

FRANC MILBURN

DISCUSSES HIS RECENT STUDY ON UFOS FOR THE BEGIN-SADAT CENTER FOR STRATEGIC STUDIES, THE FORMER HEAD OF ISRAEL'S DEFENSE MINISTRY'S SPACE DIRECTORATE'S RECENT COMMENTS ON UFOS AND EVERYTHING ELSE GOING ON IN THE WORLD OF UFOS

UFONN
SUNDAY

1
00:00:28,830 --> 00:00:16,450

[Music]

2
00:01:01,270 --> 00:00:31,000

so

3
00:01:06,230 --> 00:01:03,670

and good evening from philadelphia frank

4
00:01:08,070 --> 00:01:06,240

here with yet another episode of ufo

5
00:01:08,710 --> 00:01:08,080

news network sunday tonight coming to

6
00:01:10,469 --> 00:01:08,720

you

7
00:01:12,310 --> 00:01:10,479

on a tuesday night and that probably

8
00:01:14,870 --> 00:01:12,320

won't get the show uploaded until

9
00:01:16,469 --> 00:01:14,880

uh wednesday mornings but uh we're all

10
00:01:19,350 --> 00:01:16,479

ready to go with a fabulous

11
00:01:20,070 --> 00:01:19,360

guest and let me introduce to introduce

12
00:01:22,950 --> 00:01:20,080

the guest

13
00:01:24,310 --> 00:01:22,960

my fabulous co-host chad hannah how are

14

00:01:25,990 --> 00:01:24,320

you tonight chant

15

00:01:27,910 --> 00:01:26,000

hello frank how are you doing this

16

00:01:29,590 --> 00:01:27,920

finally ready to go we're ready to go

17

00:01:30,710 --> 00:01:29,600

very excited ready to go i'm ready to go

18

00:01:33,350 --> 00:01:30,720

we have a fabulous

19

00:01:34,630 --> 00:01:33,360

guest he wrote a really wonderful paper

20

00:01:36,310 --> 00:01:34,640

and that we're going to go ahead and go

21

00:01:38,710 --> 00:01:36,320

over with him very carefully

22

00:01:40,469 --> 00:01:38,720

among a few other topics frank milburn

23

00:01:42,469 --> 00:01:40,479

is our special guest tonight he's a

24

00:01:44,550 --> 00:01:42,479

strategic and operational advisor

25

00:01:46,149 --> 00:01:44,560

a former intelligence officer he is an

26

00:01:47,270 --> 00:01:46,159

alumnus of sandhurst in the london

27

00:01:48,950 --> 00:01:47,280

school of economics

28

00:01:50,310 --> 00:01:48,960

he has previously written for the middle

29

00:01:51,990 --> 00:01:50,320

east economic survey

30

00:01:53,749 --> 00:01:52,000

the combating terrorism center at west

31

00:01:54,469 --> 00:01:53,759

point and the institute for national

32

00:01:57,350 --> 00:01:54,479

securities

33

00:01:59,030 --> 00:01:57,360

at uh tel aviv university i wanted to

34

00:02:00,230 --> 00:01:59,040

give a little bit more background on our

35

00:02:02,550 --> 00:02:00,240

special guest

36

00:02:03,510 --> 00:02:02,560

from the late 80s through the late 90s

37

00:02:06,149 --> 00:02:03,520

uh frank you

38

00:02:08,070 --> 00:02:06,159

joined uh the military at the age of 17

39

00:02:09,350 --> 00:02:08,080

got picked up for officer training went

40

00:02:11,270 --> 00:02:09,360

on to a university

41

00:02:13,030 --> 00:02:11,280

you then became involved in intelligence

42

00:02:15,190 --> 00:02:13,040

work you've also been involved in

43

00:02:16,390 --> 00:02:15,200

journalism corporate investigations oil

44

00:02:18,309 --> 00:02:16,400

and gas securities

45

00:02:19,830 --> 00:02:18,319

assisting companies working in fragile

46

00:02:21,510 --> 00:02:19,840

states and hostile environments

47

00:02:23,110 --> 00:02:21,520

for the past three years you have been

48

00:02:23,830 --> 00:02:23,120

collecting organizing and researching

49

00:02:29,110 --> 00:02:23,840

the uap

50

00:02:32,070 --> 00:02:29,120

topic into national studies slash

51
00:02:33,589 --> 00:02:32,080
academia related fields moving along

52
00:02:36,630 --> 00:02:33,599
here you wrote a short article for the

53
00:02:38,390 --> 00:02:36,640
begin sadat center last year on iran

54
00:02:40,470 --> 00:02:38,400
you are not affiliated with the begin

55
00:02:42,390 --> 00:02:40,480
sadat center which is a globally ranked

56
00:02:44,150 --> 00:02:42,400
non-partisan national security and

57
00:02:45,750 --> 00:02:44,160
strategic studies think tank connected

58
00:02:47,750 --> 00:02:45,760
to barulan university

59
00:02:48,869 --> 00:02:47,760
which is also israel's largest

60
00:02:51,589 --> 00:02:48,879
university

61
00:02:53,190 --> 00:02:51,599
that short article you authored on iran

62
00:02:54,790 --> 00:02:53,200
was the beginning of your relationship

63
00:02:56,630 --> 00:02:54,800

towards approaching the begin sadat

64

00:02:59,270 --> 00:02:56,640

center with the proposal to publish

65

00:03:00,869 --> 00:02:59,280

this fascinating uap related paper isn't

66

00:03:02,949 --> 00:03:00,879

that correct frank

67

00:03:04,309 --> 00:03:02,959

yeah good evening to you guys all right

68

00:03:06,630 --> 00:03:04,319

good morning to you guys from here

69

00:03:07,670 --> 00:03:06,640

thank you for the very gracious intro um

70

00:03:09,509 --> 00:03:07,680

yes the

71

00:03:11,509 --> 00:03:09,519

article that i did on iran for the

72

00:03:13,270 --> 00:03:11,519

beginnings of that center was uh

73

00:03:14,869 --> 00:03:13,280

really my was my first piece for them

74

00:03:15,670 --> 00:03:14,879

and when i actually did that i had no

75

00:03:18,390 --> 00:03:15,680

idea that

76

00:03:19,350 --> 00:03:18,400

i'd be approaching them sort of like a

77

00:03:21,190 --> 00:03:19,360

year later with

78

00:03:23,670 --> 00:03:21,200

with a proposal to actually write a much

79

00:03:25,750 --> 00:03:23,680

longer paper on uap

80

00:03:27,350 --> 00:03:25,760

so that's how that happened there i was

81

00:03:29,190 --> 00:03:27,360

quite surprised

82

00:03:30,869 --> 00:03:29,200

um but happily surprised when they took

83

00:03:33,110 --> 00:03:30,879

me up on it and that they were

84

00:03:34,550 --> 00:03:33,120

sort of open-minded to it but that

85

00:03:35,750 --> 00:03:34,560

obviously i didn't have to frame it very

86

00:03:37,910 --> 00:03:35,760

much in

87

00:03:39,190 --> 00:03:37,920

strategic studies terms and for the

88

00:03:42,309 --> 00:03:39,200

readership there and

89

00:03:44,309 --> 00:03:42,319

to get it past their editorial board uh

90

00:03:45,350 --> 00:03:44,319

really quick frank uh who is the

91

00:03:46,710 --> 00:03:45,360

intended audience

92

00:03:49,350 --> 00:03:46,720

when you're writing a paper for the

93

00:03:51,589 --> 00:03:49,360

center well that's a good point um

94

00:03:53,429 --> 00:03:51,599

for there i mean obviously you want to

95

00:03:55,030 --> 00:03:53,439

um the readership of

96

00:03:57,110 --> 00:03:55,040

beginnings to that center will be people

97

00:03:58,869 --> 00:03:57,120

in both the israeli and international

98

00:04:01,270 --> 00:03:58,879

uh sort of like you know military

99

00:04:02,949 --> 00:04:01,280

intelligence uh communities

100

00:04:04,630 --> 00:04:02,959

academics who are interested in you know

101

00:04:08,949 --> 00:04:04,640

modern international history

102

00:04:11,030 --> 00:04:08,959

uh middle east politics and history um

103

00:04:13,270 --> 00:04:11,040

sort of strategic affairs in the eastern

104

00:04:15,910 --> 00:04:13,280

mediterranean relations with turkey

105

00:04:17,909 --> 00:04:15,920

uh iran all those all those subjects

106

00:04:18,710 --> 00:04:17,919

there but also as well academics further

107

00:04:21,030 --> 00:04:18,720

afield

108

00:04:22,710 --> 00:04:21,040

um so begins to that center was well

109

00:04:24,150 --> 00:04:22,720

known to me before because

110

00:04:25,270 --> 00:04:24,160

i had an interest for example i had a

111

00:04:27,030 --> 00:04:25,280

long-standing interest in the middle

112

00:04:28,469 --> 00:04:27,040

east and i was you know sort of looked

113

00:04:30,550 --> 00:04:28,479

to israeli think

114

00:04:31,909 --> 00:04:30,560

thanks for information because you know

115

00:04:32,550 --> 00:04:31,919

they're located right in the heart of

116

00:04:35,350 --> 00:04:32,560

the region

117

00:04:39,189 --> 00:04:35,360

so that was a an obvious uh first point

118

00:04:43,270 --> 00:04:41,030

well i have many questions so frank if

119

00:04:45,830 --> 00:04:43,280

you want to ask your questions

120

00:04:46,629 --> 00:04:45,840

now it's up to you uh no just uh go

121

00:04:48,790 --> 00:04:46,639

ahead and

122

00:04:50,870 --> 00:04:48,800

we'll uh we'll just uh play it as it

123

00:04:52,469 --> 00:04:50,880

comes sure okay well i want to

124

00:04:54,469 --> 00:04:52,479

ask a question i actually know the

125

00:04:56,310 --> 00:04:54,479

answer to but for listeners sake

126

00:04:57,990 --> 00:04:56,320

uh so frank can have the opportunity to

127

00:04:59,830 --> 00:04:58,000

answer it i'm going to go ahead and

128

00:05:00,870 --> 00:04:59,840

preface this question first with an

129

00:05:03,430 --> 00:05:00,880

article

130

00:05:05,270 --> 00:05:03,440

that was actually published by the new

131

00:05:07,350 --> 00:05:05,280

york post titled harry reid

132

00:05:09,510 --> 00:05:07,360

claims u.s government is hiding key

133

00:05:12,310 --> 00:05:09,520

evidence of ufo encounters by

134

00:05:13,990 --> 00:05:12,320

lee brown on october 13th of this year

135

00:05:15,029 --> 00:05:14,000

and i'm just going to read a tiny bit of

136

00:05:18,550 --> 00:05:15,039

it

137

00:05:20,629 --> 00:05:18,560

claimed in a new

138

00:05:22,550 --> 00:05:20,639

documentary the phenomenon that there's

139

00:05:23,909 --> 00:05:22,560

more than one up there

140

00:05:25,830 --> 00:05:23,919

and even believes they may have

141

00:05:27,590 --> 00:05:25,840

interfered with american weapons

142

00:05:29,510 --> 00:05:27,600

asked if he was saying that there's some

143

00:05:32,629 --> 00:05:29,520

evidence that there still haven't uh

144

00:05:35,590 --> 00:05:32,639

hasn't seen the light of day he said

145

00:05:36,390 --> 00:05:35,600

i'm saying most of it hasn't seen the

146

00:05:39,830 --> 00:05:36,400

light of day

147

00:05:42,950 --> 00:05:39,840

we have it it's there he continued on

148

00:05:44,790 --> 00:05:42,960

and uh basically he's just saying

149

00:05:46,550 --> 00:05:44,800

they did everything they could to stop

150

00:05:48,390 --> 00:05:46,560

the program from going forward

151
00:05:50,230 --> 00:05:48,400
they wanted nothing to do with this reid

152
00:05:52,070 --> 00:05:50,240
said that the government's resistance

153
00:05:54,790 --> 00:05:52,080
to his program trying to expose the

154
00:05:56,550 --> 00:05:54,800
truth nobody has to agree why it's

155
00:05:58,070 --> 00:05:56,560
there but shouldn't we at least be

156
00:05:59,270 --> 00:05:58,080
spending some money to study all of

157
00:06:01,029 --> 00:05:59,280
these phenomena

158
00:06:03,830 --> 00:06:01,039
shouldn't we study this stuff the answer

159
00:06:05,510 --> 00:06:03,840
is yes that's all this was about

160
00:06:07,430 --> 00:06:05,520
and why the federal government all these

161
00:06:08,550 --> 00:06:07,440
years has covered up put brake pads on

162
00:06:09,990 --> 00:06:08,560
everything stopped it

163
00:06:12,309 --> 00:06:10,000

i think it's very very bad for our

164

00:06:13,749 --> 00:06:12,319

country reid said now i just wanted to

165

00:06:14,870 --> 00:06:13,759

mention something and then ask you a

166

00:06:17,830 --> 00:06:14,880

question frank

167

00:06:20,070 --> 00:06:17,840

i've noticed in these articles that reed

168

00:06:21,909 --> 00:06:20,080

and others appear to vacillate at times

169

00:06:24,790 --> 00:06:21,919

between saying

170

00:06:26,309 --> 00:06:24,800

we meaning say the us government or some

171

00:06:30,150 --> 00:06:26,319

governments around the world

172

00:06:32,950 --> 00:06:30,160

might have access or privy to

173

00:06:34,230 --> 00:06:32,960

non-human related technology or

174

00:06:37,670 --> 00:06:34,240

technologies

175

00:06:39,749 --> 00:06:37,680

and then they say that we

176

00:06:41,430 --> 00:06:39,759

don't study the phenomenon enough so

177

00:06:42,230 --> 00:06:41,440

it's either one or the other or maybe

178

00:06:44,629 --> 00:06:42,240

both

179

00:06:45,430 --> 00:06:44,639

but my question to you is do you think

180

00:06:47,350 --> 00:06:45,440

it's possible

181

00:06:49,589 --> 00:06:47,360

some governments around the world are

182

00:06:51,990 --> 00:06:49,599

playing dumb regarding the uap

183

00:06:54,230 --> 00:06:52,000

topic meaning they know more than what

184

00:06:55,909 --> 00:06:54,240

they're actually revealing

185

00:06:57,749 --> 00:06:55,919

well i think that's a dead certainty i

186

00:07:01,110 --> 00:06:57,759

mean you only have to look at

187

00:07:01,990 --> 00:07:01,120

richard dolan's seminal work on ufos the

188

00:07:04,390 --> 00:07:02,000

national security

189

00:07:05,909 --> 00:07:04,400

state to know that to be the case um the

190

00:07:06,550 --> 00:07:05,919

question is you know what is the extent

191

00:07:07,749 --> 00:07:06,560

of the

192

00:07:09,589 --> 00:07:07,759

material that they have in their

193

00:07:12,150 --> 00:07:09,599

possession and how

194

00:07:13,110 --> 00:07:12,160

have um say when they and the scientists

195

00:07:15,990 --> 00:07:13,120

um

196

00:07:17,189 --> 00:07:16,000

involved in studying these materials so

197

00:07:18,790 --> 00:07:17,199

what is the extent to which they've been

198

00:07:19,430 --> 00:07:18,800

able to exploit the technologies that

199

00:07:21,909 --> 00:07:19,440

they have

200

00:07:22,870 --> 00:07:21,919

within their grass so to speak and if we

201
00:07:24,790 --> 00:07:22,880
take

202
00:07:26,870 --> 00:07:24,800
professor eric davis's you know recent

203
00:07:27,510 --> 00:07:26,880
statements both last year to alejandro

204
00:07:29,670 --> 00:07:27,520
rocca

205
00:07:31,670 --> 00:07:29,680
which i referenced in the paper and also

206
00:07:33,909 --> 00:07:31,680
emails that i presented in

207
00:07:34,870 --> 00:07:33,919
my paper and it would seem to be that

208
00:07:35,909 --> 00:07:34,880
yes they do have

209
00:07:37,510 --> 00:07:35,919
you know technologies in their

210
00:07:39,350 --> 00:07:37,520
possession but they're having a very

211
00:07:41,510 --> 00:07:39,360
hard time actually sort of understanding

212
00:07:44,869 --> 00:07:41,520
them and leveraging those technologies

213
00:07:46,469 --> 00:07:44,879

for advances now my understanding

214

00:07:49,029 --> 00:07:46,479

is you do not believe there will be full

215

00:07:52,309 --> 00:07:49,039

disclosure on the ufo slash

216

00:07:54,629 --> 00:07:52,319

if there was et topic um isn't that

217

00:07:56,390 --> 00:07:54,639

correct

218

00:07:58,390 --> 00:07:56,400

well i don't think if you're referring

219

00:07:59,749 --> 00:07:58,400

to um the uap

220

00:08:01,430 --> 00:07:59,759

task force the unexplained aerial

221

00:08:02,869 --> 00:08:01,440

phenomena task force i mean it hasn't

222

00:08:04,309 --> 00:08:02,879

been set up to be you know a

223

00:08:06,469 --> 00:08:04,319

clearinghouse for

224

00:08:07,350 --> 00:08:06,479

uh you know public information to you

225

00:08:10,790 --> 00:08:07,360

know to satisfy

226

00:08:12,390 --> 00:08:10,800

ufo twitter um ufologists in general and

227

00:08:14,390 --> 00:08:12,400

uh you know the public at large

228

00:08:15,670 --> 00:08:14,400

it's basically been set up and to

229

00:08:18,629 --> 00:08:15,680

satisfy

230

00:08:20,230 --> 00:08:18,639

an american military and intelligence

231

00:08:22,710 --> 00:08:20,240

and scientific requirements

232

00:08:23,990 --> 00:08:22,720

as to nature of the phenomenon whether

233

00:08:26,869 --> 00:08:24,000

it presents a threat

234

00:08:27,749 --> 00:08:26,879

and what uh you know military and other

235

00:08:29,510 --> 00:08:27,759

advances

236

00:08:31,909 --> 00:08:29,520

can be gained from it technologically

237

00:08:35,269 --> 00:08:31,919

wise and if you look at the

238

00:08:37,350 --> 00:08:35,279

38 defense um 38

239

00:08:40,149 --> 00:08:37,360

defense intelligence reference documents

240

00:08:42,149 --> 00:08:40,159

which are mentioned by eric davis uh

241

00:08:43,350 --> 00:08:42,159

quite consistently they are basically

242

00:08:46,150 --> 00:08:43,360

been looking at you know

243

00:08:48,470 --> 00:08:46,160

projecting engineering physics four to

244

00:08:49,829 --> 00:08:48,480

2050. so to me that indicates

245

00:08:51,509 --> 00:08:49,839

very much an intent that they want to

246

00:08:52,790 --> 00:08:51,519

understand these technologies and that

247

00:08:54,870 --> 00:08:52,800

you know in the future at some point

248

00:08:56,310 --> 00:08:54,880

they want to have the capability and the

249

00:08:58,230 --> 00:08:56,320

industrial base to actually be able to

250

00:09:00,389 --> 00:08:58,240

reproduce these technologies

251
00:09:04,710 --> 00:09:00,399
now what i'm about to ask you a start

252
00:09:10,470 --> 00:09:07,990
before but i would like to know

253
00:09:13,269 --> 00:09:10,480
if you feel or think it's possible from

254
00:09:15,509 --> 00:09:13,279
your perspective

255
00:09:18,150 --> 00:09:15,519
that the u.s government or any

256
00:09:21,590 --> 00:09:18,160
government around the world

257
00:09:24,230 --> 00:09:21,600
or any organization may have

258
00:09:25,750 --> 00:09:24,240
et related technology or non-human

259
00:09:30,470 --> 00:09:25,760
related technology

260
00:09:34,630 --> 00:09:31,990
well effectively eric davis has said

261
00:09:37,110 --> 00:09:34,640
that they that they do uh also

262
00:09:38,870 --> 00:09:37,120
luis elizondo has said on uh you know

263
00:09:39,750 --> 00:09:38,880

tucker carlson that they have you know

264

00:09:43,590 --> 00:09:39,760

debris from

265

00:09:44,310 --> 00:09:43,600

uh you know from uh something that is uh

266

00:09:47,910 --> 00:09:44,320

you know not

267

00:09:49,269 --> 00:09:47,920

uh terrestrial shall we say so okay

268

00:09:51,590 --> 00:09:49,279

if you're asking me do i think that

269

00:09:53,190 --> 00:09:51,600

there are there's no private enterprise

270

00:09:55,670 --> 00:09:53,200

private sector companies aerospace and

271

00:09:58,710 --> 00:09:55,680

defense companies um quite possibly

272

00:10:00,389 --> 00:09:58,720

um eric davis is within his you know

273

00:10:02,069 --> 00:10:00,399

what they call stovepipe he might

274

00:10:03,829 --> 00:10:02,079

not necessarily know what's going on in

275

00:10:04,150 --> 00:10:03,839

other parts of the government because as

276

00:10:06,470 --> 00:10:04,160

he's

277

00:10:07,750 --> 00:10:06,480

himself in that long alejandro uh

278

00:10:08,829 --> 00:10:07,760

rockhouse interview

279

00:10:10,949 --> 00:10:08,839

um you know you've got

280

00:10:13,430 --> 00:10:10,959

compartmentalization the right hand does

281

00:10:14,870 --> 00:10:13,440

the left hand the different secret uh

282

00:10:16,030 --> 00:10:14,880

parts of the us government don't all

283

00:10:17,750 --> 00:10:16,040

talk to each other you know for

284

00:10:19,350 --> 00:10:17,760

compartmentalization reasons

285

00:10:21,190 --> 00:10:19,360

so it's quite possible that he doesn't

286

00:10:23,509 --> 00:10:21,200

have the full picture

287

00:10:26,150 --> 00:10:23,519

just to jump in really quick here frank

288

00:10:29,430 --> 00:10:26,160

uh debris is a little bit different than

289

00:10:31,430 --> 00:10:29,440

uh fully functioning technology when

290

00:10:32,949 --> 00:10:31,440

they're talking debris i'm sure

291

00:10:33,910 --> 00:10:32,959

generally they're talking about their

292

00:10:35,430 --> 00:10:33,920

wreckage

293

00:10:37,829 --> 00:10:35,440

they might be able to get something out

294

00:10:38,150 --> 00:10:37,839

of it in terms of the material aspect of

295

00:10:41,590 --> 00:10:38,160

it

296

00:10:44,310 --> 00:10:41,600

but that goes a long way uh from uh

297

00:10:46,630 --> 00:10:44,320

turning that into a full understanding

298

00:10:47,910 --> 00:10:46,640

of how the propulsion any potential

299

00:10:51,590 --> 00:10:47,920

propulsion works how

300

00:10:54,790 --> 00:10:51,600

any potential avionics work um

301

00:10:56,389 --> 00:10:54,800

do you hold out the possibility that the

302

00:10:58,230 --> 00:10:56,399

knowing the technology is something that

303

00:11:02,150 --> 00:10:58,240

they're just saying in order to

304

00:11:03,990 --> 00:11:02,160

get more funding i'm sorry can you

305

00:11:05,910 --> 00:11:04,000

just rephrase that i didn't understand

306

00:11:08,069 --> 00:11:05,920

the last bit of the question uh yeah uh

307

00:11:09,590 --> 00:11:08,079

having debris and having a fully

308

00:11:10,790 --> 00:11:09,600

functional craft are two different

309

00:11:14,790 --> 00:11:10,800

things

310

00:11:17,110 --> 00:11:14,800

uh back in the

311

00:11:18,310 --> 00:11:17,120

the roswell days how they worked was if

312

00:11:20,069 --> 00:11:18,320

you had debris

313

00:11:21,829 --> 00:11:20,079

it went to wright patterson air force

314

00:11:24,230 --> 00:11:21,839

base where they had uh

315

00:11:25,750 --> 00:11:24,240

access to the type of labs could go over

316

00:11:27,670 --> 00:11:25,760

uh the debris and maybe

317

00:11:29,590 --> 00:11:27,680

see if there was a anything interesting

318

00:11:30,470 --> 00:11:29,600

in the engineering of the materials that

319

00:11:32,949 --> 00:11:30,480

type of thing

320

00:11:35,509 --> 00:11:32,959

if let's say a pilot defected and they

321

00:11:37,190 --> 00:11:35,519

had a fully functioning aircraft okay

322

00:11:39,350 --> 00:11:37,200

uh where they would take it out to uh

323

00:11:40,710 --> 00:11:39,360

what's now uh edwards air force base

324

00:11:42,150 --> 00:11:40,720

where they could actually figure out how

325

00:11:44,710 --> 00:11:42,160

to fly it and uh

326

00:11:46,069 --> 00:11:44,720

you know use it so uh those are two

327

00:11:47,509 --> 00:11:46,079

different things uh do you think there's

328

00:11:49,670 --> 00:11:47,519

a possibility that

329

00:11:51,190 --> 00:11:49,680

there's a little bit of a chicanery

330

00:11:52,790 --> 00:11:51,200

going on in terms of saying

331

00:11:55,670 --> 00:11:52,800

they've got a little bit more than they

332

00:11:57,829 --> 00:11:55,680

really have in order to get more funding

333

00:11:59,910 --> 00:11:57,839

well if you read what he actually says

334

00:12:01,509 --> 00:11:59,920

in the rochas interview he says

335

00:12:03,509 --> 00:12:01,519

the crash retrieval program is very

336

00:12:06,310 --> 00:12:03,519

small blah blah then he says i do know

337

00:12:08,389 --> 00:12:06,320

that the program was terminated in 1989

338

00:12:10,150 --> 00:12:08,399

uh for lack of progress and reverse and

339

00:12:11,990 --> 00:12:10,160

engineering anything that they had

340

00:12:13,350 --> 00:12:12,000

any of the hardware that they had and

341

00:12:16,069 --> 00:12:13,360

they'll resurrect it

342

00:12:17,829 --> 00:12:16,079

maybe every so often so many years will

343

00:12:19,190 --> 00:12:17,839

go by and then they'll try it again

344

00:12:20,230 --> 00:12:19,200

okay so they're saying that so you're

345

00:12:20,870 --> 00:12:20,240

saying there that they've got some

346

00:12:22,470 --> 00:12:20,880

hardware

347

00:12:24,230 --> 00:12:22,480

now whether that's parts of a craft or

348

00:12:25,269 --> 00:12:24,240

whether that's like you know a complete

349

00:12:26,710 --> 00:12:25,279

craft i don't know

350

00:12:28,069 --> 00:12:26,720

but i think the key point is saying that

351
00:12:29,350 --> 00:12:28,079
you know they're not having they're not

352
00:12:32,310 --> 00:12:29,360
having a lot of success

353
00:12:33,190 --> 00:12:32,320
um in uh in developing that technology

354
00:12:35,750 --> 00:12:33,200
for use

355
00:12:37,829 --> 00:12:35,760
now if they had a let's say for example

356
00:12:39,269 --> 00:12:37,839
an entire craft and they've managed to

357
00:12:40,389 --> 00:12:39,279
you know reverse engineer it or they've

358
00:12:41,509 --> 00:12:40,399
managed to get it to work and they've

359
00:12:43,190 --> 00:12:41,519
managed to replicate it

360
00:12:45,190 --> 00:12:43,200
then the question that i'd be asking is

361
00:12:46,550 --> 00:12:45,200
then you know how long ago did that

362
00:12:46,790 --> 00:12:46,560
happen and if it happened like i don't

363
00:12:48,550 --> 00:12:46,800

know

364

00:12:50,470 --> 00:12:48,560

say two decades ago why haven't they

365

00:12:51,910 --> 00:12:50,480

used it in uh you know modern wars that

366

00:12:53,350 --> 00:12:51,920

america has been involved in

367

00:12:54,949 --> 00:12:53,360

if they had you know such decisive

368

00:12:57,110 --> 00:12:54,959

technology so that's another question

369

00:12:59,350 --> 00:12:57,120

that i'd have

370

00:13:01,829 --> 00:12:59,360

okay i wanted to also ask you there have

371

00:13:03,430 --> 00:13:01,839

been reports of ufos possibly or

372

00:13:06,069 --> 00:13:03,440

seeming to render nuclear related

373

00:13:08,150 --> 00:13:06,079

facilities powerless

374

00:13:09,110 --> 00:13:08,160

do you think it's possible any nuclear

375

00:13:12,389 --> 00:13:09,120

facility

376

00:13:12,870 --> 00:13:12,399

has been incapacitated by anything that

377

00:13:16,069 --> 00:13:12,880

is

378

00:13:17,030 --> 00:13:16,079

of not uh of man-made of not man-made

379

00:13:20,550 --> 00:13:17,040

origin

380

00:13:23,750 --> 00:13:20,560

and in addition to that idea and not uh

381

00:13:25,910 --> 00:13:23,760

human basically i think uh

382

00:13:27,829 --> 00:13:25,920

what i'm trying to ask is do you feel

383

00:13:29,590 --> 00:13:27,839

that it's possible any nuclear

384

00:13:31,110 --> 00:13:29,600

related facility has been rendered

385

00:13:34,389 --> 00:13:31,120

useless by something that is not

386

00:13:35,750 --> 00:13:34,399

human in origin yeah i think uh

387

00:13:37,430 --> 00:13:35,760

you know almost definitely if you look

388

00:13:39,990 --> 00:13:37,440

at the work of uh

389

00:13:41,189 --> 00:13:40,000

robert hastings um if you look at the

390

00:13:43,990 --> 00:13:41,199

testimony of

391

00:13:45,350 --> 00:13:44,000

uh you know the u.s air force uh missile

392

00:13:47,990 --> 00:13:45,360

control officers

393

00:13:49,990 --> 00:13:48,000

uh if at what eric davis is saying in

394

00:13:51,750 --> 00:13:50,000

the alejandra rockas interview

395

00:13:53,030 --> 00:13:51,760

um that i that i referenced there's

396

00:13:53,350 --> 00:13:53,040

there's very definitely something there

397

00:13:55,110 --> 00:13:53,360

that

398

00:13:56,550 --> 00:13:55,120

doesn't appear to be chinese or russian

399

00:13:59,670 --> 00:13:56,560

that's interfering um

400

00:14:01,189 --> 00:13:59,680

with uh you know american icbms and if

401

00:14:03,110 --> 00:14:01,199

you go to the russian extent

402

00:14:04,550 --> 00:14:03,120

they've had something you know uh

403

00:14:06,790 --> 00:14:04,560

interfering with their

404

00:14:08,310 --> 00:14:06,800

um strategic nuclear facilities that

405

00:14:11,269 --> 00:14:08,320

isn't american so

406

00:14:12,949 --> 00:14:11,279

okay um the other question i'm not sure

407

00:14:13,269 --> 00:14:12,959

but it doesn't seem to be of terrestrial

408

00:14:17,829 --> 00:14:13,279

uh

409

00:14:19,750 --> 00:14:17,839

you the other question i had in relation

410

00:14:21,509 --> 00:14:19,760

to this topic is uh

411

00:14:23,590 --> 00:14:21,519

do you think it's possible these nuclear

412

00:14:26,629 --> 00:14:23,600

facilities have been stopped

413

00:14:29,670 --> 00:14:26,639

uh from working by an unknown

414

00:14:32,710 --> 00:14:29,680
or not man-made force uh

415

00:14:34,389 --> 00:14:32,720
due to the threat of war um

416

00:14:36,629 --> 00:14:34,399
so let me explain that a little bit

417

00:14:38,790 --> 00:14:36,639
better it's it's a it's a fictional

418

00:14:39,990 --> 00:14:38,800
scenario hypothetical scenario i'm gonna

419

00:14:43,509 --> 00:14:40,000
set up here

420

00:14:46,550 --> 00:14:43,519
let's just pretend some country wants to

421

00:14:50,629 --> 00:14:46,560
create a war with another country and

422

00:14:51,670 --> 00:14:50,639
somehow it's uh an e.t presence is privy

423

00:14:53,670 --> 00:14:51,680
to that

424

00:14:55,110 --> 00:14:53,680
do you think it's possible that an et

425

00:14:57,350 --> 00:14:55,120
presence could actually

426
00:14:58,150 --> 00:14:57,360
stop war from happening between two

427
00:15:00,629 --> 00:14:58,160
countries

428
00:15:02,150 --> 00:15:00,639
and that uh in addition to that that

429
00:15:05,590 --> 00:15:02,160
that may have been stopped before

430
00:15:07,670 --> 00:15:05,600
without our realizing it or knowing it

431
00:15:09,269 --> 00:15:07,680
i i well i mean if you look at the the

432
00:15:09,670 --> 00:15:09,279
russian case that happened in ukraine i

433
00:15:12,389 --> 00:15:09,680
mean

434
00:15:12,790 --> 00:15:12,399
the the nuclear countdown was started

435
00:15:16,230 --> 00:15:12,800
and

436
00:15:18,470 --> 00:15:16,240
uh you know nuclear was only very uh

437
00:15:19,670 --> 00:15:18,480
very narrowly averted um i think the

438
00:15:22,389 --> 00:15:19,680

question is there well

439

00:15:23,509 --> 00:15:22,399

what is the uh motivation behind the

440

00:15:25,590 --> 00:15:23,519

intelligence that did that

441

00:15:27,910 --> 00:15:25,600

is it because they're trying to stop

442

00:15:29,430 --> 00:15:27,920

humans uh using nuclear weapons and

443

00:15:32,790 --> 00:15:29,440

basically destroying the planet

444

00:15:34,949 --> 00:15:32,800

or is there another view that would say

445

00:15:37,590 --> 00:15:34,959

that they are basically you know testing

446

00:15:39,910 --> 00:15:37,600

um sort of nuclear facilities and

447

00:15:41,509 --> 00:15:39,920

the capabilities of terrestrial powers

448

00:15:43,350 --> 00:15:41,519

as a prelude as a reconnaissance

449

00:15:45,350 --> 00:15:43,360

effectively and as a prelude to uh you

450

00:15:46,710 --> 00:15:45,360

know carrying out more malignant actions

451
00:15:48,150 --> 00:15:46,720
whichever way you look at it it will be

452
00:15:49,189 --> 00:15:48,160
pretty conservative disconcerting for

453
00:15:50,870 --> 00:15:49,199
the powers involved

454
00:15:52,310 --> 00:15:50,880
that had their uh you know their nuclear

455
00:15:55,269 --> 00:15:52,320
weapons interfered with

456
00:15:56,550 --> 00:15:55,279
um if you look at as well at um colonel

457
00:15:58,150 --> 00:15:56,560
john alexander's book you know there's

458
00:15:58,870 --> 00:15:58,160
the whole question of accidental nuclear

459
00:16:01,749 --> 00:15:58,880
war

460
00:16:03,829 --> 00:16:01,759
by misstating and misinterpreting uh

461
00:16:06,150 --> 00:16:03,839
sensor data where ufos are basically

462
00:16:08,310 --> 00:16:06,160
being mistaken for nuclear missiles so

463
00:16:10,949 --> 00:16:08,320

that's uh that's another option there

464

00:16:14,069 --> 00:16:10,959

thank you it's also been speculated by

465

00:16:14,870 --> 00:16:14,079

various folks um in and outside the ufo

466

00:16:18,230 --> 00:16:14,880

community

467

00:16:21,189 --> 00:16:18,240

that it uh well wondered whether

468

00:16:23,430 --> 00:16:21,199

it's possible if et's or some kind of et

469

00:16:25,350 --> 00:16:23,440

civilization or civilizations are using

470

00:16:26,629 --> 00:16:25,360

nuclear facilities for some kind of

471

00:16:29,269 --> 00:16:26,639

energy seeking

472

00:16:30,069 --> 00:16:29,279

a type of thing but that's just uh pure

473

00:16:32,629 --> 00:16:30,079

hype uh

474

00:16:34,310 --> 00:16:32,639

postulating i suppose speculating anyway

475

00:16:34,949 --> 00:16:34,320

the other question i wanted to ask you

476

00:16:36,470 --> 00:16:34,959

is uh

477

00:16:39,430 --> 00:16:36,480

i'll go ahead and preface it with this

478

00:16:40,310 --> 00:16:39,440

uh statements as a few statements that

479

00:16:42,790 --> 00:16:40,320

you made

480

00:16:44,710 --> 00:16:42,800

recently you said the problem with the

481

00:16:47,749 --> 00:16:44,720

terrestrial solution

482

00:16:50,150 --> 00:16:47,759

uh for these platforms is chinese

483

00:16:51,430 --> 00:16:50,160

the chinese have reverse engineered them

484

00:16:54,470 --> 00:16:51,440

and then sold these

485

00:16:55,990 --> 00:16:54,480

knockoffs is the chinese the

486

00:16:58,389 --> 00:16:56,000

chinese still have issues with their

487

00:17:00,230 --> 00:16:58,399

fifth gen fighters they're underpowered

488

00:17:02,150 --> 00:17:00,240

among other possible issues

489

00:17:03,350 --> 00:17:02,160

you've also stated if the chinese have

490

00:17:05,189 --> 00:17:03,360

tic tac tuck

491

00:17:07,590 --> 00:17:05,199

one would have expected them to sort out

492

00:17:10,069 --> 00:17:07,600

their conventional engines by now

493

00:17:11,350 --> 00:17:10,079

and that basically wanted to ask if you

494

00:17:14,309 --> 00:17:11,360

can expand upon

495

00:17:16,630 --> 00:17:14,319

that kind of uh those topics right there

496

00:17:18,949 --> 00:17:16,640

basically the idea is

497

00:17:19,669 --> 00:17:18,959

if china russia and iran and other

498

00:17:22,390 --> 00:17:19,679

countries

499

00:17:24,390 --> 00:17:22,400

had tic tac technology they wouldn't be

500

00:17:27,909 --> 00:17:24,400

going through all these efforts

501
00:17:29,350 --> 00:17:27,919
to try and um say take over other

502
00:17:32,150 --> 00:17:29,360
countries or

503
00:17:33,430 --> 00:17:32,160
the hard work that it would entail um by

504
00:17:35,990 --> 00:17:33,440
the kinds of

505
00:17:37,430 --> 00:17:36,000
efforts they make to wield their power

506
00:17:38,789 --> 00:17:37,440
they would just use the tic tac

507
00:17:42,630 --> 00:17:38,799
technology

508
00:17:45,270 --> 00:17:42,640
to um get what they want faster

509
00:17:47,029 --> 00:17:45,280
is that uh is that the idea yeah

510
00:17:48,950 --> 00:17:47,039
absolutely i mean the point with the

511
00:17:50,789 --> 00:17:48,960
the fifth generation chinese aircraft is

512
00:17:52,390 --> 00:17:50,799
they're still reliant on buying uh

513
00:17:54,070 --> 00:17:52,400

russian engines for them because they

514

00:17:55,669 --> 00:17:54,080

haven't perfected the engine technology

515

00:17:57,830 --> 00:17:55,679

for their fifth generation aircraft

516

00:18:00,470 --> 00:17:57,840

so the question that i ask i posit is

517

00:18:02,230 --> 00:18:00,480

well if the chinese for example

518

00:18:04,150 --> 00:18:02,240

if they had a if they had tic tac tech

519

00:18:04,630 --> 00:18:04,160

and if if it was if it were working for

520

00:18:06,710 --> 00:18:04,640

them

521

00:18:07,909 --> 00:18:06,720

then you know if they can sort that out

522

00:18:09,510 --> 00:18:07,919

then they'd certainly be able to sort

523

00:18:11,909 --> 00:18:09,520

out conventional jet engines you know

524

00:18:12,789 --> 00:18:11,919

albeit high performance jet engines and

525

00:18:14,870 --> 00:18:12,799

certainly

526

00:18:16,789 --> 00:18:14,880

um china is by no means a status quo

527

00:18:18,310 --> 00:18:16,799

power so if they had technic

528

00:18:19,909 --> 00:18:18,320

technology and and they were actually

529

00:18:20,950 --> 00:18:19,919

had you know working platforms

530

00:18:22,310 --> 00:18:20,960

you know they'd have been able to roll

531

00:18:23,270 --> 00:18:22,320

over india by now they would have rolled

532

00:18:25,350 --> 00:18:23,280

over taiwan

533

00:18:27,190 --> 00:18:25,360

they'd be able to uh you know completely

534

00:18:29,590 --> 00:18:27,200

uh you know deny the whole of the

535

00:18:31,029 --> 00:18:29,600

you know south china sea to uh you know

536

00:18:33,110 --> 00:18:31,039

to the american navy

537

00:18:34,789 --> 00:18:33,120

um but you know basically they'd use the

538

00:18:37,270 --> 00:18:34,799

technology there's a very interesting

539

00:18:37,909 --> 00:18:37,280

story out of iran from the 1976 tehran

540

00:18:39,750 --> 00:18:37,919

case

541

00:18:41,350 --> 00:18:39,760

and the pilot was actually the second

542

00:18:42,710 --> 00:18:41,360

pilot was involved in the intersect of

543

00:18:44,470 --> 00:18:42,720

ufos near tehran

544

00:18:45,909 --> 00:18:44,480

he's asked a few days later by the then

545

00:18:46,549 --> 00:18:45,919

shah of iran he said well what in the

546

00:18:47,510 --> 00:18:46,559

shah also

547

00:18:49,110 --> 00:18:47,520

where do you think these things come

548

00:18:50,549 --> 00:18:49,120

from and the pilot says well i don't

549

00:18:51,990 --> 00:18:50,559

think that they're terrestrial in origin

550

00:18:55,430 --> 00:18:52,000

because if they were whoever had them

551
00:18:58,150 --> 00:18:55,440
you know would have mastery of the earth

552
00:18:58,630 --> 00:18:58,160
yes and that's extremely insightful to

553
00:19:01,830 --> 00:18:58,640
say

554
00:19:02,150 --> 00:19:01,840
isn't it um yeah let me uh let me jump

555
00:19:05,510 --> 00:19:02,160
in

556
00:19:07,750 --> 00:19:05,520
over your paper uh one

557
00:19:09,510 --> 00:19:07,760
thing that i got was uh you know

558
00:19:11,110 --> 00:19:09,520
obviously considering the audience it

559
00:19:14,870 --> 00:19:11,120
was a very uh

560
00:19:17,110 --> 00:19:14,880
threat centric and uh we've talked about

561
00:19:18,310 --> 00:19:17,120
the military aspect of any potential

562
00:19:21,190 --> 00:19:18,320
threat from

563
00:19:22,150 --> 00:19:21,200

uh uh from these vehicles but uh one

564

00:19:24,710 --> 00:19:22,160

thing that i'm really

565

00:19:26,630 --> 00:19:24,720

curious about is you know what if at the

566

00:19:27,510 --> 00:19:26,640

end of the day all this is true that

567

00:19:29,830 --> 00:19:27,520

some of these

568

00:19:31,590 --> 00:19:29,840

advanced uh aircraft are

569

00:19:33,909 --> 00:19:31,600

extraterrestrial in nature

570

00:19:35,990 --> 00:19:33,919

uh what are your thoughts about that i

571

00:19:38,390 --> 00:19:36,000

mean that that presents a different kind

572

00:19:41,669 --> 00:19:38,400

of threat to the status quo really for

573

00:19:42,470 --> 00:19:41,679

uh any government on earth well first i

574

00:19:44,390 --> 00:19:42,480

mean first of all

575

00:19:46,150 --> 00:19:44,400

yeah i focused you know as i talked a

576
00:19:46,470 --> 00:19:46,160
lot about the threat because the people

577
00:19:48,310 --> 00:19:46,480
are

578
00:19:49,430 --> 00:19:48,320
i was uh you know referencing and

579
00:19:50,230 --> 00:19:49,440
interviewing were talking about the

580
00:19:52,789 --> 00:19:50,240
threat

581
00:19:54,070 --> 00:19:52,799
and um you look at the paper i was

582
00:19:55,669 --> 00:19:54,080
writing for i was writing for you

583
00:19:57,590 --> 00:19:55,679
a begins to that center for strategic

584
00:19:57,909 --> 00:19:57,600
study so they look you know like you

585
00:20:00,470 --> 00:19:57,919
know

586
00:20:01,510 --> 00:20:00,480
the the military strategic and situation

587
00:20:02,870 --> 00:20:01,520
in the middle east and globally and

588
00:20:04,070 --> 00:20:02,880

geopolitics so that's going to be the

589

00:20:05,990 --> 00:20:04,080

stuff that they're interested in

590

00:20:07,830 --> 00:20:06,000

uh obviously uh you know the united

591

00:20:09,430 --> 00:20:07,840

states military the uk military they

592

00:20:11,270 --> 00:20:09,440

need to justify you know spending and

593

00:20:13,990 --> 00:20:11,280

budgets in terms of threat

594

00:20:15,350 --> 00:20:14,000

um and it really depends what is the

595

00:20:16,789 --> 00:20:15,360

source of threat okay so

596

00:20:18,870 --> 00:20:16,799

there's you know this two different

597

00:20:20,390 --> 00:20:18,880

schools of thought are

598

00:20:21,990 --> 00:20:20,400

other intelligences whether they're

599

00:20:23,830 --> 00:20:22,000

extraterrestrial or from another

600

00:20:25,190 --> 00:20:23,840

dimension or from wherever which we

601
00:20:25,990 --> 00:20:25,200
still don't know or most of us don't

602
00:20:28,070 --> 00:20:26,000
know

603
00:20:29,510 --> 00:20:28,080
um do they have benign intentions or do

604
00:20:31,270 --> 00:20:29,520
they have malign intentions they

605
00:20:33,110 --> 00:20:31,280
certainly have the capability to have

606
00:20:34,549 --> 00:20:33,120
to present a threat if they want to be a

607
00:20:36,230 --> 00:20:34,559
threat it depends on what their

608
00:20:38,070 --> 00:20:36,240
intentions are but without knowing

609
00:20:39,590 --> 00:20:38,080
exactly who or what they are

610
00:20:41,669 --> 00:20:39,600
and you know potentially where they come

611
00:20:44,549 --> 00:20:41,679
from it's very difficult to assign

612
00:20:45,990 --> 00:20:44,559
um you know intentions to them if you

613
00:20:47,350 --> 00:20:46,000

can't assign intentions and it's very

614

00:20:48,310 --> 00:20:47,360

difficult to say are they a threat or

615

00:20:50,710 --> 00:20:48,320

are they not a threat

616

00:20:51,510 --> 00:20:50,720

but clearly if you have a situation

617

00:20:54,149 --> 00:20:51,520

where

618

00:20:56,070 --> 00:20:54,159

you have incursions kind of at will over

619

00:20:58,950 --> 00:20:56,080

sensitive sites over you know where

620

00:21:00,549 --> 00:20:58,960

you know carrier strike groups and these

621

00:21:02,710 --> 00:21:00,559

these craft effectively operating with

622

00:21:03,990 --> 00:21:02,720

impunity and far out pacing and far out

623

00:21:06,310 --> 00:21:04,000

performing anything that

624

00:21:07,669 --> 00:21:06,320

uh terrestrial powers have then clearly

625

00:21:11,029 --> 00:21:07,679

they have a capability that could be a

626

00:21:14,789 --> 00:21:13,350

uh going back just a little bit i also

627

00:21:18,149 --> 00:21:14,799

wanted to include uh

628

00:21:20,549 --> 00:21:18,159

interesting statement you had made

629

00:21:22,230 --> 00:21:20,559

regarding chinese espionage efforts and

630

00:21:23,350 --> 00:21:22,240

how russia and china are interested in

631

00:21:26,390 --> 00:21:23,360

tick-tock tech

632

00:21:27,590 --> 00:21:26,400

uh you've also under uh uh stated never

633

00:21:31,669 --> 00:21:27,600

underestimate

634

00:21:34,230 --> 00:21:31,679

uh the uh the power of your advertisers

635

00:21:34,789 --> 00:21:34,240

and um or basically never underestimate

636

00:21:36,950 --> 00:21:34,799

your

637

00:21:39,029 --> 00:21:36,960

adversaries and you mentioned how the

638

00:21:40,710 --> 00:21:39,039

chinese are making considerable advances

639

00:21:43,430 --> 00:21:40,720

in other types of tech

640

00:21:44,070 --> 00:21:43,440

such as quantum computing for one can

641

00:21:46,950 --> 00:21:44,080

you touch on

642

00:21:47,350 --> 00:21:46,960

any other part or all of that yeah i

643

00:21:49,909 --> 00:21:47,360

mean

644

00:21:51,110 --> 00:21:49,919

quite clearly the chinese have got that

645

00:21:52,710 --> 00:21:51,120

they've you know demonstrated clear

646

00:21:55,190 --> 00:21:52,720

intent that they want to supplant the

647

00:21:57,750 --> 00:21:55,200

united states as the preeminent

648

00:21:58,710 --> 00:21:57,760

uh global actor both in economic terms

649

00:22:00,549 --> 00:21:58,720

military terms

650

00:22:02,549 --> 00:22:00,559

and in technological terms and they've

651
00:22:03,270 --> 00:22:02,559
devoted huge amounts of resources

652
00:22:11,029 --> 00:22:03,280
towards

653
00:22:13,510 --> 00:22:11,039
if the chinese have those aims then

654
00:22:14,630 --> 00:22:13,520
any technology that provides uh you know

655
00:22:16,070 --> 00:22:14,640
capabilities that are

656
00:22:17,669 --> 00:22:16,080
basically battle winning that provide

657
00:22:19,029 --> 00:22:17,679
total battle space awareness total

658
00:22:20,710 --> 00:22:19,039
battle space dominance

659
00:22:22,710 --> 00:22:20,720
and that have you know the the six or

660
00:22:24,470 --> 00:22:22,720
seven observables then that's going to

661
00:22:26,870 --> 00:22:24,480
be absolute goldust for anybody who

662
00:22:30,390 --> 00:22:26,880
wants to advance their military goals

663
00:22:32,310 --> 00:22:30,400

yeah okay so wanted to know if you could

664

00:22:33,909 --> 00:22:32,320

go over the following topic and that is

665

00:22:37,190 --> 00:22:33,919

if any organization or country

666

00:22:39,350 --> 00:22:37,200

had the tic tac tech we wouldn't see

667

00:22:40,630 --> 00:22:39,360

the chinese and the russians or possibly

668

00:22:43,750 --> 00:22:40,640

other countries such as

669

00:22:45,110 --> 00:22:43,760

the us all would not be uh involved

670

00:22:46,789 --> 00:22:45,120

we've actually gone over this but the

671

00:22:50,149 --> 00:22:46,799

various efforts they would take

672

00:22:52,149 --> 00:22:50,159

um in order to maybe uh

673

00:22:53,270 --> 00:22:52,159

take over another country i wanted to

674

00:22:54,390 --> 00:22:53,280

just go over this again if you don't

675

00:22:57,909 --> 00:22:54,400

mind just a little bit

676

00:22:59,669 --> 00:22:57,919

examples are russia or china taking over

677

00:23:02,710 --> 00:22:59,679

other countries like

678

00:23:05,909 --> 00:23:02,720

taiwan for example

679

00:23:08,710 --> 00:23:05,919

and also any special tic tac technology

680

00:23:10,549 --> 00:23:08,720

if they had access to that technology

681

00:23:13,190 --> 00:23:10,559

they wouldn't be using such overwhelming

682

00:23:15,430 --> 00:23:13,200

amounts of manpower to try and

683

00:23:17,270 --> 00:23:15,440

fulfill other goals um you stated that

684

00:23:20,310 --> 00:23:17,280

the chinese you just said

685

00:23:22,789 --> 00:23:20,320

would have ruled over taiwan and india

686

00:23:24,470 --> 00:23:22,799

if they had tic tac technology and

687

00:23:26,950 --> 00:23:24,480

you've also mentioned how electronic

688

00:23:29,830 --> 00:23:26,960

warfare nuke subs hypersonic missiles

689

00:23:31,270 --> 00:23:29,840

have been prioritized can you talk about

690

00:23:33,590 --> 00:23:31,280

any of that

691

00:23:35,510 --> 00:23:33,600

yeah i was basically with um the

692

00:23:37,110 --> 00:23:35,520

prioritization i was talking about the

693

00:23:38,630 --> 00:23:37,120

uh you know the russian military

694

00:23:40,390 --> 00:23:38,640

that you know they've suffered greatly

695

00:23:41,750 --> 00:23:40,400

since uh the end of the cold war so

696

00:23:43,110 --> 00:23:41,760

they've very much in the last kind of

697

00:23:44,149 --> 00:23:43,120

decade they've had to prioritize well

698

00:23:46,149 --> 00:23:44,159

the last two decades

699

00:23:47,750 --> 00:23:46,159

they had to prioritize very much uh what

700

00:23:49,669 --> 00:23:47,760

they put their money into

701
00:23:51,750 --> 00:23:49,679
um if you look at your russian activity

702
00:23:53,430 --> 00:23:51,760
in ukraine you know around the baltics

703
00:23:55,590 --> 00:23:53,440
there's no doubt in my mind that if they

704
00:23:57,110 --> 00:23:55,600
had access to game-changing technology

705
00:23:59,510 --> 00:23:57,120
and not just the technology itself like

706
00:24:00,870 --> 00:23:59,520
sitting in a laboratory and you know one

707
00:24:02,549 --> 00:24:00,880
platform that they could use but if they

708
00:24:03,190 --> 00:24:02,559
could actually deploy it multiple

709
00:24:04,710 --> 00:24:03,200
platforms

710
00:24:06,149 --> 00:24:04,720
there's no doubt in my mind that by now

711
00:24:06,950 --> 00:24:06,159
they would have reconstituted the former

712
00:24:08,630 --> 00:24:06,960
soviet union

713
00:24:10,149 --> 00:24:08,640

and the same goes for china if they had

714

00:24:11,269 --> 00:24:10,159

access to these platforms then

715

00:24:12,710 --> 00:24:11,279

you know they wouldn't be worried about

716

00:24:13,990 --> 00:24:12,720

india they wouldn't be worried about

717

00:24:14,549 --> 00:24:14,000

vietnam they wouldn't be worried about

718

00:24:15,909 --> 00:24:14,559

japan

719

00:24:17,830 --> 00:24:15,919

they wouldn't be worried about you know

720

00:24:19,350 --> 00:24:17,840

the south china sea and all their uh you

721

00:24:20,310 --> 00:24:19,360

know their territorial claims they just

722

00:24:21,350 --> 00:24:20,320

go ahead and take them

723

00:24:23,350 --> 00:24:21,360

and you know nobody would be able to

724

00:24:25,190 --> 00:24:23,360

stand in their part if they have their

725

00:24:27,590 --> 00:24:25,200

technology they would use it

726

00:24:29,029 --> 00:24:27,600

i had a kind of an interesting idea i

727

00:24:30,630 --> 00:24:29,039

had never thought of before that

728

00:24:33,269 --> 00:24:30,640

occurred to me today that i wanted to

729

00:24:35,110 --> 00:24:33,279

ask you about and that is uh do you feel

730

00:24:37,029 --> 00:24:35,120

it is possible or think it's possible

731

00:24:38,630 --> 00:24:37,039

the reason why first world

732

00:24:40,149 --> 00:24:38,640

countries or other kinds of countries

733

00:24:43,750 --> 00:24:40,159

want to go to the moon

734

00:24:46,149 --> 00:24:43,760

and mine uh past or and or mine

735

00:24:47,430 --> 00:24:46,159

asteroids is to get the kind of material

736

00:24:51,029 --> 00:24:47,440

they feel they may need

737

00:24:51,990 --> 00:24:51,039

in order to create uh the tic tac

738

00:24:53,750 --> 00:24:52,000

technology

739

00:24:55,990 --> 00:24:53,760

if they're privy to that do you think

740

00:24:58,310 --> 00:24:56,000

that might be one of their goals

741

00:24:59,510 --> 00:24:58,320

um you know you'd be best off asking a

742

00:24:59,990 --> 00:24:59,520

scientist that but i mean it's not

743

00:25:01,430 --> 00:25:00,000

beyond

744

00:25:02,789 --> 00:25:01,440

the realms of possibility but i mean

745

00:25:03,830 --> 00:25:02,799

there's you know there's plenty of

746

00:25:06,870 --> 00:25:03,840

minerals out there

747

00:25:09,350 --> 00:25:06,880

that uh you know will provide any

748

00:25:10,710 --> 00:25:09,360

any country or court and or corporation

749

00:25:11,990 --> 00:25:10,720

that can mine them and bring them back

750

00:25:14,750 --> 00:25:12,000

like huge amounts of money so there's

751
00:25:16,789 --> 00:25:14,760
probably a you know just as much a more

752
00:25:17,430 --> 00:25:16,799
prosecute motive or you have a profit

753
00:25:21,510 --> 00:25:17,440
motive

754
00:25:23,669 --> 00:25:21,520
they can fly i wonder i'll go for it

755
00:25:25,110 --> 00:25:23,679
i'm sorry you you can't out there i

756
00:25:27,590 --> 00:25:25,120
apologize that you were done

757
00:25:29,350 --> 00:25:27,600
i asked because i was just wondering if

758
00:25:33,269 --> 00:25:29,360
perhaps there are any

759
00:25:33,750 --> 00:25:33,279
rare uh materials uh involved in the tic

760
00:25:38,230 --> 00:25:33,760
tac

761
00:25:40,390 --> 00:25:38,240
technology

762
00:25:42,070 --> 00:25:40,400
um perhaps maybe those rare kinds of

763
00:25:45,350 --> 00:25:42,080

materials could be found

764

00:25:46,710 --> 00:25:45,360

on asteroids or the moon that's pretty

765

00:25:48,470 --> 00:25:46,720

much why i asked but

766

00:25:50,230 --> 00:25:48,480

anyway i did have another question for

767

00:25:51,669 --> 00:25:50,240

you and this question is from earl grey

768

00:25:53,029 --> 00:25:51,679

who's the assistant state director of

769

00:25:55,269 --> 00:25:53,039

southern california

770

00:25:57,110 --> 00:25:55,279

he's a chief field investigator and

771

00:25:57,510 --> 00:25:57,120

among other things regarding the topic

772

00:26:00,870 --> 00:25:57,520

of

773

00:26:03,669 --> 00:26:00,880

uaps he said here's my question

774

00:26:05,590 --> 00:26:03,679

reading jack sarfati's quote the strong

775

00:26:06,350 --> 00:26:05,600

gravity near field distortions will

776

00:26:08,470 --> 00:26:06,360

blend

777

00:26:09,269 --> 00:26:08,480

electromagnetic waves bouncing off the

778

00:26:11,350 --> 00:26:09,279

tic tac

779

00:26:12,710 --> 00:26:11,360

causing apparent mirage shape shifting

780

00:26:15,669 --> 00:26:12,720

and even stealth club

781

00:26:17,510 --> 00:26:15,679

cloaking it desired by the controlling

782

00:26:20,390 --> 00:26:17,520

probably full conscious

783

00:26:20,950 --> 00:26:20,400

ai post quantum computer autonomous

784

00:26:24,070 --> 00:26:20,960

drone

785

00:26:25,190 --> 00:26:24,080

end of quote does frank believe this is

786

00:26:27,990 --> 00:26:25,200

why the tic-tac

787

00:26:29,350 --> 00:26:28,000

can go at such fast speeds reportedly

788

00:26:31,750 --> 00:26:29,360

mach 18

789

00:26:33,350 --> 00:26:31,760

doing said nine degree turns without

790

00:26:36,070 --> 00:26:33,360

harming the pilot

791

00:26:38,630 --> 00:26:36,080

because the pilot is non-organic does

792

00:26:39,430 --> 00:26:38,640

frank believe that most ufos are piloted

793

00:26:41,350 --> 00:26:39,440

by ais

794

00:26:42,950 --> 00:26:41,360

so i'll just ask you he asked a few

795

00:26:43,590 --> 00:26:42,960

questions here let me ask the first one

796

00:26:46,549 --> 00:26:43,600

to you

797

00:26:48,630 --> 00:26:46,559

and that is does frank believe this is

798

00:26:50,870 --> 00:26:48,640

why the tic tac can go at such fast

799

00:26:52,950 --> 00:26:50,880

speeds reportedly mach 18

800

00:26:55,510 --> 00:26:52,960

doing sudden 90-degree turns without

801
00:26:57,510 --> 00:26:55,520
harming the pilot

802
00:26:58,549 --> 00:26:57,520
from what i understand from uh jack

803
00:27:00,310 --> 00:26:58,559
sofatti and

804
00:27:02,789 --> 00:27:00,320
you know at the end of the day he and

805
00:27:04,630 --> 00:27:02,799
eric davis would be the best people to

806
00:27:06,750 --> 00:27:04,640
direct these queries to and you can look

807
00:27:08,870 --> 00:27:06,760
at jacksonville's papers on

808
00:27:10,549 --> 00:27:08,880
academia.com uh from what i understand

809
00:27:11,909 --> 00:27:10,559
from jacksonville to use it the tic tac

810
00:27:13,269 --> 00:27:11,919
creates basically like a localized walk

811
00:27:14,710 --> 00:27:13,279
bubble so that means that basically

812
00:27:16,710 --> 00:27:14,720
within the craft

813
00:27:18,310 --> 00:27:16,720

it has maybe like a 1g environment which

814

00:27:19,590 --> 00:27:18,320

means that whatever g is going on around

815

00:27:21,430 --> 00:27:19,600

the craft it doesn't affect

816

00:27:22,870 --> 00:27:21,440

the pilot if if there were in fact you

817

00:27:24,470 --> 00:27:22,880

know biological entities

818

00:27:26,070 --> 00:27:24,480

within the craft i mean it can very well

819

00:27:27,909 --> 00:27:26,080

be that they are you know completely the

820

00:27:31,909 --> 00:27:27,919

autonomous ai and there's no

821

00:27:33,990 --> 00:27:31,919

biological entity within the crop okay

822

00:27:35,909 --> 00:27:34,000

yeah let me jump in here with a quick

823

00:27:36,470 --> 00:27:35,919

question uh going uh through your paper

824

00:27:39,510 --> 00:27:36,480

frank

825

00:27:41,350 --> 00:27:39,520

uh i saw a quote that uh i'm kind of

826
00:27:44,070 --> 00:27:41,360
chuckling to myself about it because it

827
00:27:46,070 --> 00:27:44,080
i think it's pretty accurate uh a very

828
00:27:46,870 --> 00:27:46,080
simple system is available to grade

829
00:27:49,430 --> 00:27:46,880
sources and

830
00:27:52,149 --> 00:27:49,440
information and the ufology would

831
00:27:54,070 --> 00:27:52,159
benefit greatly from its application

832
00:27:55,830 --> 00:27:54,080
then you go on regarding a source

833
00:27:59,430 --> 00:27:55,840
reliability is graded from

834
00:28:02,070 --> 00:27:59,440
a to f a being completely reliable f

835
00:28:02,470 --> 00:28:02,080
can't be judged information is graded

836
00:28:05,510 --> 00:28:02,480
from

837
00:28:08,149 --> 00:28:05,520
one to five again one being

838
00:28:09,350 --> 00:28:08,159

confirmed by other sources to five

839

00:28:11,510 --> 00:28:09,360

cannot be judged

840

00:28:13,110 --> 00:28:11,520

if a source chooses to remain anonymous

841

00:28:13,909 --> 00:28:13,120

then neither the source nor the

842

00:28:15,990 --> 00:28:13,919

information

843

00:28:18,230 --> 00:28:16,000

he or she provides can be assured in

844

00:28:19,430 --> 00:28:18,240

public so any claim based on either

845

00:28:21,830 --> 00:28:19,440

remains a

846

00:28:23,430 --> 00:28:21,840

theory or a supposition i thought that

847

00:28:24,149 --> 00:28:23,440

that was uh really interesting and i

848

00:28:26,310 --> 00:28:24,159

know

849

00:28:28,149 --> 00:28:26,320

part of what you do is uh sort of uh

850

00:28:30,230 --> 00:28:28,159

digging through data

851
00:28:31,510 --> 00:28:30,240
acquiring information that sort of thing

852
00:28:33,269 --> 00:28:31,520
uh can you

853
00:28:34,630 --> 00:28:33,279
expound on that a little bit because i

854
00:28:36,230 --> 00:28:34,640
think it's pretty interesting and uh

855
00:28:37,990 --> 00:28:36,240
pretty good advice

856
00:28:39,909 --> 00:28:38,000
yeah i mean that basically comes from

857
00:28:43,669 --> 00:28:39,919
sort of like a bog standard uh

858
00:28:44,789 --> 00:28:43,679
you know nato um nato methodology for

859
00:28:46,710 --> 00:28:44,799
assessing uh

860
00:28:47,990 --> 00:28:46,720
uh sources and the information that they

861
00:28:49,430 --> 00:28:48,000
provide following

862
00:28:51,669 --> 00:28:49,440
ufology is that you know there's so much

863
00:28:53,510 --> 00:28:51,679

kind of like out there

864

00:28:55,029 --> 00:28:53,520

providing completely unsubstantiated

865

00:28:57,190 --> 00:28:55,039

claims um

866

00:28:58,710 --> 00:28:57,200

i mean for example it's not a criticism

867

00:28:59,990 --> 00:28:58,720

but for example you know with the wilson

868

00:29:00,870 --> 00:29:00,000

documents that i reference it's like

869

00:29:02,870 --> 00:29:00,880

well you know

870

00:29:04,310 --> 00:29:02,880

he said this or i know somebody who said

871

00:29:04,630 --> 00:29:04,320

this and they're a very credible source

872

00:29:05,990 --> 00:29:04,640

well

873

00:29:07,669 --> 00:29:06,000

you know i need to know who that source

874

00:29:08,870 --> 00:29:07,679

is and that way i can assess whether

875

00:29:10,789 --> 00:29:08,880

whether they're credible and whether the

876
00:29:11,350 --> 00:29:10,799
information they provide is credible and

877
00:29:13,190 --> 00:29:11,360
i think

878
00:29:14,789 --> 00:29:13,200
if they were if they were more of that

879
00:29:16,870 --> 00:29:14,799
you know actually you know pinning down

880
00:29:18,310 --> 00:29:16,880
who or what the source is and and then

881
00:29:19,110 --> 00:29:18,320
comparing you know and then assessing

882
00:29:20,389 --> 00:29:19,120
the information

883
00:29:21,750 --> 00:29:20,399
and comparing that with informa with

884
00:29:22,549 --> 00:29:21,760
credible information that's been

885
00:29:24,630 --> 00:29:22,559
assessed

886
00:29:25,990 --> 00:29:24,640
correctly from other sources then

887
00:29:27,590 --> 00:29:26,000
there'd be uh you know a lot more sort

888
00:29:29,029 --> 00:29:27,600

of positivity and mythology

889

00:29:31,669 --> 00:29:29,039

in case instead of just you know what

890

00:29:34,630 --> 00:29:31,679

i've said is is theory and supposition

891

00:29:36,630 --> 00:29:34,640

which doesn't really help anybody yeah

892

00:29:37,350 --> 00:29:36,640

just uh just for your information uh

893

00:29:39,190 --> 00:29:37,360

chant

894

00:29:40,630 --> 00:29:39,200

uh just uh for your information that

895

00:29:43,590 --> 00:29:40,640

we've done a lot of digging

896

00:29:46,149 --> 00:29:43,600

on the wilson documents and uh some of

897

00:29:47,830 --> 00:29:46,159

it uh very interestingly checks out and

898

00:29:51,510 --> 00:29:47,840

some of it does not

899

00:29:53,350 --> 00:29:51,520

uh just uh really uh really quick uh

900

00:29:55,669 --> 00:29:53,360

just to follow up

901
00:29:56,710 --> 00:29:55,679
as far as when you're uh trying to dig

902
00:29:58,950 --> 00:29:56,720
through information

903
00:29:59,750 --> 00:29:58,960
uh what happens if you get that sort of

904
00:30:01,750 --> 00:29:59,760
mixed bag

905
00:30:02,950 --> 00:30:01,760
you know some some things check out some

906
00:30:05,430 --> 00:30:02,960
things don't i mean

907
00:30:07,430 --> 00:30:05,440
how do you uh do you break it apart do

908
00:30:10,070 --> 00:30:07,440
you do you judge the whole package and

909
00:30:11,510 --> 00:30:10,080
say uh a to f4 do you say well this

910
00:30:13,110 --> 00:30:11,520
checks out and this doesn't

911
00:30:14,549 --> 00:30:13,120
i mean we run into a lot of that in the

912
00:30:16,470 --> 00:30:14,559
ufo racket too

913
00:30:17,830 --> 00:30:16,480

uh especially with the uh the wilson

914

00:30:19,029 --> 00:30:17,840

documents yes

915

00:30:20,789 --> 00:30:19,039

yeah yeah there's a lot of things that

916

00:30:21,110 --> 00:30:20,799

you know that they're not going to check

917

00:30:24,389 --> 00:30:21,120

out

918

00:30:25,669 --> 00:30:24,399

furiously opposition i

919

00:30:27,430 --> 00:30:25,679

shouldn't what i should really have said

920

00:30:28,789 --> 00:30:27,440

is it really depends on the theory i

921

00:30:30,310 --> 00:30:28,799

mean some people come out with like you

922

00:30:32,149 --> 00:30:30,320

know fascinating theories

923

00:30:33,029 --> 00:30:32,159

um but they they don't provide any proof

924

00:30:34,230 --> 00:30:33,039

to them but that doesn't mean the

925

00:30:36,149 --> 00:30:34,240

theories aren't valid

926

00:30:37,830 --> 00:30:36,159

uh are not valid and then they're not

927

00:30:40,710 --> 00:30:37,840

worth um you know further

928

00:30:41,269 --> 00:30:40,720

exploration um richard dolan he's just

929

00:30:43,269 --> 00:30:41,279

uh

930

00:30:45,669 --> 00:30:43,279

written a fantastic new book alien

931

00:30:47,750 --> 00:30:45,679

agendas um

932

00:30:50,310 --> 00:30:47,760

some of that touches on the work of

933

00:30:52,070 --> 00:30:50,320

david jacob now david jacobs he's done

934

00:30:53,510 --> 00:30:52,080

for example he's done you know thousands

935

00:30:54,710 --> 00:30:53,520

and thousands of regressions to me he's

936

00:30:57,029 --> 00:30:54,720

very very credible

937

00:30:58,710 --> 00:30:57,039

um but can you definitely prove that the

938

00:30:59,350 --> 00:30:58,720

information that he's derived from those

939

00:31:01,590 --> 00:30:59,360

regressions

940

00:31:02,950 --> 00:31:01,600

is you know 100 accurate i don't know

941

00:31:04,389 --> 00:31:02,960

but it's definitely a very very

942

00:31:06,710 --> 00:31:04,399

interesting theory and i'm definitely

943

00:31:09,029 --> 00:31:06,720

interested to know more

944

00:31:10,789 --> 00:31:09,039

now you can have a situations for

945

00:31:13,029 --> 00:31:10,799

example where you've got a

946

00:31:14,630 --> 00:31:13,039

very reliable source okay you know who

947

00:31:16,389 --> 00:31:14,640

the source is maybe they want to remain

948

00:31:17,669 --> 00:31:16,399

anonymous for their own reasons and you

949

00:31:19,669 --> 00:31:17,679

respect that

950

00:31:21,029 --> 00:31:19,679

and uh they've heard something that they

951
00:31:22,950 --> 00:31:21,039
believe but

952
00:31:24,710 --> 00:31:22,960
they could be honestly mistaken i mean

953
00:31:26,950 --> 00:31:24,720
that this sort of uh

954
00:31:28,870 --> 00:31:26,960
parsing through uh information can be

955
00:31:30,950 --> 00:31:28,880
very very tricky in circumstances like

956
00:31:32,549 --> 00:31:30,960
that can it not

957
00:31:33,909 --> 00:31:32,559
yeah absolutely and that's why you kind

958
00:31:34,389 --> 00:31:33,919
of want to triangulate the information

959
00:31:36,149 --> 00:31:34,399
so

960
00:31:37,509 --> 00:31:36,159
that if you do have a fantastic you know

961
00:31:39,190 --> 00:31:37,519
somebody who comes out with something an

962
00:31:40,230 --> 00:31:39,200
extraordinary claim but they are a very

963
00:31:42,149 --> 00:31:40,240

credible source

964

00:31:43,590 --> 00:31:42,159

but you they they they're on their own

965

00:31:45,990 --> 00:31:43,600

cannot prove that uh

966

00:31:47,190 --> 00:31:46,000

that information what you know then you

967

00:31:47,750 --> 00:31:47,200

have a need to cross check it with

968

00:31:50,470 --> 00:31:47,760

another

969

00:31:52,870 --> 00:31:50,480

reliable source the conclusion i came to

970

00:31:53,909 --> 00:31:52,880

on the wilson docks which frank knows uh

971

00:31:56,870 --> 00:31:53,919

so well

972

00:31:57,669 --> 00:31:56,880

uh that i actually researched for a very

973

00:31:59,430 --> 00:31:57,679

long time

974

00:32:00,789 --> 00:31:59,440

from the point it actually hit the

975

00:32:04,230 --> 00:32:00,799

internet uh

976
00:32:04,870 --> 00:32:04,240
on basically until recently uh was that

977
00:32:07,669 --> 00:32:04,880
it uh

978
00:32:08,630 --> 00:32:07,679
is not authentic in its entirety as it

979
00:32:10,870 --> 00:32:08,640
stands

980
00:32:11,990 --> 00:32:10,880
um i did yeah and uh just to jump in

981
00:32:14,070 --> 00:32:12,000
there since uh frank

982
00:32:15,269 --> 00:32:14,080
uh obvi yeah i wouldn't be aware of our

983
00:32:18,470 --> 00:32:15,279
work and all that

984
00:32:21,590 --> 00:32:18,480
but uh yeah it uh to

985
00:32:23,990 --> 00:32:21,600
accept it as a legitimate document uh

986
00:32:26,789 --> 00:32:24,000
i i certainly wouldn't do that but uh we

987
00:32:29,029 --> 00:32:26,799
found over the years in the ufo field

988
00:32:30,230 --> 00:32:29,039

that a lot of times there are players

989

00:32:32,950 --> 00:32:30,240

and uh some of them are

990

00:32:34,710 --> 00:32:32,960

uh former intel guys and i don't know if

991

00:32:36,710 --> 00:32:34,720

his name has come up but a guy named

992

00:32:39,750 --> 00:32:36,720

richard dodie i don't know if you've

993

00:32:42,070 --> 00:32:39,760

uh come across that name in the past who

994

00:32:43,269 --> 00:32:42,080

who will uh you know uh who will uh put

995

00:32:45,509 --> 00:32:43,279

out the uh some

996

00:32:46,950 --> 00:32:45,519

uh fact-based fiction now some of the

997

00:32:48,950 --> 00:32:46,960

facts really do check out

998

00:32:50,310 --> 00:32:48,960

and it's very well researched but you're

999

00:32:52,710 --> 00:32:50,320

also finding uh

1000

00:32:54,389 --> 00:32:52,720

uh you know there's a a good bit of

1001

00:32:57,509 --> 00:32:54,399

fiction in there and to take it

1002

00:32:58,230 --> 00:32:57,519

uh as a literal truth is a kind of a

1003

00:33:00,870 --> 00:32:58,240

mistake

1004

00:33:02,950 --> 00:33:00,880

i guess you're using a a sort of a a

1005

00:33:04,710 --> 00:33:02,960

biblical parallel you can get some value

1006

00:33:06,549 --> 00:33:04,720

out of the bible without necessarily

1007

00:33:07,669 --> 00:33:06,559

believing that the universe was created

1008

00:33:09,669 --> 00:33:07,679

in six days

1009

00:33:10,789 --> 00:33:09,679

so that's the best analogy i can come up

1010

00:33:12,630 --> 00:33:10,799

with uh

1011

00:33:14,149 --> 00:33:12,640

you know anything else you can tell i

1012

00:33:15,029 --> 00:33:14,159

mean you've got the intelligence

1013

00:33:17,430 --> 00:33:15,039

background you

1014

00:33:18,549 --> 00:33:17,440

uh you've made a career out of uh

1015

00:33:20,870 --> 00:33:18,559

ferreting through what

1016

00:33:21,750 --> 00:33:20,880

i'm sure is oftentimes uh even a bigger

1017

00:33:24,070 --> 00:33:21,760

mess than

1018

00:33:26,070 --> 00:33:24,080

uh what we deal with in ufology uh

1019

00:33:27,750 --> 00:33:26,080

anything any other advice anything else

1020

00:33:28,950 --> 00:33:27,760

you can share with us on that

1021

00:33:31,269 --> 00:33:28,960

well i'll just say i mean yeah i mean

1022

00:33:33,029 --> 00:33:31,279

with the daily example i mean he was a

1023

00:33:34,549 --> 00:33:33,039

air force officer special investigations

1024

00:33:36,230 --> 00:33:34,559

officer so um

1025

00:33:37,669 --> 00:33:36,240

if i'm not if i'm not incorrect so part

1026

00:33:39,029 --> 00:33:37,679

of his remit would have been basically

1027

00:33:40,149 --> 00:33:39,039

to uh you know to provide this

1028

00:33:41,830 --> 00:33:40,159

information so that

1029

00:33:43,430 --> 00:33:41,840

perhaps if there were a you know a top

1030

00:33:45,430 --> 00:33:43,440

secret uh terrestrial

1031

00:33:46,710 --> 00:33:45,440

you know exotic project to make people

1032

00:33:49,110 --> 00:33:46,720

think that it was a ufo

1033

00:33:50,630 --> 00:33:49,120

so that you know diverts their attention

1034

00:33:52,070 --> 00:33:50,640

from the reality of the situation

1035

00:33:53,750 --> 00:33:52,080

but um the other problem i think in

1036

00:33:55,669 --> 00:33:53,760

ufology is the

1037

00:33:56,870 --> 00:33:55,679

kind of like charlatans involved uh you

1038

00:33:58,070 --> 00:33:56,880

know people just coming out with

1039

00:34:00,470 --> 00:33:58,080

absolute bs

1040

00:34:02,230 --> 00:34:00,480

which makes life which makes life very

1041

00:34:05,269 --> 00:34:02,240

very difficult and kind of you know

1042

00:34:09,030 --> 00:34:05,279

and miserable for genuine hard-working

1043

00:34:10,550 --> 00:34:09,040

um you know more conservative uh

1044

00:34:11,909 --> 00:34:10,560

ufologists who are actually doing a very

1045

00:34:13,270 --> 00:34:11,919

very good job and trying to uncover the

1046

00:34:15,349 --> 00:34:13,280

truth

1047

00:34:16,790 --> 00:34:15,359

and uh since uh we're on this track i

1048

00:34:18,389 --> 00:34:16,800

did want to ask you about this i told

1049

00:34:20,069 --> 00:34:18,399

chant that i wanted to ask you and

1050

00:34:22,470 --> 00:34:20,079

uh this seems as good a time as any to

1051
00:34:23,589 --> 00:34:22,480
bring it up uh over the last couple days

1052
00:34:25,750 --> 00:34:23,599
the former head of

1053
00:34:28,149 --> 00:34:25,760
israel's defense ministry space

1054
00:34:29,750 --> 00:34:28,159
directorate and i'm sure you can give a

1055
00:34:31,430 --> 00:34:29,760
little bit of background on

1056
00:34:33,430 --> 00:34:31,440
how important that uh particular

1057
00:34:36,710 --> 00:34:33,440
position is but he's the former head

1058
00:34:37,829 --> 00:34:36,720
uh heim a shed has uh gone on record so

1059
00:34:39,909 --> 00:34:37,839
he's a credible guy

1060
00:34:41,829 --> 00:34:39,919
he did hold that position and he's

1061
00:34:42,389 --> 00:34:41,839
saying some pretty extraordinary things

1062
00:34:44,790 --> 00:34:42,399
how

1063
00:34:46,149 --> 00:34:44,800

uh the extraterrestrials have been in

1064

00:34:48,149 --> 00:34:46,159

contact with us

1065

00:34:50,869 --> 00:34:48,159

that uh you know there's this uh

1066

00:34:53,510 --> 00:34:50,879

galactic federation out there

1067

00:34:55,430 --> 00:34:53,520

uh humans need to reach a stage where

1068

00:34:56,629 --> 00:34:55,440

we'll understand what the space and

1069

00:34:59,750 --> 00:34:56,639

spaceships are

1070

00:35:01,349 --> 00:34:59,760

and uh so on and so forth uh

1071

00:35:03,430 --> 00:35:01,359

can you tell us a little bit about the

1072

00:35:05,589 --> 00:35:03,440

importance of that particular position

1073

00:35:08,230 --> 00:35:05,599

and uh in your studies of the middle

1074

00:35:08,870 --> 00:35:08,240

east uh have you come across mr ashed i

1075

00:35:12,150 --> 00:35:08,880

did find

1076

00:35:13,030 --> 00:35:12,160

one story online from about maybe a

1077

00:35:15,510 --> 00:35:13,040

decade ago

1078

00:35:16,230 --> 00:35:15,520

where he was talking about israelis or

1079

00:35:18,310 --> 00:35:16,240

israel's

1080

00:35:20,470 --> 00:35:18,320

missile defense systems uh falling

1081

00:35:24,230 --> 00:35:20,480

behind technology wise so

1082

00:35:26,230 --> 00:35:24,240

uh he's uh he's he i i was frankly

1083

00:35:28,550 --> 00:35:26,240

shocked uh to see this but uh

1084

00:35:30,470 --> 00:35:28,560

i was all i was really questioning

1085

00:35:30,870 --> 00:35:30,480

whether or not the story was legitimate

1086

00:35:32,710 --> 00:35:30,880

it's so

1087

00:35:35,109 --> 00:35:32,720

out there uh do you have any thoughts on

1088

00:35:37,030 --> 00:35:35,119

what happened with all that

1089

00:35:38,390 --> 00:35:37,040

yeah i mean to be honest i'm not uh i

1090

00:35:40,310 --> 00:35:38,400

wasn't familiar with the guy before the

1091

00:35:42,230 --> 00:35:40,320

story broke i did actually reach out to

1092

00:35:44,069 --> 00:35:42,240

uh somebody at the basis center the

1093

00:35:45,990 --> 00:35:44,079

beginning of that center today

1094

00:35:47,750 --> 00:35:46,000

uh to ask them if they knew if they knew

1095

00:35:49,589 --> 00:35:47,760

him they said they knew of him

1096

00:35:51,349 --> 00:35:49,599

and i said well what do you make of the

1097

00:35:52,069 --> 00:35:51,359

the claims that that he's been making

1098

00:35:53,589 --> 00:35:52,079

and the guy

1099

00:35:54,790 --> 00:35:53,599

could have intimated what i don't know

1100

00:35:58,150 --> 00:35:54,800

is he having a kind of like a senior

1101
00:36:00,230 --> 00:35:58,160
moment maybe a bit of a mid-life or a

1102
00:36:01,510 --> 00:36:00,240
advanced life crisis i don't know i

1103
00:36:01,990 --> 00:36:01,520
don't really know enough about it to be

1104
00:36:03,589 --> 00:36:02,000
honest

1105
00:36:05,589 --> 00:36:03,599
um i've been doing a lot of other stuff

1106
00:36:07,430 --> 00:36:05,599
the last couple of days and it's already

1107
00:36:08,870 --> 00:36:07,440
been picked up by you know the jerusalem

1108
00:36:10,150 --> 00:36:08,880
post and others so really i'm kind of

1109
00:36:11,510 --> 00:36:10,160
like behind the curve on that and i'm

1110
00:36:12,069 --> 00:36:11,520
waiting to see what other people pick up

1111
00:36:14,870 --> 00:36:12,079
on it

1112
00:36:16,630 --> 00:36:14,880
uh can you can you confirm that uh being

1113
00:36:18,870 --> 00:36:16,640

the uh the head of israeli

1114

00:36:19,990 --> 00:36:18,880

uh israel's uh defense ministry space

1115

00:36:21,829 --> 00:36:20,000

director uh

1116

00:36:23,510 --> 00:36:21,839

that seems like it would be a fairly

1117

00:36:25,270 --> 00:36:23,520

important position

1118

00:36:27,430 --> 00:36:25,280

yeah absolutely and i mean he came from

1119

00:36:29,430 --> 00:36:27,440

from what i understand he came from he's

1120

00:36:31,589 --> 00:36:29,440

a colonel in uh

1121

00:36:33,190 --> 00:36:31,599

israel's military intelligence he spent

1122

00:36:34,310 --> 00:36:33,200

a lot of time a lot of time in technical

1123

00:36:35,829 --> 00:36:34,320

intelligence obviously because of his

1124

00:36:38,230 --> 00:36:35,839

scientific background as well

1125

00:36:40,230 --> 00:36:38,240

so if all that is the case and the guy

1126
00:36:41,829 --> 00:36:40,240
is legit i can't say that he is because

1127
00:36:43,910 --> 00:36:41,839
you know i've never heard of them before

1128
00:36:45,349 --> 00:36:43,920
yesterday um then yeah that would be

1129
00:36:49,030 --> 00:36:45,359
pretty significant for someone of his

1130
00:36:53,030 --> 00:36:51,670
okay uh so i'm gonna go and ask you

1131
00:36:56,230 --> 00:36:53,040
another question that is

1132
00:36:58,310 --> 00:36:56,240
uh from ruben uriata state director of

1133
00:37:00,230 --> 00:36:58,320
northern california's mufon chapter

1134
00:37:01,829 --> 00:37:00,240
he said number one should there be a

1135
00:37:05,990 --> 00:37:01,839
role for the united nations in

1136
00:37:09,030 --> 00:37:06,000
coordinating scientific findings on uaps

1137
00:37:09,750 --> 00:37:09,040
um i'd i'd reply should there have been

1138
00:37:11,829 --> 00:37:09,760

a role for

1139

00:37:14,069 --> 00:37:11,839

you know the world health organization

1140

00:37:15,109 --> 00:37:14,079

uh in uh coordinating the response to

1141

00:37:18,390 --> 00:37:15,119

covert 19.

1142

00:37:25,430 --> 00:37:18,400

uh did they do a good job um

1143

00:37:28,390 --> 00:37:26,710

you know they do some good work but

1144

00:37:28,870 --> 00:37:28,400

they're reliant they're only as good as

1145

00:37:39,589 --> 00:37:28,880

the

1146

00:37:40,550 --> 00:37:39,599

btp is keeping we've seen a lot of

1147

00:37:41,829 --> 00:37:40,560

problems where

1148

00:37:43,109 --> 00:37:41,839

you know if the russians don't agree

1149

00:37:44,630 --> 00:37:43,119

with what the americans are saying then

1150

00:37:45,670 --> 00:37:44,640

you then you have you know sanctions get

1151
00:37:48,310 --> 00:37:45,680
stimmed or

1152
00:37:49,990 --> 00:37:48,320
uh you know proposals get um you know uh

1153
00:37:51,349 --> 00:37:50,000
proposals don't go through precisely

1154
00:37:53,829 --> 00:37:51,359
because there's disagreement between

1155
00:37:54,790 --> 00:37:53,839
the you know the u.n security council so

1156
00:37:56,150 --> 00:37:54,800
really i'd say

1157
00:37:57,750 --> 00:37:56,160
is there a role for coordinating

1158
00:37:59,109 --> 00:37:57,760
scientific findings that the principal

1159
00:38:02,150 --> 00:37:59,119
governments of the world

1160
00:38:03,829 --> 00:38:02,160
um you know the best way would be for

1161
00:38:05,190 --> 00:38:03,839
them to coordinate scientific finds in

1162
00:38:07,349 --> 00:38:05,200
between them rather than going through

1163
00:38:09,430 --> 00:38:07,359

the un as a third party in my view but

1164

00:38:10,470 --> 00:38:09,440

as nobody you know in russia china and

1165

00:38:12,870 --> 00:38:10,480

the united states

1166

00:38:14,310 --> 00:38:12,880

is just standing around holding hands

1167

00:38:15,829 --> 00:38:14,320

and singing kumbaya i don't see that

1168

00:38:18,870 --> 00:38:15,839

happening for quite a long time

1169

00:38:21,190 --> 00:38:18,880

got it the number two question is uh

1170

00:38:22,069 --> 00:38:21,200

should there be more cooperation and

1171

00:38:24,470 --> 00:38:22,079

sharing data

1172

00:38:26,069 --> 00:38:24,480

among world governments and various

1173

00:38:29,750 --> 00:38:26,079

international agencies

1174

00:38:31,510 --> 00:38:29,760

i think he means uap related data

1175

00:38:35,349 --> 00:38:31,520

um not a few of the russians and the

1176

00:38:39,589 --> 00:38:37,030

and uh yeah just don't actually hear

1177

00:38:41,270 --> 00:38:39,599

that but oh yeah uh not fa you want the

1178

00:38:41,910 --> 00:38:41,280

russians and the chinese today okay and

1179

00:38:44,150 --> 00:38:41,920

then but

1180

00:38:45,270 --> 00:38:44,160

yeah jumping uh jumping question there's

1181

00:38:48,310 --> 00:38:45,280

a third question

1182

00:39:10,390 --> 00:38:48,320

and that is should these findings be

1183

00:39:17,910 --> 00:39:15,190

there we go

1184

00:39:19,990 --> 00:39:17,920

well so far so good chad yes thank you

1185

00:39:21,270 --> 00:39:20,000

that's just a good question there i just

1186

00:39:23,990 --> 00:39:21,280

have to ask it it's

1187

00:39:25,109 --> 00:39:24,000

it's really fast so i apologize oh

1188

00:39:28,150 --> 00:39:25,119

that's okay

1189

00:39:29,670 --> 00:39:28,160

um so the uh should these findings be

1190

00:39:31,270 --> 00:39:29,680

shared with the entire world community

1191

00:39:32,630 --> 00:39:31,280

is the third question and what are the

1192

00:39:35,910 --> 00:39:32,640

repercussions

1193

00:39:39,430 --> 00:39:35,920

when he says these findings he means uap

1194

00:39:41,190 --> 00:39:39,440

related data so the third question is

1195

00:39:42,470 --> 00:39:41,200

should these findings be shared meaning

1196

00:39:44,470 --> 00:39:42,480

ua uap

1197

00:39:46,710 --> 00:39:44,480

related data with the entire world

1198

00:39:47,030 --> 00:39:46,720

community and what are the repercussions

1199

00:39:55,190 --> 00:39:47,040

if

1200

00:39:57,109 --> 00:39:55,200

russians had a decisive advantage in

1201
00:39:58,790 --> 00:39:57,119
tic-tac-toe the chinese had a decisive

1202
00:39:59,990 --> 00:39:58,800
advantage why would they want to share

1203
00:40:02,390 --> 00:40:00,000
it with the rest of the world

1204
00:40:03,910 --> 00:40:02,400
um and potential adversaries nobody

1205
00:40:06,230 --> 00:40:03,920
would if you've got a

1206
00:40:07,190 --> 00:40:06,240
you know a major technological advance

1207
00:40:08,390 --> 00:40:07,200
that's going to give you a decisive

1208
00:40:09,430 --> 00:40:08,400
military advantage you're not going to

1209
00:40:09,990 --> 00:40:09,440
share that with anybody else

1210
00:40:11,190 --> 00:40:10,000
unfortunately

1211
00:40:13,510 --> 00:40:11,200
that's the situation that we find

1212
00:40:14,710 --> 00:40:13,520
ourselves in um and i'm glad you said

1213
00:40:17,670 --> 00:40:14,720

that thank you

1214

00:40:19,030 --> 00:40:17,680

i mean in an ideal in an ideal world um

1215

00:40:20,950 --> 00:40:19,040

you know mankind would be joining

1216

00:40:22,069 --> 00:40:20,960

together to embrace you know a possibly

1217

00:40:24,710 --> 00:40:22,079

benign

1218

00:40:26,790 --> 00:40:24,720

uh you know other civilization uh

1219

00:40:28,550 --> 00:40:26,800

superior intelligence that can help us

1220

00:40:30,230 --> 00:40:28,560

hopefully if it's benign and you know

1221

00:40:32,390 --> 00:40:30,240

resolve all the problems of the world

1222

00:40:33,510 --> 00:40:32,400

from slavery to starvation to the

1223

00:40:36,150 --> 00:40:33,520

environment

1224

00:40:36,950 --> 00:40:36,160

um but i don't see that as the case uh

1225

00:40:38,390 --> 00:40:36,960

you know

1226

00:40:40,150 --> 00:40:38,400

the the major powers of the world aren't

1227

00:40:41,190 --> 00:40:40,160

holding hands they're not friendly so i

1228

00:40:43,270 --> 00:40:41,200

don't see any of them

1229

00:40:45,190 --> 00:40:43,280

are going to share uh uap data between

1230

00:40:46,470 --> 00:40:45,200

them the americans

1231

00:40:48,309 --> 00:40:46,480

and the western alliance are going to

1232

00:40:49,430 --> 00:40:48,319

share information between them because

1233

00:40:50,309 --> 00:40:49,440

they're in an alliance but

1234

00:40:52,150 --> 00:40:50,319

they're not going to share them with the

1235

00:40:54,390 --> 00:40:52,160

russians and the chinese yeah we don't

1236

00:40:55,750 --> 00:40:54,400

live in a utopian world that's for sure

1237

00:40:58,150 --> 00:40:55,760

i'm sorry frank what question

1238

00:41:00,630 --> 00:40:58,160

yeah i did i want to jump in regarding a

1239

00:41:02,390 --> 00:41:00,640

quote that i picked up from louisando

1240

00:41:04,950 --> 00:41:02,400

this isn't exact but uh

1241

00:41:06,230 --> 00:41:04,960

it's uh accurate in terms of uh you know

1242

00:41:08,950 --> 00:41:06,240

essentially the uh

1243

00:41:09,589 --> 00:41:08,960

uh the gist of it he had said that if in

1244

00:41:13,270 --> 00:41:09,599

fact the

1245

00:41:16,150 --> 00:41:13,280

russians or chinese do have the kind of

1246

00:41:18,069 --> 00:41:16,160

technology that's proved evident in some

1247

00:41:21,430 --> 00:41:18,079

of these uap encounters

1248

00:41:23,910 --> 00:41:21,440

that if they did it would represent uh

1249

00:41:25,109 --> 00:41:23,920

an enormous uh failure of u.s

1250

00:41:27,510 --> 00:41:25,119

intelligence uh

1251

00:41:29,030 --> 00:41:27,520

uh can you expand on that uh do you

1252

00:41:30,630 --> 00:41:29,040

agree with it disagree with it would

1253

00:41:32,790 --> 00:41:30,640

qualify it

1254

00:41:33,990 --> 00:41:32,800

well he's absolutely right and i can't

1255

00:41:37,349 --> 00:41:34,000

rule it out but at the same

1256

00:41:40,470 --> 00:41:37,359

time i don't have i don't have uh

1257

00:41:43,750 --> 00:41:40,480

you know i'm not privy to american in

1258

00:41:45,190 --> 00:41:43,760

or western intelligence analyses on uh

1259

00:41:48,069 --> 00:41:45,200

chinese or russian technological

1260

00:41:49,430 --> 00:41:48,079

advancement nor am i privy to uh

1261

00:41:51,030 --> 00:41:49,440

you know counterintelligence

1262

00:41:51,829 --> 00:41:51,040

investigations which would uncover the

1263

00:41:53,829 --> 00:41:51,839

extent of

1264

00:41:55,270 --> 00:41:53,839

uh chinese and russian espionage against

1265

00:41:56,630 --> 00:41:55,280

the united states so i can only you know

1266

00:41:58,390 --> 00:41:56,640

give you a guesstimate

1267

00:41:59,670 --> 00:41:58,400

um i personally don't think the russians

1268

00:42:01,190 --> 00:41:59,680

are the chinese have it because if they

1269

00:42:02,630 --> 00:42:01,200

did you know as i said before then

1270

00:42:03,750 --> 00:42:02,640

you know they would use the technology

1271

00:42:05,349 --> 00:42:03,760

if you look at the history of like

1272

00:42:06,790 --> 00:42:05,359

secret weapons like world war one the

1273

00:42:08,630 --> 00:42:06,800

tank came out the brits used that to

1274

00:42:10,150 --> 00:42:08,640

break the stalemate on the western front

1275

00:42:12,069 --> 00:42:10,160

if you look at world war ii hitler you

1276

00:42:13,670 --> 00:42:12,079

know you had all these secret weapons v1

1277

00:42:14,470 --> 00:42:13,680

v2 he used them because he didn't want

1278

00:42:16,470 --> 00:42:14,480

to lose the war

1279

00:42:18,309 --> 00:42:16,480

you know jet aircraft appeared in world

1280

00:42:20,870 --> 00:42:18,319

war ii they're originally secret

1281

00:42:22,309 --> 00:42:20,880

um after the um you know to end the war

1282

00:42:23,510 --> 00:42:22,319

against the japanese the americans had

1283

00:42:24,550 --> 00:42:23,520

this massively secret project the

1284

00:42:26,550 --> 00:42:24,560

manhattan project

1285

00:42:28,309 --> 00:42:26,560

get to develop the atomic bomb they

1286

00:42:29,990 --> 00:42:28,319

ended up using that secret weapons end

1287

00:42:31,109 --> 00:42:30,000

up getting used stealth ended up getting

1288

00:42:32,630 --> 00:42:31,119

used in the first golf ball it was

1289

00:42:34,069 --> 00:42:32,640

relatively secret before that so if

1290

00:42:35,349 --> 00:42:34,079

you've got a decisive advantage and

1291

00:42:37,270 --> 00:42:35,359

you've got like a major water fight

1292

00:42:39,670 --> 00:42:37,280

you're going to use it

1293

00:42:40,790 --> 00:42:39,680

interesting very good and uh yeah

1294

00:42:43,270 --> 00:42:40,800

another question

1295

00:42:46,309 --> 00:42:43,280

that i have for you excuse me uh what uh

1296

00:42:49,750 --> 00:42:46,319

uh we're hearing so much uh regarding

1297

00:42:52,950 --> 00:42:49,760

uh uaps uh these days is that uh

1298

00:42:55,270 --> 00:42:52,960

uh it's uh what's going on now

1299

00:42:57,030 --> 00:42:55,280

is a what is uh of tantamount importance

1300

00:43:00,230 --> 00:42:57,040

and i do notice that

1301
00:43:02,630 --> 00:43:00,240
you mentioned uh project uh blue book in

1302
00:43:04,150 --> 00:43:02,640
your paper that uh you talked a little

1303
00:43:07,750 --> 00:43:04,160
about sign and grudge

1304
00:43:10,550 --> 00:43:07,760
predating all that uh what uh we've got

1305
00:43:12,470 --> 00:43:10,560
these historical encounters with ufos

1306
00:43:14,550 --> 00:43:12,480
that are basically doing the same thing

1307
00:43:18,069 --> 00:43:14,560
that everybody's up in arms about

1308
00:43:21,670 --> 00:43:18,079
they're flying over sensitive air space

1309
00:43:24,069 --> 00:43:21,680
fighter jets are uh you know sorted out

1310
00:43:26,390 --> 00:43:24,079
they they scramble out they go out they

1311
00:43:29,349 --> 00:43:26,400
encounter them they get reasonably close

1312
00:43:30,790 --> 00:43:29,359
and then the the ufo takes off i mean

1313
00:43:33,910 --> 00:43:30,800

this uh this goes back

1314

00:43:36,710 --> 00:43:33,920

realistically uh 75 years

1315

00:43:37,589 --> 00:43:36,720

uh but i don't see the the same sense of

1316

00:43:39,190 --> 00:43:37,599

history

1317

00:43:42,069 --> 00:43:39,200

that this is something that's been going

1318

00:43:44,309 --> 00:43:42,079

on so long in the discussions that

1319

00:43:46,069 --> 00:43:44,319

uh we're having in general today and

1320

00:43:50,150 --> 00:43:46,079

again i want to qualify that because

1321

00:43:53,510 --> 00:43:50,160

you talked about it in your paper but uh

1322

00:43:55,670 --> 00:43:53,520

yeah not that just in ufos but also in

1323

00:43:56,790 --> 00:43:55,680

any kind of international issues in

1324

00:44:00,150 --> 00:43:56,800

general

1325

00:44:01,349 --> 00:44:00,160

how big a history does does history or

1326

00:44:04,870 --> 00:44:01,359

how big a role

1327

00:44:06,309 --> 00:44:04,880

in current events and the thinking of

1328

00:44:08,630 --> 00:44:06,319

people who are making important

1329

00:44:10,470 --> 00:44:08,640

decisions about these types of

1330

00:44:11,829 --> 00:44:10,480

international interactions how big a

1331

00:44:14,230 --> 00:44:11,839

role does history play

1332

00:44:15,829 --> 00:44:14,240

is it uh underestimated should it play

1333

00:44:17,670 --> 00:44:15,839

uh more of a history can you talk about

1334

00:44:20,390 --> 00:44:17,680

that a little bit

1335

00:44:20,870 --> 00:44:20,400

with specific reference to sort of ufos

1336

00:44:23,510 --> 00:44:20,880

well yeah

1337

00:44:24,470 --> 00:44:23,520

ufos and i mean even in general uh you

1338

00:44:26,230 --> 00:44:24,480

know uh do

1339

00:44:28,230 --> 00:44:26,240

uh do the world leaders uh when they're

1340

00:44:29,589 --> 00:44:28,240

talking about uh anything and everything

1341

00:44:31,270 --> 00:44:29,599

uh do they pay enough attention to

1342

00:44:32,630 --> 00:44:31,280

history do you think

1343

00:44:34,390 --> 00:44:32,640

probably the world leaders don't but

1344

00:44:35,910 --> 00:44:34,400

their analysts do uh okay if we're

1345

00:44:37,430 --> 00:44:35,920

talking specifically to some of you at

1346

00:44:38,870 --> 00:44:37,440

ufos and uap

1347

00:44:39,990 --> 00:44:38,880

um i think it's you know incredibly

1348

00:44:41,190 --> 00:44:40,000

important you know some of the you know

1349

00:44:43,109 --> 00:44:41,200

the older cases

1350

00:44:44,710 --> 00:44:43,119

um effectively you know sort of in the

1351
00:44:45,829 --> 00:44:44,720
modern area i guess like you know seven

1352
00:44:47,670 --> 00:44:45,839
decades of

1353
00:44:49,349 --> 00:44:47,680
of cases i think the difference is you

1354
00:44:51,030 --> 00:44:49,359
know a lot of people now for them

1355
00:44:52,790 --> 00:44:51,040
for people younger people especially

1356
00:44:55,349 --> 00:44:52,800
it's like you know sort of modern

1357
00:44:56,790 --> 00:44:55,359
ufology started in uh you know 2004 with

1358
00:44:58,870 --> 00:44:56,800
nimitz but that's not the case

1359
00:44:59,990 --> 00:44:58,880
i think but in in the modern era i think

1360
00:45:00,870 --> 00:45:00,000
what it is i mean obviously you've got

1361
00:45:02,309 --> 00:45:00,880
you know

1362
00:45:04,309 --> 00:45:02,319
you've got completely different sensors

1363
00:45:06,630 --> 00:45:04,319

radars are far more sophisticated

1364

00:45:07,670 --> 00:45:06,640

aircraft sensors ship sensors satellite

1365

00:45:08,470 --> 00:45:07,680

sensors everything's far more

1366

00:45:10,069 --> 00:45:08,480

sophisticated

1367

00:45:11,430 --> 00:45:10,079

and also as well if you look at uh you

1368

00:45:13,030 --> 00:45:11,440

know for civilians you know everybody's

1369

00:45:13,510 --> 00:45:13,040

got a smartphone people have got like

1370

00:45:15,910 --> 00:45:13,520

you know

1371

00:45:16,950 --> 00:45:15,920

telescopes people have got to buying

1372

00:45:19,589 --> 00:45:16,960

skyhub now

1373

00:45:20,309 --> 00:45:19,599

you know which uh bob mcguire has been

1374

00:45:23,030 --> 00:45:20,319

you know uh

1375

00:45:24,230 --> 00:45:23,040

instrumental in helping develop so um

1376

00:45:25,750 --> 00:45:24,240

now you've got technologies

1377

00:45:27,430 --> 00:45:25,760

which used to be slowly the preserve of

1378

00:45:29,030 --> 00:45:27,440

the military are basically you know now

1379

00:45:30,790 --> 00:45:29,040

in the civilian sphere so that everybody

1380

00:45:33,750 --> 00:45:30,800

can can be watching this guy

1381

00:45:35,270 --> 00:45:33,760

so yeah and i'm really glad that you've

1382

00:45:37,030 --> 00:45:35,280

said all that because that segues very

1383

00:45:39,270 --> 00:45:37,040

neatly into something

1384

00:45:40,230 --> 00:45:39,280

that we kind of uh communicated a little

1385

00:45:43,829 --> 00:45:40,240

bit about

1386

00:45:46,470 --> 00:45:43,839

uh earlier and that is uh ufo historian

1387

00:45:47,109 --> 00:45:46,480

jan aldrich had mentioned a general

1388

00:45:49,589 --> 00:45:47,119

comment

1389

00:45:51,349 --> 00:45:49,599

about uh current ufology he had stated

1390

00:45:55,190 --> 00:45:51,359

uh ufo history

1391

00:45:56,550 --> 00:45:55,200

didn't start for like you said

1392

00:45:59,030 --> 00:45:56,560

along this line one of the best

1393

00:46:01,589 --> 00:45:59,040

investigative cases uh uh

1394

00:46:02,470 --> 00:46:01,599

one of the best investigated case was

1395

00:46:05,109 --> 00:46:02,480

minnow

1396

00:46:07,109 --> 00:46:05,119

uh frank do i do i pronounce it mono air

1397

00:46:07,990 --> 00:46:07,119

force base or minat i don't know how to

1398

00:46:10,710 --> 00:46:08,000

pronounce that

1399

00:46:11,589 --> 00:46:10,720

why not i think is what it is thank you

1400

00:46:14,150 --> 00:46:11,599

i know i

1401

00:46:17,349 --> 00:46:14,160

butchered that totally thank you guys

1402

00:46:18,150 --> 00:46:17,359

montana october 25th 1968 with radar

1403

00:46:20,150 --> 00:46:18,160

photos

1404

00:46:22,230 --> 00:46:20,160

uh it has been investigated by tom

1405

00:46:24,630 --> 00:46:22,240

tullian with some assistance from

1406

00:46:25,910 --> 00:46:24,640

jan aldrich and others and completely

1407

00:46:28,470 --> 00:46:25,920

reinvestigated by

1408

00:46:30,150 --> 00:46:28,480

abc news from scratch when lieutenant

1409

00:46:32,470 --> 00:46:30,160

colonel matson

1410

00:46:33,829 --> 00:46:32,480

from aaron's space museum in new mexico

1411

00:46:36,710 --> 00:46:33,839

saw the radar photo

1412

00:46:39,270 --> 00:46:36,720

he easily saw what happened on the radar

1413

00:46:41,430 --> 00:46:39,280

this case is in the too hard box

1414

00:46:43,030 --> 00:46:41,440

for both ufo advocates and skeptics to

1415

00:46:44,950 --> 00:46:43,040

avoid this case because it is too

1416

00:46:47,589 --> 00:46:44,960

complex

1417

00:46:48,390 --> 00:46:47,599

so actually jan did have a question for

1418

00:46:49,829 --> 00:46:48,400

you

1419

00:46:51,670 --> 00:46:49,839

but he just wanted to make another

1420

00:46:54,230 --> 00:46:51,680

comment and that is

1421

00:46:55,430 --> 00:46:54,240

ufo uh history books ufos in government

1422

00:46:57,910 --> 00:46:55,440

by dr michael

1423

00:46:58,710 --> 00:46:57,920

swords and robert powell five years in

1424

00:47:01,030 --> 00:46:58,720

the writing

1425

00:47:03,510 --> 00:47:01,040

recommended by the agency which uh

1426
00:47:05,910 --> 00:47:03,520
passes on books for university libraries

1427
00:47:07,510 --> 00:47:05,920
all the usual suspects have it harvard

1428
00:47:09,589 --> 00:47:07,520
yale northwest etc

1429
00:47:11,589 --> 00:47:09,599
ufo history on the cheap you know

1430
00:47:13,910 --> 00:47:11,599
meaning you can buy these books are

1431
00:47:14,710 --> 00:47:13,920
the report on ufos by captain edward

1432
00:47:18,550 --> 00:47:14,720
rupelt

1433
00:47:19,190 --> 00:47:18,560
ufo evidence uh uh edited by richard

1434
00:47:21,589 --> 00:47:19,200
hall

1435
00:47:22,630 --> 00:47:21,599
ufo cover up by barry greenwood and his

1436
00:47:25,190 --> 00:47:22,640
question to you is

1437
00:47:27,430 --> 00:47:25,200
one of his questions is during commander

1438
00:47:30,790 --> 00:47:27,440

favors chase

1439

00:47:31,990 --> 00:47:30,800

his radar was jammed fravor said this

1440

00:47:35,829 --> 00:47:32,000

was an hour

1441

00:47:38,790 --> 00:47:35,839

of war frank can you comment on this

1442

00:47:39,750 --> 00:47:38,800

yeah um for a military pilot if you have

1443

00:47:42,470 --> 00:47:39,760

uh

1444

00:47:44,870 --> 00:47:42,480

um electronic warfare used against you

1445

00:47:46,950 --> 00:47:44,880

like your radar jammed or if you have uh

1446

00:47:48,230 --> 00:47:46,960

for example a target lock on a missile

1447

00:47:50,390 --> 00:47:48,240

actively locked onto you

1448

00:47:52,230 --> 00:47:50,400

then that's an act of war in the context

1449

00:47:54,150 --> 00:47:52,240

of a carrier strike group

1450

00:47:55,750 --> 00:47:54,160

a the commander of the commanding

1451

00:47:57,589 --> 00:47:55,760

officer of the carrier strike group

1452

00:47:58,950 --> 00:47:57,599

in that event if one of his aircraft is

1453

00:48:01,190 --> 00:47:58,960

locked onto or

1454

00:48:02,950 --> 00:48:01,200

the ships or the aircraft start

1455

00:48:04,950 --> 00:48:02,960

experiencing jamming then

1456

00:48:05,990 --> 00:48:04,960

he will consider an act of war and he

1457

00:48:08,790 --> 00:48:06,000

has the ability to

1458

00:48:11,510 --> 00:48:08,800

act on that that is considered natural

1459

00:48:13,190 --> 00:48:11,520

thank you very much

1460

00:48:14,870 --> 00:48:13,200

and then another question that jen

1461

00:48:18,870 --> 00:48:14,880

aldrich has for you is

1462

00:48:23,670 --> 00:48:18,880

could you comment on the et hypothesis

1463

00:48:25,109 --> 00:48:23,680

and not man made the uh et hypothesis as

1464

00:48:28,870 --> 00:48:25,119

uh cited in your

1465

00:48:31,589 --> 00:48:28,880

in your paper yeah i mean the

1466

00:48:32,870 --> 00:48:31,599

the eth as i used it was uh you know

1467

00:48:36,390 --> 00:48:32,880

very simply means

1468

00:48:38,390 --> 00:48:36,400

uh you know from the same time frame

1469

00:48:39,990 --> 00:48:38,400

from uh you know same sort of physical

1470

00:48:41,829 --> 00:48:40,000

universe but just not from here

1471

00:48:43,670 --> 00:48:41,839

from a different point in space so

1472

00:48:45,270 --> 00:48:43,680

effectively the terrestrial uh you know

1473

00:48:46,870 --> 00:48:45,280

biological entity or

1474

00:48:49,750 --> 00:48:46,880

some entity that's conscious and

1475

00:48:51,910 --> 00:48:49,760

intelligent um the truth is i don't know

1476
00:48:53,349 --> 00:48:51,920
having spoken you know at length with

1477
00:48:55,109 --> 00:48:53,359
colonel john alexander

1478
00:48:56,790 --> 00:48:55,119
and all the stuff that i've read i mean

1479
00:48:58,150 --> 00:48:56,800
is it extraterrestrial is it

1480
00:49:01,190 --> 00:48:58,160
interdimensional

1481
00:49:02,630 --> 00:49:01,200
um if you talk to safati and uh and

1482
00:49:05,190 --> 00:49:02,640
and dr masters there you know

1483
00:49:05,910 --> 00:49:05,200
potentially thick tack is is technology

1484
00:49:08,790 --> 00:49:05,920
from the future

1485
00:49:09,510 --> 00:49:08,800
the fact is i don't know maybe somebody

1486
00:49:12,549 --> 00:49:09,520
we actually

1487
00:49:13,829 --> 00:49:12,559
have reviewed what was the last part of

1488
00:49:15,030 --> 00:49:13,839

what you said i didn't hear you

1489

00:49:17,030 --> 00:49:15,040

i was gonna say maybe somebody on

1490

00:49:19,430 --> 00:49:17,040

special access program knows but even

1491

00:49:20,710 --> 00:49:19,440

uh dr eric davis in the in the alejandra

1492

00:49:23,109 --> 00:49:20,720

rockers interview he's like well we

1493

00:49:25,430 --> 00:49:23,119

don't know where they're from so

1494

00:49:27,589 --> 00:49:25,440

tell us where they're from very good

1495

00:49:29,670 --> 00:49:27,599

points yeah we've actually had the

1496

00:49:30,710 --> 00:49:29,680

privilege and uh pleasure of

1497

00:49:34,309 --> 00:49:30,720

interviewing dr

1498

00:49:37,430 --> 00:49:34,319

michael uh masters and then also uh

1499

00:49:39,670 --> 00:49:37,440

colonel uh john alexander

1500

00:49:41,190 --> 00:49:39,680

both wonderful people and also just

1501

00:49:43,510 --> 00:49:41,200

wanted to read a little bit

1502

00:49:45,349 --> 00:49:43,520

regarding the paper that you wrote says

1503

00:49:47,030 --> 00:49:45,359

old school ufo weapons

1504

00:49:50,150 --> 00:49:47,040

theories respected old school

1505

00:49:51,829 --> 00:49:50,160

aeronautical engineer dr paul r hill

1506

00:49:53,270 --> 00:49:51,839

began to collect and analyze ufo

1507

00:49:54,950 --> 00:49:53,280

evidence in the 1950s

1508

00:49:56,549 --> 00:49:54,960

but could not publish anything ufo

1509

00:49:57,349 --> 00:49:56,559

related while employed as a senior

1510

00:49:59,910 --> 00:49:57,359

propulsion

1511

00:50:01,750 --> 00:49:59,920

and aeronautics engineering physicist by

1512

00:50:03,670 --> 00:50:01,760

nasa and its predecessor

1513

00:50:06,549 --> 00:50:03,680

the national advisory committee of

1514

00:50:08,230 --> 00:50:06,559

aeronautics after he died in 1991

1515

00:50:10,549 --> 00:50:08,240

unconventional flying objects was

1516

00:50:12,630 --> 00:50:10,559

finally published hill new ufo

1517

00:50:14,710 --> 00:50:12,640

technology so far exceeded

1518

00:50:16,790 --> 00:50:14,720

terrestrial technology that ufos could

1519

00:50:19,670 --> 00:50:16,800

not be of human design

1520

00:50:21,190 --> 00:50:19,680

and he favored the extra uh terrestrial

1521

00:50:23,030 --> 00:50:21,200

hypothesis

1522

00:50:24,790 --> 00:50:23,040

and then it goes on the stage the

1523

00:50:26,790 --> 00:50:24,800

advanced technologies relate mainly to

1524

00:50:28,549 --> 00:50:26,800

vehicle propulsive fields

1525

00:50:29,990 --> 00:50:28,559

being knowledgeable of u.s government

1526

00:50:31,910 --> 00:50:30,000

secrets on propulsion

1527

00:50:33,589 --> 00:50:31,920

i have known from the start that ufos

1528

00:50:35,430 --> 00:50:33,599

could not possibly be of earth

1529

00:50:37,910 --> 00:50:35,440

technology manufacturer

1530

00:50:39,190 --> 00:50:37,920

unconventional objects employ heat beams

1531

00:50:41,430 --> 00:50:39,200

paralyzing beams

1532

00:50:43,349 --> 00:50:41,440

and force beams as tools and weapons

1533

00:50:45,430 --> 00:50:43,359

generally applied in moderation

1534

00:50:46,470 --> 00:50:45,440

the ufo field engine like our atomic

1535

00:50:49,109 --> 00:50:46,480

power plants

1536

00:50:51,589 --> 00:50:49,119

has the property of being radioactive

1537

00:50:53,829 --> 00:50:51,599

ufos have made enough people sick

1538

00:50:55,750 --> 00:50:53,839

with the type of with the typical

1539

00:50:57,670 --> 00:50:55,760

symptoms of radiation poisoning

1540

00:50:59,910 --> 00:50:57,680

it is concluded that the observer is hit

1541

00:51:02,069 --> 00:50:59,920

or missed by the radioactive rays

1542

00:51:03,190 --> 00:51:02,079

depending on his proximity and the

1543

00:51:05,190 --> 00:51:03,200

sharpness of focus

1544

00:51:06,230 --> 00:51:05,200

of the harmful rays as well as whether

1545

00:51:08,390 --> 00:51:06,240

the ufo tilts

1546

00:51:09,589 --> 00:51:08,400

so that the rays strike the observer

1547

00:51:11,990 --> 00:51:09,599

source paul

1548

00:51:14,150 --> 00:51:12,000

r hill unconventional flying objects

1549

00:51:15,589 --> 00:51:14,160

hampton roads publishing 1995.

1550

00:51:17,750 --> 00:51:15,599

i think it's really important people

1551
00:51:20,309 --> 00:51:17,760
actually read your 58 page paper

1552
00:51:21,270 --> 00:51:20,319
you spend a lot of time on it and it's

1553
00:51:24,069 --> 00:51:21,280
extremely

1554
00:51:24,549 --> 00:51:24,079
extensive and i know you work very very

1555
00:51:27,270 --> 00:51:24,559
hard and

1556
00:51:27,829 --> 00:51:27,280
hard on it it has a lot of citations and

1557
00:51:30,230 --> 00:51:27,839
uh

1558
00:51:31,670 --> 00:51:30,240
anyway it's a it's a very educational

1559
00:51:33,589 --> 00:51:31,680
experience to read it

1560
00:51:34,950 --> 00:51:33,599
i did have another question for you from

1561
00:51:36,710 --> 00:51:34,960
keith basterfield

1562
00:51:38,950 --> 00:51:36,720
we all know keith he's a good friend of

1563
00:51:40,230 --> 00:51:38,960

ours we've interviewed him before i have

1564

00:51:43,829 --> 00:51:40,240

multiple times

1565

00:51:44,630 --> 00:51:43,839

and he stated actually he asked you two

1566

00:51:46,710 --> 00:51:44,640

questions

1567

00:51:48,829 --> 00:51:46,720

he said what started off your interest

1568

00:51:50,870 --> 00:51:48,839

in this

1569

00:51:52,790 --> 00:51:50,880

topic i mean my

1570

00:51:54,390 --> 00:51:52,800

i suppose my parents originally they

1571

00:51:56,150 --> 00:51:54,400

were kind of from the

1572

00:51:57,510 --> 00:51:56,160

sort of the the von danican you know

1573

00:52:00,790 --> 00:51:57,520

chariots of the gods

1574

00:52:02,390 --> 00:52:00,800

uh kind of generation um i've

1575

00:52:03,990 --> 00:52:02,400

actually got some books of my parents

1576

00:52:05,750 --> 00:52:04,000

going back to the 1960s which i was

1577

00:52:06,790 --> 00:52:05,760

amazed to find like uninvited visitors

1578

00:52:08,390 --> 00:52:06,800

where they were looking at you know

1579

00:52:09,589 --> 00:52:08,400

looking at ufos

1580

00:52:12,150 --> 00:52:09,599

i was always brought up to have a kind

1581

00:52:13,910 --> 00:52:12,160

of open mind about it um

1582

00:52:15,589 --> 00:52:13,920

i was always interested i read like

1583

00:52:17,270 --> 00:52:15,599

timothy good books and then i got into

1584

00:52:18,630 --> 00:52:17,280

kind of richard dolan

1585

00:52:20,309 --> 00:52:18,640

i really kind of got the bug for it

1586

00:52:20,870 --> 00:52:20,319

about three years ago getting you know

1587

00:52:24,230 --> 00:52:20,880

more

1588

00:52:26,069 --> 00:52:24,240

into richard dolan's work

1589

00:52:27,910 --> 00:52:26,079

um and then what actually got me wanting

1590

00:52:29,190 --> 00:52:27,920

to write the paper i was actually very

1591

00:52:31,430 --> 00:52:29,200

inspired by um

1592

00:52:32,790 --> 00:52:31,440

keith himself both by richard dolan's

1593

00:52:34,630 --> 00:52:32,800

work and also by keith though he was

1594

00:52:36,790 --> 00:52:34,640

talking on erica luke's channel

1595

00:52:38,470 --> 00:52:36,800

and he was talking about mentorings of

1596

00:52:39,109 --> 00:52:38,480

you know ufologists and new people to

1597

00:52:40,870 --> 00:52:39,119

the field

1598

00:52:42,150 --> 00:52:40,880

and he basically said like find a topic

1599

00:52:43,190 --> 00:52:42,160

that interests you

1600

00:52:44,470 --> 00:52:43,200

something maybe that other people

1601
00:52:45,829 --> 00:52:44,480
haven't covered and kind of go for it

1602
00:52:46,630 --> 00:52:45,839
start researching it and see where you

1603
00:52:48,150 --> 00:52:46,640
can go with it

1604
00:52:49,190 --> 00:52:48,160
and that really inspired me and that

1605
00:52:50,470 --> 00:52:49,200
made me think well actually hey i've

1606
00:52:51,750 --> 00:52:50,480
been writing about middle east stuff but

1607
00:52:53,109 --> 00:52:51,760
actually i'm really interested i like to

1608
00:52:54,870 --> 00:52:53,119
write something about uap

1609
00:52:56,630 --> 00:52:54,880
and that kind of inspired me to still

1610
00:52:59,589 --> 00:52:56,640
want to write about it

1611
00:53:00,390 --> 00:52:59,599
yeah yeah let me jump in real quick here

1612
00:53:02,069 --> 00:53:00,400
and uh

1613
00:53:03,990 --> 00:53:02,079

frank with your background in

1614

00:53:06,230 --> 00:53:04,000

intelligence uh i'm

1615

00:53:07,589 --> 00:53:06,240

i'm sure we certainly do it all the time

1616

00:53:08,950 --> 00:53:07,599

here we've got to do it we don't have

1617

00:53:11,270 --> 00:53:08,960

too much choice really

1618

00:53:14,230 --> 00:53:11,280

is you've got to make assessments based

1619

00:53:16,309 --> 00:53:14,240

on incomplete data sets and

1620

00:53:17,829 --> 00:53:16,319

uh since over the last three years

1621

00:53:19,589 --> 00:53:17,839

obviously things have really picked up

1622

00:53:21,990 --> 00:53:19,599

regarding the ufos

1623

00:53:23,990 --> 00:53:22,000

but what we're hearing about actual

1624

00:53:25,990 --> 00:53:24,000

cases is we've got the nimitz case of

1625

00:53:28,710 --> 00:53:26,000

course so we've got the roosevelt case

1626
00:53:29,270 --> 00:53:28,720
uh where the two videos came out and uh

1627
00:53:34,069 --> 00:53:29,280
uh

1628
00:53:35,349 --> 00:53:34,079
believe his first name was daniel if i

1629
00:53:37,990 --> 00:53:35,359
uh remember correctly

1630
00:53:40,309 --> 00:53:38,000
uh uh talked about uh their sighting uh

1631
00:53:42,230 --> 00:53:40,319
that was around 2015

1632
00:53:43,349 --> 00:53:42,240
and within the last week or so and other

1633
00:53:46,630 --> 00:53:43,359
stories come out

1634
00:53:48,390 --> 00:53:46,640
about a possible uh uh uh photograph

1635
00:53:51,990 --> 00:53:48,400
that was taken

1636
00:53:54,950 --> 00:53:52,000
uh perhaps uh uh from a uh a jet uh

1637
00:53:56,230 --> 00:53:54,960
going off the uh dwight eisenhower so

1638
00:53:59,270 --> 00:53:56,240

we're hearing about maybe

1639

00:54:01,030 --> 00:53:59,280

three and uh maybe another one i've got

1640

00:54:02,069 --> 00:54:01,040

uh i've got it confirmed from a good

1641

00:54:04,470 --> 00:54:02,079

source that

1642

00:54:06,309 --> 00:54:04,480

uh they they did look at the

1643

00:54:07,990 --> 00:54:06,319

stephenville case which took place in

1644

00:54:09,829 --> 00:54:08,000

texas in 2008

1645

00:54:11,190 --> 00:54:09,839

so you're talking about less than a

1646

00:54:13,910 --> 00:54:11,200

handful of actual

1647

00:54:15,750 --> 00:54:13,920

cases and it's a very uh with an

1648

00:54:17,990 --> 00:54:15,760

incomplete data set like that

1649

00:54:19,670 --> 00:54:18,000

uh all you can really do is look at this

1650

00:54:22,150 --> 00:54:19,680

ufo subject and say

1651
00:54:23,829 --> 00:54:22,160
well they can't be happening that often

1652
00:54:25,349 --> 00:54:23,839
these really extraordinary cases they

1653
00:54:27,430 --> 00:54:25,359
can't be happening that often

1654
00:54:29,430 --> 00:54:27,440
or we'd be living in a different world

1655
00:54:31,510 --> 00:54:29,440
but they're happening often enough

1656
00:54:33,750 --> 00:54:31,520
so can you can you speak to me a little

1657
00:54:36,470 --> 00:54:33,760
bit and maybe provide some advice

1658
00:54:38,069 --> 00:54:36,480
for the folks at home how do you handle

1659
00:54:40,870 --> 00:54:38,079
incomplete data sets uh when you're

1660
00:54:43,750 --> 00:54:40,880
looking to assess something

1661
00:54:44,309 --> 00:54:43,760
yeah that's the problem um you basically

1662
00:54:46,230 --> 00:54:44,319
realize

1663
00:54:47,990 --> 00:54:46,240

sometimes you know sort of gut instinct

1664

00:54:48,470 --> 00:54:48,000

uh you look at what's actually happened

1665

00:54:50,069 --> 00:54:48,480

before

1666

00:54:51,750 --> 00:54:50,079

try and piece together does it follow a

1667

00:54:53,190 --> 00:54:51,760

pattern is it does it follow a pattern

1668

00:54:54,630 --> 00:54:53,200

of something that's happened before

1669

00:54:57,349 --> 00:54:54,640

if somebody presents you with a bit of

1670

00:54:58,470 --> 00:54:57,359

information uh does it fit with

1671

00:55:00,630 --> 00:54:58,480

you know the overall kind of like

1672

00:55:02,789 --> 00:55:00,640

reality uh does it fit with what you've

1673

00:55:04,870 --> 00:55:02,799

heard before from other people

1674

00:55:06,069 --> 00:55:04,880

just on cases another great case that we

1675

00:55:09,670 --> 00:55:06,079

should forget about is the

1676

00:55:12,549 --> 00:55:09,680

aguadi uh uh puerto rico case

1677

00:55:13,510 --> 00:55:12,559

um yeah yeah yeah yeah which showed the

1678

00:55:16,230 --> 00:55:13,520

uh you know the

1679

00:55:18,549 --> 00:55:16,240

trans-medium craft which was actually

1680

00:55:20,789 --> 00:55:18,559

really fantastic case

1681

00:55:21,589 --> 00:55:20,799

in terms of data sets i think uh you

1682

00:55:24,789 --> 00:55:21,599

know people like the

1683

00:55:29,829 --> 00:55:27,510

for uap yeah yeah for us i mean they've

1684

00:55:32,150 --> 00:55:29,839

done absolutely fantastic work yeah with

1685

00:55:33,750 --> 00:55:32,160

the with the resources that they have

1686

00:55:34,630 --> 00:55:33,760

and with the data sets that they've been

1687

00:55:36,470 --> 00:55:34,640

provided with

1688

00:55:37,910 --> 00:55:36,480

and i definitely recommend anybody to uh

1689

00:55:39,349 --> 00:55:37,920

to go and look at their site

1690

00:55:41,030 --> 00:55:39,359

and actually i'm thinking about um you

1691

00:55:43,030 --> 00:55:41,040

know approaching them myself because uh

1692

00:55:45,109 --> 00:55:43,040

they're really really impressive bunch

1693

00:55:47,030 --> 00:55:45,119

yeah so what people yeah richard rich

1694

00:55:48,470 --> 00:55:47,040

hoffman was a really accessible guy so

1695

00:55:50,789 --> 00:55:48,480

yeah you should have no problem talking

1696

00:55:54,630 --> 00:55:52,549

heavily i referenced him heavily in my

1697

00:55:56,150 --> 00:55:54,640

in my paper um

1698

00:55:58,630 --> 00:55:56,160

but i think that's really the way ahead

1699

00:55:59,990 --> 00:55:58,640

um you know organizations like that i

1700

00:56:01,190 --> 00:56:00,000

mean they're really taking it uh you

1701

00:56:04,309 --> 00:56:01,200

know to the edge

1702

00:56:06,150 --> 00:56:04,319

in terms of the uh you know studies

1703

00:56:08,069 --> 00:56:06,160

so to our listeners uh if you're

1704

00:56:10,150 --> 00:56:08,079

interested in what uh frank is talking

1705

00:56:12,710 --> 00:56:10,160

about here what you do is you look up

1706

00:56:14,789 --> 00:56:12,720

the scu which is a scientific coalition

1707

00:56:17,910 --> 00:56:14,799

for uaps go ahead frank sorry

1708

00:56:20,069 --> 00:56:17,920

uh yeah i just uh wanted to ask a a

1709

00:56:21,750 --> 00:56:20,079

little bit of a follow-up question and

1710

00:56:22,390 --> 00:56:21,760

uh you know what i got distracted so i

1711

00:56:25,030 --> 00:56:22,400

forgot it

1712

00:56:26,470 --> 00:56:25,040

oh i'll jump back in before we get yeah

1713

00:56:28,069 --> 00:56:26,480

go ahead with what you got

1714

00:56:30,549 --> 00:56:28,079

that part two question that keith

1715

00:56:32,950 --> 00:56:30,559

basterfield had for um

1716

00:56:35,910 --> 00:56:32,960

frank and that is have you had any

1717

00:56:38,870 --> 00:56:35,920

official response from anyone in israel

1718

00:56:40,950 --> 00:56:38,880

and if so can you please touch upon that

1719

00:56:44,390 --> 00:56:40,960

topic

1720

00:56:47,589 --> 00:56:44,400

yeah i've spoken to um

1721

00:56:51,030 --> 00:56:47,599

i've spoken to uh sort of a

1722

00:56:53,829 --> 00:56:51,040

former israeli air force um

1723

00:56:55,030 --> 00:56:53,839

person but um i i'm not able to share

1724

00:56:57,750 --> 00:56:55,040

anything about that

1725

00:56:59,030 --> 00:56:57,760

um the focus of the paper i you know i

1726
00:56:59,510 --> 00:56:59,040
had it published with an israeli think

1727
00:57:01,829 --> 00:56:59,520
tank that

1728
00:57:03,349 --> 00:57:01,839
there wasn't any focus on on israel at

1729
00:57:04,710 --> 00:57:03,359
all some people said oh why isn't it

1730
00:57:06,549 --> 00:57:04,720
focused on israel well if you look at

1731
00:57:07,589 --> 00:57:06,559
the title it says the pentagon's uap to

1732
00:57:10,789 --> 00:57:07,599
task force right

1733
00:57:12,470 --> 00:57:10,799
like not tel aviv or the israeli um

1734
00:57:15,030 --> 00:57:12,480
you know the israel the israeli the

1735
00:57:17,349 --> 00:57:15,040
israeli uh defense forces uh

1736
00:57:18,390 --> 00:57:17,359
you know uap task force so it's focused

1737
00:57:19,829 --> 00:57:18,400
on very much on you know what's

1738
00:57:20,309 --> 00:57:19,839

happening uh you know in the american

1739

00:57:24,549 --> 00:57:20,319

side

1740

00:57:25,430 --> 00:57:24,559

any response from for anyone in israel

1741

00:57:27,430 --> 00:57:25,440

and to be honest

1742

00:57:29,109 --> 00:57:27,440

i didn't approach anybody in israel so i

1743

00:57:32,309 --> 00:57:29,119

had a very specific topic

1744

00:57:34,230 --> 00:57:32,319

that i wanted to cover and

1745

00:57:35,750 --> 00:57:34,240

uh i think you've made that clear and

1746

00:57:37,589 --> 00:57:35,760

also another show when you did an

1747

00:57:39,349 --> 00:57:37,599

interview i wanted to go ahead and also

1748

00:57:42,069 --> 00:57:39,359

ask another question

1749

00:57:44,309 --> 00:57:42,079

that jeff krauss the state director for

1750

00:57:47,589 --> 00:57:44,319

mufon southern california had for you

1751

00:57:50,950 --> 00:57:47,599

and he said this please ask frank

1752

00:57:53,349 --> 00:57:50,960

what he thinks of my theory that the tic

1753

00:57:55,270 --> 00:57:53,359

tacs are merely autonomous drones

1754

00:57:57,270 --> 00:57:55,280

that in some instances are used as

1755

00:57:58,549 --> 00:57:57,280

diversions to draw anyone interested

1756

00:58:01,190 --> 00:57:58,559

away from the real

1757

00:58:02,950 --> 00:58:01,200

asset do you have any uh comments you

1758

00:58:04,230 --> 00:58:02,960

like to make about that

1759

00:58:06,150 --> 00:58:04,240

yeah i mean they could they could very

1760

00:58:08,309 --> 00:58:06,160

well be i mean there's this the thing is

1761

00:58:09,829 --> 00:58:08,319

throughout history and this goes back to

1762

00:58:11,270 --> 00:58:09,839

um you know what we talked about in

1763

00:58:12,470 --> 00:58:11,280

terms of like uap history

1764

00:58:14,470 --> 00:58:12,480

there have been so many different

1765

00:58:15,510 --> 00:58:14,480

sightings of different craft a huge

1766

00:58:17,750 --> 00:58:15,520

variety of craft

1767

00:58:18,549 --> 00:58:17,760

a huge variety of occupants and so it's

1768

00:58:21,349 --> 00:58:18,559

quite possible

1769

00:58:22,549 --> 00:58:21,359

i mean uh humans use autonomous drones

1770

00:58:24,630 --> 00:58:22,559

right to go to mars

1771

00:58:26,630 --> 00:58:24,640

to go to go through the universe to go

1772

00:58:27,349 --> 00:58:26,640

to other planets to take cycles from

1773

00:58:29,190 --> 00:58:27,359

asteroids

1774

00:58:31,510 --> 00:58:29,200

and also as well on earth um you know

1775

00:58:33,190 --> 00:58:31,520

whether you know using drone technology

1776

00:58:34,470 --> 00:58:33,200

um if you want to instead of putting

1777

00:58:36,390 --> 00:58:34,480

people in harm's way you can use

1778

00:58:39,670 --> 00:58:36,400

machines to do that right

1779

00:58:41,349 --> 00:58:39,680

yeah and now uh jan aldrich

1780

00:58:43,990 --> 00:58:41,359

actually did have another question for

1781

00:58:46,230 --> 00:58:44,000

you and he asked elizondo

1782

00:58:49,349 --> 00:58:46,240

and to a certain extent christopher

1783

00:58:51,829 --> 00:58:49,359

mellon spent years talking to ufo people

1784

00:58:52,789 --> 00:58:51,839

who have little money understanding our

1785

00:58:54,470 --> 00:58:52,799

credibility

1786

00:58:55,829 --> 00:58:54,480

instead of scientists and national

1787

00:59:00,470 --> 00:58:55,839

security professions

1788

00:59:02,309 --> 00:59:00,480

etc can you please comment on this topic

1789

00:59:04,069 --> 00:59:02,319

well i don't know from what i've seen if

1790

00:59:05,349 --> 00:59:04,079

you look at unidentified

1791

00:59:06,950 --> 00:59:05,359

their programming and they're talking to

1792

00:59:08,470 --> 00:59:06,960

a lot of former military professionals

1793

00:59:09,910 --> 00:59:08,480

they're talking to pilots i mean

1794

00:59:11,990 --> 00:59:09,920

you know you've got some great witnesses

1795

00:59:13,190 --> 00:59:12,000

right there in terms of the ufo people

1796

00:59:16,150 --> 00:59:13,200

they talk to they talk to

1797

00:59:16,549 --> 00:59:16,160

uh they talk to robert hastings who's

1798

00:59:19,030 --> 00:59:16,559

you know

1799

00:59:19,990 --> 00:59:19,040

basically the ufo and nukes guru they

1800

00:59:22,470 --> 00:59:20,000

talked to uh

1801
00:59:23,670 --> 00:59:22,480
david muller he wrote the fantastic book

1802
00:59:25,190 --> 00:59:23,680
on triangle ufos

1803
00:59:26,710 --> 00:59:25,200
which had the forward written to it by

1804
00:59:28,549 --> 00:59:26,720
colonel john alexander so

1805
00:59:29,990 --> 00:59:28,559
i don't know if i really agree with with

1806
00:59:31,109 --> 00:59:30,000
that statement

1807
00:59:33,270 --> 00:59:31,119
but then again i don't know all the

1808
00:59:36,309 --> 00:59:33,280
other people that they've spoken to true

1809
00:59:38,069 --> 00:59:36,319
true right i i understand um frank i

1810
00:59:39,510 --> 00:59:38,079
actually had some of your questions did

1811
00:59:41,190 --> 00:59:39,520
you want me to read a few of those uh

1812
00:59:42,630 --> 00:59:41,200
well i remembered mine i

1813
00:59:44,069 --> 00:59:42,640

just brain cramped a little bit while i

1814

00:59:44,870 --> 00:59:44,079

was looking at the board sorry about

1815

00:59:48,230 --> 00:59:44,880

that

1816

00:59:51,390 --> 00:59:48,240

sticks uh

1817

00:59:54,230 --> 00:59:51,400

in my craw a little bit uh regards uh uh

1818

00:59:56,309 --> 00:59:54,240

classification of uh of data uh that

1819

00:59:57,109 --> 00:59:56,319

could be useful to the outside world

1820

00:59:59,829 --> 00:59:57,119

pers uh

1821

01:00:00,630 --> 00:59:59,839

uh specifically the uh the the science

1822

01:00:02,870 --> 01:00:00,640

community

1823

01:00:04,710 --> 01:00:02,880

uh there was an example of this uh this

1824

01:00:07,270 --> 01:00:04,720

goes back a ways uh

1825

01:00:07,990 --> 01:00:07,280

the navy had apparently mapped the ocean

1826

01:00:11,030 --> 01:00:08,000

floor

1827

01:00:12,710 --> 01:00:11,040

uh back in the 1930s this actually uh uh

1828

01:00:15,190 --> 01:00:12,720

predates world war two

1829

01:00:16,630 --> 01:00:15,200

that information was classified for a

1830

01:00:19,109 --> 01:00:16,640

long time and it turns out

1831

01:00:19,829 --> 01:00:19,119

uh once it was declassified uh

1832

01:00:22,470 --> 01:00:19,839

scientists

1833

01:00:23,030 --> 01:00:22,480

were able to get hold of it and uh uh

1834

01:00:24,870 --> 01:00:23,040

come up

1835

01:00:27,349 --> 01:00:24,880

with some theories uh regarding uh the

1836

01:00:27,990 --> 01:00:27,359

earth's crust and continental drift and

1837

01:00:29,910 --> 01:00:28,000

all that

1838

01:00:32,150 --> 01:00:29,920

uh can you talk a little bit about you

1839

01:00:34,950 --> 01:00:32,160

know why things get classified

1840

01:00:36,950 --> 01:00:34,960

i think you would agree uh that a lot of

1841

01:00:38,630 --> 01:00:36,960

things get classified that don't really

1842

01:00:39,990 --> 01:00:38,640

need to be and now can you talk about

1843

01:00:42,789 --> 01:00:40,000

that process a little bit

1844

01:00:44,549 --> 01:00:42,799

and uh what you think of it well that

1845

01:00:46,069 --> 01:00:44,559

specific case about the ocean floor i

1846

01:00:47,349 --> 01:00:46,079

wasn't aware of it but i'd imagine it's

1847

01:00:48,950 --> 01:00:47,359

because you know they don't want to give

1848

01:00:50,789 --> 01:00:48,960

advantage to

1849

01:00:52,630 --> 01:00:50,799

other countries uh navies and

1850

01:00:54,870 --> 01:00:52,640

specifically their subsurface fleet

1851

01:01:01,829 --> 01:00:54,880

um yeah there are gonna be cases where

1852

01:01:05,430 --> 01:01:03,190

there are going to be cases where

1853

01:01:07,829 --> 01:01:05,440

countries have uh

1854

01:01:08,870 --> 01:01:07,839

uh you know excessive secrecy laws and

1855

01:01:10,390 --> 01:01:08,880

my country britain

1856

01:01:12,150 --> 01:01:10,400

is one of them um you know they were

1857

01:01:14,230 --> 01:01:12,160

late freedom of information

1858

01:01:15,910 --> 01:01:14,240

uh about uaps especially whereas other

1859

01:01:16,630 --> 01:01:15,920

countries like you know france and italy

1860

01:01:17,910 --> 01:01:16,640

were

1861

01:01:19,430 --> 01:01:17,920

already being a lot more forthcoming

1862

01:01:20,870 --> 01:01:19,440

with their citizens so yeah there's

1863

01:01:23,430 --> 01:01:20,880

always going to be cases where there's

1864

01:01:25,510 --> 01:01:23,440

excessive secrecy

1865

01:01:27,829 --> 01:01:25,520

okay well i just want to thank frank for

1866

01:01:29,510 --> 01:01:27,839

having been on our show tonight uh

1867

01:01:31,430 --> 01:01:29,520

you allowed us to go ahead and ask you

1868

01:01:33,990 --> 01:01:31,440

just about anything that we uh

1869

01:01:36,150 --> 01:01:34,000

so desired and i really recommend folks

1870

01:01:37,510 --> 01:01:36,160

please do check out his fantastic paper

1871

01:01:39,670 --> 01:01:37,520

that he wrote

1872

01:01:41,109 --> 01:01:39,680

and uh you know it's a really

1873

01:01:44,150 --> 01:01:41,119

wonderfully written paper

1874

01:01:45,190 --> 01:01:44,160

and he worked very hard on it and we

1875

01:01:46,390 --> 01:01:45,200

appreciate your

1876

01:01:48,870 --> 01:01:46,400

time here we look forward to

1877

01:01:50,950 --> 01:01:48,880

interviewing you again in the future

1878

01:01:52,549 --> 01:01:50,960

thank you both very very much yeah frank

1879

01:01:55,349 --> 01:01:52,559

it was great and i would

1880

01:01:55,670 --> 01:01:55,359

highly recommend i'll post a link to it

1881

01:01:57,670 --> 01:01:55,680

uh

1882

01:01:59,990 --> 01:01:57,680

in the file once we get it uploaded over

1883

01:02:01,589 --> 01:02:00,000

on youtube and uh to tell you the truth

1884

01:02:03,910 --> 01:02:01,599

you know uh people are coming to this

1885

01:02:05,589 --> 01:02:03,920

particular subject all the time

1886

01:02:07,430 --> 01:02:05,599

not everybody who's new to it that

1887

01:02:09,349 --> 01:02:07,440

started the three years ago

1888

01:02:10,710 --> 01:02:09,359

when all this stuff picked up so if

1889

01:02:12,069 --> 01:02:10,720

you're looking to play catch up you're

1890

01:02:15,430 --> 01:02:12,079

just getting into it now

1891

01:02:17,510 --> 01:02:15,440

uh really i mean it's uh uh well frank i

1892

01:02:19,270 --> 01:02:17,520

do want to ask you one question it's

1893

01:02:20,710 --> 01:02:19,280

quite a paper but why did you stop if

1894

01:02:21,270 --> 01:02:20,720

you'd gone on a little bit longer you

1895

01:02:26,870 --> 01:02:21,280

might have

1896

01:02:29,910 --> 01:02:28,470

i had a specific kind of mission in mind

1897

01:02:31,910 --> 01:02:29,920

that i wanted to accomplish

1898

01:02:34,150 --> 01:02:31,920

and it actually was a lot longer than i

1899

01:02:35,270 --> 01:02:34,160

expected it to be initially i was

1900

01:02:37,910 --> 01:02:35,280

thinking it would just be like sort of

1901

01:02:39,670 --> 01:02:37,920

four pages

1902

01:02:41,190 --> 01:02:39,680

it deserved to have it deserved to have

1903

01:02:42,950 --> 01:02:41,200

the topics covered properly

1904

01:02:44,870 --> 01:02:42,960

yeah but uh seriously if you're looking

1905

01:02:46,470 --> 01:02:44,880

to play catch-up on the subject

1906

01:02:49,029 --> 01:02:46,480

that is the paper that you want to read

1907

01:02:50,309 --> 01:02:49,039

i would say i mean really it's all kind

1908

01:02:52,390 --> 01:02:50,319

of in there so

1909

01:02:53,430 --> 01:02:52,400

uh you know go take a look at it

1910

01:02:55,349 --> 01:02:53,440

absolutely

1911

01:02:57,349 --> 01:02:55,359

yeah and thank you very much for having

1912

01:02:58,789 --> 01:02:57,359

taken the uh time to write it because i

1913

01:03:00,069 --> 01:02:58,799

know you didn't just write it one night

1914

01:03:02,470 --> 01:03:00,079

it took a long time

1915

01:03:03,670 --> 01:03:02,480

and it took a lot of effort so thank you

1916

01:03:05,190 --> 01:03:03,680

thank you both very much

1917

01:03:06,710 --> 01:03:05,200

yeah and uh thanks so much for joining

1918

01:03:09,270 --> 01:03:06,720

us i really appreciate it

1919

01:03:10,870 --> 01:03:09,280

so uh we're gonna wrap up now and uh

1920

01:03:12,390 --> 01:03:10,880

thanks everybody for joining us at chant

1921

01:03:13,990 --> 01:03:12,400

do we have anything on the agenda for

1922

01:03:16,390 --> 01:03:14,000

this weekend

1923

01:03:17,270 --> 01:03:16,400

um we do but we're going to let frank go

1924

01:03:19,109 --> 01:03:17,280

now and he'll

1925

01:03:20,950 --> 01:03:19,119

just continue talking after you go so

1926

01:03:23,670 --> 01:03:20,960

thank you frank very much

1927

01:03:25,430 --> 01:03:23,680

much appreciated frank thanks so much um

1928

01:03:28,390 --> 01:03:25,440

actually yes we do

1929

01:03:29,109 --> 01:03:28,400

have um a special guest he'll be on this

1930

01:03:31,670 --> 01:03:29,119

weekend

1931

01:03:32,470 --> 01:03:31,680

and uh i think that we'll have him on on

1932

01:03:37,430 --> 01:03:32,480

saturday

1933

01:03:41,349 --> 01:03:39,589

well let's just wait because uh you know

1934

01:03:44,549 --> 01:03:41,359

saturday's a few days off and anything

1935

01:03:45,349 --> 01:03:44,559

yeah that's okay so yeah we've been busy

1936

01:03:48,870 --> 01:03:45,359

again lately

1937

01:03:49,750 --> 01:03:48,880

i'm kind of glad you brought this up

1938

01:03:53,029 --> 01:03:49,760

because on

1939

01:03:53,910 --> 01:03:53,039

um december 13th as i stated on our

1940

01:03:55,910 --> 01:03:53,920

other show

1941

01:03:57,109 --> 01:03:55,920

i have an end of the year show where i'm

1942

01:03:59,670 --> 01:03:57,119

probably going to have

1943

01:04:01,510 --> 01:03:59,680

about 20 different guests i will have

1944

01:04:03,270 --> 01:04:01,520

multiple scientists on that show i think

1945

01:04:07,029 --> 01:04:03,280

i'll have a doctor

1946

01:04:08,630 --> 01:04:07,039

and also a police officer and

1947

01:04:10,950 --> 01:04:08,640

many folks who are forensic

1948

01:04:14,470 --> 01:04:10,960

investigators regarding the ufo

1949

01:04:15,109 --> 01:04:14,480

uap topic but yeah all of these folks

1950

01:04:17,670 --> 01:04:15,119

have spent

1951

01:04:19,270 --> 01:04:17,680

the better part of their lives or or

1952

01:04:22,870 --> 01:04:19,280

many years dedicated to

1953

01:04:25,750 --> 01:04:22,880

the ufo slash uap topic

1954

01:04:25,990 --> 01:04:25,760

and we'll be covering that end of your

1955

01:04:29,750 --> 01:04:26,000

show

1956

01:04:32,150 --> 01:04:29,760

on december 13th at 4 p.m pacific

1957

01:04:33,109 --> 01:04:32,160

time so invite all of our listeners to

1958

01:04:35,349 --> 01:04:33,119

listen to that

1959

01:04:36,230 --> 01:04:35,359

and i'll be publishing that to my

1960

01:04:38,150 --> 01:04:36,240

channel

1961

01:04:39,430 --> 01:04:38,160

and just thank you very much for having

1962

01:04:39,990 --> 01:04:39,440

us what we're going to cover this week

1963

01:04:42,069 --> 01:04:40,000

because we're

1964

01:04:43,430 --> 01:04:42,079

going to cover two things one is uh

1965

01:04:46,309 --> 01:04:43,440

that's uh we're going to have a

1966

01:04:47,990 --> 01:04:46,319

wonderful special guest on saturday uh

1967

01:04:49,589 --> 01:04:48,000

who's actually known worldwide

1968

01:04:51,430 --> 01:04:49,599

and then i'll be having that end of year

1969

01:04:52,150 --> 01:04:51,440

show myself for my channel the chant

1970

01:04:54,309 --> 01:04:52,160

hannah show

1971

01:04:55,349 --> 01:04:54,319

there we go and then i've got a vacation

1972

01:04:58,150 --> 01:04:55,359

coming up

1973

01:05:00,230 --> 01:04:58,160

uh let's see at the end of next week so

1974

01:05:01,990 --> 01:05:00,240

i'm really looking forward to that

1975

01:05:03,910 --> 01:05:02,000

yeah and maybe we can do a few more

1976

01:05:06,829 --> 01:05:03,920

shows well maybe maybe we probably

1977

01:05:09,190 --> 01:05:06,839

probably will get one or two in anyway

1978

01:05:12,230 --> 01:05:09,200

yeah

1979

01:05:13,829 --> 01:05:12,240

absolutely

1980

01:05:15,670 --> 01:05:13,839

well i did a little bit more on the last

1981

01:05:15,990 --> 01:05:15,680

show and then you kind of carried the

1982

01:05:17,270 --> 01:05:16,000

ball

1983

01:05:18,950 --> 01:05:17,280

on this one but i did have a few

1984

01:05:19,349 --> 01:05:18,960

questions for frank and now he's a great

1985

01:05:21,270 --> 01:05:19,359

guest

1986

01:05:23,109 --> 01:05:21,280

absolutely yeah so i hope we hear more

1987

01:05:25,109 --> 01:05:23,119

from him as time goes on

1988

01:05:26,710 --> 01:05:25,119

i just want to tell our guests if you

1989

01:05:28,470 --> 01:05:26,720

heard anything in the background i can

1990

01:05:31,510 --> 01:05:28,480

tell you what that was

1991

01:05:33,750 --> 01:05:31,520

he has little kitties little cats

1992

01:05:35,270 --> 01:05:33,760

taken care of and sometimes they get a

1993

01:05:37,270 --> 01:05:35,280

little rambunctious

1994

01:05:39,589 --> 01:05:37,280

and uh yeah he was just telling us

1995

01:05:40,710 --> 01:05:39,599

earlier how his headset was destroyed by

1996

01:05:42,549 --> 01:05:40,720

one of them so

1997

01:05:43,829 --> 01:05:42,559

i mean i don't know if our listeners

1998

01:05:45,990 --> 01:05:43,839

have had cats but

1999

01:05:47,750 --> 01:05:46,000

i have i've had to take care of uh

2000

01:05:49,109 --> 01:05:47,760

little little kitties uh he has little

2001

01:05:51,430 --> 01:05:49,119

little babies and

2002

01:05:52,230 --> 01:05:51,440

some cats and uh i know they'll like

2003

01:05:54,390 --> 01:05:52,240

hang on me

2004

01:05:55,910 --> 01:05:54,400

or you know they'll hang on stuff or

2005

01:05:57,349 --> 01:05:55,920

they'll just with their claws or their

2006

01:05:58,950 --> 01:05:57,359

teeth just destroy stuff

2007

01:06:00,870 --> 01:05:58,960

in a tenth of a second so you have to

2008

01:06:03,190 --> 01:06:00,880

like take care of that pretty quickly

2009

01:06:05,430 --> 01:06:03,200

cats are a threat yeah right they're

2010

01:06:07,589 --> 01:06:05,440

actually they're real threats

2011

01:06:09,109 --> 01:06:07,599

but anyway thank you so much yeah it was

2012

01:06:11,589 --> 01:06:09,119

a really lovely show

2013

01:06:13,029 --> 01:06:11,599

yeah i appreciate it chant and uh let me

2014

01:06:13,750 --> 01:06:13,039

uh get off the air let's uh wrap

2015

01:06:16,710 --> 01:06:13,760

everything up

2016

01:06:17,270 --> 01:06:16,720

i guess uh looks like i will uh 99

2017

01:06:19,670 --> 01:06:17,280

chance

2018

01:06:20,630 --> 01:06:19,680

we'll be doing something this weekend so
