RELEASES TEST RESULTS

UFONN
SUNDAY

1
00:00:02,380 --> 00:00:17,109

[Music]

2
00:00:20,150 --> 00:00:19,269

and good afternoon from philadelphia

3
00:00:22,950 --> 00:00:20,160

frank here with

4
00:00:23,590 --> 00:00:22,960

another episode of ufo news network

5
00:00:26,310 --> 00:00:23,600

sunday

6
00:00:28,070 --> 00:00:26,320

and today we've got a huge show uh

7
00:00:30,950 --> 00:00:28,080

somebody who i've been after since

8
00:00:32,549 --> 00:00:30,960

uh uh the very uh beginning uh three

9
00:00:33,030 --> 00:00:32,559

years ago when we started doing this

10
00:00:35,430 --> 00:00:33,040

show

11
00:00:36,470 --> 00:00:35,440

i wanted to have on here as a guest and

12
00:00:38,389 --> 00:00:36,480

uh finally uh

13
00:00:40,069 --> 00:00:38,399

finally broke him down finally got him

14

00:00:43,110 --> 00:00:40,079

to come on and

15

00:00:45,029 --> 00:00:43,120

and uh talk with us and uh well maybe uh

16

00:00:45,430 --> 00:00:45,039

maybe it was uh worth the wait because

17

00:00:52,790 --> 00:00:45,440

uh

18

00:00:55,110 --> 00:00:52,800

explorations

19

00:00:57,670 --> 00:00:55,120

uh got the response to a four year

20

00:00:59,270 --> 00:00:57,680

request that he filed three years ago

21

00:01:01,110 --> 00:00:59,280

we're going to get into all the details

22

00:01:02,790 --> 00:01:01,120

of that it's a it's kind of a long

23

00:01:04,469 --> 00:01:02,800

nuanced story and

24

00:01:05,830 --> 00:01:04,479

hopefully we get everything right so you

25

00:01:07,350 --> 00:01:05,840

have a clear understanding of what's

26

00:01:09,270 --> 00:01:07,360

been going on with all this

27

00:01:11,109 --> 00:01:09,280

and some of the attention and some of

28

00:01:13,270 --> 00:01:11,119

the backlash and this and that

29

00:01:14,230 --> 00:01:13,280

so i'm not going to waste any time i'm

30

00:01:17,109 --> 00:01:14,240

going to bring

31

00:01:18,950 --> 00:01:17,119

uh tony bergalia right on here tony

32

00:01:20,630 --> 00:01:18,960

thanks for doing this it's been a long

33

00:01:23,749 --> 00:01:20,640

time coming

34

00:01:25,990 --> 00:01:23,759

hey frank very very delighted to be here

35

00:01:27,910 --> 00:01:26,000

and it has been a long time in coming uh

36

00:01:29,429 --> 00:01:27,920

but it's a story that needs to be told

37

00:01:33,109 --> 00:01:29,439

and i'm glad that i'm

38

00:01:34,469 --> 00:01:33,119

here to tell it uh for you uh and uh

39

00:01:36,469 --> 00:01:34,479

so yeah i mean i probably we should just

40

00:01:39,190 --> 00:01:36,479

begin at the beginning uh

41

00:01:41,270 --> 00:01:39,200

you know this has been a crazy story in

42

00:01:44,469 --> 00:01:41,280

the past two weeks it's kind of

43

00:01:46,069 --> 00:01:44,479

gotten even worldwide attention but

44

00:01:48,789 --> 00:01:46,079

you know basically what happened frank

45

00:01:52,550 --> 00:01:48,799

was that uh way back in

46

00:01:54,149 --> 00:01:52,560

i want to say late 2017 uh the new york

47

00:01:58,149 --> 00:01:54,159

times

48

00:02:01,270 --> 00:01:58,159

leslie keane and ralph blumenthal

49

00:02:05,109 --> 00:02:01,280

were two reporters that ran

50

00:02:09,190 --> 00:02:05,119

an investigative report on the existence

51

00:02:12,309 --> 00:02:09,200

of a pentagon program that

52

00:02:14,869 --> 00:02:12,319

dealt with ufo study and

53

00:02:18,190 --> 00:02:14,879

it was called the advanced aerospace

54

00:02:22,309 --> 00:02:18,200

threat identification program or

55

00:02:25,990 --> 00:02:22,319

aatip and the program ran for

56

00:02:28,229 --> 00:02:26,000

a number of years uh under a number of

57

00:02:32,070 --> 00:02:28,239

different names and it involved

58

00:02:33,830 --> 00:02:32,080

millions of dollars and um

59

00:02:36,470 --> 00:02:33,840

one of the things that came out of it

60

00:02:38,550 --> 00:02:36,480

was a few videos um

61

00:02:40,309 --> 00:02:38,560

what are they called a tic tac video yep

62

00:02:42,229 --> 00:02:40,319

and uh there are a couple others as well

63

00:02:44,070 --> 00:02:42,239

and couple others you know and uh but

64

00:02:47,270 --> 00:02:44,080

within this article was a

65

00:02:50,390 --> 00:02:47,280

buried mention of um anomalous

66

00:02:50,949 --> 00:02:50,400

material recovered from ufos which was

67

00:02:54,550 --> 00:02:50,959

stored

68

00:02:58,070 --> 00:02:54,560

in uh what times uh uh said uh quote

69

00:03:00,949 --> 00:02:58,080

uh were specially modified facilities

70

00:03:02,229 --> 00:03:00,959

uh by a private uh defense contractor

71

00:03:05,430 --> 00:03:02,239

that's um

72

00:03:08,309 --> 00:03:05,440

uh now defunct uh called the bigelow

73

00:03:10,710 --> 00:03:08,319

aerospace uh in nevada

74

00:03:11,670 --> 00:03:10,720

and uh so that uh that little kind of

75

00:03:14,949 --> 00:03:11,680

buried mention

76

00:03:18,710 --> 00:03:14,959

of ufo or or uap uh

77

00:03:21,910 --> 00:03:18,720

unidentified aerial phenomena material

78

00:03:23,509 --> 00:03:21,920

within the times article got me

79

00:03:25,509 --> 00:03:23,519

very interested because i've always been

80

00:03:28,390 --> 00:03:25,519

interested in the

81

00:03:29,190 --> 00:03:28,400

debris and the physical evidence of this

82

00:03:31,270 --> 00:03:29,200

phenomena

83

00:03:33,190 --> 00:03:31,280

for for years you know i mean the

84

00:03:34,869 --> 00:03:33,200

witness stuff is nice but uh you know

85

00:03:37,430 --> 00:03:34,879

when you're dealing with actual

86

00:03:38,550 --> 00:03:37,440

physical evidence that's really nice and

87

00:03:41,110 --> 00:03:38,560

so uh

88

00:03:43,270 --> 00:03:41,120

what i did is i initiated a freedom of

89

00:03:47,350 --> 00:03:43,280

information act uh request

90

00:03:50,949 --> 00:03:47,360

a foia uh with the pentagon

91

00:03:54,390 --> 00:03:50,959

and i asked for a quote

92

00:03:58,789 --> 00:03:54,400

physical debris recovered by personnel

93

00:04:01,990 --> 00:03:58,799

of the department of defense as residue

94

00:04:05,830 --> 00:04:02,000

flotsam or shot off material or

95

00:04:07,750 --> 00:04:05,840

crashed unidentified flying objects

96

00:04:10,309 --> 00:04:07,760

and couldn't be more clear and then

97

00:04:13,270 --> 00:04:10,319

three and a half years later

98

00:04:15,110 --> 00:04:13,280

i got back from the defense intelligence

99

00:04:19,270 --> 00:04:15,120

agency

100

00:04:23,270 --> 00:04:19,280

over 150 pages of technical reports

101

00:04:26,950 --> 00:04:23,280

on some pretty exotic metal

102

00:04:29,670 --> 00:04:26,960

and material that they have been

103

00:04:31,189 --> 00:04:29,680

um examining in terms of potential

104

00:04:34,230 --> 00:04:31,199

applications

105

00:04:35,430 --> 00:04:34,240

of this kind of material and so that's

106

00:04:38,550 --> 00:04:35,440

kind of in a nutshell

107

00:04:39,189 --> 00:04:38,560

you know what led me here and where i'm

108

00:04:43,909 --> 00:04:39,199

at uh

109

00:04:46,390 --> 00:04:43,919

now um and uh yeah so uh you know the

110

00:04:47,510 --> 00:04:46,400

the information i got back from them uh

111

00:04:50,150 --> 00:04:47,520

was uh

112

00:04:52,629 --> 00:04:50,160

a little bit overwhelming uh they

113

00:04:54,790 --> 00:04:52,639

basically were talking about material

114

00:04:57,270 --> 00:04:54,800

uh that i uh have talked about and

115

00:05:00,629 --> 00:04:57,280

frank's talked about for a long time

116

00:05:04,550 --> 00:05:00,639

uh which is uh this memory metal or

117

00:05:06,790 --> 00:05:04,560

which or shape recovery alloy which um

118

00:05:08,469 --> 00:05:06,800

a lot of witnesses at roswell said that

119

00:05:10,550 --> 00:05:08,479

they encountered

120

00:05:12,150 --> 00:05:10,560

this kind of material that when you you

121

00:05:14,390 --> 00:05:12,160

hold it and you

122

00:05:17,029 --> 00:05:14,400

crunch it up or deform it it returns

123

00:05:20,469 --> 00:05:17,039

back to its original state

124

00:05:23,749 --> 00:05:20,479

and lo and behold i get back

125

00:05:24,790 --> 00:05:23,759

in part about 20 pages of information on

126

00:05:27,990 --> 00:05:24,800

nitinol

127

00:05:29,670 --> 00:05:28,000

which is a shape recovery alloy uh

128

00:05:31,990 --> 00:05:29,680

much like the very alloy that was

129

00:05:34,710 --> 00:05:32,000

recovered at roswell so

130

00:05:35,110 --> 00:05:34,720

i was pretty surprised at that one so

131

00:05:39,189 --> 00:05:35,120

let's

132

00:05:41,110 --> 00:05:39,199

beginning because

133

00:05:43,029 --> 00:05:41,120

uh this was not an accident that you

134

00:05:45,510 --> 00:05:43,039

happen to decide to file

135

00:05:46,790 --> 00:05:45,520

this particular foia request based on

136

00:05:48,790 --> 00:05:46,800

that particular

137

00:05:50,629 --> 00:05:48,800

fragment of information in that december

138

00:05:52,790 --> 00:05:50,639

17 new york times story

139

00:05:54,150 --> 00:05:52,800

you've been on this a while going right

140

00:05:56,309 --> 00:05:54,160

back to

141

00:05:58,469 --> 00:05:56,319

the roswell case and what happened in

142

00:06:01,430 --> 00:05:58,479

the immediate aftermath of that

143

00:06:02,629 --> 00:06:01,440

and the uh work uh the the little

144

00:06:05,189 --> 00:06:02,639

network that was

145

00:06:07,510 --> 00:06:05,199

in existence between wright-patterson

146

00:06:08,390 --> 00:06:07,520

air force base and the patel memorial

147

00:06:10,070 --> 00:06:08,400

institute

148

00:06:11,430 --> 00:06:10,080

uh why don't you talk a little bit about

149

00:06:12,469 --> 00:06:11,440

that because you've got a tremendous

150

00:06:14,469 --> 00:06:12,479

background in this

151

00:06:16,309 --> 00:06:14,479

and uh like i said it's not an accident

152

00:06:17,749 --> 00:06:16,319

that uh you followed up on this

153

00:06:18,550 --> 00:06:17,759

particular lead so why don't you talk

154

00:06:20,870 --> 00:06:18,560

about how

155

00:06:21,990 --> 00:06:20,880

how you got into all that there's a

156

00:06:25,270 --> 00:06:22,000

precedent for it

157

00:06:28,950 --> 00:06:25,280

uh about 12 years ago

158

00:06:31,510 --> 00:06:28,960

um i uh starting to examine

159

00:06:32,830 --> 00:06:31,520

the memory medal um at that time i had

160

00:06:36,469 --> 00:06:32,840

collected about

161

00:06:39,189 --> 00:06:36,479

uh maybe 40 42 witnesses

162

00:06:40,230 --> 00:06:39,199

that had reported this kind of material

163

00:06:42,230 --> 00:06:40,240

over the years

164

00:06:45,029 --> 00:06:42,240

and i just got to thinking that there's

165

00:06:48,390 --> 00:06:45,039

got to be something more to this

166

00:06:51,110 --> 00:06:48,400

and so what i did along with a

167

00:06:52,870 --> 00:06:51,120

reporter a friend of mine and a ufo

168

00:06:55,990 --> 00:06:52,880

enthusiast named billy cox

169

00:06:58,550 --> 00:06:56,000

here in florida we both filed a freedom

170

00:07:02,629 --> 00:06:58,560

of information act request

171

00:07:05,430 --> 00:07:02,639

uh and um that was for um

172

00:07:08,150 --> 00:07:05,440

progress reports that uh were being done

173

00:07:11,270 --> 00:07:08,160

by battelle memorial institute

174

00:07:12,870 --> 00:07:11,280

uh in the year after the roswell crash i

175

00:07:14,550 --> 00:07:12,880

had seen some mentions and some

176

00:07:17,350 --> 00:07:14,560

technical papers some

177

00:07:20,950 --> 00:07:17,360

references to what are called phase

178

00:07:23,909 --> 00:07:20,960

diagrams or recipes to make alloys

179

00:07:24,790 --> 00:07:23,919

and one of them looked like an awful lot

180

00:07:26,790 --> 00:07:24,800

like the

181

00:07:28,629 --> 00:07:26,800

phase diagram that you would use to make

182

00:07:31,110 --> 00:07:28,639

nitinol

183

00:07:33,110 --> 00:07:31,120

which is uh nickel and titanium or

184

00:07:35,990 --> 00:07:33,120

nitinol nitai

185

00:07:37,909 --> 00:07:36,000

uh and that got me real curious so did a

186

00:07:40,390 --> 00:07:37,919

little bit of creative um

187

00:07:42,830 --> 00:07:40,400

backtracking of the technical literature

188

00:07:44,710 --> 00:07:42,840

and uh arrived at the back door of

189

00:07:47,830 --> 00:07:44,720

wright-patterson

190

00:07:49,830 --> 00:07:47,840

where i found out that in 1948 about 10

191

00:07:50,869 --> 00:07:49,840

months after the crash they had let out

192

00:09:05,509 --> 00:07:50,879

a

193

00:09:07,670 --> 00:09:05,519

purify

194

00:09:09,590 --> 00:09:07,680

titanium to a level that had never been

195

00:09:12,070 --> 00:09:09,600

accomplished before and

196

00:09:13,910 --> 00:09:12,080

ultra high purity titanium is required

197

00:09:18,310 --> 00:09:13,920

to create shape memory

198

00:09:20,829 --> 00:09:18,320

metal and so the particular scientist

199

00:09:21,990 --> 00:09:20,839

that was working on purifying the

200

00:09:24,550 --> 00:09:22,000

titanium

201
00:09:26,230 --> 00:09:24,560
was a scientist named elroy john center

202
00:09:28,630 --> 00:09:26,240
and

203
00:09:30,710 --> 00:09:28,640
later much later he had confessed to his

204
00:09:33,350 --> 00:09:30,720
family and to some close friends that

205
00:09:34,470 --> 00:09:33,360
while at battelle lo and behold he had

206
00:09:36,710 --> 00:09:34,480
been involved in

207
00:09:37,990 --> 00:09:36,720
the analysis of what he felt was

208
00:09:39,670 --> 00:09:38,000
material that couldn't have been from

209
00:09:41,430 --> 00:09:39,680
earth

210
00:09:43,509 --> 00:09:41,440
even though his bosses told them that it

211
00:09:46,790 --> 00:09:43,519
was from the russians

212
00:09:50,389 --> 00:09:46,800
which we've heard before as an excuse

213
00:09:51,670 --> 00:09:50,399

so you know that was kind of that story

214

00:09:54,310 --> 00:09:51,680

and then

215

00:09:54,710 --> 00:09:54,320

you know all these years later uh i get

216

00:09:57,590 --> 00:09:54,720

back

217

00:09:59,190 --> 00:09:57,600

uh a foia response which includes

218

00:10:02,630 --> 00:09:59,200

material on this

219

00:10:06,230 --> 00:10:02,640

shape memory uh alloy and

220

00:10:08,069 --> 00:10:06,240

uh among other types of material um

221

00:10:09,590 --> 00:10:08,079

you know beyond the the memory metal

222

00:10:11,430 --> 00:10:09,600

there was uh

223

00:10:12,949 --> 00:10:11,440

other indications of something called a

224

00:10:17,190 --> 00:10:12,959

meta material in this

225

00:10:19,110 --> 00:10:17,200

new foia um that basically uh

226

00:10:20,230 --> 00:10:19,120

is a material that can be used in a lot

227

00:10:24,550 --> 00:10:20,240

of different ways

228

00:10:27,590 --> 00:10:24,560

um it's a meta material is a coined

229

00:10:29,509 --> 00:10:27,600

word it's a relatively recent word uh

230

00:10:30,630 --> 00:10:29,519

and it's believed to mean any material

231

00:10:33,509 --> 00:10:30,640

that's engineered to

232

00:10:36,069 --> 00:10:33,519

have a property that isn't found in

233

00:10:38,230 --> 00:10:36,079

naturally occurring materials

234

00:10:40,150 --> 00:10:38,240

and so some of these materials that

235

00:10:43,990 --> 00:10:40,160

they've been looking at

236

00:10:47,030 --> 00:10:44,000

uh apparently have properties that could

237

00:10:50,389 --> 00:10:47,040

slow down the speed of light or

238

00:10:52,949 --> 00:10:50,399

may induce invisibility by manipulating

239

00:10:53,750 --> 00:10:52,959

uh refraction and reflectivity and

240

00:10:56,870 --> 00:10:53,760

increasing

241

00:10:58,150 --> 00:10:56,880

light absorption and other of the

242

00:11:01,030 --> 00:10:58,160

material have an

243

00:11:02,230 --> 00:11:01,040

ability to uh compress electromagnetic

244

00:11:04,470 --> 00:11:02,240

energy

245

00:11:06,550 --> 00:11:04,480

uh so that you can condense uh

246

00:11:07,829 --> 00:11:06,560

information and energy storage and make

247

00:11:10,710 --> 00:11:07,839

it smaller

248

00:11:12,230 --> 00:11:10,720

and make it transfer faster so there's a

249

00:11:13,190 --> 00:11:12,240

lot of interesting stuff and then the

250

00:11:16,069 --> 00:11:13,200

other

251
00:11:17,990 --> 00:11:16,079
uh portions of the report centered on a

252
00:11:21,030 --> 00:11:18,000
next generation of

253
00:11:24,230 --> 00:11:21,040
what are called amorphous metals or

254
00:11:26,069 --> 00:11:24,240
liquid metal and it kind of runs like

255
00:11:28,630 --> 00:11:26,079
water and i'm reminded of one of the

256
00:11:31,990 --> 00:11:28,640
witnesses that kevin randle talked to

257
00:11:34,150 --> 00:11:32,000
her name was uh frankie rowe and

258
00:11:35,110 --> 00:11:34,160
she told kevin that when she held the

259
00:11:37,590 --> 00:11:35,120
material

260
00:11:39,269 --> 00:11:37,600
from roswell in her hand that it felt

261
00:11:40,790 --> 00:11:39,279
like it was liquid metal like it ran

262
00:11:42,230 --> 00:11:40,800
like water

263
00:11:44,949 --> 00:11:42,240

so i thought that was another kind of

264

00:11:48,550 --> 00:11:44,959

interesting a little confirmation

265

00:11:50,389 --> 00:11:48,560

of material that had been seen before

266

00:11:53,509 --> 00:11:50,399

and that was being reported on in these

267

00:11:56,790 --> 00:11:53,519

uh these uh reports

268

00:11:58,629 --> 00:11:56,800

so yeah and as far as when you're

269

00:12:00,550 --> 00:11:58,639

acquiring this information

270

00:12:02,629 --> 00:12:00,560

from some of the witnesses and now you

271

00:12:05,350 --> 00:12:02,639

said you've got 42 of them

272

00:12:06,150 --> 00:12:05,360

uh yeah it's not too likely that these

273

00:12:08,389 --> 00:12:06,160

folks are

274

00:12:10,389 --> 00:12:08,399

reading advanced scientific papers and

275

00:12:13,509 --> 00:12:10,399

describing these uh

276

00:12:14,069 --> 00:12:13,519

these properties uh based on you know

277

00:12:16,150 --> 00:12:14,079

how they're

278

00:12:18,470 --> 00:12:16,160

staying on top of the latest in uh

279

00:12:20,069 --> 00:12:18,480

metallurgical developments

280

00:12:22,069 --> 00:12:20,079

absolutely that's the whole thing that

281

00:12:24,069 --> 00:12:22,079

struck me and that's really what led me

282

00:12:25,750 --> 00:12:24,079

to all this is that

283

00:12:27,990 --> 00:12:25,760

you know these people were separated by

284

00:12:30,629 --> 00:12:28,000

time and by distance

285

00:12:32,069 --> 00:12:30,639

some of them were elderly and how in the

286

00:12:35,670 --> 00:12:32,079

world would they even have

287

00:12:39,110 --> 00:12:35,680

any concept of shape memory alloy or

288

00:12:40,629 --> 00:12:39,120

shape recovery or memory metal

289

00:12:42,790 --> 00:12:40,639

just the idea of it i mean you could

290

00:12:44,710 --> 00:12:42,800

walk down the street and ask 50 people

291

00:12:46,470 --> 00:12:44,720

about it today and i think very few

292

00:12:47,829 --> 00:12:46,480

people would even know about it

293

00:12:49,750 --> 00:12:47,839

they might know about bendable

294

00:12:51,509 --> 00:12:49,760

eyeglasses but they wouldn't know much

295

00:12:53,110 --> 00:12:51,519

more than that i mean

296

00:12:55,430 --> 00:12:53,120

so yeah i mean that was the remarkable

297

00:12:56,470 --> 00:12:55,440

thing when you kind of step back from it

298

00:12:59,030 --> 00:12:56,480

all

299

00:12:59,990 --> 00:12:59,040

and just look at it like you've just

300

00:13:01,910 --> 00:13:00,000

said

301
00:13:05,190 --> 00:13:01,920
and the people that have been involved

302
00:13:07,750 --> 00:13:05,200
over the years reporting this material

303
00:13:08,790 --> 00:13:07,760
time and again and you know they don't

304
00:13:10,230 --> 00:13:08,800
even know each other

305
00:13:12,710 --> 00:13:10,240
i mean these are people that have talked

306
00:13:13,269 --> 00:13:12,720
to independently to different people

307
00:13:16,470 --> 00:13:13,279
over

308
00:13:18,949 --> 00:13:16,480
the decades and uh yet you hear the same

309
00:13:21,829 --> 00:13:18,959
theme over and over again

310
00:13:24,470 --> 00:13:21,839
so yeah that was pretty pretty wild so

311
00:13:25,670 --> 00:13:24,480
uh the story came out and it generated a

312
00:13:28,550 --> 00:13:25,680
lot of attention

313
00:13:30,629 --> 00:13:28,560

but it also generated uh not

314

00:13:32,949 --> 00:13:30,639

surprisingly some criticism

315

00:13:34,550 --> 00:13:32,959

and uh let's uh let's get into that a

316

00:13:37,190 --> 00:13:34,560

little bit uh

317

00:13:38,550 --> 00:13:37,200

it was criticized to the point where uh

318

00:13:40,389 --> 00:13:38,560

some individuals uh

319

00:13:42,949 --> 00:13:40,399

in particular john greenwald at the

320

00:13:43,590 --> 00:13:42,959

black vault decided to actually do some

321

00:13:47,110 --> 00:13:43,600

following

322

00:13:49,590 --> 00:13:47,120

up and i'm going to read a line from

323

00:13:50,790 --> 00:13:49,600

uh his comment on this uh because you

324

00:13:52,629 --> 00:13:50,800

know uh frankly uh

325

00:13:54,230 --> 00:13:52,639

john's in over his head on this subject

326

00:13:55,350 --> 00:13:54,240

this is a there's a little bit too much

327

00:13:57,990 --> 00:13:55,360

stuff for him

328

00:13:59,590 --> 00:13:58,000

uh uh to be uh to be blunt about it and

329

00:14:01,189 --> 00:13:59,600

but uh here's a quote from an article

330

00:14:03,670 --> 00:14:01,199

that he wrote about this regardless of

331

00:14:06,710 --> 00:14:03,680

any truth to his new claims and evidence

332

00:14:07,750 --> 00:14:06,720

nothing he has put forward disproves the

333

00:14:10,629 --> 00:14:07,760

pentagon or

334

00:14:12,389 --> 00:14:10,639

doctor put off stance that this material

335

00:14:12,870 --> 00:14:12,399

and i think in this context he's talking

336

00:14:14,949 --> 00:14:12,880

about

337

00:14:16,949 --> 00:14:14,959

the material you received as a result of

338

00:14:18,470 --> 00:14:16,959

the foia not any particular metal or

339

00:14:20,710 --> 00:14:18,480
anything along those lines

340

00:14:22,790 --> 00:14:20,720
is not rel and even if i'm wrong it is

341

00:14:24,150 --> 00:14:22,800
still this is uh what he's writing here

342

00:14:26,470 --> 00:14:24,160
is not accurate at all

343

00:14:28,870 --> 00:14:26,480
that this material is not related to

344

00:14:31,269 --> 00:14:28,880
ufos or uaps

345

00:14:32,870 --> 00:14:31,279
and he was able to get a a quick

346

00:14:35,670 --> 00:14:32,880
response from

347

00:14:37,750 --> 00:14:35,680
sue guff from the pentagon she's a

348

00:14:39,829 --> 00:14:37,760
pentagon spokesperson and

349

00:14:41,430 --> 00:14:39,839
you've had some dealings with her i'll

350

00:14:43,189 --> 00:14:41,440
read it really quick

351

00:14:44,949 --> 00:14:43,199

those appear to be copies of a

352

00:14:46,949 --> 00:14:44,959

legitimate four-year request and the

353

00:14:49,189 --> 00:14:46,959

response provided to the requester

354

00:14:51,350 --> 00:14:49,199

well they were i mean there were a

355

00:14:54,230 --> 00:14:51,360

legitimate foia request we know that

356

00:14:55,509 --> 00:14:54,240

uh the uh a couple of them had been

357

00:14:58,550 --> 00:14:55,519

released already

358

00:15:01,030 --> 00:14:58,560

and also there the full list of these uh

359

00:15:02,230 --> 00:15:01,040

defense intelligence reference documents

360

00:15:04,230 --> 00:15:02,240

had been out before

361

00:15:06,230 --> 00:15:04,240

and obviously the titles matched up so

362

00:15:07,829 --> 00:15:06,240

we're able to uh figure out

363

00:15:09,750 --> 00:15:07,839

you know who the authors were even

364

00:15:11,990 --> 00:15:09,760

though the names of the authors were

365

00:15:14,949 --> 00:15:12,000

actually redacted in the copies that you

366

00:15:15,430 --> 00:15:14,959

got it gets a little bit complicated but

367

00:15:17,430 --> 00:15:15,440

some of the

368

00:15:18,790 --> 00:15:17,440

the ones that were at were essentially

369

00:15:19,509 --> 00:15:18,800

leaked you know they were essentially

370

00:15:21,269 --> 00:15:19,519

made public

371

00:15:24,150 --> 00:15:21,279

uh through somebody who happened to have

372

00:15:26,629 --> 00:15:24,160

possession of them and were not formally

373

00:15:27,189 --> 00:15:26,639

formally released by the pentagon so

374

00:15:28,629 --> 00:15:27,199

that that

375

00:15:30,870 --> 00:15:28,639

that's kind of an important thing to

376

00:15:33,509 --> 00:15:30,880

note there and then she goes on to say

377

00:15:35,030 --> 00:15:33,519

uh the testing referred uh to in the

378

00:15:36,629 --> 00:15:35,040

documents released by the defense

379

00:15:39,430 --> 00:15:36,639

intelligence agency under the

380

00:15:39,990 --> 00:15:39,440

foia uh was of known materials conducted

381

00:15:42,230 --> 00:15:40,000

for study

382

00:15:44,069 --> 00:15:42,240

purposes pursuant to the advanced

383

00:15:45,110 --> 00:15:44,079

aerospace threat identification

384

00:15:48,069 --> 00:15:45,120

program's mission

385

00:15:48,389 --> 00:15:48,079

of establishing a center of expertise

386

00:15:51,110 --> 00:15:48,399

for

387

00:15:51,430 --> 00:15:51,120

advanced aerospace technologies this is

388

00:15:55,110 --> 00:15:51,440

a

389

00:15:57,910 --> 00:15:55,120

the whole truth

390

00:15:58,949 --> 00:15:57,920

because i agree with that uh because uh

391

00:16:01,509 --> 00:15:58,959

we know that the

392

00:16:02,790 --> 00:16:01,519

the atip was a ufo program now there's

393

00:16:05,110 --> 00:16:02,800

no question about it and i'll

394

00:16:06,790 --> 00:16:05,120

i'll back that up as we go forward but

395

00:16:08,310 --> 00:16:06,800

uh when you're seeing some of these

396

00:16:10,310 --> 00:16:08,320

responses coming out what was your

397

00:16:12,870 --> 00:16:10,320

response to the response

398

00:16:13,910 --> 00:16:12,880

yeah there are so many of them my first

399

00:16:15,269 --> 00:16:13,920

uh

400

00:16:17,189 --> 00:16:15,279

thing that i would say is that i have

401
00:16:21,430 --> 00:16:17,199
attempted to reach susan

402
00:16:24,870 --> 00:16:21,440
gogue repeatedly and she has refused to

403
00:16:27,269 --> 00:16:24,880
uh contact me or to return my uh

404
00:16:28,629 --> 00:16:27,279
phone calls or emails which i think is

405
00:16:32,069 --> 00:16:28,639
kind of appalling

406
00:16:33,990 --> 00:16:32,079
she's seen fit to talk to other people

407
00:16:35,350 --> 00:16:34,000
and release these kinds of cryptic

408
00:16:38,069 --> 00:16:35,360
comments but the

409
00:16:40,949 --> 00:16:38,079
very individual that filed the foia she

410
00:16:42,550 --> 00:16:40,959
has seen fit to not communicate with

411
00:16:44,389 --> 00:16:42,560
i'd also add that in terms of john

412
00:16:47,430 --> 00:16:44,399
greenwald

413
00:16:48,230 --> 00:16:47,440

he also never saw fit to contact me

414

00:16:51,590 --> 00:16:48,240

before he

415

00:16:54,629 --> 00:16:51,600

released his video analysis of

416

00:16:58,389 --> 00:16:54,639

this material this information and

417

00:17:01,030 --> 00:16:58,399

of course that is also unconscionable

418

00:17:02,629 --> 00:17:01,040

it's very easy to get a hold of me

419

00:17:04,150 --> 00:17:02,639

people that know me know that

420

00:17:06,470 --> 00:17:04,160

people that don't know me can get a hold

421

00:17:08,710 --> 00:17:06,480

of me through my website

422

00:17:11,350 --> 00:17:08,720

and that he did not try to call me or

423

00:17:14,710 --> 00:17:11,360

contact me in any way before

424

00:17:17,990 --> 00:17:14,720

uh releasing his critique uh is

425

00:17:20,230 --> 00:17:18,000

surprising um i guess uh

426

00:17:21,669 --> 00:17:20,240

anyone that does this kind of

427

00:17:23,750 --> 00:17:21,679

journalistic work

428

00:17:25,590 --> 00:17:23,760

and john isn't a journalist so you know

429

00:17:27,270 --> 00:17:25,600

i can appreciate that but uh

430

00:17:30,230 --> 00:17:27,280

you always try and get the other side

431

00:17:31,830 --> 00:17:30,240

and try and uh develop a dialogue

432

00:17:33,430 --> 00:17:31,840

it's real important to do that so i'd

433

00:17:34,470 --> 00:17:33,440

characterize john as very uh

434

00:17:37,669 --> 00:17:34,480

unprofessional

435

00:17:39,990 --> 00:17:37,679

in that way um kind of surprising

436

00:17:42,710 --> 00:17:40,000

in that he's so detail-oriented but he

437

00:17:46,150 --> 00:17:42,720

never saw fit to even contact me

438

00:17:47,669 --> 00:17:46,160

uh so there you go i'll uh

439

00:17:50,230 --> 00:17:47,679

point out though one of the other uh

440

00:17:50,950 --> 00:17:50,240

nails that uh the nails in the the

441

00:17:53,510 --> 00:17:50,960

coffin are

442

00:17:55,669 --> 00:17:53,520

basically uh destroying this story uh

443

00:17:57,669 --> 00:17:55,679

there was also an interview between

444

00:18:00,150 --> 00:17:57,679

george knapp and bob bigelow

445

00:18:03,110 --> 00:18:00,160

uh recently that nap published over at

446

00:18:04,710 --> 00:18:03,120

mysterywire

447

00:18:06,630 --> 00:18:04,720

i'm going to be a little critical of nap

448

00:18:07,669 --> 00:18:06,640

here in terms of his interviewing style

449

00:18:10,470 --> 00:18:07,679

at times

450

00:18:11,510 --> 00:18:10,480

this is basically a question for bigelow

451
00:18:13,990 --> 00:18:11,520
new york times

452
00:18:14,549 --> 00:18:14,000
reported that you modified your facility

453
00:18:16,710 --> 00:18:14,559
here

454
00:18:18,549 --> 00:18:16,720
in order to house some material from

455
00:18:20,230 --> 00:18:18,559
somewhere else

456
00:18:21,669 --> 00:18:20,240
that's a pretty vaguely worded with

457
00:18:22,390 --> 00:18:21,679
somewhere else what does that mean you

458
00:18:24,549 --> 00:18:22,400
know

459
00:18:25,990 --> 00:18:24,559
did you ever have it and bigelow

460
00:18:28,789 --> 00:18:26,000
responds we never had

461
00:18:30,390 --> 00:18:28,799
any which you know he doesn't actually

462
00:18:32,630 --> 00:18:30,400
address well did they modify

463
00:18:33,830 --> 00:18:32,640

the facility did they test something and

464

00:18:36,470 --> 00:18:33,840

did it come back

465

00:18:38,230 --> 00:18:36,480

you know ordinary or mundane uh

466

00:18:39,990 --> 00:18:38,240

certainly there's no question he did

467

00:18:42,070 --> 00:18:40,000

that when he ran nids

468

00:18:43,270 --> 00:18:42,080

they absolutely acquired material and

469

00:18:47,110 --> 00:18:43,280

had it tested

470

00:18:48,870 --> 00:18:47,120

and yeah he's being coy uh frank and i

471

00:18:51,029 --> 00:18:48,880

think that he talks out of two sides of

472

00:18:51,750 --> 00:18:51,039

his mouth uh there's no question about

473

00:18:54,470 --> 00:18:51,760

it

474

00:18:55,590 --> 00:18:54,480

uh i tried to reach out to mr bigelow

475

00:18:58,310 --> 00:18:55,600

obviously

476
00:18:59,750 --> 00:18:58,320
before i published and was unable to do

477
00:19:03,669 --> 00:18:59,760
so i was able to

478
00:19:06,870 --> 00:19:03,679
talk to his former general counsel

479
00:19:09,350 --> 00:19:06,880
who was very lawyerly and didn't reveal

480
00:19:13,590 --> 00:19:11,669
or if he even knows that you know he

481
00:19:15,990 --> 00:19:13,600
might he's he's probably pretty well

482
00:19:18,310 --> 00:19:16,000
compartmentalized himself you know

483
00:19:20,630 --> 00:19:18,320
himself you know but i wanted to dive

484
00:19:25,270 --> 00:19:20,640
into some of these criticisms that john

485
00:19:28,230 --> 00:19:25,280
uh and others have levied uh on this um

486
00:19:29,029 --> 00:19:28,240
um disclosure yeah uh before you do it

487
00:19:32,549 --> 00:19:29,039
there's one

488
00:19:35,270 --> 00:19:32,559

i've got that he also

489

00:19:36,390 --> 00:19:35,280

uh contacted hal put off uh poros

490

00:19:38,390 --> 00:19:36,400

response is

491

00:19:39,669 --> 00:19:38,400

that the five-sided dirts that we

492

00:19:41,909 --> 00:19:39,679

commissioned to address the

493

00:19:43,990 --> 00:19:41,919

advanced material topics potentially

494

00:19:45,029 --> 00:19:44,000

significant for advanced aerospace

495

00:19:48,789 --> 00:19:45,039

application

496

00:19:51,190 --> 00:19:48,799

uh not evaluation of uap debris in hand

497

00:19:52,070 --> 00:19:51,200

and again that's probably a partial

498

00:19:55,669 --> 00:19:52,080

truth uh

499

00:19:57,909 --> 00:19:55,679

uh you know really it is i mean

500

00:19:59,669 --> 00:19:57,919

how put off the ufo guy you know he's

501
00:20:01,510 --> 00:19:59,679
went through the stars academy as well

502
00:20:03,190 --> 00:20:01,520
he's still with them you know he's one

503
00:20:04,149 --> 00:20:03,200
of the holdovers that didn't jump ship

504
00:20:07,669 --> 00:20:04,159
in december

505
00:20:10,390 --> 00:20:07,679
and you know uh okay he's saying that

506
00:20:11,350 --> 00:20:10,400
they didn't have any uap debris at hand

507
00:20:14,710 --> 00:20:11,360
that's fine

508
00:20:15,909 --> 00:20:14,720
but uh you know obviously uh putting

509
00:20:17,590 --> 00:20:15,919
together these uh

510
00:20:20,230 --> 00:20:17,600
different dirts and commissioning these

511
00:20:21,510 --> 00:20:20,240
different thirds uh this uh absolutely

512
00:20:23,909 --> 00:20:21,520
uh was informed

513
00:20:24,549 --> 00:20:23,919

by their knowledge of uh what makes ufos

514

00:20:26,470 --> 00:20:24,559

tick and

515

00:20:28,230 --> 00:20:26,480

i mean put off and uh he's worked with

516

00:20:29,430 --> 00:20:28,240

uh jacques villa and jacqueline was

517

00:20:31,029 --> 00:20:29,440

involved in this program

518

00:20:32,950 --> 00:20:31,039

uh jacques villa's got a full book

519

00:20:36,149 --> 00:20:32,960

coming out in the you know

520

00:20:38,789 --> 00:20:36,159

a couple months about uh the the ufa uh

521

00:20:39,510 --> 00:20:38,799

the ufo uh debris research that he's

522

00:20:40,950 --> 00:20:39,520

done so

523

00:20:42,950 --> 00:20:40,960

you know what are these guys talking

524

00:20:45,110 --> 00:20:42,960

about here and one other thing i

525

00:20:46,549 --> 00:20:45,120

i put a little uh actually put some

526

00:20:49,110 --> 00:20:46,559

effort into some of these

527

00:20:50,789 --> 00:20:49,120

uh these uh visuals that i've got there

528

00:20:52,789 --> 00:20:50,799

you can't see them but uh the folks

529

00:20:53,830 --> 00:20:52,799

who are watching the video well uh this

530

00:20:56,390 --> 00:20:53,840

goes back to

531

00:20:58,710 --> 00:20:56,400

uh greenwald pointing out that there was

532

00:21:00,549 --> 00:20:58,720

a little bit of conflict between harry

533

00:21:03,590 --> 00:21:00,559

reid and the new york times

534

00:21:04,710 --> 00:21:03,600

uh regarding uh a quote that he was

535

00:21:08,070 --> 00:21:04,720

attributed to him

536

00:21:11,190 --> 00:21:08,080

uh regarding uh ufo debris and

537

00:21:12,870 --> 00:21:11,200

uh they uh they did uh do a retraction

538

00:21:14,549 --> 00:21:12,880

based on what they used but uh it's

539

00:21:17,110 --> 00:21:14,559

important to note and uh

540

00:21:18,549 --> 00:21:17,120

the greenwald did not do that that the

541

00:21:21,110 --> 00:21:18,559

authors of the article

542

00:21:22,390 --> 00:21:21,120

blumenthal and keane both stood by the

543

00:21:25,909 --> 00:21:22,400

quote even though the times were

544

00:21:31,270 --> 00:21:27,990

that happened as well but you know all

545

00:21:33,350 --> 00:21:31,280

of these folks might be correct in that

546

00:21:35,510 --> 00:21:33,360

they've blended or laundered the

547

00:21:38,710 --> 00:21:35,520

research on extraterrestrial material

548

00:21:40,789 --> 00:21:38,720

into applications for military use

549

00:21:42,789 --> 00:21:40,799

and they're studying ufo debris under

550

00:21:44,950 --> 00:21:42,799

the cover of materials research for

551
00:21:46,549 --> 00:21:44,960
defense applications

552
00:21:48,789 --> 00:21:46,559
and they've kind of integrated them to

553
00:21:50,470 --> 00:21:48,799
obscure the truth that these materials

554
00:21:52,630 --> 00:21:50,480
represent our best efforts to

555
00:21:54,070 --> 00:21:52,640
replicate them to the military's

556
00:21:56,230 --> 00:21:54,080
advantage

557
00:21:57,190 --> 00:21:56,240
and you know they've gotten all kind of

558
00:21:59,350 --> 00:21:57,200
various program

559
00:22:01,590 --> 00:21:59,360
names over the years the advanced

560
00:22:02,710 --> 00:22:01,600
aerospace threat identification program

561
00:22:04,950 --> 00:22:02,720
the advanced

562
00:22:05,909 --> 00:22:04,960
aerospace weapons systems applications

563
00:22:08,070 --> 00:22:05,919

program

564

00:22:09,190 --> 00:22:08,080

uh the unidentified aerial phenomena

565

00:22:11,029 --> 00:22:09,200

task force

566

00:22:13,029 --> 00:22:11,039

and these are all kind of confusing the

567

00:22:14,710 --> 00:22:13,039

missions of these programs at various

568

00:22:17,830 --> 00:22:14,720

points in time

569

00:22:19,029 --> 00:22:17,840

these prove programs can involve ufo

570

00:22:22,710 --> 00:22:19,039

study

571

00:22:24,789 --> 00:22:22,720

weapons research airborne enemy threats

572

00:22:26,070 --> 00:22:24,799

so frank it allows the pentagon to

573

00:22:29,430 --> 00:22:26,080

answer an inquiry

574

00:22:31,270 --> 00:22:29,440

in any way they want to um that's kind

575

00:22:33,350 --> 00:22:31,280

of what's going on

576
00:22:34,710 --> 00:22:33,360
and you know i would say immediately to

577
00:22:37,510 --> 00:22:34,720
everybody uh

578
00:22:38,710 --> 00:22:37,520
who uh is looking at my material really

579
00:22:41,029 --> 00:22:38,720
look at it

580
00:22:41,830 --> 00:22:41,039
because if you were to read the foia

581
00:22:44,870 --> 00:22:41,840
request

582
00:22:47,510 --> 00:22:44,880
and the reply uh there was

583
00:22:49,110 --> 00:22:47,520
uh only mention and i've said this

584
00:22:52,470 --> 00:22:49,120
dozens of times

585
00:22:53,750 --> 00:22:52,480
only mention of ufos uaps bigelow

586
00:22:57,190 --> 00:22:53,760
aerospace

587
00:23:00,390 --> 00:22:57,200
debris and testing there's never

588
00:23:01,590 --> 00:23:00,400

anything ever mentioned whatsoever in

589

00:23:04,789 --> 00:23:01,600

either

590

00:23:05,669 --> 00:23:04,799

the request or the reply about aero

591

00:23:09,990 --> 00:23:05,679

materials

592

00:23:13,350 --> 00:23:10,000

or defense metals or weapons programs

593

00:23:14,950 --> 00:23:13,360

nothing whatsoever to do about that when

594

00:23:16,950 --> 00:23:14,960

i've shown this to people that aren't

595

00:23:19,750 --> 00:23:16,960

into ufology

596

00:23:20,789 --> 00:23:19,760

and they read my request and they read

597

00:23:24,149 --> 00:23:20,799

the reply

598

00:23:27,830 --> 00:23:24,159

and the accompanying reports

599

00:23:30,710 --> 00:23:27,840

everybody without question says

600

00:23:31,110 --> 00:23:30,720

that you would have to be the most inept

601
00:23:34,149 --> 00:23:31,120
and

602
00:23:37,590 --> 00:23:34,159
careless clerk

603
00:23:38,470 --> 00:23:37,600
or foia professional to read these

604
00:23:41,110 --> 00:23:38,480
requests

605
00:23:42,470 --> 00:23:41,120
and think anything else other than what

606
00:23:45,510 --> 00:23:42,480
i'm referring to

607
00:23:50,310 --> 00:23:48,870
either the pentagon people that fulfill

608
00:23:53,669 --> 00:23:50,320
these requests lack

609
00:23:57,190 --> 00:23:53,679
basic reading and comprehension skills

610
00:24:00,070 --> 00:23:57,200
or they don't have the ability to review

611
00:24:01,269 --> 00:24:00,080
uh for compliance and for for

612
00:24:04,789 --> 00:24:01,279
fulfillment

613
00:24:05,909 --> 00:24:04,799

of these requests i mean uh anyone that

614

00:24:09,269 --> 00:24:05,919

reads these

615

00:24:11,590 --> 00:24:09,279

that has basic reading skills would

616

00:24:13,510 --> 00:24:11,600

understand that you know we're referring

617

00:24:16,070 --> 00:24:13,520

to ufo material debris

618

00:24:17,029 --> 00:24:16,080

yeah we are not referring to nose cones

619

00:24:20,070 --> 00:24:17,039

or

620

00:24:22,230 --> 00:24:20,080

uh the whole of an aircraft

621

00:24:23,269 --> 00:24:22,240

uh the skin of an aircraft nothing like

622

00:24:25,669 --> 00:24:23,279

that whatsoever

623

00:24:27,669 --> 00:24:25,679

now like you point out they may at this

624

00:24:29,750 --> 00:24:27,679

point be one in the same thing

625

00:24:31,350 --> 00:24:29,760

they folded this research in so much

626

00:24:33,029 --> 00:24:31,360

that it's hard to tell now

627

00:24:35,110 --> 00:24:33,039

right right there's another thing that's

628

00:24:36,549 --> 00:24:35,120

going on that

629

00:24:38,390 --> 00:24:36,559

oh by the way i do want to say that when

630

00:24:40,310 --> 00:24:38,400

people say that the reports have nothing

631

00:24:43,269 --> 00:24:40,320

to do with ufos

632

00:24:44,870 --> 00:24:43,279

that when you look at them uh well no

633

00:24:47,269 --> 00:24:44,880

they don't mention ufos but the

634

00:24:50,789 --> 00:24:47,279

materials that we're developing

635

00:24:51,909 --> 00:24:50,799

are based on our previous study of ufo

636

00:24:55,269 --> 00:24:51,919

debris

637

00:24:58,789 --> 00:24:55,279

and there is mention of ufo material

638

00:25:00,630 --> 00:24:58,799

applications within the documents

639

00:25:04,390 --> 00:25:00,640

and this is where the problem is and i

640

00:25:09,029 --> 00:25:07,029

people in ufology are a little bit naive

641

00:25:11,029 --> 00:25:09,039

about

642

00:25:13,190 --> 00:25:11,039

material science and engineering there's

643

00:25:16,630 --> 00:25:13,200

something called basic research

644

00:25:18,549 --> 00:25:16,640

and applied research and basic research

645

00:25:19,990 --> 00:25:18,559

is the area of science that conducts

646

00:25:23,590 --> 00:25:20,000

discovery

647

00:25:27,190 --> 00:25:23,600

uh they do first time ever attempts

648

00:25:29,990 --> 00:25:27,200

at analysis to find out how things work

649

00:25:31,830 --> 00:25:30,000

but then there's applied research and

650

00:25:33,269 --> 00:25:31,840

that's the area of science that takes

651
00:25:34,950 --> 00:25:33,279
the information that's learned from

652
00:25:37,909 --> 00:25:34,960
basic science

653
00:25:40,390 --> 00:25:37,919
and looks for potential applications and

654
00:25:42,149 --> 00:25:40,400
ways to feasibly use that information to

655
00:25:44,870 --> 00:25:42,159
our benefit

656
00:25:46,789 --> 00:25:44,880
so what i received weren't uh basic

657
00:25:49,350 --> 00:25:46,799
science reports

658
00:25:50,789 --> 00:25:49,360
these were applications engineering

659
00:25:52,789 --> 00:25:50,799
reports

660
00:25:54,390 --> 00:25:52,799
they didn't tell me how these things

661
00:25:57,029 --> 00:25:54,400
were made

662
00:25:58,710 --> 00:25:57,039
only how we may one day be able to use

663
00:26:01,750 --> 00:25:58,720

them

664

00:26:04,310 --> 00:26:01,760

and so when you look at this it is

665

00:26:05,510 --> 00:26:04,320

about ufos material that can promote

666

00:26:08,470 --> 00:26:05,520

invisibility

667

00:26:09,909 --> 00:26:08,480

well that's why ufos can pop in and out

668

00:26:14,710 --> 00:26:09,919

of you view

669

00:26:16,710 --> 00:26:14,720

at their will visually and on radar

670

00:26:17,830 --> 00:26:16,720

and material that manipulates the speed

671

00:26:21,269 --> 00:26:17,840

of light well

672

00:26:24,310 --> 00:26:21,279

light speed and ufo interstellar travel

673

00:26:27,190 --> 00:26:24,320

are completely interlinked and then we

674

00:26:30,310 --> 00:26:27,200

talk about material that can morph

675

00:26:31,590 --> 00:26:30,320

well that kind of material would allow a

676
00:26:33,510 --> 00:26:31,600
ufo craft

677
00:26:34,870 --> 00:26:33,520
to adapt to the environment in which

678
00:26:37,669 --> 00:26:34,880
it's traversing

679
00:26:37,990 --> 00:26:37,679
it could self heal you can actually

680
00:26:41,750 --> 00:26:38,000
prevent

681
00:26:44,070 --> 00:26:41,760
a sonic boom by using morphing material

682
00:26:47,430 --> 00:26:44,080
uh with shape-shifting material you can

683
00:26:50,070 --> 00:26:47,440
make things bigger inside than outside

684
00:26:50,950 --> 00:26:50,080
and again the fact that this kind of

685
00:26:53,510 --> 00:26:50,960
metal was found

686
00:26:55,990 --> 00:26:53,520
fallen at roswell and it's part of a

687
00:26:57,029 --> 00:26:56,000
response to a foia request on ufo debris

688
00:27:01,110 --> 00:26:57,039

tests

689

00:27:03,669 --> 00:27:01,120

decades later is pretty wild

690

00:27:04,390 --> 00:27:03,679

and then they talk about material that

691

00:27:07,190 --> 00:27:04,400

can compress

692

00:27:07,909 --> 00:27:07,200

electromagnetic energy well energy

693

00:27:10,630 --> 00:27:07,919

storage

694

00:27:11,190 --> 00:27:10,640

is a big technical challenge it's one of

695

00:27:14,630 --> 00:27:11,200

the greatest

696

00:27:15,830 --> 00:27:14,640

issues for all airborne craft so you

697

00:27:17,190 --> 00:27:15,840

look at these

698

00:27:19,350 --> 00:27:17,200

things that they talk about in the

699

00:27:22,549 --> 00:27:19,360

reports and no they're not

700

00:27:24,230 --> 00:27:22,559

basic research telling you what stuff is

701
00:27:26,070 --> 00:27:24,240
but what they are are things that are

702
00:27:27,830 --> 00:27:26,080
telling you how to use these things in

703
00:27:30,070 --> 00:27:27,840
the future

704
00:27:31,510 --> 00:27:30,080
and that's where the problem is this is

705
00:27:33,110 --> 00:27:31,520
where the problem is

706
00:27:35,029 --> 00:27:33,120
i really think people at greenwald

707
00:27:37,990 --> 00:27:35,039
believe that they're going to mention

708
00:27:38,470 --> 00:27:38,000
you know the rancher mack brazell uh who

709
00:27:40,630 --> 00:27:38,480
found

710
00:27:42,230 --> 00:27:40,640
the craft at roswell i mean it's just

711
00:27:45,269 --> 00:27:42,240
not that way these are

712
00:27:47,510 --> 00:27:45,279
science and engineering reports and

713
00:27:48,389 --> 00:27:47,520

when you look at the the full list of

714

00:27:51,029 --> 00:27:48,399

these uh

715

00:27:51,830 --> 00:27:51,039

defense intelligence reference documents

716

00:27:54,310 --> 00:27:51,840

you also

717

00:27:55,029 --> 00:27:54,320

see uh papers like a traversable

718

00:27:57,269 --> 00:27:55,039

wormhole

719

00:27:58,149 --> 00:27:57,279

stargates and negative energies you know

720

00:28:00,830 --> 00:27:58,159

i mean come on

721

00:28:02,950 --> 00:28:00,840

uh high frequency gravitational wave

722

00:28:03,990 --> 00:28:02,960

communications uh and this is actually

723

00:28:06,070 --> 00:28:04,000

an important

724

00:28:07,669 --> 00:28:06,080

thing that i want to mention is that

725

00:28:09,590 --> 00:28:07,679

these papers are older now i mean these

726

00:28:12,549 --> 00:28:09,600

papers are 12 years old now

727

00:28:15,510 --> 00:28:12,559

so it's no longer the cut again people

728

00:28:17,990 --> 00:28:15,520

are saying to me and this is the other

729

00:28:18,950 --> 00:28:18,000

comment that people have said is that uh

730

00:28:21,669 --> 00:28:18,960

these reports

731

00:28:23,190 --> 00:28:21,679

uh that were sent were um many of them

732

00:28:25,350 --> 00:28:23,200

were already made public

733

00:28:27,190 --> 00:28:25,360

you know it's been pointed out that um

734

00:28:30,630 --> 00:28:27,200

that prior to the foia release

735

00:28:33,510 --> 00:28:30,640

that on a few obscure uh science and

736

00:28:34,630 --> 00:28:33,520

and paranormal sites uh that they've

737

00:28:36,710 --> 00:28:34,640

been out there

738

00:28:37,909 --> 00:28:36,720

but the fact remains that these same

739

00:28:40,389 --> 00:28:37,919
reports were sent

740

00:28:43,110 --> 00:28:40,399
in direct response to a four-year

741

00:28:45,909 --> 00:28:43,120
request on ufo debris study

742

00:28:47,110 --> 00:28:45,919
uh and it solidly connects the two in my

743

00:28:49,909 --> 00:28:47,120
mind

744

00:28:52,310 --> 00:28:49,919
um and some of the technical material uh

745

00:28:54,549 --> 00:28:52,320
is out there it should be out there

746

00:28:56,789 --> 00:28:54,559
uh because i do believe that you know 70

747

00:28:59,990 --> 00:28:56,799
years on after the roswell crash

748

00:29:01,669 --> 00:29:00,000
you know there has been a uh and not i'm

749

00:29:03,909 --> 00:29:01,679
not talking about a phil corso like but

750

00:29:05,190 --> 00:29:03,919
a technology transfer of lessons that

751

00:29:08,310 --> 00:29:05,200

have been learned

752

00:29:11,029 --> 00:29:08,320

from et material study uh it's already

753

00:29:12,789 --> 00:29:11,039

occurred and it's continuing there is a

754

00:29:14,149 --> 00:29:12,799

controlled release of technical

755

00:29:17,750 --> 00:29:14,159

information

756

00:29:20,789 --> 00:29:17,760

it spurs innovation uh it ultimately

757

00:29:23,669 --> 00:29:20,799

seeps benefit into the private sector

758

00:29:24,070 --> 00:29:23,679

but um you know these documents weren't

759

00:29:25,909 --> 00:29:24,080

even

760

00:29:29,190 --> 00:29:25,919

classified these were just official use

761

00:29:30,870 --> 00:29:29,200

only and they were circulated among um

762

00:29:33,110 --> 00:29:30,880

you know theoretical physicists in

763

00:29:34,389 --> 00:29:33,120

academia that were contracted to

764

00:29:36,630 --> 00:29:34,399

government

765

00:29:37,830 --> 00:29:36,640

and you know i'm not getting well people

766

00:29:39,990 --> 00:29:37,840

have a problem with that

767

00:29:41,750 --> 00:29:40,000

because once they're deemed suitable for

768

00:29:42,870 --> 00:29:41,760

general release

769

00:29:44,389 --> 00:29:42,880

of course they're going to trickle out

770

00:29:45,669 --> 00:29:44,399

to a larger audience i mean that's the

771

00:29:47,909 --> 00:29:45,679

whole idea

772

00:29:48,950 --> 00:29:47,919

and to be honest with you these guys who

773

00:29:52,789 --> 00:29:48,960

are doing this

774

00:29:56,230 --> 00:29:52,799

even hal put off wasn't even born

775

00:30:00,630 --> 00:29:56,240

when when the crash happened i mean um

776

00:30:03,430 --> 00:30:00,640

these uh folks uh have no idea what the

777

00:30:04,630 --> 00:30:03,440

uh extraterrestrial impetus or origin of

778

00:30:06,549 --> 00:30:04,640

their work is

779

00:30:09,110 --> 00:30:06,559

i mean much of their work represents the

780

00:30:11,669 --> 00:30:09,120

continuation of work that was begun

781

00:30:13,029 --> 00:30:11,679

decades before they were even born uh of

782

00:30:15,669 --> 00:30:13,039

course of course that's how far

783

00:30:17,669 --> 00:30:15,679

down we are yeah yep uh you know you

784

00:30:20,310 --> 00:30:17,679

have uh the the founding of a commercial

785

00:30:23,190 --> 00:30:20,320

titanium industry a year and a half

786

00:30:23,750 --> 00:30:23,200

after roswell yeah she pointed it out

787

00:30:27,909 --> 00:30:23,760

yeah

788

00:30:31,350 --> 00:30:27,919

more

789

00:30:33,590 --> 00:30:31,360

at this period between uh that date and

790

00:30:36,149 --> 00:30:33,600

the development of nitinol and it's

791

00:30:38,310 --> 00:30:36,159

really quite astonishing

792

00:30:39,990 --> 00:30:38,320

i'm not gonna uh we uh spend a lot of

793

00:30:42,310 --> 00:30:40,000

time here i did spend a lot of time

794

00:30:44,470 --> 00:30:42,320

about that on the last show and uh

795

00:30:45,269 --> 00:30:44,480

there's more on the way so i've got more

796

00:30:49,590 --> 00:30:45,279

on that

797

00:30:53,990 --> 00:30:51,190

that's um thing people say oh well

798

00:30:56,630 --> 00:30:54,000

wasn't there uh memory metal before 47

799

00:30:57,350 --> 00:30:56,640

well there was pseudoelasticity uh

800

00:30:59,990 --> 00:30:57,360

meaning you know

801
00:31:01,350 --> 00:31:00,000
metals are bendable but there was never

802
00:31:18,310 --> 00:31:01,360
anything

803
00:31:20,389 --> 00:31:18,320
even close to not available

804
00:31:21,909 --> 00:31:20,399
always way ahead of the curve and is

805
00:31:23,590 --> 00:31:21,919
working on something but

806
00:31:25,430 --> 00:31:23,600
you know they can't figure out a

807
00:31:28,710 --> 00:31:25,440
practical uh profitable

808
00:31:30,470 --> 00:31:28,720
uh application for it yes and then you

809
00:31:31,029 --> 00:31:30,480
get this tipping point and then all of a

810
00:31:32,950 --> 00:31:31,039
sudden

811
00:31:34,950 --> 00:31:32,960
uh some people uh with the money and

812
00:31:38,389 --> 00:31:34,960
that's basically we're talking about the

813
00:31:40,310 --> 00:31:38,399

uh the military here uh all of a sudden

814

00:31:42,549 --> 00:31:40,320

they want it and then all of a sudden

815

00:31:43,909 --> 00:31:42,559

it becomes profitable it was the uh the

816

00:31:46,470 --> 00:31:43,919

u.s air force

817

00:31:48,790 --> 00:31:46,480

the military the pentagon that got the

818

00:31:50,870 --> 00:31:48,800

titanium industry started

819

00:31:53,430 --> 00:31:50,880

[Music]

820

00:31:55,190 --> 00:31:53,440

yeah and so these things as you point

821

00:31:57,350 --> 00:31:55,200

out have happened decades ago

822

00:31:58,470 --> 00:31:57,360

and over the years people that are

823

00:32:01,669 --> 00:31:58,480

working on these

824

00:32:04,549 --> 00:32:01,679

kinds of projects have no idea

825

00:32:05,430 --> 00:32:04,559

uh that you know the impetus for their

826

00:32:07,909 --> 00:32:05,440

work was from

827

00:32:09,830 --> 00:32:07,919

many many years ago i mean it and they

828

00:32:13,029 --> 00:32:09,840

shouldn't know about this stuff

829

00:32:14,070 --> 00:32:13,039

um you know in terms of the way it

830

00:32:16,149 --> 00:32:14,080

really is in

831

00:32:17,509 --> 00:32:16,159

the world of science and engineering

832

00:32:19,669 --> 00:32:17,519

you're really not given

833

00:32:21,350 --> 00:32:19,679

all kinds of back stories uh one of the

834

00:32:24,549 --> 00:32:21,360

reasons i know that bob lazar

835

00:32:27,669 --> 00:32:24,559

is a phony among other reasons

836

00:32:29,669 --> 00:32:27,679

is because he talks about being tasked

837

00:32:30,870 --> 00:32:29,679

to do certain technical things but then

838

00:32:32,630 --> 00:32:30,880

he's also

839

00:32:34,070 --> 00:32:32,640

talking about being given information

840

00:32:36,070 --> 00:32:34,080

about

841

00:32:38,230 --> 00:32:36,080

things that have don't relate to science

842

00:32:41,590 --> 00:32:38,240

or engineering

843

00:32:41,990 --> 00:32:41,600

things like beings from distant stars

844

00:32:45,509 --> 00:32:42,000

and

845

00:32:46,950 --> 00:32:45,519

uh maybe jesus was an ancient astronaut

846

00:32:49,990 --> 00:32:46,960

and this kind of thing

847

00:32:51,669 --> 00:32:50,000

uh you know and and he's being told all

848

00:32:55,269 --> 00:32:51,679

of these things

849

00:32:57,350 --> 00:32:55,279

by scientists supposedly at area 51 well

850

00:32:58,870 --> 00:32:57,360

that's not the way science works and

851
00:33:00,230 --> 00:32:58,880
that's not the way engineering works in

852
00:33:03,190 --> 00:33:00,240
the real world

853
00:33:05,190 --> 00:33:03,200
uh you're given a very small project to

854
00:33:06,870 --> 00:33:05,200
work on your boss might even

855
00:33:08,630 --> 00:33:06,880
not know what you're working on it's

856
00:33:11,029 --> 00:33:08,640
that compartmentalized

857
00:33:12,070 --> 00:33:11,039
you're given a top secret clearance a

858
00:33:15,430 --> 00:33:12,080
full scope

859
00:33:16,149 --> 00:33:15,440
polygraph and a special access program

860
00:33:18,789 --> 00:33:16,159
where you're

861
00:33:20,230 --> 00:33:18,799
to work only on one particular thing

862
00:33:22,230 --> 00:33:20,240
they're not going to fill you in on the

863
00:33:25,110 --> 00:33:22,240

back story of

864

00:33:26,710 --> 00:33:25,120

ancient aliens when you're working on uh

865

00:33:28,789 --> 00:33:26,720

perhaps you know a debris or something

866

00:33:30,630 --> 00:33:28,799

or or if you are told something like you

867

00:33:32,870 --> 00:33:30,640

mentioned with the elroy center

868

00:33:33,830 --> 00:33:32,880

that it's russian well i i can tell you

869

00:33:38,310 --> 00:33:33,840

that

870

00:33:40,870 --> 00:33:38,320

were trailing on the development of

871

00:33:43,750 --> 00:33:40,880

advanced alloys through that period

872

00:33:45,430 --> 00:33:43,760

they sure were in fact this whole idea

873

00:33:49,110 --> 00:33:45,440

that annie jacobson had

874

00:33:51,350 --> 00:33:49,120

years ago of the roswell crash being

875

00:33:55,029 --> 00:33:51,360

resultant from a russian

876

00:33:58,149 --> 00:33:55,039

vehicle or drone you'll remember that

877

00:34:00,389 --> 00:33:58,159

just ridiculous on the face of it they

878

00:34:02,870 --> 00:34:00,399

weren't anywhere near that

879

00:34:04,230 --> 00:34:02,880

able to do that kind of thing but that's

880

00:34:08,149 --> 00:34:04,240

a whole nother story isn't it

881

00:34:09,909 --> 00:34:08,159

so uh but yeah so you know uh when i

882

00:34:13,589 --> 00:34:09,919

hear about hal put off and others

883

00:34:16,629 --> 00:34:13,599

talking about uh uh this uh released

884

00:34:17,510 --> 00:34:16,639

material um i mean i can truthfully say

885

00:34:20,389 --> 00:34:17,520

that yes there

886

00:34:20,790 --> 00:34:20,399

are aeronautical applications and they

887

00:34:22,710 --> 00:34:20,800

are

888

00:34:23,990 --> 00:34:22,720

working on these materials for that

889

00:34:27,430 --> 00:34:24,000

reason

890

00:34:30,550 --> 00:34:27,440

but that doesn't negate uh the ufo

891

00:34:31,510 --> 00:34:30,560

angle and um one of the things i

892

00:34:33,430 --> 00:34:31,520

mentioned before

893

00:34:35,750 --> 00:34:33,440

uh frank is that they like to change up

894

00:34:38,710 --> 00:34:35,760

the names of these programs

895

00:34:39,829 --> 00:34:38,720

and one of the um names on the programs

896

00:34:43,829 --> 00:34:39,839

that kept on

897

00:34:46,389 --> 00:34:43,839

uh coming up was um the other program

898

00:34:50,230 --> 00:34:46,399

name i'm forgetting here though

899

00:34:51,909 --> 00:34:50,240

yes and one of the uh people that was

900

00:34:54,869 --> 00:34:51,919

involved in that

901
00:34:56,950 --> 00:34:54,879
was the predecessor to luis elizondo oh

902
00:34:58,390 --> 00:34:56,960
that's uh james lakatsky

903
00:35:00,150 --> 00:34:58,400
there you go and that's the name i was

904
00:35:02,790 --> 00:35:00,160
looking for thanks frank

905
00:35:04,230 --> 00:35:02,800
in the dia response it says this product

906
00:35:06,230 --> 00:35:04,240
is one of a series of advanced

907
00:35:07,990 --> 00:35:06,240
technology reports

908
00:35:10,550 --> 00:35:08,000
produced under the defense intelligence

909
00:35:13,349 --> 00:35:10,560
agency advanced aerospace weapons

910
00:35:15,349 --> 00:35:13,359
systems applications program and then

911
00:35:16,710 --> 00:35:15,359
and we know who's blocked out whose name

912
00:35:19,030 --> 00:35:16,720
is blocked out in that

913
00:35:21,589 --> 00:35:19,040

block there right and that is uh

914

00:35:24,630 --> 00:35:21,599

lukaszki's

915

00:35:28,150 --> 00:35:24,640

and he was involved in ufo study

916

00:35:30,310 --> 00:35:28,160

as was elizondo he was his predecessor

917

00:35:32,310 --> 00:35:30,320

so i believe that's why they removed his

918

00:35:34,310 --> 00:35:32,320

name from what i received

919

00:35:36,710 --> 00:35:34,320

because i've received i've seen other

920

00:35:40,950 --> 00:35:36,720

documents that include his name

921

00:35:43,589 --> 00:35:40,960

in this very same dia

922

00:35:45,190 --> 00:35:43,599

response block which has this product is

923

00:35:45,829 --> 00:35:45,200

one of a series of advanced technology

924

00:35:48,069 --> 00:35:45,839

reports

925

00:35:50,390 --> 00:35:48,079

his name is included in other of those

926

00:35:52,230 --> 00:35:50,400

it's removed in the one i received

927

00:35:53,750 --> 00:35:52,240

as were the authors of the papers too

928

00:35:55,270 --> 00:35:53,760

but it was easy enough to put two and

929

00:35:55,990 --> 00:35:55,280

two together you know and figured out

930

00:35:58,310 --> 00:35:56,000

exactly who

931

00:35:59,750 --> 00:35:58,320

the right if you simply put his name in

932

00:36:01,670 --> 00:35:59,760

and insert his name

933

00:36:03,030 --> 00:36:01,680

it's clear that these reports relate to

934

00:36:05,430 --> 00:36:03,040

ufo material

935

00:36:07,670 --> 00:36:05,440

yep absolutely and this is one of the

936

00:36:08,470 --> 00:36:07,680

things that john greenwald didn't point

937

00:36:10,790 --> 00:36:08,480

out

938

00:36:12,150 --> 00:36:10,800

um i'm surprised that he didn't because

939

00:36:16,230 --> 00:36:12,160

he knows that

940

00:36:17,990 --> 00:36:16,240

or must know that and

941

00:36:20,150 --> 00:36:18,000

just as an aside and again i don't want

942

00:36:23,109 --> 00:36:20,160

to be in a personal attack

943

00:36:24,790 --> 00:36:23,119

but people like john greenwald are very

944

00:36:28,470 --> 00:36:24,800

accepting

945

00:36:29,030 --> 00:36:28,480

receive and they've and he's developed a

946

00:36:32,390 --> 00:36:29,040

very

947

00:36:34,230 --> 00:36:32,400

uh cozy relationship uh with government

948

00:36:36,710 --> 00:36:34,240

agencies that feed him

949

00:36:38,870 --> 00:36:36,720

and his repository and he doesn't want

950

00:36:41,750 --> 00:36:38,880

to upset the apple cart

951
00:36:42,230 --> 00:36:41,760
uh in fact in one communication with me

952
00:36:43,990 --> 00:36:42,240
what

953
00:36:45,910 --> 00:36:44,000
few he's had with me he said that he

954
00:36:48,710 --> 00:36:45,920
finds the way that i deal with

955
00:36:49,990 --> 00:36:48,720
the foia folks to be abrasive and i

956
00:36:51,910 --> 00:36:50,000
started laughing

957
00:36:53,589 --> 00:36:51,920
i mean if you don't push them a little

958
00:36:56,069 --> 00:36:53,599
bit frank they won't do anything

959
00:36:57,589 --> 00:36:56,079
i i've heard stories about robert todd

960
00:36:58,870 --> 00:36:57,599
i'm not sure how familiar you are with

961
00:37:01,030 --> 00:36:58,880
his background and uh

962
00:37:01,990 --> 00:37:01,040
you know you're you're a charmer

963
00:37:05,270 --> 00:37:02,000

compared to him

964

00:37:07,990 --> 00:37:05,280

from what i understand a charmer

965

00:37:09,750 --> 00:37:08,000

so you know when i hear john greenwald

966

00:37:11,829 --> 00:37:09,760

saying that uh i should treat them with

967

00:37:12,870 --> 00:37:11,839

more respect and that i'm a bit brash

968

00:37:15,109 --> 00:37:12,880

with them

969

00:37:16,230 --> 00:37:15,119

uh it tells me that he's too trusting of

970

00:37:18,950 --> 00:37:16,240

them and

971

00:37:21,510 --> 00:37:18,960

that he uh doesn't want to upset his

972

00:37:24,790 --> 00:37:21,520

cozy relationship with them

973

00:37:26,950 --> 00:37:24,800

uh that much is very clear

974

00:37:28,950 --> 00:37:26,960

now uh we've talked a little bit

975

00:37:32,230 --> 00:37:28,960

privately before the show

976

00:37:35,430 --> 00:37:32,240

about uh what's next uh what you know

977

00:37:35,990 --> 00:37:35,440

my feeling is if these uh foias are

978

00:37:39,030 --> 00:37:36,000

excuse me

979

00:37:40,310 --> 00:37:39,040

these durds are out there and none of

980

00:37:41,829 --> 00:37:40,320

them are classified

981

00:37:43,589 --> 00:37:41,839

uh let's get them all out there let's

982

00:37:44,630 --> 00:37:43,599

find a way to get them all released uh

983

00:37:47,190 --> 00:37:44,640

some others that

984

00:37:48,870 --> 00:37:47,200

aren't in this uh release uh have been

985

00:37:52,390 --> 00:37:48,880

out before but not all of them

986

00:37:54,710 --> 00:37:52,400

uh very interesting stuff and uh

987

00:37:56,790 --> 00:37:54,720

i think it would uh likely uh pretty

988

00:37:59,510 --> 00:37:56,800

well prove and lock down that there's no

989

00:38:01,990 --> 00:37:59,520

question that atip was a ufo program

990

00:38:02,790 --> 00:38:02,000

again i had the the graphic up earlier

991

00:38:04,390 --> 00:38:02,800

uh uh

992

00:38:06,630 --> 00:38:04,400

let's see an introduction to the

993

00:38:09,190 --> 00:38:06,640

statistical drake equation

994

00:38:09,829 --> 00:38:09,200

what the what's the military application

995

00:38:11,829 --> 00:38:09,839

on that

996

00:38:12,870 --> 00:38:11,839

you know warp drive dark energy and the

997

00:38:15,190 --> 00:38:12,880

manipulation

998

00:38:17,349 --> 00:38:15,200

of extra dimensions i mean clearly

999

00:38:18,310 --> 00:38:17,359

they're uh they're trying to figure out

1000

00:38:21,109 --> 00:38:18,320

uh

1001

00:38:22,710 --> 00:38:21,119

yeah obviously yeah some military

1002

00:38:25,990 --> 00:38:22,720

applications if it's a

1003

00:38:28,150 --> 00:38:26,000

if they can be developed

1004

00:38:30,310 --> 00:38:28,160

but at the same time they're they're

1005

00:38:32,950 --> 00:38:30,320

clearly talking about ufos and how

1006

00:38:34,310 --> 00:38:32,960

uh some sort of uh uh advanced dt can

1007

00:38:35,349 --> 00:38:34,320

get here and from where they're coming

1008

00:38:37,990 --> 00:38:35,359

from

1009

00:38:39,510 --> 00:38:38,000

no doubt about it you know even without

1010

00:38:40,870 --> 00:38:39,520

reading the papers and i would love to

1011

00:38:42,550 --> 00:38:40,880

read some of these papers

1012

00:38:44,230 --> 00:38:42,560

even without reading these papers you

1013

00:38:45,190 --> 00:38:44,240

know it's pretty obvious just from the

1014

00:38:47,510 --> 00:38:45,200

titles where

1015

00:38:49,030 --> 00:38:47,520

the direction they're going in one of

1016

00:38:49,829 --> 00:38:49,040

the things i found kind of interesting

1017

00:38:51,750 --> 00:38:49,839

was that

1018

00:38:53,670 --> 00:38:51,760

uh some of the material though that i

1019

00:38:54,550 --> 00:38:53,680

received didn't relate to weaponry at

1020

00:38:57,270 --> 00:38:54,560

all

1021

00:38:58,870 --> 00:38:57,280

it related to health benefit and medical

1022

00:39:01,109 --> 00:38:58,880

benefit

1023

00:39:02,710 --> 00:39:01,119

so when she uh susan goge at the

1024

00:39:04,950 --> 00:39:02,720

pentagon says that these are

1025

00:39:06,470 --> 00:39:04,960

strictly related to advanced weaponry

1026
00:39:09,750 --> 00:39:06,480
programs

1027
00:39:11,190 --> 00:39:09,760
uh at least 20 pages related to the use

1028
00:39:15,270 --> 00:39:11,200
of memory metal

1029
00:39:17,589 --> 00:39:15,280
in the human body

1030
00:39:18,390 --> 00:39:17,599
and that that has been something that uh

1031
00:39:20,630 --> 00:39:18,400
we've gotten

1032
00:39:21,990 --> 00:39:20,640
uh anecdotally from ufo witnesses and

1033
00:39:23,510 --> 00:39:22,000
whatnot people have said that they've

1034
00:39:25,750 --> 00:39:23,520
actually been on these ships

1035
00:39:26,790 --> 00:39:25,760
and they can sort of like literally plug

1036
00:39:29,670 --> 00:39:26,800
in and

1037
00:39:30,150 --> 00:39:29,680
uh you know that yeah i've no doubt that

1038
00:39:32,310 --> 00:39:30,160

uh

1039

00:39:33,670 --> 00:39:32,320

guys like hal put off are aware of that

1040

00:39:35,910 --> 00:39:33,680

and that was part of what they were

1041

00:39:37,670 --> 00:39:35,920

looking for

1042

00:39:39,349 --> 00:39:37,680

well the uh the whole thing about

1043

00:39:41,109 --> 00:39:39,359

morphing metal

1044

00:39:43,589 --> 00:39:41,119

is a very deep subject i don't want to

1045

00:39:46,630 --> 00:39:43,599

get too far out into the weeds

1046

00:39:48,870 --> 00:39:46,640

but um there's a

1047

00:39:51,750 --> 00:39:48,880

a lot of applications aeronautically

1048

00:39:55,510 --> 00:39:51,760

that memory metal could help us with

1049

00:39:57,670 --> 00:39:55,520

for instance is a self-healing metal

1050

00:39:58,790 --> 00:39:57,680

if uh it would be able to resist

1051
00:40:01,589 --> 00:39:58,800

physical uh

1052
00:40:02,470 --> 00:40:01,599

impact and physical intrusion on the

1053
00:40:06,069 --> 00:40:02,480

metal by

1054
00:40:09,430 --> 00:40:06,079

healing itself back up also

1055
00:40:12,470 --> 00:40:09,440

uh wings that can

1056
00:40:15,030 --> 00:40:12,480

fold up on themselves um

1057
00:40:16,950 --> 00:40:15,040

actuators uh that are used in aerospace

1058
00:40:18,069 --> 00:40:16,960

systems i mean there's dozens of ways

1059
00:40:21,190 --> 00:40:18,079

that memory metal

1060
00:40:23,109 --> 00:40:21,200

can be used in space uh and so you know

1061
00:40:26,150 --> 00:40:23,119

again as they blend these

1062
00:40:29,430 --> 00:40:26,160

et inspired technologies into

1063
00:40:32,069 --> 00:40:29,440

uh advanced uh aerospace metallurgy

1064

00:40:33,589 --> 00:40:32,079

and material science it becomes more and

1065

00:40:35,430 --> 00:40:33,599

more difficult to understand

1066

00:40:36,630 --> 00:40:35,440

what became first you know the chicken

1067

00:40:38,390 --> 00:40:36,640

or the egg

1068

00:40:39,910 --> 00:40:38,400

you know and that that's kind of what's

1069

00:40:43,430 --> 00:40:39,920

going on here

1070

00:40:46,710 --> 00:40:43,440

and uh i'm confident though that once we

1071

00:40:49,670 --> 00:40:46,720

sort through all of this uh conclu this

1072

00:40:50,630 --> 00:40:49,680

confusion that uh you know what we've

1073

00:40:54,230 --> 00:40:50,640

been given really

1074

00:40:56,230 --> 00:40:54,240

is some extraordinary reports

1075

00:40:58,870 --> 00:40:56,240

and i think that they are based on our

1076

00:41:01,349 --> 00:40:58,880

studies of extraterrestrial hardware

1077

00:41:02,870 --> 00:41:01,359

um you know it's just not a doubt in my

1078

00:41:05,430 --> 00:41:02,880

mind about it

1079

00:41:06,069 --> 00:41:05,440

the other curious thing to me is why

1080

00:41:09,349 --> 00:41:06,079

isn't

1081

00:41:11,589 --> 00:41:09,359

the pentagon getting back to me

1082

00:41:12,870 --> 00:41:11,599

why is it the student or this susan

1083

00:41:16,470 --> 00:41:12,880

gogue

1084

00:41:18,069 --> 00:41:16,480

doesn't you know talk to me

1085

00:41:21,109 --> 00:41:18,079

do you have any ideas why she might not

1086

00:41:23,670 --> 00:41:21,119

be i'm not sure except that

1087

00:41:25,670 --> 00:41:23,680

they did not like all the attention that

1088

00:41:29,510 --> 00:41:25,680

uh your article got

1089

00:41:31,750 --> 00:41:29,520

yeah that's sure and that uh it

1090

00:41:33,430 --> 00:41:31,760

makes them have to uh makes them have to

1091

00:41:34,870 --> 00:41:33,440

work makes them have to do the weekend

1092

00:41:36,950 --> 00:41:34,880

just makes them happy

1093

00:41:37,910 --> 00:41:36,960

knows her do we know if john greenwald

1094

00:41:41,430 --> 00:41:37,920

of the black vault

1095

00:41:45,030 --> 00:41:43,510

that i don't know that i don't know i do

1096

00:41:46,710 --> 00:41:45,040

believe he's dealt with her

1097

00:41:48,069 --> 00:41:46,720

he may very well have talked to her i'm

1098

00:41:50,309 --> 00:41:48,079

not 100 sure

1099

00:41:51,349 --> 00:41:50,319

about that i don't know but you know the

1100

00:41:53,990 --> 00:41:51,359

the good thing is

1101

00:41:54,870 --> 00:41:54,000

that uh his debunking is fairly easily

1102

00:41:56,870 --> 00:41:54,880

debunked

1103

00:41:58,470 --> 00:41:56,880

once you look past the surface so that

1104

00:42:00,870 --> 00:41:58,480

that that's all i've got to say about

1105

00:42:03,589 --> 00:42:00,880

that those three nails are nothing

1106

00:42:05,910 --> 00:42:03,599

basically you know well when he began uh

1107

00:42:09,030 --> 00:42:05,920

one of his videos by talking about

1108

00:42:11,829 --> 00:42:09,040

uh a graphic that i used

1109

00:42:12,790 --> 00:42:11,839

uh and uh that yeah that could be

1110

00:42:14,710 --> 00:42:12,800

offensive

1111

00:42:15,990 --> 00:42:14,720

yeah he seems to have an issue with

1112

00:42:18,309 --> 00:42:16,000

illustrations jesus

1113

00:42:19,750 --> 00:42:18,319

mentioned that there's another story

1114

00:42:20,790 --> 00:42:19,760

that's floating around that he's got an

1115

00:42:23,510 --> 00:42:20,800

issue with uh

1116

00:42:25,190 --> 00:42:23,520

uh regarding just an illustration i mean

1117

00:42:27,910 --> 00:42:25,200

it's like come on you know

1118

00:42:29,670 --> 00:42:27,920

well maybe i will in future articles put

1119

00:42:32,230 --> 00:42:29,680

for illustrative purposes

1120

00:42:33,190 --> 00:42:32,240

when i put a picture of a flying saucer

1121

00:42:34,870 --> 00:42:33,200

up i mean

1122

00:42:36,630 --> 00:42:34,880

for heaven's sake if people don't know

1123

00:42:38,230 --> 00:42:36,640

that that's uh just to represent

1124

00:42:38,710 --> 00:42:38,240

something and this isn't the actual

1125

00:42:41,990 --> 00:42:38,720

thing

1126

00:42:44,309 --> 00:42:42,000

itself uh and there was those kind of

1127

00:42:46,870 --> 00:42:44,319

little picayune things i realized this

1128

00:42:49,750 --> 00:42:46,880

is a fellow that is very territorial

1129

00:42:51,589 --> 00:42:49,760

uh he is the guy that does foia uh i

1130

00:42:52,550 --> 00:42:51,599

frankly didn't know him well or really

1131

00:42:55,190 --> 00:42:52,560

at all

1132

00:42:56,150 --> 00:42:55,200

and i knew of him and of his work uh

1133

00:42:59,430 --> 00:42:56,160

prior

1134

00:43:00,309 --> 00:42:59,440

uh and actually would was hoping to work

1135

00:43:03,030 --> 00:43:00,319

with him

1136

00:43:04,790 --> 00:43:03,040

cooperatively but uh he instead viewed

1137

00:43:07,829 --> 00:43:04,800

me as some sort of a

1138

00:43:08,710 --> 00:43:07,839

threat in some strange way and frank you

1139

00:43:12,069 --> 00:43:08,720

know that i

1140

00:43:14,390 --> 00:43:12,079

share uh leads and information

1141

00:43:16,470 --> 00:43:14,400

uh with people freely as you've done

1142

00:43:18,550 --> 00:43:16,480

with me over the years many many times

1143

00:43:20,230 --> 00:43:18,560

and i'm very appreciative of that

1144

00:43:22,710 --> 00:43:20,240

and i think and you know that and i

1145

00:43:26,230 --> 00:43:22,720

think a lot of the folks in this

1146

00:43:29,990 --> 00:43:26,240

field if you can call it that are just

1147

00:43:31,990 --> 00:43:30,000

working against one another and

1148

00:43:33,910 --> 00:43:32,000

it's a field that is wrought with

1149

00:43:37,829 --> 00:43:33,920

personality and politics

1150

00:43:38,950 --> 00:43:37,839

and all kind of issues and i've seen it

1151
00:43:41,510 --> 00:43:38,960
firsthand with

1152
00:43:43,349 --> 00:43:41,520
this mr greenwald uh someone i was

1153
00:43:43,829 --> 00:43:43,359
hoping would be able to offer insight

1154
00:43:46,309 --> 00:43:43,839
and

1155
00:43:47,430 --> 00:43:46,319
work with me instead of at a

1156
00:43:49,910 --> 00:43:47,440
cross-purpose

1157
00:43:51,270 --> 00:43:49,920
i'm i'm kind of surprised well so you

1158
00:43:54,550 --> 00:43:51,280
know sometimes

1159
00:43:56,309 --> 00:43:54,560
sometimes uh controversy cells too and

1160
00:43:57,670 --> 00:43:56,319
it is drawing uh some attention to your

1161
00:44:01,270 --> 00:43:57,680
stuff you know

1162
00:44:04,710 --> 00:44:01,280
a little bit and again and

1163
00:44:05,589 --> 00:44:04,720

again his uh his response kind of uh

1164

00:44:07,510 --> 00:44:05,599

betrays

1165

00:44:09,430 --> 00:44:07,520

uh quite frankly how little he knows

1166

00:44:11,030 --> 00:44:09,440

about the actual subject so

1167

00:44:12,550 --> 00:44:11,040

you know so you got that going for you

1168

00:44:13,910 --> 00:44:12,560

too one of the things that he needs to

1169

00:44:15,750 --> 00:44:13,920

understand is that

1170

00:44:17,510 --> 00:44:15,760

this is as much a science and

1171

00:44:19,430 --> 00:44:17,520

engineering issue

1172

00:44:20,950 --> 00:44:19,440

as it is a freedom of information act

1173

00:44:23,550 --> 00:44:20,960

issue and

1174

00:44:25,190 --> 00:44:23,560

um that we need to kind of work uh

1175

00:44:28,150 --> 00:44:25,200

multi-disciplinary

1176

00:44:29,750 --> 00:44:28,160

in a multi-pronged approach on this uh

1177

00:44:32,870 --> 00:44:29,760

and that the answers may not be

1178

00:44:34,309 --> 00:44:32,880

just from susan gogue and the pentagon

1179

00:44:36,390 --> 00:44:34,319

and in fact the answers probably won't

1180

00:44:39,270 --> 00:44:36,400

be coming from them uh

1181

00:44:42,230 --> 00:44:39,280

and so we have to work around that and

1182

00:44:44,150 --> 00:44:42,240

use that information as best as we can

1183

00:44:45,829 --> 00:44:44,160

and i kind of wanted to wind this up by

1184

00:44:48,630 --> 00:44:45,839

telling you where i'm going in

1185

00:44:49,990 --> 00:44:48,640

the direction on all this yeah yeah okay

1186

00:44:52,150 --> 00:44:50,000

i found as you know

1187

00:44:54,790 --> 00:44:52,160

some of the names of these scientists

1188

00:44:58,150 --> 00:44:54,800

that wrote some of these articles

1189

00:44:59,750 --> 00:44:58,160

and they are approachable and my next uh

1190

00:45:01,750 --> 00:44:59,760

article or perhaps the one after that

1191

00:45:04,150 --> 00:45:01,760

we'll we'll talk about

1192

00:45:05,510 --> 00:45:04,160

that uh but just to give you a little

1193

00:45:08,470 --> 00:45:05,520

bit of a heads up

1194

00:45:11,030 --> 00:45:08,480

i have reached one fellow that was

1195

00:45:14,630 --> 00:45:11,040

particularly informative

1196

00:45:16,069 --> 00:45:14,640

who is in academia and is a theoretical

1197

00:45:17,829 --> 00:45:16,079

physicist

1198

00:45:19,510 --> 00:45:17,839

who has been contracted to government

1199

00:45:22,710 --> 00:45:19,520

over the years

1200

00:45:24,470 --> 00:45:22,720

and he explains that when he's retained

1201

00:45:26,230 --> 00:45:24,480

to do work like this they don't ask

1202

00:45:29,190 --> 00:45:26,240

questions

1203

00:45:31,190 --> 00:45:29,200

they don't need to know back story they

1204

00:45:34,630 --> 00:45:31,200

don't need to know the ultimate aim

1205

00:45:38,150 --> 00:45:34,640

oftentimes of their work it's

1206

00:45:41,589 --> 00:45:38,160

given to them and guided to them

1207

00:45:43,589 --> 00:45:41,599

by people in government and they're

1208

00:45:46,950 --> 00:45:43,599

provided what they need to know

1209

00:45:48,470 --> 00:45:46,960

to do their work and nothing more

1210

00:45:50,950 --> 00:45:48,480

i'm going to expand on that a little bit

1211

00:45:52,950 --> 00:45:50,960

more in the future but it's going to

1212

00:45:54,710 --> 00:45:52,960

become clear

1213

00:45:56,390 --> 00:45:54,720

why it is that some of the folks that

1214

00:45:58,829 --> 00:45:56,400

work on this material

1215

00:46:00,870 --> 00:45:58,839

truly don't know why they're working on

1216

00:46:03,190 --> 00:46:00,880

it and

1217

00:46:05,230 --> 00:46:03,200

it's kind of remarkable how in the real

1218

00:46:07,990 --> 00:46:05,240

world

1219

00:46:10,230 --> 00:46:08,000

compartmentalization works in a science

1220

00:46:13,430 --> 00:46:10,240

and engineering

1221

00:46:16,950 --> 00:46:13,440

company in the real world how it looks

1222

00:46:17,349 --> 00:46:16,960

inside lockheed or boeing and how these

1223

00:46:19,510 --> 00:46:17,359

guys

1224

00:46:20,390 --> 00:46:19,520

actually work on these kinds of projects

1225

00:46:21,670 --> 00:46:20,400

and i think it's going to be very

1226

00:46:25,190 --> 00:46:21,680

surprising

1227

00:46:27,270 --> 00:46:25,200

to people in the ufo community that

1228

00:46:28,710 --> 00:46:27,280

are a bit naive about these kind of

1229

00:46:30,230 --> 00:46:28,720

things

1230

00:46:32,550 --> 00:46:30,240

i think it's going to be very helpful to

1231

00:46:35,829 --> 00:46:32,560

understand what's been going on

1232

00:46:39,109 --> 00:46:35,839

uh with all of this uh recently

1233

00:46:40,550 --> 00:46:39,119

uh so more to come good good good we're

1234

00:46:42,150 --> 00:46:40,560

looking forward to it now

1235

00:46:44,230 --> 00:46:42,160

you seem to be since you started the

1236

00:46:47,190 --> 00:46:44,240

website uh uh roughly uh

1237

00:46:48,069 --> 00:46:47,200

uh uh a good 2 000 plus word article

1238

00:46:51,190 --> 00:46:48,079

every couple

1239

00:46:53,030 --> 00:46:51,200

months that seems to be about uh yeah so

1240

00:46:55,670 --> 00:46:53,040

uh i guess uh we'll look out for this

1241

00:46:58,230 --> 00:46:55,680

what uh sometime uh the last article

1242

00:46:59,670 --> 00:46:58,240

obviously was last month now so uh maybe

1243

00:47:02,390 --> 00:46:59,680

something in april

1244

00:47:03,589 --> 00:47:02,400

i think so in late april we'll look

1245

00:47:06,630 --> 00:47:03,599

forward to uh

1246

00:47:08,230 --> 00:47:06,640

the next chapter in this crazy story and

1247

00:47:10,790 --> 00:47:08,240

it is going to center around the actual

1248

00:47:13,109 --> 00:47:10,800

scientists that did the reports

1249

00:47:14,230 --> 00:47:13,119

and i think that's kind of the missing

1250

00:47:15,589 --> 00:47:14,240

thing here

1251
00:47:17,670 --> 00:47:15,599
and it's going to kind of come full

1252
00:47:19,829 --> 00:47:17,680
circle and help us to understand what's

1253
00:47:22,630 --> 00:47:19,839
been going on

1254
00:47:25,190 --> 00:47:22,640
but i think maybe what i want to do

1255
00:47:26,870 --> 00:47:25,200
first just take a couple of weeks

1256
00:47:28,390 --> 00:47:26,880
take a spring break because that has

1257
00:47:31,510 --> 00:47:28,400
been overwhelming in

1258
00:47:33,589 --> 00:47:31,520
uh so many different ways and

1259
00:47:34,630 --> 00:47:33,599
uh you know i have a business and a life

1260
00:47:37,349 --> 00:47:34,640
and a family and

1261
00:47:38,950 --> 00:47:37,359
uh and this is a remarkable story but i

1262
00:47:39,910 --> 00:47:38,960
need to probably take a little bit of a

1263
00:47:42,549 --> 00:47:39,920

breather

1264

00:47:43,670 --> 00:47:42,559

and then re-enter as you say later on

1265

00:47:47,670 --> 00:47:43,680

probably in

1266

00:47:50,069 --> 00:47:47,680

in april and um and dive back in

1267

00:47:51,589 --> 00:47:50,079

good good and now one last question for

1268

00:47:53,510 --> 00:47:51,599

you i mean we've talked about roswell

1269

00:47:54,950 --> 00:47:53,520

and you're obviously a roswell believer

1270

00:47:55,589 --> 00:47:54,960

based on the witnesses that you've

1271

00:47:58,549 --> 00:47:55,599

talked to

1272

00:48:00,630 --> 00:47:58,559

and uh uh plenty of other evidence

1273

00:48:04,549 --> 00:48:00,640

including what happened in the aftermath

1274

00:48:07,430 --> 00:48:04,559

uh as far as advancements in technology

1275

00:48:08,630 --> 00:48:07,440

uh are there any other crash stories

1276

00:48:11,109 --> 00:48:08,640

that you particularly

1277

00:48:12,549 --> 00:48:11,119

like that you think hey there's

1278

00:48:14,470 --> 00:48:12,559

something here

1279

00:48:17,349 --> 00:48:14,480

what a great question people always

1280

00:48:21,349 --> 00:48:17,359

think tony is only into roswell

1281

00:48:24,790 --> 00:48:21,359

uh there is there are two

1282

00:48:27,750 --> 00:48:24,800

uh kecksburg pennsylvania uh

1283

00:48:30,069 --> 00:48:27,760

in the late 60s there was a uh craft

1284

00:48:32,710 --> 00:48:30,079

that had crashed in kecksburg

1285

00:48:34,309 --> 00:48:32,720

there's a researcher a great researcher

1286

00:48:36,390 --> 00:48:34,319

named stan gordon

1287

00:48:37,349 --> 00:48:36,400

if anyone is interested look him up on

1288

00:48:39,109 --> 00:48:37,359

the net

1289

00:48:40,630 --> 00:48:39,119

and he's done some excellent work on

1290

00:48:42,390 --> 00:48:40,640

that particular

1291

00:48:44,069 --> 00:48:42,400

uh crash which was believed to have

1292

00:48:47,190 --> 00:48:44,079

possibly been a russian

1293

00:48:48,069 --> 00:48:47,200

satellite james oberg believed that but

1294

00:48:51,030 --> 00:48:48,079

now even he

1295

00:48:52,309 --> 00:48:51,040

doesn't uh so that is one of uh leslie

1296

00:48:52,630 --> 00:48:52,319

keane did a little bit of work on that

1297

00:48:55,910 --> 00:48:52,640

one

1298

00:48:57,589 --> 00:48:55,920

to work on that as well and uh in fact

1299

00:48:59,030 --> 00:48:57,599

some really interesting work on that so

1300

00:49:00,829 --> 00:48:59,040

that's a whole other thing

1301

00:49:02,150 --> 00:49:00,839

uh and then of course bent waters

1302

00:49:06,069 --> 00:49:02,160

rendelsham

1303

00:49:09,109 --> 00:49:06,079

rendursham forest 1980 december 1980

1304

00:49:12,230 --> 00:49:09,119

is a another uh

1305

00:49:15,190 --> 00:49:12,240

ufo event that i've been studying uh

1306

00:49:16,630 --> 00:49:15,200

have not talked to anyone about much

1307

00:49:19,670 --> 00:49:16,640

because uh

1308

00:49:20,950 --> 00:49:19,680

it so happens that um well you'll be the

1309

00:49:23,030 --> 00:49:20,960

first to hear it

1310

00:49:24,549 --> 00:49:23,040

yeah john uh john burroughs has been on

1311

00:49:27,109 --> 00:49:24,559

the security guards

1312

00:49:28,390 --> 00:49:27,119

actually he was a security manager for

1313

00:49:30,710 --> 00:49:28,400

bent waters

1314

00:49:33,349 --> 00:49:30,720

lives in my town here in florida oh okay

1315

00:49:35,030 --> 00:49:33,359

got it and uh i'm going to uh well in

1316

00:49:35,750 --> 00:49:35,040

the age of kovid we can't make sight

1317

00:49:37,270 --> 00:49:35,760

visits

1318

00:49:39,670 --> 00:49:37,280

but i would very much like to meet with

1319

00:49:41,270 --> 00:49:39,680

this gentleman uh who knows much and has

1320

00:49:44,630 --> 00:49:41,280

said very little

1321

00:49:46,390 --> 00:49:44,640

uh and so that is uh another uh uh ufo

1322

00:49:49,190 --> 00:49:46,400

event that's of real interest to me so

1323

00:49:50,630 --> 00:49:49,200

yeah kecksberg and rendelsham okay yeah

1324

00:49:52,790 --> 00:49:50,640

these are really interesting

1325

00:49:54,309 --> 00:49:52,800

john uh you should reach out to john you

1326

00:49:55,510 --> 00:49:54,319

should reach out to john as well if

1327

00:49:57,589 --> 00:49:55,520

you're interested

1328

00:49:59,910 --> 00:49:57,599

you know john those are probably two uh

1329

00:50:03,670 --> 00:49:59,920

crashes you're interested in as well

1330

00:50:04,790 --> 00:50:03,680

oh definitely yeah what a rental ship i

1331

00:50:07,510 --> 00:50:04,800

like quite a bit

1332

00:50:08,870 --> 00:50:07,520

uh when i started what i was really

1333

00:50:11,349 --> 00:50:08,880

trying to do is kind of

1334

00:50:12,150 --> 00:50:11,359

go where uh not a lot of people were

1335

00:50:15,270 --> 00:50:12,160

going so

1336

00:50:17,349 --> 00:50:15,280

i avoided a certain big even roswell and

1337

00:50:18,870 --> 00:50:17,359

uh some other big cases just because

1338

00:50:20,549 --> 00:50:18,880

there were plenty of people already on

1339

00:50:21,349 --> 00:50:20,559

it and let me see if i could find

1340

00:50:23,910 --> 00:50:21,359

something that

1341

00:50:25,670 --> 00:50:23,920

wasn't being looked for but yeah just

1342

00:50:26,230 --> 00:50:25,680

from knowing john and having him on the

1343

00:50:28,470 --> 00:50:26,240

show

1344

00:50:29,990 --> 00:50:28,480

uh multiple times if you haven't

1345

00:50:31,109 --> 00:50:30,000

listened to those shows those would be a

1346

00:50:33,829 --> 00:50:31,119

couple shows worth listening

1347

00:50:35,430 --> 00:50:33,839

to well you know you're like me we work

1348

00:50:36,870 --> 00:50:35,440

around the edges and sometimes that's

1349

00:50:40,309 --> 00:50:36,880

how you find the truth

1350

00:50:42,309 --> 00:50:40,319

yep you know but uh hey frank so much uh

1351
00:50:43,990 --> 00:50:42,319
really appreciate all the time and the

1352
00:50:46,710 --> 00:50:44,000
ability to uh

1353
00:50:48,069 --> 00:50:46,720
uh to talk to your listeners and uh and

1354
00:50:49,990 --> 00:50:48,079
let's do this again

1355
00:50:51,589 --> 00:50:50,000
yeah it was great absolutely i mean

1356
00:50:53,190 --> 00:50:51,599
there's a lot of stuff that we didn't

1357
00:50:53,990 --> 00:50:53,200
talk about you know we didn't talk about

1358
00:50:56,950 --> 00:50:54,000
the socorro

1359
00:50:58,710 --> 00:50:56,960
case uh which uh uh always uh keeps up

1360
00:51:01,910 --> 00:50:58,720
keeps coming back uh

1361
00:51:03,349 --> 00:51:01,920
yup yup a fantastic story that you

1362
00:51:04,950 --> 00:51:03,359
followed up on and uh

1363
00:51:06,710 --> 00:51:04,960

i think you found the truth on the case

1364

00:51:09,030 --> 00:51:06,720

a lot of people still disagree with that

1365

00:51:10,870 --> 00:51:09,040

and uh plenty of other things and uh the

1366

00:51:12,549 --> 00:51:10,880

the valet book coming up and uh

1367

00:51:14,630 --> 00:51:12,559

who knows what else might happen there's

1368

00:51:17,430 --> 00:51:14,640

always wild cards in this field so tony

1369

00:51:17,990 --> 00:51:17,440

this was fantastic i think we covered uh

1370

00:51:20,069 --> 00:51:18,000

really

1371

00:51:21,670 --> 00:51:20,079

what anybody would uh would need to know

1372

00:51:23,190 --> 00:51:21,680

about this in enough detail they've got

1373

00:51:25,510 --> 00:51:23,200

a really good idea

1374

00:51:27,510 --> 00:51:25,520

of what's happened up to this point and

1375

00:51:32,230 --> 00:51:27,520

what to look for in the future

1376

00:51:36,069 --> 00:51:34,630

and we will definitely visit again

1377

00:51:37,750 --> 00:51:36,079

thanks a lot tony uh

1378

00:51:39,510 --> 00:51:37,760

you were you were fantastic thank you so

1379

00:51:42,710 --> 00:51:39,520

much and great weekend

1380

00:51:44,829 --> 00:51:42,720

you too uh bye bye everybody and uh you
