so

2
00:00:33,300 --> 00:01:02,069

[Music]

3
00:01:05,750 --> 00:01:04,390

and good afternoon from philadelphia

4
00:01:08,950 --> 00:01:05,760

frank here with another

5
00:01:11,910 --> 00:01:08,960

episode of ufo news network sunday

6
00:01:13,270 --> 00:01:11,920

uh we've got a lot of news to update

7
00:01:15,190 --> 00:01:13,280

it's been a couple months since we've

8
00:01:15,990 --> 00:01:15,200

done a full-fledged news show without

9
00:01:19,190 --> 00:01:16,000

guests

10
00:01:20,149 --> 00:01:19,200

but uh a lot came down this week a lot

11
00:01:23,270 --> 00:01:20,159

did happen

12
00:01:23,630 --> 00:01:23,280

and before we get into it and really go

13
00:01:25,910 --> 00:01:23,640

through

14

00:01:27,190 --> 00:01:25,920

excruciating details on all these

15

00:01:29,830 --> 00:01:27,200

stories

16

00:01:31,910 --> 00:01:29,840

let me uh let me bring in uh my trusty

17

00:01:35,109 --> 00:01:31,920

co-host uh the one the only

18

00:01:36,630 --> 00:01:35,119

uh chant hannah chan how are you today

19

00:01:38,870 --> 00:01:36,640

i'm doing really well frank you're right

20

00:01:41,590 --> 00:01:38,880

there's been a lot of really interesting

21

00:01:42,950 --> 00:01:41,600

trending ufo related news and i wanted

22

00:01:45,670 --> 00:01:42,960

to hear from you

23

00:01:47,590 --> 00:01:45,680

well what is the latest hot topic that

24

00:01:50,789 --> 00:01:47,600

you wanted to bring up

25

00:01:51,270 --> 00:01:50,799

well let me get to it right away we did

26

00:01:54,310 --> 00:01:51,280

see

27

00:01:54,789 --> 00:01:54,320

a really interesting story uh coming

28

00:01:57,830 --> 00:01:54,799

from

29

00:01:58,630 --> 00:01:57,840

an organization called the debrief tim

30

00:02:00,310 --> 00:01:58,640

mcmillan

31

00:02:02,550 --> 00:02:00,320

is writing for that particular

32

00:02:04,709 --> 00:02:02,560

organization and they

33

00:02:06,389 --> 00:02:04,719

broke what was a pretty interesting

34

00:02:07,270 --> 00:02:06,399

story it's getting a lot of attention

35

00:02:09,190 --> 00:02:07,280

and some

36

00:02:10,630 --> 00:02:09,200

in at least one respect for all the

37

00:02:13,190 --> 00:02:10,640

wrong reasons but

38

00:02:15,270 --> 00:02:13,200

uh mcmillan did do a real nice job here

39

00:02:18,869 --> 00:02:15,280

and basically uh what he got

40

00:02:21,430 --> 00:02:18,879

is this that uh uh in talking to

41

00:02:22,790 --> 00:02:21,440

multiple senior us officials with direct

42

00:02:25,110 --> 00:02:22,800

knowledge of the matter

43

00:02:28,070 --> 00:02:25,120

this is a quote from the article two

44

00:02:31,190 --> 00:02:28,080

classified intelligence reports on uap

45

00:02:34,070 --> 00:02:31,200

have been widely distributed to the u.s

46

00:02:36,229 --> 00:02:34,080

intelligence community numerous sources

47

00:02:37,190 --> 00:02:36,239

from various government agencies told

48

00:02:38,949 --> 00:02:37,200

the debrief

49

00:02:40,949 --> 00:02:38,959

that these reports include clear

50

00:02:42,790 --> 00:02:40,959

photographic evidence of uap

51
00:02:43,990 --> 00:02:42,800
i'm going to put that aside for now

52
00:02:44,869 --> 00:02:44,000
because that's where it gets a little

53
00:02:47,190 --> 00:02:44,879
bit messy

54
00:02:47,910 --> 00:02:47,200
uh back to the the quote from the

55
00:02:49,990 --> 00:02:47,920
article

56
00:02:52,070 --> 00:02:50,000
the reports also explicitly state that

57
00:02:54,309 --> 00:02:52,080
the task force is considering

58
00:02:55,350 --> 00:02:54,319
the possibility that these unidentified

59
00:02:57,910 --> 00:02:55,360
objects could

60
00:02:59,910 --> 00:02:57,920
as stated by one source from the u.s

61
00:03:02,949 --> 00:02:59,920
intelligence community

62
00:03:05,190 --> 00:03:02,959
be operated by intelligences of

63
00:03:05,990 --> 00:03:05,200

unknown origin so that is a really quite

64

00:03:09,430 --> 00:03:06,000

significant

65

00:03:11,350 --> 00:03:09,440

that was an

66

00:03:13,509 --> 00:03:11,360

email obtained via freedom of

67

00:03:16,790 --> 00:03:13,519

information act

68

00:03:19,509 --> 00:03:16,800

from october 16 2019

69

00:03:20,790 --> 00:03:19,519

in exchange between then vice chief of

70

00:03:23,589 --> 00:03:20,800

naval operations

71

00:03:25,750 --> 00:03:23,599

admiral robert burke and current vice

72

00:03:28,470 --> 00:03:25,760

chief of staff for the air force

73

00:03:30,550 --> 00:03:28,480

uh general stephen wilson uh in the

74

00:03:35,430 --> 00:03:30,560

email and now let me uh let me

75

00:03:41,110 --> 00:03:38,789

in the email uh steve i recommend you

76

00:03:41,830 --> 00:03:41,120

take the brief i just received from our

77

00:03:44,869 --> 00:03:41,840

director

78

00:03:47,670 --> 00:03:44,879

of naval intelligence a vice admiral

79

00:03:48,710 --> 00:03:47,680

matt kohler on unidentified aerial

80

00:03:51,670 --> 00:03:48,720

phenomenon

81

00:03:53,429 --> 00:03:51,680

uh secretary of navy we'll get the same

82

00:03:56,550 --> 00:03:53,439

brief tomorrow at 10 a.m

83

00:03:59,830 --> 00:03:56,560

so here we've got top officials uh

84

00:04:01,589 --> 00:03:59,840

a top official with the navy okay we've

85

00:04:04,309 --> 00:04:01,599

got the uh the vice chief of

86

00:04:05,509 --> 00:04:04,319

naval operations admiral burke uh

87

00:04:08,390 --> 00:04:05,519

contacting the

88

00:04:10,949 --> 00:04:08,400

vice chief of staff for the air force uh

89

00:04:13,750 --> 00:04:10,959

stephen wilson about uaps

90

00:04:16,390 --> 00:04:13,760

uh so much has come from the navy and

91

00:04:19,349 --> 00:04:16,400

the air force has been notoriously quiet

92

00:04:19,749 --> 00:04:19,359

on the issue uh here we have some foia

93

00:04:21,990 --> 00:04:19,759

out

94

00:04:23,110 --> 00:04:22,000

communications between high-ranking

95

00:04:25,590 --> 00:04:23,120

officials uh

96

00:04:27,030 --> 00:04:25,600

in one branch communicating over with

97

00:04:30,070 --> 00:04:27,040

the other suggesting

98

00:04:32,870 --> 00:04:30,080

that you should take this uap

99

00:04:34,950 --> 00:04:32,880

brief as well and also mentioning that

100

00:04:38,469 --> 00:04:34,960

the secretary of the navy

101
00:04:41,510 --> 00:04:38,479
who at that time was richard spencer

102
00:04:43,990 --> 00:04:41,520
has actually gotten that brief so that

103
00:04:45,510 --> 00:04:44,000
is really quite significant news uh

104
00:04:48,790 --> 00:04:45,520
kudos to mcmillan

105
00:04:50,710 --> 00:04:48,800
for getting all that out and uh

106
00:04:53,430 --> 00:04:50,720
i mean that that's basically it though

107
00:04:55,510 --> 00:04:53,440
we know that the

108
00:04:57,670 --> 00:04:55,520
that these high-ranking officials from

109
00:05:00,550 --> 00:04:57,680
multiple branches are going uh

110
00:05:01,430 --> 00:05:00,560
back and forth privately uh regarding uh

111
00:05:04,469 --> 00:05:01,440
the uap

112
00:05:05,510 --> 00:05:04,479
topic now we've also got uh and let's

113
00:05:07,990 --> 00:05:05,520

see let's uh let's

114

00:05:08,950 --> 00:05:08,000

take a quick look at that at that

115

00:05:12,550 --> 00:05:08,960

particular

116

00:05:15,590 --> 00:05:12,560

email and we've got that and then

117

00:05:18,950 --> 00:05:15,600

also uh mcmillan in his article

118

00:05:20,469 --> 00:05:18,960

goes on to get a quote from and i've got

119

00:05:21,909 --> 00:05:20,479

a few windows open here so this is

120

00:05:23,830 --> 00:05:21,919

getting a little bit messy

121

00:05:25,029 --> 00:05:23,840

uh he gets an on the record quote uh

122

00:05:27,590 --> 00:05:25,039

very nicely

123

00:05:29,270 --> 00:05:27,600

from a retired u.s air force brigadier

124

00:05:31,110 --> 00:05:29,280

general bruce mcclintock

125

00:05:32,950 --> 00:05:31,120

it is unlikely that the u.s government

126
00:05:35,270 --> 00:05:32,960
would intentionally conduct tests

127
00:05:36,070 --> 00:05:35,280
against its own unwitting military

128
00:05:39,029 --> 00:05:36,080
assets

129
00:05:41,270 --> 00:05:39,039
uh to do so uh would require a very high

130
00:05:42,710 --> 00:05:41,280
level of coordination and approval for

131
00:05:45,670 --> 00:05:42,720
the potential safety

132
00:05:46,710 --> 00:05:45,680
and operational security risks and then

133
00:05:48,790 --> 00:05:46,720
goes on to state

134
00:05:50,870 --> 00:05:48,800
that it is not outside the realm of

135
00:05:51,670 --> 00:05:50,880
possibility that an adversary would test

136
00:05:53,990 --> 00:05:51,680
the ability

137
00:05:54,950 --> 00:05:54,000
of the united states to detect some new

138
00:05:56,629 --> 00:05:54,960

capability

139

00:05:58,790 --> 00:05:56,639

although it would be more likely they

140

00:06:01,430 --> 00:05:58,800

would only do this after testing

141

00:06:02,629 --> 00:06:01,440

the capability within or closer to their

142

00:06:05,990 --> 00:06:02,639

own territory

143

00:06:09,430 --> 00:06:06,000

before trying to penetrate u.s airspace

144

00:06:11,590 --> 00:06:09,440

so there you have it those are the key

145

00:06:14,469 --> 00:06:11,600

at least in my opinion the keys from

146

00:06:17,430 --> 00:06:14,479

that particular story and again

147

00:06:18,870 --> 00:06:17,440

kudos to mcmillan for getting that out

148

00:06:21,270 --> 00:06:18,880

now

149

00:06:23,029 --> 00:06:21,280

unfortunately what is uh come up

150

00:06:26,150 --> 00:06:23,039

surrounding all this as well

151
00:06:29,270 --> 00:06:26,160
is a report of a

152
00:06:32,710 --> 00:06:29,280
photograph a clear photograph that

153
00:06:35,990 --> 00:06:32,720
uh depicts a ufo uh let's see

154
00:06:37,990 --> 00:06:36,000
let me pick this up here

155
00:06:40,390 --> 00:06:38,000
the sec navy reference uh one of the

156
00:06:42,390 --> 00:06:40,400
intelligence reports released in 2018 is

157
00:06:43,590 --> 00:06:42,400
said to have provided a general overview

158
00:06:45,189 --> 00:06:43,600
of the ufo topic

159
00:06:47,110 --> 00:06:45,199
and includes details of previous

160
00:06:49,909 --> 00:06:47,120
military encounters

161
00:06:51,909 --> 00:06:49,919
according to sources who had read it the

162
00:06:52,710 --> 00:06:51,919
report also contained an unreleased

163
00:06:55,110 --> 00:06:52,720

photograph

164

00:06:56,150 --> 00:06:55,120

of an aerial phenomenon categorized as

165

00:06:58,550 --> 00:06:56,160

unidentified

166

00:06:59,189 --> 00:06:58,560

uh the debrief was told the accompanying

167

00:07:01,270 --> 00:06:59,199

photo

168

00:07:02,550 --> 00:07:01,280

was captured from within the cockpit of

169

00:07:05,110 --> 00:07:02,560

an f-18

170

00:07:06,390 --> 00:07:05,120

and uh the pilot's personal cell phone

171

00:07:08,230 --> 00:07:06,400

according to three us

172

00:07:10,390 --> 00:07:08,240

officials who had seen it the photograph

173

00:07:11,670 --> 00:07:10,400

showed an unidentified silver

174

00:07:13,830 --> 00:07:11,680

cube-shaped object

175

00:07:15,270 --> 00:07:13,840

the report is said to have indicated the

176

00:07:18,469 --> 00:07:15,280

object was hovering

177

00:07:20,070 --> 00:07:18,479

or completely motionless when military

178

00:07:22,230 --> 00:07:20,080

pilots photographed it all three

179

00:07:23,830 --> 00:07:22,240

officials agreed uh that based on the

180

00:07:25,029 --> 00:07:23,840

photo the object appeared to be at an

181

00:07:27,670 --> 00:07:25,039

altitude of roughly

182

00:07:28,790 --> 00:07:27,680

uh 30 to 35 000 feet and about a

183

00:07:31,909 --> 00:07:28,800

thousand feet

184

00:07:33,589 --> 00:07:31,919

from the fighter jet so

185

00:07:35,430 --> 00:07:33,599

when pictures are mentioned everybody

186

00:07:37,830 --> 00:07:35,440

goes nuts so uh

187

00:07:38,629 --> 00:07:37,840

that's what we've got there uh let's uh

188

00:07:41,830 --> 00:07:38,639

let's

189

00:07:44,070 --> 00:07:41,840

screens here sorry about that

190

00:07:45,430 --> 00:07:44,080

uh so uh that's the photographer i'm

191

00:07:47,510 --> 00:07:45,440

gonna circle back to that

192

00:07:50,550 --> 00:07:47,520

but what i'm gonna do now is uh

193

00:07:52,150 --> 00:07:50,560

basically a a follow-up article from

194

00:07:55,110 --> 00:07:52,160

over at the washington

195

00:07:57,189 --> 00:07:55,120

examiner uh by tom rogan who has been

196

00:08:01,670 --> 00:07:57,199

all over the story quite nicely

197

00:08:05,510 --> 00:08:01,680

and let's uh let's scoot over to that

198

00:08:07,589 --> 00:08:05,520

and uh basically uh rogan confirms

199

00:08:09,510 --> 00:08:07,599

uh what uh macmillan reported i can

200

00:08:10,070 --> 00:08:09,520

confirm the accuracy of macmillan's

201
00:08:13,110 --> 00:08:10,080
story

202
00:08:15,110 --> 00:08:13,120
uh the previously uh unreported uh navy

203
00:08:17,189 --> 00:08:15,120
ufo encounter he's getting a little bit

204
00:08:19,670 --> 00:08:17,199
more into the specifics of

205
00:08:20,869 --> 00:08:19,680
uh the photograph uh but uh he also

206
00:08:24,550 --> 00:08:20,879
confirms uh

207
00:08:26,950 --> 00:08:24,560
uh most uh let's see the 2020 report is

208
00:08:28,950 --> 00:08:26,960
the most striking shared viray wiley

209
00:08:30,230 --> 00:08:28,960
across the civilian and the military

210
00:08:33,029 --> 00:08:30,240
intelligence community

211
00:08:33,509 --> 00:08:33,039
and extr again he's really focused on

212
00:08:39,190 --> 00:08:33,519
the

213
00:08:41,029 --> 00:08:39,200

exchange which i think is uh

214

00:08:44,070 --> 00:08:41,039

the more interesting piece that was

215

00:08:46,710 --> 00:08:44,080

turned up but uh

216

00:08:47,350 --> 00:08:46,720

rogan goes on to mention that i believe

217

00:08:49,350 --> 00:08:47,360

but have

218

00:08:51,430 --> 00:08:49,360

been unable to confirm that the aircrew

219

00:08:54,470 --> 00:08:51,440

responsible for the photograph

220

00:08:55,350 --> 00:08:54,480

were operating off either the uss dwight

221

00:08:58,389 --> 00:08:55,360

eisenhower

222

00:09:01,030 --> 00:08:58,399

or the uss john stennis so

223

00:09:02,870 --> 00:09:01,040

there's that as well now let's get to

224

00:09:05,190 --> 00:09:02,880

these uh these photographs uh

225

00:09:05,910 --> 00:09:05,200

up now what i've got uh well let me let

226

00:09:09,190 --> 00:09:05,920

me go back

227

00:09:10,870 --> 00:09:09,200

there's the article from tom rogan that

228

00:09:12,790 --> 00:09:10,880

covered all that obviously you can pick

229

00:09:15,110 --> 00:09:12,800

that up over the examiner

230

00:09:16,949 --> 00:09:15,120

and read that in detail but again so

231

00:09:18,870 --> 00:09:16,959

much focus on the photograph

232

00:09:20,550 --> 00:09:18,880

which is uh you know i think a little

233

00:09:23,030 --> 00:09:20,560

bit unfortunate because

234

00:09:24,230 --> 00:09:23,040

as it turned out well we're going to see

235

00:09:27,590 --> 00:09:24,240

uh right now

236

00:09:28,310 --> 00:09:27,600

a sort of a rendering provided to the

237

00:09:31,269 --> 00:09:28,320

debrief

238

00:09:32,870 --> 00:09:31,279

by dave beatty of nimitz encounters fame

239

00:09:33,750 --> 00:09:32,880

he was able to gin this up rather

240

00:09:35,350 --> 00:09:33,760

quickly

241

00:09:37,829 --> 00:09:35,360

based on the description that he had

242

00:09:39,590 --> 00:09:37,839

received and there you see the the nice

243

00:09:42,630 --> 00:09:39,600

little triangular ufo

244

00:09:43,910 --> 00:09:42,640

and all that following up a couple of

245

00:09:46,550 --> 00:09:43,920

days later

246

00:09:47,590 --> 00:09:46,560

mcmillan had received an actual

247

00:09:49,670 --> 00:09:47,600

photograph

248

00:09:51,110 --> 00:09:49,680

and uh this is this is where things get

249

00:09:53,430 --> 00:09:51,120

a little bit more interesting

250

00:09:55,110 --> 00:09:53,440

apparently it is not the photograph that

251
00:09:57,910 --> 00:09:55,120
was discussed in the report

252
00:09:58,470 --> 00:09:57,920
it's not uh uh what uh dave beatty had

253
00:10:01,670 --> 00:09:58,480
uh

254
00:10:04,389 --> 00:10:01,680
reproduce or

255
00:10:06,150 --> 00:10:04,399
or uh simulate this is the actual

256
00:10:06,470 --> 00:10:06,160
photograph and if you look carefully i

257
00:10:08,150 --> 00:10:06,480
mean

258
00:10:09,590 --> 00:10:08,160
i know it's tough on the screen but this

259
00:10:11,910 --> 00:10:09,600
photograph is available

260
00:10:14,550 --> 00:10:11,920
in lots of different places uh you see

261
00:10:16,710 --> 00:10:14,560
from inside the cockpit of a jet fighter

262
00:10:18,470 --> 00:10:16,720
you see that little dot off in the

263
00:10:20,550 --> 00:10:18,480

distance and let's

264

00:10:22,150 --> 00:10:20,560

zoom in a little bit more carefully on

265

00:10:25,350 --> 00:10:22,160

that there is a

266

00:10:27,350 --> 00:10:25,360

much closer look at it when

267

00:10:29,509 --> 00:10:27,360

macmillan did release the photograph he

268

00:10:30,870 --> 00:10:29,519

was pretty cautious about it he talked

269

00:10:33,829 --> 00:10:30,880

to a few different people

270

00:10:35,350 --> 00:10:33,839

uh one in fact one of the uh the

271

00:10:37,269 --> 00:10:35,360

individuals that he spoke to

272

00:10:38,630 --> 00:10:37,279

said it looks to me like a marlar

273

00:10:42,389 --> 00:10:38,640

balloon and

274

00:10:44,949 --> 00:10:42,399

in fact isaac coy a friend of ours

275

00:10:46,550 --> 00:10:44,959

had was actually able to turn up well

276

00:10:48,949 --> 00:10:46,560

that looks kind of curiously

277

00:10:50,230 --> 00:10:48,959

like this type of a mylar balloon that

278

00:10:53,269 --> 00:10:50,240

happens to have a

279

00:10:56,310 --> 00:10:53,279

batman on uh uh

280

00:10:57,750 --> 00:10:56,320

printed on it but then yeah batman there

281

00:10:59,670 --> 00:10:57,760

we go and then you see

282

00:11:01,030 --> 00:10:59,680

uh we're looking at the batman photo and

283

00:11:03,269 --> 00:11:01,040

in the middle uh

284

00:11:04,150 --> 00:11:03,279

apparently isaac had uh popped this in

285

00:11:07,350 --> 00:11:04,160

with the uh

286

00:11:09,350 --> 00:11:07,360

the the uh the photograph that was uh

287

00:11:12,069 --> 00:11:09,360

released uh to macmillan

288

00:11:13,990 --> 00:11:12,079

and uh there you see that and uh you

289

00:11:15,670 --> 00:11:14,000

know it's a kind of unfortunate none of

290

00:11:16,710 --> 00:11:15,680

this stuff seems to come out clean for

291

00:11:19,590 --> 00:11:16,720

whatever reason

292

00:11:20,790 --> 00:11:19,600

because uh you know i'm i'm initially

293

00:11:21,350 --> 00:11:20,800

looking at the photo and thinking to

294

00:11:23,910 --> 00:11:21,360

myself

295

00:11:24,949 --> 00:11:23,920

well you know i can't say with 100

296

00:11:27,350 --> 00:11:24,959

certainty

297

00:11:28,150 --> 00:11:27,360

that that is a mylar balloon it might

298

00:11:30,310 --> 00:11:28,160

well be

299

00:11:31,350 --> 00:11:30,320

but i i cannot i can say with a lot more

300

00:11:33,269 --> 00:11:31,360

certainty

301

00:11:35,110 --> 00:11:33,279

that uh that's that particular

302

00:11:37,509 --> 00:11:35,120

photograph is not an e.t

303

00:11:38,870 --> 00:11:37,519

uh uh not an et spaceship and uh

304

00:11:41,190 --> 00:11:38,880

hopefully

305

00:11:42,389 --> 00:11:41,200

uh the the photograph that wowed all

306

00:11:45,829 --> 00:11:42,399

these uh uh

307

00:11:47,269 --> 00:11:45,839

top uh uh pentagon officials is not this

308

00:11:48,790 --> 00:11:47,279

particular photograph that they've got

309

00:11:52,550 --> 00:11:48,800

something a little bit better than that

310

00:11:54,710 --> 00:11:52,560

but anyway uh that is the uh that is uh

311

00:11:55,990 --> 00:11:54,720

the the update uh from over on that

312

00:11:59,430 --> 00:11:56,000

angle i think it's a

313

00:12:01,750 --> 00:11:59,440

again very interesting obviously

314

00:12:03,430 --> 00:12:01,760

it's not my scoop so you know mcmillan

315

00:12:06,069 --> 00:12:03,440

can do whatever he wants with it

316

00:12:07,430 --> 00:12:06,079

but i think i might have held off on the

317

00:12:09,509 --> 00:12:07,440

photograph stuff

318

00:12:10,949 --> 00:12:09,519

a little bit because all this hubbub

319

00:12:12,629 --> 00:12:10,959

over the photograph well i guess it's

320

00:12:16,069 --> 00:12:12,639

getting attention to the subject

321

00:12:17,750 --> 00:12:16,079

but again yeah i'm really confident

322

00:12:21,269 --> 00:12:17,760

that's not an ep spaceship

323

00:12:23,269 --> 00:12:21,279

so i would say that unfortunately

324

00:12:24,790 --> 00:12:23,279

the headline kind of got buried because

325

00:12:27,030 --> 00:12:24,800

of this photograph stuff

326

00:12:28,310 --> 00:12:27,040

that the the fact that you know you've

327

00:12:30,870 --> 00:12:28,320

got these high-ranking

328

00:12:31,590 --> 00:12:30,880

pentagon officials uh saying to each

329

00:12:33,350 --> 00:12:31,600

other hey

330

00:12:36,069 --> 00:12:33,360

the secretary of the navy is going to

331

00:12:37,430 --> 00:12:36,079

get this uh ufo brief and i've taken it

332

00:12:40,310 --> 00:12:37,440

and that he's going to get it

333

00:12:41,910 --> 00:12:40,320

and uh you should take it too uh over to

334

00:12:42,949 --> 00:12:41,920

uh high-ranking officials over at the

335

00:12:45,750 --> 00:12:42,959

air force i mean this

336

00:12:47,269 --> 00:12:45,760

uh this uh i think uh that's the really

337

00:12:47,990 --> 00:12:47,279

big deal in the whole thing and of

338

00:12:49,350 --> 00:12:48,000

course

339

00:12:51,590 --> 00:12:49,360

also the mention that they are

340

00:12:52,389 --> 00:12:51,600

considering uh at least it's on the

341

00:12:55,509 --> 00:12:52,399

table

342

00:12:57,750 --> 00:12:55,519

that some of these ufos are in fact uh

343

00:12:59,750 --> 00:12:57,760

uh from uh from another world from

344

00:13:00,949 --> 00:12:59,760

another intelligence that's uh not uh

345

00:13:03,590 --> 00:13:00,959

earth-based so

346

00:13:04,230 --> 00:13:03,600

uh there is that uh that uh that's

347

00:13:06,710 --> 00:13:04,240

basically

348

00:13:08,629 --> 00:13:06,720

all we've got on that and hopefully some

349

00:13:11,110 --> 00:13:08,639

more good news is coming out on that

350

00:13:11,829 --> 00:13:11,120

and that's about all i've got on that

351

00:13:13,750 --> 00:13:11,839

great well

352

00:13:15,509 --> 00:13:13,760

i'd like to bring up a topic if that's

353

00:13:17,910 --> 00:13:15,519

okay by you regarding

354

00:13:20,230 --> 00:13:17,920

an interesting article that anthony

355

00:13:20,550 --> 00:13:20,240

bragley also known as tony braglia who

356

00:13:23,590 --> 00:13:20,560

is

357

00:13:25,670 --> 00:13:23,600

a person that you've known for years

358

00:13:27,750 --> 00:13:25,680

uh he wrote an interesting article

359

00:13:29,670 --> 00:13:27,760

titled former rock star in rocky ground

360

00:13:32,150 --> 00:13:29,680

uses ufos to advance his fame and

361

00:13:34,550 --> 00:13:32,160

fortune it was uh probably published i

362

00:13:36,790 --> 00:13:34,560

don't know maybe half a week ago

363

00:13:38,550 --> 00:13:36,800

and i wanted to ask you what your

364

00:13:40,790 --> 00:13:38,560

opinion was on that if you want to

365

00:13:42,870 --> 00:13:40,800

bring up any interesting points i do

366

00:13:44,069 --> 00:13:42,880

because uh obviously i was cited in that

367

00:13:45,670 --> 00:13:44,079

article i did play

368

00:13:47,189 --> 00:13:45,680

at least a little bit of role in uh

369

00:13:49,110 --> 00:13:47,199

ginning up some information on

370

00:13:51,269 --> 00:13:49,120

so yeah let me change some things up and

371

00:13:53,509 --> 00:13:51,279

let me get to that

372

00:13:54,629 --> 00:13:53,519

uh yeah this was pretty interesting uh

373

00:13:57,829 --> 00:13:54,639

tony bragalia had

374

00:13:58,790 --> 00:13:57,839

emailed me a while back about this that

375

00:14:01,509 --> 00:13:58,800

he thought that

376

00:14:02,870 --> 00:14:01,519

something that merited a closer look and

377

00:14:05,030 --> 00:14:02,880

i agreed with him and

378

00:14:06,710 --> 00:14:05,040

helped him on that provided him with

379

00:14:08,870 --> 00:14:06,720

some information and

380

00:14:09,910 --> 00:14:08,880

uh let's let's uh let's go through

381

00:14:12,870 --> 00:14:09,920

tony's article

382

00:14:15,350 --> 00:14:12,880

a little bit here uh in the transcript

383

00:14:18,470 --> 00:14:15,360

for the 2020 annual stockbroke

384

00:14:20,710 --> 00:14:18,480

stockholders meeting for ttsa

385

00:14:23,110 --> 00:14:20,720

delong introduces board of directors

386

00:14:25,430 --> 00:14:23,120

member christopher miser

387

00:14:28,389 --> 00:14:25,440

delong indicates that miser leads the

388

00:14:31,829 --> 00:14:28,399

new business development for ttsa

389

00:14:34,710 --> 00:14:31,839

and he extols miser's experience and

390

00:14:35,350 --> 00:14:34,720

uh goes on and on but uh from the yahoo

391

00:14:38,710 --> 00:14:35,360

finance

392

00:14:39,670 --> 00:14:38,720

forum we see 65 reactions to miser's

393

00:14:41,829 --> 00:14:39,680

penny stock

394

00:14:44,069 --> 00:14:41,839

a company called ifan which he calls a

395

00:14:45,350 --> 00:14:44,079

company in the development stage that is

396

00:14:47,829 --> 00:14:45,360

engaged in design

397

00:14:50,550 --> 00:14:47,839

development and distribution of software

398

00:14:53,590 --> 00:14:50,560

for mobile payment

399

00:14:56,550 --> 00:14:53,600

it was founded in 2010

400

00:14:59,030 --> 00:14:56,560

the company still characterizes itself

401
00:15:01,910 --> 00:14:59,040
as a development stage company

402
00:15:02,310 --> 00:15:01,920
this is a classic con maneuver per tony

403
00:15:04,870 --> 00:15:02,320
uh

404
00:15:06,949 --> 00:15:04,880
extend expectations of success or

405
00:15:07,350 --> 00:15:06,959
results year after year we're almost

406
00:15:10,550 --> 00:15:07,360
there

407
00:15:13,509 --> 00:15:10,560
we only need and so on and so forth

408
00:15:15,350 --> 00:15:13,519
one dissatisfied investor in miser

409
00:15:18,069 --> 00:15:15,360
writes of ifan it appears

410
00:15:20,069 --> 00:15:18,079
to a flat line for the time being there

411
00:15:21,509 --> 00:15:20,079
are a few other negative comments but uh

412
00:15:24,949 --> 00:15:21,519
one in particular

413
00:15:27,430 --> 00:15:24,959

gets very specific uh

414

00:15:29,110 --> 00:15:27,440

wrote of miser he is going to jail for a

415

00:15:31,990 --> 00:15:29,120

very long time for fraud

416

00:15:34,389 --> 00:15:32,000

and running this ifan scam for so long

417

00:15:35,350 --> 00:15:34,399

he continues they lured investors first

418

00:15:38,150 --> 00:15:35,360

by mailing them

419

00:15:40,389 --> 00:15:38,160

uh the flashy multi-colored flyers and

420

00:15:42,389 --> 00:15:40,399

making all false claims that google

421

00:15:44,150 --> 00:15:42,399

apple or facebook was going to acquire

422

00:15:46,710 --> 00:15:44,160

them soon and uh

423

00:15:48,790 --> 00:15:46,720

so on and so forth also uh mentions

424

00:15:51,509 --> 00:15:48,800

let's see another quote from above

425

00:15:51,990 --> 00:15:51,519

i am now sure both the ifan thugs namely

426

00:15:54,150 --> 00:15:52,000

steve

427

00:15:56,230 --> 00:15:54,160

shull and christopher miser leaving

428

00:15:59,590 --> 00:15:56,240

behind suckered shareholders

429

00:16:01,910 --> 00:15:59,600

uh that that type of comment

430

00:16:03,430 --> 00:16:01,920

and i'll i'll get i'll double back steve

431

00:16:06,150 --> 00:16:03,440

schulze because he works

432

00:16:08,470 --> 00:16:06,160

with miser at the vavaris capital which

433

00:16:11,189 --> 00:16:08,480

seems to be sort of the misers flagship

434

00:16:12,949 --> 00:16:11,199

which he is the ceo of and then uh

435

00:16:14,790 --> 00:16:12,959

researcher frank stalter

436

00:16:16,710 --> 00:16:14,800

discovered and related to me that miser

437

00:16:18,470 --> 00:16:16,720

is also on the advisory board

438

00:16:20,069 --> 00:16:18,480

of a multi-level marketing company

439

00:16:22,230 --> 00:16:20,079

called therapeutic solutions

440

00:16:23,910 --> 00:16:22,240

international inc

441

00:16:25,990 --> 00:16:23,920

which makes health claims for their

442

00:16:28,550 --> 00:16:26,000

products that are likely illegal

443

00:16:29,269 --> 00:16:28,560

uh this uh their uh nutraceutical

444

00:16:31,670 --> 00:16:29,279

division

445

00:16:32,310 --> 00:16:31,680

certainly straddles the line relative to

446

00:16:34,470 --> 00:16:32,320

fda

447

00:16:37,110 --> 00:16:34,480

regulations uh prohibiting making claims

448

00:16:38,949 --> 00:16:37,120

for such products being able to diagnose

449

00:16:41,110 --> 00:16:38,959

treat or cure any disease

450

00:16:43,269 --> 00:16:41,120

unfortunately one of miser's company

451
00:16:45,749 --> 00:16:43,279
products hints and efficacy for

452
00:16:46,389 --> 00:16:45,759
covid which is a downright dangerous

453
00:16:47,990 --> 00:16:46,399
claim

454
00:16:49,990 --> 00:16:48,000
not only that but the supplements that

455
00:16:52,150 --> 00:16:50,000
they offer are sold for prices

456
00:16:53,189 --> 00:16:52,160
that are many many times the cost of

457
00:16:55,990 --> 00:16:53,199
similar products

458
00:16:58,389 --> 00:16:56,000
uh one supplement that mizer sells is an

459
00:17:02,150 --> 00:16:58,399
antioxidant extract of blueberry

460
00:17:06,390 --> 00:17:02,160
called taro still bean he sells a 40 day

461
00:17:08,309 --> 00:17:06,400
supply for a whopping 398 dollars

462
00:17:10,309 --> 00:17:08,319
uh comparable products from online

463
00:17:13,270 --> 00:17:10,319

retailers sell for 40.

464

00:17:15,110 --> 00:17:13,280

meiser's company's chief medical officer

465

00:17:15,909 --> 00:17:15,120

graduated from a caribbean medical

466

00:17:19,110 --> 00:17:15,919

school

467

00:17:20,870 --> 00:17:19,120

falsely claimed doing residents at ucs

468

00:17:23,029 --> 00:17:20,880

uh university of california san

469

00:17:23,510 --> 00:17:23,039

francisco and created never launched

470

00:17:26,069 --> 00:17:23,520

health

471

00:17:27,270 --> 00:17:26,079

charities and in fact that is accurate a

472

00:17:30,470 --> 00:17:27,280

lot of that material

473

00:17:31,830 --> 00:17:30,480

uh well we'll uh i might couch the spin

474

00:17:33,350 --> 00:17:31,840

a little bit differently but as far as

475

00:17:36,950 --> 00:17:33,360

the facts are concerned

476

00:17:40,390 --> 00:17:36,960

that is quite accurate uh you can go

477

00:17:42,710 --> 00:17:40,400

actually to the yahoo finance web page

478

00:17:43,990 --> 00:17:42,720

and if and search for a stock and the

479

00:17:47,270 --> 00:17:44,000

stock you're looking for

480

00:17:49,270 --> 00:17:47,280

is tsoi and what you'll see

481

00:17:51,029 --> 00:17:49,280

they they obviously they keep track of

482

00:17:53,430 --> 00:17:51,039

the up-to-date uh what the

483

00:17:54,390 --> 00:17:53,440

what the stock is uh going for these

484

00:17:55,990 --> 00:17:54,400

days and

485

00:17:58,150 --> 00:17:56,000

you know you can click on different time

486

00:17:59,110 --> 00:17:58,160

frames and look at the stock's

487

00:18:02,470 --> 00:17:59,120

performance

488

00:18:04,070 --> 00:18:02,480

uh going back a month a year five years

489

00:18:05,190 --> 00:18:04,080

the lifetime of the stock whatever the

490

00:18:07,750 --> 00:18:05,200

case may be

491

00:18:08,310 --> 00:18:07,760

and on that page if you scroll down

492

00:18:11,909 --> 00:18:08,320

you'll

493

00:18:12,710 --> 00:18:11,919

see news related to the company and a

494

00:18:14,710 --> 00:18:12,720

lot of times

495

00:18:16,630 --> 00:18:14,720

the news that you'll see there are press

496

00:18:17,510 --> 00:18:16,640

releases from the company so if you

497

00:18:22,230 --> 00:18:17,520

scroll down

498

00:18:25,669 --> 00:18:22,240

uh what you will see uh in uh on the uh

499

00:18:28,789 --> 00:18:25,679

on the tsoi web page is that basically

500

00:18:31,590 --> 00:18:28,799

this is a biotech firm it's headquarters

501
00:18:32,549 --> 00:18:31,600
uh in a strip cluster next to a

502
00:18:35,590 --> 00:18:32,559
brazilian

503
00:18:36,470 --> 00:18:35,600
jiu jitsu uh a dojo basically uh that's

504
00:18:38,710 --> 00:18:36,480
where it is

505
00:18:39,590 --> 00:18:38,720
and uh what the you've seen what you'll

506
00:18:42,789 --> 00:18:39,600
see is a

507
00:18:43,350 --> 00:18:42,799
claims in terms of helping their their

508
00:18:45,909 --> 00:18:43,360
products

509
00:18:47,750 --> 00:18:45,919
are helping things like breast cancer

510
00:18:48,230 --> 00:18:47,760
increasing survival rates of brain

511
00:18:50,549 --> 00:18:48,240
damage

512
00:18:52,310 --> 00:18:50,559
covered victims working on stem cell

513
00:18:54,549 --> 00:18:52,320

therapy for the brain injury

514

00:18:55,750 --> 00:18:54,559

solving multiple sclerosis solving

515

00:18:57,750 --> 00:18:55,760

schizophrenia

516

00:19:00,070 --> 00:18:57,760

solving memory impairment solving

517

00:19:01,430 --> 00:19:00,080

suicide and inhibiting inflammation

518

00:19:03,669 --> 00:19:01,440

induced blood clotting

519

00:19:05,909 --> 00:19:03,679

and all that all those press releases

520

00:19:07,190 --> 00:19:05,919

were condensed into a four-month period

521

00:19:09,830 --> 00:19:07,200

now i'm going to tell you the the

522

00:19:10,950 --> 00:19:09,840

world's largest pharmaceutical giants

523

00:19:14,150 --> 00:19:10,960

don't have

524

00:19:16,470 --> 00:19:14,160

that kind of ambitious agenda

525

00:19:17,270 --> 00:19:16,480

and to say that this company that is

526
00:19:20,230 --> 00:19:17,280
located

527
00:19:22,390 --> 00:19:20,240
in a strip mall near san diego next to a

528
00:19:25,270 --> 00:19:22,400
brazilian jiu jitsu dojo

529
00:19:27,430 --> 00:19:25,280
you know that that is uh it's strange

530
00:19:29,669 --> 00:19:27,440
credulity let's put it that way

531
00:19:30,549 --> 00:19:29,679
and uh certainly merits uh some closer

532
00:19:33,590 --> 00:19:30,559
attention

533
00:19:33,990 --> 00:19:33,600
now let's uh let's move forward here i

534
00:19:36,789 --> 00:19:34,000
did

535
00:19:37,350 --> 00:19:36,799
mention that uh let's let's go beyond

536
00:19:39,990 --> 00:19:37,360
that

537
00:19:41,750 --> 00:19:40,000
i uh tony did mention and this is

538
00:19:45,029 --> 00:19:41,760

something that i turned up as well

539

00:19:49,029 --> 00:19:45,039

this is uh the chief science officer

540

00:19:56,470 --> 00:19:49,039

for uh tsoi and uh

541

00:20:01,590 --> 00:19:59,510

uh this is uh from the san diego

542

00:20:02,950 --> 00:20:01,600

you oh hang on a sec let me let me move

543

00:20:04,710 --> 00:20:02,960

it over here as well

544

00:20:06,470 --> 00:20:04,720

we've got i got a couple windows open

545

00:20:07,190 --> 00:20:06,480

because it's kind of tough to read there

546

00:20:10,549 --> 00:20:07,200

we go

547

00:20:12,390 --> 00:20:10,559

from the san diego union tribune records

548

00:20:13,430 --> 00:20:12,400

of physician running for congress

549

00:20:15,750 --> 00:20:13,440

warrant scrutiny

550

00:20:16,789 --> 00:20:15,760

and again this is the chief science

551
00:20:20,789 --> 00:20:16,799
officer

552
00:20:23,190 --> 00:20:20,799
for tsoi dr james veldmeyer

553
00:20:24,630 --> 00:20:23,200
a review of public records show that

554
00:20:26,870 --> 00:20:24,640
some of the claims of eltmeyer's

555
00:20:29,270 --> 00:20:26,880
campaign has made about his education

556
00:20:32,310 --> 00:20:29,280
training and charitable work warrant

557
00:20:35,029 --> 00:20:32,320
further explanation

558
00:20:37,029 --> 00:20:35,039
let's see belt meyer segment uh license

559
00:20:38,870 --> 00:20:37,039
uh let's see uh this is uh veltmeyer's

560
00:20:39,750 --> 00:20:38,880
second campaign for congress during his

561
00:20:41,350 --> 00:20:39,760
first campaign

562
00:20:43,830 --> 00:20:41,360
he said he went to medical school in

563
00:20:45,590 --> 00:20:43,840

california licensing uh records show

564

00:20:46,870 --> 00:20:45,600

that belt meyer studied at ross

565

00:20:49,510 --> 00:20:46,880

university school

566

00:20:50,630 --> 00:20:49,520

of medicine in dominica an island nation

567

00:20:52,950 --> 00:20:50,640

in the caribbean

568

00:20:54,549 --> 00:20:52,960

in his current marketing campaign or

569

00:20:56,070 --> 00:20:54,559

excuse me in his current campaign he

570

00:20:58,470 --> 00:20:56,080

said that after medical school

571

00:21:00,310 --> 00:20:58,480

he completed a residency in family

572

00:21:02,789 --> 00:21:00,320

medicine through

573

00:21:03,510 --> 00:21:02,799

university of california san francisco

574

00:21:09,350 --> 00:21:03,520

okay

575

00:21:10,710 --> 00:21:09,360

actually beltmeyer took part in a less

576

00:21:14,230 --> 00:21:10,720

competitive program

577

00:21:16,070 --> 00:21:14,240

in fresno affiliated with uc

578

00:21:18,310 --> 00:21:16,080

sf university of california at san

579

00:21:20,149 --> 00:21:18,320

francisco uh when veltmeyer launched his

580

00:21:21,669 --> 00:21:20,159

campaign for congress he ran for

581

00:21:23,669 --> 00:21:21,679

congress a couple of times

582

00:21:25,669 --> 00:21:23,679

when he launched his campaign he

583

00:21:26,470 --> 00:21:25,679

released the pamphlet saying that he and

584

00:21:28,630 --> 00:21:26,480

his wife

585

00:21:30,230 --> 00:21:28,640

formed a foundation to help overhaul the

586

00:21:32,310 --> 00:21:30,240

american health care system

587

00:21:34,950 --> 00:21:32,320

and assist a team of surgeons with

588

00:21:36,710 --> 00:21:34,960

crucial low-cost care abroad he asked

589

00:21:38,230 --> 00:21:36,720

for money to support their work

590

00:21:40,549 --> 00:21:38,240

according to state records and

591

00:21:44,070 --> 00:21:40,559

statements from belt meyer's campaign

592

00:21:46,470 --> 00:21:44,080

the charities don't exist yet so uh

593

00:21:48,549 --> 00:21:46,480

and uh let's uh let's double back now

594

00:21:51,029 --> 00:21:48,559

and uh talk a little bit more about

595

00:21:52,149 --> 00:21:51,039

miser i realize i'm jumping a little bit

596

00:21:57,430 --> 00:21:52,159

all over the place

597

00:22:02,950 --> 00:22:00,470

uh main uh sort of his flagship

598

00:22:04,789 --> 00:22:02,960

is uh the varus capital in which he

599

00:22:08,149 --> 00:22:04,799

works with the aforementioned steve

600

00:22:10,870 --> 00:22:08,159

scholl and uh this particular company uh

601
00:22:12,070 --> 00:22:10,880
provides a number of uh case studies

602
00:22:15,110 --> 00:22:12,080
about their investment

603
00:22:16,149 --> 00:22:15,120
success and basically i'm gonna read

604
00:22:18,310 --> 00:22:16,159
from some of it

605
00:22:19,510 --> 00:22:18,320
uh they've got four listed one for real

606
00:22:21,590 --> 00:22:19,520
estate uh

607
00:22:22,950 --> 00:22:21,600
that doesn't look uh doesn't look too

608
00:22:25,430 --> 00:22:22,960
bad looks like uh

609
00:22:25,990 --> 00:22:25,440
they picked up a property out that way

610
00:22:28,950 --> 00:22:26,000
and

611
00:22:29,590 --> 00:22:28,960
we're able to turn a nice profit uh one

612
00:22:33,350 --> 00:22:29,600
thing is

613
00:22:34,549 --> 00:22:33,360

curious that uh uh in these case studies

614

00:22:37,190 --> 00:22:34,559

of success for

615

00:22:39,190 --> 00:22:37,200

vivarius capital that uh there it's

616

00:22:41,669 --> 00:22:39,200

really lacking in specifics uh

617

00:22:43,669 --> 00:22:41,679

uh let's see says they rule relocated a

618

00:22:44,870 --> 00:22:43,679

major real estate groups uh west coast

619

00:22:46,870 --> 00:22:44,880

office to the site

620

00:22:48,710 --> 00:22:46,880

well you know who's the major real

621

00:22:50,390 --> 00:22:48,720

estate group yeah you would certainly uh

622

00:22:52,230 --> 00:22:50,400

why why would you keep that secret if

623

00:22:53,029 --> 00:22:52,240

you were able to do that uh sort of

624

00:22:55,510 --> 00:22:53,039

thing

625

00:22:56,390 --> 00:22:55,520

and ultimately they said they resold the

626

00:23:00,390 --> 00:22:56,400

property for

627

00:23:02,230 --> 00:23:00,400

a roughly a a 15.5 million dollar

628

00:23:03,750 --> 00:23:02,240

net profit that might well have happened

629

00:23:04,630 --> 00:23:03,760

but again it's kind of lacking in

630

00:23:05,990 --> 00:23:04,640

specifics

631

00:23:08,070 --> 00:23:06,000

you know certainly if i were going to

632

00:23:10,710 --> 00:23:08,080

invest there i would want to know

633

00:23:12,950 --> 00:23:10,720

and then there's a technology case study

634

00:23:15,750 --> 00:23:12,960

uh they acquired 80 percent of an

635

00:23:17,110 --> 00:23:15,760

uh inc 500 technology company well

636

00:23:19,990 --> 00:23:17,120

what's the name of the company

637

00:23:22,390 --> 00:23:20,000

okay why wouldn't you do that and uh the

638

00:23:23,270 --> 00:23:22,400

various investors still own control of

639

00:23:25,909 --> 00:23:23,280

the company

640

00:23:26,870 --> 00:23:25,919

and have an unrealized annualized return

641

00:23:29,669 --> 00:23:26,880

on their investment

642

00:23:30,710 --> 00:23:29,679

of 41 those are eye-popping return

643

00:23:32,710 --> 00:23:30,720

numbers but

644

00:23:33,830 --> 00:23:32,720

you know again kind of lacking in terms

645

00:23:36,630 --> 00:23:33,840

of uh

646

00:23:38,070 --> 00:23:36,640

you know why would you keep that sort of

647

00:23:40,549 --> 00:23:38,080

that sort of information

648

00:23:41,590 --> 00:23:40,559

uh that sort of detail uh why wouldn't

649

00:23:43,909 --> 00:23:41,600

you mention it uh

650

00:23:45,269 --> 00:23:43,919

okay uh here's a here's another one

651
00:23:47,830 --> 00:23:45,279
where they acquired

652
00:23:48,310 --> 00:23:47,840
in the defense they acquired a nick

653
00:23:50,390 --> 00:23:48,320
niche

654
00:23:51,830 --> 00:23:50,400
defense contractor obviously it's a

655
00:23:54,149 --> 00:23:51,840
pretty small company but

656
00:23:55,110 --> 00:23:54,159
why not name the company makes no sense

657
00:23:57,350 --> 00:23:55,120
to me

658
00:23:59,430 --> 00:23:57,360
and then finally there was another one

659
00:24:03,430 --> 00:23:59,440
involving the medical field

660
00:24:05,590 --> 00:24:03,440
and again no no real specifics here

661
00:24:07,909 --> 00:24:05,600
medical products growth equity acquired

662
00:24:10,789 --> 00:24:07,919
a developer and marketer of innovative

663
00:24:13,110 --> 00:24:10,799

medical soft goods a company had issued

664

00:24:15,750 --> 00:24:13,120

several patents blah blah blah

665

00:24:17,430 --> 00:24:15,760

but looks like that they sold the

666

00:24:19,430 --> 00:24:17,440

company to it a competitor

667

00:24:21,990 --> 00:24:19,440

uh giving investors a seven times

668

00:24:25,350 --> 00:24:22,000

absolute return of 68

669

00:24:28,230 --> 00:24:25,360

uh well you know again a real a real

670

00:24:29,029 --> 00:24:28,240

lack of a real lack of detail in all

671

00:24:32,630 --> 00:24:29,039

this so

672

00:24:35,269 --> 00:24:32,640

uh very uh i'm not going to be investing

673

00:24:37,750 --> 00:24:35,279

in any of these companies anytime soon

674

00:24:39,269 --> 00:24:37,760

as you can imagine but now let's go now

675

00:24:41,990 --> 00:24:39,279

to uh the actual

676

00:24:42,870 --> 00:24:42,000

uh we're bringing up for you the uh

677

00:24:45,669 --> 00:24:42,880

actual uh

678

00:24:45,990 --> 00:24:45,679

transcript of the i guess earlier this

679

00:24:49,269 --> 00:24:46,000

year

680

00:24:51,110 --> 00:24:49,279

a tsa investors meeting and

681

00:24:53,430 --> 00:24:51,120

let me through read through that uh

682

00:24:55,830 --> 00:24:53,440

quickly jim semavann

683

00:24:57,669 --> 00:24:55,840

quoted here thank you tom chris and

684

00:24:59,269 --> 00:24:57,679

steve for providing those updates we'll

685

00:25:00,230 --> 00:24:59,279

now answer a few questions from the

686

00:25:03,750 --> 00:25:00,240

stockholders

687

00:25:05,590 --> 00:25:03,760

uh one question's asked about gary nolan

688

00:25:07,750 --> 00:25:05,600

and calm kelleher moving along

689

00:25:09,590 --> 00:25:07,760

uh derek davis moving along those are

690

00:25:13,350 --> 00:25:09,600

names we're all pretty familiar with

691

00:25:16,149 --> 00:25:13,360

but now they've added chris miser

692

00:25:17,510 --> 00:25:16,159

uh this from tom delong i'm not able to

693

00:25:20,390 --> 00:25:17,520

comment on the exact

694

00:25:21,350 --> 00:25:20,400

circumstances uh behind the departures

695

00:25:22,630 --> 00:25:21,360

although that

696

00:25:24,549 --> 00:25:22,640

that sort of thing has been kicked

697

00:25:26,390 --> 00:25:24,559

around but uh here he's quoted

698

00:25:28,070 --> 00:25:26,400

uh the addition of chris miser to the

699

00:25:31,110 --> 00:25:28,080

board of directors is indicative

700

00:25:31,669 --> 00:25:31,120

of increased business discipline so you

701
00:25:33,350 --> 00:25:31,679
know

702
00:25:35,590 --> 00:25:33,360
that uh that's about where i'll leave

703
00:25:37,990 --> 00:25:35,600
that one off and uh that

704
00:25:39,510 --> 00:25:38,000
uh obviously yeah the rest of uh tony's

705
00:25:41,669 --> 00:25:39,520
article uh does cover

706
00:25:42,789 --> 00:25:41,679
a lot of different things that delong

707
00:25:44,470 --> 00:25:42,799
has been involved with

708
00:25:46,789 --> 00:25:44,480
a lot of that stuff has sort of been

709
00:25:47,590 --> 00:25:46,799
covered he uh included that as a kind of

710
00:25:50,149 --> 00:25:47,600
a recap

711
00:25:51,990 --> 00:25:50,159
uh the main find here is uh christopher

712
00:25:58,149 --> 00:25:52,000
miser and his business background

713
00:26:05,269 --> 00:26:01,990

wrote regarding regarding the

714

00:26:08,310 --> 00:26:05,279

science officer for tsoi

715

00:26:09,350 --> 00:26:08,320

therapeutic solutions that merits a

716

00:26:12,390 --> 00:26:09,360

closer look and

717

00:26:15,430 --> 00:26:12,400

and i think it does and uh so we'll

718

00:26:17,029 --> 00:26:15,440

we'll we'll see how that goes so uh uh a

719

00:26:17,990 --> 00:26:17,039

chant that you have any comments about

720

00:26:20,710 --> 00:26:18,000

any of this

721

00:26:22,870 --> 00:26:20,720

or any comments about uh uh what's

722

00:26:25,590 --> 00:26:22,880

included in the rest of tony's article

723

00:26:27,029 --> 00:26:25,600

well actually uh before i go into that i

724

00:26:29,190 --> 00:26:27,039

had a question for you

725

00:26:30,630 --> 00:26:29,200

and that is i know the answer because

726

00:26:32,630 --> 00:26:30,640

we've discussed this topic

727

00:26:33,830 --> 00:26:32,640

many times before but i do have a

728

00:26:36,149 --> 00:26:33,840

question for you

729

00:26:38,630 --> 00:26:36,159

on a really interesting topic that this

730

00:26:39,510 --> 00:26:38,640

article covers a bit and that is meta

731

00:26:41,350 --> 00:26:39,520

materials

732

00:26:42,789 --> 00:26:41,360

you and i both know that there are uh

733

00:26:45,510 --> 00:26:42,799

scientists who are

734

00:26:47,350 --> 00:26:45,520

really interested acutely interested in

735

00:26:48,230 --> 00:26:47,360

learning more about metamaterials when

736

00:26:50,230 --> 00:26:48,240

you agree

737

00:26:51,990 --> 00:26:50,240

oh yeah absolutely as a matter of fact

738

00:26:53,830 --> 00:26:52,000

we might get to talk a little

739

00:26:55,590 --> 00:26:53,840

bit about this before the end of the

740

00:26:58,630 --> 00:26:55,600

show if we don't go on too long

741

00:27:00,230 --> 00:26:58,640

and uh jack valet and james fox

742

00:27:02,310 --> 00:27:00,240

were interviewed on the joe rogan

743

00:27:03,029 --> 00:27:02,320

podcast one of the top podcasts in the

744

00:27:05,510 --> 00:27:03,039

world

745

00:27:07,190 --> 00:27:05,520

so they went they went a good three

746

00:27:08,549 --> 00:27:07,200

hours and i listened to it as i was uh

747

00:27:10,390 --> 00:27:08,559

preparing for the show

748

00:27:12,549 --> 00:27:10,400

and the belay went into quite a bit of

749

00:27:14,630 --> 00:27:12,559

detail about the materials on the show

750

00:27:16,470 --> 00:27:14,640

so uh that was interesting stuff again

751

00:27:19,590 --> 00:27:16,480

nothing really new he did

752

00:27:22,149 --> 00:27:19,600

discuss that he had been in contact

753

00:27:23,909 --> 00:27:22,159

with a reputable scientist who had come

754

00:27:24,789 --> 00:27:23,919

across some materials himself and was

755

00:27:26,789 --> 00:27:24,799

talking about it

756

00:27:28,630 --> 00:27:26,799

uh he also talked about the isotopic

757

00:27:31,269 --> 00:27:28,640

ratio differences and all that

758

00:27:33,510 --> 00:27:31,279

again nothing new for us here but to get

759

00:27:35,590 --> 00:27:33,520

that material out there in some detail

760

00:27:37,909 --> 00:27:35,600

uh on a show like rogan so then

761

00:27:41,350 --> 00:27:37,919

obviously uh that's a real nice piece

762

00:27:41,750 --> 00:27:41,360

uh but uh yeah let's double back to uh

763

00:27:45,909 --> 00:27:41,760

that

764

00:27:47,830 --> 00:27:45,919

yeah the materials

765

00:27:49,909 --> 00:27:47,840

go over that little topic with you to

766

00:27:51,190 --> 00:27:49,919

confirm that we do agree there are

767

00:27:53,269 --> 00:27:51,200

scientists

768

00:27:55,190 --> 00:27:53,279

that are interested acutely interested

769

00:27:55,510 --> 00:27:55,200

in the meta-material topic oh absolutely

770

00:27:59,029 --> 00:27:55,520

yeah

771

00:28:01,110 --> 00:27:59,039

of them right now

772

00:28:02,389 --> 00:28:01,120

right oh sure well obviously villain

773

00:28:05,430 --> 00:28:02,399

because he talked about it

774

00:28:08,070 --> 00:28:05,440

uh professor peter sturrick uh professor

775

00:28:09,590 --> 00:28:08,080

gary nolan who was mentioned as having

776

00:28:11,430 --> 00:28:09,600

left tsa but

777

00:28:13,430 --> 00:28:11,440

uh as far as i know he's still working

778

00:28:15,590 --> 00:28:13,440

with valet on some pieces that they have

779

00:28:16,470 --> 00:28:15,600

so those are the three main ones whose

780

00:28:18,149 --> 00:28:16,480

names i know

781

00:28:19,750 --> 00:28:18,159

three main ones but i would also venture

782

00:28:22,070 --> 00:28:19,760

to say that scientist

783

00:28:23,269 --> 00:28:22,080

uh deep prasad and dr kevin knuth would

784

00:28:25,909 --> 00:28:23,279

probably be

785

00:28:26,789 --> 00:28:25,919

acutely interested in metamaterials uh

786

00:28:29,190 --> 00:28:26,799

as well

787

00:28:32,230 --> 00:28:29,200

uh i don't think i am going uh over the

788

00:28:33,590 --> 00:28:32,240

line by saying that on their behalf

789

00:28:35,350 --> 00:28:33,600

probably would be interested in

790

00:28:36,870 --> 00:28:35,360

something like that yeah deep has

791

00:28:38,389 --> 00:28:36,880

because we discussed that we discussed

792

00:28:41,029 --> 00:28:38,399

it when he was on the show i

793

00:28:42,549 --> 00:28:41,039

don't know i'm sure professor knuth is

794

00:28:45,430 --> 00:28:42,559

interested i don't

795

00:28:46,950 --> 00:28:45,440

wrote a paper about the uap topic and

796

00:28:48,789 --> 00:28:46,960

had it published by the max planck

797

00:28:52,549 --> 00:28:48,799

institute anyway what i was going to say

798

00:28:55,510 --> 00:28:52,559

is um it's just rather interesting

799

00:28:56,950 --> 00:28:55,520

that uh it's a tony uh broglia right is

800

00:28:59,269 --> 00:28:56,960

that regalia

801
00:29:00,470 --> 00:28:59,279
yeah yeah sorry i i'm not very good at

802
00:29:03,909 --> 00:29:00,480
pronouncing that

803
00:29:06,389 --> 00:29:03,919
that name regalia um but uh i just found

804
00:29:09,350 --> 00:29:06,399
it very interesting regarding the uh

805
00:29:10,149 --> 00:29:09,360
certain a certain aspect of the article

806
00:29:12,070 --> 00:29:10,159
that

807
00:29:13,190 --> 00:29:12,080
tony uh wrote about i'm just going to go

808
00:29:15,669 --> 00:29:13,200
ahead and bring it up and i'm going to

809
00:29:19,110 --> 00:29:15,679
read something to you right now

810
00:29:21,110 --> 00:29:19,120
okay so he says perhaps the most

811
00:29:22,789 --> 00:29:21,120
egregious example of de long's

812
00:29:26,310 --> 00:29:22,799
unrestrained promotion

813
00:29:29,190 --> 00:29:26,320

is shown in his touting tsa's payment

814

00:29:29,750 --> 00:29:29,200

of 35 grand to researcher linda howe to

815

00:29:33,110 --> 00:29:29,760

purchase

816

00:29:35,830 --> 00:29:33,120

alleged roswell ufo debris from her

817

00:29:37,510 --> 00:29:35,840

known in ufo circles is arts parts this

818

00:29:39,510 --> 00:29:37,520

layered material was originally mailed

819

00:29:42,630 --> 00:29:39,520

to former coast to coast radio

820

00:29:45,190 --> 00:29:42,640

host art bell nearly 25 years ago

821

00:29:46,230 --> 00:29:45,200

these very terrestrial looking pieces

822

00:29:49,430 --> 00:29:46,240

air quotes

823

00:29:52,310 --> 00:29:49,440

pieces have been shown to be comp com

824

00:29:53,750 --> 00:29:52,320

comprised of 25 alternating layers of

825

00:29:56,710 --> 00:29:53,760

business

826
00:29:57,350 --> 00:29:56,720
and then he explains what bismuth is and

827
00:30:00,870 --> 00:29:57,360
alloyed

828
00:30:04,310 --> 00:30:00,880
magnesium zinc technologist

829
00:30:06,870 --> 00:30:04,320
nicholas uh reader is it or writer

830
00:30:08,070 --> 00:30:06,880
sure a ride many years ago found

831
00:30:10,230 --> 00:30:08,080
reference in the technical

832
00:30:12,789 --> 00:30:10,240
literature to the betterton kroll

833
00:30:15,510 --> 00:30:12,799
process an obscure process which uses

834
00:30:16,310 --> 00:30:15,520
layered bismuth and magnesium zinc to

835
00:30:18,870 --> 00:30:16,320
extract

836
00:30:20,070 --> 00:30:18,880
impurities out of lead the process

837
00:30:22,549 --> 00:30:20,080
results in unique

838
00:30:24,070 --> 00:30:22,559

industrial slag boarding times magazine

839

00:30:24,950 --> 00:30:24,080

of the uk endorsed this pros a

840

00:30:26,590 --> 00:30:24,960

conclusion

841

00:30:29,430 --> 00:30:26,600

in an authoritative piece published in

842

00:30:30,789 --> 00:30:29,440

2016. i just wanted to mention something

843

00:30:32,310 --> 00:30:30,799

that i found interesting and then i'll

844

00:30:33,029 --> 00:30:32,320

go ahead and go on with another point i

845

00:30:35,510 --> 00:30:33,039

wanted to

846

00:30:36,549 --> 00:30:35,520

bring to your attention and the

847

00:30:39,590 --> 00:30:36,559

listeners attention

848

00:30:42,070 --> 00:30:39,600

and that is when uh tony states

849

00:30:43,269 --> 00:30:42,080

the most egregious example of de long's

850

00:30:46,870 --> 00:30:43,279

unrestrained promotion

851
00:30:50,310 --> 00:30:46,880
is shown in his touting tsa's payment

852
00:30:52,630 --> 00:30:50,320
of 35 grand to researcher linda howe

853
00:30:54,310 --> 00:30:52,640
to purchase alleged roswell ufo debris

854
00:30:56,789 --> 00:30:54,320
from her

855
00:30:58,470 --> 00:30:56,799
now the word egregious i just wanted to

856
00:31:00,710 --> 00:30:58,480
bring that up because i find that

857
00:31:01,669 --> 00:31:00,720
a very interesting word to use that

858
00:31:04,950 --> 00:31:01,679
basically means

859
00:31:06,950 --> 00:31:04,960
outstandingly bad and shocking now um

860
00:31:09,430 --> 00:31:06,960
the reason why i asked you

861
00:31:11,110 --> 00:31:09,440
if felt you and i both agree that there

862
00:31:11,750 --> 00:31:11,120
are scientists that would be acutely

863
00:31:13,430 --> 00:31:11,760

interested

864

00:31:15,750 --> 00:31:13,440

in the meta-material topic is because

865

00:31:17,430 --> 00:31:15,760

it's true there are scientists that are

866

00:31:18,789 --> 00:31:17,440

sure they're absolutely interested in

867

00:31:21,269 --> 00:31:18,799

that there's also

868

00:31:23,190 --> 00:31:21,279

i'm going to guess it's not unrealistic

869

00:31:25,669 --> 00:31:23,200

to assume there are organizations

870

00:31:26,870 --> 00:31:25,679

out there such as the scu the scientific

871

00:31:30,630 --> 00:31:26,880

coalition for uap

872

00:31:33,269 --> 00:31:30,640

studies uh many many wonderful credible

873

00:31:34,789 --> 00:31:33,279

folks on the board of that organization

874

00:31:35,590 --> 00:31:34,799

and involved in that organization would

875

00:31:37,509 --> 00:31:35,600

be

876

00:31:39,110 --> 00:31:37,519

very interested in the meta-material uh

877

00:31:41,029 --> 00:31:39,120

topic and they've also

878

00:31:43,029 --> 00:31:41,039

been able to cover that uh with i think

879

00:31:46,710 --> 00:31:43,039

it was lou elizondo did a talk on the

880

00:31:49,430 --> 00:31:46,720

material topic at their one and only

881

00:31:50,950 --> 00:31:49,440

seminar or a conference that they had in

882

00:31:53,590 --> 00:31:50,960

alabama

883

00:31:55,669 --> 00:31:53,600

now my point here is i don't think

884

00:32:00,070 --> 00:31:55,679

that's exactly shocking

885

00:32:04,149 --> 00:32:00,080

that ttsa an organization that is known

886

00:32:07,990 --> 00:32:06,149

actively from the point of their

887

00:32:12,549 --> 00:32:08,000

inception on up to the present

888

00:32:15,029 --> 00:32:12,559

period of time on the ufo topic

889

00:32:16,950 --> 00:32:15,039

would want to pay something uh that

890

00:32:19,509 --> 00:32:16,960

could be metamaterial related

891

00:32:21,029 --> 00:32:19,519

uh that doesn't sound shocking to me

892

00:32:24,070 --> 00:32:21,039

that sounds

893

00:32:24,470 --> 00:32:24,080

like that is what a an organization

894

00:32:28,070 --> 00:32:24,480

might

895

00:32:31,029 --> 00:32:28,080

want to do if they wanted to be able to

896

00:32:32,310 --> 00:32:31,039

research more about a possible

897

00:32:35,350 --> 00:32:32,320

meta-material

898

00:32:37,190 --> 00:32:35,360

substance or material that could be of

899

00:32:39,269 --> 00:32:37,200

unknown origin

900

00:32:41,190 --> 00:32:39,279

so i don't think that's exactly

901
00:32:42,630 --> 00:32:41,200
egregious i think that's sort of an

902
00:32:45,190 --> 00:32:42,640
exaggeration

903
00:32:46,789 --> 00:32:45,200
and then moving along uh okay well let

904
00:32:48,310 --> 00:32:46,799
me let me jump in and comment on that

905
00:32:50,470 --> 00:32:48,320
before you get to your next point

906
00:32:52,149 --> 00:32:50,480
i i wouldn't say that i think that one

907
00:32:52,870 --> 00:32:52,159
of the most egregious things the long

908
00:32:55,750 --> 00:32:52,880
did was

909
00:32:57,830 --> 00:32:55,760
at on the uh aforementioned rogan show

910
00:33:01,110 --> 00:32:57,840
where he brought in what was obviously a

911
00:33:03,990 --> 00:33:01,120
a cgi uh image of a triangular

912
00:33:04,950 --> 00:33:04,000
uh ufo was obviously an animation and he

913
00:33:06,870 --> 00:33:04,960

said it was real

914

00:33:08,470 --> 00:33:06,880

you know that was pretty egregious uh

915

00:33:10,950 --> 00:33:08,480

yeah yeah so i would

916

00:33:12,789 --> 00:33:10,960

i would disagree with uh tony on that

917

00:33:14,950 --> 00:33:12,799

but uh by the same token

918

00:33:15,909 --> 00:33:14,960

uh that particular piece that arts part

919

00:33:18,230 --> 00:33:15,919

piece is uh

920

00:33:20,870 --> 00:33:18,240

has been talked about since uh pretty

921

00:33:24,149 --> 00:33:20,880

much day one over the last three years

922

00:33:26,389 --> 00:33:24,159

and it's not a pizza just a bismuth

923

00:33:27,909 --> 00:33:26,399

it's a it's a weak metal i mean i went

924

00:33:30,549 --> 00:33:27,919

over the soil with deep it's a

925

00:33:32,870 --> 00:33:30,559

it's a weak metal uh it doesn't really

926

00:33:35,509 --> 00:33:32,880

have a whole lot of industrial use

927

00:33:36,470 --> 00:33:35,519

it's kind of curious as to you know what

928

00:33:38,470 --> 00:33:36,480

what possible

929

00:33:40,230 --> 00:33:38,480

use could it have in any kind anything

930

00:33:41,029 --> 00:33:40,240

that's uh in any way shape or form

931

00:33:43,830 --> 00:33:41,039

advanced

932

00:33:44,310 --> 00:33:43,840

uh and uh obviously it's been tested

933

00:33:47,029 --> 00:33:44,320

before

934

00:33:48,389 --> 00:33:47,039

she's gotten results back and uh you

935

00:33:50,389 --> 00:33:48,399

know it's always come back as

936

00:33:51,990 --> 00:33:50,399

being very very earthly there are other

937

00:33:53,830 --> 00:33:52,000

pieces that are floating around that are

938

00:33:56,070 --> 00:33:53,840

a lot more interesting obviously

939

00:33:57,430 --> 00:33:56,080

and those are the pieces that uh valet

940

00:34:01,750 --> 00:33:57,440

has gotten his hands on and

941

00:34:05,190 --> 00:34:01,760

apparently tssa as well they apparently

942

00:34:07,269 --> 00:34:05,200

valet got a few pieces uh uh regarding

943

00:34:08,470 --> 00:34:07,279

uh the yuba tuba crash uh we've talked

944

00:34:10,790 --> 00:34:08,480

about that in some detail

945

00:34:12,230 --> 00:34:10,800

here uh obviously he tested it uh

946

00:34:14,710 --> 00:34:12,240

returned it to the owners

947

00:34:15,430 --> 00:34:14,720

and then apparently uh within the last

948

00:34:17,909 --> 00:34:15,440

year or so

949

00:34:18,629 --> 00:34:17,919

tssa has also gotten their hands on it

950

00:34:21,430 --> 00:34:18,639

as well

951
00:34:21,909 --> 00:34:21,440
so and what else have they come up with

952
00:34:23,909 --> 00:34:21,919
uh they

953
00:34:25,669 --> 00:34:23,919
they say that they have a piece uh uh

954
00:34:27,990 --> 00:34:25,679
possibly from rendelsham

955
00:34:28,790 --> 00:34:28,000
uh uh we we've gotten uh we've gone over

956
00:34:30,310 --> 00:34:28,800
this uh in

957
00:34:32,230 --> 00:34:30,320
quite a bit of detail there are a few

958
00:34:34,550 --> 00:34:32,240
pieces floating out there oh and then

959
00:34:36,869 --> 00:34:34,560
just uh to follow up uh when bigelow was

960
00:34:40,470 --> 00:34:36,879
in his business uh with his uh

961
00:34:42,950 --> 00:34:40,480
uh uh with his organization

962
00:34:44,470 --> 00:34:42,960
uh and uh before he got involved with

963
00:34:46,470 --> 00:34:44,480

the government but when he had his uh

964

00:34:48,470 --> 00:34:46,480

his nids organization together

965

00:34:50,550 --> 00:34:48,480

uh he had acquired a few pieces and had

966

00:34:51,750 --> 00:34:50,560

them tested including the bob white

967

00:34:53,430 --> 00:34:51,760

piece and that came back

968

00:34:54,950 --> 00:34:53,440

you know negative in terms of anything

969

00:34:55,669 --> 00:34:54,960

that was advanced or anything along

970

00:34:57,990 --> 00:34:55,679

those lines

971

00:34:59,430 --> 00:34:58,000

so yeah this is something that's uh it's

972

00:35:01,190 --> 00:34:59,440

been floating around a while

973

00:35:03,589 --> 00:35:01,200

there's some better material and

974

00:35:06,230 --> 00:35:03,599

obviously there's some dodgy material

975

00:35:07,030 --> 00:35:06,240

and i don't see any reason to believe

976
00:35:09,589 --> 00:35:07,040
that the

977
00:35:10,470 --> 00:35:09,599
the arts parts piece the the piece that

978
00:35:14,069 --> 00:35:10,480
uh linda

979
00:35:16,950 --> 00:35:14,079
howe sold to ttsa uh really uh

980
00:35:17,910 --> 00:35:16,960
has uh it's not e.t i'm pretty confident

981
00:35:20,310 --> 00:35:17,920
in saying that

982
00:35:22,390 --> 00:35:20,320
and how she got they you know more power

983
00:35:23,109 --> 00:35:22,400
to her she got 35 grand out of it that's

984
00:35:25,750 --> 00:35:23,119
all i'll say

985
00:35:28,470 --> 00:35:25,760
now what i'd like to say uh also in

986
00:35:31,990 --> 00:35:28,480
addition to that topic is uh

987
00:35:34,630 --> 00:35:32,000
when a when an individual or a

988
00:35:35,670 --> 00:35:34,640

panel of scientists get a hold of

989

00:35:38,310 --> 00:35:35,680

material

990

00:35:40,390 --> 00:35:38,320

they do know that it depends on what

991

00:35:43,589 --> 00:35:40,400

side you might test the material

992

00:35:45,670 --> 00:35:43,599

that's not always true but uh

993

00:35:47,270 --> 00:35:45,680

i'll give you an example uh if a

994

00:35:50,230 --> 00:35:47,280

scientist were to study

995

00:35:51,589 --> 00:35:50,240

or do research in a forensic manner on a

996

00:35:54,550 --> 00:35:51,599

piece of material

997

00:35:56,790 --> 00:35:54,560

to take a piece from it it might be

998

00:35:59,990 --> 00:35:56,800

different on one side than say the other

999

00:36:02,150 --> 00:36:00,000

so what i'm saying here is if

1000

00:36:03,270 --> 00:36:02,160

that material being the arts parts

1001
00:36:05,990 --> 00:36:03,280
material that

1002
00:36:08,470 --> 00:36:06,000
linda molten howe had acquired by

1003
00:36:11,670 --> 00:36:08,480
various means whatever those means were

1004
00:36:12,230 --> 00:36:11,680
that might material may have needed to

1005
00:36:15,510 --> 00:36:12,240
have been

1006
00:36:17,589 --> 00:36:15,520
um forensically examined

1007
00:36:18,630 --> 00:36:17,599
in as many different ways as possible

1008
00:36:21,990 --> 00:36:18,640
meaning physically

1009
00:36:24,069 --> 00:36:22,000
all different uh physical parts of it

1010
00:36:25,349 --> 00:36:24,079
one side the other i don't know the

1011
00:36:27,829 --> 00:36:25,359
exact shape of it

1012
00:36:30,069 --> 00:36:27,839
but let's just pretend for the sake of

1013
00:36:31,910 --> 00:36:30,079

discussion it's an octagon shape

1014

00:36:33,589 --> 00:36:31,920

that would mean that every single side

1015

00:36:35,349 --> 00:36:33,599

of it may need to be forensically

1016

00:36:39,030 --> 00:36:35,359

examined so where i'm going with this

1017

00:36:40,950 --> 00:36:39,040

is if tom delong wanted to go ahead and

1018

00:36:44,069 --> 00:36:40,960

acquire that piece

1019

00:36:47,190 --> 00:36:44,079

and the other folks related to

1020

00:36:47,910 --> 00:36:47,200

the tsa decision-making process on

1021

00:36:51,190 --> 00:36:47,920

purchasing

1022

00:36:51,670 --> 00:36:51,200

it may have all collectively agreed that

1023

00:36:54,550 --> 00:36:51,680

that

1024

00:36:55,750 --> 00:36:54,560

little piece needed to be examined in

1025

00:36:57,349 --> 00:36:55,760

other ways

1026
00:36:59,190 --> 00:36:57,359
unbeknownst to us that we're not

1027
00:37:00,550 --> 00:36:59,200
necessarily privy to so we do need to

1028
00:37:01,270 --> 00:37:00,560
give them the benefit of the doubt on

1029
00:37:02,870 --> 00:37:01,280
that because

1030
00:37:05,349 --> 00:37:02,880
they may have actually been aware that

1031
00:37:07,910 --> 00:37:05,359
only maybe possibly one sided

1032
00:37:09,670 --> 00:37:07,920
of it had been examined as opposed to

1033
00:37:11,829 --> 00:37:09,680
another side that had not

1034
00:37:13,430 --> 00:37:11,839
so we need to go ahead and give these

1035
00:37:15,030 --> 00:37:13,440
folks the benefit of the doubt regarding

1036
00:37:18,310 --> 00:37:15,040
that kind of process

1037
00:37:20,069 --> 00:37:18,320
and assume that it's possible that there

1038
00:37:21,910 --> 00:37:20,079

may have been different parts of that

1039

00:37:22,950 --> 00:37:21,920

material that were not examined

1040

00:37:24,790 --> 00:37:22,960

beforehand

1041

00:37:27,030 --> 00:37:24,800

and they wanted to have the opportunity

1042

00:37:27,750 --> 00:37:27,040

to do so hence their need to go ahead

1043

00:37:30,950 --> 00:37:27,760

and pay

1044

00:37:32,870 --> 00:37:30,960

that amount because look let's be honest

1045

00:37:35,349 --> 00:37:32,880

not everybody gives something away for

1046

00:37:37,589 --> 00:37:35,359

free nor are they willing to actually

1047

00:37:38,870 --> 00:37:37,599

lend it out that's just the nature of

1048

00:37:40,710 --> 00:37:38,880

the beast that's

1049

00:37:42,550 --> 00:37:40,720

normal that's par for the course i don't

1050

00:37:45,109 --> 00:37:42,560

think that's unusual

1051
00:37:45,829 --> 00:37:45,119
and i don't actually blame linda molten

1052
00:37:48,790 --> 00:37:45,839
howe at all

1053
00:37:49,990 --> 00:37:48,800
for having sold i don't i don't have i

1054
00:37:53,190 --> 00:37:50,000
personally don't think that

1055
00:37:54,390 --> 00:37:53,200
that's a a big deal besides we don't

1056
00:38:01,510 --> 00:37:54,400
know if

1057
00:38:03,510 --> 00:38:01,520
a good amount of out of pocket

1058
00:38:05,190 --> 00:38:03,520
uh money so to speak in order to have it

1059
00:38:06,390 --> 00:38:05,200
forensically examined now another thing

1060
00:38:08,550 --> 00:38:06,400
is she did yeah it has

1061
00:38:10,310 --> 00:38:08,560
it has been tested in the past yeah i'm

1062
00:38:14,310 --> 00:38:10,320
glad yes it has been

1063
00:38:18,069 --> 00:38:14,320

now would it be would it be correct

1064

00:38:20,390 --> 00:38:18,079

to say you can correct me please do that

1065

00:38:22,390 --> 00:38:20,400

she had it forensically examined right

1066

00:38:24,470 --> 00:38:22,400

uh she didn't in fact i think it was uh

1067

00:38:27,910 --> 00:38:24,480

done by hal put off of all people right

1068

00:38:28,550 --> 00:38:27,920

and uh the the results uh were sent back

1069

00:38:29,990 --> 00:38:28,560

to where i

1070

00:38:31,829 --> 00:38:30,000

you know i don't have them in front of

1071

00:38:33,829 --> 00:38:31,839

me but that basically it came back as

1072

00:38:35,910 --> 00:38:33,839

being mundane earthly

1073

00:38:37,190 --> 00:38:35,920

right prozac so what i wanted to mention

1074

00:38:40,950 --> 00:38:37,200

about that is uh

1075

00:38:43,750 --> 00:38:40,960

you know linda mullen howe uh she

1076

00:38:44,950 --> 00:38:43,760

she had that tested so obviously if she

1077

00:38:46,550 --> 00:38:44,960

had it tested

1078

00:38:49,589 --> 00:38:46,560

she would have had to have had a

1079

00:38:52,230 --> 00:38:49,599

discussion about isotopic analysis

1080

00:38:52,630 --> 00:38:52,240

because that would not have gone by her

1081

00:38:55,190 --> 00:38:52,640

uh

1082

00:38:56,230 --> 00:38:55,200

you know having had it tested they

1083

00:38:58,470 --> 00:38:56,240

whoever they are

1084

00:39:00,230 --> 00:38:58,480

who did the testing the lab would not

1085

00:39:02,150 --> 00:39:00,240

have ever not

1086

00:39:03,589 --> 00:39:02,160

mentioned that they would have brought

1087

00:39:06,150 --> 00:39:03,599

that kind of term

1088

00:39:07,910 --> 00:39:06,160

up to her and she would have probably

1089

00:39:09,829 --> 00:39:07,920

had a discussion about it

1090

00:39:11,270 --> 00:39:09,839

she wanted she would not have just

1091

00:39:13,109 --> 00:39:11,280

stayed silent

1092

00:39:15,109 --> 00:39:13,119

listening on the phone and never had an

1093

00:39:17,829 --> 00:39:15,119

a and b conversation about it

1094

00:39:19,349 --> 00:39:17,839

and then hung up you know and let that

1095

00:39:21,750 --> 00:39:19,359

individual talk about

1096

00:39:23,190 --> 00:39:21,760

an isotopic analysis or forensic

1097

00:39:25,510 --> 00:39:23,200

analysis and whatever

1098

00:39:26,550 --> 00:39:25,520

scientific terminology and then just

1099

00:39:27,990 --> 00:39:26,560

hung up the phone

1100

00:39:29,589 --> 00:39:28,000

she probably am going to give her the

1101

00:39:33,190 --> 00:39:29,599

benefit of the doubt had an

1102

00:39:37,510 --> 00:39:33,200

actual discussion about that

1103

00:39:43,030 --> 00:39:40,790

tony said i'm going to read this okay

1104

00:39:44,069 --> 00:39:43,040

i had the opportunity to speak with

1105

00:39:48,150 --> 00:39:44,079

linda howe

1106

00:39:51,829 --> 00:39:48,160

recently on another research matter

1107

00:39:54,950 --> 00:39:51,839

and slipped in a question about arts

1108

00:39:55,990 --> 00:39:54,960

parts i asked her if isotopic ratio

1109

00:39:57,990 --> 00:39:56,000

analysis

1110

00:39:59,430 --> 00:39:58,000

the definitive test he says in

1111

00:40:03,030 --> 00:39:59,440

parentheses to determine

1112

00:40:05,990 --> 00:40:03,040

if a material is of off earth origin

1113

00:40:07,109 --> 00:40:06,000

end of parentheses had been applied to

1114

00:40:09,510 --> 00:40:07,119

the material

1115

00:40:11,670 --> 00:40:09,520

she was evasive in directly answering

1116

00:40:13,589 --> 00:40:11,680

and i wondered if she even knew what

1117

00:40:16,870 --> 00:40:13,599

such testing was

1118

00:40:19,349 --> 00:40:16,880

she did not offer any details and lab

1119

00:40:22,230 --> 00:40:19,359

involved or the test results

1120

00:40:24,150 --> 00:40:22,240

though i asked if isotopic ratio

1121

00:40:27,109 --> 00:40:24,160

analysis was indeed conducted

1122

00:40:29,430 --> 00:40:27,119

and proved et origin it would be the

1123

00:40:31,349 --> 00:40:29,440

biggest scientific news in history

1124

00:40:33,030 --> 00:40:31,359

and it does not take weeks or months and

1125

00:40:35,349 --> 00:40:33,040

certainly not years to perform

1126
00:40:36,390 --> 00:40:35,359
an isotopic ratio analysis to determine

1127
00:40:38,309 --> 00:40:36,400
conclusively

1128
00:40:40,150 --> 00:40:38,319
whether the engineered material is

1129
00:40:42,550 --> 00:40:40,160
earthly or not

1130
00:40:43,190 --> 00:40:42,560
then there is the obvious if hal really

1131
00:40:45,670 --> 00:40:43,200
believed

1132
00:40:47,670 --> 00:40:45,680
she possessed actually roswell ufo

1133
00:40:48,550 --> 00:40:47,680
debris because she had it isotopically

1134
00:40:51,510 --> 00:40:48,560
tested

1135
00:40:53,190 --> 00:40:51,520
would she sell for 35 grand a major

1136
00:40:54,710 --> 00:40:53,200
science museum would pay millions

1137
00:40:56,550 --> 00:40:54,720
now i just want to go ahead and go over

1138
00:40:58,550 --> 00:40:56,560

this a little bit okay now

1139

00:40:59,990 --> 00:40:58,560

let me jump in here and i'm going to

1140

00:41:03,430 --> 00:41:00,000

jump in and

1141

00:41:06,470 --> 00:41:03,440

talk about isotopic ratios under

1142

00:41:10,790 --> 00:41:06,480

normal manufacturing conditions

1143

00:41:14,309 --> 00:41:10,800

sometimes lighter isotopes do burn off

1144

00:41:17,109 --> 00:41:14,319

okay so that that can be

1145

00:41:18,790 --> 00:41:17,119

tricky in terms of looking at isotopic

1146

00:41:20,710 --> 00:41:18,800

ratio testing and

1147

00:41:21,910 --> 00:41:20,720

determining you know is are they a

1148

00:41:25,430 --> 00:41:21,920

little off are they

1149

00:41:27,270 --> 00:41:25,440

way off okay so there's that

1150

00:41:29,510 --> 00:41:27,280

and you had actually made a good point

1151
00:41:32,390 --> 00:41:29,520
about uh

1152
00:41:32,950 --> 00:41:32,400
looking at these uh fragments from every

1153
00:41:35,589 --> 00:41:32,960
angle

1154
00:41:36,390 --> 00:41:35,599
uh because contamination can be an issue

1155
00:41:38,790 --> 00:41:36,400
as well

1156
00:41:39,510 --> 00:41:38,800
mm-hmm so that was a good thing that

1157
00:41:41,910 --> 00:41:39,520
that's very

1158
00:41:43,270 --> 00:41:41,920
yeah that that's something that was uh

1159
00:41:45,190 --> 00:41:43,280
absolutely considered

1160
00:41:46,309 --> 00:41:45,200
it's uh mentioned in uh professor

1161
00:41:53,430 --> 00:41:46,319
stirock's paper

1162
00:41:56,790 --> 00:41:55,109
know frank said something very very

1163
00:41:57,589 --> 00:41:56,800

important there please look at professor

1164

00:41:59,510 --> 00:41:57,599

stork

1165

00:42:00,790 --> 00:41:59,520

and the meta material topic because it's

1166

00:42:02,309 --> 00:42:00,800

fascinating and

1167

00:42:03,750 --> 00:42:02,319

i think you actually wrote an article on

1168

00:42:04,470 --> 00:42:03,760

that but we'll go ahead and go over that

1169

00:42:06,950 --> 00:42:04,480

later

1170

00:42:08,470 --> 00:42:06,960

i just wanted to go ahead and talk about

1171

00:42:08,870 --> 00:42:08,480

this interesting paragraph he wrote

1172

00:42:12,710 --> 00:42:08,880

because

1173

00:42:16,309 --> 00:42:12,720

uh tony actually uh kicks around a few

1174

00:42:16,950 --> 00:42:16,319

uh uh innuendos here that i think are

1175

00:42:18,710 --> 00:42:16,960

unfair

1176
00:42:20,150 --> 00:42:18,720
to linda moulton howe and i'll tell you

1177
00:42:23,030 --> 00:42:20,160
why

1178
00:42:23,990 --> 00:42:23,040
because she had that material already

1179
00:42:26,309 --> 00:42:24,000
forensically

1180
00:42:27,109 --> 00:42:26,319
examined i am going to have to give her

1181
00:42:29,349 --> 00:42:27,119
the benefit

1182
00:42:30,710 --> 00:42:29,359
of the doubt that she actually probably

1183
00:42:32,550 --> 00:42:30,720
did talk about

1184
00:42:33,990 --> 00:42:32,560
uh something in relation to isotopic

1185
00:42:37,190 --> 00:42:34,000
ratio analysis and

1186
00:42:39,349 --> 00:42:37,200
for him to actually say that he wondered

1187
00:42:42,470 --> 00:42:39,359
whether she even knew what

1188
00:42:45,190 --> 00:42:42,480

such testing was is unfair to her

1189

00:42:47,270 --> 00:42:45,200

i don't think that is an actual uh fair

1190

00:42:49,670 --> 00:42:47,280

or judicious thing to say

1191

00:42:51,349 --> 00:42:49,680

and i think it actually happens your

1192

00:42:52,950 --> 00:42:51,359

broads are always sticking together good

1193

00:42:54,950 --> 00:42:52,960

luck

1194

00:42:56,069 --> 00:42:54,960

i think it casts a negative light

1195

00:42:59,349 --> 00:42:56,079

unnecessarily

1196

00:43:00,790 --> 00:42:59,359

upon her that is not justified and then

1197

00:43:03,829 --> 00:43:00,800

he goes on to say

1198

00:43:06,790 --> 00:43:03,839

she was evasive and directly answering

1199

00:43:09,030 --> 00:43:06,800

i guess certain questions or statements

1200

00:43:12,150 --> 00:43:09,040

he was bringing up he was hoping for her

1201
00:43:13,589 --> 00:43:12,160
to actually be more direct regarding

1202
00:43:15,750 --> 00:43:13,599
certain things he was bringing to her

1203
00:43:16,630 --> 00:43:15,760
attention is my assumption here i don't

1204
00:43:18,710 --> 00:43:16,640
think that's

1205
00:43:20,790 --> 00:43:18,720
you know an unfair thing to say and what

1206
00:43:23,589 --> 00:43:20,800
i have to say about that is

1207
00:43:25,829 --> 00:43:23,599
maybe it was none of his business

1208
00:43:26,790 --> 00:43:25,839
whatever it was he was bringing up i'm

1209
00:43:29,750 --> 00:43:26,800
going to go ahead

1210
00:43:32,550 --> 00:43:29,760
hold on okay okay okay when people have

1211
00:43:34,710 --> 00:43:32,560
brought up certain topics to me

1212
00:43:35,990 --> 00:43:34,720
and you know me frank we've known each

1213
00:43:39,349 --> 00:43:36,000

other for a while you're like

1214

00:43:41,430 --> 00:43:39,359

okay so uh what i would like to say is

1215

00:43:42,550 --> 00:43:41,440

when people bring up certain topics to

1216

00:43:46,230 --> 00:43:42,560

me

1217

00:43:47,910 --> 00:43:46,240

i don't care how uh intellectual or

1218

00:43:50,950 --> 00:43:47,920

non-intellectual they are

1219

00:43:54,710 --> 00:43:50,960

or how academic or non-academic they are

1220

00:43:57,589 --> 00:43:54,720

or how dumb or seemingly

1221

00:43:58,950 --> 00:43:57,599

genius related they are if i don't want

1222

00:44:02,950 --> 00:43:58,960

to talk about it

1223

00:44:03,349 --> 00:44:02,960

i won't why because if at times i feel

1224

00:44:05,910 --> 00:44:03,359

it's

1225

00:44:07,910 --> 00:44:05,920

none of that person's business i will

1226
00:44:08,390 --> 00:44:07,920
not say anything about it or i will tell

1227
00:44:11,030 --> 00:44:08,400
them

1228
00:44:13,030 --> 00:44:11,040
i don't want to talk about it now i'm

1229
00:44:16,069 --> 00:44:13,040
not sure that that applies here though

1230
00:44:18,230 --> 00:44:16,079
no hold on because it's been

1231
00:44:19,910 --> 00:44:18,240
it's been talked about it has been

1232
00:44:20,390 --> 00:44:19,920
talked about in great detail i have to

1233
00:44:24,230 --> 00:44:20,400
give

1234
00:44:25,270 --> 00:44:24,240
linda moulton how the benefit of the

1235
00:44:29,270 --> 00:44:25,280
doubt here

1236
00:44:29,829 --> 00:44:29,280
because one person is demanding to know

1237
00:44:32,390 --> 00:44:29,839
something

1238
00:44:34,309 --> 00:44:32,400

or they're insistent or being aggressive

1239

00:44:35,030 --> 00:44:34,319

or they're just being inquisitive about

1240

00:44:38,790 --> 00:44:35,040

it

1241

00:44:39,829 --> 00:44:38,800

does not equal their having license to

1242

00:44:42,309 --> 00:44:39,839

know

1243

00:44:43,829 --> 00:44:42,319

what they're being inquisitive about

1244

00:44:46,950 --> 00:44:43,839

that does not mean they are

1245

00:44:49,270 --> 00:44:46,960

owed an answer so if she was being

1246

00:44:50,230 --> 00:44:49,280

seemingly evasive as he put it towards

1247

00:44:52,230 --> 00:44:50,240

him

1248

00:44:53,349 --> 00:44:52,240

maybe it's because she felt she had the

1249

00:44:55,430 --> 00:44:53,359

right to be

1250

00:44:56,710 --> 00:44:55,440

and it could be it could be but i'm also

1251

00:44:59,109 --> 00:44:56,720

going to put this out here

1252

00:45:00,950 --> 00:44:59,119

because tony is known as a guy who has

1253

00:45:03,750 --> 00:45:00,960

been looking at the materials

1254

00:45:05,030 --> 00:45:03,760

aspect of the roswell crash and what's

1255

00:45:07,109 --> 00:45:05,040

happened afterwards

1256

00:45:08,790 --> 00:45:07,119

for a long time now and she may have

1257

00:45:10,150 --> 00:45:08,800

felt a little bit she had to say

1258

00:45:12,309 --> 00:45:10,160

anything either

1259

00:45:14,150 --> 00:45:12,319

no but uh because it because it's

1260

00:45:15,910 --> 00:45:14,160

because it's tony because he's done his

1261

00:45:17,109 --> 00:45:15,920

homework on this sort of stuff and knows

1262

00:45:18,710 --> 00:45:17,119

it pretty well

1263

00:45:20,870 --> 00:45:18,720

that that she may have felt a little bit

1264

00:45:23,430 --> 00:45:20,880

defensive because it wasn't there

1265

00:45:24,790 --> 00:45:23,440

we don't know that something like that

1266

00:45:28,309 --> 00:45:24,800

not only that

1267

00:45:29,990 --> 00:45:28,319

but you know look we don't know what was

1268

00:45:31,670 --> 00:45:30,000

going on in her head when he was

1269

00:45:33,750 --> 00:45:31,680

asking her these questions he already

1270

00:45:36,470 --> 00:45:33,760

admitted that he was bringing up

1271

00:45:38,950 --> 00:45:36,480

a topic to her attention and he slipped

1272

00:45:40,790 --> 00:45:38,960

it into the conversation

1273

00:45:43,510 --> 00:45:40,800

after having brought up something else

1274

00:45:46,630 --> 00:45:43,520

so that sounds like an interesting

1275

00:45:47,829 --> 00:45:46,640

tactic to me too

1276

00:45:49,990 --> 00:45:47,839

you're doing the same thing you're

1277

00:45:52,630 --> 00:45:50,000

accusing him oh it's a tactic it's like

1278

00:45:54,230 --> 00:45:52,640

oh come on chad he already admitted that

1279

00:45:54,630 --> 00:45:54,240

he was talking to her about something

1280

00:45:57,109 --> 00:45:54,640

and he

1281

00:45:58,630 --> 00:45:57,119

slipped in like you and i both haven't

1282

00:46:00,390 --> 00:45:58,640

talked to people say well since i'm

1283

00:46:00,950 --> 00:46:00,400

talking to you anyway how about this

1284

00:46:02,790 --> 00:46:00,960

other thing

1285

00:46:04,230 --> 00:46:02,800

you know that that kind of thing goes

1286

00:46:05,270 --> 00:46:04,240

all the time but

1287

00:46:06,790 --> 00:46:05,280

you're not you're not getting you're not

1288

00:46:07,430 --> 00:46:06,800

giving you're not giving tony the

1289

00:46:10,309 --> 00:46:07,440

benefit of

1290

00:46:12,550 --> 00:46:10,319

that i'm fine if he is guilty of that i

1291

00:46:15,589 --> 00:46:12,560

really don't care i'll tell you why

1292

00:46:17,430 --> 00:46:15,599

i still think that his innuendo

1293

00:46:20,069 --> 00:46:17,440

here which is casting her in a negative

1294

00:46:23,829 --> 00:46:20,079

light an unfair light

1295

00:46:26,309 --> 00:46:23,839

um doesn't give her the the the fair

1296

00:46:27,109 --> 00:46:26,319

uh benefit of the doubt that i would

1297

00:46:30,069 --> 00:46:27,119

hope

1298

00:46:30,710 --> 00:46:30,079

that a writer would give to anybody and

1299

00:46:35,109 --> 00:46:30,720

so

1300

00:46:38,069 --> 00:46:35,119

lot of this article

1301
00:46:39,270 --> 00:46:38,079
is at the expense of people i'll tell

1302
00:46:40,790 --> 00:46:39,280
you why

1303
00:46:42,790 --> 00:46:40,800
because a lot of it is claim

1304
00:46:45,190 --> 00:46:42,800
claim-related not all of it

1305
00:46:46,069 --> 00:46:45,200
is fact-based there's there are facts in

1306
00:46:49,030 --> 00:46:46,079
there i mean he

1307
00:46:51,030 --> 00:46:49,040
is i'm not saying there's not right he

1308
00:46:52,470 --> 00:46:51,040
says he's editorializing within the

1309
00:46:54,309 --> 00:46:52,480
context of the story there's no

1310
00:46:57,109 --> 00:46:54,319
i do the same thing you do the same

1311
00:46:59,910 --> 00:46:57,119
thing you know

1312
00:47:01,510 --> 00:46:59,920
um so i think i think it's important i

1313
00:47:04,230 --> 00:47:01,520

think it's important that you know

1314

00:47:05,510 --> 00:47:04,240

we not only uh bring facts you just want

1315

00:47:07,750 --> 00:47:05,520

to be clear about

1316

00:47:08,710 --> 00:47:07,760

these are the facts this is you know

1317

00:47:10,630 --> 00:47:08,720

this is where i'm

1318

00:47:12,870 --> 00:47:10,640

i'm speculating here this is where well

1319

00:47:15,270 --> 00:47:12,880

yeah i am categorizing some things here

1320

00:47:17,589 --> 00:47:15,280

let me share a little bit of speculation

1321

00:47:18,470 --> 00:47:17,599

that an innuendo that he makes here and

1322

00:47:21,109 --> 00:47:18,480

that is

1323

00:47:22,309 --> 00:47:21,119

a sentence he says but de long's true

1324

00:47:24,230 --> 00:47:22,319

ufo research

1325

00:47:26,870 --> 00:47:24,240

motives can be found in a need for

1326

00:47:29,589 --> 00:47:26,880

continued fame and a need for money

1327

00:47:31,589 --> 00:47:29,599

to maintain an accustomed lifestyle he's

1328

00:47:34,390 --> 00:47:31,599

beginning to sound like his dad

1329

00:47:34,950 --> 00:47:34,400

how would he even know if any of that is

1330

00:47:37,829 --> 00:47:34,960

true

1331

00:47:38,790 --> 00:47:37,839

now people can say ah come on really you

1332

00:47:41,109 --> 00:47:38,800

know what

1333

00:47:43,349 --> 00:47:41,119

you can say that but that does not mean

1334

00:47:47,030 --> 00:47:43,359

this sentence is based on fact

1335

00:47:53,030 --> 00:47:50,630

and it's also at his expense

1336

00:47:54,470 --> 00:47:53,040

that's his analysis uh i don't think uh

1337

00:47:57,829 --> 00:47:54,480

tom

1338

00:48:02,150 --> 00:47:57,839

that is a claim that cannot be proven

1339

00:48:07,670 --> 00:48:05,270

well as far as the long's

1340

00:48:10,069 --> 00:48:07,680

money goes i'm sure he made a lot of

1341

00:48:13,670 --> 00:48:10,079

money with blink 182

1342

00:48:15,349 --> 00:48:13,680

and uh you know i do know

1343

00:48:17,510 --> 00:48:15,359

it was in the news that he had gone

1344

00:48:20,710 --> 00:48:17,520

through a divorce within the last

1345

00:48:23,109 --> 00:48:20,720

year or so and uh sold his home

1346

00:48:24,870 --> 00:48:23,119

um you know where his home you know goes

1347

00:48:26,470 --> 00:48:24,880

on real estate and goes on zillow

1348

00:48:28,790 --> 00:48:26,480

so yeah you can take a look at i took a

1349

00:48:30,870 --> 00:48:28,800

look at it i mean it was surprisingly i

1350

00:48:33,430 --> 00:48:30,880

thought it was so surprisingly modest

1351

00:48:35,349 --> 00:48:33,440

for a rockstar kind of guy i don't think

1352

00:48:36,630 --> 00:48:35,359

that the long is not like one of these

1353

00:48:38,549 --> 00:48:36,640

i don't get the sense that he's one of

1354

00:48:39,589 --> 00:48:38,559

these crazy spenders you know what i

1355

00:48:42,630 --> 00:48:39,599

mean where he's got the

1356

00:48:43,510 --> 00:48:42,640

it you know it uh it was a obviously a

1357

00:48:45,589 --> 00:48:43,520

very nice how

1358

00:48:47,270 --> 00:48:45,599

nice upper middle class house and of

1359

00:48:49,030 --> 00:48:47,280

course because it was in san diego i

1360

00:48:50,950 --> 00:48:49,040

mean the price was pretty high i don't

1361

00:48:54,309 --> 00:48:50,960

think it was over a million dollars

1362

00:48:56,069 --> 00:48:54,319

but uh you know you get uh

1363

00:48:57,510 --> 00:48:56,079

i i think it was just on i think it was

1364

00:48:59,190 --> 00:48:57,520

maybe like in the eight nine hundred

1365

00:49:00,470 --> 00:48:59,200

thousand dollar range so that's what it

1366

00:49:03,510 --> 00:49:00,480

was on the market for

1367

00:49:05,349 --> 00:49:03,520

well it might sound odd to say but some

1368

00:49:07,430 --> 00:49:05,359

you know i which is obviously a lot i

1369

00:49:08,390 --> 00:49:07,440

don't think it's unrealistic to assume

1370

00:49:10,390 --> 00:49:08,400

that folks who

1371

00:49:13,510 --> 00:49:10,400

who make it so to speak they become

1372

00:49:16,390 --> 00:49:13,520

ultra famous known worldwide you know uh

1373

00:49:18,309 --> 00:49:16,400

everybody is idolizing idolizing them or

1374

00:49:20,630 --> 00:49:18,319

not but they're still well known

1375

00:49:22,390 --> 00:49:20,640

it's not unusual for folks who come into

1376

00:49:24,950 --> 00:49:22,400

money and fame to want to live

1377

00:49:25,510 --> 00:49:24,960

in certain areas that very few can

1378

00:49:27,990 --> 00:49:25,520

afford

1379

00:49:29,270 --> 00:49:28,000

for security purposes to keep them safe

1380

00:49:31,510 --> 00:49:29,280

yeah i don't even think the place is

1381

00:49:33,589 --> 00:49:31,520

like that i apologize for that

1382

00:49:34,950 --> 00:49:33,599

another thing i'd like to mention is

1383

00:49:38,230 --> 00:49:34,960

there's a sentence here

1384

00:49:41,910 --> 00:49:38,240

in his article and uh it states but most

1385

00:49:44,549 --> 00:49:41,920

disturbing is this at least one of tsa's

1386

00:49:45,670 --> 00:49:44,559

board members has a history of and i'm

1387

00:49:48,470 --> 00:49:45,680

going somewhere with this

1388

00:49:49,030 --> 00:49:48,480

a lot of likely illegal business

1389

00:49:50,870 --> 00:49:49,040

dealings

1390

00:49:52,309 --> 00:49:50,880

involving securing people's money in

1391

00:49:54,230 --> 00:49:52,319

return for nothing now you already went

1392

00:49:55,670 --> 00:49:54,240

over this a little bit but hold on

1393

00:49:57,750 --> 00:49:55,680

this board member appears to be the

1394

00:50:00,230 --> 00:49:57,760

driving force behind the organization

1395

00:50:00,790 --> 00:50:00,240

and he is applying his unsavory business

1396

00:50:03,670 --> 00:50:00,800

skills

1397

00:50:05,349 --> 00:50:03,680

quotes air quotes to help tsa secure

1398

00:50:06,549 --> 00:50:05,359

contracts and boost sales now i just

1399

00:50:09,030 --> 00:50:06,559

wanted to go ahead

1400

00:50:09,750 --> 00:50:09,040

and break this apart just a little bit

1401
00:50:12,950 --> 00:50:09,760
it says

1402
00:50:15,750 --> 00:50:12,960
but most disturbing is this at least one

1403
00:50:19,030 --> 00:50:15,760
of tsa's board members has a history of

1404
00:50:22,069 --> 00:50:19,040
likely illegal business dealings

1405
00:50:26,069 --> 00:50:22,079
involving and he gives a list now

1406
00:50:28,710 --> 00:50:26,079
look we don't know

1407
00:50:29,670 --> 00:50:28,720
if it's really true that anything

1408
00:50:32,710 --> 00:50:29,680
illegal

1409
00:50:38,829 --> 00:50:32,720
has happened so i think that that is

1410
00:50:42,790 --> 00:50:39,990
fact

1411
00:50:44,230 --> 00:50:42,800
he's that it's his analysis it's his

1412
00:50:53,990 --> 00:50:44,240
analysis

1413
00:50:55,589 --> 00:50:54,000

i'm looking at this guy and i wouldn't

1414

00:50:57,670 --> 00:50:55,599

invest time one with him

1415

00:50:59,750 --> 00:50:57,680

i wouldn't invest yeah i wouldn't invest

1416

00:51:00,470 --> 00:50:59,760

with uh tsa either and a lot of people

1417

00:51:03,589 --> 00:51:00,480

did

1418

00:51:06,950 --> 00:51:03,599

uh and i mean that

1419

00:51:08,390 --> 00:51:06,960

that that's basically yeah you know

1420

00:51:11,109 --> 00:51:08,400

you know and i do think it's

1421

00:51:12,470 --> 00:51:11,119

questionable uh questionable enough that

1422

00:51:14,390 --> 00:51:12,480

uh some of these things that they've

1423

00:51:15,910 --> 00:51:14,400

been involved with are uh questionable

1424

00:51:18,710 --> 00:51:15,920

enough that they merit

1425

00:51:19,349 --> 00:51:18,720

you know they merit a response you know

1426

00:51:20,870 --> 00:51:19,359

now

1427

00:51:22,470 --> 00:51:20,880

they will try to get that christopher

1428

00:51:23,030 --> 00:51:22,480

miser on the show and he can explain all

1429

00:51:24,870 --> 00:51:23,040

of me

1430

00:51:26,150 --> 00:51:24,880

and you know you never know and i think

1431

00:51:28,549 --> 00:51:26,160

it's good

1432

00:51:30,069 --> 00:51:28,559

to give him a fair shot you know the the

1433

00:51:32,309 --> 00:51:30,079

benefit of the doubt now

1434

00:51:33,750 --> 00:51:32,319

i would love to talk to tony but he's

1435

00:51:36,950 --> 00:51:33,760

not available to talk to

1436

00:51:39,670 --> 00:51:36,960

like i i can't reach for myself but

1437

00:51:41,190 --> 00:51:39,680

anyway i'm going to send him the link to

1438

00:51:43,109 --> 00:51:41,200

this show and he can have a listen

1439

00:51:45,270 --> 00:51:43,119

i know he will absolutely listen to it

1440

00:51:46,630 --> 00:51:45,280

and perhaps he can respond to some of

1441

00:51:47,750 --> 00:51:46,640

the things i'm about to say like this

1442

00:51:52,309 --> 00:51:47,760

one thing here

1443

00:51:54,790 --> 00:51:52,319

somehow he says tsa has wrangled a 750

1444

00:51:56,309 --> 00:51:54,800

000 government contract which to me is

1445

00:51:58,390 --> 00:51:56,319

rather concerning

1446

00:52:00,470 --> 00:51:58,400

um the u.s army recently announced that

1447

00:52:02,069 --> 00:52:00,480

is partnering with tsa to sharing sites

1448

00:52:03,430 --> 00:52:02,079

of potential interest relating to novel

1449

00:52:05,510 --> 00:52:03,440

power technologies

1450

00:52:06,790 --> 00:52:05,520

and goes on to explain it it is

1451
00:52:10,710 --> 00:52:06,800
remarkable

1452
00:52:11,670 --> 00:52:10,720
backgrounds of the players and the many

1453
00:52:14,150 --> 00:52:11,680
other

1454
00:52:15,750 --> 00:52:14,160
issues in air quotes with ttsa before

1455
00:52:17,910 --> 00:52:15,760
agreeing to a payout

1456
00:52:20,150 --> 00:52:17,920
to them i mean i think that deal was

1457
00:52:23,030 --> 00:52:20,160
hooked up before miser joined so there's

1458
00:52:23,430 --> 00:52:23,040
okay okay thank you very much um what

1459
00:52:25,349 --> 00:52:23,440
thanks

1460
00:52:26,790 --> 00:52:25,359
meiser just joined this year and the

1461
00:52:28,950 --> 00:52:26,800
same thing with the the uh the

1462
00:52:30,309 --> 00:52:28,960
therapeutic solutions company miser just

1463
00:52:31,829 --> 00:52:30,319

joined them this year

1464

00:52:33,349 --> 00:52:31,839

and this sort of thing has been going on

1465

00:52:35,430 --> 00:52:33,359

as sort of predates but then

1466

00:52:37,030 --> 00:52:35,440

you know how much due diligence is miser

1467

00:52:37,910 --> 00:52:37,040

doing before joining this company you

1468

00:52:40,630 --> 00:52:37,920

know what i'm saying

1469

00:52:41,349 --> 00:52:40,640

i understood now it's still still uh

1470

00:52:44,470 --> 00:52:41,359

like i said i

1471

00:52:46,710 --> 00:52:44,480

you know it's like i don't know i think

1472

00:52:48,470 --> 00:52:46,720

merits a closer look that's all it does

1473

00:52:48,950 --> 00:52:48,480

and i wanted to mention a few things

1474

00:52:52,710 --> 00:52:48,960

here

1475

00:52:56,230 --> 00:52:52,720

he says somehow tsa has wrangled

1476
00:52:57,829 --> 00:52:56,240
a 750 000 contract government contract

1477
00:53:00,549 --> 00:52:57,839
which is rather concerning

1478
00:53:04,150 --> 00:53:00,559
now you're going to micromanage his

1479
00:53:07,670 --> 00:53:07,030
these are words that he is using to go

1480
00:53:10,549 --> 00:53:07,680
ahead and

1481
00:53:11,589 --> 00:53:10,559
take a picture and put people out or

1482
00:53:13,990 --> 00:53:11,599
organizations

1483
00:53:14,790 --> 00:53:14,000
in a certain organization in a certain

1484
00:53:17,990 --> 00:53:14,800
light

1485
00:53:19,750 --> 00:53:18,000
and uh of course uh going along the

1486
00:53:21,430 --> 00:53:19,760
innuendos in this article

1487
00:53:22,630 --> 00:53:21,440
it's not a positive light now i'm not

1488
00:53:24,950 --> 00:53:22,640

saying he's supposed to write a glowing

1489

00:53:27,510 --> 00:53:24,960

article it's not i am not saying that

1490

00:53:28,549 --> 00:53:27,520

however if you're going to write an

1491

00:53:30,870 --> 00:53:28,559

article

1492

00:53:32,390 --> 00:53:30,880

have some facts to back up some of these

1493

00:53:33,910 --> 00:53:32,400

well the facts are in there some of the

1494

00:53:35,990 --> 00:53:33,920

facts i contributed

1495

00:53:37,670 --> 00:53:36,000

i am going to go ahead and finish making

1496

00:53:42,309 --> 00:53:37,680

my point and that is

1497

00:53:44,470 --> 00:53:42,319

when he says tsa wrangled a 750 000

1498

00:53:45,589 --> 00:53:44,480

government contract and it's concerning

1499

00:53:49,829 --> 00:53:45,599

to him

1500

00:53:51,430 --> 00:53:49,839

uh i don't see why they being tsa

1501
00:53:53,750 --> 00:53:51,440
should have to apologize for that

1502
00:53:57,270 --> 00:53:53,760
government contract

1503
00:53:59,910 --> 00:53:57,280
they they did that and obviously uh

1504
00:54:01,190 --> 00:53:59,920
in well it's not not a question of

1505
00:54:03,349 --> 00:54:01,200
apologizing

1506
00:54:04,790 --> 00:54:03,359
but again some of the stuff that was

1507
00:54:07,910 --> 00:54:04,800
turned up here

1508
00:54:09,349 --> 00:54:07,920
merits a further explanation

1509
00:54:11,270 --> 00:54:09,359
well i don't think they should have to

1510
00:54:13,349 --> 00:54:11,280
explain that what is there to explain

1511
00:54:14,790 --> 00:54:13,359
they got the contract they they got the

1512
00:54:15,270 --> 00:54:14,800
contract there you go they got the

1513
00:54:18,870 --> 00:54:15,280

credit

1514

00:54:20,710 --> 00:54:18,880

what's the big deal now it says the us

1515

00:54:23,109 --> 00:54:20,720

army recently announced is partnering

1516

00:54:24,309 --> 00:54:23,119

with tsa to share insights and they go

1517

00:54:28,230 --> 00:54:24,319

on

1518

00:54:29,990 --> 00:54:28,240

remarkable

1519

00:54:31,750 --> 00:54:30,000

that the army did not vet the

1520

00:54:32,470 --> 00:54:31,760

backgrounds of the players and the many

1521

00:54:34,870 --> 00:54:32,480

other

1522

00:54:36,230 --> 00:54:34,880

issues with tsa before agreeing to a

1523

00:54:39,109 --> 00:54:36,240

payout to them

1524

00:54:39,750 --> 00:54:39,119

how does how in the world would tony

1525

00:54:43,750 --> 00:54:39,760

know

1526

00:54:46,710 --> 00:54:43,760

whether the u.s army

1527

00:54:47,910 --> 00:54:46,720

did or did not vet anyone he does not

1528

00:54:50,549 --> 00:54:47,920

know

1529

00:54:52,230 --> 00:54:50,559

i don't think the us army talks to tony

1530

00:54:53,030 --> 00:54:52,240

we'll see you now you see in relation to

1531

00:54:54,390 --> 00:54:53,040

miser

1532

00:54:56,069 --> 00:54:54,400

what they should have done is gotten

1533

00:54:57,990 --> 00:54:56,079

hold of uh some of their

1534

00:54:59,349 --> 00:54:58,000

uh some of their remote viewers and done

1535

00:55:01,430 --> 00:54:59,359

a foreground check on

1536

00:55:03,109 --> 00:55:01,440

ttsa to see whether or not they would

1537

00:55:05,990 --> 00:55:03,119

hire miser down the road

1538

00:55:07,270 --> 00:55:06,000

i'm just saying i that's all don't see

1539

00:55:09,910 --> 00:55:07,280

how he can say

1540

00:55:11,750 --> 00:55:09,920

that the us army he finds it remarkable

1541

00:55:13,109 --> 00:55:11,760

that they did not vet he says that in a

1542

00:55:15,109 --> 00:55:13,119

very factual manner

1543

00:55:16,390 --> 00:55:15,119

there is nothing to back well i i

1544

00:55:18,630 --> 00:55:16,400

believe well okay then

1545

00:55:20,069 --> 00:55:18,640

there here's a that here is actually a

1546

00:55:21,829 --> 00:55:20,079

legitimate legitimate

1547

00:55:23,750 --> 00:55:21,839

criticism unless he's talking about the

1548

00:55:24,390 --> 00:55:23,760

long but if he's talking in respect to

1549

00:55:26,230 --> 00:55:24,400

miser

1550

00:55:28,710 --> 00:55:26,240

that they had that deal together before

1551
00:55:29,270 --> 00:55:28,720
miser came on so obviously unless like i

1552
00:55:31,910 --> 00:55:29,280
said

1553
00:55:33,190 --> 00:55:31,920
they used their remote viewers yeah to

1554
00:55:35,109 --> 00:55:33,200
see if they were going to

1555
00:55:36,470 --> 00:55:35,119
bring this guy on down the road they

1556
00:55:38,950 --> 00:55:36,480
couldn't have known that

1557
00:55:40,069 --> 00:55:38,960
because it hadn't happened yet so yeah

1558
00:55:42,950 --> 00:55:40,079
anyway look i

1559
00:55:44,309 --> 00:55:42,960
and i i know this is uh quite laughable

1560
00:55:47,190 --> 00:55:44,319
what i'm about to say but

1561
00:55:48,630 --> 00:55:47,200
there is there are so many innuendos and

1562
00:55:50,950 --> 00:55:48,640
claims and this is the first time for

1563
00:55:55,670 --> 00:55:50,960

everything i could spend hours

1564

00:55:58,230 --> 00:55:55,680

going over why they are devoid effects

1565

00:55:59,589 --> 00:55:58,240

and i just think that what he's doing is

1566

00:56:02,470 --> 00:55:59,599

uh

1567

00:56:03,430 --> 00:56:02,480

creating sort of a conspiracy type of

1568

00:56:05,829 --> 00:56:03,440

story here

1569

00:56:07,910 --> 00:56:05,839

i think well some of this other stuff is

1570

00:56:10,390 --> 00:56:07,920

uh you know the the tsoi

1571

00:56:11,589 --> 00:56:10,400

stuff uh the vivarius capital stuff is

1572

00:56:14,549 --> 00:56:11,599

uh

1573

00:56:15,750 --> 00:56:14,559

when it's all added together it paints a

1574

00:56:18,789 --> 00:56:15,760

uh

1575

00:56:20,870 --> 00:56:18,799

enough of a picture that it merits a

1576

00:56:22,390 --> 00:56:20,880

it merits a further explanation well so

1577

00:56:24,230 --> 00:56:22,400

what i would i'll steal that i'll steal

1578

00:56:24,950 --> 00:56:24,240

that line from the san diego union

1579

00:56:27,109 --> 00:56:24,960

tribune

1580

00:56:30,309 --> 00:56:27,119

i would have posed an awful lot of what

1581

00:56:33,030 --> 00:56:30,319

he posed as

1582

00:56:34,870 --> 00:56:33,040

innuendo as just questions rather than

1583

00:56:37,430 --> 00:56:34,880

implying something negative

1584

00:56:38,710 --> 00:56:37,440

and at the end you know and that we had

1585

00:56:41,670 --> 00:56:38,720

we had this discussion

1586

00:56:42,309 --> 00:56:41,680

fairly recently where uh we were talking

1587

00:56:45,589 --> 00:56:42,319

about

1588

00:56:47,270 --> 00:56:45,599

yeah we're all independents uh and we

1589

00:56:49,510 --> 00:56:47,280

yeah i mean we go back and forth once in

1590

00:56:50,710 --> 00:56:49,520

a while but you know he didn't send me

1591

00:56:53,030 --> 00:56:50,720

an advanced copy like

1592

00:56:53,990 --> 00:56:53,040

hey you know go over this what do you

1593

00:56:56,390 --> 00:56:54,000

think what do you think

1594

00:56:58,230 --> 00:56:56,400

we just passed some facts what i passed

1595

00:56:58,870 --> 00:56:58,240

was facts to him and then he took those

1596

00:57:01,589 --> 00:56:58,880

facts and

1597

00:57:02,789 --> 00:57:01,599

and uh frankly i i here we've gone into

1598

00:57:04,390 --> 00:57:02,799

a little bit more detail

1599

00:57:06,069 --> 00:57:04,400

he got all that detail and didn't

1600

00:57:07,750 --> 00:57:06,079

include all of it but we went into a

1601
00:57:10,150 --> 00:57:07,760
little bit more detail here

1602
00:57:11,910 --> 00:57:10,160
than he went into in his article and you

1603
00:57:14,230 --> 00:57:11,920
know i think the material that i turned

1604
00:57:14,710 --> 00:57:14,240
up was factual and yeah i i still think

1605
00:57:18,549 --> 00:57:14,720
it

1606
00:57:20,390 --> 00:57:18,559
based on what i've seen of this guy

1607
00:57:21,589 --> 00:57:20,400
i wouldn't invest in dime one with them

1608
00:57:24,390 --> 00:57:21,599
but you know

1609
00:57:26,069 --> 00:57:24,400
well so there are there is no evidence

1610
00:57:29,750 --> 00:57:26,079
to support

1611
00:57:32,470 --> 00:57:29,760
some of the claims of this article now

1612
00:57:34,630 --> 00:57:32,480
facts can be refuted cannot be refuted

1613
00:57:37,829 --> 00:57:34,640

facts cannot be refuted but claims can

1614

00:57:39,750 --> 00:57:37,839

so i'm just saying i do have an issue

1615

00:57:41,270 --> 00:57:39,760

with this article i do not agree with it

1616

00:57:43,270 --> 00:57:41,280

in its totality

1617

00:57:45,430 --> 00:57:43,280

and that's my take on it well i don't

1618

00:57:46,870 --> 00:57:45,440

agree with it that's totality i mean

1619

00:57:48,230 --> 00:57:46,880

i don't agree with everything you write

1620

00:57:48,950 --> 00:57:48,240

you're and i'm sure you don't agree with

1621

00:57:50,630 --> 00:57:48,960

everything i do

1622

00:57:52,230 --> 00:57:50,640

that that's a part of the game we're

1623

00:57:52,829 --> 00:57:52,240

going to disagree on the things here and

1624

00:57:54,950 --> 00:57:52,839

there

1625

00:57:57,190 --> 00:57:54,960

but is unfortunate that it is at the

1626

00:57:58,950 --> 00:57:57,200

expense of various individuals

1627

00:58:00,470 --> 00:57:58,960

to cast them in a negative light without

1628

00:58:03,589 --> 00:58:00,480

the facts to back them up

1629

00:58:05,589 --> 00:58:03,599

i'm not saying on all of the article 100

1630

00:58:06,710 --> 00:58:05,599

saying in various aspects of the article

1631

00:58:08,230 --> 00:58:06,720

it's unfortunate

1632

00:58:09,990 --> 00:58:08,240

because i don't think linda moulton how

1633

00:58:12,710 --> 00:58:10,000

deserved that kind of criticism

1634

00:58:14,390 --> 00:58:12,720

because there is nothing to back up what

1635

00:58:16,549 --> 00:58:14,400

he is saying about her

1636

00:58:18,870 --> 00:58:16,559

it sounds like he's just whining and

1637

00:58:20,150 --> 00:58:18,880

upset that she did not want to reveal

1638

00:58:21,750 --> 00:58:20,160

any information to him

1639

00:58:23,349 --> 00:58:21,760

on topics that he brought to her

1640

00:58:25,430 --> 00:58:23,359

attention and

1641

00:58:27,030 --> 00:58:25,440

as a result he wrote her off saying oh

1642

00:58:28,069 --> 00:58:27,040

well she must not be an expert on that

1643

00:58:30,470 --> 00:58:28,079

scientifica

1644

00:58:31,270 --> 00:58:30,480

related topic i brought up to her which

1645

00:58:33,270 --> 00:58:31,280

is well she's

1646

00:58:35,510 --> 00:58:33,280

well she's not an expert i'm not an

1647

00:58:37,910 --> 00:58:35,520

expert on it either neither are you

1648

00:58:39,349 --> 00:58:37,920

well none of us are he's not an expert

1649

00:58:41,829 --> 00:58:39,359

on it either but you know

1650

00:58:43,829 --> 00:58:41,839

he's he has focused on that particular

1651
00:58:45,510 --> 00:58:43,839
aspect of the subject and then knows it

1652
00:58:47,349 --> 00:58:45,520
well

1653
00:58:48,549 --> 00:58:47,359
again i don't think but i wouldn't

1654
00:58:51,510 --> 00:58:48,559
describe knows

1655
00:58:53,349 --> 00:58:51,520
well is not the same as expert knows it

1656
00:58:55,589 --> 00:58:53,359
well

1657
00:58:57,829 --> 00:58:55,599
i just think that it's uh unfortunate

1658
00:59:01,670 --> 00:58:57,839
analysis of linda molten howe that has

1659
00:59:06,309 --> 00:59:03,670
now all right so let's uh we've we've

1660
00:59:09,750 --> 00:59:06,319
gone on for 45 minutes about have we

1661
00:59:10,549 --> 00:59:09,760
yes we have 45 minutes chad all right so

1662
00:59:13,349 --> 00:59:10,559
i'm gonna wrap

1663
00:59:14,950 --> 00:59:13,359

you know what i'm gonna hang on a sec

1664

00:59:17,270 --> 00:59:14,960

where am i oops

1665

00:59:19,270 --> 00:59:17,280

i'm on the wrong thing hang on a sec

1666

00:59:21,910 --> 00:59:19,280

there we go i missed clicked

1667

00:59:23,670 --> 00:59:21,920

uh you know what we're not even gonna uh

1668

00:59:25,990 --> 00:59:23,680

uh okay uh we talked a little bit about

1669

00:59:29,510 --> 00:59:26,000

investing and uh making a few bucks

1670

00:59:31,670 --> 00:59:29,520

and actually believe it or not uh there

1671

00:59:33,109 --> 00:59:31,680

there might well be a down the road some

1672

00:59:35,349 --> 00:59:33,119

legitimate uh

1673

00:59:36,549 --> 00:59:35,359

a good return on investment uh kind of

1674

00:59:38,390 --> 00:59:36,559

investments down the road

1675

00:59:39,670 --> 00:59:38,400

i'm not even gonna open up this can of

1676

00:59:41,990 --> 00:59:39,680

worms on this show but we'll

1677

00:59:43,349 --> 00:59:42,000

we'll talk about it in more detail there

1678

00:59:46,470 --> 00:59:43,359

is a ufo

1679

00:59:47,990 --> 00:59:46,480

etf basically uh an etf i guess

1680

00:59:50,230 --> 00:59:48,000

uh for folks who don't know what that

1681

00:59:54,630 --> 00:59:50,240

means it's sort of a mutual fund

1682

00:59:58,950 --> 00:59:56,309

would that be do you think that would be

1683

01:00:02,390 --> 00:59:58,960

a reasonable explanation for what an etf

1684

01:00:04,870 --> 01:00:02,400

is chant sure okay okay i mean

1685

01:00:05,829 --> 01:00:04,880

it's in equity just like uh you know

1686

01:00:08,549 --> 01:00:05,839

stocks are

1687

01:00:09,670 --> 01:00:08,559

and then so an etf an example of an etf

1688

01:00:11,910 --> 01:00:09,680

uh might be

1689

01:00:13,270 --> 01:00:11,920

like if you were to look up vanguard uh

1690

01:00:15,990 --> 01:00:13,280

that name it's uh

1691

01:00:18,150 --> 01:00:16,000

not not all vanguard uh etfs are the

1692

01:00:19,430 --> 01:00:18,160

same vanguard related association or

1693

01:00:21,670 --> 01:00:19,440

organization but

1694

01:00:22,789 --> 01:00:21,680

uh you might look up an etf and it might

1695

01:00:25,430 --> 01:00:22,799

say okay we

1696

01:00:26,549 --> 01:00:25,440

have invested in the fang m stocks uh

1697

01:00:29,030 --> 01:00:26,559

which might be

1698

01:00:29,829 --> 01:00:29,040

uh facebook apple alphabet which is

1699

01:00:32,470 --> 01:00:29,839

google

1700

01:00:33,430 --> 01:00:32,480

um microsoft uh which is the m part of

1701

01:00:35,430 --> 01:00:33,440

the fang

1702

01:00:37,829 --> 01:00:35,440

and then let's see i'll just throw in

1703

01:00:41,270 --> 01:00:37,839

netflix there and then oh let's just say

1704

01:00:43,190 --> 01:00:41,280

berkshire hathaway uh uh the class b

1705

01:00:45,190 --> 01:00:43,200

stock not the class a because that's a

1706

01:00:48,150 --> 01:00:45,200

couple hundred thousand dollars or more

1707

01:00:49,270 --> 01:00:48,160

um but uh so what an etf might do is

1708

01:00:52,069 --> 01:00:49,280

they might invest in

1709

01:00:54,390 --> 01:00:52,079

certain stocks that people cannot afford

1710

01:00:56,230 --> 01:00:54,400

out of pocket to buy one of those stocks

1711

01:00:57,990 --> 01:00:56,240

because one of those stocks i'll give an

1712

01:00:59,349 --> 01:00:58,000

example let's just say they invest in

1713

01:01:03,270 --> 01:00:59,359

tesla and tesla's at

1714

01:01:05,430 --> 01:01:03,280

you know 538 or 600 dollars now

1715

01:01:07,670 --> 01:01:05,440

and they can't afford that stock but the

1716

01:01:09,910 --> 01:01:07,680

etf that invests in a lot of triple

1717

01:01:11,190 --> 01:01:09,920

digit related stocks or double digit

1718

01:01:13,430 --> 01:01:11,200

related stocks or

1719

01:01:15,430 --> 01:01:13,440

quadruple digit related stocks like

1720

01:01:15,829 --> 01:01:15,440

amazon for example which is part of the

1721

01:01:19,430 --> 01:01:15,839

fang

1722

01:01:21,349 --> 01:01:19,440

m stocks um i'm also known as a market

1723

01:01:23,109 --> 01:01:21,359

mover too

1724

01:01:24,390 --> 01:01:23,119

folks might be able to afford that

1725

01:01:29,190 --> 01:01:24,400

ninety dollar

1726

01:01:32,630 --> 01:01:29,200

or uh or or uh fifty dollar etf

1727

01:01:35,109 --> 01:01:32,640

that has millions of dollars invested in

1728

01:01:36,950 --> 01:01:35,119

all of these other stocks and so that

1729

01:01:38,630 --> 01:01:36,960

way they get a chance to have

1730

01:01:40,789 --> 01:01:38,640

part and parcel a little bit of

1731

01:01:43,510 --> 01:01:40,799

investment in each one of those yeah

1732

01:01:44,789 --> 01:01:43,520

it's a security type that some folks

1733

01:01:46,470 --> 01:01:44,799

might not be familiar with

1734

01:01:48,950 --> 01:01:46,480

but again to put it as simply as

1735

01:01:49,349 --> 01:01:48,960

possible it's essentially a mutual fund

1736

01:01:52,069 --> 01:01:49,359

where

1737

01:01:53,670 --> 01:01:52,079

uh the the etf manager buys this kind of

1738

01:01:56,309 --> 01:01:53,680

stock that kind of stuff

1739

01:01:58,470 --> 01:01:56,319

yeah there might be uh limits if it's a

1740

01:02:01,829 --> 01:01:58,480

particular type of etf like

1741

01:02:03,750 --> 01:02:01,839

uh some etfs mimic the dow jones

1742

01:02:06,230 --> 01:02:03,760

industrial average or the s p

1743

01:02:09,270 --> 01:02:06,240

500 or they might only invest in

1744

01:02:12,390 --> 01:02:09,280

financials or

1745

01:02:14,230 --> 01:02:12,400

material stocks but this is a an etf

1746

01:02:17,270 --> 01:02:14,240

that focuses on

1747

01:02:20,069 --> 01:02:17,280

things related to space they invest in

1748

01:02:21,990 --> 01:02:20,079

uh you know a virgin galactic uh

1749

01:02:22,470 --> 01:02:22,000

different defense stocks uh things like

1750

01:02:24,630 --> 01:02:22,480

that

1751

01:02:26,789 --> 01:02:24,640

and uh the the last month uh they were

1752

01:02:28,150 --> 01:02:26,799

up 20 and that hit the news so i thought

1753

01:02:30,230 --> 01:02:28,160

that was kind of interesting

1754

01:02:32,230 --> 01:02:30,240

and uh there you know there could well

1755

01:02:34,710 --> 01:02:32,240

be some real good potential for

1756

01:02:36,789 --> 01:02:34,720

investments down the road uh if

1757

01:02:39,589 --> 01:02:36,799

disclosure comes about

1758

01:02:41,589 --> 01:02:39,599

if uh possibly uh there are advances in

1759

01:02:42,309 --> 01:02:41,599

the things like metamaterials things

1760

01:02:45,349 --> 01:02:42,319

like that

1761

01:02:46,870 --> 01:02:45,359

uh that that might get folks a nice

1762

01:02:48,309 --> 01:02:46,880

return so it's something to think about

1763

01:02:49,990 --> 01:02:48,319

and that's something we'll probably uh

1764

01:02:51,349 --> 01:02:50,000

go into it yeah we'll go into some more

1765

01:02:52,710 --> 01:02:51,359

detail on that down the road though

1766

01:02:54,390 --> 01:02:52,720

wouldn't you think well we'll talk a

1767

01:02:54,870 --> 01:02:54,400

little bit more about that i agree um

1768

01:02:57,109 --> 01:02:54,880

there

1769

01:02:58,549 --> 01:02:57,119

are companies who are also i'm sure

1770

01:02:59,910 --> 01:02:58,559

they're out there okay i'm just saying

1771

01:03:02,630 --> 01:02:59,920

off top my head there

1772

01:03:03,430 --> 01:03:02,640

hopefully there are private or public

1773

01:03:06,309 --> 01:03:03,440

companies

1774

01:03:07,190 --> 01:03:06,319

willing to actually spend the money

1775

01:03:10,150 --> 01:03:07,200

which would take an

1776

01:03:10,870 --> 01:03:10,160

awful lot of money like quite a bit to

1777

01:03:13,910 --> 01:03:10,880

actually

1778

01:03:14,630 --> 01:03:13,920

try and uh grab materials off of

1779

01:03:17,029 --> 01:03:14,640

asteroids

1780

01:03:18,789 --> 01:03:17,039

which is a you know for asteroid mining

1781

01:03:21,349 --> 01:03:18,799

sure meteor

1782

01:03:21,910 --> 01:03:21,359

meters is very difficult thing to do and

1783

01:03:28,710 --> 01:03:21,920

uh

1784

01:03:29,990 --> 01:03:28,720

i'm just going to give a fictional

1785

01:03:33,190 --> 01:03:30,000

example here let's just say

1786

01:03:36,630 --> 01:03:33,200

bigelow is building uh some kind

1787

01:03:39,589 --> 01:03:36,640

of a structure that can be placed

1788

01:03:41,510 --> 01:03:39,599

on an asteroid for mining purposes and

1789

01:03:42,549 --> 01:03:41,520

then another company let's just i'm

1790

01:03:45,349 --> 01:03:42,559

making this up

1791

01:03:47,190 --> 01:03:45,359

richard branson's uh uh uh virgin

1792

01:03:48,069 --> 01:03:47,200

galactic virgin galactic which by the

1793

01:03:51,670 --> 01:03:48,079

way the ticker is

1794

01:03:53,990 --> 01:03:51,680

sp ce if you wanted to look that up

1795

01:03:55,589 --> 01:03:54,000

i think it's like under 30 right now

1796

01:03:58,390 --> 01:03:55,599

it's probably 28

1797

01:03:59,190 --> 01:03:58,400

or yeah it's about 28 something uh but

1798

01:04:02,390 --> 01:03:59,200

anyway uh

1799

01:04:04,630 --> 01:04:02,400

moving along let's just say that he

1800

01:04:05,750 --> 01:04:04,640

decided to go ahead and create some kind

1801

01:04:08,230 --> 01:04:05,760

of shuttle

1802

01:04:08,870 --> 01:04:08,240

or uh propulsion related device that

1803

01:04:12,309 --> 01:04:08,880

could actually

1804

01:04:14,309 --> 01:04:12,319

soar into space and somehow

1805

01:04:15,349 --> 01:04:14,319

some sort of a space bound glomar

1806

01:04:19,109 --> 01:04:15,359

explorer

1807

01:04:22,150 --> 01:04:19,119

end up near docked near that meteor

1808

01:04:25,109 --> 01:04:22,160

uh and and actually work in tandem with

1809

01:04:25,990 --> 01:04:25,119

various contractors or companies

1810

01:04:29,349 --> 01:04:26,000

whatever you want to call

1811

01:04:32,630 --> 01:04:29,359

them to somehow collectively gather

1812

01:04:35,829 --> 01:04:32,640

and grab really rare or

1813

01:04:36,789 --> 01:04:35,839

unknown material that we have never seen

1814

01:04:38,710 --> 01:04:36,799

before

1815

01:04:40,710 --> 01:04:38,720

uh so it would just be really

1816

01:04:43,910 --> 01:04:40,720

interesting because uh

1817

01:04:44,630 --> 01:04:43,920

supposedly that kind of industry would

1818

01:04:47,670 --> 01:04:44,640

be worth

1819

01:04:49,510 --> 01:04:47,680

trillions of dollars possibly based on

1820

01:04:52,230 --> 01:04:49,520

the value or the unknown

1821

01:04:53,589 --> 01:04:52,240

they could wrangle comets and asteroids

1822

01:04:55,990 --> 01:04:53,599

the way tsa

1823

01:04:57,750 --> 01:04:56,000

wrangled the defense contract now i did

1824

01:05:00,549 --> 01:04:57,760

want to bring up something that i find

1825

01:05:01,029 --> 01:05:00,559

fascinating okay thank you for using the

1826

01:05:02,630 --> 01:05:01,039

word brain

1827

01:05:03,910 --> 01:05:02,640

yeah i have to laugh at my own jokes

1828

01:05:05,270 --> 01:05:03,920

because i know you're not listening i

1829

01:05:07,430 --> 01:05:05,280

know you're not paying attention nothing

1830

01:05:08,150 --> 01:05:07,440

goes by me okay i'm just kidding but

1831

01:05:09,829 --> 01:05:08,160

anyway

1832

01:05:11,750 --> 01:05:09,839

uh what i was going to say that i just

1833

01:05:15,430 --> 01:05:11,760

found interesting is wouldn't it be

1834

01:05:18,549 --> 01:05:15,440

neat if a company was able to actually

1835

01:05:21,750 --> 01:05:18,559

accumulate some kind of

1836

01:05:23,270 --> 01:05:21,760

meta material that could be i don't know

1837

01:05:25,349 --> 01:05:23,280

how we would even know but e

1838

01:05:26,789 --> 01:05:25,359

of e.t origin again i don't know how we

1839

01:05:29,829 --> 01:05:26,799

would know that but

1840

01:05:33,109 --> 01:05:29,839

it would be really fascinating if we

1841

01:05:37,349 --> 01:05:33,119

found some material on meteor or meteor

1842

01:05:40,710 --> 01:05:37,359

meteors that would be so anomalous

1843

01:05:43,589 --> 01:05:40,720

that it would just be a

1844

01:05:45,829 --> 01:05:43,599

huge uh inspiration to the scientific

1845

01:05:47,270 --> 01:05:45,839

community to try and find out more about

1846

01:05:49,349 --> 01:05:47,280

you know some kind of interesting

1847

01:05:50,630 --> 01:05:49,359

material that has interesting properties

1848

01:05:53,430 --> 01:05:50,640

to it that would be

1849

01:05:54,950 --> 01:05:53,440

and it would also be equally interesting

1850

01:05:56,870 --> 01:05:54,960

if it could be connected

1851
01:05:59,109 --> 01:05:56,880
to something that was found here on

1852
01:06:00,549 --> 01:05:59,119
earth that appears to be of et origin

1853
01:06:02,870 --> 01:06:00,559
now that would be a big story

1854
01:06:03,670 --> 01:06:02,880
that would be a big story i'm getting

1855
01:06:05,270 --> 01:06:03,680
some echo

1856
01:06:07,109 --> 01:06:05,280
on your speakers that's just me

1857
01:06:09,589 --> 01:06:07,119
fantasizing about all that

1858
01:06:11,270 --> 01:06:09,599
about well i'm echoing i was echoing on

1859
01:06:13,750 --> 01:06:11,280
your speakers

1860
01:06:14,390 --> 01:06:13,760
okay so uh yeah and uh we probably

1861
01:06:16,069 --> 01:06:14,400
should do that

1862
01:06:18,150 --> 01:06:16,079
we should go into a lot more detail

1863
01:06:20,870 --> 01:06:18,160

about investment potential

1864

01:06:22,069 --> 01:06:20,880

uh regarding disclosure and future tech

1865

01:06:23,750 --> 01:06:22,079

and stuff like that that we should

1866

01:06:26,870 --> 01:06:23,760

probably spend some time on that

1867

01:06:28,390 --> 01:06:26,880

and i actually uh ran that idea by

1868

01:06:30,630 --> 01:06:28,400

somebody who thought it was a great idea

1869

01:06:33,109 --> 01:06:30,640

you want to guess who that was

1870

01:06:35,750 --> 01:06:33,119

okay so say that one part again i said i

1871

01:06:37,910 --> 01:06:35,760

actually ran this idea by someone

1872

01:06:39,270 --> 01:06:37,920

who got back to me and said hey that's a

1873

01:06:40,230 --> 01:06:39,280

great idea you want to guess who that

1874

01:06:52,549 --> 01:06:40,240

person was

1875

01:06:56,789 --> 01:06:55,589

yeah okay what did he have to say oh you

1876

01:06:58,230 --> 01:06:56,799

said it was a great idea

1877

01:06:59,910 --> 01:06:58,240

all right uh have we beaten this horse

1878

01:07:01,430 --> 01:06:59,920

to death yet we've gone over 50 minutes

1879

01:07:02,069 --> 01:07:01,440

of it and we still have two segments to

1880

01:07:05,430 --> 01:07:02,079

do

1881

01:07:06,789 --> 01:07:05,440

ahead and mention since we're already

1882

01:07:09,109 --> 01:07:06,799

over our time limit

1883

01:07:10,630 --> 01:07:09,119

limit the the monolith and it's going to

1884

01:07:12,390 --> 01:07:10,640

be very short because there's really not

1885

01:07:16,069 --> 01:07:12,400

much to say now look

1886

01:07:17,990 --> 01:07:16,079

all right yeah go ahead start talking

1887

01:07:20,069 --> 01:07:18,000

i'll get out of my system

1888

01:07:21,829 --> 01:07:20,079

like a few seconds here okay when the

1889

01:07:25,029 --> 01:07:21,839

monolith story came out

1890

01:07:28,069 --> 01:07:25,039

uh i just have to say i knew immediately

1891

01:07:31,029 --> 01:07:28,079

this was found art okay uh it

1892

01:07:31,990 --> 01:07:31,039

it it just to me it smacked of it did i

1893

01:07:34,549 --> 01:07:32,000

have proof of that

1894

01:07:36,309 --> 01:07:34,559

no i'm just going on intuition i it's

1895

01:07:38,150 --> 01:07:36,319

like a gut feeling i had i was like ah

1896

01:07:41,829 --> 01:07:38,160

this is this is found art

1897

01:07:42,549 --> 01:07:41,839

and i grew up uh being surrounded by art

1898

01:07:46,230 --> 01:07:42,559

and uh

1899

01:07:48,230 --> 01:07:46,240

it just it just just just having been

1900

01:07:49,270 --> 01:07:48,240

involved in the art world to the degree

1901

01:07:52,150 --> 01:07:49,280

i was

1902

01:07:54,549 --> 01:07:52,160

i just really felt like wow this this is

1903

01:07:56,870 --> 01:07:54,559

this looks to me to be art related

1904

01:07:58,710 --> 01:07:56,880

and especially after i found out after

1905

01:08:01,190 --> 01:07:58,720

having done research that there were

1906

01:08:02,230 --> 01:08:01,200

uh man-made parts to it that were

1907

01:08:04,710 --> 01:08:02,240

discovered

1908

01:08:05,829 --> 01:08:04,720

and uh it certainly didn't appear to be

1909

01:08:08,950 --> 01:08:05,839

of e.t

1910

01:08:10,789 --> 01:08:08,960

related origin to anybody now uh

1911

01:08:12,549 --> 01:08:10,799

disappeared obviously we all know that

1912

01:08:15,829 --> 01:08:12,559

and then apparently

1913

01:08:17,510 --> 01:08:15,839

there was a group that a day ago uh as

1914

01:08:20,950 --> 01:08:17,520

reported by the new york post

1915

01:08:22,709 --> 01:08:20,960

on december 5th uh that the mystery of

1916

01:08:24,149 --> 01:08:22,719

the monolith had been solved

1917

01:08:25,990 --> 01:08:24,159

i'm just going to read a little bit from

1918

01:08:28,309 --> 01:08:26,000

it that way we can just go ahead and

1919

01:08:29,990 --> 01:08:28,319

get over this topic it says the

1920

01:08:31,590 --> 01:08:30,000

community of artists known as the most

1921

01:08:33,349 --> 01:08:31,600

famous artist posted a photo of the

1922

01:08:34,630 --> 01:08:33,359

monolith on their instagram account

1923

01:08:37,269 --> 01:08:34,640

friday saying only

1924

01:08:38,149 --> 01:08:37,279

monolith a service dot com the photo of

1925

01:08:39,910 --> 01:08:38,159

the three-sided

1926

01:08:42,390 --> 01:08:39,920

metal monolith included specs of the

1927

01:08:44,630 --> 01:08:42,400

artwork noting authentic dimensions and

1928

01:08:46,470 --> 01:08:44,640

museum quality materials and it just

1929

01:08:47,269 --> 01:08:46,480

goes on to explain a little bit further

1930

01:08:49,349 --> 01:08:47,279

about it

1931

01:08:51,189 --> 01:08:49,359

and uh some kind of blockchain

1932

01:08:53,910 --> 01:08:51,199

certification of authenticity sign and

1933

01:08:55,990 --> 01:08:53,920

dated the most famous artist 2020

1934

01:08:57,590 --> 01:08:56,000

and uh i don't know maybe they're

1935

01:08:59,189 --> 01:08:57,600

selling this stuff now because it says

1936

01:08:59,749 --> 01:08:59,199

added delivery would take four to six

1937

01:09:01,510 --> 01:08:59,759

weeks i

1938

01:09:02,870 --> 01:09:01,520

i don't know look does it matter the

1939

01:09:05,910 --> 01:09:02,880

point here is

1940

01:09:07,430 --> 01:09:05,920

a group of artists claims uh that they

1941

01:09:09,590 --> 01:09:07,440

actually are responsible for it

1942

01:09:10,789 --> 01:09:09,600

do we know if that's true not

1943

01:09:14,789 --> 01:09:10,799

necessarily

1944

01:09:17,189 --> 01:09:14,799

however ultimately whether this group

1945

01:09:18,789 --> 01:09:17,199

created the monolith or not

1946

01:09:20,470 --> 01:09:18,799

and they're responsible for all the

1947

01:09:22,390 --> 01:09:20,480

other monoliths that are cropping up

1948

01:09:24,229 --> 01:09:22,400

worldwide

1949

01:09:25,590 --> 01:09:24,239

i just feel like this is not really an

1950

01:09:28,149 --> 01:09:25,600

et related story

1951

01:09:29,829 --> 01:09:28,159

but i don't have any forensic analysis

1952

01:09:32,789 --> 01:09:29,839

tangentially i mean

1953

01:09:33,269 --> 01:09:32,799

nobody i think uh seriously suspects

1954

01:09:37,669 --> 01:09:33,279

that

1955

01:09:40,470 --> 01:09:37,679

this is actually left there by e.t but

1956

01:09:40,950 --> 01:09:40,480

the thing is still pretty damn cool and

1957

01:09:45,590 --> 01:09:40,960

it is

1958

01:09:47,990 --> 01:09:45,600

the greatest films ever made

1959

01:09:51,430 --> 01:09:48,000

i mean you think about it 2001 a space

1960

01:09:53,110 --> 01:09:51,440

odyssey was made over 50 years ago

1961

01:09:54,709 --> 01:09:53,120

somebody plants something like this in

1962

01:09:57,110 --> 01:09:54,719

the middle of nowhere out in the

1963

01:09:58,950 --> 01:09:57,120

rocks in utah somewhere uh out in the

1964

01:10:00,709 --> 01:09:58,960

middle of nowhere very compelling sight

1965

01:10:03,990 --> 01:10:00,719

i mean i've got the picture up now

1966

01:10:04,950 --> 01:10:04,000

and uh it looks fantastic but the only

1967

01:10:07,590 --> 01:10:04,960

reason this got

1968

01:10:09,750 --> 01:10:07,600

so much attention is because of the

1969

01:10:12,870 --> 01:10:09,760

movie 2001 of space odyssey

1970

01:10:15,430 --> 01:10:12,880

which came out in 1968.

1971

01:10:15,990 --> 01:10:15,440

this is not only one of the best uh

1972

01:10:17,590 --> 01:10:16,000

sci-fi

1973

01:10:20,310 --> 01:10:17,600

movies ever made it's one of the best

1974

01:10:24,390 --> 01:10:20,320

movies ever made and this film

1975

01:10:26,070 --> 01:10:24,400

uh still it's such a compelling movie

1976

01:10:28,229 --> 01:10:26,080

that when somebody does something like

1977

01:10:28,790 --> 01:10:28,239

this it immediately gets international

1978

01:10:31,510 --> 01:10:28,800

attention

1979

01:10:32,390 --> 01:10:31,520

the new york times wrote an article

1980

01:10:34,870 --> 01:10:32,400

about

1981

01:10:35,910 --> 01:10:34,880

some guy who they they think possibly

1982

01:10:37,590 --> 01:10:35,920

might have been the guy

1983

01:10:39,030 --> 01:10:37,600

who was responsible for this you saw

1984

01:10:41,590 --> 01:10:39,040

that article

1985

01:10:42,550 --> 01:10:41,600

and uh yeah and also i just wanted to

1986

01:10:43,910 --> 01:10:42,560

try them in here and

1987

01:10:46,390 --> 01:10:43,920

because you know you and i talk every

1988

01:10:47,830 --> 01:10:46,400

day okay i just remember last night we

1989

01:10:49,750 --> 01:10:47,840

were talking about

1990

01:10:51,189 --> 01:10:49,760

this monolith and i asked you did you

1991

01:10:53,189 --> 01:10:51,199

read the uh arthur c

1992

01:10:54,630 --> 01:10:53,199

clarke book and because i i did it's

1993

01:10:57,510 --> 01:10:54,640

very slim book it's really

1994

01:10:59,030 --> 01:10:57,520

a wonderful uh story i was telling you a

1995

01:11:00,229 --> 01:10:59,040

very strange situation that occurred to

1996

01:11:01,590 --> 01:11:00,239

me while i was reading the book

1997

01:11:04,149 --> 01:11:01,600

i have somewhere i'm going with this by

1998

01:11:06,229 --> 01:11:04,159

the way and that is when i was reading

1999

01:11:08,310 --> 01:11:06,239

the book it seemed like time slowed down

2000

01:11:10,070 --> 01:11:08,320

it was the longest story i'd ever read

2001
01:11:12,310 --> 01:11:10,080
to this day it still seems that way even

2002
01:11:15,189 --> 01:11:12,320
though that book is one of the thinnest

2003
01:11:15,830 --> 01:11:15,199
it's like 190 pages yeah it's just a

2004
01:11:18,550 --> 01:11:15,840
tiny

2005
01:11:20,390 --> 01:11:18,560
story but it's just really i got so

2006
01:11:22,950 --> 01:11:20,400
involved in it for some reason it

2007
01:11:24,310 --> 01:11:22,960
it it made a big impact on me then i

2008
01:11:26,070 --> 01:11:24,320
asked you if you had read the story and

2009
01:11:27,590 --> 01:11:26,080
you said that you you spent a couple

2010
01:11:29,430 --> 01:11:27,600
hours last night reading it what were

2011
01:11:31,270 --> 01:11:29,440
your thoughts on that uh

2012
01:11:32,790 --> 01:11:31,280
i like the movie better to be honest

2013
01:11:34,709 --> 01:11:32,800

about it i love the movie

2014

01:11:35,990 --> 01:11:34,719

uh the book is fine and no problems with

2015

01:11:37,510 --> 01:11:36,000

it or anything like that

2016

01:11:39,110 --> 01:11:37,520

but the one thing we were talking about

2017

01:11:40,149 --> 01:11:39,120

before the show and i think it's very

2018

01:11:43,430 --> 01:11:40,159

interesting

2019

01:11:44,229 --> 01:11:43,440

the uh where uh dr floyd is going to the

2020

01:11:46,790 --> 01:11:44,239

moon

2021

01:11:48,149 --> 01:11:46,800

and uh to see what they actually had

2022

01:11:50,149 --> 01:11:48,159

uncovered out

2023

01:11:52,310 --> 01:11:50,159

not far from the clavius moon base they

2024

01:11:53,030 --> 01:11:52,320

had uncovered uh this monolith that

2025

01:11:54,870 --> 01:11:53,040

buried

2026

01:11:56,709 --> 01:11:54,880

underneath the ground and they had found

2027

01:11:58,790 --> 01:11:56,719

it through this uh

2028

01:12:00,390 --> 01:11:58,800

magnetic uh signal that it was giving

2029

01:12:00,790 --> 01:12:00,400

off and they they figured out what it

2030

01:12:02,790 --> 01:12:00,800

was

2031

01:12:03,990 --> 01:12:02,800

uh after digging down in there they

2032

01:12:05,189 --> 01:12:04,000

couldn't figure out what it was but it

2033

01:12:07,510 --> 01:12:05,199

was worth digging for

2034

01:12:09,510 --> 01:12:07,520

and it turned out that it was there but

2035

01:12:13,110 --> 01:12:09,520

they want because obviously

2036

01:12:15,830 --> 01:12:13,120

uh it was an extraterrestrial uh planted

2037

01:12:17,430 --> 01:12:15,840

uh a relic and they wanted to keep that

2038

01:12:18,790 --> 01:12:17,440

to themselves the americans did they

2039

01:12:22,229 --> 01:12:18,800

didn't want the news out

2040

01:12:24,149 --> 01:12:22,239

so they created a cover story

2041

01:12:25,669 --> 01:12:24,159

to keep people away from the clavus

2042

01:12:27,910 --> 01:12:25,679

base and

2043

01:12:28,709 --> 01:12:27,920

it's a very ironic chant what was that

2044

01:12:30,950 --> 01:12:28,719

cover story

2045

01:12:32,709 --> 01:12:30,960

we talked about it earlier today we did

2046

01:12:35,270 --> 01:12:32,719

but i'd like for you to mention it

2047

01:12:36,870 --> 01:12:35,280

okay can you talk about it it was an

2048

01:12:38,709 --> 01:12:36,880

epidemic that's supposedly

2049

01:12:40,950 --> 01:12:38,719

uh kind of ironic with what's going on

2050

01:12:42,709 --> 01:12:40,960

today but it was an epidemic

2051

01:12:45,350 --> 01:12:42,719

and that was the reason why the clavus

2052

01:12:46,790 --> 01:12:45,360

moon base was shut down a cover story a

2053

01:12:48,870 --> 01:12:46,800

complete lie of course

2054

01:12:50,149 --> 01:12:48,880

uh the the real reason being they found

2055

01:12:52,709 --> 01:12:50,159

the monolith but

2056

01:12:53,350 --> 01:12:52,719

uh it's interesting how you know 52 plus

2057

01:12:55,030 --> 01:12:53,360

years ago

2058

01:12:56,550 --> 01:12:55,040

hey that makes a pretty good cover story

2059

01:12:57,189 --> 01:12:56,560

an epidemic i thought that was really

2060

01:13:00,790 --> 01:12:57,199

interesting

2061

01:13:01,110 --> 01:13:00,800

and i've got i've got a poster now uh of

2062

01:13:06,790 --> 01:13:01,120

uh

2063

01:13:07,990 --> 01:13:06,800

and it's it's very interesting that a

2064

01:13:09,910 --> 01:13:08,000

lot of people

2065

01:13:11,750 --> 01:13:09,920

were when it was first released and

2066

01:13:13,590 --> 01:13:11,760

maybe still are don't really like the

2067

01:13:14,950 --> 01:13:13,600

movie don't warm up to it they kind of

2068

01:13:17,910 --> 01:13:14,960

don't get it

2069

01:13:19,669 --> 01:13:17,920

but the the tagline for the movie after

2070

01:13:22,470 --> 01:13:19,679

it had been released for a while

2071

01:13:24,950 --> 01:13:22,480

was the ultimate trip and you got to

2072

01:13:27,030 --> 01:13:24,960

think 1968 what were people doing

2073

01:13:28,149 --> 01:13:27,040

uh they were dropping acid and going and

2074

01:13:32,149 --> 01:13:28,159

seeing this movie

2075

01:13:33,750 --> 01:13:32,159

and whether by design or by accident uh

2076

01:13:35,990 --> 01:13:33,760

you know if you take your head of acid

2077

01:13:37,910 --> 01:13:36,000

when the movie begins uh you should be

2078

01:13:41,030 --> 01:13:37,920

peaking uh right around the time

2079

01:13:42,149 --> 01:13:41,040

of that third act the uh going through

2080

01:13:44,470 --> 01:13:42,159

the stargate so

2081

01:13:45,189 --> 01:13:44,480

we wouldn't know we wouldn't know uh

2082

01:13:47,350 --> 01:13:45,199

well

2083

01:13:49,030 --> 01:13:47,360

i saw the movie for the first time when

2084

01:13:49,590 --> 01:13:49,040

i was eight in the theater so i i didn't

2085

01:13:51,110 --> 01:13:49,600

know that

2086

01:13:52,630 --> 01:13:51,120

but uh i know what they're talking about

2087

01:13:54,390 --> 01:13:52,640

now and in fact uh

2088

01:13:56,709 --> 01:13:54,400

the the film was very popular he did a

2089

01:13:59,270 --> 01:13:56,719

lot of it did did a great business

2090

01:14:00,790 --> 01:13:59,280

and uh it you know people who love it

2091

01:14:02,709 --> 01:14:00,800

love it not everybody does

2092

01:14:04,790 --> 01:14:02,719

uh some people just don't warm up to it

2093

01:14:06,470 --> 01:14:04,800

it's a different kind of movie obviously

2094

01:14:08,310 --> 01:14:06,480

it's a it's a trip movie you just kind

2095

01:14:09,750 --> 01:14:08,320

of just sit back and you look at it

2096

01:14:11,430 --> 01:14:09,760

and you listen to the little bits of

2097

01:14:13,830 --> 01:14:11,440

dialogue there's not a whole lot

2098

01:14:15,110 --> 01:14:13,840

it's mostly a visual experience and

2099

01:14:16,950 --> 01:14:15,120

that's really what it is

2100

01:14:18,470 --> 01:14:16,960

and it is uh for my money one of the

2101

01:14:21,270 --> 01:14:18,480

best movies ever made

2102

01:14:23,110 --> 01:14:21,280

and it is still i i hold this movie in

2103

01:14:25,990 --> 01:14:23,120

higher esteem than movies like

2104

01:14:26,550 --> 01:14:26,000

close encounters or contact it is uh the

2105

01:14:29,590 --> 01:14:26,560

sort of the

2106

01:14:32,470 --> 01:14:29,600

the ultimate uh the ultimate uh

2107

01:14:33,910 --> 01:14:32,480

contact movie and uh the reason being is

2108

01:14:35,830 --> 01:14:33,920

it is ambiguous and

2109

01:14:37,910 --> 01:14:35,840

uh it is weird and it doesn't entirely

2110

01:14:39,350 --> 01:14:37,920

make sense just kind of like what we're

2111

01:14:41,350 --> 01:14:39,360

going through right now is we try to

2112

01:14:44,790 --> 01:14:41,360

follow this ufo thing

2113

01:14:47,910 --> 01:14:44,800

right all well stated i agree

2114

01:14:50,550 --> 01:14:47,920

very good observations so do you have

2115

01:14:52,390 --> 01:14:50,560

anything else on 2001 i just you know

2116

01:14:55,110 --> 01:14:52,400

nobody seriously thought that

2117

01:14:56,709 --> 01:14:55,120

this was any kind of e.t relic but just

2118

01:14:59,510 --> 01:14:56,719

the power of that movie

2119

01:15:01,350 --> 01:14:59,520

uh got that uh that little art

2120

01:15:02,310 --> 01:15:01,360

installation worldwide attention i think

2121

01:15:03,669 --> 01:15:02,320

it's a great thing

2122

01:15:06,310 --> 01:15:03,679

and there's some people who've maybe

2123

01:15:07,990 --> 01:15:06,320

they've never seen 2001 at space odyssey

2124

01:15:09,669 --> 01:15:08,000

give it a look give it a shot you might

2125

01:15:13,030 --> 01:15:09,679

like it you might not but

2126

01:15:15,189 --> 01:15:13,040

give it a try i agree

2127

01:15:16,070 --> 01:15:15,199

um and actually it's funny i'm over here

2128

01:15:18,229 --> 01:15:16,080

saying i agree

2129

01:15:19,270 --> 01:15:18,239

all great points not something i tell

2130

01:15:21,910 --> 01:15:19,280

you all the time

2131

01:15:23,189 --> 01:15:21,920

no i know you usually never tell me that

2132

01:15:24,070 --> 01:15:23,199

but we talked about this one a little

2133

01:15:25,669 --> 01:15:24,080

bit before the show

2134

01:15:28,390 --> 01:15:25,679

so i think that we pretty much were on

2135

01:15:31,750 --> 01:15:28,400

the same and i was actually fascinated

2136

01:15:34,790 --> 01:15:31,760

uh maybe overly so that you were not

2137

01:15:35,350 --> 01:15:34,800

as entranced and entrenched and involved

2138

01:15:38,550 --> 01:15:35,360

in that

2139

01:15:40,390 --> 01:15:38,560

tiny little book as i was i was very

2140

01:15:40,870 --> 01:15:40,400

surprised that it was not as impressive

2141

01:15:45,350 --> 01:15:40,880

to you

2142

01:15:47,350 --> 01:15:45,360

yeah you know i i just got used to the

2143

01:15:49,110 --> 01:15:47,360

uh we we've talked about other books

2144

01:15:50,070 --> 01:15:49,120

that the movies were based on and back

2145

01:15:53,030 --> 01:15:50,080

and forth

2146

01:15:54,070 --> 01:15:53,040

not necessarily ufo related but uh this

2147

01:15:57,270 --> 01:15:54,080

was one that

2148

01:15:58,470 --> 01:15:57,280

yeah i mean it was okay but the for me

2149

01:16:00,630 --> 01:15:58,480

the movie is the thing

2150

01:16:02,550 --> 01:16:00,640

i don't know it's just because it's such

2151
01:16:04,790 --> 01:16:02,560
a visual experience you know and there

2152
01:16:05,990 --> 01:16:04,800
there are no words i i mean the all the

2153
01:16:08,950 --> 01:16:06,000
dial you look at

2154
01:16:10,709 --> 01:16:08,960
the text of that book 192 pages but if

2155
01:16:11,510 --> 01:16:10,719
you've got a script with just the

2156
01:16:13,189 --> 01:16:11,520
dialogue

2157
01:16:15,110 --> 01:16:13,199
might go you probably get you probably

2158
01:16:17,669 --> 01:16:15,120
fit it on five pages

2159
01:16:18,310 --> 01:16:17,679
you know right this is not that much

2160
01:16:20,390 --> 01:16:18,320
it's a

2161
01:16:21,910 --> 01:16:20,400
just a different kind of experience and

2162
01:16:24,229 --> 01:16:21,920
a different kind of movie

2163
01:16:25,590 --> 01:16:24,239

so yeah let's go let's go on get on to

2164

01:16:27,189 --> 01:16:25,600

our last topic okay

2165

01:16:28,950 --> 01:16:27,199

okay because we've been rolling for a

2166

01:16:30,390 --> 01:16:28,960

while here let me uh let me make some

2167

01:16:33,350 --> 01:16:30,400

adjustments

2168

01:16:35,030 --> 01:16:33,360

we have been we have that uh that uh

2169

01:16:35,590 --> 01:16:35,040

that myself stuff took a little bit

2170

01:16:38,950 --> 01:16:35,600

longer

2171

01:16:40,470 --> 01:16:38,960

make some changes here

2172

01:16:42,470 --> 01:16:40,480

oh yeah i mean i still have another

2173

01:16:44,229 --> 01:16:42,480

point to make about it but i'll drop it

2174

01:16:45,510 --> 01:16:44,239

uh well i don't know why don't you make

2175

01:16:47,430 --> 01:16:45,520

the point while i'm changing up some

2176

01:16:49,750 --> 01:16:47,440

visuals okay sure yeah i will

2177

01:16:51,750 --> 01:16:49,760

um so uh what i didn't actually finish

2178

01:16:53,270 --> 01:16:51,760

saying is uh his last sentence regarding

2179

01:16:55,910 --> 01:16:53,280

a certain paragraph i read which was

2180

01:16:59,110 --> 01:16:55,920

related to the linda molten how 35 grand

2181

01:17:01,350 --> 01:16:59,120

topic of materials is he says

2182

01:17:02,790 --> 01:17:01,360

a major science museum would pay

2183

01:17:05,110 --> 01:17:02,800

millions okay

2184

01:17:07,189 --> 01:17:05,120

i'm going to go ahead and take that

2185

01:17:09,990 --> 01:17:07,199

sentence to task

2186

01:17:12,229 --> 01:17:10,000

that claim there cannot be proven i'll

2187

01:17:14,070 --> 01:17:12,239

tell you why

2188

01:17:15,270 --> 01:17:14,080

you would have to call up a science

2189

01:17:17,669 --> 01:17:15,280

museum and ask them

2190

01:17:18,310 --> 01:17:17,679

hey do you have this kind of budget to

2191

01:17:20,709 --> 01:17:18,320

pay for

2192

01:17:21,510 --> 01:17:20,719

a certain kind of thing like meta

2193

01:17:24,630 --> 01:17:21,520

materials

2194

01:17:27,189 --> 01:17:24,640

let me explain something not all museums

2195

01:17:27,990 --> 01:17:27,199

have millions of dollars in their budget

2196

01:17:30,709 --> 01:17:28,000

to spend

2197

01:17:31,669 --> 01:17:30,719

on anything and if you don't believe me

2198

01:17:34,390 --> 01:17:31,679

look it up

2199

01:17:36,550 --> 01:17:34,400

i looked it up uh that's just not

2200

01:17:37,189 --> 01:17:36,560

something that they uh can just like you

2201

01:17:39,189 --> 01:17:37,199

know

2202

01:17:40,550 --> 01:17:39,199

they can throw around money-wise like

2203

01:17:41,430 --> 01:17:40,560

their budget they can't just throw their

2204

01:17:43,189 --> 01:17:41,440

budget around

2205

01:17:44,870 --> 01:17:43,199

if they have millions of dollars it's

2206

01:17:47,430 --> 01:17:44,880

all dedicated to

2207

01:17:49,270 --> 01:17:47,440

very specific things and there's people

2208

01:17:50,470 --> 01:17:49,280

that have to agree to all that regarding

2209

01:17:53,750 --> 01:17:50,480

uh that being

2210

01:17:54,550 --> 01:17:53,760

decisions on what to uh to accumulate or

2211

01:17:57,030 --> 01:17:54,560

buy

2212

01:17:58,149 --> 01:17:57,040

and and even then it's a huge

2213

01:18:00,790 --> 01:17:58,159

bureaucratic process

2214

01:18:02,149 --> 01:18:00,800

okay so i mean the simple is the simpler

2215

01:18:03,910 --> 01:18:02,159

process there's a very wealthy

2216

01:18:07,350 --> 01:18:03,920

individual purchasing and then

2217

01:18:09,669 --> 01:18:07,360

sure that's absolutely true they can

2218

01:18:11,590 --> 01:18:09,679

turn to patrons wealthy patrons

2219

01:18:12,950 --> 01:18:11,600

and ask them hey you know we we do have

2220

01:18:14,870 --> 01:18:12,960

a budget but we'd rather

2221

01:18:16,870 --> 01:18:14,880

it spend it on something else we've

2222

01:18:19,750 --> 01:18:16,880

dedicated our our hearts

2223

01:18:20,390 --> 01:18:19,760

to and uh we want to spend money on this

2224

01:18:21,910 --> 01:18:20,400

other item

2225

01:18:23,510 --> 01:18:21,920

would you be willing to pitch in and buy

2226

01:18:26,870 --> 01:18:23,520

this that that happens

2227

01:18:28,390 --> 01:18:26,880

all of the time um so uh again that

2228

01:18:29,189 --> 01:18:28,400

stuff you can look up it's it's

2229

01:18:31,510 --> 01:18:29,199

verifiable

2230

01:18:32,550 --> 01:18:31,520

now to say a major science museum would

2231

01:18:34,950 --> 01:18:32,560

pay millions

2232

01:18:36,550 --> 01:18:34,960

to say something like that without

2233

01:18:39,430 --> 01:18:36,560

having any verification

2234

01:18:41,030 --> 01:18:39,440

of it tells me that he's basically

2235

01:18:44,790 --> 01:18:41,040

saying stuff

2236

01:18:47,430 --> 01:18:44,800

to uh back up more innuendos

2237

01:18:48,149 --> 01:18:47,440

that cannot be proven i just really feel

2238

01:18:50,870 --> 01:18:48,159

like

2239

01:18:52,709 --> 01:18:50,880

what he's doing here in in this regard

2240

01:18:54,390 --> 01:18:52,719

regarding this particular paragraph i'm

2241

01:18:58,149 --> 01:18:54,400

bringing up of his article

2242

01:19:01,350 --> 01:18:58,159

is it's like he's trying to really have

2243

01:19:04,709 --> 01:19:01,360

a very negative light cast upon

2244

01:19:07,270 --> 01:19:04,719

that topic without facts to back it

2245

01:19:07,990 --> 01:19:07,280

up and i've already stated what i said

2246

01:19:09,669 --> 01:19:08,000

uh

2247

01:19:10,950 --> 01:19:09,679

how i feel about the linna molten howe

2248

01:19:12,870 --> 01:19:10,960

aspect i just think that's very

2249

01:19:14,709 --> 01:19:12,880

unfortunate at her expense

2250

01:19:16,709 --> 01:19:14,719

it's just it's not it's just not a fair

2251

01:19:18,310 --> 01:19:16,719

thing to do to her there you go and now

2252

01:19:19,990 --> 01:19:18,320

you know a museum would be a lot more

2253

01:19:21,030 --> 01:19:20,000

likely to spend a lot more money than

2254

01:19:25,430 --> 01:19:21,040

that on

2255

01:19:27,990 --> 01:19:25,440

the work of sai twombly you know

2256

01:19:29,990 --> 01:19:28,000

i won't go into it okay but i probably

2257

01:19:32,630 --> 01:19:30,000

shouldn't have even said that as a joke

2258

01:19:33,030 --> 01:19:32,640

yeah because because because i know that

2259

01:19:37,270 --> 01:19:33,040

you're

2260

01:19:39,189 --> 01:19:37,280

to houston to go see

2261

01:19:40,390 --> 01:19:39,199

uh to the mental museum to go see their

2262

01:19:40,950 --> 01:19:40,400

exhibit that they had some kind of

2263

01:19:42,950 --> 01:19:40,960

permanent

2264

01:19:44,870 --> 01:19:42,960

exhibit there with too many artists to

2265

01:19:47,910 --> 01:19:44,880

mention here okay there's a minimalist

2266

01:19:49,430 --> 01:19:47,920

exhibition and right next to size work

2267

01:19:51,030 --> 01:19:49,440

is minimal that's for sure

2268

01:19:52,470 --> 01:19:51,040

right and right next to it like

2269

01:19:53,990 --> 01:19:52,480

literally within walking distance was

2270

01:19:55,590 --> 01:19:54,000

the scythwombly uh

2271

01:19:57,270 --> 01:19:55,600

museum or whatever you want to call it

2272

01:19:59,510 --> 01:19:57,280

okay it was a a

2273

01:20:01,189 --> 01:19:59,520

lot of installations of his artwork in

2274

01:20:02,470 --> 01:20:01,199

there and uh

2275

01:20:04,390 --> 01:20:02,480

you just walk around looking at

2276

01:20:06,470 --> 01:20:04,400

chalkboards and these very strange

2277

01:20:07,990 --> 01:20:06,480

organic looking objects in the middle of

2278

01:20:08,790 --> 01:20:08,000

the hallways and stuff while you're

2279

01:20:11,590 --> 01:20:08,800

walking

2280

01:20:11,910 --> 01:20:11,600

all of his it was all his stuff and look

2281

01:20:29,430 --> 01:20:11,920

i

2282

01:20:31,669 --> 01:20:29,440

was about say mark rothko's

2283

01:20:33,430 --> 01:20:31,679

minimalist artwork that really even

2284

01:20:34,229 --> 01:20:33,440

though a lot of people might look at his

2285

01:20:36,709 --> 01:20:34,239

artwork and go

2286

01:20:37,830 --> 01:20:36,719

i'm just looking at a canvas that's

2287

01:20:39,350 --> 01:20:37,840

painted black

2288

01:20:40,950 --> 01:20:39,360

what is that supposed to mean it doesn't

2289

01:20:43,990 --> 01:20:40,960

mean anything to me but

2290

01:20:45,669 --> 01:20:44,000

for some people they do like rothko's

2291

01:20:47,830 --> 01:20:45,679

work say as opposed to

2292

01:20:49,669 --> 01:20:47,840

sai tumbles which is a lot of chicken

2293

01:20:50,390 --> 01:20:49,679

scratches on chalkboard basically yeah

2294

01:20:54,709 --> 01:20:50,400

it's crap

2295

01:20:56,550 --> 01:20:54,719

a it's a scam

2296

01:20:59,030 --> 01:20:56,560

it's a scam a lot of contemporary arts

2297

01:21:01,910 --> 01:20:59,040

it's a scam

2298

01:21:02,229 --> 01:21:01,920

there i said it did you yeah i just said

2299

01:21:04,629 --> 01:21:02,239

it

2300

01:21:06,790 --> 01:21:04,639

a lot of contemporary art is just a scam

2301

01:21:08,790 --> 01:21:06,800

i can't physically kick you in the shin

2302

01:21:09,990 --> 01:21:08,800

right now over that so i'll just have to

2303

01:21:13,110 --> 01:21:10,000

accept you said that

2304

01:21:15,430 --> 01:21:13,120

okay yeah you can criticize me for it

2305

01:21:16,709 --> 01:21:15,440

yeah well i'd rather click you in this

2306

01:21:18,709 --> 01:21:16,719

channel

2307

01:21:20,709 --> 01:21:18,719

okay now let's get to our last thing

2308

01:21:23,510 --> 01:21:20,719

here let's get to our last thing

2309

01:21:24,229 --> 01:21:23,520

and that is uh former president obama

2310

01:21:26,950 --> 01:21:24,239

was

2311

01:21:27,990 --> 01:21:26,960

uh interviewed by stephen colbert uh

2312

01:21:30,310 --> 01:21:28,000

this past week

2313

01:21:31,030 --> 01:21:30,320

and of course colbert did decide to go

2314

01:21:33,110 --> 01:21:31,040

ahead

2315

01:21:34,229 --> 01:21:33,120

and ask the ufo question you're not

2316

01:21:36,229 --> 01:21:34,239

going to be able to hear this

2317

01:21:38,310 --> 01:21:36,239

but i'm sure you've heard it already

2318

01:21:40,830 --> 01:21:38,320

it's a very short segment so i'm just

2319

01:21:47,189 --> 01:21:40,840

going to play that audio hang on a sec

2320

01:21:50,790 --> 01:21:50,070

prying information out of the bowels of

2321

01:21:53,669 --> 01:21:50,800

an agency

2322

01:21:55,030 --> 01:21:53,679

uh can can be challenging ufos any ufos

2323

01:21:57,430 --> 01:21:55,040

did you ask about that

2324

01:21:59,189 --> 01:21:57,440

certainly asked about it and i can't

2325

01:22:01,510 --> 01:21:59,199

tell you

2326

01:22:02,629 --> 01:22:01,520

sorry okay all right i'll take that as a

2327

01:22:03,750 --> 01:22:02,639

yes

2328

01:22:05,830 --> 01:22:03,760

because if there were nothing i'd say

2329

01:22:06,709 --> 01:22:05,840

there was none right you just played

2330

01:22:08,149 --> 01:22:06,719

your hand

2331

01:22:10,470 --> 01:22:08,159

i thought you were a poker player you

2332

01:22:14,790 --> 01:22:10,480

just 100 percent showed your river card

2333

01:22:18,709 --> 01:22:16,550

that's so much dirt that makes me happy

2334

01:22:19,590 --> 01:22:18,719

to thank you tell me about can i say it

2335

01:22:22,709 --> 01:22:19,600

used to be

2336

01:22:24,550 --> 01:22:22,719

that ufos was the uh and uh what is it

2337

01:22:27,110 --> 01:22:24,560

roswell was the biggest conspiracy

2338

01:22:28,790 --> 01:22:27,120

yeah and now that seems so tame right

2339

01:22:30,550 --> 01:22:28,800

right the idea that right

2340

01:22:32,870 --> 01:22:30,560

the government might have an alien

2341

01:22:36,229 --> 01:22:32,880

spaceship that's now the biggest

2342

01:22:38,470 --> 01:22:36,239

conspiracy is people in michigan vote

2343

01:22:40,790 --> 01:22:38,480

okay so there's that basically colbert

2344

01:22:41,590 --> 01:22:40,800

asked him about ufos he said he did ask

2345

01:22:43,430 --> 01:22:41,600

about them

2346

01:22:44,790 --> 01:22:43,440

and that he can't reveal uh what he

2347

01:22:46,629 --> 01:22:44,800

found out so uh

2348

01:22:48,470 --> 01:22:46,639

that's basically it it is interesting

2349

01:22:48,950 --> 01:22:48,480

that four years removed from office he's

2350

01:22:51,830 --> 01:22:48,960

staying

2351
01:22:52,870 --> 01:22:51,840
awfully close-lipped about it whereas uh

2352
01:22:54,550 --> 01:22:52,880
current president

2353
01:22:56,870 --> 01:22:54,560
donald trump has been asked a number of

2354
01:22:59,110 --> 01:22:56,880
times and he said things like

2355
01:23:00,550 --> 01:22:59,120
uh well uh you know he should be more

2356
01:23:03,030 --> 01:23:00,560
transparent maybe i'll

2357
01:23:04,790 --> 01:23:03,040
uh declassify some things he's gone uh

2358
01:23:06,950 --> 01:23:04,800
further than obama did there

2359
01:23:07,830 --> 01:23:06,960
uh kind of interesting not too much to

2360
01:23:10,390 --> 01:23:07,840
say about it

2361
01:23:10,950 --> 01:23:10,400
except obviously things are a bit messy

2362
01:23:13,189 --> 01:23:10,960
now

2363
01:23:13,990 --> 01:23:13,199

it looked like we had a smooth sailing

2364

01:23:17,430 --> 01:23:14,000

to a

2365

01:23:19,830 --> 01:23:17,440

a public uh uh uap

2366

01:23:21,750 --> 01:23:19,840

task force report coming out within a

2367

01:23:24,070 --> 01:23:21,760

reasonable time frame and it looks like

2368

01:23:25,510 --> 01:23:24,080

that has all gone kablooey uh frankly

2369

01:23:28,229 --> 01:23:25,520

i'd like to uh

2370

01:23:29,430 --> 01:23:28,239

going into uh what all has uh gone wrong

2371

01:23:32,149 --> 01:23:29,440

with all that uh

2372

01:23:34,310 --> 01:23:32,159

uh i'll table that to another time

2373

01:23:35,590 --> 01:23:34,320

because uh we certainly uh covered a lot

2374

01:23:38,070 --> 01:23:35,600

of ground here when a good

2375

01:23:39,830 --> 01:23:38,080

hour and 20 minutes on everything so uh

2376

01:23:41,590 --> 01:23:39,840

yeah if you've got anything else

2377

01:23:43,510 --> 01:23:41,600

uh i'd like to wrap up but if you got

2378

01:23:46,149 --> 01:23:43,520

anything what do you got

2379

01:23:47,830 --> 01:23:46,159

okay thank you i am going to have an end

2380

01:23:49,110 --> 01:23:47,840

of the year show on the chant hannah

2381

01:23:50,629 --> 01:23:49,120

show and i just want to explain

2382

01:23:52,149 --> 01:23:50,639

something to listeners because sometimes

2383

01:23:54,229 --> 01:23:52,159

i get asked this question

2384

01:23:55,590 --> 01:23:54,239

and i can understand why uh people are

2385

01:23:55,990 --> 01:23:55,600

like i don't understand you have your

2386

01:24:00,070 --> 01:23:56,000

show

2387

01:24:03,590 --> 01:24:00,080

i let me explain that

2388

01:24:04,790 --> 01:24:03,600

yes i do have my own show i do have my

2389

01:24:08,070 --> 01:24:04,800

own channel

2390

01:24:09,590 --> 01:24:08,080

however um i have not opened up my

2391

01:24:12,310 --> 01:24:09,600

channel yet although i do

2392

01:24:14,629 --> 01:24:12,320

have my interviews i have done i have

2393

01:24:18,070 --> 01:24:14,639

not uploaded all of them to that channel

2394

01:24:20,149 --> 01:24:18,080

yet which i will um and i do have the

2395

01:24:22,229 --> 01:24:20,159

the technical capability of being able

2396

01:24:23,270 --> 01:24:22,239

to do my own show now i do want to

2397

01:24:26,310 --> 01:24:23,280

explain everybody

2398

01:24:28,550 --> 01:24:26,320

look frank stalter is

2399

01:24:29,510 --> 01:24:28,560

he's like one of my best friends of of

2400

01:24:32,870 --> 01:24:29,520

all time okay

2401

01:24:33,510 --> 01:24:32,880

we're very close and i thoroughly enjoy

2402

01:24:36,709 --> 01:24:33,520

doing

2403

01:24:39,030 --> 01:24:36,719

youfun the ufo news network sunday show

2404

01:24:39,990 --> 01:24:39,040

it's just really important to me to to

2405

01:24:42,790 --> 01:24:40,000

do that

2406

01:24:43,990 --> 01:24:42,800

so i do two shows i actually have been

2407

01:24:46,070 --> 01:24:44,000

very busy doing my own

2408

01:24:47,350 --> 01:24:46,080

interviews although i have not uploaded

2409

01:24:50,950 --> 01:24:47,360

them to my channel

2410

01:24:53,910 --> 01:24:50,960

i will but i do yes i do have my own

2411

01:24:55,110 --> 01:24:53,920

chant hannah show and i will be doing an

2412

01:24:58,070 --> 01:24:55,120

end of the year

2413

01:24:59,510 --> 01:24:58,080

show with quite a few guests that are

2414

01:25:01,910 --> 01:24:59,520

known worldwide

2415

01:25:02,709 --> 01:25:01,920

and folks that frank and i have

2416

01:25:05,669 --> 01:25:02,719

interviewed

2417

01:25:07,030 --> 01:25:05,679

multiple times and that will be on

2418

01:25:10,070 --> 01:25:07,040

december 13th

2419

01:25:13,990 --> 01:25:10,080

at 4 p.m pacific time

2420

01:25:15,750 --> 01:25:14,000

and uh uh so basically i just wanted to

2421

01:25:17,669 --> 01:25:15,760

let everybody know about that

2422

01:25:19,830 --> 01:25:17,679

and uh also i just want to thank

2423

01:25:21,590 --> 01:25:19,840

everybody for listening to ufo the ufo

2424

01:25:23,910 --> 01:25:21,600

news network sunday because frank has

2425

01:25:26,629 --> 01:25:23,920

worked very very hard on his channel

2426
01:25:27,430 --> 01:25:26,639
and he has gotten some a really amazing

2427
01:25:29,110 --> 01:25:27,440
guest

2428
01:25:30,550 --> 01:25:29,120
and it's just a privilege to be able to

2429
01:25:32,229 --> 01:25:30,560
be on this show with him

2430
01:25:34,629 --> 01:25:32,239
so i'm very thrilled to be here as his

2431
01:25:36,470 --> 01:25:34,639
co-host so thanks thanks and this was a

2432
01:25:37,110 --> 01:25:36,480
fun show to do we got to kind of hang

2433
01:25:40,149 --> 01:25:37,120
out

2434
01:25:42,629 --> 01:25:40,159
news and

2435
01:25:43,270 --> 01:25:42,639
we certainly felt plenty of time though

2436
01:25:45,430 --> 01:25:43,280
there was no

2437
01:25:47,350 --> 01:25:45,440
shortage there sometimes uh when i would

2438
01:25:48,550 --> 01:25:47,360

do these shows on my own maybe it would

2439

01:25:51,430 --> 01:25:48,560

be a half hour

2440

01:25:52,870 --> 01:25:51,440

40 minutes maybe but we went a good long

2441

01:25:54,470 --> 01:25:52,880

time because we talked about a lot of

2442

01:25:56,229 --> 01:25:54,480

different things and

2443

01:25:58,790 --> 01:25:56,239

uh the news really dropped this week

2444

01:26:02,390 --> 01:25:58,800

we'll do these when the news warrants it

2445

01:26:04,149 --> 01:26:02,400

and plug in some uh you know more

2446

01:26:05,910 --> 01:26:04,159

feature related interviews uh

2447

01:26:07,430 --> 01:26:05,920

uh one of the things are a little slower

2448

01:26:10,950 --> 01:26:07,440

when they come up so

2449

01:26:14,229 --> 01:26:10,960

yeah i mean we've got a a platform built

2450

01:26:16,870 --> 01:26:14,239

i've got mine chant has hers and we

2451

01:26:18,229 --> 01:26:16,880

are always kicking around ideas and

2452

01:26:20,390 --> 01:26:18,239

possibilities and

2453

01:26:22,470 --> 01:26:20,400

things to do potentially and a lot of

2454

01:26:24,709 --> 01:26:22,480

times we get those things done

2455

01:26:26,790 --> 01:26:24,719

and uh it's been it's been a great

2456

01:26:28,709 --> 01:26:26,800

experience i'm coming up on uh

2457

01:26:30,310 --> 01:26:28,719

this spring it'll be three years since i

2458

01:26:32,390 --> 01:26:30,320

started doing this thing it doesn't seem

2459

01:26:35,669 --> 01:26:32,400

like it time has really flown along

2460

01:26:36,149 --> 01:26:35,679

and uh two years since you started doing

2461

01:26:38,310 --> 01:26:36,159

it

2462

01:26:39,189 --> 01:26:38,320

yeah and you have created an amazing

2463

01:26:41,430 --> 01:26:39,199

channel and

2464

01:26:43,430 --> 01:26:41,440

i really recommend okay everybody do

2465

01:26:45,350 --> 01:26:43,440

this please when you go on frank's

2466

01:26:46,390 --> 01:26:45,360

channel you found the ufo news network

2467

01:26:49,030 --> 01:26:46,400

sunday

2468

01:26:50,310 --> 01:26:49,040

scroll down just scroll down oh yeah you

2469

01:26:52,870 --> 01:26:50,320

got to click on the videos

2470

01:26:55,270 --> 01:26:52,880

the video's done yeah just scroll down

2471

01:26:57,910 --> 01:26:55,280

at the very beginning of the beginning

2472

01:26:59,030 --> 01:26:57,920

of the the inception of the show and

2473

01:27:01,750 --> 01:26:59,040

when frank started

2474

01:27:03,669 --> 01:27:01,760

actually finding all these amazing

2475

01:27:05,430 --> 01:27:03,679

people to interview if you just scroll

2476

01:27:06,470 --> 01:27:05,440

all the way down it only takes a tenth

2477

01:27:10,229 --> 01:27:06,480

of a second

2478

01:27:11,189 --> 01:27:10,239

you will see just uh some amazing guests

2479

01:27:13,030 --> 01:27:11,199

and i would

2480

01:27:14,390 --> 01:27:13,040

you know since we have all this time due

2481

01:27:16,229 --> 01:27:14,400

to the pandemic

2482

01:27:17,510 --> 01:27:16,239

listen to the shows yeah play them in

2483

01:27:20,709 --> 01:27:17,520

the background while you're

2484

01:27:22,709 --> 01:27:20,719

uh doing your exercises you know yeah

2485

01:27:24,709 --> 01:27:22,719

so there's that all right so uh yeah

2486

01:27:26,550 --> 01:27:24,719

let's uh let's get this over with i've

2487

01:27:29,350 --> 01:27:26,560

got some post-production work to do

2488

01:27:31,189 --> 01:27:29,360

and uh this show will probably be up uh

2489

01:27:32,390 --> 01:27:31,199

well in a couple hours but that doesn't

2490

01:27:33,750 --> 01:27:32,400

people won't be able to listen to it

2491

01:27:35,110 --> 01:27:33,760

until it's already up so that doesn't

2492

01:27:37,910 --> 01:27:35,120

mean anything to you folks

2493

01:27:39,669 --> 01:27:37,920

but uh yeah and also uh for me

2494

01:27:41,189 --> 01:27:39,679

personally uh within the next couple

2495

01:27:41,590 --> 01:27:41,199

weeks it's going to be holiday break

2496

01:27:43,669 --> 01:27:41,600

time

2497

01:27:45,750 --> 01:27:43,679

so i expect that we'll be able to do a

2498

01:27:47,110 --> 01:27:45,760

little bit more would like to

2499

01:27:49,510 --> 01:27:47,120

i would like to do an end of the year

2500

01:27:50,390 --> 01:27:49,520

show with you yep yep yep we'll be able

2501

01:27:52,470 --> 01:27:50,400

to get that done

2502

01:27:54,070 --> 01:27:52,480

okay so uh yeah have a great week

2503

01:27:56,790 --> 01:27:54,080

everybody as we get closer and

2504

01:27:57,110 --> 01:27:56,800

getting this uh crappy 2020 behind us

2505

01:27:58,950 --> 01:27:57,120

and

2506

01:28:00,629 --> 01:27:58,960

hopefully a much better year next year

2507

01:28:01,830 --> 01:28:00,639

so you have a great week everybody
