Obscure gem

This documentary series, at least as far as I can tell, had a very short life and, judging by the lack of response at IMDb, not a lot of interest. This is surprising and unfortunate because it was a remarkable piece of work. I've been watching for it on my Dish Network guide and haven't seen any listing in some time. If anyone knows of a channel broadcasting it, I would love to hear about it. For anyone interested in the paranormal this series was a true gem. Unlike "reality"-style fare, such as the lame "Scariest Places on Earth" and the much better, sometimes fascinating, SciFi Channel series "Ghost Hunters", this series implements classic documentary style. Using a steady camera, it combines interviews with people who have had direct encounters with the paranormal with expertly recreated past events. It's fascinating, well executed and, at times, genuinely scary. I would love it if they would bring this back.
