

1

00:00:00,000 --> 00:00:02,000

The space suit.

2

00:00:02,000 --> 00:00:07,000

It is essential for humans to survive the harsh environments of space.

3

00:00:07,000 --> 00:00:12,000

Without it, a human can die in less than a minute.

4

00:00:12,000 --> 00:00:19,000

Many experts believe the Earth has been visited by aliens for thousands of years.

5

00:00:19,000 --> 00:00:25,000

But if we can't survive space travel without a protective suit, how can they?

6

00:00:25,000 --> 00:00:30,000

Join us as we uncover alien space suit sightings.

7

00:00:36,000 --> 00:00:38,000

A global effort has begun.

8

00:00:38,000 --> 00:00:46,000

Secret files hidden from the public for decades, detailing every UFO account, are now available to the public.

9

00:00:46,000 --> 00:00:51,000

We are about to uncover the truth behind these classified documents.

10

00:00:51,000 --> 00:00:54,000

Find out what the government doesn't want you to know.

11

00:00:54,000 --> 00:00:56,000

Unsealed.

12

00:00:56,000 --> 00:00:58,000

Alien files.

13

00:00:58,000 --> 00:01:01,000

Exposing the biggest secret on planet Earth.

14

00:01:02,000 --> 00:01:07,000

Tassilinazir, Algeria, 1933.

15

00:01:07,000 --> 00:01:11,000

A French soldier walking through a mountainous region of the Sahara,

16

00:01:11,000 --> 00:01:17,000

stumbles upon one of the 20th century's most prized archaeological finds.

17

00:01:17,000 --> 00:01:26,000

Sandstone cave walls, covered with over 15,000 engravings and paintings, dating back 10,000 years.

18

00:01:26,000 --> 00:01:37,000

In the 1950s, prehistoric art specialist Henri Loet, claims many of the 800 scenes depict something very unusual.

19

00:01:37,000 --> 00:01:45,000

There's a cave in Algeria called Tassilinazir, where there are these cave paintings that really depict what appear to be

20

00:01:45,000 --> 00:01:47,000

something you would describe as a spaceman.

21

00:01:47,000 --> 00:01:51,000

You've got discernible human beings on one side, so then you have to ask yourself,

22

00:01:51,000 --> 00:01:54,000

what is this other being that's in the picture being depicted?

23

00:01:54,000 --> 00:01:58,000

What are these other beings? Could they be an alien civilization?

24

00:01:58,000 --> 00:02:07,000

Ancient art, depicting oversized bodies, wearing what look like helmets, is a common image across many cultures.

25

00:02:07,000 --> 00:02:12,000

We may never know what these ancient peoples' true intention was,

26

00:02:12,000 --> 00:02:22,000

but in the modern world, encounters with other worldly beings dressed in what can only be described as spacesuits is common.

27

00:02:22,000 --> 00:02:31,000

Unsealed case file, the Finland Incident, February 5, 1971, Canula, Finland.

28

00:02:31,000 --> 00:02:37,000

Two men, P. Alliranta and E.J. Snack, are working in a forest.

29

00:02:37,000 --> 00:02:44,000

When Alliranta witnesses, a 15-foot wide UFO descend into a clearing.

30

00:02:44,000 --> 00:02:52,000

And as it appeared to have landed on Earth, some type of a being then glided out of the center of the UFO,

31

00:02:52,000 --> 00:02:56,000

appearing to have been wearing some kind of a spacesuit according to the eyewitnesses.

32

00:02:56,000 --> 00:03:04,000

According to Alliranta, the little green man approaches him until there is only 10 yards between them.

33

00:03:04,000 --> 00:03:12,000

But suddenly, the being turns and floats back toward the saucer. Alliranta tries to catch it.

34

00:03:12,000 --> 00:03:20,000

As this eyewitness tried to touch the being, as he did so, he realized that this being, this entity, was very hot.

35

00:03:20,000 --> 00:03:27,000

He described it as like a hot iron. And he said that he had burns on his hands that lasted for a couple weeks after the encounter.

36

00:03:28,000 --> 00:03:38,000

The Finland Incident exposes an alarming trait that has been witnessed time and time again by many who encounter human-like extraterrestrials.

37

00:03:38,000 --> 00:03:45,000

They seem to be wearing a protective outer layer, much like a spacesuit. But why?

38

00:03:45,000 --> 00:03:48,000

So why would an alien need a spacesuit to begin with?

39

00:03:48,000 --> 00:03:55,000

Well, obviously they've evolved on another planet with a different atmosphere, different germs, if there are germs on another world.

40

00:03:55,000 --> 00:04:02,000

So that suit would have to protect them from everything that's on our planet, and it'd have to do it very efficiently.

41

00:04:02,000 --> 00:04:12,000

On Earth, mountain climbers refer to any point above 26,000 feet as the death zone, where the human body cannot acclimatize,

42

00:04:12,000 --> 00:04:15,000

and the lack of oxygen becomes life-threatening.

43

00:04:16,000 --> 00:04:24,000

And at 62,000 feet, air pressure is so low that human blood can boil, causing death within minutes.

44

00:04:24,000 --> 00:04:31,000

Could beings from other planets also need an artificial atmosphere to help them travel beyond their normal habitat?

45

00:04:31,000 --> 00:04:36,000

Or can some beings survive almost anywhere?

46

00:04:36,000 --> 00:04:43,000

In the perils of space, there are extreme dangers there that you don't think about when we go outside on a California beach.

47

00:04:43,000 --> 00:04:48,000

Out in space, you have to protect your eyes, you have to protect your body, you have to protect your skin.

48

00:04:48,000 --> 00:04:58,000

You have to have some type of a shield. NASA knew the risks that they were going to subject their human astronauts to once they put them into space.

49

00:04:58,000 --> 00:05:02,000

But it was the spacesuit that they designed that was going to do their best to protect them.

50

00:05:03,000 --> 00:05:10,000

In 2010, NASA announced plans to develop a personal flying suit and vehicle called a puffin.

51

00:05:10,000 --> 00:05:19,000

But to achieve the advanced technological level of a spacesuit, similar to those reported in many alien sightings, we have a long way to go.

52

00:05:19,000 --> 00:05:27,000

Sightings have been reported where a being appears to be wearing a spacesuit. But what about the ones who don't?

53

00:05:28,000 --> 00:05:39,000

Ufologists believe many extraterrestrial visitors may be wearing a form of spacesuit as protection from the Earth's atmosphere.

54

00:05:39,000 --> 00:05:43,000

Unsealed case file, the Hopkinsville Incident.

55

00:05:43,000 --> 00:05:49,000

August 21st, 1955, Kentucky, USA.

56

00:05:50,000 --> 00:06:03,000

Billy Ray Taylor is visiting the Sutton family's farmhouse in rural Kentucky when he witnesses strange lights in the sky and what looks to be a flying saucer lands in the nearby forest.

57

00:06:03,000 --> 00:06:16,000

The Hopkinsville UFO sightings from Kentucky are a fascinating and actually rather disturbing series of encounters. This is sometimes referred to as a siege.

58

00:06:17,000 --> 00:06:25,000

Emerging from the edge of the trees is a strange looking humanoid creature, short in stature, with large pointy ears.

59

00:06:25,000 --> 00:06:39,000

They looked almost like hobgoblins or almost little devil creatures, large pointed ears, pointy faces, like something out of our ancient folklore and legends.

60

00:06:39,000 --> 00:06:46,000

When another creature appears around the corner of the house, lucky turns and fires.

61

00:06:46,000 --> 00:07:01,000

But the shots had no effect and this poses the interesting question. Were these extraterrestrials wearing spacesuits and was one of the functions of these spacesuits to actually give them protection against weapons?

62

00:07:01,000 --> 00:07:08,000

Eleven family members, including children, are terrorized half the night by the creature.

63

00:07:08,000 --> 00:07:13,000

Later, the Hopkinsville Incident is the subject of a project blue book investigation.

64

00:07:13,000 --> 00:07:20,000

But at the time, the sighting is considered so outrageous they write it off as a hoax.

65

00:07:20,000 --> 00:07:27,000

The Sutton family eventually moves and the incident will haunt them for the rest of their lives.

66

00:07:27,000 --> 00:07:34,000

Could the Hopkinsville aliens have been wearing a spacesuit that covered the shape of their actual bodies?

67

00:07:34,000 --> 00:07:43,000

Some encounters describe aliens wearing a more organic type of spacesuit that is virtually indistinguishable from the alien's body.

68

00:07:45,000 --> 00:07:49,000

Unsealed case file, September 15, 1977.

69

00:07:49,000 --> 00:07:57,000

Paciencia Brazil. Antonio La Rubia investigates a huge UFO that landed in a field near his home.

70

00:07:57,000 --> 00:08:03,000

And the beings that he encounters are unlike any that have been described before.

71

00:08:03,000 --> 00:08:16,000

It's almost ground zero for the idea which runs through a lot of UFO related narrative that the whole purpose behind extraterrestrial visitation is study of human beings.

72

00:08:16,000 --> 00:08:29,000

This was a case where it was alleged that the central witness was effectively taken in to a spaceship, subjected to some sort of medical examination.

73

00:08:29,000 --> 00:08:34,000

So it's almost like some first medical and then psychological test.

74

00:08:34,000 --> 00:08:39,000

Exactly what we'd probably do if we encountered and wanted to study aliens.

75

00:08:40,000 --> 00:08:42,000

La Rubia survives the incident.

76

00:08:42,000 --> 00:08:48,000

They behaved like robots even down to the fact that at one point they started spinning around.

77

00:08:48,000 --> 00:09:00,000

They had strange antennae which again one can speculate were being used to transmit data back to the intelligences behind all this.

78

00:09:01,000 --> 00:09:05,000

Antonio claims he is subjected to a horrific physical examination.

79

00:09:05,000 --> 00:09:10,000

But the strange robots are actually sentient beings.

80

00:09:10,000 --> 00:09:16,000

Were they wearing a highly advanced spacesuit? Or something even more astounding?

81

00:09:17,000 --> 00:09:24,000

Unsealed case file, July 4th, 1947, Roswell, New Mexico.

82

00:09:24,000 --> 00:09:30,000

Multiple eyewitnesses report a UFO crashing in the desert outside Roswell, New Mexico.

83

00:09:30,000 --> 00:09:40,000

According to some sources inside the military, parts of the wreckage along with alien bodies are secretly transported to Wright-Patterson Air Force Base in Ohio.

84

00:09:40,000 --> 00:09:44,000

But en route, the shipment makes a stop at Fort Riley, Kansas.

85

00:09:44,000 --> 00:09:49,000

And Lieutenant Colonel Phillip Corso gets the chance of a lifetime.

86

00:09:49,000 --> 00:09:54,000

He knew the guard that was taking care of that warehouse and found his way into the warehouse.

87

00:09:55,000 --> 00:09:59,000

What he sees forever alters his view of the world.

88

00:09:59,000 --> 00:10:04,000

He went to a corner of the warehouse where there were several boxes stacked up, crates.

89

00:10:05,000 --> 00:10:07,000

And this is what he describes.

90

00:10:07,000 --> 00:10:12,000

The creatures were enclosed within a one-piece protective covering, like a jumpsuit or outer skin.

91

00:10:12,000 --> 00:10:22,000

The creature's spacesuit or outer skin appeared to be stretched around it as if it was literally spun around the creature, providing a perfect skin-type protective fit.

92

00:10:23,000 --> 00:10:30,000

Corso claims the creature has only a slit for a mouth, more like a crease than something functional.

93

00:10:30,000 --> 00:10:35,000

What Corso describes is commonly known today as an alien gray.

94

00:10:35,000 --> 00:10:44,000

His job, his mission at that time was then to find a way to integrate the technology in that box into the mainstream of our technology.

95

00:10:44,000 --> 00:10:53,000

And he discovers something else, a routing manifest from Wright Field to the morgue at Walter Reed Army Hospital.

96

00:10:54,000 --> 00:11:03,000

Experts have long suspected that some aliens are visiting Earth wearing protective spacesuits.

97

00:11:03,000 --> 00:11:08,000

But recent eyewitness testimony reveals something more incredible.

98

00:11:10,000 --> 00:11:11,000

Unsealed case file.

99

00:11:12,000 --> 00:11:13,000

Washington, D.C.

100

00:11:14,000 --> 00:11:16,000

The Walter Reed Army Medical Center.

101

00:11:17,000 --> 00:11:25,000

Pathologists begin an autopsy on an alien body allegedly retrieved from the Roswell crash of July 4, 1947.

102

00:11:27,000 --> 00:11:38,000

The procedure reveals a series of mind-bending revelations about alien physiology and creates more questions than answers about how they may employ spacesuit technology.

103

00:11:39,000 --> 00:11:48,000

The pathologists believe the extraterrestrial biological entity, or EBE, was biologically engineered for long-term spaceflight.

104

00:11:49,000 --> 00:11:56,000

Many believe this proves that aliens have been scientifically enhanced to travel across time and space.

105

00:11:56,000 --> 00:12:02,000

The crashed spaceship and all the material from it, including the entities, were studied.

106

00:12:03,000 --> 00:12:10,000

And scientists tried to effectively say, well, can we acquire this technology for ourselves?

107

00:12:11,000 --> 00:12:17,000

The question is, are they biological aliens or just sophisticated spacesuits?

108

00:12:17,000 --> 00:12:26,000

We are not necessarily dealing with one species of extraterrestrials at one stage in their technological evolution.

109

00:12:26,000 --> 00:12:35,000

We may be visited by a number of different intelligences, and it stands to reason that they would have different designs for their own spacesuits.

110

00:12:36,000 --> 00:12:42,000

Scientists speculate that EBE's entire physiological system may have been designed.

111

00:12:43,000 --> 00:12:48,000

And as you watch the medical examiners cut into these bodies, you realize they are very human-like.

112

00:12:48,000 --> 00:12:58,000

They are very similar to how humans are in today's society, with two arms, two legs, a foot, two hands.

113

00:12:58,000 --> 00:13:07,000

The medical examiners looked into that, and you can see a lot of correlation between the human race and what potentially had evolved on an alien planet.

114

00:13:08,000 --> 00:13:11,000

Many of the autopsy findings leave scientists baffled.

115

00:13:12,000 --> 00:13:15,000

The technology is far beyond what we have here on Earth.

116

00:13:15,000 --> 00:13:21,000

Who or what is piloting the spacecraft, and how do they do it?

117

00:13:22,000 --> 00:13:30,000

And what do we need to do? We need to understand it. It's a basic fundamental to our human mind. We need to understand the unknown.

118

00:13:31,000 --> 00:13:35,000

Who is making these technologically advanced living spacesuits?

119

00:13:36,000 --> 00:13:44,000

Or is it possible that some aliens have evolved to travel a distance far greater than previously imagined?

120

00:13:46,000 --> 00:13:51,000

January 1964, Paris, France.

121

00:13:53,000 --> 00:14:03,000

Retired Army Command Sergeant Major Robert O. Dean is given NATO's highest top-secret clearance while stationed at the Supreme Headquarters' Operations Center.

122

00:14:04,000 --> 00:14:09,000

So Army Command Sergeant Major Robert O. Dean, in 1964, is given this document.

123

00:14:10,000 --> 00:14:16,000

And this document is written by just about every NATO representative that we have.

124

00:14:17,000 --> 00:14:22,000

And in it is disclosed a crash where 12 bodies were recovered.

125

00:14:23,000 --> 00:14:25,000

One particular case catches his attention.

126

00:14:26,000 --> 00:14:35,000

The case contains pictures detailing a 30-meter disc that crashed in Timmenstorfer, Germany, near the Baltic Sea in 1961.

127

00:14:37,000 --> 00:14:43,000

12 small alien bodies are recovered. But the description of the autopsy is what really gets Dean's attention.

128

00:14:44,000 --> 00:14:53,000

In this case it was reported that 12 near-identical entities were involved and were killed as a result of this crash.

129

00:14:53,000 --> 00:15:00,000

And when this craft was recovered, these entities were found with very, very small differences.

130

00:15:01,000 --> 00:15:10,000

It was almost as if this was a cookie-cutter design. And again, this is the first time really that the idea of clones enters the fray.

131

00:15:11,000 --> 00:15:15,000

Are some aliens mere shells or clones with an artificial consciousness?

132

00:15:16,000 --> 00:15:22,000

Could this be why many eyewitnesses report robotic and biological behaviors during close encounters?

133

00:15:24,000 --> 00:15:33,000

Evidence suggests that aliens may have a second skin or a space suit integrated with their entire bodies.

134

00:15:34,000 --> 00:15:38,000

But is this a product of evolution or scientific design?

135

00:15:39,000 --> 00:15:45,000

You know, we're talking about, you know, millimeters of skin, not a bulky, you know, four-inch suit.

136

00:15:46,000 --> 00:15:50,000

Then obviously the material they're using is highly advanced.

137

00:15:50,000 --> 00:16:01,000

The material itself may be nanotechnology-type material that can adapt or change its structure molecularly to insulate the being from the environment.

138

00:16:02,000 --> 00:16:08,000

Similar to countless reports of alien spacesuits, a biosuit form fits to the body.

139

00:16:09,000 --> 00:16:13,000

It uses coils made from nickel-titanium shape-memory alloys.

140

00:16:13,000 --> 00:16:28,000

These highly experimental metals can shrink when heated and expand when cooled, creating an active compression garment that applies pressure directly onto the skin instead of pressurizing gas in a suit.

141

00:16:29,000 --> 00:16:34,000

Scientists consider the biosuit a giant leap forward in mobility for astronauts.

142

00:16:34,000 --> 00:17:02,000

People have talked about the development of essentially a second skin, and there is indeed a Massachusetts Institute of Technology project, the so-called second skin space suit, to design something so lightweight but yet so strong that effectively the astronaut wouldn't even be aware that they were in a space suit at all.

143

00:17:02,000 --> 00:17:12,000

Is the space suit evolving to fit us? Or like aliens, will we evolve to fit the space suit?
