

1

00:00:00,000 --> 00:00:02,000

Close encounters.

2

00:00:02,000 --> 00:00:06,000

There's no telling where or when they will happen.

3

00:00:06,000 --> 00:00:16,000

But of all the possible scenarios, none is more terrifying than the one we're unaware of, until it's too late.

4

00:00:16,000 --> 00:00:24,000

Home is where we are supposed to feel most secure, but it's also where we are most vulnerable,

5

00:00:24,000 --> 00:00:30,000

as sleep provides the perfect opportunity for aliens to strike.

6

00:00:30,000 --> 00:00:36,000

A typical alien abduction usually occurs at night. The victim is sound asleep in their bed.

7

00:00:36,000 --> 00:00:46,000

Each year, hundreds report alien intruders. How do they enter our homes undetected? And what do they want?

8

00:00:47,000 --> 00:00:55,000

Join us as dreams turn into nightmares when reports of bedroom invaders are unsealed.

9

00:00:55,000 --> 00:01:06,000

A global effort has begun. Secret files hidden from the public for decades, detailing every UFO account, are now available to the public.

10

00:01:06,000 --> 00:01:11,000

We are about to uncover the truth behind these classified documents.

11

00:01:11,000 --> 00:01:17,000

Find out what the government doesn't want you to know. Unsealed. Alien files.

12

00:01:17,000 --> 00:01:21,000

Exposing the biggest secret on planet Earth.

13

00:01:41,000 --> 00:01:46,000

In the middle of the night, he is awakened by a strange sound.

14

00:01:46,000 --> 00:01:52,000

Rising to investigate, Strieber is shocked to see an alien enter the room.

15

00:01:52,000 --> 00:01:56,000

At that moment, he loses consciousness.

16

00:01:56,000 --> 00:02:01,000

The next thing Strieber remembers is waking in the woods, not far from the cabin.

17

00:02:01,000 --> 00:02:08,000

He has no recollection of what has transpired since rising from his bed to face the alien.

18

00:02:09,000 --> 00:02:16,000

Haunted by the incident, Strieber undergoes regressive hypnosis to recover the memories of those lost hours.

19

00:02:16,000 --> 00:02:20,000

The results are shocking.

20

00:02:20,000 --> 00:02:27,000

Strieber recalls floating up and out of his bedroom into a UFO hovering somewhere above the cabin.

21

00:02:27,000 --> 00:02:33,000

On board, he was subjected to a series of torturous medical procedures.

22

00:02:33,000 --> 00:02:38,000

One saw a long needle inserted into his brain.

23

00:02:38,000 --> 00:02:49,000

In the end, Strieber's therapist attributes his alien abduction memories to a form of epilepsy known to induce vivid and often bizarre hallucinations.

24

00:02:49,000 --> 00:02:52,000

But the author utterly rejects the theory.

25

00:02:52,000 --> 00:02:58,000

He is convinced that everything he saw and experienced was real.

26

00:02:58,000 --> 00:03:08,000

Strieber goes on to write a best-selling book about his ordeal and learns that his experience, while extraordinary, was hardly unique.

27

00:03:08,000 --> 00:03:18,000

Just four years later, a 1991 poll estimates that some four million Americans have experienced a similar close encounter.

28

00:03:18,000 --> 00:03:25,000

The Roper poll states that most of those abducted claim they were taken in the dead of night.

29

00:03:25,000 --> 00:03:34,000

They all remember being completely immobilized, removed from their car or beds and transported to a UFO.

30

00:03:34,000 --> 00:03:42,000

There, they recall hospital operating rooms, bright lights and huge-eyed alien beings.

31

00:03:42,000 --> 00:03:50,000

Physical procedures are performed while they lie upon examination tables, naked, frightened and paralyzed.

32

00:03:50,000 --> 00:03:55,000

It's a sinister pattern. But why do aliens target the bedroom?

33

00:03:55,000 --> 00:04:03,000

Is it merely a means of taking victims by surprise? Or does the secret lie in the state of sleep itself?

34

00:04:03,000 --> 00:04:05,000

Humans are pretty vulnerable when they sleep.

35

00:04:05,000 --> 00:04:12,000

When your eyes are shut and you're not paying attention to what or who is around you, your brain doesn't necessarily process 100%.

36

00:04:12,000 --> 00:04:17,000

A lot of times you may incorporate that into your dreams, other times you just don't even process it.

37

00:04:17,000 --> 00:04:26,000

Victims of bedroom abduction almost invariably question whether the experience was truly real or just a dream.

38

00:04:26,000 --> 00:04:35,000

Is this why aliens target our bedrooms at night? Does the state of sleep offer the perfect cover for abducting humans?

39

00:04:35,000 --> 00:04:40,000

Or is something else at work?

40

00:04:40,000 --> 00:04:48,000

Author Whitley Streeper claims that he was abducted by aliens from the bedroom of his cabin in upstate New York.

41

00:04:48,000 --> 00:04:57,000

From the blinding light to the feeling of helpless paralysis, his account bears all the hallmarks of bedroom invasion.

42

00:04:57,000 --> 00:05:02,000

It's a terrifying experience that's been shared by thousands of others.

43

00:05:02,000 --> 00:05:07,000

Mark Routley of England is another victim of bedroom invasion.

44

00:05:07,000 --> 00:05:14,000

Suddenly, out of the blue, I woke up three o'clock in the morning terrified, panicked, paralyzed.

45

00:05:14,000 --> 00:05:18,000

I knew exactly what was going on. Three entities were in the room.

46

00:05:18,000 --> 00:05:23,000

I could see it all around the room. I was completely here and completely awake.

47

00:05:23,000 --> 00:05:25,000

Just immobile.

48

00:05:25,000 --> 00:05:31,000

With fear, I don't know whether they did something to make me immobile. I don't know.

49

00:05:31,000 --> 00:05:35,000

Routley lies helpless as one of the entities crosses the room.

50

00:05:35,000 --> 00:05:41,000

All I remember is some kind of thing then drilled into my ear and that was it.

51

00:05:41,000 --> 00:05:48,000

I was awake. It was eight o'clock in the morning. That was it. That might have missed in time.

52

00:05:48,000 --> 00:06:00,000

It's a disturbingly familiar scenario. A vulnerable victim, paralysis, intense pain and hours, often days of missing time.

53

00:06:00,000 --> 00:06:07,000

But despite the seriousness of these claims, the scientific community refuses to investigate them.

54

00:06:07,000 --> 00:06:19,000

They instead attribute the bedroom invasion phenomenon to sleep paralysis, a temporary physical condition that can occur when entering or emerging from sleep.

55

00:06:19,000 --> 00:06:23,000

The victim suddenly discovers they are unable to move.

56

00:06:23,000 --> 00:06:30,000

The state often induces a feeling of helplessness that can quickly escalate into sheer terror.

57

00:06:30,000 --> 00:06:36,000

Could the victims of bedroom abduction simply be experiencing sleep paralysis?

58

00:06:36,000 --> 00:06:42,000

Are the thousands of reports of alien intruders the fevered visions of terrified minds?

59

00:06:42,000 --> 00:06:50,000

If so, how can sleep paralysis account for the striking similarities among thousands of abduction reports?

60

00:06:51,000 --> 00:06:59,000

The common element to virtually all bedroom invasions is the blinding light that precedes the alien's arrival.

61

00:06:59,000 --> 00:07:09,000

But what is its purpose? Is it a means of gaining access to the victim's bedroom or is it a means of paralyzing the victim?

62

00:07:09,000 --> 00:07:19,000

Whitley Streber claims his wife slept through the entire ordeal, despite the presence of the light and his physical removal from the bed.

63

00:07:19,000 --> 00:07:22,000

How did she not wake up?

64

00:07:22,000 --> 00:07:33,000

When people report their abduction experiences, they can say that it happened at night and oftentimes there would be someone lying next to them who doesn't remember anything.

65

00:07:33,000 --> 00:07:47,000

It could be that these ETs have a way of really isolating who they want and really just freezing or suppressing anyone that they don't want to be involved in this particular experience.

66

00:07:47,000 --> 00:07:55,000

Does the light simultaneously render some unconscious while removing others to a nearby UFO?

67

00:07:55,000 --> 00:08:01,000

Many experts believe that bedroom abductees don't really go anywhere at all.

68

00:08:01,000 --> 00:08:09,000

They believe the bright light shifts them into a dimension beyond the realm of human perception.

69

00:08:09,000 --> 00:08:14,000

We see the universe in three dimensions, height, width and depth.

70

00:08:14,000 --> 00:08:19,000

And we experience the passage of a fourth dimension, being time.

71

00:08:19,000 --> 00:08:30,000

But the world's top physicist estimates there may be as many as eleven different dimensions, and their existence may soon be confirmed.

72

00:08:30,000 --> 00:08:35,000

Unsealed case file, Alien Dimensions.

73

00:08:35,000 --> 00:08:48,000

Recently released reports have revealed that scientists working at CERN's Large Hadron Collider in Switzerland are actively looking for evidence that the universe contains more than four dimensions.

74

00:08:48,000 --> 00:08:56,000

They suggest that the existence of extra dimensions could explain some puzzling properties of the universe.

75

00:08:56,000 --> 00:09:01,000

Atoms are smashed together at velocities approaching the speed of light.

76

00:09:01,000 --> 00:09:07,000

The fallout from these collisions is beginning to reveal the greatest secrets of our universe.

77

00:09:07,000 --> 00:09:15,000

And within five years, we might actually encounter these extra dimensions beyond the realm of human perception.

78

00:09:15,000 --> 00:09:23,000

Many ufologists believe that extraterrestrials already possess the ability to shift between dimensions.

79

00:09:23,000 --> 00:09:29,000

They also believe that victims of bedroom invasion aren't taken to a spaceship.

80

00:09:29,000 --> 00:09:36,000

They are in fact shifted into a dimension beyond the three we are able to perceive.

81

00:09:36,000 --> 00:09:42,000

And this is why Streeper's wife remains sound asleep throughout his ordeal.

82

00:09:43,000 --> 00:09:48,000

Streeper claims that he awakened in the woods not far from his cabin.

83

00:09:48,000 --> 00:09:56,000

But is it possible he made his way outside in dazed pursuit of a UFO that was never really there?

84

00:09:56,000 --> 00:10:01,000

Are bedroom invasions the work of aliens traveling between dimensions?

85

00:10:01,000 --> 00:10:08,000

Or what the UFO victims claim to see really just illusions?

86

00:10:08,000 --> 00:10:13,000

Millions of Americans may have been the victims of alien bedroom invasion.

87

00:10:13,000 --> 00:10:20,000

But their claims are difficult to confirm because virtually all abductees are either alone

88

00:10:20,000 --> 00:10:25,000

or their potential witnesses are rendered mysteriously unconscious.

89

00:10:25,000 --> 00:10:34,000

Some experts believe the victims aren't taken to a UFO at all, but rather shifted into a different dimension.

90

00:10:34,000 --> 00:10:39,000

One account however offers compelling evidence to the contrary

91

00:10:39,000 --> 00:10:46,000

and may reveal a previously unknown human element behind the bedroom invasion phenomenon.

92

00:10:46,000 --> 00:10:49,000

Unsealed case file.

93

00:10:49,000 --> 00:10:52,000

The Linda-Corteeel Abduction.

94

00:10:52,000 --> 00:10:56,000

New York City, November 30th, 1989.

95

00:10:56,000 --> 00:11:02,000

Around 3.15 a.m., two security officers transporting a foreign dignitary

96

00:11:02,000 --> 00:11:07,000

spot a large glowing object hovering near a high-rise apartment building.

97

00:11:07,000 --> 00:11:14,000

They quickly realize it is a UFO making a bold appearance above the New York skyline.

98

00:11:14,000 --> 00:11:20,000

Shocking as it is, nothing can prepare them for what they see next.

99

00:11:20,000 --> 00:11:25,000

The UFO blasts a beam of blue light at the building's 12th floor.

100

00:11:25,000 --> 00:11:30,000

Figures emerge floating through the beam up to the waiting craft.

101

00:11:30,000 --> 00:11:33,000

The last is a young woman.

102

00:11:33,000 --> 00:11:41,000

The two officers don't realize it at the time, but they are witnessing a textbook bedroom invasion in progress.

103

00:11:41,000 --> 00:11:47,000

The woman in question later identifies herself as Linda-Cortee.

104

00:11:47,000 --> 00:11:52,000

She later claims that there were in fact five aliens in her apartment that night

105

00:11:52,000 --> 00:11:58,000

and that two remained behind while she was taken to the waiting craft.

106

00:11:58,000 --> 00:12:06,000

On board, she was subjected to invasive medical procedures similar to those reported by other abductees.

107

00:12:06,000 --> 00:12:12,000

The two security officers report the incident anonymously to noted ufologist Bud Hopkins.

108

00:12:12,000 --> 00:12:16,000

But they aren't the only witnesses.

109

00:12:16,000 --> 00:12:23,000

Reportedly, traffic came to a standstill on the Brooklyn Bridge as people watched in disbelief.

110

00:12:23,000 --> 00:12:29,000

The sheer number of eyewitness accounts threatens to break the story worldwide.

111

00:12:29,000 --> 00:12:39,000

Hopkins calls the Corteel case the most important case for establishing the objective reality of UFO abductions that I have yet encountered.

112

00:12:39,000 --> 00:12:45,000

The presence of aliens on earth is on the verge of being accepted by the general public.

113

00:12:45,000 --> 00:12:52,000

It's a potentially historic moment that will draw fire from the biggest UFO skeptic of his time.

114

00:12:52,000 --> 00:12:59,000

Journalist Philip J. Klass was a controversial figure in the world of UFO investigation.

115

00:12:59,000 --> 00:13:11,000

From the early 1960s to his death in 2005, he investigated hundreds of UFO claims, earning him the nickname the Sherlock Holmes of Ufology.

116

00:13:11,000 --> 00:13:18,000

A lifelong skeptic, Klass worked tirelessly to debunk UFO claims.

117

00:13:18,000 --> 00:13:25,000

In a taped interview about the mass UFO sighting, Klass questions whether the two security officers even existed

118

00:13:25,000 --> 00:13:33,000

and states that not one witness saw it dive into the East River, as Linda Corteel reported.

119

00:13:33,000 --> 00:13:41,000

It's a sharp denial of multiple eyewitness accounts, but it overlooks one all-important fact.

120

00:13:41,000 --> 00:13:46,000

Linda Corteel never claimed to have seen the UFO dive into the river.

121

00:13:46,000 --> 00:13:51,000

That observation was made by the two security officers.

122

00:13:51,000 --> 00:14:00,000

Why would one of the world's most respected UFO investigators play fast and loose with the facts surrounding the Linda Corteel abduction?

123

00:14:00,000 --> 00:14:10,000

Was it a simple case of oversight? Or was the evidence so compelling that Klass saw a need to deny at any cost?

124

00:14:10,000 --> 00:14:19,000

While Philip J. Klass was all too eager to speak out on the Linda Corteel case, one man remains conspicuously silent.

125

00:14:19,000 --> 00:14:25,000

He is the foreign dignitary being transported by the two security officers.

126

00:14:25,000 --> 00:14:35,000

Ufologist Bud Hopkins claims the man was in fact Javier Perez de Cuellar, then Secretary General of the United Nations.

127

00:14:35,000 --> 00:14:45,000

A public statement regarding the incident from a leader of his stature might forever dispel any doubts the public might have about the presence of aliens on Earth.

128

00:14:45,000 --> 00:14:50,000

But to this day, de Cuellar remains silent on the incident.

129

00:14:50,000 --> 00:14:55,000

Are world authorities keeping vital information from the public?

130

00:14:55,000 --> 00:15:07,000

In the 1990s, Hopkins claimed that aliens were in fact attempting to take control of humanity, one victim at a time, in a silent war against planet Earth.

131

00:15:07,000 --> 00:15:14,000

He believed they were receiving help from the planet's highest authorities to keep their activities secret.

132

00:15:14,000 --> 00:15:20,000

The government's attempts at controlling this information should make us very afraid.

133

00:15:20,000 --> 00:15:28,000

But perhaps our greatest fears will be realized when they no longer have any control at all.

134

00:15:28,000 --> 00:15:34,000

Bedroom invasions continue to this day, and there's no sign of them stopping.

135

00:15:34,000 --> 00:15:43,000

But how do they do it? And are these abductions sanctioned by our own government? For reasons they refuse to disclose.

136

00:15:43,000 --> 00:15:56,000

Many theories exist, but the most terrifying may have its origins in a secret government military complex in New Mexico, deep beneath the surface of the Earth.

137

00:15:56,000 --> 00:16:04,000

The Dulce base is an alleged military complex inside the Archuleta Mesa in northern Dulce, New Mexico.

138

00:16:04,000 --> 00:16:07,000

There's no guard towers, no tanks outside.

139

00:16:07,000 --> 00:16:23,000

The conspiracy says that there is a base deep within this mountain that not only our United States military operates in, but after a deal that we've made with aliens, allegedly they are there too, conducting whatever operations they are inside Archuleta Mesa.

140

00:16:23,000 --> 00:16:31,000

Many experts believe that thousands of humans have been abducted and brought to the Dulce base for experimentation.

141

00:16:32,000 --> 00:16:38,000

It is reported to have seven levels, each more horrifying than the last.

142

00:16:38,000 --> 00:16:45,000

On level four, the experiments allegedly focus on hypnosis and telepathy.

143

00:16:45,000 --> 00:16:53,000

But experts believe it's the experiments involving brain waves usually active when we sleep that are the most sinister.

144

00:16:54,000 --> 00:17:05,000

What if experimental researchers could tap human brain waves while we are awake, essentially creating a door through which we could easily be controlled?

145

00:17:05,000 --> 00:17:12,000

A recent study by neuroscientist Norman S. Don points to a terrifying conclusion.

146

00:17:12,000 --> 00:17:20,000

Don measured the brain waves of subjects who had all claimed to have been abducted or had close encounters with a UFO.

147

00:17:20,000 --> 00:17:23,000

And the results were shocking.

148

00:17:23,000 --> 00:17:36,000

In all cases, abductees were able to achieve non-ordinary or trans-like states during a waking state, something they were not able to do prior to being abducted.

149

00:17:36,000 --> 00:17:41,000

Can close encounters with aliens change the way our brains function?

150

00:17:41,000 --> 00:17:50,000

If so, Don may have uncovered the primary reason aliens are abducting humans in record numbers.

151

00:17:50,000 --> 00:17:57,000
