

1

00:00:00,000 --> 00:00:04,000

Our world is changing.

2

00:00:04,000 --> 00:00:06,000

Temperatures are climbing.

3

00:00:06,000 --> 00:00:09,000

Ocean levels are rising.

4

00:00:09,000 --> 00:00:14,000

Giant storms are becoming more frequent and more intense.

5

00:00:14,000 --> 00:00:19,000

Planet Earth is rapidly becoming hostile to human life.

6

00:00:19,000 --> 00:00:24,000

At the same time, alien activity is on the rise.

7

00:00:24,000 --> 00:00:27,000

Could there be a connection between the two?

8

00:00:28,000 --> 00:00:34,000

Are aliens seizing this opportunity to speed up Earth's transformation?

9

00:00:34,000 --> 00:00:38,000

And if so, what is their ultimate goal?

10

00:00:38,000 --> 00:00:40,000

It might be a way to cull their herd.

11

00:00:40,000 --> 00:00:43,000

The aliens wanted to wipe us out. Obviously they could.

12

00:00:43,000 --> 00:00:52,000

Join us as we reveal a potential plot to create an alien Earth on Unsealed Alien Files.

13

00:00:52,000 --> 00:00:55,000

A global effort has begun.

14

00:00:55,000 --> 00:01:02,000

Secret files hidden from the public for decades, detailing every UFO account, are now available to the public.

15

00:01:02,000 --> 00:01:07,000

We are about to uncover the truth behind these classified documents.

16

00:01:07,000 --> 00:01:11,000

Find out what the government doesn't want you to know.

17

00:01:11,000 --> 00:01:14,000

Unsealed Alien Files.

18

00:01:14,000 --> 00:01:18,000

Exposing the biggest secret on Planet Earth.

19

00:01:18,000 --> 00:01:23,000

Waldo Canyon, Colorado, June 28, 2012.

20

00:01:23,000 --> 00:01:29,000

The second biggest forest fire in state history is sweeping through the region.

21

00:01:29,000 --> 00:01:38,000

In the midst of the chaos, residents spot a mysterious object falling from the sky into the heart of the danger zone.

22

00:01:38,000 --> 00:01:42,000

They report it to authorities as a UFO.

23

00:01:42,000 --> 00:01:49,000

NORAD confirms that an object did fall from space, but dismisses it as a meteor.

24

00:01:49,000 --> 00:02:01,000

The fact that it happened to fall directly into a raging forest fire is regarded as mere coincidence, but that will soon change.

25

00:02:01,000 --> 00:02:10,000

The next day, a television news crew catches sight of a UFO passing close to a helicopter monitoring the fire.

26

00:02:10,000 --> 00:02:17,000

The images are unmistakable, and they raise some disturbing questions.

27

00:02:17,000 --> 00:02:22,000

Why is a UFO present in the heart of a natural disaster?

28

00:02:22,000 --> 00:02:26,000

Is it related to the object that fell to Earth the day before?

29

00:02:26,000 --> 00:02:31,000

And are both somehow related to the start of the fire?

30

00:02:31,000 --> 00:02:42,000

The cause of the Waldo Canyon blaze remains unknown, and it was just one of ten major forest fires burning in Colorado at the time.

31

00:02:42,000 --> 00:02:48,000

The effect is devastating on both a local and global scale.

32

00:02:48,000 --> 00:03:00,000

As temperatures rise and the Earth dries out, these fires are becoming more frequent, sending more and more carbon dioxide into the atmosphere.

33

00:03:00,000 --> 00:03:08,000

With fewer trees to absorb this excess carbon, the global warming trend will only accelerate.

34

00:03:08,000 --> 00:03:16,000

Could the first Waldo Canyon object have been a fire-starting device dropped by a UFO to trigger yet another blaze?

35

00:03:16,000 --> 00:03:22,000

And if it was, what do they have to gain by setting the Earth on fire?

36

00:03:22,000 --> 00:03:27,000

The answer may be found in our own plans to avoid extinction.

37

00:03:27,000 --> 00:03:33,000

Unsealed Case File, Terraforming Mars

38

00:03:33,000 --> 00:03:47,000

In 2012, renowned physicist Stephen Hawking claimed that humanity's only chance of long-term

survival is not to remain on planet Earth, but to spread out into space.

39

00:03:47,000 --> 00:04:02,000

Experts agree our only possible safe haven in the solar system is Mars, but the planet's atmosphere is razor-thin in comparison to Earth's, and is mostly comprised of deadly carbon dioxide.

40

00:04:02,000 --> 00:04:12,000

To become a viable candidate for large-scale colonization, the red planet would have to undergo an almost complete transformation.

41

00:04:12,000 --> 00:04:22,000

NASA has looked into the possibility of altering the Martian landscape to serve human needs through a process called Terraforming.

42

00:04:23,000 --> 00:04:32,000

Factories will be established on the surface to produce vast quantities of the same greenhouse gases that threaten our planet today.

43

00:04:32,000 --> 00:04:38,000

These gases will trap heat from the Sun, warming the planet's surface.

44

00:04:38,000 --> 00:04:47,000

The polar ice caps will melt, releasing more carbon dioxide into the atmosphere, warming the planet even further.

45

00:04:47,000 --> 00:04:53,000

The appearance of water will provide the means to sustain life in the long term.

46

00:04:53,000 --> 00:05:05,000

It's a hugely ambitious plan on an almost unimaginable scale, but through Terraforming, Mars could become a new home for humanity.

47

00:05:05,000 --> 00:05:11,000

The question is, has another species thought of this idea first?

48

00:05:11,000 --> 00:05:21,000

Are aliens starting forest fires to eliminate the human race and create the ideal living conditions for their own species here on Earth?

49

00:05:21,000 --> 00:05:29,000

And is this the only step in their plan to create an alien Earth?

50

00:05:29,000 --> 00:05:34,000

Forest fires are becoming more and more frequent across our planet.

51

00:05:34,000 --> 00:05:40,000

Recently, UFOs were sighted over a massive blaze in Colorado.

52

00:05:40,000 --> 00:05:49,000

Are aliens starting forest fires as part of a larger plot to transform the Earth into a planet habitable by their own species?

53

00:05:49,000 --> 00:05:54,000

And is this the only step in their plan?

54

00:05:54,000 --> 00:05:58,000

Southern Brazil, June 2012.

55

00:05:58,000 --> 00:06:05,000

Multiple witnesses report a UFO hovering off the coast near the Argentinian border.

56

00:06:05,000 --> 00:06:12,000

The strange craft never approaches land and never appears to threaten the local population.

57

00:06:12,000 --> 00:06:16,000

But according to some experts, there are victims.

58

00:06:16,000 --> 00:06:20,000

There were multiple witnesses deciding lasted for several hours.

59

00:06:20,000 --> 00:06:24,000

Round about three weeks later, several hundred penguins washed up on shore.

60

00:06:24,000 --> 00:06:28,000

They didn't look like they died of starvation. They didn't look like they died of trauma.

61

00:06:28,000 --> 00:06:36,000

What caused such a massive death toll? And what happens when it occurs on an even greater scale?

62

00:06:36,000 --> 00:06:48,000

The world is currently facing an extinction crisis on a level not seen since the age of the dinosaurs, with as many as 140,000 different species disappearing.

63

00:06:48,000 --> 00:06:56,000

But of all the creatures facing their demise, one species above all has the power to take humanity with it.

64

00:06:56,000 --> 00:07:01,000

And no one knows for sure why they are disappearing.

65

00:07:01,000 --> 00:07:06,000

Bees. They feed on the nectar and pollen of flowering plants.

66

00:07:06,000 --> 00:07:12,000

And in doing so, fertilize them in a natural process called pollination.

67

00:07:12,000 --> 00:07:17,000

These plants include dozens of species vital to our food supply.

68

00:07:17,000 --> 00:07:23,000

Roughly one mouthful in every three ingested comes to us thanks to bees.

69

00:07:23,000 --> 00:07:31,000

They may possess a painful sting, but without bees, the human race would face a fatal food shortage.

70

00:07:31,000 --> 00:07:37,000

Recent years have seen the worldwide population in steep decline.

71

00:07:37,000 --> 00:07:45,000

In Britain, beekeepers reported a 50% decrease from 2012 to 2013 alone.

72

00:07:46,000 --> 00:07:56,000

The rapid disappearance of this vital species is a disturbing trend that is coinciding with another equally disturbing phenomenon.

73

00:07:56,000 --> 00:08:08,000

According to the Mutual UFO Network, the year 2012 also saw a massive increase in worldwide sightings of unidentified flying objects.

74

00:08:08,000 --> 00:08:12,000

Could the two phenomena be somehow related?

75

00:08:13,000 --> 00:08:21,000

In the event of an alien attempt to colonize the Earth, human beings would present the only major obstacle.

76

00:08:21,000 --> 00:08:29,000

And some experts believe authorities have blinded most of humanity to our precarious position on this planet.

77

00:08:29,000 --> 00:08:32,000

We have our government, which makes it quite clear.

78

00:08:32,000 --> 00:08:37,000

We're 20, 30, 40, 50 years ahead of what you think we are in this area, in that area.

79

00:08:37,000 --> 00:08:43,000

And then over here, we have 7 billion people on a planet with major problems.

80

00:08:43,000 --> 00:08:46,000

Food shortages, water shortages, environmental damage.

81

00:08:46,000 --> 00:08:59,000

Any alien species studying our natural world would soon discover any number of subtle but no less effective ways to plunge humanity into the abyss.

82

00:08:59,000 --> 00:09:06,000

Are extraterrestrials killing bees as part of a clandestine plan to starve us off the face of the planet?

83

00:09:06,000 --> 00:09:10,000

And is this the only alien threat to our food supply?

84

00:09:11,000 --> 00:09:13,000

Unsealed Case File

85

00:09:13,000 --> 00:09:15,000

Cattle Mutilation

86

00:09:16,000 --> 00:09:21,000

Dulce, New Mexico, March 24, 1978.

87

00:09:21,000 --> 00:09:28,000

Cattle Rancher Manuel Gomez discovers the dead carcass of a recently deceased 11-month-old bull.

88

00:09:29,000 --> 00:09:39,000

It's not unheard of, but the calf's post-mortem condition leaves Gomez and veterinarians in a state of stunned disbelief.

89

00:09:39,000 --> 00:09:49,000

The animal sex organs have been removed with a surgical precision beyond the capability of even today's most sophisticated laser technology.

90

00:09:49,000 --> 00:09:55,000

The remaining carcass appears to have been dropped from a height achievable only by an aircraft.

91

00:09:56,000 --> 00:10:03,000

Blood samples taken at the scene are an unusual shade of light pink and refuse to clot.

92

00:10:03,000 --> 00:10:08,000

The remains are sent to a lab in Los Alamos for autopsy.

93

00:10:08,000 --> 00:10:18,000

The final police report notes that both the liver and heart were mushy, having the texture and consistency of peanut butter.

94

00:10:18,000 --> 00:10:27,000

It concludes that a probable explanation for the pinkish blood is a control type of radiation used to kill the animal.

95

00:10:27,000 --> 00:10:34,000

Who would kill a farm animal with radiation and mutilate it in such a bizarre manner?

96

00:10:34,000 --> 00:10:36,000

And why?

97

00:10:36,000 --> 00:10:46,000

The incident is in fact just one of many reported cattle mutilations that have plagued the United States since the early 1960s.

98

00:10:46,000 --> 00:10:59,000

But a declassified document from 1974 reveals that the FBI at first refused to investigate, claiming a possible violation of its investigative jurisdiction.

99

00:10:59,000 --> 00:11:10,000

When the Bureau finally does take up the case in 1979, it discovers a full-blown crisis in the nation's own backyard.

100

00:11:11,000 --> 00:11:25,000

According to a declassified memo from the lead investigator, in July 1978, a UFO was reportedly sighted by a resident of Taos, New Mexico, hovering over a pickup truck.

101

00:11:25,000 --> 00:11:31,000

The following morning, powder flakes were reportedly recovered from the truck roof.

102

00:11:31,000 --> 00:11:36,000

Locals identify the flakes as cowhide.

103

00:11:36,000 --> 00:11:45,000

Are cattle mutilations and the liquefying of their insides another extraterrestrial plot to sabotage our food supply?

104

00:11:45,000 --> 00:11:55,000

Or are they attempting to modify our cattle to suit their own nutritional needs on the new alien Earth?

105

00:11:56,000 --> 00:12:05,000

Evidence has revealed a possible extraterrestrial plot to transform the face of planet Earth for alien colonization.

106

00:12:05,000 --> 00:12:13,000

The final step in any such plan would be the elimination of the final obstacle, the human race.

107

00:12:13,000 --> 00:12:24,000

And if history is any indication, that final attack could begin anywhere, any time, and in any form.

108

00:12:24,000 --> 00:12:29,000

Kerala State, India, July 25, 2001

109

00:12:29,000 --> 00:12:38,000

The daily routine is interrupted by a bizarre event that seems like a page torn from a book of ancient myth.

110

00:12:38,000 --> 00:12:52,000

A blood-red rain begins pouring over the area, terrifying the local population, who believe it to be the first sign of Kalayuga, the end of the world, as described in Hindu scripture.

111

00:12:52,000 --> 00:12:58,000

It isn't long before people of other faiths are seized by the same apocalyptic fear.

112

00:12:58,000 --> 00:13:09,000

This has all kinds of difficult implications, of course, because the now river-chirped red has one of the ten places in Egypt, but in modern India, what was the cause of the red rain?

113

00:13:09,000 --> 00:13:11,000

Was it a bacteria?

114

00:13:11,000 --> 00:13:17,000

The bloody deluge continues for two months, leaving experts grasping for an explanation.

115

00:13:17,000 --> 00:13:23,000

Some claim it to be blood from swarms of bats torn to shreds by lightning.

116

00:13:23,000 --> 00:13:29,000

Others point to a glut of algae spores, finding their way into the tropical rain cycle.

117

00:13:29,000 --> 00:13:34,000

Was it some kind of life form? Was it an organism in the rain?

118

00:13:34,000 --> 00:13:46,000

Scientists actually got a hold of the water as it poured from the red rain, and when they analyzed what was in that water, they found protein-like substances.

119

00:13:46,000 --> 00:13:51,000

That did not occur naturally on planet Earth.

120

00:13:51,000 --> 00:13:59,000

When placed under the microscope, the rain is found to contain particles that bear an uncanny resemblance to red blood cells.

121

00:13:59,000 --> 00:14:08,000

By definition, there were otherworldly protein lifelifts, or the residue of life, in the red rain.

122

00:14:08,000 --> 00:14:11,000

In other words, extra terrestrial.

123

00:14:11,000 --> 00:14:22,000

Did that red rain walk in the vaginous planet Earth by some alien species looking to invest on planet with bacteria?

124

00:14:22,000 --> 00:14:26,000

We still don't know what the protein substance was, these red rain.

125

00:14:26,000 --> 00:14:36,000

Despite years of scientific study, the source of the rain remains a mystery, and the composition of the red particles unknown.

126

00:14:36,000 --> 00:14:42,000

Leading many experts to believe they are extra terrestrial in nature.

127

00:14:42,000 --> 00:14:44,000

Unsealed Case File.

128

00:14:44,000 --> 00:14:47,000

Alien Bacteria.

129

00:14:47,000 --> 00:14:55,000

In 2009, Indian scientists launch a balloon into the stratosphere to collect particle samples.

130

00:14:55,000 --> 00:15:08,000

The craft returns bearing previously unknown bacteria that demonstrate a significantly higher resistance to ultraviolet radiation far beyond any similar kind on Earth.

131

00:15:08,000 --> 00:15:13,000

Where do these strange microscopic life forms in the sky come from?

132

00:15:13,000 --> 00:15:16,000

Do they originate here on Earth?

133

00:15:16,000 --> 00:15:21,000

Or have they been planted there for some unknown purpose?

134

00:15:22,000 --> 00:15:26,000

The answer may lie half a world away.

135

00:15:26,000 --> 00:15:30,000

November 8th, 2010, Los Angeles.

136

00:15:30,000 --> 00:15:37,000

An unidentified flying object bursts into the sky from beneath the waves off the California coast.

137

00:15:37,000 --> 00:15:43,000

The city is a known UFO hotspot, but this object is something new.

138

00:15:43,000 --> 00:15:52,000

On November 8th, 2010, a mysterious object came out of the Pacific Ocean off the coast of California and seemingly streaked towards the sky towards space.

139

00:15:52,000 --> 00:16:01,000

No one could identify or could see what this object was, and when the military was questioned about it, they had no idea either.

140

00:16:01,000 --> 00:16:07,000

The UFO disappears into the sky, and there is no resulting explosion on the ground.

141

00:16:07,000 --> 00:16:15,000

Experts are baffled, but it's not the first time this kind of object has appeared from the waters off Los Angeles.

142

00:16:15,000 --> 00:16:20,000

Topanga Canyon, California, 1992.

143

00:16:20,000 --> 00:16:30,000

Multiple witnesses saw what they described as a fleet of UFOs shooting out of the Pacific Ocean and disappearing into the heavens.

144

00:16:30,000 --> 00:16:41,000

This was the first time something like this had happened in this area, and the first time that a fleet of submersible UFOs had ever been seen and documented.

145

00:16:41,000 --> 00:16:48,000

Are aliens launching biological weapons designed to rain down on humanity from underwater bases?

146

00:16:48,000 --> 00:16:53,000

And if so, what is their ultimate goal?

147

00:16:54,000 --> 00:17:04,000

Recent evidence has uncovered a possible alien plot to change Earth's environment in preparation for extraterrestrial colonization.

148

00:17:04,000 --> 00:17:09,000

But the manipulation of our world may not end with our environment.

149

00:17:09,000 --> 00:17:19,000

Ufologists estimate an astonishing 4% of Earth's population, nearly 280 million people, have been abducted by aliens.

150

00:17:19,000 --> 00:17:27,000

But what is the purpose behind this campaign of terror? The answer may be flowing through our veins.

151

00:17:27,000 --> 00:17:35,000

Abductees report that they are often taken into sort of a cleansing room, where they feel like they're going through some sort of ultraviolet cleansing.

152

00:17:35,000 --> 00:17:42,000

So it seems that the aliens are protecting themselves. The question is, do people take back pathogens from alien encounters?

153

00:17:42,000 --> 00:17:54,000

Could these mass abductions somehow be related to the changes in our environment? Are aliens infecting abductees with a pathogen waiting for the optimum conditions to strike?

154

00:17:54,000 --> 00:17:58,000

If aliens really wanted to wipe us out, I think they could. So why haven't they done that?

155

00:17:58,000 --> 00:18:04,000

If aliens were introducing pathogens among human beings, it might be a way to strengthen the herd.

156

00:18:04,000 --> 00:18:15,000

If aliens are preparing a small percentage of humans for life on a future alien Earth, what would be our function in this new alien society?

157

00:18:15,000 --> 00:18:20,000

Would we be equals or slaves?

158

00:18:20,000 --> 00:18:28,000

This is Unsealed Alien Files, exposing the biggest secret on planet Earth.

159

00:18:34,000 --> 00:18:39,000

Unsealed Alien Files
