

UFO NEWS UPDATE

TWO WEEKS NOTICE:

ELIZONDO, MELLON & JUSTICE LEAVE TTSA
DID UFONN EXPOSE PLAY A ROLE?

UFONN
SUNDAY

1
00:00:02,920 --> 00:00:14,910

[Music]

2
00:00:19,910 --> 00:00:17,510

um

3
00:00:22,550 --> 00:00:19,920

and good evening from philadelphia frank

4
00:00:24,630 --> 00:00:22,560

here with another episode of ufo news

5
00:00:27,349 --> 00:00:24,640

network sunday we're all set to go

6
00:00:28,870 --> 00:00:27,359

uh let me not waste any time uh it is

7
00:00:30,070 --> 00:00:28,880

the holiday weekend so we want to get

8
00:00:32,389 --> 00:00:30,080

this one knocked out pretty

9
00:00:33,590 --> 00:00:32,399

quick we should actually probably be

10
00:00:36,150 --> 00:00:33,600

able to keep this show

11
00:00:38,389 --> 00:00:36,160

under under two hours for sure so let me

12
00:00:41,030 --> 00:00:38,399

bring in my co-host for the evening

13
00:00:42,150 --> 00:00:41,040

as always chad hannah chant uh how's it

14

00:00:43,990 --> 00:00:42,160

going today

15

00:00:45,590 --> 00:00:44,000

it's going great frank thank you so much

16

00:00:49,830 --> 00:00:45,600

i look forward to the show tonight

17

00:00:53,350 --> 00:00:51,750

yeah i know you've got some technical

18

00:00:53,830 --> 00:00:53,360

things going on in the background i've

19

00:00:55,830 --> 00:00:53,840

got you

20

00:00:57,590 --> 00:00:55,840

a little bit distracted so it looks like

21

00:00:58,069 --> 00:00:57,600

i'm gonna have to carry the ball here a

22

00:00:59,830 --> 00:00:58,079

little bit

23

00:01:01,830 --> 00:00:59,840

oh whatever but that but that's okay

24

00:01:04,710 --> 00:01:01,840

that's it so uh yeah we

25

00:01:06,630 --> 00:01:04,720

had a really big week uh this past week

26
00:01:07,990 --> 00:01:06,640
uh some rather shocking news coming out

27
00:01:11,190 --> 00:01:08,000
of ttsa

28
00:01:13,109 --> 00:01:11,200
uh all at once uh the same time same bat

29
00:01:16,789 --> 00:01:13,119
channel same station and all that

30
00:01:19,190 --> 00:01:16,799
uh lou elizondo christopher mellon

31
00:01:20,149 --> 00:01:19,200
and the steve justice have all decided

32
00:01:23,510 --> 00:01:20,159
to up and

33
00:01:26,390 --> 00:01:23,520
leave the to the stars academy uh

34
00:01:27,990 --> 00:01:26,400
very surprising news there so let's uh

35
00:01:29,590 --> 00:01:28,000
let's get into the details

36
00:01:31,350 --> 00:01:29,600
uh basically let's say we're getting a

37
00:01:34,469 --> 00:01:31,360
little ahead of ourselves there

38
00:01:35,590 --> 00:01:34,479

and uh basically uh a week ago sunday we

39

00:01:37,749 --> 00:01:35,600

could go tonight

40

00:01:40,390 --> 00:01:37,759

uh lou elizondo was sort of hitting

41

00:01:42,469 --> 00:01:40,400

around this during an interview on

42

00:01:43,910 --> 00:01:42,479

coast to coast with george knapp uh

43

00:01:46,630 --> 00:01:43,920

basically indicate

44

00:01:47,190 --> 00:01:46,640

and then the following day uh monday uh

45

00:01:55,749 --> 00:01:47,200

he

46

00:01:57,670 --> 00:01:55,759

uh this was posted over on knapp's

47

00:01:59,910 --> 00:01:57,680

mystery wire a website

48

00:02:01,190 --> 00:01:59,920

uh elizondo indicated the current uap

49

00:02:04,550 --> 00:02:01,200

task force is obtained

50

00:02:07,429 --> 00:02:04,560

okay but basically uh he uh mellon

51
00:02:11,029 --> 00:02:07,439
and justice are out at the to the stars

52
00:02:14,229 --> 00:02:13,589
a sec here let me go to this next slide

53
00:02:16,309 --> 00:02:14,239
and

54
00:02:18,390 --> 00:02:16,319
uh basically outlined what he

55
00:02:20,790 --> 00:02:18,400
accomplished as far as he's concerned uh

56
00:02:22,869 --> 00:02:20,800
it's uh it's all done basically in the

57
00:02:24,550 --> 00:02:22,879
last three years you had three videos

58
00:02:25,270 --> 00:02:24,560
released that were on us government

59
00:02:26,790 --> 00:02:25,280
systems

60
00:02:28,550 --> 00:02:26,800
had three videos confirmed to be

61
00:02:30,790 --> 00:02:28,560
authentic by the us government

62
00:02:32,470 --> 00:02:30,800
have three videos that detect truly

63
00:02:35,270 --> 00:02:32,480

anomalous characteristics

64

00:02:36,070 --> 00:02:35,280

uh admitted by the u.s government uh the

65

00:02:38,150 --> 00:02:36,080

u.s government

66

00:02:39,509 --> 00:02:38,160

admitting that that the a-tip program is

67

00:02:40,229 --> 00:02:39,519

real you had the u.s government

68

00:02:42,869 --> 00:02:40,239

admitting

69

00:02:44,790 --> 00:02:42,879

at various stages that atip studied ufos

70

00:02:46,710 --> 00:02:44,800

you had senior members of congress

71

00:02:49,110 --> 00:02:46,720

acknowledging a-tip was real you had

72

00:02:50,949 --> 00:02:49,120

classified briefings being provided

73

00:02:53,509 --> 00:02:50,959

to key congressional members and their

74

00:02:56,070 --> 00:02:53,519

staff you had the establishment of a uap

75

00:02:57,750 --> 00:02:56,080

task force you had military eyewitnesses

76

00:02:58,869 --> 00:02:57,760

coming out now in public having the

77

00:03:00,869 --> 00:02:58,879

conversation

78

00:03:02,470 --> 00:03:00,879

you have other countries like japan now

79

00:03:05,030 --> 00:03:02,480

wanting to share their uap

80

00:03:07,110 --> 00:03:05,040

information you had major media outlets

81

00:03:08,550 --> 00:03:07,120

now reporting on and taking seriously

82

00:03:11,910 --> 00:03:08,560

the uap topic

83

00:03:14,229 --> 00:03:11,920

and also uh he mentions the

84

00:03:16,550 --> 00:03:14,239

interview with the cia director uh

85

00:03:18,070 --> 00:03:16,560

former cia director john brennan

86

00:03:20,229 --> 00:03:18,080

we'll talk a little bit more about that

87

00:03:21,270 --> 00:03:20,239

later so uh basically he goes down the

88

00:03:23,670 --> 00:03:21,280

checklist of

89

00:03:24,789 --> 00:03:23,680

uh what he feels that he's accomplished

90

00:03:27,030 --> 00:03:24,799

over the last uh

91

00:03:28,470 --> 00:03:27,040

uh three years and i i certainly

92

00:03:30,710 --> 00:03:28,480

wouldn't argue with that

93

00:03:34,309 --> 00:03:30,720

uh let's see let me see if i can find

94

00:03:37,990 --> 00:03:36,060

real quick

95

00:03:47,190 --> 00:03:38,000

[Music]

96

00:03:50,789 --> 00:03:47,200

there we go

97

00:03:52,869 --> 00:03:50,799

yeah let me pop this in here as well

98

00:03:54,309 --> 00:03:52,879

now go ahead uh chant if you yeah what

99

00:03:56,789 --> 00:03:54,319

do you think about all this while i

100

00:03:57,750 --> 00:03:56,799

try to add an additional uh slide i've

101
00:03:59,589 --> 00:03:57,760
got together

102
00:04:01,509 --> 00:03:59,599
well i don't think this decision was

103
00:04:05,750 --> 00:04:01,519
made overnight i think this

104
00:04:07,910 --> 00:04:05,760
is it sounds to me intuitively

105
00:04:09,190 --> 00:04:07,920
sort of a long time coming maybe long

106
00:04:12,149 --> 00:04:09,200
time meaning

107
00:04:13,990 --> 00:04:12,159
if a long time to somebody's you know

108
00:04:16,310 --> 00:04:14,000
half a year or a year or something like

109
00:04:18,710 --> 00:04:16,320
that maybe maybe even less time than

110
00:04:20,789 --> 00:04:18,720
that but i don't think this was just

111
00:04:22,550 --> 00:04:20,799
uh something that was like a rash

112
00:04:24,310 --> 00:04:22,560
decision it sounds like it was very well

113
00:04:24,950 --> 00:04:24,320

thought out by these folks who decided

114

00:04:28,629 --> 00:04:24,960

to

115

00:04:30,390 --> 00:04:28,639

move on from tssa and uh

116

00:04:31,830 --> 00:04:30,400

if there's that many people leaving all

117

00:04:34,310 --> 00:04:31,840

at once they think there must have been

118

00:04:36,070 --> 00:04:34,320

a general consensus as to why

119

00:04:38,310 --> 00:04:36,080

you know in other words common

120

00:04:39,909 --> 00:04:38,320

denominators between all of those people

121

00:04:42,550 --> 00:04:39,919

as to why they would be leaving at the

122

00:04:45,110 --> 00:04:42,560

same time there might be

123

00:04:45,909 --> 00:04:45,120

separate separate issues that they felt

124

00:04:48,469 --> 00:04:45,919

they had

125

00:04:50,070 --> 00:04:48,479

rather not issues but challenges or

126
00:04:53,430 --> 00:04:50,080
differences of opinion

127
00:04:56,790 --> 00:04:53,440
and in some cases but i think overall

128
00:04:59,590 --> 00:04:56,800
it's not it's not um

129
00:05:00,230 --> 00:04:59,600
it's not a little crazy to think that

130
00:05:04,870 --> 00:05:00,240
they

131
00:05:07,590 --> 00:05:04,880
have shared common denominators

132
00:05:09,029 --> 00:05:07,600
as to why they may have decided to leave

133
00:05:10,710 --> 00:05:09,039
around the same time

134
00:05:12,950 --> 00:05:10,720
well yeah leaving at the same time is

135
00:05:13,990 --> 00:05:12,960
also kind of a take this job and shove

136
00:05:15,749 --> 00:05:14,000
it sort of

137
00:05:17,990 --> 00:05:15,759
uh indicator i mean that's uh that's

138
00:05:20,790 --> 00:05:18,000

what i'm looking at here anyway

139

00:05:22,830 --> 00:05:20,800

uh again i i have to be as conservative

140

00:05:25,990 --> 00:05:22,840

as possible because

141

00:05:28,390 --> 00:05:26,000

um i just don't know

142

00:05:29,430 --> 00:05:28,400

and i know i know you know that's sort

143

00:05:31,590 --> 00:05:29,440

of like

144

00:05:34,070 --> 00:05:31,600

the thing is this talk show hosts

145

00:05:35,909 --> 00:05:34,080

they're in the position of

146

00:05:37,510 --> 00:05:35,919

you know at times needing to speculate

147

00:05:39,749 --> 00:05:37,520

which makes sense

148

00:05:41,270 --> 00:05:39,759

um but in this case i want to be very

149

00:05:43,430 --> 00:05:41,280

careful because

150

00:05:44,629 --> 00:05:43,440

we might find out years later something

151

00:05:46,790 --> 00:05:44,639

completely different

152

00:05:49,110 --> 00:05:46,800

like a totally different story as to

153

00:05:52,230 --> 00:05:49,120

what really happened so

154

00:05:53,430 --> 00:05:52,240

um for right now i'm just gonna say

155

00:05:55,909 --> 00:05:53,440

it sounds like there may have been

156

00:05:56,870 --> 00:05:55,919

common denominators amongst the folks

157

00:06:00,150 --> 00:05:56,880

that left

158

00:06:02,390 --> 00:06:00,160

but i'm not sure exactly what it is

159

00:06:04,150 --> 00:06:02,400

i i think that lou out of all of them

160

00:06:06,469 --> 00:06:04,160

might be a little bit more verbal

161

00:06:07,670 --> 00:06:06,479

for a while regarding why they did leave

162

00:06:11,110 --> 00:06:07,680

but i imagine that

163

00:06:14,309 --> 00:06:11,120

melon might come out on um

164

00:06:17,029 --> 00:06:14,319

you know mainstream media maybe a

165

00:06:17,830 --> 00:06:17,039

a while from now and indicate his

166

00:06:20,870 --> 00:06:17,840

perspective

167

00:06:22,390 --> 00:06:20,880

as to why he felt the way he did as far

168

00:06:24,629 --> 00:06:22,400

as sleeping

169

00:06:25,430 --> 00:06:24,639

well they have to be a little bit

170

00:06:27,029 --> 00:06:25,440

concerned

171

00:06:28,790 --> 00:06:27,039

you would think about the public

172

00:06:30,390 --> 00:06:28,800

relations of it and

173

00:06:31,830 --> 00:06:30,400

again you're right i mean we we

174

00:06:34,390 --> 00:06:31,840

speculate here

175

00:06:34,870 --> 00:06:34,400

but we're speculating on the what we're

176
00:06:36,950 --> 00:06:34,880
seeing

177
00:06:38,150 --> 00:06:36,960
you know it's a fact i'm not sure that

178
00:06:39,110 --> 00:06:38,160
they're worried about the public

179
00:06:42,950 --> 00:06:39,120
relations of it

180
00:06:44,469 --> 00:06:42,960
if they aren't with ttsa now uh

181
00:06:46,150 --> 00:06:44,479
you know if they were still on the team

182
00:06:48,950 --> 00:06:46,160
sure but you know they don't have to

183
00:06:52,309 --> 00:06:48,960
abide by a ttsa's public relations

184
00:06:55,189 --> 00:06:52,319
uh worries or challenges so to speak

185
00:06:57,029 --> 00:06:55,199
but uh they don't they don't but they

186
00:06:58,230 --> 00:06:57,039
don't have to sort of stick the knife in

187
00:06:59,990 --> 00:06:58,240
either and that seems like

188
00:07:01,589 --> 00:07:00,000

that's exactly what they did here i've

189

00:07:03,110 --> 00:07:01,599

got another slide up now this is the

190

00:07:05,189 --> 00:07:03,120

quote i was looking for i should have

191

00:07:06,629 --> 00:07:05,199

popped this into the slideshow and uh

192

00:07:07,909 --> 00:07:06,639

you got these slides too i think you'll

193

00:07:10,469 --> 00:07:07,919

be able to pick it up

194

00:07:12,550 --> 00:07:10,479

this is again a quote from elizondo

195

00:07:14,550 --> 00:07:12,560

going back to his sunday night

196

00:07:16,150 --> 00:07:14,560

interview on coast to coast with knapp

197

00:07:18,230 --> 00:07:16,160

i'll tell you from my perspective

198

00:07:19,589 --> 00:07:18,240

i love my friends at ttsa they are

199

00:07:21,350 --> 00:07:19,599

incredible human beings

200

00:07:22,950 --> 00:07:21,360

but i also have to say my mission has

201
00:07:25,589 --> 00:07:22,960
always been very clear george

202
00:07:26,150 --> 00:07:25,599
and that was to push disclosure forward

203
00:07:27,909 --> 00:07:26,160
that's it

204
00:07:29,350 --> 00:07:27,919
i think after three years you know i can

205
00:07:31,270 --> 00:07:29,360
look back and i think we've achieved

206
00:07:34,469 --> 00:07:31,280
much of what we set out to do

207
00:07:35,909 --> 00:07:34,479
ttsa it's no secret also focuses on its

208
00:07:37,830 --> 00:07:35,919
entertainment division and you know

209
00:07:39,749 --> 00:07:37,840
let's face it guys like chris mellon

210
00:07:41,589 --> 00:07:39,759
steve justice and myself we're not

211
00:07:43,430 --> 00:07:41,599
entertainers uh so

212
00:07:45,430 --> 00:07:43,440
very much like the history channel

213
00:07:47,189 --> 00:07:45,440

project we have accomplished our mission

214

00:07:48,790 --> 00:07:47,199

mission success we have done more in

215

00:07:51,270 --> 00:07:48,800

three years collectively

216

00:07:52,070 --> 00:07:51,280

than anybody i think really expected us

217

00:07:53,909 --> 00:07:52,080

to achieve

218

00:07:55,749 --> 00:07:53,919

and i would certainly agree with that

219

00:07:59,430 --> 00:07:55,759

last sentence but again

220

00:08:02,790 --> 00:07:59,440

i mean what's telling here is you know i

221

00:08:03,430 --> 00:08:02,800

i love my friends at tsa but again he

222

00:08:06,230 --> 00:08:03,440

doesn't

223

00:08:06,869 --> 00:08:06,240

uh give any mention to de long uh let's

224

00:08:09,350 --> 00:08:06,879

face it

225

00:08:10,869 --> 00:08:09,360

the guy is uh he was sort of the tip of

226

00:08:13,589 --> 00:08:10,879

the spear in terms of

227

00:08:15,830 --> 00:08:13,599

getting this entire project attention

228

00:08:17,990 --> 00:08:15,840

early on and through that startup phase

229

00:08:20,390 --> 00:08:18,000

uh yeah he faded out and there was

230

00:08:22,550 --> 00:08:20,400

always a lot of talk a lot of rumor that

231

00:08:23,510 --> 00:08:22,560

his behavior was at times less than

232

00:08:25,830 --> 00:08:23,520

professional

233

00:08:27,990 --> 00:08:25,840

and that caused some some real problems

234

00:08:29,110 --> 00:08:28,000

there he was basically invisible during

235

00:08:31,990 --> 00:08:29,120

the second

236

00:08:33,750 --> 00:08:32,000

season of the history channel show so uh

237

00:08:37,190 --> 00:08:33,760

there have been some issues there

238

00:08:38,709 --> 00:08:37,200

but uh by the same token you know

239

00:08:40,389 --> 00:08:38,719

it seems like they're really kicking

240

00:08:46,310 --> 00:08:40,399

these guys on the way out

241

00:08:46,320 --> 00:08:50,630

let's get to it

242

00:08:54,310 --> 00:08:53,829

okay yeah next slide here this uh coming

243

00:08:57,350 --> 00:08:54,320

from

244

00:08:57,590 --> 00:08:57,360

a to the stars academy the transcript of

245

00:08:59,829 --> 00:08:57,600

an

246

00:09:01,990 --> 00:08:59,839

investors meeting uh where it's brought

247

00:09:03,990 --> 00:09:02,000

up that this was already been an issue

248

00:09:05,750 --> 00:09:04,000

for to the stars of people coming and

249

00:09:07,269 --> 00:09:05,760

going and there's always that kind of

250

00:09:07,750 --> 00:09:07,279

natural attrition you're going to have

251
00:09:10,630 --> 00:09:07,760
that

252
00:09:11,990 --> 00:09:10,640
but very early on gary nolan was on and

253
00:09:15,190 --> 00:09:12,000
then he moved along

254
00:09:16,070 --> 00:09:15,200
uh and i i won't get into the details of

255
00:09:18,630 --> 00:09:16,080
all that i think it's

256
00:09:19,990 --> 00:09:18,640
been discussed here in the past and then

257
00:09:21,990 --> 00:09:20,000
uh kong keller her

258
00:09:23,590 --> 00:09:22,000
he was on that he moved on but they kind

259
00:09:25,590 --> 00:09:23,600
of moved on quietly and

260
00:09:27,509 --> 00:09:25,600
they didn't do it right at the same time

261
00:09:27,910 --> 00:09:27,519
this is very loud this is going out

262
00:09:30,790 --> 00:09:27,920
through

263
00:09:32,710 --> 00:09:30,800

george knapp's uh different uh media

264

00:09:33,829 --> 00:09:32,720

outlets uh coast to coast and then his

265

00:09:36,150 --> 00:09:33,839

mystery wire

266

00:09:38,550 --> 00:09:36,160

and it's all happening at the same time

267

00:09:41,110 --> 00:09:38,560

again i i can't view this as anything

268

00:09:43,509 --> 00:09:41,120

other than a real kick at tsa

269

00:09:45,110 --> 00:09:43,519

i just can't do it that way if they

270

00:09:46,070 --> 00:09:45,120

really cared about their friends over

271

00:09:47,990 --> 00:09:46,080

there

272

00:09:51,030 --> 00:09:48,000

i mean why sort of bunch up and walk out

273

00:09:52,870 --> 00:09:51,040

the door uh all at the same time

274

00:09:54,790 --> 00:09:52,880

why would you do that okay one guy

275

00:09:56,870 --> 00:09:54,800

leaves quietly at one point

276

00:09:58,710 --> 00:09:56,880

a couple three months later another guy

277

00:10:00,150 --> 00:09:58,720

moves along a couple three months later

278

00:10:03,030 --> 00:10:00,160

another guy moves along

279

00:10:04,949 --> 00:10:03,040

and you don't really really take this

280

00:10:06,790 --> 00:10:04,959

public shot at tsa

281

00:10:08,630 --> 00:10:06,800

and i think the way it was done and the

282

00:10:11,750 --> 00:10:08,640

fact that it was done by all three

283

00:10:13,269 --> 00:10:11,760

at the same time uh i i can't

284

00:10:14,870 --> 00:10:13,279

read this any other way i mean i'm

285

00:10:15,829 --> 00:10:14,880

looking at what's in front of me what's

286

00:10:18,389 --> 00:10:15,839

out there

287

00:10:19,910 --> 00:10:18,399

not relying on any uh sort of back

288

00:10:22,230 --> 00:10:19,920

channel scuttle but

289

00:10:23,190 --> 00:10:22,240

which there's been they're extremely

290

00:10:25,829 --> 00:10:23,200

unhappy with

291

00:10:27,030 --> 00:10:25,839

what happened uh regarding uh their

292

00:10:29,430 --> 00:10:27,040

continued

293

00:10:31,430 --> 00:10:29,440

uh staying on with ttsa i i don't see

294

00:10:33,910 --> 00:10:31,440

how you can read it any other way

295

00:10:35,750 --> 00:10:33,920

well it just sounds like the goals of

296

00:10:39,430 --> 00:10:35,760

ttsa

297

00:10:43,269 --> 00:10:39,440

and the the goals of these three folks

298

00:10:45,910 --> 00:10:43,279

uh former ttsa members did not align

299

00:10:46,710 --> 00:10:45,920

that's really all it sounds like to me

300

00:10:49,990 --> 00:10:46,720

and i i

301
00:10:53,509 --> 00:10:51,509
i think there's plenty of folks who have

302
00:10:54,230 --> 00:10:53,519
left companies and still remain friends

303
00:10:57,269 --> 00:10:54,240
with the

304
00:10:58,949 --> 00:10:57,279
team that they left and so yeah

305
00:11:00,630 --> 00:10:58,959
again this is uh when you're talking

306
00:11:02,870 --> 00:11:00,640
about individuals you move on

307
00:11:04,870 --> 00:11:02,880
uh people have reasons for moving on uh

308
00:11:06,790 --> 00:11:04,880
kong kelleher in the past uh

309
00:11:09,190 --> 00:11:06,800
left nibs that was so the the key

310
00:11:10,310 --> 00:11:09,200
catalyst for uh robert bigelow's nids

311
00:11:12,470 --> 00:11:10,320
getting shut down he

312
00:11:13,590 --> 00:11:12,480
but he had a he had a stated purpose for

313
00:11:14,949 --> 00:11:13,600

wanting to leave he was

314

00:11:16,870 --> 00:11:14,959

i wanted to go off and do cancer

315

00:11:17,750 --> 00:11:16,880

research then he hooked on with to the

316

00:11:20,949 --> 00:11:17,760

stars

317

00:11:22,710 --> 00:11:20,959

and really was not a high profile member

318

00:11:24,389 --> 00:11:22,720

and then he kind of moved along from to

319

00:11:27,190 --> 00:11:24,399

the stars uh but again

320

00:11:27,590 --> 00:11:27,200

uh rather quietly he didn't use george

321

00:11:30,870 --> 00:11:27,600

knapp

322

00:11:33,910 --> 00:11:30,880

as uh as a sort of as an exit point

323

00:11:36,230 --> 00:11:33,920

and uh what i'm seeing here again

324

00:11:38,550 --> 00:11:36,240

i think there was some real problems and

325

00:11:39,030 --> 00:11:38,560

they have been discussed and uh somehow

326

00:11:44,150 --> 00:11:39,040

it

327

00:11:46,150 --> 00:11:44,160

seeing is uh in terms of bringing that

328

00:11:48,550 --> 00:11:46,160

to a head is of course uh

329

00:11:50,069 --> 00:11:48,560

uh two weeks ago you know uh two weeks

330

00:11:51,750 --> 00:11:50,079

ago we had

331

00:11:53,509 --> 00:11:51,760

a little more than two weeks well two

332

00:11:56,389 --> 00:11:53,519

weeks before this happened this uh

333

00:11:57,590 --> 00:11:56,399

this uh mass exodus happened about a

334

00:11:59,910 --> 00:11:57,600

week ago roughly

335

00:12:02,710 --> 00:11:59,920

and uh again two and a half weeks before

336

00:12:04,710 --> 00:12:02,720

that uh you had uh tony bergalia's story

337

00:12:07,590 --> 00:12:04,720

over at ufo explorations

338

00:12:07,990 --> 00:12:07,600

uh going into some detail uh regarding

339

00:12:11,910 --> 00:12:08,000

the

340

00:12:15,030 --> 00:12:11,920

business uh

341

00:12:15,750 --> 00:12:15,040

uh director christopher miser and uh

342

00:12:17,910 --> 00:12:15,760

when the

343

00:12:19,269 --> 00:12:17,920

this came out uh you know uh tony was

344

00:12:20,710 --> 00:12:19,279

saying this is really gonna do some

345

00:12:22,870 --> 00:12:20,720

damage to these guys yeah

346

00:12:24,629 --> 00:12:22,880

yeah i really don't think so but uh yeah

347

00:12:25,829 --> 00:12:24,639

let me let me go have a look and i was

348

00:12:28,629 --> 00:12:25,839

able to turn some

349

00:12:30,310 --> 00:12:28,639

some things up regarding uh uh well

350

00:12:32,150 --> 00:12:30,320

here's uh here's the thumbnail

351
00:12:33,509 --> 00:12:32,160
we followed up and actually went into a

352
00:12:37,269 --> 00:12:33,519
good bit more detail

353
00:12:40,710 --> 00:12:37,279
than tony did as far as uh miser and his

354
00:12:42,069 --> 00:12:40,720
business uh you know

355
00:12:44,949 --> 00:12:42,079
there are a couple things uh there was

356
00:12:47,990 --> 00:12:44,959
one earlier company that he really got

357
00:12:49,990 --> 00:12:48,000
he's taken some heat over on the yahoo

358
00:12:51,670 --> 00:12:50,000
finance page over that it was a bit of a

359
00:12:54,550 --> 00:12:51,680
scam and

360
00:12:56,230 --> 00:12:54,560
accusing them of illegalities but then i

361
00:12:58,790 --> 00:12:56,240
was able to find the

362
00:13:01,030 --> 00:12:58,800
uh site to this uh uh this uh

363
00:13:01,990 --> 00:13:01,040

therapeutic solutions international and

364

00:13:06,550 --> 00:13:02,000

that was uh

365

00:13:08,870 --> 00:13:06,560

that was really kind of the uh really

366

00:13:10,310 --> 00:13:08,880

a lot of concern raised uh regarding

367

00:13:12,150 --> 00:13:10,320

some of the products that they sell over

368

00:13:14,710 --> 00:13:12,160

there a little bit overpriced and

369

00:13:19,990 --> 00:13:14,720

also making some rather extravagant

370

00:13:23,110 --> 00:13:20,000

claims as far as health benef

371

00:13:23,509 --> 00:13:23,120

releases at the yahoo finance site uh

372

00:13:26,150 --> 00:13:23,519

where

373

00:13:27,910 --> 00:13:26,160

you know normally uh uh credible

374

00:13:29,990 --> 00:13:27,920

companies are doing serious uh

375

00:13:31,030 --> 00:13:30,000

scientific research going through fda

376

00:13:33,269 --> 00:13:31,040

trials and

377

00:13:35,509 --> 00:13:33,279

uh and the like and getting fda approval

378

00:13:38,150 --> 00:13:35,519

or announcing that sort of thing

379

00:13:40,470 --> 00:13:38,160

through these different websites like pr

380

00:13:40,870 --> 00:13:40,480

newswire and business wire places like

381

00:13:43,030 --> 00:13:40,880

that

382

00:13:44,949 --> 00:13:43,040

and then yahoo kind of compiles them by

383

00:13:47,189 --> 00:13:44,959

company over a period of time

384

00:13:48,710 --> 00:13:47,199

and this company is making some uh

385

00:13:51,430 --> 00:13:48,720

really unusual claims

386

00:13:52,470 --> 00:13:51,440

now my uh miser is fairly new to this uh

387

00:13:55,670 --> 00:13:52,480

ts

388

00:13:57,430 --> 00:13:55,680

uh i i uh uh therapeutic solutions

389

00:14:00,310 --> 00:13:57,440

international uh inc

390

00:14:01,350 --> 00:14:00,320

just as he seems fairly new to the stars

391

00:14:03,430 --> 00:14:01,360

academy

392

00:14:05,750 --> 00:14:03,440

but uh by the same token this is uh

393

00:14:08,629 --> 00:14:05,760

awfully uh awfully troublesome

394

00:14:11,350 --> 00:14:08,639

and the only uh what seems to be his

395

00:14:14,389 --> 00:14:11,360

flagship this uh bavaris capital company

396

00:14:16,150 --> 00:14:14,399

uh you know it might be more successful

397

00:14:17,990 --> 00:14:16,160

than some of the claims but when you see

398

00:14:19,350 --> 00:14:18,000

some of the other stuff he's involved in

399

00:14:20,790 --> 00:14:19,360

and then you look at this over here

400

00:14:21,750 --> 00:14:20,800

there are some claims that look good on

401
00:14:23,750 --> 00:14:21,760
paper but

402
00:14:25,269 --> 00:14:23,760
uh the they're too vague and that you

403
00:14:26,230 --> 00:14:25,279
can't really kind of independently

404
00:14:28,870 --> 00:14:26,240
verify them

405
00:14:30,310 --> 00:14:28,880
so i see a couple of real bad things for

406
00:14:33,030 --> 00:14:30,320
miser and then

407
00:14:34,949 --> 00:14:33,040
one well just the fact that the the the

408
00:14:36,550 --> 00:14:34,959
various capital scenarios of where

409
00:14:39,430 --> 00:14:36,560
they've had tremendous success

410
00:14:40,949 --> 00:14:39,440
uh just uh not enough detail is provided

411
00:14:42,230 --> 00:14:40,959
to really uh

412
00:14:44,069 --> 00:14:42,240
to really provide any kind of

413
00:14:47,110 --> 00:14:44,079

independent verification but

414

00:14:50,389 --> 00:14:47,120

let's go back to tony's story here and

415

00:14:51,670 --> 00:14:50,399

where he kind of nails it obviously he

416

00:14:53,590 --> 00:14:51,680

contacted me and

417

00:14:55,269 --> 00:14:53,600

yeah i found the material about

418

00:14:58,629 --> 00:14:55,279

therapeutic solutions

419

00:15:00,629 --> 00:14:58,639

and his uh the nutraceutical division

420

00:15:02,870 --> 00:15:00,639

certainly straddles the line relative to

421

00:15:03,430 --> 00:15:02,880

fda regulations prohibiting making

422

00:15:05,189 --> 00:15:03,440

claims

423

00:15:07,670 --> 00:15:05,199

uh for such products being able to

424

00:15:09,910 --> 00:15:07,680

diagnose treat or cure any disease

425

00:15:11,670 --> 00:15:09,920

uh one of miser's company products hints

426

00:15:14,150 --> 00:15:11,680

at efficacy for covid

427

00:15:15,670 --> 00:15:14,160

which is a downright dangerous claim not

428

00:15:17,910 --> 00:15:15,680

only that but the supplements that they

429

00:15:19,990 --> 00:15:17,920

offered are sold for prices that are

430

00:15:22,470 --> 00:15:20,000

many many times the cost of similar

431

00:15:23,910 --> 00:15:22,480

products this is a very serious matter

432

00:15:26,389 --> 00:15:23,920

and one must wonder

433

00:15:28,150 --> 00:15:26,399

if the long knew of miser's reputation

434

00:15:29,749 --> 00:15:28,160

if he didn't he should have if he did

435

00:15:30,230 --> 00:15:29,759

miser should never have been brought on

436

00:15:32,230 --> 00:15:30,240

board

437

00:15:35,189 --> 00:15:32,240

and again uh coming two weeks before

438

00:15:37,509 --> 00:15:35,199

this mass uh mass exit is

439

00:15:38,310 --> 00:15:37,519

you know chan i've gotta i i have to

440

00:15:39,910 --> 00:15:38,320

think that uh

441

00:15:42,150 --> 00:15:39,920

you know if this wasn't the final

442

00:15:44,389 --> 00:15:42,160

tipping point to push these three guys

443

00:15:45,910 --> 00:15:44,399

you know again uh two weeks and change

444

00:15:47,829 --> 00:15:45,920

uh after all this came out

445

00:15:49,509 --> 00:15:47,839

if this wasn't the final tipping point

446

00:15:51,110 --> 00:15:49,519

in terms of pushing these guys out

447

00:15:52,949 --> 00:15:51,120

you have to wonder what they know that

448

00:15:54,470 --> 00:15:52,959

we don't that did uh

449

00:15:55,990 --> 00:15:54,480

bring them out the door well you know

450

00:15:58,069 --> 00:15:56,000

how i feel about that frank

451
00:16:00,069 --> 00:15:58,079
i don't think it had anything to do with

452
00:16:00,790 --> 00:16:00,079
it i think it had zero percent to do

453
00:16:03,829 --> 00:16:00,800
with it

454
00:16:05,110 --> 00:16:03,839
i don't think that uh that article that

455
00:16:08,230 --> 00:16:05,120
you're talking about

456
00:16:09,749 --> 00:16:08,240
made a bit of difference and you might

457
00:16:10,710 --> 00:16:09,759
be right you might be right but the

458
00:16:13,910 --> 00:16:10,720
timing of it

459
00:16:14,790 --> 00:16:13,920
uh again and the fact that all three of

460
00:16:16,389 --> 00:16:14,800
them jumped at

461
00:16:18,150 --> 00:16:16,399
roughly the same time uh very

462
00:16:18,710 --> 00:16:18,160
disconcerting now what will the future

463
00:16:21,189 --> 00:16:18,720

bring

464

00:16:21,990 --> 00:16:21,199

uh melinda leslie an old friend of yours

465

00:16:24,550 --> 00:16:22,000

chan i know

466

00:16:25,829 --> 00:16:24,560

uh was uh on a panel with grant cameron

467

00:16:27,670 --> 00:16:25,839

and a number of others and

468

00:16:29,670 --> 00:16:27,680

she said that you know her favorite

469

00:16:32,629 --> 00:16:29,680

contact jim semivan

470

00:16:34,069 --> 00:16:32,639

uh she had talked to him quite a bit

471

00:16:37,189 --> 00:16:34,079

after all this came out

472

00:16:38,870 --> 00:16:37,199

and uh per her she said that yeah he

473

00:16:39,990 --> 00:16:38,880

said that that part of the issue is over

474

00:16:41,509 --> 00:16:40,000

money which

475

00:16:43,670 --> 00:16:41,519

you know that can be pretty vague it

476

00:16:46,470 --> 00:16:43,680

could be a lot of things it could be

477

00:16:46,790 --> 00:16:46,480

related to just the business i don't

478

00:16:48,310 --> 00:16:46,800

think

479

00:16:50,389 --> 00:16:48,320

any of the three guys have walked out

480

00:16:51,269 --> 00:16:50,399

the door necessarily hurting for cash so

481

00:16:53,590 --> 00:16:51,279

i'm not sure

482

00:16:55,430 --> 00:16:53,600

as far as like them making any money

483

00:16:58,470 --> 00:16:55,440

what was actually discussed wasn't

484

00:17:00,470 --> 00:16:58,480

money like as far as this in a sense you

485

00:17:02,069 --> 00:17:00,480

may have been inferring or she may have

486

00:17:04,710 --> 00:17:02,079

been inferring or whatever

487

00:17:06,789 --> 00:17:04,720

folks may have understood it to be maybe

488

00:17:09,110 --> 00:17:06,799

it was just the budget

489

00:17:10,549 --> 00:17:09,120

you know maybe there was a personality

490

00:17:13,429 --> 00:17:10,559

clash going over

491

00:17:14,549 --> 00:17:13,439

a personality clash also with regards to

492

00:17:16,630 --> 00:17:14,559

staff members

493

00:17:17,829 --> 00:17:16,640

that can happen and if there's not a

494

00:17:21,669 --> 00:17:17,839

good mediator

495

00:17:23,270 --> 00:17:21,679

there um uh meaning with the company

496

00:17:25,029 --> 00:17:23,280

um you know i don't know that they had

497

00:17:26,470 --> 00:17:25,039

an hr uh division

498

00:17:28,470 --> 00:17:26,480

no they weren't big enough for all that

499

00:17:30,150 --> 00:17:28,480

now right yeah it's a

500

00:17:32,070 --> 00:17:30,160

it's a small operation it's a small

501
00:17:35,510 --> 00:17:32,080
operation let me finish

502
00:17:37,350 --> 00:17:35,520
i it doesn't mean that a company that

503
00:17:40,870 --> 00:17:37,360
doesn't have an hr division

504
00:17:42,549 --> 00:17:40,880
or a mediator like department

505
00:17:45,430 --> 00:17:42,559
you know dedicated to that kind of

506
00:17:45,990 --> 00:17:45,440
effort that a person cannot be hired to

507
00:17:48,789 --> 00:17:46,000
do so

508
00:17:50,150 --> 00:17:48,799
it costs like a measly you know 100

509
00:17:52,470 --> 00:17:50,160
bucks or less or

510
00:17:53,750 --> 00:17:52,480
slightly more per hour to hire somebody

511
00:17:56,630 --> 00:17:53,760
to do mediator

512
00:17:58,470 --> 00:17:56,640
like efforts even if it was a thousand

513
00:17:59,590 --> 00:17:58,480

bucks an hour it would still be worth it

514

00:18:03,590 --> 00:17:59,600

because the future of

515

00:18:06,390 --> 00:18:03,600

a company an organization a non-profit

516

00:18:07,830 --> 00:18:06,400

whatever it is for-profit or non-profit

517

00:18:09,190 --> 00:18:07,840

you would think that would be worth it

518

00:18:10,950 --> 00:18:09,200

because it would be an investment in the

519

00:18:11,750 --> 00:18:10,960

future of the company with regards to

520

00:18:13,590 --> 00:18:11,760

the staff

521

00:18:15,669 --> 00:18:13,600

now as far as money goes if there was

522

00:18:18,950 --> 00:18:15,679

some kind of

523

00:18:22,150 --> 00:18:18,960

challenge going on there to me again if

524

00:18:25,029 --> 00:18:22,160

if there could be no consensus regarding

525

00:18:25,990 --> 00:18:25,039

say money a budget we'll just we'll just

526

00:18:27,669 --> 00:18:26,000

say budget

527

00:18:29,270 --> 00:18:27,679

we'll just pretend that's what it was

528

00:18:32,870 --> 00:18:29,280

okay it just sounds like there was

529

00:18:35,430 --> 00:18:32,880

a possible personality

530

00:18:36,390 --> 00:18:35,440

clash because there's plenty of folks

531

00:18:37,669 --> 00:18:36,400

that have totally different

532

00:18:40,710 --> 00:18:37,679

personalities that are still

533

00:18:43,590 --> 00:18:40,720

able to figure out budgets so

534

00:18:46,310 --> 00:18:43,600

that's just a sense i have but you know

535

00:18:49,830 --> 00:18:46,320

this is really all such pure speculation

536

00:18:53,350 --> 00:18:49,840

as far as miser and his product um

537

00:18:56,710 --> 00:18:53,360

and the kinds of claims that uh that uh

538

00:18:57,350 --> 00:18:56,720

product is alleged to be you know worthy

539

00:18:59,270 --> 00:18:57,360

of

540

00:19:01,750 --> 00:18:59,280

you know i cannot tell you how many

541

00:19:04,390 --> 00:19:01,760

times makeup companies

542

00:19:05,270 --> 00:19:04,400

or companies that make lotion or other

543

00:19:07,190 --> 00:19:05,280

products

544

00:19:09,590 --> 00:19:07,200

that are kind of superficial not really

545

00:19:12,710 --> 00:19:09,600

necessary but you know beauty products

546

00:19:15,029 --> 00:19:12,720

they made outrageous claims all the time

547

00:19:16,390 --> 00:19:15,039

until the fda finally stepped in for

548

00:19:19,110 --> 00:19:16,400

some of these

549

00:19:21,510 --> 00:19:19,120

big huge corporations that were

550

00:19:22,230 --> 00:19:21,520

multi-million dollar corporations at

551
00:19:24,390 --> 00:19:22,240
that time

552
00:19:25,590 --> 00:19:24,400
right and had to crack down on

553
00:19:28,150 --> 00:19:25,600
themselves yeah yeah

554
00:19:28,630 --> 00:19:28,160
they get to cease and desist if he's

555
00:19:31,830 --> 00:19:28,640
really

556
00:19:32,630 --> 00:19:31,840
doing that it's just and i'm not saying

557
00:19:35,029 --> 00:19:32,640
he is

558
00:19:36,390 --> 00:19:35,039
but if he's really doing that maybe he

559
00:19:38,710 --> 00:19:36,400
really does believe

560
00:19:40,470 --> 00:19:38,720
those claims are actually true like he

561
00:19:42,070 --> 00:19:40,480
believes in his heart of hearts

562
00:19:44,150 --> 00:19:42,080
wow this thing really is effective

563
00:19:45,909 --> 00:19:44,160

against whatever fill in the blank

564

00:19:48,070 --> 00:19:45,919

or this thing really does do whatever he

565

00:19:51,430 --> 00:19:48,080

says it you know he says it does

566

00:19:51,990 --> 00:19:51,440

but the thing is is you know laboratory

567

00:19:55,190 --> 00:19:52,000

tests have

568

00:19:57,750 --> 00:19:55,200

to be uh produced uh

569

00:19:59,909 --> 00:19:57,760

you have to have some kind of scientific

570

00:20:02,630 --> 00:19:59,919

model that you're

571

00:20:04,149 --> 00:20:02,640

using in order to make those kinds of

572

00:20:06,470 --> 00:20:04,159

claims about the products that

573

00:20:07,430 --> 00:20:06,480

you have so right unless he can actually

574

00:20:09,270 --> 00:20:07,440

produce

575

00:20:10,710 --> 00:20:09,280

you know laughter well they have related

576

00:20:13,430 --> 00:20:10,720

results or scientific

577

00:20:14,310 --> 00:20:13,440

uh basis they have attempted to do these

578

00:20:16,310 --> 00:20:14,320

studies

579

00:20:19,590 --> 00:20:16,320

uh and uh but you know where i'm going

580

00:20:20,950 --> 00:20:19,600

with this you know you have to work yeah

581

00:20:22,789 --> 00:20:20,960

you've kind of already made your point

582

00:20:25,430 --> 00:20:22,799

as far as that goes and

583

00:20:26,870 --> 00:20:25,440

what they've actually done is uh this uh

584

00:20:29,029 --> 00:20:26,880

tsoi

585

00:20:30,950 --> 00:20:29,039

corporation uh their chief science

586

00:20:33,510 --> 00:20:30,960

officer who's a you know a general

587

00:20:37,190 --> 00:20:33,520

practitioner in the san diego area

588

00:20:39,350 --> 00:20:37,200

who's also been involved in politics uh

589

00:20:41,110 --> 00:20:39,360

and also made some some rather

590

00:20:41,830 --> 00:20:41,120

extravagant claims as far as his

591

00:20:43,750 --> 00:20:41,840

background

592

00:20:45,029 --> 00:20:43,760

his involvement with charity and so on

593

00:20:45,669 --> 00:20:45,039

again though those are the kind of

594

00:20:48,870 --> 00:20:45,679

details

595

00:20:49,270 --> 00:20:48,880

that we went into uh quite a bit during

596

00:20:52,549 --> 00:20:49,280

the

597

00:20:54,470 --> 00:20:52,559

did on all this so

598

00:20:56,310 --> 00:20:54,480

it does get really complicated but i

599

00:20:58,230 --> 00:20:56,320

don't see this as any other way as

600

00:20:59,590 --> 00:20:58,240

these three guys at roughly the same

601
00:21:01,669 --> 00:20:59,600
time

602
00:21:02,710 --> 00:21:01,679
really being unhappy with something if

603
00:21:05,029 --> 00:21:02,720
it's not this

604
00:21:05,909 --> 00:21:05,039
then it's uh then it's something else uh

605
00:21:07,750 --> 00:21:05,919
and uh well

606
00:21:09,190 --> 00:21:07,760
you know you know it makes you wonder

607
00:21:10,710 --> 00:21:09,200
what that something else is

608
00:21:12,230 --> 00:21:10,720
because this is a pretty bad chance this

609
00:21:14,789 --> 00:21:12,240
is pretty bad if

610
00:21:15,430 --> 00:21:14,799
if miser was one of the nails in the

611
00:21:18,549 --> 00:21:15,440
coffin

612
00:21:20,230 --> 00:21:18,559
for these former tsa members

613
00:21:21,669 --> 00:21:20,240

there's a difference to me between the

614

00:21:25,029 --> 00:21:21,679

article

615

00:21:25,830 --> 00:21:25,039

and miser i'll explain i don't think the

616

00:21:29,430 --> 00:21:25,840

braglia

617

00:21:31,990 --> 00:21:29,440

article made a bit of difference however

618

00:21:33,990 --> 00:21:32,000

if miser did having just joined the team

619

00:21:36,630 --> 00:21:34,000

in the sense that he did

620

00:21:38,230 --> 00:21:36,640

uh that may have made a big difference

621

00:21:40,390 --> 00:21:38,240

but i don't think the article did in

622

00:21:42,870 --> 00:21:40,400

other words i don't think the exposure

623

00:21:44,950 --> 00:21:42,880

the publicity made a difference i think

624

00:21:46,470 --> 00:21:44,960

that if miser was truly an issue it

625

00:21:48,870 --> 00:21:46,480

would have been him himself

626

00:21:52,149 --> 00:21:48,880

in that regard and not an article that

627

00:21:55,830 --> 00:21:54,070

well what are you suggesting that they

628

00:21:56,789 --> 00:21:55,840

did do the due diligence and they knew

629

00:21:59,270 --> 00:21:56,799

about all this

630

00:22:00,470 --> 00:21:59,280

and no i'm not suggesting that at all

631

00:22:02,149 --> 00:22:00,480

i'm just saying

632

00:22:04,230 --> 00:22:02,159

if they didn't like miser is because

633

00:22:05,750 --> 00:22:04,240

they didn't like him and that had

634

00:22:07,270 --> 00:22:05,760

nothing to do with the article they

635

00:22:08,230 --> 00:22:07,280

could have somebody could have published

636

00:22:09,270 --> 00:22:08,240

a hundred articles

637

00:22:12,549 --> 00:22:09,280

it would have not made a bit of

638

00:22:14,630 --> 00:22:12,559

difference saying if if big if i f

639

00:22:15,590 --> 00:22:14,640

if they didn't like him it had to do

640

00:22:17,590 --> 00:22:15,600

with the guy

641

00:22:19,190 --> 00:22:17,600

miser but not an article an article

642

00:22:21,669 --> 00:22:19,200

would have not made a big difference

643

00:22:22,549 --> 00:22:21,679

yeah i i don't know about that because

644

00:22:24,470 --> 00:22:22,559

basically that

645

00:22:26,549 --> 00:22:24,480

i understand we've discussed this before

646

00:22:29,750 --> 00:22:26,559

and what we do i i will not

647

00:22:31,270 --> 00:22:29,760

change on that the article is not from

648

00:22:33,270 --> 00:22:31,280

my perspective

649

00:22:35,430 --> 00:22:33,280

going to make a dust motes worth of

650

00:22:39,350 --> 00:22:35,440

difference to these guys

651
00:22:41,669 --> 00:22:39,360
in other words all all of the uh

652
00:22:42,630 --> 00:22:41,679
issues that they may have had with this

653
00:22:45,669 --> 00:22:42,640
gentleman

654
00:22:46,070 --> 00:22:45,679
if they even did would have stemmed from

655
00:22:49,590 --> 00:22:46,080
just

656
00:22:50,789 --> 00:22:49,600
his presence having been associated with

657
00:22:53,510 --> 00:22:50,799
ttsa

658
00:22:53,990 --> 00:22:53,520
nothing else nothing more i'm not so

659
00:22:55,750 --> 00:22:54,000
sure about

660
00:22:57,110 --> 00:22:55,760
that well that's my perspective

661
00:22:59,029 --> 00:22:57,120
understood understood

662
00:23:00,789 --> 00:22:59,039
all right so uh yeah basically yeah

663
00:23:02,549 --> 00:23:00,799

that's where we're at with all that

664

00:23:03,830 --> 00:23:02,559

and uh what the so what happens now

665

00:23:06,870 --> 00:23:03,840

going forward

666

00:23:08,630 --> 00:23:06,880

uh melon is he uh going to get a job in

667

00:23:09,430 --> 00:23:08,640

the biden administration since that's

668

00:23:11,830 --> 00:23:09,440

turned around

669

00:23:13,270 --> 00:23:11,840

uh we don't know lou elizondo says he's

670

00:23:16,149 --> 00:23:13,280

going to be moving forward

671

00:23:16,549 --> 00:23:16,159

and sort of opening up and becoming more

672

00:23:19,669 --> 00:23:16,559

of an

673

00:23:21,590 --> 00:23:19,679

international man of ufos and try to

674

00:23:23,350 --> 00:23:21,600

get some more work done over in that way

675

00:23:23,990 --> 00:23:23,360

uh it is interesting how he said that

676

00:23:25,590 --> 00:23:24,000

he's

677

00:23:27,430 --> 00:23:25,600

uh not an entertainer that chris

678

00:23:29,350 --> 00:23:27,440

mellon's not an entertainer but does uh

679

00:23:32,390 --> 00:23:29,360

seem to want to get involved in uh doing

680

00:23:33,990 --> 00:23:32,400

a a documentary about ufos so

681

00:23:36,310 --> 00:23:34,000

there's that possibly coming up down

682

00:23:37,350 --> 00:23:36,320

there maybe they just have a difference

683

00:23:39,830 --> 00:23:37,360

of opinion

684

00:23:40,549 --> 00:23:39,840

regarding what entertainment really is

685

00:23:43,190 --> 00:23:40,559

you know

686

00:23:45,510 --> 00:23:43,200

um the other thing is uh i i definitely

687

00:23:48,830 --> 00:23:45,520

want to make this point and that is

688

00:23:50,149 --> 00:23:48,840

if melon was going to join the biden

689

00:23:54,070 --> 00:23:50,159

administration

690

00:23:57,909 --> 00:23:56,310

let's just be honest which is a bigger

691

00:24:01,029 --> 00:23:57,919

goal for somebody

692

00:24:04,390 --> 00:24:01,039

joining the administration uh of

693

00:24:07,269 --> 00:24:04,400

of our white house or a non-profit

694

00:24:11,430 --> 00:24:07,279

organization dedicated to a topic

695

00:24:13,269 --> 00:24:11,440

that is not necessarily something that

696

00:24:15,430 --> 00:24:13,279

is controversial that's just the best

697

00:24:18,149 --> 00:24:15,440

way i can put it i'm not putting it down

698

00:24:19,669 --> 00:24:18,159

i'm just being honest and again that's

699

00:24:22,070 --> 00:24:19,679

pure speculation but

700

00:24:23,590 --> 00:24:22,080

they're obviously going to do so mellon

701
00:24:26,789 --> 00:24:23,600
has a really

702
00:24:27,430 --> 00:24:26,799
long legacy family wise with regards to

703
00:24:29,909 --> 00:24:27,440
the government

704
00:24:31,350 --> 00:24:29,919
anybody needs to look this up i really

705
00:24:33,590 --> 00:24:31,360
recommend doing so

706
00:24:35,190 --> 00:24:33,600
and that is look up the melon family

707
00:24:38,470 --> 00:24:35,200
they go back

708
00:24:40,230 --> 00:24:38,480
so many decades it's almost unfathomable

709
00:24:42,230 --> 00:24:40,240
please look up christopher mellon look

710
00:24:42,549 --> 00:24:42,240
up his family and how far back they go

711
00:24:44,710 --> 00:24:42,559
with

712
00:24:46,470 --> 00:24:44,720
our government and how much service

713
00:24:48,149 --> 00:24:46,480

they've committed

714

00:24:50,310 --> 00:24:48,159

with regards to government service to

715

00:24:52,789 --> 00:24:50,320

our country and you will see

716

00:24:54,390 --> 00:24:52,799

it's just tradition for them to actually

717

00:24:55,830 --> 00:24:54,400

give service to our country and the

718

00:24:58,870 --> 00:24:55,840

respect that they have

719

00:25:00,149 --> 00:24:58,880

so which would be a bigger priority

720

00:25:02,710 --> 00:25:00,159

hands down it would be the

721

00:25:04,230 --> 00:25:02,720

administration if he had the opportunity

722

00:25:07,510 --> 00:25:04,240

to actually join it

723

00:25:09,750 --> 00:25:07,520

right and again okay

724

00:25:11,269 --> 00:25:09,760

so following up on that point uh you

725

00:25:11,909 --> 00:25:11,279

would think if he's going to do that

726
00:25:14,870 --> 00:25:11,919
then

727
00:25:15,590 --> 00:25:14,880
he simply waits and he gets his gig and

728
00:25:18,630 --> 00:25:15,600
he says

729
00:25:19,029 --> 00:25:18,640
hey you know i'm leaving ttsa to go do

730
00:25:20,310 --> 00:25:19,039
this

731
00:25:22,230 --> 00:25:20,320
you know what i'm saying you're leaving

732
00:25:24,870 --> 00:25:22,240
it is actually possible

733
00:25:26,870 --> 00:25:24,880
that these folks that left did have

734
00:25:28,070 --> 00:25:26,880
various reasons that were different from

735
00:25:30,549 --> 00:25:28,080
the others

736
00:25:32,070 --> 00:25:30,559
and left of their own accord in a

737
00:25:35,029 --> 00:25:32,080
simultaneous manner

738
00:25:36,470 --> 00:25:35,039

yeah but but why would they do that why

739

00:25:37,830 --> 00:25:36,480

would they do that though why would they

740

00:25:39,110 --> 00:25:37,840

do that

741

00:25:40,870 --> 00:25:39,120

and why would they why would they do

742

00:25:41,990 --> 00:25:40,880

that now i mean if the mission was

743

00:25:44,470 --> 00:25:42,000

accomplished

744

00:25:45,350 --> 00:25:44,480

uh when the tv series was uh was ended

745

00:25:48,549 --> 00:25:45,360

okay it

746

00:25:49,990 --> 00:25:48,559

uh finished up airing in august but i'm

747

00:25:50,549 --> 00:25:50,000

not sure exactly when they finished

748

00:25:52,149 --> 00:25:50,559

shooting

749

00:25:53,830 --> 00:25:52,159

i mean it was probably the better part

750

00:25:55,669 --> 00:25:53,840

of a year ago if not a year ago when

751
00:25:58,070 --> 00:25:55,679
they actually finished shooting the show

752
00:25:59,269 --> 00:25:58,080
they could have left sooner than that so

753
00:26:01,830 --> 00:25:59,279
it is possible

754
00:26:02,789 --> 00:26:01,840
that these folks that left happened to

755
00:26:04,549 --> 00:26:02,799
talk

756
00:26:06,310 --> 00:26:04,559
and one person said you know i have

757
00:26:07,909 --> 00:26:06,320
these goals on my horizon

758
00:26:10,549 --> 00:26:07,919
another person said you know what i have

759
00:26:11,430 --> 00:26:10,559
something that came up to me as an

760
00:26:12,870 --> 00:26:11,440
opportunity

761
00:26:14,549 --> 00:26:12,880
and another person may have said you

762
00:26:16,070 --> 00:26:14,559
know it's time for me to leave i really

763
00:26:19,029 --> 00:26:16,080

don't see a future with this

764

00:26:20,149 --> 00:26:19,039

situation in these specific regards and

765

00:26:20,870 --> 00:26:20,159

all three of them might have said you

766

00:26:22,789 --> 00:26:20,880

know what

767

00:26:23,990 --> 00:26:22,799

it just so happens we have these

768

00:26:27,669 --> 00:26:24,000

different things going on

769

00:26:29,669 --> 00:26:27,679

at the same time and uh you know

770

00:26:32,070 --> 00:26:29,679

let's just go ahead and leave at this a

771

00:26:33,830 --> 00:26:32,080

lot of time since we all have these

772

00:26:35,830 --> 00:26:33,840

you know these kinds of different things

773

00:26:36,950 --> 00:26:35,840

happening in our lives it is possible

774

00:26:38,950 --> 00:26:36,960

i'm not saying sure

775

00:26:39,990 --> 00:26:38,960

it is possible it is possible but at the

776

00:26:42,870 --> 00:26:40,000

same time

777

00:26:44,310 --> 00:26:42,880

if you care even a little bit about uh

778

00:26:46,470 --> 00:26:44,320

what the to the stars

779

00:26:48,390 --> 00:26:46,480

academy provided these guys as far as a

780

00:26:50,789 --> 00:26:48,400

platform to move this forward

781

00:26:51,990 --> 00:26:50,799

then you have to wonder uh why did they

782

00:26:55,269 --> 00:26:52,000

coordinate their exit

783

00:26:57,510 --> 00:26:55,279

why did they coordinate a platform

784

00:26:58,390 --> 00:26:57,520

i think it did i think absolutely to

785

00:27:01,430 --> 00:26:58,400

move forward

786

00:27:03,430 --> 00:27:01,440

with that tsa's platform then then it

787

00:27:03,909 --> 00:27:03,440

was a combined effort and why wouldn't

788

00:27:06,549 --> 00:27:03,919

you

789

00:27:08,310 --> 00:27:06,559

uh again sort of combine efforts to

790

00:27:11,350 --> 00:27:08,320

extricate yourself rather than

791

00:27:12,950 --> 00:27:11,360

uh these three guys all uh jumping ship

792

00:27:14,070 --> 00:27:12,960

at once you know and then basically i

793

00:27:16,470 --> 00:27:14,080

see this is sort of a

794

00:27:17,510 --> 00:27:16,480

uh uh honestly i take this job and shove

795

00:27:19,269 --> 00:27:17,520

it kind of departure

796

00:27:20,950 --> 00:27:19,279

yeah and i know it sounds like the easy

797

00:27:23,029 --> 00:27:20,960

way out to say this but it is

798

00:27:24,789 --> 00:27:23,039

more realistic from my perspective for

799

00:27:27,909 --> 00:27:24,799

me to actually

800

00:27:31,269 --> 00:27:27,919

just say that i can

801
00:27:33,269 --> 00:27:31,279
i can see the possibility of some

802
00:27:34,389 --> 00:27:33,279
or all these folks giving us more

803
00:27:37,510 --> 00:27:34,399
insight

804
00:27:41,029 --> 00:27:37,520
in the weeks months years to come

805
00:27:42,789 --> 00:27:41,039
that i know what's that and

806
00:27:44,549 --> 00:27:42,799
you and you could and i actually i'm

807
00:27:45,510 --> 00:27:44,559
hoping you're right i'm hoping that that

808
00:27:47,430 --> 00:27:45,520
is what's good

809
00:27:49,269 --> 00:27:47,440
and you know what you know i say it's

810
00:27:50,310 --> 00:27:49,279
the easy way out to say that however at

811
00:27:52,149 --> 00:27:50,320
the same time

812
00:27:53,510 --> 00:27:52,159
i'm hoping people can understand that

813
00:27:58,070 --> 00:27:53,520

pure speculation is

814

00:28:01,590 --> 00:28:00,230

but i mean a lot of it is all pure

815

00:28:03,590 --> 00:28:01,600

speculation but at least

816

00:28:04,630 --> 00:28:03,600

i think we've kept our speculation based

817

00:28:06,310 --> 00:28:04,640

on fact which is

818

00:28:06,780 --> 00:28:06,320

what you really kind of want to do you

819

00:28:09,830 --> 00:28:06,790

know

820

00:28:12,870 --> 00:28:09,840

[Laughter]

821

00:28:14,870 --> 00:28:12,880

so yes oh god go ahead guys

822

00:28:16,630 --> 00:28:14,880

i was going to wrap this up then you and

823

00:28:18,470 --> 00:28:16,640

i have our own entertainment vision and

824

00:28:19,110 --> 00:28:18,480

that is arguing we're known for it so

825

00:28:21,590 --> 00:28:19,120

that's right

826

00:28:23,750 --> 00:28:21,600

that is correct absolutely correct yeah

827

00:28:24,230 --> 00:28:23,760

well yeah we uh debate these things back

828

00:28:25,830 --> 00:28:24,240

and forth

829

00:28:28,310 --> 00:28:25,840

and this has come up too because you're

830

00:28:30,710 --> 00:28:28,320

seeing a lot of the haters

831

00:28:31,830 --> 00:28:30,720

okay uh they're sort of gloating about

832

00:28:33,990 --> 00:28:31,840

this and then you see

833

00:28:35,669 --> 00:28:34,000

a lot of the fanboys are trying to find

834

00:28:36,549 --> 00:28:35,679

some kind of a silver lining in this

835

00:28:38,230 --> 00:28:36,559

dark cloud

836

00:28:40,230 --> 00:28:38,240

and i think that we have been really

837

00:28:43,350 --> 00:28:40,240

consistent as far as being

838

00:28:45,510 --> 00:28:43,360

objective about it giving

839

00:28:47,510 --> 00:28:45,520

giving uh uh giving credit where it's

840

00:28:47,990 --> 00:28:47,520

due and uh criticizing where it's not

841

00:28:50,070 --> 00:28:48,000

you know

842

00:28:52,230 --> 00:28:50,080

where we think that's true i i said the

843

00:28:55,350 --> 00:28:52,240

word neutral but that's actually wrong

844

00:28:57,269 --> 00:28:55,360

the best thing i can say is

845

00:28:59,269 --> 00:28:57,279

objective we've been objective to the

846

00:29:00,950 --> 00:28:59,279

best of our ability and also judicious

847

00:29:02,630 --> 00:29:00,960

we've been very balanced as far as

848

00:29:05,510 --> 00:29:02,640

reporting on tsa

849

00:29:06,230 --> 00:29:05,520

we've tried to do it in a manner that's

850

00:29:08,950 --> 00:29:06,240

you know not

851

00:29:11,029 --> 00:29:08,960

biased and i think we've achieved it

852

00:29:13,909 --> 00:29:11,039

because i can't think of a single

853

00:29:15,830 --> 00:29:13,919

show we've done where you know we put

854

00:29:16,470 --> 00:29:15,840

down this organization i don't remember

855

00:29:18,310 --> 00:29:16,480

doing that

856

00:29:20,149 --> 00:29:18,320

and i also don't remember building them

857

00:29:22,870 --> 00:29:20,159

up either i just remember

858

00:29:24,470 --> 00:29:22,880

stating you know you know factoids about

859

00:29:26,230 --> 00:29:24,480

them here or there but i didn't really

860

00:29:27,269 --> 00:29:26,240

go at length as far as talking about

861

00:29:29,510 --> 00:29:27,279

them very much

862

00:29:31,750 --> 00:29:29,520

yeah and again you sort of judged the

863

00:29:32,230 --> 00:29:31,760

bottom line and that quote from elizondo

864

00:29:34,230 --> 00:29:32,240

where he

865

00:29:36,070 --> 00:29:34,240

ticked off his accomplishment list and

866

00:29:37,830 --> 00:29:36,080

you can't argue with any of those things

867

00:29:39,750 --> 00:29:37,840

uh the world has really changed a lot in

868

00:29:40,710 --> 00:29:39,760

the last three years as far as ufos are

869

00:29:43,269 --> 00:29:40,720

concerned he's saying

870

00:29:44,870 --> 00:29:43,279

he has done the best he can and if at

871

00:29:45,350 --> 00:29:44,880

the end of the day that's what you've

872

00:29:47,190 --> 00:29:45,360

done

873

00:29:48,710 --> 00:29:47,200

then that's the best you can do and now

874

00:29:51,029 --> 00:29:48,720

he's moved on yeah

875

00:29:51,909 --> 00:29:51,039

and he is going to stay uh at least he

876
00:29:54,950 --> 00:29:51,919
says he's

877
00:29:57,430 --> 00:29:54,960
uh he is going to stay on with uh trying

878
00:29:58,630 --> 00:29:57,440
to uh get that more ufo information out

879
00:30:00,389 --> 00:29:58,640
there

880
00:30:01,990 --> 00:30:00,399
i know it sounds obvious but it sounds

881
00:30:04,789 --> 00:30:02,000
like you know

882
00:30:06,870 --> 00:30:04,799
again blazingly obvious but his agenda

883
00:30:08,149 --> 00:30:06,880
and the agenda of tsa are two different

884
00:30:11,350 --> 00:30:08,159
things at this point

885
00:30:13,430 --> 00:30:11,360
and they they do not actually meet

886
00:30:15,669 --> 00:30:13,440
each other halfway in that respect

887
00:30:15,990 --> 00:30:15,679
understood understood and there has been

888
00:30:18,149 --> 00:30:16,000

the

889

00:30:19,909 --> 00:30:18,159

uh going back like from day one uh

890

00:30:22,149 --> 00:30:19,919

regarding the long some issues

891

00:30:23,430 --> 00:30:22,159

within that within the organization and

892

00:30:25,110 --> 00:30:23,440

so on so

893

00:30:26,310 --> 00:30:25,120

that has sort of continued and we've

894

00:30:28,070 --> 00:30:26,320

talked about those things we've talked

895

00:30:29,510 --> 00:30:28,080

about those things in detail too it

896

00:30:32,070 --> 00:30:29,520

gave us something to talk about over the

897

00:30:34,149 --> 00:30:32,080

last three years but by the same token

898

00:30:35,269 --> 00:30:34,159

you sort of judge the bottom line and

899

00:30:37,510 --> 00:30:35,279

you point out those

900

00:30:38,710 --> 00:30:37,520

uh what you feel are uh mistakes along

901
00:30:41,430 --> 00:30:38,720
the way yet

902
00:30:43,190 --> 00:30:41,440
by the same token again you judge the

903
00:30:46,230 --> 00:30:43,200
bottom line and it's been a a

904
00:30:49,669 --> 00:30:46,240
net big plus for these guys

905
00:30:50,149 --> 00:30:49,679
over the last three years say i can't

906
00:30:53,110 --> 00:30:50,159
say

907
00:30:54,789 --> 00:30:53,120
that unequivocally i have never actually

908
00:30:56,549 --> 00:30:54,799
talked about tom de long in any way

909
00:30:58,630 --> 00:30:56,559
shape or form on any of the shows

910
00:31:00,870 --> 00:30:58,640
other than the last show we did where we

911
00:31:04,310 --> 00:31:00,880
covered um that article

912
00:31:06,389 --> 00:31:04,320
uh that uh talked about uh

913
00:31:08,310 --> 00:31:06,399

tom delonge with a lot of claims that

914

00:31:10,230 --> 00:31:08,320

you and i disagreed on however

915

00:31:12,789 --> 00:31:10,240

i would like to state one thing and that

916

00:31:15,190 --> 00:31:12,799

is you know he's a rock star

917

00:31:16,389 --> 00:31:15,200

you know it's just like if people feel

918

00:31:19,029 --> 00:31:16,399

like he did some

919

00:31:20,070 --> 00:31:19,039

silly thing or whatever you know it it's

920

00:31:23,590 --> 00:31:20,080

not like he was a

921

00:31:25,750 --> 00:31:23,600

ceo of a corporation before he came in

922

00:31:26,950 --> 00:31:25,760

right this guy his lifestyle is complete

923

00:31:28,310 --> 00:31:26,960

yeah they they knew what they were

924

00:31:28,789 --> 00:31:28,320

getting into when they were dealing with

925

00:31:32,549 --> 00:31:28,799

him

926
00:31:34,149 --> 00:31:32,559
either

927
00:31:35,750 --> 00:31:34,159
and i think the reason he really hasn't

928
00:31:37,750 --> 00:31:35,760
come up that much in the last year

929
00:31:39,509 --> 00:31:37,760
is because he has gone largely

930
00:31:42,549 --> 00:31:39,519
underground he has not been

931
00:31:45,430 --> 00:31:42,559
especially uh available or

932
00:31:45,990 --> 00:31:45,440
uh involved that much he was basically

933
00:31:47,909 --> 00:31:46,000
invisible

934
00:31:49,509 --> 00:31:47,919
in the last season of tv shows and he

935
00:31:50,470 --> 00:31:49,519
just really has not gotten involved in

936
00:31:53,269 --> 00:31:50,480
that that much

937
00:31:53,830 --> 00:31:53,279
it's really been elizondo and even more

938
00:31:57,190 --> 00:31:53,840

so

939

00:31:59,509 --> 00:31:57,200

melon at least in regards to getting the

940

00:32:01,590 --> 00:31:59,519

congressional agenda moved forward that

941

00:32:03,990 --> 00:32:01,600

have been over the last uh certainly

942

00:32:05,110 --> 00:32:04,000

year plus i would say uh have been

943

00:32:08,149 --> 00:32:05,120

coming to the fore

944

00:32:11,190 --> 00:32:08,159

and losing those two guys i mean

945

00:32:14,070 --> 00:32:11,200

uh it uh we'll see i mean uh ttsa

946

00:32:15,190 --> 00:32:14,080

is uh sort of uh hanging out there right

947

00:32:16,950 --> 00:32:15,200

now it's just

948

00:32:18,870 --> 00:32:16,960

if you look at it as a team they've just

949

00:32:20,549 --> 00:32:18,880

lost their their two best players at

950

00:32:23,110 --> 00:32:20,559

least over the last year or so

951
00:32:25,029 --> 00:32:23,120
now i can other people step up well i

952
00:32:27,190 --> 00:32:25,039
heard melinda leslie suggest that jim

953
00:32:27,990 --> 00:32:27,200
semivan and chris mizer might be doing a

954
00:32:29,269 --> 00:32:28,000
podcast

955
00:32:31,190 --> 00:32:29,279
i don't know how that's necessarily

956
00:32:32,070 --> 00:32:31,200
going to help them and uh very

957
00:32:33,509 --> 00:32:32,080
interesting

958
00:32:35,830 --> 00:32:33,519
yeah would be it would be really

959
00:32:38,710 --> 00:32:35,840
interesting and uh we'll see i mean

960
00:32:39,029 --> 00:32:38,720
jim simivan is still there and he's

961
00:32:42,470 --> 00:32:39,039
still

962
00:32:43,350 --> 00:32:42,480
a top key guy on the uh on the corporate

963
00:32:45,110 --> 00:32:43,360

roster and

964

00:32:46,950 --> 00:32:45,120

we'll see what he's got i mean we'll see

965

00:32:48,389 --> 00:32:46,960

what he can do it's not unusual for some

966

00:32:51,430 --> 00:32:48,399

of these folks that are left

967

00:32:54,149 --> 00:32:51,440

over in a team that has been fragmented

968

00:32:55,909 --> 00:32:54,159

to start recruiting other people yeah

969

00:32:56,230 --> 00:32:55,919

that's always a possibility too sure

970

00:32:59,110 --> 00:32:56,240

sure

971

00:33:01,909 --> 00:32:59,120

absolutely um and then that's just par

972

00:33:04,389 --> 00:33:01,919

for the course that's just normal

973

00:33:04,950 --> 00:33:04,399

speaking so again attrition is going to

974

00:33:06,789 --> 00:33:04,960

fill in

975

00:33:09,110 --> 00:33:06,799

yeah attrition is normal there's no

976

00:33:09,750 --> 00:33:09,120

question about that that is a part of

977

00:33:12,389 --> 00:33:09,760

the game

978

00:33:13,029 --> 00:33:12,399

in any organization uh but again what's

979

00:33:15,750 --> 00:33:13,039

really key

980

00:33:17,269 --> 00:33:15,760

is making sure and i know they know this

981

00:33:19,669 --> 00:33:17,279

i'm just stating

982

00:33:22,149 --> 00:33:19,679

that uh what's key is really important

983

00:33:25,110 --> 00:33:22,159

is is that they actually find somebody

984

00:33:27,269 --> 00:33:25,120

with the right resume you know the right

985

00:33:29,029 --> 00:33:27,279

background to actually join the team

986

00:33:30,710 --> 00:33:29,039

and hopefully they will find folks that

987

00:33:33,190 --> 00:33:30,720

are not woo-woo

988

00:33:33,909 --> 00:33:33,200

but actually find folks that are really

989

00:33:37,110 --> 00:33:33,919

interested

990

00:33:38,549 --> 00:33:37,120

in finding out more about this topic in

991

00:33:40,630 --> 00:33:38,559

a science-minded way

992

00:33:41,590 --> 00:33:40,640

while keeping in mind that this

993

00:33:43,750 --> 00:33:41,600

phenomenon

994

00:33:46,149 --> 00:33:43,760

may not be explainable with the kind of

995

00:33:48,149 --> 00:33:46,159

scientific model that we use

996

00:33:49,909 --> 00:33:48,159

which is a very difficult thing to do

997

00:33:52,149 --> 00:33:49,919

yeah i would also expect

998

00:33:52,950 --> 00:33:52,159

anyone looking to join this organization

999

00:33:54,789 --> 00:33:52,960

though doing

1000

00:33:56,549 --> 00:33:54,799

their due diligence in terms of joining

1001
00:33:57,110 --> 00:33:56,559
it are going to be asking the question

1002
00:33:59,190 --> 00:33:57,120
that

1003
00:34:00,149 --> 00:33:59,200
why did these three guys bolt right at

1004
00:34:01,909 --> 00:34:00,159
the same time

1005
00:34:04,389 --> 00:34:01,919
the week before christmas uh uh

1006
00:34:05,350 --> 00:34:04,399
something yeah but at the same time they

1007
00:34:07,110 --> 00:34:05,360
may not care

1008
00:34:08,710 --> 00:34:07,120
you know that person that might remind

1009
00:34:09,349 --> 00:34:08,720
you they like the offer enough they

1010
00:34:11,669 --> 00:34:09,359
might

1011
00:34:12,629 --> 00:34:11,679
yeah they they may actually just feel

1012
00:34:15,909 --> 00:34:12,639
like

1013
00:34:17,510 --> 00:34:15,919

they have a passion for whatever it is

1014

00:34:19,990 --> 00:34:17,520

and they feel like they have a lot to

1015

00:34:22,710 --> 00:34:20,000

add and another thing uh

1016

00:34:24,310 --> 00:34:22,720

that people need uh to consider is the

1017

00:34:26,710 --> 00:34:24,320

identity of tsa

1018

00:34:28,950 --> 00:34:26,720

rests on the shoulders of whom who who

1019

00:34:32,069 --> 00:34:28,960

is there not just who's left

1020

00:34:34,550 --> 00:34:32,079

and so for example i'm just gonna give a

1021

00:34:36,710 --> 00:34:34,560

kind of a different example let's just

1022

00:34:37,270 --> 00:34:36,720

say this is a band and they lost a few

1023

00:34:39,430 --> 00:34:37,280

members

1024

00:34:41,109 --> 00:34:39,440

you gained some more and that you know

1025

00:34:42,710 --> 00:34:41,119

you can either keep the old identity of

1026
00:34:44,149 --> 00:34:42,720
that band or have a new one with the new

1027
00:34:46,230 --> 00:34:44,159
members it's that simple

1028
00:34:48,629 --> 00:34:46,240
right right but they have to go out and

1029
00:34:51,109 --> 00:34:48,639
do that and i will have to see uh as

1030
00:34:51,669 --> 00:34:51,119
as lou elizondo embarks on his solo

1031
00:34:54,790 --> 00:34:51,679
career

1032
00:34:57,109 --> 00:34:54,800
to steal your metaphor chant we'll uh

1033
00:34:58,310 --> 00:34:57,119
we'll see how that works out well you

1034
00:35:00,150 --> 00:34:58,320
know i

1035
00:35:01,670 --> 00:35:00,160
i don't think anybody will disagree with

1036
00:35:05,589 --> 00:35:01,680
me that knows rock

1037
00:35:08,950 --> 00:35:05,599
and history and that is if when ac ac dc

1038
00:35:12,710 --> 00:35:08,960

when the original singer died almost

1039

00:35:15,430 --> 00:35:12,720

overnight they got a new singer and that

1040

00:35:17,430 --> 00:35:15,440

i believe added to the ability for that

1041

00:35:17,990 --> 00:35:17,440

band to continue on in a successful

1042

00:35:21,109 --> 00:35:18,000

manner

1043

00:35:21,990 --> 00:35:21,119

because they did not stop at all that

1044

00:35:24,230 --> 00:35:22,000

didn't

1045

00:35:25,349 --> 00:35:24,240

that they continued on in lock step

1046

00:35:28,550 --> 00:35:25,359

together they just

1047

00:35:30,790 --> 00:35:28,560

moved forward and and uh they're still

1048

00:35:31,589 --> 00:35:30,800

popular today and that's my point with

1049

00:35:33,670 --> 00:35:31,599

ttsa

1050

00:35:34,630 --> 00:35:33,680

if they want to keep this organization

1051
00:35:36,710 --> 00:35:34,640
around

1052
00:35:37,829 --> 00:35:36,720
the success of it really part of the

1053
00:35:41,670 --> 00:35:37,839
formula is

1054
00:35:44,550 --> 00:35:41,680
finding folks very fast that have a

1055
00:35:46,550 --> 00:35:44,560
really great backgrounds and moving

1056
00:35:48,630 --> 00:35:46,560
forward

1057
00:35:50,310 --> 00:35:48,640
and we'll see if they can get that done

1058
00:35:51,990 --> 00:35:50,320
or you know there's also the other

1059
00:35:53,670 --> 00:35:52,000
possibility of people who are still on

1060
00:35:54,790 --> 00:35:53,680
board just stepping up and doing more

1061
00:35:57,190 --> 00:35:54,800
that can happen too

1062
00:35:58,550 --> 00:35:57,200
when you've got somebody who's no longer

1063
00:36:01,109 --> 00:35:58,560

available to the lineup

1064

00:36:02,870 --> 00:36:01,119

so i think uh we've oh uh one last thing

1065

00:36:05,990 --> 00:36:02,880

uh the stockholders

1066

00:36:08,550 --> 00:36:06,000

where yeah the budget is a serious issue

1067

00:36:09,430 --> 00:36:08,560

possibly so you know that might be a

1068

00:36:12,310 --> 00:36:09,440

very serious

1069

00:36:14,150 --> 00:36:12,320

weak link in the chain so uh you know

1070

00:36:16,870 --> 00:36:14,160

three less people might actually

1071

00:36:18,950 --> 00:36:16,880

help their budget or it won't you know

1072

00:36:20,950 --> 00:36:18,960

there's that consideration also

1073

00:36:22,310 --> 00:36:20,960

yeah i don't know uh like how much uh

1074

00:36:23,109 --> 00:36:22,320

somebody is wealthy as christopher

1075

00:36:25,670 --> 00:36:23,119

millar if he

1076
00:36:26,550 --> 00:36:25,680
really cares about getting paid to be on

1077
00:36:28,790 --> 00:36:26,560
that's the thing

1078
00:36:30,790 --> 00:36:28,800
you know it's just it's important for

1079
00:36:33,990 --> 00:36:30,800
folks to understand

1080
00:36:34,630 --> 00:36:34,000
that uh they need to look at for example

1081
00:36:37,910 --> 00:36:34,640
let me just

1082
00:36:41,270 --> 00:36:37,920
here

1083
00:36:42,430 --> 00:36:41,280
and that is type in tsa and then type

1084
00:36:48,230 --> 00:36:42,440
in

1085
00:36:51,510 --> 00:36:48,240
or 18 or 2019 whatever

1086
00:36:51,910 --> 00:36:51,520
type in one or more of those years and

1087
00:36:54,710 --> 00:36:51,920
go

1088
00:36:57,109 --> 00:36:54,720

over the financial information and then

1089

00:37:01,430 --> 00:36:57,119

you decide for yourselves

1090

00:37:07,109 --> 00:37:05,430

yep but uh again the the investors

1091

00:37:08,710 --> 00:37:07,119

some of the folks who did buy stock in

1092

00:37:10,390 --> 00:37:08,720

this company i guess was roughly two

1093

00:37:12,550 --> 00:37:10,400

million dollars worth that was cl

1094

00:37:13,670 --> 00:37:12,560

what was claimed publicly uh two million

1095

00:37:15,670 --> 00:37:13,680

dollars worth of stock

1096

00:37:17,670 --> 00:37:15,680

i suppose i i think that there was a

1097

00:37:19,190 --> 00:37:17,680

minimum buy it had to be like uh two or

1098

00:37:22,470 --> 00:37:19,200

three hundred bucks somewhere

1099

00:37:24,630 --> 00:37:22,480

in in that ballpark and very much

1100

00:37:27,270 --> 00:37:24,640

no no it's not and if you had come to me

1101

00:37:29,349 --> 00:37:27,280

and said uh invest in this company

1102

00:37:30,550 --> 00:37:29,359

or you would come to me and be able and

1103

00:37:32,470 --> 00:37:30,560

say that this

1104

00:37:34,470 --> 00:37:32,480

this this this this is going to happen

1105

00:37:36,790 --> 00:37:34,480

like the louis lozando check sheet

1106

00:37:38,710 --> 00:37:36,800

and for 300 bucks i can guarantee you

1107

00:37:41,270 --> 00:37:38,720

that this this this is going to happen

1108

00:37:41,990 --> 00:37:41,280

uh i might even as cheap as i am i might

1109

00:37:44,470 --> 00:37:42,000

say that uh

1110

00:37:45,670 --> 00:37:44,480

you know uh that's what that'd be worth

1111

00:37:47,670 --> 00:37:45,680

300 bucks of course

1112

00:37:49,270 --> 00:37:47,680

as it turned out i i got that result

1113

00:37:50,710 --> 00:37:49,280

anyway and it didn't cost me a dime

1114

00:37:52,069 --> 00:37:50,720

because i didn't invest

1115

00:37:53,910 --> 00:37:52,079

but there were other people who did put

1116

00:37:55,670 --> 00:37:53,920

some money into this thing and they

1117

00:37:58,069 --> 00:37:55,680

you know i think the unfortunate thing

1118

00:37:59,910 --> 00:37:58,079

for companies that go public is

1119

00:38:01,270 --> 00:37:59,920

they may actually achieve their goal but

1120

00:38:03,910 --> 00:38:01,280

they may not make a dime

1121

00:38:05,430 --> 00:38:03,920

and this happens all the time so you

1122

00:38:06,870 --> 00:38:05,440

know they can actually end up telling

1123

00:38:08,470 --> 00:38:06,880

their stockholders you know what we

1124

00:38:11,829 --> 00:38:08,480

actually achieved our goals but

1125

00:38:14,870 --> 00:38:11,839

uh uh economically we're just

1126

00:38:16,790 --> 00:38:14,880

not doing well

1127

00:38:17,990 --> 00:38:16,800

and that's the unfortunate part i think

1128

00:38:19,910 --> 00:38:18,000

that tsa

1129

00:38:21,510 --> 00:38:19,920

has a lot of challenges in this respect

1130

00:38:23,750 --> 00:38:21,520

with regards to their

1131

00:38:25,589 --> 00:38:23,760

budget and it should have been obvious

1132

00:38:27,589 --> 00:38:25,599

to everybody that the quick cash

1133

00:38:28,790 --> 00:38:27,599

the the cash flow and every business

1134

00:38:31,030 --> 00:38:28,800

needs their cash flow

1135

00:38:32,790 --> 00:38:31,040

i was going to come from more you know

1136

00:38:34,390 --> 00:38:32,800

intellectual property whether it's the

1137

00:38:35,990 --> 00:38:34,400

history channel show i don't think

1138

00:38:38,150 --> 00:38:36,000

they obviously didn't make a fortune on

1139

00:38:39,829 --> 00:38:38,160

that but it was enough to keep the doors

1140

00:38:41,190 --> 00:38:39,839

open the two million dollars was enough

1141

00:38:43,829 --> 00:38:41,200

to get the doors open

1142

00:38:45,190 --> 00:38:43,839

and delong apparently has some some

1143

00:38:46,630 --> 00:38:45,200

other projects

1144

00:38:48,470 --> 00:38:46,640

there's no guarantee that they're going

1145

00:38:48,950 --> 00:38:48,480

to be wildly successful but it might be

1146

00:38:51,109 --> 00:38:48,960

enough

1147

00:38:52,950 --> 00:38:51,119

again like i said to keep the doors open

1148

00:38:53,349 --> 00:38:52,960

and as far as some of the early claims

1149

00:38:57,030 --> 00:38:53,359

about

1150

00:38:59,990 --> 00:38:57,040

uh you know building uh ships that were

1151
00:39:01,670 --> 00:39:00,000
going to be able to get us from new york

1152
00:39:03,190 --> 00:39:01,680
to california in the blink of an eye

1153
00:39:04,870 --> 00:39:03,200
where you could go from new york to have

1154
00:39:07,190 --> 00:39:04,880
lunch with somebody in california

1155
00:39:08,630 --> 00:39:07,200
and be back home uh within you know not

1156
00:39:11,030 --> 00:39:08,640
much more time than it took

1157
00:39:11,910 --> 00:39:11,040
uh to have the lunch in california that

1158
00:39:13,510 --> 00:39:11,920
sort of thing

1159
00:39:15,589 --> 00:39:13,520
those sort of claims were made at the

1160
00:39:17,670 --> 00:39:15,599
initial rollout uh

1161
00:39:19,430 --> 00:39:17,680
anybody who took that seriously i think

1162
00:39:22,069 --> 00:39:19,440
part of the challenge tsa

1163
00:39:24,550 --> 00:39:22,079

is going to face right now is trying to

1164

00:39:26,069 --> 00:39:24,560

figure out who is willing to go on tv

1165

00:39:28,230 --> 00:39:26,079

you know because lou elizondo was

1166

00:39:31,270 --> 00:39:28,240

willing to do that he did that well

1167

00:39:32,790 --> 00:39:31,280

and you know who who's left that will

1168

00:39:34,150 --> 00:39:32,800

actually have the same kind of

1169

00:39:36,550 --> 00:39:34,160

wherewithal

1170

00:39:37,589 --> 00:39:36,560

and courage to do that it's a very

1171

00:39:40,630 --> 00:39:37,599

difficult thing

1172

00:39:41,510 --> 00:39:40,640

to actually agree to sign up for a tv

1173

00:39:44,790 --> 00:39:41,520

program

1174

00:39:45,990 --> 00:39:44,800

and then do a series and uh do it well

1175

00:39:47,990 --> 00:39:46,000

and have to be able to go out and

1176

00:39:49,510 --> 00:39:48,000

promote it and do those interviews to

1177

00:39:52,150 --> 00:39:49,520

get that promotion so

1178

00:39:54,069 --> 00:39:52,160

i don't know that jim cenavan or any of

1179

00:39:56,550 --> 00:39:54,079

the other folks that are left

1180

00:39:57,670 --> 00:39:56,560

have that kind of personality to do that

1181

00:39:59,430 --> 00:39:57,680

or

1182

00:40:01,030 --> 00:39:59,440

that they you know maybe they have the

1183

00:40:02,790 --> 00:40:01,040

skill sets to do it but i don't know if

1184

00:40:04,230 --> 00:40:02,800

they have the wherewithal the impetus to

1185

00:40:04,950 --> 00:40:04,240

actually want to fall through do they

1186

00:40:06,550 --> 00:40:04,960

want to do it

1187

00:40:08,550 --> 00:40:06,560

and then the other guy the other guy

1188

00:40:10,150 --> 00:40:08,560

left over is the guy who was doing it

1189

00:40:11,910 --> 00:40:10,160
before they actually rolled out the

1190

00:40:13,589 --> 00:40:11,920
carpet and then the early stages

1191

00:40:15,910 --> 00:40:13,599
and that was the log and that apparently

1192

00:40:19,270 --> 00:40:15,920
that didn't work out right now

1193

00:40:20,150 --> 00:40:19,280
the kind of combination of things that

1194

00:40:22,069 --> 00:40:20,160
they might need

1195

00:40:23,430 --> 00:40:22,079
that they might be looking for as far as

1196

00:40:25,109 --> 00:40:23,440
the next folks

1197

00:40:27,270 --> 00:40:25,119
and that would be folks who have

1198

00:40:29,349 --> 00:40:27,280
actually a strong track record

1199

00:40:31,030 --> 00:40:29,359
of having been involved in the

1200

00:40:34,309 --> 00:40:31,040
entertainment industry

1201

00:40:36,950 --> 00:40:34,319

and also have a forensic a based

1202

00:40:38,790 --> 00:40:36,960

uh background and or some kind of

1203

00:40:41,030 --> 00:40:38,800

science related background

1204

00:40:42,710 --> 00:40:41,040

or some kind of technology related

1205

00:40:44,870 --> 00:40:42,720

background that kind of thing

1206

00:40:47,430 --> 00:40:44,880

of the kinds of things that tssa needs

1207

00:40:50,790 --> 00:40:47,440

in order to continue on with their

1208

00:40:51,030 --> 00:40:50,800

their goals so again those those kinds

1209

00:40:56,390 --> 00:40:51,040

of

1210

00:40:58,950 --> 00:40:56,400

you know i don't i don't know that it

1211

00:40:59,670 --> 00:40:58,960

would be i mean hollywood has all kinds

1212

00:41:03,510 --> 00:40:59,680

of types

1213

00:41:05,670 --> 00:41:03,520

and it i think it's totally possible for

1214

00:41:07,829 --> 00:41:05,680

you know i'm just saying that i don't

1215

00:41:09,829 --> 00:41:07,839

think it's going to be impossible

1216

00:41:11,190 --> 00:41:09,839

actually yeah what i what i was thinking

1217

00:41:12,470 --> 00:41:11,200

of as you were going through that

1218

00:41:14,950 --> 00:41:12,480

checklist of abilities

1219

00:41:16,230 --> 00:41:14,960

i was thinking more somebody in the the

1220

00:41:18,870 --> 00:41:16,240

scientific realm

1221

00:41:19,430 --> 00:41:18,880

who could go out there and and do that

1222

00:41:21,589 --> 00:41:19,440

but

1223

00:41:22,870 --> 00:41:21,599

uh someone who would be uh articulate

1224

00:41:24,790 --> 00:41:22,880

enough and very good

1225

00:41:26,230 --> 00:41:24,800

i mean ideally somebody like amichi

1226

00:41:28,630 --> 00:41:26,240

ukaku who wouldn't

1227

00:41:29,750 --> 00:41:28,640

do it but somebody like him the neat

1228

00:41:31,750 --> 00:41:29,760

thing about kaku

1229

00:41:33,990 --> 00:41:31,760

is he he doesn't mind being the

1230

00:41:36,309 --> 00:41:34,000

limelight he's comfortable with it

1231

00:41:37,270 --> 00:41:36,319

and he's a real natural when he's on tv

1232

00:41:39,430 --> 00:41:37,280

and all that

1233

00:41:40,870 --> 00:41:39,440

and he does interviews he has absolutely

1234

00:41:43,910 --> 00:41:40,880

no qualms about it

1235

00:41:45,670 --> 00:41:43,920

and uh you know folks folks really love

1236

00:41:47,190 --> 00:41:45,680

watching him and listening to him

1237

00:41:49,349 --> 00:41:47,200

they need to find somebody with that

1238

00:41:51,430 --> 00:41:49,359

kind that is that yeah i would say more

1239

00:41:52,470 --> 00:41:51,440

from the scientific realm but again uh

1240

00:41:54,309 --> 00:41:52,480

some scientists

1241

00:41:55,510 --> 00:41:54,319

are very good in that kind of situation

1242

00:41:57,990 --> 00:41:55,520

but not all of them are

1243

00:41:58,710 --> 00:41:58,000

so there's that so if they if they find

1244

00:42:02,150 --> 00:41:58,720

the right kind of

1245

00:42:05,349 --> 00:42:02,160

example of dr kevin knuth okay uh

1246

00:42:08,470 --> 00:42:05,359

uh he actually has given talks in

1247

00:42:11,670 --> 00:42:08,480

10 different countries

1248

00:42:12,470 --> 00:42:11,680

you know that's just amazing dr kevin

1249

00:42:16,390 --> 00:42:12,480

knuth

1250

00:42:18,870 --> 00:42:16,400

has given many many lectures worldwide

1251
00:42:19,589 --> 00:42:18,880
and uh it takes someone with that kind

1252
00:42:22,790 --> 00:42:19,599
of

1253
00:42:23,829 --> 00:42:22,800
ability and you know personality and

1254
00:42:26,470 --> 00:42:23,839
skill sets

1255
00:42:28,069 --> 00:42:26,480
to be able to address a crowd that they

1256
00:42:30,069 --> 00:42:28,079
either can't see because they're being

1257
00:42:32,630 --> 00:42:30,079
filmed or they can't see and they're not

1258
00:42:34,550 --> 00:42:32,640
afraid

1259
00:42:36,309 --> 00:42:34,560
they're that confident yeah yeah he

1260
00:42:39,349 --> 00:42:36,319
would be that and actually it probably

1261
00:42:41,270 --> 00:42:39,359
wouldn't be a bad idea uh for uh tsa to

1262
00:42:42,230 --> 00:42:41,280
maybe look at the entire roster of the

1263
00:42:45,109 --> 00:42:42,240

scu

1264

00:42:46,710 --> 00:42:45,119

and see hey maybe uh right i mean i'm

1265

00:42:49,109 --> 00:42:46,720

sure that that has

1266

00:42:52,150 --> 00:42:49,119

a consideration uh that uh that would be

1267

00:42:53,589 --> 00:42:52,160

an area to go uh uh prospecting you know

1268

00:42:55,430 --> 00:42:53,599

it seems like that maybe they have to go

1269

00:42:57,750 --> 00:42:55,440

out and do some prospecting there's also

1270

00:43:01,109 --> 00:42:57,760

a lot of young scientists out there

1271

00:43:04,550 --> 00:43:01,119

like deep prasad for example who have

1272

00:43:07,670 --> 00:43:04,560

the uh social skills

1273

00:43:09,829 --> 00:43:07,680

and the uh the ability

1274

00:43:11,750 --> 00:43:09,839

to take on challenges with a lot of

1275

00:43:13,589 --> 00:43:11,760

savvy and

1276

00:43:15,589 --> 00:43:13,599

you know they just have these great

1277

00:43:18,630 --> 00:43:15,599

personalities that the public love

1278

00:43:21,109 --> 00:43:18,640

and so someone kind of like a deep

1279

00:43:23,109 --> 00:43:21,119

prasad for example

1280

00:43:24,150 --> 00:43:23,119

who's willing to actually put themselves

1281

00:43:26,309 --> 00:43:24,160

out there

1282

00:43:27,589 --> 00:43:26,319

in what seems like a vulnerable way but

1283

00:43:30,069 --> 00:43:27,599

they actually gain a lot

1284

00:43:31,910 --> 00:43:30,079

more courage and confidence by doing it

1285

00:43:35,270 --> 00:43:31,920

while being able to share

1286

00:43:37,430 --> 00:43:35,280

uh the talents uh and the talents

1287

00:43:38,630 --> 00:43:37,440

that they have you know with regards to

1288

00:43:39,750 --> 00:43:38,640

science or whatever it is they

1289

00:43:41,829 --> 00:43:39,760

specialize in

1290

00:43:44,069 --> 00:43:41,839

yeah and of course the the caveat there

1291

00:43:45,589 --> 00:43:44,079

is uh kaku's very high profile the idea

1292

00:43:48,390 --> 00:43:45,599

of getting him booked on a

1293

00:43:48,950 --> 00:43:48,400

on a tucker carlson show or on a cnn

1294

00:43:50,950 --> 00:43:48,960

show

1295

00:43:59,589 --> 00:43:50,960

uh wouldn't be that difficult as

1296

00:44:02,710 --> 00:44:02,069

a pool of younger scientists to you know

1297

00:44:05,589 --> 00:44:02,720

join them

1298

00:44:07,430 --> 00:44:05,599

and i think they might tsa also needs

1299

00:44:11,190 --> 00:44:07,440

to be forward

1300

00:44:14,230 --> 00:44:11,200

looking like say house scu is about

1301
00:44:15,030 --> 00:44:14,240
um recruitment su is very serious about

1302
00:44:17,750 --> 00:44:15,040
who they

1303
00:44:18,870 --> 00:44:17,760
uh bring on board it's a very complex

1304
00:44:20,870 --> 00:44:18,880
process

1305
00:44:22,230 --> 00:44:20,880
there's an application that has to be

1306
00:44:25,190 --> 00:44:22,240
filled out it's a big

1307
00:44:26,230 --> 00:44:25,200
it's it there's a lot of things involved

1308
00:44:29,109 --> 00:44:26,240
many steps

1309
00:44:29,910 --> 00:44:29,119
and i'm hoping that tsa will consider

1310
00:44:32,470 --> 00:44:29,920
um

1311
00:44:33,990 --> 00:44:32,480
maybe maybe sort of following the

1312
00:44:35,829 --> 00:44:34,000
footsteps of scu

1313
00:44:37,670 --> 00:44:35,839

yeah and that might be the way forward

1314

00:44:38,390 --> 00:44:37,680

since it's going to be very limited the

1315

00:44:41,270 --> 00:44:38,400

guys who

1316

00:44:41,750 --> 00:44:41,280

uh used to run the a-tip program and uh

1317

00:44:44,790 --> 00:44:41,760

for

1318

00:44:47,910 --> 00:44:44,800

defense

1319

00:44:48,230 --> 00:44:47,920

uh don't grow on trees uh they're uh you

1320

00:44:50,950 --> 00:44:48,240

know

1321

00:44:51,510 --> 00:44:50,960

uh so uh uh there's that issue and of

1322

00:44:52,950 --> 00:44:51,520

course uh

1323

00:44:54,950 --> 00:44:52,960

scientists willing to talk about this

1324

00:44:56,470 --> 00:44:54,960

don't go on growing trees either

1325

00:44:58,790 --> 00:44:56,480

but at least the talent pool's a little

1326
00:45:00,710 --> 00:44:58,800
bit larger right that might be the yeah

1327
00:45:03,670 --> 00:45:00,720
there is the opposite end of the age

1328
00:45:04,230 --> 00:45:03,680
spectrum and that is retired scientists

1329
00:45:06,790 --> 00:45:04,240
and

1330
00:45:07,589 --> 00:45:06,800
other retired folks from the military or

1331
00:45:10,390 --> 00:45:07,599
or a

1332
00:45:12,550 --> 00:45:10,400
military industrial complex retired uh

1333
00:45:15,430 --> 00:45:12,560
intelligence officers

1334
00:45:17,109 --> 00:45:15,440
just folks that have actually finished

1335
00:45:17,990 --> 00:45:17,119
you know multiple careers that can

1336
00:45:20,390 --> 00:45:18,000
actually um

1337
00:45:22,550 --> 00:45:20,400
only add to the the uh the

1338
00:45:25,030 --> 00:45:22,560

dimensionality of tsa

1339

00:45:26,950 --> 00:45:25,040

so there's that possibility also but

1340

00:45:28,630 --> 00:45:26,960

that that that would be semivan he's the

1341

00:45:31,670 --> 00:45:28,640

retired cia guy but

1342

00:45:31,990 --> 00:45:31,680

there's there's 7.7 billion people if

1343

00:45:35,190 --> 00:45:32,000

not

1344

00:45:37,109 --> 00:45:35,200

know sam evan

1345

00:45:39,109 --> 00:45:37,119

i don't know that there's a lot more

1346

00:45:39,910 --> 00:45:39,119

other there's a lot of other folks to

1347

00:45:42,230 --> 00:45:39,920

consider

1348

00:45:43,270 --> 00:45:42,240

and i hope they look worldwide because

1349

00:45:45,349 --> 00:45:43,280

you know

1350

00:45:46,950 --> 00:45:45,359

the per the folks they may be looking

1351

00:45:49,270 --> 00:45:46,960

for might be in their backyard or they

1352

00:45:51,510 --> 00:45:49,280

might be in another country

1353

00:45:53,430 --> 00:45:51,520

yeah but clearly after these uh

1354

00:45:56,150 --> 00:45:53,440

departures uh they need uh

1355

00:45:56,630 --> 00:45:56,160

they need at least one two would be

1356

00:45:58,710 --> 00:45:56,640

better

1357

00:46:00,550 --> 00:45:58,720

uh really good frontmen basically yeah

1358

00:46:02,230 --> 00:46:00,560

guys to go out there i think

1359

00:46:03,750 --> 00:46:02,240

you know three wouldn't be bad either i

1360

00:46:06,870 --> 00:46:03,760

think right hey the more the mayor

1361

00:46:09,030 --> 00:46:06,880

see you i i'd like to explain something

1362

00:46:09,910 --> 00:46:09,040

folks if you're wondering with the scu

1363

00:46:11,990 --> 00:46:09,920

by the way because

1364

00:46:12,950 --> 00:46:12,000

frank and i will talk acronyms for a

1365

00:46:16,150 --> 00:46:12,960

while

1366

00:46:19,270 --> 00:46:16,160

yes you if you type it in just type in

1367

00:46:21,589 --> 00:46:19,280

scientific coalition of uaps

1368

00:46:23,349 --> 00:46:21,599

that's what the scu is and they don't

1369

00:46:24,630 --> 00:46:23,359

just have one or three people look at

1370

00:46:27,990 --> 00:46:24,640

their roster

1371

00:46:30,550 --> 00:46:28,000

there's i don't know just tons of people

1372

00:46:32,550 --> 00:46:30,560

on board with them robert pal's there

1373

00:46:33,990 --> 00:46:32,560

rich hoffman's there morgan bell those

1374

00:46:36,230 --> 00:46:34,000

are the top guys

1375

00:46:39,270 --> 00:46:36,240

vetted very seriously and takes a long

1376

00:46:42,710 --> 00:46:39,280

time um but anyway the point here is

1377

00:46:45,829 --> 00:46:42,720

uh i i'm hoping that tsa will

1378

00:46:47,910 --> 00:46:45,839

consider a lot more folks on their team

1379

00:46:52,309 --> 00:46:47,920

rather than say a baker's dozen

1380

00:46:54,950 --> 00:46:52,319

or or half of that yep and uh we wish uh

1381

00:46:56,069 --> 00:46:54,960

again uh lou elizondo and uh chris

1382

00:46:58,309 --> 00:46:56,079

mellon uh

1383

00:47:00,870 --> 00:46:58,319

and steve justice the best of luck on

1384

00:47:03,990 --> 00:47:00,880

their uh on their solo careers

1385

00:47:06,150 --> 00:47:04,000

so we'll see when we'll see when uh

1386

00:47:07,670 --> 00:47:06,160

all that comes out so uh uh certainly it

1387

00:47:08,150 --> 00:47:07,680

was an interesting week and then we'll

1388

00:47:11,349 --> 00:47:08,160

see

1389

00:47:12,950 --> 00:47:11,359

what that means for uh 2021

1390

00:47:14,870 --> 00:47:12,960

uh certainly over the last three years

1391

00:47:18,069 --> 00:47:14,880

uh we've had some real slow

1392

00:47:19,510 --> 00:47:18,079

periods and uh it's it's run hot cold

1393

00:47:20,950 --> 00:47:19,520

sometimes it runs very very hot

1394

00:47:23,349 --> 00:47:20,960

sometimes it runs cold

1395

00:47:24,549 --> 00:47:23,359

uh this past week has been kind of hot

1396

00:47:26,230 --> 00:47:24,559

but uh

1397

00:47:28,390 --> 00:47:26,240

you know what that means going forward

1398

00:47:29,430 --> 00:47:28,400

and how quick uh the new year is uh

1399

00:47:32,790 --> 00:47:29,440

going to go off

1400

00:47:35,990 --> 00:47:32,800

with some bombshells uh not seeing

1401

00:47:36,790 --> 00:47:36,000

that uh uap task force uh within the

1402

00:47:40,390 --> 00:47:36,800

pentagon

1403

00:47:43,510 --> 00:47:40,400

uh their requested public report

1404

00:47:44,309 --> 00:47:43,520

from senators rubio and warner not

1405

00:47:47,270 --> 00:47:44,319

seeing that

1406

00:47:49,430 --> 00:47:47,280

happening and that coming out until uh

1407

00:47:51,670 --> 00:47:49,440

at least the late summer now so

1408

00:47:53,349 --> 00:47:51,680

we might be looking at a real slow

1409

00:47:53,990 --> 00:47:53,359

stretch during the early part of next

1410

00:47:56,790 --> 00:47:54,000

year

1411

00:47:57,829 --> 00:47:56,800

but uh be that be that as it may more

1412

00:48:00,710 --> 00:47:57,839

stuff does come out

1413

00:48:01,190 --> 00:48:00,720

and uh the ball is in play i'm pretty

1414

00:48:02,790 --> 00:48:01,200

well

1415

00:48:04,950 --> 00:48:02,800

done with this particular topic chance

1416

00:48:05,990 --> 00:48:04,960

so alyssa you've got something to add

1417

00:48:08,790 --> 00:48:06,000

we'll move on to topic

1418

00:48:10,790 --> 00:48:08,800

too well i'm not sure i'm i'm saying his

1419

00:48:11,910 --> 00:48:10,800

title correctly but the israelis former

1420

00:48:14,470 --> 00:48:11,920

space commander

1421

00:48:17,109 --> 00:48:14,480

uh in his story was kind of interesting

1422

00:48:18,710 --> 00:48:17,119

what were your thoughts on that

1423

00:48:20,710 --> 00:48:18,720

well it seems like what happened with

1424

00:48:23,270 --> 00:48:20,720

that guy is that uh

1425

00:48:25,270 --> 00:48:23,280

he has looked at a lot of the uh the

1426

00:48:26,870 --> 00:48:25,280

material that's out there in the ufo

1427

00:48:27,510 --> 00:48:26,880

field and uh even in the interview

1428

00:48:30,390 --> 00:48:27,520

itself

1429

00:48:32,069 --> 00:48:30,400

he more or less acknowledged that uh uh

1430

00:48:33,109 --> 00:48:32,079

he doesn't have firsthand experience

1431

00:48:35,270 --> 00:48:33,119

with the stuff but he's

1432

00:48:36,549 --> 00:48:35,280

basically uh believing what he's reading

1433

00:48:38,150 --> 00:48:36,559

so i think that's uh

1434

00:48:39,589 --> 00:48:38,160

that that's about where we're at with

1435

00:48:43,109 --> 00:48:39,599

that i i

1436

00:48:45,670 --> 00:48:43,119

probably will gain a few haters or maybe

1437

00:48:50,069 --> 00:48:45,680

fans by what i'm going to say but

1438

00:48:51,589 --> 00:48:50,079

um what i think my my perspective from

1439

00:48:55,990 --> 00:48:51,599

having read what i did

1440

00:49:02,549 --> 00:49:00,230

he does sound a little uh

1441

00:49:03,829 --> 00:49:02,559

different uh some people might call

1442

00:49:07,510 --> 00:49:03,839

crazy

1443

00:49:10,150 --> 00:49:07,520

however you know uh

1444

00:49:12,230 --> 00:49:10,160

let me just put it this way we're

1445

00:49:15,030 --> 00:49:12,240

involved in topic of ufology

1446

00:49:17,109 --> 00:49:15,040

which encompasses a lot of interesting

1447

00:49:18,870 --> 00:49:17,119

things and so

1448

00:49:21,270 --> 00:49:18,880

you know if people listen to me on my

1449

00:49:23,829 --> 00:49:21,280

talk shows with you

1450

00:49:24,870 --> 00:49:23,839

um i probably sound a little crazy to

1451

00:49:26,710 --> 00:49:24,880

folks

1452

00:49:29,030 --> 00:49:26,720

yeah we all we also filter a lot of

1453

00:49:30,870 --> 00:49:29,040

material out there's a lot of material i

1454

00:49:33,270 --> 00:49:30,880

also would like to point out to people

1455

00:49:35,030 --> 00:49:33,280

please don't think we have not heard an

1456

00:49:36,390 --> 00:49:35,040

awful lot of stuff okay because

1457

00:49:38,790 --> 00:49:36,400

and i'm not saying we've heard it all

1458

00:49:42,230 --> 00:49:38,800

either but we've heard

1459

00:49:44,390 --> 00:49:42,240

quite a wide ranging uh grocery

1460

00:49:46,230 --> 00:49:44,400

list worth of different things with

1461

00:49:48,630 --> 00:49:46,240

regards to ufology so

1462

00:49:50,710 --> 00:49:48,640

it's not like this is our first rodeo

1463

00:49:52,230 --> 00:49:50,720

okay i pretty much heard everything he

1464

00:49:54,150 --> 00:49:52,240

ever spouted in

1465

00:49:56,710 --> 00:49:54,160

you know some of those articles written

1466

00:49:59,990 --> 00:49:56,720

about him with regards to what he said

1467

00:50:01,109 --> 00:50:00,000

many times before and just from my

1468

00:50:03,829 --> 00:50:01,119

personal opinion

1469

00:50:04,549 --> 00:50:03,839

it's not really my bag it's not my my

1470

00:50:07,750 --> 00:50:04,559

belly wick

1471

00:50:10,309 --> 00:50:07,760

with regards to what he said but i'm

1472

00:50:11,510 --> 00:50:10,319

you know i just feel like he might have

1473

00:50:13,910 --> 00:50:11,520

some dementia

1474

00:50:14,870 --> 00:50:13,920

now do i have proof of that no i don't

1475

00:50:17,510 --> 00:50:14,880

however

1476

00:50:19,030 --> 00:50:17,520

i just have this weird feeling that this

1477

00:50:23,030 --> 00:50:19,040

individual

1478

00:50:25,349 --> 00:50:23,040

um may have lost it a little bit

1479

00:50:27,190 --> 00:50:25,359

in some way or another but then again

1480

00:50:29,270 --> 00:50:27,200

there are people out there

1481

00:50:31,190 --> 00:50:29,280

that are i'm just going to go and call

1482

00:50:32,950 --> 00:50:31,200

that call it like i see it and that is

1483

00:50:35,430 --> 00:50:32,960

conspiracy theorists

1484

00:50:37,109 --> 00:50:35,440

they are folks that are very woo-woo

1485

00:50:38,309 --> 00:50:37,119

they don't have anything to back up

1486

00:50:40,309 --> 00:50:38,319

their claims

1487

00:50:42,470 --> 00:50:40,319

and they go down that rabbit hole and

1488

00:50:43,750 --> 00:50:42,480

that's exactly what he did he fell down

1489

00:50:45,670 --> 00:50:43,760

that rabbit hole

1490

00:50:47,349 --> 00:50:45,680

and i don't think he stopped either i

1491

00:50:50,470 --> 00:50:47,359

think he's still falling okay

1492

00:50:52,390 --> 00:50:50,480

that could be exactly you know

1493

00:50:54,630 --> 00:50:52,400

this might disappoint a few folks with

1494

00:50:57,270 --> 00:50:54,640

regards to what i'm saying but

1495

00:50:59,349 --> 00:50:57,280

uh you know it's hard to be sensible

1496

00:51:01,030 --> 00:50:59,359

about the topic of ufology

1497

00:51:02,790 --> 00:51:01,040

and then it's hard not to sound crazy

1498

00:51:04,790 --> 00:51:02,800

about it too you know to folks that

1499

00:51:06,790 --> 00:51:04,800

aren't used to it so

1500

00:51:07,990 --> 00:51:06,800

it's just it's just a hard topic to

1501
00:51:09,910 --> 00:51:08,000
discuss it really is

1502
00:51:12,470 --> 00:51:09,920
and some people have a lot more to say

1503
00:51:14,309 --> 00:51:12,480
that is that's not scientific based than

1504
00:51:16,150 --> 00:51:14,319
others that's the only way to say it

1505
00:51:17,829 --> 00:51:16,160
yeah we covered a lot of this when we

1506
00:51:18,630 --> 00:51:17,839
had frank milburn on a couple weeks and

1507
00:51:20,549 --> 00:51:18,640
that talked

1508
00:51:21,750 --> 00:51:20,559
in some depth about that and that was a

1509
00:51:23,510 --> 00:51:21,760
good exchange that's a

1510
00:51:25,270 --> 00:51:23,520
an interview that we did that's uh i

1511
00:51:26,150 --> 00:51:25,280
think uh well worth if you haven't uh

1512
00:51:28,790 --> 00:51:26,160
checked it out it's

1513
00:51:30,790 --> 00:51:28,800

well worth going back and uh a guy like

1514

00:51:34,549 --> 00:51:30,800

frank milburn a guy who comes from

1515

00:51:37,670 --> 00:51:34,559

a uh an intelligence analyst perspective

1516

00:51:38,069 --> 00:51:37,680

and the way he analyzes uh information

1517

00:51:39,910 --> 00:51:38,079

and

1518

00:51:41,270 --> 00:51:39,920

breaks it down what's the information

1519

00:51:43,349 --> 00:51:41,280

who's the source

1520

00:51:44,309 --> 00:51:43,359

and uh gives it the scores and all that

1521

00:51:46,390 --> 00:51:44,319

i thought that

1522

00:51:48,549 --> 00:51:46,400

uh we could do a lot more of that so but

1523

00:51:50,870 --> 00:51:48,559

basically as far as this go uh the

1524

00:51:52,630 --> 00:51:50,880

the score on the reality of these guys

1525

00:51:53,270 --> 00:51:52,640

leaving uh that's a five and uh the

1526
00:51:54,870 --> 00:51:53,280
source is

1527
00:51:56,549 --> 00:51:54,880
a direct source you got to give that a

1528
00:51:58,790 --> 00:51:56,559
five so uh that's uh

1529
00:52:00,390 --> 00:51:58,800
that that's the story here uh one other

1530
00:52:02,870 --> 00:52:00,400
thing i'd like that yeah i did

1531
00:52:04,870 --> 00:52:02,880
i have heard some additional scuttlebutt

1532
00:52:06,950 --> 00:52:04,880
as far as some of the reasonings

1533
00:52:08,790 --> 00:52:06,960
uh uh for their leaving also some

1534
00:52:09,349 --> 00:52:08,800
unhappiness with the way the science was

1535
00:52:11,510 --> 00:52:09,359
handled

1536
00:52:13,109 --> 00:52:11,520
i'm not so sure about that the way in

1537
00:52:15,750 --> 00:52:13,119
particular de long handled it

1538
00:52:17,510 --> 00:52:15,760

i'm not sure you know why he would even

1539

00:52:17,990 --> 00:52:17,520

uh be terribly involved you know just

1540

00:52:20,230 --> 00:52:18,000

basically

1541

00:52:21,030 --> 00:52:20,240

uh set a budget and uh go do the science

1542

00:52:22,309 --> 00:52:21,040

he's not

1543

00:52:24,390 --> 00:52:22,319

he doesn't have that kind of a

1544

00:52:26,549 --> 00:52:24,400

background or uh really shouldn't be uh

1545

00:52:28,630 --> 00:52:26,559

saying yay or nay to this or that but

1546

00:52:30,230 --> 00:52:28,640

uh so that's that i mean we've we've

1547

00:52:31,349 --> 00:52:30,240

already gotten a good 50 minutes on this

1548

00:52:34,069 --> 00:52:31,359

particular topic

1549

00:52:34,549 --> 00:52:34,079

chance so uh let's uh i move on and now

1550

00:52:37,030 --> 00:52:34,559

let's

1551
00:52:39,349 --> 00:52:37,040
talk about uh former cia director uh

1552
00:52:41,190 --> 00:52:39,359
john brennan in his uh interview

1553
00:52:43,430 --> 00:52:41,200
uh this past week where he was asked

1554
00:52:46,230 --> 00:52:43,440
about uh about ufos uh

1555
00:52:46,710 --> 00:52:46,240
uh very interesting comments that he

1556
00:52:48,630 --> 00:52:46,720
made

1557
00:52:49,750 --> 00:52:48,640
it was basically an interview with a

1558
00:52:51,670 --> 00:52:49,760
think tank that

1559
00:52:54,710 --> 00:52:51,680
is associated with george mason

1560
00:52:57,750 --> 00:52:54,720
university so again a credible source

1561
00:52:58,790 --> 00:52:57,760
asking brennan about ufos i'm going to

1562
00:53:01,589 --> 00:52:58,800
pull up that clip

1563
00:53:02,549 --> 00:53:01,599

now it's a a lengthy interview the uh uh

1564

00:53:04,630 --> 00:53:02,559

it did come up

1565

00:53:05,829 --> 00:53:04,640

so uh chant uh you're not gonna be able

1566

00:53:07,829 --> 00:53:05,839

to hear this i don't know if you had a

1567

00:53:10,870 --> 00:53:07,839

chance to listen to this particular clip

1568

00:53:12,069 --> 00:53:10,880

but i'm gonna play it now so let's uh

1569

00:53:16,950 --> 00:53:12,079

let's go to that

1570

00:53:21,589 --> 00:53:19,190

so the navy has reported that a lot of

1571

00:53:22,390 --> 00:53:21,599

its pilots have seen unidentified flying

1572

00:53:24,309 --> 00:53:22,400

objects

1573

00:53:26,390 --> 00:53:24,319

and if you're tackling that as a cia

1574

00:53:27,670 --> 00:53:26,400

director or someone who works there

1575

00:53:30,069 --> 00:53:27,680

what is it you would sift through and

1576

00:53:31,750 --> 00:53:30,079

interpret how would that go

1577

00:53:33,430 --> 00:53:31,760

well i've seen some of those videos from

1578

00:53:34,390 --> 00:53:33,440

navy pilots and i must tell you that

1579

00:53:36,309 --> 00:53:34,400

they are quite

1580

00:53:39,030 --> 00:53:36,319

eyebrow-raising when you look at them

1581

00:53:42,069 --> 00:53:39,040

and you try to ensure that you have

1582

00:53:45,190 --> 00:53:42,079

as much data as possible in terms of

1583

00:53:46,950 --> 00:53:45,200

visuals also different types of maybe

1584

00:53:47,670 --> 00:53:46,960

technical collection of sensors that you

1585

00:53:50,390 --> 00:53:47,680

have

1586

00:53:51,990 --> 00:53:50,400

at the time but then you also i believe

1587

00:53:53,910 --> 00:53:52,000

it's important to reach out into

1588

00:53:55,030 --> 00:53:53,920

other environments and find out well

1589

00:53:57,589 --> 00:53:55,040

were there any type of

1590

00:53:59,109 --> 00:53:57,599

weather phenomena at that time that

1591

00:54:01,030 --> 00:53:59,119

might have in fact created

1592

00:54:02,309 --> 00:54:01,040

the appearance of the phenomenon that

1593

00:54:03,349 --> 00:54:02,319

you're looking at

1594

00:54:05,750 --> 00:54:03,359

were there some things that were

1595

00:54:08,470 --> 00:54:05,760

happening sort of on the ground or

1596

00:54:09,589 --> 00:54:08,480

other types of phenomena that again

1597

00:54:11,349 --> 00:54:09,599

could help explain

1598

00:54:12,950 --> 00:54:11,359

what seems to be you know quite a

1599

00:54:15,589 --> 00:54:12,960

mystery as far as

1600

00:54:17,030 --> 00:54:15,599

what it is there but i i think it

1601

00:54:19,990 --> 00:54:17,040

important thing for analysts

1602

00:54:20,950 --> 00:54:20,000

to do is not to go into this type of

1603

00:54:23,510 --> 00:54:20,960

challenge

1604

00:54:24,950 --> 00:54:23,520

either discounting certain types of

1605

00:54:27,270 --> 00:54:24,960

possibilities

1606

00:54:28,230 --> 00:54:27,280

or believing in advance that it is

1607

00:54:30,309 --> 00:54:28,240

likely x

1608

00:54:31,910 --> 00:54:30,319

y or z you really have to approach it

1609

00:54:33,829 --> 00:54:31,920

with an open mind but get as much

1610

00:54:35,109 --> 00:54:33,839

data as possible and get as much

1611

00:54:37,190 --> 00:54:35,119

expertise as possible

1612

00:54:38,950 --> 00:54:37,200

brought to bear so at the end of all

1613

00:54:40,549 --> 00:54:38,960

that sifting and interpreting

1614

00:54:43,750 --> 00:54:40,559

what do you think is the most likely

1615

00:54:47,349 --> 00:54:46,069

i i i don't know you know when people

1616

00:54:49,349 --> 00:54:47,359

talk about it you know is there

1617

00:54:51,829 --> 00:54:49,359

the life of their life besides what's in

1618

00:54:52,390 --> 00:54:51,839

the states uh in the in the world the

1619

00:54:55,589 --> 00:54:52,400

globe

1620

00:54:56,230 --> 00:54:55,599

um you know life is is defined in many

1621

00:54:58,230 --> 00:54:56,240

different ways

1622

00:54:59,910 --> 00:54:58,240

i think it's a bit presumptuous it's not

1623

00:55:02,710 --> 00:54:59,920

arrogant for us to believe that

1624

00:55:03,349 --> 00:55:02,720

there's no other form of life anywhere

1625

00:55:07,190 --> 00:55:03,359

in the

1626
00:55:09,510 --> 00:55:07,200
entire universe what that might

1627
00:55:10,789 --> 00:55:09,520
you know be is i think you know subject

1628
00:55:14,069 --> 00:55:10,799
to you know

1629
00:55:15,430 --> 00:55:14,079
a lot of different views but um

1630
00:55:17,430 --> 00:55:15,440
i think some of the phenomena we're

1631
00:55:21,430 --> 00:55:17,440
going to be seeing it

1632
00:55:25,109 --> 00:55:21,440
continues to be unexplained and

1633
00:55:28,630 --> 00:55:25,119
might in fact be some type of phenomenon

1634
00:55:31,750 --> 00:55:28,640
that is the result of something that

1635
00:55:35,430 --> 00:55:31,760
we don't yet understand and that

1636
00:55:39,270 --> 00:55:35,440
could involve some type of activity

1637
00:55:41,670 --> 00:55:39,280
that some might say constitutes a

1638
00:55:43,349 --> 00:55:41,680

a different form of life but being an

1639

00:55:46,150 --> 00:55:43,359

agnostic you don't think it's something

1640

00:55:51,190 --> 00:55:46,160

supernatural

1641

00:55:58,390 --> 00:55:55,910

um i i um

1642

00:55:59,910 --> 00:55:58,400

again i'm not gonna discount things um

1643

00:56:01,270 --> 00:55:59,920

that's why i'm an agnostic as opposed to

1644

00:56:04,390 --> 00:56:01,280

an atheist

1645

00:56:07,589 --> 00:56:04,400

i just want to leave my mind open as to

1646

00:56:10,950 --> 00:56:07,599

what something might might be but

1647

00:56:13,670 --> 00:56:10,960

who knows what these things might be

1648

00:56:15,270 --> 00:56:13,680

now as i understand how the cia works

1649

00:56:17,109 --> 00:56:15,280

inside the cia

1650

00:56:18,870 --> 00:56:17,119

okay now they move off to another topic

1651
00:56:19,190 --> 00:56:18,880
but uh some really interesting comments

1652
00:56:21,750 --> 00:56:19,200
there

1653
00:56:22,390 --> 00:56:21,760
he does seem to be open uh to the fact

1654
00:56:25,430 --> 00:56:22,400
that

1655
00:56:28,150 --> 00:56:25,440
some of these ufos might be some form of

1656
00:56:29,670 --> 00:56:28,160
e.t i thought that that a very uh

1657
00:56:31,349 --> 00:56:29,680
compelling admission there

1658
00:56:33,510 --> 00:56:31,359
and another comment that he made talking

1659
00:56:35,750 --> 00:56:33,520
about uh weather phenomenon that

1660
00:56:36,950 --> 00:56:35,760
uh that is something that i think uh

1661
00:56:39,670 --> 00:56:36,960
ttsa

1662
00:56:42,230 --> 00:56:39,680
or at least uh melon and elizondo have

1663
00:56:44,390 --> 00:56:42,240

done a very good job in terms of sort of

1664

00:56:46,150 --> 00:56:44,400

eliminating that from the conversation

1665

00:56:47,910 --> 00:56:46,160

that's kind of an old school well it's

1666

00:56:49,349 --> 00:56:47,920

just weather phenomenon canopy

1667

00:56:51,750 --> 00:56:49,359

reflections uh

1668

00:56:53,430 --> 00:56:51,760

sun dogs temperature inversions that

1669

00:56:54,870 --> 00:56:53,440

type of thing

1670

00:56:58,230 --> 00:56:54,880

what they're talking about what we're

1671

00:57:02,069 --> 00:56:58,240

really interested in are our

1672

00:57:03,829 --> 00:57:02,079

aircraft uh the uh uh uh solid aircraft

1673

00:57:04,789 --> 00:57:03,839

are performing these uh extraordinary

1674

00:57:07,829 --> 00:57:04,799

maneuvers

1675

00:57:09,670 --> 00:57:07,839

and uh so uh i i i think uh

1676
00:57:12,150 --> 00:57:09,680
listening to brennan there yeah uh

1677
00:57:15,510 --> 00:57:12,160
clearly comes from the old school

1678
00:57:17,030 --> 00:57:15,520
that uh well you know it's possible and

1679
00:57:18,549 --> 00:57:17,040
that he threw that in because i think

1680
00:57:22,069 --> 00:57:18,559
that uh that uh

1681
00:57:24,230 --> 00:57:22,079
debate point has largely uh fallen by

1682
00:57:26,230 --> 00:57:24,240
the wayside it's not to say that

1683
00:57:27,910 --> 00:57:26,240
some people see you or think they see

1684
00:57:31,430 --> 00:57:27,920
ufos that are in fact

1685
00:57:32,870 --> 00:57:31,440
you know canopy reflections uh sun dogs

1686
00:57:35,030 --> 00:57:32,880
uh that sort of thing temperature

1687
00:57:36,710 --> 00:57:35,040
inversions but that uh

1688
00:57:38,309 --> 00:57:36,720

uh those aren't the cases we're

1689

00:57:40,470 --> 00:57:38,319

interested in we understand that

1690

00:57:42,309 --> 00:57:40,480

that does explain some of those cases of

1691

00:57:42,710 --> 00:57:42,319

the cases that get explained that we're

1692

00:57:43,990 --> 00:57:42,720

not the

1693

00:57:45,990 --> 00:57:44,000

we're not interested in those we're

1694

00:57:47,750 --> 00:57:46,000

interested in the ones uh that can't be

1695

00:57:48,230 --> 00:57:47,760

explained and the one that had the ones

1696

00:57:50,390 --> 00:57:48,240

that have

1697

00:57:51,430 --> 00:57:50,400

uh some very good solid evidence uh good

1698

00:57:53,430 --> 00:57:51,440

well we're also

1699

00:57:54,710 --> 00:57:53,440

uh i know kind of goes without saying

1700

00:57:55,270 --> 00:57:54,720

but i'm just going to acknowledge it

1701
00:57:56,789 --> 00:57:55,280
anyway

1702
00:57:58,549 --> 00:57:56,799
interested in the cases that the

1703
00:57:59,829 --> 00:57:58,559
military cannot explain the ones where

1704
00:58:01,670 --> 00:57:59,839
they're trying to track it and they

1705
00:58:03,430 --> 00:58:01,680
cannot keep up with it

1706
00:58:04,710 --> 00:58:03,440
but they have recorded what they can of

1707
00:58:07,750 --> 00:58:04,720
it um

1708
00:58:10,470 --> 00:58:07,760
you know i personally believe

1709
00:58:11,430 --> 00:58:10,480
that this phenomenon has happened for

1710
00:58:14,710 --> 00:58:11,440
eons

1711
00:58:16,549 --> 00:58:14,720
and i also believe at the same time

1712
00:58:18,630 --> 00:58:16,559
that our government which has not been

1713
00:58:20,870 --> 00:58:18,640

around for eons has been recording it

1714

00:58:21,750 --> 00:58:20,880

as long as they have been able to record

1715

00:58:25,829 --> 00:58:21,760

anything at all

1716

00:58:28,870 --> 00:58:25,839

technology wise so uh and i also think

1717

00:58:30,789 --> 00:58:28,880

at the same time that our government and

1718

00:58:32,150 --> 00:58:30,799

other first world and possibly second or

1719

00:58:35,750 --> 00:58:32,160

third world governments

1720

00:58:39,030 --> 00:58:35,760

have uh have

1721

00:58:41,910 --> 00:58:39,040

archived collected collated uh

1722

00:58:42,950 --> 00:58:41,920

evidence so to speak possibly radar

1723

00:58:46,789 --> 00:58:42,960

proof

1724

00:58:50,230 --> 00:58:46,799

of this kind of uh subject matter

1725

00:58:53,270 --> 00:58:50,240

and they're not revealing it

1726
00:58:53,910 --> 00:58:53,280
and i think that there's just different

1727
00:58:57,349 --> 00:58:53,920
levels

1728
00:58:59,670 --> 00:58:57,359
of uh you know classic classif

1729
00:59:01,109 --> 00:58:59,680
classification regarding whether people

1730
00:59:04,549 --> 00:59:01,119
can know about it or not

1731
00:59:06,630 --> 00:59:04,559
so this this director is he privy to

1732
00:59:07,750 --> 00:59:06,640
all of the data that the us government

1733
00:59:11,270 --> 00:59:07,760
has

1734
00:59:12,710 --> 00:59:11,280
probably not but i think he's not stupid

1735
00:59:13,589 --> 00:59:12,720
and he knows that there's something out

1736
00:59:16,309 --> 00:59:13,599
there

1737
00:59:17,990 --> 00:59:16,319
okay all right so uh yeah really yeah we

1738
00:59:19,349 --> 00:59:18,000

got this one done in an hour

1739

00:59:21,190 --> 00:59:19,359

and uh do you have anything to add

1740

00:59:23,589 --> 00:59:21,200

before we wrap up uh i think

1741

00:59:25,190 --> 00:59:23,599

we did a good tight show well i just

1742

00:59:27,510 --> 00:59:25,200

wanted to tell our listeners

1743

00:59:29,430 --> 00:59:27,520

i'm really sorry if i like have hemmed

1744

00:59:30,390 --> 00:59:29,440

and hot tonight i'm actually doing this

1745

00:59:33,829 --> 00:59:30,400

show

1746

00:59:35,349 --> 00:59:33,839

by phone because i have you know been

1747

00:59:36,710 --> 00:59:35,359

working on another show

1748

00:59:39,109 --> 00:59:36,720

that i did i'm not going to give a lot

1749

00:59:42,309 --> 00:59:39,119

of information out on it but it was

1750

00:59:42,870 --> 00:59:42,319

a show that had nearly two dozen people

1751

00:59:46,470 --> 00:59:42,880

on it

1752

00:59:49,030 --> 00:59:46,480

and uh i'm actually in in the throes

1753

00:59:50,470 --> 00:59:49,040

of getting that finished and so my

1754

00:59:52,309 --> 00:59:50,480

laptop is

1755

00:59:53,750 --> 00:59:52,319

monopolized right now it's being taken

1756

00:59:55,510 --> 00:59:53,760

out your sound is good effort

1757

00:59:57,990 --> 00:59:55,520

yeah your sound is good i don't have any

1758

00:59:59,430 --> 00:59:58,000

videos yeah so i'm on my phone and i've

1759

01:00:02,390 --> 00:59:59,440

never actually done

1760

01:00:04,150 --> 01:00:02,400

a show by phone before so i'm used to

1761

01:00:06,150 --> 01:00:04,160

you know how you have a comfort level

1762

01:00:07,510 --> 01:00:06,160

and you know things seem a little bit

1763

01:00:09,109 --> 01:00:07,520

better that way i'm used to being in

1764

01:00:11,670 --> 01:00:09,119

front of my laptop and doing a show

1765

01:00:12,549 --> 01:00:11,680

and being on camera so everybody can see

1766

01:00:14,309 --> 01:00:12,559

you

1767

01:00:16,549 --> 01:00:14,319

no i don't really care about that so

1768

01:00:18,390 --> 01:00:16,559

much as just being able to

1769

01:00:19,750 --> 01:00:18,400

you know sit in my little spot with my

1770

01:00:21,990 --> 01:00:19,760

with my uh

1771

01:00:24,230 --> 01:00:22,000

microphone and my laptop but instead i'm

1772

01:00:25,430 --> 01:00:24,240

doing this all by phone so it's a little

1773

01:00:27,190 --> 01:00:25,440

different

1774

01:00:28,710 --> 01:00:27,200

kind of you know i'm out of my element

1775

01:00:31,349 --> 01:00:28,720

but anyway

1776

01:00:33,510 --> 01:00:31,359

i hope everybody has a lovely new year's

1777

01:00:35,670 --> 01:00:33,520

if we don't do another show before then

1778

01:00:36,549 --> 01:00:35,680

yeah you never know it might happen but

1779

01:00:38,470 --> 01:00:36,559

uh

1780

01:00:40,870 --> 01:00:38,480

if not you know i hope everybody had a

1781

01:00:41,510 --> 01:00:40,880

merry christmas and uh enjoy your new

1782

01:00:43,990 --> 01:00:41,520

year

1783

01:00:45,670 --> 01:00:44,000

i'm certainly enjoying my downtime from

1784

01:00:47,510 --> 01:00:45,680

work nothing wrong with that

1785

01:00:50,549 --> 01:00:47,520

time off from work is always worth

1786

01:00:53,589 --> 01:00:50,559

celebrating uh regardless of uh

1787

01:00:55,430 --> 01:00:53,599

regardless of your religious beliefs and

1788

01:00:57,190 --> 01:00:55,440

what holidays you celebrate this time of

1789

01:00:59,750 --> 01:00:57,200

year uh

1790

01:01:01,430 --> 01:00:59,760

very always happy about that so i still

1791

01:01:02,870 --> 01:01:01,440

have a little bit more than two weeks

1792

01:01:03,589 --> 01:01:02,880

before i have to go back so uh

1793

01:01:06,390 --> 01:01:03,599

definitely

1794

01:01:07,910 --> 01:01:06,400

uh looking forward to and if uh

1795

01:01:08,309 --> 01:01:07,920

something should come up between now and

1796

01:01:10,470 --> 01:01:08,319

then

1797

01:01:12,150 --> 01:01:10,480

we'll be in a position to get something

1798

01:01:14,230 --> 01:01:12,160

out to you fairly quickly

1799

01:01:15,589 --> 01:01:14,240

and that's about that well happy

1800

01:01:17,430 --> 01:01:15,599

holidays everybody
