

1

00:00:00,000 --> 00:00:06,000

Every day, UFOs are spotted in skies all over the world.

2

00:00:06,000 --> 00:00:12,000

But of all the planets in the known galaxy, why have they come to Earth?

3

00:00:12,000 --> 00:00:16,000

What do the aliens want?

4

00:00:16,000 --> 00:00:20,000

Many would like to believe they are here to make peaceful contact,

5

00:00:20,000 --> 00:00:26,000

but some experts are convinced they have come on a much darker mission.

6

00:00:27,000 --> 00:00:32,000

Earth is rich in natural resources, such as water and minerals.

7

00:00:32,000 --> 00:00:39,000

If that's what brought Europeans to the Americas, it may also be what attracts an alien race.

8

00:00:41,000 --> 00:00:44,000

Are aliens here to seize Earth's riches?

9

00:00:45,000 --> 00:00:48,000

And how far does their mission go?

10

00:00:49,000 --> 00:00:55,000

Join us as we investigate a possible alien plot to plunder the Earth's natural resources.

11

00:00:56,000 --> 00:01:01,000

On Unsealed, Alien Files

12

00:01:27,000 --> 00:01:35,000

The Zhekwan Satellite Launch Center in Mongolia, June 16, 2012.

13

00:01:35,000 --> 00:01:41,000

The Chinese space agency launches its first woman astronaut into orbit.

14

00:01:41,000 --> 00:01:45,000

But the Earth's orbit is by now a well-worn path,

15

00:01:45,000 --> 00:01:49,000

so China has announced much bigger ambitions for its space program,

16

00:01:49,000 --> 00:01:54,000

intending to launch a manned mission to the moon by the year 2020.

17

00:01:55,000 --> 00:02:00,000

Some space experts believe the nation intends to establish permanent mining operations

18

00:02:00,000 --> 00:02:03,000

on Earth's natural satellite.

19

00:02:04,000 --> 00:02:08,000

But many in the UFO community fear that when the Chinese land,

20

00:02:08,000 --> 00:02:14,000

they will quickly find others have already claimed the moon's riches for their own.

21

00:02:16,000 --> 00:02:21,000

We choose to go to the moon in this decade and do the other thing,

22

00:02:21,000 --> 00:02:25,000

not because they are easy, but because they are hard.

23

00:02:26,000 --> 00:02:33,000

1961. President John F. Kennedy declares America's intention to send a man to the moon.

24

00:02:33,000 --> 00:02:39,000

On the surface, it's a bold political move to keep pace with the Soviet Union in the space race.

25

00:02:39,000 --> 00:02:45,000

But according to some, behind closed doors, the United States was quietly engaged

26

00:02:45,000 --> 00:02:48,000

in a second race with another rival.

27

00:02:48,000 --> 00:02:52,000

One infinitely more powerful than the Soviets.

28

00:02:54,000 --> 00:02:59,000

From the early 1950s, national security people in the United States

29

00:02:59,000 --> 00:03:02,000

were aware that there were alien bases on the moon.

30

00:03:02,000 --> 00:03:07,000

Part of the space race's goals was to basically get up to the moon

31

00:03:07,000 --> 00:03:10,000

to be able to find out exactly what was up there

32

00:03:10,000 --> 00:03:14,000

and to find out what kind of technological capabilities existed.

33

00:03:15,000 --> 00:03:20,000

But why would extraterrestrials establish a base on a small, lifeless world

34

00:03:20,000 --> 00:03:22,000

with the Earth so close?

35

00:03:22,000 --> 00:03:26,000

The moon is bursting with unguarded mineral riches for the taking.

36

00:03:26,000 --> 00:03:30,000

But locked within its rocks and sand is an invisible substance

37

00:03:30,000 --> 00:03:34,000

that could soon change life on Earth forever.

38

00:03:36,000 --> 00:03:40,000

Helium-3 is a byproduct of the massive nuclear fusion reaction

39

00:03:40,000 --> 00:03:43,000

that we know as the burning of the sun.

40

00:03:43,000 --> 00:03:47,000

The invisible substance is released into space,

41

00:03:47,000 --> 00:03:51,000

where it is scattered by solar winds across our planetary neighborhood.

42

00:03:52,000 --> 00:03:56,000

The Earth's atmosphere prevents Helium-3 from reaching its surface.

43

00:03:56,000 --> 00:03:59,000

But the moon has no atmosphere.

44

00:03:59,000 --> 00:04:06,000

For billions of years, its surface has been bombarded by a constant stream of Helium-3.

45

00:04:07,000 --> 00:04:11,000

Many scientists believe the mysterious substance could one day be used

46

00:04:11,000 --> 00:04:16,000

in nuclear fusion reactors to produce virtually limitless amounts of clean energy,

47

00:04:16,000 --> 00:04:19,000

unlike the fission reactors of today.

48

00:04:20,000 --> 00:04:24,000

They also believe fusion reactors fueled by Helium-3

49

00:04:24,000 --> 00:04:27,000

will one day power our journeys to the stars.

50

00:04:27,000 --> 00:04:34,000

The question is, have extraterrestrials already perfected this interstellar technology?

51

00:04:34,000 --> 00:04:41,000

And if they have, does that make the moon a prime location for an alien mind?

52

00:04:43,000 --> 00:04:48,000

Unsealed case file, the missing moon tapes.

53

00:04:48,000 --> 00:04:52,000

The Apollo 11 mission that fulfilled Kennedy's dream

54

00:04:52,000 --> 00:04:56,000

was captured on video and broadcast across the world.

55

00:04:56,000 --> 00:05:00,000

But for two minutes, that transmission failed.

56

00:05:00,000 --> 00:05:06,000

During Neil Armstrong's transmission back to Earth, there's a missing two minutes in that.

57

00:05:06,000 --> 00:05:09,000

And people have speculated as to what is in those two minutes.

58

00:05:09,000 --> 00:05:15,000

Now there have been some unofficial radio communications that have been circulated

59

00:05:15,000 --> 00:05:21,000

saying that they saw two UFOs flying over a cratering along with other structures that they saw on the moon.

60

00:05:21,000 --> 00:05:25,000

NASA blamed the transmission on an overheated camera.

61

00:05:25,000 --> 00:05:29,000

NASA engineers made backup copies of the mission tapes.

62

00:05:29,000 --> 00:05:37,000

But in a 2009 report, the agency admitted that mysteriously, they never saw the backup tapes again.

63

00:05:40,000 --> 00:05:45,000

Did Neil Armstrong and Buzz Aldrin catch a glimpse of an alien mind?

64

00:05:45,000 --> 00:05:50,000

Are extraterrestrials using the moon as an interstellar fueling station?

65

00:05:50,000 --> 00:05:55,000

And will our eventual return to the moon spark an interplanetary war

66

00:05:55,000 --> 00:05:59,000

for control of its Helium-3?

67

00:06:02,000 --> 00:06:08,000

Many experts fear that aliens have come to Earth to plunder its natural resources.

68

00:06:08,000 --> 00:06:15,000

Evidence has revealed they may be mining the moon for Helium-3 to fuel their interstellar spacecraft.

69

00:06:15,000 --> 00:06:21,000

But according to other reports, their quest for power doesn't stop at the moon.

70

00:06:22,000 --> 00:06:26,000

Carn City, Texas, 1971.

71

00:06:26,000 --> 00:06:31,000

The night shift is underway deep inside Conoco's open-pit uranium mine.

72

00:06:31,000 --> 00:06:39,000

Suddenly, a blinding light appears over the pit, accompanied by a high-pitched hissing noise.

73

00:06:39,000 --> 00:06:45,000

Minutes pass, and the light dims enough for witnesses to make out its source.

74

00:06:45,000 --> 00:06:48,000

A massive UFO.

75

00:06:49,000 --> 00:06:54,000

It rises slowly and then speeds out of sight.

76

00:06:55,000 --> 00:06:59,000

At first, no one believes the six eyewitnesses.

77

00:06:59,000 --> 00:07:06,000

But soon after, it is discovered that all of the uranium ore within a 250-foot radius of the sighting

78

00:07:06,000 --> 00:07:14,000

has been transformed into a white, chalky substance and robbed of its radioactive properties.

79

00:07:15,000 --> 00:07:19,000

Why did the Carn City UFO target a uranium mine?

80

00:07:19,000 --> 00:07:24,000

What did the white light do to the uranium deposits to neutralize their radioactivity?

81

00:07:24,000 --> 00:07:28,000

Was it absorbed for fuel?

82

00:07:28,000 --> 00:07:35,000

The Carn City incident is not the first time aliens have taken interest in Earth's radioactive materials.

83

00:07:35,000 --> 00:07:42,000

Four years earlier, another incident would strike at the very heart of America's national security.

84

00:07:44,000 --> 00:07:49,000

Unsealed case file. The Maumstrom missile incident.

85

00:07:49,000 --> 00:07:54,000

1967. Maumstrom Air Force Base, Montana.

86

00:07:54,000 --> 00:07:59,000

The installation is home to a fleet of intercontinental ballistic missiles.

87

00:07:59,000 --> 00:08:03,000

It's part of America's nuclear defense against the Soviet Union.

88

00:08:03,000 --> 00:08:08,000

The weapons are armed and ready to launch at a moment's notice.

89

00:08:09,000 --> 00:08:14,000

Captain Robert Salas was on duty the morning of March 16th.

90

00:08:14,000 --> 00:08:21,000

He gave his eyewitness account of the events of that day at the 2013 Citizen Hearing on Disclosure.

91

00:08:22,000 --> 00:08:31,000

We were on duty inside the Oscar Launch Control Center, a concrete capsule located about 60 feet underground.

92

00:08:31,000 --> 00:08:36,000

We had operational control of over 10 man-to-man nuclear missiles.

93

00:08:36,000 --> 00:08:43,000

It is important for you to note that the man in control for these missiles was entirely located within the capsule.

94

00:08:43,000 --> 00:08:50,000

There was absolutely no need to affect any of the missile systems from outside the capsule.

95

00:08:50,000 --> 00:08:56,000

Two guards see a shooting star moving in a bizarre zigzag pattern across the sky.

96

00:08:57,000 --> 00:09:00,000

Seconds later, another appears.

97

00:09:00,000 --> 00:09:06,000

The two men watch in disbelief as the stars begin speeding toward the base.

98

00:09:06,000 --> 00:09:14,000

Alarmed, they contact Captain Salas. What they see next makes their blood run cold.

99

00:09:14,000 --> 00:09:19,000

It was a large oval shaped object covering above the front gate.

100

00:09:19,000 --> 00:09:26,000

It was a red pulsing, lighted object approximately 30-40 feet down there.

101

00:09:26,000 --> 00:09:34,000

Salas' mind is racing. What is the craft hovering above the base? Is it a new Soviet weapon?

102

00:09:34,000 --> 00:09:39,000

Just then, he witnesses the seemingly impossible.

103

00:09:40,000 --> 00:09:44,000

As I started to perform my command, our missiles began to shut down.

104

00:09:44,000 --> 00:09:50,000

We lost the word status in all 10 missiles. All the subject was above our history.

105

00:09:50,000 --> 00:09:59,000

Salas fears the worst. Is this happening at other missile bases? Is America now defenseless?

106

00:10:00,000 --> 00:10:07,000

But then, just as suddenly as the UFO appeared, it disappears into the distance.

107

00:10:07,000 --> 00:10:14,000

The ensuing military investigation will raise more questions than answers.

108

00:10:14,000 --> 00:10:23,000

A declassified report on the incident states that rumors of unidentified flying objects around the area were disproven.

109

00:10:23,000 --> 00:10:26,000

An assertion refuted by Salas.

110

00:10:26,000 --> 00:10:32,000

But it also states there were no unusual discrepancies in the missile control circuits.

111

00:10:32,000 --> 00:10:38,000

According to the report, the system shut down for no reason whatsoever.

112

00:10:38,000 --> 00:10:46,000

How could 10 of the deadliest weapons in the world be deactivated for no apparent reason?

113

00:10:48,000 --> 00:10:53,000

It was announced that there was a pewter glitch.

114

00:10:54,000 --> 00:11:01,000

Now, I'm very worried about that. I'm not sure I believe that.

115

00:11:01,000 --> 00:11:08,000

But we do have witnesses that have come forward, both Soviet and Air Force, that said they saw an object in the sky.

116

00:11:08,000 --> 00:11:14,000

Time to shut it down. This has still been investigated, but these incidents are still going on.

117

00:11:15,000 --> 00:11:22,000

Salas believes the danger is real and very possibly beyond our control.

118

00:11:22,000 --> 00:11:27,000

These objects know in great detail how our missiles operate.

119

00:11:27,000 --> 00:11:30,000

I think it shut down our missiles and anything like that.

120

00:11:30,000 --> 00:11:41,000

They approve of that. If you release that information to public, what do you say then about what kind of guns do we have against these things?

121

00:11:42,000 --> 00:11:52,000

What brought UFOs to an American nuclear missile base and later a Texas uranium mine, where it sapped the minerals' radioactivity?

122

00:11:52,000 --> 00:11:58,000

Are the two events connected? Did extraterrestrials discover the power of uranium at monstrem,

123

00:11:58,000 --> 00:12:03,000

only to later devise a means of using it for their own purposes?

124

00:12:03,000 --> 00:12:09,000

Have the Earth's uranium deposits become a ready source of energy for UFOs?

125

00:12:09,000 --> 00:12:12,000

And what else do they want?

126

00:12:17,000 --> 00:12:24,000

Evidence has revealed that aliens may be here to plunder our most precious natural resources.

127

00:12:24,000 --> 00:12:33,000

The Earth is rich in oxygen and liquid water, scarcely occurring elsewhere in the solar system or the rest of the known universe.

128

00:12:33,000 --> 00:12:37,000

But the Earth is home to something even more rare.

129

00:12:37,000 --> 00:12:43,000

According to some experts, it may in fact be the most precious resource in the galaxy.

130

00:12:46,000 --> 00:12:55,000

1961. Frank Drake is a radio astronomer scanning the galaxy for signals that might indicate an intelligent civilization.

131

00:12:55,000 --> 00:13:03,000

He devises an equation to estimate the number of civilizations existing throughout the Milky Way galaxy.

132

00:13:04,000 --> 00:13:10,000

The equation takes into account seven factors, including the number of stars that have planets,

133

00:13:10,000 --> 00:13:18,000

the number of planets that support intelligent life, and chillingly, the length of time an intelligent civilization lasts

134

00:13:18,000 --> 00:13:23,000

before it is destroyed by natural causes or destroys itself.

135

00:13:28,000 --> 00:13:32,000

It's known as Drake's equation.

136

00:13:32,000 --> 00:13:44,000

In 1980, renowned astronomer Carl Sagan used Drake's equation to estimate there may be as few as 10 technologically advanced civilizations in the Milky Way at any given time.

137

00:13:44,000 --> 00:13:52,000

Given the estimated 300 billion star systems in the Milky Way spread out over 100,000 light years,

138

00:13:52,000 --> 00:14:01,000

that would make intelligent life by far the scarcest natural resource in the galaxy and perhaps even the universe.

139

00:14:03,000 --> 00:14:10,000

Civilizations cannot survive without a collective intelligence that is constantly growing and evolving.

140

00:14:10,000 --> 00:14:19,000

Is it possible that aliens have come to Earth to harvest human intelligence, to add to their own?

141

00:14:21,000 --> 00:14:23,000

Unsealed case file.

142

00:14:23,000 --> 00:14:25,000

Ted Davenport.

143

00:14:26,000 --> 00:14:30,000

Alamogordo, New Mexico, 1975.

144

00:14:30,000 --> 00:14:37,000

16-year-old Ted Davenport sets out on an ill-advised solo backpacking trip into the mountains.

145

00:14:37,000 --> 00:14:42,000

He feels compelled to do so by an indescribable force.

146

00:14:44,000 --> 00:14:49,000

Along the way, Davenport has a constant feeling that he is being watched.

147

00:14:49,000 --> 00:14:53,000

At night, he feels compelled to leave his tent.

148

00:14:53,000 --> 00:14:59,000

Outside, he is astonished to see a group of small, humanoid beings.

149

00:14:59,000 --> 00:15:02,000

He then blacks out.

150

00:15:03,000 --> 00:15:10,000

The next morning, Davenport awakens beside his smoldering campfire with no recollection of the night before.

151

00:15:10,000 --> 00:15:19,000

He has a painful headache and an odd knot on his skull next to his left ear, but is otherwise in good condition.

152

00:15:20,000 --> 00:15:23,000

Five years later, Davenport is in the Navy.

153

00:15:23,000 --> 00:15:28,000

He is badly injured on duty and sent for emergency medical treatment.

154

00:15:29,000 --> 00:15:33,000

An MRI reveals a strange metallic implant in his brain.

155

00:15:34,000 --> 00:15:39,000

Davenport claims to have been abducted multiple times since the implant's discovery.

156

00:15:39,000 --> 00:15:44,000

Doctors will refuse to remove it, despite many opportunities to do so.

157

00:15:45,000 --> 00:15:50,000

Davenport claims that aliens use the implant to control not only his brain,

158

00:15:50,000 --> 00:15:54,000

but the brains of the doctors who treat him as well.

159

00:15:56,000 --> 00:16:02,000

A further scan in 2001 reveals the implant still present.

160

00:16:03,000 --> 00:16:10,000

Ted Davenport is just one of hundreds of reported abductees who claim to have had their brains operated on by aliens.

161

00:16:10,000 --> 00:16:15,000

And some surgeries are more invasive than others.

162

00:16:15,000 --> 00:16:20,000

Many of the abductees will say that they put something up the nose with an instrument,

163

00:16:20,000 --> 00:16:23,000

and they always describe this cracking sound that they hear.

164

00:16:23,000 --> 00:16:30,000

Well, if you look up the nasal cavity to the base of the brain, there's a bone called the ethmoid.

165

00:16:30,000 --> 00:16:35,000

And there's two thin little plates, those are called the ethmoid plates.

166

00:16:35,000 --> 00:16:39,000

And if you puncture one of those plates, you're right at the base of the brain.

167

00:16:40,000 --> 00:16:43,000

Why are aliens placing implants in human brains?

168

00:16:43,000 --> 00:16:49,000

Are they attempting to scan our brains to study what we know to add to their body of knowledge?

169

00:16:49,000 --> 00:16:55,000

Or are they here for samples of the brain itself to be integrated into their own physiology?

170

00:16:55,000 --> 00:17:00,000

And could there be something even more sinister at work?

171

00:17:01,000 --> 00:17:05,000

Every year, thousands go missing without a trace.

172

00:17:05,000 --> 00:17:08,000

Could some be victims of alien abduction?

173

00:17:09,000 --> 00:17:13,000

And if so, what is their fate?

174

00:17:14,000 --> 00:17:20,000

Are their brains being harvested to ensure the survival of an alien race?

175

00:17:20,000 --> 00:17:26,000

Is the Earth an intelligence farm for beings from another world?

176

00:17:31,000 --> 00:17:34,000

Are aliens harvesting human intelligence?

177

00:17:34,000 --> 00:17:38,000

And if they are, how long has this been happening?

178

00:17:38,000 --> 00:17:40,000

We rise and we fall.

179

00:17:40,000 --> 00:17:43,000

You know, this civilization seems to be about 12,000 years old,

180

00:17:43,000 --> 00:17:47,000

but there are older civilizations that have left things behind.

181

00:17:47,000 --> 00:17:52,000

You have to consider the possibility that this is not the first time we've been on this planet.

182

00:17:52,000 --> 00:17:58,000

Many experts believe that aliens helped plant the seeds of our current civilization.

183

00:17:58,000 --> 00:18:04,000

Is it possible they did so in order to harvest humans in the future?

184

00:18:04,000 --> 00:18:11,000

And is the present downfall of planet Earth a warning sign that it's about to happen again?

185

00:18:13,000 --> 00:18:20,000

This is Unsealed Alien Files, exposing the biggest secret on planet Earth.
