

1

00:00:00,000 --> 00:00:03,000

Previously on UFO Witness,

2

00:00:03,000 --> 00:00:09,000

an investigation into glowing orb UFOs over New England.

3

00:00:09,000 --> 00:00:14,000

You can just see this big blabba blabba floating in the sky.

4

00:00:14,000 --> 00:00:20,000

Revealed their potential connection to a terrifying breed of insectoid aliens.

5

00:00:20,000 --> 00:00:23,000

It sounds like an ant.

6

00:00:23,000 --> 00:00:25,000

Stick like legs like bamboo.

7

00:00:26,000 --> 00:00:32,000

With shape-shifting UFOs also spotted near key military bases.

8

00:00:32,000 --> 00:00:34,000

Yo, what the what?

9

00:00:34,000 --> 00:00:36,000

The question must be asked,

10

00:00:36,000 --> 00:00:40,000

could different aliens be vying for control of Earth?

11

00:00:40,000 --> 00:00:42,000

There's been a war for this planet.

12

00:00:44,000 --> 00:00:45,000

For a long time.

13

00:00:47,000 --> 00:00:50,000

And what if the battle has already begun?

14

00:00:50,000 --> 00:00:53,000

The first ever UFOs in the world

15

00:00:53,000 --> 00:00:55,000

Be loved sea level.

16

00:00:57,000 --> 00:01:02,000

Did you feel at this instant that maybe you and your friend weren't gonna live?

17

00:01:02,000 --> 00:01:04,000

Absolutely we did.

18

00:01:04,000 --> 00:01:07,000

You flamed like a lab rat.

19

00:01:07,000 --> 00:01:20,000

80% of our oceans are still unexplored.

20

00:01:20,000 --> 00:01:24,000

We haven't even been to the bottom of it in some places.

21

00:01:24,000 --> 00:01:28,000

It would make the perfect place for extraterrestrials to hide.

22

00:01:28,000 --> 00:01:32,000

You're talking about what is considered a USO, right?

23

00:01:32,000 --> 00:01:35,000

Which is an unidentified submersible object.

24

00:01:35,000 --> 00:01:40,000

USOs, unidentified submerged or submersible objects

25

00:01:40,000 --> 00:01:43,000

are the latest frontier in ufology.

26

00:01:44,000 --> 00:01:48,000

Over 71% of the Earth's surface is covered in water.

27

00:01:48,000 --> 00:01:52,000

Providing the perfect cover for visiting alien species

28

00:01:52,000 --> 00:01:55,000

and their potentially insidious plans.

29

00:01:55,000 --> 00:01:59,000

So now you have a completely different vehicle that's using the water

30

00:01:59,000 --> 00:02:02,000

to interact with its technology.

31

00:02:02,000 --> 00:02:07,000

Yeah, when they go into the water, it's like they're unaffected

32

00:02:07,000 --> 00:02:09,000

by the inertia.

33

00:02:11,000 --> 00:02:17,000

Recently, startling footage of an unidentified submerged object

34

00:02:17,000 --> 00:02:19,000

was leaked from the US Navy.

35

00:02:19,000 --> 00:02:21,000

Whoa, it's getting close.

36

00:02:21,000 --> 00:02:26,000

Yeah, we have 31 knots of steam, we're on the top side.

37

00:02:26,000 --> 00:02:29,000

Whoa, it splashed.

38

00:02:29,000 --> 00:02:33,000

This remarkable sighting was filmed on July 15, 2019

39

00:02:33,000 --> 00:02:38,000

aboard the USS Omaha, just off the coast of Catalina Island

40

00:02:38,000 --> 00:02:40,000

in Southern California.

41

00:02:40,000 --> 00:02:45,000

The footage shows a solid ball, roughly six feet in diameter,

42

00:02:45,000 --> 00:02:50,000

flying at speeds estimated as high as 158 miles per hour

43

00:02:50,000 --> 00:02:54,000

before plunging into the Pacific Ocean.

44

00:02:54,000 --> 00:02:57,000

No wreckage was found at the site.

45

00:02:57,000 --> 00:03:02,000

The underwater aspect to me, this connection with water to begin with,

46

00:03:02,000 --> 00:03:05,000

it seems like it's becoming more and more prevalent.

47

00:03:05,000 --> 00:03:08,000

It's something you can't ignore, this relationship to water.

48

00:03:08,000 --> 00:03:12,000

Yeah, we're dealing with a completely different technology.

49

00:03:12,000 --> 00:03:14,000

Whoa!

50

00:03:14,000 --> 00:03:19,000

Catalina Island, less than 20 miles off the coast of Los Angeles,

51

00:03:19,000 --> 00:03:23,000

is believed to be a USO hotspot.

52

00:03:23,000 --> 00:03:27,000

For years, fishermen have told stories of strange lights

53

00:03:27,000 --> 00:03:29,000

appearing underwater.

54

00:03:29,000 --> 00:03:32,000

We're not sure if it's true, but it's true.

55

00:03:32,000 --> 00:03:35,000

We're not sure if it's true, but it's true.

56

00:03:35,000 --> 00:03:38,000

We're not sure if it's true, but it's true.

57

00:03:38,000 --> 00:03:41,000

We're not sure if it's true, but it's true.

58

00:03:41,000 --> 00:03:43,000

There's been less than seven hundred and five thousand

59

00:03:43,000 --> 00:03:47,000

evidence of strange lights appearing underwater.

60

00:03:47,000 --> 00:03:55,000

Fisherman Brad Castle had an ominous encounter here in 2007.

61

00:03:55,000 --> 00:04:01,000

And for the first time, he's willing to share his story on camera.

62

00:04:01,000 --> 00:04:04,000

You know basically why we're here.

63

00:04:04,000 --> 00:04:07,000

We're looking at Catalina because we've been told

64

00:04:07,000 --> 00:04:10,000

for, shall we say, strange phenomena.

65

00:04:10,000 --> 00:04:11,000

Yeah.

66

00:04:11,000 --> 00:04:12,000

Oh, absolutely it is.

67

00:04:12,000 --> 00:04:15,000

But you had a story where something happened below.

68

00:04:15,000 --> 00:04:16,000

Yeah.

69

00:04:16,000 --> 00:04:19,000

I've seen all kinds of things in the water that happened from

70

00:04:19,000 --> 00:04:22,000

bioluminescence and phosphorus.

71

00:04:22,000 --> 00:04:26,000

But what happened can't be explained by all the things that

72

00:04:26,000 --> 00:04:29,000

I've seen in all the time I've been on the water.

73

00:04:30,000 --> 00:04:33,000

There were probably seven, eight miles past the east end of

74

00:04:33,000 --> 00:04:37,000

Catalina headed towards San Clemente, and it was super dark.

75

00:04:37,000 --> 00:04:39,000

It was about midnight.

76

00:04:41,000 --> 00:04:47,000

And as we're cruising along, the ocean just lit up.

77

00:04:47,000 --> 00:04:50,000

And it was a very, very dark day.

78

00:04:50,000 --> 00:04:53,000

And it was a very, very dark day.

79

00:04:53,000 --> 00:04:56,000

And it was a very, very dark day.

80

00:04:56,000 --> 00:04:59,000

The ocean just lit up.

81

00:05:03,000 --> 00:05:07,000

At least 100 yards in every direction around where we were on

82

00:05:07,000 --> 00:05:11,000

the boat was bright, bright, white light.

83

00:05:11,000 --> 00:05:14,000

Super, super brilliant.

84

00:05:14,000 --> 00:05:16,000

And it was shocking.

85

00:05:16,000 --> 00:05:17,000

It was so bright.

86

00:05:17,000 --> 00:05:21,000

When it came on, it just took your breath away.

87

00:05:22,000 --> 00:05:26,000

You couldn't see the water because the light was so bright

88

00:05:26,000 --> 00:05:29,000

and it extended so far around the boat, and we were right in

89

00:05:29,000 --> 00:05:30,000

the middle of it.

90

00:05:30,000 --> 00:05:31,000

We were lit up.

91

00:05:31,000 --> 00:05:34,000

It was like we were in the middle of a light bulb.

92

00:05:34,000 --> 00:05:36,000

The guy that was with me actually screamed.

93

00:05:36,000 --> 00:05:37,000

It was just insane.

94

00:05:37,000 --> 00:05:41,000

It was so, so brilliant.

95

00:05:41,000 --> 00:05:45,000

Did you feel at this instant that maybe you and your friend

96

00:05:45,000 --> 00:05:47,000

weren't going to live?

97

00:05:47,000 --> 00:05:49,000

Absolutely we did.

98

00:05:49,000 --> 00:05:53,000

Fearing for his life, Brad had no choice but to ride out the

99

00:05:53,000 --> 00:05:54,000

blinding light.

100

00:05:54,000 --> 00:05:57,000

I just had a death grip on the wheel.

101

00:05:57,000 --> 00:06:02,000

It was a moment where we're feeling like we're at its mercy.

102

00:06:02,000 --> 00:06:04,000

We had no power over this.

103

00:06:04,000 --> 00:06:09,000

Whatever it was could have done whatever it wanted.

104

00:06:09,000 --> 00:06:13,000

Feeling his boat being pulled towards the light, Brad gunned

105

00:06:13,000 --> 00:06:15,000

the engine.

106

00:06:16,000 --> 00:06:18,000

And then it boomed.

107

00:06:18,000 --> 00:06:20,000

It was off like that.

108

00:06:23,000 --> 00:06:25,000

And when that pitch black happened.

109

00:06:25,000 --> 00:06:26,000

You were almost blinded.

110

00:06:26,000 --> 00:06:28,000

Yeah, it was just you couldn't see anything.

111

00:06:28,000 --> 00:06:31,000

It just felt like we were driving off of a cliff.

112

00:06:35,000 --> 00:06:39,000

If there were some type of craft above you, would you have

113

00:06:39,000 --> 00:06:40,000

been able to hear it?

114

00:06:40,000 --> 00:06:41,000

Oh yeah, yeah.

115

00:06:41,000 --> 00:06:42,000

This wasn't above us.

116

00:06:42,000 --> 00:06:44,000

This was definitely below.

117

00:06:44,000 --> 00:06:48,000

This was underneath us and it lit up.

118

00:06:48,000 --> 00:06:49,000

The light was coming up.

119

00:06:49,000 --> 00:06:51,000

You could see something.

120

00:06:51,000 --> 00:06:53,000

Did you see any form or shape underneath it?

121

00:06:53,000 --> 00:06:54,000

Nothing.

122

00:06:54,000 --> 00:06:57,000

You couldn't really look into the water because it was so

123

00:06:57,000 --> 00:06:58,000

bright.

124

00:06:58,000 --> 00:06:59,000

It was so bright.

125

00:06:59,000 --> 00:07:00,000

It was just unbelievable.

126

00:07:00,000 --> 00:07:03,000

How did you start to look at life after this?

127

00:07:03,000 --> 00:07:11,000

Now I know that we are not alone and we are literally

128

00:07:11,000 --> 00:07:15,000

nothing in the universe.

129

00:07:15,000 --> 00:07:21,000

Our technology, we're just little pipsqueaks in the

130

00:07:21,000 --> 00:07:22,000

universe.

131

00:07:22,000 --> 00:07:27,000

There are other things out there that could definitely do

132

00:07:27,000 --> 00:07:32,000

whatever they want with us because their technology is

133

00:07:32,000 --> 00:07:33,000

so far advanced.

134

00:07:33,000 --> 00:07:35,000

It's ridiculous.

135

00:07:35,000 --> 00:07:40,000

Unless of course it is something from the Navy or

136

00:07:40,000 --> 00:07:41,000

something like that.

137

00:07:41,000 --> 00:07:44,000

But if it's something from the Navy or something,

138

00:07:44,000 --> 00:07:49,000

some kind of technology that we now have, we didn't gain

139

00:07:49,000 --> 00:07:54,000

that technology by any other means than from them.

140

00:07:59,000 --> 00:08:01,000

Right, like where did we get it from?

141

00:08:01,000 --> 00:08:04,000

Yeah, there's no way we could develop something like that.

142

00:08:05,000 --> 00:08:10,000

I have an aeronautical chart here and this is what I

143

00:08:10,000 --> 00:08:11,000

often used to fly with.

144

00:08:11,000 --> 00:08:14,000

I'm wondering if you kind of show me where your siding was.

145

00:08:14,000 --> 00:08:16,000

Here's Catalina and there's San Clemente.

146

00:08:16,000 --> 00:08:20,000

Approximately right here, about 20 miles past Catalina,

147

00:08:20,000 --> 00:08:22,000

right in this area right here.

148

00:08:22,000 --> 00:08:24,000

Do you know what the depth was there?

149

00:08:24,000 --> 00:08:30,000

Oh gosh, the depth had to be a couple thousand feet at

150

00:08:30,000 --> 00:08:31,000

least.

151

00:08:32,000 --> 00:08:36,000

Just like the USO off San Diego, this craft seemed to

152

00:08:36,000 --> 00:08:39,000

use the deep water to its advantage.

153

00:08:39,000 --> 00:08:44,000

Do you have any friends off Catalina that have seen some

154

00:08:44,000 --> 00:08:46,000

of the same stuff?

155

00:08:46,000 --> 00:08:49,000

Most of the people won't talk about them too much.

156

00:08:49,000 --> 00:08:52,000

They don't like elaborate a whole lot because they don't

157

00:08:52,000 --> 00:08:55,000

want to look like, they don't want to feel like they're

158

00:08:55,000 --> 00:08:58,000

crazy or look at them like they're crazy.

159

00:08:58,000 --> 00:09:01,000

But there's a lot of people that have lived there forever,

160

00:09:01,000 --> 00:09:04,000

have had experiences.

161

00:09:04,000 --> 00:09:07,000

Something dangerous is happening off the shores of

162

00:09:07,000 --> 00:09:09,000

Southern California.

163

00:09:09,000 --> 00:09:13,000

What are these USOs up to?

164

00:09:13,000 --> 00:09:16,000

And how concerned should we be?

165

00:09:19,000 --> 00:09:22,000

Brad Castle isn't the only one seeing strange lights off

166

00:09:22,000 --> 00:09:24,000

Catalina's shores.

167

00:09:24,000 --> 00:09:27,000

He connects Ben and Melissa with a witness who has some

168

00:09:27,000 --> 00:09:31,000

compelling video that could help the investigation.

169

00:09:37,000 --> 00:09:38,000

Hello.

170

00:09:38,000 --> 00:09:39,000

Hey, I'm Ben.

171

00:09:39,000 --> 00:09:42,000

Kathleen has quite a bit more training than I'd say your

172

00:09:42,000 --> 00:09:43,000

casual observer.

173

00:09:43,000 --> 00:09:47,000

She's an amateur astronomer and she really knows celestial

174

00:09:47,000 --> 00:09:49,000

bodies, what should be in the sky, what shouldn't.

175

00:09:49,000 --> 00:09:53,000

So when she says this is unlike anything that she's

176

00:09:53,000 --> 00:09:57,000

witnessed, that's what I take notice of.

177

00:09:57,000 --> 00:10:01,000

Kathleen Hill has lived on Catalina for decades and her

178

00:10:01,000 --> 00:10:05,000

routine observations of the island's night skies have led

179

00:10:05,000 --> 00:10:09,000

to some startling sightings, both in the skies and below the

180

00:10:09,000 --> 00:10:10,000

seas.

181

00:10:15,000 --> 00:10:19,000

Kathleen Hill interview, Catalina investigation.

182

00:10:19,000 --> 00:10:22,000

Kathleen, thank you for joining us.

183

00:10:22,000 --> 00:10:24,000

As you know, we're looking into the phenomena that's

184

00:10:24,000 --> 00:10:26,000

happened around the island.

185

00:10:26,000 --> 00:10:28,000

I understand that you've been seeing strange lights for

186

00:10:28,000 --> 00:10:29,000

years.

187

00:10:29,000 --> 00:10:30,000

Oh, gosh.

188

00:10:30,000 --> 00:10:34,000

I'd seen them at least five or six times.

189

00:10:34,000 --> 00:10:38,000

The first time in 2007 or 2008, my kids and I were eating

190

00:10:38,000 --> 00:10:41,000

dinner, we're looking out the window and we're like, whoa,

191

00:10:41,000 --> 00:10:42,000

look at those orange lights.

192

00:10:42,000 --> 00:10:46,000

And there were three, like a pyramid.

193

00:10:46,000 --> 00:10:49,000

And they just stayed in the same spot.

194

00:10:49,000 --> 00:10:52,000

This went on for a good 50 minutes and then they just

195

00:10:52,000 --> 00:10:54,000

went out.

196

00:10:54,000 --> 00:10:56,000

They didn't like fly away.

197

00:10:56,000 --> 00:10:57,000

They didn't do anything.

198

00:10:57,000 --> 00:10:59,000

They literally were right there in the same spot and then

199

00:10:59,000 --> 00:11:01,000

they just went out.

200

00:11:01,000 --> 00:11:05,000

No movement whatsoever, just stationary in the sky.

201

00:11:05,000 --> 00:11:06,000

Right.

202

00:11:06,000 --> 00:11:10,000

The strange lights around Catalina plagued Kathleen for years

203

00:11:10,000 --> 00:11:14,000

and she made it her mission to catch video proof of their

204

00:11:14,000 --> 00:11:15,000

presence.

205

00:11:15,000 --> 00:11:18,000

So when did this happen, this video that you took?

206

00:11:18,000 --> 00:11:22,000

The video I took was in 2012 from my living room.

207

00:11:29,000 --> 00:11:31,000

It was probably about nine o'clock at night.

208

00:11:31,000 --> 00:11:34,000

I'm really looking out over the ocean.

209

00:11:34,000 --> 00:11:38,000

Suddenly, the strange lights appeared to Kathleen once

210

00:11:38,000 --> 00:11:39,000

again.

211

00:11:42,000 --> 00:11:45,000

And she was filled with an overwhelming sense of shock.

212

00:11:49,000 --> 00:11:51,000

What is this?

213

00:11:52,000 --> 00:11:55,000

Kathleen Hill had been waiting to see the strange lights of

214

00:11:55,000 --> 00:11:59,000

Catalina once more and this time she was ready.

215

00:11:59,000 --> 00:12:03,000

She sprung into action to record proof of their existence.

216

00:12:10,000 --> 00:12:12,000

In my film, you'll see them kind of move, but that's me

217

00:12:12,000 --> 00:12:15,000

lining up the camera and the lens and trying to hold it

218

00:12:15,000 --> 00:12:17,000

steady, but they don't move.

219

00:12:20,000 --> 00:12:22,000

Why don't you show me your video?

220

00:12:24,000 --> 00:12:28,000

If you watch, they all look rather roundish.

221

00:12:29,000 --> 00:12:31,000

Hold on, I'm recording this.

222

00:12:32,000 --> 00:12:34,000

I don't know what they are.

223

00:12:34,000 --> 00:12:38,000

And at one point, they pitch at the same time in the same

224

00:12:38,000 --> 00:12:41,000

direction and they turn into almost like half circles.

225

00:12:42,000 --> 00:12:44,000

What is this?

226

00:12:46,000 --> 00:12:49,000

Almost like they were like this and then they pitch.

227

00:12:51,000 --> 00:12:54,000

Why are these USOs changing shape information?

228

00:12:54,000 --> 00:12:56,000

Are they preparing to dive?

229

00:12:57,000 --> 00:13:01,000

So I went over to the left, keeping the telescope very steady

230

00:13:01,000 --> 00:13:04,000

and tracked over this as a house on the hillside.

231

00:13:04,000 --> 00:13:05,000

OK.

232

00:13:05,000 --> 00:13:07,000

And then I tracked back to see where they were in

233

00:13:07,000 --> 00:13:09,000

relation to that house and they were gone.

234

00:13:09,000 --> 00:13:10,000

Oh my gosh.

235

00:13:11,000 --> 00:13:12,000

And they're completely gone.

236

00:13:12,000 --> 00:13:13,000

Just like that.

237

00:13:14,000 --> 00:13:18,000

Is it possible the UFOs were actually USOs

238

00:13:20,000 --> 00:13:22,000

that plunged into the ocean?

239

00:13:24,000 --> 00:13:27,000

Are they always in the same spot or are they different

240

00:13:27,000 --> 00:13:29,000

parts of the horizon?

241

00:13:29,000 --> 00:13:32,000

Always in the same general area.

242

00:13:32,000 --> 00:13:35,000

Definitely not the exact same spot.

243

00:13:35,000 --> 00:13:36,000

OK.

244

00:13:36,000 --> 00:13:39,000

And you're pretty sure it's the same phenomenon, the same

245

00:13:39,000 --> 00:13:40,000

thing you're seeing?

246

00:13:40,000 --> 00:13:41,000

Yes.

247

00:13:41,000 --> 00:13:44,000

They're behaving the same, staying in the same spot for,

248

00:13:44,000 --> 00:13:49,000

you know, up to 45, 50 minutes without moving.

249

00:13:50,000 --> 00:13:54,000

So your estimate is that it was over the water between

250

00:13:54,000 --> 00:13:55,000

the islands?

251

00:13:55,000 --> 00:13:56,000

Definitely.

252

00:13:56,000 --> 00:13:57,000

Off the east end of the island.

253

00:13:57,000 --> 00:13:59,000

I think like 10 to 15 miles.

254

00:13:59,000 --> 00:14:02,000

And that's 10 to 15 miles out in the ocean.

255

00:14:02,000 --> 00:14:03,000

Mm-hmm.

256

00:14:03,000 --> 00:14:04,000

Off the east end.

257

00:14:05,000 --> 00:14:09,000

We talked to one gentleman who witnessed something coming

258

00:14:09,000 --> 00:14:12,000

up actually out of the water that was so bright.

259

00:14:12,000 --> 00:14:13,000

That's incredible.

260

00:14:13,000 --> 00:14:15,000

It engulfed the whole ship.

261

00:14:15,000 --> 00:14:16,000

Yeah.

262

00:14:16,000 --> 00:14:18,000

Have you heard other stories of people out there on the

263

00:14:18,000 --> 00:14:21,000

island seeing strange lights?

264

00:14:21,000 --> 00:14:25,000

I've heard other stories before and I've heard the story

265

00:14:25,000 --> 00:14:28,000

of the fishermen seeing the light under the water.

266

00:14:28,000 --> 00:14:29,000

Mm-hmm.

267

00:14:29,000 --> 00:14:30,000

Yeah.

268

00:14:30,000 --> 00:14:33,000

If you can't explain this naturally, what do you think

269

00:14:33,000 --> 00:14:34,000

this is?

270

00:14:35,000 --> 00:14:38,000

They do get asked all the time if I think aliens have been

271

00:14:38,000 --> 00:14:41,000

here and if you told me tomorrow they came and you showed

272

00:14:41,000 --> 00:14:44,000

me proof, I'd believe it.

273

00:14:45,000 --> 00:14:49,000

Is there something just unique about Catalina, the channel

274

00:14:49,000 --> 00:14:52,000

islands that would lend itself to our investigation?

275

00:14:52,000 --> 00:14:57,000

If I were an alien looking for some place out in the ocean,

276

00:14:57,000 --> 00:15:01,000

the channel between Catalina and the mainland is deep,

277

00:15:01,000 --> 00:15:03,000

deep, deep.

278

00:15:04,000 --> 00:15:07,000

The sea floor reaches depths over one mile.

279

00:15:08,000 --> 00:15:11,000

If you were to sail off the coast of Catalina Island,

280

00:15:11,000 --> 00:15:15,000

could an alien species be using the trench as cover for an

281

00:15:15,000 --> 00:15:17,000

underwater base?

282

00:15:17,000 --> 00:15:19,000

We have stumbled upon something really big that's happening

283

00:15:19,000 --> 00:15:22,000

here in Southern California.

284

00:15:22,000 --> 00:15:26,000

There's lights coming up from the bottom of the ocean and

285

00:15:26,000 --> 00:15:29,000

there's also lights in the sky.

286

00:15:30,000 --> 00:15:32,000

What is happening off the coast of Catalina?

287

00:15:32,000 --> 00:15:34,000

I don't know, but there is something happening between

288

00:15:34,000 --> 00:15:36,000

the island and the mainland.

289

00:15:39,000 --> 00:15:43,000

To find out more about the strange lights off Catalina,

290

00:15:43,000 --> 00:15:47,000

Melissa has tracked down one case of an abductee who claims

291

00:15:47,000 --> 00:15:50,000

she was taken inside would appear to be an undersea

292

00:15:50,000 --> 00:15:52,000

alien base.

293

00:15:52,000 --> 00:15:55,000

So I came across this case, this woman, she had an

294

00:15:55,000 --> 00:15:59,000

experience where she was taken from her home and taken to

295

00:15:59,000 --> 00:16:02,000

some kind of underwater base.

296

00:16:02,000 --> 00:16:06,000

Also that the best person to interview about this case is

297

00:16:06,000 --> 00:16:08,000

a hypnotherapist.

298

00:16:08,000 --> 00:16:12,000

She actually has the tapes of the therapy session.

299

00:16:18,000 --> 00:16:21,000

The event was very traumatic for the victim, Kim

300

00:16:21,000 --> 00:16:23,000

Carlsberg.

301

00:16:23,000 --> 00:16:25,000

Because of the difficulty she feels in talking about her

302

00:16:25,000 --> 00:16:28,000

experience on camera, she has given permission for her

303

00:16:28,000 --> 00:16:32,000

therapist, Yvonne Smith, to play never before heard audio

304

00:16:32,000 --> 00:16:35,000

tapes of the hypnotherapy sessions about her abductee.

305

00:16:36,000 --> 00:16:41,000

Yvonne has been a regressive hypnotherapist for 30 years,

306

00:16:41,000 --> 00:16:45,000

specializing in post-traumatic stress with patients who

307

00:16:45,000 --> 00:16:48,000

believe they are victims of alien abductions.

308

00:16:48,000 --> 00:16:51,000

Good to see you again.

309

00:16:51,000 --> 00:16:54,000

Based out of Southern California, she's treated an

310

00:16:54,000 --> 00:16:58,000

abnormally high number of abductees taken by USOs.

311

00:16:58,000 --> 00:17:02,000

We were referred to you because of a particular case with

312

00:17:02,000 --> 00:17:04,000

Kim Carlsberg, right?

313

00:17:04,000 --> 00:17:05,000

Yes.

314

00:17:05,000 --> 00:17:08,000

Do you remember how the regressions went with Kim and

315

00:17:08,000 --> 00:17:11,000

what she had revealed?

316

00:17:11,000 --> 00:17:14,000

They were intense.

317

00:17:14,000 --> 00:17:16,000

She was terrified.

318

00:17:16,000 --> 00:17:19,000

According to Yvonne, Kim was abducted from Malibu Beach in

319

00:17:19,000 --> 00:17:21,000

1992.

320

00:17:21,000 --> 00:17:24,000

This is the first time her hypnosis tapes have been

321

00:17:24,000 --> 00:17:26,000

played publicly.

322

00:17:28,000 --> 00:17:31,000

I'm on a beach walking.

323

00:17:32,000 --> 00:17:37,000

And I'm like, over the water.

324

00:17:37,000 --> 00:17:43,000

It's far away, but then, don't talk to me.

325

00:17:43,000 --> 00:17:48,000

Huge, bright.

326

00:17:48,000 --> 00:17:51,000

And it scared her.

327

00:17:51,000 --> 00:17:54,000

I mean, she was terrified.

328

00:17:54,000 --> 00:17:59,000

And then black out.

329

00:17:59,000 --> 00:18:02,000

Right there in front of her, and then she kind of blacks out.

330

00:18:02,000 --> 00:18:05,000

Yeah, and she didn't know what it was.

331

00:18:05,000 --> 00:18:08,000

The next thing Kim recalls is finding herself not on the

332

00:18:08,000 --> 00:18:11,000

beach, but in her bed at home.

333

00:18:11,000 --> 00:18:18,000

I'm in bed so tired.

334

00:18:18,000 --> 00:18:24,000

After midnight, and I fall asleep, but then I'm in bed.

335

00:18:24,000 --> 00:18:30,000

And I'm out of my bed with a giant room in the walls of

336

00:18:30,000 --> 00:18:32,000

what?

337

00:18:32,000 --> 00:18:35,000

I'm not alone.

338

00:18:35,000 --> 00:18:39,000

I'm scared there's creatures staring at me.

339

00:18:39,000 --> 00:18:45,000

It's like a bug walking stick with a huge head.

340

00:18:45,000 --> 00:18:47,000

I'm scared.

341

00:18:47,000 --> 00:18:49,000

I'm scared.

342

00:18:49,000 --> 00:18:54,000

It's like a bug walking stick with a huge head.

343

00:18:54,000 --> 00:18:57,000

The eyes, listen.

344

00:18:57,000 --> 00:18:59,000

It comes closer.

345

00:18:59,000 --> 00:19:01,000

It touches me.

346

00:19:01,000 --> 00:19:05,000

It puts tubes in me, hoping.

347

00:19:05,000 --> 00:19:11,000

And then they play me like a lab rat.

348

00:19:11,000 --> 00:19:15,000

It opens me, and it's all in my chest.

349

00:19:15,000 --> 00:19:19,000

It's all in my body.

350

00:19:19,000 --> 00:19:24,000

Based on Kim's horrific description, is it possible she

351

00:19:24,000 --> 00:19:31,000

was abducted by an alien species known as the Mantis?

352

00:19:31,000 --> 00:19:35,000

This one is a praying mantis type being, approximately 7 foot

353

00:19:35,000 --> 00:19:41,000

tall, extremely smart, articulate, very manipulative.

354

00:19:41,000 --> 00:19:45,000

It's described as horrible, evil.

355

00:19:45,000 --> 00:19:50,000

The most curious of extraterrestrial races are mantis beings.

356

00:19:50,000 --> 00:19:54,000

They have been seen in many abduction scenarios.

357

00:19:54,000 --> 00:19:57,000

The mantis beings are bipedal.

358

00:19:57,000 --> 00:19:59,000

They stand upright.

359

00:19:59,000 --> 00:20:04,000

They have three pronged fingers and feet.

360

00:20:04,000 --> 00:20:10,000

And their language pretty much is a series of clicks.

361

00:20:10,000 --> 00:20:13,000

But they are also telepathic.

362

00:20:13,000 --> 00:20:20,000

They primarily come from Andromeda, Orion, and the Sombrero

363

00:20:20,000 --> 00:20:22,000

galaxy.

364

00:20:22,000 --> 00:20:26,000

But they actually far reach out into the universe to places

365

00:20:26,000 --> 00:20:29,000

that we don't even know exist.

366

00:20:33,000 --> 00:20:38,000

I know that she just had this definite hatred and probably

367

00:20:38,000 --> 00:20:43,000

fear in regard to that praying mantis.

368

00:20:43,000 --> 00:20:46,000

Yvonne, when you were in a session with Kim, do you remember

369

00:20:46,000 --> 00:20:49,000

her ever saying that she was taken to a base?

370

00:20:49,000 --> 00:20:51,000

Yes, absolutely.

371

00:20:51,000 --> 00:20:59,000

And I know people have seen a craft coming up from the water.

372

00:20:59,000 --> 00:21:05,000

I know from the work that I've done that when you see a

373

00:21:05,000 --> 00:21:10,000

craft and there's a craft in the area, there usually are

374

00:21:10,000 --> 00:21:12,000

abductions.

375

00:21:12,000 --> 00:21:16,000

When you hear a story like Kim tells, I don't care who you are,

376

00:21:16,000 --> 00:21:21,000

when you're being taken against your will and being subjected

377

00:21:21,000 --> 00:21:25,000

to these examinations, it's a pretty frightening thing.

378

00:21:25,000 --> 00:21:27,000

You have no control over it.

379

00:21:27,000 --> 00:21:32,000

Now the question remains, was the mantis piloting the USO?

380

00:21:32,000 --> 00:21:36,000

And if so, could they have an underwater base?

381

00:21:36,000 --> 00:21:39,000

The pressure is on to find answers.

382

00:21:39,000 --> 00:21:43,000

Ben and Melissa split up to meet with different experts who

383

00:21:43,000 --> 00:21:48,000

have been researching the USOs in this region for years.

384

00:21:48,000 --> 00:21:52,000

Preston Denich will help Melissa dig deeper into the region's

385

00:21:52,000 --> 00:21:56,000

UFO encounters, while Brittany Barbieri will work with Ben to

386

00:21:56,000 --> 00:22:01,000

locate an entrance to a potential underwater alien base.

387

00:22:01,000 --> 00:22:05,000

Brittany and I go way back researching UFO hotspots.

388

00:22:05,000 --> 00:22:08,000

She's done quite a lot of research about Catalina and these

389

00:22:08,000 --> 00:22:12,000

Channel Islands, so I want to see what new information she has.

390

00:22:12,000 --> 00:22:15,000

So you know, my partner Melissa and I have been hearing some

391

00:22:15,000 --> 00:22:19,000

pretty crazy stories about Catalina and the activity.

392

00:22:19,000 --> 00:22:20,000

Yes.

393

00:22:20,000 --> 00:22:22,000

So why don't we compare notes and see what's been going on?

394

00:22:22,000 --> 00:22:25,000

I'm all for it, because there seems to be a little bit of an

395

00:22:25,000 --> 00:22:27,000

uptick too recently.

396

00:22:27,000 --> 00:22:30,000

We're interviewing a lot of different people and trying to see

397

00:22:30,000 --> 00:22:32,000

what their patterns are.

398

00:22:32,000 --> 00:22:36,000

What can you tell me about all these cases that you have collected?

399

00:22:36,000 --> 00:22:42,000

I can tell you that mile for mile, the Santa Catalina Channel

400

00:22:42,000 --> 00:22:46,000

is probably one of the top producers in the world for USOs.

401

00:22:46,000 --> 00:22:53,000

I'd say there's a good handful of cases, 10, 20, where if someone

402

00:22:53,000 --> 00:22:58,000

is out on their boat and an object comes from the distance,

403

00:22:58,000 --> 00:23:00,000

they can see it through water.

404

00:23:00,000 --> 00:23:05,000

They can see it glowing and it causes some electromagnetic

405

00:23:05,000 --> 00:23:07,000

disturbance with their electrical system.

406

00:23:07,000 --> 00:23:10,000

The compass is spinning.

407

00:23:10,000 --> 00:23:14,000

Alien craft are often believed to use propulsion systems that

408

00:23:14,000 --> 00:23:17,000

produce strong electromagnetic fields.

409

00:23:17,000 --> 00:23:21,000

A common sign of their presence is a compass gone haywire.

410

00:23:21,000 --> 00:23:25,000

That case is stretching back, let's see, to 1920s.

411

00:23:25,000 --> 00:23:26,000

Wow.

412

00:23:26,000 --> 00:23:30,000

We termed USOs, unidentified submersible objects.

413

00:23:34,000 --> 00:23:38,000

We have one in particular that took place in 1966, and I have

414

00:23:38,000 --> 00:23:39,000

that footage.

415

00:23:39,000 --> 00:23:44,000

A Coast Guard photographer filming Catalina's topography caught

416

00:23:44,000 --> 00:23:48,000

this wingless disc speeding across the length of the island.

417

00:23:50,000 --> 00:23:51,000

Wow.

418

00:23:51,000 --> 00:23:52,000

Are you serious?

419

00:23:52,000 --> 00:23:55,000

It went off the back of the mountain and disappeared.

420

00:23:55,000 --> 00:24:00,000

Could this object have vanished into the water?

421

00:24:00,000 --> 00:24:04,000

Do you have any cases where they actually interact with people?

422

00:24:04,000 --> 00:24:08,000

Yeah, one case comes to mind, which is a gentleman I call Paul

423

00:24:08,000 --> 00:24:09,000

Nelson.

424

00:24:09,000 --> 00:24:10,000

That's not his real name.

425

00:24:10,000 --> 00:24:11,000

He wants to be anonymous.

426

00:24:17,000 --> 00:24:21,000

To this day, the man known as Paul lives in near constant

427

00:24:21,000 --> 00:24:23,000

dread of another abduction.

428

00:24:23,000 --> 00:24:27,000

But when he was a child in the late 1980s, he had an episode of

429

00:24:27,000 --> 00:24:28,000

missing time.

430

00:24:36,000 --> 00:24:40,000

One evening in 1987, Paul and his best friend snuck on to his

431

00:24:40,000 --> 00:24:44,000

parents' yacht, which was docked on Catalina.

432

00:24:44,000 --> 00:24:48,000

They had just bought some comic books and were super excited to

433

00:24:48,000 --> 00:24:51,000

look through them.

434

00:24:51,000 --> 00:24:55,000

The boys were just hoping for a little unsupervised fun.

435

00:24:55,000 --> 00:24:59,000

Instead, they got the shock of their lives.

436

00:24:59,000 --> 00:25:02,000

They had just gotten on the boat and boom.

437

00:25:05,000 --> 00:25:08,000

They were knocked unconscious.

438

00:25:10,000 --> 00:25:11,000

They're all alone.

439

00:25:11,000 --> 00:25:13,000

There's no parents or anything.

440

00:25:13,000 --> 00:25:14,000

Right.

441

00:25:14,000 --> 00:25:15,000

And then all of a sudden.

442

00:25:15,000 --> 00:25:17,000

Next thing they know, it's morning.

443

00:25:18,000 --> 00:25:21,000

So missing time.

444

00:25:21,000 --> 00:25:23,000

We're in a missing time situation.

445

00:25:23,000 --> 00:25:28,000

Years later, as an adult, he actually went under hypnosis.

446

00:25:28,000 --> 00:25:31,000

And under hypnosis, he was taken back to this incident on

447

00:25:31,000 --> 00:25:33,000

Catalina Island.

448

00:25:40,000 --> 00:25:44,000

Paul described being taken to what appears to be an underground

449

00:25:44,000 --> 00:25:45,000

area.

450

00:25:45,000 --> 00:25:47,000

He said it had rock walls.

451

00:25:47,000 --> 00:25:49,000

Like an undersea UFO base.

452

00:25:49,000 --> 00:25:50,000

Yes.

453

00:25:50,000 --> 00:25:52,000

It was quite large.

454

00:25:57,000 --> 00:26:02,000

He saw what he described as praying mantis-type means.

455

00:26:04,000 --> 00:26:08,000

Large, huge bulbous eyes, triangular-shaped head,

456

00:26:08,000 --> 00:26:11,000

and the claw-like hands.

457

00:26:12,000 --> 00:26:15,000

These are deathly scary.

458

00:26:15,000 --> 00:26:16,000

Oh, yeah.

459

00:26:16,000 --> 00:26:17,000

Yeah, absolutely.

460

00:26:17,000 --> 00:26:22,000

In 2021, a previous investigation led Ben to an abductee who

461

00:26:22,000 --> 00:26:25,000

also suffered at the hands of the mantis.

462

00:26:27,000 --> 00:26:28,000

Rob Follington.

463

00:26:28,000 --> 00:26:30,000

Is there anybody there with you?

464

00:26:30,000 --> 00:26:31,000

Yeah.

465

00:26:34,000 --> 00:26:36,000

I got a mantis.

466

00:26:36,000 --> 00:26:40,000

Mantis encounters are often horrifying and dangerous.

467

00:26:40,000 --> 00:26:45,000

Heaven's next, I started getting sick.

468

00:26:45,000 --> 00:26:50,000

Constant vomiting, maybe blood sometimes.

469

00:26:50,000 --> 00:26:53,000

I have really gnawing pain in my stomach.

470

00:26:55,000 --> 00:26:58,000

Many witnesses claim similar stories.

471

00:26:58,000 --> 00:27:02,000

At best, they describe their captors as emotionless insects.

472

00:27:02,000 --> 00:27:08,000

At worst, they describe an alien species intent on destroying

473

00:27:08,000 --> 00:27:09,000

humanity.

474

00:27:12,000 --> 00:27:15,000

Do you have any other cases involving not just boaters,

475

00:27:15,000 --> 00:27:19,000

but possibly pilots that have come over USOs?

476

00:27:19,000 --> 00:27:21,000

Is Noah Pheliz?

477

00:27:27,000 --> 00:27:29,000

Who had a really extraordinary encounter.

478

00:27:29,000 --> 00:27:34,000

Just like Paul Nelson, Noah Pheliz has asked to remain anonymous.

479

00:27:34,000 --> 00:27:38,000

And the story of his encounter makes it easy to understand why

480

00:27:38,000 --> 00:27:41,000

he lives in fear of the mantis.

481

00:27:48,000 --> 00:27:53,000

Key and, I believe it was his cousin had taken off in a little

482

00:27:53,000 --> 00:27:54,000

Piper Cherokee.

483

00:27:54,000 --> 00:27:58,000

This was January 26, 1980.

484

00:28:04,000 --> 00:28:07,000

And they saw something on the water.

485

00:28:09,000 --> 00:28:10,000

It did not look normal.

486

00:28:10,000 --> 00:28:14,000

And there were people on deck who also didn't look normal.

487

00:28:18,000 --> 00:28:22,000

So he actually deviated from his flight plan and pulled a U-turn

488

00:28:22,000 --> 00:28:25,000

to come around and take a closer look.

489

00:28:29,000 --> 00:28:32,000

This is when things got really interesting.

490

00:28:32,000 --> 00:28:37,000

He's looking down at these things and a beam of light comes from

491

00:28:37,000 --> 00:28:40,000

this object and strikes his plane.

492

00:28:44,000 --> 00:28:46,000

He had a time distortion.

493

00:28:46,000 --> 00:28:49,000

He wasn't quite sure how long this happened.

494

00:28:50,000 --> 00:28:53,000

He estimates it was a good 30 seconds or so.

495

00:28:53,000 --> 00:28:55,000

It was as if time stopped.

496

00:28:56,000 --> 00:28:59,000

To me, that's a red flag.

497

00:28:59,000 --> 00:29:03,000

There's more to this encounter than he might perceive.

498

00:29:06,000 --> 00:29:10,000

Next thing he knows, he's being rescued out of the water.

499

00:29:10,000 --> 00:29:15,000

And they estimate that he was actually underwater for about 20 minutes.

500

00:29:15,000 --> 00:29:18,000

His cousin did not actually survive this accident.

501

00:29:21,000 --> 00:29:24,000

Noah's cousin was killed in a car accident.

502

00:29:25,000 --> 00:29:28,000

He was even drowned before help could arrive.

503

00:29:28,000 --> 00:29:29,000

But Noah did.

504

00:29:32,000 --> 00:29:36,000

This doesn't seem like a friendly, I'd like to get to know you, situation.

505

00:29:36,000 --> 00:29:38,000

No, it doesn't.

506

00:29:38,000 --> 00:29:40,000

Rad Castle.

507

00:29:40,000 --> 00:29:42,000

Kathleen Hill.

508

00:29:43,000 --> 00:29:45,000

Noah Feliz.

509

00:29:45,000 --> 00:29:46,000

Paul Nelson.

510

00:29:46,000 --> 00:29:49,000

The list of witnesses is growing.

511

00:29:49,000 --> 00:29:52,000

What's the pattern in all these cases that seem to be happening out the coast?

512

00:29:52,000 --> 00:29:56,000

This is definitely something I've looked into very deeply.

513

00:29:56,000 --> 00:29:58,000

I catalogued all these cases.

514

00:29:58,000 --> 00:30:00,000

I put them out on a map.

515

00:30:00,000 --> 00:30:02,000

I can show you these maps, actually.

516

00:30:02,000 --> 00:30:07,000

Could Preston's research point to the location of the undersea bay entrance?

517

00:30:07,000 --> 00:30:09,000

Let's start with Paul Nelson.

518

00:30:11,000 --> 00:30:15,000

So that would be an Avalon Bay right here.

519

00:30:15,000 --> 00:30:16,000

Okay.

520

00:30:17,000 --> 00:30:19,000

Noah Feliz's case.

521

00:30:22,000 --> 00:30:25,000

That would be right around here.

522

00:30:25,000 --> 00:30:27,000

And then anything else?

523

00:30:27,000 --> 00:30:30,000

Yeah, there was a scuba diver where she was taken.

524

00:30:30,000 --> 00:30:32,000

Oh, really?

525

00:30:33,000 --> 00:30:36,000

Is there a name for this scuba diver?

526

00:30:37,000 --> 00:30:39,000

Her name is Lori.

527

00:30:39,000 --> 00:30:40,000

Okay.

528

00:30:41,000 --> 00:30:43,000

There's a lot going on here.

529

00:30:43,000 --> 00:30:49,000

I guess, and there's a parking lot down there, if not a base of some kind.

530

00:30:50,000 --> 00:30:54,000

Based on a huge number of reports, there are deep trenches.

531

00:30:54,000 --> 00:30:59,000

There are plenty of places for USOs to hide.

532

00:31:00,000 --> 00:31:06,000

If your theory is correct that there's some kind of base off the coast of Catalina,

533

00:31:06,000 --> 00:31:10,000

why do you think that they would travel all the way from wherever they're supposed to travel,

534

00:31:10,000 --> 00:31:13,000

find a trench, set up a base?

535

00:31:13,000 --> 00:31:17,000

One possibility is that they've been here much longer than we have.

536

00:31:17,000 --> 00:31:19,000

They've always had a base down there.

537

00:31:19,000 --> 00:31:21,000

Why not?

538

00:31:21,000 --> 00:31:25,000

And this is a perfect place for them to sort of hide out.

539

00:31:25,000 --> 00:31:29,000

They can do all the activities that they want to do.

540

00:31:29,000 --> 00:31:37,000

Uploading people, studying our planet, studying us, and be undetected.

541

00:31:38,000 --> 00:31:45,000

While Melissa meets with Preston, Ben zeroes in on where to take their investigation next with researcher Brittany Barbieri.

542

00:31:45,000 --> 00:31:48,000

Okay, so now we have an area of interest.

543

00:31:48,000 --> 00:31:50,000

A starting point.

544

00:31:50,000 --> 00:31:52,000

Okay, okay.

545

00:31:52,000 --> 00:31:59,000

So my question would be then, if people believe there's a base there, why would you even need a base?

546

00:31:59,000 --> 00:32:01,000

Two reasons.

547

00:32:01,000 --> 00:32:05,000

You could have, if they're bringing stuff back to their own planet, if their planet's failing or dying,

548

00:32:05,000 --> 00:32:07,000

just like we're trying to do with Mars.

549

00:32:07,000 --> 00:32:10,000

We're looking at the potential of the future of our planet.

550

00:32:10,000 --> 00:32:14,000

If our planet starts to collapse, where can we go and what can we do?

551

00:32:15,000 --> 00:32:18,000

Well, what resources do we have here that might benefit them on their planet?

552

00:32:18,000 --> 00:32:20,000

That's an option one.

553

00:32:20,000 --> 00:32:24,000

Okay, so maybe they're using it like a collection point.

554

00:32:24,000 --> 00:32:25,000

Yeah.

555

00:32:25,000 --> 00:32:28,000

Or sort of like the lily pad theory.

556

00:32:28,000 --> 00:32:37,000

Like if you're going to have maybe need refueling for something or a base to collect information or resources,

557

00:32:37,000 --> 00:32:44,000

heaven forbid that most or all of these stories of abductions are true.

558

00:32:44,000 --> 00:32:53,000

Where people reporting underground underwater things happening, that would be a place to examine.

559

00:32:53,000 --> 00:32:54,000

Uh-huh.

560

00:32:54,000 --> 00:33:03,000

Right, to do all that and you don't have to go off world to go do it or hide your ship somewhere else underwater you're undisturbed.

561

00:33:03,000 --> 00:33:04,000

Exactly.

562

00:33:04,000 --> 00:33:06,000

No one even knows you're there.

563

00:33:06,000 --> 00:33:14,000

Well, I mean, if you were going to build a base, why not put it somewhere thousands of feet below the surface where you could do whatever you want.

564

00:33:14,000 --> 00:33:15,000

Exactly.

565

00:33:15,000 --> 00:33:16,000

Thank you.

566

00:33:16,000 --> 00:33:27,000

Ben and Brittany focus on an area mere miles from where Brad Castle had his encounter with the USO.

567

00:33:27,000 --> 00:33:34,000

It's also the epicenter of numerous other sightings in the area.

568

00:33:34,000 --> 00:33:41,000

Could an entrance to a potential alien base lie in the trenches surrounding Catalina?

569

00:33:41,000 --> 00:33:46,000

I think it might be an interesting place to get in the water and just check it out.

570

00:33:46,000 --> 00:33:47,000

I would think so.

571

00:33:47,000 --> 00:33:50,000

You have a perfect spot and now we know exactly the area.

572

00:33:50,000 --> 00:33:53,000

Why wouldn't we want to get in the water and check for ourselves?

573

00:33:53,000 --> 00:34:04,000

This is really helpful because now we not only have eyewitness accounts, but we can overlay that literally on a map where we know it's very deep there.

574

00:34:04,000 --> 00:34:07,000

It's a great starting place and I can't wait to get out there.

575

00:34:08,000 --> 00:34:15,000

All the victims who encountered either Mantis or a USO were within a dozen miles of one another.

576

00:34:15,000 --> 00:34:28,000

And at the epicenter of those encounters, the Feralon trench on the southwest side of Catalina reaches a depth of over a mile.

577

00:34:28,000 --> 00:34:36,000

So early the next morning, Ben, Melissa and Brittany head out to investigate.

578

00:34:38,000 --> 00:34:44,000

2,000, 2,500 feet. It really comes off that shelf.

579

00:34:44,000 --> 00:34:48,000

Maybe we could spin this around and we'll find that that's diveable and go for it.

580

00:34:48,000 --> 00:34:49,000

I love it.

581

00:34:56,000 --> 00:35:03,000

Ben's plan is to dive to a depth of 120 feet and swim to see how quickly the trench drops off.

582

00:35:03,000 --> 00:35:07,000

Could an underwater alien base hide in these waters?

583

00:35:07,000 --> 00:35:09,000

How's it going guys?

584

00:35:09,000 --> 00:35:10,000

Good.

585

00:35:10,000 --> 00:35:12,000

Getting ready, getting suited up, feeling comfortable.

586

00:35:12,000 --> 00:35:16,000

I'm going to be up top with Melissa. She's actually upstairs getting the comms ready right now.

587

00:35:16,000 --> 00:35:20,000

So I really want to pay attention to what you might be getting down below.

588

00:35:20,000 --> 00:35:23,000

So anything that you see, anything you might feel, let us know.

589

00:35:23,000 --> 00:35:26,000

Let her know she's going to have the head gear on. We're going to go from there.

590

00:35:33,000 --> 00:35:35,000

That's your Peter Duke's ride.

591

00:36:04,000 --> 00:36:08,000

This is Melissa. Test, test, test. Can you hear me?

592

00:36:13,000 --> 00:36:19,000

Ben, can you tell us what your visibility is? How far is the drop off? Can you see the bottom?

593

00:36:20,000 --> 00:36:26,000

This is Tony's monarchy, maybe 40, 50 feet, but there's coming up to the sea field now, it looks like.

594

00:36:28,000 --> 00:36:33,000

The poor conditions make it difficult for Ben to fully take in his surroundings.

595

00:36:34,000 --> 00:36:40,000

Notice that I think she needs so far, heading over to where it drops off.

596

00:36:40,000 --> 00:36:51,000

Wow, look at that. Melissa, you see the edge of it. It looks like it drops off a lot into the sea.

597

00:36:51,000 --> 00:36:58,000

This drop off into the Farallon Trench is at the center of all the USO activity Ben and Melissa have investigated.

598

00:36:59,000 --> 00:37:02,000

Ben, that large could be a good place to investigate.

599

00:37:03,000 --> 00:37:05,000

Copy that. Turn it over.

600

00:37:11,000 --> 00:37:13,000

That's a little bit too big.

601

00:37:14,000 --> 00:37:23,000

It's really rocky. The car if it rises and falls a lot. It's really kind of creepy down here. Not many fish are in.

602

00:37:28,000 --> 00:37:33,000

As Ben approaches the undersea ledge, something odd starts to happen.

603

00:37:33,000 --> 00:37:38,000

Andy, I'm getting some strange ratings on my comfort. Over here.

604

00:37:42,000 --> 00:37:44,000

Something really unusual.

605

00:37:45,000 --> 00:37:46,000

Repeat that please.

606

00:37:47,000 --> 00:37:50,000

I can't get down starting the event.

607

00:37:52,000 --> 00:37:55,000

Ben, Ben, can you repeat?

608

00:37:59,000 --> 00:38:01,000

That looks like radio silence.

609

00:38:02,000 --> 00:38:07,000

Melissa tries several different channels, but the comms with Ben have gone dead.

610

00:38:07,000 --> 00:38:09,000

I know. Thanks for your nervous.

611

00:38:10,000 --> 00:38:12,000

All she and Brittany can do is wait.

612

00:38:14,000 --> 00:38:23,000

It's like the nerve-wracking part. Just like your radio frequency. If the magnetism is strong, you're going to start getting spikes in the sound.

613

00:38:23,000 --> 00:38:28,000

So it would pick up if he's over top of something that's amplifying that.

614

00:38:28,000 --> 00:38:36,000

If Brittany's theory is correct, something is giving off magnetic frequencies strong enough to shut the comms down.

615

00:38:38,000 --> 00:38:40,000

Topside. That's us.

616

00:38:41,000 --> 00:38:44,000

I can hear you. This is Melissa. We can hear you.

617

00:38:59,000 --> 00:39:02,000

Oh wait, they just came up. Hey guys!

618

00:39:06,000 --> 00:39:11,000

It was a little scary there. We couldn't hear you. There was like three minutes where there was nothing.

619

00:39:11,000 --> 00:39:13,000

The comms did go down for a little bit.

620

00:39:13,000 --> 00:39:14,000

Yeah, they did.

621

00:39:14,000 --> 00:39:21,000

What happened is that I swear to you, the compass moved at about 45 degrees.

622

00:39:24,000 --> 00:39:26,000

Seriously? Really? Wow.

623

00:39:26,000 --> 00:39:30,000

They got down there and yours was digitally cracked as well.

624

00:39:30,000 --> 00:39:33,000

Yeah, put it right close to yours. All the same things.

625

00:39:34,000 --> 00:39:43,000

A 45 degree change is huge. Most magnetic anomalies that occur naturally on Earth alter readings by 5 degrees.

626

00:39:44,000 --> 00:39:52,000

The largest natural anomaly on Earth, a 50 billion ton iron deposit in Russia, spins compasses 15 degrees.

627

00:39:53,000 --> 00:39:57,000

In fact, being near a lightning strike will spin your compass 18 degrees.

628

00:39:59,000 --> 00:40:06,000

Whatever's moved Ben's compass and jammed his comms was nearly three times stronger than a lightning strike.

629

00:40:07,000 --> 00:40:13,000

I would not want to be in a deep fog or anything here because this is like a mini-Bremita triangle.

630

00:40:14,000 --> 00:40:15,000

Wow, that's awesome.

631

00:40:15,000 --> 00:40:18,000

Yeah, let's say you were trying to hide something here.

632

00:40:18,000 --> 00:40:19,000

I mean, that's a perfect spot.

633

00:40:19,000 --> 00:40:20,000

This would be a great place to hide.

634

00:40:20,000 --> 00:40:24,000

Yeah, on the best part about that too is let's say you are hiding there using that as a disguise.

635

00:40:24,000 --> 00:40:26,000

If someone's trying to come over, you're trying to locate.

636

00:40:26,000 --> 00:40:29,000

If everything's off, you're not going to be able to locate or pinpoint an exact spot.

637

00:40:29,000 --> 00:40:33,000

No, and the other thing too is our visibility. I'd say what, about 40 feet?

638

00:40:33,000 --> 00:40:34,000

Yeah, yeah.

639

00:40:34,000 --> 00:40:41,000

But as you drop off into the deep and we've got our lights out, you're not going to reach this recreationally diving.

640

00:40:41,000 --> 00:40:47,000

You're not going to be able to just even, you'd have trouble setting a drone down to get down into the deep trenches here.

641

00:40:47,000 --> 00:40:48,000

Yeah.

642

00:40:48,000 --> 00:40:52,000

Right, so it's exactly what we were looking for.

643

00:40:52,000 --> 00:40:55,000

Let's head back into shore and on the way we take you to the start.

644

00:40:55,000 --> 00:40:56,000

Sounds good.

645

00:40:56,000 --> 00:40:59,000

You can't blame people for saying there's an alien base down there.

646

00:40:59,000 --> 00:41:01,000

I mean, the compass hit was really freaky.

647

00:41:09,000 --> 00:41:11,000

Well, that was really weird.

648

00:41:11,000 --> 00:41:15,000

You know, I've dove a lot and quite a bit out in Catalina.

649

00:41:15,000 --> 00:41:20,000

I've never had my instruments spin, you know, like the compass did.

650

00:41:23,000 --> 00:41:27,000

There was some strange interference that we were having as well.

651

00:41:27,000 --> 00:41:34,000

When you'd have your EMF meter up above on land, right, as long as you're away from power lines and all this stuff,

652

00:41:34,000 --> 00:41:37,000

you shouldn't have any interference, but underwater it's even more so.

653

00:41:37,000 --> 00:41:43,000

Like, there's nothing down there that should have been causing my compass to deviate like it did.

654

00:41:43,000 --> 00:41:50,000

I could even talk to my safety diver, like right near me through the comms.

655

00:41:53,000 --> 00:41:55,000

So I was thinking about all this and I actually got a map.

656

00:41:55,000 --> 00:41:57,000

I sent it to you on your phone there.

657

00:41:57,000 --> 00:41:59,000

Okay, let me see.

658

00:41:59,000 --> 00:42:02,000

It was provided to me by a geophysicist.

659

00:42:02,000 --> 00:42:08,000

What is really cool if you look on the backside of Catalina, right where we were diving,

660

00:42:08,000 --> 00:42:12,000

you see the high, the really bright red and pink area.

661

00:42:12,000 --> 00:42:14,000

It's like this tiny little spot.

662

00:42:14,000 --> 00:42:22,000

Yeah, so that indicates really high magnetism and from the surrounding area it just stands out.

663

00:42:22,000 --> 00:42:27,000

This is the exact spot that Ben investigated on his dive.

664

00:42:27,000 --> 00:42:36,000

The small red dot on the backside of Catalina Island indicates one of the most intense electromagnetic hotspots on the planet.

665

00:42:37,000 --> 00:42:45,000

Is it a naturally occurring anomaly, creating the perfect cover for an entrance to an alien base?

666

00:42:45,000 --> 00:42:51,000

Or maybe it's the result of a hidden extraterrestrial stronghold.

667

00:42:51,000 --> 00:42:56,000

And then also over by San Clementi Island, where the Navy is.

668

00:42:56,000 --> 00:43:00,000

All of these sightings are near military facilities.

669

00:43:00,000 --> 00:43:09,000

And what I'm thinking, this is a natural feature because of the geological fault lines and plates and things that are running under there,

670

00:43:09,000 --> 00:43:20,000

causing the magnetism and these visitors, whoever they are, are using that magnetism as sort of like a way to hide their signature.

671

00:43:20,000 --> 00:43:27,000

So if you created a base and you didn't want it to be discovered, you're hiding it because there's already an area of high magnetism.

672

00:43:27,000 --> 00:43:32,000

And then that's how they're hiding so nobody can really detect that they're there.

673

00:43:32,000 --> 00:43:39,000

Ben and Melissa's investigation has revealed shape-shifting craft near key military facilities,

674

00:43:39,000 --> 00:43:47,000

blowing orb UFOs over New England and USOs off Southern California.

675

00:43:47,000 --> 00:43:54,000

Are blue Syrian, insectoid and mantis alien species planting their flags on the United States?

676

00:43:54,000 --> 00:43:58,000

And if so, where else might they be invading?

677

00:43:58,000 --> 00:44:03,000

You know what's interesting? I came across a case up in Idaho.

678

00:44:03,000 --> 00:44:10,000

It surrounds this lake, Pondarray. There's a Navy base on one end of the lake.

679

00:44:10,000 --> 00:44:15,000

There's parts of the lake that are over a thousand feet deep.

680

00:44:15,000 --> 00:44:22,000

And this woman told me that there are crafts that land in the lake, come out of the lake.

681

00:44:22,000 --> 00:44:25,000

We need to get up there and check it out.

682

00:44:25,000 --> 00:44:39,000

On the next UFO witness, the skies above northern Idaho are swarmed by a strange class of fireball UFOs.

683

00:44:39,000 --> 00:44:44,000

Could this incident be related to what's happening in Catalina?

684

00:44:44,000 --> 00:44:50,000

Or is it yet another race of aliens zeroing in on our planet?

685

00:44:50,000 --> 00:44:57,000

My husband and I both born and raised here. I heard a lot of talk about things flying over. Nobody knew what it was.

686

00:44:57,000 --> 00:45:02,000

Witnesses claim they have been the victims of harrowing abductions.

687

00:45:02,000 --> 00:45:11,000

I woke up while it was dark in my room. Two small people, they were trying to pull me off the bed and I couldn't scream.

688

00:45:11,000 --> 00:45:15,000

By mysterious aliens known as the Star People.

689

00:45:15,000 --> 00:45:18,000

He had great big eyes and was a little skinny guy.

690

00:45:18,000 --> 00:45:21,000

Being said, I want you to come with me.

691

00:45:21,000 --> 00:45:27,000

Could this alien race have set their sights on the Northwest?
