00:11:25,670 --> 00:11:21,200

we

295

00:11:28,310 --> 00:11:25,680

talked that out with a number of people

296

00:11:29,430 --> 00:11:28,320

but because both of them major national

297

00:11:32,470 --> 00:11:29,440

databases

298

00:11:36,150 --> 00:11:32,480

um there's almost no

299

00:11:38,630 --> 00:11:36,160

i think i've seen three of the many

300

00:11:39,430 --> 00:11:38,640

tens of thousands of references to

301
00:11:42,069 --> 00:11:39,440
sightings

302
00:11:43,990 --> 00:11:42,079
that refer to a use something coming out

303
00:11:47,509 --> 00:11:44,000
of the water going into the water so

304
00:11:49,750 --> 00:11:47,519
um it might be but all we can do is

305
00:11:52,550 --> 00:11:49,760
extrapolate and say well we noticed that

306
00:11:54,389 --> 00:11:52,560
places that are have a major major body

307
00:11:55,590 --> 00:11:54,399
of water the great lakes the coastlines

308
00:11:57,829 --> 00:11:55,600
or something like that

309
00:11:59,030 --> 00:11:57,839
there tend to be a lot more sightings

310
00:12:02,710 --> 00:11:59,040
but

311
00:12:04,949 --> 00:12:02,720
we can't document any direct connection

312
00:12:06,310 --> 00:12:04,959
or correlation thank you for answering

313
00:12:07,590 --> 00:12:06,320

that yeah because

314

00:12:09,509 --> 00:12:07,600

we know that there's coastline

315

00:12:11,350 --> 00:12:09,519

everywhere and in the u.s

316

00:12:13,509 --> 00:12:11,360

it couldn't just possibly be related

317

00:12:15,509 --> 00:12:13,519

only to california of course

318

00:12:17,670 --> 00:12:15,519

since oregon has a coastline as well but

319

00:12:20,949 --> 00:12:17,680

anyway and many other states

320

00:12:22,710 --> 00:12:20,959

as odd as it sounds um is it

321

00:12:24,069 --> 00:12:22,720

possible that smokers are in part

322

00:12:26,150 --> 00:12:24,079

responsible for quite a few

323

00:12:27,190 --> 00:12:26,160

sightings over the years uh should we

324

00:12:30,069 --> 00:12:27,200

thank them for that

325

00:12:34,470 --> 00:12:30,079

cheryl and our smokers out side more

326

00:12:37,910 --> 00:12:36,550

well okay it works out like this that

327

00:12:40,470 --> 00:12:37,920

was frank coughing actually

328

00:12:41,910 --> 00:12:40,480

let the listeners know he's a smoker

329

00:12:44,150 --> 00:12:41,920

well we observed

330

00:12:45,030 --> 00:12:44,160

something that when i was writing my

331

00:12:47,670 --> 00:12:45,040

column

332

00:12:48,389 --> 00:12:47,680

there was i i'd be reading lots of these

333

00:12:50,389 --> 00:12:48,399

reports

334

00:12:52,710 --> 00:12:50,399

all the time just to see if there'd be a

335

00:12:54,949 --> 00:12:52,720

cute a good story in there to read love

336

00:12:56,389 --> 00:12:54,959

a lot of people don't know that most ufo

337

00:12:59,110 --> 00:12:56,399

reports are usually

338

00:13:00,230 --> 00:12:59,120

less than a sentence or two about the

339

00:13:02,790 --> 00:13:00,240

sighting

340

00:13:04,710 --> 00:13:02,800

and they're usually not very scientific

341

00:13:05,269 --> 00:13:04,720

you know well we saw this great thing

342

00:13:07,350 --> 00:13:05,279

you know

343

00:13:09,110 --> 00:13:07,360

and that's about it but some people do

344

00:13:10,230 --> 00:13:09,120

put more narrative a couple paragraphs

345

00:13:11,350 --> 00:13:10,240

something like that sometimes you get a

346

00:13:14,389 --> 00:13:11,360

really nice big long

347

00:13:16,629 --> 00:13:14,399

write-up but those are rare but

348

00:13:18,629 --> 00:13:16,639

many many of them started out i went

349

00:13:20,710 --> 00:13:18,639

outside for a smoke

350

00:13:21,750 --> 00:13:20,720

i went outside to walk the dog and have

351
00:13:24,230 --> 00:13:21,760
a smoke

352
00:13:25,269 --> 00:13:24,240
okay and i got talking to some mufund

353
00:13:27,670 --> 00:13:25,279
investigators

354
00:13:28,550 --> 00:13:27,680
at one of their major mufon investigator

355
00:13:30,470 --> 00:13:28,560
meetings

356
00:13:32,230 --> 00:13:30,480
and they told me that frequently when

357
00:13:32,949 --> 00:13:32,240
they go to review a month's worth of

358
00:13:34,870 --> 00:13:32,959
sightings

359
00:13:36,069 --> 00:13:34,880
they'll search on a text file kind of

360
00:13:38,310 --> 00:13:36,079
thing of the sightings

361
00:13:39,750 --> 00:13:38,320
and they'll search for smoke and dog

362
00:13:41,590 --> 00:13:39,760
because figure

363
00:13:43,509 --> 00:13:41,600

the smokers and the dog walkers are out

364

00:13:44,550 --> 00:13:43,519

there day in day out they know the lay

365

00:13:46,470 --> 00:13:44,560

of the land

366

00:13:48,069 --> 00:13:46,480

okay and they're pretty consistently out

367

00:13:51,350 --> 00:13:48,079

there every day

368

00:13:53,670 --> 00:13:51,360

okay rain or shine so that

369

00:13:55,750 --> 00:13:53,680

that's been kind of a fun thing because

370

00:13:57,269 --> 00:13:55,760

you see and when you get into our what

371

00:13:59,910 --> 00:13:57,279

we call the temperature charts

372

00:14:00,389 --> 00:13:59,920

um you know that like in a state and

373

00:14:02,790 --> 00:14:00,399

upstate

374

00:14:04,629 --> 00:14:02,800

like a northern state like the dakotas

375

00:14:06,629 --> 00:14:04,639

or new york state or new england

376

00:14:08,710 --> 00:14:06,639

uh the first three four months of the

377

00:14:11,269 --> 00:14:08,720

year january february march april

378

00:14:12,629 --> 00:14:11,279

are pretty much flat uh with a very

379

00:14:14,470 --> 00:14:12,639

small number of numbers and

380

00:14:16,150 --> 00:14:14,480

same thing says out there for october

381

00:14:17,110 --> 00:14:16,160

november december you see these flat

382

00:14:18,870 --> 00:14:17,120

numbers okay

383

00:14:20,710 --> 00:14:18,880

and then they pick up a little bit in

384

00:14:22,870 --> 00:14:20,720

the late spring and then july and

385

00:14:23,910 --> 00:14:22,880

august are through the roof it's just

386

00:14:26,629 --> 00:14:23,920

peak okay

387

00:14:28,310 --> 00:14:26,639

real steep bell curve kind of thing and

388

00:14:30,389 --> 00:14:28,320

we realized that it was

389

00:14:31,750 --> 00:14:30,399

the smokers and the dog workers were the

390

00:14:33,990 --> 00:14:31,760

consistent people

391

00:14:35,430 --> 00:14:34,000

out there day in day out and they were

392

00:14:37,110 --> 00:14:35,440

giving us our baseline

393

00:14:38,470 --> 00:14:37,120

but it changes depending upon the

394

00:14:40,310 --> 00:14:38,480

latitude and that that's where the

395

00:14:43,670 --> 00:14:40,320

temperate weather thing came in

396

00:14:44,870 --> 00:14:43,680

that's fascinating um my actually linda

397

00:14:46,550 --> 00:14:44,880

was the one that discovered the

398

00:14:48,069 --> 00:14:46,560

temperate weather thing

399

00:14:49,670 --> 00:14:48,079

we were putting we were actually putting

400

00:14:51,430 --> 00:14:49,680

the book together i had printed out all

401
00:14:53,670 --> 00:14:51,440
the charts and graphs

402
00:14:55,189 --> 00:14:53,680
and uh she looked over her terminal one

403
00:14:56,870 --> 00:14:55,199
one saturday afternoon and said

404
00:14:58,710 --> 00:14:56,880
did you notice there's a latitude

405
00:14:59,990 --> 00:14:58,720
difference with the amount of sightings

406
00:15:01,590 --> 00:15:00,000
in the summer time i said what do you

407
00:15:03,509 --> 00:15:01,600
mean it says up north it's right

408
00:15:04,790 --> 00:15:03,519
july and august you start going down to

409
00:15:07,430 --> 00:15:04,800
the middle middle

410
00:15:08,949 --> 00:15:07,440
south they say and it started flattening

411
00:15:10,550 --> 00:15:08,959
out and all the other numbers started

412
00:15:12,389 --> 00:15:10,560
coming up and then they got down to the

413
00:15:13,110 --> 00:15:12,399

deep south states that was like a picket

414

00:15:15,509 --> 00:15:13,120

fence

415

00:15:17,350 --> 00:15:15,519

that's amazing and i also think the ufo

416

00:15:18,389 --> 00:15:17,360

community owes her a great big thank you

417

00:15:21,110 --> 00:15:18,399

we need to thank

418

00:15:21,670 --> 00:15:21,120

linda miller costa for all of her hard

419

00:15:23,430 --> 00:15:21,680

work

420

00:15:25,189 --> 00:15:23,440

regarding the topics that we're going

421

00:15:27,750 --> 00:15:25,199

over today uh um

422

00:15:28,949 --> 00:15:27,760

there is quite a bit of contribution

423

00:15:32,310 --> 00:15:28,959

that she made

424

00:15:35,110 --> 00:15:32,320

to that book and major contributions

425

00:15:36,230 --> 00:15:35,120

and so we thank her for that to be

426
00:15:37,990 --> 00:15:36,240
honest

427
00:15:40,310 --> 00:15:38,000
this a lot of people credit do a lot of

428
00:15:43,590 --> 00:15:40,320
crediting on me and i'm an analyst

429
00:15:45,829 --> 00:15:43,600
and i crunch numbers um but my

430
00:15:47,910 --> 00:15:45,839
art my degrees are in the arts uh

431
00:15:50,310 --> 00:15:47,920
television writing uh film writing

432
00:15:51,189 --> 00:15:50,320
um uh entertainment writing that kind of

433
00:15:53,590 --> 00:15:51,199
thing uh

434
00:15:55,430 --> 00:15:53,600
linda's got the real science credentials

435
00:15:58,310 --> 00:15:55,440
very high science credentials and

436
00:16:00,230 --> 00:15:58,320
she brought scientific discipline which

437
00:16:02,949 --> 00:16:00,240
the ufology community

438
00:16:03,670 --> 00:16:02,959

really needs yes and she brought that to

439

00:16:05,350 --> 00:16:03,680

the table

440

00:16:07,189 --> 00:16:05,360

and she she held me to certain

441

00:16:08,870 --> 00:16:07,199

disciplines we have to do it this way we

442

00:16:11,590 --> 00:16:08,880

need this this this and this

443

00:16:13,430 --> 00:16:11,600

and she held me to a scientific analysis

444

00:16:16,230 --> 00:16:13,440

standard which was

445

00:16:16,949 --> 00:16:16,240

a blessing yes using a scientific model

446

00:16:19,030 --> 00:16:16,959

is uh

447

00:16:20,389 --> 00:16:19,040

quite rare in the ufo community so we

448

00:16:23,030 --> 00:16:20,399

thank her for having

449

00:16:24,310 --> 00:16:23,040

those stringent and high standards when

450

00:16:26,710 --> 00:16:24,320

she uh

451
00:16:29,269 --> 00:16:26,720
is going over the ufo topic which we are

452
00:16:31,829 --> 00:16:29,279
very grateful to her for

453
00:16:32,550 --> 00:16:31,839
you have been collecting uh data

454
00:16:34,389 --> 00:16:32,560
regarding

455
00:16:36,310 --> 00:16:34,399
a few of the topics that we've discussed

456
00:16:38,710 --> 00:16:36,320
for nearly two decades now

457
00:16:39,990 --> 00:16:38,720
my understanding from your research and

458
00:16:41,590 --> 00:16:40,000
i'm hoping that you'll correct me

459
00:16:42,150 --> 00:16:41,600
regarding the dates i'm about to give

460
00:16:45,749 --> 00:16:42,160
you

461
00:16:46,870 --> 00:16:45,759
is from 2001 to 2018 phoenix was the

462
00:16:49,590 --> 00:16:46,880
number one city

463
00:16:51,269 --> 00:16:49,600

regarding sightings of ufos can you

464

00:16:53,509 --> 00:16:51,279

please break down the rest of the data

465

00:16:56,310 --> 00:16:53,519

for us so we know from top to bottom

466

00:16:58,629 --> 00:16:56,320

the statistics on all of that between

467

00:17:02,470 --> 00:16:58,639

that period of time

468

00:17:06,309 --> 00:17:02,480

okay well okay phoenix

469

00:17:09,429 --> 00:17:06,319

no um let me 2018

470

00:17:12,949 --> 00:17:09,439

uh 2017-2018 time frame

471

00:17:13,909 --> 00:17:12,959

um 2000 through that whole period of

472

00:17:16,949 --> 00:17:13,919

time

473

00:17:21,069 --> 00:17:16,959

uh uh probably the last

474

00:17:23,110 --> 00:17:21,079

10 10 years from about 2009 to about

475

00:17:26,470 --> 00:17:23,120

2018 something like that

476

00:17:29,990 --> 00:17:26,480

uh it was actually vegas las vegas

477

00:17:33,270 --> 00:17:30,000

had as a city okay

478

00:17:35,590 --> 00:17:33,280

uh clark county though wasn't wasn't

479

00:17:36,950 --> 00:17:35,600

uh was up there significantly and that's

480

00:17:39,350 --> 00:17:36,960

essentially vegas

481

00:17:40,630 --> 00:17:39,360

and then uh but nevada the number was

482

00:17:41,830 --> 00:17:40,640

they were done the state was down to

483

00:17:44,390 --> 00:17:41,840

like number 25

484

00:17:47,350 --> 00:17:44,400

of 50 states it was like halfway through

485

00:17:49,830 --> 00:17:47,360

um the deal was um

486

00:17:53,830 --> 00:17:49,840

about a year or so ago it came the

487

00:17:56,870 --> 00:17:53,840

numbers actually came out in 2010 2018

488

00:17:59,669 --> 00:17:56,880

uh phoenix as a city came up

489

00:18:00,230 --> 00:17:59,679

by a couple of hundred um to be the top

490

00:18:02,630 --> 00:18:00,240

city

491

00:18:03,510 --> 00:18:02,640

uh in in vegas felt like number two that

492

00:18:06,549 --> 00:18:03,520

type of thing

493

00:18:06,870 --> 00:18:06,559

um the the key thing to look at there

494

00:18:09,350 --> 00:18:06,880

though

495

00:18:10,470 --> 00:18:09,360

which is kind of important the top

496

00:18:13,710 --> 00:18:10,480

counties

497

00:18:17,029 --> 00:18:13,720

los angeles county is the number of

498

00:18:18,549 --> 00:18:17,039

3200 counties uh los angeles county is

499

00:18:19,909 --> 00:18:18,559

the number one county in the country

500

00:18:24,789 --> 00:18:19,919

with more sightings than

501
00:18:27,990 --> 00:18:27,350
in phoenix you got maricopa county now

502
00:18:29,430 --> 00:18:28,000
maricopa

503
00:18:32,630 --> 00:18:29,440
county again they had phoenix lights

504
00:18:35,909 --> 00:18:32,640
down there many years ago all this stuff

505
00:18:36,630 --> 00:18:35,919
phoenix phoenix the city within maricopa

506
00:18:38,630 --> 00:18:36,640
county

507
00:18:40,150 --> 00:18:38,640
uh had always been when our book came

508
00:18:41,510 --> 00:18:40,160
out they were the number two county in

509
00:18:45,350 --> 00:18:41,520
the country for sightings with

510
00:18:47,430 --> 00:18:45,360
more sightings than 36 individual states

511
00:18:49,350 --> 00:18:47,440
which is fantastic but they always kind

512
00:18:52,630 --> 00:18:49,360
of lag behind las vegas and

513
00:18:54,070 --> 00:18:52,640

and uh but last in 2018

514

00:18:56,950 --> 00:18:54,080

they came up and they were they were

515

00:18:59,110 --> 00:18:56,960

number one i think in august of this

516

00:19:02,789 --> 00:18:59,120

year you reported that phoenix had

517

00:19:05,909 --> 00:19:02,799

over 1100 sightings is my understanding

518

00:19:06,950 --> 00:19:05,919

at that period of time uh at that point

519

00:19:08,789 --> 00:19:06,960

yeah it was uh

520

00:19:10,070 --> 00:19:08,799

that's those are rough numbers and

521

00:19:11,750 --> 00:19:10,080

they're very fluid

522

00:19:13,909 --> 00:19:11,760

okay any numbers that i've reported

523

00:19:16,150 --> 00:19:13,919

through 2020 the numbers have been very

524

00:19:18,950 --> 00:19:16,160

fluid because it's constantly changing

525

00:19:19,270 --> 00:19:18,960

so i don't like to be held to one number

526

00:19:23,590 --> 00:19:19,280

but

527

00:19:26,230 --> 00:19:23,600

incident that's the number i had

528

00:19:28,390 --> 00:19:26,240

okay um can you please list and expound

529

00:19:30,710 --> 00:19:28,400

upon the two reporting agencies

530

00:19:33,430 --> 00:19:30,720

you rely upon in order to extrapolate

531

00:19:35,590 --> 00:19:33,440

your ufo data sightings from

532

00:19:37,669 --> 00:19:35,600

well okay there's a national ufo

533

00:19:40,630 --> 00:19:37,679

reporting center

534

00:19:41,350 --> 00:19:40,640

they're based out of uh washington state

535

00:19:43,230 --> 00:19:41,360

and uh

536

00:19:44,870 --> 00:19:43,240

they've been around since seven uh since

537

00:19:47,110 --> 00:19:44,880

1974

538

00:19:48,230 --> 00:19:47,120

and they went to where their web edit

539

00:19:51,750 --> 00:19:48,240

their web interface

540

00:19:53,510 --> 00:19:51,760

in the early 2000s and we found out

541

00:19:54,710 --> 00:19:53,520

during the course of crunching our data

542

00:19:57,830 --> 00:19:54,720

for the book

543

00:20:01,430 --> 00:19:57,840

that they were somewhere in the 60

544

00:20:02,950 --> 00:20:01,440

a ratio between them and mutual ufo

545

00:20:06,390 --> 00:20:02,960

network move on

546

00:20:08,710 --> 00:20:06,400

um they have the the new fork people

547

00:20:10,710 --> 00:20:08,720

were typically somewhere 60 to 70

548

00:20:15,190 --> 00:20:10,720

percent of the numbers

549

00:20:18,789 --> 00:20:15,200

and and then mufon had on the order of

550

00:20:21,590 --> 00:20:18,799

40 to 30 of the numbers now that varies

551
00:20:23,590 --> 00:20:21,600
you know it varies from year to year and

552
00:20:24,710 --> 00:20:23,600
there are several states where mufon is

553
00:20:27,510 --> 00:20:24,720
the dominant

554
00:20:28,230 --> 00:20:27,520
uh texas one uh where mufon is the

555
00:20:31,590 --> 00:20:28,240
dominant

556
00:20:31,990 --> 00:20:31,600
uh reporting service if you look at both

557
00:20:35,110 --> 00:20:32,000
state

558
00:20:37,590 --> 00:20:35,120
both both services both

559
00:20:38,710 --> 00:20:37,600
are skewed differently to a different

560
00:20:40,310 --> 00:20:38,720
part of the company

561
00:20:42,789 --> 00:20:40,320
country and if you put them both

562
00:20:44,630 --> 00:20:42,799
together then you get a complete picture

563
00:20:46,310 --> 00:20:44,640

and people have asked me there's a lot

564

00:20:49,350 --> 00:20:46,320

of smaller uh

565

00:20:51,510 --> 00:20:49,360

ufo reporting sites around

566

00:20:53,430 --> 00:20:51,520

i call them the mom past sites and to be

567

00:20:55,190 --> 00:20:53,440

honest with you most of them

568

00:20:57,350 --> 00:20:55,200

had very small numbers or all they were

569

00:20:59,510 --> 00:20:57,360

doing was copying like new forks data

570

00:21:01,190 --> 00:20:59,520

that type of thing so i i just stayed

571

00:21:03,190 --> 00:21:01,200

with the two majors

572

00:21:05,270 --> 00:21:03,200

okay all right let me jump in really

573

00:21:08,070 --> 00:21:05,280

quick uh with a question for you cheryl

574

00:21:09,270 --> 00:21:08,080

uh you found different correlations uh

575

00:21:11,990 --> 00:21:09,280

regarding uh

576
00:21:13,350 --> 00:21:12,000
ufos uh you were mentioning bodies of

577
00:21:16,789 --> 00:21:13,360
water things like that

578
00:21:18,149 --> 00:21:16,799
now uh this past week uh you like the

579
00:21:21,669 --> 00:21:18,159
charts you look at the charts

580
00:21:22,149 --> 00:21:21,679
and the rises and falls and uh i've seen

581
00:21:26,710 --> 00:21:22,159
uh

582
00:21:29,470 --> 00:21:26,720
over time

583
00:21:30,789 --> 00:21:29,480
uh you can see uh the the crash uh of

584
00:21:32,390 --> 00:21:30,799
1929

585
00:21:34,149 --> 00:21:32,400
uh you can see what happened earlier

586
00:21:37,909 --> 00:21:34,159
this year we're regarding

587
00:21:41,350 --> 00:21:37,919
uh the covet outbreak you can see uh the

588
00:21:41,909 --> 00:21:41,360

uh the crash in uh late 08 regarding the

589

00:21:45,110 --> 00:21:41,919

uh

590

00:21:48,230 --> 00:21:45,120

that

591

00:21:49,750 --> 00:21:48,240

uh uh have you ever been able to tie any

592

00:21:52,149 --> 00:21:49,760

kind of correlation

593

00:21:53,110 --> 00:21:52,159

between rises and false in the ufo

594

00:21:56,070 --> 00:21:53,120

sighting chart

595

00:21:57,669 --> 00:21:56,080

to any kind of news any uh any kind of

596

00:22:01,110 --> 00:21:57,679

news in the world

597

00:22:02,710 --> 00:22:01,120

september 11th the covet outbreak

598

00:22:04,710 --> 00:22:02,720

anything along those lines if any of

599

00:22:06,070 --> 00:22:04,720

those uh correlations ever kind of

600

00:22:08,710 --> 00:22:06,080

popped up

601
00:22:09,350 --> 00:22:08,720
amazingly because we typically look at

602
00:22:12,390 --> 00:22:09,360
only

603
00:22:14,870 --> 00:22:12,400
yearlies okay and monthlies

604
00:22:17,270 --> 00:22:14,880
that type of thing um we don't normally

605
00:22:19,510 --> 00:22:17,280
see those kinds of fluctuations

606
00:22:20,789 --> 00:22:19,520
um but the united states and this is

607
00:22:23,190 --> 00:22:20,799
some church we had

608
00:22:24,230 --> 00:22:23,200
some charts we developed uh after the

609
00:22:26,710 --> 00:22:24,240
book

610
00:22:28,710 --> 00:22:26,720
and uh we've worked out some algorithms

611
00:22:32,549 --> 00:22:28,720
where we could take a a

612
00:22:33,510 --> 00:22:32,559
shot of a state and look at a year's

613
00:22:35,590 --> 00:22:33,520

worth of sightings

614

00:22:37,510 --> 00:22:35,600

or take a look at the united states and

615

00:22:37,909 --> 00:22:37,520

look at one year's worth of sightings in

616

00:22:40,390 --> 00:22:37,919

one

617

00:22:41,990 --> 00:22:40,400

chart okay and it's a little yeah a lot

618

00:22:43,590 --> 00:22:42,000

of little lines going across the page

619

00:22:46,149 --> 00:22:43,600

and it's very wide you have to do it on

620

00:22:48,950 --> 00:22:46,159

a landscape printout kind of thing

621

00:22:49,510 --> 00:22:48,960

and in the united states we average only

622

00:22:52,789 --> 00:22:49,520

about

623

00:22:55,029 --> 00:22:52,799

30 reports a day between both databases

624

00:22:55,830 --> 00:22:55,039

okay about 30 points and in certain

625

00:22:57,750 --> 00:22:55,840

times of year

626
00:22:58,950 --> 00:22:57,760
with warmer weather you see that kind of

627
00:23:03,350 --> 00:22:58,960
ramp up maybe

628
00:23:06,549 --> 00:23:03,360
uh 30 to 40 30 to 50 that type of thing

629
00:23:08,789 --> 00:23:06,559
um but typically 25 to 30 sightings a

630
00:23:10,950 --> 00:23:08,799
day in the united states and then

631
00:23:13,270 --> 00:23:10,960
if you look sometimes at a specific of

632
00:23:15,270 --> 00:23:13,280
course july 4th is off the page because

633
00:23:17,110 --> 00:23:15,280
everybody reports

634
00:23:19,590 --> 00:23:17,120
the the goofy things they see on the 4th

635
00:23:21,510 --> 00:23:19,600
of july

636
00:23:23,430 --> 00:23:21,520
if you look at individual states and

637
00:23:27,350 --> 00:23:23,440
this is something we did

638
00:23:29,830 --> 00:23:27,360

last year we identified 150 places

639

00:23:32,870 --> 00:23:29,840

you've never heard of

640

00:23:35,510 --> 00:23:32,880

that spanning across 50 states

641

00:23:35,990 --> 00:23:35,520

and but we we've identified about 150

642

00:23:38,149 --> 00:23:36,000

places

643

00:23:39,510 --> 00:23:38,159

that have absolutely nothing going on 90

644

00:23:41,430 --> 00:23:39,520

percent of the time

645

00:23:43,190 --> 00:23:41,440

their state averages maybe three

646

00:23:47,190 --> 00:23:43,200

sightings a week

647

00:23:49,669 --> 00:23:47,200

particular day

648

00:23:51,269 --> 00:23:49,679

two counties like let's see 2000 april

649

00:23:55,269 --> 00:23:51,279

16 2008

650

00:23:57,430 --> 00:23:55,279

there was um 60 sightings nationally

651
00:23:58,310 --> 00:23:57,440
on one day and it was a big spike above

652
00:24:01,590 --> 00:23:58,320
that 20

653
00:24:04,870 --> 00:24:01,600
20 or 30. and we've dug in there and

654
00:24:07,990 --> 00:24:04,880
25 of those 60 sightings were in indiana

655
00:24:09,110 --> 00:24:08,000
a state that only averages about 1300 a

656
00:24:13,590 --> 00:24:09,120
year

657
00:24:15,669 --> 00:24:13,600
and they were all in two counties

658
00:24:16,870 --> 00:24:15,679
they were joined to each other and we've

659
00:24:19,029 --> 00:24:16,880
identified a number

660
00:24:20,230 --> 00:24:19,039
like i said about 150 of these places

661
00:24:23,269 --> 00:24:20,240
where we've had a

662
00:24:24,870 --> 00:24:23,279
one day goofy flap of some sort and the

663
00:24:27,510 --> 00:24:24,880

only way you can see it is

664

00:24:28,710 --> 00:24:27,520

by combining both datas and looking at

665

00:24:32,630 --> 00:24:28,720

it with this type of

666

00:24:34,950 --> 00:24:32,640

algorithm that we've developed um

667

00:24:36,149 --> 00:24:34,960

you may need to rehash this but uh the

668

00:24:37,669 --> 00:24:36,159

states that are seeing the biggest

669

00:24:39,669 --> 00:24:37,679

upticks of sightings compared

670

00:24:41,669 --> 00:24:39,679

to the national trend my understanding

671

00:24:42,630 --> 00:24:41,679

is california florida and texas is that

672

00:24:47,590 --> 00:24:42,640

correct

673

00:24:49,350 --> 00:24:47,600

okay 2001 the 2018 um

674

00:24:52,070 --> 00:24:49,360

it was pretty much like that uh

675

00:24:55,830 --> 00:24:52,080

california florida texas in that order

676

00:24:57,350 --> 00:24:55,840

uh california had like 18 800 during

677

00:25:00,070 --> 00:24:57,360

that 18-year period

678

00:25:01,110 --> 00:25:00,080

florida and texas were in the high seven

679

00:25:03,029 --> 00:25:01,120

thousands

680

00:25:04,549 --> 00:25:03,039

okay and florida had a little bit more

681

00:25:06,630 --> 00:25:04,559

than texas

682

00:25:08,070 --> 00:25:06,640

but and then the rest of the states were

683

00:25:10,950 --> 00:25:08,080

typically pennsylvania

684

00:25:11,750 --> 00:25:10,960

arizona new york ohio washington new

685

00:25:15,350 --> 00:25:11,760

jersey

686

00:25:18,230 --> 00:25:15,360

that type of thing um this year

687

00:25:19,909 --> 00:25:18,240

something goofy's going on uh california

688

00:25:22,950 --> 00:25:19,919

number one as usual

689

00:25:24,310 --> 00:25:22,960

florida is number two as usual but

690

00:25:27,750 --> 00:25:24,320

number three

691

00:25:29,669 --> 00:25:27,760

is pennsylvania okay who knew you know

692

00:25:32,070 --> 00:25:29,679

normally arizona's number seven

693

00:25:32,950 --> 00:25:32,080

hey texas is number five arizona's

694

00:25:35,350 --> 00:25:32,960

number six

695

00:25:37,190 --> 00:25:35,360

uh new york's normally five or six uh

696

00:25:40,390 --> 00:25:37,200

right currently right now

697

00:25:42,470 --> 00:25:40,400

again it's new fork data only and that

698

00:25:44,549 --> 00:25:42,480

may completely change when i mix the

699

00:25:46,470 --> 00:25:44,559

the mufon data in with it you know but

700

00:25:49,430 --> 00:25:46,480

right now new york is coming in

701
00:25:50,149 --> 00:25:49,440
number 10 but only from a new fork

702
00:25:52,789 --> 00:25:50,159
perspective

703
00:25:53,909 --> 00:25:52,799
yeah so i have kind of a two-part uh

704
00:25:57,190 --> 00:25:53,919
question for you

705
00:25:59,269 --> 00:25:57,200
um can you then go ahead and share the

706
00:26:00,710 --> 00:25:59,279
upticks regarding cities and sightings

707
00:26:03,430 --> 00:26:00,720
rather than states

708
00:26:05,510 --> 00:26:03,440
and sightings for this year and what

709
00:26:08,230 --> 00:26:05,520
about average daily sightings

710
00:26:08,549 --> 00:26:08,240
um can you go over this regarding cities

711
00:26:13,750 --> 00:26:08,559
or

712
00:26:15,990 --> 00:26:13,760
we're not done crunching it uh i took a

713
00:26:18,630 --> 00:26:16,000

year off in 2019

714

00:26:19,029 --> 00:26:18,640

but i can't give you a number for this

715

00:26:21,190 --> 00:26:19,039

is

716

00:26:23,990 --> 00:26:21,200

new fork data only at the end of the

717

00:26:25,830 --> 00:26:24,000

year mufon is going to give me new 2019

718

00:26:27,430 --> 00:26:25,840

data and they're going to give me 2020

719

00:26:28,950 --> 00:26:27,440

data

720

00:26:31,110 --> 00:26:28,960

we have to go through some gyrations

721

00:26:34,230 --> 00:26:31,120

with them their data's

722

00:26:38,870 --> 00:26:34,240

stored differently than than new fork is

723

00:26:40,710 --> 00:26:38,880

in 2019 new fork had 5800

724

00:26:42,390 --> 00:26:40,720

this is sanitized data i took the

725

00:26:43,350 --> 00:26:42,400

internationals out because if you go to

726

00:26:45,190 --> 00:26:43,360

their webpage

727

00:26:47,350 --> 00:26:45,200

and look back at the numbers you'll see

728

00:26:48,789 --> 00:26:47,360

a much bigger number added up at the end

729

00:26:50,549 --> 00:26:48,799

of each month type of thing and if you

730

00:26:51,190 --> 00:26:50,559

had them all up you get a much bigger

731

00:26:53,269 --> 00:26:51,200

number

732

00:26:54,630 --> 00:26:53,279

but i had to take out all the canadian

733

00:26:58,190 --> 00:26:54,640

and international

734

00:26:59,350 --> 00:26:58,200

ones i only tracked usa so new fork had

735

00:27:03,430 --> 00:26:59,360

58.25

736

00:27:05,590 --> 00:27:03,440

in 2019 and we estimate based on a 60 40

737

00:27:06,070 --> 00:27:05,600

model that mufon will probably have

738

00:27:14,549 --> 00:27:06,080

about

739

00:27:16,549 --> 00:27:14,559

100. we think 2019 with both databases

740

00:27:19,510 --> 00:27:16,559

will be in a range of around

741

00:27:19,990 --> 00:27:19,520

9 700 and this is based on a model that

742

00:27:21,750 --> 00:27:20,000

we have

743

00:27:23,190 --> 00:27:21,760

and we're pretty close you know we've

744

00:27:24,710 --> 00:27:23,200

come up pretty close with our model

745

00:27:28,470 --> 00:27:24,720

we've learned how to do it

746

00:27:30,470 --> 00:27:28,480

uh 2020 i'll give you a hook here um

747

00:27:32,870 --> 00:27:30,480

january to august they have not put

748

00:27:35,430 --> 00:27:32,880

their septem newfork has not put their

749

00:27:37,750 --> 00:27:35,440

has not put their september or october

750

00:27:40,389 --> 00:27:37,760

numbers up yet we expect to see that

751
00:27:41,990 --> 00:27:40,399
on the other hand um peter davenport

752
00:27:43,990 --> 00:27:42,000
does run a medical bill

753
00:27:45,510 --> 00:27:44,000
a medical supply business and with the

754
00:27:47,990 --> 00:27:45,520
covert thing i think he's up to his

755
00:27:49,350 --> 00:27:48,000
button allergy

756
00:27:50,870 --> 00:27:49,360
i don't think he's going to be doing

757
00:27:52,149 --> 00:27:50,880
numbers right that's why they haven't

758
00:27:54,389 --> 00:27:52,159
updated september yet

759
00:27:55,830 --> 00:27:54,399
yeah we love peter he's great he's a

760
00:27:58,549 --> 00:27:55,840
great guy he really is

761
00:28:00,549 --> 00:27:58,559
um okay so january through august this

762
00:28:06,950 --> 00:28:00,559
year with new fork

763
00:28:10,710 --> 00:28:06,960

they uh they had 353

764

00:28:13,190 --> 00:28:10,720

sightings reported okay this is 2019

765

00:28:14,630 --> 00:28:13,200

january to august to show you where

766

00:28:18,149 --> 00:28:14,640

things are different

767

00:28:22,710 --> 00:28:18,159

january through august in 2020

768

00:28:26,070 --> 00:28:22,720

uh is um 48.41 it's 150

769

00:28:29,510 --> 00:28:26,080

of what 2019 had okay

770

00:28:31,990 --> 00:28:29,520

and to give you a better number in 2019

771

00:28:32,950 --> 00:28:32,000

they were averaging about 300 and this

772

00:28:36,789 --> 00:28:32,960

is newport

773

00:28:38,389 --> 00:28:36,799

only okay 394 sightings a month were

774

00:28:42,630 --> 00:28:38,399

being reported

775

00:28:45,669 --> 00:28:42,640

in in 2020 we were averaging 600

776

00:28:48,149 --> 00:28:45,679

a month so it's it's going to be it's a

777

00:28:50,870 --> 00:28:48,159

rocking year and i'm estimating that new

778

00:28:53,990 --> 00:28:50,880

fork at the end of 2020 will be

779

00:28:54,630 --> 00:28:54,000

probably around um 12 000 sightings all

780

00:28:56,630 --> 00:28:54,640

together

781

00:28:58,310 --> 00:28:56,640

which leads me to my next question thank

782

00:29:04,230 --> 00:28:58,320

you for going over that cheryl

783

00:29:08,149 --> 00:29:05,990

i'm sorry i want to qualify something

784

00:29:10,870 --> 00:29:08,159

yes go ahead 12 000 number

785

00:29:13,269 --> 00:29:10,880

that 12 000 number was a an estimate

786

00:29:15,430 --> 00:29:13,279

with mufon and new fork data

787

00:29:16,950 --> 00:29:15,440

um okay i just wanted to make you

788

00:29:18,389 --> 00:29:16,960

qualify that but it's going to be a big

789

00:29:21,669 --> 00:29:18,399

number we're expecting new

790

00:29:23,110 --> 00:29:21,679

uh in 2020 for new fork data only to be

791

00:29:25,029 --> 00:29:23,120

about 7 200.

792

00:29:27,029 --> 00:29:25,039

i'm glad you did qualify that because i

793

00:29:30,310 --> 00:29:27,039

know since you're

794

00:29:31,430 --> 00:29:30,320

so into ufo data your your ufo data geek

795

00:29:33,510 --> 00:29:31,440

like i am you would have been

796

00:29:34,950 --> 00:29:33,520

up in the middle of the night at 3am

797

00:29:38,070 --> 00:29:34,960

thinking how you should have

798

00:29:39,909 --> 00:29:38,080

created requalified that but anyway i

799

00:29:40,710 --> 00:29:39,919

did have a social studies question for

800

00:29:43,029 --> 00:29:40,720

you sure sure

801
00:29:44,310 --> 00:29:43,039
and that is do you believe with this

802
00:29:46,389 --> 00:29:44,320
with social

803
00:29:48,389 --> 00:29:46,399
unrest that is happening in various

804
00:29:50,310 --> 00:29:48,399
states and cities across america

805
00:29:51,830 --> 00:29:50,320
that some of these alleged witness

806
00:29:56,230 --> 00:29:51,840
sightings of

807
00:29:58,870 --> 00:29:56,240
or anomalous objects are due to

808
00:30:00,149 --> 00:29:58,880
drones surveilling the social unrest

809
00:30:02,389 --> 00:30:00,159
that is unfolding

810
00:30:03,430 --> 00:30:02,399
across america off and on throughout

811
00:30:06,830 --> 00:30:03,440
this year

812
00:30:09,110 --> 00:30:06,840
i have no way to confirm it um very

813
00:30:09,990 --> 00:30:09,120

probably but uh i'll tell you one thing

814

00:30:13,029 --> 00:30:10,000

i did notice

815

00:30:13,909 --> 00:30:13,039

um oregon did tick up a bit in the in

816

00:30:17,430 --> 00:30:13,919

the um

817

00:30:19,350 --> 00:30:17,440

monthlies okay but i can't lock it down

818

00:30:21,830 --> 00:30:19,360

because i have i don't have a i don't

819

00:30:23,909 --> 00:30:21,840

have um september and october

820

00:30:25,190 --> 00:30:23,919

to average it out and see if there was

821

00:30:27,269 --> 00:30:25,200

an impact there

822

00:30:28,870 --> 00:30:27,279

um we'll know we'll know next spring by

823

00:30:30,710 --> 00:30:28,880

the time i get all the data

824

00:30:32,549 --> 00:30:30,720

uh in january time frame and i get it

825

00:30:33,350 --> 00:30:32,559

all someplace get it all sanitized and

826

00:30:35,430 --> 00:30:33,360

start

827

00:30:37,190 --> 00:30:35,440

doing that we can look back that's one

828

00:30:37,990 --> 00:30:37,200

of the things with statistics it's one

829

00:30:40,630 --> 00:30:38,000

of those things that

830

00:30:42,630 --> 00:30:40,640

it's always a looking back kind of thing

831

00:30:44,230 --> 00:30:42,640

and i've had to explain that to a lot of

832

00:30:45,750 --> 00:30:44,240

news directors and editors from

833

00:30:47,190 --> 00:30:45,760

newspapers that call me up and say well

834

00:30:48,230 --> 00:30:47,200

we need the latest numbers can't you

835

00:30:51,350 --> 00:30:48,240

just push a button

836

00:30:53,830 --> 00:30:51,360

isn't there an app for that you know it

837

00:30:55,430 --> 00:30:53,840

takes a lot of crunching and organizing

838

00:30:58,149 --> 00:30:55,440

in many cases we've written some

839

00:31:01,110 --> 00:30:58,159

algorithms to do all this stuff

840

00:31:03,029 --> 00:31:01,120

i the thing with oregon okay first thing

841

00:31:05,990 --> 00:31:03,039

remember we said leisure time

842

00:31:08,070 --> 00:31:06,000

okay there was a huge uptick in april

843

00:31:10,549 --> 00:31:08,080

because we were locked down

844

00:31:11,110 --> 00:31:10,559

okay and i and a whole bunch of people

845

00:31:12,870 --> 00:31:11,120

wrote me

846

00:31:14,149 --> 00:31:12,880

on on social media and said i bet

847

00:31:15,509 --> 00:31:14,159

there's gonna be an uptick at the end of

848

00:31:16,549 --> 00:31:15,519

april since we're all locked down and

849

00:31:18,389 --> 00:31:16,559

everyone's home

850

00:31:20,230 --> 00:31:18,399

eating watching streaming tv and outside

851
00:31:21,590 --> 00:31:20,240
smoking watching watching the stars and

852
00:31:24,070 --> 00:31:21,600
they said yeah probably

853
00:31:26,389 --> 00:31:24,080
and it was off the scale with new fork

854
00:31:27,590 --> 00:31:26,399
and i suspect mufon has had an uptick as

855
00:31:30,230 --> 00:31:27,600
well

856
00:31:31,669 --> 00:31:30,240
but until we get to analyze the data we

857
00:31:34,549 --> 00:31:31,679
won't really know for sure

858
00:31:35,909 --> 00:31:34,559
now when we do analyze the data we might

859
00:31:37,590 --> 00:31:35,919
go back in

860
00:31:39,350 --> 00:31:37,600
because people like you have asked the

861
00:31:42,230 --> 00:31:39,360
question already we may go back in

862
00:31:43,830 --> 00:31:42,240
and once we have the county data and we

863
00:31:45,190 --> 00:31:43,840

have the city data

864

00:31:47,830 --> 00:31:45,200

looking good we might be able to look

865

00:31:50,630 --> 00:31:47,840

back in at a historical period and say

866

00:31:51,750 --> 00:31:50,640

hey during this number of days or this

867

00:31:54,549 --> 00:31:51,760

number of weeks and

868

00:31:55,590 --> 00:31:54,559

how in portland it's going to be like

869

00:31:56,950 --> 00:31:55,600

months

870

00:31:58,789 --> 00:31:56,960

you'll look in there and see if the

871

00:32:01,110 --> 00:31:58,799

uptick is different than

872

00:32:03,029 --> 00:32:01,120

the history baseline we'll be able to

873

00:32:04,950 --> 00:32:03,039

look at that but right now we don't we

874

00:32:06,070 --> 00:32:04,960

don't have a clue i have a question

875

00:32:08,710 --> 00:32:06,080

first the drones

876

00:32:11,830 --> 00:32:08,720

maybe who knows i have a question that

877

00:32:15,430 --> 00:32:11,840

uh involves conjecture on your part

878

00:32:17,590 --> 00:32:15,440

and uh that is uh worldwide i think

879

00:32:18,870 --> 00:32:17,600

there's like 193 countries or a little

880

00:32:20,950 --> 00:32:18,880

under 200

881

00:32:22,950 --> 00:32:20,960

and by the way just a side note there's

882

00:32:25,029 --> 00:32:22,960

actually an expert regarding

883

00:32:27,110 --> 00:32:25,039

countries on that topic i'll submit the

884

00:32:30,230 --> 00:32:27,120

link to that article to you later

885

00:32:32,070 --> 00:32:30,240

who who stated that when he uh traveled

886

00:32:34,630 --> 00:32:32,080

the world he found more countries

887

00:32:36,470 --> 00:32:34,640

that were never listed because there's

888

00:32:37,509 --> 00:32:36,480

actually unofficial countries within

889

00:32:39,750 --> 00:32:37,519

countries

890

00:32:41,990 --> 00:32:39,760

so i found that interesting but anyway

891

00:32:45,669 --> 00:32:42,000

my question to you is

892

00:32:47,830 --> 00:32:45,679

do you feel in your gut that worldwide

893

00:32:50,950 --> 00:32:47,840

as first second and third world

894

00:32:54,149 --> 00:32:50,960

countries upgrade their technology

895

00:32:55,509 --> 00:32:54,159

regarding drones specifically or some

896

00:32:58,549 --> 00:32:55,519

kind of

897

00:33:01,350 --> 00:32:58,559

new aircrafts that citizen

898

00:33:02,230 --> 00:33:01,360

citizenry there actually in their own

899

00:33:04,950 --> 00:33:02,240

countries

900

00:33:07,350 --> 00:33:04,960

are seeing these and then reporting them

901
00:33:10,870 --> 00:33:07,360
as ufos

902
00:33:12,870 --> 00:33:10,880
um i'm not as worried about the drone

903
00:33:14,870 --> 00:33:12,880
reporting okay because we already

904
00:33:17,269 --> 00:33:14,880
figured there's a certain percentage of

905
00:33:18,630 --> 00:33:17,279
the stuff that's baloney okay we already

906
00:33:21,430 --> 00:33:18,640
know there's some

907
00:33:22,870 --> 00:33:21,440
degree of sightings that are just

908
00:33:26,549 --> 00:33:22,880
seriously an error

909
00:33:29,669 --> 00:33:26,559
okay uh dr villa says sev 80

910
00:33:30,710 --> 00:33:29,679
noise uh mufon says 70 percent is

911
00:33:33,669 --> 00:33:30,720
explainable

912
00:33:34,470 --> 00:33:33,679
okay just to jump in from our

913
00:33:37,430 --> 00:33:34,480

conversation

914

00:33:37,990 --> 00:33:37,440

last year uh you made it a point that uh

915

00:33:40,710 --> 00:33:38,000

you really

916

00:33:41,110 --> 00:33:40,720

don't make any kind of judgment on how

917

00:33:43,029 --> 00:33:41,120

good

918

00:33:44,230 --> 00:33:43,039

or how bad the reporting is you just

919

00:33:45,430 --> 00:33:44,240

look at the raw data and that's

920

00:33:48,710 --> 00:33:45,440

basically it

921

00:33:51,990 --> 00:33:48,720

we tend to look at the raw data

922

00:33:53,509 --> 00:33:52,000

but where we've come from there is is

923

00:33:55,350 --> 00:33:53,519

that we we've come up with our own

924

00:33:57,990 --> 00:33:55,360

formula for the ones we the

925

00:33:58,710 --> 00:33:58,000

shapes the specific shapes that we think

926
00:34:01,509 --> 00:33:58,720
are

927
00:34:01,990 --> 00:34:01,519
uh more exotic than anything we've got

928
00:34:03,669 --> 00:34:02,000
out there

929
00:34:05,430 --> 00:34:03,679
in the form of any kind of commercial or

930
00:34:08,069 --> 00:34:05,440
military aircraft and

931
00:34:09,109 --> 00:34:08,079
we've come up with our numbers around 30

932
00:34:12,310 --> 00:34:09,119
as well

933
00:34:13,030 --> 00:34:12,320
but regarding your question um actually

934
00:34:16,230 --> 00:34:13,040
what has dr

935
00:34:19,589 --> 00:34:16,240
if you were to look at a chart of ufo

936
00:34:23,030 --> 00:34:19,599
sighting reports for the past um

937
00:34:23,589 --> 00:34:23,040
back to 1960 we'll say most sightings

938
00:34:25,990 --> 00:34:23,599

were

939

00:34:26,790 --> 00:34:26,000

back before about 19 back before about

940

00:34:29,430 --> 00:34:26,800

the 80s

941

00:34:30,950 --> 00:34:29,440

were pretty much faxed into somebody a

942

00:34:33,109 --> 00:34:30,960

clipping in the newspaper was sent to

943

00:34:35,669 --> 00:34:33,119

somebody who collected this stuff

944

00:34:36,950 --> 00:34:35,679

maybe you saw some guy in the news

945

00:34:38,550 --> 00:34:36,960

tracks ufos and

946

00:34:40,550 --> 00:34:38,560

and people called up his answering

947

00:34:42,710 --> 00:34:40,560

machine and left them reports okay

948

00:34:43,750 --> 00:34:42,720

and these things sort of got collected

949

00:34:47,030 --> 00:34:43,760

and if you look like

950

00:34:47,589 --> 00:34:47,040

uh at right now in the book in my book i

951
00:34:49,829 --> 00:34:47,599
had

952
00:34:51,589 --> 00:34:49,839
a little chart with new fork data and

953
00:34:52,310 --> 00:34:51,599
you see this little humpy humpy humpy

954
00:34:55,750 --> 00:34:52,320
thing coming

955
00:34:58,150 --> 00:34:55,760
from 1960 up to about 1990 okay

956
00:34:59,910 --> 00:34:58,160
actually up to about 1995. it looks like

957
00:35:02,470 --> 00:34:59,920
a little snake crawling across the paper

958
00:35:03,109 --> 00:35:02,480
in very tiny numbers less than 500 a

959
00:35:05,510 --> 00:35:03,119
year

960
00:35:06,550 --> 00:35:05,520
okay for the next book we're coming out

961
00:35:08,870 --> 00:35:06,560
with a new book

962
00:35:10,550 --> 00:35:08,880
covering the last 20 years and i'm going

963
00:35:13,510 --> 00:35:10,560

to be asking mufon

964

00:35:13,910 --> 00:35:13,520

for that same window of time 1960 to

965

00:35:17,109 --> 00:35:13,920

about

966

00:35:20,069 --> 00:35:17,119

2000 so i can show what that overall

967

00:35:21,510 --> 00:35:20,079

number between both databases was

968

00:35:24,710 --> 00:35:21,520

that there was the numbers were very

969

00:35:28,150 --> 00:35:24,720

small then in 1980s we started having

970

00:35:30,310 --> 00:35:28,160

um compuserve in america online people

971

00:35:33,670 --> 00:35:30,320

started having the ability to report

972

00:35:35,910 --> 00:35:33,680

things okay and by the late

973

00:35:37,510 --> 00:35:35,920

late 90s people were getting off dial up

974

00:35:41,270 --> 00:35:37,520

and going on to the web

975

00:35:42,230 --> 00:35:41,280

and so by the early 2000s late 90s early

976
00:35:44,950 --> 00:35:42,240
2000s

977
00:35:47,030 --> 00:35:44,960
we had a lot of reporting coming on and

978
00:35:47,910 --> 00:35:47,040
basically what it amounts to is the

979
00:35:50,550 --> 00:35:47,920
world wide

980
00:35:51,990 --> 00:35:50,560
web particularly in an advanced country

981
00:35:54,069 --> 00:35:52,000
like the united states

982
00:35:56,790 --> 00:35:54,079
became the vehicle for people to be able

983
00:35:58,550 --> 00:35:56,800
to easily report the sightings

984
00:36:00,950 --> 00:35:58,560
now as these third world company

985
00:36:03,510 --> 00:36:00,960
countries start having the ability

986
00:36:05,589 --> 00:36:03,520
to everybody having access to some kind

987
00:36:07,030 --> 00:36:05,599
of technology to report these things

988
00:36:09,510 --> 00:36:07,040

you're going to probably see

989

00:36:10,310 --> 00:36:09,520

reporting databases in those countries

990

00:36:12,390 --> 00:36:10,320

okay

991

00:36:14,230 --> 00:36:12,400

and we're probably going to see an uh or

992

00:36:15,349 --> 00:36:14,240

they're going to plug into national ufo

993

00:36:15,990 --> 00:36:15,359

reporting center you wouldn't believe

994

00:36:18,630 --> 00:36:16,000

how many

995

00:36:19,109 --> 00:36:18,640

international reports come into newfork

996

00:36:21,030 --> 00:36:19,119

and

997

00:36:22,310 --> 00:36:21,040

um i think what you're going to see is

998

00:36:23,990 --> 00:36:22,320

as they get more

999

00:36:25,510 --> 00:36:24,000

connectivity we're going to see the

1000

00:36:27,270 --> 00:36:25,520

numbers go up because probably the

1001
00:36:29,349 --> 00:36:27,280
numbers have already been there

1002
00:36:31,750 --> 00:36:29,359
it's just they had no way to reporting

1003
00:36:33,670 --> 00:36:31,760
the web has been for our culture like

1004
00:36:35,190 --> 00:36:33,680
the printing press was for previous

1005
00:36:38,630 --> 00:36:35,200
cultures

1006
00:36:41,750 --> 00:36:38,640
right i agree and also with the

1007
00:36:43,750 --> 00:36:41,760
elon musk's uh starlink satellites in

1008
00:36:45,750 --> 00:36:43,760
the thousands around the world

1009
00:36:48,150 --> 00:36:45,760
and that should also help in that effort

1010
00:36:49,990 --> 00:36:48,160
regarding being able to report things a

1011
00:36:51,430 --> 00:36:50,000
lot easier for third world countries

1012
00:36:53,030 --> 00:36:51,440
second and third world countries i would

1013
00:36:54,790 --> 00:36:53,040

agree except for the one thing is

1014

00:36:56,470 --> 00:36:54,800

the fact that they they give us false

1015

00:36:58,150 --> 00:36:56,480

errors you know

1016

00:36:59,510 --> 00:36:58,160

because you got this little string of

1017

00:37:01,349 --> 00:36:59,520

lights going through the sky

1018

00:37:02,470 --> 00:37:01,359

but that kind of thing we can filter out

1019

00:37:04,069 --> 00:37:02,480

because usually when you look at the

1020

00:37:05,589 --> 00:37:04,079

write-ups we've already had some issues

1021

00:37:08,150 --> 00:37:05,599

with that test they did

1022

00:37:09,829 --> 00:37:08,160

and we were able to pick those out quite

1023

00:37:11,109 --> 00:37:09,839

literally by looking at the description

1024

00:37:13,430 --> 00:37:11,119

in the database

1025

00:37:14,790 --> 00:37:13,440

and uh identify them as something we

1026

00:37:17,990 --> 00:37:14,800

didn't want to count

1027

00:37:20,069 --> 00:37:18,000

understood what type of shapes are most

1028

00:37:22,470 --> 00:37:20,079

reported over long periods of time

1029

00:37:23,990 --> 00:37:22,480

or short periods of time like say this

1030

00:37:27,750 --> 00:37:24,000

year to say compared

1031

00:37:30,630 --> 00:37:27,760

to 2001 through 2018

1032

00:37:32,710 --> 00:37:30,640

or 2017. what are the most common type

1033

00:37:35,349 --> 00:37:32,720

of shapes reported

1034

00:37:36,069 --> 00:37:35,359

there's the paradox the most common

1035

00:37:37,990 --> 00:37:36,079

shapes

1036

00:37:39,670 --> 00:37:38,000

that are reported are things like a

1037

00:37:43,030 --> 00:37:39,680

lightness guy

1038

00:37:44,790 --> 00:37:43,040

um a cylinder you know a lot of things

1039

00:37:46,710 --> 00:37:44,800

that could be easily confused with

1040

00:37:49,750 --> 00:37:46,720

conventional aircraft

1041

00:37:50,790 --> 00:37:49,760

okay those are the most shapes where the

1042

00:37:53,990 --> 00:37:50,800

secrets are

1043

00:37:56,310 --> 00:37:54,000

is

1044

00:37:57,589 --> 00:37:56,320

um they're in a they're in the tiny

1045

00:37:59,109 --> 00:37:57,599

numbers

1046

00:38:00,950 --> 00:37:59,119

there's a shape that's called this

1047

00:38:03,270 --> 00:38:00,960

changing shape and i never paid any

1048

00:38:06,790 --> 00:38:03,280

attention to it until i heard dr villa

1049

00:38:08,950 --> 00:38:06,800

on i'm a george knapp on coast to coast

1050

00:38:10,150 --> 00:38:08,960

and he was talking about them okay about

1051
00:38:11,510 --> 00:38:10,160
the fact you just start to put your

1052
00:38:13,510 --> 00:38:11,520
equipment on and then they appear to

1053
00:38:16,710 --> 00:38:13,520
change into some other kind of shape

1054
00:38:18,870 --> 00:38:16,720
and i thought to myself what the heck is

1055
00:38:20,550 --> 00:38:18,880
that so i i went in and started looking

1056
00:38:20,950 --> 00:38:20,560
at it and found out that they are the

1057
00:38:27,030 --> 00:38:20,960
most

1058
00:38:28,710 --> 00:38:27,040
ufo sighting but there's only about 150

1059
00:38:31,750 --> 00:38:28,720
of them a year

1060
00:38:33,510 --> 00:38:31,760
and over the last eight of the 18 years

1061
00:38:35,430 --> 00:38:33,520
2001 2018

1062
00:38:37,030 --> 00:38:35,440
there was only about 2 400 of them and a

1063
00:38:38,390 --> 00:38:37,040

lot of people in the community i tried

1064

00:38:40,069 --> 00:38:38,400

to point this out to people and they

1065

00:38:41,589 --> 00:38:40,079

just sniffed and said oh that's not a

1066

00:38:43,270 --> 00:38:41,599

trend you know they're looking for the

1067

00:38:45,190 --> 00:38:43,280

big mega numbers you know

1068

00:38:46,870 --> 00:38:45,200

but actually we found out that the

1069

00:38:48,150 --> 00:38:46,880

secrets are in the numbers that are down

1070

00:38:51,670 --> 00:38:48,160

there in the dirt

1071

00:38:53,829 --> 00:38:51,680

i'll give you an example uh a year or so

1072

00:38:55,510 --> 00:38:53,839

ago i was talking with louis assando

1073

00:38:57,109 --> 00:38:55,520

and we were all talking about the fact

1074

00:38:58,950 --> 00:38:57,119

that the numbers were falling off in

1075

00:39:00,710 --> 00:38:58,960

2016 to 18

1076

00:39:02,950 --> 00:39:00,720

and 19 that type of thing the numbers

1077

00:39:05,030 --> 00:39:02,960

were falling off into the dirt okay

1078

00:39:06,950 --> 00:39:05,040

uh even peven that peter davenport was

1079

00:39:07,990 --> 00:39:06,960

saying as somebody circumventing my

1080

00:39:10,230 --> 00:39:08,000

numbers there's somebody

1081

00:39:11,510 --> 00:39:10,240

like the government cancelling reports

1082

00:39:13,109 --> 00:39:11,520

coming into us or something

1083

00:39:15,270 --> 00:39:13,119

everybody was concerned about the fact

1084

00:39:19,910 --> 00:39:15,280

that the ufo sighting nervous had

1085

00:39:21,750 --> 00:39:19,920

dropped tremen dramatically and

1086

00:39:22,950 --> 00:39:21,760

we were talking about it over coffee and

1087

00:39:25,510 --> 00:39:22,960

i said well there are

1088

00:39:27,109 --> 00:39:25,520

three shapes that are coming up what do

1089

00:39:28,790 --> 00:39:27,119

you mean three shapes coming up i said

1090

00:39:30,069 --> 00:39:28,800

there's three shapes that are actually

1091

00:39:32,550 --> 00:39:30,079

on the increase

1092

00:39:33,430 --> 00:39:32,560

and when one shows up the other two show

1093

00:39:36,470 --> 00:39:33,440

up

1094

00:39:37,670 --> 00:39:36,480

and i printed them out a printout and i

1095

00:39:39,510 --> 00:39:37,680

don't know if you've ever seen

1096

00:39:41,270 --> 00:39:39,520

louis alessando he's always got a stoic

1097

00:39:43,109 --> 00:39:41,280

lick but he got a troubled look on his

1098

00:39:44,150 --> 00:39:43,119

face and asked for a copy of the

1099

00:39:47,750 --> 00:39:44,160

printout

1100

00:39:49,430 --> 00:39:47,760

um this saturn-shaped ship those mile

1101

00:39:51,589 --> 00:39:49,440

wide guys and then they

1102

00:39:52,870 --> 00:39:51,599

that's the one like the japan airlines

1103

00:39:56,069 --> 00:39:52,880

confronted in the middle

1104

00:39:59,750 --> 00:39:56,079

80s uh 1986 i think it was

1105

00:40:02,390 --> 00:39:59,760

uh a japan airline 747

1106

00:40:04,230 --> 00:40:02,400

uh cargo plane encountered one this

1107

00:40:05,910 --> 00:40:04,240

thing's a mile wide and it had the

1108

00:40:09,430 --> 00:40:05,920

agility of the plane that he

1109

00:40:10,550 --> 00:40:09,440

that the guy was flying okay and um

1110

00:40:12,470 --> 00:40:10,560

it seems that whenever these

1111

00:40:15,109 --> 00:40:12,480

saturn-shaped ships are rare

1112

00:40:16,230 --> 00:40:15,119

but when they show up the teardrop shape

1113

00:40:21,750 --> 00:40:16,240

shows up

1114

00:40:24,150 --> 00:40:21,760

in frequent numbers to suggest that the

1115

00:40:26,550 --> 00:40:24,160

teardrop might be some sort of

1116

00:40:28,309 --> 00:40:26,560

large-scale shuttle craft and that the

1117

00:40:30,630 --> 00:40:28,319

egg shape the little egg-shaped ships

1118

00:40:34,309 --> 00:40:30,640

might be just some kind of scout ship

1119

00:40:37,990 --> 00:40:34,319

right um i have a two-part question

1120

00:40:39,910 --> 00:40:38,000

for you and that is is mainstream media

1121

00:40:41,190 --> 00:40:39,920

asking about the topic we're covering

1122

00:40:45,670 --> 00:40:41,200

today

1123

00:40:48,950 --> 00:40:45,680

um uh are they asking you about

1124

00:40:50,630 --> 00:40:48,960

these topics that we're covering today

1125

00:40:52,069 --> 00:40:50,640

so that they can share your data with

1126

00:40:57,750 --> 00:40:52,079

their listeners and viewership

1127

00:40:59,589 --> 00:40:57,760

and the other question is i have um

1128

00:41:01,109 --> 00:40:59,599

do you believe that mainstream media is

1129

00:41:03,670 --> 00:41:01,119

covering this topic

1130

00:41:05,430 --> 00:41:03,680

more than ever so that two-part question

1131

00:41:07,030 --> 00:41:05,440

is mainstream media

1132

00:41:09,109 --> 00:41:07,040

asking you about the topic we're

1133

00:41:10,950 --> 00:41:09,119

covering today

1134

00:41:12,550 --> 00:41:10,960

and do you feel that they're covering it

1135

00:41:17,430 --> 00:41:12,560

now currently

1136

00:41:23,349 --> 00:41:21,030

major papers and news outlets of record

1137

00:41:24,470 --> 00:41:23,359

have been have been covering as we know

1138

00:41:28,950 --> 00:41:24,480

the new york times has

1139

00:41:31,349 --> 00:41:28,960

a washington post has politico has okay

1140

00:41:33,270 --> 00:41:31,359

you get down to the regional news

1141

00:41:33,990 --> 00:41:33,280

director state level news directors like

1142

00:41:36,390 --> 00:41:34,000

here in new york

1143

00:41:38,309 --> 00:41:36,400

state uh i've approached when my

1144

00:41:41,190 --> 00:41:38,319

newspaper went out of business

1145

00:41:42,630 --> 00:41:41,200

i reached out to them and said would you

1146

00:41:45,430 --> 00:41:42,640

like to pick me up

1147

00:41:47,750 --> 00:41:45,440

to do a similar online column every week

1148

00:41:49,190 --> 00:41:47,760

for us and they laughed me off the phone

1149

00:41:50,870 --> 00:41:49,200

literally and i said look the new york

1150

00:41:53,349 --> 00:41:50,880

times is writing about the heck they did

1151

00:41:55,589 --> 00:41:53,359

a profile on me and linda you know

1152

00:41:57,109 --> 00:41:55,599

no we're not we're not plugged into that

1153

00:41:58,870 --> 00:41:57,119

no no no they can report that all the

1154

00:42:01,510 --> 00:41:58,880

way we're not interested in that

1155

00:42:02,870 --> 00:42:01,520

and right this minute the only thing

1156

00:42:06,069 --> 00:42:02,880

anybody's listening to

1157

00:42:07,589 --> 00:42:06,079

is the election so until after the

1158

00:42:08,150 --> 00:42:07,599

election we're not going to get very

1159

00:42:11,670 --> 00:42:08,160

much

1160

00:42:13,589 --> 00:42:11,680

play um unless something uh

1161

00:42:15,430 --> 00:42:13,599

something happens in a sighting then i

1162

00:42:16,069 --> 00:42:15,440

get a phone call from some news director

1163

00:42:19,910 --> 00:42:16,079

i got a call

1164

00:42:23,190 --> 00:42:19,920
from the mufon investigator for

1165

00:42:24,870 --> 00:42:23,200
long island about three weeks ago and he

1166

00:42:25,990 --> 00:42:24,880
said he had two news directors hammering

1167

00:42:28,550 --> 00:42:26,000
him for numbers

1168

00:42:30,150 --> 00:42:28,560
down there because they they said the

1169

00:42:31,109 --> 00:42:30,160
newspapers said they were getting lots

1170

00:42:32,790 --> 00:42:31,119
of phone calls

1171

00:42:34,150 --> 00:42:32,800
and i was able to go back and give them

1172

00:42:37,750 --> 00:42:34,160
this number that we've had that

1173

00:42:40,309 --> 00:42:37,760
400 a month versus 600 a month now

1174

00:42:41,030 --> 00:42:40,319
increase in sightings but they think we

1175

00:42:42,309 --> 00:42:41,040
have this

1176
00:42:43,750 --> 00:42:42,319
button where i can just push a button

1177
00:42:45,270 --> 00:42:43,760
and give them the numbers right off and

1178
00:42:46,870 --> 00:42:45,280
give them what cities and counties right

1179
00:42:48,550 --> 00:42:46,880
off the bat and they have no idea how

1180
00:42:50,470 --> 00:42:48,560
much work that takes to get this stuff

1181
00:42:51,750 --> 00:42:50,480
right which leads me to my next question

1182
00:42:54,230 --> 00:42:51,760
thank you for watching

1183
00:42:55,030 --> 00:42:54,240
the length of time it takes i wanted to

1184
00:42:58,150 --> 00:42:55,040
thank you

1185
00:42:59,109 --> 00:42:58,160
because we appreciate the ufo community

1186
00:43:01,109 --> 00:42:59,119
appreciates

1187
00:43:02,550 --> 00:43:01,119
the kind of time it takes for you to get

1188
00:43:06,790 --> 00:43:02,560

the raw data

1189

00:43:07,829 --> 00:43:06,800

to extrapolate the kinds of statistics

1190

00:43:10,470 --> 00:43:07,839

that you're

1191

00:43:12,550 --> 00:43:10,480

able to publish and share with us

1192

00:43:15,109 --> 00:43:12,560

because i know it can take months

1193

00:43:17,190 --> 00:43:15,119

to do that i'm i don't even doubt that

1194

00:43:19,670 --> 00:43:17,200

at times it may have taken you years

1195

00:43:20,790 --> 00:43:19,680

um due to the lack of level of

1196

00:43:23,990 --> 00:43:20,800

technology

1197

00:43:25,589 --> 00:43:24,000

um at that period of time and

1198

00:43:27,030 --> 00:43:25,599

anyway i just wanted to thank you for

1199

00:43:29,670 --> 00:43:27,040

that i wanted to ask you

1200

00:43:30,710 --> 00:43:29,680

and expand upon that regarding how you

1201

00:43:34,150 --> 00:43:30,720

actually take

1202

00:43:35,910 --> 00:43:34,160

raw data you polish it refine it and

1203

00:43:37,670 --> 00:43:35,920

turn it into the diamonds that you share

1204

00:43:40,309 --> 00:43:37,680

with us how does that work

1205

00:43:41,589 --> 00:43:40,319

well when we download the data it has to

1206

00:43:43,750 --> 00:43:41,599

be cleaned up

1207

00:43:46,390 --> 00:43:43,760

okay we end up with about 12 typically

1208

00:43:49,829 --> 00:43:46,400

about 8 to 12 fields of data

1209

00:43:52,630 --> 00:43:49,839

and it first thing

1210

00:43:54,630 --> 00:43:52,640

we do a quick scan to make sure

1211

00:43:56,870 --> 00:43:54,640

information has been communicated

1212

00:43:58,470 --> 00:43:56,880

uh of the descriptions but usually after

1213

00:44:00,870 --> 00:43:58,480

about the first cleaning

1214

00:44:02,870 --> 00:44:00,880

we've taken off the fields that relate

1215

00:44:04,710 --> 00:44:02,880

to when the actual write-up about the

1216

00:44:08,150 --> 00:44:04,720

screen all we're really interested in

1217

00:44:11,270 --> 00:44:08,160

is uh what's it a date and time

1218

00:44:11,750 --> 00:44:11,280

what city what um what state that type

1219

00:44:14,790 --> 00:44:11,760

of thing

1220

00:44:16,069 --> 00:44:14,800

and what shape okay and that's really

1221

00:44:18,230 --> 00:44:16,079

all we're interested in we're just

1222

00:44:20,069 --> 00:44:18,240

counting statistics we don't have case

1223

00:44:22,390 --> 00:44:20,079

studies i've had people call me up

1224

00:44:23,430 --> 00:44:22,400

we want your 25 best case studies we

1225

00:44:26,790 --> 00:44:23,440

don't have them

1226

00:44:28,309 --> 00:44:26,800

we simply crunch numbers then the other

1227

00:44:29,670 --> 00:44:28,319

problem we have to go through is as we

1228

00:44:30,309 --> 00:44:29,680

start going through and cleaning up

1229

00:44:33,750 --> 00:44:30,319

things

1230

00:44:35,349 --> 00:44:33,760

um you ask about cities um three and a

1231

00:44:37,109 --> 00:44:35,359

half percent of people don't

1232

00:44:39,430 --> 00:44:37,119

and this is kind of average between both

1233

00:44:39,990 --> 00:44:39,440

databases don't even bother to fill out

1234

00:44:42,950 --> 00:44:40,000

the city

1235

00:44:44,230 --> 00:44:42,960

line you know they don't fill it out or

1236

00:44:45,589 --> 00:44:44,240

they'll write something in this my

1237

00:44:47,030 --> 00:44:45,599

mother told me not to tell you my

1238

00:44:48,390 --> 00:44:47,040

husband told me not to tell you the

1239

00:44:50,950 --> 00:44:48,400

sheriff told me not to tell you

1240

00:44:52,390 --> 00:44:50,960

everybody in town will know i did this i

1241

00:44:53,510 --> 00:44:52,400

reported this you know that kind of

1242

00:44:56,230 --> 00:44:53,520

paranoia

1243

00:44:58,150 --> 00:44:56,240

um so we have to take we want to count

1244

00:44:59,829 --> 00:44:58,160

the sighting

1245

00:45:01,829 --> 00:44:59,839

so we usually just put in there

1246

00:45:03,829 --> 00:45:01,839

unspecified and then when we

1247

00:45:05,030 --> 00:45:03,839

correlate it back into the state into

1248

00:45:06,630 --> 00:45:05,040

add county data

1249

00:45:08,630 --> 00:45:06,640

we make an unknown county for every

1250

00:45:10,230 --> 00:45:08,640

single state in the union

1251
00:45:12,069 --> 00:45:10,240
thank you and sometimes the unknown

1252
00:45:13,510 --> 00:45:12,079
counties actually have more than any of

1253
00:45:15,670 --> 00:45:13,520
the other major counties

1254
00:45:17,430 --> 00:45:15,680
it's a shame that people don't take the

1255
00:45:19,990 --> 00:45:17,440
time to give us the city or

1256
00:45:22,470 --> 00:45:20,000
again in the sanitizing they don't spell

1257
00:45:24,870 --> 00:45:22,480
the name of their city right

1258
00:45:26,230 --> 00:45:24,880
or one of the other big ones we deal

1259
00:45:30,069 --> 00:45:26,240
with two things

1260
00:45:32,630 --> 00:45:30,079
saint and mount is it mt

1261
00:45:33,109 --> 00:45:32,640
is it mt period do you spell the word

1262
00:45:36,550 --> 00:45:33,119
out

1263
00:45:39,030 --> 00:45:36,560

is it s-a-s-a-i-n-t is it s-t

1264

00:45:40,390 --> 00:45:39,040

period you know um we have to clean it

1265

00:45:42,630 --> 00:45:40,400

up and amazingly enough

1266

00:45:44,710 --> 00:45:42,640

i mean i i'm a retired i.t professional

1267

00:45:47,109 --> 00:45:44,720

i tried to write scripts to do this

1268

00:45:49,270 --> 00:45:47,119

and it just it was easier just to go in

1269

00:45:52,870 --> 00:45:49,280

there manually and fix it up

1270

00:45:55,750 --> 00:45:52,880

so which took an immense amount of time

1271

00:45:56,390 --> 00:45:55,760

well back in 2016 when we did the book

1272

00:45:59,750 --> 00:45:56,400

things that

1273

00:46:01,589 --> 00:45:59,760

took us months to do back then

1274

00:46:03,750 --> 00:46:01,599

we developed process and we're both

1275

00:46:06,069 --> 00:46:03,760

former government contractors in the

1276
00:46:10,150 --> 00:46:06,079
first rule of government contracting do

1277
00:46:14,390 --> 00:46:13,030
so you do i second that emotion well

1278
00:46:16,470 --> 00:46:14,400
what we did was we did

1279
00:46:18,710 --> 00:46:16,480
we both knew how to develop good process

1280
00:46:19,829 --> 00:46:18,720
procedures and as we learned how to do

1281
00:46:22,069 --> 00:46:19,839
things well

1282
00:46:23,750 --> 00:46:22,079
we documented and upgraded the procedure

1283
00:46:27,030 --> 00:46:23,760
and things that took me

1284
00:46:28,870 --> 00:46:27,040
say a month to do then without with

1285
00:46:31,270 --> 00:46:28,880
nine thousand lines worth of data from

1286
00:46:34,470 --> 00:46:31,280
one one reporting center or another

1287
00:46:37,349 --> 00:46:34,480
um i can do maybe in uh

1288
00:46:37,910 --> 00:46:37,359

two eight hour days now you know it it's

1289

00:46:39,750 --> 00:46:37,920

it

1290

00:46:41,510 --> 00:46:39,760

we've learned we've really gotten very

1291

00:46:44,069 --> 00:46:41,520

efficient at how we can do this

1292

00:46:46,710 --> 00:46:44,079

the most time-consuming thing is we

1293

00:46:48,870 --> 00:46:46,720

supplement the database

1294

00:46:50,069 --> 00:46:48,880

in our database we supplement it with

1295

00:46:51,670 --> 00:46:50,079

county data

1296

00:46:53,589 --> 00:46:51,680

and currently we've been doing a

1297

00:46:56,550 --> 00:46:53,599

retrofit work supplementing

1298

00:46:57,349 --> 00:46:56,560

correcting city spellings correcting

1299

00:47:00,309 --> 00:46:57,359

counties

1300

00:47:01,670 --> 00:47:00,319

and we are adding latitude longitude and

1301

00:47:04,790 --> 00:47:01,680

zip codes

1302

00:47:07,190 --> 00:47:04,800

thank you for mentioning all that um um

1303

00:47:08,870 --> 00:47:07,200

i just wanted to mention something uh

1304

00:47:12,069 --> 00:47:08,880

off topic a little bit here

1305

00:47:14,710 --> 00:47:12,079

i had the privilege of speaking to

1306

00:47:17,270 --> 00:47:14,720

a government official a while back he

1307

00:47:22,230 --> 00:47:17,280

had a master's in public administration

1308

00:47:26,069 --> 00:47:24,150

sometimes the government has to have

1309

00:47:27,430 --> 00:47:26,079

meetings just to figure out when to have

1310

00:47:29,829 --> 00:47:27,440

a meeting

1311

00:47:30,870 --> 00:47:29,839

that's how bureaucratic it is so i just

1312

00:47:33,030 --> 00:47:30,880

found that funny

1313

00:47:34,069 --> 00:47:33,040

but anyway moving along i wanted to talk

1314

00:47:36,549 --> 00:47:34,079

about a topic

1315

00:47:38,790 --> 00:47:36,559

regarding uh an article that was written

1316

00:47:40,470 --> 00:47:38,800

recently by alejandra rojas whom we just

1317

00:47:44,230 --> 00:47:40,480

interviewed a few days ago

1318

00:47:47,030 --> 00:47:44,240

and he reported in an article a

1319

00:47:48,390 --> 00:47:47,040

certain series of topics that i know

1320

00:47:50,470 --> 00:47:48,400

you're familiar with

1321

00:47:52,470 --> 00:47:50,480

the title of the article is how u.s

1322

00:47:53,190 --> 00:47:52,480

intelligence community insiders got the

1323

00:47:56,230 --> 00:47:53,200

senate's

1324

00:47:58,870 --> 00:47:56,240

attention regarding ufos in that article

1325

00:48:00,069 --> 00:47:58,880

a chris mellon states there's a quote

1326
00:48:03,670 --> 00:48:00,079
from chris mullen

1327
00:48:05,430 --> 00:48:03,680
stating that he was the individual who

1328
00:48:07,270 --> 00:48:05,440
received i believe it says in the

1329
00:48:10,150 --> 00:48:07,280
parking lot of the pentagon

1330
00:48:10,630 --> 00:48:10,160
the uh go fast gimbal and fleur videos

1331
00:48:13,190 --> 00:48:10,640
and

1332
00:48:15,510 --> 00:48:13,200
that he bent the rules a bit uh that he

1333
00:48:17,910 --> 00:48:15,520
felt that he felt that it was okay

1334
00:48:18,829 --> 00:48:17,920
for folks to bend the rules a bit so to

1335
00:48:21,670 --> 00:48:18,839
speak

1336
00:48:22,790 --> 00:48:21,680
uh and he was saying that in relation to

1337
00:48:25,990 --> 00:48:22,800
that topic

1338
00:48:26,710 --> 00:48:26,000

and so wanted to ask you um two two

1339

00:48:28,549 --> 00:48:26,720

questions

1340

00:48:31,109 --> 00:48:28,559

do you feel that it was a form of

1341

00:48:35,589 --> 00:48:31,119

disclosure regarding chris mellon having

1342

00:48:36,870 --> 00:48:35,599

released those videos or rather tsa did

1343

00:48:39,430 --> 00:48:36,880

i suppose

1344

00:48:41,670 --> 00:48:39,440

and then also in addition to that do you

1345

00:48:42,870 --> 00:48:41,680

feel that it was ethical or not ethical

1346

00:48:45,109 --> 00:48:42,880

of chris mellon

1347

00:48:47,750 --> 00:48:45,119

to have that belief regarding what he

1348

00:48:50,470 --> 00:48:47,760

was referencing there

1349

00:48:51,109 --> 00:48:50,480

it goes back to the issue of the greater

1350

00:48:52,870 --> 00:48:51,119

truth

1351

00:48:54,230 --> 00:48:52,880

now there have been people in that deep

1352

00:48:57,030 --> 00:48:54,240

state aspect that

1353

00:48:58,150 --> 00:48:57,040

knew about all of this stuff for for a

1354

00:49:00,390 --> 00:48:58,160

long long time

1355

00:49:01,430 --> 00:49:00,400

and it's been a secret it's been too

1356

00:49:03,990 --> 00:49:01,440

kept too long

1357

00:49:06,230 --> 00:49:04,000

how many guys have we had come out to us

1358

00:49:07,430 --> 00:49:06,240

in the ufo community on their death beds

1359

00:49:09,030 --> 00:49:07,440

former cia guys

1360

00:49:11,430 --> 00:49:09,040

things like this saying this stuff is

1361

00:49:14,790 --> 00:49:11,440

bloody real on their deathbeds

1362

00:49:18,150 --> 00:49:14,800

okay um heck for that matter even um

1363

00:49:21,670 --> 00:49:18,160

jesse marcel who sat down with uh

1364

00:49:24,150 --> 00:49:21,680

with um uh stanton friedman

1365

00:49:26,390 --> 00:49:24,160

yeah um the reason he sat down with

1366

00:49:28,390 --> 00:49:26,400

satan friedman he had lung cancer he had

1367

00:49:31,430 --> 00:49:28,400

nothing left to lose at that point

1368

00:49:33,109 --> 00:49:31,440

okay so there is

1369

00:49:34,630 --> 00:49:33,119

there is a reckoning there are people

1370

00:49:38,390 --> 00:49:34,640

who are of conscience

1371

00:49:40,470 --> 00:49:38,400

who say you know human the human culture

1372

00:49:42,549 --> 00:49:40,480

the human species needs to know this

1373

00:49:44,630 --> 00:49:42,559

stuff and needs to know the truth

1374

00:49:45,750 --> 00:49:44,640

and from that standpoint i say that's a

1375

00:49:48,549 --> 00:49:45,760

very high ethic

1376

00:49:51,349 --> 00:49:48,559

now within the the the government deep

1377

00:49:53,750 --> 00:49:51,359

state type of things

1378

00:49:55,270 --> 00:49:53,760

those flare videos that were released at

1379

00:49:58,309 --> 00:49:55,280

the new york times through

1380

00:49:59,589 --> 00:49:58,319

um academy

1381

00:50:02,710 --> 00:49:59,599

uh i can't remember the name of that

1382

00:50:05,670 --> 00:50:02,720

ttsa tts

1383

00:50:07,109 --> 00:50:05,680

um i i sometimes call it rockstar

1384

00:50:09,670 --> 00:50:07,119

academy for short you know

1385

00:50:13,990 --> 00:50:09,680

i mean no disrespect to him but uh

1386

00:50:18,390 --> 00:50:16,390

they those tapes were cleared i talked

1387

00:50:19,270 --> 00:50:18,400

to i talked to lou alsano about them

1388

00:50:23,030 --> 00:50:19,280

they had been

1389

00:50:25,270 --> 00:50:23,040

cleared the actual seriously classified

1390

00:50:27,670 --> 00:50:25,280

aspects have been taken out

1391

00:50:29,430 --> 00:50:27,680

okay and then what do we find out here

1392

00:50:30,470 --> 00:50:29,440

two years later during the middle of the

1393

00:50:33,589 --> 00:50:30,480

lockdown

1394

00:50:35,430 --> 00:50:33,599

the pentagon confirms it and uh

1395

00:50:37,030 --> 00:50:35,440

ralph bloomington i worked from the new

1396

00:50:39,030 --> 00:50:37,040

york times and i were talking about this

1397

00:50:40,309 --> 00:50:39,040

he says hey they confirmed our story you

1398

00:50:41,990 --> 00:50:40,319

know

1399

00:50:44,309 --> 00:50:42,000

a reporter loves to have their story

1400

00:50:46,470 --> 00:50:44,319

confirmed so i think it was very ethical

1401

00:50:49,829 --> 00:50:46,480

for them to do it and i think

1402

00:50:50,790 --> 00:50:49,839

i personally i think there's something

1403

00:50:53,829 --> 00:50:50,800

bigger pushing

1404

00:50:55,589 --> 00:50:53,839

this okay and depending upon how the

1405

00:50:57,510 --> 00:50:55,599

election goes we're going to have either

1406

00:51:00,630 --> 00:50:57,520

a really crappy disclosure or we're

1407

00:51:02,549 --> 00:51:00,640

going to have a really good disclosure

1408

00:51:03,910 --> 00:51:02,559

uh just to jump in with a quick question

1409

00:51:06,870 --> 00:51:03,920

here cheryl uh

1410

00:51:09,430 --> 00:51:06,880

how if such a thing doesn't exist and it

1411

00:51:12,230 --> 00:51:09,440

probably does in uh some form or another

1412

00:51:13,510 --> 00:51:12,240

how much would you like to get hold of a

1413

00:51:16,790 --> 00:51:13,520

database of

1414

00:51:18,069 --> 00:51:16,800

military ufo sightings that has been

1415

00:51:20,790 --> 00:51:18,079

kept internally

1416

00:51:22,549 --> 00:51:20,800

up to this point uh to be honest with

1417

00:51:25,030 --> 00:51:22,559

you i don't care about their data

1418

00:51:27,349 --> 00:51:25,040

you know why um they were more

1419

00:51:30,950 --> 00:51:27,359

interested in mine

1420

00:51:32,549 --> 00:51:30,960

okay um they have a they have a little

1421

00:51:34,710 --> 00:51:32,559

problem and lou and i talked to

1422

00:51:36,710 --> 00:51:34,720

louisano and i talked about this thing

1423

00:51:40,309 --> 00:51:36,720

called posse commentatus

1424

00:51:43,349 --> 00:51:40,319

okay and it's a it's about how much the

1425

00:51:47,430 --> 00:51:43,359

military can use civilian resources

1426

00:51:51,270 --> 00:51:47,440

okay and they can't okay under title 10.

1427

00:51:52,630 --> 00:51:51,280

so um their database and actually lou

1428

00:51:54,549 --> 00:51:52,640

and i talked about this

1429

00:51:55,990 --> 00:51:54,559

really only covered military

1430

00:51:57,910 --> 00:51:56,000

installations

1431

00:51:59,270 --> 00:51:57,920

and where the fleet was and what was

1432

00:52:01,430 --> 00:51:59,280

happening to the fleet

1433

00:52:02,950 --> 00:52:01,440

and lou told me he said uh you know we

1434

00:52:04,470 --> 00:52:02,960

would sometimes go for months with

1435

00:52:05,510 --> 00:52:04,480

nothing and then suddenly the boards

1436

00:52:08,309 --> 00:52:05,520

were letting up

1437

00:52:10,150 --> 00:52:08,319

okay so they really are only tracking

1438

00:52:11,190 --> 00:52:10,160

their own incursions with it and yes

1439

00:52:13,109 --> 00:52:11,200

it'd be fun to

1440

00:52:14,390 --> 00:52:13,119

see what the heck they've had going on

1441

00:52:15,990 --> 00:52:14,400

over the years but

1442

00:52:17,670 --> 00:52:16,000

uh to be honest with you i think the

1443

00:52:21,109 --> 00:52:17,680

bigger story is we

1444

00:52:25,030 --> 00:52:21,119

listen i reported between 2001 to 2018

1445

00:52:28,870 --> 00:52:25,040

i said that we said that there was 146

1446

00:52:31,589 --> 00:52:28,880

800 sightings okay we had

1447

00:52:32,790 --> 00:52:31,599

two polls that were done one by fox

1448

00:52:36,790 --> 00:52:32,800

pictures in

1449

00:52:37,589 --> 00:52:36,800

july of 2017 the other by the gallup

1450

00:52:41,109 --> 00:52:37,599

organization

1451
00:52:42,630 --> 00:52:41,119
in september of 2019 and they reported

1452
00:52:43,430 --> 00:52:42,640
the things we pretty much had seen in

1453
00:52:46,230 --> 00:52:43,440
other polls

1454
00:52:47,030 --> 00:52:46,240
uh 36 percent were saying i bel um

1455
00:52:50,470 --> 00:52:47,040
believer

1456
00:52:53,349 --> 00:52:50,480
42 were on the fence and 17 18 percent

1457
00:52:54,069 --> 00:52:53,359
said it's bologna okay okay we saw that

1458
00:52:56,950 --> 00:52:54,079
but

1459
00:52:57,829 --> 00:52:56,960
fox hit asked the question had you seen

1460
00:53:01,190 --> 00:52:57,839
it a

1461
00:53:03,430 --> 00:53:01,200
ufo and so did gallup and they both came

1462
00:53:07,190 --> 00:53:03,440
back with a percentage of the country

1463
00:53:08,390 --> 00:53:07,200

of 16 16 and change but let's just say

1464

00:53:10,870 --> 00:53:08,400

16 for a round number

1465

00:53:11,510 --> 00:53:10,880

16 of the adult population of the

1466

00:53:13,589 --> 00:53:11,520

country

1467

00:53:15,430 --> 00:53:13,599

says they've seen a ufo so we

1468

00:53:17,270 --> 00:53:15,440

extrapolated that back over say a

1469

00:53:18,549 --> 00:53:17,280

30-year period which is what's called a

1470

00:53:21,190 --> 00:53:18,559

generation

1471

00:53:22,470 --> 00:53:21,200

and we came back up with the number that

1472

00:53:24,710 --> 00:53:22,480

for

1473

00:53:27,990 --> 00:53:24,720

one swag just in the united states one

1474

00:53:31,910 --> 00:53:28,000

in 277 people reports what they see

1475

00:53:34,630 --> 00:53:31,920

okay you want a really rough number

1476
00:53:36,309 --> 00:53:34,640
one in 300 people okay now we we ended

1477
00:53:38,390 --> 00:53:36,319
up going to every single state and

1478
00:53:39,750 --> 00:53:38,400
calculating and getting the census data

1479
00:53:41,829 --> 00:53:39,760
and calculating

1480
00:53:43,190 --> 00:53:41,839
what and this is our private research we

1481
00:53:45,270 --> 00:53:43,200
were doing uh

1482
00:53:46,309 --> 00:53:45,280
uh with department adult pop seventy six

1483
00:53:48,549 --> 00:53:46,319
percent of

1484
00:53:50,230 --> 00:53:48,559
i'm sorry what the adult population of

1485
00:53:51,750 --> 00:53:50,240
every single state was and taking that

1486
00:53:55,030 --> 00:53:51,760
sixteen percent

1487
00:53:57,349 --> 00:53:55,040
okay so we had numbers again bouncing

1488
00:54:00,390 --> 00:53:57,359

them back against actual reports

1489

00:54:03,190 --> 00:54:00,400

of saying somewhere between one in 150

1490

00:54:05,190 --> 00:54:03,200

people and one in 450 people reported

1491

00:54:07,670 --> 00:54:05,200

but the center of the bell curve was

1492

00:54:10,069 --> 00:54:07,680

right around one in 300 people reports

1493

00:54:12,069 --> 00:54:10,079

what they see now crank that number take

1494

00:54:15,670 --> 00:54:12,079

that one hundred thousand

1495

00:54:18,870 --> 00:54:15,680

uh 146 800 number

1496

00:54:20,710 --> 00:54:18,880

and times it by 277.

1497

00:54:24,309 --> 00:54:20,720

we have a lot of sightings folks and

1498

00:54:26,790 --> 00:54:24,319

most of them are not reported

1499

00:54:28,470 --> 00:54:26,800

yeah we were talking earlier cheryl just

1500

00:54:30,630 --> 00:54:28,480

wanted to uh

1501

00:54:33,510 --> 00:54:30,640

just reiterate something that you

1502

00:54:35,910 --> 00:54:33,520

actually discussed earlier with me

1503

00:54:37,349 --> 00:54:35,920

and that was uh ralph blumenthal did

1504

00:54:40,390 --> 00:54:37,359

find it refreshing

1505

00:54:43,589 --> 00:54:40,400

regarding his story with leslie keane

1506

00:54:45,270 --> 00:54:43,599

and helen cooper and their glowing rs

1507

00:54:47,309 --> 00:54:45,280

and black money article which was

1508

00:54:51,670 --> 00:54:47,319

published on december 16

1509

00:54:54,870 --> 00:54:51,680

2017 having been having been confirmed

1510

00:54:57,030 --> 00:54:54,880

by the pentagon so moving along uh

1511

00:54:57,910 --> 00:54:57,040

there was just that one last question i

1512

00:54:59,670 --> 00:54:57,920

wanted to get

1513

00:55:01,829 --> 00:54:59,680

a little bit more information on from

1514

00:55:03,589 --> 00:55:01,839

you before we wrap up and that is

1515

00:55:05,109 --> 00:55:03,599

did you feel that it was a form of

1516

00:55:08,549 --> 00:55:05,119

disclosure

1517

00:55:13,150 --> 00:55:08,559

when um tts

1518

00:55:17,190 --> 00:55:13,160

a actually released those three videos

1519

00:55:21,109 --> 00:55:17,200

2017 itself was a disclosure year

1520

00:55:23,030 --> 00:55:21,119

in january of 2017 the cia

1521

00:55:25,109 --> 00:55:23,040

through the national archives and they

1522

00:55:27,030 --> 00:55:25,119

did a brilliant job the national archive

1523

00:55:28,230 --> 00:55:27,040

archivist library it's a beautiful job

1524

00:55:31,750 --> 00:55:28,240

of organizing it

1525

00:55:35,030 --> 00:55:31,760

released many millions of

1526
00:55:36,309 --> 00:55:35,040
kissinger cables from the the nixon era

1527
00:55:36,870 --> 00:55:36,319
that type of thing plus a lot of other

1528
00:55:44,470 --> 00:55:36,880
stuff

1529
00:55:47,430 --> 00:55:44,480
and uh and of course for years the

1530
00:55:47,990 --> 00:55:47,440
cia told us oh we don't study ufos and

1531
00:55:50,549 --> 00:55:48,000
then you get

1532
00:55:52,150 --> 00:55:50,559
in there and in the 19 late 40s and

1533
00:55:54,789 --> 00:55:52,160
early 50s they had

1534
00:55:56,390 --> 00:55:54,799
they had pdfs in there that were saying

1535
00:55:57,270 --> 00:55:56,400
you know here's these two doctors

1536
00:56:00,470 --> 00:55:57,280
talking to each other

1537
00:56:02,470 --> 00:56:00,480
they were pulling their hair

1538
00:56:04,309 --> 00:56:02,480

out about things that linda and i

1539

00:56:05,670 --> 00:56:04,319

analyzed and of course we had better

1540

00:56:09,510 --> 00:56:05,680

data than they did

1541

00:56:10,549 --> 00:56:09,520

okay um so uh that was a disclosure in

1542

00:56:13,109 --> 00:56:10,559

itself

1543

00:56:14,630 --> 00:56:13,119

i think that also got the new york times

1544

00:56:17,589 --> 00:56:14,640

attention

1545

00:56:18,390 --> 00:56:17,599

um that hey maybe there is something to

1546

00:56:20,549 --> 00:56:18,400

this

1547

00:56:22,390 --> 00:56:20,559

so what about three months later two old

1548

00:56:23,750 --> 00:56:22,400

ladies in upstate new york produced this

1549

00:56:25,270 --> 00:56:23,760

book of data

1550

00:56:26,789 --> 00:56:25,280

and the new york times looked at this

1551
00:56:28,870 --> 00:56:26,799
and they knew why they didn't report

1552
00:56:30,069 --> 00:56:28,880
ufos because it was all anecdotal it was

1553
00:56:31,990 --> 00:56:30,079
always stories

1554
00:56:33,829 --> 00:56:32,000
here's two ladies in upstate new york

1555
00:56:35,750 --> 00:56:33,839
that produced a book of numbers

1556
00:56:37,030 --> 00:56:35,760
charts graphs something you could put

1557
00:56:40,549 --> 00:56:37,040
your hands around

1558
00:56:43,430 --> 00:56:40,559
and that was another level of disclosure

1559
00:56:44,950 --> 00:56:43,440
okay that a major paper of record on

1560
00:56:47,510 --> 00:56:44,960
this planet reported it and

1561
00:56:48,150 --> 00:56:47,520
day after they reported that my phone

1562
00:56:50,710 --> 00:56:48,160
rang

1563
00:56:51,349 --> 00:56:50,720

off the hook from news directors and

1564

00:56:53,750 --> 00:56:51,359

editors

1565

00:56:55,349 --> 00:56:53,760

all over the world okay the next morning

1566

00:56:56,069 --> 00:56:55,359

the first call that came to me was times

1567

00:56:58,390 --> 00:56:56,079

of london

1568

00:57:00,069 --> 00:56:58,400

okay so here's where we go when we get

1569

00:57:02,710 --> 00:57:00,079

to december

1570

00:57:03,829 --> 00:57:02,720

it did not surprise me that that

1571

00:57:06,390 --> 00:57:03,839

politico

1572

00:57:07,190 --> 00:57:06,400

and uh leslie keane and and and ralph

1573

00:57:09,349 --> 00:57:07,200

blumenthal

1574

00:57:11,270 --> 00:57:09,359

broke that story it did not surprise me

1575

00:57:11,990 --> 00:57:11,280

at all i was delighted to see it i was

1576

00:57:15,030 --> 00:57:12,000

hoping more

1577

00:57:19,109 --> 00:57:17,670

so does that mean uh that it's possible

1578

00:57:22,309 --> 00:57:19,119

that

1579

00:57:25,109 --> 00:57:22,319

when we have hearings on the uap topic

1580

00:57:27,910 --> 00:57:25,119

that you and linda miller costa might be

1581

00:57:30,309 --> 00:57:27,920

called forward to talk at those hearings

1582

00:57:31,190 --> 00:57:30,319

it's been suggested we've got the only

1583

00:57:33,589 --> 00:57:31,200

book of data

1584

00:57:34,630 --> 00:57:33,599

publicly available even blue book never

1585

00:57:37,670 --> 00:57:34,640

published

1586

00:57:39,910 --> 00:57:37,680

the 12 000 sightings they had and

1587

00:57:41,750 --> 00:57:39,920

by the time they get around to doing

1588

00:57:42,230 --> 00:57:41,760

this stuff and everybody gets settled

1589

00:57:43,910 --> 00:57:42,240

into

1590

00:57:45,270 --> 00:57:43,920

whatever government we're going to have

1591

00:57:47,829 --> 00:57:45,280

after the election

1592

00:57:49,670 --> 00:57:47,839

um my current numbers say we're going to

1593

00:57:52,710 --> 00:57:49,680

have somewhere between a hundred

1594

00:57:56,069 --> 00:57:52,720

that my database right now says 140

1595

00:57:58,069 --> 00:57:56,079

146 800 we think it's going to be

1596

00:58:00,870 --> 00:57:58,079

somewhere between 165

1597

00:58:03,670 --> 00:58:00,880

000 and 170 000 sightings for the

1598

00:58:05,349 --> 00:58:03,680

20-year window of 2001 to 2020

1599

00:58:06,710 --> 00:58:05,359

and the numbers right now are looking

1600

00:58:09,829 --> 00:58:06,720

like 168

1601
00:58:11,589 --> 00:58:09,839
000. 000 based on our model thank you

1602
00:58:14,309 --> 00:58:11,599
for that information before we go

1603
00:58:16,069 --> 00:58:14,319
can you please share with us a new book

1604
00:58:18,230 --> 00:58:16,079
that you're working on

1605
00:58:20,150 --> 00:58:18,240
the new book is basically going to be

1606
00:58:24,470 --> 00:58:20,160
the ufo sightings desk reference

1607
00:58:28,069 --> 00:58:24,480
united states of america 2001 to 2020

1608
00:58:30,150 --> 00:58:28,079
we'll be again self-publishing and uh

1609
00:58:32,630 --> 00:58:30,160
it will it should be it should be a lot

1610
00:58:33,990 --> 00:58:32,640
of fun uh it'll be probably a tad bigger

1611
00:58:35,829 --> 00:58:34,000
but we're going to pretty much carry the

1612
00:58:37,109 --> 00:58:35,839
same format but we're going to add a few

1613
00:58:38,789 --> 00:58:37,119

additional

1614

00:58:40,549 --> 00:58:38,799

types of charts and graphs because of

1615

00:58:41,589 --> 00:58:40,559

the fact that we've discovered new ways

1616

00:58:44,549 --> 00:58:41,599

of displaying the

1617

00:58:45,750 --> 00:58:44,559

the data what's something we would like

1618

00:58:48,870 --> 00:58:45,760

to do

1619

00:58:50,069 --> 00:58:48,880

is also add and do a publish a in 2020

1620

00:58:52,470 --> 00:58:50,079

we'd like to do a

1621

00:58:53,270 --> 00:58:52,480

five book series on just individual

1622

00:58:55,670 --> 00:58:53,280

analysis

1623

00:58:57,430 --> 00:58:55,680

of shapes so take everything that looks

1624

00:58:59,750 --> 00:58:57,440

like a triangle a wedge or a

1625

00:59:00,710 --> 00:58:59,760

or a chevron and do do a book on nothing

1626
00:59:02,309 --> 00:59:00,720
but them

1627
00:59:04,309 --> 00:59:02,319
and then do a book on nothing but the

1628
00:59:05,829 --> 00:59:04,319
squares and that type of thing and

1629
00:59:07,750 --> 00:59:05,839
something about the circles and the

1630
00:59:10,870 --> 00:59:07,760
circles of lights and the spheres and

1631
00:59:12,870 --> 00:59:10,880
that and then the exotic shapes okay

1632
00:59:14,950 --> 00:59:12,880
we figured out what shapes we'd like to

1633
00:59:17,030 --> 00:59:14,960
do and it would take a five volumes that

1634
00:59:18,309 --> 00:59:17,040
do it if we tried to do in one book it

1635
00:59:20,390 --> 00:59:18,319
would be the size of an oxford

1636
00:59:22,549 --> 00:59:20,400
dictionary it's that much data

1637
00:59:23,829 --> 00:59:22,559
understood i wanted to go ahead and let

1638
00:59:26,069 --> 00:59:23,839

our listeners know

1639

00:59:28,150 --> 00:59:26,079

that if they wanted to contact cheryl

1640

00:59:31,430 --> 00:59:28,160

with any ufo

1641

00:59:32,870 --> 00:59:31,440

related data to go ahead and contact her

1642

00:59:36,230 --> 00:59:32,880

at her email

1643

00:59:37,829 --> 00:59:36,240

blogger cherylcosta.com and i'm going to

1644

00:59:41,470 --> 00:59:37,839

go ahead and say that again

1645

00:59:44,150 --> 00:59:41,480

blogger as in the word blogger at

1646

00:59:47,630 --> 00:59:44,160

cherylcosta.com which is c h

1647

00:59:51,190 --> 00:59:47,640

e r y l

1648

00:59:51,430 --> 00:59:51,200

c-o-s-t-a and uh feel free to shoot her

1649

00:59:56,390 --> 00:59:51,440

an

1650

00:59:57,990 --> 00:59:56,400

related topics

1651
00:59:59,990 --> 00:59:58,000
and then also we want to thank you for

1652
01:00:03,030 --> 01:00:00,000
having been on our show today it's been

1653
01:00:04,230 --> 01:00:03,040
an honor and a pleasure and a privilege

1654
01:00:06,230 --> 01:00:04,240
to be able to have

1655
01:00:07,910 --> 01:00:06,240
the opportunity to interview you today

1656
01:00:08,630 --> 01:00:07,920
cheryl thank you so much and please tell

1657
01:00:10,870 --> 01:00:08,640
linda

1658
01:00:11,750 --> 01:00:10,880
that we said hello and give her our best

1659
01:00:13,670 --> 01:00:11,760
i will do that

1660
01:00:15,589 --> 01:00:13,680
yeah thanks so much cheryl frank and

1661
01:00:17,829 --> 01:00:15,599
chan thank you very much for having me

1662
01:00:21,109 --> 01:00:17,839
on i will pass along the goodwill

1663
01:00:23,589 --> 01:00:21,119

and um uh sometime sometime in this

1664

01:00:25,510 --> 01:00:23,599

uh second quarter of next year we should

1665

01:00:27,109 --> 01:00:25,520

have something really cool to show you

1666

01:00:28,549 --> 01:00:27,119

that'd be fabulous and we would love to

1667

01:00:31,589 --> 01:00:28,559

cover that

1668

01:00:33,750 --> 01:00:31,599

okay take care thank you you too

1669

01:00:36,390 --> 01:00:33,760

and uh thanks for joining us everybody

1670

01:00:39,109 --> 01:00:36,400

and we'll be back in the next week or so

1671

01:00:39,829 --> 01:00:39,119

and we'll have more guests more ufo

1672

01:00:41,349 --> 01:00:39,839

stuff

1673

01:00:43,109 --> 01:00:41,359

thanks for joining us enjoy your
