

UFO REPORT UPDATE

SMALL NUMBER OF CASES WITH "UNUSUAL

FLIGHT CHARACTERISTICS"

80 SENSOR/VISUAL CASES

11 NEAR MISSES

UFONN
SUNDAY

1
00:00:02,640 --> 00:00:17,029

[Music]

2
00:00:22,070 --> 00:00:19,269
and hello from philadelphia frank here

3
00:00:22,630 --> 00:00:22,080
with yet another episode of ufo news

4
00:00:26,070 --> 00:00:22,640
network

5
00:00:27,029 --> 00:00:26,080
sunday a special uh a special friday

6
00:00:29,429 --> 00:00:27,039
evening effort

7
00:00:31,830 --> 00:00:29,439
uh going into early saturday because the

8
00:00:34,229 --> 00:00:31,840
ufo report dropped today

9
00:00:35,030 --> 00:00:34,239
before i get into all that a couple of

10
00:00:37,910 --> 00:00:35,040
things

11
00:00:38,229 --> 00:00:37,920
are a slow news week for the most part

12
00:00:40,869 --> 00:00:38,239
but

13
00:00:41,510 --> 00:00:40,879

a couple key things did happen uh the

14

00:00:44,549 --> 00:00:41,520

first

15

00:00:48,389 --> 00:00:44,559

was a another ambush interview from

16

00:00:50,069 --> 00:00:48,399

tmz where uh marco rubio commented on

17

00:00:52,790 --> 00:00:50,079

the forthcoming report

18

00:00:54,229 --> 00:00:52,800

and uh let's let's get the to rubio's

19

00:00:55,990 --> 00:00:54,239

comments i'll get through this uh

20

00:00:57,189 --> 00:00:56,000

preliminary stuff pretty quickly and

21

00:00:59,590 --> 00:00:57,199

we'll get to the

22

00:01:01,590 --> 00:00:59,600

uh the meat of the report such as it is

23

00:01:03,910 --> 00:01:01,600

but let's uh let's get to this uh

24

00:01:06,469 --> 00:01:03,920

the comments from marco rubio uh let's

25

00:01:09,030 --> 00:01:06,479

get to that right away let's go

26
00:01:10,870 --> 00:01:09,040
well judging from the report that came

27
00:01:11,670 --> 00:01:10,880
out uh yeah let's uh let's hope that it

28
00:01:14,710 --> 00:01:11,680
does leak

29
00:01:16,630 --> 00:01:14,720
hang on a sec here let me get to the uh

30
00:01:18,070 --> 00:01:16,640
yeah let me get to the right spot there

31
00:01:19,830 --> 00:01:18,080
yeah uh

32
00:01:21,670 --> 00:01:19,840
let's hope that it does leak because uh

33
00:01:23,350 --> 00:01:21,680
frankly uh the report was

34
00:01:25,590 --> 00:01:23,360
more than a little bit of a

35
00:01:27,350 --> 00:01:25,600
disappointment uh the other bit of news

36
00:01:31,109 --> 00:01:27,360
that that came out this week

37
00:01:34,310 --> 00:01:31,119
is the identity of the uh uh

38
00:01:36,149 --> 00:01:34,320

uap task force uh uh director

39

00:01:38,710 --> 00:01:36,159

uh that is someone named brennan

40

00:01:39,429 --> 00:01:38,720

mckernan uh he's a navy intelligence

41

00:01:42,630 --> 00:01:39,439

analyst

42

00:01:45,190 --> 00:01:42,640

so uh the report is his handiwork

43

00:01:46,310 --> 00:01:45,200

uh he was identified by politico as

44

00:01:49,990 --> 00:01:46,320

someone who

45

00:01:53,109 --> 00:01:50,000

uh was the uaptf director and he briefed

46

00:01:53,990 --> 00:01:53,119

uh congress uh not this past week but

47

00:01:56,230 --> 00:01:54,000

the week before

48

00:01:57,190 --> 00:01:56,240

he was one of the fellows involved in uh

49

00:02:00,630 --> 00:01:57,200

briefing

50

00:02:03,749 --> 00:02:00,640

uh the uh the house uh uh committee uh

51
00:02:04,709 --> 00:02:03,759
uh that uh uh on intelligence so uh that

52
00:02:06,870 --> 00:02:04,719
he did that

53
00:02:08,949 --> 00:02:06,880
so uh we know that uh this is his

54
00:02:11,670 --> 00:02:08,959
handiwork he is responsible

55
00:02:12,949 --> 00:02:11,680
uh for the report and now at the report

56
00:02:15,670 --> 00:02:12,959
it did come out

57
00:02:16,869 --> 00:02:15,680
it finally came out about uh you know

58
00:02:19,430 --> 00:02:16,879
what i was expecting

59
00:02:20,309 --> 00:02:19,440
it came out on friday uh right on time

60
00:02:24,229 --> 00:02:20,319
uh it just

61
00:02:25,910 --> 00:02:24,239
worked out pretty well i guess for the

62
00:02:27,750 --> 00:02:25,920
for the folks that put together the

63
00:02:29,030 --> 00:02:27,760

report that the deadline happened to

64

00:02:32,070 --> 00:02:29,040

fall at sort of a

65

00:02:34,229 --> 00:02:32,080

fortuitous time after uh biden got back

66

00:02:37,430 --> 00:02:34,239

from his overseas trips to europe

67

00:02:39,589 --> 00:02:37,440

and before the holiday so uh it's out it

68

00:02:41,430 --> 00:02:39,599

comes out on a friday uh again

69

00:02:43,030 --> 00:02:41,440

pretty fortuitous for them in terms of

70

00:02:46,550 --> 00:02:43,040

the timing and it's out

71

00:02:48,309 --> 00:02:46,560

and it's it is uh frankly it's a it's a

72

00:02:51,309 --> 00:02:48,319

disappointment uh uh what

73

00:02:53,670 --> 00:02:51,319

the senate requested was a public

74

00:02:56,869 --> 00:02:53,680

unclassified report

75

00:02:57,830 --> 00:02:56,879

with a classified annex and basically

76

00:03:01,690 --> 00:02:57,840

what we got

77

00:03:02,869 --> 00:03:01,700

was a class an unclassified public

78

00:03:05,830 --> 00:03:02,879

[Music]

79

00:03:06,470 --> 00:03:05,840

abstract executive summary and uh really

80

00:03:10,070 --> 00:03:06,480

uh the

81

00:03:12,390 --> 00:03:10,080

gonna are

82

00:03:14,309 --> 00:03:12,400

are obviously classified and let's hope

83

00:03:16,070 --> 00:03:14,319

that uh rubio is in fact correct that

84

00:03:18,070 --> 00:03:16,080

the full report does leak

85

00:03:19,670 --> 00:03:18,080

because uh that's really what we need to

86

00:03:22,949 --> 00:03:19,680

see uh certainly a

87

00:03:25,750 --> 00:03:22,959

few uh uh interesting

88

00:03:26,390 --> 00:03:25,760

uh interesting revelations within the

89

00:03:33,350 --> 00:03:26,400

report

90

00:03:35,990 --> 00:03:33,360

by page

91

00:03:38,710 --> 00:03:36,000

and what we've got uh obviously the it's

92

00:03:41,110 --> 00:03:38,720

a preliminary assessment so this is the

93

00:03:42,710 --> 00:03:41,120

uh first uh volley back to the senate

94

00:03:45,110 --> 00:03:42,720

that they asked for this report

95

00:03:46,949 --> 00:03:45,120

uh they've got it and it's from the

96

00:03:47,910 --> 00:03:46,959

office of the director of national

97

00:03:51,030 --> 00:03:47,920

intelligence

98

00:03:53,030 --> 00:03:51,040

preliminary assessment so it's a

99

00:03:54,630 --> 00:03:53,040

fine fine looking cover page there i

100

00:03:57,910 --> 00:03:54,640

must say and

101
00:04:02,869 --> 00:03:57,920
let's uh uh let's keep going and get to

102
00:04:06,070 --> 00:04:02,879
page one on this and uh basically

103
00:04:07,350 --> 00:04:06,080
let's see here okay the preliminary

104
00:04:09,509 --> 00:04:07,360
report is provided

105
00:04:11,110 --> 00:04:09,519
by the office of the director of

106
00:04:13,270 --> 00:04:11,120
national intelligence

107
00:04:15,670 --> 00:04:13,280
uh provides an overview for policy

108
00:04:17,749 --> 00:04:15,680
makers of the challenges associated

109
00:04:19,749 --> 00:04:17,759
with characterizing the potential threat

110
00:04:22,550 --> 00:04:19,759
posed by uap

111
00:04:23,830 --> 00:04:22,560
the director is the accountable official

112
00:04:25,670 --> 00:04:23,840
for ensuring

113
00:04:27,189 --> 00:04:25,680

uh the timely collection and

114

00:04:30,310 --> 00:04:27,199

consolidation of data

115

00:04:30,950 --> 00:04:30,320

on uap so they're taking responsibility

116

00:04:34,230 --> 00:04:30,960

there

117

00:04:37,270 --> 00:04:34,240

and uh the odni uh

118

00:04:38,790 --> 00:04:37,280

uh prepared this report for the

119

00:04:40,150 --> 00:04:38,800

congressional intelligence and armed

120

00:04:43,189 --> 00:04:40,160

services committee

121

00:04:44,629 --> 00:04:43,199

and uh basically uh that uh that's uh

122

00:04:45,749 --> 00:04:44,639

the scope of the report and the

123

00:04:48,230 --> 00:04:45,759

assumptions uh

124

00:04:50,710 --> 00:04:48,240

various forms of sensors that uh

125

00:04:51,990 --> 00:04:50,720

register uap generally operate correctly

126
00:04:54,950 --> 00:04:52,000
and capture enough

127
00:04:55,670 --> 00:04:54,960
real data to allow initial assessments

128
00:04:59,189 --> 00:04:55,680
but some

129
00:05:05,909 --> 00:04:59,199
uap may be attributable to

130
00:05:10,070 --> 00:05:08,629
and let me go over to page 2 here i got

131
00:05:11,990 --> 00:05:10,080
to jump back and forth because this

132
00:05:17,029 --> 00:05:12,000
print is way too small to read

133
00:05:20,870 --> 00:05:18,390
in the software that you're getting to

134
00:05:23,189 --> 00:05:20,880
see uh executive summary

135
00:05:23,990 --> 00:05:23,199
of the limited amount of high quality

136
00:05:26,710 --> 00:05:24,000
reporting

137
00:05:32,870 --> 00:05:26,720
on unidentified aerial phenomena hampers

138
00:05:36,629 --> 00:05:35,110

because the reporting lacked sufficient

139

00:05:38,629 --> 00:05:36,639

specificity

140

00:05:41,670 --> 00:05:38,639

ultimately recognize that a unique

141

00:05:45,110 --> 00:05:41,680

tailored reporting process was required

142

00:05:45,990 --> 00:05:45,120

uh the ua the task force concentrated

143

00:05:49,629 --> 00:05:46,000

its review

144

00:05:50,790 --> 00:05:49,639

on reports that occurred uh from 2004 to

145

00:05:52,550 --> 00:05:50,800

2021.

146

00:05:54,629 --> 00:05:52,560

we had heard roughly 20 years and that's

147

00:05:57,670 --> 00:05:54,639

about 17 years that's close enough

148

00:05:59,749 --> 00:05:57,680

uh in the uh new york times story that

149

00:06:01,670 --> 00:05:59,759

provided a little bit of background

150

00:06:03,029 --> 00:06:01,680

going in the numbers aren't exactly

151

00:06:06,230 --> 00:06:03,039

correct but they're close enough

152

00:06:08,390 --> 00:06:06,240

they went back to 2004. most of the uap

153

00:06:10,629 --> 00:06:08,400

reported probably do represent physical

154

00:06:13,270 --> 00:06:10,639

objects given that a majority of uap

155

00:06:14,309 --> 00:06:13,280

uh registered across multiple sensors

156

00:06:17,110 --> 00:06:14,319

including radar

157

00:06:17,909 --> 00:06:17,120

infrared electro optical weapon seekers

158

00:06:21,430 --> 00:06:17,919

and visual

159

00:06:23,110 --> 00:06:21,440

observation so uh you know

160

00:06:24,710 --> 00:06:23,120

they're they're pointing that out you

161

00:06:27,749 --> 00:06:24,720

know they just seemed to

162

00:06:29,189 --> 00:06:27,759

uh earlier on uh saying that

163

00:06:31,670 --> 00:06:29,199

there's an assumption that maybe this

164

00:06:35,590 --> 00:06:31,680

stuff isn't entirely working correctly

165

00:06:38,870 --> 00:06:35,600

on all these cases but then they do

166

00:06:41,270 --> 00:06:38,880

say hey multiple sensors so

167

00:06:42,870 --> 00:06:41,280

hey those multiple sensors represent the

168

00:06:45,749 --> 00:06:42,880

collection of physical evidence let's

169

00:06:48,230 --> 00:06:45,759

keep that in mind it's physical evidence

170

00:06:49,909 --> 00:06:48,240

uh in a limited number of incidents uaps

171

00:06:52,870 --> 00:06:49,919

reportedly appeared to exhibit

172

00:06:54,390 --> 00:06:52,880

unusual flight characteristics uh what

173

00:06:56,790 --> 00:06:54,400

does that mean exactly

174

00:06:58,070 --> 00:06:56,800

you know unusual is that uh supersonic

175

00:07:00,629 --> 00:06:58,080

speeds is that uh

176
00:07:02,710 --> 00:07:00,639
instantaneous acceleration is that right

177
00:07:05,270 --> 00:07:02,720
angle turns at high speeds

178
00:07:07,189 --> 00:07:05,280
uh you know uh climbs that are

179
00:07:07,909 --> 00:07:07,199
impossible for normal aircraft uh that

180
00:07:10,309 --> 00:07:07,919
kind of thing

181
00:07:11,830 --> 00:07:10,319
uh you know anything uh well let's put

182
00:07:14,710 --> 00:07:11,840
it this way uh

183
00:07:16,550 --> 00:07:14,720
to climb at a 45 degree angle that's a

184
00:07:18,790 --> 00:07:16,560
that's an advanced uh

185
00:07:20,230 --> 00:07:18,800
advanced aircraft for sure and then

186
00:07:23,110 --> 00:07:20,240
anything higher than that

187
00:07:25,589 --> 00:07:23,120
basically uh you know it really raises

188
00:07:29,189 --> 00:07:25,599

some eyebrows

189

00:07:29,430 --> 00:07:29,199

uh so but again uh the forward facing

190

00:07:32,629 --> 00:07:29,440

the

191

00:07:35,189 --> 00:07:32,639

doesn't uh

192

00:07:36,390 --> 00:07:35,199

discuss uh anything as far as the uh

193

00:07:38,710 --> 00:07:36,400

specificity

194

00:07:40,469 --> 00:07:38,720

of the these flight characteristics so

195

00:07:42,150 --> 00:07:40,479

again that's something that

196

00:07:43,990 --> 00:07:42,160

you know you would think should be in a

197

00:07:44,790 --> 00:07:44,000

public report that no reason not to

198

00:07:46,469 --> 00:07:44,800

include it

199

00:07:48,150 --> 00:07:46,479

but it's not included so these

200

00:07:49,830 --> 00:07:48,160

observations could be the result of

201

00:07:53,430 --> 00:07:49,840

sensor errors spoofing

202

00:07:56,309 --> 00:07:53,440

uh observer misperceptions and require

203

00:07:58,869 --> 00:07:56,319

additional rigorous analysis so the

204

00:08:00,629 --> 00:07:58,879

unusual flight characteristics uh

205

00:08:02,070 --> 00:08:00,639

that that seems to be where the

206

00:08:05,430 --> 00:08:02,080

potentially uh uh

207

00:08:08,309 --> 00:08:05,440

you uh et ufos uh are going that's uh

208

00:08:10,309 --> 00:08:08,319

that's the bag that they're gonna be in

209

00:08:12,710 --> 00:08:10,319

but uh again uh they're not uh

210

00:08:14,150 --> 00:08:12,720

you know just not a lot of specifics

211

00:08:16,230 --> 00:08:14,160

there there are probably

212

00:08:17,909 --> 00:08:16,240

multiple types of uaps requiring

213

00:08:19,909 --> 00:08:17,919

different explanations based on the

214

00:08:22,309 --> 00:08:19,919

range of appearances and behaviors

215

00:08:24,070 --> 00:08:22,319

described in the available reporting uh

216

00:08:24,869 --> 00:08:24,080

you know obviously and not all of these

217

00:08:27,430 --> 00:08:24,879

are going to have

218

00:08:28,230 --> 00:08:27,440

otherworldly flight characteristics uh

219

00:08:31,430 --> 00:08:28,240

some of them

220

00:08:34,389 --> 00:08:31,440

are are you know they are likely

221

00:08:35,430 --> 00:08:34,399

foreign reconnaissance advanced drones

222

00:08:37,750 --> 00:08:35,440

and even advanced

223

00:08:39,750 --> 00:08:37,760

balloons that type of thing to gather

224

00:08:42,790 --> 00:08:39,760

data for our adversaries like

225

00:08:45,590 --> 00:08:42,800

russia perhaps like china but

226

00:08:46,949 --> 00:08:45,600

our analysis of the data supports the

227

00:08:49,590 --> 00:08:46,959

construct that if and when

228

00:08:50,389 --> 00:08:49,600

individual uap incidents are resolved

229

00:08:52,710 --> 00:08:50,399

they will fall

230

00:08:53,750 --> 00:08:52,720

into one of five potential explanatory

231

00:08:57,430 --> 00:08:53,760

categories

232

00:08:58,870 --> 00:08:57,440

airborne clutter not i'm not really sure

233

00:09:00,470 --> 00:08:58,880

airborne clutter i'm not really sure

234

00:09:03,350 --> 00:09:00,480

what they're talking about there

235

00:09:05,509 --> 00:09:03,360

uh natural atmospheric phenomenon uh you

236

00:09:08,470 --> 00:09:05,519

know when you've got a

237

00:09:09,269 --> 00:09:08,480

sensor and visual target i'm not sure

238

00:09:11,750 --> 00:09:09,279

how

239

00:09:13,670 --> 00:09:11,760

many of those will be explained by

240

00:09:15,750 --> 00:09:13,680

natural atmospheric phenomena

241

00:09:17,829 --> 00:09:15,760

you know maybe one maybe the other but

242

00:09:20,870 --> 00:09:17,839

both i'm not so sure about that

243

00:09:23,990 --> 00:09:20,880

uh usg or us industry

244

00:09:27,190 --> 00:09:24,000

uh industry developmental programs

245

00:09:29,509 --> 00:09:27,200

we've been hearing that the the

246

00:09:30,870 --> 00:09:29,519

report is going to rule out any of our

247

00:09:32,870 --> 00:09:30,880

own potential gear

248

00:09:34,389 --> 00:09:32,880

that is apparently not the case that

249

00:09:36,230 --> 00:09:34,399

hasn't been done here

250

00:09:37,590 --> 00:09:36,240

foreign adversary systems of course

251

00:09:40,630 --> 00:09:37,600

that's a possibility

252

00:09:41,990 --> 00:09:40,640

and uh then the uh the other bin uh so

253

00:09:44,630 --> 00:09:42,000

they're they're calling these bins and

254

00:09:45,030 --> 00:09:44,640

not bags okay so uh a little discrepancy

255

00:09:47,030 --> 00:09:45,040

there

256

00:09:48,150 --> 00:09:47,040

others uh they are others so and that's

257

00:09:51,750 --> 00:09:48,160

uh that's where our

258

00:09:54,790 --> 00:09:51,760

et uh uh uh is uh likely to be found

259

00:09:56,310 --> 00:09:54,800

uh the uap uh clearly cl uh pose a uh

260

00:09:58,070 --> 00:09:56,320

flight safety issue

261

00:09:59,910 --> 00:09:58,080

and uh yeah that that sort of goes

262

00:10:02,389 --> 00:09:59,920

without saying it's understood

263

00:10:04,069 --> 00:10:02,399

uh they're uh in terms of flight safety

264

00:10:06,150 --> 00:10:04,079

uh uh civilian or military

265

00:10:08,790 --> 00:10:06,160

their fanatics about it and of course

266

00:10:10,949 --> 00:10:08,800

what also falls into the category of

267

00:10:11,990 --> 00:10:10,959

potential flight safety issues things

268

00:10:13,750 --> 00:10:12,000

like birds

269

00:10:15,110 --> 00:10:13,760

things like weather that type of thing

270

00:10:18,069 --> 00:10:15,120

so this is

271

00:10:19,750 --> 00:10:18,079

not something that too many pilots and

272

00:10:22,630 --> 00:10:19,760

certainly no american citizens

273

00:10:23,190 --> 00:10:22,640

should be uh losing any sleepover but uh

274

00:10:26,389 --> 00:10:23,200

it uh

275

00:10:28,630 --> 00:10:26,399

it it's in there so uh it is brought up

276
00:10:29,990 --> 00:10:28,640
the safety concerns primarily center on

277
00:10:32,870 --> 00:10:30,000
aviators contending

278
00:10:33,670 --> 00:10:32,880
with an increasingly uh cluttered air

279
00:10:36,150 --> 00:10:33,680
domain

280
00:10:37,350 --> 00:10:36,160
a uap would also represent a national

281
00:10:40,389 --> 00:10:37,360
security challenge

282
00:10:42,630 --> 00:10:40,399
if they're foreign adversaries uh okay a

283
00:10:44,310 --> 00:10:42,640
consistent consolidation of reports

284
00:10:46,710 --> 00:10:44,320
from across the federal government

285
00:10:48,550 --> 00:10:46,720
standardizing reports blah blah blah

286
00:10:50,550 --> 00:10:48,560
uh the the they're talking about the

287
00:10:52,310 --> 00:10:50,560
importance of that well you know i mean

288
00:10:53,590 --> 00:10:52,320

honestly they've had 40 years to get

289

00:10:55,509 --> 00:10:53,600

this sort of thing done

290

00:10:57,110 --> 00:10:55,519

and this is where we are with that right

291

00:10:59,269 --> 00:10:57,120

now so uh

292

00:11:00,150 --> 00:10:59,279

some statements of the obvious uh some

293

00:11:03,110 --> 00:11:00,160

interesting uh

294

00:11:04,230 --> 00:11:03,120

allusions to uh uh unusual flight

295

00:11:06,630 --> 00:11:04,240

characteristics

296

00:11:09,750 --> 00:11:06,640

not a whole lot more than that uh at

297

00:11:12,550 --> 00:11:09,760

least up to page two

298

00:11:13,350 --> 00:11:12,560

on page three we start to get into some

299

00:11:16,230 --> 00:11:13,360

numbers here

300

00:11:17,509 --> 00:11:16,240

available reporting largely inconclusive

301

00:11:21,030 --> 00:11:17,519

limited data

302

00:11:22,949 --> 00:11:21,040

leaves most uap unexplained so

303

00:11:25,030 --> 00:11:22,959

limited data and inconsistency in

304

00:11:26,870 --> 00:11:25,040

reporting are key challenges

305

00:11:28,150 --> 00:11:26,880

uh well i can understand that there's

306

00:11:31,430 --> 00:11:28,160

some inconsistency

307

00:11:31,910 --> 00:11:31,440

in the reporting and uh limited data

308

00:11:34,790 --> 00:11:31,920

well

309

00:11:36,310 --> 00:11:34,800

you know honestly uh the uh the uh i'm

310

00:11:39,110 --> 00:11:36,320

not uh so sure that uh

311

00:11:40,069 --> 00:11:39,120

there there's al all that uh a larger

312

00:11:43,269 --> 00:11:40,079

number of uh

313

00:11:44,230 --> 00:11:43,279

et ufos that the number is probably not

314

00:11:46,630 --> 00:11:44,240

all that small

315

00:11:48,630 --> 00:11:46,640

or not all that large but uh what you do

316

00:11:50,710 --> 00:11:48,640

is you have a larger pile when you go

317

00:11:51,269 --> 00:11:50,720

back over time it that builds up over

318

00:11:54,629 --> 00:11:51,279

time

319

00:11:57,350 --> 00:11:54,639

uh how many how many of these cases are

320

00:11:58,790 --> 00:11:57,360

really uh e.t ufos uh you know who knows

321

00:12:01,269 --> 00:11:58,800

uh one a month uh

322

00:12:02,150 --> 00:12:01,279

maybe two a month uh can't say for sure

323

00:12:04,310 --> 00:12:02,160

we don't know

324

00:12:05,829 --> 00:12:04,320

uh because uh what the limited data they

325

00:12:07,829 --> 00:12:05,839

have they're not sharing so

326

00:12:10,150 --> 00:12:07,839

there's no way for us to uh determine

327

00:12:12,710 --> 00:12:10,160

that uh you know all i can say is uh

328

00:12:13,430 --> 00:12:12,720

yeah it's got to be uh uh somewhere

329

00:12:16,230 --> 00:12:13,440

between

330

00:12:17,750 --> 00:12:16,240

uh on the uh the bottom end enough for

331

00:12:20,150 --> 00:12:17,760

them to start paying attention

332

00:12:21,269 --> 00:12:20,160

and on the top end it can't not enough

333

00:12:23,590 --> 00:12:21,279

for them to have

334

00:12:24,310 --> 00:12:23,600

uh really made a uh a high priority of

335

00:12:26,710 --> 00:12:24,320

this

336

00:12:29,509 --> 00:12:26,720

uh going out from way back when so uh

337

00:12:31,430 --> 00:12:29,519

the air force uh subsequent let's see uh

338

00:12:33,269 --> 00:12:31,440

maybe let's see uh no uh standardized

339

00:12:36,470 --> 00:12:33,279
reporting mechanism existed

340

00:12:39,910 --> 00:12:36,480
until the navy established one in march

341

00:12:42,230 --> 00:12:39,920
2019 and that that is technically true

342

00:12:44,550 --> 00:12:42,240
uh a lot of times uh what you would have

343

00:12:48,069 --> 00:12:44,560
with the uh unusual cases uh

344

00:12:50,310 --> 00:12:48,079
uh the bad people would just uh uh

345

00:12:52,310 --> 00:12:50,320
file op rep three reports so we've

346

00:12:55,590 --> 00:12:52,320
talked about that at some length uh

347

00:12:57,190 --> 00:12:55,600
uh kevin day uh from the nimitz case

348

00:13:00,069 --> 00:12:57,200
said he was at least considering

349

00:13:01,030 --> 00:13:00,079
uh filing an op rep 3 report never did

350

00:13:04,069 --> 00:13:01,040
uh

351

00:13:05,110 --> 00:13:04,079

some sometimes these opera iii reports

352

00:13:07,350 --> 00:13:05,120

have been foiled out

353

00:13:08,710 --> 00:13:07,360

uh paul dean is uh uh known for doing

354

00:13:11,269 --> 00:13:08,720

that kind of thing

355

00:13:13,750 --> 00:13:11,279

and uh he's found he's developed some

356

00:13:15,910 --> 00:13:13,760

interesting cases as a result of uh

357

00:13:18,389 --> 00:13:15,920

looking at op rep three reports but

358

00:13:21,269 --> 00:13:18,399

again not standardized so uh that

359

00:13:23,509 --> 00:13:21,279

that is uh uh correct although you know

360

00:13:25,670 --> 00:13:23,519

the reports do still get filed

361

00:13:27,670 --> 00:13:25,680

uh the air force subsequently adopted

362

00:13:30,470 --> 00:13:27,680

the uh a mechanism in

363

00:13:30,949 --> 00:13:30,480

november 2020 but it remains limited to

364

00:13:33,430 --> 00:13:30,959

uh

365

00:13:34,310 --> 00:13:33,440

us government reporting i'm not sure

366

00:13:37,430 --> 00:13:34,320

exactly

367

00:13:39,350 --> 00:13:37,440

what that means uh

368

00:13:40,790 --> 00:13:39,360

okay so they i'm not sure what that

369

00:13:42,949 --> 00:13:40,800

means actually it's a little bit the

370

00:13:45,910 --> 00:13:42,959

language is a little vague there

371

00:13:47,670 --> 00:13:45,920

and uh the the task force regularly

372

00:13:49,269 --> 00:13:47,680

heard anecdotally

373

00:13:50,870 --> 00:13:49,279

during its research about other

374

00:13:53,430 --> 00:13:50,880

observations that occurred

375

00:13:55,670 --> 00:13:53,440

but which were never captured in formal

376

00:13:56,389 --> 00:13:55,680

or informal uh reporting by those

377

00:13:58,710 --> 00:13:56,399

observers

378

00:14:00,069 --> 00:13:58,720

so yeah i'm sure that's the case as well

379

00:14:02,069 --> 00:14:00,079

that people just

380

00:14:04,230 --> 00:14:02,079

just didn't file a report there they saw

381

00:14:06,949 --> 00:14:04,240

something they uh

382

00:14:08,150 --> 00:14:06,959

captured something on some remote

383

00:14:10,470 --> 00:14:08,160

sensing gear that

384

00:14:11,590 --> 00:14:10,480

they were monitoring and they just never

385

00:14:13,110 --> 00:14:11,600

filed a report

386

00:14:15,430 --> 00:14:13,120

after carefully considering this

387

00:14:17,829 --> 00:14:15,440

information the task force focused

388

00:14:20,470 --> 00:14:17,839

on reports that involved uap largely

389

00:14:22,550 --> 00:14:20,480

witnessed firsthand by military aviators

390

00:14:24,230 --> 00:14:22,560

and that were collected from systems we

391

00:14:26,310 --> 00:14:24,240

considered to be reliable

392

00:14:28,710 --> 00:14:26,320

these reports describe incidents that

393

00:14:30,710 --> 00:14:28,720

occurred between 04 and 21

394

00:14:32,150 --> 00:14:30,720

would the majority coming in the last

395

00:14:34,069 --> 00:14:32,160

two years

396

00:14:36,870 --> 00:14:34,079

as the new reporting mechanism became

397

00:14:39,990 --> 00:14:36,880

better known to the aviation community

398

00:14:42,230 --> 00:14:40,000

we're able to identify one report

399

00:14:43,269 --> 00:14:42,240

reported uap with high confidence in

400

00:14:45,350 --> 00:14:43,279

that case

401
00:14:46,470 --> 00:14:45,360
we identified the object as a large

402
00:14:50,150 --> 00:14:46,480
deflating

403
00:14:52,790 --> 00:14:50,160
unexplained

404
00:14:55,110 --> 00:14:52,800
so we've got 144 cases and most of them

405
00:14:58,550 --> 00:14:55,120
within the last two years

406
00:14:59,269 --> 00:14:58,560
144 of them originated with government

407
00:15:01,990 --> 00:14:59,279
sources

408
00:15:03,590 --> 00:15:02,000
of these 80 reports involved observation

409
00:15:06,310 --> 00:15:03,600
with multiple sensors

410
00:15:07,350 --> 00:15:06,320
most reports described uap as objects

411
00:15:10,470 --> 00:15:07,360
that interrupted

412
00:15:11,590 --> 00:15:10,480
pre-planned training or other military

413
00:15:14,670 --> 00:15:11,600

activity

414

00:15:16,629 --> 00:15:14,680

and then the collection challenged uh

415

00:15:19,590 --> 00:15:16,639

socio-cultural stigmas and

416

00:15:22,870 --> 00:15:19,600

uh sensor limitations remained obstacles

417

00:15:24,470 --> 00:15:22,880

and collecting data on uap

418

00:15:25,990 --> 00:15:24,480

well i can understand the first i'm not

419

00:15:27,990 --> 00:15:26,000

sure what the the sensor

420

00:15:29,749 --> 00:15:28,000

limitations i mean hey if you capture it

421

00:15:31,670 --> 00:15:29,759

you capture it if you don't you don't

422

00:15:32,870 --> 00:15:31,680

then you've got the sensor information

423

00:15:34,949 --> 00:15:32,880

so you know

424

00:15:36,310 --> 00:15:34,959

what uh what uh what are they asking for

425

00:15:39,670 --> 00:15:36,320

here uh you know

426
00:15:39,990 --> 00:15:39,680
sensors that can do a lot more than the

427
00:15:41,990 --> 00:15:40,000
current

428
00:15:43,670 --> 00:15:42,000
centers that they've already spent a ton

429
00:15:46,150 --> 00:15:43,680
of money on although some

430
00:15:48,230 --> 00:15:46,160
technical challenges such as how to

431
00:15:48,870 --> 00:15:48,240
appropriately filter out radar clutter

432
00:15:51,030 --> 00:15:48,880
to

433
00:15:52,389 --> 00:15:51,040
ensure a safety of flight for military

434
00:15:55,030 --> 00:15:52,399
and civilian traffic

435
00:15:56,870 --> 00:15:55,040
uh civilian aircraft are long-standing

436
00:15:59,829 --> 00:15:56,880
as the aviation community

437
00:16:00,790 --> 00:15:59,839
while others are unique to uh uap

438
00:16:02,710 --> 00:16:00,800

problem set

439

00:16:04,069 --> 00:16:02,720

uh narratives from aviators in the

440

00:16:06,870 --> 00:16:04,079

operational community

441

00:16:07,590 --> 00:16:06,880

uh describe a disparagement uh okay

442

00:16:09,829 --> 00:16:07,600

sensors

443

00:16:12,230 --> 00:16:09,839

mounted on military platforms are

444

00:16:12,949 --> 00:16:12,240

typically designed to fulfill specific

445

00:16:14,629 --> 00:16:12,959

missions

446

00:16:17,430 --> 00:16:14,639

as a result those sensors are not

447

00:16:21,110 --> 00:16:17,440

generally suited for identifying uap

448

00:16:22,949 --> 00:16:21,120

well i think the key is really that

449

00:16:24,389 --> 00:16:22,959

you're identifying that something is

450

00:16:26,389 --> 00:16:24,399

there uh that

451
00:16:28,629 --> 00:16:26,399
that's an intelligently controlled

452
00:16:32,230 --> 00:16:28,639
vehicle and that it's flying and

453
00:16:35,030 --> 00:16:32,240
you know it'd be nice to uh be able to

454
00:16:35,990 --> 00:16:35,040
identify the uh the et spaceship is

455
00:16:38,870 --> 00:16:36,000
coming from

456
00:16:40,470 --> 00:16:38,880
alpha centauri or the the sagittarius

457
00:16:42,710 --> 00:16:40,480
system or something like that

458
00:16:43,509 --> 00:16:42,720
but uh you know the fact that you're

459
00:16:45,670 --> 00:16:43,519
getting it

460
00:16:46,710 --> 00:16:45,680
on sensor data and maybe also at the

461
00:16:48,470 --> 00:16:46,720
same time

462
00:16:49,990 --> 00:16:48,480
having somebody see something that in

463
00:16:52,230 --> 00:16:50,000

and of itself is significant

464

00:16:54,470 --> 00:16:52,240

okay and yeah you might not be able to

465

00:16:56,949 --> 00:16:54,480

specifically identify those but

466

00:16:59,030 --> 00:16:56,959

it's certainly worth cataloging them uh

467

00:17:00,949 --> 00:16:59,040

and then set your vantage points and the

468

00:17:01,670 --> 00:17:00,959

number of sensors concurrently observing

469

00:17:04,710 --> 00:17:01,680

an object

470

00:17:06,870 --> 00:17:04,720

play substantial roles as a in

471

00:17:08,230 --> 00:17:06,880

distinguishing uap from known objects

472

00:17:10,230 --> 00:17:08,240

and determining whether a

473

00:17:11,350 --> 00:17:10,240

uap demonstrates breakthrough

474

00:17:13,110 --> 00:17:11,360

capabilities

475

00:17:14,870 --> 00:17:13,120

optical sensors have the benefit of

476
00:17:15,590 --> 00:17:14,880
providing some insight into relative

477
00:17:17,909 --> 00:17:15,600
size

478
00:17:19,510 --> 00:17:17,919
shape and structure and also flight

479
00:17:21,270 --> 00:17:19,520
characteristics if you can figure out

480
00:17:21,750 --> 00:17:21,280
the size the shape and the structure or

481
00:17:23,829 --> 00:17:21,760
something

482
00:17:24,789 --> 00:17:23,839
uh you can figure out how fast it's

483
00:17:27,510 --> 00:17:24,799
going and uh

484
00:17:28,950 --> 00:17:27,520
uh you know what its rate of climb is

485
00:17:31,750 --> 00:17:28,960
and things like that uh

486
00:17:32,710 --> 00:17:31,760
okay and uh uh radio frequency sensors

487
00:17:35,029 --> 00:17:32,720
uh provide

488
00:17:35,830 --> 00:17:35,039

more accuracy of the more accurate

489

00:17:38,870 --> 00:17:35,840

velocity

490

00:17:40,230 --> 00:17:38,880

and range information so okay so there's

491

00:17:53,190 --> 00:17:40,240

that

492

00:17:57,430 --> 00:17:55,110

some potential patterns do emerge

493

00:17:59,110 --> 00:17:57,440

although there was a wide variability in

494

00:18:01,590 --> 00:17:59,120

the reports in the data set

495

00:18:02,789 --> 00:18:01,600

is currently too limited to allow for

496

00:18:05,510 --> 00:18:02,799

detailed trends or

497

00:18:06,950 --> 00:18:05,520

pattern analysis there was some

498

00:18:09,990 --> 00:18:06,960

clustering of uap

499

00:18:11,590 --> 00:18:10,000

observations regarding shape size and

500

00:18:13,909 --> 00:18:11,600

that particularly propulsion

501
00:18:14,630 --> 00:18:13,919
uap sightings also tended to cluster

502
00:18:16,789 --> 00:18:14,640
around us

503
00:18:17,990 --> 00:18:16,799
training and testing grounds but we

504
00:18:20,870 --> 00:18:18,000
assess that

505
00:18:22,870 --> 00:18:20,880
this may result from a collection bias

506
00:18:23,909 --> 00:18:22,880
as a result of focused attention greater

507
00:18:26,150 --> 00:18:23,919
number of

508
00:18:27,190 --> 00:18:26,160
uh latest generation sensors operating

509
00:18:30,870 --> 00:18:27,200
in these areas

510
00:18:32,230 --> 00:18:30,880
and uh so on and so forth uh basically

511
00:18:34,630 --> 00:18:32,240
uh they're saying there's a collection

512
00:18:36,950 --> 00:18:34,640
bias uh because uh you know that's where

513
00:18:40,150 --> 00:18:36,960

we have our sensors well yeah obviously

514

00:18:42,310 --> 00:18:40,160

so uh yeah uh i don't know what to say

515

00:18:45,590 --> 00:18:42,320

about that that's sort of uh

516

00:18:47,190 --> 00:18:45,600

you know uh yeah yeah you're going to

517

00:18:48,870 --> 00:18:47,200

collect sensor data where you have

518

00:18:49,430 --> 00:18:48,880

sensors okay that seems to be what it's

519

00:18:51,909 --> 00:18:49,440

saying and

520

00:18:52,870 --> 00:18:51,919

there may be a bias in that if you want

521

00:18:55,430 --> 00:18:52,880

to study

522

00:18:56,150 --> 00:18:55,440

uh ufos where you don't have sensors

523

00:18:58,470 --> 00:18:56,160

okay

524

00:18:59,909 --> 00:18:58,480

uh that that doesn't make a whole lot of

525

00:19:02,789 --> 00:18:59,919

sense to me if it does to you

526

00:19:05,110 --> 00:19:02,799

let me know uh in 18 incidents uh uh

527

00:19:05,590 --> 00:19:05,120

described in 11 reports observers

528

00:19:07,909 --> 00:19:05,600

reported

529

00:19:09,190 --> 00:19:07,919

unusual uap pattern movements or

530

00:19:10,310 --> 00:19:09,200

movement patterns or flight

531

00:19:12,870 --> 00:19:10,320

characteristics

532

00:19:13,990 --> 00:19:12,880

some uap appeared to remain stationary

533

00:19:16,710 --> 00:19:14,000

and winds aloft

534

00:19:17,430 --> 00:19:16,720

move against the wind maneuver abruptly

535

00:19:20,070 --> 00:19:17,440

or

536

00:19:21,990 --> 00:19:20,080

move at considerable speed without the

537

00:19:23,990 --> 00:19:22,000

discernible means of propulsion

538

00:19:25,909 --> 00:19:24,000

in a small number of cases military

539

00:19:27,270 --> 00:19:25,919

aircraft systems processed radio

540

00:19:30,390 --> 00:19:27,280

frequency energy

541

00:19:34,150 --> 00:19:30,400

uh associated with uap sightings

542

00:19:35,029 --> 00:19:34,160

uh ua uh task force holds a small amount

543

00:19:38,230 --> 00:19:35,039

of data

544

00:19:40,710 --> 00:19:38,240

that appear to show uap demonstrating

545

00:19:41,669 --> 00:19:40,720

acceleration or a degree of signature

546

00:19:44,710 --> 00:19:41,679

management

547

00:19:45,990 --> 00:19:44,720

uh by that i would assume and again it

548

00:19:47,909 --> 00:19:46,000

doesn't say i mean

549

00:19:49,110 --> 00:19:47,919

it's a public-facing report about some

550

00:19:50,710 --> 00:19:49,120

basic stuff here

551
00:19:52,710 --> 00:19:50,720
and it should say it i shouldn't have to

552
00:19:55,190 --> 00:19:52,720
guess what this stuff means

553
00:19:56,789 --> 00:19:55,200
demonstrating acceleration or a degree

554
00:19:59,510 --> 00:19:56,799
of signature management

555
00:20:01,029 --> 00:19:59,520
does that mean that it accelerates and

556
00:20:02,549 --> 00:20:01,039
breaks the sound barrier but doesn't

557
00:20:04,549 --> 00:20:02,559
leave a sonic boom

558
00:20:06,149 --> 00:20:04,559
that sounds like that's what that means

559
00:20:09,149 --> 00:20:06,159
but it doesn't say it i mean

560
00:20:10,390 --> 00:20:09,159
you know a lot of this is a very

561
00:20:13,830 --> 00:20:10,400
dissatisfactory

562
00:20:15,830 --> 00:20:13,840
uh additional you know you know this

563
00:20:17,510 --> 00:20:15,840

this is supposedly a report it should

564

00:20:18,710 --> 00:20:17,520

clear this stuff up not raise more

565

00:20:20,710 --> 00:20:18,720

questions like what

566

00:20:22,470 --> 00:20:20,720

what are you even talking about here

567

00:20:23,190 --> 00:20:22,480

additional rigorous analysis was

568

00:20:25,190 --> 00:20:23,200

necessary

569

00:20:26,789 --> 00:20:25,200

uh by multiple teams or groups of

570

00:20:28,870 --> 00:20:26,799

technical experts to determine the

571

00:20:30,630 --> 00:20:28,880

nature and validity of these data

572

00:20:32,950 --> 00:20:30,640

we are conducting further analysis

573

00:20:34,710 --> 00:20:32,960

determine to determine if breakthrough

574

00:20:36,230 --> 00:20:34,720

technologies were demonstrated

575

00:20:37,990 --> 00:20:36,240

so yeah that's what i think they're

576

00:20:39,430 --> 00:20:38,000

talking about there and

577

00:20:41,110 --> 00:20:39,440

they can't figure out how something

578

00:20:43,510 --> 00:20:41,120

could be hovering and then

579

00:20:44,470 --> 00:20:43,520

excuse me a hitting you know maybe mach

580

00:20:46,390 --> 00:20:44,480

2 uh

581

00:20:48,070 --> 00:20:46,400

in a very short order and not leaving

582

00:20:50,310 --> 00:20:48,080

sonic booms behind so

583

00:20:52,310 --> 00:20:50,320

apparently there are cases like that but

584

00:20:53,590 --> 00:20:52,320

again it's not clear it seems pretty

585

00:20:55,430 --> 00:20:53,600

simple and straightforward

586

00:20:56,870 --> 00:20:55,440

that you should be able to say it but

587

00:21:00,230 --> 00:20:56,880

they're not saying it

588

00:21:01,510 --> 00:21:00,240

uh uap documented in this limited data

589

00:21:04,470 --> 00:21:01,520

set demonstrated an

590

00:21:06,390 --> 00:21:04,480

array of aerial behaviors reinforcing

591

00:21:07,350 --> 00:21:06,400

the possibility there are multiple types

592

00:21:09,510 --> 00:21:07,360

of uap

593

00:21:10,630 --> 00:21:09,520

uh requiring different explanations but

594

00:21:12,549 --> 00:21:10,640

sure you know

595

00:21:14,230 --> 00:21:12,559

some of them are the recon types i'm

596

00:21:17,430 --> 00:21:14,240

sure that the uh the

597

00:21:20,390 --> 00:21:17,440

the earth made uh reconnaissance drones

598

00:21:22,549 --> 00:21:20,400

and balloons and some of them are e.t

599

00:21:23,830 --> 00:21:22,559

so our analysis of the data supports the

600

00:21:26,230 --> 00:21:23,840

construct that if and when

601
00:21:28,549 --> 00:21:26,240
individual uap incidents are resolved

602
00:21:30,310 --> 00:21:28,559
they will fall into one of five

603
00:21:31,830 --> 00:21:30,320
categories and uh we already uh we

604
00:21:35,350 --> 00:21:31,840
already went through all that

605
00:21:37,750 --> 00:21:35,360
and uh this goes into more detail

606
00:21:39,190 --> 00:21:37,760
about them so this is just basically a

607
00:21:42,070 --> 00:21:39,200
reiteration of uh

608
00:21:45,350 --> 00:21:42,080
uh what was uh already outlined earlier

609
00:21:47,669 --> 00:21:45,360
so again

610
00:21:53,750 --> 00:21:47,679
they're repeating themselves which is

611
00:21:57,270 --> 00:21:56,149
and let's go to this page the other of

612
00:21:59,190 --> 00:21:57,280
course uh

613
00:22:00,630 --> 00:21:59,200

although most of the upp described in

614

00:22:02,789 --> 00:22:00,640

our data set probably remain

615

00:22:04,630 --> 00:22:02,799

unidentified due to limited data or

616

00:22:06,870 --> 00:22:04,640

challenges and collecting data

617

00:22:08,070 --> 00:22:06,880

we may require additional scientific

618

00:22:10,549 --> 00:22:08,080

knowledge to select

619

00:22:12,470 --> 00:22:10,559

uh to successfully collect on analyze

620

00:22:14,230 --> 00:22:12,480

and characterize some of them

621

00:22:15,750 --> 00:22:14,240

we would group such objects in this

622

00:22:18,230 --> 00:22:15,760

category pending

623

00:22:20,310 --> 00:22:18,240

uh scientific advances that allowed us

624

00:22:22,789 --> 00:22:20,320

to better understand them

625

00:22:24,230 --> 00:22:22,799

the task force intends to focus

626

00:22:26,630 --> 00:22:24,240

additional analysis

627

00:22:27,590 --> 00:22:26,640

on the small number of cases when a uap

628

00:22:29,590 --> 00:22:27,600

dis uh

629

00:22:31,990 --> 00:22:29,600

appeared to display unusual flight

630

00:22:33,750 --> 00:22:32,000

characteristics or signature management

631

00:22:35,190 --> 00:22:33,760

so uh that uh that's what we're talking

632

00:22:37,669 --> 00:22:35,200

about here the you know the

633

00:22:39,110 --> 00:22:37,679

the high speeds uh the 90 degree turns

634

00:22:41,669 --> 00:22:39,120

at high speeds

635

00:22:43,029 --> 00:22:41,679

yeah the quick acceleration that type of

636

00:22:45,750 --> 00:22:43,039

thing i think those are

637

00:22:47,029 --> 00:22:45,760

those are the et ufos that that we're

638

00:22:49,990 --> 00:22:47,039

really interested in

639

00:22:51,909 --> 00:22:50,000

okay uh uap threatened flight safety and

640

00:22:54,789 --> 00:22:51,919

possibly national security

641

00:22:55,270 --> 00:22:54,799

yeah i certainly don't argue about that

642

00:22:59,510 --> 00:22:55,280

uh

643

00:23:01,830 --> 00:22:59,520

yeah they might

644

00:23:03,029 --> 00:23:01,840

uh it might be a national security risk

645

00:23:05,350 --> 00:23:03,039

but the et's

646

00:23:06,149 --> 00:23:05,360

you know the that's uh they're not they

647

00:23:08,149 --> 00:23:06,159

don't they don't

648

00:23:11,190 --> 00:23:08,159

they're they're not a threat to us uh

649

00:23:14,950 --> 00:23:11,200

ongoing uh airspace concerns uap

650

00:23:17,270 --> 00:23:14,960

uh tf has 11 reports of uh documented

651
00:23:18,630 --> 00:23:17,280
instances in which pilots reported near

652
00:23:22,310 --> 00:23:18,640
misses with uap

653
00:23:23,990 --> 00:23:22,320
uh that the the that i'd like to know

654
00:23:24,870 --> 00:23:24,000
more about those kind of cases so i'm

655
00:23:29,430 --> 00:23:24,880
not sure

656
00:23:32,549 --> 00:23:29,440
ufos i think uh

657
00:23:35,750 --> 00:23:32,559
uh the et ufo's probably uh keep a keep

658
00:23:38,390 --> 00:23:35,760
a good distance uh those aren't uh

659
00:23:40,390 --> 00:23:38,400
cases i don't think but hey i'd like to

660
00:23:42,630 --> 00:23:40,400
know more but uh you know that

661
00:23:44,470 --> 00:23:42,640
uh those details are apparently in the

662
00:23:47,269 --> 00:23:44,480
classified annex and then

663
00:23:49,430 --> 00:23:47,279

potential national security challenges

664

00:23:50,549 --> 00:23:49,440

uh we continue to monitor for evidence

665

00:23:52,230 --> 00:23:50,559

of such programs

666

00:23:55,269 --> 00:23:52,240

given the counter intelligence challenge

667

00:23:58,310 --> 00:23:55,279

they would pose uh particularly uh

668

00:23:59,750 --> 00:23:58,320

uh uap have been detected near military

669

00:24:03,269 --> 00:23:59,760

facilities or by uh

670

00:24:06,870 --> 00:24:03,279

uh or by aircraft carrying usgs

671

00:24:09,750 --> 00:24:06,880

most sensitive sensor systems well okay

672

00:24:11,669 --> 00:24:09,760

so we got that and then explaining uap

673

00:24:14,390 --> 00:24:11,679

will require analytic

674

00:24:15,830 --> 00:24:14,400

collection and resource investment so

675

00:24:17,430 --> 00:24:15,840

here's the part where they ask for the

676
00:24:19,830 --> 00:24:17,440
money

677
00:24:21,669 --> 00:24:19,840
basically uh in line with the provisions

678
00:24:23,510 --> 00:24:21,679
of the senate report accompanying

679
00:24:25,110 --> 00:24:23,520
uh this and that and the other thing a

680
00:24:28,070 --> 00:24:25,120
broader swath of uh

681
00:24:28,549 --> 00:24:28,080
usg uh personnel and technical systems

682
00:24:32,710 --> 00:24:28,559
uh

683
00:24:35,990 --> 00:24:32,720
the uap

684
00:24:38,470 --> 00:24:36,000
tf's ability to employ that uh and

685
00:24:40,390 --> 00:24:38,480
uh employed data analytics to detect

686
00:24:42,149 --> 00:24:40,400
trends that will also improve

687
00:24:43,590 --> 00:24:42,159
and that's uh that's basically yeah that

688
00:24:45,350 --> 00:24:43,600

we do we need

689

00:24:47,510 --> 00:24:45,360

we need more money that's basically what

690

00:24:48,710 --> 00:24:47,520

they're asking for there let me get the

691

00:24:51,430 --> 00:24:48,720

last page here

692

00:24:53,350 --> 00:24:51,440

uh basically this is more we need more

693

00:24:56,470 --> 00:24:53,360

money we need more resources

694

00:24:57,510 --> 00:24:56,480

uh and uh we're uh we're limited uh hang

695

00:24:59,590 --> 00:24:57,520

on a sec let me

696

00:25:01,669 --> 00:24:59,600

get you to that last page there it is

697

00:25:03,190 --> 00:25:01,679

for you and i've got it in front for me

698

00:25:06,390 --> 00:25:03,200

so i can read a little better

699

00:25:09,830 --> 00:25:06,400

and uh expand uh the collection of uh

700

00:25:12,230 --> 00:25:09,840

data and uh oh uh oh uh uh here's one

701
00:25:13,990 --> 00:25:12,240
interesting thing here that uh they're

702
00:25:16,549 --> 00:25:14,000
also is currently working to acquire

703
00:25:18,149 --> 00:25:16,559
additional reporting including from the

704
00:25:19,669 --> 00:25:18,159
u.s air force

705
00:25:20,950 --> 00:25:19,679
like they didn't get anything out of the

706
00:25:21,750 --> 00:25:20,960
air force basically that's what they're

707
00:25:23,750 --> 00:25:21,760
saying here

708
00:25:24,950 --> 00:25:23,760
and has begun receiving data from the

709
00:25:26,630 --> 00:25:24,960
faa so

710
00:25:28,230 --> 00:25:26,640
you know here's this big six-month

711
00:25:30,230 --> 00:25:28,240
report uh

712
00:25:31,430 --> 00:25:30,240
requisitioned by the senate the senate

713
00:25:32,950 --> 00:25:31,440

intelligence committee

714

00:25:34,789 --> 00:25:32,960

and it looks like the air force didn't

715

00:25:38,630 --> 00:25:34,799

do anything and it looks like

716

00:25:39,029 --> 00:25:38,640

the faa is uh is uh going to cooperate

717

00:25:45,909 --> 00:25:39,039

so

718

00:25:47,430 --> 00:25:45,919

in the future and uh that that is

719

00:25:49,350 --> 00:25:47,440

basically it just uh

720

00:25:50,710 --> 00:25:49,360

a continued investment we need more

721

00:25:52,789 --> 00:25:50,720

money we don't have anything

722

00:25:54,549 --> 00:25:52,799

for you right now really uh we don't

723

00:25:55,990 --> 00:25:54,559

know what it is uh we look at all these

724

00:25:58,070 --> 00:25:56,000

cases we don't know what they are

725

00:25:59,830 --> 00:25:58,080

we spend trillions of dollars on defense

726

00:26:00,630 --> 00:25:59,840

so we have all this advanced sensors

727

00:26:03,909 --> 00:26:00,640

we've got the

728

00:26:07,190 --> 00:26:03,919

the best pilots in the world and uh

729

00:26:08,310 --> 00:26:07,200

you know we we don't have anything for

730

00:26:10,470 --> 00:26:08,320

you basically we don't have anything

731

00:26:11,909 --> 00:26:10,480

concrete we don't have anything solid

732

00:26:14,549 --> 00:26:11,919

that's basically what they're saying

733

00:26:17,590 --> 00:26:14,559

here so that's it that's your

734

00:26:19,990 --> 00:26:17,600

that's your 180 day ufo

735

00:26:21,430 --> 00:26:20,000

task force report that's basically it in

736

00:26:22,549 --> 00:26:21,440

summation you can read the whole thing

737

00:26:24,549 --> 00:26:22,559

yourself and

738

00:26:25,830 --> 00:26:24,559

if you see something that i didn't well

739

00:26:28,710 --> 00:26:25,840

uh you know but

740

00:26:30,230 --> 00:26:28,720

i i i do note that uh there's not a lot

741

00:26:32,549 --> 00:26:30,240

of detail in there it's

742

00:26:33,590 --> 00:26:32,559

not a report it's really more of a a

743

00:26:36,549 --> 00:26:33,600

summary and

744

00:26:36,789 --> 00:26:36,559

i was frankly i was expecting more but

745

00:26:40,470 --> 00:26:36,799

it

746

00:26:44,149 --> 00:26:40,480

going to go back to the senate

747

00:26:46,149 --> 00:26:44,159

and obviously uh there's not much in the

748

00:26:47,110 --> 00:26:46,159

uh the the forward-facing uh report

749

00:26:48,549 --> 00:26:47,120

itself

750

00:26:50,390 --> 00:26:48,559

and we'll see what's in the the

751

00:26:52,789 --> 00:26:50,400

classified annex but

752

00:26:53,909 --> 00:26:52,799

i think we'll just get more details of

753

00:26:56,070 --> 00:26:53,919

uh we

754

00:26:57,510 --> 00:26:56,080

don't know what this stuff is and it

755

00:27:00,230 --> 00:26:57,520

could be a few different things

756

00:27:01,510 --> 00:27:00,240

and uh we need more money uh basically

757

00:27:03,430 --> 00:27:01,520

uh that's what i think we're

758

00:27:04,710 --> 00:27:03,440

we're seeing here and that is

759

00:27:07,029 --> 00:27:04,720

unfortunate it's uh

760

00:27:08,230 --> 00:27:07,039

it's clearly going to be a longer

761

00:27:12,149 --> 00:27:08,240

tougher fight

762

00:27:15,190 --> 00:27:12,159

to get information

763

00:27:15,990 --> 00:27:15,200

about specific cases that might be e.t

764

00:27:18,230 --> 00:27:16,000

ufos

765

00:27:20,070 --> 00:27:18,240

that's uh that's what i'm seeing here

766

00:27:21,990 --> 00:27:20,080

but uh the good news is uh

767

00:27:23,510 --> 00:27:22,000

that uh people seem to be in uh the

768

00:27:25,430 --> 00:27:23,520

people seem to be up for the fight

769

00:27:27,190 --> 00:27:25,440

and uh this this doesn't seem like it's

770

00:27:30,230 --> 00:27:27,200

gonna go away anytime soon

771

00:27:30,950 --> 00:27:30,240

so uh that's good and uh later on in the

772

00:27:33,510 --> 00:27:30,960

day

773

00:27:34,230 --> 00:27:33,520

the uh under secretary of defense who

774

00:27:37,350 --> 00:27:34,240

oversees

775

00:27:39,990 --> 00:27:37,360

the uap task force and

776

00:27:40,789 --> 00:27:40,000

also just by way of coincidence also

777

00:27:43,510 --> 00:27:40,799

sees the

778

00:27:45,269 --> 00:27:43,520

special access project or a special

779

00:27:48,870 --> 00:27:45,279

access program committee

780

00:27:51,510 --> 00:27:48,880

uh kathleen hicks issued a declaration

781

00:27:56,389 --> 00:27:53,750

and finally uh late in the afternoon

782

00:27:57,669 --> 00:27:56,399

after the task force report was released

783

00:28:00,389 --> 00:27:57,679

such as it was

784

00:28:01,190 --> 00:28:00,399

uh kathleen hicks the under secretary of

785

00:28:05,029 --> 00:28:01,200

defense

786

00:28:07,190 --> 00:28:05,039

released this memorandum and uh

787

00:28:08,470 --> 00:28:07,200

going back uh it's good to see her

788

00:28:10,710 --> 00:28:08,480

getting involved because

789

00:28:12,470 --> 00:28:10,720

we actually talked about her background

790

00:28:15,990 --> 00:28:12,480

that of avril haynes and

791

00:28:19,510 --> 00:28:16,000

uh lloyd austin the secretary of defense

792

00:28:20,389 --> 00:28:19,520

avril haynes the uh director of national

793

00:28:22,710 --> 00:28:20,399

intelligence but

794

00:28:23,669 --> 00:28:22,720

we talked a little bit about kathleen

795

00:28:25,350 --> 00:28:23,679

hicks's background

796

00:28:29,110 --> 00:28:25,360

and it is a little bit interesting uh

797

00:28:31,430 --> 00:28:29,120

she does have a physics degree so

798

00:28:32,389 --> 00:28:31,440

she should be uh pretty familiar with

799

00:28:36,789 --> 00:28:32,399

the uh

800

00:28:39,269 --> 00:28:36,799

sensing data

801

00:28:41,350 --> 00:28:39,279

and also has an interest in aviation

802

00:28:42,870 --> 00:28:41,360

yeah she did take some pilot lessons at

803

00:28:44,549 --> 00:28:42,880

one point in her life so

804

00:28:46,389 --> 00:28:44,559

she has an interesting background now

805

00:28:48,870 --> 00:28:46,399

she might she might

806

00:28:49,510 --> 00:28:48,880

prove to be going forward a good ally

807

00:28:53,990 --> 00:28:49,520

for us

808

00:28:56,789 --> 00:28:54,000

looking at this ufo stuff but basically

809

00:28:57,990 --> 00:28:56,799

she issued this memorandum that she's

810

00:28:59,909 --> 00:28:58,000

directing the office

811

00:29:01,510 --> 00:28:59,919

of the under secretary of defense for

812

00:29:04,149 --> 00:29:01,520

intelligence and security

813

00:29:06,230 --> 00:29:04,159

to develop a plan to formalize the

814

00:29:07,269 --> 00:29:06,240

mission currently performed by the task

815

00:29:09,190 --> 00:29:07,279

force

816

00:29:10,549 --> 00:29:09,200

establish a set of procedures to

817

00:29:13,669 --> 00:29:10,559

synchronize collection

818

00:29:14,549 --> 00:29:13,679

reporting an analysis of uh data on the

819

00:29:16,389 --> 00:29:14,559

you know

820

00:29:17,830 --> 00:29:16,399

the problem set the data whatever they

821

00:29:19,990 --> 00:29:17,840

want to call it to establish

822

00:29:22,470 --> 00:29:20,000

recommendations for securing

823

00:29:24,070 --> 00:29:22,480

military tests and training ranges

824

00:29:25,669 --> 00:29:24,080

identify requirements for the

825

00:29:26,470 --> 00:29:25,679

establishment operation of the new

826
00:29:28,389 --> 00:29:26,480
activity

827
00:29:30,070 --> 00:29:28,399
to include organizational alignment

828
00:29:32,470 --> 00:29:30,080
resources staffing

829
00:29:34,310 --> 00:29:32,480
required so on and so forth develop in

830
00:29:35,029 --> 00:29:34,320
coordination with the principal staff

831
00:29:36,630 --> 00:29:35,039
assistants

832
00:29:38,950 --> 00:29:36,640
the chairman of the joint chiefs the

833
00:29:41,110 --> 00:29:38,960
secretaries of the military departments

834
00:29:42,630 --> 00:29:41,120
and the commander of the commanders of

835
00:29:46,149 --> 00:29:42,640
the combatant commands

836
00:29:48,389 --> 00:29:46,159
and with the dni and other uh relevant

837
00:29:50,789 --> 00:29:48,399
interagency partners all members of the

838
00:29:54,310 --> 00:29:50,799

department will utilize these processes

839

00:29:57,190 --> 00:29:54,320

to ensure that the task force or uh

840

00:29:59,510 --> 00:29:57,200

it's uh follow-on activity uh has

841

00:30:02,230 --> 00:29:59,520

reports of uap observations within

842

00:30:02,549 --> 00:30:02,240

two weeks of an occurrence so uh that is

843

00:30:10,470 --> 00:30:02,559

a

844

00:30:12,950 --> 00:30:10,480

hicks

845

00:30:13,590 --> 00:30:12,960

so we will see we are in a long tough

846

00:30:16,710 --> 00:30:13,600

fight

847

00:30:18,630 --> 00:30:16,720

uh we found that the air force is uh

848

00:30:20,149 --> 00:30:18,640

not being especially cooperative we'll

849

00:30:21,669 --> 00:30:20,159

see where that leads

850

00:30:25,590 --> 00:30:21,679

we know that the air force has been

851

00:30:30,870 --> 00:30:28,789

that the air force stonewalled the a-tip

852

00:30:34,230 --> 00:30:30,880

program where the investigators

853

00:30:37,110 --> 00:30:34,240

from that program looked to

854

00:30:37,510 --> 00:30:37,120

interview pilots who had chased a ufo

855

00:30:39,590 --> 00:30:37,520

over

856

00:30:41,110 --> 00:30:39,600

texas during the stephenville case uh

857

00:30:43,029 --> 00:30:41,120

back in 2008

858

00:30:45,029 --> 00:30:43,039

and uh they had signed non-disclosure

859

00:30:48,070 --> 00:30:45,039

agreements and weren't allowed to talk

860

00:30:51,110 --> 00:30:48,080

and i don't think that that

861

00:30:52,310 --> 00:30:51,120

stephenville case uh one of the cases

862

00:30:55,350 --> 00:30:52,320

that are involved

863

00:30:58,630 --> 00:30:55,360

in the uh the classified annex of the uh

864

00:31:01,269 --> 00:30:58,640

task force report uh my guess is uh uh

865

00:31:01,669 --> 00:31:01,279

that's not in there at all and also uh

866

00:31:03,990 --> 00:31:01,679

we

867

00:31:06,070 --> 00:31:04,000

got a first person account from pj

868

00:31:08,710 --> 00:31:06,080

hughes who was on the nimitz uh

869

00:31:10,549 --> 00:31:08,720

we got that right here uh during one of

870

00:31:11,029 --> 00:31:10,559

our shows about the nimitz case he was

871

00:31:13,669 --> 00:31:11,039

on

872

00:31:14,310 --> 00:31:13,679

and talked about how an air force

873

00:31:17,669 --> 00:31:14,320

officer

874

00:31:20,149 --> 00:31:17,679

was on the nimitz collecting the sensing

875

00:31:22,630 --> 00:31:20,159

data from the e2 hawkeye

876

00:31:23,269 --> 00:31:22,640

uh spy plane that their radar plane i

877

00:31:26,549 --> 00:31:23,279

should say

878

00:31:27,430 --> 00:31:26,559

uh that had captured the uh data of the

879

00:31:30,310 --> 00:31:27,440

uh the tic tac

880

00:31:30,630 --> 00:31:30,320

ufo uh during that that famous incident

881

00:31:32,549 --> 00:31:30,640

so

882

00:31:35,110 --> 00:31:32,559

uh this uh this uh kathleen hicks she

883

00:31:36,870 --> 00:31:35,120

could be our best ally in all this yeah

884

00:31:39,350 --> 00:31:36,880

you never know it uh could be

885

00:31:40,789 --> 00:31:39,360

could be interesting uh uh largely again

886

00:31:42,950 --> 00:31:40,799

the the uh the report

887

00:31:45,029 --> 00:31:42,960

uh i i've gotta call it yeah it's not a

888

00:31:47,190 --> 00:31:45,039

report really yeah what it is is

889

00:31:48,470 --> 00:31:47,200

uh what i thought it wouldn't be it was

890

00:31:51,269 --> 00:31:48,480

an abstract

891

00:31:53,110 --> 00:31:51,279

tour report basically a public abstract

892

00:31:54,950 --> 00:31:53,120

to a classified report

893

00:31:57,909 --> 00:31:54,960

that's where the the meat is uh

894

00:32:00,070 --> 00:31:57,919

hopefully as marco rubio suggests

895

00:32:01,750 --> 00:32:00,080

that the full report does leak so we

896

00:32:02,149 --> 00:32:01,760

have a better idea of what we're talking

897

00:32:04,789 --> 00:32:02,159

about

898

00:32:05,590 --> 00:32:04,799

but that's what we've got for now uh i'm

899

00:32:08,070 --> 00:32:05,600

not sure

900

00:32:09,029 --> 00:32:08,080

when what the i guess i will be picking

901
00:32:10,950 --> 00:32:09,039
up reactions

902
00:32:12,710 --> 00:32:10,960
throughout the coming week uh to the

903
00:32:14,710 --> 00:32:12,720
report it will be interesting but we did

904
00:32:16,789 --> 00:32:14,720
see one reaction it's a key one it's

905
00:32:18,310 --> 00:32:16,799
one that we really like and it's good to

906
00:32:20,230 --> 00:32:18,320
end on a high note but

907
00:32:21,830 --> 00:32:20,240
again what we're seeing is well going

908
00:32:22,950 --> 00:32:21,840
forward we're going to be tracking this

909
00:32:25,590 --> 00:32:22,960
stuff very carefully

910
00:32:27,990 --> 00:32:25,600
uh when we know that a lot of this stuff

911
00:32:29,590 --> 00:32:28,000
is uh has been tracked all along so uh

912
00:32:30,549 --> 00:32:29,600
what are you gonna do it's a part of the

913
00:32:32,470 --> 00:32:30,559

fight for the truth

914

00:32:34,230 --> 00:32:32,480

it's not gonna be an easy one uh we're

915

00:32:35,990 --> 00:32:34,240

not done yet and we're certainly not

916

00:32:38,070 --> 00:32:36,000

done here although i am hoping i'm gonna

917

00:32:40,310 --> 00:32:38,080

be able to take next holiday weekend off

918

00:32:42,389 --> 00:32:40,320

but you never know there might be enough

919

00:32:44,070 --> 00:32:42,399

for me to talk about and if i do i'm

920

00:32:46,630 --> 00:32:44,080

probably gonna try to get it done

921

00:32:47,590 --> 00:32:46,640

uh uh early and uh not wait until sunday

922

00:32:50,310 --> 00:32:47,600

so i can

923

00:32:52,149 --> 00:32:50,320

get my full uh three-day holiday weekend

924

00:32:54,310 --> 00:32:52,159

uh celebrated properly and

925

00:32:55,350 --> 00:32:54,320

not have to uh worry about doing this

926
00:32:57,430 --> 00:32:55,360
but

927
00:32:58,470 --> 00:32:57,440
i hope you enjoyed the show everybody i

928
00:33:00,789 --> 00:32:58,480
went through everything

929
00:33:01,750 --> 00:33:00,799
by all means uh read that task force

930
00:33:04,389 --> 00:33:01,760
report

931
00:33:05,269 --> 00:33:04,399
uh for yourself it's readily available

932
00:33:07,029 --> 00:33:05,279
and uh

933
00:33:09,190 --> 00:33:07,039
go through it uh maybe you see some

934
00:33:11,750 --> 00:33:09,200
things in it that i didn't see maybe i'm

935
00:33:12,470 --> 00:33:11,760
misinterpreting a few things uh i don't

936
00:33:15,750 --> 00:33:12,480
know but

937
00:33:17,350 --> 00:33:15,760
that's what i see uh and again

938
00:33:19,509 --> 00:33:17,360

it's been an interesting day to say the

939

00:33:20,870 --> 00:33:19,519

least but uh obviously i was expecting a

940

00:33:22,310 --> 00:33:20,880

lot more from the report

941

00:33:24,710 --> 00:33:22,320

but uh maybe we got a little bit of a

942

00:33:27,509 --> 00:33:24,720

consolation prize at the end of the day

943

00:33:28,710 --> 00:33:27,519

with uh uh the under secretary of

944

00:33:31,110 --> 00:33:28,720

defense's hicks's

945

00:33:32,950 --> 00:33:31,120

memorandum uh related to the report

946

00:33:35,190 --> 00:33:32,960

although again hey she's been in office

947

00:33:37,029 --> 00:33:35,200

almost half a year now they've known

948

00:33:38,549 --> 00:33:37,039

all this was coming it's like why do you

949

00:33:40,070 --> 00:33:38,559

wait till the why do you wait till the

950

00:33:40,950 --> 00:33:40,080

last minute i mean what do these people

951
00:33:43,029 --> 00:33:40,960
think they are me

952
00:33:44,149 --> 00:33:43,039
you know they should be on top of these

953
00:33:46,630 --> 00:33:44,159
things after all

954
00:33:48,470 --> 00:33:46,640
you know it's our uh uh it's our our

955
00:33:48,950 --> 00:33:48,480
national defense you know it's a stake

956
00:33:51,110 --> 00:33:48,960
here

957
00:33:51,990 --> 00:33:51,120
but uh we're getting a little bit closer

958
00:33:54,789 --> 00:33:52,000
we learned a little bit

959
00:33:55,269 --> 00:33:54,799
more today and we learned that the air

960
00:33:58,470 --> 00:33:55,279
force

961
00:34:01,029 --> 00:33:58,480
wants more money

962
00:34:03,590 --> 00:34:01,039
and they they don't have enough data and

963
00:34:06,230 --> 00:34:03,600

to be honest about it i'm not sure

964

00:34:07,590 --> 00:34:06,240

how much data there really is that over

965

00:34:10,230 --> 00:34:07,600

time it builds up

966

00:34:11,349 --> 00:34:10,240

but uh you know from day to day week to

967

00:34:13,829 --> 00:34:11,359

week month to month

968

00:34:15,190 --> 00:34:13,839

probably not that much data on the the

969

00:34:17,589 --> 00:34:15,200

et ufos

970

00:34:18,470 --> 00:34:17,599

but over a period of time it builds up

971

00:34:21,669 --> 00:34:18,480

and of course uh

972

00:34:23,750 --> 00:34:21,679

again no mention that uh these types of

973

00:34:26,149 --> 00:34:23,760

these types of cases they don't go back

974

00:34:27,669 --> 00:34:26,159

to 2004 the ufo phenomena didn't start

975

00:34:31,270 --> 00:34:27,679

in 2004

976

00:34:33,030 --> 00:34:31,280

as far as uh you know as as far as

977

00:34:34,629 --> 00:34:33,040

the historical record goes at least in

978

00:34:36,629 --> 00:34:34,639

terms of aviation

979

00:34:38,470 --> 00:34:36,639

and goes back at least to world war ii

980

00:34:41,589 --> 00:34:38,480

and then obviously picked up

981

00:34:43,669 --> 00:34:41,599

uh back in 1947 and

982

00:34:45,349 --> 00:34:43,679

uh we've got those kind of cases with

983

00:34:47,909 --> 00:34:45,359

radar with pilot

984

00:34:48,950 --> 00:34:47,919

uh sightings and so on and so forth uh

985

00:34:51,829 --> 00:34:48,960

going back uh

986

00:34:52,869 --> 00:34:51,839

that far so uh those cases aren't even

987

00:34:56,470 --> 00:34:52,879

mentioned and uh

988

00:34:58,230 --> 00:34:56,480

i wonder uh wonder if uh uh

989

00:34:59,589 --> 00:34:58,240

well you wonder what they're thinking

990

00:35:00,870 --> 00:34:59,599

about this uh so

991

00:35:03,349 --> 00:35:00,880

uh all right well you have a good

992

00:35:05,030 --> 00:35:03,359

weekend and i'm i'm about out of time

993

00:35:07,190 --> 00:35:05,040

here so uh have a good weekend

994

00:35:08,550 --> 00:35:07,200

and we'll talk to you again well as soon
