

1

00:00:00,000 --> 00:00:05,000

Ballistic missiles, the first ever seen on this planet.

2

00:00:05,000 --> 00:00:11,000

Stealth technology developed half a century before B2 bombers.

3

00:00:11,000 --> 00:00:15,000

Flying saucers and UFO full fighters.

4

00:00:15,000 --> 00:00:20,000

Did the Nazis have an extraterrestrial edge in the Second World War?

5

00:00:20,000 --> 00:00:24,000

They were doing things that no conventional aircraft could do.

6

00:00:25,000 --> 00:00:30,000

The Allied command really didn't know what they were dealing with.

7

00:00:30,000 --> 00:00:36,000

These weapons nearly changed the course of human history.

8

00:00:36,000 --> 00:00:41,000

Some believe that UFO technology is what sparked Hitler's quest to conquer the world,

9

00:00:41,000 --> 00:00:45,000

along with an alien connection that fueled never-before-seen weaponry.

10

00:00:45,000 --> 00:00:48,000

But what happened to this knowledge once the war was over?

11

00:00:55,000 --> 00:00:59,500

bedtime

12

00:01:04,740 --> 00:01:06,880

40th, pense!

13

00:01:06,880 --> 00:01:11,300

We are still going with Apollo 11, 32nd.

14

00:01:11,300 --> 00:01:17,280

July 16, 1969, 103 to AM, Cape Canaveral, Florida,

15

00:01:17,280 --> 00:01:18,560

An...

16

00:01:18,560 --> 00:01:19,840

nine...

17

00:01:19,840 --> 00:01:22,840

Ignition sequence start.

18

00:01:27,840 --> 00:01:32,840

A Saturn V rocket lifts off from NASA's Kennedy Space Center.

19

00:01:32,840 --> 00:01:36,840

Apollo 11, the first lunar landing mission.

20

00:01:43,840 --> 00:01:48,840

Four days later, Neil Armstrong and Buzz Aldrin reach the moon.

21

00:01:49,840 --> 00:01:53,840

Tangledi base here. The eagle has landed.

22

00:01:53,840 --> 00:02:00,840

That's one small step for man. One giant leap for mankind.

23

00:02:00,840 --> 00:02:05,840

But little do most people know, the technology behind this defining moment in history

24

00:02:05,840 --> 00:02:11,840

was developed by a Nazi rocket scientist captured at the end of World War II.

25

00:02:11,840 --> 00:02:15,840

And 50 years later, a deeper mystery still swirls.

26

00:02:15,840 --> 00:02:20,840

The first thing that came to the world was the technology that brought man to the moon,

27

00:02:20,840 --> 00:02:26,840

extraterrestrial itself. The story begins in southwest Germany just before the war.

28

00:02:28,840 --> 00:02:37,840

There's a story that in 1936, in the black forest, there was a crash of a UFO.

29

00:02:46,840 --> 00:02:54,840

The crashed UFO was taken to Wilsberg Castle, one of the key third-reich headquarters.

30

00:02:54,840 --> 00:02:58,840

And that's where the process of reverse engineering began.

31

00:03:02,840 --> 00:03:06,840

According to some accounts, the Nazi scientists were able to obtain the craft,

32

00:03:06,840 --> 00:03:10,840

reverse engineer the technology, and eventually develop rockets.

33

00:03:10,840 --> 00:03:16,840

Advanced guidance systems, bombers, flying wings, and technology that the world has never seen.

34

00:03:17,840 --> 00:03:23,840

If this incredible story is true, then Hitler's armies may have had an extraterrestrial edge

35

00:03:23,840 --> 00:03:29,840

in their battle for world domination. The first clues appeared after the Allied invasion.

36

00:03:29,840 --> 00:03:35,840

June 13, 1944, one week after the D-Day landings.

37

00:03:36,840 --> 00:03:42,840

In the coastal region of Normandy, France, American and British troops are fighting to free Western Europe

38

00:03:42,840 --> 00:03:45,840

from the grip of Hitler's Third Reich.

39

00:03:48,840 --> 00:03:57,840

The Nazis retaliate by launching an incredible new weapon, the WAN rockets called Buzbombs, aimed for England.

40

00:03:58,840 --> 00:04:05,840

On D-Day, the Allies landed somewhat unexpectedly and more successfully than the Germans had anticipated.

41

00:04:05,840 --> 00:04:13,840

And the launching of the V-1 was to get revenge on them for this invasion and try to undermine British morale.

42

00:04:13,840 --> 00:04:20,840

The V-rockets were Germany's first Wunderwaffen, wonder weapons of World War II, and could have been game changers.

43

00:04:27,840 --> 00:04:31,840

They were the first essentially guided missiles of modern warfare.

44

00:04:34,840 --> 00:04:40,840

Effectively, the V-1 just flew a lot of the time over London.

45

00:04:42,840 --> 00:04:49,840

And then when the fuel ran out, the thing would plummet to the earth and explode.

46

00:04:50,840 --> 00:04:57,840

And I remember my grandparents, who lived in London, telling me about this.

47

00:04:57,840 --> 00:05:03,840

You were all right as long as you heard the engine, but the moment the engine stopped.

48

00:05:09,840 --> 00:05:14,840

There was terror and people just dived for cover.

49

00:05:20,840 --> 00:05:26,840

Three months later, in German-occupied Holland, the Nazis unleashed an even more powerful weapon.

50

00:05:35,840 --> 00:05:39,840

The V-2 was effectively a long-range ballistic missile.

51

00:05:39,840 --> 00:05:43,840

It was a rocket. It traveled to the very fringe of space.

52

00:05:43,840 --> 00:05:47,840

There was no warning, no possible defense against it.

53

00:05:47,840 --> 00:05:54,840

Nor any logical explanation for the Germans developing such advanced weaponry, seemingly out of thin air.

54

00:05:56,840 --> 00:06:07,840

There were rockets at the time. In 1937, after 10 years of test flights, American engineer Robert Goddard fired a liquid-fueled A-8 to an altitude of 9,000 feet, a record-setting achievement.

55

00:06:13,840 --> 00:06:27,840

But as cutting edge as it was, Goddard's rocket could only travel up and down, primitive in contrast to the V-1 and V-2, which soared over long distances, their roots programmed into an on-board computer.

56

00:06:27,840 --> 00:06:32,840

This new navigation system is a quantum leap forward in rocket technology.

57

00:06:34,840 --> 00:06:42,840

These weapons nearly changed not just the course of the war, but arguably the course of human history.

58

00:06:42,840 --> 00:06:49,840

And the science, the technology came that close to winning the war for the Germans.

59

00:06:49,840 --> 00:06:57,840

So was it sheer coincidence that German aerospace engineering took off in the years after the UFO crash in the Black Forest?

60

00:06:58,840 --> 00:07:04,840

UFO researchers say no, and point squarely at another Nazi innovation, the flying wing.

61

00:07:04,840 --> 00:07:10,840

The Nazis had something called the Horten H-O-229, which was a flying wing design.

62

00:07:12,840 --> 00:07:18,840

This plane was totally revolutionary and far beyond anything that the Americans could have even conceived of at the time.

63

00:07:18,840 --> 00:07:24,840

It had no tail, it was literally just a flying wing. It was essentially the predecessor to the American B-2 bomber.

64

00:07:24,840 --> 00:07:28,840

The fact that the Nazis even had the idea for it, it's amazing.

65

00:07:29,840 --> 00:07:43,840

And this is a delta-shaped craft. And again, this design was like nothing that had been seen before in the aviation community.

66

00:07:43,840 --> 00:07:53,840

And if you look at the shape of this aircraft, it really does remind you for all the world of a B-2 stealth bomber.

67

00:07:54,840 --> 00:08:03,840

It's hard to believe that half a century before the US military deployed this American icon, the Nazis were developing the same stealth technology,

68

00:08:03,840 --> 00:08:14,840

a flying wing in an era before calculators were even invented, convincing evidence of possible extraterrestrial influence behind Hitler's reign of terror.

69

00:08:14,840 --> 00:08:26,840

That might explain how, seemingly from nowhere, the Nazis suddenly acquired technology that, frankly, was a generation or two ahead of itself,

70

00:08:26,840 --> 00:08:35,840

all within a matter of years, and all if the stories are to be believed, very shortly after this UFO crash in the Black Forest.

71

00:08:35,840 --> 00:08:46,840

And the longer the war went on, the more curious German spacecraft, from flying missiles to flying saucers, coming up.

72

00:08:46,840 --> 00:08:51,840

The Nazis couldn't win the war conventionally anymore, so they needed miracle weapons.

73

00:08:51,840 --> 00:08:56,840

These craft were shaped like the classic shape disc UFOs.

74

00:09:06,840 --> 00:09:17,840

In his quest to dominate Europe, Adolf Hitler relied on an ever-advancing array of incredible airborne weapons, the likes of which the world had never seen.

75

00:09:17,840 --> 00:09:23,840

Weapons some people claim were reversed engineered from UFO technology.

76

00:09:23,840 --> 00:09:29,840

Some Nazis were really concerned by 43 or 44 that they couldn't win the war conventionally anymore.

77

00:09:30,840 --> 00:09:33,840

So they needed miracle weapons or new technologies.

78

00:09:33,840 --> 00:09:40,840

So there's clear evidence that some Nazis, scientists and engineers, experimented with things that might look like flying saucers.

79

00:09:44,840 --> 00:09:54,840

One of the scientists who it's claimed worked on this recovered alien technology was Viktor Schauburg.

80

00:09:54,840 --> 00:10:02,840

And he is an Austrian inventor who many believe was really a pioneer in the field of anti-gravity.

81

00:10:04,840 --> 00:10:15,840

Stories passed down since the war suggest that Schauburgers most ambitious development for the Nazi war effort was a revolutionary aircraft called the Handburg.

82

00:10:16,840 --> 00:10:29,840

There's a lot of mystique about Schauburgers' work, but it is entirely possible and I think likely that he developed disc-shaped airframes for the Reich as experimental devices.

83

00:10:33,840 --> 00:10:39,840

Viktor Schauburg was the person pivotal to the whole Handburg program.

84

00:10:40,840 --> 00:10:48,840

And he was the one designing this, he was the one trying to figure out how to construct a prototype.

85

00:10:48,840 --> 00:10:58,840

He was the one who would ultimately have to answer to Hitler himself on are any of these projects ready for operational deployment?

86

00:10:59,840 --> 00:11:03,840

Huge pressure on him to come up with the goods and deliver.

87

00:11:04,840 --> 00:11:19,840

Germany had an incredibly advanced scientific infrastructure obviously and an equally advanced industrial infrastructure to accommodate some of the most incredible scientific research of the

mid-20th century.

88

00:11:20,840 --> 00:11:26,840

To expedite Schauburgers' project, the Nazis gather workers from concentration camps.

89

00:11:27,840 --> 00:11:37,840

He was told we're going to give you slave labor. We don't care what happens to them because a lot of the stuff that Schauburgers was working with involved radiation, mercury and people would get poisoned.

90

00:11:37,840 --> 00:11:43,840

So they said well go ahead you've got all these free laborers. We'd like to see what you can do with that.

91

00:11:44,840 --> 00:11:58,840

At the heart of the radical design for the Handburg is a propulsion system called the Repulsine that would in theory allow the craft not only to hover but maneuver through the air in almost any direction.

92

00:11:58,840 --> 00:12:04,840

Some people say that it was powered by some sort of manipulation of magnetic fields.

93

00:12:04,840 --> 00:12:12,840

But others go further and say actually there was an anti-gravity device.

94

00:12:13,840 --> 00:12:21,840

It's been reported that the Nazis had developed two craft, the Hannibal One and the Hannibal Two. It stood about 82 feet high.

95

00:12:21,840 --> 00:12:28,840

These were massive craft capable of taking up to 20 people up into the air, maybe even into space.

96

00:12:30,840 --> 00:12:33,840

But they also were shaped like the classic shape disc UFOs.

97

00:12:37,840 --> 00:12:42,840

They wanted to create anti-gravity craft that could be used in the war against the West.

98

00:12:42,840 --> 00:12:47,840

To us this is kind of unusual and something we would never even bother to try.

99

00:12:47,840 --> 00:12:50,840

But guys like Schauburger decided we're going to try everything.

100

00:12:51,840 --> 00:12:57,840

But if Schauburger really designed and built a flying saucer, where's the proof?

101

00:12:57,840 --> 00:13:05,840

Some answers come in 1945 after the war when the US military discovers secret Nazi archives.

102

00:13:05,840 --> 00:13:17,840

And what they find proves shocking. Documents confirm that Victor Schauburger had in fact developed designs for not one but three working versions of the Hannbu spacecraft.

103

00:13:17,840 --> 00:13:26,840

Documents even claim that the Hannbu could achieve speeds of 1200 miles per hour, far beyond the limits of flight at that time.

104

00:13:26,840 --> 00:13:29,840

And years later hard evidence has come to light.

105

00:13:30,840 --> 00:13:38,840

Seen here for the first time on national television, footage of what appears to be a Hannbu

saucer's test flight in 1939.

106

00:13:39,840 --> 00:13:45,840

Bombspearing, a visual analysis expert for the mutual UFO network, studied the film.

107

00:13:47,840 --> 00:13:52,840

What we're looking at here is the ported flight of a Nazi aircraft called the Hannbu.

108

00:13:52,840 --> 00:13:57,840

But why would they be doing it in a populated area such as seen in this film?

109

00:13:57,840 --> 00:14:05,840

We don't know. It's difficult to say where this film came from. Whether or not this film is legitimate is subject to doubt.

110

00:14:05,840 --> 00:14:09,840

But there are certain things about the film which suggest that it might be real.

111

00:14:09,840 --> 00:14:17,840

You can see emulsion flakes coming off the film which suggest that it was 16 millimeter film as opposed to it being a modern video.

112

00:14:17,840 --> 00:14:22,840

We know the Nazis were experimenting with the craft of this shape back then.

113

00:14:22,840 --> 00:14:28,840

And from all intents and purposes the age of the film is probably about 1939 vintage.

114

00:14:28,840 --> 00:14:33,840

And this could be an experimental aircraft being filmed in Nazi Germany at the time.

115

00:14:33,840 --> 00:14:36,840

So it is possible that this is a legitimate film.

116

00:14:36,840 --> 00:14:47,840

Did the Nazis get their hands on something literally from out of this world?

117

00:14:49,840 --> 00:15:00,840

And give us a technology that was perhaps not just hundreds but maybe thousands of years ahead of anything that we have, even now.

118

00:15:01,840 --> 00:15:12,840

All of this raises the question could this story of this UFO crash in 1936 in the Black Forest be true?

119

00:15:12,840 --> 00:15:21,840

Might that be where the Nazis acquired these ideas and this prototype technology?

120

00:15:21,840 --> 00:15:26,840

I mean you have to scratch your head and think how in the world do we even win the war?

121

00:15:26,840 --> 00:15:33,840

It appears that this may have been the first time that our military has faced advanced technology that could be of alien origin.

122

00:15:35,840 --> 00:15:41,840

Though many researchers are convinced that Schauberger's work likely benefited from extraterrestrial technology,

123

00:15:41,840 --> 00:15:48,840

there are stranger theories floating around of an even deeper connection to an alien intelligence.

124

00:15:49,840 --> 00:16:00,840

Now it's well known that the Nazis were attempting to channel information from spirit beings and they were trying to communicate with extraterrestrials.

125

00:16:01,840 --> 00:16:08,840

Schauberger said that he was in sort of a supernatural communication with higher beings that gave him these ideas.

126

00:16:08,840 --> 00:16:12,840

He said these ideas were not his, they actually came from a higher source.

127

00:16:12,840 --> 00:16:18,840

He used all these different influences to help inspire and create his revolutionary inventions.

128

00:16:19,840 --> 00:16:26,840

It sounds far-fetched but the evidence may have manifested itself in the skies above Nazi Germany.

129

00:16:31,840 --> 00:16:32,840

Coming up.

130

00:16:32,840 --> 00:16:37,840

One of the great mysteries of World War II revolves around foo fighters,

131

00:16:37,840 --> 00:16:44,840

variously described as holes of light often seen in close vicinity of aircraft.

132

00:16:44,840 --> 00:16:49,840

The Allied command really didn't know what they were dealing with.

133

00:16:49,840 --> 00:17:08,840

Many UFO experts believe that the crash in the Black Forest was a watershed moment in German aerospace development.

134

00:17:08,840 --> 00:17:12,840

But retro-engineering a spacecraft is one thing.

135

00:17:12,840 --> 00:17:16,840

Calling on alien ships to help fight the enemy is quite another.

136

00:17:17,840 --> 00:17:24,840

In late December 1944, as the US Air Force prepares to drop bombs over Nazi Germany,

137

00:17:24,840 --> 00:17:28,840

a new unimaginable threat is first seen in the skies.

138

00:17:28,840 --> 00:17:34,840

An Allied pilot spots a bright ball of light approaching fast on a collision course.

139

00:17:35,840 --> 00:17:42,840

The pilot tries to avoid an imminent crash when suddenly the object disappears right before his eyes.

140

00:17:43,840 --> 00:17:50,840

Allied bombing missions typically over Germany would report objects, often luminous types of objects,

141

00:17:50,840 --> 00:17:55,840

coming toward their aircraft, pacing them for a certain period of time,

142

00:17:55,840 --> 00:17:59,840

coinciding with what seemed like engine interference on the plane.

143

00:17:59,840 --> 00:18:05,840

And then the objects would often zoom off, sometimes go straight up and just go out of sight.

144

00:18:06,840 --> 00:18:13,840

One of the great mysteries of World War II revolves around the so-called Foo Fighters.

145

00:18:13,840 --> 00:18:19,840

Now these were variously described as balls of light,

146

00:18:21,840 --> 00:18:25,840

often seen in close vicinity of aircraft.

147

00:18:25,840 --> 00:18:32,840

So we have multiple pilot witnesses, so that takes you into the realm of credibility.

148

00:18:32,840 --> 00:18:38,840

People thought that they were maybe under attack and tried to take some evasive actions.

149

00:18:38,840 --> 00:18:46,840

British and US pilots who saw these things thought that this was some sort of Nazi secret weapon.

150

00:18:46,840 --> 00:18:53,840

The Nazis somehow having acquired technology generations ahead of anything that anyone else had at the time.

151

00:19:03,840 --> 00:19:10,840

At first, Air Force pilot reports are dismissed as misinterpretations of crews under fire in the heat of battle.

152

00:19:10,840 --> 00:19:18,840

But increasingly, American and British military officials realize they're dealing with something that defies all explanation.

153

00:19:18,840 --> 00:19:26,840

They enveloped American fighters as they were conducting these bombing raids over Germany.

154

00:19:26,840 --> 00:19:31,840

These things would keep pace with and follow American aircraft.

155

00:19:31,840 --> 00:19:36,840

And initially, we wondered if it was Nazi technology.

156

00:19:36,840 --> 00:19:40,840

They were doing things that no conventional aircraft could do.

157

00:19:40,840 --> 00:19:45,840

And it didn't appear that they were solid objects.

158

00:19:45,840 --> 00:19:51,840

One of the things that you see with these Foo Fighter reports is they're not like ordinary aircraft.

159

00:19:51,840 --> 00:19:54,840

How they move seemed to be kind of a mystery.

160

00:19:54,840 --> 00:20:01,840

There are elements of these Foo Fighters that are fascinating and mysterious and unexplained.

161

00:20:04,840 --> 00:20:10,840

And before long, pilots took to calling them Foo Fighters after the French word, Foo, for fire.

162

00:20:10,840 --> 00:20:14,840

And because of how dangerous they thought these objects might be.

163

00:20:14,840 --> 00:20:23,840

They have capabilities that were, I would say, superior to that of bomber and fighter aircraft.

164

00:20:23,840 --> 00:20:27,840

They seemed to be faster. They seemed to have greater maneuverability.

165

00:20:27,840 --> 00:20:33,840

They didn't seem to make any noise, but they definitely seemed to be intelligently controlled.

166

00:20:33,840 --> 00:20:44,840

On December 13, 1944, in Paris, France, the Allied War Command issues a press release describing the Foo Fighters as the newest Nazi secret weapon.

167

00:20:44,840 --> 00:20:49,840

That's a reasonable speculation, but the problem is, what's the evidence that the Germans actually were creating these things?

168

00:20:49,840 --> 00:20:52,840

And the answer to that is none.

169

00:20:53,840 --> 00:20:55,840

Which leads to some radical theories.

170

00:20:55,840 --> 00:21:02,840

Could it be, as some researchers speculate, that the Foo Fighters were not simply reverse engineered alien tech,

171

00:21:02,840 --> 00:21:07,840

but were actually flown by extraterrestrials in support of the Nazis?

172

00:21:07,840 --> 00:21:13,840

Or were they the most shocking example yet of a wonder weapon from Nazi scientists?

173

00:21:13,840 --> 00:21:23,840

There are stories that the Nazis had developed two prototype weapon systems that might explain some of these Foo Fighters sightings.

174

00:21:23,840 --> 00:21:34,840

The first was called Soap Bubbles, which was effectively a balloon with a sort of metal coil inside, which would have acted to confound radar systems.

175

00:21:35,840 --> 00:21:51,840

The second was apparently codenamed Flying Turtle, and was, to all intents and purposes, a drone, an unmanned aerial vehicle capable of interfering with electrical systems.

176

00:21:54,840 --> 00:22:02,840

I think there's definitely a connection between the Nazi energy research that they were conducting and these Foo Fighters.

177

00:22:02,840 --> 00:22:15,840

It may actually be possible that they were nothing more than some sort of reconnaissance energy that was being used by the Nazis to find out where these different aircraft and bomber squadrons were coming from.

178

00:22:15,840 --> 00:22:23,840

They definitely were intelligently controlled, but if they weren't Nazi weapons of some kind, then what were they?

179

00:22:24,840 --> 00:22:34,840

The effect that Foo Fighters were having on Allied aircraft seems remarkably similar to what is

reported during more modern UFO encounters.

180

00:22:34,840 --> 00:22:46,840

The loss of power is something very often associated not just with these apparent Nazi prototype weapons, but with UFOs.

181

00:22:47,840 --> 00:22:59,840

And the theory is that the UFO has some sort of propulsion system that affects electromagnetic devices and cause them to stall.

182

00:23:01,840 --> 00:23:10,840

I will say that something as big as the Second World War would be of interest to any observing intelligence.

183

00:23:11,840 --> 00:23:15,840

If I were to guess what the Foo Fighters were, I would say that they were not from our civilization.

184

00:23:16,840 --> 00:23:21,840

If they were reported today, if they were seen now by pilots, they would be called UFOs.

185

00:23:22,840 --> 00:23:25,840

There's no question that this sparked the UFO craze.

186

00:23:25,840 --> 00:23:33,840

So was this extraterrestrial technology or was it perhaps a weapon used by the Nazis or another government?

187

00:23:35,840 --> 00:23:37,840

If the Foo Fighters were in fact UFOs...

188

00:23:40,840 --> 00:23:42,840

Were they here to spy on us?

189

00:23:42,840 --> 00:23:44,840

Win the war for the Nazis?

190

00:23:44,840 --> 00:23:46,840

We may never know.

191

00:23:47,840 --> 00:23:53,840

Then again, the truth could be hiding in the incredible secret weapon that may still be active today.

192

00:23:54,840 --> 00:23:55,840

Coming up...

193

00:23:56,840 --> 00:24:00,840

Hitler, in fact, was certain it was key to winning the war.

194

00:24:01,840 --> 00:24:09,840

Is it possible that the Nazis activated this technology and were able to time travel and escape World War II?

195

00:24:11,840 --> 00:24:13,840

The UFOs

196

00:24:21,840 --> 00:24:29,840

UFO researchers believe that during World War II, Allied forces may have unknowingly battled against an arsenal of weapons from out of this world.

197

00:24:30,840 --> 00:24:34,840

But among all of Germany's clandestine projects, one stands out.

198

00:24:36,840 --> 00:24:38,840

Ludwig Wiedze, Poland

199

00:24:40,840 --> 00:24:43,840

After the Nazi defeat in mid-1945...

200

00:24:45,840 --> 00:24:53,840

American intelligence officers interrogate a Nazi general named Jacob Sporenberg, who reveals a shocking secret.

201

00:24:53,840 --> 00:24:59,840

Details of a bizarre weapon said to be more powerful than any other in the Nazi arsenal.

202

00:25:00,840 --> 00:25:09,840

The German general had told him that this machine was apparently something so extraordinary...

203

00:25:09,840 --> 00:25:14,840

That even the concept seemed almost impossible to conceive of.

204

00:25:14,840 --> 00:25:18,840

And this device apparently was bizarre looking.

205

00:25:20,840 --> 00:25:25,840

Literally shaped like a bell, but with strange hieroglyphs around it.

206

00:25:26,840 --> 00:25:34,840

The hieroglyphs are similar, General Sporenberg claims, to ancient Germanic symbols, but he doesn't know what they mean.

207

00:25:34,840 --> 00:25:46,840

Today, some researchers believe the symbols may have some sort of mystical meaning for Nazi commander and noted engineer Hans Kamler, who helped develop this mysterious machine.

208

00:25:47,840 --> 00:25:53,840

The German dieglock, or the Nazi bell, is a very fascinating case.

209

00:25:55,840 --> 00:25:59,840

It was developed by very high-level physicists.

210

00:25:59,840 --> 00:26:03,840

Hitler, in fact, was certain it was key to winning the war.

211

00:26:06,840 --> 00:26:15,840

What we know about the story of the bell is that it involved a rapidly rotating mercury that would create a kind of gravitational bubble.

212

00:26:15,840 --> 00:26:22,840

And the idea is that if you charge it with a negative and a positive charge on either end and give it a very, very powerful charge...

213

00:26:22,840 --> 00:26:25,840

You can achieve a lift.

214

00:26:26,840 --> 00:26:42,840

This was apparently not just a craft, but this is theoretical physics that even today is at the cutting edge, and would potentially open the door to travel through time.

215

00:26:46,840 --> 00:26:51,840

Is it possible the Nazis were attempting to break through the time-space continuum?

216

00:26:53,840 --> 00:27:06,840

According to some accounts, dieglocker, once it was powered up, effectively levitated and then had to be actually held down, sort of tethered and hinged.

217

00:27:06,840 --> 00:27:15,840

And it's extraordinary to think that even now, supposedly, we don't have this technology.

218

00:27:15,840 --> 00:27:27,840

So the idea that something like this was being developed by the Nazis back in the 40s is incredible and just makes one thing.

219

00:27:27,840 --> 00:27:33,840

Maybe our entire perception of history is wrong.

220

00:27:34,840 --> 00:27:46,840

Now, clearly, for the Germans in the dying days of the Second World War, when effectively even Hitler knew that the war was lost,

221

00:27:46,840 --> 00:27:52,840

the only hope, perhaps, of changing the outcome would have been time travel.

222

00:27:53,840 --> 00:28:08,840

It sounds like science fiction, but who knows, one last desperate throw of the dice, a huge gamble with something that may not work, but my goodness, if it does, it changes everything.

223

00:28:09,840 --> 00:28:17,840

We may never know if dieglock ever worked as envisioned, or if Hans Kamler achieved the Nazi dream of time travel.

224

00:28:17,840 --> 00:28:25,840

Official documentation on the bell is non-existent. The problem that we have is knowing what is true and what is fantasy.

225

00:28:26,840 --> 00:28:36,840

When Germany surrendered in May of 1945, no trace of Kamler or the bell was ever found. But the trail didn't go cold forever.

226

00:28:37,840 --> 00:28:47,840

December 9th, 1965, a large fireball streaks across the Midwestern skies, witnessed by thousands of people in six states.

227

00:28:47,840 --> 00:28:52,840

It crashes in Kecksburg, Pennsylvania, just south of Pittsburgh.

228

00:28:55,840 --> 00:29:04,840

There were eyewitnesses on the ground who went into the wooded area before they were ushered out by police, describing it as essentially acorn shaped.

229

00:29:04,840 --> 00:29:11,840

Maybe about 10 feet high and so forth with odd markings that they could not decipher.

230

00:29:11,840 --> 00:29:22,840

It was something that had very significant national security implication that explains the feds coming in and the military taking over the place.

231

00:29:23,840 --> 00:29:33,840

We know from multiple witnesses that there was some sort of covert operation to spirit this Kecksburg craft away.

232

00:29:33,840 --> 00:29:44,840

A bell shaped object with hieroglyphs around the base that's then subsequently loaded onto a truck and taken away.

233

00:29:45,840 --> 00:29:55,840

So one obviously speculates this must have been the military. This craft must have ended up in the hands of the intelligence community.

234

00:29:58,840 --> 00:30:09,840

To this day, a blanket of total secrecy and denial by the US government surrounds the incident at Kecksburg and the unidentified object that crashed there.

235

00:30:09,840 --> 00:30:19,840

But if this unknown object is the same shape, size and had similar hieroglyphs around the base as the Nazi Dijkloch, as some researchers believe,

236

00:30:19,840 --> 00:30:28,840

could the object that felled in Kecksburg actually be the Nazi bell? And if it is, where did it come from?

237

00:30:28,840 --> 00:30:37,840

Since the Nazi bell was developed as a time machine, could it be that it literally arrived via time travel from the year 1945?

238

00:30:39,840 --> 00:30:46,840

Some people actually think that the Nazi bell since it was never recovered was perhaps found and activated.

239

00:30:46,840 --> 00:30:55,840

Is it possible that the Nazis activated this technology and were able to use it to time travel and escape World War II?

240

00:30:57,840 --> 00:31:08,840

If Dijkloch and the Kecksburg UFO were one in the same object, then is it possible that this was a Nazi time machine that went 20 years into the future?

241

00:31:08,840 --> 00:31:20,840

And if so, was there someone inside it? A top Nazi general? A German scientist? Hitler himself? We simply don't know. And maybe we'll never know.

242

00:31:23,840 --> 00:31:34,840

Had the Nazis discovered the world's first time travel technology? And if so, UFO researchers suggest this technology may have its origins in the crash in Germany's black forest.

243

00:31:35,840 --> 00:31:46,840

The end of World War II brought about the complete destruction of Adolf Hitler and his Nazi regime. But the science lived on. And so do the secrets.

244

00:31:49,840 --> 00:31:50,840

Coming up.

245

00:31:51,840 --> 00:32:02,840

We talk about the spoils of war. Now, in this case, one of those key spoils of war was actually the

brain power of the Nazi scientists.

246

00:32:02,840 --> 00:32:04,840

Griffin, the Eagle has landed.

247

00:32:10,840 --> 00:32:20,840

Following the Allied victory over the Nazis in the Second World War, an international tribunal is convened in Nuremberg, Germany.

248

00:32:21,840 --> 00:32:29,840

A number of the highest profile Nazis who were still alive were put on trial for their crimes in fostering the Nazi regime.

249

00:32:30,840 --> 00:32:35,840

As for the Third Reich scientists, they had a different fate in school.

250

00:32:35,840 --> 00:32:46,840

We talk about the spoils of war. Now, in this case, one of those key spoils of war was actually the brain power of the Nazi scientists.

251

00:32:47,840 --> 00:32:52,840

One of the most sought after scientists is Wernher von Braun, the head of Hitler's rocket program.

252

00:32:53,840 --> 00:33:02,840

He was responsible for the groundbreaking guidance systems that allowed V2 rockets to arc horizontally over long distances before hitting their mark.

253

00:33:02,840 --> 00:33:10,840

Another innovator everyone wanted was Victor Schaabberger, the genius behind Daiglach and the anti-gravity Hanbu.

254

00:33:11,840 --> 00:33:19,840

Researchers believe he held many secrets to UFO technology and perhaps even had a direct connection to alien intelligence.

255

00:33:20,840 --> 00:33:31,840

All these brilliant Nazi scientists, of course, were hugely attractive both to the US government, the British government and indeed the Soviet Union.

256

00:33:31,840 --> 00:33:50,840

And although there were supposedly legal restrictions on Nazis allowed to come to the US, a lot of these key Nazi scientists escaped trial at Nuremberg and were spirited away to work for the US government.

257

00:33:51,840 --> 00:34:08,840

There were an awful lot of the Nazi scientists who said, we don't want to be captured by the Russians and made their way west, including people like Wernher von Braun who took his entire rocket team to the west in order to surrender to the Americans and help them with their rocketry programs.

258

00:34:09,840 --> 00:34:20,840

Under a top secret program called Operation Paperclip, Nazi scientists are resettled in America, often under new identities.

259

00:34:22,840 --> 00:34:28,840

Victor Schaabberger, the developer of the flying disc that may indeed have had some kind of levitation effect.

260

00:34:28,840 --> 00:34:33,840

He was brought to the United States but still held in custody for quite some time.

261

00:34:33,840 --> 00:34:40,840

Obviously, the US government squeezed him for every drop of knowledge that he had.

262

00:34:43,840 --> 00:34:53,840

The idea was to import Nazi scientists with very, very questionable backgrounds into the United States to work on our new high technology development programs.

263

00:34:53,840 --> 00:35:01,840

Schaabberger, von Braun and many others were brought over in spite of the fact that they had been involved in various war crimes during the war itself.

264

00:35:01,840 --> 00:35:06,840

Operation Paperclip was a very strategic move by the United States.

265

00:35:06,840 --> 00:35:12,840

What they did was they saw how Nazi Germany had really advanced to a high superpower in a very short period of time.

266

00:35:12,840 --> 00:35:21,840

Using all of these advanced exotic technologies, then they said to themselves, wait a minute, we got to get our hands on these scientists because those are the people that knew how to develop these.

267

00:35:21,840 --> 00:35:29,840

So we have intelligence officers and Nazi scientists all working in the United States, working on top secret projects and put into high positions of power.

268

00:35:31,840 --> 00:35:46,840

So the fact that the United States could lead these trials against these Nazis and then at the same time bring many of the other Nazis over whose skills were still coveted, clearly that's highly

hypocritical.

269

00:35:47,840 --> 00:35:57,840

Still, Operation Paperclip delivered to the US a wealth of scientific knowledge and maybe even a treasure trove of extraterrestrial technology.

270

00:35:57,840 --> 00:36:01,840

But what impact will Nazi UFO secrets have on America?

271

00:36:03,840 --> 00:36:10,840

Dr. Werner von Braun ran the program for the V-2 rockets. He became the most prominent person in NASA.

272

00:36:10,840 --> 00:36:17,840

The fact that we beat the Russians to the moon has its roots in Nazi technology.

273

00:36:18,840 --> 00:36:35,840

After World War II, the United States is desperate for any edge over its new arch rival, the Soviet Union, as both countries set their sights on the moon.

274

00:36:35,840 --> 00:36:44,840

The US found that edge, say UFO researchers, from their undercover Nazi scientists with their knowledge of secret alien technology.

275

00:36:45,840 --> 00:36:54,840

The purpose that they put these Nazis in positions of power was because they wanted to be able to let them feel free to continue to develop a lot of the technologies.

276

00:36:54,840 --> 00:37:03,840

Because a lot of these Nazis were actually excited and pleased with the technology that they were developing. It was like they had found their life's calling.

277

00:37:04,840 --> 00:37:14,840

All this Nazi technology, not just rockets and jet engines, but according to some people, anti-gravity and even perhaps time travel.

278

00:37:14,840 --> 00:37:26,840

All this technology was now in the hands of the US government. And it's at this point onwards that the United States really becomes the dominant power on the face of the Earth.

279

00:37:27,840 --> 00:37:40,840

Wernher von Braun and Victor Schauburger are instrumental in the US space program, but once they've shared all their secrets, they become a lot less valuable.

280

00:37:41,840 --> 00:37:56,840

These Nazi scientists had a mixed fate. Victor Schauburger is one of the intriguing characters here, this maverick Austrian inventor.

281

00:37:56,840 --> 00:38:09,840

Signed away the rights and the patents to all sorts of inventions and discoveries. And within five days of being repatriated back to Austria, he was dead.

282

00:38:11,840 --> 00:38:22,840

Did he know too much? Was he silenced once he had been debriefed and once the information had been extracted from him and signed away? We don't know.

283

00:38:24,840 --> 00:38:38,840

But many of these scientists would be put to work on developing the sorts of technologies that they had been using for the Nazis, turning it into what ultimately became, for example, the Titan rocket.

284

00:38:38,840 --> 00:38:53,840

And much of our modern technology that we have even today with intercontinental ballistic missiles and space rockets, all of that effectively was derived from this Nazi rocket technology.

285

00:38:54,840 --> 00:39:10,840

The most famous of all scientists, of course, was Dr. Wernher von Braun, who became the most prominent person in NASA and designed the Saturn V rockets that were the rockets that took astronauts out of Earth orbit to the moon.

286

00:39:11,840 --> 00:39:24,840

It was von Braun and other top Nazi scientists who had created the V2 program, and when they were brought here, that turned into our rocket program.

287

00:39:25,840 --> 00:39:33,840

The truth is, as you look back at the Apollo space program, it becomes clear that we really didn't have an American rocket program.

288

00:39:34,840 --> 00:39:44,840

We had a German rocket program, and without them, we wouldn't have been able to get to the moon, and we most clearly wouldn't have been able to beat the Russians there.

289

00:39:45,840 --> 00:39:52,840

But is it possible that the Nazi connection to extraterrestrial technology runs deeper than mere mechanics and engineering?

290

00:39:53,840 --> 00:39:59,840

Perhaps a much more profound nexus to alien intelligence that we can only guess at.

291

00:40:00,840 --> 00:40:11,840

Some people believe that the United States government wanted to use the Nazi scientists to develop

the alien technology and potentially contact extraterrestrial civilizations.

292

00:40:12,840 --> 00:40:17,840

Some think that when they created NASA, they had two different sides to it.

293

00:40:18,840 --> 00:40:29,840

The public front of the space program, and the secret program, where they developed black-budget alien technologies that the public will never know about.

294

00:40:30,840 --> 00:40:43,840

We may also never know how much the Nazi war machine was influenced by extraterrestrial technology, technology that nearly turned the tide of World War II.

295

00:40:45,840 --> 00:40:57,840

We must remember the Black Forest UFO crash in 1936 takes place just as Hitler and the Nazis are cementing their power and authority.

296

00:40:58,840 --> 00:41:16,840

So one asks the question, could this crash of a UFO and the acquisition of this extraterrestrial technology have been the deciding factor in making Hitler and his top generals decide to try to conquer the world?

297

00:41:17,840 --> 00:41:23,840

Alien technology came very close to giving Hitler what he needed to win the war in Europe.

298

00:41:24,840 --> 00:41:33,840

The capabilities of these weapons and devices, had they been exploited into mass production, would have been devastating to the Americans.

299

00:41:34,840 --> 00:41:41,840

And there is no way that the Allies could have possibly caught up in time to defend themselves against these wonder weapons.

300

00:41:42,840 --> 00:41:52,840

For UFO researchers, the case is convincing that alien technology inspired Nazi Germany's wonder weapons and NASA space program.

301

00:41:53,840 --> 00:41:58,840

A seed planted in the Black Forest that would forever change life on Earth.
