

1

00:00:00,000 --> 00:00:24,700

Music

2

00:02:00,000 --> 00:02:16,240

In April of this year, a handful of noisy skeptics and debunkers alleged that as a result of

3

00:02:16,240 --> 00:02:21,800

declining UFO reports and UFO footage, public interest in the phenomena had followed a similar

4

00:02:21,800 --> 00:02:23,600

declining path.

5

00:02:23,600 --> 00:02:28,680

Moreover, they alleged that the space around us is dead.

6

00:02:28,680 --> 00:02:33,240

While NASA and the vast majority of scientists and astronomers around the world would take

7

00:02:33,240 --> 00:02:37,200

issue with the latter claim, what of the rest?

8

00:02:37,200 --> 00:02:42,400

The truth is that worldwide, UFO reports have actually shown a marked increase in recent

9

00:02:42,400 --> 00:02:43,400

years.

10

00:02:43,400 --> 00:02:48,920

For example, here at UFO magazine, reports submitted since the turn of the year by members

11

00:02:48,920 --> 00:02:54,920

of the public and UFO researchers alike equate to a 50% increase on the same corresponding

12

00:02:54,920 --> 00:02:57,720

period of 2001.

13

00:02:57,720 --> 00:03:03,160

And with that, has come a comparable increase in UFO footage.

14

00:03:03,160 --> 00:03:09,840

As with UFO reports, approximately 95% of alleged UFO footage can, after proper research

15

00:03:09,840 --> 00:03:13,960

and analysis, be explained in conventional terms.

16

00:03:13,960 --> 00:03:19,120

Quite often, this process may take but a few minutes in detecting the telltale characteristics

17

00:03:19,120 --> 00:03:26,360

or signatures of an aircraft, or planet, or even a star.

18

00:03:27,160 --> 00:03:31,320

But once you have addressed these, and countless other explanations that might account for

19

00:03:31,320 --> 00:03:38,000

the unusual anomalous object or light scene, you are left, as with UFO reports, with a

20

00:03:38,000 --> 00:03:43,960

small residue of videotape sequences that defy all logic and explanation.

21

00:03:43,960 --> 00:03:50,200

When faced with these, skeptics and debunkers will often cry, fake at best, or simply ignore

22

00:03:50,200 --> 00:03:54,000

them at worst, as is their custom.

23

00:03:54,000 --> 00:04:00,320

When analyzing alleged UFO footage, UFO magazine's Russell Callahan applies a totally objective

24

00:04:00,320 --> 00:04:01,320

stance.

25

00:04:01,320 --> 00:04:06,600

Often, those who submit what they believe to be genuine UFO footage vehemently disagree

26

00:04:06,600 --> 00:04:08,840

with his conclusions.

27

00:04:08,840 --> 00:04:13,320

But what leads him to arrive at those conclusions in the first place?

28

00:04:13,320 --> 00:04:18,440

Who better to respond to that question than Russell Callahan himself?

29

00:04:18,440 --> 00:04:19,440

Thank you Graham.

30

00:04:19,440 --> 00:04:23,800

Well, welcome to the office.

31

00:04:23,800 --> 00:04:33,200

Here at UFO magazine, one of my jobs involves analyzing alleged images of UFOs.

32

00:04:33,200 --> 00:04:40,960

Now, grand though that may sound, it is in actual fact a very arduous task.

33

00:04:40,960 --> 00:04:47,200

Over the last five or six years here at UFO magazine, we've had literally hundreds of

34

00:04:47,200 --> 00:04:50,280

videotapes sent through the doors.

35

00:04:50,280 --> 00:04:57,760

This subject, according to some of the popular press, is a subject that's dead on its feet.

36

00:04:57,760 --> 00:04:59,920

Absolute rubbish is what I can say to that.

37

00:04:59,920 --> 00:05:05,920

The videotapes just keep coming and coming and coming and photographs, not just digital

38

00:05:05,920 --> 00:05:06,920

photographs.

39

00:05:06,920 --> 00:05:12,160

We know, you know, we're living in an electronic age, if you like, and it's very easy and very

40

00:05:12,160 --> 00:05:19,840

fast to be able to generate images and broadcast them around the world now with the advent of

41

00:05:19,840 --> 00:05:22,960

the internet.

42

00:05:22,960 --> 00:05:28,600

But real photographs, you know, on celluloid film, these things are still being taken.

43

00:05:28,600 --> 00:05:35,280

People are actually still taking the time out to approach UFO magazine or approach UFO

44

00:05:35,280 --> 00:05:41,360

researchers because they believe they've actually witnessed, filmed and photographed something

45

00:05:42,000 --> 00:05:44,480

that's not quite the norm.

46

00:05:44,480 --> 00:05:45,480

That's great.

47

00:05:45,480 --> 00:05:53,480

And, you know, without the UFO business, there'd be no UFO magazine, and without UFO reports,

48

00:05:53,480 --> 00:05:57,880

you know, there'd be nothing to put in there.

49

00:05:57,880 --> 00:06:02,880

Over the last five or six years, there's been no such thing as a decline.

50

00:06:02,880 --> 00:06:05,760

The subject seems to have grown and grown and grown.

51

00:06:05,760 --> 00:06:10,360

And probably if we go back, you know, these five or six years, and let's just have a quick

52

00:06:10,400 --> 00:06:11,400

recap.

53

00:06:11,400 --> 00:06:16,720

And 10 years ago, the price of a domestic camcorder was, you know, you could go out and buy a

54

00:06:16,720 --> 00:06:20,240

car just as cheap.

55

00:06:20,240 --> 00:06:26,240

This day and age, you can go out and pick an 8mm or high 8mm video camera up for about

56

00:06:26,240 --> 00:06:27,240

£299.

57

00:06:27,240 --> 00:06:33,920

Now, it's still an awful lot of money, but it's a quarter or if not a fifth the price

58

00:06:33,920 --> 00:06:36,960

it used to be just a few years ago.

59

00:06:36,960 --> 00:06:42,760

So we've got to accept that then there are far more camcorders out in the general public,

60

00:06:42,760 --> 00:06:43,920

if you like.

61

00:06:43,920 --> 00:06:49,920

There are also professionals out there that are filming strange objects.

62

00:06:49,920 --> 00:06:56,920

Recently, we've out-footed a police helicopter and made available to UFO magazine.

63

00:06:57,520 --> 00:07:01,560

We actually showed it at the conference last year, and hopefully we can show you a little

64

00:07:01,560 --> 00:07:06,440

clip of that further along in this particular video.

65

00:07:06,440 --> 00:07:12,920

All sorts and all means of images and occurrences have been happening over the past few years.

66

00:07:12,920 --> 00:07:19,920

And of course, let's not forget the amazing scenes that we've seen and been captured by

67

00:07:20,000 --> 00:07:21,000

several people.

68

00:07:21,000 --> 00:07:28,000

Martin Stubbs, Geoff Chalander, Les Willie and the Alice have all been able to make available

69

00:07:28,000 --> 00:07:34,720

images that, quite frankly, should be embarrassing to NASA.

70

00:07:34,880 --> 00:07:37,800

We're going to show you some more of that further on in this video.

71

00:07:37,800 --> 00:07:41,520

So please let no one tell us that the subject's dead.

72

00:07:41,520 --> 00:07:46,760

What we've done it for this particular section, spotlight on UFO footage, yes, over the last

73

00:07:46,760 --> 00:07:53,760

five or six years, it's no over exaggeration that we've received literally hundreds and

74

00:07:54,440 --> 00:07:57,640

hundreds of videotapes.

75

00:07:57,640 --> 00:08:04,640

We're going to this 95 percent, it's probably more than 95 percent, are mistaken identities.

76

00:08:05,640 --> 00:08:06,960

Easy done.

77

00:08:06,960 --> 00:08:12,080

Newcomers to camcorders, newcomers to sky watching, see a satellite, wow, we've got something,

78

00:08:12,080 --> 00:08:14,720

we can't see any wings, et cetera.

79

00:08:14,720 --> 00:08:15,720

That's fine.

80

00:08:15,720 --> 00:08:19,680

Mistaken shots of planets, and that's fine also.

81

00:08:19,680 --> 00:08:24,800

But there are those occasions where that hardcore percentage keeps coming through that's not

82

00:08:24,800 --> 00:08:27,960

so easy to actually dismiss.

83

00:08:27,960 --> 00:08:33,320

We've got quite a good few examples of the like.

84

00:08:33,320 --> 00:08:40,320

We've also got some interesting developments in if we all think back to 1994 or five, I

85

00:08:41,640 --> 00:08:48,640

believe it was, when the first Tuesday documentary was aired in Great Britain.

86

00:08:49,080 --> 00:08:55,760

We had the guy from Panasonic, Simon Nash, dismissing the diamond shape UFO as nothing

87

00:08:55,760 --> 00:09:02,080

more than an iris motor effect, and something that happened when bright lights, the iris

88

00:09:02,120 --> 00:09:07,760

motor and the lens records this shape, and it can't resolve the image, so it gives you

89

00:09:07,760 --> 00:09:10,400

this beautiful diamond shape on the screen.

90

00:09:10,400 --> 00:09:17,400

Well, we were very wary of that explanation in the first instance because of angles, et

91

00:09:17,800 --> 00:09:20,120

cetera, now things didn't seem to fit.

92

00:09:20,120 --> 00:09:27,120

But we've now got some new examples of that, but we've also got a fabulous example from

93

00:09:27,240 --> 00:09:32,320

Australia where the diamond shape is seen in the sky, but as the camera focuses through

94

00:09:32,320 --> 00:09:36,600

the diamond shape, then there is an object behind it, and there's also a very strange

95

00:09:36,600 --> 00:09:41,240

occurrence which you're going to see hopefully for the first time on this particular video.

96

00:09:41,240 --> 00:09:46,320

But there's a lot of material to get through, so sit back and enjoy it.

97

00:09:46,320 --> 00:09:50,800

We'll give you the close-ups where we can, and as much information about the footage

98

00:09:50,800 --> 00:09:52,760

as we can on screen.

99

00:09:52,760 --> 00:09:58,240

But this particular cut's being put to some nice music, so sit back for the next 15, 20

100

00:09:58,240 --> 00:10:05,240

minutes or so, and enjoy some really good UFO footage.

101

00:10:16,440 --> 00:10:19,800

I want you to know you were never there.

102

00:10:19,800 --> 00:10:26,800

I didn't understand what he meant, because I said yes I was.

103

00:10:26,800 --> 00:10:28,800

I said no, you weren't.

104

00:10:28,800 --> 00:10:29,800

I said yes I was.

105

00:10:29,800 --> 00:10:30,800

He said, can't you get this through your head?

106

00:10:30,800 --> 00:10:31,800

You never saw anything.

107

00:10:31,800 --> 00:10:32,800

You were not there.

108

00:10:32,800 --> 00:10:33,800

You don't know anything.

109

00:10:33,800 --> 00:10:34,800

And he said, you know, this is a big desert out here.

110

00:10:34,800 --> 00:10:35,800

You can just take you out in the middle of this desert and no one will ever find your

111

00:10:35,800 --> 00:10:36,800

body.

112

00:10:36,800 --> 00:10:37,800

He said, you'll be nothing but bones and nobody will ever know how to handle you.

113

00:10:37,800 --> 00:10:38,800

And I said, you know, this is a big desert out here.

114

00:10:38,800 --> 00:10:39,800

You can just take you out in the middle of this desert and no one will ever find your

115

00:10:39,800 --> 00:10:40,800

body.

116

00:10:40,800 --> 00:10:41,800

He said, you'll be nothing but bones and nobody will ever know how to handle you.

117

00:10:41,800 --> 00:10:42,800

And I said, you know, this is a big desert out here.

118

00:10:42,800 --> 00:10:44,800

You can just take you out in the middle of this desert and no one will ever find your

119

00:10:44,800 --> 00:10:45,800

body.

120

00:10:45,800 --> 00:10:46,800

He said, you'll be nothing but bones and nobody will ever know how to handle you.

121

00:10:46,800 --> 00:10:47,800

And I thought if I would not talk about it.

122

00:10:47,800 --> 00:10:48,800

I thought if I would not talk about it.

123

00:10:48,800 --> 00:10:49,800

I thought if I would not talk about it.

124

00:10:49,800 --> 00:10:50,800

I thought if I would not talk about it.

125

00:10:50,800 --> 00:10:51,800

I thought if I would not talk about it.

126

00:10:51,800 --> 00:10:52,800

I thought if I would not talk about it.

127

00:10:52,800 --> 00:10:53,800

I thought if I would not talk about it.

128

00:10:53,800 --> 00:10:54,800

I thought if I would not talk about it.

129

00:10:54,800 --> 00:10:55,800

I thought if I would not talk about it.

130

00:10:55,800 --> 00:10:56,800

I thought if I would not talk about it.

131

00:10:56,800 --> 00:10:57,800

I thought if I would not talk about it.

132

00:10:57,800 --> 00:10:58,800

I thought if I would not talk about it.

133

00:10:58,800 --> 00:10:59,800

I thought if I would not talk about it.

134

00:10:59,800 --> 00:11:00,800

I thought if I would not talk about it.

135

00:11:00,800 --> 00:11:01,800

I thought if I would not talk about it.

136

00:11:30,800 --> 00:11:32,800

I thought if I would not talk about it.

137

00:11:32,800 --> 00:11:34,800

I thought if I would not talk about it.

138

00:11:34,800 --> 00:11:36,800

I thought if I would not talk about it.

139

00:11:36,800 --> 00:11:38,800

I thought if I would not talk about it.

140

00:11:38,800 --> 00:11:40,800

I thought if I would not talk about it.

141

00:11:40,800 --> 00:11:42,800

I thought if I would not talk about it.

142

00:11:42,800 --> 00:11:44,800

I thought if I would not talk about it.

143

00:11:44,800 --> 00:11:46,800

I thought if I would not talk about it.

144

00:11:46,800 --> 00:11:48,800

I thought if I would not talk about it.

145

00:11:48,800 --> 00:11:50,800

I thought if I would not talk about it.

146

00:11:50,800 --> 00:11:52,800

I thought if I would not talk about it.

147

00:11:52,800 --> 00:11:54,800

I thought if I would not talk about it.

148

00:11:54,800 --> 00:11:56,800

I thought if I would not talk about it.

149

00:11:56,800 --> 00:11:58,800

I thought if I would not talk about it.

150

00:11:58,800 --> 00:12:00,800

I thought if I would not talk about it.

151

00:12:00,800 --> 00:12:02,800

I thought if I would not talk about it.

152

00:12:02,800 --> 00:12:04,800

I thought if I would not talk about it.

153

00:12:04,800 --> 00:12:06,800

I thought if I would not talk about it.

154

00:12:06,800 --> 00:12:08,800

I thought if I would not talk about it.

155

00:12:08,800 --> 00:12:10,800

I thought if I would not talk about it.

156

00:12:10,800 --> 00:12:12,800

I thought if I would not talk about it.

157

00:12:12,800 --> 00:12:14,800

I thought if I would not talk about it.

158

00:12:14,800 --> 00:12:16,800

I thought if I would not talk about it.

159

00:12:16,800 --> 00:12:18,800

I thought if I would not talk about it.

160

00:12:18,800 --> 00:12:20,800

I thought if I would not talk about it.

161

00:12:20,800 --> 00:12:22,800

I thought if I would not talk about it.

162

00:12:22,800 --> 00:12:24,800

I thought if I would not talk about it.

163

00:12:24,800 --> 00:12:26,800

I thought if I would not talk about it.

164

00:12:26,800 --> 00:12:28,800

I thought if I would not talk about it.

165

00:12:28,800 --> 00:12:30,800

I thought if I would not talk about it.

166

00:12:30,800 --> 00:12:32,800

I thought if I would not talk about it.

167

00:12:32,800 --> 00:12:34,800

I thought if I would not talk about it.

168

00:12:34,800 --> 00:12:36,800

I thought if I would not talk about it.

169

00:12:36,800 --> 00:12:38,800

I thought if I would not talk about it.

170

00:12:38,800 --> 00:12:40,800

I thought if I would not talk about it.

171

00:12:40,800 --> 00:12:42,800

I thought if I would not talk about it.

172

00:12:42,800 --> 00:12:44,800

I thought if I would not talk about it.

173

00:12:44,800 --> 00:12:46,800

I thought if I would not talk about it.

174

00:12:46,800 --> 00:12:48,800

I thought if I would not talk about it.

175

00:12:48,800 --> 00:12:50,800

I thought if I would not talk about it.

176

00:12:50,800 --> 00:12:52,800

I thought if I would not talk about it.

177

00:12:52,800 --> 00:12:54,800

I thought if I would not talk about it.

178

00:12:54,800 --> 00:12:56,800

I thought if I would not talk about it.

179

00:12:56,800 --> 00:12:58,800

I thought if I would not talk about it.

180

00:12:58,800 --> 00:13:00,800

I thought if I would not talk about it.

181

00:13:00,800 --> 00:13:02,800

I thought if I would not talk about it.

182

00:13:02,800 --> 00:13:04,800

I thought if I would not talk about it.

183

00:13:04,800 --> 00:13:06,800

I thought if I would not talk about it.

184

00:13:06,800 --> 00:13:08,800

I thought if I would not talk about it.

185

00:13:08,800 --> 00:13:10,800

I thought if I would not talk about it.

186

00:13:10,800 --> 00:13:12,800

I thought if I would not talk about it.

187

00:13:12,800 --> 00:13:14,800

I thought if I would not talk about it.

188

00:13:14,800 --> 00:13:16,800

I thought if I would not talk about it.

189

00:13:16,800 --> 00:13:18,800

I thought if I would not talk about it.

190

00:13:18,800 --> 00:13:20,800

I thought if I would not talk about it.

191

00:13:20,800 --> 00:13:22,800

I thought if I would not talk about it.

192

00:13:22,800 --> 00:13:24,800

I thought if I would not talk about it.

193

00:13:24,800 --> 00:13:26,800

I thought if I would not talk about it.

194

00:13:26,800 --> 00:13:28,800

I thought if I would not talk about it.

195

00:13:28,800 --> 00:13:30,800

I thought if I would not talk about it.

196

00:13:30,800 --> 00:13:32,800

I thought if I would not talk about it.

197

00:13:32,800 --> 00:13:34,800

I thought if I would not talk about it.

198

00:13:34,800 --> 00:13:36,800

I thought if I would not talk about it.

199

00:13:36,800 --> 00:13:38,800

I thought if I would not talk about it.

200

00:13:38,800 --> 00:13:40,800

I thought if I would not talk about it.

201

00:13:40,800 --> 00:13:42,800

I thought if I would not talk about it.

202

00:13:42,800 --> 00:13:44,800

I thought if I would not talk about it.

203

00:13:44,800 --> 00:13:46,800

I thought if I would not talk about it.

204

00:13:46,800 --> 00:13:48,800

I thought if I would not talk about it.

205

00:13:48,800 --> 00:13:50,800

I thought if I would not talk about it.

206

00:13:50,800 --> 00:13:52,800

I thought if I would not talk about it.

207

00:13:52,800 --> 00:13:54,800

I thought if I would not talk about it.

208

00:13:54,800 --> 00:13:56,800

I thought if I would not talk about it.

209

00:13:56,800 --> 00:13:58,800

I thought if I would not talk about it.

210

00:13:58,800 --> 00:14:00,800

I thought if I would not talk about it.

211

00:14:00,800 --> 00:14:02,800

I thought if I would not talk about it.

212

00:14:02,800 --> 00:14:04,800

I thought if I would not talk about it.

213

00:14:04,800 --> 00:14:06,800

I thought if I would not talk about it.

214

00:14:06,800 --> 00:14:08,800

I thought if I would not talk about it.

215

00:14:08,800 --> 00:14:10,800

I thought if I would not talk about it.

216

00:14:10,800 --> 00:14:12,800

I thought if I would not talk about it.

217

00:14:12,800 --> 00:14:14,800

I thought if I would not talk about it.

218

00:14:14,800 --> 00:14:16,800

I thought if I would not talk about it.

219

00:14:16,800 --> 00:14:18,800

I thought if I would not talk about it.

220

00:14:18,800 --> 00:14:20,800

I thought if I would not talk about it.

221

00:14:20,800 --> 00:14:22,800

I thought if I would not talk about it.

222

00:14:22,800 --> 00:14:24,800

I thought if I would not talk about it.

223

00:14:24,800 --> 00:14:26,800

I thought if I would not talk about it.

224

00:14:26,800 --> 00:14:28,800

I thought if I would not talk about it.

225

00:14:28,800 --> 00:14:30,800

I thought if I would not talk about it.

226

00:14:30,800 --> 00:14:32,800

I thought if I would not talk about it.

227

00:14:32,800 --> 00:14:34,800

I thought if I would not talk about it.

228

00:14:34,800 --> 00:14:36,800

I thought if I would not talk about it.

229

00:14:36,800 --> 00:14:38,800

I thought if I would not talk about it.

230

00:14:38,800 --> 00:14:40,800

I thought if I would not talk about it.

231

00:14:40,800 --> 00:14:42,800

I thought if I would not talk about it.

232

00:14:42,800 --> 00:14:44,800

I thought if I would not talk about it.

233

00:14:44,800 --> 00:14:46,800

I thought if I would not talk about it.

234

00:14:46,800 --> 00:14:48,800

I thought if I would not talk about it.

235

00:14:48,800 --> 00:14:50,800

I thought if I would not talk about it.

236

00:14:50,800 --> 00:14:52,800

I thought I would not talk about it.

237

00:14:52,800 --> 00:15:10,340

thank you cast

238

00:15:10,640 --> 00:15:12,560

it was a joke.

239

00:15:12,560 --> 00:15:14,560

it was a joke.

240

00:15:14,560 --> 00:15:16,560

yes, yes.

241

00:15:16,560 --> 00:15:18,560

I don't understand what you're saying.

242

00:15:18,560 --> 00:15:20,560

I don't understand what you're saying.

243

00:15:20,560 --> 00:15:22,560

I don't understand what you're saying.

244

00:15:22,560 --> 00:15:24,560

I don't understand what you're saying.

245

00:15:24,560 --> 00:15:26,560

I don't understand what you're saying.

246

00:15:26,560 --> 00:15:28,560

I don't understand what you're saying.

247

00:15:28,560 --> 00:15:30,560

I don't understand what you're saying.

248

00:15:30,560 --> 00:15:32,560

I don't understand what you're saying.

249

00:15:32,560 --> 00:15:34,560

I don't understand what you're saying.

250

00:15:34,560 --> 00:15:36,560

I don't understand what you're saying.

251

00:15:36,560 --> 00:15:38,560

I don't understand what you're saying.

252

00:15:38,560 --> 00:15:40,560

I don't understand what you're saying.

253

00:15:40,560 --> 00:15:42,560

I don't understand what you're saying.

254

00:15:42,560 --> 00:15:44,560

I don't understand what you're saying.

255

00:15:44,560 --> 00:15:46,560

I don't understand what you're saying.

256

00:15:46,560 --> 00:15:49,560

I don't understand what you're saying.

257

00:15:49,560 --> 00:15:52,560

I don't understand what you're saying.

258

00:15:52,560 --> 00:15:54,560

I don't understand what you're saying.

259

00:15:54,560 --> 00:15:56,560

I don't understand what you're saying.

260

00:15:56,560 --> 00:15:58,560

I don't understand what you're saying.

261

00:15:58,560 --> 00:16:00,560

I don't understand what you're saying.

262

00:16:00,560 --> 00:16:02,560

I don't understand what you're saying.

263

00:16:02,560 --> 00:16:04,560

I don't understand what you hear.

264

00:16:04,560 --> 00:16:06,560

I explain instead.

265

00:16:06,560 --> 00:16:08,560

I don't understand what you're saying.

266

00:16:08,560 --> 00:16:10,560

I don't understand what you're saying.

267

00:16:10,560 --> 00:16:12,560

I don't understand what you're saying.

268

00:16:12,560 --> 00:16:17,360

The land is full of gold

269

00:16:17,360 --> 00:16:24,360

The land is full of gold

270

00:16:24,360 --> 00:16:28,360

The land is full of gold

271

00:16:42,560 --> 00:16:49,560

The land is full of gold

272

00:16:49,560 --> 00:16:55,560

The land is full of gold

273

00:16:55,560 --> 00:17:02,560

The land is full of gold

274

00:17:02,560 --> 00:17:09,560

The land is full of gold

275

00:17:09,560 --> 00:17:14,560

The land is full of gold

276

00:17:14,560 --> 00:17:20,560

That car just let that one off

277

00:17:20,560 --> 00:17:26,560

That's a man made one, that one

278

00:17:26,560 --> 00:17:37,560

I just saw that people in that car let that one off

279

00:17:37,560 --> 00:17:41,560

Flying in the wind direction

280

00:17:41,560 --> 00:17:45,560

And just let it off

281

00:18:37,560 --> 00:18:44,560

The land is full of gold

282

00:18:44,560 --> 00:18:50,560

The land is full of gold

283

00:18:50,560 --> 00:18:57,560

The land is full of gold

284

00:18:57,560 --> 00:19:03,560

The land is full of gold

285

00:19:03,560 --> 00:19:10,560

The land is full of gold

286

00:19:10,560 --> 00:19:16,560

The land is full of gold

287

00:19:16,560 --> 00:19:22,560

The land is full of gold

288

00:19:22,560 --> 00:19:28,560

The land is full of gold

289

00:19:28,560 --> 00:19:35,560

The land is full of gold

290

00:19:35,560 --> 00:19:41,560

The land is full of gold

291

00:19:41,560 --> 00:19:48,560

The land is full of gold

292

00:19:48,560 --> 00:19:57,560

The land is full of gold

293

00:19:57,560 --> 00:20:04,560

The land is full of gold

294

00:20:04,560 --> 00:20:11,560

The land is full of gold

295

00:20:11,560 --> 00:20:17,560

The land is full of gold

296

00:20:17,560 --> 00:20:26,560

The land is full of gold

297

00:20:26,560 --> 00:20:33,560

The land is full of gold

298

00:20:33,560 --> 00:20:39,560

The land is full of gold

299

00:20:39,560 --> 00:20:46,560

The land is full of gold

300

00:20:46,560 --> 00:20:55,560

The land is full of gold

301

00:20:55,560 --> 00:21:02,560

The land is full of gold

302

00:21:02,560 --> 00:21:08,560

The land is full of gold

303

00:21:08,560 --> 00:21:14,560

The land is full of gold

304

00:21:14,560 --> 00:21:20,560

The land is full of gold

305

00:21:20,560 --> 00:21:27,560

The land is full of gold

306

00:21:27,560 --> 00:21:33,560

The land is full of gold

307

00:21:33,560 --> 00:21:39,560

The land is full of gold

308

00:21:39,560 --> 00:21:45,560

The land is full of gold

309

00:21:45,560 --> 00:21:52,560

The land is full of gold

310

00:21:52,560 --> 00:21:58,560

The land is full of gold

311

00:21:58,560 --> 00:22:04,560

The land is full of gold

312

00:22:04,560 --> 00:22:10,560

The land is full of gold

313

00:22:10,560 --> 00:22:17,560

The land is full of gold

314

00:22:17,560 --> 00:22:23,560

The land is full of gold

315

00:22:23,560 --> 00:22:29,560

The land is full of gold

316

00:22:29,560 --> 00:22:35,560

The land is full of gold

317

00:22:35,560 --> 00:22:42,560

The land is full of gold

318

00:22:42,560 --> 00:22:48,560

The land is full of gold

319

00:22:48,560 --> 00:22:54,560

The land is full of gold

320

00:22:54,560 --> 00:23:00,560

The land is full of gold

321

00:23:00,560 --> 00:23:07,560

The land is full of gold

322

00:23:07,560 --> 00:23:13,560

The land is full of gold

323

00:23:13,560 --> 00:23:19,560

The land is full of gold

324

00:23:19,560 --> 00:23:25,560

The land is full of gold

325

00:23:25,560 --> 00:23:32,560

The land is full of gold

326

00:23:32,560 --> 00:23:38,560

The land is full of gold

327

00:23:38,560 --> 00:23:44,560

The land is full of gold

328

00:23:44,560 --> 00:23:50,560

The land is full of gold

329

00:23:50,560 --> 00:23:58,560

The land is full of silver

330

00:23:58,560 --> 00:24:06,560

The land is full of silver

331

00:24:06,560 --> 00:24:15,560

The land is full of silver

332

00:24:15,560 --> 00:24:19,560

This is a basic iris motor

333

00:24:19,560 --> 00:24:24,560

The principle of the iris motor is to regulate the amount of light entering the camera.

334

00:24:24,560 --> 00:24:29,560

The iris motor will open on very dull scenes, imporily illuminated scenes,

335

00:24:29,560 --> 00:24:33,560

and close down on very high intensity or brightly lit scenes.

336

00:24:34,560 --> 00:24:38,560

We actually have no idea what this sort of object is here in the sky.

337

00:24:38,560 --> 00:24:41,560

It could be reflection from a plane or some other light source.

338

00:24:42,560 --> 00:24:46,560

But as the camera starts to zoom in, you can clearly see here

339

00:24:46,560 --> 00:24:50,560

the shape of the actual iris elements within the lens section of the camera.

340

00:24:50,560 --> 00:24:54,560

It appears to be caused by a reflection of light entering the front of the camera

341

00:24:54,560 --> 00:24:56,560

and bouncing around between the lens elements.

342

00:24:56,560 --> 00:25:00,560

And of course sandwich between the lens elements is of course the iris motor.

343

00:25:16,560 --> 00:25:22,560

Just so you know.

344

00:26:16,560 --> 00:26:17,380

Pro measure

345

00:26:17,920 --> 00:26:18,920

M

347

00:26:21,700 --> 00:26:22,340

Lutor

348

00:30:16,560 --> 00:30:35,920

The Police Reporting UFO Sightings Organisation, or PROPHOS for short, is the brainchild of

349

00:30:35,920 --> 00:30:41,200

Gary Heseltine, a detective constable with British Transport Police.

350

00:30:41,200 --> 00:30:47,520

By the summer of this year, DC Heseltine had accumulated 42 UFO incidents involving some

351

00:30:47,520 --> 00:30:54,840

110 police officers throughout Britain. Here, again for the first time on camera, DC Heseltine

352

00:30:54,840 --> 00:31:00,040

speaks about his interest in the subject and what he hopes PROPHOS will achieve.

353

00:31:00,040 --> 00:31:04,280

My name is Gary Heseltine and I'm a detective constable with the British Transport Police

354

00:31:04,280 --> 00:31:09,640

in Leeds. I've been a detective constable for nine years and I've been a police officer

355

00:31:09,640 --> 00:31:15,760

for 13 years. Prior to the Transport Police, I was a Royal Air Force police officer for

356

00:31:15,760 --> 00:31:24,160

six years. Gary, PROPHOS is an acronym that people are going to be seeing a lot of, hopefully,

357

00:31:24,160 --> 00:31:30,280

on the website. They'll have read about it in UFO Magazine. Again, what does PROPHOS

358

00:31:30,280 --> 00:31:37,280

actually stand for? PROPHOS is, hopefully, a catchy little acronym which stands for the

359

00:31:37,280 --> 00:31:44,240

Police Reporting of UFO Sightings, i.e. the PROPHOS Police Database, which is designed

360

00:31:44,240 --> 00:31:51,560

for serving and retired police officers to come forward with their own respective sightings.

361

00:31:51,560 --> 00:31:57,840

My interest in the subject actually spans back to when I was 15. Very briefly, I was

362

00:31:57,840 --> 00:32:05,520

walking a girlfriend home in Scunthorpe Lincolnshire when I saw a lighted object against a Starlit

363

00:32:05,520 --> 00:32:14,080

Sky which appeared to trigger a series of power grid failures, which, to my mind, made it

364

00:32:14,080 --> 00:32:19,520

very unusual. That interest inspired me to read books, etc., and follow the subject for

365

00:32:19,520 --> 00:32:28,440

many, many years. In the late 90s, with the advent of UFO Magazine, a glossy publication,

366

00:32:28,440 --> 00:32:35,520

I sort of reacquainted myself with the subject and was literally amazed to see how much what

367

00:32:35,520 --> 00:32:42,080

I would call police evidence was involved in the current scene. I began to read up on

368

00:32:42,080 --> 00:32:47,440

all the current books and I would come across police reports in various books. I began to

369

00:32:47,480 --> 00:32:53,600

think that there may well be a need for a reported agency to cater for police officers. What

370

00:32:53,600 --> 00:32:58,440

you've got to understand is that for those of the police officers that have come forward,

371

00:32:58,440 --> 00:33:05,880

I suspect that 9 out of 10 don't, for obvious reasons, are perhaps a periodical and also

372

00:33:05,880 --> 00:33:12,800

a perceived threat to their career aspirations. That, I think, is a genuine reason why a lot

373

00:33:12,840 --> 00:33:18,840

of officers would never come forward to report things. The way I believe that I could get

374

00:33:18,840 --> 00:33:25,240

around that, and I believe it is working already, is that I offer, or the Proof Force Database,

375

00:33:25,240 --> 00:33:33,840

offers a confidentiality agreement that officers can contact me. I will get the correct story

376

00:33:33,840 --> 00:33:40,120

from them. I will promise to protect their identities much in the same way that I would

377

00:33:40,160 --> 00:33:47,160

protect someone who gave police information as an informant or a confidential source.

378

00:33:47,160 --> 00:33:53,680

Basically, I will bring their story out into the public domain. I mail to very slightly

379

00:33:53,680 --> 00:34:00,080

certain details to protect their identity, but my principal aim is to get these reports

380

00:34:00,080 --> 00:34:03,240

into the public domain, because that's what I think is being missing.

381

00:34:03,360 --> 00:34:12,360

When we talk about a lack of willingness, if you like, from certain officers to divulge

382

00:34:12,800 --> 00:34:17,720

information on this particular subject, are we noticing anything sort of geographically

383

00:34:17,720 --> 00:34:24,720

about this? Is it the case that city forces seem to be probably hardly interested in the

384

00:34:25,880 --> 00:34:32,880

subject, but yet our country-file type of bobby's probably get more opportunity and probably

385

00:34:33,240 --> 00:34:37,920

less ridiculed, if you like, of the subject? Is there something in that?

386

00:34:37,920 --> 00:34:43,400

I think at this present time, with the database only being in existence for six months, it's

387

00:34:43,400 --> 00:34:50,400

probably too early to draw sort of geographical statistics, what I can say is from the research

388

00:34:53,280 --> 00:34:58,320

that I have done and from the new officers that have come forward since its launch in

389

00:34:58,320 --> 00:35:05,320

January, that I've just completed a report which is based on that historical research

390

00:35:07,280 --> 00:35:14,280

and on the new information. What I can say is that 42 incidents spanning from 1955 to

391

00:35:14,800 --> 00:35:21,800

2002, that involves well over 100 officers, in fact 110 police officers in those 42 reports.

392

00:35:22,600 --> 00:35:29,600

And the statistic that strikes me as being relevant is that over 60% of those cases,

393

00:35:33,680 --> 00:35:40,680

60% of the 42, are multiple police witness cases, sometimes ranging from anywhere from

394

00:35:41,200 --> 00:35:48,200

two up to one particular case where there are 17 officers involved who see an object

395

00:35:49,200 --> 00:35:56,200

from at least five different geographical locations, which I believe is a very impressive

396

00:35:56,200 --> 00:35:57,200

case indeed.

397

00:35:57,200 --> 00:36:04,200

Obviously without giving too much away at this particular point, are there channels in place,

398

00:36:08,800 --> 00:36:15,800

shall we say, for the officers who have experienced an alleged UFO sighting? To report this at

399

00:36:16,800 --> 00:36:18,800

work, if you like?

400

00:36:18,800 --> 00:36:25,300

Yes, what you have in England and Wales are 43 county police forces and I can't speak

401

00:36:25,300 --> 00:36:32,300

for everyone but I would say the vast majority of forces do have a force policy that would

402

00:36:32,400 --> 00:36:39,400

allow for an officer to make an unusual aerial phenomena, shall we say, report and that would

403

00:36:40,200 --> 00:36:45,560

be usually passed forward to the Ministry of Defence and in some cases that may well lead

404

00:36:45,560 --> 00:36:52,560

to an MOD investigation. Certainly some of the cases that I highlight in the report that

405

00:36:53,000 --> 00:37:00,000

I have just completed have led to MOD investigations and some of those remain unknown.

406

00:37:00,120 --> 00:37:05,600

That sounds like the next question in your experience, has this happened and obviously

407

00:37:05,600 --> 00:37:06,840

yes it has.

408

00:37:06,840 --> 00:37:12,240

Yes, certainly in the historical research aspect I have come across a number of cases

409

00:37:12,240 --> 00:37:18,960

which are quite well known within the UFO circle or domain if you like, but they did

410

00:37:18,960 --> 00:37:25,960

lead to MOD investigations and many of those have resulted in an unknown conclusion.

411

00:37:26,440 --> 00:37:32,800

Going back to your time as an Air Force policeman, was the UFO chatter around in your life at

412

00:37:32,800 --> 00:37:34,240

that time?

413

00:37:34,240 --> 00:37:39,400

I certainly had the interest at that time but I can honestly say that during my time

414

00:37:39,400 --> 00:37:46,200

in the Air Force I did not ever really get into any proper discussion or dwell or find

415

00:37:46,200 --> 00:37:53,200

out anything of particular interest. What is interesting is some of the information

416

00:37:54,280 --> 00:38:01,280

that I am now getting back from people and officers and civilian support staff. My own

417

00:38:01,280 --> 00:38:06,760

Air Force, the British Transport Police in January of this year coincidentally set up

418

00:38:06,760 --> 00:38:13,760

its own intranet site for officers where they could highlight clubs and leisure facilities

419

00:38:14,120 --> 00:38:19,920

etc. I immediately posted an intranet site for the pre-force database asking my own

420

00:38:19,920 --> 00:38:26,920

force officers to come forward with any information. It got a lot of ridicule at first as you would

421

00:38:26,920 --> 00:38:33,920

expect from police officers who are known wit, but beyond that as I expected a discussion

422

00:38:34,040 --> 00:38:40,240

is ongoing. What I can say is that very recently I have had a piece of information that relates

423

00:38:40,240 --> 00:38:47,240

to a very similar time when I was in the Air Force about an incident in 1993 which in terms

424

00:38:48,280 --> 00:38:55,240

of background information is very interesting as it highlights what is now a serving transport

425

00:38:55,240 --> 00:39:01,160

police officer as a sergeant whose details will remain confidential. But it highlights

426

00:39:01,160 --> 00:39:08,160

an incident where in Wigrat which was a little town which was in Germany, if you were in

427

00:39:08,720 --> 00:39:14,160

the forces you lived in the German community off base and they were in their quarters in

428

00:39:14,160 --> 00:39:21,160

Germany in 1993 when they heard a very loud explosion and they believed it was a terrorist

429

00:39:22,120 --> 00:39:26,880

bomb because at the time there had been a number of terrorist incidents. Everybody in

430

00:39:26,880 --> 00:39:32,440

the flats that this particular officer was in went out into the balconies onto the road

431

00:39:32,440 --> 00:39:39,440

wondering what has happened. Now incidentally within an hour of that bang and there may

432

00:39:39,560 --> 00:39:46,560

have been two bangs it was enough to shake the windows, it was perceived as a bomb.

433

00:39:47,200 --> 00:39:54,200

It turned out not to be a bomb. The SSVc which is the services TV and radio channel came

434

00:39:54,360 --> 00:39:58,680

over the air within the hour and said that it was a sonic boom and that there was nothing

435

00:39:58,680 --> 00:40:05,680

to worry about. Now the incidental information from that is that this officer knew someone

436

00:40:07,000 --> 00:40:14,000

who worked in a particularly sensitive area of the camp, the area of camp in Germany and

437

00:40:14,600 --> 00:40:21,600

they were responsible for collecting a number of pilots from a certain area of the station

438

00:40:22,200 --> 00:40:29,200

and this particular driver picked up some pilots who had allegedly been involved in

439

00:40:29,200 --> 00:40:35,240

chasing a very large UFO along with other interceptor aircraft across Germany and it

440

00:40:35,240 --> 00:40:42,240

was the UFO that caused the sonic boom as it accelerated from the aircraft. In the words

441

00:40:43,240 --> 00:40:49,240

of the police officer the girl picked up the pilots after the incident and they were

442

00:40:49,240 --> 00:40:53,680

as white as sheet and they were obviously chattering amongst themselves having never

443

00:40:53,680 --> 00:41:00,680

seen anything like it. So it is information like that that puts into context some of my

444

00:41:00,680 --> 00:41:05,680

air force because I immediately recognise the truth of somebody talking because of my

445

00:41:05,680 --> 00:41:09,840

background and I can immediately relate that it is a true event.

446

00:41:09,840 --> 00:41:14,840

So then, LeGarry, we have got a website, the address will appear on the screen as we

447

00:41:14,840 --> 00:41:20,840

Speak in. What can people expect to find from the website? What is going to be there for

448

00:41:20,840 --> 00:41:27,840

them? Well at the moment as I thought it was important that very early on in January that

449

00:41:27,840 --> 00:41:34,240

I get a very basic website out there. It is very basic, it does set out what I am trying

450

00:41:34,240 --> 00:41:40,600

to do. It does set out contact information where people can email me or telephone me

451

00:41:40,600 --> 00:41:47,600

on a confidential telephone number and beyond that I will give my address out once it has

452

00:41:47,600 --> 00:41:54,200

been established contact. I am currently in the process of having a website designed

453

00:41:54,200 --> 00:42:00,700

which will be much more transparent, much more user friendly and registering hopefully

454

00:42:00,700 --> 00:42:07,700

the proof force as a domain name so it will be a short web address so it hopefully should

455

00:42:09,700 --> 00:42:14,260

begin to be picked up on web magazines and things like that as a good source for people

456

00:42:14,260 --> 00:42:19,540

to go to. I certainly think that is an area where a lot of information will be put out

457

00:42:19,540 --> 00:42:25,420

and be regularly updated. That is my aim is to get the information out there and make

458

00:42:25,420 --> 00:42:30,380

it transparent. I am after getting the information out into the public domain.

459

00:42:30,740 --> 00:42:35,020

So where Alan and Maties asked for that is obviously respected but people are going to

460

00:42:35,020 --> 00:42:41,300

be able to see and read reports from certain police officers. That is right. What I am

461

00:42:41,300 --> 00:42:48,300

hoping for is that with the publication hopefully of the report that I have just completed that

462

00:42:50,860 --> 00:42:56,100

one it will be published in the police review. It is being sent to the police review and

463

00:42:56,140 --> 00:43:03,140

hopefully they will publish some or extracts from the report. I think it is an important

464

00:43:03,780 --> 00:43:09,100

document historically wise because I think it does for the first time collate police

465

00:43:09,100 --> 00:43:16,100

UFO sightings and put them in one place in a chronological order in a very simple logistical

466

00:43:17,260 --> 00:43:23,780

manner much in the way of a police report. I think it is a good reference document that

467

00:43:23,820 --> 00:43:29,940

much of which will be put out onto the new website when it is done. Certainly when the

468

00:43:29,940 --> 00:43:35,740

new website is up and running it will cater for other areas like the information from

469

00:43:35,740 --> 00:43:42,740

Germany that I have just mentioned like police officers being involved in suspected UFO

470

00:43:43,220 --> 00:43:50,220

crashes, like officers being involved in Rendlesham Forest. At this moment in time from a civilian

471

00:43:51,220 --> 00:43:56,860

UFO researcher's point of view it is being very difficult to attract police officers or

472

00:43:56,860 --> 00:44:03,860

gain their confidence I suspect to allow them to speak freely to independent UFO researchers.

473

00:44:03,860 --> 00:44:09,540

I hope that as a serving police officer they may tell me things that they would not ordinarily

474

00:44:09,540 --> 00:44:15,820

tell civilian researchers and if that can be done and I can protect them then I think

475

00:44:15,820 --> 00:44:22,820

that is exactly why proof was settled. Hopefully I can give an insight where all these things

476

00:45:15,820 --> 00:45:22,820

are just like moving at a slow rate of speed.

477

00:46:15,820 --> 00:46:22,820

I think that is a good reference document. I think that is a good reference document.

478

00:46:45,820 --> 00:46:52,820

I think that is a good reference document. I think that is a good reference document.

479

00:47:15,820 --> 00:47:22,820

I think that is a good reference document. I think that is a good reference document.

480

00:47:45,820 --> 00:47:52,820

I think that is a good reference document. I think that is a good reference document.

481

00:48:15,820 --> 00:48:22,820

I think that is a good reference document. I think that is a good reference document.

482

00:48:45,820 --> 00:48:52,820

As a radar station it was split into two squadrons for operations purposes bearing in mind that

483

00:48:57,340 --> 00:49:04,340

it is a small RAF station in comparison to others, a very small place and its primary

484

00:49:06,260 --> 00:49:13,260

role is as a radar station it has no other function. No RAF personnel actually live on

485

00:49:13,620 --> 00:49:20,620

the base they are living elsewhere in the surrounding area and RAF bases close by mostly

486

00:49:23,980 --> 00:49:30,980

cultish all and the whole of the operation that Nita said is geared towards maintaining

487

00:49:36,260 --> 00:49:43,140

the integrity of the southern part of the United Kingdom airspace. Control of air defence

488

00:49:43,220 --> 00:49:50,220

aircraft in their role as interceptors in intercepting would be hostile aircraft or

489

00:49:51,620 --> 00:49:58,620

identifying unknown aircraft but that role was not an everyday role the everyday role

490

00:49:59,540 --> 00:50:06,540

was a routine one of maintaining the integrity of the airspace by recognising all the aircraft

491

00:50:06,540 --> 00:50:13,540

flying in the sky and making sure that they were flying from A to B in the route that

492

00:50:13,820 --> 00:50:20,820

they had been planned to fly and that was the thrust of the job. I was a member of

493

00:50:20,900 --> 00:50:27,900

two squadron, Y Watch. Each squadron was split into two watches and the watches were something

494

00:50:28,380 --> 00:50:35,380

which was used to maintain 24 hour personnel to be available to cover the radar picture

495

00:50:40,980 --> 00:50:46,300

and each squadron was commanded by a squadron leader as I have said and my commander was

496

00:50:46,300 --> 00:50:53,300

a squadron leader called Mike Shields who was supported by a lot of other RAF officers

497

00:50:54,300 --> 00:51:01,300

from junior officer ranks as pilot officers, flying officers and flight left tenants whose

498

00:51:02,980 --> 00:51:09,980

job as air defence controllers was to control air defence aircraft in interceptions and

499

00:51:10,660 --> 00:51:17,660

the recognising of unknown aircraft when the quick reaction alert aircraft were launched

500

00:51:18,380 --> 00:51:24,660

in response to these threats or presumed threats.

501

00:51:24,660 --> 00:51:31,660

NATO said it was an RAF station but obviously being part of the RAF it was part of NATO

502

00:51:31,900 --> 00:51:38,900

and NATO across the board whether it's Army Air Force or Navy have a process where by

503

00:51:39,780 --> 00:51:46,780

personnel from the individual air forces in this case would have tools of duty on stations

504

00:51:49,380 --> 00:51:55,500

or bases in another's air force so at NATO's head we had a number of American air force

505

00:51:55,500 --> 00:52:02,500

officers on exchange postings and my watch commander actually on Y Watch was a captain

506

00:52:02,500 --> 00:52:09,500

Bud Hurrin who was an American Air Force officer, a Texan and a very nice gentleman, I was an

507

00:52:09,500 --> 00:52:14,500

airman, a senior air craftsman in Y Watch and periodically through my service at NATO's

508

00:52:14,500 --> 00:52:21,500

head I would be allocated to watch duties that would mean that I would do four days on

509

00:52:22,340 --> 00:52:29,340

and four days off on the four days on you do two 12 hour day shifts then two 12 hour shifts

510

00:52:33,500 --> 00:52:40,500

and the other squadrons watch would be manning the radar station in the ops room when you're

511

00:52:45,060 --> 00:52:51,060

off duty and so there would be lots of people when the squadron were on duty either early

512

00:52:51,060 --> 00:52:58,060

or late and a few people to maintain a basic skeleton crew when it was quiet when there

513

00:52:58,060 --> 00:53:04,860

was no military air defence flying and that crew was responsible for maintaining the integrity

514

00:53:04,860 --> 00:53:11,860

of the air defence of the southern half of the UK recognising all the aircraft airborne

515

00:53:13,340 --> 00:53:20,340

and providing a crew should we suddenly find ourselves in a position where we're at war

516

00:53:21,020 --> 00:53:28,020

or an unknown aircraft turns up or as happened Russian spy planes came over and you were

517

00:53:29,460 --> 00:53:36,460

there to give the basic service requirement to carry out the air defence and control aspect

518

00:53:37,700 --> 00:53:44,700

of taking a fighter aircraft from its base to its interception with an unknown aircraft

519

00:53:44,700 --> 00:53:47,700

and whatever the outcome of that may have been.

520

00:53:47,700 --> 00:53:54,700

As part of the job of maintaining the integrity, the safety of the United Kingdom air defence

521

00:53:58,340 --> 00:54:05,340

environment it's absolutely essential that radar coverage is maintained because otherwise

522

00:54:06,700 --> 00:54:13,380

there's going to be holes in the radar coverage and at a sensitive time between east and west

523

00:54:13,460 --> 00:54:18,660

it's absolutely imperative that you maintain that safety.

524

00:54:18,660 --> 00:54:25,660

So the radar that RF Nita said was in fact two radars both of which were main air defence

525

00:54:28,940 --> 00:54:35,940

primary radars and they were working night and day together and at any one time you could

526

00:54:36,380 --> 00:54:43,380

change from one radar to the other on the radar tube on your screen in front of you

527

00:54:45,380 --> 00:54:51,380

of which there were many in the ops room many screens all involved with doing different

528

00:54:51,380 --> 00:54:58,380

specific jobs to maintain this air defence safety and I actually know for a fact that

529

00:54:59,380 --> 00:55:06,380

these radars have they got a name? Yes, there's a Type 84 and the Type 85 radar and also

530

00:55:10,380 --> 00:55:17,380

at Nita said there was height finding radars whose job was specifically involved in checking

531

00:55:18,500 --> 00:55:25,500

the height of aircraft and they were called HF 200 height finding radars.

532

00:55:26,460 --> 00:55:32,500

So these two radars are working together if there was routine planned maintenance to

533

00:55:32,500 --> 00:55:39,500

them or if one went wrong which as all equipment does from time to time and military equipment

534

00:55:42,140 --> 00:55:49,140

being no different from any other things they do go wrong but you don't have two things

535

00:55:49,900 --> 00:55:56,900

going wrong at the same time. The planned maintenance would be planned so that one radar was operational

536

00:55:58,060 --> 00:56:05,060

while the other was for a brief period of time maintained to its full operating capacity

537

00:56:06,460 --> 00:56:13,460

then switched back on again but all these radars form the defence network and all the

538

00:56:14,380 --> 00:56:21,380

aircraft which these radars pick up are recorded and all the radars are filmed and that would

539

00:56:26,220 --> 00:56:33,220

be for the obvious reasons if there was an incident or a problem the factors involved

540

00:56:36,380 --> 00:56:43,380

in that problem could be traced and tracked and looked at and analysed so its imperative

541

00:56:43,460 --> 00:56:50,460

that the radar picture is recorded and that's not just for incidents or emergencies or problems

542

00:56:50,940 --> 00:56:57,940

it's also for purposes such as training because if you're going to let lots of people loose

543

00:56:59,580 --> 00:57:06,580

on real situations it's best that they train from what's gone before and radar tapes are

544

00:57:06,740 --> 00:57:13,740

no different but all radar is recorded, Neetushead sent its radar picture to other establishments

545

00:57:19,260 --> 00:57:26,260

and one of which was RF Watton Eastern radar which was an air traffic establishment which

546

00:57:26,380 --> 00:57:33,380

is distinct from air defence radar. Air traffic in my understanding were involved in the transit

547

00:57:34,180 --> 00:57:40,380

of an aircraft from one place to another and also the taking off and landing of those

548

00:57:40,380 --> 00:57:47,380

aircraft. Aircraft involved in defence of the realm, interceptions and ancillary aircraft

549

00:57:48,860 --> 00:57:55,860

integral to maintaining that capability such as airborne early warning aircraft or tankers

550

00:57:56,860 --> 00:58:03,860

to refuel aircraft in flight also fall under the air defence umbrella so the two are separate

551

00:58:06,460 --> 00:58:12,460

but interlinked. With regard to the Randallsham incident obviously I'd been aware of that

552

00:58:12,460 --> 00:58:19,460

for a number of years through reading about it and I've had an interest in that during

553

00:58:19,540 --> 00:58:26,540

that time but felt that I personally didn't have anything to add to the incident of a

554

00:58:27,020 --> 00:58:34,020

UFO landing at RF Bentwater's Strait Woodbridge but I had information or knowledge of some

555

00:58:36,780 --> 00:58:43,780

happenings from my Air Force times whether they were linked was hard for me to say or

556

00:58:44,140 --> 00:58:51,140

if I felt I had something to say it was of such a low level of importance to my opinion

557

00:58:53,140 --> 00:58:58,900

at the time that I felt oh well that's interesting and just followed the story the same as anybody

558

00:58:58,900 --> 00:59:04,660

else but it wasn't until the end of August when reading UFO magazine and the article

559

00:59:04,660 --> 00:59:11,660

written by Georgina Bruni stating that the MOD had released information regarding the

560

00:59:11,900 --> 00:59:18,900

Randallsham Forest UFO incident mentioning RAF Neetushead and RAF Watten and the radar

561

00:59:19,420 --> 00:59:26,420

station and the fact that the radar camera was switched off at RAF Neetushead and coincidentally

562

00:59:29,500 --> 00:59:36,500

the radar tapes from RAF Easton at Watten had been processed with a very poor inundated

563

00:59:41,660 --> 00:59:48,660

and eligible result I find absolutely unacceptable bearing in mind this happened at a time when

564

00:59:50,220 --> 00:59:57,220

the backdrop was the Cold War air defence of our country and of NATO was very very important

565

00:59:59,020 --> 01:00:06,020

the UFO flap and the MOD had come down to take away the radar tapes.

566

01:00:06,300 --> 01:00:11,380

Now let's just qualify this again although you can't be certain of the actual date you

567

01:00:11,380 --> 01:00:18,380

know it's Christmas. Yes this is 21 years ago it wasn't a major deal and perhaps no

568

01:00:19,900 --> 01:00:26,900

different from anybody else in society to remember exactly dates and times 20 odd years

569

01:00:27,220 --> 01:00:34,220

ago is a very difficult thing to do bearing in mind that that particular date or dates

570

01:00:34,780 --> 01:00:41,780

of the so called occurrences at Bentwater's and Woodbridge for me would not have meant

571

01:00:42,980 --> 01:00:49,980

anything to me at the time. It is inconceivable that the RAF would not have had their radar

572

01:00:50,660 --> 01:00:57,660

cameras working on at least one of the radars perhaps not of Neetushead but of another

establishment

573

01:00:58,340 --> 01:01:05,340

there would definitely be film of radar of that incident of that time.

574

01:01:06,740 --> 01:01:12,240

Tell us how the room was you know what was the discussion who was talking about this

575

01:01:12,240 --> 01:01:17,020

was it the NCOs were the officers or was it just ordinary air crew were they talking

576

01:01:17,020 --> 01:01:24,020

about any specifics how for instance did you know this room must have all this claim emerged

577

01:01:24,020 --> 01:01:31,020

about taking the radar tapes. I'm not sure actually how it came about.

578

01:01:31,260 --> 01:01:36,020

As you went into the ops room was it talk over the canteen table. It would have been

579

01:01:36,020 --> 01:01:42,540

a combination of all those bearing in mind that there would have been a Christmas break

580

01:01:42,540 --> 01:01:49,540

at Neetushead at that time for the main squadron duties but a watch system would have operated

581

01:01:50,140 --> 01:01:55,540

but for the bulk of the personnel on the squadrons they would have come back to Neetushead after

582

01:01:55,540 --> 01:02:02,540

the Christmas break period and full of the same talk as anybody else in any walk of life

583

01:02:05,860 --> 01:02:12,860

did you have a nice Christmas all the rest of it but within that there was rumours spoken

584

01:02:13,300 --> 01:02:19,060

about it would be my nickname in the Air Force was Swiller, Swiller Baker for some reason

585

01:02:19,060 --> 01:02:24,740

it would be hello Swill have you heard there's been a big UFO flap on and the MOD's been

586

01:02:24,740 --> 01:02:28,780

down and taken away the radar pictures and that could have happened in the crew room

587

01:02:28,780 --> 01:02:35,780

during a tea break or a quiet period in the ops room or on the bus on the way to work.

588

01:02:36,460 --> 01:02:43,460

From where you're sat now although we're talking about events almost 21 years ago you can sit

589

01:02:44,100 --> 01:02:49,220

there now and look at that camera and tell people that that is exactly what was said

590

01:02:49,220 --> 01:02:54,460

at that time. Yes and it wasn't just one or two people there was lots of people talking

591

01:02:54,460 --> 01:03:01,460

about it I've recently been in contact with an old colleague of mine who served on two

592

01:03:01,460 --> 01:03:06,860

squadron with me during that period and I haven't spoken to him for 15 years I contacted

593

01:03:06,860 --> 01:03:13,300

him through his mum's address who happened to have visited 20 years ago and she's still

594

01:03:13,340 --> 01:03:20,340

lived at the same part of London and I got the telephone number of my friend Mr X I'm

595

01:03:21,460 --> 01:03:25,700

not going to give his name because he hasn't given me permission to at this time but he

596

01:03:25,700 --> 01:03:32,700

remembers exactly the same rumours and when I discussed it with him I didn't make any

597

01:03:33,060 --> 01:03:40,060

connections with the Rendlesham forest thing at the time I just asked him if he'd had

598

01:03:40,060 --> 01:03:47,060

any recollection of a UFO flap and the MOD coming etc and he did have that recollection

599

01:03:48,460 --> 01:03:55,460

in the same degree of accuracy as myself not pinned down or home to a specific time date

600

01:03:55,820 --> 01:04:02,820

person etc but a memory from a period and that would be from that period. Seeing UFOs

601

01:04:02,820 --> 01:04:09,820

for the average person in the street isn't an everyday occurrence and it's the same with

602

01:04:09,820 --> 01:04:15,820

me and same with radar pictures they don't appear all over the place and when they do

603

01:04:15,820 --> 01:04:22,820

it gets talked about I believe I've maintained and upheld the spirit of the Official Secrets

604

01:04:22,820 --> 01:04:28,820

Act I've decided to say what I'm saying now on the strength of the MOD releasing information

605

01:04:29,820 --> 01:04:35,820

if they chose to release what I consider to be the wrong information I feel it's incumbent

606

01:04:35,820 --> 01:04:42,820

on me to offer an alternative view from the standpoint of an ordinary serving member of

607

01:04:44,660 --> 01:04:51,660

an establishment that would be involved in air defence aspects and for the MOD to say

608

01:04:52,660 --> 01:04:59,660

that UFOs are of no defence consideration is absolutely ludicrous because if something

609

01:05:00,900 --> 01:05:07,900

lands next to an air base whether it's RAF or USAF and that base has nuclear weapons on

610

01:05:07,900 --> 01:05:14,900

board excuse me that's very very serious and it is of defence significance and I want

611

01:05:15,220 --> 01:05:22,220

to say however small my part in this was that the MOD probably and almost certainly are

612

01:05:24,020 --> 01:05:31,020

being economical with the truth or at worst lying through their teeth and are withholding

613

01:05:31,660 --> 01:05:38,660

information on this and I have no doubt that there is radar pictures of the event and possibly

614

01:05:38,860 --> 01:05:45,860

others outside of my knowledge as well. Three years ago UFO magazine came into possession

615

01:05:46,940 --> 01:05:52,420

of some two and a half thousand hours of space shuttle footage all of which had been dutifully

616

01:05:52,420 --> 01:05:58,060

recorded and logged over a period of five years by Martin Stubbs a cable TV station

617

01:05:58,060 --> 01:06:05,060

manager in Vancouver Canada. Since releasing successive documentaries about the footage

618

01:06:05,060 --> 01:06:12,060

NASA has maintained a diplomatic silence refusing to comment about sequences such as this or

619

01:06:12,620 --> 01:06:19,620

this or this. Some believe that NASA's reluctance to engage the UFO subject at any level is

620

01:06:21,260 --> 01:06:27,100

born from a deliberate policy making decision but like most institutions who employ tens

621

01:06:27,100 --> 01:06:33,660

of thousands of personnel mistakes are inevitable. Take the case of the vanishing NASA website

622

01:06:33,660 --> 01:06:39,740

for example as told by Andy Ellis founder and head of the civilian UFO organisation

623

01:06:39,740 --> 01:06:46,740

Yorkshire UFO info. Definitely the early missions I think the one that set it all off was STS-84

624

01:06:48,700 --> 01:06:54,180

which became known as Willy footage and that was the one where the object came and stopped

625

01:06:54,180 --> 01:06:58,540

and appeared to hover near me and I mean this was all under a distance of 2800 feet and

626

01:06:58,540 --> 01:07:02,300

it performed maneuvers and flew off in a completely new direction. That set it off

627

01:07:02,300 --> 01:07:07,460

for me and was one of the reasons we set up the website. We wanted to do a website as

628

01:07:07,460 --> 01:07:11,860

like any normal group with local sightings and things like that but with the field that

629

01:07:11,860 --> 01:07:16,420

I'd kind of just slipped into which was the NASA site it just took off from there so that

630

01:07:16,420 --> 01:07:21,140

happened through that that's how I got in touch with Jeff and between Les Willet and

631

01:07:21,140 --> 01:07:25,180

Jeff Challender was where we got the NASA mission footage started and that's where it

632

01:07:25,220 --> 01:07:31,180

took off from so from STS-84 you had STS-96 which had in that one mission probably some

633

01:07:31,180 --> 01:07:35,920

of the best footage I've seen as far as evidence and asking questions goes when you've got

634

01:07:35,920 --> 01:07:40,580

illuminated objects in the black of space pulsating past an international space station

635

01:07:40,580 --> 01:07:44,780

that's just being built. You've got several other orbs or balls of light whatever you

636

01:07:44,780 --> 01:07:48,020

want to class them as all we know is they just don't identify and these things are flying

637

01:07:48,020 --> 01:07:53,100

up the Florida key coast and cutting into clouds and chasing lightning and other cloud

638

01:07:54,020 --> 01:07:57,700

formations you've got NASA technicians following these stuff with the cameras not only following

639

01:07:57,700 --> 01:08:02,600

but yet zooming in for a closer look now to follow and to zoom in shows that they're

640

01:08:02,600 --> 01:08:07,220

interested in it not only zooming in but they know that somebody somewhere where could

641

01:08:07,220 --> 01:08:11,940

be watching they pull the feed and kill it so that there's no picture on the feed that

642

01:08:11,940 --> 01:08:15,180

our guys are getting but yet they're still watching so if there's nothing to it there's

643

01:08:15,180 --> 01:08:19,780

no reason to be sneaking doing these little tactics.

644

01:08:19,780 --> 01:08:27,380

And again I'm sure you Jeff, Les and many other people have actually broached NASA with

645

01:08:27,380 --> 01:08:33,300

questions that aren't pertinent questions or aren't rude questions if you like these

646

01:08:33,300 --> 01:08:37,900

are questions that say excuse me can you tell me something about what we're seeing?

647

01:08:37,900 --> 01:08:45,180

I think the biggest problem we've found and Jeff and Les have worked tirelessly on it

648

01:08:45,180 --> 01:08:48,300

people seem to think as soon as you get something like this you just go and scream and it asks

649

01:08:48,300 --> 01:08:52,420

I mean we're only interested in asking questions as well we just want we're not experts so

650

01:08:52,420 --> 01:08:58,480

we've been emailing who we think are the relevant people and asking for advice at first and

651

01:08:58,480 --> 01:09:03,380

asking questions of well why is this doing this and why does it appear to do this and

652

01:09:03,380 --> 01:09:07,180

why is your guy following it if you keep telling us it's ice and debris and why are you cutting

653

01:09:07,180 --> 01:09:10,740

the feed off if there's nothing to it it just it doesn't seem right.

654

01:09:10,740 --> 01:09:17,700

The biggest problem I had was when we got some of the stuff originally 84 and then 96.

655

01:09:17,700 --> 01:09:21,460

I actually took it to a well-known university which is in the city where I'm from so it's

656

01:09:21,460 --> 01:09:25,700

not hard to figure out which university is and I was doing that to go to the heads of

657

01:09:25,700 --> 01:09:30,540

physics and astronomy because I wanted their professional opinion I want looking at something

658

01:09:30,540 --> 01:09:34,260

and going oh wow that's amazing I'm just going to run off with it I did the best I could

659

01:09:34,260 --> 01:09:38,580

by taking it to optics and imagery departments to learn what I could from them and the biggest

660

01:09:38,580 --> 01:09:42,860

problem I had whenever you went up against these skeptics who basically just pooped everything

661

01:09:42,860 --> 01:09:47,700

to do with the NASA footage they were the ones who were abrupt and their whole attitude

662

01:09:47,700 --> 01:09:53,420

stunk and you thought wait a minute I've already been to certain guys who maybe are in the

663

01:09:53,420 --> 01:09:58,100

NASA field but they're not stupid these are professors these are astronomers they've looked

664

01:09:58,100 --> 01:10:02,420

at it and they've said well yeah it's a bit unusual why is it doing that and we're talking

665

01:10:02,420 --> 01:10:07,900

about distances of 2800 feet under the effects of a camera zoom something should be blurred

666

01:10:07,900 --> 01:10:12,740

or something should be affected in the way that you're viewing it so we check these things

667

01:10:12,780 --> 01:10:17,260

but yet you put this to somebody who's not even connected with NASA who are the skeptics

668

01:10:17,260 --> 01:10:21,780

and probably the loudest voices on this and they just completely try to insult your intelligence

669

01:10:21,780 --> 01:10:25,660

maybe get a bit slanderous with the remarks and you think where's this going I mean all

670

01:10:25,660 --> 01:10:29,740

I'm doing is asking a question that all came along again because we were trying to go to

671

01:10:29,740 --> 01:10:34,900

NASA we wanted to learn about the missions people kept saying about find out about the

672

01:10:34,900 --> 01:10:38,460

time lines you can get the flight record you can find out when they're just a rocket so

673

01:10:38,540 --> 01:10:46,580

we wanted to gather as much as we could about the mission and learn a little bit more because

674

01:10:46,580 --> 01:10:50,780

I mean there's only so many insults you can take from certain people who just when you're

675

01:10:50,780 --> 01:10:53,460

dealing with the subject they're trying to insult your intelligence who think you'll

676

01:10:53,460 --> 01:10:56,900

give up basically all you do is stop talking to them people but continue with your work

677

01:10:56,900 --> 01:11:02,660

at the end of the day if you've already checked what you're dealing with to an extent and

678

01:11:02,660 --> 01:11:08,020

that's held up then you continue so we went to NASA looking for answers NASA basically

679

01:11:08,060 --> 01:11:12,580

don't even speak to you on the footage so we were at a loss there but I continue to just

680

01:11:12,580 --> 01:11:19,420

troll around NASA.gov and I thought that it'd be nice maybe to get bits of information on

681

01:11:19,420 --> 01:11:22,500

old missions it might be a bit nice to get some information on the shuttle maybe we'd

682

01:11:22,500 --> 01:11:27,540

get some diagrams and the schematics and stuff like that so I'm just trolling through I

683

01:11:27,540 --> 01:11:31,700

mean there's links and links and links I mean the NASA.gov website's huge and I mean half

684

01:11:31,700 --> 01:11:34,740

of it you within an hour you can just think I've had enough of this because it's just

685

01:11:34,780 --> 01:11:40,380

all technical and talking about this and that but we continued to get going and I went

686

01:11:40,380 --> 01:11:47,380

to one of the electronic reading rooms through one of the various links and in there it had

687

01:11:47,580 --> 01:11:51,660

documents declassified under the freedom of information so I thought well this is worth

688

01:11:51,660 --> 01:11:55,980

a go so I click on that link and it opens another page and it had all different sections

689

01:11:55,980 --> 01:12:02,740

there relating to all kinds of stuff then there was the documents declassified I think

690

01:12:02,740 --> 01:12:07,860

it was something like 97, 98, 1999 so you click on each one of them links and that opened

691

01:12:07,860 --> 01:12:13,220

a different thing we like a log a reference and maybe like an order kind of number that

692

01:12:13,220 --> 01:12:17,980

you could use and within these freedom of information and documents declassified by

693

01:12:17,980 --> 01:12:23,620

NASA which was probably in the title somewhere which was documents declassified by NASA within

694

01:12:23,620 --> 01:12:30,620

the last five six seven years this was where we found among the pages and pages and pages

695

01:12:30,980 --> 01:12:34,780

there was different log numbers that related to what we were dealing with which is the

696

01:12:34,780 --> 01:12:41,060

UFO subject. The feeling we got at first when we started questioning was that the way it

697

01:12:41,060 --> 01:12:46,060

appeared anywhere through trolling through the website was it was more or less NASA thought

698

01:12:46,060 --> 01:12:48,620

or if it ever came out I don't know if it got a congress or who I mean I don't live

699

01:12:48,620 --> 01:12:51,340

in the states I don't know how it worked but the feeling we got and speaking to various

700

01:12:51,340 --> 01:12:55,740

people which some people in NASA do speak to but I can't go into more about that but

701

01:12:55,740 --> 01:12:59,540

the feeling and the way we were appointed was that if NASA have presented this stuff

702

01:12:59,660 --> 01:13:03,180

but not like gone on telling says here's all those documents if they've actually presented

703

01:13:03,180 --> 01:13:07,860

it then they're not classed as hiding anything no but if you find it they can always then

704

01:13:07,860 --> 01:13:12,420

work away around of making it disappear which is probably what they did so the feeling we

705

01:13:12,420 --> 01:13:16,820

got was they presented it they're not making it public and luckily we stumbled on it I

706

01:13:16,820 --> 01:13:21,540

mean I've got a couple of the links which drawn us to it and you've got your usual stuff

707

01:13:21,540 --> 01:13:25,780

I think if I read through a few of them it'll give you an example of the basic kind of stuff

708

01:13:25,860 --> 01:13:31,620

that's there but in with all this basic kind of NASA mumbo jumbo is the stuff that makes

709

01:13:31,620 --> 01:13:34,980

you sit up and pay attention. There's two words that leave off the page isn't there?

710

01:13:34,980 --> 01:13:39,540

I mean there's various things like STS-81 flight readiness review package I mean fair enough

711

01:13:39,540 --> 01:13:44,500

it's just standard stuff you can go from like contract reports telecommunications

712

01:13:45,780 --> 01:13:50,660

you've got various info on headquarters employees it's just the stuff that you'd have and this is

713

01:13:50,740 --> 01:13:57,540

all stuff that's it so I mean and plus this was all under the link of documents released under

714

01:13:57,540 --> 01:14:02,100

the freedom of information so I mean there's pages and pages of this kind of stuff of just

715

01:14:02,100 --> 01:14:06,340

your average thing I mean other things talking about x documents but then you start getting

716

01:14:06,340 --> 01:14:11,300

various questions about UFOs and UFO related documents has declassified within the last five

717

01:14:11,300 --> 01:14:18,100

years now when seeing them once I knew already NASA had like their own kind of MOD stance which is

718

01:14:18,100 --> 01:14:22,660

like the official kind of defense significance yeah there's no defense significance they're not

719

01:14:22,660 --> 01:14:27,220

landing and running around there's no problem NASA had that on their own webpage and a few of these

720

01:14:27,220 --> 01:14:32,740

links that were on there related back to that page but several ones were just completely separate

721

01:14:33,380 --> 01:14:38,180

I mean when we first especially with working with the NASA footage when we seen this one which was

722

01:14:38,180 --> 01:14:46,980

UFO sightings by Apollo 8 11 12 Mercury capsule Mercury 7 8 9 Gemini capsule Gemini 4 7 8 11 12

723

01:14:46,980 --> 01:14:51,940

so I mean by reading it you think well UFO sightings there's there's some information relating to a

724

01:14:51,940 --> 01:14:56,820

UFO sighting by Apollo 8 11 12 it says it there so we made a note of this and I mean I was quite

725

01:14:56,820 --> 01:15:01,060

excited anyway by reading this on I thought well if it's freedom of information we can apply for it

726

01:15:01,060 --> 01:15:07,380

in the United Kingdom and actually on the webpage itself there's a little link that says FOIA

727

01:15:08,020 --> 01:15:12,180

request so you can request through NASA's own website which goes to their freedom of information

728

01:15:12,180 --> 01:15:17,780

officer and he does the usual stuff so I put quite a few requests in just to see what happened

729

01:15:18,500 --> 01:15:23,700

after a while the requests have come back saying like denied and this document doesn't exist at

730

01:15:23,700 --> 01:15:29,060

which point I'd give them the reference number which is like 97 slash 100 and I'd even give them

731

01:15:29,060 --> 01:15:35,220

the complete title and then after a while I got pointed saying oh well all the information you need

732

01:15:35,220 --> 01:15:40,100

is at this link and that link was there like official stance on UFOs there's no defense significance

733

01:15:40,180 --> 01:15:45,060

after reading probably this long page of NASA's involvement with UFOs and how they're not really

734

01:15:45,060 --> 01:15:52,500

bothered because there is no evidence I pointed out to where the FOIA officer well if the document

735

01:15:52,500 --> 01:15:58,020

requested has got a title of UFO sightings by Apollo 8 11 12 why is there nowhere in this

736

01:15:58,020 --> 01:16:02,660

segment of the link you've given me anything that relates to Apollo 8 11 12 doesn't make sense

737

01:16:03,460 --> 01:16:07,300

at which point I've got no answer so we left it at that and I continue to bother them for that one

738

01:16:07,300 --> 01:16:12,580

but as I went further through these links which was in the space I'd say about two days I spent

739

01:16:12,580 --> 01:16:17,540

on just these links and these pages making as many copies as I could it kept cropping up about the

740

01:16:17,540 --> 01:16:24,020

UFO info and then there was NASA facts on UFOs as well as all the other pages that just related to

741

01:16:24,020 --> 01:16:29,620

anything so we kept going then there was the other one the United Government and the unidentified

742

01:16:29,620 --> 01:16:35,300

flying objects that was the link which was their usual stance but the one that really

743

01:16:35,300 --> 01:16:47,140

got me going was this one which was on the 1999 link under release documents this says

744

01:16:47,140 --> 01:16:53,860

information on sighting of possible alien craft now we're not talking about a UFO we're talking

745

01:16:53,860 --> 01:16:58,740

about an alien craft they've actually they've titled it they've changed it from fact sheet on

746

01:16:58,740 --> 01:17:04,660

UFOs to information on sighting of possible alien craft I mean for NASA to use that terminology

747

01:17:04,660 --> 01:17:09,220

it's just I think it's unheard of but to call something in alien craft as an alien I mean it's

748

01:17:09,220 --> 01:17:14,980

it puts in a whole different ballpark to unidentified flying objects this was the only one that

749

01:17:14,980 --> 01:17:19,540

used this terminology of possible sighting on alien craft so as soon as I seen that one

750

01:17:19,540 --> 01:17:24,180

and I mean I knew straight away that it's just completely out of the norm for that even to

751

01:17:24,180 --> 01:17:29,140

be on there you think that every effort had been made for not that not to be there but there's a link

752

01:17:29,140 --> 01:17:34,340

there's a log number so we did the usual thing that we did probably 15 times before put the

753

01:17:34,340 --> 01:17:40,580

requesting the request came back denied and this doesn't exist at which point where did you get this

754

01:17:40,580 --> 01:17:46,260

from I was asked and where did that come from I took a screen grab of the actual freedom of

755

01:17:46,260 --> 01:17:53,140

information webpage and emailed that to the webmaster and the freedom of information officer who is

756

01:17:53,700 --> 01:17:59,300

at NASA no reply from any of these reading a little bit further into it there was another one

757

01:17:59,300 --> 01:18:04,180

which says information about unidentified flying objects and any claim made by people who

758

01:18:04,180 --> 01:18:08,100

say they were abducted by extraterrestrial and I thought well why are NASA interested in people

759

01:18:08,100 --> 01:18:12,820

who claim to be abducted so it was just getting even more suspicious of these average kind of

760

01:18:12,820 --> 01:18:19,540

documents so I've just took a twist for the better for the research we were doing with the NASA footage

761

01:18:19,540 --> 01:18:23,540

because I thought this would be all evidence in our in our corner to point towards the footage that

762

01:18:23,540 --> 01:18:27,700

people are calling ice and debris if I can say to somebody well your class isn't as ice and debris

763

01:18:27,700 --> 01:18:32,260

but if this information on sighting possible alien craft related to a piece of footage we had from

764

01:18:32,340 --> 01:18:38,740

a mission well we've hit the jackpot there so we asked for all this emails get ignored I even

765

01:18:38,740 --> 01:18:43,940

made phone calls to the various freedom of information officer at which point you get

766

01:18:43,940 --> 01:18:48,260

passed around and around and the next minute you're speaking oh Janet who's cleaning a hallway

767

01:18:48,260 --> 01:18:53,620

somewhere so they just basically did not speak to you I would say within the space of two or

768

01:18:53,620 --> 01:18:59,140

three days of actually reporting about the possible alien craft and the abduction one

769

01:18:59,140 --> 01:19:06,100

when I went back to the NASA website just as means for researching this the complete links

770

01:19:06,100 --> 01:19:10,020

had changed there was only one link that related to UFOs and that was the link that was their standard

771

01:19:10,020 --> 01:19:14,340

no defense significance kind of mod thing everything else all the documents released under

772

01:19:14,340 --> 01:19:20,820

information freedom of information the 1997 1998 1999 link which related to all these documents

773

01:19:20,820 --> 01:19:25,780

was gone there was just one single link left from maybe several that I'd used previous but

774

01:19:25,780 --> 01:19:30,740

luckily for me as soon as I'd seen these things I took prints I took screen grabs and we've got the

775

01:19:31,940 --> 01:19:37,140

NASA's own screen freedom of information you can read it it's there it's as it was offered

776

01:19:37,140 --> 01:19:41,300

we took grabs of it which I've emailed back asking and why it's missing to this day still had no

777

01:19:41,300 --> 01:19:48,180

replay Christopher Martin first began experiencing the UFO phenomena at close quarters several years

778

01:19:48,180 --> 01:19:54,580

ago but apart from self publishing a book about those experiences Christopher is perhaps best

779

01:19:54,580 --> 01:20:00,420

known for videotaping some of the most striking daylight UFO footage ever seen of anomalous aerial

780

01:20:00,420 --> 01:20:08,340

activity over London in 2001 Christopher shared his footage after being invited to lecture at

781

01:20:08,340 --> 01:20:15,060

Loughlin, Nevada and earlier this year he traveled even further afield to deliver a series of lectures

782

01:20:15,060 --> 01:20:23,460

in Australia during his visit Christopher met numerous UFO researchers spoke with many fascinating

783

01:20:23,460 --> 01:20:30,580

characters traveled to Pine Gap one of the most secretive bases on the planet and even had time

784

01:20:30,580 --> 01:20:37,940

to spare to videotape yet more anomalous activity down under captured on camera here are just a few

785

01:20:37,940 --> 01:20:46,740

of Christopher's clips from the land of Oz some of the houses there they'll blow your socks off

786

01:20:46,740 --> 01:20:50,980

you've never seen houses like anything I'm not joking I might do a bit of that tomorrow

787

01:20:50,980 --> 01:20:55,460

but just to give you an sense because it will blow your mind

788

01:20:59,460 --> 01:21:06,340

30 years ago I trained as a nurse and midwife and then I was trained into counseling about 15 years

789

01:21:06,340 --> 01:21:11,140

ago and I worked in a medical practice in England for five in the meantime we were looking at going

790

01:21:11,140 --> 01:21:16,980

overseas and Australia seemed a really good bet because it's still a very much a sort of culture

791

01:21:16,980 --> 01:21:23,140

we used to so it was either now or never so in our 40s that we actually came over here with a family

792

01:21:24,020 --> 01:21:28,420

and I decided that really nursing wasn't anymore for me so counseling was the

793

01:21:29,540 --> 01:21:34,260

where I wanted to go in the meantime I got some people with very interesting experiences coming

794

01:21:34,260 --> 01:21:39,060

to me saying look I don't know where to go but these things are happening I don't know if I'm

795

01:21:39,060 --> 01:21:45,380

going crazy and all that kinds of things and the one that was very significant was my very first

796

01:21:45,380 --> 01:21:50,900

experience a mature man a little bit about abduction kinds of experiences through reading

797

01:21:50,900 --> 01:21:57,380

John Mack's book and Whitley Streber's experiences but I never ever thought I'd come across anyone

798

01:21:57,380 --> 01:22:03,140

who had it I thought it's extremely rare and I was actually doing advanced counseling at the time

799

01:22:03,140 --> 01:22:08,820

and I took this to supervision the case study nobody could give me any insight they were all

800

01:22:08,820 --> 01:22:13,700

fascinated but they they couldn't come to any conclusion I found I was educating them and I

801

01:22:13,700 --> 01:22:18,020

thought what's the point of this you know they they're not helping I'm you know I'm doing a course

802

01:22:18,020 --> 01:22:22,900

where we're talking about human experience and they they haven't got a clue so I decided to do

803

01:22:22,900 --> 01:22:28,420

my own research and from that I met another lady who was a social worker that had her own experiences

804

01:22:29,060 --> 01:22:30,580

and we started up a support group

805

01:22:31,300 --> 01:22:36,180

I'm trying to just turn my own thoughts and what do you do?

806

01:22:37,540 --> 01:22:45,300

well just this very very bright light brighter than a star and it started to move

807

01:22:46,260 --> 01:22:53,300

and within the space of a few seconds it was moving up and then it just blinked out it just went

808

01:22:53,300 --> 01:23:00,020

just gone and it's first time I've seen anything like that just amazing

809

01:23:00,020 --> 01:23:10,740

so

810

01:23:20,820 --> 01:23:24,580

download I downloaded it and got the

811

01:23:24,900 --> 01:23:30,740

did you download it to me? no on a sloppy disk and I put the sloppy disk down and they blew it up

812

01:23:30,740 --> 01:23:34,820

the best they could but it's probably the same yellow foam from the city's angle

813

01:23:36,020 --> 01:23:41,300

along with this oh a couple of those that I listened to this is on last week

814

01:23:41,300 --> 01:23:49,380

Tuesday April night but they say Chris they're looking to see me every day and this is in daytime

815

01:23:50,260 --> 01:23:56,820

that's the same goal that that's north if we had the time I'm almost tempted no bullshit

816

01:23:57,780 --> 01:24:03,940

of just going to Wycliffe world which is 400 kilometers north it only takes four hours to drive

817

01:24:03,940 --> 01:24:10,820

then but listen I'm not being silly talking this crap that's another hot spot it's probably hotter

818

01:24:10,820 --> 01:24:21,700

than this at the moment it's so good that by this just a bloke got a bargain body paid \$5,000

819

01:24:21,700 --> 01:24:26,900

for it you know this is this area out where we're going today okay it's wide open

820

01:24:28,580 --> 01:24:33,220

channel 9 came up this is Marilyn here good nice lady she speaks good English

821

01:24:34,180 --> 01:24:42,020

but they had these road parties you know they was doing this road they were extending it

822

01:24:42,820 --> 01:24:51,060

for the rail and it was the same thing again what color it was the blue one the blue one

823

01:24:51,060 --> 01:25:00,660

yeah but see my nephew the same one was driving the falcon and his wife was there and I said to

824

01:25:00,660 --> 01:25:08,340

me what see I think there's a blue light waiting for us and my nephew said oh not again auntie

825

01:25:08,340 --> 01:25:14,740

yeah it's it's them all right so we've driving along it was just there in a bush and I said no

826

01:25:14,740 --> 01:25:20,340

it's coming up it sort of came up and it was you can see the spin effects and all the scrub

827

01:25:20,340 --> 01:25:28,180

sort of blue color but it was shaped like that it was the same as the old painting it was the same

828

01:25:28,500 --> 01:25:33,860

exactly when I next to all these things been happening to me yeah

829

01:25:37,300 --> 01:25:44,100

a lot of things so I was just thinking if would they be able to read people's mind

830

01:25:44,100 --> 01:25:50,740

yes where they like well turn and freak it's a lot you know big trip and I couldn't say don't

831

01:25:50,740 --> 01:25:56,100

like going then I thought oh no we're good then I remember then when we got nearly a way clip

832

01:25:56,900 --> 01:26:02,660

we'll probably see something I said to my nephew and his wife and next thing I said yes

833

01:26:03,220 --> 01:26:10,500

the blue lights there and he said not again auntie where I said on the right on the right but it was

834

01:26:10,500 --> 01:26:16,660

it must have landed it was in between the bushes and trees in it but as we got nearer

835

01:26:16,900 --> 01:26:28,820

and I think it's about 300 meters away from the eye way and it came above and it was floating

836

01:26:28,820 --> 01:26:34,820

it was just floating above the trees and you could see beautiful blue light it was so beautiful the

837

01:26:34,820 --> 01:26:44,420

lights itself in a sort of um gave you that feeling was it a soft fluorescent yes yes you had a

838

01:26:44,500 --> 01:26:51,940

pleasant feeling from it yes yes and see one one night it was just an evening the sun just went

839

01:26:51,940 --> 01:27:00,180

down well we sat there and there and we were looking at that rock my sister and I we looked and

840

01:27:00,180 --> 01:27:06,020

looked and nicked him what is that under these two lights came over but it was down with nicked him

841

01:27:06,500 --> 01:27:13,700

and I said you sure it's not Rambo over there and it it was there for a long time

842

01:27:14,580 --> 01:27:17,460

it was there for a long time and I said aren't they gonna move

843

01:27:19,380 --> 01:27:26,180

so I don't know whether they came up and then it started moving but it was so fast

844

01:27:28,180 --> 01:27:30,660

so I think they might got something there in the back

845

01:27:36,980 --> 01:27:42,660

okay listen if I don't get anything and you do you send me a copy of it

846

01:27:54,820 --> 01:27:56,660

oh dear

847

01:27:56,660 --> 01:28:04,340

I've made your grade art department uncorrelated targets and unknown events

848

01:28:05,460 --> 01:28:08,100

so if you'd like to have a grant in your grade art department

849

01:28:09,540 --> 01:28:14,740

perfectly fine they they know all about it apparently it was a fun form I guess so I'm

850

01:28:14,740 --> 01:28:19,140

just delivering it sir what was your name my name is Kathy Dickman I'm from Adelaide

851

01:28:19,780 --> 01:28:23,540

alright so today my name's Jordan King of Acts so very interesting

852

01:28:23,780 --> 01:28:25,140

you get a take some footage

853

01:28:29,860 --> 01:28:33,220

just sort of hand that over and I hope you all get to see it and enjoy

854

01:28:33,220 --> 01:28:36,100

well pass it on thank you very much okay thank you

855

01:28:38,260 --> 01:28:42,260

wait pull out see they walk soon as you start walking they're walking out already

856

01:28:42,260 --> 01:28:43,220

yeah I knew it

857

01:28:44,740 --> 01:28:47,300

ah did it well I did it

858

01:29:53,540 --> 01:29:56,300

oh
