UFOs: Investigating the Unknown (TV Series 2023–) - IMDb

I have been open to various rabbit holes. For instance, I think that Vietnam was a pretty bad idea, despite that "we" had been "attacked" in the Gulf of Ton-kin. I was skeptical that Iraq had weapons of mass destruction, and it turns out they didn't.

I was a little bit worried that the caves beneath Tora Bora were a massive Bin-Laden-engineered super-complex of jet aircraft controlling, tower-dropping, WMD slinging, freedom-crushing, civilian-killing death aimed at all us all us good freedom loving folks in Amurka...

But I was a little let down when that turned out to be false.

The thing I always told myself was that, having waded through all that M5M crap about Iraq having WMD's, etc., at least I never fell for the gummint UFO psy-op.
