

1

00:00:00,000 --> 00:00:02,000

Mars.

2

00:00:02,000 --> 00:00:09,000

Named for the God of War, it is the most similar planet to Earth in our entire solar system,

3

00:00:09,000 --> 00:00:18,000

perhaps the only other planet that could support life, human or otherwise.

4

00:00:18,000 --> 00:00:22,000

What can explain the inhuman discoveries made on Mars?

5

00:00:22,000 --> 00:00:24,000

Bizarre structures.

6

00:00:24,000 --> 00:00:28,000

What can explain the inhuman discoveries made on Mars?

7

00:00:28,000 --> 00:00:30,000

Bizarre structures.

8

00:00:30,000 --> 00:00:33,000

Possible alien remains.

9

00:00:33,000 --> 00:00:39,000

And what could be an alien figure caught on NASA cameras?

10

00:00:39,000 --> 00:00:44,000

Is mankind on the verge of discovering alien life on Mars?

11

00:00:44,000 --> 00:00:49,000

Or have we already found proof of Martian civilizations?

12

00:00:49,000 --> 00:00:53,000

This almost appears to be a whole city unexplored on the surface of Mars.

13

00:00:53,000 --> 00:01:01,000

Tonight, the shocking truth of a world that could hold the key to our past and our future.

14

00:01:01,000 --> 00:01:10,000

Join us as the incredible secrets of alien life on planet Mars are unsealed.

15

00:01:10,000 --> 00:01:13,000

A global effort has begun.

16

00:01:13,000 --> 00:01:21,000

Secret files hidden from the public for decades, detailing every UFO account, are now available to the public.

17

00:01:21,000 --> 00:01:26,000

We are about to uncover the truth behind these classified documents.

18

00:01:26,000 --> 00:01:29,000

Find out what the government doesn't want you to know.

19

00:01:29,000 --> 00:01:31,000

Unsealed.

20

00:01:31,000 --> 00:01:33,000

Alien files.

21

00:01:33,000 --> 00:01:37,000

Exposing the biggest secret on planet Earth.

22

00:01:37,000 --> 00:01:45,000

In August 2012, NASA's Curiosity rover landed on the surface of the red planet.

23

00:01:51,000 --> 00:01:58,480

Apollo

24

00:02:15,480 --> 00:02:18,520

It was the most ambitious mission of its kind

25

00:02:18,520 --> 00:02:23,160

in the history of space exploration, a \$2.5 billion

26

00:02:23,260 --> 00:02:28,160

project that many hope could answer the ancient question,

27

00:02:28,260 --> 00:02:31,440

is there life on Mars?

28

00:02:31,540 --> 00:02:34,700

The Curiosity rover is essentially a moving laboratory.

29

00:02:34,800 --> 00:02:36,140

And we can collect evidence off of Mars

30

00:02:36,240 --> 00:02:38,440

that we've never been able to collect before.

31

00:02:42,540 --> 00:02:45,920

But the Curiosity rover is only the latest explorer

32

00:02:45,940 --> 00:02:51,520

of a program that began in 1971.

33

00:02:51,620 --> 00:02:56,560

Since then, 16 probes have successfully reached Mars,

34

00:02:56,660 --> 00:03:00,760

some returning crucial evidence that the red planet wants

35

00:03:00,860 --> 00:03:03,700

or may still be able to support life.

36

00:03:09,040 --> 00:03:13,480

In 1975, Viking orbiters showed geological evidence

37

00:03:13,540 --> 00:03:16,240

of rivers, lakes, and oceans.

38

00:03:19,540 --> 00:03:22,920

These images painted the picture of an ancient Mars

39

00:03:23,020 --> 00:03:29,160

that may have once held an abundance of alien life.

40

00:03:29,260 --> 00:03:32,500

When they discovered that there was at one time possibly water

41

00:03:32,600 --> 00:03:37,260

on the surface of Mars, that blue opened the door of possibility

42

00:03:37,360 --> 00:03:40,540

for there being extraterrestrial life in our solar system,

43

00:03:40,640 --> 00:03:41,900

let alone the universe.

44

00:03:41,920 --> 00:03:44,760

Could Mars, in fact, have been much more like Earth

45

00:03:44,860 --> 00:03:45,860

than we once believed?

46

00:03:48,560 --> 00:03:50,900

The first color photographs of the Martian surface

47

00:03:51,000 --> 00:03:54,480

were taken by a rover in 2004.

48

00:03:54,580 --> 00:04:01,480

The images revealed that the red planet was anything but.

49

00:04:01,580 --> 00:04:03,780

One of the things that shocked people in 2004

50

00:04:03,880 --> 00:04:06,120

when NASA and JPL released these photos

51

00:04:06,220 --> 00:04:08,520

was this wasn't the dead planet that we've

52

00:04:08,620 --> 00:04:11,820

been led to believe with a brown sky and brown rocks.

53

00:04:11,920 --> 00:04:14,160

And that's the blue and dusty surface

54

00:04:14,260 --> 00:04:17,000

that when you look at this blue-ish sky

55

00:04:17,100 --> 00:04:20,740

and when you look at the surface of the Martian ground,

56

00:04:20,840 --> 00:04:25,580

it very much resembled the surface of Earth.

57

00:04:25,680 --> 00:04:28,240

Could our exploration of this alien planet

58

00:04:28,340 --> 00:04:31,820

uncover the ultimate extraterrestrial secrets

59

00:04:31,920 --> 00:04:38,860

that intelligent life wants or perhaps still exists on Mars

60

00:04:38,880 --> 00:04:39,860

in the future?

61

00:04:39,960 --> 00:04:41,520

And what's the difference?

62

00:04:41,620 --> 00:04:46,520

Has been right before our eyes.

63

00:04:46,620 --> 00:04:51,560

Unsealed case file, the skull of Mars.

64

00:04:51,660 --> 00:04:56,440

In 2004, NASA landed two rovers on the surface of Mars,

65

00:04:56,540 --> 00:04:59,200

spirit and opportunity.

66

00:04:59,300 --> 00:05:03,240

They were sent to explore opposite sides of the red planet.

67

00:05:03,340 --> 00:05:07,080

And while opportunity sent back many interesting photos,

68

00:05:07,080 --> 00:05:11,980

some believe is our first glimpse at an alien face.

69

00:05:12,080 --> 00:05:15,940

In this picture, we see a shape sitting on the ground.

70

00:05:16,040 --> 00:05:23,320

It has familiar features, eyes, a nose, even teeth.

71

00:05:23,420 --> 00:05:28,560

Could this be, as some believe, a humanoid skull buried

72

00:05:28,660 --> 00:05:29,860

in the Martian soil?

73

00:05:34,000 --> 00:05:36,000

Alien theorists believe that this could be evidence

74

00:05:36,020 --> 00:05:39,620

that either humans had visited Mars at some point in the past

75

00:05:39,720 --> 00:05:42,160

or that some other humanoid alien race

76

00:05:42,260 --> 00:05:44,260

has existed there for thousands of years.

77

00:05:44,360 --> 00:05:48,300

Is this object, in fact, an ancient fossil?

78

00:05:48,400 --> 00:05:51,740

And what could be buried alongside it?

79

00:05:51,840 --> 00:05:54,480

Coming up next, the search for answers

80

00:05:54,580 --> 00:05:57,940

could reveal not only evidence of an alien being

81

00:05:58,040 --> 00:06:02,980

on the surface of Mars, but an entire civilization.

82

00:06:03,060 --> 00:06:08,460

This is Unsealed Alien Files, exposing the biggest secret

83

00:06:08,560 --> 00:06:09,180

on planet Earth.

84

00:06:11,920 --> 00:06:14,960

Welcome back to Unsealed Alien Files.

85

00:06:17,660 --> 00:06:21,860

Photographs of Mars reveal alien landscapes remarkably

86

00:06:21,960 --> 00:06:25,600

similar to Earth and unexplained images that

87

00:06:25,700 --> 00:06:28,200

look terrifyingly human.

88

00:06:28,300 --> 00:06:32,640

But the biggest question remains, is there alien life

89

00:06:32,700 --> 00:06:34,660

on planet Mars?

90

00:06:34,760 --> 00:06:36,200

All the evidence points to the fact

91

00:06:36,300 --> 00:06:39,040

that Mars could have very well supported life in the past

92

00:06:39,140 --> 00:06:42,040

and maybe supports alien life to this very day.

93

00:06:45,240 --> 00:06:49,020

July 25, 1976.

94

00:06:49,120 --> 00:06:52,480

The Viking 1 orbiter photographs a Martian terrain

95

00:06:52,580 --> 00:06:56,320

known as Sidonia.

96

00:06:56,420 --> 00:06:58,960

Of the many pictures taken that day,

97

00:06:59,020 --> 00:07:02,460

one would be seen as a sign that we may not

98

00:07:02,560 --> 00:07:08,160

be alone in the universe, a human face etched

99

00:07:08,260 --> 00:07:11,200

into the surface of Mars.

100

00:07:11,300 --> 00:07:13,540

Well, the face of Mars doesn't resemble,

101

00:07:13,640 --> 00:07:15,840

it looks like a human face.

102

00:07:15,940 --> 00:07:18,380

I mean, it's looking up at the stars, at the heavens,

103

00:07:18,480 --> 00:07:20,380

but it looks like a human face.

104

00:07:20,480 --> 00:07:21,880

No mistaking it.

105

00:07:21,980 --> 00:07:24,680

And this thing has two eyes, a nose, a mouth.

106

00:07:24,780 --> 00:07:26,980

It has something that looks like a headdress on it.

107

00:07:27,040 --> 00:07:30,940

And this face, by the way, is about three miles top to bottom,

108

00:07:31,040 --> 00:07:34,940

chin to head to top of head, and about two miles across.

109

00:07:35,040 --> 00:07:36,280

So it's a very large object.

110

00:07:36,380 --> 00:07:38,080

It's not small.

111

00:07:38,180 --> 00:07:41,160

Alien theorists propose that the face of Mars

112

00:07:41,260 --> 00:07:45,720

could be a monument constructed by an ancient alien race,

113

00:07:45,820 --> 00:07:50,700

an invitation or a warning to visitors of Mars.

114

00:07:50,800 --> 00:07:53,260

Skeptics say, well, why would an alien race make something

115

00:07:53,360 --> 00:07:53,860

like this?

116

00:07:53,960 --> 00:07:55,200

Well, who knows?

117

00:07:55,300 --> 00:07:56,360

It could be for a number of reasons.

118

00:07:56,860 --> 00:07:59,980

It could be as a monument to maybe they knew a cataclysm

119

00:08:00,080 --> 00:08:03,520

was coming and they wanted to leave something that would

120

00:08:03,620 --> 00:08:05,020

let people know that they were there,

121

00:08:05,120 --> 00:08:06,560

or let somebody know that they were there.

122

00:08:06,660 --> 00:08:08,500

It could be as simple as art.

123

00:08:08,600 --> 00:08:09,960

I mean, why do we create art?

124

00:08:10,060 --> 00:08:13,600

Why do we create sculpture?

125

00:08:13,700 --> 00:08:17,000

Shockingly, the most recent images of the face

126

00:08:17,100 --> 00:08:21,240

reveal nothing more than a mountain of sand.

127

00:08:21,340 --> 00:08:24,140

Was the face a mere illusion?

128

00:08:24,260 --> 00:08:27,300

Or could it be that the face was purposely

129

00:08:27,400 --> 00:08:31,800

destroyed using explosives on board the Mars observer?

130

00:08:35,300 --> 00:08:38,880

A NASA statement from August 21, 1993,

131

00:08:38,980 --> 00:08:42,340

reports that NASA forever lost contact with observer

132

00:08:42,440 --> 00:08:45,140

over the Martian surface, followed what was believed

133

00:08:45,240 --> 00:08:47,620

to be a fuel rupture.

134

00:08:47,720 --> 00:08:51,460

The next time the face was photographed in 1996,

135

00:08:51,580 --> 00:08:54,420

its features had vanished.

136

00:08:54,520 --> 00:08:56,720

It may be mere coincidence.

137

00:08:56,820 --> 00:08:59,960

But some believe this is just the most recent evidence

138

00:09:00,060 --> 00:09:03,420

of a cover-up to protect the truth.

139

00:09:03,520 --> 00:09:05,500

Alien theorists believe that this could be evidence

140

00:09:05,600 --> 00:09:09,200

that either humans had visited Mars at some point in the past,

141

00:09:09,300 --> 00:09:11,800

or that some other humanoid alien race

142

00:09:11,900 --> 00:09:13,640

has existed there for thousands of years.

143

00:09:16,640 --> 00:09:19,240

In fact, several photos from Mars

144

00:09:19,300 --> 00:09:23,160

have revealed what many believe are manufactured objects

145

00:09:23,260 --> 00:09:26,900

and signs of a ruined civilization.

146

00:09:27,000 --> 00:09:32,600

One of the discoveries was an object known as the ammo box.

147

00:09:32,700 --> 00:09:35,440

Photographed by NASA's Spirit Rover,

148

00:09:35,540 --> 00:09:40,200

the origins of this seemingly metallic object remain a mystery.

149

00:09:40,300 --> 00:09:43,280

The ammo box seems to be made of some sort of metal.

150

00:09:43,380 --> 00:09:47,380

And every edge meets at a 90-degree corner.

151

00:09:47,580 --> 00:09:51,080

How is that possible if it's a natural formation?

152

00:09:51,180 --> 00:09:53,880

This and similar evidence have led theorists

153

00:09:53,980 --> 00:09:56,440

to believe that Mars may have been home

154

00:09:56,540 --> 00:09:59,720

to an ancient alien civilization.

155

00:09:59,820 --> 00:10:04,020

But could the ultimate discovery be an ancient city

156

00:10:04,120 --> 00:10:09,280

with a connection to our home planet?

157

00:10:09,380 --> 00:10:14,480

Unsealed case file, the pyramids of Mars.

158

00:10:14,680 --> 00:10:16,280

Of all Martian regions,

159

00:10:16,380 --> 00:10:20,880

none has been more rich with the possible proof of civilization

160

00:10:20,980 --> 00:10:26,180

than Sidonia and the pyramids of Mars.

161

00:10:26,280 --> 00:10:27,980

In the middle of this barren planet,

162

00:10:28,080 --> 00:10:31,480

there stand three structures that resemble,

163

00:10:31,580 --> 00:10:34,380

almost exactly, our pyramids in Egypt.

164

00:10:34,480 --> 00:10:37,880

Indeed, the shape of the pyramid has been repeated on Earth

165

00:10:37,980 --> 00:10:40,980

throughout multiple countries for millennia.

166

00:10:41,080 --> 00:10:43,380

The connection between the pyramids of Earth

167

00:10:43,480 --> 00:10:46,080

and these so-called pyramids of Mars

168

00:10:46,180 --> 00:10:49,680

could be seen as evidence of an extraterrestrial connection

169

00:10:49,780 --> 00:10:51,780

to the human race.

170

00:10:51,880 --> 00:10:54,380

If these structures on Mars were manufactured

171

00:10:54,480 --> 00:10:57,080

by some sort of alien beings,

172

00:10:57,180 --> 00:10:58,680

what could that mean for our race?

173

00:10:58,780 --> 00:11:01,280

It could mean that we have neighbors

174

00:11:01,380 --> 00:11:03,780

who, obviously, thousands of years ago,

175

00:11:03,880 --> 00:11:05,680

came here to visit us

176

00:11:05,780 --> 00:11:08,780

and left influences on our people and our cultures.

177

00:11:10,780 --> 00:11:12,880

The largest of the Martian monuments

178

00:11:12,980 --> 00:11:15,980

is known as the DNM pyramid.

179

00:11:16,080 --> 00:11:18,280

It spans almost two miles

180

00:11:18,380 --> 00:11:21,080

and stands half a mile tall.

181

00:11:21,180 --> 00:11:23,980

Shockingly, the axis of the pyramid

182

00:11:24,080 --> 00:11:27,980

is nearly in alignment with the north-south axis of Mars,

183

00:11:28,080 --> 00:11:30,280

just as the Great Pyramid of Giza

184

00:11:30,380 --> 00:11:34,880

is aligned with the north-south axis of the Earth.

185

00:11:34,980 --> 00:11:37,680

And yet, even if the pyramids of Mars

186

00:11:37,780 --> 00:11:40,080

could be explained as natural,

187

00:11:40,180 --> 00:11:42,580

it would be difficult to explain why

188

00:11:42,580 --> 00:11:46,580

sitting near the base of the southernmost pyramid

189

00:11:46,680 --> 00:11:48,980

is a sphinx.

190

00:11:49,080 --> 00:11:50,180

Coming up next,

191

00:11:50,280 --> 00:11:52,780

an intergalactic war and possible images

192

00:11:52,880 --> 00:11:56,480

of an alien being lead to the ultimate question,

193

00:11:56,580 --> 00:12:00,080

is a Martian invasion in our future?

194

00:12:00,180 --> 00:12:02,980

Find out when we return.

195

00:12:03,080 --> 00:12:06,880

This is Unsealed Alien Files,

196

00:12:06,980 --> 00:12:09,980

exposing the biggest secret on planet Earth.

197

00:12:10,980 --> 00:12:14,980

Welcome back to Unsealed Alien Files.

198

00:12:17,980 --> 00:12:21,980

Humanoid faces seen in the Martian terrain,

199

00:12:22,080 --> 00:12:24,980

images of possible alien life,

200

00:12:25,080 --> 00:12:28,980

objects that seem to defy natural explanation.

201

00:12:29,080 --> 00:12:31,480

The evidence of alien life on Mars

202

00:12:31,580 --> 00:12:34,480

raises questions about an advanced civilization

203

00:12:34,580 --> 00:12:37,980

and their mysterious disappearance.

204

00:12:37,980 --> 00:12:40,980

Can the answer be found within pyramids

205

00:12:41,080 --> 00:12:43,980

eerily similar to ancient Egypt?

206

00:12:44,080 --> 00:12:47,980

Write down to the presence of a sphinx.

207

00:12:48,080 --> 00:12:50,980

The sphinx on Mars is a monolith that was discovered

208

00:12:51,080 --> 00:12:52,980

in 1997 by the Pathfinder mission.

209

00:12:53,080 --> 00:12:55,980

If you examine this photograph, even for just a minute,

210

00:12:56,080 --> 00:12:58,980

it's very clear that you can see a defined head,

211

00:12:59,080 --> 00:13:00,980

body, and even arms.

212

00:13:01,080 --> 00:13:04,980

It is a form remarkably like that of the Great Sphinx of Giza,

213

00:13:05,080 --> 00:13:06,980

with a head that appears to be decorated

214

00:13:06,980 --> 00:13:08,980

in an Egyptian headdress.

215

00:13:09,080 --> 00:13:13,980

And all of this within miles of the so-called Face of Mars.

216

00:13:14,080 --> 00:13:17,980

When you think about an alien race building a giant face

217

00:13:18,080 --> 00:13:20,980

on the surface of their planet, some may laugh it off.

218

00:13:21,080 --> 00:13:23,980

And I always say, well, why would you laugh it off?

219

00:13:24,080 --> 00:13:25,980

Look at civilizations here on Earth stretching back

220

00:13:26,080 --> 00:13:26,980

thousands of years.

221

00:13:27,080 --> 00:13:29,980

You've got giant structures in the middle of Egypt,

222

00:13:30,080 --> 00:13:33,980

one of which just happens to be a very large face on the sphinx.

223

00:13:34,080 --> 00:13:35,980

You've got other structures from other cultures,

224

00:13:35,980 --> 00:13:39,980

that are being built that you can only see from the sky.

225

00:13:40,080 --> 00:13:41,980

So when you look at those commonalities,

226

00:13:42,080 --> 00:13:45,980

you have to see maybe there's a connection between life

227

00:13:46,080 --> 00:13:48,980

3,000, 4,000, 5,000 years ago here on Earth,

228

00:13:49,080 --> 00:13:53,980

and quite possibly a life starting on the planet of Mars.

229

00:13:54,080 --> 00:13:56,980

If there truly was an ancient civilization on Mars,

230

00:13:57,080 --> 00:14:02,980

who knows how advanced they may have become before extinction?

231

00:14:03,980 --> 00:14:06,980

Could the ancient pyramids of Egypt have been constructed

232

00:14:07,080 --> 00:14:10,980

as a cultural link between the two societies?

233

00:14:11,080 --> 00:14:15,980

And if so, how did their society come to an end?

234

00:14:16,080 --> 00:14:17,980

Many theorize by the scientific advances

235

00:14:18,080 --> 00:14:19,980

that we're making studying the Martian surface,

236

00:14:20,080 --> 00:14:25,980

that in Mars' past, that it's been hit multiple times by asteroids.

237

00:14:26,080 --> 00:14:30,980

Now, when you talk about huge asteroids striking a planetary surface,

238

00:14:30,980 --> 00:14:33,980

the effects of that are pretty detrimental.

239

00:14:34,080 --> 00:14:36,980

Many believe that happened on Mars, maybe on a grander scale.

240

00:14:37,080 --> 00:14:41,980

Instead of 10% of the world's life or the planet's life surviving,

241

00:14:42,080 --> 00:14:43,980

that you had zero survivability.

242

00:14:44,080 --> 00:14:46,980

Possible evidence of this catastrophic event

243

00:14:47,080 --> 00:14:49,980

can be found right on the surface of Mars.

244

00:14:50,080 --> 00:14:55,980

Concentrated on one side of the planet are over 3,000 craters,

245

00:14:56,080 --> 00:14:58,980

measuring 20 miles in diameter.

246

00:15:00,980 --> 00:15:03,980

If an asteroid a mile across were to hit the Martian surface,

247

00:15:04,080 --> 00:15:06,980

it's estimated that that would have the impact

248

00:15:07,080 --> 00:15:11,980

and the force equivalent to a 1 million megaton nuclear weapon.

249

00:15:12,080 --> 00:15:17,980

That is 10 million times the force of what was released in Hiroshima.

250

00:15:18,080 --> 00:15:22,980

The debris raised by such an asteroid could block out the sun,

251

00:15:23,080 --> 00:15:26,980

effectively killing all life on the planet.

252

00:15:26,980 --> 00:15:30,980

But could there be another explanation for these enormous craters,

253

00:15:31,080 --> 00:15:35,980

one that points to a very advanced ancient civilization on Mars

254

00:15:36,080 --> 00:15:39,980

and a Martian nuclear apocalypse?

255

00:15:44,980 --> 00:15:50,980

Ancient Roman records point to accounts of what was referred to as fire in the sky.

256

00:15:51,080 --> 00:15:55,980

Both Romans and Babylonians named it for their god of war.

257

00:15:56,980 --> 00:16:03,980

Was Mars once home of a violent and distant battle between an alien species?

258

00:16:04,080 --> 00:16:08,980

And could any survivors still be alive today?

259

00:16:09,980 --> 00:16:12,980

For years we've been debating about what the Martians might look like.

260

00:16:13,080 --> 00:16:17,980

Science fiction gives us all kinds of different variations of what these aliens are.

261

00:16:18,080 --> 00:16:21,980

But in 2008 the Spirit Rover gave us our first clear picture,

262

00:16:22,080 --> 00:16:25,980

which could show us who the Martians are.

263

00:16:26,980 --> 00:16:30,980

Unsealed case file, the creature of Mars.

264

00:16:31,080 --> 00:16:38,980

In 2008 the Mars Spirit Rover transmitted a panorama back to Earth from the west valley of Mars.

265

00:16:39,080 --> 00:16:44,980

At first look this photograph appears to merely be a stunning view of the Martian terrain.

266

00:16:45,080 --> 00:16:49,980

But closer inspection exposes a chilling revelation.

267

00:16:50,080 --> 00:16:54,980

A humanoid figure seeming to walk just behind a ridge.

268

00:16:54,980 --> 00:17:02,980

It appears to have a head, a torso, even legs caught in mid stride.

269

00:17:03,080 --> 00:17:10,980

Could this real photographic evidence be a creature captured alive on the surface of Mars?

270

00:17:11,080 --> 00:17:17,980

If this is truly a living creature, we could be looking at a post-apocalyptic Martian survivor.

271

00:17:18,980 --> 00:17:25,980

A rare example of an extraterrestrial species still hiding on an alien planet.

272

00:17:26,080 --> 00:17:29,980

You may think we'll never know, but if expert predictions are right,

273

00:17:30,080 --> 00:17:34,980

the invasion of Mars could be just around the corner.

274

00:17:35,080 --> 00:17:40,980

Coming up next, the event that could put you face to face with an alien race.

275

00:17:41,080 --> 00:17:44,980

Earth invades planet Mars.

276

00:17:44,980 --> 00:17:48,980

This is Unsealed Alien Files.

277

00:17:49,080 --> 00:17:52,980

Exposing the biggest secret on planet Earth.

278

00:17:54,980 --> 00:17:59,980

For decades, man has feared the potential invasion of Earth by Martians.

279

00:18:00,080 --> 00:18:05,980

But a twist of modern science could bring humans to invade Mars.

280

00:18:06,080 --> 00:18:10,980

In January 2013, the Mars One was announced.

281

00:18:10,980 --> 00:18:15,980

It could be the first private spacecraft to land on the red planet.

282

00:18:16,080 --> 00:18:19,980

It is scheduled to arrive on Mars within the next ten years.

283

00:18:20,080 --> 00:18:21,980

And its cargo?

284

00:18:22,080 --> 00:18:25,980

A volunteer group of human colonists from Earth.

285

00:18:26,080 --> 00:18:31,980

They will live on and develop Mars for the remainder of their lives.

286

00:18:32,080 --> 00:18:39,980

These brave pioneers could explore an alien world, beginning a peaceful colonization.

287

00:18:39,980 --> 00:18:42,980

Or an intergalactic war.

288

00:18:43,080 --> 00:18:49,980

But at last, we may answer the question, is there life on Mars?

289

00:18:50,080 --> 00:18:53,980

This is Unsealed Alien Files.

290

00:18:54,080 --> 00:18:56,980

Exposing the biggest secret on planet Earth.
